

GOF 1651

Chapter 1651 Revive Su Jiuci

Han Fei needed to give an explanation.

After all, the rules were set by him. If he broke them and went to whichever Star Bead he wanted, although the people wouldn't say anything about it, they would still think that Han Fei didn't keep his word.

However, if he explained it to these people, they wouldn't think Han Fei was going to embezzle anything.

They would only think that Han Fei was already so strong, but he still explained to them... How amiable he was!

Therefore, when Han Fei activated a nine-star star bead, no one said anything. They even made way for Han Fei.

What Han Fei looked at next was the Cao Family's nine-star star bead. However, as soon as he entered, he found that there was no danger here. The opportunities inside had obviously been taken by the Cao Family.

He went into three star beads in a row, and only in the third one there was a crisis. The axe light would descend anytime in this star bead. God knew where the axe light came from.

Of course, this axe light was no longer useful to Han Fei now. After Han Fei finished searching, he guessed that the opportunities here should have been taken away by the Cao Family.

However, it did make sense. The opportunities in the nine-star star beads were not difficult to get except for those in the Corpse Nurturing Ground.

Perhaps in the Star Bead of the City of Justice, the Blade of Hope had once slaughtered the Chu Sect Venerables before meeting him, but at least he didn't sense any danger.

Han Fei walked into the Chu Sect's fourth nine-star star bead, only to be shocked. This used to be the Giant King City.

Yes, it was the Giant King City on the cliff.

Han Fei found the Thousand Mountain Ancient Realm, the 3,000-mile part of the Grand Myriad Mountains, and the former City of Justice. Now, the Giant King City had finally appeared! There was more than just the Giant King City here. There was no telling how the Giant King did it...

was mor

As soon as Han Fei entered the Giant King City, the shadow of the Giant King appeared.

Han Fei was shocked, because this was clearly a rule that could be repeated. He didn't know anyone, so he didn't know Han Fei.

As soon as he came up, he used the Hundred War Divine Hammer, which was certainly not a joke.

When he left, the Giant King was probably a peak-level advanced Venerable or a peak-level Venerable.

However, after he left, did the Giant King make a breakthrough? Who knew?

Therefore, Han Fei also carried a hammer.

Knock, knock, knock!

After several rounds, Han Fei confirmed that the power displayed by the Giant King here was that of a peak-level Venerable. It seemed that this nine-star star bead was extremely dangerous.

Looking at the expressionless Giant King, Han Fei was about to destroy the phantom. However, the Giant King roared, "War God Possession!"

"F*ck..."

Han Fei was shocked. So, was this where the Cao Family's War God Technique came from?

However, what Han Fei didn't know was why the people of the Yang family also knew this trick. Could it be that the Yang family found this nine-star star bead at first, but then it was snatched by the Cao family, and then by Chu Sect?

Sure enough, the War God Possession was actually the War God Technique.

But even so, the Giant King's strength was only raised to the level of a Half-King, and he was still no match for Han Fei.

Even if Han Fei didn't fight back much, after a hundred seconds, the phantom of the Giant King disappeared because of energy exhaustion or other reasons.

Han Fei wondered, "Old Yuan, what power can preserve a person's complete strength?"

The old turtle said, "Oh! You know this person, right?"

Han Fei nodded. "One of my teachers."

The old turtle said, "One way is the Time Great Dao you know. You can preserve one part of your power in a time secret realm, and the other..."

Buzz!

Han Fei suddenly woke up and shivered. He was surprised to find that he seemed to be in a trance.

The old turtle said, "The other way, like you are now, is not that you entered a different timeline, but that the soul is directly projected into your mind. Once you lose, your soul may die, and you will become nothing but a shell."

Han Fei took a deep breath. So what he just experienced was not real!

He was still wondering how the Giant King could preserve such a powerful force.

When Han Fei walked into the palace of the Giant King, there was nothing special inside.

Logically speaking, there should be various kinds of bones here. Because the Giant King liked to eat, there was actually nothing good in his palace.

However, all the bones here had disappeared. They must have been taken away by the Cao Family.

This nine-star star bead was actually a test of the Giant King

This star bead was listed as a nine-star star bead probably because few people in the Thousand Star City could pass it safely. Therefore, the difficulty was definitely not low.

After understanding this Star Bead, Han Fei marked it and took it out.

When Han Fei appeared, his murderous aura surged, and many people trembled in fright. More people sensed the murderous vibe from Han Fei and thought, Marshal Han must have trouble inside just now.

But Han Fei took out another Star Bead without hesitation and entered it.

The Thug Academy only had two nine-star star beads in total.

The first one, which was the one that Han Fei had just entered, was a place full of death energy. As soon as Han Fei entered this place, death energy entangled him, trying to invade his body.

If he guessed right, Han Fei knew why Li Daxian changed to an undead creature. This was the best place for an undead creature to cultivate. Cultivating in this place full of death energy would definitely be twice as easy.

The old turtle roared, "Leave now! Someone must've sealed this place, which is a bit similar to Death Valley in the cage. You can't touch any secrets about undead creatures now."

Han Fei had just entered and the people who made way for him hadn't stood in formation yet... but Han Fei flashed and appeared again.

This time, the death energy lingered on Han Fei, and many people were shocked.

Immediately, many people recognized that it was death energy.

With a thought from Han Fei, a holy light descended and instantly dispersed the death aura.

Seeing that many people were looking at him, Han Fei said without blushing, "Attention, everyone. If you're not strong enough, don't enter some unfamiliar and dangerous Star Beads... Star Beads are usually more dangerous than their corresponding star levels." With that, the space in front of Han Fei opened again, and he stepped in again. Many people waiting in line to enter the normal Star Beads looked at each other.

Someone said, "The difficulty of nine-star star beads can be imagined. Even Marshal Han needs to warn us. It can be seen how dangerous they are"

Someone agreed. "That's right. Few people in the entire Thousand Star City can enter a nine-star star bead. However, danger is accompanied by opportunity. There must be a lot of good things inside!"

Someone sneered. "Does Marshal Han care about the resources in the Star Beads? Do you know how many resources can be obtained from sweeping the big clans? I heard that Marshal Han donated all of

them to the development of the Scattered Stars Island, the Thirty-Six Towns, and the Thousand Star City. Look, this is called charisma! This is the King's Aura! Why would Marshal Han covet the things in the Star Beads?"

Someone echoed, "What this brother said is right. Marshal Han may have already become a king. He's just keeping it a secret."

The last nine-star star bead was a puppet secret realm, the only combat-oriented secret realm that Han Fei had encountered in the nine-star star beads.

There were puppet arrays here, which combined killing arrays and maze arrays. Its strength reached the Half-King realm.

Yes, this was a Venerable-level Star Bead. Its real strength was terrifyingly dangerous.

After exploring all the Star Beads, Han Fei didn't intend to explore the eight-star ones anymore. In the tenth Star Bead, Han Fei and the others came to the coffin carved with the Sun calendar.

Han Fei returned here many years later.

Opening the coffin lid, Su Jiuci lay quietly in the coffin. Han Fei extended his hand and gently tapped the jade slip that Su Jiuci was holding.

"Master, did you come back to see me?"

Han Fei thought to himself, In a sense, I am indeed Little Ci's young master.

Han Fei said, "Yes, Little Ci. I can revive you now. However, Ren Tianfei told me that you aren't in a good state. Although you have a sealing coffin to protect you, it has been too long a time. There may not be much time for you to revive. So, are you going to cultivate a reincarnation body or revive?"

Su Jiuci asked in delight, "Master, have you met the controller? Has Master been to the Heavenly Palace?"

Han Fei said, "The Heavenly Palace is still enshrouded by the Heavenly Dao Dharma Eye for the time being. I still need to find a way to break the Heavenly Dao Dharma Eye and become a king. Let me ask you, do you want to revive or choose a chance to reincarnate? No matter what, I will take you away from here today."

The jade pendant in Han Fei's hand immediately glittered, and Su Jiuci's soul fluctuated greatly. "Master, I want to come back to life first. I haven't seen you in a long time. As for cultivating a reincarnation body, I can live for hundreds of years anyway... I can cultivate my reincarnation body by myself!"

"Okay! I'll take you out first before you wake

up."

Pure Sun Island.

Thug Academy.

Since Han Fei swept through the big clans, the Thug Academy had returned to the Thousand Star City again.

At this moment, Old Jiang was baring his teeth and saying to Old Bai, "...So, to recruit people, we should recruit Heavenly Talents. If it weren't for Han Fei, when would the Thug Academy have returned to the Thousand Star City?"

Old Bai said, "How can there be so many Heavenly Talents? We've searched the entire Thousand Star City but only found a few seedlings. In the end, we still had to lower the standards..."

In the forest, Yi Xiyan, Su Daiji, and company were setting up a maze array. It was the maze that Han Fei had designed. At this moment, they were trying to restore it.

Back mountain.

Han Fei stood with the coffin on his shoulder and opened his arms.

Buzz!

In the sky, a pure white pillar of light descended to the back mountain.

Instantly, everyone including Old Bai and Old Jiang looked at the back mountain.

The two of them scanned around with their perception and were stunned to see Han Fei.

Qu Jinnan and the others had already rushed to the back mountain.

At this moment, they didn't know that Han Fei had returned.

When everyone sensed Han Fei, they all exclaimed.

"Junior Brother."

"Senior Brother Han Fei!"

Yi Xiyan ran and shouted, "Senior Brother Han Fei, have you become a king? I saw you transcending the tribulation. It lasted more than an hour..."

Chapter 1652 Secrets of the East?

This was the first time Han Fei had seen the Thug Academy so lively. Apart from his team, everyone was here.

The first thing Chu Linyuan and the elder others noticed was the coffin in front of Han Fei. From its strange shape, they knew that there couldn't be an ordinary person in it.

Old Bai shouted, "Be quiet! Don't disturb Han Fei."

Buzz!

The Heaven Enlightenment Divine Technique restored Su Jiuci's vitality by 5,000 years.

Of course, this was only vitality. Su Jiuci's problem was that her soul was greatly damaged. Therefore, even if Han Fei woke her up, it was impossible for her to return to the Venerable realm.

“Hum -“

Su Jiuci moved in the coffin.

When she opened her eyes, she looked at Han Fei and was stunned.

Su Jiuci was puzzled for a long time and exclaimed, “Master, how did you become a man?”

Han Fei said with a black face, “I never said that I was your original master. The master you mentioned should be my mother.”

Buzz!

Su Jiuci flashed from the coffin and appeared ten meters away from Han Fei. She said solemnly, “You’re talking nonsense. Master left, passing through the river of time. How could she have a son? You, you... But why do you have Master’s aura?”

Han Fei shrugged helplessly and summoned Little Black and Little White.

When Su Jiuci saw Little Black and Little White, she exclaimed, “Twin Yin-Yang Spirit Swallowing Fish... Are you really Master’s son? Did Master come back after I fell asleep?”

Han Fei shook his head slightly. “I don’t know. Anyway, you just need to know that the person who talked to you last time and saved you just now is me.”

Su Jiuci’s face immediately dimmed. In the end, she sighed. “Master still hasn’t returned?”

Su Jiuci must know something, which was why Han Fei had to revive her.

However, Han Fei was not in a hurry, because he still had a long way to go.

Even if Su Jiuci had gone to cultivate her reincarnation body, as long as she didn’t die, he would still know what he should know from her.

But since Su Jiuci wanted to live, he was happy to find out in advance.

Han Fei said, “She hasn’t returned yet. I want to know where she is.”

Su Jiuci had already believed Han Fei when Han Fei summoned the Twin Yin-Yang Spirit Swallowing Fish.

However, Su Jiuci was just Jiang Lingxian’s maidservant. She knew limited information.

Su Jiuci shook her head and said, “I don’t know. I only know that it was a very ancient era.”

Han Fei frowned and said, “What was she going to do? She couldn’t just go there and do nothing, right?” However, Su Jiuci still shook her head. “I don’t know... Oh, Master said before she left that everything has a source. I don’t know what it is, but I think it should have something to do with what Master was going to do.”

“Source?”

Han Fei said, "Then what else do you know? For example, does my mother have any enemies? Did she say anything special?"

Just as Su Jiuci was racking her brains and thinking, suddenly, space trembled.

Buzz!

Han Guanshu walked out of the void leisurely. When he saw Han Fei, he smiled and said, "Actually, she doesn't know much. Some things may seem complicated, but they're actually simple. In the world of cultivation, all complicated things are actually just because you're not strong enough. I'll take care of your mother's matters. You have your own matters to tend to. That's the real business."

When Su Jiuci saw Han Guanshu, she bowed slightly and said, "Nice to meet you, Master of the Nine Palace World."

"Puff"

Han Fei almost vomited blood. What? The master of the Nine Palace World?

Nine Palace World, the master of the Nine Palace World?

Han Fei was shocked.

Only a king was worthy of becoming the master of a world.

And Old Han was indeed from the Nine Palace World. So, he was once a king?

Han Guanshu grunted and then looked at Han Fei. "Your mother's problem has nothing to do with the Thirty-Six Mystic Worlds. What's really related is that she was accidentally involved in some secret matters."

With that, Han Guanshu said casually, "Little Ci, stay with me from now on!"

Han Fei narrowed his eyes and said, "Hey, Old Han, let's talk... You took her away as soon as I woke her up? Aren't you going to say something?"

Han Guanshu said with a faint smile, "Then how about letting her go with you?"

"Uh!

Han Fei choked, thinking, this is not what I'm asking. I want to know what secrets you are hiding!

Han Guanshu looked at Old Bai and the others and said, "Excuse me, I need to talk to him about something."

With that, Han Guanshu looked at Su Jiuci. "Leave and take a rest."

Obviously, Su Jiuci knew Old Han and seemed to be used to taking orders from him.

But before she left, she said to Han Fei, "Young Master... I really don't know where Master is!"

After Su Jiuci left, Han Guanshu smiled. "Would you like to cook two dishes?"

Han Fei smiled. "Okay! Then I'll make two."

In the school, before Yi Xiyan ran to Han Fei, she was pulled back by Old Bai.

Old Bai said, "Han Fei has his own business to tend to. When he's done, he will come to meet you. How about you guys? Have you all become stronger? Dashuai, take care of them for a while."

Boom –

Wang Dashuai put the big door on his shoulder and said, "Come on, Junior Brothers and Junior Sisters, today's training begins."

Back mountain.

Han Fei cooked a few dishes.

The two sat opposite each other. Han Fei was eating and drinking happily while Han Guanshu just had a taste of the dishes. Halfway through the meal, Han Fei couldn't hold it anymore and finally said, "Can you tell me now?"

Han Guanshu smiled. "Logically speaking, you should have experienced a lot. I know part of it, but I don't know the whole story. Well... do you know that some ancient people traveled to the east?"

Han Fei was stunned for a moment and then nodded. "Yes! Some powerhouses created a peerless huge boat, Creation Divine Boat, with the intention of crossing the sea. Those people are explorers of the sea, but there are also people who stayed and created the Thirty-Six Mystic Worlds for the human beings and other races who can't leave here."

Han Guanshu asked, "What else?"

"The east is dangerous."

This was not the first time Han Fei knew that the east was dangerous!

However, Han Fei didn't know what the danger was exactly.

After hearing Han Fei's words, Han Guanshu smiled. "In fact, the people who stayed behind didn't create the Thirty-Six Mystic Worlds right away. Knowing that their strength was limited and they had no choice, the remaining human experts also traveled to the east, intending to explore their new home." Han Fei was shocked. "Huh? The rest of them went east too? Then why..."

Han Guanshu said casually, "Why did you come back? Because we were caught in a weird place on the way."

V

te we

Han Fei frowned. "What place?"

Han Guanshu shook his head slightly. "I'm not a god. I can only guess. Maybe, that place found us. Although it was the Age of Doom, there were still many real experts and even a few kings. At that time,

1018 Venerables tried to open up a route but ended up being trapped in a strange place. Only 102 of them survived.”

As if reciting a piece of history, Han Guanshu said leisurely, “But you definitely didn’t expect... these 102 people all became kings.”

“Huh?”

Han Fei widened his eyes and took a deep breath. “102 kings?”

Han Guanshu nodded. “102 kings! What does it mean? They could almost wipe out all the sea demons here.”

Han Fei thought to himself, Yes, I’ve experienced how strong a king is. There are more than 100 of them! Wouldn’t this power easily sweep across the sea? However, Han Guanshu said, “These people chose to stay because someone got power and always hoped to get more. These people didn’t plan to create the Thirty-Six Mystic Worlds. However, since the kings had the strength, they naturally consolidated and supported the human race. Therefore, during that period of time, the kings of the human race and sea demons fought intensely. The human race won and nearly half of the sea demons were eliminated by the kings.”

Han Fei took a deep breath and said, “Then, where did you go?”

Han Fei’s attention was now focused on the magical and weird place in the east... As for the sea demons? Han Fei was no longer interested.

Han Guanshu glanced at Han Fei casually. “The human heart is greedy... so at that time, the kings were united and tried to explore a new place. However, this time, only 36 kings came out...”

Gulp! Old Han said it casually, but Han Fei felt a chill down his spine. So many kings died?!

Han Fei asked, “Then?”

Han Guanshu: “Then there were the Thirty-Six Mystic Worlds.”

Han Fei was surprised. “They didn’t leave anymore?”

Han Guanshu asked, “Did you hear anything wrong with my story?”

Pondering for a moment, Han Fei asked, “Where did the Creation Divine Boat go?” Old Han immediately chuckled. “That’s the problem. That weird place was very attractive to many Venerables. How could others not covet it? Had they never encountered that place?”

Han Fei narrowed his eyes and asked, “What do you mean?”

Chapter 1653 Said Goodby to His Father

The little bit of history revealed by Han Guanshu seemed to have nothing to do with Han Fei’s mother.

From his tone, if he wanted to know more about his mother, he would have to start from the mysterious place in the east.

Indeed, Han Guanshu's story completely moved Han Fei.

At least, that mysterious place was very attractive to Han Fei. After all, it was a place where people could become kings. It seemed that as long as one came out of that place, he could become a king!

Otherwise, how could the 102 survivors all become kings?

Of course, Han Fei was only interested and didn't intend to go there now. He had already confirmed his path. It was only a matter of time for him to become a king.

After walking through the cage and witnessing Xue Fan's tribulation, Han Fei knew that becoming a king wasn't as difficult as others said!

However, it just so happened that no one could transcend the tribulation to become a king in the Yin-Yang World... Therefore, becoming a king became the ceiling for cultivators in the Yin-Yang World.

Under Han Fei's watch, Old Han said, "After all, some people have already gone east. The people who left the earliest are not weak. We've deduced two conclusions about the reason why they could resist such temptation and continue to explore the Infinite Ocean."

Han Fei: "???"

Han Guanshu continued, "Firstly, someone found a better place in that mysterious place, which is even more tempting than becoming a king or even an emperor! Secondly, the departure of those people not only exposed themselves, but also exposed us to the vast sea... And the mysterious place was actually arranged by someone."

"Hiss!"

Han Fei gasped hard. "Arranged a hundred people to become kings? Who could do that?"

Han Guanshu said leisurely, "In this world, there are countless strong masters. A king sounds powerful, but to put it bluntly, it's just a Sea Establisher. There are countless strong masters in the Infinite Ocean, as well as countless mysterious places. If it's really the second case we guessed, then the entire Thirty-Six Mystic Worlds is actually an enclosure of someone."

Gulp!

Han Fei swallowed and asked subconsciously, "Then what are human beings and sea demons? What is this huge sea area? A breeding farm?"

Han Fei had an idea. "I have a question... Why weren't the people who boarded the Creation Divine Boat first swallowed by the mysterious place?"

Han Guanshu said, "There were more than 1,000 people who entered the mysterious place, but none of them were kings. Ordinary Venerables can survive. How could the first group of Venerables who were stronger die?"

Han Fei asked, "Then why didn't you go around that place?" Han Guanshu took a deep look at Han Fei. "We couldn't."

Han Fei asked, "Why didn't you change direction? Why not simply give up going to the east?"

Han Guanshu: "No matter how hard we tried, we would be lost and return to the eastern route in the end."

Han Fei asked in surprise, "Is it so weird? Why didn't you use the sun as the reference object?"

Han Guanshu shook his head slightly. "How could you judge that... it was in the right direction?"

Han Fei: "..."

Han Fei said, "There's no compass?... Hiss..."

Han Fei suddenly thought of something. The Vast Ocean Navigator.

How was such a magical Human Sacred Weapon produced? Why did someone pay such a high price to create such a navigator?

Seeing that Han Fei seemed to have thought of something, Han Guanshu couldn't help but smile. "You guessed it? The Vast Ocean Navigator is meant to guide the way. It's a sacred weapon that can guide the way without any reference object."

Han Fei narrowed his eyes and said, "Did my mother make this Vast Ocean Navigator? Or did you?"

Han Guanshu heaved a sigh. "Actually, it was made by four kings. The Golden Crow, the Nine Palaces, the Water Wood, and the Yin-Yang Worlds created it together. To make this thing, the kings of the Golden Crow World and the Water Wood World perished, and your mother and I were trapped in a corner of time."

Han Fei's heart was pounding. It turned out that the Vast Ocean Navigator was the work of the four kings. However, Han Fei couldn't help but look at Old Han. "A corner of time? Then how did you get back?"

Han Guanshu smiled. "That's another story. Being trapped in the river of time and having you and Ying'er, we can't go on like this. That's why you saw me kill you. Only by dying can we not be restricted by time... Therefore, you, I and Ying'er have all died once..."

Han Fei: "..."

Han Fei didn't know the whole story until this moment!

It was like doing one thing and triggering another thing... like the butterfly effect. There was nothing that could be done. Since it had happened, people had to find a way to resolve it. Hence the series of events followed.

However, hearing what Old Han said, Han Fei immediately said, "The river of time? I know it..."

Han Fei paused. "Old Han, do you know the Time Dragon Carp?"

Han Fei thought to himself, Since Old Han had been staying in the Yin-Yang World for so long, it was impossible for him not to know about the Specter in the Abyssal Chasm. Therefore, Old Han should also know about the Time Dragon Carp.

Sure enough, Han Guanshu said indifferently, "I met her once, but I don't know her very well. I know that she has the ability to travel through time. However, this time is different. It can't save your mother by crossing the river of time. In fact, some other changes happened after that. As for what those changes were... you don't have to worry about them." Han Fei narrowed his eyes. "Why? Are you going to do these things on your own? If you get lost or die, no one will come to collect your body."

Han Guanshu said, "It's in your own memory. It's just that... you're not strong enough to open it. If I can't, my suggestion is that you don't come to us. Think of a way to become stronger... Don't aim to become a god, but to become a monarch..."

The corners of Han Fei's mouth twitched. "Old Han, you really think highly of me!"

Han Guanshu rose unhurriedly and chuckled. "At least, in the first half of your journey, although there were twists and turns, it's almost perfect. I bet that... there are very few people in the same realm who can beat you."

Han Fei rolled his eyes. "So there are still some people who can beat me?" Han Guanshu chuckled. "That can't be helped. Sometimes, the restrictions on race are innate and can't be changed by human strength! However, no matter what race you are of, you have to grow up. The stronger you are, the less advantage you have in race and bloodline. When you become a monarch... remember, only the strong can change the rules. This is my only suggestion for you in the future." After a long silence, Han Fei nodded slightly. "Okay! Got it."

Han Guanshu smiled and stepped to Su Jiuci without looking at the dishes on the table. In the next moment, the two of them disappeared without a trace.

After Han Guanshu left, the old turtle said, "What your father said is probably right! Being sucked into the river of time without dying means that your father and mother's strength might have exceeded that of a king back then. They might even have reached the Emperor Realm. Even I dare not say that I can return alive after entering the river of time... Before you can become a monarch, don't touch such things."

After a long time, Han Fei's eyes glowed fiercely. "They're forcing me! My goal is the Infinite Ocean, but... growth has become a necessity. Since the road ahead has so many difficulties, why can't I set the rules?"

At this moment, Han Fei's mind suddenly became clear.

This was not a matter of Dao Heart, but of mentality.

The moment his mind became clear, Han Fei felt the desire to make a breakthrough again. It was like a feather tickling his heart, making Han Fei want to make a breakthrough immediately.

However, Han Fei clenched his fists.

At this point, he was only one step away. He was not in a hurry. He must repair his body first!

The old turtle said, "If you want to set the rules, you have to be very strong! Just like your father said, you have to be at least a monarch. However, if you can rescue my true body first, it might be very helpful."

Han Fei grinned. "Don't worry. I'll do it when I can."

Buzz!

In the blink of an eye, Han Fei appeared at the foot of a mountain, where the Thug Academy was located.

"Senior Brother!"

"Senior Brother Han Fei."

"Junior Brother!"

Han Fei beckoned, "Senior Brother Dashuai, why don't you have a child yet?" Wang Dashuai was embarrassed.

Bai Lu snorted. "It means that he can't."

Looking at Wang Dashuai who was blushing, Han Fei stopped teasing him and looked at Qu Jinnan with a cunning smile. "Little Nan! I've got a good knife technique recently. I'll teach you later."

Qu Jinnan shivered. Han Fei wanted to teach him a knife technique? That would never be a simple knife technique. He still remembered how the invincible knife Qi almost traumatized him and Ling Yuan...

However, this time, Ling Yuan said, "Senior Brother Han Fei, remember what you said. This time, we want real combat skills, not your 'training'."

Han Fei chuckled. "Naughty... However, as you wish, I have a knife technique for you. I used this technique when I was an Explorer. This powerful technique is called the Draw Technique."

Then, Han Fei casually threw a jade slip to Qu Jinnan and Ling Yuan.

However, the moment Han Fei threw out the Draw Technique, Su Daiji extended her hand, and Yi Xiyuan screamed, "Senior Brother, we are your junior sisters too, and we are your youngest junior sisters."

Han Fei scoffed. "Is it appropriate to ask Senior Brother for something? You have to go out to gain experience... However, I have a body-tempering technique suitable for Daji." With that said, Han Fei tapped his finger in the air and Su Daiji fell asleep on the spot.

The Ancient Desolate War Body submerged into her soul.

Han Fei thought for a moment and said, "Don't ask me for anything else! I've donated everything. Your Senior Sister Xiaobai is now the richest woman in the world... You can try to cozy up to her."

Chapter 1654: Projections

Since he was here, Han Fei chatted with Qu Jinnan and Yi Xiyan for a while.

And then he made the Cube Library he created before and joined Old Bai and Old Jiang.

As soon as Han Fei came over, he saw Old Jiang's gloomy face.

Han Fei couldn't help but ask, "Hey, Old Jiang, aren't you happy that you've become a Venerable? Why the look?"

Old Jiang snorted. "Who dares to do that? Everyone knows how powerful you are! You've even conquered the Thousand Star City... Who still remembers us?"

Old Bai said leisurely, "Han Fei! I'm not criticizing you... But the big clans have been oppressing the Thug Academy for a long time! Can you give some of their money to us? You donate everything!"

"Uh"

Han Fei was speechless. It turned out that these two old men wanted the money of the big clans.

If it were before, Han Fei would've put all the good stuff home.

However, at some point in time, Han Fei suddenly realized that many things had lost their effect on him... He didn't feel anything about the so-called resources anymore!

It didn't matter whether he donated them or not.

After all, the entire Yin-Yang World was his, and he didn't care about these trivial benefits.

From this, it could be seen that Old Bai and the others were too petty.

Han Fei said, "Do you need any resources now? As for Qu Jinnan and the others, just let them find the resources themselves."

Old Bai said leisurely, "Do you know... how many trial grounds you have destroyed? How many secrets do you think there are in this sea that the people of this world can share?"

Han Fei grinned. "Actually, it's not a small number. There are actually many secret realms below the Venerable realm. 8 million kilometers of territory is definitely not small. Are you two overthinking?"

Old Jiang said, "Do you mean to let them go to the deep sea? That's fine."

Han Fei said, "Of course. There may be another war soon. An unprecedented war."

Old Jiang sneered. "You said the battle between the Scattered Stars Island and the sea demons is unprecedented. There is going to be another one soon?"

Han Fei's lips curled. "Yes, there will be. This will be a peerless battle that kings will participate in. At the same time, it will be a war to expand the human domain and change the world."

Old Bai and Old Jiang looked at each other.

Old Bai reached out and stroked Han Fei's head. "Are you dizzy? How can there be a king in this world?"

Han Fei rolled his eyes. "Okay, you two, prepare to... take them to the Scattered Stars Island! There is also a Thug Academy there. The one on the Pure Sun Island is dispensable and will probably not be used in the future."

Old Bai immediately said, "That's impossible. Pure Sun Island is the root of our Thug Academy. I will never abandon it."

Han Fei smiled. "Are you really sure that Pure Sun Island is the root of the Thug Academy?"

Old Bai blew his beard in anger. "What do you mean?"

Buzz!

At this moment, the void vibrated, and a black-robed man walked out of the void. It was none other than Li Daxian.

"Heh heh... He's right. Pure Sun Island is indeed not the root of the Thug Academy."

With that, Li Daxian looked at Han Fei. "Tell them about it!"

Li Daxian's arrival attracted everyone's attention.

This big shot had once joined their battle, but Wang Dashuai and the others hadn't seen him before. They didn't even know the real Li Daxian.

At this moment, seeing everyone pricked their ears, Han Fei said out loud, "The Thug Academy, originally named Pure Sun Dao Palace, is located in the Central Holy City. Along with Pure Sun Dao Palace, there is also an academy named Grand Yin Academy. Pure Sun Dao Palace, Grand Yin Academy, these

two academies were the two strongest academies in the former Yin-Yang World... in other words, this sea area. Later, they collapsed in war and Grand Yin Academy disappeared. Pure Sun Dao Palace still exists to this day... Therefore, the original site of the Thug Academy isn't on the Pure Sun Island, but in the Central Holy City."

"Hiss..."

Old Bai and Old Jiang widened their eyes and looked at each other. This was a secret that even they didn't know! They didn't expect the Thug Academy to have such a background.

The two couldn't help but look at Li Daxian, who nodded and said, "I didn't want to tell you, because it's too embarrassing. I'm at fault for the Pure Sun Dao Palace's decline. However, the Central Holy City is about to see the light of day. This secret will be revealed anyway."

Old Bai and Old Jiang were stunned for a long time.

As for the others, they were also stunned. But they were all from the Thug Academy. There was no need for Han Fei to lie to them.

For example, Xing Yue, Gu Qi, Su Sanqian, and company came from mediocre backgrounds. They never expected that one day, they would enter the strongest academy in the world.

In the end, Old Jiang took a breath. "Son of a b * tch."

Old Bai came back to himself. "I always feel that the Thug Academy has too many advanced techniques. So that's the reason... Then why can't we go to the Central Holy City now?"

Li Daxian looked at Han Fei. "At least wait until he becomes a king."

The Central Holy City was connected to the Heavenly Palace, and the crisis was not over yet.

Besides, it wasn't the time yet. Han Fei wasn't a king yet.

Seeing that the two old men were shocked, Han Fei said with a smile, "Okay, President, Old Jiang, I should explain to everyone about this matter. All secrets in this world will be revealed some day..."

Han Fei was about to leave, when Li Daxian said, "By the way, Han Fei, Jiuyin Ling is in the Cloud Soaring Town. Visit her when you're free."

After a brief stun, Han Fei nodded. "I'm leaving."

Buzz!

With the Near at Hand Technique, Han Fei disappeared from Pure Sun Island.

Seeing Han Fei's performance, Old Jiang and Old Bai couldn't help but sigh in admiration. He was truly a strong master now!

In the sky above the Thousand Star City, Han Fei stood proudly in the void, his eyes closed, and his body was trembling slightly. There were multiple clones of his swaying left and right on his original body, trying to squeeze out of his body.

After trying for a moment, Han Fei slowly opened his eyes. "It seems that it's a little difficult to split 38 clones in the junior Venerable realm!"

Han Fei sensed that although his real combat strength might have reached the level of a fake king, his real level was only that of an advanced peak-level Venerable. It was still difficult for him to split dozens of junior Venerable clones.

However, Han Fei could now create hundreds of Half-Venerable clones.

Swish! Swish! Swish!

In the sky, identical clones appeared out of nowhere.

Han Fei said casually, "Unfortunately, the range I can see is only more than 300,000 kilometers. Otherwise, I could've activated Void Descending. I don't know what spell Chun Huangdian used to make one of his projections descend..."

The old turtle said with a black face, "You're already good enough. A perception range of 100,000 kilometers is comparable to a king's. When you can see 500,000 kilometers at a glance, you can barely reach the king level. What else do you want?"

Han Fei didn't believe him. "You must be talking about an extremely weak king."

However, Han Fei felt that if his clones could only appear in the range he could see, wouldn't the range be too small?

When Xia Xiaochan awakened the Heavenly Silkworm, Chun Huangdian's clone arrived a moment later.

Although that clone should only have the strength of an Explorer back then, it was already very strong! He sent his projection from an unimaginable distance and took Xia Xiaochan away! Han Fei couldn't do that with the Void Descending Art.

Of course, Chun Huangdian was definitely a king.

Therefore, Han Fei confirmed that the king the old turtle mentioned was definitely an extremely weak king. The range they could reach was only hundreds of thousands of kilometers.

Areal expert might be able to ignore space and arrive directly with a certain signal as the basis.

However... he didn't care! The fact that he had so many clones meant that the Void Descending Art was already very powerful!

The old turtle said, "How far do you think a king can see? In fact, it's only a million kilometers at most. Don't overestimate this realm. The difference between it and the Venerable realm is just the difference in realm, level, and the difference in the Great Dao..."

Han Fei curled his lips and didn't respond.

Han Fei's large number of clones tore through the void and disappeared into the sky. Han Fei's original body also tore through the void.

After splitting 50 clones, Han Fei's strength was reduced to that of a junior Venerable.

Therefore, although the Void Descending could give his clones combat power, it would also consume his original body's strength.

Especially the soul power, it wasn't distributed evenly. In fact, the soul of his original body would control the souls of all his clones. There was a potential connection between these souls.

Thousand Star City, Thirty-Six Towns, Scattered Star Island, level-three fishery... Han Fei covered all the areas he could.

Of course, Han Fei's clones didn't descend directly from the void. He had too many clones, so he could directly go over.

At this moment, the billions of humans in the Yin-Yang World were still doing their own things.

Suddenly, thunder rumbled in the sky, and an intimidating voice suddenly sounded.

"Tm Han Fei. At this moment, the entire human world, the billions of human beings... Everyone, if you have nothing to do, listen to me... about the secrets of this world..."

At this moment, the entire Yin-Yang World was in an uproar.

Many people's first reaction was that Han Fei was not dead! Therefore, the Great Dao crack they saw before was indeed not Han Fei's.

The first reaction of countless people in the Thousand Star City was that Han Fei had succeeded in transcending the tribulation! Did he become a king now?

As for most ordinary cultivators, their thinking was relatively simple.

Han Fei said, "At this moment, the entire human world." What did this mean? It meant that all the places including the 36 towns, the Scattered Stars Island, and the Thousand Star City would be informed.

How could ordinary Venerables possibly do this?

Therefore, many people believed that Han Fei had already become a king!

Everyone was shocked and worshiped him..

Chapter 1655: Announce the Secrets of Yin-Yang World (1)

Han Fei's voice floated above the Thousand Star City, the Scattered Stars Island, and the 36 towns.

At this moment, anyone who wasn't fighting in the sea stopped what they were doing.

Even in the middle of a battle, someone shouted, "Quickly end the battle. Let's fight later."

Only the Venerables and explorers in the Yin-Yang World who hid among the people looked up at the sky and listened when they sensed the arrival of Han Fei's clones.

Han Fei said, "When I swept through the big clans in the Thousand Star City, I said that I would share with you the secrets of this world... Countless people live in this world, but they live in ignorance. For example, before I announced the existence of Scattered Stars Island, the people of the 36 towns thought that the Scattered Stars Island was an unknown place that was a taboo..."

Everybody perked up when they heard that.

In the Blue Sea Town, Li Gang and the others stopped doing business. Even the diners in the hot pot restaurants were all looking at the sky and listening.

In the Heavenly Water Village, the village leader and the others all stopped what they were doing.

Since Han Fei swept through the Thousand Star City, the Heavenly Water Village had become popular. The village leader of the Heavenly Sun Village even took the initiative to invite the Heavenly Water Village to move to the central position, but was rejected by the old village leader. And the reason for refusing was very strange

The old village leader said, "I'm afraid that Han Fei won't be able to find his way when he comes back. So, we can't move the Heavenly Water Village away."

It was not hard to imagine how traumatized the village leader of the Heavenly Sun Village was when he heard what the old village leader said.

In the hut where Han Fei once lived in the Wind Rain Town in the Cloud Soaring Town, Jiuyin Ling raised her head and scanned around with her perception, but unfortunately, she didn't find Han Fei.

From the moment Han Fei swept the Thousand Star City, Jiuyin Ling deeply realized that she was too weak!

After all these years, she was only a peak-level Explorer, still a little bit away from becoming a Half-Venerable. As for Han Fei? He had already surpassed the entire Thousand Star City.

Therefore, although Jiuyin Ling was also invited to go to the Thug Academy when Old Demon Chu announced to be a king... she didn't want to go to the Thug Academy without Han Fei.

Therefore, she came to Wind Rain Village alone and began her cultivation life.

The people on the Scattered Stars Island worshiped Han Fei with fanaticism.

On the street, someone shouted, "Shut up and listen to Marshal Han. This is a secret that you couldn't have heard before..."

The city guards and their captains were all yelling, "Listen carefully. Don't talk."

Xue Shengi was also listening and he was exclaiming in his heart.

He discovered, to his surprise, that after the Scattered Stars Island fell into Han Fei's hands, human beings became stronger much faster than when he was the Supreme Commander. Even the big clans didn't know much about these secrets, but now, Han Fei had announced them to the world... How bold and ambitious was he?

In fact, Xue Shengi didn't know that in the world Han Fei came from, knowledge was always shared.

Luo Xiaobai and the others were also gathered.

Zhang Xuanyu and Le Renkuang put their arms around each other's shoulders.

Zhang Xuanyu sighed. "I can't imagine how many girls are attracted to him!"

Le Renkuang said hopefully, "I really want to be like Feifei one day... Like a king, admired by everyone."

Han Fei said unhurriedly and solemnly, "My fellow countrymen, I'm not lying to you, which is unnecessary. I'm going to tell you a lot of things. Please listen to me."

Han Fei said, "The area covered by the Thirty-Six Towns, the Thousand Star City, and the Scattered Stars Island is limited in size, only spanning 8 million kilometers. Everyone is locked in this sea area. Some people will ask, what is beyond this sea area? Let me tell you, 8 million kilometers away is a circular cage. If it's the first cage, the sea area we live in is the second."

Han Fei revealed the greatest secret in this world without any hesitation. It was not hard to imagine that the whole world was shocked and the entire Yin-Yang World was in an uproar.

Someone exclaimed, "Huh! What? Does Marshal Han mean that we have been living in a huge cage?"

Someone was shocked. "This is really incredible."

Someone swallowed. "Those who are weak may never discover this secret... However, this secret doesn't seem to affect ordinary people!"

Han Fei certainly knew that 99% of ordinary people couldn't touch this secret at all, but it didn't change the fact that they were imprisoned here.

Han Fei said, "Perhaps you don't think the secret matters. Many people think that 8 million kilometers is already too large for them to explore. However, if I tell you that in the first cage 8 million kilometers away, Hidden Fishers and Law Enforcers are like fish in the sea, and there are millions of explorers and thousands of Venerables, what would you think?"

"What?"

"Shoot! Explorers... Millions?"

"Is Marshal Han serious?"

"Gulp! What is that place?"

Old Bai, Old Jiang, and the other teachers and students who were listening were all dumbfounded.

The big clans who had almost been destroyed were also dumbfounded when they heard the news.

In the past, they could gain a place in the Thousand Star City just with several Venerables of their family. Now they seemed to have suffered an unprecedented blow.

Even Cao Tianzhi of the Cao Family was trembling.

If Han Fei dared to tell the whole world, it meant that he was not lying. He was going to become a king, so he should be responsible for every word he said. He certainly wouldn't lie to anyone about this

Even Ning Jing was dumbfounded. She muttered, "Thousands of Venerables and millions of explorers? This is... crazy!"

Han Fei continued, "Of course, you don't have to worry too much. Although there are enemies there, there are also allies. However, if the human race doesn't strengthen ourselves, when the seal is opened, we may lose our dominant position. Because at that time, you will encounter new races. And the seal of that cage may break within a hundred years, or even decades... so, I want everyone to work hard to become stronger... Including myself, I need to become stronger too. Therefore, I've invested the resources snatched from the big clans in the Thousand Star City into the Thirty-Six Towns, the level-three fishery, the Scattered Stars Island, and the Thousand Star City... If the human race wants to become stronger, go for it..."

This news aroused the enthusiasm of countless people.

Because the danger that Han Fei described was unimaginable. Who would dare to imagine that millions of explorers would appear in this world?

In many villages, people didn't even know the realm of law enforcers and explorers. Some people were still asking each other.

A child asked, "Father, what is the Explorer realm?"

The middle-aged man said solemnly, "Son! I don't know what the Explorer realm is... But Hidden Fisher is the angel that comes every year..."

In the sky, Han Fei paused for about ten seconds for people to think, understand, and share information.

After a minute, Han Fei said with a smile, "Okay, this is the first secret I wanted to tell you. By the way, many people in the Thousand Star City are speculating whether or not I've become a king. Heh... [want to but I'm still not there yet... It was my spiritual beast that was undergoing the tribulation and I was practicing a thunder tempering technique there... When I become a king, I'll announce it to the world."

'What Han Fei said was interesting.

Although he explained the fact that he hadn't become a king, he said that he was only a bit away from it.

Especially since Han Fei had just swept through the Thousand Star City and killed the super expert who claimed to be a king... Han Fei should have had the strength of a king.

Therefore, most people thought that Han Fei was just one step away from becoming a king!

Someone laughed. "Who else can be a king in this world other than Marshal Han? Who else can suppress the Thousand Star City?"

Someone was very keen and caught the loophole in his words.

He said, "Marshal Han said that when he became a king, he would announce it to the world... This means that Marshal Han is preparing to become a king..."

Someone agreed. "It's obvious that Marshal Han's goals are to protect the human race and become a king."

On the Scattered Stars Island, You Lingyun, He Xiaoyu, and the others who had spent a long time with Han Fei, were all amazed by Han Fei's words and wanted to pursue what they wanted.

Of course, at this time, they were no longer pursuing love. After all, they weren't young anymore. What they frantically wanted to pursue was increase in the realm. Of course, no matter what, Han Fei was their role model.

At this time, Han Fei said, "Alright, let's talk about the second secret. Just now, I said that the sea area we live in extends for 8 million kilometers. In fact, there used to be a king in this sea area. And the king lived in a place called the 'Heavenly Palace'. 70,000 to 80,000 years ago, our ancestors fought sea demons, created floating islands, and established the Thousand Star City. Therefore, above the Thousand Star City, there is a king's residence, which is the Heavenly Palace... The Heavenly Palace controls the Thousand Star City, then rules the 36 towns, and the entire human world."

Amidst another round of exclamations, Han Fei said leisurely, "However, the wars never stopped, and even the king couldn't last for hundreds of thousands of years. Also, the war between humans and sea demons has never ceased. Therefore, the Heavenly Palaces in our sea area have declined... However,

Hope that you can remember the name of this Heavenly Palace... because it was it that created the current human race.. It's called... the Yin-Yang Heavenly Palace! And the world we are in is called the Yin-Yang World!"

Chapter 1656: Announce the Secrets of Yin-Yang World (2)

'The secret of the Yin-Yang World had already been announced.

Of course, this didn't mean much to ordinary people. For example, in the Heavenly Water Village, even a mere Hidden Fisher would be respectfully called as an angel.

It was not hard to imagine that the Heavenly Palace had always been a legendary existence.

So, why did Han Fei tell the secrets to the world?

After going through countless hardships, Han Fei knew that people shouldn't look at the present. What they should look at was the future. If ordinary cultivators didn't know this, the children wouldn't be able to hear the stories that fascinated them. This would form a vicious cycle.

As long as there was a desire in one's heart, one could become a strong master!

Therefore, Han Fei told the secrets today to motivate the human beings in this world.

Han Fei explained the secrets of the Yin-Yang World and the Heavenly Palace. Many ordinary people still didn't feel anything when they heard it. After all, they had been fishermen for a lifetime. What did the matters of the Heavenly Palace have to do with them? Perhaps they would just tell them as stories to their children

At this moment, the people who had a greater reaction were the descendants of the big clans.

Those of the same age as Han Fei, such as Yang Deyu, Mo Feiyan, Li Heiye, Li Baizhou, Zhang Wen, Wang Zitian, Chen Aochen, Cao Qiu, Cao Tian, and Cao Jiaren, etc.

After hearing Han Fei's explanation, they finally understood what their families had been vying for for so many years.

Han Fei felt that Old Demon Chu should have known about these things earlier. Unfortunately, if Old Demon Chu knew that his direction was wrong from the beginning, what would he think?

Old Demon Chu wanted to find the entrance to the Heavenly Palace from Su Jiuci... However, although he did find Su Jiuci, so what? Ren Tianfei was the controller. If he said that there was no road here, there was no road. No one in Chu Sect could step into the Heavenly Palace in this lifetime

Although people were talking about the secrets with shock, Han Fei knew that it was far from exciting enough!

Therefore, Han Fei added, "Oh! There are 36 Heavenly Palaces like the Yin-Yang Heavenly Palace in this world. Yes, they correspond to 36 sea areas. These Heavenly Palaces are collectively called the Thirty-Six Mystic Worlds, and our Yin-Yang World is one of them."

Many people were stunned.

Someone was dumbfounded. "What? The Yin-Yang World alone stretches for 8 million kilometers, and there are 36 of them..."

Someone took a deep breath. "How big is this world? Thirty-Six Mystic Worlds? Doesn't it mean that there should be thirty-six kings?"

Someone was puzzled. "Why haven't we seen other strong masters from the Thirty-Six Mystic Worlds yet?"

Han Fei said, "Because the Yin-Yang World declined, it was moved out of the Infinite Ocean and sealed here together with the Heavenly Palace. Its purpose might be to continue the human race. However, the human race will rise in the end, and the Yin-Yang World will welcome a golden age."

Han Fei went on and on alone, not knowing how many people had really taken his words to their hearts.

In fact, Han Fei knew that only one percent of the people in the entire Yin-Yang World would care about what he said.

Most people's spiritual heritage wasn't high enough, so they didn't think this kind of matter had anything to do with them as they probably wouldn't be able to become strong in their lifetime!

However, that one percent was enough. These people were the future hope of the Yin-Yang World.

In fact, Han Fei didn't underestimate the determination of people in a world where everybody cultivated.

Otherwise, why would Han Fei donate and distribute all the resources? Wasn't it to arouse the fighting spirit of countless people? Old Jiang and the others were really narrow-minded on this matter!

At this time, Han Fei painted a grander world. Even Han Fei himself realized how small he was. As he talked, he couldn't help but become excited

At this time, Han Fei suddenly changed the topic. "Everyone, the Yin-Yang World has been declining for too long, In the current Yin-Yang Heavenly Palace, it hides the secret why our world doesn't have a king. In the future, we should work separately... You work hard to become stronger, and I

work hard to break the rule that the Yin-Yang World cannot have a king. Who dares to answer my call?"

Han Fei asked out loud.

In an instant, countless echoes shook the entire world.

Someone shouted, "Marshal Han is already the strongest Venerable but is still so persistent and hardworking. How can we relax?"

On the Scattered Stars Island, countless people cheered.

"We must work hard to become stronger."

"For the rise of the human race."

Hundreds of thousands of people on the dragon boat shouted in unison. The rumbling voice scared the fish below the dragon boats away.

Hearing people's exciting shouts, Han Fei knew that it was about time... Now he could tell them about the last thing.

Yes, these secrets were just for some of the people to hear.

What Han Fei needed to mobilize now was only the emotions of those people.

At the same time, he told them all the secrets so that they could be passed down and told to others. And he was also preparing himself for the tribulation to become a king.

At this moment, Han Fei said leisurely, "Now, let me tell you the last secret. This may change the fate of many people."

Han Fei said, "Next to our Yin-Yang World, there is a sealed place called cage, besides which, there is one of the Thirty-Six Mystic Worlds, named Water-Wood World."

"Huh?"

"What? There are really other Heavenly Palaces?"

Someone sighed. "What Marshal Han said is really unheard of. I wonder what the Water-Wood World looks like and how strong the humans there are."

Han Fei's voice echoed, "The Water-Wood World once had three kings. A few months ago, one died. Now, there are still two kings there. Yes, you heard it right... There are two kings in the Water-Wood World. One king is our ally, while the other is a sea demon king, I have made a deal with Queen Life in the Water-Wood World, promising to help her sweep through two royal cities in that world. Now, I've destroyed one of them, and we still need to destroy the Sea Clan's royal city."

Gulp!

"Three kings? And Marshal Han has dealt with them?!"

Ning Jing was shocked. When did this happen? Why didn't I know? I've contacted the queen... I've never heard of this happening!

Someone asked, "Is Marshal Han strong enough to cooperate with a king now?"

Someone was suspicious. "What does Marshal Han mean? Why did he tell us about that kind of battle?"

Han Fei said, "I want to renew our old alliance with Water-Wood World. Therefore, I propose that anyone above the level of Hidden Fisher can volunteer to explore that world with me. Listen, it's voluntary. The reward is that... I'll propose to Queen Life that you can stay in Water-Wood World for a few

years to blend with the alien species! It depends on your capabilities how many opportunities you can get in the Water-Wood World..."

Now, although there were still a large number of sea demons in the deep sea of the Yin-Yang World, those sea demons could pose no threat.

Besides, at least twenty percent of the sea demons that used to reach more than three million had been killed by human beings.

Since the sea demons were weak, the Water-Wood World was an excellent place for training.

Han Fei knew very well that the quality of the spiritual energy in the Water-Wood World was slightly higher. Besides, there were four battlefields for people to gain experience. In the future, if there was a full-scale battle, this would be an opportunity.

Of course, opportunities were accompanied by dangers.

If one wanted to get an opportunity and grow quickly, he had to survive first.

It was inevitable for people to die. But even in the Yin-Yang World, such deaths were inevitable.

Ning Jing soon found Han Fei's original body in the sky above the Cloud Soaring Town.

She said, "Han Fei, are you crazy? Are you going to attack the White Shell Royal City with the Yin-Yang World soldiers? Does the queen know about this?"

Han Fei grinned. "Do you think she will refuse?"

Once the White Armored Emperor died, Queen Life would dominate the entire Water-Wood World alone. And once the White Armor Emperor died, his energy would return to the world... The one who could get the most benefits would be Queen Life.

Besides, Han Fei wasn't worried that Queen Life would attack the Yin-Yang World. First of all, it was unnecessary. Secondly, she couldn't come over. Otherwise, the Heavenly Dao Dharma Eye would definitely take action.

And if Queen Life wasn't an idiot, she wouldn't let the Venerables and explorers of the Yin-Yang World come over either. Han Fei's experience and growth told her that his identity as the master of Yin-Yang World had basically been confirmed.

There was no benefit in pissing Han Fei off.

More importantly, Queen Life was Han Fei's junior sister after all. No matter how much she didn't want to admit this fact, she couldn't deny it.

Of course, some people would doubt it.

In the Thousand Star City and the Scattered Stars Island, voices rang.

This voice came from Cao Tianzhi and Xue Shengqi.

Xue Shengqi asked, "Will the king of the Water-Wood World covet the Yin-Yang World?"

Cao Tian asked, "Since you haven't become a king yet, how can he cooperate with a king, Marshal Han?"

Many people fell silent.

Those who dared to question Han Fei must be very strong... At least in the Venerable realm.

Han Fei said with a smile, "Someone is wondering... if I form an alliance with Water-Wood World, will it endanger the Yin-Yang World? Since someone has asked, I'll answer their question. The Yin-Yang World has had no king for tens of thousands of years because the Great Dao here is sealed and this

world is being watched by the rules of the Heavenly Dao. In fact, no king dares to enter the Yin-Yang World. Even the Black Evil Conch King that once fought me on the Scattered Stars Island only sent his projections over. Since no king can come here, I'll bluntly say that no one under the king realm can beat me. Are you satisfied with this explanation?"

Han Fei had said enough today.

There always had to be someone who made decisions. Now, he was the only one who could make such an important decision.

If he succeeded, he would become the uncrowned king of the Yin-Yang World.

In the future, when the Heavenly Dao Dharma Eye was gone, he would be king.

Han Fei's words certainly worked!

At this moment, countless Hidden Fishers in the Thousand Star City, as well as a large number of retired experts in the 36 towns, all set off. Their visions were certainly different from ordinary people's.

They knew that if they wanted resources, they had to fight for them on their own!

Now, Han Fei had helped them get an opportunity. No matter what, they had to take a look.

After all, Han Fei was the only super powerhouse who had swept the Thousand Star City and dominated the Yin-Yang World.

Besides, the title of the supreme commander of the Scattered Stars Island was even more convincing than Han Fei's name.. They had to believe it!

Chapter 1657: Let's Sweep the Royal City

With Han Fei's status now, there was no need for him to lie about these things. The collision between different areas and races was actually an excellent opportunity, but not many people could figure it out quickly.

The first reaction of most people, especially ordinary cultivators, was fear.

Han Fei didn't want to waste time. If they were given multiple choices, they would probably hesitate for at least a few months. Therefore, Han Fei simply gave them two choices: either go or not go

They would bear the consequences on their own.

He did this to avoid many people who were hesitant. If they didn't have the heart strong enough, what could they do even if they went with him? What Han Fei wanted was people with desire.

Cloud Soaring Town, Wind Rain Village.

Jiuyin Ling was also listening to Han Fei.

She knew that she would definitely go to the Water-Wood World, not because of Han Fei, but to become stronger.

'When she saw Han Fei sitting in the yard, skillfully peeling the clamshell, she was stunned.

After a long time, Jiuyin Ling said, "You, why are you here?"

Han Fei raised his head and smiled. "You're already a peak-level Explorer? It seems that it's only a matter of time for you to become a Half-Venerable."

Jiuyin Ling said, "That's only a Half-Venerable... Why are you suddenly here? You should have a lot of things to do now, right?"

Han Fei smiled. "Xiao Jiu! We've known each other for 15 years, right? You must've gone through a lot of things to become a peak-level Explorer so quickly according to the records in the Heavenly Music Book..."

Jiuyin Ling nodded. "Yes! Humans have seven emotions and six desires. Only by going through the vicissitudes of life can I make breakthroughs in the mortal world... However, the hardest part is to transcend the love tribulation, which invaded my heart when I was young and has never been tackled."

Han Fei clearly discovered that Jiuyin Ling was different. Even though she had disguised herself as an ordinary woman, her extraordinary aura was getting stronger and stronger.

This meant that Jiuyin Ling could break the mortal barrier at any time.

At the same time, Han Fei remembered that the Heavenly Music Book was extremely difficult and time-consuming to practice.

Obviously, the Heavenly Music Book wasn't easy to practice.

In just a few years, Jiuyin Ling had reached this point. Her speed had amazed many people.

In fact, it wasn't that Jiuyin Ling hadn't grown fast enough or been strong enough... Han Fei still remembered how he was shocked when he saw she became an Explorer!

Therefore, it was not that she was too slow, but that Han Fei was growing too fast! Therefore, even if others grew rapidly, they didn't seem to grow fast enough.

Luo Xiaobai and the others were already advanced explorers. Who could say their growth was not fast?

And this was because of the lack of spiritual energy and energy in the Yin-Yang World. If they were in the cage, with their talent, they would probably be Half-Venerables or even Venerables.

Seeing that Han Fei didn't seem to know how to answer, Jiuyin Ling chuckled. "Don't worry. I won't chase you now. What you said just now made me understand that the world is huge! The Thirty-Six Mystic Worlds must be full of Venerables... If you don't become a king, how can you conquer the world?

So, just go. I have my own path."

Han Fei narrowed his eyes. "What's your path?"

Jiuyin Ling blinked naughtily and said, "I'm not telling you."

Han Fei was slightly relieved. It was a good thing anyway! Jiuyin Ling was no longer conflicted about feelings. This was good for her and for him.

Han Fei handed over a jade slip. Jiuyin Ling tilted her head but didn't immediately take it.

Han Fei explained, "Among the Thirty-Six Mystic Worlds, there's a world called the Sanskrit Music World. I guess it has something to do with the ancient Heavenly Music Sect. If you want to enter the Great Dao with the Heavenly Music Book, you need to obtain the Heaven and Earth Blessing Music Book.

It might not be easy to obtain it in the Sanskrit Music World. I happen to have it..."

Han Fei's guess was not unreasonable.

Among the Thirty-Six Mystic Worlds, the Sanskrit Music World was the only place that was good at music. If the Yin-Yang World returned to the Thirty-Six Mystic Worlds, Jiuyin Ling would definitely go there.

As for the Heaven and Earth Blessing Music Book, he could easily get it through deduction. Therefore, there was indeed no need for Jiuyin Ling to go to the Sanskrit Music World to seek opportunities.

It was like if Luo Xiaobai and the others had to wait dozens or even hundreds of years to find opportunities in a certain place... But Han Fei could give it to them now. Why not give them now?

After all, time was the most precious thing for cultivators.

If Han Fei didn't even give Jiu Yinling this, how could he be called her friend?

Jiuyin Ling accepted it without any struggle. She held the jade slip and smiled. "Sanskrit Music World, I'll remember it... Well, since you're already here, why don't you have a meal with me here?"

"Okay!"

Han Fei didn't go with Jiuyin Ling.

Now, countless people were heading to the Scattered Stars Island, but Han Fei came to the level-three fishery, the Abyssal Chasm.

In the Nine Palace World secret realm, Han Fei skillfully passed two checkpoints in a row, turned the wheel, and came to the resting place of the Water Immortal.

In this paradise-like place, the speed of growth of the Water Immortal... exceeded Han Fei's imagination. In just four years, the Water Immortal grew from a seed into a huge green lotus.

This green lotus might not be very strong, but it occupied one-tenth of the space.

Han Fei couldn't help but smile bitterly. Damn! If he put the Divine Son here too, would the Water Immortal and the Divine Son fight?

If the green lotus grew at this speed... it might produce consciousness in ten years at most.

After pondering for a long time, Han Fei felt that there was probably no better place than this place for the growth of the Divine Son and the Water Immortal.

Therefore, Han Fei placed the seed of the Divine Son at the furthest place from the Water Immortal and buried it.

By the way, Han Fei set a barrier between them.

Han Fei said, "Teacher, Divine Son... Just pray that I can come back within ten years... This is already the best place I can find for you two in the Yin-Yang World. Although it's not a big place, bear with it for now. When I return, I'll find you a better place."

Han Fei had planned to put the Thousand Mountain Ancient Realm here too.

However, seeing that the Water Immortal was growing so fast, he decided to drop it.

Few creatures in the Thousand Mountain Ancient Realm were still alive. He didn't let them out because there were too many humans in the Yin-Yang World. It wasn't appropriate to release a bunch of ancient demon plants here... Perhaps they would be used as training objects by others and end up in disaster!

After planting the seed of the Divine Son, Han Fei didn't go to the Scattered Stars Island immediately. Instead, he summoned the Nine-Tailed Mantis Shrimp, Little Fatty, and Little Gold out in the Abyssal Chasm.

Earlier... Han Fei hadn't had the time. However, this time, Han Fei had to do all the necessary things at one go. These contractual spiritual beasts had to do one thing today... To transcend the tribulation.

With Han Fei here, their tribulation would definitely be very smooth. After all, Han Fei was much stronger than them now.

Sure enough, only three hours later.

The four contractual spiritual beasts all successfully transcended the tribulation.

The Abyssal Chasm was remote. Therefore, only a few people knew about this tribulation. Ordinary people couldn't sense the tribulation here at all!

At this moment.

A string of information appeared in Han Fei's eyes.

< Name > Nine-Tailed Mantis Shrimp

< Introduction > A mutant Mantis Shrimp, with fast speed and strong attacking power, good at hiding itself and attacking prey. Its nine tails can turn into nine divine chains and it has extremely strong combat power.

< Level > 70

< Quality > Legend

< Enforcing law > Soul Hammer

< Spiritual Energy > 71,873 points

< Food > Omnivorous, prefers shrimp

< Battle Technique > Void Chains, Nine-Tailed Soul Stabbing, Soul Lock

< Remarks > Current status: growth period

< Name > Feather God Ray

< Introduction > Ancient exotic species, a flying fish, with two wings and two feet. Its wings are as sharp as blades and can break gold and crack stones. Feather God Ray can fly into the sky or dive into the sea. Its speed is extremely fast. Its head is as firm as a mountain, and it is good at hitting things

with its head. When it has fully grown up, it can gather the power of heavenly thunder.

< Level > 70

< Quality > Legend

< Enforcing law > Lightning Escape

< Spiritual Energy > 78,032

< Food > Carnivorous, prefers large fish

< Battle Technique > Lightning Blade, Lightning Domain, Ultimate Thunder Scar

< Remarks > Current status: growth period

< Name > Nine Death Soul Splitting Octopus

< Introduction > Ancient exotic species, with a weak divine beast bloodline. Its sucking disc can absorb spiritual energy, energy, and essence blood. The Nine Death Soul Splitting Octopus's spiritual power is extremely strong, able to ignore the mental attacks of all creatures within ten levels of itself. It

also has great strength and can deflect ninety percent of the attacks when attacked. It also has a super strong self-recovery ability.

< Level > 70

< Quality > Ancient exotic (can grow)

< Enforcing law > Soul Attraction

< Spiritual Energy > 96,852

< Food > Carnivorous, prefers shrimp and crabs

< Battle Technique > Limb regeneration, Blood Rebirth, Soul Hunting Tentacle, Divine Sea Strike

< Note > The host can share Blood Rebirth with the Nine Death Soul Splitting Octopus. It can only be used nine times in a lifetime, with five left.

< Name > Heavenly Dog

< Introduction > Ancient exotic species that likes to inhabit turbid waters and dark mountains. They look like white dogs and have black heads. Their sounds are varied and often reduce their sense of threat by pretending to be cats. Heavenly Dogs have wings and blue feathers like sharp blades. They can twist the void and escape extremely fast. They are good at stealth and like to bully the weak. Heavenly dogs have the ability to devour the sky and the sun, but the ability needs to be activated passively.

< Level > 70

< Quality > Ancient Mutant

< Enforcing law > Water Barrier

< Contains Spiritual Energy > It can swallow spiritual energy infinitely

< Food > Omnivorous, prefers meat.

< Battle Technique > Sky Escape Technique, Heavenly Demon Body (transformed into a heart demon), Heritage Breaking Claw

< Remarks > Current status: growth period

At this point, all of Han Fei's contractual spiritual beasts had reached the realm of Explorers.

Perhaps, after the tribulation, there would usually be great gains.

At this moment, these contractual spiritual beasts all had one or two combat skills more. For example, the Nine-Tailed Mantis Shrimp's Soul Lock was a combat skill that could lock the enemy's soul. In the same realm, even if the enemy could break free, it would take a lot of time. And in a battle between strong masters, every minute and second determined where the balance of victory was tilted

Little Gold's combat skill was easy to understand. It was the Ultimate Thunder Scar. Its speed was extremely fast! However, this was relative. For him, it was dispensable.

Little Fatty surprised Han Fei most. It had evolved from a legendary creature to an ancient exotic creature.

Besides, it also had a combat skill that could attack the soul. Sure enough, this guy specialized in soul attack.

As for the licking dog, although he hadn't fought once, his growth was very fast too.

However, although their growth was very fast, Han Fei was still regretful. Other people's spiritual beasts were as strong as their masters... But it was impossible for him and his spiritual beasts for the time being!

Therefore, Han Fei didn't intend to summon his pets in battle, mainly because they were too weak now and couldn't grow as fast as him.

After these contractual spiritual beasts transcended the tribulation, Han Fei went to the Thousand Star City.

Corpse Nurturing Ground.

Han Fei left all the pets here.

Yes, even Little Fatty was left here.

Han Fei hesitated for a long time, but then he realized that he could hardly die now.

Han Fei was already familiar with the Water-Wood World. As long as he didn't fight the White Armor Emperor, there was no one in the Water-Wood World who could kill him.

"Huff ~"

After Han Fei was done, he stood in the sky above the Thousand Star City, and an old turtle appeared beside him.

The old turtle had signed a master-servant contract with Han Fei. Without the suppression of the Demon Purification Pot, he had completely melted into Gui Sang's body.

Of course, there was also an old turtle soul in Han Fei's body, which was for the convenience of communication.

Han Fei grinned and said, "Let's sweep the royal city.."

Chapter 1658: Water-Wood World

Scattered Stars Island.

'When Han Fei returned here again, he finally saw the scene of Hidden Fishers everywhere. Although it was not as good as the Water-Wood World and the Cage World, it made the Scattered Stars Island the strongest island in the Yin-Yang World.

Han Fei scanned with his perception and could be sure that there were nearly 100,000 Hidden Fishers coming from the Thousand Star City and the 36 towns.

Don't underestimate these hundred thousand people. On the past Scattered Stars Island, Hidden Fishers were already strong. Even if all the hidden ones were added up... there might not be ten thousand Hidden Fishers.

Therefore, the situation was much better now!

And this was only... on the second day after Han Fei announced that he was going to the Water-Wood World, there were already as many as 100,000 Hidden Fishers gathered here. And it didn't include the cultivators of the big clans. If those people were added, the number of Hidden Fishers would be

doubled!

At this moment, people were still coming from the Thousand Star City and the 36 towns. Han Fei nodded slightly.

Suddenly, Han Fei raised his head, because he felt that ten thousand kilometers away... the Cloud Whale had swept across the sky.

Then, Tang Yan's voice came. "Your strength is improving at an incredible speed! It's difficult for you to grow so fast even if you can use the power of wish. It seems that you do have other opportunities..."

Han Fei thought to himself, you didn't come out when Old Demon Chuc claimed to be a king... Why did you come out now?

Han Fei smiled. "I was lucky and happened to encounter some opportunities."

"Um!"

Tang Yan didn't dwell on this question but asked, "Did you really communicate with Queen Life?"

"Do you think I would lie?"

Tang Yan said, "Not really... Many people know about the channel you mentioned, but no one seems to be able to pass it."

Han Fei thought to himself, It seems that Tang Yan and Old Han are not really on good terms! At least, Old Han didn't tell Tang Yan about this.

As if knowing what Tang Yan wanted to ask.

Han Fei said, "I know that you have the experience in tribulation transcending, and it may be more than once. However, there's something I have to warn you about. Don't think about transcending the tribulation in the Water-Wood World. I won't let you and Cao Tianzhi go there now."

Tang Yan was silent for a while. "Are you afraid of causing a conflict between Yin-Yang World and Water-Wood World?"

Han Fei said, "We need the absolute trust of each other. Besides, if anyone dares to cause trouble at this critical moment, I'll kill him..."

At this moment, Han Fei was no longer afraid of Tang Yan.

He could tell the difference between Tang Yan and Tang Ge. Even if Tang Yan died, Tang Ge wouldn't be affected. In fact, it might even be better for Tang Ge.

In fact, Xue Fan was equivalent to Tang Ge in identity. Wasn't his achievements higher than his original body? After all, reincarnation bodies had their own consciousness. The only pity was that if the two parties fused in the future, there was no telling who would dominate the body!

At this time, Tang Yan said, "You mean we have to wait for you to break the Yin-Yang World's Heavenly Dao Dharma Eye?"

Han Fei nodded straightforwardly. "That's right. Although Queen Life is our ally, she is not a human. Apart from all other relationships, any action that exceeds an ally may have unimaginable consequences."

In fact, Han Fei thought to himself, You want to become a king before me? In your dreams.

And Tang Yan did want to go to the Water-Wood World to transcend the tribulation.

He knew very well that once he fell into a king-level heavenly tribulation, even if the other party was a king, it would be extremely difficult for him to intervene!

However, just as Han Fei said, this was definitely a provocation to the Water-Wood World. After all, it was their territory and he would use their energy.

Why should they let him become a king there? Wouldn't it be great if they saved all the energy resources for themselves? Even if they couldn't use them, how many Half-Kings could the resources and energy create?

Therefore, this was indeed a provocation to them!

Therefore, Han Fei really couldn't let them go there ahead of him... Otherwise, he might fall out with Queen Life.

Seeing that Tang Yan was silent, Han Fei asked, "Where is Tang Ge?"

Tang Yan said, "He's transcending the tribulation. I don't think he can participate in this battle."

Han Fei frowned. "It's longer than I expected!"

"The longer, the better."

"um!"

Han Fei didn't talk to Tang Yan anymore.

Immediately, Han Fei went to the Refining Hall in the City of Justice and found Luo Xiaobai. At this moment, all the refiners in the Refining Hall were having a meeting.

After so many years of development and investment in various resources, there were already more than a hundred Fei-Yan-Mu Furnaces.

However, as more and more people poured into the Scattered Stars Island, it was obvious that the Fei-Yan-Mu Furnaces were running at full capacity, and the weapons they were forging were limited!

Luo Xiaobai was now requesting to build some more Fei-Yan-Mu Furnaces. At the same time, she wanted to sell some of the weapons in the warehouses of the big clans.

A moment later, Han Fei found Luo Xiaobai.

As for Zhang Xuanyu and Le Renkuang, they had been arranged by Luo Xiaobai. One was responsible for deploying resources, personally supervising them, and the other was responsible for arranging newcomers on the Scattered Stars Island.

'When Luo Xiaobai saw Han Fei, the first thing she asked was, "When are we going to fight?"

Han Fei was stunned for a moment and then grinned. "Not that fast. Although more and more experts are gathering on the Scattered Stars Island... the number is not enough. Besides, the overall mobilization is a big problem. It seems that the former management method of the Scattered Stars Island has to be used again."

Luo Xiaobai said solemnly, "I've already used it. As for the big clans, I've designed an implicating mechanism... Otherwise, it's really difficult to control those families who are used to playing dirty and running amuck."

Han Fei shrugged. "Oh, that's great. By the way... I'm here to ask if you have time now."

Luo Xiaobai: "Huh?"

Han Fei said, "I'm going to Water-Wood World to discuss the battle situation with Queen Life. Would you like to go with me?"

Luo Xiaobai's eyes lit up. "Then here.

Han Fei said with a smile, 'We'll be back soon. I'm taking you there because I have something to do... Once everyone arrives, you'll be in charge of everything, Even Xue Shenqi can't shake your commanding right... So, I'll show you the way in advance and introduce you to the Venerables of Water-Wood World."

Luo Xiaobai immediately said, "Wait for me for an hour. I'll arrange some follow-up matters."

Luo Xiaobai had no intention of rejecting Han Fei. After hearing about the existence of the Water-Wood World from Han Fei, she had long wanted to explore it.

Now that she had this chance, she certainly wouldn't miss it.

To be honest, in terms of managing the army, Luo Xiaobai didn't look down on Han Fei, but Han Fei liked adventure too much

So, should Han Fei be in charge of the army?

Luo Xiaobai thought that it would be better for her to do it!

Since Han Fei had given her power, she must be in total charge of the planning and dispatch of all personnel on the Scattered Stars Island.

In an underground cave in the Transverse Mountain, just like the Ten Thousand Demon Valley, it could directly connect the two worlds.

At this moment, Han Fei and Luo Xiaobai were already in the cave.

Ning Jing was still shopping on the Scattered Stars Island

Han Fei couldn't help but say with a black face, "Hey, don't think I don't know... You brought back a lot of ingredients and seasonings. Yin-Yang World is going to suffer a huge loss if you keep doing this!"

Ning Jing snorted. "Petty... I don't know when I'll be able to come next time. Wouldn't it be a waste if I don't prepare some?"

Han Fei was lost for words. "I can assure you... you'll have plenty of time to come to the Yin-Yang World soon."

swish ~

Ning Jing appeared directly in front of Han Fei and Luo Xiaobai.

Although Luo Xiaobai had heard Han Fei mention Ning Jing... when she saw Ning Jing, she couldn't help but be secretly shocked. This girl was so beautiful!

Ning Jing looked at Luo Xiaobai and said graciously, "Hello!"

Then, she looked at Han Fei. "Really?"

Han Fei shrugged. "Of course! Maybe the Water-Wood World and the Yin-Yang World can be connected in the future. What do you think?"

Ning Jing's eyes lit up. "Let's go!"

When Han Fei, Luo Xiaobai, and Ning Jing entered the passage, Luo Xiaobai said in surprise, "Is this the passage to the Water-Wood World?"

Luo Xiaobai had no idea that this channel was actually a channel to the Water-Wood World.

As soon as Han Fei came in, Qianshu had already sensed him. Because Qianshu was connected to the ground veins, he could see Han Fei from a distance.

'When Qianshu's face appeared on the tree, Luo Xiaobai looked at it in surprise. She immediately looked at Han Fei. "Isn't this the Leafless Tree?"

Han Fei nodded. "The Leafless Tree has gone out. This senior is called Qianshu."

With that said, Qianshu's old voice said, "Qianshu greets you, Messenger Jing."

Ning Jing was speechless when she sensed that she was a Hanging Fisher now. She responded casually, "Open the channel. I'm going to see the queen."

"Yes, Messenger Jing."

"Messenger Jing?"

Luo Xiaobai silently watched all of this. Sure enough, as Han Fei said, Ning Jing's status was extremely high.

The speed of a Hanging Fisher was always a little slow.

When Han Fei and the others arrived, six hours had passed.

Although Han Fei and Ning Jing both knew the Near at Hand Technique and carried Luo Xiaobai with them.

'Water-Wood World.

When Luo Xiaobai appeared on the Sea of Clouds Divine Tree, she saw the huge tree bark wall... She looked at Han Fei in surprise. "Is this a trunk?"

Han Fei nodded slightly. "Yes! The trunk."

Luo Xiaob:

Luo Xiaobai said, "I once thought that the ancient tree I saw was already very big... Is this the Cloud Sea Divine Tree?"

Ning Jing said, "Of course, this is the Cloud Sea Divine Tree. Its branches and leaves stretch out for 500,000 kilometers the furthest."

After they appeared, the Leafless Tree said, "Hi, Messenger Jing. Han Fei, the queen asked you to go straight there.."

Chapter 1659: Negotiation with Queen Life

This time, when Han Fei came to the Water Wood Heavenly Palace, the bat Venerable who was responsible for guarding the gate was shocked to see him!

'When Han Fei first came, he was only a peak-level law enforcer.

But now, he was almost a peak-level Venerable!

This growth speed was unheard of... It was simply incredible.

Because Han Fei and the others went directly to the Heavenly Palace, Luo Xiaobai hadn't met the other races on the Cloud Sea Divine Tree yet.

'Water Wood Heavenly Palace.

'As soon as Jing'er came in, she disappeared with a step and shouted, "My queen, Jing'er missed you so much! Jing'er brought you a lot of things from the Yin-Yang World this time... all strange little things from the Yin-Yang World... including a flying boat..."

"Be quiet."

With a look from Queen Life, Ning Jing immediately fell silent. She stood under the tree obediently and looked at Bai Suzhen.

Ning Jing couldn't help narrowing her eyes. She felt that she had met an opponent. Bai Suzhen's temperament seemed to be similar to the queen's?

Han Fei and Luo Xiaobai were at the end of the road. Luo Xiaobai sensed the terrifyingly rich spiritual energy here... There were spiritual fruits everywhere, and all kinds of rare spiritual fruits here.

However, Luo Xiaobai was very calm.

Since Han Fei could negotiate with Queen Life, he must be on good terms with her.

Seeing Luo Xiaobai staring at the puppets, Han Fei explained, "In the Heavenly Palace, there are many strong puppets. After all, kings need to maintain their mysteriousness. In the hearts of the people, kings are like gods."

"Um!"

Luo Xiaobai nodded and followed Han Fei unhurriedly.

A moment later, when Han Fei saw Bai Suzhen, he found that her pupils were constricted slightly and she closed her eyes.

Han Fei felt that something was wrong.

Could it be that Bai Suzhen had awakened the memories of the Water Immortal so quickly?

In the next moment, someone said, "Suzhen, visualize the Cloud Sea Divine Tree."

"Yes, Teacher!"

Then, Queen Life said casually, "Come up!"

Han Fei moved, and Luo Xiaobai appeared in the little yard of Queen Life before she realized what had happened.

Queen Life was still taking care of her flowers gently, like she was petting her child.

Luo Xiaobai looked straight at her, her eyes slightly dazzled.

When Han Fei was about to do something, Luo Xiaobai's hands were wrapped by brambled vines and she suddenly closed her eyes.

'When she opened her eyes again, she no longer dared to look at Queen Life.

Luo Xiaobai was shocked. She's so beautiful!

She had never thought that there would be such a beautiful woman in this world.

She couldn't help but glance at Han Fei, thinking that Han Fei was quite popular with women!

Queen Life didn't know what Luo Xiaobai was thinking, She stopped what she was doing and stroked the branch with one hand, and her other hand fell naturally. She looked at Luo Xiaobai casually. "Huh! A born human manipulator has a heart of nature... Little girl, do you want to be my disciple?"

Luo Xiaobai was stunned.

Ning Jing and Bai Suzhen under the tree were both taken aback.

Ning Jing was still thinking, What's wrong with the queen? Why is she recruiting so many disciples?

The corners of Han Fei's mouth twitched, and he immediately said, "Luo Xiaobai is my teammate."

Queen Life chuckled. "Then she should be less than a hundred years old. She has great potential."

Seeing that Han Fei was frowning, Queen Life said casually, "Let's talk about our own business... Besides, you're not qualified to talk about this with me."

“Heh ~”

Han Fei rolled his eyes and looked at Luo Xiaobai. “It’s up to you.”

Han Fei wondered if his junior sister was obsessed with taking disciples.

Luo Xiaobai was very special. Han Fei knew that not only did she have a growing spiritual heritage, but she was also a genius of the family mastering the Divine Manipulation Technique. Furthermore, she had awakened her Dao Seed early. Even if she didn’t become Queen Life’s disciple, her future achievements couldn’t be bad.

Sure enough, Luo Xiaobai shook her head slightly. “Thank you, Senior... However, I’ve already entered a sect, so it’s inconvenient for me to acknowledge you as my teacher. Please forgive me.”

Han Fei seemed to have expected this result, so he wasn’t surprised at all.

Queen Life was taken aback, and Ning Jing’s eyes widened.

Queen Life didn’t expect that Luo Xiaobai would refuse her so quickly!

Ning Jing was shocked. This person rejected the queen? Is she stupid?

Only Han Fei knew very well that Luo Xiaobai was a very principled person. Whether this principle was right or wrong... What she insisted on was always what she thought was right. Since childhood, Han Fei certainly knew that it was unlikely to make Luo Xiaobai succumb to others.

Queen Life smiled. “What a pity... Okay, tell me! You’re not here just to visit me, are you?”

Han Fei said, “I think the queen has already known about what happened in the Yin-Yang World recently.”

Han Fei believed that the Sea Cloud Tower must have a way to communicate with the Water-Wood World.

In the past, Old Han could turn a blind eye to it, and now he could do the same.

Luo Xiaobai’s pupils were constricted. This made her feel extremely surprised. Was there someone from the Water-Wood World in the Yin-Yang World?

This matter was neither big nor small. The main reason was that there was no king in the Yin-Yang World. It was not good to be watched by a king.

However, judging from Han Fei’s reaction, this matter didn’t seem to be serious. Otherwise, Han Fei wouldn’t have come here, let alone sit idle.

Queen Life said, “Yes! Your strength has already exceeded Jing’er’s... But it’s not enough yet.”

Han Fei smiled and said, “How is the hunt going for the Venerables in the Blood Sea Divine Wood City?”

Queen Life said, “Most of them didn’t die at the hands of us and the White Shell Royal City. Those who escaped have all died.”

Han Fei certainly knew what Queen Life meant.

Before the tribulation, Xue Fan might have completely parasitized a portion of people... Therefore, there were actually very few people who could resist his parasitic abilities.

After all, it was impossible for a Venerable to not know he was parasitized... Xue Fan still needed subordinates, so some Venerables managed to escape from his control.

Most Venerables weren't that lucky.

'When Xue Fan's Parasitic Technique was fully activated and they died, there was no telling if there were any Great Dao cracks. It was possible that they had been completely parasitized by Xue Fan and became his clones.

Han Fei wasn't surprised to hear that all the Venerables in the Blood Sea Divine Wood City had died. After all, neither the Water-Wood World nor the White Shell Royal City dared to use the Venerables from the Blood Sea Divine Wood.

Once the Venerables died, the scattered Blood Demons were nothing to worry about.

Luo Xiaobai was shocked. Han Fei had mentioned the Blood Sea Divine Wood City to them.

Han Fei mentioned that he was forced to transcend the king-level tribulation, so he talked about the Blood Sea Divine Wood City.

How could a powerful royal city be destroyed in such a short time? It could be seen how powerful the Water-Wood World and the White Shell Royal City were!

Therefore, unlike her beauty Queen Life was not harmless

Han Fei grunted and said frankly, "I promised you to destroy the other two royal cities... Now that the Blood Sea Sacred City is destroyed, it's the turn of the White Shell Royal City."

"one"

Queen Life stood upright, and her temperament was immediately different. She was elegant and solemn now.

She said, "You should know the history of the battle between the White Shell Royal City and the Cloud Sea Divine Tree. It's extremely difficult to decide the winner..."

Han Fei couldn't help but ask, "In the White Shell Royal City, is there another king besides the White Armor Emperor?"

Queen Life shook her head slightly. "Of course not."

Han Fei asked again, "Are there any fake king-level experts?"

Queen Life was already shaking her head. "There's actually something wrong with the fake king realm... At least, there has never been a fake king in the Water-Wood World."

Han Fei said, "Since there is no second king in the White Shell Royal City, and there is no fake king... With the help of our Yin-Yang World, what will be the result of this battle?"

Queen Life looked at Han Fei. "Will the Yin-Yang World help us?"

Han Fei grinned. "You don't know yet?"

Queen Life: "I didn't get the news as fast as you think."

Han Fei said, "I'm here... to help. You should be able to think of that."

Queen Life looked at Han Fei deeply. "Do you know how many soldiers are needed to fight such a battle? How many of them will die?"

Han Fei said,

's better to accomplish the whole task at one stroke. Besides, the top priority of the Yin-Yang World and Water-Wood World is not the White Shell Royal City but the cage."

Luo Xiaobai thought to herself on the side. Han Fei was a tough and adventurous guy as always.

'As for Queen Life, she was obviously tempted. If she wasn't tempted... she would have already refused.

Sure enough, Queen Life smiled casually. "How many soldiers can you send over?"

Han Fei looked at Luo Xiaobai. "Luo Xiaobai will deploy the troops of the Yin-Yang World and even their future battles in the Water-Wood World."

Luo Xiaobai replied, "The Yin-Yang World can send... a total of 250,000 Hidden Fishers, 7,000 Law Enforcers, 300 Explorers, and 15 Venerables."

Queen Life looked at Han Fei. "Is the Yin-Yang World so weak now?"

Han Fei grinned. "Count me in."

Queen Life looked at Han Fei deeply. "There are probably five Half-Kings in the White Shell Royal City.

Han Fei said unconcernedly, "As it happens, there are three Half Kings in Yin-Yang World."

Queen Life shook her head and said, "Half-Kings are not allowed to enter the Water-Wood World."

Han Fei thought to himself, As I expected!

Once a Half-King transcended the king-level tribulation, even a king couldn't interfere! Therefore, how could Queen Life allow it?

Han Fei was already prepared.

Han Fei said unhurriedly, "If the White Armored Emperor doesn't come out, I alone will be enough."

Queen Life suddenly changed the topic. "Are you sure you sent so many people here just for the battle?"

Han Fei smiled and didn't answer the queen's question directly. Instead, he said, "If the seal on the cage disappears one day, the Yin-Yang World and the Water-Wood World will meet sooner or later. Besides, the Water-Wood World is actually not much better than the Yin-Yang World... Look at the world

inside the cage, and everything will be clear! The outside world may be beyond our understanding. Cooperating to deal with the outside world should be our best choice."

Queen Life chuckled. "Okay! Since you dare to bet, I dare to fight.."

Chapter 1660: Scattered Stars Expeditionary Force

After the two sides came to an agreement, Han Fei said, "Although we're going to fight... it may be more effective if you wait for me for a while."

Queen Life looked at Han Fei. "What are you going to do?"

Han Fei grinned. "I'm going to the White Shell Royal City."

Luo Xiaobai asked in surprise, "Why are you going there?"

Han Fei grinned. "There is a forbidden-level trial field in the White Shell City that is very suitable for my cultivation. If I go there, I can reach the peak."

Luo Xiaobai remembered that Han Fei could transform into an Inferior Man-Fish, and her heart did a flip. It seemed that Han Fei had already been to the White Shell Royal City.

Queen Life asked, "How many years do I have to wait?"

Queen Life had already had conservative estimates of the time. It might take a hundred years or even longer for a normal person to become a peak-level Venerable from an advanced peak-level Venerable. However, when it came to Han Fei, Queen Life felt that it might take a few years or even shorter.

Han Fei said, "I'm not sure how long it will take, but it won't be too long. My suggestion is that let the people of Yin-Yang World come first. This kind of war requires cooperation and familiarity with the geographical environment. We can't fight unprepared battles."

Queen Life didn't refuse this time. As long as there were no Half-Kings, it didn't matter how many people came here. Therefore, she replied straightforwardly, "OK, you don't have a lot of people. The eleven human units can totally accommodate them. However, are you sure you can still sneak in without

the White Armor Emperor knowing?"

Han Fei smiled. "That's my problem."

After leaving the Water Wood Heavenly Palace, Ning Jing took the two of them to the human territory. This time, she still went to Wushang Xue.

Based on Han Fei's understanding of Ning Jing, it was definitely because they were close!

When Wushang Xue saw Han Fei again, she said in surprise, "Your strength..."

Han Fei smiled politely. "I got some opportunities."

Wushang Xue really wanted to roll her eyes. What kind of opportunity could make a person grow so fast?

After Ning Jing talked to Wushang Xue via voice transmission, Wushang Xue widened her eyes and looked at Han Fei with a complicated look.

If she didn't know Han Fei, she would have thought that Han Fei was crazy. This guy was negotiating with the queen to destroy the White Shell Royal City?

Glancing at Luo Xiaobai, Wushang Xue said, "The queen will directly inform the Cloud Sea Divine Tree of such a big event, right?"

Han Fei smiled. "Of course. I just took the Command of Tactics of the Yin-Yang World to visit the Cloud Sea Divine Tree."

Luo Xiaobai was lost for words. Han Fei had invented a new term, Command of Tactics? That sounded weird.

In fact, Han Fei knew that it would work. As long as Queen Life wasn't stupid, she wouldn't refuse him. After all, destroying the White Shell Royal City would bring her too many benefits.

Han Fei's purpose was actually very simple. He needed to use the Lightning Prison... Since he was already here, why not destroy the White Shell Royal City by the way?

Besides, this could also promote the relationship between Yin-Yang World and Water-Wood World. In the future, if something happened to the cage when he wasn't around, Queen Life could take care of the Yin-Yang World.

As for Queen Life coveting the Yin-Yang World? That was nonsense. If she coveted it, she would have done so a long time ago. Besides, with the Sea Cloud Tower in the Yin-Yang World, Queen Life was very clear about the situation in the Yin-Yang World.

Half a day later.

Dark War Port.

Han Fei took Luo Xiaobai to explore the four battlefields. There was no telling if it was because the Blood Sea Divine Wood City had been destroyed, but the battle in the Fiery Sea had become smaller.

When Han Fei finished telling Luo Xiaobai about the Dark War Port, Luo Xiaobai said, "Well! I've already figured out the situation here. I'm just curious. Our strength is clearly not enough... Hundreds of thousands of Hidden Fishers are just a drop in the bucket for them. The ones that are really useful are the Explorers and the Venerables... And Queen Life didn't agree to let the Hidden Fishers come, which weakened the advantage of our Yin-Yang World... She seems to be only interested in you."

Han Fei grinned. "At least I've got the result I want..."

Luo Xiaobai asked, "You didn't do that to make them fight the war, did you? For the Water-Wood World, it doesn't matter whether or not the people of the Yin-Yang World come to help. Queen Life just wants your help, so even if you don't take anyone with you, she will still agree to this war."

Han Fei said indifferently, "Do you think the Water-Wood World is very strong? In fact, it's not. After going to the cage, I knew that both the Yin-Yang World and the Water-Wood World had declined. There were pitifully few strong masters! And there were 36 Heavenly Palaces. I suspect that there are still

many powerful Heavenly Palaces as powerful as the cage... Can you imagine? Even if the Yin-Yang World and the Water-Wood World are combined, they might not be ten or twenty percent as powerful as the other Heavenly Palaces. Maybe, the other Heavenly Palaces have already unified their respective worlds. In that case, even the cage might not be comparable to them!"

Luo Xiaobai said, "Do you think... the Yin-Yang World and the Water-Wood World will inevitably collide with other Heavenly Palaces in the future? So, the current alliance is inevitable?"

Han Fei nodded. "Yes."

Water Wood Heavenly Palace.

Ning Jing was asking the same question.

Queen Life said indifferently, "You have to look into the future. A moment of gain or loss doesn't mean much. Even if the White Shell Royal City has always existed, it's not a big deal. I'm betting on Han Fei."

Han Fei and Luo Xiaobai stayed in the Water-Wood World for less than a day before they returned to the Scattered Stars Island.

On the Scattered Stars Island, the City of Justice was crammed with people! For people who didn't see many strong masters before, they could see strong masters everywhere now.

The carnival shops and the like... were already full!

Zhang Xuanyu and Le Renkuang were quite busy and didn't even know that Han Fei and Luo Xiaobai had left.

Five days passed.

On the Scattered Stars Island, outside the City of Justice, Luo Xiaobai arranged 25 formations, each with 10,000 soldiers.

The number of estimates didn't exceed Luo Xiaobai's expectations.

Even if all the Hidden Fishers in the entire Thousand Star City were added up, the number of Hidden Fishers might reach nearly a million. However, excluding the old ones and those who were scared, according to the statistics... there was probably only one person per four to five people... who was willing

to join this adventure.

Luo Xiaobai knew very well that the people who went to the Water-Wood World the earliest would definitely get the most benefits. There was more spiritual energy there, and there were too many things for the human race to learn. There was also the Cloud Sea Divine Tree where they could crazily cultivate.

All in all, the 250,000 people's vision and courage decided that they would rise quickly.

But in Han Fei's eyes, even a million Hidden Fishers were very few, let alone 250,000. Could a million Hidden Fishers be compared to a million explorers?

It was simply an insurmountable chasm!

In fact, the rise of a race with a population of billions wasn't something that could be achieved easily. It required generations of hard work and time.

In the past few days, a very appropriate name spread among these armies. This name was—Scattered Stars Expeditionary Force.

It was impossible for everyone who participated in the expeditionary army to not be nervous. However, most of the people's hearts were filled with anxiety, excitement, and curiosity.

During this period, some simple information was slowly revealed.

Now, at the resting place of the expeditionary force.

Someone murmured, "Hey, have you heard? It's said that there are many races in the Water-Wood World. Apart from the human race, there are demon plants like tree demons, a large number of insects, and sky races like birds... Tsk, tsk... It's really hard to imagine why these races are on par with human beings."

Someone sneered. "What do you know? I heard that Queen Life is not from the human race but from the demon plant line."

Someone interjected, "Keep your voice down. I have news that you will never expect."

Everyone couldn't help but look at him, stunned. "What news?"

The man grinned and said, "I heard... the girls there are very beautiful."

"Hoo ~"

Everybody despised him.

Compared to most ordinary people, the people from the big clans had long been arranged into the army.

It could be said that half of the people in the expeditionary army were actually from big clans. And most of the experts were from big clans.

It couldn't be helped. This was the foundation accumulated over thousands or tens of thousands of years.

They had resources and channels to advance, so they were not comparable to ordinary itinerant cultivators. Of course, the population of the 36 towns was huge, and many Heavenly Talents had emerged. In terms of strength, they were no weaker than the children of the big clans.

Although Han Fei had defeated the big clans, it was impossible for him to wipe out these big clans. As long as the people left behind were obedient and didn't have any intention of betrayal, they were allowed to participate in the expeditionary army. This group of people was definitely the strongest in the

Yin-Yang World.

Even so, Han Fei still had requirements for the people of these big clans.

Han Fei personally appeared and issued a rule: When a member of a big family comes to the Water-Wood World, they must hunt a sea demon expert of the same level. Or, they must hunt ten experts one level lower than themselves, a hundred people two levels lower, or a thousand people three levels lower.

These people were dissatisfied, but Han Fei didn't care. He didn't take these people there for a vacation... If you wanted to take off your identity as a descendant of a big clan, you had to work harder than ordinary people. Otherwise, wouldn't it be unfair and cause discord?

Therefore, Han Fei had to temper these people.

Seven days passed.

'When Ning Jing appeared on the Scattered Stars Island, Han Fei knew that the Water-Wood World had been prepared to accept them.

On this day, the City of Justice was as lively as before.

suddenly, a sky curtain opened in the sky.

Han Fei and Luo Xiaobai appeared in the sky.

Everybody stopped what they were doing.

Needless to say, they knew what Han Fei was going to say... Many people even ran directly out of the city to see the Expeditionary Force off.

In the eyes of many people, to be able to have such courage to fight in another world... was definitely worthy of admiration!

Han Fei said, "I think you already know what I'm going to say... Human beings are not the only race in this world. In this sea, there are tens of thousands of races. We have to get out of here and become stronger. Expedition represents danger, but it also represents opportunity... On the day I leave, the supreme commander of the Scattered Stars Island will be Xue Shengi temporarily. Now, I announce... let's go on an expedition!"
