Chapter 1791: Reconstruct Spiritual Energy

As a special mysterious creature, the Hexagon Starfish was sensitive to pressure, but his degree of fear was obviously different from other creatures.

Perhaps it was because this fellow's life level was relatively high and he was extremely rare, or perhaps he was self-hypnotizing and pretending that there was nothing here...

When Xia Xiaochan reached 1,800 meters, the Hexagon Starfish could still follow her, but Xia Xiaochan was panting.

She knew that if she didn't become a Half-King, her limit should be here.

On the other hand, the Hexagon Starfish could follow them? Xia Xiaochan was speechless.

She knew that he was talented, but she didn't expect him to be so strong.

Not long after Xia Xiaochan stopped, she heard creaks again.

Everyone perked up and looked at the bronze door.

On the other side, Chu Yang reminded Ice Snow Chuling, "Holy Lady Chuling, are we really not going to wake up Master Holy Child?"

"No need. The Holy Child's cultivation path is different from ours. His comprehension might be an epiphany, which is no worse than this opportunity."

Chu Yang and Qin Yu both understood. It turned out that they had taken different paths. No wonder Master Holy Child went into seclusion here.

In front of everyone, Han Fei slowly opened his eyes and shouted in his heart, "Fuse!"

The moment the Yin-Yang Divine Eyes was activated, what he saw just now was a blurry scene. He couldn't see anything else...

But Han Fei thought to himself, Last time, I saw something. This time, I'm even closer. I should be able to see something, right?

Buzz!

When the door crack slowly opened, a large amount of white light was revealed.

A massive amount of power of the Great Dao rushed over. Although Han Fei's eyes were a little blurry, he seemed to see a vague figure sitting.

"Huff~"

The power of the Great Dao instantly filled Han Fei's body.

Han Fei hurriedly channeled part of his power into Forge the Universe.

However, Han Fei only had time to absorb two parts of the power before the door began to slowly close with a creak.

This time, Han Fei didn't deactivate the Yin-Yang Divine Eyes.

As the saying went, take advantage of the heat to strike iron. He used the power of the Great Dao to reverse the disassembling of spiritual energy.

If anyone was around Han Fei, they would see that the void in front of him was filled with the power of the Great Dao, which formed countless weak and tiny vortexes.

In the end, with the experience last time, Han Fei saw the formation of a dot this time. However, the dot still lacked spiritual energy and couldn't form a complete drop of spiritual energy.

A moment later, Han Fei's spiritual energy disassembling degree had reached 97%.

Han Fei licked the corner of his mouth. At this speed, why should I use the Power of Will to deduce the disassembling of spiritual energy? Isn't it better for me to use it to improve my strength?

Some people improved their strength from the Sea Establishment Realm to the Sky Opening realm with the Power of Will.

And he wasn't that greedy. He just needed to break through from the peak of the Venerable realm to the Half-King realm. That would be enough!

Because the bronze door would only open every other day, Han Fei continued to move forward.

The old turtle said that resisting such pressure mainly relied on one's firm Dao heart.

As for himself, his Dao heart was quite firm now, because Han Fei saw infinite hope and was more determined than others.

Therefore, when the bronze door opened again, Han Fei had walked 2,500 meters away, only 500 meters away from the bronze door.

On this day, Han Fei saw that spiritual energy actually had cores too, but after the cores were formed, they would integrate themselves into the spiritual energy.

Another day, Han Fei advanced more than 50 meters.

This time, he saw that with the power of the Great Dao as the core, a complete drop of spiritual energy was formed.

This proved that his previous guess was correct. In other words, any point of spiritual energy contained the power of the Great Dao. Disassembling spiritual energy was actually disassembling the power of the Great Dao.

Using the disassembled spiritual energy was to release the complete power of the Great Dao in this drop of spiritual energy.

Because the power of the Great Dao was completely released, the power that erupted from one point of spiritual energy had far exceeded that of ordinary people.

At the same time, this could also prove one thing: the method for ordinary people to disassemble spiritual energy might not necessarily be correct. It was just that they accidentally used the power of the Great Dao separately.

Figuring out all this, Han Fei found that his disassembling degree of spiritual energy had reached 99%!

Han Fei didn't expect this at all. And this was the only place in the entire Land of King Death that might be related to the Monarch Palace.

If he really went to the Imperial Palace, wouldn't he become a king as long as he didn't die?

Han Fei couldn't help but wonder why there were suddenly more than 100 kings a hundred years ago. Why did those people still want to explore this Monarch Palace?

The fundamental reason was that they had obtained too many benefits from the Monarch Palace!

The disassembling of spiritual energy was only one aspect.

This pure power of the Great Dao could be used to cultivate combat skills, improve one's physique, and comprehend great techniques. It could be said to be infinitely useful.

However, what made Han Fei curious was why the spiritual energy disassembling degree had only reached 99%? Where did the last 1% come from?

Han Fei couldn't help but ask, "Old Yuan, you said before that only a monarch's spiritual energy disassembling degree can reach 99%. Then what am I now?"

The old turtle said leisurely, "I'm also confused about this matter. However, that's what I know. I've never heard of someone who can disassemble spiritual energy by 99% when he was still a Venerable..."

Han Fei said in a low voice, "Even if he reaches this height, or even 100%, will he tell you?"

The old turtle said, "It does seem to be a mystery."

The old turtle was also confused. He had also obtained the power of the Great Dao and disassembled the spiritual energy. The result was similar to Han Fei's, so he was also stunned.

Now, Han Fei had a special feeling. When he completely understood the structure and birth of spiritual energy, he thought that the secrets of spiritual energy could be explored. The last one percent might hide a bigger secret.

On the fifth day, Han Fei moved another hundred meters forward.

At this moment, it was extremely difficult to even sit.

When the power of the Great Dao rushed over, Han Fei reconstructed the spiritual energy one last time. Through each reconstruction, he could perfectly disassemble all the spiritual energy.

However, in the end, he could not go further and continue to improve the disassembling degree of spiritual energy.

Han Fei didn't care about the old turtle anymore. This guy didn't know much more than he did now. The remaining one percent could only be comprehended by him himself.

To be honest, the composition of the spiritual energy was similar to the composition of atoms, but also very different. Han Fei wasn't sure.

Han Fei thought hard for another day, waiting for the power of the Great Dao to erupt when the bronze door opened.

"Huh... Wait..."

Han Fei froze for a moment. Why did he have to wait for the power of the Great Dao behind the bronze door? He had many Great Daos and a lot power of the Great Dao. Why did he have to use the power of the Great Dao behind the bronze door?

Suddenly, Han Fei's heart trembled.

His eyes glittered.

Immediately, a holy power of the Great Dao appeared on Han Fei's body.

This was the power of the Heaven Enlightenment Great Dao. Han Fei constructed a spiritual energy vortex in the same way and created the power of the Great Dao into spiritual energy.

Immediately, holy white light appeared on Han Fei's body.

Behind him, Wu Hao and the others were the closest to him, but they were only 600 meters away from Han Fei. After 2,000 meters, they couldn't catch up at all. The pressure was too terrifying.

At this moment, seeing the surging holy light on Han Fei, everyone looked at him curiously.

Unfortunately, the two sides were always a distance apart. They didn't know what Han Fei was doing or what benefits he had gained.

Han Fei, on the other hand, ignored the others and continued to experiment.

"No, this method only enhances the effect of the Heaven Enlightenment Great Dao. It can't make up for the last one percent."

Han Fei tried the Road of Invincibility again, and a ball of dazzling golden light burst out of his body.

Han Fei felt that he could give invincible power to spiritual energy, so that every wisp of spiritual energy would be extremely tough, penetrative, offensive, and so on...

At this point, Han Fei understood why he had to study the disassembling degree of spiritual energy. It was because when he completely understood this power, he could double the strength of his Great Dao.

In particular, for Han Fei, who had many Great Daos, comprehending the disassembling degree of spiritual energy could be said to raise all his combat power to the limit.

Han Fei believed that his current strength would be thirty percent stronger than before if he tried his best.

Han Fei even felt that if he hadn't been limited by his current strength, he could have fought a king without using the power of the Great Dao to strengthen himself.

Although he was excited, Han Fei's comprehension couldn't increase his spiritual energy disassembling to 100%, because he didn't know what else could be deduced.

After thinking for a long time, Han Fei didn't get anything. He did many tests alone at the front, making the people of the major forces behind him look at each other, wondering what Han Fei had learned.

On the sixth day, Han Fei suddenly looked back and saw that Xia Xiaochan was surrounded by countless ultra-quality spiritual stones and spiritual fruits.

A spiritual energy storm rose above Xia Xiaochan's head.

"Huff~"

At this moment, it seemed that all the forces were surrounding Xia Xiaochan.

When Han Fei saw that the people around Xia Xiaochan had all become strong mermen, he knew that her breakthrough this time would be a success.

However, when Han Fei saw the endless spiritual energy entering Xia Xiaochan's body, he couldn't help but sigh. Everyone consumed spiritual energy every day, but only now did I finally understand spiritual energy!

Han Fei looked back at the bronze door coldly. In front of him, the Vast Ocean Navigator began to spin.

When the Vast Ocean Navigator pointed at the bronze door, Han Fei couldn't help but smile bitterly. "Do you want me to die?"

Chapter 1792: Listening to the Great Dao

Han Fei asked in his heart, Where can I get a way to disassemble spiritual energy by 100%?

The purpose of this question was just to see if there was an answer to the last one percent of spiritual energy disassembling in this bronze door.

Han Fei smiled bitterly.

In that moment, he proved the validity of his suspicions.

The old turtle was only an emperor, and there were many things that emperors didn't know.

For example, the old turtle thought that even for monarchs, the spiritual energy disassembling degree could only reach 95% or so, but Han Fei immediately found it was wrong.

The person inside could absolutely reach 100%. Otherwise, the Vast Ocean Navigator wouldn't have pointed to the bronze door...

After confirming that there was an answer in the bronze door, Han Fei immediately took out the Nine Palace Luck Ruler.

However, to Han Fei's surprise, he was already prepared to encounter an "Impasse".

However, the result of the Luck Ruler was actually "Greatly Auspicious".

"Shoot ~"

Han Fei was dumbfounded. This was the first time since he got the Nine Palace Luck Ruler that he had got the result of “Greatly Auspicious”!

Han Fei’s eyes lit up. This meant that he could enter this door.

The old turtle asked, “Greatly Auspicious? Are you going in?”

Han Fei said, “Of course. The divination result shows that I can enter. There is a great opportunity inside. I have to enter. Old Yuan, remember not to make a sound if there are special circumstances.”

The old turtle nodded. “Got it.”

Han Fei said to Xia Xiaochan, “Girl, don’t be surprised no matter what happens later.”

Xia Xiaochan asked, “What are you doing?”

Han Fei said, “I’m going into the gate.”

Xia Xiaochan: “...”

Xia Xiaochan was stunned. Everyone else was stuck at about 2,000 meters, but you’ve already reached 2,600 meters, and now you even want to enter the gate?

Xia Xiaochan asked, “How dangerous is it?”

Han Fei said, “Don’t worry. I know what I’m doing. Have you forgotten that I have the Luck Ruler?”

Hearing the words Luck Ruler, Xia Xiaochan was slightly relieved. “Then I’ll wait for you outside.”

Han Fei said to Ice Snow Chuling telepathically, I’ll disappear later. If anything happens while I’m away... Remember to take the Ice Snow Lotus Throne with you. You can put it into your storage space.

Han Fei wasn’t worried that something would go wrong if Ice Snow Chuling did this... They carried small worlds with them! Although they were rare, it didn’t mean that they didn’t exist.

Ice Snow Chuling was surprised, how would Han Fei disappear?

But she still agreed immediately. “Okay.”

An hour later.

Creak!

When the bronze door opened again, a ray of light began to shine.

With a bang, the air around Han Fei exploded. To everyone’s astonishment, Han Fei suddenly stood up.

Many people looked at each other in surprise. What was he doing?

Wu Hao and the others, who were closest to him, felt that Han Fei’s Qi and blood were soaring crazily, and the surrounding light red alcohol mist was pouring into his body crazily. The water under their feet even began to flow backward.

“Squeak ~”

Cang Hongyu asked, "What is he doing? How can he stand up under such terrifying pressure?"

Li Kaitian said, "Oh my god! Is this guy going to enter the door?"

The group of people looked at Li Kaitian as if he were a fool. Someone directly mocked, "Are you stupid? It's difficult to even take a step forward. Although he's close to the front, he's still more than 400 meters away from the bronze door. Does he want to fly over?"

Xia Hai said, "It's impossible. This bronze door can only be opened for ten seconds a day. If he can move ten steps forward in such a short time, I'll eat this door."

Lu Ran said, "The people of the Golden Crow World are all braggarts."

However, only Song Kaiyuan said leisurely, "I'm afraid Li Kaitian is right this time."

"Huh?"

Just as everyone was wondering why Song Kaiyuan said this, they saw that the bronze door had opened to the maximum.

Roar!

When the power of the Great Dao rushed over, Han Fei roared and the Invincible Golden Body enveloped him. His strength had reached the peak and was comparable to a king.

Bam! Bam! Bam!

Under the terrifying pressure, Han Fei began to run wildly.

"Hiss ~"

At this moment, countless people were shocked.

Bai Muling was dumbfounded. "Wait... Situ, try hitting me! Is what I'm seeing real?"

Situ Yuhong sneered. "It'll bounce back to me if I hit you... Do you think I'm stupid? Hit me and you'll know."

Slap!

Bai Muling slapped the water and sighed. "This person is ridiculously strong! Those who don't know would think that he's a king!"

Xia Xiaochan was also confused. The Hexagon Starfish exclaimed, "Seriously? He can still run in this situation?"

A great demon who had fought Han Fei and Xia Xiaochan felt cold sweat on his back. F*ck, should I run? I wonder if that guy holds a grudge against me?

Under everyone's shocked gazes, Han Fei was sprinting. With every step he took, everyone felt as if a stone was smashing their hearts.

In fact, Han Fei had already reached his fastest speed. He covered the first two hundred meters in a breath.

It took Han Fei three seconds to cover the third hundred meters.

In the last hundred meters, Han Fei roared and burned his blood essence. He ran as fast as a child, but he already felt that he was flying.

Crack ~

When the power of the Great Dao no longer rushed out of the bronze door, Han Fei knew that the door was about to close... Han Fei's blood and Qi burned again, illuminating the entire space with golden light.

Swish ~

When the golden light disappeared and the door was closed, Han Fei was nowhere to be seen.

Li Kaitian's eyes widened. "I... I was just joking! Who knew that he would take it seriously?"

Jian Hui glanced at Li Kaitian. "What does it have to do with you?"

Song Kaiyuan said leisurely, "From the moment he stood up, I knew that something was wrong. At that moment, the spiritual energy around him was instantly changed. It was no longer spiritual energy, but the power of the Great Dao. He used his Great Dao to cover the last 400 meters. I finally understood why this person could withstand the attack of a king. It was because his Great Dao had such ability."

Li Kaitian said, "In simple terms."

Song Kaiyuan snorted. "When he uses his Great Dao, he's comparable to a king."

"Hiss ~"

Song Kaiyuan's words frightened everyone. So we were robbed by a king?

Lu Ran said, "Hey! Xia Hai, right? I heard that you want to eat the bronze door? Come on, eat it!"

A few meters behind Song Kaiyuan, a girl smiled and said, "He has to be able to reach the door first!"

The girl looked at Song Kaiyuan and said via voice transmission, "Senior Brother, what kind of person is he? Can't you tell?"

Song Kaiyuan simply said, "Let's talk about this when we get home."

Mushui Sisi couldn't help but be surprised. This Senior Brother of hers had always been unpredictable... However, his eyesight and knowledge could be said to be unparalleled in the world. She didn't believe that her Senior Brother couldn't tell anything after watching Han Fei fighting...

However, seeing that Song Kaiyuan was serious, Mushui Sisi stopped asking. Anyway, this person was definitely not ordinary.

...

Buzz!

Outside the bronze door, everyone was shocked... Han Fei rushed into the bronze door...

Han Fei came to a white, illusory place.

This seemed to be a mountain peak...

Han Fei could even feel the wind.

When Han Fei looked up, he saw a blurry figure sitting on the top of the mountain. However, the figure was extremely tall, as if there was a giant sitting in front of him. It was as holy as Buddha and made people tremble and want to kneel down devoutly.

With just a glance, Han Fei's eyes stung and golden blood flowed out.

"I can't look at it directly..."

Only then did Han Fei notice that he was on a platform thousands of meters away from the mountain, and he was sitting with a futon under his butt.

When Han Fei turned his head to look elsewhere, he found that he was not the only one on the mountain.

Not far away, there was a shadow covered by white mist. It seemed to be a bug lying on the mountain. It was a thousand feet long, so Han Fei could barely distinguish it.

On the other side, there was a waterfall, and there seemed to be fish being rinsed by the waterfall.

In the sky, there seemed to be a giant bird circling. Its wings were like clouds hanging in the sky, and its tail stretched across the sky...

Behind Han Fei, there seemed to be a mountain-sized skeleton that was thousands of meters tall.

Somewhere in the mountain spring, there was a gurgling stream, and there seemed to be glowing flowers swaying.

"F*ck, what are these things?"

"Calm your mind ~"

While Han Fei looked around, a voice seemed to come from the distant sky.

The voice fell in Han Fei's mind.

Han Fei subconsciously raised his head and sat straight.

Han Fei was sure that the voice came from the person above him, but he didn't dare to look up! The mountain-like skeleton didn't even dare to look up.

The man said, "The Great Dao is in the heart, and the Great Dao produces everything..."

Han Fei realized that this person was giving a lecture. This was probably the scene of the god preaching that the old turtle mentioned. Of course, the person in front of him might not be a god, but he was at least a monarch...

Han Fei tried very hard to hear every word that the person above said clearly, but except for the words “calm your mind”, Han Fei thought that he remembered every word he said, but he forgot them in an instant.

However, the most terrifying thing was that Han Fei forgot about forgetting.

Han Fei sat cross-legged on the top of the mountain in a daze. His ears were buzzing, and he was unconscious.

However, even Han Fei didn’t know that his Qi and blood were returning to him, and there was divine light on his forehead. In his body, the energy suppressed by the old turtle surged out like a tide.

However, the energy washed over Han Fei’s body and dissipated in the wind with a lot of white impurities and some golden light particles.

What Han Fei didn’t know was that in his Forge the Universe, the huge amount of spiritual stones was cracking crazily. On average, hundreds of spiritual stones were breaking every second.

After a long time, Han Fei finally heard something and woke up instantly.

The ethereal voice said leisurely, “Okay, that’s all for today. You can go now!”

Han Fei’s heart skipped a beat. What the f*ck? I just came?

However, many voices in the mountains responded at the same time, “Goodbye, Senior Brother.”

Han Fei: “???”

Han Fei thought to himself, Can I still look up?

However, before he could raise his head, a voice was rumbling like the voice of the Heavenly Dao, shaking his heart. “The Great Dao has no end and no door. There is a path to the immortal world in the void. Entering the void is both fate and tribulation. When you complete the entrance test, you can call yourself the Void Disciple.”

Chapter 1793: Void Temple

Han Fei was dumbfounded. “The entrance test? The Void Disciple?”

When Han Fei looked up again, the mountaintop became clear. There was no one there.

Han Fei didn’t realize that he had already cultivated.

Han Fei was still curious. Where am I?

Han Fei looked around.

Han Fei saw that in the waterfall in the distance, the fish that was swimming just now soared into the sky and turned into a dragon shadow, circling in the sky.

“Hiss!”

“A dragon!”

Han Fei saw a dragon again after the Azure Dragon Phantom.

Before Han Fei looked elsewhere, he heard a dragon roar from the sky. "Junior Brother, take what Eldest Senior Brother said in your mind."

Han Fei wondered who he was talking to.

Han Fei couldn't help but look at the big worm lying next to him... He couldn't see its face at all, but only a vague image.

The insect said, "Junior Brother, welcome to join the Void Temple."

The corners of Han Fei's mouth twitched. He looked around for a while and heard the insect say, "Stop looking. I'm talking to you."

"Hiss!"

Han Fei gasped. "Wait... When did I become your junior brother? Also, what is the Void Temple?"

"Hiss..."

Han Fei heard a noise behind him. He turned around and saw the mountain-like skeleton. Although he still couldn't see it clearly, it should be a skeleton without a doubt. He could see the shadow of the skeleton and the extended skull.

The skeleton said in a voice that seemed to come from the netherworld, "Once you enter the Void Gate, you will be a Void disciple. Junior Brother, you are still weak. You have to work harder."

On the mountain next door, a giant humanoid figure stepped on the mountain peak. Only its scarlet eyes were revealed, and its voice was buzzing. "The Great Dao is like a pot of wine. The Heavenly Dao is permanent yet illusory... Little Junior Brother, the Void Temple can't be seen. Your cultivation level is not enough, so you can't see through the void. Let me give you a pot of Dao Seeking Wine. Hope you can establish the sea and open the sky as soon as possible and return to the Void Temple."

Then, Han Fei saw a green light flying over from the neighboring mountain.

The green light broke through a fog and seemed to break through layers of void, as if it had broken through endless time and obstacles and finally landed in Han Fei's hand.

When Han Fei took a closer look, he found that it was a small wooden gourd.

However, the information in Han Fei's eyes shocked him.

Information popped up in Han Fei's eyes.

<Name> Green Thunder Wine Gourd

<Introduction> It's refined from the Spiritual Treasure of Heaven and Earth, the Blue Sea Blue Sky Gourd, with the Thunder Pool Essence Fire. The Blue Gourd can collect all spirits in the world and turn them into wine. It can collect souls, living beings, spiritual energy, and Chaotic Qi... It can be enlarged and shrunk. It can ride the wind, blast mountains and seas, and resist lightning... The Clear Spring of

Heaven and Earth can produce peerless wine in the gourd. Ten years of good wine, a hundred years of Dao Seeking wine, a thousand years of Heavenly Dao wine, and ten thousand years of longevity wine.

<Quality> High-quality Godly Weapon

< Attached Soul > None

<Effect> Unlimited use

< Recastable >

< Unrefined >

<Remarks> Divine weapon, don't make it recognize a master easily.

"F*ck..."

Seeing this message, Han Fei was stunned. F*ck, are you bragging to me? This is a high-quality godly weapon, but it was reduced to a wine pot?

A high-quality godly weapon!

What kind of existence could afford such a terrifying weapon?

Han Fei finally knew why the Nine Palace Luck Ruler showed the result of "Greatly Auspicious". This was more than a "Greatly Auspicious" result! This was simply a windfall!

Han Fei's reaction was fast. Three Temples! This was definitely one of the Three Temples. He had already known the Temporal Temple and the Immortal Temple, and this should be the Void Temple.

Han Fei's horizons were originally limited to the Thirty-Six Mystic Worlds.

Who knew that he would inexplicably become a disciple of the Void Temple? Oh, no, it shouldn't be. There seemed to be an entry test.

Moreover, this temple was extraordinary!

These senior brothers all looked extraordinary.

Han Fei hurriedly said, "Senior Brother, can I make your gourd recognize me as its master? Will it suck me to death?"

On the mountaintop, the huge figure said, "The godly weapon has consciousness. It will recognize you as its master one day if you nourish it properly."

Han Fei was greatly relieved. So, I still can't make it recognize me as its master. Then this thing can only be a wine gourd.

If he fell or hit it, the gourd would definitely suck him to death!

Han Fei saw a spiritual pool on the mountainside where flowers seemed to be swaying and laughing.

The voice said, "It's been a long time since anyone came to the Void Temple! Old man, you actually gave away the Dao Seeking wine? Do you know that too much is as bad as not enough?"

The giant shadow at the top of the mountain said, "I'm happy to do it. It's none of your business. Forget it. The Eldest Senior Brother has finished his lesson. I have to go! See you another day."

In the sky, the dragon shadow also said, "I'm leaving too."

The big bird also responded, "Gotta go! Little Junior Brother, work hard."

One by one, they left the void.

Han Fei looked back and even the big skeleton was gone.

Han Fei immediately felt terrible.

The insect next door wanted to say something, but Han Fei quickly stopped him. "Wait... Senior Brother, how can I go back?"

The worm said, "The Void Temple is in the void, and the world here is nothing. You can return with a thought."

Han Fei hurriedly asked, "Then how can I come in?"

The insect continued, "It depends on luck if you can hear Senior Brother's lecture. Since you can come in now, as long as you don't die, you will have a chance to come in the future. Everyone's luck is different. When the time comes, you will know..."

Han Fei asked again, "Senior Brother, what's the entry test? Isn't there an entry test?"

The insect said, "Junior Brother, the heavenly secrets are predestined. When the test comes, you will know that it is the test of the Void Temple."

With that, the insect's figure faded into the void too.

When Han Fei confirmed that there was nothing here...

Han Fei called in his heart, "Old Yuan, Old Yuan?"

However, Han Fei found that Old Yuan didn't respond at all.

Han Fei wanted to take a look at the Demon Purification Pot, only to find that Old Yuan seemed to be meditating in the Demon Purification Pot. He didn't cultivate, didn't move, and didn't respond to him.

Han Fei suddenly realized, aren't I here for the answer?

Just now, with so many people here, he didn't even think to ask about the last 1% of the disassembling degree of spiritual energy. Now that everyone was gone, what should he do?

However, Han Fei suddenly remembered something.

In the next moment, Han Fei perceived his body and was shocked. 100% spiritual energy disassembling?

"Hiss!"

Han Fei was stunned. What did I do? Why did I suddenly reach 100%?

Han Fei quickly looked at his personal information, only to be confused again.

...

Gulp!

Han Fei swallowed and thought to himself, Didn't I just come? Why am I a Half-King? What did I do?

Not only did he become a Half-King, but Little Black and Little White had also advanced one level.

Han Fei's heart skipped a beat, and he thought to himself, Not good. It must have been a long time since I came in. The bronze door might have opened because of the Eldest Senior Brother's lecture... But now, the Eldest Senior Brother has gone. How long has it been?

"I have to get out..."

Han Fei thought to himself, Oh no, Xia Xiaochan is still waiting for me!

Han Fei didn't expect that a long time might have passed in the outside world...

If a long time really passed outside, not only might he be separated from Xia Xiaochan again... he might not even have a way to go to the Glazed Glass World.

Han Fei couldn't care less. He immediately focused, ignored the void, and thought to himself, Come back.

Buzz!

Creak!

Han Fei saw a patch of black in front of his eyes.

In the next moment, many people appeared in his eyes. Some of them were kneeling, some were standing, but most of them were sitting cross-legged.

“Huh?”

Han Fei took a closer look. Huh? Isn't it the bronze gate? Xia Xiaochan is still standing there! Wu Hao is still standing first.

At this moment, everyone was looking at the bronze door. They saw a black figure standing proudly in the white light, as if he was from the unknown, the void, and a distant place. It made them hold their breaths.

“Hiss ~”

Someone exclaimed, “Why is it him? Where is the power of the Great Dao?”

A Half-King was shocked. “Not good! The pressure is fading and weakening.”

Han Fei couldn't help but look up at the bronze door above his head.

The huge door was slowly closing, and a layer of white mist gradually appeared on the bronze door.

Other people saw white mist, but Han Fei stood next to it and watched the bronze door gradually fade away in the void.

After dozens of seconds, there was no bronze door here at all.

At this moment, the pressure was gone, and everyone's strength returned to its peak.

Han Fei couldn't help but feel a headache. He said, “Would you believe me if I told you that I didn't do anything to it?”

“Heh!”

Someone sneered. “You're already a Half-King. You must have done something to it!”

Han Fei: “...”

Han Fei thought to himself, Yes, it's hard to explain how I became a Half-King from a peak-level Venerable. If I didn't do anything, how did I become a Half-King?

However, the truth was that he had done nothing.

Han Fei felt that the lecture was over as soon as he went in, and he came out after the lecture! Who would have thought that he would breakthrough to the Half-King realm?

Chapter 1794: Collapse of the Seabed

As soon as Han Fei came out, the bronze door disappeared, which cut off everyone's opportunities.

This time, Han Fei angered everyone.

However, Han Fei's strength couldn't be underestimated.

No matter what, this was a freak who could rush into the bronze door. He would probably not be easy to fight.

Song Kaiyuan said to the people around him, "Listen up, no one is allowed to attack him, no one."

Some of the Hundred Demons and Undersea Humans were eager to try.

Beitang Xuan and the others from the Infinity World narrowed their eyes, and no one knew what they were thinking.

But then, everyone found that behind Han Fei, the mist disappeared, and a cracked void appeared.

Han Fei looked back and the void exploded with a bang.

Swish! Swish! Swish!

Streams of light flew out. Because they were too fast, some were embedded in the rock walls, some fell into the blood pool, and some were swallowed by the blood muds on the blood pool.

Most of them were intercepted by the people in front of the bronze door.

Someone held an ancient sword and shouted, "It's the key to the Monarch Palace. So many of them..."

Buzz!

At this time, as many as 300 people were fighting for the keys. Many people selectively forgot about Han Fei... Fighting for the keys became one of their excuses.

A Half-King thought, I'm not going to fight him. This guy is obviously not easy to deal with. Forget it.

In the sea, Shen You shouted, "Don't fight this person. He is so strong that ordinary Half-Kings are no match for him."

Holding the Hexagon Starfish in one hand, Xia Xiaochan appeared next to Han Fei and asked with concern, "Are you okay?"

Han Fei shook his head. When he sensed Xia Xiaochan's aura of a Half-King, he couldn't help but ask, "I'm fine. Was your breakthrough to a Half-King successful?"

Xia Xiaochan nodded. "I don't need to transcend the tribulation. I have as many resources as I want. I wanted to use the power of the Great Dao to consolidate my cultivation, but you came out before I could."

Han Fei hurriedly said, "Don't use it. The power of the Great Dao is much more useful than just consolidating your cultivation."

Seeing Han Fei's exaggerated description, Xia Xiaochan was shocked. Is the power of the Great Dao really so useful?

While everyone was fighting, Han Fei's heart stirred, and a projection descended on the Ice Snow Lotus Throne.

Ka ka ka ~

Someone charged towards the Snow God's Temple, and the Ice Snow Lotus Throne bloomed.

"Puff ~"

The Holy Child, Xue Zhan, reappeared in front of everyone. Everyone saw that this guy had turned his fingers into swords, and the ends of the swords were intertwined with spiritual energy.

With a puff, a Heavenly Talent of the Hundred Demons Clan was stabbed through by Han Fei.

Ice Snow Chuling used Snowmourne and attacked. This person's soul was frozen.

Han Fei punched the void and blasted the Heavenly Talent of the Hundred Demon Race into pieces.

Buzz—

This battle only lasted for a few seconds before the underground world began to tremble. Cracks appeared on the incomparably hard underground mountain.

In the blood pool, blood muds surged, and the water in the blood pool began to rise slightly.

Someone was shocked. "This place is about to collapse. We can't stay here for long."

Someone's face changed drastically. "Let's fight outside. Otherwise, we'll all be buried here."

Before leaving, many people glanced at Han Fei and thought to themselves, What did this guy do to collapse this place?

Han Fei was also puzzled. What does this have to do with me? Besides, I haven't seen the Undersea Palace yet... Why is it collapsing?

Speechless, Han Fei looked at Xia Xiaochan. "Let's go! Let's talk outside."

To leave this place, he would have to use the small wooden boat.

How many Half-King powerhouses could a small wooden boat carry? These were just ordinary wooden boats. If they were really attacked by a Half-King, they would be turned into powder in an instant.

Therefore, the cultivators bombarded each other on the sea.

Someone was attacked by many people at the same time. The hull shattered and he fell into the blood pool.

That person still wanted to struggle out with his strength, but it was as if the mountains and rivers were pressing on his body. He could not jump out of the pool.

Then, the scene turned ugly.

In all directions, countless blood muds surged towards that person. In the blink of an eye, there was a mountain of blood muds above the Half-King.

The Half-King could no longer be rescued.

At this moment, Han Fei and Xia Xiaochan were also traveling on the boat. Han Fei punched the blood pool and the boat flew fast.

If Xia Xiaochan wanted to leave, no one from the merfolk would attack her, but there were also humans, hundred demons, and undersea humans here.

As soon as Han Fei entered the bronze gate, he offended almost everyone. Whether he got anything good or not, everyone thought he got a treasure.

At this moment, Shen You, who had been robbed by Han Fei, sneered at Han Fei. "I admit that you are strong, but this is not the outside world. Petrify..."

Shen You knew that he was no match for Han Fei, but there was no need to be fair in a fight here.

Shen You used his special skill and petrified the boat under Han Fei's feet.

After this attack, the hull naturally lost its floating characteristics. Han Fei didn't have time to activate the forbidden technique here... Therefore, their boat sank by half.

Han Fei sneered. "You want to stop me with this despicable means? Kill..."

Han Fei clenched his fist and punched out with the help of the invincible Dao runes. Wherever it passed, all the cultivators retreated. This punch was so fierce that most Half-Kings found it difficult to resist.

Shen You sneered. "Humph, so what?"

A dark void appeared in front of Shen You.

The power of Han Fei's punch fell into it.

After Han Fei's boat turned into a stone boat, it attracted the attention of many people.

A merman shouted, "Your Highness, let me save you."

Some human powerhouse secretly activated his soul skills and attacked Han Fei.

One of the soul skills was a soul saber that directly slashed at his soul.

Bang!

Han Fei's soul power wasn't weak either. The Hundred Beast Soul Devouring shattered the saber head-on, and he couldn't help but look at Beitang Xuan of the Infinity World.

Beitang Xuan's heart skipped a beat. Did he discover my secret move? What sharp observation skills!

In addition to Beitang Xuan, Han Fei also felt a soul attack from the merfolk.

Han Fei took out the Embroidery Needle and shattered the soul attack with a Heavenly God Stab.

"Up!"

Han Fei and Xia Xiaochan jumped up at the same time. The next moment, a small wooden boat appeared under their feet.

"Huh?"

Shen You and the others were all confused. F*ck, where did you get another small wooden boat? How many boats do you have?

Han Fei grinned. "All laws forbidden in this space!"

At this moment, all the dazzling combat techniques on the blood pool dimmed.

Han Fei punched the blood pool with spiritual energy.

Once the forbidden spell was used, many people couldn't use their great techniques. How many people could be Han Fei's match with just their physical strength?

Someone exclaimed, "I can't use my techniques anymore."

Someone was shocked. "Oh, there is also something wrong with my techniques."

Someone hurriedly said, "There's a problem with this space."

Han Fei grinned.

The small boat under Han Fei's feet was as fast as an arrow. Because he had used the Great Saber Drawing Technique, Han Fei slashed with all his strength, and the knife light cut through the sky above the entire blood pool.

Wherever the saber passed, the waves parted.

Shen You had no choice but to use the void technique again.

When he used the technique again, Han Fei discovered that it was actually a king's technique. No wonder it could resist the power of the forbidden technique. This was not Shen You's own ability.

But just when Shen You thought that Han Fei couldn't kill him, he felt that the restraining power of the void suddenly disappeared, and Han Fei's knife flashed and passed his void barrier.

"Pfft!"

Han Fei had just comprehended the power of the Great Dao. Even if Shen You was extremely talented, how could he resist it?

Shen You was cut in half by Han Fei.

Swish ~

Han Fei flashed across the void with the boat.

Everyone was shocked. "This person is so fast!"

Shen You was killed, but his consciousness was still there. Seeing Han Fei suddenly appear, he immediately detonated himself.

Rumble! Rumble!

The self-destruction of a Half-King directly caused the entire blood pool to tremble.

For a moment, all the Half-Kings used their abilities to protect themselves, turning the battle here into a stalemate.

Han Fei frowned. "What a pity. This person used the power of self-destruction to send out a part of his power. I can't kill him in this blood pool."

Shen You ran away, which made Han Fei very uncomfortable.

As long as this wasn't above the blood pool, Shen You would have died long ago. How could he have the chance to do these tricks?

Shen You fled with a wisp of his soul.

At this moment, although Han Fei really wanted to turn around and attack Beitang Xuan, the entire bottom of the sea was covered in blood.

Blood Muds filled the sky, and the water of the blood pool was splashed everywhere.

In the chaotic battle, Han Fei was attacked by dozens of soul attacks one after another.

When Han Fei was dealing with Shen You, Xia Xiaochan was dealing with these soul attacks.

Xia Xiaochan said, "Some merfolk want to kill me too."

"I found it. It seems to be that woman."

Han Fei looked in a direction through the blood curtains.

Xia Xiaochan said, "Jiao Xiaoxiao, I know this person. I've never been on good terms with her. I didn't expect that this person would dare to attack me."

"Forget it. The space here is too narrow. We have to leave here first."

Chapter 1795: Stinky

In fact, as long as Han Fei sent a projection, he could still fight. Even if he didn't send a projection, he had many great techniques he could use.

However, when he was the Holy Child, Xue Zhan, he had exposed a portion of his strength. There were too many people here, and God knew who would find out about Xue Zhan's identity...

Han Fei didn't want to expose the various combat skills and weapons like the Infinity Water, so he didn't plan to fight in the blood pool.

Han Fei felt that any place would do except the blood pool.

Bang! Bang! Bang!

Han Fei didn't use the Infinity Water, but the invincible will enveloped the entire boat. Han Fei slapped the blood pool with his palm, and the wooden boat flew out as fast as an arrow.

Because of Han Fei's strong strength, those people didn't even have a chance to stop him.

Xia Xiaochan said, "Don't go too far. Block the exit of the blood pool and grab whoever comes."

"Hiss ~"

Han Fei couldn't help but take a breath. "You're even more anxious than me."

Xia Xiaochan said with an awful look, "A dozen or so people attacked us just now. Why should we let them pass if we don't make them pay a price?"

Han Fei grinned. "That's a good idea."

...

Above the blood pool, wooden boats leaped and a group of Half-Kings rushed towards the entrance.

However, what puzzled many people was that there was a grayish-white mist at the entrance.

The mist was so light that no one paid it any attention. They just thought that it was caused by the turbulence here.

However, when most people walked to the entrance of the blood pool, they saw two people, one black and one white, blocking their way.

A woman from the Supreme Clearness World stared at them coldly. "Are you going to stop more than 300 of us alone?"

However, Xia Xiaochan said, "Bai Muling, Situ Yuhong, listen to me."

In the crowd, Bai Muling and Situ Yuhong raised their heads. "Your Highness, what are your orders?"

The remaining 50 Merman experts quickly gathered together.

In the next moment, Xia Xiaochan said, "Jiao Xiaoxiao attacked me just now. Take her down."

Many people in the merman tribe were stunned. The identity of Jiao Xiaoxiao was not ordinary. Moreover, she was extremely strong, on the same level as Bai Muling and the others.

Jiao Xiaoxiao frowned. She was very careful just now. When was she exposed? Besides, how dare Xia Xiaochan take her down openly? What did she want to do?

When Bai Muling and Situ Yuhong heard this, they instantly attacked.

Two Heavenly Talents were attacking her at the same time, and more than 50 Half-Kings of the Merman Race were waiting at the exit. How could Jiao Xiaoxiao dare to fight back?

She shouted, "Mingzhu, how dare you kill me? My master will not let you go."

Xia Xiaochan snorted. "Even your master has to call me Princess. Who do you think you are? If I tell you to die here today, you will die here."

Hearing this, Jiao Xiaoxiao's face changed greatly. In her eyes, Xia Xiaochan was just a little brainless. But today, she seemed to be a different person, very decisive and resolute.

She retreated and shouted, "It's fine if you want to kill these people, but you also want to kill me? Princess Mingzhu, you won't get your way today."

Jiao Xiaoxiao turned around and said coldly, "Those from the Thirty-Six Mystic Worlds, why aren't you charging? Do you want to die?"

In fact, there was no need for Jiao Xiaoxiao to urge them. Beitang Xuan of the Infinity World had already prepared his words.

He said, "It's the internal strife of your Mermen Clan. Why are you blocking our way? Are you going to start a war?"

Xia Xiaochan looked at Han Fei, and Han Fei chuckled. "A war? We've been in a war the moment you attacked me. Have you forgotten what you just did?"

Beitang Xuan's expression changed drastically. Did he find out?

However, even if Han Fei discovered it, so what?

He admitted that Han Fei was strong, but no matter how strong he was, he wasn't a king yet... Besides, Han Fei was blocking so many people, and the blood pool behind him was surging. The situation might not be necessarily favorable for Han Fei.

At this moment, you've obviously angered everyone by blocking the door!

Beitang Xuan shouted, "Everyone, the blood pool is overturned and a disaster is coming. This person is blocking the way. He's clearly a merman bully who wants to destroy our Thirty-Six Mystic Worlds. Even the Hundred Demons and the Undersea Humans are just mixed-blood scums in the eyes of the merfolk. We have more than 250 people. Are we afraid of them? Let's work together..."

Han Fei knew that it wouldn't be easy to block these people.

In fact, even if a true Sea Establisher was here, such as the White Armor Emperor... He would only be able to kill a few dozen people in less than ten seconds!

A Half-King was not a weakling, not to mention that those who could come to the Land of King Death were all outstanding figures of the major forces.

Even the poor Zhao Jin from the Blue Cloud World had extraordinary strength.

Now, Han Fei was blocking the door, so more than two hundred people were charging at him.

In their opinion, blocking the door was equivalent to killing them.

There were only about 50 merfolk. Bai Muling and Situ Yuhong looked at Han Fei and thought to themselves, Brother, which side are you on? We can't fight so many people at the same time!

Someone shouted, "Your Highness, it's dangerous."

At this moment, more than 200 Half-Kings surged over. How dangerous was this attack?

Han Fei didn't know if a king could resist it, but he couldn't.

Han Fei saw that almost everyone was here. Those who should attack had all attacked, and only a few were watching.

When these people were only hundreds of meters away from Han Fei, Han Fei said lightly, "Explode!"

Bang! Bang! Bang!

Boom Boom Boom ~

The faint mist around these people suddenly exploded.

Immediately, a large amount of gray fog broke through these people's defense under the impact of the Infinity Water.

"Ew..."

"Ew..."

"Oh no, poison gas!"

"Damn it, what's that smell?"

"This is a strange poison. It can actually pass through the skin and enter the body. Ugh..."

"It stinks. What kind of poison is this?"

At this moment, the Hundred Demons, the Undersea Humans, and the Thirty-Six Heavenly Palaces all began to retch. Blood was flowing out of their seven orifices and they looked extremely terrifying.

Bai Jingjiu and Dongfang Ming were retching and talking via voice transmission.

Bai Jingjiu said, "Ugh! Senior Brother, it's so poisonous! This poison can directly enter the soul. It's definitely an ultra-quality poison... Ugh..."

Dongfang Ming said, "Junior Brother... Ugh... This thing is not poisonous, but it does have a great effect on the soul... Ugh... If it is combined with soul poison, it will definitely be extremely poisonous... Ugh..."

Bai Jingjiu said, "Collect the poison... Ugh..."

When the others were retching and their strength plummeted, Han Fei saw that two of them were collecting the stench into their Sun-Moon Shells.

On a closer look, wasn't one of them Bai Jingjiu?

Han Fei was lost for words. The people from the Million Poison World are really interesting. Can't you smell the stink?

Han Fei thought, Since they still wanted to collect this stench even under such circumstances... it seems that this thing should be an extremely rare poison-making item for them. I wonder if this stench can be sold as poison? If it can, I'm afraid I'll be rich...

Buzz—

Spiritual energy protective covers spread out one after another.

However, wasn't it easy to break a mere spiritual energy protective cover?

Han Fei flicked his finger, and activated the Ten Thousand Knives in One. Because the place was very narrow, the Blade Inferno was formed immediately. The moment he used this move, some people in the distance were stunned.

Among them was Song Kaiyuan from the Supreme Mystic World.

Behind Song Kaiyuan, his junior sister Mushui Sisi couldn't help but ask in surprise, "Senior Brother, what kind of technique is this? Why do I feel that it seems to be..."

"Let's talk about it when we get back."

Mushui Sisi asked, "Can we go back?"

"Come on... have you forgotten what their slogan is?"

Ding ding ding!

Bang! Bang! Bang!

Han Fei's Blade Inferno could easily cut through the spiritual energy protective covers of the group of weakened Half-Kings.

As for the fact that some spirit gatherers could block smells, Han Fei didn't care.

Han Fei said with a freaky smile, "Evil ghosts hook souls, and impermanence takes lives. In the Death Valley of the Land of King Death, the Black and White Impermanence appeared. Money will pave the way and resources will buy your lives. The deal is made on the spot and no credit is allowed. Now pay up."

The group of more than 50 merfolk looked at each other when they saw these Half-Kings trapped in the array.

Who exactly was their princess with? The two of them had poisoned more than 200 people? Who would believe it?

Bai Muling glanced at Situ Yuhong. "Did they just need us to be the cheering squad?"

Situ Yuhong sighed with emotion and said, "The princess is still the princess of our Merman Royal Family. None of us are poisoned. Of course we should cheer for her."

Situ Yuhong roared, "Pay up!"

Bai Muling shouted, "The blood pool is about to collapse. Do you still want to go out?"

In the crowd, Beitang Xuan shouted, "B*stards... Ugh... How can you resist more than 200 people with only 50 of you... Ugh... Everyone, don't panic. Let's work together to break this Blade Domain. Charge!"

What Han Fei was most afraid of were such tough ones.

Even if his strength had improved greatly, he would definitely not be able to withstand the attacks of more than 200 Half-Kings.

This was not just one or two cabbages, but more than 200 Half-Kings.

After a round of attacks, he could only kill a few at most. As for the others, they could still run away.

However, Han Fei didn't panic. It seemed that he had to increase the dosage!

Han Fei waved his hand, and a large amount of gray liquid bloomed like a river. The more than 200 people who were about to rush over retreated the moment they saw the gray river.

What the f*ck? That was just a gas just now, but now this guy actually created a river? Who could withstand this?

Immediately, someone shouted, "Fellow Daoist, do you really want us to die here?"

Han Fei shouted, "I told you to pay. Don't you understand? Pay!"

Chapter 1796: A Real King-Level Strike

Han Fei was extremely arrogant.

At this moment, none of them could handle this poison.

Han Fei shouted, "I can't stop all of you, but you can give it a try! If you're not afraid of the stench, just rush over. Everyone can leave after dropping a key to the Monarch Palace. But if you are from Supreme Clearness, Infinity or Golden Crow, you'll have to leave your Sun-Moon Shells behind."

At this moment, the blood pool was surging. On one hand, these people had to resist the stench, and on the other hand, they had to avoid the blood muds and the collapsing void above the blood pool...

However, no matter how dangerous the situation was, what did it have to do with Han?

Han Fei sneered. "Let's be clear. I'm targeting the three of you. Do you think you can sneak attack me?"

"Arrogant!"

The five disciples of the Supreme Clearness World drew their swords.

However, Han Fei didn't even look at them and said, "This blood pool is about to capsize!"

Many people's expressions changed.

At this time, Han Fei needed someone to echo him, and Song Kaiyuan stepped forward. "Fellow Daoist, in the Soul Burial Valley, we've taken out all our assets. I'm afraid we're really short on money this time... The four palaces of Supreme Mystic, Sword God, Glazed Glass, and Immeasurability will each offer a key to the Monarch Palace, okay? By the way, can you move this treasure away? I'm afraid I'll be poked to death by it."

Song Kaiyuan pointed at the Infinity Water and smiled at Han Fei.

Han Fei's heart did a flip. This person recognized the Infinity Water? Yes, he smiled so calmly as if he had seen through everything.

Han Fei immediately rolled his eyes and grinned. "Look... This is called negotiation! This is called friendly negotiation. Supreme Mystic, Immeasurability, Sword God, Glazed Glass, please leave quickly."

This time, under Song Kaiyuan's lead, the four Heavenly Palaces headed straight for the exit.

Seeing Song Kaiyuan throw out four keys, Han Fei moved the gray water ball away and opened a path for them to leave.

In the next moment, Ice Snow Chuling and Holy Child, Xue Zhan came forward.

Xue Zhan flipped his hand and took out four Monarch Palace keys. "Four people from the Snow God's Temple."

Han Fei opened the door. "Okay! Please leave."

Xia Hai of the Golden Crow World was furious. He shouted, "Ridiculous! You just entered a door. Do you really think you're invincible? Everyone, there are so many of us. How can we be intimidated by these two people? Kill..."

This time, even Beitang Xuan didn't say anything. He thought to himself, You idiot, he has already made it clear that he is targeting the three of us. Will others make an enemy out of him for the three Heavenly Palaces?

Immediately, someone said, "Fellow Daoist, we two are from the Blue Cloud World."

Someone raised keys to the Monarch Palace. "Fellow Daoist, four from the Sanskrit Music World."

Cang Hongyu called out, "Fellow Daoist, five from the Dragon-Subduing World."

At this time, someone from the Hundred Demon Clan said, "Fellow Daoist, we have 62 people. Does it mean 62 keys to the Monarch Palace?"

Bai Muling immediately said via voice transmission, "The Hundred Demons are not on good terms with us. They are an inferior race. Kill them."

Han Fei remained calm. Do you really think I'm a merman?

Han Fei said solemnly, "As I said, today, I'm only targeting Supreme Clearness, Infinity, and Golden Crow. The others can go. But after leaving this place, we'll still be enemies. Then, we'll decide who lives and who dies..."

When the Half-Kings of the Hundred Demon Race heard this, they immediately stepped forward.

The keys of the Monarch Palace were thrown out one by one. Han Fei's path was right there. He didn't care which force you were from. Whoever paid could go.

When Bai Muling saw this, he thought to himself, Even if you don't kill them, you should collect more money from them! One key to the Monarch Palace for each of them. What is this for? For friendship?

However, Bai Muling had no idea what Han Fei was capable of.

A Monarch Palace key was quite precious in the outside world. However, this was the Land of King Death. In a life-and-death situation, who would hide it?

Of course, this was mainly because Han Fei didn't want much. Otherwise, if he wanted to rob these people of all their belongings, they would probably try their best to fight him, then Han Fei wouldn't be able to resist them even if he had the stench!

But now, these people were afraid of the stench and comforted themselves that it was worth it to exchange a Monarch Palace key for the opportunity to go out!

After the hundred demons left, the underwater humans also left. The other Heavenly Palaces of the thirty-six Heavenly Palaces also left.

They were all Half-Kings. Although it was not easy to find the key to the Monarch Palace in the Land of King Death, it was not impossible to find one.

Actually, everyone more or less had a few or even more keys in their pockets. Handing over one was no big deal!

Beitang Xuan and the others could only watch helplessly as the others left.

And now there were five people from the Supreme Clearness World, four from the Infinity World, and three from the Golden Crow World, as well as Jiao Xiaoxiao who Xia Xiaochan wanted to kill.

In total, there were 13 Half-Kings.

However, the 13 Half-Kings didn't give them any confidence. There were more than 50 on the opposite side!

To the merfolk, they were mortal enemies with humans.

What Han Fei targeted was Supreme Clearness, Infinity, and Golden Crow. They occupied three places of the top four Heavenly Palaces.

Bai Muling and Situ Yuhong couldn't help but suspect that Han Fei must have a deep hatred for these powerful Heavenly Palaces... He seemed to want to kill them all!

Xia Xiaochan asked telepathically, "Are you sure you want to kill them all?"

Xia Xiaochan thought that since Han Fei was a human being, he would definitely see things from a human's point of view. She had even always regarded herself as a human being. She had always felt that she was incompatible with the merfolk.

On the other side, a woman from the Supreme Clearness World said, "I don't know who you are, but you should be a human being. Why are you willing to help the Merman Race kill us?"

"Heh ~"

Han Fei sneered. "If Beitang Xuan didn't attack me just now... If the sword Qi of your Supreme Clearness Palace didn't sneak attack me... I don't mind letting you go."

Han Fei's meaning was clear. The problem was, you attacked!

Beitang Xuan didn't refute. "As far as I know, it wasn't just the three of us attacking you."

Han Fei grinned and said, "Because you three are the strongest! Do you think I care about the other Heavenly Palaces? So, since you're already adults... you have to pay the price for what you've done. I often rob people. If I'm killed, I can only blame my bad luck. If you have the ability, come and kill me!"

However, Xia Xiaochan said, "All merfolk, listen to me. Kill them all."

"Uh ~"

Xia Xiaochan was even more ruthless than Han Fei.

When Han Fei was about to speak, Xia Xiaochan looked at Han Fei and said, "Villains die because they talk too much."

Han Fei: "..."

"Well..."

As soon as Xia Xiaochan gave the order, Situ Yuhong said, "Well, can you remove this stinky water?"

Han Fei opened the Sun-Moon Shell and took back the smelly water.

At that moment, Beitang Xuan and the others attacked.

More than 50 against 13. If they could still escape, Bai Muling and the others could go back and enter seclusion.

"Tsk, tsk!"

For the first time, Han Fei felt how comfortable it was to have so many thugs under him! He didn't expect that he wouldn't be a boss one day...

At this moment, the murderous aura soared into the sky, and the blood pool was turbulent and full of cracks. However, before it collapsed, the blood pool's water began to surge everywhere, and the blood muds crawled messily.

After more than thirty seconds, the bottom finally collapsed. The merfolk and Beitang Xuan and the others had fought all the way out of the entrance.

However, this time, it was 50 against 8. In just 30 seconds, five people died.

Among them, two were from the Supreme Clearness World, two were from the Golden Crow World, and one was from the Infinity World.

Bang!

Beitang Xuan had killed two people with one slash. Although the two of them could still be reborn with a drop of blood, their Heavenly Talent-level combat power was revealed at this moment.

Suddenly, Beitang Xuan shouted, "You want me to die?! Let's see if you have the ability to do so! Who can resist my king-level strike?"

A jade pendant shattered on Beitang Xuan's neck.

In an instant, a terrifying might shook the surroundings.

Han Fei, who was watching the show, suddenly changed his expression. This guy's King-level Strike was different from others. It was so powerful!

Han Fei stepped forward with the Invincible Golden Body, and his strength soared to the Sea Establishment Realm. There was an array mark on his fist.

Most importantly, after his disassembling degree of spiritual energy reached 100%, Han Fei could almost perfectly release the power of spiritual energy, which meant that his power of the Great Dao was 30% stronger.

At this time, Han Fei suddenly saw a hundred-meter-tall phantom of a man looking at him.

That person said, "Humph! What a Mermen Race! What a traitor of the human race! How dare you bully my Infinity World!"

Bai Muling immediately shouted, "Retreat! Retreat... It's Old Weirdo Infinity, Yun Tianhe!"

Han Fei wondered what Yun Tianhe was.

However, Han Fei had unleashed all his strength. It seemed that Yun Tianhe was indeed very powerful, so Han Fei used the Chaotic Qi.

Roar!

Waves surged into the sky, and there was probably a huge power of a hundred thousand waves that shook the sky.

Xia Xiaochan was shocked and threw out a jade slip too. Unfortunately, she was slower than Han Fei.

Bang!

At the bottom of the Undersea Palace, the maze buildings were instantly turned into powder by Han Fei's fist force. When Yun Tianhe flipped his hand, the world collapsed.

Han Fei felt that billions of waves were crushing him.

Boom ~

Han Fei retreated a hundred kilometers and smashed the rocks on the seabed. His body was badly mutilated and hundreds of bones were broken.

This time, he was really hurt.

The power of Yun Tianhe's attack finally dissipated after defeating Han Fei and colliding with the power of Chun Huangdian.

However, immediately after, a king-level attack erupted from the Supreme Clearness World.

Xia Xiaochan came to Han Fei quickly and asked anxiously, "How is it?"

"Damn, why is this guy so strong? I haven't been so seriously injured in a long time. Let me recover."

Xia Xiaochan was relieved to see that Han Fei could still talk so much.

Turning around, Xia Xiaochan was furious. "Keep fighting! Kill them all!"

Chapter 1797: Leaving the Land of King Death

Buzz!

Fortunately, Han Fei had the Indestructible Golden Body, and every bone in his body was covered by his soul.

Therefore, even if every bone in Han Fei's body was broken, he wouldn't die.

Even if Han Fei was only left with a bone, he could still be reborn. This was the effect of the Indestructible Overlord Body.

Others could be reborn with blood, but Han Fei could be reborn with any part of his body.

With the Heaven Enlightenment Divine Technique, Han Fei's body was recovering rapidly.

Ka ka ka ~

After only thirty seconds, Han Fei's flesh and bones were restored, and he became full of strength again.

Xia Xiaochan asked in surprise, "Are you still fighting?"

"Yes! I'd like to see how many more times he can use that kind of power. I don't believe that a king has infinite power!"

At this moment, the entrance of the blood pool had already collapsed. A large group of Half-Kings of the Merman Race had almost flattened the seabed.

Smoke and dust filled the air. Except for perception, they could not see anything.

When Han Fei and Xia Xiaochan came back, perhaps because of the loud noise, they saw a huge hand in the air. It took five people away and patted two merman Half-Kings to death.

Seeing this scene, Han Fei was so angry that he stomped his feet. "So what if you're a king? This Land of King Death hasn't been closed yet... Where can you go?"

Then, Han Fei raised his rod and used the Heaven Gate Knocking at the huge hand.

A pillar of light pierced through the bottom of the sea and pierced a hole in the hand.

However, Beitang Xuan and the others were still taken away.

However, Bai Muling, Situ Yuhong, and the others swallowed their saliva when they saw this. They thought to themselves, What a f*cking god-like figure. He can fight with the power of a king just like that? And he even penetrated the king's hand?

Most of the Half-Kings of the Merman Race were dumbfounded. Who the hell is he? He doesn't seem to be from the Merman Race, does he?

Bai Muling and Situ Yuhong rushed over and took out eight Sun-Moon Shells as if they were presenting a treasure.

Situ Yuhong said, "Your Highness, we've indeed tried our best. Those people are probably the top disciples of the 36 Mystic Worlds. They have a lot of means. Even though we took turns to bombard them, they still survived. But even if they ran away, they must have been seriously injured."

Bai Muling quickly echoed, "Yes, they must be seriously injured. I personally imprinted a Blue Dragon Watermark at the heart of the guy from the Golden Crow World and destroyed one of his souls."

Xia Xiaochan looked into the distance. "Where's Jiao Xiaoxiao? Bring her up!"

Bai Muling looked back and immediately, someone brought a half-crippled mermaid over.

Situ Yuhong said, "Your Highness, after all, Jiao Xiaoxiao is the disciple of Long Youjun, the number one king in the Sea Establishment Realm. If you kill her, I'm afraid you will be picked on by him in the royal family in the future!"

Bai Muling also said, "Yes! Your Highness, although King Dian is powerful, he's not the only one in charge of the royal family. There's no need for us to anger Long Youjun for Jiao Xiaoxiao."

"Hmph! You cowards! This woman has tried to kill me more than once... How can I let her live?"

Han Fei listened on the side. It seemed that Xia Xiaochan would still be ostracized in the merman royal family...

At the very least, Jiao Xiaoxiao must have used her status to cause trouble for Xia Xiaochan many times.

As for that Long Youjun? Looking at how fearful these people were of him, he was probably not easy to deal with.

However, this person dared to murder Xia Xiaochan? She must die.

At this moment, Jiao Xiaoxiao, who was dragged up, sneered coldly. "Xia Xiaochan, your position as a princess has been controversial. If you kill me now and annoy my master, you'll anger half of the mermaid royal family. Do you dare to kill me?"

However, when Xia Xiaochan was about to speak, Han Fei reached out and two scimitars appeared in his hands. What else could they be but the Blades of Hope?

"Pfft!"

Han Fei slashed at Jiao Xiaoxiao's soul and grabbed her neck. "Who gave you the courage to speak like this in front of me?"

Jiao Xiaoxiao didn't know Han Fei. She was fearless because of her identity and the attitude of the merfolk towards Xia Xiaochan... She wanted to force Xia Xiaochan not to attack.

However, she had never met someone as reckless as Han Fei.

He attacked as soon as he said so. The killing intent was already on her face.

Jiao Xiaoxiao was shocked. "Do you know who I am? Xia Xiaochan, how can you tolerate this person... Ah..."

Han Fei was about to insert the Void Lines into the woman.

However, a mark lit up in this person's soul.

In an instant, a huge shadow appeared. It was like a giant sea beast. As soon as this person appeared, all the merman powerhouses here looked terrified.

Xia Xiaochan's face also turned much paler.

Seeing this, Han Fei burst out again. However, a domineering attack comparable to the one of Yun Tianhe just now appeared.

However, Han Fei wasn't attacking the figure but Jiao Xiaoxiao. No matter what, Jiao Xiaoxiao had to die today!

Even if I have to risk my life, I will make you feel pain.

"B*stard, how dare you?"

Bang!

Bang!

Crack ~

Around Han Fei, the six-gate array lit up, but in an instant, it was shattered. Han Fei blocked with a huge shield, and countless fish skin maps spun around him.

Xia Xiaochan tried to resist it with all her strength, but how could she resist such a power?

Han Fei pushed Xia Xiaochan away with the Infinity Water. The arrays around him were all shattered by this slap, and he was sent flying hundreds of kilometers again, spurting blood.

However, the moment Han Fei flew out, a blue light flashed, and Han Fei reappeared safe and sound, punching at the phantom again.

The clone was already angry when Han Fei punched Jiao Xiaoxiao into pieces, but Han Fei launched such a terrifying attack again? This made the clone realize that something was wrong.

The man's voice was cold. "What a Great Dao of Time! Kid, how dare you kill my disciple? Your path is over."

Bang!

Han Fei looked up at the black shadow and pointed at it. "If you have the ability, say it in front of me. Who do you think you are? So what if you're a Sea Establisher? Sooner or later, I'll tear your old bones apart and stew you in a pot. Then you'll know what strength means."

Bai Muling: "..."

Situ Yuhong: "..."

All the merfolk Half-Kings: "..."

At this moment, Bai Muling, Situ Yuhong, and the others were all stunned. F*ck, what did I see today?

They thought that Han Fei was already strong enough to enter the bronze gate and resist almost all these people alone. This was not something a normal Half-King could do...

However, the person who Han Fei challenged now was Long Youjun, who was known to be the strongest in the Sea Establishment Realm in the Merman Royal Family.

That was an existence that had reached the peak of the Sea Establishment Realm. It was said that he was about to break through to the King Realm...

Was it really okay for a Half-King to challenge the strongest king of our merfolk?

Xia Xiaochan was also a little stunned. She knew that Han Fei was strong, but she didn't expect him to be so strong. That was Long Youjun!

She had seen this person a few times. She was scared just to look at him. Now she couldn't help but be a little worried about Han Fei.

However, as Han Fei said, this Long Youjun was just a clone and could only attack twice. However, it was useless for Han Fei, who had mastered the Time Technique.

As soon as Long Youjun's shadow disappeared, Master Hexagon shouted, "Help! Han... Black Impermanence, help... I'm dying!"

Everyone pricked up their ears. Han? Han what?

Han Fei waved his hand, and a Holy Light Technique fell on the Hexagon Starfish.

This time, the big starfish was indeed covered in wounds.

He was still an intermediate peak-level Venerable after all. How could he block the blow of the strongest king of the Merman Race? If Han Fei hadn't blocked it with many arrays and then pushed the Hexagon Starfish to block it, he might have been slapped to death.

However, the brainless Master Hexagon almost exposed his name. Just now, he used the Great Dao of Time, which had revealed his identity.

With these people's power, they would probably be able to find out his true identity after they went out.

However, Han Fei wasn't quite worried.

Originally, with his grasp of the Great Dao of Time, he shouldn't be noticed by others. The Time Dragon Carp had also said that it didn't matter if he used it normally.

Now that they had finished their exploration of this place, it was time to go out.

Han Fei looked at Xia Xiaochan and said, "Let's go out and continue the hunting... to see if we can still find someone from Supreme Clearness and Infinity."

Although Bai Muling and Situ Yuhong wanted to keep Xia Xiaochan here, they didn't dare to do so with Han Fei around...

They couldn't possibly go against this fellow, right? Otherwise, they would be killed!

Xia Xiaochan grinned happily. "Let's go!"

“Huff~”

After the two of them left, Bai Muling, Situ Yuhong, and the remaining Half-Kings of the Merman Race slowly heaved a sigh of relief. This Killing God is finally gone, they thought.

Someone asked, “Master Bai, Master Situ, who is he?”

Bai Muling snorted. “Don’t ask what you shouldn’t ask.”

The two of them thought, Which one should I ask?

...

Not long after Han Fei and Xia Xiaochan came out, Master Hexagon was greatly relieved. “We’re finally out! Han Fei, can you treat me again? I’m about to make a breakthrough.”

Chapter 1798: Selling “Ten Thousand Mile Fragrance” for Money

It was only natural for Master Hexagon to break through.

This breakthrough was mainly because he was slapped by a king. He was almost killed! How could he not panic?

However, Han Fei said, “You can make a breakthrough, but you can’t use the power in your door at all! That power is much more useful than you think.”

The Hexagon Starfish’s six big eyes rolled. “What’s the effect?”

Han Fei knew that the Hexagon Starfish was up to no good. He immediately said, “I’ll tell you the details after you make a breakthrough.”

The Hexagon Starfish: “...”

Xia Xiaochan was also curious, but she only knew that this thing was related to the disassembling of spiritual energy. She would make good use of it later.

The Hexagon Starfish could make a breakthrough as long as he wanted. He had too many resources in his doors. Not to mention one breakthrough, even ten breakthroughs wouldn’t be a problem.

Han Fei was going to find Beitang Xuan and the others after the Hexagon Starfish made a breakthrough...

However, Han Fei subconsciously pinched his fingers and scanned with his perception. Immediately, he saw that someone was sneaking over in an invisible state.

“Huh?”

Han Fei frowned slightly. “Someone is coming.”

Xia Xiaochan said in surprise, “Someone is still coming? Is he stupid?”

The power Han Fei displayed couldn’t be underestimated.

After ordinary people saw it, they didn’t dare to offend him at all. After all, no one wanted to die!

Now, someone was actually rushing here?

Didn't these people leave as soon as they left the Undersea Palace? Even if they didn't leave after coming out and wanted to fight each other for the keys to the Monarch Palace, they shouldn't be near the Undersea Palace.

Han Fei and Xia Xiaochan didn't intercept them, because there were only two of them.

In Han Fei's opinion, they posed no threat at all.

A moment later.

The two of them broke through the void and rushed towards Han Fei.

Buzz!

When the void opened, Han Fei saw figures appear in the slightly distorted void barriers.

Han Fei asked, "Why are you here?"

However, with two cracking sounds, the distorted space on these two people shattered.

In the next moment, Han Fei saw a familiar face.

Han Fei couldn't help but smile. "Oh! It's Brother Bai. This must be your senior brother, Dongfang Ming, right?"

Han Fei had just robbed these two people.

However, just now, Bai Jingjiu left behind two keys to the Monarch Palace, and then the two of them left. Therefore, Han Fei only took a glance at Dongfang Ming.

At this moment, the two of them came again. Han Fei actually knew what their purpose was.

Just now, when everyone was vomiting, these two retched while collecting the stench. They were definitely here for the stench.

As expected, Dongfang Ming slightly cupped his hands. "Fellow Daoist, we are from the Million Poison World. Since you are a human and are not a bloodthirsty person, we'd like to ask you for something."

Han Fei said leisurely, "You have to pay a price for asking me for something."

Dongfang Ming said, "Understood. The keys to the Monarch Palace, right? We can exchange it with all our resources."

Han Fei: "..."

Han Fei and Xia Xiaochan looked at each other and thought to themselves, Are these two crazy? They want to trade everything they have?

In fact, it was easy for Han Fei to rob the two of them at this time, but they might have very powerful poisons on them.

If Patriarch Million Poison gave them a special poison, he might not be able to block it unless he used the Time Technique.

Han Fei said, "Oh! It seems that the Ten Thousand Mile Fragrance in my hand is very valuable to you!"

"Ten Thousand Mile Fragrance?"

Bai Jingjiu and Dongfang Ming looked at each other and immediately thought of something.

Dongfang Ming said, "Fellow Daoist, well... It's not fragrant, but smelly."

Han Fei rolled his eyes. You have no sense of humor at all!

Bai Jing said, "Fellow Daoist, since you already know our purpose, can we buy that smelly liquid?"

Han Fei nodded and smiled. "Sure. But the premise is that you have to take out enough resources. You've seen the power of my Ten Thousand Mile Fragrance. Even Half-Kings can't withstand its power. And this is a pure raw material. If it's refined into a pill, how powerful will it be? I can't imagine it. Blah, blah, blah... So, what are you going to exchange for it?"

Han Fei's last question was straightforward. You want to take something from me for free? Impossible.

Dongfang Ming said, "We found a broken Sea Quelling Bizarre Treasure. Can we use it as a bargaining chip?"

Han Fei raised his eyebrows and thought, Really? I don't mind!

However, Xia Xiaochan immediately said, "Who wants a broken Sea Quelling Bizarre Treasure? It's just a Sea Quelling Bizarre Treasure. I have two sets myself! What else have you got except the broken Sea Quelling Bizarre Treasure?"

Bai Jingjiu and Dongfang Ming were stunned. Yes, this girl is the princess of the Merman Royal Family. She certainly had Sea Quelling Bizarre Treasures!

While the two of them were struggling with the fact that they only had one trump card, Han Fei said, "Hey, girl, although it's broken, it's still a Sea Quelling Bizarre Treasure after all. What if it can still be used after some repairs? Even if it can't be used, it should be worth a few ultra-quality Divine weapons."

Dongfang Ming hurriedly said, "Yes, yes. It's definitely worth a few ultra-quality divine weapons."

Han Fei grinned and said casually, "Well, let's get straight to the point. A Monarch Palace key can be exchanged for one catty of Ten Thousand Mile Fragrance. Are you willing to trade?"

"A catty?"

Bai Jingjiu and Dongfang Ming looked at each other. Bai Jingjiu said, "Fellow Daoist, isn't this too little? The key to the Monarch Palace is only for one catty?"

Han Fei said casually, "You're here to do business with me. I can't drive you away, but don't forget that we are not businessmen!"

Han Fei's casual tone made Bai Jingjiu and Dongfang Ming's hearts skip a beat. This person blocked the way of more than 200 people alone and was terrifyingly strong.

If he really wanted to rob them, it would be very difficult for the two of them to resist.

Dongfang Ming frowned. "But then we can only get dozens of catties. It's not enough."

Han Fei thought to himself, These two people want the smelly liquid, which is most likely used to refine poison. I don't know how to refine poison, so I can only use whatever I have. However, these two people are masters of poison. The smelly liquid must be very useful to them.

Han Fei smiled. "Well, I've always had a good impression of the thirteen worlds in the outer domain, especially the Million Poison World. I know you're very good at refining poison. How about this? Well... You can trade the poisons on you with me. Each poison can be exchanged for a catty of smelly liquid... However, you have to give me at least half of the keys to the Monarch Palace you've got."

"Really?"

Han Fei saw Bai Jingjiu and Dongfang Ming immediately perked up.

Speaking of resources, perhaps they really didn't have many. However, when it came to poisons, they had a lot! Which Heavenly Talent of the Poison Dao didn't have thousands of poisons?

Immediately, Bai Jingjiu said, "Fellow Daoist, I have 1,103 types of poison on me. This is 1,103 catties."

"F*ck..."

Even Han Fei, who was as calm as an old Buddha, couldn't help but be shocked at this moment. Why did you bring so much poison with you? Aren't you afraid of being poisoned to death?

As for Dongfang Ming, he was also beaming with joy. "Fellow Daoist, Junior Brother and I take different cultivation paths. The poisons we have are also different. I have 1,607 kinds of poison, so I can have 1,607 catties, right?"

Xia Xiaochan looked at Han Fei speechlessly. Is he crazy? When did Han Fei become addicted to poisons?

But now, it was inconvenient for her to ask, so Xia Xiaochan could only watch.

Han Fei said with a smile, "Good. The poisons of the Ten Thousand Poison Sky are praised all over the Raging Sea. I can use them to poison my enemies. However, you have to tell me what different poisons are used for... In this way, I can know how to use them."

This time, Bai Jingjiu and Dongfang Ming both smiled confidently. "Of course. Poison is meant to be used. Fellow Daoist, please observe..."

With a thought, thousands of medicine bottles, boxes, jars, and bags appeared in midair.

Then Bai Jingjiu handed Han Fei a jade slip, saying, "Fellow Daoist, take a look."

Han Fei took it and glanced at it, only to see a lot of messy poison records.

For example, the Hundred Soul Wither, a great poison of the body, could corrode the body and contaminate the soul. In the end, it would cause the soul to disappear, and the victim would even be impossible to reincarnate.

For example, Blood Thorns, a blood dissolving poison. After being infected, all the blood in the body would gradually stop flowing, producing Blood Thorns that could crush the meridians in the body.

...

There were thousands of different kinds of poisons.

Seeing this, Han Fei felt refreshed. This time, he had made a fortune! In the future, he would definitely go to the Million Poison World. With the Ten Thousand Mile Fragrance alone, he could buy an astronomical-figure number of poisons.

Han Fei said casually, "OK, a total of 2,710 catties."

Han Fei raised his hand, and a large amount of gray liquid floated in the air.

Xia Xiaochan saw it and hurriedly jumped away.

Only Bai Jingjiu and Dongfang Ming gazed at it as if they had seen their lover.

Han Fei said leisurely, "Well, where are the keys to the Monarch Palace?"

Chapter 1799: The Black and White Ghosts Leave Translations

Obviously, Bai Jingjiu and Dongfang Ming didn't care much about the keys. They were more interested in refining poison! In the end, they gave a total of nine keys to Han Fei.

Han Fei didn't look for trouble... such as asking to see their Sun-Moon Shells or what.

In Han Fei's opinion, the people of the Million Poison World could be his friends.

At least, they were of great value to him!

When his resistance to poison reached an extremely high level, he could study how to increase the resistance of his soul to poison to the highest...

No matter what, with the Vast Ocean Navigator, he had plenty of ways to find the Ten Thousand Poison Lotus Seed and the Nine Poison Treasure Silkworm the Patriarch Million Poison mentioned.

At that time, once he obtained such treasures, the Million Poison World would be his resource warehouse and he could easily get poison from them.

Han Fei said, "Okay, you probably don't have any resources left. Let's part ways here. If there's a chance in the future, we might have a chance to cooperate."

Bai Jingjiu's eyes immediately lit up. He shook his Sun-Moon Shell and took out a token engraved with a spider mark. "Fellow Daoist, if you come to the Million Poison World in the future, as long as you come to the Great Desolate Swamp in the Spider King City, you can find us with this token..."

"Uh ~"

Han Fei thought to himself, Are these two so innocent? I'm just being polite to you, but you're giving me a token? Even if you dare to give the token to me, I dare not to go there!

From the name, Spider King City, Great Desolate Swamp... It was obviously not a good place.

Han Fei accepted the spider token politely and thought to himself, Regardless of whether it's useful or not, it doesn't take up much space, but if I go to the Million Poison World in the future, I'll probably buy poison from others.

After Bai Jingjiu and Dongfang Ming left, Xia Xiaochan couldn't help but tilt her head. She looked at Han Fei strangely and asked, "Who did you buy so much poison for?"

Han Fei curled his lips. "Can't I eat them myself?"

Xia Xiaochan was lost for words. "How can you eat thousands of poisons? Do you think you're a poison man?"

Han Fei didn't tell Xia Xiaochan about the Heaven Spirit Detoxifying Insect, mainly because he had forgotten about it.

Han Fei smiled. "Well, let me tell you what happened..."

A moment later.

When Han Fei explained it to Xia Xiaochan, she exclaimed, "Is the poison awful to taste?"

Han Fei shrugged. "I don't think it tastes bad, but it definitely looks bad."

Xia Xiaochan: "..."

Crack ~

At this moment, the surging spiritual energy on the Hexagon Starfish finally stopped. It seemed that he had successfully broken through. From then on, an advanced Venerable Starfish was born.

Han Fei believed that as long as this guy was willing, he could quickly increase his strength to the peak of an advanced Venerable. He had to supervise him more in the future, or the starfish would be wasted.

At this moment, the last danger zone had been explored.

Xia Xiaochan asked, "What happened to you behind the bronze door? Why did you make a breakthrough?"

Han Fei thought to himself, I really can't explain the Void Temple clearly.

Was he going to tell Xia Xiaochan that he had somehow become the youngest disciple of the Void Temple after going in?

Then, he was inexplicably given a wine gourd by an unknown senior brother?

In fact, he didn't even know how he broke through... And how did his spiritual energy disassembling degree reach 100%? He still didn't know.

Anyway, I just needed to open my eyes and everything had been done. God knows what happened?

Han Fei thought for a moment and explained, "After I went in, I felt that someone was chanting scriptures beside my ear. When I woke up, my strength had already broken through. Then, darkness appeared in front of me. Then, I came out of the door."

Han Fei thought that it was better to talk about the 100% disassembling degree of spiritual energy later. He hadn't figured it out yet, so he could explain it to Xia Xiaochan later.

Xia Xiaochan's eyes widened. "That's it?"

Han Fei scratched his head. "I also had a dream that there was a skeleton bigger than a mountain and a strange fish swimming in the waterfall... Oh, right, I also picked up a wine bottle."

Then, Han Fei took out the Green Wine Gourd.

Han Fei thought to himself, I'll probably use this gourd in the future. After all, it's a high-quality godly weapon.

Xia Xiaochan took the Green Wine Gourd curiously and tried to open the cork to smell it, but her face turned green the next moment.

Even though she used all her strength, the wine stopper did not move at all.

Xia Xiaochan was shocked. "This is a treasure! I know why there's alcohol in front of the bronze door. It's probably from this gourd. Since you picked it up, try pulling it out."

Han Fei thought to himself, I haven't pulled it out yet... But I can try.

However, when Han Fei tried to pull out the cork himself, his face changed. F*ck, give me some face, okay? Senior Brother has already given you to me, OK?

Han Fei discovered that in his current state, he couldn't even move the cork of the bottle.

However, Han Fei thought that he should be able to pull it open when he used his Great Dao. At that time, it would be equivalent to the power of a king. Otherwise, if he couldn't even pull out the cork, would his senior brother give him this?

Han Fei said, "Let's try again when we have enough time after we get out. Now that basically all the secret realms have been explored, I think most people should want to leave the Land of King Death. Let's hurry up and see if we can catch those people from Supreme Clearness and Infinity"

Xia Xiaochan looked up at the sky and thought to herself, I won't expose you for fear that your pride as a man won't be able to take it.

However, Xia Xiaochan was also amazed. The real treasure was the gourd, but since Han Fei got it, it was equivalent to her getting it.

Immediately, Xia Xiaochan was overjoyed and felt that the air was fragrant.

Han Fei was puzzled. "What are you laughing at?"

Xia Xiaochan asked, "Am I not allowed to laugh?"

Han Fei shook his head and waited for the Hexagon Starfish to stabilize his cultivation.

After waiting for half an hour, the Hexagon Starfish slowly opened his six big eyes and said, "Starfish made a breakthrough? Sure enough, Starfish is a genius. I made a breakthrough so easily."

However, Han Fei said, "Stop bragging. You're just an advanced Venerable. Let's go."

Han Fei took out the Vast Ocean Navigator and asked it to point at the location of Beitang Xuan.

However, the Vast Ocean Navigator did not move.

Then, Han Fei asked it to point to Xia Hai. This guy was not a good guy. It wouldn't be too much to kill him.

However, the Vast Ocean Navigator still did not move.

"Hiss ~"

Xia Xiaochan couldn't help asking, "What's wrong?"

Han Fei frowned. "There are still three days left. Have all these people gone out?"

Han Fei immediately said, "Not good! Girl, you and the big starfish enter the Sea Quelling Painting first. We won't look for anything in case the people from the Glazed Glass World leave... I have to arrange the follow-up trip quickly."

Han Fei let them enter the Sea Quelling Painting, which meant that Han Fei was ready to go out.

However, Han Fei couldn't go out with others. He also had the identity of Xue Zhan, which was a great camouflage.

At this moment, Xia Xiaochan immediately said, "Then don't look for trouble. Let's get down to business. Let's go to the Glazed Glass World first."

Han Fei immediately nodded, and then the phantom of mountains and rivers appeared.

In the end, Han Fei said, "Master Hexagon, remember, don't use the power of the Great Dao."

The Hexagon Starfish rolled its big eyes. "Got it."

When Xia Xiaochan and the big starfish entered the Sea Quelling Painting, the Vast Ocean Navigator began to rotate, aiming at Ice Snow Chuling.

At least, these people from the Snow God's Temple would not leave.

Han Fei had already told Ice Snow Chuling about this. Besides, he still had a clone there. If his main body didn't go, how could his clone leave?

In fact, Ice Snow Chuling and the others didn't go very far, only about two million kilometers away. With Han Fei's speed, he found them in half an hour.

At this moment, Ice Snow Chuling was standing on the deck of the big ship, apparently waiting for Han Fei.

Swish ~

As soon as she realized that someone was here, she saw Han Fei standing beside her.

Han Fei took Xue Zhan's mask and covered his face. Then, his body quickly changed shape. In less than half a second, Han Fei turned back into Xue Zhan.

Ice Snow Chuling heaved a sigh of relief. "You're back?"

Han Fei nodded slightly. "Where did the others go?"

"Most of them are heading for the exit. There's only one exit in the Land of King Death. Every time there's a trial in the Land of King Death, except for when people die during the exploration, the rest of the time is when people fight each other. And one of the main places of fighting is the exit."

Han Fei said, "Then let's go there. Anyway, there's nothing to explore in the Land of King Death. Let's go to the exit first. It won't be worth it if the peak-level Venerables of the Snow God's Temple are hunted."

Han Fei had another idea. He had to make his presence known quickly. By then, the Black and White Ghosts wouldn't be able to go out.

Ice Snow Chuling immediately nodded. "Okay!"

Han Fei said again, "I'm going to the cabin to take a rest. I'll be out in four hours at most."

Han Fei reminded her not to travel too fast.

Ice Snow Chuling had a guess in her heart. Han Fei must have kidnapped and hidden the princess of the Merman Royal Family in the Sea Quelling Painting. At this moment, he was probably in seclusion because of this.

As soon as he entered the cabin, Han Fei set up a seal.

Next door was where the other two Half-Kings were resting. It was better not to let them interfere.

Swish ~

Han Fei entered Forge the Universe. Four hours was about five days in Forge the Universe.

Han Fei still had too many questions, so he needed a short time to think.

However, before that, he needed to deduce a technique, which was the "Divine Deceit Technique".

Chapter 1800: Truth of the Great Dao

This Divine Deceit Technique was the great technique with which Han Fei disguised as Xue Zhan. It was a venerable-level divine-quality technique. Because of this technique, even a king couldn't see through him.

However, he had to deduce this technique now.

When they came in, no one knew that a person like Han Fei would appear and kill the Heavenly Talents of the Supreme Clearness World and the Infinity World.

No one expected that someone could rob the Venerables of almost all the forces alone.

However, it was different outside.

The power he had displayed in the Land of King Death was too strong. It was so strong that he could not even be killed by a king-level strike. It was so strong that he could even resist a powerful blow of the master of the Infinity World.

This matter could not be hidden.

Therefore, if the kings didn't see him come out, they would definitely be suspicious.

At that time, could the Divine Deceit Technique be seen through? He really didn't know.

The moment Han Fei appeared in Forge the Universe, with a crack, Gui Sanqing's body suddenly moved.

"Huff~"

The old turtle suddenly asked, "Han Fei, where are we?"

Han Fei: "..."

Han Fei looked at the old turtle speechlessly. "Old Yuan, are you okay? We've been out of the bronze door for a long time."

"Huh?"

The old turtle was shocked. "Have we been in?"

Han Fei said casually, "Forget it. I was going to ask you what happened, but you were even more confused than me."

Then, Han Fei told the old turtle what he had just told Xia Xiaochan.

However, of course, it was not a problem to expose a few more keywords.

Han Fei said, "Apart from these, I vaguely remember hearing about the Void Temple."

"Hiss! What temple?"

The old turtle jumped up in shock and looked at Han Fei in shock.

Han Fei was also dumbfounded. You weren't so surprised when I mentioned the Temporal Temple and the Immortal Temple... Why were you so excited when I mentioned the Void Temple?

The old turtle asked, "Are you sure it's the Void Temple?"

Han Fei rolled his eyes. "I'm not sure. I just remember these words."

The old turtle murmured, "It must be the Void Temple. This name was a terrifying existence in the Age of Gods. To be precise, it was an ancient existence that might have existed since ancient times."

Han Fei said in confusion, "Well... wait a minute. Tell me everything you know."

The old turtle said, "I don't know much either. I only know that the Void Temple is one of the three temples. However, it's obviously different from the other two temples. As you know, the Immortal Temple covers almost the entire sea. Where there are undead creatures, there may be shadows of the Immortal Temple, or at least the faith of the Immortal Temple. As the name suggests, the Temporal

Temple is related to time, and time is related to the river of time. It's said that the mighty figures in the Temporal Temple are all people who can cross time. I was lucky enough to see them a few times. I don't want to be enemies with these people, and it's best not to fight them even if you can beat them. As for the Void Temple..."

Han Fei raised his eyebrows. "What's wrong with the Void Temple? Is it related to space?"

"Heh!"

The old turtle sneered. "It has nothing to do with space. The Void Temple is said to be the most mysterious existence among the three temples. No one knows where they are, which people are from the Void Temple, what their identities are, or where they come from. In short, everyone in the Void Temple is extremely mysterious. Once, in the Age of Gods, a powerhouse of the Void Temple was exposed... Do you know how strong he is?"

Listening to the old turtle bragging, Han Fei was like a kid listening to stories, "How strong is he?"

The old turtle said, "It's not an exaggeration to say that he has suppressed this place for ten thousand years alone. He's invincible under the gods."

"Hiss ~"

"Gulp ~"

Han Fei couldn't help but swallow. This was a bit exaggerated.

That was not the Age of Doom, but the Age of Gods! In the Age of Gods, he had suppressed all the heroes for ten thousand years? How strong could he be?

Han Fei couldn't help but ask, "What happened next? How was he exposed?"

The old turtle: "How did he get exposed? Huh... It seems that the man provoked a god and killed a son of a god, or a pair of his sons. Then the god was angry and chased the man for a long time. However, the man ran away very fast. Later, it was said that the god found a group of gods to help him and blocked that guy. In the end, a super master of the Void Temple came and killed the god who chased that guy on the spot."

Han Fei said in shock, "F*ck, it's so sensational?! Even a god was killed by them?!"

The old turtle said, "I guess there should be strong and weak gods! Besides, all the gods died in the battle of gods but no one knows what exactly happened... However, this proves that gods can die."

Gulp!

Han Fei couldn't help but swallow. So, he accidentally joined this super force?

The old turtle said leisurely, "It's said that the Void Temple believes in nothingness... It's said that the people of the Void Temple don't even know each other. It's quite strange!"

The old turtle didn't understand, but Han Fei felt that he did.

He entered the Void Temple through the bronze door. After entering, he could see nothing but shadows. He could only tell some obvious creatures, such as an insect, a fish, a dragon, a bird, a skeleton, and so on...

And what about that Eldest Senior Brother?

When he looked up, his head was about to explode and blood was flowing out of his seven orifices. He was considered a member of the Void Temple, but he had never seen anyone of it... Wasn't this mysterious?

Han Fei couldn't help but sigh.

The insect said that he would have a way to enter the Void Temple in the future. God knew how he could do it. He had nothing but this gourd now.

Coincidentally, the old turtle also looked straight at Han Fei and asked, "Is this the gourd you mentioned?"

The old turtle pointed at the Green Wine Gourd next to Han Fei and his eyes widened curiously.

Han Fei chuckled. "What do you think?"

But Han Fei immediately said, "Now is not the time to open it. I still have a lot of things to do. If I drink too much and sleep for a few years, everything will be over."

Han Fei thought to himself, It's possible to happen. A random wine gourd given to him is a high-quality godly weapon. What level would the wine inside be?

Han Fei sat cross-legged, closed his eyes, and ignored the old turtle.

"Deduce."

He had to finish his business first. As for what else he wanted to study, he would study it after he was done.

A moment later, information popped up in Han Fei's mind.

Heaven Deceiving Technique (Sea Establishment Realm, High-quality)

Introduction: On the basis of the Divine Deceit Technique, imitate someone's soul and aura in appearance, voice, smell, luck, suppressing pressure, and Great Dao. The Heaven Deceiving Technique can confuse the other party's mind. Even if you lie, the other party can't tell.

Deduced Art: Unknown

Deduction Cost: 500 wisps of Chaotic Qi

Note: It has reached the limit of the Demon Purification Pot's current deduction. If it is deduced again, it will involve the mysteries of the world and damage the Demon Purification Pot.

After reading the information about this technique, Han Fei thought to himself, This time, there should be no problem. After all, it was a Sea Establishment Realm technique, and it also added luck, suppressing pressure, and Great Dao.

Han Fei's heart did a flip. He had to set a Great Dao for Xue Zhan.

This Great Dao could not be too weak.

Previously, at the Heavenly Imperial Ancient Tree, he had displayed powerful strength. Then... the Great Dao of Strength! Anyway, he couldn't expose the Art of Invincibility. Otherwise, he would definitely be suspected.

After spending two days studying the Heaven Deceiving Technique and making sure that he could master it, Han Fei finally began to consider spiritual energy disassembling.

Han Fei raised his hand and spiritual energy appeared on his fingertips without even thinking.

"Hiss ~"

Seeing this, the old turtle was stunned. "Wait, you created spiritual energy?"

Han Fei was also a little stunned. "Huh? Didn't I make it before?"

The old turtle said, "No. Before, yours was deduced from the Dao runes and had a series of processes. But now, what is this? You created spiritual energy with a mere raise of your hand?"

"Um..."

Han Fei rubbed his chin. "What you said makes sense. Why can I create spiritual energy with a raise of my hand? But what's the benefit of creating spiritual energy for my battles?"

Han Fei seemed to have made a judgment.

With the Heaven Enlightenment Great Dao as Dao runes, he raised his hand and a holy light appeared. In this holy light, there were more than a thousand points of spiritual energy.

At this point, Han Fei discovered a problem. Just now, when he used the Heaven Enlightenment Divine Technique, he found a problem with the Great Dao.

Han Fei asked, "Old Yuan, are the Great Dao everywhere?"

The old turtle nodded. "Yes!"

Han Fei asked, "The Great Dao isn't a specific power, right?"

The old turtle asked, "No? I think it is! Otherwise, why would the power of the Great Dao appear?"

Han Fei closed his eyes and murmured in his heart, If we are all deceived, the power of the Great Dao doesn't exist in this world at all. What exists is only my belief in this Great Dao... Then, can the power of the Great Dao be born from my belief? The stronger the belief, the stronger the Great Dao. If so, then...

Han Fei finally knew why there was a Dao heart.

The stronger the Dao heart, the stronger the Great Dao, because the Great Dao was in the heart and the heart produced the Great Dao.

Han Fei's heart was pounding.

Therefore, everyone sat quietly in front of the bronze door, saying that they were absorbing the power of the Great Dao.

In fact, everyone was listening to the Eldest Senior Brother's lecture. The content of the lecture revealed a trace through the bronze door and touched everyone's Great Dao, making everyone's hearts produce the so-called power of the Great Dao.

"Yes, yes, that's it, yes..."
