Chapter 1491: Play Big

Han Fei saw a dense blue light that seemed to be covering half of the sky.

When Han Fei heard the sound of “Time Freeze”, his heart skipped a beat.

Han Fei quickly looked at the Time Ring in his hand, which was shining.

“Heh!”

The corners of Han Fei’s mouth curled up slightly, and with a swish, he pierced through the space where time stopped.

Originally, Han Fei had a deep understanding of the Great Dao of time and space. The acceleration and deceleration of time were very terrifying! And the Great Dao of space was also unpredictable.

Chu Menwang was horrified. Han Fei could actually ignore his Great Dao of Time?

The other Venerables were also surprised. How long had it been since the full-scale war on the Scattered Stars Island? It hadn’t even been a year. Not only had Han Fei become a Venerable, but his strength was also not like that of a new Venerable...

And he could even block Chu Menwang’s Time Great Dao?

If Han Fei was given a little more time, didn’t it mean that no one in the entire Thousand Star City could suppress him?

Needless to say, Han Fei knew that the entrance to the lower world from the Thousand Star City must have been blocked.

At this moment, he certainly couldn’t run to the entrance, so he could only stay in the Thousand Star City.

Bam! Bam! Bam!

Ordinary people had no idea that in the void above their heads, many Venerables had stepped into the void. Their figures flashed like light in the void.

Among them, the fastest were the two or three people. One was Old Demon Chu who was a Half-King, one was Chu Menwang who was at the peak of the Venerable realm, and the other was Han Fei.

Although the Ye Family Venerable was fast... the strongest person in the Ye Family was killed by Old Han when the faceless men attacked the Thousand Star City last time.

The strong had died, and the latecomers hadn’t grown up yet. Of course, they were far behind these three people.

Han Fei’s heart stirred. It seemed that the one who was really determined to deal with him was the Chu Sect. The other big clans didn’t have the ability to attack him without the Chu Sect’s support.

In that case, Han Fei thought of two places. One was the Chu Sect, and the other was the Cao Family. He could go to these two places.

If he went to the Cao Family, it usually kept a low profile, and he might not be able to exert his full strength. Besides, although Cao Tianzhi went to the Scattered Stars Island to “see” Tang Yan, Cao Shuang killed a sea demon Venerable.

In other words, although the Cao Family took action, it didn’t have much effect. They had done a good deed and a bad one. Their attitude was unknown, so he’d better not offend them now.

Han Fei immediately made up his mind. You want to kill me? Fine! If you have what it takes, kill everyone in the Chu Sect first!

The Chu Sect and the Cao Family were the two biggest families who owned independent islands in the Thousand Star City. Han Fei waved his hand and a few fish skin maps opened.

These arrays certainly couldn’t stop Old Demon Chu.

However, Han Fei didn’t need to stop him at all. When the fish skin maps opened, the void was enshrouded in mist that stretched for dozens of kilometers.

And Han Fei had already used the Twin Divine Technique.

However, back in the Monument of Gods, after Old Demon Chu was tricked by Han Fei, he knew that Han Fei could use a clone technique.

Therefore, the old man was very careful and just slapped the mist.

Boom! Crack!

As if feeling something being crushed by him, Chu Menwang was delighted.

“Pfft!”

Just when Chu Menwang felt that he had succeeded, Han Fei’s figure quickly left the mist. He vomited a mouthful of blood and went all the way south.

As Old Demon Chu waved his long sleeve, the void mist completely disappeared. His perception swept across every grain of dust in the void.

Even so, Old Chu was still worried. “Everyone, be careful. This child has the ability of cloning. Be careful when exploring the void.”

After using the Twin Divine Technique, Han Fei’s White Mist Body was significantly weakened.

However, even so, he was still as fast as an advanced Venerable. But at this moment, someone was blocking his way?

Han Fei roared and punched out with all his strength.

Boom!

Everyone who saw Han Fei's punch, including Old Demon Chu, was certain that this was Han Fei's real body. If it weren't, how could he exert such powerful strength?

The Venerable who intercepted Han Fei was only an intermediate Venerable. He was blasted thousands of kilometers away by the Sacrificing Punch. In the sky above the Thousand Star City, explosions kept echoing.

Countless people raised their heads and looked at the sky as if they wanted to see what had happened. But how could they see the battle of the Venerables with their mortal eyes?

It was this attack that really attracted Old Demon Chu over. He grabbed the air with both hands, about to catch Han Fei.

At this moment, Old Demon Chu's expression suddenly changed drastically. "Menwang."

Old Demon Chu was horrified.

Just now, he had clearly investigated the mist, so it was impossible that someone still existed without being discovered by him. But just now, a black fog appeared out of nowhere?

Although Chu Menwang was fast enough, a teleportation array had already appeared in front of Han Fei's black-mist body.

Swish!

At the moment Chu Menwang arrived, the teleportation array had already collapsed. How could he still find the black fog?

At this moment, Old Chu grabbed Han Fei's white-mist body.

However, Han Fei sneered. "Old Demon Chu, let's play big today, OK?"

As soon as he said this, Han Fei's body shattered.

At this moment, the perceptions of the Venerables swept across the entire Thousand Star City. However, there were billions of people in the Thousand Star City, and all kinds of things were happening all the time. How could they sweep through all these people one by one?

Airwaves spread out from Old Demon Chu's body. "Han Fei, you brat, if this happens again, you won't be able to escape."

It was impossible for Old Demon Chu to guess that he had indeed killed Han Fei just now. However, he only killed half of Han Fei.

Just now, Han Fei's black-mist body died, and his white-mist body escaped. Now, the white-mist body was crushed and the black-mist body escaped.

At that moment, Han Fei had no time to enter Forge the Universe at all.

Fortunately, the characteristics of Little Black and Little White were still there. If one party didn't die, the other wouldn't die. The white-mist body was blasted into dust, so it naturally couldn't be found.

And Han Fei also deeply realized that Old Demon Chu's strength was enough to crush an advanced Venerable with a slap. Just now, this old b * stard almost killed him.

...

The Chu Sect occupied the entire Cold Moon Island.

The Vast Ocean Navigator stopped in front of an ordinary house. No one saw that a shadow that was invisible to the naked eye quietly entered the courtyard.

"Get lost!"

Boom ~

In the yard, there was an angry roar and the sound of porcelain being knocked over.

Immediately afterward, a woman's timid voice said, "Young Master, the doctor says that if you use medicine every day, it's possible to restore your spiritual heritage."

"That's bulls * it! How many times have they seen me over the years? They have completely forgotten about me, Chu Xiao. It's laughable that I, a Heavenly Talent, am reduced into this point..."

"Young Master..."

"Go! Although my spiritual heritage has been greatly damaged, I'm not a waste yet. I don't need anyone to serve me."

"Young Master..."

A moment later, Han Fei saw an ordinary girl run out sobbing.

However, the girl didn't leave but just ran into her room to cry.

Chu Xiao, Han Fei was looking for him.

Han Fei didn't know many people in the Chu Sect. He couldn't go to Chu Qingyan, could he?

Chu Xiao was crippled by him with the Sun True Flame and his spiritual heritage was destroyed by him. It would be difficult for him to make any progress in this life.

If he wanted to change his Spiritual Heritage, he would have to change his fate.

Even Venerables couldn't do it easily.

Therefore, even if a Venerable wanted to repair Chu Xiao's spiritual heritage, it would be extremely difficult.

At this moment, Chu Xiao was sitting on the bed with a pale face. He wanted to cultivate? But every time spiritual energy gathered, he would start to cough.

"Cough, cough, cough ~"

Buzz!

Suddenly, Chu Xiao saw some shadows of plants. He thought it was his illusion, so he closed his eyes and opened them again, only to find that he was in an ancient forest.

In front of him was a person, a person he had dreamed of countless times.

Chu Xiao gnashed his teeth and said, "Han, Fei..."

Han Fei smiled. "You're not dreaming. Yes, it's me! I'm surprised that you still remember me after so many years..."

Chu Xiao clenched his fists. "I can recognize you even if you turn into ashes..."

That being said, Chu Xiao didn't dare to move. Why did Han Fei find him? This was the Chu Sect. How could Han Fei be on the Cold Moon Island?

Chu Xiao asked warily, "What do you want to do?"

Han Fei didn't answer but smiled. "It seems that no one in the Chu Sect can help you repair your damaged spiritual heritage!"

Chu Xiao narrowed his eyes. He certainly knew how powerful Han Fei was now! He never missed any news about Han Fei.

Especially a year ago, Han Fei had already become the supreme commander of the Scattered Stars Island, leading a million soldiers to fight against sea demons. This made Chu Xiao lose the mood to take revenge. After all, the two of them were not at the same level at all. He had long admitted that Han Fei was indeed a peerless genius, not someone he could compare to.

Chu Xiao said coldly, "Repairing the spiritual heritage is impossible even for Venerables... All of this is because of you."

Han Fei shrugged. "Yes, but you said it's impossible for Venerables?... That's a lie. It will just take them some time. Also, if you have ultra-quality spiritual fruits and eat dozens or hundreds of them, you can recover at least 30% or 50% of your spiritual heritage. Then, you can cut your spiritual heritage and regrow it with the help of Venerables."

When Chu Xiao heard hundreds of ultra-quality spiritual fruits, he snorted. Hundreds of ultra-quality spiritual fruits? I couldn't even get one at my peak. Hundreds? That's completely impossible!

Han Fei smiled and said, "Look, there are many ways to save you. It's just that those people from the Chu Sect think you are useless and refuse to save you."

Chu Xiao asked coldly, "What do you want?"

Han Fei put on a wicked smile. "Well, nothing. I'm just chatting with you. By the way, can I borrow your body... Of course, if you're obedient, I can help you repair your spiritual heritage."

Chu Xiao was refreshed. "Why are you so kind-hearted?"

Han Fei spread his hands. "Of course I don't have good intentions, but the Chu Sect is not kind to you either! How can the Chu Sect not know my identity? Back then, they asked you to stop me. Do you think it was a coincidence? Don't be used by others without knowing it... How sad."

Chu Xiao's heart trembled. He had long been thinking about this matter. Han Fei caused a commotion in the Thousand Star City for a long time. Who stopped him? As early as back then, he had guessed that he had been used. However, at that time, he was a Heavenly Talent with a high heart and wanted to make some contributions. Therefore, when the Chu Sect was hostile to Han Fei, he also saw Han Fei as an enemy.

Now Chu Xiao's life had declined to this point. Therefore, his hatred for Han Fei had long turned into hatred for the Chu Sect.

Chu Xiao asked, "What do you want?"

Han Fei said, "Let me check your soul first..."

Chapter 1492: Eating All Over the Chu Sect

Han Fei didn't intend to disguise as Chu Xiao.

After all, Chu Xiao was already a useless person. Not to mention the upper echelons of the Chu Sect, he couldn't even touch the middle-level of the Chu Sect now. His strength had dropped from the Law Enforcer realm to the peak-level Hanging Fisher realm. He didn't even have the face to go out and wander in the Chu Sect.

And Han Fei was looking for this guy.

Although Han Fei trusted the Divine Deceit Technique very much, no top treasure technique was as practical as a real person.

After checking Chu Xiao's soul, Han Fei had a general understanding of the layout of the entire Chu Sect. As for the relationship among people, Han Fei only made a simple understanding.

Han Fei pinched his fingers and calculated, and then let Chu Xiao out. In front of Chu Xiao, Han Fei turned into a black fog and quietly returned to Forge the Universe.

Han Fei said, "Old Yuan, I'll leave this Chu Xiao to you. I'm going to the Soul Sea."

The old turtle was lost for words. Han Fei's luck was unparalleled. He certainly knew why Han Fei went to the Soul Sea.

A wisp of black gas slowly drilled into Chu Xiao's body, and the old turtle sighed inwardly. Han Fei is so bad and has even awakened an Emperor Sparrow as his spiritual beast. It shouldn't be easy for him to die.

Unconsciously, the old turtle had already gotten used to it. He didn't argue with Han Fei anymore...

Now, he just felt a little sad for the Chu Sect. He thought to himself, Why did you have to provoke this little devil? Great, I guarantee that your spiritual beasts will suffer heavy casualties this time.

In Forge the Universe, a complicated mysterious pattern appeared.

It had been a long time since Han Fei entered the Soul Sea. When he explored the Blood Sea Divine Wood City in the Water-Wood World, he went there once, upgraded Little Black and Little White by two levels, and then came out.

He didn't often go to the Soul Sea because the conditions were not ready. Han Fei already knew a lot of secrets about the Soul Sea. Only by swallowing the spiritual beasts with masters would he not trigger the unknown horror and be kicked out of the Soul Sea.

This was an extremely important rule of the Soul Sea!

Buzz!

Han Fei's consciousness suddenly descended into another world and appeared directly on Little Black. However, before Han Fei had the time to look at the Soul Sea World, he heard a cry above his head.

The cry sounded as if it had been stabbed. Who else could it belong to if not the Emperor Sparrow?

Han Fei's fish eyes turned up, only to see that the Emperor Sparrow was arrogantly looking at him with her head lowered.

"The Emperor Sparrow is standing on Little Black?"

Han Fei was a little puzzled.

However, it made sense. He had two spiritual beasts. They couldn't be separated, right? Since they appeared together, it was normal for them to be together.

However, at this moment, Han Fei didn't dare to offend the Emperor Sparrow again. He said telepathically, "Emperor Sparrow, let's go eat and drink something good."

In fact, Han Fei's goal was the spiritual beasts above level 70. Such spiritual beasts were definitely very rare. Killing one of them would be a huge loss to Chu Sect and would be best for Little Black and Little White to grow up.

Little Black and Little White happened to be level 70 at this moment and could be considered Explorers. With Little Black's teeth, there was nothing that he couldn't eat. Even spiritual beasts above level 80 could be eaten by him.

Swish!

At this moment, Little White completely understood what Han Fei meant. The two of them had cooperated more than once.

Only Emperor Sparrow was looking at Han Fei and Little White curiously, waiting with interest to see what they wanted to do.

...

In the outside world.

Old Demon Chu and the others were having a meeting in the void.

Old Demon Chu said, "This guy is cunning and has the ability of cloning. Furthermore, his other clone is pure black, which can avoid perception and vision. We need to use the surrounding space to judge its existence. Everyone has already seen his strength. If we let the tiger return to the mountain this time, I wonder how much stronger this guy will grow in the future. With his temperament, those he wants to take revenge on are definitely not our Chu Sect alone."

The other clans were helpless too. Someone said, "Elder Chu, you attacked him in person but still failed to subdue him. What else can we do now?"

Old Demon Chu said, "Since Han Fei has appeared, he will definitely return to the Scattered Stars Island. Otherwise, if he stays in the Thousand Star City, how can he grow up? The Thousand Star City doesn't have an environment for a Venerable to grow rapidly. Therefore, he must leave. What you need to do is to guard all the checkpoints. I don't believe that he won't appear..."

While Old Demon Chu was outside holding a meeting with a group of Venerables, Han Fei had been lingering in the Soul Sea for a long time.

It wasn't that Han Fei didn't take action, but that he was looking for an appropriate place to take action. The big clans were hierarchical. The strong had their own residences, which not everyone could peep at.

Therefore, after Little White avoided dozens of independent and powerful spiritual beasts, she kept swimming towards a valley in the Soul Sea.

Half an hour later.

Han Fei saw a hundred-meter-long python covered in black scales.

Han Fei knew that he had reached his destination.

Soon, Han Fei saw a gigantic bronze turtle, an octopus with tentacles as long as a hundred meters, a large shell with many colors engraved on it, a purple silver fish floating vertically in the water, a huge conch extending countless tentacles, looking like anemone...

There were many of these creatures. Almost half of them were Explorers, and the other half were level-69. It could be said that next level up, they would be Explorers.

There were as many as a thousand of these spiritual beasts. This didn't mean that the Chu Sect alone had a thousand explorers. Han Fei didn't believe that the Chu Sect had more than a thousand explorers.

It should be said that the masters of these spiritual beasts were also stuck at level-69. When the masters had no progress in cultivation, they often chose to nurture their spiritual beasts. After all, if their spiritual beasts became stronger, it was equivalent to them becoming stronger.

Therefore, many of the thousands of spiritual beasts were stuck at level-69. Their masters' strength limited their growth.

The Chu Sect's cultivation tower.

This was a cultivation tower specially built for the outstanding children of the Chu Sect. Each floor's different rooms represented different levels.

Chu Luo was cultivating in seclusion. He was trying to break through to the Half-Venerable realm. As long as he broke through to this realm, with the help of his spiritual beast, he could even act as a sparring partner for beginner Venerables.

Suddenly, Chu Luo was refreshed and felt that there seemed to be a voice crying in his soul. However, he, who was immersed in cultivation at this moment, thought that he might enter the Half-Venerable realm and was a little excited.

...

In the Soul Sea.

Han Fei turned into a big black fish, his body expanded five or six times, and he was biting crazily. In an instant, a big fish was gnawed into a sieve by Han Fei.

“Ah ~”

The Emperor Sparrow’s cry no longer sounded as if he had been stabbed but was very aggressive. He was a little curious and went up to bite the fish too.

Han Fei hurriedly said, “Be careful. These creatures are very high-leveled. You may not be able to withstand them. I’ll take you to eat some lower-leveled ones later.”

“Ahhh~”

The Emperor Sparrow shouted at Han Fei in dissatisfaction, thinking to himself, Do you look down upon me? I, an Emperor Sparrow, can’t even take my food?

The Emperor Sparrow was pecking and eating behind Little Black. Soon, he drank a lot of blood.

And Han Fei saw that the body of the Emperor Sparrow flickered with brilliance. After a while, it flickered; after a while, it flickered again...

After just one meal, the level of the Emperor Sparrow rose from one to nine.

It seemed that he was a little full. The Emperor Sparrow flew to Little White’s forehead, showing signs of a breakthrough.

Han Fei thought to himself, I told you not to eat too much. Now look... although your strength is improving fast, is it stable?

However, Han Fei was also very surprised. A level-one creature could actually swallow the energy of an Explorer? If it were an ordinary creature, they would definitely die.

For example, if he caught a dying Explorer-level creature and threw it into a mass of Marching Sea Leeches, would the Marching Sea Leeches or the Explorer-level creature die?

The result might be that the Marching Sea Leeches were all wiped out, but the Explorer-level creature would survive.

After all, the Marching Sea Leeches couldn’t carry the enormous energy of advanced creatures at all.

However, the Emperor Sparrow was different. He kept drinking blood and eating meat and upgrading to level nine. After he was full, he ran to Little White's head and closed his eyes to rest.

Han Fei didn't pay much attention to him.

Since he had found the place, they had to make the best use of the time to eat. Not all the explorers were fools. Perhaps one person didn't find anything unusual, but not everyone would be like this. Once these people summoned their spiritual beasts out, they wouldn't be able to eat them anymore.

Therefore, Han Fei bit a flood dragon. Who cares who it is? Eat it first.

In the Cultivation Tower of the Chu Sect.

Soon, someone noticed that something was wrong.

While Han Fei was eating, someone sensed that his spiritual beast was voluntarily coming out.

When the person summoned his spiritual beast, he saw a complete fish head. The fish body was completely gone, without even bones.

"Hiss!"

The man was horrified.

What happened? He had never encountered such a situation in his entire life!

In fact, he shouldn't have summoned his spiritual beast at this moment. If he summoned it now, his spiritual beast could only die. If he didn't, with the characteristics of the Soul Sea, it would eventually become a level-one spiritual beast.

The moment the person's spiritual beast disappeared, Han Fei knew that this matter was exposed. However, he didn't care. He would just let his spiritual beasts eat as much as they could!

The Chu Sect was so big and had so many people. He didn't believe there was no food for his spiritual beasts anymore!

"Gulp ~"

"Gulp ~"

Finally, there was a commotion in the Chu Sect's cultivation tower. For a moment, everyone panicked.

Someone shouted, "Attention, everyone! Summon your spiritual beasts! Hurry up!"

Chapter 1493: An Invisible Enemy

At this moment, many people in the Chu Sect's cultivation tower were woken up. After the accident, they immediately shouted for reinforcements.

However, cultivation was usually conducted by one person in absolute silence. Some people even put a seal on their residence to ensure the effect of their cultivation.

After a while, thirty or forty people gathered under the cultivation tower, all of whom looked solemn.

Someone asked in panic, "How is it? How is your spiritual beast?"

Someone shouted angrily, "Damn it, my spiritual beast has become level one."

Someone frowned. "When I summoned it, I found that it died."

Someone's face flushed with anger. "Half of my spiritual beast has been bitten, and it's dying. However, I dare not withdraw it."

Buzz!

A Venerable suddenly appeared. Someone had gone to report him. The moment he arrived, he shouted, "What happened?"

"Master Feng, our spiritual beasts are all in trouble..."

"Which son of a bi * ch..."

Before the person finished speaking, an explorer carried a big turtle and jumped off from the cultivation tower. The state of the big turtle stunned everyone.

Half of the turtle's neck had been bitten, and blood was flowing out of its shell. Only one of its limbs was left, and its shell was almost empty. It was dead for sure.

"Hiss ~"

Immediately, Chu Feng thought of something.

A few years ago, in the Sky Meditation Garden, many young disciples' spiritual beasts had all become level-one spiritual beasts.

As a Venerable, he naturally knew more than these peak-level law enforcers or explorers. He had heard of the guess about the Soul Sea.

His face changed drastically, and a terrifying pressure descended on the cultivation tower.

Bang! Bang! Bang!

A large number of seals were directly broken.

Many people who were fine thought that something big had happened. They walked out of the cultivation tower one after another, only to see that many people had gathered below. They were all dumbfounded.

Someone wondered, "What happened?"

"Master Feng?"

Chu Feng shouted, "Everyone, summon your spiritual beasts immediately."

Many people were confused!

Suddenly, someone's expression changed. He hurriedly summoned his spiritual beast, only to see a shark that had been bitten into a beehive fall to the ground. Its body had almost been hollowed out.

The man looked at this scene blankly and couldn't believe his eyes. F*ck, is this a dream?

Seeing this, the others also hurriedly summoned their spiritual beasts.

For a moment, all kinds of spiritual beasts filled the outer square of the Chu Sect's cultivation tower.

All kinds of exclamations rose and fell.

Especially the peak-level law enforcers, dozens of their spiritual beasts had already become level-one pets.

This was a serious problem. The group of people looked at each other, at a loss of what to do...

In the Soul Sea.

When Han Fei found that all the surrounding spiritual beasts were gone, he felt terrible.

These are all great tonics!

In this short period of time, Little Black and Little White had stabilized their realm of level 70 and directly reached level 71.

After the breakthrough, Han Fei had eaten nearly 30 spiritual beasts.

Han Fei felt that if he were given another half an hour, Little Black and Little White could upgrade again.

However, at the moment those creatures went out, the rest were particularly dazzling.

At this moment, Han Fei saw a Hollow Nether Fish.

The Hollow Nether Fish was a fish that could be invisible and had extremely strong spiritual power. If it were other spiritual beasts, they might not be able to see it. However, Little Black and Little White's eyes could penetrate the void.

Information popped up in Han Fei's eyes.

< Name > Hollow Nether Fish (Chu Feng's spiritual beast)

< Introduction > An extremely lazy fish. When it remains still for a long time, it will enter a state of invisibility. The spiritual power of the Hollow Nether Fish is extremely strong. It can easily pierce through the enemy's mind and kill creatures at the same level as it can swallow a small amount of the enemy's soul.

< Level > 81

< Quality > Exotic (Ultra-quality)

The Hollow Nether Fish had obviously seen Little White and Emperor Sparrow. At this moment, the Emperor Sparrow was no longer level 9 but level 16 because he had digested his food again.

Han Fei couldn't help but sigh at his speed of digestion and growth.

Without any hesitation, Han Fei rushed up and opened his mouth wide.

However, the Hollow Nether Fish seemed to feel threatened and immediately launched a Soul Explosion.

However, it underestimated Little Black's level. As soon as this soul explosion was launched, Han Fei controlled Little Black to bite the Hollow Nether Fish's head.

In the outside world.

Chu Feng was transmitting the news to Chu Menwang when his face suddenly changed. In the next moment, his Hollow Nether Fish appeared.

However, what made his scalp tingle was that half of his spiritual beast's head had been bitten off.

At this moment, as soon as the Hollow Nether Fish left the Soul Sea, its head began to regrow. After all, it was a creature in the Venerable realm. Ordinary Venerables could be reborn from a drop of blood, so could their spiritual beasts.

Chu Feng said with an ugly expression, "This time, I must ask the family head about the Soul Sea. If it's not in the Soul Sea, why are so many people, including me, having our spiritual beasts attacked?"

Chu Feng even felt that in the world of spiritual beasts, there was something maliciously slaughtering the spiritual beasts of the Chu family.

...

In the Soul Sea, the Emperor Sparrow flew to Han Fei's head again, and his beak went straight into Han Fei's big mouth.

Han Fei thought to himself, I'm still eating, OK?

Anyway, Little Black had eaten a lot, so he didn't mind this mouthful of food.

Han Fei spat out the fish head that he bit off.

The Emperor Sparrow pecked, picked up an eyeball from the bloody mist, and swallowed it.

"Weng ~"

This eyeball alone got the Emperor Sparrow to level up.

Han Fei was speechless. Why not take advantage of this period of time to improve the level of the Emperor Sparrow?

Later, he could still feed it with Spirit Awakening Fluid. Anyway, he had plenty of these resources.

Ten thousand kilometers away, Old Demon Chu and Chu Menwang were still looking for Han Fei, trying to find out where he had gone.

Suddenly, Chu Feng said, "Patriarch, Family Head, something happened at home."

Chu Feng's words made Old Demon Chu and Chu Menwang look at each other.

Both of them realized a problem: Han Fei went to the Chu Sect.

They had never expected that!

After entering the Chu Sect, wouldn't Han Fei be dead for sure? Was his brain damaged?

Old Demon Chu shouted, "All the strong masters of Chu Sect, go home."

Swish swish swish!

After a while, when Old Demon Chu saw a group of level 1 spiritual beasts appear, his expression turned extremely ugly.

Old Demon Chu said, "As I expected, it was that boy who did that."

Chu Menwang narrowed his eyes and shouted, "All disciples of the Chu Sect, immediately summon your spiritual beasts and activate the Chu Sect's grand array. Everyone in the Chu Sect, from now on, is not to leave the Chu Sect without permission. Whoever violates this order shall die."

Chu Menwang's sound resounded throughout the entire Chu Sect via voice transmission.

The noise was deafening.

The Chu Sect occupied the entire Cold Moon Island with a population of billions. Of course, there were also some factions under the Chu Sect. The Chu Sect alone occupied one-third of the Cold Moon Island.

After the order was issued, countless people summoned their spiritual beasts and waited to be screened.

In Chu Xiao's yard.

After the maidservant heard the voice transmission, she hurriedly ran to Chu Xiao's room, holding a red octopus in her hand.

"Young Master, something happened. Quickly summon your spiritual beast."

Chu Xiao frowned. "I heard it. Didn't I ask you to leave?"

"Young Master, I'm not leaving. Summon it now."

Buzz!

A purple lobster appeared in the room.

Chu Xiao pondered for a moment and said, "Ling, go to your room. Something must have happened in the clan. The perceptions of the strong will sweep over soon. Don't stay here."

"Young Master, are you really okay?"

The little girl asked with concern, holding the big octopus.

Chu Xiao shook his head. "There are many strong masters in the clan. You don't have to worry about anything."

After driving this little girl away, Chu Xiao was shocked. What did Han Fei do to make the family head issue this order? Why did he ask everyone to summon their spiritual beasts?

However, at this moment, Han Fei had already disappeared without a trace. Chu Xiao was also puzzled. What the hell have I done?

Just as Chu Xiao was struggling in his heart, a voice sounded in Chu Xiao's mind. "There's no problem with your choice. On the path of cultivation, of course you do everything for your own good. The Chu Sect abandoned you, so what do you owe the Chu Sect? From now on, don't speak or mention Han Fei's name... No matter what happens, just pretend to cultivate. Otherwise, you will die."

Chu Xiao was about to ask a question, when the voice said, "If you have any questions, just ask me in your heart."

Chu Xiao asked, "Are you Han Fei?"

The old turtle chuckled. "I am an emperor..."

Who knew what story the old turtle told Chu Xiao?

At this moment, Han Fei was depressed. Chu Menwang was very decisive. Now he could only eat any spiritual beasts he met, and when he met a spiritual beast left behind, he just directly swallowed it.

After all, there were so many people in Chu Sect! There would always be a few people who were stupid and couldn't respond to the call in time to summon their spiritual beasts.

However, Han Fei didn't panic at all. Chu Xiao was controlled by the old turtle.

As for him, he would just stay here.. If the Chu Sect has the ability, they'd better carry their spiritual beasts every day! Otherwise, I'll definitely eat them.

Chapter 1494: Hunting

The Chu Sect was very powerful. Just the population of the main branch added up to hundreds of thousands.

At this moment, they were all in a mess. Everyone had brought their spiritual beasts with them. When these people met each other, they were all dumbfounded.

There was nothing else Chu Menwang could do. He didn't know what method Han Fei had used to slaughter the Chu Sect's high-end spiritual beasts.

Although the Chu Sect had many people, they couldn't withstand a Venerable-level powerhouse who could easily slaughter spiritual beasts in a place that was very likely to be the legendary Soul Sea!

In fact, Chu Menwang had long known that Han Fei would retaliate and the Chu Sect would inevitably be damaged. However, he didn't expect that there was a problem with the Soul Sea.

After this matter, the Chu Sect's prestige would definitely be damaged!

However, as the head of the family, he had to be decisive and minimize the losses.

The prestige was damaged? As long as he killed the enemy, he could take it back.

At this moment, the Chu Sect's array had been activated. Chu Menwang was certain that Han Fei had no reason to escape.

What Chu Menwang didn't expect was that since Han Fei was here, he had no intention of escaping at all.

Han Fei thought to himself, Your Chu Sect is too overbearing. Do you really think I don't know how to cause trouble?

At this moment, Han Fei didn't panic at all.

Logically speaking, the Chu Sect should be investigating the people in the clan at this moment. They would even tentatively let some weaklings put their spiritual beasts into the Soul Sea.

Han Fei was not in a hurry. He was going to wait and see how it worked.

Unfortunately, this soul sea couldn't be connected to the outside world. Otherwise, with him inside and the old turtle outside, they would definitely be able to mess around with Chu Sect.

Of course, Han Fei also sensed the existence of stronger spiritual beasts. Little White told Han Fei that those spiritual beasts were beyond his abilities.

Han Fei thought to himself, That's true. Those who still dare to blatantly put their spiritual beasts in the Soul Sea must be very confident in their spiritual beasts.

Han Fei knew that he couldn't hunt advanced Venerable-level spiritual beasts for the time being. Such creatures could be revived with a drop of blood and couldn't be killed. After all, Little Black and Little White's current strength was limited.

"Wait..."

Han Fei's heart did a flip. It wasn't entirely impossible! In fact, he could give it a try. The Supreme Yin-Yang Wheel could cut everything. What if he cut one of them to death?

Of course, Han Fei didn't attack blindly.

When he swallowed some powerful spiritual beasts and made a breakthrough to level 72, he would hunt them.

Then even if he couldn't kill them, he could still run away anyway.

As for the other party's spiritual beast attacking him? This didn't happen.

Han Fei had always suspected that there were rules in the Soul Sea that he didn't know of...

For example, when he first entered the Soul Sea, it was on a boat in the level-two fishery. He saw an Iron Hook Squid in the Soul Sea, whose first reaction when it saw Little White was to rush over and attack him.

Because of this, Han Fei immediately guessed that spiritual beasts would also fight each other in the Soul Sea. After all, primitive spiritual beasts would also fight each other.

However, Han Fei never sensed that other people's spiritual beasts were hunting Little Black and Little White. He used to think that Little Black was very fierce. When those creatures met him, they would feel lucky not being bitten to death. Who would dare to come up to bite Little White?

But today, Han Fei discovered that he had already started a massacre, but those spiritual beasts were a little stunned. They seemed to only know how to fight back, but wouldn't directly attack Little White.

This meant that they didn't have a target to attack. However, why didn't they attack when Little White was around?

This made Han Fei ponder about the question again.

When he first entered the Soul Sea, someone attacked him while he was unconscious. At that time, it was because that person was preparing to kill him. Therefore, his spiritual beast would have a clear consciousness to attack Little White.

Han Fei suddenly realized something. Could it be that when two people were fighting in reality, a battle was very likely to erupt between their spiritual beasts in the Soul Sea at the same time?

However, most people would fuse with their spiritual beasts in combat.

However, even so, there should be strange incidents of spiritual beasts suddenly dying or inexplicably becoming level-one. He had never paid attention to such cases. When he returned, he would investigate it carefully.

According to Han Fei's current conclusion, the attitudes of both sides in reality might very well decide the attitude of their spiritual beasts in the Soul Sea.

Therefore, the connection between the master and the spiritual beast might be more intimate than everyone thought. It was so intimate that their souls, minds, and consciousnesses were extremely synchronized.

Understanding this, Little Black rolled his eyes a few times and swam towards an extremely dangerous spiritual beast.

"Ah ~"

The Emperor Sparrow cried, no longer sounding as if he had been stabbed, but rather excited, as if he was urging Han Fei to attack quickly!

This guy seemed to be adding oil to the fire.

At this moment, Han Fei didn't dare to offend this guy at all. He was doing something big! If he pissed off this lord, he would be in big trouble!

...

In the Chu Sect's official hall, Chu Menwang had quickly issued an announcement.

Chu Menwang shouted at a group of core members in the Explorer realm and the peak of the Law Enforcer realm, "What happened to your spiritual beasts... Let's talk about it later. Let's talk about the most important thing first. You should all know that Han Fei has sneaked into our Chu Sect. Now I

suspect that he has a way to enter the Soul Sea and is focused on hunting the spiritual beasts of our strong masters...”

“Hiss!”

Many people gasped, and someone exclaimed, “The Soul Sea really exists?”

Someone was shocked. “How do we find him?”

Someone was horrified. “I heard that this guy has already become a Venerable. He can actually sneak into Chu Sect in front of the Family Head. This...”

Chu Menwang didn’t care about the various voice transmissions below. He shouted, “I need you to check every member of the clan. If I know anyone who isn’t attentive, don’t blame me for being ruthless.”

After a while, Chu Menwang issued some more inspection methods and emphasized Han Fei’s abilities, and then sent all these people away.

When all the people below the Venerable realm left, six people, including Old Demon Chu, appeared with a swish.

Including Chu Menwang, there were seven of them.

This was the Chu Sect’s current strength.

Old Demon Chu said, “Chu Feng, tell me about what you saw just now.”

Chu Feng stood out. “Patriarch, just now under the cultivation tower, there were indeed many people whose spiritual beasts were gnawed on. Some have become level-one spiritual beasts. Therefore, I have several guesses about the Soul Sea.”

Old Demon Chu said lightly, “Speak.”

Chu Feng said, “I noticed that those spiritual beasts that were gnawed out still had a trace of vitality when they came out. However, the vitality was quickly gone. This means that when they were attacked and seriously injured, they were not dead but only dying. Therefore, when those creatures were summoned, they were being attacked.”

Old Demon Chu nodded slightly. “Continue.”

Chu Feng said, “It’s very strange that a spiritual beast becomes level one. If Han Fei made his spiritual beast eat and kill other people’s spiritual beasts, why did they become level one after being gnawed on? I suspect that when a spiritual beast dies in the Soul Sea, they won’t really die but keep their original form. Those who died were all summoned out.”

Old Chu’s eyes lit up. “Yes, continue.”

Being praised by the patriarch, Chu Feng continued, “I’m wondering why Han Fei barged into our Chu Sect when he knew that our Chu Sect was unfathomable. Although he can attack the spiritual beasts of some strong masters, with his strength alone, he can’t do anything to shake the foundation of our Chu Sect. Then why did he come?”

Chu Menwang said leisurely, "Perhaps... if he wants to hunt the spiritual beasts of our Chu Sect's strong masters, he has to get close to Chu Sect first?"

Chu Feng immediately said, "Exactly, the closer we are in reality, the closer our spiritual beasts will be in the Soul Sea."

Old Demon Chu said, "Um, these analyses are very insightful. Feng'er is not bad."

Chu Feng was overjoyed. "Thank you for your praise, Patriarch. However, what I don't know is why spiritual beasts can't describe the Soul Sea and what happens in it?"

Old Demon Chu said, "The Soul Sea is very mysterious, and no one in this world has really seen it. It seems that Han Fei has indeed mastered some secrets that we don't know at all. Therefore, once we catch Han Fei, we can find the answer to everything."

Old Demon Chu's expression was slightly cold. "Our sect is only so big. I want you to find him personally. This guy is the greatest danger to our Chu Sect. His danger level is comparable to the Cao Family's."

When Old Demon Chu said this, everyone, including Chu Menwang, looked at him in surprise. Comparable to the Cao family? Wasn't he overestimating Han Fei?

Old Demon Chu snorted coldly. "Don't underestimate this person. This person has escaped from me three times. Eight years ago, he had something to rely on, and Han Guanshu helped him. Now, he can already deal with me by himself. Do you still think he is simple?"

Old Demon Chu gave Han Fei a high evaluation.

He firmly believed that Han Fei had obtained too many opportunities in the Heavenly Palace recorded in history. A Half-Venerable was almost at the peak of the junior Venerable in less than a year? The strongest combat power he could exert was comparable to that of an advanced peak Venerable. How could he keep such a terrifying figure?

And just when Old Demon Chu ordered the search for Han Fei, the face of one of the subordinates suddenly changed drastically.

"Come out!"

In front of everyone, half of a Wind Thunder Flood Dragon appeared in the Chu Sect's meeting hall.

"Uncle Jun, what's wrong?"

Chu Jun said with an awful expression, "Han Fei, this b * stard, how dare he hunt my Wind Thunder Flood Dragon?! What should I do?"

Chapter 1495: A Battle of Attrition

It wasn't easy to kill a Venerable-level spiritual beast, so Han Fei was already fast enough. He had entered the mouth of the Wind Thunder Flood Dragon himself and then used the Supreme Yin-Yang Wheel in its body.

In an instant, the Wind Thunder Flood Dragon was cut into seven or eight pieces.

All this happened only one second before the Wind Thunder Flood Dragon was pulled out of the Soul Sea.

Around the Wind Thunder Flood Dragon, the other Venerable-level spiritual beasts became vigilant and entered combat mode.

This was the difference between a Venerable-level spiritual beast and ordinary spiritual beasts.

However, what shocked Han Fei was not the strength of these spiritual beasts, but their number. Plus the spiritual beast he killed, there were a total of seven Venerable-level spiritual beasts here.

The growth of spiritual beasts was based on the upper limit of their master's growth. This meant that there were seven Venerables in Chu Sect.

However, although the Wind Thunder Flood Dragon of the Venerable named Chu Jun ran away, only part of its body escaped. The rest were all eaten by Han Fei.

“Ah ~”

The Emperor Sparrow followed him and hummed as he ate.

It had to be said that the effect of a high-level spiritual beast was really different. The Emperor Sparrow had leveled up again!

Although Little Black and Little White hadn't upgraded yet, Han Fei had already sensed that they were not far from upgrading.

...

Three days later.

In the small house where Chu Xiao was, someone knocked on the door and shouted, “Chu Xiao, open the door, Chu Xiao...”

A moment later, Ling'er opened the door and asked, “What do you want? My young master is cultivating.”

Someone sneered. “Cultivate? From a law enforcer to a Hanging Fisher? If he continues to cultivate, won't he become a Dangling Fisher?”

Little Ling'er said angrily, “Our Young Master will definitely restore his strength!”

Boom ~

These people were not interested in wasting their time arguing with a little girl. The airwave shook, and the little girl flew out and fell heavily to the ground.

Beside these people, their spiritual beasts followed them, big crabs, jellyfish, Anti-Heaven Blade, Soul Eating Shrimp... All of them brandished their claws and rushed into the yard.

“Chu Liang, what do you want? Aren’t you afraid that the law enforcement hall will punish you for attacking a clansman for no reason?”

The guy called Chu Liang laughed. “Punish me? Chu Xiao, I’m afraid you don’t understand the situation? You need to know your own status. Do you think the law enforcement hall will pay attention to a peak-level Hanging Fisher?”

Chu Xiao’s face flushed red. Of course he knew why these people kept picking on him. The strong, especially the heavenly talents, had always been arrogant. He had once been in the limelight and was one of the most shining stars of the Chu Sect.

In the past, he had bullied others and enjoyed the flattery of these people. This Chu Liang and the people around him were the useless people who had flattered him and he didn’t even bother to take a look at them.

Now, Chu Liang had reached the Law Enforcer realm. Therefore, he wanted to bully him back. This was not the first time he had come to provoke him.

In the past, Chu Xiao’s strength hadn’t dropped much, and Chu Liang hadn’t become a law enforcer, so he didn’t dare to do anything rash. But now, when he completely fell to the realm of a Hidden Fisher, Chu Liang became bolder.

Little Ling’er hurriedly got up and looked at Chu Xiao worriedly. “Young Master.”

Chu Xiao held back the fury in his heart and said in a low voice, “Chu Liang, what do you want?”

Chu Liang sneered and swaggered into the courtyard, saying lazily, “A strong master broke into the Chu Sect. As the strongest heavenly talent in this area, I certainly have to be vigilant. But your small courtyard is closed all year round... Is that thief in your courtyard?”

Chu Xiao sneered. “Heh! How can a strong master who can break into the Chu Sect be in my small courtyard? Do you believe this?”

Before Chu Xiao could speak, another person said, “That’s hard to say. What if you have already been possessed and are no longer the original Chu Xiao?”

“Hahaha!”

After that person finished speaking, Chu Liang and the others all laughed. In fact, those who were possessed usually became stronger crazily, but his strength kept declining.

Chu Liang said quickly, “Yes, that makes sense. I suspect that you may be possessed. So, I want to test your strength with my own hands.”

“No! You are obviously bullying my young master.”

Little Ling’er stood in front of Chu Xiao. “You are already a Law Enforcer, but my young master is only a peak-level Hanging Fisher. You did it on purpose.”

Chu Liang slapped her and Little Ling was sent flying again.

Chu Liang cursed, “What an eyesore. Since when does a little girl dare to be impudent in front of me?”

Chu Xiao stared at Chu Liang and gritted his teeth. "Okay! Then let's have a fight."

"Young Master, no! You can't fight..."

Chu Xiao turned around and scolded, "Shut up... I'd like to see how capable you are, Chu Liang!"

Ka ka ka ~

A purple lobster quickly crawled out of the house. Chu Liang and the others narrowed their eyes when they saw the purple lobster.

Before, they didn't dare to provoke Chu Xiao because of the Purple Gold Lobster. However, the Purple Gold Lobster was only level-55 and only an intermediate Hidden Fisher. Even if it was threatening, it wasn't enough.

Chu Liang chuckled. "Let our spiritual beasts solve this battle."

Then, a group of spiritual beasts surrounded the Purple Gold Lobster.

What would happen next could be imagined: begging for mercy was impossible. As a former Heavenly Talent, Chu Xiao wouldn't allow himself to beg for mercy.

Clank, Clank, Clank ~

Clang! Clang! Clang!

The Purple Gold Lobster was besieged and battered. Fortunately, the Purple Gold Lobster had a strong defense power. Although it was only an intermediate Hidden Fisher, its defense power was comparable to that of an ordinary peak-level Hidden Fisher.

However, while the Purple Gold Lobster could bear it, Chu Xiao couldn't. At this moment, he was already lying on the ground. In just 20 seconds, he had been beaten hundreds of times and his body was covered with injuries.

Clank ~

Chu Liang poked a spear on the ground, stuck it to Chu Xiao's neck, and stepped on Chu Xiao's back with one foot. He sneered and said, "Look, where is your arrogance from before? Why is it gone?"

Someone sneered. "Brother Liang, he's already disabled. How can he still be arrogant?"

Someone sneered. "Chu Xiao, who used to be insufferably arrogant, has now fallen to this point. As the saying goes, 'changeable in prosperity and decline, capricious in rise and fall'."

Chu Xiao spat out a mouthful of blood. "Kill me if you have what it takes. Otherwise, I will kill you sooner or later."

Seeing this, Chu Liang frowned. "How dare you talk back? Keep beating him..."

...

Fighting and being beaten were completely different. For example, Chu Xiao was being beaten, not in a battle. He could only be beaten one-sidedly.

At this moment, Chu Xiao was leaning on the bed sore all over, and Ling'er was crying. "Young Master, let's go find the elders of the law enforcement hall!"

Chu Xiao shook his head. "No. How can I not know the Chu Sect's law enforcement hall? I've already lost power. The law enforcement hall won't help me."

In the name of healing his wounds, Chu Xiao sent Little Ling'er away.

At this moment, in Chu Xiao's heart, the old turtle's voice sounded leisurely. "Look, the rules of this world have always been set by the strong. Now, they are only here to bully you. If these people grow up for a period of time, it's almost impossible for you to survive in the Chu Sect."

How could Chu Xiao not know this? Otherwise, he would have long reported about Han Fei's whereabouts.

Chu Xiao asked, "Will you really help me recover my spiritual heritage?"

The old turtle said leisurely, "No, not me but Han Fei, as long as you can be useful to him..."

...

In the past three days, almost every morning, afternoon, and evening, people kept inspecting and interrogating around in the Chu Sect.

In the Chu Sect's meeting hall, the members of the Elder Group were seated. Someone said, "This can't go on! We searched for him for three days but got no results. Did Han Fei escape when he attacked?"

Someone frowned and said, "That's right. The protecting array consumes a lot every day. If this goes on, people will panic."

Someone said, "Family Head, should we let some people's spiritual beasts return to the Soul Sea? We can check if Han Fei is still there."

The seven Venerables searched for three days but didn't find anything. Even the pure black shadow that Old Demon Chu mentioned couldn't be found.

At this time, even Chu Menwang guessed that Han Fei had probably run away.

Chu Menwang said, "Ask all the disciples below the Hidden Fisher realm to recall their spiritual beasts. In addition, arrange for a thousand Hidden Fishers and a hundred Law Enforcers to recall their spiritual beasts..."

...

Han Fei wandered in the Soul Sea for three days and casually ate some primitive soul beasts.

He was not in a hurry anyway. It didn't matter if he was in the Scattered Stars Island or not. Besides, Xue Shenqi was still there.

Suddenly, Han Fei felt that there were more and more spiritual beasts around him. Soon, they were everywhere.

"Little White, find the spiritual beasts above level 70."

“Huh? Very few? How many? Three or five? What about those above level-80?”

“None?”

Han Fei sneered in his heart. Were they fishing for him?

However, I won't fall for it. I don't know when I can enter the Soul Sea again. How can I retreat so easily?

Another three days passed.

The Chu Sect's inspection times decreased from three times a day to once a day. They really couldn't find Han Fei!

Three days later, more Law Enforcers and Explorers' spiritual beasts returned to the Soul Sea.

However...

“Oh! Not good! My spiritual beast has already died.”

“Hurry up, summon your spiritual beast.”

“Han Fei is still here...”

Chu Menwang was furious. This guy is still in Chu Sect? Where is he hiding?

Chu Menwang: “Those above the Law Enforcer realm, summon your spiritual beasts.”

Old Demon Chu appeared in the meeting room with an ugly expression. “Good move... As expected of Han Guanshu's son...”

Chapter 1496: Is This Game Fun?

In the Soul Sea.

Han Fei hunted around, and Little Black and Little White successfully advanced to level 73. Then, those spiritual beasts went out again.

When these spiritual beasts were summoned out for the second time, Han Fei didn't continue to wait but quickly hunted the primitive spiritual beasts.

Finally, after half a day, Little Black and Little White failed to break through to level-74, as if they were stuck. At this time, that terrifying feeling came again, and Han Fei's consciousness returned and appeared in Forge the Universe.

When he came back to his senses, Han Fei still felt that his head hurt a little bit. After a minute, he gradually recovered.

The old turtle said, “Your consciousness has been away from your body for too long. Don't mind it. Did you swallow a lot of spiritual beasts in the Soul Sea?”

Han Fei rose and said casually, “Not many. Only a few hundred of them in total.”

The old turtle really wanted to roll his eyes at Han Fei. The spiritual beasts that others have worked so hard to cultivate were eaten by you so easily? Hundreds? How many do you want to eat?

Han Fei asked, "Old Yuan, how is the situation outside? Is there anything wrong with Chu Xiao?"

The old turtle said, "Chu Xiao has a deep hatred for the Chu Sect. He has been persuaded by me to completely betray the Chu Sect. You can use him to cause some trouble."

Han Fei sneered. "What can Chu Xiao do now? He's just a disabled person. He can't blend in with the law enforcement circle anymore. No one will take him seriously. Low-level groups are not my goal. What do you think he can do?"

The old turtle said, "That's not true! Everyone has their own significance. It's normal for one's luck to fluctuate. You can easily repair his damaged spiritual heritage with Heaven Enlightenment Divine Technique. However, who knows what revenge he will take on the Chu Sect?"

Han Fei froze for a moment and then thought for a moment. "If his spiritual heritage is suddenly healed, people will suspect him, won't they?"

The old turtle said leisurely, "Who do you think will care about a forgotten Heavenly Talent who has been abandoned for seven or eight years? There are many examples of a person who erupts from forbearance. As long as he doesn't cultivate for the time being, no one will find that he has recovered! Although his spiritual heritage is restored, his strength won't increase. Of course, it will improve very quickly."

Han Fei's heart suddenly stirred, and he grinned. "Old Yuan! I find that you are more wicked than me."

The old turtle said leisurely, "No, not as wicked as you..."

...

Two days passed.

This time, Chu Menwang asked the Hidden Fishers to release their spiritual beasts to test out and nothing happened. However, the strong masters would rather carry their spiritual beasts than release them into the Soul Sea.

But these people had no idea that Han Fei had already come out of the soul sea.

In the past two days, Chu Xiao's courtyard was not completely quiet.

Chu Xiao asked Little Ling'er to visit a few previous companions of his who were in the Law Enforcer realm. Those people were once weaker than him. Therefore, Chu Xiao planned to use a secret technique to buy some resources.

However... On this day, Chu Xiao's courtyard was kicked open again.

It was the same Chu Liang from two days ago, but this time, he only brought two people with him.

Chu Liang shouted coldly, "Where is Chu Xiao? Come out."

Little Ling'er had already stood in front of Chu Xiao and said stubbornly, "Young Master, don't come out. This bad guy is up to no good."

Chu Liang sneered. "Hey, little girl, don't get in my way. Don't worry. As long as your Young Master is sensible today, I can spare him."

Creak!

The door was opened, and Chu Xiao, pale-faced, laid a hand on Little Ling'er's shoulder. "Get out of the way."

"Young Master ~"

Chu Xiao pushed Little Ling'er aside and walked straight to Chu Liang. His eyes were cold as if he were looking at a dead person. "Speak."

Chu Liang was dumbfounded. F*ck, you're already like this. Why are you still so arrogant?

Chu Liang almost wanted to kick him to death.

However, Chu Liang knew that Chu Xiao was arrogant. He came here with a purpose, not to fight.

Chu Liang said with a smile, "Chu Xiao, don't say that I don't give you a chance. Back then, you didn't treat anyone nicely. To put it bluntly, I'm taking revenge on you. If you want me to let you off, OK. I know you have a secret technique, Wind Spirit Finger. Give it to me and I won't look for trouble with you again."

Xiao Ling'er was shocked. "Young Master, those people..."

Chu Xiao shouted in a low voice, "Shut up."

Little Ling'er's face was pale. Those people were all members of her Young Master's team. But now, they had betrayed her Young Master! That was too much.

Chu Xiao was silent for a long time.

Chu Liang thought that Chu Xiao was being arrogant again, so he immediately said, "Chu Xiao, a wise man submits to circumstances. As the saying goes, a man's wealth is his own ruin. Give it to me, and I won't have time to pick on you in the future."

Chu Xiao raised his head slightly. "Okay!"

A gleam flickered in Chu Liang's eyes. He didn't expect Chu Xiao to give in. Although he came with a mission, he must have a share in the Wind Spirit Finger.

Chu Xiao flipped his hand and handed a jade slip to Chu Liang. "From now on, we have nothing to do with each other."

At this moment, Chu Liang was not in the mood to cause trouble.

It was said that this secret technique was one of Chu Xiao's strongest secret techniques. He had to quickly go back and copy it.

A moment later.

After Chu Liang and the others left, Chu Xiao looked back at Little Ling'er. "This matter has nothing to do with you. It's just a secret technique. Even if I lose it, it doesn't matter."

However, Ling'er still kept apologizing. In the end, Chu Xiao simply ignored her.

...

After Chu Liang got the Wind Spirit Finger, he sent his two lackeys away, promised some benefits, and couldn't wait to return home.

Chu Liang held the jade slip and smiled coldly. "Chu Xiao, tsk, I didn't expect you to have such a day. Heh, you think I can let you off just for the sake of this Wind Spirit Finger? You wish."

When Chu Liang's perception swept over, he suddenly stiffened slightly. But then, he returned to normal.

However, Chu Liang's expression was no longer that of excitement, but a weird smile.

A Law Enforcer was considered a strong master in Chu Sect. There were many places he could go.

However, Chu Liang didn't give the jade slip to Chu Xiao's former teammates because... they had already fallen into the trap when Little Ling'er found them.

One of Han Fei's Great Daos had turned into the Soul Splitting Path, a low-level Great Dao, but a mature one.

The day passed.

However, communication between people was indispensable every day, especially for those investigators who investigated from door to door and came and went every day.

Besides, Han Fei didn't even bother to attack the spiritual beasts of those below the Law Enforcer realm.

Therefore, none of these people suffered any loss.

Everyone had the same thought. Since that powerhouse had the strength to sneak into Chu Sect, why would he bother to attack them?

Two days passed.

Three days passed.

Seven days had passed. Ordinary people might not know, but the entire Chu Sect had been turned over a dozen times by the seven Venerables.

Even Chu Xiao, this disabled person, had been swept by the soul of a Venerable no less than 20 times.

Of course, the Chu Sect had cleaned itself up this time. They didn't find Han Fei but found hundreds of spies of the other big families, as well as hundreds of spies of the seven major sects.

These people were killed the moment they were discovered.

And more than 20 people controlled by Han Fei's Soul Splitting Dao had died. However, even Old Demon Chu didn't know that these people were controlled by someone, only thinking that they were spies of sacrifice. Once they were discovered, their souls had already been destroyed.

Seven days passed.

Chu Menwang issued an order, saying that the crisis was over. However, people above the Explorer realm would still carry their spiritual beasts with them. They didn't want to bet.

However, after a day or two, no one reported that their spiritual beasts were killed.

Only then did some explorers try to recall their spiritual beasts. In a day, they were summoned a dozen times, but all of them were fine.

This test lasted for three days before everyone confirmed that there was nothing abnormal in the Soul Sea.

In the Chu Sect's meeting hall, someone said, "We still need to observe for a period of time. If Han Fei doesn't take action again, it means that the crisis of the Soul Sea has been resolved. This shows that even if Han Fei can affect the Soul Sea, the time won't be long, only about five to ten days..."

Someone said, "The Chu Sect's array hasn't been loosened. We can't take it lightly. Han Fei is cunning. If we can't find him, it means that he must be planning something else."

Someone shook his head. "I think he might just be hiding. For example, transforming into someone. This guy's disguise technique is indeed impressive. Now, there must be something that we've neglected."

Boom!

Suddenly, a violent explosion resounded throughout Chu Sect.

The Venerables exchanged looks and disappeared from the meeting hall.

Boom Boom Boom ~

Almost at the same time, terrifying explosions occurred in a hundred places in the Chu Sect.

"Demonic Qi!"

Old Chu and the others were surprised. The entire Chu Sect was filled with demonic Qi, which was the aftershock of the explosion.

"Damn it. Did Han Fei cooperate with the sea demons?"

Chu Feng said coldly, "No one survived from the explosions. Some people self-destructed at the same time. This must be done by Han Fei."

At this moment, strong masters were flying above Chu Sect.

All the young disciples below the level of Hidden Fishers left the houses. The explosions covered an area of hundreds of kilometers, covering the entire Chu Sect, resulting in countless casualties.

Chu Jun gnashed his teeth and said, "A*shole, this child doesn't care about the casualties of ordinary disciples at all. He wants to wipe out our Chu Sect."

Suddenly, Old Demon Chu grabbed the cultivation tower with his Sky-Rending Claws. There was a distortion, and billions of points of demonic energy spread out, causing the entire cultivation tower to collapse.

"Time Freeze."

Chu Menwang hurriedly blocked with his Great Dao.

Seeing this scene from afar, Han Fei was shocked. The power of a peak-level Venerable couldn't be underestimated. The self-destruction of three billion points of demonic energy was blocked by his Great Dao?

Old Demon Chu took the opportunity to reach out and pull out more than 300 strong masters in the cultivation tower.

Almost at the same time, Chu Feng, Chu Jun, and the others took action respectively, grabbing at these people who looked a little strange.

Boom! Boom! Boom!

The seven Venerables crushed more than 50 people, but then more than 50 more explosions occurred around them.

Han Fei's voice resounded in the void. "Old Demon Chu, is this game fun? If you want to play, I'll continue to play with you. If you don't want to play, open the seal and let the million people leave Cold Moon Island. Otherwise, I'll play with your Chu Sect until the end.."

Chapter 1497: Fierce Han Fei

In this wave, Han Fei threw out a quarter of the ultra-quality demonic stones he had stored.

The huge amount almost made Han Fei's nose bleed.

The entire Chu Sect seemed to have been gnawed by a dog. Except for the cultivation tower that didn't explode, almost all other places had exploded. Only the seven Venerables couldn't control all the explosions in the Chu Sect.

Of course, Han Fei still avoided the areas where most low-level cultivators lived. Otherwise, he would have caused too much killing. In the words of the old turtle, then the negative karma would be too strong.

He could no longer tolerate Chu Sect's repeated attacks.

In the past, when he hadn't become a Venerable, he really couldn't beat these big clans. Now, he had become a Venerable and had many means. Why would he be afraid?

If it weren't for the fact that the Chu Sect had a Half-King, Han Fei would definitely start a war against the Thousand Star City again and crush the prestige of the big clans.

What Han Fei didn't know was that under this enveloping explosion that swept across the Chu Sect, most people had no choice but to use their contractual spiritual beasts and spiritual beasts to resist it.

It could be said that just this once, the Chu Sect had lost more than 100,000 people, contractual spiritual beasts, and spiritual beasts.

Except for a few places, almost all the Chu Sect areas looked like being gnawed by dogs. After all, so many ultra-quality demonic stones had been used. How could it not have any effect?

Old Demon Chu, Chu Menwang, and the other Venerables all had ugly expressions. Han Fei was really crazy. Now, he was even beating the weak.

Just as everyone was angry, Old Demon Chu suddenly attacked and grabbed at the Chu Sect's treasury. This was because... at this moment, a black shadow had quietly drilled in.

"Seal! Soul Suppressing Kill ~"

When Han Fei entered the Chu Sect's treasury, he knew that he had been tricked. F*ck, all the good stuff was gone, and all that was left was some useless stuff, probably to attract his attention.

Almost at the same time, the other six Venerables had all gathered in the treasure house. This was because the treasure house was an important place of Chu Sect. Ordinary people were not allowed to come here unless they were allowed. Therefore, there were not many people here.

Chu Menwang shouted, "Time Spear..."

Clang!

Bells vibrated, ice froze, and a large number of attacks instantly covered the treasure house.

Han Fei suddenly raised his head. "Come on, do you think I'm afraid of you? Explode..."

This time, Han Fei held two wisps of Chaotic Qi in each hand and his black-mist body directly exploded.

Chu Menwang and the Venerables were shocked by Han Fei's ruthlessness. He even detonated himself? He was simply a lunatic!

Old Chu opened his hand and instantly covered nearly a hundred kilometers, trying to suppress Han Fei's terrifying blow.

Rumble!

Buzz ~ Buzz ~

An earthquake erupted. On the Cold Moon Island, the wind and clouds changed, and spiritual energy and energy were in a mess. A terrifying bombardment was teleported into the void and went straight to the Thousand Star City, with a radius of more than 2,000 kilometers.

However, this power exploded in the void, so it didn't hurt the innocent. However, the sky was filled with void cracks for a moment.

“Pu... Pu... Pu... Pu...”

In Han Fei’s terrifying self-destruction, Old Demon Chu’s arm only had half a bone left.

Within a 300 kilometer radius of the Chu Sect’s treasure house, everything was flattened and no grass grew.

On the ground, a huge deep pit was blasted out. Even in many places outside the Chu Sect on the Cold Moon Island, buildings were collapsing.

Under the horrified gaze of the others, Old Demon Chu’s arm regrown at a visible speed. “Han Fei is not dead. This is just one of his clones. A clone that has the strength of a Venerable...”

Everyone was shocked. A clone of Han Fei was already so powerful?

Chu Menwang frowned. “Patriarch, this is our territory. Do we continue to hunt him?”

Old Demon Chu narrowed his eyes and said lightly, “Do you dare?”

All the Venerables were speechless. They really didn’t dare to continue to hunt Han Fei!

In his own territory, Han Fei was already so arrogant. What if Han Fei was given a few more years to grow?

Once Han Fei’s strength improved again and he became an intermediate or advanced Venerable, who knew how strong this guy would be?

...

In Forge the Universe, Han Fei’s face was pale. He was still too weak.

If it weren’t for Old Demon Chu and Chu Menwang, Han Fei felt that he could already kill his way out.

Unfortunately, now he could only use the ultra-quality demonic stones and the Chaotic Qi to fight the Chu Sect.

The old turtle was lost for words. “Boy, how many resources have you used? Even your lifespan has been shortened by two hundred years.”

Han Fei took a few quick breaths. He had never tried detonating his black-mist body before. Although he canceled the Twin God Technique immediately, he was still seriously injured.

“Heaven Enlightenment Divine Technique.”

When a pillar of light descended on Forge the Universe, after a full minute, Han Fei let out a long sigh and said, “Resources are taken from the world and used in the world. There’s nothing to regret. However, I didn’t expect Old Demon Chu to be so powerful. He can resist such violent power with one hand?”

The old turtle said, “If the Chu Sect remains locked down, what will you do?”

Han Fei's face turned dark. "Then let's do it again. And this time, I'm going to flatten the Chu Sect. All paths of becoming a king are paved with a mountain of corpses and a sea of blood. I want to see if the Chu Sect dares to bet. If they dare, I dare too."

At this moment, Han Fei couldn't care less about the negative karma.

In the Age of Doom, the Grand Myriad Mountains, the war giants, the beast race... the City of Justice... Heavenly Desolate City... they were all annihilated.

It was just a Chu Sect. Even if there were innocent people, they were all enemies. So what even if he killed them?

At this moment, Han Fei was ferocious and full of murderous intent.

A tyrant was also a king. Which king hadn't killed his enemies?

In the outside world.

Chu Xiao's courtyard had been flattened too, but Han Fei gave him a few fish skin maps. Therefore, at the critical moment, he blocked the pressure and protected his maidservant.

At this moment, Little Ling'er's face was pale. "Young Master, is Han Fei... Is he a great devil? He actually wants to kill the million people of Chu Sect?"

Chu Xiao thought to himself, What do you know of a great devil? In some people's eyes, the Chu Sect is a great devil too!

However, no matter how calm Chu Xiao was, he was still shocked.

It was just a jade slip, but it had caused such horrible consequences? If Little Ling'er knew that it was all caused by the jade slip she was holding, what would she think?

However, Chu Xiao didn't feel anything because Han Fei had cured his spiritual heritage. If the devil kept his word, so what even if he made a deal with the devil?

Chu Xiao was waiting for the opportunity to leave Chu Sect. At that time, he would enter the Scattered Stars Island and travel around.

On this day, the entire Thousand Star City was looking at Chu Sect.

The students of the seven major sects were still confused.

However, all the elders knew what happened.

These people were also shocked. What method did Han Fei use to make the Chu Sect suffer like this?

The big clans were also shocked.

For example, the Sun Family, Mo Family, Zhang Family, Li Family, and Yang Family...

These big clan powerhouses were all silent at this moment.

That was Chu Sect's own territory, on the Cold Moon Island. If Han Fei could still escape, it meant that they couldn't control Han Fei anymore.

And if Chu Sect couldn't control him, basically, no one in the Thousand Star City except the Cao Family could suppress Han Fei.

The enemies of Han Fei all looked at each other in bewilderment.

The Li family.

Li Heiye said, "I think we can't go against that guy anymore."

Li Baizhou nodded. "Yes! But even if we go against him, that guy can crush us with one finger now."

The two brothers echoed each other and expressed their thoughts.

Mo Feiyan from the Mo Family hadn't appeared for a long time.

At this moment, a beautiful woman beside her said, "Feiyan, if you have a chance to meet Han Fei again in the future, don't anger him. If you really meet him, with his strength, he won't bother to take revenge on you."

Yang Deyu from the Yang family scratched his head. "Son of a b * tch, I've long told you that this person is very fierce. Sister Nanxi! Do you think that guy will come to beat us in the future?"

Yang Nanxi still had two ponytails. "It's hard to say. Han Fei has the potential to become a king indeed. How can he be so much faster than me? Humph, I'll definitely catch up with him."

Yang Deyu was speechless. F*ck, You mean you have the potential to be a king too? Who gave you the confidence?

In the Cao Family, Cao Jiaren looked at the indifferent Cao Qiu and sighed slightly. "Han Fei is indeed a mystery. Except for his father's help, in this Thousand Star City, only you can compete with him."

Cao Qiu had grown taller and was no longer fat, but his personality had changed too.

Hearing Cao Jiaren's words, he shook his head slightly. "I can't beat him. Lose at one step, lose at every step. There's nothing to complain about. He becomes the king first, and I'll follow."

...

Chu Sect.

Chu Menwang was in a dilemma. He knew that he couldn't let Han Fei go. However, if he trapped Han Fei here, he couldn't find him. After all, the Chu Sect couldn't be sealed for a lifetime.

Besides, what if Han Fei did this again? That would mean the death of more than 100,000 disciples of the clan!

In the Chu Sect's meeting hall, a few Venerables watched a wisp of soul fire float over.

Han Fei had nothing to lose this time. Anyway, his soul power had been damaged in the first place. This time, he used the Soul Splitting Dao to control people and lost a lot of soul power, but he didn't care about this.

The Venerables of the Chu Sect looked at the soul fire and heard Han Fei's voice floating out of the soul fire. "In three days, let a million people of the Chu Sect leave Cold Moon Island. Otherwise, everyone will die..."

Old Demon Chu's voice was icy. "Brat, are you threatening me?"

The fire soul trembled as a laugh sounded. "Old b * stard, yes, I am! What can you do? If you have the guts, don't open the Chu Sect's array in three days. Let's see if I can keep my word or not."

Bang!

After saying that, the soul fire exploded in midair and turned into a fist that raised a middle finger, showing his contempt to Old Demon Chu and the others.

Chapter 1498: Otherwise, What Do You Want?

In the Chu Sect's meeting hall, the cold air was chilly. How could the Venerables of the Chu Sect not be angry at Han Fei's provocation?

After quite a while, Old Chu said in a hoarse voice, "There's something wrong with this guy's Great Dao. This soul technique has extremely powerful Dao runes. It should be a soul kind of Great Dao."

Chu Menwang: "From what I knew of him, he didn't walk this Great Dao. Did he change his Great Dao after he became a Venerable? Or did he walk many Great Daos at the same time?"

However, it was useless to care about what Great Dao Han Fei walked now. Since Han Fei dared to appear like this, it meant that he was confident that no one in Chu Sect could find him.

However, once all the disciples of the Chu Sect left the Cold Moon Island, wouldn't Han Fei run away? Then it would be completely impossible for them to find him! Han Fei's current disguise technique had reached a realm that even a Half-King couldn't discover. And hiding among the million people, he was even more elusive.

Furthermore, what troubled these Chu Sect Venerables the most was not this, but his clone.

Han Fei's black shadow clone was extremely elusive. If they weren't careful, he might not be discovered even if he ran under their eyes.

However, if he didn't let the tiger return to the mountain, Han Fei would really do what he did today again. If he blew himself up in the residence of ordinary disciples, the consequences would be unimaginable.

Could Han Fei do that?

Almost at the same time, Old Demon Chu and Chu Menwang both believed that there was nothing that this guy couldn't do.

In terms of ruthlessness, Han Fei was even more ruthless than the big clans. Slaying a Venerable of the human race in front of the million soldiers of the Scattered Stars Island was probably unprecedented in human history.

Besides, none of the guys who could become the supreme commander of the Scattered Stars Island were soft hearted.

It was impossible for a softhearted person to become the supreme commander of the Scattered Stars Island. Every day, he had to face the death of countless soldiers. Year in year out, how could a weak person stand it?

“Release ~”

In the end, Old Demon Chu still made this decision. It wasn't that he wanted to let him go, but that he had to.

Half a day later, Chu Menwang's voice echoed throughout the Chu Sect, “All the disciples in the clan are free to enter and leave the Cold Moon Island...”

Chu Menwang's words were to let these people do their own things. He didn't open the Thousand Star Proving Ground because he was worried that Han Fei would snatch the Chu Sect's resources.

Han Fei was full of disdain. I've already been to the Heavenly Palace. Why would I care about the secrets in your damn Star Beads?

One day passed.

After the Chu Sect's seal was lifted, a million people from the Chu Sect flew away from the Cold Moon Island. The other citizens on the Cold Moon Island panicked and also left. For a moment, the sky was full of flying boats like locusts, densely packed and overwhelming.

On a fishing boat, Chu Xiao and Little Ling'er were sitting.

Little Ling'er looked back at the Cold Moon Island. “Young Master, is Han Fei going to have a decisive battle with our patriarch?”

Chu Xiao said lightly, “Why do you care if the decisive battle is held or not? Which side do you want to win?”

Little Ling'er immediately said, “Chu Sect! Han Fei is so evil. I heard that he killed more than 100,000 people. He's simply crazy. What a big devil...”

Han Fei, who was disguised as Chu Xiao, smiled and thought to himself, This little girl is really talking bulls * it. Do you know how many people have directly or indirectly died at the hands of Chu Sect after Chu Sect rose to prominence?

Han Fei didn't care about Chu Xiao's life. Anyway, he was just making use of him. However, this little girl was not bad. Han Fei secretly moved a finger and this little girl was refreshed and then fell asleep.

At this moment, they had already left the Cold Moon Island.

After the Chu Sect people left, they scattered in all directions. Some went to the arena, some to the Treasure Pavilion, some to the Sky Meditation Garden, and some to the Ideal Palace...

However, even so, they didn't dare to discuss what had happened in the clan...

This was because they knew that this wasn't something they could discuss. The family head had asked them to come out probably to protect their lives.

Passing through three islands in a row, Han Fei pinched his fingers and made sure that no one was paying attention to him. Only then did he let Chu Xiao out in an inconspicuous place.

After Chu Xiao came out, the person in front of him was no longer Han Fei, but a bearded middle-aged man.

He looked back and found that Little Ling'er was sleeping on the corner of the boat. He asked, "What's wrong with her?"

Han Fei smiled. "Maybe she had an epiphany!"

Chu Xiao was stunned for a moment. Han Fei had already disappeared. Looking at the void, Chu Xiao couldn't help but smile bitterly. His life was such a drama!

Half a day later.

At this moment, Han Fei was not in a hurry to leave the Thousand Star City.

Originally, he wanted to leave. However, after the matter with Chu Sect, he didn't want to leave for the time being because... he discovered that no one in the Thousand Star City could touch him anymore.

The entire Thousand Star City had a population of billions, and he could disguise himself as anyone... No matter how many strong enemies there were in the Thousand Star City, who could find him?

...

Pure Sun Island.

Since the Thug Academy's matter, the Thug Academy's name had become a taboo on Pure Sun Island.

Back then, the faceless men fought with the big clans.

In the end, although Old Han and the others won, the Thug Academy was still in ruins. The big clans were still big clans, but the Thug Academy had already vanished.

Then they settled scores with those supporting the Thug Academy...

They vented their anger on the Su family. Even the residents of Pure Sun Island lost all their economic subsidies. Without permission, no one was allowed to leave Pure Sun Island. No one dared to fight in the arena! Most of the people from Pure Sun Island would be killed if they went to the arena.

As a result, the Thug Academy became a bane in everyone's heart.

The Su Family had completely declined. The two explorers of the Su Family had all died inexplicably.

Before Patriarch Su died, he had warned Su Yang to survive no matter what.

Now, the Su Family had fewer than a hundred people left. All their wealth had been looted! Under the leadership of the former Su Family Head, Su Yang, the Su Family had become an ordinary family.

The reason why Su Yang could survive was that the big clans didn't want to lose face. After all, Su Yang was originally a very famous person on Pure Sun Island. Furthermore, a peak-level law enforcer wouldn't have any chance of revenge in the future.

However, even so, there were still people who secretly wanted to kill them. These people were not from the big clans, but from the small families.

As those small families had long declined, they had very few resources. In their eyes, Su Yang definitely still had some resources of the Su family. At the very least, he definitely had many cultivation techniques and combat skills.

Therefore, in the past eight years, the Su Family had almost lived a life worse than death, living in fear every day.

On this day.

On Pure Sun Island, Su Yang was leading some of his clan's disciples to practice combat skills. They could only absorb the spiritual energy from nature. Although it was slow, they no longer had any resources.

Su Yang shouted, "Come on, don't slack off. The Thousand Star City is filled with spiritual energy. Without resources, you can still grow. In the future, once you have the chance, think of a way to leave Pure Sun Island..."

Someone asked weakly, "Family Head, will anyone really come to save us?"

Su Yang nodded and said firmly, "Yes! Su Sanqian, Su Daiji... You all know them. They will definitely come back."

Many of those youths had grown up.

They wanted to say that the Thug Academy was already gone. Did Su Sanqian and Su Daiji die?

"Phew! You think you can leave Pure Sun Island? Your family caused the tragedy of Pure Sun Island. You all deserve to die. Giggle, giggle..."

Su Yang didn't even need to look to know who had come.

This was not the first time, but many times.

When they saw this person, the remaining hundred people of the Su Family were all enraged.

A middle-aged man shouted palely, "Zhao Baobao, what do you want? We were husband and wife, after all. Why do you have to force us so hard?"

The person who came was the woman from the Zhao family who was kicked out of the Su family back then. Back then, her husband divorced her in front of Han Fei and the others.

Who would have expected that the Su Family's glory only lasted a few years before the Thug Academy was defeated and disappeared from the Thousand Star City again?

Even Su Yang was somewhat suspicious. Could they return?

Zhao Baobao put her hands on her hips and pointed at the weak man angrily. "Su Cheng, you should have thought of this outcome when you divorced me! Humph, that old fart Su Laocheng died too early. He's really lucky. That old guy should be cut into pieces..."

After a round of scolding, Zhao Baobao was satisfied and then said proudly, "Now, as long as you hand over the Su Family's cultivation techniques and combat skills, I will spare your life on account of our former affection."

Su Yang clenched his fists and gritted his teeth. "Zhao Baobao, do you dare to kill me?"

"Hahaha... Even if I kill you, so what? Who do you think will care? Wait for Su Sanqian to come back to save you? If that kid learns that your Su family can't even protect his mother... do you think he will kill you or not? Hahaha..."

"A*shole!"

Su Yang was infuriated and pointed a finger at Zhao Baobao. "You b * tch, I should have divorced you earlier. Heaven sees what you're doing. Your Zhao family set us up first. You will receive your retribution in the end."

Swish!

However, a pillar of light struck, sending Su Yang flying thousands of meters away.

Crack ~

"Puff!!"

In the blink of an eye, Su Yang vomited blood, and dozens of his bones were broken.

His eyes widened. "Explorer..."

Swish!

An old man emerged from the void and looked at Su Yang coldly. "Su Yang, don't refuse a toast only to drink a forfeit. Your Su family doesn't have a future. Hand over the cultivation techniques and combat skills and I'll spare your lives. Otherwise..."

"Heh ~"

Just as Su Yang was about to fall into despair, he saw a figure appear in the distance, at the end of the road.

One step, two steps, three steps...

Han Fei looked at the old man from the Zhao Family indifferently.. "Otherwise, what will you do?"

Chapter 1499: Rampage in Thousand Stars, Nobody Dares to Come

When Su Yang saw Han Fei, he was stunned. His body froze!

He wondered why Han Fei still dared to come in such a situation.

On the opposite side, the explorer of the Zhao family frowned slightly and looked at Han Fei coldly. "Who are you? You're just a Hidden Fisher. How dare you meddle in my affairs?"

Han Fei disguised as an ordinary person and hid his strength.

"Ahhh~"

Zhao Baobao was horrified this time. How could this person appear on Pure Sun Island? This was impossible!

After Zhao Baobao was divorced, she made a lot of fuss.

However, she also knew who Han Fei was. This person was strong and domineering and was a student of the Thug Academy that was rumored to have been destroyed.

Later, various things proved that Han Fei was extremely terrifying! In front of Venerables, he killed the big clans' Heavenly Talents and slaughtered Explorers. He was so crazy that she couldn't believe it.

Zhao Baobao hurriedly said, "Uncle... Third Uncle... He, he... He is Han Fei."

The Zhao family explorer's eyelids twitched when he heard that, and he looked surprised.

He couldn't help looking at Zhao Baobao. "Are you sure?"

This Third Uncle looked at Han Fei up and down again, confirming that Han Fei was only an intermediate Hidden Fisher. With this strength, how could he be Han Fei?

The hundreds of people from the Su Family were also dumbfounded.

However, their expressions were very strange. There was both hatred and hope in their eyes. They hated him because the Su Family's decline had a direct relationship with the Thug Academy and this person. And they hoped that Han Fei could save them from their misery.

Third Uncle looked at Han Fei and asked tentatively, "Han Fei?"

Han Fei smiled. "Yes, it's me."

Zhao Family's Third Uncle was immediately refreshed. He looked into the void as if looking for something.

Han Fei smiled. "There's no need to look. It's just me."

Third Uncle of the Zhao family thought to himself, Han Fei is the current supreme commander of the Scattered Stars Island. Why would he appear as an intermediate Hidden Fisher? If this is Han Fei, why do the big clans not react?

Instantly, Third Uncle of the Zhao Family sneered, "You think you can threaten me with your disguise? Tell me, who sent you here?"

Immediately, a suppressing pressure fell on Han Fei.

The Zhao Family's Third Uncle grabbed Han Fei with one hand, intending to take this person down first. In his opinion, this matter was impossible, illogical, and unreasonable. This person must be a fake Han Fei.

However, Han Fei extended his hand and grabbed at the air casually. With a swish, a sound rang as if a long knife was drawn out of its sheath.

Including the Zhao Family's Third Uncle, everyone heard the sound but didn't see any real knives. However, one of Third Uncle's arms flew into the air.

Immediately afterward, a terrifying pressure suddenly descended, and this Third Uncle immediately knelt on the ground.

Zhao Baobao and her subordinates all fell to the ground.

Han Fei chuckled. "You dare to attack me after hearing my name? You've got balls."

Zhao Family's Third Uncle was horrified. Damn, this doesn't make sense!

However, he immediately begged in horror, "I failed to recognize you. Marshal Han, please spare me."

Swish! Swish! Swish!

The Void Lines clutched the man.

The man's vitality was gone, and his eyes were glassy. After a few breaths, he lay on the ground, unable to move.

"Third Uncle!"

Zhao Baobao looked at this scene in horror. How could her Third Uncle, an intermediate Explorer, die so easily? It must be her illusion...

Han Fei casually waved his hand, and Zhao Baobao and the others were crushed by gravity, bleeding from their seven orifices and vomiting blood. Her Dantian was shattered, and her cultivation was gone.

Han Fei looked at Su Yang and said leisurely, "You can kill or torture these people as you please. Pack your things and follow me."

Su Yang and the others were all shocked. This was Han Fei? An intermediate Explorer couldn't even make Han Fei move his feet? How strong was Han Fei?

Su Yang came back to his senses and immediately said, "My... My lord, there's nothing we can pack."

Su Cheng, who was sickly, blushed and walked towards Zhao Baobao with a knife.

Zhao Baobao was completely dumbfounded at this moment. Third Uncle was gone, her cultivation was gone, and she had nothing left.

Seeing Su Cheng coming over with a knife, she shouted in panic, "Don't kill me. Ah Cheng, don't..."

Su Cheng gritted his teeth. "You snatched my family's wealth and harmed my clansmen. You deserve to die..."

“Puff~”

Su Cheng killed all of them without any hesitation.

“Hahaha... Hahaha...”

After taking a few deep breaths, Su Cheng suddenly laughed and cupped his hands. “Thank you, my lord.”

Han Fei nodded slightly. Su Sanqian was this guy’s son. He really needed to take care of him.

A Holy Light Chain descended. In an instant, everyone in the Su Family felt warm. Their bodies were like dried rivers that welcomed a flood.

Han Fei said indifferently, “I’m very sorry about what happened to the Su Family. It should be fine from now on.”

With that said, Han Fei extended his hand and swept away Su Yang and the hundreds of people. In the next moment, this group of people appeared at the entrance of the former Su family.

Now, this mansion had become the Zhao family’s property.

He scanned with his perception and found that there were more than 300 people in the residence. There were also more than 300 people who were cultivating in the Thug Academy.

Su Yang and the others were horrified that they had crossed hundreds of kilometers at once. They had actually appeared at the entrance of their former home?

While they were shocked, they all looked at Han Fei, wondering what he would do.

Han Fei didn’t even raise a hand, and a droplet of water flew up beside him.

In an instant, the Ten Thousand Knives ran around the residence, and in two seconds, the Infinity Water returned.

“Ahhh~”

All kinds of screams came from the residence.

Instantly, blood and Qi rose to the sky, leaving Su Yang and the others horrified.

Su Yang’s perception wasn’t weak, so he naturally knew what had happened in the residence. At this moment, he could only gulp frantically.

Han Fei extended his hand and grabbed, and the sign of the Zhao Mansion was shattered.

Han Fei casually waved his hand and a wooden sign appeared, burnt with spiritual fire.

In an instant, a door sign was formed, with the words “Su Family” written on it.

At the bottom right corner of the sign, there were three words: Written by Han Fei.

Han Fei nodded in satisfaction, reached out, and threw a Sea Swallowing Seashell to Su Yang. “Hope this can make up for you and your family a little.”

At this moment, Han Fei looked up at the void and smiled in disdain. Even if they came, they didn't dare to show up? What could those incompetent Venerables do to him?

Su Yang and the others didn't know what to say. Han Fei said, "In the future, this will be your Su family's residence. Who dares to snatch it? Even if you all die, I, Han Fei, will avenge you and wipe out their entire family."

Su Yang burst into tears.

He immediately bent and bowed, saying firmly, "The Su Family thanks Mr. Han Fei. Since eight years ago and to this day, we Su Family has been standing on the side of the Thug Academy no matter in the past, at present or in the future."

Han Fei nodded slightly. "Are you interested in killing some people with me?"

Su Yang crossed his hands and said with a glowing face, "It's my responsibility."

Su Yang shouted, "Su Cheng, take everyone to the residence to clean it up. I'll go with Mr. Han Fei."

Su Cheng glanced at the young disciples and gave them a look. Then, the hundreds bowed to Han Fei. "Thank you for avenging our Su Family, my lord."

Han Fei smiled and waved his hand, and a thousand kilograms of spiritual spring floated in the air. "It's my duty."

With that said, Han Fei grabbed Su Yang's arm, and the void in front of him cracked as he stepped in.

Thug Academy.

This place was in ruins again, overgrown with weeds, and the river in the past became what it used to be. Inside, there were two or three small fish.

However, there were green vines and countless flowers and plants here. Some people were still fighting the man-eating flowers in the yard.

Han Fei smiled.

From the looks of it, Luo Xiaobai should have protected the Thug Academy.

However, Luo Xiaobai was alone in the Thousand Star City and facing so many big clans. She couldn't protect the face of the Thug Academy. Therefore, the Thug Academy became a place for everyone to trample on and cultivate in again.

It wasn't Luo Xiaobai's fault. Someone hoped the Thug Academy became like this. They wanted to show the world how miserable the Thug Academy was.

Han Fei remembered that he once said that the Thug Academy couldn't be trampled on.

Su Yang said, "Sir, the Zhao family has controlled Pure Sun Island and taken over the original site of the Thug Academy. Our Su family's two patriarchs have died. We're really... powerless."

"Um!"

Han Fei grunted casually.

At this moment, Han Fei stepped into the air and shouted, “Thousand Star City, big clans, Venerables, and everyone else, listen to me.”

“Whoever trespass on the Thug Academy shall die.”

In the Thug Academy, countless people looked up at the sky.

Someone was speechless. “Who is he? He’s really arrogant!”

Someone was shocked. “This person is very strong. Everyone, leave quickly.”

Hualala ~

At that moment, a rain of knives fell from the sky.

In the Thug Academy, all the disciples of the Zhao Family were cut into pieces in the blink of an eye. In just three seconds, no one survived.

Han Fei’s voice resounded throughout Pure Sun Island, and even further away.

In the void, Han Fei grinned and said indifferently, “Does anyone from the big clans feel unsatisfied? If they are, I, Han Fei, am here now. You can come and talk to me.”

At that moment, Han Fei knew that many people were looking at him. There were people from the Chu Sect, various big clans, and the seven major sects. There were many Venerables in these places. It was impossible for them not to know of the huge commotion on Pure Sun Island.

Of course, they knew what happened on the Cold Moon Island too.

Obviously, the Chu Sect failed to take him down.

Now that he had walked out, who dared to come to provoke him?

They knew very well that once they couldn’t kill him, the consequences would be immeasurable.

Chapter 1500: Annihilation of a Clan

Being Venerable and not being Venerable were two completely different mentalities.

Well... In other words...

Having strength and not having strength were two completely different mentalities. When he was an Explorer, Han Fei didn’t think he had strength because he knew that his enemy was very strong.

And now, he had become a Venerable.

Although he still couldn’t beat the enemies he once thought to be unreachable, they could no longer kill him. This feeling was very good, giving Han Fei enough capital to walk openly on the land of the Thousand Star City.

On Pure Sun Island.

Han Fei's words fell on the ears of the residents on the island.

When they first heard it, they found it absurd.

However, when they walked out of home and felt the trembling sound in the sky, they all swallowed.

Many people asked in surprise, "Who is this person? Have the people of the Thug Academy come back?"

Someone shouted, "The Thug Academy still dares to come? Aren't they afraid of causing another war?"

Someone patted his chest. "Damn it. Does the Thug Academy want us to die? Pure Sun Island has been implicated by them for a long time. Now, it's extremely difficult to even enter and leave Pure Sun Island."

Many people immediately thought of complaining. They were not familiar with the Thug Academy. They only knew that this school appeared briefly on Pure Sun Island. It appeared once decades ago, fought fiercely with the big clans, and lost in the end. It appeared again seven or eight years ago and lost again.

Yes, when these people saw the Thug Academy declining and abandoned, they thought they had lost.

Han Fei stood at the gate of the Thug Academy, listening to all kinds of comments.

Han Fei suddenly turned to look at Su Yang. "Pure Sun Island has been sealed?"

Su Yang nodded. "Since the battle eight years ago, Pure Sun Island has been regarded as an ominous place. Some people believe that it's the people of Pure Sun Island who accepted the existence of the Thug Academy. Therefore, they blame the people on the island."

A vicious gleam flickered in Han Fei's eyes. "Who thinks so?"

Su Yang shook his head slightly. "I don't know. But the Zhao family should be affiliated with that family."

Han Fei asked, "Where is the Zhao family?"

Su Yang took a deep breath and said firmly, "The Drifting Cloud Island closest to Pure Sun Island."

When Su Yang finished speaking, Han Fei said indifferently, "The Su Family can take a break for now. Help me take care of the Thug Academy and clean it up. The Su Family can cultivate in it... Wait for the day I return again."

Su Yang's heart trembled. So Han Fei still had to leave.

However, this time was different from before.

Han Fei's strength was terrifying. Even an intermediate Explorer was crushed by him with a single finger. The big clans hadn't come to fight him yet. The situation seemed to be changing.

With that said, Han Fei walked dozens of meters high in the sky, and then disappeared from Su Yang's sight.

When he approached the main road of the island, Han Fei's eyes narrowed slightly, and he opened his arms. Above his head, a spiritual vortex covered nearly 100 meters, rolling the wind and clouds for dozens of kilometers.

It looked like a vortex falling from the sky to the ground. And under this vortex, there seemed to be a rain of clouds gathering.

As Han Fei walked by, countless people on the ground looked up at the sky.

Many people were horrified and wanted to escape. This was too terrifying! Where did this super powerhouse come from?

However, Han Fei's voice echoed above Pure Sun. "Everyone on Pure Sun Island, listen. My name is Han Fei, the supreme commander of the Scattered Stars Island, the acting president of the Thug Academy..."

Upon hearing this, many people were stunned. They knew about the Thug Academy, and many people also knew that Han Fei was the acting president. This was because when Han Fei returned to rebuild the Thug Academy, it was quite a scene. Unfortunately, the school didn't last a year before it attracted a terrifying war. Then the Thug Academy was destroyed.

Originally, from what they knew, they didn't have a good impression of the Thug Academy. This was because the current misery of Pure Sun Island was mostly due to the Thug Academy.

However, Han Fei just mentioned that he was the supreme commander of the Scattered Stars Island. That was amazing!

The Thousand Star City was different from the 36 towns.

The Thirty-Six Towns had been closed to information, so it was impossible for them to know about the Scattered Stars Island. However, the Thousand Star City was different. The people of the Thousand Star City often went to the Scattered Stars Island, and in each rotation, millions of people would go in and out of the island.

However, they had only heard about Xue Shenqi, Marshal Xue!

Someone was surprised. "The supreme commander of the Scattered Stars Island has been changed?"

Someone said in surprise, "President Han is now the supreme commander of the Thousand Star City? That's ridiculous."

Some people who could leave Pure Sun Island had long heard the news. When they heard the people around them had doubts, they immediately replied, "It is said that the Scattered Stars Island is no longer the Scattered Stars Island of the past. Human beings and the Sea Clan had a super battle! Millions of creatures died in that battle. Blood flowed like a river in the Scattered Stars Island. It is said that blood is still flowing in some places now."

Han Fei walked at a low altitude step by step, his voice cold and firm.

He said, "In recent years, because of the Thug Academy, most of you have been blocked on Pure Sun Island and can't go out. This matter is indeed because of the Thug Academy. I rarely come back but how can I allow this to happen again?"

Han Fei walked along the main road of Pure Sun Island, so along the way, countless people looked at Han Fei.

Bada, Bada... Hualala...

Suddenly, people saw that the sky Han Fei walked through began to rain "heavy rain".

Someone exclaimed, "It's spiritual energy! This is a spiritual spring, a man-made spiritual spring!"

Many adults dragged their children and ran out to the street. While running, they shouted, "Son, remember, in this spiritual energy tide, you must absorb the power of the spiritual spring."

Han Fei's voice continued, announcing to the billions of people on Pure Sun Island, "Everyone, let me go to the checkpoint and kill them all..."

Han Fei traveled dozens of kilometers with each step. He was extremely fast.

Above the sky, spiritual raindrops fell, and a rainbow was summoned.

A child exclaimed, "Dad, look... a colorful divine light, that's a great path leading to the Sea God..."

Roar! Roar!

A group of children was chasing on the road, running wildly and screaming excitedly.

Han Fei just walked for a short while.

Of course, he couldn't walk throughout the entire Pure Sun Island at once. He could only let some people see it and just needed these people to take this matter as a topic of discussion and spread it among the crowd.

At the checkpoint of Pure Sun Island, it was surrounded by people. This was because Han Fei had said that as long as he came, they would be able to immediately leave Pure Sun Island... Many people believed this.

At the checkpoint, many law enforcers were about to sneak away.

Even the big clans didn't know that Han Fei would take people away from Pure Sun Island to kill the guardians.

Now, when they heard Han Fei's voice, it was already too late. Han Fei was almost there.

At the checkpoint, many soldiers at the bottom level didn't know what was going on, but they saw many people rushing here.

Toot...

As roars rang, many strong masters appeared and shouted, "Retreat, all of you! Whoever trespass on the chain bridge shall die..."

"Don't come over. Do you want to die?"

Bang!

While these people were shouting, they saw a spiritual vortex spinning in the sky and flying over.

Suddenly, a voice came from the sky above this area. Han Fei's voice sounded, "The guardians must die."

Swish! Swish! Swish!

Countless water blades cut through the sky.

Many people thought that these blades could be blocked and tried to block them with all kinds of low-level weapons and even contractual spiritual beasts.

“Ahhh!”

“Puff ~”

The Million Knife Art transformed from the Infinity Water swept in all directions like a dragon going to sea.

Many Venerables said via voice transmission, “Alright, come back! There’s no need to guard Pure Sun Island.”

Hearing the call of their powerhouses, many people immediately prepared to leave.

However, it was already too late. All around them had become a sea of knife Qi.

Seeing the massive number of saber beams, some Law Enforcers’ momentum was soaring.

At this moment, the Inferno of Knives had already been initiated.

Someone shouted, “The wind... the wind is full of knife light. Activate your spiritual energy protective cover.”

“Pu... Pu... Pu... Pu...”

However, how could that spiritual energy protective cover withstand the powerful attack of a Venerable like Han Fei?

In just a moment, many people were pierced by the knife light and died.

Some people had an Immortal Seal protecting their bodies.

That thing could protect them for a while. After all, Venerables only had one pair of hands and one brain. This kind of wide-range attack wasn’t very powerful.

However, even if Han Fei didn’t do anything, the inferno of blades he created had no sign of stopping at all. After a while, someone walked out of the void again, only surviving for a second before being completely strangled.

Some Explorers were guarding this place. When they found that something was wrong, they tore the void and were about to escape.

However, as soon as these people tore open the void crack, they saw that the void crack in front of them turned into the shape of a knife light.

“Puff...”

In less than a hundred seconds, at the checkpoint of Pure Sun Island, thousands of guardians were killed by the blade ripples and the Infinity Water.

Han Fei's leisurely voice continued to echo in the void. "Everyone on Pure Sun Island, don't worry. In the future, you can go out freely. If I, Han Fei, find anyone dare to intercept you, I will definitely annihilate his entire family."

He didn't plan to stay on Pure Sun Island for long. Han Fei had already seen many people from the Zhao Family fleeing.

He quickly tore the void and appeared above the Zhao Family in less than a minute.
