Chapter 1811: Brother and Sister Meet

For Han Fei, even if he couldn't win, he had to win in momentum.

Whether it worked or not, he would say a few harsh words first.

Besides, Feng Xinlan didn't dare to really fight. After all, this was the sky above the Heavenly Treasure City. If they fought seriously, the consequences would be disastrous.

Therefore, under Qiu Yueming's repeated scolding, Feng Xinlan finally stopped.

After Han Fei stopped, he still clamored. He wouldn't owe anyone a favor. He was very satisfied with the result he got today.

No matter what the relationship between Liuli and his mother was back then, the master of the Yin-Yang World was him now, and he didn't want the Yin-Yang World to owe the Glazed Glass World a favor easily.

Qiu Yueming said coldly, "Don't go too far. What makes you think you're qualified to call our Palace Master by name?"

"Hahaha!"

Han Fei laughed. "She will know if I'm qualified or not when she comes back."

Han Fei retreated from the void with a swish, his voice still echoing, "Remember, the Feng family has used up the favor I owe Liuli."

Feng Xinlan thought to herself, Not good!

The favor this person mentioned was probably not small. This person came to their door with such great fanfare not to ask for compensation, but not to recognize this favor.

However, Han Fei had already appeared outside.

If she compensated him, it would be a disgrace to the Feng family. There would probably be various rumors about the Feng family in the Heavenly Treasure City soon.

...

Xia Xiaochan was standing beside Yin'er, feeling the atmosphere was strange.

As if to start a topic, Xia Xiaochan said, "Yin'er, do you want to know about the stupid things your brother did when he was a child?"

"Huh?"

Yin'er was stunned. Why did she suddenly mention this? However, she was really curious. What was her brother like before?

Not to mention Yin'er, even Black Phoenix was curious.

Xia Xiaochan said, "When I first met him, he was only a fishing master with a level-three spiritual heritage. His talent was much worse than yours..."

Xia Xiaochan had just started and hadn't finished speaking yet...

With a swish, Han Fei broke out of the void and looked at Xia Xiaochan helplessly. "Hey! I was just absent for a while. Can we not talk about this?"

Xia Xiaochan was lost for words. "How did you come back so fast?"

Black Phoenix shook her head slightly. "It's good not to owe them a favor."

Han Fei grinned. "Of course."

Behind Han Fei, Feng Xinlan and Qiu Yue Ming also broke out of the void.

Qiu Yueming shouted, "How can Feng Xinlan represent the Master of Glazed Glass?"

Without looking back, Han Fei sneered. "The Feng family is from the Glazed Glass World. If the Feng family makes a mistake, the Glazed Glass World makes a mistake."

Feng Xinlan asked, "But you've already killed two people from the Feng family!"

Han Fei said, "Those two people have done too many evil deeds. Their deaths are not worthy of being used as chips."

Before they could refute, Han Fei said, "We're even now. I'm leaving. Are you going to stop me?"

Qiu Yueming: "Why don't you dare to wait for the Master of Glazed Glass to come back?"

Han Fei sneered. "I don't even know her. Why should I wait for her? Just because I don't attack now doesn't mean I'm easy to talk to. Don't talk nonsense... I'm leaving now..."

With that, Han Fei looked at Black Phoenix.

The two looked at each other and took Xia Xiaochan and Yin'er to break through the void.

It was not that Qiu Yueming and Feng Xinlan didn't want to stop them, but once they did, there would be a big battle.

Qiu Yueming sighed. "Your Feng family should quickly give the outside world an explanation to resolve this matter as soon as possible. I've already informed Liuli to return. We seem to have... been tricked."

Feng Xinlan's face was black. Now that things had come to this point, it was useless to talk about it. She could only wait for Liuli to come back to take charge.

Half a day later.

When Liuli returned, although the battle had already ended, she could still learn what had happened from many people.

Liuli's perception swept across the Feng family. Seeing that Qiu Yueming and Feng Xinlan were both here, she immediately said, "Come and see me."

A moment later.

Feng Xinlan said, "This matter was started by two stupid children of our Feng family, but everything happened too fast. And that kid was too domineering and killed the two children on the spot. I didn't find out about his true intentions immediately."

Qiu Yueming said, "Liuli, who is that child... and Granny Phoenix? What secrets are there behind them?"

After hearing their accounts, Liuli said calmly, "He wants to take back this favor just like that? Impossible!"

Qiu Yueming asked, "Liuli... Is this favor very important?"

Liuli said lightly, "At least, not so cheap."

Hearing this, Feng Xinlan thought to herself, Sure enough, I was tricked. It's that kid's fault. His attitude was too tough at that time, and I was provoked.

Feng Xinlan asked, "Liuli, who are they?"

Liuli said leisurely, "The kid should be the current master of the Yin-Yang World, and Granny Phoenix is the Black Phoenix Demoness of the Devil Girl Pirates. Han Yin'er is the daughter of Han Guanshu and Jiang Lingxian..."

"Hiss ~"

Qiu Yueming and Feng Xinlan were both shocked. Yin-Yang World? Black Phoenix?

Qiu Yueming said in shock, "Hasn't the Yin-Yang World disappeared for eighty thousand years? Is it... coming back?"

Feng Xinlan's heart stirred. "Do they have the confidence to return?"

Liuli said, "Since the Age of Doom, too many people have forgotten the real reason for our existence in the Raging Sea. If someone leaves, he will definitely return. You don't have to worry about this matter... Xinlan, you'd better not make enemies with him."

Feng Xinlan was silent for a moment. "I'm waiting to see how that kid will return."

Liuli shook her head slightly, thinking, There are still many things you don't know.

...

Lu Ran and Mu Xi were discussing the matter of the Feng family.

Mu Xi said, "The commotion in the Feng family is definitely not something a Half-King can cause. They said that a Half-King of the Feng family is deducing a great technique. Obviously, that's a lie."

Lu Ran shrugged and said, "Isn't that obvious? Your master has already taken action, so it's just for ordinary people to hear. But don't ask about this matter. There's nothing to ask. If your master has a conflict with the Feng family, can you help her fight the Feng family?"

The two of them were chatting when they heard a voice. "Lu Ran, Mu Xi, come see me..."

Lu Ran and Mu Xi looked at each other in surprise. Master of Glazed Glass?

...

In the outer sea of the Glazed Glass World, on a certain route in the mist.

A big green ship was sailing on the sea.

From time to time, it would perform a void teleportation.

Finally, after two hours, the void teleportation stopped.

A moment later, on the deck.

Han Fei controlled the fishing pole with his soul power and casually caught a few low-level lobsters.

Xia Xiaochan was fiddling with the grill. From time to time, she would throw her fishing pole into the sea to find some low-level lobsters, conchs, and Mantis Shrimp.

Yin'er was standing far away, looking at Xia Xiaochan and Han Fei curiously.

Han Fei said, "Yin'er, you don't know me? I thought you knew me."

Yin'er: "..."

Seeing that Yin'er didn't speak, Han Fei smiled and said, "People have Yin souls and Yang souls. What supports you in your body now is your Yang soul, but you still lack a Yin soul. She is waiting for me to take you back. In this way, your Yin and Yang souls will be combined, and then you can break through to the peak of the Law Enforcer realm at any time. With the abundant strength you have accumulated over so many years, I bet you will reach the Explorer realm soon."

Hearing Han Fei's words, Yin'er frowned. "Yin soul?"

Han Fei chuckled. With a thought, an extremely complicated array slowly formed on the hull. It was a small Heaven and Earth Array.

Han Fei said, "The Dao of Yin and Yang are opposites, uniform, and produce each other. For example, in this Heaven and Earth Array, you can enter and leave at a glance. If I'm not wrong, you can only enter but not leave. Therefore, you don't dare to absorb spiritual energy and energy, but can only quickly release the power gathered in your body. Only in this way can you maintain the continuation of your life."

This was very convincing.

She couldn't help but seek her teacher's approval, but her teacher wasn't on the deck.

Yin'er braced herself and asked, "Then where is my Yin soul?"

Han Fei smiled. "In the Yin-Yang World."

Yin'er asked, "Didn't they say that the Yin-Yang World disappeared eighty thousand years ago?"

Han Fei said, "Disappearing doesn't mean it doesn't exist. If there's a way to disappear, there's naturally a way to return. It's a little difficult, but haven't I reappeared in the Raging Sea?"

At this moment, a cold-faced woman in green opened the cabin.

Yin'er looked back and was stunned.

Who else could it be but Black Phoenix?

Black Phoenix said, "Silly girl, since I am a king, how can I really be an old woman?"

"Chi la ~"

A large amount of seasonings was poured into the oil pot, and an enticing fragrance burst out. When the shrimp meat entered the pot, there was a continuous sizzling sound, which made people swallow their saliva.

Han Fei raised his head and said, "Greetings, Senior Black Phoenix."

Black Phoenix smiled faintly. "Why didn't you call me 'Senior' before?"

Han Fei said, "I didn't know you well back then."

Black Phoenix didn't argue with Han Fei about this.

She said, "How are things in the Yin-Yang World? Are the four of them safe?"

Han Fei knew who the four people the Black Phoenix was talking about were. He said, "The Water-Wood Palace Master and the Golden Crow Palace Master have long died. Although my mother and father are still alive, their situation is not very good."

At this time, Han Fei looked at Yin'er and said, "Our father's name is Han Guanshu, the master of the Nine Palace. Our mother's name is Jiang Linxian, the former master of the Yin-Yang World. This is a secret that I spent a long time to find out. You won't be able to see them this time you go back because I'm still not strong enough... However, shouldn't you call me brother now?"

Yin'er opened her mouth, lowered her head, and said in a low voice, "Brother!"

Chapter 1812: This Is A Problem of Human Unity

"Hahaha!"

Han Fei laughed and called, "Come on, have a taste of the food your brother made."

As the saying went, more haste, less speed. After all, Yin'er was still very distant from him.

When Yin'er first came into contact with hot pot, she was completely fascinated.

Even Black Phoenix looked at Han Fei in shock.

This was completely different from the domineering master of a Heavenly Palace she knew.

Black Phoenix couldn't help but remember that Zhenzhu and Long Wu had said that this guy was a superb cook and claimed to be the best cook in the Raging Sea. In the past, she only thought that Zhenzhu and Long Wu were talking nonsense, but now it seemed that it was true.

Han Fei asked, "Yin'er, is it delicious?"

Yin'er: "Um!"

Han Fei asked, "Do you want to eat it every day?"

Yin'er tilted her head and glanced at Han Fei, thinking, Now Brother looks like a bad guy who wants to kidnap a child.

Xia Xiaochan pinched Han Fei's waist speechlessly and said, "Cut the crap. Eat."

Han Fei: "..."

After dinner.

Han Fei said, "Senior Black Phoenix, since Yin'er's spiritual heritage is too high, why didn't you seal this power from the beginning?"

Black Phoenix shook her head slightly. "Why not use this power to cleanse her body repeatedly? You should be able to tell that Yin'er's physique is extremely strong."

Han Fei nodded slightly. Although her physique was not as strong as his before, it was indeed very strong in her realm.

Han Fei said, "That's good. However, this way of improving the physique will eventually leave some impure power in Yin'er's body. Although Yin'er's physique looks strong now, there's actually still a lot of room for improvement."

"Oh?"

Black Phoenix said in surprise, "If it's a body-refining technique, Yin'er is probably past that period now. If she wants to completely rebuild her foundation, she'll have to cripple her cultivation and start afresh. But Yin'er, with your Heavenly Heritage, even if you recultivate, it will be much faster."

Han Fei shook his head. "No need to re-cultivate."

Black Phoenix was surprised. "No need? Why? Yin'er has been suppressing her strength for a long time. With the slightest carelessness, she'll have to transcend the tribulation."

Han Fei said, "I have a great technique. Although it's not the first in the entire Raging Sea, it's definitely among the top three. This technique can remove the impurities in the body. With Yin'er's current situation, I'm afraid that after completely removing the impurities in her body, her strength will even be reduced to that of a junior law enforcer."

"Hiss ~"

Black Phoenix's eyes widened. "How can there be such a magic technique? If there is such a technique, it can be ranked first even in the entire Raging Sea."

Han Fei smiled. "Yin'er, relax."

Yin'er didn't dare to be negligent.

Now, in her eyes, Han Fei was a super powerful existence.

She was still a little confused. She didn't dare to imagine that her brother was the master of a Heavenly Palace, so were her mother and father.

All of this happened too suddenly.

It wasn't that she hadn't asked her teacher before. However, her teacher never told her. She only told her to wait and that she might know the answer later.

She asked how long it would take.

But her teacher said that she didn't know either.

Yin'er still remembered that when she first asked this question, she was still a child less than ten years old. More than 50 years had passed, and she finally got this answer.

Yin'er had just relaxed when Han Fei pointed at her glabella.

And her glabella immediately dazzled with golden light.

After a burst of colorful light, Han Fei looked at Xia Xiaochan and said, "Girl, relax too."

"Me?"

Xia Xiaochan was stunned and asked in confusion, "Is this body tempering technique useful to me?"

Han Fei smiled. "Sure, this technique can be cultivated for cultivators in any realm. Take it."

Xia Xiaochan certainly trusted Han Fei, so she didn't resist him.

Han Fei didn't intend to keep the Purity Mystic Body a secret.

In Han Fei's view, this technique was just a transition technique. If he was willing, he could immediately spend 1,000 wisps of Chaotic Qi to deduce it.

However, this body tempering technique was enough for the time being.

This was because the body tempering technique deduced might only be suitable for high realms. For example, the Indestructible Overlord Body eventually became the Supreme Mystic Body. Although the latter was ranked high, the conditions required to cultivate it were extremely harsh.

Now that Han Fei had the Purity Mystic Body, he planned to teach it to the Thug Academy.

At that time, he would nurture all the disciples of the Thug Academy into peerless Heavenly Talents. In the future, when he went on an expedition in the Raging Sea, he would have good soldiers.

Black Phoenix was puzzled. "You just taught others the number one body refinement technique in the Raging Sea so easily?"

Han Fei smiled casually. "The Raging Sea is still too small. Who has seen the world outside? It's just a body tempering technique. If I don't even teach it to my sister and my wife, who else can I teach it to?"

At that moment, Han Fei's arrogant temperament was revealed again.

Black Phoenix was stunned for a moment and then said, "The Avenger is already famous in the Martial Emperor City. Because of the two Sea Quelling Bizarre Treasures, many people are paying attention to you."

Han Fei said disdainfully, "Wherever I am, the Avenger will be there."

Black Phoenix: "Show me the Supreme Yin-Yang Wheel and the Nine Palace Luck Ruler."

"Huh?"

Black Phoenix said, "Although I already believe that you are the son of the Palace Master and the Master of the Nine Palace, I still want to confirm. No matter how strong your array skills are and how much you know about the Yin-Yang World, I still want to see those two things that can prove your identity."

Han Fei raised his hand, and the Nine Palace Luck Ruler appeared in his hand. The marker moved and fell on the "Flat".

Then, with a thought from Han Fei, Little Black and Little White appeared. He said, "Since you know the Yin-Yang World so well, you should know them, right?"

Black Phoenix's eyes burned. "Twin Yin-Yang Spirit Swallowing Fish."

Han Fei asked, "What is Yin'er's spiritual beast?"

Black Phoenix shook her head. "For some reason, she hasn't awakened her spiritual beast yet."

Han Fei frowned. He wasn't sure. Perhaps Yin'er was slightly different from him and needed to wait for her Yin soul and Yang soul to fuse before she could awaken her spiritual beast.

Without dwelling on this problem, Han Fei issued an order in his heart, and a small Yin-Yang Wheel appeared beside him, but he didn't use the Supreme Yin-Yang Wheel because it was unnecessary.

Han Fei said, "If you hadn't taken care of Yin'er for so many years, I wouldn't have shown you so much."

Black Phoenix: "One last thing. I want to know why Yin'er lacks a Yin soul."

Han Fei tilted his head and looked at the Black Phoenix. "I also want to ask, why did Yin'er appear in the Glazed Glass World? Why were you by her side?"

Black Phoenix was surprised. "You don't know?"

Han Fei: "Not at all."

Black Phoenix said, "Hundreds of years ago, I vaguely heard a summoning. In the void, I could occasionally hear the summoning of the Palace Master, but it was not clear. Until one day, a projection clone of the Nine Palace Master appeared in front of me with Yin'er. Before and after, I only had time to say a few words before the projection of the Nine Palace Master disappeared."

Han Fei asked, "What did he say?"

Black Phoenix said, "He said to wait and take good care of Yin'er. If it's inconvenient, I can go to the Glazed Glass World to seek protection."

Black Phoenix continued, "The Devil Girl Pirates drifted on the sea all year round. I wanted to take Yin'er with me, but later, I found that Yin'er was talented and didn't have ordinary meridians at all. However, her soul was greatly damaged and she needed to rest, so I went to the Glazed Glass World to seek protection."

Han Fei was slightly relieved. It was good that they didn't come to the Glazed Glass World from the beginning. Otherwise, the Feng family's matter won't be able to offset the favor.

Black Phoenix: "Where is the palace master? Where is the master of the Nine Palace?"

Han Fei shook his head. "I don't know. Perhaps they're in the river of time, but this is not something we should consider now."

When Black Phoenix heard about the river of time, the corners of her mouth twitched. That was indeed impossible to consider.

That damn place was beyond the reach of ordinary people. Even she could only see time at most. But to jump into time? That was almost no different from courting death.

Black Phoenix: "Since saving the palace master is not something we should consider, what should we do?"

Han Fei grinned. "Heh! How long have the Thirty-Six Mystic Worlds been controlled by these people from the Supreme Clearness World? I'm afraid they've lost their direction."

Black Phoenix's heart did a flip. What did he mean?

Han Fei said, "Senior Black Phoenix, the Devil Girl Pirates are still the Devil Girl Pirates, and the Avenger is still the Avenger. We still need to wait for the Yin-Yang World to return. I still need time to grow."

Black Phoenix asked, "Why?"

Han Fei asked, "Do you want to take a look outside the Raging Sea?"

Black Phoenix narrowed her eyes, and Han Fei sneered. "Do you think my goal is the Thirty-Six Mystic Worlds? No, no, no. The moment I awakened my Dao heart, my goal was no longer the Thirty-Six Mystic Worlds. Even if I know that there are kings and even emperors here, so what? A group of clowns have spent a hundred thousand years and are still immersed in the Raging Sea. They don't know what the outside world is like..."

At that moment, Han Fei looked like a real ruler.

He was more like a king than any king the Black Phoenix had ever seen.

Han Fei said indifferently, "The current Raging Sea is a mess. Except for the high spiritual energy, more resources, and bigger places, there's nothing remarkable about it. The so-called kings, to put it nicely, are kings, but to put it bluntly, they are just a group of Sea Establishment cultivators. Although they are strong now, being strong for a moment doesn't mean they will always be strong. It's not about the revenge of the Yin-Yang World, but the unity of human beings."

Han Fei felt this way not because Jiang Linxian said that she wanted him to find a way to unify the Thirty-Six Heavenly Palaces, but because after he saw these people, he felt that they were just a group of strong masters ruling a group of weak people. And they even separated themselves into the inner and outer domains and their only goal was just the Monarch Palace.

A Monarch Palace had blocked these people for a hundred thousand years.

To be honest, Han Fei despised their narrow vision.

Chapter 1813: Supreme Mystic World

While chatting with Black Phoenix, Xia Xiaochan had quickly comprehended the cultivation method of the Purity Mystic Body and slowly woke up.

Seeing this, Black Phoenix didn't continue to discuss with Han Fei but asked, "Are you going back to the Yin-Yang World?"

Han Fei shook his head. "Before returning to the Yin-Yang World, I still have some things to deal with. Let's go to the Supreme Mystic World first!"

"Supreme-Mystic World?"

Black Phoenix was slightly surprised and then reacted. "Are you going to steal books?"

Han Fei couldn't have felt worse. How could you guess it? I only said a name!

Black Phoenix said, "You've mastered the Twin Divine Technique and chosen to go to the Supreme Mystic World. Anyone can guess it."

Han Fei asked, "Why? Can't I steal it?"

Black Phoenix said, "It's not that you can't steal it, but as far as I know, there are almost no people who can steal books in the Supreme Mystic World. Supreme Mystic Academy is a cultivation place for the strong. There should be a king guarding it."

However, Black Phoenix was a little unsure.

After all, Han Fei had the Twin Divine Technique. Even if he couldn't steal it, it wouldn't hurt his life.

Han Fei said, "I still have a lot of things to do in the Raging Sea. The Devil Girl Pirates are still the Devil Girl Pirates. From today on, you and I can pretend that we don't know each other. Give me a route to the Supreme Mystic World and a nearby route to the Martial Emperor City. We can part ways immediately. Of course, I'll take Yin'er away."

Han Fei didn't know Black Phoenix well. Even if they were both related to the Yin-Yang World, there was no need to join forces now.

Besides, if there were too many people, it would affect his plan.

Black Phoenix took a deep look at Han Fei. "When can the Yin-Yang World return?"

Han Fei shook his head slightly. "That depends on when I can beat the strong..."

Although Han Fei believed that his strength was extraordinary, if he became a king in the future, his strength would increase several times. Even in this Raging Sea, there were very few people who could defeat him.

However, it was meaningless if only he was strong. There were so many kings and even emperors in the Raging Sea.

Therefore, Han Fei was not invincible.

If the Yin-Yang World was to appear again, it would definitely cause a huge uproar. It was impossible for him and Mu Wuhua to resist the kings of the Raging Sea alone.

They wouldn't even be able to withstand the impact of two pirate teams.

Black Phoenix said again, "Can we return to the Yin-Yang World?"

Han Fei shook his head. "There's no need! The resources in the Wild Abyss are limited and the spiritual energy is thin. It can't compare to the Raging Sea in all aspects. If the Devil Girl Pirates really care about the Yin-Yang World, they should preserve their strength as much as possible. When I return, there will be a storm of blood."

Xia Xiaochan had already woken up. Listening to the conversation between Han Fei and the Black Phoenix, she thought to herself, What Han Fei didn't mention is the hidden danger of the Merman Royal Family...

She forcibly left. Chun Huangdian was not stupid. He would find out sooner or later.

At that time, his target would definitely be Han Fei. Therefore, Han Fei said that he needed stronger strength.

"Alas..."

Black Phoenix threw a jade slip to Han Fei and said, "In the end, paper can't cover fire. Since you have returned and appeared in the Glazed Glass World, this news will eventually spread. The news that the Yin-Yang World is about to appear can't be hidden in the Raging Sea for long. Since you are now the master of the Yin-Yang World, this is something you have to bear."

Han Fei grinned and didn't speak.

He would deal with whatever came his way.

From the moment the Snow Lady discovered his identity, he had been prepared for the news of the Yin-Yang World to be exposed.

Half a day later.

When Yin'er woke up, Black Phoenix and Yin'er talked for quite a while in the cabin before they separated.

When the flag of the Avenger was raised, Black Phoenix's heart sank slightly. If possible, she really didn't want to see the master of the Yin-Yang World appear in the Raging Sea in such a form.

However, Han Fei's strength and grand vision gave her hope.

She decided to wait and see.

For the time being, she would gather all the forces of the Devil Girl Pirates. Over the years, she had kept a low profile for too long. It was time for her to plunder.

Yin'er bid farewell to Black Phoenix with tears in her eyes.

When there were only Han Fei and Xia Xiaochan on the ship, she was too tense and restrained.

Han Fei immediately summoned Nian'er.

"Brother!"

When Nian'er came out, there was a little squirrel on her head and a big white rabbit in her arms.

Nian'er said happily, "Brother, I went to see Sister Water Luster today. The little crab is moving."

Han Fei's heart did a flip. Has the King Ba Crab begun to revive?

However, this was not what Han Fei cared about now.

He said, "Nian'er, this is my biological sister, Yin'er... Yin'er, this is the daughter of my old friend, Nian'er. I think you two can play together?"

Han Yin'er was stunned for a moment. Another sister appeared?

Nian'er, on the other hand, had already run over. "Sister Yin'er, take this big white rabbit. It's so soft..."

Nian'er directly put the big white rabbit into her arms. This was the first time Han Yin'er had seen such a magical creature. It was simply cute.

The rabbit was not afraid of strangers and kept wriggling in Yin'er's arms.

Han Yin'er asked, "Um, what is this?"

Nian'er said, "Bunny! Sister Yin'er, don't you know Bunny?"

Nian'er turned around. "Brother, shall we take Sister Yin'er into the painting?"

Han Fei nodded slightly and looked at Yin'er. "Open your mind. Just go to the small world with Nian'er to have some fun. I will go to the Supreme Mystic World and the Martial Emperor City. It may take a few days. In the small world, the spiritual energy is thin, which will make you feel more comfortable."

When the illusion of mountains and rivers appeared, Yin'er and Nian'er went to the Sea Quelling Painting together.

Han Fei was slightly relieved.

Xia Xiaochan asked, "Are you just going to let them stay in the Sea Quelling Painting? Is it really okay?"

Han Fei said, "With Xiao Se, Tree Spirit and the others around, it won't be a problem. Otherwise, Yin'er is so restrained since she doesn't know me well. When we return to the Yin-Yang World, I can stuff both of

them into the Thug Academy. It should take some time for them to understand this world. After all, Teacher Wenren Yu and the others know more about teaching than us...”

When Yin'er went into the Sea Quelling Painting, Han Fei immediately glanced at the route left by Black Phoenix, quickly raised the sail, and moved in the direction of the Supreme Mystic World.

He had just fought in the Glazed Glass World. When Liuli went back, she would definitely know that someone from the Yin-Yang World had come.

The Glazed Glass World was on good terms with Supreme Mystic, Immeasurability, and Sword God. Perhaps one day, she would tell this matter to the other worlds.

Therefore, he had to go to the Supreme Mystic World early.

According to the route given by Black Phoenix, Han Fei roughly checked the routes. They were mostly twisted, so there must be many detours on these routes.

As for why there were detours, it was probably because of some dangerous creatures on this route. Powerful creatures also had territorial awareness.

And the route was mainly meant to avoid these marine creatures with great territories.

Of course, there should be some creatures that suddenly attacked the route. But theoretically speaking, powerful marine creatures usually wouldn't run out of their territory.

Therefore, Han Fei didn't encounter any danger along the way. The only thing he encountered was a huge octopus that reached the peak of the Venerable realm.

It was not hard to imagine that the big octopus was absorbed by Han Fei and ended up as food.

Three days passed.

Han Fei finally came to the sea near the Supreme Mystic World from the zigzagging routes.

The Supreme Mystic World covered various cultivation means.

Here, there were tens of thousands of academies of various sizes.

Of course, in these academies, there would be some difference in quality and level. For example, some schools had Venerables, while some only had explorers.

Of course, in the Supreme Mystic World, there was a place recognized as the strongest, which was the academy.

The academy was unparalleled in the Thirty-Six Mystic Worlds. It was said to contain millions of classics, including all kinds of magical techniques and combat skills.

Supreme Mystic World, Muddy Sky City, the Holy Land of Book Mountain.

When Han Fei came to this place, he felt terrible.

He had been wandering around for a day and had even read the memories of two people in a row. He had already known a lot about the Supreme Mystic World.

But what made Han Fei speechless was that the academy was on the Book Mountain, which itself was an array with many wonderful arrays embedded in it.

Secondly, there were very few disciples in Book Mountain. It was said that there were less than a hundred inner disciples and less than a thousand outer disciples in the entire Book Mountain. Outer disciples couldn't go to the inner sect yet, so Book Mountain was desolate all year round and no one came to climb it.

Han Fei looked at the towering peak and thought to himself, There must be countless arrays waiting for me along the way. Even if I'm an array master, it's impossible for me to sneak in without knowing the arrays!

After a day, Han Fei finally couldn't sit still.

He said, "If these people don't come out all year round, do I have to wait here for years? No, I have to lure them out."

Old Yuan said, "I don't think there are any weaklings in this academy. How much noise do you have to make to attract them?"

Han Fei wondered if he should trigger the seal on the Book Mountain and attract the attention of the academy. When they sent people to investigate, he would quietly possess them and follow them in.

Just as Han Fei was about to carry out this plan, he suddenly saw a figure break through the seal of the Book Mountain and come out.

When Han Fei took a closer look, he found that it was Song Kaiyuan!

Han Fei was overjoyed. God help me!

Chapter 1814: Scripture Repository Tower

Han Fei was worried that he couldn't enter the academy, when Song Kaiyuan came out.

Han Fei's impression of Song Kaiyuan was that this guy was like a scholar with a refined temperament. In addition, this person was knowledgeable and seemed more like a commander.

Previously, in the Land of King Death, it was actually this guy who commanded the Heavenly Talents of the four palaces.

Even later, in the battle of Mushui Sisi and Mu Xi, Mushui Sisi was also constantly directing Mu Xi to fight.

Perhaps this was a great advantage of the Supreme Mystic World.

He must have read many combat skills and techniques and knew these things very well, so he had the ability to command.

At this moment, Song Kaiyuan went out. Han Fei certainly wouldn't let him go. With a thought, he chased after him.

A moment later, on a high-level island in the Supreme Mystic World, which should be a high-level reception port.

There were several Half-Kings guarding here.

At this moment, they were receiving a big ship that had just arrived.

Han Fei followed Song Kaiyuan all the way here. When he saw the boat, his heart did a flip. Who was standing on the boat? Wasn't it Lu Ran and Mu Xi?

Han Fei was lost for words. He had just come from the Glazed Glass World, but these two people arrived so quickly? Those who didn't know better would think that he was followed.

Song Kaiyuan: "Junior Sister Lu Ran, Junior Sister Mu Xi, you're here?"

Lu Ran said, "Brother Song, I didn't expect to see you again so soon. I didn't expect you to pick me up personally. Where's Sisi?"

Song Kaiyuan smiled and said, "That girl made no progress in cultivation, so she was punished to read in the Scripture Repository Tower."

"Huh? Reading again?"

Mu Xi couldn't help but shrink her head, seeming to sympathize with her good sister.

Song Kaiyuan said, "It doesn't matter. She's already used to being punished. When you go over later, that girl will definitely sneak out. But don't go in. If she can't even hold out for ten days or half a month, the punishment next time will definitely be more severe."

Lu Ran clicked her tongue and shook her head. "I really don't understand your academy. Sisi is already so smart, but she is still punished into reading books? If this were in our Glazed Glass World, I'm afraid I would have to live in the Scripture Repository Tower and never be able to come out."

Song Kaiyuan smiled and said, "If the Master of Glazed Glass was willing, you would have been in the academy long ago."

Mu Xi said, "Then why are we here?"

Song Kaiyuan said, "I don't know much about this. I only know that it has something to do with the Martial Emperor City! Let's wait for a while. Li Kaitian and Jian Hui should be on their way too. They will arrive in half a day at most."

Han Fei's heart did a flip. Something to do with the Martial Emperor City?

What a coincidence. He was going to the Martial Emperor City too! If they were going there too, he could even take a ride.

Half a day later, Li Kaitian and Jian Hui arrived.

Before Li Kaitian got off the boat, he shouted, "I really don't know what's the rush. I've just come home and was about to cultivate in seclusion for half a year before I was kicked out."

Jian Hui hugged his sword and asked calmly, "Why are we here?"

Song Kaiyuan said, "Let's talk when we get to the academy first! After all, if you come as guests, our academy has to receive you, right?"

Han Fei had already attached himself to Song Kaiyuan, so he followed them back to the academy.

When they came to the foot of the Book Mountain, Song Kaiyuan led the crowd into it. Wherever they went, the mist retreated and the light dissipated. The arrays seemed to ignore them.

Han Fei was paying attention to these arrays and then found that these arrays were extremely complicated, similar to the methods he used to create the maze trial in the Thousand Star City.

Li Kaitian said, "Old Song! There are only a few dozen of you living in Book Mountain. What's there to hide? If we land halfway up the mountain, I won't be able to tell the direction."

Lu Ran said, "Shut up. They didn't set up this Book Mountain for you! If they had accepted someone like you, the academy would have been full long ago."

Li Kaitian chuckled. "Hey! It's not my fault..."

These people were on good terms.

Judging from their friendly relationship, the four heavenly palaces should be quite close. At least, the Heavenly Talents were very familiar with each other.

After a while, everyone passed the Book Mountain array and saw a paradise on earth.

Here, the spiritual energy was more than three times more intense than in the outside world.

Han Fei saw big birds flying away in shock, insects jumping in the forest, waterfalls, mountains, springs, green grass, ponds, lotus flowers, and lush green forests. Of course, these were not important. What was important was that in some forests, among the scattered houses, a tall tower stood.

No matter what the other sceneries of the academy were, anyone who came to the academy for the first time would definitely be attracted by this tower.

They all knew that this must be the Scripture Repository Tower of the academy.

Li Kaitian clicked his tongue and said, "Every time I see the Scripture Repository Tower, I can't help but want to go in and take a look. Hey, Old Song, can you ask your Junior Uncle to let us go in and explore it?"

Song Kaiyuan smiled and said, "If you want to find some books to read, I can let you enter the Scripture Repository Tower. But if you all want to explore it, I can't decide. You can ask my master!"

Li Kaitian shrugged. "Forget it. My luck has never been good. I've been here three times, and my luck was getting worse each time. Forget it. I'm not entering it."

Hearing their words, Han Fei felt that the Scripture Repository Tower was actually composed of two parts.

One part was the normal library. There were all kinds of books, combat skills, and techniques hidden here.

The other part required one to explore. What one could get was completely unexpected.

After entering this place, Han Fei didn't scan this place with his perception. At the same time, he didn't ask the old turtle to investigate either. The Supreme Mystic World was an important Heavenly Palace in the inner domain, he couldn't underestimate the king here.

It turned out that although the old turtle was knowledgeable and had experienced a long period of sedimentation, his strength was not exaggerated.

If his original body was still here, he might be able to dominate a region and easily sweep across the Heavenly Palaces.

But the point was that the old turtle only had one soul now. Han Fei didn't dare to take the risk.

Everyone walked together and in the blink of an eye, they came to a lake that was as smooth as a mirror.

Behind this lake was the Scripture Repository Tower.

On the lake, a person in white stood on one foot, holding a book in his hand, as if he didn't hear the arrival of Song Kaiyuan and the others.

When they saw this person, everyone immediately put their movements light.

Song Kaiyuan cupped his hands at the man and said, "Junior Uncle, everyone is here."

The man didn't move his eyes away from the page but turned it over. After reading for a while, he slowly said, "All of you are too impetuous. Now stay still for a day just like me."

Everyone: "???"

Li Kaiyuan and Lu Ran looked at each other and thought to themselves, I knew it.

Every time they saw this junior uncle, he would say this. They had to stand for a day before they could do anything else.

"Junior Uncle ~ I don't want to read! I want to stand as punishment..."

Suddenly, everyone looked up at the Scripture Repository Tower.

At a small window a hundred meters high, someone stuck her head out of the window and shouted. Who else could it be if not Mushui Sisi?

The man in white frowned. "Rude. Shut up."

The white-clothed man reached out and squeezed, and Mushui Sisi's mouth closed. She immediately couldn't speak.

Han Fei's heart did a flip. F*ck, does the Scripture Repository Tower have windows?

His first thought was: I can get in from a window.

But on second thought, it didn't make sense! It was impossible for such a tower to have no seals. Once he entered through the window, he would immediately trigger the seals.

However, Mushui Sisi, whose mouth was sealed, was still gesturing.

Suddenly, Mu Xi bowed to the man in white and said, "Junior Uncle Thief King, may I go in and be punished together with Sisi?"

The man in white looked up at Mu Xi and snorted. "Your willpower is extremely poor. I'll punish you to go to the tower and copy the Meditation Glazed Glass Scripture ten times."

Han Fei was stunned. Who the f*ck is this guy? She's not your disciple. How can you punish her? However, why does this punishment sound like special treatment?

Han Fei immediately attached himself onto Mu Xi quietly.

Mu Xi smiled sweetly. "Thank you, Junior Uncle."

With that, Mu Xi ran to the Scripture Repository Tower.

It was obvious that she was familiar with the place.

When Mu Xi entered the tower, she stepped on seven or eight arrays in a row and then entered a bottom passage about 20 meters long. At the end of the passage, there was a stone door that could be pushed open easily.

As if going home, Mu Xi passed six stone doors in a row before she came to the real Scripture Repository Tower.

Han Fei was shocked by what he saw.

The entire inner area of the Scripture Repository Tower was full of bookshelves.

Not only were there bookshelves on the walls of the tower, but in the middle of the Scripture Repository Tower, there was a pillar that seemed to reach all the way to the top of the tower. Outside this circle of pillars, there were also layers of bookshelves.

This was just the most basic bookshelf structure inside and outside. Also, between the two, there were some floating bookshelves, most in a semicircle, flying in the air. There were thousands of them.

Han Fei estimated that there were probably a million books here.

"Oh my god."

Han Fei had long known that there were many books in the Supreme Mystic World, but he didn't expect there to be so many. However, it had been a hundred thousand years since the Age of Doom. It seemed natural that there were many books.

Mu Xi jumped up, soared a hundred meters in the air, and hugged Mushui Sisi.

The two immediately spoke telepathically.

Mushui Sisi said, "Xixi, help me teach Senior Brother a lesson later. It's all his fault. Junior Uncle Thief King thinks I'm not smart again."

Mu Xi seemed to be used to this scene and immediately said, "You're not as smart as Senior Brother Song in the first place. Okay, Let's copy it! Half for each of us. When you're done, let's play chess."

"Okay, okay ~"

Han Fei, on the other hand, was pleasantly surprised. He didn't expect to sneak in so easily. He had thought it would be difficult, but it turned out that stealing books was not a problem for him at all.

Chapter 1815: Ambush of the Kings

Although Mu Shui Sisi claimed that she was not liked by her Junior Uncle, in fact, she was actually spoiled.

Otherwise, how could a Half-King wheedle a king? How could she even have a helper?

When Mushui Sisi and Mu Xi grabbed a pen and paper and began to copy books, Han Fei looked at the top of the tower.

He didn't expect that he would come to the Supreme Mystic World so easily. Black Phoenix had told him that it was difficult to steal books from the Supreme Mystic World... However, he didn't even spend any effort.

While the two girls were copying books, Han Fei had already come to the center of the thousand-meter-tall tower.

At this point, there were no bookshelves, and above his head was a starry sky.

Han Fei had seen this scene before. Back in the Fiery Mountain in the level-two fishery, after he climbed up the pillar, he had seen this kind of starry roof.

The sky above this kind of tower building was actually connected to a void, and every starlight dot actually represented an opportunity, a treasure...

Of course, in the Scripture Repository Tower, every star light should represent a book.

Han Fei felt that he had to do more to get more treasures.

But once he took action, wouldn't he be discovered?

Han Fei calmed himself down.

He still had a way to make Old Yuan use the Turtle Shell Sky Sealing Technique to temporarily seal this space.

Of course, in that case, it was very likely that he would be discovered.

Han Fei didn't want to run out so quickly. After all, it wasn't easy for him to come in. Wouldn't it be a loss if he left without getting anything?

Han Fei's purpose here was to find a body-refining technique suitable for him.

The Supreme Mystic World had a lot of books. If he could choose dozens of books and fuse them with the Purity Mystic Body with the help of the Demon Purification Pot, he might be able to get a stronger technique.

The Purity Mystic Body was ranked 998th in the Sea Establishment Realm.

Among the millions of races in the Infinite Ocean, it seemed to be extremely strong, but Han Fei knew that as long as he had enough body tempering techniques, he could deduce stronger techniques!

However, when Han Fei tried to fly into the starry sky, he discovered, to his surprise, that the stars were retreating.

“F*ck...”

Han Fei immediately retreated.

Fortunately, he only tried to get a little closer. If the noise was too loud, wouldn't he be exposed on the spot?

However, just as the stars retreated, Mushui Sisi couldn't help but look up at the top of the tower.

“Huh? Why is the sea of books moving?”

Mu Xi said, “Isn't it always moving around?”

Mushui Sisi shook her head. “That's not right! That's roaming. But this time, it's escaping.”

Buzz!

Just as Mushui Sisi was surprised, she saw that the junior uncle in white suddenly appeared in the tower with a swish.

Mushui Sisi was shocked and hurriedly said via voice transmission, “Junior Uncle, I'm not slacking off.”

However, the junior uncle in white said indifferently, “Kaiyuan, come in!”

Immediately afterward, Song Kaiyuan, Lu Ran, Li Kaitian, and Jian Hui entered the Scripture Repository Tower.

Mushui Sisi asked in surprise, “Why are you punished too?”

Song Kaiyuan shook his head helplessly. This silly junior sister. Why is she always so stupid at critical moments?

The man in white said, “Okay, we've been putting on a show for you for so long. It's time for you to show up. Should I call you Xue Zhan or Han Fei? Or should I call you Yin-Yang Palace Master?”

Everyone: “???”

Except for Song Kaiyuan, everyone was stunned. What did he mean?

Lu Ran and Mu Xi were also dumbfounded. Xue Zhan? What did it have to do with Xue Zhan?

Li Kaitian couldn't help but ask, “Han Fei? Isn't that the commander of the Avenger Pirates?”

Han Fei was also dumbfounded. What's going on? I've been discovered? My perfect concealment technique has been seen through?

Outside the Book Mountain, in a restaurant, Han Fei, Xia Xiaochan, Yin'er, and Nian'er were eating.

Suddenly, Han Fei's pupils were constricted, and he couldn't help but look in the direction of the Book Mountain. "Excellent! Does this Book Mountain know what I'm going to do? How did it know I was coming?"

Xia Xiaochan asked, "What's wrong?"

Han Fei said carelessly, "I was discovered."

...

In the Scripture Repository Tower.

Mu Shuisi and the others looked around in confusion. There were only the few of them in the tower. Who was Junior Uncle talking to?

The man in white said indifferently, "Since I've confirmed that you're here, you must be here. You've just been to the Glazed Glass World. We Supreme Mystic World is so close to the Glazed Glass World. There's no reason for you not to come."

Mushui Sisi: "Junior Uncle, what are you talking about? Is there anyone here? Don't scare me..."

Mu Xi tugged at Mushui Sisi's sleeve. "Don't speak."

After a few seconds, a voice said leisurely, "I'm very curious. When did the people from your academy start to scheme against me? How did they know my identity? How did they know that I would definitely come?"

"Hiss ~"

"Ahhh, ghost ~"

Mushui Sisi and Mu Xi widened their eyes in shock. So, they had been with a mysterious person just now?

Mu Xi's eyes flickered with a strange light. Xue Zhan? Was it Xue Zhan from the Snow God's Temple?

At this moment, Song Kaiyuan stood out. "Fellow Daoist Xue Zhan, in the Land of King Death, I've already guessed that you, Black Ghost, and Xue Zhan are the same person. Excluding the possibility of avatars, since you have the Ashless World, I've already been sure of my guess. After leaving the Land of King Death, Junior Uncle quickly went to the Martial Emperor City to get some information about you. However, we found that you had direct contact with the commander of the Avengers, Han Fei. In addition to some things happening in the Thunder Fire World, it's not difficult to confirm that you and Han Fei are the same person."

Song Kaiyuan continued, "I wasn't very sure that you would come. First of all, the Glazed Glass World and the Supreme Mystic World are very close. To be precise, we four Heavenly Palaces are all very close to each other. Our Supreme Mystic World is known as the world of books, so I estimated that you might

come here. Secondly, we estimated that you would come to explore historical books and investigate the secrets of the Raging Sea... Although it was just a guess, it happened to be right. However, I didn't expect you to explore the sea of books as soon as you came."

As soon as Song Kaiyuan said so, some other people appeared with a swish.

Lu Ran couldn't help but shout in surprise, "Master?"

Li Kaitian exclaimed, "Ah! Master Dragon?"

Jian Hui said, "Greetings, Master Sword God."

Lu Ran's teacher was naturally the Master of Glazed Glass.

Master Dragon that Li Kaitian mentioned was named Shang Long, the master of the Immeasurability World.

Jian Hui's teacher, Sword God, was Sword God Liu Qing, the master of the Sword God World.

The last one was Lu You, the master of the Supreme Mystic World.

The Snow Lady had told Han Fei about these people on the Snow God.

At this moment, to Han Fei's shock, all these big shots were waiting for him!

Han Fei said, "It seems that I've gained a lot of face. I even attracted the attention of the four Heavenly Masters."

Liuli looked like a girl. Her face was relaxed, covered with a white gauze, and her eyes were watery. She was a peerless beauty.

Liuli said, "You went to the Glazed Glass World and fought with Feng Xinlan, and then you claimed that you didn't owe us a favor? No way!"

Anyway, Lu Ran and the others were dumbfounded. With so many big shots here, it was impossible for them to be talking to the air. There must be someone here.

In the next moment, Mushui Sisi said to Mu Xi via voice transmission, "It's the Twin Divine Technique, the Yin-Yang World's Twin Divine Technique that has disappeared for eighty thousand years. Oh my god, he's here..."

The white-clothed junior uncle looked at Mushui Sisi and shook his head helplessly. "Stupid."

Han Fei finally understood that Mushui Sisi might just be bait and was deliberately placed here.

When Mu Xi and the others arrived, the white-clothed junior uncle knew that with this girl's personality, she definitely couldn't hold back.

He also knew that Mu Xi would definitely ask to go in and be punished together because they were very good friends.

This would give Han Fei a chance to enter the Scripture Repository Tower.

After entering the Scripture Repository Tower, once he was tempted by the treasures that were as dense as the stars, he would expose himself.

And all of this was part of these people's plan. Perhaps this wasn't the only coincidence they had planned. For example, they punished Mu Shuisi into reading in the Scripture Repository Tower. Perhaps they had long suspected that he was here, so they let Mushui Sisi enter the tower.

"No wonder it was so easy for me to enter Book Mountain. I didn't expect that all I saw was bait..."

Han Fei didn't hide it anymore.

At this moment, sitting on a bookshelf, he said indifferently, "However, since you know that it's the Twin Divine Technique, you should know that this Scripture Repository Tower can't trap me."

Lu You said, "We don't have any ill intentions, so you don't have to run in a hurry. Don't you want to steal books from my Supreme Mystic World? As the master of the Supreme Mystic World, so what if I let you steal a few times?"

Han Fei couldn't have felt worse. As the saying went, free food was the most expensive. It was impossible for these people not to want something from him.

What Han Fei didn't understand was that since the masters of these Heavenly Palaces knew that he was coming, why did they let their Heavenly Talents and disciples participate in witnessing this scene?

So, was it fun to unveil his mysterious mask?

Han Fei said, "Don't say 'steal', OK? I'm just borrowing some books."

Lu You chuckled. "Whether it's stealing or borrowing, since the master of the Yin-Yang World has appeared, it means that it's not far away from returning. Is there still a place for the Yin-Yang World in the Raging Sea? It's impossible for the Snow God's Temple to protect the Yin-Yang World. Although with the four of us, it's still difficult for the Yin-Yang World to establish itself in the Raging Sea, do you not want us to be your allies?"

Han Fei smiled. "Allies? What conditions do you need?"

Sword God Liu Qing said, "Leave, Raging Sea."

Han Fei's heart did a flip.

In the next moment, Lu You said, "If I've guessed right, you should have a powerful compass in your hand."

Han Fei's pupils were constricted slightly. How did these people know about the Vast Ocean Navigator?

Liuli said, "Don't be surprised. That thing was made by us together in the first place. But 80,000 years ago, some accidents happened, causing the Yin-Yang World, Water-Wood World, Golden Crow World, and Nine Palace World to be besieged. In the end, the Golden Crow World was taken, the Nine Palace World was sealed, and Yin-Yang and Water-Wood World escaped. The four of us formed an alliance and retreated to a corner, which has lasted to this day. Therefore, from the beginning, we were allies."

Chapter 1816: Explore the Sea of Books

Han Fei didn't trust these so-called allies very much.

He could roughly guess that the Yin-Yang World used to have a good relationship with these families, but before he came to the Supreme Mystic World, Black Phoenix didn't say anything about them to him.

After all, tens of thousands of years had passed. No matter how good their relationship was in the past, could it still be so good now? Han Fei didn't want to take the risk.

Han Fei said, "Do you want to talk about this in front of so many people?"

Lu You said, "Why don't you show up?"

Han Fei said, "I've showed up now."

Everyone : "..."

Especially Mushui Sisi and the others, they had learned from history that there was a magical technique like the Twin Divine Technique. No one had really seen it!

Now, Han Fei's words made them speechless. As Half-Kings, they couldn't even see his shadow?

They had scanned around with their perceptions many times, but there was clearly nothing!

Lu You didn't ask anymore.

They could feel where Han Fei was, but they could only feel nothingness, where there was vague Chaotic Qi surging.

If they really attacked him, the Chaotic Qi should be used to blow himself up.

Lu You couldn't help but say, "Anyway, since you're here, I don't mind you choosing a few great techniques. Let's talk after you finish exploring the sea of books!"

"Huh?"

Han Fei was stunned. Are you kidding me? I'm here to steal books, but you blocked me here. Not only did you not chase me away, but you also allowed me to explore the sea of books? What kind of logic is that?

Needless to say, this was clearly a trap!

Han Fei said, "You're not waiting for me to explore the Sea of Books, are you? You'd better tell me in advance. Otherwise, I really dare not explore the Sea of Books."

Lu You said, "I'll tell you after you explore the sea of books."

Han Fei: "..."

In the outside world.

Han Fei's white-mist body was measuring his luck with the Nine Palace Luck Ruler.

Lu You and the others' behavior puzzled Han Fei. After all, he was here to steal, but the owner was waiting for him to steal? And he even encouraged him to steal... If there was nothing wrong with it, Han Fei could pull his head off and kick it like a ball.

However, when Han Fei tested his luck, he found that the result was "Auspicious". Although it wasn't "Greatly Auspicious", it meant that something good would happen!

"Can I really explore it? Are the masters of these Heavenly Palaces really so friendly?"

However, the Nine Palace Luck Ruler wouldn't lie. If even an auspicious divination result appeared, why didn't he explore it?

In the Scripture Repository Tower, Han Fei smiled. "Since you don't mind, let me try."

Lu You smiled. "You can explore it nine times."

"Huh?"

Song Kaiyuan and Mushui Sisi looked at Lu You at the same time, thinking to themselves, This is unfair, isn't it? Every time we are allowed to explore the Sea of Books, we are only allowed three times. Why does this guy have nine chances?

Before Song Kaiyuan and the others could come out of their shock, Lu You said, "However, you have to be careful. Anyone who explores in the Scripture Repository Tower only has nine chances in their life. After using them up, it's impossible to find any more books here."

Song Kaiyuan thought to himself, After all, this person is the current Heavenly Master of the Yin-Yang World. Perhaps his status is higher than ours. Therefore, I can understand.

After a slight surprise, Song Kaiyuan and the others raised their heads.

Few people were qualified to come to the Scripture Repository Tower to explore the sea of books.

Han Fei could be said to be the strongest and most important person to explore the Sea of Books. What book would he find?

Lu You said, "You need to release your soul and blood to illuminate the sea of books and then explore the books with a fish hook. Have a try."

His twin bodies were telepathic.

Although Han Fei didn't know what Lu You and the others were up to, he wasn't worried. They had clearly asked him to investigate. If he didn't even dare to do this, wouldn't he seem too petty?

Buzz!

Han Fei didn't conceal his actions. In the blink of an eye, he appeared at the top of the Scripture Repository Tower, at the bottom of the sea of books.

At the bottom of the sea of books, there was a circular wooden platform for people to stand on.

Han Fei was standing on it, holding a fishing pole. In the sea of books, his divine might shone and instantly shot into the galaxy.

Han Fei switched his Great Dao to his own Great Dao, the Great Dao of Heaven Enlightenment, and the path of invincibility.

Swish! Swish! Swish!

Although Mushui Sisi and the others couldn't see Han Fei, they could see the fishing pole in the air and the soaring blood and Qi, so they knew that there was someone here.

Suddenly, Mushui Sisi said via voice transmission, "Look, there are more stars in the Sea of Books."

Needless to say, everyone saw that in the starry sky of the sea of books, the shining stars became more and more dense.

However, the stars were different in brightness, as if the stars were trying to outshine each other.

However, the white-clothed junior uncle said, "It's not necessarily a good thing to have more stars in the Sea of Books. If you have too many choices, you won't know how to choose."

At this moment, countless summons suddenly appeared in Han Fei's heart. Han Fei looked over and could see at least hundreds of shining stars trying to establish a connection with him.

Han Fei's lips twitched. F*ck, how should I choose? They all feel good!

Originally, Han Fei was here to find a body tempering technique.

However, when he was in the Snow God's Temple, he had already deduced a wave of body tempering techniques. Although they might not be the strongest, they were very likely the strongest in the Raging Sea.

After all, the Purity Mystic Body was one of the top body tempering techniques in the entire Sea Establishment Realm. Of course, he had to find it, but the number of times was limited, so he should find some other book first.

Han Fei looked at the stars and thought that he had to use the Vast Ocean Navigator.

Immediately afterward, in Han Fei's body, where it was covered by the black mist, the Vast Ocean Navigator began to spin.

Han Fei's first choice was naturally the eighth level of Void Fishing. Whether its name was Void Fishing or True Spirit Fishing, the Vast Ocean Navigator knew what he should choose.

The Vast Ocean Navigator began to spin, which meant that there was something he needed here.

Under the gaze of Song Kaiyuan and the others, after quite a while, Han Fei suddenly threw the hook at a shining star near the center of the tower.

Buzz!

In the next moment, Han Fei saw an ancient fish skin book emerge from the void, on which the words "Void Fishing Level Eight" were written.

Han Fei was stunned. He didn't expect that he would catch Void Fishing instead of True Spirit Fishing, which saved him the process to deduce it.

“Huh?”

Shang Long was puzzled. “Why haven’t I heard of this technique?”

Sword God Liu Qing: “The Dao runes in this book seem to be from the Monarch Palace, right?”

Liuli: “I’ve never heard of it. Lu You, this is your world’s book. You should know it, right?”

Lu You shrugged and sneered. “The tower is not my tower. I’ve never heard of this technique. However, I remember something.”

Everyone looked at him, and Lu You said, “Among the human cultivation techniques in the entire Raging Sea, there is a technique with only seven levels. Don’t you know it?”

Liu Li asked, “Are you talking about the True Spirit Fishing Art? That technique is just ordinary, right?”

Lu You shook his head. “Although its quality is average, it’s very rare because it covers all realms from the lowest level to the Sea Establishment Realm. Besides, I’ve never heard that it has the eighth level...”

Everyone was silent. Lu You knew more about techniques and combat skills than them. If Lu You’s first thought was the True Spirit Fishing Art, perhaps there was indeed a connection between the two.

Han Fei was shocked. Even if this was the only gain he got today, it was worth it. At least, it meant that there was still a way to go after Void Fishing.

Originally, the seventh level of Void Fishing, Void Descending, was already extremely terrifying. This was different from the projections of ordinary kings. It was said that the Void Fishing could make the projections cross thousands of kilometers.

However, in Han Fei’s opinion, this ability was not as good as the Void Lines and the Sky Stealing Technique. When the two were combined, it was perfect.

Void Descending had no effect for the time being except that it could give him some clones and allow him to fight many people alone.

Now that he had obtained the eighth level of Void Fishing, Han Fei immediately stuffed it into Forge the Universe. Even in the black-mist state, Han Fei’s use of Forge the Universe wouldn’t be hindered.

Han Fei smiled secretly. Anyway, these people couldn’t see his expression. They only knew that he was the master of the Yin-Yang World, but how could they know that he had a treasure like the Demon Purification Pot?

However, when the Void Fishing Technique was activated, the stars in the Sea of Books became even more dense. The stars were so densely packed that there was almost no distance between them.

While Lu You and the others were shocked, Han Fei’s Vast Ocean Navigator began to spin again.

This time, Han Fei wanted to find the strongest body tempering technique here.

From the beginning, Han Fei’s goal was to find a body tempering technique. Although he had already deduced the Purity Mystic Body, he had already come to the Scripture Repository Tower, why not find it!

Swish ~

When a magical book shining with dazzling golden light appeared, Han Fei saw the body-refining technique named Chaotic Demon Body.

Below, the master of the Immeasurability World said in shock, "Isn't this the Chaotic Demon Body of... Tai Yuan of the Chaos World? Your academy even has such a body-refining technique?"

Lu You shrugged. "How would I know? He can get the Chaotic Demon Body, which means that his physique refining talent is at least comparable to Old Tai Yuan."

Chapter 1817: Former Alliance

After Han Fei took the Chaotic Demon Body, he threw it into Forge the Universe without looking at it.

After taking the strongest body tempering technique in the Raging Sea, now Han Fei wanted to choose the technique most suitable for him.

There were countless techniques, but suitability was the most important.

Because the number of times was limited, Han Fei wouldn't use all the times to get body tempering techniques and then fuse them.

Therefore, when the Vast Ocean Navigator began to spin for the third time, it pointed at the technique most suitable for him. Han Fei didn't specify a certain category.

When the marker stopped, the fish hook was cast out. What was pulled out of the sea of books was a book called the Yin-Yang Reincarnation Saber.

As soon as this technique came out, rays of light swam in the sea of books and all stars glittered.

Lu You, Liu Li, and the others looked at each other and nodded slightly. They seemed to have some judgment about something.

Since then, Han Fei had used up the times to use the Vast Ocean Navigator today.

He looked at the great technique that almost dazzled his eyes and didn't know what to do.

Han Fei couldn't help but sigh. Without the Vast Ocean Navigator, he didn't know what to do. Although Lu You wanted to give him nine choices, could he fish blindly?

This time, his experience in the Scripture Repository Tower was completely different from what he expected. Han Fei didn't find a massive number of body-refining techniques, but he obtained the eighth level of Void Fishing.

This book alone was better than thousands of books.

This book decided that he could continue his current path.

After taking the three techniques, Han Fei put away his fishing pole and dispersed his blood Qi.

The starlight in the sea of books slowly faded away the moment Han Fei's aura subsided. In the end, it returned to its original appearance.

Han Fei said, "Nine times is too many. I think I'll probably have more interactions with the Supreme Mystic World in the future, so I might as well leave it for the future. Now, can you tell me why you want me to explore the Sea of Books first?"

Shang Long of the Immeasurability World sneered. "Boy, let me tell you something. The fact that you can appear here means that you inherited the luck of Yin-Yang, Water-Wood, and Nine Palaces. Your luck triggered the Book Sea, proving that you are a person with great luck. The Thirty-Six Mystic Worlds have been trapped in the Raging Sea for too long. If the Yin-Yang World appears in the Raging Sea again, how can it not have the help of allies?"

Sword God Liu Qing said indifferently, "We don't have any ill intentions, but your appearance means that there will be a change in this era. Our four heavenly palaces are different from Supreme Clearness, Infinity and the others. We are waiting for a change."

Han Fei was lost for words. "How did you know it was me?"

Lu You smiled. "Luck. Since you had the compass that left the Raging Sea, your fate was destined to be different."

This time, even Song Kaiyuan was confused. The kings set up this trap just for this?

As smart as Song Kaiyuan, he naturally knew of the existence of the Monarch Palace, in a way, limited human exploration of the outside world.

However, the depths of the Imperial Palace were too dangerous. Even kings would die there. But now with Han Fei, there was hope of leaving the Raging Sea?

In any case, this was great news for the four palaces.

However, after a moment of silence, Han Fei said, "Seniors, if you want to leave the Raging Sea... even if I have a way to leave the Raging Sea, how do you know that I'm willing to leave?"

Liuli said, "You're only a Half-King now, but you can tie with Feng Xinlan. This means that it shouldn't be that difficult for you to become a king. Do you also want to be sealed in this world by the Monarch Palace forever?"

Han Fei said with a smile, "You've explored the Monarch Palace for eighty thousand years. If I want to leave, I'll definitely have to explore the Monarch Palace first. But if you expect me to take you away, you should pay me more than a few books!"

Lu You said with a smile, "It's too early to say whether to go or not, but this doesn't prevent us from establishing a certain alliance first. At least, you owe the Glazed Glass World a favor, and now you've got three great techniques from our Supreme Mystic World. Since you're already prepared to take revenge on the Supreme Clearness, Infinity, and the other Heavenly Palaces, you don't want to make enemies of us too, right? Therefore, why don't we establish an alliance today?"

Han Fei thought for a moment and smiled. "I have no objection. However, I'm curious why they are all here."

Logically speaking, he could just talk with the masters of the Heavenly Palaces about these things. Why were Song Kaiyuan and the others all here? And they had been here since the beginning.

At this moment, Liuli interrupted, "It's not so easy to return the favor of the Glazed Glass World. There's something wrong with the Feng family about Yin'er, but you've killed the people of the Feng family and fought Feng Xinlan. You've only cleared part of the debt. As for the other part, you should take the two people from our Glazed Glass World with you."

Lu You said, "After all, you got three great techniques from the Scripture Repository Tower... I heard that your Avenger Pirates lack people. My disciples, Song Kaiyuan and Mushui Sisi, are very knowledgeable. There's almost nothing in the Raging Sea that they don't know. It might be beneficial for you to take them with you."

Sword God Liu Qing: "We four heavenly palaces are four in one. If you form an alliance with us, there will be five in one... My disciple is unparalleled in swordsmanship."

Shang Long of the Immeasurability World: "I agree with Liu Qing that we are five in one. So if you agree to take their disciples, you should take mine too."

With that, Shang Long patted Li Kaitian's shoulder and made him stagger. "Now follow Han Fei to the Avenger and be a pirate!"

"Uh ~"

Li Kaitian was dumbfounded. So, they want us to be pirates?

Let alone Li Kaitian, Han Fei was dumbfounded too. What's going on? Has the trust between us reached the point where I can even help you take care of your disciples?

Han Fei thought to himself, Do I look so free? I have a lot of things to do. I'm not a nanny. Why should I help you take care of your disciples?!

Han Fei immediately refused. "Heh! I'm not afraid of keeping them, but do they dare to follow me back to the Yin-Yang World? I just want to say that their chances of survival are extremely small if they go to the Yin-Yang World."

Han Fei was not kidding.

When he left the Yin-Yang World, if the old turtle hadn't helped him suppress the huge amount of energy, he might have died.

It was not easy to leave the Yin-Yang World, but it was easy to enter it?

If it were easy, the Wild Abyss would have long been trampled flat.

Lu You smiled and said, "Don't worry. They won't go to the Yin-Yang World with you. Anyway, there aren't many people on your Avenger. Just let them borrow your name and show up a few times. This time, we just want you to take them to the Martial Emperor City."

Han Fei's heart did a flip. "Why should I go to the Martial Emperor City?"

Lu You said, "I can give you a reason why you have to go. The Martial Emperor City is not only the place with the most information and resources in the entire Raging Sea. In the Martial Emperor City, there is also a holy land called the Martial Emperor's inheritance. Legend has it that it is a trial for monarchs.

Although the trial is extremely dangerous, the gains will be extremely abundant. You haven't reached the Sea Establishment Realm yet. Why don't you take a look?"

Song Kaiyuan and the others were surprised. "The Martial Emperor's inheritance is opening?"

Shang Long said leisurely, "After the trial in the Land of King Death, the Martial Emperor's inheritance was suddenly announced to be opened. All the Heavenly Talents are heading there."

Han Fei's heart did a flip. Was that true? He didn't know the real situation.

However, Lu You continued, "It doesn't matter if others go or not. However, this opportunity should be irresistible to you, because there is also a bronze door there."

Buzz!

Han Fei was refreshed. A bronze door?

"Hiss!"

Han Fei immediately realized something. The Martial Emperor's inheritance was opened behind the Land of King Death, and there was also a bronze door? Wasn't it guiding him to complete the trial test of the Void Temple?

Thinking of the wine gourd godly weapon that he accidentally got from the bronze door... Han Fei felt that he had to explore the Martial Emperor's inheritance!

Han Fei was deliberately silent for a moment before he said, "Okay! I agree."

Sword God Liu Qing said, "The place outside the Martial Emperor City is very dangerous. It's the most chaotic place in the Raging Sea. Be careful not to be hunted."

Han Fei grinned. "I'm looking forward to someone hunting me. When will the invincible inheritance be activated?"

Lu You said, "In three months, it will be open for a month. The opening time of the Martial Emperor's inheritance has never been fixed. It's all up to the Martial Emperor City. Therefore, it's best to wait there in advance."

Han Fei asked, "How long will it take to go to the Martial Emperor City?"

Lu You said, "Every Heavenly Palace has an independent route. You can arrive there in about 20 days."

Han Fei thought for a moment. "The Avenger will appear in the Supreme Mystic World in two months. They can come when they hear the news."

Lu You said, "Okay! By the way, do you still want to explore the Sea of Books?"

Han Fei said, "No, let me explore it another day."

Han Fei thought to himself, Now I have already got three books I need, which is enough. Most importantly, I don't know what else to look for...

Instead of looking for body tempering techniques here, he might as well go to the Martial Emperor City to register for a mission. As long as he had enough money, he could collect all kinds of great techniques. Anyway, he had more than nine thousand ultra-quality divine weapons.

Buzz!

Han Fei had nothing to talk about. He fused his twin bodies and quietly disappeared.

After Han Fei left, Shang Long said, "Old Lu! Can this kid do it? He's just lucky. Does the fate of our Thirty-Six Mystic Worlds really depend on him?"

Lu You said leisurely, "Otherwise, can you leave the Raging Sea? In that case, I'll bet on you too."

Chapter 1818: A Mouthful of Wine, A Sleep of Eighteen Days

Half a day later.

In a place called Tomorrow Town in the Supreme Mystic World, Han Fei and Xia Xiaochan were shopping with Yin'er and Nian'er.

At this moment, among the four of them, Han Fei was the strongest, showing the strength of a junior law enforcer. The other three were all weaklings.

Han Fei held a few fish balls in his hand and handed one to each of the three women. "No matter where it is, these fish balls taste the same. I wonder if these are ancestral fish balls."

Xia Xiaochan was lost for words. "Cut the crap! Are we really going to the Martial Emperor City with the people from the Supreme Mystic World in two months?"

Han Fei nodded. "It doesn't matter! These worlds should be fine. If there's a problem, I'll test my luck."

Xia Xiaochan said, "I heard of the Martial Emperor's inheritance in the Martial Emperor City. It's said to be extremely difficult to obtain! However, I never saw any information about the bronze door in the historical records. But it's said that the Martial Emperor's inheritance is divided into levels and some people died to obtain it. The higher level one chooses, the higher the chance of death. But I don't know what it is exactly."

Han Fei smiled and said, "Then let's go take a look. Isn't the Martial Emperor City said to be absolutely safe? Even if Chun Huangdian knows that you are here, can he go to the Martial Emperor City to catch you?"

Xia Xiaochan smiled. "No, the Martial Emperor City won't let him do that. Once they do, the credibility of the Martial Emperor City will collapse. However, if Chun Huangdian blocks our way, I'm afraid it will be difficult for us to leave."

Han Fei said with a smile, "Chun Huangdian is only a king after all. Even if he has become an emperor, so what? The Martial Emperor City is so big. I don't believe he can find me no matter where I go."

Xia Xiaochan asked, "What if he's waiting for us in the Wild Abyss?"

Han Fei said, "There is no if... He can only wait for us in the Wild Abyss. This is why I'm going to the Martial Emperor City. I might not be able to beat him now, but in terms of causing trouble, I'm not afraid of anyone."

Xia Xiaochan tilted her head and looked at Han Fei, thinking, "Just don't cause any trouble in the Martial Emperor City. Otherwise, it won't be fun if they drive us away."

Behind Han Fei and Xia Xiaochan, Yin'er and Nian'er were walking and eating happily.

Perhaps affected by Nian'er's gluttonous behaviors, Yin'er was chewing a bag of crisps when she walked.

After shopping, Han Fei didn't send Yin'er and Nian'er back to the Sea Quelling Painting. Instead, he sealed the power of Yin'er's Heavenly Heritage and let the old turtle's soul and Xiao Se follow the two of them. Then they stayed in Tomorrow Town.

After listening to Han Fei's spiritual energy disassembling course, Xia Xiaochan and the Hexagon Starfish fell into a cultivation state.

It was a pity that Han Fei couldn't take Xia Xiaochan and the big starfish into Forge the Universe together. Otherwise, he wouldn't have let them cultivate in the Sea Quelling Painting.

As for Han Fei, he came to Forge the Universe alone and looked at the few great techniques he had just obtained.

Because the Void Fishing Technique was no longer the True Spirit Fishing Technique, Han Fei couldn't use the deduction of the True Spirit Fishing Technique to cause lightning to temper his body.

The eighth level of Void Fishing was called Time Fishing.

However, when Han Fei opened the book, he found that there was no word on it. If his eyes fell on the book, he would slowly see blue.

This book actually had the power of time.

Han Fei tried to extract the power of time from the book several times, but he failed as if it were a heavenly book.

The Void Descending Technique he was practicing now was a Sea Establishment realm technique. He was already learning it before he reached the Sea Establishment realm.

The Time Fishing Art should be a technique that could only be learned in the Sky Opening realm. Even if he wanted to learn it early, it would probably be after he reached the Sea Establishment realm.

Han Fei wasn't in a hurry. Anyway, he had plenty of time.

When he looked at the other book, information popped up in Han Fei's eyes.

Chaotic Demon Body (Ultra-quality, Sea Establishment Realm)

Introduction: Chaotic Demon Body, a great technique that uses Chaotic Qi to disassemble and assemble the body. This technique uses the void oscillation to reassemble the body repeatedly. When cultivating this technique, one should have a tenacious will and a tough Dao heart. Once the technique is mastered,

the body can withstand the void storm. Even if the body is shattered, all body parts can fight separately or reassemble, and the strength will not decrease at all. This technique ranks 11,668th among the body tempering techniques in the Sea Establishment Realm.

Deduced Art: Chaotic Body

Deduction Cost: 1,000 wisps of Chaotic Qi

Effect: If there is no interference, the body can be reassembled infinitely, and the strength won't decrease.

Shortcoming: Soul power.

When Han Fei saw the 11,668th place in the Sea Establishment Realm, he was no longer interested. This was the strongest body tempering technique in the Raging Sea?! Ranked more than 10,000? Aren't you ashamed? I can easily deduce a technique ranking 998th!

"I've suffered a huge loss this time. If I had known that the strongest body tempering technique here was only ranked in the top ten thousand, why didn't I synthesize it myself?"

Besides, this Chaotic Demon Body couldn't be cultivated in any realm. It was inferior to his Purity Mystic Body.

In comparison, Han Fei felt that the Purity Mystic Body was simply awesome.

More importantly, it wasn't tiring or painful to cultivate. Its only shortcoming was that the utilization rate of resources was too low. In Ten billion points of spiritual energy, only a hundred million could reach the level needed for the Purity Mystic Body.

Han Fei threw the Chaotic Demon Body aside and picked up another book.

A moment later, information popped up in his eyes.

Yin-Yang Reincarnation Saber (Unrated)

Introduction: To cultivate this technique, you have to master the Great Dao of Yin and Yang. The Yin-Yang Reincarnation Saber contains the Pure Yang Saber and the Grand Yin Soul Saber. Once a saber is destroyed, the other will be reincarnated. The two sabers have to repeat this cycle nine times before they can be truly destroyed. Once this technique is mastered, it will be impossible for the enemy to defend against it.

Deduction: It can't be deduced. You can only comprehend it yourself.

Effect: The deeper one's understanding of the Yin-Yang Great Dao, the more saber reincarnation times.

Shortcoming: If you use this technique too often, you will inevitably have some guesses about reincarnation and easily get a heart demon.

Remarks: This technique requires two treasured sabers.

After reading the information of the Yin-Yang Reincarnation Saber, Han Fei's eyes widened. This was simply a peerless combat skill specially made for him.

It could both attack the body and the soul. If he didn't understand it wrong, it meant that he only needed to make one slash to make 18 slashes?

Gulp!

Han Fei couldn't help but grin. Compared to the Chaotic Demon Body just now, this Yin-Yang Reincarnation Saber was simply a divine technique.

After thinking about it, Han Fei felt that this Yin-Yang Reincarnation Saber was no worse than the Sky Splitting Sword Manual he got in the Supreme Clearness World. Of course, if the Sky Splitting Sword Manual could become the Sky Splitting Saber Manual, he wouldn't mind.

Han Fei's first thought was to use the Blade of Hope as the two treasure knives. But on second thought, he decided to keep the Blade of Hope a secret.

There were still two months before they left for the Martial Emperor City.

This time was neither long nor short.

In Forge the Universe, it would be more than five years.

Han Fei certainly wouldn't waste such a long time.

Han Fei extended his hand, and the magical wine gourd that had been put aside flew into his hand.

Han Fei grinned. "I'd like to see how special the wine in this magical gourd is."

Buzz!

With the previous experience, this time, Han Fei activated his Great Dao. His strength increased more than three times before he opened the gourd.

"Bo ~"

Han Fei almost lost his balance and threw the gourd away.

Han Fei's face turned green. He had to use 50% of his strength to pull the cork out.

This meant that those who uncorked the calabash were at least in the Sea Establishment Realm.

Han Fei was really speechless. It was so difficult to even pull out the plug? Then how long would it take to completely refine this calabash godly weapon?

However, the moment the plug was removed, Han Fei immediately smelled the fragrance of wine. A faint red mist spread out of the calabash.

Han Fei couldn't help but remember that the mist in front of the bronze door must be this smell of alcohol.

Han Fei hurriedly sat on his Ice Snow Lotus Throne and raised the calabash, thinking, I won't drink much. I'll just take a small sip the first time.

However, maybe because it was the first time Han Fei used a godly weapon, after this sip, his mouth was full, and his tongue was numb.

Han Fei subconsciously opened his mouth. This time, half a catty was poured in!

“F*ck, I’m doomed...”

Han Fei quickly stuffed the plug in. In less than three seconds, strange energy surged in his body. There seemed to be a waterfall in his head, and he felt the world was spinning.

Han Fei thought, No! I can’t sleep! Immediately, the Power of Will in his body surged out.

With the Power of Will, Han Fei finally stabilized himself although his face had turned all red.

The old turtle asked, “Why don’t you give me a sip too?”

However, Han Fei was probably too drunk to hear anything. Thunder rumbled in his head.

Han Fei felt that he was spinning, and a tremendous amount of energy rushed into his body.

In fact, the old turtle was dumbfounded. Han Fei’s body was spewing out a large amount of red liquor mist. It was not energy, but an epiphany that could clear his mind.

However, Han Fei might have drunk too much and his mind was not clear at all. Han Fei felt that there was a river in his body flowing backward, but he felt that it was not enough. His body could still bear more.

Therefore, in Forge the Universe, a large number of ultra-quality spiritual stones shattered.

Half of the energy released by the old turtle was absorbed at this moment.

Only after more than ten days did the alcohol mist in Han Fei’s body dissipate.

At this time, Han Fei finally woke up.

Han Fei didn’t return to normal until the 18th day.

However, when Han Fei looked at the information, he was surprised to find that his soul power had increased by more than 1,200 points and his strength by 302 waves in only 18 days.

A sip of wine?

Han Fei was dumbfounded. What kind of cultivation speed was this? Although he had the power of faith, wasn’t this cultivation speed too fast? At this rate, how strong would he be in five years?

Chapter 1819: New Members of the Avenger

Han Fei didn’t know if the wine in the calabash was a hundred-year-old wine or a thousand-year-old wine. However, it couldn’t be ten or ten thousand years old.

Ten thousand years was too long. With his relationship with that senior brother, there was no need for him to give him ten thousand-year-old wine the moment they met, right? And between the Hundred-Year Dao Querying Wine and the Thousand-Year Heavenly Dao Wine, Han Fei felt that it should be a hundred-year-old wine.

Unfortunately, he couldn't make the calabash acknowledge him as its master, nor could he feel how much wine was in the calabash. He didn't know when he could make the calabash acknowledge him as its master...

In Forge the Universe.

Half a year later, Han Fei's Power of Will was exhausted. During this period of time, Han Fei quickly strengthened his strength to 34,652 waves. Without the Power of Will, Han Fei needed to cultivate the Purity Mystic Body.

He also had to give lectures to the old turtle, Xia Xiaochan, and Yin'er. Occasionally, he would go out to tour Tomorrow Town with them. These days were quite comfortable.

In Forge the Universe, three years later.

Han Fei discovered that there was a bottleneck in his cultivation state. Or rather, the resistance to cultivation had become greater.

When Han Fei took a closer look, information popped up in his eyes.

Owner: Han Fei

Level: 89 (Half-King)

Bloodline Ranking among the Clans in the Infinite Ocean: the 2,720,986th

Chaotic Qi: 2,276 wisps

Spiritual Power: 323,401

Perception range: 220,000 kilometers

Strength: 38,763 Waves

First Spiritual Heritage: Unknown

Second Spiritual Heritage: Unknown

First spiritual beast: Twin Yin-Yang Spirit Swallowing Fish (Level 79)

Second spiritual beast: Emperor Sparrow (level 78)

Main Art: The Seventh Level of Void Fishing, Void Descending Art (King Level, Divine Quality)

...

At this moment, when this resistance appeared, Han Fei realized that with his current life level and bloodline level, it was extremely difficult for him to break through 40,000 waves in the Half-King realm!

Even though he had already forged the Indestructible Golden Body, without going through the king tribulation, the strength of the Indestructible Golden Body seemed to be approaching the upper limit.

If he wanted to make another breakthrough, transcending the tribulation might be the only way.

"Huff~"

Han Fei smiled casually. He had gained a lot from this trip.

If he could return to the Yin-Yang World and successfully transcend the tribulation, as Lu You and the others said, it was possible for the Yin-Yang World to return to the Raging Sea. After all, after he reached the king realm, he wouldn't be afraid of anyone in the Raging Sea.

At this moment, in addition to the improvement of Han Fei's strength, the Emperor Sparrow had also improved by one level. Han Fei was already used to its growth speed. After all, it was an Emperor Sparrow.

However, Han Fei was a little uncertain. The information about his spiritual heritage had always been unknown. Now, he was already a Half-King. Why was it still unknown?

Han Fei couldn't help but think that he would have to check... if there were other little vines in the Raging Sea? The sooner he collected all the little vines of the Demon Purification Pot, the stronger the Demon Purification Pot would be.

...

Two months passed.

On the Avenger, Xia Xiaochan, Yin'er, Nian'er, and Xiao Se were all there.

The old turtle slept and cultivated habitually.

Since he had his own body, his desire to come out was not high. Therefore, he was still cultivating in Han Fei's Forge the Universe.

Han Fei sighed. Resources were consumed too quickly.

He had nearly 7 million ultra-quality spiritual stones.

However, from the looks of it, because of the cultivation of the Purity Mystic Body, ultra-quality spiritual stones were consumed extremely quickly. At this moment, there were only more than 4.2 million left.

This was the drawback of the Purity Mystic Body!

The efficiency of an ultra-quality spiritual stone was only one percent. This caused the spiritual energy in Forge the Universe to be so rich that it almost exploded.

Fortunately, the old turtle had been cultivating and expanding Forge the Universe. Otherwise, Han Fei wouldn't know how to use spiritual energy.

Forge the Universe had expanded to 5,000 kilometers.

Although the consumption of expansion had been increasing, the spiritual energy overflowing from his cultivation had also been increasing.

Therefore, Han Fei's intuition was that resources were used too quickly!

Fortunately, Xia Xiaochan still had ten million ultra-quality spiritual stones. Otherwise, Han Fei would have to rob some Heavenly Talents.

On this day.

In the outer sea of the Supreme Mystic World, Han Fei held two black kitchen knives in his hands. Since he learned the Draw Technique, he rarely used real knives. He always used whatever he wanted as if everything could be used.

But at this moment, Han Fei used the kitchen knife again, naturally to practice the Yin-Yang Reincarnation Saber.

Swish ~

Han Fei raised his hand, and a saber shadow shot out.

In addition to this shining saber shadow, there was also... a strange saber mark that seemed to be blooming in the void. Of course, it could also be discovered in the void, which was much weaker than the black-mist body.

Han Fei's opponent was a purple shield wall.

Yes, in order to supervise Master Hexagon's cultivation, Han Fei directly used him as a shield.

With a clang, the six-gate array shook three times before it blocked Han Fei's attack.

However, as soon as this slash was blocked by the six-gate array, an identical saber beam stabbed at the void. At the same angle and with the same power, it continued to slash at the six-gate array.

In addition to the Pure Yang Blade, there was also an invisible extreme Yin blade that shattered outside the six-gate array.

"Help ~"

The Hexagon Starfish shouted, "Xia Xiaochan, help! Han Fei is going to kill the starfish. The array is about to be broken..."

However, on the deck, Xia Xiaochan was holding a green wooden date or some fruit... She took a bite and ate it with relish.

She said, "Come on, big starfish, you can do it."

Nian'er shouted, "Starfish, you can do it!"

Yin'er tilted her head and looked at Nian'er. "Nian'er, is this really appropriate? The starfish has asked for help..."

Seeing that Yin'er was sympathetic with Master Hexagon, Xia Xiaochan immediately said, "His skin is rough and his flesh is thick. When he shouts for help, it means that he had only suffered an ordinary blow. If he really needed help, he wouldn't have shouted this..."

Yin'er was puzzled. "Then what will he shout?"

On the deck, the two had just spoken a few words.

The Pure Yang Blade had appeared six times, so had the Ultimate Yin Blade. The explosion outside the six-gate array was already the sixth time.

Ka ka ka ~

More and more cracks appeared on the six-gate array.

Seeing that even the six-gate array might not be able to withstand it, the starfish shouted, "Damn it, I can't hold on anymore..."

Seeing this scene, Xia Xiaochan immediately looked at Yin'er and said, "Look, this is what he will say when he really feels danger."

Crack ~ Bang ~

When Master Hexagon's six-gate array was completely shattered, Han Fei reached out and grabbed, and the remaining power of Yin-Yang Reincarnation dissipated.

Han Fei frowned and said, "Master Hexagon, your current strength is too weak. You can't even withstand a single slash from me in the same realm. What kind of mysterious creature are you? You're smearing the name of mysterious creatures. Do you know that?"

The Hexagon Starfish was lost for words. "That's called one slash? You slashed me twelve times in total, six times to break the array, and six times to kill my soul. Who is as ferocious as you?"

However, Han Fei was still not satisfied.

This Yin-Yang Reincarnation Saber was really strong, but he hadn't used it for long.

From the annihilation of one slash to the reappearance of another, there was a long interval of nearly one second. This was because he wasn't proficient in it.

Han Fei shook his head slightly. "Okay, let's fight again. This time, I'll use the strength of an intermediate peak-level Venerable to use this knife. Try it..."

Hearing that, the Hexagon Starfish flew far away with a swish and immediately shouted, "I'm going to make a breakthrough! I've been struck by you for several days... Today, I feel that the opportunity has come. I'm going to make a breakthrough."

Han Fei said disdainfully, "It's not a realm breakthrough. It's just a small breakthrough. Let's continue after the breakthrough."

A moment later, when the Hexagon Starfish made a breakthrough, Xia Xiaochan said, "Should we set off?"

Han Fei thought for a moment and nodded slightly. "Two months have passed. It's time to go to the Martial Emperor City."

...

Half a day later.

When a big ship with a skeleton pirate ship appeared outside the Supreme Mystic World, it only took less than fifteen minutes for Song Kaiyuan and the others to arrive.

They had been waiting for two months.

Now, they were very curious about the Avenger Pirates, especially Mu Xi, who felt extremely complicated. Was this person really Xue Zhan?

When everyone approached the Avenger.

Song Kaiyuan cupped his hands at the ship and said, "Heavenly Master, we're here."

A leisurely voice came from the ship, "Come on board! By the way, my name is Han Fei. Call me Captain from now on. Remember not to call me the wrong way. There are no Heavenly Masters here."

Song Kaiyuan immediately cupped his hands. "Understood!"

"Um!"

Han Fei said leisurely, "There's a great technique on the deck. Learn it first."

Confused, everyone boarded the Avenger.

When Song Kaiyuan obtained this great technique, he couldn't help but gasp. "Divine Deceit Technique... A divine-quality concealment technique?"

Song Kaiyuan was stunned. F*ck, a super technique that couldn't be found even in the Scripture Repository Tower was thrown out so casually?

Han Fei said, "This technique is only used by members of the Avenger Pirates. Once it's leaked and I find out, I'll kill you. Besides, once you choose to cultivate this technique, each of you will owe me a million ultra-quality spiritual stones as the learning cost of this technique."

"Hiss ~"

Everyone gasped. We've just boarded the ship and haven't even seen you, but we already owe you a million ultra-quality spiritual stones?

Song Kaiyuan was speechless. As expected of the Black and White Ghosts... Their style hadn't changed at all!

Chapter 1820: Dangerous Route

The sphere of influence of the Supreme Mystic World was very likely under the control of the kings.

Han Fei was alone and unfamiliar with the place, so he had to be careful.

After they boarded the ship, they didn't find anyone on the ship. However, after they boarded the ship, the ship automatically activated Void Teleportation.

Buzz!

When they crossed hundreds of thousands of kilometers, Song Kaiyuan and the others were speechless. Mushui Sisi said, "Isn't this the route of our Supreme Mystic World? Someone actually opened a new route near our Supreme Mystic World?"

Song Kaiyuan said indifferently, "This is not surprising. Although the routes of our four Heavenly Palaces are relatively hidden, it's not to the point where we can't find them."

Although Han Fei and Lu You had an agreement on the surface, as long as he didn't become a king, he couldn't compare to the masters of these Heavenly Palaces.

Therefore, before he became a king, Han Fei would never be exposed to other people's spheres of influence.

As for this route, it was left to him by Black Phoenix. However, the route left by Black Phoenix turned into the route of the Devil Girl Pirates and eventually led to the Martial Emperor City.

At this moment, Han Fei didn't want to have anything to do with the Devil Girl Pirates, nor did he want more people to realize his relationship with the Devil Girl Pirates...

Therefore, Han Fei planned to use one of the abandoned routes on this route map. This was a route that had been silent for a long time.

This route had been abandoned for too long. Even Black Phoenix only took shortcuts on this route occasionally and rarely walked the route in its entirety.

In fact, this route originally belonged to the Nine Palace World. The first half of the route had disappeared, but the second half was still there.

Back then, although the Yin-Yang World and the Water-Wood World were moved out of the Raging Sea, the Nine Palace World was still there. The Nine Palace World didn't enter a sealed state from the beginning, but was gradually targeted and forced to enter a sealed state.

Because of this, many villages and towns in the Nine Palace World had disappeared, and the population had plummeted.

The Nine Palace World had once tried resisting, but they were desperately outnumbered. In the end, they almost disappeared. However, their route was preserved.

As the Nine Palace World disappeared, the route was gradually abandoned. The Black Phoenix knew a lot about the Nine Palace World, and she even knew part of the route of the Yin-Yang World. However, there seemed to be a problem with the route of the Yin-Yang World and it was completely abandoned.

Two hours passed.

Before Song Kaiyuan and the others saw Han Fei, they felt that something was wrong. Suddenly, with a buzz, two figures appeared on the mast.

Everyone was very surprised by Han Fei's appearance. They were all in the Half-King realm. Why were the two of them so outstanding?

The two people who appeared on the mast were Han Fei and Xia Xiaochan.

Han Fei smiled and said lazily, "Welcome to the Avenger Pirates. May I ask... Do you like this gift?"

Of course, everyone knew what Han Fei was talking about... Apart from the Venerable-level, divine-quality disguise technique, Divine Deceit Technique, what else could it be?

Li Kaitian said, "Captain, this thing is good, but isn't it a little too expensive?"

Among the people on this trip, Li Kaitian was the most straightforward. Even Mu Xi was smarter than him.

Han Fei's face immediately sank. "You think it's expensive? It's just a million ultra-quality spiritual stones. You can only buy twenty or thirty ultra-quality divine weapons with this money. But now what did you get? A divine-quality technique! How do you have the cheek to say it's expensive? You, yes, you... owe me an extra hundred thousand ultra-quality spiritual stones."

Li Kaitian: "???"

Everyone : "..."

Mushui Sisi couldn't help but look at her senior brother.

Song Kaiyuan immediately smiled and said, "Captain, it's not expensive. Divine-quality techniques are extremely rare even in our Scripture Repository Tower. How can a million ultra-quality spiritual stones compare to it?"

Song Kaiyuan was speechless. Don't you know what kind of temper this person has? Is there anyone in the entire Raging Sea that he doesn't dare to rob?

The others didn't speak but looked at Han Fei differently.

Song Kaiyuan knew Han Fei's identity, strength, and means very well.

Li Kaitian was fined as soon as he boarded the ship, mainly because he challenged the captain's status and prestige.

Jian Hui looked at Han Fei with soaring fighting intent in his eyes, treating Han Fei as a powerful opponent.

As for Mushui Sisi, Lu Ran, and Mu Xi, they were discussing in secret.

Mushui Sisi said, "Hey! I don't believe that this person is Xue Zhan. Their temperaments are clearly different!"

Lu Ran said, "Look at the Divine Deceit Technique. Venerable-level, divine-quality, and best at concealment. Since his identity has been exposed, it can't be fake. Otherwise, do you think the four palace masters were wrong?"

Mu Xi said, "It's obvious that he's not a good person. If I had known that he was like this, I wouldn't have given him the Sun-Moon Shell."

After what happened last time, Mu Xi had thought that Xue Zhan was just a cold person and she didn't hate him.

However, now it seemed that this guy was clearly a liar.

Now, he was standing in front of her as if he didn't know her at all.

Of course, what made Mu Xi say this was Xia Xiaochan who was sitting on the mast.

Today, everyone here knew that Xia Xiaochan was the princess of the Merman Royal Family.

In addition to being amazed by Han Fei's boldness, these girls didn't like Xia Xiaochan at all.

Lu Ran said, "Xixi, do you want to try again?"

Mushui Sisi said, "Come on! Try again? That's the princess of the Merman Royal Family! She can kill anyone with a single order. Although I'm very supportive of Xixi, in my opinion, just forget Xue Zhan."

Han Fei thought to himself, Do you think I can't hear you?

Immediately, Han Fei looked at the three of them.

Noticing his stare, Mu Shuisi said, "Not good, he can hear us."

Lu Ran and Mu Xi trembled and stopped talking via voice transmission.

However, they were secretly speechless. Isn't this guy not a king yet? Why can he even hear our voice transmissions?

"Humph ~"

Han Fei snorted. "Although I don't quite understand why your masters want you to board the Avenger... from today on, you just need to cooperate unconditionally with me. You have no say about where the Avenger is going and what it's going to do. You have to make the contribution you should and then you'll get the rewards you deserve. Don't doubt my judgment or my orders..."

Han Fei grinned and looked into the distance. "Let's go!"

...

Half a month later.

In a place enshrouded by mist, waves surged on the sea.

The almost abandoned route of the Nine Palace World was indeed not easy to take. Along the way, they encountered as many as seven Half King-level marine creatures.

On this day, the sea was misty and the surrounding spiritual energy was thin. Everyone had a bad feeling.

Song Kaiyuan said, "Captain, there seems to be something wrong with this route. Even the most dangerous route usually doesn't have so many powerful creatures appearing in a row. However, so many Half-Kings have already appeared on this route. This one seems to be more difficult to deal with than the other sea demons!"

Han Fei said casually, "Cut the crap. Just kill any enemy appearing, OK? Now wait..."

Whoosh!

Half an hour later, when the Avenger was about to complete a void teleportation, suddenly, dozens of black shadows appeared in the shadow of the waves.

Han Fei frowned slightly. "Prepare for battle. Just a bunch of Thunder Dragon Eel. How dare they provoke the Avenger? Kill them all."

"Hiss ~"

Everyone's face turned green. There must be more than 20 of them, right? Kill them all? Is this something we can do?

Whoosh!

Roar!

Huge figures stuck out of the sea one after another.

It was no exaggeration to say that these Dragon Eels' heads were as big as two Avengers. Their bodies were nearly 100,000 feet long.

At this point, these Dragon Eels pounced on them, but Han Fei didn't do anything. What could Song Kaiyuan and the others do? They could only attack.

Clang!

The moment the Thunder Dragon Eel came out of the water, Jian Hui erupted with a soaring sword Qi.

As the sword slashed out, the world lost its color.

The power of that sword passed through without a trace, only leaving a trace of brilliance.

Sizzle ~ Boom ~

In front of the Thunder Dragon Eel, dazzling lightning struck down.

"Chi la ~"

The two fought extremely fast.

At this moment, the body of the Giant Thunder Dragon Eel was cut open by the sword. A massive amount of lightning exploded in all directions. In an instant, this sea area turned into a sea of lightning.

Li Kaitian roared and jumped out with a silver rod in his hand. The rod shadow was tens of thousands of feet long, and the power suppressed the raging waves and the sea temporarily flat.

"How dare a mere lightning bolt attack us...? Hum... Ah... It's f*cking exciting."

Bang! Bang! Bang!

Li Kaitian smashed the head of a Thunder Dragon Eel with his rod, but at least a hundred lightning bolts enveloped him and instantly blew him up.

Lu Ran: "Ouch... Ouch... I hate... lightning..."

The death of a few Thunder Dragon Eels made the surrounding Thunder Dragon Eels erupt with shocking lightning at the same time.

Not only was the Thunder Dragon Eel drawing lightning, but lightning was also falling from the sky.

Han Fei looked at the people who were electrocuted and knew that the lightning couldn't kill them.

After all, it was impossible for all of them to be Half-Kings. Among them, only seven had really reached the Half-King realm, and each of Jian Hui and Li Kaitian killed one of them.

Buzz!

A figure quietly stood on the head of a Thunder Dragon Eel. She raised her daggers, and the super giant eel more than 600 meters wide suddenly fell apart.

Roar!

Who else could it be but Xia Xiaochan?

When countless lightning struck down, Xia Xiaochan activated her Purity Mystic Body and was instantly bathed in the terrifying lightning.

Mushui Sisi, Lu Ran, and Mu Xi also charged at their targets.

Seeing that they should be fine, Han Fei immediately appeared in the sky.

Han Fei raised his hand, and the Embroidery Needle appeared. He shouted, "Enlarge, enlarge!"
