

Chapter 1431: Star Turtle Becomes A Venerable

War was a common thing on the Scattered Stars Island. Even on a full-scale battlefield, things like all sea demons attacking the island had happened more than once in recent years.

Therefore, the million soldiers on the Scattered Stars Island were already used to fighting. If they had to fight, they would fight. If they died in battle, they would just accept their fate. If they didn't die, they would get a large number of resources to cultivate in seclusion.

For most people, as long as they had enough resources, they were completely capable of making progress.

However, today Han Fei told a fact that they had never heard of. There was a king's corpse on the Scattered Stars Island? A king's corpse could give birth to Spirit Awakening Fluid?

In other words, the king's corpse was a treasure that had raised humans for countless years.

With this in mind, many people immediately understood why the sea demons came to attack the island and snatch the Spirit Awakening Fluid. It was all for the corpse of the king!

When Han Fei issued this order to the entire island, the Venerables of the big clans and the seven major sects were all shocked. Han Fei had said it so blatantly?

But on second thought, even if Han Fei didn't say it, the Star Turtle couldn't hold on much longer. It would only be a few months before the million soldiers on the Scattered Stars Island learned of it.

This didn't surprise them. What shocked them was that Han Fei said that the Star Turtle was about to become a Venerable. This was completely beyond their expectations.

It was too sudden and no one was prepared. The Venerables of the big clans still thought that there should be a few months left. After all, there was still no news from the Empyrean Waterfall.

Mu Tianfang and the others from the seven major sects all gasped. Once the Star Turtle made a breakthrough, it meant that the competition would begin.

Jian Sanqing said, "Everyone, let's face the enemy first. It's not yet certain who can get the king's corpse. The big clans dare not take it lightly. Otherwise, not only Han Fei wants to kill them, but we also won't let them off. Therefore, let's face the enemy first."

The Fire Moon Fairy agreed. "I second that. The most likely result is that we can split some. But if we can exclude the big clans, we can naturally split more."

Patriarch Six Swords said, "I'm not worried about the king's corpse. I think that although Han Fei has a good relationship with the seven major sects, it's only relative. Han Fei has never asked for our opinion on many matters on the Scattered Stars Island."

Elder Bingyun said indifferently, "We know that he is the supreme commander of the Scattered Stars Island. Once he takes this position, what he sees is not the gains and losses of one person or two people,

but the entire human race. I think we should win this battle first. If the big clans really take action, the consequences are definitely not something that one or two big clans can bear.”

...

While the powerhouses of the seven major sects were gathered and discussing, the people of the big clans were also gathered. Whether it was the big clans or the seven major sects, they were considered outsiders on the Scattered Stars Island. If the supreme commander didn't ask, they wouldn't take any action.

At this moment, Chu Qing and the others looked awful. “Something must've happened that we don't know about. According to our patriarch, there are at least three months before the Star Turtle shows up. But now, this is so far in advance. It's impossible that nothing happened.”

Ye Kai asked, “Have you noticed that everything has been messed up since Han Fei took over the Scattered Stars Island? He has only been back for a few days, but two big battles have already broken out, and then he mobilized the 36 towns. What is his purpose?”

Yang Kun said, “Humph, I don't think he has any purpose except to show off in front of the million people.”

The Venerables really wanted to roll their eyes at Yang Kun. The Yang Family people just didn't use their brains. Was there something wrong with Han Fei's head? How was it possible that he was just trying to show off in front of everyone?

Zhang Zhihuo looked solemn. “It's too sudden. The strong masters in our clans are probably not prepared, because all this is not in their plan. Whether Han Guanshu will appear, whether Patriarch Thug and Ren Tianfei will appear, whether the faceless people of the Thug Academy will appear, and whether they will take the opportunity to attack Thousand Star City again, we don't know.”

When Zhang Zhihuo said this, everyone's expression turned ugly. But if their clans didn't send real strong masters over, they might not be able to handle this!

Even including Cao Shuang, there were only six Venerables from big clans.

The seven major sects had four Venerables, Xue Shenqi was already on Han Fei's side, so there were six Venerables on Han Fei's side, including Han Fei himself.

It was already six-on-six. Even if they were to fight each other, it would be difficult to decide who would win and who would lose. The main reason was that Han Fei was too strong!

Chu Qing said, “We'd better wait a little longer. Our clans won't give up this opportunity. If we can't beat them and get the remains of the king, there must still be someone scheming in the unknown corner behind us.”

...

While the million soldiers and powerhouses were shocked and worried, Han Fei and Xue Shenqi had just come to the Empyrean Waterfall.

Suddenly, a voice appeared on Han Fei's waist tag. "Marshal Han, the entire island is preparing for war. What about the sightseeing group from the 36 towns?"

"Huh?"

Han Fei scanned with his perception and immediately saw the more than 50,000 tourists. At this moment, they were looking up at the sky in shock.

Han Fei immediately noticed the four of the village leader.

Han Fei couldn't have felt worse. Who let them in? Among these people, the strongest one was the village leader, who was only a peak-level great fishing master. What are you doing here?

But then he remembered that the village leader and Wang Jie were quite intimidating. Even He Mingtang was the deputy president of the Central Primary School of the Heavenly Water Village, and Li Gang was the deputy leader of the Fish Dragons.

Only these people could really spread the information of the Scattered Stars Island to the public, which was trustworthy enough for many people.

Buzz!

Just when the fifty thousand tourists were shivering, a hundred meters away, next to Meng Liang, a phantom head suddenly appeared. It was Han Fei!

"Hiss!"

Everybody gasped hard. What was going on? Why didn't this head appear out of nowhere?

Li Gang exclaimed, "Leader, leader! I'm A-Gang..."

Han Fei was speechless. Why does this guy so stupid? Does he not know who I am? How will others see me if they hear you call me that?

Han Fei shouted in a low voice, "Shut up!"

Hearing his order, Li Gang immediately shut his mouth, and Han Fei said leisurely, "The sightseeing group, take a rest on the spot. When this battle ends, the sightseeing group can continue the sightseeing."

Meng Liang quickly asked, "Marshal Han, what about me?"

Han Fei said, "Return to your position. The Trans-Island Inspectors are on a heavy mission. They can't go without you."

Meng Liang was secretly relieved. "What about them?"

"Pfft!"

The void was torn apart, and a pangolin passed through the void. The strength of an Explorer made Meng Liang's heart skip a beat. He had been on the Scattered Stars Island for so long, but he had never seen such a creature, nor had he ever seen anyone's spiritual beast so powerful.

Therefore, this must be Han Fei's work.

Han Fei said, "I'll take care of the safety of these people. Earth Nine, guard these people and don't leave without my order."

Earth Nine: "Yes, Master."

From beginning to end, Han Fei ignored them except for a yell.

At this moment, many people were shocked by Earth Nine Drilling through the void, wondering why this strange fish was so much stronger than them. The village leader tugged at Li Gang's arm and said, "Don't act like you haven't seen the world. Can't you see a big war is coming? Behave yourself."

Wang Jie also looked at Li Gang. "The village leader is right. Why are you yelling? Don't disturb Han Fei at such a critical moment!"

...

The Emyrean Waterfall.

Many people were still watching from a distance. Jiuyin Ling was only a kilometer away from Han Fei and was standing at the gate of his courtyard. Han Fei turned his head and said, "Everybody from the Emyrean Waterfall. Go to the central city and gather in front of the Marshal's Mansion."

Many people were puzzled. Logically speaking, they should go to the periphery battlefield to help with the battle, but Han Fei asked them to go to the central city. Would they have a secret mission?

Jiuyin Ling said, "Live on."

Han Fei's lips curled. "Who can kill me?"

"Hum..."

When the fishing boats took off one after another, the Star Turtle finally said, "I'm ready. I can hold on for another three months. But if I become a Venerable now, the earth will shake and all the sea demons will notice me..."

Han Fei looked at Xue Shenqi. "Mr. Xue, leave the Scattered Stars Island to me. I'll leave the rest to you."

Xue Shenqi said expressionlessly, "OK!"

When Xue Shenqi tore through the void and left, Han Fei took a deep breath and immediately shouted, "Big clans, seven sects, Venerables, and explorers, listen to my command. This is war. If anyone doesn't take my order, I'll punish him with military law and he'll become an enemy of a million people, so don't make mistakes."

While Han Fei was speaking to these people, under a certain street on the Scattered Stars Island, a pure black shadow drilled out of the ground, flew across the sky, and followed the distant and lonely crying sound in the sky away in the blink of an eye.

After half an hour.

Han Fei perceived that there was almost no one in the four outer cities. Only when everyone was on their post did Han Fei heave a sigh of relief.

“Huff!”

“Senior Star Turtle, you can make a breakthrough now.”

Hum... Crack... Crack... Crack... Crack...

At that moment, the earth was shaking on the Scattered Stars Island, the Emyrean Waterfall was flowing in reverse, and the thousand-meter-tall mountains were cracking. In the middle of the sky, Dao runes appeared, and rays of light floated thousands of kilometers away.. Seeing this, the millions of people on the Scattered Stars Island who were nervously preparing for battle were excited.

Chapter 1432: An All-out Battle

The Star Turtle finally made a breakthrough!

Above the Emyrean Waterfall, Dao runes descended and rays of light enshrouded the sky.

However, there was only one person standing under the Emyrean Waterfall, and that was Han Fei.

At this moment, Han Fei said casually, “Take your time. There’s no rush.”

The Star Turtle, on the other hand, couldn’t be more nervous. It said to Han Fei telepathically, “Guard me. Once I become a Venerable, I’ll be extremely strong.

Han Fei nodded. “In my territory, no one can touch you.”

The Star Turtle believed in Xue Shenqi and Han Fei. It could be said that the Star Turtle believed in every supreme commander of the Scattered Stars Island. Over the years, the Star Turtle had long discovered that those who could be supreme commanders were very sophisticated and knew the consequences of their actions.

At this moment, spiritual energy soared into the sky, and rays of light shot out.

It was the first time Han Fei had seen someone becoming a Venerable. Except for a few people on the Scattered Stars Island, no one knew what it was like when someone became a Venerable.

Han Fei announced to the entire Scattered Stars Island, “My fellow soldiers, the Scattered Stars Island has fought for countless years, and countless heros have been buried here, far away from their homeland. This battle may last one day, two days, or even three days. However, please believe me, this battle will be one of the most exciting battles in the history of the Scattered Stars Island. It has never happened even in the last ten thousand years! Everyone, we are creating this era and bringing mankind to glory...”

“Roar!”

Roar! Roar! Roar!

“Son of a b * tch, let’s fight it out!”

“I’m a little nervous. Is Marshal Han going to fight an epic battle? Can we do it?”

Some people were shocked, hoping that fewer people would die this time.

“Marshal Han ~”

“We are willing to create a golden age for mankind.”

Although they hadn’t seen the enemy, everyone knew that a storm was coming. It seemed that the enemy would arrive in an instant.

They were all people who were used to seeing death. When they heard Han Fei’s ambition, for some reason, they felt a sense of satisfaction.

It seemed that Han Fei was just doing something that they had never dared or could do before. He was going to fight a final battle against the Ten Thousand Demon Valley! Who cared? Today, they would be on a killing spree!

The village leader, Wang Jie, and the others were horrified to see Han Fei. How many years had it been? The poor boy who suddenly rose to fame had reached such a point? This was already beyond their understanding!

The other members of the sightseeing group breathed heavily and were in an uproar.

Someone was excited. “A great battle! We’ve caught up to a great opportunity and encountered a great battle!”

Someone was worried. “Will we be in danger?”

Someone said, “How are we in danger? Don’t you see that the people who should be fighting have all left? Besides, with our strength, what combat power can we have? The enemy won’t pay any attention to us.”

...

The moment the Star Turtle made the breakthrough, a great Venerable of the Ten Thousand Demon Valley stood up and said, “The king is right. The Scattered Stars Island has made a move. I didn’t expect them to be so quick...”

Immediately, the Sea Demon Venerable’s voice resounded throughout the void. “All soldiers, attack the Scattered Stars Island. This battle will put an end to this protracted war. Star Gate Array, open.”

The Ten Thousand Demon Valley seemed to have already received the news that the secret of the sage realm had been cracked.

The Black Evil Conch King personally ordered that within three days, if the Scattered Stars Island moved abnormally, all soldiers would attack. Three days later, if the humans had no movement, all soldiers would still attack.

At this time, it had only been a day since the Black Evil Conch King issued the decree, but the Scattered Stars Island had already made a big move.

The Ten Thousand Demon Valley couldn't wait any longer. Now, they had to take action. If they didn't, the king's corpse would be gone! Therefore, they had to take action quickly.

"Hum..."

Above the Ten Thousand Demon Valley and the Blood Demon Valley, two purple spirals suddenly rose, illuminating the void.

"Woo ~ Woo ~"

In the spirals, a strange horn sounded.

Immediately afterward, several stars fell.

However, before the starlight fell to the ground, huge portals that were enveloped by aurora appeared at the bottom of the sea one after another.

Yes, this time it was no longer just teleportation arrays, but gate-shaped passages.

In the Blood Demon Valley, a Venerable shouted, "Array in order. Strong masters, lead your teams to charge and board the island. If anyone escapes or flinches, kill him."

Another Venerable smiled. "Shall we leave no one?"

The herald Venerable chuckled. "No. This is a full-force battle. Our king is furious that someone destroyed the sage realm. He will definitely send Grand Venerable Qingliu here at all costs. However, we can't wait any longer! The Scattered Stars Island has already begun to take action. We have to go now."

A Venerable asked, "Grand Venerable Cao Xuan, what about the sage realm? Lord Mo Lin has returned. Yin Ge alone can't set up such a long teleportation array."

Cao Xuan didn't care at all. "It doesn't matter. Under the perception of our king, who can cause trouble? The 50,000 sea demon realms of the Ten Thousand Demon Valley are enough to crush those humans on the Scattered Stars Island."

"Woo... Woo..."

The howls were deafening.

The sea demon army that was as dense as water locusts charged at the gates that spiraled down.

...

On the Scattered Stars Island, the glow was getting more and more intense.

Perhaps because the old turtle had been suppressing the Empyrean Waterfall for too long, his accumulation was unbelievably rich. After only a moment, in a radius of three thousand kilometers, light flashed in the sky, and the aura of Dao runes descended.

The weather changed and Dao Runes covered the entire island. Like a drizzle, they fell on people, feeling extremely gentle.

On the coastal area, someone sighed. "Is this how's like to be a Venerable? Venerable! What kind of powerhouse is that?"

Someone sighed. "In fact, it's just that we don't have time. Most of the time, we're stuck on the Scattered Stars Island. If there weren't the Ten Thousand Demon Valley and the sea demons, we might have been able to travel the seas freely and grow up quickly."

Someone laughed. "Don't think so much. Let's win this battle first."

Someone said, "It's almost been half an hour, but we haven't even seen any sea demons. Will the sea demons really come? I think even if they come, so what? Maybe the powerhouse has already made a breakthrough."

Someone sneered. "What do you know? Marshal Han said that there were already wars in places we couldn't see. Don't you understand? Stay vigilant..."

Hum...

While countless people were discussing the breakthrough of the Star Turtle on the Scattered Stars Island, a huge crack suddenly appeared in the sky.

The leaders of the Explorers of the major organizations roared, "Everybody, prepare to fight the enemy."

Someone experienced took a deep breath. "It's a star gate! The Ten Thousand Demon Valley opened a star gate teleportation array. This unprecedented war only appeared 1800 years ago."

The experienced explorers were all shocked and tense. Who would've thought that this shocking battle would break out just because the Star Turtle made a breakthrough?

Ordinary people had never seen a star gate teleportation array before! They all exclaimed in shock.

All the commanders, captains and team leaders shouted, "Have you prepared the resources? You didn't use all the resources that Marshal Han gave you, did you? Remember, if the battle starts, use all the resources. Don't save any. Otherwise, I'm afraid you will die."

Someone shouted, "Brothers, this battle has never happened before. We have to win. Think about your family in the Thousand Star City or the 36 towns. This battle is for the sake of the billions of human beings and your family and friends."

In fact, the frequency of battles on the Scattered Stars Island these past few years had told them that there might be abnormally big battles. Maybe this unprecedented war was one of them.

Almost everyone on the defensive lines of the Scattered Stars Island breathed heavily. As they roared, they saw a massive number of sea demons surging out of the star gate teleportation array.

The Inferior Man-Fish and Red Demons came at them like a tide.

A sea demon Half-Merman came out and walked around the battlefield. After a moment, hundreds of thousands of sea demons appeared.

At this moment, Han Fei was also watching this scene. He frowned. This teleportation array seems to be very high-level! He had never seen such a teleportation array! The sea demons actually made a space into a gate and connected the two sides? The teleportation array is so stable...

Han Fei waved his hand, and the Sky Hanging Mirror in his hand shone around the island like playing a movie.

The tour groups of the 36 towns were all stunned and exclaimed, "What is that? What are those things?"

"It's sea demons. They must be sea demons."

"How many sea demons are there? And they are of different colors. How can there be some who look so similar to humans?"

Almost spontaneously, on the coastal battlefield of the Scattered Stars Island, almost everyone trembled.

Was it anger, excitement, or struggle?

At this moment, everyone held their weapons, craned their necks, and roared, "Kill!"

The captains all yelled, "Don't panick! Listen to my command..."

After only a hundred seconds, a large number of sea demons had occupied the place ten kilometers away.

At that moment, waves surged.

Within thousands of kilometers, a large number of sea demons were summoned and began to attack the coast.

This time, it was different from any other battle. In the past, most sea demons drove sea creatures to attack the coast, trying to consume humans.

When the sea demons were ten kilometers away from the coastline, the human beings' morale had reached its peak. Seeing the excited crowd, the commanders and captains roared and unleashed their spiritual energy.

"Kill!"

"Brothers, this is the last time. Let's fight it out!"

"Follow me! For the sake of the billions of human beings!"

"Don't blow yourself up unless you have to."

Someone shouted as he sprinted, "Don't disperse! Where the f*ck are you running to? Team up, team up..."

Someone shouted, "Fuse, fuse..."

"Kill..."

Amidst the cheers, two torrents of iron water collided and spread out on the battlefield.

Boom Boom Boom...

This was the first moment of impact. All kinds of explosions sounded!

This unprecedented battle began.

Chapter 1433: Confrontation

On the periphery of the battlefield, the craziest battle in history had already begun.

Only then did Han Fei realize that as the supreme commander, to achieve his purposes, some people had to be sacrificed.

It could be said that he had sacrificed them easily.

However, Han Fei didn't regret it.

At this time, Han Fei also realized that Xue Shenqi had been in charge of the Scattered Stars Island like this for so many years. It was probably because of this that his face was always stiff.

Han Fei turned off the Sky Screen.

It was not the time to play a movie. He did that just now to boost the soldiers' morale. He wanted the entire island to see that this war was different from any previous one.

The Emyrean Waterfall.

The mountain collapsed, the waterfall flowed back, and in all directions, there seemed to be a mysterious law of the Great Dao.

From the outside, it could be seen that the Emyrean Waterfall was rising. It was already more than ten kilometers higher than before, and it was still rising rapidly.

Han Fei knew that the bottom of the lake was sixty kilometers away from the ground. Every time the Star Turtle rose, thousands of steel cables seemed to be broken.

He had been suppressing the place for too long, so long that he seemed to be sealed here.

This kind of breakthrough required a huge amount of energy and spiritual energy. Fortunately, after thousands of years of accumulation, the Star Turtle had no shortage of things like spiritual spring and energy.

Suddenly, Han Fei subconsciously pinched his fingers, knowing that something was wrong.

The old turtle said, "The Sea Demon Venerables are here."

Han Fei reached out and touched the star token on his waist without moving his body at all. "The show is about to start!"

...

On the Scattered Stars Island, from the Emyrean Waterfall to the Transverse Mountain... soldiers on the major defensive lines would be replaced every 4 years. And the replacement time for the Emyrean Waterfall was usually more than 10 years. Therefore, the probability of the strong masters of the Emyrean Waterfall breaking through to the Explorer realm was extremely high.

With generations of replacement, would the powerhouses created by the Scattered Stars Island disappear?

Of course not!

Some of these people went to the Thousand Star City, and some went to the sea behind the Scattered Stars Island, which was the unknown sea area that in theory could lead to the level-three fishery and the 36 towns.

There were also people on the Scattered Stars Island. Some were in the Transverse Mountain, some were in the central city, and some were hiding in the bustling markets of the major cities.

In the years when Han Fei was in the Water-Wood World, these people had been returning. Up to this day, there were a lot of these people, mostly gathered in the central city and the great array of the Marshal's Mansion.

Xue Shenqi stood in the air.

At this moment, everyone's eyes were attracted to Han Fei.

The people around Xue Shenqi were all from the Transverse Mountain and the Emyrean Waterfall, who had just been transferred here temporarily. Although this might attract some attention, it didn't matter. No one dared to ask Xue Shenqi about it, even if he had already resigned.

Jiuyin Ling, He Xiaoyu, and her entire team were among them.

Why? Because those who lived in the Emyrean Waterfall could no longer be regarded as ordinary people. He Xiaoyu had planned to return to the team.

However, they were stopped before they left the Emyrean Waterfall. Now that they were here, they could no longer return to the team. He Xiaoyu and the others were stunned for a long time.

At this moment, He Xiaoyu and the others looked at the more than 3,000 people in the array of the Marshal's Mansion.

He Xiaoyu suddenly discovered that she and her team were the weakest.

Almost everyone here was at least a peak-level Hidden Fisher.

He Xiaoyu had reached this level, but her team hadn't arrived yet. Even so, in order to prevent any information from being leaked, they had never taken a step away from the Emyrean Waterfall.

Xue Shenqi's eyes were cold. There were 2,681 peak-level Hidden Fishers, 381 Sea Spirit Realm powerhouses, and 6 Explorers here, such as Youye, Yue Shier, Ning Jingyao... Han Fei knew these people. They didn't go to the Thousand Star City back then. Then where did they go?

Xue Shenqi shouted in a low voice, "Three years ago, I intended to recall you. However, most people have disappeared. I tried my best, but I could only summon 3,068 of you. Today, the battle on the Scattered Stars Island is a battle that could have been foreseen many years ago. Whether I or Han Fei is the supreme commander, this battle must be fought..."

Xue Shenqi's body was full of murderous aura. "Since it's Han Fei who is fighting this battle, I'll leave the Scattered Stars Island to him. Now I need you to fight an undecided battle. Are you willing to follow me?"

"We are willing."

Xue Shenqi said lightly, "Today, follow me to destroy the Ten Thousand Demon Valley."

All of a sudden, a directional teleportation array was activated in the grand array of the Marshal's Mansion.

Han Fei had been planning to launch a sneak attack on the Ten Thousand Demon Valley for more than once. However, the Ten Thousand Demon Valley was the sea demons' base, so how could he launch a sneak attack?

And recently, the Star Turtle had become a Venerable and most of the sea demons came to attack the island. This was the best time to sneak attack the Ten Thousand Demon Valley!

The Emyrean Waterfall.

Shua!

Han Fei suddenly waved his sword and stepped in.

Han Fei's voice was still echoing, "Everyone, now that you're already here, there's no need to hide."

"Hum..."

Then the figures of strong masters appeared in the void one after another.

In the void, nine Venerables appeared uniformly.

One of them said, "Well! I didn't expect that there was not even a single advanced Venerable on the Scattered Stars Island."

In Han Fei's heart, the old turtle said, "The other party has two advanced Venerables, but no peak-level ones."

Han Fei didn't panic at all. From the looks of it, the strong certainly wouldn't attack so easily. This was war! What they were fighting was not an upright battle, but peak-level combat power.

Han Fei tilted his head. "I am the supreme commander of the Scattered Stars Island, Han Fei! The Emyrean Waterfall is right under my feet. Come and grab it if you have the ability!"

"How can a kid who hasn't even reached the level of a Half-Venerable be the supreme commander of the Scattered Stars Island? How dare you challenge me? I'm Mo Lin. Let's see how strong you are."

Mo Lin's body flashed, and eight reddish-brown tentacles appeared in the air, stabbing at Han Fei like arrows.

Han Fei put his hands behind his back, his face full of disdain. Then an iron rod suddenly broke through the air, struck the sky, and extended out. The eight tentacles trembled.

The tentacles fused and struck out with a bang, blasting out rolling ripples.

An old voice said, "Well, I haven't been out for years, and my bones are a little loose. I wonder if anyone still remembers me, Chen Sanbai."

Mo Lin's expression changed slightly. "Humph! Just an advanced Venerable. And unfortunately, you're already old."

However, the Venerables of the big clans and the seven major sects were all shocked.

Chu Qing asked, "Huh? It's him? He's still alive? 800 years ago, as the supreme commander of the Scattered Stars Island, he broke into that place. I heard that he never came out!"

Among the seven major sects, Jian Sanqing said in surprise, "Chen San, the one who led 300 righteous warriors into the Infinite Ocean? Someone even joked that he was Chen Sanbai, taunting that he led 300 people to die."

On the Yin-Yang World's side, they didn't know the Wall of Death and only thought that it was the Infinite Ocean. It was said that so far, no one had ever come out of the Infinite Ocean alive.

But now, someone had survived, and his strength...

Immediately, everyone was horrified. Had he already reached the advanced Venerable realm?

He didn't expect that there was such a powerhouse outside of the Thousand Star City.

Han Fei smiled. He didn't expect an old man in the archive room to be so strong!

Originally, he had thought that the high-level combat power on his side was no match for the other party, so he might as well let Jing'er fight! As it happened, he had gathered a large number of people this time. Once Jing'er attacked and swept these people away, his reputation on the Scattered Stars Island would reach an unprecedented peak.

However, Xue Shenqi mentioned Old Chen to Han Fei, which made Han Fei change his mind.

Han Fei immediately shouted, "Where are Chu Qing, Ye Kai, Cao Shuang, and Jian Sanqing?"

"Hum..."

When these people appeared, in an instant, four people in the sea demon camp walked out.

These people were all intermediate Venerables, but they were still Venerables. Indeed, although there was a gap in strength between Venerables, it wasn't too big.

Chu Qing took a deep look at Han Fei and thought to himself, I'd like to see how Han Fei will fight this war.

On the sea demons' side, there were a total of 4 intermediate Venerables, with one from the Blood Demon Valley, one from the crack, and two from the Ten Thousand Demon Valley. At this moment, all of them were pulled away. Immediately, there were fewer Venerables around.

Then, Han Fei said, "Yang Kun, Sun Baisheng, Zhang Zhihuo, Patriarch Six Swords..."

Another four sea demons came out and tore the void, leaving only one sea demon Venerable.

The only sea demon Venerable said, "To be honest, there are many strong masters on the Scattered Stars Island. However, I am Zi Yuchuan, an advanced Venerable. May I ask how the supreme commander of the Scattered Stars Island is going to stop me?"

Han Fei looked at Zi Yuchuan and shrugged slightly. "No rush. I heard that you brought a lot of great demons in the Dao Seeking realm?"

Zi Yuchuan grinned. "So what?"

Han Fei grinned and said, "How about I give you the Empyrean Waterfall and you give me the hundred Dao Seekers?"

Zi Yuchuan's pupils were constricted, thinking, What does Han Fei mean?

Han Fei said, "This deal is very worth it! There are still two junior Venerables on my side, and myself. You, an advanced Venerable, are certainly not strong enough for me. However, if you make a move, I'm afraid it won't be too difficult for me to kill the hundred Dao Seekers. What do you think?"

Zi Yuchuan sneered. "Do you think I'll believe you?"

Before he finished speaking, Zi Yuchuan shouted again, "Everybody, kill the strong masters of the Scattered Stars Island."

In the void, figures appeared one after another, dispersing in all directions of the Scattered Stars Island.

Han Fei said, "Elder Bingyun, Fire Moon Fairy, I'll leave these explorers to you."

The Fire Moon Fairy asked, "What about you? Can you stop this person alone?"

Han Fei smiled. "I have to try!"

Chapter 1434: Watch Me Slaughter the King

Zi Yuchuan was a little stunned. Watching Elder Bingyun and the Fire Moon Fairy fly away, how could he bear it?

No matter how strong a great demon in the Dao Seeking realm was, it was impossible for him to be a match for a Venerable.

He launched an attack and pressed the void with an ancient seal, trying to block the two of them.

However, with a roar, the phantom of a hundred beasts swept across, and Han Fei's body expanded and appeared in the way of Zi Yuchuan's bombardment.

Bang!

Han Fei was blown a hundred kilometers away, but as he stomped on the ground, he immediately came in front of Zi Yuchuan. "You should still have a peak-level Venerable, right? Why don't you leave the rest to him?"

Zi Yuchuan's expression changed drastically. "Are you playing the trick of bullying us with numbers?"

Han Fei shrugged. "Did I? I didn't! But, are you playing the trick of bullying me with seniority?"

Although Han Fei was clamoring, he was extremely anxious in his heart. It was impossible for Elder Bingyun and the Fire Moon Fairy to succeed. The two of them just wanted to sound them out.

Han Fei knew very well that if he were the Black Evil Conch King, he would definitely change his plan. He wouldn't give him a month no matter what, especially when he had even been to the so-called sage realm.

As he expected, as soon as Elder Bingyun and the Fire Moon Fairy broke through the air, they saw the void tremble as two spear beams struck out, blowing the two of them back.

Sure enough, a few more junior Venerables had appeared on the Ten Thousand Demon Valley's side.

Han Fei guessed that the Ten Thousand Demon Valley was also waiting. They knew that they were not strong enough to accomplish the task in one fell swoop, so they didn't take the lead to attack. Otherwise, they would have long destroyed the Scattered Stars Island.

When he entered the sage realm, the Black Evil Conch King knew that he couldn't wait anymore. He would fight first. Winning or losing didn't matter. Anyway, they couldn't give him time.

If he guessed right, these two junior Venerables should have been sent over this day.

However, Han Fei was almost certain that at this moment, the Sea Demon Royal City must still be sending people over.

...

Ten Thousand Demon Valley.

Xue Shenqi led more than 3,000 people out of the teleportation array and quickly swept through the various routes given by Han Fei.

The reason why Han Fei delayed his return for one more day was to set up arrays.

However, since the Ten Thousand Demon Valley launched a full-scale attack on the island, it should be empty. Even if they swept across the Ten Thousand Demon Valley, so what? They couldn't kill many sea demons.

But Han Fei would rather sacrifice Xue Shenqi and more than 3,000 core combat power to have them sweep the Ten Thousand Demon Valley, betting on the Ten Thousand Demon Valley's trump card.

At this moment, everyone looked at the star gate teleportation array above the Ten Thousand Demon Valley and was horrified. When did these strange teleportation arrays be built?

Xue Shenqi shouted, "Everyone, this has always been the gathering place of sea demons, the Ten Thousand Demon Valley. Now, destroy the Ten Thousand Demon Valley as much as possible. First Unit, destroy these teleportation arrays."

There were always traces of arrays, but Xue Shenqi led the troops to attack along the way, and the star gate teleportation arrays began to collapse one after another.

On the Scattered Stars Island.

When Zi Yuchuan saw that the star gate teleportation arrays were rapidly collapsing, he knew that the Ten Thousand Demon Valley had been attacked.

Not only Zi Yuchuan, in the void, Cao Xuan was locked onto by an aura. He didn't take action because of the aura. His idea was that if he didn't move, the human powerhouses wouldn't either.

As for the other Venerables on the Scattered Stars Island, in terms of overall strength, they were no match for the Ten Thousand Demon Valley. Furthermore, on the frontline battlefield, there were 50,000 Sea Demon Realms and nearly 2,000 Sea Spirit Realms. This force was equally ferocious. If they broke through the human defense lines and the high-level human powerhouses were restrained, they could still win.

But Cao Xuan couldn't figure it out. Under such circumstances, how could Han Fei divert his attention to send people to sweep the Ten Thousand Demon Valley?

Cao Xuan narrowed his eyes. "Could it be that he wants to snipe the teams returning from the sage realm?"

Cao Xuan roared in a low voice, "My king."

After Cao Xuan said that, with a buzz, a terrifying super powerhouse appeared in the air. Who else could it be other than the Black Evil Conch King?

Han Fei was overjoyed at the appearance of the Black Evil Conch King. He let out a long breath of relief. He knew it.

If the sage realm belonged to the Black Evil Conch King, there were millions or even tens of millions of conches there. As long as the Black Evil Conch King was willing, he could copy himself one after another. As long as he was willing to consume enough resources, he could send one or countless projections over.

It seemed that the projection of the Black Evil Conch King was obtained by consuming a lot of corrosive blood.

At this moment, a gigantic conch as high as ten thousand feet suddenly blotted out the sky.

Someone exclaimed, "What kind of creature is that?"

Someone was horrified. "What a huge conch!"

Not just humans, even sea demons exclaimed.

Someone took the lead to shout, "That's our king! Our king has arrived!"

“Roar! Our king has come. The Scattered Stars Island will be destroyed today.”

“Human, die!”

For a moment, the whole front line battlefield was in an uproar, especially the sea demons. Almost at the moment the big conch appeared, the sea demons’ combat power soared.

The big conch said leisurely, “Oh! So you are the new supreme commander of the Scattered Stars Island. You escaped from death last time. Today, I’d like to see what abilities you have to escape from my palm.”

On the Scattered Stars Island, there were millions of creatures. Hearing that the Black Evil Conch King was calling Han Fei, many people’s hearts sank. It turned out that Han Fei and this sea demon king had already met? And Han Fei had a narrow escape from his hands?

Many people looked mournful. If Han Fei, an extremely powerful powerhouse, could only narrowly escape death, how could they fight this battle?

For ordinary people, they didn’t know the difference between the so-called king realm and the Venerable realm at all. They only knew that Han Fei failed to win and escaped.

However, his words raised a storm in the ears of others.

Was there really no one listening in the Nine Heavens? No, this battle was so important that it was impossible for the big clans and the seven sects not to pay attention to it.

However, these people didn’t believe that a king could descend at all. Even if it was a king, at most it would be a projection or a clone.

As long as he wasn’t a real king, they could fight him.

However, when they heard that Han Fei survived a battle with the Conch King, they were shocked. How could Han Fei grow to such a level after only a few decades?

At this moment, Han Fei raised his head and looked at the sky, his voice resounding, “Let me ask you, is anyone in the Thousand Star City willing to take action to deal with this monster? The seven major sects? The big clans?”

The Black Evil Conch King laughed ferociously. “Who in the Thousand Star City can withstand a blow from me? Human beings will be extinct in the end. Then I will take over this Yin-Yang World.”

As the Black Evil Conch King laughed, the soundwaves shook and the pressure descended.

Han Fei frowned slightly. Suddenly, with a swish, a sword tide descended from the sky.

In the high sky, sword Qi suddenly soared.

Han Fei looked at the small red glowing sword leisurely. “Sword Master?”

Seeing that the Star Turtle in the middle of a breakthrough was shivering, Han Fei patted him casually. “Don’t panic. Nobody can touch you as long as I’m here.”

Han Fei chuckled. "Thank you, Sword Master. It seems that the Thousand Star City should indeed be rebuilt. There are so many Venerables, but only one has come. How pitiful."

The red sword torrents crossed the sky.

All of a sudden, the sky curtain descended again, and the ten thousand feet-large huge conch and the sword tide collided.

Han Fei shouted, "Everyone, listen to me. Today, if I am not defeated, you won't be defeated. A mere projection of a king dares to mess around on the Scattered Stars Island? I told you that unless your true body comes, I will kill you."

Ten thousand kilometers away, in the sky.

On the Cloud Whale's back, a black shadow was sitting cross-legged. Who else could it be other than Han Fei's black-mist body?

Han Fei said leisurely, "Cloud Whale, you have been on the Scattered Stars Island for more than 800 years... Oh, no, to be precise, more than 1,800 years. Is it because you know what is under the Empyrean Waterfall is also a Cloud Whale? I've read the history of the Scattered Stars Island. Before that battle, there were no Cloud Whales in the world."

"Woo ~"

Hearing the Cloud Whale's cry, Han Fei chuckled. "Don't pretend. When I went to the bottom of the Empyrean Waterfall and saw the remnant body of the Cloud Whale, I had a doubt. This king's power of the Great Dao was too weak. At that time, I didn't take it seriously. I only thought that that was because of the difference in the power of the Great Dao. However, after wandering for more than 800 years on the Scattered Stars Island, your strength has never increased. How strange is that? The previous supreme commanders didn't see the corpse suppressed under the Empyrean Waterfall. If they had seen it, they would definitely doubt you..."

The Scattered Stars Island seemed to be in great danger, but Han Fei and the Cloud Whale didn't seem to be nervous at all. Han Fei continued, "However, I think many people will guess that the current you is very likely to be the reincarnation of that Cloud Whale. However, heh... it's not that I haven't seen the reincarnation of a king. The reason why a king reincarnates is not to walk the same path, but to make a better path than before. Therefore, you can't be the reincarnation of the Cloud Whale... You are Tang Yan, right?"

After Han Fei said this, the Cloud Whale turned around and changed its direction.

Han Fei heard a leisure voice, "Interesting. When did you find me?"

Han Fei smiled and said, "When I passed through the Cloud Whale's demonic origin but reached the Sea of Pearls, I thought, if you are the reincarnation of the Cloud Whale, then there are too many things in the world of demonic origin that can help you grow, so there's no reason for you not to use them. As for why the demonic origin is directly connected to the Sea of Pearls, heh... I'm afraid that the remnant of the Cloud Whale below is not a king at all, right? Or maybe, he failed to cross the king tribulation..."

Tang Yan chuckled. "Interesting. Why did you call me? Don't you have a trump card? If that girl really attacks, she can kill this king's projection, right?"

Han Fei chuckled. "With you as the guardian of the Scattered Stars Island, why should I use an outsider?"

Smack!

On the Scattered Stars Island, a red long sword was shattered, and the six wheels rotated, cutting across the sky and the earth. The Black Evil Conch King didn't want to wait anymore. In order to prevent the Thousand Star City from really having a strong master attack, he directly blasted the Heavenly Sword Master away. After a round, the figure of an old man was sent flying thousands of kilometers away, blood spurting out as he was seriously injured.

At this moment, with a buzz, black and white brilliance suddenly erupted in Han Fei's eyes.

Han Fei shouted, "The Yin-Yang World has had no king for tens of thousands of years. Even if there is, it won't be a smelly conch like you. Who else would be king but me, Han Fei?"

Buzz!

All of a sudden, Han Fei extended a huge hand and crushed the void. Zi Yuchuan wanted to sit idle and watch how the Black Evil Conch King killed the humans.

But he never expected that Han Fei, who had been watched as a joke, could use the power of a Half-King.

Bang!

In the sky, Han Fei crushed the void and killed a Sea Demon Venerable. Seeing this, the million soldiers were all excited.

Han Fei stepped out in a few steps and stood next to the Black Evil Conch King.

"Everyone, watch me slaughter the king."

Chapter 1435: Fierce Battle

A huge crack stretched across the sky.

In the sky, lightning flashed, thunder rumbled, and a rain of blood poured down. The death of a Venerable made many people tremble.

At that moment, Jing'er was dumbfounded. She had been ready to attack at any time.

As long as Zi Yuchuan took action, she was prepared to pinch him to death. Because in Jing'er's judgment, even if Han Fei's strength was raised to the extreme, he was no match for Zi Yuchuan.

However, when Han Fei's black-mist body returned just now, she knew that Han Fei had gone out. She also knew that the power Han Fei was using now was not Han Fei's own power at all.

How could Ning Jing not know Han Fei's capabilities?

If Han Fei had the ability, he would have used the power of a Half-King back in the Water-Wood World. When he went to the Ten Thousand Demon Valley to investigate, he might have already massacred the Ten Thousand Demon Valley. How could he wait until now?

However, where did Han Fei get this power?

Not only Jing'er, everyone on the Scattered Stars Island's side was stunned!

Han Fei opened his hand, and a large piece of the sky shattered, the void collapsed, revealing a dark void. A guy who looked very strong was squeezed to death by Han Fei just like that?

Zi Yuchuan was really dead, the kind of death that even Blood Rebirth wouldn't work. He probably didn't understand why he died.

Even Jing'er didn't understand it, let alone the others.

Thousand Star City.

Among the seven major sects, there were several people who faintly sighed.

Just now, Han Fei asked if anyone in the Thousand Star City was willing to take action.

However, except for the master of the Heavenly Sword and a few Venerables who had already made up their minds to fight, the others' hearts sank. Did Han Fei just ask that question on purpose?

The big clans didn't get along with Han Fei in the first place.

In fact, it was not that they didn't want to fight, but they wanted to wait and force Han Fei to use his trump card!

After all, none of the people from the Thug Academy had come out yet. The best case was that Han Fei could be seriously injured in this battle. That would be in their interests.

In their opinion, it didn't matter how many people died in this battle. What mattered was that when the king's corpse came out, they had a chance to get it!

At this moment, a voice came from the Chu Sect. "Don't panic. He borrowed power."

However, someone else said, "Even if it's borrowed power, his body should be able to withstand it! Can Han Fei withstand the power of a Half-King? This shows that his body and meridians have reached an extremely terrifying level."

...

Han Fei smiled.

As he said, this was a decisive battle! How could he not have any means? The reason why he went to borrow strength from Tang Yan was that Han Fei was gambling that Tang Yan knew him.

Why could Tang Yan understand him? Because Tang Yan was the commander of the Scattered Stars Island 1800 years ago.

According to the detailed records, During Tang Yan's term of office, the Scattered Stars Island had fought 63 battles in only five years. Tang Yan rose to prominence and swept across the world.

Han Fei certainly knew why. The supreme commander wanted to get the power of will from millions of soldiers! This was why none of the subsequent supreme commanders of the Scattered Stars Island made a breakthrough as quickly as him. In fact, they didn't want to be as crazy as Tang Yan, crazily get the power of will at the cost of human lives.

At first, Han Fei thought so.

However, then Han Fei discovered another fact: in the 500 years after Tang Yan, the war between the Scattered Stars Island and sea demons had suddenly decreased by 80%.

What did it mean? When Han Fei came to the Scattered Stars Island, there were only one large-scale battle every half year to a year, and five large-scale battles every five years.

However, such a low frequency battle couldn't cause much damage to the sea demons.

During the period of the truce, they had plenty of time to recover. As time went by, both sides would accumulate strength. When strength was accumulated to a certain level, there would definitely be a super collision.

This kind of collision was even crueler than the monthly battles during Tang Yan's term of office. For example, today, both parties had mobilized more than 20 Venerables.

This number was extremely rare even in the Water-Wood World. How could Tang Yan, a war maniac, not know that?

Besides, Tang Yan cared about human beings. Otherwise, why would he hide in the Cloud Whale's body and linger here?

Also, when Han Fei deduced the Void Fishing Technique, thunder rumbled. How could Tang Yan not know that? He was the one who asked the Cloud Whale to take him to the place of deduction he chose.

In other words, while Tang Yan was secretly cultivating, he had been paying attention to the Scattered Stars Island. It was certain that Tang Yan knew more about the island than many people did.

Tang Yan was both bellicose and cared about human beings. How could he leave the Scattered Stars Island alone?

However... the way Tang Yan showed his care to the human race was not to participate in the battle personally, but to inject a force into the demonic origin in Han Fei's body.

Han Fei felt that his body was about to explode, so he immediately chose to return.

With a single blow, he killed Zi Yuchuan.

Han Fei's heart trembled when he launched the attack. Did Tang Yan give him the power of demonic origin? Then was Tang Yan a human or a demon now?

However, at this moment, Han Fei was not in the mood to think about it. At this moment, he was at the peak of his strength, so he should use his strongest weapon, the Embroidery Needle.

Han Fei shouted, "Hey! Demonic Conch, die!"

Buzz!

In the sky curtain, Han Fei and the demonic conch disappeared in the blink of an eye. In the sky curtain, Han Fei's voice was still echoing above the Scattered Stars Island.

"All of you, fight hard! If you survive this battle, I'll take you to attack into the Ten Thousand Demon Valley and wipe out the sea demons' lair... Kill..."

"Kill!"

At that moment, the battle on the periphery of the Scattered Stars Island had already gone crazy.

Countless people kept howling and their Qi and blood were soaring to the extreme. Some even made a breakthrough in battle.

On the southern battlefield, Lin Wu was very shocked.

As it turned out, she was a fool. She thought that Senior Brother had secretly taught others Master's combat skills to win people's hearts... but in fact, Senior Brother had already reached a height that she didn't understand at all.

As for the sea demons, their morale immediately dropped.

Although the appearance of the Black Evil Conch King was shocking, Han Fei's appearance was even more shocking. He killed a Venerable with a slap and claimed to kill a king?

More importantly, the Black Evil Conch King didn't refute him, which made them a little scared.

In the void, Han Fei and the Black Evil Conch King had fought ten thousand kilometers away.

Sizzle!

The law of gravity descended, and Han Fei was struck hundreds of times in an instant.

"All laws forbidden in this space."

Clang! Clang! Clang!

In the blink of an eye, Han Fei struck more than 300 times, making the Black Evil Conch King's scalp tingle and his carapace crack. A large amount of corrosive blood flew out, and the damaged carapace was recovering at a visible speed.

"Heaven Enlightenment Divine Technique."

The holy light descended, and Han Fei, dripping with blood, became unscathed in the blink of an eye.

Swish swish swish!

The Black Evil Conch King gritted his teeth. "Impossible. This is not your power."

Han Fei cursed, "It's none of your business! You want to compete in efficiency with me? What? Do you think you can be faster than me?"

The Black Evil Conch King: "Your power, like my projection, will be exhausted in the end. Let's see how long the Scattered Stars Island can hold on."

The Black Evil Conch King's body was twisted, and 24 sharp spikes burst out of its body. Those spikes immediately turned into a new big conch.

Han Fei was stunned. What the hell is going on?

The Black Evil Conch King said with a ferocious smile, "I'd like to see if you can split into millions of clones too."

In Han Fei's body, the old turtle said, "It's just a clone technique, but their strength can't be underestimated. Each of them is equivalent to a Half-Venerable."

"Roar!"

The Hundred Beast Soul Subduing Roar was used.

However, as soon as the sky-shaking roar sounded, with a "Woo", a conch sound shook the sky, and the hundred beast shadows cracked inch by inch.

The Black Evil Conch King sneered. "Let's see how long you can hold on!"

Han Fei stomped, and the space was shortened. The Black Evil Conch King, who tried to run away, couldn't even run a hundred meters away.

Han Fei casually threw out a mass of demonic energy and billions of points of demonic energy instantly exploded, directly exploding the void across tens of thousands of kilometers.. The pillars of light in the sky and on the ground shone for a long time.

Even on the Scattered Stars Island thousands of kilometers away, in the chaotic battlefield, everyone felt that their eyes were dazzled as if they had been blinded.

Rumble!

The clone of the Black Evil Conch King didn't even have time to run before it was blown to pieces.

Han Fei said disdainfully, "You think you're the only Half-King here? I'm also a Half-King now. How much stronger do you think you are than me?"

The Black Evil Conch King was furious. This time, he sacrificed half the sage realm in order to leave the sage realm. However, Han Fei's attack had reduced his strength by 20%.

Before the terrifying power dissipated, Han Fei smiled and said, "Explode again."

The Black Evil Conch King's heart did a flip. F*ck, is there more?

But he immediately realized that something was wrong. A drop of water had appeared on his shell at some point.

Boom!

The Infinity Water exploded.

However, the power disappointed Han Fei! Although he could temporarily use the power of the Half-King realm, the Infinity Water hadn't reached this level yet.

However, Han Fei didn't care. He raised the Embroidery Needle again and shouted, "Come on, aren't you a king? Show me one more clone of yours!"

The Black Evil Conch King snorted.. "Your name is Han Fei, isn't it? You have a lot of tricks up your sleeve. But is that all you've got?"

Chapter 1436: If I Want You Dead, You Have to Die

When it came to the strong, they never lacked fighting methods.

Han Fei's strength was only temporary. In terms of strength as a Half-King, what he was good at seemed to be lacking.

The Infinity Water didn't leave any traces on the Black Evil Conch King. There wasn't even a wound. As for how much energy the Black Evil Conch King had consumed, it was unknown.

Spikes flew everywhere, and the spikes that had just turned into clones turned into dark green beams of light.

"Not good!"

Han Fei had forgotten that the Black Evil Conch King also had the power to seal space. If he was trapped here, as long as the Black Evil Conch King was given a little time, the consequences would be dire.

"Near at Hand."

Han Fei stepped back a hundred kilometers.

Immediately afterward, he activated the Star Teleportation Technique and only then did he escape in a pillar of light. If he had been one second slower, the consequences would have been disastrous!

Han Fei broke into a cold sweat. In his heart, the old turtle said, "Don't panic! This conch must have consumed a lot of energy. Fight him from a distance. We just need to hold him back."

...

The entire mountain in the Emyrean Waterfall had been raised by 40 kilometers. From a distance, it looked like a huge pillar that connected the sky and the sea.

With the Emyrean Waterfall as the center, the space within hundreds of meters was full of cracks. Here, the residences of the families had long collapsed, leaving only debris on the rising mountain.

The Star Turtle thought to itself, Did they all go to fight? I'm really a little panicked!

He would just become a Venerable. Why was a king here? When did a king exist in the Yin-Yang World?

At this moment, in the void, dozens of people were fighting each other. Patriarch Heavenly Sword was sent flying by the Black Evil Conch King and was seriously injured. At this moment, he was sitting cross-legged in the sky, looking at Cao Xuan.

After all, this was an old man who dared to attack a king. Although the power of that blow couldn't cut off the king's projection, it still caused some damage to the Black Evil Conch King.

At this moment, Cao Xuan was restrained by a force, but it seemed that he couldn't hold it back anymore. No matter what, he wanted to fight the peak-level Venerable in the dark.

"Humph! Come out and fight me."

Cao Xuan couldn't wait any longer. Even the king's projection had joined the battle, but he had been restrained by an aura? What kind of power was this? His performance didn't seem right. What would the Black Conch King say? Would he blame him?

However, when Cao Xuan came to the aura, he heard Patriarch Heavenly Sword say, "Hey! Let me see how it feels to be at the peak level!"

Patriarch Heavenly Sword had already reached the peak of the advanced Venerable realm and was only one step away from the peak-level. This was why he dared to challenge the old monsters of the Chu family back then.

Now that he had come and fought, how could he give up after being injured by a single blow from a king?

Although Patriarch Heavenly Sword estimated that there would still be strong masters on the Scattered Stars Island,

For example, Han Guanshu. His son launched a great war. How could he not participate?

However, Patriarch Heavenly Sword was also a smart person. Different from others, the reason why he was bold enough to fight just now was that he hadn't seen Xue Shenqi since the beginning.

Where did Xue Shenqi go in such a big battle? Did the supreme commander who had presided over the Scattered Stars Island for 50 years just disappear into thin air? In fact, although the sea demons realized that Xue Shenqi went to the Ten Thousand Demon Valley, the human race was still kept in the dark by Han Fei. They didn't know where Xue Shenqi went.

Patriarch Heavenly Sword was still calculating in his heart, The Thug Academy, Ren Tianfei, Han Guanshu, none of these powers have come out! What are they doing? Watching the show?

Just like just now, he was watching the show, so were the big clans.

Han Guanshu and the others were probably watching the show too. As for when they would fight, it would probably depend on the timing of the battle and the changes of situation...

Since there were people watching the show, there must be people acting. At this moment, the master of the Heavenly Sword knew that he had to fight.

As for why Han Fei suddenly became stronger at this moment, no one knew for sure.

However, everyone knew that Han Fei had already fought the projection of the king. What power did Han Fei borrow or use? No one knew.

Seeing that a big sword appeared in the air and blocked his way, he shouted, "Get lost!"

The Master of the Heavenly Sword snorted, and thousands of sword streams on his back soared into the sky like wings. The terrifying sword beams sealed the thousands of kilometers of void.

A barrier of sword Qi appeared. He slashed down, and the sword Qi was like a huge wave in the sea, cutting down the hundred-mile wave, looking terrifying.

Unfortunately, the battle of the strong was too shocking. It was all in the void and ordinary people couldn't watch it.

At this moment, someone sighed. It was said that there were no strong masters in the Thousand Star City. However, when there was a real battle, strong masters appeared one after another!

These ordinary people didn't expect the Ten Thousand Demon Valley to have so many Venerables, nor did they expect their side to have so many Venerables!

In the void, Jing'er, who had been observing, had thought that this time she would definitely have to take action.

However, what made her depressed was that none of the Venerables participated in the battle.

She couldn't help but take out garlic prawns in boredom. While eating skewers, she looked at the battlefield.

Han Fei and the Black Evil Conch King were fighting fiercely. As Half-Kings, they fought so fast that ordinary people couldn't even see them clearly.

While Jing'er was paying attention, she glanced at the frontline battlefield of human beings. In her opinion, on the frontline battlefield, human beings were completely no match for the sea demons.

Although the battle had only been going on for less than half an hour, the comprehensive combat power of humans was weak. Their Hidden Fishers were fewer, Enforcers were fewer, so were Explorers.

But even so, in a short period of time, the two sides fought to a draw. On the human side, many people were fighting crazily, their weapons exploded, their spiritual springs exploded, and in the end, they detonated themselves. The battle was fierce. Fortunately, Semi-Divine weapons were popular on the island now. Otherwise, the human side wouldn't have been able to hold on for long.

On the Ten Thousand Demon Valley's side, most of the 50,000 sea demon realms had newly entered this realm. That was why humans could fight on par with them.

While Jing'er was scanning the battlefield, she suddenly saw several different figures.

"Huh? Are they from... the Water-Wood World?"

Jing'er saw Yu Wendao. This Half-Venerable looked like a human but was actually from the human race on the seabed. She had seen this person once in the Thousand Mountain Ancient Realm.

At this moment, Yu Wendao was fighting three peak-level great demons alone and didn't seem to be at a disadvantage at all. In fact, this wasn't a big deal. This was what a Half-Venerable was capable of.

But she felt a little confused about the other person. It was a hunched old man.

Jing'er felt that this person was somewhat familiar.

This person seemed to be only in the Half-Venerable realm, but he killed one with every step he took, and the aura around him was creepy.

"Pfft!"

A great demon in the Dao Seeking realm stumbled and the old man extended his hand and instantly squeezed the heart of this sea demon.

Then, Jing'er saw that the vitality of the dead sea demon was disappearing at a visible speed.

In addition, Jing'er also discovered that although the peak-level combat power on the human side was not much, it was very durable! For example, she saw many law-enforcers and Hidden Fishers, who were very ferocious in the fierce battle.

The Star Turtle could feel it too. He was happiest to see that nobody cared about him. It was great that nobody paid attention to him! "I'm so close to becoming a Venerable!"

"Hum..."

The Empyrean Waterfall completely exploded, and rays of light radiated for thousands of kilometers as a massive amount of spiritual energy and energy gathered.

The aura on the Star Turtle began to rise.

Becoming a Venerable didn't need to transcend a tribulation, so there was no thunder and lightning. As long as the old turtle left the Empyrean Waterfall, he would definitely become a Venerable. At this moment, there were only ten kilometers left.

All of a sudden, just when the Star Turtle was about to enter the Venerable level, a silver light pierced the void, and someone was holding a silver spear that illuminated the void.

In the distant sky, in the Cloud Whale's body, there was a murmuring voice, "Oh, Yin Ge has been released?"

The spear tip dazzled, accompanied by surging sound waves, which swept across the Scattered Stars Island. "I am Yin Ge, the head of the Ten Thousand Demon Valley 1800 years ago. I couldn't kill the Scattered Stars Island before, but today I will surely destroy this place."

"Not good!"

In the void, many people looked vigilant, and the people of the seven major sects all changed their expressions. "Why is there another Venerable?"

On the Scattered Stars Island, on the battlefields, many people were dumbfounded. Why did this person from 1800 years ago come out? He was the leader of the Ten Thousand Demon Valley? He must be very strong!

For a moment, many people felt their hearts skip a beat. They prayed that nothing would happen.

In the air, the Black Evil Conch King chuckled. "Do you really think that the Scattered Stars Island doesn't need to be guarded? Since this is war, I'll certainly mobilize all my forces."

However, Han Fei looked at him as if looking at a fool. "Well, are you an idiot? Do you really think that I don't have anyone guarding it? Also, who gave you the confidence to think that the power of the Scattered Stars Island is used up?"

Yin Ge's spear was brandished like a dragon, and its momentum had reached its peak. All the power was concentrated in one blow. The oppression of more than 1,800 years was completely unleashed at this moment, making him seem crazy.

He shouted, "Die!"

The Star Turtle was horrified. "Han Fei, Xue Shenqi, help..."

At that moment, everyone's eyes were focused on the Empyrean Waterfall.

At the moment when the Star Turtle cried for help, chuckling sounds were heard.

"Turtle Shell Seal the Sky, Heavenly Origin Barrier."

Buzz!

A black shadow suddenly descended and blocked the Empyrean Waterfall.

Then, with a puff, Yin Ge struck with all his strength. Although his spear penetrated the black barrier, he suddenly felt that part of his strength had been eaten!

In the next moment, a black shadow enveloped Yin Ge.

At that moment, silver light flashed and thousands of holes were left in the black mist.

After only three seconds, when the black fog was completely pierced through, Yin Ge finally appeared.

However, at this moment, Yin Ge didn't seem to be able to fight at all. He was dying of old age, and his flesh and blood essence were devoured in a flash.

A humanoid old man was standing in front of Yin Ge, absorbing his vitality and looking extremely creepy.

Jing'er was stunned. "Gui Sanqing?"

Jing'er was very surprised. Gui Sanqing was the follower of the Fish Dragon King. Because she needed to cooperate with Han Fei, she knew this person quite well. When she taught Han Fei the Near at Hand Technique, this guy was right beside him.

However, Jing'er never expected that this person had the ability to kill an intermediate Venerable.

Rumble...

Another red crack appeared in the sky. Another Venerables had died!

Han Fei's voice echoed in the sky above the Scattered Stars Island, "Fool! I don't care about who you are! If I want you to die, you'll have to die!"

Chapter 1437: My Name Is Han Guanshu

Many people were stunned to see the sudden appearance of Gui Sanqing.

In the Thousand Star City, many people were horrified. It seemed that there were still many unknown strong masters around Han Fei who hadn't revealed themselves. This Gui Sanqing had been pretending to be a Half-Venerable and blended into the crowd. Even Jing'er didn't recognize him.

However, at the last moment, this b * stard crushed three peak Dao Seekers and directly appeared at the Empyrean Waterfall.

In fact, even Jing'er didn't know that during the year Han Fei was wandering in the Water-Wood World, he had thought of several ways to get Gui Sanqing out.

For this, Han Fei and the old turtle discussed dozens of methods and tried them one by one. Finally, They had Gui Sanqing temporarily acknowledge someone as his master.

Then, he used the big secret of why the Fish Dragon King became strong as bait to make the other party leave the White Shell Royal City.

After he left the White Shell Royal City, he would be free to do whatever he wanted.

After that, Gu Sanqing had been cultivating in the Sea Quelling Painting. Even Bai Suzhen and the others didn't know that there was an additional person in the painting.

At this moment, the Star Turtle was the most touched. In the end, it was his clansman who saved him. It seemed that his fellow friends from the Turtle Clan were the most reliable!

In Han Fei's heart, the old turtle said solemnly, "Han Fei, I've overdrawn myself too much. It has taken me at least a hundred years of vitality. Only the Heaven Enlightenment Divine Technique can make up for my consumption."

While fighting fiercely, Han Fei said helplessly, "Old Yuan, this is not the time to blackmail me. Didn't you just suck up Yin Ge?"

The old turtle said, "It's different! Just like when you absorb the vitality and soul of others, I can't completely take their vitality and energy as my own unless my soul returns."

Han Fei said, "Okay, let's talk after this battle."

Han Fei's invincible fist mark blasted out, and his voice resounded throughout the world. "Everyone, today, the second Venerable has died. This person was the vanguard of the Sea Demon Royal City 1800 years ago, a big demon from the Ten Thousand Demon Valley, and has the combat power of an intermediate Venerable. Today, I've killed him!"

“Roar!”

“Good job!”

“As expected of Marshal Han, you’re my idol.”

“Marshal Han is the most powerful man on earth. He killed four Venerables in a month!”

“Damn it, Marshal Han is awesome! We should have been this fierce long ago. Let’s f*ck up these sea demon b*stards from the Ten Thousand Demon Valley.”

Someone laughed. “Smelly fish, did you see that? Another Venerable of yours died. Are you happy?”

In an instant, millions of soldiers’ morale soared.

Someone even mocked himself, “I was worried just now that something big was going to happen. Haha, I underestimated you, Marshal Han. We’re lucky to have you as our leader.”

The 36-town tour groups were full of gulping sounds.

The old village leader clutched Wang Jie and He Mingtang’s clothes and counted with a shivering voice, “Was the one who died the legendary Venerable?”

Wang Jie looked at the sky dumbfounded. “I, I think so!”

Li Gang was so scared that he fell to the ground and murmured, “Leader, you’re my god! I’ll see who dares to bully the Fish Dragons after tonight!”

Crack ~

Just when everyone was shocked that another Venerables had died today, the sound of the mountain exploding resounded throughout thousands of kilometers.

“Roar!”

An old voice shook the world. Above the Emyrean Waterfall, the mountain had completely collapsed, and rubble flew everywhere. A turtle shell more than 300 meters long appeared on the surface of the water.

At that moment, the Star Turtle became a Venerable and his strength soared. At this moment, if Yin Ge came again, the Star Turtle felt that he could block him.

But the breakthrough wasn’t over yet. The Star Turtle had been dormant under the Emyrean Waterfall for too long and accumulated too much energy. Even if it had digested it quickly, it had only consumed less than 30% of its accumulation.

The Star Turtle looked at Gui Sanqing. “May I trouble you to guard me for a moment?”

Gui Sanqing simply ignored the Star Turtle. In fact, what he wanted to do more was to kill the Star Turtle and occupy the Star Turtle’s body, which was much stronger than Gui Sanqing’s.

Han Fei was not in a hurry now. Regardless of whether the old turtle had combat power or not, there was one more Venerable on the Scattered Stars Island's side, and a creature like the turtle was born with strong defense power.

More importantly, the Star Turtle was still making breakthroughs. Han Fei would feel sorry for him if he didn't become an intermediate Venerable this time.

The Black Evil Conch King's face was solemn. This couldn't go on. He had thought that the Scattered Stars Island could be easily destroyed, but he didn't expect the other party to have so many trump cards. He had used all the combat power of the Ten Thousand Demon Valley but failed to take them down.

At that moment, the Black Evil Conch King made up his mind. If he didn't win this time, the consequences would be disastrous. With this human's temper, he definitely wouldn't give him another chance.

The Wall of Death, inside the sage realm.

The massive amount of conches suddenly collapsed, and a large cocoon that seemed to have existed for a long time suddenly broke apart. This was the last resort of the Black Evil Conch King.

In fact, the Black Evil Conch King was well prepared, and the Ten Thousand Demon Valley's real strength was well hidden.

The first Venerable that the Black Evil Conch King sent over was Cao Xuan, a peak-level Venerable. It was because of this that the multiple groups of scouts Xue Shenqi sent over failed to find anything.

Although Xue Shenqi knew that the Ten Thousand Demon Valley had taken action, he didn't know how big it was, so it was not easy to judge or make preparations.

But when he found Han Fei's black-mist body, he knew that Han Fei had known the existence of the sage realm and the Ten Thousand Demon Valley was in danger.

As early as the battle began, the Black Evil Conch King had already gathered everyone. However, he didn't think this group of people would be needed. In the eyes of the Black Evil Conch King, most people couldn't even reach the Sea Demon Realm in combat power, so it was useless to send them out.

However, the battle on the Scattered Stars Island was far beyond his expectations, so he had to make such an arrangement.

Buzz!

The Black Evil Conch King emerged from the big cocoon and stepped in front of the teleportation array. Looking at the more than 800,000 Half-Mermaids, he secretly enchanted them with corrosive blood. In the end, the Black Evil Conch King turned into a void shadow and shouted, "I am the Black Evil Conch King and will lead the Royal City to return. All of you are my people. The Ten Thousand Demon Valley has already started a war with the Scattered Stars Island. All of you, follow me to war."

There was no telling if it was because these sea demons had taken corrosive blood. As soon as they heard his words, their brains heated up.

Logically speaking, even if the Black Evil Conch King was a king, they wouldn't give him their lives so easily.

But it wasn't the case in the sage realm. These Half-Mermaids seemed to have accepted the Black Evil Conch King and were even howling like crazy, "My King!"

...

In the Ten Thousand Demon Valley and the Blood Demon Valley, there were only less than 30,000 sea demons. These sea demons added up wouldn't be able to resist many rounds of attack led by Xue Shenqi.

In just a moment, most of the star gate teleportation arrays had been destroyed by Xue Shenqi. The Ten Thousand Demon Valley was emptied, and the Blood Sea Valley was swept by Xue Shenqi alone.

At this moment, the others were all bombarding the territory of the Ten Thousand Demon Valley. Han Fei had given them a perilous task.

However, up to now, except for the 30,000 useless sea demons, the Ten Thousand Demon Valley was empty.

Even the so-called crack seal under Xue Shenqi's feet was motionless, as if it had been abandoned.

Suddenly, Xue Shenqi's eyes narrowed as he felt the void fluctuations appear above the Ten Thousand Demon Valley.

Xue Shenqi rushed out and shouted, "Everyone, return to your position and prepare to face the enemy..."

Jiuyin Ling, Luo Xiaobai, and the others were gathered together in boredom. Only Big Yellow was leading his sons and daughters and rampaging from one hole to another.

Many people in the Empyrean Waterfall knew each other.

At this moment, Ning Jingyao was asking, "Xiao Jiu, when can you transcend the tribulation?"

Jiuyin Ling said, "Soon! Han Fei asked me to refine my body before transcending the tribulation."

Youye said with a smile, "Alas! I really don't know how Han Fei cultivated. When I first saw him, he was so weak. But now he has become the supreme commander!"

Du Jiangliu said, "Be careful! We are very strong. If we were on the Scattered Stars Island, we would be among the strongest. But since we are assigned here, there must be something very dangerous that requires our presence, because ordinary people can't handle it."

Granny Yin nodded and immediately shouted, "Big Yellow, come back."

Buzz!

Suddenly, space trembled, and a huge hole appeared in the sea. Then Xue Shenqi's voice suddenly sounded, "Everyone, return to your position and prepare to face the enemy..."

Swish swish swish!

More than 3,000 people immediately rushed back.

At that moment, in the sky, the hole was getting bigger and bigger, and tens of thousands of Half-Mermaids were rushing down.

Instantly, the more than 3,000 people shouted, "Prepare to kill the enemy."

Someone laughed and scolded, "Not bad, not very strong. There are very few Sea Spirits."

Someone smiled. "There aren't many Sea Demon Realms. Isn't it a little overkill for us to deal with these sea demons?"

However, as soon as he said so, a big conch flew over from the teleportation array.

"Oh! I was wondering what kind of strong masters I would face. It turns out that there are only a junior Venerable and three thousand weaklings. Han Fei, how are you going to stop me?"

Everyone: "???"

Someone exclaimed, "Son of a b * tch, seriously?"

Someone was lost for words. "A king? Han Fei asked us to stop a king? Is he out of his mind?"

Xue Shenqi shouted, "It's just a projection of a king. Leave it to me."

Xue Shenqi held a large pearl in his hand and jumped up, his aura soaring. He hadn't given this pearl to Han Fei because Han Fei had more trump cards than him.

However, just when Xue Shenqi's strength reached the intermediate Venerable realm, with a bang, a terrifying force wrapped him, and a terrifying gravity descended, directly crushing Xue Shenqi into pieces.

The Black Evil Conch King sneered. "You're just a junior Venerable. How dare you challenge a Half-King? Stupid!"

At that moment, Jiuyin Ling, He Xiaoyu, Granny Yin and the others were all dumbfounded.

He Xiaoyu tugged at Jiuyin Ling's arm and said, "Is... Is this the power of a king?"

The scene just now was unbelievable and shocked many people. Xue Shenqi, a Venerable and the former supreme commander of the Scattered Stars Island, was crushed without even blocking a single blow.

The Black Evil Conch King extended his hand and pressed down. In his opinion, these people were bound to die under his suppressing pressure. He didn't need to do it a second time.

However, the pressure was suddenly shattered by an invisible force, and a golden book appeared in the sky.

A voice sounded leisurely, "Oh! It seems that you have a lot of projections! Why, does this one also have the power of a Half-King?"

The Black Evil Conch King's pupils were constricted. This guy was so strong. Didn't they say that the Scattered Stars Island didn't have such high-level combat power? A Half-King? Although this person didn't seem to be a Half-King yet, he shouldn't be much weaker.

The Black Evil Conch King's voice rumbled. "Who are you?"

"Heh... My name is Han Guanshu.."

Chapter 1438: Reinforcements

Who was Han Guanshu?

The Black Evil Conch King didn't know. Even on the Scattered Stars Island, no one talked about Han Guanshu. Every new sovereign brought his own courtiers, and the Scattered Stars Island's soldiers were replaced even more frequently, so they usually only recognized the current supreme commander.

Han Guanshu extended his hand and a page flew out. The page turned into a big shadow and flew into the sky.

"Roar!"

"Woo ~"

The dragon roared, the conch shell shook, and a six-layer spiral shield blocked the sky.

Clang!

With a loud bang, terrifying ripples swept across the entire Ten Thousand Demon Valley. Wherever they passed, waves, sand, reefs, and algae were shattered.

Seeing that his attack was blocked by the big shield, Han Guanshu smiled and blocked all the shock waves with invisible power.

At this moment, Xue Shenqi was reborn from a mass of essence blood in the void. A massive amount of energy and spiritual energy swirled around him. In a moment, Xue Shenqi appeared in front of everyone again.

"Marshal ~"

Below, everyone exclaimed.

Xue Shenqi waved his hand. "I'm fine."

Han Guanshu smiled. "I didn't expect that a king would be born in the Black Blood Royal City. By logic, it's impossible for a king to be born in the Wall of Death. I'm afraid you didn't use the right method to become a king."

The Black Evil Conch King's pupils constricted. "It's been a long time since anyone mentioned the name of the Black Blood Royal City. Human, your strength is really not weak. You have reached the peak of the Venerable realm. However, a Half-King is a Half-King. You are no match for me."

Xue Shenqi asked solemnly, "So what?"

The Black Conch King transformed into a human and two huge gongs appeared in his hands. He had a bugle horn on his head and his body looked like a battle suit.

Han Guanshu smiled. "It's a little tricky, but I can handle it."

Xue Shenqi didn't stand on ceremony with Han Guanshu. Your son is about to start an unparalleled war. As his father, you have to do something! This is a war that involves countless lives. You can't flinch.

Xue Shenqi shouted, "Everyone, follow me to snipe the enemy."

The Black Evil Conch King waved its hand, and a mass of corrosive blood formed a blood cocoon, which was rapidly taking shape.

Seeing that Han Guanshu didn't stop him, Xue Shenqi said solemnly, "He is making a Venerables? This is a king's means."

Below, no one dared to speak. They had no say in a battle between gods.

Jiuyin Ling took a deep breath. She knew who Han Guanshu was. Although they hadn't met, she had seen him in the Thousand Star City.

Han Fei's father, an existence that was powerful enough to sweep the Chu Sect.

Han Guanshu, with one hand behind his back and his right hand on the golden page in front of him, said indifferently, "A king against a king, a general against a general. You have an army of 800,000 soldiers. How can you bully the 3,000 soldiers of the Scattered Stars Island?"

At this moment, the Black Evil Conch King didn't give a damn to fair play.

What he cared about was that he had been stopped. The person in front of him looked casual, but he was definitely not weak.

Although he claimed that Han Guanshu was not as strong as a Half-King, it was only relative. He couldn't guarantee absolute victory. After all, he wasn't his true body at this moment.

For the Black Evil Conch King, he didn't expect human beings to have so many advanced combatants.

At this moment, he was a little worried. Now, the situation on the Scattered Stars Island was very dangerous. The sea demons lacked high-level combat power and failed to make a breakthrough in low-level combat power, which made him very worried.

The Black Evil Conch King made a bugle sound, and the demonic sound in his mouth resounded, "You want fairness? When I return with the Black Blood Royal City, I'll give you fairness. Now, I'm going to crush your Scattered Stars Island first."

Buzz!

More than 20 spikes on the Black Hell Conch King's body drilled through the void, forming black spirals behind him. The star-gate teleportation arrays that Xue Shenqi had broken earlier were activated again...

Clatter ~

“Hey! It’s just a projection of a king. Do you think I don’t exist?”

Han Guanshu sighed and flipped his right hand, and another golden page floated out. The page flew out and turned into a sword. The sword cut through the air and swept away the seawater, like cutting the sky in half!

This casual and elegant attack stunned everyone below. “He laughed and jested while killing a king!” this person was simply too strong!

However, this was not the end of it. Han Guanshu quickly turned his right hand, and three pages were knocked into the air.

A page cut through half of the sea, like a mystic light crossing the sea, separating the Black Evil Conch King from the 800,000 Half-Mermaids that kept surging out.

A page cut through the void. The Black Evil Conch King was blocking Han Guanshu with his six-layered shield armor when suddenly, the surrounding space was sunken, and they left the Ten Thousand Demon Valley.

The last page blasted out a channel, leading straight to the star gate teleportation arrays.

Xue Shenqi glanced at Han Guanshu, who nodded slightly. “Don’t worry.”

The two exchanged a glance and knew what the other party meant.

What Xue Shenqi was worried about was that no matter how strong the three thousand people were, they couldn’t be a match for the eight hundred thousand sea demons! Besides, among the eight hundred thousand people, there were not only Half-Mermaids in the Demonization Realm, but also thousands of sea demons. This was certainly the work of the Black Evil Conch King.

There were also some sea demons who wanted to stay in the sage realm to continue to become stronger, so they had been suppressing their realm. The strength of these sea demons was extraordinary. In this way, the 3,000 human soldiers were actually nothing.

Among the 3,000 people, there were only 6 Explorers. Xue Shenqi felt a great pressure.

Even if they were Explorers, they would fight a very difficult battle this time! 800,000 enemies? Even if they stood still and let you kill, it would take a long time to kill them all, right?

At this moment, Han Guanshu separated the Black Evil Conch King and the 800,000-strong army.

However, before the two sides collided, countless people in the Half-Mermaid army suddenly went crazy...

A Half-Merman raised his hands. “For the glorious return of our king, I am willing to sacrifice my flesh and soul...”

Such people were everywhere. Among them, some people rapidly increased their strength after using secret methods, and some people, unable to withstand the power, exploded and died.

However, their blood was gathering, and the dark green corrosive blood was gathering.

In the blink of an eye, one blood-colored mermaid after another appeared. Their strength varied from the Sea Demon Realm to the Sea Spirit Realm. After a while, two Half-Mermen in the Dao Seeking Realm appeared.

It was possible to increase one's strength to the Sea Spirit realm with a secret method. After all, the greater the sacrifice, the better the effect.

However, you directly transcended the Heavenly Tribulation and reached the Dao Seeking realm? This doesn't make sense. Can't the Heavenly Dao perceive it?

The only explanation was that these were all Black Evil Conch Kings. He was a king himself and didn't need to transcend the tribulation. Or rather, the corrosive blood had reached the Dao Seeking realm, which made the Heavenly Dao ignore the rise of their power.

"Meow ~"

Big Yellow panicked. "Granny, can I not fight this battle? My children are here!"

Granny Yin heaved a sigh. "Han Fei probably won't send 3,000 of us to our deaths. Let's see..."

Just as everyone cheered for themselves and some people decided to sacrifice themselves for justice, Jiuyin Ling stepped in front of them and then stood in front of the star gate teleportation arrays through the passage created by Han Guanshu.

"Meow ~"

"Xiao Jiu!"

"Jiu'er!"

"Jiuyin Ling, are you crazy?"

He Xiaoyu's head was buzzing. Jiuyin Ling, are you prepared to die?

Beside He Xiaoyu, the armorist sighed. "Although we were inexplicably involved in this battle, we've seen a king and the wonders of the world..."

The manipulator wondered, "Doesn't Marshal Han know that Xiao Jiu and Xiaoyu are at the Emyrean Waterfall?"

Before they could chat, Jiuyin Ling casually waved her hand, and a fish skin map five meters long suddenly unfolded.

Ka ka ka ~

"Crack, Crack, Crack ~"

In the sea, a large circular hole of three hundred meters wide appeared. A directional teleportation array drawn by more than ten thousand lines appeared instantly.

Swish! Swish! Swish!

At this moment, white figures suddenly appeared one after another.

A poisonous knife-tongued giant toad appeared and hopped out.

White bones stumbled into the battlefield.

Countless deformed creatures: monsters with sea spider legs, crab bodies, and fish mouths; monsters with turtle heads, shrimp bodies, and wings; monsters with eyes all over their bodies...

Someone exclaimed, "F*ck, aren't these the Soul Eaters from the ancient battlefield?"

Ning Jingyao shouted in surprise, "Look, it's the skeleton army of the underground city."

Youye was speechless. "How can there be a skeleton army in the underground city?"

As soon as she said so, a crystal-clear skeleton, holding double knives, stood on the head of a Sounding Snake and flew out.

The man glanced at the more than 3,000 human beings indifferently, and then threw out his double knives, leaving two white marks. Wherever he went, no one could resist him. With one blow, more than a hundred Half-Mermaids were cut into pieces.

Tens of thousands of Bow-Footed Umbrella Spiders rushed into the Half-Mermaid army like predators.

Bam! Bam!

Everyone was stunned. Damn, how did they get reinforcements?

Looking at Jiuyin Ling, everyone immediately understood that this was definitely not brought by Jiuyin Ling. However, they couldn't figure out how Han Fei had reached an agreement with the one in the underground city to have Soul Eaters on the ancient battlefield help them.

The Half-Merman army was stunned too. What the hell are these strange creatures? The rolling meat spines, the hopping spiders, the big poisonous toad, the skeleton army with blue eyes, and a bunch of deformed creatures...

Du Jiangliu laughed. "Haha! I was lucky enough to become a Sea Spirit back then and didn't have the chance to explore the Underground City. Today, I've seen all these creatures."

Ye Qingfeng chuckled. "I can detoxify the poison of the toads. Don't worry."

At this moment, the crowd shouted, "Kill!"

Someone roared, "I won't flinch even if I have to fight eight hundred thousand sea demons alone, not to mention that we have such powerful reinforcements now!"

Someone laughed. "Who knows when Han Fei got in touch with the underground city? Sure enough, a man who can become the supreme commander is different."

He Xiaoyu shouted, "You guys, follow me to kill the enemies. Remember, keep the formation..."

Chapter 1439: Idiot, Prepare to Fight

The creatures on the ancient battlefield and the underground city were at least Hidden Fishers.

Especially in the underground city, the weakest ones were at least advanced Hidden Fishers, and the slightly stronger ones were Sea Spirits.

When such a large army arrived, even if the final number was less than 30,000, it was like 30,000 elite soldiers, almost unstoppable.

As for the corpse that had once guarded the Bone Yard, he held two scimitars in his hand and slashed out two curved watermarks as if he were holding two long ribbons at the bottom of the sea.

In the void, the Black Evil Conch King had already split out a venerable clone, sacrificed tens of thousands of sea demons, and created dozens of Dao Seekers and thousands of Sea Spirits.

It was not that he couldn't continue to create more strong masters, but the more powerhouses he created, the more his consumption would be.

At this moment, there was a big battle, and both sides had invested a lot of troops. Once the strong masters on his side were eliminated, it was very likely that the balance of victory would leave him.

At this critical moment of the battle, let alone a peak-level Venerable, even an additional powerhouse who had just entered the Venerable realm could affect the entire battle.

After all, the difference between a Venerable and an Explorer was too great. A Venerable could easily kill more than a dozen Explorers in a head-on clash. However, a dozen Explorers might not be a match for a Venerable even if they were all Half-Venerables.

At this moment, the Black Evil Conch King and Han Guanshu were fighting fiercely in the depths of the void. Compared to the Black Evil Conch King, Han Guanshu had only activated his Great Dao and launched various magical attacks.

An azure dragon phantom shot across the world. The sword light was so powerful that it reached the sky. There was a rumbling sound as the sound spread thousands of kilometers.

Boom Boom Boom ~

Infinite energy spread out in all directions.

The Black Evil Conch King was shocked. He stared at Han Guanshu and gritted his teeth. "What your practice is... the legendary Great Dream Heavenly Book?"

"Um, you're right."

Han Guanshu shrugged. "I didn't expect anyone to remember it. How powerful is it?"

Han Guanshu waved his hand, and the golden page turned into a ten-thousand-meter-long ribbon, sealing the world and setting up seven killing arrays.

The Black Evil Conch King was horrified. He had underestimated the Scattered Stars Island after all. He thought that he could sweep the island with his projection...

However, the result was horrifying. The other party had already prepared.

However, he had no choice but to take action now. The battle had already reached this point. As long as he increased his strength a little bit more, he might win. Otherwise, it would be tantamount to a fool's dream if the Black Blood Royal City wanted to enter the Yin-Yang World again.

In the sea demon sage realm, the Black Evil Conch King didn't want to use up all his trump cards. After all, it hadn't been easy for him to make these preparations.

He knew that in the Thousand Star City, there should be several Venerables, or even stronger ones. He knew human beings well. They were always so shortsighted and looked only at temporary benefits.

As long as he could get the corpse of the king under the Emyrean Waterfall this time, he could swallow its demonic origin, king's aura, and its Dao runes.

At that time, his strength would be greatly improved. Then it would only be a matter of time for him to conquer the Yin-Yang World.

Bang! Bang! Bang!

At this moment, all the remaining big conchs in the sage realm shattered in an instant. Amidst the boundless blood and Qi, another figure of the Black Evil Conch King walked out.

...

Scattered Stars Island.

Han Fei was fighting fiercely. The battle between the strong was in a subtle balance. The people brought by the Black Evil Conch King were mostly blocked.

However, on the frontline battlefield, there were still 31 explorers on the Scattered Stars Island's side. Including the seven major sects and the big clans, there were only 59 people in total. As for the sea demons, there were more than a hundred of them.

Gui Sanqing had overdrawn his strength just now and was standing under the Emyrean Waterfall, pretending to guard the Star Turtle and that he still had the strength to fight.

In fact, he was also recovering quickly.

The Star Turtle was making another breakthrough at an extremely fast speed. He had a massive amount of resources to absorb crazily, but at this speed, it would take him at least half an hour to succeed.

It was not the Star Turtle's fault. He had been accumulating spiritual energy for too long and needed time to digest it.

Besides, it was obvious that the Star Turtle was not good at fighting. A breakthrough in battle was not suitable for him at all.

For a moment, the frontline battlefield of the Scattered Stars Island was almost collapsing even though the human beings were in full swing. Three million sea demons, taking countless sea creatures, kept attacking the Scattered Stars Island.

Among them, those in the Sea Spirit Realm and the Dao Seeking Realm were several times more than the human side. It was remarkable that this battle could last for more than fifteen minutes.

In the void.

The Black Evil Conch King, who was fighting Han Fei, said coldly, "Han Fei, you brat, even if you can stop me, so what? The frontal battlefield of the Scattered Stars Island is about to be broken. The millions of soldiers of your human race are about to die here. How can you bear it?"

Han Fei glanced at the battlefield on the Scattered Stars Island and shouted again, "Is there anyone else in the Thousand Star City who is here to help? I'll only ask you once. Do you have anyone?"

The Black Evil Conch King's heart stirred. What would be the reaction of the Thousand Star City?

As he expected, there should still be Venerables in the Thousand Star City. However, as long as they weren't Half-Kings, the outcome of the battle remained to be determined.

Originally, if he was given another month, he could send another Half-King over. Then even if there was really a Half-King in Thousand Star City, he wouldn't be afraid.

Now, to prevent any accidents, he had to do it himself.

The Black Evil Conch King said, "There's no need to wait. Those who can come have already come. Besides, how do you know if they will be of any use after they come? And how do you know that I don't have any trump cards left?"

The Black Evil Conch King's voice resounded. He deliberately let the people of the Thousand Star City hear him.

You, Han Fei, can threaten and hint to the people in the Thousand Star City who hadn't come out, and I can also hint that I still have other trump cards!

Han Fei frowned slightly. He knew that some people would not take action in the end. Even the seven major sects didn't arrange for their students to help. This was because in their opinion, the casualty rate on the frontline battlefield was too high. Those students were their treasures. How could they send them over?

The only thing that surprised Han Fei was that he perceived that on the teleportation array of the Scattered Stars Island, with a swish, several figures appeared. He looked at it and it was none other than Tang Ge.

"Shit."

Han Fei cursed secretly and thought to himself, Tang Ge, what the hell are you doing? I have a million soldiers. I don't need you here, okay?

Mu Ling came with Tang Ge, as well as more than 20 disciples of the Heavenly Sword Sect. They should be Tang Ge and Mu Ling's senior brothers and sisters.

At this moment, Tang Ge and the others controlled their fishing boats and rushed to the battlefield.

Mu Ling said, "You're about to transcend the tribulation. This is not a place for us to participate at all."

Tang Ge's eyes were firm. "Although I'm not strong enough now, one more person here, one more combat power added. Father-in-law is here, so is the Patriarch. How can we not come?"

Mu Ling really wanted to say, You blockhead? What realm are my father and the Patriarch in? They came to contain the enemy, but what about you? You came to fight in the army...

On the Scattered Stars Island.

In the sky above the outer city, a teleportation array suddenly opened.

A man and a woman walked out of the teleportation array.

The man said, "Xiaobai, you know the situation in the clan. I can only participate in the battle alone! Let's see if I can become a Venerable by the way."

It was none other than Luo Xiaobai and her father, Luo Tianhe.

In the years since Han Fei left the Thousand Star City, Luo Xiaobai had been cultivating hard. Her Dao Seed had been born, and the Luo family's divine technique was awakened in her.

In the past few years, Luo Xiaobai's cultivation had advanced by leaps and bounds. In the entire younger generation of the Thousand Star City, no one could compare to her except for Cao Qiu.

In just seven years, she had broken through three levels in a row and was already at the peak of the law enforcer realm.

Luo Xiaobai said coldly, "You fight yours, and I fight mine."

Buzz!

Before Luo Xiaobai and the others left, the void crack opened and three men and a woman appeared.

Apart from the old man, the other three people stunned Luo Tianhe. The two men were really too handsome and the woman was gorgeous and attractive. There was even a refreshing fragrance coming from them.

At the next moment, Luo Tianhe took a deep breath. "The Yi family?"

Luo Xiaobai's eyes lit up. She tilted her head and looked at the youngest. "Zhang Xuanyu."

Roar!

Zhang Xuanyu screamed and tried to flash out to Luo Xiaobai.

However, before he left, the woman grabbed him back and said, "Zhang Xuanyu, you're a married man. Don't seduce other girls."

Zhang Xuanyu roared, "She's Luo Xiaobai! She's my teammate! She grew up with me. She's my family..."

The man smiled and said, "We have to end this battle as soon as possible. In this way, we can let Yanyan come back and marry this brat."

The corners of Luo Xiaobai's mouth twitched. She didn't need to guess to know who these two people were. If they weren't Yi Xiyang's parents, who else could they be? She didn't know if Zhang Xuanyu was unlucky or lucky.

However, this guy didn't seem to be weak at all. His realm was actually no weaker than hers.

Before they talked to each other, another figure flashed in the air, and a fat figure seemed to have been thrown out. The figure was still holding the roasted eel in his hand and muttering, "Old man, I was just having a meal secretly. Is it necessary... Huh, Yuyu? Xiaobai? F*ck... Am I dreaming?"

Zhang Xuanyu and Luo Xiaobai were also surprised. "Kuangkuang?"

Among the five of them, except for Xia Xiaochan who only Han Fei knew where she was, in the following battle, only Le Renkuang was taken away by someone unknown.

Also, Le Renkuang didn't seem to know that a war was going on on the Scattered Stars Island... He seemed to have been thrown here!

Roar!

Le Renkuang shouted, "Am I free? Am I back? Have I finished my apprenticeship? Hahaha..."

Looking at Le Renkuang's frantic appearance, Luo Xiaobai shouted in a low voice, "Idiot, prepare for battle."

Chapter 1440: Attack the Big Clans

At the moment the space trembled, Han Fei had already perceived it.

Of course, the Black Evil Conch King sensed it too.

However, what the Black Evil Conch King didn't understand was that except for the old man who was a junior Venerable, the others were all in the Half-King realm, and the younger ones were only peak-level Sea Spirits.

It was impossible for anyone below the Venerable level to catch the King's attention, so the Black Evil Conch King wasn't worried. Several mere junior Venerables couldn't affect the overall situation. When his last projection came, the result would be decided.

"Venerables?"

Han Fei was puzzled. Since when were there so many Venerables? He had fought so many battles in the past, but he hadn't seen many Venerables.

In today's battle, even Half-Kings were so many here.

Of course, what really made Han Fei happy was the return of Luo Xiaobai and the others. He hadn't seen them for a long time and really missed them.

Unfortunately, he didn't have time to talk to them during this battle.

Luo Xiaobai and the others quickly learned of the whole situation and had already rushed to the battlefield.

On the east coast of the Scattered Stars Island, on the sea far away.

Hualala ~

A ragged super big ship surfaced.

Swish! Swish! Swish!

Tens of thousands of faceless black-robed men leaped into the air and charged at the coastline at full speed.

A faceless man was standing at the bow of the ship, looking at the sky. There was no telling what he was looking at, but after the tens of thousands of faceless men rushed into the battlefield, the faceless man on the ship gave his middle finger to the sea demons. Then, he stepped into the battlefield, appeared beside a Sea Spirit Half-Merman, and killed this sea demon with a slip slap!

Han Fei didn't notify the faceless men of the Thug Academy of the war.

This was because Han Fei knew that Old Bai and Old Jiang both knew that something big would happen on the Scattered Stars Island, so they would definitely pay attention to it. This was not Han Fei's last resort.

At this moment, with the faceless men joining in, the situation in the battlefield was quickly reversed, especially on the east coast of the Scattered Stars Island, and the humans had already rushed out.

On the west coast, Zhang Xuanyu, Luo Tianhe, the Yi family couple, and the old servant were fighting. The old servant grinned, revealing a strange smile. In front of him, there was an Armored Fish with armored scales all over its body. Its scales trembled and swept out in all directions as if Han Fei was using the Million Knife Art.

The humans on the east and west shores were gaining the upper hand, so some soldiers moved to the north and south shores. It was time for a real head-on battle.

On this day, Han Fei asked the Thousand Star City, but no one came to help. Whoever survived this battle would probably immediately change their attitude towards the Thousand Star City.

Jing'er was in the void, watching the battle in silence. The two sides' forces, plus the sea creatures, numbered in the millions. This battle could indeed be called an unprecedented war.

Jing'er frowned. The situation on the Yin-Yang World was tense. Should the queen arrange for some people to help? In fact, as long as the Water-Wood World sent two divisions over, the humans on the Scattered Stars Island would completely be able to resist the sea demons.

Bang!

Han Fei punched away the Black Evil Conch King and retreated.

"Heaven Enlightenment Divine Technique."

An extremely powerful white pillar of light instantly enveloped the old turtle's body.

Han Fei shouted, "You don't have to worry about the Empyrean Waterfall. The north and south shores, guard one of them."

The old turtle asked in surprise, "What about this Star Turtle?"

Han Fei sneered in his heart. "Keep fishing. Take the Star Turtle as bait. At this point, the bait is no longer fragrant. It depends on luck whether or not I can catch a fish."

At this moment, Han Fei's ambition was already obvious. He aimed at the king and wanted to crush the Thousand Star City. Although he wasn't strong enough now, his aura was already there.

In front of so many people, the Heaven Enlightenment Divine Technique was inevitably recognized.

In an instant, people from the Thousand Star City, the Black Evil Conch King, and the seven major sects all secretly exclaimed.

"Is this the Heaven Enlightenment Divine Technique?"

"Huh? The Human King's Dao?"

In the Thousand Star City, a Venerable of the Chu Sect said, "Damn it, how can Han Fei's Spirit Gathering Art reach the level of the Heaven Enlightenment Divine Technique?"

Inside the Cloud Whale, Tang Yan chuckled. "Interesting. The Heaven Enlightenment Divine Technique seems to have been completely lost seventy thousand years ago, right?"

The Black Evil Conch King looked at Han Fei in shock. "Heaven Enlightenment?"

Buzz!

A big hole appeared in the void, and the last big conch came out.

The Black Evil Conch King roared, "You want to be the king of the Yin-Yang World? You're just a brat. Don't be too arrogant. What's the use of the Heaven Enlightenment Divine Technique if you haven't even become a Venerable? I've already got my new body. Let's see how you can defeat me!"

Hua!

The Black Evil Conch King dropped dozens of drops of corrosive blood, and new clones were taking shape.

There were a total of 13 clones. Among them, there were seven junior Venerables, one advanced Venerable, and one Half-King.

This was the ultimate power that the Black Evil Conch King could use. Except for the seven junior-Venerable clones, which attacked the four-sided battlefield, the advanced Venerables and the Half-King realm powerhouses directly rushed at the Empyrean Waterfall.

The Black Evil Conch King, who was fighting Han Fei, roared, "I want to destroy the Scattered Stars Island. Who can stop him?"

Without saying a word, Han Fei clenched his fist, and a bloody light burst out.

In the blink of an eye, the projection of the Black Evil Conch King reached his hands into the central city.

Suddenly, the void collapsed, and a burly old man walked out of the shattered void.

The man shouted, "The Chu Sect is still here. How can I allow you, a mere fake king, to make trouble?"

The old man punched out with both fists and grabbed at the Black Evil Conch King's Half-King projection and advanced-Venerable projection.

Old Monster Chu's voice was also floating above the Scattered Stars Island, claiming that the Chu Sect wouldn't let the sea demons in.

However, Han Fei's voice followed, "Old Demon Chu, if you dare fight outside the void, I'll kill whoever of you I see."

"Humph! Ignorant brat."

Old Chu was full of disdain for Han Fei's warning. He threw out a punch, but the hundred-mile radius was immediately enveloped by the void, and the dispersing energy failed to really destroy the Scattered Stars Island.

At the same time as Old Chu attacked, there were five consecutive hums. From the Thousand Star City, another five Venerables appeared out of thin air and tried to stop the Black Evil Conch King.

Swish... Swish... Swish...

Hundreds of explorers broke through the air from the north and south shores.

Someone shouted, "The big clans care about human beings. We're here to help you kill the enemy."

Han Fei narrowed his eyes. Son of a b * tch, those b * stards from the big clans. I'm halfway through the battle, but now they want to come to pick the peach. Who gave them the courage?

The Black Evil Conch King saw that Han Fei's face turned gloomy. All of a sudden, the shadow of a huge wave appeared on the rod in Han Fei's hand. In Han Fei's eyes, a huge array was activated and thousands of arrows burst out.

Swish! Swish! Swish!

The Thousand Flow God Array was not very strong, but it was an excellent array that could attack a specific area. Faced with a guy who relied on corrosive blood to temporarily maintain his strength, he just needed to consume his strength.

Setting up arrays had always consumed energy and spiritual energy. Of course, demonic energy was the same. Now, Han Fei didn't lack this at all.

However, it was clearly impossible to trap a king with an array.

Therefore, with a swish, Han Fei turned into a thunder panther and dashed behind the Black Evil Conch King like a bolt of lightning.

"Roar!"

A big ape rose from the ground, and Han Fei reached out to hold the conch shell. And Han Fei's body was instantly pierced with countless small holes.

The Black Evil Conch King shouted, "I am an ancient ferocious conch. How can your human body resist me?"

Han Fei smiled ferociously. "I bet that your shell is not as hard as my bones."

Clank, Clank, Clank ~

Tens of millions of arrows shot out, and a tremendous amount of demonic energy erupted from Han Fei's body from time to time.

Boom! Boom!

Billions of points of demonic energy gathered in Han Fei's hands, and he grinned. "Show me how powerful your projection is."

Rumble!

For thousands of kilometers, the void collapsed, and the sky changed color as if doomsday had arrived.

Under this explosion, Han Fei felt dizzy and his body was blown up, but his golden bones, shining dazzlingly, were not damaged at all.

"Come back!"

The illusion of a thousand kilometers and the fluorescent light spots gathered towards Han Fei, and the big conch was wrapped in a dark green cocoon and seemed to be reborn.

Han Fei certainly wouldn't give him a chance. Two masses of demonic energy appeared on the giant hands of the ape.

"Roar! You want to be reborn? Do you have any respect for me?"

"Lunatic!"

Rumble...

The land within thousands of kilometers exploded again. On the Scattered Stars Island, in the surrounding area, Han Fei's voice floated. "King of fish shit, let's see how much essence blood you have left. Let's see if your shell is harder, or my bones are harder."

Rumble!

After bombarding it five times in a row, the Black Evil Conch King couldn't withstand such a crazy explosion in the end, mainly because he was gathering energy, and Han Fei was also using energy.

In the sky curtain, everyone saw a golden skeleton appear.

Shua!

A holy pillar of light descended, and golden spots of light returned in all directions. Han Fei's flesh and blood that had been blown up regathered at a visible speed.

Seeing this, Le Renkuang immediately shouted, "Oh, Feifei, what is going on?"

Zhang Xuanyu was dumbfounded. "Is this guy even human?"

Even Luo Xiaobai was shocked. The waterfall of demonic plants swept dozens of kilometers away, but her heart was dim. Han Fei was ahead of everyone after all!

Buzz!

Han Fei suddenly disappeared from everyone's vision. On the south coast, in the void, two Venerables were fighting. One of them was from the Mo family.

Han Fei grabbed the Mo Family's Venerable with the power of a Half-King.

"All laws forbidden in this space!"

Rumble!

Rumble!

All of a sudden, a red crack appeared in the sky, and another Venerable died, followed by a rain of blood. Because the Black Evil Conch King's original body wasn't here, no matter how many times he died, the weather wouldn't change.

Therefore, Han Fei had killed the Venerable of the Mo family.

"A*shole, Han Fei, why did you slaughter a Venerable of our human race?"

"Han Fei, are you looking for death?"

Old Chu's voice exploded, "Han Fei, you're ruining the human race."

Han Fei's domineering and ruthless voice echoed in the sky, "Do you guys really take my words seriously? I've used all my resources to fight the sea demons to the death. But you big clans appeared when the battle was about to end, making no contributions yet trying to reap the fruit of the success. How do you have the cheek to speak to me like this?"

Han Fei roared, "Have you forgotten what I said? If you want to enter the Scattered Stars Island, Give the resources first.. You deserve to die. I could've won this battle without you..."
