Chapter 1391: Han Fei, Spare None

Sea of Pearls.

This time, Xue Shenqi underestimated the sea demons' determination.

The army of a hundred thousand was all fearless. Above the sea, a sea of blood rose to the sky. Humans and sea demons didn't give in to each other and the battle was very cruel.

Someone's body was pierced in multiple places, and blood was spurting out of his mouth and nose. But this person still shouted ferociously, "How can you sea demons take my life? Die with me!"

Boom...

Someone cursed angrily, "Old Xu, you son of a b * tch, why did you leave in such a hurry? Wait, let's go together!"

An armorist who was penetrated by six spears pulled out two iron claws from his armor box and caught two Half-Mermen.

The two Half-Mermen panicked and desperately stabbed the man with their spears.

"Lunatic, get lost!"

"Ah! Explode, you son of a bi * ch..."

Boom...

On the Sea of Pearls, such scenes were not uncommon. In fact, there were many!

The number of sea demons was twice that of humans, but they were evenly matched.

After all, humans were smarter than sea demons in terms of intelligence. Of course, for some sea demons with high levels, their intelligence was not inferior to humans. However, in a big battle, the sea demons with the most numbers were the mid to low-level ones. They accounted for the majority. Therefore, the intelligence of humans was generally higher than that of sea demons.

Booms of self-explosions were heard from time to time on the surface of the sea, and those who made such explosions were all human beings. These human beings tried to drag a few sea demons to die with them before they died, which was really heroic!

Xue Shenqi was expressionless. He had to keep expressionless.

On the human side, the battle looked fierce, but their combat power was not weak. The two sides were evenly matched.

No matter how much his heart ached, he was still a commander who had to think of the interests of the whole.

As early as many years ago, he had barely smiled. At this moment, his cold and serious face seemed to be painted by the lives of countless people.

In his opinion, even if all these people were killed in the battle at the Sea of Pearls, the Scattered Stars Island couldn't be affected. Perhaps the enemy was waiting for him to mobilize the power of the Scattered Stars Island.

Ning Jing was still eating skewers, curious about the battle in the Yin-Yang World.

However, when Ning Jing saw such a tragic scene, she couldn't help clenching her fists.

She saw that some people had lost their legs and were still controlling their fishing boats to fight.

Someone's shoulder blade was pierced by two spears. He actually burned his blood and used his body as a saber to rush in front of the enemy, bite the sea demon's neck, and self-destruct.

She saw someone's intestines flying all the way, but he shouted, "The human race is invincible! For the sake of our people, let's fight out!"

She saw a five-person team being besieged by more than 20 sea demons. The five of them were talking and laughing and said, "What a pity. We should have a good drink before the war..."

Such a scene could be seen in the Water-Wood World, but it wouldn't be so dreadful. This was because the Water-Wood World had the insect race, the Fearless Barrier, the Wall of Flame, and the Ice City Wall.

In terms of strength, there were many strong masters in the Water-Wood World. In terms of numbers, the insect army was terrifying.

However, how could these races compare to the human race in terms of emotions and eloquence?

Of course, the Water-Wood World also had a bone jar icy plain, where countless strong masters had died. However, the people in the Yin-Yang World didn't care about their lives at all.

Self-explosion! With such a light explosion, even their souls exploded and dissipated in the world.

However, these people were talking and laughing and blew themselves up so easily?

"Phew ~"

Ning Jing's eyes turned slightly red, and she clenched her fists.

The queen didn't allow her to do anything rashly here, but these sea demons were too abominable. Their number was twice that of the human race. In her opinion, if they continued to fight, even if the human race won, there would be less than 10% of them left.

Ning Jing couldn't help but ask via voice transmission, "There are still many soldiers on the island. Why do you only make these people fight?"

Hearing the unfamiliar voice, Xue Shenqi immediately thought of the strong master behind Han Fei.

He said, "War is about the interests of the whole. You should be able to tell that the people who came with me today are all old and have no families."

Ning Jing said angrily, "So they deserve to die?! What kind of logic do you have?"

Xue Shenqi's expression didn't change. "The survival of the human race comes from killing. Without sacrifices, how can there be peace? How can there be strong masters? How can there be... hope?"

Ning Jing: "..."

Ning Jing couldn't influence Xue Shenqi's thinking.

She had long discovered that although Xue Shenqi's realm was not the highest and his strength was not the strongest, he had the biggest say on the Scattered Stars Island. With a word, millions of people would follow him.

In just half an hour, at least 50,000 people had died on the Sea of Pearls. This was only the result of this round of battles!

Although it seemed that fewer human beings died than sea demons, the victory was too cruel.

Ning Jing wondered if she should take action.

Here, no one was her opponent, including those Venerables. She could easily kill them. However, the queen had specifically told her not to intervene unless Han Fei was in a life-or-death situation.

But Ning Jing thought, I have the ability to save them. If I don't, this matter will become a demon in my heart!

Hum...

Just as Ning Jing was hesitating, she saw the void shake and a figure appear out of thin air. Even Ning Jing didn't know where this person came from.

However, when she took a closer look, she found that it was Han Fei.

...

In front of Han Fei, the scene was chaotic, and the battle was fierce.

Without him using his perception, hundreds of perceptions swept over in an instant, including many Venerable-level perceptions.

Han Fei immediately met a group of old acquaintances. Xue Shenqi was supervising the battle and looking over. In the void, there were energy fluctuations. It should be the Venerables fighting each other.

Most of the great demons and human explorers, except for a few who were directing the battle, were fighting in the void.

Han Fei spread out his perception and found that there were many broken Spiritual Energy Clams on this battlefield...

"Is this... the Sea of Pearls?"

Han Fei was stunned. Shouldn't I be in the Cloud Whale's Sea Establishment Space? Why am I in the Sea of Pearls?

Fortunately, Han Fei soon calmed down. He took a breath. F*ck, could the Cloud Whale's Sea Establishment Space be the Sea of Pearls?

The old turtle was a little stunned. "Did... did that big fish integrate its Sea Establishment Space into the real world? It doesn't make sense! There are still some resources for resurrection in the Sea Establishment space. However, if it integrates into reality, its Sea Establishment world will definitely be occupied by various creatures, and there's no chance for it to resurrect!"

The old turtle didn't mean to look down upon the king. After all, it wasn't easy to die after reaching the Sea Establishment Realm. There were always various means to survive.

Even if it couldn't survive, it could at least leave some means of resurrection for itself. Regardless of whether these means were useful or not, at least they were there.

However, that big fish actually brought his Sea Establishment World into reality? If the two were fused, there was no chance for it to resurrect!

Not only Han Fei and the old turtle, but Xue Shenqi and many other Venerables were also dumbfounded. Where the hell did Han Fei pop up from? Out of nowhere? No premonition at all?

Ning Jing, who was watching the battle from afar, thought to herself, Isn't he on the island? Is there a mysterious passage under the waterfall?

Xue Shenqi knew very well that Han Fei went to the Emyrean Waterfall. He was here probably because there was a channel connecting the Emyrean Waterfall to the Sea of Pearls... Otherwise, it didn't make sense that no one noticed Han Fei's sudden appearance...

Xue Shenqi shouted in a low voice, "Han Fei, listen to my command."

Han Fei naturally perceived the cruel battlefield here. Hearing that Xue Shenqi's voice seemed to be extremely cold, he immediately shouted, "Yes!"

Xue Shenqi said, "Kill all the other party's Dao Seeking powerhouses. Leave no one alive."

Xue Shenqi was delighted by Han Fei's appearance. Although Han Fei was an Explorer, he had the combat power of a Venerable. It could be said that no one in the other party's Dao Seeking realm could resist Han Fei.

Although he didn't know how Han Fei appeared, it was a good thing that he appeared. Otherwise, Xue Shenqi felt that he might personally take action and activate that weapon...

Han Fei didn't care why he appeared here. At this moment, there was a big battle in the Sea of Pearls, and the lives of human beings were at risk.

Hearing Xue Shenqi's urgent and unhesitating tone, he knew that Xue Shenqi couldn't wait any longer.

Han Fei shouted, "Okay!"

Blue Feather was a little frightened. "This is... Han Fei, right? After a few years, the first time we met, he was only a Hidden Fisher, but his current strength is that of a peak-level Explorer?"

Blue Feather shouted, "Blood Valley Five Restrictions, attack."

Puff, puff, puff!

In the void, five figures appeared in a row.

Blue Feather sneered. "Xue Shenqi, surprised? I knew you might have some hidden means, but I didn't expect you to only hide a brat. Although you used some method to forcibly increase his strength, do you think a peak-level Explorer can do anything on this battlefield? Do you really think our Blood Sea Valley has never had a strong master all these years? How dare you use a peak-level Explorer as a trump card? The combined power of the Blood Valley Five Restrictions is half of a Venerable's power. I'd like to see how Han Fei can resist them!"

Blue Feather sneered, and Han Fei glanced at the five people, who turned out to be five Red Demons. Among them, there was an old acquaintance of his, Chixue Huan, one of the former Eight Wings of Blue Feather.

Although Chixue Huan was already a peak-level Sea Spirit, when he left, he didn't transcend the tribulation. Now it seemed that he had reached the mid-level of the Dao Seeking realm and his strength had increased a lot.

These five people were all Red Demons. Among them, Chixue Huan was the weakest, whose strength was only at the intermediate Dao Seeking realm. The strongest was a six-armed Red Demon holding six scimitars, whose strength was at the peak of the Dao Seeking realm.

The other three were all in the advanced Dao Seeking realm.

White light descended from the five of them at the same time, and a secret method was activated.

Not only that, the five of them somehow summoned a huge scorpion Companion Spirit together.

The old turtle said, "It's a combination technique. These five people feed on each other's blood and cultivate a forbidden technique.. What they summon should be an ancient creature, but it might not be real."

Chapter 1392: Blood Valley Five Restrictions

Han Fei had no time to waste. When he saw the Blood Valley Five Restrictions, he thought to himself, Even the Eight Feathers of Blue Feather are gone. What's the use of the Blood Valley Five Restrictions?

Fine, he might as well solve them all at once!

Shua!

Han Fei disappeared with a swish.

The speed was so fast that Blue Feather didn't even notice how Han Fei disappeared. When Han Fei appeared again, he was no longer a figure, but a touch of overwhelming sword light.

"Shit! this is the Venerable-level strength!"

Blue Feather shouted. His first reaction was that Han Fei deceived him.

However, it was already too late.

In midair, ice and snow appeared.

Above the vast sea, water vapor drifted, and in an instant, ice particles filled the sky.

At this moment, Han Fei could finally carry out part of the power of the Sea Quelling Bizarre Treasure. The power of his sword shocked all the creatures within thousands of kilometers.

The gigantic scorpion that was more than 300 meters long was hit hard by Han Fei the moment it appeared. Its carapace was ablaze.

However, in the blink of an eye, the fire dissipated, and its huge body was instantly covered in ice and snow.

Ka ka ka ~

The giant scorpion's body was cracking, and the so-called Blood Valley Five Restrictions were horrified.

Han Fei was slightly surprised. What a hard shell!

Information popped up in Han Fei's eyes.

< Name > Ancient Demon Scorpion (projected)

< Introduction > One of the overlords of the shallow sea in ancient times, a gregarious creature. A Demon Scorpion leader is nourished by the essence of water and fire and produces a White Crystal Demonic Armor. Its defense is astonishing and has a tail that can devour souls and attacks fast and powerfully, which is not something ordinary people can resist.

< Level > 79

< Quality > Ancient Beast

< Spiritual Energy > 2,00156

< Realm > Sea Demon

< Battle Technique > Devil Hook Soul Eater

<Absorbable>

< Remarks > The projection of an ancient creature will weaken with time.

To be honest, Han Fei was quite surprised. This giant scorpion didn't seem to be weak. However, its speed seemed to be a little slow. He had already slashed out, and its head was already full of cracks and covered in snow, but its tail had just stabbed at him.

Buzz!

Han Fei ignored the long hook. This creature was dying and didn't even have a real body. He didn't want to waste any time on this scorpion...

With the Star Teleportation Technique, Han Fei passed the Ancient Demon Scorpion.

Among the Blood Valley Five Restrictions, Chixue Huan shouted, "Impossible, how can you become so strong?"

Among them, the Inferior Man-Fish who was at the peak of the Dao Seeking realm held the golden harpoon and pointed at the air, and a huge energy ball fell from the sky.

"God Scaring Stab."

Han Fei had already taken the Embroidery Needle in his hand. He pointed at the air, and the terrifying and domineering soul power instantly attacked the soul of a Red Demon.

With a crack, as if something had cracked, multiple cracks appeared on the Red Demon's head, and its breath stagnated.

"Instant Mystic Spear."

Boom... Boom...

The Red Demon's attack failed. He thought that it shouldn't be a problem for him, a peak-level Dao Seeking powerhouse, to hold back Han Fei...

However, how could he have thought that in the same realm, the difference in strength would sometimes be an insurmountable chasm?

This Red Demon only launched one attack. He was even looking forward to Han Fei's counterattack. But at the next moment, a hole was left in his violent attack.

After that, there was no more.

Among the Blood Valley Five Restrictions, someone roared, "Not good! Master Blue Feather, please attack quickly."

Chixue Huan had already retreated. Seeing this scene, he felt a chill down his spine. This power, is this really Han Fei?

Blue Feather shouted, "Han Fei, how dare you pretend to be weak? Go to hell!"

Blue Feather stepped on a Three-Headed Shark, spewed out green light beams, and arrived in front of Han Fei in an instant.

Han Fei casually threw out a punch, and the Sacrificing Punch was extremely powerful. The moment the attacks collided, it shattered the so-called strike of a Venerable.

Xue Shenqi was already standing at a low altitude. He raised his hand and blocked all the aftershocks. At this time, no matter how fiercely Han Fei fought, it wouldn't pose any threat to the people on the sea.

On the sea, someone exclaimed, "Oh my god, is that... Han Fei? Han Fei fought a Venerable? Is the rumor true?"

"Meow, meow, meow..."

In the distance, the shadow of a big cat was running in the sky, and Big Yellow shouted excitedly, "Han Fei, you're back!"

"Boom, Boom, Boom..."

The sound of heavenly music echoed on the sea.

The soundwaves vibrated, the sea waves surged, and the sound was like a sea beast. In an instant, it distorted a peak-level Sea Spirit and made him explode.

Jiuyin Ling looked at where Han Fei was but didn't come over. The battle in the sea was too fierce, and a strong master like her was besieged by many sea demons.

She turned around and clasped her hand. "Seal! Mystic Sound Kill..."

He Xiaoyu was not included in the list of candidates for this battle. She had asked to join the battle herself. When she came, she knew that this battle would be extremely difficult.

In fact, this battle was indeed rare!

The members of the team she led got separated.

At this moment, He Xiaoyu was fighting five enemies alone, surrounded by rings of fire, twisting her body in strange postures from time to time, narrowly dodging the attacks one after another.

He Xiaoyu held her rod and attacked from time to time, speeding up the attack. At this point, more than ten sea demons had died in her hands.

While He Xiaoyu was fighting, she heard Blue Feather's voice echoing in the sky. In the distance, the sword light in the sky seemed to be greeting her.

"Captain, watch out!" Not far away, a cry sounded.

He Xiaoyu was stunned. A sharp blade from a Gyro Crab whipped out, and she was blown away.

However, fortunately, He Xiaoyu's physique was extraordinary. The moment she was kicked out, she quickly hid and charged out again holding double daggers.

At this moment, He Xiaoyu saw Han Fei too. However, Han Fei had his battlefield, and she had hers, so she should perform her duty well!

Han Fei pushed Blue Feather back with a punch, and his body seemed to be teleporting. He flashed and appeared hundreds of kilometers away, so fast that even the big demon at the Dao Seeking realm couldn't react in time.

Being forced back by Han Fei with one blow, Blue Feather didn't have the time to change his move, but Han Fei was reaping the sea demons' lives again. He could only watch helplessly.

Bang!

“Pfft!”

...

As for the so-called Blood Valley Five Restrictions, except for the peak-level Dao Seeking powerhouse who was killed by Han Fei with his spear, Han Fei killed the rest of them respectively with his fist, knife, and stick.

In the end, when there was only Chixue Huan left, Han Fei had already shot out the Void Lines.

Although Chixue Huan seemed to have a soul treasure to protect his soul, what was Han Fei's current strength? A mere soul treasure wasn't especially powerful. How could it stop Han Fei?

Chixue Huan's body suddenly stiffened. Han Fei used the Near at Hand Technique and appeared next to Chixue Huan. At this moment, Han Fei had no time to use the Soul Searching Technique, but he could use the Void Lines to see the information in Chixue Huan's mind.

Pictures flashed in Han Fei's mind. Outside the Ten Thousand Demon Valley, between the Ten Thousand Demon Valley and the Royal City, there was an underground crack.

Then there was a picture of a Venerable, who was drenched in blood, crawling out of that crack.

In addition, around the crack, there seemed to be three sea demon Venerables sitting cross-legged. In the crack, there was a touch of energy, which seemed to be trying to make the crack bigger.

“I see.”

Han Fei sneered. A place similar to a teleportation array. Sure enough, as expected, there was also a royal city here in the Yin-Yang World, but the royal city was limited by certain power and couldn't come directly.

There was no telling what methods Blue Feather used, but he just opened a gap between the Ten Thousand Demon Valley and the Royal City so that people could pass through it.

Han Fei wasn't sure how many strong masters there were in the Ten Thousand Demon Valley. However, no matter what, he couldn't let all the strong masters in the Sea Demon Royal City crawl over from that crack. Otherwise, the consequences would be serious!

Han Fei read Chixue Huan's memories and sensed the soul's struggle.

Han Fei said in his heart, “Oh! Right, I forgot to tell you something. Back then! I also stayed in the Ten Thousand Demon Valley... At that time... I changed my name to Yu Fei.”

Puff, puff, puff!

Chixue Huan's seven orifices were bleeding. He seemed to be infuriated by Han Fei.

However, before Han Fei showed off enough, he immediately felt the void trembled. At least two of the void cracks appeared, and Blue Feather and another Venerable attacked him at the same time.

“Humph! Two Venerables attacking me? I'm flattered!”

Han Fei was about to attack when Xue Shenqi blocked in front of him.

Xue Shenqi said, "I've fought Blue Feather too many times. Try and see if you can kill him."

With that said, Xue Shenqi tore through the air and slapped at a large hand that extended from the void.

Seeing Blue Feather thrusting a shining harpoon at him, Han Fei issued an order in his heart, and Chixue Huan exploded.

"Huff!"

The terrifying power of Chixue Huan's self-destruction was swallowed by Han Fei. At the same time, the Infinity Water entangled him, and a large scimitar array appeared beside Han Fei.

Chi la!

Han Fei opened the void and cursed, "Blue Feather, you old turtle, you wanted to kill me before? Today, I'll cut you into ten pieces."

"Hmph!"

Blue Feather also tore open the void, not giving Han Fei a chance to leave.

In Blue Feather's opinion, although things were beyond his expectations, Han Fei hadn't reached the Venerable realm yet! Since he hadn't, he was definitely not a match for him.

Besides, no matter what, he couldn't let Han Fei stay to confront him. Han Fei's growth speed seemed to be extremely fast! Compared to Xue Shenqi, although he didn't know this kid well, he was definitely not easy to deal with.

As the commander, Xue Shenqi had many concerns, but Han Fei was different.

Blue Feather hadn't fought Han Fei before, so he didn't know what Han Fei was capable of, but now he had a chance to take Han Fei away.

Therefore, although Xue Shenqi's trump card killed the Blood Valley Five Restrictions, it didn't really affect the battle.

When Han Fei tore open the void, the Venerables didn't think that Han Fei could defeat Blue Feather. Having controlled the Ten Thousand Demon Valley for so many years, how could Blue Feather be weak?

Only Ning Jing shook her head slightly at the moment when Han Fei tore open the void and was wrapped in darkness.. "I'm afraid Blue Feather won't survive."

Chapter 1393: The End of An Era

Although Ning Jing hadn't been with Han Fei for long, she basically knew what Han Fei did in the Water-Wood World.

It could be said that on the first day Han Fei came to the Water-Wood World, he had already started to cause trouble.

Then, how many times had she played along with Han Fei?

Ever since Han Fei came to the Water-Wood World, he had been causing troubles. This guy alone caused a great uproar in the White Shell Royal City.

It turned out that Han Fei didn't intend to fight for three hundred rounds.

In the void, Han Fei held the Embroidery Needle and grinned. "Old bastard Blue Feather, do you regret not killing me back then? Today, let's see what you've got!"

Blue Feather snorted coldly. "Human brat, no matter how talented you are, to cross three realms in just ten years, I don't believe your foundation is stable."

Clatter ~

Blue Feather turned his harpoon, and a water giant rose from under him.

However, unlike the water control law of ordinary sea demons, Han Fei discovered that this water giant was somewhat similar to his invincible will.

Neither of them talked much.

Blue Feather wanted to test Han Fei's strength. The water man held a huge harpoon and pointed it forward, and the tip of the harpoon was as bright as starlight, producing sparks in the void.

A cunning gleam flashed in Han Fei's eyes. His body suddenly inflated, his muscles bulged, and terrifying energy gathered on his rod, intending to blow it through with all his strength.

Seeing this scene, Blue Feather's pupils were constricted. Before the rod shadow arrived, the void had already trembled.

Bang!

The ripples stacked up and vibrated crazily.

Blue Feather was knocked back hundreds of meters, so was Han Fei. However, at the moment he landed, Han Fei waved his hand slightly into his sleeve, and spiritual energy surged out of his body, hiding a touch of blood color.

Blue Feather sneered in his heart, thinking, Although Han Fei is extraordinary and his strength has completely entered the Venerable realm, his realm is still low. He was injured after taking my full-strength blow. Do you think I didn't see it?

Therefore, Blue Feather concluded in his heart, Although Han Fei is strong, he is not strong enough to kill a Venerable.

Besides, judging from the attack just now, Han Fei's attack didn't contain any Great Daos. In other words, the reason why Han Fei was so strong was completely because of his strength.

But even if his strength was strong, it was enough to explain many things.

This meant that Han Fei's physique had reached the Venerable realm. Otherwise, how could he exert the power of a Venerable? And this power seemed to even exceed his.

Blue Feather sneered. "Han Fei, strength is just strength. You don't understand what a real Great Dao is at all."

As he spoke, the three-headed shark under Blue Feather bared its teeth and roared. Its body twisted into a water shape and stretched out as if it had become a giant serpent.

Blue Feather pointed the harpoon in his hand, and a storm of blue arrows poured out.

The water man roared, clenched his harpoon, raised it high in the sky, and smashed it down.

"Bullshit!"

Seeing Blue Feather's three combos that seemed fierce, Han Fei said casually, "Bullshit!"

Han Fei thought to himself, It's true that I haven't grasped a Great Dao yet! But where is your Great Dao? Are you telling me this water man or the Water Control Technique is your Great Dao?

The old turtle also said, "This little demon feels too good of himself. All Great Daos lead to the same destination. However, he's too naive to talk about Great Daos as soon as he becomes a Venerable."

"Ten Thousand Knives in One."

Han Fei grinned. Since you have the Blue Sea Arrow Stream, I'll show you my Infinity Water. Let's see whether my Infinity Water's Peak Strike or your rain of arrow is more powerful.

With an Indestructible Golden Body, Han Fei didn't care about the terrifying halberd that fell from the sky at all. He just held the sword in both hands and poured a tremendous amount of spiritual energy into it. The sword light spewed out hundreds of meters like a river of stars.

"The Draw."

"Roar!"

Rumble...

With a puff, Blue Feather vomited blood, and the giant water man and the giant halberd were shattered by Han Fei's sword.

And the Draw Technique almost broke the ultra-quality Divine weapon in his hand. The force was so great that he was sent flying hundreds of kilometers away.

Blue Feather admitted that Han Fei was very strong. At least, his strength was unparalleled in his realm. It was hard to imagine how terrifying his strength would be if Han Fei broke through to the Venerable realm.

It was said that someone had become a king when he was still young. Perhaps Han Fei had such potential!

At this moment, the water giant collapsed, and Han Fei's knife light condensed from the Infinity Water was equally terrifying. At this moment, it was like a sharp blade, about to pierce Blue Feather.

Clank ~

Blue Feather put his hands together and blocked with his harpoon.

A hundred meters around him suddenly became a ball. The terrifying impact directly blasted out a ball of light in the air beside him.

Blue Rain was a little frightened. However, he still didn't believe that Han Fei could beat him.

Although his hands and nose were bleeding, he shouted, "Han Fei, you brat, do you think my Dao is so easy to crush?"

"Roar... Dragon Swallowing Soul."

The three-headed shark that was gradually turning into a giant python suddenly dissolved, turned into three giant mouths, and pounced at Han Fei.

Information popped up in Han Fei's eyes.

< Name > Three-Headed Dragon Whale (Mutated)

< Introduction > A mutated Three-Headed Dragon Whale. This creature was originally a companion creature, but because it was swallowed and possessed by the host, it became one with the host, becoming an avatar of the host, and even derived a Great Dao. There is a world in the Dragon Whale's body, which hides a soul storm. Those whose soul is not firm and whose Dao heart is not firm are easily affected by it.

< Level > 80

< Quality >???

< Contained Spiritual Energy > 354,413

< Edible Effect > Inedible

< Collectable > None

<Absorbable>

< Remarks > A weird deformed creature. This creature has been swallowed by the host.

When he saw this information, Han Fei felt that these strong masters were simply too abnormal. In order to become stronger, they could do everything possible! They even swallowed their Companion Spirits! How could they do that?

Oh, no, sea monsters were not humans in the first place. He couldn't judge them by humans' standards.

Although it was said that sea demons transformed from humans, they were no longer humans. Later, after countless generations, it was said that the Sea King transformed into the Heavenly Dao and all sea creatures could take human shapes. But perhaps the sea demons had lost their human bloodline.

Blue Feather's methods were abnormal, but Han Fei didn't doubt his strength.

However, Han Fei didn't think that this avatar of Blue Feather could really beat him, even if this avatar was his Great Dao...

“Roar...”

Seeing the three mouths swallow the entire space where Han Fei was, the other Venerables were a little frightened.

Even Xue Shenqi felt his heart skip a beat. He had fought Blue Feather many times, but he had never seen the Three-Headed Shark under Blue Feather with such an ability.

“Hahaha! Blue Feather, I didn’t expect you to have some trump cards. If the Three-Headed Shark hadn’t mutated today, we would have thought that it was just an ordinary shark.”

A sea demon Venerable laughed.

The man observed the battle while fighting Chu Qing. However, although the battle between the two seemed fierce, it was actually perfunctory. There wasn’t even a wound on the two intermediate Venerables’ bodies.

On the other side, there was also a sea demon Venerable who was fighting two alone. As an intermediate Venerable, he had completely taken the upper hand of Yang Kun and Ye Kai.

And Sun Baisheng and a junior sea demon Venerable seemed to be locked in a pitched battle, and even their flesh and blood were blurred. However, they didn’t suffer any fatal injuries.

Xue Shenqi was the one fighting most fiercely.

His broad-bladed saber floated in front of him. Any random slash could create tens of thousands of saber shadows. The saber intent soared to the sky and stretched for a hundred kilometers.

However, at the first clash, Xue Shenqi actually exchanged injuries with his opponent.

With a single slash, Xue Shenqi’s body was cut in half, and his lower body exploded. As for the other party, he was only a junior Venerable and his body directly exploded.

Half of his body exploded, but Xue Shenqi didn’t even groan. With a flip of his hand, energy returned and his body condensed again. And his opponent was also condensing his body.

At this moment, Han Fei was swallowed, which attracted his attention.

As soon as Han Fei was swallowed, he sensed a sticky sucking power that seemed to be trying to invade his soul.

Han Fei tried to summon the Infinity Water back. However, this space severed the connection between him and the Infinity Water.

When Han Fei was about to activate the Twin Divine Technique, Blue Feather shouted, “Once you enter my mouth, you won’t be able to survive. No matter how capable you are, you’ll still die.”

“Chi la ~”

Blue Feather took the opportunity to tear open the void and shouted, “Attack!”

Buzz—

At that moment, in the Twisted Jungle, the ancient battlefield, and other places, Sea Demon Venerables suddenly arrived.

Furthermore, two Venerables had appeared on the ancient battlefield, forcing Patriarch Six Swords to go to the sea.

Behind Elder Bingyun was the Scattered Stars Island. When the Sea Demon Venerable's aura arrived, she looked in the direction of the Sea of Pearls and thought to herself, The battle of Venerables must not erupt on the Scattered Stars Island. Now that the opponent has come, I have to kill him!

At that moment, all directions trembled.

The sea demons still had something up their sleeve!

Everybody was shocked. Was their target not the Sea of Pearls but actually the Scattered Stars Island?

In Xue Shenqi's mind, Han Fei's urgent voice sounded, "Were we lured away from the Scattered Stars Island?"

Hearing that it was Han Fei, Xue Shenqi responded, "Don't worry."

Han Fei knew that Xue Shenqi was reliable, and he was truly reassured after Xue Shenqi assured him.

Blue Feather, on the other hand, quickly shrank the Three-Headed Dragon Whale into a Three-Headed Shark.

In Blue Feather's view, Han Fei would definitely die. The problem was just how long he could survive.

"Huh?"

Suddenly, Blue Feather felt that something was wrong. Why were there a few drops of water on him?

Sensing it again, he found that something seemed to have invaded his demonic heritage.

He immediately looked inside.

At this moment, Blue Feather's soul suddenly trembled, and horror seemed to be descending from behind.

Xue Shenqi tried to activate his Great Dao when a voice exploded in his ears, "Laws are forbidden in this space."

"Roar!"

A hundred beasts were rampaging in the void. Han Fei suddenly appeared, holding the Embroidery Needle, stabbing at the sky, and shouted, "Knock on the Heavenly Gate."

BAM!

A layer of scales cocked up on Blue Feather's body, and a big hole was left on his back. He was sent flying into the sky.

Below, many sea demons, sea spirits, Hidden Fishers, and law enforcers were all dumbfounded. What... the hell is going on?

Blue Feather tried to condense his power, but his power collapsed in an instant, which was useless in this space.

Han Fei grinned. "Explode."

Rumble!

The Infinity Water exploded in Blue Feather's body. In an instant, Blue Feather was blown to pieces.

Han Fei shouted in his heart, "Old turtle, help me. Kill him."

"Phew ~"

Swoosh ~

Han Fei opened his mouth and sucked in half of the terrifying force.

At the same time, a mass of black fog descended, covering half of the sky.

Not to mention that Han Fei had already sealed this place. Even if this place was intact, the old turtle probably wouldn't give the other party a chance to survive.

Crack!

Thunder suddenly rumbled in the sky, and a red crack spanned thousands of kilometers in the sky. In an instant, a rain of blood poured.

Blue Feather had died!

An era had come to an end...

Chapter 1394: The War Is Over

During the battle in the Sea of Pearls.

On the Scattered Stars Island, at the deep lake under the Emyrean Waterfall, two men stood quietly on a large rock.

One of them had a harpoon mark between his eyebrows. He was a sea demon at the peak of the Venerable realm.

The other person was holding a fan in his hand and fishing with a fishing pole in the other. He looked gentle, and it was none other than Han Guanshu. However, at this moment, the two of them didn't reveal their cultivation levels. They were like two passers-by watching the water by the rock.

The sea demon Venerable said, "Oh! I underestimated the current human race. With a strong master like you, it's no wonder that this island with only a few million people dares to challenge our sea demon army."

Han Guanshu smiled and said, "The sea demons are cruel and shameless and anyone has the right to execute you. If the human race is united, we can naturally defeat you."

The Sea Demon Venerable sneered. "You and I should know that at this level, strength talks. Is the significance of race so great?"

Han Guanshu said, "It's very meaningful. At this moment, you sent so many people away. Are you going to take action?"

The Sea Demon Venerable looked at Han Guanshu deeply for a long time and finally said, "We Sea Clan will not let go of the corpse of the Deep Sea Giant Demon. Give it to us, and your human race will be able to survive for another thousand years. But if you don't, we'll fight you sooner or later."

Han Guanshu smiled and said, "Let's fight then! Don't talk nonsense about being safe for another thousand years. It remains to be seen who will win this battle."

Boom!

Thunder rumbled in the sky, a Venerable died, and a rain of blood fell.

Splash!

Han Guanshu retracted his fishing rod, which had a Red Blood Butterfly Fish hanging on it. He said, "Look, I told you it remains to be seen who will win this battle, right?"

"Humph..."

...

Sea of Pearls.

"What happened?"

All of a sudden, many sea demon Venerables were shocked. How did Han Fei come out?

In the eyes of everyone, Han Fei had already been swallowed by Blue Feather's Three-Headed Dragon Whale. Although they didn't know the power of Blue Feather's Great Dao very well, at the moment the Three-Headed Dragon Whale pounced on him, it didn't give Han Fei a chance to react.

Even if Han Fei could come out, he would at least be in a mess. However, Han Fei appeared out of nowhere and killed Blue Feather right in front of their eyes.

"A space sealing technique? This kid has comprehended the Great Dao of Space."

Blue Feather had died. How could they not understand?

However, what surprised them more was that Han Fei was only a peak-level Explorer. Even if he had a Great Dao, how could he seal a true Venerable?

As for Chu Qing and the others, they were horrified. Only a few days had passed, but Han Fei had killed another Venerable? Even if the other party was a junior Venerable, he wasn't easy to deal with!

Even Chu Qing and Ye Kai, as intermediate Venerables, didn't dare to say that they could kill Blue Feather. This was because, in the Venerable realm, everyone had their own means. If they could use these means, the chances of being killed were slim.

But Han Fei could seal the sky and lock down the earth, making it impossible for anyone to use his means. This greatly increased the probability of death. If they were ambushed by Han Fei, the consequences could be imagined...

At this moment, Han Fei was standing proudly in the sky, his body glowing with golden light, and his invincible will condensed into a giant and shouted, "Sea demons are like cholera in the sea. The Sea Demon Venerable, Blue Feather had once led Eight Wings of Blue Feather to commit crimes, scourge the human race for many years, and plot against the immortal foundation of our human race. I, Han Fei, kill him today to avenge the human race."

Han Fei's voice echoed in the sky, resounding far away.

Xue Shenqi's face finally relaxed. He had only wanted Han Fei to have a try, but he didn't expect Han Fei to kill Blue Feather so quickly.

On the sea, the tens of thousands of human soldiers felt their blood boiling after hearing Han Fei's announcement.

"Roar! Han Fei is awesome! Do you see that, little fish? Our human powerhouse has executed a Venerable of you. Doomsday has come for you."

"Kill!"

"How can sea demons be a match for our immortal human race?"

A girl shouted, "Han Fei, I want to date you."

A boy shouted at the sky, "Captain Han, the scout team is proud of you."

Jiuyin Ling looked up with admiration and mumbled, "So, this is the man I love?"

While the enemy was distracted, He Xiaoyu pierced the heart of a Half-Mermaid with her dagger. Then she looked at the sky, excited. "He has killed a Venerable again!"

He Xiaoyu had no idea what a Venerable meant at all.

However, looking at the rain of blood and the terrifying sound of Blue Feather being blasted into the sky, he knew that a Venerable was not something that the Hidden Fishers and Law Enforcers could resist.

Granny Yin shouted, "Stupid cat, come back."

"Meow!"

Big Yellow was also dumbfounded.

A Venerable had died just like that? Had Han Fei become so terrifying?

Han Fei scanned with his perception and found that the morale of the human soldiers was greatly boosted.

Morale was the most important in war.

When the human soldiers saw this scene, their morale was soaring. Han Fei stepped out and shouted, "Our human race has never been afraid of fighting. Today, more than a hundred thousand sea demons have invaded the human race's territory. They must be executed!"

Shua!

Seeing Han Fei stride out of the void, a great demon at the Dao Seeking realm who wasn't fighting in the void was extremely horrified and immediately tried to escape with blood.

However, why would Han Fei give him this chance?

Bang!

A Sacrificing Punch was pushed out horizontally, and the heavy fist light a hundred meters thick swept hundreds of kilometers, leaving a fiery mark in the sky.

As for the Dao Seeking realm demon, he had been reduced to dust by this punch.

Shua! Shua!

Han Fei moved hundreds of kilometers with each step. Tens of thousands of knives shot out like dragons, attacking all the enemies within thousands of kilometers. Silver sword beams dazzled into the sky, cutting off the sea demons' lives.

Han Fei had killed five Dao Seeking realm demons in only five seconds.

Han Fei was really too fast. These Dao Seeking demons didn't even have a chance to dodge before they were killed by his knife.

"Roar!"

Suddenly, the sky cracked, and the Venerable who was fighting Sun Baisheng shouted in a low voice, "A*shole, how dare you attack an ordinary Dao Seeking cultivator as a Venerable?"

As he spoke, the man stabbed at a human explorer with his harpoon as if warning Han Fei.

Liu Lang, a junior Explorer, was commanding the battlefield when he suddenly felt a death crisis. He looked up, only to see a silver light stabbing at him.

He couldn't retreat. Once he retreated, this terrifying blow would kill at least hundreds of people.

At that time, Liu Lang only had one thought.

"Son of a b * tch, I'm doomed."

Buzz!

Suddenly, the void distorted, and a figure suddenly appeared 100 meters in front of him. It was Han Fei!

Han Fei extended a hand and grabbed the dazzling light.

As Han Fei turned his hand in the air, the terrifying blow was easily crushed.

Han Fei's eyes were cold. "Fish shit! I'm just an Explorer. So what if I attack an Explorer? But you, a Venerable, attacked a human Explorer? Who gave you the courage?"

The man shouted in a low voice, "Humph! Last time, it was you humans who broke the rules. And who broke the rules first today again? Do you need me to tell you? Since you've already shed the pretenses, save the lame excuses. You want to compete with the Sea Clan in terms of numbers? All Dao Seeking cultivators, listen to my command and attack any human you see."

The Sea Demon Venerable pushed out with one hand, and a long-distance teleportation array suddenly appeared in midair.

Xue Shenqi shouted, "Sun Baisheng, what are you doing?"

In the blink of an eye, the teleportation array of the Sea Demon Venerable had been activated.

It was not until this moment that Sun Baisheng finally arrived. He shouted, "This demon is so strong that I can't beat him."

"Knock on the Heavenly Gate."

Han Fei held the Embroidery Needle in his hand, pushed it horizontally, and smashed it at the Sea Demon Venerable.

Shua!

Before Han Fei's figure appeared, he suddenly heard the sound of music.

In the camp of the Empyrean Waterfall, someone suddenly exclaimed, "F*ck! Isn't that Xiao Jiu's Heavenly Music Technique? Han Fei knows it too?"

Granny Yin said, "No, it seems different. Han Fei's seems to have more melodies."

Seeing this scene, Jiuyin Ling smiled. No one knew better than her that Han Fei owned the real Nine Sounds, which was in the Sea Quelling Painting.

At the exit of the teleportation array, there was a dense light as the Nine Sounds Great Dao descended.

A great demon in the Dao Seeking realm appeared and instantly went into a frenzy.

With a thought from Han Fei, the illusion of mountains and rivers appeared.

Han Fei roared,

"Punishing Saber, guard the pass. Kill whoever comes."

"Water Luster, seal the sea and slaughter. There were no rules."

"Fire Seed, Tree Spirit, Earth Nine, help the human race."

After that, Han Fei looked at the void and shouted, "Sun Baisheng, hold him back. If you let him escape again, just wait."

Sun Baisheng felt a chill down his spine. How dare this brat tell him what to do?! However, he was afraid that if he refuted Han Fei at this moment, he would probably be cursed to death by others.

Han Fei only needed a short time. In addition to the Blood Valley Five Restrictions, he had just killed another five.

At this moment, there were only seven Dao Seeking greater demons alive, who were all held back by human explorers.

However, these Dao Seeking greater demons only attacked places with dense personnel.

Human Explorers could only defend passively. The enemies didn't fight them head-on at all, so the human explorers couldn't do anything about it.

In just a few seconds, hundreds of people were crushed by the aftershock of these people's battle.

However, the Dao Seeking sea demons never expected that Han Fei would finish his battle so quickly.

Han Fei could even slaughter a Venerable!

At this moment, if no one restrained him, what should they do?

Bang!

Han Fei blasted a Dao-Seeking sea demon to death with a punch. He was about to continue to attack when his fingers twitched and he sensed that a great danger was coming.

Immediately, Han Fei twisted his body and retreated hundreds of kilometers.

In the next moment, a Half-Merman powerhouse with a terrifying aura arrived in an instant, and a light pierced in the direction where Han Fei was just now.

The old turtle said, "A peak-level Venerable."

Han Fei was horrified. With a thought, a token appeared on his waist. What else could it be if not Jing'er's Venerable Token?

It meant that if this person dared to attack him, Ning Jing could attack.

This action was naturally noticed by the person.

The Half-Merman Venerable frowned slightly.

All this time, he had felt that something was wrong. After seeing him, Han Fei was only prepared to retreat at any time, but he wasn't afraid?

Just as he was wondering if he should make a random move to test Han Fei's strength, he suddenly felt the pressure of a peak-level Venerable. He was shocked. Could it be the one on the island?

Jing'er slightly revealed the aura of a peak-level Venerable, and the man knew that the situation was not good. The power of Scattered Stars Island was beyond his imagination. He couldn't win this battle.

The man shouted, "Retreat!"

At the moment when this person shouted to retreat, Han Fei shouted, "You want to retreat now? Don't you think it's too late?"

The person just looked at the teleportation array, and Han Fei's eyelids trembled. "Punishing Saber, come back."

The Half-Merman Venerable shouted in a low voice, "Let's fight later."

Han Fei clenched his fists, but the old turtle said, "He's right. The Star Turtle hasn't made a breakthrough yet. It's not time for you to start an all-out battle yet."

Han Fei said via voice transmission, "This battle has ended.. This person is a peak-level Venerable."

Chapter 1395: The Position of Marshal

Xue Shenqi's heart trembled. There were indeed top powerhouses among the sea demons.

The reason why the strong master didn't choose to attack was probably because of the person behind Han Fei. With Han Fei, who had Venerable-level combat power, the balance of this battle would inevitably tip towards the human side.

Therefore, it was not the right time to fight.

If it weren't for the last resort, Xue Shenqi wouldn't have sent so many people to the Sea of Pearls to fight to the death. It was just not the time.

Xue Shenqi shouted, "Stop fighting! Everyone, gather!"

Swish swish swish!

One figure after another left the battlefield.

This time, many people had been prepared to die. At this moment, seeing that the battle had ended, they knew that they seemed to have won a big victory in terms of strong masters. Everyone heaved a sigh of relief.

However, when these people turned their heads, they saw that in just a few hours of battle, countless of their comrades had died or been injured. In the sea, their remains were littered, which was a shocking and dreadful sight.

As for the deceased, except for a few who didn't self-destruct in time, most had self-destructed. Although there were no corpses left, the sea had already been dyed red by blood!

The two sides retreated, and the humans retreated to the Pearl Divers' Port. After counting, more than 23,000 people died in this battle, and almost all the survivors were injured.

At this time, spirit gatherers were the busiest.

The spirit gatherers on the Scattered Stars Island could basically learn free medical skills, so healing brilliance descended one after another among the crowd of fewer than 40,000 people.

In the sky, Han Fei recalled Punishing Saber and the others and stood with Xue Shenqi.

The two looked at each other and didn't speak. It was not suitable for them to talk here.

Han Fei said, "Let me heal the people."

"Um!"

As soon as Han Fei left, the void tore, and Chu Qing and the other Venerables appeared. They nodded at Xue Shenqi and left.

They belonged to different groups. This matter was well known, so there was no need for them to get involved in this battlefield at this time. They might as well observe from a distance.

Han Fei landed on the surface of the sea. The humming sounds were continuous, which was the sound of arrays being set up. Because the speed was too fast, on the rough sea, the Spirit Gathering Array bloomed like water splashes.

Shua!

In the crowd, many people were stunned and looked nervously at Han Fei who suddenly appeared between them.

Han Fei raised his hand slightly, and the healing divine light condensed into chains, which instantly dispersed in the crowd.

Someone's arm was broken and he put it into his Sea Swallowing Seashell. At this moment, he was grabbing his arm and asking a spirit gatherer to treat him when suddenly, he saw a white brilliance shooting over.

Buzz!

His flesh grew and his bones healed. The wound on his arm was healing at a visible speed.

Someone's intestines and belly were pierced through and he was protecting his body with a spiritual energy protective cover. Beside him, there was a spirit gatherer trying to save him.

However, how could an ordinary spirit gatherer's healing technique heal him so quickly? So the spirit gatherer had to constantly replenish that person with spiritual energy.

Someone shouted, "Take the spiritual fruit. You can hold on for a while."

Lying on the fishing boat, the injured man said with difficulty, "I can't hold on anymore. A spiritual fruit can hold me for half an hour at most, but it will take at least an hour for my wound to heal. How many spiritual fruits will it take? Forget it, I give up."

One of his teammates roared, "Give up? Do we lack spiritual fruits?"

Immediately, someone shouted, "Whoever has spiritual fruits, come and save a life."

However, as soon as he said so, he saw a white glow shoot straight over.

The person on the boat was bathed in the Holy Light Chains. He was covered with more than a hundred injuries, but they were healing at a visible speed.

With a swish, the palm-sized knife wound healed in three seconds. His broken chest completely recovered in less than ten seconds.

“Hiss!”

The spirit gatherer who was treating this person was dumbfounded. He was about to ask who was here when a spirit gathering array suddenly spread out under his feet.

Then, a young man in ordinary black clothes walked over.

“Han... Han... Han Fei?”

The seriously injured guy sat up straight. Then, he looked down, only to be dumbfounded.

Under the watch of the people around, Han Fei hummed softly. “Although soul warriors fight at the forefront and suffer the most injuries, you should act according to your ability. A team doesn’t only have a soul warrior.”

Then, before these people could react, Han Fei raised his foot and disappeared.

“Hiss!”

The person who was rescued immediately exclaimed, “Son of a b * tch, is that Han Fei? Isn’t this speed too fast?”

The spirit gatherer looked at the Spirit Gathering Array under his feet and was speechless. “What kind of speed is this? This healing method is simply amazing. Your life was saved by him with a raise of his hand.”

The man chuckled. “Damn, I owe big to Han Fei. If I have a chance in the future, I’ll repay him.”

Han Fei walked forward and suddenly heard a familiar voice, “Han Fei, Xiaoyu is injured.”

“Jiuyin Ling?”

Han Fei knew that Jiuyin Ling was waiting for him on the Scattered Stars Island, but he had more important things to do than to see her. Besides, what could he do even if he saw her?

However, hearing Jiuyin Ling’s voice, Han Fei twisted his body and disappeared.

At this moment, He Xiaoyu was holding Jiuyin Ling’s hand, pale-faced. She was holding her hand so hard that Jiuyin Ling, a peak-level law enforcer, felt a little pain.

Beside him, He Xiaoyu’s dispersed team members gathered after the battle.

Someone said, “Captain, don’t panic. Your strength is extraordinary. You are already a peak-level Hidden Fisher. The Venerables will definitely save you.”

A manipulator held He Xiaoyu’s shoulder. “Yes, Captain, after this battle, you’ve almost achieved your goal of the Thousand Slaughter. The Venerables won’t sit by and watch you die.”

Jiuyin Ling hurriedly comforted her. “Xiaoyu, don’t panic. Any spirit gatherer in the Venerable realm can regrow limbs. I’ve already called Han Fei over. He should be arriving soon.”

“No!”

Hearing what Jiuyin Ling said, He Xiaoyu immediately activated a spiritual energy protective cover and was about to jump out.

However, as soon as He Xiaoyu flew up, an invisible force pressed down. She heard a familiar voice that was no longer childish, "Don't move when you're injured. Will I eat you or what?"

Han Fei stepped forward and activated the Holy Light Technique, and the wounds on He Xiaoyu's body healed quickly.

Han Fei saw that He Xiaoyu's legs were completely severed from the middle of her thigh. At this moment, her hair was messed up, and the girl was trying to cover her face with her hair.

Han Fei frowned slightly. "Where are your legs?"

Han Fei looked at He Xiaoyu's teammates. They were all stunned to see Han Fei.

An armorist hurriedly said, "Master Han Fei, the captain's legs were bitten off by a companion spirit of a Sea Spirit, so we couldn't find them."

"Um!"

Han Fei nodded casually and laid a hand on He Xiaoyu's shoulder. Then he exclaimed in shock. He Xiaoyu had too many wounds in her body that could hurt her foundation.

At this time, the old turtle's voice sounded, "Oh! You just need to regrow her limbs. You don't even need to use the Heaven Enlightenment Divine Technique."

Han Fei said, "That's easy for you to say. Why don't I know how to do it?"

The old turtle said, "Think about it. How long has it been since you practiced the Spirit Concentration Art? If you don't learn it, how can you master it? Every Great Dao is accompanied by various techniques. Why don't you just learn them?"

Han Fei's heart did a flip. Yes, how long had it been since he learned Spirit Concentration Art? Old Jiang left him the Spirit Gathering Scripture, but that was an array book and he didn't take the Great Dao of arrays.

Now, Han Fei knew that that old guy was an array master, but he didn't seem to know much about healing techniques.

However, it made sense. The healing techniques seemed to be easy to learn, but the further one went on, the more difficult it would be. For example, the Holy Light Technique, the Holy Light Chain, and the Heaven Enlightenment Divine Technique had all exceeded the scope of normal healing techniques.

Buzz!

Quickly healing He Xiaoyu's trauma, Han Fei wanted to say something. However, seeing so many people looking at him weirdly, he held himself back.

Han Fei looked at Jiuyin Ling and asked, "Do you still live in the Emyrean Waterfall?"

Jiuyin Ling nodded obediently. "Yes."

Han Fei said, “He Xiaoyu, you and Jiuyin Ling go to the Empyrean Waterfall to wait for me. I’ll repair your legs after I finish the matters here.”

He Xiaoyu’s body trembled slightly, and a voice came from under her hair, “Um!”

Seeing He Xiaoyu like this, Han Fei secretly sighed and said, “Then I’ll go first.”

Han Fei was about to leave when he heard Jiuyin Ling say, “Are you coming back tonight?”

Han Fei paused. “Well... yes!”

Han Fei stepped out and disappeared from their sight. The Holy Light Chains radiated a kilometer.

Soon, Han Fei had basically treated all the people who could be treated. The area-of-effect treatment was terrifying. Xue Shenqi even wondered if he should ask Han Fei to teach the technique to others.

Seeing that Han Fei was almost done with his treatment, in the sky, Xue Shenqi slightly heaved a sigh of relief. “The Scattered Stars Island has won this battle at great expense. I’m very sad. I, Xue Shenqi, have been in charge of Scattered Stars Island for 50 years. Now, there are many talents on Scattered Stars Island. Han Fei, from the 36 towns, is talented, tough, and capable. Recently, he has killed two Venerables in a row, literally changing the result of the war...”

When Han Fei heard Xue Shenqi’s words, he couldn’t have felt worse. Was Xue Shenqi about to pass on his position?

Before Han Fei said anything, the old turtle had said, “This guy made a right choice. At this moment, you need support. Becoming a king is not easy. You need to experience too much. Blood sacrifice, a sea of bones, and being loved by all are all possible paths to becoming a king... This is something you might experience, and something every king might experience.”

Han Fei grinned and didn’t say anything. He thought to himself, Forget it. Didn’t I know this a long time ago?

As early as when he went to the Thousand Star City and Xue Shenqi gave him a nine-star token, although the latter didn’t speak it out, he knew it was just... Xue Shenqi’s test for him.

Now, it was indeed a good time to make an announcement.

Xue Shenqi said in the end, “From today on, Han Fei, from the 36 towns, will succeed as the supreme commander of the Scattered Stars Island. Spread this news to the entire Scattered Stars Island, and inform the 36 towns and the Thousand Star City in seven days...”

Chapter 1396: Powerful

Hua!

Hearing Xue Shenqi’s words, the audience burst into an uproar. The supreme commander had been replaced so easily?

In the big clan team, Chu Qing, Ye Kai, Sun Baisheng, and Yang Kun were all pale.

Although they had a feeling that Xue Shenqi would abdicate his position to someone else, they didn't expect it to happen at this moment...

"Damn it!"

Chu Qing immediately cursed, "Xue Shenqi has taken sides! He's on Han Fei's side!"

Ye Kai's eyes were cold. "Xue Shenqi sacrificed a lot to let Han Fei succeed in his position. At least, in the eyes of others, he resigned before the war. This is a disgraceful thing. Those who don't know him might think that he can't bear the responsibility and is afraid of fighting."

Sun Baisheng took a deep breath. "It's taboo to change the commander before the war, but Xue Shenqi did it. How dare he?"

Chu Qing snorted. "So, Xue Shenqi chooses a good time. I find that Han Fei's name often rang in the carnival shops. In the Refining Hall, books written by Han Fei are sold for free. Fei-Yan-Mu Furnaces are demonstrated on the street... Xue Shenqi, he had long planned to make Han Fei famous on the Scattered Stars Island. Today, Han Fei slaughtered a Venerable under the public eye and immediately became the center of attention. Is there a better chance for him to do so than now?"

The people from the big clans all had ugly expressions.

In fact, if it were someone else, they wouldn't have cared.

However, this person happened to be Han Fei. He was from the Thug Academy, and his father was Han Guanshu, and the two both had a great grudge against the big clans.

Once Han Fei became the supreme commander of the Scattered Stars Island, once the people on the Scattered Stars Island were united under his rule, he would be very powerful. His personal power, to a certain extent, was even above that of the big clans.

How many people could a big clan control? How many people could the supreme commander of the Scattered Stars Island control? The difference was obvious.

In addition to the number of people and the economic conditions, due to the special location, the Scattered Stars Island was closely related to the Thousand Star City and the 36 towns.

Xue Shenqi had always turned a blind eye to the resource supply of the Scattered Stars Island.

In fact, most of the resources that flowed to the Thousand Star City were taken by the big clans.

But how could Han Fei let the big clans get so many resources after he became the supreme commander?

Chu Qing shouted in a low voice, "Inform the clans that this is a big problem now. If Han Fei succeeds as the supreme commander of the Scattered Stars Island, there will be too much trouble."

...

Unlike Chu Qing and the others, the front-line soldiers had different thoughts.

In the eyes of these people, the enemy was right there. Whoever killed the most enemies would win their allegiance. Whoever was powerful enough would win their allegiance. Whoever made the greatest contribution would win their allegiance.

Xue Shenqi's status was unshakeable. He had controlled the Scattered Stars Island and stood on this vast sea for many years, and his achievements were remarkable.

Han Fei, the greatest contribution he made was to invent the Fei-Yan-Mu Furnace.

Now which refiner didn't know Han Fei's name? Even those who went to the Refining Hall to forge Semi-Divine weapons all knew Han Fei's name.

Also, there was no telling if it was intentional or not, but in the past few years, the news about Han Fei had never stopped spreading. They always heard someone mentioning him inadvertently...

In the past two days, the news that Han Fei had returned and killed a Venerable had been spreading like wildfire and almost everyone knew it.

Today, Han Fei killed a Venerable again!

Besides, he appeared in the Sea of Pearls and killed Blue Feather, the commander of the Sea Clan. He butchered Dao-seeking powerhouses as easily as killing fish and could almost kill one every step he made.

It could be said that Han Fei's sudden descent greatly boosted morale.

Of course, this might not be enough.

As the supreme commander, it seemed too easy for Han Fei to reach this position. Compared to the previous commanders, Han Fei didn't seem to have any honorable deeds. There was only hearsay about him everywhere.

But Xue Shenqi had announced his decision, and these people had all witnessed how powerful Han Fei was.

In the end, the scene of Han Fei healing everyone with his Holy Light Chain was even more shocking than Han Fei killing a Venerable.

After all, killing a Venerable was too far away for ordinary people.

At most, they could only see Blue Feather being sent flying, see cracks in the sky, and rain of blood.

In any case, at least the people present had accepted the decision. After all, Han Fei could fight! In just ten days, he had killed two Venerables. This was something they had never heard before.

On the ground.

Jiuyin Ling looked calm and didn't feel anything special about it. She even felt that it was a matter of course.

He Xiaoyu murmured, "The supreme commander?"

Xue Shenqi said, "Speak something to the people. When we return to the Scattered Stars Island, prepare to take my jobs over. You need to meet some important people on the Scattered Stars Island."

Han Fei stepped into the sky and stood in front of everybody.

He seemed to feel that he was too small. Golden light overflowed from his body, the shadow of invincibility condensed, and a golden giant more than 20 meters tall stood in the air.

Han Fei said in a clear and resounding voice, "Everyone, I'm Han Fei. I don't think you know me very well, because I haven't been fighting here long. However, at the critical moment for the survival of mankind, although I'm not around, I've been thinking of ways to kill sea demons and protect our human race."

Han Fei smiled and shouted, "I think you are no longer newcomers. You should know the way of dealing with enemies on Scattered Stars Island. It's really exhausting to just defend. Today, I, Han Fei, as the supreme commander, may not be able to eliminate the sea demons, but at least, I will lead you to fight our way out. From today on, let's fight together..."

Towards the end, Han Fei's voice rumbled like thunder, making everyone below excited.

As Explorers and Law Enforcers, they naturally knew the situation and the appointment of the Central City.

Xue Shenqi must have made such a big decision considering the future of the entire island.

They had no choice but to obey.

Immediately, twelve explorers walked out of the void.

Their leader shouted, "Nice to meet you, Marshal Han. We're willing to die with you."

Hundreds of law enforcers echoed, "Greetings, Marshal Han. We're willing to die with you."

Then, the crowd roared, "Greetings, Marshal Han. We're willing to die with you."

Han Fei raised his head slightly, glanced at the sky diagonally, and shouted, "The Scattered Stars Island already has Marshal Han, so I dare not use this title. I'll use the word 'Han' (The Han of Wang Han)... Okay, today's battle is over. Clean up the battlefield and return to the island."

...

Someone would lead the army.

About a hundred seconds later, tens of thousands of kilometers away, on a fishing boat on the sea.

When Han Fei came, he saw that Old Han had made tea and had been waiting for a long time. Xue Shenqi took a seat casually and finished a cup of tea.

Han Guanshu smiled. "Don't drink like a fish."

Xue Shenqi remained expressionless. "Now that Han Fei has assumed the position, he will face many challenges. But if he is incompetent for this position, I'll take it back."

Han Fei landed on the boat too. He glanced at the four cups hanging on the rocks in the air and smiled casually. "Of course. My goal is not Scattered Stars Island. When the chaos is over, the Scattered Stars Island will still be yours."

Xue Shenqi said, "If the chaos can be easily pacified, why have we waited so long?"

Han Fei looked at Han Guanshu and asked, "Why is there an extra cup?"

Han Guanshu tilted his head and looked at the void. "Ning Jing, long time no see. Come down for a drink!"

"Ah, is it really you? You seem to be much stronger than last time."

As they talked, they saw a beautiful figure walking thousands of kilometers with each step. She stood on the deck and chuckled, sitting opposite Han Fei.

Xue Shenqi was a little stunned to see Ning Jing. F*ck, how can there be such a beautiful woman in this world?

However, Xue Shenqi was much calmer than Han Fei was.

When Han Fei first came to the Water-Wood World, he was stunned by every single woman he saw; and he felt that every man he saw was as handsome as Zhang Xuanyu.

Han Guanshu pushed a cup of tea to Ning Jing and said, "Did Han Fei cause any trouble for you on this trip."

Ning Jing was a lively girl in the first place, especially when she knew two people here. She immediately said, "More than trouble! He almost caused a ruckus in our world. He provoked kings' wars several times. I've never seen anyone more capable of causing trouble than him!"

"Kings' war?"

Xue Shenqi's eyes glittered.

Ning Jing mentioned kings' wars, which meant that there were indeed kings where Han Fei went.

In this case, Han Guanshu wasn't lying. The other side of the channel shouldn't be easily stepped on.

Ning Jing pursed her lips. "Did I just say kings' war? Forget it. It's not a big deal. However, war is really frequent in your world. Are there only human beings in this world? It must be very tiring for you human race to defend against the sea race alone!"

Han Guanshu took a sip of tea and said, "Different worlds have different lives. Although you're here, what I want to say is that before I take action, don't do anything."

Ning Jing said impatiently, "I know, I know. The queen told me a long time ago."

"The queen?"

Xue Shenqi thought to himself, The king over there is actually a woman?

However, Xue Shenqi didn't ask further but looked straight at Han Guanshu.

Han Guanshu seemed to know Xue Shenqi's meaning. He smiled and said, "Your eyes are on the Scattered Stars Island, but Han Fei's goal is not here. Scattered Stars Island is just a trial for him."

Pa! Pa!

Han Fei patted the table. "Hey, hey! Old Han, let's talk nicely. Don't treat me like a machine. Trial? I don't need you to give me trials!"

Han Guanshu's lips curled. "I haven't schemed against you for a long time. Because from the day you came to the Scattered Stars, everything is developing on its own course. I just occasionally meddled with one or two things during this process. I've never regarded you as a chess piece. From beginning to end, you are the decisive power in this game."

Xue Shenqi said, "The momentum is like a bell, and the spirit is sharp enough to slaughter an azure dragon. What momentum!"

Chapter 1397: Meet Again

The Emyrean Waterfall.

Not far from Jiuyin Ling's residence, next to Han Fei's, there was another hut.

Because Han Fei asked He Xiaoyu to wait at the Emyrean Waterfall, and Han Fei had become the marshal, Jiuyin Ling built a house for He Xiaoyu after she came back.

Jiuyin Ling didn't have many friends in the first place, so it would be great if He Xiaoyu could stay at the Emyrean Waterfall for a while. At least she had someone to accompany her.

At this moment, in He Xiaoyu's yard, several members of He Xiaoyu's team were chattering nonstop.

In the corner, there was a big cat squatting beside the barbecue grill.

A manipulator sighed. "I was wondering why our captain keeps going to the Emyrean Waterfall. So... she claimed to come to find Sister Jiuyin but actually, you know..."

The armorist was laughing and brushing the barbecue. "Besides, the captain especially likes barbecue. I was puzzled. What is barbecue? How did our captain learn to make such magical food? Hearing what Big Yellow said, now I know that it was also Marshal Han's invention."

He Xiaoyu, on the other hand, said nervously and coldly, "Don't talk nonsense. Our division is so busy. Why are you here instead of staying in the division?"

The hunter girl smiled naughtily. "Isn't it all because of you, Captain? Otherwise, we wouldn't have had the luck to come to the Emyrean Waterfall to eat barbecue when the island is most vigilant? Now, the entire island is talking about Marshal Han. There are all kinds of discussions."

The armorist said, "Marshal Han is simply too ferocious! He killed a Venerable with three punches and killed a great demon in the Dao Seeking realm with a single slash or a punch... Those idiots have never seen Marshal Han fight. Otherwise, they would have been shocked."

He Xiaoyu was lost for words. Killed a Venerable with three punches and two Dao-seeking powerhouses with one punch? Who spread these rumors?

The manipulator grinned. "No matter what others think, we are on Marshal Han's side. By the way, Captain, are you really from the same village as Marshal Han?"

Big Yellow said, "Marshal Han? That sounds awful. Han Fei sounds better! When is Han Fei coming? I brought him fish wings! Armorist, don't over-toast my fish wings!"

At this moment, Jiuyin Ling walked over with a basket in her hand that was filled with seasonings for hot pot.

He Xiaoyu was lost for words. "Jiu'er, what are you doing? My legs are broken. Why did you get all these seasonings? Do you want to eat hot pot?"

Jiuyin Ling smiled. "Doesn't he like to eat hot pot?"

He Xiaoyu's teammates couldn't help but look at each other, thinking, This relationship is a bit messy! I feel that Jiuyin Ling seems to be closer to Han Fei than our captain.

He Xiaoyu knew Jiuyin Ling well. Whenever Han Fei was mentioned, Jiuyin Ling wouldn't hide her interest at all.

He Xiaoyu suddenly shouted, "Why are you on the Sea of Pearls too? I've already been assigned to a new team, but I still met you. Are you really not afraid of death?"

The armorist grinned. "Captain, we're all from your team. We're renowned as the most ferocious team in the Pioneer Group, aren't we? Captain, how could you leave us and go to the Sea of Pearls alone? Did you look down upon us?"

The hunter nodded. "Exactly. Fortunately, we knew you well. We knew where you were the moment you disappeared. Look, without our cooperation, your legs are gone, right?"

Pa!

The manipulator patted the hunter on the shoulder. "What are you talking about? Captain's legs can grow back! But Marshal Han seems to be busy..."

The armorist who was brushing barbecue said, "Isn't it a good chance to take a few more days off?"

"Huh? It's lively here!"

Suddenly, an unfamiliar voice sounded.

The people who were chatting and laughing quickly looked back at the door.

"Meow, Han Fei, you're finally back! I have something big to tell you, something really big."

Jiuyin Ling smiled. "Big Yellow does have something big to do!"

Han Fei said grumpily, "Something big? Are you going to transcend the tribulation?"

"Meow, no. Just wait and see."

“Meow ~”

As Big Yellow shouted, Han Fei saw four or five yellow kittens rushing over. Needless to say, they were all Big Yellow’s sons and daughters.

Among them, the strongest one was already a peak-level Hanging Fisher and wasn’t weak. It seemed that Big Yellow had indeed worked hard over the years.

Han Fei couldn’t help sighing. When he left Scattered Stars Island, he only left two cats for Big Yellow. Did he want to create a f*cking cat race?

Big Yellow meowed, “He’s your uncle!”

“Meow... Meow... Meow...”

The corner of Han Fei’s mouth twitched. F*ck, what kind of uncle am I? Then he saw the group of kittens staring at him with widened eyes.

Han Fei was speechless. With a thought, he threw a large mass of green liquid at the cats. What else could it be if not Spirit Awakening Fluid?

Han Fei smiled. “I don’t think you need food now. You can go into the sea to catch a flood dragon now. The little kittens are growing up. Give them some Spirit Awakening Fluid to nourish their bones.”

The kittens all picked up their Sea Swallowing Seashells and collected the Spirit Awakening Fluid with a swish. Seeing their smooth movement, Han Fei felt that they must have done this quite often!

Sure enough, Big Yellow meowed. “Say thank you to Uncle.”

“Meow... Meow... Meow...”

The corner of Han Fei’s mouth twitched, and he said helplessly, “Big Yellow! That’s enough.”

Jiuyin Ling secretly chuckled.

This was certainly not the first time this scene happened. However, Big Yellow’s previous extortion targets were not as rich as Han Fei.

Jiuyin Ling didn’t even know if she should tell Han Fei or not that if he didn’t intend to live here, from now on, every time he came, Big Yellow would bring his cat sons and cat daughters to ask for gifts from him.

The interactions between Han Fei and Big Yellow stunned He Xiaoyu and the people in her squad.

They looked at each other. Was that Spirit Awakening Fluid? Was it Spirit Awakening Fluid that cost 3,500 points of credit per catty? F*ck, he casually gave away hundreds of kilograms of Spirit Awakening Fluid just now, didn’t he? It equaled two or three million points of credits!

They were all shocked. This guy was too damn rich!

However, they forgot that the price of 3,500 points of credit for a catty of Spirit Awakening Fluid was only fixed in the past two years. In the past, it was 5,000 points of credit for a catty!

When Han Fei looked at them, they straightened up and shouted nervously, “Hi, Marshal Han.”

Han Fei smiled casually. “There’s no need for that. Since the grill and hot pot have been set up, we might as well improve our food.”

Then, Han Fei threw out two weird creatures.

A transparent algae eel, with a touch of silver on the edge.

A Heaven Spirit Ray, five or six meters long.

“Meow ~”

Even Jiuyin Ling didn’t recognize it. Big Yellow suddenly meowed. “This is a Heavenly Spirit Ray, a legendary creature. The blood Qi of this one is a bit overwhelming. I’m afraid it has just entered the Dao Seeking realm.”

“What?”

He Xiaoyu and her teammates were dumbfounded. F*ck, are legendary creatures for eating? But just now, they heard that Han Fei said to improve food... Did he mean they could eat it?

Seeing this, He Xiaoyu immediately said, “Okay, don’t take out anything more. Who can eat such a powerful creature?”

At this moment, He Xiaoyu was no longer as nervous as before.

After all, with some buffer time, He Xiaoyu groomed a bit. Her hair was no longer messy and no longer covered her face.

Jiuyin Ling said, “Why not heal Xiaoyu first!”

Speaking of healing, Han Fei said seriously, “He Xiaoyu, what’s wrong with you? You’ve had so many injuries in your body that your foundation has been seriously damaged. Have you tried to break through to a Law Enforcer recently? But you failed, didn’t you?”

“Huh?”

Even Jiuyin Ling was surprised. “Xiaoyu, have you done that?”

The other teammates looked at He Xiaoyu in surprise too, wondering why they didn’t know that.

He Xiaoyu gritted her teeth and slightly turned her head aside.

The corners of Han Fei’s mouth twitched helplessly, and he said lightly, “It’s not the right way to become stronger. The strong masters polish their foundation step by step and become stronger slowly.”

He Xiaoyu subconsciously retorted, “Nonsense, you are very fast.”

Han Fei was speechless.

Even her teammates were speechless, thinking to themselves, Captain, what are you talking about? He can be the supreme commander of the Scattered Stars Island! Why do you have to compare yourself to the supreme commander?

Han Fei grinned. "Okay, sit straight. Let me heal your internal injuries and cleanse the accumulated toxins first."

With that said, Han Fei looked at the others and said, "You'd better sit down too. My healing technique is not weak and should be able to cover you. If you can absorb it, you can try to absorb it."

They were overjoyed to hear that. "Thank you, Marshal Han."

"Meow... Wait a minute."

Suddenly, Big Yellow shouted and meowed.

Then, his cat sons and cat daughters who had just run away suddenly rushed back and squatted on the side, looking at Han Fei eagerly.

Han Fei: "..."

Chapter 1398: Holy Light Guardian

The Arrival of the Heaven Enlightenment Divine Technique consumed vitality. It was not difficult to cleanse He Xiaoyu's body, and it was normal for others to take advantage of it too.

After all, Han Fei was already a real powerhouse.

Seeing this, Han Fei said, "Well, Xiao Jiu, sit down too! You are growing too fast. Your foundation may not be very stable."

Even when the old turtle possessed Gu Sanqing, he had to heal his old wounds and improve his physique with his Heaven Enlightenment Divine Technique. Considering the fact that he was a Half-Venerable, the Heaven Enlightenment Divine Technique would certainly work on Jiuyin Ling and the others too.

Jiuyin Ling said in surprise, "I'm not injured!"

Han Fei said with a smile, "It's true that you're not injured. But the next technique I'm going to perform will probably heal your old wounds, hidden illnesses, and bone trauma."

Han Fei was enshrouded in white light. He shouted, "Sit tight."

Nobody dared to move, and He Xiaoyu was too nervous to move.

Even Big Yellow patted one of its sons who didn't sit down with its paws and sat down.

Buzz!

Suddenly, above the Empyrean Waterfall, a milky pillar of light descended. He Xiaoyu's yard was instantly drowned by the white mist.

"Ahhh~"

"Meow ~"

Almost everyone was refreshed as if they had fallen into the healing spring that was gentle to the bone. The power in their bodies was returning, their flesh was being washed, their veins were being cleaned up, and their old injuries were healed by the white mist of light.

Instantly, everyone in the Empyrean Waterfall looked at He Xiaoyu's yard.

However, when Han Fei stepped on the ground, the small courtyard was instantly covered by water mist, and the scene inside could not be seen by the outside world.

However, Han Fei's array could block the people from the Empyrean Waterfall, but not the Venerables.

Immediately, three or five Venerables' perceptions swept over. However, Han Fei was very tough. As soon as his soul shook, the perceptions that swept over were immediately shattered.

Han Fei didn't give these people any face and said bluntly, "Now that I'm the commander, do I need you to peep at my life?"

In terms of toughness, Han Fei was just like Xue Shenqi.

Sun Baisheng secretly cursed, "Han Fei is really arrogant."

Ye Kai snorted. "At this moment, his prestige is at its peak. We can't do anything to him."

Yang Kun said angrily, "If he were in the Thousand Star City, I would've killed him."

However, if these words were said in front of Han Fei, Han Fei would probably retort. Humph, if your Yang family had the ability to kill me, why didn't you do it earlier?

Chu Qing said nothing at all, thinking to himself. The higher you climb, the worse your fall will be. Do you think you deserve to compete for the throne?

Unlike the people of the big clans, there were also people from the seven major sects who wanted to peep, but their perception was also shattered.

However, they weren't fools. How could such a holy pillar of light be nothing? The pillar of light was filled with the power of the Great Dao.

"Hu... Hu..."

Everybody, including Jiuyin Ling, was enshrouded in a milky halo. The only difference was that the pillar of light was focused on He Xiaoyu, so she took the most. Second to her was Jiuyin Ling, to whom Han Fei dispersed the light on purpose.

After about ten seconds, the pillar of light began to fade.

Thirty seconds later, the pillar of light completely disappeared.

However, they were still covered in a white haze. Han Fei looked at He Xiaoyu's teammates, who were weaker and could be healed with a wisp of the healing power.

Han Fei said, "The internal injuries and old illnesses in your bodies have been healed. My suggestion is that you can practice body tempering techniques for a short period of time. Because the foundation in

your body has been cleaned by me, during this period of time, body tempering will be twice as effective.”

After that, Han Fei looked at Jiuyin Ling and said, “You too. You’re going to transcend the tribulation, but your body is not strong enough now. I’ll give you a body refining technique later.”

“Um!”

Jiuyin Ling hummed softly. She felt that she was even lighter. In her heart, she exclaimed at how magical Han Fei’s technique was. It could even cleanse her foundation.

Crack!

Suddenly, He Xiaoyu heard a crisp crack. However, He Xiaoyu was already a peak-level Hidden Fisher. If she made another breakthrough, she would be a Law Enforcer, so this was obviously not a breakthrough.

While everybody was wondering, Han Fei said casually, “Your Spiritual Heritage has improved. He Xiaoyu, have you eaten any special Heavenly Materials and Earthly Treasures?”

After a pause, He Xiaoyu came back to herself and looked at Han Fei blankly. “Huh?”

The manipulator next to her reminded her, “Captain, your spiritual heritage has made a breakthrough. It’s your spiritual heritage!”

He Xiaoyu quickly said, “Oh! In a secret realm, some special power entered my body and improved my spiritual heritage.”

Han Fei nodded slightly. “That’s it. It’s not that this kind of power can’t improve your strength, but that your foundation has been worn out too much, which hinders the upgrading of your spiritual heritage that this power brought to you. If I’ve guessed right, this power has just been stimulated and should be able to increase your strength by one or two small realms. Although your spiritual heritage can’t reach level six, it won’t be bad.”

He Xiaoyu’s eyes glittered when she heard that. She tried to stand up happily, only to find that her legs still hadn’t grown out.

He Xiaoyu’s face turned pale. “Is it useless? Can’t my limbs regrown even with such a powerful healing technique?”

He Xiaoyu’s teammates panicked too. That was impossible! Didn’t they say that Venerables could regrow limbs?

Jiuyin Ling was also surprised. “It doesn’t work?”

Big Yellow, on the other hand, stuffed his cat sons and daughters who had been thrown sideways by the white light into his mouth one after another. Then he said, “What’s the rush? This is a great technique that can restore your foundation. It’s even more difficult than limb regeneration.”

Han Fei grinned. Big Yellow seemed to have seen a lot after following Granny Yin for so long.

Han Fei had learned the technique of limb regeneration, and because it was a life-saving technique, he had upgraded it to heaven-level divine-quality.

Information popped up in his head.

Holy Light Protection (Heaven-Level, Divine-Quality)

Introduction: There is a brilliance between the heavens and earth, which is called healing divine splendor. The divine splendor connects with the source of the void, nurtures hundreds of millions of creatures, and gives the foundation of recovery to all things. The divine splendor fuses with the soul, interweaves with the flesh and blood, and with energy as the foundation, can regenerate limbs and bring back the soul.

Healing Range: Applicable to the injured who still has vitality. Depending on the degree of injury, the consumption is different.

Superseding Art: "Great Rebirth Technique"

Consumed Spiritual Energy: 1 billion points

Remarks: If there is excess energy, it can condense a holy light guardian object to accompany you.

When he saw this ability, Han Fei couldn't help but marvel at the temptation of the Great Dao of Heaven Enlightenment. If his guess was correct, if he continued to deduce it, it would be a technique to resurrect. Although it might not be that powerful, it was definitely not simple.

Especially the last remarks, it said that it could condense a guardian object, which was the most terrifying. This thing could also store holy light.

Han Fei said, "Big Yellow is right. Repairing the foundation is repairing the foundation, and limb regeneration is limb regeneration. They're two different things."

Han Fei waved his hand, and four lines of holy light that looked like snakes appeared around He Xiaoyu, and power kept gathering in He Xiaoyu's body.

With a flip of his hand, Han Fei took out a spiritual fruit that was still hot from the bottom of the Empyrean Waterfall and said, "Limb regeneration is mainly about energy. With enough energy and healing brilliance, limbs can be regenerated with the power of blood and Qi. Although theoretically, there won't be any problem after rebirth, you'll still have to cultivate in seclusion for a few days to see the effect."

As Han Fei talked, on He Xiaoyu's leg, bones protruded and flesh was entwined. As energy gathered, her legs were growing at a visible speed.

Gulp!

The spirit gatherer in He Xiaoyu's team was drooling. What kind of spirit gatherer was this? He was truly a genius! If all spirit gatherers could do this, the casualty rate of human beings could be reduced by at least 10%.

He Xiaoyu was shocked too. Was there anything more amazing than watching her flesh and blood regrow?

“Huh!”

Han Fei was slightly surprised. He found that one heaven-level ultra-quality energy fruit was not enough. Logically speaking, although the energy contained in this energy fruit was not as much as the Immeasurable Fruit that Queen Life gave him, it definitely contained one percent of the energy.

It should be enough for He Xiaoyu.

However, Han Fei immediately realized that He Xiaoyu had fully mastered the 108 Spirit-Absorbing War Bodies.

Han Fei took out another energy fruit. At this moment, He Xiaoyu’s two leg bones had been grown, and her flesh and veins were almost fully grown. With another energy fruit, she would be fine.

Han Fei said casually, “The body tempering techniques you can buy on the Scattered Stars Island are actually not that good. I have a jade slip here, which is the upgraded version of the Spirit-Absorbing War Body. You can practice it. As for the Spirit-Absorbing War Body, as long as you have a good foundation, you can teach it to others.”

He Xiaoyu gritted her teeth. Han Fei must have discovered that her body tempering technique had not improved. She searched the entire Scattered Stars Island but couldn’t find a better body tempering technique than the 108 Spirit-Absorbing War Bodies.

However, He Xiaoyu did not refuse him. As long as she could become stronger and reach a higher height one day, why not?

Seeing He Xiaoyu take the jade slip, Han Fei’s hand glowed with holy light and energy gathered. An earring, a bracelet, and a bell appeared.

He handed the earrings to Jiuyin Ling and said, “You just need to wear them. If you need limbs to be regrown, you can use them. Then you’ll have to practice this technique again. When you reach the initial success of this technique, you can transcend the tribulation.”

Jiuyin Ling smiled. “Okay!”

Then he handed the bracelet to He Xiaoyu. “Take it. It can at least save your life.”

In the end, Han Fei threw the bell to Big Yellow. “And yours.”

“Meow ~”

Of course, other people didn’t have any gifts. He gave Big Yellow because he belonged to the beast race and was the only pure beast race member he had seen in the entire Yin-Yang World.

With a thought, Han Fei found that many people in the Empyrean Waterfall were already standing at the door, on the roof, and in various corners, looking at He Xiaoyu’s home.

“Alas...”

Han Fei heaved a long sigh and grinned. "Hey, barbecue and make a hot pot.. After this meal, I'll have to go about my business."

Chapter 1399: A New Broom Sweeps Clean (1)

Although Han Fei was a very talkative and lively person, in the eyes of others, he was now a marshal, so he was very majestic.

Therefore, this meal was not very lively. The main reason was that the others couldn't resist the terrifying energy of the Heavenly Spirit Ray after a few bites. Their bodies were shivering, and their momentum was slightly increasing.

As soon as He Xiaoyu's legs grew back, the weight on her heart was lifted. She didn't know what to do if her legs were gone, but she was also upset that Han Fei was getting stronger and stronger. Even Jiuyin Ling was far ahead of her.

He Xiaoyu couldn't help thinking, If it were Xia Xiaochan, she wouldn't have been able to keep up with Han Fei's cultivation speed, would she? Some of Han Fei's deeds had long been spread throughout the Scattered Stars Island, so she knew that Han Fei went into the sea to kill the Dark Hunter Legion twice for the girl he loved.

Because of Xia Xiaochan's disappearance, He Xiaoyu knew better how difficult cultivation could be. There were too many dangers in this world. Only by walking to the end could one be the most powerful. She didn't want to cultivate the fastest, but she wanted to walk the most steadily.

He Xiaoyu didn't eat much fish. She probably stopped eating when she reached the limits of her body, but she pretended to be cultivating.

Only Jiuyin Ling asked, "Are we going to take office?"

Han Fei nodded slightly. "There will be a lot of fuss at such a critical moment."

Jiuyin Ling sighed softly. "Actually, I don't want you to take this position. The sea demons have suddenly become stronger, a lot stronger. There are more and more Sea Spirits, as well as much more Explorers, so almost all the hidden powerhouses on the Scattered Stars Island have come out. You've killed two Venerables in such a short period of time. It can be imagined how strong they are now..."

Han Fei nodded. "We'll just kill whoever comes, but... we have to take care of the internal affairs first. You should just cultivate well."

Han Fei implied that he probably wouldn't appear in the Empyrean Waterfall for some time to come, or he wouldn't see Jiuyin Ling and the others for a long time.

Han Fei didn't want to think too much about relationships, especially at such a critical moment.

Under Jiuyin Ling's gentle gaze, Han Fei stepped through the void and walked a hundred kilometers away with a single step.

The moment Han Fei appeared, several perceptions swept over. They were all the Venerables who had arrived.

Han Fei sneered, ignored these people, and recited in a low voice, like thunder rumbling in the sky above the entire Scattered Stars Island.

“I am Han Fei. I’ll officially take over the position of the supreme commander of the Scattered Stars Island in the Sea God Square outside the central city tomorrow morning. Now I order all unit leaders to take all non-combat personnel to come over. No delay is allowed.”

Han Fei’s voice echoed in the air, which could be heard all over the Scattered Stars Island.

Originally, the news that Han Fei would take over as the supreme commander was only spread out by the soldiers who came back from the Sea of Pearls. Now it immediately set off a heated discussion.

At this moment, Han Fei personally came out to confirm this matter, and Xue Shenqi didn’t show up to refute. It seemed that this matter was confirmed.

For a moment, all the departments on the Scattered Stars Island were in a heated discussion, especially the Refining Hall.

A refiner laughed. “Look, what did I say? When Marshal Han made the Fei-Yan-Mu Furnace, I felt that he was extraordinary and had the bearing of a commander. It’s only been a few years and Han Fei has succeeded Marshal Xue.”

A shop assistant said, “You may not believe it, but I used to cooperate with Marshal Han. I was responsible for bringing in customers and he was responsible for refining. Our teamwork was unparalleled.”

Some people held up the Spirit Fusing Scripture, the Spirit Polishing Scripture, and the Spirit Forging Scripture. The three heaven-level refining techniques were sold for free, which showed how extraordinary Marshal Han was. These three techniques had pushed the spiritual energy refining technique to the peak, and the key was that they were free. Only a genius could do this.

Someone echoed, “I heard that it was Marshal Han who made the prices of spiritual weapons in the Refining Hall reduce.”

Someone sneered. “Of course! As soon as the Fei-Yan-Mu Furnace appeared, the prices of Semi-Divine weapons plummeted. How could the prices of spiritual weapons not decrease?”

Someone else was suspicious. “Didn’t they say that the Fei-Yan-Mu Furnace was created by Han Fei, Guan Qingyan, and Mu Jia’er? Why didn’t they mention Guan Qingyan and Mu Jia’er?”

Someone said with a smile, “What do you know! Guan Qingyan has admitted that when they were forging the Fei-Yan-Mu Furnace, Marshal Han designed and invented it. The two of them were just assisting him. The furnace was designed by Marshal Han.”

...

Scattered Stars Prison.

Hearing Han Fei's announcement, Zhang Teng couldn't help but say leisurely, "I never would've thought that it only took this kid ten years to rise. Is this what a genius is like?"

Behind him, Su Mo said, "Boss, Han Fei wouldn't come back to take revenge on us, right?"

Zhang Teng sneered. "What are you thinking? How can a genius like him take such a trivial matter to heart? Besides, we followed the rules back then and did things normally. There was nothing wrong with it. I just exclaimed."

...

At the Command Center.

Someone roared, "Find out everything about Han Fei!"

After a while, someone handed over a jade slip and said, "My lord, it's all here."

The man took the jade slip, flipped it, and snorted. "Why could such a person become the supreme commander? He's selfish, greedy, flamboyant, greedy, and pompous..."

Someone echoed, "That's right. Han Fei doesn't have many military exploits. Although he has won a few beautiful battles, they are still too few."

Someone said, "I'm not convinced. Wouldn't it be a mess if such a person were to lead the Scattered Stars Island?"

...

At this moment, millions of people on the Scattered Stars Island, from the leaders to the rookies, were discussing Han Fei.

Some people supported him, thinking that Han Fei's strength lay in his fists. Han Fei had slaughtered two Venerables in a row, which was extraordinary.

Some people didn't think that he was suitable for that position. Being the supreme commander didn't mean that one had to be strong in combat power. He had to be smart and have the ability to control all the battlefields.

For a moment, there were various opinions, but most people were already prepared to go to the Sea God Square outside Central City the next day. In any case, this was a grand event of a hundred years. It would be a pity if they didn't take a look.

In the seven Scattered Stars Units.

The Fourth Unit was one of the most popular departments at the moment. Bei Huo, Guan Qingyan, and the others were assessing the three refiners who applied to come here.

At this moment, Guan Qingyan shook his head slightly. "None passed the exam."

Mu Jia'er also shook her head. "Although you're much stronger than ordinary people, you're not qualified to enter the Scattered Stars Fourth Unit."

Bei Huo smiled in agreement. After sending them away, he said slowly, "In fact, few people are truly determined to refine weapons in the flames of war. This batch is already the best in half a year."

Guan Qingyan shook his head. "No, the Scattered Stars Fourth Unit is better off without than make do. With Brother Han's three refining techniques, their expertise in refining is still so mediocre, which is not acceptable."

Mu Jia'er also nodded. "Alas! That guy didn't even come back to visit us. He must have forgotten us after he became a marshal."

Mu Jia'er had given up comparing herself with Han Fei. It turned out that Han Fei was a monster. Why should she compare herself with a monster?

At this moment, the door of the Scattered Stars Fourth Unit was opened, and a leisurely voice came over, "Oh, why do you think I'm such a person?"

Instantly, everyone looked back.

Guan Qingyan's eyes glittered. "Brother Han."

Mu Jia'er said in shock, "Ah! You're back! You're going to be the marshal. Why do you still have the time to come here?"

Bei Huo said, "Han... Marshal Han."

Han Fei smiled. "Senior Bei Huo, don't regard me as an outsider."

Then, Han Fei said to Mu Jia'er helplessly, "That's not what you said just now."

Mu Jia'er blushed. "Humph! Did I? I didn't say anything bad about you. Guan Qingyan, did I?"

Guan Qingyan's face was still cold and stiff. Although Mu Jia'er was joking, she was right. Why was Han Fei so free to come to the Scattered Stars Fourth Unit?

Guan Qingyan immediately asked, "Brother Han, what's the matter?"

Everyone immediately realized that Han Fei must have something to do here. They couldn't help but look serious. The Scattered Stars Island was in turmoil. If there was something to do, they couldn't delay it for a moment.

Han Fei put his arm around Guan Qingyan's shoulders with a smile. "Can't I just come back to visit you?"

Seeing that Guan Qingyan was still looking at him quietly, Han Fei shrugged. "Okay! I don't know how Mu Jia'er can stand you, you're always so straight-faced. Okay, let's get to the point..."

...

After he came out of the Scattered Stars Fourth Unit, it was already the next morning. The dark curtain had already enveloped the land and the sea.

Han Fei scanned with his perception and quickly confirmed a place. Then he retracted his aura and stepped over.

Passing the gate, the underground passage, and the mud elevator, Han Fei came to a cottage.

This was the Scattered Stars Archive Room where he had been once before.

As soon as Han Fei arrived, he heard a voice from the cottage. "Marshal Han, what brings you here at night?"

Han Fei wanted to scan this place with his perception, but his fingers moved slightly and he felt he shouldn't be so rude. The person inside seemed to be very strong.

Han Fei's heart did a flip. The Old Chen here was probably a hidden powerhouse.

The old turtle simply said, "Well, he's an old Venerable, but he's been seriously injured and is cultivating in seclusion here."

Han Fei's heart stirred. The old turtle's soul power was very extraordinary! He could even hide in front of a king. It was indeed not difficult for him to find a Venerable.

Han Fei immediately said, "Elder Chen, I want an old file."

"Oh? What is Marshal Han investigating?"

Han Fei said firmly, "All the information on Tang Yan, the supreme commander of the Scattered Stars Island 1800 years ago."

Chapter 1400: A New Broom Sweeps Clean (2)

The next morning, the sky was clear and the Cloud Whale's lonely cry could occasionally be heard from the depths of the clouds.

Sea God Square, Central City, Scattered Stars Island.

As early as the dawn of the sky, this place was already crowded. The square that stretched out for more than 10 kilometers seemed a little too small at this moment.

Fortunately, the sea area around the Scattered Stars Island had to be guarded day and night. This was a critical moment of war, and a large number of people had to defend the coastline. Therefore, at most half of the people could come today.

But even so, the five cities were all empty, and it was noisy outside the central city, and the crowd stretched for dozens of kilometers.

It was like a conference. Before the leader came, there was a flurry of discussions below.

Someone said, "I think the situation is critical at this moment. Even if we want to change our commander, we shouldn't do it at this time. After all, Han Fei is not very familiar with the various defense situations on the Scattered Stars Island."

Someone retorted, "What are you afraid of? No matter who he is, he just needs to fight against sea demons. Han Fei is obviously stronger!"

Someone said, "Han Fei is indeed very strong. He has killed two Venerables in a row. Do you know what it means? I heard that more than ten of the great demons at the Dao Seeking realm have been killed by Han Fei. Who else on the island has this ability?"

Someone rolled his eyes. "What do you know? A reckless man who only knows how to fight is brainless."

Someone ridiculed, "You are the brainless one! If Han Fei is brainless, will Marshal Xue Shenqi let Han Fei succeed on the throne? Why don't you use your brain?"

While everybody was talking, someone else suddenly said in the crowd, "Han Fei is not qualified to be the supreme commander of the Scattered Stars Island. I'm told that Han Fei's father is a Venerable who forced Marshal Xue Shenqi to step down. Otherwise, the Scattered Stars Island will be massacred."

Instantly, everyone exclaimed, and someone exclaimed, "How can this be?"

As if to prevent others from eavesdropping, most people spoke telepathically, thinking that there were millions of people here anyway, and nobody could tell who was speaking.

Someone else said, "Do you know that Han Fei is from the Thug Academy? That academy once planned to activate the taboo, causing the entire human race to be in danger."

"Huh?"

Someone asked, "What taboo can cause the entire human race to be in trouble?"

The man shrugged. "I don't know. I just heard it from someone."

...

While the millions of people were discussing, in the void, Han Fei and Xue Shenqi stood side by side.

Xue Shenqi said indifferently, "If you want to control the Scattered Stars Island, you have to grasp the human heart first. You know that it's the means of the big clans, but you just watch?"

Han Fei sneered. "Watch? Do I have to prove that I'm really here to save the human race? No, I have my own path. My path doesn't allow me to do this."

Xue Shenqi glanced at Han Fei. "You are different from your father. You are one of the few hardliners among the commanders of the Scattered Stars Island. You don't want the Scattered Stars Island's old layout to maintain, but the Scattered Stars Island is limited by its terrain, and the Ten Thousand Demon Valley is very far away. The continuous sea battles along the way can exhaust a lot of people to death, not to mention a long march."

Han Fei said, "We are indeed different, but we don't have different attitudes towards war. What I want is to be united internally. I never expect ordinary people to follow me to kill into the deep sea. That would be stupid. For example, now that I have succeeded as the supreme commander, the situation is already reversed. But those fools from the big clans think that they can stop me from succession with some rumors. I don't know if their brains have been hit by an Iron-Head Fish."

When he said this, Han Fei didn't use voice transmission at all but directly said it out loud. Since he had already spoken, how could others not hear him?

Han Fei sneered. "You don't understand me at all."

Buzz!

Han Fei stepped out and walked to the Sea God Square in the sky above the central city.

"Silence!"

Han Fei stood proudly, golden light emanating from his body, and a golden giant more than 20 meters long was walking towards them step by step like a god of war in golden armor under the sunlight.

Han Fei smiled and triggered a thought, raising the spiritual fire.

Whoosh!

Everyone saw golden lotus flowers blooming at the feet of the golden man in the distant sky.

Boom...

Boom...

Boom...

With each step he took, a lotus bloomed. The lotus bloomed, turned into spiritual energy, and disappeared from the world.

As Han Fei walked forward, he spoke in a deep and heavy voice that echoed throughout the Scattered Stars Island.

Even the people who were guarding at the edge of the coastline couldn't help looking at the sky, saying excitedly, "It's starting, it's starting."

In the Sea God Square, under the public eye.

Many strong masters couldn't help but smile when they saw Han Fei's lotus steps. They thought to themselves, What's the big deal about this? Why do you make it look as if only you can do this?

Someone couldn't help but nod in satisfaction. "This way of showing up is very creative and looks quite awesome."

In fact, everyone present who was not yet an Explorer was stunned. They thought to themselves, is this the power of a powerhouse? With every step he made, a lotus flower would bloom. A single lotus flower can crush a lot of us, right?

Han Fei said jokingly, "Marshal Xue Shenqi, if you don't show up, I dare not take this position."

Smack!

A big sword fell from the sky, which was hundreds of meters high and looked equally impressive. In terms of size, Xue Shenqi's gimmick definitely won.

But in terms of creativity and the degree of shock, Han Fei had won.

Xue Shenqi said, "I've already said what I should yesterday. On Scattered Stars Island, geniuses emerge in large numbers. Han Fei is talented and tough. In the past few days, he has killed two Venerables in a row... In terms of means and ability, he is no weaker than me. I made him the new commander for the sake of the human race. Perhaps my method was wrong, causing the sea demons to be even more rampant and aggressive. I hope Han Fei can change this situation."

Xue Shenqi looked at the millions of people below and said in a loud voice, "You should have heard of Han Fei's achievements. The Fei-Yan-Mu Furnace upgraded the weapons in your hands by a level, allowing refining to enter a new era. After careful consideration, I think Han Fei is among the best among his peers in realm, strength, means, and wisdom. He is qualified to take over as the supreme commander of the Scattered Stars City."

With that, Xue Shenqi waved his hand, and the sky curtain appeared. Under the sky curtain, the entire island could see the scene where Xue Shenqi handed a thirteen-star token to Han Fei.

"Wait a minute!"

As soon as the ritual began, a voice echoed in the world.

It was Chu Qing from the Chu Sect. He had stepped through the void to stop Han Fei.

Xue Shenqi frowned. "If the Chu Sect wants to interfere in the matters of the Scattered Stars Island, don't blame me for being rude."

Chu Qing smiled. "Marshal Xue, don't be hasty. It's not that we don't trust you, but we just don't trust Han Fei and the people behind him.

Chu Qing didn't come here to fight, so he blocked right in front of Xue Shenqi and the others.

Xue Shenqi shouted in a low voice, "The Thousand Star City has no right to intervene in the matters of the Scattered Stars Island. I say it again. Get out of the way."

Chu Qing didn't give in at all. He chuckled and his voice resounded throughout the island. "Han Fei is from the Thug Academy, an extremely vicious demonic-path organization. Its founder, Patriarch Thug, cultivates as an undead creature and has long been a demon. More than ten years ago, he led countless evil forces to attack the Thousand Star City but failed and returned in defeat... Han Fei, let me ask you, is what I said true? You just need to answer yes or no."

Han Fei looked at Chu Qing with a casual smile.

If it were someone else, such as an upright person like Xue Shenqi, an obedient person like Jiuyin Ling, or Old Jiang who was irritable, they might have started a fight.

However, there were millions of humans here. How could a Venerable attack? Otherwise, how many people would be killed by the aftershock?

At this moment, facing Chu Qing's malicious question, how could Han Fei enter the trap he set?

Han Fei said leisurely, "Shut the f*ck up."

"Uh..."

The crowd was in an uproar. Did Han Fei just say foul words? Although everyone spoke like this in private, it seemed inappropriate in front of so many people.

That was exactly what Chu Qing hoped for. He wanted to see Han Fei fly into a rage out of humiliation. If you can't even endure a little provocation, how can you be a marshal?

But Han Fei continued, "The Chu Sect is content to lord over the Thousand Star City. The warriors at the front line risked their lives to kill enemies, but you just sit by and exploit the resources of the Scattered Stars Island. As a result, there are countless Venerables hidden in your clans, even several Half-Kings. However, the human race is in a difficult situation and has suffered heavy casualties, but you've never come to help. Now, only a mere intermediate Venerable like you has come, but all you want is to seize power and obtain more resources. You're sucking the bones and eating the marrow of millions of soldiers. Let me ask you, who the f*ck do you think you are? What makes you big clans in the entire Thousand Star City think you can do this to us?!"

Buzz!

Instantly, the million people present exclaimed. They had never heard of the Chu Sect from the Thousand Star City!

Someone from the Thousand Star City certainly knew of the Chu Sect. Hearing Han Fei's words, they were also indignant.

That was how humans were. No matter where they were, they hated the rich. Besides, the big clans in this world didn't give people a good impression.

Chu Qing's expression changed slightly. "Han Fei, don't avoid the problem. Patriarch Thug cultivates as an undead creature. Do you dare to deny this?"

Han Fei immediately laughed and said, "Patriarch Thug? Sorry, I don't know any Patriarch Thug. He should have died a thousand years ago. Everyone knows that the Thug Academy was strangled by the Thousand Star City decades ago and only a few old soldiers are left. If Patriarch Thug is still around, with his ability to suppress the Thousand Star City alone, do you dare to come to provoke me today? You call yourself a Venerable? Are you an idiot?"

Chu Qing's eyelids twitched. Han Fei is really shameless! He directly said that he didn't know Patriarch Thug. Are you kidding me?

Chu Qing asked, "Do you dare to swear to the Great Dao?"

Han Fei blinked his eyes. "I can swear at any time. However, the Chu Sect of the Thousand Star City snatches the resources of the Scattered Stars Island year by year, so many resources they obtained that they can throw them away for fun, while the front line soldiers have no resources to use.. Do you dare to swear to the Great Dao? Millions of years ago, the Chu Sect and the big clans of the Thousand Star City ambushed the strong masters from the Nine Heavens, angered the Heavenly Dao, and made the Heavenly Dao Dharma Eye watch over the human world, causing the human world to no longer have a king. Do you dare to swear? Do you... dare?"
