Chapter 1731 Wind Demon

Han Fei sighed. As expected of the outer domain! The resources reserves of these people were really amazing. Besides, the species in the outer domain were much more than in the Yin-Yang World and the Water-Wood World...

A mere Wind Demon couldn't stop Han Fei.

Han Fei casually slashed and killed the Wind Demon. A crystal-clear light green gravel-like light spot was about to disappear in the wind.

Han Fei reached out and grabbed, and information appeared in his eyes.

<Name> Great Dao Wind Particle

<Introduction> In a place where the wind is extremely strong, the Great Dao particles condensed by the Great Dao of Wind. Absorbing it can strengthen one's Chaotic Qi.

<Level> Venerable

< Quality > High-Quality

<Chaotic Energy> 1 wisp

<Note> Great Dao Wind particles can be directly absorbed.

"Oh, just swallow it?"

Han Fei finally understood why there was a violent hurricane. Many people came to fight for it... Many people might not really come for the Sea Shaking Wind Pearl, but just to hunt Wind Demons.

For ordinary Venerables, even a single wisp of Chaotic Qi was very rare.

If one had just entered the Venerable realm, he probably didn't have much Chaotic Qi on him. This violent hurricane would naturally become the target of all the strong masters.

Han Fei just happened to meet Blood Jade and the others.

In this violent hurricane, if there were many wind demons, ordinary Venerables would have come to hunt.

Han Fei found that some kind of perception appeared on the bamboo pieces. As long as he followed this perception, he could find the person who was caught by the Star Silks!

Han Fei swallowed the wind particles and the old turtle said, "Let me out! I'll hunt alone."

Han Fei asked in surprise, "Old Yuan, can you do it? Someone is hunting now."

The old turtle said, "Most people can't use their perception in this wind field, but my soul power is in the emperor realm. Those little things are no threat to me."

Han Fei immediately released the old turtle.

Han Fei guessed that the old turtle must have been tempted too. Seeing that the Chaotic Qi came so easily, how could he let go of this opportunity?

Han Fei just let him and simply said, "Okay, go hunt on your own. However, the final battle will definitely break out in the Eye of the Storm. Don't go there."

"Okay!"

Separating from the old turtle, Han Fei continued to search for the perceptions on the bamboo pieces.

In less than five minutes, Han Fei saw two Venerables from the Ice Snow World fighting the same Wind Demon in the wind field.

Han Fei thought to himself, Sure enough, it's just that I came at the wrong time and didn't encounter these stronger Venerables, so they were still safe and sound.

When the two of them saw Han Fei, they were both surprised.

One of them exclaimed, "Holy... Holy Child?"

Han Fei thought to himself, How do you know me? It seems that it's not easy to be the Holy Child!

"Um!"

Han Fei nodded and pointed casually, and the Wind Demon's body exploded.

The two of them were shocked. So it was that simple to kill a Wind Demon?

Han Fei said, "Pay attention to your soul and don't let it be contaminated. I've killed more than ten Venerables of the Hundred Demons Clan. They seem to have some sinister plans. You... don't get too close to the inner region."

"Hiss! He has already killed more than ten Venerables?"

The two of them looked at each other and said in unison, "Yes, Master Holy Child."

Buzz!

Han Fei certainly wouldn't rob them.

After all, they were on his side now. He couldn't kill two Ice Snow World Venerables just for a wisp of Chaotic Qi, right?

Since he couldn't, he might as well do them a favor and show off his strength. This was the best solution.

After Han Fei left, he thought to himself, It's not a good idea to search like this. He took out Blood Jade's Sun-Moon Shell, among which were three Star Silks.

Swish! Swish! Swish!

Han Fei used all the three pieces of Star Silk without hesitation. Almost in the blink of an eye, the Star Silks were attached to him.

Knowing that there was an ambush, Han Fei still used himself as bait. Ordinary people didn't have such courage. Of course, Han Fei was mainly concerned about their Chaotic Qi.

Han Fei even sensed the surroundings with his perception.

Soon, he sensed an almost undetectable fluctuation on his body. It was this fluctuation that exposed his identity.

An hour later.

Han Fei had already gone more than ten thousand kilometers into the violent hurricane. Here, the number of Wind Demons began to increase. Every few minutes, he would encounter one.

Some of these Wind Demons were fighting each other, and some pounced at Han Fei.

In just an hour, Han Fei had hunted more than 50 Wind Demons and absorbed more than 80 wisps of Chaotic Qi.

After all, this was no longer the outermost area. The Wind Demons here were stronger.

After waiting for so long, Han Fei finally met a sea demon who came to hunt him.

This was an advanced Venerable shrimp soldier holding a shrimp spear. It suddenly jumped up, trying to sneak attack Han Fei.

Han Fei grabbed the spear, used his hand as a knife, and chopped off the shrimp soldier's head and shell.

Buzz!

The shrimp soldier was horrified and was about to escape.

However, he was surprised to find that his soul had been controlled by his opponent.

Han Fei smiled and absorbed the other party's vitality and soul power while the Demon Purification Pot swallowed the Chaotic Qi in the other party's body.

It was simply killing three birds with one stone!

After a while, Han Fei abandoned the shrimp soldier in the turbulent wind and continued deeper.

It seemed that the real battlefield was not in the periphery.

According to Blood Jade, the goal of the Hundred Demons Clan and the Fierce Wind Pirates was not ordinary Venerables, but the Heavenly Talents among the Venerables.

The terrifying wind field of the entire violent hurricane only had a radius of 50,000 kilometers.

Han Fei resisted the power of the hurricane and came to a place about thirty thousand kilometers away from the wind field.

However, as soon as he showed up, Han Fei bumped into a big ship.

There was a picture of a flaming hurricane on the big ship.

Han Fei's heart did a flip. Isn't this the Fierce Wind Pirates?

The Fierce Wind Pirates was ranked eighth among the top ten pirate clans.

It was said that they were here to hunt the Heavenly Talents of the nearby Heavenly Palaces. Han Fei glanced around and found that there were only seven people on the ship.

However, the aura these seven people gave Han Fei was not weak.

Before Han Fei could do anything, six of them broke out of the void and surrounded Han Fei. Obviously, they were chasing Han Fei, and the Star Silks on Han Fei must have attracted them.

At such a close distance, Han Fei could see their strength. Among them, there was one Half-King, two peak-level Venerables, and four advanced Venerables.

Moreover, there was a blood smell on these people. They must have hunted many people just now.

Han Fei sneered in his heart. Although he didn't have any feelings for the humans in the outer domain, they were still humans.

But the Fierce Wind Pirates actually hunted their own people?

It was fine if he didn't encounter this matter, but now that he did, he had to teach them a good lesson...

Someone laughed. "Ha! Another peak-level Venerable. This is the third one today. We will make a fortune!"

The Half-King said with a smile, "You're wearing a mask? Don't play tricks... Let us kill you quickly and search for our next target."

This Half-King's tone was quite arrogant.

He didn't take Han Fei, a peak-level Venerable, seriously at all. Sound waves suddenly rose. This person's Great Dao was related to sound.

The other Venerables didn't seem to be affected.

With a peak-level Venerable holding a bow and someone controlling the sand, the area within 800 kilometers turned into a desert.

It seemed that Han Fei was in a desperate situation.

Swish! Swish! Swish!

Just when they thought that Han Fei wouldn't be able to escape even if he had wings, they saw projections descending one after another. In an instant, six Han Fei's appeared. They were all peak-level Venerables and looked exactly the same... "Huh? Clones?"

Roar!

The Half-King of the Fierce Wind Pirates exclaimed in shock. He immediately felt that his sound wave domain had been blasted away.

A flash of light flashed in the void, and his soul seemed to be directly pierced.

“Pu! Pu! Pu! Pu!”

The advanced Venerable was instantly pierced through, as if he had become a puppet.

The two other peak-level Venerables still wanted to escape...

As a result, one of them was torn apart by Han Fei, and the other one, undulating in irregular gravity, was crushed by knives.

The Half-King was horrified. “Who are you? How can these clones be so powerful?”

Clatter –

A black ship suddenly appeared, and on the black ship, a skeleton flag appeared.

Han Fei grinned. “Hehe, I’m the leader of the Avengers!”

“Ahhh-“

The Half-King was shocked and roared.

Endless sound barriers blocked in front of him. He still wanted to break through the void.

Unfortunately, Han Fei suddenly appeared next to him, and a water blade pierced through his heart. Then, some kind of power was controlling his soul.

“Huff”

Han Fei put away the Sea Swallowing Seashells and Sun-Moon Shells of these people and the ship of the Fierce Wind Pirates.

Han Fei licked his lips. “You shouldn’t have come to me.”

Han Fei was absorbing the soul power and vitality of the seven people. However, after less than ten seconds, he suddenly felt a crisis approaching in the void.

Could it be a king?

Chapter 1732 Fierce Wind Pirates

In the blink of an eye, Han Fei took off the cloak and the mask, put on a black robe, and simulated his aura to the Half-King Realm.

After all, Han Fei had once been a Half-King.

It was easy for him to simulate the aura of a Half-King.

Han Fei thought to himself, Since the Fierce Wind Pirates dare to appear so brazenly, there’s no reason why the Avengers can’t!

Han Fei had his own purpose for the appearance of the Avengers.

This meant that Han Fei wanted to kill sea demons and the Fierce Wind Pirates, and rob the humans...

As the saying went, one could become rich overnight.

Those who could participate in the hunting in the violent hurricane were all strong masters. For the strong masters, if their resources were gone, they could easily earn another batch of resources.

As soon as Han Fei finished changing, he saw a bald man looking at him in the distance.

The moment the bald man saw the skeleton flag, he knew who he had met.

“The leader of the Avengers, Han Fei?”

Han Fei sneered. “Chen Guangjia of the Fierce Wind Pirates?”

Han Fei had completed the kill too quickly. Although Chen Guangjia came extremely fast, he was still a step late.

He could only see Han Fei standing proudly on the bow of the Avenger, looking straight at him.

Buzz!

Han Fei waved his hand and put away the Avenger.

However, Han Fei didn't escape.

If he was still the Holy Child of the Snow God's Temple, he would have to run away. However, he was a pirate now.

The pirates were at loggerheads with each other.

Chen Guangjia was the king of the Fierce Wind Pirates. He didn't intend to attack personally. He just needed to restrain the kings of the Heavenly Palaces.

However, to his surprise, seven of his subordinates' life tablets were broken in an instant. Even his Half-King subordinates couldn't escape.

How could he not take revenge?

But now, seeing Han Fei standing proudly in the air, Chen Guangjia narrowed his eyes and said, “Half-King? Brat, are you courting death?”

Although Chen Guangjia said that Han Fei was a Half-King, he would never treat Han Fei as one.

If he was really a Half-King, could someone really give a Sea Quelling Bizarre Treasure in Martial Emperor City as the bounty for this guy's life?

However, he wouldn't know how strong Han Fei was until they fought.

Buzz!

Chen Guangjia pushed out his palm.

With just this palm, the surrounding wind power soared more than ten times. The terrifying palm power pounced at Han Fei like a huge tide.

Han Fei didn't back down. He activated the power of the Great Dao, and his strength almost rose to the extreme.

He drew a knife out of the void and cut the terrifying palm into two halves.

Chen Guangjia immediately narrowed his eyes. This kid's strength has reached the Sea Establishment Realm?

"The Forbidden Zone of Wind."

Chen Guangjia raised his hands, and the violent waves around him roared like a tide. The wind was like a divine weapon, endless.

Clang! Clang! Clang!

Countless wind blades slashed at Han Fei, making the sound of metal clashing.

A golden giant suddenly condensed around Han Fei.

In the golden light, Han Fei punched the air.

Han Fei laughed crazily. "Chen Guangjia, the captain of the Fierce Wind Pirates, are you sure you want to be my enemy?"

Chen Guangjia snorted. "You've killed a whole ship of Venerables of mine and now you're attacking me. Just because you have a king's combat power doesn't mean you're a real king!"

Bang! Bang! Bang!

Clang! Clang! Clang!

Although Han Fei's strength had improved recently, he was still no match for a king.

Chen Guangjia was even stronger than the Mad Fourth King.

Chen Guangjia sneered. "Didn't anyone tell you that I'm one of the top three powerful in the top ten pirate groups in the wind?"

Bang!

Han Fei retreated quickly, his fists forming two Sacrificing Punch, and his invincible will stacked crazily.

Boom ~

Boom –

The gale was pierced through. Chen Guang put his hands together, and a hurricane barrier appeared in front of him, blocking Han Fei's two Sacrificing Punch.

He sneered. "How dare you walk the path of invincibility? However, no matter how invincible you are in the Half-King realm, you are not a king..."

Bang!

Chen Guangjia attacked again. In the violent hurricane, his speed was astonishing. He found that Han Fei wasn't as strong as he thought. However, Han Fei's combat power was indeed extraordinary in a short time.

Chen Guangjia shouted and the power of the Great Dao suddenly increased.

In Han Fei's eyes, the wind was like a divine weapon. The entire wind field was Chen Guangjia's battlefield.

In an instant, Han Fei's power collapsed.

Just when Chen Guangjia thought that he could go to Martial Emperor City to take the Sea Quelling Bizarre Treasure after killing Han Fei, a blue light flashed, and Han Fei disappeared. "Huh? Time Dao?"

Chen Guangjia looked around. This guy actually ran away...

"The Great Dao of Time! No wonder. No wonder there is such a high bounty for this guy's life in Martial Emperor City. If he controls time and becomes a king, he's almost an immortal king. Shit, which b*stard issued the kill order? No, we can't bear the loss alone. We have to increase the bounty when we go back."

When Han Fei displayed the Great Dao of Time, Chen Guangjia knew that he had been fooled.

Originally, if the guy who issued the kill order clearly stated that Han Fei knew the Great Dao of Time and had the combat power of a king, no one would pay attention to this kill order.

However, the problem was that pirates were all vicious people. Once they saw a reward like a Sea Quelling Bizarre Treasure, they would definitely pay attention to it. They all thought that they could solve problems that others couldn't...

Now, the corners of Chen Guangjia's mouth twitched, and he cursed in his heart, Don't let me know who issued the kill order... Otherwise, I'll kill you.

Han Fei successfully ran away, exclaiming, "This son of a b*tch is too strong. If I didn't know about the Great Dao of Time, I would've died."

Han Fei was horrified. As expected of a king!

So what if the Fierce Wind Pirates were ranked eighth? They were still one of the top ten pirate groups. They were much stronger than he had imagined.

In comparison, Han Fei felt that the Mad Fourth King wasn't very strong. Han Fei's heart did a flip. Since the Avengers have appeared, I won't conceal my identity anymore. But the Avengers are the Avengers, and I'm still Xue Zhan, the Holy Child of the Snow God's Temple.

Buzz!

As soon as the Twin Divine Technique was activated, his black-mist body controlled the Avenger and flew away.

And his white-mist body was wearing a snow cloak and an ice mask as he charged towards the inner area of the violent hurricane.

Who knew what Chen Guangjia's appearance would trigger? Perhaps this was a snipe aimed at the thirteen worlds in the outer domain by the Hundred Demon Race.

After all, violent hurricanes were rare, and it could attract many powerhouses. If they successfully hunted once, a large number of Venerables in the thirteen worlds in the outer domain would die. Why wouldn't they?

When Han Fei transformed into the Holy Child, he had to be much more cautious.

After only a few minutes, Han Fei encountered two groups of people fighting. Five advanced Venerable octopuses were hunting four advanced Venerables from the Ice Snow World.

Han Fei actually knew two of them. Weren't they the two advanced Venerables who were watching the show at his door two days ago?

Buzz!

When Han Fei came, both sides were surprised. Immediately, someone shouted, "Master Holy Child, please help us."

Han Fei could ignore them.

However, as the Holy Child of the Snow God's Temple, Han Fei had to save them.

Of course, even if Han Fei didn't save them, two or three of them should be able to escape, but it would affect his reputation as the Holy Child.

After all, if he returned to the Snow God's Temple and they spread the news that he had left them in the lurch, his reputation would be ruined. Being cold and having a bad reputation were two different things.

Buzz!

The expressions of the five octopuses changed drastically. "Not good, retreat!"

Swish!

In an instant, all techniques were forbidden in the void.

Han Fei cut through the wind and waves and arrived instantly.

He pulled out his saber and slashed through the wind. Three octopuses were killed.

The other two realized that they couldn't break through the air and wanted to force their way out. However, they were stopped by the people from the Snow God's Temple. Han Fei casually stabbed out with his spear and exploded one of them.

The remaining octopus was held in Han Fei's hand like a puppet.

In just a moment, the five advanced Venerables were swept away easily like rotten fish and shrimp. This scene stunned the four Venerables of the Snow God's Temple.

They knew that the Holy Child was very strong!

If he wasn't strong, it would be impossible for the Snow Lady to invite him back personally. However, wasn't he too f*cking strong? He killed three advanced Venerables with one slash? An advanced Venerable was no different from a fish or shrimp in the hands of this Holy Child.

Because Han Fei wanted to devour their Chaotic Qi, absorb their souls, and steal their vitality... Han Fei pretended to stab them a few times.

The sky rumbled, signifying the death of several Venerables.

Han Fei looked at the four people in the hurricane and said, "Attention, the king of the Fierce Wind Pirates, Chen Guangjia, is here in person. Not only Chen Guangjia, but Han Fei of the Avengers is also here. Also, it's very likely that the king of the Hundred Demon Race is here too. This violent hurricane is a trap. If you believe me, leave quickly and inform others."

"Hiss"

The four of them looked at each other. The Fierce Wind Pirates are all here?

And the recently famous Avengers had also appeared?

"A trap!"

Immediately, someone said, "The Fierce Wind Pirates have done this before. They once robbed the Heavenly Talents of the various Heavenly Palaces in a violent hurricane. Not only did they snatch resources, but they also asked the Heavenly Palaces for ransom. It's really hateful."

Someone was horrified. "We should go back immediately and tell Master Snow Lady about this."

Han Fei said casually, "Master Snow Lady probably already knows. You should stop the latecomers from entering rashly. Now, this place is too dangerous for you to stay."

Someone asked, "Master Holy Child, what about you?"

Under the ice mask, Han Fei said leisurely, "I still need to save some people. Go!"

Han Fei grabbed a few Sun-Moon Shells. The Void Lines were still absorbing, and the Demon Purification Pot was still absorbing the Chaotic Qi.

Han Fei waved his hand, and the space fluctuated, sending the people opposite him thousands of kilometers away.

They were shocked. How strong is this Holy Child? Has he mastered the Great Dao of Space?!

Chapter 1733 The Avengers and the Holy Child's First Show

Han Fei was now in the area of activity of advanced and peak-level Venerables.

Further in, Han Fei could even feel that there were enemies fighting.

From time to time, some energy would come and then disperse with the violent hurricane.

However, Han Fei didn't intend to go further immediately.

Although the Sea Shaking Wind Pearl was important... it shouldn't be something that he had to swallow immediately after he got it.

Otherwise, what if he had an epiphany after swallowing it?

Moreover, since this Sea Shaking Wind Pearl was priceless... then, after snatching it, there would definitely be many people surrounding and chasing him. He would definitely not have the time to consume it immediately!

To him, the main purpose of this trip was to hunt sea demons!

Only by hunting and accumulating enough Chaotic Qi could he consider upgrading the Time Chain. This was much more important than the Sea Shaking Wind Pearl.

Under the guidance of the Star Silks, Han Fei found one or two people almost every few minutes. He encountered more Wind Demons than people.

If possible, Han Fei hoped that this violent hurricane could keep blowing. In this way, more Wind Demons could be born.

There were many people in the violent hurricane.

Because this violent hurricane was too close to the Snow God's Temple, many people from the Snow God's Temple had come, including Ice Snow Chuling.

However, the Hundred Demon Clan's Star Gathering Array had already been activated. Who knew how many sea demon experts were in this violent hurricane?

At this moment.

In a wind field about ten thousand kilometers away from the Eye of the Storm, there were Ice Snow Chuling, five peak-level Venerables of the Snow God's Temple, and some strong masters flashing in the wind... There was a body refiner with a giant hammer and the disciple of the Five Elements Sect whom Han Fei had met before. He was fighting a group of sea demons and the Fierce Wind Pirates.

Among those sea demons, there were also a small number of undersea humans.

The undersea humans were actually very similar to humans. If they didn't hide it, they only had a scab on their necks, a slightly different nose bridge, and scales on their bodies.

However, once they concealed themselves, they could completely blend into the human race.

At this moment, there were a total of 39 humans, sea demons, undersea humans and Fierce Wind Pirates. The two sides were locked in a fierce battle.

Clearly, the humans were at a disadvantage.

Ice Snow Chuling and a man with black wings joined forces and had the strength of two Half-Kings.

The remaining people kept fighting. Ice Snow Chuling shouted coldly, "Li Xunfeng, this is a trap. Don't fight. Retreat to the periphery."

The black-winged man shouted, "People from the Wind Slashing World, fight and retreat!"

“Haha, you want to retreat now? It isn’t easy for us to catch the Holy Lady of the Snow God’s Temple, the Wind Envoy of the Wind Slashing World, and the Five Elements Sect’s disciple... How can we let you retreat?”

On the ship branded with the flame hurricane, a long-haired Half-King shouted, “Wind Slash, release...”

Swish! Swish! Swish!

On the large ship, a terrifying wind blade of the Half-King realm spewed out from the hull. It slashed through the void and instantly caused a void crack, instantly crushing a strong master of the Wind Slashing World.

Clang!

At that moment, in the void, ice froze the hurricane and frost drifted. A black sword slashed out an overbearing blow and instantly cut the Great Dao wind blade into pieces.

“Huh?”

“A Sea Quelling Bizarre Treasure?”

“Wow! The Snow God’s Temple is really rich. If I’m not mistaken, Holy Lady, you already have a Sea Quelling Bizarre Treasure, right? Now you have another one? But they will both belong to our Fierce Wind Pirates.”

Even the top expert of the Wind Slashing World couldn’t help but look at Ice Snow Chuling in surprise. His identity was not much worse than Ice Snow Chuling... However, Ice Snow Chuling already had two Sea Quelling Bizarre Treasures? The Snow Lady really liked Ice Snow Chuling!

The disciple of the Five Elements, Ban Yi, frowned slightly. As an intermediate peak-level Venerable, he quietly retreated and reserved his strength.

However, it could be seen that he was still a little jealous.

Clank ~

Behind everyone, a huge pincer stretched out from the void.

The huge claw that was hundreds of meters wide pointed at the void. At that moment, the wind collapsed and the escape route of Ice Snow Chuling and the others was sealed.

Swish ~

An undersea human actually grabbed a large net and pulled it wider and wider, as if trying to capture Ice Snow Chuling and the others.

The moment the net appeared, Ice Snow Chuling shouted, “Not good, it’s the Heaven Trapping Cage. Let’s go.”

Ka ka ka ~

At that moment, armor shadows floated in the air, overlapping.

Clang!

Even the full-strength attack of Ice Snow Chuling could only cut through two armor shadows.

A white-armored turtle had appeared here at some point and sealed the way with a turtle shell array.

Han Fei had heard from the old turtle that the turtle shell contained the will of heaven and arrays, which were a power bestowed by the heavens.

Once these roads were sealed, Ice Snow Chuling and the others would have no way out.

At the last moment, Ice Snow Chuling took out a Snowflake Token.

As soon as this token was issued, the 1,000-foot-long shadow of the Snow Lady stood proudly in the air. The shadow of the Snow Lady tapped her finger lightly, trying to penetrate the net.

The Half-King of the Fierce Wind Pirates also took out a jade slip. The jade essence, like a tornado, bent and swept towards the Snow Lady.

Rumble! Rumble!

A terrifying power erupted in the cage.

Blood oozed out of the corners of Ice Snow Chuling's mouth. It turned out that the Five Elements Disciple was the only one who had blocked the aftershock of the attack with the Five Elements.

"Hahaha!"

The Half-King of the Fierce Wind Pirates laughed. "Don't waste your time. This time, in order to capture you guys, the captain gave me six tornadoes in case you hide a king's blow. Now that the king is blocked, you have no choice but to surrender."

Buzz!

As soon as the so-called Heaven Trapping Cage was retracted, the power of Ice Snow Chuling and the others was completely suppressed.

At the last moment, everyone, including the Five Elements Disciple, Ban Yi, threw out a king's blow. But just as the Half-King of the Fierce Wind Pirates said, they did have a jade slip that could resist a king's blow.

The aftershock of the three king-level attacks shook the Heaven Trapping Cage, and everyone in it was injured.

In just 20 seconds, 17 humans were subdued and completely suppressed.

Before this, they had never expected that a mere exploration of a violent hurricane would trap them here...

The other party had clearly come prepared this time.

They prepared both the Heaven Trapping Cage and king-level attacks, in addition to the alliance of the sea demons, the undersea humans, and the Fierce Wind Pirates. It was indeed impossible to guard against.

When these people were trapped on the Fierce Wind Pirates' Ship, they had to give away their Sun-Moon Shells, making the people on the Fierce Wind Pirates' Ship smile excitedly.

Among the sea demons, a shrimp soldier jumped out of the water and floated in the air. "Half of the resources are ours."

The Half-King of the Fierce Wind Pirates snorted. "When our king returns, he will give you your share. Now, don't disturb us."

The Half-King looked at Ice Snow Chuling with a smile. "Holy Lady, the two Sea Quelling Bizarre Treasures, please!"

"Humph! Don't even think about it."

"Haha... Holy Lady, are the treasures more valuable or are you more valuable? You have to be clear about it! But if you're willing to sleep with me, I can spare you. When our king comes, I will definitely put in a good word for you."

"Hahaha!"

The Venerables of the Fierce Wind Pirates all laughed wildly.

"Tsk tsk! Old Qin, your idea is simply amazing."

"Ha! This woman is really beautiful. Old Qin, I support you."

Ice Snow Chuling frowned coldly. Why isn't Teacher here?

Logically speaking, how dare the Fierce Wind Pirates and these sea demons rob them right at their doorstep?

The Half-King Old Qin was squatting in front of Ice Snow Chuling with a dirty smile. "I heard that the candidate for the king of the Golden Crow World wants to take you back to be a sex slave? Tsk, why don't you try me?"

"Tsk tsk! The Fierce Wind Pirates are nothing more than this..."

"Let go of the people of our Snow God's Temple. Otherwise, I'll cut you into pieces."

Suddenly, two completely different voices sounded in the violent hurricane. One was gloomy, and the other was cold and straightforward.

"Who?"

Someone from the Snow God's Temple exclaimed, "It's Master Holy Child!"

"Master Holy Child, leave quickly. Only Master Snow Lady can save us."

Someone exclaimed, "Look, on the other side, that... Skeleton Flag. Is that the Avengers' flag?"

“Hiss... the Avengers?”.

Even the Venerables of the Fierce Wind Pirates were shocked.

Someone said in surprise, “Old Qin, it must be him. Damn, he’s worth a Sea Quelling Bizarre Treasure!”

Old Qin narrowed his eyes and said, “Shut up and prepare to face the enemy.”

He was a Half-King after all. Someone offered the bounty of a Sea Quelling Bizarre Treasure for the life of the leader of the Avengers. He was definitely not an ordinary person.

Moreover, this person was said to kill three Half-Kings in a row. His style was domineering and he killed people like flies. He could not be underestimated.

Old Qin shouted, “The Hundred Demons and the Undersea Humans, we are about to succeed. We can’t lose here.”

On the Avenger, Han Fei was wearing a black robe, which was his original appearance. Ice Snow Chuling recognized him at a glance.

Ice Snow Chuling looked to the other side in surprise. Was one of the two Han Fei’s avatar?

The Avenger Han Fei looked at the Holy Child Han Fei and said, “Hey! When did the Snow God’s Palace hide a Half-King? Should I deal with you or these people first?”

“A Half-King?”

Many people from the Snow God’s Temple were surprised. “Isn’t the Holy Child a peak-level Venerable? How did he become a Half-King?”

Buzz!

Then the Ice Snow Lotus Throne appeared under Han Fei, the Holy Child. Holding a rod, he said indifferently, “How about we work together to break the array? The people will belong to me, and the rest will be yours, OK?”

Chapter 1734 Punch the Fierce Wind Pirates and Kick the Hundred Demons

As the wind howled, the seawater was corroded and blown away into mist.

Han Fei’s black mist body and white mist body were confronting each other in front of the Fierce Wind Pirates and the sea demons.

For Han Fei, he wasn’t in a hurry.

His black mist body was only attached to his Half-King projection.

At this moment, the Avenger, Han Fei said, “Join forces with me? What makes you think I will agree?”

The Holy Child Han Fei asked, “Why don’t we fight first?”

Ice Snow Chuling was very sure that these two people were the same person. At this moment, it was obvious that Han Fei wanted to cover up his identity as the leader of the Avengers.

Therefore, Ice Snow Chuling said, "Xue Zhan, this person is extremely strong. In the short term, he might be able to unleash power beyond a Half-King. Don't underestimate him."

Han Fei's white mist body glanced at Ice Snow Chuling indifferently. You're quite smart. Since I've put on an act, I can't kill all these people.

It happened that he didn't want to make the leader of the Avengers a king. A king would only face a king. It wasn't a good thing to start too high.

This battle could change these people's opinion of the Avengers.

"Kekeke"

Han Fei's black-mist body laughed wantonly. "You are the first person who dares to negotiate with me. The Holy Child, Xue Zhan, you're interesting. As you wish. Let's cooperate for the time being. The resources are mine and these people are yours."

"Humph ~"

Someone from the underwater human race sneered. "Two mere Half-Kings dare to talk nonsense before us?".

The white-armored turtle, the lobster that came out later, Old Qin of the Fierce Wind Pirates, and the undersea human who set up the array were all Half-Kings.

Because of this, the moment they revealed their identities, Ice Snow Chuling and the others had nowhere to run.

They had four Half-Kings!

Therefore, they thought that the Avenger and the Holy Child were at most two Half-Kings. How could they defeat all of them?

Buzz!

The Avenger Han Fei was walking in the storm.

So was the Holy Child Han Fei.

One was evil and the other was cold. One was dressed in a black robe and the other in a snow-white cloak. They both looked very proud and aloof, as if two strong masters were confronting.

Old Qin's face was cold as he suddenly shouted, "Attack!"

Buzz!

The members of the Fierce Wind Pirates attacked immediately. On one side, the Fierce Wind Slash at the bow of the ship was aimed at the Holy Child Han Fei, and on the other side, the Violent Dragon Tornado was aimed at the Avenger Han Fei.

However, the way these two people responded was different.

Han Fei, the Avenger, reached out and grabbed the bloody void claw mark. His murderous aura was daunting.

The giant hand grabbed at the air and the violent tornado immediately collapsed.

As if he had done something trivial, under the feet of the Avenger Han Fei, he suddenly charged at the Half-King shrimp soldier closest to him with black death energy.

The Avenger Han Fei said, "If you let this ship go, there will never be a peaceful day in your Ice Snow World."

He was obviously talking to Han Fei.

At this moment, the Holy Child Han Fei immediately used the Instant Technique to blow up the Fierce Wind Slash and slashed out the Embroidery Needle in his hand.

Old Qin shouted, "Prepare to teleport through the void. Don't fight. Be careful. Hold on until our king comes."

However, Han Fei held the Embroidery Needle with both hands and shouted, "Open!"

Clang! Clang! Clang!

In an instant, the rod shadow struck out a hundred waves, and a terrifying force smashed down like a storm.

On the Fierce Wind Pirates' Ship, someone shouted, "Old Qin, the vibration is too strong. We can't perform void teleportation!"

Old Qin thought to himself, Han Fei seems to be only at the Half-King level. Although he seems a little stronger than me, he isn't much stronger.

So Old Qin shouted angrily, "F*ck, how can you resist the elite Venerables of the Fierce Wind Pirates alone? Let me teach you a lesson."

In the blink of an eye.

Han Fei, the avenger, instantly slashed the Half-King shrimp soldier.

This was the crushing of power, the crushing of the Great Dao!

The shrimp soldier didn't even realize that he, a Half-King, couldn't even withstand one blow.

Boom!

In the sky, the Great Dao rumbled, and a slight crack appeared.

After all, if a Half-King died, Heaven's Cry would still come. It just wasn't that intense.

However, everyone was shocked by the strength of the Avenger Han Fei. This was a Half-King and not a small shrimp! How strong was this damn Avenger? Not only that, but when he killed the Half-King Shrimp Soldier, Han Fei suddenly appeared from the void and stopped behind a peak-level Venerable.

"Puff "

With just one slash, half of the peak-level Venerable's body escaped into the void and half was left on the spot.

However, the Avenger Han Fei reached into the void and grabbed the other half of him, crushing it.

The black mist on the Avenger Han Fei, which was the black-mist body of Han Fei, appeared on another peak-level Venerable.

With just a swirl of the black mist, the man's flesh and blood disappeared, and his body straightened for no reason. It was as if he was frozen and could not even escape.

Boom Boom Boom –

In the sky, three consecutive explosions sounded, and Great Dao cracks appeared.

At that moment, on the ship of the Fierce Wind Pirates, the captives all exclaimed, "He's so strong!"

Someone was shocked. "He... killed a Half-King and two peak-level Venerables in an instant. Is he a king?"

"Gulp –"

Someone swallowed. "Is this the legendary Avenger?"

Bang!

Just as everyone was surprised by the Avenger Han Fei, the captain of the Wild Wind Pirates' ship, Old Qin, who had just gone out to fight the Holy Child Han Fei, was smashed.

The Embroidery Needle in Han Fei's hand became faster and faster, cracking the array of the Fierce Wind Pirates' ship.

What they didn't notice was that when they looked at the Avenger Han Fei, Han Fei secretly used the Heavenly God Stab to stun Old Qin for a moment.

It was at that moment that Old Qin died.

He should never have left the ship array and challenged Han Fei in person.

Boom!

The moment Old Qin was smashed away, everyone saw that Han Fei suddenly deviated a thousand meters and smashed his rod into the void. It was Old Qin trying to escape back to the ship with his soul to fight for a chance to be reborn.

Han Fei seized the opportunity and directly killed him.

Boom!

In the short time that the people were shocked, two Half-Kings had died, and two peak-level Venerables had died too!

How strong were these two? How could they be so strong?

However, while Han Fei was fighting, the undersea humans secretly opened the big net again, and in the void behind him, a big lobster extended its huge claws again.

Ice Snow Chuling shouted, "Be careful of the Heavenly Cage Array!"

Han Fei had seen this move before. How could he be caught?

The Holy Child Han Fei suddenly turned around, clenched both hands, and stabbed at the net with his rod.

Bang!

The void changed and he activated the "Knock on the Heavenly Gate". Under the shocked gazes of the people of the Snow God's Temple and the Wind Slashing World, Han Fei shattered the hundred-meter-long giant pincer with a spear.

Not only the giant pincer, but most of the lobster's head was also shattered.

Buzz!

The moment the lobster was pierced through, Han Fei, the Avenger, used the Star Teleportation Technique and appeared there.

With a pull of the Void Lines, the seawater turned into billions of blades and instantly twisted into the lobster's body. With the cooperation of the two, a Half-King died again in less than half a second.

At this moment, everyone present panicked.

Whether it was the Hundred Demon Race, the Undersea humans, or the members of the Fierce Wind Pirates, they were all confused. Where did these two people come from? How could they be so strong?

There were only four Half-Kings on their side. After just one round, there were only two left.

Once the lobster died, the Heaven Trapping Cage collapsed.

The undersea human shouted, "Let's go!"

The white-armored turtle had long hidden.

In the eyes of these people, the Avenger Han Fei and the Holy Child Xue Zhan were too powerful.

The two of them only targeted Half-Kings and peak-level Venerables.

After a single round, they killed three Half-Kings before the peak-level Venerables could react? How were they supposed to fight? Even the Half-King had died, and they certainly wouldn't go up to court death!

This time, Han Fei didn't pay attention to the fleeing undersea humans. Instead, he looked at his white-mist body and continued to act. "I didn't expect that there would be someone like you in the Ice Snow World. Hehe, why don't we spar?"

However, his white mist body said coldly, "Let's end this quickly. When the king comes, we won't be able to leave."

“Hmph!”

The others had already fled. The Avenger Han Fei’s fist marks were stained with blood as he punched the big ship.

The Holy Child Han Fei knocked on the Heaven Gate with his spear.

With just one blow, a gap appeared in the large ship array.

At the moment the ship array was broken, some people jumped off the ship to escape, while others intended to hold hostages.

However, Han Fei, the Avenger, appeared on the ship and started a bloody massacre.

Without waiting for these people to attack, he killed them. Only the three people who jumped off the ship first escaped.

At this moment, the 17 people who were tied up looked at each other in shock. This reversal was too fast!

Han Fei, the Avenger, glanced at Ice Snow Chuling and the others, making them shudder.

Among them, the Five Elements Disciple, Ban Yi, was terrified. This person was full of killing intent!

Last time, he was lucky enough to escape. Who would expect that he would meet him again in just a few days?

While everyone was horrified, the Holy Child Han Fei grabbed a pile of Sun-Moon Shells and said, “The resources you want are all here. If you don’t let these people go, I’ll throw them into the endless void.”

“Heheax”

The Avenger Han Fei said gloomily, “This disciple of the Five Elements Sect belongs to me. I have a personal grudge with him. If you don’t give him to me, all these people will die. As for the resources, I don’t care about them that much...”

Chapter 1735 Forced A King Out

Ban Yi’s heart turned cold on the spot. The strength this guy displayed just now was so terrifying!

Even a Half-King could not withstand two moves from him.

At this moment, the other party had called out his name and wanted him to stay... At this critical moment, if he stayed, he would only die!

Even Ice Snow Chuling was a little stunned. If Han Fei kept Ban Yi, Ban Yi wouldn’t be able to survive. She roughly knew the reason... But she didn’t expect Han Fei to be so vengeful.

The Holy Child said indifferently, “OK!”

Ban Yi immediately shouted, “Brother Xue, I’m one of the Five Elements Disciples. If you protect me, you can gain the friendship of the Five Elements World.”

The Avenger Han Fei asked with interest, “What do you think?”

The Holy Child said lightly, "I don't need friendship."

"Kekeke"

Then, the Avenger Han Fei suddenly grabbed Ban Yi, stepped on the void and said, "Give me the resources."

Han Fei threw a pile of Sun-Moon Shells in his hand without hesitation and tore open the Heaven Trapping Cage from the outside.

When everyone was pleasantly surprised that they had escaped death, they heard the Avenger Han Fei's voice from the big black ship in the distance. "Interesting! I hope we can cooperate next time."

Buzz!

The Avenger flew away.

Although Han Fei gave up on the Five Elements Disciple, fortunately, the other Venerables' lives were saved.

Everyone thought that the Holy Child was not to blame but Ban Yi himself. Why did you take the initiative to provoke the Avenger?

Which pirate who dared to plunder in public didn't have some skills? Ban Yi was so arrogant just because he was the disciple of a king! Now, he finally messed with a guy that he couldn't afford to mess with.

The black-feathered young man said, "Brother Xue, I'm Li Xunfeng from Wind Slashing World. If it weren't for your help, I would have died. Thank you, Brother Xue."

A strong master from the Thunder Fire World said, "Lin Xiang from the Thunder Fire World, thank you, Master Holy Child. If you need my help in the future, I won't refuse."

The people of the Snow God's Temple also said, "Thank you for your help, Master Holy Child."

Someone blushed and said, "Master Holy Child, I'm really ashamed. I shouldn't have doubted your strength before."

Han Fei glanced at the man casually. Who is this? I can't remember who he is.

Han Fei said casually, "It's just convenient for me to save you. However, Han Fei is very strong. I don't think I'm his match if he tries his best. If you meet him in the future, just run away."

Everyone was slightly stunned. So, the Holy Child was thinking about Han Fei?

However, when they thought of Han Fei, they were all secretly horrified. That man was indeed terrifying! Even a Half-King was nothing in front of him.

This was the first time they had seen a pirate who dared to go against the Fierce Wind Pirates in a violent hurricane!

They guessed that even if Xue Zhan wasn't here, Han Fei could still keep a lot of people.

Ice Snow Chuling didn't want to ask Han Fei what he was going to do with Ban Yi... Instead, she asked directly, "Teacher must have been held back by someone? This means that there are many kings here this time. I'm afraid it will be difficult to get the Sea Shaking Wind Pearl."

Someone said, "Yes! Master Holy Child, although violent hurricanes are not common in the outer sea, they always appear every few years. Let's try to get it next time."

However, Han Fei snorted. "If I say I'll get it this time, I'll get it this time!"

After that, Han Fei looked at Ice Snow Chuling and said, "You can either go back or go to the edge. I don't know what's going on in the Eye of Storm... I'll go check it out."

Ice Snow Chuling nodded slightly. "Be careful."

She agreed so readily because she knew Han Fei's true strength. As the master of the Yin-Yang Heavenly Palace, he probably had the combat power of a king.

However, they didn't.

It was because Ice Snow Chuling had stayed by a king's side for a long time that she knew how terrifying the Sea Establishment realm was. There was an insurmountable gap between a king and a Venerable.

If they came out to fight the kings, it would be like courting death.

A moment later, on the Avenger.

The Five Elements Disciple was nervous. He said, "My lord, what happened last time was really a misunderstanding. I know I have offended you, but I can be very useful to you. The Five Elements World is not weak among the thirteen worlds in the outer domain. If you need resources, I think I can give you a lot."

Han Fei smiled contemptuously. "I'm not short of money. The reason why I caught you is to show everyone that there is a price to pay for sniping the Avenger."

"Puff -"

Han Fei directly killed him. With his current wealth, he didn't lack anything. What made Ban Yi think he can talk about money with him?

Han Fei steered the Avenger in the hurricane and counted the spoils. Unfortunately, he didn't get much good stuff. But Ban Yi's Sun-Moon Shell contained the power of the five elements, dozens of bottles of various medicinal pills, eight ultra-quality divine weapons, and more than 600,000 ultra-quality spirit stones.

Han Fei was lost for words. Are these people really so f*cking rich? This is only an intermediate peak-level Venerable! He's even richer than a Half-King... There's nothing else to say except that he's lucky.

However, none of these people had a Sea Quelling Bizarre Treasure.

Of course, he would return Ice Snow Chuling's Sun-Moon Shell to her when he went back.

In short, he had robbed a lot of resources this time. Now he had so many resources that he almost didn't know how to use them...

However, no one would mind having more

resources.

Even the White Armor Emperor was hiding a lot of resources. Han Fei could not be satisfied with such a small profit.

These people in the outside world were used to living a wealthy life. It was time for him to get rich.

Han Fei suppressed his temper. After an hour, he used the Vast Ocean Navigator and found that the Sea Shaking Wind Pearl was still in the Eye of the Storm, so he didn't go there.

Alone, Han Fei hunted a few more times.

Every time Han Fei hunted, if the other party was alone, he would kill him. If the other party wasn't alone, he would kill half of them and release the other half.

After swimming through the Eye of the Storm, Han Fei had robbed seven times and killed forty-five Wind Demons along the way. His Chaotic Qi had broken through 2,000 wisps and reached 2,304 wisps.

After all, Han Fei had killed many Half-Kings!

Those below the level of a Half-King didn't have much Chaotic Qi on them, not even peak-level Venerables.

It could be seen that if he wanted to plunder Chaotic Qi from sea demons, he had to start from sea demons in the Half-King realm.

Buzz!

Han Fei was about to find more Wind Demons to fight, when the old turtle shouted, "Run!"

In the blink of an eye, the sky changed color in the violent wind, and three huge tentacles sealed a space.

Han Fei had killed so many members of the Hundred Demon Race that their king had to come at him personally...

If he didn't come soon, all Hundred Demons here would have been killed by Han Fei.

They were here to hunt humans, only to be hunted by a human? They had even sent out a king... If the news was spread out, the other kings of the Hundred Demon Race would probably laugh their teeth off.

Therefore, a Hundred Demon King left the battle to hunt Han Fei.

However, the moment its tentacles attacked, Han Fei immediately put away the Avenger. At the same time, his strength soared and he began to flee crazily.

At this moment, his black-mist body was escaping, and his white-mist body was running in the opposite direction. As the old turtle said, in such a wind field, different from a Venerable, a king could still use his perception, but the range of perception would be greatly reduced.

Therefore, as long as his white-mist body ran away, the king would not be able to catch him.

Of course, if the captain of the Avenger, a strong master comparable to a king according to rumors, was killed so easily...

That would definitely arouse suspicion. Therefore, Han Fei had to pretend to escape.

Bang!

The void barrier was shaking violently.

A deep voice sounded, "Han Fei, you can't escape today."

Han Fei sneered. "It turns out to be a big octopus. What's the big deal about being big? I've been craving octopus meat lately... Give me some." "Hmph!"

With a thought from Han Fei, the Blade Inferno swept out, and the killing intent was intense within 300 kilometers.

Unfortunately, this was within the violent hurricane. Otherwise, the Blade Inferno would only be stronger.

Clank, Clank, Clank ~

Clang! Clang! Clang!

Han Fei drew his knife out of the void and was about to attack, when he saw the sky full of tentacles, which were slapping down at him.

"Damn it, kill ~"

With a roar, Han Fei turned the tides under him into knives and slashed at the tentacles.

This time, he didn't even see the king's figure and only saw a few tentacles... If he was defeated so easily, how could he be called the Avenger? "Pu! Pu! Pu! Pu!"

Han Fei's breath weakened a bit, but he still withstood the blow.

Besides, Han Fei not only withstood the blow but also shattered the void seal.

"Hey! Big octopus, come out and fight if you dare!"

Buzz!

At that moment, a figure appeared in the void. It was an octopus with a human head and countless slippery tentacles.

"All laws forbidden in this space!"

Swish ~

Han Fei forbade all the techniques in this space.

The Octopus King's expression changed. This person was not a king yet, but he had a lot of tricks. This forbidden technique was no joke. If he reached the Sea Establishment Realm, what would happen?

Bang!

As soon as the octopus threw out its tentacle, the void was about to collapse and the Great Dao in this space was forcefully destroyed.

Han Fei used this moment to perform the Void Great Shift that he had prepared.

“B*stard”

The octopus didn't expect that Han Fei was waiting for it to break the forbidden spell.

Of course, the Octopus King didn't use all its strength to break the spell. One of its tentacles tried to wrap around Han Fei.

However, Han Fei used the Near at Hand Technique and ran further.

A strange sound wave broke through the void and fell on Han Fei when he teleported.

Bang!

Han Fei's black-mist body was destroyed halfway through the Void Teleportation. After all, this was only his black-mist body and not his original body. It was fine if it couldn't withstand this blow.

After the twins merged, Han Fei sighed. It was time to end this violent hurricane trip.

This king was not easy to mess with! It turned out that any king he met now could crush him. As the saying went, if you often walked by the river, your shoes would get wet sooner or later.

Han Fei decided that he would go into seclusion after he got the Sea Shaking Wind Pearl. He had to break through to the Half-King realm again!

Chapter 1736 Sea Shaking Wind Pearl

There was a consensus among the 36 Mystic Worlds that the Yin-Yang Great Dao of the Yin-Yang World was a top-notch escape technique. Perhaps they were unwilling to admit how powerful the Yin-Yang Great Dao was, but they admitted that it was very difficult for people who had mastered it to die.

The Octopus King was furious. He only had time to “touch” Han Fei. He didn't know if Han Fei was killed or not. Anyway, he disappeared now.

At this moment, Han Fei briefly entered Forge the Universe. After recuperating for a while and healing his injuries, he reappeared in the hurricane as the Holy Child.

In the Eye of the Storm, the view was extremely clear, and the air was abnormally fresh, but the temperature was much lower. However, there were four kings fighting here.

Chen Guangjia, the leader of the Fierce Wind Pirates Han Fei had seen before, and a king who seemed from the undersea human race... were fighting the Snow Lady and a man who looked like a floating ghost.

The Snow Lady said, "Chen Guangjia, if all the kings of the Hundred Demon Race can't come today, let's see how you can escape. You want to leave?... I'm afraid you have to ask for my permission."

Buzz!

Suddenly, an octopus tentacle appeared out of the void.

A deep voice sounded, "Retreat."

Chen Guangjia seemed to have received some information from the octopus.

But immediately after, his expression turned extremely ugly. An entire ship of his subordinates had died. This was the second time today that a whole ship of people was wiped out.

Both times, his subordinates on the two ships died one after another in an instant. Before he could rush over, they were all dead.

When Qin Lao'er died, Chen Guangjia quickly concluded that the murderer must be Han Fei from the Avengers.

Since Han Fei was a pirate, he wouldn't let those human Heavenly Talents go easily. Therefore, he sent a message to the Octopus King of the Hundred Demons Clan, not to try to kill Han Fei, but to intercept those human Heavenly Talents. But damn it, the octopus said that the other party had escaped, and he didn't see any of those human Heavenly Talents!

His flawless plan had come to nothing at this moment.

He didn't catch the human Heavenly Talent, but he lost two big ships.

At this moment, he was extremely annoyed.

The purpose of this trap was to capture Ice Snow Chuling. No one knew the purpose except himself.

But now, everything was in vain. It was obvious that his losses this time were too great.

The other kings all realized that something was wrong with Chen Guangjia. Suddenly, Chen Guangjia attacked the center of the Eye of the Storm.

Over there, there was a faint green light lingering. A crystal pearl was really absorbing the Great Dao of Wind that was gathering from all directions.

At the moment Chen Guangjia attacked, the person beside the Snow Lady, who should be the king of the Wind Slashing World, also attacked.

This person cultivated the same Great Dao as Chen Guangjia. Perhaps it was because they both cultivated the Great Dao of Wind, the two of them instantly fought.

At this moment, the Snow Lady was a little puzzled. Chen Guangjia wanted to get rid of them, but why did he take the initiative to provoke the Sea Shaking Wind Pearl? That thing was useless to him, right?

However, how could a mere bead withstand the might of the battle between two kings?

The Sea Shaking Wind Pearl was directly blown into the violent hurricane by the airwaves of the two people's fight.

Chen Guangjia shouted, "F*ck, because of you, I didn't get any benefits at all. Then die with my men!"

Chen Guangjia laughed, and the jade plate on his waist vibrated. "The Fierce Wind Pirates, retreat from the hurricane immediately."

Immediately after, a tornado formed with Chen Guangjia as the center.

The Wind Slashing World King exclaimed, "Chen Guangjia, are you crazy? If you seal the Eye of the Storm, the Great Dao of Wind in the violent hurricane will only become stronger and stronger... Not only are you slaughtering humans, but you are also slaughtering Hundred Demons."

The powerhouse of the Undersea Clan also roared, "Chen Guangjia, what do you mean? Do you forget the plan we agreed on?"

The octopus of the Hundred Demon Clan also roared, "Chen Guangjia, you broke the agreement. Your Fierce Wind Pirates will be hunted by the Hundred Demon Clan."

"Hmph--"

Around Chen Guangjia, the wind grew stronger and stronger. He sneered. "When doing business with pirates, you have to be prepared to change your plans at any time. Hey... See you in the future."

The king of the undersea human race shouted, "B*stard..."

The Hundred Demon Octopus shouted angrily, "Hundred Demons, retreat from the violent hurricane."

Boom!

With a rumbling sound, Chen Guangjia disappeared in the wind.

The Wind Slashing World King said, "He lost a Wind Body. He would rather sacrifice 10% of his strength to seal the Eye of the Storm. I'll find the Sea Shaking Wind Pearl and inform our people to evacuate..."

Swish ~

As soon as Chen Guangjia left, the Snow Lady raised the Ice Scepter. Endless icicles formed in the sealed Eye of the Storm and blasted towards the king of the Undersea Clan.

The king of the undersea human race shouted, "Snow Lady, why are you pestering me instead of looking for the Sea Shaking Wind Pearl?"

The Snow Lady said, "Someone has to pay a price. I don't have the ability to find the Wind Bead, but I can keep you here."

At this moment, the Snow Lady's face was all dark.

She had thought that there would be one or two kings of the Hundred Demon Race guarding the place. Who knew that the Fierce Wind Pirates had set up an ambush with the Hundred Demon Race and the Undersea human race... and held off the kings of the human race!

Fortunately, Chen Guangjia's plan did not seem to work out.

In his anger, Chen Guangjia sealed the Eye of the Storm, making the violent hurricane even more violent.

If this continued, the wind of the Great Dao would not be able to break the seal and gather again. As a result, more and more void cracks appeared in the wind field.

It was almost impossible for people under the advanced Venerable realm to persist in the violent hurricane. After all, the wind power of the Great Dao that should have been absorbed by the Sea Shaking Wind Pearl was all running around in the hurricane.

The Sea Shaking Wind Pearl was blasted into the hurricane, and even a king couldn't find it. After all, the wind power of the Great Dao could shake perception, and even kings couldn't escape it.

Chen Guangjia sacrificed part of his strength and made two preparations. One was to seal the Eye of the Storm. Such a seal could be broken, but it required the Wind Slashing World King to consume more strength to break it.

But even if it was broken, so what?

It would take at least five days for the Sea Shaking Wind Pearl to completely condense. Even if it condensed again now, the power in the violent hurricane would only become stronger and stronger.

If this hurricane became stronger and stronger, it would be equivalent to the collapse of a void that spanned 50,000 kilometers. Countless creatures would be swept into the endless void.

This was why the Wind Slashing World King went out to search for the Sea Shaking Wind Pearl...

"Huh?"

Han Fei was rushing to the Eye of the Storm when he suddenly found that the wind around him was getting stronger and stronger.

Han Fei didn't know what was going on.

Even an advanced Venerable wouldn't be able to withstand the power of the core wind field for long.

Moreover, the whistling sound continued to strengthen... Even the void crack was blown out. Wasn't this a little exaggerated?

The old turtle said, "Something is wrong! In the hurricane, the Great Dao of Wind has a place to go. Since it has a place to go, it won't create a space crack. Something must have happened inside."

Han Fei asked in confusion, "Huh? Is this abnormal?"

The old turtle: "It's not normal!"

Han Fei's heart did a flip. If a king was fighting in the Eye of the Storm, wouldn't he be asking for a beating if he went over?

But if he didn't go, he didn't know what had happened...

Han Fei thought for a moment and threw a projection over.

Buzz!

The projection of the Holy Child at the peak of the Venerable realm broke through the wind barrier and entered the Eye of the Storm with a swish.

However, Han Fei was surprised to find that the Snow Lady was fighting an undersea human.

Han Fei's sudden appearance made the Snow Lady's eyes light up.

She shouted, "Xue Zhan, the Sea Shaking Wind Pearl was blasted into the hurricane by Chen Guangjia of the Fierce Wind Pirates. We have to find the Sea Shaking Wind Pearl and bring it back. Otherwise, the hurricane will become stronger and stronger. In the end, the power of the Great Dao will disperse in the hurricane or sweep the entire wind field into the endless void."

"Hiss ~"

Han Fei was stunned. What? Is there something wrong with Chen Guangjia's mind? Didn't you also entrap the hundred demons and the undersea humans?

Han Fei couldn't have felt worse.

He turned around and left without saying a word.

Han Fei's original body was also a little dumbfounded at this moment. He cursed, "Chen Guangjia is a big idiot. He's crazier than the Mad Fourth King... If such a huge wind field collapses, how many Venerables will die?"

The old turtle asked, "Is the Wind Pearl gone?"

Han Fei snorted. "Yes, I have to find it back."

The Vast Ocean Navigator appeared in Han Fei's hand.

Ka ka ka ~

The Vast Ocean Navigator spun rapidly.

Seeing this, Han Fei felt terrible. He activated the power of the Great Dao and quickly chased out.

In this violent hurricane, the moving speed of a bead was super fast, so the Vast Ocean Navigator was also spinning super fast.

Fortunately, when Han Fei's speed soared, the Vast Ocean Navigator slowed down.

After only ten seconds, Han Fei stabilized the speed of the Vast Ocean Navigator. Although it was still shaking slightly, he could already observe it.

However, soon, the effect of the Vast Ocean Navigator passed.

After all, the Vast Ocean Navigator could only be used three times a day.

As soon as Han Fei got some clues, the Vast Ocean Navigator stopped...

In that case, how could he find the bead?

“Forget it, I’ll take a gamble!”

Han Fei maintained an extremely high speed.

The Vast Ocean Navigator could only be used once today. If the last time was used up, he would have to ask those people to run away with him.

Ka ka ka ~

Seeing that the Vast Ocean Navigator began to spin again, Han Fei’s figure broke through the wind and jumped in the storm...

Swish ~

When Han Fei saw a flash of light blue light, he was shocked. “Found it?”

“Damn, so fast.”

Han Fei hurriedly chased after the green light.

In the blink of an eye, the two of them traveled thousands of kilometers in the gust.

Han Fei’s speed was superimposed with the Near at Hand Technique. Others might not be able to catch up with the bead.

Bang!

Han Fei’s void hand blocked in front of the Wind Pearl.

With a bang, his void hand was almost shattered.

Han Fei cursed, “Son of a b*tch! Without the Vast Ocean Navigator, I would be like a blind man...”

Chapter 1737 Pearl Keeper, Holy Child Xue Zhan

Han Fei picked up the Sea Shaking Wind Pearl. As soon as he stopped, he saw several powerful Wind Demons around him.

Han Fei turned around and saw that one of the Wind Demons had reached the Half-King level.

This should be the state after devouring many Wind Demons, but this improvement speed was too fast. In just a few days, this violent hurricane could create a Half-King Wind Demon?

While Han Fei was surprised, the old turtle said, “This strength is all fake. If this little Wind Demon can swallow the Wind Pearl, it can become a Wind Spirit. Once this violent hurricane is gone, it will only be a Wind Spirit... it will be at most a peak-level law enforcer.”

Han Fei was slightly relieved and thought to himself, You scared me. Do you think it only takes seven days to create a Half-King in this violent hurricane?

Han Fei drew a knife in the air and cut these Wind Demons into pieces. However, the strongest Wind Demon was reborn with the help of the wind.

Not only was it reborn, but the wind blades on the surface of the Half-King Wind Demon's body also burst out. Its power was not inferior to Han Fei's Million Knife Art.

Clank, Clank, Clank –

Clang! Clang! Clang!

The old turtle continued, "Although the wind has retreated, it's still very strong in this wind."

Han Fei curled his lips. "There's no wind here!"

Buzz!

The void was still...

This stillness only lasted for an extremely short moment.

After all, the power of Han Fei's imagination couldn't compete with the violent hurricane that was full of the Great Dao of Wind.

However, at this moment, Han Fei drew his saber again. This time, he drew a wind blade from the Wind Demon's body and cut it off.

Han Fei reached out and grabbed a Great Dao Wind Particle. This grain contained as many as 30 wisps of Chaotic Qi.

This number really shocked Han Fei. He really hoped that there could be more Wind Demons like this.

In just this round, Han Fei obtained more than 50 wisps of Chaotic Qi.

Holding the Sea Shaking Wind Pearl, Han Fei glanced at it, and information popped up in his eyes.

<Name> Wind Pearl (Incomplete)

<Introduction> It's a Great Dao Crystal that contains the Great Dao of Wind. After consuming it, you can ride the wind, and there's a certain chance of comprehending the Great Dao of Wind. The Wind Pearl contains a large amount of Chaotic Qi and can be swallowed directly. If a wind creature consumes it, there's a certain chance of awakening its intelligence and turning it into a spiritual being.

<Level> Venerable

<Quality> Divine Quality

<Chaotic Energy> 168 wisps

<Remarks> You can directly consume the Wind Pearl.

Seeing the introduction of the Wind Pearl, Han Fei was surprised to find that it was a divine-quality crystal. Besides, this small pearl contained 168 wisps of Chaotic Qi, and it was in an incomplete state.

The most important thing was not how much Chaotic Qi this Wind Pearl contained, but that it could lure Wind Demons over.

As long as he kept holding this Wind Pearl, wouldn't it mean that an endless stream of Chaotic Qi would come to him? Chen Guangjia was really his lucky star. He had given him another wave of benefits!

However, Han Fei was still busy.

Now, Han Fei had to go to the Eye of the Storm as soon as possible. In this place, his perception didn't work well, and his voice was muted in the wind field. There must still be many people hunting here...

Although these people had nothing to do with Han Fei, they were Venerables after all. It was not so easy for one to become a Venerable. Han Fei couldn't bear to see them die.

Buzz!

Han Fei broke the wind without any hesitation.

A moment later, with a bang, Han Fei rushed out with the Wind Pearl in his hand, looking at the Snow Lady who was still fighting the king of the undersea human race.

Han Fei asked in surprise, "Are you still fighting?"

The Snow Lady was surprised to see that Han Fei had taken back the Sea Shaking Wind Pearl ahead of Wind Master. How did he find the pearl?

However, at this moment, the Eye of the Storm had already fallen into the ice snow domain. The king of the undersea human race wanted to escape, so he was fighting the Snow Lady.

The king of the undersea human race was surprised to see that Han Fei had found the Wind Pearl... But then, his eyes turned cold, and his projection pounced at Han Fei.

The king's projection was only a Half-King.

Han Fei remained still and said indifferently, "Why do you think a Half-King can kill me?"

Han Fei reached out and the Embroidery Needle appeared in his hand.

Roar!

Han Fei used the Hundred Beast Soul Devouring and the projection paused.

Han Fei raised his rod and smashed the Half-King's projection.

"Huh?"

The king of the undersea human race was stunned. Wait, my Half-King projection is gone just like that?

Han Fei sneered and instantly recovered his strength.

It wasn't that Han Fei hadn't killed a king before. He knew very well that even kings had their limits and could be killed. Just as he was about to attack, he heard a bang and the Wind Master came back.

Han Fei immediately concealed his strength, and the Wind Master looked at Han Fei in surprise. "You found it?"

The Snow Lady hurriedly shouted, "Ling Feng, keep him."

Ling Feng should be the name of the Wind Master.

At this moment, the two kings were attacking him. The expression of the undersea human race changed drastically, and he flew back, holding an ancient wooden staff.

At that moment, Han Fei saw that at least a hundred wisps of Chaotic Qi were injected into the ancient staff, and a thousand-foot-long centipede swam out of it.

The king shouted, "Snow Lady, Ling Feng, I'll remember you two."

Rumble! Rumble!

The ancient staff and the centipede exploded at the same time.

The endless dark green poison instantly penetrated the ice domain.

Han Fei flew back and raised a huge shield in front of him.

Boom ~

Han Fei was blasted back, but fortunately, a gust of wind caught him and another gust of wind blocked his way.

In fact, Han Fei could deal with this power, but since the Wind Master had taken action, he didn't have to show more power.

A terrifying self-destruction swept for tens of thousands of kilometers.

Even though the violent hurricane had unparalleled power, it was filled with this power, and even the wind speed slowed down.

In the billowing smoke and dust caused by the explosion of the Sea Quelling Bizarre Treasure, only Han Fei, the Snow Lady, and the Wind Master were left in the Eye of the Storm.

Apart from the power of the explosion, the entire Eye of the Storm was filled with poisonous fog.

Han Fei took a breath, and his skin began to darken.

The Snow Lady was about to help Han Fei expel the poison, only to see that the blackness on Han Fei's body began to fade.

Han Fei secretly exclaimed, What a powerful poison!

Fortunately, he had completely absorbed the detoxification power of the Heaven Spirit Detoxifying Insect. Otherwise, he would probably be poisoned to death.

"No! When I go back, I have to eat all the poisonous flowers and herbs collected from the Heavenly South Myriad Treasures Pavilion. I have to improve my detoxification skills first."

“Huh!”

The Wind Master was surprised. “Although I heard that there is a hidden Heavenly Talent in the Snow God’s Temple, I didn’t expect him to be so extraordinary. He can even resist the poison of the Heavenly Centipede?”

The Snow Lady said lightly, “Xue Zhan has an extraordinary physique and has been well-versed in medicine since he was a kid. Moreover, he didn’t inhale much poison just now. Otherwise, he wouldn’t be able to be fine.”

The Wind Master shook his head slightly. “Master Snow Lady, you’re too modest.”

The Wind Master didn’t ask anything, but looked at Han Fei and said, “The Sea Shaking Wind Pearl hasn’t fully formed yet. Throw it away and let it continue to absorb the Great Dao of Wind.”

Han Fei threw out the Wind Pearl.

At this moment, the Wind Lord said, “This Xue Wu actually self-destructed his Heavenly Centipede Staff. He’s quite bold. Unfortunately, this person is very strong. It seems that we can’t keep him here.”

Han Fei was panting. It would take a while for the poison in his body to be removed.

The Snow Lady said, “Xue Zhan, there are still six hours before the Sea Shaking Pearls are fully formed. In these six hours, the Wind Demons in the violent hurricanes will become stronger and stronger. In the end, more than ten Half-King Wind Demons may be born. The only good thing is that they won’t attack together. Can you resist them?”

The Snow Lady was actually explaining to Han Fei that it would be quite safe later. There would be only a few Half-King Wind Demons.

The Wind Master couldn’t help but smile. “Xue Zhan has helped us a lot this time. Can’t you just help him get the Sea Shaking Wind Pearl?”

The Snow Lady shook her head slightly. “He still has to gain experience himself.”

The Snow Lady looked at Han Fei. “In six hours, once the Sea Shaking Wind Pearl is formed, the power of the violent hurricane will be weakened, and the Wind Demons won’t be born anymore. Of course, in addition to the Wind Demons, there may be strong masters of the other Heavenly Palaces coming to compete for the Wind Pearl. It’s up to you!”

Before Han Fei said anything, the Wind Master laughed. “Fine, let the Hundred Demons or the Undersea humans fight for the Sea Shaking Pearls! We Wind Slashing World don’t want to join in the fun.”

The Wind Master cupped his hands at the Snow Lady. “Let’s go! The battle is over. I’ll take a look around and see if there’s anyone else to save.”

The Snow Lady bowed slightly.

After the Wind Master left the Eye of the Storm, he shook his head slightly. “He’s only a peak-level Venerable? Do you think I’ll believe you? This kid’s physical body has already become a Half-King... The Ice Snow World is really tricky! They hid their trump card really well for the Land of King Death.”

When only Han Fei and the Snow Lady were left in the Eye of the Storm, Han Fei said casually, "It's Chen Guangjia's scheme, which is aimed at the heavenly talents of the human race. I have almost ruined his scheme. But many human Venerables have been hunted in the wind field... I don't know what the casualties are."

The Snow Lady nodded slightly. "It's not the first time this has happened, but it rarely succeeds. This time, something unexpected happened. I need to see it too... With your strength, you just need to wait for a few hours."

Han Fei couldn't help but ask, "Are there only a dozen Wind Demons in the Half-King Realm?"

The Snow Lady: "..."

The Snow Lady said, "It's extremely difficult for Wind Demons to grow to the Half-King level by devouring each other. It's already rare for this violent hurricane to produce more than ten Half-King Wind Demons. You should have hunted many Wind Demons. It's already a great opportunity for you to obtain at least 500 wisps of Chaotic Qi on this trip."

Han Fei shrugged and didn't stop the Snow Lady from leaving.

Han Fei thought to himself, I have more than a thousand wisps of Chaotic Qi now. If there are seven or eight Half-Kings more, plus the Chaotic Qi contained in the Wind Pearl, I can get another 500 wisps of Chaotic Qi or so.

Thinking of this, Han Fei wished there could be a violent hurricane every day...

Chapter 1738 Time Chain Upgraded

Han Fei was the only one left in the Eye of the Storm.

This place was not affected by the wind of the Great Dao.

The old turtle said, "Many sea demons in the wind field have retreated. I don't think many people will compete with you."

Han Fei said leisurely, "Okay! Then I'll wait for the Wind Demons."

An hour later, Han Fei finally met a Wind Demon in the Half-King Realm. The Wind Demon didn't even look at Han Fei and directly pounced at the Wind Pearl.

"Hey, don't open your mouth so big... Did I say I gave it to you?"

The wind was invisible, and the Wind Demon was just an invisible shadow. It could change its form, but who knew that it would turn into a big shark?

At this moment, Han Fei turned into a golden giant and ripped the Wind Demon's mouth.

One hour passed.

Two hours passed.

Three hours.

When Han Fei killed eight Half-King Wind Demons in a row, he scratched his head and said, “Why didn’t anyone come to snatch the Wind Pearl?”

The old turtle said, “As I said before, most sea demons have retreated!” Han Fei: “That’s not right! There are still some sea demons here.” The old turtle said, “Venerables are not small potatoes. They’re not stupid. If they know that this place is full of danger, they won’t come here, OK?”

Han Fei: “...”

The Hundred Demon Clan and the Undersea Human Clan ran away, the people from the Wind Slashing World would not come, and the people from the Ice Snow World would probably not come either... In addition, the strong masters of the other Heavenly Palaces nearby had probably received the notice, so no one came again.

Han Fei waited until the Wind Pearl was formed and stopped absorbing the wind power of the Great Dao before he grabbed it and stuffed it into Forge the Universe.

After doing all this, Han Fei had just entered the wind field when he met a human strong master, who happened to be from the Wind Slashing World and was fighting an ordinary Wind Demon.

The man was stunned for a moment when he saw Han Fei. He said as he was fighting, “Greetings, Fellow Daoist Xue Zhan.”

Han Fei: “...”

Han Fei couldn’t help but ask coldly, “Why don’t you go to the Eye of the Storm?”.

The man said with a smile, “I heard that Fellow Daoist Xue Zhan is guarding the Sea Shaking Wind Pearl. How dare I snatch it with you?”

Han Fei: “...”

Han Fei thought to himself, I’m already so famous? What did the Wind Master say to the people of the Wind Slashing World?

However, Han Fei didn’t care anymore. He quickly left the violent hurricane.

Apart from some scattered Wind Demons, there shouldn’t be any opportunities here. The wind power of the Great Dao was rapidly weakening, and the violent hurricane should disappear soon.

Han Fei had forgotten how many Venerables he had killed in this battle.

Finding the old turtle, Han Fei left the violent hurricane and entered Forge the Universe. As soon as he entered Forge the Universe, Han Fei sat cross-legged and looked at his information first.

Owner: Han Fei

Level: 89 (Peak Venerable)

Bloodline Ranking among the Clans in the Infinite Ocean: the 3,460,564th (In Evolution: 7/3,421 days)

Chaotic Qi: 2,383 wisps

Spiritual Power: 231,061

Perception range: 120,000 kilometers

Strength: 23,908 Waves

First Spiritual Heritage: Unknown

Second Spiritual Heritage: Unknown

First spiritual beast: Twin Yin-Yang Spirit Swallowing Fish (level 78)

Second Spiritual Beast: Emperor Sparrow (Level 76)

Main Art: The Seventh Level of Void Fishing, Void Descending Art (King Level, Divine Quality)

In addition to the soaring Chaos Qi, Han Fei's soul power also soared.

The Emperor Sparrow had actually advanced another level in the past few days, almost catching up to Little Black and Little White. How did this guy grow? This speed was too fast.

Han Fei didn't swallow the Sea Shaking Wind Pearl but looked at the gray mist space of the Demon Purification Pot.

"It's time to upgrade the Time Chain."

"Upgrade."

Buzz!

Thousands of Chaotic Qi were extracted from Han Fei's body.

The old turtle was lost for words. "You're trading with the Calabash again? Why are you so generous? Don't you want to open your Origin Sea?"

Han Fei couldn't help but say, "Don't panic! I still have more than a thousand wisps."

The old turtle looked disappointed, thinking that Han Fei was really a spendthrift... He just couldn't keep any Chaotic Qi on him... As long as he had some capital, he would trade for something with the calabash.

While the time chain was upgrading, Han Fei took out all the Sun-Moon Shells he had hunted this time.

Hualala ~

A large pile of Sun-Moon Shells fell to the ground, and there were 57 of them.

With a thought, Han Fei opened a river-like ditch in Forge the Universe.

Splash!

The ultra-quality spiritual stones were poured in like a river. After all the ultra-quality spiritual stones were poured into the ditch, Han Fei took a deep breath. Unknowingly, he had looted 5.08 million pieces of ultra-quality spiritual stones.

'Yes!'

Even Han Fei was shocked by the number. He had never been so rich in his life!

After filling more than a dozen pits, Han Fei finally sorted out all the resources.

Two hour passed.

Han Fei counted again.

"Ultra-quality spiritual stone, 5.08 million pieces."

"Ultra-quality divine weapon, 9,106 pieces."

"1,024 high-quality divine weapons."

"30,657 Divine Weapon materials."

"567 Sea Quelling Bizarre Treasure materials."

"Pills, 286 bottles."

"Energy Fruit, 24,398 pieces."

"18,079 other spiritual fruits."

"Messy treasure maps, 201."

"403 cultivation techniques and combat skills."

There were also some other things that weren't particularly much but very precious, such as the Earth Vein Spring Water, and demonic qi essence...

When Han Fei sorted out all these things, he was confused. How can I use so many things?

The old turtle said, "There aren't many that you can use."

Han Fei asked, "Can't I use these resources when I am transcending the tribulation?"

The old turtle said, "At least you can build thousands of shields to transcend the tribulation. Maybe they can help you transcend it."

Han Fei: "..."

Han Fei shook his head slightly. "Forget it. Let me swallow this Sea Shaking Wind Pearl first."

Han Fei extended his hand, and the Sea Shaking Wind Pearl flew to his mouth. Han Fei swallowed it without hesitation.

To be honest, Han Fei had too many things to eat now. In Han Fei's opinion, the 200 wisps of Chaotic Qi were the most important part of the Sea Shaking Wind Pearl.

Yes, the completely formed Sea Shaking Wind Pearl only provided Han Fei with 200 wisps of Chaotic Qi.

When the Wind Pearl entered his mouth.

Han Fei felt that a hurricane was blowing in his heart, and a cyan light appeared in his eyes. At that moment, Han Fei seemed to be in a wind field.

However, Han Fei was like a kite, rising and falling in the wind.

The power of that wind fluctuated, sometimes sharp, sometimes gentle, sometimes warm, sometimes cold.

As for Han Fei, his kite-like body spun in the wind like a leaf.

Gradually, Han Fei felt that he could control this leaf-like body... Only when he could move freely in the wind did he feel that the wind was getting weaker.

Han Fei didn't wake up from his reverie until the wind in his heart disappeared.

The moment he woke up, Han Fei asked, "Old Yuan, how long did I meditate?"

The old turtle said, "It's not an epiphany, but a feeling of the Great Dao of Wind. Two hours have passed."

"Only two hours?"

He looked at the Time Chain and realized that it had not been successfully upgraded...

Han Fei couldn't help but smile bitterly, feeling that he had done a lot of things... But only two hours had passed?

Han Fei was still sitting cross-legged, but suddenly a gust of wind rose behind him, and then Han Fei flew up.

Swish ~

Han Fei appeared outside Forge the Universe, bent his fingers, and flicked out a wind blade.

The wind blades slashed out in an irregular form in the void, cutting out a hundred meters and bringing out a large number of wind blades in the surroundings. Finally, they cut out a sea of void cracks.

Han Fei tapped his feet, and invisible wind condensed into steps for Han Fei to walk freely.

Buzz!

Han Fei flew out tentatively, but he didn't seem satisfied this time.

Han Fei said, "After mastering such a Great Dao, my speed has only increased by ten percent?"

The old turtle said, "10% is already very fast for your current strength. Do you want to be faster than a king now?"

Han Fei shrugged. "Maybe!"

Han Fei wasn't in a hurry to enter Forge the Universe. With a thought, the phantom of mountains and rivers appeared. Tree Spirit, Fire Seed, Water Luster, Earth Nine, and Punishing Saber appeared.

The five of them looked at each other in surprise. "Master, what can we do for you?"

Han Fei casually threw out the five elements he got from Ban Yi.

Han Fei said, "I got this by accident. Take a look if they're useful to you."

Water Luster said, "Although I don't know what it is, it suits my origin very well. If I refine it, my strength should be able to quickly rise to the level of an advanced Explorer or even a peak-level Explorer."

Earth Nine and the others also nodded. "We feel the same. They seem to be very compatible with our origins."

Han Fei looked at the five elements in surprise. They were actually five floating crystals.

As for Tree Spirit and the others, they were only intermediate Explorers and were still far from peak Explorers.

Han Fei said, "Okay, take them! Wait a while longer, and I'll let you out again."

"Yes, Master."

When Han Fei entered Forge the Universe again, he suddenly felt that there seemed to be a change.

Immediately, Han Fei looked at the Time Chain and smiled. "Thirty-two times..."

Chapter 1739 The Limit of A Venerable's Bloodline

Han Fei was finally relieved to see that time had been accelerated 32 times in Forge the Universe.

Han Fei had always thought that 16 times the time acceleration wasn't enough. Now, he could finally complete the bloodline devouring plan before going to the inner domain.

The next day.

When Han Fei returned to the Snow God's Temple, his appearance caused a lot of commotion.

This time, no one dared to provoke him.

Someone said, "I heard that... our Holy Child is so amazing. He killed a Half-King in an instant."

Someone sneered. "Not only that. It's said that he can tie with the leader of the Avengers."

Someone was surprised. "What? ... Why are what we heard a little different? I heard they didn't fight."

Someone said, "Alas, if it weren't for the surprise attack of a king, they would have fought. But Han Fei didn't dare to attack the Holy Child in the end."

Someone sighed. "It's said that Master Holy Child hid his strength. His real strength is in the Half-King Realm."

Someone sighed. "I knew it! He beat us peak-level Venerables like cutting melons and vegetables... If he were a peak-level Venerable, he wouldn't be so strong!"

Someone heaved a long sigh. "However, he didn't use the means of a Half-King! Forget it, the appearance of the Holy Child must be for the Land of King Death. Otherwise, he would have been hidden for a few more

years.”

Han Fei wasn't interested in these comments.

Han Fei felt that as long as he went to the inner domain, he wouldn't return to the Ice Snow World.

Returning to his Ice Snow Courtyard, Han Fei saw that Ice Snow Chuling was waiting for him.

Han Fei asked casually, “What's the matter?”

Ice Snow Chuling said, “Thank you for saving my life.”

Han Fei waved his hand casually and said, “It's fine. You came here just to thank me?”

Ice Snow Chuling said, “Master Snow Lady said that the Avenger would be better not go out much on ordinary routes these days. Recently, there have been many major events. The thirteen worlds in the outer domain have begun to strictly guard the routes.”

Han Fei nodded slightly. “Got it. I don't plan to continue attacking for the time being.”

Hearing this, Ice Snow Chuling was slightly relieved. Who knew how many sea demons the Avenger had killed in the violent hurricane? Now, Han Fei was probably famous in the Hundred Demons and Martial Emperor City.

Besides... Han Fei directly took Ban Yi away.

Ban Yi was probably dead now.

The thirteen worlds in the outer domain were all offended by him. If Han Fei's identity was exposed in the future, he would become the enemy of more than half of the Thirty-Six Mystic Worlds.

Ice Snow Chuling said, “Heavenly Master, have your followers and that little girl been in the Sea Quelling Painting all this time? Master Snow Lady asked me to remind you that there is too little spiritual energy and Great Dao in the Sea Quelling Painting, which is not conducive to long-term residence. Of course, it's up to you.”

“OK... huh?”

Suddenly, Han Fei's eyes widened. “Wait... How do you know about the Sea Quelling Painting? Is there more than one Sea Quelling Painting?”

Ice Snow Chuling glanced at Han Fei in surprise. “Don't you know, Heavenly Master? The Sea Quelling Painting was originally a large peerless painting, but in the beginning, it was divided into thirty-six parts. Every world had one part. Unfortunately, the Heavenly Palaces vary in strength, and our Sea Quelling Paintings eventually fell into the hands of the other worlds.” “Hiss ~”

Han Fei took a breath. There were indeed thirty-six parts of the Sea Quelling Painting. He had always felt that the territory in the Sea Quelling Painting didn't seem to be complete.

It turned out that his feelings were right.

However, Queen Life had never told him about this. Did she not know about the Sea Quelling Painting... or did she deliberately not tell him?

Han Fei thought to himself, When I return to the Yin-Yang World, I should chat with my junior sister. Our two worlds have been neighbors for so many years, so the Water-Wood World's relationship with the Yin-Yang World should be better than with the other worlds, right? Is there a need to hide this from me?

Han Fei's heart did a flip and he immediately asked, "Is there a strong academy in the Ice Snow World?"

Ice Snow Chuling said, "Of course, the Wind Snow Dao Academy is the best academy in our world. Those who can enter the Wind Snow Dao Academy are all Heavenly Talents. At least, it's difficult for those with a spiritual heritage below level-seven to enter."

With a thought, mountains and rivers appeared around Han Fei, and Xiao Se and Nian'er appeared.

Seeing Han Fei, Nian'er immediately asked, "Brother, is it safe outside?"

Han Fei smiled. "Of course. Nian'er, let me send you to a fun place for half a year, okay?"

Han Fei sighed.

Although he had promised the Time Dragon Carp that he would bring Nian'er along to grow... Nian'er was too weak now, and he might encounter danger at any time. He couldn't always put her in the Sea Quelling Painting

Moreover, the Snow Lady had also said that although one could live in the Sea Quelling Painting, it was not suitable for cultivation. Moreover, Nian'er knew too little about the outside world and the ways of the world. She had to go to a crowded place to adapt.

Nian'er was overjoyed. "What fun place?"

Han Fei smiled. "A school."

Since Nian'er was going to enter the school, Han Fei certainly had much to tell her.

Of course, the most suitable solution was for Xiao Se to follow her to prevent any accidents.

Half a day later.

Han Fei said to Xiao Se and Nian'er, "Nian'er, you can't use the Time Technique in school, not even once, understand?"

Nian'er said, "Got it."

Han Fei said with a smile, "Of course, Nian'er, you can learn any technique except the Time Technique. You can see all kinds of body-tempering techniques, combat skills, and soul combat skills. Also, communicate with your classmates as much as possible. But if anyone bullies you, just beat them up. But don't kill them..."

Han Fei rambled on.

After all, she was still a child. Han Fei looked at Xiao Se worriedly and said, "Don't try to change Nian'er's cognition, and don't try to subvert my theory. You just need to be an escort and watch over Nian'er. If there's anything you can't solve, you can come to me directly, or Holy Lady Chuling..."

me

Xiao Se nodded. "Yes, Master Han Fei."

"I'm the Holy Child now."

Xiao Se said, "Yes, Master Holy Child."

Han Fei wasn't worried about Nian'er's learning ability at all. After all, she was a Time Dragon Carp born with an immortal spiritual heritage, which should be even stronger than his.

Therefore, whether it was learning cultivation techniques or various combat skills, her speed could not be slow.

In addition, he had given Nian'er and Xiao Se a lot of resources, which could be squandered by them. Anyway, they wouldn't be used up in half a year.

No matter what, children had to go to school. They had to interact more with this world and communicate more with others to grow up faster.

More than four months later.

Twelve years had passed in Forge the Universe.

At this moment, Forge the Universe was as wide as 3,000 kilometers. This was the space expanded by the remaining impure spiritual energy when Han Fei was cultivating.

At this moment, on the Ice Snow Lotus Throne, more than half of the marrow refinement of Han Fei's Purity Mystic Body had been completed.

Compared to the Indestructible Overlord Body, the Purity Mystic Body was much gentler.

Although it took a long time, it was a great technique ranked among the tops in the Infinite Ocean after all. Therefore, the cultivation speed was actually not slow.

Han Fei had reached a new bottleneck in casting the Purity Body. He was only one step away from the Half-King realm.

However, there were still 33 days left before his bloodline devouring could finish.

Han Fei thought to himself, Let me wait a little longer! Otherwise, how embarrassing would it be if my realm dropped again after I just became a Half-King?

Another month passed in Forge the Universe.

On this day, Han Fei was suddenly refreshed. The first thing he felt was his body instinctively swallowing power.

Han Fei shouted, "Old Yuan, release some energy to me."

The old turtle quickly moved away.

When a tremendous amount of energy filled Han Fei's body, which was about five percent of the total energy the old turtle reserved, Han Fei finally felt full.

At this moment, Han Fei looked at the Demon Purification Pot, and information appeared.

Owner: Han Fei

Level: 89 (Peak Venerable)

Bloodline Ranking among the Clans in the Infinite Ocean: the 2,720,986th

Chaotic Qi: 1,583 wisps

Spiritual Power: 241,862

Perception range: 140,000 kilometers

Strength: 27,001 Waves

First Spiritual Heritage: Unknown

Second Spiritual Heritage: Unknown

First spiritual beast: Twin Yin-Yang Spirit Swallowing Fish (level 78)

Second Spiritual Beast: Emperor Sparrow (Level 76)

Main Art: The Seventh Level of Void Fishing, Void Descending Art (King Level, Divine Quality)

Han Fei seemed to have expected this information and wasn't very surprised.

His bloodline ranking among the clans in the infinite ocean had increased by about 740,000.

His spiritual power had increased by more than 10,000 points because he had visualized a Dao pattern.

His perception had increased by 20,000 kilometers because of the upgrade of his bloodline.

As for strength, because Han Fei was now at the peak of the Venerable realm, his strength had been stuck at 26,999 waves after two months of seclusion.

However, because of the improvement of his bloodline, this bottleneck was broken again.

This meant that Han Fei had to continue cultivating if he wanted to become a Half-King again.

Han Fei's current strength had already surpassed the old turtle's strength when he transcended the tribulation.

When Han Fei looked at the bloodline information again, he couldn't help but sigh. As he expected, he had no bloodline to devour

now.

Number of clans in the Infinite Ocean: 29620223

Master: the 2720986th

Nearby Bloodlines: Ancient Azure Dragon, Golden Crow Blood, Time Dragon Carp, Twin Yin-Yang Spirit Swallowing Fish...

Recommended Bloodline: None

At this point, Han Fei knew that his bloodline level was probably extremely high in the Venerable realm. This could be felt from his cultivation speed.

Since the Demon Purification Pot didn't recommend him to devour any bloodline he had already got, if he swallowed it by force, the consequences would be unpredictable.

In that case, his bloodline in the Venerable realm would be good enough now. When he became a king, his life level might be extraordinary.

Chapter 1740 Nian'er Goes to School

After another breakthrough in his life level, Han Fei continued to cultivate the Purity Mystic Body, making improvement super fast.

Previously, he had reached a bottleneck after two months.

Now, his life level had improved, and his cultivation speed was faster. After just ten days in the outside world, his strength had broken through 28,000 waves!

This speed was astonishing.

On this day, Han Fei was cultivating.

Suddenly, the old turtle said, "Ice Snow Chuling is here. It's time to set off."

"Um!"

Swish ~

Ice Snow Chuling was about to call out when the seal on Han Fei's Ice Snow Courtyard automatically opened.

Seeing Han Fei wearing a snow-white cloak and an ice mask, Ice Snow Chuling didn't know if it was an illusion.

She actually felt a pressure in bloodline!

The person in front of her seemed to be born to be nobler than her. She actually had the urge to kneel at him.

Seeing that Ice Snow Chuling was stunned, Han Fei asked, "Are we leaving?"

Only then did Ice Snow Chuling come back to her senses. "Yes, the teams of the thirteen worlds in the outer domain have gathered. Master Snow Lady will personally lead the team and we'll set off tomorrow."

Han Fei asked in surprise, "The king is leading the team? Then won't the Heavenly Palace be left unguarded?"

Ice Snow Chuling said, "Not all the kings of the outer domain will go on this trip. In the thirteen worlds in the outer domain, seven kings will stay. We Ice Snow World and the Wind Slashing World have a good

relationship, so Master Wind will stay in the outer domain. Besides, the Heavenly Palaces will activate our respective protection arrays. Before my teacher comes back, the Ice Snow World will try to reduce the exploration activities. And..."

"Huh?"

Ice Snow Chuling sighed slightly. "Also, apart from us going to the Land of King Death, the Hundred Demons, the Undersea Human Race, and the Mermen will all go there. After all, the kings who died on the Land of King Death are not only from the 36 Heavenly Palaces. There are also sea demons and even giant beasts."

Han Fei asked, "So, in addition to the dangers brought by the heavenly talents of the 36 Mystic Worlds, and its own dangers, there is also the threat of sea demons?"

Ice Snow Chuling nodded. "The Land of King Death opens once every hundred years, so all the Heavenly Talents in the Raging Sea will go there. This is why Teacher can leave the Ice Snow World."

Han Fei was secretly delighted and couldn't help licking his lips. "Interesting. Kings won't enter... Are you sure kings can't get in?"

Ice Snow Chuling glanced at Han Fei in surprise, feeling that Han Fei seemed very excited.

She said, "In theory, they can. However, the kings restrain each other and only let Venerables seek opportunities in it. After all, the strongest person who died in the Land of King Death is only a king. Although there may be some treasures there, they can't help the kings much! However, it's different for Venerables."

Han Fei nodded. "That's good."

Ice Snow Chuling seemed to realize something. Han Fei was the current master of the Yin-Yang World! Was such a character fundamentally different from a king?

In the last violent hurricane, even Han Fei's clone could easily kill a Half-King. If Han Fei really went to the Land of King Death, who could be his opponent?

Suddenly, Ice Snow Chuling realized something. Why did Master Snow Lady keep Han Fei for half a year? Was it to protect Han Fei or to borrow his strength?

But in any case, the Snow Lady did Han Fei a great favor to keep him in the Ice Snow World and even help him go to the Land of King Death.

It was impossible for Han Fei not to realize it after listening to the explanation of Ice Snow Chuling.

Han Fei said, "I'll protect the people of the Snow God's Temple this time. If there's a chance, I'll certainly help you!"

Wind Snow Dao Academy.

Nian'er had been studying here for half a year. When she first arrived, she shocked a large group of people.

Those who could enter the Wind Snow Dao Academy were all Heavenly Talents, but when had they ever seen a peak-level law enforcer at the age of seven or eight?

Nian'er was young, but her strength was extraordinary.

Most importantly, she was cute and liked to eat. Other students rarely bullied her.

Although Nian'er's strength was high, she took the same courses as the new disciples. Some of those disciples were only great fishing masters, but their talent was also astonishing!

Many of these people were about the same age as Nian'er, but their strength was worlds apart.

At first, they did not dare to talk to Nian'er. However, they later realized that Nian'er was cute and sensible. When she had nothing to do, she would just read books, eat, and play with the Cube.

The cube helped Nian'er in socializing and attracted a lot of attention.

Nian'er quickly became good friends with a group of children.

Xiao Se was very happy to see that.

Ever since he met Nian'er, he had never seen Nian'er smile so happily. However, when she walked out of the Abyssal Chasm and followed Han Fei out, she was very happy almost every day. Even in the Sea Quelling Painting, she was very happy with so many small animals playing with her.

Five months later.

Nian'er was no longer that little girl who knew nothing. At least, she knew the structure of this Ice Snow World... She knew the difference between villages, towns, and main cities.

She also cultivated with her friends and went shopping together.

She even secretly went to a village with another little girl. The reason was that the little girl heard that her parents were bullied and Nian'er wanted to help her.

When she went to the village, she almost slapped a whole family away. The family was so frightened that they knelt down and begged for mercy.

Later, when they returned to the Wind Snow Dao Academy, Nian'er naturally had to be punished as well. The teacher was very annoyed and taught the two of them a good lesson.

These were just small interludes.

That was what kids did.

Back then, Han Fei was no better than Nian'er... or even worse. After all, when Han Fei first came here, this world was completely new and too attractive to him.

On this day.

Nian'er was not cultivating because she did not need to cultivate at all. She only cultivated combat skills.

When it was almost noon, Nian'er set up a grill in the house with a little girl who was about her age.

Nian'er said, "Xiao Tan, let's have barbecue for lunch."

Xiao Tan was a bit worried. "Nian'er, we were caught by the instructors when we had barbecue last time. We were punished to go into seclusion for three days... Are we really fine this time?"

Nian'er chuckled. "It's fine. I went to the academy to find a few array books. Look at me..."

Nian'er took out an ultra-quality spiritual stone and controlled the spiritual energy to circle the room, setting up a crooked concealment array.

This scene made Han Fei speechless.

Han Fei looked at Xiao Se and asked, "Who taught her how to set up arrays?".

Xiao Se looked embarrassed. "Little Master came to ask me, so I let her attend a few lessons for spirit gatherers."

Han Fei: "..."

Han Fei was lost for words. "You're already a Venerable. Nian'er is so talented, and that's what you taught her? Is this a concealment array? She's just piling up spiritual energy. Now, the array has been set up, but her room is full of spiritual energy. She is literally telling the whole school that I'm barbecuing here."

"Puff -"

Ice Snow Chuling couldn't help but laugh. She thought to herself, Your precious sister has caused a lot of jokes in school. Last time, she made that hot pot... There was water in the pot, the pot was on fire, and the fish were swimming in the pot. She asked why the fish could still swim... A lot of people laughed.

Sure enough, not long after Nian'er set up the concealment array, a white-bearded teacher shouted, "Han Nian'er, come out! You think your family is rich?! Why did you get a spiritual energy shield above your head in broad daylight... Do you think you're not shining enough?"

In the house, Xiao Tan sighed. "Sure enough, we're discovered again."

Nian'er lunged to her feet and quickly put away the grill. "Run!"

Everyone : "..."

Han Fei finally couldn't stand it anymore. He put away the concealment array, absorbed the spiritual energy into his body, and appeared in front of the house.

Nian'er had just gone out when she saw Han Fei. "Brother? Pretty Sister..."

Nian'er had seen Han Fei in a mask, so she knew that this was Han Fei.

They turned around and saw an advanced Explorer rushing over huffily.

However, when the old man saw Ice Snow Chuling and the masked Han Fei, he froze and then gasped.

The old man immediately bowed. "Greetings, Holy Lady and Master Holy Child. My name is Ming Du."

The old man was shocked. Why are these two here?

When the old man looked at Nian'er again and remembered her terrifying talent, he immediately gasped.

"Could it be that Holy Lady and Holy Child are already married and have a daughter?"

This discovery made Ming Du's heart tremble. This kind of thing had to be kept a secret. If the news spread out, who knew how much trouble it would cause?

Han Fei said, "Mr. Ming Du, thank you for taking care of my sister for the past six months."

"Sister?"

Ming Du heaved a sigh of relief and thought to himself, Is Nian'er really Master Holy Child's sister?

However, he still bowed and said, "Master Holy Child, you don't have to be so polite. Nian'er is really talented. She can break through the realm and transcend the tribulation at any time. I'm so proud that our Ice Snow World have such a Heavenly Talent..."

Han Fei said casually, "Sir, I'll take Nian'er away today." "Huh?"

The old man thought to himself, Nian'er has only been here for a year. Although Nian'er doesn't know many things, she's quite liked by the teachers. Why is she leaving now?

VV

Ice Snow Chuling was also surprised. "Are you going to take Nian'er with you?"

Han Fei said, "Yes."

Nian'er was a little reluctant to leave. "Brother, are you leaving so soon? I just made friends."

Han Fei smiled. "Nian'er, we'll come back if we have a chance in the future."

Nian'er couldn't help but look at her friend. Although she was reluctant, she had to leave if Han Fei did.

Nian'er thought for a long time before she took out her barbecue grill and threw it on the ground. "Xiao Tan, I'm leaving. If you're hungry in the future, use it for barbecue..."
