## Chapter 1771: Digging a Septic Tank

Han Fei would never have thought that one day, he would almost faint because of a stench, his soul would tremble, and his seven orifices would bleed slightly.

More importantly, even if he didn't breathe, the smell could be transmitted to his body through his skin and touch his soul. Han Fei felt that he would rather eat the Poison King than smell it.

"Ew..."

Xia Xiaochan and the Hexagon Starfish were in the same situation as Han Fei, because the stench was not a physical attack at all, but a special power that targeted the soul.

"Six Gates Forbidden Land."

The Hexagon Starfish couldn't stand anymore. He used his ultimate move on the spot and sealed the place where the three of them were in into a domain. Only then did the stench stop coming.

"Ew..."

"Ew..."

Han Fei and Xia Xiaochan retched a few more times, then looked at each other. Blood was flowing out of their seven orifices, and the Hexagon Starfish's six big eyes were all bleeding. They couldn't help but look at each other in shock.

Han Fei was horrified. "I didn't expect it to be so smelly that it can damage the soul."

Xia Xiaochan said, "I don't want to smell this smell anymore. It's too smelly. What is it?"

The Hexagon Starfish said, "It's over. So many bad guys besieged me, and I survived. In the end, I might be killed by the stench. My reputation is ruined."

Han Fei wiped the blood from his nose and glanced at the bead in his hand.

Looking closely, the information appeared:

### Sun Suppressing Pearl

The foul air produced by the mutated creatures in the deep sea for a long time has accumulated too much and formed a terrifying filth. To prevent foul air from contaminating the body, use demon essence to refine the Sun Suppressing Pearl to seal the filth.

### Sea Establishment

< Quality > Ultra-Quality

It can suppress filth and keep one clean.

After swallowing it, it can prevent contamination and slowly remove the filth in the body.

After checking the information of the bead, Han Fei had a strange look on his face. Why did it feel weird? Just like the back mountain of the Thug Academy in the Blue Sea Town, the cave was filled with a stench that had been there for thousands of years.

This bead was like a door. As soon as the door was opened, a stench came out.

Seeing that Han Fei's face had turned green, Xia Xiaochan couldn't help but be nervous. "What is this? Is it an evil thing?"

Han Fei shook his head slightly. "Of course it's not an evil thing. The weird air outside is evil. This bead is extremely useful and can remove the filth in your body. As long as you eat it... Hey, what are you doing?"

When Han Fei said to eat it, Xia Xiaochan and the Hexagon Starfish retreated to the edge of the domain, and the Hexagon Starfish's big eyes were all narrowed.

He kept saying, "The starfish is clean. No, no, no... I don't need this."

Xia Xiaochan was afraid that Han Fei would give this thing to her, so she said carefully, "I... I'm clean too. You can have it if you want!"

Han Fei: "..."

Han Fei didn't know whether to laugh or cry. "It really doesn't stink."

"Ew..."

How could women accept this thing? Even the Hexagon Starfish couldn't accept it. Han Fei grabbed the Sun Suppressing Pearl speechlessly and thought to himself, You two don't even know what a treasure this is. It seems that this treasure is doomed not to belong to you!

Han Fei glanced at the Sun Suppressing Pearl and then at the gray mist-like stench outside. He made up his mind and thought to himself, If I don't enter the tiger's den, how can I get the tiger's cub?

Immediately, Han Fei pinched his nose and stuffed the Sun Suppressing Pearl into his mouth.

"Ew..."

"Ew..."

Xia Xiaochan and the Hexagon Starfish felt their scalps tingle and were about to break down on the spot. They would never want to experience that horrible stench again.

Xia Xiaochan said, "You... you're not allowed to kiss me for three days."

Han Fei: "..."

Han Fei rolled his eyes speechlessly. "Ignorant."

In fact, Han Fei also felt a little nauseous, but there was nothing he could do about it. This was a treasure. He couldn't waste it.

After a full half an hour, Xia Xiaochan and the Hexagon Starfish said almost in unison, "It stinks."

Han Fei: “???”

The Hexagon Starfish was horrified. “Han Fei, you stink!”

Xia Xiaochan exclaimed, “The impurities in your body are being discharged.”

Han Fei looked down and found that there was an extremely thin layer of gray substance on the surface of his skin.

This time, Han Fei didn’t feel good at all. The Demon Purification Pot didn’t say that the bead would make him stink! It said that the Sun Suppressing Pearl would slowly remove the impurities in his body.

“Slowly?”

Han Fei was shocked. This word seemed a bit ambiguous.

Fortunately, the smell wasn’t very bad. Han Fei was a peak-level Venerable after all, and his physique had been cultivated to an outrageous level.

Therefore, even if there were still impurities in his body, it was only a small amount.

However, the Sun Suppression Pearl had run into his dantian and accompanied his Dao Seed. The two pearls revolved in his dantian.

Han Fei knew that the Sun Suppressing Pearl was starting to work. Han Fei glanced at Xia Xiaochan and the Hexagon Starfish. He had eaten the Sun Suppressing Pearl anyway, but he still had to find the treasure.

The information said that it could avoid contamination after swallowing the bead. If he went out now, he shouldn’t be able to smell the stench, right?

Han Fei said, “Okay! You two stay here. I’m going to see where the treasures of the Whale Valley are. It took us so much effort to come here. It would be a loss if we didn’t get anything.”

Xia Xiaochan asked in surprise, “Can swallowing the bead block the stench outside?”

Han Fei said, “I told you that it’s a treasure that suppresses filth. Okay, the danger should be gone now. Otherwise, there would be too many barriers set up by this king.”

With that, Han Fei appeared outside the Hexagon Starfish’s seal.

When Han Fei stood in this stinky space again, he didn’t hold his breath immediately, but after inhaling a little, he immediately vomited.

This scene shocked Xia Xiaochan and the Hexagon Starfish.

Xia Xiaochan said, “You’d better come back! Let’s go out after the smell is gone.”

The Hexagon Starfish said, “Yes! Let’s go to the small world!”

Han Fei held his breath, and when he didn’t feel the stench anymore, he said to the two of them, “I was just teasing you. Look at how scared you are.”

Xia Xiaochan was relieved and immediately said angrily, “If you scare me again, I’ll stab you to death.”

Han Fei: "..."

...

After the Sun Suppressing Pearl was taken away by Han Fei, this space was no longer so unbreakable. At the place where Han Fei dug the Sun Suppressing Pearl, the ground nearby was cracking, and there was a space underground.

Swish ~

Han Fei crawled more than twenty kilometers and appeared in the small world under his feet.

Then, Han Fei was horrified to see a gray lake. This was the source of the f\*cking stench!

However, Han Fei had seen all kinds of horrible things. As the Ninth Immortal Master, did he have to retreat when he encountered a septic tank?

With a thought, Han Fei took out a dozen Sun-Moon Shells, all of which had been emptied. Han Fei threw the Sun-Moon Shells into the pool and saw that a huge amount of gray and dirty liquid was pouring into the shells.

It took 12 Sun-Moon Shells to drain the lake.

Han Fei couldn't help but sigh. When the little fatty Cao Qiu refined the Poison King, he was in high spirits. The days when he swept the level-three fishery with the Poison King were worth reminiscing.

Now, this gray liquid was equivalent to a treasure like the Poison King. However, unlike the Poison King, this thing had shape and color. People could tell that it was not something good at the first glance. Therefore, it depended on how he used it.

Of course, this gray liquid was not the key. The key was that at the bottom of this pool of gray liquid lay a bunch of treasures.

Han Fei grabbed with one hand, and these treasures floated in the air. Among them, there were long swords, stone steles, bricks, jade pots, small seals... All these items carried the Dao runes of the Monarch Palace.

Han Fei counted, and there as many as 67 pieces.

But even so, Han Fei couldn't help but sigh in his heart. What did these kings steal from the Monarch Palace? They brought back no decent things but a bunch of junk.

These 67 keys, together with the 14 keys on him, made 81 keys. Han Fei couldn't help but sigh. He had made a fortune this time. The Snow Lady only wanted 20 keys. And Patriarch Million Poison, Huang Jie, also wanted to trade with him.

Moreover, 32 years later, when the Monarch Palace is opened, can my Yin-Yang World also become a force and participate?

Although there were 81 keys now, Han Fei couldn't give up some of them, such as the Mystic Yellow Stone.

Apart from treasures, there was also a cave in the deepest part of the septic tank below. He wondered if that was the exit.

Of course, Han Fei wasn't in a hurry to go out. He would go out tomorrow. Anyway, he wasn't in a hurry.

### **Chapter 1772: Soul Burial Valley**

In the Sea Quelling Painting.

Han Fei came to Xia Xiaochan and the Hexagon Starfish and showed off his harvest.

Xia Xiaochan was stunned. For a moment, she couldn't help wondering what this person was thinking when he hid treasures in such a smelly place.

According to the Hexagon Starfish, that person must have been hunted down so much that he thought that if I couldn't get it, you wouldn't get it either, so he hid the treasure there.

It had to be said that Master Hexagon's intelligence had increased a lot since he entered the Venerable realm.

Sure enough, Han Fei and Xia Xiaochan both agreed with the Hexagon Starfish's guess.

Of course, although Han Fei got a lot of treasures, on this day, neither Xia Xiaochan nor the Hexagon Starfish would come within three meters of Han Fei.

Sleep? That was even more unlikely.

Xia Xiaochan insisted. "When Han Fei doesn't stink anymore, we can sleep together again..."

Since Han Fei and Xia Xiaochan had just met and they wanted to have a honeymoon, he didn't introduce Nian'er and Xiao Se to Xia Xiaochan.

The next day.

After explaining to Xia Xiaochan, Han Fei left the Sea Quelling Painting first.

Han Fei was thinking about the direction of the "exit".

As a result, the Vast Ocean Navigator was pointing at the septic tank.

...

While the three of Han Fei were looking for a way out, a battle was happening on the other side.

This was a valley that was bubbling with blood-colored gas.

In the valley, there was a demonic sound. This sound was like a whimper from the netherworld. In addition to being heard directly, it could also directly affect the soul.

In the direction of this demonic sound, there were many Half-King corpses.

These corpses were like walking dead. They had lost their souls and their eyes were empty, but the weapons in their hands were still intact, and their combat style was familiar.

There were thousands of such Half-King corpses here.

If Han Fei were here, he would be surprised. Many Half-Kings of the four Heavenly Palaces of Glazed Glass, Immeasurability, Sword God and Supreme Mystic were here? In addition, there was also a group of Half-Kings in the uniform of the Soul Sealing World.

There were a total of 15 people from the five forces.

However, at this moment, the 15 people were running crazily. They had run all the way to the bloody canyon.

Ring! Ring! Ring!

At this moment, a woman from the Glazed Glass World shook the bell with an ugly expression. "Oh no, there's no way out."

Swish! Swish! Swish!

A sword cultivator stood tall and proud. Seeing the corpse of a Half-King attacking him, he cut the corpse in half at a strange angle.

On the other side, someone retreated while drawing something on a fish skin.

The man said, "Of the three forbidden places, the Soul Burial Valley is the most mysterious. When we came here, we just passed a small blood pool. After we passed the blood pool, if we hadn't been attracted by the bronze door... we wouldn't have lost our way. The problem lies on that door. The space we are in might have been changed... Or we might have entered some unknown array."

A tall and strong man looked at the six powerhouses of the Soul Sealing World and said, "Song Kaiyuan, you've been drawing for a long time, but you keep saying useless things... Isn't your Supreme Mystic World said to have the essence of the 36 Heavenly Palaces? Why haven't you learned the Nine Palace World's arrays?"

Song Kaiyuan was one of the leaders of the Supreme Mystic World's team this time.

Originally, there was still Mushui Sisi, but she wasn't here at this moment. It seemed that they didn't put everyone into one forbidden place.

Song Kaiyuan said angrily, "I'm not a spirit gatherer. It's extremely difficult to enter the Dao of arrays, and ordinary people can't comprehend it. Although there are countless array diagrams in my mind, I can't break arrays. You think too highly of me."

At this moment, the sword cultivator of the Sword God World shouted in a low voice, "Li Kaitian, help me."

However, because everyone had nowhere to escape, six Half-King puppets caught up to them.

Roar!

The muscular man shouted, "Fuse!"

Buzz!

An incomparably huge crocodile instantly fused into the burly man's body. Two rays of red light erupted from his eyes and petrified the two Half-King corpses in midair.

Then, Li Kaitian waved the long rod in his hand, which was a Sea Quelling Bizarre Treasure, to cut the void with the momentum of splitting a mountain.

He shouted, "Infinite Palm Print!"

Li Kaitian had killed more than five Half-King corpses alone. It was all thanks to these corpses. If they were conscious Half-King experts, even if Li Kaitian's strength doubled, he wouldn't have been able to kill them so easily.

Li Kaitian shouted, "Jian Hui, what are you doing? Attack!"

Ring! Ring!

A dim yellow light instantly erupted, and a candlelight nailed a Half-King's corpse in midair.

In the next moment, a clear voice shouted, "Glazed Merciful Hand!"

Countless jade-like hands appeared in the void, looking soft and powerless. However, when they really started slapping, the continuous eighteen slaps smashed the Half-King's corpse into pieces.

Li Kaitian heaved a sigh of relief. "Sister Lu Ran is still the best. Jian Hui, what are you doing?"

The three sword cultivators of the Sword God Palace all held their swords and did not come out.

Jian Hui said, "Accumulate sword intent."

Not far away, Jian Hui glanced at the Soul Sealing World's team. There were only six people on their side, and they had only encountered three Half-King corpses, which was much easier than them.

Li Kaitian followed Jian Hui's gaze and snorted. "Son of a b\*tch, I hate those guys from the Soul Sealing World the most. If they didn't know God's Arrival Technique, I would have killed them long ago."

At the mention of the God's Arrival Technique, the expressions of the other four Heavenly Palaces' teams were rather ugly.

As one of the thirteen worlds in the inner domain, the Soul Sealing World was relatively low-key. Although they had always boasted that they had once produced a god, there was one thing not exaggerated—they could borrow the power of supreme experts.

This technique was called God's Arrival.

Of course, the premise was that they had to serve a supreme expert and establish a long-term loan contract.

Outsiders did not know what the restrictions and benefits of the God's Arrival Technique were. They only knew that by using the God's Arrival Technique, one's strength would double, and one could even borrow a trace of the divine power of a supreme expert.

Originally, the four Heavenly Palaces were not familiar with the other worlds among the thirteen worlds in the inner domain. If they met each other outside, they might exchange some pleasantries. However, in the secret realm, they were enemies.

If not for the countless Half-King corpse puppets chasing after them, the two sides would have already started fighting.

On the Soul Sealing World's side, someone shouted in a low voice, "According to my perception of the Heavenly Cicada, it should be nearby. There can't be no road."

Someone said, "Fortunately, not everyone came in. Otherwise, it wouldn't be easy to get out of this place alive."

They looked in the direction of Li Kaitian and the others, and the leader shouted coldly, "Although these people are difficult to deal with, their situation is worse than ours. Okay, let's find a way out."

A hundred seconds later.

The two groups of people felt that they were about to fall into despair. Li Kaitian and the others all looked horrified.

Song Kaiyuan said leisurely, "In the past, I thought that the forbidden places only existed because the explorers were not strong enough. I didn't expect it to really be a forbidden place. If we want to survive, we have to kill these more than a thousand Half-King puppets here first... Otherwise, it will be in vain."

"Just shut up!"

In the Glazed Glass World's team, Lu Ran spat. "It only means that you're not skilled enough. You can't break the array, nor can you find the way... You've led us to a dead end. You have to learn well in your next life. Don't loaf around all day."

Song Kaiyuan was speechless.

Song Kaiyuan sighed and couldn't be bothered to argue with Lu Ran.

Li Kaitian and Jian Hui couldn't hold on any longer.

Song Kaiyuan sighed and was anxious. What should I do?

Bang!

At this moment, everyone saw a big hole suddenly open in the void. A man and a woman, one black and one white, emerged from the black hole.

"Huh?"

Li Kaitian said, "There are people here. It seems that there is a road here."

Song Kaiyuan hurriedly said, "Wait, why don't I remember these two from the 36 Mystic Worlds?"

Before Song Kaiyuan could recall the two of them, the fat man in black shouted, "In the Land of King Death, the Valley of the Living Dead, the Black and White Impermanence, come back to the sea. Money will pave the way and resources will buy your lives. No credit will be owed."

Everyone: “???”

Li Kaitian was lost for words. “Brother, where did you come from? There are thousands of Half-King puppets outside, and you still have the time to rob? Even if we give the money to you, do you still have the life to spend it?”

Xia Xiaochan raised her daggers. “Give money to us first. It’s none of your business whether I have the life to spend it.”

It seemed that neither of them was going to pay...

Then he saw that there were more than 30 Half-King corpses surrounding them. He couldn’t help but sneer. “If we don’t show you how powerful we are, you won’t know your distance...”

Chi la!

Han Fei grabbed, and a void crack appeared in the void.

The blade light twisted and killed seven corpses in a row.

Xia Xiaochan’s figure flashed, and everyone could only see her shadow flashing, and then seven or eight Half-King corpses were cut apart.

“Hiss!”

Song Kaiyuan gasped and said, “They are only two peak-level Venerables? How can they be so strong?”

Li Kaitian was also dumbfounded. Are their combat efficiency so high? These two must be hiding their strength.

Jian Hui looked at the two of them and felt that they were familiar.

However, before Song Kaiyuan and the others could respond, the people from the Soul Sealing World rushed over from not far away.

Buzz—

The strength of this group of people instantly soared to the peak of the Half-King realm.

One of them said expressionlessly, “It’s her. Kill her!”

Everyone: “???”

Han Fei: “???”

Xia Xiaochan was speechless.

Han Fei and Xia Xiaochan were both speechless. They felt the vibration of space and knew that someone was fighting, so they showed up in such a high-profile way.

What was going on here now?

Did they look like weaklings? Why were there people who wanted to kill them the moment the two of them appeared?

When they took a closer look, weren't these people from the Soul Sealing World?

Xia Xiaochan was furious. "They're from the Soul Sealing World."

Han Fei licked his lips. "Great! Since they sent themselves to us, let's kill them first."

### **Chapter 1773: The Black and White Ghosts Return**

The Land of King Death was so big that Han Fei and Xia Xiaochan didn't expect to meet people from the Soul Sealing World again before they left this dangerous place.

Now, Han Fei and Xia Xiaochan, who had been shouting that they wanted to rob others, rushed out to fight them.

They simply ignored those Half-King corpses.

Han Fei's strength rose to the peak in an instant. The invincible will appeared on his body, and he struck with his spear.

Xia Xiaochan was just as brutal. The Giant Arowana fused with her, and a shocking dragon roar rang like thunder.

On the other side, the people from the Soul Sealing World were all Half-Kings, but they had borrowed the power of kings.

When they saw that Han Fei and Xia Xiaochan were both very strong, they saw that the six of them used six king-level strikes at the same time.

"Hiss ~"

Song Kaiyuan immediately shouted, "Retreat, retreat! Li Kaitian, defend!"

Li Kaitian was not stupid.

As a peerless genius of the Immeasurability World, as soon as he appeared, he heard the knowledgeable Song Kaiyuan shouting to defend, and he immediately knew that something went wrong.

At this point, Jian Hui unleashed all the sword intent he had accumulated and pierced through six Half-King puppets. The few of them immediately gathered together.

Li Kaitian stood in front of everyone, his eyes burning with flames.

He held the rod with both hands and stabbed it into the ground. The surrounding void seemed to freeze. In an instant, everyone was wrapped in a transparent round shield.

Updates by

Han Fei's face almost turned green. These people were too brutal! How could Xia Xiaochan withstand so many king-level strikes?

Han Fei shouted, "Six-Gate Array!"

Buzz!

Swish! Swish! Swish!

In fact, the Hexagon Starfish was about to activate the array before Han Fei ordered him to.

Having been in the Merman Royal Family for so long, Master Hexagon was not an ignorant starfish. He had seen the power of a king.

The six-gate array was instantly activated. Xia Xiaochan shouted, "Idiot, come here!"

However, Han Fei shouted, "It doesn't matter. I am not afraid of anyone below the king realm. Kill..."

At that moment, Han Fei clenched his fists, and the Great Dao of Gravity condensed on his fists. On his fists, arrays were connected, and the invincible will enhanced his strength.

Before he punched, the void exploded, and behind Han Fei, ten thousand knives followed like a tornado.

"Gulp ~"

In the rear, Song Kaiyuan, who was protected in the array, immediately exclaimed when he saw the Six-Gate Array, "That's the Six-Gate Sky-Defying Array of the mysterious creature, Hexagon Starfish. Not good. It's said that in the entire Raging Sea, there's only one Hexagon Starfish who has been living in the Merman Royal City for a long time. That woman is a royal mermaid."

The others were stunned. The royal family of mermen? They didn't look like mermen at all!

However, while they were still surprised at the Hexagon Starfish, they heard Song Kaiyuan continue to shout, "Oh my god! Who is this guy? He hasn't used his fist power, but the void has exploded? This is the symbol of the Sea Establishment Realm. On his fist, there is a chain of arrays, which is a gravity array. And his speed of setting up arrays... Hiss, this person is a human spirit gatherer? Wait, the gravity around this person is abnormal. He is using the gravity Dao? Hiss, how is it possible? The golden light is shining brightly. Is he also walking the path of invincibility?"

As a top genius of the Supreme Mystic World, Song Kaiyuan might not be the strongest in combat, but he was definitely the most knowledgeable among them.

In Song Kaiyuan's eyes, Han Fei's moves were instantly analyzed.

Therefore, Song Kaiyuan kept talking non-stop, confusing Li Kaitian, Lu Ran, and the others.

Rumble! Rumble!

Dust flew everywhere, and rocks fell. Under such an impact, a few cracks appeared on Master Hexagon's six-gate array.

Song Kaiyuan and the others were actually very close to them. However, they had more people and gathered their strength. Coupled with Li Kaitian's Primordial Seal, they managed to survive.

Bang! Bang! Bang!

Before the smoke and dust dissipated, with a buzzing sound, a cicada appeared in the dazzling light curtain, flapping its wings. Everyone saw that in the field, the saber was like a stream of light, and the punch collapsed the mountain.

When the light screen dissipated, Song Kaiyuan and the others gasped.

The guy called Fan Datong was holding broken bodies with both hands, and his qi and blood were soaring. As for the woman from the Merman Royal Family, she was retracting her double daggers. In front of her, a Half-King from the Soul Sealing World was riddled with holes.

“Gulp ~”

Song Kaiyuan swallowed and said, “Listen to me. If they want to rob us, just give them money... We’re no match for them.”

Jian Hui frowned and was about to speak when Song Kaiyuan glared at him. “Shut up. Do you still want to practice swordsmanship?”

At this moment, Han Fei and Xia Xiaochan were full of killing intent. One was tall and fierce, and the other was petite and swift.

This combination was simply amazing.

Han Fei raised his hand and raised two fingers. Ten thousand knives came back with six Sun-Moon Shells.

Han Fei put away the Sun-Moon Shells and slowly moved his eyes to Song Kaiyuan and the others.

“Hehe... Money opens the way and resources buy lives. Everyone, have you thought it through?”

Song Kaiyuan immediately said, “Brother Fan, as you know, we came to the Land of King Death to search for treasures, so we didn’t bring much resources with us... The only valuable things we have now are the keys to the Monarch Palace we found. Brother Fan, you should be looking for these too, right? How about this... You can take all our Sun-Moon Shells, and the keys to the Monarch Palace will also belong to you. What do you think?”

Han Fei raised his eyebrows. “Oh? You’re quite sensible.”

Song Kaiyuan and the others were about to show Han Fei the resources...

However, not far away, those Half-King puppets came again.

They were all dead. Their souls were destroyed, and only their instincts were urging them to fight. They weren’t strong, but they weren’t weak either. Just now, only dozens of them were crushed, and many were sent flying.

Han Fei’s heart did a flip. He wouldn’t kill the people from the four worlds. As the saying went, the enemy of an enemy was a friend. Glazed Glass, Immeasurability, Sword God, and Supreme Mystic had always been unsociable among the Thirty-Six Mystic Worlds.

Therefore, the four worlds formed a new group. Only then did they have the ability to resist the other Heavenly Palaces.

Han Fei felt that they might meet again in the future, especially since he had to go to the Glazed Glass World next. It wouldn’t be good to offend them too hard...

Han Fei scanned around with his perception and found that there was a blood pool and a huge whale head here.

Immediately, Han Fei found the terrain familiar. It was similar to the blood pool on the Forbidden Island in the cage.

Han Fei was slightly stunned. He snorted. "I, Black Ghost, am not a bloodthirsty person. You can use money to buy your lives. What can a small array do to me? Block these puppets first and wait for me to break out."

Song Kaiyuan and the others were speechless. You're not a bloodthirsty person?! You killed all the people from the Song Kaiyuan in an instant and you said you're not a bloodthirsty person?

They didn't even think that Han Fei was so kind... Would he let them go out for nothing? But now, what could they do other than obey him?

Song Kaiyuan said, "Li Kaitian, stop the puppets. Jian Hui, your sword Qi is exhausted and you need to take a rest for a while."

These people immediately understood what Song Kaiyuan meant.

Among them, Jian Hui had the strongest explosive power. It was not true that his sword Qi was exhausted. Song Kaiyuan actually wanted Jian Hui to guard against Han Fei.

If they had to fight Han Fei, Jian Hui would be their last trump card.

Han Fei didn't care about that, because he didn't intend to kill these people at all.

Han Fei extended his hand and carved an array in the air. The complicated array patterns emerged one after another and soon outlined a short-distance directional teleportation array.

After the Vast Ocean Navigator confirmed that they could leave via this array, Han Fei was secretly relieved.

Han Fei said, "Hey, give me your Sun-Moon Shells now."

Song Kaiyuan's eyelids twitched crazily. Such skilled array drawing? It reminded him of the Nine Palace World. Was he mistaken?

At this moment, Song Kaiyuan and the others had no choice but to hand over their Sun-Moon Shells.

On one side was Fan Datong, and on the other side were thousands of Half-King corpses and the secret realm that they couldn't escape from. Song Kaiyuan felt that it was better to believe in Fan Datong.

Han Fei and Xia Xiaochan looked at each other, picked up the Sun-Moon Shells, and entered the teleportation array without hesitation.

Seeing that the two people had left, Lu Ran immediately said, "Song Kaiyuan, can you believe those two people? They are clearly robbers. How can they be so kind?"

Song Kaiyuan said impatiently, "Let's go! Do you want to be eaten by the puppets here? I know what I'm doing."

Jian Hui said, "I have another move, but I don't think I can kill him with that move. At most, I can seriously injure him."

"Don't think about it. This person's physique is unparalleled in the world. Didn't you see that those king-level strikes couldn't hurt him at all? Let's go..."

...

In the outside world.

The Hexagon Starfish heaved a sigh of relief. "We're finally out and safe."

Here, the environment was complicated. It was full of strangely-shaped rocks.

Xia Xiaochan said in surprise, "This doesn't seem to be the City of the Dead! This is the Soul Burial Valley, one of the three forbidden places in the Land of King Death."

Han Fei raised his eyebrows and quickly recalled. He was lost for words. "That's true. I was wondering why it was so dangerous here. So, the City of the Dead and the Soul Burial Valley are connected!"

Swish! Swish! Swish!

At this moment, Song Kaiyuan and the others also came out of the array.

They were all stunned. Li Kaitian said in shock, "We actually came out!"

Lu Ran was surprised. "So all we needed was just a teleportation array."

Jian Hui: "The art of arrays is indeed profound."

"Humph ~"

Han Fei snorted. "Don't be envious. You can't learn it."

Han Fei quickly glanced at their Sun-Moon Shells.

As they said, there weren't many good things inside, mostly resources and materials. However, Han Fei didn't expect them to find 63 keys.

Han Fei's eyes glittered, wondering if these people still had any?

However, Jian Hui had been holding his breath. It was not appropriate for him to make a move. What if he accidentally killed them?

Therefore, Han Fei took all the nine Sun-Moon Shells and threw out nine empty ones.

Han Fei said leisurely, "I saved your lives, but it's useless to take your Sun-Moon Shells. Since you don't have storage equipment, I'll give you nine Sun-Moon Shells. You don't have to thank me."

Song Kaiyuan was speechless.

Everyone : "..."

Satisfied, Han Fei glanced at Xia Xiaochan and said, "Let's go!"

...

Song Kaiyuan and the others watched Han Fei and Xia Xiaochan leave with complicated expressions.

In the void, Han Fei's voice lingered. "Black and White Ghosts return to the sea. The deal is made on the spot and no credit is allowed."

### **Chapter 1774: Complete Annihilation of the Soul Sealing World**

Han Fei and Xia Xiaochan finally appeared in the safe sea area.

This was a great freedom for Xia Xiaochan.

Right now, there were only a few dozen places worth exploring in the Land of King Death.

From the so-called keys he found, Han Fei suspected that these things were found in the garbage heap in the Monarch Palace.

They were all things from the Monarch Palace. Even the things in the garbage heap could be tainted by the Dao runes of the Monarch Palace, right?

The first thing Han Fei and Xia Xiaochan did after they came out was not to study how much money they had and how many treasures they had got.

None of this meant much to them anymore.

Han Fei wanted resources because he wanted to be prepared. Sometimes, caught off guard, he would need resources.

Besides, the resources that Han Fei had saved were not just for himself.

The Raging Sea was rich in resources. Compared to the people of the Yin-Yang World, the people here could be said to be living in luxury and could even cultivate by breathing.

However, the Yin-Yang World couldn't. No matter how many resources he plundered now, could it be enough for the billions of people in the Yin-Yang World to cultivate?

Therefore, he had to continue snatching resources. They might be useful someday.

At this moment, Han Fei controlled the Vast Ocean Navigator, heading for a place not far away from the Soul Burial Valley.

Han Fei's target was, of course, the remaining strong masters of the Soul Sealing World. The whole Soul Sealing World was here to kill Xia Xiaochan, so all the people from the Soul Sealing World must die.

Updates by

These people might have some way to track Xia Xiaochan. That was why so many of them appeared in the Death Valley and the Soul Burial Valley.

As long as the strong masters of the Soul Sealing World weren't annihilated, Han Fei couldn't calm down.

Xia Xiaochan said, "When I was in the Merman Pirates, no one from the Soul Sealing World came to kill me. But this time, they seem to know where I am and followed me all the way."

Han Fei said, "Perhaps, when you're in the Mermen Pirates, there might be a king secretly following you... Or they can sense your location through your bloodline within a short distance, but they might not be able to sense you if you're too far away."

This was what the old turtle had just told Han Fei. Han Fei felt that the second possibility was very likely.

Just like how Little White could track a designated enemy, as long as the other party did not enter a small world, she could definitely track the enemy within a short distance.

At least, she could track the enemy to where he disappeared. However, it would not work if the enemy was far away.

Xia Xiaochan said, "Chun Huangdian will definitely search for me after I disappear. Since I can find information about the Wild Abyss, Chun Huangdian can too. He took me away from there."

Hearing what Xia Xiaochan said, Han Fei asked, "Did Chun Huangdian take you here from the only exit of the Wild Abyss?"

Xia Xiaochan shook her head. "No, he set up an altar. Then I stood on the altar and appeared in the Raging Sea through it."

"Huh? An altar?"

Han Fei was refreshed. "Are you saying that Chun Huangdian didn't take you out of the Wild Abyss directly? Then when you appeared in the Raging Sea, was there a super vortex around you?"

Xia Xiaochan shook her head again. "No."

Han Fei's heart trembled. So, Chun Huangdian's so-called taking Xia Xiaochan away was just teleporting her away through a magical teleportation altar. Besides, this kind of teleportation altar was directional.

The problem was not the altar, but whether Chun Huangdian could enter the Wild Abyss...

After all, Chun Huangdian only sent over a projection to take Xia Xiaochan here. Although he didn't know how he could cast his projection so far, maybe this was the unique talent of the strong!

Xia Xiaochan asked, "Are you wondering if he can go in? I asked him, but he didn't answer."

"Did you ask him directly?"

Xia Xiaochan nodded. "When I was brought back to the Mermaid Royal Family by him, I thought about going back every day and often asked these questions."

Han Fei asked, "He never answered?"

Xia Xiaochan shook her head. "No... Oh, but after I became a Venerable and failed to escape many times, he said that it was more dangerous than I thought. He said that if I wanted to go back, I might not be able to go back to the Yin-Yang World at all."

Han Fei narrowed his eyes slightly. "Interesting. Don't worry, I won't be reckless. Even if I have to meet him in the future, I will be prepared and won't let him catch me."

Han Fei was eager to return to the Yin-Yang World to become a king, so he certainly wouldn't fight Chun Huangdian head-on. His life was very valuable now!

He didn't bring Little Fatty over.. If he died, could he be revived? It was hard to say.

Back then, he had thought that it would be easy to find a person.

In the end, it was only half done. He still had to wait patiently for the trial in the Land of King Death to end and hitch a ride to the Glazed Glass World.

Now, according to Xia Xiaochan, apart from confirming there was indeed another unknown danger in the Wild Abyss.

Han Fei was still not sure if Chun Huangdian could really enter the Yin-Yang World.

Han Fei learned from the Devil Girl Pirates that more than once, someone had entered, and even a king had entered.

However, that was all hearsay. Han Fei didn't know how much they knew.

Han Fei's heart did a flip. "Girl, you said that the place with the most information in the Raging Sea is Martial Emperor City?"

Xia Xiaochan nodded. "Yes! Although I'm not sure, I got some information from the Mermen Pirates. Martial Emperor City is guarded by strong masters. Although it's like a black market, it's always fair. At least in Martial Emperor City."

Han Fei immediately made up his mind that he would have to go to Martial Emperor City after finding Ying'er!

At this moment, Han Fei subconsciously pinched his fingers and perceived that someone had appeared and was coming in his direction.

Han Fei couldn't help but say, "Girl, here they come, the guys from the Soul Sealing World."

Xia Xiaochan looked at Han Fei in surprise. "You can perceive so far away?"

Surprised, Xia Xiaochan had already drawn her dagger and was ready to fight.

Just walking out of the Soul Burial Valley was not perfect.

Only when all the people of the Soul Sealing World died could they be truly free.

A moment later, Han Fei said, "Two batches of people came. One batch slightly deviates from the direction of the Soul Burial Valley, and the other batch is in the direction of the City of the Dead. It seems that they didn't know that the City of the Dead and the Soul Burial Valley were inter-connected and weren't 100% sure of your location. Therefore, they sent people in both directions. Otherwise, if they all went in, the consequences would be unimaginable."

Xia Xiaochan snorted. "Humph, let's kill them all this time."

Han Fei sighed. "Even though 16 people have died, there seem to be 13 people left. If they all have the king-level strikes, it will be quite troublesome to fight them. Why don't..."

Xia Xiaochan asked, "Yes?"

...

Although the people from the Soul Sealing World were coming here, they were a little puzzled. Did the people who went in not find Xia Xiaochan, or did she escape? Why did Xia Xiaochan appear outside?

However, these people came here to hunt Xia Xiaochan.

Keys to the Monarch Palace? They had never even thought about it.

Now that Xia Xiaochan appeared, how could they let go of this opportunity?

A moment later, when the two groups hadn't arrived yet, Xia Xiaochan pretended to discover them and began to escape.

However, her speed of escape was not fast. Even though she had the wings of the Heavenly Cicada, the smell of blood couldn't escape these people's noses.

Someone sneered. "She's seriously injured? She escaped? She's indeed a worthy descendant of the Heavenly Cicada. Unfortunately, she can't escape far."

A moment later, when the people from both sides gathered, both sides were surprised.

Someone asked in surprise, "Are you here too?"

Someone replied, "It seems that she came out from the Soul Burial Valley and didn't walk out of the entrance. She must have come out through another exit. Therefore, both side failed to kill her."

Swish ~

When these people were only a few thousand kilometers away from Xia Xiaochan, someone shot arrows at her and tried to stop her.

Xia Xiaochan pretended that she couldn't run anymore. Her battle suit was shabby, her face was pale, and her feet were unsteady.

"Hey, you, stop!"

"You should know that you can't escape."

"Heh! You shouldn't have come to participate in the trial of the Land of King Death."

For a moment, Xia Xiaochan was surrounded.

With a buzz, the six-gate array appeared and protected Xia Xiaochan in it.

Someone sneered. "What's the point? The Hexagon Starfish is not even an advanced Venerable. No matter how powerful his six-gate array is, how long can it stop us?"

"Do it!"

However, when these people approached Xia Xiaochan, someone suddenly found that he couldn't use his great techniques.

At this moment, a gray mist swept over.

In the mist, thousands of sharp blades slashed at them.

"Hmph! Stupid tricks."

Someone said, "The color of this mist is strange. Be careful of poison."

Everyone was about to use their spiritual energy protective cover to block or touch it tentatively, but no one was afraid. They thought to themselves, What danger can shake so many of us at once?

"Ew..."

"Ew..."

Gray mist erupted around them, however.

At some point, this gray substance also appeared on their bodies. When the smell spread, these Half-Kings were immediately stunned. What the hell is this smell?

"Pfft!"

At this moment, a figure appeared out of thin air and pierced through a person.

On the other side, a black mist minced the flesh of another Half-King. It was Han Fei's black mist body.

Xia Xiaochan burst out at the same time and rushed out of the six-gate array...

Xia Xiaochan replied coldly, "This is the first time I've responded to your pursuit. One day, I will slaughter the entire An family..."

### **Chapter 1775: A Projection**

"Ew..."

The 13 people from the Soul Sealing World almost fainted from the stench. Their souls were shaken, and blood flowed from their seven orifices.

It was a retch from the depth of their souls, as if a lump of sh\*t was stuck in their throats.

Because of this retching, three Half-Kings died.

In such a situation, the people from the Soul Sealing World immediately shouted, "Retreat!"

Unfortunately, all laws were forbidden in this space.

Han Fei was the kind of person who liked fighting a quick battle, not to mention that Xia Xiaochan was here!

In just three seconds, in the stinky environment created by Han Fei, four more Half-Kings were hunted.

After all, this was not in a secret realm. If they tried their best to flee, Han Fei couldn't do anything about it.

However, Han Fei wasn't quite worried.

In this battle, seven people died.

There were only six people left in the Soul Sealing World. He could kill them one by one.

Three days later.

The last person of the Soul Sealing World was hiding in a three-star danger zone. At this moment, he knew that most of their people must have died.

Updates by

As expected, it was not easy to hunt such a Heavenly Talent.

He had to make a long-term plan when he went out this time. Maybe only kings could hunt Xia Xiaochan and Half-Kings would probably have no chance!

Bang!

This person was sitting cross-legged and recuperating when the secret realm was suddenly blasted open. He saw that Han Fei and Xia Xiaochan had actually found this place.

The man was horrified. "How did you track my location?"

Xia Xiaochan asked, "How can you track my location?"

The man's face darkened. "Even if we are all killed, you won't be able to escape. There will be endless people hunting you until you die."

Han Fei sneered. "It seems that the Soul Sealing World is fed up with staying in the inner domain. Don't worry. In the future, I'll kill your kings too! Wait for them in hell!"

"Hmph, shameless boasting!"

This person jumped up.

In an instant, his blood essence was burnt out. He launched a king-level strike to fight for his last chance.

However, despair slowly appeared in the man's eyes. Why was that man able to resist a king-level strike? Even after burning his blood essence, he was still no match for that man?

Bang!

In the billowing smoke and dust, when the last person of the Soul Sealing World died, Han Fei was slightly relieved. "Twenty-nine Half-Kings died in a row. I'd like to see how many more Half-Kings there are in the Soul Sealing World."

Xia Xiaochan heaved a sigh of relief as if she had solved a problem. She was obviously delighted and said, "What are we going to do next? Do we still need to find the keys to the Monarch Palace?"

Han Fei said, "Of course! Why not? These keys can make all the forces in the Raging Sea so crazy, which only means one thing. These keys are very valuable and rare. With every key, one more person can explore the Monarch Palace. And with one more person, one more chance to become a king."

...

In the outside world.

On the ship of the Soul Sealing World, a middle-aged man's expression was extremely ugly when he saw all the Life Monuments shatter.

"Could it be that the strength of that dreg is actually in the Sea Establishment Realm?"

...

After hunting all the people from the Soul Sealing World, although Han Fei and Xia Xiaochan were going to continue looking for the key, it was obviously not worth it if they found them themselves.

Wasn't it easier and faster to have countless other people look for them than find the keys themselves?

Of course, before hunting indiscriminately, Han Fei had one more thing to do.

While Han Fei and Xia Xiaochan had a narrow escape, on the other side, the war between the Snow God's Temple and the Golden Crow World had begun.

These two worlds had a personal grudge because the Snow God's Temple had embarrassed the Golden Crow World. Then, they were humiliated again in the Supreme Clearness World.

If they couldn't get revenge, how could the Golden Crow World be ranked fourth among the Thirty-Six Mystic Worlds?

As the saying went, a starving camel was still bigger than a horse. Han Fei had defeated three people in a row in the Heavenly Imperial Ancient Tree.

However, that was a battle between top Heavenly Talents. In fact, no matter who came, even if it was someone from the Supreme Clearness World, the result would be the same.

Wasn't Ji Chen a top Heavenly Talent of the Supreme Clearness World? Now, he had become Han Fei's puppet.

However, the people of the Golden Crow World did not realize the seriousness of this problem.

They only felt that they had lost face, and they had not figured out the true strength and temperament of the Holy Child, Xue Zhan...

At this moment, many people in the Golden Crow World were ordered to kill anyone from the Snow God's Temple.

Unfortunately, in the exploration of peak-level Venerables, the probability of the two Heavenly Palaces meeting was not high.

After all, there were more than a hundred four-star danger zones. How could it be so easy for them to encounter?

However, it wouldn't be difficult to find Ice Snow Chuling and the other two Half-Kings, because there were only a dozen five-star danger zones. If they searched them one by one, they would most likely find them.

Ten days after the Land of King Death opened.

Outside one of the five-star danger zones, Ice Snow Chuling and Han Fei's projected clones were fighting and retreating.

Opposite them was Tian Heng of the Golden Crow World and three Half-Kings that they did not know.

If there were only these four people, Han Fei and Ice Snow Chuling wouldn't care at all.

Even if Han Fei's original body wasn't here, he couldn't be easily defeated by four mere Half-Kings.

Besides, Ice Snow Chuling was the Holy Maiden of the Snow God's Temple.

After she recovered, her strength was not as weak as people had imagined.

The one only second to the king of the Snow God's Temple wouldn't be weak. Even if she had an opponent, it would be Xia Hai of the Golden Crow World.

But now, she was trapped partly because Han Fei was only a projection now, and partly because another person was involved.

Ice Snow Chuling shouted in a low voice, "Chou Hentian, the Snow God's Temple and your Mad Corpse World have always been peaceful. What do you mean?"

On the other side, a cold young man sneered and looked at Ice Snow Chuling. "If you want to blame someone, blame yourself for provoking the Golden Crow World. Besides, I really like the two Sea Quelling Bizarre Treasures on you. Of course, what attracts me the most is you two's bodies. The Holy Child and the Holy Maiden, one walks the path of body refinement, and the other has the Ultimate Yin Body. Once I refine the two of you into corpse puppets, tsk tsk..."

Ice Snow Chuling's face turned ugly. "Chou Hentian, you're bringing trouble to the Mad Corpse World."

"Hahaha! Ice Snow Chuling, don't make a fuss about it. No one below the king realm can affect the relationship between the Heavenly Palaces. Do you think the Snow Lady cares about you? Is she willing to have a war with our Mad Corpse World for you?"

Bang! Bang! Bang!

Han Fei attacked Tian Heng and the other three alone. At this moment, the battle was earth-shattering and raging waves rolled.

On Ice Snow Chuling's side, it wasn't any better. The Mad Corpse World's Chou Hentian was a genius at refining corpses. Now, he controlled five Half-King corpse puppets.

They were not ordinary corpse puppets but conscious corpses that had already become Bas.

Moreover, these five corpses were actually a perfect combination. There were a spirit gatherer, a manipulator, a soul warrior, a hunter, and an armorist. The division of labor of everyone was clear.

And Chou Hentian controlled the puppets while waiting for an opportunity to attack personally.

At this moment, Han Fei suddenly said, "Golden Crows, if you retreat now, you won't die. Otherwise, you won't have a chance to live even if you kneel down and beg."

"Hahaha! Xue Zhan, you're about to die. Who are you trying to scare?"

Tian Heng burst into laughter, and the Thorny Ring of Fire danced in his hand, filling the sky with strange fires.

Tian Heng said, "I was wondering how strong you were. It turns out that you're only so-so. It seems that under the Heavenly Imperial Tree, you were only slightly better than me because I wasn't familiar with your combat skills. Today, I'll make you pay a hundred times for your humiliation on me."

Han Fei shook his head slightly.

Just now, he had sensed that his original body was approaching, so he dared to speak.

In the end, the projection was only a projection. It did not have the enhancement of the power of the Great Dao or the physique of the original body... It could only be said that the strength of this projection was extraordinary. Among the Half-Kings, it was also among the Heavenly Talents.

However, once he encountered a true Heavenly Talent, the projection would eventually collapse.

When Han Fei split the projection, he didn't expect that it would take him so long...

At that time, Han Fei thought that he could return on the same day. It was already a miracle that a projection could last until now.

Bang!

Han Fei's clone was sent flying into the sea.

Ice Snow Chuling's expression changed drastically. Snowmourne locked the void, and a long frost dragon soared into the sky. The blizzard swept towards the five Corpse Puppets with the power of the Great Dao.

Ice Snow Chuling tried to help Han Fei, but Chou Hentian suddenly attacked.

Clang! Clang! Clang!

A bell rang in Chou Hentian's hands, and a blood-colored centipede emerged from the sea. A large amount of red mist wrapped around the long frost dragon and shattered it.

Chou Hentian said, "I also thought that Xue Zhan was very strong... I didn't expect his real combat power to be so weak. It turns out that he was just putting on a show. I wonder how he won the Heavenly Imperial Contest."

Boom ~

The waves exploded, and Han Fei's projection struck with a spear with all his strength, which collided with a pillar of flames and shattered.

“Cough, cough ~”

Han Fei’s two arms were burnt by the strange flames.

“Hahaha! Holy Child, you’re just so-so. Die...”

When Tian Heng threw a fire spear at Han Fei’s projection, Han Fei also looked at Tian Heng sympathetically. “Ignorance is really scary.”

Bang!

Han Fei’s projection exploded.

In the next second, Tian Heng was shocked. “How is this possible? Is this only a projection?”

“Hiss...”

Instantly, all the attackers gasped.

Chou Hentian’s expression changed drastically. Are you kidding me? Did we chase a projection for days?

#### **Chapter 1776: A Golden Skeleton Is Really Cool**

At that time, Tian Heng and the other Half-Kings were all dumbfounded. Just now, they were mocking Xue Zhan... They said that he just put on a show.

But now, they felt terrified.

I’ve been fighting with a clone for a few days? How strong would his original body be?

But now, the problem was that if the one here was only a clone, where was Xue Zhan’s original body?

Immediately, although Tian Heng was shocked, he thought to himself, Since this clone held on for several days, it means that the original body must be busy and can’t come back.

Tian Heng knew that many people had gone to the forbidden places.

He guessed that Xue Zhan’s original body might have sneaked in a forbidden place, so he couldn’t come out yet.

At that moment, Tian Heng made up his mind and shouted, “Chou Hentian, the arrow is already on the bow. We have no choice but to fight. Let’s quickly take down Ice Snow Chuling while Xue Zhan’s original body is not here!”

Chou Hentian’s eyes flickered. He had offended Ice Snow Chuling. Even if he escaped now, the Ice Snow World would still have a grudge against him in the future. When they met, it would be a fight to the death. He might as well go all out this time. Could Ice Snow Chuling resist so many Half-Kings alone?

“Okay ~”

Chou Hentian responded and went all out. Among the five corpses, the hunter hid and the armorer stirred the void.

Tian Heng shouted, “Quick, kill Ice Snow Chuling first.”

Buzz!

Ice Snow Chuling had just broken through to the Half-King Realm. Although her combat power was extraordinary, she couldn't resist so many people alone. Once Han Fei's clone was destroyed, she would have no chance of escaping.

She thought to herself, Anyway, I only had a few hundred years to live, and I was just lucky to meet Han Fei, so my illness was cured. Now, I definitely won't let Chou Hentian get my body and refine it into a Corpse Puppet... She was ready to blow herself up at any time.

Even if she died, she must take a few people with her!

"Puff ~"

Just as she was about to go all out and fight the last battle, the void suddenly shook.

Two figures descended from the void.

One of them was Chou Hentian's hunter corpse puppet. It had been cut into 17 or 18 pieces.

Another figure, dressed in white and wearing a tall hat, stood in the void with a pale face, holding two daggers in her hands.

"What?"

Chou Hentian was shocked. "Where did this hunter come from?"

On the other side, Tian Heng sensed something. He fused with Lava Tortoise and a shield appeared on his body.

Beside him, a Half-King was cut into two by a void crack that suddenly appeared.

"Hiss ~"

Tian Heng quickly retreated.

At this moment, a voice sounded leisurely, "Evil ghosts hook souls, and impermanence takes lives. In the Death Valley of the Land of King Death, the Black and White Impermanence appeared. Money will pave the way and resources will buy your lives. The deal is made on the spot and no credit is allowed."

In the next moment, Han Fei appeared in front of Ice Snow Chuling's big ship.

Han Fei said, "I'm Fan Datong, the Black Ghost. I can kill them and you just need to pay me one spiritual stone. Pay up!"

Ice Snow Chuling: "..."

Tian Heng: "..."

Chou Hentian: "..."

When Ice Snow Chuling heard the name Fan Datong, she was greatly relieved. She didn't know how Han Fei became so fat.

Wasn't Han Fei very handsome?

However, since Han Fei had arrived, she was safe.

But Tian Heng and the others were in danger.

Tian Heng immediately shouted, "Are you Xue Zhan?"

Han Fei looked back in shock. "How did you find out?"

Tian Heng was speechless. Do you think we're fools? A mere ultra-quality spiritual stone can buy the lives of all of us? Or are you insulting us?

Han Fei immediately smiled. "Since you've seen through my identity, I can't let you go. Die!"

Han Fei's strength had reached the peak. The two Half-Kings approached him, intending to kill him.

However, to their surprise, Tian Heng retreated and tried to escape.

Buzz!

However, Han Fei had already arrived. How could Tian Heng run away?

A shadow appeared out of thin air and blocked Tian Heng.

Tian Heng was shocked. "It's really you... Impossible! This is the power of a king's projection. How can a mere Half-King have such strength?"

However, when Tian Heng saw Han Fei blow up two Half-Kings with two punches, he was stunned and swallowed subconsciously.

He was horrified. "You, you are a king?"

Han Fei held his spear and knocked on the Heaven Gate. He chuckled. "Congratulations, you, guessed, wrong..."

Clang!

It had to be said that someone who could become a candidate for the king still had some strength.

Tian Heng's defense was so strong that Han Fei couldn't break it.

Of course, even if it wasn't broken, it didn't mean that Tian Heng was fine. Stabbed by Han Fei, he bled.

Tian Heng shouted, "Brother Xue Zhan, this is just a misunderstanding. Let's call it quits. The grudge between our Golden Crow World and the Snow God's Temple is settled. You don't want to make things awkward, do you?"

However, Han Fei attacked again with the Embroidery Needle.

Clang!

Crack ~

On the second strike, Tian Heng's turtle shield was full of cracks.

Han Fei smiled. "It's none of my business. I'm not from the Snow God's Temple."

Tian Heng: "???"

Bang!

After knocking on the Heaven Gate three times, Han Fei finally broke Tian Heng's shield, and the consequences could be imagined.

In Tian Heng's horror, Han Fei knocked him down with his spear.

Han Fei was about to control his soul with the Void Lines. After all, Tian Heng had a lot of soul power.

However, to Han Fei's surprise, when he pressed the Void Lines on Tian Heng, he saw a trace of determination and cruelty in Tian Heng's eyes.

Han Fei immediately withdrew the Void Lines, and then Tian Heng exploded into a dazzling and blazing ball of light. The temperature of this ball of light was so high that it burned Han Fei's flesh into ashes in an instant.

"Han Fei!"

Xia Xiaochan was shocked and wanted to save him.

However, the explosion was too violent. Master Hexagon activated the Six-Gate Array and blocked Xia Xiaochan.

Ice Snow Chuling did not dare to be negligent. With a flash between her eyebrows, the Ice Sea Locust formed an extremely cold ice shield in front of her. Even so, after the scorching energy, most of the ice shield collapsed.

The battle suit on Ice Snow Chuling was incinerated.

And this was the best time for Chou Hentian to escape.

However, the scorching fire energy engulfed everything within a thousand kilometers.

Chou Hentian's armorist puppet blocked the attack with his giant shield.

Of course, he did not have the Six-Gate Array or the Ice Sea Leech, so he was injured immediately. His entire back was almost burned into nothingness, and his soul was severely injured.

However, because Chou Hentian was the furthest away from Han Fei, he managed to run away after sacrificing his armorist puppet.

At this moment, Chou Hentian was horrified. Xue Zhan, the Holy Child, Han Fei, and the Avenger were the same person? Even the Snow Lady couldn't explain it.

That would completely arouse the hostility and attack of Golden Crow, the Supreme Clearness, and Infinity against the Snow God's Temple.

As long as he could get out, the Snow God's Temple would be finished. He could even use this to blackmail them.

At that time, even if he wanted a Sea Quelling Bizarre Treasure, the Snow Lady would have to give it to him.

However, just as Chou Hentian thought that he had run out, he saw a figure standing in front of him.

“Where are you going?”

“Hiss~ You’re not dead?”

Chou Hentian was horrified. What the f\*ck is this? That’s the Sky-Burning Technique of the Golden Crow! It can only be used once when the user dies. It’s impossible to resist it in the same realm. How can this person still use a projection? Is he really a king?

When the explosion was over, Ice Snow Chuling and Xia Xiaochan saw a golden skeleton standing in the air. The golden skeleton was glowing and smooth, and its bones were as smooth as mirrors.

The Hexagon Starfish’s eyes almost popped out. If this was an inanimate skeleton, it would definitely keep it in its six doors. Its golden bones were too gorgeous.

Xia Xiaochan scolded, “B\*stard, can you not do such dangerous things next time?”

Han Fei sweated. “Okay, okay.”

Buzz!

At that time, when the Heaven Enlightenment Divine Technique descended, under the envelopment of the holy light pillar, a dense fog flowed back from thousands of kilometers away.

Han Fei’s flesh and blood were recovering at a visible speed.

In just over a dozen seconds, Han Fei had basically recovered.

He put on a battle suit and his facial features appeared. After three to five seconds more, he returned to normal.

At this moment, Chou Hentian was still trying to quickly defeat Han Fei’s projection. However, he knew that it was futile. This clone could stop Tian Heng and the others for two days, and he had killed two of Chou Hentian’s five Half-King puppets, but they still couldn’t trap Han Fei’s clone.

However, Chou Hentian did not beg for mercy because he knew that he had heard something he should not have heard. There was no room for negotiation.

Immediately, Chou Hentian controlled his two puppets to retreat, and the spirit gatherer self-destructed.

He thought to himself, I can’t blow up your original body. Can’t I even stop your clone for a moment?

However, at the next moment, something that made him despair happened. Just as he was about to run, he saw another projection clone appear behind him.

At this moment, Xia Xiaochan and Ice Snow Chuling had already solved their enemies. Han Fei didn’t need to do anything at all. The Giant Arowana roared and suppressed Chou Hentian.

Before Ice Snow Chuling could make a move, Xia Xiaochan's gorgeous explosive attack quickly killed Chou Hentian.

Even though he took out several peak-level Venerable puppets, none of them could keep up with Xia Xiaochan.

When Xia Xiaochan came back with a Sun-Moon Shell, there were still seven or eight masterless puppets at the peak of the Venerable realm.

Han Fei flicked his fishing hook. "They should be worth some money. I'll sell them in Martial Emperor City later."

### **Chapter 1777: Cooking King's Flesh**

The moment Han Fei appeared, Ice Snow Chuling knew that she was saved.

Otherwise, if she had to deal with so many strong cultivators alone, even if she tried her best, she would only be able to kill one or two.

However, what shocked Ice Snow Chuling was: Who is this woman?

Now that Han Fei had changed his appearance into a fatty, the woman probably didn't show her true appearance either. Besides, the rhythm of the battle just now was too fast for her to react.

Ice Snow Chuling was only suspicious. Was the woman using the Six Gate Heaven Defying Array just now?

The existence of the Hexagon Starfish was exposed when Xia Xiaochan was in the Mermaid Pirates. There was only one Hexagon Starfish in the entire Raging Sea.

Ice Snow Chuling had to suspect that this woman was not a human but a mermaid.

Of course, with Han Fei's relationship with the Snow God's Temple, Ice Snow Chuling certainly wouldn't mention it.

Ice Snow Chuling bowed slightly and said, "Thank you for saving me, Immortal Master."

At this moment, Xia Xiaochan looked at Ice Snow Chuling curiously. Although she was standing beside Han Fei obediently, her fingers had already pinched the flesh on Han Fei's waist.

The corners of Han Fei's mouth twitched slightly, but he said calmly, "I made an agreement with the Snow Lady. You don't have to take it to heart. I was trapped in the Soul Burial Valley these days, so I am a little late. Did anything happen in the outside world?"

"Soul Burial Valley?"

Seeing that Han Fei kept a distance from her, Ice Snow Chuling guessed that it must be because of this girl. Therefore, she replied in a dignified manner, "Has the Soul Burial Valley been explored?"

Han Fei nodded. "Yes."

Ice Snow Chuling said, "If the Soul Burial Valley has been explored, then only one of the three forbidden places, the Undersea Palace, has not been explored. In the ten days you were away, another forbidden

place, the Demon Plant Cave, has also been explored, and many Half-King masters have died there. It is said that a Sea Quelling Bizarre Treasure and an ancient seed have been found there, and hundreds of Monarch Palace Keys had been found there. Among the five-star dangerous places, three have collapsed, namely the City of the Dead, the Sound Tide Cave, and the Sea of Sand. As for the rest, I'm not sure... Does your clone remember what happened these days?"

Han Fei nodded. "Yes!"

In the past ten days, Ice Snow Chuling and his clone had explored two five-star danger zones. And when they came out of the second, they met Tian Heng and the others and were chased and fought until now.

She couldn't be blamed. She was the Holy Lady, but the others weren't weak. His original body was not here and with the help of only a Half-King clone, she might not be able to defeat those people.

If in the few days that he wasn't around, Ice Snow Chuling had encountered the people from the Soul Sealing World, she would definitely be dead by now.

But now, Han Fei certainly wouldn't stay here for Ice Snow Chuling.

Han Fei opened the map and secretly turned the Vast Ocean Navigator.

A moment later, another Half-King projection of Han Fei descended and landed on the ship of Ice Snow Chuling. "Chu Yang and Qin Yu are in the Undersea Fire Cave. Together with my clone, the four of you are enough to intimidate the enemy."

Then, Han Fei took out a jade slip, drew for a long time, and branded a teleportation array.

Han Fei threw the jade slip to his projection and said, "If you encounter any inevitable danger, buy me five seconds. I can make it in time. If I'm in a secret realm, I'm afraid it will be difficult for me to reach it. By the way, I've prepared the keys that the Snow God's Temple needs. It's safer to keep them on me for the time being. When I leave, I'll find you and give you these keys."

Ice Snow Chuling secretly sighed. Han Fei had done enough to ensure her security. In terms of the deal, Han Fei had already done what he should do. He had cured her illness and helped the Snow God's Temple get what they needed. He had also established a friendly relationship with the Snow God's Temple. This was enough.

Now that Han Fei had his own plans, she couldn't ask him to stay.

Ice Snow Chuling immediately bowed and said, "Immortal Master, please help yourself. Although I'm not as strong as you, I'm not afraid of anyone if I team with Chu Yang and Qin Yu."

Han Fei nodded slightly. "Okay, I'll go first."

...

A moment later, Han Fei and Xia Xiaochan lay comfortably on the sea.

Xia Xiaochan narrowed her eyes. "Who is that beautiful girl?"

Han Fei grinned and said, "Well, she is the Holy Lady of the Snow God's Temple. I made an agreement with their Palace Master, the Snow Lady. She helped me participate in the trial in the Land of King

Death, and I helped her look after the Heavenly Talents of the Snow God's Temple. I owe her 20 Monarch Palace keys. Otherwise, I couldn't have come to the Land of King Death alone!"

"Hmph, you'd better be honest. Sigh, did you know in advance that I was going to participate in the trial in the Land of King Death?"

After a pause, Xia Xiaochan immediately realized something. "Well, you're going to the Glazed Glass World, right?"

Han Fei shrugged and thought to himself, You've already guessed it. Why are you still asking?

Xia Xiaochan thought for a moment and said, "It's said that there are more women than men in the Glazed Glass World, and the ratio of men to women is about one to ten. Are you going to pretend to be a woman to go there?"

Han Fei's eyelids twitched. "Where did you hear that? Is it accurate?"

Xia Xiaochan said, "I'm very concerned about the Raging Sea now. I've read almost all the historical records. Do you think it's inaccurate?"

When Han Fei was about to speak, Xia Xiaochan stomped on the deck and said with her hands on her hips, "So, in the Glazed Glass World, you'll be my little follower. That way, no one will doubt you. Come on, let's practice first."

"Heihei~"

A strange smile appeared on Han Fei's face. "You want me to be your little follower..."

"Ahhh~"

Slap!

Master Hexagon was immediately thrown out. His big eyes rolled as he muttered, "Humans! Why are they always immersed in such low-level desires? We starfish are different. We pursue..."

"You pursue laziness ~"

Before the Hexagon Starfish finished speaking, the phantom of mountains and rivers appeared, and Master Hexagon was put in.

At this point, no one disturbed Han Fei and Xia Xiaochan anymore.

Half a day later...

Han Fei and Xia Xiaochan were cooking a huge piece of fish.

This was a king's flesh that Xia Xiaochan had carefully prepared. There was as much as a small mountain of kings' flesh in one of the Hexagon Starfish's gates.

This kind of flesh and blood was very useful for Han Fei's current cultivation.

However, at this moment, Han Fei was not here to cultivate, but to introduce Xia Xiaochan to his men.

The illusion of mountains and rivers appeared, and Xiao Se, Nian'er, Tree Spirit, Master Hexagon, and the old turtle who had been cultivating in Forge the Universe all came out.

As soon as this group of people came out, Xia Xiaochan was stunned. "Wait, how many people are there in your portable world?"

Han Fei said, "They're all here."

Tree Spirit and the others were terrified because they felt that the meat in the pot in front of Han Fei had a suppressing effect on them.

The old turtle said leisurely, "This king's flesh is very beneficial to me."

Xiao Se was shocked. "King's flesh?"

Nian'er looked at Xia Xiaochan curiously. "Brother, who is this beautiful sister?"

Han Fei grinned. "Nian'er, this is your sister-in-law. You can call her sister-in-law."

"Hello, Sister-in-law. Brother, what does sister-in-law mean?"

Han Fei: "It means my wife."

Xia Xiaochan spat. Han Fei told her about Little Time, so she wasn't surprised. But he didn't tell her about Xiao Se and the others!

Han Fei introduced to Xia Xiaochan, "Xiao Se, Nian'er's bodyguard."

Xiao Se didn't know Xia Xiaochan's identity, but he knew her relationship with Han Fei, so he bowed slightly.

Han Fei pointed at Tree Spirit and the others. "Tree Spirit, Earth Nine, Fire Seed, Water Luster, Punishing Saber, they are all legend creatures."

"Greetings, Mistress."

Xia Xiaochan blushed. Since they had already called her that, she certainly should give them some gifts.

Immediately, Xia Xiaochan pulled the Hexagon Starfish over and said, "Big Starfish, pay up."

The Hexagon Starfish's eyes almost shrank. Then Xia Xiaochan gave Tree Spirit and the others a Breakthrough Pill each.

Xia Xiaochan gave Nian'er an ancient jade that could block a king-level strike.

When Xia Xiaochan looked at the old turtle, Han Fei said, "Old Yuan is my old servant, but I don't regard him as my old servant. Old Yuan is very strong and can become a king."

"Huh?"

Everyone immediately looked at Old Yuan.

At this moment, Old Yuan was still an advanced Venerable. Cultivating in Han Fei's Forge the Universe, he made rapid progress.

Besides, the resources he needed were just the ultra-quality spiritual stones that Han Fei had accumulated. Han Fei couldn't use them himself, nor could the old turtle, but they could help him grow quickly.

After such a long time, according to Old Yuan, he would be able to reach the peak of an advanced Venerable in about half a year.

Of course, half a year outside was fifteen or sixteen years in Forge the Universe. After all, Old Yuan wasn't as talented as Han Fei, and his strength had grown rapidly.

In his words, turtles didn't cultivate that fast.

"Huff~"

Han Fei only asked them to come out to eat the king's flesh.

However, before they could eat, Little Time seemed to be drunk as energy surged in her body.

Xiao Se's face changed. "Oh no, Little Master is about to transcend the tribulation."

Han Fei's face changed slightly.

With a flip of his hand, he took out hundreds of fish skin maps.

Han Fei said, "Nian'er, do you remember what I told you before? If you can't resist the Heavenly Tribulation, block it with arrays. Also, put on your battle suit and take the Thunder-Trapping Whip."

### **Chapter 1778: Nian'er's Tribulation**

Han Fei didn't expect that Nian'er was about to transcend the tribulation after she just smelled the king's flesh.

Han Fei underestimated the power of the king's flesh and blood. The auras of Earth Nine and Water Luster were also surging. It seemed that they would make a breakthrough soon.

Han Fei immediately said, "Stay away first. What if you are all to transcend the Heavenly Tribulation at the same time?"

Hearing this, Earth Nine, Water Luster, and the others wanted to retreat. At the same time, they sealed their perception and tried their best not to come into contact with the King's Aura. As for the Tree Spirit, Punishing Saber, and Fire Seed, they were special creatures and were not affected by this smell, so they were fine.

However, Han Fei estimated that since the king's blood could make Water Luster and Earth Nine react, the Punishing Saber and the others might be able to make a breakthrough if they applied kings' blood on their body...

Of course, they had to wait and let Nian'er transcend the tribulation first.

Nian'er was not stupid. She had long known that she was going to transcend the tribulation.

When she was still in the Wind Snow Dao Academy, she already had a premonition. However, she didn't want to transcend the tribulation, so she didn't transcend the tribulation.

Now, the opportunity had arrived. With a buzz, Nian'er transformed into a Time Dragon Carp and rushed out of the ship.

In the sky, wind and clouds gathered, and lightning snakes surged.

A huge vortex appeared in the sky.

Han Fei scanned the surroundings with his perception. Although he didn't know if anyone could recognize the Time Dragon Carp, no one was allowed to watch Nian'er's tribulation except them.

When the tribulation clouds spread for more than eight hundred kilometers, the first lightning tribulation finally arrived.

Boom!

Han Fei saw a trace of purple residual power on the first lightning.

Han Fei's face changed slightly. He couldn't help but look at the old turtle. "Old Yuan, the first lightning appeared purple. The level of Nian'er's lightning tribulation is higher than mine?"

The old turtle said, "Of course, Hers is much stronger than yours, and even stronger than mine. This means that not only is her accumulation strong enough, but her bloodline level is also very high. According to this situation, the third heavenly tribulation will become a complete purple lightning, and the fourth lightning is almost inevitable."

Han Fei's face changed slightly. "Will there be a fifth or sixth Heavenly Tribulation?"

The old turtle said, "Not all creatures are like the Emperor Sparrow. Although the Time Dragon Carp is terrifying, what's terrifying about them is their talent. Their talent is to control time, but it can't be said that their bloodline level is comparable to that of primeval beasts and ancient divine beasts. In my opinion, its life level must be at least a level higher, or even two levels, to be able to withstand the six minor heavenly tribulations."

Boom!

When a bolt of lightning fell, to Han Fei's surprise, Little Time didn't use the power of time. It opened its mouth and swallowed the lightning as domineering as the Emperor Sparrow.

Xiao Se said, "Little Master has swallowed energy for tens of thousands of years, so its body naturally can't withstand it! However, it can swallow the energy and hide it in its time fragments so that it can slowly digest it. The first lightning is not very powerful for Little Master. It can completely withstand it with time delay, so it can directly swallow it."

"Hidden in time fragments?"

Han Fei thought to himself, After Little Time passes this tribulation, I should ask her about the more wonderful uses of the Great Dao of Time...

Xia Xiaochan said in surprise, "Nian'er's first bolt of lightning was purple. Perhaps the fourth bolt of dark purple lightning can only be blocked when the array is fully activated?"

Han Fei couldn't help but ask, "How do you know that the fourth one is dark purple?"

Xia Xiaochan said, "Because mine was!"

"Uh ~"

Han Fei's eyelids twitched. Did Xia Xiaochan mean that her bloodline level was almost the same as that of the Time Dragon Carp?

According to the hint given by the Demon Purification Pot, he couldn't devour the bloodline of the Time Dragon Carp yet.

This meant that the power of Little Time's bloodline was at least a million times higher than his own.

Han Fei even thought that Xia Xiaochan's bloodline was among the top million in the Raging Sea, or even higher.

But when he was transcending the heavenly tribulation, due to the limitation of his bloodline, it wasn't until the fourth bolt of lightning that it turned purple. And this was probably because the Demon Purification Pot swallowed the power of the old turtle's Great Dao. Therefore, the Heavenly Tribulation almost killed him. Now that he thought about it, he was still scared.

Boom!

The second bolt of lightning struck, and the lightning was half purple. A blue halo erupted from Nian'er's body, and she completely withstood the power of the heavenly tribulation.

Han Fei looked at Xiao Se, who said, "Little Master didn't cultivate for tens of thousands of years because she wanted to survive all the Heavenly Tribulations, using the time of the past to consume the power of the Heavenly Tribulations. Because the first one wasn't strong, Little Master could bear it alone. However, from the second one, Little Master had to use the Time Technique."

Han Fei and Xia Xiaochan looked at each other.

In fact, even the old turtle was dumbfounded. Little Time could actually use the time of the past to bear the power of the Heavenly Tribulation?!

Since Xiao Se had already said this, no matter how powerful the next two Heavenly Tribulations were, they would probably not be able to shake Nian'er at all.

As expected, a moment later, the third purple Heavenly Tribulation completely dissolved into the Great Dao of Time around Nian'er. At this moment, Nian'er's aura was getting stronger and stronger.

The born advantage in race allowed Nian'er to display her powerful strength.

The fourth Heavenly Tribulation turned dark purple and enveloped Nian'er. Nian'er didn't open the hundreds of arrays Han Fei gave her.

Xia Xiaochan said in surprise, "The Time Dragon Carp race is really terrifying. I remember that when I transcended the tribulation, I passed it in the holy land of the mermaid royal family. I used three Sea Quelling Bizarre Treasures to transcend the tribulation safely."

Han Fei thought to himself, So what?

When I was transcending the tribulation, I was crushed into a meatball and didn't even know where I was!

The heavenly tribulation had yet to subside. Nian'er transformed from the little girl from before into a teenage girl. She looked to be twelve or thirteen years old.

Her height was nearly five feet.

Xia Xiaochan couldn't help being surprised. "Can breakthroughs make you grow up?"

Before Han Fei answered, Xiao Se said, "In theory, Little Master has lived for tens of thousands of years, but her strength and growth have been suppressed. Now that she has appeared in the outside world openly, her growth speed is astonishing. When Little Master breaks through to the Venerable realm, she will grow up a little more."

Han Fei was speechless. "I suspect that she can become a Venerable today."

What Han Fei said made sense.

Previously, Nian'er had soared to the Law Enforcer realm in one go. It was the most exaggerated breakthrough Han Fei had ever seen, which shocked him.

For example, although Nian'er had successfully transcended the tribulation, she did not return to the ship immediately. Instead, she stood on the sea. The surrounding spiritual energy storm began to spin, and all the resources on Nian'er were released at the same time.

Of course, some of them were Nian'er's own accumulation, and some were Han Fei's pocket money.

A hundred seconds later, when Han Fei felt that more than half of the spiritual energy and resources had been consumed, he waved his hand helplessly and ten thousand ultra-quality spiritual stones flew towards Nian'er.

Han Fei didn't know how Nian'er could withstand such a huge and continuous spiritual energy baptism.

On the ship, everyone except Xiao Se was shocked.

Two hours later, when Nian'er successfully stabilized her strength as an Explorer, a new round of breakthrough began.

Han Fei immediately said, "Come on, the hotpot is boiling! Have some. Water Luster, Earth Nine, have some soup."

Then, Han Fei took out a piece of bloody king's flesh and wiped it on Punishing Saber, squeezing two drops for Tree Spirit and Fire Seed.

Han Fei thought to himself, I wonder how long it will take for Nian'er to make a breakthrough. You should make your own breakthroughs.

At this time, Han Fei frowned, and the old turtle reminded him, "Some hundred demons and undersea humans are coming, all peak-level Venerables!"

Han Fei said, "It seems that the phenomenon here attracted them. However, since they're here, let's rob them."

"Crunch!"

Han Fei picked up a piece of meat and stuffed it into his mouth. With a thought, a Half-King projection appeared.

Han Fei said, "Ignore them and continue to eat. It's meaningless to rob peak-level Venerables. Even if they have a few Monarch Palace keys and some resources, they can't compare to Half-Kings. Just drive them away."

...

As the saying went, cast a long line to catch a big fish. Han Fei had long understood this truth. Below the king realm were all ants. He wasn't even interested in robbing them.

100,000 kilometers away, three undersea humans and four hundred demons rushed over.

One of them said, "Those who made a breakthrough here must be a peak-level Venerable. I guess he made a breakthrough here because he encountered an irresistible force, probably because he got a treasure. Remember, test his strength first. If he is weak, kill him immediately."

Buzz!

Just as these people were excited, thinking that they were going to make a fortune, suddenly, on their way, a person stood in the void with a rod.

Swish ~

The spear broke the void for thousands of kilometers, and before one of the peak-level Venerables could react, his body exploded, leaving only scraps.

"Retreat... Retreat quickly. He's a human Half-King. Don't fight him."

### **Chapter 1779: Robbery, Pay Up (1)**

Han Fei had gained a lot from this trip to the Land of King Death.

Not to mention that he had obtained enough keys to the Monarch Palace, the hunting of a large group of Half-King from the Soul Sealing World had greatly increased Han Fei's soul power.

Of course, his biggest gain was finding Xia Xiaochan.

Therefore, although Han Fei didn't care about these peak-level Venerables, he didn't know how long it would take for Nian'er to make a breakthrough. Since he had nothing to do, he might as well do some hunting...

If Nian'er broke through to the peak-level Explorer, Han Fei estimated that the remaining twenty days might not be enough for her to make a breakthrough.

Of course, that was Han Fei's idea. The big demons of the Hundred Demons Clan certainly thought differently.

The leader said, "It's a Heavenly Talent of the human race. This person is undoubtedly a Half-King. Logically speaking, he's not afraid of us at all. However, this person only threatened us and didn't fight us. Obviously, he can't spare time. I guess that someone is breaking through to the Half-King Realm in that sea area."

The undersea human smiled. "To be able to make a peak-level Venerable break through to the Half-King realm, it means that they have encountered a great opportunity. Maybe they also have the keys to the Monarch Palace. Hurry up and find some Half-Kings. Let's destroy their plan and rob them before they finish their breakthrough."

...

Half a day later.

After Nian'er, Punishing Saber and the others even drank a few mouthfuls of the soup. At this moment, they were all sitting on the sea and making breakthroughs.

Han Fei waited for half a day and even used his free time to make a pair of sun chairs, a small coffee table, and two drinks, lying down and waiting for his prey.

Xiao Se stood at the bow and looked at Nian'er.

As for the old turtle, after he ate the king's flesh, Han Fei told him to go back to Forge the Universe and continue his cultivation.

The old turtle was his trump card.

Anyway, turtles did not have a strong concept of time, but they needed time to mature.

The old turtle had been working very hard. Ever since he became a Venerable, he had grown very fast. In Han Fei's Forge the Universe, it would be strange if he couldn't grow up after so many years! After all, he was once an emperor.

"Slurp ~ Ah!"

Han Fei took a sip of his drink and chatted with Xia Xiaochan. "Girl, are you ready to break through to the Half-King realm?"

Xia Xiaochan said, "Of course. I know what my problem is. Although I had a lot of combat experience when I was in the royal family of merfolk, I didn't have that kind of life-and-death battle experience because there were always guards around me. For example, no one would have allowed me to go to a place like the Whale Valley before, but now we've already been there, right?"

Han Fei frowned. "That's true, but not all breakthroughs have to be made in danger."

"Huh ~"

Suddenly, Han Fei glanced to the side and said, "Someone is here. There are 15 people."

Xia Xiaochan's eyes lit up. "Let's go."

...

There were 15 people in this group, including 100 hundred demons and undersea humans.

In terms of individual strength, these two forces were relatively weaker than the Merman Race. Therefore, they had always been in an alliance.

At this moment, the leader of this group was a powerhouse of the undersea human race, who looked very much like a human.

Beside this person, there were three Half-Kings. Among them, two were from the Hundred Demon Race, one was a shark human, and the other was a shrimp soldier.

At this moment, the shark said, "Master Shen You, I didn't expect that such a small matter could trouble you... Didn't you say that all the strong masters have gone to the forbidden places? Master Shen, how can you have the time to participate in such a small matter?"

Shen You snorted and said, "The second forbidden place has been explored, and the major forces have suffered heavy losses. I heard that something seems to have happened in the Soul Burial Valley. It seems that the battle there must be extremely intense. At this time, no one dares to act rashly. At this time, if someone makes a breakthrough, won't it be telling others that he has obtained a great opportunity? Therefore, I have to come this time."

Shen You's words meant that he wanted to swallow this harvest, and the others were just bystanders. This blatant oath showed how greedy this person was.

The other Half-Kings were all silent.

The two Half-Kings of the Hundred Demons Clan only hated that they didn't have enough Half-Kings. Where did their Half-Kings go? Why couldn't they find them? Otherwise, how could such a good thing happen to Shen You?

50,000 kilometers away from where Nian'er broke through, Shen You and the others saw a big black ship sailing on the sea.

"Master Shen You, there's a ship."

Someone said, but Shen You patted the void and sent the man flying a hundred meters away. Then, he snorted. "Why are you so nosy? Can't I see it? However, this is the Land of King Death. How can a ship that sails here be simple?"

The truth was as Shen You had expected.

On the big black ship, two people, one black and one white, stepped into the air.

The man said in a gloomy voice, "Evil ghosts hook souls, and impermanence take lives. In the Death Valley of the Land of King Death, the Black and White Impermanence appeared. Money will pave the way and resources will buy your lives. The deal is made on the spot and no credit is allowed."

Shen You's eyes turned cold. "Who the f\*ck are you? Two peak-level Venerables dare to rob us? Are you crazy?"

Shen You scanned his surroundings with his perception. After confirming that there was no one here and that there was no array, he heaved a sigh of relief.

Shen You thought to himself, Even if these two are not ordinary peak-level Venerables... and their true combat power has reached the Half-King realm, they are only close to the Half-King realm.

These two people were so arrogant and dared to rob others. Perhaps they had the power bestowed by kings to protect themselves.

If that was the case, it would be a little difficult to deal with. But it would be a fool's dream for them to rob him.

Of course, with a cautious attitude, Shen You looked around. "The four of you, go up and meet these two people."

Shen You didn't believe it. How could there be someone who wasn't afraid of death at all in the Land of King Death?

Those who could come here were either here to become a Half-King or to explore the Monarch Palace.

The two people in front of him must have a backup plan.

Therefore, he would use a few people to test them out first. If there was a problem, it wouldn't be too late to retreat. He couldn't be intimidated by the two of them, right? Then how could he, a Heavenly Talent of the underwater human race, keep his face?

The Hundred Demons Clan and the Undersea Human Clan each sent two peak-level Venerables. In everyone's opinion, the four of them were already enough to kill Han Fei and Xia Xiaochan.

However, Xia Xiaochan disappeared into the void.

Han Fei smiled. "Isn't what I said clear enough? Hurry up and pay up. Otherwise, we'll kill you."

Shen You said, "Are you crazy? Let's see if you can..."

Buzz!

However, as soon as Shen You finished speaking, Han Fei crossed the void in one step.

With a wave of his hand, waves surged within a thousand kilometers of the sea. Water pillars filled the sky like knives, forming a waterfall.

Shen You was puzzled. These two people's actions were really strange. It seemed that his moves were quite scary. However, could this rainfall hurt people?

But if this rainfall was useless, what was the purpose of this person creating this rainfall?

Puff! Puff! Puff! Puff!

Just as everyone was about to watch the show, they saw that the four peak-level Venerables who attacked suddenly burst into blood and their bodies were broken before they could even see who attacked them.

“F\*ck!”

Shen You was shocked. Why were they killed without any warning?

When Shen You’s soul focused, he said in surprise, “Pay attention to that woman. She can turn into a shadow and kill shadows.”

After he shouted this, when the raindrops fell, Shen You was suddenly stunned and immediately shouted, “Everyone, activate the spiritual energy protective cover.”

Tap, tap, tap...

No one doubted him.

Shen You must have a reason for saying that.

When the heavy rain fell, Shen You thought to himself, Even if there’s something wrong with the rain, it can be isolated.

At this point, he stepped out of the void and held a blue saber in his hand. He slashed at the shadow on the sea while preparing to fish the four people back.

However, just as Shen You took a step forward, he heard continuous explosions. The explosions were deafening and caused the sea to tremble.

“Oh no, this is bad. There’s indeed something wrong with the rain.”

Shen You wanted to command the retreat, but on second thought, retreat? The other party must have come prepared... It was too late to retreat.

“Ew...”

“Ew...”

“Ew...”

Most peak-level Venerables could not withstand the explosion of the Infinity Water if they only had a spiritual energy protective cover. Therefore, except for Shen You and the other three Half-Kings, all the peak-level Venerables had their spiritual energy protective cover shattered.

However, as soon as the spiritual energy protective cover shattered, a stench that shook the soul assaulted their faces. Even after holding their breath, it was still the same.

Under such circumstances, everyone’s first reaction was naturally that they were poisoned.

Who would really think that a stench could injure the soul? Under such circumstances, what else could they do but escape?

With a whoosh, Shen You tried to cut open the void and escape.

But the next scene scared him out of his wits. The void was sealed? Why couldn’t he cut open the void?

The other Half-Kings did the same.

Shen You noticed that the man in black had also disappeared.

In the void, a voice echoed, "I've said it before. We're robbing you and you have to pay up, but you didn't listen. Now, you're forcing me to kill you, you stupid sea demons..."

### **Chapter 1780: Robbery, Pay Up (2)**

The moment these people were poisoned, Han Fei had already attacked.

These people were from the Hundred Demons Clan and the Undersea Human Clan. Even if they died, it didn't matter to Xia Xiaochan, let alone Han Fei. Therefore, Han Fei started a massacre.

Killing a peak-level Venerable with the strength of a king was as easy as chopping vegetables. They were on completely different levels.

However, Han Fei's Void Lines were limited. If he killed the enemies too quickly, he couldn't steal their vitality and soul power one by one. If he waited for them to die for a long time before absorbing them, the effect would be greatly reduced.

Therefore, Han Fei wasn't in a hurry.

Xia Xiaochan only killed four people. Han Fei killed four peak-level Venerables of the Hundred Demons Race on the spot and then pounced on a Half-King.

Of course, this Half-King was not easy to deal with.

The Half-Kings who could lead a team were all Heavenly Talents of the major forces. No matter how weak they were, they had some trump cards.

Just like Tian Heng, so what if he only knew how to defend? Even if he only knew how to defend, he would still be able to unleash shocking might in the end.

Han Fei decided to kill the sea demons first before killing the undersea humans... After all, he could directly absorb the Chaotic Qi in the bodies of the hundred demons.

Here, there were two Half-Kings and eight peak-level Venerables.

Xia Xiaochan killed two, Han Fei controlled four, and there were still two Half-Kings and two peak-level Venerables. This group of people should be absorbed first.

Shen You thought that Han Fei had neglected him. Perhaps he thought that he might be difficult to deal with, so Han Fei didn't attack him immediately.

But Shen You felt that he couldn't sit still and wait for death. With a roar, Shen You threw out a shell. The shell glowed brightly, and the shadow of an expert appeared.

Shen You shouted crazily, "Patriarch, cut the void!"

The so-called king-level strike was actually an attack or multiple attacks launched by a wisp of a king's consciousness and soul.

Of course, the more he attacked, the more consciousness and soul he needed to consume.

After all, the number of kings was limited.

There were countless Heavenly Talents below the king level. If they were given a king-level strike each, how could the kings handle it?

Since it was a wisp of consciousness, it could judge when it was released.

Therefore, when Shen You shouted, Han Fei narrowed his eyes and wanted to chase after him, only to see that the king-level strike was only used to open the way for him.

In the blink of an eye, Shen You shattered his seal.

Swish ~

Shen You accelerated and rushed into the void crack.

Han Fei had no choice but to take the king-level strike head-on. At this moment, he couldn't let anyone escape!

"Pu! Pu! Pu! Pu!"

A moment later, Han Fei stood proudly above the sea. Except for Shen You, everyone was slaughtered.

Han Fei was absorbing the Chaotic Qi and the power of the soul unhurriedly. Looking at the information in his mind, he couldn't help but sigh as information popped up.

...

Han Fei had never thought that he would make such a big breakthrough after entering the Raging Sea. When he was in the Yin-Yang World, he thought that he only needed to wait to become a king.

But now, his overall strength had increased by nearly 50%, and he was still a peak-level Venerable. Who knew how strong he would become when he reached the Half-King Realm again?

Seeing that there were more than two thousand wisps of Chaotic Qi, Han Fei was secretly relieved.

It seemed that he had to work harder!

In the old turtle's words, he would never have enough Chaotic Qi when he needed to use it.

At this moment, Han Fei was still in the explosive period and could continue to grow. When the bottleneck of the peak-level Venerable realm was reached, if he made another breakthrough, would his strength soar again?

On Han Fei's side, Xia Xiaochan appeared. "Use that stinky gas carefully. I didn't even dare to break in and hunt just now."

Han Fei grinned and said, "These people are not very strong, and they can't provide you with any training. Besides, they came here for Nian'er's tribulation. Now that the tribulation is over, a simple breakthrough won't cause such a big phenomenon, and no one will come here."

A moment later, when the two of them returned to the ship, Nian'er was indeed still breaking through.

Tree Spirit and the others were also breaking through.

This time, Han Fei and Xia Xiaochan didn't lie down but continued to sunbathe and drink.

The two of them sat cross-legged and cultivated. Han Fei entered the Forge the Universe and continued to refine his body.

During this time, Han Fei came out twice, but he only went hunting when the old turtle reminded him that someone was nearby.

Unfortunately, of the two times, one was a strong merman, and Han Fei and Xia Xiaochan only robbed and didn't kill anyone. The other one was two peak-level Venerables of the undersea human race, so the consequences could be imagined.

On the fifth day of Nian'er's breakthrough, she had already passed four small realms and reached the intermediate Explorer realm.

On this day, Han Fei was cultivating when the old turtle suddenly said, "That little girl has made a breakthrough."

Hearing that, Han Fei perked up and immediately stepped out of Forge the Universe.

Xia Xiaochan and Xiao Se were already standing at the bow of the boat, and Xia Xiaochan glanced at Han Fei. "Nian'er is growing too fast! She's already an intermediate Explorer in only five days. At this speed, won't she become a Half-Venerable in a month?"

"Brother ~"

Nian'er flew over and shouted at Han Fei, "Brother, I'm sleepy."

"Sleepy?"

The old turtle said, "She is no longer a child. Although she broke through dozens of realms in a day, after all, every time she breaks through, her consumption is countless times higher. Her breakthrough is too urgent, so she needs some time to sleep and let her body adjust its cultivation state spontaneously. This is the same as the hibernation of our Turtle Clan."

After hearing the old turtle's explanation, Han Fei immediately looked at Xiao Se and said, "Go to the painting to guard Gu'er. Take her to Tree Spirit and don't let others disturb Nian'er's self-adjustment."

"Yes, Master Han Fei."

It took five days for Nian'er to break through, but not so long for Tree Spirit and the others. After two days outside, they all broke through and returned to the Sea Quelling Painting.

Only Han Fei and Xia Xiaochan were left on the big ship.

Han Fei said, "It's been half a month. The number of five-star dangerous places is limited. I think the places we should explore have been explored. The strong masters from all sides should have gathered. It's time for us to show up."

Xia Xiaochan said, "Then let's go to the last forbidden place, the Undersea Palace. If I'm not wrong, there should be many strong masters gathering there. We can make one last robbery there."

Han Fei sighed slightly in his heart. Indeed, the danger of the forbidden places was relative. In fact, everyone had their own means. Didn't Ji Chen and Five Elements Chen Hao find the deepest part of the Whale Valley?

At this moment, there was only this last forbidden place left. There must be many people there.

Of course, not everyone would go, but as long as a small portion of the strong cultivators went there, it would be enough for him to hunt.

The Vast Ocean Navigator pointed the direction, and the Avenger headed towards the undersea palace at full speed.

On the ship, Han Fei calculated and found that more than fifty Venerables had died under his hands in the past half month.

Han Fei couldn't help but sigh. How difficult would it be to become a Venerable? This time, the people who came were all peak-level Venerables and Half-King.

This made Han Fei feel a little guilty. Wasn't it said that after mastering the Great Dao, there was a law of mutual absorption of the Great Dao? It felt like he had become the person who cut leeks.

Xia Xiaochan noticed the strange expression of Han Fei and asked, "What are you laughing at?"

Han Fei shook his head. "Nothing. I just feel that even a Venerable can't escape being hunted. It's not easy to survive in this world."

Xia Xiaochan said, "It's the same in any realm, even in the Sea Establishment Realm. After all, there are only a few strong masters in any place. The stronger they are, the fewer they are!"

Han Fei looked at Xia Xiaochan in surprise. "Wow! What a thorough understanding!"

Xia Xiaochan rolled her eyes at Han Fei. What? I knew it when I was a kid!

Half a day later, Han Fei and Xia Xiaochan finally came to the sea near the Undersea Palace. As soon as they arrived, they happened to meet a small team of four.

Among the four of them, the leader said, "Remember, we're going to the Undersea Heavenly Palace with no fear of death. But remember, don't take risks. If we can survive, try to stay alive. Only by staying alive can all this be meaningful."

"Yes! Uncle Jin."

However, as soon as these four people finished speaking, less than a hundred seconds had passed.

Suddenly, on their way, they saw two figures, one black and one white, waiting there for a long time.

Zhao Jin's expression changed slightly. Two peak-level Venerables?

At this moment, a voice sounded leisurely. "Robbery. Pay up."
