

GOF 1571

Chapter 1571: Dragon Swallowing Technique

Through the conversation with Golden Boy, Han Fei roughly confirmed the strength of Golden Boy. He should be the fake king of the human race. His words "If I die, the Immortal City will be finished" were enough to show his identity.

As for Golden Boy, he had already confirmed that Han Fei was on the path of becoming a king. Han Fei didn't know how he figured it out.

However, Golden Boy was right. Since he became an Explorer, he had been actually walking on the path of becoming a king, especially after he returned to the Yin-Yang World.

Besides, there was another reason: the human beings had struggled for too long in the cage. Now, they needed someone to break it!

Han Fei's appearance did give Golden Boy hope.

The strong had their own resolve. For example, Golden Boy knew that the dragon bones were good, but he still gave them to Han Fei.

Han Fei nodded and asked, "Between you and the Black Evil Conch King, who is stronger?"

Golden Boy said calmly, "If we fight to the death, I'll die, and he'll be seriously injured."

Hearing this, Han Fei nodded slightly. This answer was enough.

Hearing Han Fei's question, Golden Boy couldn't help asking, "There are so many people playing with you. Killing ten Venerables isn't enough, right?"

Han Fei smiled and said, "We'll see after the battle. If it's not enough, I'll make up for it."

Golden Boy nodded slightly. "Okay!"

After that, Golden Boy turned into a cloud of black mist and disappeared.

Han Fei didn't expect to meet Golden Boy on the island in such a way. After the meeting, Han Fei immediately went back to the grassland.

Half a day had passed, and he had used up the three opportunities of the Vast Ocean Navigator.

However, Han Fei couldn't wait. After all, the Nine Palace Luck Ruler could be used only once a day.

This meant that every day, his luck was different. It wasn't easy for him to establish some relationship with the mummy. No matter what, he had to get the Dragon Swallowing Technique... He couldn't waste today's luck!

Could he unveil the secret of the cage for the time being? He could tend to it later... However, if he got the Dragon Swallowing Technique, his speed of acquiring the Chaotic Qi would definitely increase greatly!

Two hours passed.

Han Fei stepped into the grassland again. As soon as he entered the grassland, he shouted crazily, "Senior... Senior, I'm back. Senior, I've got the dragon bones. Se..."

Buzz!

Han Fei turned his head and found that the deserted tomb had already appeared.

Now, when Han Fei saw the deserted tomb, he no longer felt a bit frightened...

As long as he used the information of the dragon race or a large amount of food to lure the guy, he would not refuse him!

Sure enough, after Han Fei blinked a few times, he had already appeared in the desolate tomb.

The dry corpse was still chewing. There was only one leg of the King Crab left, and even its shell was gone.

So... this mummy even ate shells? Wouldn't his throat get hurt?

Crunch!

The mummy was chewing and looking at Han Fei.

Because of the additional piece of azure dragon flesh, the mummy's body recovered a lot. Now he looked like a little old man. His eyes gradually became rounder.

Han Fei was overjoyed. "Senior, you wouldn't believe it even if I told you. Above the blood pool, the small world collapsed, but fortunately, there were a few pieces left. I took the risk of being shredded by the void turbulence and rushed in, forcibly getting 52 dragon bones for you."

Not only did Han Fei not contribute the dragon bones he found, but he also deducted a dozen of the dragon bones that Golden Boy gave him.

More importantly, he already knew the secret of the dragon bones. If he handed in one of the dragon bones, he would lose a wisp of chaos energy.

Look at these 50 dragon bones, that's 50 wisps of Chaotic Qi!

If he only had a little power of the Great Dao, he wouldn't be able to save fifty wisps of Chaotic Qi in ten years. If he didn't have enough power of the Great Dao, it would take him a hundred years to save fifty wisps of Chaotic Qi!

Therefore, Han Fei felt that he was already generous enough. He had already given him a hundred years of Chaotic Qi!

"Giggle... good..."

The mummy casually threw away half of the crab leg.

In a step, he came to Han Fei.

He casually crushed the Sun-Moon Shell, and a bunch of dragon bones appeared. But in the dry corpse's hand, the huge dragon bones shrank one after another, until they became short bones several meters long.

"Phew ~"

This time, Han Fei saw the dry corpse open his mouth full of sharp teeth and suck, and the Chaotic Qi, accompanied by strange red energy, drilled into his body.

"Hu... Hu..."

After absorbing more than 20 dragon bones in a row, cracking sounds were heard from the mummy's body.

The voice was very familiar to Han Fei... It was the sound of bones reconnecting!

This meant that before this, many of the bones in this corpse were broken. And now, he was repairing the damage to his body.

At this moment, the corpse looked more and more like a decaying old man...

Han Fei thought to himself, How should I mention it?

Han Fei thought to himself, Anyway, this mummy is delirious. Will there be a problem if I ask him for the technique directly?

Thinking of the "Greatly Auspicious" divination result, Han Fei said, "Senior, I'm going to leave soon. There are a large number of sea demons in the Black Blood City who protect the Azure Dragon and bully us humans. I really can't stand it. Although I'm not strong enough, I'll definitely do my best to hunt the Azure Dragon for you... By the way, Senior, I found that cultivating the Dragon Slaying Technique requires a lot of energy. Your Dragon Swallowing Technique is really extraordinary! Well, can you teach me, Senior?"

"Giggle ~"

The dry corpse had already swallowed nearly 30 dragon bones. When he heard Han Fei ask for the Dragon Swallowing Technique, he raised his head and looked at Han Fei for a long time.

Han Fei was a bit scared and thought to himself, Shouldn't I just ask for this technique?

"Giggle..."

The mummy suddenly grabbed Han Fei's head...

In fact, if it weren't for the fact that Han Fei only had half of his body here and the other half of it was hiding in Forge the Universe, he definitely wouldn't let the mummy grab his head.

In the next moment, Han Fei felt that a great technique was transmitted into his mind again.

Dragon Swallowing Technique (Unrated)

Introduction: The Dragon Swallowing Technique is a great swallowing technique that can directly absorb the origin energy of dragons. This is a Primordial Art, which is only effective on dragons or creatures with

dragon bloodline. It can absorb dragon energy, intercept dragon's luck, solidify origin, and attract dragon power to temper the body.

Deduced Art: Not available

Effect: It can swallow dragon power, dragon energy, and dragon luck. Dragon energy can refine the body, dragon power can boost the physique, and dragon luck can change luck.

Shortcoming: Once discovered by the dragons, they will fight the user to the death.

Han Fei's eyes glittered when he saw the word "Unrated".

Han Fei was afraid that it was a Sea Establishment-level technique too... Then, it would be useless to him. After all, he couldn't practice it yet.

And it meant that he could practice it in any realm. Besides, this technique seemed to be very valuable. At least, it was very useful for his current situation.

Han Fei was secretly delighted. He had finally got the Dragon Swallowing Technique! It seemed that he didn't contribute so many dragon bones for nothing.

On this island, Han Fei actually had two things to unlock: one was whether or not something was sealed or suppressed under this grassland.

Could it be that this old guy was the only one in the deserted tomb? If that was the case, the Vast Ocean Navigator pointed here just to let him see this old guy? That was unlikely!

However, Han Fei didn't dare to ask this question. What if the Wall of Death happened to be sealing the mummy and this grassland?

Although this didn't make sense... If someone wanted to seal this dry corpse, he could just seal it. Why did he have to seal such a huge sea area?

But who knows?

What if the person who set the seal thought it necessary to use this sea area to seal this old guy? If he asked now, wouldn't it remind this old guy that he was indeed sealed here...

"Giggle ~"

At this moment, Han Fei had just accepted a great technique. Before he had the time to think, he saw that the old guy only had five dragon bones left in his hand...

The dry corpse began to breathe heavily.

His body was much taller and sturdier than before. He had changed from a skinny old man into a tall and straight skinny old man.

Han Fei also saw that although the old man's eyes were still a little dry, they could already move.

Han Fei thought to himself, Did I feed him too much?

He could almost be sure that if he chopped off another dragon claw and gave it to this corpse, he might be able to restore his former appearance, and maybe even restore some of his consciousness.

Roar!

When the dry corpse swallowed the last dragon bone, Han Fei suddenly discovered that he was already standing at the tomb, not outside of it, but inside.

The dry corpse clasped the opening of the tomb with both hands, where an invisible force blocked his way.

Roar!

Ka ka ka ~

Han Fei saw cracks appear in the void of the tomb and slowly spread.

When the cracks became denser and larger, Han Fei saw that the mummy's skin was dry again.

Han Fei thought to himself, I seem to have done something wrong!

Crack!

As if an invisible mirror shattered, the mummy disappeared in the next moment.

Han Fei's heart did a flip and he hurried out of the tomb, only to see that dozens of meters away, the mummy's body that had just straightened up was hunched again.

In his heart, the old turtle reminded him, "He was delirious. Fortunately, he consumed too much power to break the barrier of the tomb... However, from today on, the tomb can no longer trap him."

Buzz!

The old turtle had just spoken when the mummy suddenly turned around and looked at Han Fei.

Han Fei felt a chill down his spine. Old turtle, can't you wait a moment? Why are you nagging in someone else's territory?

The dry corpse seemed to remember Han Fei. After a moment of confusion, he asked, "Who am I?"

Han Fei was shocked. Has the old guy become fluent in speech?

Han Fei hurriedly said, "Senior, you are a Dragon Slayer!"

The dry corpse trembled. "Yes, slay the dragon, slay the dragon... Where is the dragon?"

Han Fei swallowed and immediately said, "The dragon was protected by the Black Blood City. The Black Blood City wants to eliminate the human race."

The dry corpse roared, "How dare they..."

Then, Han Fei saw that the man was madly rushing to the edge of the grassland.

Boom!

In an instant, from the arrays on the grassland, purple chains suddenly emerged.

These chains immediately clasped the corpse.

Immediately afterward, there were countless purple lightning strikes.

In a moment, infinite purple lightning rumbled out and swept across this world indiscriminately.

Although these lightning bolts were all directed at the mummy, there were occasionally electric arcs hitting Han Fei... With just one electric arc, Han Fei felt half of his body go numb.

As if he couldn't be killed, the dry corpse struggled and shouted, "You are not dead. I know you are not dead... You want to seal me here? In your dreams..."

Bang!

Han Fei saw that the corpse was struggling and the purple chains were collapsing one after another. But suddenly, a purple line hit Han Fei.

In an instant, Han Fei's body collapsed.

"Twin in one."

Buzz!

Han Fei suddenly disappeared from the grassland.

When Han Fei came back to his senses, he was shocked. He boarded the island without hesitation and flew to the grassland again.

The old turtle couldn't help but ask, "Why are you still going back there when you're already out?"

Han Fei ignored the impact of the void cracks and accelerated crazily, saying casually, "Who did he say is not dead? It must be about the secret of the cage... I have to go there. This is not crazy talk... Let's see what else he can say...!"

Chapter 1572: Secret of the Mummy

When he came back, Han Fei was also thinking, What level of power was that just now? He was only struck by a bolt of lightning, but his white mist body was blasted out.

Han Fei couldn't be sure of the level of the lightning. However, the power of the purple lightning definitely exceeded the combat power of the so-called Half-King.

After all, Han Fei had borrowed the combat power of a Half-King, but it was far less powerful and terrifying than the purple lightning.

Han Fei thought to himself, F*ck, isn't this Greatly Ominous? Fortunately, I was cautious. Even if it showed "Greatly Auspicious", I came in with my white-mist body to check it out. So, even if my white-mist body was shattered, it wouldn't kill me.

Ten thousand kilometers was not long at all for Han Fei. However, when Han Fei finally came to the periphery of the grassland, he was already torn all over by the void cracks. His ultra-quality battle suit had been completely shattered.

On the grassland, it looked very peaceful from afar as if nothing had happened.

Han Fei couldn't help but wonder, Is it over so soon? Just now, there was still a shocking purple lightning, but now there was nothing left? Or is it over?

Of course, when he really set foot on the grassland, Han Fei dared not be careless.

After all, he had lost 200 years of vitality just now. Therefore, Han Fei activated his white-mist body again.

In order to prevent any accidents, Han Fei set up Coiled Turtle Arrays one after another and finally condensed a super-large Coiled Turtle Array.

In addition to the Great Coiled Turtle Array, Han Fei also set up an Eight Trigram Life Locking Array to lock his life.

After doing all this, Han Fei stepped into the grassland again.

However, as soon as he stepped on the grassland, he saw purple lightning surging all over the sky.

"Hiss... so only by entering can I see it?"

At this moment, the dry corpse-like old man was holding a blade and attacking the purple lightning horizontally. Han Fei didn't know where the blade came from, but when he grabbed it casually, a yellow knife light burst out of his hand.

The knife light easily cut the purple lightning.

At this moment, the place Han Fei entered was still at the edge, so at this moment, no purple lightning could hit him.

The corpse was behaving crazily and roared, "Do you think you can trap me? I will return and slaughter you one day."

Han Fei was very sure that this old guy was crazy. However, there seemed to be a great secret hidden in his crazy words.

In the sky above the grassland, purple lightning was surging. The old guy was struck by several lightning strikes, but he seemed to be fine.

Han Fei frowned. Is this old guy so strong? Even my white mist can't withstand this purple lightning. But this old guy seems to be at ease.

What level was the power of the purple lightning? It was at least in the Half-King realm. However, even such purple lightning could be shattered by a single slash from the mummy.

Sometimes, when a blade swept towards him, Han Fei had to flash quickly. If he didn't dodge it, he would definitely be killed.

Just now, the mummy must have consumed a lot of energy when it opened the tomb.

Now, the lightning didn't seem to weaken at all.

The two parties were locked in a stalemate for a long time, and the old man seemed to be a little weak and withered again.

Obviously, he failed to break the seal on the grassland.

After a long time, the purple lightning was obviously weakened, but the old guy seemed unable to resist it.

Han Fei had been watching by the side, wondering if he should help this dry corpse-like old guy. If he just let this old guy be sealed, it was unlikely that he would continue to gain benefits!

Frowning, Han Fei immediately threw a Sun-Moon Shell over and shouted, "Senior, tell me how to break this seal! Also... who is still alive? What secrets are under this grassland... I'll do my best to get you out..."

As soon as the dry corpse saw the Sun-Moon Shell thrown at him, he instantly appeared in front of the Sun-Moon Shell.

Crack!

Ten dragon bones appeared, and the mummy took a deep breath, swallowing more than ten wisps of chaotic energy and red unknown power. At that moment, the mummy perked up and shouted again, "Cunning evil dragon, when I get out, I will tear you into pieces."

The mummy used his hand as a knife and kept slashing. As he slashed the purple lightning, he shouted, "Evil dragon, you killed hundreds of millions of human beings. When I go out, I will use all my strength to wipe out your dragon race..."

"Huh... Dragon race? Dragon race slaughtered... hundreds of millions of human beings? Is that why this person hates the dragon race so much and wants to kill dragons?"

After another hundred seconds, Han Fei felt that the dry corpse couldn't hold on anymore, so he shouted again, "Senior, I'll help you kill the dragon, but you have to tell me something. What secrets are there underground in this grassland? What secrets are there in this cage?"

As if knowing that he couldn't fight anymore, the corpse turned to look at Han Fei.

With this look, Han Fei suddenly felt that the entire world was still.

Han Fei felt that the picture in front of his eyes changed, and he appeared in a strange world he had never seen before.

At first, Han Fei was high up in the sky, but now the scene was changing. In the territory of hundreds of thousands of kilometers, countless humans were busy.

Countless trivial pictures flashed by.

However, Han Fei saw a hundred thousand strong men practicing in a huge square. These people were bare-chested, brawny, and sweating profusely. Their chests and backs had identical dragon patterns.

In Han Fei's perception, since they liked dragon patterns so much, dragons must be their faith and totem!

In fact, it was true, because Han Fei saw a grand sacrifice.

At the ceremony, the drums were like thunder, and countless people were praying... shouting and offering sacrifices to a huge azure dragon sculpture.

The pictures flashed again...

Han Fei passed through various towns and cities.

The layout of these places was somewhat similar to the Yin-Yang World. The streets were bustling with people.

However, this didn't seem to be the point, because... Han Fei saw a zigzagging city floating in the sky.

In an instant, a wave of gloominess came over.

Han Fei raised his head again, only to see an azure dragon tens of thousands of meters long tearing the sky and earth with its claws, spewing out gales and sword rain, doing its best to slaughter the city below.

There was more than one such azure dragon.

When Han Fei saw this scene, he was a little frightened.

"Wait, they like you so much and even offer sacrifices to you? Why are you slaughtering them?"

The azure dragons killed countless humans as they opened and closed their mouths. The distant mountains collapsed, and the city was filled with smoke.

Above the Hanging Sky City was the Heavenly Palace. It was in pieces and smoke was everywhere.

At this moment, Han Fei realized that this was one of the Thirty-Six Immortal Palaces.

The winding sky-hanging city just now was like a dragon body, but Han Fei hadn't seen the part of the dragon head. But this big city above the nine heavens, when it tilted down, was clearly a dragon head.

"Huh... Dragon-Subduing World?"

In Han Fei's mind, he immediately thought of the Dragon-Subduing World that Old Han had once mentioned.

However, it seemed to be different from the Dragon-Subduing World that Old Han mentioned. Old Han said that the Dragon-Subduing World represented and believed in the legendary ancient dragons, but in fact, dragons had never appeared.

However, it was clearly not right now!

If this wasn't the Dragon-Subduing World, where was it?

In the entire Thirty-Six Mystic Worlds, only they had contact with creatures like dragons, even if it was just as a spiritual belief...

“Offer sacrifices?”

“Hiss ~”

Han Fei suddenly thought of something. How did the old turtle come back then? He summoned the old turtle when he cultivated the Majestic Mystic Spell to the extreme.

At that time, the old turtle was so intimidating as if he could kill him at any time.

The people of the Dragon-Subduing World had probably encountered something similar...

However, they were not as lucky as him.

The dragons that should have disappeared from human sight reappeared for some reason... Besides, these azure dragons were not friendly. They were slaughtering the people of the Dragon-Subduing World!

Immediately afterward, the picture turned into all kinds of chasing battles.

The battle between humans and dragons began...

From this picture, Han Fei saw a young man walking out of the collapsed Heavenly Palace. The young man visited everyone and asked for help, only to be repeatedly refused.

After all, the battle between the humans and the dragon race didn't affect the other Heavenly Palaces.

This young strong master might be a king. Although he didn't receive much help, he didn't want to be outdone. He led a number of strong masters to start a dragon slaying career.

Han Fei even followed the young man to a ruin.

Han Fei saw the fish-skin books in the young man's hand... There were Dragon Slaying Technique, Mystic Yellow Scripture, and the Dragon Swallowing Technique, etc.

Seeing this, Han Fei realized that these things were not from this person, but from some kind of ruin.

The last thing Han Fei saw was the young man leading human powerhouses to chase an azure dragon to a desolate sea area.

They discovered the Wall of Death...

“Wait...”

Han Fei was shocked!

The Wall of Death had existed before these people and the azure dragon came?

Yes.

In theory, the Dragon-Slaying Heaven and the Yin-Yang World were established at the same time. If this person was from the Dragon-Subduing World, then the era he was in was about the Age of Doom.

In fact, Han Fei knew that although the Thirty-Six Heavenly Palaces were once allies, things had more or less changed.

For example, the Yin-Yang World and the Water-Wood World had moved away; for example, there must be something wrong with the Golden Crow World. Otherwise, why would the Fire Tree descend on the Water-Wood World? And for example, the king of the Dragon-Subduing World went mad...

Also, his mother clearly told him that the Heavenly Palaces like Supreme-Clearness Palace and Infinity World were enemies.

For a moment, Han Fei felt that his head was swelling. The sea demons and the dragon race destroyed all the races in the world. Why are you fighting each other?

Although Han Fei had thought a lot, he couldn't change history.

At this moment, the young man's story didn't seem to be over yet...

The young man and the azure dragon were thrown into the Wall of Death, both heavily wounded.

In the end, the young man led his subordinates to dismember the azure dragon. He performed a certain mystic grand technique and forcibly swallowed the dragon's body, which looked like a snake swallowing an Elephant. Then, the young man placed the dragon head to the south and the dragon tail to the north, so that the dragon's body would be separated forever.

By doing so, the young man probably meant that even if I died, I won't let you off. I will make sure that your body would be separated forever and could never ever be reconnected.

Han Fei thought to himself, This old guy is really ruthless!

However, the plot was reversed...

While the young man was dying, a wisp of the dragon's soul was still alive. While the young man was dying, he launched a sneak attack and killed the young man's subordinate and suppressed him under the grassland.

The young man burst into fury, regretting that he failed to kill the azure dragon. Therefore, he used all his soul power and strength to seriously injure the azure dragon's soul.

Unfortunately, this still failed to completely kill the azure dragon...

The soul of the azure dragon escaped out of the cage.

The furious young man died with his eyes wide open... He set up a weird altar that attracted infinite darkness.

In the end, he, as well as his subordinates who had just died, all turned into undead creatures.

Upon seeing this, Han Fei felt a chill down his spine. So, this mummy is already an undead creature? But hell, it didn't look like an undead creature at all!

Chapter 1573: Conjecture about the Undead

This might be the dry corpse's story...

From the beginning to the end, Han Fei didn't even know his name, nor did anyone write it down. After all, there was no sound in the picture, so he probably used voice transmission. Therefore, Han Fei didn't know.

However, Han Fei could tell that this corpse must be the owner of the Dragon-Subduing World, a real king.

After all, the Dragon Slaying Technique was in the Sea Establishment realm, which undoubtedly proved his identity.

When Han Fei came back to himself, he found that the lightning arcs around him had weakened.

Although this was an array set up by the dragons, which was of a higher level, no matter how powerful the array was, it still needed strength to maintain it.

This cage could only constantly absorb power from outside and deprive the mummy of the chance to obtain energy. Only in this way could it restrain the mummy.

And the dry corpse also had special means. He refined the deserted tomb into his own and made it his home although he was imprisoned at home and had to break the seal to leave home!

However, Han Fei's appearance broke the balance.

After all, Han Fei had just fed the corpse a lot of Chaotic Qi.

At least, in Han Fei's view, it was a lot of Chaotic Qi. Besides, Han Fei had just fed him a piece of real dragon meat.

Han Fei's help seemed to have given the mummy the power to break the rules. Therefore, he had just broken free from the restraints of the deserted tomb and walked to the grassland...

At this moment, the lightning arc had weakened, but the mummy didn't have much power left either.

Buzz!

The dry corpse seemed to be unable to persist any longer. His voice became hoarse and intermittent again...

"One day, I... will... return..."

At this moment, Han Fei naturally didn't intend to destroy the arrays on the grassland. After all, no matter how weak the lightning power was, it was at least in the Sea Establishment realm. If he went up, he would just lose his head.

Besides, Han Fei wasn't sure what this old guy would do after he released him. Maybe he would fight his way into the Black Blood City. Of course, he was more concerned about killing dragons. He would definitely search the world for the Azure Dragon.

At that time, if he broke free from the cage or destroyed the Wall of Death, this was something Han Fei couldn't accept.

Therefore, Han Fei simply shouted at the mummy who was about to enter the tomb, "Senior, I'll definitely try my best... Find the whereabouts of the azure dragon and try to kill it as soon as possible..."

Hearing Han Fei's words, the dry corpse reached out and pushed Han Fei out of the grassland, and he fell back into the crack of the deserted tomb.

Leaving the grassland, the old turtle couldn't help saying, "You actually successfully deceived him. Just now, you seemed to be in a strange state. What happened?"

Han Fei shook his head. "It's just some stories about this person. It happened after the Age of Doom. You won't know even if I tell you. I have something important to ask you. Let's go back to the Fire Stone Island first."

Han Fei didn't want to stay here for long. Although the information he learned today was shocking enough, it was just the grudge between the mummy and the dragon race.

Furthermore, this happened after the Age of Doom.

At least, Han Fei knew that the existence of the Wall of Death was not because of the mummy, nor was it because of the azure dragon. He still didn't find out why the Wall of Death existed from here.

However, even so, the Vast Ocean Navigator was clearly pointing here.

Han Fei didn't think that the Vast Ocean Navigator made a mistake. The young man and the azure dragon must choose this grassland for a reason.

The young man chose to die here after slaying the dragon...

Unfortunately, many unexpected things happened, and he didn't want to die.

So he used some method to cause the death energy to descend, cultivated an undead technique and became an undead creature...

In Han Fei's memory, death energy should only be produced in endless wars, right? However, where did death energy come from this grassland? After all, it was not Death Valley here!

Another point was that since this corpse had transformed into an undead creature, his former subordinates should have also become undead creatures, right?

...

Fire Stone Island.

The moment Han Fei returned to his mansion with his black-mist body, he didn't immediately practice the Dragon Swallowing Technique but asked, "Old Yuan, tell me the truth. If a person cultivates an undead technique... how long can he live after becoming an undead creature?"

At present, Han Fei's understanding of lifespan was only limited to humans. Most Venerables' life would be declining after they were 5,000 years old. Since their life started declining, their strength would plummet... It could be said that every battle would accelerate their deaths. Even if Han Fei embarked on the path of the Heaven Enlightenment, it would only increase his lifespan to 10,000 years.

Perhaps only special races like the Water Immortal could live for a hundred thousand years.

The old turtle couldn't help asking, "Why do you suddenly ask this?"

Han Fei said, "The dry corpse didn't come to this island until he came into the Wall of Death. It was he who summoned a large amount of death energy and transformed him and his subordinates into undead creatures. What do you think?"

Han Fei's meaning was very clear. Golden Boy had given him so many dragon bones. Could it be that these dragon bones were really useless to him? Or, he knew that the grassland was suppressed by an array, so he didn't dare to enter that grassland at all?

Even if Golden Boy was a fake king, he wasn't as powerful as the mummy who could resist the purple lightning. If the mummy didn't save him, he would be killed the moment he came to the grassland.

Han Fei was very suspicious that Golden Boy and Jade Girl were both the mummy's subordinates. Therefore, they stayed on this island.

"Wait... you mean that person is an undead creature?"

The old turtle immediately said, "Impossible! It's impossible for me not to know if a person is an undead creature or not. That person can't be an undead creature. If he is an undead creature, why does he need to eat? Undead creatures rely on death energy to cultivate. Theoretically speaking, the more deaths there are, the stronger they will be. This is why the Immortal City and the Demon Beast Union broke with each other. Because undead creatures, what they like to see most... is death. However, they also have consciousness and know that they were originally humans, so they don't want humans to be wiped out."

Han Fei was stunned for a long time. "He is not an undead creature? I..."

Wait...

Han Fei saw... the corpse summoning death energy!

Han Fei also saw... the dry corpse trying to transform into an undead creature!

However, what he saw was only an image, a fragmentary memory. He didn't see everything... Now that the old turtle said this, Han Fei was a little unsure.

Han Fei turned his head and asked again, "Old Yuan, how long can a king live? Can a king live a hundred thousand years?"

The old turtle thought for a moment and said, "A hundred thousand years? I felt that I could live more than a million years after I reached the Sea Establishment. A hundred thousand years is nothing."

Han Fei: "..."

Han Fei cleared his mind and asked again, "Then let's not talk about the corpse now. Let's talk about Golden Boy and Jade Girl... You said that Golden Boy is at most a fake king, right? Do you think they can live tens of thousands of years? Human beings can't."

The old turtle said leisurely, "What if I tell you that undead creatures have no lifespan at all?"

“No lifespan?”

The old turtle chuckled. “Think about it... They are dead creatures in the first place. As long as there is death energy, they can survive and grow... When there is enough death energy, they will grow. When there is not enough death energy, they will weaken. Or, when there is not enough death energy, undead creatures can swallow each other. Therefore, theoretically speaking, the more they swallow, the stronger they will be. Of course, there must be a continuous supply of death energy... And when they have no death energy, their souls will be completely gone after they die.”

Han Fei was dumbfounded. “Is it so horrible? They have no lifespan but only life and death?”

The old turtle snorted. “Yes. Generally speaking, undead creatures are incompatible with each other. They will try to swallow each other and make themselves grow. You humans are special because living people are together with dead people, and you have a common enemy. If the undead don’t fight, living people will die too. In the end, everyone will become undead creatures and try to kill each other, which will be meaningless...”

“Gulp ~”

Han Fei swallowed. “So, Golden Boy and Jade Girl are probably left behind by the corpse?”

The Immortal City had enough conditions to supply the undead. There were battles every day and every year. Wasn’t that enough?

However, the old turtle suddenly said, “I don’t care about that. Whether he was left behind by the dry corpse or not, they are still human beings. Although he gave you the dragon bones, you gave them all to that dry corpse, which was to help them. Now, you can let the dry corpse out, as long as you want...”

Han Fei shook his head. “No.”

The old turtle said, “I know you don’t want to. Based on the situation of the corpse, although he is not an undead creature, he is not a normal king! With his conditions, if he doesn’t become an undead creature, he should have died long ago!”

Slap!

Han Fei slapped his thigh. “That’s right! He should have died a long time ago... But look at him. He can eat, drink, and fight. How does he look like he’s going to die?”

The old turtle said leisurely, “It’s possible if he has been sleeping. He just wakes up in need and seals himself in his tomb most of the time. With the qualities of a king, he can indeed survive. If he can escape from here, he can possess a random person, or reincarnate and cultivate again, and still have a chance to rise again.”

Han Fei frowned. “Doesn’t that mean a king is immortal?”

The old turtle sneered. “Who can be immortal? There are limits. The limit of reincarnation is usually only three times. As I told you, most people can’t achieve it the second time and can only reincarnate once.”

Han Fei shrugged. That’s true! But this is still too unbelievable! If he cultivated to the king level, then he could reincarnate and become a king again. And it was very likely that he could go further.

Confirming the problem about the undead creature's lifespan, Han Fei focused his attention on the azure dragon. Obviously, the azure dragon had run away.

Since he had run away, Han Fei had to suspect something else. Was the dragon corpse in Forge the Universe the one the mummy had been chasing?

Chapter 1574: Ninth Heavenly Master, Han Fei

Han Fei had to think about it.

Judging from the time, it was after his mother caught the dragon and made it guard the Heavenly Palace, namely after the Heavenly Palace was moved here...

Wasn't it too much of a coincidence?

Even the old turtle, the emperor of the Age of Gods, had never seen a dragon before. Old Han had also said that dragons were just the totem of the Dragon-Subduing World.

However, it just so happened that in this cage, there was a battle between humans and dragons, and the dragon was still alive...

He remembered that his mother once said, "Back then, this dragon traveled through the void and picked up treasures in the void. As it happened, it encountered the Heavenly Dao Dharma Eye and was almost killed. If it weren't for my help, it would have died."

From a different perspective, the azure dragon tried to fly through the Great Void to escape, only to encounter the Heavenly Dao Dharma Eye. Already seriously injured, it was almost killed, but his mother saved it.

However, his mother saved it with a purpose.

She wanted it to guard the Origin Water. That was why the legend about the dragon race appeared. In fact, there was only this one dragon from the very beginning.

Han Fei was shocked by his idea!

If that was true, then this ancient azure dragon corpse might be the one the mummy was chasing.

This azure dragon had destroyed the Dragon-Subduing World and committed heinous crimes. If his guess was correct, it was impossible for him to return its body to it easily. Of course, however, there was no absolute...

However, the Dragon-Subduing World used to worship dragons as their totem. Why was it that when a true dragon appeared, they became enemies? Han Fei didn't know the reason.

Han Fei thought for a moment. Maybe he should turn to Golden Boy and Jade Girl for answers to some questions.

...

In Forge the Universe, Han Fei recovered his vitality but didn't start to learn the Dragon Swallowing Technique.

Han Fei was still waiting for the reaction of the front line.

Now, Han Fei wasn't worried at all... the Black Blood City would come for revenge, and he didn't believe that the Black Evil Conch King would come in person to kill him.

The Black Evil Conch King was a cautious person.

Back then, the sea demon sage realm was definitely not created overnight. It had probably been set up for a hundred years.

If it hadn't been seen through by Han Fei in advance, the Black Evil Conch King wouldn't have attacked the Scattered Stars Island immediately. Even if he was to fight, he intended to fight when he was well prepared...

Therefore, the Black Evil Conch King was a smart conch.

If Han Fei appeared in the Immortal City, he would definitely consider: Since Han Fei is here, will others come too? Since Han Fei is here, why does he kill sea demon Venerables with such a high profile?

What was Han Fei's purpose? Obviously, it was to draw him over...

With these potential factors, Han Fei was sure that the Black Evil Conch King wouldn't come, at least not now.

Although the Black Evil Conch King wouldn't come, Han Fei estimated that he would send someone to take a look.

After all, it was impossible that they would mobilize a group of people to strengthen the defense line just because a random person claimed to be Han Fei.

The next day.

Han Fei was repairing the foundation of some junior explorers when Ye Qian appeared beside Han Fei with a swish.

Ye Qian said, "Someone from the Black Blood City is here and wants to see you."

"Oh?"

Han Fei smiled. "Everyone is free to travel on the island, but as I said before, you are not allowed to leave the island without my permission."

A moment later.

On the fourth island, Han Fei heard someone shouting, "Where is Han Fei? Come out and meet me."

When Han Fei saw the person, he immediately sneered. This was a person he had met once, Cao Xuan.

As a newcomer to the Immortal City, all of Han Fei's current actions were watched by those strong masters. Everyone wanted to see what waves he could cause.

Buzz!

Han Fei appeared in the sea, facing Cao Xuan, and said leisurely, "You're just a stray dog. You even sacrificed your cultivation to escape from me. Who gave you the courage to confront me today?"

Cao Xuan was about to continue yelling, when he suddenly saw Han Fei's face. His face changed slightly. It was really this guy!

Yesterday, two Venerables died in a row, and the Black Evil Conch King was furious.

In recent years, nothing went well.

In just two years, nine Venerables from the Black Blood City had died in the cage. This blow was too heavy. After all... there weren't many Venerables in the entire Black Blood City!

Cao Xuan: "It's really you?"

Gan Feng and the other human Venerables were looking at the field quietly. They saw that Cao Xuan didn't seem to be lying.

Cao Xuan said, "My king asked me to tell you that you and everyone in the Immortal City, prepare to face my king's fury."

Han Fei tilted his head and smiled. "Anything else? Why didn't he come to tell me himself?"

Cao Xuan snorted. "You're not qualified to meet my king!"

"Hahaha... Really? I remember I killed many of his projections, right? So those were not his projections but Iron-Head Fish's?"

On the side of the Immortal City, many people were shocked to hear that. They had always known that Han Fei had killed a Half-King, but it was said by Han Fei himself... Because Han Fei could completely crush Chen Xiang, they chose to believe him.

But now it seemed that this matter was true!

Han Fei killed the projections of the Black Conch King? Even if they were only projections, they were the Black Evil Conch King's projections!

For a moment, many people looked at Han Fei in a different way. It seemed that this guy's strength was even greater than what he said!

Cao Xuan's face turned green and black. This Han Fei was as arrogant as ever. However, it was this guy who destroyed the big plan of the Black Blood City. They must kill this guy!

However, Cao Xuan knew why he was here. He was here to confirm Han Fei's identity, not to challenge him. Therefore, facing Han Fei's mockery, he just sneered.

Cao Xuan shouted, "People from the Immortal City, our king has ordered you to hand over Han Fei within three days. Otherwise, the Black Blood City and the Immortal City will start a full-scale war."

Gan Feng replied indifferently, "Go back and tell the Black Evil Conch King that human beings are never afraid of fighting. If you want to fight, come on!"

Han Fei couldn't help but look back at Gan Feng. This person was quite decisive, not even hesitating. Since the Half-King had said so, the other Venerables and explorers followed suit.

"Fight! Fight! Fight!"

After Cao Xuan left, Han Fei and Gan Feng looked at each other. After exchanging a glance, Han Fei returned to the Fire Stone Island.

As soon as he returned to the Fire Stone Island, Han Fei left quietly again.

At first, Han Fei didn't want to enter the Forbidden Island. He seemed to be able to see that there seemed to be a huge secret buried deep under the ground of the Forbidden Island...

However, Gan Feng's behavior today was too abnormal and too straightforward.

The Immortal City and the Black Blood City to have a full-scale war? Theoretically, it was impossible.

Even if another 20 Venerables died in the Black Blood Pool, human beings still couldn't defeat them. Therefore, the Immortal City had to have a lot of courage to accept the challenge. Besides, they had to have enough trust in him.

Outside the Forbidden Island, Han Fei stood on the shore. With a flip of his hand, the Death Bone Xun appeared in his hand.

"Woo ~ Woo ~"

Han Fei thought for a moment and began to play the Xun.

When a sobbing rhythm sounded from the Death Bone Xun, after about a hundred seconds, the void was torn apart, and Golden Boy walked out of the void with a smile.

Golden Boy said in a childish voice, "We met again so soon."

Han Fei's eyes were shining as he stared at Golden Boy. In Forge the Universe, the Vast Ocean Navigator turned slightly and pointed at the golden boy.

Although Han Fei had expected this, he was still relieved to see the real answer.

Han Fei said, "Are you from the Fifth Heavenly Palace, the Dragon-Subduing World?"

When hearing the words "Dragon-Subduing World", even Golden Boy, who was as strong as a fake king, slightly shivered.

Golden Boy lowered his arms and looked at Han Fei seriously. "It seems that you've met the palace master?"

Han Fei couldn't help but smile. "I almost couldn't come out! Therefore, you don't dare to enter that grassland because of the purple lightning array on the grassland, whose single lightning bolt can kill ordinary intermediate Venerables. Even peak Venerables can't withstand several attacks of the array."

Golden Boy said with a smile, "I knew you had met the palace master when you went to find the dragon bones. You survived the palace master's attack and made it out safely... More importantly, you won the

trust of the palace master. You are definitely not an ordinary supreme commander of the Scattered Stars Island.”

Han Fei grinned. “Why did you say so?”

Golden Boy said, “Chen Xiang used to be the supreme commander of the Scattered Stars Island, but she didn’t even know the Yin-Yang World. She didn’t even know her own territory, let alone the Dragon Subduing World. However, you know that I’m from the Dragon Subduing World and even know that we are ranked fifth. You’re out of Chen Xiang’s league based on that alone.”

Han Fei sneered. “Maybe I learned it from your master?”

Golden Boy shook his head. “There is indeed a big array in the grassland, and there are also murals left behind by us. However, our origins have never been mentioned there. At that time, our palace master was already half crazy, and the Purple Dragon Array had already erupted. Before we finished engraving the murals, we had all died. In the end, the palace master offered his own soul and flesh as a sacrifice and used a forbidden technique to summon the Undead Mist, transforming all of us into undead creatures.”

After that, Golden Boy looked at Han Fei solemnly. “Let’s get to know each other again. My name is Golden Boy, from the Dragon-Subduing Heavenly Palace, and I’m the Left Guardian of the palace master... Well, don’t tell me you’re the supreme commander anymore.”

Han Fei smiled faintly. “You can see me as the next Heavenly Master of the Yin-Yang World. The Ninth Heavenly Master, Han Fei.”

Golden Boy was obviously stunned by what Han Fei said.

After a long time, he said, “If you don’t become a king, how can you become the Heavenly Master?”

Han Fei said leisurely, “I’m a reserve Heavenly Master.”

Golden Boy: “...”

Chapter 1575: A Dangerous Place in the Cage

Han Fei revealed his identity because he needed to cooperate with the golden boy at this critical moment, and he also wanted to get some information from the golden boy.

Since he wanted cooperation, there had to be a basis for cooperation.

Therefore, for the first time, Han Fei negotiated with Golden Boy as the master of the Yin-Yang World.

The two looked at each other for a moment, and in the end, Golden Boy smiled. “Okay! You didn’t come to me just to tell me your identity, did you?”

Han Fei said, “If I hadn’t come to you, you wouldn’t have come to me.”

Golden Boy said with a smile, “At least, I don’t intend to talk to you for the time being. Those dragon bones can only be used with our Dragon-Subduing World’s unique technique. Therefore, you must have

handed them all to the palace master. However, he still hasn't come out, which means that the dragon bones are not enough..."

Han Fei thought to himself, As long as I want, I can release the mummy now.

The purple dragon array was nothing more than the accumulation of power from outside the array after the endless years.

Now, the deserted tomb had been broken. As long as the mummy had enough dragon bones, it should be able to break this array!

Of course, Han Fei would never tell Golden Boy that the mummy was a time bomb for him, and that he would never let it out before he could control it.

Han Fei couldn't help asking, "What's the name of your master?"

Golden Boy didn't hide it at all. He simply said, "My lord, Zhao Xianlong (means dragon subduing)."

Han Fei couldn't help but sweat. This name is really not creative at all. Dragon-Subduing World, Zhao Xianlong? Sounds like a brawny man.

Han Fei said, "Okay, since you don't have anything to ask me now, let me ask you first. First of all, what secrets are under this island?"

Golden Boy didn't answer him directly, but said, "It's not that I don't want to ask you anything. You said that you are the reserve Ninth Heavenly Master. Then, as long as you can do one thing... Jade Girl and I, as well as the entire Immortal City, will stand by your side unconditionally."

Han Fei raised his eyebrows. "You mean, help your master out?"

Golden Boy nodded slightly. "That's right. The palace master's strength is beyond our reach. As long as we can break the Purple Dragon Array and save him out, a mere Black Blood City won't be a problem at all."

Han Fei quickly replied, "Let's not talk about whether or not I have the ability to save him for now. Even if I can save him... as you said, when you died, he was already half crazy. And when I saw him... he had completely gone mad. He only knew about killing dragons. How can there be a dragon in the Yin-Yang World? I'm afraid that before the dragon is killed by him, the Yin-Yang World will be destroyed by him."

Golden Boy's face changed slightly.

Just as he was about to speak, suddenly, a crisp voice sounded, "Perhaps the palace master is crazy about slaying dragons, but he will never attack humans. Did you know that the palace master wanted to slay the dragon because the dragon slaughtered countless humans?"

Han Fei couldn't help looking in the direction of the Death Valley. The one who was speaking should be Jade Girl.

Golden Boy made a gesture. "You've been to Death Valley. You should know that it's safe there."

Han Fei really wanted to roll his eyes at Golden Boy. Safe? That place is full of death energy. If it weren't for the fact that we have a cooperative foundation, Death Valley was one of the most dangerous places in the cage. How can it be safe?

However, Han Fei still nodded slightly.

He had met Jade Girl once and even threatened her to give him a Death Bone Xun.

After a while, in the Death Valley, bones were everywhere.

Seeing a golden bone, Han Fei couldn't help pointing at it. "This is not the Indestructible Golden Body, right?"

Golden Boy said, "Golden bones are different from the Indestructible Golden Body. Golden bones are just a special body-refining technique. There are many Golden Bone Warriors in the Dragon-Subduing World."

Han Fei nodded slightly and then nodded at the cold woman. "I can't try my best to rescue your master just because of what you said... Besides, although I'm confident, I'm only an intermediate Venerable now. Do you think I can resist the Purple Dragon Array?"

Jin Tong nodded slightly. "Although your array skills are not weak, as you said, your realm is still low. Therefore, we need your guarantee."

Jade Girl continued, "We need you to swear to your Great Dao that within a thousand years, regardless of whether you become a king or not, you need to find a way to break the Purple Dragon Array. If you are the reserve Heavenly Lord of the Ninth Heavenly Palace, then the thousand-year period is not short."

The golden boy continued to add, "We have long seen that you are extremely talented. Just like our master, who can become the master of a palace not because of extraordinary talent and unparalleled strength? You are already on the path of becoming a king. If anyone can save our master, Jade Girl and I can bet on you."

Seeing that the golden boy and the jade girl were speaking one after another, Han Fei immediately said, "Wait a moment... You can ask me to save him, but what I'm worried about is not whether or not to save him... What I'm worried about is how you can guarantee that he won't do anything to harm Yin-Yang World."

Golden Boy and Jade Girl looked at each other.

In the end, the golden boy nodded slightly, and the jade girl said, "This is one of the reasons we chose you. In fact, in this cage, there are two dragon bodies."

"Huh?"

Although Han Fei knew what the jade girl wanted to say, he was still taken aback.

She said, "When we entered this cage, our master discovered that the seal on this cage was too extraordinary. Only by special means could one enter but not leave. We followed our king to kill the dragon, traveled the entire cage, and finally killed it. In order to punish the dragon race for their cruelty,

the palace master sealed the dragon head and tail respectively in two dangerous places in this cage. He broke the dragon soul into two parts and sealed them respectively in the two places, and made it suffer soul tearing torture every day until its soul was completely annihilated in the cage..."

Han Fei felt a chill down his spine.

Indeed, it was as he had seen.

Zhao Xianlong clearly hated the azure dragon to his guts. He had killed the azure dragon, but he didn't want the dragon to die at ease but continued to torture it...

But now, some of the dragon soul had escaped, but he was suppressed in the grassland, unable to get out for ten thousand years.

However, Han Fei pretended to be stunned for a moment and asked quickly, "Which two places?"

Golden Boy said, "You've already been to one of them. It's under the grassland where our master lives. You should have seen a tomb on the grassland, right?"

Han Fei nodded. "I've entered it."

The golden boy and the jade girl looked at each other in surprise. They didn't expect Han Fei to face the Palace Lord and come out safely...

Golden Boy continued, "There is an underground cave deep in the deserted tomb, where the dragon tail is sealed."

Han Fei was surprised. "The dragon tail is there?"

Greatly Ominous said, "Because the cave under the grassland is the place of great danger. That is the place where life and death converge. Our master can use a forbidden technique to summon the Undead Mist because of the existence of that place."

"Gulp ~"

Han Fei swallowed. That's right!

He knew that the Vast Ocean Navigator would not go wrong. Since it pointed out that there was a problem with the grassland, there must be a problem!

Han Fei couldn't help but ask, "What about the other place?"

Golden Boy said, "The other place is the Forest of Terror. The Forest of Terror has an abyss identical to the one under the grassland. As for the exact location... it's in the deepest part of the Forest of Terror."

Han Fei immediately rolled his eyes at the two of them and said, "You two, do you really think I want to die? I can enter your Palace Lord's grassland, and I can also enter the deserted tomb. However, it doesn't mean that I can go to the Cave Abyss... Your Palace Lord eats dragons. Is there anything he can't eat? Also, as one of the four major powers in the cage, the Forest of Terror must have a fake king too, right?"

The jade girl looked at Han Fei. "Since you are the Ninth Heavenly Lord, once you embark on the path of king, when you reach the peak of the Venerable realm, who can be your match in the cage? After all, with your current strength, you can already confront peak Venerables head-on, right?"

Han Fei was speechless. He felt that he had dug a pit for himself.

Han Fei smiled bitterly. "Do you really believe that I can definitely reach the peak of the Venerable level from an intermediate Venerable in a thousand years?"

Jade Girl and Golden Boy nodded.

Han Fei found it rather absurd.

Jade Girl added, "Don't forget... When was the first time I saw you?"

Han Fei: "..."

Han Fei was speechless.

He couldn't refute Jade Girl's question. When he first met her, he was only a junior Explorer.

Han Fei couldn't help but say, "At that time, I was hiding my strength."

Jade Girl: "Not many."

Han Fei: "..."

Before Han Fei could continue to refute, Jade Girl continued, "We don't think too highly of you. If you were the Heavenly Lord of the Yin-Yang World instead of the Water-Wood World... well, you can't be the latter anyway, then, your growth should have been faster."

Han Fei asked, "Why?"

Golden Boy said in a childish voice, "Because the Yin-Yang Art is weird. The Yin-Yang World once fought Supreme Clearness and Infinity head-on without being defeated."

"Hiss!"

Han Fei took a deep breath and said, "Are you talking about the First and Third Heavenly Palaces?"

Han Fei remembered that his mother once told him that Supreme Clearness and Infinity were their enemies. Their Heavenly Palace ranks first and third, so they must be strong."

Ranking surely mattered! Even the 36 towns competed for a higher ranking.

In order to get a better ranking, even the villages had set up a resource competition! How could the Thirty-Six Mystic Worlds not have rankings?

Hearing their words, Han Fei thought of something. "So, do you mean that I can use the dragon head and tail to lead your master away from the Yin-Yang World?"

Jade Girl: "Yes."

Han Fei licked the corner of his mouth.

In fact, the thousand-year period was too long.

Come on, he had Forge the Universe... If he used it, a thousand years would be more than ten thousand years.

Han Fei was silent for a while. "Last question. You said that only the dragon head and the dragon tail are here, but why are there dragon corpses under the sea of blood?"

Golden Boy said casually, "My king has killed more than one dragon. That dragon corpse bone was something I sacrificed to the gods with an ancient method, hoping to find reinforcements to save my king. Unfortunately, I only summoned a huge bronze door. That huge door was weird and completely isolated the azure dragon. We couldn't even make use of the dragon corpse anymore."

Han Fei was shocked, and the old turtle said leisurely, "So it's a sacrifice. This makes sense. Most sacrifices in this world have problems, so their problems are reasonable."

Han Fei thought that this method was not bad. When he became stronger in the future, he could use this method to leave a way out for himself.

Han Fei said, "Okay! Deal."

Chapter 1576: Strike First

Swear on his Great Dao?

Han Fei had so many Great Daos. Who knew which one he swore to?

In short, Han Fei found a random Great Dao and made a vow. This matter was over.

However, the golden boy and the jade girl didn't know it!

They felt that Han Fei must have vowed to the Human King Dao. Although Han Fei seemed to have dual Great Daos... Either one would be enough.

One was the Great Dao of the Heaven Enlightenment, which was also known as the Great Dao of the Human King.

The other was the Yin-Yang Great Dao, the unique Great Dao of the Yin-Yang World.

No one knew what Golden Boy and Jade Girl would think if they knew that Han Fei hadn't even figured out what the Yin-Yang Great Dao was.

Besides, Han Fei really didn't care.

In fact, he could save Zhao Xianlong out now, but he didn't want to.

Therefore, the only thing he had to consider was how to subdue Zhao Xianlong after he was released.

After all, a lunatic, a king-level lunatic, wasn't something that he could handle easily.

At this moment, Han Fei had made a vow.

He immediately said to Golden Boy and Jade Girl, "Alright, since I've made an oath, I'll definitely do it. Now, I'll talk about what I want from you."

Golden Boy nodded. "OK."

Han Fei asked, "Did you just say that as long as I agree to rescue your master out, you can make the entire Immortal City stand on my side?"

The golden boy said, "Of course. Except for the matter of our master, sea demons are the enemy of all races. In terms of destroying sea demons, all races in the world have the same goal."

Han Fei said ruthlessly, "Okay! In that case, I'm going to fight a big war, a shocking war that terrifies the Black Evil Conch King..."

...

After Han Fei became the supreme commander of the Scattered Stars Island and saw countless people die in battle, his heart had become hard and ruthless.

He could sympathize with an ordinary person on the side of the road, but he wouldn't hesitate in the face of a war.

Even if this war required the sacrifice of countless people...

As the saying went, the achievement of a general cost millions of lives.

Since Han Fei dared to fight the war on the Scattered Stars Island, he naturally dared to fight a war in the Immortal City!

In essence, there was no difference between the two.

Half a day passed.

Han Fei left quietly and returned quietly.

Everyone thought that Han Fei did nothing on the Fire Stone Island... They didn't know how much Han Fei had experienced in the past two days.

Buzz!

Only half a day had passed since he confronted Cao Xuan. Han Fei scanned with his perception and immediately found a big bald head.

Who else could it be other than Hua Meng?

At this moment, there were only a few people around Hua Meng.

Long Xi and Chen Yue were the earliest to follow Han Fei to the Immortal City.

Although at that time, they just wanted to keep an eye on Han Fei... This was their advantage! The three of them naturally became a small team.

However, Wang He's appearance made Han Fei frown slightly and quite displeased.

At this moment, Wang He was drinking with Hua Meng and the others and said, “Meng! Everyone is grounded on the Fire Stone Island. Only you can get out. What have you been doing? Hey, are you Marshal Han’s relative?”

Hua Meng chuckled and scratched his head. “Master He, please don’t ask. I really can’t tell you that. Marshal Han specifically instructed us not to tell anyone...”

Han Fei smiled.

At the next moment, Han Fei scanned all the Venerables on the island, including Ye Qian.

Han Fei said, “Everybody, come here...”

Most of these Venerables were consolidating their strength. After all, their damaged foundation had just been restored.

At this moment, as soon as Han Fei shouted, everyone opened their eyes and quickly gathered around.

In the Marshal’s Mansion.

Han Fei sat high, and everyone stood.

Han Fei sat at the seat of honor, and there was a table in front of him, on which a fish skin map was placed where some random lines and marks were drawn.

Han Fei raised his head and looked at Hua Meng solemnly. “Hua Meng, how are you getting on with your task?”

Hua Meng hurriedly stepped out and shouted, “Marshal Han, it’s done.”

Han Fei nodded. “That’s great.”

Everyone looked at Hua Meng, wondering what task Han Fei had given this guy. Lu Yuntian and Wang He were respectively an advanced Venerable and an intermediate Venerable, but none of them had been given an important task.

From their intuitions, they couldn’t feel at ease.

However, Han Fei didn’t notice it at all. Instead, he rose quickly. “Attention, everyone. After half an hour, follow me to attack the sea demons.”

“Huh?”

Instantly, there was an uproar in the field, and everyone was dumbfounded. What the f*ck happened?! Why are we suddenly going to attack sea demons?

We’ve been resting on the Fire Stone Island for less than a month! In the morning, Cao Xuan had just come to challenge us, and now we’re out fighting?

Han Fei glanced at everyone. “I will create the best conditions for you in this war and give the enemy the most precise blow. However, I only have one request, which is to listen to my orders. If anyone doesn’t listen, I will let him know the price. Now, don’t ask or say anything. In this battle, we can only rely on each other. In this battle, let’s set a small goal: to kill five Venerables...”

“Hiss ~”

Everyone looked at Han Fei blankly.

Are you kidding me? Since when has killing Venerables become so simple? Slaying five Venerables at once? How confident are you to do that when your identity has been exposed?

Immediately, someone said, “Marshal Han, shall we not prepare anything?”

Han Fei said coldly, “What’s there to be prepared for? This battle is a sure-win battle. Now, I don’t want to hear any questions from you. Okay, Lu Yuntian, stay. I have a small task for you.”

Many people were briefly stunned.

Han Fei clearly didn’t like Lu Yuntian before.

At this moment, he wanted to arrange a mission for Lu Yuntian, which meant that the level of this mission must be very high. At the very least, it had to be done by an advanced Venerable.

When everyone went out and there was only Lu Yuntian left in the Marshal’s Mansion, Lu Yuntian asked in confusion, “What orders does Marshal Han have?”

Han Fei looked at him casually. “You don’t have to participate in this battle.”

Lu Yuntian was stunned. “Am I going to perform some mission?”

Han Fei shook his head. “No.”

Lu Yuntian asked in surprise, “Then why?”

Han Fei’s lips curled. “Your mission is to not show up among these people in this battle. After the battle, I will come to you...”

Lu Yuntian narrowed his eyes and finally nodded slightly.

Han Fei’s style seemed casual and unscrupulous.

However, no one ever stopped him.

Neither Ye Qian nor Gan Feng stopped him at all. Everyone seemed to acquiesce to Han Fei’s style of doing things, which made Lu Yuntian very curious.

Now, Han Fei was obviously targeting Wang He.

This also meant that it was time to make use of Wang He’s undercover identity. And Wang He was not far from death.

Lu Yuntian had thought that Han Fei might have to stay in the front line for a while to make arrangements. He didn’t expect Han Fei to be so bold.

In the morning, Cao Xuan had just come to threaten the Immortal City, and at night, Han Fei was going to launch a war. He didn’t take the Black Blood City seriously at all!

Lu Yuntian: “Okay!”

...

Only 30,000 kilometers away from the first island, there were 25 people including Han Fei and Ye Qian.

Han Fei said, "Everybody, wait here."

With that, Han Fei handed a jade slip to Ye Qian and said, "If nothing goes wrong, this jade slip will automatically shatter later. At that time, the teleportation array will open, and then all soldiers shall attack."

Ye Qian's voice was indifferent but he replied quickly, "Got it."

Han Fei disappeared with a swish.

After Han Fei disappeared, these Venerables began to discuss. They had never fought such a war.

At this moment, Wang He's expression was very ugly.

Lu Yuntian disappeared. It was a battle with as many as 25 Venerables, but Lu Yuntian, an advanced Venerable, was gone? What kind of mission was he assigned to? Why didn't he even participate in such an important battle?

While they were discussing, Wang He couldn't help but ask, "Grand Venerable Ye Qian, what's Marshal Han up to? We've never fought such an ambiguous battle before!"

Ye Qian said indifferently, "I haven't fought it either, but it doesn't matter. Since Han Fei is the commander, he has his own considerations."

However, the crowd's discussion gradually grew louder.

Suddenly, Hua Meng shouted, "What are you nagging for? If Marshal Han wants us to fight, so be it. Just cut the crap!"

However, Hua Meng was only a junior Venerable. His words didn't carry enough weight to the Venerables, so some people were still discussing via voice transmission.

Someone muttered, "The main problem is... can we trust him completely now? That's the main problem."

Everybody fell silent.

In fact, they all had this doubt in their hearts.

That was, although Han Fei had killed two Venerables and cured countless people, there were more than 20 Venerables here! What if something went wrong?

Could Han Fei really be trusted completely? They had never cooperated at all!

Ye Qian snorted. "Shut up, all of you. Since it's Han Fei's arrangement, it means that this operation has already gained the permission of all Half-Kings. Does it need your approval for this?"

"Phew ~"

Immediately, someone breathed a sigh of relief. "So, all the Half-Kings have known it. Then there should be no problem."

Someone was completely relieved and even smiled. "I didn't expect there would be such a big battle as soon as we came out. If we can really kill five Venerables, we'll definitely be able to make a name for ourselves."

Someone nodded. "Everyone, we haven't been out for many years. We must not disgrace the human race. Remember to try your best later."

Wang He's heart sank. It seemed that Han Fei's operation was supported by others.

He could roughly guess that with Han Fei's arrogant personality, he would only inform the people who should be informed. Only the Half-Kings or peak-level Venerable were informed.

Because these people were strong enough to lead the crowd.

As for junior Venerables and intermediate Venerables like them, in Han Fei's eyes, they were just machines of war...

At this moment, Wang He was thinking, Where is Lu Yuntian? What is Lu Yuntian doing?

...

While Wang He and the others were waiting, Han Fei had quietly passed the first island. He swam slowly towards the outer sea beyond the island in pure darkness...

Chapter 1577: Sneak Attack

Han Fei was never the kind of person who would buy time or avoid trouble.

The Black Evil Conch King's reaction speed was already extremely fast.

Since Han Fei announced his name, Cao Xuan had come the next day. By declaring war, the Black Evil Conch King wanted to confirm Han Fei's identity and see the attitude of the Immortal City.

As it turned out, the Immortal City's attitude suddenly became firm, even though they knew that a big battle was coming.

Han Fei had reason to believe that it was definitely not stable inside the Black Blood City at this moment. With the cautious personality of the Black Evil Conch King, there would definitely be some delay.

In a place with no one around, Han Fei used the Nine Palace Luck Ruler to test the luck of today's operation. In the end, the Nine Palace Luck Ruler fell on the "Plat" trigram.

This divination result made Han Fei confused. Would this operation fail?

No!

Han Fei directly denied this answer. He had cooperated with Golden Boy. With so many Venerables attacking, how could he not make any contributions?

Then, this “Flat” divination result meant that the benefits he obtained in this battle might be mediocre.

With a thought, Han Fei threw a wisp of chaotic energy into the Nine Palace Luck Ruler and transferred the luck to the “Auspicious” trigram.

As for “Greatly Auspicious”?

Han Fei thought that it might have to consume him another four or five wisps of Chaotic Qi. And he didn’t need a “Greatly Auspicious” result in this battle. Otherwise, if the sea demons were too scared to fight him in the future, he would suffer a loss.

...

Half an hour later, Han Fei went 200,000 kilometers deep into the front line of the Immortal City. From here on, it was already a place for Explorers to cultivate.

This was because there was an essential difference between the Venerable realm and the Explorer realm. It still took a certain amount of time for an Explorer to cross hundreds of thousands of kilometers of sea. But it was different for a Venerable. Their speed was several times faster than that of an Explorer. Therefore, they usually cultivated further away.

Han Fei asked, “Old Yuan, how many Venerables are there?”

The old turtle said, “An advanced peak-level Venerable is guarding the front line. This is very reasonable. Leave a strong Venerable to guard the front line. Even if a peak-level Venerable comes, it’s impossible to kill an advanced peak-level Venerable in an instant. Even a Half-King might not be able to do it. Therefore, you might have to continue to explore deep into the sea demons’ camp.”

Han Fei nodded slightly. He was going to launch a sneak attack tonight to piss off the Black Evil Conch King. However, a peak-level advanced Venerable couldn’t satisfy Han Fei’s appetite at all.

He had brought 25 Venerables anyway.

If they were only hunting a peak-level advanced Venerable, it would be outrageous.

However, Han Fei didn’t abandon this place. He secretly set up an array here, waiting for it to be activated at any time. No matter what, this peak-level advanced Venerable couldn’t escape tonight. He had to die.

Another hour passed.

Han Fei explored another 200,000 kilometers and finally found a small sea demon city. However, this city was built in the belly of a mountain. The sea demons emptied the mountain and built a large city, in which many people lived.

As far as Han Fei could see with his black mist body, there were many Half- Venerables cultivating here. Of course, what Han Fei was mainly looking for were not these sea demons in the Half-Venerable realm or below.

Han Fei was looking for a Venerable!

With the high-level perception of the Emperor Realm, Old Yuan easily located the Venerables in this mountain.

He said, "There is one peak-level advanced Venerable, two intermediate ones, and four junior ones. There are a total of seven Venerables. However, don't attack blindly, because I can perceive that this mountain range is not limited to this. There is another mountain nearby, several thousand kilometers away."

Han Fei grinned. "Then let's go check it out."

Han Fei was no longer an Explorer. Little Black and Little White had also reached the Explorer realm. The Twin Divine Technique wasn't so easy to break.

A moment later.

The old turtle said, "In this city, there is one peak-level Venerable, three intermediate ones, and four junior ones. Six thousand kilometers away, there is another mountain."

A moment later.

The old turtle said, "There's one Half-King, one peak-level Venerable, and two advanced Venerables in this sea area. There are only these three mountains in this sea area. The three are closely connected. Any further away, there might be mountains at least hundreds of thousands of kilometers away. Once you take action, these two places can quickly help, and people will definitely come quickly from other places. However, as long as you are fast enough, we can fight this battle."

In fact, in this sea area, there were 1 Half-King and 2 peak-level Venerables, 4 advanced Venerables, 5 intermediate Venerables, and 8 junior Venerables from the Black Blood City.

This power was much stronger than what Han Fei brought.

The junior and intermediate Venerables on his side were obviously stronger than the other party. However, the only advanced Venerable on his side, Lu Yuntian, wasn't around. In other words, there weren't any advanced Venerables.

However, Han Fei didn't panic. Anyway, it was a sneak attack. As long as he was fast, accurate, and ruthless enough, he could quickly kill a few Venerables.

Han Fei's goal was not high. In this battle, he only needed to kill five Venerables.

As for time? 30 seconds.

This was the best time to launch a sneak attack. Otherwise, once the enemy mobilized on the entire battlefield, a big battle might happen at any time.

Han Fei quietly returned to the first mountain range and placed his white-mist body 20,000 kilometers away. After forcibly maintaining the Twin Divine Technique, Han Fei returned to the first mountain range.

There were only one peak-level advanced Venerable, two intermediate, and four junior ones here.

Han Fei's first target was certainly not the peak-level advanced Venerable. Advanced Venerables were not easy to deal with. Although he had the experience of killing an advanced Venerable, the first time he did it with the power of a Half-King, and the other time it took more than three seconds. Besides, the other party wasn't at his peak state.

Even if it took him three seconds to kill this peak-level advanced Venerable at his peak state, these three seconds were enough for the peak-level Venerables and Half-Kings on the other two sides to arrive.

After all, the three mountains were only ten thousand kilometers away.

For a Half-King, this wasn't a distance at all. It would only take him one second to arrive.

Once the Half-King arrived, they only needed to stop him for half a second. When the peak-level Venerable was in position, this raid would fail.

Therefore, Han Fei had to kill a Venerable in one second.

Between the intermediate and junior Venerables, Han Fei chose the intermediate Venerable without hesitation.

After all, Han Fei was very confident in his own strength now. In a moment, he would be able to kill any intermediate Venerable or junior Venerable in an instant.

Besides, by hunting stronger opponents first, he could reduce the pressure on his side. Along the way, Han Fei had thought about it several times.

At this moment, Han Fei reached the place where the two intermediate Venerables cultivated.

Unfortunately, one of them seemed to be in seclusion, and there was a seal nearby.

Although the seal could be easily broken and could only block the outside world... However, destroying the seal would give the other party some time to react.

Therefore, Han Fei chose the guy who didn't cultivate in seclusion without hesitation.

This was one of the most secluded corners of the mountain. At this moment, Yu Zhenghuan was giving a lecture to three Half-Venerables.

Han Fei shook his head. There were classes everywhere!

The Venerable said, "You all know that the basic requirement for a Venerable is the disassembling degree of demonic energy. All three of you are already eligible to be Heavenly Talents. However, this is not enough. You still have to confirm your own Great Dao. Is your understanding of these Great Daos deep enough? In a Venerable battle, the more special the power of the Great Dao, the stronger the power it will give you. Especially some special Great Dao, it can completely change your combat style..."

Someone asked, "My lord, I used to think that it was difficult to cultivate two Daos at the same time. But as for Han Fei's last slash that day, our king said that he also mastered a trace of the Great Dao of space and time..."

Yu Zhenghuan snorted. "Like you said, it was just a trace. When you reach the Venerable realm, you can study such laws and touch them. However, there is only one Great Dao in the end. Just wait and see... That Han Fei is too arrogant. He won't live long..."

Han Fei secretly sneered. I won't live long? Then I'll send you to hell first!

Swish!

Suddenly, Han Fei released the Void Lines, full of killing intent.

At that moment, Yu Zhenghuan subconsciously thought of self-explosion, because the impact of death was too strong! He knew that if he didn't do anything, he would die in the next second.

However, how could Han Fei give him this chance?

Before Yu Zhenghuan had the time to move, he was caught by the Void Lines. Han Fei held the Embroidery Needle in his hand, used the "Knock on the Heavenly Gate" they were discussing just now, and burst it out.

As the spear shot out, all laws were forbidden in this space.

With a bang, Yu Zhenghuan was dead.

In an instant, lightning struck down from the sky.

However, what was faster than the lightning was Han Fei's Void Blade. Since Yu Zhenghuan said that the disassembling degree of demonic energy of these three people had reached 70%, they must be seed reserves for Venerables. He had to kill them first.

At this moment, Han Fei had come prepared and was in his strongest state. In Forge the Universe, he had already changed the Great Dao of the Heaven Enlightenment. At this moment, he was a super expert who could shake peak-level Venerables.

A mere Half-Venerable was chopped into pieces by Han Fei as easily as cutting paper.

"How dare you!"

The moment Han Fei used the Knock on the Heavenly Gate, a peak-level advanced Venerable had already flown out of the mountain and thrust a harpoon at Han Fei.

Han Fei punched out and casually threw out a few fish skin maps.

In an instant, dazzling light flashed, and a teleportation array rose.

When the white light dissipated, there was no one left.

In the next moment, Han Fei had already fused his twin bodies. In fact, even if Han Fei didn't do it immediately, he wouldn't be able to hold on for long. After all, the Twin Divine Technique would affect each other if they were too far away.

At this moment, on the sea demons' side, the three sea demon mountains moved instantly.

On the battle line that spanned 800,000 kilometers, all the Venerables and explorers were alarmed. After all, a red crack had appeared in the sky. However... most people were dumbfounded as to which Venerable had died.

It only took Han Fei one second to escape. By the time the peak-level advanced Venerable missed his strike, a Half-King had arrived.

He glanced around and roared angrily, "Chase him!"

Chapter 1578: Fight A Half-King

Buzz!

After fusing his twin bodies, Han Fei sneered. He had thrown the corpse of the intermediate Venerable into Forge the Universe.

At this moment, Han Fei picked up a jade slip that he had prepared earlier.

Smack!

The jade slip shattered, the teleportation array broke through the void and opened a teleportation passage.

At the moment he entered the teleportation array, Han Fei looked back indifferently and said to the old turtle, "The Half-King won't find out my plan, will he?"

The old turtle said, "It's difficult for them to find what you left in the vast sea."

"That's good."

The turbulence in this space naturally couldn't escape the Half-King's vision. Therefore, as soon as Han Fei opened the teleportation array, the Half-King shouted and chased after him.

While chasing him, the Half-King shouted, "It's Han Fei! How dare he break into our camp? We must kill him today no matter what!"

More than 20,000 kilometers later, the Half-King arrived.

After he appeared, Han Fei's teleportation array began to collapse.

However, the Half-King's heart stirred. This kind of teleportation array wasn't long! It was at least 500,000 kilometers away from the human battle line. Such a teleportation array obviously couldn't teleport Han Fei over.

Immediately, the Half-King took out a messaging conch and shouted at it, "Hei Lin, Han Fei is attacking the rear alone. Block the front line. Even if you die, you have to stop him for ten seconds."

When Hei Lin, who was 200,000 kilometers away, saw the red crack in the sky, he was shocked, wondering who had died.

Furthermore, the rain was quite heavy, indicating that the person who died might not be a junior Venerable. The person who died had at least reached the intermediate Venerable realm.

However, while he was looking up at the sky, he heard roars from the messaging conch.

“Hiss ~”

Hei Lin felt a chill down his spine. Han Fei? How did this person cross his front line and run to the rear?

Hei Lin had just received the news and hadn't even lowered his head when he suddenly sensed the space oscillating tens of thousands of kilometers away.

In the blink of an eye, Hei Lin rushed forward at full speed. Before the teleportation array was fully opened, he had already rushed over.

As soon as Han Fei came out of the teleportation array, he saw a flash of light a thousand kilometers away. A black spear broke through the air. Han Fei reached out, grabbed a saber out of the void, and casually swept it over. Then he immediately wanted to run.

Hei Lin roared, “Do you think you can come and go as you please in the territory of our Sea Clan? Poison Barrier...”

Hei Lin knew that Han Fei was very strong.

However, he felt that no matter how strong Han Fei was, he was only an intermediate Venerable. How could he, a peak-level advanced Venerable, not be able to hold out for ten seconds?

Therefore, seeing Han Fei, Hei Lin felt that his chance to make a contribution had come.

Perhaps he might not be able to kill Han Fei, but as long as he could trap him for a while... when the Half-Kings and the peak-level Venerables arrived, it would be difficult for Han Fei to escape even if he had wings.

Han Fei saw that everything within a thousand kilometers was enshrouded in darkness. When he felt that the Heaven Spirit Detoxifying Insect was twitching, he knew that he had entered a poison barrier.

Han Fei didn't panic at all. The Infinity Water swept out, rolling into a torrent, trying to directly disperse this poison.

“Han Fei, you underestimate my Great Dao. How can a visible object crack invisible poison?”

Han Fei sneered in his heart. How could there be any invisible poison in this world?

His eyes turned white, and he saw that the spiritual energy between the heavens and earth was covered in a dark green color.

It had to be known that battles between Venerables were usually fierce. If they really fought, they would consume a lot of energy. The spiritual energy and energy stored in the void were the fundamental guarantee for Venerables to continue fighting.

Now that the spiritual energy in this range was contaminated, Han Fei could instantly leave with the Star Teleportation Technique.

However, if he used the Star Teleportation Technique, how could this advanced Venerable catch up with him? Then he would really run away.

Therefore, Han Fei turned around and took out the Embroidery Needle, which looked like a long dragon, and he activated the “Knock on the Heavenly Gate”.

However... At the moment Han Fei took out the Embroidery Needle, nearly half of the scales on the surface of Hei Lin’s body broke free at the same time, wrapped around his body, and turned him into a big black ball.

Boom ~

Han Fei’s attack power was not low. Under this blow, Hei Lin vomited a mouthful of blood. Under this blow, thousands of scales shattered.

If he could choose, Hei Lin would definitely not fight a person like Han Fei because the other party was too terrifying.

But today was different. After feeling Han Fei’s attack, Hei Lin felt that under such an attack, he could hold out for at least a hundred seconds, let alone ten seconds.

Bang! Bang! Bang!

Han Fei was in a hurry too.

At this time, golden fist marks came one after another, and a hundred invincible fist marks came one after another, blasting the black scales thousands of kilometers away, even beyond the poisonous barrier.

But Hei Lin gritted his teeth and pressed on, shouting, “Poisonous Lust.”

Han Fei felt that some poison was trying to invade his blood, bones, and flesh.

Under Han Fei’s feet, the arrays were interlocked. While a pure water ball enveloped him, the water ball constantly absorbed the water essence and formed a barrier, ensuring that these poisonous creatures couldn’t infiltrate him.

At this moment, five seconds had passed.

After another second, Han Fei suddenly exploded the water ball and dispersed the venom. But at this time, the seawater had become colorful.

Hei Lin laughed. “You think you’re qualified to fight our king? If you can’t even deal with me, our king can easily kill you.”

Han Fei suddenly smiled. “Three...”

Hei Lin: “???”

Roar!

At that moment, he launched the Hundred Beast Soul Devouring.

Hei Lin, who was not far away from Han Fei, was caught off guard and vomited blood because of Han Fei's roar.

Han Fei's strength suddenly skyrocketed, and the distance under his feet suddenly shortened. The bloody fist rolled up a surging fist wave and directly hit Hei Lin's black scale armor.

Rumble!

No matter how strong an advanced peak-level Venerable was, it was limited. Just like Han Fei had calculated before, no matter how strong Hei Lin was, he only had 6,000 waves of power. Besides, Han Fei felt that he didn't have so great a power because he was a poison cultivator.

After the punch, half of Hei Lin's body was reduced to dust. Han Fei shouted at the same time, "All laws forbidden in this space."

Han Fei knew that in two or three seconds, a sea demon Half-King would arrive.

Although he claimed that he could kill a Half-King, in fact, Han Fei knew that there was still a certain gap between him and a Half-King. Only in pure strength was he comparable to a Half-King.

Therefore, when Hei Lin was crushed by him, Han Fei had already used the Void Lines.

However, at this moment, an accident happened.

The Void Lines did buckle him, but Han Fei saw a large amount of Hei Lin's soul escape and explode.

Soul Explosion was meaningless to Han Fei.

However, at this moment, a face in the distance smiled ferociously. "Soul Poison!"

Swish ~

Han Fei's face changed greatly and turned cold. Snowmourn was drawn out instantly...

"Chi la ~"

Cold light shone for thousands of kilometers, and halo lingered.

With a boom, thunder rumbled in the sky.

However, Han Fei had no time to look at the red crack appearing in the sky. He immediately switched his Great Dao.

"Heaven Enlightenment ~"

When a holy pillar of light descended, it swept across Han Fei's soul.

Han Fei felt that his soul was burning. In the next moment, Han Fei sprinkled nearly a thousand points of soul power out.

It was the first time Han Fei had encountered a poison cultivator in the Venerable realm who even had a poisonous soul.

As a result, not only did Han Fei fail to absorb Mo Lin's soul, but he also failed to gain anything from the peak-level intermediate Venerable he killed.

Han Fei was speechless. No wonder the divination results of the Nine Palace Luck Ruler were flat. It was probably because of this. Therefore, he didn't even get any soul benefits!

On this side, the brilliance of the Heaven Enlightenment Divine Technique didn't disappear yet...

The sword light that Han Fei launched hadn't dissipated either...

Han Fei sensed that the void trembled at the end of his perception, which was 36,000 kilometers away.

Han Fei deliberately paused and waited for half a second. Seeing that the space was shaking tens of thousands of kilometers away, Han Fei unhurriedly threw out a jade slip.

Bang!

The jade slip exploded, the array patterns shone, and a directional teleportation array was opening.

"Little thief, stay!"

The Half-King exploded with fury.

He had been rushing with all his might! He didn't know any arrays, so he could only escape through the void. However, Han Fei's fighting speed was too fast!

In less than ten seconds, Mo Lin was killed. After all, he had the combat power of an advanced peak-level Venerable. Even if it were him, it would take him a lot of time to kill Mo Lin.

What did this mean? It meant that Han Fei actually had the ability to fight him.

Han Fei pretended to be surprised and looked back at the teleportation array. However, the teleportation array was thrown out less than half a second ago and the teleportation door hadn't been opened yet!

However, the speed of a Half-King was obviously faster than this.

Therefore, Han Fei made up his mind and charged at the Half-King.

Han Fei took action and opened his mouth to swallow. As billowing energy gathered, the Sacrificing Punch erupted.

What Han Fei needed to do now was to stop this Half-King.

However, at the next moment, Han Fei saw the fastest fist he had ever seen in this world.

Bang! Bang!

Two fist beams struck the Sacrificing Punch at a speed that he couldn't see clearly with his naked eye.

Rumble!

The Sacrificing Punch that he was so proud of was blown up by two punches.

"Mantis Shrimp?"

Han Fei's eyelids twitched. When this Half-King punched out, Han Fei already knew what kind of creature this person was! Except for the Mantis Shrimp, Han Fei had never seen... another creature with such a terrifying speed.

Buzz!

A weird sound wave swept more than 3,000 kilometers, and the teleportation array behind Han Fei collapsed.

This was a Half-King!

Han Fei claimed that he could kill a Half-King.

However, the two parties were fighting thousands of kilometers away.. In an instant, the gap appeared.

Chapter 1579: Slaying a Venerable with a Slash

Han Fei had to admit that although there were thousands of Great Dao in this world, in actual combat, the power of these people's Great Dao was nothing special in his opinion...

However, just because it wasn't special didn't mean it wasn't powerful!

For example, this Half-King's Great Dao happened to be the Great Dao of power.

Yes, what the Mantis Shrimp was proud of was not the punching speed, which was just his instincts, nor his movement speed... The Mantis Shrimp didn't run fast.

However, the power of this guy's Great Dao gave him power several times that of an ordinary Half-King.

Although strength couldn't decide the outcome of a battle... After all, every Venerable had their own Great Dao. However, a Venerable who embarked on the Great Dao of Strength was still very terrifying!

Therefore, when Han Fei fought this person for the second time, he found that under this person's peak speed, he actually punched him so hard that his five internal organs trembled and his seven orifices bled.

At this moment, Han Fei felt the horror of power.

At the same time, the Half-King Mantis Shrimp was even more appalled. He had thought that Han Fei would be strong, but he didn't think that Han Fei would be strong enough to confront him head-on.

But Han Fei had weathered through it!

If it were an ordinary person, even if he was a peak-level Venerable, half of his body would've been blown up by his punch.

Therefore, the sea demon Half-King made up his mind to kill Han Fei this time. If such a horrible person was released, the consequences would be disastrous.

An intermediate Venerable could fight him.

If he became an advanced Venerable, wouldn't he be invincible?

While Han Fei was still not his opponent, he had to take the chance to kill him.

After a round of clash, Han Fei smartly stopped contending with this person with strength. Although theoretically speaking, if his strength was increased three times, he could actually compete with this person...

However, after the fight, Han Fei found that his source of power seemed to be a little weak. It couldn't be said that it wasn't strong, but the power that appeared out of nowhere seemed to be limited by some rules.

This was the first time Han Fei had discovered this problem. He thought to himself, When I go back this time, I have to find a way to study this green jade bridge again.

Fortunately, although it was a little weak, the strength that Han Fei showed was not much weaker than that of this Half-King. In addition, Han Fei was good at speed, so for a while, the two actually tied.

In one second, the two had fought more than 20 times. The speed of this battle didn't seem to be very fast, but the strength of both parties was too strong.

Three seconds later, Han Fei vomited blood. Even with the Art of Invincibility, it was still very difficult for Han Fei.

Five seconds later, Han Fei was horrified. His Great Dao couldn't hold on anymore.

This was too fast!

He had never felt this way before. In just five seconds, his Great Dao enhancement was about to be shattered!

The Half-King Mantis Shrimp laughed out loud. "Hahaha, Han Fei, I have to admit that you are indeed a peerless genius. You even refined the Indestructible Golden Body. Unfortunately, in the face of absolute power, all methods are useless."

Han Fei sneered. "Guess which side will arrive first?"

The Half-King Mantis Shrimp sneered. "I forgot to tell you that in our rear, there is a teleportation array."

Han Fei was immediately refreshed. At the moment when the Half-King sneered, space trembled, and two peak-level Venerables appeared.

It had taken him about 17 seconds to kill, escape, kill Hei Lin, and fight the Half-King.

After only 17 seconds, the opponent's peak-level Venerables had arrived.

Han Fei's eyelids twitched. This was 13 seconds earlier than he expected.

He had to admit that the sea demons' reaction speed was too fast. Under such a reaction speed, it was indeed difficult to launch a sneak attack.

Dang! Dang! Dang!

At the moment the void trembled, a melody sounded in the sky, and the shadows of mountains and rivers appeared.

A childish voice echoed, "Look, I told you! They are much faster than you think."

In the shadow of the mountains and rivers, the Half-King Mantis Shrimp was shocked and shouted, "Undead Golden Boy? The king doesn't join the battle, and you're breaking the rules now... Do you really want to fight us to the death?"

Golden Boy smiled. "I'm still in the Venerable realm. How can I be called a king? A Fake King is only a Half-King. Why can't I participate in the battle?"

Golden Boy walked out and crossed his fists. Two azure dragon shadows gushed out from his fists.

Seeing this fighting style, Han Fei couldn't help but twitch the corner of his mouth. Even in combat, there were dragon shadows flying. It seemed that the Dragon-Subduing World had indeed worshiped the dragon race to a certain extent.

But the next moment, Han Fei saw that Golden Boy was holding two sabers.

One black and one gold, the two sabers slashed out, and the sky changed color. Accompanied by a vast gray fog, they charged at the two Venerables rushing out of the void.

Boom! Boom!

Boom! Boom!

As soon as the two peak-level Venerables came out, they saw a terrifying saber beam charge at them with layers of mist.

However, the Half-King Mantis Shrimp had already blocked in front and punched out four times in a row, blowing up the two azure dragon shadows. With a swing of his tail, his original body appeared and took the blow from the golden boy.

However, a part of his tail had been cut off.

"Heh! Undead Golden Boy, do you really think you can compare to our king? Today, let me see how strong you become after all these years! You two, kill Han Fei..."

Golden Boy looked at Han Fei, then at the Mantis Shrimp, and smiled faintly. "Li Santong, why don't we wait for Gou Tu to come... I'll let you two come up together... The others may not be able to come soon."

Han Fei smiled and quickly retreated.

The moment he retreated, he stomped, and a teleportation array appeared.

When the lines of the array began to condense, the two peak-level Venerables thought that Han Fei was about to run away, so they quickly took action to intercept him.

In fact, as peak-level Venerables, they knew that although fake kings could be called kings, they were only slightly stronger than Half-Kings.

Although they didn't succeed in transcending the king-level tribulation, they had obtained some power, which allowed them to have power above the level of a Half-King.

However, was it really possible that a fake king could sweep multiple Half Kings? No.

After all, a fake king was not a real king, and a fake king's strength was limited. On his side, even if the two Half-Kings were no match for Golden Boy, they were enough to deal with Golden Boy for a while.

But Han Fei put on a smile, and the Infinity Water was mixed with the blades within thousands of kilometers, blocking the two's way.

Han Fei grabbed at the void, made a spatial crack, turned it into a knife, and slashed at one person. Then, he launched the Sacrificing Punch and blocked the path of two peak-level Venerables.

Han Fei was still no match for a Half-King.

However, Han Fei was really not afraid of peak-level Venerables now.

Of the two peak-level Venerables, one was extremely fast. Wherever he went, the void distorted like Du Jiangliu's distorted space. The other's body began to crystallize and gradually turned purple.

However, as the Half-King Mantis Shrimp said, in the face of absolute strength, no tricks could help.

In the face of absolute power, the person who turned into a purple crystal was punched back by Han Fei. The guy who was extremely fast blocked Han Fei's Draw Technique with Twisted Space.

However, Han Fei's Great Dao of Gravity descended.

At this moment, Han Fei didn't need to deliberately hide the Great Daos he had mastered.

Han Fei had learned the Great Dao of Gravity from the Black Evil Conch King.

This was because Han Fei had already mastered the Law of Gravity. Therefore, when this Great Dao of Gravity fell on Han Fei, it could increase his strength instead.

Besides, Han Fei could control this gravity within a certain range.

Han Fei had tried this back when Du Jiangliu became a Law Enforcer.

Twisted space? As long as he covered the entire Twisted Space where he was, he could directly cause an area-of-effect strike to the opponent.

When the peak-level Venerable was being crushed by the irregular gravity...

Han Fei's Sacrificing Punch had already blasted out.

Buzz!

At this moment, the Venerable with a purple crystal body stood in front of the man and blocked him. The two of them were sent flying.

At this moment, the void vibrated, and Han Fei had just set up a teleportation array when the other party's hands arrived first.

Among them, there were 3 advanced Venerables, 4 intermediate Venerables, and 8 junior Venerables.

When Han Fei saw these people, he was all smiles.

This was the right time. If they hadn't come, he would have only been able to kill two sea demon Venerables!

But now that they were here, it was hard to say.

On the other side, Ye Qian and the others who had been waiting behind were all agitated. Even Ye Qian, a peak-level Venerable, was slightly surprised.

Two cracks had already appeared in the sky. Had Han Fei resisted them alone?

Ye Qian knew more than others. He only knew that Golden Boy told him to trust Han Fei unconditionally.

Therefore, at this moment, he could still hold himself back.

After all, he believed Golden Boy, so the two Venerables who died must be from the sea demons' side.

Someone was agitated. "Grand Venerable Ye Qian, it's been almost twenty seconds since the first Venerable died. Has anything happened to Marshal Han?"

Someone was uneasy. "Grand Venerable Ye Qian, shall we go straight there? It's close anyway. It wouldn't take long."

Wang He was shocked. He hoped Han Fei would die, but Ye Qian seemed quite determined. Was Han Fei really so strong? He broke into the sea demons' camp alone, was surrounded by so many strong masters, but could still hunt two sea demons in a row?

Ye Qian shouted, "Shut up, all of you. Wait..."

As soon as Ye Qian said so, the jade slip in her hand suddenly shattered, and a teleportation array in front of her quickly opened.

Ye Qian immediately shouted, "Come on, let's go!"

...

In the battle array, the teleportation array opened, and Ye Qian quickly flew out of the teleportation array.

Immediately afterward, the five intermediate Venerables including Wang He and the 18 junior Venerables including Long Xi followed.

Ten thousand kilometers away, Golden Boy shouted, "You have 12 seconds."

As soon as Ye Qian came out, he glanced at the battlefield and rushed towards Han Fei, shouting, "Is it okay for us to kill one Venerable?"

Han Fei grinned. His answer was a dragon roar. "Roar ~"

Even Golden Boy was shocked by the roar. How could Han Fei make a dragon roar?

At that moment, Han Fei launched the Hundred Beast Soul Devouring.

In Han Fei's chest, a wisp of chaotic energy dispersed.

In fact, when Han Fei attacked, the two peak-level Venerables also used Chaotic Qi.

Not only the two of them, but even Ye Qian used a wisp of black energy. Although it was not Chaotic Qi, it should not be bad.

Han Fei's goal was the Venerable who could twist space. Compared to a pure defensive player, this kind of fancy Great Dao was actually easier to break.

Ye Qian pulled the bow and shot an arrow. There was no spiritual energy arrow or energy arrow, but the void was isolated between the two peak-level Venerables.

A huge number of space cracks isolated the area of more than 300 kilometers.

Han Fei's heart did a flip. What a powerful archery skill!

With Ye Qian setting the conditions, Han Fei unleashed the Sacrificing Punch one after another.

At that moment, Han Fei felt that the power of his Great Dao had reached its limit. He held Snowmourne and concentrated all his strength on his sword.

With a single slash, the sea split, and the sword Qi spread thousands of kilometers.

Seeing this scene, a peak-level Venerable shouted in horror, "Santong, save me..."

Unfortunately, the outcome of a Venerable-level battle could be decided in a second.

As soon as he said so, he desperately used all his strength to deal with Han Fei's blow.

But at the next moment, he felt that his soul was under an inexplicable threat. This was the threat of death!

Bang!

Han Fei suddenly vomited a mouthful of blood.

In his despair, the peak-level Venerable detonated a massive amount of his soul and shattered three Void Lines.

"F*ck... Die!"

"Pfft!"

When the cracks appeared in the sky again, Han Fei, who had been fighting for a long time, was instantly weakened.

Buzz!

Han Fei hurriedly activated the Heaven Enlightenment Divine Technique and used the remaining Void Lines to collect and absorb the soul. Then, he looked at the Venerables on the other side who had already joined the battlefield.

Han Fei's face turned ferocious and he shouted angrily, "You have ten seconds.. Kill as many as you can."

Chapter 1580: Your Fight Was Simply A Mess

In fact, this was the first time Han Fei had killed a peak-level Venerable on his own.

In the earlier stages, in the Demon Beast Sacred Realm, Han Fei had completely integrated all the knowledge he had learned in his life. If Han Fei's strength hadn't reached the intermediate Venerable realm, it would probably be extremely difficult for him to complete such a kill.

Although Han Fei had the battle record of crushing Chen Xiang with two punches, at that time, Chen Xiang wasn't prepared, and Han Fei's attacks were quite surprising.

Besides, Han Fei was at the peak of his strength back then. Just now, Han Fei fought the Half-King for a moment and almost failed to stabilize his strength.

In the following battles, Han Fei was not in a hurry to take action.

Han Fei used the Void Lines to capture this person's soul while drawing a serial array under his feet.

At this moment, the other Venerables were fighting nervously. Nobody knew what Han Fei was doing...

However, there was no doubt that Han Fei could kill peak-level Venerables on his own. No one dared to underestimate Han Fei anymore.

In the eyes of many people, a peak-level Venerable was no different from a Half-King.

Han Fei's sword just now directly tore a huge crack more than 3,800 kilometers long at the bottom of the sea. In the crack, the sword intent was awe-inspiring. The remaining sword Qi was definitely not something ordinary people could approach.

Half a year ago, Han Fei envied the strength of others who could create an Abyssal Chasm with one slash.

Now, he didn't seem to be any weaker. The depth of this crack was almost the same as the Abyssal Chasm. Of course, in terms of length, it was much shorter.

This time, this peak-level Venerable fed Han Fei with 2,000 points of soul power, which directly helped Han Fei make up for the soul damage.

This peak-level Venerable sea demon was a flying fish with a huge fin. Although its body was broken at this moment, Han Fei didn't mind stuffing it into Forge the Universe.

On the battlefield.

Long Xi, Hua Meng, and the others were all fighting crazily at this moment. Basically, it was two against one, and there were even two teams three against one. If they still couldn't kill two Venerables... their battle results were much worse than Han Fei's!

But in fact, how could a Venerable kill an enemy quickly? On the one hand, most Venerables didn't have as many means as Han Fei, and on the other hand, they were weaker than Han Fei in terms of strength.

Therefore, if they wanted to kill an enemy instantly, it must be an advanced Venerable killing a junior Venerable.

On Wang He's side, the intermediate Venerables were fighting, raising a huge storm on the sea.

The entire bottom of the sea was beaten into a mess, and most people had entered the void.

However, the void here was filled with spatial cracks.

"Damn it!"

After the people of both sides fought into the void, the hundred-odd arrays under Han Fei's feet were activated at the same time. He cursed and immediately chased into the void.

Then...

Boom!

Boom!

Boom!

When Han Fei stepped into the void, three consecutive booms sounded.

In an instant, three Venerables died.

Han Fei glanced around the battlefield and saw a sea demon Venerable trapping three people who were fighting him with a secret method, triggering a void vortex.

Han Fei wanted to go in to help, but then he saw that the void vortex caused a large space crack...

Han Fei was so shocked that he broke out in a cold sweat. There were more spatial cracks in the Wall of Death. Even his Invincible Golden Body could be cut, let alone these ordinary Venerables.

This sea demon Venerable was determined to sacrifice himself. He actually used a void vortex, causing these space cracks to connect.

Even if Han Fei had the Indestructible Golden Body, he didn't dare to confront such a large space storm head-on!

"Well, one of them is still alive!"

Without thinking, Han Fei flashed in with the Star Teleportation Technique and picked up a seriously injured junior Venerable with one hand.

Chi la!

Han Fei threw this person out of the void and ran out himself, shouting angrily, "F*ck, go out and fight. The space here is unstable. Can any of you withstand the cutting of the space rules? When this void collapses, no one can escape..."

The scene just now made both sides of the fierce battle nervous.

Just at that moment, a human Venerable was dragged to death by a dying sea demon Venerable! A Venerable was rescued by Han Fei.

At this moment, at the junction of human beings and sea demons, flames of war had already risen on the entire 800,000-mile battle line.

The human Half-Kings had been ordered by the golden boy to hold off the Sea Demon Venerables. Therefore, when the first sea demon Venerable died, all the powerhouses in the Immortal City had been deployed.

But even so, the top combat power of human beings was still too little.

Han Fei was strong, but in a melee of dozens of Venerables, he couldn't help everyone.

The sea demons in the fierce battle began to flee crazily when they saw Han Fei coming over... Han Fei could definitely catch up with them, but now was not the time to chase them...

Five seconds had passed.

Han Fei had to defend the teleportation array outside. Once the teleportation array was broken, he and the others would really be left behind.

Therefore, Han Fei shouted coldly, "Everyone, I'll give you three seconds to leave the void. Whoever doesn't make it to the teleportation array, die with the sea demons!"

At this moment, he needed to be ruthless.

Time was tight, and Han Fei had no time to chase or save anyone.

Besides, Han Fei found that these people were not suitable for group battles at all. Or rather, they didn't know how to fight in groups at all.

In fact, these people were all fighting alone. They were fighting with great momentum, but the results were disappointing.

The sea demon Venerables weren't stupid. It would only be ten seconds. Even if they would be seriously injured, they might be able to kill a few Venerables. After all, once they succeeded, the situation would change.

After all, they were still in the sea demons' territory. It would only take them a few seconds to mobilize their soldiers.

At this time, Han Fei broke through the void, and the surrounding void was torn apart as a group of people hurriedly rushed out.

In the outside world, in the distance, Golden Boy actually blocked three Half Kings alone.

The speed of a Half-King far exceeded that of a peak-level Venerable. If the time was too short, Golden Boy wouldn't be able to take down a Half-King.

Ye Qian shouted, "Han Fei, that's enough."

Han Fei looked at his subordinate who had just rushed out speechlessly. The array he had just set up had been slightly damaged by the aftershock of the battle.

Han Fei stood in front of the array expressionlessly, quietly watching the Venerables fighting their way out of the void.

In Han Fei's heart, the old turtle said leisurely, "You're too careless. Not everyone has explosive power like yours, which can kill an expert of the same level instantly. Generally speaking, even if they outnumber their enemies, it's difficult to kill an opponent in a mere ten seconds when their strength is about the same. This is reality!"

Han Fei said casually, "However, the human race is ruthless enough."

At this moment, Han Fei saw that Hua Meng suddenly detonated himself with a sea demon Venerable. Seeing this scene, Han Fei just raised his eyelids, because detonating himself didn't necessarily mean death.

On the contrary, it was because the human race outnumbered the sea demons. If someone on their side detonated himself, he could be reborn. But what about the other party? As soon as the other party was reborn, he would definitely be killed by others.

Therefore, Hua Meng made the right choice! Although the self-explosion damaged his cultivation base, Han Fei could make up for it. He was quite bold in doing so.

As he expected, Long Xi rushed up to stab that reborn sea demon Venerable. Her spear shattered, she condensed half of her essence blood, and stirred a big hole in the void with her armor-piercing spear, which was full of cracks and entangled the sea demon Venerable who hadn't been completely reborn.

"Ahhh~"

Boom!

It was at this moment that Han Fei felt the void tremble more than 30,000 kilometers away.

Golden Boy shouted, "Everyone, evacuate!"

The sea demon Venerables didn't want to let them go. So many people are attacking our camp, and you just come and go as you please? Where do you think you are?

Han Fei had already rushed out in an instant. He stomped in the air, activated the Near at Hand Technique, and pulled the nine junior Venerables close to him.

Because of Han Fei's deterrence, the junior Sea Demon Venerables didn't dare to be too domineering. The human Venerables weren't weak, so almost everyone returned to the teleportation array in a second.

A sea demon Venerable used a confinement technique to hold two Venerables back, but Han Fei slashed in the air and directly shattered the space.

The two junior Venerables only had time to cast a grateful look at Han Fei and quickly evacuate.

Han Fei shouted, "Go!"

Even at this point, there was still someone who hadn't left. It was Wang He.

At this moment, Wang He looked very aggressive as he fought against two Venerables alone. He shouted, "Old Li, leave first. I'll be right back."

At that moment, those who didn't know it thought that Wang He was going to sacrifice himself...

Han Fei's lips curled slightly. But then, a Sacrificing Punch blasted out. He launched Agility of Wind and Star Teleportation, and quickly grabbed at Wang He.

The sea demons had witnessed how Han Fei killed a peak-level Venerable with one slash, so when they saw Han Fei, their first reaction was to flee.

Han Fei cursed, "I told you to leave. Why are you still here?"

Han Fei came to the teleportation array with the Near at Hand Technique. He set up the array again and shouted, "This battle is over. Ye Qian, let's go..."

As for Golden Boy, Han Fei didn't need to help him.

How could three Half Kings completely suppress a fake king? If it was really so easy, the Immortal City would have long been gone. How could it last for ten thousand years?

Ye Qian waved his knife, repelled the purple crystal peak-level Venerable, and returned to Han Fei in the blink of an eye.

Han Fei said, "Let's go."

The Purple Crystal Venerable didn't stop him.

However, the moment the three of them stepped into the teleportation array, he stabbed the purple crystal spear in his hand at the teleportation array with all his strength.

Bang! Bang! Bang!

He thrust the whole spear into the array.

Unfortunately, it failed to penetrate the hundred layers of defense arrays that Han Fei set up. Immediately, a second spear thrust out, directly blasting the teleportation array apart.

On the human front line, behind the first island was precisely the rear of the human front line.

Long Xi and the others had already returned. They saw that the teleportation array was unstable, and a large number of space cracks burst out. Just when everyone was nervous and realized that something was wrong with the teleportation array, a light ball rushed out of the teleportation array.

At that moment, Han Fei was covered in wounds, Wang He was dripping with blood, and he looked dead.

However, Ye Qian was completely fine.

Han Fei looked at Ye Qian, who said, "Too many Venerables have died there. I have enough death energy."

Han Fei nodded slightly, glanced at Wang He coldly, and cast the Holy Light Technique on him.

Han Fei shouted, "Your fight was simply a mess."
