

GOF 1671

## **Chapter 1671: Explosion of the White Shell Royal City (2)**

Bang!

Rumble! Rumble!

Han Fei's appearance made the White Armored Emperor realize that something was wrong. He controlled the field with the Great Dao, preparing to control Han Fei in an instant.

However, dozens of Han Fei appeared in all directions.

The moment Han Fei grinned, countless people felt that a crisis was coming!

It was like the summoning of the god of death!

Only a small number of strong people knew to mobilize all their strength... to resist and defend. Most people didn't even have the time to react.

Boom!

Boom!

Dozens of deafening sounds erupted, including those who were going to stay and guard the White Shell Royal City. Han Fei had activated the Void Descending Art, so he certainly wouldn't miss the places that were almost empty...

Han Fei felt that since he had decided to destroy it, he couldn't let half a piece of tile in the city remain intact!

The White Armor Emperor was quite fast.

One shell to suppress all directions!

He blocked the three shadows of Han Fei, but some were too far away for him to catch up! A terrifying explosion instantly swept across the city.

The explosion came too fast!

Hai Tinglei and Changshui Qin only had time to protect a portion of people. Most of the Venerables could protect even fewer people.

Rumble! Rumble!

The whole sea was rising. God knew how many resources Han Fei had exploded!

Anyway, Han Fei had exploded about half of the energy resources in the shell of the White Armored Emperor, and he still had about ten percent of them left.

This 10% was enough for Han Fei to temper himself to the Half-King level.

Resources were for use anyway!

Although he didn't use the resources himself, he saved hundreds of thousands of lives in the Water-Wood World and Yin-Yang World.

Otherwise, if these strong masters rushed to the Water-Wood World... who knew how many people would die in that thousand-year battle?

The White Armor Emperor's big shell flew across the sky and resisted most of the explosive power alone. The big shell swallowed nearly half of the explosive power... However, there were too many resources detonated.

The moment he saw Han Fei, the White Armor Emperor knew that Han Fei was behind all these matters! His treasure house was probably also stolen by Han Fei.

However, the White Armor Emperor was shocked. Didn't Han Fei die in Xue Fan's tribulation? Why was he still alive?

Unfortunately, he had no time to think.

His army was going to set off, but at this moment, the White Shell Royal City was destroyed!

Almost half of the army of a hundred thousand soldiers were killed.

Even though a few of Han Fei's clones failed to set off the explosion, more than 30,000 or 40,000 soldiers were annihilated.

These 30,000 sea demons were not Hidden Fishers. In the White Shell Royal City, there were no Hidden Fishers at all. The sea demons here were at least Law Enforcers!

Han Fei had thought that his sudden attack could annihilate at least 50,000 soldiers of the White Armor Emperor... But now it seemed that it was not enough.

At that moment, even the White Armor Emperor, a king, was stunned, let alone the others.

For a moment, countless people couldn't even cry or scream, because they were directly crushed by the terrifying power... In an instant, they were shattered.

There were also tens of thousands of people that were seriously injured by the explosion.

Fortunately, this time, the White Armored Emperor had almost brought most of the Venerables with him. The three Half-Kings took action at the same time, including nearly 80 Venerables and hundreds of

Half-Venerables, who tried to protect the soldiers. Only then did they protect half of the people in the White Shell Royal City.

Yu Cailing was dumbfounded.

Although she was protected by a Venerable, she still crashed heavily into the seabed.

After she got up, she looked at the sea demons around who had the same expression as her and was relieved.

Just now, she failed to control her expression and almost exposed herself.

She knew that this explosion was caused by the Fish Dragon King, and she was even more certain that the Fish Dragon King was the person the White Armored Emperor was looking for. Besides, such an explosion made her feel very familiar.

She seemed to have encountered such an explosion when she was in the Ice God Strait.

At this moment, YO Cailing had great doubts about the identity of the Fish Dragon King.

It seemed that after returning from the Thousand Mountain Ancient Realm, the Fish Dragon King had changed.

At that time, she asked herself several times, was this the real Fish Dragon King?

But now, Yu Cailing was almost certain that this Fish Dragon King was fake!

This had been a fake since the Thousand Mountain Ancient Realm!

She had reason to suspect that the Fish Dragon King had been possessed as early as in the Thousand Mountain Ancient Realm.

Unfortunately, she failed to discover it back then, which made her regret it now.

Seeing so many people die, Yu Cailing's mind went blank and tears flowed down. Why am I so afraid of death? Isn't this all because of me?

If she hadn't cooperated with the Fish Dragon King from the beginning, would this explosion still have happened?

The White Armor Emperor attacked immediately.

Unfortunately, dozens of Han Fei's clones suddenly descended and detonated themselves. Unfortunately, none of them were Han Fei's real body.

If Han Fei was right in front of him, why couldn't he recognize him?

"Roar!"

The White Armor Emperor roared, "Everybody, stand where you are and accept my investigation..." Han Fei hid in Forge the Universe and didn't come out.

In Forge the Universe, Han Fei said, "Old Yuan, deprive Yu Cailing of her memories over the past year."

The old turtle asked, "Why? Are you still going to use her now?"

Han Fei said, "Although she's an enemy, this woman's personality is not bad. I used her because in a battle, I won't hesitate to do whatever I can. However, now that I've used her, even if I want to kill her, I'll just kill her on the battlefield later."

The old turtle said, "The noises here are too loud. The Water-Wood World will definitely take action. Will someone come to save you?"

There were only 100,000 people in the White Shell Royal City. Except for those who went to the battlefield and were just killed by Han Fei... there were only 50,000 people left.

The White Armor Emperor was extremely exasperated.

He wanted to investigate them one by one... In fact, it wouldn't take long!

If he could find out Han Fei this way... the White Armored Emperor was willing to try.

On the other side, on the Cloud Sea Divine Tree, the projection left by Han Fei suddenly jumped up from his cross-legged position and shouted, "All armies, fight!"

Old Jiang was taken aback. What the hell... I thought you were dead!

Old Jiang asked, "What happened? Why did you suddenly say this?"

Han Fei said, "Old Jiang, believe me. Although I can't feel the exact situation my original body is in... I can tell that it's time for a full-scale war."

Old Jiang frowned. He knew that something must have happened to Han Fei's original body.

He immediately said, "I'll inform Xiaobai and the patriarch. You go find Ning Jing."

In the Water-Wood Heavenly Palace, Queen Life, who was watering the flowers, suddenly raised her head and looked at the distant territory.

Buzz!

In the next moment, Queen Life disappeared from the Heavenly Palace.

Of course, Queen Life could sense the violent shock.

However, a moment later, when Queen Life was more than 800,000 kilometers away from the White Shell Royal City, she felt a faint blast from the void. Then she was shocked to see the terrifying scene in the White Shell Royal City.

Buzz!

Queen Life returned to the Water-Wood World. She didn't know Han Fei's situation, but it was obviously not a good time to save him...

Besides, she didn't sense that Han Fei used the Venerable Token and asked for Ning Jing's help... If Han Fei was really in danger, at least he could think of this.

Therefore, Queen Life immediately returned to the Water-Wood World.

A moment later.

Luo Xiaobai had just heard the news brought by Old Jiang, when the voice of Queen Life came from the Cloud Sea Divine Tree. "72 Venerables of Water-Wood World, attack quickly and prepare for a full-scale war."

Luo Xiaobai and Old Jiang suddenly raised their heads, stunned to hear what Queen Life said.

But in the next moment, a phantom of Queen Life appeared in front of Luo Xiaobai. "We can let the people of Yin-Yang World take action. Now it's time for war."

Although Luo Xiaobai knew that the top priority now was to organize the army, she still asked, “Your Majesty, what happened?”

Queen Life said leisurely, “Han Fei blew up the White Shell Royal City.”

Luo Xiaobai: “ Old Jiang: “.

Everyone: ”

Luo Xiaobai’s head was buzzing. What do you mean by “Han Fei blew up the White Shell Royal City”? Are you kidding me? If he could have blown up the White Shell Royal City, do we still have to fight this battle?

However, Luo Xiaobai quickly came back to herself and asked, “Your Majesty, is Han Fei in danger? Should we rescue him?”

Yes, Luo Xiaobai asked the second question.

At that time, Queen Life shook her head. “There shouldn’t be any danger for the time being. Even if there is, you can’t do anything. Only by launching a full-scale battle and killing the sea demons in the Water-Wood World can we force the White Shell Royal City to send reinforcements to help them.”

Luo Xiaobai nodded. “I see. Thank you, Your Majesty.”

Luo Xiaobai bowed and turned around. “Patriarch, please inform all the Venerables in the Yin-Yang World that we’ll start a war in the Dark War Port.”

A voice said leisurely, “Leave it to me.”

A great battle was about to break out, but Han Fei hid in Forge the Universe and concentrated on cultivation. He was only eleven bones away from becoming a Half-King.

His whole body had been tempered, except for some of his head bones.

He was going to be a Half-King!

As long as the White Armor Emperor didn’t appear, he would just concentrate on cultivating.

But Han Fei didn’t know that people would go crazy, and sometimes even kings...

The White Armor Emperor was on the verge of going crazy....

## **Chapter 1672 Half-King**

Water-Wood World.

The four major races of the Cloud Sea Divine Tree launched a joint attack.

At this moment, Queen Life took action and slaughtered the six sea demon Venerables in the Dark War Port alone, causing Great Dao cracks and a heavy rain of blood. The 72 Venerables of Cloud Sea Divine Tree attacked on the four battlefields at the same time.

However, Venerables were much weaker than kings. Apart from the Dark War Port, there were only four Venerables who died on the three battlefields.

One of them was killed by Patriarch Thug.

At this moment, the ultimate battle had been unilaterally initiated by the Cloud Sea Divine Tree.

Therefore, Queen Life didn't hesitate to take action. If possible, she would rather sweep all the sea demon Venerables on the four battlefields first.

Unfortunately, this obviously wouldn't work.

Once a Venerable died, a Great Dao crack would appear in the sky, causing a blood rain. In this way, it would alert the enemy... The sea demon Venerables weren't fools and would choose to escape immediately.

In the 8 million kilometer sea area of the Water-Wood World, the Venerables scattered and escaped through the void. Even if Queen Life chased them, she could only chase one or two of them.

Queen Life didn't chase them. She needed to force the White Armored Emperor to take action.

If the White Armored Emperor took action, he would have no time to care about the White Shell Royal City, and Han Fei's danger could be resolved.

The Venerables of the Cloud Sea Divine Tree had all attacked, causing the Venerables and explorers at the front line of the White Shell Royal City to flee. If they didn't flee now, they would be wiped out.

Therefore, the Water-Wood World followed up the victory with hot pursuit. In each of the four battlefields, there were figures of the humans from the Yin-Yang World. As for how to distinguish the people of the Yin-Yang World... you just needed to see whether they used fishing boats or not!

Although the fishing boat was slower than running, it was much easier!

Therefore, whenever there was a fishing boat in the sky, the Sky Clan would land on it. Those big birds hitched a ride and chatted with others to kill time.

Luo Xiaobai led an army to chase the enemies outside the Dark War Port. This kind of chase war didn't require much planning. Everyone was fighting crazily.

The fleeing sea demons were all resources!

In the past three years, the Yin-Yang World had been in continuous battles. After three or five battles, although countless people gained a lot, there were still a lot of casualties. Among the 250,000 people, nearly 20,000 people died on the battlefield in the Water-Wood World, and the casualty rate was close to 10%.

Of course, after paying such a high price, countless people made breakthroughs.

In less than three years, almost everyone in Yin-Yang World had advanced by two minor realms. Among the 250,000 people, more than 10,000 had advanced to become Law Enforcers.

This ratio had stunned the four major races of the Water-Wood World.

Although it wasn't particularly difficult for a Hidden Fisher to become a Law Enforcer... this growth speed was simply incredible.

However, what the people from the Water-Wood World didn't know was that this was the first time that the human race of the Yin-Yang World used resources so unscrupulously. As long as they had battle records, it meant that they would have resources... And having resources meant that they could grow.

In addition to these more than 10,000 people who became Law Enforcers, there were also nearly 50,000 people who became peak-level Hidden Fishers. This was much stronger than when they fought the war on the Scattered Stars Island. To grow on the Scattered Stars Island, one needed to go through complicated procedures to exchange for resources. After all, the resources of the entire Yin-Yang World were not as good as the Water-Wood World, and the Wall of Death's grabbing of the energy of the two sides wasn't balanced. Besides, on the Scattered Stars Island, while the human beings were cultivating, they still had to guard the island.

Although this situation was much better after Han Fei liberated the Scattered Stars Island... and most people could get a lot of resources if they dared to fight, it was still incomparable to the resources of the Water-Wood World.

At this moment, the people who came to the Water-Wood World all knew how right their choice was to follow Han Fei to here!

When the two worlds communicated and fused with each other, not only could they learn each other's combat skills and methods, but their consciousness would also be greatly boosted.

Therefore, in the past three years, almost everyone had advanced by one or two minor levels.

At this moment, Luo Xiaobai, Zhang Xuanyu, and Le Renkuang were attacking a Half-Venerable.

At this moment, the strength of these three people could already fight a Half-Venerable.

Zhang Xuanyu's spear flashed, and the spear in his hand turned into nothingness. The soul spear blasted the Half-Venerable until he vomited blood.

A shadow appeared behind Le Renkuang and bit off one of the Half-Venerable's arms.

Luo Xiaobai set up a Spirit Plant Array, making the Half-Venerable completely lost.

The skin and internal organs of the sea demon were quickly possessed, and the blood he vomited turned into dense green moss... Immediately afterward, his body began to rot as if it were molding. In the end, his vitality was completely devoured.

Retracting his attack, Zhang Xuanyu said, "Xiaobai! I still can't believe... that Han Fei blew up a king's den!"

Le Renkuang said with a trembling face, "Yes! That's a king... Isn't it a disgrace for him to be successfully ambushed?"

Luo Xiaobai rolled her eyes at them. "Do you want Han Fei to lose?"

Zhang Xuanyu smiled and said, "Of course not... It's just that it's really a pity that we didn't participate in such an exciting thing." Luo Xiaobai said indifferently, "Alright, let's hunt more experts. Queen Life and the Venerables will attack the sea demon Venerables at most. They won't attack anyone below the Venerable realm. These sea demons are whetstones for the four races of the Sea Cloud Divine Tree.

They are also chasing them frantically. We can't lag behind. Let's take this opportunity to quickly plunder as many resources as possible."

Le Renkuang mumbled, "I only took a little bit of the Zhang family's resources. I should get more!"

Luo Xiaobai rolled her eyes at Le Renkuang. "You can only improve yourself by obtaining resources on your own. If you don't even need to fight, when can you become a strong master?"

Zhang Xuanyu said, "Hey, hey! Alright, at least we got some... The resources of the three of us are enough to cultivate to the Half-Venerable realm. As for becoming a Venerable, it's still early."

On the day of the explosion, more than a dozen Venerables escaped from the front line.

"King! Queen Life broke the rules and took action personally. We were really no match for her. If we hadn't run faster, we would have been killed on the spot!"

"King! The Cloud Sea Divine Tree has launched a full attack on us. The front line has suffered heavy casualties. We can't hold on!"

Buzz!

The White Armor Emperor's eyes were cold as he roared, "Has our army retreated?"

A Venerable said, "The army has retreated. Although Queen Life attacked us, she didn't attack Explorers. Therefore, the soldiers on the front line are retreating while fighting. Even so, our escape will definitely cause great damage to the morale of the soldiers." The White Armor Emperor snorted. "Mu Wuhua doesn't need to attack ordinary people. She just needs to sweep away the Venerables. The entire Water-Wood World, 8 million kilometers of sea, has become the whetstone of the Cloud Sea Divine Tree..."

A Venerable said, "But my king, if we retreat in such a way, we'll lose at least 30% of our soldiers!"

The White Armor Emperor knew the terrible consequences of not appearing. If there was no king on one side, the army would collapse.

However, Han Fei was still alive...

In the eyes of the White Armor Emperor, Han Fei alone was comparable to an army. Back in the Heavenly Tribulation of Xue Fan, the White Armor Emperor clearly knew that the two of them both had the potential to become a king.

Xue Fan was right. He couldn't allow Xue Fan to exist, and he couldn't allow Han Fei to exist either!

Both of them were monsters.

Now, one of them had died, and Han Fei survived... This meant that when Han Fei transcended his own heavenly tribulation in the future, there was almost no reason for him to fail.

Therefore, at this moment, the White Armored Emperor didn't immediately respond to the attack of Queen Life... Instead, he checked the people in the White Shell Royal City one by one.

It was also because of the explosion that many people in the White Shell Royal City, probably for the first time, faced the White Armor Emperor head-on. Their anxiety and fear were obvious!

For example, Yu Cailing was very nervous when she saw the White Armor Emperor for the first time.

The White Armor Emperor's eyes flickered with a strange light. He didn't need to ask anything but directly examined Yu Cailing's soul.

The White Armor Emperor said, "Open your mind. Don't resist."

"Yes, my king!"

In Forge the Universe, the old turtle said in surprise, "It seems that this White Armor Emperor really hates you. Even if he needs to peep at these people's souls one by one, he must catch you... You know, while peeping at the soul, he will also see many memories that he shouldn't see. The more he sees, the worse it will be for him. Fortunately, he is a king. Otherwise, if he saw the memories of all the 50,000 people, his brain would have been destroyed."

Han Fei frowned. "Are you sure you erased Yu Cailing's memories? Otherwise, if the White Armor Emperor finds out, we'll be in danger." The old turtle said with a smile, "Don't worry. No matter how powerful the White Armored Emperor is, his soul power is only in the Sea Establishment Realm. It's impossible for him to see anything wrong. Just cultivate! At his speed, there's a limit to how many people he can investigate every day. He won't be able to finish this job in a month."

Han Fei immediately said in delight, "Oh? Are you sure it will take him so long?"

The old turtle said, "If he really wants to check these people's memories one by one... his soul will be muddled if he reads them too fast."

"That's great!"

...

Three months later.

Han Fei had tempered to the last piece of his skull, but this one was extremely difficult! This one affected all the bones in his body.

Once this bone was tempered, Han Fei would become a Half-King. Therefore, he didn't dare to be negligent.

When less than one third of the White Armor Emperor's energy was used, Han Fei's body suddenly exploded with a bang.

However, a magical scene appeared. Han Fei's body was separated into dozens of pieces. His head rolled on the ground, but his eyes were still blinking

"Wow! So this is the Indestructible Body?"

### **Chapter 1673 Crazy White Armor Emperor**

Ka ka ka –

Han Fei's shattered body trembled, quickly flew together, and regathered.

Immediately afterwards, Han Fei felt that there seemed to be a powerful force in his body.

When he looked at the Demon Purification Pot, information popped up in his eyes.

Owner: Han Fei

Level: 89 (Half-King)

Chaotic Qi: 957

Spiritual Power: 189,696

Perception Range: 78,000 kilometers Strength: 2,0971 Waves

First Spiritual Heritage: Unknown

Second Spiritual Heritage: Unknown

First spiritual beast: Twin Yin-Yang Spirit Swallowing Fish (level 78)

Second spiritual beast: Dique (Level 72)

Main Art: The Seventh Level of Void Fishing, Void Descending Art (King Level, Divine Quality)

"Hiss"

Han Fei took a slight breath. He knew that when he became a Half-King, he would be very powerful, but he had never thought that the gap of one small realm could make him grow so much!

The power of his soul had increased by more than 40,000 points. Even if the fused soul replenished his body, this increase was too much, right? Besides, Han Fei's perception range had significantly increased, reaching almost eighty thousand kilometers. This meant that everything within eighty thousand kilometers could be seen by him.

His perception range was eighty thousand kilometers. At this moment, Han Fei could see at least three to five hundred thousand kilometers away.

In addition to the increase in spiritual power, Han Fei's strength increased by more than 4,800 waves. Back when he just came to the Water-Wood World, his strength was only about 70 waves.

But now, it was completely different from before.

A breakthrough of one realm brought him a terrifying increase of 4,800 waves, which was comparable to the full power of an advanced Venerable.

With such power, Han Fei could no longer be considered a regular Venerable, or even a regular Half-King...

In extreme situations, Han Fei might even be able to exert the combat power of a king.

Han Fei said, "Old Yuan, how many waves is the strength of an ordinary Sea Establisher? I mean a new Sea Establisher."

The old turtle knew that Han Fei's strength had improved greatly, so he didn't hide it and said, "Generally speaking, about 50,000 waves! The level of life will change when you transcend the king-level tribulation and open your Origin Sea. This is the benefit you get from the heavenly tribulation. Of course, this level of life can't be eternal. For example, your vitality will begin to decline after 5,000 years in the Venerable realm, and you will definitely die after 10,000 years. The level of a king can allow him to live for hundreds of thousands of years. The difference between a king and a Venerable is like clouds and mud. The growth of a king's strength isn't that exaggerated. Generally, stronger ones' strength is about 50,000 waves. And there is no king whose strength is lower than 40,000 waves."

Han Fei couldn't help but ask, "What was your strength when you were in the Sea Establishment realm?"

The old turtle said, "Of course, much stronger than the so-called Heavenly Talents. Back then, I had nearly 80,000 waves of power, which is one in a million. Now, even if your life level changes after the tribulation, I'm afraid yours will be similar to mine."

"How much?"

Han Fei couldn't help taking a breath. Are you kidding me? 80,000 waves of power for a king? That's four times more than a fake king!

The old turtle said, "Don't be too surprised. Just because I have 80,000 waves of strength when I reach the Sea Establishment realm doesn't mean everyone can have such great strength. Normally, it's only about 50,000 waves."

Han Fei was speechless. Do you think 50,000 waves is too little?

Han Fei asked, "What about your strength when you were a Half-King?"

The old turtle said leisurely, "The Half-King realm... Cough, cough, about 25,000 waves! I slept for 10,000 years before transcending the tribulation. This power is already the limit I can reach by sleeping. As for you, although you are indeed talented, your level of life is lower. I think you should be about the same as me after you reach the Sea Establishment realm."

Han Fei was lost for words. "But I have two heavenly spiritual heritages." The old turtle said, "So what? One of them is made of my Great Dao. Therefore, your talent is just unparalleled in this sea area. Perhaps you can reach the peak for a while in the Sea Establishment Realm. However, if you want to go further and become a real peerless Heavenly Talent, I'm afraid you'll have to improve your life level."

Han Fei was surprised. "Can the life level be improved?"

The old turtle said leisurely, "Of course! Transcending a king-level tribulation will improve one's life level once. There's a world of difference between a king and a Venerable. Otherwise, how can one's strength improve greatly after transcending a heavenly tribulation? This is the result of a change in the life level."

"Hiss "

Han Fei's eyes flickered.

So, in the end of the cultivation path, someone would be called a god?

Now, Han Fei didn't care about the level of life... He had to become a king first. Only when he became a king would his level of life change.

In addition to his own improvement, what surprised Han Fei was that in the past three years, the Emperor Sparrow had broken through another two levels.

It had to be said that the Emperor Sparrow was the creature making breakthroughs the fastest Han Fei had ever seen.

Three or five days later, three months passed outside Forge the Universe.

Han Fei couldn't wait to go out, but the White Armor Emperor still didn't intend to leave.

Han Fei was lost for words. Didn't the old turtle say that it had been more than a month? Why did this b\*stard stall for over three months?

Since Han Fei didn't intend to go out, in boredom, he spent some time absorbing the dragon bones. It wasn't until Han Fei absorbed more than 50 dragon bones and his Chaotic Qi had exceeded a thousand that the White Armored Emperor made a new move.

This movement startled Han Fei.

On this day, a huge shell suddenly opened its mouth.

The White Armor Emperor roared, "I am the White Armor Emperor, the king of the White Shell... Because there is a strong master of the Cloud Sea Divine Tree in the royal city. Now, anyone below the Venerable realm, enter my shell."

Han Fei was surprised. "Is he crazy? Does he not want his nest anymore? He's going all out..."

Han Fei was horrified.

So what if there were only 50,000 people left in the city? How could he underestimate these 50,000 people? Although the city had been destroyed by his previous explosion, it wouldn't be hard to rebuild it.

But now, the White Armor Emperor just abandoned the city and took everyone with him? Even the White Armor Emperor himself didn't expect himself to be so bold.

It was not that Han Fei didn't want to leave, but that he was in Forge the Universe. The shell felt like the Origin Sea or the real body of the White Armored Emperor. How could Han Fei dare to enter it?

Although Han Fei had reached the level of a half king, a half king wasn't a king. Although his strength at its peak might be comparable to a king, so what?

Strength was strength, and the Great Dao was the Great Dao. The Great Dao could crush anything The old turtle said, "Generally speaking, the Origin Sea won't reveal itself, so the giant shell is either his true body, his domain, or his Companion Spirit. Once you go in, your concealment might be invalid."

Han Fei said, "He's smart. This method can indeed screen me from his people."

However, the old turtle said leisurely, "Maybe it's more than that! Don't you think the White Shell Royal City is too small?"

"Huh?"

"You can blow up the White Shell Royal City, but what about the White Armored Emperor?"

The next second, the White Armor Emperor ordered more than 90 Venerables to enter the shells, each Venerables leading 500 or so people. In such a way, even if Han Fei attacked again, he wouldn't be able to hurt many people.

Under such circumstances, Han Fei certainly couldn't attack!

Otherwise, he would have fallen into the White Armor Emperor's trap.

A moment later, everybody including Yu Cailing entered the giant shell space. At this moment, the city had become empty.

At this time, above the White Shell Royal City, the voice of the White Armored Emperor spread out. "Han Fei, I know you are still in the city. You want the White Shell Royal City? Fine, I'll give it to you. Then die with the White Shell Royal City!"

Buzz! At that moment, in the void, the huge mouth of the giant shell opened and closed as if it wanted to eat the entire White Shell Royal City.

The White Armored Emperor's voice was cold. "Han Fei, are you still not coming out? I will throw you, along with the entire White Shell Royal City, into the endless void. You will be lost in eternal darkness... And Mu Wuhua still can't kill me! Although this domain is not big, there are countless sea spirit-level demons in it. Do you really think... the death of tens of thousands of people can shake me?"

The old turtle said, "Sure enough, his purpose is not to take his people out. He is still trying to kill you. But this time, he paid a huge price. Even if he has to destroy the White Shell Royal City, he must force you out."

Han Fei was lost for words. "Old Yuan, I'll get lost in the endless void, right?"

The old turtle said, "Of course! Not every time there will be an exit for you to come out. The endless void is indeed only endless darkness. Even if I go in, I will be lost, let alone you. There is no concept of time there, nor is there any direction. The greatest possibility is that you will die of old age in the endless void."

Han Fei frowned. "So, I can only go out?"

The old turtle also said solemnly, "Maybe that's true. This is probably the only way."

While the old turtle was talking, hundreds of fish skins floated around Han Fei. Hundreds of arrays appeared on the fish skins.

At Han Fei's waist, Ning Jing's Venerable Token had already been hung up.

Buzz!

Activating the Twin Divine Technique, Han Fei grinned. "Then let's go out and have a try. Let's see how strong a real king is!"

### **Chapter 1674 Slaying A Half-King with One Hand**

The White Armor Emperor seemed to expect Han Fei to come out, so he was not in a hurry at all.

In fact, if the White Shell Royal City was completely thrown into the endless void, he would lose more than just a little bit. It could be said that all the trial secret realms in the White Shell Royal City needed to be rearranged, the entire ground veins of the White Shell Royal City would have to be abandoned, and the forbidden-level trial fields might disappear forever...

However, the White Armor Emperor didn't care!

As long as he could kill Han Fei, he didn't mind destroying the entire White Shell Royal City!

Han Fei had no choice but to go out.

However, going out meant fighting, and the opponent was a king. There might be a few Half Kings more.

Although Half-Kings were no longer Han Fei's opponent, as long as the other party stalled him for a little while, the White Armor Emperor would have a chance.

Swish ~

Han Fei's figure appeared outside Forge the Universe.

Since he was destined to go out, it didn't matter if he went out early or late.

The moment Han Fei came out, beside his white-mist body, hundred fish skins unfolded at the same time. Then, he used the Near at Hand Technique and punched at the defense array of the White Shell Royal City.

The moment Han Fei appeared, the White Armor Emperor's eyes flashed, and he grinned coldly. "The shell shakes the void, swallows the sea, and eats the soul!"

The White Armor Emperor's voice was icy. "Do you think you can escape? Even if you might be the strongest Venerable in this world, you are only a Venerable. You have no idea... the difference between a king and a Venerable."

Seeing that the void was blocked, Han Fei didn't hesitate at all. Only by piercing through the White Armored Emperor's shell could he escape.

Han Fei had witnessed the terrifying power of the White Armored Emperor in Xue Fan's tribulation. Therefore, Han Fei had to create an opportunity for his black fog body with this blow.

Therefore, from the beginning, Han Fei had already used the power of his Great Dao. The Ancient Desolate War Body erupted, and the chaotic energy steamed. At the same time, he gathered the arrays on his fist and condensed his invincible will into a punch.

The White Armor Emperor watched this scene indifferently. Holding two large circular blades, he had already come to Han Fei's side.

Boom!

Crack ~

Bang!

“How is that possible?”

The White Armored Emperor suddenly widened his eyes. How could the power of a Venerable break his shell seal? Even if the five Half-Kings of the White Shell Royal City attacked at the same time, they couldn't break his shell space.

“Pfft!”

Although he protected himself with a hundred arrays, Han Fei still couldn't resist the power of the White Armored Emperor's attack. His white-mist body and the void shattered together.

Therefore, when Han Fei punched through the shell space, the White Armor Emperor shattered a large area of the void. Even Han Fei's white mist body was shattered, but the White Armor Emperor was still stunned.

There were two reasons for his being stunned.

On one hand, Han Fei broke through his seal; on the other hand, it was done by a clone of Han Fei?!

This was the most intolerable part for the White Armor Emperor.

It was too fast! Han Fei's growing speed was too fast!

It had only been a few years. Last time, Han Fei was only an advanced peak-level Venerable, but his current strength was comparable to a king?

Yes, the White Armor Emperor could confirm that Han Fei's strength had almost reached the Sea Establishment Realm.

This almost meant that in this sea area, the Blood Sea Divine Wood City had just been destroyed, but another king would appear soon. And this king was a human, Mu Wuhua's ally. In the White Armor Emperor's opinion, there were only a few Heavenly Tribulations between Han Fei and a king.

He watched Han Fei pass the nine-level tribulation of Xue Fan. At that time, Han Fei was still a peak-level advanced Venerable!

At this moment, Han Fei was already a Half-King. It would be as easy as pie for him to transcend the tribulation.

Thinking about that, the White Armor Emperor scanned the void, searching for Han Fei's real body...

If Han Fei wanted to escape quickly, he couldn't be too slow. The White Armor Emperor didn't try to perceive Han Fei but the changes in space...

Sure enough, in an instant, the White Armor Emperor stepped through the void and slashed eight hundred kilometers away. At this time, Han Fei's black-mist body knew that it couldn't escape and simply appeared.

After escaping three thousand kilometers, Han Fei was still caught up by the White Armored Emperor.

Bang!

Han Fei turned around and punched.

On his fist, time flowed, and the crazy power of the White Armor Emperor cut the air open. Han Fei stepped back and activated the Near at Hand Technique continuously.

But no matter how fast Han Fei was, the White Armor Emperor was not slow either.

In the blink of an eye, the two of them appeared thousands of kilometers away.

In the sky above the White Shell Royal City, the five Half-Kings were dumbfounded. Is this guy still a human? They had never seen a Venerable fight a king before! Because Han Fei, Little Black, and Little White were getting stronger and stronger, the distance between the two clones could be larger.

Ten thousand kilometers away, Han Fei shouted, "White Armor Emperor, I'm here. Let's see if you can catch me!"

"Hmph!"

"Go to hell... Suppress!"

An invisible force ignored the existence of space and fell on Han Fei.

At that moment, Han Fei felt that the area within a hundred meters was sealed by an invisible seal.

Buzz!

His black-mist body turned into a cloud of black fog.

The black mist swirled crazily and devoured half of the seal in the blink of an eye. At this moment, the fist mark of the White Armor Emperor had already blasted over.

However, at the same time, Han Fei reappeared in the place where his white-mist body collapsed. Not only did he appear, but a teleportation array also appeared.

This was a long-distance random teleportation array, with a teleportation range between 200,000 to 500,000 kilometers.

The moment his white-mist body appeared, the White Armor Emperor roared, "Hai Tinglei."

Boom!

Before the White Armor Emperor said anything, a lightning bolt had arrived, trying to stop Han Fei.

Behind Hai Tinglei, the other four Half Kings also came to help him.

Half of Han Fei's white mist body had already entered the array. He shouted, "Time, the Draw..."

In front of Han Fei, time was reversed.

Han Fei drew out a saber from it. Perhaps when facing the White Armor Emperor, Han Fei didn't show much strength.

However, Hai Tinglei's Thunder Scar became very slow in front of the Time Blade. The Time Blade didn't give him any chance at all. It shattered Hai Tinglei with one slash, and his flesh and blood quickly decayed.

Boom!

Not that a Great Dao crack appeared, but Han Fei's black fog body collided with the White Armored Emperor.

Although most of his black-mist body was blown to smithereens, Han Fei still grinned. "I wondered... how strong a king was! It turns out that it's nothing more than this."

As he spoke, Han Fei's black fog body roared, "All laws forbidden in this space."

In the next moment, he extended his hand into the void and grabbed the corpse, three wisps of soul, and a Sun-Moon Shell of Hai Tinglei into the teleportation array.

"Twin in one."

Swish ~

In the next moment, Han Fei's twin bodies fused and became one.

The moment he stepped into the void, he turned back and extended his hand, turning time to accelerate the closing of the teleportation array. Even though the White Armor Emperor's blow had touched the teleportation array, it still missed.

In the void, Han Fei's Void Lines stabbed at Hai Tinglei.

Hai Tinglei, who was trying to be reborn, was shocked. How is it possible? How can this person be so strong? I couldn't even block a single blow of his! Is this guy a king?

A few seconds later, Han Fei jumped out of the void and pointed the Vast Ocean Navigator in his hand in the direction of the Cloud Sea Divine Tree.

In the blink of an eye, before Han Fei had the time to kill Hai Tinglei, he dove into the void again and fled frantically.

**Illically.**

Of course, before entering the void, Han Fei's soul collided with the White Armored Emperor's soul on the sea.

The old turtle said, "Don't fight head-on. Go to the Cloud Sea Divine Tree."

A distance of more than 300,000 kilometers was nothing to a king.

However, what chilled the White Armor Emperor was the ability of Han Fei's clones.

A clone could break his shell seal.

A clone could block his blow head-on.

Han Fei's strength had already exceeded that of a Half-King, and he was already a real king.

Han Fei was also measuring the strength of the White Armored Emperor. Han Fei said, "Old Yuan, didn't you say that the power of ordinary kings is only about 50,000 waves? The power of the White Armored Emperor is at least 60,000 waves."

The old turtle snorted and said, "He has been a king for tens of thousands of years, okay? Besides, his strength is not 60,000 waves, but at least 70,000. And I'm afraid his strongest power may be 80,000 waves."

Boom!

At this moment, Han Fei had killed Hai Tinglei, and a Great Dao crack appeared in the sky!

A Half-King was killed with a single blow just to stop Han Fei for a moment.

A Half-King had died anyway. It was impossible for the Cloud Sea Divine Tree not to notice anything.

Han Fei's clone roared, "Your Majesty, help!"

Li Daxian was alarmed and looked at Han Fei. "What happened?"

Boom!

At that moment, when the Great Dao crack appeared, Li Daxian disappeared with a swoosh and rushed out of the Dark War Port.

When Han Fei was a million kilometers away from the White Shell Royal City, the White Armor Emperor had already caught up with him. They were only a hundred thousand kilometers away from each other.

Han Fei had used all his strength, but the Heavenly Void Divine Movement didn't work at this moment.

No matter how powerful the Heavenly Void Divine Movement was, it was only a speed secret technique in the Venerable realm. Faced with the pursuit of a king, Han Fei kept using arrays to increase his speed.

When he escaped 1,500,000 kilometers, the White Armor Emperor had already caught up. Han Fei activated the Twin Divine Technique again, intending to use the same trick. However, this time, a huge shell turned into a person.

The White Armored Emperor roared, "Han Fei, do you really think I'm weak?"

### **Chapter 1675 Shook the King**

Did the White Armored Emperor also have a clone?

No, this was the White Emperor Armor's spiritual beast. In Han Fei's eyes, information appeared:

< Name > Sea Controlling White Shell (White Armor Emperor's Companion Spirit)

< Introduction > This is an ancient shell that's inherited from ancient times. It can turn the sea into a shield and defend itself. It can resist attacks ten times stronger than itself. The Sea Controlling White Shell is good at shield attacks and likes to crush its opponent with absolute strength.

< Level > 89 (Half-King)

< Quality > Ancient Mutant

< Great Dao > Sea Controlling

< Contained Chaotic Qi > 526 strands

< Edible Effect > Inedible

< Collectible > Sea Controlling Shell

< Unabsorbable >

< Remarks > It's extremely difficult to escape when you're trapped by the Sea Controlling White Shell.

Han Fei was surprised to see this. What kind of creature could resist an attack ten times stronger than itself? Didn't it mean that the defense power of this Sea Controlling Shell was comparable to that of a king?

The moment the Sea Controlling Shell appeared, Han Fei saw that within a thousand kilometers, water curtains rose.

At first, Han Fei avoided it, but how much time would it take to avoid it?

Swish –

His twin bodies became one.

Han Fei had to do it. It was not that he was afraid of the Sea Controlling White Shell, but that the White Armor Emperor's purpose was to stall him.

If the defense power of the Sea Controlling White Shell was really so strong, it was indeed possible! Of course, Han Fei couldn't believe that the Companion Spirit had reached the level of a king. In that case, the White Emperor Armor should be able to easily beat Queen Life, right? After all, the odds of winning would be much higher if two kings fought against one.

At this moment, Han Fei was at his peak state, so his speed was much faster.

Of course, Han Fei was still slower than the White Armor Emperor. Therefore, after only another 300,000 kilometers, Han Fei and the White Armor Emperor finally collided head-on.

Bang!

Han Fei didn't hesitate to use two wisps of Chaotic Qi. At the same time, his body glowed with golden light as he punched.

"Sacrificing Punch."

**or**

As a king, the White Armor Emperor certainly knew how powerful Han Fei's current strength was! This person couldn't be treated as an ordinary Venerable. He was simply a f\*cking Sea Establisher...

At that moment, the White Armor Emperor was holding a giant shield and sneering. "Han Fei, do you really think it's so easy to be a king? I'd like to see how long you can last."

"Shield Counter "

Han Fei was still surprised. Why did the White Armored Emperor raise his shield to block it? Was he really so powerful?

But the next scene stunned Han Fei. The power of the Sacrificing Punch was swallowed by the shield and bounced back.

“Shoot...”

Han Fei had tried this move before, but how strong was he now?

To attack him with his own strength, and more importantly, the Sacrificing Punch was a locking technique. Even if it was his own combat skill, it would take him some time to block it.

There was no doubt that if Han Fei blocked this Sacrificing Punch, the White Armored Emperor would definitely get a chance.

Therefore, at this critical moment, Han Fei didn't intend to resist, but a Yin-Yang diagram suddenly appeared. “Pfft!”

The Supreme Yin-Yang Wheel forcibly cut the Sacrificing Punch, and Han Fei collided head-on with the White Armored Emperor.

Sizzle

Ka ka ka ~

or

At that moment, the White Armored Emperor was horrified. The Sea Quelling Bizarre Treasure shield that he had been working so hard to refine had cracks under Han Fei's weird technique?

Within ten thousand kilometers, the seawater turned into a vortex.

The huge force surged between Han Fei and the White Armored Emperor. All the creatures and reefs within a thousand kilometers were instantly reduced to powder. The battle between kings certainly had such terrifying destructive power. “Sea Controlling!”

At this moment, the White Armor Emperor didn't want to sacrifice his Sea Quelling Bizarre Treasure-level shield but fused with his Companion Spirit. The seawater around him knocked as if the world was closing.

If Han Fei didn't come out in time, he would be squeezed into pieces by the power of this space.

Buzz!

Han Fei tried to perform the Star Teleportation Technique, but he found that the void here was blocked, and the Star Teleportation Technique was useless.

Therefore, Han Fei made up his mind and tried to dig a hole with the Infinity Water.

The level of the Infinity Water was closely related to Han Fei's strength. Now, Han Fei's strength was infinitely close to that of a king, so the Infinity Water was infinitely close to that of a Sea Quelling Bizarre Treasure. The Sea Controlling Technique was drilled through by Han Fei.

The White Armor Emperor was lost for words. Why did Han Fei have so many means?!

At this moment, the White Armor Emperor could only fight Han Fei head-on.

Bam! Bam! Bam!

For a time, golden fist marks and shield armor collided continuously. In an instant, the terrifying powers collided as many as a hundred times.

Han Fei was horrified. He found that even with the Desolate War Body, he was still weaker than the White Armor Emperor.

Therefore, in every clash, Han Fei was actually the one at a disadvantage. With such a powerful attack, Han Fei's Great Dao power could only last for ten seconds at most.

Han Fei thought to himself, Why hasn't Queen Life come yet? Haven't I caused enough noise? Besides, I've already run more than half the distance. If Mu Wuhua still doesn't come, she'll be suspicious.

Sure enough, when Han Fei was waiting anxiously, Queen Life finally appeared.

In the void, countless "Giant Dragon Beasts" appeared out of thin air. Countless huge vines wriggled like dragons.

Huge sunflower-like flowers appeared, sweeping crazily at the space where Han Fei and the White Armored Emperor were.

Swish! Swish! Swish!

The White Armor Emperor's Sea Controlling Technique was instantly riddled with holes.

And that was not the end of it. How could the demon plants' means be so limited? The sharp blades that spewed out like rain exploded in the void like seeds, producing vines one after another. The vines formed a net, cutting apart the White Armored Emperor's Sea Controlling Technique.

Han Fei took the opportunity to escape. He clenched his fist, and the Time Fist flew half a meter out of his body. He grabbed at the time with his other hand, drew a Time Blade, and slashed at the White Armor Emperor.

For a moment, even Queen Life was dazzled by Han Fei's moves.

When did Han Fei master the Great Dao of Time? How could he wield this high-level Great Dao so proficiently?

Han Fei roared, "Let's join hands and kill him!"

With that said, Han Fei grabbed the Infinity Water and gathered a hundred thousand blades into one, unleashing a thousand-kilometer-long saber beam. He looked so intimidating that people might think he was a real king...

Queen Life said, "Go back and stop fighting."

Countless shells appeared around the White Armor Emperor and quickly interweaved on his body, quickly forming a layer of armor-like defense.

With this shell armor, the White Armor Emperor resisted Han Fei's terrifying knife light with both hands, stomped on the seabed, and smashed Han Fei's attack with his shoulder.

Boom!

With a thought from Han Fei, the Infinity Water returned.

Han Fei ran wildly. "Let's go!"

The White Armor Emperor snorted. "You want to leave? You have to ask if I agree..."

This time, the White Armor Emperor seemed determined to take Han Fei down.

He knew that this was his only chance. Once Han Fei escaped and returned to the Cloud Sea Divine Tree, there was nothing he could do.

It was almost certain that Han Fei would become a king...

If Han Fei became a king, he wouldn't have to do anything but wait for death.

Therefore, this time, no matter what the price was, he had to kill him. Even if he had to sacrifice everyone in the White Shell Royal City, this battle was inevitable.

Therefore, the White Armored Emperor avoided Queen Life and chased Han Fei.

Originally, the strengths of kings were basically the same.

It was meaningless to fight such a battle. The White Armor Emperor and Queen Life had fought more than once. The two were already very familiar with each other.

Therefore, while he avoided Queen Life, the Sea Controlling White Shell appeared. The White Emperor intended to use the Sea Controlling Technique to block Queen Life for a moment to buy himself time to kill Han Fei. However, the White Armor Emperor underestimated Han Fei's shamelessness. Han Fei hurriedly performed the Star Teleportation Technique and came directly to Queen Life.

"Hey! Although I can't beat you, the one beside me is about the same strength as you. It's impossible for you to kill me now." Han Fei shouted at the White Armored Emperor without the air of a strong master at all, "You big sea shell, I'll challenge you in person in a few years. Do you dare to accept my challenge?" The White Armor Emperor sneered coldly. "It seems that you don't want the Cloud Sea Divine Tree anymore?"

The White Armor Emperor suddenly grinned, and as the shadow of the Sea Controlling White Shell appeared in the sky, the White Armor Emperor shouted, "Sea Suppression!"

In an instant, under the pressure of a million times the power, the White Armor Emperor disappeared into the void with a swish.

Queen Life's face changed drastically. "Not good! The White Armored Emperor sacrificed the Sea Controlling White Shell and poured all his Great Dao power to trap me for a moment... He's trying his best."

Han Fei was also shocked. I was too careless. This guy even gave up his Companion Spirit whose defense had reached the level of a king! Is he heading for the Cloud Sea Divine Tree? Although the Cloud Sea Divine Tree was also a king, its body was too big. What if the White Armored Emperor really attacked the Cloud Sea Divine Tree? He still had a 50,000-strong army after all.

Han Fei asked, "Can you break this Sea Controlling White Shell?"

Queen Life bombarded the shell and shouted, "If you attack it too, we can break it in a hundred seconds."

Han Fei was stunned. A hundred seconds? Are you kidding me? This place is only two million kilometers away from the Cloud Sea Divine Tree!

Within a hundred seconds, with the speed of a king, he would have reached the Cloud Sea Divine Tree.

Han Fei's face changed greatly. He suddenly thought of an idea. "Strike the Sea Controlling Shell first. Wait for me for a moment."

Buzz!

With that, Han Fei disappeared.

Under Queen Life's surprised gaze, Han Fei simply entered Forge the Universe.

### **Chapter 1676 Jing'er, Retreat**

Entering Forge the Universe, Han Fei summoned the green jade bridge.

This Sea Controlling Shell was strong in defense...

However, the Water Immortal once said that it would only take a moment to shatter it. But now they were fighting for time. This moment might affect the battle result in the Water-Wood World.

It was not until this moment that Han Fei realized that the White Armored Emperor had really gone crazy. He even abandoned his Companion Spirit!

On the green jade bridge, Han Fei had already decided to reverse time.

Yes, when he fought Old Demon Chu, he was only an advanced peak-level Venerable. Now, he was already a Half-King. Old Demon Chu could reverse time when he was a Half-King. Why couldn't he?

In Forge the Universe, one second could be used as 16 seconds.

On the steps of the green jade bridge, Han Fei set his Great Dao as Time Warping, which would enable him to enter a timeline similar to reality.

When Han Fei walked to the steps, he felt that the pressure was more than twice as great as before.

However, Han Fei was no longer the same as before. He walked past six steps in a row.

At this moment, Han Fei's legs were shaking, and he used almost all his strength.

It seemed that copying other people's Great Dao required proficiency and understanding... It was difficult for him to comprehend such a powerful Great Dao of Time out of thin air?

Sure enough, when he reached the seventh floor, Han Fei lost his balance and the green jade bridge collapsed.

“Huff -“

“Again.”

This time, Han Fei went up to the green jade bridge again. The Great Dao that Han Fei wanted to copy was the power of Old Demon Chu that could reverse time infinitely. Seeing that this road was blocked, Han Fei walked seven floors in a row. Although he had reached this point, he seemed to have reached his limit and couldn't continue to climb the eighth floor.

In the end, the green jade bridge collapsed for the second time.

For the third time, Han Fei continued to cross the green jade stone bridge. Because there was no concept of time on the green jade stone bridge... Therefore, it basically wouldn't consume time on the bridge.

This time, Han Fei smiled self-deprecatingly. Old Demon Chu probably didn't reverse time infinitely. He must do it with a condition. And this condition was either to consume spiritual energy or Chaotic Qi. This was because in the Venerable realm, this was all he could consume.

As for the power of the soul? This shouldn't have anything to do with the Time Technique. It was a spiritual power exclusive to cultivators. This time, Han Fei's plan was to reverse time with a condition. Sure enough, unlike the previous two times, when he paid a price, this jade stone bridge was much easier to walk. Although the pressure was still huge, Han Fei managed to walk down the eighth floor.

At that moment, countless questions about time filled Han Fei's mind.

From this moment on, Han Fei was also a freak who could reverse time.

Han Fei knew that copying other people's Great Dao required continuous polishing and understanding. For example, although he was much stronger than Old Demon Chu, Old Demon Chu's comprehension of the Great Dao of Time was at least two levels above his.

However, Han Fei's current power of time was enough.

Han Fei asked, “Old Yuan, how long has it been outside?”

The old turtle asked in confusion, “Not even one second! What power did you acquire on the bridge?”

Last time, Han Fei walked on the green jade bridge and comprehended the Great Dao of Time, which shocked the old turtle. Was the cost of comprehending a Great Dao so low?

Therefore, this time, the old turtle was mentally prepared.

As soon as Han Fei heard that, he appeared outside.

At this moment, Queen Life was still bombarding the Sea Controlling White Shell. She didn't know where Han Fei went. However, no matter where Han Fei went, what ability did he have to leave this sealed space earlier than her?

Buzz!

However, a second later, Han Fei suddenly appeared. Queen Life: "Hurry up, help me!" At this time, five wisps of Chaotic Qi in Han Fei's body suddenly shattered. The tremendous power of the Great Dao directly shattered Han Fei's body, turning it into a faint blue light.

The next moment, Han Fei appeared outside the Sea Controlling White Shell. Queen Life was stunned and exclaimed, "The Great Dao of Time?"

Han Fei held the void with one hand, and a complicated oriented teleportation array was being carved.

Han Fei said, "Junior Sister, you owe me a lot this time. I can block the White Armored Emperor for a hundred seconds. Hurry up and kill this Sea Controlling White Shell. By the way, you must give me a share of his shell."

Ka ka ka ~

The moment a complicated array appeared, Han Fei stepped in.

In the next moment, Han Fei disappeared.

Queen Life: "..."

The old turtle was equally shocked. What was Han Fei's jade stone bridge? If Han Fei had been capable of that, he wouldn't have waited so long!

Therefore, the old turtle was quite sure that Han Fei's jade stone bridge was extremely monstrous.

It had only been five seconds since the White Armor Emperor left and Han Fei drew the oriented teleportation array.

The White Armor Emperor was fast, but not to this extent.

Han Fei was quite anxious, and the old turtle said, "Fortunately, this is a barren land. The kings here have limited means. Otherwise, he would have arrived in just five seconds." Han Fei didn't have time to ask the old turtle anything. With a swish, he appeared at the Flying Feather Division of the Cloud Sea Divine Tree.

Han Fei's clone was shattered into nothingness when it saw Han Fei.

Han Fei was holding the Vast Ocean Navigator. When the Vast Ocean Navigator pointed at the Dark War Port, Han Fei drew an array again.

Outside the Dark War Port, countless people were preparing for a great battle. And Queen Life was arranging for that just now.

How could Queen Life not know of the super battle between Han Fei and the White Armored Emperor? However, the Cloud Sea Divine Tree had to be well-prepared.

At this moment, the 72 Venerables from the Cloud Sea Divine Tree, the 15 Venerables from the Yin-Yang World, and the four Venerable-level sea demons from the Demon Subduing Tower were guarding the area.

Among them, outside the Dark War Port, almost half of the combat power of the Cloud Sea Divine Tree was poured in.

This must be the battlefield between the White Shell Royal City and the Cloud Sea Divine Tree.

Although they could fight in other places, the Dark War Port had a route, through which people could quickly go to the other three battlefields. Therefore, it was no surprise that there were the most soldiers in this critical place.

In fact, the sea demon army had already retreated. In the past three months, everyone in the Water-Wood World had been exploring the sea area and looting resources.

Just now, under the command of Queen Life, everyone outside returned.

Luo Xiaobai was a very strict commander. She knew that Han Fei came here to communicate and fight, not to lead these people to hunt treasures. Therefore, when many people in the Water-Wood World went out to hunt treasures, no one from the Yin-Yang World went out.

Although some people complained about Luo Xiaobai's harshness, they didn't lack resources. Since they couldn't get out, they could only cultivate. Fortunately, there were constant battles in the dark waters outside the Dark War Port, so they could find some resources here.

Suddenly...

The voice of Patriarch Thug spread out. "All human beings of the Yin-Yang World, return to your positions immediately."

Everybody was shocked.

Someone's heart stirred. "Ha! Are we going to war again? Brothers, abandon the dark waters and fight our way out..."

Someone grinned. "We haven't fought for two months. I wonder how many sea demons will come in this time. I'm waiting for you here, a\*sholes!"

The Hidden Fishers from the Yin-Yang World all rubbed their hands in excitement. They were still immersed in the illusions when the Law Enforcers had already rushed to the periphery of the Dark War Port.

Outside the Dark War Port, countless people had been prepared to receive the attack of the sea demon army.

But suddenly, Ning Jing, Insect King, Patriarch Thug, and the others changed their minds and shouted, "Retreat..."

Perhaps influenced by Han Fei, Ning Jing stood proudly in the void, and her voice spread tens of thousands of kilometers away. "Everyone, retreat to the Cloud Sea Divine Tree. Hurry up..."

After that, a spear appeared in Ning Jing's hand. She gathered her momentum and burned her essence blood to push her strength to the peak.

At this moment, she didn't have time to think whether she would die or not. The White Armor Emperor was right in front of her.

Li Daxian appeared beside Luo Xiaobai and said solemnly, "The sea demon king is here..."

Luo Xiaobai was stunned. "Who?"

Luo Xiaobai seemed to be in disbelief. She couldn't understand why this person came!

Wasn't the White Shell Royal City blown up by Han Fei...

Just now, Queen Life shouted and disappeared...

It seemed that she was going to intercept the White Armor Emperor!

But now, Han Fei didn't appear, nor did Queen Life, but the White Armored Emperor appeared?

She couldn't help but wonder what happened.

If both Han Fei and Queen Life were killed, the Water-Wood World would be doomed! It would make no difference whether they escaped or not. In front of a king, who could escape?

However, it was too late for Ning Jing and the others to discover it.

When they found the king, the White Armored Emperor was already 50,000 kilometers away.

When they shouted to inform others, no one would have a chance to run anymore.

Ning Jing felt that she had never been so serious before. She had already been prepared. If she died heroically, someone might remember her bravery in the future!

"Ahhh~"

Ning Jing shouted and activated the Great Dao of Space. Her body flew thousands of kilometers, and the spear mark pierced through the void and was about to collide with the White Armor Emperor.

However, just at this moment.

Buzz!

An array appeared in the sky, and a figure broke out of the array and shouted, "Jing'er, retreat."

### **Chapter 1677 Undying Marshal Han**

While countless people were wondering why they were ordered to retreat... the sky was torn apart, a huge array appeared, and Han Fei had already stepped out of the array.

Jing'er's spear had already been thrust out, and Han Fei extended his hand and drew a saber out of the void. The saber tore through the void and cut through the night sky, as if it tore a gash in the night.

"How is that possible?"

The White Armor Emperor was shocked.

In order to trap Mu Wuhua and Han Fei, he sacrificed his Companion Spirit and sealed it with his Great Dao to buy the time of a hundred seconds.

The White Armor Emperor believed that if the Venerables of the Water-Wood World dared to fight, within a hundred seconds, he could slaughter more than half of them. At the same time, the aftermath of the battle could wipe out all the creatures in the Cloud Sea Divine Tree.

The White Armor Emperor was going to show Queen Life that when a king was angry, millions would die. He wanted Queen Life and Han Fei to regret offending him.

However, the White Armor Emperor didn't expect Han Fei to come so quickly.

However, when Han Fei appeared alone, although the White Armor Emperor was surprised, he was delighted. If Han Fei died, he would win!

He was not afraid of Queen Life, nor the four major races of the Cloud Sea Divine Tree. What he was afraid of was Han Fei, a peerless Heavenly Talent. This kind of person would have no limit when he grew up. Now, he could fight a king... Maybe he could pass a king-level tribulation in a few days.

The White Armor Emperor casually threw out a spear, and Jing'er's spear shattered instantly. Jing'er was horrified, but not surprised.

Other people didn't know the difference between a Venerable and a King, but she did.

That was the difference in the life level!

As soon as one became a king, he could even awaken a special technique that was related to his own level. It was just like the defense power of the White Armor Emperor, and Queen Life's Life Spring Water.

Han Fei knew that the gap between a Venerable and a King was huge. How could Jing'er resist the White Armored Emperor?

Therefore, Han Fei drew out a saber the moment Jing'er thrust her spear out.

This saber cut across the sky. It contained invincible saber intent and was magnificent.

Clang!

The White Armor Emperor's spear shattered, and Han Fei slashed with all his strength, causing terrifying ripples that swept more than 8,000 kilometers.

"Huff -"

Han Fei took a long breath. Fortunately, it wasn't too late yet!

If he had been one step slower, Jing'er wouldn't have survived.

Han Fei shouted again, "Everybody, retreat a hundred thousand kilometers."

Jing'er was stunned to see that Han Fei had shattered the attack of the White Armor Emperor. However, she had no time to think and quickly stepped back. "Everyone, retreat for now..."

Li Daxian jumped over only to see Han Fei rush towards the White Armor Emperor from a distance... and he was shocked. Li Daxian roared, "Han Fei, can you handle it? That's a real king!"

Behind Han Fei, the Infinity Water triggered huge waves in the sea, which were thousands of meters high, and slashed at the White Armor Emperor like a blade. Han Fei replied without looking back, "I know I'm fighting a king." Li Daxian: "..."

Bang! Bang! Bang! In an instant, Han Fei and the White Armored Emperor collided.

This might be the first time that Han Fei had fully used the Great Dao of Invincibility, which he didn't know well yet!

Because he didn't know it well, he didn't use it much.

But now, Han Fei was shining like the sun in the night sky, lighting up half of the sky with his power.

Knock, knock, knock!

Boom Boom Boom ~

The White Armor Emperor was good at close-quarter combat. Seeing Han Fei didn't retreat even in the face of death, he wanted to kill Han Fei even more. Although Han Fei's strength was beyond his imagination, he found that Han Fei's strength was weakening and he was retreating

Behind Han Fei were the billions of creatures on the Cloud Sea Divine Tree. If he retreated, what would happen to them?

The White Armor Emperor was sure that Queen Life couldn't come over. He wondered how Han Fei escaped from his Sea Controlling Seal. However, Han Fei was alone. How could he resist him?

Therefore, Han Fei must die in this battle.

One breath.

Two breaths.

Three breaths.

Han Fei couldn't hold on anymore.

Even a terrifying combat skill like Monkey King's Three Thousand Sticks was repelled by the shield. This caused Han Fei to retreat again and again. After ten seconds, he had retreated six thousand kilometers.

At that moment, Han Fei was exhausted.

Ning Jing, Insect King, Insect Queens, Wushang Xue, Li Daxian, and the others were all shocked to see Han Fei attacking the White Armor Emperor.

To be able to block the White Armored Emperor for so long with the power of a Venerable? Han Fei must be the strongest person under the king realm. The White Armor Emperor roared, "Han Fei, you haven't become a king yet. How can you stop me? Since you overestimate yourself and insist on fighting, just die..."

Boom!

The White Armor Emperor's hysterical voice was filled with madness and fury. Countless people stopped and looked at the sky.

Ning Jing shouted, "Han Fei, retreat..."

But Ning Jing felt that she was too late. She saw that Han Fei's breath disappeared in the terrifying explosion.

In the next moment, a blue halo circulated, and Han Fei appeared in a blue light curtain in an instant. At this time, Han Fei's strength had returned to its peak.

However, Han Fei wasn't very happy... Because he found that the longer he reversed time, the more chaotic energy he consumed.

On average, he would have to consume a wisp of Chaotic Qi to return to one second ago. If he wanted to hold on for a hundred seconds, it meant that almost a hundred wisps of Chaotic Qi would be gone!

If he fought the White Armored Emperor in the wild... no matter how much Chaotic Qi Han Fei had, he wouldn't be able to afford it.

Han Fei couldn't help thinking of Old Demon Chu's methods.

It seemed that even if Old Demon Chu comprehended the Great Dao of Time better than him, the amount of chaos energy he consumed was also massive.

"The Great Dao of Time?"

The White Armored Emperor was a king anyway. No matter how remote the place he lived was, he knew the Time Great Dao. In fact, almost every king had considered practicing the Time Great Dao.

However, who could really comprehend the Great Dao of Time? Anyway, he couldn't. Therefore, seeing that Han Fei's strength instantly returned to its peak, the White Armor Emperor couldn't feel worse.

Han Fei roared, "White Armor Emperor, since you can't kill me, go back. Bring your army of sea demons and attack again. Or, if you have the ability, release the army in your body now... I'll kill them all."

"Humph! Maybe you know the Great Dao of Time, but so what? I don't believe you can reverse time infinitely."

Bang! Bang! Bang! As they talked, the White Armor Emperor and Han Fei collided again.

This scene stunned Ning Jing and the others.

Li Daxian looked at this scene in shock. Reverse time? What kind of magical ability did Han Fei learn? That was the Great Dao of Time!

With Han Fei buying time, the army of the Dark War Port was retreating frantically. No one was an idiot.

Judging from the sound, it seemed that Han Fei and the White Armor Emperor were fighting fiercely. Thousands of kilometers away, a wisp of power that was released in their battle could sweep in all directions.

A bug hummed, "Can Han Fei fight a king now?"

A member of the Sky Clan said, "Han Fei's original body is a member of our Sky Clan."

A human said, "Come on! Han Fei just turned into a bird once. How can you count him as a member of your Sky Clan?"

Someone asked worriedly, "Why is Han Fei fighting the sea demon king? Where is the queen?"

Someone said, "The queen was here a moment ago! Maybe she has something important to attend to, so Han Fei fights the king first." As for the humans of the Yin-Yang World, they sighed while fleeing.

Someone exclaimed, "Marshal Han is only one step away from becoming a king! Now, he can already fight a king!"

Someone laughed. "That's right. Who is Marshal Han? He is a peerless Heavenly Talent that hasn't appeared on the Scattered Stars Island for tens of thousands of years. The big clans have existed for tens of thousands of years, but Han Fei has easily crushed them all!"

The people from the big clans all had complicated feelings.

In the crowd, Yang Deyu said, "Sister Nanxi! I think you'd better not take revenge on Han Fei this life... He's already fighting a king! Do you know what realm he's in?"

Yang Nanxi snorted. "Of course I know! I'm as talented as him."

Someone couldn't stand it anymore and said, "Shut up! How can you be so naive? Yang Nanxi, if you want to bring disaster to Han Fei, there is another way... That is to find a way to marry him. Then he'll be doomed."

"Hahaha!"

Chu Qingyan's expression was ugly. "Is there no hope for revenge in this life?"

Beside Cao Qiu, Cao Jiaren said lightly, "Qiu'er won't lose to him in the future"

Cao Tian didn't speak, still looking simple and honest.

A trace of struggle appeared in Cao Qiu's eyes as he muttered, "The bloodline of the God of War, why do I have to become the God of War instead of him becoming me?"

Bang!

After dozens of seconds, the Insect Queens all started chattering. An Insect Queen said, "Is the Great Dao of Time so terrifying? Han Fei has been destroyed five times but he can still reverse time!"

Seeing that Han Fei was so good at fighting, Li Daxian simply accepted the request of Luo Xiaobai and the others and led them to the sky.

The corners of Zhang Xuanyu's mouth twitched and he said, "How is it possible for us to catch up with him?" Le Renkuang said, "I don't know! Maybe I can catch up with Feifei after swallowing the White Armored Emperor." Li Daxian squinted at Le Renkuang. "It's useless even if you swallow a hundred."

Qu Jinnan looked at Ling Yuan. "Is that the knife technique Senior Brother taught us?"

Ling Yuan shook her head. "I can't see how they are fighting at all. What's the use of asking me?"

As for Yi Xiyan and company, they looked eagerly at the void, trying their best to extend their perception range to the max. However, it was useless. How could they watch a battle between kings?

In the rear, hundreds of thousands of human beings who had retreated hundreds of thousands of kilometers suddenly shouted.

"Marshal Han, Marshal Han, Marshal Han..."

In the distant void, Han Fei reversed time again, stood in front of the White Armor Emperor, and shouted, "White Armor Emperor, if you can't kill me today... in the future, I will tear off your shell and forge a weapon with it!"

### **Chapter 1678 The White Armored Emperor Ran Away**

At this moment, Han Fei needed to use Chaotic Qi to fight and reverse time... He had never felt that Chaotic Qi was so important!

In fact, Han Fei already knew that the Chaotic Qi was equivalent to the compressed power of the Great Dao, which could stimulate his own Great Dao. Now, when he really used it, he realized that it could never be enough!

Queen Life hadn't returned yet.

The White Armor Emperor's face, which was calm at first, became twisted and he looked a little crazy.

Han Fei realized that this guy might go crazy!

Sure enough, when Han Fei reversed time for the sixth time, the White-Armored Emperor pushed Han Fei away. In the void, a huge shell appeared and spat out, and then 50,000 soldiers and nearly 100 Venerables appeared.

Han Fei's heart skipped a beat.

He roared, "White-Armored Emperor, the Half-Kings of the White Shell Royal City are not here. You're asking to be killed if you attack now."

Buzz!

Two projections appeared out of thin air, and five White Armor Emperors appeared in the void. Han Fei looked at them. Half-Venerable realm? This guy actually used Half-Venerable projections in the battle with him?

The White Armor Emperor roared, "Han Fei, since I can't kill you, let's see if I can kill these people!"

Then, the White Armor Emperor roared, "Everybody in the White Shell Royal City, attack with all your strength. Kill as many as you can in fifty seconds!"

At this moment, Han Fei knew that the White Armor Emperor was crazy. When fighting Han Fei, Han Fei clearly felt that the White Armor Emperor was weakened by about 20%. After all, he had just produced five Half-King clones!

It was not hard to imagine that back then, the Black Evil Conch King's loss was probably much greater than the White Armor Emperor because he had lost three Half-King clones in the Yin-Yang World.

However, since the White Armor Emperor was weakened by 20%, he couldn't suppress Han Fei anymore. Whether it was speed, strength, or defense, the two of them were now equal.

Even so, if they fought for a long time, Han Fei's Great Dao could only last a little longer. Han Fei didn't really have such strong power all the time!

Fortunately, it would be fine as long as he fought until Queen Life returned. This meant that Han Fei didn't need to consume his Chaotic Qi anymore!

The moment the White Armor Emperor released these people, Jingle, Insect King, Wushang Xue, and Li Daxian... A total of 13 Venerables jumped out.

Among them, only Jing'er and Insect King were in the Half-King realm. There was also a Half-King of the Sky Clan. The others were either peak-level Venerables or advanced ones.

Just when Han Fei felt that the Water-Wood World might not be able to resist five Half-Kings at the same time, 22 Insect Queens rose into the sky at the same time.

The Insect Queens formed a large array, and someone shouted, "Leave the remaining two Half-Kings to us..."

At this moment.

The old turtle said, "This kind of projection is the most meaningless kind of projection. It will consume the power of the original body. But at this moment, it is indeed very useful. At this moment, the White Armor Emperor is weak, so it's the best time to kill him."

Han Fei was lost for words. "How can I kill him? Even if he has produced five projections, his strength is still comparable to mine. Obviously, he has planned everything. How would he give me a chance to kill him?" The old turtle pondered for a moment. "Let me prepare... My emperor-level soul can shake him. However, there's only one chance. I can't guarantee it... Besides, my attack this time will definitely damage my soul. I need to swallow at least ten advanced Venerables' soul power."

Han Fei's heart stirred. "Why didn't you say so earlier? It's just ten advanced Venerables. Once the White Armored Emperor dies, all the Venerables in the White Shell Royal City will be ours."

The old turtle said, "Although I can shake his soul, it will only take one second at most. Can you break his defense within a second alone? Do you want to wait for your junior sister to come?"

Gritting his teeth, Han Fei looked back. The Water-Wood World could narrowly block the five Half-King clones, but the premise was that the Water-Wood World had to pay 25 high-level combatants to block them.

The remaining Venerables had to face nearly a hundred Venerables from the White Shell Royal City. The Water-Wood World was at a huge disadvantage. If there were Venerables who... maliciously massacred, the Water-Wood World would suffer heavy losses.

And now, there were still at least 40 or 50 seconds before Queen Life returned. She had to rush back after breaking the array.

Han Fei couldn't help but shout at Jing'er, "Jing'er, is it really impossible for the Cloud Sea Divine Tree to attack?"

Ning Jing gritted her teeth. She had explained this question to Han Fei before.

The Cloud Sea Divine Tree could attack, but it could only protect itself. Besides, the power displayed by the Cloud Sea Divine Tree wouldn't be very strong. Its main power was to maintain the existence of a world and provide the habitats of billions of creatures in the Water-Wood World. Because of the different direction of evolution, its effects were naturally different.

The old turtle said, "I suggest we wait..." Han Fei gritted his teeth and said, "Old Yuan, can't you use this secret method twice in a row?"

The old turtle was lost for words. Then he buzzed. "I only have one soul. If I use it twice in a row, I'll fall into a deep sleep... Then I don't know when I can return."

Han Fei was lost for words. "I can summon part of your soul with the Demon King Contract!"

The old turtle said leisurely, "My soul is all here. It has been suppressed for too long, and most of my soul has been obliterated. I can only use this wisp of soul and my body. Unfortunately, I can't summon my body." The old turtle had a lot of uses. He still needed to use the old turtle a lot. Besides, when he left the Yin-Yang World, he would need the old turtle to provide him with various suggestions.

So, let the old turtle sleep? Han Fei certainly wouldn't agree.

But now he seemed to have no choice. The White Armored Emperor had obviously given up on the entire White Shell Royal City. He was trying to buy some time to crush the Cloud Sea Divine Tree.

The White Armor Emperor roared, "You want to kill me? Then die with me!"

At the moment when the two parties collided, Han Fei suddenly shouted, "Old Yuan, do it."

The old turtle didn't know what Han Fei was up to, but no matter what... he was not in a hurry.

Han Fei's potential was beyond doubt. It didn't matter even if he was delayed in the Yin-Yang World or the Water-Wood World for a while.

For the old turtle, even if Han Fei failed to kill the White Armored Emperor now... it would only delay some time! In the sky, boundless black gas suddenly emerged. Swish! Swish! Swish!

Twelve black chains were attached to the White Armor Emperor. At that moment, the White Armor Emperor's eyes turned black.

Seeing this scene, Han Fei knew that it was time.

“Twin Divine Technique.”

His white-mist body and black-mist body attacked at the same time. Because he had been prepared, he easily activated the power of time again. Then he grabbed the time and entered the void.

A Half-King clone of the White Armor Emperor was horrified and shouted, “Dodge Han Fei!”

However, Han Fei used the old turtle’s only chance to attack. How could the White Armored Emperor dodge it so easily?

Even Han Fei, who had activated the Twin Divine Techniques, could easily kill a Half-King.

Therefore, Han Fei approached the projections of the White Armor Emperor in an instant. “Pu! Pu! Pu!”

Two projections were killed.

Because it wasn’t the White Armor Emperor’s true body, there was no Blood Rebirth, nor would there be Great Dao cracks in the sky.

Therefore, when the two Half-Kings were killed, they were simply killed.

As for the other three Half-King clones, they had already begun to flee the moment Han Fei attacked. But Han Fei’s black-mist body was invisible, so the White Armor Emperor couldn’t avoid it.

At this moment, Han Fei only had time to attack the three projections of the White Armor Emperor.

or

When the black-mist body turned to the third projection, Han Fei’s figure broke out of the void with a buzz. With a thought of him, the strength of his white-mist body was greatly reduced.

However, in the void, four different projections of Han Fei appeared in different places. Together with Han Fei’s white-mist body, five Han Fei in the peak-level Venerable realm appeared.

Even if the strength of Han Fei’s projections was only at the peak of the Venerable realm, they were not weak.

Under the Void Descending Art, everyone heard:

Boom...

Boom...

In the sky, five consecutive Great Dao cracks appeared, appearing almost at the same time. The Great Dao cracks were crisscrossed in the sky, looking very weird.

Li Daxian muttered to himself, “As expected of... the future master of the Heavenly Palace!”

Ning Jing, Insect King, and the others were already at war. They were both delighted and horrified at Han Fei’s move.

Wasn’t Han Fei too strong?

Five peak-level Venerables had died at the same time? And Han Fei had even killed three Half-King projections of the White Armored Emperor?

Han Fei was about to kill a few more Venerables with his black-mist body when the old turtle said, "The time is up, hurry..."

Crack ~

As soon as the old turtle said so, the twelve black chains shattered. Seeing this scene, the twins combined and all the projections were broken.

"Supreme Yin-Yang Painting..."

He could do a lot of things in one second!

For example, the scale of victory that decided a super battle.

The White Armor Emperor already knew what happened. Unfortunately, the moment he broke free from the soul restraints, a black and white picture appeared and pressed against his body.

Sizzle

Ka ka ka ~

Under the Yin-Yang Great Dao, the White Armor Emperor could hardly break free from the soul restraints. All he could do was to resist.

However, he knew that with the destruction of his three Half-King projections and five peak-level Venerables, not only a Half-King, but also 22 Venerables from the Cloud Sea Divine Tree were freed.

This caused the peak combat power of both sides to return to balance.

The White Armor Emperor's heart was bleeding. The situation was hopeless. If the combat power in the Venerable realm was equal, he wouldn't be able to win quickly. This put the White Armor Emperor in a dilemma.

Queen Life was coming back!

Han Fei was like a piece of plaster, fighting to the death without retreating. He had no time to take the people of the White Shell Royal City away.

And now, the White Armor Emperor knew that if he didn't leave, the consequences might be that he would be suppressed by Queen Life and Han Fei together.

At this moment, the demonic Great Dao swallowed his heart, and the White Armored Emperor seemed to understand why Xue Fan sacrificed so many people to help him become a king?

Because no matter how many people he nurtured, it was not his own power. Then why didn't swallow them all? In this way, he could become an extremely powerful king. Unfortunately, he understood the truth of the evil Dao too late.

At this moment, he had to run.

The White Armor Emperor said telepathically, "All Venerables, flee."

After that, the White Armor Emperor broke into the void, and Han Fei followed him in. However, the White Armor Emperor turned around and ran.

Yes, a king ran away!

### **Chapter 1679 A Big Victory and Cultivation**

At the moment when the White Armored Emperor escaped, Han Fei was stunned.

Do you know that if you escape, the White Shell Royal City will be gone? More than half of the Venerables in the royal city will be annihilated!

When the White Armor Emperor tried to escape, Han Fei's first reaction was not to stop him, but to speak to Ning Jing and Insect King, "Block the White Armor Emperor's projections."

In the blink of an eye.

Han Fei turned back and attacked like a bolt of lightning

At the same time, Han Fei's Sky Hanging Mirror reflected the sky. "The White-Armored Emperor of the White Shell Royal City fled in defeat. Everyone, let's kill our way into the sea. The Venerates of the Water-Wood World, hold back the Sea Demon Venerables."

Ning Jing added, "Hold them back. Don't let any of them escape."

If the commander fled, the army would be devastated.

No matter what the situation was, it was the same in a pitched battle.

Therefore, when Han Fei shouted that the White-Armored Emperor had escaped, the entire Water-Wood World went crazy.

"Kill!"

Buzz

The overwhelming number of insects flew out, some flying into the sky, and some fleeing to the seabed. The swarms of the Sky Clan almost covered the sky and rushed into the sea too.

The humans from the Yin-Yang World roared, "Marshal Han is invincible!" and rushed into the battlefield.

In just a few seconds, the two Half-King projections of the White Armored Emperor was killed by Han Fei. Ning Jing turned around and asked Han Fei, "Where is the queen?"

"She'll be back soon."

Ning Jing breathed a sigh of relief when she heard that. Then, she charged angrily at a sea demon Venerable.

Han Fei and his nine peak-level Venerable projection chased the sea demons into the void.

The old turtle must've consumed a lot of energy to control the White Armor Emperor just now! He had to replenish his energy! After all, the old turtle was his servant now.

At the moment when the White Armor Emperor had no choice but to flee, it had been only less than 80 seconds since the battle between Han Fei and the White Armor Emperor started...

Queen Life returned eighteen seconds after the White Armored Emperor escaped. This meant that Queen Life must have paid a heavy price to return ten seconds earlier.

When Queen Life returned, after only dozens of seconds, there were Great Dao cracks in the sky one after another. On the way, Queen Life killed two Venerables from the White Shell Royal City.

The White-Armored Emperor escaped, and the army of the 50,000 soldiers of the Royal City began a large-scale battle with the cultivators of the Cloud Sea Divine Tree.

However, the king of the White Shell Royal City had already fled, and the Venerables had scattered and were being chased crazily.

The army of the White Shell Royal City lost their morale and scattered.

However, unexpectedly, apart from a few Venerables hunting down some explorers, no one touched the sea demons below the Explorer level.

When Queen Life returned, less than ten thousand of the fifty thousand soldiers had escaped. Queen Life roared, "All Venerables, listen up. Don't hunt sea demons below the Explorer level. These sea demons will be the whetstone for the rise of Water-Wood World."

The perspective of the strong was naturally different.

The Water-Wood World won. Billions of creatures slaughtered their way into the sea, and the sea demons left behind couldn't escape. Those who could escape certainly wouldn't dare to retaliate in the short term. They didn't have the ability or courage to do that!

After all, even their king had been defeated.

Half a day later.

Somewhere 500,000 kilometers away in the Water-Wood World, in a secret array, Han Fei asked, "Old Yuan, have you recovered?"

The old turtle said, "Not so fast. Even with these Venerable corpses, it might take ten years."

Han Fei sneered. "Can't you enter my calabash? You can just cultivate there."

The old turtle said, "I can only see that world, but I can't enter it. That's your world. Only with your permission can outsiders enter it." Han Fei wondered if he could let the old turtle enter Forge the Universe.

This time, something strange happened...

Han Fei realized that after the old turtle became his servant, he could directly absorb the old turtle into Forge the Universe without consuming a massive amount of resources.

Han Fei immediately realized that it seemed that only by acknowledging him as master could the old turtle come in!

However, if he reduced the ten years to about half a year, the old turtle would be able to control the White Armor Emperor again! Then, the White Armor Emperor would be doomed...

Therefore, Han Fei was not in a hurry.

In the sky above the Water-Wood World, when Han Fei returned, he saw that Queen Life seemed to have been waiting for him for a long time.

Queen Life threw a huge piece of broken shell to Han Fei and said, "The Sea Controlling White Shell detonated itself. This whole piece of shell and some broken flesh, except for the thousands of kilograms of flesh given to Jing'er, Suzhen, and the Golden Crow, are all here."

Han Fei accepted it. "How many Venerables have died?"

Han Fei knew that a total of 42 Venerables had died. If he guessed right, they were all sea demon Venerables.

Queen Life: "24 Venerables from the White Shell Royal City died. Two junior Venerables and one intermediate Venerable from the Water-Wood World were killed."

Queen Life seemed quite satisfied with this number.

Han Fei, on the other hand, frowned and said, "Three Venerables of us died? It seems that there were a lot of subsequent battles! Are there still nearly 60 sea demon Venerables left?"

Queen Life said, "I've confirmed the hidden places of some of them. In the coming year, at least 10 to 20 sea demon Venerables will die. As for the rest, we'll search slowly. Anyway, this sea area is only so big."

Han Fei thought for a moment and said, "I'll solve 10 Venerables. I'll find them myself."

"Oh?"

Queen Life didn't know how to look at Han Fei now.

When they first met, Han Fei was pitifully weak and could be squeezed to death with one finger. Now, even she probably couldn't kill Han Fei.

And Han Fei was only a Half-King. If he became a king, there was no way she could defeat him.

Queen Life said, "Unfortunately, I came too late. As long as the White Armored Emperor is alive, the Water-Wood World can't explore the outside world."

Han Fei smiled. "Half a year. Give me half a year, and I'll find the White Armor Emperor. However, the corpse of the White Armor Emperor should belong to me."

Han Fei didn't ask for much.

With the death of the White Armor Emperor, the hundreds of millions of creatures in the Cloud Sea Divine Tree could go out. The sea was huge and had countless resources. They would enter a period of rapid rise.

However, he couldn't give all the benefits to the Water-Wood World. Therefore, Han Fei wanted the corpse of the White Armored Emperor.

Queen Life was lost for words. "You want the corpse of the White Armored Emperor? Aren't you afraid that he will blow himself up? The power of a king's explosion may be beyond your imagination."

Han Fei said, "The White Armored Emperor is very timid. How many strong masters did he abandon just to survive? Such a person weighs the pros and cons too much. Can he blow himself up? However, if he does, the Water-Wood World must allow the human beings of the Yin-Yang World to come and cultivate. After all, the death of Xue Fan and the White Armored Emperor is all because of me... The Yin-Yang World should get some benefits..."

Queen Life smiled casually. "OK! I have no problem with the connection between the two worlds. Just as you said, what we need to deal with next is the crisis in the cage. But the Half-Kings are not allowed to come to the Water-Wood World."

Of course, Han Fei knew the danger of the cage. However, hearing that Queen Life seemed to acquiesce to the connection of the two worlds, he immediately said, "Okay, the day the White Armored Emperor dies will be the day the two worlds are officially connected."

As for whether the Half-Kings could come to Yin-Yang World or not, it didn't matter. With Old Han gone, Yin-Yang World only had two Half-Kings.

Half a year passed.

Han Fei quietly came out of Forge the Universe.

Luo Xiaobai, Zhang Xuanyu, and the entire Thug Academy, didn't have the time to pay attention to him. This was because... everyone was busy entering the sea to kill enemies and hunt for treasures... to cultivate and make breakthroughs! Naturally, no one had the time to pay attention to him.

Because too many powerhouses had died in the Water-Wood World, the spiritual energy here was richer and richer. Of course, there were also a lot of resources scattered here.

In Han Fei's words, where there were sea demons, there were resources. Luo Xiaobai and the others had gained a lot in the past six months.

The reason was simple. None of the Venerable-level sea demons dared to come out. Once they came out, they would be killed!

Therefore few people could resist Luo Xiaobai and the others.

Eight years had passed in Forge the Universe.

In the past eight years, Han Fei had learned the Heavenly God Stab and the Ten Thousand Dao Patterns.

Of course, Han Fei had also deduced the Indestructible Overlord Body. However, after deducing it in the Demon Purification Pot, he got a new technique that made Han Fei very conflicted.

This technique was as follows.

Supreme Mystic Divine Body (Venerable Level, Divine Quality)

Introduction: This technique is the deduced art of the Indestructible Overlord Body Art. You have to comprehend it on your own. This technique can help you cultivate your Dao Body by fusing Chaotic Qi into your body. This technique ranks 5609th in the body refinement technique in the Infinite Ocean. Its strength is immeasurable.

Deduced Art: Unable to be deduced

First of all, what Han Fei could be sure of was that this Supreme Mystic Divine Body was definitely not a simple technique. The old turtle had said that there were millions of races in the Infinite Ocean... Ranking the 5,000th was enough to prove the power of this technique.

But Han Fei despised it!

If you give me a top 100 body-refining technique, I can try to cultivate it... However, you're giving me a body-refining technique ranking behind the 5,000th? Even if I practice it to the highest level, it's impossible for me to rank among the tops among the thousands of species in the sea!

Therefore, Han Fei decided not to cultivate first.

"Have you finished your cultivation?"

Behind Han Fei, the voice of Queen Life suddenly sounded.

Han Fei said casually, "Well, it's about time. It's time for the White Armored Emperor to die."

Queen Life said, "Are you sure you can find him? It's actually very difficult to find a king who hides himself. Besides, you killed five Half-King projections of the White Armor Emperor. His strength should be greatly reduced now. It will take him a hundred years to come out of seclusion."

Han Fei grinned. "How dare you let a king lurk in this world?" Queen Life: "Let's go! We have to try."

### **Chapter 1680 Death of the White Armored Emperor**

Nobody knew where Han Fei and Queen Life were going, not even Ning Jing.

Ning Jing was sent out by Queen Life to hunt the Sea Demon Venerables...

Half a day passed.

Han Fei and Queen Life came to the vortex sea where Han Fei entered the Lightning Prison.

Han Fei had felt that this place was weird the first time he saw it!

This place could be connected to the Lightning Prison... Could it be that these vortices were actually connected to one place?

Han Fei made up his mind that he would try exploring this place after finishing killing the White Armor Emperor.

"Is it this sea?"

Queen Life said in surprise, "I've been to these vortexes before. Back then, there were many vortexes here, but they're gradually dwindling now. Those who can be explored have basically been explored. The rest are mostly problematic. None of them should be useful."

Han Fei was puzzled. "Is there a problem?"

Queen Life: "Some vortexes are connected to shattered small worlds. Once you enter them, you may accidentally fall into the endless void."

Han Fei frowned slightly.

However, when Han Fei used the Vast Ocean Navigator, there would be no mistake. And it pointed exactly at the vortex that led to the Lightning Prison that he had been to.

At this moment, he knew where the White Armored Emperor was.

Han Fei said, "Since I've found this place, I can be sure that this road is absolutely clear. Let's go..."

With that, Han Fei stepped into the vortex.

Queen Life was naturally not afraid of the vortex. She knew this place, which meant that she had been here more than once.

When the two of them were deep in the endless void, Han Fei was still rushing in a direction. This made Queen Life rather curious. Why was Han Fei so sure that this place was safe?

A moment later, when a white light appeared, Queen Life was surprised. "An exit?"

Han Fei grinned. "Yes."

Swish

A moment later, the two quickly left the exit.

In the next moment, dozens of thunderbolts bombarded them with bangs.

Queen Life was stunned. "It's the power of lightning... It's not heavenly tribulation, but pure lightning. The power of the Great Dao it contains is limited. Where is this?"

Han Fei didn't explain. In Forge the Universe, the Vast Ocean Navigator didn't spin.

As he expected.

Han Fei grinned. "Follow me."

Queen Life was suspicious. Han Fei seemed to be familiar with this place.

The two quickly left the Lightning Prison through the teleportation array. When they reappeared, Han Fei found that the teleportation entrance to the forbidden-level secret realms in the White Shell Royal City was gone, and there were no traces of arrays.

Obviously, the White Armor Emperor had destroyed the entrance to the forbidden-level trial ground. Without the seal, Han Fei didn't know how he got here... Fortunately, Han Fei found another entrance to the Lightning Prison. Otherwise, he might not have been able to find the White Armored Emperor.

In the Godfiend Sea.

The White Armor Emperor was lying there.

In the corresponding cage, the old sheep moved. He was guarding this place personally. Who knew what the purpose of the person opposite him was!

After more than half a year of recuperation, the White Armor Emperor's fury was finally appeased. However, he made a decision that even he himself found terrifying. He was determined to take another path, a path of blood sacrifices to devour creatures.

In this battle, the White Armor Emperor discovered that his methods were too merciful.

All this time, he had thought that he was smart, strong, and capable enough. However, after seeing Xue Fan, he didn't think so anymore. Xue Fan's courage to swallow an entire race shocked him.

If Xue Fan triggered the evil thoughts in the White Armor Emperor's heart, then Han Fei was a fuse. This fuse ignited the White Armor Emperor's thirst for power to the point where he could do anything for it.

However, this desire had just been aroused...

Buzz!

The White Armored Emperor, who was cultivating, suddenly came back to himself.

The next moment, the White Armor Emperor looked surprised.

"Han Fei... Mu Wuhua..." The White Armor Emperor was very surprised by the arrival of Han Fei and Queen Life. However, he quickly reacted.

He looked at Han Fei and the corners of his mouth twitched. "So, it was because of you that the seal on the Godfiend Sea had something wrong?" Han Fei grinned. "Oh, did you find out?"

The White Armor Emperor drew a round scimitar with one hand and held a shield in another, ready for battle.

Han Fei grinned and two white scimitars appeared in his hands. However, these two knives were not ordinary weapons but the Blade of Hope that wouldn't be damaged.

After all, he was facing a king, and he was only a Half-King. Snowmourn should be easy to damage. Although the Embroidery Needle wasn't weak, it wasn't something he was best at.

Then, the Blade of Hope became the best weapon.

Queen Life said leisurely, "White Armor Emperor, do you know that you will have this day?"

The White Armor Emperor chuckled. "Heh! Do you really think you can kill me just by joining hands?"

Bang!

The White Armor Emperor took the lead to attack. The shield flickered with blue light, as if infinite power was pushing the seawater into huge waves.

“Pu! Pu! Pu! Pu!”

Demon plants and vines were growing under the whole Godfiend Sea.

In an instant, the Raging Sea was covered by demonic plants.

On the side of the cage, the old sheep shouted, “Retreat, all of you, retreat. Give up guarding this place. There are kings fighting here.” Old Sheep was speechless. What had Han Fei done outside? It had only been half a year. Why was there a king-level battle here?

Lightning said in shock, “Old Sheep, will this place collapse? Are you sure that there are kings fighting here?”

The old sheep shouted, “Of course! How can I not know this?”

Bang!

The surrounding void was suddenly torn apart by countless void cracks.

Bear Handsome and the other people guarding here looked at each other in bewilderment.

Fierce Lion exclaimed, “How can the aftermath be so powerful with this space in between? Are kings still human?”

In the Godfiend Sea, the two parties were fighting fiercely.

The White Armored Emperor had lost five Half-King projections earlier, so his strength was at the same level as Han Fei’s now.

For the first time, Han Fei saw that the combat weapon of Queen Life was a small stick about a foot with a half-inch long branch on it.

However, this small stick was completely controlled by Mu Wuhua with the power of her soul. In a second, she struck 800 times in a row, and the power made the White Armor Emperor keep retreating.

After all, Queen Life was in her best state, while the White Armored Emperor hadn’t recovered yet.

After fighting over 50 seconds, Han Fei didn’t even use the Great Dao of Time... Under normal circumstances, Han Fei could still maintain his peak state for another 50 seconds.

Even if the time was up, he could still restore his peak combat power by reversing time.

Han Fei asked, “Old Yuan, when are you going to attack?”

The old turtle said, “Wait, the energy in this space is limited. We have to consume all the energy in this space so that he can only use his reserve power.”

“Huff -“

Han Fei opened his mouth and swallowed crazily.

What the old turtle said was easy to do. With his current body, even the power of the entire Godfiend Sea wouldn't be enough for him to absorb.

The White Armor Emperor's face changed drastically.

As if he had made a decision, he roared, "My shell!"

At that moment, the sky above the entire Godfiend Sea was covered by a white shadow.

"Haha... Han Fei, you destroyed the seal on the Godfiend Sea. Have you ever thought that this is my final trump card? This is my Origin Sea..."

"Hiss"

Queen Life exclaimed, "Not good! My power is being sealed."

Even Han Fei felt an inexplicable power obliterating his power.

He felt that the power of his Great Dao couldn't even last 50 seconds! It would collapse within 10 seconds at most...

Han Fei's face changed greatly. "Origin Sea? What should I do with it?"

The old turtle said, "Don't panic. As I said, although he can do many things in his Origin Sea, he is not absolutely invincible... In this space, he can attack indiscriminately and unrestrictedly. However, don't forget, the Origin Sea is also his Great Dao. You just need to cut off his Great Dao... Your little calabash can absorb my Great Dao, so it can definitely deal with the White Armored Emperor. Besides, even in the Origin Sea, I can still freeze him as long as he shows up..."

Han Fei said, "Demon Purification Pot, absorb..."

Han Fei's wrist was heating up, and he felt that surging spiritual energy, mixed with a bit of Chaotic Qi, was entering his body.

Sure enough, the old turtle had a deep understanding of the Demon Purification Pot! He knew that the Demon Purification Pot would attack under such circumstances.

Queen Life looked at Han Fei in surprise. How could Han Fei crazily grab power in someone else's Origin Sea?

Buzz!

With a thought, the White Armor Emperor separated Han Fei and Mu Wuhua. He just wanted to interrupt Han Fei from swallowing energy. However, as the old turtle said, as long as he appeared, it was a chance for the old turtle to attack.

Han Fei roared, "Old Yuan..." "Soul Lock -"

Ka ka ka ~

The twelve chains clutched the White Armor Emperor again, freezing him in midair.

In an instant, Han Fei flashed and appeared in front of the White Armor Emperor. The power of his soul controlled the Infinity Water to enter the White Armor Emperor's body and spread out.

"Knock on the Heavenly Gate!"

"Heavenly God Stab."

"Draw... Slash..."

Crack... Boom!

The barrier that blocked Han Fei and Mu Wuhua was opened.

On Mu Wuhua's side, it had completely turned into green and winding vines.

Seeing that the barrier was opened and the White-Armored Emperor was nailed to the void, without hesitation, Mu Wuhua held a longbow and shot a wisp of dark green liquid at him. "Withering Arrow."

Bang!

A film-like crust on the White Armor Emperor's body began to decay.

Mu Wuhua roared, "His armor has been broken. Now let me break his body."

Han Fei was briefly stunned. Seeing that the old turtle's Soul Lock Chains were cracking, he roared, "Explode!" Boom!

Crack!

At that moment, the Godfiend Sea, which was the Origin Sea of the White Armor Emperor, was full of cracks. The White Armor Emperor's body was dripping with blood and riddled with holes.

In one second, the situation was reversed. The White Armored Emperor was dying, but he was still alive.

But at the last moment, a small branch extended out of Han Fei's glabella and clasped this space. With a jerk, it took out a shell phantom and pulled it back into Han Fei's glabella.

Mu Wuhua stared at the center of Han Fei's eyebrows in shock, and the old turtle roared, "Go, go! His Great Dao has been snatched by the calabash, and his Origin Sea is about to collapse."

Han Fei grabbed the White Armor Emperor with the Void Lines and shouted at Mu Wuhua, "Run!"

Rumble! Rumble!

Above the Water-Wood World, covering the entire Water-Wood World, a blood-colored Great Dao crack stretched across the entire sky. The sky seemed to have opened up a huge crack!

At this moment, the White Armor Emperor died.
