

GOF 1721

Chapter 1721 The Avengers Rise to Fame

Han Fei didn't know how often there were robberies in the Raging Sea, or how fierce the pirates here were.

However, Han Fei was really experienced in robbery.

Han Fei didn't expect to completely hide his whereabouts.

In the end, he caught three big fish.

However, to Han Fei's surprise, the Medicine King World also participated in this robbery. Although what they wanted to take was not resources but a little girl, it wasn't any better.

Han Fei's contempt made everyone feel that they had been fooled.

The image Han Fei created for everyone in the Thunder Fire World was different. The impression he left on Jin Quan was that he might be a Heavenly Talent from the inner domain who was protected by a strong

master.

Han Fei gave the same impression to the Five Elements Disciple.

Besides, Han Fei was very rich.

Therefore, after confirming that Han Fei wasn't from the inner domain and there didn't seem to be a Half-King around him, he decided to come to rob him.

As for the man from the Medicine King World, he had learned about the actions of the Golden Crow World and the Five Elements World and thought that Han Fei wouldn't be able to escape this calamity. Therefore, he thought he just needed to come and ask the Golden Crow World and the Five Elements World to give him face.

Two Half-Kings appeared beside Jin Quan.

The two of them looked around and shook their heads slightly. "We didn't find any ambushes or any unusual movements on that ship."

Jin Quan laughed. "Brat, you're still pretending when you're about to die? Do you think I'm scared? Take him down."

Behind Ban Yi, a Half-King also appeared.

He smiled faintly. "It's not good to have a conflict with the Golden Crow World. Let's help them. Then the Golden Crow World will have to spare us a share when they rob the ship."

The only person who was prepared to watch the show was the young man from the Medicine King World.

However, the moment these people were about to attack, Han Fei waved his hand, and a layer of seal on the Avenger was torn apart.

The logo of a skeleton pirate appeared on the huge black sail. At the top of the mast, a pirate skeleton flag appeared.

“Hehe”

“Today is the first robbery of the Avengers. We need to find some people to sacrifice to the flag... You guys came at the right time.” “Hiss!”

When the battle started, the young man who was watching the show was stunned. The Avengers? This person is actually a pirate?

Jin Quan and Ban Yi were also stunned. This guy was actually a pirate?

However, the two of them were still calm. On their side, there were two Half-Kings from the Golden Crow World and one from the Five Elements World. As for Jin Quan and Ban Yi, they could be said to be among the tops of the peak-level Venerables. As long as there was no king, who could shake them?

Even though Han Fei was a pirate, they had never heard of the Avengers. Who would care?

Ban Yi shouted, “Brother Jin, let’s end this battle quickly. It won’t be good if this person’s reinforcements come.”

The Half-King beside Jin Quan also said, “Seventh Young Master, let’s finish the battle in ten seconds and defeat him quickly. I’m afraid that this person is backed by the top ten pirate groups, which will be troublesome.”

Jin Quan snorted. “Take him down quickly.”

Buzz!

At that moment, Han Fei’s aura rose to the peak. The power of the Great Dao circulated and swept across the sky.

Swish –

Han Fei quietly appeared at a speed that even the three Half-Kings couldn’t match.

A spear mark instantly thrust out of the void, which was so fast that the three Half-Kings could barely react, but they didn’t have time to escape. One of the Half-Kings from the Golden Crow’s side was penetrated by Han Fei.

His entire body exploded.

“Hiss”

At that moment, the people of the three Heavenly Palaces were all dumbfounded. What kind of divine power is this? A Half-King can’t even withstand the power of a spear?

Another Half-King of the Golden Crow World shouted, “Oh no, Young Master, leave quickly. This person is a king.”

Everyone: “???”

At that moment, Jin Quan, Ban Yi, and Shao Fan from the Medicine King World were all stunned. What the f*ck? A king pretending to be a junior Venerable? A king attending such an ordinary auction? Why would a king use himself as bait to trick them?

However, since the Half-King said so, he must have his reasons.

Therefore, Jin Quan, Ban Yi and the others retreated without hesitation.

“Hehehe... Since you’re here, why are you leaving?”

Swish! Swish! Swish!

In the void, two Half-King projections descended and stopped two of them.

Han Fei grabbed a weird blue power and slashed at the void. With a rumble, a crack appeared in the sky and a rain of blood fell.

A Half-King was half a step into the King Realm, so the sky would certainly react if he died.

Jin Quan was shocked. “King’s projections? How is that possible? How can he be a king?”

On the other side, Shao Fan from the Medicine King World was shocked to see that the Half-King didn’t even have the chance to have blood rebirth... How could he have a chance?

He believed that this was definitely a king! He could kill a Half-King in one move! What could be more visually impactful than this?

Han Fei’s Half-King projections directly stunned Shao Fan.

People from the Medicine King World were not particularly good at fighting. Generally speaking, the Golden Crow World and the Five Elements World would give him face.

Therefore, he came alone this time to bring Nian’er back and make a great contribution.

However, when Han Fei’s Half-King projection stood in front of his ship and punched, and the boat array rumbled but the ship couldn’t move at all, he was terrified.

The only one who could escape was Ban Yi from the Five Elements World.

This person was only an intermediate peak-level Venerable. Even if he came out, he had always been cautious. The moment Han Fei killed a Half-King, he had already begun to teleport.

Fortunately, he brought a Half-King with him, who blocked Han Fei’s projection. Otherwise, he would be doomed.

Buzz!

The big ship of the Five Elements World ran away, but Han Fei didn’t care. If no one told others how powerful the Avenger was, what was the point of this war?

The Half-King from the Five Elements World reversed the five elements and used all kinds of great techniques, but couldn’t shake Han Fei at all.

Han Fei's original body, on the other hand, punched a hole in the ship array of the Golden Crow World.

"Star Teleportation."

Han Fei appeared on the Golden Crow World's ship. He didn't need to do anything. As his projection fell, the remaining advanced Venerable on the ship had nowhere to escape.

Han Fei held time in his hand and slashed at the sky. In just three seconds, the Half-King from the Golden Crow World was cut in half by Han Fei. His soul was caught by Han Fei with the Void Lines and he had nowhere to escape.

Jin Quan shouted in horror, "Fellow Daoist, don't kill me. I'm valuable. I'm one of the seven king candidates of the Golden Crow World. I'm very valuable..."

"Puff "

Han Fei slashed out and cast the Void Lines.

He had thought that Jin Quan would die on the spot without even having the chance to be reborn.

However, to Han Fei's surprise, seven flaming shields appeared on Jin Quan's body and blocked his attack.

Although his body was covered in blood and his bones were shattered, he had indeed blocked Han Fei's attack.

Han Fei looked at him with interest.

In the next moment, the shields triggered the Sun Essence Fire and six columns of fire rushed down, trying to surround Han Fei and create an opportunity for Jin Quan to escape.

Unfortunately, no matter how talented Jin Quan was, he was facing a person whose strength was comparable to a king's.

These people didn't know that Han Fei was a real king in ten seconds. Fighting Han Fei during this period was no different from an egg hitting a rock.

Under Jin Quan's gaze, Han Fei opened his mouth and swallowed the Sun Essence Fire. In the end, under Han Fei's slash, the so-called Palace Master candidate was beheaded.

Han Fei devoured the souls and vitality of these people wantonly.

Boom!

Boom!

Even in the Raging Sea, if too many strong masters died, the weather would change drastically.

Two Half-Kings, one peak-level Venerable and one advanced Venerable died in succession, causing Great Dao cracks to appear in the sky and blood rains to fall.

However, things were far from over.

The people of the Golden Crow World were completely wiped out. The only remaining Half-King of the Five Elements World detonated an ultra-quality divine weapon and tried to escape. The result was obvious. The void was sealed by Han Fei, and this person was killed on the spot.

At this point, only the people from the Medicine King World were left.

Han Fei strolled in the air, feeling the soul power he had absorbed. Holding many Sun-Moon Shells, his projections came back.

Seeing that Shao Fan still wanted to use Void Teleportation, Han Fei couldn't help but sneer. "Idiot, you failed to escape in the beginning. Now you don't even have a Half-King protecting you. How can you escape?"

"Pfft!"

Han Fei activated the Knock on the Heavenly Gate and pierced through the array of the Medicine King World's ship.

Han Fei flashed and appeared on the ship. An intermediate Venerable who came with Shao Fan couldn't even move under Han Fei's pressure.

Plop!

The Heavenly Talent of the Medicine King World actually sat on the ground.

Seeing him so flustered, Han Fei couldn't help but laugh. "I really wonder if you took medicine to become an intermediate Venerable. Remember what I told you before... If you were in the sea, you would have died long ago. How dare you come here to rob

me?"

Shao Fan hurriedly said, "Master, Lord King, I didn't mean to harm you, I didn't mean..."

"Pfft!"

Han Fei pointed his finger at the space between Shao Fan's eyebrows. The Heavenly God Stab stabbed him until he bled and his soul collapsed.

"Don't kill me, don't kill me..."

Chi la!

In an extreme panic, Shao Fan threw a mass of dark green poison at Han Fei. Han Fei turned into a shadow, took a few steps back, and touched the poisonous mist.

The poison was spreading into Han Fei's body and being swallowed by his blood.

"Tsk, tsk. A Heavenly Talent of the Medicine King World actually used poison? Then what's the difference between you and the Million Poison World?"

Han Fei held the Embroidery Needle and stabbed a hundred times, shattering Shao Fan's spiritual heritage and destroying his Dantian, causing his realm to plummet.

However, Han Fei didn't kill this person. He just grabbed Shao Fan's Sun-Moon Shell and then looked at another intermediate Venerable with a faint smile. "You can take him back. Remember to tell the others that I'm Han Fei, Master of Revenge and the leader of the Avengers."

After the Medicine King World's ship fled crazily, the old turtle said, "Aren't you afraid of arousing hatred? Why did you let him go?"

Han Fei said disdainfully, "In order to cover up his actions, the Five Elements Disciple, Ban Yi, probably won't publicize the deeds of the Avenger. However, the guy from the Medicine King World must hate me to his guts and will definitely publicize the existence of the Avenger. Today, I killed three Half-Kings in a row. How could my greatness not be publicized?"

The old turtle was speechless and thought to himself, That little guy is really pitiful. Why did you have to provoke Han Fei, this big devil?

Chapter 1722 Golden Crow Divine Blood

History had proven countless times that the law of the jungle was the law of survival in the cultivation world.

Han Fei only planned to catch one fish, but there were three.

Han Fei took a look at the Sun-Moon Shells he snatched. The three Half-King's Sun-Moon Shells mostly contained precious materials. There weren't many spiritual fruits and spiritual springs, because they basically didn't rely on them now. What they had the most were ultra-quality spiritual stones.

In the Raging Sea, ultra-quality spirit stones were the most convenient for transactions between Venerables. Although he didn't know where these ultra-quality spirit stones came from, they did have them.

Others used ultra-quality spiritual stones as money, but Han Fei used them as resources for cultivation.

Han Fei thought to himself, It's not because I'm too low, but because these people haven't recognized the effect of ultra-quality spiritual stones at all. Or rather, they are too weak to use ultra-quality spiritual stones.

Han Fei took the properties of the three Half-Kings. On average, each of them had more than a million ultra-quality spiritual stones.

m

Han Fei felt that he had become rich in an instant.

In Jin Quan's Sun-Moon Shell, Han Fei made a new discovery. In addition to the ultra-quality divine weapons, there was also a third-grade Tribulation Pill.

Han Fei was delighted. This pill alone was worth a lot. He had made a fortune.

"Huh?"

Just as Han Fei was about to check Shao Fan's Sun-Moon Shell, he spotted a crystal gourd in Jin Quan's Sun-Moon Shell. There seemed to be something powerful shining in it.

Han Fei reached out and grabbed the calabash.

Han Fei opened the cork of the calabash.

Immediately, a golden pillar of fire soared into the sky, and a bird chirped. In the next moment, a drop of golden blood was about to rise into the sky and escape.

How could Han Fei let this treasure run away? He reached out and grabbed the golden drop of blood, and information popped up in his eyes.

<Name> Golden Crow Divine Blood

<Introduction> The blood essence of a divine beast, the Golden Crow, contains extremely powerful power. You can't consume it easily, or you will be devoured by the Golden Crow God.

<Level> Divine

<Quality > Ultra-Quality

<Chaotic Qi> 303 wisps

<Remarks> It contains extremely powerful strength. If anyone under the Sea Establishment Realm swallows it, it's easy for him to suffer a backlash and explode.

"Hiss"

Han Fei was immediately shocked. This thing was amazing! However, this was a pleasant surprise. To be honest, the value of this drop of essence blood might be comparable to his entire fortune.

The old turtle was also shocked. "Is this... the blood of a god? No, there are birds chirping. I'm afraid it's the blood of a divine beast."

Han Fei's eyelids twitched. "What's the difference between the blood of gods and the blood of divine beasts?"

The old turtle said, "In essence, there's no difference. The blood of a god is more advanced than the blood of a divine beast. After all, only when a divine beast grows up can it have a chance to become a god. But in any case, this drop of blood is definitely not weaker than the blood of the War God you swallowed last time."

Gulp!

Han Fei licked the corner of his mouth. As one of the candidates for the Palace Master, Jin Quan was not an ordinary cultivator. He could even get a treasure of this level. Unfortunately, it was his now.

Putting away the Golden Crow Divine Blood, Han Fei looked at Shao Fan's Sun-Moon Shell again.

However, Han Fei was greatly disappointed. Look, this was the difference! Apart from 20,000 ultra-quality spiritual stones and an ultra-quality Divine weapon, there was nothing left in Shao Fan's Sun-Moon Shell...

Oh, there were also dozens of bottles of Body Tempering Pills and Divine Ascension Pills.

Han Fei took a look. Only the Divine Ascension Pill was relatively better, but it was only suitable for junior or intermediate Venerables. This thing could be left for... Ying'er.

As for Nian'er, she probably didn't need it.

Nian'er didn't need any pills to grow. In some aspects, she had long become a Venerable. Now, she just needed to come into contact with the human world and increase her social experience. At the same time, she could consolidate her foundation and continue to break through.

After quickly checking these resources, Han Fei found that he had 1.98 million pure ultra-quality spiritual stones now. If each ultra-quality spiritual stone contained 800,000 points of spiritual energy, it would be an astronomical figure.

Suddenly, Han Fei subconsciously calculated with his fingers that danger was coming.

After all, this was a general route. With such a huge commotion, someone would probably notice that he had obtained a treasure. It was better to slip away first.

Then, Han Fei dove directly into the Raging Sea, held the Vast Ocean Navigator and went straight to Ice Snow Chuling's ship.

About half an hour after Han Fei left.

Swish swish swish!

In the void, the shadows of several large ships appeared. A burly man holding a dark golden hammer stood in the void.

This person casually picked up some broken corpses.

The man's face changed. "What an arrogant person... He didn't even bother to destroy the corpses and evidence. The Sun-Moon Shells and the Golden Crow World's ship were taken. Where is the Avenger from?"

Behind the man, a Half-King said, "Thunder Master, this man has defeated three Half-Kings alone. Plus Jin Quan, he can be taken as killing four Half-Kings. Is he..."

This burly man was the Master of Thunder Fire.

The first thing the Five Elements Disciple did after he escaped was to tell the Thunder Master about their encounter with the pirates. However, he reversed the facts and said that Han Fei took the initiative to rob them.

The Master of Thunder Fire said indifferently, "It's indeed possible that he's an unborn king. However, I'm puzzled. According to the Five Elements Disciple, this person is the young man who sold two pieces of king shell at the Heavenly South Auction. So the Five Elements Disciple was trying to lead the trouble to us?"

"Hmph!"

Then the Master of Thunder Fire said, "These juniors clearly tried to rob the guy first, but they distorted the truth. Heh, they hit a rock. It has nothing to do with us. Go, warn the Five Elements Disciple. Also, come with me to see what that little guy from Medicine King World has to say."

Two days passed.

Due to the fact that Ice Snow Chuling needed to cultivate and that they had to wait for Jin Quan and the others, the Snow Wind didn't teleport. Instead, it anchored itself and waited halfway.

"Lord Chuling, something bad has happened..."

"Holy Lady, a Half-King has come to escort us."

Creak!

The cabin door opened, and Ice Snow Chuling appeared on the deck in a snow-white cloak. When she saw a strong man with a hammer on his back outside the ship, she bowed slightly and said, "Carrying a Purple-Gold Thunderfire Hammer. Senior, you must be Senior Li Yuntian of the Thunder Fire World."

The man nodded slightly. "Greetings, Ice Snow Holy Lady. I came here in a hurry because a powerful pirate group appeared on the nearby general sea route. Three Half-Kings of the Five Elements and the Golden Crow have died. And... your..."

Ice Snow Chuling's pupils were constricted slightly. "Senior, please tell me."

Li Yuantian said, "Holy Lady, your fiancé, Jin Quan, also died at the hands of that pirate crew. Holy Lady, please restrain your grief. This matter is very bad. Our Thunder Fire World has already informed the kings of the Five Elements World and is investigating."

Ice Snow Chuling was stunned.

Beside her, the two maids who were peak-level junior Venerables were already stunned. Three Half-Kings had died? That pirate group even dared to kill Jin Quan?

"Holy Lady..."

sen

Bing Xueling suddenly came back to her senses and her face darkened. "Senior Li, please board the ship... May I ask which of the ten pirate groups did it?"

Li Yuantian landed on the deck and shook his head slightly. "Not the top ten pirate groups."

Ice Snow Chuling was surprised. "Not the top ten pirate groups? Who can kill three Half-Kings on a general route?"

Li Yuantian smiled bitterly and said, "Thunder Master suspects that this is a new pirate king. His name is Han Fei, and he's known as the Avenger. He founded the Avenger Pirates. We're also investigating in the Martial Emperor City. I'm sure there will be news soon. In order to avoid trouble, Holy Lady, please set sail immediately to the Ice Snow World."

Ice Snow Chuling's heart sank. Although she was suspicious, even Li Yuantian was here, so she couldn't stay here any longer.

At this moment, a voice sounded in her heart. "Let's go! I've already boarded the ship and am in your cultivation cabin."

Ice Snow Chuling was shocked.

However, her expression remained the same. She shouted, "Raise the anchor and return immediately."

"Yes, Holy Maiden."

Ice Snow Chuling thought that Han Fei's strength had reached the Half-King level, but she didn't expect that Han Fei had killed three Half-Kings in a row.

Yes, when Li Yuantian said this, she had already guessed who did it. There was no reason for the top ten pirate groups to plunder a general route at this time.

Only Han Fei mysteriously went out to sea with all his treasures. She had reminded him but he asked her to wait for him for a few days.

Great! Now, Jin Quan and the others were all dead... And Han Fei was here!

She wouldn't believe that this had nothing to do with Han Fei.

After making arrangements for Li Yuantian, the big ship began to teleport in the void. Ice Snow Chuling also came to the cabin and saw Han Fei looking at a fish skin map.

Seeing Ice Snow Chuling enter, Han Fei smiled. "It's really rare to see a route recorded with a fish skin map."

Ice Snow Chuling looked at Han Fei strangely and asked, "Are you... a king?"

One had to know that bringing a king to the Ice Snow World and bringing a Half-King to the Ice Snow World were two different concepts.

Han Fei smiled casually. "Killing a Half-King doesn't necessarily require the strength of the Sea Establishment Realm. There are strong and weak in every realm, including Half-Kings."

Seeing that Ice Snow Chuling looked a little nervous, Han Fei stood up and smiled. "Don't worry. You and the Ice Snow World aren't worth my time. Also, shouldn't you find me a furry cloak? Otherwise, I won't fit in..."

Chapter 1723 Master of Infinity

Ice Snow Chuling felt that this trip to Thunder City was a little dreamy.

Although she did not like Jin Quan, the Golden Crow World had forced her teacher to agree. Although she was reluctant, there was nothing she could do.

Ever since she knew that the pure Yang power couldn't help her recover, she didn't want to marry Jin Quan anymore. However, not only did her terminal illness have a turn for the better, but Han Fei also solved Jin Quan.

Ice Snow Chuling didn't believe that Han Fei's name was real. After all, Han Fei had used the name, Fan Datong, to fool her.

But in any case, she had no choice but to trust Han Fei.

After all, the strongest people on this ship were Li Yuantian and herself.

Han Fei, on the other hand, could kill three Half-Kings in a row... Including Jin Quan, he could kill four Half-Kings in a row.

Such an expert was not someone she could resist.

Hearing Han Fei's question, Ice Snow Chuling threw out a piece of turf and said, "This is the snow velvet bark, a specialty of our Ice Snow World. I can help you refine it."

Han Fei smiled. "No, I'll do it myself! Oh, right, how long does it take to get from here to the Ice Snow World?"

Ice Snow Chuling said, "According to the tolerance of the hull, we will arrive in about half a month at normal speed."

Han Fei nodded slightly. "Okay! See you in half a month."

Buzz!

Then Han Fei directly disappeared in front of her eyes, which stunned her.

She quickly looked at Li Yuantian on the deck outside the ship and realized that he didn't seem to notice anything either.

At this moment, Ice Snow Chuling thought to herself, I'm afraid that Han Fei is indeed a king. But I've never heard of such a king before.

However, Ice Snow Chuling didn't think that Han Fei would break through the void and leave. He must still be on the ship and must have gone to a small world or his Origin Sea.

How could someone who owned a small world be ordinary?

And if he had an Origin Sea, it would prove that Han Fei was a king.

Therefore, she didn't think it was necessary for Han Fei to lie to her.

Half a month later.

When Ice Snow Chuling successfully arrived at the Snow God's Temple, Li Yuantian cupped his hands at Ice Snow Chuling and said, "Holy Lady, since I've arrived, I have to go back and report. Goodbye."

Ice Snow Chuling bowed graciously. "Thank you for taking care of me along the way, Senior. I should have invited you to stay in the Snow God's Temple, but the Thunder Fire World is in troubled times, so I won't delay you. Be careful."

"Um!"

The main city of the Ice Snow World was called the Snow City.

In Snow City, there was a place similar to the Central Holy City, the Snow God's Temple.

This Snow God's Temple was not the heavenly palace, but the central part of Snow City. The real Snow God's Temple was rarely seen.

Not long after they got off the boat, Ice Snow Chuling said, "Xiao Xin, Xiao Ya, help me take a look at the energy fruits and cultivation techniques I arranged before."

"Yes, Holy Lady Chuling."

After sending the others away, the void shook in the cabin.

Han Fei walked out openly.

Of course, Han Fei came down later. His strength was suppressed to the peak-level junior Venerable, like a follower on the ship.

When Ice Snow Chuling saw Han Fei, she secretly sighed. As she expected, he had been here.

Han Fei came to Ice Snow Chuling and said, "You can arrange a place for me so that it's convenient for us to meet. I won't stay in the Ice Snow World for long. Give me what you promised me and we'll be even."

For Han Fei, Snowmourne wasn't that useful anymore. Besides, Snowmourne was only a low-quality Sea Quelling Bizarre Treasure and wasn't very precious.

If he could exchange it for so many things, it would be worth it.

Of course, the main reason was that if he gave her this weapon, Ice Snow Chuling would owe him one.

Among the 36 Mystic Worlds, the Yin-Yang World and the Water-Wood World had been forced to enter the Wild Abyss... It could be seen how difficult their situation was back then.

Now, if he could win over some forces, even if these forces remained neutral, it would be very beneficial to him.

Of course, if the other party was still against him, as long as the other party could withstand his Heart Tribulation, Han Fei wasn't afraid of having another enemy.

Buzz!

When Ice Snow Chuling was about to show Han Fei the way, Han Fei suddenly looked at the void and said, "A king is coming."

Before Ice Snow Chuling could be surprised, a figure appeared not far from her with a swish.

Han Fei pretended to be Ice Snow Chuling's follower and looked at the newcomer in confusion.

When Ice Snow Chuling saw this person, she froze. After a long while, she took a deep breath and said, "Greetings, Master of Infinity."

Han Fei shivered when he heard that. This handsome young man who looked to be in his twenties was actually the master of the Infinity World?

He was dressed in green and held a white fan in his hand, looking very young and energetic. Who would have thought that he was a king?

Han Fei pretended to be shocked and quickly cupped his hands. "Master of Infinity."

Master of Infinity casually nodded and said, "The last time I saw you was more than 300 years ago. At that time, you had just been elected as the Holy Maiden of the Ice Snow World and were only a junior Venerable. Who would have thought that after just 300 years, you had already reached the peak of the Venerable realm? It's a pity that you are seriously ill, and I can't help you. What a pity..."

Ice Snow Chuling said respectfully, "Thank you for your concern, Palace Master. There seems to be a cure for my disease. I just hope to try one last time."

The Master of Infinity smiled. In his opinion, Ice Snow Chuling wouldn't survive. What was the use of trying? If even the Medicine King couldn't cure her, who could?

He said, "Chuling, did you encounter any accidents on the way to Thunder City?" Seeing that Han Fei disguised himself well, even the Master of Infinity didn't notice him.

She shook her head lightly. "The Lord of Thunder Fire ordered Senior Li Yuantian, a Half-King, to escort me all the way, so nothing unexpected happened."

Master of Infinity said, "Jin Quan is dead. It seems that you aren't sad at all?"

Ice Snow Chuling was not afraid of being laughed at by the king. How sharp were a king's eyes?

Therefore, she said frankly, "Chuling's relationship with him is not consensual. Chuling is half happy and half worried about the death of Jin Quan. I'm happy because I don't have to marry him. I'm worried because I'm afraid that the Golden Crow World may blame the Snow God's Temple for his death."

"Ha! The Golden World ranks the fourth of the 36 Mystic Worlds. How can they be so narrow-minded? But don't go out for the time being. Han Fei is suspected to be a king. Not only are the people of the 36 Mystic Worlds looking for him, but the ten pirate groups are also looking for him." "Huh?"

Ice Snow Chuling pretended to be surprised. Although she wanted to look back at Han Fei, she held back.

The Master of Infinity said indifferently, "You don't have to know the specific reason. In order to catch this person, the 36 Mystic worlds and Martial Emperor City have both issued a kill order. I was just passing by, so I came to visit you by the way. Now I'm going to leave."

Ice Snow Chuling bowed. "Farewell, Master of Infinity."

Han Fei also cupped his hands. "Goodbye, Master of Infinity."

Although he was Master of Infinity, Han Fei was reluctant to bow to him. Others were nervous when they saw a king, but Han Fei wasn't. He had already slaughtered a king. How could he be afraid?

The Master of Infinity suddenly said, "Huh! Your attendant is not bad. And a ninth-grade spiritual heritage is rare."

"That's why I recruited him."

Master of Infinity nodded slightly. "Okay! I'm leaving."

Buzz!

After the Master of Infinity left, Ice Snow Chuling was secretly relieved. After walking with Han Fei for a while, Han Fei said, "Let's

go."

Ice Snow Chuling glanced at Han Fei with her beautiful eyes. "Did you provoke the top ten pirate groups? Martial Emperor City even issued a hunting order on you?"

ven

Han Fei rubbed his nose and said, "I'm also curious. When did I provoke the ten pirate groups? Help me investigate this matter."

Han Fei was also dumbfounded. I've only messed with the Predators, haven't I?

Ice Snow Chuling said, "I'll arrange an ice snow courtyard for you for the time being. Wait for me for a few days. I'll prepare the resources as soon as possible. As for the bounty, I'll pay attention to it."

Han Fei had no intention of following Ice Snow Chuling into the Snow God's Temple. The old turtle didn't speak until Han Fei separated from Ice Snow Chuling and moved into the Ice Snow Courtyard.

The old turtle said, "Han Fei, this Master of Infinity is very strong. The White Armor Emperor was definitely no match for him. He may be several times stronger than the White Armor Emperor."

Han Fei frowned. "What do you mean? How can you tell his strength?"

The old turtle said, "I can tell it from experience. Usually I judge his strength from his blood energy and his suppressing pressure. Judging from this person's strength, even Queen Life and the White Armor Emperor are not his match. You have to be careful."

Han Fei was horrified. Fortunately, he had disguised himself from the beginning. Otherwise, even if he unleashed all his strength, he might not have been able to escape.

Han Fei said, "Old Yuan, don't you have a way to distinguish the strength of a king? For example, divide them into different levels?"

The old turtle said, "The King Realm doesn't have junior, intermediate, advanced, or peak levels. It's only measured by the origin of the Great Dao. The so-called origin of the Great Dao can be directly understood as the Origin Sea. The bigger the Origin Sea, the stronger a king is. It's hard to measure it in terms of strength. It can only be said that the White Armor Emperor's Origin Sea is about 800 kilometers long."

Han Fei's heart did a flip. "His maximum strength is about 80,000 waves. Is there a connection?"

The old turtle said, "Some people will connect them, but the Great Dao is never equal to strength. I asked you to accumulate Chaotic Qi in order to open up your Origin Sea. At this step, you must not be weaker than others."

Chapter 1724 Snow Lady

He learned from the old turtle about the strength of the King's Origin Sea...

Han Fei made a preliminary judgment.

The old turtle said that Master of Infinity's strength was at least several times that of the White Armor Emperor. Even if Han Fei measured it by strength, Master of Infinity's strength was at least 150,000 waves.

Of course, in terms of strength, a wave was a wave.

It seemed inappropriate to count it this way.

However, Han Fei only needed to know that his current limit of strength was about 60,000 waves in a short period of time.

Therefore, if he encountered Master of Infinity now, he would definitely die.

Fortunately, the effect of the Deceit Technique was not bad.

However, Han Fei guessed that it must be because the death of the King Ba Crab had attracted Master of Infinity's attention that he appeared in the outer domain of the Raging Sea. Otherwise, why would Master of Infinity come to the outer domain in person? Did he really come to visit Ice Snow Chuling? That was impossible!

Half a day later.

Outside the Ice Snow Courtyard, someone delivered a jade slip.

After Han Fei took it and scanned it with his soul, he was speechless.

This jade slip was sent over by Ice Snow Chuling. Some jerk from Martial Emperor City had offered a Sea Quelling Bizarre Treasures as the bounty for the Avengers' heads.

Needless to say, Han Fei felt that this person should be Mad Fourth King. Is this b*stard out of his mind? Does a Sea Quelling Bizarre Treasure not cost money? You're really willing to spend money just to hunt me!

Moreover, this person's hunting order only said that his strength had reached the Half-King realm and that he was the head of the Avengers. There was no other description.

Logically speaking, who would really care about such an unclear kill order?

However, the bounty was too high!

A Sea Quelling Bizarre Treasure! It could be seen how much the Mad Fourth King valued him.

However, in the jade slip, Ice Snow Chuling wrote. "The other party's goal is not to really hunt you down, but to let you enter the Wanted List. All the hunting missions on the Wanted List will be widely noticed... Therefore, that person is just making enemies for you."

Han Fei thought to himself, I see! I thought Mad Fourth King was really willing to pay a Sea Quelling Bizarre Treasure. It seems that he just wants to make me a public enemy.

Han Fei sneered. "Son of a b*tch. When I become a king, the Predators will be my first target. Let's see how many people dare to talk about this bounty."

Han Fei continued to read. According to the information he got from Ice Snow Chuling, because Han Fei was involved in Jin Quan's death, the ships of the thirteen worlds in the outer domain had almost all been investigated outside the Thunder Fire World.

Now, Han Fei was very famous in the thirteen worlds in the outer domain.

Besides, taking a girl with him had become Han Fei's symbol.

Han Fei chuckled and didn't care.

The thirteen worlds in the outer domain were different from the Yin-Yang World or the Water-Wood World.

The sea area here was dangerous everywhere. As long as he wasn't on the route, he wouldn't be afraid of causing trouble.

It could even be said that he, who had the Vast Ocean Navigator, was as free as a fish in the sea.

Ten days later.

Ice Snow Chuling was very efficient. This might have something to do with her illness. All these years, although she had an explosive growth in strength, she had sacrificed a lot of her lifespan. It could be said that whenever there was a treasure that could prolong lifespan in the Ice Snow World, she would use it first.

Therefore, when she confirmed that Han Fei could save her, she saw hope, and the resources were prepared quickly.

In the afternoon, Han Fei was still sleeping and eating hot pot in Forge the Universe.

He was waiting for the bloodline evolution to complete.

In other words, in another seven days in the outside world, he would be able to finish the bloodline evolution this time.

The old turtle said, "She's here."

"So soon?"

With a thought, Han Fei appeared in the courtyard.

Opening the array, Han Fei couldn't help but tease, "You're quite fast!"

Ice Snow Chuling flashed in. In that second, she heaved a long sigh of relief and said, "Because I prepared the resources myself and didn't search in the name of the Snow God's Temple, I have to be very careful. Otherwise, it would have only taken me a few days."

Han Fei understood. He didn't want to involve the king of the Ice Snow World in this matter. He would just slip away after getting what he said.

What was the personality of the king of the Ice Snow World? He didn't know it at all.

On the other hand, if Ice Snow Chuling harbored ill intentions, the best time for her to attack would be when Master of Infinity was around.

However, she didn't do that at that time. Now, Han Fei didn't care whether she would find the king of the Ice Snow World or not.

Han Fei went straight to the point. "Can I check the goods first?"

Ice Snow Chuling threw a Sun-Moon Shell over and said, "Here are 100,000 energy fruits and a total of six body-tempering techniques. Two of them are heaven-level ultra-quality. I can only find these few in such a short time."

Han Fei smiled. "It's fine. What about the Ice Snow Lotus Throne?"

Ice Snow paused for a moment. "If you attack, I won't be able to fight back. Therefore, I want both of us to swear on the Great Dao that we won't harbor ill intentions in this deal."

Han Fei smiled. This woman is smart. Energy fruits and techniques are nothing.

However, a mid-quality Sea Quelling Bizarre Treasure was not something that could be bought with money. It required opportunities.

Han Fei shrugged. "Of course."

After the two of them swore to the Great Dao, Ice Snow Chuling heaved a sigh of relief and took out an ice lotus seat with a radius of three meters.

Han Fei's eyes lit up.

The lotus seat was crystal clear and carved like a real piece of art. Part of it seemed to be covered by snow.

Information popped up in Han Fei's eyes.

<Name> Ice Snow Lotus Throne

<Introduction> It's made of the Ice Lotus of God, the Ultimate Frost Liquid, the Moonlight Sand, the Blue Jade Essence... and the soul of the Ice Lotus King Fish. It's very beneficial to cultivation.

<Quality> Sea Quelling Bizarre Treasure

<Soul Attachment> Ice Lotus King Fish

<Effect> Removes distracting thoughts, calms the mind, comprehends the Dao, promotes physical cultivation, promotes the absorption of spiritual energy and Chaotic Qi, and subtly improves the physique. Long-term consumption can enhance cold resistance.

< Recastable >

< Unrefined >

<Note> When wearing the Ice Snow Scepter and the Ice Snow Crown, the effect is doubled.

When Han Fei saw this thing, he was tempted. If he used it to cultivate in Forge the Universe, wouldn't the effect be better?

Even if he did not enhance the power of the Time Chain for the time being, it should be enough. In fact, what surprised Han Fei was that the Ice Snow Lotus Throne was a set with the Ice Snow Scepter and the Ice Snow Crown. If it was used with the latter two, the effect would be several times stronger.

When the three Sea Quelling Bizarre Treasures were put together, it would not be an exaggeration to say that it was an ultra-quality Sea Quelling Bizarre Treasure.

However, it was now given to him by Ice Snow Chuling. It could be seen that Ice Snow Chuling's status in the Snow God's Temple was higher than he had imagined!

Buzz!

Han Fei casually took Snowmourne out and tilted it into the ground.

Han Fei snorted in his heart. Since you don't want to acknowledge me as your master, go to your real master! Sigh, I don't care anyway.

Han Fei knocked the void with one hand, and a large amount of blood Qi overflowed from Snowmourne and was absorbed back by Han Fei.

Crack ~

In the end, Han Fei cut his connection with Snowmourne with the power of his soul.

Buzz!

Ring! Ring! Ring!

When Han Fei cut off the connection with Snowmourne, Snowmourne flew to Ice Snow Chuling and trembled.

At that moment, Han Fei saw that there was a resonance between Ice Snow Chuling and Snowmourne. Then, a shadow seemed to be attached to the body of Ice Snow Chuling from Snowmourne.

"Huff -"

Crack!

Almost instantly, Ice Snow Chuling made a breakthrough

She hurriedly took out a large amount of resources from the Sun-Moon Shell and quickly stabilized her realm.

Seeing this, Han Fei's lips twitched and he put away the Ice Snow Lotus Throne huffily.

F*ck, this is how you treat your real master?

Why did you take so much of my essence blood when you signed the contract with me?

Two hour passed.

The resources on Ice Snow Chuling were almost exhausted. Han Fei was considering whether to help her or not when Ice Snow Chuling's realm finally stabilized.

At this moment, Ice Snow Chuling slowly opened her eyes with a strange light in her eyes. "My illness has been cured."

Han Fei shrugged. "And you've become a Half-King by the way. Well, I feel that I should have asked for more resources from

you."

Ice Snow Chuling's face was slightly ruddy. She didn't expect to find her cure on this trip for the Dragon Blood Fruit.

Although she didn't know what her relationship with this sword was?

She knew that what was sealed in the sword was most likely the soul body she had lost.

She couldn't help but ask, "Han Fei, thank you. But I still want to ask, where did you get this sword? It might be related to some secrets of mine."

Han Fei was about to fabricate a random story when he suddenly pinched his fingers and his face changed.

In his heart, the old turtle reminded him too. "A king has come."

In the next moment, a faint voice sounded in the courtyard. "This sword was obtained in the Snow God's Temple. It's been 80,000 years... I didn't expect you to come out."

Snow was falling from the sky.

A beautiful woman wearing a long white cloak, holding a scepter, and wearing an ice crown quietly arrived.

Han Fei narrowed his eyes and said leisurely, "Snow Lady..."

Ice Snow Chuling's expression changed drastically. "Teacher."

Chapter 1725 The Past of the Snow God's Temple

The Snow Lady was the king of the Snow God's Temple and the teacher of Ice Snow Chuling.

Looking at the ice scepter in her hand and the ice crown on her head, Han Fei could easily know her identity. At this moment, Han Fei was ready to fight at any time.

After all, the Ice Snow Lotus Throne, the Ice Snow Scepter, and the Ice Snow Crown were a set. With the three together, the effect was twice as good.

Perhaps this was the secret why the Ice Snow World could pass down.

Hearing the Snow Lady's words, Han Fei couldn't help but frown. "What do you mean?"

The Snow Lady glanced at Ice Snow Chuling. "Chuling's last wisp of soul was not in the Raging Sea. But today, it appeared, which means that you are not from the Raging Sea. Are you... from the Yin-Yang World?"

"Hiss"

Han Fei gasped. How did she guess it?

Ice Snow Chuling was also shocked. "Yin-Yang World? The Yin-Yang World that has disappeared for countless years?"

The Snow Lady said lightly, "Chuling, do you know why your lifespan is depleting so quickly?" "Isn't it because of my extremely cold body?"

The Snow Lady shook her head slightly. "Because you're not from this era. You're so powerful because you're not a mortal, but a mysterious ancient fetus born in the snow. However, you were born at the wrong time. At that time, when humans sailed to the East, the Snow God's Temple was in a dilemma. In the end, I sealed your innate fetus in the Ice Snow Lotus Throne and took you to the East together."

Ice Snow Chuling felt a headache coming on. She knew that humans had sailed to the East, but she didn't know that she was a person from 70,000 to 80,000 years ago. The Snow Lady had never told her this.

Han Fei was also a little surprised. This was another person who had lived for tens of thousands of years but had been frozen until

now?

The Snow Lady said leisurely, "Although I took away the strange ancient fetus, you were already outstanding at that time and had grown up. This sword was your weapon back then. During the battle with the sea demons, it was lost in the Yin-Yang World. Therefore, after you broke out of the fetus, you were ill. Firstly, it was because you had been sealed in the Snow Lotus Throne for too long, and secondly, it was because you lacked a wisp of your original soul. I didn't expect to see it again today."

Han Fei said casually, "It's really bizarre."

The Snow Lady's voice was light. "It's not bizarre. There are countless ways to survive in this world. Some take over others' bodies, and some cultivate a reincarnation body... It's just different choices. But no matter which method, it's not a long-term solution. There will be a time limit. For example, if Chuling doesn't become a king within 300 years, she will definitely die. Even if she becomes a king, her lifespan will only be 10,000 years at most. But at that time, I will tell her the truth, and she will go to the Wild Abyss to explore."

Han Fei smiled casually. "Are you here just to tell me this story? I guess not, right?"

The Snow Lady looked at Han Fei. "The Yin-Yang World hasn't appeared for a long time, and the world has almost forgotten you. Now that you've appeared at this time, even Master of Infinity has been mobilized. You must be... Han Fei from the Avengers, right?"

Han Fei smiled. "Lord Snow Lady, you're quite good at guessing! But so what?"

Han Fei knew that the Snow Lady had no killing intent.

However, no matter what, he had been careless this time. Although the Snow Lady might not be able to discover him, she could easily know what Ice Snow Chuling was doing

This time, he was exposed because of his carelessness and arrogance. After all, Han Fei felt that he was not weak now. He already had the strength of a king and the Time Technique, so he didn't take the Snow God's Temple seriously.

The Snow Lady sighed. "You must be the strongest person in the Yin-Yang World to have the combat power of a king. So, you are the current master of the Yin-Yang World, right?"

"Hiss!"

Ice Snow Chuling looked at Han Fei in surprise. So she was cooperating with the master of a Heavenly Palace?

No wonder Han Fei could easily kill a Half-King. No wonder Han Fei was full of disdain when he heard about the Golden Crow World. No wonder he had King Shells.

The master of a Heavenly Palace, even if he was not a king, was still an existence comparable to the kings in the 36 Mystic Worlds. How could Jin Quan, the so-called king candidate, compare to him?

Han Fei chuckled. "Lord Snow Lady, you're eagle-eyed. It seems that my trip to the Ice Snow World was wrong."

However, the Snow Lady shook her head slightly and said, "You should be glad that you came to the Ice Snow World. Perhaps it's because of luck that after you came out of the Wild Abyss, I was the first king to see through your identity, not any other king."

Han Fei thought to himself, You're wrong. The first king to see through my identity was the King Ba Crab.

However, the first king to know his real identity was indeed the Snow Lady.

The Snow Lady said, "You are not a king yet, are you? Otherwise, the Ice Snow Lotus Throne shouldn't be of much use to you. Besides, once you become a king, your aura will be extraordinary, but you're still lacking something."

Han Fei asked casually, "So?"

The Snow Lady was sure that Han Fei wasn't nervous at all, and he even looked a bit arrogant. Obviously, even if he wasn't a king, he had the combat power of a king.

This indeed shocked the Snow Lady. It seemed that the previous rumors were true.

However, although the Yin-Yang Great Dao of the Yin-Yang World was powerful, it was not so powerful that a Half-King could cross realms to fight a King...

Obviously, Han Fei had other opportunities.

The Snow Lady said, "Do you know... that the Snow God's Temple comes from the Yin-Yang World?"

“Huh?”

The Snow God’s Temple said, “Back then, I was also a member of the Yin-Yang World. Among the 36 Heavenly Palaces, only I came from the Yin-Yang World. This is also why... the Yin-Yang World has the ruins of the Snow God’s Temple.”

“I’ve never heard of it.”

The Snow Lady continued. “I don’t know what your path to becoming a king is like, but the anomaly in the Wild Abyss happened not long ago. In less than a year, you angered the ten pirate groups and killed Half-Kings of the Five Elements World and the Golden Crow World. I don’t know why the Master of Infinity came... The outside world is in turmoil now. It won’t be easy for you to go to the Glazed Glass World. My suggestion is that you can wait in the Snow God’s Temple for half a year.”

Han Fei looked at Ice Snow Chuling, but she was also dumbfounded. I didn’t say anything about the Glazed Glass World.

The Snow Lady said, “What can be hidden from my eyes in the Ice Snow World? Chuling wants to arrange a big ship for you to go to the Sword God Palace, but... Now, all the big ships from the outer domain to the inner domain are monitored?”

Han Fei thought to himself, I just killed a few Half-Kings. Why did it cause such a big commotion?

The Snow Lady said, “You didn’t just kill a few Half-Kings. You must have done something else after you came out. I don’t want to know what it is exactly. It’s my repayment for you saving Chuling.”

Han Fei thought that it should be about the death of King Ba. In that matter, he had obtained the little vine and the Gravity Origin Magnet, which should be the reason why Master of Infinity came to investigate.

Han Fei secretly pinched his fingers. This matter was secret.

However, Han Fei wasn’t worried. At least, he had the Nine Palace Luck Ruler. He could just test his luck with it every day.

Han Fei asked, “Why half a year?”

The Snow Lady said leisurely, “In half a year, the Land of King Death will open. The inner and outer domains, the Merman Clan, the Undersea human race, the Hundred Demons Clan, and the Venerables and Heavenly Talents will all go there... There may be a chance to become a king there. More importantly, people from the Glazed Glass World will also go there.”

Han Fei was shocked. It was worth waiting for half a year.

Since the people of the Glazed Glass World would also be going there, he could just secretly follow them back to the Glazed Glass World.

Han Fei nodded slightly. “Okay! I’ll stay in the Snow God’s Temple for half a year.”

Although the Snow Lady came from the Yin-Yang World, since she was already a king, there was no need for her to help Han Fei. Once this matter was known by the Infinity World or other Heavenly Palaces, the Ice Snow World might be retaliated.

Therefore, if the Snow Lady did not have other motives, she was just being kind.

Han Fei couldn't help but smile. "Lord Snow Lady, do you trust me that much? Aren't you afraid that my news will be leaked and the Ice Snow World will be suppressed by the other Heavenly Palaces?"

The Snow Lady smiled faintly. "The Yin-Yang World has been silent for too long and has no allies outside. Therefore, you won't give up if you can win the friendship of the Snow God's Temple. You don't have to worry about my scheme. Before your Yin-Yang World can compete with the Heavenly Palace like the Infinity World, you can't bring any benefit to the Snow God's Temple."

Han Fei nodded slightly.

He didn't mind waiting for half a year. Anyway, it would take him time to go to the Sword God Palace, and there might be troubles on the way from the Sword God World to the Glazed Glass World.

Moreover, if the routes from the outer domain to the inner domain were really monitored, there might be trouble if he rashly went out. Although he was under the banner of the Avengers, this was only his temporary identity. He hadn't become a king yet and was not qualified to compete with the ten pirate groups and the 36 Mystic Worlds.

The Snow Lady did not ask anything else about the Yin-Yang World. She did not need to know.

Han Fei dared to stay here, which showed that he was quite confident.

The ranking of the Ice Snow World in the thirteen worlds in the outer domain wasn't very high. However, the Snow Lady knew that the ranking of the Yin-Yang World was once very high. If Han Fei could rise, the Ice Snow World would certainly benefit from it.

Of course, that wasn't the main reason.

The real reason was that it had been almost 90,000 years since humans' last trip to the **east.**

For human kings, 100,000 years of lifespan was a threshold. Kings were not immortal! If they wanted to live, they had to become emperors, or they would only be able to nurture the next generation.

Therefore, even Han Fei didn't know that the moment Han Fei saved Ice Snow Chuling, Snow Lady wanted to find an heir, so she didn't even talk about the Ice Snow Lotus Throne.

Chapter 1726 Purity Mystic Body

After the Snow Lady left, Ice Snow Chuling looked at Han Fei in shock and bowed slightly. "Greetings, Yin Yang Palace Master."

Han Fei was really not used to the salute of Ice Snow Chuling.

Han Fei couldn't help but smile. "You can either call me Han Fei or the Ninth Immortal Master! Yin-Yang Palace Master? It sounds awful."

Ice Snow Chuling: "..."

Han Fei asked, "What is the Land of King Death?"

Ice Snow Chuling said, "In the Raging Sea in the past, humans sailed to the east. At that time, sea demons, giant beasts, and the undersea human race also participated. However, the kings once had a great battle, and the cause was unknown. At that time, many kings died, and the place where the kings died became a dangerous place. Those who were not Heavenly Talents almost all died if they rashly entered."

Han Fei realized that this might be the war among the Heavenly Palaces that King Ba mentioned.

As for why this place had become a dangerous mystic place, it was easy to understand. For example, the Blood Sea Divine Wood City had become a danger zone now. And this danger zone was actually caused by the battle between him, Queen Life, the White Armor Emperor, Xue Fan, and the divine son.

Han Fei asked, "Are there many opportunities there?"

"Of course. In fact, some people became kings there back then, and some didn't. Many treasures were buried with them. It's said that many of those treasures came from an unparalleled secret realm in the east."

Han Fei knew what secret realm she was talking about... It was the place where his mother and Old Han dug the tree and escaped as King Ba mentioned.

However, in Han Fei's memory, even Venerables should be able to go to that place. And this Land of King Death was obviously not that secret realm, but a place where people fought for treasures.

Han Fei smiled. "In that case, help me get an identity! It'll be convenient for me to enter and exit the Ice Snow World. If I want to participate in the exploration of the Land of King Death, I'm afraid I have to have a decent identity."

Ice Snow Chuling bowed slightly. "My teacher will arrange it. The result will be out soon."

Han Fei nodded and said, "By the way, do you know which Heavenly Palace...the Heavenly Desolate City used to belong to?"

"Heavenly Desolate City?"

Ice Snow Chuling couldn't help but look at Han Fei. "That's the main city of the Ashless World. The king of the Ashless World died in the Land of King Death. They even disappeared from the Raging Sea earlier than the Yin-Yang World... No one knew where they had gone."

"Ashless World?"

Han Fei didn't have a deep impression of this Heavenly Palace.

When Old Han explained this world to him, he only felt that it might be somewhat connected to the Infinity Water.

After Ice Snow Chuling left, Han Fei closed his eyes and pondered for a while. The Ashless World is not in the Raging Sea? He still had no clue about rebuilding the Heavenly Desolate City!

But he was not in a hurry.

After all, he hadn't even found Xia Xiaochan yet. Now that he had left the Wild Abyss and the merman race was just in the inner domain, he wondered if he would meet Xia Xiaochan in the Land of King Death.

Thinking of this, Han Fei was very excited. He wondered how much Xia Xiaochan had grown after decades.

Be it spiritual energy, energy, or resources, the outer domain was far superior to the Yin-Yang World.

Xia Xiaochan had a growth-type spiritual heritage and had awakened a strange Heavenly Silkworm. At this moment, she must be at least a Venerable.

Three days passed.

The Snow Lady went out in a carriage, followed by countless people, and ice phoenixes drove the carriage for her across the sky, shocking the entire Ice Snow World. What was the purpose of such a grand trip?

A man wearing a cold mask suddenly appeared.

At this moment, Han Fei stood proudly in the void and the Ice Snow Lotus Throne hovered under his feet. With a wave of his hand, a hundred thousand saber shadows condensed into a huge ice snow phoenix and followed him.

Ice Snow Chuling came to Han Fei's side in one step, holding the Ice Jade Edict in her hand, and announced, "Today, there are two things to announce to the world. Firstly, the heavenly secrets have revealed that the Holy Child has arrived, and his name is Xue Zhan. From today on, he will enter the Snow God's Temple and will be second only to the king."

At this moment, Han Fei stood proudly in the sky with a cold mask on his face. His strength had reached the peak of the Venerable realm. Many people had investigated him. However, no one could find any information about him.

Han Fei's voice echoed in the air. "Secondly, because the Golden Crow World's king candidate, Jin Quan, died, the Holy Maiden is very grieved, so she won't find a fiancé again for a thousand years."

Some people from the Golden Crow World were still in the Ice Snow World... Seeing this scene, their expressions were extremely ugly.

"Good, very good... What an Ice Snow World. Lord Jin Quan had just died, and in order to not fulfill the engagement, they suddenly had a 'Holy Child'?"

Someone gnashed his teeth. "And the king of the Ice Snow World took him into the Snow God's Temple personally? It's obvious that she wants to fix them up so that Ice Snow Chuling doesn't have to marry another Heavenly Talent from our Golden Crow World."

It was a good excuse.

Since Jin Quan had died, the Snow Lady took a "Holy Child" into the Snow God's Temple and matched him with the Holy Maiden.

Although this was a slap to the face of the Golden Crow World, the people of the Ice Snow World were happy. Why did their Holy Lady, a woman going to become a king, have to marry someone from the Golden Crow World?

Although most people didn't understand why Han Fei entered the Snow God's Temple, the people in the Golden Crow World had various thoughts.

Although Jin Quan was dead, there were still other Heavenly Talents in the Golden Crow World.

To put it bluntly, the Snow Lady did not want to acknowledge this marriage, so she used Xue Zhan to ruin the engagement...

In any case, the name Xue Zhan instantly resounded throughout the entire Snow City.

While people were talking about Han Fei in the outside world, Han Fei was deducing techniques.

Ice Snow Chuling had found six body-tempering techniques for him, and Han Fei was deducing them one by one.

Before, Han Fei always felt that the deduction of the Demon Purification Pot was very expensive.

But now, he realized that he had only spent 10,000 ultra-quality spiritual stones and 66 wisps of Chaotic Qi to deduce the six great techniques to the peak of the Venerable realm. He had two million ultra-quality spiritual stones on him. How could he be short of this? It was nothing to him.

Han Fei finally had ten body-refining techniques.

They were respectively: Ancient Desolate War Body, Lightning Explosion Hammer, Lightning Body, Heavenly Fire Body, Ice Demon Body, Slaughter Mystic Art, Snow Demon Body, White Wave War Body, Water Demon Dao Body, Moon-Questioning Golden Body.

These ten techniques were Han Fei's last hope.

Excited, Han Fei gritted his teeth. "Fuse!"

In the past, Han Fei could get the 64-Dimensional Fish Dragon Dance by fusing three great techniques, which was a great technique even in the outer domain.

This time, they were all venerable-level divine-quality techniques. None of them were ordinary. He didn't believe that he couldn't even get one powerful body tempering technique.

"Fuse!"

Han Fei was surprised to find that this fusion would consume billions of spiritual energy, a hundred wisps of Chaotic Qi, and a drop of essence blood.

At this point, he certainly had to pay the price.

Ten billion points of spiritual energy was not much.

Back then, it cost him 500 million or 1 billion points of spiritual energy to deduce a single great technique. In Han Fei's opinion, it was not much and only equal to about ten thousand ultra-quality spiritual stones.

Although the hundred wisps of Chaotic Qi made Han Fei's heart ache, he couldn't care less now.

However, what surprised Han Fei was that it needed a drop of his essence blood to deduce the technique.

But now, Han Fei couldn't care less. He directly deduced it.

"Deduce"

Ka ka ka ~

The Dao of Fusion also required spiritual energy.

When the ultra-quality spiritual stones collapsed one after another, Han Fei felt that his Chaotic Qi was disappearing too. A drop of essence blood flew out of his glabella and flew to the Demon Purification Pot.

Han Fei didn't know that at that moment, raging waves were rising in the outer sea. In the sea near the Ice Snow World, a huge storm was condensing

After half an hour in Forge the Universe, a great technique appeared in Han Fei's mind.

Purity Mystic Body (Ultra-quality, Sea Establishment Realm)

Description: The body is pure and the mind is clean. Use spiritual energy, demonic energy, chaotic energy, and Mystic Yellow Energy to nourish the body and get rid of impurities to refine a Purity Divine Body. This technique is ranked 998th among all the body-tempering techniques in the Infinite Ocean.

Shortcoming: Requires a lot of extreme pure energy.

Deduction Cost: 1,000 wisps of Chaotic Qi

Note: This technique can be cultivated in any realm.

Han Fei: "???"

Han Fei had a weird look on his face. Ten divine-quality body-refining techniques for this? Only ranked 998th in the Sea Establishment Realm? Then what about in the Sky Opening realm and the Longevity Realm?

Of course, it could not be said that this technique was not strong. It ranked in the top 1,000 anyway, and there were almost 30 million races in the Infinite Ocean! From this perspective, was it weak? Clearly, it was not weak.

Moreover, the Purity Mystic Body could still be deduced, but it required 1,000 wisps of Chaotic Qi.

This made Han Fei's heart ache!

He only had a total of 1,273 wisps of Chaotic Qi left. He was not even willing to use them on the Time Chain, so he certainly would not be willing to use them to deduce the Purity Mystic Body...

Han Fei sighed. "Fine, I'll practice it first. At least it's better than the Supreme Mystic Body!"

Chapter 1727 High Bloodline Cultivation Speed

The appearance of the Purity Mystic Body meant that Han Fei could refine his body again.

Han Fei had nothing but ultra-quality spiritual stones.

With so many ultra-quality spiritual stones to refine the Purity Mystic Body, it was only a matter of time before he reached the limit of a Half-King.

As soon as Han Fei entered the Snow God's Temple, no one could find him at all, not even Ice Snow Chuling

Two months later in Forge the Universe, Han Fei's nose was almost bleeding.

Han Fei had thought that the spiritual energy contained in ultra-quality spiritual stones was pure enough... However, after cultivating the Purity Mystic Body, he found that the ratio of pure energy in a ultra-quality spiritual stone that was required by the Purity Mystic Body was only about one percent.

Han Fei was very disappointed. He could have absorbed ten billion points of spiritual energy with ten thousand ultra-quality spiritual stones, but now he could only absorb a hundred million points of pure spiritual energy.

Han Fei had no choice but to use the remaining 9.9 billion points of spiritual energy to expand Forge the Universe.

This expansion took two months, expanding the space in Forge the Universe to a radius of 270 kilometers.

Besides, as Han Fei's cultivation continued, this expansion would continue.

Fortunately, what gave Han Fei a pleasant surprise was that the Ice Snow Lotus Throne was indeed a mid-quality Sea Quelling Bizarre Treasure. In just two months, with the help of pure spiritual energy, Han Fei had achieved twice the result with half the effort in cultivation.

This day...

Buzz!

Han Fei was still cultivating. Suddenly, he felt that his body was desperate for energy.

Han Fei subconsciously saw chaos in his eyes.

In addition, Han Fei felt that his five senses, his lifespan, and his life potential had suddenly changed drastically

“Huff!”

This feeling lasted for three seconds.

Han Fei couldn't help but look at his information.

Owner: Han Fei

Level: 89 (Peak Venerable)

Bloodline Ranking among the Clans in the Infinite Ocean: the 3,460,564th

Chaotic Qi: 1,273 wisps

Spiritual Power: 209,681

Perception range: 120,000 kilometers

Strength: 23,906 Waves

First Spiritual Heritage: Unknown

Second Spiritual Heritage: Unknown

First spiritual beast: Twin Yin-Yang Spirit Swallowing Fish (level 78)

Second Spiritual Beast: Emperor Sparrow (Level 75)

Main Art: The Seventh Level of Void Fishing, Void Descending Art (King Level, Divine Quality)

The first thing Han Fei noticed was that his realm had dropped.

Yes, he had actually fallen from the Half-King realm to the peak of the Venerable realm.

What Han Fei had been worried about finally happened. This bloodline devouring technique was powerful, but he still became a peak-level Venerable from a Half-King.

In any case, Han Fei didn't want to see it happen.

Once his realm dropped, it meant that he had to make breakthroughs again. Back then, in order to break through to the Half-King realm, he risked his life to cultivate the Indestructible Overlord Body.

Now, after he devoured three bloodlines in a row, his realm had dropped.

The only thing that made Han Fei glad was that his overall strength was not weakened.

First of all, his bloodline ranking among the clans in the Infinite Ocean had increased by more than 600,000.

Considering the fact that there were over 30 million races in the Infinite Ocean, 600,000 might not be much, but it meant 600,000 races! In a short period of time, he had actually increased his bloodline ranking by more than 1.6 million. How exaggerated was that?

Besides, Han Fei knew very well that as long as he could keep devouring stronger bloodlines, the inhuman bloodline growth speed would continue.

After increasing by more than 1.6 million, Han Fei's realm finally dropped. In fact, Han Fei was already strong enough.

This meant that Han Fei's potential was one level higher than before.

Then, he looked at the other information: The increase in spiritual power should be the feedback after he killed three Half-Venerable Kings, peak-level Venerables, and advanced Venerables in a row.

After all, the increase in bloodline was only a huge increase in potential and could not directly affect the power of the soul and strength.

ev

II VCI

However, the improvement of his bloodline power seemed to be able to affect Han Fei's perception range. His realm had fallen, but Han Fei's perception range had increased by 20,000 kilometers.

At this point, Han Fei's perception range might have reached the Sea Establishment Realm.

In terms of strength, Han Fei had increased it by about 2,200 waves.

Among them, only a small portion was brought about by the improvement of his bloodline. Most of them were because he cultivated the Purity Mystic Body.

Cultivating the Purity Mystic Body, as the name suggested, was to forge the body into a pure, flawless body.

Even his golden body, from the perspective of the Purity Mystic Body, could not be considered a complete golden body before it was thoroughly transform into a golden body.

As for Han Fei, his bone marrow hadn't been turned into golden marrow, which was a big drawback from the perspective of the Purity Mystic Body.

In the past two months, Han Fei had digested most of the power released by the old turtle only by rinsing his body with spiritual energy.

However, he hadn't even completed the first step of cleansing himself.

"Huff!"

At this moment, Han Fei hesitated. Should he continue to devour the bloodline? If he did, he would have to devour a king-level bloodline.

If he swallowed another bloodline, his realm might drop to the advanced Venerable level...

In fact, he could increase his bloodline level in any realm.

Even if he had transcended the tribulation and become a king, he could continue to improve his bloodline.

And the difference in combat power between kings and those below the king realm was too great!

Although he could keep devouring bloodlines in the Venerable realm, when facing a king, he could barely fight him for a few seconds. In the end, he was not a true match for a king.

Han Fei struggled a bit at this question.

In the end, Han Fei decided to devour another bloodline.

After all, he still had to stay in the Snow God's Temple for half a year. If he cultivated in Forge the Universe, it would be eight years in the outside world.

In these eight years, he could devour bloodlines while cultivating.

In just two months, his strength had increased by more than 2,000 waves.

Then, eight years later, Han Fei couldn't tell what he could do with the Purity Mystic Body.

Han Fei glanced at the information.

Clans in the Infinite Ocean: 29620223

Master: the 5065890th

Nearby Bloodlines: Ancient Essence Shell, King Ba Crab, Ancient Azure Dragon, Golden Crow Divine Blood, Time Dragon Carp, Twin Yin-Yang Spirit Swallowing Fish...

Recommended Bloodline: Ancient Essence Shell, King Ba Crab...

Seeing the recommended bloodlines, Han Fei knew that he could only swallow these two. If he guessed right, these two should be of the same level and were both in the king realm.

However, the King Ba Crab was clearly more talented than the White Armor Emperor.

Therefore, Han Fei chose the bloodline of the King Ba Crab and swallowed it.

A moment later.

When the shadow of a small crab appeared in Han Fei's dantian, 4,521 days appeared in the information.

Han Fei had a weird expression.

Sure enough, he guessed right. The higher the level of the bloodline he swallowed, the longer it would take.

He thought that eight years should be enough for him to complete this bloodline devour, right?

But now, it seemed that eight years was not enough. It would take more than twelve years to devour and absorb the King Ba Crab's bloodline.

Han Fei smiled bitterly. After this deduction, even if he was given a chance to devour higher-level bloodlines, he would choose to give up. Compared to the current improvement of his bloodline, he was more eager to become a king.

The increase in bloodline was only an increase in life level and potential.

No matter how strong his potential was, it was still potential and could not be directly converted into combat power.

However, it would be different if he became a king. How many times would his strength increase? At that time, he would be able to kill anything in his way.

But now that Han Fei had swallowed it, he could only work hard to cultivate and become a Half-King again as soon as possible. In this way, his level wouldn't drop again after the next bloodline devoured...

Han Fei thought that his life of bitter cultivation had begun.

However, as soon as Han Fei began to draw spiritual energy to cleanse his body, the old turtle spoke after only three days in Forge the Universe.

The old turtle said, "Why don't you stop cultivating for a while? Many people seem to be causing trouble outside your house."

Buzz!

Han Fei recovered from his cultivation and found the Purity Mystic Body too awesome.

Coupled with the Ice Snow Lotus Throne, in just three days, his life level had actually increased by a hundred waves. If this continued, it was only a matter of time before he returned to the Half-King realm.

Han Fei said impatiently, "Someone is causing trouble outside my house? Are you kidding me? I'm in the Snow God's Temple."

The old turtle said, "It's the Snow God's Temple. Although you're not affected, if these people clamor outside every day, people will doubt your identity as the Holy Child of the Snow God's Temple."

Han Fei frowned. "Fine, let me take a look."

Swish ~

Han Fei appeared in this desolate palace.

As the name suggested, the Snow God's Temple was snowing all year round. Everyone was wearing snow-white cloaks.

Han Fei lived in a courtyard that only those close to the Snow Lady could stay in. There was a powerful seal outside the courtyard.

The courtyard was like a normal courtyard. Apart from the snow around, the biggest difference from the Central Holy City of the Yin-Yang World was that there were many snow patterns here.

Han Fei heard a lot of voices.

Someone shouted, "Holy Child Xue Zhan, come out!"

"Xue Zhan, let's compete for Holy Lady Chuling with our own abilities. If you don't come out and say something, we'll block the door every day."

"Xue Zhan, I admit that you're the Holy Child. However, you have to convince us. Come out and fight us."

"Come out and fight..."

Buzz!

Ice Snow Chuling arrived at this time, and countless people outside bowed. "Greetings, Holy Lady."

Ice Snow Chuling was slightly angry. "I told you that Xue Zhan is cultivating in seclusion. Why do you clamor outside his house every day?"

Someone said, "None of us knows Xue Zhan. We believe in the appointment of the Snow Lady, but we have to be convinced."

Someone said, "I'm also a peak-level Venerable. I'd like to invite him to fight me."

Han Fei shook his head slightly. These people... It seemed that his identity came too easily. He had to show them what he was capable of.

Han Fei took out an ice mask and covered his face.

Outside, dozens of high-level Venerables were shouting

People were watching from all directions.

Someone sighed. "It's been several days. Will our Holy Child keep avoiding the battle?"

Someone shook his head. "That's outrageous. How can we trust his ability if he keeps avoiding the battle?"

Buzz!

Suddenly, a figure appeared quietly on the high wall.

"You guys are really annoying! Since you want to lose... then come at me together!"

Chapter 1728: None of You Can Fight

When Han Fei appeared, everyone fell silent.

Han Fei was mysterious in their eyes, not to mention that he was wearing a mask...

Ice Snow Chuling felt her head swell. You're the Ninth Immortal Master! Are you really going to fight?

Buzz!

In an instant, the people were in an uproar.

There were dozens of peak-level Venerables here. How could they tolerate Han Fei's insult?

Someone's face turned ugly. "Holy Child, who has the same status as Holy Lady

Chuling, wears a mask all day long. Why? Are you afraid to show your face?"

Someone said in a cold voice, "I heard that the Holy Child is very strong, but isn't it too humiliating to ask us to fight him together?"

Someone echoed, "That's right. Although we are not as strong as Holy Lady

Chilling, we are among the strongest in the Snow God's Temple. How can Master Holy Child look down upon us?"

Someone shouted, "I'm Fan Biao, a peak-level Venerable. Please fight me, Master Holy Child."

Ice Snow Chuling sighed in her heart. She hoped that nothing bad would happen. After all, the dignity of a king could not be violated.

Han Fei put his hands behind his back and chuckled indifferently. "In that case, come at me together! Let's finish it today, lest you bother me again."

In the distance, a Half-King snorted. "How arrogant. How can such a person become the Holy Child?"

A passerby said indifferently, "The Holy Child who was chosen by the Snow Girl must be more than that. Let's keep watching."

At the peak of the Venerable realm, very few people in the Snow God's Temple could compete with Han Fei. Except for the Half-King, there were only more than 30 peak-level Venerables. Almost all of them were here today.

In front of Han Fei, the void was torn apart, but no one saw any movement from Han Fei, which surprised them slightly.

Before Han Fei went in, he said indifferently, "Come on in, all of you! I'm very busy."

Everybody was infuriated by Han Fei's contemptuous and arrogant attitude.

He was a peak-level Venerable too. Do you think you're a king?

"Let's go and meet him."

"Hmph! I want to see how powerful he is."

"Let's go together. I want to see what kind of person is worthy of becoming the Holy Child."

Swish! Swish! Swish!

One peak-level Venerable after another left.

When these peak-level Venerables moved, many advanced Venerables and even intermediate Venerables in the entire Snow God's Temple broke through the void to watch the battle, let alone Half-Kings.

Even in the Heavenly Palace, the Snow Lady was looking at the void.

Although these people were definitely not Han Fei's match, since Han Fei pretended to be a peak-level Venerable, he couldn't use too much power beyond that level. Then, this battle would be interesting.

In the void, Fan Biao held a Vajra Silver Rod. The rod trembled slightly, and there were overlapping shadows. It looked quite powerful.

Han Fei glanced at these people. "I'll give you another chance. Come at me together. Maybe you'll have a chance."

"Ahhh... Don't underestimate me, Phantom Rod..."

Bang!

Fan Biao attacked.

The void behind him collapsed, and the rod shadow swept over. In the blink of an eye, dozens of rod shadows appeared in the sky.

The corners of Han Fei's mouth curled up slightly. It was just a rod attack created with high-frequency vibration. It was no better than his Monkey King's Three Thousand Sticks.

Faced with such a violent strike, Han Fei gently stretched out a hand under the shocking shadows. Boom —

The Venerables: ‘

At that moment, although the void behind Han Fei was shattered, Han Fei stood proudly in the void, still indifferent and emotionless.

Crack... Crack...

Han Fei grabbed it with one hand and crushed the terrifying rod shadow.

"Hiss

Someone secretly exclaimed, "This person's physique is so strong! He withstood Fan Biao's Phantom Rod with a single hand?"

Someone swallowed. "It turns out that this person... is an expert in body refining... It's indeed rare for a body refiner to reach such a realm."

A Half-King said indifferently, "His physique is even stronger than that of an ordinary Half-King."

Someone said stubbornly, "Although his physique is strong, it is only physique.

Let's wait and see his combat ability."

In the field, Han Fei casually waved his hand in the air.

Chi la!

A void saber light and a dazzling invincible intent instantly crossed the sky and slashed at Fan Biao.

Fan Biao suddenly retreated and counterattacked.

Clang! Clang! Clang! The sound of colliding rang hundreds of times. Fan Biao's hands were covered in blood, and he almost tried his best to barely block Han Fei's casual attack.

Fan Biao was shocked. One strike was enough to make him sink into the mud! He almost couldn't fight back.

Chi la!

However, just when Fan Biao thought that he had blocked Han Fei's attack, the void trembled, and Han Fei appeared directly behind him.

"Oh no

"Puff

Many people were shocked. Han Fei grabbed the void crack with his hand, froze the time and cut at Fan Biao in an instant.

With one slash, Fan Biao was cut into two.

And Han Fei acted as if he had done something trivial. He still put his hands behind his back and said disdainfully, "If I can cut your body in half, I can stop you from being reborn with a drop of blood. As I said just now, you'd better come at me together! It's more interesting with more people."

Fan Biao was shocked. Perhaps other people's feelings were not as deep as his own. In the beginning, he did not use his Great Dao because it was his trump card.

However, when he received Han Fei's attack, he knew that he would never have the chance to use his Great Dao again. If he didn't resist, he would be killed instantly.

When Ice Snow Chuling saw this scene, she couldn't help but exclaim in her heart. Although she could also defeat Fan Biao at the same level, it was definitely not so easy. It was almost a one-hit kill. The two of them were completely incomparable.

The other peak-level Venerables all had ugly expressions.

Fan Biao might not be the strongest among them, but he was definitely not the weakest. Since Han Fei could defeat Fan Biao so easily, it wouldn't be difficult for him to beat them.

Therefore, someone immediately responded, "Master Holy Child, since you think you can fight so many people alone, we'll just do as you want..."

As soon as he said this, he looked at the others and shouted in a low voice,

"We've seen the strength of Master Holy Child. It's indeed unfathomable! I, Yang Zhen, am convinced, but it's really a blessing to be able to exchange blows with an expert like the Holy Child."

Han Fei was even more disdainful.

If you want to gang up on me, then do it... Why do you have to find a dignified reason for yourself? This is probably a common problem for most people. They just can't quite recognize reality.

To put it bluntly, they didn't want to admit they were weak.

When the 30 peak-level Venerables were ready, many of them had already fused with their spiritual beasts and activated their Great Dao. Dozens of domains even rose.

Many people were thinking, I'd like to see... how this Holy Child can break my domain.

Buzz!

Han Fei smiled, and Infinity Water flew out, forming a blade purgatory.

Han Fei grinned. "I'm coming..."

Swish!

Han Fei instantly broke through the void.

The first to bear the brunt was an ice domain surrounded by icicles. These icicles could both attack and defend.

Bang!

The icicles shattered, and the man was sent flying a hundred kilometers away.

On the other side, a man was extremely fast, trying to fight Han Fei with his speed. However, when he approached Han Fei, he suddenly felt that his body became extremely heavy, and his speed suddenly slowed down.

Han Fei reached out and gently cut him in half.

In the end, the person still had the time to shout, "The Great Dao of Gravity?" In another domain, Han Fei used the Great Dao of space and activated the Near at Hand Technique.

Swish! Swish! Swish!

Han Fei took the initiative to chase the person. After only three steps, the man was caught up and pierced through by Han Fei's finger.

The man was shocked. "Master Holy Child is really powerful. He actually cultivates the Great Dao of Space too."

A moment later, when Han Fei destroyed several domains easily, someone smiled bitterly. "The Great Dao of Strength? Master Holy Child, how many Great Daos do you cultivate?"

The 30-odd peak-level Venerables seemed to be a lot of people, and all kinds of attacks covered almost everywhere.

However, Han Fei's figure was too fast, and he would use the Star

Teleportation Technique from time to time. Even if Han Fei couldn't dodge it, his physique was still so strong that these people felt powerless.

Everyone was lost for words. How many Great Daos does Han Fei know? Don't you know that the path to becoming a king means to follow a single Great Dao to the end?

Someone was blown up by a punch. After he was reborn, he was horrified. "What a terrifying power! A peak-level Venerable has such strength. Why didn't I discover it before?"

Someone was shocked. Han Fei's speed, strength, and combat skills were all extraordinary. He took so many Great Daos but still reached such a level... Was this guy still human?

Even Ice Snow Chilling was speechless. Is this the master of the Heavenly Palace in the Yin-Yang World? Why does he look so at ease when he dabbles in so many Great Daos?

Could it be that all Heavenly Masters were so heaven-defyingly powerful?

In just five minutes, more than thirty peak-level Venerables were all defeated, and the onlookers were dumbstruck.

Someone sighed. There was no way to fight this battle.

Someone wanted to trick the Half-King into challenging Han Fei, but the Half-King glared at him. "If I beat him, it means that I didn't win fair and square. If I can't beat him... I'll lose face. Don't get me involved in this."

Walking out of the void, Han Fei said indifferently, "Huh! None of you can fight... Does anyone else want to challenge me? If not, I'm going back to cultivate."

Everyone was stunned. Suddenly, someone said, "Master Holy Child, since you're so powerful, why don't you fight the Violent Hurricane this time? This time, the Violent Hurricane formed outside the Ice Snow World. If the Sea Shaking Wind Pearl falls into the hands of others, wouldn't it show that our Snow God's Palace has no one capable?"

"Huh? Sea Shaking Wind Pearl?"

Chapter 1729 Violent Hurricane

Han Fei couldn't help but look at Ice Snow Chuling

Han Fei knew that there were violent hurricanes in the outer sea.

However, Han Fei had never learned this information from those people's memories.

Han Fei felt that hurricanes were common on the sea. What was so special about it?

However, from the looks of it, there seemed to be some hidden secrets...

Ice Snow Chuling knew that Han Fei didn't know much about the Raging Sea, so she explained via voice transmission, "In the Raging Sea, violent hurricanes are very terrifying. Because the wind is too strong, the wind in the Central Wind Domain will gather and condense into a treasure called the Sea Shaking Wind Pearl. This pearl is very precious. After swallowing it, you can comprehend the power of the wind.

However, this pearl is extremely rare and will only appear in violent hurricanes. Therefore, it has become a treasure that everyone competes for in the outer domain.”

Han Fei thought to himself, It’s not bad to increase my speed.

Han Fei couldn’t help but ask, “Is this bead valuable?”

She was stunned for a moment and thought to herself, Is the Yin-Yang World not very rich? Why does Han Fei value money so much?

She responded, “Yes! It’s valuable, but it depends on how you measure it. Some people think that it might be worth more than ten ultra-quality Divine weapons. However, for me, this bead is a Sea Quelling Bizarre Treasure.”

“Hiss!”

Han Fei was shocked. He wanted this bead.

Han Fei looked at the person who spoke and said leisurely, “What you said is not wrong. In that case, I’ll go there. It’s not because of the Sea Shaking Wind Pearl, but because we can’t let others grab the treasure from our Snow God’s Temple.”

Ice Snow Chuling was speechless. Just now, you asked about the price. Now, you said you actually didn’t want the Sea Shaking Wind Pearl?

The peak-level Venerables were all stunned. Is the Holy Child really going to get the pearl?

Generally speaking, only Half-Kings dared to go to the Central Wind Domain where a violent hurricane was produced.

However, some people also wanted to see how strong Han Fei was.

Therefore, someone suggested, “Master Holy Child, the violent hurricane has formed for five days. In another two days, the wind will be at its strongest. However, it may be slightly off the route of our Ice Snow World. If you can really take back the Sea Shaking Wind Pearl, we’ll be convinced by your ability.”

“Hmph!”

Han Fei snorted. “Do I need you to be convinced?”

With that, Han Fei glanced at Ice Snow Chuling. “I’m going out for a while, but I don’t like leading teams. It’s meaningless for these people to go.”

“Hey, wait a minute...”

Buzz!

However, before Ice Snow Chuling could finish, Han Fei had already flown away.

This scene made the onlookers explode. What do you mean it doesn’t matter if we go or not? How can you insult us again?!

“Hmph!”

Immediately, someone snorted. "The undersea human race, the hundred demon race, and the Wind Slashing World... All the major forces must have sent many strong masters to compete for the Sea Shaking Wind Pearl... I'd like to see how he can get it alone."

Someone sneered. "Since he doesn't care about us, why should we help him?"

Someone said, "We're not Half-Kings yet. Let's follow the Half-Kings to see if we can get the pearl. As for the Half-King, let him count on himself..."

Seeing this, the Snow Lady felt that Han Fei might be too arrogant.

However, it made sense. To be able to dominate the Yin-Yang World, he might be the strongest person in the Yin-Yang World and the Water-Wood World. Han Fei indeed had the chance to look down on everyone.

Unfortunately, no matter how strong Han Fei was, he was not a king yet.

Since he was not a king, he was not worth being betted on. She would just wait and see. Outside the Ice Snow World.

About two million kilometers away from the Ice and Snow Sky, this place was not on the major routes of the Ice Snow World at all.

However, because it was very close to the Ice Snow World, it was not far. Therefore, it was not easy for Venerables to get lost here.

Han Fei easily found the location of the violent hurricane.

However, Han Fei didn't attack directly.

This violent hurricane covered a huge area, covering a radius of 50,000 kilometers.

Han Fei had never heard of such a huge wind field. In the wind field, as soon as he released his perception, he found that his perception was blown away by the wind.

The old turtle said, "The wind here contains the power of the Great Dao. Obviously, it's the Great Dao of Wind. In fact, this kind of storm is very common in the Age of Gods and above the vast sea. This wind field is not big. It's just a small wind field."

Han Fei was lost for words. "You call this small? Does your Age of Gods have that Sea Shaking Wind Pearl?"

The old turtle said, "The Sea Shaking Wind Pearl they mentioned should be a Wind Pearl. It's a Great Dao crystal that contains the Great Dao of Wind. It should be useful for Venerables, but not for Sea Establishers."

Han Fei thought to himself, Whatever! As long as it's useful for Venerables, I can still use it.

Before Han Fei entered the Wind Field, he sensed a group of sharks outside the Wind Field.

Yes, Han Fei saw it absolutely right. It was a group of sharks.

These sharks looked a little like Blood Shadow Sharks. Each of them was less than twenty to thirty meters in size.

Of course, Venerables could change their body sizes at will. Perhaps this was related to the habits of sharks. If they wanted to move in groups, they couldn't be too far away, so they didn't need to be too big.

In fact, it was very convenient to swim with a smaller body.

"Sharks?"

Han Fei's eyes glittered. A shark in the Venerable realm must contain a lot of Chaotic Qi. If he took all of them, the consumption of his technique deduction might be recovered.

After absorbing all the ordinary dragon bones, Han Fei still had a dragon head that was tempered by heavenly tribulation, a dragon tail, and a complete azure dragon body.

However, these were still useful. The dragon head and dragon tail were top-notch materials in the Sea Establishment Realm. They might be useful in the future. The body of the azure dragon might be able to exchange for more things with the soul of the azure dragon in the future.

In addition, Han Fei had no source of Chaotic Qi.

Little White didn't like to spit out Chaotic Qi, and her current realm wasn't high enough. In a month, she could only spit out a wisp of Chaotic Qi. It was better to hunt a few Venerable-level demons.

As the name suggested, the Hundred Demon Clan was a gathering of hundreds of demons.

Outside the wind field, the 12 sharks began to transform when they approached the wind field.

Under Han Fei's gaze, the sharks turned into human forms, but their heads were still that of sharks. Their upper bodies were all muscular, making them look like violent freaks.

Han Fei: "..."

Han Fei couldn't help but sigh. The Shark Clan is so ugly!

Suddenly, Han Fei seemed to understand what the people of the Water-Wood World were thinking when they saw the people from the Yin-Yang World! They had no other thoughts but that they are so ugly!

It was clearly a fish, but it had to become a human. In the end, it became a fish-human freak.

Han Fei's black-mist body approached quietly.

Soon, when Han Fei approached them, he saw the relevant information.

<Name> Blood Shadow Shark

<Introduction> A common shark species. Due to the different evolution directions, they gave up their original bodies and became half-human and half-shark. Shark humans inherit the characteristics of Blood Shadow Sharks and are extremely aggressive. They are extremely sensitive to blood. When fighting or hunting, their bodies can turn into shadows and quickly approach and hunt.

< Level > 89 (Half-King)

< Quality > Rare

<Chaotic Qi> 306 wisps

<Effect> Eating it can strengthen one's Qi and blood.

<Collectible> Teeth, fins, fish bones,

<Absorbable>

Han Fei was relieved to see the message, but then he was thrilled. They were simply a bunch of cash cows!

Under normal circumstances, if these Blood Shadow Sharks evolved completely and became real humans, the Demon Purification Pot probably wouldn't be able to read their information.

Unfortunately, this might be their highest humanoid form in the Venerable realm. Therefore, Han Fei saw the amount of Chaotic Qi they contained.

The key was that the Chaotic Qi could be absorbed!

The Chaotic Qi of these guys could be absorbed. In addition to the Half-King he saw, there were three peak-level Venerables, and the rest were all advanced Venerables.

At this moment, Han Fei was full of excitement. However, he still scanned the area within a hundred thousand kilometers with his perception. After finding no one else, Han Fei decided to attack directly.

Han Fei's black-mist body was calmly attached to the Half-King's body.

As for the other three peak-level Venerables, he only needed to send a few projections to kill them.

Just as Han Fei was about to make a move, the Half-King shark said, "Wait for two more days. When the hurricane is formed, the space in the wind field will be chaotic, and we'll set up a Star Net. This time, we'll take the Sea Shaking Wind Pearl and hunt strong masters of the human race."

"Lord Blood Jade, won't this anger the human kings?"

The Half-King sneered. "The Fierce Wind Pirates will deal with the human kings."

Someone said, "Sir, I just don't believe in the Fierce Wind Pirates. After all, they are also human pirates. Can we believe them?"

"Heh ~"

The Half-King sneered. "You don't understand. The so-called races are not worth mentioning in front of interests. Humans have their own motives."

"Huh?"

Han Fei was about to attack.

However, it seemed that these people had other motives. If he killed them now, wouldn't he alert the enemy?

Chapter 1730 The Hundred Demon Clan's Plan

Han Fei spent two days on Blood Jade's body.

In the past two days, these sharks had set up a concealment array to hide themselves. This way, they could avoid encountering humans and fighting them directly.

Indeed, every time a violent hurricane was about to form, someone would come over.

In the past two days, these sharks had basically been eating and drinking for two days. Occasionally, they even chatted with each other.

The Half-King, Blood Jade didn't notice anything wrong. He even boasted to the other sharks, "Do you know that the Land of King Death will open in half a year? At that time, blood will definitely flow like a river. In order to reduce competition, open or secret struggles began decades ago. Among humans, competition is particularly prevalent..."

Han Fei had been listening to the shark's bragging for two days. This was the first big shot Han Fei met who would tell his little brothers the whole plan.

Han Fei was lost for words. Compared to the Half-Kings in the Yin-Yang World and the cage, this shark was probably the worst Half-King he had ever seen.

You revealed all your secrets to your subordinates for no reason. Other than looking cool, what else can you get?

Anyway, Han Fei already knew their plan.

The secret was that the Hundred Demons Clan had cooperated with the Fierce Wind Pirates.

When the violent hurricane took shape, they would set up an inescapable net to hunt the human prodigies.

At this moment, they were certain that at least the Heavenly Talents from the Wind Slashing World, the Blue Cloud World, and the Hundred Flowers World were going to attack. The purpose of the Fierce Wind Pirates was to hunt these Heavenly Talents.

As for the hundred demon race, they wanted the Sea Shaking Wind Pearl and half of the plundered resources.

However, in Han Fei's opinion, these so-called schemes seemed to have nothing to do with him.

Han Fei didn't care about these outsiders...

Han Fei only knew that this time, many people from the Hundred Demon Race had come. If he could kill fifty percent of them, he would be able to collect thousands of Chaotic Qi, which was equivalent to thousands of dragon bones.

After all, Blood Jade alone had 306 wisps of Chaotic Qi on him. He was simply a cash cow!

Two days passed.

A conch lit up in Blood Jade's hand.

Buzz!

Blood Jade perked up and shouted, "Everyone, prepare to attack."

The sharks also perked up. Each of them took out a milky-white sea cucumber-like thing.

Han Fei took a look, and a certain message appeared.

<Name> Star Silk

<Introduction> It's made of Shadowless Ginseng, Transparent Sea Silkworm, Spirit Devouring Jellyfish, Star Concealing Grass, and Invisible Bamboo. It can find and entangle a specific enemy without making a sound. It's almost impossible to detect it unless your soul power is extremely strong.

<Quality> One-time high-quality divine weapon

<Soul Attachment> Shadowless Ginseng

<Effect> Quietly lock onto the enemy's position

< Recastable >

<Refined>

<Remarks > There is a certain chance for people with an extremely strong soul to discover it.

Han Fei's heart did a flip when he saw it. This was a good thing! It could even actively find and lock onto the enemy! This was equivalent to planting a tracker on the enemy!

Swish! Swish! Swish!

Suddenly, the group of sharks released these Star Silks as if they were flying kites.

"Pfft!"

The moment they released them, Blood Jade's body was instantly cut into several pieces.

The moment the Star Silks were released, these sharks lost their value.

Han Fei was much faster than them. In the blink of an eye, the Half-King was cut into pieces.

When his black-mist body attacked, his white-mist body also attacked instantly. At the same time, eight peak-level Venerable projections of Han Fei appeared...

"Who are you!"

"Run quickly!"

"Pfft!"

How could they escape when Han Fei attacked? Anyone below the peak-level of the Venerable realm was killed in one blow. After grabbing them with the Void Lines, Han Fei began to devour their Chaotic Qi crazily.

In an instant, except for Blood Jade that was cut into pieces by Han Fei, no one else survived and they all became Han Fei's "food".

Han Fei didn't kill Blood Jade immediately because he wanted to see what secrets this person had in his memory. After all, a Half-King had lived longer and knew more secrets.

After quickly devouring the Chaotic Qi, soul, and vitality of the other sharks, Han Fei picked up their Sun-Moon Shells. After finding the bamboo pieces they used to control the Star Silks, Han Fei controlled Blood Jade and disappeared.

More than 300,000 kilometers away, Han Fei casually set up a concealment array and sneaked in.

About a hundred seconds later.

"Huff ~"

Han Fei suddenly opened his eyes and frowned. The Soul Searching Technique was also flawed. When he looked at too many memories, they were easy to mix up with his own memory.

Fortunately, Han Fei cut off part of the memories.

In the so-called Hundred Demon Race, there were various teams... Some of them were all turtles, some were shrimp soldiers, some were crabs, and some were octopuses... There were also a few teams that were composed of miscellaneous animals.

These teams appeared in various places outside the violent hurricane, moving following the direction of the violent hurricane.

Although the location of these people wasn't fixed, as long as one followed the Star Silks, he could probably find them.

As for the other parts of Blood Jade's memory, most of them were just bragging. The status of the Hundred Demon Clan was not high, and it had been established for less than 40,000 years. Therefore, they had never participated in many things back then.

Perhaps the kings of the Hundred Demon Race had participated in those things.

However, how could a king easily reveal those messy past events to his subordinates? Most of the time, they would only use benefits to fool them... That was what kings would do.

Although it wasn't very useful, Han Fei did see some memories about the Fierce Wind Pirates and the Hundred Demon Kings.

In his memory, there were as many as 12 kings in the Hundred Demon Race.

This number shocked Han Fei. These were only the kings of a race. In addition to the hundred demon race, there were also undersea human race, the mermen, and the giant beasts...

The Hundred Demon Clan was just a weak force in the Raging Sea. They had a large number of sea demons and had their own waters. Their method of finding the way was no better than that of humans.

After Han Fei completely absorbed the Chaotic Qi of Blood Jade, his Chaotic Qi soared to 406 wisps.

A Half-King Sea Demon Venerable had more Chaotic Qi than all the remaining Sea Demon Venerables.

Han Fei was thrilled.

Sure enough, hunting in the sea was really profitable. It was almost certain that he could have more than 2,000 wisps of Chaotic Qi after this operation.

At that time, if possible, he could consider upgrading the Time Chain. That way, he would be able to devour King Ba's bloodline faster.

Feeling Han Fei's enthusiasm and excitement, the old turtle was lost for words. Is this guy really not going to follow in my footsteps? It seems that he has completely embarked on the demonic dao!

Han Fei didn't know what the old turtle was thinking. He was sensing the bamboo pieces of the Star Silks, which would lead him to the people captured by the Star Silks.

Although he didn't feel anything yet, Han Fei didn't panic at all. The violent hurricane was only this big. They would have to show up in the end.

Suddenly, Han Fei's heart did a flip. Someone was here?

It seemed that the death of the Half-King and the eleven sharks had alarmed some strong masters.

With a swish, Han Fei swam into the violent hurricane.

The moment he entered the wind field, Han Fei let the wind pull him across the void.

"Huff -"

At this moment, Han Fei truly felt how strong the wind of this violent hurricane was! The kinetic energy at this moment was probably comparable to a peak-level attack of a Half-Venerable. And this was just the periphery of the violent hurricane

According to this power, the real wind ring would probably be able to sweep across a million kilometers.

Following the wind, Han Fei used Void Teleportation and flew away without a trace. Even if a king came, he wouldn't be able to find Han Fei now.

Five seconds after Han Fei teleported away, a huge ship that looked like a phantom broke out of the wind field.

At the bow of the ship, there was a lean man with a shiny bald head and fierce eyes.

This person held a broken body in his hand and said indifferently, "In just a moment, twelve Venerables were killed. Did some king make a move? Impossible! It's impossible for me not to know if a king took action..."

The bald man said, "Let's enter the wind. Since we are enemies, we'll meet sooner or later."

Han Fei broke through the wind.

The deeper one went into the violent hurricane, the stronger the wind was. And this wind was not an ordinary wind, but a wind that contained the power of the Great Dao.

Of course, for the current Han Fei, this seemed meaningless.

Just as Han Fei sensed that someone nearby seemed to be caught by the Star Silk and was about to go there, his expression suddenly changed.

Buzz!

A shadow of wind rushed over in the violent hurricane. It was extremely sharp and seemed to be about to enter his body.

Information immediately appeared in Han Fei's eyes.

<Name> Wind Demon

<Introduction> Wind demons are invisible and are formed by wind. They are short-lived creatures born in storms. They rise with the wind and disappear with the wind. Wind demons are born and grow by devouring each other. The further into the eye of the storm, the stronger the wind demons are. Their ultimate goal is to swallow wind pearls and become conscious wind spirits that won't die.

< Level > 80

< Quality > Rare

<Chaotic Energy> 1 wisp

< Edible Effect > Inedible

<Collectible> Great Dao Wind Particles

<Absorbable>

<Note> Wind demons are invisible and formed by wind.

"Hiss"

Han Fei was briefly stunned. A creature born in the wind?

Most importantly, this wind spirit actually contained Chaotic Qi!

This was even rarer. Ice Snow Chuling didn't even tell him!

If he could keep hunting Wind Demons, how much Chaotic Qi would he get for nothing?
