Chapter 1801: If I Hadn't Come, You Would Have Died

Han Fei immediately understood the true meaning of the Dao heart. This was something he had never understood before.

Even though Han Fei had made a great wish, he didn't understand what a Dao heart was. But now, he did.

However, this epiphany required a premise: that was, the disassembling degree of spiritual energy had to reach 100%. This was because with a thought, he could create spiritual energy. Creating spiritual energy that belonged to his Dao doubled his strength.

Even if his disassembling degree had reached 99% and he could completely construct spiritual energy, it was still disassembling spiritual energy and relied on his understanding of the structure of spiritual energy.

However, that was not enough!

The last step was still missing which was: with a thought, the Dao runes would appear; with a thought, the spiritual energy would change.

This thought was actually referring to his Dao heart. In other words, his Dao heart would produce Dao runes, and his Dao heart would produce spiritual energy.

Under this premise, the stronger the Dao heart was, the stronger the power created would be, and the stronger his strength in the Sea Establishment realm would be.

Therefore, although Han Fei hadn't become a king yet, he already understood the goal of the Sea Establishment Realm: to firm his Dao heart and study the Great Dao so that he could become stronger!

Han Fei couldn't help but look at the old turtle sympathetically. So what if he was an emperor? An emperor had never realized the true meaning of the Dao heart.

In fact, as long as one's disassembling degree of spiritual energy didn't reach 100%, it was impossible for him to comprehend the true meaning of the Dao heart. How could they understand this last step?

Han Fei couldn't help but smile. It turned out that it wasn't that no one in this world could fully disassemble spiritual energy, but that people were eager for quick success and all chose to make a breakthrough in a hurry.

Even though many of these people had reached the Sea Establishment Realm, they still didn't understand this truth.

Or rather, they thought that disassembling spiritual energy was just what Venerables should do. Therefore, after they reached the Sea Establishment realm, they never picked it up again.

Han Fei couldn't help looking at the old turtle. "Old Yuan, have you continued to disassemble spiritual energy after you reached the Sea Establishment Realm?"

The old turtle said, "I had tried, but I didn't succeed. At the end of my Sea Establishment realm, I only disassembled spiritual energy to 99%. However, it was useless... I had communicated with the other emperors, but I knew that even the monarchs couldn't disassemble it to 100%. Besides, after the Sea Establishment realm, the Great Dao is connected to the Origin Sea. The Origin Sea can create its own Dao rune energy. Everything went very smoothly..."

Han Fei: "..."

Han Fei didn't know what to say. This was the change of a thought. The last one percent was not the way to disassemble, but the way to think, which was related to the Dao heart.

However, many people were lost and didn't understand.

However, the old turtle said even the monarchs didn't figure it out, which Han Fei didn't believe.

How could someone who could reach the level of a monarch not even understand this? He had only listened to a lecture and his Eldest Senior Brother had solved his problem.

Seeing Han Fei's expression, the old turtle couldn't help but say, "Don't think I didn't work hard enough. The other emperors couldn't do it either. You can't only blame me."

Han Fei shook his head slightly. "Okay!"

At this moment, Han Fei had deduced the Heavenly Deceit Technique and comprehended his Dao heart, and his combat power had soared, so he was in a good mood.

Han Fei looked at his gains.

Among them, there were 461 so-called Monarch Palace keys! This number might shock these people.

Among these keys, in addition to the "trash" of the Monarch Palace, there were also a few useful things. One was 13 Mystic Yellow Stones, one was a green-gold key, and one was a green bamboo.

This key was the first real key Han Fei had seen.

Han Fei felt that it might be useful.

The Demon Purification Pot couldn't tell what the green bamboo was, so it didn't know what it was. However, its quality was definitely extraordinary. Therefore, it was listed as a treasure by Han Fei.

The others were all bottles, stones, jade, swords, and weapons. However, they were stained with the luck of the Monarch Palace, so they could barely be used as keys.

No matter what, he had gained more than 400 keys.

On this trip to the Land of King Death, the Snow Lady only asked for 20 keys. It could be seen that this thing was not easy to find.

In the next two days, Han Fei adapted to his new power again and felt the feeling of creating power to fight. Only then did he leave Forge the Universe in satisfaction.

During this period, the old turtle asked about Han Fei's disassembling degree of spiritual energy.

But Han Fei just said, “It’s a secret”, which made the old turtle really mad.

In the outside world.

It had been less than four hours since Han Fei came into the cabin to cultivate.

When Han Fei came out, Ice Snow Chuling was still on the way to the exit. The ship wasn’t moving very fast, or to be exact, very slowly.

Seeing Han Fei come out, Ice Snow Chuling was a little surprised. She said, “Heavenly Master, I feel that you seem to be a bit different.”

“Oh?”

Han Fei sensed that maybe it was because he had changed his Great Dao and pretended to be Xue Zhan!

Han Fei said, “Let’s go! It’s time to show up.”

Buzz—

The big ship teleported a few times and soon came within 200,000 kilometers of the exit.

“Huff~”

As soon as the big ship arrived, they felt crazy shockwaves.

The accompanying impact was clearly caused by a great battle.

When Han Fei scanned around with his perception, he found that there were hundreds of battles at the same time. Near the exit, there was a melee. All the major forces were guarding here.

However, looking at the battlefield carefully, this melee had its limits. Most of the battles were between humans and sea demons, human and mermen, and human and undersea humans.

At this moment, the Thirty-Six Mystic Worlds of human beings began to be more united. The mermen, the hundred demons, and the undersea humans also began to stand on the same side.

No matter how the major powers fought each other during the exploration of the Land of King Death... they still had to be united at this critical time. Otherwise, the battle would really be a mess.

For example, some human Heavenly Talents were fighting fiercely with the mermen. Some human peak-level Venerables were fighting the hundred demons and the undersea humans.

Han Fei scanned with his perception and saw that there were less than 1,000 people here, only seven or eight hundred. He wondered if everyone had come.

At this moment, the peak-level Venerables of the Snow God’s Temple were with the people from the Wind Slaying World and the Thunder Fire World, and were clamoring against the undersea humans.

When Han Fei’s big ship gradually approached, it appeared in everyone’s perception.

A Heavenly Talent from the Wind Slashing World shouted, “Holy Lady Chuling, Master Holy Child, quickly reinforce us.”

Roar!

“Thunder Fire Sky Shattering ~”

A powerhouse from the Thunder Fire World held a lightning hammer and stood proudly in the air. Wind and lightning gathered and he smashed out a thousand lightning arcs, fighting a giant lobster.

A Wind Slashing World powerhouse flashed in the void like a phantom and was attacking a super eel.

Han Fei said, “Let’s fight! We still have to fight.”

Ice Snow Chuling was slightly relieved. She tapped her toes and flew into the void, shouting, “Are the people of the Snow God’s Temple safe?”

As Ice Snow Chuling approached, the peak-level Venerables of the Snow God’s Temple were all refreshed.

Someone replied, “Holy Lady, 14 people have returned, and six haven’t returned yet.”

Ice Snow Chuling was slightly relieved. At least, these 14 people were safe. Plus her, Chu Yang, Qin Yu, and Han Fei, there were 18 people...

This time, a total of 24 people from the Snow God’s Temple came. If only six people didn’t return, it was acceptable.

As soon as Ice Snow Chuling arrived, a strong master of the undersea human race shouted, “The Holy Maiden of the Snow God’s Temple. Heh, it’s said that she’s just a girl who has just made a breakthrough. Come, let me fight you.”

Behind Han Fei, Chu Yang and Qin Yu had also arrived at the deck. Seeing the situation, the two of them became serious.

Chu Yang said, “That person is the old thief of the Undersea Human Race, Iron Claw. We can’t let the Holy Maiden take the risk alone. I’ll go support her.”

Qin Yu said, “The Wind Slashing World doesn’t seem to be able to withstand it. I’ll go help.”

The two of them glanced at Han Fei and thought to themselves, This guy might have his own plans... Their statuses are not as high as Han Fei’s, so they’d better not tell him what to do.

Han Fei was looking at the crowd, hoping to take this opportunity to hook up with the people from the Glazed Glass World.

At this moment, the only ones who were fighting fiercely were Mushui Sisi from the Supreme Mystic World and a girl from the Glazed Glass World. Their opponent was a powerful Half-King of the undersea human race.

At this moment, Mu Shuisi shouted, “Mu Xi, use the Three-Foot Glazed Spirit Splitting Sword to attack his soul.”

The woman named Mu Xi flashed.

The void bloomed, and the glass glowed. As she opened her eyes, a colorful light sword reached the center of the Half-King's eyebrows.

"The Wandering God Scorpion Spike..."

A giant scorpion turned over and stabbed at the small glass sword in midair with green light.

Mushui Sisi hurriedly shouted again, "Xixi, retreat 30,000 feet. Flowing Light Shield, Shield Counter Star Cloud Arrow."

Mushui Sisi stepped on a strange array map and appeared thousands of meters away with a swish.

She shouted, "Supreme Mystic Water Bind, Ice Flood Dragon..."

A water-colored cage appeared in the sky, and the head of the ice-blue dragon shot into the sky.

On the other side, Mu Xi retracted her light shield and looked at the falling light in the sky.

Ripples appeared on her shield and spun at the stream of light. A big arrow of light split into three thousand arrows and shot at the undersea human powerhouse.

In fact, this was just what happened on one battlefield.

Every battlefield had such exciting scenes. These people were all strong masters. Who's fighting wasn't fierce? Huge waves surged, and the sea couldn't calm down for a long time.

Roar!

"Scorpion Tail Soul Attract, Freeze Eye."

The strong master of the undersea human race stepped on an ice dragon and locked his bloodshot eyes on Mu Xi. A blue light shot out like a hook. Obviously, he was trading injuries for injuries.

However, Mushui Sisi's expression changed drastically, and she shouted, "Xixi, Water Glass Body, quick..."

However, Mu Xi's reaction was still half a beat slower. In an instant, Mu Xi was dumbfounded.

Buzz!

However, the expected soul damage didn't happen.

When Mu Xi opened her eyes, she saw a man in a snow-white cloak standing in front of her.

This person stepped in the air and instantly arrived in front of that undersea human.

Mushui Sisi was the first to react. Although she was surprised that Xue Zhan would help them, she still reminded him. "Be careful of the Blue Electric Scorpion Poison, which is extremely fast..."

"Sword, come!"

In the eyes of the two women, Han Fei stood still in the air. His two fingers were like swords, and he pointed at the void. The sea behind him turned into a sword, and the sword of the sky carried twisted void cracks as it rushed forward.

Swish! Swish! Swish!

Roar!

Han Fei secretly roared. How could the strong master of the undersea human race be a match for Han Fei?

After being roared at by the Hundred Beast Soul Devouring, his mind went blank.

At this moment, with continuous popping sounds, this person was instantly minced into pieces.

“Hiss, so strong.”

Mushui Sisi and Mu Xi looked at each other. This person didn't go far in front of the bronze door! Why was he so strong?

Han Fei grabbed the man's soul with the Void Lines and then looked back at Mu Xi indifferently. He raised his hand and held an invisible needle between his fingers. “If I hadn't come just now, you would have died.”

Chapter 1802: Cottoning Up

“Hiss ~”

“Soul Destroying Needle?”

Mu Xi's face turned pale with fear.

Mushui Sisi's eyes widened, and she couldn't help but say angrily, “This undersea human is so vicious! He even used the Soul Destroying Needle. How shameless.”

However, Han Fei said, “The winner is the king. How is it shameless?”

Mu Shuisi curled her lips slightly, and Mu Xi hurriedly bowed. “Thank you for saving my life, Fellow Daoist Xue Zhan. Mu Xi will never forget it.”

Han Fei threw the Soul Destroying Needle over and said casually, “Be careful next time.”

Then, Han Fei floated away without looking back. In a step, he stepped thousands of kilometers away and disappeared from their sight.

Mu Xi was still holding the Soul Destroying Needle in a daze when she heard Mushui Sisi say, “Okay, stop looking. He has already left. Did he even take your soul away?”

Mu Xi blushed and said shyly, “Smelly Sisi, what are you talking about?”

At this moment, Mushui Sisi glanced at the Sun-Moon Shell that the undersea human expert had dropped and immediately grabbed it.

Mu Xi exclaimed, “Oh, Sisi, did he forget to take the Sun-Moon Shell away?”

Mushui Sisi was lost for words. “What do you mean forget? He didn't intend to take it at all. He left it for you since you fought so hard just now...”

Mu Xi blushed again. “Really? I’d better return it to him.”

Mushui Sisi said, “Yes, he killed this person and saved your life. This Sun-Moon Shell should belong to him. Alright, the situation here is critical. Let’s return it to him after the battle ends and we go out... Well, at that time, you can go to the Snow God’s Temple. If you can call your master over, maybe you can even be engaged...”

“Ah! Stinky Sisi, I’ll tear your mouth apart...”

...

On Han Fei’s side, the old turtle said, “Will this work? Are you sure she will give the Sun-Moon Shell back to you?”

Han Fei said, “I’m not sure. However, the education standards of the Heavenly Palaces such as Supreme Mystic and Glazed Glass are not bad. These people are kind-hearted. I saved her life. Logically speaking, even if it’s to smooth out her Great Dao, she will send the Sun-Moon Shell back.”

The old turtle said leisurely, “However, where did you get Soul Destroying Needle? I didn’t see it.”

Han Fei grinned and said, “I found it from someone else’s Sun-Moon Shell. Anyway, the battle just now was fierce. They can only blame themselves for not paying attention and won’t suspect that I took out the Soul Destroying Needle.”

Han Fei searched with his perception and finally found Shen You in a corner near the battlefield between the Hundred Flowers World and the Blue Cloud World.

Earlier, this guy escaped from the blood pool. He didn’t expect that this guy hadn’t left yet and was still hunting here...

Han Fei grinned. “Since you didn’t leave, don’t blame me.”

Buzz!

Han Fei activated the Twin Divine Technique, and his white-mist body returned, while his black-mist body went to the battlefield. In this chaotic battle, it was impossible for these people to discover Han Fei’s black-mist body.

Therefore, Han Fei approached blatantly.

After only twenty seconds, when the black-mist body floated and attached to Shen You, this guy didn’t notice it at all.

As for the powerhouses of the Hundred Flowers World, they were certainly good at using demonic plants to fight. Their control technique was very extraordinary, and this area had already been covered by demonic plants.

However, Shen You was not weak.

Few people could escape from Han Fei. Even if Han Fei couldn’t exert more power because of the restrictions, his enemy wouldn’t have been able to escape if it were someone else.

At this moment, a man and a woman from the Hundred Flowers World, one set up a spiritual plant trapping array, and the other summoned thorny vines.

When the three parties collided, it was like a terrifying sea beast emerging from the sea, extremely ferocious.

However, although the attacks of the Hundred Flowers World were strong, on a closer look, one would find that the massive forest of demonic plants was full of blood-colored centipedes. A large number of demonic plants were riddled with holes by the centipedes.

The other people of the Hundred Flowers World were restrained by the other people of the undersea human race.

At this moment, Shen You smiled coldly and said, "You two, as long as you hand over the resources in your hands, we won't have to fight to this point. You humans haven't arrived yet, and now, your Hundred Flowers World is even more short of manpower. I'm afraid your lives might be in danger!"

The woman from the Hundred Flowers World shouted, "Shen You, we know you are powerful. However, you should have been seriously injured before, right? Aren't you afraid that the Black and White Ghosts will come again? I don't believe that you have a second chance to escape."

"Hahaha!"

Shen You laughed. "The woman of the Black and White Ghosts is the princess of the Merman Royal Family. The man is obviously a human powerhouse. If they dare to show up at the entrance, do you think they can escape if a king interferes?"

Not only Venerables could enter the Land of King Death, but even kings could. If people knew that Xia Xiaochan was with Han Fei, neither Han Fei nor Xia Xiaochan would be killed.

At that time, it was completely possible for a king to break the rules and enter this place.

However...

Just as Shen You finished speaking, suddenly, a black fog enveloped him.

In the next moment, a mocking voice appeared in Shen You's mind. "Do you think you can scare me with a king? Evil ghosts hook souls, and impermanence takes lives. Today, no one can save you..."

"Who is it?"

Shen You's face suddenly changed. How was it possible? He was here? Where was he?

But at the next moment, Shen You felt that her body was cut apart as if ten thousand ants were eating her heart.

Immediately, he felt that his soul had been broken through. An inexplicable power was locking his soul, and then he couldn't move.

Han Fei said leisurely, "No one has dared to appear in front of me after tricking me. You are the first. I can't make an exception. Therefore, die!"

Bang!

In the black fog, a shocking power erupted. The person from the Hundred Flowers World was shaken back a hundred kilometers, and the surrounding demonic plants and vines were instantly flattened.

At this moment, the two of them were dumbfounded.

The woman asked, "Where is Shen You?"

The man said, "I don't know! What is that black fog? It looks like a demonic might. Did this guy become a demon and blow himself up?"

The woman was lost for words. "No, no... He was slaughtered. His Sun-Moon Shell is gone."

"Hiss!"

Immediately, the two of them retreated.

This top powerhouse had been killed in front of them silently? They didn't even see the shadow of the attacker. It could be seen how terrifying the other party's strength was.

At this moment, not far away, on the side of the Blue Cloud World, a Heavenly Talent looked over in shock. "Feng Shi, Hua Ying, the two of you actually killed Shen You? Impressive... After we go out, I'm afraid you'll be in the limelight."

Hua Ying said with a black face, "Shut up, Wu Liuqi. Don't tell anyone about this."

The young man named Wu Liuqi grinned and said, "What a great achievement... Uh, okay! I won't tell anyone... However, it's useless even if I don't. Someone must have seen it."

Feng Shi sighed. "Hua Ying, we can't take the credit. After we go out, we have to refute the rumors. Otherwise, if our strength and reputation don't match, the consequences will be serious."

Hua Ying nodded heavily. "Yes, the person who can easily kill Shen You can't be us."

...

Han Fei didn't care what the two people from the Hundred Flowers World thought.

He had already fused his twin bodies.

At this moment, Han Fei was helping a disciple of the Snow God's Temple kill a peak-level Venerable.

"Thank you for your help, Master Holy Child."

Han Fei nodded. "Yes! It doesn't matter."

Such battles and looting didn't happen all the time. The people from the Snow God's Temple weren't high-profile. They didn't take the initiative to attack, nor were they afraid of fighting.

Two Half-Kings of the Hundred Demon Clan came to test the strength of the Snow God's Temple. However, Han Fei killed one and the other was seriously injured by Ice Snow Chuling.

Instantly, no one came over. Han Fei and the others had some free time.

...

Outside the Land of King Death.

The kings didn't look good, especially the kings of the Supreme Clearness World, the Infinity World, and the Golden Crow World.

At this moment, on the big ship of the Infinity World, Beitang Xuan was seriously injured and asleep. After more than three hours, he finally woke up.

When he woke up, he saw the figure in front of him and hurriedly said, "Uncle, am I out?"

This person was the king leading the team from the Infinity World, Bei Xuanbing, who was also Beitang Xuan's uncle.

Bei Xuanbing said, "Fortunately, you used... my last bit of strength to save your life. Otherwise, you would have lost your life. Xia Hai from the Golden Crow World has already told us the details. A human Heavenly Talent joined forces with the princess of the Merman Royal Family to hunt the Supreme Clearness, Infinity, and Golden Crow Heavenly Palaces. At this point, we three Heavenly Palaces have suffered heavy losses."

Beitang Xuan heaved a sigh of relief and said, "Uncle, it was not that I was too weak, but that person is extremely strong and can actually withstand a blow from the palace master without dying. I even suspected that his strength had reached the Sea Establishment realm."

Bei Xuanbing said indifferently, "We already know that. However, to maintain a balance, we can't enter. Now, we can only wait. There are only so many human powerhouses in total. If we look at them one by one, we can eventually identify that guy."

Bei Xuanbing didn't dwell on this question but said, "Tell me about the bronze door."

Chapter 1803: Investigation

Three days later.

Of the remaining six people from the Snow God's Temple, only one came in the end.

This meant that the remaining five people had already died in this place.

Han Fei knew that this ratio was not bad. The probability of death was about 20%. He didn't fail the Snow God's Temple.

And up to now, the battle had basically been resolved. It was impossible to fight all the time...

Those who went out had already gone out.

At least, most of the peak-level Venerables had gone out. Including the people from the Snow God's Temple, there were only four Half-Kings left.

In the last hour, when the major powers were about to leave, there was some commotion.

For example, the peak-level Venerables of the Supreme Clearness World discovered, to their shock, that Ji Chen didn't come out. They didn't believe that Ji Chen could have died in the Land of King Death.

For example, Bai Muling and Situ Yuhong were still waiting for Xia Xiaochan and Han Fei to appear.

However, they were destined to disappoint.

For example, the people of the Five Elements World were also shocked. Where was Five Elements Chen Hao?

But most people walked together.

The Half-King Heavenly Talents of the Wind Slashing World and the Thunder Fire World gathered. These three worlds were on good terms because the Heavenly Palaces were geographically close, and the Heavenly Talents knew each other.

Li Xunfeng from the Wind Slashing World said, "You two, let's go together! It seems that the results of the Snow God's Temple's exploration are not bad! It seems that not many people died."

Ice Snow Chuling: "Maybe we are just lucky."

...

In the outside world.

Swish swish swish...

When figures came out of the exit of the Land of King Death one after another, the kings scanned across with their perceptions, the sea waves surged, and an invisible pressure enveloped the sea.

Buzz!

As soon as Han Fei and the others left the Land of King Death, they went straight to the Snow God.

Han Fei sensed that several king-level perceptions had scanned him. However, he was not afraid or panicked at all.

On the Snow God.

The Snow Lady stood on the deck. At the stern were peak-level Venerables of the Snow God's Temple.

The Snow Lady glanced at the two of them indifferently. "You two, follow me."

No one would doubt that.

After all, they all went to find the keys. Now that they came back, the keys should be kept by the palace master first. This was a matter of course. It was just inconvenient for them to give the keys to the palace master on the deck.

The two of them followed the Snow Lady into the cabin, and the Snow Lady said, "Long story short, you caused a lot of trouble in the Land of King Death. It's fine if it's just trouble, but what's going on between you and the princess of the Merman Royal Family?"

Han Fei said casually, "My woman."

The Snow Lady: "..."

The Snow Lady was speechless. How many days has it been? How did you make the princess of the Mermaid Royal Family your woman?

However, the two women immediately realized that it couldn't be that simple.

Especially Ice Snow Chuling, she guessed that Han Fei and Xia Xiaochan had known each other before. Where did they meet... This was worth thinking about.

Of course, the Snow Lady didn't dwell on this question.

She said, "Has she returned to the royal family of the Mermen?"

Han Fei shook his head. "She's with me."

The Snow Girl was stunned for a moment. How dare you!

However, at this time, Xia Xiaochan already couldn't go back. Otherwise, how could the Snow God's Temple explain to others?

The Snow Girl said, "You haven't given yourself away. However, when the Merman Royal Family finds that their princess is gone and everyone knows that there is a human colluding with the Merman Princess, they will definitely be suspicious. There are only these people left, and they certainly won't leave until they find out the answer. Therefore, you have to pay attention to two people, one is the Merman Clan's Ye Qinglong, and the other is the Supreme Clearness World's Ji Xuan. As the kings who can command the entire battlefield, their strength can't be underestimated. As long as they don't suspect you, you will be safe."

Han Fei said casually, "I'm already prepared. I'll leave a Half-King projection on the Snow God to prevent them from examining halfway."

The Snow Lady said, "How can you leave in front of so many people? In fact, you should pretend to be in an accident and make people think that you died. In this way, no one will suspect you."

Han Fei smiled. "I don't think it has to be that troublesome. As long as they can't find me, can they stop the major powers from leaving?"

The Snow Lady said, "That won't happen. However, they will definitely examine everyone. After all, not only is the princess of the Merman Royal Family gone, but the humans are also thought to have traitors."

Han Fei nodded, knowing that it would be troublesome.

With a flip of his hand, Han Fei took out thirty Monarch Palace keys and said, "Take the extra ten as thanks for your help."

The Snow Lady quietly took these keys.

In fact, since she knew that Han Fei and Xia Xiaochan were pretending to be the Black and White Ghosts, she knew that Han Fei definitely had more than 30 Monarch Palace keys.

Han Fei probably had more than 200 keys, or even more.

However, so what?

Han Fei kept so many keys to the Monarch Palace, which meant that there should be a force behind Han Fei. If this force followed him to the Monarch Palace in the future, they might form an alliance because of Han Fei.

...

A moment later, the Snow Lady led the two of them out of the cabin and appeared on the deck again.

“Fools, two idiots...”

Suddenly, a voice erupted.

Many people looked in the direction of the voice, only to see Patriarch Million Poison pointing his finger at Bai Jingjiu and Dongfang Ming, almost touching their noses.

Patriarch Million Poison snorted. “You only exchanged more than 2,000 catties for such a treasure? Are you brainless? You should have taken all this poison. Couldn’t you put it on credit? Couldn’t you invite him to our Million Poison World to secretly trade? If you let him come to our Million Poison World, how can I lack resources to trade with him? You two idiots, I’ll punish you to cultivate in seclusion for ten years when we go back.”

“Yes, Teacher is right.”

“Teacher, I know I was wrong.”

Seeing Patriarch Million Poison suddenly fly into a rage, the Master of Thunder and Fire, Lei Qing, couldn’t help but say, “Old Poison Huang, it’s good enough that your disciples came out safely. As soon as they came out, you scolded them... Don’t make such a big noise. Are you afraid that others can’t hear you?”

Patriarch Million Poison snorted. “These two idiots encountered countless treasure poisons in the Land of King Death, but they only got more than 2,000 catties back. Of course I’m angry! I really want to slap them to death.”

As he spoke, Patriarch Million Poison glanced around and his glance passed over Han Fei.

However, Han Fei knew that this old man was clearly looking at him.

Afraid that others would find out, he deliberately glanced around.

Han Fei thought to himself, Oh no, I’ve been exposed! I don’t know Huang Jie very well. Although I told Bai Jingjiu and the others that I bought the poisons to poison others...

But who was Huang Jie? He was an old demon!

Before entering the Land of King Death, Han Fei had personally gone to Huang Jie’s cabin to get some poison.

Han Fei’s heart skipped a beat. Yes, I was too eager. I shouldn’t have traded with Bai Jingjiu and Dongfang Ming. I should have taken the initiative to go to the Million Poison World when I was free...

Just now, Huang Jie purposely scolded his disciples loudly and didn't seem to care who the Black and White Ghosts were, but in fact, he was transmitting some information to Han Fei.

The kings were speechless. So many people had died, but in this guy's eyes, poison was the most important.

Huang Jie snorted. "I don't know which brat it is. If I find him, I must suck him dry."

Han Fei was lost for words. It seemed that he had one more person to deal with.

The Snow Lady didn't look at Han Fei, only feeling a little surprised.

Huang Jie didn't even bother to use the voice transmission. He was clearly sending a message to someone.

Who else could it be but Han Fei?

But strangely, Huang Jie didn't mention his name and even helped him keep the secret. It seemed that Han Fei had something Huang Jie wanted!

...

Two hour passed.

There was not much time left before the exit was sealed. However, some people still didn't come out of the Land of King Death.

For example, the Black and White Ghosts, Xia Xiaochan and Han Fei; the Heavenly Talent of the Supreme Clearness World, Ji Chen; the Five Elements Disciple, Five Elements Chen Hao...

Buzz!

Seeing this scene, Ye Qinglong immediately said, "Ji Xuan, shall we go back to search the Land of King Death?"

Ji Xuan nodded and then shouted, "The others, wait here. I'll be back soon."

The two kings disappeared from the ship.

After half an hour, when the two of them appeared again, their expressions were extremely ugly.

Ji Xuan shouted, "All the kings of the Thirty-Six Mystic Worlds, please gather everyone who participated in this trial on the deck. I think you already know what happened. A traitor of the human race got together with the merfolk princess and killed many human powerhouses."

On Ye Qinglong's side, he snorted coldly. "It's said that that person has a deep grudge with you Supreme Clearness and other two Heavenly Palaces. Who can you blame? But this person dares to take away the princess of our Merman Royal Family! Today, if we don't find him, this matter won't end so easily."

"Heh ~"

Patriarch Million Poison sneered. "The Land of King Death is so big. Do you two have the ability to finish searching in half an hour? If they really want to hide, you might not be able to find them."

“Hmph!”

Ye Qinglong said coldly, “Let’s find him first. You’d better keep your mouth shut.”

“Hehe... Ye Qinglong, watch your words.”

At that moment, Huang Jie spoke with an intimidating aura, looking extremely powerful.

But then, Huang Jie retracted his momentum and said angrily, “Come out, all of you. Let me see if you’ve been possessed.”

Huang Jie intervened, just to let Ye Qinglong and Ji Xuan know that they’d better not go too far... If they really wanted to fight, he, Patriarch Million Poison, wouldn’t be afraid.

Chapter 1804: Once I Put on the Mask, I Don’t Love Anyone

Xia Xiaochan’s identity was certainly important. Ye Qinglong took Xia Xiaochan to the Land of King Death but she disappeared here...

He really couldn’t explain this to Chun Huangdian when he returned!

Ji Xuan, on the other hand, vaguely felt that something was wrong. Although the number of experts who died this time was not much different from before, there was no reason for Ji Chen to die.

Furthermore, Beitang Xuan from the Infinity World almost died although he took Yun Tianhe’s king-level strike with him?

Obviously, something was wrong.

From any perspective, a person who could almost kill Beitang Xuan shouldn’t be a Half-King.

Of course, no one could find anything wrong with the name Black and White Ghosts. However, it was big news that this person walked the Dao of invincibility.

Therefore, Ji Xuan and Ye Qinglong planned to identify this person by checking everyone’s Great Dao.

In this way, even if Han Fei disguised himself with a technique, they could still find some clues.

This method of finding people was not slow.

Although no one was willing to show the power of their Great Dao, it didn’t demand them to reveal their Great Dao. Seeing it was different from cultivating, so no one cared.

Ji Xuan and Ye Qinglong searched world by world. The Supreme Clearness World was the first to be searched, mainly to prove their innocence.

As for the Glazed Glass World and Supreme Mystic World...

Mushui Sisi said, “Can the strong do whatever they want and check other people’s Great Daos?”

On the boat, a middle-aged man glanced at Mushui Sisi, and she immediately shut up. The man said, “Don’t meddle in the affairs of kings.”

An hour later.

Ji Xuan and Ye Qinglong came to the Snow God's Temple. At this moment, Han Fei and the others were already standing here.

Han Fei was wearing a mask, which didn't mean that the strong masters couldn't see him.

However, by putting on the mask, Han Fei showed that he didn't want others to see his face. Generally, no one would take the initiative to see his face. This behavior was extremely rude, which represented provocation and making enemies for himself.

On the Snow God's Temple's side, Han Fei was the only one wearing a mask, which attracted the attention of Ye Qinglong and Ji Xuan.

Of course, in front of the Snow Lady, the two didn't demand to see Han Fei's face.

Ji Xuan asked, "Fellow Daoist Snow Lady, can you let your disciple take off his mask?"

Every time Ye Qinglong and Ji Xuan examined a ship, everyone's eyes moved to it.

At this moment, seeing that Ji Xuan asked Han Fei to take off his mask, many people were curious about Xue Zhan's real face.

Mushui Sisi said to Mu Xi from the Glazed Glass World via voice transmission, "Xixi, come on, he's going to unveil his mask. After that, you can propose to him."

"Huh?"

Immediately, the king of the Glazed Glass World glanced at Mushui Sisi, then at Mu Xi, and asked, "What happened?"

Mushui Sisi secretly chuckled and thought to herself, I didn't do it on purpose.

Mu Xi blushed and hurriedly said, "Teacher, it's not what you think. Sisi was just teasing me. It's just that Fellow Daoist Xue Zhan saved my life."

"Oh? Saved your life? Then you really should thank him."

Mu Xi: "..."

At this moment, the Snow Lady glanced at Han Fei and said casually, "Xue Zhan."

Han Fei said casually, "Seniors, please forgive me. I covered my face because I didn't want my appearance to affect my Dao heart."

With that, Han Fei grabbed the mask with one hand and slowly took it off.

Immediately afterward, what was revealed was a handsome face that was almost perfect. It was fair and tender, but not feminine at all. His eyes were steady and firm, and his chiseled facial features seemed to be bestowed by the heavens. The face had a proud air but not aggressive, and his lips were thin, with a natural upward curve.

"Hiss ~"

"Wow~"

On the Supreme Mystic World's side, Mushui Sisi exclaimed, "He's so handsome! Xixi, you're lucky..."

"Da ~"

The king of the Supreme Mystic World was quite embarrassed. He froze Mu Shuisi and then cupped his hands at the crowd. "Sorry, sorry."

The Moon King of the Glazed Glass World was stunned for a moment. "Oh, I see... Mu Xi, have you taken a fancy to him? If you have, we can indeed propose a marriage..."

Mu Xi was utterly embarrassed.

Although she was also stunned at his handsomeness, she hurriedly stomped and waved her hand. "Teacher, it's not like that. I haven't even spoken to him."

The Moon King smiled. "So what? As cultivators, our Dao hearts are firm. It's not easy to meet someone we like. Especially in our Glazed Glass World, there are very few men. Someone has to carry on the family line. Okay, I'll ask the Snow Lady about it later..."

Mu Xi: "..."

Han Fei certainly didn't use his own face.

Who else could this face belong to if not Zhang Xuanyu? Only Zhang Xuanyu's face could be used perfectly by Han Fei because he knew this guy too well.

At this moment, Ji Xuan and Ye Qinglong vaguely understood why Han Fei hid his face.

Of course, although he was really handsome, there was no need to hide his face. It could only be said that Xue Zhan's Dao heart was not firm enough.

Ji Xuan said, "Little Friend Xue Zhan, please show me your Great Dao!"

Xue Zhan nodded slightly. Then the Great Dao around him suddenly changed. His blood surged, and a powerful force was somehow revealed.

Han Fei said, "My Great Dao can double my strength."

"Huh!"

Not only Ji Xuan, but even Ye Qinglong couldn't help being surprised. A Great Dao that could directly increase combat power! This guy was already a Half-King. If his strength doubled, he would probably be comparable to Ji Chen, Beitang Xuan, and the others. He might even be slightly stronger.

Of course, although the two of them were surprised by Han Fei's talent, this talent was far inferior to the king who could even shake Yun Tianhe as described by Beitang Xuan.

In their opinion, Han Fei's talent was probably about the same as Li Kaitian, Wu Hao, and the others. It was true that he was a top Heavenly Talent, but he wouldn't be able to kill strong masters like Beitang Xuan and Ji Chen, let alone enter the bronze door... Because it was impossible!

The two of them looked around and confirmed that there was no problem. After all, no one could walk different Great Daos. The two of them nodded slightly and continued to check the others.

In just a minute, the people from the Snow God's Temple had all been examined. Among the people from the Snow God's Temple, only the Snow Lady and Ice Snow Chuling knew Han Fei's identity.

As long as these two people didn't expose his secret, there would be no problem.

As soon as Ye Qinglong and Ji Xuan left, with a swish, two beautiful women appeared outside the Snow God.

The Snow Lady was slightly surprised and then nodded. "May I know why the Moon King is here?"

The Moon King's original name was Qiu Yueming. In the Glazed Glass World, she was the king second only to Glazed Glass. Yes, the heavenly master of the Glazed Glass World was called Glazed Glass.

Qiu Yueming said, "I'm here mainly to thank Xue Zhan for saving my disciple, Mu Xi."

The Snow Lady couldn't help but glance at Han Fei, thinking, If just to say thank you, why did the king come in person with her disciples? It's obvious that she's interested in Han Fei.

The Snow Lady smiled. "Please board the ship, Moon King."

Beside Qiu Yueming, Mu Xi was like a quail, not daring to raise her head much, her face flushed.

Many people from the Snow God's Temple saw what was going on. At this moment, their faces were full of curiosity, and the Snow Lady said, "Everyone, return to the cabin. Xue Zhan and Chuling, stay."

Qiu Yueming's heart stirred. The Snow Lady asked everyone to go back, but why did she ask Ice Snow Chuling to stay?

It seemed that the Snow Lady had her own selfish motives. Did she want to marry Ice Snow Chuling to Xue Zhan?

However, who was she?

The Glazed Glass World was one of the super forces in the inner domain, which was more than a level higher than the Snow God's Temple. If Mu Xi and Xue Zhan got together, the Snow God's Temple would be protected by the Glazed Glass World.

I don't believe you don't want this relationship!

Qiu Yueming... as if didn't understand what the Snow Lady meant, just smiled and said, "Xixi, return the thing to Xue Zhan."

Mu Xi trembled and quickly took out the Sun-Moon Shell that she had prepared. Lowering her head, she trotted to Han Fei and handed the Sun-Moon Shell to him.

"Thank you again for saving my life, Fellow Daoist Xue Zhan. You lost this Sun-Moon Shell on the battlefield."

When Qiu Yueming and the Snow Lady looked at Han Fei, they didn't notice that Han Fei's shadow overlapped with Mu Xi's. At that moment, a pure black color appeared under Han Fei's feet and quietly stuck to Mu Xi's body.

Han Fei looked indifferent and emotionless.

Seeing this scene, Qiu Yueming was a little worried. Is this kid so cold that he doesn't even like my disciple?

Han Fei took the Sun-Moon Shell and said casually, "Actually, it's unnecessary."

At this moment, Mu Xi was having a fierce inner struggle. Since she was already here, she couldn't lose too much face.

She said, "Fellow Daoist Xue Zhan, what's yours is yours. You killed that person and saved me. If you don't even accept this Sun-Moon Shell, I'll have a Great Dao barrier in my heart."

Han Fei nodded slightly. "Then I'll take it."

Qiu Yueming immediately heaved a sigh of relief, and she said, "Sister Snow Lady, this hero saving the damsel in distress story can make a perfect couple. As you know, the women of our Glazed Glass World have always had high standards. There are very few men in the world who can catch their eyes. This disciple of mine is even more so. She has made me very worried. Now that I see that Xue Zhan is a very good young man, why don't we fix them up?"

The Snow Lady was about to refuse with the excuse that Xue Zhan was too intoxicated with cultivation, when Han Fei slowly covered his face with the mask again.

There was no emotion in Han Fei's eyes.

He said, "Once I put on the mask, I don't love anyone."

Instantly.

The Snow Lady: "..."

Qiu Yueming: "..."

Ice Snow Chuling: "..."

Ice Snow Chuling wanted to see how Han Fei would refuse.

However, what the f*ck? "Once I put on the mask, I don't love anyone"? Give Qiu Yueming some face, OK? The person talking to you is a king after all!

Mu Xi's face immediately turned pale. When had she ever experienced this? This was even f*cking worse than a good person card... He didn't even say "You're a good person, but I'm not good enough for you!"

Mu Xi was stunned for a few seconds.

As a Half-King, she quickly adjusted her state. "Fellow Daoist Xue Zhan, you're mistaken. My teacher is just like this. Don't think too much... Teacher, let's go back!"

Qiu Yueming looked at the Snow Lady and then at Xue Zhan. She had long heard that the Snow Lady indulged her disciples very much. It seemed that it was true. Xue Zhan was really rude.

"Brat, don't let me see you again, or I'll kill you."

Chapter 1805: Successfully Sneak into the Glazed Glass World Translations

Mu Xi ran back to the ship of the Glazed Glass World.

Lu Ran had been staring at them. What was going on? Was her sister bullied?

Immediately, Lu Ran went to the cabin to comfort Mu Xi.

When Mu Xi entered the cabin, she saw that Mu Xi's eyes were red as she stomped on the big ship.

"Hey, hey! If you keep stomping, the ship will sink. Don't you know how strong you are?"

Lu Ran was lost for words. "Wait, I didn't see you two talk much! What did Xue Zhan say? Even if he rejected you, you don't have to be so angry, right?"

At this moment, Han Fei was still clinging to Mu Xi, thinking, Lu Ran is right! It's not a big deal! You're already a Half-King. Why are you still like a little girl?

Mu Xi said angrily, "He, he, he... If he doesn't agree, can't he be more tactful? He simply said that he doesn't love anyone once he wears a mask. What's the meaning of this?"

"Huh?"

Lu Ran was stunned. Is this Xue Zhan so stupid?

Mu Xi hugged Lu Ran huffily and shook her. "He's not stupid. He did it on purpose. I thought he saved me because he pitied me. Maybe he just did it casually."

Lu Ran patted Mu Xi's back and comforted her. "Damn it. This person is really abominable. We should cut him into pieces and throw him into the sea to feed the fish. Who the hell did he think he was?! Does he know how excellent our Xixi is? Your pursuers can line up from the inner sea to the outer sea. You're giving him face by liking him, but he doesn't cherish this chance..."

Han Fei was lost for words. What?

Just because you took a fancy to me doesn't mean I have to accept your love, OK?

Also, what made Han Fei speechless was that women were all like this, clinging to each other and hugging each other, no matter how old or strong they were...

Hearing the two women's crazy complaints about him, Han Fei was naturally not interested. He had already got off Mu Xi and crawled into a dark corner.

His white-mist body was already in Forge the Universe.

What remained in the Snow God's Temple was only his Half-King projection.

His strength was there, so he was no different from a real person. Except for the fact that he couldn't cultivate, his Half-King projections were extremely strong in all aspects. Even if he fought a Heavenly Talent now, Han Fei was confident that he wouldn't lose.

Since the plan had succeeded and he had successfully sneaked into the big ship of the Glazed Glass World, he was naturally not interested in listening to the two women's chatter.

Han Fei entered Forge the Universe without attracting the attention of the two women.

Forge the Universe.

“Huff~”

Han Fei heaved a long sigh of relief. His plan was flawless.

“Huh ~”

Han Fei suddenly realized that something was wrong here. Why was the spiritual energy in Forge the Universe so rich? Why did his seven million ultra-quality spiritual stones seem to become much less?

When Han Fei checked, it seemed to be less than 5.5 million.

“That’s not right! Even if I absorb it with Old Yuan, how the f*ck can we absorb so many ultra-quality spiritual stones in such a short time?”

Han Fei couldn’t help looking at the old turtle. “Where are the spiritual stones?”

The old turtle said, “I don’t know. Originally, after collecting Wu Hao’s spiritual stones, there should be about 6.6 million left, but after entering the bronze door, there are only more than 5.4 million left. Not only these ultra-quality spiritual stones, but also the energy I suppressed is probably less than half now.”

“Hiss ~”

Han Fei raised his eyebrows. “Are you saying that I consumed them behind the bronze door?”

The old turtle said, “Of course. I didn’t tell you before because I wanted to wait for you to escape. Now, as soon as you came in, you found it. Although I don’t know what you did behind the bronze door and what’s there, you must have encountered a great opportunity... Is it related to the Void Temple?”

The old turtle seriously suspected that Han Fei was hiding some secret.

The moment Han Fei entered the bronze door, he lost his consciousness and had no idea what happened behind the bronze door.

Han Fei said leisurely, “What did you learn from disassembling spiritual energy?”

The old turtle was silent for a moment. “I’ve already reached 99%... What about you?”

The old turtle stared at Han Fei, because he had a feeling, but he wasn’t sure.

Han Fei smiled, looked up at the sky, and said pretentiously, “Me? 100%...”

“Hiss ~”

The old turtle was shocked. “How is it possible? There is no such thing as a hundred percent disassembling of spiritual energy in this world! It’s never been recorded. I’ve never heard of it...”

However, Han Fei said, “In terms of disassembling spiritual energy, 99% is indeed the limit. However... Old Yuan! Do you think whether it’s the Great Dao that firms the Dao heart, or it’s the Dao heart that gives you the power of the Great Dao? Have you ever thought about whether the Dao heart or the Great Dao exists first? Have you ever thought about whether the Great Dao really exists...”

Han Fei had thought that this time, it would definitely be his strongest show-off in history. Old Yuan had always been the one to explain to him, but this time, it was his turn to explain. Old Yuan would definitely realize what a clear choice it was to acknowledge him as his master...

However...

The old turtle blinked at Han Fei. "What did you say? Why is it buzzing in my ears? I can't hear anything."

Han Fei was lost for words. "Are you pretending? Have you been shocked by my insight? But you just don't want to admit it, right?"

The old turtle asked in confusion, "What did you just say? I'm a little sleepy and didn't hear a word you said just now. However, my heart trembled as if I had some epiphany..."

Han Fei took a deep look at the old turtle and felt that he wasn't pretending, so he said in surprise, "Wait... Did you really not hear what I said? I said... Blah, blah..."

Buzz!

Then, the old turtle sat down cross-legged and began to cultivate.

Han Fei: "..."

Han Fei was stunned for a moment and seemed to realize that the old turtle really didn't hear what he said...

Therefore, he really heard everything behind the bronze door, but he didn't understand anything!

This seemed to be a law of the world.

It seemed that he had to comprehend it himself...

And what those who had already comprehended it preached to those who hadn't comprehended it was like Heavenly, Dao, a Heavenly Book, a concept that they didn't understand or know at all!

At this moment, Han Fei understood.

No wonder Old Yuan never knew that someone could disassemble spiritual energy to 100%.

In fact, it was not that there was no one to tell, but that... even if someone told him, he wouldn't be able to hear it!

Since you can't listen and no one is preaching to you... This can only mean that the old turtle wasn't an outstanding emperor before. He was probably a loser among the emperors.

Therefore, he was led such a long way by a loser.

Therefore, a loser, in the Thirty-Six Mystic Worlds, was already a legend.

Therefore, even a loser in the world of the strong seemed extremely powerful here, and he still tried so hard to subdue him?

Han Fei was lost for words. Old Yuan was really lucky to have such an excellent master like him. Otherwise, his Great Dao would probably be over. Even if he could cultivate to the Sky Opening realm again, he would still be a loser.

Seeing that Old Yuan had gone to cultivate, Han Fei thought for a moment and jumped off the Ice Snow Lotus Throne.

With a thought, he used the massive amount of spiritual energy to expand Forge the Universe. Han Fei summoned the illusion of mountains and rivers and stepped into the Sea Quelling Painting.

Xia Xiaochan was restless in the Sea Quelling Painting and couldn't cultivate anymore.

The Hexagon Starfish said, "Stop walking around me. You can't solve the problem even if you keep walking around me."

Xia Xiaochan snorted. "You heartless b * stard. All you know is to eat and sleep. Have you secretly eaten my power of the Great Dao?"

The Hexagon Starfish rolled its eyes. "No! I didn't use any of it. Didn't Han Fei say that the power is very useful?"

Xia Xiaochan snorted. "Good. If I find out that you steal it, I'll skin you alive."

The Hexagon Starfish shivered and thought to himself, Xia Xiaochan never restricted me from eating her resources. Why did she become so fierce as soon as Han Fei appeared?

Buzz!

While Xia Xiaochan was teaching the Hexagon Starfish a lesson, she saw Han Fei appear with a swish.

Immediately, Xia Xiaochan forgot about the Hexagon Starfish.

With a cry, she rushed over and hung herself on Han Fei.

One of her hands was raised high. "We are free ~"

Han Fei thought to himself, It seems that this girl has indeed been locked up for too long. Why is she so happy?

Han Fei said, "Yes, you're free, but you can't go out yet. Ye Qinglong and Ji Xuan are searching for us world by world."

Xia Xiaochan's body stiffened. "Then, you won't be found out, right?"

Han Fei smiled. "If I could be found out, would I still be here?"

"Mmm..."

Xia Xiaochan gave Han Fei a big kiss. "So, we're still free."

Han Fei rubbed Xia Xiaochan's head and said, "We are on a ship of the Glazed Glass World now. It will take us three or five days to go to the Glazed Glass World from here. During this period, you can use the power of the Great Dao escaping from the bronze door."

Xia Xiaochan's eyes glittered, and she asked curiously, "How can I use that power? I feel that that power seems to be very beneficial to cultivation."

The Hexagon Starfish also added, "I think that as long as I absorb these powers, I can break through to the peak of the Venerable realm in a few months."

Han Fei immediately said, "Short-sighted."

Han Fei said, "Let me tell you, the main use of this power is to reconstruct spiritual energy and deduce the disassembling degree of spiritual energy in reverse."

Chapter 1806: Glazed Glass World

"Deduce spiritual energy disassembling in reverse?"

Xia Xiaochan and the Hexagon Starfish were both stunned.

After a while, when Xia Xiaochan sat down and tried to disassemble spiritual energy for the first time, Han Fei saw that the power of the Great Dao was constantly being consumed.

Han Fei thought to himself, Xia Xiaochan and the Hexagon Starfish did collect a lot of Dao runes produced by the eldest senior brother's lecture.

Perhaps because Xia Xiaochan and the Hexagon Starfish had collected it for eight days and didn't use it, they didn't consume the power of the Great Dao until two hundred seconds later.

"Huff~"

When Xia Xiaochan opened her eyes, she saw that Han Fei was still standing there. She asked in confusion, "How long have I been cultivating?"

Han Fei smiled casually. "Two hundred seconds."

Xia Xiaochan was stunned for a moment. "Only two hundred seconds?"

Then, Xia Xiaochan suddenly exclaimed, "How is it possible? My... spiritual energy disassembling degree has reached 94%?"

The Hexagon Starfish also exclaimed, "Ah! Mine has reached 95%? What kind of power is this? It's too terrifying. How can it improve so much?"

Han Fei couldn't help but ask, "Girl, what was your original number?"

Xia Xiaochan: "87%."

The Hexagon Starfish said, "88%."

Han Fei frowned slightly. "Only seven percent, not much!"

Xia Xiaochan and the Hexagon Starfish couldn't help looking at Han Fei in surprise. "Not much? Two hundred seconds, seven percent more. That's as much as seven or eight years of cultivation for me."

As she spoke, Xia Xiaochan suddenly realized something and asked, "You went into the bronze door. What's your disassembling degree of spiritual energy now?"

Han Fei's eyelids twitched. Knowing that it was time for him to show off again, he said leisurely, "Me! I've finally reached 100% after years of bitter cultivation. It's so tiring!"

Xia Xiaochan: "..."

The Hexagon Starfish: "..."

Listen, is this human language?

If the old turtle were here, he would definitely feel complicated. This shameless b * stard always used the power of faith to deduce the degree of spiritual energy disassembling. How dare he say that he had cultivated bitterly for years...

This explosive growth speed was limited to the Dao runes born in the lecture.

Xia Xiaochan and the Hexagon Starfish could only use it once.

Therefore, in Han Fei's opinion, their disassembling degree was still not high enough.

However, there was nothing he could do.

This was because if he used his own Great Dao to reconstruct spiritual energy, he would have to wait for the disassembling degree to reach 99%, which was to completely understand the structure of spiritual energy.

Therefore, even if Xia Xiaochan and the Hexagon Starfish wanted to use the power of their Great Daos to deduce spiritual energy disassembling in reverse, it was impossible.

Han Fei also tried to explain to Xia Xiaochan and the Hexagon Starfish, but just like the case of the old turtle, Xia Xiaochan and the Hexagon Starfish were stunned and couldn't remember what Han Fei said at all.

However, Han Fei discovered that although Xia Xiaochan and the others couldn't remember what he said, they seemed to have some inexplicable epiphany in their hearts.

This epiphany seemed to be something hidden in the depths of one's heart that needed to burst out one day.

Xia Xiaochan said, "I'll cultivate in seclusion for a few days. Do you want to come with me?"

Han Fei said, "I still have to pay attention to the situation outside. I'll call you when we reach the Glazed Glass World."

...

Ten days later.

Han Fei didn't expect that it would take him ten days to go to the Glazed Glass World.

In the old turtle's words, the route of the Glazed Glass World in the inner domain was extremely complicated. It was even very close to the sea of mist. In the end, it took ten days.

In the past ten days, Han Fei had done something. After all, it was about a year in Forge the Universe.

In Forge the Universe, not only had Han Fei completely consolidated his strength as a Half-King, but his Purity Mystic Body had also improved.

At this speed, Han Fei suspected that if he cultivated in Forge the Universe for another ten years at most, he might reach the limit of the Half-King realm.

As for soul power? Han Fei's current soul power had probably reached the limit of a normal Half-King...

After all, in the Raging Sea, not everyone had his level of life and bloodline.

Glazed Glass World.

A place where Yin flourished and Yang declined.

Xia Xiaochan said, "The ratio of men to women here is 1: 10."

After Han Fei quietly followed the people off the ship, he found that it was true.

The main city of the Glazed Glass World was called the Heavenly Treasure City, which meant a treasure gifted by the heavens.

The structure of the Heavenly Treasure City was similar to other Heavenly Palaces. Because they were built in the same batch, the structures of the Heavenly Palaces were almost the same.

Of course, the color of the city was more fancy than other Heavenly Palaces.

This... Han Fei understood.

It was normal for places with many women to be fancy.

Even in the Yin-Yang World, when men bought battle suits, they were all black, white, green, and gray. But in the women's refining workshop, there were all kinds of colors and jewelry.

The Glazed Glass World was a place full of women.

Even the buildings were colorful.

After Han Fei quietly slipped out, he casually walked to an island and found that the entire street was f*cking fragrant.

Without knowing more about the Glazed Glass World, Han Fei didn't let Xia Xiaochan come out immediately.

Han Fei didn't plan to stay here for long. He just needed to find Yin'er and take her away, which shouldn't be a problem for him.

The Vast Ocean Navigator quickly turned and pointed north.

Half a day later.

Tranquil Dao Academy, Glazed Glass World.

Han Fei saw a plain-clothed girl in a medicinal field in a bamboo forest.

She was not tall, only about 1.6 meters tall. She looked to be less than 20 years old and was relatively petite.

In terms of appearance, she was not very beautiful. She was slightly worse than Xia Xiaochan and Luo Xiaobai in appearance, but she was still good-looking. Because she was petite and quiet, she seemed to have a first-love face.

When the breeze blew and the sun shone on her face, the girl straightened up, smiled faintly, and continued to release spiritual energy.

“Huh? A peak-level law enforcer?”

Han Fei was stunned for a moment. This girl must be Yin’er.

In his heart, Han Fei forcibly raised his sister’s temperament.

In addition to seeing that Yin’er’s strength was at the peak of the law enforcer realm, Han Fei could also tell that Yin’er had extraordinary meridians.

Her body was absorbing the surrounding spiritual energy all the time.

Then, she sprinkled the spiritual energy out and watered the medicinal field, causing the spiritual energy in the field to be abnormally dense.

“Her spiritual heritage is extraordinary and she doesn’t look stupid. With such talent, why is she only a peak-level law enforcer now?”

Han Fei couldn’t help but wonder if it was because... Yin’er’s Yin soul and Yang soul were separated. Yin’er should be in an incomplete state now. She was still two steps away from being complete. One was the return of her Yin soul, and the other was to walk through the Age of Doom and return safely.

Only when these two steps were completed would Yin’er, like him, complete the current time leap from the Age of Doom.

Han Fei was about to go forward and kidnap her.

However, suddenly, he subconsciously pinched his hands and felt that something was wrong.

Immediately, Han Fei frowned, took out the Nine Palace Luck Ruler, and tested it.

However, the mark of the Nine Palace Luck Ruler fell on the “Ominous”.

“Huh? There are strong masters guarding her?”

To be able to make the current Han Fei encounter “Ominous”, and it was in the Heavenly Treasure City now, this was at least a king-level threat.

This meant that Yin’er seemed to be farming here, but she was watched by a king.

“Is there a king of the Glazed Glass World here?”

Han Fei couldn’t help but wonder why Yin’er was sent to the Glazed Glass World while he was sent to the Yin-Yang World.

While Han Fei was thinking, he thought of something.

Outside this medicinal field, about 600 kilometers away, two women were flying together towards the depths of the medicinal field.

The two arrived instantly.

One of them shouted from afar, "Han Yin'er, stop farming. We've found a way to treat you."

Yin'er, who was farming, suddenly heard someone rushing over. She straightened up and looked in the direction of the person.

When the two arrived, Han Yin'er bowed slightly and said, "Yin'er greets Sister Feng Ling and Sister Yu."

The girl named Feng Ling looked cold and didn't seem to like Yin'er.

She said, "Han Yin'er, you really should thank my brother. If it weren't for the fact that my brother took pity on you after seeing you suffer, such a good thing would never have happened to you."

The girl called Sister Yu by Yin'er also said, "Han Yin'er, this time, Master Youran visited many famous doctors and finally got a great medicine from the Medicine King World. It should be able to cure your serious illness. Then you can make a normal breakthrough and become an Explorer."

Han Yin'er was stunned for a moment and then asked in confusion, "Sisters, really? I'm ashamed that Lord Youran helped me so much."

Feng Ling snorted. "If it weren't for the fact that my brother adores you, he wouldn't have tried so hard to find this medicine for you. After this matter is over, your illness will be cured, and your wedding with my brother can be held."

Han Yin'er blushed, but then she looked at a hut a hundred kilometers away and asked, "But, Sisters, can you wait a few days... Wait for my teacher to come back, okay? Otherwise, if Teacher comes back and doesn't see me, I'm afraid she will be worried."

The girl called Sister Yu hurriedly said, "What are you waiting for? It's Junior Uncle Feng who asked us to come to the medicinal field to find you. Junior Uncle Feng personally guarded the Tranquil Earth Fire Platform for this medicine and specially asked us to find you."

"Huh? Teacher asked the two of you to come? However, why is Teacher waiting for us at the Tranquil Earth Fire Platform? That's a forbidden area of the Tranquil Dao Academy, right?"

Feng Ling said coldly, "Of course. Healing you requires the power of earth fire. Otherwise, you can't be cured. Do you think the forbidden area is easy to enter?"

Chapter 1807: What An Evil Pair of Brother and Sister

Han Fei thought to himself, Am I wrong?

Yin'er was so talented, but she had been stuck at the peak of the law enforcer realm. Was it because she had some other illness?

Junior Uncle Feng? Since she was Yin'er's teacher and he had just got an "Ominous" divination result, she must be a hidden powerhouse.

Han Fei thought to himself, I came at the right time. Someone happened to be treating my sister...

But it made sense.

Just like him back then, no matter how he cultivated, it was theoretically impossible for him to become stronger. It was only because of the Demon Purification Pot that he embarked on the path of cultivation.

His sister's current situation was much better than his back then. Someone even found medicine for her.

At this critical moment of the treatment, if he directly abducted her, it would be strange if she didn't flare up.

Han Fei thought to himself, I might as well stay put for now. If Yin'er is sick and is about to be cured, won't I become a bad person if I take her away now?

As for the wedding? It was impossible to hold it for the time being.

His sister was only a peak-level law enforcer and hadn't even been to her home yet. She wasn't even complete. How could she get married?

When the time came, he would just leave some resources and send that person away.

If Yin'er really had that man in her heart, it would have to wait after she returned from the Yin-Yang World!

Hearing Feng Ling's explanation, Yin'er believed her.

Therefore, the three of them began to fly towards the northern forest of the Tranquil Dao Academy.

It was a fiery island independent of this floating island. Because it had always been guarded by the Tranquil Dao Academy, few people came.

According to Feng Ling, to go to the forbidden area, they needed to take a special teleportation array. Therefore, the three of them used a jade slip as the teleportation array to go directly to the forbidden area.

However, Han Fei's perception range was huge.

His perception had already locked onto Yin'er. No matter where they went within a hundred thousand kilometers, he could find them.

Besides, their goal was very clear, which was the mountain filled with fire origin energy about 4,000 kilometers away on the north of the Tranquil Dao Academy.

In fact, in the Glazed Glass World, there was more than one place filled with fire origin energy. There was also an extremely cold island, an island enshrouded in multicolored light, and a five-colored island.

When Feng Ling mentioned the forbidden area just now, Han Fei had estimated that it was one of the four islands. He didn't expect it to be the closest flame island.

Buzz!

Yin'er and the other two took the teleportation array and appeared on the Fiery Island a moment later.

Only then did Han Fei quietly go there.

In the Glazed Glass World, Han Fei should be careful.

However, with Han Fei's strength, if a king didn't personally watch, it wouldn't be a problem for him to even fly in the Heavenly Treasure City.

Han Fei arrived in three seconds. He was already very low-key.

Han Fei was confident that even a king might not be able to discover him.

In the center of the Fiery Island, there was a deep valley that was sunken into the ground. In the valley, there was a tower. According to Han Fei's estimation, this was a good place to refine weapons.

After the three of them arrived, Yin'er was sweating.

Although the temperature here was bearable, the closer to the center, the more powerful the earth fire was and the higher the temperature. The environment was still a little tough for law enforcers.

The Tranquil Earth Fire Platform was in the deepest part of the tower. Its temperature would probably reach her limit.

However, at the thought that her teacher was waiting for her on the Tranquil Earth Fire Platform, Yin'er couldn't help but smile. Was her illness finally going to be cured on this day?

It would be a lie to say that she wasn't excited. Feng Ling and Sister Yu looked at each other and nodded slightly. The two of them took out two tokens, which shot out a bright light and condensed into array patterns.

Han Fei saw that it was a directional teleportation array.

However, he saw something wrong.

This array had obvious fire patterns. Even teleportation arrays needed this kind of fire pattern, which meant that the place they were going to was extremely hot and destructive.

With Yin'er's current strength, she shouldn't go to such a place.

However, Han Fei saw that Yin'er was a little anxious. She had absorbed a lot more fire origin energy than before.

At this rate, in two or three hours, Yin'er would be overloaded with energy and might even explode.

Han Fei couldn't help but wonder what illness could be so troublesome. He wondered if his Heaven Enlightenment Divine Technique could make her feel better.

What if she could be cured by the Heaven Enlightenment Divine Technique? Why did she have to suffer so much?

After all, where they were going was protected by an array.

If Yin'er's teacher was really a hidden Sea Establisher, then if he rashly broke through the space, he would definitely be targeted by the other party.

Perhaps there would be a misunderstanding between them and they would even fight.

Therefore, Han Fei quickly attached himself to Feng Ling.

After all, his sister would be treated later. If he attached himself to Yin'er, what if Yin'er's teacher discovered him?

With a cautious attitude, Han Fei was patient.

Buzz!

As the void turned, he felt a terrifying heatwave.

This was not magma, but a flame crystal burning in the void. Its energy had probably reached the level of a heaven and earth spiritual fire.

Han Fei's face changed slightly. Yin'er wouldn't be able to hold on for an hour under such a strong heat wave.

And with Yin'er's talent, if she automatically absorbed the power here, it would only increase the pressure on her body.

Han Fei looked again. There was no Junior Uncle Feng here, only an intermediate Venerable. This man was obviously not Junior Uncle Feng.

Yin'er's current reaction made Han Fei realize that she had been tricked.

Yin'er's face changed drastically. "Sisters, Master Youran, where is my teacher?"

"Hahaha!"

Feng Ling's face lit up, and she said with a smile, "Teacher? You want to find a teacher? Go back to your medicinal field! Hahaha..."

Sister Yu also chuckled, changing from her previous image of a good person. She smiled contemptuously. "Han Yin'er, we know that you have a Heavenly Heritage and are an unparalleled talent. However, you are sick! If Junior Uncle Feng could treat the illness that even your Heavenly Heritage can't resist, she would have treated you long ago. Why would she wait until now? You are still too stupid to believe this nonsense..."

Feng Ling smiled contemptuously. "Han Yin'er, you think you can marry my brother? As long as he takes your Heavenly Heritage, my brother will become the most talented man in the Glazed Glass World. When his strength skyrockets, he might be able to marry Half-King Mu Xi or even Half-King Lu Ran. Why would he fall for you?"

"Shameless!"

Han Yin'er's face was pale.

She didn't expect that the person who always tried to get close to her was actually so despicable in secret.

Although Feng Ling clearly didn't like her, she was the one who brought Feng Youran to the medicinal field.

Besides, Feng Youran was the one who proposed to her.

At first, her teacher didn't agree, but as time went by, seeing that this person was persistent, she didn't deliberately stop him.

Until today, her teacher had been away for more than a month and hadn't returned.

Unexpectedly, Feng Youran revealed his true colors today.

He said leisurely, "Han Yin'er, I didn't want to do this at first, but that old woman was too stubborn and refused to let you marry me after so long a time. To be honest, I really wanted to marry you. I can take your Heavenly Heritage after you give birth to a child for me. Heh, unfortunately, before that old woman left, her attitude towards me became tough again. What can I do? I can only take advantage of this period of time to take your Heavenly Heritage... At that time, with the Heavenly Heritage, who dares to kill me?"

"Even if the old woman returns, can she kill me and destroy this Heavenly Heritage?"

Yin'er looked at the people who finally showed their true colors and her face turned pale.

A jade slip appeared in her hand, and she said, "This is a strike of my teacher. No one can resist it... Feng Youran, fortunately, you were exposed so early. Otherwise, if I was tricked and really married you, it would be the greatest shame of my life."

Feng Youran shrugged. "I didn't want to marry you in the first place! Qian Yu is much better than you. Look at yourself. You don't have any height, strength, or figure... Except for your face, you have no good points... If it weren't for your Heavenly Heritage, why would I, Feng Youran, be stupid enough to marry you?"

As Feng Youran spoke, his figure suddenly flashed, and the jade slip in Yin'er's hand disappeared, appearing in Feng Youran's hand.

Yin'er hurriedly tried to detonate her soul, only to find that her soul had been suppressed by Feng Youran.

Feng Youran said leisurely, "Look, you're just stupid. If you had secretly used the power of this jade slip from the beginning, you might have had a chance to kill us. However, you just took it out stupidly. You're just a peak-level law enforcer. Do you think you can stop me?"

Feng Ling sneered. "Even if you successfully kill us, you don't know how to get out of here... With your Heavenly Heritage's ability to absorb power, you can only wait for death."

Yin'er retreated and quickly activated her spiritual energy, preparing to blow herself up.

She was determined to die. She would rather die than let Feng Youran get his way.

However, a suppressing pressure fell and Yin'er couldn't move at all.

Feng Youran said, "Don't waste your effort. I must take your Heavenly Heritage today. I can only say that you are unlucky. You should be the most dazzling Heavenly Talent in the Glazed Glass World, but you have a serious illness. It's a waste for you to occupy so many resources... I'll be the Heavenly Talent in your place."

Buzz!

Feng Youran extended his hand, trying to grab Yin'er in front of him.

However, in the next moment, a terrifying pressure suddenly descended.

Except for Yin'er, Feng Youran and the other two were all prostrating on the ground.

Feng Ling and Qian Yu were kneeling on the ground with half of their bones broken and blood flowing from their seven orifices.

Feng Youran also knelt on the ground, his flesh and blood cracking.

Beside them, a black shadow stood proudly with his hands behind his back.

He said leisurely, "What an evil pair of siblings. Who do you think you are? How do you deserve to take a heaven-level spiritual heritage?"

Chapter 1808: Supreme Yin Black Phoenix

Han Fei's sudden appearance was beyond their expectations.

At this moment, Han Yin'er was looking at Han Fei blankly. For some reason, when this person appeared, she felt a sense of familiarity.

She was instinctively relieved, thinking that this was the person left behind by her teacher to protect her. Because the other party saved her, she felt friendly and close to him.

At this moment, Feng Youran, who was kneeling on the ground, said with difficulty, "Senior, I... am the only son of the Feng family in the Heavenly Treasure City. Please spare me for the sake of the Feng family."

Han Fei said coldly, "The Feng family? What is that? Even if Liu Li herself comes today, you won't be able to survive, let alone the Feng family."

Everyone: "???"

Han Yin'er was a bit stunned, thinking to herself, This senior is so domineering! He didn't seem to be afraid of Palace Master at all.

Feng Ling said, "Senior, you can kill us, but in this way, there will be no place for Han Yin'er and Granny Phoenix in the Glazed Glass World. Why don't we each take a step back? The Feng family will offer a heavy gift to make up for Han Yin'er."

The winner took it all. Feng Ling and Feng Youran investigated everywhere and waited for more than a month. After confirming repeatedly that Han Yin'er had no help, they finally took action.

They didn't expect that the other party still had someone protecting her. Now that they were defeated, they had no choice but to admit defeat.

However, Han Fei sneered. "You're quite eloquent... You deceived my innocent sister. Do you think you can still live?"

Bang!

Han Fei snorted, and Feng Ling's arms exploded. She groaned in pain and lay on her side.

"Sister ~"

Feng Youran glared at Han Fei. "Do you know that if you kill any of us, you'll be in serious trouble? Who are you? If you know our Feng family, you should know that the Feng family has seven Half-Kings. Not everyone can offend us."

"Keke ~"

Han Fei grinned and looked up at the void. "Who am I? Then listen carefully. I am the current Heavenly Master of the Yin-Yang World, Han Fei. The Heavenly Heritage you want to get is my biological sister's. The one in the void, come out! Today, I'll kill these three people no matter what. I'd like to see what kind of dragon pool and tiger den the Glazed Glass World is. Why can't I explore it?"

Buzz!

Han Fei's words struck Han Yin'er's heart like a bolt of lightning.

For a moment, she was at a loss and looked at Han Fei in shock, thinking, How is this possible? How can I have a brother?

Besides, he was the current Heavenly Master of the Yin-Yang World?

Who didn't know that the Yin-Yang World had long perished in the Raging Sea? Where did the master of the Yin-Yang Heavenly Palace come from?

Not to mention Yin'er, even Feng Ling and Feng Youran were stunned. The two of them immediately thought that this person was a liar. This was impossible.

Feng Youran said, "That's impossible. The Yin-Yang World has disappeared for eighty thousand years. How can you be from the Yin-Yang World and call yourself the Immortal Master?"

Buzz!

Just when everyone expressed their disbelief, Han Fei didn't look at them at all.

Opposite Han Fei, a black shadow appeared.

In the next moment, an old woman with white hair quietly appeared.

Seeing the old woman, Han Yin'er hurried over. "Teacher..."

The old woman sighed, stroked Han Yin'er's head, and then looked straight at Han Fei. "You're finally here. I didn't expect that it wasn't either of them."

Han Yin'er's heart skipped a beat. What does Teacher mean? "You're finally here?" Is... Is this person really my brother?

Han Fei raised his head and looked at the old woman. "Black Phoenix Demoness?"

While everyone was stunned, the old woman chuckled. "How do you know that I am the Black Phoenix Demoness?"

Han Fei said indifferently, "When I found the medicinal field, I found that the spiritual energy in the medicinal field was not normal. The entire medicinal field is an array, and the array is in harmony with nature. This is one of the reasons. Secondly, this should be your plan. You wanted to test the Feng siblings or this Feng Youran. Therefore, you left with an excuse and waited until today. Yin'er is not strong and has a Heavenly Heritage. It's impossible for her to survive without the protection of a strong master. I originally guessed that the Master of Glazed Glass was taking care of Yin'er... But when I felt that the temperature here had slightly dropped to the limit of Yin'er's endurance, I was sure that the person who came was not the Master of Glazed Glass. The Dao runes were not right."

With that, Han Fei looked at the old woman and said, "The only reason I can think of is that you're Black Phoenix Demoness."

Feng Youran's heart trembled. Black Phoenix Demoness? The captain of the Devil Girl Pirates? A king-level powerhouse?

Feng Ling was dumbfounded, so was Qian Yu. Han Yin'er's background was so terrifying?

Even Yin'er looked at her teacher in surprise. It turned out that her teacher was the commander of the Devil Girl Pirates.

Han Fei looked at Yin'er gently.

In fact, Han Fei judged this situation because of the Nine Palace Luck Ruler. And he could guess it partly because of his gambling mentality.

Han Yin'er was shocked. Feeling Han Fei's gaze, she didn't dare to look at Han Fei, but she was very curious. As for her background, she wasn't that surprised.

Black Phoenix said indifferently, "Since you know I'm here, why did you still attack?"

Han Fei glanced at Feng Youran. "How can I watch my sister suffer?"

Black Phoenix said indifferently, "Since we've taken action, we can only take action to the end. Although the Yin-Yang World and the Glazed Glass World have a good relationship, the Palace Master has left the Raging Sea for a long time, so our relationship will change. The Feng family is indeed a strong family in the Glazed Glass World, and it's even stronger than what Feng Youran said. Otherwise, I would have rejected him long ago."

Han Fei tilted his head. "With seven Half-Kings?"

Black Phoenix chuckled. "What do you think?"

Han Fei snorted. "Do you mean that the Feng family has a king?"

Black Phoenix: "If they have, do you still dare to fight them?"

Han Fei smiled. "How many kings does the Glazed Glass World have?"

Black Phoenix: "There are four kings, Master of Glazed Glass, Qiu Yueming, Feng Xinlan... Me, Supreme Yin Black Phoenix."

Han Fei looked at Black Phoenix. "I didn't intend to meet you, but since I've met you, I got it. Who can you stop?"

Black Phoenix giggled. "Do you think I will definitely help you?"

Han Fei said, "You've watched over Yin'er for so many years and spent more than a month to fish out these people's evil intentions... If you had other schemes, you wouldn't have waited until now."

Black Phoenix smiled faintly. "Today, the Master of Glazed Glass went to the Supreme Mystic World."

Han Fei's heart did a flip. Therefore, there were only Qiu Yueming and Feng Xinlan left in the Glazed Glass World.

The Black Phoenix's meaning was obvious. The departure of the Master of Glazed Glass was probably the last straw that pushed Feng Youran to take the risk.

And the departure of the Master of Glazed Glass meant that there were only two kings left in the Glazed Glass World except for Black Phoenix.

Now, it seemed that Black Phoenix asked him if he dared to attack the Feng family because she wanted to see his courage and strength.

Han Fei smiled and said, "I dare to fight Mad Fourth King, so I can certainly deal with Feng Xinlan. If you want to see it, go ahead."

Then, Han Fei reached out and grabbed Feng Youran's neck.

He cast out the Void Lines, activated the Soul Searching Technique, and immediately found the location of the Feng family.

Han Fei grinned. "In the end, the Yin-Yang World will return sooner or later. Let me make today a start!"

Boom!

On the Fiery Island, on the Tranquil Earth Fire Platform, the world rumbled. The sound spread thousands of kilometers and rippled the void.

At that moment, in the Glazed Glass World, countless Half-Kings and Venerables opened their eyes and looked in the direction of the Tranquil Earth Fire Platform.

Someone walked in the air, covering thousands of kilometers with each step.

That person came from the fire, and the void behind him rumbled. The fire burned all the way to the Feng family.

At that moment, under the Heavenly Palace, Qiu Yueming, who had just returned, was shocked. Supreme Yin Black Phoenix? No, who was that person?

In the Feng family, a charming woman saw through the void.

Then she saw someone come carrying the descendants of the Feng family in his hand. Was he asking for a fight?

At this moment.

The entire Feng family was on guard. The visitor was extremely strong. He was clearly here to cause trouble.

Six Half-Kings of the Feng family stepped in the air.

The other person was lucky enough to be absent.

Among the six Half-Kings, an old man shouted on the spot, "Who are you? Why do you kidnap the descendants of our Feng family?"

Feng Ling and Feng Youran were dumbfounded. They had never seen such a scene before. The master of the Yin-Yang Heavenly Palace and the commander of the Devil Girl Pirates were actually hiding in the Glazed Glass World?

At this moment, they suddenly showed up. Who wouldn't be afraid?!

Feng Ling only had time to shout, "Third Grandpa, help..."

Then she fell silent, because her soul had been controlled.

The so-called Third Grandpa was the youngest of the six.

He looked like a young man. Now he shouted, "How dare you bully our Feng family? Let go of my granddaughter now, or I'll make you regret it!"

Han Fei raised his eyes. "Is this the attitude of your Feng family?"

Bang!

As Han Fei issued an order in his heart, the woman named Qian Yu directly exploded. In an instant, her soul vanished.

At this moment, Black Phoenix finally arrived with Han Yin'er.

The two of them walked slowly, and Black Phoenix said, "Yin'er, I didn't know that you had a brother. However, this is very likely. I don't know what he has been through, so I won't hand you over to him casually. Let's see what he will do... Then you can decide whether to go with him or not."

At this moment, Yin'er was very confused yet utterly excited.

As soon as this brother appeared, she felt a special kinship with him. It was a connection that stemmed from bloodline. She desperately longed for this kinship.

At this moment, seeing Han Fei start to slaughter people in front of the Feng family, Yin'er couldn't help but panic.

After all, the Feng family was not an ordinary family!

Chapter 1809: Stepping on the Void, Fist Shines in the Sky

Han Fei killed one of them first.

Then he said to the old man, "Mind your manners."

Han Fei had fought his way up and experienced countless battles. When he was angry, his killing intent was overwhelming, and when he was crazy, his energy and blood was surging to the sky.

At this moment, Han Fei had killed a person in the blink of an eye. Although she wasn't from the Feng family, she was still a Heavenly Talent of a small family.

She had already become an advanced Explorer at such a young age. However, Han Fei killed her with a thought in public. How domineering was that?

Third Grandpa was about to fly into a rage, when someone stopped him. "May I ask who you are? Why did you have to catch our children and make enemies of us?"

Although this person was talking to Han Fei, he was looking at Black Phoenix.

Bang!

Half of Feng Ling's body was broken and exploded into nothingness. A scream shook the entire Feng family.

"How dare you!"

Could it be that Han Fei's Hundred Beast Soul Subduing Roar couldn't beat them?

Han Fei's voice rumbled like thunder, making it impossible for everyone in the Feng family below the Venerable realm to withstand it. Fortunately, a large array appeared and blocked this voice.

Han Fei shouted, "Who are you looking at? Can't you tell who is the real boss?"

Instantly, everyone in the Feng family was furious but didn't dare to say anything. Han Fei was still holding Feng Ling and Feng Youran in his hands. This guy was like a lunatic, attacking without batting an eye. He was clearly provoking them.

At this moment, all the Half-Kings of the Feng family couldn't sit still anymore. They had already been slapped in the face. If they still didn't take action, how would the other big clans and various Venerable-level powerhouses in the Heavenly Treasure City look at the Feng family?

Swish! Swish! Swish!

The six Half-Kings attacked at the same time.

Of course, these six people knew that the battle couldn't be fought in the Heavenly Treasure City but in the void. How could the billions of people on the floating island withstand a battle between Half-Kings?

However, when these people wanted to pull Han Fei into the void, Han Fei suddenly stepped out, pointed his finger at the sky, and blasted one of them away.

Then, Han Fei activated the Star Teleportation Technique, and his figure floated as if he had appeared in multiple places at the same time. He either clenched a fist mark, held a big hand, or stepped on the void. At that moment, his ability to absorb the spiritual energy within a hundred kilometers in an instant and his palm or fist mark that contained strong Dao runes didn't give these people a chance to break through the void at all.

Bang!

Boom! Boom! Boom!

With three punches, two Halk-Kings' bodies were already broken.

Han Fei easily swept through the six Half-Kings. If he wanted to kill, all the Half-Kings of the Feng family could be killed in one second.

This scene shocked all the Venerables in the Heavenly Treasure City.

"Hiss! Who is this guy? Is there a new king in the Glazed Glass World?"

"His speed is unparalleled and his strength is astonishing. No one in the Feng family can resist him. Where did this person come from?"

"He shattered a Half-King with a wave of his hand, but he can still control his strength without leaking out at all. What exquisite control."

...

Of course, although Han Fei shattered the Half-Kings in a row, he didn't kill them.

Buzz!

While the Venerables of the Heavenly Treasure City were shocked, Qiu Yueming appeared in the void and said, "Granny Phoenix, what's going on? Why don't you stop him?"

However, Black Phoenix moved slightly and stood in front of Qiu Yueming, saying indifferently, "Since we're looking for trouble, there must be a reason. Moon King, why don't you wait and see?"

Qiu Yueming narrowed her eyes.

Others didn't know, but the kings naturally knew Granny Phoenix's strength.

This person had long stepped into the Sea Establishment Realm and was not weak. She had been farming in the Tranquil Dao Academy and only took in one disciple. Why did she suddenly participate in today's matter?

Granny Phoenix was actually blocking her way and Han Fei had just shown terrifying strength just now. Qiu Yueming thought to herself, This person was only a Half-King, but he could kill a Half-King as easily as crushing a shrimp. Who was he?

But since Feng Xinlan hadn't taken action yet, she might as well wait and see.

After being shattered by Han Fei, all the Half-Kings who were just reborn looked at Han Fei solemnly with a dark face.

The leader asked, "Senior, may I ask who you are? Where are you from? Why are you attacking our Feng family?"

At this time, they had no intention of pulling Han Fei into the void to fight, because they couldn't beat him at all. They even suspected that they had encountered a king.

Han Fei grinned. "You finally get how you should talk to me! Heh, but I don't want to talk to you. Call Feng Xinlan out."

The six Half-Kings of the Feng family blushed. Who could tolerate such provocation?

However, they couldn't just call out the king. With the king here, even a small matter would become a big matter. The old man said, "I'm the head of the Feng family. Why bother the king of our family? Why don't we solve it here?"

Han Fei didn't mind. He said, "You want to solve it? Fine, Feng Ling and Feng Youran tricked my sister, trying to take her Heavenly Heritage. If I hadn't arrived in time, I'm afraid they would have gotten their way. Tell me, how can the Feng family appease my anger?"

"Huh?"

"Your sister?"

At this moment, everyone's eyes fell on Han Yin'er.

This little girl was also a legend. Her Heavenly Heritage had long been seen through and she had been taken into the Tranquil Heart Dao Academy to cultivate. Because of Granny Phoenix and the Tranquil Heart Dao Academy, generally no one would covet her.

Looking at Feng Ling and Feng Youran, the Feng family's ancestors could probably be sure of the authenticity of the matter.

However, they really didn't expect this little girl to have such a background.

Qiu Yueming was also slightly surprised. He had never heard of this little girl having any friends or family.

When she came out, her talent was indeed astonishing.

However, soon, everyone discovered that something was wrong. This girl's soul was incomplete and she would definitely die if she transcended the tribulation. She could be stuck at the peak of the law enforcer realm for the rest of her life. This stopped many strong masters from taking her as their disciple.

The Feng family had a king. For the sake of Granny Phoenix, as long as their descendants didn't die, they could compensate Yin'er.

Otherwise, how would others look at the Feng family?

The leading Half-King said, "Fellow Daoist, since this has happened, the Feng family will definitely punish these two people. Fortunately, your sister is fine. The Feng family is willing to pay a million ultra-quality spiritual stones as compensation."

"Kekeke~"

Han Fei smiled, and the aura around him made everyone realize that something was wrong.

Bang!

Feng Ling in front of Han Fei exploded and died on the spot. Feng Ling was just an Explorer. If she exploded, she would really die.

"How dare you!"

The Half-Kings of the Feng family all shouted.

They were all furious. Who could have expected Han Fei to kill Feng Ling so casually? F*ck, at least give us a reason! If you aren't satisfied with what we offer, tell us your conditions! Why did you just kill her?

But even so, they didn't dare to attack. If it weren't for the fact that the Feng Family had a king, they wouldn't have dared to fight Han Fei at all.

Qiu Mingyue frowned deeply. "Granny Phoenix, isn't this too much?"

Granny Phoenix smiled. "There's nothing wrong with killing her."

Yin'er, on the other hand, couldn't bear it. She said, "Teacher, why don't we just... forgive them?"

However, her teacher, who had always doted on her, shook her head slightly. "Some things can be done, but some can't. In the world of cultivation, people are different."

Qiu Yue's heart did a flip. What did Granny Phoenix mean? People were different? Did this little girl have a shocking background?

Buzz!

Above the Feng family, a beautiful woman suddenly appeared.

She was dressed in green, and her eyes were cold. She said, "You went too far. Your sister is a human, but how can the children of our Feng family be slaughtered by you? Today, I won't let you off."

The corners of Han Fei's mouth curled up slightly. "Oh! You're finally out. You kings think you can put on airs? However, putting on airs in front of me is never a good thing. Feng Xinlan, right? I'll give you a chance. You can give me a condition that I can't refuse. Don't let me take what I want for myself..."

At this moment, everyone looked at Han Fei differently.

How could he be so calm in the face of a king?

This boldness was rare in the world. Who was this person?

If there was such a person in the Glazed Glass World, it was impossible for his Feng family not to know!

Feng Xinlan said, "What a Half-King. Who gave you the courage to challenge a king?"

Han Fei said contemptuously, "I'll give you another chance to organize your words. Give me a condition that I can't refuse."

Feng Xinlan narrowed her eyes slightly. "What if I don't?"

Bang!

As soon as Feng Xinlan said so, she disappeared. In midair, a ring fell. However, in addition to this ring, there was also a huge fist mark.

Boom!

Clang!

The ring was sent flying by a punch, and a terrifying explosive power swept across the world.

"Stop!"

Qiu Yueming shouted.

The power of a king suppressed the world, locking this terrifying explosion in this space.

Qiu Yueming shouted, "Do you want to destroy the Heavenly Treasure City? How can a king be so insensible?"

Both Qiu Yueming and Feng Xinlan were shocked. Who is this guy? He's only a Half-King, but he can confront a king without retreating...

"Hehe! I gave you a chance, but you didn't cherish it. What a pity..."

Bang!

Under the watch of Qiu Yueming and Feng Xinlan, Han Fei controlled Feng Youran to blow himself up. The power of the explosion was grabbed by Han Fei and then put into the void.

Han Fei's strength shocked the entire Feng family.

Black Phoenix watched this scene quietly from the beginning to the end, thinking to herself, The son of the Palace Master is actually so strong! As expected of the heir of the Yin-Yang World. This is even stronger than what Zhenzhu described to me.

At this time, Han Fei said casually, "You missed an opportunity. Now I'll give you another chance. Give me compensation that I can't refuse. Otherwise, the Feng family won't exist anymore."

Buzz!

At this moment, not only Feng Xinlan, but even Qiu Yueming looked at Han Fei in shock. Are you f*cking crazy?

Feng Xinlan gritted her teeth and said, "I'd like to see how you can destroy my Feng family!"

Qiu Yueming shouted, "I don't care who you are. This is the Glazed Glass World. How dare you act so ferociously in our Glazed Glass World? This matter is no longer just about the Feng family."

Han Fei looked back at Black Phoenix.

At that moment, Black Phoenix smiled and said, "Moon King, let's wait and see!"

Qiu Yueming shouted coldly, "What are you still looking at? This b*stard wants to destroy our Glazed Glass World. Granny Phoenix, are you going to take advantage of your seniority to go against me?"

Granny Phoenix said indifferently, "If you speak this way, Moon King, don't blame me for attacking you."

Qiu Yue said coldly, "Granny Phoenix, are you not going to stay in the Glazed Glass World?"

Granny Phoenix shook her head slightly. "That's right. Indeed, there's no need for me to stay in the Glazed Glass World."

Beside Han Fei, the illusion of mountains and rivers appeared, and Xia Xiaochan appeared.

When Xia Xiaochan appeared, she was a little stunned. What's going on? Who is fighting whom?

Han Fei said, "Girl, help me take care of my sister. Let me meet the kings of the Glazed Glass World."

Although Xia Xiaochan didn't know what happened, the moment she saw Yin'er, she still appeared beside Yin'er and Granny Phoenix.

Granny Phoenix looked at Xia Xiaochan in surprise, thinking, Han Fei still doesn't trust me!

Han Yin'er and Xia Xiaochan looked at each other. Xia Xiaochan smiled. "Little Sister."

Yin'er blushed and immediately lowered her head timidly. After hesitating for a moment, she said with difficulty, "Sister-in-law?"

When the kings saw Han Fei summon a Half-King, they were puzzled not because he summoned a mere Half-King, but because Han Fei carried a small world with him.

A powerhouse who could carry a small world with him could never be underestimated.

In the next moment, Han Fei disappeared.

Under Han Fei's feet, the void within a hundred kilometers cracked and shattered. Han Fei's fist was full of killing intent, magnificent and illuminating the sky.

Han Fei said, "Since you don't want to give it to me, I'll take it myself."

Chapter 1810: I Don't Owe You Any Favor Anymore

Supreme Mystic World.

When Han Fei attacked the Feng family, the four palace masters of Supreme Mystic, Immeasurability, Glazed Glass, and Sword God gathered in the Supreme Mystic World.

At this moment, a young man was standing respectfully under the four of them, reporting something.

If Han Fei were here, he would have recognized this person. Wasn't this Song Kaiyuan who he had robbed twice?

Song Kaiyuan said, "Four Palace Masters, it can't be wrong. The person who claims to be Black Ghost used the treasure of the Ashless World, the Infinity Water. Furthermore, he has many Great Daos. Not only has he embarked on the path of invincibility, but he has also mastered the Great Dao of Space and an unknown Great Dao that could double his strength. It's impossible to tell his disguise technique, but his offensive methods include the Heavenly Void Divine Movement, the Star Teleportation Technique, and the Hundred Beast Soul Subduing Roar. He should have interacted with the Beast King World too..."

The palace master of the Immeasurability World directly said, "Kaiyuan, just tell us who you think he is. If you can't tell, we don't have to come here."

Song Kaiyuan nodded slightly. "I only found one of his identities. Although this person tried his best to hide it, his momentum in battle can't be fake. He and the Holy Child of the Snow God's Temple are extremely similar when they use fist techniques. These two people should be the same person. I'm sure."

"Huh?"

Mushui Sisi, who was reporting with Song Kaiyuan, widened her eyes in shock.

"The 'Once I put on the mask, I don't love anyone' guy?"

Song Kaiyuan rolled his eyes at her and said, "At first, I wasn't quite sure. However, after considering the details, it's not difficult to be sure. The Holy Child, Xue Zhan, was ranked first in the Heavenly Imperial Tree competition. But in front of the bronze door, he only walked less than 1,500 meters. Then, he wrapped himself with the Ice Snow Lotus Throne. It seemed that he had an epiphany and was cultivating, but it was actually not the case. Facing such a great opportunity, there was no reason for him to stop. As far as I know, Xue Zhan's physique was even stronger than Wu Hao's..."

In the end, Song Kaiyuan said, "This person has obviously embarked on the path of invincibility long ago. The path of invincibility is extremely rare in the Raging Sea. With the principle of Great Dao absorption, no matter how low-key he is, as long as he grows to the level of a Half-King, there's no reason for him not to be exposed. Even if he is in the outer sea, he shouldn't have been so obscure."

Master of Glazed Glass: "So, are you sure that they are the same person?"

The palace master of the Sword God World said indifferently, "Is it possible that it's an avatar?"

Song Kaiyuan shook his head slightly. "It's impossible for it to be an avatar. If it's an avatar, there's no need for Xue Zhan to hide in front of the bronze gate. He won't let himself stay in the Land of King Death that opens every three hundred years. He must have come out by now. Since it's not an avatar, if they want to come out, they have to avoid the detection of Ye Qinglong and Ji Xuan. Either their concealment technique has reached the point where it's difficult for a king to detect, or they have a small world with them. Even if they have a small world with them, they need someone to take them out of the Land of King Death. Then, how can these two people disappear perfectly? This becomes a huge problem. Therefore, when all kinds of coincidences are combined, this is no longer a coincidence."

Song Kaiyuan slowly raised his head and said, "In conclusion, either this person is a king that can use project clones, or..."

The Heavenly Masters looked at each other.

In the end, the master of the Supreme Mystic World said leisurely, "Or the Twin Divine Technique that has disappeared for a long time."

Mushui Sisi looked at her senior brother in shock. From the beginning to the end, she didn't find any problems. Why did Senior Brother notice so many details?

The Heavenly Master of the Sword God World said, "In front of Ye Qinglong and Ji Xuan, if he's really a king, there's no place for him to hide. No matter how hard he tries to hide his aura, the special aura of a Sea Establisher can't be hidden. Unless his strength completely exceeds that of Ye Qinglong and Ji Xuan. But with that strength, there's no need to go to the Land of King Death, let alone rob others."

The Master of Glazed Glass nodded. "That's right! He's already in the Sea Establishment realm. Why would he do such a meaningless thing? This person shouldn't have become a king yet..."

The Heavenly Master of the Immeasurability World said leisurely, "So, the turmoil in the Wild Abyss a while ago was actually because someone came out?"

Song Kaiyuan said, "Yes, I thought of this just because I thought of the turmoil in the Wild Abyss. Otherwise, I might have ignored this matter and treated all these as coincidences."

The Heavenly Master of the Immeasurability World shook his head slightly. "They can't be coincidences. You've already explained it to this extent. It's impossible to describe all these things as coincidences. The Yin-Yang World has disappeared for more than 80,000 years. I'm afraid those people are about to die. It's indeed time for them to show up."

The Supreme Mystic World Master said, "Actually, the Infinity Water alone can give us the answer. Don't forget, the place where the Heavenly Desolate City fell was in the Yin-Yang World."

The Heavenly Master of the Sword God World said indifferently, "Let's stop here! Once the Yin-Yang World appears, how can the Nine Palace continue to lie low?"

Master of Glazed Glass said, "If the Yin-Yang World and the Nine Palace World return, the Thirty-Six Mystic Worlds will probably have to make a choice. At least, the Snow God's Temple has made their choice."

The Supreme Mystic World Master said leisurely, "I just don't know what happened to them all these years. If they can really return, why bother to hide? I'm not very optimistic about this matter now. If they return and start a war with the Thirty-Six Mystic Worlds, the people will be plunged into misery and suffering again. They'd better not return..."

The Supreme Mystic World Master said to Song Kaiyuan and Mu Shuisi, "The two of you can leave! Don't tell this matter to anyone else."

"Yes ~"

Not long after Song Kaiyuan and Mu Shuisi left, Liuli suddenly frowned.

The person from the Sword God World asked, "What's wrong?"

Liuli: "Something seems to happen in the Glazed Glass World. I have to go back now..."

...

Glazed Glass World, Heavenly Treasure City.

The void cracked.

Now Han Fei's disassembling degree of spiritual energy had reached 100%. The power of his Great Dao was 30% stronger than before, and his strength erupted to the limit.

With a casual tap, there would be nearly a hundred thousand waves of super power.

The power of his Great Dao instantly condensed and moved at his will. The power seemed infinite. This was the benefit of perfect disassembling of spiritual energy.

And this was even after Han Fei sent a projection out.

Such power was definitely not something ordinary kings could compare to.

But at this moment, Han Fei found that he and a king of the inner domain were evenly matched. He had underestimated the kings of the world.

Logically speaking, with his current strength, he could easily beat a king like the White Armor Emperor.

However, he drew a tie with Feng Xinlan today.

In Black Phoenix's eyes, today, she just wanted to see Han Fei's strength and his means.

Now, she had seen his strength.

To be able to fight Feng Xinlan like this in the Half-King realm, she could recognize him as the master of the Yin-Yang World.

As for his means, Han Fei was fierce, domineering and vengeful.

This meant that Han Fei had probably experienced a lot before.

However, she didn't quite like his domineering personality. This was too different from the style of the former palace master.

At this moment, the two parties had only fought for less than five seconds, but it was already dark in the sky, and there were void cracks everywhere. Occasionally, there were auras dissipating, so Qiu Yueming had to postpone the game with Black Phoenix and cleaning the mess made by the two people in the sky.

Qiu Yueming shouted via voice transmission, "Feng Xinlan, stop! Do you want to destroy the Heavenly Treasure City?"

Feng Xinlan snorted. "This guy is bullying our Feng family. How can I let him off?"

Han Fei sneered. "How noble is my sister's status? If it weren't for the fact that the Glazed Glass World has taken care of her for so many years, do you think this matter would be over easily?"

Feng Xinlan scolded, "Noble? I'd like to hear how noble her identity is!"

Han Fei sneered. "I'm on an equal footing with Liuli. What do you think of my sister?"

"Huh?"

Whether it was Feng Xinlan or Qiu Yue Ming, their first reaction was: What are you bragging about?

However, on second thought, this guy's strength was really terrifying. He was only in the Half-King realm, but he was comparable to a king! If he transcended the tribulation and became a king, how strong would he be?

The two of them thought about it further. What did this person mean by being on an equal footing? Granny Phoenix was clearly on this person's side. With a king as his subordinate, this person's identity...

"Hiss ~"

Qiu Yueming and Feng Xinlan's hearts sank. Is he the master of an unknown Heavenly Palace?

Bang!

Han Fei and Feng Xinlan threw a punch at each other and stood quietly in the air.

Feng Xinlan finally calmed down a little. Liuli wasn't around, Qiu Yueming was blocked by Granny Phoenix, and this guy's strength was comparable to hers. If they continued to fight, only the Heavenly Treasure City would be damaged.

However, Han Fei seemed determined to destroy the Feng family, which Feng Xinlan couldn't ignore.

Seeing that the two of them had stopped fighting, Qiu Yueming immediately broke through the void and came over.

Qiu Yueming shouted, "I don't care who you are. If you really touch the Heavenly Treasure City, you will be the enemy of our Glazed Glass World. Your sister has been saved, and the criminals have been killed by you on the spot. If you push your luck, you will offend more than just our Glazed Glass World."

Han Fei didn't seem to hear Qiu Yueming. Instead, he looked into the void and asked Black Phoenix, "Does Liuli know Yin'er's identity?"

Black Phoenix nodded. "Yes."

Han Fei asked, "How long has Yin'er been in the Glazed Glass World?"

Black Phoenix: "63 years."

Han Fei was briefly stunned, but then he realized that there was nothing wrong with the number of years. If he counted the years when he stayed on Earth, it wouldn't be much longer than this.

In the cultivation world, a few decades or hundreds of years was no different from a few months or dozens of months.

Han Fei nodded slightly.

Then he glanced at Feng Xinlan and Qiu Yueming indifferently and snorted. “The favor that the Glazed Glass World took in my sister has been offset with our feud with your Feng family. Tell Liuli that I’ll take Yin’er away. When we meet again, we are no longer friends...”
