

GOF 1871

Chapter 1871: Yin-Yang Millstone

After a long time, at least, Han Fei felt that after a long time, Little Black and Little White finally became Venerables. Logically speaking, the growth of a Companion Spirit was usually no slower than its master. However, Han Fei's growth was too fast, causing the growth of his Companion Spirit and contractual spiritual beasts to seem to be extremely slow.

The only thing that amazed Han Fei was the Emperor Sparrow. With his speed, he would probably become a Venerable in a few years.

Of course, Han Fei had decided to stay in the Yin-Yang World for decades, so he wasn't in a hurry. He had Forge the Universe and time acceleration. If he gave Little Black and Little White ten years, it would be equivalent to more than three hundred years. Why would he worry that they couldn't improve their strength?

"Dad ~"

After Little White's breakthrough, she appeared in front of Han Fei like a wisp of white silk. At this moment, Little White's eyes were bright, and she had lost her childishness.

Little Black looked even colder, like a lurking hunter, ready to give the enemy a fatal blow at any time.

What surprised Han Fei now was the Yin-Yang Millstone Technique. This was the big millstone that sealed the Wild Abyss, but it had awakened when Little Black and Little White made a breakthrough?

Didn't this mean that he could also exert the power of the Yin-Yang Millstone now?

Han Fei's heart did a flip. "Yin-Yang Millstone."

Buzz!

Suddenly, on the surface of the sea, a vortex suddenly appeared, and a thousand-meter-long Yin-Yang symbol grew larger and larger, expanding at an extremely fast speed. It stretched for about 800 kilometers before slowly stopping.

In the Yin-Yang Millstone, the black and white parts were rotating in opposite directions. A huge amount of energy gathered around, and the furious waves surged, getting bigger and bigger. The spiritual energy and energy within ten thousand kilometers were gathering at an extremely fast speed.

This energy entered the millstone. Under the crushing of the Yin-Yang Millstone, in the end, incomparably pure energy and spiritual energy emerged from the center of the millstone.

Han Fei couldn't help but look surprised. How similar was this Yin-Yang Millstone to the one that sealed the Wild Abyss? It transformed mixed energy and spiritual energy into pure spiritual energy and energy.

Besides, the absorption and transformation speed was beyond his expectations.

Almost in an instant, Han Fei thought of something. If the Yin-Yang Millstone was used in the Wild Abyss, who could cultivate faster than him?

Although he understood this, Han Fei had no way to cultivate now. In addition to the power of his soul, he could actually transcend the tribulation and become a king.

After all, he had too many resources to use in Forge the Universe. In a few days, he would take Yin'er to the Sky Meditation Garden and officially start his plan to become a king.

With a thought, Han Fei canceled the Yin-Yang Millstone, put away Little Black and Little White, and left.

An hour later.

Han Fei stood in the Nine Palace Secret Realm in the Abyssal Chasm.

Han Fei placed the Water Immortal and the Divine Son in this paradise. At this moment, when he came back, he found that two-thirds of this secret realm had been swallowed by the Water Immortal. One-third of it was still the same, and the Divine Son had grown into a half-meter-tall red sapling.

Han Fei was lost for words. "Divine Son, aren't you growing up too slow? At this speed, in two years, Teacher will probably have intelligence, and you probably won't have a place to live."

Han Fei scanned with his perception but didn't find any signs of spiritual consciousness recovering, so he left.

No one came to the sea platform now. This was because there was an inexplicable suction power nearby that would suck away people's spiritual energy, causing the area within 20,000 kilometers to be deserted.

When Han Fei arrived, he waved his hand and a directional teleportation array appeared.

When Han Fei stepped into the teleportation array, he came directly to the altar on the sea platform. Logically speaking, with the Emperor Sparrow's ability, it shouldn't be difficult for him to know that he had come.

Sure enough, a voice soon appeared in Han Fei's heart. "Come when your king tribulation comes."

Han Fei: "..."

Han Fei couldn't have felt worse. Fine, you're all my masters. I'll leave, okay?

He thought he would be away for a day, but in less than a day, he returned to the Scattered Stars Island. He thought to himself, I have millions of resources, but you don't know how to cherish them.

When Han Fei came back, he happened to meet Xia Xiaochan and Luo Xiaobai who were arranging the Forest of Terror.

Luo Xiaobai hadn't accepted Han Fei's inheritance of the Purity Mystic Body. When she saw Han Fei, she glared at him.

Seeing Han Fei return, Zi Luo and the others immediately became cautious.

Luo Xiaobai said, "Because you demonic plants in the Forest of Terror are too huge and you can't transform into human forms at the moment, you'd better not settle near the Scattered Stars Island. I've already divided more than ten places very suitable for spiritual plants to live on the sea chart of the Yin-

Yang World. You can live there temporarily. However, you have to set up a residence nearby. Half-Kings need to be watched over...”

Luo Xiaobai rambled on. After she was done, Han Fei added, “Also, the demonic plants in the Forest of Terror can exchange resources with humans. Don’t be stingy with your spiritual fruits and spiritual liquid. If you want to integrate into the human race, you need to give us some practical benefits.”

The sea bamboo man said, “Of course. Our Forest of Terror have plenty of spiritual fruits. Every year, we will provide more than 100,000 spiritual fruits to establish diplomatic relations with the human race.”

Luo Xiaobai glanced at him and thought to herself, Han Fei is really different. I mentioned it once, but this sea bamboo man didn’t respond.

However, Han Fei only casually said something and the Sea Bamboo Man even told him the detailed number.

Han Fei said again, “By the way, I know that you have a grudge with the Demon Beast Union, but if the Demon Beast Union settles in the Yin-Yang World in the future, you two are not allowed to fight again. Of course, I will also restrain the people of the Demon Beast Union from starting a war with you.”

Zi Luo said, “Heavenly Master Han Fei, the war between the Forest of Terror and the Demon Beast Union is essentially for resources. Now that there are humans meditating in the middle, there is no need for us to compete for resources, so we have no reason to fight again.”

Han Fei nodded slightly. “That’s good. You can arrange for the demonic plants to come over! Most of the Explorer-level demonic plants shouldn’t leave the cage or go too far away for the time being. At present, the cultivation resources of the Yin-Yang World are limited. Since they can cultivate in the cage, they’d better not compete with humans for resources.”

Although Zi Luo and the others didn’t want to, they could only nod. After all, no one wanted to stay in the cage anymore. However, the Yin-Yang World’s current resources were indeed limited.

Zi Luo asked tentatively, “Master Han Fei, although demonic plants can’t enter the Yin-Yang World in large numbers, can they come to the human world occasionally? After all, most demonic plants have been in the cage for their entire lives.”

Han Fei nodded. “Yes. If you can transform into a human, no matter how different you look, you can come to the Scattered Stars Island to travel and stay temporarily.”

Zi Luo and the others were relieved and quickly cupped their hands. “Thank you, Heavenly Master Han Fei.”

Buzz!

As soon as the matter was over, Han Fei’s heart did a flip. His avatar had returned?

A moment later.

After Han Fei put his avatar into Forge the Universe, he said to Luo Xiaobai and Xia Xiaochan, “As I expected, the Demon Beast Union and the Immortal City of the human race have appeared in the Water-Wood World. I have to go there.”

Another half a day passed.

Water-Wood World.

Because Xia Xiaochan was helping Luo Xiaobai to accept the people from the Forest of Terror, Han Fei came alone.

In the passage, Han Fei felt the power of the sealing passage, which was trying desperately to suppress him. Yes, the pressure on Han Fei's shoulder was quite great at this moment.

However, the power of this seal failed to completely suppress Han Fei. It could be said that if Han Fei really counterattacked now, this passage might not be able to resist him.

After greeting the Thousand Wood and the Dead Leaf Tree guarding the passage, Han Fei came out and came directly to the Heavenly Palace.

Han Fei's sudden arrival shocked the bat Venerable who had been guarding here all year round.

Han Fei asked, "Is the queen here?"

The bat Venerable said warily, "Yes! Are you stronger than a Half-King now?"

Han Fei chuckled. "Sort of!"

Without further ado, Han Fei directly appeared in the teleportation array and then in the Heavenly Palace.

Jing'er was not around. Han Fei appeared at the entrance. From a distance, he saw Queen Life watering the flowers.

Han Fei asked, "Junior Sister, why did you fight the people of the Demon Beast Union? My avatar should have explained the situation. The Demon Beast Union is our ally."

Queen Life raised her head. "Are you here to question me?"

Han Fei frowned. "What are you talking about? I'm criticizing you."

Buzz!

Han Fei felt the power of a king coming at him in an instant. However, now that he dared to call himself a senior brother, how could he be afraid of Queen Life?

Han Fei's momentum suddenly rose and he instantly broke free from this power.

Queen Life's palm trembled slightly. What a terrifying increase in strength. She was actually no match for him in her own Heavenly Palace?

Han Fei said, "There's nothing to be surprised about. Let me tell you about the situation outside. You should know that both the Yin-Yang World and your Water-Wood World lack power now."

Queen Life frowned. "They want to transcend the tribulation and become a king as soon as they come out. The Water-Wood World is not their home. The resources and the Dao runes of the world in the Water-Wood World are at most enough for Jing'er to become a king. How can it be their turn?"

Han Fei said, "You're wrong. In ten years at most, the Yin-Yang World and the Water-Wood World will need more than five Sea Establishers. In another ten years, it's best if there are ten. Believe me, the cage has been broken. The resources and the Dao runes there are definitely enough for many people to become kings."

Chapter 1872: Clear the Cage

In Han Fei's view, Queen Life was too conservative.

In the past, she didn't let Cao Tianzhi and Tang Yan come to the Water-Wood World. This was completely understandable.

After all, at that time, there were internal and external troubles.

If the strong masters of the Yin-Yang World all came to the Water-Wood World to transcend the tribulation and become kings, not only would the relationship between the two parties completely collapse... the Yin-Yang World might even have an enemy.

But things were different now.

The seal on the cage had been broken, but not all the people in the cage were enemies. The Demon Beast Union and the Immortal City of the human race were forces that the Water-Wood World and Yin-Yang World had to accept.

Queen Life took a deep look at Han Fei. "Tell me the reason I have to accept."

Han Fei said, "You should know where I have been in the past two years."

Queen Life nodded slightly. "Although I don't know how you got out, you shouldn't be in the Yin-Yang World or the Water-Wood World these two years."

Han Fei got up. "The outside world is called the Raging Sea. The remaining 26 Heavenly Palaces are divided into the thirteen worlds in the inner domain and the thirteen worlds in the outer domain. They are not united. In addition to the human race, there are also the Martial Emperor City, the hundred

demons, the undersea human race, the giant beasts, the Merman Royal Family, the ten great pirate groups, and so on. Among them, any one of the ten great pirate groups has a king guarding it. As for the other major factions, each of them have at least one Sea Establisher and at most dozens of Sea Establishers. Heh, as for the Venerable realm, let me be honest with you. In the entire Raging Sea, there are no less than 100,000 Venerables. As for the Explorer realm, there are countless of them. Now, do we have to care about whether there is one king or two kings in the Water-Wood World?"

Queen Life frowned slightly. "Is the outside world so powerful?"

Han Fei shrugged. "It's even more powerful than what I said. Let me tell you, the place where our Yin-Yang World and Water-Wood World are located is actually just a forbidden place in the Raging Sea. To enter and leave this place requires a special method. And the cage breaking should be related to my entry and exit. I'll give you an estimate. In less than a hundred years, the entire cage will definitely collapse. At that time, we won't be able to stop the strong masters from the outside world from entering."

Queen Life: "Do they have a grudge against us?"

Han Fei sneered. "More than that. The grudge is as deep as the sea. The Golden Crow didn't appear in the Water-Wood World for no reason. More than 80,000 years ago, the Golden Crow World, the Nine Palace World and the Yin-Yang Palace came here being hunted down by some Heavenly Palaces. This grudge has been there for 80,000 years. Do you think it can be resolved easily?"

Queen Life pondered for a moment. "What's your current strength?"

After sensing it, Queen Life discovered that Han Fei's strength had exceeded her imagination.

Although Han Fei was still in the Half-King realm, this Half-King was completely different from the previous Han Fei.

At that moment, she felt that Han Fei didn't feel her crushing power at all.

Han Fei grinned and said, "If I have another chance, the White Armor Emperor shouldn't be able to survive more than a hundred attacks of mine."

Hua!

Queen Life was shocked and spilled half of the clean water in the ladle in her hand. Han Fei's words had another meaning. With her current strength, she shouldn't be able to survive more than a hundred attacks by Han Fei.

Queen Life never thought that Han Fei would grow so fast!

How many years had it been? When Han Fei first entered the Water-Wood World, he was only a peak-level law enforcer. Now, he could already kill a king?

Queen Life said, "You can negotiate with the Demon Beast Union and the Immortal City of the human race... They can become kings in the Water-Wood World, but if anything goes wrong, I might not have the ability to cope with the consequences."

Han Fei smiled and said, "There's no need to worry. When they understand the current situation, they will know how dangerous their situation is. We only have a hundred years at most. In these hundred years, if we can't increase the strength of the cultivators in the Water-Wood World and Yin-Yang World by two or three levels... when the cage breaks and the outsiders invade, everyone will be in danger."

"Two or three levels?"

The corner of Queen Life's mouth twitched, and she thought to herself, What are you talking about? The improvement of the overall strength of a race is not something that can be done overnight!

Two or three levels higher?

This meant that the average strength of the entire race had to cross two or three levels and most of the humans had to become explorers from Hanging Fishers... How unbelievable was this?

Han Fei said, "The shattering of the cage is actually a good thing. A large amount of spiritual energy and energy in the cage will pour into the Yin-Yang World and the Water-Wood World. This power will sweep

across the two worlds in a short period of time. People's cultivation foundation will be improved by at least two levels. Therefore, I'm not exaggerating. At least we should have a try."

Queen Life looked at Han Fei. "As you said, can a few more kings stop the forces outside?"

Han Fei shook his head slightly. "No! However, I have already made six Heavenly Palaces my allies in the outside world. Although it's still not enough, at least we need to work hard to grow up. As for the rest, let's talk about it after I transcend the tribulation and become a king."

Queen Life said, "Your Yin-Yang World is still suppressed by the Heavenly Dao Dharma Eye. How can you become a king?"

Han Fei said, "I have my own plans. I'm here just to persuade you. After all, I'm more convincing than my avatar."

Queen Life said, "They are at the Wall of Death near the Blood Sea Divine Wood City and the White Shell Royal City... Now, the two parties are suppressed in the cage by me. Jing'er and the Insect King are negotiating with them..."

Han Fei nodded. "That's right. I'll handle this matter."

â€¦

At a crack of the cage.

On the Demon Beast Union's side, big demons were gathering, and strong masters were as common as clouds. Hundreds of thousands of explorers were ready to go.

At this moment, on the other side of the crack behind the old sheep, beast roars were echoing.

Bear Handsome: "Old Sheep, how long do we have to wait? The Bull Demon King has been gone for a day, but we still haven't heard anything. Could it be... that bastard is leaving us alone?"

Fierce Lion: "Shut up! Brother Bull said he was going to find his original body. He is only a junior Venerable, so his speed will be slower."

Serpent Mengyue said, "Be patient. Don't be too impulsive. After all, there is a king here. It won't do us any good if we fall out with them."

Ma Youhun said, "Let's listen to Old Sheep. What's the use of you just yelling?"

Sheep Shenji was standing at the crack and chatting with Ning Jing.

Sheep Shenji said, "Girl, your strength has reached the fake king realm, right?"

Ning Jing shook her head. "There is no fake king. A king is a king. How can it be fake?"

Sheep Shenji sighed. "Judging from your luck, you're quite extraordinary. I'm afraid you're the next king here. Your queen must have nurtured you as a king, right?"

Ning Jing said, "I'm not talking to you. You're an old fox. Han Fei will talk to you when he comes."

Sheep Shenji smiled. "He will let us out."

Ning Jing was silent for a moment.

According to what she knew of Han Fei, he would probably accept these people. However, they could go to the Yin-Yang World! In this way, the queen didn't have to worry.

Buzz!

At this moment, the void suddenly trembled, and a figure appeared beside Ning Jing out of nowhere.

Ning Jing was surprised. "You're finally here. These people all say that they know you very well. However, no matter how close you are with them, they can't come uninvited! What do you think we should do?"

On the other side, Sheep Shenji looked at Han Fei. "There you are."

Han Fei nodded slightly and looked at Ning Jing. "Okay, I've already talked with Queen Life and she has agreed to let them in. It doesn't matter even if they become a king here."

Ning Jing said, "How is that possible? The resources of the world are limited. How can we let so many strong masters in? What if they gnaw away our home?"

Han Fei said, "It's not that bad. All races in the two worlds have the same fate. I'll tell you the specific reason later, but for now, let them in."

Ning Jing said, "Don't lie to me."

Han Fei said, "I didn't. Here, this is a wisp of her soul. See for yourself."

Han Fei handed a faint blue jade slip to Ning Jing.

Ning Jing scanned it with her perception and heard Queen Life say, "Listen to Han Fei."

Ning Jing gritted her teeth and stomped her feet. "Okay! Come in, come in..."

On this side, when Sheep Shenji heard this, he immediately opened his mouth and spat out a strange light towards the crack. Behind the crack, there were densely packed demonic beasts.

Golden Tiger roared, "Brother Bull, have you reached an agreement? The cage has cracked. Why are they still blocking us?"

Bear Handsome: "Brother Bull, is your original body a Half-King? Or, was what came to our Demon Beast Union your avatar?"

Han Fei was lost for words. Should I tell you that I became a Half-King in the past years?

Han Fei shouted, "Everyone, stop yelling. Venerables, come out first."

Hearing Han Fei's words, the demonic beasts couldn't wait.

With a few swishes, Lightning and a few other thunder leopards appeared outside the cage.

Then, Fierce Lion, Bear Handsome, Golden Tiger, Serpent Mengyue, and the others all flashed out.

Fierce Lion said, "The spiritual energy here is too thin, right?"

Bear Handsome exclaimed, "I've never seen such a quiet sea."

Han Fei looked at the windy sea. You call this quiet sea?

Serpent Mengyue said, "It's extremely safe here. It's so comfortable! Even the wind feels like a massage."

Ma Youhun smiled leisurely. "That's right. Although the quality of the spiritual energy is a little poor, we've finally come out."

For a moment, more than 300 Venerables appeared outside.

At this time, Han Fei said, "Don't shout first. Everyone, listen to me first. The spiritual energy here is thin and much weaker than in the cage. And the range here is only 8 million kilometers... Therefore, if you all

come out at once, the spiritual energy and energy here will stop most people's cultivation. Therefore, my suggestion is not to come out all at once. Let's connect the inside and outside of the cage first..."

Chapter 1873: Pacify

After a while of quarreling, in the end, Han Fei and the old sheep walked together alone. After all, it was hard to explain to too many people.

The old sheep said, "This cage has been broken, and I can understand that the space in this world is limited. However, I heard from Ning Jing that the place you rule is not here, but the Yin-Yang World? Anyway, the Demon Beast Union is not familiar with people from the Water-Wood World. Why don't we go to your Yin-Yang World?"

Han Fei smiled bitterly. "You're welcome to go there. However, the Yin-Yang World and the Water-Wood World are of the same area. The biggest problem is that no one in our Yin-Yang World can transcend the tribulation and become a king for the time being. In the Yin-Yang World, there is the Heavenly Dao Dharma Eye watching. Unless I crack the Heavenly Dao Dharma Eye, there can't be a king in our Yin-Yang World."

"Heavenly Dao Dharma Eye?"

The old sheep was stunned.

They were acquaintances in the first place, and Han Fei had a good relationship with the Grand Myriad Mountains. It would be good if he went to Han Fei's place. However, he didn't expect that there would be such a Heavenly Dao suppression there.

Han Fei said, "The Heavenly Dao Dharma Eye is one thing. If you're just worried that the Water-Wood World's king may take action against you... you can rest assured. Queen Life of the Water-Wood World is my junior sister. She won't make things difficult for you. Why don't you wait a few years? When I break the Heavenly Dao Dharma Eye, you can come if you want! By the way, I have something to tell you."

The old sheep: "Huh?"

Han Fei said, "I've accepted the Forest of Terror. From now on, the battle between the Demon Beast Union and the Forest of Terror should stop."

"You accepted the Forest of Terror?"

The old sheep couldn't help frowning. "Why? You know, the demonic plants in the Forest of Terror... are full of murderous aura and messy energy. Why do you still accept them?"

Han Fei said, "I have to... In the outside world, it's called the Raging Sea..."

Han Fei explained what he had explained to Queen Life in detail to the old sheep and then said, "You can tell everyone in the Demon Beast Union what I said. Anyway, the Wall of Death will be completely broken within a hundred years. At that time, we may face a huge crisis from the Raging Sea."

The old sheep took a deep breath. "I didn't expect that the Yin-Yang World and the Water-Wood World are not the real outside world. This place is still a cage!"

Han Fei said, "You may not believe it, but not only are we all in a cage, but the Raging Sea is also a cage. Also, I have another thing to tell you. Be mentally prepared."

The old sheep said, "As long as it's not about the life and death of our Demon Beast Union, I'm very mentally strong."

Han Fei said, "The Black Blood City is gone. I've killed the clown, the Black Evil Conch King. I left more than a hundred Venerables for the Black Blood City as stepping stones for the growth of our races. From now on, if your Demon Beast Union wants to train soldiers, I'm afraid you can only wait for the little demons to grow up."

"What?!"

In the past two days, the old sheep had been focused on going out and didn't care about the Black Blood City.

Who the f*ck knew that the Black Blood City was gone just like that?

The Black Evil Conch King, who had been fighting the Demon Beast Union for many years, had also died quietly? This made the old sheep sigh.

The old sheep pondered for a long time and then sighed. "That's good. In that case, we can only work hard for the next hundred years."

...

Han Fei didn't chat with Fierce Lion and the others one by one. After greeting them, he hurried to the Immortal City of the human race.

For Han Fei, if it weren't for the sake of stabilizing the Forest of Terror, the Demon Beast Union and the Immortal City of the human race, he would have long since taken Yin'er to the Sky Meditation Garden. How could he have the time to hang around here?

Now.

When Han Fei came to the Immortal City of the human race, the Insect King and many Venerables of the Water-Wood World were also gathered here. Compared to the Demon Beast Union, Golden Boy and the others were leading not only humans, but also countless undead creatures.

There were more than 80 Venerables in the Immortal City. At this moment, they were all gathered here.

In the human race, except for the undead, Chen Xiang and the others were negotiating with the Insect King and the others.

Chen Xiang said, "Since you don't agree to let us out, please lead the way and let us go to the Yin-Yang World. I'm Chen Xiang, the former supreme commander of the Scattered Stars Island in the Yin-Yang World. You'll find out soon."

The Insect King said indifferently, "Wait for Han Fei to come."

Chen Xiang: "..."

Buzz!

Suddenly, the void trembled, and Han Fei stepped out of the void.

The Insect King's heart trembled when he saw Han Fei. For some reason, he felt that Han Fei was suppressing him in life level.

"Marshal Han."

On the human race's side, Han Fei's former subordinates, Chen Yue, Long Xi, Hua Meng, Yun Tianhe, and the others all stood up and greeted him.

Chen Xiang's expression was complicated. She couldn't see through Han Fei's current strength at all. It had only been a few years, but his strength had already reached the Half-King realm?

Han Fei raised his hand and said casually, "OK, the human race can return. Let me talk to Golden Boy about the return."

Then, Han Fei stepped to Golden Boy.

Golden Boy said, "Your strength has already surpassed mine."

Han Fei smiled and said, "Senior Zhao and the Forbidden Land haven't come out yet, have they?"

Golden Boy shook his head slightly. "No. He has had a disciple and hasn't appeared in the grassland for several years."

Han Fei's heart did a flip. A disciple? Could it be the kid from back then?

Han Fei quickly told Golden Boy the plan he had just told the old sheep.

Golden Boy said, "In that case, cultivating in the cage is actually better?"

Han Fei said, "That's the reality. Now, a lot of the spiritual energy and energy in the cage is escaping. The days in the cage will slowly become better. If you're not in a hurry, wait patiently for two years. When I solve the matter of the Yin-Yang World, I can take the entire human race to the Yin-Yang World, of course, including undead creatures. The Yin-Yang World can also accept them."

Golden Boy nodded slightly. "That's good. I'll explain this to everyone. However, if Master wakes up and makes a fuss, can Queen Life stop him?"

Han Fei said, "If he comes out, tell him that I know where the dragon is. Just inform me to come over and don't let him go to the Yin-Yang World. Otherwise, the Heavenly Dao Dharma Eye is still there. If he goes there, he will almost certainly die."

It was simpler to chat with Golden Boy. After all, Golden Boy came from the Dragon-Subduing World. He knew about the Raging Sea.

Of course, Han Fei also expressed that if they were really curious, they could send a small number of people to the Yin-Yang World to take a look, which could reassure the people of the Demon Beast Union and the Immortal City.

As for the old sheep and Golden Boy, they were actually just waiting for accurate and trustworthy news.

Since Han Fei was here and he had enough reasons to convince them, that was enough.

They didn't care about staying in the cage for a few more years. With Han Fei's guarantee that they could go outside, they could temporarily leave the cage.

...

After explaining the situation to the Insect King, Han Fei said, "Tell Queen Life that I'm going back to the Yin-Yang World. I have a lot of things to deal with in the Yin-Yang World. I'll come back after I become a king."

The Insect King was surprised. "Aren't you going to the Cloud Sea Divine Tree? You can tell the queen by the way!"

Han Fei said, "It's too slow to walk through the passage between the two worlds. Anyway, many cracks have appeared in the cage. I'll walk directly from the cage."

...

Half a day later.

When Han Fei returned to the Thug Academy, he found that these people were surrounding the shark corpse, practicing the Purity Mystic Body.

As soon as Han Fei returned, he heard Zhang Xuanyu say, "Feifei! This technique consumes too many resources, doesn't it? The usage rate of an ultra-quality spiritual stone is only one percent. What about the remaining spiritual energy?"

Han Fei said indifferently, "Put it in this world! Except for you, everyone else can use it. The only bad thing about the Purity Mystic Body is that it needs abnormally pure spiritual energy. I can't do anything about it."

Le Renkuang said, "Feifei! I feel that if we continue to cultivate like this, we will probably drop at least one realm."

Han Fei said, "But your strength is still improving. What's wrong with it? Only with a solid foundation can you have deeper potential. I'd rather you drop two or even three realms."

Han Fei casually threw down a Sun-Moon Shell and said, "There are ten million ultra-quality spiritual stones in it. It should be enough for all of you to fully consolidate your realm and have a great surplus. This is my only subsidy for the Thug Academy. In the future, I won't give you any more resources."

"Hiss ~"

Everyone was dumbfounded. Ten million ultra-quality spiritual stones.

How rich had Han Fei become after this trip?

With a swish, Old Bai quickly grabbed the Sun-Moon Shell in his hand and said indifferently, "You're now the master of the Heavenly Palace. These resources can't be too biased towards our own people. These are enough. I'll take good care of these resources for you in case they waste them."

Han Fei smiled and said carelessly, "By the way, where are Yin'er and the others?"

Su Sanqian: "Yanyan dragged them to go shopping."

Han Fei was speechless. Are you all so relaxed?

Immediately, Han Fei scanned around with his perception and searched for them.

Chapter 1874: Women Shopping

Although Yin'er was born in the Glazed Glass World, she was mostly in the Tranquil Dao Academy. She knew very little about the outside world.

In fact, the Black Phoenix had taken her out a few times, but it was just for fun.

She hadn't seen much of the prosperity on the Scattered Stars Island, although the Scattered Stars Island had just experienced a turmoil.

However, the Scattered Stars Island was thriving in the first place. Therefore, even after the turmoil, everyone still went about their business.

At this moment, the rain of blood was still falling, but it was not as heavy as two days ago.

The Dao runes contained in the rain made too many people make breakthroughs while experiencing turmoil. As more people made breakthroughs, people could often see a spiritual energy storm somewhere on the Scattered Stars Island.

Because of this, in the past two days, the spiritual energy on the Scattered Stars Island was not enough at all. Han Fei secretly took out a million ultra-quality spiritual stones and set up a Great Spirit Gathering Array for the Scattered Stars Island. Only in this way could the needs of countless people on the Scattered Stars Island be satisfied.

At this moment, Yi Xiyan was holding Yin'er's arm.

Su Daiji and Nian'er were playing with the Cube toys side by side. Snacks floated automatically around their mouths. Xia Xiaochan led the crowd and sighed as she looked at the new Scattered Stars Island.

At this moment, everyone saw a small statue of Han Fei erected outside the Refining Hall and the Logistics Division.

Yi Xiyan said, "Senior Sister Xiaochan, Yin'er, you didn't know how powerful Senior Brother Han Fei was when you were away. After Senior Sister Xiaochan disappeared, Senior Brother Han Fei was only a Hanging Fisher at that time, but he directly attacked the Dark Hunter Legion and killed his enemy..."

Yi Xiyan kept chattering, but what she said was quite interesting... like how Senior Brother Han Fei refined the Fei-Yan-Mu Furnace and shocked the entire island.

For example, Senior Brother Han Fei challenged Blue Feather, which was recorded in history.

For example, Senior Brother Han Fei seized the Sea Quelling Painting and won first place on the Genius List.

For example, Senior Brother Han Fei entered the Thousand Star City, challenged the big shots of the Thousand Star City, and became a law enforcer in battle.

For example, Senior Brother Han Fei swept across all the enemies at the gate of the Thug Academy in the Thousand Star City.

For example, Senior Brother Han Fei killed a Venerable with a single finger when he was only a law enforcer.

For example, Senior Brother Han Fei broke into the Water-Wood World, fought in the Dark War Port, and forcibly transcended the Four Nine King Tribulation.

For example, Senior Brother Han Fei led the Scattered Stars Island to bravely fight the Black Evil Conch King and drove him away.

...

“Gulp ~”

Yi Xiyan took a bite of the strawberry in her mouth and said, “Do you know that Senior Brother Han Fei has become the faith of the people? There are already dozens of novels about Senior Brother Han Fei in the Scattered Stars Island, the Thousand Star City, and the 36 towns. I recommend the Rise of Marshal Han and the Heroic History of the Supreme Commander. These two books are relatively close to reality.”

Xia Xiaochan had mixed feelings.

Han Fei told what he had been through these years to her casually as if those were no big deal at all, but now hearing Yi Xiyan describe his experiences these years, she was fascinated.

Now she knew what Han Fei had exactly experienced over the years.

As for Yin'er, she was shocked.

It turned out that her brother was so powerful?

He used to have a low-level spiritual heritage? He was only a level-two fisher when he was 12 years old? He could travel outside when he was only a Dangling Fisher?

Compared to hers, Yin'er felt that Han Fei's life was unbelievably exciting.

Even in the Glazed Glass World, there were countless strong masters. However, no one could do what his brother did!

Xia Xiaochan asked, “Where can I buy those books?”

Yi Xiyan said, “You can buy them in the trade fair outside the carnival shop. Let's go for a drink. Not only Senior Brother Han Fei, but Senior Sister Xiaobai is also very powerful... Also, my husband is also very powerful! Let me tell you about him...”

Xia Xiaochan and Yin'er were both stunned. “You have a husband?”

Yi Xiyan said solemnly, “Yes! Brother Yu!”

Xia Xiaochan didn't understand for a moment. "Who?"

Yi Xiyuan said, "Zhang Xuanyu!"

"Puff ~"

Xia Xiaochan was stunned on the spot. Zhang Xuanyu has a wife now? This big fickle sea anemone has quietly married a little cutie?

Yin'er couldn't help but ask, "Does Pure Sun Dao Palace encourage puppy love?"

Yi Xiyuan immediately raised her head and said, "What's the big deal? All the Heavenly Talents in the world are in our Thug Academy. We aren't interested in the outsiders. You don't know how many people want to enter our academy now. However, they don't have the qualifications or heritage! Our branch in the Blue Sea Town did take in some students, but they aren't qualified to come to the Scattered Stars Island yet. They still need to pass the basic assessment."

A moment later.

They came to the street of carnival shops, where trade fairs, carnival shops, combat skills exchanges, and restaurants were gathered.

As soon as Yi Xiyuan came over, a young man said, "Hey, Miss Yi, are you here to eat the hot pot buffet? We reserve a private room for you..."

Yi Xiyuan looked fascinated, but then she shook her head and said, "Not today. I'll come back another day."

"Okay, come anytime. The private room is reserved for our school and has never been given to others."

"OK! See you!"

Then, Xia Xiaochan said, "Is it the Fish Dragon Hot Pot Restaurant?"

Yi Xiyuan nodded quickly. "That's right! Now the business of the Fish Dragons has expanded to the Scattered Stars Island and specializes in delicious food. The Fish Dragons has now established a Gourmet Research Union, recruiting various culinary enthusiasts, seeking breakthroughs in culinary skills, and trying to break the barrier of culinary skills left by Senior Brother Han Fei... to strive to create a Dao of cooking as inspired by Senior Brother Han Fei as soon as possible."

Yin'er clicked her tongue. It seemed that her brother's cooking skills were indeed unparalleled.

Xia Xiaochan was lost for words. "He's so busy and still in the mood to study this?"

A moment later, they walked to the rows of vendors along the river.

All kinds of rare conch shells, energy sea cucumbers, exquisite ornaments, ordinary combat skills, and miscellaneous novels were sold here.

Yi Xiyuan led them over and said, "Hi, bring me two copies of The Rise of Marshal Han and The Heroic History of the Supreme Commander."

“Okay! Hey, girl, we just got a new book yesterday called “Marshal Han’s Return”. It’s of high quality and describes Marshal Han’s journey. Do you want it? I only have a few of them left.”

Yi Xiyan’s heart did a flip. “A new book is out so quickly? Is the author Fish Bragging?”

The boss said, “Yes, yes. You’re obviously an expert.”

Yi Xiyan smiled. “OK, give me three portions.”

“Okay!”

Just as Yi Xiyan paid the money quickly and handed the new book to Xia Xiaochan and Yin’er, she said, “Fish Bragging is a very good writer. His writing skills are excellent and extraordinary!”

Buzz!

Suddenly, a figure appeared in front of them quietly.

Han Fei said with a black face, “Yi Xiyan, you’re the only one in the Thug Academy who fools around all day long. You don’t need to learn any great techniques or cultivate?”

Yi Xiyan immediately exclaimed, “Senior Brother Han Fei, I’m just taking Senior Sister Xiaochan and Yin’er to shop. Women like shopping.”

Xia Xiaochan raised her eyebrows. “Why? Do you have to meddle in our business?”

Han Fei was lost for words. “Which side are you on?”

Xia Xiaochan said, “I’m on Yanyan’s side.”

“I, I, I... Han, han, Marshal Han? Gosh, hello, Marshal Han...”

“Wow! Marshal Han, look, Marshal Han...”

“Oh my god! Marshal Han is indeed valiant.”

“Where? Marshal Han, can I have your autograph?”

“Marshal Han, I’m your idol... Huh? Oh, no, you’re my fan... Huh? Something seems to be wrong?”

Suddenly, the street exploded.

Instantly, the crowd surged over.

“Shoot ~”

Han Fei immediately shouted, “Come on, let’s go back...”

With a swish, Han Fei, Xia Xiaochan, and the others disappeared into the crowd. Those who saw them disappear were amazed, and those who heard the sound were still rushing in.

“Where is Marshal Han? Where is he?”

“Where is Marshal Han?”

At this moment, the peddler roared, "All of you, step back. Marshal Han has read books in my stall. He has touched all these. Don't even think about touching them."

"What?"

"Boss, look at you. How can you not sell things when you're doing business? Come, these three books are mine."

Someone shouted angrily, "First come, first served! Which book did Marshal Han touch just now? Is it this one? I'll buy it."

"Shit, I want to buy this first."

The crowd was in chaos.

Han Fei, Xia Xiaochan, and the others had already appeared in the open space thousands of kilometers away.

Han Fei said, "Yi Xiyan, let's keep a low profile, okay? You are a Heavenly Talent of the Thug Academy anyway. Believe it or not, I can make Zhang Xuanyu ground you!"

"Humph ~"

Yi Xiyan didn't treat Han Fei as a strong master at all. She even snorted at Han Fei.

Han Fei: "..."

Xia Xiaochan rolled her eyes. "That's none of your business. I suggested we go shopping."

"Oh? Really? Then you can shop later. I'm here to find Yin'er."

Yin'er: "???"

At this moment, Yin'er's impression of Han Fei had completely changed.

Yin'er's first impression of Han Fei was that he was domineering, arrogant, terrifying, and dignified.

However, at this moment, it didn't seem to be the case at all.

He was a henpecked husband and an annoying senior brother. None of his junior brothers and sisters were afraid of him.

This feeling made her feel much closer to him.

Xia Xiaochan was puzzled. "Why are you looking for Yin'er?"

Han Fei said, "I've finished my business. Now I'm going to take Yin'er to treat her illness. We may be gone for a while. Watch over the Scattered Stars Island for me for a while, OK?"

Xia Xiaochan nodded. "OK. And I happen to want to know more about the new Scattered Stars Island. Xiaobai will sleep with me at night. Go ahead!"

Han Fei: "..."

Chapter 1875: Yin'er's Spiritual Awakening

Han Fei went to the Raging Sea just to find Yin'er back.

These days, Han Fei had been troubled by the cage cracks, and he was already impatient.

No matter when Yin'er transcended the tribulation, she had to fuse her Yang soul with her Yin soul first. Only in this way could Yin'er's illness be cured and she could be considered a complete modern human being.

At this moment.

Han Fei and Yin'er stood outside the Sky Meditation Garden. Because Han Fei had changed his appearance, no one could recognize him.

Han Fei said, "Yin'er, your Yin soul is in the Sky Meditation Garden. When the Yin soul fuses into your body, your Heavenly Heritage will be completely activated. At that time, you should be able to make a breakthrough in an instant. You can use the resources I gave you at any time. You've been stuck at the peak of the law enforcer realm for decades. Once you make a breakthrough, I'm afraid the consumption will be huge."

Yin'er was also extremely nervous at this moment. She even subconsciously grabbed Han Fei's clothes and looked at the Sky Meditation Garden nervously.

She turned to Han Fei and looked helpless for the first time. "Will I still be me?"

Han Fei nodded. "Of course, you will still be you. Your memories won't be lost. Your Yin soul is still young and won't affect your memories. Let's go. I'll go with you."

"Um!"

Han Fei had promised Yin'er's Yin soul that he would visit her often... However, he had only been here twice. This time, he had to accompany Yin'er when she fused with her Yin soul.

Buzz!

When Han Fei and Yin'er entered the Sky Meditation Garden, the blue sky and the vast grassland was unchanged as before.

However, the moment Han Fei and Yin'er entered the Sky Meditation Garden, with bangs, some ancient visualization objects in the Sky Meditation Garden instantly shattered.

"What happened?"

Many people were visualizing these objects. Suddenly, their visualization objects were gone, so they were very surprised.

Sensing this change, Han Fei immediately said, "I am Han Fei. From today on, I will renovate the Sky Meditation Garden. Please wait patiently... Now, everyone, leave the Sky Meditation Garden immediately."

"Hiss! Is it Marshal Han?"

"Marshal Han is going to remodel the Sky Meditation Garden?"

“Oh! No wonder there are anomalies in the Sky Meditation Garden. It seems that Marshal Han is making a big move!”

“Marshal Han has returned. It’s said that he killed many Half-Kings with one blow and has probably become a king.”

“Come on, let’s go quickly and wait outside the Sky Meditation Garden.”

Han Fei cast thousands of projections at the same time and set up thousands of teleportation arrays. In less than half an hour, the Sky Meditation Garden was cleared.

As for Yin’er, she had already walked past some meditation objects.

Balls, wooden horses, wind chimes, slides... Wherever Yin’er went, there would be a streak of white color.

Han Fei secretly followed.

Yin’er’s Yin soul didn’t come to him, so she must have sensed something. There must have been a connection between Yin’er’s Yin soul and her original body. Now she was just one step away from fusing with her Yin soul.

After four hours, Yin’er’s original body walked through the entire Sky Meditation Garden and came to the Infinite Tower in the center.

Suddenly, from under the Infinity Tower, a white shadow appeared.

Han Fei could clearly feel that there was a strange change in space.

This change should be just like the one happening when he was pulled into Yin’er’s world.

However, this power couldn’t exclude a strong master like Han Fei. Therefore, Han Fei could see Yin’er’s original body facing a child a few years old.

There was no telling what Yin’er’s original body had sensed.

Suddenly, she began to sob slightly. However, smiles and sadness alternately appeared on her face.

The original body and the Yin soul looked at each other for about a hundred seconds before they slowly extended their fingers.

Like milk and water blended, the Yin soul turned into a wisp of smoke and disappeared into Yin’er’s body. In the next moment, Yin’er’s body began to tremble slightly.

“Ahhh~”

With a long roar, Yin’er opened the Sun-Moon Shell at the critical moment.

Instantly, in the entire Sky Meditation Garden, a massive amount of ownerless souls escaped from the ancient visualization objects.

From the ground of the Sky Meditation Garden, infinite spiritual energy and energy surged out.

In addition to what Han Fei had prepared... Almost in an instant, changes happened in the Sky Meditation Garden.

Thousands of spiritual energy vortexes appeared and gathered under the Infinity Tower.

Crack ~

The sound of a breakthrough sounded. The energy in Yin'er's body seemed to explode and began to circulate crazily.

One hour passed.

Two hours passed.

It took her eight hours to make the breakthrough.

Yin'er had already broken through four small realms in a row.

Logically speaking, this breakthrough should be enough. After all, Yin'er didn't have a physique like Nian'er that had been accumulated for tens of thousands of years.

After the breakthrough, she could skip four levels in one go. It was extremely terrifying.

Now, she was not a law enforcer, but an Explorer. She had directly stepped into the realm of an intermediate Explorer.

On the ninth hour, as Han Fei expected, Yin'er barely broke through to the fifth level, and this breakthrough stopped abruptly.

Just when Han Fei thought that Yin'er was going to end this breakthrough, he saw Yin'er sit down with a golden light flashing between her eyebrows.

The old turtle suddenly said, "She's awakening her spiritual beast."

"Huh?"

Han Fei was surprised. Yin'er didn't have a spiritual beast before?

Han Fei found it strange. He didn't expect Yin'er's spiritual beast to awaken at this time.

However, it did make sense. He only began to rise after he transmigrated and fused with his original body. Perhaps, his awakening process was the same as Yin'er's.

Now...

Han Fei waited for another half an hour. At this time, a green-gold goldfish appeared in the void, swaying its tails.

Its body was not big, only one foot long, but it had nine tails, each of which was three feet long.

Information popped up in Han Fei's eyes.

< Name > Nine-Tailed Immortal Phoenix Fish

< Introduction > Nine-Tailed Immortal is an ancient divine beast, one of the most beautiful fish in this world. It has an immortal and indestructible body! The nine tails of the Nine-Tailed Immortal Phoenix Fish contain its vitality. When the Nine-Tailed Immortal Phoenix Fish is fatally injured, it will burn one of its tails to be reborn. After rebirth, it will temporarily obtain nine times its combat power. If it wants to cultivate the lost tail back, it has to transcend the tribulation. It was born with a divine technique that can increase its strength by nine times in a short period of time.

< Level > 1

< Quality > Divine Beast

< Spiritual Energy > 1,000 points

< Food > Omnivorous, likes shrimp and shellfish

< Remarks > A divine beast has a chance to become a god.

“Hiss ~”

After seeing the information of the Nine-Tailed Immortal, Han Fei couldn't help taking a breath. F*ck, a divine beast! Thanks to his sister, he had seen a divine beast the first time in his life.

This divine beast was born with a divine technique that could increase its strength by nine times.

Was this thing a joke?

It had to be known that Han Fei could only increase his strength by three times with the help of his Great Dao. With the help of the Invincible Eye, he could only increase his strength by four times. In the state of frenzy, he could only increase his strength by five times by triggering the Chaotic Qi and burning his essence blood...

It was almost impossible for it to be higher than this number.

But now, Han Fei saw a spiritual beast with a divine technique that could increase its combat power by nine times. He couldn't have felt worse.

However, Han Fei was still relieved.

After all, this was his sister, not his enemy.

Otherwise, if a person who could grow up like him had such a spiritual beast, to be honest, he would be worried.

“Huff~”

Yin'er let out a long breath.

The surrounding energy and spiritual energy began to calm down. In addition to a slight instability in her strength, she felt very good now.

Her Heavenly Heritage should have been completely opened.

As soon as Yin'er opened her eyes, she saw the Nine-Tailed Immortal swimming around her. Her goldfish eyes were particularly attractive and her long tails were like long gauze ribbons.

Yin'er suddenly covered her mouth and then looked in Han Fei's direction, exclaiming, "I have a spiritual beast now?"

Han Fei smiled and said, "A divine beast, this is the only divine beast in the Raging Sea."

Yin'er was stunned, tears streaming down her face.

Since she was young, she had given up on having any spiritual beasts. Who would have expected that not only had she recovered from her illness, but she had also awakened her spiritual beast today?

Yin'er hugged the Nine-Tailed Immortal as if she wanted to feel her spiritual beast well.

Suddenly, she remembered something.

She ran towards Han Fei and hugged him. "Brother, thank you..."

Han Fei grinned and laughed. "Why are you thanking me? We're family..."

Yin'er said, "If you hadn't gone to the Glazed Glass World to find me, I don't know how many years of hardship I would have to endure."

"Alas..."

Suddenly, a sigh attracted Han Fei and Yin'er's attention.

Han Fei suddenly looked sideways, only to see an elegant figure appearing not far away, looking at them with mixed feelings.

Han Fei couldn't help but exclaim, "F*ck, Old Han?"

Han Fei was stunned. He had always thought that Old Han was no longer in the Yin-Yang World. He didn't expect him to be in the Sky Meditation Garden.

Chapter 1876: Yin'er's Special Training

Han Guanshu's appearance was something Han Fei never expected.

However, this was a good thing. Yin'er had never seen her father since she was young. It was great that Old Han was here.

However, Han Fei immediately discovered that something was wrong. This Old Han had almost no strength.

Sure enough, Han Guanshu smiled faintly. "I'm just a soul body. I'm staying here just to witness this."

Han Fei nodded slightly and said to Yin'er, "Look! This is our father. His original body is out doing something big. He left his soul body here to see you."

As for Yin'er, perhaps because she had fused with her Yin soul, she might have some vague memories of the Yin soul.

Therefore, when she saw Han Guanshu, she subconsciously wanted to run over. However, after running a few steps, she realized that something was wrong. Although this was her biological father, he still looked like a stranger to her!

Han Guanshu chuckled and seemed to understand Yin'er's feelings. He said, "Yin'er, don't be afraid. You should only have extremely vague memories now, but in any case, you're better than your brother before. He didn't even have vague memories before. Now that you two are reunited, you can take care of each other."

With that, Han Guanshu looked at Han Fei. "I'm relieved to see that you've found your sister back. More than half of my concerns have been solved. Now I can go about my business."

Han Fei said, "You didn't go to the Raging Sea, did you? You moved into the Wild Abyss of your own accord. You should disappear in the Wild Abyss... The only possibility I can think of is time. However, where did you get the ability to cross the river of time?"

Han Guanshu smiled. "Don't make wild guesses. If you want to, you can consider it when you become an emperor. Maybe I'll have brought your mother back by then."

Han Fei rolled his eyes. "If you could, you would have brought her back long ago. Why did you wait until now?"

Han Guanshu shook his head slightly. "It's different. I had concerns before. Okay, since Yin'er has returned, there's only one last thing left. Don't worry. Let her go to the Ideal Palace. Everyone has their own fate and luck. Since you are already living in this world, it's extremely difficult for the former power to stop you. This trip should be quite smooth. When Yin'er's old body and her current body fuse, the crisis of the Yin-Yang World can be resolved."

Han Fei shrugged. "You don't have to worry about that. I'll arrange it."

Then, Han Fei said, "Okay, you two can meet up. I'm going to take a look at this yard and fix it."

...

After about half an hour, Yin'er said to Han Fei who was eavesdropping, "Brother, stop eavesdropping. Let's go."

"Cough, cough! What? Am I the kind of person who eavesdrop? By the way, what did Old Han talk to you just now?"

Yin'er was speechless. You've heard everything you should have heard. Why are you still asking?

Yin'er said, "Brother, I'm going to the Ideal Palace."

"No!"

Han Fei immediately objected and said, "I mean not now! You've just awakened your spiritual beast and lack combat skills, knowledge, and techniques in all aspects. You need to be trained by me for two months. In these two months, I won't show mercy. When you can defeat me in the same realm as you, it will be when you go to the Ideal Palace."

Then, Han Fei said, "Let's go to the Thousand Star Proving Ground."

A moment later.

In a nine-star secret realm in the Thousand Star Proving Ground, Han Fei said, "This place has ten times the acceleration of time. One day of cultivation is equivalent to ten days of cultivation in the outside world. Two months of special training begins today."

With a thought from Han Fei, the Ice Snow Lotus Throne appeared.

Han Fei said, "This thing is called the Ice Snow Lotus Throne. You can sit on it and cultivate. The effect will be doubled with half the effort. Your previous realm is unstable. Cultivate the Purity Mystic Body first and refine your strength to increase your physique several times."

Yin'er nodded slightly.

She also knew that she would undergo a personal trial. This trial would make her completely belong to this era.

Therefore, she could understand Han Fei's worry and request.

With Han Fei personally accompanying her and a massive amount of resources for Yin'er to use, her physique was improving at a godly speed.

Originally, the Purity Mystic Body was a cultivation method that consumed a lot of energy.

With the enhancement of the Ice Snow Lotus Throne and the acceleration of time, it only took six months for Yin'er's strength to drop from the intermediate Explorer realm to the junior Explorer realm.

Her level also dropped from level 85 to level 80.

This difference in realm didn't reduce Yin'er's strength at all. Instead, it made her extremely strong as a junior Explorer.

Han Fei didn't expect Yin'er to reach his level before in one go.

Therefore, after completing the initial body tempering, Han Fei began to teach her the 108 Desolate God Body.

Although this great technique's body tempering effect was greatly inferior to the Purity Mystic Body, it was a very good movement technique. With this movement technique, one's combat power could double.

...

Eight months passed.

In the secret realm, a young woman was holding two knives and fighting Han Fei's projection.

On the side, Han Fei said, "Fighting requires many changes. I taught you that in close combat, when you don't have enough strength, remember to borrow strength."

Bang! Bang! Bang!

Boom Boom Boom ~

Buzz!

All of a sudden, the Qi and blood in Yin'er's body surged, and her strength doubled. She was using Han Fei's Draw Technique, but it was slightly modified.

This modification sacrificed combat power but increased her speed.

However, what was a pity was that although the Black Phoenix personally took care of Yin'er, because she couldn't let Yin'er cultivate for a long time... the Black Phoenix didn't dare to really teach Yin'er, fearing that she would trigger Yin'er's power and cause her to make a breakthrough.

Therefore, Yin'er hadn't formed her own combat system yet.

In the past year, Han Fei had taught her almost all his combat skills that could be learned quickly.

Of course, Yin'er only chose some specific combat skills according to her preferences.

Although it was almost impossible for Yin'er to surpass him in this way of teaching, in terms of combat power alone, there were probably not many people who could defeat Yin'er in the realm of junior Explorer.

Han Fei knew that he couldn't teach her anymore. Yin'er would have to embark on her own cultivation path sooner or later. Therefore, the rest of the path depended on her herself.

Two months of teaching was almost over. Although Yin'er couldn't beat Han Fei who was at the same level as her, he couldn't really stop her from entering the Ideal Palace.

On this day, Han Fei said, "Yin'er, from today on, I'll teach you a new class. Listen carefully. How much you can grasp depends on your own ability."

Yin'er nodded hard.

Although she was a little tired this year, it was the happiest moment in her life.

It felt really good to be with her brother.

Even from Teacher Black Phoenix, she didn't feel this kind of affinity.

Han Fei and Yin'er sat cross-legged, and Han Fei said, "Listen... Cultivators cultivate against the heavens, and what they cultivate is a firm Dao heart. As for the Dao heart, to put it bluntly, it's a kind of determination. But most people don't understand its true meaning at all. In cultivation, the most important thing for everyone is whether the disassembling degree of spiritual energy can reach a 100% perfect state or not. The so-called disassembling is actually decomposition..."

Yin'er could still understand the first few words.

However, when Han Fei talked about the disassembling degree of spiritual energy, Yin'er's eyelids drooped almost instantly and she fell asleep.

Han Fei knew it, but he didn't stop talking.

In fact, it would only take him half an hour to explain the so-called Dao heart. However, he kept repeating it for a full day, hoping that Yin'er could listen to it repeatedly in her sleep and gain some insights.

One day passed.

Yin'er showed no signs of waking up.

Han Fei controlled the Demon Purification Pot to appear and took out Ji Xuan's Azure Dragon Sword, Five Elements Chen Hao's Five Elements Wheel, and the Sea Quelling Bizarre Treasure fragments that Dongfang Ming and Bai Jingjiu exchanged with him.

He put the three Sea Quelling Bizarre Treasure-level treasures into the Demon Purification Pot to refine a new Sea Quelling Bizarre Treasure.

In the past, the Demon Purification Pot couldn't refine Sea Quelling Bizarre Treasures because the conditions were limited, and the little vines hadn't been completely collected. But now, this was no longer a problem for the Demon Purification Pot.

Han Fei thought to himself, To refine a weapon that can change its shape as freely as the Infinity Water...

Because Han Fei didn't know which path Yin'er would choose in the end and what Great Dao she would take.

Therefore, it was very meaningful for her to have a weapon that could change its shape at will.

The Demon Purification Pot lived up to his expectations, but the consumption of spiritual energy was a bit beyond Han Fei's expectations.

There was no telling if it was because refining a Sea Mystic Treasure was too difficult, but refining it actually consumed 500,000 ultra-quality spiritual stones.

Han Fei didn't think that the Demon Purification Pot had completely absorbed all the 500,000 ultra-quality spiritual stones. It might only have absorbed their essence, but he could still afford this price.

After that, with a thought from Han Fei, a leaf of the Divine Demon Vine flew into the Demon Purification Pot. After consuming another 500,000 ultra-quality spiritual stones, a long green dress appeared in midair.

Chapter 1877: The Best of Mystic Yellow, Fiendish Qi Entering the Body

Sea Quelling Bizarre Treasures usually had their own unique uses. Although the first Sea Quelling Bizarre Treasure Han Fei refined looked like a knife, its characteristics were that it could transform into any weapon.

Han Fei's original intention was to use the Divine Demon Vine Grass leaf for Yin'er's defense. Therefore, when refining it, he didn't add any other abilities, but meant to use it mainly for defense.

When Nian'er woke up from the epiphany, Han Fei didn't give her the two things directly, but said, "Why don't you try disassembling spiritual energy now?"

Nian'er seemed to have some insights about it and disassembled spiritual energy for seven days in a row. In the end, her disassembling degree fell to 68%.

Han Fei thought to himself, I didn't reach such a high level at the beginning. After all, Nian'er is only a junior Explorer, and her disassembling degree is enough.

On this day, Nian'er seemed to sense something and said, "Brother, should I start the trial?"

Han Fei nodded slightly. "Remember, in the trial, you might not know who you are and where you are from. Or maybe, you know who you are and where you are from. The real meaning of the trial is for you to find a direction there and find your true self back..."

Yin'er smiled at Han Fei. "I know. The trial is dangerous."

Han Fei said, "It's good that you know. I have two things for you. If you want to bind them with your blood, it may need a lot of your essence blood. But it doesn't matter. I'll help you recover your essence blood at any time. Don't worry."

Then, Han Fei took out a long knife and the green dress.

When Yin'er saw the glowing celestial dress, she couldn't help but exclaim, "A Sea Quelling Bizarre Treasure?"

Han Fei said indifferently, "Don't rely too much on this thing. This is just a low-quality Sea Quelling Bizarre Treasure. Even so, it's not something you can use easily. You should depend on your own strength to use a Sea Quelling Bizarre Treasure."

With that, the knife flew to Yin'er. "Bind it with your blood."

Yin'er's heart warmed. Is this what it feels like to have a brother?

When Yin'er cut her palm, half of her essence blood was extracted.

Seeing this, Han Fei hurriedly protected her with the Heaven Enlightenment Divine Technique. It took Yin'er an hour to bind the two Sea Quelling Bizarre Treasures with her essence blood.

At this time, Han Fei said, "Yin'er, that's all I can do for you. I'll give your one last amulet later... From now on, even if you return, you'll have to think about what path to take, how to walk, and why to walk. I've taught you everything I can in the past two months."

Yin'er's eyes turned red.

She certainly knew what Han Fei had done for her. She choked slightly. "Thank you, Brother."

That was all Han Fei could do.

In the end, the blue halo on Han Fei's hand intertwined, and the Time Ring he was wearing turned on Yin'er's wrist, turning into a thin bracelet.

Han Fei said, "Yin'er, remember this thing. It may be the way back for you."

...

Half a day later, Yin'er entered the Ideal Palace.

This time, Han Fei didn't accompany her.

Back then, they had walked through one Soul Realm after another. To this day, their names should still be on the stone tablet in the Ideal Palace.

From the moment Yin'er stepped into the Ideal Palace, she had to walk her own path.

What would she encounter? What would she experience? Everything depended on her own luck.

And he had basically given her everything he could... In fact, although he was helping her temper herself, Han Fei was still worried that he was too hasty.

Therefore, reason told Han Fei that he had to stop.

Everyone in the Thug Academy had grown up like this. They were like this, so were Qu Jinnan and company, and so was Yi Xiyan and her partners.

The protection of the academy was only on the surface. Only they knew the real danger.

The moment Yin'er entered the Ideal Palace, Han Fei quietly returned to the Sky Meditation Garden.

At this moment, the Sky Meditation Garden was in a sealed state.

Han Fei sealed the entrance. Before Yin'er came out, unless something big happened, he wouldn't return to the Scattered Stars Island.

During this period, Han Fei could finally breathe a sigh of relief and consider his own matters.

Han Fei immediately took out the Mystic Yellow Scripture. After skimming through it, information popped up in his mind.

Mystic Yellow Scripture (Sea Establishment Realm)

Introduction: Mystic yellow is the color of the world. It's the beginning of the convergence of Yin and Yang and contains the Dao runes of all techniques. Mystic Yellow Energy is impure energy of the Great Dao. Although it's impure, it's infinitely powerful. Dragon swallows Mystic Yellow Energy to cultivate and fight, so their blood is mystic yellow. Therefore, the Dragon Slaying Technique must be cultivated with Mystic Yellow Energy.

Deduced Art: Heaven and Earth Art

Cost: 1,000 wisps

Effect: When cultivating this technique, you can condense impure Great Dao energy and release the might of the heavens.

Shortcoming: The impure Great Dao energy is useless to the body.

Remarks: Cultivate it with caution.

After reading the information of the Mystic Yellow Scripture, Han Fei's heart sank.

Han Fei was not interested in the Mystic Yellow Scripture alone. The introduction said that although the Mystic Yellow Qi was powerful, it was very impure.

Even if it could be powerful for a period of time, as the user's realm increased, he might be disturbed by the impure Great Dao energy, which might limit his growth space.

As for the Dragon Slaying Technique, it could kill dragons because it used the power of the Mystic Yellow Energy to kill dragons. This was because dragons swallowed this power to cultivate.

In this way, Han Fei finally understood. The Dragon-Subduing World might be powerful, but it was only powerful in the Sea Establishment Realm. Although they were known as dragon slayers, they sacrificed their cultivation potential to master the powerful dragon slaying technique.

Han Fei couldn't help shaking his head.

He suspected that something went wrong with Zhao Xianglong's cultivation because he cultivated the Mystic Yellow Scripture. It was difficult to not go crazy after eating too much of the impure Great Dao energy.

Han Fei's first thought was to abandon these great techniques, because he felt that he still had a long way to go. If he took this path, wouldn't it be a dead end?

However, Han Fei suddenly thought of something. Since the Mystic Yellow Qi was impure, could it be purified?

Han Fei couldn't help asking, "Old Yuan, do you know what kind of power is above the Mystic Yellow Qi?"

The old turtle said, "The Mystic Yellow Energy and the Chaotic Qi are actually spiritual energy of the same level. Their upper limits are both very high, but to be honest, the power above the two is actually not beyond the two of them. In the Age of Gods, there were demonic might, fiendish energy, and immortal Qi. These three are actually high-quality spiritual energies of the world. Perhaps they can be combined with the will of cultivators. Therefore, generally speaking, when the Chaotic Qi reaches the extreme, it will develop in these three directions. I don't know much about the Mystic Yellow Energy, but it's none other than these three developing directions."

Han Fei's heart did a flip. "Do you mean that when the Chaotic Qi and the Mystic Yellow Energy reach a certain purity, they will become those three kinds of powers?"

The old turtle said, "Maybe! Anyway, I entered the demonic Dao with the Chaotic Qi. As you know, the demonic might I produced is the black mist. Unfortunately, I could only take a small part of it out."

Han Fei couldn't help being shocked. The old turtle's demonic power was extremely powerful. It could be seen that the old turtle could resist a king with a wisp of his remnant soul.

Besides, the demonic might was unfathomable, devouring vitality and essence. It was indeed not weak.

Hearing what the old turtle said, Han Fei thought to himself, I have the Yin-Yang Millstone! I wonder what the Mystic Yellow Energy will become after being tempered by the Yin-Yang Millstone?

Han Fei found a new way to obtain energy. With the Yin-Yang Millstone, Han Fei was confident that he wouldn't swallow the impure Mystic Yellow Energy.

Three days passed.

In the Sky Meditation Garden, a yellowish-brown power was absorbed by Han Fei.

In Han Fei's body, a fist-sized Yin-Yang Millstone was spinning. A large amount of impure power dissipated out of his body.

However, a small part of the power entered his body.

Buzz!

When Han Fei felt the purified Mystic Yellow Energy, he immediately felt that his momentum had suddenly increased by a level.

"Han Fei, what are you doing? The fiendish energy will conflict with the Chaotic Qi... Huh, are you okay?"

Suddenly, the old turtle seemed to be shocked and hurriedly said, "The power of your millstone can produce real fiendish energy?"

Han Fei felt this power swimming in his body.

Han Fei was surprised to find that this power was even a level higher than the Chaotic Qi?

Subconsciously, Han Fei had a feeling that if he released this wisp of fiendish energy, he might be able to obtain the power to kill a king.

Han Fei asked, "What's the benefit of cultivating fiendish energy?"

The old turtle said, "I don't know. Fiendish energy was the top power in the Wild Age. In the Age of Gods, everyone used Chaotic Qi to reach the extreme and give birth to Immortal Qi. Well, some people like me would produce demonic might by entering the demonic Dao. However, whether in the Wild Age or the Age of Gods, the power of the demonic Dao seemed to be just demonic might and wouldn't involve immortal Qi or fiendish Qi."

Han Fei seemed to understand.

It seemed that when the Chaotic Qi reached the extreme, it could produce Immortal Qi. When the Mystic Yellow Qi reached the extreme, it could become fiendish Qi.

The old turtle had just exclaimed that the demonic energy would conflict with the Chaotic Qi, which made Han Fei suspicious. "What do you mean by conflict?"

The old turtle was also very puzzled. "That shouldn't be the case! These are two incompatible powers. Just like the Immortal Qi and the Fiendish Qi shouldn't exist at the same time. However, why do they co-exist in your body?"

Chapter 1878: Immortal Fiend Saber

What the old turtle said touched Han Fei.

Han Fei immediately realized that if what the old turtle said was true and he didn't feel the conflict of powers...

Did this mean that he could store these two powers in his body at the same time?

Han Fei murmured, "Is this related to my second spiritual heritage?"

Although he knew that he had a second spiritual heritage, the Demon Purification Pot hadn't given him any specific information on it. Therefore, Han Fei didn't know what power these two spiritual heritages had.

Now, when he could accommodate the Chaotic Qi and the fiendish energy at the same time, Han Fei suddenly realized that perhaps the natures of his two Heavenly Heritage were very different.

It was just like how he had awakened the celestial Twin Yin-Yang Spirit Swallowing Fish and the ferocious Emperor Sparrow at the same time. If his two Heavenly Heritage were like this, then he might be able to cultivate these two powers at the same time.

Han Fei's heart did a flip. Now, he had only condensed a fiendish energy, but this fiendish energy was of a higher level than the Chaotic Qi. Perhaps this couldn't tell if the two were in conflict.

Therefore, Han Fei directly activated ten wisps of Chaotic Qi and placed them in the Yin-Yang Millstone.

After only a moment, the ten wisps of Chaotic Qi turned into a small wisp of green flashing spiritual energy.

"Immortal Energy?"

The old turtle was lost for words. "Your millstone can extract Immortal Energy so easily? Doesn't it mean that you can use the power of an emperor in advance?"

Han Fei's heart did a flip. "The power of an emperor? Emperors use this energy?"

The old turtle said, "What emperors use might not be as pure as yours. However, your strength comes too slowly. It's not strong enough."

Han Fei smiled and ignored the old turtle.

He was in the experimental stage in the first place.

If he could have both powers, although he didn't know what they were for now, he would definitely know in the future. It was impossible for him not to gain anything.

Han Fei controlled the Immortal Qi and the Fiendish Qi, trying to interweave the two.

However, a magical scene appeared: although these two powers existed in his body, and they could even be very close to each other.

However, when he wanted to make the two powers intertwine, he found that they were like two identical magnetic poles that wouldn't touch each other no matter what.

Even if Han Fei tried his best to make the two touch, the two were like black and white. Even if they were dislocated, they wouldn't touch.

“Tsk, tsk. Interesting! These two powers can indeed coexist in your body.”

Han Fei was lost for words. “Do I need you to tell me? Isn’t it obvious?”

The old turtle said, “However, in any case, these two powers are actually not very useful to you now. How much power did you consume to get them? You can’t use them as ordinary power with your current strength.”

Han Fei curled his lips. The old turtle was right. It was indeed difficult to obtain these powers now.

However, Han Fei’s heart did a flip. It was a little difficult, but these two powers were strong! Maybe he could use these two powers as a trump card in the future.

“Two repulsive forces... Huh? What if I use them on the Yin-Yang Infinite Saber? I wonder how effective they are?”

Han Fei immediately tried.

The Yin-Yang Infinite Saber used the Yin-Yang Great Dao.

However, the Immortal Qi and the Fiendish Qi seemed to be two powers that repelled each other. In a sense, they were somewhat similar to the Yin-Yang Dao.

As soon as Han Fei used his strength, the sky suddenly changed color.

The Immortal Qi and the Fiendish Energy instantly soared into the sky.

With a puff, they broke through the seal of the Sky Meditation Garden and charged into the sky.

The Sky Meditation Garden, one of the three Holy Lands, had never had its powerful seal broken.

However, now there was a hole in the seal.

Before Han Fei sensed it, the Immortal Qi and the fiendish energy condensed into the Yin-Yang Infinite Saber and soared more than 300 kilometers away.

Swish ~

Han Fei thought to himself, Not good!

Immediately, Han Fei chased out and broke through the air.

However, at this moment, it was not so easy for Han Fei to take back the Yin-Yang Reincarnation Blade. It was extremely difficult for him to take back the two powers.

Seeing that they were a little uncontrollable, Han Fei quickly absorbed some of the controllable power and then deliberately shattered the two powers.

Rumble! Rumble!

In the distant sky, endless ripples swept thousands of kilometers in the sky. The clouds in the sky were cleared, and the void ripples were visible to the naked eye.

At that moment, in the Thousand Star City, countless people looked up at the sky. Some of the stronger ones could see a person carrying a terrifying ripple being blasted straight down.

Needless to say, the person who was blasted down was Han Fei, the one who caused this explosion.

After more than a hundred seconds, everyone was relieved to see that the power didn't fall on the Thousand Star City.

Han Fei, on the other hand, had his clothes torn and blood flowing from the corner of his mouth.

After casting the Heaven Enlightenment Divine Technique on himself, Han Fei cursed and got up. "What a terrifying power! Did I create this myself? Son of a b * tch, my strength is a little uncontrollable!"

The old turtle said, "This is not a power that you, a Half-King, can control in the first place. This kind of power can't even be owned by those in the Sky Opening realm. I have to say that your Yin-Yang Great Dao is indeed strange."

Han Fei held his waist and changed his clothes. Looking at the automatically repaired array, he was finally relieved.

Compared to the power of the immortal Qi and the fiendish energy, the Dragon Slaying Technique was nothing. It would be strange if he couldn't kill a dragon with these two powers!

At this moment, outside the Sky Meditation Garden, countless people looked up, feeling that something big must have happened.

But at the next moment, Han Fei said, "Oh! I made a mistake and caused some noise. The Sky Meditation Garden is still being rebuilt. Please wait patiently."

"Huff~"

Someone patted his chest and said, "It was a false alarm."

Someone sighed. "Marshal Han must have made a big move this time. This power has already exploded in the sky. It's definitely not simple."

Someone said, "From now on, I must not leave the Sky Meditation Garden. The first to enter it will definitely gain a lot."

"Agreed, Brother. I'll wait with you."

...

On this side, Han Fei entered the Sky Meditation Garden again.

While walking, Han Fei murmured, "This power is too strong! In terms of strength, it's no weaker than All Great Daos in One Sword. In fact, in terms of strength, it's better, but the consumption is much greater than All Great Daos in One Sword. Unfortunately, it can only be used as a backup and can't be used as my main offensive combat skill. However, the name, Yin-Yang Reincarnation Saber, is clearly not suitable. Since it's a burst of immortal energy and fiendish energy, I'll call it the Immortal Fiend Saber. Well... Perfect..."

Thinking about it, Han Fei entered Forge the Universe and refined another wisp of immortal energy and fiendish energy. Then, he stopped thinking about it.

In Forge the Universe, Han Fei stayed for another year and ate more than 800 poisons. While taking the medicine, Han Fei spent most of the remaining time practicing the Void Fire Refining Technique.

This was actually a refining technique, but it also had the dual effects of body refinement and soul refinement. Furthermore, the effect was extremely good. Therefore, its ranking was extremely high.

To practice this technique, one needed to enter the void and master the Void Fire.

Han Fei wasn't sure if he could enter such a place in Forge the Universe.

However, it took Han Fei half a year to understand that the so-called Void Realm was actually the void in the heart. And the Void Fire was actually a visualization fire produced by the soul in the form of spiritual power.

When he preliminarily mastered the Void Fire Refining Technique, Han Fei began to refine weapons.

This fire refining technique also didn't need forging. It just needed materials.

For the first time, Han Fei poured the Void Fire into a conch shell. When the conch shell melted, Han Fei needed to rebuild his soul with the power of his soul.

His soul seemed to have become a mold, and his spiritual power, which could be consumed, had become fuel!

In the first half, Han Fei needed to shape it with the power of his soul, which consumed a lot of his soul power.

However, when the Void Fire really burned, Han Fei discovered, to his shock, that the burned Void Fire had burned into his body and seemed not to want to waste any energy.

Han Fei instantly understood that the person who created this technique didn't want to waste any of his strength.

He used the spiritual power born from his soul to refine weapons!

The remaining spiritual power would fuse with his body and nourish it.

And his nourished body would be cultivating in torment.

During this period of time, when the soul had rested enough, the spiritual power could be reproduced. As this process repeated, the spiritual power expanded as it was exhausted time and time again, which represented the strengthening of the soul.

And his body had been refined and nourished, so it would become stronger too.

He cultivated like this for more than a year.

Han Fei's soul power hadn't reached its limit.

In fact, there was no limit to the power of the soul. However, the power contained in his body was so strong that Han Fei had already sensed that a heavenly tribulation was coming in the Sky Meditation Garden.

At this moment, Han Fei had to stop cultivating.

As the Demon Purification Pot showed, Han Fei's current state was extremely shocking.

Owner: Han Fei

Level: 89 (Half-King)

Bloodline Ranking among the Clans in the Infinite Ocean: the 2,720,986th

Chaotic Qi: 2,246 wisps

Spiritual Power: 378,003

Perception range: 250,000 kilometers

Strength: 39,999 Waves

First Spiritual Heritage: Unknown

Second Spiritual Heritage: Unknown

First spiritual beast: Twin Yin-Yang Spirit Swallowing Fish (level-80)

Second spiritual beast: Emperor Sparrow (level 79)

Chapter 1879: Entering the Ideal Palace Again

Han Fei had thought that the power of his soul would rise to a limit in the short term before it stopped growing.

However, it seemed that his physical strength limited the growth of his soul power.

However, no matter what, Han Fei knew that at this stage, he really couldn't continue to grow. His tribulation was coming!

At this time, it had been almost a month since Yin'er entered the Ideal Palace. Of course, this was the time in the outside world.

Since Han Fei couldn't cultivate now and Yin'er hadn't come out yet, Han Fei glanced at the Sky Meditation Garden and took out thousands of fish bones from Forge the Universe.

The Void Fire burned, and Han Fei turned them into bone pillars more than ten meters tall.

On these pillars, Han Fei drew visualization pictures according to what he saw.

The so-called visualization pictures could be understood as the spiritual comprehension of a strong master. After being engraved with the strong master's insights, it would become a visualization object.

Besides, this visualization object could also have a slight connection with its master.

In the end, Han Fei came to the Infinity Tower.

Han Fei could feel the power of some Dao runes on the tower. This power was the reason why people had been staying in the tower and couldn't go up.

Han Fei's heart did a flip. If the power of these Dao runes was removed, people could go up the tower.

Han Fei moved and appeared on the top of the tower.

However, there was nothing here except a few green stones.

Han Fei pondered for a while and casually drew an ultra-quality long sword that he had just refined from Forge the Universe. Han Fei held the hilt and injected a wisp of spiritual will into the sword.

"Puff ~"

In the next moment, Han Fei casually inserted the sword into the stone. He stomped, and interlocked arrays appeared, and the sword immediately dimmed.

Only at this moment was Han Fei satisfied. He said casually, "I got the God Scaring Painting by accident. I can leave it here. In the future, someone should be able to break the Infinity Tower of the Sky Meditation Garden."

"Good! The Sky Meditation Garden might become the most popular cultivation place in the Thousand Star City."

Han Fei put his hands behind his back and looked at the visualization fish bones erected on the grassland. Then, after calculating the time, Han Fei decided to go to the Ideal Palace.

Outside the Sky Meditation Garden, more and more people gathered.

At first, there were only a thousand people, but now, there were more than a million. Everyone was waiting.

However, the Sky Meditation Garden was only so big.

Luo Xiaobai got the news and personally arranged for a capable assistant to see what Han Fei was up to.

Buzz!

As soon as Han Fei came out of the Sky Meditation Garden, he saw a sea of people.

The moment Han Fei came out, those who were sitting cross-legged or chatting all came back to their senses.

"It's Marshal Han."

"Marshal Han is out."

"Marshal Han is out. Has the transformation of the Sky Meditation Garden succeeded?"

“Roar... Marshal Han...”

For a moment, the entire outside of the Sky Meditation Garden was in an uproar. The roars were endless, and people were shouting their admiration for Han Fei.

As soon as Han Fei came out, someone flew over and cupped his hands at Han Fei. “Greetings, Marshal Han.”

Han Fei glanced at the eight-star token on him and nodded slightly. “Did Luo Xiaobai ask you to come?”

The man nodded. “The marshal asked me to see what’s going on in the Sky Meditation Garden. Because the Sky Meditation Garden is only so big, and there are too many people in the Thousand Star City, there should be some admittance standard.”

Han Fei nodded slightly. Luo Xiaobai was really thoughtful. He nodded and said, “The Sky Meditation Garden has been changed into a place to cultivate the power of the soul by me. As for how to manage it, it’s up to you! As long as the procedures are not too troublesome! By the way, let the first batch go in to visualize and spread the news.”

“Yes, Marshal Han.”

After that, Han Fei looked at the crowd and said in a loud voice, “Everyone, listen up. From today on, the transformation of the Sky Meditation Garden is completed. I’ve put in a lot of effort to rebuild the Sky Meditation Garden. Today, anyone can enter and experience it... However, the rules can’t be messed up. The experience is just an experience. The Sky Meditation Garden will set rules. Everyone must obey management and arrangements... Okay, that’s it. Come in!”

“Roar!”

“Charge!”

“Don’t shove. Don’t stand in my way.”

“Don’t squeeze. I’m flying.”

For a moment, the crowd surged.

Although everyone worshiped Han Fei, he was a high and mighty figure after all and wouldn’t have much contact with them.

However, the Sky Meditation Garden was different. This was a cultivation place.

After Han Fei’s transformation, it must be much better than before. If they could seize the initiative and occupy a favorable position, they might be able to gain a lot.

Han Fei saw that this sea of people was like a school of carps crossing the river, unable to be stopped.

At this moment, these people were no longer called Marshal Han. When they rushed up, they had completely forgotten Han Fei’s existence.

Han Fei frowned. He had just received a large wave of Power of Will, but it suddenly plummeted. It seemed that opportunities were more popular than him!

Han Fei left quietly.

When he reappeared, he was already outside the Ideal Palace.

At this moment, the Ideal Palace was empty. Everyone knew that the Sky Meditation Garden had been rebuilt, so they all went to the Sky Meditation Garden.

Here, Han Fei specially let Old Yuan out and said, “I’ll go in for a while. It should be soon. Wait outside. If my sister comes out, take care of her.”

â€¦

Logically speaking, at Han Fei's current level, he shouldn't have entered the Ideal Palace, because the power in the Ideal Palace was completely suppressed.

Even Han Fei's strength as a Half-King was suppressed to the Hidden Fisher level here.

Third Soul Realm, Blue Sea Soul Realm.

Han Fei stepped into it and moved forward very fast, ignoring the sea demons along the way.

Even if Han Fei's strength was suppressed, his strength was still great, and these sea demons couldn't resist him at all.

In less than five hours, Han Fei arrived at the deepest part of the Blue Sea Soul Realm. As soon as he arrived, he felt boundless suppressing pressure.

However, this time was different from last time.

Last time, he was really only a Hidden Fisher. His soul power and soul strength couldn't resist this azure dragon at all.

This time, although Han Fei's realm was suppressed, the level of his soul was completely different.

At this point, Han Fei discovered that the so-called soul suppression was just a suppression from the soul and life level.

Although the life level of this azure dragon should still be higher than his now, the quality of its soul wasn't much stronger than his.

Therefore, this time, apart from feeling a little uncomfortable, Han Fei didn't feel any life-and-death crisis, such as being unable to move.

Buzz!

In the darkness, an extremely huge azure dragon head slowly appeared.

"There you are! Did you bring my body?"

Han Fei smiled casually. "I've found your body. It's on me."

Roar!

All of a sudden, the azure dragon's huge pupils were constricted.

It said anxiously, "Where is it? Give my body back."

However, Han Fei said indifferently, "I've brought your body, but we have to renegotiate the conditions."

Then, the Vast Ocean Navigator appeared in Han Fei's hand.

The Vast Ocean Navigator only rotated slightly. When the needle pointed at the azure dragon, Han Fei immediately understood that this azure dragon was the one that Zhao Xianglong failed to kill.

His mother said that the dragon swallowed energy in the Chaotic Void and was trapped there, and she saved it.

However, it seemed that his mother still didn't know the relationship between the azure dragon and the Dragon-Subduing World.

And this azure dragon was very likely the culprit behind the bloody Dragon-Subduing World war back then.

Making a deal with such a dragon? How could Han Fei be attracted by the so-called drop of Azure Dragon essence blood and the Dragon Transformation Technique?

For Han Fei, he never lacked great techniques. In fact, he had so many great techniques that he couldn't learn them all. Besides, once he really entered the Void Temple, this Dragon Transformation Technique of unknown level was nothing.

Han Fei said, "I've found your body for you, but your repayment is not enough. You know, it took me a lot of effort to find your body."

Roar!

"Human, you want to break your word? Do you think I can't touch you?"

Han Fei said disdainfully, "Don't threaten me. To be honest, you're just suppressing this place with your advantage in bloodline. Do you think you're so great just because you're big? Believe it or not, I'll snatch your dragon body, take your bones, flesh, and blood, and swallow your dragon essence!"

At this moment, the fearless aura of a king was fully revealed on Han Fei. Threaten me? Even if you are an azure dragon, so what? I will still beat you.

Perhaps the momentum that Han Fei showed scared the azure dragon, or maybe it wasn't that confident in itself. Therefore, after pondering for a long time, the azure dragon lowered its voice and said, "Human, what do you want from me?"

Han Fei smiled. "First of all, all the Chaotic Qi in your body belongs to me..."

"Impossible!"

Han Fei's eyes were filled with killing intent. "Impossible? Then die."

In terms of ferociousness, how dare a mere soul body be so arrogant to him?

Han Fei thought to himself, If I don't teach you a lesson, do you really think I'm a pushover?

Chapter 1880: Dragon Transformation Technique

In fact, Han Fei didn't have to come to the azure dragon at all.

Anyway, the corpse of the azure dragon was on him. He could use it as he pleased.

Anyway, he had already mastered the Dragon Slaying Technique. If there was really a problem later, he could just kill this azure dragon.

However, this azure dragon had an agreement with his mother that its body would guard the Chaotic Original Water for tens of thousands of years. Its grudge with Zhao Xianglong had nothing to do with the Yin-Yang World. Therefore, he didn't have to kill it.

He had said that he would take the golden page and help it find its corpse.

Now that he had obtained the page and found the corpse, he wanted to get what he wanted with a clear conscience.

On the eve of his tribulation, although Han Fei wanted to obtain more Chaotic Qi, he didn't want to have any heart demon.

At this moment, Han Fei pointed his knife at the azure dragon and said angrily, "You want to get a corpse from me for nothing with just a drop of azure dragon essence blood and the Dragon Transformation Technique? Such a beautiful thing is only in dreams."

The huge body of the azure dragon slowly extended out, and the two looked at each other for a hundred seconds.

The murderous aura surging from Han Fei scared the azure dragon.

This person was completely different from before.

His suppressing pressure had no effect on him at all.

It thought to itself, This person's strength has probably reached an extremely strong level. At least, he's ready to transcend the tribulation. Otherwise, he wouldn't need so much Chaotic Qi.

After a hundred seconds, the azure dragon finally compromised. "You can take my Chaotic Qi. That's all you want, right? I'll still give you a drop of essence blood and the Dragon Transformation Technique. Now give me my body."

Han Fei said, "There's another condition."

The azure dragon roared in a low voice, "Human, even the dragon race is not as greedy as you. Aren't you asking for too much? Although I'm trapped, let's see if I can shake this place."

Han Fei said casually, "This condition is very simple. You need to tell me about the dragon race and why the dragon race wants to start a war with the humans in the Dragon-Subduing World. After all, they are the humans who summoned you."

When the azure dragon was suddenly asked this question, it immediately had a bad feeling. That asshole, Zhao Xianglong, had hunted it for so long and almost killed it. Now, this person was also a human. Could he be related to the Dragon-Subduing World?

The azure dragon said, "I don't understand what you're talking about."

Han Fei sneered. "There's nothing to pretend about. I know what happened in the Dragon-Subduing World, and I know Zhao Xianglong. Zhao Xianglong is still trapped in an array and can't come out. He is him, and I am me. I just need to know more about the dragon race. For example, how did you come here? Do you belong to this era?"

The azure dragon asked, "What do you want?"

Han Fei said, "I want to know the situation outside the Raging Sea. You should know where the Raging Sea is, right? If you say you don't know, I can assure you that you won't get your body. Let's see if I can kill you."

The azure dragon hesitated for a moment. "Our dragon race certainly didn't die in the long torrent of time. However, we're no longer as glorious as before. We descended in the Dragon-Subduing World because the Dragon Subduing Technique of this prehistoric era has been dug out. And the people of the Dragon-Subduing World cultivate this Dragon Subduing Technique. Our dragon race has a high bloodline. How can we let ordinary humans control us? However, although they haven't grasped the essence of the Dragon Subduing Technique, they can summon us through the endless void. As a result, you should know that our dragon race will not surrender to the humans and will certainly start a war."

"Dragon Subduing Technique?"

Han Fei thought to himself, Zhao Xianglong is still hiding something! He taught me the Dragon Slaying Technique but not the Dragon Subduing Technique.

At least, it sounded like the Dragon Subduing Technique was a level higher than the Dragon Slaying Technique.

However, Han Fei was not interested in the Dragon Subduing Technique now.

Because of this Dragon Subduing Technique, Zhao Xianglong had almost destroyed the entire Dragon-Subduing World, causing the death of countless human beings. If he learned it, what if he attracted another difficult opponent... the Yin-Yang World would probably be destroyed.

Han Fei said, "Where do you dragons live? Outside the Raging Sea?"

The azure dragon said, "Of course. This world is very big. Although the Raging Sea is not small, it's still too small compared to the outside world. Outside the Raging Sea, it's the territory of thousands of races. There are thousands of races there. In addition to our dragon race living in the Dragon Palace and

Dragon Valley, there are also countless races. Even in the sea of stars, there are strange beasts rampaging. Therefore, I don't think that I will have any interaction with the humans here. All I want is to leave this Raging Sea."

Han Fei was puzzled. "Can you leave?"

The azure dragon said, "The dragon race can travel through the endless void. Although you may get lost wandering in the endless void, you may also open a new exit. Although I can't walk through the Raging Sea, I can leave through the endless void."

Han Fei despised him in his heart. You were caught from the endless void back then. Now, you're bragging about leaving through the endless void? How can I believe you?

However, Han Fei was not interested in how the azure dragon would leave. He said, "You can tell me as much about the outside world as you can, including about the myriad races and the sea demons. Don't worry. I won't ask you for anything else."

However, the azure dragon shook its head slightly. "I'm afraid not."

Han Fei was puzzled. "Why?"

The azure dragon said, "The dragon race has been living in seclusion for millions of years. I don't know what the outside world you mentioned is like. I heard about the myriad races from my elders. Although there were occasionally strong masters of the dragon race who couldn't stand the loneliness and ran out... they all disappeared without a trace. This Raging Sea is the only place of the outside world I've been to except for the Dragon Palace."

Han Fei: "..."

"Fine, it seems that you don't know much about the outside world too."

Han Fei was speechless.

Han Fei's intuition told him that this azure dragon wasn't lying to him. Since it wasn't lying to him, it was possible that this dragon race was indeed a reclusive race.

He asked a few more questions about the location of the Dragon Palace, but the azure dragon also couldn't explain it.

Han Fei couldn't help but think of what the old turtle said.

The old turtle had lived from the Age of Gods, but when he asked him about the dragon race, he said that he had never heard of the dragon race.

He didn't even know about the Dragon Palace.

If the old turtle had known this news, he would have told him long ago.

Seeing that the dragon knew nothing, Han Fei lost interest in the dragon race.

He said, "I'll take your essence blood. And give me the Dragon Transformation Technique too! If I've guessed right, this place will disappear soon. At that time, I'll return your body to you."

The azure dragon clearly hesitated. It didn't know if it should believe Han Fei or not.

If the Chaotic Qi was gone, so was it.

What he swallowed every day was the Mystic Yellow Energy. The Chaotic Qi was just a natural power, and the Mystic Yellow Energy was his main combat method.

The Dragon Transformation Technique was actually nothing much. It was just a transformation technique that could obtain a part of the power of the dragon race.

In a place like the Raging Sea, even if a person learned the Dragon Transformation Technique, what else could he do except to show off at home?

However, the azure dragon was afraid that Han Fei still wouldn't let it go!

Han Fei could tell what the azure dragon was worried about. He said, "I'm not interested in you. You don't have to pretend to be stupid with me. You should know where your corpse is, and why you were suppressed there. I'm just telling you that the river of time here is about to collapse and the Heavenly Dao Dharma Eye is about to disappear. When the Heavenly Dao Dharma Eye disappears, it will be the time for you to leave this place."

Hearing this, the azure dragon said in a low voice, "Human, you are going to transcend the king-level tribulation. You should know the importance of keeping your word! If you lie to me about this matter, I will transform into a Sky Fiend Evil Dragon and pester you."

Han Fei curled his lips and said, "Do you think I'm so idle that I came here to lie to you? I can directly use the Chaotic Qi contained in your body. Why should I bother to come here to talk to you?"

The azure dragon thought that it made sense. If Han Fei really used its body, it indeed couldn't do anything.

Roar!

The azure dragon opened its mouth, and a blood jade-like thing fell in front of Han Fei.

Han Fei reached out and touched it. Instantly, he felt that a new and unknown dragon language rushed into his mind.

The azure dragon said, "If you want to learn the Dragon Transformation Technique, you have to use dragon language as the foundation."

Han Fei thought that he had just learned a great technique!

It turned out that he had learned the dragon language!

When the dragon language was imprinted in his heart, Han Fei finally felt that the last information in the blood jade turned into a great technique after it was integrated into his mind.

Dragon Transformation Technique (Unrated)

Introduction: The Dragon Transformation Technique is an inherited combat skill without any level. The Dragon Transformation Technique can temporarily transform part of a person's body, or even the entire

body, into a dragon's body. After using the Dragon Transformation Technique, one can borrow the power of a dragon in the same realm. To use this technique, one needs to use dragon language and sacrifice dragon blood.

Deduced Art: Unable to be deduced

Effect: All or part of you will transform into a dragon, and your strength will double.

Shortcoming: The Dragon Transformation Technique will brand one with the aura of the dragon race.

Remarks: This technique is a basic inherited combat skill of the dragon race. Its effect is extraordinary.
