Chapter 1741 Secret of the Monarch Palace

Since Han Fei left the Snow God's Temple, he wouldn't leave Nian'er behind.

For Han Fei, the road ahead might be different every day. Who knew what would happen?

Moreover, even if the Snow Lady showed friendship to him... their relationship had not reached the point of trust.

The Snow Lady had her own reasons for helping him.

All Han Fei had to do was accept it calmly and exchange benefits with her.

The next day.

The Snow Lady left the Heavenly Palace and boarded the ship to the inner domain with 24 Venerables, including the Holy Child and the Holy Maiden.

Among these 24 people, only one of them was an advanced peak-level Venerable. Among the rest, except for Han Fei and Ice Snow Chuling, who were recognized as Half-Kings, there were only two Half-Kings.

There weren't many Half-Kings going because when one reached the Half-King realm, he only considered transcending the tribulation.

If one was lucky, he could indeed obtain many opportunities in the Land of King Death. However, to directly obtain the opportunity to become a king? The Land of King Death was not enough.

Most Half-Kings were waiting for the opening of another super secret realm. Only that place was the ideal place where they could become a king.

Therefore, the team of the Snow God's Temple could be said to be extremely strong.

Han Fei exclaimed in his heart, If all the 36 Mystic Worlds send over such a team, then there will be at least 600 peak-level Venerables participating in the Land of King Death this time.

And this was only on the human side... How many people from the Hundred Demon Race, the Undersea Human Race, the Merman Race, and even the Giant Race would participate?

In that case, there seemed to be more than 2,000 Venerables on the Land of King Death this time.

Han Fei had fought a lot of battles, but this time, with thousands of Venerables present, how many people would die in this battle? Were Venerables so cheap?

Standing on the boat with his hands behind his back, Han Fei looked extremely powerful. Hearing the voice behind him, Han Fei said casually without looking back, "What's the casualty rate on the Land of King Death?"

"Generally speaking, about 30%."

Han Fei narrowed his eyes slightly. Thirty percent was already a lot, which meant that nearly one-third of the strong masters would die in this battle.

They would have to pay a great price, but it was probably not enough for them to become kings. Going to the Land of King Death could only be said to have the opportunity to become a king. Perhaps some lucky people could... obtain the opportunity.

Even if there was a huge opportunity there, it would probably be extremely difficult to obtain. However, since Half-Kings were sent there, it meant that there should be opportunities for Half-Kings to fight in the Land of King Death.

Ice Snow Chuling said, "Teacher is calling you."

Han Fei smiled. Sure enough, he knew that it wasn't that simple.

The ship that Han Fei was on was named Snow God. It was named after the Heavenly Palace, which meant that it was the king's ship.

This large ship was refined from the bones of a Half-King.

In many places, there were even traces of kings' bones. In terms of the array of this ship, it might be the strongest ship in the Ice Snow World.

The ship was more than 200 meters tall, with three floors. The top floor was where the Snow Lady lived, like a small ice palace.

When Han Fei entered, the Snow Lady was reading a heavy snow book covered in frost. Seeing Han Fei come in, she said casually, "You should have guessed it... There seems to be something different about the Land of King Death."

Han Fei came to the table and nodded slightly. "If the opportunities there are only to help people to become Half-King, it's meaningless for Half-Kings to go there."

The Snow Lady looked at Han Fei and asked, "How much do you know about what happened back then?"

Han Fei asked, "Are you talking about the secret realm you've been to?" Seeing the Snow Lady nod, Han Fei said, "I basically don't know anything. I only know that it's a barrier on your eastbound route. The things there make you willing to stay there and fight for them."

The Snow Lady smiled. "It seems that you really don't know much about it. Half-Kings don't go to the Land of King Death for nothing. They are chosen to go there just for one thing."

Han Fei's pupils were constricted slightly. "What is it?"

The Snow Lady said, "The key to the Imperial Palace."

Han Fei's eyelids twitched. "The Imperial Palace?"

The Snow Lady pushed the heavy snow book in front of her to Han Fei.

Han Fei didn't ask further, but turned the book over and glanced at it. A moment later, even his breathing quickened.

Because the Snow Lady was here, the old turtle didn't say a word.

But even if the old turtle didn't say it, Han Fei knew that this was a big secret.

It turned out that after Old Han and company, the Thirty-Six Mystic Worlds had conducted more than one treasure hunt. In the end, they confirmed that it was a Monarch Palace.

Yes, it was fine if Han Fei didn't know about the monarch, but he did!

Being a monarch was only one step away from becoming a god.

Martial Emperor City could stand proudly in the Raging Sea for so many years just because it was said to be related to a monarch, but that real Monarch Palace had indeed had the inheritance of a monarch. No wonder these people would rather guard here than leave.

The snow book recorded that it was not difficult to enter the Monarch Palace.

If he had a token from the Monarch Palace, it would be much safer. The more tokens there were, the better the quality, and the safer he would be when he went to the Monarch Palace in the future!

To ordinary people, the Land of King Death was an opportunity to become a Half-King. However, to a Half-King, the opportunity to explore the Monarch Palace represented an opportunity to become a King.

The Snow Lady said, "The part of the Monarch Palace that we have explored should be less than 30% of the entire Monarch Palace. The further we go..."

"Wow"

Han Fei said in a low voice, "Not even thirty percent, but hundreds of kings have already been created?"

The Snow Lady said lightly, "Yes, that's what we know. However, we don't know how many kings it has created. You should know that we are all old. The bloodline level of humans and the hidden injuries left on us in the battles of kings will actually damage our lifespans! Therefore, we won't attack easily... However, before we die, we still have to explore that place again."

Han Fei narrowed his eyes and asked, "What about reincarnation or possessing someone else's body?"

The snow maiden said, "You should know that if you want to cultivate a reincarnation body, try not to awaken your memories. Otherwise, it will be difficult for you to walk the Great Dao... Besides, when you cultivate a reincarnation body, you have to divide your luck. If you do it too many times, it's hard to say whether the reincarnation body belongs to you or you belong to your reincarnation body. As for possessing someone else's body, you can only live one more life at most. Many kings have already tried this way, including human kings and sea demons kings, but no one ended well..."

Han Fei said leisurely, "So, you want to keep sending people to explore the Monarch Palace and nurture new kings?"

The Snow Lady said, "You just came out of the Wild Abyss, so there are some things you don't know. Do you know why the Raging Sea is divided into 13 worlds in the inner domain and 13 worlds in the outer domain?"

Han Fei was puzzled. "Why?"

"Because for the thirteen worlds in the inner domain, each world has more than one king."

"Huh?"

Han Fei's body trembled. More than one king?

Did this mean that in the thirteen worlds in the inner domain, there were at least 26 kings?

The Snow Lady said, "Every hundred years, the Land of King Death will open, and the Monarch Palace will be explored every 3,000 years. Why does it take so long? That's because the Venerables of the Heavenly Palaces will die in the exploration. If the casualty rate on the Land of King Death is about 30%, that in the Imperial Palace is as high as 80-90%. Moreover, the exploration of the Monarch Palace will only become more and more difficult. This means that it will be more and more difficult to become a king in the Monarch Palace..."

After a moment of silence, Han Fei asked, "How long until the opening of the Monarch Palace?"

The Snow Lady said leisurely, "Thirty-two years."

Han Fei chuckled. "Are you telling me... you have to go on this trip too?"

The Snow Lady shook her head slightly. "We won't go on this trip. But we don't know about the next."

"So, I might be the strongest on this trip?"

The Snow Lady nodded. "Yes! That's why I'm helping you."

After a moment of silence, Han Fei said, "What if I transcend the tribulation and become a king in these 32 years?"

The Snow Lady was stunned. "Then, maybe you can't go either."

Han Fei sneered in his heart. Kings are not allowed to go there?

It was to prevent them from finding a greater opportunity!

However, if the Monarch Palace was open, wouldn't it be stupid not to go?

It was certain that the Monarch Palace was very dangerous, but he was not a salted fish.

There were still 32 years before the opening of the Monarch Palace. His bloodline level was already so high, and he had accumulated so many resources. If he tried to disassemble spiritual energy again, he might not have 95%, but 94% was easy to reach. No matter how he looked at it, it was impossible for him to become a king in 30 years!

Han Fei thought to himself, Maybe for the Snow Lady, I won't be able to become a king in 32 years. However, for me, 32 years is equivalent to a thousand years. How can I just waste it?

Han Fei immediately said, "In any case, I'll protect the people of the Snow God's Temple in the Land of King Death this time. But I may not be able to take care of them when I am fighting with other Half-Kings."

The Snow Lady said, "There are 24 people going this time. With your help, it shouldn't be a problem to get 20 keys to the Monarch Palace. The so-called keys are actually items with the aura of the Monarch Palace. You can recognize them at a glance."

Han Fei thought to himself, Just 20 tokens. It should be a breeze for me to get them.

Therefore, Han Fei nodded. "Okay! I agree. As for the opening of the Monarch Palace in 32 years, it's still too early. I didn't come out of the Wild Abyss just to participate in the exploration of the Monarch Palace."

The Snow Lady said, "Okay. We'll talk about the future in the future. Now let's decide what to do now."

Chapter 1742 Thirteen Worlds in the Outer Domain

Han Fei appreciated the Snow Lady's bet.

For the Snow Lady, she had only done a small favor, but she had helped Han Fei a lot.

The Snow Lady's goal was simple. She wanted to fight for more spots to enter the Monarch Palace for the Snow God's Temple.

However, for Han Fei, this spot had already been reserved. Not only had the spot been reserved, but this trip to the Land of King Death was also a hunt.

He had upgraded the Time Chain with a thousand wisps of Chaotic Qi, and now there were only a thousand wisps left.

Although more than a thousand wisps were a lot, it was definitely not much for a Heavenly Talent who had become a king. After all, even a random Half-King Han Fei met could have hundreds of wisps in his body.

Han Fei thought that when he wanted to open his Origin Sea, he couldn't be restricted by the Chaotic Qi.

Buzz!

Not long after Han Fei and the Snow Lady discussed in secret, the Snow God seemed to have appeared on a wide route.

At this moment, before Han Fei continued his seclusion, he saw eight big ships.

Judging from the shapes and sail styles of these large ships, they didn't come from the same place. They should be ships from the Heavenly Palaces of the outer domain heading to the inner domain.

These large ships had anchored and seemed to be waiting for them, as if they were waiting for all the large ships from the outer domain to gather before leaving.

Swish! Swish! Swish!

The moment the Snow God appeared, three or four perceptions swept over.

Those who could use their perception to investigate in front of the Snow Lady were undoubtedly all kings.

There was a man in a red robe whose blood aura seemed to be dissipating.

This person's voice was very light. "Snow Lady, it's been a long time!"

Looking at Han Fei, Ice Snow Chuling explained, "This is Palace Master Yan Wen of the Blood Fiend World. He's quite powerful in the thirteen worlds in the outer domain."

On the other side, a man carrying a sledgehammer nodded at the Snow Lady. "Since you're here, Ling Feng shouldn't be coming, right?" The Snow Lady nodded. "After all, he can arrive fast. But if something happens, he can take care of it."

Han Fei thought to himself, This must be the Master of Thunder Fire. His style is so obvious that I can't be wrong.

Ice Snow Chuling said, "You should know Lei Qing, the Master of Thunder Fire. His weapon is the strongest weapon in the thirteen worlds in the outer domain, the Heaven Shaking Thunder Hammer. It is said that this hammer is the only weapon in the Thirty-Six Mystic Worlds that can touch the threshold of a god-level weapon. However, I only heard about it from hearsay. Only the Master of Thunder Fire knows how powerful it is."

Han Fei's heart did a flip. A weapon that has touched the threshold of a god-level weapon? That hammer must be extraordinary! As expected of the Heavenly Palace that specializes in refining.

"Humph -"

Suddenly, Han Fei felt a gaze.

Following his gaze, he saw a red-haired young man. This person's face was cold and grim, and his look was cold and unkind, which fell straight on Han Fei.

On the ship of the Ice Snow World, Ice Snow Chuling wasn't afraid that the kings would eavesdrop. She still said via voice transmission, "This is the Palace Master of the Five Elements World, Gong Zhan. His spiritual beast, the Five Elements Arowana, has extraordinary combat power. Although the two Five Elements Wheels he uses are only mid-quality Sea Quelling Bizarre Treasures, they are very useful in combat. The Five Elements World has always been warlike.

Gong Zhan looked at Han Fei. "Snow Lady, this should be your new disciple, Xue Zhan, right? Why does he seem to be more like... the king of the Snow God's Temple than you?"

At this moment, Han Fei was standing on the boat with his hands behind his back and wearing an ice mask. He really didn't look like a mortal.

The Snow Lady said, "Xue Zhan has always been like this. Or rather, the people of our Ice Snow World have always been like this. You should know that."

Gong Zhan chuckled. "Of course I know. People from the Ice Snow World are cold by nature. It's said that in the violent hurricane that day, my poor disciple Ban Yi kept begging Xue Zhan to help him, but he refused and gave him to the avenger, Han Fei. He didn't even hesitate!"

Han Fei couldn't help but look up at Gong Zhan silently.

Such a person would pick a fight for no reason.

If it were in the past, he would have quarreled with him for 300 rounds.

However, he was Xue Zhan now, an extremely cold person. Therefore, a war of words was obviously not suitable for him. However, he could still give Gong Zhan a disdainful look.

Han Fei's mask was very fitting to his face, so he could still give a disdainful look.

When Gong Zhan noticed Han Fei's reaction, his face changed slightly.

Behind Gong Zhan, someone's face was even uglier. He shouted, "How dare you disrespect a king? Do you want to spar with me?"

Han Fei said indifferently, "You are not worthy."

Buzz!

The Venerables from the Five Elements World were all furious.

Even Gong Zhan was surprised by his words. How arrogant is this a*shole? My disciple is unworthy?! Who do you think you are?

In Han Fei's heart, the Snow Lady said, "This is not the time to fight. Bear with it. Who can be your match in the Land of King Death?"

At this moment, with a buzz, a large ship filled with spiritual plants appeared.

As soon as the hull appeared, a pleasant voice said, "We're all from the thirteen worlds in the outer domain. Why are we fighting each other?"

In the next moment, a fairy-like figure appeared from the flowers. She was wearing a light green dress with intertwined flower stems, and a small jade vine was wrapped around one arm.

None of this counted...

In terms of beauty, this woman was better than the Snow Lady and was comparable to Queen Life.

However, Queen Life had a quiet personality, while this person from the Hundred Flowers World was a little enchanting.

Ice Snow Chuling said, "This is Hua Qianyue, the Heavenly Master of the Hundred Flowers World. Her spiritual plant is Ethereal Red Beard, and her weapon is the Jade Immortal Vine. Her strength ranks among the top five in the thirteen worlds in the outer domain."

Han Fei looked at her indifferently.

Han Fei had seen many beautiful women, so he wasn't attracted by the beauty of the Heavenly Master of the Hundred Flowers World. He just looked at her.

"Huh"

Hua Qianyue glanced at Han Fei and couldn't help but smile. "Sister Snow Lady, I heard that you've taken in a new disciple. His aptitude should be guaranteed, but I'm afraid his personality is a bit dull."

The Snow Lady bowed slightly. "Sorry to disappoint you, Sister Qianyue."

"Buzz, buzz ~"

Soon after Hua Qianyue appeared, three more large ships flew over.

On one of the ships, an old man in a black robe held a dead wood stick and smiled. "Sorry to keep you waiting. I went to the God Refining World on the way. Xu Lian was supposed to come, but he often goes into seclusion, so I'll do it for him. Since everyone is here, it seems that we can set off."

Han Fei was lost for words. The kings all looked like young men and girls. Why did this one look like an old man?

Ice Snow Chuling said, "This is Heavenly Master of the Million Poison World, Huang Jie. He's known as the Patriarch Million Poison. His spiritual beast, the Seven Ultimate Ancient Insect, is known as the most poisonous creature of the 36 Mystic Worlds. It's said that his Sea Quelling Bizarre Treasure, Million Poison Staff, contains 100,000 kinds of poisons."

Han Fei thought to himself, I can tell. This old man doesn't look normal at all. He seems to be trying to poison himself to death.

Suddenly, Ice Snow Chuling said, "The Million Poison World and the Million Poison World have never been on good terms. These two worlds have been fighting for a long time. Originally, the Million Poison World should have entered the inner domain, but because of the death of their king, they didn't go. They are the most dangerous world among the thirteen worlds in the outer domain."

Han Fei felt a headache. Every world was unique! Needless to say, this old man must have a lot of poisons on him.

When he was in seclusion in the Snow God's Temple, because of the Purity Mystic Body, he had already reached a bottleneck at the peak of the Venerable realm, and his bloodline level had not broken through.

At that time, Han Fei ate all kinds of poisonous flowers and herbs...

Han Fei knew very well that those who played with poison were a bunch of dangerous guys. He had been resisting poison since he was a child.

During his seclusion in the Snow God's Temple, he had swallowed more than 3,000 poisonous flowers, herbs, and fruits.

Now, seeing this old man from the Million Poison World, Han Fei wondered how he could get some poison from there.

Huang Jie noticed Han Fei's eyes.

Huang Jie was also surprised. Why is this guy looking at me?

Therefore, Huang Jie said, "I heard that you took in a Holy Child, Snow Lady? It must be him."

In the next moment, Han Fei said for the first time, "Xue Zhan greets Palace Master Huang Jie."

"Huh?"

Huang Jie was stunned for a moment. He had always been an anomaly in the eyes of others. There was a faint aura of hostility here... Did Xue Zhan bow to everyone king?

Huang Jie didn't think too much about it. He just nodded slightly as greetings.

At this point, all the ships from the thirteen worlds in the outer domain had arrived.

Among them, the Hundred Flower World, Million Poison World, Ice Snow World, Five Elements World, Thunder Fire World, and Blood Fiend World were led by a king.

The conflict between Han Fei and the Five Elements World was also interrupted by the arrival of the Hundred Flowers World and the Million Poison World. Only then did everyone stop arguing and set off.

There were six kings here and the ships were full of strong masters, and even advanced Venerables were rare. Therefore, it was almost impossible for pirates to attack them.

To put it bluntly, even if all the top ten pirate groups came, the experts here could still fight.

Han Fei asked around and found out that it would take about 25 days to go to the inner domain. It was impossible for him to lie on the ship and watch the water every day...

Therefore, Han Fei sealed a room in his cabin and went to Forge the Universe to cultivate.

Half a month later, Han Fei was feeling the pleasure of the growth of his strength... Suddenly, the old turtle said, "We've arrived at the Sea of Fog outside. This should be the chaotic place that separates the inner and outer seas."

"Oh?"

Chapter 1743 The Ship of Million Poison World

Han Fei wanted to see how the inner and outer domains of the Raging Sea were divided.

When Han Fei came out of the cabin and came to the deck, he found that he could see nothing clearly.

Outside the ship, chaotic and mixed spiritual energy was wreaking havoc. It was comparable to the environment in the cage, or even worse.

Not only was the illusion here violent, but the mist particles seemed to be quite heavy. They appeared like mist.

But in fact, if one looked carefully, they were not all fog. Some were gravel, some were water drops, and some were the residue of seaweed after it was minced. For some reason, they were floating in the air.

Moreover, there was a very strange phenomenon here. The gravity here was more than ten times heavier than that of the outside world. How could there be such a floating phenomenon under such gravity?

Han Fei scanned around with his perception and found that his perception range was only about 1,200 kilometers.

Han Fei said in surprise, "My perception range is only one percent as usual now?"

The old turtle said, "The space level here is higher. In other words, the space here is more solid. You can easily cut open a crack in the void in other places, but not here. You need to pay ten times the power to crack a void crack here. The higher the space level, the stronger the power of the Great Dao. The power of the Great Dao suppresses your perception, so you feel that your perception range becomes extremely small."

Han Fei was puzzled. "Do you mean that the level of space here is much higher than normal?"

The old turtle said, "It's obvious. This thick space power is even several times stronger than the space in the Age of Gods. It can be seen that this is definitely an ancient land."

"Ancient land?"

The old turtle said, "The stronger the power of the Great Dao contained in a world, the more stable this space is. If you're in the outside world, you can cut thousands of kilometers with one slash, but you can only cut thousands of kilometers in this stable space. It's not that your strength has weakened, but that this space has become stronger. Although I don't know what's in this mist, I think it won't be simple."

Han Fei shook his head slightly and said, "So many kings haven't found the reason even after tens of thousands of years... Even if I have the Vast Ocean Navigator, I don't have the time to explore the mystery... Besides, isn't it said that there are many dangers here?"

The old turtle nodded. "That's true. The creatures who can live here are at least physically strong. After all, the space level here is dozens of times stronger than other places. Cultivating here for a long time can temper a good physique."

Han Fei chatted with the old turtle and found that someone was fishing.

At this moment, the man happened to be lifting the hook, and a big fish came out of the water. Because Han Fei had never seen such a fish before, he wandered over to take a look.

Someone saw Han Fei and immediately bowed. "Greetings, Master Holy Child."

Han Fei nodded slightly. "Go on."

Information popped up in Han Fei's eyes.

<Name> Floating Fish

<Introduction> A rare fish that lives in places with more floating stones. This fish enters the sea during the day and floats at night to absorb the spiritual energy of heaven and earth. Floating fish has a strong spatial power and will inadvertently break through space or create a Void Blade to attack the opponent. Floating fish could produce floating stones, which have the power to float.

< Level > 79

< Quality > Rare

<Spiritual Energy> 89,658 Points

<Edible Effect> Long-term consumption can increase blood, qi, and fire power, and increase instantaneous explosive power.

<Collectible> Floating Stone

<Absorbable>

“Floating Stone?”

Han Fei was briefly stunned. This fish could grow Floating Stones? That was quite strange.

After walking around, Han Fei took out his fishing rod and caught a floating fish. He cut out a fish stone from its head.

Han Fei certainly knew about fish stones, which were exquisite stones dug out of fish heads.

Generally speaking, it was shaped as a heart and as hard as stone after being dried. It was crystal clear like jade.

However, this was the first time Han Fei had seen a floating fish stone. This stone was enough to serve as a floating stone for several fishing boats.

Han Fei injected spiritual energy into it.

In an instant, the Floating Stone was activated, and its transmission effect was more than ten times that of ordinary Floating Stones.

“Hiss -“

Han Fei couldn't help but take a breath. Was the transmission efficiency so high? Did it mean that the speed of the Wind God Boat could be increased more than ten times?

Of course, with the speed of the Wind God Boat, even if it was ten times faster, it would only travel more than 600,000 kilometers a day. Even if it was engraved with various arrays, it would only travel about 800,000 kilometers a day.

This speed was naturally not attractive to Venerables.

If it was only targeted at the Explorer realm or below, this fish stone would be worth a lot.

Unfortunately, since this fish was a rare species, it was not all over the sea. Presumably, it could only be found in this Sea of Fog.

Han Fei casually put away the fish stone.

As for the fish... when he was free, he would just eat it in a hotpot.

When Han Fei was about to go back to seclusion, he perceived that on the ship of the Million Poison World, a group of people were refining poison openly.

Han Fei was shocked.

Because the poisonous smoke produced by that poison was quite big... they simply refined it outside.

The dark green poison made Han Fei want to try it, but he also felt his scalp tingle.

Perhaps noticing Han Fei's stare, Huang Jie from the Million Poison World looked at him.

Huang Jie asked, "My young friend, are you interested in refining poison?" Hearing that, Han Fei immediately came back to himself and bowed slightly. "I don't know much about pharmacology, but I once accidentally took a spiritual worm, so I have some resistance to poison."

"Oh? Can it resist any poison?"

Han Fei thought to himself, The Heaven Spirit Detoxifying Insect might be precious, but it shouldn't be that precious... Others might be afraid of poison, but he, Han Fei, was not. If he could get some poison from Huang Jie... it wouldn't be bad.

Han Fei nodded slightly. "I think so."

Huang Jie was a little surprised. "In the Raging Sea, there are only three things that can resist any kind of poison. One is the Ten Thousand Poison Lotus Seed, one is the Nine Poison Treasure Silkworm, and one is the Heaven Spirit Detoxifying Insect. Since you took a spiritual worm, was it colorful?"

Han Fei was surprised to hear the old man immediately say the name of the Heaven Spirit Detoxifying Insect...

Immediately, Han Fei said, "It's not colorful, but gold."

Huang Jie was slightly surprised. "It seems that you're quite lucky to have encountered a Heaven Spirit Detoxifying Insect. Come, let's have a chat on my ship."

"As you wish."

Han Fei didn't expect Huang Jie to be so straightforward. He simply let Han Fei pass.

Buzz!

Han Fei flashed away.

The Snow Lady took a look and wondered why Han Fei was going to the ship of the Million Poison World.

Ice Snow Chuling and the Snow Lady were in the same room. At this moment, she said in surprise, "Teacher..."

The Snow Lady said lightly, "It doesn't matter. Although Huang Jie is a little eccentric, he's not a bloodthirsty and insidious person. It's just that he cultivates the Poison Dao."

On the ship of the Million Poison World, a group of Venerables was surprised to see the Holy Child of the Snow God's Temple come. They were all dumbfounded. Why did he come to our ship?

Swish!

Then the ship array was opened, and Huang Jie knocked on the Million Poison Staff and said, "Come on in!"

The Venerables looked up at Huang Jie in surprise. The Palace Master had always been indifferent to others and was unwilling to have a deep relationship with people from the other Heavenly Palaces. Why did he ask a junior to come on board this time?

However, Han Fei didn't meet these Venerables but went straight to Huang Jie's cabin.

As soon as he entered Huang Jie's cabin, Han Fei saw that there were all kinds of bottles and poisonous herbs and fruits in the cabin. Even the air was poisonous.

The moment Han Fei entered the cabin, his skin color began to change slightly. However, the powerful detoxification effect of the Heavenly Spirit Detoxifying Insect made Han Fei's blood essence crazily devour and analyze the poison.

ou

Huang Jie glanced at Han Fei for a while and smiled. "Interesting. You must have eaten a lot of poison before, haven't you? The Heaven Spirit Detoxifying Insect has always been weak. If you can keep it alive and feed it with all kinds of poisons, it can be said that no one below the Sea Establishment realm can poison you to death. And you can even integrate the power of the Heaven Spirit Detoxifying Insect into your body? That's rare, but how did you do it?"

Han Fei didn't hide anything. The other party was an expert of poisons. If he bragged, he would be easily seen through. He had a purpose, so there was no harm in being honest.

Han Fei said, "When I transcended the tribulation, the fourth lightning tempered my body and injected the power of the spiritual insects into it."

Han Fei certainly made up an excuse.

However, as long as it was related to the Heavenly Tribulation, it was not easy to be exposed.

Huang Jie raised his eyebrows. "Oh? The fourth Heavenly Tribulation, so you had the Four Nine King Tribulation? The Snow God's Temple is indeed well-hidden. The Heavenly Tribulation can fuse the Heaven Spirit Detoxifying Insect into your body. Interesting. However, it's a pity that your understanding of the Poison Dao is too shallow. Just the smell in my cabin can make you react, which means that your resistance to poison is limited. You may be able to resist poison, but can only resist a small amount of it. Besides, you can't resist the poisons in the Sea Establishment Realm, and can't even resist the poisons in the Venerable realm."

Han Fei frowned. Am I that bad?

Huang Jie smiled disdainfully. "I've been playing with poison for tens of thousands of years. I can tell your strength at a glance. The only good thing about you is that you've inherited the characteristics of the Heaven Spirit Detoxifying Insect. There's no one in the 36 Mystic Worlds who can do that. Unfortunately, you're a disciple of the Snow God's Temple. I can give you some poison... However, I can't give you any more help."

Chapter 1744 The Dao of Poison

For the kings of the Million Poison World, Han Fei was just a Heavenly Talent of the Ice Snow World and had nothing to do with them. Therefore, Huang Jie wouldn't give Han Fei more guidance.

It was a matter of course.

Huang Jie knew this, and so did Han Fei.

Therefore, when Huang Jie said that he could give him a few portions of poison, Han Fei knew that it was impossible to get a big opportunity from Huang Jie.

Han Fei was proficient in many things and had never paid attention to poison.

Even though he had used something like the Poison King in the past, it was probably not considered poison at all when it came to the true path of poison.

Besides, Han Fei didn't refine the Poison King himself, but Cao Qiu did. He just got it from Cao Qiu.

Han Fei cupped his hands. "Thank you for your kindness, Senior. However, if I want to know how to use that advantage of my body... what should I do? And what price should I pay?"

Although Han Fei wasn't good at using poison and his body's ability to resist poison was limited... Han Fei knew that his ability was quite extraordinary. He didn't pay much attention to it before because there were very few people who used poison in the Yin-Yang World and the Water-Wood World.

In fact, there were so few poison cultivators because most of them were poisoned to death... Few of them could live long.

It was precisely because of this that Han Fei cared so much about the Dao of Poison. If someone could use poison to kill him in the future... Wouldn't he be doomed?

"Oh? Are you negotiating with me?"

Huang Jie broke into a sinister smile.

Han Fei said casually, "I have to ask. Otherwise, it would be a waste of my talent."

"Hehehe... Ice Snow World has nothing to do with our Million Poison World. If I want to cooperate, I should talk with the Snow Lady. Why should I talk with you?"

Han Fei said with a faint smile, "The Heavenly Palaces have a purpose for this trip to the Land of King Death. I think the Million Poison World is no exception. The key to the Million Poison World, is this price acceptable?"

Huang Jie narrowed his eyes slightly. The Monarch Palace was not a secret.

Anyway, the Half-Kings who went to the Land of King Death all knew about this. Even some peak-level Venerables knew about it.

However, Han Fei used this as a negotiation condition? This piqued Huang Jie's interest.

Huang Jie said, "Oh! Go on."

Han Fei said, "What I lack is guidance on how to resist poison. I think I'm quite strong. Perhaps I can get more keys to the Monarch Palace in the Land of King Death."

Huang Jie chuckled. "Do you think I'll believe you? It's fine for young people to be confident, but you can't be conceited."

Han Fei said casually, "I'm not in a hurry. If there's a chance, I'll take the key and ask you later."

Huang Jie examined Han Fei for a few seconds. "Take off your mask."

Hearing that, Han Fei thought to himself, My Divine Deceit Technique shouldn't be seen through. Even if it is, as long as I don't show my true appearance, he won't be able to see through me.

So, Han Fei took off his mask.

The face under the mask was Zhang Xuanyu's. Anyway, Han Fei had used Zhang Xuanyu many times, so it didn't matter to use him more.

W

Huang Jie clicked his tongue. "You're quite handsome. Why are you wearing a mask?" Han Fei put the mask back on his face. "Cut off the mortal feelings and pursue the supreme Great Dao."

Han Fei didn't know if Huang Jie believed his nonsense. He simply said, "Since you've fused the power of the Heaven Spirit Detoxifying Insect into your body, it's enough for you to take poison and eat all the poison in the world, and sooner or later, you'll be immune to all poisons below the King Realm, but eating poison isn't a skill after all. It's like eating herbs directly is far less effective than using pills. Eating medicine directly will waste a lot of medicinal power. And using pills can use seventy or eighty percent of the essence of the medicine. Therefore, one pill is equivalent to hundreds or even thousands of spiritual herbs. Poison is the same."

Han Fei was puzzled. "Poison Pills?"

Huang Jie said, "Any kind of poison can be refined into a pill. You're quite interesting. I can tell you directly that there are millions of poisons in the Million Poison World. If you can pay the price, you can trade for them. As for your path of resistance to poison, I can tell you clearly. Even if you fuse with the Heaven Spirit Detoxifying Insect, it's only at the physical level. The poison at the soul level is even more terrifying than the poison at the physical level. If you want to ask for advice, you can come to the Million Poison World with your sincerity after this trip to the secret realm."

Han Fei slightly cupped his hands. "Thank you, Senior."

Huang Jie said, "Since I promised to give you some poison, I won't go back on my word." Huang Jie waved his hand, and a bottle of colorful bubbling poisonous water was handed to Han Fei.

Huang Jie said, "For others, this is a great poison, but for you, it's a great tonic. This poison is called Thousand Poisons Liquid, and there are thousands of variations of poison. You owe my Million Poison World a favor."

Although Huang Jie said that he would give it to him, he still wanted Han Fei to owe him a favor.

With this favor, if Han Fei attacked the people of the Million Poison World in the Land of King Death, he might have a heart demon.

Huang Jie was a king after all. No matter how reclusive he was, he was still a strong master who had lived for tens of thousands of years and was extremely meticulous.

He could tell that Han Fei seemed to be special. He didn't seem to be afraid or worried when facing him.

This guy was arrogant and extremely conceited.

Under other circumstances, he might want to kill this guy.

However, with the Snow Lady beside him, it was impossible for him to do so.

And Han Fei was too proud to attack the people of the Million Poison World after receiving his benefits.

As for the others... Huang Jie thought that as long as Han Fei dared to come to the Million Poison World, as long as he had the capital, the Million Poison World could make him bankrupt happily.

After bidding farewell to Huang Jie, Han Fei returned to the Snow God without talking to the people of the Million Poison World.

This scene made many people on the ship suspicious. Since when did the Ice Snow World have connection with the Million Poison World? The Holy Child even faced the Patriarch Million Poison directly? How could that old man be so easy to talk to?

Because Han Fei had boarded the ship of the Million Poison World, many people and even kings in the thirteen worlds in the outer domain were puzzled. They could only warn their Heavenly Talents to pay attention to the Ice Snow World and the Million Poison World.

After returning to the Snow God, Han Fei discovered the Snow Lady's perception, so he went straight to her cabin.

After they entered, the Snow Lady said, "You know poison?"

Han Fei shook his head slightly. "No, but I need it."

The Snow Lady was slightly stunned. "The Million Poison World is a little incompatible with the other worlds of the 36 Mystic Worlds. It's mainly because the Patriarch Million Poison, Huang Jie, is too good at using poison. In the past tens of thousands of years, three Sea Establishers have died under Huang Jie's hands. Although the Million Poison World is in the outer domain, even in the inner domain, few worlds are willing to provoke the Million Poison World. If you need to talk to him, you must do it openly like today. Otherwise, the consequences will be unpredictable."

Han Fei was a bit surprised. Was it strange for a king to kill three other kings? After all, Huang Jie was a master of poison and walked a niche path. Such people should be stronger. Otherwise, they would have been eliminated long ago.

Han Fei nodded. "Got it. I'm going into seclusion."

A moment later, when Han Fei returned to his cabin and entered Forge the Universe, he was no longer in a hurry to cultivate. Instead, he took out the bottle of Thousand Poisons Liquid.

Poison! It was normal for it to look a little ugly. And this kind of thing that looked poisonous at the first glance... no one would want to touch it!

Only Han Fei, who could absorb poison, dared drink it openly.

Of course, before drinking it, Han Fei took out the Nine Palace Luck Ruler and tested it. When he got the "Flat" result, he was relieved.

Han Fei pinched his nose and took a sip.

"Huh! It's sour and sweet. Why does it taste like yogurt?"

Han Fei didn't drink it all. He just took a sip.

However, after this sip, Han Fei found that his skin alternated between red and green, and his body was emitting dense light.

Then, Han Fei felt dizzy, as if he had drunk too much.

Han Fei knew that it was a sign of being poisoned.

Fortunately, this poison only lasted for about 300 seconds before it slowly disappeared.

Han Fei realized that he seemed to have adapted to the poison!

It was probably not suitable to drink again today... Han Fei would take a sip every few days. This bottle would probably be enough to drink seven or eight times...

The old turtle said, "I think you can go to the Million Poison World to explore the Dao of poison. If you're immune to poison in the Infinite Ocean, your survival ability will increase by at least 20%... I wonder if that old man is good or bad."

Han Fei chuckled. "Old Yuan, who cares if he's good or bad? We're making a deal. Since it's a deal, we're taking what we need respectively... The poison he gave me now isn't a sign of friendship. It's just that he doesn't want me to attack his people at the Land of King Death... We'll see what the deal we can make later!"

Chapter 1745 I Allow You Not to Salute Me

Eight days later.

Han Fei had already finished the Thousand Poisons Liquid. When Han Fei took the last sip, the duration of his dizziness changed from more than three hundred seconds to about three seconds.

This meant that his resistance to poison had greatly increased, and he had only drunk one poison.

If he went to the Million Poison World and ate different poisons every day, he would probably be able to resist most of the strange poisons in the world in a few years.

Of course, the Patriarch Million Poison, Huang Jie, reminded Han Fei that he could only resist some poisons on the physical level, but there were also poisons on the soul level.

Han Fei didn't know what the poisons on the soul level were, but he had indeed encountered it before. However, the poison he encountered before wasn't very strong. After Huang Jie's reminder, Han Fei decided to ask about it when he had time.

When the old turtle told Han Fei that he had arrived, Han Fei leisurely left Forge the Universe. Although the Purity Mystic Body was improving fast, Rome was not built in a day. He hadn't touched the bottleneck again, but it should be soon. For him now, his realm didn't matter. Anyway, he could still fight even if a king came.

Along the way, the fleet of the thirteen worlds in the outer domain did not encounter any enemies on the route. This was almost expected. There were six kings here, and hundreds of peak Venerables and Half-Kings were traveling together. What kind of person would dare to ambush such a fleet?

We

son

According to the old turtle, it took the entire fleet eight days to pass through the Sea of Fog. Apart from the Sea of Fog, there were immediately fishing boats waiting on the route.

It was a boat from the Supreme Clearness World. Han Fei glanced at it, but because the boat array was closed, he couldn't tell whether it was good or bad.

However, Han Fei could feel that the environment in the inner domain was much better than in the outer domain. In the inner domain, without the chaotic spiritual energy, the purity of the spiritual energy was much higher.

Looking at the creatures in the sea, one could sense that there were many sea creatures at the Explorer level. However, no one tried to catch them. In the eyes of these people, these Explorer-level creatures were like ants. Perhaps only when the ants walked under their feet would they be trampled to death. Very few people would take the initiative to step on these ants.

Therefore, in the inner domain, the strong masters wouldn't attack these sea creatures for no reason at all. For example, Han Fei was not interested in the creatures below the Half-Venerable level. At most, he would treat them as a meal and consider whether they were delicious or not.

On the ship of the Supreme Clearness World, a king cupped his hands at the kings of the thirteen worlds in the inner domain. "Welcome, Fellow Daoists. Ji Xuan has been waiting here for a long time. Most of the people from the thirteen worlds in the inner domain have already gathered at the Supreme Clearness World. Let's go over now. It will only take about two days by the shortest way."

After crossing the Sea of Fog, the environment was good, so most people had already come out.

Seeing that Ji Xuan was quite strong, the old turtle said, "That man is already a Sea Establisher."

Han Fei was lost for words. "A king came to greet us personally?"

Han Fei remembered what the Snow Lady had said. Each world of the thirteen worlds in the inner domain had more than one king. How many kings were there in the Supreme Clearness World, which was ranked first among the 36 Heavenly Palaces?

There was no emotion in Han Fei's eyes, as if he was watching everything indifferently. In fact, Han Fei was thinking to himself, these were all enemies!

The King Ba Crab had once told him about the hostile forces of the Yin-Yang World and the Nine Palace World. Among them, there were mainly seven worlds, namely Supreme Clearness, Infinity, Dream Weaving, Five Elements, Mad Corpse, Soul Sealing, and Medicine King

In the outer domain, there were only the Five Elements World and the Mad Corpse World. The Supreme Clearness World was the leader of the enemies. The Yin-Yang World was driven into the Wild Abyss by these Heavenly Palaces.

Of course, his current goal was not revenge. He wouldn't join in the Heavenly Palace competition until he had the strength of the same level.

Moreover, there were still many secrets waiting for him to explore in the Raging Sea. He should become a king first before thinking about other things.

Two more days passed.

ness

Before the ships of the thirteen worlds in the outer domain appeared in the Supreme Clearness World, everyone had already seen the prosperity of the Supreme Clearness World. However, Supreme Clearness was marked by a long sword, which was surrounded by green gas. Hundreds of such ships passed by in the sky.

The main city of the Supreme Clearness World was called the Heavenly Imperial City. It was said that it was the remains of a magnificent city in ancient times and had been transformed into the current Heavenly Imperial City.

Unlike the other huge cities, the Heavenly Imperial City was made of 208 huge islands surrounded by clouds and looked immortal. Those who didn't know much about the Supreme Clearness World would think that these islands were the Heavenly Palace itself.

Han Fei had seen the Thunder Fire Water-Wood World, the Ice Snow World, the Water-Wood Water-Wood World, and the Yin-Yang Water-Wood World, but none of them had such an immortal aura as the Supreme Clearness World.

Apart from the huge floating islands, there were often people riding on swords in the air around the huge islands. All of them were wearing green clothes, looking like immortals.

Ice Snow Chuling said, "Supreme Clearness World is the head of the 36 Mystic Worlds. People born in the Supreme Clearness World have always been proud. However, some are arrogant, some are aloof, and some are rebellious. Therefore, people in the Supreme Clearness World like to cultivate swords and refine sword bones."

Han Fei was puzzled. "Then what about the Sword God World?"

Ice Snow Chuling said, "The Sword God World is more mysterious, but the sword cultivators of the Sword God World are stronger than those of the Supreme Clearness World. Since ancient times, many famous sword cultivators of the Sword God World have reached the peak of the 36 Mystic Worlds. Even

the sword cultivators of the Supreme Clearness World want to cultivate in the Sword God World, but the Sword God World has never accepted disciples of other Heavenly Palaces.”

Han Fei sneered. “So they’re still no match for the Sword God World!”

The Snow Lady interrupted with a voice transmission. “The sword cultivators in the Supreme Clearness World are not much different from those in the Sword God World. Moreover, the cultivation techniques and combat skills of the Supreme Clearness World are quite diversified. Many Heavenly Talents in the Supreme Clearness World have even found ancient seeds and awakened secret inheritances. They are not to be underestimated.”

Han Fei’s heart did a flip. Awakening ancient seeds? An ancient seed like Luo Xiaobai’s Divine Manipulation Technique? In that case, they were indeed Heavenly Talents.

Swish! Swish! Swish!

The ships of the thirteen worlds in the outer domain were anchored in an ancient tree city in the Heavenly Imperial City. In this city, there was an ancient tree that was 300,000 feet tall, also known as the Heavenly Imperial Tree.

The scenery here was the most beautiful. No matter what kind of person the king of the Supreme Clearness World was, since he ruled the Thirty-Six Mystic Worlds, he would treat them with respect at least on the surface.

The guests of the thirteen worlds in the outer domain would certainly be received by the highest standard.

The kings certainly wouldn’t live with the Venerables, and would be received by kings.

The Venerables and the Half-Kings would also be received separately.

In the Snow God’s Temple, Han Fei and Ice Snow Chuling were respectively known as the Holy Child and the Holy Maiden. They represented the face of the Snow God’s Temple, so the reception standard was naturally the highest. If they had anything to inform the Snow God’s Temple, they would inform them first.

As for the other two Half-Kings of the Snow God’s Temple, they were only Half-Kings. Just because they were Half-Kings didn’t mean that they were top Heavenly Talents. Those who could be called top Heavenly Talents were all the faces of the Heavenly Palaces.

All the fishing boats were docked, and there were people to receive them. However, the places they lived were very close.

The one who received Han Fei and the others was a female peak-level Venerable from the Supreme Clearness World.

When this woman saw Ice Snow Chuling and the others, she bowed slightly, but she only spoke to Ice Snow Chuling.

She said, “Sister Chuling, long time no see. You’ve become a Half-King in just a hundred years.”

Ice Snow Chuling bowed in return. "Hi, Sister Zheng Yue. Your strength has improved at the same speed. Your aura is faintly dissipating. I think it's only a matter of time before you break through to the Half-King Realm."

Zheng Yue smiled faintly. "Thank you for your kind words."

Then, Zheng Yue looked at Han Fei. "This must be the Holy Child that Master Snow Lady just took in, right? Greetings, Holy Child..."

Many people from the Snow God's Temple looked displeased. Although the appearance of the Holy Child was very abrupt, the Snow Lady had declared that he was the Ice Snow World's holy child, second only to the Snow Lady. But this woman rudely called him the Holy Child, not Master Holy Child.

However, the arrogance of these people in the Supreme Clearness World was nothing compared to Han Fei's.

Han Fei only glanced at Zheng Yue indifferently and said coldly, "I allow you not to salute me this time."

Zheng Yue: "???!"

Everyone: "???"

"Hiss "

Zheng Yue was stunned. was I f*cking bowing to you? I was just greeting you symbolically.

As for the Venerables of the Snow God's Temple, even the two Half-Kings behind them, their favorable opinion of Han Fei instantly soared.

The two Half-Kings even said via voice transmission, "Great, I didn't think that Master Holy Child was good before, but now I think he's such a man."

The other Half-King replied. "Yes, he's getting more and more pleasing to the eye. How dare this woman ignore etiquette? Who does she think she is?"

Zheng Yue frowned slightly and looked at Ice Snow Chuling, only to see the latter looked indifferent as if it was only natural, she was immediately angry.

However, she was here to receive guests. She could not be rude at this time.

Therefore, Zheng Yue straightened her body slightly and showed a hint of arrogance. "Everyone, please follow me. The thirteen worlds in the inner domain have long arrived. Let's settle down and attend the banquet as soon as possible!"

Chapter 1746 Face Slapping

The Ancient Tree City had always been the place where the Supreme Clearness World received outsiders. There were many ancient trees here, and many guest rooms were built against the trees.

Han Fei and the others were taken to a mountain more than 2,000 meters high. There was a wooden courtyard that looked like a small castle here, and Han Fei and Ice Snow Chuling were arranged to live here.

Surrounding the main peak were ordinary courtyards for the others in the Snow God's Temple.

Annoyed by Han Fei, Zheng Yue didn't bother to chat with Ice Snow Chuling anymore. She said in a business-like tone, "Holy Child, Holy Maiden, this is where you'll stay for the next few days. In two days, the 36 Mystic Worlds will set off for the secret realm together. Now, please attend the banquet."

Ice Snow Chuling bowed slightly and said, "Thank you."

However, Han Fei put his hands behind his back and didn't even look at Zheng Yue. Zheng Yue was even more resentful. What are you arrogant about? The Snow God's Temple? Which one of the other 35 worlds is weaker than you? You were just given a title. Who the hell do you think you are?

Zheng Yue thought to herself, With Xue Zhan's cold and arrogant temper, there will be a show to watch later. Jin Quan just died and Han Fei came out. The Snow God's Temple is simply slapping the face of the Golden Crow World. The king of the Golden Crow World won't be angry over such a small matter... However, for the Heavenly Talents of the Golden Crow World, slapping the face of their Heavenly Palace is equivalent to slapping their own face...

Under the Heavenly Imperial Ancient Tree, there was a sword viewing platform.

It was said that an ancient expert once carved a sword talisman on the tree for his descendants to admire. Legend had it that this sword talisman contained the Great Dao of Sword.

However, after ten thousand years, no one had ever found anything on the viewing platform...

Even so, this didn't affect the reputation of the sword viewing platform. Many people came because of its reputation.

Today, there was also a group of Heavenly Talents gathered here. Ordinary people didn't dare to approach.

Zheng Yue led Han Fei and Ice Snow Chuling to the periphery of the sword viewing platform. She pointed ahead and said, "This way, please! Everyone should have come to the sword viewing platform by now. They are all Heavenly Talents. This way, please."

Ice Snow Chuling bowed slightly. "Thank you, Sister Zheng Yue."

After Zheng Yue left, Ice Snow Chuling said, "Later, the Golden Crow World might find trouble with us. Bear with it. You can't expose too much of your strength now."

"Um!"

Han Fei nodded and looked up at the Heavenly Imperial Ancient Tree. The leaves were green, and there were occasionally purple flowers. When the wind blew, a few purple flowers would fall. It was a nice view.

On the sword viewing platform, there were ring-shaped seats with a total of 26 small arrays. Each person had an empty table in front of them. On the table were spiritual fruits and nectar.

At this moment, most of the people had already taken their seats, except for the Snow God's Temple.

Therefore, when Han Fei and Ice Snow Chuling arrived, Ice Snow Chuling immediately realized that something was wrong.

She said, "We were tricked. The others were directly invited to the sword viewing platform. Only we were taken to our residence first, so we were late."

Hearing what Ice Snow Chuling said, Han Fei didn't care at all. Zheng Yue was really tricky. The people of the Supreme Clearness World were indeed insidious!

At this moment, except for the seats in a corner that were empty, the other seats were all occupied.

Everyone's eyes fell on Han Fei and Ice Snow Chuling.

Or rather, their eyes were mainly on Han Fei. Many people had seen Ice Snow Chuling before. Han Fei was the only one wearing a mask among them.

But now, there was an awkward situation. Han Fei and Ice Snow Chuling were on the left side of the ring

From right to left, one could see a sword talisman more than 30 meters long on the ancient tree.

Han Fei was about to walk over, when Ice Snow Chuling said, "Don't go over. The sword viewing platform is for observing the sword. If we sit in that position, our backs will be facing the sword talisman, and we won't be able to see the sword talisman. Therefore, we should sit here. Besides, there are six people next to that seat who are from the Golden Crow World."

Han Fei thought to himself, What a coincidence!

At this moment, someone from the Golden Crow World said with a smile, "We've been waiting for a long time. Holy Lady Chuling is finally here. Take a seat. The banquet is about to begin."

The other person from the Golden Crow World snorted and muttered in a small voice, "The Snow God's Temple is really something."

However, which one of the people present was not a Heavenly Talent?

Han Fei glanced at them. Only half of them were peak-level Venerables, and most of them were Half-Kings.

It could be said that these people were only a step away from becoming kings...

With so many powerhouses present, how could the whispers not be heard?

Therefore, many people wanted to see how the two people from the Snow God's Temple would deal with this situation.

Ice Snow Chuling looked at a person not far away and said, "Fellow Daoist Ji Chen, why is our table over there?"

Ji Chen smiled and was about to speak when the person who had just said to Ice Snow Chuling said, "Our Golden Crow World and the Snow God's Temple are so close that we have to sit together... What do you think, Holy Lady Chuling?"

Hearing this, Ji Chen said, "Holy Lady Chuling, please forgive us. We had arranged for you to sit next to us, but the fellow daoists from the Golden Crow World are quite happy about your arrival. I can't disappoint them!"

Immediately, the strong masters of the other Heavenly Palaces all looked at Ice Snow Chuling.

Although there were also Heavenly Palaces that were friendly to the Snow God's Temple, it was normal for Heavenly Talents to watch a show. Besides, now that you rashly came out, wouldn't it be only natural for you to be targeted?

Anyway, the Snow God's Temple would at most be taunted and picked on.

At this moment, many people were whispering to each other.

Han Fei didn't know the people here, nor could he tell which worlds they were from... However, he could hear their voice transmission.

Some righteous women said via voice transmission, "The Supreme Clearness World and the Golden Crow World are too much. Aren't they deliberately embarrassing the people from the Ice Snow World?"

Another person replied, "We don't have to get involved in this. Our Glazed Glass World has never meddled in the messy affairs of the Heavenly Palaces outside."

When Han Fei heard this, he deliberately glanced over.

There were three men and three women, a total of six, from the Glazed Glass World. All of them seemed to be beauties. But beauties were too common here, so Han Fei didn't care.

Han Fei only paid attention to them.

After all, he should secretly leave with these people.

Some people were still talking via voice transmission. Han Fei had only seen the strong masters of the Million Poison World. Three men from the Million Poison World were discussing.

One of them said, "If it were me, I would've poisoned the Golden Crow World b*stards to death on the spot."

Another person said, "How dare you poison them to death? Once the poison is detoxified, you will be mortal enemies."

Someone else said, "I remember that the Snow God's Temple's ship was moored at about the same time as ours. Why did they come late? I'm afraid they were framed!"

Everyone was whispering via voice transmission.

Although Ice Snow Chuling was the Holy Maiden, she was so angry that her heart was trembling. She thought to herself, The Supreme Clearness World is too much!

Han Fei was helpless. So what if she was a Holy Lady? Holy Ladies could be angry too.

Seeing that Ice Snow Chuling was thinking, Han Fei thought to himself, What's there to think about?

Buzz!

Han Fei directly made a decision for Ice Snow Chuling. Their relationship is bad to begin with. They just want to embarrass you today. Why don't you take the initiative to give yourself a way out?

The void changed.

In an instant, the two tables were about to be teleported through the void and appeared in front of them.

“Hiss “

Han Fei made a move without hesitation, which was beyond everyone's expectations. At least, in the opinion of the Heavenly Talents from the thirteen worlds in the outer domain, even in the opinion of those from the thirteen worlds in the inner domain, the Snow God's Temple couldn't be so aggressive. The most inappropriate thing to do was to change seats. What if they couldn't get the two tables? Then they would lose face.

However, would Han Fei consider the possibility that he couldn't snatch it? He had never failed in snatching something.

“Humph ~”

However, the void trembled, and someone from the Golden Crow World said indifferently, “Fellow Daoist Xue Zhan, aren't you too petty... Why? Are you not giving face to our Golden Crow World?”

Han Fei saw that this person cultivated the Great Dao of Space.

Han Fei knew that his Great Dao of Space was most likely inferior to the other party's. Therefore, he wrapped the tables with his soul power and forcibly snatched them.

The man from the Golden Crow World sneered. Although this boorish man is using a small dao of space... I'd like to see what you're capable of.

Immediately, the man released his soul power to suppress the tables.

But Han Fei smiled. My Great Dao of Space is inferior to yours, but is my soul power also inferior to yours?

At that moment, Han Fei secretly activated Hundred Beast Soul Devouring in his soul.

Crack, crack, crack... Boom...

“Puff -“

At that moment, the void shattered, and the tables appeared in front of Han Fei and Ice Snow Chuling. The Heavenly Talent of the Golden Crow World vomited a mouthful of blood, which flew more than ten meters away.

It was not as simple as vomiting blood. This person was bleeding from his seven orifices. Blood tears flowed down from his eyes, shocking many people.

Han Fei, on the other hand, sat cross-legged as if nothing had happened and said indifferently, "So weak."

Chapter 1747 Heavenly Talents' Tea Party

Han Fei's sudden attack shocked everyone present.

Today, no one who could sit at this table was simple.

Everyone knew that this Holy Child should be extraordinary, but they did not expect him to be so domineering and powerful.

Huo Xuan of the Golden Crow World was definitely not weak. Although he was only a peak-level Venerable, he mainly cultivated the Great Dao of Space. To be able to walk this path, his strength must be extraordinary. Although Han Fei tried his hand just now, it was obvious that what Han Fei really used to collide with Huo Xuan was the power of the soul. His Great Dao of Space should be inferior to Huo Xuan's.

However, Huo Xuan was defeated the moment their soul power collided.

This meant that Han Fei's soul power was extremely strong

Originally, everyone was just watching a show.

But now, the people of the Golden Crow World had clearly ruined the show. They had lost a lot of face.

Immediately, Han Fei felt that everyone was looking at him.

After saying "So weak", Han Fei sat cross-legged and picked up a spiritual fruit as if nothing had happened.

In fact, Han Fei also knew some spatial techniques. Therefore, everyone saw that a bite was taken from the spiritual fruit in his hand but Han Fei didn't even move.

It turned out that with his mask on, Han Fei had taken a bite of the spiritual fruit via void grafting. Han Fei's behavior attracted a lot of attention.

The three women from the Glazed Glass World were quite surprised.

One of them said, "I didn't expect him to win so easily."

Another person said, "It's no surprise. The Golden Crow World underestimated the Ice Snow World. No one who can come here is a pushover. They lost because they underestimated the enemy."

Ice Snow Chuling smiled bitterly to herself. Han Fei still chose to attack directly. After all, he was the master of a Heavenly Palace! He was almost on the same level as a king! How could a king be despised?

However, Han Fei's attack would definitely make people notice him.

However, then she thought to herself, Han Fei probably didn't care. A person who could easily kill a Half-King would only care about

kings.

Not long after Han Fei and Ice Snow Chuling sat down, a strong master of the Golden Crow World said, "Fellow Daoist Xue Zhan, it's just a joke. Why did you hurt him?"

Han Fei said indifferently, "You're looking for trouble. If you dare to look for trouble, be prepared to be beaten. There's no need to hide anything."

These words were too straightforward and directly pierced through the cover. We are already enemies now. Don't you know if you want to give me a hard time or not?

In the thirteen worlds in the outer domain, someone from the Five Elements World said, "It seems that Xue Zhan is indeed strong. However, this person clearly has the strength of a Half-King, but he has to disguise himself as a peak-level Venerable... Could it be that he only has the combat power of a Half-King and not yet a Half-King?"

Someone shook his head slightly and waited to see.

This show had just begun, so there was no need to jump out too early. If they were beaten easily like Huo Xuan, it would be too embarrassing.

The expressions of the people from the Golden Crow World were not very good at this moment. They had been humiliated in public, so how could they not take revenge?

Unfortunately, now was not the time. The time was not yet right.

"Everyone ~"

While everyone was waiting to watch the show, Ji Chen from the Supreme Clearness World stood up.

Ji Chen said, "There was a misunderstanding just now. However, We Thirty-Six Heavenly Palaces are all human beings. We should work together... It was just a joke just now. That was just a spar between them. It should be very helpful..."

As he spoke, Ji Chen glanced at Huo Xuan. His meaning was: It should be very helpful to you. It's better to recognize Xue Zhan's strength now than later...

When Ji Chen spoke, his words were gentle and his voice was calm. He did not seem to be putting on airs, but he casually described this matter as a trivial matter.

If Han Fei and the others had lost this round, he probably wouldn't have said that.

Han Fei couldn't help but sigh. He had met a few people from the Supreme Clearness World in a row, and they were all like this. He wondered if the people from the Supreme Clearness World were all so sanctimonious.

If so, then the Supreme Clearness World was indeed the enemy of the Yin-Yang World.

Han Fei looked down on them for their hypocrisy.

Ji Chen said, "Now let's look at the sword talisman and drink some Enlightenment True Tea? This Enlightenment True Tea was collected from the buds of the Heavenly Imperial Ancient Tree. It's a specialty of our Supreme Clearness World."

At this time, Ice Snow Chuling said to Han Fei via voice transmission, "In fact, this banquet is meant for the Heavenly Talents of the Heavenly Palaces to get to know each other. Although there are many Heavenly Talents in the 36 Mystic Worlds, there are very few Heavenly Talents who have the capital to become kings. This time, those who came here are not ordinary people. Han Fei asked, "So? Will there be a friend-making part in this banquet?"

Ice Snow Chuling nodded. "Yes. But if the Heavenly Talents are not from the same Heavenly Palace, they might not be sincere to each other."

Han Fei sneered. "I don't need friends."

Ice Snow Chuling thought to herself, What do you mean you don't need friends? It's all because you attacked the Golden Crow World just now, so now you've become a thorn in their side...

At this time, whoever befriended you would have to bear the risk of offending the Golden Crow World. And offending the Golden Crow Sky meant offending the Supreme Clearness World.

Everyone knew that after the death of the Golden Crow World's King, the Supreme Clearness World had been supporting them. Therefore, when the people of the Golden Crow Wang family were slapped in the face by Han Fei, the Snow God's Temple didn't just offend one world.

Of course, it was not that no one dared to disobey the Supreme Clearness World. At least, Glazed Glass, Immeasurability, and other two Heavenly Palaces were not afraid of them.

When the banquet began, the people of the Heavenly Palaces got to know each other, but no one came to Han Fei and the others from the Ice Snow World...

Seeing this, a young man who looked like a scholar cupped his hands at Han Fei. "Fellow Daoist Xue Zhan, I'm Song Kaiyuan from the Supreme Mystic World."

Then, Song Kaiyuan said to Han Fei via voice transmission, "Brother Xue Zhan, your luck is extraordinary. Just now, I sensed that there was a roar in that space, which was very similar to the exclusive secret technique of the Beast King World that had disappeared for a long time... the Hundred Beast Soul Subduing Roar. Brother Xue Zhan, I'm really surprised that you can even learn a great technique of the Beast King World..."

Han Fei's heart did a flip. How could this guy recognize it? His Hundred Beast Soul Devouring had already been deduced and upgraded. It seemed that the Supreme Mystic World couldn't be underestimated. No wonder it was said that the Supreme Mystic World contained all kinds of techniques.

Han Fei replied. "I once found an ancient place where there were remnant souls of many beasts, and I learned this technique there."

Song Kaiyuan thought to himself, Sure enough, only in this way can Han Fei learn the Hundred Beast Soul Subduing Roar. Anyway, it was impossible for Han Fei to go to the real Beast King World to hear the Hundred Beast Soul Subduing Roar.

Song Kaiyuan of the Supreme Mystic World greeted Han Fei.

His junior sister also looked like a well-read woman. She bowed to Han Fei gently. "Greetings, Fellow Daoist Xue Zhan, I'm Shui Sisi from the Supreme Mystic World."

The people of the Supreme Mystic World were the first to greet the Snow God's Palace, which immediately attracted the attention of many people. Many people inadvertently glanced over.

The people from the thirteen worlds in the outer domain smiled bitterly.

Someone said, "Sure enough, only Supreme Mystic, Immeasurability and the other two Heavenly Palaces have the confidence to challenge Supreme Clearness."

Someone agreed. "We have to be careful in the inner domain. At the critical moment of the opening of the Land of King Death, we shouldn't make enemies for such a trivial matter."

Someone from the Million Poison World exclaimed, "I'm not envious of making friends with Xue Zhan, but I'm envious of Supreme Mystic for having the confidence to challenge the Heavenly Palaces in the inner domain."

A woman from the Hundred Flowers World said, "I'm afraid the Snow God's Temple won't have it easy this time."

Someone from the Golden Crow World said with an unfriendly gaze, "The Supreme Mystic World and the others have been domineering for a long time. They won't be able to return from the Land of King Death this time!"

Han Fei heard many voice transmissions, but the people of the Supreme Clearness World were really drinking tea, enjoying the scenery, or greeting guests.

Glazed Glass, Immeasurability, Sword God, and Supreme Mystery had always been united.

Therefore, after the people from the Supreme Mystic World greeted Han Fei, someone from the Sword God World nodded at him. "I'm Jian Hui from the Sword God World. Greetings, Fellow Daoist from the Snow God Palace."

Han Fei returned the greeting. He knew the personality of the sword user, so he had nothing against Jian Hui.

Ice Snow Chuling said, "The strength of Jian Hui is unfathomable. I've only heard that this person's strongest sword can rival a king."

Han Fei's heart did a flip. Sure enough, there were super Heavenly Talents in the world outside who could also beat a king as a Half-King!

Ice Snow Chuling continued, "Song Kaiyuan is good at arrays and fighting at close quarters. He is not as gentle as he looked."

Han Fei understood.

At this moment, a burly man from the Immeasurability World looked at Han Fei and Ice Snow Chuling gently. "Greetings, I'm Li Kaitian from the Immeasurability World."

Ice Snow Chuling said, "I'm not familiar with this person. I've never seen him before."

In the end, a woman from the Glazed Glass World said to Han Fei, "Fellow Daoist Xue Zhan, I'm Lu Ran. What you did just now is great!"

Han Fei nodded slightly.

These four worlds had all greeted Han Fei, not because they really cared about the Snow God's Temple, but because they didn't get along with the Supreme Clearness World. Therefore, they were happy to befriend people who were enemies with the Golden Crow World or the Supreme Clearness World.

A moment later.

Han Fei was eating spiritual fruits and observing the sword talisman, thinking, What others can't see doesn't mean that my calabash can't.

Just as the information appeared in the Demon Purification Pot, Ji Chen stood up and said, "Everyone, I think we've introduced yourselves to each other. Now let's move to the next part, okay?"

Chapter 1748 Battle of the Heavenly Talents

Han Fei looked at Ice Snow Chuling in confusion, wondering what the next part was.

Ice Snow Chuling also said in surprise, "I thought it would be tomorrow or the day after. Who knew that it would be today?"

Seeing Han Fei's puzzled look, Ice Snow Chuling said, "It's said that when the 36 Mystic Worlds gather in the Supreme Clearness World, they would inevitably communicate with each other. Some people who have a lot of grudges against each other will be given a chance to fight. Because in the Land of King Death, there are many hostile forces such as the Merman Race, the Hundred Demons Race, and the Undersea Human Race, human beings must forget all their grudges and work together to survive in the Land of King Death."

Han Fei sneered. "Does it mean that we will be given a chance to fight each other here?"

Ice Snow Chuling: "I'm afraid there are kings watching in the dark. They won't let anyone really get hurt here."

Han Fei didn't believe that anyone could put down the grudges after a fight with his enemy. This was probably just a verbal excuse. The real purpose was probably to see the abilities of the Heavenly Palaces' Heavenly Talents.

Ice Snow Chuling said, "You don't have to put in too much effort. Just muddle through it. It's not good to expose too much of your strength."

Han Fei was about to nod, but the old turtle suddenly said in his heart, "I didn't feel the gaze of a king at all."

"Huh?"

Han Fei's eyes turned cold. There must be a trap!

Han Fei said to Ice Snow Chuling, "If anything happens, you can fight with all your strength. This battle may be a trap."

Ice Snow Chuling was slightly stunned. After a few seconds of silence, she said, "Understood."

Ji Chen said with a smile, "We'll go to the Land of King Death in two days. In the past, when we enter the Land of King Death, we'll encounter powerful enemies like the merfolk. They have a lot of people, so we have to be united. If there are any grudges, let's fight today. In the Land of King Death, we have to unite and resist the sea demons together."

The people from the Heavenly Palaces seemed to have long known it.

Therefore, they did not react when Ji Chen suggested it.

Ji Chen said, "Because this is a friendly spar, there's no need to hide. As for the reward for this spar, it's better than last time. It's a Heavenly Imperial Star Fruit."

"Hiss"

Someone was surprised. The Supreme Clearness World is really generous this time. This Heavenly Imperial Star Fruit only bore fruit once every 300 years. There was only one fruit each time. It contained the essence of Dao runes and could help people comprehend and break through. It could quickly recover physical injuries and could even be used as a treasure to resist the heavenly tribulation. The Supreme Clearness World is really rich.

Han Fei glanced at Ice Snow Chuling. "Is it very valuable?"

Ice Snow Chuling didn't know whether to laugh or cry. "Yes! This fruit is indeed rare. However, it won't be easy to get it."

Han Fei smiled. "Why?"

Ji Chen said, "All of you are strong and don't fight in the void. Then, let's use the Heavenly Imperial Ancient Tree as the battlefield. Whoever reaches the top first will win. Of course, in order not to ruin the harmony, there are naturally restrictions. No one can destroy half of the leaves of the Heavenly Imperial Ancient Tree. Otherwise, you will lose and can't join in the competition again."

Han Fei said casually, "This is just a treasure hunt. How can it be a competition?"

Ice Snow Chuling: "How can it be so simple?"

At this moment, six people from the Golden Crow World stood up.

The leader chuckled. "Holy Lady Chuling, Fellow Daoist Xue Zhan, please!"

Ice Snow Chuling said, "People will find their enemies to fight here. Both sides or many parties will climb at the same time. Not everyone starts to climb to seize the treasure at the same time. You have to defeat your opponent first before you can continue to climb."

Han Fei rolled his eyes. "Doesn't that make us enemies?"

Ice Snow Chuling said, "For the Heavenly Palaces, which don't have any grudges against each other, this is just a simple competition. There will be wins and losses in a battle, but for those who have personal grudges, they will represent the interests of their respective Heavenly Palaces, so they won't let their opponents win easily."

Han Fei glanced at the Golden Crow World casually. "Two vs. six? It's not fair!"

Ice Snow Chuling: "They can only send two people."

Han Fei smiled. "That's not bad. Let's give it a try!"

The Heavenly Imperial Ancient Tree was 300,000 feet tall. When the so-called sparring began, every leaf on the Heavenly Imperial Ancient Tree began to light up.

Buzz!

A terrifying gravity fell down, and everyone felt as if they were carrying a mountain. Under such gravity conditions, if one wanted to reach the top of the Heavenly Imperial Ancient Tree, he had to have excellent control over his strength.

Of course, to the Heavenly Talents of the Heavenly Palaces, this was like a basic skill. No one felt that it was inappropriate.

Han Fei felt the pressure on his body. Under such circumstances, his strength was suppressed by about 50%, and so were the others.

Ice Snow Chuling said, "We are still on the ground. When we begin to climb, the gravity on our bodies will be different every ten feet. Therefore, we need to adjust our control of power in time."

Han Fei narrowed his eyes slightly. "Interesting! You mean, the higher you go, the more difficult it will be. In the end, your strength may be suppressed to less than 10%?"

Ice Snow Chuling nodded. "To be precise, if you can reach ten thousand feet high, your strength will only be ten to twenty percent of your peak state. Any higher, it will be even more difficult."

When the Golden Crow World chose two people, Han Fei could see that one of them was the one sitting in the front just now.

Ice Snow Chuling seemed to have foreseen this and said, "These two people are both candidates for the Golden Crow World's King. The thinner one is called Xia Hai. His strength is not bad, and his spiritual beast is a Fire Cloud Whale. It is said that he is the candidate with the highest chance of becoming a king. His weapon, the Blue Fire Ruler, has been tempered by the spiritual fire of heaven and earth."

"The other person is called Tian Ning. His spiritual beast, the Lava Tortoise, has astonishing defense. He cultivates the Indestructible Fire Body and also walks the defensive path."

Xia Hai said indifferently, "I don't care how Jin Quan died, but the Snow God's Temple doesn't take the Golden Crow World seriously at all... This time, we can settle our conflict. What do you think, Holy Lady Chuling?"

Ice Snow Chuling: "Fellow Daoist Xia Hai, it's time to end the conflict between the Golden Crow World and the Snow God's Temple. After this, we will have nothing to do with each other."

“Have nothing to do with each other? Ha... you make it sound so easy. I wonder where you got the confidence to say that?”

Han Fei looked up with his hands behind his back. “You talk too much. When do we start?”

Xia Hai and Tian Ning both looked at Han Fei with hostility.

Not long after Han Fei finished speaking, Ji Chen said, “Everyone, when a leaf falls, this battle will begin.”

As the leaves moved with the wind, the disciples under the tree found their opponents.

lea

When the nearest leaf snapped with a crack, the Heavenly Talents all jumped up as if the gravity on their bodies didn't exist at all.

Hua!

Han Fei and Ice Snow Chuling also stepped into the air. Tian Ning seemed to have been prepared for this. His first step was not to chase but to reach out his hand to grab Han Fei's ice mask.

The Holy Child, Xue Zhan, was mysterious because of the mask on his face. If the mask was broken, Xue Zhan would lose a lot of face.

But how could Han Fei let him?

In terms of reaction speed, Han Fei was even faster. He leaned back, tilted his head slightly, and launched the Near at Hand Technique.

Slap!

Tian Ning was slapped in the face. Many Venerables were dumbfounded by the scene.

“Hiss”

A woman from the Glazed Glass World took a deep breath and said, “Is Tian Ning stupid? Xue Zhan just showed the power of space, but he wants to take off his mask? Isn't he asking for a beating?”

Someone next to her said, “Tian Ning is a Half-King. The Holy Child, Xue Zhan, is only a peak-level Venerable. However, in terms of endurance, speed, and reaction speed, he has surpassed Tian Ning. This can only mean that either Xue Zhan's current realm is fake, or he has the ability to cross realms and fight.”

Someone chuckled. “A peak-level Venerable? It's impossible. It's said that Xue Zhan killed a Half-King in a few seconds. At that time, Han Fei on the Avenger said that Xue Zhan was a Half-King. Now he's hiding it just to use his strength in the Land of King Death.”

Instead of grabbing Han Fei's mask, Tian Ning was slapped in the face. How could he bear it?

Because not even a leaf could be damaged in this fight, Han Fei didn't use much strength in this slap, but the sound was very loud, which greatly embarrassed the Golden Crow World.

Xia Hai snorted. “Idiot, where's your shield?”

Tian Ning couldn't say anything. In fact, he had an invisible shield, but Xue Zhan had used the power of space just now. This guy directly bypassed the invisible shield and slapped his face.

Tian Ning gritted his teeth and soared into the sky.

He swore that not only would he drag Han Fei down today, but he would also never let go of this guy in the Land of King Death.

"Fire Ring, Heaven Shield."

Chi la!

At this moment, most people were still in midair and hadn't even reached the first branch, including Han Fei.

A thousand-foot-wide ring of fire appeared above Han Fei's head, blocking his way.

If Han Fei rushed forward, he could certainly break through the ring of fire, but the power he created would inevitably cause damage.

Therefore, Han Fei's figure disappeared with a buzz and appeared on the ring of fire in the next moment.

He said leisurely, "Idiot!"

Chapter 1749 Face-slapping

Han Fei was the Holy Child of the Snow God's Temple, second only to the Snow Lady.

In other words, Han Fei's real status should be on par with the strongest person under the King Realm in the Supreme Clearness World. Therefore, it was only natural that Tian Heng couldn't stop Han Fei.

Although there were some worlds in the inner domain, and some in the outer domain among the 36 Mystic Worlds, this didn't mean that the worlds in the outer domain were necessarily weaker than those in the inner domain. The two sides were connected by sea routes and shared resources. Even if the quality of spiritual energy and environment of the outer domain were a little worse, their luck might be better.

Therefore, the appearance of the Holy Child was reasonable. After all, his appearance was suddenly announced by the Snow Lady for the sake of the Land of King Death. Xue Zhan might be a Heavenly Talent that the Snow Lady had specially nurtured for many years.

Seeing that he failed to stop Han Fei, Tian Heng quickly stepped on the void and chased after him.

Compared to Tian Heng, Xia Hai and Ice Snow Chuling had already fought dozens of times. Because they didn't use too much strength, the battle between the two of them didn't look fierce.

At this moment, Xia Hai used the fire essence to gather a wisp of red flame and pointed it at Ice Snow Chuling.

Ice Snow Chuling certainly wouldn't underestimate it. She skillfully condensed a snowflake at her fingertip. However, neither the red flame nor the snowflake exploded. Instead, they rushed into the two's bodies respectively.

They were both Half-Kings, so they could withstand the energy in their bodies.

111

If it were Ice Snow Chuling in the past, she might not be willing to do this because the intersection of Yin and Yang would only trigger her cold body. She could only slowly devour the energy of the fire essence.

But now, Ice Snow Chuling had recovered from her serious illness and found all kinds of vitality resources to replenish her vitality. She was no longer the same as before, so Xia Hai did not gain any advantage.

Boom –

At this moment, in the sky, two people were falling down from the tree. Their hand techniques changed in midair. One was good at hidden weapons, and the other was bursting with healing light.

They were the Heavenly Talents of the Million Poison World and the Million Poison World. Han Fei saw that wherever they passed, the void was cracked by the poison, which showed how poisonous the Heavenly Talent of the Million Poison World was.

Before the two of them touched the ground, they separated and retreated a thousand feet before rushing towards each other again.

On the other side, sound waves rippled.

There was a woman from the Sanskrit Music World playing the zither. The sound of the zither was trembling and occasionally hurried. The sound was lonely and eerie, as if putting the listeners into a hell of evil spirits. As for the other woman, she held a staff in her hand and was surrounded by colorful clouds and mist. She was obviously from the Dream Weaving World.

The battle had just begun, and all the Heavenly Talents were showing their abilities. Here, except for Han Fei, who appeared to be a peak-level Venerable, the others were all in the Half-King realm.

At this moment, no one was defeated. It could be seen that these people were all very strong. Be it from the inner or outer domains, the gap between the top Heavenly Talents was not that big

At the highest point, someone had already rushed more than 6,000 feet away. Here, there was a person who used a soul saber to kill the enemy.

Under the tree, people kept exclaiming, "Look, Beitang Xuan's Destiny Soul Saber is one of the four ultimate techniques of the Infinity World."

Someone sighed. "After all, the Dragon-Subduing World has been weakened over the years. It is said that Cang Hongyu failed to slay the dragon last time and was injured instead. I wonder if he has recovered."

Someone shook his head slightly. "I'm afraid not. Look, blood is flowing out of the corner of Cang Hongyu's mouth." "Puff -"

In the sky, a person instantly fell from the sky and landed on the ground. Under the tree, a huge pit was created, but his look was still fierce. At this moment, his clothes were tattered, revealing the ferocious dragon tattoo on his body that flowed like blood.

"Hmph!"

At this moment, even though this person, Cang Hongyu, who had just been hotly discussed, had been defeated, his blood and qi were still shocking.

Someone from the Dragon-Subduing World said, "Hongyu, your injury!"

Cang Hongyu raised his hand slightly and waved it casually. He said in a dull voice, "It's fine. Although the Destiny Soul Saber is powerful, it's not enough to injure me. However, Beitang Xuan's control is better than mine. He just took advantage of it."

Swish! Swish! Swish!

Among the branches and leaves of the Heavenly Imperial Ancient Tree, the lowest one had already reached 50,000 feet high. Han Fei didn't sprint, and he had only reached 60,000 feet high.

Han Fei felt that the gravity around him had increased a lot, and his strength had been suppressed to only 30%. The others were the same.

At this moment, Tian Heng tried to lock onto Han Fei with fire threads. Han Fei intended to use the Infinity Water to bind them with the Blade Inferno.

However, the Infinity Water was the ultimate treasure of the Ashless World. Would anyone recognize it if he threw it out now?

He had just casually used the Hundred Beast Soul Subduing Roar, but the people of the Supreme Mystic World had recognized it. If he used the Infinity Water and it was recognized again, they would definitely suspect him.

Thinking of this, Han Fei reached out and drew a knife from the void. In the next moment, he directly attacked Tian Heng with the Hundred Beast Soul Devouring.

"Cough ~"

Tian Heng grunted, and Han Fei's heart did a flip. This person's soul power was not weak, much stronger than Huo Xuan's.

However, Han Fei took out a void crack and slashed Tian Heng.

However, the flames meandered into the void and actually withstood the Void Crack Saber. This was enough to prove that Tian Heng's strength was extraordinary.

222

However, in the next second, two dark blue scimitars swept past this person.

“Pu! Pu! Pu!”

At that moment, under the ancient tree, everyone was shocked. Tian Heng was cut into four pieces and then slapped down by Han Fei.

How could everyone not know whether Tian Heng was strong or not? He was famous for his defense. In the end, he was directly cut into pieces and was destined to lose.

To a Half-King, those who could kill you could destroy your soul and not give you a chance to be reborn.

The Golden Crow World was even more embarrassed. Huo Xuan and the others shouted, “How is it possible? Tian Heng’s physique is extremely strong, and his shield and armor are unparalleled. How can he be killed so easily?”

Someone looked sideways. “It’s his double scimitars. Those scimitars seem to be invisible blades...”

As soon as the man shouted, he saw the blue twin scimitars enter Han Fei’s body again. Han Fei rarely used the Blade of Hope, but now, if he used another way, he might damage the Heavenly Imperial Ancient Tree and be eliminated.

As for the Blade of Hope, it could ignore arrays, shields, and matter. If Tian Heng had resisted it with his soul power, he might have been able to withstand it.

However, Han Fei’s first few moves were already extraordinary. Tian Heng didn’t expect Han Fei to have a backup plan.

Tian Heng’s defeat was witnessed by many people. Someone from the Supreme Clearness World below secretly kept it in mind that the Holy Child, Xue Zhan used nameless twin sabers, which were suspected to be a Sea Quelling Bizarre Treasure that could ignore shields and armor.

This so-called competition was also a way for others to get to know you. Han Fei pretended to be the Holy Child, so naturally, many people paid attention to him.

Xia Hai certainly saw Han Fei’s move too. The Golden Crow World had already lost two rounds. If he lost again, it would be a big disgrace to the Golden Crow World!

Xia Hai frowned. It was not that the Golden Crow World could not be defeated, but it could not be defeated by the Snow God’s Temple. If it was really defeated, wouldn’t it mean that the current Golden Crow World was even inferior to the Snow God’s Temple? How could they still defend their fourth-place ranking?

Whoosh!

In the blink of an eye, when Han Fei defeated Tian Heng, a green ruler appeared in Xia Hai’s hand, and flames surged on the ruler.

Someone exclaimed, “It’s the Green Lotus Fire. It’s a spiritual fire of heaven and earth. Isn’t he afraid of hurting the Heavenly Imperial Tree?”

The long flames were like snakes, and the lines of fire were like silk. Under the illumination of the spiritual fire of heaven and earth, the body of Ice Snow Chuling immediately froze.

However, Ice Snow Chuling was also a Half-King. Although she had once been sniped in the violent hurricane, that was because she was caught off guard and ambushed by many Half-Kings.

At this moment, a red line appeared on the forehead of Ice Snow Chuling, and a blue sea slug formed an ice barrier that blocked the power of the spiritual fire of heaven and earth.

Someone was surprised. "It's an Ice Sea Leech. Isn't it said that Ice Snow Chuling will aggravate her injuries every time she uses it? Is it worth it to use it here?"

Buzz!

Ice Snow Chuling was the Holy Maiden of the Snow God's Temple after all. She represented the Snow God's Temple. In such a competition, she would definitely try her best, so she tried to freeze Xia Hai's soul with the power of ice.

Unfortunately, she had just entered the Half-King Realm. Although her injuries had recovered, she was still weaker than Xia Hai.

"Cough ~"

Ice Snow Chuling coughed, and Xia Hai sneered. Green flames appeared in his eyes, and he forced Ice Snow Chuling back with the soul-catching flames.

The corner of Ice Snow Chuling's mouth was bleeding, and she felt that her soul was being suppressed

Suddenly, the two people in the battle felt a change in the void, only to see a void blade appear with the intention of cutting Xia Hai.

Xia Hai moved horizontally. He had been paying attention to Han Fei. He had seen Tian Heng's defeat. How could he not be on guard?

Of course, Xia Hai didn't want to fight the two of them alone. They were all Heavenly Talents of the same level. The only difference was the Great Dao. The Holy Child's methods were strange and he'd better not fight him.

"Roar!"

A low roar entered his ears. A green light flashed between Xia Hai's eyebrows, and he actually resisted the Hundred Beast Soul Devouring.

He sneered. "Why did you use this trick over and over again? Do you think you're invincible in the Half-King realm?"

However, as soon as Xia Hai finished speaking, he suddenly felt his body tighten, and a spiritual energy thread gathered in Han Fei's hand.

333

Han Fei sneered. I knew you were on guard, so the Hundred Beast Soul Devouring was never an ultimate move.

In the next moment, an ice hammer appearing out of nowhere smashed at Xia Hai and nailed him to the ground.

At this moment, Han Fei used the Star Teleportation Technique, appeared next to Xia Hai, who was about to break free from the threads of spiritual energy, and reached out.

Slap!

The loud slap made everyone narrow their eyes. Who would have thought that the Golden Crow World, the fourth of the 36 Mystic Heavens, would be defeated in all three battles?

For a moment, there were many people gloating

Chapter 1750 You've Underestimated Your Enemies

After solving the two Half-King Heavenly Talents of the Golden Crow World, Han Fei and Ice Snow Chuling arrived ten thousand feet high.

Han Fei didn't help Ice Snow Chuling. He would save his skills as a spirit gatherer in the Land of King Death! He had shown enough by now.

Ten thousand feet high, Han Fei's strength was compressed to less than twenty percent

was c

At this moment, eight people had been eliminated one after another. It could be said that there were very few people left.

The old turtle said, "The higher, the more difficult this kind of battle is. When you reach 200,000 feet high in the sky, I'm afraid that less than five percent of your strength will be left. When the time comes, it will be the time for a real fight. You have to hold back."

Han Fei smiled under the mask. At that time, I'll still be at least an advanced peak-level Venerable, and I can also use my Great Dao.

His Great Dao was too powerful. If he used it here, he would probably scare these people. This time, he was not here to fight. As the saying went, first come, first served. You guys take your time. I'll go snatch the award first.

In the blink of an eye, while everyone else was fighting, Han Fei soared over 8,000 feet more into the sky and reached 20,000 feet high.

111

This speed was already extremely fast, which required constant adjustment of one's strength. Now there were only eight people who had reached this height, including Han Fei.

Among these eight people, there was Ji Chen from the Supreme Clearness World, Jian Hui from the Sword God World, Lu Ran from the Glazed Glass World, Li Kaitian from the Immeasurability World, Beitang Xuan from the Infinity World, an iron-tower-like giant, and a woman with a veil.

Han Fei didn't even need to introduce himself to the two strangers when he heard someone talking below.

Someone said, "I didn't expect the top eight to appear so quickly. Ji Chen's opponent must be Jian Hui. Li Kaitian of the Immeasurability World and Beitang Xuan of the Infinity World are opponents. Lu Ran of the Glazed Glass World and Nangong Yu of the Dream Weaving World will fight. As for the rest... Xue Zhan of the Snow God's Temple is a dark horse, but he's probably going to be killed by Wu Hao of the Chaos World."

Someone smiled and said, "I have some objections. If he meets Wu Hao outside, he definitely won't be able to beat him. But the fight in the Heavenly Imperial Ancient Tree is about subtle means. Wu Hao fights too fiercely and powerfully. If he can't hold back, he might eliminate himself."

Someone else said, "Xue Zhan is quite extraordinary. First, it was Huo Xuan, then Tian Heng, and then Xia Hai. He single-handedly dragged down the three king candidates of the Golden Crow World. No wonder he dared to be so domineering today."

While everyone was discussing, Han Fei learned that his opponent was Wu Hao from the Chaos World, which was ranked second in the 36 Heavenly Palaces.

As far as Han Fei knew, the Chaos World and the Supreme Clearness World weren't birds of a feather. The Chaos World became the second strongest among the Thirty-Six Mystic Worlds with their real strength, and even the Infinity World had to be ranked below them.

At this moment, Wu Hao also looked at Han Fei.

Originally, the two of them had not interacted before. Wu Hao did not expect that his opponent would be this mysterious man from the Snow God's Temple.

However, since he was here, Wu Hao would not show mercy. However, at this moment, Wu Hao did not continue fighting. He looked up at the 20,000 feet height.

Han Fei immediately understood that Wu Hao meant that he would wait for him there.

Han Fei thought to himself, Wu Hao is very smart. Han Fei knew at a glance that this person's physique was extremely strong. In the array of the Heavenly Imperial Ancient Tree, the higher one climbed, the greater the pressure, and the harder it was to exert his strength. And the physique became the key to victory.

Unfortunately, Wu Hao thought so, but he didn't know that Han Fei thought so too.

Han Fei thought that the fact that he was a body refiner wouldn't be a secret, nor would it be worth hiding. Therefore, the two of them soared into the sky, passed the others, and took the lead to reach the 20,000 feet height.

At the same time, Ji Chen, Jian Hui, and the others were fighting and climbing. They even took a look at them.

However, when they saw that Han Fei's opponent was Wu Hao, they were all relieved. Wu Hao was not weaker than them. They might not even be able to defeat him in a real battle.

Xue Zhan might have some combat power, but he was still inferior to Wu Hao. They could tell at a glance why Wu Hao wanted to fight at the 200,000 feet height. It was because he was a body refiner.

However, to their surprise, Han Fei jumped up without hesitation.

Under the tree, someone sneered. "Xue Zhan probably doesn't know how terrifying a body refiner is. Wu Hao is a Half-King body refiner. He is so strong that few people in the same realm can match him."

Someone shook his head slightly. "After all, Xue Zhan has just entered the world and hasn't experienced the beating-up of the strong. He will understand a lot in this battle."

However, 200,000 feet high in the sky, as soon as Han Fei arrived, he saw Wu Hao rushing at him with close combat techniques.

Observing Wu Hao's attack, Han Fei knew that this person had a very good control of his power and had just the right strength, and the direction of his strength had been carefully considered. It was very difficult to injure the tree.

However, the moment Wu Hao approached, Han Fei's snow-white cloak flew up. Under the cloak, Han Fei and Wu Hao exchanged more than a hundred blows in an instant.

Almost instantly, there was no sound under the tree. Although they were at a height of 200,000 feet, where the two of them only had one or two percent of their combat power left, as body refiners, they were the most powerful people in this environment.

Han Fei didn't retreat at all when facing Wu Hao. Close combat meant that Han Fei was also a body refiner. Otherwise, he wouldn't have chosen close combat.

Bang! Bang! Bang!

Bam! Bam! Bam!

Power burst out of their fists, and when it landed on the other party, the power was absorbed by the other party. Therefore, Han Fei and Wu Hao were in a stalemate.

"Huh?"

Wu Hao was surprised. He didn't expect Han Fei to be so strong. There was a body-refining expert in the Snow God's Temple?

Besides, the power unleashed by Han Fei was almost as terrifying as his own.

Han Fei was also surprised. This guy was so strong. Although he didn't use his full strength because he didn't want to cause instability, his casual punch was close to ten thousand waves.

Logically speaking, others wouldn't be able to withstand this attack at all. After all, strength was pure strength. After it burst out, it wouldn't be too suppressed by the pressure, realm and speed, so it wouldn't be suppressed much.

Wu Hao was surprised. "You've already mastered the Golden Body?"

Han Fei was also surprised. Wu Hao was also refining his golden body, but his golden body hadn't been completed yet.

Han Fei immediately understood. He said, "You're walking the Great Dao of Strength."

The two of them pretended to be shocked, but Wu Hao was really shocked. This guy didn't walk the Great Dao of strength, but his strength was comparable to his. This only meant that the other party had a golden body. If he had a golden body in the Venerable realm, he would almost be invincible.

At this moment, Wu Hao knew that the other party was probably the Snow God's Temple's trump card.

This was the first time Han Fei met such a powerful opponent. Although the Half-King he met in the cage also walked the Great Dao of Strength, his physique was not very strong.

However, the Great Dao this person walked now was very similar to his. Although this person walked the Great Dao of Strength to be comparable to him, it still meant that his strength still had room for improvement.

After seven or eight seconds, Ji Chen and the others had already surpassed Han Fei and Wu Hao. The two of them were still fighting each other, but Wu Hao knew that the energy in his body was consumed too quickly. This couldn't

go on."

As for Han Fei, the Void Lines had already reached the top of the tree.

At the top of the tree, there was a stone platform made of floating stones. On it was a spiritual fruit with white skin and purple spots.

Han Fei could even snatch the Heavenly Imperial Star Fruit now, but he didn't want to expose the Void Lines. And in theory, he couldn't climb up until he defeated Wu Hao.

Han Fei wanted to win, but he couldn't use his full strength. If he could easily defeat someone like Wu Hao, then even if he entered the Land of King Death, he would probably be "specially taken care of".

Therefore, Han Fei suddenly stopped and took three punches from Wu Hao. His body faced the sky, and with a swish, he used the Star Teleportation Technique and teleported to the

sky.

Wu Hao thought that Han Fei was going to run away, but when he was about to give chase, he found that the space suddenly changed, and his body was sent thousands of meters away, hitting a leaf.

In order to adjust his strength, Wu Hao used too much force and broke a leaf.

Seeing this, Han Fei smiled and flew into the sky.

Swish –

"Not good!"

At that moment, Ji Chen, Jian Hui, Beitang Xuan, and the others' expressions changed. They didn't expect Wu Hao to fail to keep Holy Child Xue Zhan.

Wu Hao was also speechless. It was rare for him to encounter such a strong opponent. He was just having fun when he was suddenly tricked by this guy. How infuriating was this?

Everyone chased after Han Fei, and Ji Chen and Jian Hui almost turned into two sword shadows that rushed at Han Fei.

333

Han Fei sneered and also jumped out. In terms of speed, Han Fei didn't think he was inferior to anyone. Even if a king came, he could run for a while.

Therefore, without anyone stopping him, under everyone's stunned gaze, Han Fei actually reached the top first.

Han Fei grabbed the Heavenly Imperial Star Fruit.

Behind Han Fei, three figures caught up. Han Fei grinned and put the Heavenly Imperial Star Fruit into Forge the Universe.

Power surged on Han Fei's fist, which smashed at Ji Chen and Jian Hui with extremely violent power.

Han Fei said, "You've underestimated your enemy."
