

### Chapter 171 A Strong Enemy

When the players from both sides stood in the arena, a wave of cheering broke out from the crowd. The average audience hadn't realized what happened yet, but the students of the three colleges almost went crazy.

"Oh my god! Su Yebai, the eighth in the Top 100! It's said that he once slaughtered a whole team by himself, and I also heard that he once explored a certain seabed relic by himself and came back safely."

He Xiaoyu and the others turned pale. How could their opponent in the 100th game be so strong?

Xia Wushuang yelled, "Su Yebai must be the captain. Oh, Qin Yu is also here!"

Chen Qing was not from the First Academy, so he asked, "Who is Qin Yu?"

Wang Baiyu explained, "The 33rd hunter in the Top 100 list. She is very strong and just as violent as Xia Xiaochan."

He Xiaoyu pointed at another person. "It's not just Qin Yu. Xie Shan is also here. He is ranked 41st in the Top 100."

Xiang Nan took a look. "That thin man? Is he an armorer?"

"No, he is a soul warrior."

Xiang Nan was shocked. "He is so thin! Are you sure he is a soul warrior?"

He Xiaoyu said somewhat enviously, "It is said that he was a born soul warrior. He has an exotic spiritual beast Red Sword Finned Fish that is covered with knives all over. He has another name in the First Academy... Knife King."

In the stands, the host introduced the remaining two people. One was Zhou Yu, an armorer, the 49th in the Top 100. The other was Yun Qi. Just like Han Fei, he was both a spirit gatherer and a soul warrior and ranked the 69th in the Top 100.

In the arena.

Luo Xiaobai frowned. "I will try out Su Yebai. Xiaochan, can you handle their hunter?"

Xia Xiaochan shook her ponytail. "Leave him to me. Although he ranks the 33rd in the Top 100 list, so what? The Top 100 list is not a show of strength."

Han Fei said with a smile, "They found a spirit gatherer just like me! He is also both a spirit gatherer and a soul warrior... Umm, he doesn't seem weak."

Luo Xiaobai agreed. "Don't underestimate your opponent. Don't forget. They are advanced great fishing masters."

Han Fei grinned. "Walk another's path and give them no way out. That's my way."

Everyone: "..."

Zhang Xuanyu sweated a little. "Their soul warrior is very strong. Leave this guy to me, but I won't be able to help you guys."

Le Renkuang looked serious. "This time, I'll stay by Xiaobai's side."

...

When the atmosphere on the scene reached its climax, the host shouted, "The game begins!"

"Fuse."

Everyone immediately fused with their spiritual beasts, except for two. One was Su Yebai. He summoned a large spider that was seven or eight meters in length.

The audience gasped.

"Ever Night Black Spider?"

Also rising from the ground was a big blue flower. Although it had fused with Luo Xiaobai, its blue phantom looked real.

The captains of the two sides immediately summoned their spiritual beasts. This scene alone shocked many people. They had never seen these exotic spiritual beasts!

Before any side launched an attack, the ground had cracked. Thousands of vines were entwined with the extremely imperceptible spider silk. Before anyone moved, a lot of vines had been shattered, so had spider silk.

The captain of the team of the First Academy, Su Yebai, smiled. At the next moment, a giant net fell from the sky and covered the entire arena.

"Shadowless Blade..."

Xia Xiaochan attacked and suddenly there were countless shadow blades flickering around the big net and cutting the net into pieces in a blink of an eye.

The hunter, Qin Yu looked, at Xia Xiaochan. "I wonder if your Shadow Shrimp is stronger than my Ghost Shrimp."

Then Qin Yu turned into a phantom visible to the naked eye. It floated in the air and headed straight towards Xia Xiaochan. When Xia Xiaochan hacked at the phantom, everyone was shocked to find that the blade cut through its body, but could not hurt it at all.

"Shadow Twining Technique."

Xia Xiaochan turned into a shadow casually. Instead of attacking Qin Yu, she shot hundreds of shadow knives at Qin Yu's shadow.

Qin Yu's face changed slightly, but her phantom suddenly grabbed at Xia Xiaochan. It was like it was going to catch Xia Xiaochan's soul instead of her shadow.

Xie Shan, the soul warrior of the First Academy team who was as sturdy as a meat shield, said with a ferocious smile, "You seem to be much stronger than I expected. However, what makes you think that you, junior great fishing masters, can block us? Aren't you a bit naive?"

Xie Shan roared, and numerous sword-like thorns grew on his body. Around his body, there were hundreds of small swords floating.

Zhang Xuanyu frowned. "Han Fei."

A spirit gathering circle immediately appeared under Han Fei's feet, and waves of spiritual energy poured into Zhang Xuanyu's body. The latter roared and raging waves appeared in the arena. Zhang Xuanyu stood on the top of the waves. Then a bloody big shark that was as long as seven or eight meters suddenly appeared. Its sharp teeth and ferocious face scared many in the audience.

Someone was surprised. "What kind of spiritual beast is this? How come I haven't seen Zhang Xuanyu use it before?"

"Nonsense, it's certainly because his opponent is too strong this time!"

Zhang Xuanyu stuck out his rod from the seawater and a large, long rod tens of meters long shot up into the sky and then waved down quickly. The visual effect of his combat skills was far better than Xie Shan imagined.

However, at the same time, hundreds of sword blades converged and rotated and soon shattered this big rod.

Zhang Xuanyu shouted, "Spirit Explosion..."

As soon as he shouted, spider silk struck in all directions. Luo Xiaobai immediately tried to block it for Zhang Xuanyu. However, the spider silk pierced through the vines.

Han Fei threw out his double knives. "Rotating Blade."

The two knives circled very quickly, cutting off the spider silk.

The opponent's spirit gatherer, Yun Qi sneered. "How dare you get distracted to help teammates when you're fighting me? Blaze Rays."

Han Fei remembered that Yun Qi's spiritual beast was a Fire Krill, which somewhat like He Xiaoyu's Little Red, was also a fire-type spiritual beast. However, it seemed much stronger than Little Red in attack power. Flames spread on the entwined spider silk. Then an eerie scene appeared in the entire arena, where thousands of flaming spider webs crazily attacked the blue vines.

Han Fei sprinted directly at his opponents while his seven-star chains swept behind him, shattering all obstacles along the way.

"Tortoise Shell Armor."

As the opponent's armorist shouted, the five of the other team were all covered with a layer of armor.

Han Fei gave Le Renkuang a look of reproach. Why did their armorist give them armor? Why can't you?

Le Renkuang was helpless. I myself don't even have armor! But I have Violent War Body.

Then, Le Renkuang shouted. "Violent War Body, protect us!"

The bodies of Han Fei and the others burst into a golden light and their defense power seemed to be strengthened a bit.

In another corner with Xia Xiaochan and Qin Yu, one was a phantom and the other was a shadow. Neither of them could beat the other. The first blows of Zhang Xuanyu and Xie Shan directly shattered a radius of tens meters. At the place their blows collided, a big pit appeared. Zhang Xuanyu was sent flying and caught by the vines, bleeding at the corners of his mouth and his hand.

This was just the beginning of the battle and the entire arena was covered by a variety of combat skills. The flames were burning, the waves were surging, the light and shadows were fighting, and the vines and spider silk were attacking each other.

Le Renkuang cried, "Bloodthirsty Broadsword."

Le Renkuang threw a knife at Su Yebai, the captain of the First Academy team.

The opponent's armorist was angry. Do you think I don't exist?

"Tortoise Shell Shield."

Bam...

Le Renkuang was shocked and it was for the first time that the Bloodthirsty Broadsword was blocked. He vomited a mouthful of blood immediately. Once the Bloodthirsty Broadsword was activated, the broadsword wouldn't return unless it drank blood. Zhou Yu also frowned. Three cracks appeared on the Tortoise Shell Shield. Once his weapon was damaged, he would be damaged too. Zhou Yu also spewed out blood.

Their first confrontation was two draws and one loss, which showed the strength of the team of the First Academy.

Han Fei sent some spiritual energy into Le Renkuang's body and Su Yebai also sent some into Zhou Yu's body.

Han Fei smiled. "Are you sure you let me in?"

Han Fei had swept past the others and rushed towards the enemies.

Yun Qi sneered. "You won't be able to return!"

"Retreat."

Yun Qi, Zhou Yu, Qin Yu, and Xie Shan were suddenly pulled out of the battle. In mid-air, the four of them suddenly pounced at Han Fei all out.

### **Chapter 172 Han Fei Goes Ballistic**

Han Fei was stunned. Come on, the four of you are ganging up on me?! Don't you feel ashamed?

Su Yebai smiled coldly. "I know that you have a very strong defense power, so we've been waiting for you to come close."

They retreated so quickly that the Thug Legend team hadn't even realized what happened, and Han Fei was exposed to their violent attacks at the same time.

Qin Yu launched a spiritual energy explosion, Zhou Yu activated Tortoise Impact, Yun Qi thrust his long stick at him, and Xie Shan shot all his knives at him.

Le Renkuang was stunned and scratched his head. "What do they think?"

Luo Xiaobai froze for a second and shouted, "Target, Su Yebai."

Xia Xiaochan rushed forward as fast as lightning, and Zhang Xuanyu's eyes turned white and launched a soul impact at Su Yebai's brain.

Su Yebai's face changed greatly. Why do the other four of the Thug Legend team not worry about Han Fei at all? Either Han Fei has power I don't know of, or Han Fei is able to defeat the four of us alone, so they don't need to worry about him at all...

Su Yebai shouted, "Retreat, Million Spider Blood Poison..."

Su Yebai immediately tried to make up for his mistake. The four of the other party had pounced at him, so he had to use all his strength.

The vines were withering away. Xia Xiaochan threw out the daggers in her hand because the black spider poison had covered her daggers in the air.

Le Renkuang's Blade Storm was the strongest one, directly crushing all the spider silk in front of Su Yebai and even breaking the Tortoise Shell Armor.

When the victory was coming, a huge black conch suddenly appeared, blocking the Blade Storm.

Han Fei sneered. "In my waters, how can you help others?"

Yes, at the moment when the four people besieged him, Han Fei had raised a water wall around and waved the seven-star chain.

Han Fei, like a loach, shuttled between the four of them. The double knives danced like a roaming spiritual snake in his hand. Obviously, he wielded his knives much more proficiently than Qin Yu.

The sword-covered Xie Shan suddenly rammed at Han Fei like a heavy mountain. To his surprise, however, Han Fei covered himself with a spiritual energy protective cover and collided head-on with him.

BAM!

The water walls were exploded with a loud thud. Apart from Qin Yu, Zhou Yu and Yun Qi flew out directly.

Han Fei was extremely fast and turned into a shadow. And in the next second, Xie Shan who had just beaten Zhang Xuanyu was sent flying through the air.

BAM! BAM! BAM!

Han Fei's double fists flashed with lightning arcs. He punched out and his body almost bursting with spiritual energy. The sharp spikes on Xie Shan's body were broken one by one. Since he was caught by Han Fei, he had no chance to escape.

Crack... Crack...

Some spikes were even directly broken by Han Fei with his fingers. When swords hit Han Fei's hands, clanking sounds were heard. Of course, the attacks were not completely ineffective. Xie Shan seemed to know that he could not escape and kept attacking with all his strength, and Han Fei's body was streaked with blood.

But Xie Shan was even worse. His arms had been broken by Han Fei and the spikes on his chest were all shattered. Now his chest was stained with blood and he kept spewing out blood.

"Tortoise Protection."

Zhou Yu reacted very quickly, so shields appeared on Xie Shan's body one layer after another for armor. But Han Fei didn't fear this at all. He launched a series of attacks at the armor, which was shattered one layer after another, and in the end, Xie Shan was thrown into the sky by Han Fei.

"Universe Broadsword!"

A broadsword came out into the sky. In a blink of an eye, the seven layers of shield armor were completely broken, and Xie Shan was penetrated and fell heavily on the ground, not moving at all.

Many people in the First Academy stood up and watched this scene in shock. Han Fei, is this spirit gatherer so strong?

Han Fei looked a bit pale. After all, Xie Shan was an advanced great fishing master, who was at least 3 levels higher than Han Fei.

However, Han Fei tried his best to get rid of Xie Shan so that Zhang Xuanyu could assist them, and then they would immediately take the upper hand.

The teachers of the First Academy went pale. In their opinion, Han Fei was strong but lacked speed and combat skills, so they ranked him the fourth in the Thug Legend team.

In their minds, the first was Xia Xiaochan, the second was Luo Xiaobai, and the third was Le Renkuang. But now, they found that they made a big mistake. Han Fei was literally a f\*cking monster!

The four ganged up on Han Fei but were defeated and one of them was even killed.

The audience was in an uproar. What is this? The advanced great fishing masters can't break Han Fei's defense? All they could do was to give him some skin trauma? Was Han Fei really a human being?

At the next moment, Su Yebai shouted, "Zhou Yu, block Han Fei, and the others retreat."

On the other side, Le Renkuang handed two brand-new daggers to Xia Xiaochan, and the latter's eyes turned cold as she thought, Use poison?

“Giant Arowana.”

At this moment, while many people were still shocked by Han Fei’s strength, a golden, shining fish with a length of ten meters or more appeared.

“Wow...”

What fish was this?

Almost everyone was stunned. I’ve never seen this fish! What kind of fish is this?

Suddenly, a teacher from the Second Academy exclaimed, “A second spiritual beast.”

The audience was even more shocked. A second spiritual beast? Are you kidding me?

“Roar...”

Even Xia Xiaochan herself didn’t know what kind of a fish this was. All she knew was that it had some heritage of dragons.

As the big fish opened his mouth and roared, a gust of wind rose and dragon howling shocked the entire Blue Sea Arena.

Outside the arena, the mayor and the presidents of the three academies all rushed over. They felt something was wrong.

As soon as the Giant Arowana roared, everyone’s Tortoise Shell Armor was shattered. Because it was an indiscriminate attack, even Le Renkuang and Zhang Xuanyu spat out a mouthful of blood.

Blood oozed out of Luo Xiaobai’s mouth, and she took advantage of this opportunity to shoot out vines and break through the layers of spider silk.

“Fuse.”

Su Yebai who was bleeding from his nose and mouth finally chose to fuse with his spiritual beast. Seven or eight sharp claws about three meters long suddenly grew out of his back. He moved fast and quickly dodged to the side.

Qin Yu’s phantom was shattered by the roar of the Giant Arowana. When she returned to her human state, she lay on the ground and coughed up blood.

Yun Qi supplemented Su Yebai’s spiritual energy and activated the healing technique. A big sword flew from Zhou Yu’s side and he quickly pounced at Luo Xiaobai. He gave up attacking Xia Xiaochan and Han Fei because he didn’t think he could beat the two, but Luo Xiaobai was busy attacking and didn’t notice him.

“Qi and Blood Burn.”

“Raging Sea Spirit Strike.”

Zhang Xuanyu, who kept spewing blood, gritted his teeth and launched a soul attack at Yun Qi. When he saw Yun Qi pause, he swung his rod at him.

BAM!

Zhang Xuanyu suddenly stumbled. He was too close to Xia Xiaochan just now and was almost crushed by the roar of the Giant Arowana.

Zhang Xuanyu shouted, "Han Fei, help."

Han Fei frowned, looking at Zhou Yu, who was blocking him. "Scar of War Shadows."

Zhou Yu almost vomited blood. Come on, not again! My body is not as sturdy as yours!

In an instant, Zhou Yu put multiple layers of Tortoise Shell Shields to his body and braced himself to collide with Han Fei.

BAM!

Han Fei was sent flying and Zhou Yu's body shield shattered. He half knelt on the ground, panting heavily.

But before he could stand up, Han Fei shouted again, "Scar of War Shadows."

Zhou Yu: "???"

This big fatty felt very aggrieved. Did this guy have endless power and spiritual energy? How many times was this? This time, Zhou Yu failed to block it and his shield was all broken, and Han Fei ran away.

Seeing this scene, Yun Qi frowned. He couldn't believe Zhou Yu couldn't even block Han Fei!

At the next moment, a rain of sheen sprinkled on Zhang Xuanyu who gave a shiver and then waved his big rod.

Su Yebai knew he had to rely on himself now. None of his teammates could come to help him. All this was because he made the wrong decision to besiege Han Fei.

Countless spider silks shot out of Su Yebai's body. No matter what, he must get rid of Xia Xiaochan first. This woman was too strong for him to resist. Xia Xiaochan sneered. Seeing the spider silk darting at her, she didn't even use the Giant Arowana but directly turned into a shadow and rushed to Su Yebai.

"Poison Explosion."

Han Fei yelled, "Hurry up, retreat."

"Flop..."

Xia Xiaochan fell to the ground, her face purple. What is this poison? Can it even poison my shadow?

After falling to the ground, Xia Xiaochan's breath was unsteady and her body was faintly red.

Han Fei frowned. Not good! What if she goes crazy here?

Han Fei's eyes immediately turned red. "Little bastard, today I'm gonna spank you!"

**Chapter 173 One Hundred-Game Winning Streak**

Han Fei was angry. Although Xia Xiaochan often slashed him, that was just horseplay between classmates. He certainly wouldn't allow outsiders to bully her!

More importantly, if Xia Xiaochan went crazy now, with so many people present, what if she killed dozens of people? Then how could they clear up the mess?

Han Fei stepped into the air, used the Divine Healing Technique on Xia Xiaochan, and at the same time, shot a green fruit at Xia Xiaochan.

Han Fei shouted, "Detoxify."

Then, seven chains shot out from all sides.

Han Fei roared, "Seven Star Chain..."

Clang...

Su Yebai tried to use his claws to block the chains, but he got entangled as soon as they approached.

But Han Fei secretly sighed. Su Yebai had eight claws, but Nine Tails now only had seven tails and couldn't entangle him completely. Otherwise, he wouldn't have been able to even move.

Su Yebai was startled. What the hell was this? Were the chains alive? Where did they connect to?

Seeing Han Fei rushing up to him, he shouted, "Attach."

Han Fei scoffed. Does he think he can block me with a contractual spiritual beast?

In the chaos, Han Fei held a small seal in his hand. He had never used this little seal. He didn't want to use it, but now he was very angry. How dare this guy poison Xia Xiaochan like that?!

BAM!

Su Yebai just saw that as Han Fei punched, a big seal appeared in the sky. In the next moment, Su Yebai was smashed to the ground like a cannonball and he made a big pit in the earth.

Han Fei secretly put the Water-Stirring Seal into Forge the Universe, thinking to himself, No one has seen it. The seal is so small and I can hold it in my hand.

Now except for Yun Qi who was still fighting Zhang Xuanyu, the team members of the First Academy were all solved.

Han Fei immediately looked at Yun Qi. The latter raised his eyebrows, swept Zhang Xuanyu away with his sword, and jumped backward. "I admit defeat."

Yun Qi was not a fool. He would at most tie with Zhang Xuanyu. His teammates were all knocked down, and Han Fei alone beat the three of them. He had no other choice now.

The host stammered, "Admit defeat... Wow! What an earthshaking feat! The Thug Legend has completed their quest. In nearly thirty years, they have completed the 100-game winning streak in the Blue Sea Arena for the first time! This is a miracle, a memorable event! It's worth a good cheer ladies and gentlemen! Wow..."

In the deafening cheers, Han Fei and the others crowded beside Luo Xiaobai. At this moment, Xia Xiaochan looked much better. She looked at Han Fei and complained, "I didn't know that he was so poisonous..."

Han Fei was relieved. "It's all right, but unfortunately, your Giant Arowana has been exposed."

Xia Xiaochan shrugged. "It's okay. It's not in the city anyway, don't worry."

Han Fei hesitated. "Then just now?"

Xia Xiaochan pursed her lips and shook her head slightly. "It's okay. It's over..."

Han Fei took a breath of relief. As long as she didn't get crazy! Otherwise, God knew what would happen.

In the arena, people were throwing mid-quality pearls about like crazy.

When the team of the First Academy showed up, countless people bet on them winning. But who knew the Thug Legend team would still win? Those who won were throwing their pearls about in excitement.

Someone exclaimed, "That's a miracle! A hundred-game winning streak in the Blue Sea Arena is a miracle."

Some people agreed. "The Thug Legend team is really strong! Han Fei seems not tired at all, so does Zhang Xuanyu. Luo Xiaobai didn't even summon her Blue Cannibal Flower, and Le Renkuang didn't activate his Violent War Body either. That's absolutely a crushing defeat for the First Academy..."

Compared with the excited audience, the people from the three academies were not that happy.

Many students who came to watch the game were stunned. Su Yebai, the eighth in the top 100 list! A manipulator who was nearly invincible was defeated! He was slapped to the ground by Han Fei!

At the moment, the First Academy people were trying their best to save these people's lives, and various healing techniques were thrown at them. When they took Su Yebai out of the pit, all his limbs had been broken, so were half of his ribs. The spirit gatherers who were treating them were all shocked. How much strength did Han Fei use in the final blow?

Many people from the First Academy clenched their fists. This was a disgrace.

A student said, "They made a mistake in command. They shouldn't have besieged Han Fei. That guy is literally a humanoid weapon and is almost invincible."

Someone was angry. "What combat skill did Han Fei use in his last blow? What is that sealed phantom? How can it be so strong?"

In the crowd.

He Xiaoyu, Wang Baiyu, Xiang Nan, Xia Wushuang and the others were bending over the railing stunned. Xia Xiaochan once said that when Han Fei entered the Fourth Academy, he was required to insist on 5 minutes under the siege of the four of them. Now it seemed that Han Fei was much stronger than they thought? His body was abnormally strong!

Xiang Nan swallowed. "They're all monsters! Han Fei knocked out three opponents alone. Xia Xiaochan's second spiritual beast is so powerful! That big fish almost killed everyone in the arena by giving a single roar..."

Han Fei waved his hands at the audience, so did Le Renkuang. The two were very happy that they could finally stop fighting every day.

The host was heard again, "Look, Han Fei and Le Renkuang have raised their hands happily. Let's raise our hands and sway with them..."

Han Fei: "???"

Han Fei looked at the host. This guy had the potential to be a DJ! If everyone held glow sticks, would he ask everyone to wave glow sticks together and dance together?

The host was very excited because he had hosted the miracle of a hundred-game winning streak. In the future, his name would also be written in the history of the Blue Sea Town.

The host continued, "During this period of time, the Thug Legend team has won one incredible battle after another. They have been injured and bled, but they have never been absent... Now tell me what led them to success? It's..."

The host was about to answer the question himself, but before he answered it, Han Fei shouted, "The secret to success is to persevere to win. After you gain enough wins, you will succeed."

The host: "???"

The audience: "???"

Le Renkuang also shouted, "The secret to success is to eat more, a strong body needs the support of food..."

In the corner of the spectator seats, Xiao Zhan covered his face. "No! It seems that we will have to take more cultural classes in the future so they won't speak like illiterates anymore..."

Old Bai said angrily, "Humph! These little guys are so complacent... We should let them experience what failure is when they get back."

In the sky.

The presidents of the three academies all looked unhappy. This time, no one could stop the rise of the Fourth Academy.

Before, the Fourth Academy had enrolled students, but none of them were impressive. Who knew they had recruited five students at a time this year. Where did they find these kids?!

The mayor thought to himself, Although Han Fei looks very strong, he actually is strong in both defense and offense. He is a genius but not rare. But Xia Xiaochan puzzles me... He had a feeling that he had seen that big fish in an ancient book. But it was too long ago for him to remember.

Han Fei and Le Renkuang were still happily expressing their joy and pride on the stage and Zhang Xuanyu wanted to join them. However, Luo Xiaobai released her vines and dragged them backstage.

Bao Jin led two rows of attendants and welcomed them in a line.

Luo Xiaobai frowned. "What's this for?"

Bao Jin gave a fawning smile. "As the first team who has won a hundred-game winning streak in a span of more than 30 years, we invite you to accept the honorary medal awarded by our Blue Sea Arena. This is a glorious moment and worth commemorating."

Le Renkuang and Zhang Xuanyu smiled. It sounds very reasonable! They shall keep the medal to brag to others in the future.

Xia Xiaochan who was still a bit feeble said unhappily, "Can't there be a bonus? Tens of thousands of mid-quality pearls are much better than this!"

Han Fei nodded. "Medal can't be sold. A bonus is more practical."

Bao Jin was speechless. This is a big honor! Besides, we needed to make money, not to mention that we haven't given any bonuses before.

But he immediately said, "Yes, yes, you certainly should have a bonus, but not as much as tens of thousands, only 10,000 mid-quality pearls."

Xia Xiaochan's eyes lit up. "10,000 each person?"

Bao Jin said awkwardly, "10,000 in total..."

Xia Xiaochan immediately lost interest. "That's too little. Not even enough for me to buy a suit of clothes."

That said, Xia Xiaochan suddenly looked at Han Fei. "You said you would make me new clothes!" Han Fei blinked. Do you still remember this? I had almost forgotten!

Luo Xiaobai looked at the tattered clothes on her body and frowned. "We should make new clothes."

When Luo Xiaobai saw the cheongsam Han Fei painted, she liked it very much. If Han Fei could make her nicer clothes, she would be very happy.

Han Fei said impatiently, "Let's talk about it when we go back. Let's go eat hot pot first?"

Xia Xiaochan whined, "I want new clothes."

Han Fei said impatiently, "Go to the hot pot restaurants to get your salary first. Don't forget that you guys have a ten percent share in the restaurants!"

With that, they walked forward. Only Zhang Xuanyu came to Bao Jin, took the medal, and stuffed it into his pocket, saying, "Don't forget the bonus! Send it to the Fourth Academy!"

Bao Jin looked at these little guys and slapped his own mouth in regret. Come on, they don't lack money at all! Why did they ask me for a bonus? Is it that easy for us to make money?

## **Chapter 174 A Friend of Girls**

The Thug Academy had risen again, and countless people had gone to the school to ask if their children could enter it. Unfortunately, Xiao Zhan told them only geniuses who were already great fishing masters and had exotic spiritual beasts would be admitted.

...

At this moment, Han Fei was somewhat desperate. He thought the source of happiness for Xia Xiaochan and the others was money, so he led them to go to The Fish Dragons to get money.

Each of them got more than eight thousand mid-quality pearls and they all clamored to do shopping in the Linglong Tower.

Han Fei did not want to do shopping in the Linglong Tower. It was too expensive, but the other four insisted! Seeing Xia Xiaochan was going to buy clothes there, Han Fei immediately said, "Buy cloth. Just buy cloth."

Xia Xiaochan tilted her head. "Han Fei, can you really make clothes?"

Han Fei nodded helplessly. "Yes, the clothes I make will definitely be better than what you buy, and it saves money."

Xia Xiaochan's eyes lit up. "Really?"

Before Han Fei answered, Xia Xiaochan said to the shop assistant, "Bring all your good fabrics up."

The person who received them was still that beautiful woman, Yuling. She looked at them and said, "Congratulations on your 100-game winning streak. Today you can enjoy a 10% discount in the Linglong Tower."

Xia Xiaochan stated, "We want cloth."

Yuling waved her hand, and someone left. Yuling said, "Little Brother Han Fei, can you sell us your design? I can pay you 200,000 mid-quality pearls."

"Wow!"

Zhang Xuanyu dropped the medal in his hand in shock.

Le Renkuang stumbled and quickly supported Zhang Xuanyu.

The two girls were dumbfounded. 200,000 mid-quality pearls? If Old Bai was here, he would definitely force Han Fei to sell!

Han Fei turned his eyes. "Do you want us to be your image spokespersons? Don't even think about it."

Yuling looked confused. "Image spokesperson? This word is novel."

"I'm not going to sell my design. I don't want everyone to wear the same clothes as us all over the streets. Then, how can we highlight our unique temperament?"

Yuling: "???"

Xia Xiaochan immediately echoed. "Yes, only we can wear these clothes."

Le Renkuang added, "Yes, we don't lack money."

Yuling sighed slightly. These beautiful clothes would only be wasted on these little brats. And she was really surprised at the recently rising Fish Dragons. This gang who came from the village had a lot of money and used 200,000 mid-quality pearls in one shot, knocking open the market of the Blue Sea Town.

In one month, Fish Dragon Hot Pot Restaurants and Fish Dragon Cards were widely known throughout the Blue Sea Town and they earned a lot of money. It was said that they earned at least 400,000 mid-quality pearls in a month. Their ability to make money was shocking.

Yuling smiled. "Then if you want to find a business partner in the future, you're always welcomed in the Linglong Tower. We'd love to cooperate with you in a million-pearl business."

Xia Xiaochan and the others widened their eyes. A million-pearl business? This number was big!

Zhang Xuanyu swallowed. Is the garment industry so profitable? Is it too late to change my career?

Han Fei waved his hand. "No, our businesses are too small and can't afford big moves. By the way, does the Linglong Tower have any magic weapons to sell?"

Yuling's eyes lit up. "Of course, magic weapons are on the fifth floor. Would you like to have a look?"

Zhang Xuanyu nodded. "Yes, I haven't seen any magic weapon yet."

Le Renkuang agreed. "Yes, how much are they?"

Yuling informed, "Generally speaking, the prices range from 50,000 to 100,000. An ultra-quality magic weapon may cost up to 200,000 mid-quality pearls."

Hearing this, they all gasped. Were they going or not? They couldn't afford it! Even if they sold the whole Fish Dragons' businesses, they could only afford a few.

Luo Xiaobai looked confused. "I remember the spiritual weapon only cost me 100,000 mid-quality pearls last time."

"The last time was an exchange. I offered an exceptionally low price to Mr. Han Fei because I wanted to cooperate with him. Normally, a spiritual weapon will cost 200,000 mid-quality pearls at least and millions of pearls sometimes."

Han Fei smiled. It was really profitable! He felt that he could open a Fish Dragon blacksmith shop in the future, specializing in selling spiritual weapons, and then he would make a fortune.

On the fifth floor of the Linglong Tower.

Everyone was almost drooling at the glittering weapons. Han Fei also fancied a bow, but when he found the price was 720,000 mid-quality pearls, he gave up immediately. This was f\*cking too expensive! He couldn't afford it.

Yuling let them look for a few minutes before asking, "Are there any goods you'd like to buy?"

Everyone looked at Han Fei and he asked casually, "What are these made of?"

Yuling pointed to the bow in front of Han Fei. "This is forged with purple gold. But what matters is not the purple gold but the craftsmanship. In terms of purple gold alone, this bow is only worth less than 300,000 mid-quality pearls."

Han Fei was shocked. The cost of materials was this expensive? Immediately, a chagrined expression appeared on his face. When he was in one of the gates of the Hexagon Starfish, he seemed to have seen this kind of material. At that time, he thought it was a purple gem. It turns out it was purple gold.

Han Fei's face paled. "I can't afford it. Gotta go... Xia Xiaochan, have you chosen your fabrics?"

Xia Xiaochan had given up as soon as she saw the prices. She said casually, "Aren't you choosing the fabrics? By the way, I want a red set, a white set, and a green set of clothes..."

Han Fei frowned. "Why don't you just say you want all the colors?"

Xia Xiaochan blinked at Han Fei and asked sweetly, "May I?"

Han Fei covered his head. "You wish!"

Luo Xiaobai said, "I want a white set of clothes, at most with a few other colors."

Le Renkuang said happily, "I want..."

Han Fei quickly interrupted him, "No, you don't want!"

Le Renkuang: "???"

...

One day later, Han Fei ran out of the shut cave, holding a pile of clothes.

Han Fei was a little bit tired. Do I suddenly have two daughters or two lovers? So I have to buy them beautiful clothes, beautiful headbands, beautiful hairpins, and beautiful jewelry? However, these things were easy to make. There were all kinds of gems here and black iron was not expensive, but purple gold was very expensive. Han Fei only bought a piece of purple gold of half the size of a fist, which cost him 30,000 mid-quality pearls.

In order not to be disturbed by Xia Xiaochan who always liked making sneak attacks, Han Fei specially sealed the cave.

Of course, he was not just making clothes. He just threw the materials into the Demon Purification Pot, depicted the clothes he wanted, and then the clothes were made, which wouldn't take him long.

His purpose was certainly to refine magic weapons. Han Fei guessed that the second brocade sachet was much harder to get than the first one, so he needed to change his weapons. He used the purple jade and the Bone of Purple Gold Arowana he got from the Hexagon Starfish but only got two mid-quality magic swords. Then he used the remaining materials to refine five palm-long magic knives in preparation for the Million Knife Art.

On the school grounds.

As soon as Han Fei arrived under the treehouse, Xia Xiaochan appeared with a swoosh.

Xia Xiaochan stared at the clothes in Han Fei's hands. "They look nice. So colorful."

"Three sets for you and three sets for Xiaobai..."

Le Renkuang wailed, "Han Fei, you are too much. Didn't you do one set for me? I am your brother!"

Zhang Xuanyu shouted too, "Feifei, I'm no longer your brother! That's it!"

Han Fei shouted angrily, "All of you, get your asses down here! You guys are not little girls. Only one set for each of you."

Zhang Xuanyu jumped down the tree. "Only one set? That's too little. Feifei, we should open a shop to sell clothes. Or, change a new set after each fight."

Han Fei sneered. "I'm afraid you just want new clothes to wear, right? If you can find the best materials, I'll make you a magic set of clothes. If you can't, get off my back." Le Renkuang didn't mind it. As a fatty, he didn't have very high requirements for clothing.

A moment later, Le Renkuang jumped out of his treehouse cheerfully. "Good, good! This is just right. It sets off my perfect figure perfectly. I love it!"

Zhang Xuanyu also came down from his treehouse. He looked very handsome and graceful in the clothes and Han Fei also made him a fan. He smartly opened the fan with a swish and looked really charming.

Then Luo Xiaobai came out. She was wearing a pure-white long gown with a pink girdling and neckline and was like a little fairy, and Zhang Xuanyu almost drooled over her.

Luo Xiaobai blushed. Although she was as cold as an iceberg, she was still a girl. Girls liked beautiful clothes, and Luo Xiaobai was no exception. She seemed to like her clothes very much.

At this moment, Xia Xiaochan shouted, "Han Fei, come in. I don't know how to wear these clothes."

Everyone: "???"

Le Renkuang muttered, "Wow, what did I just hear?!"

### **Chapter 175 The Second Brocade Satchel**

Everyone looked at Han Fei with strange eyes and then at Xia Xiaochan's treehouse, swallowing saliva from time to time.

Luo Xiaobai frowned slightly. "Are they in love? Isn't it too early?!"

Suddenly, he saw Xia Xiaochan pop out, wearing a white and red traditional-style costume. Her upper body was dressed in white with red flower patterns on the cuffs, collar, and buttons, and her lower body was wearing a small red mini-skirt, revealing her slender white legs.

Zhang Xuanyu gasped. "Wow..."

Staring at Xia Xiaochan, Zhang Xuanyu patted Han Fei's arm. "Feifei, let's open a clothing store! We can definitely be better than the Linglong Tower. We can sell the clothes for 5000 mid-quality pearls each..."

Han Fei scoffed. "Get lost."

Zhang Xuanyu clicked his tongue. "Xia Xiaochan, why is your hair down loose? What is that thing on your head?"

Han Fei was helpless. This is a crested hairpin with pearl embellishments, purple gold, and gems by me! How could she just put it straight on the top of her head?! Don't you have an eye for beauty?

Xia Xiaochan hummed. "I don't know how to wear it. Do I need to explain it to you? Han Fei, come and help me fix my hair."

Everyone's eyes became strange again.

Zhang Xuanyu muttered, "This must not be the first time."

Le Renkuang nodded. "Definitely not."

Luo Xiaobai: "..."

Zhang Xuanyu rubbed his hands. "Xiaobai, do you need me to help you fix your hair?"

He Xiaoyu shot him with a cold glare. "Get lost."

Han Fei climbed into Xia Xiaochan's treehouse, asking, "Don't you usually fix your hair well?"

"No, I don't know how to deal with this stuff..."

Xia Xiaochan fiddled with the crested hairpin, holding a bunch of red tassels in her hand.

Han Fei sighed. "This is not for this suit. Look what I do. I will only teach you once."

After a while, Han Fei made Xia Xiaochan's long hair braided on both sides.

"Have you got it?"

Xia Xiaochan blinked. "... Yes!"

"Okay, Now I'll undo your braids. Hang the red tassels above your left ear and tie the two pompoms on the end of your braids. You see, this is how you make braids."

Han Fei continued, "OK, finished. Have you got it?"

Xia Xiaochan was stunned. "Ahh... Yes!"

Then Xia Xiaochan grabbed her earlobes and said, "I haven't pierced my ears."

Han Fei said with a smile, "Then pierce them."

Xia Xiaochan shook her head. "No, that will hurt. I can't do it."

Han Fei was helpless. "You will hurt too even if I do it for you!"

After a moment.

Xia Xiaochan's treehouse.

Xia Xiaochan cried, "Puch... Han Hanfei, you're hurting me. I'm gonna kill you."

“Don’t move. This is your first time, and of course, you’ll bleed, but not again.”

Xia Xiaochan whined, “Can’t you be gentle?”

“I’m already being very gentle. If I do it more gently, I won’t be able to get it in.”

Under the tree.

The three of them widened their eyes and looked up, blinking.

Zhang Xuanyu swallowed. “Should we leave them alone?”

Le Renkuang looked confused. “I don’t quite get it. What are they talking about?”

Luo Xiaobai also looked perplexed. “Why is she bleeding just fixing her hair?”

Zhang Xuanyu was speechless. These two idiots! They simply know nothing!

After a moment.

Han Fei ran out and complained, “I’ll never ever pierce ears for girls in the future. They just keep nagging, nagging...”

“Pu...”

Zhang Xuanyu was shocked. Just ear piercings?! Then why did you... Speak that way?!

Within half a minute, Xia Xiaochan jumped out of the treehouse and everyone widened their eyes. She had two braids, on the end of which hung two fluffy pompoms. There was a strand of red tassels next to her left ear which went well with her red earrings. She was wearing a white top with wide sleeves and a red fringed pleated skirt. What a pretty little girl! When she jumped down, jingling sounds were heard from her wrist and head.

Zhang Xuanyu glanced at Luo Xiaobai. “Hey! Han Fei, why do you treat the two girls so differently?”

Luo Xiaobai didn’t hear what Zhang Xuanyu said and stepped forward curiously. “Xiaochan, what are you wearing on your hand?”

Xia Xiaochan grinned. “A bracelet, a little bell bracelet.”

“Were the red earrings also made by Han Fei?”

“Yes! Didn’t he make some for you? Huh? Xiaobai, your white clothes look really beautiful!”

But Luo Xiaobai turned to Han Fei and extended her hand. “A small bell bracelet please.”

Han Fei: “???”

Han Fei was helpless. “You two have different temperaments. That bracelet doesn’t suit you. It doesn’t go with your cold, aloof temperament... Don’t point your finger at me. Do you want an anklet?”

“Anklet?”

Han Fei took out a delicate anklet. This was prepared for Xia Xiaochan, but since Xia Xiaochan was an ADHD patient, she would probably break the anklet in minutes.

But this wouldn't happen to Luo Xiaobai, so he fastened the anklet to one of her feet. As soon as she walked, the anklet jingled.

Xia Xiaochan was now pouting too. "Where is mine?"

"You don't need it. You'd break it in a minute!"

Zhang Xuanyu and Le Renkuang exchanged a sad glance with each other. Can't we have bells?

In order to go with these guys, Han Fei also put on a traditional-style set of clothes. When the five of them stood together in their new clothes, they were sure to turn heads.

Thud...

Three figures appeared in the sky and landed.

Xiao Zhan held a brocade sachet in his hand but stared at the five of them, stunned.

Wenren Yu rushed forward. "Where did you buy these clothes, Xiaochan and Xiaobai? How much are they? Which famous designer made them?"

Luo Xiaobai said flatly, "Han Fei made them."

Xia Xiaochan asked, "Ms. Wenren, what do you think of my clothes?"

Xia Xiaochan jingled the bracelet she just got in front of Wenren Yu.

Wenren Yu pushed her hand aside and walked straight to Han Fei. "Can you make clothes? And jewelry?"

Han Fei had a bad hunch as he responded nervously, "Haha, a little, just a little."

Wenren Yu raised her eyebrows. "What kind of clothes do you think suit me? Do you think black suits me? But it can't be pure black, it's too serious. How about mixing some red?..."

"Cough, cough... Ms. Wenren, what are you doing?" Old Bai cut her off. Wenren Yu finally remembered why she came here. She gave Han Fei a deep look before standing back.

Xiao Zhan smiled. He had never seen such maverick students before. Interesting.

Xiao Zhan gave them a proud look. "Given that you have accomplished a one-hundred game winning streak in the Blue Sea Arena, now you are eligible to get the second brocade sachet. However, you still have many shortcomings. For example, Xia Xiaochan, in the last game, since you've summoned your Giant Arowana, why did you still have to fight the other side in the close quarters? As a result, you got poisoned and almost fell down the stage. Isn't that disgraceful? And you, Zhang Xuanyu, you even tied with a spirit gatherer. I really feel ashamed for you..."

Zhang Xuanyu shot back, "He was also a soul warrior! And, he is an advanced fishing master, okay?"

Xiao Zhan scoffed. "How dare you talk back? Why don't you ask yourself why you are so weak?"

Xiao Zhan turned back to them all. "This time, your performance can only be considered average! Only one of the top ten students from the three academies came. What if the other team was all made up of

the top students? Then what would your chance of winning be? It'll be 50% at most. How can you sweep the 36 towns with such strength? Blah, blah..."

Xiao Zhan kept on saying that he was tired, so he looked at Old Bai and asked, "Say something to them?"

Old Bai nodded and said, "Since you won, you won. It's not f\*cking worth mentioning! Now I will ask you a few questions."

### **Chapter 176 Realm • Weapon • Combat Skill**

Old Bai raised a finger and took two steps forward. "The first question, have you ever studied your spiritual beasts carefully?"

Han Fei and the others were all surprised. What kind of problem is this? Of course, we've studied them!

Old White man sneered. "What you did cannot be considered studying. For example, Xia Xiaochan didn't know what her Giant Arowana was capable of, and Le Renkuang doesn't know how to make use of his spiritual beast, Spiritual Clam. How can you be called geniuses if you can't even master your spiritual beasts?"

Without giving them the opportunity to refute, Old Bai continued, "As you're getting increasingly stronger, the demonic fish in the sea will also become smarter and smarter. Guess whether or not you can still catch fish then? If it's getting more and more difficult to fish, what kind of path will fishers take?"

Hearing his words, everyone pondered. None of them had considered this issue before. In their opinion, fish are so silly. Just fish for them with bait!

Luo Xiaobai questioned, "In addition to fishing, is there any other way?"

"Hoho! You are fishing with your hands, and most of what you catch is only ordinary demonic fish. But some people don't need bait. They can easily get to the purple gold mine a hundred miles away merely by casually waving their fishing hooks! How do you think they manage to do it?"

Han Fei and the others were shocked. Can a mine be fished?! How? It's not even a living creature.

Old Bai added, "I said this just to make you think about it..."

Old Bai continued, "The third question, have you ever wondered, which is counted as the starting point of cultivation for a great fishing master or Dangling Fisher?"

Zhang Xuanyu questioned, "Isn't a fishing master the starting point of cultivation?"

Le Renkuang added, "Yes! A fishing master can practice combat skills, higher techniques, and even secret skills!"

Old Bai stroked his long beard and sneered, "A fishing master is nothing. Ms. Wenren, explain it to them."

Wenren Yu stood up and smiled. "Do you know why you didn't even know other realms above great fishing masters and Dangling Fisher before? Maybe you have heard of Hanging Fisher, Hidden Fisher, or something like that. But it was just hearsay. That's because your knowledge determines your vision."

Wenren Yu's face suddenly turned serious. "Fishermen and fishing masters are at the bottom of this world. In their lives, they don't need to know anything but living and fishing. Above fishing masters, there are great fishing masters, Dangling Fisher, Hanging Fisher, Hidden Fisher, Law Enforcer. and Explorers, etc., above which, there are also Venerable-level masters."

"Why are they graded this way?" Luo Xiaobai asked.

"Great fishing masters are only a transitional stage, and cannot be counted as a real cultivator. Only when you become a Dangling Fisher can you really embark on the path of cultivation. And fishers won't just catch demonic fishes. By the time you're strong enough, you will know this naturally. As for Dangling Fishers, as the name indicates, some of them can stand in mid-air, for example, the angels who once visited your village. They have wings on their backs, and some of them are Hanging Fishers and some are Hidden Fishers..."

After hearing what Wenren Yu had said, Han Fei concluded:

Fishing masters and great fishing masters, they are at the bottom of the cultivation world and mainly responsible for teaching ordinary students and fishermen in the villages.

A Dangling Fisher, they've just discovered the true meaning of fishing.

A Hanging Fisher, they already have the ability to fly in the air and dive under the ocean, but not strong enough to transcend fishing itself.

A Hidden Fisher, they have mastered superhuman skills. As the main force to explore the known sea area, they are able to explore the remains, dig up treasures, and look for mysterious resources from the ocean.

A Law Enforcer, they are very strong and usually serve as leaders. Wenren Yu didn't tell them exactly what kinds of leaders they served as, nor did anyone know.

An Explorer, they are the most mysterious. The known sea can no longer satisfy them. They will explore the unknown ocean, where it is full of adventures and dangers. Everything in the unknown sea is mysterious. Only when you become an Explorer will you be eligible to move on.

As for the Venerable-level masters, Wenren Yu didn't say much about them. Obviously, they were a bit too far away from her.

So, after hearing what she said, what they were thinking of was not those unreachable realms, but instead she asked, "What kind of a cultivation path is fishing?"

A kit was thrown to them. They opened it and found three messages.

First, explore how to make use of spiritual beasts in actual combat.

Second, understand the true meaning of fishing.

And then they were stunned to find that the third message was empty.

But Wenren Yu pointed to the kit in the hands of Xiao Zhan. "You'll know the answer when you get the sixth kit. If you can't get it, then just graduate from school! There is no need for you to know so much.

Even if you get to know it, it won't do you any good but make you expendable among fishing cultivators."

At this moment, everyone was a bit excited. Nobody told them about these things before. Even their village leaders didn't know this. Whom else could they ask?

Now learning the secrets about different realms, they were very excited. In their eyes, every realm that Old Bai mentioned could not be easily achieved. Only after becoming a Dangling Fisher could they know the first secret of this world, which was only the first one.

Han Fei suddenly asked, "Teacher, can you tell us about weapons? I heard that there are magic weapons and spiritual weapons in the Linglong Tower, but why don't I see anyone using them?"

Wenren Yu sneered, "Can you afford them?"

Han Fei muttered, "Well, I can only afford a few."

"Wow..."

Both Wenren Yu and Xiao Zhan turned green. What?

Wenren Yu asked again, "Do you know that a high-quality spiritual weapon will cost millions of mid-quality pearls? Can you afford that?"

"At least we should know about them if we meet them in the future!" Han Fei shot back.

Wenren Yu shook her head helplessly. "The magic weapons are much stronger than ordinary ones. High-quality and ultra-quality magic weapons are very powerful. For example, a great fishing master with the same level as you may break your defense if he uses a magic weapon. If he is an advanced or peak-level great fishing master, he should be barely able to pierce your body if he uses a magic weapon."

"Gosh..."

Everyone gasped. Pierced Han Fei's body? Seriously?

Xia Xiaochan's eyes suddenly lit up. "How can I get a magic weapon? Han Fei, lend me some money. I want to buy two magic daggers."

Han Fei rolled his eyes. You wish! Then you can stab me with them, right? Don't even think about it.

"No money."

"Humph!"

Han Fei asked further, "What about Spiritual weapons?"

Wenren Yu looked at Han Fei up and down. "Spiritual weapons can easily pierce your body. Moreover, they have awareness. They will recognize a master. The master can sense his own spiritual weapon thousands of miles away, unless the connection between the spiritual weapon and its master is cut off, for example, when the spiritual weapon is put in a small space such as Sea Swallowing Seashell."

"What about above spiritual weapons?"

Wenren Yu said impatiently, "Are you through? Above spiritual weapons are legendary or treasure weapons. There are few people who have seen them."

Han Fei smiled and scratched his already deflated belly. I've got three magic weapons in my hand! But that's not enough. I have to find a way to get a spiritual weapon as my ace in the hole.

Wenren Yu continued, "Usually, if you are still fishers, you won't be able to get any combat skills or weapons. When you become fishing masters, generally you'll only get some low-level combat skills. And when you become great fishing masters, as you see, there are countless combat skills in our academy. The highest-level one is even heaven-level, which is beyond the reach of the other three academies."

Wenren Yu's face turned serious. "And, what I must tell you is to not rely too much on combat skills. Combat skills are just a means of combat. When you are fighting, the situation changes rapidly, and sometimes low-level combat skills may even be more effective than the heaven-level ones." Everyone was shocked. But who doesn't want higher-level combat skills?!

Luo Xiaobai muttered, "Mortal-level, mystic-level, spirit-level, demon-level, heaven-level... And even higher?"

"Higher? It's okay to tell you. Maybe you will have some special chances in the future. Above the heaven-level, it is the venerable-level, but those are very rare. Even in the city, ordinary heavenly-talents can only get heaven-level combat skills and very few of them can get venerable-level combat skills. Normally, there won't be anyone who owns a venerable-level combat skill even in an entire city."

Han Fei swallowed. Are venerable-level combat skills so few? Han Fei suddenly realized that Indestructible Body is at the venerable-level! Just deducing it requires 100 million points of spiritual energy. Then what will I get after I deduce it?

Han Fei asked, "Teacher, is there any difference in quality at each level?"

Wenren Yu nodded. "Sure, there are low-quality, mid-quality, high-quality, as well as ultra-quality."

Han Fei asked hastily, "Is ultra-quality the highest quality?"

Wenren Yu was about to nod when Old Bai said, "No, it's said that there is still divine quality above it, but at least we haven't seen any combat skills of that quality. Theoretically, no one in the city has seen this. Even if there are some people who have, there are only very few of them."

## **Chapter 177 Abduct A Girl**

Han Fei was very excited. Until today, he had a complete understanding of the relationship between realm, combat skills, and weapons. He also understood why his combat power was the strongest, although the others had better spiritual heritage than him. The only reason was that his combat skills were the strongest.

Old Bai said, "We just told you some information about the cultivation world; however, you don't have to think about it too much because many things are still out of your reach. Now let's go back to the three questions. I think now you know what the starting point is. Those below Dangling Fishers are disposable. As for the first and the second questions, you need to study them for yourselves."

Luo Xiaobai asked, "President, but for the second question, if fishers don't fish demonic fish, what do they fish?"

"It's not that they don't fish demonic fish but that they can also fish other things besides demonic fish. In the infinite ocean hides countless treasures. Why do you only catch fish every day but don't hunt treasures?"

Old Bai looked at them speechlessly. I've put it so clearly, why can't you still understand?

Old Bai went away angrily. Wenren Yu gave a strange smile and left too.

Xiao Zhan sighed and looked at them. "I was just like you when I was young, thinking fishing was simply fishing demonic fish. But in fact, it is not. Let me ask you, if somewhere in the sea was full of spiritual energy, what would you do?"

Le Renkuang immediately replied, "There must be something good there! I'd jump down and hunt for treasure!"

Xiao Zhan said crossly, "Shut up."

Luo Xiaobai wondered, "Would I resort to fishing?"

Xiao Zhan smiled. "Yes. When you enter the level-three fishery one day, do you think fishes will take the initiative to come to eat your hooks?"

Han Fei thought of Hexagon Starfish. That bastard was very sly. When he wanted Han Fei to save him, he tried to please him with all kinds of benefits. As soon as he was liberated, however, he ran away with a swish. What a damn fish!

Han Fei guessed, "So we can not only fish demonic fishes, but also treasures, right? Does it mean we can fish anything if we want?"

Xiao Zhan explained, "Only when you have enough strength. Although your combat skills are different, different paths lead to the same destination. For example, you practice True Spirit Fishing, so you must have learned the Water Control Technique. Then you need to fish according to the direction of flowing water and the strength of spiritual energy. You can have a try!"

Everyone was stunned.

Xia Xiaochan begged, "Teacher, can we go to sea?"

"Sure. Do you still want to fight in the arena? But you should have a clear idea of your purpose. It's not for fishing for demonic fish, but for you to study your spiritual beasts and try to figure out the true meaning of fishing."

"Wow!"

"Yeah..."

"We can finally go to sea!"

Xia Xiaochan was overjoyed. "Are we going now?"

Luo Xiaobai's eyes brightened. "No hurry. Let's see if there is anything to prepare."

Zhang Xuanyu added, "Me, me, I need one day."

Han Fei nodded. "Me too."

Le Renkuang said quickly, "Then I want one day too! You all have things to do, but I don't. I've decided to use the day to eat hot pot."

Xia Xiaochan rolled her eyes at Le Renkuang. "It's not like we're not coming back..."

Le Renkuang clicked his tongue. "I just want to eat hot pot."

Xia Xiaochan was helpless. "Glutton!"

That night.

Le Renkuang went to the hot pot restaurant.

Xia Xiaochan and Luo Xiaobai went shopping.

Han Fei locked himself in the cave and no one knew what he was doing.

Zhang Xuanyu disappeared with thousands of mid-quality pearls. No one knew where he was going.

...

He Xiaoyu and Wang Baiyu were studying at the First Academy, the Blue Sea Academy.

At this moment, He Xiaoyu was practicing hard with Wang Baiyu as her sparring partner. She had decided to become a hunter.

Clang! Clang! Clang!

Wang Baiyu asked, "He Xiaoyu, why didn't you just choose to become a soul warrior? According to your talent, you're suitable for becoming a soul warrior."

"No, I just want to be a hunter."

He Xiaoyu's attacks were all blocked by Wang Baiyu. However, Wang Baiyu was surprised. His talent was superior to hers, but why were He Xiaoyu's attacks so powerful? It was completely beyond the power a girl should have.

Just when He Xiaoyu was sweating all over, a girl hurried over. "Xiaoyu, Xiaoyu, Han Fei from the Fourth Academy came to you. It seems that he is having a conflict with the people in our school."

He Xiaoyu's eyes lit up. "Ah?"

She jumped up and ran off while muttering, "I'll take a shower."

"Why? Is it the first time you've seen him?"

He Xiaoyu snorted. "It's none of your business."

...

At the gate of the First Academy.

A group of people surrounded Han Fei.

Someone shouted angrily, "Han Fei, what do you want? Are you coming to provoke us?"

"You're not that important. I came to see someone."

The man was angry. "Bullshit! Last night, Zhang Xuanyu came and carried Hu Keren off with him. Now you've come too. Who are you going to abduct?"

Han Fei: "???"

Han Fei was dumbfounded. What? Zhang Xuanyu had been here? And abducted a girl?

Han Fei thought about it and patted his thigh in chagrin. Damn it, Zhang Xuanyu did come to see that girl? That bastard!

Han Fei pretended to be calm. "I'm not like him. I won't abduct anyone. I'm here to see He Xiaoyu."

Dozens of people were angry at his remark. So he came to abduct He Xiaoyu! Wasn't He Xiaoyu a girl in our school? And she was a pretty girl.

Even girls were pissed off. "You're such a jerk! You're in love with Xia Xiaochan. How can you still hook up with another girl?"

Han Fei was helpless. "What? He Xiaoyu was my classmate when I was in the Heavenly Water Village. Can't I see her?"

The girl responded, "No, now our whole school boycotts the Fourth Academy."

A girl echoed, "Yes, we're boycotting the thugs."

A boy sneered, "Yes, we won't give you the opportunity to two-time He Xiaoyu."

Han Fei shot back, "My ass! If you don't stop slandering me, I will hit you!"

The boy immediately grasped the long broadsword at his waist. "As I expected, you harbor evil thoughts. I knew you just came here to make trouble."

Han Fei rolled his eyes. "Get lost. Now I know why the First Academy is so weak. Look at you. All you guys know is to boycott this and boycott that."

"How dare you! That's enough..."

A group of people rushed up, but no one dared to fight him. They had watched the Thug Legend fighting in the arena. Han Fei was very strong and almost slapped Su Yebai to death. They were certainly not his matches, so they only dared scold him!

"Get out of the way. What are you doing?"

He Xiaoyu came out of the crowd angrily.

A girl said, "He Xiaoyu, the Fourth Academy are our enemies. Don't be a traitor."

A girl tugged at He Xiaoyu's arm. "Yes, he wants to two-time you. Hu Keren was tricked out by Zhang Xuanyu last night and didn't return overnight. And today, Han Fei came to abduct you."

He Xiaoyu scoffed. "Come on! What are you talking about? Han Fei is my good friend and classmate."

He Xiaoyu broke free from the girl's hand and ran to Han Fei. "What's up? Why did you suddenly come to see me?"

"Let's go. Come with me."

Behind him, the boys and girls of the First Academy thumped their feet in anger. He Xiaoyu could not stand the temptation! They could only watch Han Fei abduct He Xiaoyu.

A girl suggested, "They came to our school to abduct people, and we can do it too! Which boy is willing to do it?"

The boys immediately fell into a heated discussion.

"Hey! I think my strength has improved recently. Let's have a fight and test our strength?"

"Huh? You do? I feel it too. Let's have a fight."

"Well, I feel I'm making progress in stick technique. When I make some more progress, I will try to enter the Fourth Academy."

They talked and walked away, leaving the girls staring at one another stunned.

When those boys walked away, they muttered, "Abduct the violent Xia Xiaochan and the iceberg Luo Xiaobai? Are they out of their minds?"

After a moment.

A place where nobody was.

He Xiaoyu asked shyly, "Han Fei, what's up?"

Han Fei looked serious. He had a hunch that this trip was by no means simple, neither was finding the path of truth.

"He Xiaoyu, can you do me some favors?"

Looking at Han Fei's solemn expression, He Xiaoyu couldn't help but be a bit panicked. "Is something wrong?"

Han Fei shook his head and did not intend to tell her. "It's okay. I just came to ask you to do me some favors."

He Xiaoyu: "???"

"The first is to teach the Incomplete Monograph on 108 Ways of Body to Wang Baiyu, Xia Wushuang, and the others."

"Huh?"

Han Fei said with a smile, "It's just a common combat skill. Just teach it to them. The second is, if you go back to the village soon, please go to the plantation and help Old Jiang clean it up. I may not go back for a while."

He Xiaoyu asked in worry, "Han Fei, is something wrong?"

Han Fei shook his head. "No, but I'm going to attend secret training and won't have time to go back."

In the end, Han Fei hesitated but still handed over a jade slip to He Xiaoyu, saying solemnly, "If one day, being a great fishing master is no longer your life goal and you want to become stronger, you can take a look at this jade slip."

He Xiaoyu took it in surprise and wanted to check it immediately, but the jade slip didn't respond at all.

"You can't open it now. When you become a great fishing master, you'll be able to open it... OK, I'm leaving..."

### **Chapter 178 Set Off for the Level-Two Fishery**

At the port.

Han Fei and the others boarded their respective fishing boats and waved goodbye to Xiao Zhan.

After they flew away, Old Bai and Wenren Yu popped out of the crowd.

Wenren Yu complained, "Why am I going?"

Old Bai chuckled. "Because you lost the finger-guessing game."

Wenren Yu sighed. "These daredevil kids are certainly going to those places."

Old Bai stroked his beard. "Go then! Those places can't kill them."

The five fishing boats were floating in the sky.

Xia Xiaochan pointed to Han Fei. "Why is your fishing boat so beautiful? Why are ours so ugly?"

Han Fei said smugly, "Someone gave it to me."

"Humph! Han Fei, let's swap fishing boats!"

Han Fei rolled his eyes. "Nice try. Didn't you hear what the teachers said? We're going to the level-two fishery, but we won't stay together. We will meet after three days to exchange our experiences."

Xia Xiaochan held the map with one hand. "But why are we going to the level-two fishery? Experience the true meaning of fishing?"

Luo Little White was eager for the adventure. "When we arrive, let's study our spiritual beasts first. We really haven't studied them in depth."

Le Ren looked at Han Fei with a fawning smile. "Han Fei, can you give me some barbecue from your Sea Swallowing Seashell."

"Eat, eat, all you know is how to eat..."

Le Renkuang responded with a grin, "Otherwise, how lonely a person will be on the sea!"

Everyone was chatting happily except for Zhang Xuanyu who was absent-minded and a little excited.

Han Fei's eyes narrowed. "Zhang Xuanyu, confess, where were you last night?"

Zhang Xuanyu said calmly, "I just did what a man had to do."

Xia Xiaochan wondered, "What is that?"

Han Fei scoffed. "Uh! Forget it. Xia Xiaochan, you've gotta study your Giant Arowana carefully. It often launches indiscriminate attacks."

Xia Xiaochan sighed. "I can't control it! It doesn't listen to me."

Everyone: "..."

Luo Little White frowned. "Then figure out why it doesn't listen to you."

The Blue Sea Town was a bit far from the level-two fishery. Unlike the level-three fishery where there was a teleportation channel, they could only fly to the second-class fishery. After about four hours, they arrived at the level-two fishery.

The level-two fishery was much larger than the level-one fishery. It was circular and encircled both ordinary fisheries and the level-one fishery.

It was so vast that no one could be seen on the sea.

Great fishing masters could be seen in the Blue Sea Arena every day, but when you walked on the streets of the Blue Sea Town, it was not easy to see a great fishing master. The level-two fishery was so much more vast, so the probability for great fishing masters to encounter each other was not high.

The fishing boat had just landed on the water and Luo Little White pointed at the map and said, "Everyone should be clear of where we are now, right? Three days later, let's meet here... Take care."

Xia Xiaochan cheerfully said, "I'm leaving..."

Le Renkuang muttered, "It's so troublesome to run around! Anyway, our jobs are just researching our spiritual beasts. I'll just stay here, waiting for you to return three days later... Han Fei, my barbecue."

Han Fei helplessly took out a handful of barbecue and handed it over. "Eat, eat. Don't sleep for three days at sea."

Luo Little White stated, "I'm heading north."

Zhang Xuanyu asked, "Why not go into the water? Ocean! Treasure! Good things are all underwater."

Han Fei immediately looked at Zhang Xuanyu. When did he become so smart! I can't agree more!

"Cough, Yuyu, we should have done some research at least three days ago before going to the sea. Otherwise, we'll be in danger!"

Zhang Xuanyu nodded. "You're right. Then when are we going into the sea?"

Han Fei said casually, "In a few days."

Luo Little White frowned. "Complete the task the teachers assigned us first. We shall exchange our experiences three days later."

Han Fei shrugged. "Okay, okay! Then I'm going south."

In the blink of an eye, the crowd scattered and only Le Renkuang stayed in place.

After going about fifty miles, Han Fei stopped. With a flash between his brows, Little Black and Little White ran out.

"Huh! Level 17? When did you upgrade? Why didn't I know?"

While Han Fei was stunned, the two little fish plunged into the water.

"Come back."

Han Fei snorted. They were just away from water for two or three months. Why are they so excited?

Little White flew back to Han Fei obediently. But Little Black just ignored his words. Just when Han Fei was about to take them back, the waves surged and Little Black came back holding a big fish nearly two meters long in his mouth.

<Name> Strip Fish

<Introduction> A common fish in level-two fisheries. Its dorsal fin is like a sword and has extremely fast speed and a great leaping ability.

<Level> Level 24

<Quality> Regular

<Contained Spiritual Energy> 187 Points

<Effect> It can increase one's health if it's eaten over a long period of time.

<Collectable> Common Fin Sword

<Absorbable>

Han Fei looked at Little Black helplessly. Did I ask you to catch fish? As soon as you entered the sea, you caught a fish. You are only level-17.

Little Black put the Strip Fish in front of Han Fei as if waiting for his praise. Han Fei looked at the fish whose back was almost bitten through and kicked it casually onto the deck.

Han Fei wasn't in a hurry. He had enough time anyway.

"Little Black, show me your abilities except for invisibility and biting."

Little Black circled around Han Fei, blinked and suddenly opened his mouth wide, which startled Han Fei, because his cherry-sized little mouth suddenly became bigger than his palm.

Han Fei widened his eyes. Damn... What the teachers said was true. This little thing still had many secrets. How did he open his mouth this big?

Fortunately, Wenren Yu didn't see this scene. Otherwise, she would be scared to death. Although spiritual beasts could engage with their masters' minds, in many cases, they didn't know their own abilities. They just used their abilities by instinct. Thus, their masters should have a clear idea of their abilities.

But Han Fei directly asked his spiritual beast to show him their new abilities!

Han Fei swallowed. "What else? Besides the big mouth, do you have any other ability?"

Little Black circled twice in confusion and suddenly opened his mouth again. This time, his mouth was as big as a washbasin.

Han Fei was startled again and immediately scolded angrily, "Do you have any other advantage besides having a big mouth? For example, can you dig for treasures, find treasures, or catch exotic demonic fishes?"

Little Black got more puzzled. He felt that maybe his mouth was not big enough, so the next moment, his body suddenly became at least three times larger and his mouth became so big that it could swallow a whole person.

"Shoot..."

Han Fei sat on the deck in shock. You should be called Big Black instead of Little Black! But he was also surprised. Can Little Black get bigger?

Han Fei asked, "Little Black, how big can you become?"

This time, Little Black became about five times that of his original size. But even so, he was still less than two meters long.

After trying again for a while, Han Fei found that this guy had no ability except to get bigger or smaller. However, he was really a big eater. The Strip Fish on the deck was swallowed by it wholly, but his body didn't change at all.

Han Fei looked at Little White with a smile, "Little White! What skills do you have? Show me?"

Little White blinked and with a "boing", he fed Han Fei a mouthful of pure spiritual energy.

Han Fei quickly swallowed it and said, "Little White, what else are you capable of?"

However, Little White thought that Han Fei wanted to see him grow larger, so he also became larger just as Little Black, except that Little White refused to open his mouth that big.

Han Fei was helpless. "Change back, change back. You look nicer when you're smaller."

Han Fei took out a piece of low-quality spiritual stone and said with a gentle smile, "Little White! I mean, besides becoming bigger or smaller, what other abilities do you have? For example, looking for treasure, digging for treasure, something like that?" Little White stared at the spiritual stone but Little Black suddenly came up, swallowed it, and chewed it happily.

Han Fei said angrily, "What are you doing? My low-quality spiritual stone! You are such a glutton. You eat even more than Le Renkuang."

But just after Little Black ate the spiritual stone, Little White spat out a string of pure spiritual energy, which seemed to be purer than those in the spiritual stone.

Han Fei raised his eyebrows. He discovered this ability of Little White long ago but he thought Little White wouldn't spit out spiritual energy if Little Black was full. Now it turned out that he could keep spitting out spiritual energy!

However, a moment later, when Little White no longer spat out spiritual energy, Han Fei discovered that a piece of low-quality spiritual stone was supposed to contain nearly 10,000 points of spiritual energy, but when Little White spat it out, only 6,000 points remained.

But Han Fei couldn't absorb these 6,000 points of spiritual energy! His upper limit for spiritual energy was 2,199 points, so the rest was wasted.

The only thing he was happy at was that the spiritual energy that Little White spat out nourished his body better than the effect of his own cultivation.

"Anything else?"

## **Chapter 179 Soul Ocean**

Han Fei knew that Little White had another ability, which was looking for spiritual energy. It had shown this ability when they were in that seabed mine, where Little White took him to find the spiritual stone.

Little White jumped into the water, and Little Black followed him. Then, Little White took Han Fei to swim in one direction.

Is Little White leading me to a treasure or spiritual energy? Han Fei wondered.

After about half an hour, Little White stopped, spinning around on the spot.

Han Fei immediately took out his fishing rod. Although Old Bai didn't allow them to bring fishing bait this time, after injecting spiritual energy into the fishing rod, Han Fei could feel a small area under the water through the fishing rod. This was an exclusive ability of Void Fishing Art.

The fishing rod went nearly two hundred meters deep. Suddenly, Han Fei saw a golden squid fly past with a swish that disappeared in the blink of an eye.

"Shoot..."

Han Fei didn't even know what kind of a squid it was, but judging from the speed at which it escaped and its reaction at that instant, it was definitely not an ordinary squid.

"Does Little White have the ability to find rare or even exotic creatures?"

Han Fei stared at Little White with shining eyes. If Little White had this ability, he would be able to catch countless exotic creatures, then fuse them, and turn them into mysterious, legendary creatures, or even stronger creatures!

Han Fei said eagerly, "Little White, can you still find it?"

Han Fei's eyes were shining. Wow, I'm gonna make a fortune. A scene of him leading a large army of legendary creatures popped up in his mind. If it came to reality, he would literally dominate the ocean! When encountering enemies, he just needed to release hundreds of legendary creatures. Who would be able to resist this?!

Little White hesitated for a long time and did not move. Han Fei sensed that Little White couldn't find the squid now.

Han Fei was frustrated! There was a creature that was at least an exotic kind in front of me, but I didn't get the chance to do anything! I really regret that it ran away...

Unable to find the squid, Han Fei just practiced the Water Vein Technique for a while before putting away the fishing rod.

If the first and second levels of the Void Fishing taught people how to fish, then the third level of the Water Vein Technique was to teach people how to turn the fishing hook and fishing line into the pulsation of water.

In this case, the fishing hook could quietly approach fish and then directly capture them. But Han Fei tried it a few times. It seemed that the effect was not very good. Perhaps he hadn't mastered how to use it yet and would only succeed once every ten attempts.

Han Fei was not in the mood to practice it. He repeatedly asked Little White whether he could find the squid again, but the damn squid seemed to have disappeared and couldn't be found again.

Han Fei lay on the deck, facing up to the sky. Doesn't Little White have any other abilities?

As he thought this, his mind turned a bit chaotic. He should have gone to dig up seabed treasure with Zhang Xuanyu.

Gradually, a wave of drowsiness came over him and he fell asleep on the deck.

Suddenly, Han Fei shivered and suddenly opened his eyes.

As soon as he opened his eyes, he was startled. The world in front of his eyes was grotesque and gaudy. He saw a lot of strange planktons and many super-large fish swimming past him.

"What happened?"

Han Fei wanted to shout, only to spit out a string of bubbles.

Han Fei: "???"

Han Fei wanted to turn his head, but he couldn't feel his legs. And a tail?! I even have a tail?!

"Shit! Little White?"

Han Fei saw Little White circle around him. But Little White's size became strangely large, and he didn't look beautiful anymore. His head had become so big...

Gosh... Have I become Little Black?

Han Fei was stunned.

This was a very special experience. He had turned into a fish, swimming with his fins and tail, and the vision of his eyes changed, which was just like when he took a picture from the bottom up or from the top down!

Where am I?

Han Fei wagged his tail to swim and occasionally opened his mouth to take a sip of seawater. Then, he opened his gills and slightly opened his scales to absorb oxygen from the water and then closed his mouth.

Han Fei was stunned and at a loss of what to do. I became Little Black. Then what happened to me?

Am I dreaming? But why would I have such a dream?

Han Fei was dumbfounded when a fish about his size swam past him.

<Name> Bony Spur Fish (Primitive spiritual beast)

<Introduction> Covered with bone spurs, with extremely strong attack power, and often attacks the enemy by surprise.

<Level> Level 13

<Quality> Regular

<Contained Soul Energy> 152 Points

“Hooo...”

He felt as if his body was out of control as he rushed up to bite and tear it apart. Not until he bit the innocent fish into pieces did Han Fei regain control of his body.

Damn... Can anyone explain to me what happened? What the hell is this? And what is a primitive spiritual beast?

Huh? Why do I feel stronger? Is it because I ate that fish?

There seemed to be no concept of time here. Han Fei felt that he had been swimming for a long time and had eaten several fishes. There were also some that he wanted to eat but they escaped.

Han Fei saw many unknown fish, shrimp, and crabs, and also familiar ones, such as Spirit Chasing Shrimp, Ice Flame Turtle, and Lightning Crabs... These were all f\*cking primitive spiritual beasts...

Han Fei suddenly came up with an extremely shocking idea, This is not the level-two fishery here but the sea where Little Black and Little White came from!

Han Fei saw this sea in the Fishing Trial when there was a film between him and the sea, and there were countless kinds of fish that seemed to try to break through the film but in the end, only Little Black and Little White came through.

Yes, that's the sea. This must be the... Soul Ocean?

Having figured this out, Han Fei was stunned. What happened? Why was he here? And why did he become Little Black? If this was the Soul Ocean, wouldn't it mean that all the fishes in front of him were all spiritual beasts?

Han Fei swore that he had never seen so many spiritual beasts before.

Han Fei was a bit anxious. If he became Little Black, then where was he? Or was Little Black possessed by his soul?

At this time, Han Fei saw a huge monster swimming past. He took a close look. What the heck is that? A Golden Dragon? An Arowana?

What the fuck! What the hell is this place?

Han Fei trembled in fright. He just saw a giant Arowana swim past!

<Name> Gold Arowana (Primitive Spiritual beast)

<Introduction> It has a trace of golden dragon bloodline. After awakening, its quality will change and it will possess extremely strong attack power.

<Level> Level 29

<Quality> Exotic

<Contained Soul Energy> 360 Points

This time, Little Black didn't rush to bite it because he might get bitten instead.

Han Fei suddenly came up with an idea. Could Little Black be eaten by other spiritual beasts in this damn place?

After observing for a while, Han Fei was relieved. It turned out that under normal circumstances, these spiritual beasts would not attack each other. But that was not for sure. Han Fei saw a Mantis Shrimp knocking a spiritual beast to death and dragging it back into its hole as its food.

At this moment, countless thoughts flashed through his mind, If the spiritual beasts were in such an environment, would they die at any time? But in the real world, he had never heard of anyone's spiritual beast suddenly dying! "No, there must be a problem."

Han Fei chose a Swordfish and came up to bite it. The Swordfish felt the pain and immediately escaped, but it didn't seem to have any intention to fight Little Black.

Then Han Fei ran to a Spirit Swallowing Fish and swirled around in front of its eyes but that fish didn't seem to see him at all.

Han Fei immediately realized, Shit, I forgot Little Black had the ability of invisibility. Can I possess Little White's body?

With this thought, Han Fei suddenly felt dizzy, and then he saw Little Black in front of him.

Did I become Little White? Haha, interesting. So I can switch between these two little guys!

Han Fei didn't panic like before. There must be a reason for him to be here. After eating a few fish, Han Fei felt very energetic. He controlled Little White's body and swam to the Spirit Swallowing Fish. And then, something unexpected happened.

This Spirit Swallowing Fish still couldn't see him! It was understandable that it couldn't see Little Black, because Little Black was invisible. But why couldn't it see Little White either?

### **Chapter 180 Ate Someone's Spiritual Beast**

Han Fei suddenly got excited and a bold idea struck him: the spiritual beasts that had been summoned were invisible in the Soul Ocean and the primitive spiritual beasts in the Soul Ocean couldn't see them at all!

In order to confirm this idea, Han Fei ran up to the Swordfish and nothing happened.

He gathered courage again and ran around in front of the Crayfish and nothing happened either.

In the end, he chased a Gold Arowana for a long while and it gave no reaction at all. However, Han Fei's tail accidentally touched its eyes and it waved its head and hit him away.

Haha! Great... Since other primitive spiritual beasts can't see me, then maybe I can eat them!

Han Fei immediately returned to Little Black's body.

This time, he began to bite any fish passing by.

At first, those primitive spiritual beasts that were gnawed at just fled in a hurry. In the end, the sudden death of many spiritual beasts finally attracted the attention of other primitive spiritual beasts in this water. Immediately, all the primitive spiritual beasts in this area began to panic.

But Han Fei didn't feel it. He just felt that his brain was suddenly flushed by cold water, and then he felt a great increase in strength, mainly his bite force.

Did I upgrade?

Han Fei was utterly excited. In the past, he had to feed Little Black every day to help him upgrade, but he only upgraded by one level after a few months. But now, in the Soul Ocean, he had upgraded by one level just after eating a few primitive spiritual beasts. Then what if he continued to eat?

When Han Fei ate about 30 more primitive spiritual beasts until he upgraded again.

At this time, this area was in an uproar. All primitive spiritual beasts were running in a panic.

But it didn't affect Han Fei at all! Where can you go? I'm invisible to you but you're visible to me. How can you escape me?

This time, Han Fei began to bite the exotic and even rare spiritual beasts.

Pearl Fish, Spirit Chasing Shrimp, Sapphire Crab, and Lightning Squid...

Although it took a little longer to catch these rare spiritual beasts, he upgraded again after only eating 12. Little Black and Little White had directly reached the 20th level.

And then, he continued...

He didn't know how long it took. When Little Black and Little White reached the 22nd level, Han Fei looked around, only to find there weren't any fish. All fish had escaped.

Han Fei wondered, There are too few primitive spiritual beasts in the Soul Ocean! Do I need to change spots?

After swimming for a long time, Han Fei suddenly saw a flash in front of his eyes and a squid with hook-like tentacles all over its body appeared in front of him.

<Name> Iron Hook Squid (Sun Yang's Spiritual beast)

<Introduction> Its tentacles are like hooks, and the hooks are poisonous. If caught by it, it will be difficult to escape.

<Level> Level 27

<Quality> Rare

<Contained Soul Energy> 362 Points

Huh? Someone's spiritual beast?

Han Fei was hesitating. Shall I eat someone's spiritual beast? Can I eat it? Why can I see it?! Does it mean that the spiritual beasts that were summoned here could see each other in the Soul Ocean?

Han Fei thought for a while. Perhaps I can try taking a bite of it?

The Iron Hook Squid obviously saw Little White, and suddenly hit at him with its hook.

Han Fei was surprised. What?! I am still thinking about whether to eat you or not, but you've taken the initiative to attack me?

Little White dodged quickly. But Han Fei was angry. I didn't plan to eat you but you started it!

So Han Fei rushed up and bit off a squid tentacle. While he was going to attack again, the spiritual beast swooshed away and escaped quickly.

Han Fei kept chasing him, but unfortunately, because the guy could see Little White, it ran extremely fast.

After a while, Han Fei gave up. The summoned spiritual beast already had consciousness, otherwise, it wouldn't have escaped so quickly.

After swimming for a while, when a lot of primitive spiritual beasts appeared around him again, he began to devour them like crazy again. Han Fei felt that he might upgrade at any time.

Suddenly, he felt dizzy, and when he woke up again, he found that he was sleeping on the deck.

"Huh? Did I come out of the Soul Ocean? Why?"

At this moment, Han Fei suddenly bounced off the deck and threw out the double knives in his hand instantly.

“Who is it?!”

Han Fei dodged and an arrow was nailed to where he had just slept.

“Who? Who warned you?!”

A few dozen meters away, a fishing boat was approaching. On the bow of the ship, one person held a longbow and shot three arrows again, intending to kill Han Fei.

Clang! Clang! Clang!

The three arrows were easily blocked by Han Fei. Han Fei twisted his wrist slightly. An advanced great fishing master?

The man looked surprised. This guy wasn't killed by my sneak attack? Run...

Those who could come to the level-two fishery were at least great fishing masters. The first idea the man came up with was to run away when his sneak attack failed.

“Now you want to escape? Do you think I'm dead?”

Han Fei walked through the air, waving his fishing rod, and bound this man with the fishing line in the blink of an eye. Then the double knives in his hand swished out through the air, drawing a strange arc in the air.

Clang...

The man raised his bow to block, but the next moment, the longbow that accompanied him for many years was cut in two directly.

“A magic weapon?”

The man exclaimed, pulling out his dagger, and trying to cut off the fishing line binding him. However, the fishing line quickly loosened and was taken back by Han Fei.

The two knives flew back into his hand and Han Fei had stepped onto the man's ship.

“Little brother, I'm sorry. Please spare my life. I will repay you.”

Han Fei grinned. “How?”

“Hum...”

At the moment when Han Fei smiled, he moved again, and Han Fei saw a squid instantly fused with him.

Han Fei was surprised. “Iron Hook Squid?”

Han Fei was sure that this was just that Iron Hook Squid he saw just now.

“Smack...”

In mid-air, the phantom of a big seal fell down. The Water-Stirring Seal appeared extremely quickly, shattering the cabin and smashing the man into the water.

Han Fei put away the Water-Stirring Seal. He seemed to hit him too hard. Was this man killed?

Han Fei stood on the boat and watched for a while. After several minutes, a head suddenly popped out of the sea, his face covered with blood.

“Help, help me...”

Han Fei didn’t move. Standing on the bow of the ship, he asked, “Are you called Sun Yang?”

“Yes, he, help...”

At the next moment, Sun Yang seemed to be dragged down by something in the water and he never came up again.

“I hate faithless people like you the most.”

Han Fei was not surprised. After Su Yebai was hit by the Water-Stirring Seal, he fainted. It was not easy for Sun Yang to persist underwater for too long.

However, his name was Sun Yang? It was no coincidence that he met him here. He had just met his Iron Hook Squid in the Soul Ocean! Han Fei felt that he had discovered a big secret, an extremely horrible secret. When a person was close to him, then the distance between their spiritual beasts in the Soul Ocean was also very close.

But the point was, why could he enter the world where the spiritual beasts were? Since he could enter it, could others also enter it? If everyone could, wasn’t it unsafe for his spiritual beast in the soul ocean?

Regarding this issue, he decided to wait and try it out when the five of them met again three days later.

Then Han Fei tried to enter the soul ocean again but failed. Whether he was lying down, asleep, or in a daze, he couldn’t get in. Little Black and Little White didn’t understand his meaning at all. Or they might not even know that they had just been possessed.

But Han Fei found that Little Black and Little White had already reached level 22. How long did it take? It was only less than half an hour!

And before they could only upgrade by one level in a few months.

Han Fei was shocked. In half an hour, they upgraded from level 17 to level 22 by eating.

How shocking was this upgrade speed?
