Chapter 1751 Comprehension of Sword Observation

Han Fei had already gotten the Heavenly Imperial Star Fruit, which meant that the competition was over.

Han Fei said that they underestimated their enemy because they all thought that Wu Hao would definitely be able to stop him and not give him a chance to move forward.

However, Han Fei knew the characteristics of a body-refining expert very well. When he fought to his heart's content, he might not be able to control his strength freely.

Just now, he seemed to have retreated and taken three punches, but in fact, it was because his aura was surging and each punch was stronger than the last that Wu Hao was careless.

Ji Chen had wanted to charge forward, but seeing that Han Fei had punched out with all his might and did not care about the Heavenly Fault Ancient Tree at all... he immediately turned to protect the Heavenly Fault Ancient Tree.

At this moment, Ji Chen slashed the void with his sword, cut open the void crack, and drew Han Fei's fist mark into the void.

When all this was over, Ji Chen saw Han Fei stepping down with his hands behind his back.

While walking, Han Fei said, "We're all from a Heavenly Palace. No one is much stronger than the other... If you take the Snow God's Temple seriously, the Heavenly Imperial Star Fruit might not be mine today."

Everyone saw that he was already walking down the tree. This had already announced the victory of this battle.

Jian Hui silently sheathed his sword, Beitang Xuan took a deep look at Han Fei, and the women of the Glazed Glass World and the Dream Weaving World looked at Han Fei in astonishment.

Nangong Yu smiled. "Interesting. I was indeed careless."

Seeing that Han Fei had already snatched the spiritual fruit, Wu Hao didn't say anything but was surprised. How did Han Fei cultivate the Invincible Golden Body?

It had to be known that the final tempering of the skull was quite difficult!

His golden body refining was stuck at the last step and he could not grasp it no matter what.

He didn't understand what stopped his further breakthrough.

Buzz!

When Han Fei landed lightly on the ground, many people had already come down. Han Fei took out the Heavenly Imperial Star Fruit in a show-off manner, dazzling everyone's eyes.

Information popped up in Han Fei's eyes.

<Name> Heavenly Imperial Star Fruit

<Introduction> A spiritual fruit produced by the Heavenly Fault Ancient Tree by absorbing the essence of heaven and earth all year round. The tree bears this fruit once every 300 years and only bears one fruit at a time. The spiritual fruit contains the essence of the Dao runes and can help people comprehend and break through. It can also quickly recover physical injuries and contains rich energy, so it's an ultra-quality medicine.

<Level> Venerable

< Quality > Ultra-Quality

<Chaotic Energy> 30 wisps

<Remarks > After taking it, there is a small chance to activate the power of the bloodline in the body and increase the power of the bloodline.

The corners of Han Fei's mouth curled up slightly. 30 wisps of Chaotic Qi. This trip was worth it. 30 wisps of Chaotic Qi would take ordinary people hundreds of years to absorb.

However, in just a moment, he plucked it.

If there was such a good thing, Han Fei would rather participate in the so-called Heavenly Talents' Contest every day.

Ice Snow Chuling sighed in her heart. As expected of a strong master at the level of the master of a Heavenly Palace. Perhaps he had already won without even using his true strength.

In this trip to the Land of King Death, with this person in their team, the Snow God's Temple would probably not be at a disadvantage.

Because the king was not around, Ji Chen was the host.

At this moment, Han Fei had won the Heavenly Imperial Star Fruit. Although Ji Chen was unreconciled, he still had to put on an act. Otherwise, how could the Supreme Clearness World command the 36 Mystic Worlds?

Ji Chen said, "Everyone, the outcome of this battle has been decided. You should have seen it. Fellow Daoist Xue Zhan really has a lot of means... He defeated many strong masters in a row and could still defeat Wu Hao... I don't have to tell you how strong he is, right?"

Only at this moment did everyone realize that this was not right. Even Xia Hai and the others from the Golden Crow World had discovered the problem.

Why was the Holy Child, Xue Zhan, so strong?

This person was from the weakest Heavenly Palace in the outer domain. Even if he was lucky and had a high status, he was still from the outer domain. How could he be so powerful?

Immediately, someone guessed that if the Snow God's Temple had the ability to nurture such a powerful disciple, why didn't he come out until now? This was definitely not just to explore the Land of King Death...

At this moment, everyone thought of the Monarch Palace exploration more than 30 years later.

Yes, Xue Zhan must have been hidden for too long. If he wanted to explore the Monarch Palace, Xue Zhan still needed more experience. At this time, participating in the battle in the Land of King Death was probably just a way for him to gain experience

e

.

At the same time, some people suspected that what if Xue Zhan was really a peak-level Venerable? He was already so powerful when he was only a peak-level Venerable. What would happen if Xue Zhan became a Half-King?

A series of thoughts appeared in everyone's minds. At this moment, Han Fei was undoubtedly dreaded by countless people.

Of course, Han Fei didn't mind. He was thinking that it was meaningless for him to use the Heavenly Imperial Star Fruit now.

Now, he could continue to cultivate the Purity Mystic Body. Not only was his cultivation speed fast, but he was also about to break through the bottleneck. As for the Half-King bottleneck, he had already experienced it. Once his strength in all aspects was strong enough, his breakthrough would only be a matter of time.

Now, his bloodline could be said to have improved by more than a little. His flesh and blood were countless times better than when he was in the cage...

At this moment, it was not that his flesh and blood could not keep up, but that there was still a gap in the power of his soul. And the strengthening of his soul certainly required more hunting.

Han Fei licked his lips and put away the Heavenly Imperial Star Fruit.

At this moment, Wu Hao walked towards Han Fei.

Wu Hao looked at Ji Chen. "Anything else?"

Ji Chen shook his head. "I just arranged for a chance for us to get to know each other. I think we've already acquainted with each other. Let's take care of each other after we enter the Land of King Death, OK?"

Wu Hao said, "Fellow Daoist Xue Zhan, would you like to have a chat?"

Han Fei didn't want to chat with these people. He didn't believe that they could really become friends in the Land of King Death... They would still hunt when it was time to hunt. They were all Heavenly Talents. Who would surrender to others?

But Han Fei still nodded slightly. "Okay!" Ice Snow Chuling: "Then I'll go back to my residence first."

Under everyone's gaze, Han Fei and Wu Hao left. They were both body refiners. Everyone knew that they probably went to study body refining

In fact, they did.

As soon as they entered the courtyard, Chu Hao cupped his fists. "Fellow Daoist Xue Zhan, I have something to ask you. It might be a little abrupt... If it's inconvenient for you to answer, you can choose not to answer."

Han Fei asked casually, "Do you want to ask about the forging of the golden body?"

Wu Hao nodded.

Indeed, he could not hide his intentions from Xue Zhan.

To Wu Hao's surprise, Han Fei replied, "I can tell you, but what can you give me in exchange?"

Immediately, a strange light burst out in Wu Hao's eyes. He said, "Anything is fine. I can give you everything I have!"

Han Fei asked leisurely, "How much is everything?"

"Uh"

Wu Hao was stunned for a moment. Was there a need to plan carefully?

Han Fei extended his hand. "If your Golden Body is completed, your strength will definitely improve. I won't make things difficult for you. A million ultra-quality spiritual stones, twenty thousand energy fruits, and ten great body-tempering techniques. If you agree to my conditions, I can give you an answer now."

Wu Hao: "Okay!"

Han Fei: "???"

Han Fei felt that he had heard wrong. F*ck, it was just a casual extortion, but this guy actually agreed? Isn't this too simple?

Wu Hao said, "I can give you a million spiritual stones and 20,000 energy fruits now. I don't have all the ten body-refining techniques for the time being. I only have four, but I'll ask someone to send the other six to the Snow God's Temple after this trip... Brother Snow, you can rest assured." Han Fei's heart raced. Wow, this seems to be even more profitable than robbery! He regretted that he didn't ask for more just now. If he had asked for more, the other party would still have agreed.

When Wu Hao really took out the resources, Han Fei didn't hide anything and casually threw his insights on refining the Golden Body over.

Han Fei thought that even if Wu Hao cultivated the Indestructible Golden Body, so what? The Golden Body's increase in strength was only about 20%. With Wu Hao's strength, even if he was twenty percent stronger, he was still not his opponent!

Moreover, it was just an insight. He might not necessarily succeed. Perhaps the king just wanted to hone his disciple.

It was already not a loss for him to sell his insights for so much money.

Wu Hao grabbed the jade slip and quickly glanced at it. His eyes became brighter and brighter. In the end, he thanked Han Fei and went into seclusion excitedly. Han Fei was still thinking about the sword talisman on the Heavenly Imperial Ancient Tree. Just now, he had just made some progress, and the battle of the 36 Mystic Worlds had already begun...

When Han Fei appeared at the Sword viewing platform again, it was already empty. However, Han Fei didn't care. He sat on the table and began to drink.

Half a day later, a message flashed in the Demon Purification Pot.

Sky Splitting Sword Manual (Sea Establishment Realm, Ultra-quality)

Note: There was once a peerless expert who comprehended the Dao for ten thousand years and finally created the Sky Splitting Sword Dao. It can cut open other Great Daos and break the nothingness. After cultivating this Great Dao, one's killing intent can become a sword, and all techniques are like his sword. If you want to cultivate the Great Dao of Sky Splitting, you have to find your sword path. Once your sword path is opened, this technique will be mastered.

Shortcoming: To practice the Sky Splitting Sword Manual, you must first find your own sword path.

Deduction Cost: 1,000 wisps of Chaotic Qi.

Note: The sword path is hard to find. You have to comprehend it yourself.

Chapter 1752 Tear of Mermaid

When Han Fei saw this great technique, his heart turned cold. Are you kidding me? To cultivate this great technique, I have to find my sword path first?

Heck... he didn't cultivate sword Dao, so how could he know anything about the sword path?

Although using a sword and a knife seemed to be the same in Han Fei's eyes, a sword cultivator had to condense a sword pill, raise the sword heart, and find the sword path... but the Dao of the knife didn't demand that much.

Or rather, he did not know much about the Great Dao of knives.

But no matter what, this Sky Splitting Sword Manual was definitely a great technique. Even if he couldn't use it, Tang Ge had found his sword path, right? He would give it to him.

In any case, in Han Fei's opinion, Tang Ge was Tang Ge and Tang Yan was Tang Yan.

Tang Yan had already reincarnated twice. He might not be the original body, and Tang Ge might be the original body...

As for his sword path? When he was free, he would study the Sword Dao...

As the saying went, "Once a technique is understood, all techniques will be understood." It might not be difficult to step onto the Sword Dao.

Han Fei comforted himself and returned to his yard.

In the past two days, Han Fei didn't go out.

After all, this was the Supreme Clearness World. He didn't want to cause himself trouble.

The Land of King Death was about to open, and he wouldn't stay in Supreme Clearness World for long. According to his plan, when he came out of the Land of King Death, he would set foot on the road to the Glazed Glass World.

However, although Han Fei didn't cause trouble, the name Holy Child Xue Zhan was already famous in a small range.

In the Heavenly Imperial Tournament, this guy who had just appeared actually won the championship in one fell swoop. His physique was comparable to Wu Hao's, and his methods were enough to suppress the Golden Crow World.

Although Han Fei had never fought with the people of the Supreme Clearness World and the Infinity World, they couldn't be much stronger than Wu Hao, so Han Fei wasn't afraid at all.

Today, two days had passed.

It was said that the others all participated in auctions or treasure trade fairs, but Han Fei didn't participate in any of them.

When Ice Snow Chuling came to call him, Han Fei finally came out of his cultivation.

Ice Snow Chuling said, "In two hours, we'll gather and go to the Land of King Death."

Han Fei nodded slightly. "That's good. Although this place is good, people are not. It's better to leave as soon as possible."

Han Fei thought to himself, These guys from the Supreme Clearness World have never been beaten up by the cruel society. If there's a chance in the Land of King Death, I must teach them a lesson.

Two hour passed.

There were a total of 25 large boats that appeared at the anchorage of the Heavenly Imperial City. Why were there 25? It was because there was no one from the Nine Palace World.

After Han Fei got on the boat, he asked in confusion, "Can the Nine Palace World, which has been sealed all year round, still stay in the inner domain?"

The Snow Lady personally replied, "The Nine Palace World dismissed too many of their people back then. It can be said that many people in the 36 Mystic Worlds are actually from the Nine Palace World. After tens of thousands of years, many people have been discovered and killed, so the people of the Nine Palace World never show up and live carefully. However, if anyone is ready to attack the Nine Palace World, it will often attract some strong masters to attack him. Moreover, the arrays of the Nine Palace World are unparalleled, and the Heavenly Palace is hidden... So far, no one has found it."

Han Fei thought to himself, That's rare. It seems that Old Han has made a lot of preparations!

Then, the Snow Lady said, "You're in the limelight. You have to be careful on this trip. Someone must want to hunt you down."

Han Fei licked his lips and sneered. "That's exactly what I want."

In the secret realm, some hunted and some were hunted. Han Fei had long been used to it. Hunting sea demons and human humans actually were essentially the same.

As long as it was his enemy, it made no difference whether he killed sea demons or humans.

The Snow Lady didn't restrict Han Fei's behavior at all. Would the great escape a hundred thousand years ago happen again? It depended on the last tens of thousands of years.

At this moment, the Snow God's Temple was not afraid of offending the other Heavenly Palaces. Everyone wanted to find opportunities in the Monarch Palace... Others knew what the Snow Lady was thinking, and they must have secretly prepared other methods too.

Therefore, even the kings of the Supreme Clearness World didn't think much of Han Fei's victory this time.

They even thought that it was too early for the Holy Child to jump out.

Some people also thought that since the Snow Lady had started to put this matter on the table, they had to use their backup plan!

"Let's go!" On the ship of the Supreme Clearness World, a king's order spread throughout all the ships.

Buzz!

The ships left the port and began to charge.

Swish! Swish! Swish!

Han Fei looked at the big ships in the void and thought to himself, if they aren't spaceships, what are they?

They were all king-level vehicles.

Every two hours, the ships would teleport about 12 times, which was about 8 million kilometers.

Five hours later, Han Fei was lying in his cabin with his eyes closed...

Suddenly, Han Fei opened his eyes.

The Tear of Mermaid on Han Fei's chest, which had never lit up, emitted a faint blue color.

Buzz!

Han Fei immediately sat up and widened his eyes. Is the Mermaid's Tear reacting? Is Xia Xiaochan nearby?

Han Fei appeared on the deck with a swish.

Just as he was about to sweep around with his perception, the Snow Lady said, “We’re almost at the Land of King Death.”

Han Fei secretly put away the Mermaid’s Tear. Yes, since he sensed Xia Xiaochan here, she must have participated in the exploration of the Land of King Death this time!

Since Xia Xiaochan was here, he would find her sooner or later.

At this moment, Han Fei suddenly became excited. There were too many barriers between the Yin-Yang World and the inner domain of the Raging Sea. But today, he finally came out. He was no longer a small fry who was only a Hanging Fisher. Now, he was comparable to a king.

On the other side, in an undersea shuttle-shaped divine ship, a delicate-looking girl in colorful clothes was sitting cross-legged and resting. On the girl’s shoulder, there was a round, dark red fat starfish with six tentacles lying motionless, as if it was sleeping.

“Huh?!”

Xia Xiaochan woke up instantly.

At that moment, she seemed to feel an inexplicable stirring in her heart, as if something important had appeared.

However, as soon as she opened her eyes, the feeling disappeared.

“Snore ~”

The big starfish hummed. “Are you asleep too? Why don’t we sleep at home? Why do we have to go to such a dangerous place? I’m not afraid, but I’m worried about your safety.”

“Shut up. If you continue eating and sleeping, you’ll become a sea pig.”

The big starfish immediately waved his tentacles and said, “That’s impossible. How can I be that kind of inferior creature? I’m a Venerable now. If I improve a little bit more, I’ll be an advanced Venerable.”

“Bah! If I hadn’t given you so many resources, how could you become a Venerable? You can’t fight, and your defense isn’t good... You must break through to the advanced Venerable realm in this trip to the Land of King Death. Otherwise, I’ll leave you in the Land of King Death for three hundred years.”

“No! I can’t stand that! But if you send ten clam girls to massage me every day, I can consider it...”

Slap!

Master Hexagon was stuck to the ground like a ball of mucus. Then, he reappeared on Xia Xiaochan’s shoulder.

At this moment, the cabin door was knocked, and someone outside said, “Princess Mingzhu, we’re almost at the Land of King Death. The two princes have been waiting for a long time.”

“Tell them to get lost.”

Xia Xiaochan got up and casually ran her hands through her hair, tying it with a red ribbon. She reached out and two black shadows appeared in her hands.

Xia Xiaochan's body was soon wrapped up by a layer of Black Scale Armor.

Boom ~

Xia Xiaochan, who was ready to go out, saw two young men. One was sitting on a chair, playing with pearls, and the other was leaning against the wall, fiddling with a dagger.

Instantly, Xia Xiaochan was furious. Her figure disappeared in an instant, and her blade was like a shadow.

Crack!

A cold light flashed past. The pearl in the hand of the guy playing with pearls was cut into two pieces, and the chair under him collapsed.

Xia Xiaochan pointed her knife at them. "Bai Muling, Situ Yuhong, you'd better disappear in front of me. Otherwise, I'll chop you up."

The guy playing with the dagger shrugged and said with a smile, "Mingzhu, we're going to the Land of King Death. There are many strong masters there. You haven't reached the Half-King Realm yet. How can you miss my protection? As for Situ Yuhong, you should get lost."

Situ Yuhong, who had just been knocked away by Xia Xiaochan, looked at Bai Muling unkindly. "Bai Muling, don't you know what bloodline you have? A hybrid born by a snake and a merman! How dare you talk nonsense here?"

"Situ Yuhong, are you courting death?"

For a moment, the two of them confronted each other, which annoyed Xia Xiaochan.

"Shut up, both of you."

At this moment, a white-haired old merman entered the cabin.

This person said, "Princess Mingzhu, this trip is dangerous. I asked you to participate to help you break through to the Half-King realm. Therefore, if you run away, I will tell King Dian, and a hundred-year grounding is not a joke."

"Humph ~"

Chapter 1753 Entering the Land of King Death

Ever since the Tears of Mermaid reacted, Han Fei was no longer in the mood to lie down. He couldn't wait to reach the Land of King Death.

Two hours later, when the fleet sailed into a place where the sea currents were abnormally turbulent, they finally stopped.

A group of people had already gathered here.

Among them, there were 32 Undersea Divine Boats of the Hundred Demon Race and 31 deep-sea ships of the Undersea Human Clan.

When the humans arrived, they immediately attracted the attention of a large number of kings.

When Ji Xuan saw these people, he snorted. "I was wondering who it was. Shi Pohuang, only six kings came this time. Do you Hundred Demon Race think that we humans don't dare to attack you or what?"

With that, he sneered. "Heavenly Centipede, I heard that you even detonated your Heavenly Centipede Staff in the outer sea a few days ago and disgraced the entire undersea human race... How dare you come to the Land of King Death today?"

Han Fei stood at the bow and recognized the old man named Heavenly Centipede was the guy fighting the Snow Lady for a long time in the violent hurricane.

How long had it been? This old man came to mess with the matter of the Land of King Death?

The Heavenly Centipede snorted. "Ji Xuan, don't gloat here. Ye Qinglong is coming soon. I'll see if you have the guts to challenge him!"

"Hmph! Ye Qinglong is Ye Qinglong, and you are you. Heavenly Centipede, when you're old, it's best to wait for death in your den... If you keep making a scene of yourself outside, you might not be able to return one day."

Shi Pohuang of the Hundred Demon Clan sneered. "Heavenly Centipede, why waste your breath on him? It's just a war of words. Ji Xuan, you humans only have 18 kings. How many kings do you guess the Merman Race will send over?"

Swish! Swish! Swish!

As soon as this person finished speaking, one divine ship after another appeared in the sea through void teleportation.

When eight kings arrived one after another, the sea demons finally surpassed the humans in the number of kings.

Among the eight kings of the Merman Race, one of them stood on the head of a big snake. Including this snake, there were nine kings of the Merman Race here.

The man was wearing a green robe and holding two maces. Seeing this, he couldn't help but glance at Ji Xuan and say, "I didn't expect you to lead the humans' team in the Land of King Death. It seems that Xuan Qingzi is really old."

el

Ji Xuan snorted. "You'll know if Master Xuan Qing is old or not the next time you see him. By the way, Ye Qinglong, I heard that you lost to Chun Huangdian a while ago... Did you surrender your title as the third strongest king of the Merman Race to him?"

Ye Qinglong raised his eyelids. "You can have a try if I did."

For a moment, everyone was at daggers drawn.

While the kings were challenging each other, Han Fei glanced at the merfolk.

When Han Fei saw a familiar figure with a red ribbon on her head and a big sea star on her shoulder...

Immediately, Han Fei's heart trembled and his breathing quickened.

The Snow Lady couldn't help but glance at Han Fei. "What's up?" Han Fei shook his head slightly. "I'm just amazed by the number of strong masters in the outside world."

The Snow Lady was speechless. If you dare to show your true strength now, no more than a hundred people under the king realm here would dare to fight you.

It wasn't surprising that Han Fei looked at the Merman Race. It could be said that all the people from the 36 Mystic Worlds were looking at the Merman Race's camp.

In the team of the 36 Mystic Worlds, someone even exclaimed, "Look, there's such a beautiful woman in the merman race. She put away her fins and looks exactly like a human being."

Someone said, "No matter how beautiful she is, so what? We can't be charmed by beauty! Besides, she is a mermaid."

Xia Xiaochan had long been used to these looks, so she ignored them.

However, when her glance swept through the crowd and passed Han Fei, she was slightly surprised. She felt that the masked guy's eyes seemed a little familiar, but his temperament was too cold.

Following Xia Xiaochan's gaze, Bai Muling said behind her, "This must be the new Heavenly Talent of the Snow God's Temple... I think his name is Xue Zhan, or something? It's said that he fought the Avenger named Han Fei to a draw... Heh, I think they're just two guys bragging for each other."

When Bai Muling mentioned Han Fei, Xia Xiaochan's body stiffened slightly, and she couldn't help but look at the endless sea.

In the past few days, she had been unusually short-tempered because Han Fei's name had reached her ears.

Xia Xiaochan wasn't sure. Who was the Avenger?

But she was a bit suspicious if it was really Han Fei.

After all, Han Fei was in the Yin-Yang World.

After learning about the history of the Raging Sea, Xia Xiaochan knew that the Yin-Yang World had disappeared for eighty thousand years.

Xia Xiaochan had asked around for a long time.

However, many people said that the Yin-Yang World had already disappeared entirely in the Wild Abyss.

The Wild Abyss was in the outer sea. Although Xia Xiaochan tried to sneak out several times, she was eventually caught back.

Logically speaking, Xia Xiaochan was strong enough now, but her identity was too special. Even among the merfolk, she rarely showed up.

This time, she was able to come out because Chun Huangdian agreed. Otherwise, Xia Xiaochan would still be cultivating in seclusion in the Merfolk Royal Family.

At this moment, Situ Yuhong said, "This person should have some strength. He was hidden by the Snow God's Temple for so many years, but he was released at this moment. Only a sea pig couldn't figure out why... Bai Muling, although he is an enemy, don't underestimate him."

Bai Muling snorted. "If I meet this person and take him down, you'll know that I'm not lying. Only someone as weak as you would care about him so much..."

When the two of them began to quarrel again, the Hexagon Starfish also turned his six big eyes in Han Fei's direction in confusion.

The Hexagon Starfish thought, Why do I feel that that person's gaze keeps passing me? Does he have designs on me?

Immediately, the Hexagon Starfish moved from Xia Xiaochan's right shoulder to her left shoulder, trying to avoid that person's gaze.

Of course, except for Xia Xiaochan and the other Heavenly Talents... On another ship, a mermaid looked at Xia Xiaochan coldly.

On the Snow God, Ice Snow Chuling said, "It seems that this time it will be more difficult than expected. There are as many as 20 famous strong masters from the Merman Race, the Undersea Human Race, and the Hundred Demons Race. Among them, Bai Muling, Situ Yuhong, and Jiao Xiaoxiao of the Merman Race are the most famous. Bai Li of the Hundred Demons Race, Shen You and Xiao Chen of the Undersea Human Race are also the top Heavenly Talents of their races. It is said that they are all Half-Kings with extraordinary strength. They even seem to have Sea Quelling Bizarre Treasures."

Ice Snow Chuling watched and talked, but she had only cultivated for a few hundred years. She didn't know many people, so she could only pick a few she knew and tell them to Han Fei.

But now, how could Han Fei listen to this?

Who cared which Heavenly Talent it was? He only saw Xia Xiaochan. As for the others, if they dared to block his way, he would just kill them.

The Snow Lady didn't explain to the two of them. After all, with Han Fei around, Ice Snow Chuling's safety was guaranteed. Besides, the keys of the Monarch Palace shouldn't be difficult for Han Fei to obtain.

The Snow Lady said, "There are too many tricks and traces of battle in the Land of King Death. Although tens of thousands of years have passed, some powers are very difficult to dissipate. The Dao runes will also remain. Therefore, be extremely careful. The four of you will eventually embark on the path of treasure hunting, but it's best to split into two groups. In this way, you can take care of each other and not be afraid of any danger."

The Snow Lady's meaning was very clear. She meant that Half-Kings and peak-level Venerables would be separated, and Han Fei could form a team with Ice Snow Chuling to protect her.

After all, the Snow Lady's hope had always been on Ice Snow Chuling.

Roar!

“Woo”

After a while, Ye Qinglong said, “It seems that no one from the giant beast race will come. In that case, let’s begin!”

The kings all nodded. No one wanted one more enemy in the Land of King Death. After years of exploration, there were already fewer and fewer resources inside. If they continued to explore, the resources here might be emptied in 10,000 to 8,000 years...

Therefore, this time, all the kings warned, “Don’t worry about how many treasures and opportunities you can get from it. As long as it’s an opportunity, you can take it.”

The Snow Lady said, “There’s basically no need to explore the ordinary secret realms in the Land of King Death. The great opportunities that can still be left can only be found in those dangerous places.”

As she spoke, the Snow Lady casually waved her hand, and 24 jade slips appeared.

The Snow Lady said, “This is a map of the Land of King Death. Not only us, but every party has it.”

After that, the Snow Lady said to Han Fei alone, “The life and death of a peak-level Venerable is up to fate. But please protect Chuling. If you’re not with her, you might not be able to save her in time, but you don’t have to worry. The previous deal remains unchanged. The keys to the Monarch Palace and the safety of Chuling are the most important.”

Han Fei replied, “I’ll keep my promise.”

At this moment, Ye Qinglong of the Merman Race, Ji Xuan of the Supreme Clearness World, the Heavenly Centipede of the Undersea Human Race, and Shi Pohuang of the Hundred Demon Race each took out a large bone, corresponding to their races.

The four bones shattered, and the power gathered in the air like spinning gravel or nebulae.

Immediately after, a circular cave appeared in front of everyone.

Chapter 1754: Treasure Hunting Is Not As Important As My Wife

The sizes of the secret realms might be different.

However, the way to enter a secret realm was similar. All big secret realms needed the strong to open them.

If someone opened it secretly, the others would definitely protest. That way, a war would easily break out.

This Land of King Death was just a slightly larger secret realm. Was it dangerous? It was unknown.

Perhaps because there were too many dangerous places in this small world, they were not randomly teleported when they entered the secret realm.

When Han Fei and Ice Snow Chuling brought a group of 24 peak-level Venerables into this world, Han Fei’s first feeling was shockness.

The seawater here was bone-chilling, the death energy here was unbelievably dense, and the spiritual energy here was abundant... In short, this was a place suitable for the strong to survive, but definitely not for the weak.

A group of people from the Undersea Human Race came in with Han Fei.

However, when the two sides entered, there was no battle.

Everyone tacitly changed directions and explored the depths of the secret realm.

At this moment, everyone took out their jade slips, and the peak-level Venerables all bowed to Han Fei and Ice Snow Chuling. "Master Holy Child, Master Holy Lady, we're leaving."

Ice Snow Chuling said, "Remember, you only have one month. You must go back in one month. Otherwise, if you stay here without a king to open the passage, you will die. So far, no one has been able to cultivate here for a hundred years... No one can stay here for long in the last tens of thousands of years. You should know the meaning of this!"

"Understood!"

Everyone agreed and scattered like streaks of light.

After all, these people were at least peak-level Venerables, and none of them were mortals.

Most of these people also believed that opportunities should be gained by themselves. This was a principle!

Everyone had fought their way through mountains of corpses and seas of blood. There was no reason for them to escape at this point, right?

On the other side, the actions of the underwater humans were similar to those of the Snow God's Temple.

Han Fei and a member of the Undersea Clan looked at each other inadvertently. There were still five Half-Kings left, but they didn't attack.

Clearly, their reaction was the same as the Snow God's Temple.

Everyone was here to search for treasures and the keys to the Monarch Palace. It didn't make sense for them to fight before seeing the keys and treasures.

The Raging Sea was different from small places like the Yin-Yang World and the Water-Wood World.

The area of a Heavenly Palace was only so big.

One would meet his enemies sooner or later. When his strength rose to a certain level, he would inevitably encounter his enemies frequently. Naturally, there would be no lack of battles.

As a result, in small places like the Yin-Yang World and the Water-Wood World, the hatred grew deeper and deeper.

However, in the Raging Seas, humans had many enemies, but they didn't become weaker. The sea demons couldn't eat any Heavenly Palaces, and not even the pirates. After all, the pirates were also powerful and rampant.

Therefore, although humans and sea demons were enemies, in the Raging Sea, only when they competed for treasures would they really fight...

As for the wars that broke out all year round, there were none.

Due to the various terrifying dangers in the Rang Sea, many more people died in the sea every year than in the war.

When only Han Fei and the other three were left, Ice Snow Chuling said to the two Half-Kings, "Chu Yang, Qin Yu, you two go together. Remember, your life is more important than the key to the Monarch Palace, understand?"

The two men nodded slightly. "Understood! Don't worry, Holy Lady. We know what to do."

Their arrangement was actually very fast. As soon as the two Half-Kings left, more people came in one after another.

Han Fei and Ice Snow Chuling looked at each other and decided to find a place to explore first.

And Han Fei didn't want to start fighting too early. Even if these people weren't poor, they certainly didn't have the keys to the Monarch Palace. He didn't care about them at all.

Swish ~

The two of them tore through the void. After flying for more than 200,000 kilometers, they arrived above a sea of flowers filled with more than 30 kinds of flowers.

Han Fei glanced around and asked, "Is this thing related to the Hundred Flowers World?"

Ice Snow Chuling shook her head slightly. "I don't know. According to the highest five-star difficulty recorded in the jade slip, there are only two stars in this place. Besides, there are notes about being careful of sword intent..."

Buzz!

Without a word, Han Fei fused with Little Black and Little White. In order to hide their identities, they hadn't come out for a long time.

At this moment, when he looked with his Yin-Yang Divine Eyes, Han Fei immediately saw that something was wrong.

What surprised Han Fei was that in the sea of flowers, a large amount of power was gathering in one place.

Han Fei traveled more than 600 kilometers in one step and found the source of the sea of flowers. Among the thousands of flowers, there was a palm-sized red flower.

Han Fei didn't care, but he felt that the flower was a bit unusual.

Han Fei reached out intending to pick it when a huge amount of grass blades suddenly flew up. There were hundreds of millions of them.

Swish! Swish! Swish!

The tens of millions of streaks of sword Qi almost penetrated Han Fei's palm.

Seeing this, Han Fei stomped and activated a series of arrays. The Coiled Turtle Array instantly protected Ice Snow Chuling.

Information popped up in Han Fei's eyes.

<Name> Sword Grass

<Introduction> A strange demon plant born after being injected with a large amount of sword energy and vitality. Where the sword grass grows, it will take the initiative to hunt all the creatures that pass through the Sword Grassland to provide nutrients for itself. Sword fruits will be born in the center of the Sword Grassland, and one can comprehend sword intent after eating them.

< Level > 85

< Chaotic Qi Contained > 12 wisps

<Effect> Armor piercing, unlimited

<Collectible> Sword Fruit

<Absorbable>

Han Fei was slightly stunned. As expected of the Land of King Death that hadn't been opened for a hundred years! Even this place with two-star difficulty could provide 12 wisps of Chaotic Qi... And a spiritual fruit like the Sword Fruit could be born! It was really rare.

Buzz!

Han Fei flicked his finger, and the Infinity Water floated out.

In an instant, ten thousand knives swept across.

Han Fei landed in the middle of the grassland, letting the sword grass hit him.

When Ice Snow Chuling saw this scene, she didn't know what to say. Although these grass leaves weren't that powerful, there were so many of them!

It was not easy to withstand such a huge amount of sword Qi.

But Han Fei was plucking the flower with his bare hands.

The moment Han Fei extended his hand, the little flower drilled into the ground and seemed to want to escape.

However, would Han Fei let a flower escape? The Void Lines had been prepared. The moment the flower retreated, Han Fei grabbed it.

Han Fei dragged, and a huge radish-like plant drilled out of the ground.

On the root of this creature hung a sword-shaped spiritual fruit that was about the size of a finger.

Han Fei grabbed the Sword Fruit without hesitation. The Chaotic Qi of the remaining big radish was being absorbed by Han Fei.

Ice Snow Chuling: "This must be the Sword Grass. I've heard about it from the people of the Hundred Flowers World, but I've never seen it. It turned out to look like this."

Han Fei held the big radish and said, "This place only has two-star difficulty. This radish... uh, the power of this grass has reached the intermediate Venerable realm. The three-star difficulty should correspond to the peak of the advanced Venerable realm. The four-star difficulty corresponds to the peak of the Venerable realm at least. Excluding the dangerous places below four-star on the map, there are still..."

Ice Snow Chuling immediately added, "102 places."

Han Fei frowned and said, "There are still too many of them. This time, even the weakest who came are peak-level Venerables. If we're here for the four-star dangerous places, there's no need for Half-Kings to come. Therefore, we should exclude the four-star danger zone too."

This time, Han Fei didn't need Ice Snow Chuling to tell him the result. "Twelve places left."

Han Fei said, "It seems that the opportunities we're looking for are all in these twelve five-star dangerous places... Hey, wait, what does the black spots on the map mean? There are three on this map."

Ice Snow Chuling: "These are forbidden places. I heard from my senior brothers that it's very difficult to survive in the forbidden places in the Land of King Death."

Han Fei sneered. "What's so difficult about it? If this place is already difficult, do you still want to challenge the Monarch Palace in the future?"

Ice Snow Chuling frowned slightly. "Are we going straight to the forbidden places?"

Han Fei pondered for a moment and suddenly said, "Wait a moment."

Buzz!

Another clone appeared beside Han Fei.

Han Fei took off the mask on his face, pressed it on the projection's face, and smiled. "I'll send a Half-King projection to go to the five-star dangerous places with you."

Ice Snow Chuling was surprised. "Where are you going?"

Han Fei: "I have things to do. Don't worry. If everything goes well, you will find out."

Han Fei's projection clone was in the Half-King Realm.

Ice Snow Chuling felt that this Half-King projection should be able to kill a Half-King easily. This projection didn't seem to be any different from Han Fei.

She more or less knew what Han Fei had promised the Snow Lady.

She knew that Han Fei was not a petty person. Since he said that he had something to do, he definitely had something to do.

Besides, there were only 12 five-star perilous places and only three forbidden places. A month was enough for him to visit many times. It was impossible for Han Fei to never return.

Han Fei's original body stepped into the void.

In his hand, the Vast Ocean Navigator pointed in a direction.

Han Fei murmured, "Treasure hunting is not as important as my wife."

Chapter 1755: Start of a Massacre

Han Fei and Ice Snow Chuling explored a random dangerous place first to avoid encountering a large group of people in the beginning.

If there was a conflict, should he fight or not?

If he fought, other than getting some ultra-quality spirit stones and spiritual fruits, there seemed to be no other benefits.

If he didn't, the contradiction was there.

For Han Fei, he didn't care about the hatred between humans and sea demons at all. So what if he was a human? So what if he was a sea demon? Besides, the merfolk's bloodline shouldn't be low. What was there to care about?

As soon as the game started, Han Fei was already prepared for how to appear in front of Xia Xiaochan.

Appearing out of nowhere, stepping on colorful clouds?

Taking Xia Xiaochan away by force?

Catch her off guard and give her a pleasant surprise?

Buzz!

After all, he had just entered the Land of King Death. Its area was very large, nearly eight million kilometers wide, equivalent to the territory of the Yin-Yang World.

Therefore, it would take some time to find Xia Xiaochan.

However, although the place was very big, this was the Land of King Death after all. Everyone did not come here to play, but to search for treasures and opportunities. Therefore, they were only going to several fixed places.

Two hours later, Han Fei arrived at a canyon at lightning speed. There was gravity in the canyon, and there were large knife marks on the cliff.

As soon as Han Fei entered, he felt gravity on him, and an overwhelming pressure came.

“Hmph! It’s just a two-star danger zone. It’s just some remnant aura. You want to touch me?”

Han Fei grabbed the void and drew out his saber. Holding the huge void crack in his hand, he swept it across the cliff, and the invincible saber intent directly clashed with the original saber intent.

As for the pressure above his head? Han Fei stepped on the seabed and punched the ground. Dust flew everywhere, and the gravity pressure in this space was instantly shattered by Han Fei.

After Han Fei came to this dangerous place, he only attacked twice but had destroyed this dangerous place. The Land of King Death had been opened countless times before Han Fei came, but this place didn’t collapse. It could be seen how destructive Han Fei was now!

The old turtle asked, “Are you looking for someone? The Land of King Death will be open for a month! Most people must be on their way!”

Han Fei nodded. “I was so happy that I forgot about it.”

Buzz!

With a thought, Little Black and Little White appeared in the canyon.

Han Fei asked, “Daughter, do you still remember the smell of your mother?”

Little White rolled her eyes. “Yes! I smelled it...”

Han Fei was overjoyed. “Quick, take Daddy there.”

But Little White suddenly turned around.

She quickly swam 30 kilometers away. Dust was flying everywhere here, and the ground was cracked by Han Fei’s punch.

Little White wandered around the crack and then looked at Han Fei. “Daddy, there’s something here.”

Han Fei was slightly surprised. There’s something? I just casually punched it, and it could produce something?

Han Fei immediately remembered the Nine-Tailed Mantis Shrimp.

That digging expert had been left in the Yin-Yang World by him... He wondered how strong he was now. The Corpse Nurturing Ground was abnormally rich in energy. When he returned, if those people didn’t increase by five levels... he would kick them to death.

At this moment, Han Fei casually waved his hand, and the Infinity Water turned into thousands of blades and activated the excavation mode. Of course, in terms of appearance, it was like a drilling machine, spinning down.

After digging for more than 20 kilometers, he finally found a dark stone.

“Huh!”

The Demon Purification Pot didn't show any information, but the old turtle said, "This is a piece of black origin magnet, which is used to refine Sea Quelling Bizarre Treasures. However, it can only be refined into low-quality Sea Quelling Bizarre Treasures. It's a good thing here."

Han Fei asked in confusion, "Why do I feel that there's a special aura on it? Is there something wrong with this stone?"

The old turtle pondered for a moment and said, "I'm afraid this is one of the keys to the Monarch Palace they said..."

Han Fei's eyelids twitched and he said in shock, "Ahem, what the hell? Is this brick a key?"

The old turtle said, "If I'm not wrong, the brick was only stained with a trace of Dao runes, and the things stained with the Dao runes are keys. Therefore, you sensed something wrong at first glance. This reminds me of something."

"What is it?"

The old turtle said leisurely, "It seems that the real strong masters, such as the strongest emperors and monarchs, prefer to build palaces with black origin magnets... The palaces built with them are symbols of status. Even kings find it difficult to break such palaces."

Han Fei was speechless.

Han Fei was stunned for a long time. "So, you're telling me... I dug up a brick of the Monarch Palace?"

"I'm afraid so."

Han Fei: "..."

Han Fei was silent for a moment and weighed it. This brick was at least seven or eight thousand kilograms.

Han Fei casually threw the black origin magnet into Forge the Universe and muttered, "The monarchs are really extravagant. How many Sea Quelling Bizarre Treasures will I have to dig up to build a Monarch Palace?"

The old turtle: "..."

Han Fei subconsciously got a "key".

At this moment, he remembered that Little White was a genius treasure hunter. With Little White around, he could easily find the keys to the Monarch Palace.

Suddenly, Han Fei sensed that a small team of a hundred demons appeared.

There was a squid, a lobster, and a Giant Flag Fish in the three-man team. They were all peak-level Venerables.

When he saw the three of them, Han Fei cursed, "I'm just looking for my wife... What a coincidence that I ran into them! Forget it... it's not too late to set off after solving these three."

Han Fei didn't realize that this was just the beginning, and everyone had the same starting point. Wasn't it normal to be discovered here?

Han Fei concealed his aura and waited for a moment. Then three figures appeared in the canyon with swishes.

When the three of them arrived, the lobster said, "We were a step late. The dust here is still rising and falling, which means that there was someone here just now."

The Giant Flag Fish wagged its tail and said, "Alright, it's just a two-star danger zone. Even if we dig, we might not find anything good..."

"Puff ~"

The Giant Flag Fish was still talking when suddenly, a cold light flashed in the void. It was so fast that he didn't even have time to escape. In the next moment, his head was gone.

"Who is it?"

"Run ~"

The squid reacted quickly.

Black ink instantly dyed the land within a hundred kilometers black.

In the area covered by the black fog, poisonous liquid was corroding Han Fei's body. Besides, there was nothing but black fog here. Even Han Fei's speed became much slower.

However, the moment the squid ran away, Han Fei had stabbed the lobster into pieces and released the Void Lines.

BAM!

The squid was shocked. It must be a Half-King and seems to be a human hunter.

Although the characteristics of the five major professions became less and less obvious after reaching the Venerable realm, the main abilities of hunters, such as stealth, were still extremely strong.

Who could withstand such a sneak attack?

The squid was like a shuttle, instantly breaking through the black fog and appearing a hundred kilometers away. It even looked back and saw that the lobster had not come out, so it knew that the lobster was probably killed.

However, just as it tore open the void and was about to escape, it saw a cold light reflected in its pupils.

"Chi la ~"

After the squid was cut into two pieces, Han Fei's figure slowly descended from the void and murmured, "Well, the Void Descending Art ignores the domain. It seems that this art is much better than I imagined!"

A moment later, when Han Fei's original body walked out of the black fog, dragging two blackened corpses, he thought to himself, It's a pity that two delicious meals were poisoned.

After swallowing the three peak-level Venerables in thirty seconds, Han Fei slowly swam deeper into the Land of King Death.

...

An hour later, before Han Fei found Xia Xiaochan, he saw a golden skeleton dragging a long knife and flipping bones in front of a skeleton.

The one who died was a human. Han Fei had no impression of this person, but he was strong and half of his body had turned golden.

This scene surprised Han Fei. A body cultivator was killed?

Han Fei quickly approached and was about to see what this skeleton was when the skeleton suddenly turned around.

Immediately after, the skeleton slashed out with a whoosh. The bone knife in its hand was still dripping with blood. This slash was followed by dozens of void cracks.

"I'm tricked?"

Han Fei was a little surprised. He didn't sense anyone else!

At this moment, a blood-colored door appeared out of thin air.

Out of the door, a skinny young man sneered and charged out. Beside him were two half-golden skeletons.

Seeing this person, Han Fei immediately knew where he was from.

The Mad Corpse World of the thirteen worlds in the outer domain.

There was another black-robed man here who could open a special spatial door... He wondered which world he was from.

However, no matter which world he was from, he was also a Half-King. But so what? The moment these two people dared to attack Han Fei, they were destined to die.

Roar!

The Hundred Beast Soul Devouring Technique burst out without warning. Han Fei shouted in a low voice, "How dare you pathetic skeletons mess with me?"

Bang! Bang! Bang!

Han Fei's strength suddenly rose to an extremely strong level. After three consecutive punches, the three skeletons exploded along with their knives.

"Not good!"

The first reaction of the skinny young man and the black-robed man was to run.

Where the hell did this guy come from?

The corpses in the peak-level Venerable realm couldn't even withstand a punch from him? Even the bones were shattered? With this strength, it could be determined that he was at least a Half-King!

But even a Half-King shouldn't be so strong!

Chapter 1756: Dao Devouring Demon Bug

It was always Han Fei who ambushed others.

Han Fei was rarely ambushed by others!

He didn't know what the blood-colored door was... It could completely conceal the user's aura. Perhaps he could study it!

Seeing that the two of them were about to run, how could Han Fei let them go?

Han Fei immediately shouted, "All laws forbidden in this space."

With this, a blood-red fog instantly collapsed.

In horror, the skinny young man waved his hand and shook out a corpse.

This time, it was no longer a skeleton, but a real corpse.

Information popped up in Han Fei's eyes.

<Name> Blood Zombie

<Introduction> With the corpse of a Half-King as the material, nurtured in a blood pool, and refined with a murderous flame for 800 days. The Blood Zombies are extremely powerful, unconscious, and fearless of death. As long as there is enough Chaotic Qi, they can fight endlessly.

<Remarks> When the blood zombie's power is exhausted, it won't move.

Han Fei smiled disdainfully when he saw the message.

No wonder the Mad Corpse World could only stay in the outer domain...

If the people of this Heavenly Palace wanted to become stronger, they needed a large number of strong cultivators' corpses... They also needed the Chaotic Qi to control the corpses.

However, the corpses of strong cultivators and the Chaotic Qi were not easy to obtain! If they could not kill their opponents, they would have wasted a lot of resources.

Buzz!

The moment the blood zombie attacked, Han Fei's fist flashed red and he threw out the Sacrificing Punch, sending the blood zombie flying a hundred kilometers away.

Within a thousand kilometers, the seawater had already churned, and the Blade Inferno had already opened. Long dragons of saber energy rushed towards that person.

Holding the Embroidery Needle, Han Fei grinned and cast the Monkey King's Three Thousand Sticks.

Bang! Bang! Bang!

Clang! Clang! Clang!

"Puff ~"

In less than a minute, the peak-level Venerable of the Mad Corpse World was killed by Han Fei, and the Blood Zombie didn't even have a chance to save him. A wisp of his soul tried to sneak into the corpse, but it was caught by Han Fei's Void Lines.

The other black-robed man's face changed drastically. How could he have expected to encounter such a tough guy?

Logically speaking, as long as they did not encounter more than two Half-Kings, the two of them would not lose at all...

Therefore, at the beginning, they didn't even plan to fight themselves. They had the same idea as Han Fei. They just wanted to snatch the fruits of others' labor.

Although no one had found the keys to the Monarch Palace in the beginning, they couldn't stop hunting when they encountered people.

However, this was only their second hunt, and they encountered a tough opponent.

"Who are you?"

Han Fei waved his rod and waves surged.

The black-robed man suddenly lifted the black robe on his body, and the black robe turned into endless death energy. From the death energy, a huge undead creature made of countless bones emerged.

"Hmph! Undead creature, are you from the Nether World?"

At this moment, Han Fei stopped hiding and unleashed all his strength.

On the Embroidery Needle, golden light shone brightly, and the rod was as heavy as a sea.

The moment the hundred-meter-long giant skeleton touched the rod shadow, its entire body began to crack.

Ka ka ka ~

In the blink of an eye, the Nether World's great summoning technique collapsed.

In Han Fei's eyes, a young man solemnly formed a seal with his hands. "Death Tide."

The boundless death energy was gathering, and Han Fei was surrounded by it.

However, Han Fei simply activated the Ancient Desolate War Body.

The death energy entered his body and was instantly purified.

Therefore, the powerhouse from the Nether World saw a figure approaching in the boundless death aura.

"Impossible! If you don't cultivate death energy, how can you not be affected?"

When Han Fei walked out of the death energy, a spear shadow pierced through the powerhouse of the Nether World, and the Void Lines grabbed him.

Han Fei said casually, "Do you want to know? But I won't tell you..."

After killing the two of them, Han Fei took out two Sun-Moon Shells from them. As for the corpses, Han Fei was too lazy to collect them.

With a flash between Han Fei's eyebrows, Little Black and Little White appeared. Han Fei said, "Daughter, let's catch up. We must catch up with your mommy today."

Little White nodded and began to swim faster.

However, Little White had not become a Venerable yet, so her speed was still limited.

According to Little White's direction, Han Fei looked at the map and eliminated the dangerous areas under five stars.

There was a five-star danger zone in this direction.

Moreover, not far from this dangerous place, or to be exact, next to it, there was a forbidden place.

Han Fei narrowed his eyes. Xia Xiaochan's identity was not ordinary. Just now, she appeared on the big ship of the leader of the Merman Clan, and there should be strong masters protecting her.

Ordinary danger zones would definitely not catch her eye!

Therefore, Han Fei recalled Little Black and Little White and sped away at full speed.

In the Land of King Death, what was dangerous was not the special creatures here... but these dangerous places.

After tens of thousands of years of exploration, most of the dangerous places were flattened and hollowed out. There were only a few dangerous places left that were truly dangerous.

The fact that these danger zones had yet to be cleared could only mean that they were very dangerous, so no one had been able to clear them in the past tens of thousands of years.

Han Fei was almost certain that except for the dangers in the five-star perilous lands and the forbidden places, the Land of King Death would not cause any deaths for peak-level Venerables or Half-Kings.

The real deaths were most likely caused by races fighting and hunting.

Buzz!

A moment later.

Han Fei landed at the entrance of an underwater cave on an abyss cliff.

At this time, after Han Fei released Little White, Little White immediately said, "Daddy, it's dangerous. However, Mammy seems to be inside."

Han Fei grinned. "That's right. Today, even if we have to go through mountains of knives and seas of fire, we must enter it."

Retracting Little Black and Little White, Han Fei stepped into the cave without hesitation.

Undersea caves were usually mysterious, deep, and scary.

In the past, such a place would definitely attract the exploration of many brave adventurers.

As soon as Han Fei entered, he saw a green light.

In his vision, there were stalactites covered in green seaweed and towering stone forests everywhere.

Swish! Swish! Swish!

Han Fei approached the cave and saw sword shadows appearing around him.

Those sword shadows turned into lines of strange runes and disappeared into the stalactites without hitting anyone.

The old turtle said, "It's a killing array."

Han Fei said, "I can tell. I'm just curious. We're not the first ones here, but there doesn't seem to be any traces of destruction here. Logically speaking, such a killing array will definitely destroy the environment in this cave."

Just as Han Fei asked this question, a white current jumped out of the depths of the cave.

Han Fei dodged to the side, only to see that this thing exploded with a bang and turned into flying silk, trying to touch Han Fei.

Buzz!

The arrays under Han Fei's feet were activated, and the Great Coiled Turtle Array instantly rose.

Clank, Clank, Clank ~

Clang! Clang! Clang!

A massive amount of rune sword intent instantly bombarded the Great Coiled Turtle Array.

Han Fei roared, "Fuse!"

Then he immediately found that something was wrong here.

There weren't any stalactites at all, but broken walls, and the ground and broken stone pillars were covered with all kinds of green glowing worms...

"F*ck!"

Han Fei couldn't have felt worse. He had entered an illusion as soon as he came in! If he hadn't felt something wrong, those insects would have crawled all over his body.

The so-called rune sword intent was actually an attack launched by those worms after they swallowed the sword intent.

"Hmph!"

Han Fei extended his hand, and the Infinity Water turned into small knives as long as a finger.

In an instant, it turned into tens of thousands, hundreds of thousands... and spun rapidly in this space.

Han Fei stood in the storm of blades and walked forward. Wherever he passed, everything was minced.

After walking for more than ten kilometers, there were as many as seven or eight caves that led in different directions.

Han Fei released his perception, but he immediately felt a numbing sensation.

Han Fei said, "The worms here can swallow perception... and hurt the soul."

With that, Han Fei extended the Void Lines and caught a fluorescent green worm in front of him.

Information popped up in Han Fei's eyes.

<Name> Dao Devouring Demon Bug

“Hiss ~”

Han Fei gasped after reading it.

This was the first time he had seen an ancient mutant insect. But the point was that this insect could simulate the power of any Great Dao... Its reproduction speed was so fast that it could be called indestructible! Then how strong was this thing?

The old turtle was also surprised. “These seem to be ancient demonic insects, right? Let me tell you, there aren’t many good things among ancient demonic insects. When there are too many of them, even emperors have to avoid them.”

Han Fei stood still and sensed.

Through Little White’s sharp perception, he finally chose a cave and entered it.

Han Fei said, “Then I should be glad that I’m not in ancient times...”

There was a five-star danger zone in this direction.

Moreover, not far from this dangerous place, or to be exact, next to it, there was a forbidden place.

Han Fei narrowed his eyes. Xia Xiaochan’s identity was not ordinary. Just now, she appeared on the big ship of the leader of the Merman Clan, and there should be strong masters protecting her.

Ordinary danger zones would definitely not catch her eye!

Therefore, Han Fei recalled Little Black and Little White and sped away at full speed.

In the Land of King Death, what was dangerous was not the special creatures here... but these dangerous places.

After tens of thousands of years of exploration, most of the dangerous places were flattened and hollowed out. There were only a few dangerous places left that were truly dangerous.

The fact that these danger zones had yet to be cleared could only mean that they were very dangerous, so no one had been able to clear them in the past tens of thousands of years.

Han Fei was almost certain that except for the dangers in the five-star perilous lands and the forbidden places, the Land of King Death would not cause any deaths for peak-level Venerables or Half-Kings.

The real deaths were most likely caused by races fighting and hunting.

Buzz!

A moment later.

Han Fei landed at the entrance of an underwater cave on an abyss cliff.

At this time, after Han Fei released Little White, Little White immediately said, "Daddy, it's dangerous. However, Mammy seems to be inside."

Han Fei grinned. "That's right. Today, even if we have to go through mountains of knives and seas of fire, we must enter it."

Retracting Little Black and Little White, Han Fei stepped into the cave without hesitation.

Undersea caves were usually mysterious, deep, and scary.

In the past, such a place would definitely attract the exploration of many brave adventurers.

As soon as Han Fei entered, he saw a green light.

In his vision, there were stalactites covered in green seaweed and towering stone forests everywhere.

Swish! Swish! Swish!

Han Fei approached the cave and saw sword shadows appearing around him.

Those sword shadows turned into lines of strange runes and disappeared into the stalactites without hitting anyone.

The old turtle said, "It's a killing array."

Han Fei said, "I can tell. I'm just curious. We're not the first ones here, but there doesn't seem to be any traces of destruction here. Logically speaking, such a killing array will definitely destroy the environment in this cave."

Just as Han Fei asked this question, a white current jumped out of the depths of the cave.

Han Fei dodged to the side, only to see that this thing exploded with a bang and turned into flying silk, trying to touch Han Fei.

Buzz!

The arrays under Han Fei's feet were activated, and the Great Coiled Turtle Array instantly rose.

Clank, Clank, Clank ~

Clang! Clang! Clang!

A massive amount of rune sword intent instantly bombarded the Great Coiled Turtle Array.

Han Fei roared, "Fuse!"

Then he immediately found that something was wrong here.

There weren't any stalactites at all, but broken walls, and the ground and broken stone pillars were covered with all kinds of green glowing worms...

"F*ck!"

Han Fei couldn't have felt worse. He had entered an illusion as soon as he came in! If he hadn't felt something wrong, those insects would have crawled all over his body.

The so-called rune sword intent was actually an attack launched by those worms after they swallowed the sword intent.

"Hmph!"

Han Fei extended his hand, and the Infinity Water turned into small knives as long as a finger.

In an instant, it turned into tens of thousands, hundreds of thousands... and spun rapidly in this space.

Han Fei stood in the storm of blades and walked forward. Wherever he passed, everything was minced.

After walking for more than ten kilometers, there were as many as seven or eight caves that led in different directions.

Han Fei released his perception, but he immediately felt a numbing sensation.

Han Fei said, "The worms here can swallow perception... and hurt the soul."

With that, Han Fei extended the Void Lines and caught a fluorescent green worm in front of him.

Information popped up in Han Fei's eyes.

<Name> Dao Devouring Demon Bug

<Introduction> An ancient mutant ancient insect that can devour the Great Dao and imitate the power of the Great Dao. It's extremely rare. The Dao Devouring Demon Bug has an extremely strong reproduction ability. As long as the Great Dao is not destroyed, the Demon Bug will not be destroyed.

<Level> 83

< Quality > Ancient Mutant

<Sword Intent> A wisp

< Edible Effect > Inedible

<Collectible> Uncollectable

<Absorbable>

<Note> The Dao Devouring Demon Bug can simulate the power of any Great Dao.

“Hiss ~”

Han Fei gasped after reading it.

This was the first time he had seen an ancient mutant insect. But the point was that this insect could simulate the power of any Great Dao... Its reproduction speed was so fast that it could be called indestructible! Then how strong was this thing?

The old turtle was also surprised. “These seem to be ancient demonic insects, right? Let me tell you, there aren’t many good things among ancient demonic insects. When there are too many of them, even emperors have to avoid them.”

Han Fei stood still and sensed.

Through Little White’s sharp perception, he finally chose a cave and entered it.

Han Fei said, “Then I should be glad that I’m not in ancient times...”

Chapter 1757: Six Gates Heaven Sealing

The danger of a five-star danger zone was no joke.

Countless Dao Devouring Demon Bugs!

Who knew how their strength grew? But no matter what, this place was filled with a large amount of sword qi.

This was because these Dao Devouring Demon Bugs contained wisps of sword intent in their bodies. This could only mean that the Great Dao of Sword in this cave was very strong.

When Han Fei entered about fifty kilometers into the second cave, a large forest of stalactites appeared, which was no longer an illusion.

However, some dark green liquid always emerged from the tips of these stalactites.

After Han Fei arrived at the stone forest, the Six Spirit Armor outside his body was melting at a speed visible to the naked eye. It could be seen that the surrounding seawater was terribly corrosive.

With Han Fei’s current strength, no one in the same realm dared to say that they could break an array Han Fei set up easily. However, under the corrosion of the seawater, the arrays couldn’t resist it at all!

Buzz!

Han Fei activated a spiritual energy protective cover.

This kind of continuous corrosion had to be handled with continuous defense.

For Venerables, a spiritual energy protective cover could last for a long time. Therefore, this corrosive liquid couldn't hurt Han Fei at all.

After walking for about a hundred kilometers, Han Fei suddenly discovered that there were traces of battle here. This battle caused a large area of the nearby caves to collapse, blocking the way.

Han Fei sensed it and said solemnly, "An extremely strong saber intent once swept this place, as well as terrifying fist forces and sword intent. It seems that a great battle happened here."

The old turtle said, "At least ten people were fighting here."

Han Fei frowned slightly.

Han Fei knew that the various races and forces had sent many Half-Kings over this time. He had discussed the purpose of these Half-Kings with Ice Snow Chuling before. Their goal was at least these five-star danger zones.

However, there were only 12 five-star danger zones in total.

However, 25 worlds of the Thirty-Six Mystic Worlds had come. Even if there were only two worlds in each danger zone on average, there were at least three forces in this danger zone.

If the hundred demons and the underwater humans were also here... there would be at least five forces here.

Han Fei's heart sank. It would be fine if Xia Xiaochan encountered the Hundred Demons Clan or the Undersea Human Clan... However, if she encountered humans, a big battle was inevitable.

The Infinity Water spun like a storm and began to dig a passage among the rocks.

However, after digging, Han Fei realized that these stones were not ordinary seabed rocks.

However, it made sense. If these were normal sea rocks, this so-called five-star dangerous land would have collapsed long ago. It was impossible for it to last until now.

In Han Fei's opinion, the strength of the stones here was enough to refine high-quality or even ultra-quality divine weapons.

"No wonder they can withstand the power of the Half-King level."

The stones themselves might not be able to withstand the bombardment of a Half-King.

However, they formed a mountain, an earth vein, and a cave. Who knew how thick the outer wall of this cave was? Even a Half-King couldn't directly collapse this mountain.

Han Fei was digging with the Infinity Water and collecting the stones at the same time to accelerate the excavation.

...

While Han Fei was digging, in the depths of the cave, in a small city that looked like an underground palace, a shocking battle broke out.

The two sides of the battle were a team of five led by Xia Xiaochan and a team of ten human experts.

However, on a closer look, these ten people were wearing the same clothes. Moreover, the strength displayed by these ten people was all in the Half-King Realm.

Swish! Swish! Swish!

Xia Xiaochan was flying and flashing.

In the underground palace, shadowless blades were flashing and attacking, and shadows were flowing. Three Half-Kings were attacking Xia Xiaochan.

Ding ding ding!

Clang! Clang! Clang!

Xia Xiaochan didn't retreat just because the other party had more people. As soon as she entered the Land of King Death, she was targeted. This group of people could even find her directly...

Clearly, the other party's target was her from the beginning.

At this moment, Xia Xiaochan roughly knew who wanted her dead.

Therefore, at this moment, she was extremely angry and the speed of her daggers became faster and faster.

However, among those who hunted her, one walked the Dao of speed, one walked the Dao of soul attack, and one walked the Dao of gravity.

If it weren't for Xia Xiaochan's unreasonable ability to flash infinitely and the Shadow Shrimp's shadow power, she would have been defeated long ago.

However, it didn't mean that Xia Xiaochan could win.

If she only faced one of them, she could exhaust him to death. More likely, she could kill him. However, the Great Dao of these three people was clearly aimed at her.

They were trying to suppress her from attacking.

Bang!

In order to cut off the head of one of them, Xia Xiaochan was crushed by the Great Dao of Gravity. In an instant, she lost her balance and was about to flash away... when she was slapped in the back by the extremely fast Half-King.

"Puff ~"

Swish! Swish! Swish!

More than 30 Xia Xiaochans suddenly appeared in the underground palace. They were trying to buy time to hide her original body.

Boom ~

Xia Xiaochan squatted on the ground and appeared 3,000 meters away.

Next door, Bai Muling roared, "How dare you hurt our princess? I'm gonna kill you!"

Bai Muling roared, and with a buzz, her body turned into a White-Scaled Dragon Python. He swung his huge tail and directly sent a Half-King flying.

At this moment, a human expert sneered, "Bai Muling, a member of the merfolk royal family. We're just waiting for you to transform."

Chi la!

A human expert sneered and threw out a mark.

In the next moment, True Dragon Qi erupted.

"Pfft!"

Bai Muling instantly spat out a mouthful of blood and said in horror, "You're from the Dragon-Subduing World? No, the power of the Azure Dragon in the Dragon-Subduing World isn't so strong! This is bloodline suppression, and it's actually the power of a dragon in the sea establishment realm?"

After Bai Muling was injured, a person beside him was also affected by the dragon might.

However, that person was not as strong as Bai Muling. Two human Half-King attacked him with two demonic spikes that contained strange power.

Of these two spikes, one killed his physical body and the other killed his soul. The Half-King sea demon was instantly killed.

Situ Yuhong shouted, "No! They are not from the Thirty-Six Mystic Worlds. Princess, don't care about us. Run!"

The people guarding Xia Xiaochan all understood one thing. In a corner of this world, there was an extremely powerful family that wanted Xia Xiaochan's life.

This was why Xia Xiaochan was forced to cultivate in the mermaid royal family until now. Only by becoming stronger could she resist the pursuit of those people.

However, why would a force other than the 36 Mystic Worlds appear on this trip to the Land of King Death?

This could only mean one thing: the Thirty-Six Mystic Worlds had been infiltrated.

Xia Xiaochan had figured it out a long time ago. Therefore, the moment Bai Muling was defeated, she shouted, "Fuse."

Roar!

At the same time, a dragon roared.

This time, Xia Xiaochan's strength increased by a lot.

The people who were hunting Xia Xiaochan were all shocked. Someone shouted in a low voice, "It's a Giant Arowana, a Dao Sound Talisman."

Thud, thud, thud...

Xia Xiaochan's strength had been raised to the Half-King Realm, but these people had obviously come prepared. As soon as they attacked, the three fish skin maps burst out shocking bell sounds.

"Puff ~"

Xia Xiaochan spat out another mouthful of blood. Her reaction was fast. The Shadowless Blade spread out in the void in the blink of an eye, and there seemed to be a shadow on every Shadowless Blade.

Clatter ~

When the shadows gathered again, everyone saw a pair of beautiful translucent cicada wings appear behind Xia Xiaochan.

Bai Muling and Situ Yuhong exclaimed, "Heavenly Cicada Transformation?"

"Ahhh~"

At that moment, Xia Xiaochan's eyes turned red.

On her shoulder, a big starfish was trembling. "I knew it! You just can't come out! If you come out, you'll be in danger... If you come out, you'll die."

"Shut up."

Xia Xiaochan spat, and her strength increased several times again.

With a swish, the cicada wings swept the air without a trace.

Then, Xia Xiaochan's feet stepped on the chest of a man. The two knives entered his body and instantly destroyed his body. She twisted the cicada wings and the man's head was immediately cut off.

However, the person who was killed was not afraid at all. A large amount of green light suddenly burst out from his body.

With a closer look, there was a sea of swords bursting out of this person's body. In an instant, Xia Xiaochan was forced back, and the wings of the Heavenly Cicada were full of wounds.

The next moment, three people attacked Xia Xiaochan again.

But suddenly, a horrified cry sounded, "Six Gates Heaven Sealing!"

Buzz—

A purple light rose. Master Hexagon finally took effect. The Six-Gate Array protected Xia Xiaochan inside.

Situ Yuhong and Bai Muling were being attacked from both sides.

The two of them were already covered in wounds.

This time, the other party seemed to have known well of the people around Xia Xiaochan.

At this moment, in the six-gate array, Xia Xiaochan was covered in wounds and looked at the people outside with hatred.

One of them stood in the air and said indifferently, "In the end, you haven't become a king and haven't fully inherited the power of the Heavenly Cicada yet. The ten of us hid swords in our bodies just to wait for you to use the Heavenly Cicada Transformation... So that you know that the power of the Heavenly Cicada can't be revealed. Today, you must die."

Chapter 1758: Who Bullied My Wife?

The strength of the merfolk was relative.

Xia Xiaochan was indeed strong!

A peak-level Venerable fought against three Half-King experts for a long time. In the end, she even killed one...

If these people were just ordinary Half-Kings, Xia Xiaochan would have a way to escape. With Bai Muling and Situ Yuhong as her bodyguards, it would not be difficult for her to escape.

But the key was that these people were not ordinary Half-Kings.

Each of them hid swords in their bodies.

Almost all the methods were targeted at her.

They seemed to have expected what Xia Xiaochan would do and how she would react...

Now, Bai Muling, Situ Yuhong, and another Half-King of the Merman Race were all held off.

On Xia Xiaochan's side, four people were bombarding the six-gate array.

One of them sneered. "What a waste of time. Although the Six-Gate Array is strong, the Hexagon Starfish is not strong enough. The array will be broken in ten seconds."

The Hexagon Starfish rolled his big eyes and muttered, "It's over, it's over. I know how dangerous the outside world is. I knew it when I was only a few years old."

Xia Xiaochan snapped, "Shut up."

Hexagon Starfish: "No. There's still hope..."

Updates by vip novel. com

The Hexagon Starfish shouted, "Bai Muling, Situ Yuhong, you useless junks... You keep saying how invincible you are, but you can't even beat them? If I were you, I would have killed myself in shame!"

Situ Yuhong roared in a low voice. The void around him distorted, and black beads cracked like black holes.

Knock, knock, knock!

Chaotic Qi erupted from Situ Yuhong's body, and his combat power soared. His will fused with his body and covered him with a layer of white armor.

However, the people on the other side were clearly not to be trifled with. Since they had spent so much effort to sneak into the Land of King Death, how could they not be prepared?

The three human experts held spears and attacked together.

A triangle was drawn in the air.

As soon as the triangle appeared, a triangular mark erupted and blasted Situ Yuhong back dozens of kilometers. His hair was disheveled and his armor was shattered.

"Puff ~"

Situ Yuhong said with an ugly expression, "Something's wrong. These people's methods are not from the Thirty-Six Mystic Worlds at all... They are not from the Raging Sea."

Bai Muling cursed, "Impossible! No one can get out of the Raging Sea at all. If they could come from the outside, they would have come long ago. Why wait for this opportunity?"

Although these two Heavenly Talents were seriously injured, they had not reached their limits yet... They took out a jade slip at the same time.

Bai Muling shouted, "B*stards, forcing us to use the King's Strike, you didn't come in vain."

Crack!

Crack!

When Bai Muling and Situ Yuhong crushed the jade slips, a crab phantom appeared.

After the crab phantom appeared, its eyes turned cold and it said, "So many human Half-Kings?"

Clang!

The crab beat the gong, and the demonic sound reverberated.

However, the human on the opposite side also launched a king-level attack. A huge void hand stretched out and crushed the crab phantom.

A figure appeared in Situ Yuhong's jade slip. Who else could it be but Chun Huangdian?

Chun Huangdian glanced at the current situation and immediately ordered, "Bai Muling, Situ Yuhong, and that starfish, quickly take the princess to leave."

On the human side, someone shouted, "Humph! No one can leave here. Even if you chase me to the ends of the earth, you must die."

Their methods were beyond Xia Xiaochan's imagination.

Except for the trump cards in Bai Muling and Situ Yuhong's hands, Xia Xiaochan still had one last trump card. But now it seemed that it couldn't help her escape at all.

Chun Huangdian's attack was completely withstood by one of the Half-Kings. Of course, the body of the Half-King who withstood this attack instantly shattered, and a sword tide erupted from his body and rushed towards Chun Huangdian.

Chun Huangdian pointed his finger and destroyed the sword tide that filled the sky. The phantom was almost transparent.

At this moment, a figure appeared in midair.

It was the phantom of a human sitting on a throne, exuding a majestic aura. This person raised his hand and pressed down, and Chun Huangdian's phantom almost collapsed.

The man shouted in a low voice, "Evil creature, die!"

This person opened his mouth and roared. Not only did Chun Huangdian's phantom collapse, but even the Hexagon Starfish's Six-Gate Array collapsed.

The Hexagon Starfish shouted, "Throw your trump card and run!"

Xia Xiaochan flapped her wings and was about to crush the jade slip in her hand. From the other side, someone charged at her aggressively with a spear. The tip of the spear was dazzling with golden light.

Suddenly, the void distorted, and a blade light thrust out of the void and was directly reflected on the face and body of the attacker.

"Pfft!"

"Be careful ~"

These human experts were all on the defensive, looking for the enemy.

The body of the person who attacked Xia Xiaochan just now fell apart.

Everyone was shocked. Who was it? This attack was so fast and powerful! Who secretly used the King's Strike?

Bang!

Gravels were blown away, and a fatty appeared at the entrance of the underground palace.

This fatty was Fan Datong, who Han Fei had disguised as.

Everyone looked at the newcomer.

At that moment, Xia Xiaochan's eyes widened.

The Hexagon Starfish's six big eyeballs were all in the same direction and he was also dumbfounded.

Only Bai Muling, Situ Yuhong, and the other Half-King of the Merman Race were confused.

The three of them were puzzled. Who is this guy?

“Who are you?”

When the human experts saw that it was a human, they immediately said, “We’re all humans. Did you help the wrong person?”

“Kekeke~”

“Turtle Shell Sky Sealing Technique.”

At that moment, the surroundings seemed to be branded with a seal.

The old turtle sealed this space, and Han Fei didn’t plan to let any of them go.

Han Fei said leisurely, “Are you blind? How dare you bully my wife?”

Bai Muling was dumbfounded and looked around. Then he realized that there was no other woman here except the princess.

Situ Yuhong was also stunned for a moment, and then his expression changed drastically. “How dare you! Princess Mingzhu is as noble as the moon. She is definitely not someone you can covet. Don’t you dare talk nonsense!”

The Hexagon Starfish was shocked. At this moment, his six tentacles were dancing wildly. “Oh, oh, oh my god... Han...”

“Shut up.”

Han Fei glared at him. “Big starfish, say one more word and I’ll eat you!”

The Hexagon Starfish quickly shut up, but his eyes darted around and he clenched Xia Xiaochan’s clothes in horror.

The shock in Xia Xiaochan’s eyes had not subsided... At that moment, she choked up and tears flickered in her eyes.

However, the human powerhouses shouted, “Mind your own business! Die!”

Three of them used the same trick again. Another triangular seal appeared in the air and hit Han Fei.

Xia Xiaochan hurriedly exclaimed, “Be careful!”

However, Han Fei clenched his fist and punched out the Sacrificing Punch. The power of the punch smashed the triangular mark into pieces.

“What?”

“How is that possible?”

Then, a long stick stabbed out domineering spear power. It almost ignored time and directly exploded a Half-King.

This Half-King was blown to pieces.

Swish! Swish! Swish!

At that moment, Han Fei reached out and grabbed at the air. The Infinity Water condensed into a knife and slashed at another person.

However, this time, these people reacted. One of them projected a shadow, and the throne descended. In a blur, a middle-aged man seemed to slap Han Fei.

“Hmph! Who do you think you are? You want to suppress me with just a phantom? Are you trying to humiliate me?”

Boom!

Han Fei punched out.

With a bang, Han Fei left quickly and returned quickly. He hit the rock wall and smashed half of the underground palace.

Xia Xiaochan’s face changed drastically and she suddenly stood up.

However, before she could move, she saw a figure charging back from the ruins at an even faster speed. Behind him, thousands of knives were like dragons, and his blood and qi were monstrous. He was like a prehistoric beast roaring and pouncing on its prey.

“Roar!”

The Hundred Beast Soul Devouring Roar burst out, and two of them vomited blood. Han Fei used the Star Teleportation Technique and appeared behind one of them. He clasped his hands and tore this guy in half.

Han Fei was full of killing intent. “Is that all you’ve got? Where are your king-level strikes? Show them all!”

Gulp!

Bai Muling and Situ Yuhong looked at each other and swallowed. Who the hell is this guy? Is he a hidden bodyguard sent by Master Chun Huangdian?

This strength was a little too terrifying!

These Half-Kings were not ordinary Half-Kings. They seemed to have endless King-level techniques.

Otherwise, if these people’s strength were normal, how could they be defeated?

But now, this newcomer was only at the peak of the Venerable realm, but his strength was so terrifying that he could take a king’s attack head-on without being injured.

He could even fight back in the next second? What kind of f*cking beast was this?

Just now, they had spent a lot of effort to kill only two people, but this fatty killed three people in the blink of an eye.

Yes, these three people had definitely died.

If they hadn't died, they would have been reborn with blood. Unfortunately, they didn't. This meant that they had no chance to be reborn with blood.

In the blink of an eye.

Han Fei tried to strangle the left person with the Infinity Water, but his attack was shattered by a king-level strike. However, the Infinity Water turned into waves and dissipated.

Han Fei now had the combat power of a king!

Fist marks filled the sky, and saber qi crisscrossed.

In an instant, another person was caught by Han Fei and killed.

The other man detonated himself the moment he was caught by Han Fei.

Rumble! Rumble!

Han Fei was blown away again!

Although the self-destruction of a Half-King was terrifying, it only crushed the surface of the underground palace and blasted Han Fei hundreds of kilometers away.

However, Han Fei returned in the blink of an eye.

The Hexagon Starfish's big eyes rolled. "Wow! He is always so reliable! The others are all useless... They're even weaker than me."

Chapter 1759: A Complete Annihilation

In ten seconds, Han Fei achieved a result that stunned even Xia Xiaochan.

Of the remaining eight Half-Kings, only one was left.

Han Fei couldn't maintain the combat power of a king at this moment, so he finally returned to normal.

This scene made Bai Muling and Situ Yuhong heave a long sigh of relief.

This person had indeed used some kind of secret technique... Otherwise, if he really used such a powerful force, they would start to doubt their identity as Heavenly Talents!

Xia Xiaochan gritted her teeth and joined the battle.

However, how could Han Fei let Xia Xiaochan fight when she was still injured?

During the battle, Han Fei enveloped Xia Xiaochan with the Holy Light Technique, and Xia Xiaochan's wounds were healing at a speed visible to the naked eye.

Just now, they were in a big battle and didn't have a chance to fight. Now that there was only a Half-King left, he naturally had to treat Xia Xiaochan.

The Hexagon Starfish said, "I'm also injured. I vomited blood just now."

Han Fei rolled his eyes. The Hexagon Starfish used to be quite thin, but now he was so fat as if he was swollen.

How good did his life have to be to make this starfish as fat as this?

As for the last person, Han Fei didn't do much except restrict the Half-King from attacking, and Xia Xiaochan burst out and slashed him 1,027 times in a breath. Her attack speed was so fast that Han Fei almost couldn't see it clearly.

Updates by vip novel. com

The armor of the last Half-King was slashed into pieces.

Perhaps knowing that he could not escape, he roared, "So what if you kill us? You won't be able to escape death."

Han Fei frowned and said, "Honey, let me solve it."

After all, they grew up together and loved each other. Although they hadn't seen each other for a long time, he still called her so intimately.

The word "honey" made Xia Xiaochan blush. Then, she pouted and tears flashed in her eyes.

But at this moment, Bai Muling and Situ Yuhong shouted at the same time, "Your Highness, leave this person to us."

However, Han Fei's Void Lines had already locked onto this person.

Han Fei turned around, saw Mu Mubai and Situ Yuhong rushing at him, and punched them casually. "Get lost. Anyone who causes trouble will die."

Bai Muling and Situ Yuhong were speechless. What do you mean by causing trouble? We are very strong...

However, the two of them still consciously did not attack again...

After all, Han Fei's powerful combat power did make them panic. He had killed seven Half-Kings in a row... Including the last one, there were eight Half-Kings.

If the strength of these Half-Kings was only ordinary, it was understandable that Han Fei could kill them... However, these people were all stronger than ordinary Half-Kings, and they also had many King-level attacks. Obviously, they came prepared.

Under such circumstances, they were still wiped out by Han Fei!

This could no longer be merely described as powerful!

This was simply insanely powerful. Such strength could even fight a king in a short period of time. They clearly understood that they were no match for him.

Han Fei glanced at Xia Xiaochan. "Wait a moment."

"Um!"

At this moment, the Soul Searching Technique was activated.

Han Fei quickly learned that these people were all from the Soul Sealing World.(Search newNovel.Org on google) Han Fei was surprised when he heard the name.

The Soul Sealing World was one of the seven great enemies of the Yin-Yang World, one of the thirteen worlds in the inner domain.

In the past, it was said that this world even produced gods.

However, after learning the history of the Thirty-Six Mystic Worlds, Han Fei was sure that it was impossible. A monarch could block the Thirty-Six Mystic Worlds for 100,000 years... Gods? Did these people have hysteria?

What Han Fei didn't understand was why the people of the Soul Sealing World wanted to kill Xia Xiaochan.

A moment later, Han Fei's face changed.

Because he saw some secrets.

"Hiss ~"

When Han Fei quickly read the memories in this person's mind, he felt terrible.

Han Fei realized that the Thirty-Six Mysterious Worlds weren't united at all!

Han Fei remained silent and directly cut off the man's vitality and killed his soul.

Bai Muling and Situ Yuhong's hearts skipped a beat when they saw Han Fei slaughter a Half-King without even blinking. He was definitely a ruthless man.

How could he be so calm after slaughtering a Half-King? It was as if he had done something insignificant. How murderous was this guy?

At this moment, Xia Xiaochan was surprised, happy, shocked... and wondering.

What had Han Fei experienced to grow so fast in just a few decades? The Yin-Yang World had disappeared for eighty thousand years. How did Han Fei come here?

At this moment, Xia Xiaochan had too many questions to ask.

Han Fei was the same. Seeing that the Hexagon Starfish's tentacles were twitching, Han Fei glanced at Bai Muling, Situ Yuhong, and the other mermaid expert coldly.

Han Fei asked, "Can I kill these three?"

"Hiss ~"

The three of them retreated as their hair stood on end. What? Does this person still want to kill us?

Xia Xiaochan stopped Han Fei and said, "Forget it. Some of them died protecting me. Although these people are not likable, we don't have to kill them."

Xia Xiaochan said, "Bai Muling, Situ Yuhong, you don't need to follow me in the Land of King Death. Go find the keys yourselves!"

Situ Yuhong was about to speak, when Han Fei said leisurely, "Forget it. Letting you go doesn't mean that you can slaughter humans at will. If I find out that you attacked any world other than the Supreme Clearness, Infinity, Golden Crow, Five Elements, Dream Weaving, Soul Sealing, Medicine King, and Mad Corpse, I'll kill you."

Situ Yuhong: "???"

Bai Muling: "???"

Xia Xiaochan: "???"

Bai Muling was speechless. Why don't you just recite the names of all the 36 Heavenly Palaces? It means that we can kill people from these eight Heavenly Palaces as we please, right?

How much hatred do you have for us? Do you still want us to be your thugs and kill the experts of these heavenly palaces?

Xia Xiaochan thought to herself, It seems that these worlds have offended Han Fei terribly. She knew how revengeful Han Fei could be!

Xia Xiaochan glared at the three of them. "Hear that? If you meet people from these worlds, don't let any of them go."

Han Fei couldn't help but tilt his head and glance at Xia Xiaochan, thinking, That's my honey!

Bai Muling was speechless. "But, Your Highness... Who is he?"

Xia Xiaochan glanced at Han Fei and answered with a blush, "My husband, he is my husband. Go back and tell Chun Huangdian that I've found my husband!"

Han Fei looked at Xia Xiaochan in surprise. She called him husband so easily! There must be many people who proposed to Chun Huangdian in the Mermaid Royal Family!

Bai Muling and Situ Yuhong were both prince-level heavenly talents.

Willing to guard Xia Xiaochan, they certainly had an ulterior motive.

Now, they realized that they had clearly lost!

Most importantly, they seemed to have lost to a fatty. This made their self-esteem suffer a huge blow.

The two of them looked at each other speechlessly. Did the princess like fat people?

And this guy was not handsome! Did the princess like ugly people?

The two of them were full of questions. Although they were very dissatisfied, this fatty was too strong.

Of course, if this fatty was as strong as them, they would definitely stay and try to kill him.

However, before the two of them could think about... how to attack this fatty, this fatty actually asked Xia Xiaochan if he could kill them?

It could be seen that this fatty's killing intent was too strong. It was better to leave now.

The strongest people who could appear in the Land of King Death were probably the ones from just now. Now, this fatty seemed to quite care about the princess. At least the princess's safety should be guaranteed.

They reluctantly retreated.

A moment later, just as the three of them left this dangerous place, Bai Muling said, "What should we do? I really can't accept it. That fatty... He, he, he... how can he be worthy of the princess?"

Situ Yuhong said, "Are you stupid? Think about it carefully. Among the 36 Mystic Worlds, there is no fatty. This person must have used some method to hide his true identity. Otherwise, think about it. Once his identity is exposed, it will be an affair between humans and mermen. How can he not think of the seriousness of this matter?"

Bai Muling couldn't help nodding. "That makes sense. That fatty is so strong. He must not be an unknown person. Then, we can easily find out about his identity after we go out. If we can't, he must have hidden his true identities."

Situ Yuhong sneered. "At least, that fatty is definitely not from the eight worlds he just mentioned. Besides, this fatty must have a grudge against these worlds. Otherwise, why would a human take the initiative to ask us to help him kill other humans?"

Bai Muling sneered. "What's the big deal? There have always been internal conflicts among humans. Look at the thirteen worlds in the inner domain and the thirteen worlds in the outer domain. In the past 80,000 years, there have been more than ten Heavenly Palaces that have disappeared. Maybe they will finish themselves if we wait a little longer."

Situ Yuhong sneered. "Idiot, the opening of the Monarch Palace in 32 years will definitely be a reshuffle. They're not fools. How can they finish themselves? Forget it, let's not talk about this... I'm still worried about Her Highness! What if that fatty treats the princess... What should I do?"

Bai Muling said with a black face, "Will he?"

Another Half-King of the Merman Race said, "Masters, this is a big taboo. In a month, Her Highness will leave the Land of King Death, and she can't disappear into thin air. At that time, as long as we tell Master Qinglong about this, Her Highness will probably be grounded. Once she is grounded, she can't contact that human anymore. No matter how strong this person is, can he kill his way to the Merman Royal Family?"

"Hiss ~"

The two of them looked at the Half-King and gasped. "Good idea."

Chapter 1760: Tears in the Sea

As soon as Han Fei entered the Land of King Death, he was only delayed for a moment before he caught up.

Therefore, even if they encountered some obstacles along the way, they did not waste much time.

Although the 36 Mystic Worlds, the Merman Race, and other major forces had sent Half-King experts over, two groups of people had already arrived at this dangerous place.

Even if the third group of people were to come, they would probably encounter Bai Muling and company.

Although Han Fei had threatened to kill them, they had blocked a lot of enemies for Xia Xiaochan after all.

At this moment, the underground city was already in a mess. Many places had collapsed.

After all, the battle here had already exceeded the normal combat intensity of Half-Kings.

“Ahhh~”

Not long after Bai Muling and Situ Yuhong left, Xia Xiaochan jumped onto Han Fei.

“Boohoo... I almost died just now. I thought I would never see you again...”

For Xia Xiaochan, Han Fei and the other three were her only family.

Besides, she had thought that these people were on the other end of the world...

Although her status in the Merman Race was extremely high, there were also many rules. Other than cultivation, there was only training.

Hanging on Han Fei's body, Xia Xiaochan rested her head on Han Fei's shoulder and whimpered, “I searched all the historical materials and found out that the place we were in before was called the Yin-Yang World. But... nothing about it can be found in the Raging Sea... There is no Yin-Yang World at all. It's said that it disappeared eighty thousand years ago... I thought I would never see you again. Sob...”

Before she finished speaking, Xia Xiaochan sobbed and complained, “They forced me to cultivate every day. They didn't let me eat or go out. They found a lot of guards to watch me... Except for cultivation, I just searched for historical materials. It wasn't until I became a Venerable that I found out that the Yin-Yang World might be in that Wild Abyss... Boohoo... I tried to escape more than 80 times. Once, I almost ran out... Boohoo...”

Xia Xiaochan cried sadly.

It had been twenty years since she left.

Apart from cultivation, she just searched for historical records and tried to escape. No one could withstand a life like this!

Han Fei had done a lot of things in the past twenty years. He went to the Thousand Star City, broke into the three Holy Lands, explored the Water-Wood World, sneaked into the White Shell Royal City, subdued the Thousand Star City, and went to the cage...

Han Fei thought about it carefully. His experience was very rich. Everything he saw was novel, but Xia Xiaochan was really miserable!

Han Fei didn't even know how she could cultivate so fast.

Although the spiritual energy, energy, and resources in the Raging Sea were a hundred times better than in the Yin-Yang World, she shouldn't have grown so quickly, right?

Moreover, judging from Xia Xiaochan's strength just now, even a Half-King was not her match. However, she was only a peak-level Venerable.

It could be seen that Xia Xiaochan's talent was no worse than his!

However, Han Fei realized that the bloodline of the Merman Royal Family was probably of a high level.

In the past, Xia Xiaochan was prone to go berserk because of this bloodline. After being stimulated by Yang Ying, she couldn't hold it anymore and awakened.

Besides, Xia Xiaochan was even weirder than him. She had three spiritual beasts, which were also her three Companion Spirits, a Shadow Shrimp, a Giant Arowana, and a Heavenly Cicada.

Now that Han Fei was holding Xia Xiaochan, he could see clearly that the colorful cicada wings behind Xia Xiaochan were so thin that there was almost no thickness, but they were terrifyingly sharp.

This sharpness was undoubtedly comparable to an ultra-quality divine weapon.

Seeing that Xia Xiaochan hadn't fully recovered, Han Fei couldn't help but say, "Good girl, come down, let me heal you."

"No..."

To his surprise, Xia Xiaochan was very determined. She said, "Did you come here with that Human Sacred Weapon? Do you have to go back after you use it? I'm not coming down. If I come down, you'll run away..."

It was the first time that Han Fei had seen Xia Xiaochan acting like a spoiled girl. He couldn't help but laugh. "Why should I run? Last time, it was an accident. This time, I'm really here. Touch me. My flesh is solid! If I could come here in other ways, I would have come a long time ago. Can I make you wait for more than twenty years?"

Xia Xiaochan shook her head. "I won't listen, I won't listen. If you want to treat me, just do it."

The starfish said, "Treat me, treat me. The starfish is also injured and needs treatment."

Only then did Han Fei notice the Hexagon Starfish. Information popped up in Han Fei's eyes.

<Name> Hexagon Starfish (Overpowered)

<Introduction> A mysterious creature. It's extremely rare and treats treasures as its life. Because it goes around searching for treasures, it's called a moving treasury. Its six tentacles can emit strange beams of light and six void doors will appear. Entering them might get an opportunity or die.

<Level> 85

< Quality > Mysterious

<Great Dao> Divine Shield

<Chaotic Energy> 462 wisps

<Edible Effect> There is a certain chance of obtaining a defensive inheritance

<Collectible> Six small worlds

<Absorbable>

<Note> The energy of this Hexagon Starfish is too excessive. If he still doesn't make a breakthrough, it will damage his life potential.

Because the Hexagon Starfish was not his contractual spiritual beast, Han Fei couldn't see his combat skills.

However, after seeing the information of the Hexagon Starfish, the corners of Han Fei's mouth couldn't help but tremble. This was definitely the creature with the most abundant Chaotic Qi he had seen in the Raging Sea!

Damn, he was only an intermediate peak-level Venerable, but he had 462 wisps of Chaotic Qi?

Who knew how this guy stored it? Did he drink Chaotic Qi every day?

Also, what did it mean to have too much energy? And if he still didn't break through, it would damage his life potential? How much good food did he eat to become like this?

He had been working so hard outside and almost died many times... For so many years, he had not even slept much.

But this thing just enjoyed his life every day. Han Fei couldn't help feeling angry...

Han Fei grabbed the Hexagon Starfish from Xia Xiaochan's shoulder and threw him on the ground. "Look at how fat you are! You're like a worm at the bottom of the sea, a round Ball Fish. How can you be injured?"

With that, Han Fei kicked the Hexagon Starfish away, wondering if the living conditions of the merman race were so good.

The starfish clung to a broken rock and muttered, "Actually, the life there is not as uncomfortable as she said. The starfish thinks it's pretty good! There's food, drinks, and clam girl massages..."

Chi la!

Hundreds of Shadowless Blades swept towards the Hexagon Starfish at lightning speed.

Xia Xiaochan attacked without hesitation.

The Hexagon Starfish immediately let out a scream, and a seal appeared around his body, blocking those Shadowless Blades.

Xia Xiaochan's attack was at least at the level of an advanced Venerable, but it was blocked by Master Hexagon so easily, which surprised Han Fei. It seemed that this guy was going to make a breakthrough! He should be quite useful after the breakthrough.

Han Fei said, "Xia Xiaochan, I'm already here. If you cry again... I'll tell Zhang Xuanyu and the others!"

Xia Xiaochan immediately tightened her grip. "Don't tell them. I will beat you up if you do... Where are they? Are they here too?"

Han Fei couldn't help but laugh. "Do you think this place is so easy to come to? I only came here after a narrow escape."

Xia Xiaochan's heart tightened and she pinched Han Fei with her free hand. "Are you hurt?"

Han Fei was lost for words. Why are you pinching me if you want to check if I'm injured?

However, he couldn't care less. He barely raised his hands.

Buzz!

When the Heaven Enlightenment Divine Technique descended, Xia Xiaochan's cicada wings, as thin as a glass mirror, were recovering slowly.

The small holes that had not recovered from the Holy Light Technique were also recovering at a visible speed. In the blink of an eye, the wounds disappeared without a trace.

"Hum ~"

Xia Xiaochan had never seen the Heaven Enlightenment Divine Technique before. This light made her whole body soft and float in the air unconsciously.

The Hexagon Starfish's six big eyes began to spin.

His figure flashed and quietly appeared in the pillar of light of the Heaven Enlightenment Divine Technique.

The Hexagon Starfish lay on the stone at Han Fei's feet like a piece of plasticine or chocolate, his six big eyes narrowed.

Boom ~

Han Fei kicked him dozens of kilometers away again and snorted. "Master Hexagon, if you can't become an advanced Venerable in a month, I'll skin you alive!"

The Hexagon Starfish screamed, "No! It's so difficult to make a breakthrough... It's not my fault at all. I've had enough of the pain of making a breakthrough..."

Han Fei couldn't stand it anymore. He reached out and grabbed at the void. In the void, a spatial crack appeared and he slashed at it.

The Hexagon Starfish screamed again, and an invisible shield wall blocked in front of him. Han Fei's attack shattered, but the shield wall didn't break at all.

However, before Han Fei finished his words, he sneered. "I feel that you have a lot of Chaotic Qi on you. Since you don't want to make a breakthrough, it's a waste to leave the Chaotic Qi on you... Why don't you take the initiative to pull down a few tentacles of yours? I'll fry them. They'll definitely be very nutritious..."

"Hiss ~"

The Hexagon Starfish felt a chill down its spine. How can a human be so terrifying? He even wants to fry my tentacles?

But thinking of how Han Fei killed Half-Kings and resisted the king-level attack head-on just now, the Hexagon Starfish was scared and said, "Well, okay! Then I'll make a breakthrough..."
