

GOF 1821

### **Chapter 1821: Night Mantis Shrimp**

In the sea, the greatest danger came from the unknown.

However, a person like Han Fei...

He had nothing better to do than to cause trouble. What was the big deal of a mere ferocious beast invasion?

When Han Fei saw the power of lightning, he had another idea. He could just leave the Thunder Dragon Eel to Song Kaiyuan and the others.

The Embroidery Needle in Han Fei's hand had turned into a huge pillar, a super lightning rod.

In all directions, in the sky, everyone's lightning was pouring into Han Fei's body. At that moment, the terrifying power that Han Fei endured made Li Kaitian drool with envy.

Li Kaitian smacked his lips. "So strong."

The three girls had changed the way they looked at Han Fei in the past half month.

Other people took the route hoping not to encounter danger, but Han Fei just hoped that more and more ferocious beasts would come to hunt...

"Oh, oh, oh..."

On Han Fei's shoulder, a big starfish was screaming, and all its six tentacles were smoking. Geesebumps even appeared on the starfish's skin because of the electrocution.

Han Fei shouted, "Don't open the shield. Enlarge yourself."

Han Fei grabbed the Hexagon Starfish and threw him into the sky.

In an instant, the starfish became a hundred meters long. Did he dare to disobey Han Fei?

Bam! Bam! Bam! Bam!

Han Fei went up and punched and kicked.

The Hexagon Starfish had never experienced this before. In an instant, he was struck by Han Fei thousands of times. Then, Han Fei's Monkey King's Three Thousand Sticks attacked again.

"Help ~"

"He's trying to kill the starfish ~"

"Xia Xiaochan, save me..."

Han Fei snorted. "It's useless even if you scream your lungs out today. Where is the accumulated energy in your body? If I don't force you to make a breakthrough today, this won't end..."

Below, the Thunder Dragon Eels were not idiots. After all, more than half of their strong masters had died. Therefore, they had to escape!

However, when they saw the beast in the sky, they immediately understood!

This beast was not human at all! How could he even beat his own pet?! They knew that if they were one step slower, they would be dead.

After only a hundred seconds, the Hexagon Starfish was almost beaten stunned by Han Fei.

Every time Han Fei struck down, the power of lightning poured into the starfish's body. The massive amount of energy accumulated in his body was being consumed crazily, and spiritual energy was dissipating crazily.

The hundred-meter-long starfish was reduced to eighty meters, and all kinds of blood and juices were spraying out.

A moment later, the eyelids of everyone on the ship twitched.

Even Xia Xiaochan couldn't help narrowing her eyes, thinking, The big starfish has been enjoying life for decades. Now he has finally got his retribution!

Crack ~

In midair, the big starfish was actually beaten to make a breakthrough. Like a deflated ball, half of the impurities in his body had been removed by Han Fei.

When Han Fei put away the Embroidery Needle, with a swish, the Hexagon Starfish had already clung to Xia Xiaochan's calf, shivering.

"It's horrible. Starfish wants to go home! Starfish wants to go back to the Merman Royal Family."

Han Fei glared at him. "What did you say?"

The starfish: "..."

Xia Xiaochan said, "Why didn't you just make a breakthrough yourself before? Do you have to be forced to make a breakthrough?"

Han Fei said leisurely, "I took the opportunity this time to help you temper your body. If you don't cultivate now, I don't mind helping you cultivate once a month. The effect should be similar."

Buzz!

The Hexagon Starfish's six big eyes rolled crazily, and its body trembled violently. It hurriedly said, "Cultivate! From today on, I'll start cultivating."

Han Fei added, "Well, half a year at most. If you can't break through to the peak of the Venerable realm in half a year, I'll help you again..."

Han Fei secretly sighed.

In terms of resources, the Hexagon Starfish was much more blissful than those who risked their lives to search for opportunities...

Mysterious creatures like them grew extremely fast. There was no such thing as polishing their foundation like humans.

The situation of the various races was different.

Humans might grow up with their own polishing. As for creatures like the Hexagon Starfish, perhaps their polishing method was another way, such as how much energy they absorbed...

Li Kaitian and the others couldn't help looking around.

Now, Han Fei and Xia Xiaochan no longer bothered to hide their identities in front of them. They were even beating a mysterious creature like the Hexagon Starfish in their presence!

In the past, who would have known that a mysterious creature like the Hexagon Starfish would be beaten like this?

Now, they finally realized that Han Fei was used to being domineering. Whoever came would be taught a lesson by him.

Song Kaiyuan said, "Captain, I feel that there's something wrong with our route. Although the crisis of the Thunder Dragon Eels seems to have passed, the danger that envelops this sky doesn't seem to have passed."

Mushui Sisi also said, "Captain, Senior Brother is right. I still have a bad feeling."

Han Fei said angrily, "If we run as soon as we're in trouble, are we still pirates? What are pirates? Pirates are bandits on the sea. Not just the other ships, but the hundred demons, the giant beasts, the royal family of mermen, and the human race are all our targets. Even these sea demons and ferocious beasts are also our targets."

With that, Han Fei pulled his fishing hook, and a ten-thousand-foot-long Dragon Eel was hooked over. The illusion of mountains and rivers appeared, and the Dragon Eel disappeared into the illusion.

Song Kaiyuan and Mushui Sisi looked at each other.

Their hearts did a flip. This must be the Sea Quelling Painting.

However, it made sense. Han Fei was the master of the Yin-Yang World in the first place, so it was understandable that he had the Sea Quelling Painting of the Yin-Yang World.

Han Fei ignored them.

In fact, Han Fei also knew that there might be stronger existences on his path.

However, it was impossible to change the route now. Could he use the Vast Ocean Navigator to choose a new direction?

That would definitely waste time.

When he finally arrived in the Martial Emperor City, perhaps the Martial Emperor's inheritance would have been taken!

And there were many strong enemies on this current route because it had been abandoned for a long time. Even so, it was originally a route, right? Therefore, they could still reach the destination via this route.

Instead of opening a new route, he might as well open up this old route.

In fact, Han Fei's idea was logical.

Han Fei shouted, "Li Kaitian, Void Teleportation."

Buzz!

With an order, the Avenger broke through the void.

However, the moment the Avenger broke out of the void, everyone on the ship except Han Fei and Xia Xiaochan was shocked. They saw a giant beast blocking the route.

Han Fei and Xia Xiaochan were very familiar with this giant beast. It turned out to be a Mantis Shrimp.

However, this Mantis Shrimp had black and white stripes. Its body was more than 100 kilometers wide and 500 kilometers long.

Immediately, information popped up in Han Fei's eyes.

< Name > Night Mantis Shrimp

< Introduction > Night Mantis Shrimp, a behemoth species left behind from ancient times. The Night Mantis Shrimp is violent, irritable, and extremely aggressive. It is very aggressive to many creatures. Its strength is extremely terrifying, and its punching speed is astonishing. Its punching path is hidden in the void and difficult to detect. After transforming into a human, the Night Mantis Shrimp is good at hiding.

< Level > 91

< Quality > Ancient Mutant

< Realm > Sea Establishment

< Great Dao > Speed

< Contained Chaotic Qi > 1962

< Battle Technique > Void Breaking Fist, Nerve Blade, Heaven and Earth Spirit Hammer, Universe Stab Armor

< Food > Shellfish

< Collectible > Arm of Night, Eyes of Night, Mantis Armor, Distant

< Absorbable >

< Remarks > The Night Mantis Shrimp is extremely fast. If you can't keep up with its speed, you'll be easily killed.

"Hiss ~"

Even Han Fei couldn't help taking a breath.

The last time he saw such a big creature was when he saw the King Ba Crab.

Although the Mantis Shrimp was much smaller than the King Ba Crab, it was relative.

Han Fei's ship was at most a sesame seed in the eyes of the Mantis Crab.

Han Fei also keenly captured a few pieces of information: the giant beasts could transform into humans.

This meant that the giant beasts didn't have to maintain their huge bodies all the time.

In addition, after turning into humans, their combat style was slightly different.

Jian Hui's voice was cold. "A mature giant beast."

Mushui Sisi exclaimed, "It's the Night Mantis Shrimp. It's so big. Has it reached the Sea Establishment Realm?"

Mu Xi exclaimed, "How can we fight this? Why is there such a giant beast king on this route?"

Lu Ran glanced at Han Fei. "Prepare for battle. Prepare the King-level strikes."

While the others were on guard, Xia Xiaochan held a dagger in both hands, supported herself on the mast, and swayed her calves.

She turned her head and looked at Han Fei. "Sea Establishment Realm! Should we fight it?"

Han Fei said, "Let me do it!"

Xia Xiaochan narrowed her eyes and said, "I want to feel... the power of the Sea Establishment Realm. If it doesn't work out, I'll leave."

Han Fei shook his head. "Even if you use the Heavenly Cicada Transformation, in terms of strength, you can't even reach the 50% of a Sea Establisher."

Xia Xiaochan was surprised. "Even the weakest sea establisher has a strength of 60,000 waves?"

Han Fei looked at the Night Mantis Shrimp.

How strong was this level-91 thing? It was hard to say.

Back then, the King Ba Crab was so weak because it was dying.

Besides, if the King Ba Crab had really used its last resort, ordinary Sea Establishment Kings wouldn't have dared to fight it head-on.

The Night Mantis Shrimp in front of him was a giant beast. Its strength... was probably no less than 60,000 waves.

Therefore, Han Fei said, "Do other kings have such strength? I don't know, but this Mantis Shrimp... definitely has it."

**Chapter 1822: The Avenger Is Here**

“Fuse ~”

Han Fei fused with Little Black and Little White and shouted, “Girl, retreat...”

Song Kaiyuan gasped and shouted, “It’s a king! Li Kaitian, retreat!”

In the blink of an eye.

When Han Fei discovered that the Night Mantis Shrimp was walking on the Great Dao of Speed, he realized that something was wrong...

After Han Fei fused with Little Black and Little White, he saw a ray of light sweeping across the sky.

However, it wasn’t light. It was the Night Mantis Shrimp moving its pincer, intending to cut the Avenger in two.

Buzz!

Han Fei immediately used the Great Dao of Time.

A blue barrier appeared in front of the Avenger.

At this moment, everyone saw that what came at them was a huge sickle hook.

“Oh my god ~”

Li Kaitian and the others couldn’t help exclaiming.

This scene looked too terrifying.

The huge super pincer was hundreds of kilometers long and extended to the front of the Avenger like a hook hanging from the sky.

Jian Hui couldn’t help but hold the sword in his hand. His body immediately warmed up, and his palms were sweaty.

Xia Xiaochan’s face changed drastically. “So fast.”

Although she could tell that it was a huge pincer, it was definitely not very clear.

Xia Xiaochan felt that if this attack was aimed at her, she would at most have time to turn into a shadow.

After the attack of the Night Mantis Shrimp was slowed down by time, Han Fei issued an order in his heart, and the surrounding spiritual energy was instantly drained.

Han Fei’s figure instantly appeared a hundred kilometers away, holding a blue light blade.

“Pfft!”

At that moment, Han Fei extracted the power of time and slash at the pincer, and with a bang, the pincer seven or eight kilometers long was cut off.

Behind Han Fei, the illusion of mountains and rivers appeared. This huge pincer fell directly into it and was suppressed by Han Fei with a thought.

“Hehe! You’re too hasty... How can the Avenger Pirates be destroyed so easily? Have you asked my opinion yet?”

“Gulp ~”

Mushui Sisi couldn’t help swallowing. “Wow, is this... the legendary Great Dao of Time? It’s so powerful... I didn’t even see that attack, but the captain had cut off the pincer?”

Jian Hui’s eyelids twitched. Too fast!

Whether it was the attack of the Night Mantis Shrimp or Han Fei’s attack, they were so fast that he didn’t even have the time to react.

Judging from the intensity of the attacks between the two parties, Jian Hui helplessly discovered that if he attacked with all his strength, it would probably be like this.

At this moment, Jian Hui realized that it was really ridiculous that he wanted to resist Han Fei. Even his strongest blow couldn’t resist Han Fei’s ordinary blow. How could he fight him?

Lu Ran and Mu Xi widened their eyes and looked at each other. They seemed to see a few soul-piercing questions in each other’s eyes.

“Who am I?”

“Where am I?”

“What am I doing?”

The Hexagon Starfish shivered, and its six big eyes rolled crazily, thinking, Is the world of the strong like this? Isn’t this power a bit too strong? If the Mantis Shrimp’s pincer hit my Six-Gate Array...

The Hexagon Starfish’s eyes froze, and he quickly concluded that he definitely couldn’t resist it, nor could he escape.

However, this outcome seemed to be beyond the Mantis Shrimp’s expectations.

A hoarse and stiff voice sounded between the heavens and earth. “The Great Dao of Time? Human, have you touched the legendary realm?”

Han Fei sneered. “Legend? I’m a legend. Get out of the way... Otherwise, it’s unknown who will win in the end.”

Although Han Fei was often over-confident, he couldn’t be too arrogant in front of a Sea Establisher.

If he were alone, he would definitely ignore this Mantis Shrimp and even take the initiative to provoke it and fight it for hundreds of rounds.

However, the Mantis Shrimp’s attack was too fast for him to put away the Avenger, Xia Xiaochan and the others.

“How arrogant! I’d like to see what kind of taboo the Great Dao of Time is!”

Boom! Boom!

As soon as the Mantis Shrimp said so, a pair of fist marks came at Han Fei at the speed of light.

It was no exaggeration to say that even if Han Fei's Yin-Yang Divine Eyes had reacted, even if the Time Great Dao slowed down the speed of the fists... Han Fei's body still couldn't keep up with the speed of the punch.

However, Han Fei knew the Mantis Shrimp too well.

No matter how fast your fists were, your weakness was the last joint of your pincer. This was universal to all Mantis Shrimps!

Therefore, Han Fei had already prepared a blow for it.

Han Fei held two knives in his hand. The two knives seemed to break through the void in an instant, turning into dazzling knife marks, and appeared at the last joints of the Night Mantis Shrimp's pincers.

The Night Mantis Shrimp didn't expect Han Fei to be so tough.

In the face of its fast punches, he could still calmly shatter two ultra-quality Divine weapons and exchange injuries with him!

Bang!

Han Fei had already estimated how strong the punch of the Night Mantis Shrimp was. Under such a terrifying punching speed, he probably couldn't withstand it at all.

However, in front of the Great Dao of Time, taking this punch was just the matter of a wisp of Chaotic Qi.

Han Fei's body exploded in an instant, but before Xia Xiaochan and the others panicked, they saw a blue shadow appear.

Immediately afterward, Han Fei appeared again.

At this moment, even Han Fei couldn't help but sigh at how useful the Time Technique was.

Han Fei even wondered how Old Demon Chu could comprehend such a great technique.

Han Fei estimated that he must have obtained it from a nine-star star bead.

Fortunately, Old Demon Chu was killed by him. Otherwise, if that guy really became a king, let alone the Yin-Yang World, no king in the Thirty-Six Mystic Worlds might be able to kill him.

"Huff~"

On the Avenger that was rapidly retreating, everyone subconsciously swallowed. What a terrifying power. Even a monster like Han Fei was instantly blown up. How strong was the Night Mantis Shrimp?

The Hexagon Starfish murmured, "I have to cultivate harder. This world is too terrifying."

Xia Xiaochan said, "Shut up! If you keep nagging, I'll throw you to the battlefield."

As she spoke, Xia Xiaochan held her double knives and her blood and energy were surging. A battle of this level triggered the belligerence in her.

She was calculating. If she fused the Shadow Shrimp and the Giant Arowana at the same time after using the Heavenly Cicada Transformation, she should be able to fight the Mantis Shrimp. However, the premise was that she couldn't be knocked out by the Mantis Shrimp. Otherwise, she might be hammered to death.

On this side, Han Fei blocked the attack of the Night Mantis Shrimp head-on. Within ten thousand kilometers, the sea vortexes were spinning and waves were flying thousands of kilometers away.

While the Night Mantis Shrimp was surprised, the Yin-Yang Reincarnation Blade hit the Night Mantis Shrimp.

Crack ~ Puff ~

After only one slash, another pincer of the Night Mantis Shrimp was cut off by Han Fei.

Not only was his pincer cut off, but the Void Blade also cut his soul.

“Hiss ~ Roar ~”

The Night Mantis Shrimp was already a Sea Establisher. How could it be beaten to such a state by a human being in the Half-King realm? It immediately flew into a rage.

Its soul collided with Han Fei's Void Saber, setting off a soul explosion.

Just as it was about to take its severed pincer back, he saw Han Fei walk thousands of kilometers with a single step and turn into a golden giant. He clenched his fist and an array was attached to his fist.

“Sacrificing Punch...”

Seeing that Han Fei dared to take the initiative to attack him, the Night Mantis Shrimp immediately launched an attack although he had only one pincer left.

In midair, even from a distance, a soaring power could be seen, diagonally breaking through the sky and creating a void crack thousands of kilometers long.

Li Kaitian swallowed and said, “Should we retreat further away? This power is too terrifying! We're thousands of kilometers away, but we're still hit!”

Song Kaiyuan said, “No, just be prepared to teleport at any time. The captain is very powerful. He's not at a disadvantage in this battle but has the advantage. Our chances of winning are not small.”

Song Kaiyuan's words shocked everyone. That was a real Sea Establishment King!

Their captain was only in the Half-King realm, but he still had the upper hand? This made them feel a lot of pressure. If the captain was too strong, they would seem too weak.

On the battlefield, Han Fei withstood the power of the punch, but his body was instantly dripping with blood.

However, so what?

“Puff ~”

All of a sudden, the Night Mantis Shrimp discovered, to its surprise, that at some point in time, at the place where its pincer was broken, a new blade power appeared.

At the same time, another void knife slashed at the Night Mantis Shrimp.

Taking advantage of this opportunity, Han Fei quickly came to the broken pincer of the Night Mantis.

The illusion of mountains and rivers appeared and swallowed the hundreds of kilometers long pincer into the Sea Quelling Painting.

At this moment, Han Fei roared.

Within a thousand kilometers, the surface of the sea was turbulent, and endless blades rose to the sky. Under the Blade Inferno, this sea area was enveloped by saber beams.

Holding the Time Blade, Han Fei drilled into the Blade Inferno and slashed at the only remaining pincer of the Night Mantis Shrimp.

Han Fei roared, "Come on, fight me if you have what it takes! Let's see how many lives you have!"

"Hiss..."

On this side, the Night Mantis Shrimp had just suppressed Han Fei's violent attack. The Time Blade was too strong, and it found that it couldn't resist it at all in a head-on clash.

### **Chapter 1823: Mantis Shrimp Hot Pot**

Clang! Clang! Clang!

Thousands of blades fell on the shell of the Night Mantis Shrimp every second.

Of course, this was nothing. No matter how powerful the Blade Inferno was, it wasn't strong enough to kill a king.

The battle between Han Fei and the Night Mantis Shrimp had just reached its climax.

Han Fei used the power of the Yin-Yang Reincarnation Knife to trick it once, but Han Fei's subsequent actions were very fast. He continuously used the Chaotic Qi and attacked with all his strength, no longer giving the Night Mantis Shrimp a chance to fight back.

"Pfft!"

The God Scaring Stab and the Heaven Gate Knocking were activated at the same time.

However, at this moment, a white light exploded in the sky.

Seeing that the white light seemed to be a fist mark, Han Fei immediately thought that it must be the Heaven and Earth Spirit Hammer of the Night Mantis Shrimp!

In the end, Han Fei sighed slightly. The advantage he had was probably going to be beaten back by this hammer.

Han Fei immediately picked up two sledgehammers and struck them in the air.

Knock, knock, knock!

Han Fei glided in the sky, hammer shadows filling the sky.

Below, ten thousand kilometers away, Mushui Sisi exclaimed, "Is this the Hundred War Divine Hammer? The legendary top hammer technique of the War Giants in the Age of Doom?"

Song Kaiyuan also said solemnly, "The super technique of the Age of Doom is more than a level stronger than the current technique. This hammer technique can not only be used in combat, but also in forging... Its peak effect is probably not much worse than the forging technique of the Thunder Fire World."

Li Kaitian said in surprise, "Fight the king of the giant beasts alone? How strong will the captain be if he becomes a king?"

Suddenly, Mu Xi said, "Xia Xiaochan is gone."

Xia Xiaochan didn't officially introduce herself to these people. When she wanted to hide, it was difficult for Song Kaiyuan and the others to find her. Generally speaking, it was difficult to find her without paying special attention.

As soon as Mu Xi said so, a strange cicada cry came from the battlefield.

In the sky full of blades, many glazed glass-like colors appeared somewhere.

Immediately afterward, everyone saw countless colorful lights flash across the back of the Night Mantis Shrimp.

When he took a closer look, he found that it was not light but a visual illusion produced because Xia Xiaochan was too fast.

"Hiss ~"

Everyone was dumbfounded and looked at each other.

Mushui Sisi asked in surprise, "Really? Another existence who can kill a king as a Half-King?"

Song Kaiyuan shook his head. "She's not that strong yet. Xia Xiaochan is holding a Sea Quelling Bizarre Treasure, whose energy goes straight into the body of the Night Mantis Shrimp. Plus her special identity and the strength of her spiritual beast, so the shell of the Night Mantis Shrimp is broken."

Swish ~

While they were talking, a figure shot out of the boat with a swish.

Lu Ran shouted, "Jian Hui, what are you doing there?"

However, Li Kaitian grinned and said, "Don't stop him. There aren't many chances for a Half-King to fight a king. Jian Hui has been frantically preparing his sword intent since just now. If he doesn't have a try, he won't stop."

Boom Boom Boom ~

The hammers in the sky were blasted by Han Fei a hundred times in a row and were shattered in the end.

However, the two sledgehammers in Han Fei's hand were also broken.

Han Fei couldn't help but sigh. It seemed that ultra-quality divine weapons were no longer enough. It was a waste of weapons to use ultra-quality divine weapons to fight a king!

Or rather, it was a waste of weapons to use ultra-quality divine weapons to fight such a special giant beast king. Four ultra-quality Divine weapons had been destroyed but the king hadn't been killed!

Han Fei saw that Xia Xiaochan turned into a stream of light on the back of the Night Mantis Shrimp, raising countless pieces of flesh.

The speed of the Heavenly Cicada Transformation made Xia Xiaochan's strength exceed 30,000 waves at this moment.

And this Night Mantis Shrimp didn't specialize in physique, but only had its own carapace. Therefore, it couldn't completely stop Xia Xiaochan.

However, Han Fei immediately said, "Girl, retreat!"

Han Fei's words reminded Xia Xiaochan.

Colorful lights appeared all over the sky, and Xia Xiaochan flashed hundreds of times in one second.

"Hiss ~ Roar ~"

The Night Mantis Shrimp had never experienced this before.

If the other party was also in the Sea Establishment realm, it would be fine. However, the other party was clearly only in the Half-King realm. It was beaten by a group of Half-Kings? It felt that it was insulted.

Its body suddenly rolled, and its huge body turned into a super ball. On its body, the spikes that had been dormant were all revealed at this moment.

Within a thousand kilometers, thousands of rolling spikes appeared. Although Xia Xiaochan retreated fast enough, the attack of the Night Mantis Shrimp came even faster than her!

Fortunately, Xia Xiaochan's reaction speed was relatively fast, and her abnormal agility allowed her to dodge this strange attack.

But Han Fei could tell that this must be the Night Mantis Shrimp's Universe Piercing Armor Technique.

He quickly came to Xia Xiaochan, grabbed her, and left the battlefield.

At this moment, Han Fei saw a soaring sword Qi crossing thousands of kilometers...

No, the sword Qi was brought here by Jian Hui. When Jian Hui approached Han Fei, he instantly drew his sword.

This should be the closest distance he could get to the Night Mantis Shrimp.

If he got any closer, he would be courting death.

Anyway, the Night Mantis Shrimp was too big, so Jian Hui wasn't afraid of missing the target.

"Huh?"

Han Fei couldn't help being surprised. Jian Hui's sword Qi was so powerful. In terms of power alone, it was comparable to the blow of a king like the White Armor Emperor.

This strength was indeed terrifying.

Even Xia Xiaochan said in surprise, "This guy is so strong. I might not even be able to block this sword."

Han Fei shook his head slightly. "With his physique and strength, he can only attack like this once at most. You stay here. I'll chop this shrimp."

In the blink of an eye, Han Fei saw Jian Hui attack, and the Yin-Yang Reincarnation Saber was still erupting on the battlefield. Han Fei reached out and grabbed a big wine pot.

Xia Xiaochan recognized it at a glance. Wasn't that the big calabash that Han Fei picked up behind the bronze door? How could it be used as a weapon?

However, Han Fei held the calabash and said, "Enlarge, enlarge..."

However, the calabash didn't react.

Han Fei immediately added, "If you kill it, it'll be yours."

Buzz!

The calabash in Han Fei's hand suddenly became bigger, from a half-foot calabash to a hundred-foot calabash.

Buzz!

The calabash continued to grow larger and suddenly became thousands of meters long...

When the calabash was about to fall, it had grown to a terrifying size of more than 30 kilometers.

Even Han Fei was stunned, let alone Xia Xiaochan and the others.

At this moment, the calabash broke through the void, the void exploded, and flames rolled into the sky.

The Night Mantis Shrimp thought to itself, It's just a calabash. Can it turn the sky upside down? Watch me whip it!

Rumble! Rumble!

However, when the two collided, the entire body of the Night Mantis Shrimp deformed.

With cracking sounds, the shell of the Night Mantis Shrimp collapsed.

"Not good!"

In this terrifying tide of explosion, Xia Xiaochan and Jian Hui retreated. They couldn't withstand this shockwave.

At this moment, the two saber of the Yin-Yang Reincarnation Saber continued to erupt. In an instant, they cut off a part of the Mantis Shrimp's body.

Bang!

The huge Mantis Shrimp suddenly turned into a water mist.

On the Avenger, everyone looked at each other in shock.

Li Kaitian: "Hiss! Is... the Night Mantis Shrimp dead?"

Lu Ran asked, "Seriously? Did the captain kill a king?"

Song Kaiyuan said, "There are no weather changes. He probably didn't succeed."

On the spot, Han Fei frowned, only to see that the wine gourd opened the stopper by itself, and a huge section of the Mantis Shrimp body was completely swallowed by this guy.

In the exploding mist, a young man in black clothes and a white cloak had one arm and two legs growing rapidly.

The man looked at Han Fei from a distance. Although he was unwilling, he could only flee with a black face.

This time, Han Fei didn't chase him.

If he continued to fight, his Great Dao wouldn't be able to hold on. When the time came, he wouldn't be a match for this guy.

Buzz!

Coincidentally, the Yin-Yang Reincarnation Saber burst out again, making the black-clothed young man's eyelids twitch.

Swish ~

When the man in black disappeared into the void, the calabash returned to its previous size.

"You swallowed the mountain-like remains of a king?! Can you at least leave some for me?"

Han Fei was lost for words. "Brother, I only got a limb? You f\*cking got half of your body."

Han Fei couldn't help sighing.

It was a pity that he didn't get the shrimp's Chaotic Qi. Otherwise, his Chaotic Qi would have immediately soared to more than 4,000 wisps. When he became a king, it might have exceeded 5,000 wisps.

Unfortunately, he only got a pincer. It was already good enough to have dozens of wisps of Chaotic Qi.

Han Fei walked thousands of kilometers with each step and returned from the center of the battlefield. Everyone looked at him as if he were a monster.

Li Kaitian asked curiously, "Captain, is the shrimp dead?"

Han Fei said huffily, "No, he ran away."

"Huff~"

Everyone was relieved. Fortunately, he ran away. Otherwise, it meant that their captain could kill a king! If the captain was so strong, why did he still need them?

Even so, everyone was speechless. A Half-King had defeated a king? Who would believe it?

Han Fei said, "Keep teleporting. Let's eat Mantis Shrimp hot pot in half a day."

### **Chapter 1824: The Avenger's Fangs (1)**

Although the giant beast king on the route of the Nine Palace World was driven away, Han Fei didn't dare to stay long on the route. Who knew if the king had any good friends?

If they ganged up on him, he wouldn't be able to resist.

Half a day later.

Buzz!

The Avenger broke out of the void and appeared on a relatively harmonious route. On this route, there were more species of marine creatures, and the pressure around was gone.

And this was the general route of the Golden Crow World.

Because it was a general route, all the pirate groups were basically using it too.

The way to the Martial Emperor City was not a secret, and only the general route could be taken. Therefore, at this moment, Han Fei and the others had escaped the dangerous route of the Nine Palace World.

At this moment.

Han Fei was deboning the Mantis Shrimp remains. He had cut off a complete pincer and a section of the body of that shrimp and absorbed a total of 37 wisps of Chaotic Qi.

At this moment, a big pot was cooking.

"Gulp ~ Gulp ~"

However, at this moment, Han Fei was eating alone.

Including Xia Xiaochan, the Hexagon Starfish... Everyone was already sitting cross-legged.

Even if they were already Half-Kings, they couldn't withstand the flesh and blood of a king!

Of course, this flesh and blood couldn't directly help them break through.

Xia Xiaochan was the first to wake up, and then the others all woke up.

Han Fei said, "We'll be outside the Martial Emperor City in three days at most. There are still about 15 days before the so-called Martial Emperor's inheritance opens. In the next 15 days, it's time for you to play a role."

Song Kaiyuan said, "Captain, the Martial Emperor City also has countless resources. Shall we land in the Martial Emperor City first, take a tour of it, and then start robbing?"

Song Kaiyuan knew that Han Fei wanted to plunder.

For Han Fei, he could rob any party in the entire Raging Sea.

Song Kaiyuan even felt that with Han Fei's personality, if he really stayed in the Raging Sea for a long time, he would definitely be able to create one of the top ten pirate groups.

If Han Fei made a breakthrough, he might even be able to enter the top three.

...

In the Golden Crow World, on a normal sailing route.

A ship made of red and yellow wood inlaid with various special metals was slowly approaching. The captain was about 300 meters tall, and there were as many as 21 Venerables and one sea establisher on it.

At this moment, on the bow of the ship, two young men were chatting, one of whom was Xia Hai.

One of them said, "Brother Hai, I heard that the Martial Emperor City won't refuse anyone this time. Why are there so few people from our Golden Crow World?"

Xia Hai chuckled. "How can we all come at once? What kind of place is the Martial Emperor City? There are endless battles outside the Martial Emperor City. It's extremely difficult for anyone to hunt us unless there is a king hunting. Therefore, we'll go first. The real main force is still behind. It's said that there are nearly 300 people from the Golden Crow World this time. This number is already a lot, already occupying half of our Golden Crow World's Venerables."

Another person smiled and said, "It seems that the competition for Martial Emperor's inheritance this time will be a fierce battle. If so many people come, won't the Martial Emperor City become the place with the most Heavenly Talents in the entire Raging Sea?"

Xia Hai smiled and said, "Even without us, the Martial Emperor City still has the most Venerable-level powerhouses in the Raging Sea. Not to mention the ten pirate groups, there are countless Venerables who escaped from the Thirty-Six Mystic Worlds and other races over the years."

Another person said, "This time, I'm afraid not many real Heavenly Talents will come. Last time in the Land of King Death, even Beitang Xuan was seriously injured. This time, it's said that he can't come. Except for Wu Hao, you are the best among the Heavenly Talents, Brother Hai!"

"Humph ~"

Xue Zhan's damn mask suddenly appeared in Xia Hai's mind.

What happened in the Land of King Death last time was an accident.

Someone sneaked in and even abducted the princess of the Merman Royal Family.

This time, it didn't matter even if he encountered him again. This was because as for the Martial Emperor's inheritance, there wouldn't be a situation where the strong collided.

After all, inheritance was inheritance. It was a competition of who had more potential.

This time, he had a good chance to win.

However, he had to admit that Xue Zhan was not easy to deal with.

Unfortunately, how could he escape from the Land of King Death? How great would it be if he was killed there?

Suddenly, the void trembled, and everyone saw a big black ship break out of the void.

Instantly, cheers filled the ship.

"It's pirates. Skeleton flags. This is the Avenger Pirates."

"Prepare the fire cannon..."

Bang!

However, before the Golden Crow World took action, they saw that the front part of the bow of the Avenger began to deform, and the bow opened like a shark's sharp teeth.

A black copper cannon barrel appeared, and with a swish, a golden light blasted out.

Bang!

Boom!

The tide rose to the sky, and a huge fire bird soared above the Golden Crow Sky.

Boom ~

A terrifying Dao rune that exceeded the power of a Half-King blasted out with spiritual energy and struck the hull of the Golden Crow Sky again.

However, the big bird that was scattering fire origin energy failed to break the Golden Crow Sky's ship array after two consecutive attacks.

"Haha! I thought the legendary Avenger was very powerful. It turns out that it's just so-so. Its energy cannon isn't much stronger than our energy cannon."

"They're just a small pirate team. Let's destroy them."

Xia Hai's eyes were cold as he shouted in a low voice, "This Avenger is the culprit who killed Jin Yuan. And now they even dare to rob our Golden Crow World! Kill them..."

Bang!

This time, it was the Fire Origin Cannons' turn to attack the Avenger.

However, this time, it was even more unbelievable. The Avenger bore the fire origin cannon head-on, the bow of the ship flashed, and the entire Avenger emerged from the surging fire waves.

Seeing that the other party's array couldn't be broken, Han Fei directly attacked.

Han Fei broke out of the void and slashed. The huge firebird array broke its wings.

"Hiss ~"

At this moment, on the Golden Crow World's Ship, a Half-King exclaimed, "Not good! This person broke 30% of the Golden Crow Array with one slash! How strong is he?"

Xia Hai immediately took out a jade slip and shouted, "Hold on. As long as you hold on for 50 seconds, once the Fire King arrives, these people won't be able to escape."

Xia Hai thought that they just needed to block Han Fei and the others for 50 seconds. Even this ship array could block them for 20 seconds.

However, when Han Fei slapped more than twenty times in a row and the terrifying power shattered the ship array of the Golden Crow World, Xia Hai's expression changed.

This person was so strong! In terms of strength, he was several times stronger than ordinary Half-Kings.

The moment the array was broken, the 21 people on the Golden Crow World's Ship fused with their spiritual beasts and prepared for a full-scale battle.

Xia Hai crushed a jade slip.

Anyway, he just needed to wait for the Fire King to arrive.

If he resisted it head-on and was injured, wouldn't it be a pity if he lost the chance to inherit the Martial Emperor's inheritance? He might as well block this person with a king-level blow first.

A figure wrapped in a fireball appeared in the void, blocking Han Fei's way.

Han Fei didn't panic. He shouted unhurriedly, "You want to join the Avenger? It's time to test your strength. Attack and rob them."

At this moment, Song Kaiyuan and the others had already cultivated the Divine Deceit Technique. Xia Hai and the others couldn't discover their disguise at all.

Besides, the four Heavenly Palaces rarely appeared in the Thirty-Six Mystic Worlds.

Except in the Land of King Death, it might have been hundreds of years since they last met. Xia Hai and the others certainly couldn't recognize them.

Therefore, no one was afraid of exposing anything in the battle.

Li Kaitian immediately roared, put away his rod, and took out two axes.

In addition to the rod technique, his axe was also unparalleled.

At this moment, the giant axe was like a thousand-foot-tall giant attacking with all its strength. The axe light fell from the sky, extremely powerful.

"Fire Meteor, Heavenly Fire Meteor Technique."

The Heavenly Talents of the Golden Crow World were naturally not weaklings. Someone was good at shields. With a series of fire shields in front of him, heavenly fire fell from behind and locked onto Li Kaitian.

However, he underestimated Li Kaitian's ability.

When fighting Han Fei, he certainly didn't look strong. However, when fighting ordinary Half-Kings, Li Kaitian was almost invincible. He shook his double axes and injected six levels of divine power into them.

With a bang, the man was shattered.

As for the Fire Meteor Stones behind him, Li Kaitian roared, and a colloid-like shield shadow appeared. No matter how the heavenly fire rolled, it was intact.

As for Jian Hui, he was fighting quite leisurely. He had already prepared his sword intent. As he slashed out, a brilliant light appeared. One person was killed, and a Sun-Moon Shell was directly obtained.

Lu Ran took action and used the Jade Palm, directly crushing a person and his turtle spiritual beast.

Even Mu Xi, who had fused with her spiritual beast in advance, had a special thorn that could imprison her opponent.

Immediately afterward, a white sword shadow appeared, and this person was also cut into pieces.

Mushui Sisi held a big bow in her hand and shot in the air. A phoenix danced. There were arrays in the arrow patterns. How could a woman who was pampered by the academy like that not have any strength?

At this moment, Song Kaiyuan thrust out the Sky Dissecting Brush and trapped three enemies in his domain.

As soon as the brush appeared, there was an azure dragon and sword Qi. Faced with Song Kaiyuan's storm of attacks, the three people were instantly blown up.

At this moment, half of the powerhouses on the Golden Crow World's Ship were blown up.

Han Fei didn't care about the king's attack at all. Instead, he said leisurely, "Hand over your Sun-Moon Shells and I'll spare your lives. Otherwise, I'll kill all of you..."

## **Chapter 1825: The Avenger's Fangs (2)**

Xia Hai thought he was very strong, but he didn't know that no one on the Avenger was weaker than him.

Xia Hai shouted, "All of you, don't hold back. Hold on. You're all Half-Kings. Don't tell me you can't even hold on for 50 seconds."

However, after Xia Hai shouted, his vision suddenly blurred.

Xia Hai was subconsciously shocked.

Immediately afterward, Xia Hai felt a stabbing pain in his mind. His body involuntarily split apart.

He immediately realized that something was wrong with his shadow. Something was cutting his shadow.

Making a prompt decision, Xia Hai launched a soul attack, intending to blow Xia Xiaochan out. However, a dragon roar appeared and exploded.

Xia Hai felt his head buzzing. He had no time to think or even know where the enemy was. He immediately detonated the power of fire origin, and a terrifying temperature swept across the world.

However, in the flames that filled the sky, a purple shield shadow appeared and completely withstood his high temperature attack. Unfortunately, Xia Hai couldn't see the Hexagon Starfish's defense array.

"Puff ~"

With a flash of light, Xia Hai was cut into pieces, his soul and flesh shattered.

In the blink of an eye, a Half-King had been reduced to such a state.

The flame shadow in the sky glanced at the one-sided situation below and wanted to go down to help, but a fist shadow came at him.

Boom!

Under this punch, the king's blow was immediately annihilated. The people of the Golden Crow World below were dumbfounded. What the hell was going on? Was Han Fei so strong?

Not only was Han Fei's strength terrifying enough to compete with a king, but the people of the Golden Crow World also discovered that any person on the Avenger was a Heavenly Talent. This was a one-sided situation!

How could they attack in such a situation?

At this time, someone below finally couldn't hold on anymore. Someone shouted, "You just want our Sun-Moon Shells, right... There's no need to kill. We'll just give them to you."

Han Fei sneered. "This ship is mine."

Everyone: "???"

Li Kaitian shouted, "Hear it? We also want your ship."

Han Fei pointed his finger at Xia Hai and tapped in the air, seriously injuring the reborn Xia Hai again.

After a while, there were only 21 Golden Crow Sky powerhouses left.

After about fifteen seconds, a shadow of fire origin suddenly descended.

The man shouted, "Where are the people?"

Xia Hai's face turned pale. How should I explain this?

He stammered, "Fire King... The Avenger Pirates are too strong... We were wiped out. Our Sun-Moon Shells and ship were all snatched."

As he said, everyone lowered their heads.

It was too embarrassing. 21 people failed to stop eight people and suffered such a crushing defeat.

The Fire King's face darkened. "You mean... so many of you were wiped out by the eight of them in thirty seconds?"

The Fire King couldn't help but doubt the strength of Xia Hai and the others.

Xia Hai said leisurely, "I used the power of your blow, but..."

The Fire King raised his eyebrows. "But what? Don't hem and haw."

Xia Hai said in a low voice, "It was shattered by Han Fei with a single blow."

The Fire King: "..."

This time, the Fire King had to take it seriously.

The Avenger Pirates was just an ordinary pirate team in the first place. Although some news had spread, it couldn't be so strong, right?

Wasn't the Avenger Han Fei only in the Half-King realm? Now even a Half-King could easily sweep away his attack?

The Fire King pondered for a moment. "This Avenger is probably not simple. To be able to block my blow, it means that Han Fei has very likely transcended the tribulation and become a king. In addition, someone in the Martial Emperor City wants to trade two Sea Quelling Bizarre Treasures for his head, which is enough to prove this."

Seeing that Xia Hai seemed to be seriously injured, the Fire King snorted and threw out a Triple Tribulation Pill. "Eat it. The inheritance of the Martial Emperor is going to open. It's not good to be injured at this time."

After that, the Fire King threw out a ship and said, "You no longer have any money, so I won't give you anything for now to prevent you from being robbed again. Just go to the Martial Emperor City like this! When we reach the Martial Emperor City, I'll give you some resources. The Avenger Pirates are not bloodthirsty people after all. Otherwise, you would have been slaughtered by them."

What could Xia Hai and the others do? They could only leave like this. Fortunately, the Avenger didn't want to kill them. Otherwise, they would have been dead.

...

On the other side, Xia Xiaochan asked curiously, "Why didn't we kill them?"

Han Fei said with a smile, "Although we've made many enemies on this trip, there's no need to be on a killing spree now. If we slaughter Xia Hai and the others now, the Golden Crow World's King will definitely be furious. Maybe he will be hunting us down all over the map. At that time, he will disturb us from continuing to rob. Also, Xia Hai and the others didn't do anything wrong to me. I'm not a bloodthirsty person. Why should I kill them now?"

Xia Xiaochan rolled her eyes. "But don't let the people from the Soul Sealing World go."

Han Fei immediately slapped his thigh and said, "That's impossible! As long as they dare to come, I dare to wipe them out."

One day passed.

Han Fei happened to leave the route of the Golden Crow World.

Song Kaiyuan said, "Within 30 million kilometers of the periphery of the Martial Emperor City, there is no such thing as a route or not. This is a free war zone. Here, Sea Establishers are not allowed to attack. Or rather, Sea Establishers can only attack Sea Establishers."

Han Fei said, "I'm not in the Sea Establishment Realm, am I?"

After a moment of silence, Song Kaiyuan said, "Well, I don't know if it can be counted. I don't think so!"

Han Fei sneered. "Anyway, I don't attack much. I'll just leave the looting to you later. Oh, these are your spoils. There are a total of 500,000 ultra-quality spiritual stones and 38 ultra-quality divine weapons, as well as other resources worth probably 300,000 ultra-quality spiritual stones."

Mushui Sisi exclaimed, "Ah! So many?"

Han Fei said, "It's reasonable for the Avenger's own crew to get more resources. From today on, you can get 20% of the resources for every ship you loot."

"Hiss ~"

Everyone couldn't help looking at each other. Only 20% of the resources? Didn't this mean that Han Fei had obtained 2.5 million ultra-quality spiritual stones?

Han Fei exclaimed in his heart, These Heavenly Talents are really rich! A random robbery got him millions of resources. If they rob three groups a day, they can make a fortune in only three or five days.

Han Fei tried his luck with the Nine Palace Luck Ruler and found that it was "Auspicious". Then he began to choose the direction with the Vast Ocean Navigator in satisfaction.

Han Fei thought for a moment and muttered,

"Except for the four Heavenly Palaces, the Snow God Palace, and the Million Poison World, all the Heavenly Palaces, including the Hundred Demon Clan, the Merman Clan, and the ten pirate groups, which are the richest?"

He excluded the Million Poison World because Han Fei felt that Patriarch Million Poison might have discovered his identity. In order to avoid unnecessary trouble, he decided not to scheme against them.

Han Fei didn't know which world he would rob. In any case, with the Vast Ocean Navigator guiding the way, they could just blame themselves for being unlucky.

The Avenger opened its claws and began to hunt like a dormant beast.

...

The big ship teleported five or six hundred thousand kilometers away every time.

And the periphery of the Martial Emperor City was the free war zone. In this place, the direction didn't matter, so when Han Fei had the Vast Ocean Navigator, he was destined to become a hunter.

On the Medicine King World's ship.

A pioneer group of 32 people came on the ship. These 32 people were all Half-Kings.

From the name of the Medicine King Wang Qian, one may think that it was a place to nurture alchemists. In fact, that was not the case. It was precisely because of the large number of alchemists in the Medicine King World that there were more strong masters nurtured.

In addition to alchemy, the people of the Medicine King World didn't specialize in any specific combat skills or techniques.

At this moment, on the bow deck, everyone knew that they were arriving at the Martial Emperor City.

For people like them, such opportunities were very rare. They usually didn't come to places like the Martial Emperor City. This time, they had a chance to participate in competing for the Martial Emperor's inheritance after a careful selection.

At this moment, the people of the Medicine King World were all waiting eagerly.

At the bow of the ship, a woman said, "Mu Chen, it's a rare opportunity to come to the Martial Emperor City. It's said that everything can be traded here. We have to get the herbs for the level-five tribulation pills."

The young man nodded. "It's time to show them the strength of our Medicine King World."

Buzz.

Suddenly, a big black ship broke out of the void.

Most people were still wondering who had suddenly appeared.

However, when someone saw the pirate skeleton flag, they immediately exclaimed.

"Pirates, it's the Avenger Pirates."

Someone thought to himself, Not good. This is a free war zone! How dare they rob here? Do they have a king behind them?

Buzz!

On the big ship of the Medicine King World, a middle-aged man stood proudly in the air. "Avenger Pirates? Humph, robbing in front of me? Aren't you too arrogant?"

At this time, Han Fei chuckled. "Medicine King World, right? Hand over five million ultra-quality spiritual stones and three level-three tribulation pills and you can pass."

Han Fei was asking for twice of what he got from the Golden Crow World. However, there was a king here, so it was normal for him to ask for more.

The Medicine King sneered. "I'm afraid you're still asleep! How dare a mere Half-King speak so arrogantly to me? You only have seven Half-Kings under you. How dare you try to rob us?"

"Hehe... Since you don't want to hand the money over, let's fight. Cut the crap."

In the free war zone, although Sea Establishers were not allowed to attack at will, there was an exception. If you wanted to rob others, Sea Establishers could attack unconditionally. After all, you had already wanted to rob me, and I couldn't just watch my own people being robbed, right?

Buzz!

Han Fei slashed at the big ship of Medicine King World with both knives.

Han Fei thought to himself, I'm already here. How can I return empty-handed?

### **Chapter 1826: Touched Whose Cheese**

The Yin-Yang Reincarnation Saber slashed at the Medicine King World's ship.

This was an attack comparable to the Sea Establishment Realm.

Even if this big ship could withstand it once or twice, how could it withstand it five or eight times?

Seeing that Han Fei could produce such terrifying power, the king of the Medicine King World was shocked. The commander of the Avenger Pirates was indeed terrifying. He was only a Half-King now!

Below, with bangs, Li Kaitian fired continuously.

At this moment, Xia Xiaochan didn't want to use the Heavenly Cicada Transformation.

In the free war zone of the Martial Emperor City, everything could happen. The Heavenly Cicada Transformation was her last trump card, so she couldn't use it too easily.

Above, Han Fei turned into a golden giant, clenched the Sacrificing Punch, and launched the Soul Explosion and Heavenly God Stab.

As for the king of the Medicine King World, his Great Dao was fire control. Although it was a purple Strange Fire, when the Strange Fire poured on Han Fei, he found that Han Fei was not afraid at all.

The power of nearly a hundred thousand waves swept across ten thousand kilometers.

Han Fei and the king of the Medicine King World fought into the void.

But the moment the two of them entered the void, with two buzzs, the Medicine King World's king and Han Fei both projected a clone.

These two clones were both in the Half-King realm.

The Medicine King World's king was surprised. "You can also project clones?"

Han Fei grinned. "I knew you would secretly project a projection. Unfortunately, you met me."

"All laws forbidden in this space."

As Han Fei roared, the fire tide suddenly stopped.

Han Fei took the opportunity to hold the rod and launch a Heaven Gate Knocking.

However, the Heaven Gate Knocking was not aimed at the projection of the king, but at the ship array of the Medicine King World.

On the Medicine King World's ship, Mu Chen shouted, "Everyone, prepare for battle."

They couldn't help being nervous.

Han Fei's combat power was comparable to that of a Sea Establisher, so they had to fight the remaining battles themselves.

Although there was no reason for thirty people to lose against seven people, this was outside the Martial Emperor City. They might not only encounter the Avenger Pirates. And perhaps the other party had accomplices.

Suddenly, Han Fei's knife emitted a dazzling white light. As soon as the knife appeared, a big hole was torn in the ship array.

The woman beside Mu Chen said solemnly, "This weird knife light has appeared three times and no one noticed it at all. The energy on the ship is consumed extremely quickly. Why don't we fight a quick battle and take down the other party first?"

At this moment, the two of them saw a dazzling light shot from the ship array.

Mu Chen's expression changed drastically. He grabbed the woman beside him and retreated.

Crack ~ Boom ~

A big hole appeared in the ship array.

Someone was shocked. "Is this person still a Half-King? How can he be distracted when fighting the patriarch?"

Someone shouted, "Hurry up, replenish your energy. As long as they can't take us in a hundred seconds, they will retreat."

"Ahhh~"

However, at this moment, a scream came from the helm of the ship. The entire ship array exploded.

There were thousands of light threads, which were clearly left behind by saber cutting through the void.

Immediately afterward, the ship array of the Medicine King World's ship was shattered.

Everyone's heart skipped a beat.

Mu Chen shouted, "Not good, someone has sneaked in."

On the other side, a sword light flashed across the sky.

An unusually tall and brawny man from the Medicine King World pressed the armor box on the deck. "Armor Chain!"

Swish! Swish! Swish!

In an instant, thirty-six identical shields blocked in front of the boat.

Clang ~ Crack ~ Crack ~

Everyone was horrified. Every time a layer of armor was broken, everyone was horrified.

Someone exclaimed, "How is it possible? Qiu Yi's Armor Chain was broken? The power of this blow probably reached the level of a king."

This crack sounded 23 times in a row.

Just when everyone thought that this blow was finally over when another dazzling white light bloomed.

Someone exclaimed, "Where did this knife light come from? Why did it erupt again after less than a second?"

Ka ka ka ~

The last dozen shields of the ship were shattered in one blow.

Li Kaitian roared, "Kill!"

"Glazed Glass Merciful Hand."

"Skyfall Divine Bow."

"Dragon Snake Pen..."

On the Avenger, six people attacked with all their strength.

Those who could be sent to Han Fei's ship by the four Heavenly Palace Masters were all top Heavenly Talents of these Heavenly Palaces.

How could an ordinary Half-King's combat power be comparable to that of the six of them?

As soon as the two parties collided, the Medicine King World's team discovered that they were no match for them at all.

Xia Xiaochan, who had already slipped into the boat, held two daggers in her hands. When she appeared again, she had already killed the sixth person.

In the sky, when Patriarch Medicine King saw this scene, he was shocked. Are there all such Heavenly Talents on the Avenger? Any one of them is comparable to the strongest Heavenly Talent of the Medicine King World? Isn't this too shocking?

A moment later.

Li Kaitian shouted, "Hand over your Sun-Moon Shells. Otherwise, don't blame me for being ruthless."

Then, Li Kaitian looked at Jian Hui. "I've got three."

Jian Hui replied indifferently, "Five."

Li Kaitian: "Uh..."

Seeing that the situation was hopeless, the patriarch of the Medicine King World couldn't believe his eyes. He had thought that nothing would happen with him taking care of the ship. He didn't expect such a situation in the end.

"You're too much! Avenger Han Fei, you're pushing me too far."

In the void, Patriarch Medicine King swallowed a spiritual pill.

Han Fei glanced at it and saw five tribulation patterns on the pill.

Roar!

Instantly, Han Fei felt that the guy's strength had soared a lot, and he actually felt some pressure.

The old turtle said, "Alchemists always refine some pills that increase strength by sacrificing vitality. This guy's strength has probably increased by 50%. Don't fight him anymore."

In fact, the moment this person swallowed the pill, the void behind Han Fei exploded.

Han Fei shouted at the Avenger, "Everyone, evacuate."

Patriarch Medicine King said, "Don't you think it's too late to leave now?"

This person's strength had soared, and his heart might have swelled. In an instant, he caught up with Han Fei, intending to kill him.

However, Han Fei clenched his fist. After the punch, ten thousand swords followed.

"Humph! How can a trivial trick save your life?"

With a bang, Han Fei was sent flying a hundred kilometers. However, the tens of thousands of small swords exploded with a bang, and a dense gray mist almost enveloped Patriarch Medicine King.

"Ew..."

At that time, the patriarch couldn't have felt worse. F\*ck, he had never smelled such a stinky smell in his life! It was so stinky that his scalp was numb.

Just as Han Fei was about to continue to attack, suddenly, three big ships appeared in his perception. There were more than a hundred people on the three big ships, and their symbol was a blood-colored sickle.

Immediately, Han Fei's heart did a flip. The Asura Pirates?

Patriarch Medicine King, who had just escaped the stench, had clearly perceived the Asura Pirates too.

At that time, his heart turned cold.

The Avenger Pirates were not even one of the top ten pirate groups, but they were already so difficult to deal with! Then what would the Asura Pirates be like?

However, Han Fei said, "Hey! We Avenger Pirates don't kill, but the Asura Pirates almost leave no survivors wherever they go. Why don't we cooperate?"

Patriarch Medicine King just wanted to slap Han Fei to death. Cooperate? In your dreams!

Patriarch Medicine King shouted coldly, "Do you think I will believe you?"

Han Fei sneered. "Do you want to see all your men being slaughtered? I don't believe you haven't heard of Pei Qianying. Look at the Avenger Pirates. Have we really killed any of your men?"

Han Fei wasn't afraid that the Patriarch Medicine King wouldn't agree. He continued, "As long as you give me two of the level-five pills you took just now, I can help you once."

Patriarch Medicine King's face changed drastically. "Do you really dare to take a fifth-grade Dao Pattern Pill?"

Han Fei shrugged. "Compared to a whole ship of the Heavenly Talents of the Medicine King World, two fifth-grade Dao Pattern Pills are nothing."

Patriarch Medicine King didn't think too much about it, because he saw that the fleet of the Asura Pirates had teleported in the air.

He immediately threw a bottle of pills over. "After you win, I'll give you another one."

Han Fei's heart did a flip. This robbery was worth it.

Han Fei had just seen the effect of this pill. By increasing his strength by 50%, this old guy's strength soared.

Immediately, Han Fei said, "Everyone, don't just stand there. Cooperate with the Medicine King World to fight the Asura Pirates."

On the Medicine King World's side, Patriarch Medicine King also said via voice transmission, "Everyone, return to your positions. The Asura Pirates are here. Prepare to face the enemy. We'll cooperate with the Avengers for the time being..."

"Huh?"

Below, both the people on Han Fei and on the Medicine King World's side were stunned. Just now, they were fighting to the death! Half of their people had been robbed by these guys, but now they were cooperating with them?

Buzz!

At this moment, three large ships appeared in the void.

The appearance of the bloody sickle flag made many strong masters in the Medicine King World exclaim.

"It's the Asura Pirates. There are so many of them."

"Prepare to face the enemy."

"Remember, don't hold back. These Asura Pirates kill without batting an eye. Don't hold back."

On the leading ship, a man in a black and red robe, holding a sickle in one hand, sneered. "Very good, Avenger Pirates. How dare you snatch the prey of the Asura Pirates? Humph..."

### **Chapter 1827: Asura Pirates**

The three big ships of the Asura Pirates surrounded over.

Pei Qianying, the captain of the Asura Pirates, had even seen the battle between Han Fei and Patriarch Medicine King.

Unfortunately, he came a step late.

He only saw Han Fei being sent flying a hundred kilometers by Patriarch Medicine King.

Therefore, he only thought that this guy's physique was extraordinary and his strength was extraordinary, so he could block a king's blow.

However, Pei Qianying was not stupid. Since the Avenger Pirates dared to rob the Medicine King World's ship, they must have some means.

Therefore, before the battle began, he said, "Han Fei from the Avenger Pirates, right?"

Han Fei pretended to be solemn. "Pei Qianying?"

Pei Qianying didn't care that Han Fei called him by his name. He said, "Do you know that the Medicine King World is the prey of our Asura Pirates?"

Han Fei shrugged. "No, so what?"

Pei Qianying sneered. "Heh! Boy, you sound very arrogant. However, as long as you contribute all the resources you looted to the Asura Pirates today, I'll let you go. After all, I prefer pirates."

Han Fei sneered. "What if I don't?"

Pei Qianying sneered. "No? Do you think you can leave today? Hahaha..."

As Pei Qianying laughed, everyone on the three big ships of the Asura Pirates began to laugh.

Below, Song Kaiyuan and the others looked solemn.

They couldn't laugh.

This was one of the top ten pirate groups! The Asura Pirates were the most ruthless. As long as they looted, no one would be left alive. Their commander, Pei Qianying, killed people like flies.

It could be said that among the ten pirate groups, this group of people was the most ferocious.

Han Fei said leisurely, "Although there aren't many of us, each member of the Avenger Pirates can fight ten alone, okay?"

With that, Han Fei quickly looked at the patriarch of the Medicine King World and said, "Pei Qianying is yours."

Patriarch Medicine King had no choice but to trust Han Fei.

After all, the Avenger didn't kill the people of the Medicine King World just now.

It was precisely because of this that he chose to cooperate with Han Fei.

The people he led were all Heavenly Talents of the Medicine King World. If they died here, it would be the Medicine King World's great loss!

Immediately, Patriarch Medicine King nodded, and Han Fei sneered. "Pei Qianying, right? How dare you laugh at me? You made a big mistake."

With that, Han Fei's voice rumbled like a dragon and fell into the sea.

"Kill! Leave no one alive!"

Pei Qianying was stunned and couldn't help but laugh. "So, the Avenger Pirates are a bunch of brainless people."

"Kill ~"

Pei Qianying didn't take Han Fei seriously. Since Han Fei refused a toast only to drink a forfeit, he might as well kill them.

Buzz!

Han Fei attacked first.

The Yin-Yang Reincarnation Saber slashed at a big ship. Han Fei said, "Girl, fight one ship with Song Kaiyuan and the others."

Song Kaiyuan immediately said via voice transmission, "Be careful. The Asura Pirates' ship array can't be broken easily. They have the Asura Blood Poison on their ship. If we are contaminated by the foul blood, it may seep into our bloodline and cause a huge blow to our bloodline."

Han Fei's heart stirred and he said, "It doesn't matter. Just kill them."

Han Fei sneered in his heart. What he was least afraid of was filth and evil. With the purification power of the Heaven Enlightenment Divine Technique, how could he be contaminated by this mere filth?

"Fuse!"

Xia Xiaochan directly fused with the Giant Arowana, and her combat power increased a lot.

The moment the Yin-Yang Reincarnation Saber slashed out, she also rushed out.

Han Fei punched at another big ship.

The ship array of this big ship of the Asura Pirates turned into a bloody mist. Under the bloody mist, there seemed to be a power corroding the surroundings.

"Heaven Enlightenment Divine Technique ~"

Buzz!

In the sky, three white pillars of light descended with swishes.

Three big holes appeared in the weird ship array.

“Hiss ~”

While fighting the Patriarch of the Medicine King World, Pei Qianying was waiting to see Han Fei make a fool of himself... Who would have expected that the array he had always been proud of couldn't even withstand a single blow from Han Fei? Was this... the Heaven Enlightenment Divine Technique?

As for Patriarch Medicine King, he secretly exclaimed. If he wasn't mistaken, this was the f\*cking Heaven Enlightenment Divine Technique?!

Song Kaiyuan and Mushui Sisi were even more horrified.

Even Song Kaiyuan was shocked. Is this the Human King Technique?

Legend had it that this kind of great technique was not something ordinary people could master. In the Age of Doom, there was only one Human King in the world who could master the Heaven Enlightenment Divine Technique.

However, they saw it today.

At this moment, Song Kaiyuan suddenly knew why the four Heavenly Palaces let him and the others be Han Fei's subordinates. It seemed that they just wanted them to be related to Han Fei! Because Han Fei was very likely to have the inheritance of the Human King.

The ship arrays of the three ships of the Asura Pirates were broken at the same time.

The crew members on the ships were also stunned. They never expected such a situation to happen. The blood-colored ship array couldn't even block it for half a second?

Swish ~

Xia Xiaochan had already rushed into the ship. A person's shadow was entangled, and his soul was instantly shattered by a soul spike.

Han Fei was not worried about Xia Xiaochan and the others at all. In terms of strength, this group of people was definitely the first echelon of the Half-Kings in the Raging Sea, which was not something the Asura Pirates could compare to.

For Han Fei, he was even faster. He drew his knife with one hand and the Great Dao of Gravity instantly fell. With the combat power of a king, how could Han Fei let these people resist?

With a series of popping sounds, five Half-Kings were controlled by Han Fei and died.

Han Fei stomped, and the Blade Inferno was formed again, and the area within a thousand kilometers turned into a sword tide.

Even so, Han Fei didn't stop. Compared to the other pirate groups, Han Fei didn't have a good impression of the Asura Pirates. Pei Qianying was just looking for the pleasure of slaughter.

But Pei Qianying was not a good person, and he, Han Fei, was a good person? In terms of fighting, Han Fei had never been afraid. In terms of slaughter, could Pei Qianying compare to Xue Fan? If Xue Fan really became a king, Pei Qianying would have to kneel down and beg for his mercy!

Han Fei clasped the void cracks. Every time he slashed, someone would be cut apart. Their souls had no time to escape before they were exploded by Han Fei's finger.

In the blink of an eye, nine strong masters had died at Han Fei's hands, and on the other ship, Xia Xiaochan and the others had already killed seven Half-Kings.

Of course, those who were killed were basically not strong enough. Those stronger had all shouted, "Leave the ship and expand the battlefield."

As for the Medicine King World's side, their combat power was a little weak. Only the guy named Mu Chen and a woman killed two Half-Kings, but six Half-Kings of them had been killed.

At this moment, the difference in strength was obvious. Although the Medicine King World's knowledge was diversified, their strength was limited.

Or rather, they were actually powerful, but they didn't have enough combat experience. Otherwise, six of them wouldn't have been killed in the first round.

However, for Pei Qianying, his expression was extremely ugly at this moment. The only thing he didn't expect was that Han Fei could break his ship array so easily. If he couldn't, the battle would go in another direction.

Seeing that the Avenger elites led by Han Fei were so powerful, Pei Qianying's body emitted intense blood Qi and blood light, and a figure appeared in the void.

It was a figure made of black and red blood. When one took a closer look, he would find that it was another Pei Qianying, who also had the strength of the Sea Establishment Realm.

Han Fei's heart did a flip. "Avatar?"

Han Fei smiled. With a thought, the surrounding spiritual energy was instantly drained, and the invincible fighting intent condensed, turning into a giant. He pointed his finger, and a peak-level Venerable was killed on the spot.

Watching the bloody man slash down with the sickle that cut through the sky, Han Fei smiled. "Heaven Enlightenment."

When a pillar of holy light descended, Han Fei clasped his hand and grabbed a huge blade of holy light from the pillar of light.

"Chi la ~"

White light and blood light collided in the sky. In the perception of countless people, the blood-colored sickle was cut apart by Han Fei.

This was natural restraint. Even if this blood shadow was in the Sea Establishment Realm, so what? This was the last thing the Great Dao of Heaven Enlightenment was afraid of. Han Fei walked thousands of

kilometers with a single step, stepped in the air, and held a piece of holy light in his hand. As if raising dust, he waved his hand and scattered the holy light, which, like billions of knife lights, drilled through the void and swept at the blood-colored figure.

Blood Shadow and Blood Qi exploded, but the terrifying explosion didn't hurt Han Fei at all. However, some people were invaded by the blood mist and stained with dirty blood.

But Han Fei slapped the blood shadow away.

"Pei Qianying, right?"

Then, surrounded by holy light, Han Fei slapped the phantom's head askew.

"You want to fight me?"

"You think you're awesome, don't you?"

"You want me to send you resources?"

Han Fei's peak speed was definitely extremely fast, especially when he had experienced the Great Dao of Wind. Facilitated by the attribute suppression, he punched and kicked the blood shadow.

"You ugly b\*stard."

"You damn pirate."

"How dare you insult the profession of pirate!"

Bang! Bang! Bang!

Pei Qianying's avatar was completely suppressed, and the filthy blood was useless. And his original body was entangled by the Patriarch Medicine King. He wasn't afraid at first, but the old b \* stard of the Medicine King World seemed to go crazy and kept entangling him.

Seeing that his avatar might be killed if this continued, Pei Qianying's expression changed and he shouted, "Retreat..."

### **Chapter 1828: The Avengers Made A Name**

Pei Qianying was confident at first, thinking that the Avengers couldn't break his ship array.

However, in an instant, all the ship arrays on his side were broken.

Then, Han Fei was on a killing spree, showing the strength of the Sea Establishment Realm.

Especially Han Fei's Great Dao, it made Pei Qianying's heart turn cold. This Great Dao happened to suppress his Great Dao. Then how could he fight this battle?

At this point, Pei Qianying was scared.

At this moment, he couldn't help but think, Why is the bounty of Han Fei so high? Two Sea Quelling Bizarre Treasures! So... this guy actually has the Great Dao of Heaven Enlightenment? That's the Dao of the former Human King!

At this moment, Pei Qianying thought of running away.

However, how could Han Fei let him?

Han Fei shouted, "Weren't you yelling at me just now? Why are you leaving now? If you don't want to die, leave your Sun-Moon Shells behind."

However, a famous pirate still had some ability.

Pei Qianying was determined to leave and quickly came to his blood shadow clone.

Immediately, the blood shadow fused with his original body, and Pei Qianying's strength increased greatly. The filthy blood in the air turned into clones holding sickles, intending to kill the other crew members of the Avenger.

Han Fei didn't panic at all.

It's just a projection. Even if I'm not a king, am I necessarily weaker than you?!

When Han Fei sent out three Half-King projections in a row, Pei Qianying was really speechless. Is this guy really only in the Half-King realm? A Half-King can create so many Half-King projections? Are you kidding me?

In the melee below, Han Fei's men had killed a total of 23 people and got 18 Sea Swallowing Seashells.

At this moment, Han Fei knew that it was about time. If he continued to fight like this, the time would be up.

Without the Avenger's obstruction, the Asura Pirates ran very fast.

After the Asura Pirates' ships ran away, the Medicine King World's ship was ready to teleport.

At this moment, Han Fei asked, "Where's the other pill?"

Immediately, the patriarch of the Medicine King threw a pill to Han Fei with an ugly expression. In the next moment, he commanded the big ship to teleport out.

Han Fei shrugged slightly. At this moment, he didn't want to fight anymore. The main reason was that if he continued to fight, his real strength would be exposed. Originally, he just wanted to plunder the Medicine King World, but who knew that the Asura Pirates would come?

Unfortunately, neither side was plundered by him.

Then, under the dumbfounded gaze of the crowd, Han Fei said, "The noise here is too loud. Leave here quickly. Run five million kilometers first... As for where to run, whichever direction will do."

A moment later, there were exactly 35 Sun-Moon Shells in front of Han Fei.

Han Fei checked them one by one and cursed, "Not even a Sea Quelling Bizarre Treasure? How poor..."

Song Kaiyuan and the others were shocked.

Song Kaiyun thought to himself, I've checked a few Sun-Moon Shells. There are countless spiritual stones and various kinds of pills in them. How could Han Fei say that?!

Han Fei rummaged around and finally threw out a few Sun-Moon Shells. "Fine, I'll pay you 1.5 million for your hard work. I'm tired. Let's call it today and take a rest..."

Everyone : "..."

Song Kaiyuan and Mushui Sisi looked at each other and calculated in their minds. On this trip, they had obtained at least 7.5 million ultra-quality spiritual stones!

The two of them were speechless. How could he say that he was poor?

Of course, Han Fei didn't suffer a loss this time. After all, not only did he get two level-five tribulation pills, but he also found a level-three tribulation pill in a Sun-Moon Shell.

Relatively speaking, in the Medicine King World, pills were more valuable than spiritual stones. He had robbed two kings, but only got a few pills. It was because he was too weak to really hunt a king. Otherwise, how could a king be so poor?

If he could also reach the Sea Establishment realm, in the situation today, he would definitely be able to ransack the Medicine King World and the Asura Pirates!

In the Sea Quelling Painting.

Han Fei looked at the level-five pill, and information popped up in his eyes.

< Name > Rank-Five Tribulation Pill

< Introduction > An ultra-quality pill refined by an alchemist to stimulate potential. This pill contains great energy and the power of the Great Dao. After taking it, it inspires the potential of the body. Depending on the user's talent, the user's strength will soar.

<Level> Sea Establishment

< Quality > Ultra-Quality

< Chaos Energy > 88 wisps

< Remarks > Taking this pill has a certain chance to damage the foundation and leave impurities in the body.

Han Fei's eyes lit up when he saw this. This was good stuff. Not only did it contain a lot of Chaotic Qi, but it could also increase the strength of different people. As for leaving impurities? It basically wouldn't affect him. He cultivated the Purity Mystic Body in the first place. If there were impurities, he could expel them! How could he not know his physique?

He checked the other tribulation pill, which was exactly the same.

Han Fei curled his lips slightly. If he could get a level-three tribulation pill that could block heavenly tribulation, it would be good.

The remaining level-three tribulation pill in front of Han Fei was about the same as the ones he had obtained before.

In addition to these precious pills, Han Fei calculated. Now, he had as many as 10.7 million ultra-quality spiritual stones, which had already exceeded the total resources in the doors of the Hexagon Starfish.

Xia Xiaochan said, "Hey, hey, you're grinning from ear to ear."

Han Fei immediately came back to himself. "Who? Am I?"

Xia Xiaochan said impatiently, "You just snatched a few pills. Why are you so happy?"

Han Fei immediately stuffed the level-five tribulation pill in his hand to Xia Xiaochan and said, "One of these can allow you to exert several times your strength. If you use the Heavenly Cicada Transformation and this, you may be able to reach the Sea Establishment Realm in a short period of time. There are two of them. Let's each take one. This trip is worth it."

Xia Xiaochan asked in surprise, "Is this pill really so effective?"

Han Fei said, "Aren't you well-read? The fact that the Medicine King has this name means that they are indeed good at alchemy in the Raging Sea. This is reliable."

Xia Xiaochan took the pill and couldn't help but think, "Once a merman's pearl is condensed, his strength will double. Unfortunately, I haven't condensed my pearl. I think I may be able to condense it after I break through the Half-King realm."

"Oh?"

Han Fei thought to himself, With Xia Xiaochan's current strength, if she continued to cultivate the Purity Mystic Body, wouldn't her strength be comparable to his when she condensed her pearl?

It seemed that he had underestimated the merman race.

If the merman were so strong in the Half-King realm, Xia Xiaochan's bloodline level might be even stronger than his now.

...

While Han Fei and the others were resting, the Martial Emperor City was in a great uproar.

The matter of the Asura Pirates being crushed by the Avenger Pirates was released by the Medicine King World, although neither the Asura Pirates nor the Avenger Pirates were good people in the eyes of the Medicine King World.

However, at least the Avengers didn't kill... This time, they had eight people die, which were all thanks to the Asura Pirates.

Therefore, they wouldn't hesitate to do anything that could damage the reputation of the Asura Pirates!

When this news blew up the Martial Emperor City, many strong masters were discussing.

In a certain blacksmith shop, someone said, "Shall we give it a try? Recently, there have been a lot of people coming to the Martial Emperor City!"

The blacksmith shook his head. "You have to be alive to rob them! None of those people is a pushover. Those who don't have enough strength have joined forces to come, and as for those strong masters, do you dare to rob them?"

The landlady of a certain restaurant who was wearing a short dress stood at the window seductively and said, "It seems that the competition among the top ten pirate groups is about to begin. I'm looking forward to this hunt."

Beside the landlady, someone was puzzled. "In my opinion, those kings should stuff people into their Origin Seas and then bring them over."

The landlady sneered. "If it were you, would you be willing to expose your Origin Sea? The Origin Sea is the foundation of cultivation for Sea Establishers. How could those guys be willing to do that? Besides, if it's not difficult to come over, wouldn't it make people underestimate the Martial Emperor City?"

In an arena.

A man in white was watching the life-and-death battle between advanced Venerables leisurely. When he suddenly heard the news, he couldn't help but exclaim.

The man said, "Interesting. An obscure pirate group destroyed the Asura Pirates and looted the Medicine King World's ship. That's really interesting! Has Han Fei not entered the Sea Establishment Realm yet?"

"Yes, we've confirmed."

The man nodded slightly. "That's even more interesting. A Half-King is comparable to a Sea Establisher, and Sea Establishers are not allowed to take the initiative to attack anyone below the Sea Establishment realm. Doesn't that mean that this person is an invincible existence in the free war zone?"

"That's it."

"Heh, we Peace Pirates have always believed in peace. What do you think? Let's not join in this game for the time being."

There were all kinds of demons and ghosts in the Martial Emperor City now.

There were still nine days before the Martial Emperor's inheritance opened. At this moment, more and more people were waiting to watch the show.

In the free war zone, many people were preparing to forcibly break through and enter the Martial Emperor City. After all, it was not easy to locate and rob a ship in the 30 million kilometer sea area.

Some people watched quietly, and some people were ready to hunt. After all, for veteran pirates, if they didn't find some excitement this time, they wouldn't have such a chance in the future. It wasn't like the Martial Emperor City opened the Martial Emperor's inheritance every day!

## **Chapter 1829: Free War Zone**

Outside the Martial Emperor City.

In the free war zone spanning 30 million kilometers, battles were happening in every corner.

Among the pirates, except for Han Fei who robbed the Medicine King World, the other pirate groups also took action. However, they were far away from Han Fei and didn't encounter him.

Han Fei picked up the Vast Ocean Navigator and searched for the least dangerous and most suitable forces for looting.

However, Han Fei and the others who were about to plunder discovered that the other party was actually the ninth-ranked Crimson Fire Pirates.

Han Fei was speechless. He had thought that he would encounter other forces heading to the Martial Emperor City, but the Vast Ocean Navigator pointed at the Crimson Fire Pirates?

So, the Crimson Sea Pirates were the most suitable for him to rob?

However, they were also pirates! They came out to rob, so how many resources could they bring with them? Except for the resources on Xue Ran, the head of the Crimson Fire Pirates, there was probably nothing to hunt in the entire Crimson Fire Pirates.

When the Avenger suddenly appeared in the path of the Crimson Fire Pirates, the people of the Crimson Fire Pirates were shocked. Who the f\*ck bumped into our cannons?

However, both parties looked at each other with ugly expressions.

Song Kaiyuan said, "This is the Fire God of the Crimson Fire Pirates. I'm afraid the one on the Fire God is Xue Ran. It's said that he's the second fire in the Raging Sea and has a Strange Fire."

Han Fei frowned. "Why did I meet such a thing?"

The Crimson Fire Pirates had two big ships. On the ships, there seemed to be forty or fifty people, plus a Sea Establisher. This force couldn't be underestimated.

On the opposite side, Xue Ran also looked at Han Fei in surprise and said helplessly, "Avenger Pirates? Are they out of their minds? Why are they robbing us?"

Behind Xue Ran, a Half-King said, "Captain, this avenger must be up to no good. It's said that Han Fei defeated Li Ji of the Medicine King World yesterday, and Pei Qianying of the Asura Pirates. He has a total of seven subordinates on his ship, all of whom are Heavenly Talents. The three ships of the Asura Pirates didn't hurt them at all."

"Hmph!"

Xue Ran snorted. "Do I need you to tell me that?"

When the two parties confirmed each other's identity, Xue Ran of the Crimson Fire Pirates said to Han Fei via voice transmission, "Han Fei?"

Han Fei stood proudly on the bow. "Xue Ran?"

Xue Ran asked, "What does the Avenger Pirates mean?"

Han Fei smiled. "Believe it or not, you've got the wrong person."

Xue Ran: "..."

Xue Ran asked, "In that case, shall we part ways?"

Han Fei said, "Don't be hasty! Since we've already met, why don't we fight first?"

Xue Ran's face turned cold. "Han Fei, are you provoking me?"

Han Fei shrugged. "I'm just asking for a fight. Do pirates have to plunder resources?"

With that, Han Fei looked at Song Kaiyuan and the others. "Your training time is up again. Kill!"

Not to mention Song Kaiyuan and the others, even Xue Ran was speechless. Who the hell is this guy? How can he suddenly fall out with me? Is he another person like the captain of the Peace Pirates?

The Peace Pirates were determined to wipe out all the pirate groups, so they didn't have a good relationship with any pirate groups. However, the Peace Pirates were extremely strong, so ordinary pirates would just avoid them.

In the past, whenever the top ten pirate groups changed their rankings, one of them would usually be destroyed by the Peace Pirates. For many years, it had been like this. Therefore, many pirates' hearts would shiver when they heard the word "peace".

Xue Ran looked at this side coldly.

At this moment, apart from Han Fei, there were only seven of them, but they wanted to fight 50 of them?

To be honest, although Xue Ran knew that the Avenger's crew were all very powerful, wasn't this too exaggerated? He was really not afraid of these people.

Swish ~

When Han Fei and Xue Ran broke through the void to fight, the battle below became heated.

More than 20 seconds passed.

The Crimson Fire Pirates left the corpses of five Venerables behind and then ran away under Xue Ran's lead.

Xue Ran was horrified. Han Fei is so strong! Is he still a Half-King? Even if he used some secret method, Han Fei's combat power is too shocking!

However, the key problem was that Han Fei was not a king and was not restricted by the rules of the Martial Emperor City.

Fortunately, he left quickly. Otherwise, Xue Ran felt that the Crimson Fire Pirates, who were almost at the bottom of the ranking, would probably be in trouble.

Xue Ran escaped.

Little did they know that everyone on the Avenger, including Han Fei, was having a hard time.

Han Fei's battle was not for resources, but for fighting. He wanted to consolidate his strength with the pressure of fighting. After all, in the two months outside the Supreme Mystic World, he had improved too much.

As for Song Kaiyuan and the others, although they had experienced a lot of battles, their fighting experiences weren't rich. This time, they had gained a lot of fighting experience.

In fact, in addition to tempering himself, Han Fei wanted to make a name for himself!

After all, so far, the Avengers had fought against Predators, Fierce Wind, Asura, and Crimson Fire Pirates and had never lost.

And now, there were so many strong masters near the Martial Emperor City and news traveled fast, it was easy for the Avenger to become famous!

However, Han Fei felt that it was not enough yet.

That day, the Avenger snatched a boat from the Dream Weaving World. However, there were too many soul techniques in the Dream Weaving World, so Han Fei and the others didn't gain much. Fortunately, they escaped unscathed.

The next day, the Avenger attacked the undersea human beings. However, it encountered two kings. Fortunately, Han Fei reacted quickly and ran away.

On the same day, Han Fei returned with the Twin Divine Technique. Furthermore, he killed a Half-King in front of the two kings of the undersea human race in a provocative manner.

Another day, Han Fei robbed the Spirit Refining World.

The next day, Han Fei snatched the Mad Corpse World.

...

For seven consecutive days, Han Fei and the others didn't gain much, but they provoked others everywhere. It could be said that the Avenger was really famous now.

In the Martial Emperor City.

A certain casino opened a bet. "Today's bet is about to start! The first bet is whether the Avenger will attack the Infinity World. And the Misfortune Pirates claim that they'll take the initiative to attack and hunt the Avengers, so the second bet is the success rate! The third bet is..."

All gambling dens opened different bets.

There was no cheat in this prediction. It was all guesswork!

Someone laughed and scolded, "If the Avengers dare to attack the Infinity World, they're courting death. If the Supreme Clearness World and the Infinity World are so easy to snatch, how can it be their turn?"

But in the casino, someone shouted, "Damn it, I'm optimistic about the Avengers. Bet on whether they will attack the Infinity World, right? I bet a million ultra-quality spiritual stones on it..."

“Hiss ~”

Someone took a deep breath and said, “Brother, you’re throwing resources into the water! Wouldn’t it be better if you give them to me? In the Infinity World, any king can lead a team. Except for the Undead Pirates, who dares to rob them?”

The person who placed the bet said disdainfully, “Who hasn’t the Avenger robbed these days?”

The casino was in an uproar.

After betting, the man returned to his seat. There were four other people sitting here.

As soon as the burly man sat down, he sighed. “What a pity. We can’t bet too much. I guess we can only earn 500,000 at most...”

Another person said, “Why don’t we go to the auction house later? Then we can sell all the things we snatched. Otherwise, we’ll have to pay the money we owe the captain on our own.”

Immediately afterward, a man with the temperament of a scholar said, “These days, we’ve almost earned back a million ultra-quality spiritual stones. Although we fight more and earn less, this is still much faster than normal cultivation. Later, let’s sell all the things we can sell. It’s not easy to come to the Martial Emperor City. Although there are many good things here, it will be embarrassing if we don’t have money to buy them.”

A woman said, “Can I borrow money from the captain? The captain has at least 30 million.”

Everyone was speechless. “Do you think you can”

These five people all looked ordinary. They were Song Kaiyuan and the others in disguise.

As for Han Fei, as the casino had bet, he was hunting the Infinity World at this moment. Even the smartest Song Kaiyuan didn’t know how Han Fei could hunt the ship of the Infinity World.

The king of the Infinity World was different from ordinary kings.

That strength was definitely not something Xue Ran or Pei Qianying could compare to.

At this moment, a woman walked over, holding a fish skin map in her hand.

When everyone saw this, they immediately asked, “Lu Ran, how much did you get?”

Lu Ran’s face was still stiff. After pondering for a long time, she said leisurely, “You definitely won’t expect it.”

Everyone: “How much?”

Lu Ran said, “The information that the captain asked us to sell is worth this much...”

Lu Ran extended two fingers.

“Hiss... 2 million ultra-quality spiritual stones?”

Lu Ran shook her head. “It’s 20 million.”

“What?!”

Instantly, they fell silent.

They got off the boat in advance because the ship Han Fei was going to rob today was beyond their ability.

However, they didn't come down to play. They came with a mission, which was to completely unveil Han Fei's identity according to Han Fei's instructions. At the same time... unveil a fake ancient secret.

Song Kaiyuan was also shocked. “So much money? Just revealing the identity of the captain won't be worth so much. Do you mean that the intelligence center of the Martial Emperor City believed that ancient secret?”

Lu Ran nodded. “Most likely. At least, I've already taken ten million of intelligence fees. They said that I can collect the remaining ten million ultra-quality spiritual stones after the intelligence is confirmed.”

“Son of a b \* tch...”

Li Kaitian couldn't help cursing, “Isn't it too easy for the captain to make money?”

### **Chapter 1830: Clash on the Invincible Path**

Free war zone.

Four big ships of the Infinity World appeared one after another. This time, the one leading the Infinity World's team was none other than Bei Xuanbing who led the team to the Land of King Death.

There was no telling if it was because they were too confident or for some other reason, but the frequency of the fleet's void teleportation was not very high.

On one of the big ships, a young man was cultivating on the deck. His body was shining with golden light, and a terrifying will descended from time to time.

This person was Li Xinghen, a top Heavenly Talent of the Infinity World who had long awakened the path of invincibility. His strength could be said to be at the peak of the Half-King realm in the Infinity World, ranked first.

Last time he went to the Land of King Death, Li Xinghen thought that he was just going to grab a few keys. Why did he have to do such a simple thing?

Who would have expected that a powerhouse walking the path of invincibility would appear in the Land of King Death?

Therefore, Li Xinghen didn't want to miss the inheritance of the Martial Emperor this time.

Why was the speed of Void Teleportation so slow? It wasn't that they couldn't run fast. They were just waiting to see if there were any people from the ten pirate groups coming to plunder them.

This was the way of doing things of a Heavenly Palace with confidence.

Among the many Heavenly Palaces, some kings brought people over, some sneaked over, and some quickly went to the Martial Emperor City after entering the free war zone.

Few people dared to travel slowly in this free war zone. The Infinity World was one of the bold Heavenly Palaces.

“Xinghen.”

Unknowingly, Bei Xuanbing appeared behind Li Xinghen.

He said, “Xinghen, it doesn’t matter if you can meet the kid walking the path of invincibility this time. Let me tell you, it’s said that there’s also a bronze door in the Martial Emperor’s inheritance. No matter what, find a way to enter it!”

Li Xinghen asked, “Junior Uncle, what’s so special about the bronze door?”

Bei Xuanbing said, “It’s precisely because I don’t know. I saw that door once before, but unfortunately, I couldn’t enter it, and I’ve never heard of anyone entering it. In the Land of King Death a few months ago, that Black Ghost brat managed to come out safely after entering it, which means that it’s at least safe there. There must be a great opportunity inside.”

Li Xinghen nodded slightly. “Yes, Junior Uncle. This Martial Emperor’s inheritance won’t open again until 1,300 years later. I certainly won’t let go of this opportunity.”

Bei Xuanbing said, “You can be considered lucky. Last time it opened, it was 3,200 years ago. Therefore, it’s not bad that you made it in time.”

Li Xinghen: “...”

After that, Bei Xuanbing instructed, “Let’s stay here for an hour. If no pirates come within an hour, don’t wait anymore. Go straight to the Martial Emperor City.”

Suddenly...

Hundreds of thousands of kilometers ahead, a big ship was floating on the sea. A figure holding two knives was standing on the mast and looking over.

Under his feet, a skeleton flag was fluttering wantonly.

Bei Xuanbing sneered. “Is this person’s brain damaged?”

Li Xinghen’s pupils were constricted slightly. “It’s the Avenger. I didn’t expect it to be such a pirate team that came to stop us. Junior Uncle, let me solve them.”

Bei Xuanbing sneered. “Do I need to bother with such a small fry?”

Li Xinghen suddenly stood up. “Junior Uncle, just watch the battle.”

When the two sides were 20,000 kilometers away, everyone on the four ships of the Infinity World saw the Avenger.

At this moment, with a thought from Han Fei, the Avenger was recalled into Forge the Universe.

Swish ~

Han Fei held the kitchen knife horizontally. “Rob! Pay up.”

To be honest, at this moment, on the big ships of the Infinity World, everyone looked at Han Fei as if looking at a fool.

Someone was lost for words. "Is there something wrong with this guy's brain? He wanted to stop our fleet alone?"

Someone shook his head. "Is this the so-called Avenger? It's clearly a hothead. Even if our Infinity World doesn't have a king, Li Xinghen is not someone he can deal with, right?"

Someone grinned. "This kid is dead meat. He might not even know what he is doing."

When they were only three thousand kilometers away, Li Xinghen raised his hand and the ship slowly stopped.

Buzz!

Li Xinghen stepped in the air, wearing a golden ancient robe, and a golden light appeared on his forehead. His aura swept out, and his surroundings were full of golden energy.

Li Xinghen said, "Avenger, Han Fei?"

Han Fei curled his lips. "Who are you? I don't know you... Give me the money."

Li Xingchen's expression remained unchanged. "How dare you stop our ship alone? I heard that your combat power is extremely strong. In that case, come and try."

Han Fei shrugged. "You talk too much. I missed a meal just to wait for you. How can I stop without a compensation of millions?"

Li Xingchen's body glowed with golden light, and his invincible fighting intent was revealed.

A strange pair of gloves appeared in his hand, as if there were hidden weapons on every finger.

When the two of them stood facing each other for five seconds, they attacked almost at the same time.

Swish ~

Han Fei took out his double knives and slashed out a dazzling knife light. It broke through the void and flew thousands of kilometers straight at Li Xinghen.

Li Xinghen's eyes glowed with golden light. He moved slightly in front of the ship and let the knife light approach him, but it suddenly exploded. The surging tide pushed the hull back dozens of kilometers, and the terrifying tide rolled back in the sky.

After this blow, the golden barrier protecting the ship completely shattered. The wind around Li Xinghen was no longer something ordinary Venerables could resist.

After feeling Han Fei's blow, Li Xinghen smiled. "Interesting. Your strength is almost in the Sea Establishment Realm. Unfortunately, it's still not enough."

Han Fei was slightly surprised. Does this person also walk the path of invincibility?

Although Han Fei hadn't used the power of his Great Dao yet, this person was definitely not ordinary to be able to block his blow so easily.

Han Fei immediately knew who this person was. He was the only person in the Infinite World who had embarked on the path of invincibility. He could also be called the strongest person below the King realm in the Infinity World, Li Xinghen.

Buzz!

Suddenly, Li Xinghen raised his hand.

The moment Li Xinghen raised his hand, Han Fei suddenly felt a sense of danger. With a Star Teleportation Technique, he appeared from the other side.

However, the moment Han Fei appeared, a golden thread appeared in front of Han Fei at an extremely fast speed.

Han Fei stood still, and a Coiled Turtle Array suddenly appeared in front of him.

Clank! Crack ~

Although the Coiled Turtle Array only blocked Han Fei for a second, it was enough for Han Fei to raise his hand and condense a saber. As the saber was slashed out, a cracking sound resounded between the heavens and earth.

Han Fei had just sensed that a thread broke through the void and arrived in front of him in an instant.

Han Fei curled his lips. "Infinite Phantom Silk? It looks ordinary!"

Song Kaiyuan had said that the Infinite Phantom Silk was obtained by the Master of the Infinity World and later given to Li Xinghen. Coupled with Li Xinghen's path of invincibility, this thread could unleash terrifying lethality.

It could be said that no one in the entire Infinity World was more suitable for this treasure than Li Xinghen.

Of course, the Infinite Phantom Silk was definitely a Sea Quelling Bizarre Treasure.

Just now, Han Fei's slash seemed to have shaken the thread away, but in fact, it just brushed against the thread and made a sound.

In the next moment, Han Fei tilted his head.

Li Xingchen was about to attack when his face suddenly changed. He left the big ship and raised his hand to punch.

Bang!

Bang!

After another two explosions, the sea surface caved in.

Li Xingchen was extremely surprised. Where did this attack come from? He didn't see Han Fei attack at all! Did this attack come from nowhere?

"Huh ~"

Even Bei Xuanbing couldn't help frowning. Even he didn't know where the two attacks just now came from. One was a knife light, and the other was a Soul Slaying Knife.

To put it bluntly, there were very few people on these ships who could block this move.

Fortunately, Li Xingchen took action. Otherwise, the others might really be no match for Han Fei.

Bei Xuanbing said, "Let's finish this quickly. We can't tell the other party's real strength with such a tentative attack."

Li Xingchen nodded and with a swish, turned into an extremely fast light.

"Fuse!"

Han Fei directly fused with Little Black and Little White. The moment the Yin-Yang Divine Eyes appeared, he activated his Great Dao at the same time.

Buzz!

Bei Xuanbing suddenly stood up. "Yin-Yang Divine Eyes?"

At that moment, Han Fei raised his hand and took out the Blade of Hope.

The double knives slashed again. This time, it was no longer the tentative attack just now, but an attack augmented by the Great Dao.

"Infinite Storm!"

Li Xingchen appeared in midair, and tens of millions of threads between visible and invisible swirled around his body.

Bang!

Boom ~

In the rumbling explosion, Li Xingchen's body turned into golden light threads and scattered in all directions. However, how could this escape Han Fei's eyes?

Just now, Han Fei clearly felt the power brought by the fusion with his spiritual beast. In an instant, this person escaped and didn't completely block his attack.

At this moment, the Yin-Yang Reincarnation Knives had both arrived in front of the ships of the Infinity World.

When a golden light interweaved, Li Xingchen revealed his true body. He said solemnly, "Did you use a secret technique?"

Li Xingchen sensed that Han Fei's strength had increased several times. This leap was too great.

This meant that Han Fei's current combat power far exceeded that of a king who had just entered the Sea Establishment Realm.

Li Xinghen thought it was a secret technique, so he retreated. He was going to get the inheritance, not to fight to the death at this moment.

At this moment, Bei Xuanbing suddenly attacked. He reached out and clenched his fist, and the Yin-Yang Reincarnation Saber in front of the ship shattered.

Bei Xuanbing said leisurely, "Provoking a king is not under the protection of the Martial Emperor City! Boy, who gave you the courage to come to provoke the Infinity World?"
