

GOF 1531

Chapter 1531: Life and Death Gorge

When sparring with people of the same level or even higher than him, he could take advantage of others' strength and make up for his shortcomings.

Han Fei's seclusion time had always been short.

At Niu Dali's place, Han Fei set up a seal and cultivated in seclusion for a full month.

Of course, Han Fei spent this month in Forge the Universe. In the previous dozens of days, Han Fei had absorbed too many things and needed to simulate them again and again to gain insights one by one.

This month was extended to half a year by Han Fei in Forge the Universe.

In the first eight days, Han Fei made Little White spit out a wisp of Chaotic Qi. Then, he upgraded the flow of time in Forge the Universe again, which was eight times faster than in the outside world now.

When the time flow in Forge the Universe became eight times faster, he could grow much faster.

If he wanted to continue to improve Forge the Universe, he would need 100 wisps of Chaotic Qi... The next upgrading would make the time flow here 16 times faster.

What did that mean?

It meant that one year of cultivation for Han Fei equaled sixteen years for others.

Perhaps for some powerhouses, 16 years had passed in a flash. For someone like the old turtle, it might not even be enough time for him to take a nap.

However, for Han Fei, this was a very long time. It hadn't been 16 years since he had just arrived on the Scattered Stars Island. And he had already grown from a Dangling Fisher to a Venerable.

Of course, the reason why he grew so fast was related to Old Han and the others and what he had experienced. If he had been cultivating in Forge the Universe, he might not have grown so fast.

However, the change in the flow of time was very beneficial to him.

However, how did he get the 100 wisps of Chaotic Qi? Did he have to rely on Little White to spit out one wisp every month?

Even if Little White completely turned into a machine that spewed out chaos energy, it would take more than eight years. Even if Little White vomited it in Forge the Universe, he would have to wait a year outside.

However, Han Fei didn't want to put all his hopes on Little White. Now that he had become a Venerable, he didn't have the time to study how a Venerable could absorb Chaotic Qi.

At this moment, Han Fei only left three wisps of Chaotic Qi on him for emergencies.

Before leaving Forge the Universe, Han Fei sat cross-legged on the ground, only to see a wisp of chaotic energy in the shape of a hair dancing on Han Fei's fingertips, changing from his left hand to his right hand and then to his left hand.

With a thought from Han Fei, Little Black and Little White fused, and he activated the Yin-Yang Divine Eyes, but he still couldn't see through the Chaotic Qi.

Han Fei murmured, "This is the essence of natural energy. It's actually very similar to the invisible power of the Great Dao contained in spiritual energy."

Seeing that Han Fei was studying the Chaotic Qi, the old turtle said, "You're right, but if you want to see the Chaotic Qi through spiritual energy, you need to raise your disassembling degree of spiritual energy. You can feel the connection between the Chaotic Qi and spiritual energy because your spiritual energy disassembling degree has surpassed 70%. However, this is far from enough."

Han Fei couldn't help but smile. "How much is it enough?"

The old turtle said leisurely, "It won't be enough. As your spiritual energy disassembling degree becomes higher and higher, it becomes increasingly easier for you to absorb Chaotic Qi. Even if your spiritual energy disassembling degree surpasses ninety percent, it's impossible for a wisp of chaotic energy to gather in a few days."

Han Fei frowned. "What about a king?"

The old turtle said, "I'm talking about Venerables. The Sea Establishment realm is different. However, if you want to become a king, you still need a lot of Chaotic Qi. Otherwise, you won't have enough power to support you to become a king."

According to what the old turtle said, Han Fei had a feeling that he would need a lot of Chaotic Qi in the future...

However, the old turtle added, "It's useless to just stare at this wisp of Chaotic Qi now. Since you have the Chaotic Qi, you haven't studied it seriously once. In Chu Sect, you detonated two wisps, but that's not 'using' it. You have to feel its power with your own body."

Han Fei nodded slightly. "Soon!"

...

Niu Dali's two sisters, one called Niu Kexin and the other called Niu Panpan.

At this moment, these three people were chatting outside the cave.

Niu Panpan said, "Sister, after all, this Bull Demon King has just come to our Ten Thousand Beast Island. Isn't it inappropriate for us to be too intimate with him?"

Niu Kexin shouted angrily, "That's right, sister! That Bull Demon King is really annoying. We're willing to marry him but he made it seem like he would suffer a huge loss if he married us."

Niu Dali shook her head slightly and said, "For the rise of the buffalo race, it's acceptable no matter what. After all, so far we have only met one bull... We don't have a choice."

Niu Kexin said in frustration, "Sister, are we really unable to get out of this cage? Since there is the Bull Demon King from the outside world, there must be other bulls, right?"

Niu Panpan nodded quickly. "Yes, Sister, the Bull Demon King is too arrogant. Although he seems to have the bloodline of the so-called Heavenly Flying Divine Bull and seems to be very strong, he is too arrogant!"

Niu Dali said, "Okay, now is not the time to talk about this. The Bull Demon King has just come to the Ten Thousand Beast Island. I'm afraid he will be completely different after hundreds or even thousands of years. This person is extremely arrogant and conceited deep down. Even if we want to carry on the bloodline with him, it won't be in such a short time."

Han Fei, who had just come out of seclusion, was dumbfounded at this moment. If he had known this earlier, he wouldn't have ever chosen to transform into a water buffalo!

Buzz!

The seal was removed, and Han Fei walked out of it, only to see Niu Dali and the other two looking at him.

Niu Dali asked in confusion, "So fast? You've defeated a hundred Venerables but you digested all the experience in only a month?"

Han Fei nodded slightly. "I digested the experience every day and have benefited a lot from it. Now I've got everything I need to know."

Of course, Niu Dali knew why Han Fei wanted to fight the Venerables one by one. In fact, who didn't know? However, this kind of improvement was limited.

Han Fei had been imprisoned for so long. After he came out, it was completely possible for him to become a junior Venerable through fighting with others.

In the eyes of the Venerables, it would only take Han Fei a moment to break through to the intermediate Venerable level.

Therefore, everyone was a little surprised that Han Fei hadn't made a breakthrough after fighting a hundred Venerables in a row.

However, these Venerables didn't know that if Han Fei really wanted to break through to the junior peak-level, he could have done so long ago. However, Han Fei's path forbade him from breaking through so easily. If he really did that, Han Fei felt that one day, he would fade away into the crowd and become an ordinary Heavenly Talent. But becoming a king? That would be even harder.

In this seclusion, Han Fei only increased his strength by dozens of waves. As for the others, he didn't even break through a few points in spiritual power.

However, Han Fei's comprehensive strength had been significantly reduced, which couldn't be expressed with data.

Seeing that there seemed to be joy in Han Fei's eyes, Niu Dali held her head high and asked. "Why, do you still want to fight them?"

Han Fei shook his head slightly and said, "No! The rest can't be brought to me by sparring. It needs to be tested in a life-and-death battle."

A cold smile appeared at the corner of Han Fei's mouth. "Ordinary battles are already useless to me. A life-and-death battle will not erupt among our own people. Then... I have been suppressed by sea demons for more than 2,700 years. Now that I've finally come out, it's time to settle scores with them."

At this moment, Han Fei's eyes were filled with zeal and excitement, which stunned Niu Dali.

Niu Dali said, "Well, the sea demon who suppresses you may not be the same as the sea demon in the Black Blood City. In addition, although your strength is indeed not weak, your limit is only that of an intermediate peak-level Venerable. Once you really start a life-and-death battle with an advanced Venerable, it is very likely that you will die."

Han Fei sneered. "Be it the White Shell Royal City or the Black Blood City, they are both sea demons. If they are sea demons, they are my enemies. Also, who told you that my real strength is only at the peak of the intermediate Venerable level?"

Niu Dali was stunned. What did Han Fei mean? It was only natural that he hated sea demons. If she had been trapped for thousands of years, she would definitely retaliate too.

However, a month ago, Han Fei didn't seem to be holding back in combat. In those battles, except for showing that he was very good at fighting, he didn't show any strength that could match an advanced Venerable.

Could it be that in the battle a month ago, Han Fei suppressed his strength?

Buzz!

At this moment, the void trembled, and Crocodile Iron walked out of the void.

Crocodile Iron smiled. "Brother Bull, it seems that the battles a month ago were not enough! You still didn't make a breakthrough."

Han Fei smiled. "I've already benefited a lot."

Niu Dali, on the other hand, asked, "Crocodile Iron, how come you know it so quickly that the Bull Demon King has come out of seclusion?"

Crocodile Iron said with a smile, "I can't watch over you all the time. It was Old Sheep who knew that Brother Bull had finished his cultivation and asked me to ask you a question."

"Oh?"

Han Fei thought of Old Sheep. That guy's strength was unfathomable. He was probably at the level of a Half-King.

Han Fei couldn't help asking, "What question?"

Crocodile Iron said, "Old Sheep asked since you have human blood, do you want to go to the Immortal City of the human race to take a look? I heard that the human race is not in a good situation now, and because they are mostly undead creatures, although they don't fight us, they are estranged from us."

Han Fei's eyes narrowed slightly, and then he shook his head decisively. "No! Although I have interacted with humans in the Demon Subduing Tower, my top priority now is to improve my strength. Instead of going to the Immortal City of the human race, I might as well fight. I want to experience the power of the sea demons in the Black Blood City."

"Hahaha... I knew it. Brother Bull, you definitely won't go to the Immortal City. That place is creepy. It's really not a good place to go."

With that said, Crocodile Iron turned his head and looked into the void. "Old Sheep, do you see it? I said that Brother Bull is not interested in the human race, right?"

Old Sheep's voice came leisurely, "I'm just asking. Bull Demon King, since you don't want to go to the human race to take a look, just follow your heart! You've seen the Venerables on the Ten Thousand Beast Island. You can go to the Life-and-Death Gorge to take a look.. Perhaps it will help your breakthrough."

Chapter 1532: Kill Several Venerables First

Han Fei left with Niu Dali and the other two.

The others didn't follow them.

As Yang Shenji had said, in addition to the two front lines, a large number of Venerables who stayed on the Ten Thousand Beast Island would go out from time to time to patrol the sea area.

The patrolling area was much larger than Han Fei had imagined. Under normal circumstances, it would take half a month for a Venerable to patrol the sea area.

In fact, Han Fei knew what they were patrolling for. After all, the territory under the jurisdiction of the Demon Beast Union was huge, and there were a large number of marine creatures in this area.

It would be fine if these creatures were only Explorers, but once they attempted to enter the Venerable realm, they would be listed as targets for killing.

At least, if Han Fei were in power, he would do the same.

As for this Life and Death Gorge, it was also the place where the Thousand Beast Island and the Black Blood City fought.

Why was it called the Life-and-Death Gorge?

Niu Dali explained, "The Life and Death Gorge is the lowest level of the entire cage, with a width of less than 200,000 kilometers. There are cages and seals on both sides, so that place became the place where the Demon Beast Union and the Black Blood City fought."

Han Fei frowned slightly. "Is the Black Blood City very strong? How many Venerables have they arranged in the Life-and-Death Gorge?"

Niu Dali said softly, "Don't underestimate the Black Blood City. The number of Venerables in the Black Blood City is second only to our Ten Thousand Beast Island! Including you, there are now 298 Venerables on our Ten Thousand Beast Island, and 287 in the Black Blood City."

Han Fei thought to himself, It was 287 before, but now it may be less than 280.

However, he still asked, "Why are you so sure... how many Venerables there are?"

Niu Dali said, "The old sheep calculated it. That's the old sheep's Great Dao, the Great Dao of divination."

Han Fei narrowed his eyes slightly. Old Sheep could calculate how many Venerables the enemy had? If Old Yang could even calculate this, would he find out about his secret?

Just as Han Fei thought so, the old turtle said, "Don't worry. You are a person with great luck, and there is something wrong with your destiny. Therefore, your destiny is in disorder and cannot be calculated."

Hearing what the old turtle said, Han Fei remembered that his family background was too mysterious to be calculated. What Old Han used to do to him was not to calculate, but to plan. He had planned everything, but not him.

Therefore, when the old sheep asked Crocodile Iron to ask him that question just now, it was probably just a test to see how he would react to the human race.

However, Han Fei knew very well that the conflict in the Wall of Death had been going on for tens of thousands of years, and the human race hadn't gone extinct, which meant that they could still persist. He alone couldn't help them much.

Buzz!

Han Fei and Niu Dali stepped into another teleportation array and flew forward.

This was already the eighth teleportation array they had passed. Han Fei couldn't help but ask, "How far is the Life and Death Gorge?"

Niu Dali said, "We're halfway through."

Han Fei secretly calculated.

Every time he and Niu Dali left the teleportation array, the distance they flew was about 100,000 miles. And with his understanding of teleportation arrays, the teleportation array built by the Demon Beast Union only had a teleportation distance of 200,000 miles at most.

After all, they were only demonic beasts and not as good at arrays as human spirit gatherers.

Besides, along the way, he saw many abandoned teleportation arrays. They must have been abandoned for some other reason.

In this way, according to the calculation of the 15 teleportation arrays, the distance of the teleportation array alone was about 3 million kilometers. In addition to the distance between the teleportation arrays, it meant that the distance from the Ten Thousand Beast Island to the Life and Death Gorge was about 4 million to 4.5 million kilometers.

According to Niu Dali, there were cage seals on both sides of this road, especially on the Life and Death Gorge, which was only 200,000 kilometers wide. To Venerables, this wasn't a long distance at all.

With the teleportation arrays, it wouldn't take much time.

After about half an hour, Han Fei and Niu Dali had arrived at the so-called Life and Death Gorge ahead of them.

As soon as he entered the Life and Death Gorge, Han Fei felt a large amount of death energy. The spiritual energy and energy here were even more violent. Han Fei could even feel the feeling of being attacked by weak water from this place.

Swish swish swish!

As soon as he came out of the teleportation array and flew forward about 50,000 kilometers, he was scanned by many perceptions.

When these perceptions swept over, a voice came at the same time, "Hey! It's really the bull of the buffalo race!"

"Brother Bull Demon King, I thought we would meet again a long time later. I didn't expect that we would meet again after only a month."

One Venerable after another walked out of the void.

Their leader was a centaur?

Yes, Han Fei was stunned. Why did this centaur come out with a Death Sickle in his hand?!

In addition to this Brother Centaur, Han Fei also saw a creature with scales all over its body that looked a bit like an ass.

Han Fei was dumbfounded. What kind of creature is this?

A month ago, he fought a female Kylin on the Ten Thousand Beast Island.

Now, looking at the horse and the ass... Han Fei had an incredible speculation.

Seeing Han Fei's puzzled expression, the centaur immediately smiled and said, "Little Brother Bull Demon King, I am the commander of the Life-and-Death Gorge, Ma Youhun. Next to me is the most talented one of my children. Now, he has already entered the Venerable realm. His name is Ma Qilin."

Han Fei felt as if ten thousand Iron-Headed Fish were galloping in his heart...

Earlier, he was still thinking about why there were so many powerful creatures on the Ten Thousand Beast Island. Logically speaking, it was extremely difficult to become a Venerable.

If they wanted to maintain the rule of the beast race, they had to constantly reproduce.

Han Fei had thought that they were making little beasts ceaselessly, but he didn't expect them to also produce hybrid children?

Of course, although he was extremely surprised.

On the surface, Han Fei grinned and said, "Oh? Hi, Commander Ma... Just now, I was wondering what kind of creature Brother Qilin is to be born so handsome and powerful."

Ma Qilin seemed to be rarely praised. Hearing Han Fei's praise, his eyes lit up. "I'm flattered, Brother Bull."

Han Fei said with a smile, "Not at all. In my inherited memories, Brother Qilin is so handsome. I'm so envious of you..."

"Uh ~"

Ma Youhun and Niu Dali were both stunned.

The others who had just arrived were also slightly stunned.

What? Did the Bull Demon King and Ma Qilin hit it off at first sight?

Of course, Han Fei didn't really like Ma Qilin as he showed.

He was just being polite.

However, there were still others... Therefore, Han Fei immediately turned his eyes to the others.

Then, Han Fei saw a green fox and a rhinoceros...

And most people appeared in human form.

Han Fei speculated that there were probably wild boars and feline animals...

Among them, there was a little girl who seemed to be only seven or eight years old. What kind of creature was she? There were two ears on her head, which didn't look like rabbits' ears.

Han Fei cupped his hands. "Everyone, I am Bull Demon King, a peak-level junior Venerable who is good at many combat skills. Nice to meet you."

Immediately, the green fox replied, "Brother Bull, when Lightning came to call for Dali this morning, he told us... Well, I'm Qing Mu, an intermediate Venerable, not yet a peak-level one."

The seven or eight-year-old girl immediately said, "Little Brother Bull, I'm Bai Diao (means white ferret), a peak-level advanced Venerable."

A fatty said, "Brother Bull, I, Fei Qi, am a peak-level junior Venerable."

...

For a moment, everyone was talking.

However, what really shocked Han Fei was the little girl who looked only seven or eight years old. This little girl had the most thorough transformation among all of them. Except for two very cute ears, she had a perfect human shape in all other places.

Unfortunately, this little girl called him Little Brother Bull? F*ck, who could handle this?

Ma Youhun said, "Okay, let's disperse for now. Don't let the sea demons find out anything. Bull Demon King, you've just come. Why don't you observe a few games and see the situation in the Life and Death Gorge first?"

Han Fei immediately retorted, "Commander Ma, I think we can take this opportunity to kill a couple of sea demon Venerables. What do you think?"

"Huh?"

The Venerables who were about to leave all looked back at Han Fei in surprise.

The little white ferret girl tilted her head and looked at Han Fei. "Little Brother Bull, that's easy for you to say. Do you think it's so easy to beat Venerables? Killed three or five of them?!"

Ma Qilin also said, "Brother Bull, don't joke around in the army."

Swinging his hair, Ma Youhun looked at Han Fei and said, "Bull Demon King, do you mean... you'll fight him?"

Han Fei nodded slightly. "I'm new here, so those sea demons definitely don't know me. I can take this opportunity to kill at least three of them."

"Hiss ~"

Everybody gasped.

Niu Dali directly spoke to Han Fei via voice transmission, not afraid that Ma Youhun would hear her. "Are you crazy? Do you think it's so easy to kill a Venerable?"

Ma Youhun looked at Han Fei up and down again. "Well, in that case, you can have a try first. In the past two years, the Black Blood City hasn't fought much. Let's have a try. Let's see why they don't want to fight anymore."

Han Fei and Ma Youhun looked at each other, one suspicious, and the other proud.

The others seemed to notice something subtle.

Bai Diao smiled.. "Interesting."

Chapter 1533: Fight at the Life and Death Gorge

In the Venerable realm, there were actually no weaklings. After all, everyone had cultivated to this realm step by step.

The Venerables of the Yin-Yang World that were Han Fei's enemies and could be killed by him were basically all killed by him. Only the ones from the Thousand Star City couldn't be destroyed yet.

Han Fei couldn't touch the big clans yet.

Before he came, when he met Old Han and Li Daxian in the level-three fishery, they bet where he would go.

One of the options was the Water-Wood World.

Han Fei really wanted to go to the Water-Wood World. After all, there were many Venerables on the four battlefields of the Water-Wood World. If he really went there, with his current strength, he would definitely be able to kill a few Venerables. Perhaps he could even rob the Ice God Canyon.

However, compared to the Water-Wood World, the Wall of Death was new to Han Fei and was an extremely dangerous place.

Han Fei felt that this danger must be relative.

For example, when they were searching for the entrance to the Wall of Death, if they happened to find the area occupied by the Black Blood City... Or to be exact, they found the area where the Forest of Terror was... then the danger level would be high!

Of course, before entering, Han Fei didn't know the distribution of forces inside. At most, Han Fei knew that an island flew out from inside, on which there were demonic beasts. That was all!

At this moment, Han Fei wasn't too worried.

The one who was most likely to be a threat to Han Fei was the fake king. Without the Twin Divine Technique, he probably wouldn't be able to escape from the fake king. But he had Forge the Universe. What was there to be afraid of?

In the outside world, if one failed to transcend the king-level tribulation, they might directly die.

However, for some reason, many people who failed to transcend the king-level tribulation here could become so-called fake kings...

At this moment, Han Fei came with a purpose.

Most importantly, Han Fei had to repair the damage to his soul. After all, if he wanted to make a breakthrough, he had to have a full soul. Otherwise, if his soul was damaged at the peak of the junior level, it might affect his foundation when he was an intermediate Venerable.

...

The Life and Death Gorge.

When Han Fei really stood on this super gorge, he realized how big this so-called Life and Death Gorge was.

Ma Youhun said, "Bull Demon King, the distance between the walls of the cage is the width of the Life-and-Death Gorge. Its length is also nearly 200,000 kilometers. You need to know that once you enter this gorge to fight, your life depends on you. For tens of thousands of years, we and the Black Blood City had a rule, which is that no one shall help those who participate in the battle unless they escape out by themselves."

As soon as Ma Youhun finished speaking, Bai Diao said, "Little Brother Bull, is it safe for you to go alone? Do you want me to go with you?"

Niu Dali also said, "Yes, it stretches for 200,000 kilometers. Such a big place is enough for more than a dozen Venerables to fight at the same time."

Ma Youhun: "You can choose to fight one-on-one in the first battle. I trust you. I don't recommend group battles. You need to consider it carefully."

Everyone looked at Han Fei.

However, Han Fei's lips curled. "Everyone! Let me fight two battles alone first..."

Everyone: "???"

...

Whether it was the Demon Beast Union or the Black Blood City, there were many Explorers. Generally speaking, the Life and Death Gorge was a place for them to train soldiers.

Such repeated training of soldiers was an important reason why so many Venerables could be born in the Demon Beast Union and the Black Blood City.

The Life-and-Death Gorge was the most important battlefield. There were often more than 50 Venerables stationed here, in order to prevent a sudden super war.

Such a super war had happened several times.

Once, because of the riot in the Forest of Terror, both parties sent out a hundred Venerables and fought a very bloody war.

At that time, fewer than 50 people were stationed at the Life-and-Death Gorge. However, more than 200 Venerables ambushed them and 13 Venerables died on the spot, which shook the entire cage. Most of the Explorer-level demonic beasts failed to escape.

Since that battle, the Demon Beast Union had a rule: no matter what, the number of Venerables in the Life-and-Death Gorge must not be less than 50. Even if something huge happened, this must be ensured.

As for the Ten Thousand Beast Island, they just needed to maintain a hundred Venerables at any time.

At this moment, there were as many as eighty thousand Explorer demonic beasts cultivating in the Life and Death Gorge.

Among the 80,000 explorers, there were 326 Half-Venerables. In theory, they had all cultivated to the level of a Half-Venerable, so the probability of reaching the Venerable realm was not small.

And these Half-Venerables were frequenters of the Life and Death Gorge.

Die or become a Venerable? Both parties were trying very hard.

It was the same for the Black Blood City. They had even more Half-Venerable powerhouses than the Demon Beast Union.

At this moment, Han Fei was standing on a towering mountain and looking at the Ice God Strait. Just 20,000 kilometers away, a great battle was going on.

Beside Han Fei, more than a dozen Venerables were watching the battle.

Although there were many Venerables in the Life-and-Death Gorge, the gorge extended more than 200,000 kilometers. Therefore, many Venerables were patrolling the battlefield above the Life-and-Death Gorge.

The Venerables who hadn't entered the battlefield couldn't do anything, but they had to keep an eye on the situation.

These Venerables who were watching the battle were a bit like referees. If the other party played any dirty tricks on them, they could be noticed in time. Furthermore, they had to prevent the other party from suddenly attacking on a large scale and causing serious damage to their side. The Black Blood City had once done this kind of thing.

At this moment, someone was watching the battle in the void. Suddenly, he saw a figure walking over.

It was none other than Ma Youhun who had personally led Han Fei to challenge them.

This was a tradition. With a big shot by his side, his words worked better.

The two flew about 100,000 kilometers into the Life and Death Gorge.

There was a mine here, which was quite high. In Han Fei's perception, there were at least ten Venerables respectively from the Demon Beast Union and the Black Blood City guarding here.

Ma Youhun looked at Han Fei. "This is called the Spectating Cliff. If you have anything to say, just say it here."

The Venerables of the Demon Beast Union were stunned to see that Ma Youhun had come in person.

But then they saw Han Fei and realized that he must be the Bull Demon King.

At this moment, Han Fei didn't transform perfectly but made two horns grow on his head. He did this mainly to bewilder his opponent.

Otherwise, when the sea demons saw a demonic beast that looked no different from a human being appear, they would be vigilant.

Niu Dali immediately complimented Han Fei for his meticulousness.

"Only a bull with horns looks like a bull!"

Han Fei was speechless. I'm confusing my opponent, understood?

Seeing Han Fei come, many Venerables seemed to realize something and took a deep breath. The Venerable-level battle was about to start!

Han Fei stepped forward and shouted loudly, "You stinky fish and shrimp from the Black Blood City, listen to me. I am the Bull Demon King of the buffalo race. I'm here to challenge you today. Who dares to come here and fight me to the death?"

After Han Fei shouted, those who were still fighting in the Life and Death Gorge ended the battle and began to evacuate.

Those who could fight in the Life and Death Gorge were all Venerables.

It had been nearly three years since a Venerable-level battle broke out in the Life-and-Death Gorge. Unexpectedly, the Demon Beast Union took the lead to challenge them.

However, many sea demons were puzzled. Weren't there only Niu Dali, Niu Kexin, and Niu Panpan in the buffalo race? Why was there suddenly a Bull Demon King?

Buzz—

Instantly, the void trembled as one sea demon Venerable after another appeared.

The explorers quickly retreated and the Venerables went on the field one after another.

A shrimp soldier pointed his spear at Han Fei. "Bull Demon King? When did the buffalo race have a bull?"

Han Fei sneered. "Who are you pointing at? Do you think you can point at your Grandpa Bull?"

The Lobster Soldier's eyes turned cold. "Humph! Be careful or I'll tear your mouth apart!"

"Moo!"

Han Fei turned into a buffalo and mooed, shaking the void.

Han Fei stomped in the air, white smoke billowing from his nostrils. "What can you do? You useless shrimp, fight me if you've got balls! I'm gonna tear off your shrimp bone to pick my teeth."

Han Fei didn't conceal his strength as a peak junior Venerable at all. Because he was the one who came to challenge, the people coming to fight him were naturally at the same level as Han Fei.

The moment the shrimp soldier came out and spoke to Han Fei, he had already fallen into the trap. How could these sea demons clumsy in speaking be a match for Han Fei?

No, to be precise, this was the daily routine of soldiers. After Han Fei had been in the Age of Doom, dirty talk had become one of his skills.

Seeing the shrimp was furious, Han Fei continued to clamor, "Little shrimp, do you dare to attack me? If not, kneel on the ground and call me Grandpa... Your grandpa has eaten shrimp, and more than one... Little shrimp, why aren't you talking? Are you deaf? Oh no... You are a shrimp! You must be blind..."

Ahead, Han Fei was shouting, and behind him, many Venerables of the Demon Beast Union looked at each other in bewilderment. This Bull Demon King had just come to the Ten Thousand Beast Island, but why was he already so arrogant?

Fat Seven also said leisurely, "If it were me, I wouldn't have been able to hold back."

Ma Qilin remarked, "Brother Bull, your eloquence is not bad! If I had such eloquence, I would've been able to scold all of them to death."

A bobcat walked lightly beside Ma Qilin and said disdainfully, "Then scold them!"

Ma Qilin was speechless.

Whether it was the Demon Beast Union or the Black Blood City, everyone knew that those who dared to call for a battle dared to fight. Usually, both parties would send out the strongest people to call for a battle.

The sea demons of the Black Blood City were looking Han Fei up and down.

Someone said, "This person is indeed from the buffalo race. His aura and realm can't fool people. The buffalo race is extremely strong in physique and has a soul attack technique. However, this person has never appeared. We don't know what his Great Dao is. Wenci, he came out at this time probably to break through the realm of the peak-level junior Venerable. Are you confident you can beat him?"

Being scolded harshly by Han Fei for a long time, the shrimp soldier certainly couldn't flinch.

In any case, he was a peak-level junior Venerable. Your physique is strong, but my attack is strong! Why should I be afraid of you?

"Fight!"

While Han Fei was still cursing, the shrimp soldier suddenly stepped forward.. "The only bull in the buffalo race?... Humph! After today, the buffalo race will only have cows."

Chapter 1534: Slay A Venerable

One-on-one battles were different from group battles.

In this Life and Death Gorge, two people could just choose a random place to fight and decide the winner. During this period, no one else could intervene.

In fact, the confrontation between the demon beasts and the sea demons had been going on for a long time and had already formed a set of routines...

In order to show their strength and encourage their own explorers, when Han Fei and the shrimp soldiers decided to fight, the commanders of both sides shouted, "Open the array..."

Han Fei was briefly stunned. What kind of array?

Niu Dali said via voice transmission, "In the battle of the Venerables, due to the power being too great, in order to prevent any accidents, the Life and Death Gorge shall be sealed. Once it's sealed, if you want to leave the battlefield, you have to return to within 20,000 kilometers of our camp to avoid fighting and admit defeat."

Han Fei smiled. "Admit defeat? That's impossible. What if I can't return within 20,000 kilometers?"

Niu Dali said, "Then you'll have to continue to fight. Admitting defeat is not a glorious thing in the first place. Therefore, if you can't even admit defeat in time, it means that the gap between the two sides is too big. The life of the challenger is not that important."

After Niu Dali finished speaking, Ma Youhun said, "There's another purpose to seal the battlefield. Your Venerable-level battle will be under the watch of hundreds of thousands of people, which can be studied by the explorers on both sides."

Han Fei's eyelids twitched. "Really?"

Bai Diao said, "Yes, when Venerables fight, they usually use all their strength. Your image represents the image of the Ten Thousand Beast Island. Most of the time, the two parties are of the same realm, and usually neither of them can defeat the other in the end. This will result in a tie. In this way, neither party will lose face."

Ma Youhun said, "Bull Demon King, my only requirement for you in this battle is that you don't admit defeat. That Shrimp Wenci has extraordinary strength. His original body is an ancient exotic creature with an amazing shrimp bloodline. His attacking technique is amazing. Don't underestimate him."

Han Fei hummed and stepped into the void, standing in the Life and Death Gorge full of broken stones. After all, this place was full of battles, so there couldn't be many buildings here. Many mines had long collapsed because of the fighting.

In the Life-and-Death Gorge, the demon beasts at the Explorer level had basically retreated.

At this moment, the Life and Death Gorge had been sealed, and these explorers could only see a large cloud of smoke. And in the smoke, there was a picture, which showed the scene of Han Fei and Shrimp Wenci confronting each other.

Han Fei's Demon Purification Pot usually didn't show any information when facing highly-intelligent creatures, especially those in human form.

This Shrimp Wenci claimed to be of an ancient exotic bloodline and should not be weak. However, how could Han Fei allow him to "brag" in front of him?

With a thought, the invincible will condensed in Han Fei's body, and a huge golden bull shadow enveloped Han Fei.

On the Demon Beast Union's side, many people looked at Niu Dali.

Someone said, "Dali, this Bull Demon King's technique seems to be different from yours!"

Someone praised, "This technique looks quite extraordinary. It can't be weak."

Niu Dali was also stunned. Han Fei had never used this combat skill on the Ten Thousand Beast Island. It seemed that this was his specialty.

Niu Dali said, "Don't worry. The Bull Demon King will only be stronger than me, no weaker than me."

"Oh?"

Bai Diao couldn't help tilting her head and looking at Niu Dali. "You said they're in the same realm?"

Niu Dali, "I'm talking about jumping levels."

All the beasts : "..."

Ma Youhun's eyes glittered.

No wonder this Bull Demon King wanted to fight the moment he came!

So... he was trying to trick the sea demons!

However, could he jump realms to defeat Niu Dali? This Bull Demon King's talent and strength were probably more powerful than they had imagined!

In the field.

Han Fei's Invincible Will condensed into a buffalo shadow. Han Fei charged like a mad bull in the void.

As Han Fei extended his hand, beads of water condensed in the void. It was the Infinity Water. However, what the Infinity Water condensed at this moment was not a drop of water, but a harpoon, a bit like a sea demon's weapon.

But on closer inspection, it looked more like an ordinary harpoon.

"Moo ~"

Han Fei roared, his voice containing the power of soul attack. The roar shook the entire Life and Death Gorge and almost everyone panicked.

Han Fei's speed became faster and faster. In the blink of an eye, he turned into a golden pillar of light, looking extremely domineering.

Seeing this, Shrimp Wenci knew that Han Fei was extraordinary. However, how could he be an ordinary shrimp?

Shrimp Wenci arched its body and summoned a phantom a hundred meters long. All of a sudden, a weird shrimp with an octopus head and a scorpion body appeared.

Shrimp Wenci's two tentacles swished and turned into two star wheels.

As soon as the wheels appeared, starlight specks rushed at Han Fei. The speed was so fast that in the blink of an eye, they revolved hundreds of thousands of times, as if they wanted to cut Han Fei to death.

On the sea demon's side, someone laughed. "The buffaloes are just brutes. No matter how powerful his impact is, how can he resist Wenci's teeth that can resist an ultra-quality Divine weapon?"

On the Demon Beast Union's side, many people frowned.

Fat Seven trembled all over. "Although Brother Bull's strength is extraordinary, isn't he underestimating Shrimp Wenci too much? Is he going to resist the spiked wheels of Shrimp Wenci with his body?"

Niu Dali wasn't too worried, because she already knew that Han Fei had the Indestructible Golden Body.

The Venerable looked quite calm, but the Explorer-level demonic beasts were dumbfounded.

Someone exclaimed, "Is the new Venerable of the buffalo race so violent? Is this a bull sprint? Can't he play some tricks?"

Someone said, "Don't worry. The buffaloes have unparalleled horns. They are definitely not afraid of the spiked wheels of the shrimp."

The two sides were getting closer and closer.

Han Fei was still in midair, and Shrimp Wenci had already turned into a human shape. Its crimson armor was shining, and its body trembled, and 18 pairs of deformed blades floated out of its back, turning into a shadow and attacking again.

In Shrimp Wenci's hand was a spear.

He didn't believe that Han Fei's physique was so strong that he could block his Spiked Tooth Wheel and Thirty-Six Blade head-on!

Chi la!

Han Fei was about to collide with the spiked wheel...

Han Fei suddenly extended his left hand and casually waved it in the air, and a silver light illuminated the world.

At the moment the silver light appeared, Han Fei stomped, and the lines of the Dao patterns instantly condensed into a Coiled Turtle Array.

Clank, Clank, Clank...

Clang!

Boom...

In the Life and Death Gorge, a golden ripple spread out at an incredible speed.

Outside the Life-and-Death Gorge, a demon beast pointed at the figure in the mist and said, "Look, the Bull Demon King has rushed over and knocked away the spiked wheel."

Someone gasped. "Hiss! He only used his body to break through the wheel?"

Someone sighed. "Is he crazy?"

Among the Venerables, Ma Qilin was excited. "Brother Bull is really awesome. He can resist the spiked wheels with his body alone. I'm afraid his physique is extraordinary."

However, at the next moment, the bobcat said, "However, its golden phantom was shattered. Just now, he used an array. I'd like to see how he is going to block the Thirty-Six Blade."

"Knock on the Heavenly Gate."

However, as soon as the bobcat said so, Han Fei thrust his spear at Shrimp Wenci from five hundred kilometers away.

Qing Mu was puzzled. "How much power is consumed attacking from so far away?"

Many people exclaimed, "Why are they fighting so far away?"

Shrimp Wenci sneered. "Do you think you're a peak-level Venerable? You're so far away from me. What can you do?"

However, in the next second, everyone's faces froze. The five hundred kilometer void suddenly shortened, and Shrimp Wenci appeared only five kilometers away from Han Fei.

“Not good, the Great Dao of Space.”

A sea demon shouted, “Wenci, attack with all your strength.”

Ma Youyun’s eyes lit up. “Great! The Great Dao of Space, Near at Hand Technique. The Bull Demon King is indeed extraordinary.”

Niu Dali was excited. Han Fei didn’t show this Great Dao of Space to her. Han Fei seemed to have shown the law of gravity before. Did he take two Great Daos at the same time?

“Pfft!”

Shrimp Wenci wanted to see how this Demonic Bull Demon King could block his Thirty-Six Blades. However, the distance was shortened in an instant, and his body was directly penetrated before he had a chance to run.

Whoosh!

Not only was his body pierced through, but Han Fei’s blow was so terrifying that it left a hole in the void.

In an instant, thousands of space cracks appeared, and Shrimp Wenci was covered in wounds.

In a moment of desperation, Shrimp Wenci issued an order in his heart, and the 36 blades returned to his body like 36 rays of light.

However, when he did this, he saw a smile on Han Fei’s face.

In the next moment, the expression of Shrimp Wenci suddenly changed. He felt that his soul was clasped by something that wanted to drill into his soul.

“Moo ~”

At this moment, the Hundred Beast Soul Devouring was launched and a terrifying bull roar appeared in the mind of Shrimp Wenci.

Bam! Bam! Bam!

Under everyone’s watch, Shrimp Wenci vomited blood and was attacked by Han Fei with a soul technique.

“Die!”

Under the horrified gaze of hundreds of thousands of people, Han Fei punched down, directly blasting the body of Shrimp Wenci into pieces. At this moment, although Shrimp Wenci was not dead, his soul had been controlled by Han Fei.

Han Fei opened his mouth and spat out, “Explode!”

Rumble...

A huge mushroom cloud rose to the entire Life and Death Gorge.

Crack!

In the sky, a red crack rumbled like thunder. At that moment, a rain of blood fell. A Venerable died.

This battle lasted less than three minutes. A peak-level junior Venerable died so easily. Most of the time, Han Fei was running wildly.

At this moment, the audience was silent, and countless people gasped.

Fat Seven gasped. "Damn..."

Ma Qilin was dumbfounded. "Is... Shrimp Wenci... dead?"

Niu Dali swallowed. She looked at the proud figure in the surging tide, and her heart pounded.

Outside the Life and Death Gorge, Niu Kexin and Niu Pan looked at each other in shock.

Niu Panpan's body trembled. "Is a bull so powerful?"

Chapter 1535: First Use of Chaotic Qi

"Moo..."

In the field, the Bull Demon King roared, "The Venerables of the Black Blood City are too weak! How dare you come out to fight me? Let me ask you, is there only such a waste in the Black Blood City?"

As Han Fei stood proudly, he puffed out a cloud of smoke and pointed at the Venerables of the Black Blood City ferociously.

In fact, not only was the Demon Beast Union shocked by Han Fei, but the Black Blood City was also shocked.

Everybody knew how strong Shrimp Wenci was.

He was definitely among the top few junior Venerables. Few people in the Demon Beast Union or the Black Blood City could defeat him.

But even such a Heavenly Talent was killed by someone in only thirty seconds without any chance to escape.

From the moment Han Fei used the World's Near at Hand Technique, to when Shrimp Wenci was pierced, to when his soul was shackled, to when the Hundred Beast Soul Devouring Technique swallowed his soul... During this period of time, Han Fei's movements were smooth, giving Nine Tails no chance to escape at all.

On the other side of the Black Blood City, countless Venerables stood outside the Life-and-Death Gorge with a serious look. At the same time, they were all furious.

Someone guessed, "This Bull Demon King might be a hidden Heavenly Talent of the Demon Beast Union. He didn't reveal himself until he reached the Venerable realm. He must have been stuck at the peak of the junior Venerable because his path was too difficult."

Someone nodded. "This person can kill Shrimp Wenci within thirty seconds. He's definitely not an ordinary person. His physique, soul, combat skills, and soul attack techniques are almost flawless... I'm afraid he has reached the peak of the junior Venerable realm."

Although the sea demons were shocked by the death of Shrimp Wenci, this didn't seem to be the first time. Therefore, they didn't have any special thoughts of rioting or breaking the rules.

Instead, these people were looking for excuses.

Although what they said might be true, in the ears of the demonic beasts, it sounded more like an excuse for their defeat.

A faint smile appeared on Ma Youhun's face, and he immediately looked back. "Lei Xiao, report the good news to the Ten Thousand Beast Island."

"Yes!"

Crack!

A black panther suddenly turned into a bolt of lightning and ran out. In fact, the purpose of reporting the good news was not only to inform, but also to boost morale.

Slaying a Venerable was a major event no matter where.

How difficult was it to become a Venerable?

As Venerables, no one knew it better than them. In this age, everyone was fighting to become a Venerable! Even so, many people didn't touch the threshold of the Venerable realm even when they died.

But what did they see now? In the hands of the Bull Demon King, the Sea Demon Venerable from the Black Blood City couldn't even hold on for three minutes.

Han Fei looked back at the Life and Death Gorge and put on a cold smile.

Seeing that creepy smile, Niu Dali suddenly felt that something was wrong. Han Fei showed the same expression when he just came out of seclusion today.

Han Fei suddenly turned his head. "You stinky fish and shrimp from the Black Blood City, am I so brave that you're afraid of me? Is there any junior Venerable who dares to challenge me? Well... If not, I can even fight an intermediate Venerable Heavenly Talent."

"Hiss!"

"Is he crazy?"

Even Bai Diao couldn't help retracting her casual look. She couldn't help looking at Niu Dali and said, "Little Li, can this guy really cross realms to fight?"

Qing Mu said, "Dali, this is not a joke. Don't brag just because he is from the buffalo race!"

Niu Dali didn't know how to answer her. She said, "Bullshit, do I have to lie to you? I really can't beat him."

All the Venerables took a slight breath. Even Niu Dali couldn't beat the Bull Demon King? Niu Dali was an intermediate peak-level Venerable. If she fully unleashed her strength, her strength was extremely terrifying. She had fought more than 30 times in the Life and Death Gorge. With her physique and strength, no one could easily kill her.

On the sea demons' side.

"He's too much! Does he know what he's doing?"

"Let me! Let me beat him up!"

"Damn it, this bull must be killed by me."

"Get out of the way, let me! Wenci is my best friend. I, Crab Qianlong, am only half a step away from the peak of the intermediate Venerable. If necessary, I can forcibly break through. Today, I must kill this bull."

In an instant, the Demon Beast Union and the Black Blood City were both in an uproar. Han Fei was too arrogant! The Venerable realm was not the Hidden Fisher or the Law Enforcer realm. How could it be possible for him to cross realms?

However, the leader of the Black Blood City team, a merman with a colorful tail, said, "Crab Qianlong, don't underestimate your enemy. From what I see, this person is indeed a peak-level junior Venerable. Since he dares to challenge an intermediate Venerable, it means that his strength has been suppressed at the peak of the junior Venerable for a long time so that he can fight an intermediate Venerable head-on."

The big red crab with half of its body human and half crab's. On the upper half of its body, there were a pair of crab claws, as well as two weird chain-like claws. At the end of each of the chains, there was a huge axe.

At this moment, it shouted, "Although the space-type Great Dao is powerful, it's not invincible. My Soul Locking Dao is not afraid of any Great Dao."

"Hey!"

Han Fei was about to continue clamoring when he saw an ugly big crab suddenly drill through the void.

In Han Fei's eyes, this crab seemed to be covered all over with weapons.

Han Fei smiled coldly. Sure enough, as long as he crossed realms to fight, these people would voluntarily jump out.

At that time, in this battle, Han Fei couldn't fight as fiercely as before.

In the battle just now, he had only absorbed more than 900 points of soul power. He had to kill three more enemies of the same level to repair his damaged soul.

Therefore, even if he killed this crab, he definitely couldn't repair his damaged soul.

Therefore, he had to fight this battle with difficulty... Only with difficulty could he trigger the next battle and give the opponent some hope. Only by triggering the next battle could he completely repair his soul.

Buzz!

Han Fei's invincible will turned into a golden bull shadow again, enveloping him.

Han Fei pointed at the crab and shouted, "I've eaten countless crabs in my life, and I'm known as the Crab Eating Demon. Someone like you is only worthy of being my food."

Outside the Life-and-Death Gorge, Ma Qilin said enviously, "I wonder if what Brother Bull said is true or not. His eloquence is truly remarkable!"

Niu Dali also got to know Han Fei again.

The Bull Demon King who fought with his own people was definitely modest. However, when fighting with his enemy, he was domineering and arrogant.

At this moment, Niu Dali was thinking about the difference between bulls and cows. Is this the power of bulls?

Hearing Han Fei's words, all the Venerables immediately felt that he seemed to be sure to win, so they also relaxed.

Crab Qianlong roared, "Go to hell! I'm going to kill you!"

Swish...

The two chains on Crab Qianlong's body wriggled out. The chains seemed to draw the power of the void, like two black dragons, and the huge axes above their heads whistled.

He crossed his axes and slashed at Han Fei!

"Huh? A locking technique?"

Han Fei immediately realized that something was wrong.

These giant axes seemed to have locked onto his soul.

Han Fei immediately realized that this move hurt both the body and the soul. It was definitely not an ordinary combat skill.

The Venerables of the Demon Beast Union all looked solemn.

Han Fei raised his left hand, and a strand of visible power appeared in the air.

"Hiss! Chaotic Qi, this Bull Demon King wants to use Chaotic Qi?"

A sea demon shouted, "Chaotic Qi, don't be stingy with the Chaotic Qi. Use it..."

When the others saw Han Fei use the Chaotic Qi, they frowned. Although the Chaotic Qi was used as a trump card power, the amount of Chaotic Qi obtained after a person became a Venerable was at most three wisps. Most people only had two.

After that, to obtain more Chaotic Qi, one needed to constantly improve their understanding of spiritual energy and the Great Dao. Usually, many people in the junior Venerable realm couldn't condense the first wisp of Chaotic Qi alone.

It was difficult even for an intermediate Venerable.

Only advanced Venerables and peak Venerables could slowly grasp the ability to condense Chaotic Qi.

The main reason was that when one reached the advanced or peak level, his strength was already extremely strong. He had to work really hard to gain the slightest progress in strength.

In order to reach the peak, cultivators had to increase the disassembling degree of spiritual energy and improve their understanding of the power of the Great Dao.

And this problem could be ignored by junior Venerables and intermediate Venerables. Therefore, the growth of these two realms was relatively fast.

At this moment, when Han Fei used the Chaotic Qi, Crab Qianlong just wanted to curse. How could this guy just use up such a precious power?

It seemed that the Bull Demon King was indeed stuck at the bottleneck of the junior Venerable. Once he won again, this person would definitely have a chance to make a breakthrough.

With this in mind, Crab Qianlong gritted his teeth, and a wisp of Chaotic Qi appeared in front of him. Immediately afterward, the Chaotic Qi dispersed and was absorbed into his body.

This was the first time Han Fei used Chaotic Qi. When this power completely dissipated in his body, Han Fei immediately felt that his flesh and blood suddenly inflated. Every inch of his muscles seemed to be full of power as if they were injected with stimulants.

“Moo!”

Han Fei roared and suddenly thrust his fists down. As his fists trembled, a huge vortex appeared behind him, and his fists were shining with golden and red light.

Boom! Boom!

In the next moment, two huge fist marks broke through the void and blasted at Crab Qianlong.

However, the Sacrificing Punch wasn't meant to blow up the opponent's black dragon axe, but to kill Crab Qianlong.

Activating the Sacrificing Punch with both hands at the same time was the first time Han Fei had done this. He didn't expect it to be so handy! He even felt that he seemed to have inexhaustible strength.

At this moment, neither Han Fei nor Crab Qianlong dodged.. After all, both parties had used locking techniques.

Chapter 1536: Another Venerable Died

What would it feel like to use Chaotic Qi?

Han Fei felt that it was like smoking weed. It was like a racing car turning on the NitroBooster. It was a soul satisfaction that was so cool.

All in all, the moment Han Fei punched out, he felt that there seemed to be more power erupting in his body.

“Going berserk?”

This feeling was like a berserk combat skill, a little like Le Renkuang’s Violent War Body, and also like when the Mad Blood Worms erupted.

Looking at the two dragons darting at him, Han Fei smiled and suddenly punched out a series of golden fist marks.

This scene was comparable to countless shooting stars piercing the night sky.

Han Fei discovered that when he used a wisp of Chaotic Qi, all the energy in his body was inexhaustible. Once the energy left his body, he could achieve a high degree of uniformity between his body and soul.

In addition, Han Fei had a strange feeling: when he used the Chaotic Qi, it seemed that the Chaotic Qi could absorb the spiritual energy contained in his body.

Therefore, when the Chaotic Qi played a role, the spiritual energy was also consumed. The power in the spiritual energy was also extracted by the Chaotic Qi.

At this moment, Han Fei realized why he had to understand the Chaotic Qi first if he wanted to absorb it...

In fact, the Chaotic Qi was extracted from spiritual energy in the first place. Just like what he felt when he just became a Venerable, the spiritual energy transformed into Chaotic Qi... After the transformation, the spiritual energy lost its power and naturally dissipated.

Boom boom boom...

There was not much time for Han Fei to think.

While he was thinking, the opponent’s black dragon axes had already slashed over. They crushed hundreds of Invincible Fist marks along the way, but when they came to Han Fei, their power was already exhausted.

However, although their power was exhausted, it was still quite strong.

Han Fei had the opportunity to crush the two axes!

However, with a thought, Han Fei gave up.

He let the two dragon axes hit him, let the axe light envelop him, and let his body fly hundreds of miles in the sea.

Compared to Han Fei’s acting, Crab Qianlong was also shocked. He was planning to find an opportunity to pinch Han Fei to death with his pincers.

However, Crab Qianlong discovered that Han Fei’s two fist marks became stronger and stronger in the void, not at all weaker than his own dragon axe.

Bang, bang, bang...

The giant hammer was also hammering in the air.

In the end, after hundreds of hammers were shattered, Crab Qianlong smashed the two sledgehammers in his hand with all his strength, only then did he manage to shatter the power of the Sacrificing Punch. However, he was also shaken dozens of kilometers away by the power.

Everything happened too fast!

Therefore, Crab Qianlong wasn't surprised at all when Han Fei was blown back hundreds of kilometers. After all, he was one level higher than this Bull Demon King. Besides, he had also used Chaotic Qi. If even this couldn't suppress him, how could he be considered an intermediate peak-level Venerable?

"Bull Demon King..."

"Brother Bull..."

Ma Qilin and Fat Seven shouted at the same time nervously.

Fat Seven said, "Hey, why are you not nervous at all? Obviously, Brother Bull is not as good as Crab Qianlong."

Ma Qilin also said, "Dad! Should we remind Brother Bull? It's too risky to jump levels to fight."

However, at this moment, Bai Diao said casually, "Two idiots."

Ma Qilin: "???"

Fat Seven: "???"

Bai Diao said, "Didn't you see that Little Li didn't panic at all? Just now, Little Li said that the Bull Demon King was stronger than her. How could he lose to Crab Qianshu in strength or attack?"

Ma Qilin exclaimed, "Are you saying that Brother Bull did it on purpose?"

Fat Seven was also dumbfounded. "On purpose? Why is he deliberately giving in to them?"

At this moment, the bobcat said, "Have you forgotten... what the Bull Demon King said before he went to the battle? He said to kill three or five Venerables first... This guy is quite greedy. This is only the second one. He obviously doesn't want to stop now. If we crush Crab Thousand Dragon again, do you want him to fight an advanced Venerable?"

Ma Youyun smiled. "That's right. This Bull Demon King is brave and smart. I wonder how he's going to fight in the next round?"

Ma Qilin was stunned. "Huh... Father! Do you mean that Brother Bull has already won this round?"

Ma Youhun glanced at his son and said leisurely, "To observe the battle, you have to think carefully. Sometimes, in addition to fighting itself, you also have to consider the human heart."

Of course, Bai Diao and the others could find out about it because Niu Dali said that Han Fei was stronger than her.

Of course, Niu Dali would not lie to them.

So they could tell that Han Fei was deceiving them.

As they expected, when Han Fei left a long ravine on the bottom of the sea, he was bleeding from his eyes, nose, and mouth. Half of his bull horn was broken, and many parts of his body began to crack.

“Moo...”

Han Fei stomped and stood in the air again. He waved his hand, and the awesome power of the Infinity Water returned.

“Hu... Hu...”

Han Fei’s body suddenly changed, turning into a mad bull more than 30 meters long.

The old turtle in Han Fei’s body was dumbfounded when he saw this scene. He felt that Han Fei was crazy. Becoming so big, he was deliberately consuming Chaotic Qi!

Besides, what’s the use of being a bull?

Do you want to ram your enemy with your head? The problem is that you are a f*cking fake bull!

However, at the next moment, Han Fei began to paw the ground.

Every time Han Fei pawed the ground, huge waves surged in the water.

Han Fei shouted, “Fury of the God of War!”

“Moo ~”

At that moment, a deafening sound rumbled.

Within a hundred kilometers, waves were surging.

As Han Fei took a step forward, the sea was rolling like a sea of knives, setting off a huge tide.

The surging waves rushed at Crab Qianlong almost at the same time as Han Fei.

On the Demon Beasts’ side, countless Explorer-level demonic beasts all held their breath. This is too strong, this move of the Bull Demon King is too strong. With such a terrifying torrent of blades, if they were hit by it, they would probably be torn into pieces in an instant.

Crab Qianlong’s face was also solemn.

However, he didn’t panic much in his heart. It turned out that this Bull Demon King was indeed very strong. If it were someone else, he might not be able to withstand a single blow from him.

However, a series of bubbles spurted out of Crab Qianlong’s mouth.

These bubbles quickly condensed, sealing him inside like pieces of ice.

And this was only passive defense.

He, an intermediate Venerable, was already close to the peak. How could he only defend passively against a water buffalo at the peak of a junior Venerable?

Crab Qianlong adjusted his posture and ran towards Han Fei. As Crab Qianlong ran out, the two chains followed behind him like two long ribbons.

However, the ribbons were entwined quickly like fried dough twists. The two axes on the chains dragged the seawater behind him.

From the outside, it looked like Crab Qianlong was running wildly, dragging a super water ball countless times larger than his body behind him. In the ball, there were two big axes.

On the sea demon's side, someone grinned. "Qianlong's great axe technique is among the top ten of the Black Blood City and the Demon Beast Union in the intermediate Venerable realm. This Bull Demon King is bound to lose."

Someone sneered. "I'm afraid his technique only looks powerful, but in fact, it's just that the Chaotic Qi provides him too much power and makes him too confident. He doesn't know that when the energy disperses, he won't be able to block Qianlong's strike!"

On the Demon Beast Union's side, everyone looked puzzled.

The bobcat looked at Niu Dali and asked in confusion, "Dali, is he much stronger than you? Are you sure he can handle Crab Qianlong's ferocious attack?"

Niu Dali also frowned and said, "His strength is indeed much stronger than mine. However, he hasn't used the combat skills and techniques he used before! And they don't seem to be weak."

While everybody was talking, Han Fei had already collided with Crab Qianlong.

Crab Qianlong was instantly tied up by the billions of knife lights. However, any water blades that approached would be shattered.

The big ball behind him also rose into the air.

The sphere had a diameter of a thousand meters.

At this moment, Han Fei was facing the sky with two sledgehammers in his hands.

Bang, bang, bang...

Han Fei shouted coldly, "Do you think you are the only one who knows how to use hammers?"

The sky was full of hammer shadows and they began to collide with each other crazily.

Seeing this, Niu Dali immediately said, "I know this technique. He has used it before. It's very powerful and can completely suppress me... Uh..."

As soon as Niu Dali finished speaking, he saw that Han Fei was hammered into the ground.

Everyone looked at Niu Dali, then at the field, and nodded slightly. It seemed that Han Fei was pretending again.

Rumble!

From the spot the sledgehammer hit, a visible ripple rolled nearly a thousand kilometers away.

The sea demons were already cheering.

Someone shouted, "How dare he be so arrogant? With such a strike, even a Venerable will be reduced to dust."

Someone grinned ferociously. "He deserves to die."

Someone said casually, "It's only natural that Qianlong can win. Does the Bull Demon King really think it's so simple to jump levels to fight?"

However, as time passed, these kinds of bragging became less and less.

This was because they saw that the blades didn't stop, but instead were getting stronger and stronger.

At this moment, Crab Qianlong was still being swept by the infinite saber beams.

All of a sudden, he saw a red light on the ground bombarding the sky. A huge fist mark blasted Crab Qianlong into the sky.

At the next moment, a figure appeared above the crab.

In the blink of an eye, Crab Qianlong's eyes erected... Han Fei found that he was completely imprisoned.

Crab Qianlong laughed. "Water buffalo, do you really think you can beat me? I'd like to see how you can break the Eyes of Confinement."

At this moment, Han Fei was enshrouded by a blue pillar of light and couldn't move at all.

However, Han Fei didn't panic at all. His lips cracked slightly. "Explode..."

The Infinity Water exploded, but because it didn't enter his body, Crab Qianlong didn't notice it at all.

At this moment, it suddenly exploded, shattering his carapace. Then, the other Infinity Water also exploded.

"Moo ~"

Hundred Beast Soul Devouring was activated.

Han Fei walked out of the void confinement easily. As he waved his hand, he drew a knife from the void and slashed at a drop of blood in the void.

The Void Lines all shot out.

In Forge the Universe, the Vast Ocean Navigator stopped spinning, and the knife beams stopped. In the sky, a red crack appeared again, and a rain of blood poured down.

Another Venerable died

Chapter 1537: Ask For A Group Fight

Under the public gaze, Han Fei created a miracle. Being hit by the terrifying attack of Crab Qianlong, theoretically speaking, even if he didn't die, he should at least be reborn with his blood.

However, Han Fei punched back.

Then, he used some unknown method to blow up Crab Qianlong. The problem was that Han Fei actually stopped Crab Qianlong from Blood Rebirth, which was amazing.

Seeing this, Ma Youhun said to a person next to him, "Go back and tell the good news."

"Cough, cough..."

When Han Fei stood still, everyone discovered that one of this guy's arms was drooping and his body was full of cracks. His battle suit was mostly broken, revealing the explosive muscles on his body.

Besides, Han Fei's aura was very unstable at this moment.

After a full two or three minutes, the vibe finally stabilized.

Many people's first reaction was that Han Fei was either crippled or had reached the critical point of breakthrough.

That blow just now looked like... a perfect counterattack in desperation. What did this mean? It was often a sign of a breakthrough!

There were a lot of strong masters in the Life-and-Death Gorge. Among them, there were several Half-Kings.

On the Demon Beast Union's side, in addition to Ma Youhun, there were two other Half-Kings, who were near the Cage Wall on both sides of the Life and Death Gorge.

It seemed that Han Fei had already tried his best to control the fluctuations of his spiritual energy, but they were still detected. Obviously, Han Fei's every move couldn't escape the eyes of these Half-Kings.

Immediately, someone's expression changed. "Not good. Brother Bull fails to make a breakthrough. Should he leave at this time?"

Someone said solemnly, "Now is the best time to make a breakthrough. If Crab Qianlong can last longer, Brother Bull will definitely make a breakthrough. If he leaves now, he may have to wait a few years."

Ma Youhun shouted, "Bull Demon King, come back!"

He was a bit worried.

Even he felt that something was wrong with Han Fei's current aura. Crab Qianlong wasn't the strongest among the intermediate Venerables in the first place. If Han Fei challenged the sea demons again, the opponent that would come out was probably the strongest intermediate Venerable.

Han Fei gritted his teeth and the white gas spurted out of his nose. He seemed to be very reluctant to leave.

On the other side, on the sea demons' side, countless people were shocked. Han Fei could cross realms to kill enemies?

This person's talent was really terrifying.

If he broke through to the intermediate Venerable realm, then in a few hundred years, with this person's strength, he might become the strongest intermediate Venerable in the cage.

The moment Ma Youhun shouted, the mermen glanced at him and someone immediately shouted, "Hey, Bull Demon King. Are you going to leave? You must be very upset not passing the critical moment of the breakthrough, right? If you have the guts, let's fight, OK?"

Someone shouted, "Bull Demon King, as long as you admit defeat today, we will let you go. However, then you are just a coward. A real powerhouse dares to face all the challenges in front of him."

Someone yelled, "Bull Demon King, if you've got balls, stay in the arena and don't leave. If you flinch, how can you be qualified to be a powerhouse?"

For a moment, the people from the Black Blood City kept clamoring, forcing Han Fei to stay and not leave.

Behind Han Fei, someone was shouting too.

"Brother Bull, don't be fooled. You've already earned enough by killing two Venerables today."

"Brother Bull, don't listen to these sea demons' nonsense. They just intend to bully you with numbers."

"Bull Demon King, you can come back now. You've had enough battles today."

"Phew ~"

Han Fei finished absorbing the last wisp of soul power. His soul power had recovered to 78,673 points... only more than a thousand points away from his current soul limit. As long as he killed an intermediate peak-level Venerable, his soul power might be restored.

How could he retreat at a time like this? He would rather die than retreat.

"Moo ~"

Han Fei took a breath, and the violent energy and spiritual energy around surged into his body.

In the eyes of outsiders, the cracks on Han Fei's body were recovering at a visible speed. After only a moment, Han Fei seemed to have recovered.

However, no one thought that Han Fei had really recovered. The injuries caused by the battle of the Venerables were not as simple as the recovery of external wounds!

However, Han Fei's action made many sea demons' eyes light up.

Someone said, "The water buffaloes are stupid. If we provoke him again, he will definitely stay."

Someone cursed, "Bull Demon King, stupid bull, don't run if you've got balls. I'll chop you into pieces with three blows."

Someone sneered, "Bull Demon King, let's fight one-on-one. I'll turn you into a cow easily..."

...

Han Fei looked at the sea demons who were cursing and felt that they were really clumsy in speech. They just kept repeating the same words.

Although there was no emotion in Han Fei's heart, on the surface, his face was flushed, and his nostrils were spewing out white gas.

Han Fei suddenly turned his head. "I want to fight a group battle."

"Hiss!"

Ma Youhun was briefly stunned.

Bai Diao, the bobcat, Qing Mu, Fat Seven, Ma Qilin, and Niu Dali were all stunned. A group battle? Group battles were much more difficult than one-on-one battles.

If it was a one-on-one fight, Han Fei only needed to fight one person.

However, if he was to fight a group battle, it would be easy for him to be tricked.

Besides Ma Youhun, the other two Half-Kings said, "Bull Demon King, don't do anything rash. Group battles are not easy to fight. You may lose more than you gain."

However, Han Fei looked straight at Niu Dali.

Niu Dali's heart did a flip when he saw Han Fei's cold expression. Did he do it on purpose? Did he want me to persuade Ma Youhun?

Han Fei: "I want to fight a group battle."

Han Fei said this to Niu Dali.

Niu Dali immediately understood and hurriedly said to Ma Youhun via voice transmission, "Commander Ma, I think he can do it."

Ma Youhun glanced at Niu Dali. "The Bull Demon King has shown the power of an intermediate Venerable. The other party will definitely use this as an excuse to send intermediate Venerables over. If the Bull Demon King had to fight several intermediate Venerables at the same time, it would be extremely disadvantageous for him..."

Niu Dali couldn't help but remember what Han Fei said when he came today... He said... who said that his combat power stopped at the peak of the intermediate Venerable realm!

Now, since he wanted her to convince Ma Youhun, he must be very confident about himself.

Therefore, Niu Dali took a breath and said firmly, "I believe him."

Ma Youhun looked at Niu Dali. "Are you sure?"

Niu Dali nodded. "Yes."

Although for some reason, Ma Youhun felt that this Bull Demon King might not be simple, he still said, "OK."

Then, Ma Youhun looked at the sea demons and shouted, "Spirit Merman, did you hear that? Do you dare to fight a group battle, or not? If not, today's battle is over."

Sea Spirit was the commander of the sea demons team. When Han Fei said that he wanted to fight a group battle, he was thinking about Han Fei's purpose.

Although he knew that the Bull Demon King was extraordinary and might still have the strength to fight, it was impossible for him to win a group battle, so he must have a purpose.

The first thought in his mind was that Han Fei wanted to make a breakthrough in combat with the help of his team members.

All those who could make a breakthrough in battle were extraordinary.

To make a breakthrough in battle, one needed extremely strong control. On the one hand, he had to withstand the pressure of the breakthrough, and on the other hand, he had to fight. If he was distracted, the breakthrough might be interrupted.

However, there were also benefits.

If one made a breakthrough in battle and succeeded, he could change the situation of the battle. Especially for a genius like Han Fei, once he stepped into the intermediate Venerable realm, his strength would definitely be comparable to that of an intermediate peak Venerable. Coupled with his Great Dao of space, ordinary people would be no match for him.

However, as a Half-King, he certainly wouldn't be afraid of this. Soon, he had an idea.

Spirit Merman shouted, "Why not? However, we want to join an advanced Venerable in this battle."

When Ma Youhun heard that, he immediately shouted, "That's bulls * it. This is a battle of intermediate Venerables. Why would an advanced Venerable join?"

Spirit Merman said, "You were the one who proposed the group battle. Besides, I didn't say that the Demon Beast Union can't add an advanced Venerable... Since we haven't had any major battles in the past few years, let's check if the Demon Beast Union has really been strengthened in the past two years."

Spirit Merman deliberately said that he wanted to cross three realms to test the other party's strength. In fact, it was just because he had already got a plan.

Just as Ma Youhun was about to respond, Bai Diao smiled and said, "Let me!"

As soon as Bai Diao said so, the bobcat took a step forward. "Let me do it. I'm afraid they want to test your strength to see if you have reached the peak. Let me..."

Bai Diao shrugged. "Okay! You do it."

The bobcat stepped out and meowed, and its voice resounded throughout the Life and Death Gorge.

The bobcat said, "I want to eat fish. You'd better send a fish up."

As soon as Niu Dali saw the bobcat stepping out, she knew that she definitely needed to join in too. She had already reached the peak of the intermediate Venerable level, and had fought more than 30 battles and was very experienced.

Niu Dali stepped out. "Me too."

Han Fei had been considering whether he should unleash his real strength if the other party sent an advanced Venerable. At this moment, Niu Dali suddenly joined in, which meant that the other party could send out two intermediate Venerables.

Han Fei hurriedly shouted, "No more intermediate Venerables. Brother Qilin, Brother Fat Seven, do you dare to join me?"

Han Fei had planned to summon another three junior Venerables. In this way, he could kill at least one or two people instantly.

However, Niu Dali came, but it didn't matter. Anyway, as long as the opponent sent junior Venerables over, they were dead meat.

When Ma Qilin and Fat Seven heard Han Fei's summoning, they were stunned. F*ck, we've only met him for the first time! Besides, there are only advanced Venerables in the arena. If we go up, will we really not be killed in minutes?

However, as a Venerable, neither Ma Qilin nor Fat Seven would flinch in battle.

Besides, with the bobcat here, the two of them were confident.

On the sea demon's side, Spirit Merman said indifferently, "Yu Menglong, Yu Kang, Hai Liansheng, Bai Yuhua... The four of you will fight them. As for the last one... Zhang Wandian, come out."

As Spirit Merman spoke, the people who were called out stepped out.

When the name Zhang Wandian was called, three thousand kilometers away, a mountain cracked and a long tentacle was pulled away from the belly of the mountain.

A weird huge black octopus was approaching!

Chapter 1538: Try My Blade Inferno

A group battle between Venerables was a major event no matter where it was.

It had been decades since there was such a battle in the Wall of Death.

When Han Fei heard the word "decades" just now, he felt terrible. If you knew that there might not be a single large-scale group battle in the outside world for hundreds of years, what would you think?

The bobcat walked beside Han Fei. He liked other people to describe him as a mountain cat. Among all the cats on the Ten Thousand Beast Island, only he had reached the advanced Venerable realm.

Of course, although creatures such as tigers and thunder leopards were also cat species, their varieties were too different.

However, perhaps because it had been with these creatures for a long time, the bobcat didn't feel that its momentum was weaker than any of them.

At this moment, the mountain cat looked at Han Fei and said, "That Bai Yuhua on the opposite side is an advanced Venerable. Leave it to me. However, you have to know his Great Dao. His original form is a sea pen. With his strength, he can draw a Venerable-level combat power at one time, or bind a space and draw you into the painting."

This was the first time Han Fei had heard of such a Great Dao, drawing people into a painting?

Han Fei asked, "Can it trap people like arrays or seals?"

The mountain cat nodded. "You shouldn't have asked Ma Qilin and Fat Seven to come together. That way, it wouldn't be a problem for us to fight three against three. However, not everyone in the junior Venerable level is as strong as you. Once someone bypasses you, their safety will be hard to guarantee."

Niu Dali looked at Ma Qilin and Fat Seven. "You two, after the battle, try to lead your opponents to the sides and leave our battlefield."

"Wait a minute..."

Han Fei smiled and said, "No! No matter how strong the other party is, he is only an advanced Venerable. If we lack top strength... lead the other party's junior Venerable to me..."

"Huh?"

Han Fei smiled mysteriously. "If you trust me, why not have a try... I can eat the five of them in one bite."

...

After a while, Han Fei learned from the mountain cat that in addition to the one called Bai Yuhua, Yu Menglong was an intermediate Venerable who was good at illusions and dreams.

As for Yu Kang and Hai Liansheng, they were both junior Venerables and were obviously prepared for Ma Qilin and Fei Qi.

As for the last one, the guy named Zhang Wandian, although he sounded like an octopus, he was a guy that even the mountain cat didn't know.

According to the mountain cat, this person might have been in the Immortal City all the time, and for some reason, he came to the Life and Death Gorge.

The reason he was so sure was that Zhang Wandian had never fought in the Life-and-Death Gorge. However, it was impossible for a guy who had cultivated to the peak of an intermediate Venerable to not have any battle records.

If this battle result wasn't in the Life-and-Death Gorge, it must be in the Immortal City of the human race.

According to the wild cat, the Black Blood City and the Forest of Terror should be allies.

The layout of the Black Blood City and the Demon Beast Union was similar.

The Demon Beast Union had two enemies, one was the Black Blood City, and the other was the Forest of Terror. The Black Blood City also had two enemies, the Demon Beast Union and the Immortal City of the human race.

Generally speaking, they didn't have much contact with humans and the Forest of Terror. This made Han Fei even more certain that this so-called cage should be a "stud link" layout.

Since Zhang Wandian often fought humans, Han Fei thought that he might be more familiar with the means of humans.

In any case, the other party's lineup was identical to his. Both parties sent over an advanced Venerable, two intermediate Venerables, and two junior Venerables.

However, Han Fei didn't care about this lineup. After all, in his eyes, these people were all resources. Han Fei's goal was to kill at least three of them.

...

Group battles were usually carried out when the strength was the same. This was because when the strength was the same, the combatants could cooperate to fight.

However, compared to the five major human professions, this kind of team battle clearly didn't have much cooperation.

Now there were three levels, junior, intermediate, and advanced. It was obviously difficult to fight together. After all, the weak needed the care of the strong. If the weak were eliminated, the other party's weaklings would be freed up and surround the strong masters on their side, which would be extremely unfavorable for them.

Therefore, the current solution was: the junior Venerable would fight the junior Venerable away, and the advanced Venerable would fight the advanced Venerable.

Han Fei made up his mind. "Why don't I cooperate with Niu Dali and kill these two intermediate Venerables first?"

However, if he did this, once he and Niu Dali killed two intermediate Venerables, the other three Venerables must immediately run away. After all, five against three, it was impossible for them to survive.

Immediately, Han Fei winked at Ma Qilin.

"Ow... Ow..."

Ma Qilin shouted at the opposite side, which was clearly the sound of a donkey.

Fat Seven rolled his eyes at him. "Stop screaming. Just watch me."

Fat Seven shouted, "Yu Kang, Hai Liansheng, you two salted fish, come and fight me."

Originally, this level of combat had been upgraded to the level of intermediate Venerable. God knew why Han Fei had called for Ma Qilin and Fat Seven. More surprisingly, Ma Youhun had actually agreed.

At this moment, Yu Kang and Hai Liansheng were wondering how to take away Ma Qilin and Fat Seven. However, the other party had called for reinforcements first. This was certainly a good thing!

Swish ~

The four of them fled and rushed to the left side of the battlefield.

As for the others, they didn't even take a look at them. After all, a junior Venerable was still far away from them.

With a meow, the mountain cat hooked its finger at Bai Yuhua and said, "Hey, painter, come and fight with me."

The mountain cat said to Han Fei and Niu Dali, "Wait for me for half an hour."

Bai Yuhua sneered. "Mystifying Shadow, do you think you can escape from my pen just because your Dao is like a shadow? Half an hour? I can solve you in three minutes!"

Baiyu Hua seemed to be very familiar with the mountain cat, calling it by its real name and ridiculing it.

The mountain cat strode gracefully, extended its claws, and tore open the void on the right. "You'll know after we fight."

At this time, only Han Fei and Niu Dali were left, facing Zhang Wandian and Yu Menglong.

Han Fei was about to fight Yu Menglong because he should be able to easily break illusions and dreams.

He had experienced this weird situation more than once, for example, when he was in the Sea Quelling Painting, and when he was crossing the river of time. With his Yin-Yang Divine Eyes, he should be able to break it easily.

However, at this moment, the old turtle's voice suddenly sounded in Han Fei's heart. "There's an unknown power in that octopus, a very powerful force. It seems to be some kind of exotic treasure. I'm afraid his strength is more than he showed.

Han Fei's face immediately changed slightly. Zhang Wandian was already an intermediate peak-level Venerable. Did it mean that his strength had actually reached the advanced Venerable realm?

Immediately, Han Fei said to Niu Dali, "Help me hold off Yu Menglong for a while! Remember, once you reach a point where you can't resist him, tell me immediately and I'll solve the battle."

Han Fei's face turned dark.

He had thought that the other party only had one advanced Venerable, but now it seemed that there might be more than one. Then, the other party's camp had become similar to his.

If Zhang Wanfang had the combat power of an advanced Venerable, he could still deal with him. However, he didn't know if Zhang Wanfang was just an advanced Venerable. If he was, he could still kill him.

After all, in terms of means, as long as the other party wasn't a peak-level Venerable or had some special secret techniques, it was impossible for him to be a match for him.

Niu Dali glanced at Han Fei. "No problem! I had fought Yu Menglong before. His illusion array can't kill me."

Han Fei grinned and suddenly frowned. "Kill."

This time, Han Fei was very greedy.

He gave up the Embroidery Needle and Snowmourne and put away the Infinity Water.

In the battle just now, the Infinity Water had already exploded. If it exploded again, its power would be greatly reduced. Perhaps it could hurt an intermediate Venerable, but to hurt an advanced one? It was quite difficult.

Swish!

Han Fei casually waved his hand, and a hundred-meter-long water blade slashed at Zhang Wandian.

In this blow, Han Fei could be said to have used all the strength he could have.

"Humph! You seem to know a lot of combat skills!"

Zhang Wandian nodded slightly. At the moment Han Fei attacked, nine tentacles drilled into the void.

After Han Fei slashed out, he suddenly discovered that the surrounding 500 kilometers were trapped by an array. The nine big tentacles had turned into a void shadow, directly surrounding him.

At that moment, Han Fei still wanted to use the Star Teleportation Technique...

However, on those tentacles, countless pairs of big eyes opened. When those big eyes opened, this space suddenly seemed to be imprisoned.

"Fuse!"

When he saw eyes appear in all directions, Han Fei fused with Little Black and Little White without hesitation.

At that moment, he activated the Yin-Yang Divine Eyes, twisted his body, and threw out a Sacrificing Punch, blasting an eye in the void with terrifying strength and speed.

Outside, many people were surprised. "Pupil Spell? How can the Bull Demon King even know Pupil Spell?"

Even the others were asking the same question. Could a person master so many messy combat skills?

Someone said, "I heard that this Bull Demon King had been sealed in the Demon Subduing Tower for more than 2,700 years. He fought with various creatures every day. Maybe he learned it from them?"

Zhang Wandian was also slightly surprised. He had thought that his Thousand Eyes Illusion Array might not be able to resist Han Fei, but he didn't expect it to be broken so quickly! It was almost broken in a second!

As soon as the array eye was broken, a shocking saber shadow cut out.

The saber beam tore through the air and was thousands of kilometers away. Ignoring the spatial barrier, it charged at Zhang Wandian.

This attack was fierce enough. The octopus extended its claws in the air, and Han Fei's knife light seemed to be frozen in midair.

Zhang Wandian said, "Interesting. Just because you can break my illusion doesn't mean you can block my Soul Annihilation Eye."

On the tentacles, thousands of eyes spewed out red laser beams, which swept more than 30 times and directly broke Han Fei's Draw Technique.

Han Fei grinned. When did an octopus dare to be so arrogant to him?

Swish! Swish! Swish!

Within five hundred kilometers, the entire sea area turned into knives, even the plankton in the sea turned into knives, the spiritual energy turned into knives, and the sea water turned into knives...

Han Fei grinned ferociously.. "Try my Blade Inferno."

Chapter 1539: Shocking Five-Kill (1)

The core of the Great Dao was its use of the Dao runes.

The Great Dao was different from the law.

By using the Great Dao, one could greatly increase his strength.

Zhang Wandian's Great Dao seemed to be related to his eyes, which were equivalent to human Pupil Spells.

At this moment, a thousand red laser beams were shot at him. Even with the Yin-Yang Divine Eyes, Han Fei could only tell the landing points of the laser beams in advance and dodge them repeatedly.

However, dodging alone was clearly not enough.

With thuds, Han Fei's body was riddled with holes.

To Han Fei, this was not a big injury. However, since it could penetrate his skin and flesh, the power of the other party's eyes couldn't be underestimated.

Buzz!

Han Fei extended his hand and clenched it. The surrounding seawater turned into a water-shaped blade, which was extremely smooth and looked like a mirror.

Swish! Swish! Swish!

Countless laser beams were rolling.

And Han Fei's speed suddenly doubled.

In the face of such a long-distance attack, remote combat was not good for Han Fei. However, once he got close, it was no longer up to the octopus.

In the Life-and-Death Gorge, the fighting scene was quite magnificent. Dense red laser beams filled the sky because of the mirror effect.

It was like a dense bombardment.

On the side of the Black Blood City, many people had never seen Zhang Wandian fight before. This kind of terrifying bombardment was indeed very strong, but even so, he still failed to kill Han Fei?

The distance between Han Fei and Zhang Wandian was shortened rapidly. In order to show his strength, Han Fei turned into a golden bull and sprinted again.

The bull was wrapped by thousands of mirrors.

After only three or five minutes, Zhang Wandian found that Han Fei's speed was much faster than his. He certainly couldn't fight a war of attrition.

Buzz!

Zhang Wandian quickly turned into a human, but he still kept his nine tentacles.

Zhang Wandian sneered in his heart.

In the next moment, the nine tentacles tore out a big eye in the void.

At this moment, a mysterious power was surging in Zhang Wandian's body, and his aura was soaring frantically. In the blink of an eye, his aura had reached the advanced Venerable realm.

In the outside world.

Ma Youhun's face changed drastically, and he immediately shouted, "Spirit Merman, you f*cking cheated!"

Spirit Merman sneered. "Don't talk nonsense. Take a closer look. Zhang Wandian's strength is indeed only at the peak of an intermediate Venerable. Can't we use our secret techniques? If you have the ability, you can use it too!"

With an awful look on his face, Ma Youhun immediately shouted, "Bull Demon King, if you can't resist him, you can retreat."

At this moment, Niu Dali seemed to have just broken through an invisible illusory array. Seeing the terrifying aura on Zhang Wandian's side, she immediately shouted, "Bull Demon King, be careful."

Swish!

However, at the moment when Niu Dali shouted, the terrifying pillar of light had already shot out and instantly enveloped Han Fei.

For a moment, everyone was looking at the faint blue pillar of light.

Zhang Wandian sneered. "How can you, a junior Venerable, resist my soul-destroying Great Dao?"

Bang!

A splash suddenly appeared in the pillar of light. The Sacrificing Punch blasted out in the laser, but it was completely destroyed after only blasting out for more than ten kilometers.

Crack!

Outside of Han Fei, the golden bull phantom began to collapse.

At this moment, Niu Dali ignored Yu Menglong and rushed over.

On the other side, the mountain cat that had just flown out saw that something happened to Han Fei. Zhang Wandian could actually use the power of an advanced Venerable to launch a soul attack. How could this be possible?

"Meow!"

Bai Yuhua chuckled. "You think I don't exist?"

As soon as the mountain cat tore open the void, he saw that the void was refilled as if it never existed.

"Bo... Bo... Bo... Bo..."

The mountain cat instantly transformed into millions of clones, tearing apart the void.

The mountain cat: "You only have one brush. Let's see how many you can draw."

Bai Yuhua chuckled. "Then let's see who will arrive there first."

After that, Bai Yuhua drew a circle with his brush, and a large circular hole appeared. However, this was definitely not a teleportation array, but a door.

The mountain cat's pupils constricted.

At this time, it was too late to stop it. Although he was not far away from the Bull Demon King, his speed was definitely not as fast as Bai Yuhua's. There was at least a five second gap between them.

This meant that Niu Dali and the Bull Demon King had to face two advanced Venerables and one intermediate peak-level Venerable for a full five seconds. The consequences could be imagined!

"Niu Dali, run!"

In the mountain cat's view, the Bull Demon King was being bombarded at this moment.

Zhang Wandian's blow hadn't finished yet...

The Bull Demon King seemed to be still resisting because Zhang Wandian's strength was still a little lacking. If it were a real advanced Venerable, at this moment, Han Fei would have been blasted to pieces, waiting to be reborn with blood...

When the mountain cat's voice was heard, Niu Dali was in trouble too. She was about to rush over to help Han Fei when she heard Yu Menglong suddenly laugh ferociously. "You want to run away? Have you got my permission? Enter the dream..."

"Moo ~"

At this moment, Han Fei let out a shrill scream and his body expanded by a hundred meters. In the Blade Inferno, it seemed that the Infinity Knife Art was about to hit Zhang Wandian.

However, on Zhang Wandian's tentacles, thousands of eyes and laser beams were shooting out. He intended to end the battle as soon as possible. As long as he could hold on for another three seconds and crush the soul of the Bull Demon King, the latter would definitely die.

The Half-King of the Black Blood City, Spirit Merman, smiled. "We've finally made a comeback. It's not bad to kill two bulls."

One breath.

Two breaths.

Three breaths.

Three seconds later, a door in the void was opened, and Bai Yuhua walked out.

At this moment, Niu Dali also rushed out of the dream space, turned into a black light, and rushed over.

Zhang Wandian smiled. "After killing Niu Dali, the Bull Demon King will be doomed."

Bai Yuhua smiled and began to draw. "If we can make it in time, let's kill this bull first... Void Freeze... Void Shatter..."

"Oh! You're all here? Although it's a little different from the plan, it's still interesting."

Hearing this calm and arrogant voice, Zhang Wandian's expression suddenly changed. He felt that a terrifying power was gathering in his soul-destroying pillar of light.

"Moo ~"

At that moment, he saw a stick shadow. In the blink of an eye, it had penetrated his Soul-Extinguishing Eye. The stick shadow came too fast, and the power exceeded his expectations.

"Advanced Venerable?"

Outside, the smile on Spirit Merman's face froze. At this moment, he looked angrily at Ma Youhun and shouted angrily, "You're the ones who cheated!"

Although Ma Youhun was also shocked, he replied contemptuously, "Open your eyes wide and see that the Bull Demon King is a real peak-level junior Venerable. Who doesn't have a powerful secret method these days? How can a primitive divine bull be as weak as you think?"

In fact, as Ma Youhun shouted, he was extremely nervous. This was f*cking exciting!

Just a second ago, the Bull Demon King seemed to be about to be killed at any time.

However, in the next second, he made a comeback?

Zhang Wandian exclaimed, his thousand eyes fused, and the pillar of light appeared again, intending to block Han Fei's Sacrificing Punch.

However, while everyone was shocked, Bai Yuhua suddenly shouted, "Why is my painting ineffective?"

However, at this moment, Han Fei had already disappeared.

Zhang Wandian's heart trembled. A life-and-death crisis was coming.

Chi la!

The void was torn apart, and two silver flashes erupted, cutting Zhang Wandian into four pieces.

At this moment, Zhang Wandian was certainly not dead. Otherwise, it would be underestimating him who had a few brains. He shouted, "Soul Explosion..."

However, in the next moment, nothing happened.

Instead, he felt that something had invaded his surging soul.

Rumble...

In the next moment, Zhang Wandian exploded uncontrollably.

Han Fei smiled. "I forgot to tell you that all laws are forbidden in this space!"

Crack!

In the sky, a red crack appeared again.

In just a few seconds, the situation was reversed. An intermediate peak-level Venerable had died so easily.

Han Fei hadn't finished absorbing the soul feedback from Zhang Wandian.

A large brush appeared in Bai Yuhua's hand and he drew a circle under him.

Han Fei immediately knew that something was wrong. His law-forbidden space had been broken?

Swish!

Han Fei moved a hundred kilometers with a single step and shot out the Embroidery Needle in his hand.

"Knock on the Heavenly Gate."

"Puff ~"

Bai Yuhua's body was penetrated, but at the next moment, this person turned into a painting with him, and his body had already appeared thousands of kilometers away.

Roar!

At this moment, Han Fei couldn't care less. In a step, he shortened the distance between the two sides, and the Hundred Beast Soul Devouring directly blasted into Bai Yuhua's mind.

The latter only wanted to escape at this moment!

Zhang Wandian died too quickly. The Bull Demon King hid his strength, but in fact, he was an existence that could easily kill an advanced Venerable.

Besides, the mountain cat was still on its way and would arrive in three seconds at most! He had to escape in three seconds.

However, Han Fei shouted again, "All laws forbidden in this space."

However, after experiencing Han Fei's technique once, Bai Yuhua sneered. "Don't waste your effort. You haven't completely mastered the power of this Great Dao. You may be able to trap others, but you can't trap me."

Bai Yuhua raised his hand and drew a still blue picture.

Bai Yuhua: "Time Freeze!"

"Freeze my ass... Momentary Time!"

At that moment, in the eyes of the outside world, the space, including Han Fei and Bai Yuhua, and even the sea water, was freezing. However, in the frozen time, a spear beam instantly penetrated Bai Yuhua's body.

"Pfft!"

Bai Yuhua's body had a big hole pierced through, but this didn't hurt his foundation. His paint brush was not affected by space and was about to draw him out of the battlefield.

However, Han Fei did do something.

With a thought from Han Fei, in this short frozen moment, the Void Lines actually swallowed all of Zhang Wandian's soul.

Han Fei felt refreshed. He turned his head, only to see that there were still more than 200 points left before his soul power was completely restored!

Immediately, an invincible will emerged on Han Fei's body. His willpower was not affected by the time freeze. It twitched in the air and grabbed a weird blue light.

"Hiss..."

In Han Fei's heart, the old turtle asked in shock, "What technique is that? It can even grasp time?"

Chapter 1540: Shocking Five-Kill (2)

Chi la!

Han Fei's Time Blade cut Bai Yuhua's body in an instant, and Bai Yuhua's body aged at a visible speed.

His body and his brush both rotted!

Han Fei didn't know that the Hinayana Saber was so powerful!

There was only one move in the whole book, which was to draw the saber.

Although the combat skill said that anything could become a knife with this technique, Han Fei had never thought that it could even turn time into a knife...

Even when he tried to stop Bai Yuhua with his Invincible Will just now, he only wanted to draw a space crack. Who the f*ck knew that he had taken out a Time Blade by mistake?

Boom...

In the sky, another red crack appeared, and another Venerable died.

Han Fei hurriedly grabbed Bai Yuhua's soul with the Void Lines, but he discovered, to his surprise, that Bai Yuhua's soul had decayed, probably because of the power of time. His soul power was even weaker than that of a junior Venerable!

If he guessed right, he had only absorbed less than 500 points of soul power...

But even if he only absorbed 500 points of soul power, his soul power had been restored.

At this moment, Han Fei was truly a peak-level junior Venerable.

Han Fei felt refreshed. In an instant, he sensed signs of a breakthrough.

When the power of the soul and physique had reached the limit, if he couldn't continue to squeeze his potential, he could only make a breakthrough!

However, Han Fei felt that he still had room for growth and could continue to become stronger, so he directly suppressed this desire to make a breakthrough.

Chi la!

The mountain cat tore through the void.

The mountain cat was extremely angry. Who could have expected the battle to evolve so quickly?

Sure enough, the Bull Demon King failed to hold on for three seconds.

When the crack appeared in the sky again and the mountain cat even came burning his blood, he knew that at most one of them had died. There was still another one waiting for him to save...

However, when the mountain cat returned from the void, he happened to see that the Bull Demon King abandoned a rotten skeleton.

The mountain cat was stunned. "You're not dead?"

The mountain cat turned around, only to see Yu Menglong who had given up chasing Niu Dali and was running at full speed.

Looking at Han Fei again, the mountain cat discovered that although Han Fei was still a junior peak-level Venerable, his aura was already comparable to his own.

For a moment, the mountain cat couldn't have felt more awful. Did he see it right?

Han Fei shouted, "Kill them all! Kill them all!"

Then, under the shocked gaze of the mountain cat and Niu Dali, Han Fei turned into a golden light and rushed at Yu Menglong.

Although the mountain cat couldn't quite accept this fact, if the Bull Demon King wasn't dead, then who was?

The mountain cat immediately looked at the completely decayed feather-like creature. If that wasn't f*cking Bai Yuhua, who was it?

"Hiss!"

The mountain cat said in shock, "He killed Zhang Wandian and Bai Yuhua?"

Niu Dali was stunned too.

She knew that Han Fei was strong, but she didn't know that Han Fei was so strong. Not only did he kill an enemy one realm above him, but he had also jumped two realms to kill an enemy!

Niu Dali swallowed. "I think so!"

The mountain cat's face suddenly changed. "I'll intercept Yu Kang and Hai Liansheng, and you chase the Bull Demon King."

At this moment, the mountain cat was excited. In this battle, two advanced Venerables had died. Then, since he had joined in, they must kill at least two Venerables more.

Since Han Fei could kill two advanced Venerables, it was impossible for Yu Menglong to escape.

Therefore, as long as he stopped Yu Kang and Hai Liansheng, the five Venerables of the Black Blood City would all be annihilated.

At this moment, almost all the Venerables who were watching the battle, including the explorers, realized this problem. As long as the Black Blood City didn't send reinforcements, none of the three Venerables left in the Life-and-Death Gorge could survive!

This was the disadvantage of having combat power spanning three realms!

Most importantly, it was Spirit Merman who proposed the entry of the advanced Venerables. Seven Venerables had died in a day. Even the Black Blood City couldn't stand such a blow!

Instantly, Spirit Merman led the crowd to fly to the Life and Death Gorge and shouted at the same time, "We admit defeat in this battle. This battle is over."

Ma Youhun also flew out. "That's bulls * it. Does the Black Blood City intend to break the rules of the Life-and-Death Gorge? If you want to break the rules, don't blame me for causing another great war."

Bai Diao shouted, "Humph! Black Blood City, are you a sore loser? If you want to fight, I'll entertain you."

Qing Mu sneered. "It's been a long time since a large-scale group battle was launched. Let's see if the Black Blood City still has the confidence to launch a large-scale battle after losing seven Venerables."

Outside, the speed of the Half-Kings and peak-level Venerables was extremely fast.

In the blink of an eye, they collided.

Those below the peak level were still on their way. They were not so fast and needed time.

And this time was enough for Han Fei.

When he unleashed the combat power of an advanced Venerable, Han Fei knew that it wouldn't be easy for him to fight the Venerables from the Black Blood City next time. They could be tricked once, but not again, right?

Han Fei's original plan was... anyway, the Demon Beast Union still had the front line of the Forest of Terror!

When the time came, he would go to the Forest of Terror. In the end, if he really had no place to go, he would go to the Immortal City of the human race and take a tour there.

In the end, when no one fought with him, he could tentatively cross the so-called front line and secretly enter the territory of the Black Blood City to do something.

Of course, these were all Han Fei's previous thoughts.

But at this moment, Han Fei felt that he could actually spend some time making a breakthrough in the Demon Beast Union.

At that time, his strength would reach the peak of the intermediate Venerable.

With the trace of power of faith he had accumulated and the acceleration of time in Forge the Universe, it would only take two or three years for him to consolidate the realm of intermediate peak-level Venerables.

At this moment, the speed of Yu Menglong was naturally incomparable to Han Fei's. In only three seconds, Han Fei had caught up with him. After all, he didn't practice the Near at Hand Technique for nothing.

The moment Yu Menglong appeared in his sight, Han Fei immediately felt that there seemed to be a mist in front of his eyes, with a vague power that seemed to be trying to bewilder his consciousness.

However, with the Yin-Yang Divine Eyes, he could easily see Yu Menglong in the mist.

At that moment, Han Fei chased all the way, but Zhang Xuanyu, Xia Xiaochan, Le Renkuang, the Thug Academy, the Thousand Star City, the Age of Doom... All kinds of time and characters appeared around Han Fei.

Although Han Fei's will was firm and he had the Yin-Yang Divine Eyes to see through everything, he was still distracted by the so-called Great Dao of Soul Confusion.

Swish ~

Han Fei stomped extremely fast and surpassed Yu Menglong in an instant.

When the two were only a few hundred kilometers away, Han Fei issued an order in his heart, and the space a hundred kilometers long was directly shortened.

Yu Menglong couldn't have felt worse. He hurriedly triggered the stories and figures in Han Fei's memory and bombarded Han Fei's soul.

"All laws forbidden in this space..."

"Sacrificing Punch."

In terms of physique, strength, and technique, Yu Menglong was no match for Han Fei.

Under Han Fei's punch, his bones were crushed, and the Void Lines caught him.

At this moment, Han Fei cut apart more than a thousand points of soul power, dispersed them, and melted them into his limbs. Snowmourn appeared in his hand, and he nailed Yu Menglong with a sword, freezing him into an ice cube.

Seeing that Yu Menglong was still alive, Han Fei activated the Vast Ocean Navigator.

Then he extended his hand and extracted a void dozens of kilometers away.

The void saber twisted, and with a crack, another crack appeared in the sky.

After only five seconds, Spirit Merman and Ma Youyun had just started fighting, and Yu Menglong had already died.

Han Fei stored Yu Menglong's corpse and his shattered soul into Forge the Universe to absorb his soul later. Now, there were still two Venerables waiting to be harvested!

For Han Fei, it was both vitality and soul power.

By the time Niu Dali arrived, Han Fei was nowhere to be found. There were only traces of battle here, as well as some broken limbs.

It was needless to say that Han Fei had already killed Yu Menglong in the few seconds she tracked him down.

Niu Dali felt a chill down her spine. In her life, she had never felt the buffalo race could be so ferocious!

A peak-level junior Venerable killed an intermediate peak-level Venerable? Furthermore, it only took a few minutes. This had completely subverted her world view.

...

Ma Qilin and Fat Seven felt their scalps tingle. They were shocked.

How long had the battle been going on? Three Venerables had already died?

If it weren't for someone saying it were the people from the Black Blood City who died, Ma Qilin and Fat Seven would have already run away.

This kind of battle that spanned three realms was scary enough in itself.

The plan Han Fei had mentioned about leading the enemies to him hadn't been carried out yet... But three Venerables had already died?

Suddenly, thunder rumbled in the sky. "Qilin, Fat Seven, hold off Yu Kang and Lian Haisheng. The other three Venerables of the Black Blood City have died. These two people will be dead for sure."

"Hiss!"

Hearing his father's order, Ma Qilin's blood surged, and when he stomped, huge waves surged.

"Oha! Oha! Oha!"

The donkey roared... Oh no, the Kylin roared, and the seawater flowed back.

Fat Seven was even more ferocious. Tens of thousands of big spikes erupted from his body, sealing the void. Even if he had to burn his essence blood, he had to keep the two of them.

Yu Kang and Hai Liansheng were already fighting frantically.

Seeing that Ma Qilin and Fat Seven refused to let them go, the two immediately exchanged a glance. Yu Kang suddenly rushed at the two of them, his body expanded and his strength collapsed.

Ma Qilin exclaimed, "Is he going to blow himself up?"

Fat Seven roared, "Roar... Even if he detonates himself, we can't let them go."

The two looked at each other, and together, they charged at Yu Kang.

Rumble...

Generally speaking, it wasn't difficult to escape from an enemy in the same realm.

Under the entanglement of Ma Qilin and Fat Seven, Yu Kang detonated himself, and Hai Liansheng grabbed a fish scale and escaped.

However, as soon as the two of them traveled tens of thousands of kilometers, they saw the void torn open and the mountain cat had already arrived.

The mountain cat was about to take action when he felt the void tremble. A figure was rushing over.

In the next moment, the void tore, and Han Fei had already appeared here.

The mountain cat couldn't help grinning. "You're really fast... This is your first battle, and I'll leave these two Venerables to you. However, leave their bodies for me. I really want to eat fish."

Han Fei grinned.. "Okay."
