

GOF 1621

Chapter 1621: True Heavenly Tribulation

At this moment, everyone thought that the signs of death had appeared! It was impossible for Xue Fan to survive such a powerful attack. This battle had come to an end.

But when everybody thought that the dust had settled, a figure appeared and dragged Han Fei into a brand-new lightning bolt.

Han Fei was shocked. Where did the lightning come from? Who attacked me?

The next moment, the old turtle said, "Not good. The one who just transcended the tribulation is the Blood King, the one who left the Forest of Terror."

The Blood Sea Divine Wood had already been exposed the moment he attacked. He was also shocked. "Xue Fan, did you actually swallow your true body?"

"Hahaha!"

In the lightning tribulation, the ball below Xue Fan's feet just now suddenly cracked.

A person identical to Xue Fan appeared in the lightning tribulation.

Xue Fan laughed frantically. 'Wouldn't I be freer to become a king alone? I have to thank you. If it weren't for you, I wouldn't have had the chance to swallow my true body. I set up the tribulation today so that I could dig out your remaining source energy, as well as this brat... Let me see who can stop me now.'

Han Fei had never met such an insidious person...

The relationship between the Blood King and Xue Fan was like the relationship between Tang Yan and Tang Ge. In fact, they were two independent entities, but their origins were the same.

In fact, the two could become kings together. In this way, they could even help each other.

It was not that it was immoral for Xue Fan to swallow the Blood King...

However, at least now they didn't have to fight each other. They could have become kings together.

As long as Xue Fan was willing to use the big black umbrella or other trump cards, he might really be able to survive the heavenly tribulation.

However, Xue Fan didn't. In order to dig out Han Fei and the Divine Son, he even abandoned his true body. Han Fei even suspected that his true body had been possessed by this b*stard.

When Han Fei landed in the lightning pillar, the White Armor Emperor was shocked. The person who suddenly appeared was actually Han Fei? He had just seen this kid transcend a minor tribulation a few years ago. How many years had it been? This kid could even participate in the battle of kings?

Fortunately, Han Fei had been dragged into the Heavenly Tribulation by Xue Fan. Otherwise, if Han Fei escaped, the White Armor Emperor would have immediately given up on hunting Xue Fan.

And the Blood Sea Divine Wood seemed to have betrayed Xue Fan...

As for why he betrayed Xue Fan, it was still unknown.

However, the White Armored Emperor didn't doubt the Blood Sea Divine Wood, because he had known about it tens of thousands of years before he became a king.

At that time, there was no Blood Sea Divine Wood City at all.

At that time, the Blood Sea Divine Wood was regarded as a strange place in the Water-Wood World. Many people explored it. Both the White Armored Emperor and Queen Life had seen the Blood Sea Divine Wood. In fact, the Blood Sea Divine Wood gave many people resources and didn't pose any threat to the

Sea Clan, the human race, or the Insect Clan...

At this moment, Queen Life's face changed drastically.

'When she got the news from Han Fei, she was shocked and speechless. Did Han Fei really sneak into the Blood Sea Divine Wood City? Furthermore, he had mastered many secrets?

At this moment, the Heavenly Tribulation arrived again, and the White Armor Emperor and the Life King retreated.

Although Han Fei was sucked into the Heavenly Tribulation, they couldn't do anything about it. Not everyone could touch the king-level tribulation. If they dared to enter it, they would be considered as going against the Great Dao.

At that moment, among everyone, only the Blood Sea Divine Wood extended a branch that pierced through the Heavenly Tribulation domain and struck the void, intending to free Han Fei.

Xue Fan snorted coldly, and hundreds of Blood Sea Divine Wood branches controlled by him resisted that branch together.

Xue Fan's voice was sinister. "I knew you wouldn't be completely possessed by me. However, I've already controlled most of your strength. You can't even protect yourself. How dare you try to take someone from me?"

Rumble!

The first lightning bolt was shattered.

Alot of electric arcs were flashing on Han Fei.

Han Fei was lost for words. Who could've known that he would be forced to suffer another person's tribulation before his own tribulation came? Twice!

Last time, there were only six lightning tribulations, but his flesh and blood collapsed, and his bones almost shattered.

This time, although his strength had greatly improved and he had almost recovered to his peak state, he had just recovered.

Besides, his soul power had only been restored for a few months, but he had been struck by heavenly tribulation again.

At this moment, Xue Fan, who was in the lightning tribulation, was also refreshed when he saw Han Fei's physique. He thought to himself, This person's physique is so strong. He's only an advanced Venerable, but he survived a king tribulation unscathed?!

At that moment, the lightning tribulation enveloped the three people.

One of them was Xue Fan, one was Han Fei, and the other was the Blood Sea Divine Wood that was mistaken by the Heavenly Tribulation as Xue Fan.

There was no problem with the Blood Sea Divine Wood. His problem was how to cooperate with Han Fei to take down Xue Fan.

But Han Fei seemed to be in danger.

Han Fei panicked the moment he entered the tribulation. The tribulation of Xue Fan was completely different from that of Jin Changhai!

If he guessed right, Han Fei felt that he probably couldn't survive it. Therefore, he needed to find shelter now!

Buzz!

Han Fei wanted to use the Star Teleportation Technique to escape... However, under the heavenly tribulation, the Star Teleportation Technique was completely ineffective.

At this time, even if Xue Fan died immediately, as long as he was still alive, the Heavenly Tribulation wouldn't disappear. The Heavenly Dao would acquiesce that Han Fei snatched someone else's Heavenly Tribulation. Not only would it not weaken, but it might also become stronger...

Rumble!

The second lightning bolt struck down, Han Fei was too busy to fight Xue Fan.

As for Xue Fan, he was quite cautious about his own Heavenly Tribulation and didn't attack Han Fei.

After all, everyone was in the Heavenly Tribulation, and Xue Fan thought that Han Fei would inevitably die.

"Pfft!

"Look! Click! Click!"

Sure enough, Xue Fan took the second lightning more easily. As for Han Fei, because his body hadn't recovered to its most perfect state, the lightning struck him into the sea.

Han Fei's body, like a porcelain doll, was full of cracks again. It seemed that he could be destroyed at any time!

Obviously, Han Fei didn't dare to be negligent.

At this moment, all kinds of arrays were rapidly condensing around Han Fei. Although arrays might not be useful at this moment, Han Fei hoped they could block as many enemies as possible!

According to Han Fei's estimation, even if his body didn't collapse after the third lightning strike, it should be enough. It was impossible for him to survive the fourth lightning!

At that time, even if he blocked the six lightning strikes with the Yin-Yang Wheel in the sky, it would be good enough.

Queen Life was also very nervous. This is a king-level tribulation! No matter how strong Han Fei is now, how can he resist a king-level tribulation?

Sure enough, the third lightning bolt fell.

Xue Fan blocked it. Although most of his body was broken, he still had the strength to control part of the Blood Sea Divine Wood branches to resist the White Armored Emperor and Queen Life.

At this moment, the only thing worth rejoicing about was that the ground veins had almost been destroyed, and Xue Fan couldn't make use of them anymore...

As soon as the lightning fell, Han Fei was no longer so lucky. Although his repaired flesh and blood managed to withstand the third lightning, his flesh and blood were scattered. The golden bones on his body were shining, and many parts of his body were exposed.

Seeing that Han Fei had survived three tribulations with his body, even Xue Fan's expression changed. How could an advanced Venerable, who hadn't reached the peak, withstand his Great Dao lightning tribulation? How strong was this guy's body?

If Han Fei's strength reached the Half-King realm, it would probably be very easy for him to pass six tribulations with his body, right?

Han Fei didn't use the Heaven Enlightenment Divine Technique immediately.

Han Fei knew that his Heaven Enlightenment Divine Technique might be able to suppress Xue Fan's Great Dao, or even his big black umbrella. Since you dragged me into the king-level tribulation, I dare to kill you! Therefore, Han Fei wouldn't use it unless it was a critical moment.

With a thought, Han Fei roared, "Blood Sea Divine Wood, how about we cooperate? Protect me.. If you protect me, I guarantee that Xue Fan won't become a king."

Han Fei didn't say this to the divine son, but to the White Armored Emperor.

The White Armored Emperor seemed to be fighting fiercely, but he didn't really exert much force.

Queen Life was trying to destroy the earth veins of this place, but what did the White Armored Emperor do?

Buzz!

Hearing Han Fei's words, a crystal clear little blood-colored branch shot to Han Fei.

Xue Fan roared, "Humph! Patriarch Blood Sea, I don't want to kill you because you helped me. Now, die
~*

"Roar!"

'Lightning Tribulation Saber."

In Han Fei's body, the Chaotic Qi shattered, and his strength rose to its peak. In the lightning tribulation, Blade Inferno was rampant.

Boom!

As the fourth lightning bolt struck down, the Blood Sea Divine Tree branch in Han Fei's hand shattered with a crack, and a bloody barrier appeared in front of him.

Kakaka~

Although there were cracks on the bloody barrier, the cracking speed was not fast. It should be able to withstand the fourth lightning bolt.

On the other side, Xue Fan roared at Queen Life, "What a joke. You think you destroyed my ground veins? You don't know that the ground vein array in the Blood Sea Divine Wood City is not the ground veins themselves but the Big Red Trunk."

At this moment, once Xue Fan used the ground veins, the truth would be immediately discovered. He'd better say it himself.

Buzz!

splash!

All the roots of the Big Red Trunk within a radius of ten thousand kilometers suddenly began to absorb energy, causing the Big Red Trunks on the periphery of the Blood Sea Divine Wood City and even 300,000 kilometers away to supply energy to the center.

It seemed that Xue Fan had built all the Big Red Trunk roots into a web of energy.

Once the central needed, the central array would quickly extract the energy of all the Big Red Trunks.

At this moment, a pillar of light rose to the sky from the bottom of the sea and enveloped Xue Fan.

The red light and the lightning tribulation were alternating, and energy ripples spread out one after another towards the Blood Sea Divine Wood...

Chapter 1622: A Narrow Escape in the Tribulation

This battle had actually exceeded Xue Fan's expectations.

Xue Fan didn't expect that these people would really destroy the Blood King's tribulation.

Within 50,000 kilometers, countless Millennium Snappers had died.

Even though most of the Millennium Snappers were still far away from the top of the Blood Sea Divine Wood... under the impact of the huge force, the Law Enforcers within ten thousand kilometers were basically all killed! Hundreds of thousands of them died.

The Millennium Snappers suffered the most. Many of them thought that they could make a breakthrough taking advantage of this king-level tribulation.

However, the suddenly erupted power shattered countless people.

However, in such a situation, the lives of these Millennium Snappers might no longer matter.

Xue Fan frowned slightly. He knew that the White Armor Emperor and Mu Wuhua would come, but he didn't expect Mu Wuhua to attack the ground veins.

Although Mu Wuhua didn't really destroy much of the ground veins, her attacks caused more than 30% of the roots of the Big Red Trunks to be damaged!

At this moment, Xue Fan saw that Mu Wuhua still had no intention of stopping, so he had to use the power of the ground veins in advance.

'When this power gathered, Mu Wuhua said in shock, "Are you crazy? A hundred thousand Red Trunk Forests just to block a heavenly tribulation for you? Aren't you afraid... that you will be haunted by negative karma?"

'The White Armor Emperor was also shocked. Is this person crazy?

Spiritual plants could withstand a lot of energy. These Big Red Trunks were nurtured by the Blood World and laid along the ground veins... Just for this day!

But the countless Big Red Trunks were relatively ordinary demon plants after all. Few of them had the luck of Xue Fan, and few of them had the intelligence of Xue Fan.

Their power was limited.

The Big Red Trunk that Han Fei cut off was actually unconscious. If it were the Big Red Trunks of that level, who knew how many trees had to be sacrificed to resist a single king-level tribulation?

After all, not every Big Red Trunk was like the one that Han Fei cut off... Even the core of the tree was full of spiritual stones.

'That was just an exception. In the Blood Sea Divine Wood City, countless Millennium Snappers lived on the Big Red Trunks. They swallowed and cultivated every day, and their daily intake was not a joke!

Xue Fan blocked the fourth Heavenly Tribulation with the power of the Big Red Trunk.

There were more than a hundred thousand Big Red Trunks here. If Xue Fan blocked the fifth lightning bolt, he would probably be able to transcend the tribulation. However, the number of Big Red Trunks and Millennium Snappers sacrificed was immeasurable!

Therefore, in order to block the heavenly tribulation, Xue Fan sacrificed countless creatures, which might not be tolerated by the Heavenly Dao.

At this moment, Han Fei suddenly exerted three times his strength and punched at the lightning. Then he turned the heavenly tribulation into a saber and slashed at Xue Fan.

“What?”

Xue Fan was stunned. What kind of combat skill is this? Can it even capture the power of lightning?

The Venerable-level divine-quality technique had reached its limit.

At this moment, the void was torn apart, and a thousand-meter-long saber mark appeared. The tip of the saber stirred up a storm and shattered a large number of red roots, slashing at Xue Fan.

Clang!

The red pillar of light enshrouded Xue Fan, and Han Fei’s attack was blocked, but it accelerated the consumption of the ground veins.

Han Fei roared, “White-Armored Emperor, this person is only a Half-King. A Half-King can fight two of you without being defeated. Do you dare to let him survive the king-level tribulation? Bring out some real strength and break his ground veins. Otherwise, there will be endless trouble.”

Although the White Armor Emperor didn’t want to let go of Han Fei, Han Fei was right.

In the past, he had fought Xue Fan with Mu Wuhua. But back then, Xue Fan seemed to use the Blood Sea Divine Wood as the foundation to fight them.

At that time, both he and Queen Life regarded Xue Fan as the Blood Sea Divine Wood. After all, the Blood Sea Divine Wood had become a king earlier than them.

They both knew this.

This time, it was too hasty. The White Armor Emperor was forced to fight. Therefore, he didn’t know much about Xue Fan.

Han Fei’s shout shocked him. He had a deeper understanding of how terrifying Xue Fan was.

‘The White Armored Emperor thought to himself, Xue Fan is so extraordinary. His true body just now endured eight lightning strikes and almost survived the ninth. This Xue Fan probably wouldn’t just die in the fourth lightning strike... Otherwise, why would he dare to transcend the tribulation?

Therefore, the White Armor Emperor gritted his teeth and said, “White Armor, seal the way and hide the sun. Open...”

All of a sudden, the lightning seemed to be covered in black mist.

Holding a spear, the White Armor Emperor stepped into the heavenly tribulation, struck Xue Fan, and grabbed at the heavenly lightning.

Han Fei was dumbfounded. What’s he doing?

Almost at the same time, in Han Fei’s heart, the old turtle suddenly shouted, “Come on, the Heavenly Tribulation domain has been opened. Let’s get out.”

Buzz!

Han Fei tried to move away with Star Teleportation Technique, but Queen Life threw a vine at him.

In the blink of an eye, the White Armored Emperor appeared beside Han Fei like a shadow. He thrust out his spear and cut off Queen Life's roots.

Han Fei was shaken by the huge force and couldn't get out.

However, at the critical moment, Han Fei shouted, "All laws forbidden in this space."

Crack ~

This void sealing ability clearly couldn't stop a king, so it was instantly shattered.

But it was also at the moment that Little Fatty appeared on the broken vine of Queen Life. Queen Life didn't know what Han Fei meant, but in an instant, Little Fatty was dragged away.

And Han Fei himself couldn't leave because of the White Armor Emperor.

Immediately afterward, the power of the White Armor Emperor was shattered.

In less than a second.

'The White Armor Emperor blocked the connection of the Heavenly Tribulation, blew up the terrifying energy absorbed by Xue Fan, grabbed a handful of lightning and stuffed it into his body to temper and absorb energy.

This old b*stard was very smart. He knew that Xue Fan was extremely dangerous, so he agreed to help... However, he didn't want Han Fei to go out. Therefore, he took advantage of this moment to do so many things.

Under a king's attack, most of Xue Fan's body was shattered.

A tremendous amount of energy helped Xue Fan rebuild his body. Of course, some of it was shattered by the White Armor Emperor's spear just now.

At this moment, Queen Life also knew that Xue Fan used the Big Red Trunks as the source of the power of the ground veins.

Queen Life continued to attack the roots of the Big Red Trunks. Because she was distracted, she slowed down and failed to pull Han Fei out.

Boom!

Thunder rumbled in the sky. After the fourth lightning tribulation, the Blood Sea Divine Wood branch in Han Fei's hand hadn't been broken yet, but it probably couldn't last long.

Xue Fan didn't say anything. Although the White Armor Emperor's attack wasn't weak, how could the ground veins that he set up for so long be destroyed so easily?

However, Han Fei surprised Xue Fan. This person was really tenacious. He almost ran away

However, judging from the White Armor Emperor's reaction, he seemed to really want to kill Han Fei. He actually deliberately stopped Queen Life from saving him!

Xue Fan sneered. "White Armor Emperor, I know you can't rest easy until I'm dead. But do you feel comfortable if this person is still alive? It won't be too late for you to attack me after he dies in my tribulation..."

Han Fei's face changed. This as*hole still didn't forget to instigate the White Armor Emperor to kill him?

Han Fei said, "White-Armored Emperor, although there will be a battle between us anyway, Xue Fan is a very powerful evil king. He could fight you two alone when he was still a Half-King. Can you believe what he said?"

Queen Life said, "That's right. This person is not the Blood Sea Divine Wood, but can control a king as a Half-King! White Armored Emperor, you can think about it."

Xue Fan laughed. "Mu Wuhua, don't think I don't know... It was you who colluded with Patriarch Blood Sea. Why are you pretending not to know him?"

The White Armored Emperor was expressionless at this moment. The Blood Sea Divine Wood City had been keeping a low profile. However, the White Shell Royal City and the Cloud Sea Divine Tree were on opposite sides. They often attacked each other, so one of them must die.

How strong would be Xue Fan in the end?

The White Emperor Armor didn't know it, but Han Fei had to die now! He had seen how fast Han Fei grew up!

There were also reincarnated powerhouses in the White Shell City. Even Zhang Xiaotian was only a Half-Venerable now. This was already the speed of Zhang Xiaotian's growth when he kept experiencing the forbidden-level trial.

But the speed of Zhang Xiaotian's growth was way slower than Han Fei's current speed.

The White Armor Emperor even felt that nobody in this world could grow to such a level in such a short time.

The White Armor Emperor immediately shouted, "Mu Wuhua, I've cut off nearly half of this person's ground veins power. Just like he said, I won't attack him unless Han Fei dies."

Xue Fan suddenly frowned. "Are you Han Fei?"

Although Xue Fan had never seen Han Fei, he had definitely heard of him. He had experienced the Four Nine King Tribulation in the Water-Wood World and defeated all the experts on the island.

But at that time, what was Han Fei's level? What was his level now?

Immediately, Xue Fan knew why the White Armored Emperor cared so much about Han Fei.

Unfortunately, Xue Fan didn't care about those battles at all, so he didn't go there. Otherwise, he would've recognized Han Fei.

Rumble!

The fifth lightning struck.

Mu Wuhua controlled the roots to cut hundreds of thousands of kilometers. However, the ground vein network created by Xue Fan had been planned for countless years. How could it be destroyed so easily?

This time, the small crystal branch in Han Fei's hand burst out with a bloody barrier again. And when Han Fei saw that Xue Fan was about to absorb power from the ground veins again... a red pillar of light had already soared into the sky.

Immediately, Han Fei waved his hand, and a thousand-foot high array map fell into the sea.

'As soon as the array map appeared, with the perception of a king, Mu Wuhua could immediately sense that a large array had been established within 50,000 kilometers with the Blood Sea Divine Wood as the center.

'The shape of this array was exactly the Yin-Yang symbol.

'When Mu Wuhua saw this array, she narrowed her eyes. It seemed that Han Fei had also mastered the Yin-Yang Great Dao?

This was just a Yin-Yang array, not a Heaven and Earth Array.

With Han Fei's current ability, unless he was given enough time, it was impossible for him to set up this 50,000-mile Heaven and Earth Array.

He had used Yang Ruoyun's connections to set up this Yin-Yang Array, which was exactly the condition for the deal between Han Fei and Yang Ruoyun!

In the past two days, Han Fei wandered around in his black-mist body to see if there was anything wrong with the array... Then, he could adjust it at any time.

Fortunately, although Xue Fan's breakthrough was too sudden, his array had been set up early. Although it couldn't block Xue Fan for long, it could block for at least a while!

It was not easy for someone who didn't know arrays to break such a big array.

Buzz!

'The huge amount of energy that the Big Red Trunks were trying to transmit to Xue Fan was absorbed by the two array eyes of the Yin-Yang Array!

Chapter 1623: The Cry of the Emperor Sparrow, Eye of Disaster

The moment Han Fei sealed the ground veins, Xue Fan roared ferociously, "All Venerables, break this array quickly."

In fact, the Venerables in the Blood Sea Divine Wood City weren't familiar with Xue Fan, because Xue Fan never got close to anyone. At this moment, the three kings were fighting in the sky, and those who weren't dead within tens of thousands of kilometers were fleeing frantically. What could they do in

such a situation?

These Venerables didn't even dare to look at the place of the tribulation. They had always thought that a Venerable was going to transcend the king-level tribulation, and that Xue Fan was protecting that person and fighting the White Armor Emperor and Queen Life.

At this moment, only a dozen people dared to get close to the Blood Sea Divine Wood at this critical moment.

In the field, within seconds, crises kept happening.

Buzz!

As soon as Xue Fan said so, the black umbrella appeared.

Clang! Clang!

The black umbrella soared into the sky, and Xue Fan roared, "99 Soul Breaking Bells, activate my Hundred Soul Heaven Shrouding Barrier..."

Whoosh!

A black curtain spanned thousands of meters, blocking the sky like a ghost.

In the black fog, hundreds of souls roared, and the souls of Venerables were extremely agitated.

Boom!

The lightning enveloped the hundreds of souls, which were roaring and screaming.

Crack!

Han Fei's blood barrier couldn't last long. It was already full of cracks. As long as a wisp of lightning escaped in, the blood barrier would be broken.

Han Fei asked, "Master Divine Son, are there any more small branches?"

On the other side, Han Fei flipped his hand and wrapped himself in the Earth Vein Spring.

He opened his arms. "Catching me into your Heavenly Tribulation is the only mistake you made... Heaven Enlightenment Divine Technique..."

Buzz!

A hole appeared in the sky covered by the black curtain.

Then the sky was enshrouded by a holy brilliance. The holy light and the lightning intertwined, and Han Fei tried to purify evil with the Heaven Enlightenment Divine Technique that cost ten thousand years of vitality.

The old turtle said, "You're making twice the effort now. If you can completely master the art of purification, the evil will retreat."

Han Fei knew the art of purification.

In fact, he knew the purification technique, but he hadn't reached a high level, and he rarely used it.

Purification required a pure heart that emitted the most sincere holy light.

He didn't have this at all... Therefore, it was almost as difficult for Han Fei to practice the Art of Purification as practicing the Indestructible Body.

Having no choice, Han Fei could only risk his life and consume his vitality. Fortunately, he had snatched a lot of Earth Vein Spring Water, or his spiritual fruits might not have been enough.

Bang! Bang! Bang!

In the Hundred Soul Heaven Shrouding Barrier, one Venerable-level soul shadow after another was annihilated by the holy light.

The power of the Hundred Soul Heaven Shrouding Barrier seemed to be weakening as the soul shadows decreased.

In just three seconds, more than 30 souls in the Hundred Soul Heaven Shrouding Barrier had been purified by Han Fei.

Crack!

One of the 99 Soul Breaking Bells shattered.

Xue Fan's expression changed drastically. What kind of Great Dao is this? Can it be used in heavenly tribulation? It can forcefully purify the Hundred Soul Heaven Shrouding Barrier?

As for the Heavenly Tribulation, it had the ability to expel all evil to start with. Therefore, when it encountered the Hundred Soul Heaven Shrouding Barrier, it was only natural that it attacked it with all its strength.

As a result, the consumption of soul shadows in the Hundred Soul Heaven Shrouding Barrier was several times faster than Xue Fan thought.

Xue Fan had thought that the Hundred Soul Heaven Shrouding Barrier could block at least three lightning strikes, or even the last one! However, the fifth lightning hadn't finished yet, and the first layer of the Hundred Soul Heaven Shrouding Barrier had been shattered.

Crack!

Unfortunately, Han Fei's blood barrier shattered faster than the Hundred Soul Heaven Shrouding Barrier.

The barrier was broken, and Han Fei's flesh and blood melted in only two or three seconds.

"F*ck, I just recovered my body..."

"Heaven Enlightenment Divine Technique."

Fortunately, more than half of the fifth heavenly tribulation had passed. Han Fei activated the Heaven Enlightenment Divine Technique and regathered his flesh and blood.

Outside, the White Armor Emperor clenched his fists behind his back.

The two people in the Heavenly Tribulation couldn't be described as Heavenly Talents anymore! They were peerless geniuses in this era!

However, these two people got together.

As for Xue Fan, God knew where this guy had hunted more than 300 Venerables. He had actually refined this strange big black umbrella... He didn't treat Venerables as Venerables at all.

It seemed that all the creatures in the Blood Sea Divine Wood City could be used by Xue Fan.

As for Han Fei, although he was not an evil cultivator, his potential was simply appalling!

In just a few years, not only had Han Fei grown from an Explorer to an advanced Venerable, but he had also mastered the Indestructible Golden Body... So, how could he let him live?

Besides, Han Fei's Heaven Enlightenment Divine Technique used to be the Human King's Great Dao... With this technique, this person was almost immortal. No wonder Han Fei dared to fight Xue Fan in the King's Heavenly Tribulation.

After the fifth heavenly tribulation, Han Fei's flesh and blood recombined.

However, Han Fei didn't attach the flesh and blood to his body. Instead, he gathered the flesh and blood into a ball. Anyway, they would be minced if attached to his body.

At this moment, Han Fei could still comfort himself by saying that he was letting the Heavenly Tribulation temper his body

Han Fei immediately rushed down to the Blood Sea Divine Wood.

The sixth heavenly tribulation was coming soon. If he didn't find shelter now, even his golden body would be shattered!

Han Fei felt that he could withstand the sixth Heavenly Tribulation with his current physique and golden body. However, there were still the seventh, eighth, and ninth

But this was not his own Heavenly Tribulation. It was not time for him to resist the Heavenly Tribulation. Why should he absorb other people's Heavenly Tribulation to temper his body?

As soon as Han Fei landed, Xue Fan roared angrily, "Patriarch Blood Sea, don't blame me for being ruthless... Devour!"

Bang! Bang! Bang!

Because Xue Fan controlled most of the body of the Blood Sea Sacred Wood, he restricted it from helping Han Fei by swallowing its power.

Xue Fan was not stupid. He knew that even if the Blood Sea Divine Wood contained power, it couldn't be much, Otherwise, he would have been killed.

At this moment, he could control 99% of the power of the Blood Sea Divine Wood.

If the Blood Sea Divine Wood still dared to help Han Fei, he could find an opportunity to completely parasitize him! Because... he had discovered the last source energy of the Blood Sea Divine Wood

Seeing that the divine son didn't respond, Han Fei was confused, and the old turtle said, "It can't help you now. Once it helps you, its last source will be corroded, which is equivalent to Blood Fan completely controlling the power of the Blood Sea Divine Wood. The balance between them is instantly broken, and Xue Fan will definitely become a king!"

Bang!

Without a word, Han Fei activated the Heavenly Void Divine Movement, Agility of Wind and arrays to increase his speed to the extreme. He was about to rush into Xue Fan's Hundred Soul Heaven Shrouding Barrier.

But how could Xue Fan let him do that?

'The Heavenly Tribulation was coming, the void was full of vines, and the fire was soaring. Xue Fan tried to parasitize Han Fei, but Han Fei kept throwing out the Heaven Enlightenment Divine Technique.

Rumble!

Han Fei cursed, "Son of a b * tch, I'm gonna kill you!"

Buzz!

'The Supreme Yin-Yang Wheel suddenly unfolded.

Ignoring the space and the barrier, the void vines were cut one after another, and the Yin-Yang symbol slashed into the Hundred Soul Heaven Shrouding Barrier.

In the outside world, the White Armor Emperor said in shock, "Han Fei actually cultivates two shocking Great Daos? What a human..."

Mu Wuhua couldn't touch the heavenly tribulation at all.

Han Fei was in the tribulation. If she unleashed her strongest attack, it might hurt Han Fei... She could only quickly destroy the ground vein network of the Big Red Trunks and hunt some Venerables in secret

"Alas..."

Mu Wuhua sighed and fell into a dilemma.

But next door, when the White Armor Emperor saw the two of them fighting, his eyes lit up. And he suddenly opened his mouth and swallowed the energy of ten thousand kilometers.

In his hand, a crystal clear white jade shell was condensing.

Mu Wuhua shouted, "White Armor Emperor, don't force me to attack you now."

The White Armor Emperor sneered. "Then come! Both of them have to die today to maintain the balance of this world. Otherwise, who can defend this balance?"

Bang!

'Mu Wuhua immediately struck the void, and the long vine swept towards the White Armor Emperor like a sword.

Both of them were distracted. While fighting, one attacked the heavenly tribulation, and the other tried to destroy the ground veins.

In the Heavenly Tribulation.

Roar!

Xue Fan roared in anger. He had never seen such a ferocious Great Dao! Han Fei was just an advanced Venerable, but he couldn't kill him.

Rumble!

As soon as the sixth bolt of lightning fell, the first barrier of the Hundred Soul Heaven Shrouding Barriers shattered.

The sixth lightning fell. The second curtain of the Hundred Soul Heaven Shrouding Barrier was broken, and the third curtain began to melt.

Rumble!

As the seventh lightning bolt fell, the third layer of the Hundred Soul Heaven Shrouding Barrier shattered, and the ninety-nine Soul Breaking Bells were all broken.

The Hundred Soul Heaven Shrouding Barrier that could have resisted at least three Heavenly Tribulations only blocked two and a half.

'The two of them were covered by the lightning.

Without protection, Han Fei's Supreme Yin-Yang Wheel stopped spinning and was beaten back to its original form. Han Fei had once resisted three Heavenly Tribulations with it.

Xue Fan's body shattered.

This was no longer the beginning of the Heavenly Tribulations. It could be seen that he couldn't pass the seventh Heavenly Tribulation by force, so he simply abandoned fighting the Blood Sea Divine Wood and sent tremendous power into his body.

At that moment, Han Fei used the Heaven Enlightenment Divine Technique to restore his strength, and Xue Fan used the power of the Blood Sea Divine Wood to recover.

'The two of them looked at the sky almost at the same time. The eighth lightning bolt was very important!

Xue Fan suddenly grinned. As soon as his body was recombined, he raised his head and roared to the sky. "This is my territory! All the billions of creatures here are my flesh and blood. If I don't become a king, the world doesn't have to exist!"

Xue Fan knew that the Earth Vein Array would be broken soon. It was doomed to be broken since he used the energy of the Blood Sea Divine Wood to repair his body.

Sure enough, the Blood Sea Divine Wood seized the opportunity and shook all its tentacles.

In an instant, he cut off all the veins among the Big Red Trunks.

Unfortunately, the power of the Blood Sea Divine Wood was limited. The next moment, the Divine Tree trembled and its hundreds of millions of leaves suddenly began to wither.

At this moment, three wisps of Chaotic Qi were shattered in Han Fei's body.

In fact, since the moment he entered the tribulation, Han Fei had been using Chaotic Qi. However, compared to the power of the heavenly tribulation, the Chaotic Qi was consumed too quickly.

Rumble!

'When the eighth lightning was about to strike, Xue Fan roared, "Ten thousand fish return to my source!"

Queen Life immediately shouted, "B * stard, you're killing indiscriminately."

"Heh heh... I gave their lives. I am their only master. Sacrificing themselves for me is their honor."

At that moment, the old turtle said in Han Fei's heart, "A million red fish were instantly drained of their vitality and died..."

At this moment, Han Fei lost his cool. He didn't care about the lives of a million Millennium Snappers, but Xue Fan couldn't become a king!

It seemed to take him a long time, and it seemed in an instant.

Han Fei shouted, "Fuse!"

"Ah~"

Acrow cawed, and a pair of black wings suddenly grew out of Han Fei's back. At that moment, a bloody and brutal vibe appeared on Han Fei.

Whoosh!

He flapped his black wings and fused with the Emperor Sparrow.

A strange light appeared in Han Fei's eyes, making Xue Fan's heart tremble as if a terrifying crisis was coming.

Han Fei shouted, "Eye of Disaster!"

Chapter 1624: Heavenly Demon Tribulation

All this time, the old turtle had described the Emperor Sparrow as magical!

As a result, Han Fei knew how dangerous it could be to own an Emperor Sparrow. If someone discovered the secret of the Emperor Sparrow, the consequences would be unimaginable!

Therefore, Han Fei rarely used the Emperor Sparrow. Although he occasionally released him to get some fresh air, it was just an ordinary hunt and wouldn't cause any problem.

Today, Han Fei didn't know if anyone would recognize the Emperor Sparrow.

However, at this critical moment, he had paid such a huge price. If Xue Fan still became a king... Then wouldn't all his efforts be wasted?

In terms of strength, although he was an advanced Venerable, even Half-Kings couldn't crush him now.

Under his interference, Xue Fan's various means failed

At this moment, Xue Fan ignored the so-called negative karma and forcibly exchanged the lives of all beings in the Blood Sea Divine Wood City for his successful transcending the tribulation.

His craziness was horrifying.

No matter what, it was a race that he had painstakingly cultivated. Xue Fan was indeed their faith.

But now, these Millennium Snappers had all turned into leeks. Not only were their vitality gathering, but their luck might also be sucked away by Xue Fan.

Under such circumstances, Han Fei couldn't find any other way to stop this guy. After all, Xue Fan had prepared too many trump cards.

In the entire Blood Sea Divine Wood City, there were hundreds of thousands of kilometers of Big Red Trunk Forests and hundreds of millions of Millennium Snappers. If the lives of these Millennium Snappers were exchanged for the life of Xue Fan, there was no reason for him to not become a king.

'The Emperor Sparrow was the only power that Han Fei could use now, and the only great technique that the Emperor Sparrow could use at this moment was the Eye of Disaster.

'The White Armor Emperor and Mu Wuhua who were outside didn't know, but Xue Fan sensed danger.

However, after this cry, Han Fei immediately terminated the fusion with the Emperor Sparrow, which puzzled Xue Fan. Even the White Armored Emperor and Mu Wuhua were dumbfounded. What was going on?

Only the Divine Son's Origin World trembled slightly.

At that moment, a storm was set off in the heart of the divine son. "Is... Is it... the Emperor Sparrow?"

The divine son had an extremely noble identity. Although he might be the most destitute son of a god in history, the legacies and knowledge he had were not something others could have.

For example, the appearance of the Emperor Sparrow usually represented disaster.

At that moment, the divine son even wondered if Han Fei was really Wang Han.

However, the cry of the Empyrean Sparrow and the look in its eyes didn't cause any reaction.

Han Fei couldn't help but wonder, "Old Yuan, why is there no reaction?"

The old turtle was lost for words. "That's not my spiritual beast. Why do you ask me? However, from my experience, even if there will be a disaster, it won't come so soon!"

Han Fei:

There was no result, but infinite vitality was gathering.

Neither the White Armor Emperor nor Mu Wuhua could remain calm at this moment. Everything had happened too suddenly. Especially for the White Emperor Armor, either of the two people in the Heavenly Tribulation was extremely dangerous.

'The moment the infinite vitality appeared, the hearts of the White Armor Emperor and Queen Life sank. They seemed to have foreseen the scene after Xue Fan successfully transcended the tribulation.

The two of them subconsciously looked at each other, as if they had decided that if Xue Fan became a king, they would try their best to eliminate him before he consolidated his strength.

As for Han Fei, although Queen Life wanted to save him, the eighth lightning was about to come down... Queen Life was not like the White Armored Emperor who had a shell, so she couldn't rush into the Heavenly Tribulation.

At this time, even Queen Life didn't think that Han Fei could survive such lightning.

At this critical moment, Han Fei didn't give up.

At this moment, Han Fei had no time to conceal Forge the Universe. He had tried entering Forge the Universe multiple times... At this moment, he was in a state of being struck by heavenly tribulation. His body was numb and he was not suitable for fighting. However, he still couldn't enter Forge the Universe.

As long as he could get in, Han Fei would go in now. Anyway, there was a limit to the number of people present. The cage seal was still there, and there was no regular passage in the Water-Wood World to other domains... He had plenty of opportunities to kill Xue Fan and the White Armored Emperor.

The Divine Son and Queen Life probably wouldn't betray him. Even if they did, when he killed the White Armored Emperor, they probably wouldn't be his opponents.

Rumble!

The eighth lightning rumbled, but Han Fei still failed.

Knowing that he had no time, Han Fei roared, "Explode!"

At that moment, Han Fei raised his head to the sky, enshrouded by his invincible will, and punched the sky. The Chaotic Qi in his body kept shattering.

In an instant, the terrifying power of a thousand or even ten thousand punches, each of which could almost shatter an intermediate Venerable, was still not enough under the eighth lightning bolt.

Han Fei's flesh and blood melted again, and cracks appeared on his Indestructible Gold. However, he didn't stop punching. Seeing that the fist mark couldn't break the heavenly tribulation, Han Fei punched Xue Fan and roared, "Go berserk!"

The user of Ancient Desolate War Body would go berserk in battle.

Han Fei exerted a greater power. Ignoring the melting of his flesh and bones, he struck Xue Fan.

Bang! Bang! Bang!

In terms of strength, although Xue Fan wasn't weak, Han Fei was stronger.

Han Fei's strength had already exceeded ten thousand waves. Under his Great Dao, the strength of thirty thousand waves was almost invincible in the Venerable realm.

Even if Xue Fan was talented, he was not as good as Han Fei in terms of strength. Of course, Han Fei dared to do this because he had heard that Xue Fan almost never attacked in person. A person who rarely attacked would definitely not be good at strength!

Sure enough, Xue Fan's body exploded after being hit by thousands of punches.

Originally, he was barely resisting the lightning.

At this moment, Han Fei, with his Indestructible Golden Body, ignored the tempering of the lightning and fought to the death. At this moment, Xue Fan really regretted dragging Han Fei into his own lightning tribulation.

He had thought that Han Fei would be shattered in this first bolt of lightning, but who could have expected that an advanced Venerable could withstand it to the eighth Heavenly Tribulation?

Because Xue Fan's vitality was too exuberant, although his body was constantly collapsing, it was also constantly recovering.

Being bombarded by Han Fei, Xue Fan roared, and the exploded bodies no longer recombined, but turned into huge trees that stretched from the bottom of the sea to the sky.

Han Fei blasted into the tree, punching in all directions, blasting Xue Fan's body apart.

After the eighth lightning bolt fell, Han Fei used the Heaven Enlightenment Divine Technique to heal himself.

Lowering his head, Han Fei found that his arm bones, fist bones, and ribs were all full of cracks. After all, his level was too low!

If Han Fei wanted to survive such a heavenly tribulation, he was still far from being strong enough.

Xue Fan grinned ferociously. "I admit that you are very strong. If you reach the Half-King realm, I'm afraid no one below the king realm can defeat you. However, you won't be able to withstand the Heavenly Demon baptism of the ninth heavenly tribulation... while I have infinite vitality to survive it."

"Bah!"

Han Fei suddenly retreated and his vibe changed weirdly. His human vibe had disappeared, and in a blink of an eye, it became the vibe of the Blood Sea Divine Wood.

Han Fei didn't care how useful the Deceiver Technique could be. He was just copying the Blood Sea Divine Wood now, but the difference could still be recognized. Because the level of the divine son far exceeded Han Fei, Han Fei couldn't completely simulate him.

After that, Han Fei suddenly carried a huge skull that was more than 600 meters long.

It was the dragon head that was buried in the array eye in the Forest of Terror by Zhao Xianglong. Han Fei had planned to use the complete dragon corpse to block the lightning

However, on second thought, it didn't seem right! That dragon corpse only had the strength of a Venerable. However, the dragon head was a real king's bones. How could a king's bones not be able to withstand the lightning?

"A king's bones?"

The White Armor Emperor and Queen Life were not stupid. They recognized the terrifying vibe at a glance. Xue Fan's face was extremely ugly. He didn't expect Han Fei to be still hiding something at this point.

He had no way out. At this moment, he certainly wouldn't waste his energy on killing Han Fei. At this moment, he could only destroy more Millennium Snappers to maintain his infinite vitality and resist the heavenly tribulation!

Xue Fan laughed ferociously. "Let's see if... I can become a king. No matter how many means you have, you're only an advanced Venerable. What can you do if I become a king?"

Han Fei ignored him and sneered. "Heaven Enlightenment Divine Technique."

Han Fei's Ten-Thousand-Year Earth Vein Spring Water had been used up, and half of the ten thousand kilograms of spring water in Forge the Universe had been used up. At this moment, he was still using the Heaven Enlightenment Divine Technique crazily.

However, this time, he didn't just envelop himself, but also the divine son.

Han Fei didn't know if the dragon bone could help him block the last Heavenly Tribulation. However, if the divine son could take back part of his body control, it might help him in the end.

The Divine Son should know what to choose... Xue Fan couldn't live! If he lived, Han Fei would die!

At this moment, the White Armor Emperor and the Life King alone couldn't kill Xue Fan.

Once Xue Fan became a king, he would completely destroy the source energy of the divine son. Once the divine son died, his Blood Sea Divine Wood body would become Xue Fan's avatar. At that time, who could kill Xue Fan?

Rumble!

The clouds were getting heavier and heavier.

The last tribulation turned purple like a magnificent sunset.

While Xue Fan was absorbing the infinite vitality of the Millennium Snappers, he raised his head and smiled. He was fearless in the face of the Heavenly Tribulation. But he didn't notice that Han Fei's vibe suddenly dropped and his peak combat power disappeared.

On Han Fei's Indestructible Golden Body, it was shining, Han Fei could enhance combat power, so could he enhance his defense.

Han Fei: "Old Yuan, from now on, once that guy succeeds in transcending the tribulation, remember to take me away!"

Han Fei didn't want to die here for nothing.

As the saying went, there was always hope. Even if Xue Fan became a king, he might not be comparable to him in the same realm.

Similarly, if he became a king, he wouldn't be weaker than Xue Fan.

Even if Xue Fan could survive today, as long as he was fast enough, he could catch up with him.

Boom!

Purple lightning pierced through the clouds. Han Fei, Xue Fan, and the Blood Sea Divine Wood were all enveloped by this purple lightning. Perhaps because Xue Fan and the Divine Son were too big, there were millions of lightning strikes.

In the endless lightning, Han Fei drilled under the dragon bones. Under his feet, various Coiled Turtle Arrays and Soul Controlling Arrays appeared and collapsed crazily.

Even so, Han Fei still trembled like... a Parkinson patient.

3

At this moment, the picture in Han Fei's eyes suddenly changed

'The scene he had once seen appeared again.

Han Fei realized that this was probably the last Heavenly Demon Tribulation...

Chapter 1625: Die Together?

After the last Heavenly Tribulation, the old turtle had told Han Fei that in a real tribulation, one would have to withstand a great tribulation that tests his temperament.

This tribulation was different from ordinary lightning tribulations.

This tribulation contained both the power of ordinary heavenly tribulations and hidden heavenly demons.

'As for what a Heavenly Demon was like... It was said that everyone saw it differently. Of course, it was still very different from the ones produced by the Heavenly Dao Dharma Eye.

It could be called a heart demon or a test of the heavens!

Last time, when Han Fei was caught in Jin Changhai's heavenly tribulation, he was woken up by the old turtle.

This time, when the picture in front of Han Fei changed, it seemed that everything was quiet. It seemed that he wasn't fighting Xue Fan; it seemed that he was originally in this place.

Mountains and rivers were shattered, magma was everywhere, plants were burned, and smoke filled the sky.

In Han Fei's vision, the rivers were turbulent and full of cracks. Most of the mountains and rivers had collapsed, and the vast land was like a battlefield full of smoke.

Han Fei stood alone in the sky, panting slightly in his battle suit.

Han Fei looked around, wondering why he was here.

"Old Yuan, are you there?"

Han Fei cried in his heart, but the old turtle didn't respond. Han Fei closed his eyes and looked at the Demon Purification Pot, but it didn't respond.

"Damn it! What the hell is this place? Is this my Heavenly Demon Tribulation? That's not right! The old turtle said that it shouldn't be my own Heavenly Demon Tribulation unless the tribulation is my own."

With a thought from Han Fei, the Embroidery Needle appeared in his hand. He weighed it and found no problem.

Han Fei didn't wait in place but shouted, "Old Yuan, Old Yuan... Divine son, are you there?"

Buzz!

Han Fei flew across the sky at a leisurely speed, only to find that everything he saw was the same.

Han Fei could even perceive tens of thousands of kilometers away.

"That's not right! Are there natural disasters or war disasters down below?"

Han Fei was lost for a moment. This didn't seem to be caused by a battle, but seemed to be doomsday.

There were no traces of fighting here, nor any creatures. Except for the collapsed ground, there was nothing.

"Fuse!"

Han Fei seemed to remember something and tried to fuse with Little Black and Little White.

However, nothing appeared, and Little Black and Little White didn't fuse with him.

"It's fake!"

Han Fei took a deep breath and looked at the Embroidery Needle in his hand. All of this should be fake. Even if it had something to do with him, he shouldn't face it now!

Han Fei immediately closed his eyes and triggered the world with his mind. The void collapsed and cracks filled the sky. He sensed the changes in his body.

It wasn't until... Han Fei felt a tingling sensation in his body that he roared, "Heaven Enlightenment..."

Buzz!

At that moment, Han Fei came back to himself.

'When he opened his eyes, his Indestructible Body was almost shattered.

The old turtle roared, "What have you been doing? This is not your Heavenly Demon Tribulation. Why did you use the Heaven Enlightenment Divine Technique so late?"

Han Fei looked up. Thanks to the king-level dragon bones and he had used all his strength to improve his defense power, he was still alive.

Han Fei had already made up his mind that if he really couldn't kill Xue Fan, he would retreat first. Although the divine son might be killed by Xue Fan, he had already tried his best. He would just kill Xue Fan when he returned in the future.

At this moment, Han Fei was shocked by the crazy roars.

'When Han Fei turned around, he saw that Xue Fan had gone crazy... His endless roots were dancing in the air, and he was screaming in pain.

As far as Han Fei could see, nearly half of his roots had been destroyed, and his tree body was riddled with holes. The most amazing thing was that Xue Fan's face was changing rapidly.

On Xue Fan's tree body, large tracts of blood-like red flames were burning, covering his entire tree body.

In Forge the Universe, another ten thousand kilograms of Earth Vein Spring Water was exhausted.

Without hesitation, Han Fei filled up the remaining ten thousand kilograms of Earth Vein Spring Water. I have nothing but toughness!

With the help of the dragon bone, he could weather through the tribulation anyway!

The old turtle said, "This is karmic fire. This person is sinful, stirring up the heavens, disrupting the order of the Great Dao, and slaughtering countless creatures just to reach the Sea Establishment realm... Now he is being burnt by karmic fire. Only by surviving this karmic fire can he become a king."

Han Fei's face was twisted. He gritted his teeth and said, "I think he can endure it!"

At this moment, Xue Fan seemed to have gone crazy. All kinds of rustling sounds appeared on his roots. Some cursed, some begged for mercy, some were angry, some were sad, some were accusing, and some were weeping

Han Fei didn't know if it was in the Heavenly Tribulation or not, but he could almost hear everything, and his head was about to explode.

The old turtle said leisurely, "I don't know if this is the disaster summoned by Emperor Sparrow. Logically speaking, as long as Xue Fan can control it well, these dead creatures won't bite back. After all, Xue Fan has controlled this place for too long."

In the outside world.

The White Armor Emperor said leisurely, "The karmic fire is burning his body, and he is suffering a backlash. Even if he transcends the heavenly tribulation, it won't be perfect. Mu Wuhua, I hope you and I can put aside animosity for now. If he can transcend the tribulation, kill him..."

At this moment, the White Armor Emperor and Queen Life stopped fighting.

The White Armored Emperor tricked Han Fei, but Queen Life had no choice. Whether Han Fei died or not, Xue Fan had to die.

Crack!

Han Fei looked at the cracks on his finger bones. They cracked and then began to heal. The power of the heavenly tribulation was destroying his body while tempering it. The energy provided also repaired his bones.

Needless to say, if Han Fei could survive this tribulation, his body would have to be separated from his bones again!

This time, it would be even worse than last time!

Last time, there were only six levels of heavenly tribulation. This time, there were nine levels!

He didn't know how tough his body must be to keep up with the hardness of his bones.

At this moment, Han Fei discovered that Xue Fan was much more miserable than him.

Seeing how miserable Xue Fan was, Han Fei immediately said, "Old Yuan, your soul is so powerful. Can you kill this guy?"

The old turtle was lost for words. "The Heavenly Tribulation hasn't been over yet. How can I kill him?"

"Let me."

Suddenly, Han Fei heard the divine son's voice transmission. The divine son sighed. "I didn't expect that a moment of carelessness would cause lifelong regret. Wang Han, say hello to Water Immortal for me..."

Han Fei's face changed slightly. Divine son... what does he mean? Pass down his last words?

Bang!

The divine son said leisurely, "Xue Fan, your plan is almost flawless. With you parasitizing my body, you can resist the karmic fire in the end. However, my soul is in the king realm. In that case, I'll kill your soul so that your thirty thousand years of effort will be wasted."

As if realizing something, Xue Fan screamed, "You are not worthy of dying with me! You have nothing except a little residual source energy..."

The divine son said leisurely, "Because, I, am, a, god."

Bang! Bang! Bang!

In an instant, the area within ten thousand kilometers seemed to have been nuked countless times, and the void storm was so dense that Han Fei couldn't tell north from south.

In the outside world, the White Armor Emperor and Queen Life retreated. The shockwave of the explosion swept across 50,000 kilometers.

The divine son had said that he was a god after all.

He had once burned his divinity and fought a king as a Venerable. Today, the divine son maintained his usual pride! You want to use me to become a king? I'll let you die with me.

The entire area of the Blood Sea Divine Wood had formed a vortex of death. Here, the void storm was ceaseless, and the heavenly tribulation disappeared, but what replaced it was seven consecutive bangs.

Seven cracks appeared, and a rain of blood covered the entire Water-Wood World. Whether it was the Cloud Sea Divine Tree or the White Shell Royal City, they were all drenched by the blood rain.

Fifty thousand kilometers away, the White Armor Emperor grinned. "Well, that's good! From now on, there will be no Blood Sea Divine Wood City in this world. Tsk, tsk, what a pity... That's equivalent to three kings!"

The White Armor Emperor laughed and flew away.

Soon after he left, Queen Life heard the White Armored Emperor shout, "The White Shell Royal City, listen to my command. Let's attack the Blood Sea Divine Wood City."

At this moment, the White Armor Emperor was in high spirits. He was right to keep Han Fei in the disaster!

Within 50,000 kilometers, there were Venerables under Xue Fan, who wanted to help Xue Fan.

As a result, several of them were killed by the aftermath, causing seven cracks in the sky.

And according to the intensity of these cracks, two of them were abnormally thick, and tragic cries came from the sky... It seemed that two kings died, and the Great Dao was wailing.

The White Armor Emperor thought that if even the two kings were dead, how could Han Fei be alive?

Therefore, the White Armor Emperor knew that it was time to purge the Blood Sea Divine Wood City. Who came first would get all the resources! Mu Wuhua would probably do the same

Mu Wuhua also sighed.

Under her protection, the octopus that Han Fei gave to her disintegrated.

She didn't know why Han Fei gave her this octopus. It was probably to tell her if he had died or not.

However, Mu Wuhua didn't notice that the moment Little Fatty disintegrated, it turned into white light and disappeared in the dazzling light of the explosion..

Chapter 1626: Old Turtle Surrenders

One month passed.

In a deep cave on the remains of the Blood Sea Divine Wood, a golden skeleton was sitting cross-legged.

In front of the skeleton was a mass of flesh and blood. And in this cave, there was a massive amount of faint blue soul fire... These soul flames were slowly seeping into the flesh and blood.

Beside the skeleton, Little Fatty lay quietly and said weakly, "Five times. I can still be resurrected five times."

Just half a day earlier, Han Fei had just come back from the dead!

This time, Han Fei was really dead, but death didn't mean that he couldn't be resurrected.

'When Forge the Universe was useless, Little Fatty's resurrection technique was a marvelous technique!

At the last moment, Han Fei was hit by a terrifying explosion. However, it was an unparalleled soul impact.

If he resisted it, he might be able to survive, but he would have to search for ownerless souls everywhere.

But in fact, Han Fei was already prepared.

However, what shocked Han Fei was that Xue Fan had already parasitized his flesh and blood, but he didn't activate it yet. Because Xue Fan didn't control his soul but only his body, the Demon Purification Pot didn't move.

In the end, Han Fei simply detonated himself.

The reason why Han Fei dared to blow himself up was that this place would become a forbidden area. The void would collapse and it would be difficult to restore. Those below the king level would probably die if they entered here.

And it was impossible for a king to enter.

First of all, they had to face the danger of the void storm. In addition, without Xue Fan and Divine Son, there were only the White Armored Emperor and the Life King left in the entire Water-Wood World.

Who would dare to break into the forbidden area and find treasures that might not exist? In fact, in that kind of explosion, they didn't think there would be any treasures left.

Once someone came in, the other person would probably attack the other party's Venerables. This was something neither party could accept.

Therefore, at the last moment, Han Fei chose to blow himself up. He bet on his luck.

Having seen a lot of death, Han Fei didn't fear to die.

Besides, he had a backup plan. If his true body died, his clone in the Demon Subduing Tower would come back one day and take back everything here.

It could even be said that that one wasn't just an avatar. Back then, he had cut half of his soul and stuffed it into his avatar.

In fact, this body was called his true body just because his main memories existed in this body.

But it turned out that Little Fatty would return after self-destruction.

Little Fatty and Han Fei's contract was that they wouldn't die.

When he used up his nine lives, he wouldn't be able to come back to life again.

Little Fatty was very tired, because it was too difficult to resurrect Han Fei, He came back to life on the first day, and Han Fei's body was absorbing the energy and spiritual energy here and repairing itself. It took a whole month to form a head half a day ago and a wisp of soul returned.

Han Fei found it amazing that he was still alive when he had only one head left.

However, Forge the Universe was still there.

The Earth Vein Spring was used up, but the vitality spiritual fruits from the Immortal City were still there.

Therefore, Han Fei returned to Forge the Universe. The tremendous spiritual fruits were shattered, and the Heaven Enlightenment Divine Technique continued to descend.

Han Fei didn't recover outside, mainly because he was afraid that the White Armor Emperor would discover him. Then, it would be troublesome if the White Armor Emperor broke in and fought him

At this moment, Han Fei came out to cultivate because there were a large number of ownerless souls saved outside. Han Fei scattered a large number of souls to absorb them, and in the end, the ownerless souls filled this tree hole.

Han Fei continued to collect ownerless souls.

The Divine Son perished together with Xue Fan. Unfortunately, he didn't expect to take Han Fei away too. Otherwise, he might not choose to die with Xue Fan.

"Phew ~"

Han Fei's flesh and blood ball was practicing the Indestructible Overlord Body. It was the first time that Han Fei had enough ownerless souls to practice the marvelous technique.

Han Fei felt that when Ren Tianfei created this technique, he probably didn't consider... cultivating the latter part of this technique would be so difficult!

Now, if Han Fei forcibly swallowed the ownerless souls here, his soul power could definitely reach more than 200,000 points.

However, Han Fei left all these ownerless souls to his body. He wanted to cultivate the Indestructible Overlord Body to its peak!

Another day passed.

When Han Fei looted all the ownerless souls he could find, he entered Forge the Universe again.

“Phew ~”

Han Fei let out a long breath. Although he didn’t need to breathe, it had become a habit.

Han Fei said, “Old Yuan, when I was looking for ownerless souls, I found two things. Firstly, there seems to be no way out...”

Han Fei sat cross-legged again and his consciousness appeared in the depths of his sea of consciousness. Han Fei saw that the Demon Purification Pot was pressing on the old turtle. Needless to say, the old turtle must have been trying to escape when he died

However, Han Fei didn’t care at all. He just said, “Phew! Old Yuan, aren’t you tired being pressed down like this?”

The old turtle seemed to be pressed like this for a long time and had been used to it. He asked, “What’s the second?”

Han Fei smiled casually. “The second one? I found that you secretly swallowed at least a hundred thousand ownerless souls. Don’t tell me you didn’t. I’ve searched this place and only found about a hundred thousand points.”

The old turtle said, “They were taken away by the void rift! When you died, I was suppressed by the calabash and had no time to steal your ownerless souls.”

Han Fei sneered. “Oh! Really? If you say so! I won’t pursue the ownerless soul matter anymore. However, this is the best chance for you to escape, but you missed it. So now you can’t blame me. You failed to escape this time... This means that you will never have a chance of escaping. Therefore, you can consider signing a master-servant contract with me. Don’t wait for me to kill my way back to the Thousand Star City, wipe out the big clans, and unify the Yin-Yang World. At that time, I will be the real Ninth Heavenly Lord who controls eight million kilometers of sea and the lives of billions of people

“Humph ~”

‘The old turtle snorted and didn’t say anything else.

However, he couldn’t be more devastated. Who could’ve known that the calabash was still suppressing him even though Han Fei was dead?

Unfortunately, he didn’t run away.

At this moment, the old turtle was indeed thinking about what Han Fei said. This guy’s luck was really good! He was caught in someone else’s king-level tribulation twice but survived.

Last time, he saved Han Fei, but he didn’t have time to run.

This time, he couldn’t save Han Fei, nor could he run away.

Guessing that the old turtle was cursing in his heart, Han Fei said leisurely, "Old Yuan, we're already so familiar with each other. You can indeed consider it. Okay, that's all I have to say. I need to cultivate in seclusion for a while. You still have a lot of time to consider."

In Forge the Universe, in Han Fei's eyes, soul fire was dancing.

On the first day he woke up, he had done too many things and hadn't checked his body yet.

Information popped up in his eyes.

Owner: Han Fei

Level: 89 (Peak-level Advanced Venerable)

Chaotic Qi: 523

Spiritual Power: 125,001

Perception Range: 45,000 kilometers

Strength: 14,618 Waves

First Spiritual Heritage: Unknown

Second Spiritual Heritage: Unknown

First spiritual beast: Twin Yin-Yang Spirit Swallowing Fish (level 77)

Second spiritual beast: Emperor Sparrow (level 59)

Main Art: Sky Stealing Technique, level six of Void Fishing (Venerable Level, Divine Quality)

Han Fei wasn't surprised at all to see that he had become a peak-level advanced Venerable.

Last time, he had reached the peak of the intermediate Venerable after the six levels of Heavenly Tribulation. However, his realm was stuck, and his body was almost broken.

This time, he survived a nine-level heavenly tribulation and became a peak-level advanced Venerable.

'The growth of his spiritual power was probably because he swallowed more ownerless souls after he was resurrected. As for the growth of his strength, obviously it was mostly brought by the tempering of the heavenly tribulation.

No... to be precise, it was because his bones were tempered by the heavenly tribulation. If his flesh and blood were tempered together, his strength would be more than 15,000 waves.

'There weren't many other changes.

Almost 200 wisps of Chaos Qi were used.

'There was nothing he could do! If he couldn't even bear to spend 200 wisps of Chaotic Qi, how could he fight a quasi king?

Although it was a big loss, it was worth it!

In fact, there was another thing to be thankful for: the dragon head bone that was bombarded by lightning had probably become a real top-quality refining material!

It was the skull of a king. Now, after being tempered by the heavenly tribulation, the dragon skull glowed with lightning. How many Sea Quelling Bizarre Treasures could it be made into?

Although Han Fei hadn't started making it, the dragon head bone had become the most valuable treasure in Forge the Universe. It was even more valuable than the whole dragon corpse.

Of course, the top priority was not the dragon head, but to restore Han Fei's body.

At the same time, he had to cultivate the Indestructible Overlord Body.

Not only that, but Han Fei also started his dragon bones swallowing plan. In any case, the power of the dragon bones could temper his body.

In Forge the Universe.

Three years later.

Han Fei was calcining himself.

In the first year, after he fused nearly 100,000 points of ownerless souls into his body, Han Fei's flesh and blood could be attached to his bones, but it was still not perfect.

As for the Indestructible Overlord Body, it had reached a wonderful critical moment, which was the unification of his body, bones, and soul. Now his bones and soul power were very strong and could meet the demand of his Great Dao.

Perhaps his soul was still weak, but it was better than his flesh and blood. When Han Fei's body reached the same level as the Indestructible Body, it would be the end of his cultivation of the Indestructible Overlord Body.

In the second year, he tempered his body with the dragon energy swallowed with the Dragon Swallowing Technique and his body finally stopped shattering.

In the third year, Han Fei began to study new body-refining techniques.

But after a whole year, Han Fei found that apart from continuing to temper his flesh and blood with the Indestructible Overlord Body, other body-tempering techniques had no effect on strengthening his body.

At this point, Han Fei didn't want to wait anymore. He wanted to leave this place.

When Han Fei was about to leave, the old turtle suddenly said, "Han Fei, let's sign the contract!"

Chapter 1627: Remnants of Divine Son

Hearing what the old turtle said, Han Fei was stunned for a long time and then laughed.

It turned out that Old Yuan was still scared! Now was the best time for him to cozy up to Han Fei. Old Yuan, such a smart turtle, finally knew to seize the moment.

In the old turtle's opinion, it was extremely uncomfortable to sign a master-servant contract with Han Fei. However, Xue Fan's tribulation proved Han Fei's luck again.

If the Blood Sea Divine Wood didn't know Han Fei, if Han Fei didn't send his men to the Blood Sea Divine Wood City, if Han Fei didn't obtain the Earth Vein Spring by chance, if the Divine Son didn't sacrifice himself to protect Han Fei, if Han Fei didn't have the Nine Death Soul Splitting Octopus... All these ifs were the reason why Han Fei could survive such a heavenly tribulation!

Poor Xue Fan. He was definitely a legend of an era. He was probably one of the most cunning people he had ever seen. However, he was still killed by Han Fei.

Xue Fan had probably considered the backlash of the Blood Sea Divine Wood, but he didn't expect Han Fei's influence on his tribulation.

He believed that he could withstand the backlash from the Blood Sea Divine Wood. In fact, the moment the Blood Sea Divine Wood revealed its soul was the best time for him to devour it.

However, Han Fei had mastered the Heaven Enlightenment Divine Technique and sacrificed ten thousand years of his vitality to help the Divine Son purify evil. This resulted in the failure of Xue Fan's Parasitic Technique, so he could only avoid the Heaven Enlightenment Divine Technique.

In fact, from this matter, it could also be seen that the Great Dao of Heaven Enlightenment was stronger than the Great Dao of Parasitism. At least, it was stronger than the Great Dao of Parasitism that Xue Fan had mastered now.

At this moment, Han Fei chuckled. "Old Yuan, you should have done this a long time ago. A master-servant contract is not shameful. I won't really treat you as an old servant. In the future, maybe I can find your body for you. If I become an emperor or even a god one day, you'll be in for a treat."

The old turtle was lost for words. "Stop dreaming... Since I've already decided, let's sign the contract... You've used up all the things you can use to temper your body. In this area, your body tempering has reached the limit. It's very difficult for you to further improve your body. You need a truly powerful body tempering technique now."

Han Fei looked at his body that was full of cracks and took a deep breath. "Is my body refining technique not enough?"

The old turtle snorted. "The two heavenly tribulations tempered your bones to the limit that a Venerable can bear. But you can still become stronger... This shows that your Indestructible Golden Body is still far from your limit in a sense. Although your bones can continue to become stronger, your body

can't withstand it. As you transcend the tribulation, the problem will only become more and more serious... Do you want your flesh and blood to disappear when you become a king, leaving nothing but bones?"

Han Fei said, "My body is already sturdier than most people. Then what about others?"

The old turtle said, "Their bodies may not be strong, but their coordination is good! Although your body is strong, it's not coordinated enough. Besides, aren't you walking the mediocre path like most ordinary kings?"

Han Fei shook his head and narrowed his eyes. "Then how can I get a good body refining technique?"

The old turtle said, "It's time for you to leave this place. The Water-Wood World and the Yin-Yang World are a bigger cage. Except for the three kings, there's basically nothing else that can improve your strength. Although I have a body-tempering technique, it's a great technique of my Turtle clan that you can't use. You need to go to the Thirty-Six Mystic Worlds to find a stronger body-tempering technique. Besides, from now on, you need to use all your strength to temper your body."

Han Fei perked up and smiled. "Before I leave, I have something to do."

All contracts were a binding force based on the rules of the Great Dao.

It was said that in ancient times, many things could be bound by a contract... It was like borrowing money from someone and letting the heavens vouch for him, if that person refused to return the money, the heavens would strike him to death with lightning.

This was the restriction of the contract.

There was nothing special about the master-servant contract, except that it was more binding on the servants.

In other words, the old turtle had his own independent thoughts and actions, but he couldn't bite his master, attack his master, hate him, or secretly push his master into danger.

If the master died, the servant died. If the servant died, the master was fine.

That was all the content of the contract.

In fact, if Han Fei and the old turtle only regarded the contract as a bond of cooperation, like a contract, the old turtle could accept it.

From the very beginning, what the old turtle found most unacceptable was that he, a dignified emperor, became someone else's servant.

If the old turtle had met someone like Emperor Sparrow in the beginning, the old turtle would have immediately agreed with a smile.

But now, Han Fei's strength and luck proved his extraordinary strength.

As Han Fei said, if he became a king, he wouldn't be of much use to Han Fei. Once Han Fei entered the Thirty-Six Mystic Worlds, what he saw would be different.

A moment later, when Han Fei felt that the contract was complete and he could even control the old turtle's life and death

At that moment, the Demon Purification Pot suddenly disappeared from the depths of Han Fei's sea of consciousness. After leaving Han Fei's sea of consciousness, the Demon Purification Pot returned to Han Fei's soul and seemed to be able to extend out between his eyebrows.

Han Fei asked in surprise, "Old Yuan, do you want to come out for a walk?"

The old turtle shook his head. "No, I'm just a soul body. When you leave this place or return to the Yin-Yang World, release Gui Sanging, and I can parasitize him."

One day passed.

It had been three and a half months since the battle that day. Han Fei spent the rest of the month refining his body in Forge the Universe.

At this moment, Han Fei's face, which wasn't handsome to start with, was full of cracks and looked even a bit scary.

Han Fei grabbed a piece of Blood Sea Divine Wood and a mass of spiritual fire appeared in his hand. In less than 50 seconds, a red mask appeared in his hand.

This red mask only had two holes in its eyes, and its nose slightly bulged. Han Fei casually covered the mask on his face.

To be honest, it was not that Han Fei couldn't change, but that he happened to see the Blood Sea Divine Wood and wanted to use it. After all, wearing a mask was quite cool.

Besides, it was better not to be recognized.

At this time, Han Fei sighed slightly. "What a pity. The divine son sacrificed his life to save me, but I can't return this favor!"

The old turtle said, "Actually, he's not necessarily dead."

"Huh?"

Han Fei's face changed slightly. "What do you mean?"

The old turtle said, "Demon plants, just like your other teacher... the Water Immortal. When a demon plant dies, it will very likely leave behind a seed. Even if it won't be the original him after the seed grows up again, they want to live on. This is the instinct of demon plants... You can find it with the Vast

Ocean Navigator."

Han Fei raised his eyebrows. Really? Are demonic plants really so powerful?

Just now, when the old turtle was speaking halfway, Han Fei's eyes lit up. At this time, the Vast Ocean Navigator appeared in his hand and began to spin.

As long as it was spinning, there was hope.

The old turtle said, "You can also look for that Xue Fan."

After the baptism of the final terrifying explosion, Xue Fan's Big Red Trunk body couldn't be found at all. The divine son's Blood Sea Divine Wood trunk and branches were all crushed, and some of them might become treasures.

Only the part from the bottom of the sea to the surface of the whole tree was left, which was also seriously damaged. But even so, Han Fei couldn't put it into Forge the Universe.

The Blood Sea Divine Wood Body, in theory, was comparable to the Cloud Sea Divine Wood, but the divine son didn't develop it that much. Finally, about 800 meters from the bottom of the sea, Han Fei entered a tree and came to a strange dark space.

"Eh! This is..."

Han Fei couldn't help being puzzled. A strange space collapsed inside the body of the divine son... No power was shown, but it couldn't be detected?

The old turtle said, "This is his Origin Sea."

Han Fei's heart stirred. He extended his hand and disappeared into the tree.

When Han Fei returned to the land of the Grand Myriad Mountains, he couldn't help but sigh. It turned out that the entrance to the Origin Sea was like this, collapsing into such a state.

Han Fei scanned around with his perception and saw a small red branch growing on the mountain where he came out last time.

"Huff!"

Han Fei let out a sigh of relief and said, "It seems that divine son still left a trump card. However, wasn't he afraid that I couldn't find it..."

The old turtle said, "At least, it's better to keep it in his Origin Sea than outside. If it's possessed again, he'll be completely annihilated."

Han Fei appeared on the top of the mountain with a swish, carefully dug out this small tree, and put it into the Sea Quelling Painting.

It was stored in the Sea Quelling Painting instead of Forge the Universe because this small tree couldn't enter the latter at all. Han Fei felt great resistance. Unlike when he brought the Water Immortal with him, Han Fei wasn't sure if the divinity of the divine son had been completely burned up. Anyway, the price to place it in Forge the Universe was too high.

After finding the divine son, Han Fei looked at the land of the Grand Myriad Mountains, which was also the Origin Sea of divine son, and said, "Old Yuan, is such a big space just wasted like this?"

The old turtle asked, "Do you want to take it away?"

Han Fei asked, "Can I?"

Pondering for a moment, the old turtle said, "No."

Han Fei was lost for words. "Isn't that the same as not saying anything?"

'The old turtle said, "Now that divine son has just died, his soul is dead, but his body isn't completely dead. This Origins Sea will slowly absorb the remaining power of his body. In the end, when there is no power to use, he will return to the world."

Han Fei frowned. "How long will it take?"

The old turtle: "I'm not sure. It depends on the time when the Origin Sea collapses. But no matter how fast it is, it'll take at least hundreds of years."

Han Fei said, "Is the Origin Sea useless after its master dies?"

The old turtle said, "The power of the Origin Sea will return to the world and then the world will feed it to the millions of races in the world. How can it be useless?"

Han Fei curled his lips. "I know, the energy conservation law..."

After finding the remains of the divine son, Han Fei searched in his Origin Sea again. After confirming that there were no traces of Xue Fan, he cut open the void and went out.

When he used the Vast Ocean Navigator for the third time, Han Fei still found the remains of Xue Fan. This guy hid a small vine about an inch long in a remote dilapidated sandland more than 50 kilometers underground with a red seed underneath.

Han Fei crushed the red seed without hesitation, not even leaving any dregs.

Perhaps this red seed would grow into a different Big Red Trunk. However, he couldn't be merciful now. Otherwise, if he gave Xue Fan a chance, he might be able to turn the world upside down again one day.

To be honest, Han Fei didn't think Xue Fan was very talented, and at least Xue Fan was not as talented as him... But was talent everything? In terms of strategy, even those who were a few levels more talented than Xue Fan would probably be crushed by him.

Wasn't the divine son inferior to Xue Fan in terms of talent? Han Fei didn't believe it. However, even the divine son had fallen for Xue Fan's trick.

It could be seen that the path of cultivation didn't rely solely on talent.

After confirming the death of Xue Fan, Han Fei felt much more at ease.

Looking around, Han Fei smiled. "Old Yuan, we should go out.."

Chapter 1628: Yang Ruoyun Died

'When Han Fei stood outside the Blood Sea Divine Wood, he saw nothing but devastation.

Even near the Blood Sea Divine Wood, void cracks often appeared.

Above the sky, in all directions, the space cracks gradually formed a void storm. That was not a good place to stay. The slightest carelessness would cause one to sink into an eternal void black hole.

Generally speaking, if you were trapped there, you would probably be killed. If you were lucky enough to survive, where could you go? Or would you be lost in the darkness forever? No one knew the answer.

Seeing the void storm, the old turtle suddenly said, "If you're willing to cultivate here for ten years, tempering your body at the edge of the void storm might increase your physical strength by ten percent."

The corners of Han Fei's mouth twitched. "No! If I want my body to be completely compatible with my Indestructible Golden Body, I need to be at least 50% stronger."

"60%."

Han Fei:

Han Fei said, "So, this 10% is too little and too slow for me. I can also refine my flesh and blood with heavenly thunder, which will not only strengthen my body by 10%."

Han Fei was talking about deducing the seventh level of Void Fishing.

At this time, Han Fei had already felt the power of the heavenly tribulation. The seventh level of the Void Fishing corresponded to the king realm. Therefore, Han Fei wasn't confident enough and hadn't deduced it yet.

Han Fei decided that he would use it when he became a peak-level Venerable and was about to break through to become a Half-King... Or, he could try to master the Indestructible Overlord Body first.

As for the cultivation of the Indestructible Overlord Body, he was still lacking the unification of bones, soul, and flesh.

However, none of these were a perfect solution.

Han Fei also knew a place that could help him temper his body, and the tempering might be fast and effective. That was... the Thunder Prison.

Unfortunately, the Thunder Prison was a forbidden-level secret realm in the White Shell Royal City.

It was not impossible to find an opportunity to enter it, or even not difficult. However, to open a forbidden-level secret realm? That would definitely attract a lot of attention.

Therefore, Han Fei could only solve the main problem first before he entered the Thunder Prison again.

As for what the old turtle said, to leave Yin-Yang World and Water-Wood World... it was not the time yet. He didn't want to leave as an advanced Venerable.

The existence of Xue Fan and the White Armor Emperor made Han Fei see the horror of the strong.

There might not be that many obsessed and evil cultivators like Xue Fan, but there were definitely many ordinary kings like the White Armor Emperor in the Thirty-Six Mystic Worlds!

A White-Armored Emperor could resist the Heavenly Tribulation in a short time... If the White Armor Emperor caught him, he would probably be blown up in one second.

Zhao Xianglong was even more terrifying!

That guy had slaughtered countless dragons and hadn't died yet... He might have fought hundreds of millions of kilometers of the sea alone. But there were countless such strong masters outside.

Han Fei clearly remembered that Zhao Xianglong had searched for helpers everywhere. Although no one helped him, were the people he turned to for help all weaker than him?

Not necessarily!

To the strong, they wouldn't ask the weak for help! Therefore, although Han Fei hadn't visited the Thirty-Six Mystic Worlds yet, he knew that there must be many strong masters there.

Suddenly, Han Fei felt that only the big clans in the Yin-Yang World were easy to bully!

Of course, although Han Fei had a lot of ideas, he was still sitting cross-legged. Stepping on the Spirit Gathering Array, countless Spirit Gathering Arrays gathered into a large Spirit Gathering Array, and a tremendous amount of spiritual energy was gathered.

He needed to wait a day for the Vast Ocean Navigator to recover

In this sudden battle, the ones who suffered the greatest blow were the Millennium Snapper cultivators in the Blood Sea Divine Wood City.

On that day, tens of millions of Millennium Snappers lost their vitality and died for no reason. Many Millennium Snappers were dumbfounded and didn't even have the time to cry.

For them, this was the end of the world.

The Big Red Trunks were collapsing, the ground veins were collapsing, the Blood Sea Divine Wood was cracking, and their companions were dying... The only thing they could do was to escape

In fact, these Millennium Snappers didn't know that they were actually lucky. Those unlucky ones had already been sucked to death by Xue Fan.

But in any case, the Blood Demons were the common enemy of the Cloud Sea Divine Tree and the White Shell Royal City. Now that their king had perished, the other two parties wouldn't show any mercy to them.

In the past three months, although Han Fei didn't feel anything, 13 Venerables had actually died.

In the past three months, Yang Ruoyun had the most complicated feelings.

She had turned from a human being into a Millennium Snapper because she didn't want to be a human being anymore. She felt that it was extremely difficult for her to stand out among the crowd and become a powerhouse. However, she happened to have the opportunity to become a strong master. It was indeed difficult for ordinary people to refuse.

But now, Yang Ruoyun wasn't sure.

She knew that the disaster was probably related to Han Fei.

She thought that Han Fei would fulfill his promise, because not only did Han Fei give her a top-level cultivation technique, but he also signed a Great Dao oath with her. After this matter, he would never touch her again. After all, Han Fei was so strong now. He didn't have to bother with her, right?

Little did Yang Ruoyun know that Han Fei was going to destroy the Blood Sea Divine Wood City!

At this moment, millions of Millennium Snapper were being besieged, and the battle line spread across a million kilometers. The Blood Sea Divine Wood City had become a paradise for adventure in the Water-Wood World.

Neither the White Armor Emperor nor Mu Wuhua was prepared to accept the Blood Demons. After all, Xue Fan's performance was too weird.

They all knew that these Blood Demons were actually Xue Fan's blood bank.

If they really accepted these Blood Demons, who would they cry to if something went wrong?

Therefore, they just let their subordinates kill the Blood Demons. This was what they deserved for following an evil king.

At this moment, Yang Ruoyun was fleeing with a hundred people. There were two groups of people chasing her, one was sea demons and the other was insects.

"Ruoyun, I'm afraid we can't escape. You have a lot of resources on you. Run quickly. Don't think about avenging us in the future. The Blood Sea Divine Wood City is doomed."

Someone sighed. "Unfortunately, we are supposed to be human beings."

Someone turned back. "I want to fight and die like a human... I hope that I will be a human again in my next life."

Pursing her lips, Yang Ruoyun watched the people following her dwindle. Gritting her teeth, she cried and fought desperately for survival.

In the end, when a bald head blocked her way, Yang Ruoyun knew that she was doomed.

Yang Ruoyun took a deep breath. "Zhang Xiaotian, I want to know why you're chasing me."

Zhang Xiaotian looked at Yang Ruoyun casually and said expressionlessly, "Hand over the resources."

Yang Ruoyun said, "I don't know what you're talking about. If I had resources, I would've long since handed them out to a Venerable in exchange for his protection."

Zhang Xiaotian shook his head slightly. "Then die!"

"Wait a minute ~"

The desire to survive made Yang Ruoyun activate her instincts. She said, "Wait, I don't have them with me. I'll take you to get the resources."

Buzz!

However, Zhang Xiaotian appeared in front of Yang Ruoyun in the next second and pierced her chest with a spear.

Zhang Xiaotian smiled. "Do you know that I can actually feel your mental waves? You're lying to me."

Then, Zhang Xiaotian extended his hand, pierced Yang Ruoyun's jaw with two fingers, and took out a bloody Sun-Moon Shell.

At this moment, Yang Ruoyun hadn't died yet, but Zhang Xiaotian had shattered her heart and reached out to suck her power.

Zhang Xiaotian said, "Little girl, I've lived more than 6,000 years. How can you trick me? Just rest in peace! In this vast sea, the prosperity or destruction of a race happens every day. It's just that your race is a little bigger."

A moment later, when Zhang Xiaotian sucked the last wisp of power from Yang Ruoyun and was about to tear through the void to leave

suddenly, he turned around, only to see a man wearing a red mask standing behind him.

At that moment, Zhang Xiaotian felt a chill down his spine.

"Who are you?"

Han Fei said in a low voice, "I'm... someone you can't defeat."

Zhang Xiaotian:

Buzz!

The void shattered, and Zhang Xiaotian made a prompt decision to trigger the surrounding void to get a chance to escape.

Han Fei, on the other hand, didn't move at all. A suppressing pressure descended, instantly crushing Zhang Xiaotian's body into pieces.

Zhang Xiaotian turned into a big octopus and looked at Han Fei in shock. "Are you... a Half-King?"

Han Fei blinked and looked at him. Then he waved his hand, and a space crack turned into a knife light, crushing a piece of flesh that splashed out.

*Abhh~"

When the knife approached, the flesh surged and tried to escape by burning its blood. Unfortunately, it was just wishful thinking.

When Zhang Xiaotian died, Han Fei finally said leisurely, "I am your father."

The old turtle was lost for words. You killed him just because he once fought you? Look at you, you're so damn vengeful. You don't look like a good person at all.

Han Fei grabbed the Sun-Moon Shell and checked Zhang Xiaotian's own Sun-Moon Shell.

"Humph, a bunch of rubbish."

Han Fei stomped, and a cave appeared. Yang Ruoyun's body fell into it.

Han Fei threw the two Sun-Moon Shells in and said casually, "I didn't kill you, but I'm not obligated to save you, right? I would've considered saving you if you were still a human. Unfortunately... you're not."

Chapter 1629: The Birth of A King

With the Vast Ocean Navigator, as long as there was a weak spot in the void storm, Han Fei could drill through it.

After coming out, Han Fei wanted to leave.

However, on second thought, the destruction of the Blood Sea Divine Wood City should be accompanied by the destruction of the Millennium Snapper race.

This was something that Han Fei had thought of earlier. Therefore, when he found the Fish Dragon King and Yang Ruoyun, their fate was already decided.

He came back at this moment just because he was curious.

Han Fei had anticipated Yang Ruoyun's death.

She had always resorted to petty tricks, but they were useless against an old monster like Zhang Xiaotian. This was the disadvantage of petty tricks. The strong relied on their strength after all. Of course, it was better to have brains.

The old turtle said, "The Sun-Moon Shells have a lot of resources. Do you want them?"

Han Fei's face immediately darkened. "Who are you looking down upon? I, Han Fei, will not rob these petty things! The Zhang family of the Thousand Star City is my first choice."

Han Fei didn't try to sneak into the White Shell Royal City.

Instead of sneaking in now... and taking the risk, why not go to the Yin-Yang World first? Sweeping the big clans first was the most important thing.

And to go to the Yin-Yang World, he could only go to the Cloud Sea Divine Tree.

However, before he went, Han Fei specifically used the Vast Ocean Navigator to search for the Fish Dragon King. This brother, from the arrogance he showed in the beginning to the endurance he showed now, could actually have become a great talent

However, the Vast Ocean Navigator didn't turn, which meant that this guy might have died.

Han Fei shrugged and said casually, "I wanted to send you off, but it's a pity,

Half a day later.

On the top of the tree in the Fiery Sea.

Han Fei arrived quietly. He looked at the little bald guy who was absorbing the heavenly fire on the top of the tree and smiled. "Golden Crow, long time no see."

Buzz!

At this moment, the Golden Crow's strength was completely different from before.

'When he saw the Golden Crow last time, he was still a child and was very weak.

Now it seemed that in just a few years, he was already a peak-level law enforcer.

This speed made Han Fei speechless. Although he was fast back then, he wasn't as fast as the Golden Crow. How could he become a peak-level law enforcer just by sitting here?

The flames on the Golden Crow jumped and he looked at Han Fei in shock. "Who are you? How did you get here? Teacher, teacher..."

Han Fei really didn't look like a good person. He was wearing a red mask and pretending to be a big shot. Besides, Han Fei could pass the perception of the Venerables and appear directly on the top of the Fire Tree... Few people in the entire Cloud Sea Divine Tree had such strength.

Buzz!

The Golden Crow cried, and three insect queens arrived.

"Who are you?"

"Why have you come to the Cloud Sea Divine Tree?"

"Tweet ~"

An insect queen was about to summon people when the void trembled, and an elegant rose-red robe appeared. Queen Life slowly walked out of the void and looked at Han Fei.

The three insect queens were relieved to see Queen Life. Since the queen had come, even the White Armored Emperor wouldn't be able to threaten them now.

Queen Life was a little surprised. She nodded at the three insect queens. "You can leave now! I'll take care of this."

'The three insect queens were all surprised. The queen wanted to deal with this person personally? Was this person a king?

That's not right!

The aura on him was clearly that of an advanced Venerable. However, the three of them didn't ask much. Since the queen had given the order, they could retreat.

At this moment, Bai Suzhen came over from the void too.

Bai Suzhen was very calm when she saw Han Fei. She wasn't surprised by Han Fei's weird appearance.

Han Fei looked at Bai Suzhen and asked in surprise, "A Half-Venerable? You're growing fast. Is there a problem?"

Queen Life: "No problem. Her cultivation speed should be so fast."

Bai Suzhen was surprised to hear Han Fei asking about her. "Who are you?"

Han Fei lifted the mask, revealing a cracked face that looked like cracked china.

"Hiss ~"

"Han Fei

The Golden Crow looked at Han Fei in shock. "How did you become like this?"

Bai Suzhen also looked at Han Fei in surprise. "Your face... No, there's something wrong with your body?"

Only then did Bai Suzhen notice that Han Fei's hand was also full of cracks too. Obviously, Han Fei was seriously injured.

After a long silence, Queen Life said, "I didn't expect... that you actually survived that situation."

Han Fei smiled. "Maybe I'm lucky... Everyone else has died. I'm here to borrow the channel."

Queen Life asked curiously, "Then how did you get here? Is there another passage leading to this place in the Yin-Yang World?"

Han Fei shook his head. "I came from the Wall of Death."

Queen Life narrowed her eyes and said to Bai Suzhen, "Suzhen, take the Golden Crow back to the Heavenly Palace."

The Golden Crow didn't want to leave yet and immediately said, "Teacher, Han Fei and I still have something to talk about..."

Queen Life glanced at the Golden Crow. "You can talk to him when you become a Venerable."

Bai Suzhen gave Han Fei a deep look, pulled the Golden Crow, and entered the void passage.

After the two of them left, Queen Life said, "I tried to enter the Wall of Death, but I found that I couldn't break it. Can you?"

Han Fei said,

"s easiest for a new Venerable or a Half-Venerable to enter it. The stronger you are, the harder it is to enter."

Queen Life said, "Many people from the Cloud Sea Divine Tree have entered it, but none of them have come out. Are you saying that you came directly from the Yin-Yang World?"

Han Fei smiled and said, "You can say that, but the Yin-Yang World is not directly connected to the Water-Wood World. Inside the Wall of Death is an extremely huge cage. This cage sealed the Yin-Yang World and the Water-Wood World inside. Inside the cage, there are Venerables everywhere, as many explorers as the army of insects. All the explorers in the Cloud Sea Divine Tree and the White Shell Royal City added up can't even compare to one-tenth in the cage."

"Huh?"

Han Fei clearly saw that Queen Life's face trembled. She seemed to be thinking, How is it possible?

However, knowing Han Fei's identity, Queen Life knew that Han Fei had no reason to lie to her.

Queen Life: "Is there a king there?"

Han Fei shook his head and said, "A crazy master of the Dragon Subduing Heavenly Palace. He's very strong but is sealed by an array. Also, there are a few fake kings inside. Their strength is about three times that of a Half-King, or greater."

"Dragon Subduing Heavenly Palace Lord?"

Queen Life was obviously stunned by Han Fei.

To be honest, she wasn't familiar with the Thirty-Six Mystic Worlds either. When she inherited the Water-Wood World, she inherited some knowledge, which only briefly introduced the Thirty-Six Mystic Worlds.

But obviously, Han Fei knew the related knowledge.

Queen Life asked, "Is he a friend or an enemy?"

Han Fei said, "He's a lunatic now, so it can't be sure whether he is a friend or an enemy. His story... is quite complicated. If you meet him in the future, he shouldn't be a problem as long as you don't mention the dragon race to him."

"Dragon race?"

Queen Life was a little confused. What did Han Fei know? Why was there a dragon race here? Were they legendary dragons?

Han Fei said, "I'm just telling you that the cage seal can't be broken now. No matter how you fight the White Armored Emperor in the future, don't break the cage seal."

Queen Life said indifferently, "That seal can't be broken, right? It seems to have exceeded the power of a king."

Han Fei shook his head and said, "There are some problems with it now. Perhaps it will only take a few years, decades, or hundreds of years for the seal to break... As time goes by, there will only be more problems. There may even be some cracks, and some explorers might come out in advance. But people from the Cloud Sea Divine Tree, don't enter it."

Queen Life nodded. "Okay, I see. Your body..."

Han Fei asked, "Do you have any treasures that can strengthen the body?"

Queen Life nodded. "Yes. How about Immeasurable Fruits?"

Han Fei looked at Queen Life for a moment and said leisurely, "Then forget it!"

Queen Life: ".."

This was the first time she had been despised by others. Immeasurable Fruit! Other people were scrambling to get it, but you actually despised it?

Queen Life said, "You can tell me... what's wrong with your body exactly? My spring water might be able to heal you."

Han Fei's eyes lit up. "My Indestructible Body is too strong, so my flesh and blood are not tough enough. I need to temper my body and balance them."

Queen Life: "..."

Queen Life couldn't have felt worse. Thinking of Han Fei and Xue Fan's performance in the Heavenly Tribulation that day... Forget it, he couldn't be measured by human standards.

Queen Life said, "Then you'd better keep looking for... Perhaps, Yin-Yang World has such an opportunity? I... I think you should go back to Yin-Yang World first."

Han Fei's face changed slightly. "What's wrong with the Yin-Yang World?"

Queen Life: "Jing'er sent a message that a king has been born on your side?"

"Puff..."

Han Fei vomited a mouthful of blood. "What?"

Han Fei was dumbfounded. "Impossible... A king? Which one?"

Queen Life: "It might be the fake king you mentioned. Because that person hunted Jing'er but she escaped."

"Huff!"

Han Fei patted his chest. "Junior Sister, don't speak this way next time... It's really scary..."

However, as soon as Han Fei said so, Queen Life's cold voice rang. "What did you call me?"

Han Fei said, "...I... Uh, I need to go back as soon as possible. The fake king is causing trouble. Yin-Yang World needs me now."

Chapter 1630: Old Demon Chu Becomes a King?

Han Fei was about to go back, thinking, When I become a king, I'll call you Junior Sister every day, and I'll call you that 300 times a day.

Now, although he was already very powerful, he was still way much weaker than Queen Life.

Queen Life didn't stop him. She had already seen Han Fei's potential.

After all, his father was Han Guanshu, and he himself even passed through the Wall of Death, dared to participate in a king-level battle as a Venerable and safely transcended the tribulation

Han Fei was really the most talented person Queen Life had ever seen. In terms of talent, Han Fei was probably much stronger than her.

Of course, Han Fei was indeed in a hurry to go back.

The second thing he asked Ning Jing to help him with when he entered the cage was to take care of the Scattered Stars Island although she didn't need to participate in the battle.

However, even Ning Jing had been hunted, which meant that the so-called king had already begun to attack his territory.

'What was his territory? Han Fei felt that apart from the Thousand Star City, the entire Yin-Yang World was his territory.

'What made Han Fei even more certain was that the Yin-Yang World couldn't have a king! That place didn't have the conditions to give birth to a king. The so-called "king" was definitely fake.

Just as Queen Life guessed, even if someone announced that he had become a king, he would at most be a fake one. As for this person... was he from the Chu Sect or the Cao Family?

Han Fei didn't even need to think to know that there was a 90% chance that it was Old Demon Chu from the Chu Sect.

If it were the Cao family, they wouldn't be so extreme as to fall out with him now. After all, his relationship with the Cao family wasn't bad.

So, it wasn't necessary to hunt Ning Jing

When passing through the passage between the two worlds, Han Fei greeted the Leafless Tree and Qianshu. They were actually a little stunned, thinking, How did you get here?

Han Fei responded casually and didn't talk much with them.

Yin-Yang World.

The waves of the sea were endless, and the sea breeze emitted a fishy smell. The sunshine shone on the surface of the sea, shining like golden scales.

Han Fei casually grabbed the Venerable Token.

The place where he came out wasn't far from the Scattered Stars Island. Ning Jing should be able to sense it.

Han Fei was not afraid of the so-called fake king.

At this moment, he didn't have to be afraid of anyone in the Yin-Yang World. Even if the other party wanted to transcend the king-level tribulation again, he was sure that the so-called fake king would die before he died.

Therefore, Han Fei casually hung the Venerable Token on his waist and flew towards the Scattered Stars Island.

A moment later.

On the Scattered Stars Island, before Han Fei could scan it with his perception, he heard the old turtle say, "There are peak-level Venerables."

Han Fei narrowed his eyes. "Oh? Are peak-level Venerables everywhere now? Even the Scattered Stars Island can be equipped with peak-level Venerables?"

The old turtle said, "You should know this person. He's the peak-level Venerable from the Chu Sect. His aura seems to be a little unstable. He's probably about to break through to the peak-level Venerable realm. He's probably only one step away from becoming a Half-King."

Han Fei curled his lips and said, "Chu Menwang? Interesting... but even if he really becomes a Half-King, so what?"

Han Fei was full of disdain. He had killed a peak-level Venerable in the Immortal City of the human race. Now, his strength was much stronger than before. In terms of pure strength, he was already comparable to a Half-King or even a lot stronger.

Han Fei didn't hide his perception. He looked at the Thug Academy. Of course, at this time, the Thug Academy was already deserted.

Han Fei couldn't help but sigh. It seemed that... the fate of the Thug Academy had never been good. It had all kinds of geniuses but they had to hide all day.

Han Fei wasn't afraid that the people of the Thug Academy would be killed or captured by the Chu Sect... If Old Demon Chu really became a king, with Ning Jing's means, she would definitely be able to protect the people of the Thug Academy.

Even if Ning Jing couldn't, Old Han could!

He was on good terms with Li Daxian and would definitely not let anything bad happen to the students of the Thug Academy.

Thinking that through, Han Fei looked at his statue. Then, his face turned green. Where is my statue?

No wonder he felt that the growth of the power of faith had slowed down in recent years! Had his statues been pulled down?

If it weren't for the fact that there were billions of people feeding his statues in the Immortal City, he might have discovered that something was wrong with the Yin-Yang World.

Han Fei said with a cold face, "What a Chu Sect and what a Chu Menwang. Who do they think they are? I've only been away for four years, but they destroyed my statues? Humph!"

The old turtle said, "Do you want to hold back for a while? For example, go to the Thousand Star City first and steal some resources? In this way, the battle in the Yin-Yang World will be easier."

Han Fei chuckled. "Steal? No... now that I'm back, I'm going to eradicate the so-called big clans all at once. I'm the king of the Yin-Yang World. All the land in the world belongs to me, so are the resources. After all, the Yin-Yang World is only so bi

Of course, Han Fei didn't immediately cause trouble. It was unwise to cause trouble without knowing anything.

The Transverse Mountain.

Xue Shengi was fishing in the abyss cave. God knew what he was fishing for. Maybe he was fishing for loneliness.

As early as when Chu Menwang came to the Scattered Stars Island, he had been imprisoned here.

He was certain that Chu Menwang wouldn't dare to kill him.

After all, he had ruled the Scattered Stars Island for 50 years, and too many people knew him. Since Han Fei left, many things were left to him to handle. Therefore, in the eyes of the public, Xue Shengi had never left their sight.

The imprisonment was only temporary.

Xue Shengi was sure that Chu Menwang couldn't rule the Scattered Stars Island by force... So, he was waiting for Chu Menwang to invite him to come out of seclusion. Han Fei would come back and take back the Scattered Stars Island.

Compared to the big clans, after seeing how Chu Menwang dealt with the Scattered Stars Island, Xue Shengi knew that the big clans were hopeless. They didn't know how to govern a free city at all, and they were still using the same old methods, squeezing the fat of the people!

"Phew! You're so idle. What are you fishing for?"

Xue Shengi was taken aback by Han Fei's voice, but then he relaxed his brows and said casually, "It doesn't matter what I'm fishing for. It's just to kill time. When did you come back?"

"Just now."

Xue Shengi looked back at Han Fei and frowned when he saw the mask on Han Fei's face. "You don't want to wear a mask in public, do you?"

Han Fei shook his head. "Of course not. I'm just using it when necessary."

With that, Han Fei took off the mask. He didn't mind his current appearance being seen because Han Fei felt that it was only temporary.

Xue Shengi exclaimed when he saw Han Fei. "It seems that you haven't been doing well these past few years!"

Han Fei smiled faintly. "I was doing very well. So, I guess Old Demon Chu has declared himself a king?"

Xue Shengi nodded. "That's right. There's nothing to be surprised about. All this time, in the eyes of some people, only those few people were most likely to become a king. However, I'm a little puzzled. He shouldn't have become a king, right? If he did, he would have done something big long ago."

Han Fei shook his head. "Become a king? Heh... If I don't become a king, he won't be a king even if he lives to die."

Xue Shengi nodded slightly. "Then I'm relieved. Well, aren't you afraid that Chu Menwang will find you? He is now on the Scattered Stars Island!"

Han Fei grinned. "Unless he's bored and has scanned this place with his perception, he can't detect anything."

Xue Shengqi raised his hand, put away the fishing pole, and then looked at Han Fei seriously. "Your former teammate, Luo Xiaobai from the Luo family of the Thousand Star City, secretly sent me a message, saying that Old Chu becoming a king might have something to do with the Thousand Star Proving

Ground. She asked me to inform you. Now that you know, what are you going to do?"

Han Fei smiled but didn't answer directly. Instead, he said with a smile, "Old Demon Chu just occupied the Scattered Stars Island and didn't do anything else? I think the 36 towns should be ruled by him now, right?"

Xue Shengi took a deep look at Han Fei. "At least, all your statues are gone."

Han Fei:

Han Fei's eyelids twitched and he took a deep breath. "How dare he!"

After that, Han Fei looked at the mayor's residence.

Han Fei stepped into the air and took out a small mirror.

In the next moment, with a thought, Han Fei's face returned to normal, which was just the effect of the Deceit Technique.

The sky curtain opened, and all the Venerables on the Scattered Stars Island looked up at the sky in shock.

Someone murmured, "The Sky Hanging Mirror appeared? Is Han Fei... back?"

The star turtle stuck its head out of its shell. "Is that guy finally back?"

Chu Menwang scanned with his perception and instantly disappeared from the mayor's residence.

In the next moment, Chu Menwang found himself reflected in the Sky Hanging Mirror. Only then did he sense that there was a person standing thousands of kilometers away. It was none other than Han Fei.

Chu Menwang looked at Han Fei in shock. "You've reached the peak of the advanced Venerable level?"

Han Fei looked at Chu Menwang as if looking at a dead person. "I heard that you tore down all my statues?"

Chu Menwang sneered. "Han Fei, even if you become an advanced Venerable, so what? No matter how strong you are, you're only an advanced Venerable. You can do nothing! And I've been waiting for you."

Crack ~

A jade slip shattered, and Chu Menwang laughed. "In three seconds, our patriarch will arrive. You can't escape."

Han Fei's lips curled. "You will die within three seconds.."
