

GOF 1891

Chapter 1891: I Left Ten Treasures

Half a day later.

Above the Scattered Stars Island, the sky curtain opened. Luo Xiaobai announced her departure and returned the Scattered Stars Island to Xue Shenqi, causing a huge uproar.

The next day, noon.

On the Scattered Stars Island, in the Thousand Star City, and in the 36 towns, people were discussing Luo Xiaobai's resignation.

Someone sighed. "What a pity. Marshal Luo is actually a very nice person. Although she's a little cold, the policies she issued and the organizations she set up are really for our own good!"

Someone said, "Marshal Luo is very popular. The Human King is famous because he liberated the human race, destroyed the sea demons, and slaughtered the big clans. But as for the revival of the human race, we should thank Marshal Luo."

Someone said, "Why is the Scattered Stars Island returned to Marshal Xue?"

Someone guessed, "This situation is probably because Marshal Luo hasn't been in office for long and hasn't found a satisfactory successor. But what I'm puzzled about is, since she hasn't found a successor, why didn't she spend more time to find one or nurture one?"

While people were discussing this, suddenly, a familiar voice appeared in the sky.

The voice said, "Yin-Yang World, all human beings, I am the Human King, Han Fei. Today, I have three things to announce..."

"Hiss! Human King?"

"The Human King has spoken? It's been ten years. This is the first time the Human King has spoken after he transcended the tribulation."

"Shut up and listen."

In the sky, Han Fei's voice rumbled. "In the past ten years, the spiritual energy of our Yin-Yang World has been improving, the strength of our human race has been improving, and we have more strong cultivators. Our human race... is rising. However, behind our rise, it's because this cage is collapsing... Now, you should be familiar with the so-called Thirty-Six Mystic Worlds. Yes, there are groups of enemies outside. I can't just sit idle... Therefore, I plan to go out of the cage and find allies to seek a place of survival for our human race in the outside world..."

Indeed, in the past few years, Luo Xiaobai had deliberately revealed the word "Raging Sea".

Once this matter was publicized as a secret, although this secret was no longer a secret, it would definitely arouse the curiosity of most cultivators.

Hearing Han Fei's words, countless people were shocked. They knew where Han Fei was going. It must be the Raging Sea.

It was a world with many kings and Venerables everywhere.

Someone sighed. "Master Human King is dedicated to the people and bears the fate of billions of people. How can we lie idle in peace? We should keep improving ourselves."

Someone said hopefully, "I really hope to accompany Master Human King to conquer the outer domain!"

Someone was lost for words. "Why don't you take a look at yourself? What's the use of you hoping?"

A youth's eyes were filled with admiration. "The Human King is invincible! One day, I will be like the Human King and conquer the outer domain."

...

Amidst the voices of billions of people, Han Fei continued, "In addition to this news, before I leave, I have a few things to do. First of all, I will scatter 20 million ultra-quality spiritual stones in the Raging Sea. In addition, I have already set up ten treasures in the sea area of the Yin-Yang World, which contain many of my great techniques, cultivation insights, weapons, and equipment... I have already scattered the treasure maps around the world. Everyone, whoever comes first gets them first! Work hard to grow up..."

"What?!"

"Ten treasures?"

"20 million ultra-quality spiritual stones?"

Swish! Swish! Swish!

Everyone saw that the sky was filled with fireworks and meteors. In the level-three fishery, in the major fisheries of the 36 towns, outside the Scattered Stars Island, in the Thousand Star City... ultra-quality spiritual stones cut through the sky and fell.

Roar!

"The Human King is really generous."

At this moment, a youth looked up and saw a shooting star smashing at him.

At this moment, someone was fishing, and a shooting star entered the water beside him.

At this moment, there were even marine creatures gathering on the surface of the sea, waiting for the "meteors" to descend.

Han Fei didn't intend to distribute all the ultra-quality spiritual stones to humans. Even if humans became stronger, how could they truly grow up without enough stepping stones?

Therefore, even if a large number of ultra-quality spiritual stones were taken by the marine creatures, it was actually an indirect way to increase the overall strength of the Yin-Yang World.

Anyway, the moment Han Fei threw the things, all the humans in the Yin-Yang World went crazy.

In the Forest of Terror, all the Venerables were speechless.

Zi Luo: "Twenty million ultra-quality spiritual stones? Is the Human King crazy?"

Qian Long asked, "So many ultra-quality spiritual stones can create a king, right?"

The sea bamboo man said, "If you are sure that you can transcend the heavenly tribulation with those spiritual stones, it should be possible. Zi Luo, are you sure?"

Zi Luo shook her head slightly. "I dare not!"

At this time, while many people were looking around, trying to find the ultra-quality spiritual stones closest to them, Han Fei said, "The second thing is that the Yin-Yang World is about to have the second king. His name is Tang Yan. He will transcend the tribulation outside the Scattered Stars Island tomorrow. You can come to watch him transcend the tribulation."

"What? It's only been ten years, but another strong master is going to transcend the tribulation?"

"Tang Yan? Who is Tang Yan?"

"No matter who he is, our human race lacks kings now. As long as someone becomes a king, it's a good thing."

"I wonder if he can transcend the tribulation tomorrow? Last time, when the Human King transcended the tribulation, the terrifying scene was really unimaginable."

Someone said, "In fact, it's said that two kings have successfully transcended the tribulation in the Water-Wood World. Now, it's said that there are three kings in the Water-Wood World. Our Yin-Yang World only has one king, which is not enough. Now that the Human King is going to the outer domain, we certainly need a king to guard the Yin-Yang World."

This second matter also caused a heated discussion.

However, everyone was basically scrambling for ultra-quality spiritual stones.

After all, transcending a king-level tribulation had nothing to do with most people. Most people just wanted to take a small step forward in strength.

Most people couldn't even see a king transcending his tribulation.

Han Fei just mentioned Tang Yan's tribulation casually.

Han Fei believed that it was impossible for Tang Yan to fail. After all, he had experienced tribulations twice.

Besides, with him around, it was impossible for Tang Yan to fail this time! In fact, severing the soul connection with Tang Ge had affected Tang Yan a lot. Han Fei actually wanted to compensate Tang Yan. Of course, Han Fei didn't tell Tang Ge this.

Of course, even if Tang Yan didn't fail, he wouldn't have a chance to cultivate a reincarnation body in the future. This time should be his limit.

However, this guy's combat power was extraordinary. He could transcend the tribulation three times in a row and almost succeed under the watch of the Heavenly Dao Dharma Eye...

It was impossible for such a person to be weak when he became a king.

Han Fei paused and continued, "The third thing is that I'll be preaching in the Empyrean Waterfall on the Scattered Stars Island in three days. Anyone above the peak of the Explorer level can participate in the selection. Only ten thousand people will be selected..."

Buzz!

"Hiss ~"

"Preach?"

Among some ordinary cultivators, someone sighed. "What a pity. Only peak-level Explorers and above can listen to it."

Someone said, "Ordinary people probably won't understand a king's lecture!"

Someone said regretfully, "Even if we don't understand, we still want to listen."

Especially on the Scattered Stars Island, someone grinned. "Whatever! When the time comes, let's form a team to listen. At most, we'll sit further away. It doesn't matter if we understand it or not. What's important is to listen to the Human King's lecture."

Someone echoed, "That's right. Let's go together. However, now let's go find ultra-quality spiritual stones!"

Although the news about Han Fei's lecture caused a huge uproar, ultra-quality spiritual stones were still the most direct treasure.

Above the sea, whether it was the ordinary fishery, the level-one fishery, the level-two fishery, the level-three fishery, or outside the Scattered Stars Island, people were forming groups crazily.

This was because there must be ultra-quality spiritual stones where fish gathered.

Perhaps an ultra-quality spiritual stone was nothing, but it was something with a million points of spiritual energy. After information was popularized, most people had only heard of it but had never seen it.

However, the gathering of the fish also represented danger.

Han Fei didn't help them avoid this danger. Everyone had to go through enough life-and-death battles. Although he wanted to lead the human race to become stronger, no one could become stronger without experiencing any battles.

This time, many people might die in the competition for resources and treasures. However, there would definitely be many people rising. Besides, this could stimulate people's enthusiasm.

The ten treasures would probably remain hot for at least a few years.

After the three things were announced, there was no more Han Fei's voice in the sky.

At this moment, the Scattered Stars Island was full of fishing boats.

And Han Fei appeared in the Nine Palace Secret Realm in the level-three fishery.

In the past few years, Han Fei came here almost every year.

The divine son had been moved away by Han Fei.

At present, the divine son was arranged by Han Fei to be at the top of the spiritual plant island outside the Scattered Stars Island. Han Fei had informed the Heavenly Vine and the Hydra Grass to protect the divine son.

In the Nine Palace Secret Realm, the Water Immortal had already devoured this space. In the center of the lake, a green lotus bloomed quietly.

On the green lotus, a young girl was sitting cross-legged. She was wearing green clothes, slender and beautiful.

Realizing that Han Fei had come, the girl opened her eyes and said, "Hi, Master."

Han Fei nodded slightly. "Xian'er, I'm here today to let you out. Your strength has reached the peak of the Hanging Fisher level. It's time for you to go out and gain experience."

The girl immediately jumped up and asked in surprise, "Really? Can I really go out?"

Han Fei said with a smile, "Of course. But remember, from the moment you go out, I won't take care of you anymore. You must remember that you are a green lotus, and you have to walk a path that no one has ever walked before. Don't be in a hurry to cultivate. Compared to comprehending the Great Dao, cultivation is actually a very simple thing. Got it?"

The girl obviously didn't understand. She looked aggrieved. "Master, if I go out, will you not take care of me anymore?"

Han Fei said, "I have to continue to pursue my own Great Dao. There are legends about me in the outside world. When you go out, you will find out."

"OK."

The girl suddenly asked, "Teacher, what's your name? Otherwise, how would I know who you are?"

Han Fei grinned. "My name is... Han Fei."

Chapter 1892: Tang Yan's Tribulation

??

The next day.

The Scattered Stars Island was crowded.

Outside the Scattered Stars Island, strong masters gathered.

This was the first time Tang Yan showed up in public. At this moment, he and Han Fei were standing on the Cloud Whale's back.

Tang Yan said, "My heavenly tribulation should be much weaker than yours."

Han Fei said, "It's still a heavenly tribulation! When I go to the Raging Sea this time, the Yin-Yang World needs someone to guard it. I don't trust Cao Tianzhi."

Tang Yan couldn't help but laugh. "So I can be trusted?"

Han Fei said, "After all, you were once the supreme commander of the Scattered Stars Island. You were, weren't you?"

Tang Yan smiled. "If I succeed in transcending the tribulation this time, I will help you take care of the Yin-Yang World. If the Raging Sea is really as terrifying as you say, you should leave some resources for Cao Tianzhi. After all, he is also from the Yin-Yang World. You can also take care of Zi Luo from the Forest of Terror. At least, if the cage is broken, our fate should be the same."

Han Fei said, "I know what I'm doing. Let's talk about it after you transcend this tribulation. By the way, it's time to unveil your identity. The Power of Will can help you transcend the tribulation."

Then, Han Fei disappeared from the Cloud Whale.

On the other side, in the place where the Venerables were watching, Han Fei looked at Xue Shenqi and nodded slightly.

Xue Shenqi flipped his hand and the Sky Hanging Mirror appeared.

The sky curtain suddenly opened.

Everyone on the Scattered Stars Island immediately saw a middle-aged man standing on the Cloud Whale.

Many people were surprised.

"Huh? Cloud Whale?"

"Why is the Cloud Whale there? The Cloud Whale is not strong. Why doesn't it go away?"

"Look, there's someone on the Cloud Whale's back. Is it Tang Yan?"

"Who is this person? Why does he have to take the Cloud Whale with him when he is going to transcend the heavenly tribulation?"

Suddenly, the huge Cloud Whale turned into a ray of light and disappeared into the center of Tang Yan's eyebrows.

This scene shocked countless people on the Scattered Stars Island.

"Damn, so the Cloud Whale is his spiritual beast?"

"So, this powerhouse is actually the master of the Cloud Whale? No wonder... Too many people have suspected the identity of the Cloud Whale. It seems that there is only one Cloud Whale in the world! I didn't expect it to be a Half-King's spiritual beast."

"So it's this person!"

“The Cloud Whale is known by everyone on the Scattered Stars Island. It has helped us a lot! It has taken countless people to the Scattered Stars Island... If it’s this person, I wish him success in transcending the tribulation.”

...

“Come, my tribulation~”

After brewing for a moment, Tang Yan knew that he could begin. Sooner or later, this tribulation would come. He had tried to transcend tribulations three times. If he still couldn’t succeed this time, it meant that the heavens wanted to kill him.

Tang Yan’s tribulation clouds were much smaller than Han Fei’s.

Because the spiritual energy in the Yin-Yang World was relatively thin, the coverage was only less than 5,000 kilometers.

However, Tang Yan’s tribulation was different from Han Fei’s.

When Han Fei transcended the tribulation, the quality of the spiritual energy in the Yin-Yang World was far from so high. Therefore, the terrifying scene of the lightning tribulation covering a hundred thousand kilometers couldn’t be replicated this time.

Boom!

Boom!

Boom!

Tang Yan withstood three lightning tribulations in a row alone with his body.

Someone exclaimed, “Is Tang Yan going to transcend the heavenly tribulation with his body like the Human King?”

Someone said, “Even if he is, the level of the heavenly tribulation is different. When the Human King transcended the tribulation, the tribulation clouds spanned hundreds of thousands of kilometers, and the entire world was dark. Besides, his heavenly tribulation was purple from the second tribulation, and in the end, there was only a line between the heavens and earth. This one is incomparable to that one.”

Someone sneered. “No matter what, this is still a king-level tribulation. Do you think those who can transcend a king-level tribulation are simple people?”

Boom!

Boom!

During the fifth heavenly tribulation, Tang Yan began to use the resources he had accumulated. After thousands of years, Tang Yan had accumulated a lot of spiritual fruits and the Ground Veins Essence, and he still had the remaining Power of Will.

He successfully passed five or six heavenly tribulations. After the seventh heavenly tribulation, Tang Yan was directly struck into a mess of flesh and blood. And his heavenly tribulation had just shown signs of turning light purple.

Tang Yan crushed a jade slip and saw a Heaven Enlightenment Divine Technique descend. The healing brilliance instantly repaired the injuries on his body.

Taking advantage of this opportunity, Tang Yan took out 999 stone pillars. This was the array he had long prepared for himself.

Rumble! Rumble!

Under the eighth heavenly tribulation, these stone pillars formed a Thousand Star Diagram and stood above his head. They looked like stars flashing, and many people were surprised. However, the speed at which those stone pillars shattered was very fast. It was unknown how much effort Tang Yan had spent to create this peerless array, but under his eighth heavenly tribulation, there were only three stone pillars left, and they were all full of cracks.

But at this moment, Tang Yan smiled.

Because the Heaven Enlightenment Divine Technique had completely cured him.

After the eighth heavenly tribulation, Tang Yan roared, and a huge skeleton whale appeared in the void.

Han Fei recognized that this was the corpse of the Cloud Whale that seemed to be a king.

When the ninth heavenly tribulation struck down, the corpse of the Cloud Whale soared into the sky.

Tang Yan held a Sea Quelling Bizarre Treasure-level saber and crazily gathered his momentum. Seeing that the Cloud Whale's corpse was shattered, it had been more than three seconds, almost four.

Tang Yan's saber struck the lightning tribulation.

Unfortunately, with a crack, cracks appeared on Tang Yan's long saber, and the gathered saber might was blasted away.

However, under the bombardment of the faint purple lightning tribulation, a Coiling Dragon Array suddenly rose. This was a top defensive array set up by Han Fei.

As long as Tang Yan didn't want to withstand all the heavenly tribulations with his body like Han Fei, Han Fei certainly had some means to help him.

Anyway, when the Coiling Dragon Array collapsed, although there was still a trace of heavenly tribulation on Tang Yan... it didn't really kill him although his body almost collapsed.

In the sky, the tribulation clouds were slowly dissipating.

Tang Yan's body was recovering at a visible speed.

He had already become a king!

How could such a small injury be fatal to him?

At this moment, Han Fei said, "Congratulations, Tang Yan, for successfully transcending the king tribulation. Congratulations to our Yin-Yang World for welcoming the second king."

Hearing Han Fei's words, many people shouted,

"Congratulations on successfully transcending the tribulation, King Tang."

"Welcome, the second king of the human race."

"Congratulations..."

The Yin-Yang World welcomed its second king.

In fact, most people were just envious.

However, at least this proved one thing: the current Yin-Yang World could have kings!

Countless people were determined to cultivate hard.

Once one became a king, his lifespan would be ten thousand years, and he could travel anywhere in the world!

This was the greatest pursuit of cultivators. Now that this path was clear, who wouldn't be envious?

Because they had been informed in advance, many people came to watch the battle.

Queen Life, Jing'er, Bear Handsome... The three kings of the Water-Wood World were also here.

In fact, all the Venerables from the Demon Beast Union, the Cloud Sea Divine Tree, and the Immortal City had already come. After all, there was nothing wrong with watching more of the king-level tribulations to gain experiences.

Which Venerable didn't want to become a king?

When Bear Handsome and Jing'er were transcending the tribulation, Han Fei helped them too, and Tang Yan and the others all watched.

The Water Immortal: "Congratulations, Fellow Daoist Tang Yan, for becoming a king."

Bear Handsome: "Fellow Daoist Tang Yan, your tribulation is easier than mine!"

Jing'er said, "Congratulations, Fellow Daoist Tang Yan."

Tang Yan had already stabilized his strength. While feeling the changes in his body, he looked at everyone with a smile. "After all, I've accumulated a thousand years, so I have some capital. However, I still have to thank Han Fei. The Sea Quelling Bizarre Treasure and the Coiling Dragon Array you made for me have contributed a lot."

Bear Handsome muttered, "I still think it's better to call him Brother Bull."

Ma Youhun said, "Golden Tiger and I want to transcend the tribulation too. The power of the Great Dao in the Water-Wood World is still not enough. As for the Yin-Yang World..."

Before Ma Youhun finished speaking, Cao Tianzhi said, "Fellow Daoist Ma, our human race still lacks kings. I estimate that in another three years, I will also transcend the tribulation..."

Everyone sighed inwardly.

Who would be willing to fall behind in terms of transcending the tribulation?

Zi Luo and the sea bamboo man were also thinking that it might not be realistic to compete with Cao Tianzhi.

However, if there was another chance, they would definitely announce it immediately. When the cage released more spiritual energy and energy, they might still have a chance.

Han Fei said, "Everyone, don't be anxious. You have been suppressed by the Heavenly Dao here for too long. In fact, in terms of talent and ability, you are not weak. In my estimation, in the Yin-Yang World, within ten years, I'm afraid it can at most support the birth of another king. However, within ten years, the cage can't be broken."

Mu Wuhua asked, "If you leave this place, will it trigger the cage?"

Han Fei said, "I don't know. Of course, I won't trigger it if I can. However, no matter what, I have to go to the Raging Sea. This is our only hope."

Bear Handsome said, "I agree with Han Fei. If there are really so many kings and emperors in the Raging Sea... then it won't matter even if we become kings."

Jing'er asked, "Why don't we all go there?"

Han Fei shook his head. "There's no need. Even if you go, so what? It's impossible for you to become emperors in the short term. The day after tomorrow, I'll choose some people to go out with, who have the potential to grow quickly. But these people have to be prepared to die. I can't guarantee everyone's safety. How many of them can rise after going out? I don't know."

Tang Yan said, "That's how cultivation should be! Who can not take risks if he wants to succeed?"

Queen Life said, "When you go out this time, you should try to find the disappeared Heavenly Palaces. Only with enough allies can we establish ourselves in the outside world."

Han Fei nodded slightly. "That's my plan too."

Chapter 1893: Han Fei's Lecture

On this day, all strong masters gathered on the Scattered Stars Island.

Within a hundred kilometers of the Emyrean Waterfall, no one was allowed to enter except for the selected people.

The demonic plants in the Forest of Terror, the ferocious beasts of the Demon Beast Union, and the strong masters of the Immortal City, the Cloud Sea Divine Tree, and the Yin-Yang World all came.

There were as many as 542 Venerables, and as many as 10,000 Half-Venerables.

In this sermon, Han Fei didn't restrict race, and people from the Demon Beast Union, the Immortal City of the human race, and the Forest of Terror could also come.

In fact, Han Fei basically chose people with relatively stable strength this time and didn't let many people who were going to make breakthroughs come over. After all, his resources were limited.

If too many people made breakthroughs at the same time, Han Fei wouldn't be able to withstand the consumption of resources.

This time, most of the resources Han Fei got from the Raging Sea had been consumed.

For this sermon, Han Fei had almost used up all his wealth and all of Xia Xiaochan's wealth.

For this reason, the Hexagon Starfish was so sad that he quickly made a breakthrough and tried his best to swallow these ultra-quality spiritual stones.

At this moment, the Scattered Stars Island was heavily guarded. Although a hundred kilometers away, it was also surrounded by people, Han Fei couldn't help them.

At this moment, Han Fei was sitting cross-legged on the Emyrean Waterfall.

Below him, the closest ones were the Insect King, Golden Tiger, Ma Youhun, Zi Luo, Qian Long, Chen Xiang, Chen Sanbai, Cao Tianzhi, etc...

Of course, everyone from the Thug Academy was sitting behind Han Fei, less than a kilometer away from him.

The further away, the weaker the people were.

Han Fei said, "Everyone, I'm talking about everyone who came today. Take out all the spiritual energy resources you have. If I've guessed right, many people will become Venerables or become Half-Venerables in this sermon... Therefore, in order to make sure there is enough spiritual energy and energy here, you'd better take out all these resources."

"Many people to become Venerables?"

Many people looked at each other in bewilderment. They had heard that only those who had accumulated enough resources and experiences could make a breakthrough. They had never heard of anyone who could make a breakthrough by listening to others' lectures...

However, the Human King Han Fei was very famous and was rumored to be magical.

Bear Handsome had even said that Han Fei was the strongest king of the Water-Wood World and the Yin-Yang World. Even he, Jing'er, and Mu Wuhua put together were no match for him.

Of course, only some people knew that Bear Handsome had said so, and most people didn't. And these people who knew this were the Venerables who came now.

At this moment, as soon as Han Fei said so, people like Golden Tiger had already taken out their resources.

Golden Tiger said to Serpent Mengyue, "I've asked Old Bear. Guess what? He said that he doesn't know how to preach the Dao at all, but Han Fei does. Therefore, whoever hesitates now is a fool..."

Zi Luo and the others also said to each other via voice transmission, "Don't be stingy! This is an opportunity. Take all your resources out. If you can make a breakthrough this time, it'll be greatly beneficial to you."

Behind Han Fei.

Old Bai took out a million ultra-quality spiritual stones from his small treasury and laid them on the ground, ignoring others' stunned gazes.

No matter what, Han Fei was from the Thug Academy. The Thug Academy only had a few dozen seedlings. If they didn't use the resources now, when would they?

Swish ~

At this moment, Yin'er, Nian'er, and Yi Xiyuan and company had finally arrived.

Yin'er said, "Why did you have to touch a Venerable in the cage? We were almost late."

Nian'er said, "But we aren't late. At least, the seven of us hunted a junior Venerable turtle. Isn't it wonderful?"

Yi Xiyuan asked, "Nian'er, are you going to make a breakthrough this time?"

Nian'er said, "Yes, Yin'er and I have been suppressing our breakthrough for a long time."

Gu Qi said, "Okay, take a seat. Senior Brother is about to start."

Swish ~

Suddenly, above Han Fei's head, 1,000 ultra-quality Divine weapons floated. The brilliance of the ultra-quality Divine weapons rose slowly above the Empyrean Waterfall, not avoiding everyone's gaze.

"Hiss ~"

"Am I seeing things? Are they all... ultra-quality Divine weapons?"

"Good lord, the Human King is really generous! Is he going to give each of us an ultra-quality Divine weapon?"

"Are you daydreaming... There are only 1,000 ultra-quality Divine weapons. Do you think you can get one?"

"That's true. There are a total of 542 Venerables here today. The Human King may give them first."

Han Fei said leisurely, "Today, I promise that no matter you're from the Yin-Yang World, the Water-Wood World, the Forest of Terror, or the Demon Beast Union... anyone who reaches the Venerable realm will be given an ultra-quality Divine weapon for free."

"Gulp ~"

"My guess is right."

“In other words, all Venerables will receive an ultra-quality Divine weapon for free?”

“Then what about the remaining ultra-quality Divine weapons?”

Han Fei continued. “There are 1,000 ultra-quality Divine weapons here. Even if each Venerable gets one, there are still 458 left. I will hand these ultra-quality Divine weapons to the commander of the Scattered Stars Island, Marshal Xue Shenqi. In the future, if anyone from the Water-Wood World or the Yin-Yang World becomes a Venerable, they can come to collect an ultra-quality Divine weapon.”

Outside the arena, there was an uproar.

“Get an ultra-quality Divine weapon for free?”

“Only the Human King can be so generous!”

“No, I’m already an advanced Explorer. Why can’t I try becoming a Venerable?”

“More than 400? Doesn’t it mean that all Explorers have a great hope to get one?”

Someone was puzzled. “Is the Human King being unfair? Why can only peak-level Explorers listen to the lecture but we can only watch?”

Someone sneered. “Do you know how many powerhouses are below the peak of the Explorer level? The Demon Beast Union, the Immortal City of the human race, and the Forest of Terror have millions of Explorers in total. If they are all here, even if only one in ten thousand makes a breakthrough, how many resources do you think the Human King will have to take out?”

Someone echoed, “That’s right. It’s really easy to talk. With the Human King’s personality, if he can really make all the million explorers become Venerables, do you think he will be stingy? It’s just because the conditions don’t allow it, okay?”

Those ultra-quality Divine weapons were all inserted into the cliff of the Empyrean Waterfall. Han Fei said, “In ten seconds, the sermon will begin. Everyone, hold your breath and listen carefully...”

In the distance, Tang Yan, Bear Handsome, Jing’er, and the Water Immortal were all here. Although they were kings, they also wanted to hear Han Fei’s so-called preaching.

If the preaching was useful, wouldn’t it be better for them to do it too?

Ten seconds later, the audience fell silent.

Han Fei said, “What is the Great Dao? What is the Dao heart? Does the Great Dao determine the Dao heart, or is the Dao heart leading to the Great Dao? All of this needs to be explained from the disassembling of spiritual energy...”

Buzz!

When Han Fei talked about disassembling spiritual energy, it was as if a hypnotic demonic sound had descended. Even Half-Kings felt dizzy and could only hear buzzing sounds.

Not only that, even Queen Life and the others were stunned.

At that time, Jing'er couldn't help but exclaim, "My queen, can you hear what he said? Why are my ears buzzing?"

Queen Life shook her head slightly. "I can't hear it clearly. It's vague and seems to be related to disassembling spiritual energy."

Tang Yan said, "I feel it too. This should be because of his deep understanding of the Great Dao. Although this Dao can be taught, it's extremely difficult to understand."

Bear Handsome took a long breath. "I thought I was the only one who couldn't hear it clearly! It turns out that you didn't hear it clearly either? However, Han Fei's comprehension of the Great Dao is definitely deeper than ours... We've seen the scene when he transcended the tribulation. I would have been killed in the fifth tribulation."

Jing'er said, "Yes, I don't even know how he survived that horrible tribulation."

Queen Life said, "Stop chatting. I feel that my Dao heart has been touched. What Han Fei said should be very beneficial even to us. Listen carefully."

Originally, Queen Life and the others were just here to learn how to preach, but in the end, they began to listen to his lecture attentively.

Queen Life was speechless. Now Han Fei looked a bit like her senior brother.

...

After Han Fei talked for an hour, a junior Venerable in the crowd began to make a breakthrough.

However, the junior Venerable seemed to be making a breakthrough unconsciously. His body's instincts were guiding him to absorb his resources.

After another hour, a person broke through to the Venerable realm, and a spiritual energy storm swept over.

A hundred kilometers away, many people were disappointed.

Those who were close could hear some sounds, but no matter how hard they tried, they couldn't hear it clearly.

Suddenly, someone shouted, "Look, a spiritual energy storm has formed. Someone has made a breakthrough."

"Hiss! So fast? There is already someone making a breakthrough?"

"Is this the preaching of a king?"

"No, this is the preaching of the Human King."

Since the second spiritual energy storm began, almost every half an hour, someone would make a breakthrough.

Two hours later, there were 69 people who made a breakthrough.

Half a day later, there were 83 people who made a breakthrough.

Han Fei knew that some people should be making a breakthrough soon, so they directly made a breakthrough after gaining some comprehension from his preaching.

Most of these people made breakthroughs within two hours, and as time went by, the frequency of breakthroughs became lower and lower.

One day later, there were 101 Venerables in total.

Among them, 66 were Venerables in the first place. Their breakthrough was only small-realm ones. As for the remaining 35 people, they directly broke through from the Half-Venerable realm to the Venerable realm.

And there were also about 500 people making small breakthroughs within a realm.

Seeing this ratio, Han Fei sighed in his heart. Only the first time would work well. From the second time on, the effect would be much weaker.

In the past ten years, in his Origin Sea, he had preached to Xia Xiaochan, Master Hexagon, and Zhang Xuanyu and company countless times.

His repeated preaching made their spiritual-energy disassembling degree reach more than 90%, and Xia Xiaochan and the Hexagon Starfish even reached 98%.

However, even so, there were still two last points that they failed to completely comprehend.

Han Fei realized that his comprehension was still not enough. If he had the level of Eldest Senior Brother, he might have been able to explain everything to them in one go.

Han Fei said, "You still need to work hard."

Chapter 1894: Prepare to Leave

Han Fei's sermon shocked countless strong masters in the Yin-Yang World and the Water-Wood World.

After only one lecture, more than 600 people had made breakthroughs to different degrees.

The most terrifying thing was that because of Han Fei's preaching, 35 Venerables were born. Not to mention anything else, the 35 Venerables worshiped Han Fei with fanaticism.

One of them almost cried with joy. "I cultivated hard for eight hundred years but failed to comprehend the last threshold. However, in this lecture, my mind became clear and I naturally made a breakthrough. The Human King is my teacher forever."

Most people's breakthroughs were from the peak of the Explorer level to the Half-Venerable level.

These people were shocked.

They seemed to have just taken a nap... But when they woke up, they were already Half-Venerables? How could there be such a good thing in the world?

If possible, they really hoped that Han Fei could preach again.

Unfortunately, Han Fei left directly, which made many people sigh.

Everyone knew that Han Fei was going out to find a way for the human race to survive.

Everyone's heart sank.

Although they all hoped that Han Fei could stay in the Yin-Yang World and give lectures, they knew that Han Fei had more important things to do, so no one asked him to stay.

The students of the Thug Academy, Queen Life, and the others came one after another. Han Fei certainly knew their intentions.

Therefore, before they said anything, Han Fei said, "It's not that I don't want to teach you, but that I can't. Because of the restriction of the Heavenly Dao, there are some things that can only be understood but not taught."

Bear Handsome heaved a long sigh. "I knew it. There must be a reason why none of us can understand it. If it's the law of the Heavenly Dao, then there's nothing we can do."

Jing'er asked, "Why does the law of the Heavenly Dao control everything?"

Han Fei didn't know whether to laugh or cry. "It's not that they control everything, but if this kind of thing can be directly taught, how can there be any weaklings in this world? If it can be taught, aren't there strong masters everywhere?"

Tang Yan nodded slightly. "That makes sense. Some things can only be comprehended by ourselves. However, we want to know if this is related to the disassembling degree of spiritual energy."

Seeing Han Fei nod slightly, they all looked enlightened. Although they didn't understand, they had a vague feeling that it seemed to be related to the disassembling degree of spiritual energy.

At this moment, Luo Xiaobai walked out of the backyard of the Thug Academy and bowed slightly when she saw the kings.

Luo Xiaobai didn't say anything, but her meaning was obvious: We have something to discuss.

Tang Yan said, "I'm leaving. While you're out, I'll take care of the Yin-Yang World."

Han Fei casually threw a Sun-Moon Shell to Tang Yan and said, "If Cao Tianzhi wants to make a breakthrough, this is the only thing I can take out now. Most of my resources have been consumed."

The corner of Tang Yan's mouth twitched. "I thought you had used up all your resources..."

Bear Handsome laughed. "Brother Han, I'm going back too. I'll wait for your return."

Han Fei said, "Wait a moment, Old Bear, I want to ask you for a few people. I want to take them out."

Bear Handsome immediately perked up. "Who? I'm going to bring them over now."

Han Fei told him a few names with a smile and said, "Although many people have guessed it, try to keep a low profile."

Bear Handsome: "Got it! Don't worry. I'm leaving..."

After Tang Yan and Bear Handsome left, Han Fei saw that Queen Life was still there and asked with a smile, "Junior Sister, is there anything else?"

Queen Life said lightly, "What do you think, Senior Brother?"

Jing'er looked at Queen Life and then at Han Fei, thinking, When did the queen and Han Fei become senior brother and junior sister?

Even Luo Xiaobai was puzzled.

However, neither of them seemed to want to explain.

Han Fei said, "Teacher is here. If you pay attention, it shouldn't be difficult to find her. Well, in the next few years, with her strength, it should be easy for her to rise. Just wait."

Queen Life raised her eyebrows. "You're not going to take her away from the Yin-Yang World?"

Han Fei smiled and said, "She still needs time to grow and accumulate, and I'll definitely come back. If I don't come back in 22 to 30 years, it's very likely that I've died."

Queen Life and Jing'er's faces changed slightly. "What do you mean? Why 22 to 30 years?"

Han Fei shrugged. "I don't know how to explain. I just need to experience a near-death adventure. If something had happened to the cage 22 years ago, I would have definitely come back at that time."

Queen Life was shocked. With Han Fei's current strength, he still said that it would be a near-death adventure for him. Then how dangerous was this so-called adventure?

After hearing that the Water Immortal had already appeared, Queen Life was slightly relieved and then said, "In that case, Jing'er and I will leave first."

Jing'er said, "Han Fei, stay alive."

Han Fei smiled. "Yes. By the way, remember to send these people over."

With that, Han Fei said a few names to Jing'er and Queen Life.

After sending these people away, Luo Xiaobai looked at Han Fei in surprise. "A near-death adventure?"

Han Fei said, "I'll tell you about it when you become Half-Kings."

Luo Xiaobai frowned. "Half-Kings?"

Han Fei said, "Yes."

Luo Xiaobai nodded slightly.

She probably understood the danger. From what Han Fei said just now, she roughly knew that this adventure would happen in 22 years.

Luo Xiaobai said, "I'm here for something else. Xiaochan said that when you came back, you were ambushed by a strong master. How strong is he? Since they know the location of the Yin-Yang World, will they be waiting outside to ambush you?"

Han Fei said, "I can't rule out that possibility. But my current strength is incomparable to before. If ordinary kings dare to attack me again, they will pay a great price."

Luo Xiaobai asked, "What if it's not an ordinary king?"

Han Fei pondered and said, "At least, I can escape safely."

Han Fei's heart did a flip. If he encountered an emperor instead of a king, it would indeed be a problem.

However, Han Fei thought that an emperor shouldn't be so idle. How could an emperor guard the Wild Abyss and wait for him, a Half-King?

Besides, even if they could predict that he would come back to transcend the tribulation and become a king... they wouldn't know how strong he was after he became a king.

At least, even he wouldn't believe that a king who had just broken through could be compared to those old kings.

Of course, Han Fei knew that Luo Xiaobai's reminder was right. No matter what, he had to leave a way out for himself.

Han Fei said, "At that time, if there is really a danger that I can't resist, I can just return to the Yin-Yang World. I'm confident with my ability. Even if an emperor comes in person, he won't be able to kill me."

Luo Xiaobai nodded slightly. "That's good. Perhaps you can understand it in another way. In your current realm, you are more important than the entire Yin-Yang World and the Water-Wood World, and also more important than the Thug Academy. If necessary, even if you have to abandon everything, you can't die."

Han Fei grinned and couldn't help teasing, "I wonder how the people on the Scattered Stars Island who worship you will feel if they hear what you said."

Luo Xiaobai smiled. "They won't know."

...

A moment later.

Xia Xiaochan returned with a total of nine people.

When these people saw Han Fei, they all cupped their hands. "Greetings, Human King."

Han Fei nodded slightly. "Um! You should know why I asked you to come this time. The outside world is extremely dangerous, and you may not be able to come back alive. Are you still willing to go with me?"

Among these people, the only one Han Fei knew was Chen Xiang.

She said first, "Even the Human King has to leave here to save the human race. We are not afraid of death."

The others echoed, "Yes, we are not afraid of death."

"We swear to follow the Human King..."

Han Fei nodded slightly. "Okay, then you can wait here for a while. When everyone arrives, we'll set off."

In the backyard.

Old Bai and Old Jiang were lecturing Wang Dashuai and the others.

Old Bai said, "Now, you're not so strong anymore. However, it's not that you are not talented enough, but that too Heavenly Talents have risen. You are still not close enough to Han Fei... This time, you are the weakest group among the people who go out with him. You have to be careful outside. Don't relax just because Ha Fei is your junior brother..."

Old Jiang said, "However, don't be afraid of troubling him. Let me tell you, you are from Pure Sun Dao Palace, so you can enjoy preferential treatment."

Chu Linyuan said, "Presidents, we know, okay? How many times have you reminded us?"

Old Bai said, "You have to listen to me no matter how many times I remind you. I think you know how dangerous the outside world is, right? Do you really think it's as simple as Han Fei said? Nonsense! He must have narrowly escaped death, but he made it sound so easy."

In the distance, Xia Xiaochan chuckled. "Look, the president knows you very well."

Han Fei smiled. "Okay! But the president is right. The people from the Pure Sun Dao Palace will be given preferential treatment."

On the other side, Yi Xiyan cried and shouted, "President, we want to go too. President... I'll die if I can't see my husband..."

Su Daiji said, "President, I'm going too."

Zhang Xuanyu said with a dark face, "Shut up. Is that a place you can go?"

Old Bai cursed, "Stay here. If you go out, what can you do except cause trouble for your senior brother?"

At this time, Han Fei's voice came leisurely, "Hey! President, if they want to go, let them! They are all Explorers after all. I will make them regret going to the Raging Sea!"

However, Old Bai frowned and said to Han Fei via voice transmission, "These kids are seedlings of our academy."

Han Fei replied, "Don't worry. We still have people outside. I can have those people take care of them."

Old Bai was puzzled. "Really? Who?"

Han Fei said, "Grand Yin Academy."

Chapter 1895: Whoever Offends Han Fei Shall Be Punished

About an hour later, Bear Handsome, Jing'er, and Zi Luo personally led a small group of people to the Thug Academy.

Han Fei didn't choose many, only 32 in total.

Including Han Fei, Zhang Xuanyu, Yi Xiyan, Wang Dashuai, Qu Jinnan, Ling Yuan and the others, there were 50 of them.

Among them, the leader of the Demon Beast Union was Serpent Mengyue, the one from the Immortal City was Chen Xiang, the one from the Forest of Terror was the Void Vine, and the one from the Water-Wood World was the Insect King and the Green Bat.

At this moment, everyone gathered at the Thug Academy.

Han Fei said, "Now, you still have a chance to leave. When you reach the Raging Sea, there's no turning back."

Serpent Mengyue said, "I've stayed in the cage long enough. I won't return until I become a king."

The mountain cat said, "Since I've come, I haven't prepared to come back alive."

Although the Void Vine dodged a little, Han Fei didn't ask for its opinion.

It had to be said that the Void Vine was actually quite useful. This guy was good at the Great Dao of Space and was most suitable for scouting.

Han Fei didn't need to ask about the Insect King and the others. They were all old friends.

Han Fei nodded slightly, and the illusion of mountains and rivers appeared around him. Han Fei said, "Open your mind and enter my Sea Quelling Painting."

...

When Xia Xiaochan and Yin'er entered the array one after another, Han Fei looked back and cupped his hands at Old Bai and Old Jiang. "President, I'm leaving."

Old Jiang snorted. "You're already a king. If you die outside, it will be a huge loss."

Han Fei grinned. "Don't worry. The person who can kill me hasn't been born yet."

Buzz!

After Han Fei left, Old Jiang immediately said, "Old Bai, what did the brat just say to you? Why did you agree so quickly?"

Old Bai said indifferently, "He found the Grand Yin Academy."

...

The Transverse Mountain.

Han Fei returned here again and jumped down without hesitation.

Different from when he came back and was ambushed by the kings, Han Fei had been cultivating hard for the past ten years. He wasn't cultivating the Purity Mystic Body, but the Void Fire Refining Technique.

In addition to cultivating, Han Fei was also training Nine Tails and the others. This was why Han Fei was willing to lie low in the Yin-Yang World for decades.

Because his growth was too fast, and his pets seemed too weak.

Over the years, Han Fei had seen that they had all become Venerables and the Emperor Sparrow had reached the terrifying level of an advanced Venerable. If they didn't go out, they wouldn't have any room for growth in the Yin-Yang World.

As for the one with the lowest level, Little Fatty, he had also reached level 81. It was time for them to go out.

Half a day later.

It was still the Yin-Yang Millstone. At this moment, the Yin-Yang Millstone was still absorbing infinite energy and spiritual energy from the outside world. Han Fei felt that he was sucked by a huge force and immediately used the Twin Divine Technique.

When he rushed out of the center of the millstone, Han Fei was already prepared.

This time, he clearly sensed that in addition to the Yin-Yang World where he was, there were a total of three entrances here.

Among them, one of the entrances was very mediocre, so mediocre that Han Fei almost didn't think it was a road.

Han Fei guessed that that road should be the so-called normal Wild Abyss.

Ignoring these roads, Han Fei activated the Vast Ocean Navigator.

Han Fei smiled and said in a voice that only he himself could hear, "I hope the hunters can be stronger so that I can know how strong I am."

...

Since the emperor-level battle here ten years ago, the Wild Abyss had become a cultivation forbidden area. The violent power of the emperors made this desperate place even more chaotic.

A large amount of mysterious power of the Great Dao was dissipating here.

Even though the war had long ended, there were still certain forces colliding in the void. Any random invisible Dao rune impact was not something ordinary Venerables could withstand.

However, in such a desperate place, there were still people sitting cross-legged in the vortex wave to cultivate.

One of them said, "Yu Meng, isn't it agreed that we would be replaced every ten years? Why aren't those people here yet?"

In the mist of water, a voice sounded leisurely, "It should be soon, but I don't know who will come. Anyway, your Five Element World shouldn't need to come again. When the Monarch Palace opens, even if Han Fei comes out, how much trouble can he cause?"

“That’s true. At least, it will cut off the Yin-Yang World’s chance to explore the Monarch Palace. If they can’t explore the Monarch Palace, no matter how talented Han Fei is, even if he can become a king, he can’t be very strong. The opportunities in the Yin-Yang World have probably been used up by him.”

Bang!

Suddenly, the two of them looked at the abyss.

The void trembled, and a massive amount of energy was instantly sucked into the abyss.

Yu Mengran shouted, “Gong Zhan.”

The two of them appeared in the depths of the vortex, and standing in front of them was a familiar face who was swallowing a huge amount of energy.

Gong Zhan and Yu Meng were both horrified. Han Fei had become a king?

Both of them were shocked.

It had only been ten years, but this kid had already become a king? Besides, judging from his aura, he seemed to be quite strong, even much stronger than when they just entered the Sea Establishment realm.

The two looked at each other and attacked almost at the same time without any delay.

Behind Gong Zhan, five-colored light cones swished at Han Fei.

“Five Elements Kill... Han Fei, you shouldn’t have come back. How can you resist the kings alone? Since you insist on walking into the trap, die!”

Yu Meng’s body dissipated in this world, and an invisible mist suddenly fell around her.

However, Han Fei grinned and said lazily, “Don’t tell me that there are only the two of you here?”

“Humph! Die!”

The Five Elements Killer Awl was about to penetrate Han Fei in the blink of an eye.

Han Fei extended his fingers and “All Great Daos in One Sword” erupted.

Clang! Clang! Clang! Clang!

None of the five light cones could shake “All Great Daos in One Sword”. At most, they only consumed half of the power here.

Gong Zhan was shocked. This guy didn’t look so strong! How could a random attack break one of his ultimate techniques?

With a thought from Gong Zhan, five light cones returned, and the five cones combined into a long sword, trying to resist All Great Daos in One Sword.

Seeing this scene, Han Fei looked indifferent.

Then he turned to look at the mist.

In Han Fei's eyes, a new scene was created. This scene was the scene of his heavenly tribulation. Everything seemed real.

Han Fei even saw that his body was full of cracks, he was panting, and his resources were exhausted.

Han Fei looked solemn. When a heavenly tribulation descended, he grinned. "Gotcha."

At the moment Yu Meng attacked, an invisible black shadow quietly appeared behind her.

When Yu Meng saw Han Fei with a disdainful smile, she was shocked. Before she could inform Gong Zhan, she immediately shouted and dragged a person out of the void.

Han Fei took a closer look. Isn't that me? What kind of ability is Yu Meng using?

The old turtle said, "That's your dream shadow. It has the power of your one blow. This is one of her means. You let her get a chance just now."

With a thought, Han Fei's black-mist body activated All Great Daos in One Sword again, but his dream shadow performed the same All Great Daos in One Sword.

In an instant, a terrifying explosion rose beside Yu Meng.

She was sent flying thousands of kilometers.

However, because this power didn't land on Yu Meng, it couldn't really hurt her much.

Taking advantage of this opportunity, Yu Meng shouted, "Gong Zhan, he's just a clone."

Gong Zhan had just blocked Han Fei's sword and his hands were numb. Hearing Yu Meng's shout, he felt terrible.

"A clone?"

At this moment, Gong Zhan had no time to be shocked.

If a clone was already so strong, how strong would Han Fei be after he fused with it?

He couldn't even understand. It had only been ten years. Even if Han Fei was more talented than ordinary kings, a clone shouldn't have such powerful strength, right?

While fighting the two of them, Han Fei had already tested his luck with the Nine Palace Luck Ruler, which showed "Ominous".

This result made Han Fei fearless. Therefore, he dared to release his black-mist body immediately.

The only bad thing about the Twin Divine Technique was that the twin bodies' combat power was greatly weakened compared to his original body. At this moment, the power of each twin body was only about 80,000 waves.

As for Gong Zhan and Yu Meng, they were actually not weak. The Five Elements World was good at fighting, so Gong Zhan's basic strength was above his clone.

Although Yu Meng cultivated the Dao of Dreams, she was from a Heavenly Palace in the inner domain, which was stronger than those in the outer domain.

Even so, Han Fei didn't panic. This was just a tentative attack. Who would take it seriously?

Han Fei said, "Five Elements, Dream Weaving, right? Do you know what will happen to you if you become my enemy?"

Yu Meng shouted in a low voice, "Let's go!"

However, Han Fei sneered. "You wanna go? Do I allow you to go?"

Buzz!

All of a sudden, Gong Zhan and Yu Meng felt that Han Fei's momentum was soaring crazily.

Yes, they could resist Han Fei just now. But now, the terrifying aura Han Fei exuded reminded them of the super powerhouses ranking among the tops in the Raging Sea.

"Five Elements Heavenly Pillar."

"Three reincarnation cycles."

The two of them knew that if they ran at this moment, they would become extremely passive. They needed to buy some time to escape.

However, on Yu Meng's side, a knife light flashed between the heavens and earth.

Han Fei said leisurely, "Those who offend me shall be punished."

Chapter 1896: Wait for Resources to Come

Han Fei didn't intend to make friends with the Thirty-Six Mystic Worlds.

Han Fei didn't care about the Hundred Demon Clan, the undersea human race, or the Merman Royal Family.

The human race was divided into different factions and was divided into the inner domain and the outer domain, which meant that they were not united at all.

In that case, he might as well tear the world down and start it all over!

Han Fei might find it troublesome to build a place, but he was best at overthrowing a force.

Yu Meng could summon one of Han Fei's dream shadows, but she couldn't summon ten or eight. Seeing Han Fei's momentum soaring, Yu Meng didn't dare to hide anything.

A black mist enveloped him, her essence blood burned, and a huge squid fused into her body.

She held a large pen and suddenly waved it. Han Fei seemed to see scene after scene of memories, turning into shield shadows to block him.

It had to be said that few Sea Establishment powerhouses in the Raging Sea didn't have trump cards. Yu Meng's strength was naturally not weak.

Her strength was even stronger than Feng Xinlan's.

Now, when she unleashed all her strength, even Han Fei couldn't kill her with his clone.

“Tsk, tsk! Since you still want to fight, I’ll let you die with clarity... Twin as One.”

Buzz!

His white-mist body fighting Gong Zhan instantly disappeared. On Yu Meng’s side, Han Fei appeared, and his aura was completely different from before.

Han Fei extended his fingers again. This time, the outburst of All Great Daos in One Sword was no longer something Yu Meng could resist.

Bang!

Yu Meng’s body exploded and shattered.

Han Fei could feel that there were souls, essence blood, and broken flesh trying to be reborn.

But these rebirths were just a cover. In addition to these, Han Fei felt a mass of water mist that seemed to wrap a strange power leaving quietly.

However, since Han Fei had already decided to kill her as a warning, how could he let Yu Meng escape?

“Keke...”

In the Sea Establishment Realm, Han Fei stepped in the air, and ripples rolled across thousands of kilometers. All the power that was about to be reborn was shattered by Han Fei in an instant.

Han Fei turned into a void hand and pinched the mass of water mist. Just as he was about to crush it, a voice shouted in horror, “Han Fei, there’s no need for us to fight to the death. The Dream Weaving World can stand on the Yin-Yang World’s side.”

Han Fei sneered. “Do I need you to stand on my side? Die...”

Rumble! Rumble!

All of a sudden, a blood mark appeared in the sky. After meeting Han Fei, this king died on the spot in a minute.

Because Han Fei had just fused his twin bodies to kill Yu Meng, Gong Zhan escaped.

However, Han Fei didn’t care.

Gong Zhan wouldn’t be able to escape. No one could save this person.

After killing Yu Meng, Han Fei grabbed the Vast Ocean Navigator, which began to spin quickly.

Then, Han Fei tore through the void with a scratch and entered a misty Origin Sea.

Even if a strong master died, there was a high chance that his Origin Sea wouldn’t be discovered. In the future, it would reappear in a certain way.

However, Han Fei was not an ordinary person. With the Vast Ocean Navigator in hand, how could he let go of Yu Meng’s Origin Sea?

In the mist, Han Fei glanced around and found that the Origin Sea was much smaller than he imagined.

Han Fei had thought that Yu Meng's Origin Sea was at least thousands of kilometers long! However, it turned out that it was only more than 1,800 kilometers long, and it was irregular.

His Origin Sea, because it had fused with Forge the Universe, was now a circular area with a diameter of 12,000 kilometers. It was much larger than Yu Meng's.

In addition, Han Fei had only seen the Origin Seas of the Water Immortal and the Divine Son. But even the Origin Sea of the Water Immortal was more than 3,000 kilometers long. How could Yu Meng compare to it?

Han Fei thought to himself, It seems that I was overthinking. It turns out that the Origin Sea of ordinary kings is really not big!

The old turtle was lost for words. "Of course. The Origin Sea is either big for a special reason or because its owner has been cultivating for a long time and keeping integrating Chaotic Qi into it."

Suddenly, Han Fei raised his head and saw a small vine extending in. Then a second, a third, and a fourth. Who else could it be but the Demon Purification Pot?

"Hiss! The Demon Purification Pot even eats other people's Origin Sea?"

Han Fei shrugged slightly. The Chaotic Qi wouldn't decrease when it entered the Origin Sea. It was just a power that supported the Origin Sea.

The more Chaotic Qi fused into the Origin Sea, the more spiritual this Origin Sea would be, as if it were a natural world.

When Han Fei transcended the tribulation, more than 5,000 wisps of Chaotic Qi were pressed into his Origin Sea.

Logically speaking, it was impossible for more than 5,000 wisps of Chaotic Qi to create an Origin Sea with a radius of 6,000 kilometers. However, when the Demon Purification Pot fused in, the Origin Sea immediately changed.

Seeing the Demon Purification Pot swallowed crazily, Han Fei was dumbfounded.

It seemed that the Demon Purification Pot was eating the Chaotic Qi in Yu Meng's Origin Sea.

The Chaotic Qi had the effect of stabilizing the Origin Sea. In addition, a perfect Origin Sea could breed and store the power of the Great Dao.

Now, as the Demon Purification Pot swallowed, Han Fei saw that the range of this Origin Sea began to shrink, and the range of the mist became larger.

Han Fei scanned around with his perception and grabbed dozens of Sun-Moon Shells.

...

In the outside world.

Gong Zhan was so frightened that his face turned pale and his soul trembled.

Han Fei's growth was too abnormal!

Yu Meng! The powerhouse second only to Sha Zhimeng in the Dream Weaving World, had died just like that! This was something he completely didn't expect.

Gong Zhan even knew very well why Han Fei killed Yu Meng first. It was because Yu Meng was more difficult to deal with. Besides, the Dream Weaving World was an inner domain Heavenly Palace, so the Wild Abyss was beyond its reach.

However, he was different. The Five Elements World was in the outer domain. If he had changed his identity with Yu Meng, he might have died today.

"No! I can't stay in the Five Elements World anymore."

At the same time, Huo Buhuo from the Golden Crow World and Hong Yue from the Mad Corpse World were rushing over.

They were still tens of millions of kilometers away.

However, when the sky changed, they were the two kings closest to the Wild Abyss. Therefore, they discovered, to their shock, that a king had died!

Huo Bulie immediately shouted, "A king died? What happened? Who died?"

Hong Yue said, "Something's wrong. Yu Meng and Gong Zhan are guarding the Wild Abyss. If the Martial Emperor City doesn't come, the ten pirate groups won't dare to provoke them. After all, it's not easy to rob two kings. Besides, kings have the Origin Sea. Which king would hang a Sun-Moon Shell on their bodies for no reason and let others rob them? Therefore, I'm afraid something happened to them."

Huo Bulie said, "That's impossible! It's only been ten years... Let me go over and take a look!"

Hong Yue said, "Brother Huo, I think it's better to call a few more people with us."

Huo Bulie shook his head. "There's no need. If something really happened to the two of them, be it Yu Meng or Gong Zhan, only one of them has died. This means that the other party doesn't have the ability to kill Sea Establishers in a row. Although I'm not in the top ten in the Raging Sea, I'm not someone Yu Meng and Gong Zhan can match. Let's go and take a look."

Hong Yue cursed in his heart, What a self-opinionated bastard. Your strength is enough, but my strength is not enough! If you have the ability, don't drag me along!

Unfortunately, the Mad Corpse World was only an outer domain Heavenly Palace.

Hong Yue didn't dare to offend Huo Bulie, so he could only follow him.

On the other side, Gong Zhan was fleeing, fearing that Han Fei would catch up with him. He activated the Five-Elemental Escape Technique and wished he had a new pair of wings.

Gong Zhan thought to himself, Yu Meng's death will definitely shake the entire Raging Sea in an extremely short period of time.

When he went back, he would immediately tell Supreme Clearness and Infinity about this matter.

The current Han Fei was no longer someone they could easily control.

On the periphery of the Wild Abyss, after Han Fei escaped from here ten years ago, there were people stationed here all year round. The Venerables of the Heavenly Palaces were cultivating while paying attention to the situation in the Wild Abyss.

Suddenly, a Heavenly Dao crack appeared in the sky, and all the people were in an uproar. "Quick, retreat into the route. A king has died. Retreat..."

Venerables and kings were two different concepts.

With the death of a king without any warning, who dared to be negligent?

...

Just as these people hurriedly fled towards the route, on a certain route, a large ship quietly floated on the sea.

A total of 49 people appeared with the big ship.

Luo Xiaobai asked, "Are we out?"

Zhang Xuanyu said, "Hiss, there's so much spiritual energy here, and the energy is even more violent. This place is a bit similar to the cage, but it's gentler than the cage. It's really suitable for cultivation."

"Huff~"

Le Renkuang took a deep breath and said in relief, "I'm sure that this is the Raging Sea."

At this moment, Yi Xiyan and the others were curiously looking around. The Insect King looked at the skeleton flag on the hull, thinking about something...

Chu Linyuan and Mu Qingchuan couldn't hide their excitement, thinking, So this is the Raging Sea?

At this time, Han Fei shouted, "Don't be surprised. You have indeed left the cage where we live. At this moment, we are on someone else's route. You just need to remember that in the Raging Sea, once you leave the route, it's extremely easy to lose your direction. Therefore, even if you fight, don't stray too far from the route. Today is the first day we come out. Let me tell you the basic situation of the Raging Sea... First of all, our fleet is called the Avenger Pirates..."

As Han Fei explained the Thirty-Six Mystic Worlds, the hundred demons, the undersea human race, the Merman Royal Family, and the Martial Emperor City, they were all stunned.

Serpent Mengyue said, "Human King, what should we do?"

Han Fei said, "First of all, don't call me Human King, call Captain. Secondly, you've just come out. What do you need the most?"

This time, Le Renkuang immediately shouted, "Resources!"

Han Fei grinned. "Now you know what you should do? You should snatch resources... Let's wait for the resources to come to us on this route."

What Han Fei didn't know was that in order to give everyone this class, he happened to miss Huo Bulie and Hong Yue who rushed over.

Chapter 1897: We Are Not Weak

“Wait for the resources to come to us?”

The crowd looked at each other.

They had just come to the Raging Sea, and resources would come to them?

Xia Xiaochan immediately realized that something was wrong. The sky was dark red, the surrounding spiritual energy was abnormally rich, and the Dao runes between the heavens and earth seemed to be exceptionally sufficient.

Xia Xiaochan couldn't help but ask, “Did you do something today?”

Luo Xiaobai was also puzzled. “Since we're pirates, we should go search for prey. Why are we waiting here?”

Han Fei didn't keep it a secret. He said, “Well! Nothing. Just now, I killed a king who hunted us. Another king escaped. Since I don't have time to kill that king in a short period of time, I'll attack his fleet first.”

Xia Xiaochan: “???”

Luo Xiaobai: “???”

Everyone: “???”

Han Fei didn't speak via voice transmission. He just spoke bluntly. And what he said stunned everyone.

On the Demon Beast Union's side, all the beasts were shocked. Is Han Fei so awesome? He killed a king so easily?

Xia Xiaochan narrowed her eyes. “Which world?”

Han Fei said, “Yu Meng from the Dream Weaving World was killed by me. Gong Zhan from the Five Elements World ran away.”

Xia Xiaochan was lost for words. “You made such a big noise as soon as you came out. Are you really fine?”

Han Fei knew what Xia Xiaochan meant. She was afraid of attracting Chun Huangdian.

However, how could Han Fei be so stupid? Today, after he got what he wanted, he would leave. There were thousands of routes for him to choose. How could he be discovered by Chun Huangdian?

Han Fei said, “Don't worry! I just need some resources.”

In fact, Han Fei killed Yu Meng, deprived her of the power of her Origin Sea, and snatched a lot of things.

Among them, there were more than 6 million ultra-quality spiritual stones.

This didn't mean that the king had fewer resources.

In fact, Yu Meng had a lot of resources, but not mainly in ultra-quality spiritual stones.

Han Fei also found Ground Vein Essence, a five-level Dao Pattern Pill, two three-level Dao Pattern Pills, a Sea Quelling Bizarre Treasure, a pool of Black Flood Dragon Blood, more than 50,000 spiritual fruits, and a lot of other resources.

To put it bluntly, these resources could help him survive two purple lightning tribulations.

Of course, they were still far less than Han Fei's previous resources. However, Han Fei couldn't count on everyone to have the same amount of resources as him.

Now, Han Fei's main purpose of looting resources was no longer simply for cultivation!

It was impossible for Han Fei to maintain the development of the Yin-Yang World with the resources he looted.

This time, Han Fei made up his mind to complete three things.

The first was to nurture a group of strong masters, which were these people.

The second thing was to try to find the other lost Heavenly Palaces and join forces with them to kill their way back to the Raging Sea.

The third thing was certainly to explore the Monarch Palace.

Although many people in this group of people would die in the Monarch Palace if the Monarch Palace was opened.

Wasn't the purpose of growth to continue to become stronger?

Once one of them became a king, it meant that the Yin-Yang World was getting stronger.

...

About eight hours passed.

In the Five Elements World, the big ship led by Zhou Wu was returning.

Others might not know, but the people of the Five Element World knew very well that the one guarding the Wild Abyss was their king.

There was a Heavenly Dao crack in the sky. No matter what the exact situation was, they had to retreat. Otherwise, once the enemy won, it would be difficult for them not to be affected.

Zhou Wu said, "Everyone, work harder. In half a day, we can change to our own unique route. At that time, we can relax."

Buzz!

In the Void Shift this time, Zhou Wu suddenly saw a big black ship with a skeleton flag thousands of kilometers away.

Clank ~

Zhou Wu's heart sank. The Avenger had appeared?

Zhou Wu had a bad feeling. The Avenger hadn't appeared for ten years. What did its re-appearing mean? Had Han Fei returned?

Recalling the Heavenly Dao crack in the sky just now and looking at the Avenger on the opposite side, Zhou Wu thought of an extremely terrifying possibility: something had happened to their king!

Zhou Wu shouted, "Come on, rush out of the route and go anywhere."

While Zhou Wu was shouting, Han Fei said, "This is the first battle after you leave the Yin-Yang World and the Water-Wood World. From today on, there will be casualties in the battles you need to experience. I will only take action when our combat power is extremely unbalanced. You'll have to rely on yourselves for the rest of the time... Now, kill your way over and find opponents of the same level. Kill everyone on that ship."

Swish! Swish! Swish!

Han Fei's words were very straightforward. He was clearly telling them that they had to grind these whetstones themselves. If they died, it wouldn't be his fault.

Subconsciously, Luo Xiaobai shouted, "Half-Kings, seal their way. The others, find your opponents."

Bang!

At this moment, a terrifying energy cannon burst out of the Avenger and bombarded the big ship of the Five Elements World.

However, the other party's ship array lit up. Even an attack that exceeded the Half-King realm failed to break the other party's ship array.

Of course, although the attack didn't completely shatter the ship, it blasted the other party dozens of kilometers back, and a crack appeared on the ship array. After all, how could ordinary ships resist the power of the Avenger's main ship?

However, Han Fei said, "The other party also has such an energy attack."

This time, even the Insect King and Serpent Mengyue were shocked. In the Raging Sea, could a random ship launch such a terrifying attack?

On Han Fei's side, most people hadn't reached the Half-King realm. Therefore, if they really took such a blow, they would die.

However, Xia Xiaochan said, "Be quick. Otherwise, they will run away."

Everyone immediately came back to their senses.

However, then they saw that Xia Xiaochan had already flown more than half a distance away, only more than 200 kilometers away from the other party's ship.

At this moment, everyone rushed out.

Although this energy cannon was powerful, there was only one. Its mobility was not enough. In addition to attacking ships, its chance of attacking people was not small, but even if it could attack people, it could only attack one person at a time.

There were a total of 33 people on Zhou Wu's ship. Among them, there were 12 Half-Venerables and only 21 Venerables. Among them, the peak-level Venerable was Zhou Wu.

Therefore, the Insect King, Serpent Mengyue, and the others were just holding the line.

For a moment, the sky was full of brilliance.

The people Han Fei brought thought that the outside world was terrifying, and they felt that even if their opponents were in the same realm as them, they still couldn't underestimate it. Therefore, they all attacked with all their strength.

The ship array was hit hard. Fortunately, Xia Xiaochan helped them and shattered their ship array.

As soon as the array was opened, Zhou Wu knew that it was over.

Chen Xiang shouted, "This person is the strongest. Let me test him."

The Void Vine teleported into the void and separated the 12 Half-Venerables.

This guy was very shrewd.

On this trip, most of the disciples of the Thug Academy were Explorers. It was most appropriate to leave those Explorers to them to practice.

Chu Linyuan shouted, "Su Sanqian, five of them are yours, and the rest are ours."

After all, they had never fought these people. Therefore, at first, no one dared to jump levels to fight and carefully divide the battlefield.

Only Zhang Xuanyu, Le Renkuang, and Luo Xiaobai were different.

The three of them surrounded the two advanced Venerables.

Han Fei watched this scene quietly on the Avenger.

These people were carefully selected by him, so they certainly weren't weak.

Luo Xiaobai directly activated the Demon Plant Divine Waterfall. The demon plants sealed the sky and entangled the enemies. And Zhang Xuanyu seemed to have comprehended something from Han Fei's Sword Dao.

Therefore, he poured half of his strength into his spear. In the spear beam, there was a soul killing technique.

"Puff! Boom..."

How could the advanced Venerable on the opposite side think that an intermediate peak-level Venerable could launch such a ruthless blow? He failed to block it and exploded on the spot.

In order not to give them a chance to escape, Le Renkuang activated the Sky Swallowing Technique and sucked the man's remains into the black hole. In the black hole, knife light flashed.

Immediately afterward, the man was killed.

At this moment, they were a little surprised. Zhang Xuanyu said, "It doesn't seem to be that difficult to fight them! I feel that they are not even as strong as the people from the Black Blood City in the cage."

Luo Xiaobai said, "I feel the same. Let's look at the others."

On the other side, Su Sanqian and company were fighting in good cooperation.

At this moment, Su Sanqian was covered in threads. In the void, a large amount of spider silk intertwined.

Gu Qi, from her armor box, drew her sword like a dragon.

The principle of the Thug Academy was to use one's ultimate move in the very beginning of battle.

Gu Qi's goal was a Half-Venerable whose body had turned purple-gold. Although her strength was two levels lower, Gu Qi still tried her best.

Ka ka ka ~

Although the sharp blades in Gu Qi's armor box were broken inch by inch, cracks were also appearing on the purple-gold body of the Half-Venerable.

"Kill!"

Blood oozed from the corner of Gu Qi's mouth as she shattered the sword and stabbed half of it into the other party's body.

But in the end, there was a gap of two realms, so this blow didn't work.

The man counterattacked with a purple light, but a big bronze hammer came at him. The terrifying force shattered the purple light. When the hammer was going to hit the man's face, a soul killing technique blasted out from between the man's eyebrows. Xing Yue stomped, and a Soul Controlling Array protected Su Daiji.

Bang!

Crack!

Daji directly smashed the man's purple-gold head with her giant hammer.

However, a moment before the person died, a green pearl smashed at Su Daiji.

Fortunately, Gu Qi had a shield array. The two of them were sent flying dozens of kilometers away, vomiting blood. At the same time, this Half-Venerable was killed.

All of this happened in a flash.

In the eyes of everyone else, the disciples of the Thug Academy were really ferocious. These advanced Explorers had killed a Half-Venerable in an instant at the price of injuring themselves in an instant. This was not something ordinary people could do.

During this period of time, if Su Sanqian didn't control it well, if Xing Yue didn't help in time, if Yi Xiyao didn't restrain others, it was impossible for Gu Qi and Su Daiji to kill a Half-Venerable so easily.

Boom!

Boom!

On one side were the powerhouses from the Five Elements World who were preparing to escape, and on the other side were the members of the Avenger who were determined to win the first battle.

The result could be imagined.

In just half an hour, more than half of the people from the Five Elements World had died. Most of the people on the Avenger were injured, but they couldn't hide the joy on their faces.

After only one battle, they realized one thing: we are not weaker than others.

Chapter 1898: A Group of Fierce People Entering the Raging Sea

A life-and-death battle was extremely easy to boost morale.

A great victory in the first battle could certainly stimulate the confidence in everyone's hearts, and also boost the momentum of their side.

Of course, the people of the Five Elements World were not all weaklings.

Some people's Great Daos were equally extraordinary.

At this moment, an advanced Venerable was fighting White Ferret. That person activated the Five Elements Fire Barrier and a secret technique, erupting with the combat power of a peak-level Venerable. Under his full-force attacks, Bai Diao was forced to retreat.

However, White Ferret was picked by Han Fei himself.

At this moment, White Ferret was fighting ferociously. He used the Soul Separation Claw and broke half of the other party's body before escaping into the void.

However, it was obvious that when their strength was equal, it was still difficult to kill the other party.

White Ferret looked around and found that the others had more or less gained something. Only he had lost face.

Half an hour later, the battle ended.

Because there were many Half-Kings and peak-level Venerables controlling the battlefield, Han Fei's side certainly wouldn't lose this battle, but a large number of them were injured.

As for the other party, from the beginning to the end, only one ran out, which was the person fighting White Ferret.

A moment later, this group of people grabbed the enemy's Sun-Moon Shells and collected the big ship of the Five Elements World, exclaiming.

Someone was surprised. "Hiss! You may not believe me, but I have an extremely rare Dao Querying Fish here."

Someone was surprised. "I have more than 100,000 ultra-quality spiritual stones here."

Someone was shocked. "I seem to have obtained an ultra-quality Divine weapon."

Someone was stunned. "So many spiritual fruits..."

When these people returned, still immersed in the joy of the harvest, Han Fei said, "Can anyone tell me what mistakes you made in this battle?"

Seeing that Han Fei was about to lecture them, everyone fell silent and held the Sun-Moon Shells, waiting to be scolded.

Judging from Han Fei's tone, they had all made mistakes in the battle just now.

White Ferret blushed. Han Fei would probably say that he was the only one who failed to defeat his opponent.

Luo Xiaobai concluded, "In this battle, everyone used too much strength. The people in the Raging Sea are actually not as powerful as we think. Therefore, at the beginning, we poured too much strength into these people. There are many strong masters outside, and we may be in danger at any time, so it's necessary to preserve some strength."

After that, Zhang Xuanyu said, "The most important thing is that everyone fights too hard. We didn't hesitate to exchange injuries for injuries to kill our opponents. However, under any circumstances, survival is the most important thing."

Han Fei immediately nodded. "That's right. In the Raging Sea, there are infinite resources. If you kill one or two people, you won't be considered a hero. Your life will always be the most important. White Ferret, do you think anyone will underestimate you if your enemy runs away?"

White Ferret: "I..."

Han Fei said, "The most unwise choice you made was to fight that person to the death. However, have you ever thought that you don't just represent yourself, but the White Ferret Tribe? Have you forgotten the future of the beast race? Just now, since I was here, and there were other Half-Kings, why did that person still manage to escape?"

White Ferret seemed to understand something and thought to himself, Yes, I may not be able to take that person down with my strength. However, how strong is the Human King? It can be said that as long as his suppressing pressure descends, that person has nowhere to escape.

The man ran away because Han Fei deliberately let him go. He didn't quite understand why. Did the Human King not want him to risk his life?

Han Fei said, "Now, in the Raging Sea, we are pirates. Robbing resources is what we should do. However, we are pirates with principles. The enemies of the Yin-Yang World are the Supreme Clearness World, the Infinity World, the Golden Crow World, the Medicine King World, the Dream Weaving World, the Five Elements World, the Mad Corpse World, the Soul Sealing World, and many other Heavenly Palaces. On the contrary, the Hundred Demon Clan, the Undersea Human Clan, and the Merman Royal Clan are not our primary enemies... We want them to think that we humans are fighting among ourselves... Oh, no, that's wrong. The Thirty-Six Heavenly Palaces are fighting among ourselves..."

At this moment, Han Fei revealed a ferocious expression. "Let me tell you in advance, what I want to do on this trip is to conquer the Thirty-Six Mystic Worlds... At least, I want to create a situation where we can be on par with the Heavenly Palaces such as Supreme Clearness and Infinity. Only in this way can we protect the Yin-Yang World... Of course, if we can suppress the Thirty-Six Mystic Worlds and lead them, this will be our greatest goal."

Han Fei spread his hands. "You performed well during my sermon. In my opinion, all of you have the potential to become a king. In 22 years, I will take you to explore the Monarch Palace. Your chance to become a king is there... Before that, the only thing you have to do is to become a Half-King. And to become a Half-King, you have to stay alive."

"Hiss ~"

Han Fei's words shook everyone.

Yin'er smiled. The brother she had seen was back. He was domineering and decisive.

While she was happy, she was also a little sad.

Because she had been with Han Fei for a long time, she knew that in fact, Han Fei liked to live a normal life. However, he had no choice. He had his own choices. He had to protect the Yin-Yang World and the Water-Wood World, resist the Grand Pure Palace and the Infinite World, and face the threat of sea demons... He had too many things to bear.

With so many burdens on Han Fei, he had to be so domineering.

Luo Xiaobai and the others had long understood what Han Fei was talking about. Before they left the Yin-Yang World, they had already known about their enemies and had simulated the battles with them countless times.

In this battle, they had killed 20 Venerables.

This looked like an incredible victory.

However, in this battle, it was necessary to summarize their experience. The first thing they realized was that the people in the Raging Sea were not as strong as they imagined. Some of them even showed that they were inexperienced in combat.

Their lack of combat experience could only mean one thing: they were protected by their own powerful seniors, so they didn't have much tempering.

In terms of combat, which person in the Demon Beast Union, the Immortal City, the Forest of Terror, or even the Cloud Sea Divine Tree lacked combat experience?

Which one of them hadn't fought hundreds of battles for thousands of years? If not, why would they show such overwhelming momentum today?

White Ferret couldn't help but lower his head. "I'm ashamed! Today, everyone should take me as a negative example. Don't sacrifice yourself easily."

Han Fei said, "Okay, this is just the first battle. Don't think that you can't fight with your lives on the line. Of course, you can, but you have to grasp the right time. Now, speed is the most important in war. You have too few resources. Coming to the Raging Sea, if you want to cultivate quickly, the first thing you need are all kinds of resources. Without resources, you are nothing. Now, prepare to set off. This is the first step of our revenge..."

...

One year later.

The reappearance of the Avenger had already spread throughout the Raging Sea.

The first piece of news after the appearance of the Avenger was that Han Fei had killed Yu Meng from the Dream Weaving World. Many Heavenly Palaces expressed that this matter could not be forgiven.

However, most of the Heavenly Palaces were just shouting slogans.

Everyone knew why Han Fei killed her. If you didn't f*cking ambush him, why would he look for you?

Besides, how could Han Fei not know which Heavenly Palaces drove the Yin-Yang World into the Wild Abyss? If they really jumped out to provoke the Avenger at this time, they would be idiots.

At the moment this information was exposed, the hundred demons and the undersea humans were all mocking the human race.

A king of the hundred demons laughed. "I'd like to see how long the chaos of the human race will last. It's best if Han Fei can destroy all the Thirty-Six Heavenly Palaces."

The undersea human race even declared to the public, "As long as the Avengers doesn't attack the undersea human race, the undersea human will never become enemies with the Avengers."

No one was an idiot. They more or less knew the grudges among the Thirty-Six Heavenly Palaces.

In the following year, the Avenger destroyed two big ships from the Mad Corpse World and killed one Half-King and more than 40 Venerables.

The third attack of the Avenger was beyond everyone's expectations. They directly attacked the Supreme Clearness World.

They snatched a big ship from the Supreme Clearness World to the Medicine King World.

At that time, five Half-Kings were guarding the ship, three of them died. Among the 43 Venerables in the ship, 19 died.

To everyone's surprise, Han Fei didn't kill them all but let them spread his words that "Whoever has hunted the Yin-Yang Heavenly Palace, please welcome the fury of the Avenger."

After the third operation, the Avenger disappeared for four months.

The fourth time they attacked, it only took them 38 seconds to plunder a ship of the Infinity World and kill 13 Venerables.

For pirates, the probability of them attacking four times in a row in a year was almost negligible.

Not to mention whether there were so many people for you to rob... most people would take their internal route. It remained a question whether you could accurately catch the right time to attack!

It had been a year since the first attack.

At this moment, on a public route to the Martial Emperor City, in the non-sailing sea area nearby, a lonely black ship was floating.

Who else could it be but the Avenger?

At this moment, everyone was waiting: Xing Yue was making a breakthrough.

Crack!

A spiritual energy storm gathered, and someone said with a smile, "Xing Yue, you're the slowest one. You've only become a peak-level Explorer now!"

Su Sanqian said, "The peak-level Explorers of our Thug Academy are not ordinary ones."

In fact, as Su Sanqian said, their peak-level Explorers all cultivated the Purity Mystic Body!

Before reaching this realm, their strength had been reduced to that of a junior Explorer.

They could recover so quickly because they were fighting every day.

In the Raging Sea, as long as it was not a route, it was a battlefield. It was very easy for them to encounter sea demons of various levels and all kinds of strong opponents.

Just one year later, everyone on the Avenger had been reborn. This was what they got from countless life-and-death battles.

In Han Fei's words, this was a basic trial.

This kind of training was completely different from fighting enemies. Exploring non-route areas was simply like courting death.

This year, Zhang Xuanyu, Le Renkuang, and Luo Xiaobai all made breakthroughs, and their strength soared.

At this moment, Han Fei was standing at the bow of the ship. "In three days, we'll launch a surprise attack on the Predators. This time, there are no rules or restrictions on your strength. Try your best to kill anyone. For this, I've found reinforcements, six Half-Kings."

Chapter 1899: Hunting Predators

The crew members couldn't help but exclaim when they heard that they had reinforcements... six Half-Kings?

Even Luo Xiaobai was very surprised. Didn't Han Fei just go to the Martial Emperor City? Why did he come back with external help?

The illusion of mountains and rivers appeared, and Song Kaiyuan, Li Kaitian, and the others appeared one after another.

Song Kaiyuan and the others were also slightly surprised.

It turned out that the Avenger's crew was such a group of people? There were actually... seven cultivators who were not even Venerables? This strength was a little weak!

This year, news of the Avenger went viral in the Martial Emperor City. Countless people went to the Martial Emperor City to buy information about the Avenger and ask where they were.

However, the Avenger was elusive, and the Martial Emperor City was not omnipotent. Apart from giving them the location and details of their latest battle, they couldn't give them any more detailed information.

Song Kaiyuan and the others had also heard that the people on the Avenger were not as strong as they imagined.

However, despite what everyone said, the Avenger was never taken down by anyone.

Therefore, people couldn't help but wonder what the people on the Avenger were like.

Now, Song Kaiyuan and the others saw that the strength of these people was really uneven. There were only four Half-Kings and six peak-level Venerables.

They actually robbed the Supreme Clearness World's ship with such strength?

However, with Han Fei here, they weren't surprised no matter how strong the Avenger was.

They knew that these people should be the top seedlings that Han Fei brought out of the Yin-Yang World. He brought them out for them to nurture and gain experience.

Otherwise, Han Fei only needed to lead the strongest. There was no need to lead such a team of uneven strength.

While Song Kaiyuan and the others were surprised, the people on the Avenger were also guessing. Where did Song Kaiyuan and the others come from?

In fact, it was a complete surprise that Han Fei met Song Kaiyuan and the others.

Originally, Han Fei went to the Martial Emperor City to buy some resources and get some hunting information.

However, he met Song Kaiyuan and the others.

It turned out that they had been staying in the Martial Emperor City. Song Kaiyuan guessed that Han Fei would return in at most 30 years.

Anyway, 30 years was nothing to them. Even if they were to cultivate in seclusion, a mere 30 years would pass very quickly.

However, Han Fei appeared much earlier than they expected.

Han Fei saw that there were six thugs here. How could he not use them?

Although Han Fei knew that those Heavenly Palaces gave those people to him to help them grow, these people were really useful!

It would be a waste not to use them.

They were all top Half-Kings of the Heavenly Palaces.

To put it bluntly, any of them could easily beat two ordinary Half-Kings.

However, they were not from the Yin-Yang World and the Water-Wood World after all, so the difference among them immediately became very prominent.

Han Fei didn't care about that. As long as they fought together a few times and let Song Kaiyuan and the others instruct his men in cultivation, the sense of distance would soon disappear.

Of course, the premise of the disappearance of the sense of distance was that the people on the boat also knew the identities of Song Kaiyuan and the others.

At this moment, Han Fei said bluntly, "They are from our allies, the four Heavenly Palaces of the Supreme Mystic World, the Sword God World, the Immeasurability World, and the Glazed Glass World. You can think of the six of them as the top Heavenly Talents of these Heavenly Palaces. Each of them is not something ordinary Half-Kings can compare to. OK, you can get to know them yourselves..."

"Allies?"

Ignoring everyone's surprise, Han Fei said, "Take your time to get used to each other in the next three days. In three days, be prepared to fight with all your strength. The Avenger will officially become a major force in the Raging Sea in three days."

...

In the cabin, Han Fei, Xia Xiaochan, and the others gathered.

Zhang Xuanyu said, "Feifei! Is there anyone among these people suitable for me to challenge?"

Han Fei said, "Well, that brawny man is called Li Kaitian. His defense is amazing, so is his combat power. He also uses a rod. However, you haven't even reached the peak of the Venerable realm. Don't ask for trouble. When you reach the peak of the Venerable realm, you can try challenging him."

Zhang Xuanyu couldn't help but ask, "So strong?"

Han Fei said, "Among them, except for Mu Xi and Mushui Sisi, the other four all have the ability to cross realms to fight."

"Fight across realms?"

Le Renkuang asked in surprise, "Aren't they Half-Kings? Why are they fighting across realms?"

Luo Xiaobai asked, "Are you saying that they can exert the combat power of the Sea Establishment Realm?"

Everyone couldn't help being shocked. F*ck, can the top Heavenly Talents in the outside world be so strong? A Half-King crossing realms to fight a king? So exaggerated?

Han Fei said, "Not exactly. However, they can pose a certain threat to the most ordinary king in a short period of time. Even so, this is not something ordinary Half-Kings can do. Even the weakest of the six, Mu Xi, should be able to easily defeat a fake king like the Black Evil Conch King."

"Hiss ~"

Seeing their expressions, Xia Xiaochan couldn't help but smile. "You don't have to listen to his exaggeration. They are the top Heavenly Talents of their respective Heavenly Palaces. If they don't have some strength, how can they be called Heavenly Talents? However, you have cultivated the Purity Mystic Body for so long and your foundation is extremely solid. It's unlikely for them to defeat you in the same realm."

Zhang Xuanyu licked the corner of his mouth and said, "There's still a long way to go. It's only been a year since we made our five-year plan. I'll challenge them in five years."

...

Three days later.

The Predators had deployed three large ships and 98 Venerables in total. There were no explorers, and Mad Fourth King came personally.

A full day after they left the Martial Emperor City, Mad Fourth King lay on his main ship and shouted, "Brothers, it's said that the Medicine King World has refined an eighth-grade divine pill this time and all the heroes gathered there. All the Heavenly Palaces have gone all out to compete for it. If we rob any one of them, we'll make a fortune... Try your best this time."

"With our king here, we can definitely tear off a few mouthfuls of flesh this time."

"Our brothers have been waiting for a long time. Recently, the Avenger has been showing off its strength all day long. This time, it's our turn."

Mad Fourth King slapped him in the air, making the man stagger.

He cursed, "Don't mention Han Fei. What a bummer."

However, a voice suddenly sounded.

"I'm not even here. How can I be a bummer? You talk about me every day. If I don't kill you today, I'll be letting you down."

Suddenly, Mad Fourth King's expression changed drastically. He jumped up from the ship and shouted, "Open the ship array."

Swish ~

As soon as Mad Fourth King said so, a huge wave seemed to appear out of thin air, and a sword stream full of complicated Great Dao aura struck over.

Mad Fourth King was very fast.

He immediately stood in front of one of the big ships.

Because Han Fei's first attack was not aimed at the main ship, Mad Fourth King thought that he could block this blow.

However, when Mad Fourth King really faced this sword head-on, he was stunned.

Roar!

Mad Fourth King's face turned green.

Was this a f*cking blow from Han Fei?

Wherever this sword passed, the void shattered. Behind it, there was a majestic sword intent, wrapped in endless void cracks and sea-like sword intent, like a giant beast charging.

Mad Fourth King went berserk, but he still failed to block it.

Immediately afterward, he fused with his spiritual beast and used a secret technique, and his strength soared again.

However, he discovered that he was still no match for Han Fei.

This was the strongest state he could reach in a short period of time. However, facing Han Fei's sword, he was not only shocked, but also scared.

Buzz!

At the last moment, Mad Fourth King dodged. Because All Great Daos in One Sword was not aimed at him at all, he had time to escape.

However, one of the Predators' ships couldn't escape.

Although the ship array lit up, how could the ship array block a sword that even Mad Fourth King couldn't block?

Cracking sounds appeared.

Bang!

In an instant, this big ship was crushed into dust fragments. The 37 Venerables on the ship all died.

This was the horror of a king.

Han Fei's attack stunned not only the Predators, but also all the crew members on the Avenger.

Jian Hui was the most shocked.

What kind of sword intent did Han Fei comprehend? How could it be so powerful? He killed 37 Venerables with one slash? How could a king do it so easily?

More importantly, there were at least three Half-Kings on that ship.

Song Kaiyuan took a deep breath. Even he couldn't recognize Han Fei's sword. After only ten years, Han Fei had become a king. However, wasn't he too strong?

Even Zhang Xuanyu and the others were stunned. They all swallowed. A big ship was destroyed with only one slash?

This made their pursuit of power become even more eager.

It was not until then that the others realized that Han Fei had really just been accompanying them to gain experience in the past year. Otherwise, Han Fei would have killed the Predators in three strikes.

Han Fei said, "Kill."

Swish swish swish!

As soon as Han Fei shouted, everyone on the ship turned into a stream of light and rushed out.

Nine Tails, Little Gold, Little Fatty, and the lapdog all joined the battle.

Even so, Han Fei was still weaker than the Predators because there were too many low-level combatants on the Avenger.

Fortunately, the lowest-level combatants were from the Thug Academy and had all cultivated the Purity Mystic Body.

Therefore, he couldn't judge their true strength according to ordinary standards.

Han Fei descended and shattered two ship arrays, forcing the Predators to fight the Avenger.

In an instant, a junior Venerable tried to kill his way into Yi Xiyuan's team. After all, the five of them were the weakest.

However, the moment the five of them fused with their spiritual beasts, their strength soared.

The Venerable slashed back Yi Xiyuan and Su Daiji, but his legs were entangled by algae. Immediately afterward, a fatal sword light erupted with the power of the Venerable realm and stabbed at his back.

It was Qu Jinnan and Ling Yuan. Their strength was not much stronger than Su Sanqian's, so it was most appropriate for them to help at this moment.

Immediately afterward, thousands of spider threads floated in the air, and an array appeared under his feet. Seven sword shadows shot at him one after another.

Bang! Bang! Bang!

After taking two blows, the man had no chance to escape.

At this moment, he discovered that he was surrounded by seven people. Among these seven people, there were two manipulators and a spirit gatherer who frantically exerted control on him. As for the others, their killing moves were frequent and their strength was extraordinary. Every blow could seriously injure him.

The man was shocked. "What a bunch of freaks!"

Chapter 1900: The Avengers among the Top Ten Pirates

The surprise attack of the Avenger, starting with Han Fei's All Great Daos in One Sword, caught the Predators off guard.

Mad Fourth King roared, and his skin flushed red.

He shouted, "Han Fei, do you think I'm ranked fourth among the top ten pirate groups just because I can go berserk?"

Mad Fourth King's momentum was soaring crazily.

Han Fei saw that his flesh was broken, many bone spurs appeared on his body, and horns grew out of his head...

The old turtle said, "This guy has become a demon. Besides, he's an unorthodox demon, not a legitimate demon."

Han Fei frowned slightly. Mad Fourth King had gone berserk twice, but his strength was even weaker than his clone.

But this time, this guy had changed into a lizard-like monster. The soaring blood Qi was clearly at the cost of his vitality.

However, Han Fei was not scared at all.

Han Fei chuckled. "That's good. If you're too weak, it's really boring. I haven't fought for eleven years. I don't know how strong I am now. You can have a try."

Han Fei smiled. With a tap of his foot, he appeared dozens of kilometers in front of Mad Fourth King.

Two more arms grew out of Mad Fourth King's body. He grabbed four knives and cut four void cracks, trying to roll Han Fei in.

"Keke ~"

Han Fei's figure flashed, the surrounding void tore, and the two of them were instantly trapped in the void.

Outside, seeing this scene, Xia Xiaochan cut a person in half and began to guard the battlefield.

The people on the Avenger were still growing. Now, the time for them to grow was too short. This battle would be very difficult.

Without Han Fei, she had to guard it.

Although Han Fei said that there was a chance of death, these people were carefully selected by him. No matter which one died, it would be a big loss.

After all, Han Fei only brought out so few people.

But fortunately, some enemies were fleeing.

Song Kaiyuan and the others also attracted a lot of firepower, which could reduce the pressure on the Avenger.

...

In the void, Han Fei held Mad Fourth King's two Sea Quelling Bizarre Treasures with both hands. Light circulated in Han Fei's hands, and a terrifying power erupted at close range.

Bang! Bang!

When Han Fei crushed two junior Sea Quelling Bizarre Treasures with his bare hands, he said disdainfully, "It seems that you have a lot of vitality? Keep going crazy... Let's see how crazy you can be!"

Mad Fourth King was really a little crazy at this moment. Firstly, he knew that he probably couldn't leave today. Secondly, he guessed that Han Fei had also used some secret method.

For example, when he first met Han Fei, Han Fei's peak combat power could only last for more than ten seconds.

"Puff ~"

The two of them fought a thousand times in an instant.

A black sting suddenly burst out of Mad Fourth King's chest and stabbed Han Fei in the chest at lightning speed.

Bang!

Han Fei was stabbed back a hundred kilometers, and the battle suit on his chest was completely torn apart.

However, Mad Fourth King saw golden light on Han Fei's flesh and blood. His blow failed to shake this guy's body?

Han Fei's lips curled. "You probably don't know what the Invincible Heart is... Otherwise, you would never choose to attack my heart! Do you still have any moves?"

"Roar! Han Fei, let's see how long you can last with your own strength!"

Mad Fourth King abandoned his double knives and tried to fight Han Fei barehandedly.

He estimated that Han Fei had been fighting for seven or eight seconds. If Han Fei used a secret method, he would definitely be weakened.

At that time, he might seize the opportunity to kill Han Fei the moment he activated the Time Technique.

However, Han Fei was not afraid at all and collided with Mad Fourth King.

Knock, knock, knock!

Clang! Clang! Clang!

Ka ka ka!

Han Fei estimated that the power unleashed by Mad Fourth King by burning his life force and forcibly entering the demonic realm was about 220,000 to 240,000 waves.

However, this kind of outburst was too harmful to his body. If it weren't a life-and-death situation, Mad Fourth King wouldn't have fought in such a way without considering the consequences.

Therefore, under normal circumstances, Mad Fourth King's strength could only reach 120,000 waves.

But in the end, Han Fei finally saw the real strength of the fourth place of the ten pirate groups.

If Mad Fourth King had such a trump card, it was impossible for the top three not to have one.

Han Fei thought that it might take him some time to become one of the strongest forces in the Raging Sea.

Five seconds later, Mad Fourth King was still erupting.

However, Han Fei was no longer interested. His combat power had already surpassed his in all aspects. There was no need to measure himself by the standards of Mad Fourth King.

Han Fei said, "That's it. It turns out that the famous Mad Fourth King is nothing more than this."

Mad Fourth King clearly sensed Han Fei's change and was about to retreat. However, suddenly, he found that the power Han Fei erupted with doubled.

How could Mad Fourth King expect such an exaggerated increase in strength? With just one blow, Mad Fourth King's fists exploded, and Han Fei's combat speed and frequency were no less than Mad Fourth King's.

Bam! Bam! Bam! In less than half a second, Mad Fourth King was crushed into a meat pie before he could escape.

Buzz!

Feeling that Mad Fourth King's red body was overflowing with energy, Han Fei knew that he was about to blow himself up.

Han Fei sneered and turned the Void Lines into one, grabbing Mad Fourth King and attacking his soul.

In just one blow, a terrifying power erupted in the void. In the sky, a huge blood-colored crack stretched across the sky.

Outside, when the crew of the Avenger saw this scene, their morale boosted to the extreme.

Someone shouted, "Captain has killed a king. Everyone, try harder to kill all the people of the Predator."

Originally, in every battle, the crew of the Avenger would always keep a trump card. However, this time, in order to win, most people used their trump cards.

It was not because there was no need to hold back, but because it was time to erupt. The Predators were not good-for-nothings. How could they be so easy to fight?

Buzz!

A vine emerged from the void with two people attached to it. These two people only had a broken body left... These were the crew of the Avenger who almost got themselves killed in the end!

Even Chu Linyuan was cut in half.

Mu Qingchuan's body had dozens of holes.

Wang Dashuai's bronze door was bent and full of cracks.

Except for the Half-Kings, the rest of the Avenger were all injured.

Fortunately, Xia Xiaochan and the Void Vine took action. Otherwise, there would have been at least 20 casualties on the Avenger this time.

For the Venerables of the Predators, this battle was destined to be unfair, because there were too many Half-Kings on the Avenger's side!

Every time they were about to kill the people on the Avenger, a strong master would descend and snatch the people away. Who could they complain to? After all, their king might be dead!

At this moment, there were only 35 Venerables left on the Predators' side.

Buzz!

Suddenly, the void trembled, and Han Fei walked out of the void casually.

Han Fei glanced at the battlefield and said casually, "This battle is over. Since these people can survive until now, let them go."

On the Avenger, many people sighed. Unfortunately, they were not strong enough to quickly take down their opponents.

As for the Predators, they were dumbfounded. We're released just like that? Really? Aren't you going to kill us?

Han Fei said, "Remember to spread the news. From now on, there will be no Predators in the Raging Sea. The Avenger Pirates is ranked fourth among the top ten pirate teams."

On the Predators' side, someone fled far away, not daring to stay at all.

After the others found that Han Fei didn't stop this person from leaving, they all ran away.

However, to Han Fei's surprise, a few people didn't leave.

A Half-King surrendered. "Greetings, King Han. My name is Xue Ning. I sincerely surrender to you. If you are willing to accept me, I'd like to join the Avenger."

"Oh?"

Han Fei couldn't help but smile. "But how can I believe you?"

Xue Ning said, "I can swear to the Great Dao that if I'm not sincere, my Dao heart will be covered in dust, and I will have no hope of breaking through in this life."

Han Fei couldn't help raising his eyebrows. This oath was not small.

Han Fei raised his eyebrows. "Then swear."

Xue Ning was overjoyed, and the crew of the Avenger all looked at Han Fei, wondering what the Human King meant. Was he recruiting people from the outside world?

Xue Ning shouted, "I, Xue Ning, hereby sincerely pledge allegiance to King Han. I want to follow the Avenger in this life. If I break this oath, my Dao heart will be covered in dust, my Great Dao will be broken, and I'll be subject to Heavenly Punishments..."

Xue Ning was really decisive. He swore without hesitation.

Along with Xue Ning was a Half-King named Xu Can, who also intended to surrender.

Han Fei smiled. "Tell me, why are you willing to follow me?"

Xue Ning said, "Ten years ago, Master Han fought an emperor without dying. Ten years later, your strength has become even more unfathomable. It can be seen that Master Han is the chosen one. I, Xue Ning, know that Master Han won't be a pirate forever. I swear that I will follow Master Han forever and fight the strong."

Xu Can cupped his fists. "I'm also sincere in submitting to you, King Han. I can also swear a Great Dao oath..."

Han Fei pondered for a moment.

Xue Ning and Xu Can's submission made Han Fei wonder why they couldn't strengthen the Avenger while nurturing his own people.

Besides, they were Half-Kings after all. Why not take them in?

Han Fei nodded slightly and said, "In that case, I don't mind taking you in, but how far you can go depends on your performance in the future."
