## **Chapter 1901: Cultivation in the Origin Sea**

??

Xue Ning and Xu Can naturally couldn't enter the main ship.

The main ship represented a different meaning. The main ships were all people from the Yin-Yang World and the Water-Wood World. To put it bluntly, they were all Han Fei's own men, so they were most trusted.

Even if Xue Ning and Xu Can had made a Great Dao oath, who knew if they had a few Great Daos? After all, Han Fei could make a Great Dao oath at will.

To create the second Avenger, Han Fei just needed to pick a random ship from his Origin Sea. His current Origin Sea had developed into a world of half land and half sea.

Here, there was the sky, the mountains, the rivers, the sea, the forests, and the orchards. The only things missing were probably the sun and the moon.

Han Fei was not in a hurry. Now he could send as much Chaotic Qi into the Origin Sea as possible.

In fact, Mad Fourth King was wrong about one thing, which was Han Fei's Origin Sea.

In the past, under high-intensity battles, Han Fei could only hold on for less than ten seconds.

However, it was different now. Han Fei's Origin Sea was huge. After hundreds of years of development, Han Fei didn't expand his Origin Sea but studied with the old turtle how to make his Origin Sea more like a real world.

Therefore, Xia Xiaochan and the others were very surprised when they entered Han Fei's Origin Sea. So was this why kings were called Sea Establishers?

The Origin Sea could accommodate people. This was beyond doubt.

In addition to accommodating people, the more real this world was, the more power of Great Dao it could produce. And this was the fundamental reason why Han Fei could maintain his state.

At this moment, Han Fei was in his Origin Sea, putting the ultra-quality spiritual stones he looted from Mad Fourth King into his ultra-quality spiritual stone mountain.

Some Earth Vein Spring Water was injected into the ground veins of his Origin Sea.

Spiritual spring was poured into his spiritual heritage.

Spiritual fruits and other species were planted into the spiritual fruit garden...

Yes, Han Fei was no longer robbing just to consume resources. Now, he had basically arranged all the renewable and nurturing resources he had looted into his Origin Sea.

Mad Fourth King had the properties of tens of millions, which greatly satisfied Han Fei's need for resources.

As for the Demon Purification Pot, after absorbing Mad Fourth King's Origin Sea, Han Fei discovered that his Origin Sea was already extremely firm and seemed to be showing signs of continuing to expand.

Han Fei looked back at his information, which appeared in his eyes.

Owner: Han Fei

Level: 90 (Sea Establishment)

Bloodline Ranking among the Clans in the Infinite Ocean: the 980,006th

Chaotic Qi: 9,896 wisps

Spiritual Power: 588,869

Perception range: 600,000 kilometers

Strength: 1,668,06 Waves

First Spiritual Heritage: Unknown

Second Spiritual Heritage: Unknown

First spiritual beast: Twin Yin-Yang Spirit Swallowing Fish (level 82)

Second spiritual beast: Emperor Sparrow (level 87)

Main Art: The Seventh Level of Void Fishing, Void Descending Art (King Level, Divine Quality)

...

In the ten years in the Yin-Yang World, Han Fei swallowed the bloodline of the Azure Dragon, and his life level ranking finally made it into the top million.

However, Han Fei discovered that the further he went, the more difficult the higher-level bloodlines to get.

And he couldn't use any of the bloodlines he had gained. Therefore, the matter of bloodline swallowing was temporarily put aside by Han Fei.

As for the Chaotic Qi, Han Fei hadn't focused on it all these years. In the year he came out, he had hunted two kings in a row. The Demon Purification Pot had taken the initiative to swallow their Origin Sea, so it had grown so much.

However, the Demon Purification Pot shouldn't be able to entirely swallow the Origin Sea of others. Otherwise, his Chaotic Qi shouldn't be so little.

At this moment, Han Fei was just here to take a look at the Chaotic Qi. If hunting a king could only increase more than 2,000 wisps of Chaotic Qi, the growth of the Chaotic Qi would be too slow!

Han Fei had complained to the old turtle about this question, which almost angered the old turtle. The old turtle said that Han Fei didn't know how lucky he was.

Now, looking at his own data, Han Fei couldn't help sighing. "Mad Fourth King is already so terrifying when he unleashes his limit. If I really fight the one from the Undead Pirates, I wonder what my odds of winning are."

The old turtle said, "Your current strength is not weak at all. Even if you can't enter the top ten of the Raging Sea, you can at least enter the top thirty. What you should do now is to figure out your Great Dao."

Han Fei nodded slightly. "That's true. The green jade bridge is getting harder and harder to walk. If this goes on, it will go downhill."

Another important reason why Han Fei left the Yin-Yang World this time was that he discovered that his combat power, which could have increased by three times, showed signs of declining. Now it was only about three times to 2.8 times.

Han Fei soon understood the decrease was because his understanding of the Great Dao itself was not enough!

As his strength increased, the enhancement provided by his Great Dao became lower and lower... Unless he could comprehend his Great Dao more deeply.

However, this kind of thing couldn't be figured out just by thinking about it.

Therefore, an important purpose for Han Fei to come out this time was to try to comprehend his Great Dao deeper in the Raging Sea.

While Han Fei was silent, most people had already begun to chat spontaneously. As many as 20 of them were seriously injured and most of their resources had been used to rebuild their bodies.

Han Fei came back to his senses and didn't treat them immediately. Instead, he asked, "Have you seen it for yourself? This is the power of the Predators. Even if only some middle-level Predators are left, it will be difficult for you to kill them. This represents the gap in strength! This means that the resources you snatch are not enough, and that you are not strong enough. In the next half year, you don't have to do anything but continue to train yourselves."

On the other side, Xue Ning and Xu Can seemed to be trying to make their presence known... Xue Ning said, "King Han, the Medicine King has a big event this time. It's said that Granny Qiu refined an eighth-grade divine pill. This time, in the Thirty-Six Mystic Worlds, many people are going to the Medicine King World to compete for that treasure. We can go and do something."

"An eighth-grade divine pill?"

Before Han Fei was surprised, the others on the Avenger were dumbfounded. What is an eighth-grade divine pill?

Many people looked at Han Fei, but he had never eaten an eighth-grade divine pill. How could he tell?

Anyway, it must be something good. However, the better the thing was, the more difficult it was to get. Not everyone could get it!

Han Fei said, "Don't think too much. Think about it when you become Half-Kings. Now, let's continue the five-year training plan..."

Han Fei's words dispelled everyone's expectations.

Han Fei secretly said to Xia Xiaochan and the others via voice transmission, "Hey, you guys continue to gain experience. I'll go with Xiaochan."

Zhang Xuanyu asked, "Why not bring us with you?"

Han Fei asked, "Are you a Half-King?"

Zhang Xuanyu : "..."

Han Fei had long known that the Medicine King World had refined an eighth-grade divine pill. Besides, Song Kaiyuan and the others had also told Han Fei this news.

However, Han Fei knew that a large number of strong masters from all the Heavenly Palaces must have arrived there too. If he ran into any trouble there, he wouldn't be able to escape.

Although Han Fei's current peak combat power was indeed extremely strong, he couldn't underestimate the strong masters nurtured by the Raging Sea over tens of thousands of years.

...

Not long after Han Fei killed Mad Fourth King, the entire Raging Sea was shocked. Another king died?

This was the second time in this year that a king had died in the Raging Sea.

The next day, new news came from the Martial Emperor City.

It was said that the Predators had become a thing of the past. The Avenger Pirates had become the fourth place of the top ten pirate teams.

As soon as this news was out, the people stationed in the Martial Emperor City were in an uproar.

They would never have thought that Han Fei's first target was the Predators!

Immediately, intelligence was sent back.

Within half a month, the entire Raging Sea was stunned. Was the Avenger Pirates so powerful?

Also, Han Fei's strength was completely mysterious!

The Predators were ranked fourth among the top ten pirate groups for a reason. Being in this position meant that they had the strength.

But now, they had been taken down by Han Fei.

This meant that Han Fei's strength far exceeded Mad Fourth King's.

In the end, the basic conclusion of the Martial Emperor City was that Han Fei had undoubtedly become a king! And his combat power was ranked 39th on the Sea Establishment List in the Raging Sea.

This position was originally Mad Fourth King's, but now it was Han Fei's.

...

Half a month later.

In the non-route area thousands of kilometers away from the Medicine King World, Han Fei said, "Today, I will allow you to enter my Origin Sea to cultivate. However, remember, you need to bring your own resources. When your resources are used up, you can borrow resources from me. But you'll have to return them. Do you understand?"

"Enter the Origin Sea?"

Everyone couldn't help but gasp.

Luo Xiaobai and Xia Xiaochan looked at Han Fei in surprise.

Xia Xiaochan asked, "Are you going to expose your Origin Sea to them?"

Luo Xiaobai asked, "Didn't they say that the Origin Sea can't be easily exposed?"

Han Fei smiled and said, "I will set up barriers so that they can't see through my Origin Sea. In the future, they will be the strongest force of the Yin-Yang World and the Water-Wood World. As for the Medicine King Water-Wood World, many strong masters have gathered there recently. Therefore, it won't be safe no matter where they are, so they can only come to my Origin Sea."

### **Chapter 1902: New Identity**

Different from others, Han Fei's Origin Sea carried a lot of Great Dao luck. The people who entered it added up wouldn't be able to shake it.

Han Fei considered whether or not to expose his power of time acceleration.

The Time Dragon Carp once said that the Great Dao of Time was different from other Great Daos. This Great Dao involved the river of time and might be detected by the Time Temple.

The old turtle also said that once the time acceleration exceeded ten times, it would be a forbidden technique, which the Time Temple wouldn't allow.

Han Fei pondered for a long time and thought to himself, I can make a small bet.

Xue Ning and Xu Ran certainly didn't have such an opportunity. Han Fei wouldn't allow these outsiders to enter his Origin Sea.

Han Fei certainly believed the people from the Thug Academy.

As for the others, it was hard to say. He couldn't believe them completely. Therefore, Han Fei directly reduced the speed of time acceleration to five times.

Compared to the time acceleration of ten times, five times was still extraordinary. One day of cultivation was equivalent to five days of cultivation in the outside world. It was much better than cultivating outside, right?

Buzz!

Han Fei adjusted the level of time acceleration, but he didn't tell these people.

The Origin Sea could accelerate time. There was no need for him to tell others such private matters. Even if he did, it would only arouse others' speculation and curiosity.

Han Fei said, "This cultivation session will last half a year to a year. You've been fighting for a year. You need to cultivate in seclusion for a while. I'll give you this chance. When you come out, don't be at your current level!"

Han Fei didn't care about his oppressive training method. These people were all Heavenly Talents. Whether it was comprehension ability or resource utilization efficiency, they were extremely high.

And they had their own determination.

What Han Fei wanted was for them to become stronger as soon as possible.

On the Thug Academy's side, Qu Jinnan and Ling Yuan said, "We've been in the Half-Venerable realm for a long time. It's time for us to make a breakthrough."

Luo Xiaobai said, "It's okay to make a breakthrough here. Your senior brother still has some resources. By the way, don't tell anyone about the time thing."

Qu Jinnan, Xing Yue, and the others nodded.

They were certainly not stupid enough to tell the secret of Senior Brother Han Fei's Origin Sea.

In fact, there was no concept of time here. The people who came in wouldn't notice it. Even if they found something abnormal one day, so what?

...

Outside, Han Fei didn't take Xue Ning and Xu Ran into Forge the Universe.

He didn't take Song Kaiyuan and the other five in either.

At this moment, Han Fei looked at Song Kaiyuan and said, "You said that you could give me a suitable identity that could let me sneak into the Medicine King World. What is it? If it's just an ordinary identity, it's useless to me."

Song Kaiyuan said, "Of course I know. Although the Divine Deceit Technique can simulate the identity of anyone, the identity is the key. As far as I know, this time, the Medicine King Heaven refined as many as seven eighth-grade divine pills. Without an identity high enough, it's almost impossible to come into contact with divine pills. I heard that five divine pills will be sold to the public this time. The competition must be very intense."

"Oh?"

Han Fei couldn't help but ask, "What identity can you provide me?"

At this moment, Jian Hui, who had been silent, suddenly said, "My Junior Uncle, Wang Yijian. This person fell into the demonic path 6,000 years ago and betrayed the Sword God World. We told the outside

world that Junior Uncle had been in seclusion for many years, but in fact, he was killed by the Sword God and his body was still buried under the Sword Pool.”

Han Fei couldn't help narrowing his eyes. “Why did you tell me such important information?”

Song Kaiyuan said, “Captain, I think the Yin-Yang World and our Heavenly Palaces should be allies now.”

Jian Hui said, “Junior Uncle Yijian's death has long been suspected by the outside world. Back then, he fell into the demonic path because he tried to establish the Sword Palace. I think you can use his name this time.”

Han Fei asked, “Establish the Sword Palace?”

Jian Hui: “It's similar to the sky opening.”

Han Fei understood.

He could use this identity because Wang Yijian needed this level-eight divine pill, desperately needed it.

In this way, Wang Yijian could openly compete for this level-eight divine pill.

Han Fei smiled. “You seem to be prepared!”

Song Kaiyuan smiled and said, “Captain, after what happened in the Medicine King World, even if you don't use this identity, our four palaces will arrange for someone else to use this identity to compete for the divine pills.”

Han Fei was lost for words. “Do you think you can get them?”

Song Kaiyuan said, “With the strength of our four palaces, we should be able to get one.”

Han Fei thought to himself, In terms of wealth, it seems possible. However, aren't you too naive? Last time, the Sword God helped me. Why would anyone still be willing to give face to the Sword God World?

Besides, neither Song Kaiyuan nor Jian Hui understood Han Fei's personality. Was he the kind of person who would openly compete with others?

A sixth-grade soul pill could be sold for five million.

It was said that seven-grade Dao Pattern pills were priceless and no one sold them.

No one knew how expensive an eighth-grade one would be. Anyway, Han Fei would never take out a single cent.

However, the identity of Wang Yijian was quite useful.

Han Fei said, “Okay, I'll use this identity.”

Jian Hui handed over a jade slip and said indifferently, “This is Junior Uncle Yijian's information.”

Han Fei nodded slightly.

Jian Hui and the others also disappeared in front of Han Fei and were taken into his Origin Sea.

Han Fei focused his attention on the jade slip. After scanning it, he was shocked by Wang Yijian.

This guy was a genius!

He became a king at the age of 802 and failed to establish the Sword Palace at the age of 3002. His sword shattered and he became a demon. Then he was killed by the Sword God.

This person was a maverick and didn't have many friends in his life. He traveled on non-route areas all year round. He once opened three routes for the Sword God World alone. He had fought countless creatures, but almost none of them could block his single slash...

This character fit him perfectly.

The only thing that puzzled Han Fei was that the person prepared by the Sword God World was too suitable for him.

He had created All Great Daos in One Sword, and he had once pretended to be Xue Zhan, so he could be extremely cold and haughty. His current peak-level strength was so strong that he could be ranked in the top dozens of Sea Establishers in the Raging Sea... Wasn't all this too much of a coincidence?

Han Fei subconsciously tested his luck with the Nine Palace Luck Ruler and was slightly relieved to find that the result was "Flat".

No matter what, from today on, he would measure his luck with the Nine Palace Luck Ruler every day just in case.

...

Ten days later.

Han Fei refined a red long sword with a king's bone and the Sea Quelling Bizarre Treasure fragment he snatched from Mad Fourth King.

This sword was extraordinary because it was made of 49 broken pieces. There was still some distance between the pieces, which made it look like a broken sword.

But this thing was still in the shape of a sword, standing behind Han Fei.

Under the surprised gaze of Xue Ning and Xu Ran, Han Fei's body became slender and lean.

Han Fei's hair grew longer and turned pure white. Han Fei's face looked very gloomy, and his eyes were full of indifference and death.

As for the clothes, Han Fei casually took out a pure black robe.

With this change, people knew at first glance that this person was very strong and wouldn't dare to offend him at all.

At this time, there was still less than half a month before the eighth-grade divine pills were refined.

Most of the people from the Heavenly Palaces had already arrived.

This was because in addition to the eighth-grade divine pills, there would also be a grand spiritual pill auction. At that time, a large number of fifth and sixth-grade tribulation pills would be auctioned.

In fact, these level-five and level-six tribulation pills were the main reason why so many people came.

...

The Medicine King Valley stretched across the mountains in the Medicine King World.

At this moment, cultivators were coming and going at the entrance of the Medicine King World.

The disciples of the Medicine King World were mostly pill refiners. Therefore, its city was extremely small, and the mountains here were suitable for the growth of various large medicinal fields.

In the Medicine King World, there were most spirit gatherers because spirit gatherers could nurture medicinal fields very well.

It was for this reason that there were actually many strong masters in the Medicine King World. Even the strong masters produced with medicine were definitely no less than any other Heavenly Palaces. In terms of number, they were even comparable to Supreme Clearness and Infinity.

In the past few days, countless people had entered the Medicine King World, but not many could enter the Medicine King Valley.

At this moment, hundreds of thousands of kilometers away from the Medicine King Valley, Xia Xiaochan mumbled, "I'm still not used to it... You made yourself like this. However, you're really handsome. You can even compete with Zhang Xuanyu in appearance now."

Han Fei said with a black face, "Be serious. You are now my personal sword attendant. Hold your sword well."

Xia Xiaochan asked, "There's a sword floating behind you. Why am I holding three?"

Han Fei said, "What you're holding is not a sword, but money."

Han Fei said, "The people from the Soul Sealing World haven't appeared yet. I don't think they will participate in the event. Let's go!"

As for Xue Ning and Xu Ran, Han Fei didn't take them with him. They were left on a route millions of kilometers away. They could run or wait, which was a test for them.

Xia Xiaochan asked, "Aren't you afraid that others will recognize me? Once I'm exposed, your identity will be exposed too."

Han Fei grinned and said, "No one would expect the princess of the Mermaid Royal Family to become a village girl, right?"

"Ah! I'll bite you to death. Who are you calling a village girl? Believe it or not, I'll bite you to death!"

Han Fei: "..."

### **Chapter 1903: Sword-like Gaze**

Han Fei and Xia Xiaochan went to the Medicine King Valley talking and laughing.

However, this time, Han Fei didn't take Xia Xiaochan out to spend time alone, but to lure the people of the Soul Sealing World out.

The Soul Sealing World was a special Heavenly Palace, which Han Fei felt had been controlled by the An family. From the last trip to the Land of King Death, it could be seen that many strong masters from the Soul Sealing World were deployed just to kill Xia Xiaochan.

This made Han Fei wonder why they were so obsessed with killing Xia Xiaochan. Even if the An family was a terrifying force, they didn't have to send so many people from billions of kilometers away... just to kill Xia Xiaochan even at the expense of the lives of countless strong masters, right?

When Han Fei was in the Martial Emperor City, he wanted to buy this information, but he couldn't afford the price at all.

If the strong masters of the Soul Sealing World were willing to send their heads over, Han Fei didn't mind collecting a batch. And he could try to fish Chun Huangdian by the way to see if this person would come to the Medicine King World for Xia Xiaochan.

A moment later.

At the gate of the Medicine King Valley.

There were Sea Establishers here with eight Half-Kings to verify the identity, strength, and resources of the visitors.

Not everyone could participate in the Medicine King Valley's grand event.

This time, the visitors would be famous people from the Thirty-Six Mystic Worlds. Almost no low-level people would appear.

At this moment, at the gate of the Medicine King Valley, some people were being examined.

From hundreds of thousands of kilometers away, Han Fei saw a Sea Establisher arrive at the gate. The person only paused for a moment before entering the valley.

If one wasn't a king, he had to be checked carefully and his identity had to be confirmed. Only then could he enter the valley.

Therefore, in front of the Medicine King Valley, many people couldn't enter immediately.

After all, it took time to verify their wealth, arrange for them to use the great techniques of their respective Heavenly Palaces, and answer some questions. The people of the Medicine King World didn't mind the trouble and insisted on verifying them one by one.

Han Fei and Xia Xiaochan said, "Ignore them. Let's go straight through."

Han Fei was confident. Wang Yijian from the Sword God World was once a peerless Heavenly Talent. At least, with his Sea Establishment Realm strength, he could pass the gate of the Medicine King Valley easily.

...

At the gate of the Medicine King Valley.

A middle-aged king was sitting cross-legged on a limestone platform beside the mountain gate.

At this moment, two women bowed to the middle-aged man. "Gu Yuyin and Gu Yule from the Sanskrit Music World, greet King Zhong."

They were powerhouses from the Sanskrit Music World.

Among the people waiting, someone said, "It's these two? It's said that they obtained a great opportunity in the Land of King Death. Now it's said that their strength has soared."

However, Gu Yuyin and Gu Yule waited for a long time but didn't get a response.

Immediately, a Half-King of the Medicine King World said with a smile, "Please follow me. I need you to verify your resources and confirm that you do have the wealth to participate in this event."

Gu Yuyin and Gu Yule's faces changed slightly. We're so recognizable. Is he going to pretend not to recognize us?

The two of them couldn't help frowning. The Medicine King World rose to prominence with medicine. Were they so arrogant now?

However, the Sanskrit Music World was a Heavenly Palace in the outer domain after all. Gu Yuyin and Gu Yule had no choice but to let them check their money.

Suddenly, someone said, "Look, the one from the Supreme Clearness World is here."

Everyone turned their heads, only to see Wu Duishou walking up the stairs. Behind him, there were seven or eight Half-Kings and five or six peak-level Venerables from the Supreme Clearness World.

Wu Duishou was leading the team because a king of the Supreme Clearness World had already entered. Indeed, how could those famous kings be willing to be with a group of Half-Kings?

Many people were surprised. "Are the Heavenly Talents of the Supreme Clearness World also here to compete for pills?"

Someone said, "They may not be able to get the eighth-grade divine pills, but seventh-grade divine pills are possible."

Not long after Wu Duishou went up, he saw Wu Hao from the Chaotic World, and Li Xinghen and Beitang Xuan from the Infinity World.

Li Xinghen looked at Wu Duishou. "Brother Wu, you came really early!"

Wu Duishou said lazily, "Of course! Otherwise, you'll beat me to it, right?"

Li Xinghen smiled gloomily. "What are you talking about... Supreme Clearness and Infinity are the same. Brother Wu, don't forget that we're your ally."

Wu Duishou said frankly, "Yes, but there must be a winner on the path of invincibility! I hope Brother Li can get the divine pills this time. Otherwise, it will be a pity."

As soon as the two of them appeared, they were at odds with each other.

Of course, the premise was that there were no opponents here worthy of their attention. Even if there was Wu Hao, in their opinion, Wu Hao's strength was not enough to compete with theirs.

As soon as Wu Duishou and the others arrived, they greeted the middle-aged man.

Wu Duishou: "Wu Duishou from the Supreme Clearness World greets Uncle Zhong."

Li Xinghen said, "Li Xinghen from the Infinity World greets Senior Zhong Yue."

Wu Hao: "Wu Hao from the Chaotic World greets King Zhong."

"Okay, come in!"

The middle-aged man didn't even open his eyes.

Zhong Yue was a smart person. He scanned them with his perception and let them in after confirming that there was no problem. After all, they were the top three Heavenly Talents. If he really stopped them outside, it would only cause unnecessary trouble.

Seeing this, Gu Yuyin and Gu Yule couldn't help but frown, thinking, Just because the Heavenly Palaces are different, the treatment is so different?

Wu Duishou turned his head to look at them and smiled faintly. "Oh, I seem to remember these two... Brother Li, who are they?"

Li Xinghen tilted his head and glanced at them. "I don't know them."

Wu Duishou shrugged slightly. "Well, maybe I remembered wrongly."

Seeing this scene, Wu Hao frowned. They were Heavenly Talents of the Sanskrit Music World after all. Why were they belittling them like this?

Wu Hao said, "You two are too much."

Wu Duishou tilted his head and glanced at Wu Hao, making a disdainful sound in his throat.

"Humph ~"

At this moment, everyone suddenly felt that King Zhong Yue, who was sitting cross-legged beside them, attacked the sky.

Zhong Yue shouted, "How can you just enter like this? Do you think I'm blind?"

Many people looked at the sky in surprise. Who was this guy? How could he be so arrogant? He crossed the void in front of a king and tried to directly enter the Medicine King World?

When two figures appeared a hundred meters high in the sky, Han Fei's face was already black.

F\*ck, do you have bad eyesight? Do I look like an ordinary person? Are you kidding me? How dare you stop the second Sword God of the Sword God World?

But Han Fei had to show up. If he didn't, it would only attract more attention.

Buzz!

When Han Fei appeared, countless people looked up, only to find that they didn't know this person at all!

However, although they didn't know this person, the sword floating behind this person was too conspicuous—the Broken Sword.

In addition to the strange sword, the white hair, and the temperament like a sharp sword leaving its sheath would only appear in two places in the Raging Sea!

One was the Supreme Clearness World.

The other was the Sword God World.

This person was obviously not from the Supreme Clearness World. None of the strong masters in the Supreme Clearness World were like this. In fact, it could be told from the frown on Wu Duishou's face.

Then, it could only mean one thing: this person was from the Sword God World.

No one could see through this person's strength at all, but many people immediately understood that this person was undoubtedly a Sea Establisher.

Wu Duishou snorted. "Not all Sea Establishers can enter the Medicine King World directly."

The Sword God World and the Sword God World were enemies in the first place, so there was nothing to hide.

Wu Duishou wasn't afraid of being targeted by this person. If this person dared to attack him outside... he would be punished by the Supreme Clearness World.

This small provocation was to embarrass Han Fei and make Han Fei attack him in the future... In this way, he could let the strong cultivators of the Sword God World kill this person, which would also weaken the strength of the Sword God World.

This was the logic of the strong.

They would see very far. A small action might have a deep meaning.

However, Wu Duishou clearly underestimated Han Fei's strength.

"Pfft!"

Han Fei only glanced at him, and Wu Duishou vomited blood. His invincible consciousness instantly protected him. But even so, he still felt his heart palpitate.

Wu Duishou was shocked. He didn't expect Han Fei to attack him under such circumstances. If Han Fei stared at him a few more times, he would probably lose half his life.

However, Zhong Yue suddenly waved his hand and raised the power of the Great Dao, trying to disperse Han Fei's power.

However, Han Fei felt that he had been humiliated. How could he let this person go?

Han Fei suddenly released his aura, and the will of the Great Dao turned into infinite sword intent, instantly cutting off Zhong Yue's Great Dao.

"Pfft!"

Zhong Yue was no better than Wu Duishou. He vomited a mouthful of blood and stood rooted to the ground without any chance to move.

However, sensing a perception sweep from the depths of the Medicine King Valley, Han Fei retracted his strength.

Han Fei said softly, "How dare you stop me?"

Zhong Yue couldn't have felt worse. Who the hell is this guy? How dare he be so arrogant in my territory?

However, at this moment, a voice came from the depths of the Medicine King World, and a woman's voice said, "Mr. Yijian, why bother with the juniors? They are just following orders."

Feeling the power of the voice, Han Fei said calmly, "You can't humiliate a king. They forgot that."

#### **Chapter 1904: Movement of the Demon Purification Pot**

Han Fei's dominance stunned everyone below, including Zhong Yue.

What shocked others was that this person was completely fine after he injured someone in the Medicine King Valley? And no one came out to drive him away?

It had to be known that the Medicine King World was a Heavenly Palace that no Heavenly Palace would target. This was because most of the great medicines could only be refined by the Medicine King World.

For example, who in the Thirty-Six Mystic Worlds could refine an eighth-grade divine pill?

Today, this person literally slapped the Medicine King World in the face but wasn't even scolded. This didn't seem like the Medicine King World's style!

Wu Duishou was shocked. Who is this person? Yijian?

"Hiss ~"

Wu Duishou's pupils were constricted as he thought of a person, who was the top Heavenly Talent of the Sword God World who had disappeared for more than 6,000 years, Wang Yijian.

The Sword God World said that this person went into seclusion 6,000 years ago.

Some people said that this person had entered the demonic Dao, betrayed the Sword God World, and escaped.

Some people said that this person had already died.

However, there was never a real answer.

However, one thing that all the Heavenly Palaces knew was that this person had reached the peak of the king realm 3,000 years ago, tried to establish a sword palace and open the sky with a single slash.

Although he failed, it was enough to prove his terrifying strength.

Unexpectedly, a person who had disappeared for 6,000 years had come out of seclusion?

Wu Duishou immediately realized that this person must come for the level-eight divine pills. For Wang Yijian, even level-seven divine pills were useless.

In terms of strength, in the entire Raging Sea, Wang Yijian could probably enter the top ten of the Sea Establishment Realm. However, Wang Yijian had disappeared for too long, so he wasn't in the Sea Establishment Roll.

Soon, many people realized what was going on.

They looked at Wu Duishou and then at Zhong Yue, gloating a little. Over the years, the Medicine King World had indeed become more and more arrogant.

As for the people from the Supreme Clearness World, they had always been arrogant, not to mention Heavenly Talents like Wu Duishou.

Everyone saw that in the sky, Han Fei stepped out and disappeared.

Li Xinghen said leisurely, "How dare you talk nonsense without even knowing who the visitor is... I can't help but wonder if Brother Wu's brain is still normal."

Wu Duishou snorted and stepped into the valley, disappearing.

The scene seemed to return to normal.

Only Zhong Yue felt very embarrassed. At the same time, he was very shocked. Is this the legendary Second Sword God?

He had heard that Wang Yijian was said to be able to kill a king with one slash, which showed how proficient he was in the Sword Dao!

However, Wang Yijian's strength was only one aspect. The reason why the Medicine King World didn't have a conflict with Han Fei was that Wang Yijian was arrogant and unyielding. This person's personality was like a sword, killing whenever he was unhappy.

The Medicine King World didn't dare to offend him, just like the Medicine King World didn't dare to offend the Supreme Clearness World. In fact, no one dared to offend Wang Yijian, because he was a person who didn't care about the face of the Thirty-Six Heavenly Palaces at all. No matter which world one was from, even if he was from the Supreme Clearness World, Wang Yijian would kill him as he pleased.

To put it bluntly, if any expert from the Supreme Clearness World really dared to challenge Wang Yijian today, he would probably die unless he became an emperor.

The four Heavenly Palaces of the Sword God World and the Immeasurability World etc. could stand tall in the Thirty-Six Heavenly Palaces for so many years not because their locations were difficult to find, but because of the combat power of the Sword God World, the craziness of the Immeasurability World, the wisdom of the Supreme Mystic World, and the secret techniques of the Glazed Glass World.

In the depths of the Medicine King Valley.

There were many buildings here.

The medicinal fields were scattered in the mountains, and the mountains were full of spiritual energy.

In the center of the mountains, there was a circular open space. This place had become the center of the Medicine King Valley, the real Medicine King Valley.

Han Fei entered with Xia Xiaochan.

In the depths of the Medicine King Valley, a young woman with white hair looked solemn as she looked at the void. Who else could this person be but Granny Qiu?

Granny Qiu said, "I thought the Sword God would come in person, but I didn't expect him to come."

Behind Granny Qiu, a young woman said, "Teacher, is the Second Sword God weaker than the Sword God?"

Granny Qiu snorted. "In this world, sometimes strength is not the only thing that matters. Although the Sword God is strong, he still has restrictions on himself. Relatively speaking, he is more gentle. However, this person is different. This person is arrogant and lawless. If he is angry, the bodies of the people he kills will float for tens of thousands of kilometers, and his strength will definitely be in the top ten of the Raging Sea. If he starts to kill, there won't just be one or two to be killed. In the past, there has always been a rumor that this person has become a demon and betrayed the Sword God World. I didn't expect that he was really in seclusion."

At the same time, it was still Ji Xuan who came from the Supreme Clearness World. Seeing Han Fei injure Wu Duishou, he planned to attack Han Fei.

However, Han Fei didn't take any further action. Instead, he found a random mountain with abundant spiritual energy and sat cross-legged.

Han Fei sat there, and the mountain seemed to have become a sword that pointed at the sky. A person had changed the momentum of a mountain, which made Ji Xuan give up the plan of challenging him.

He wasn't really afraid of Wang Yijian. Although he, Ji Xuan, might not be able to enter the top ten of the Raging Sea, he wouldn't really be weaker than Wang Yijian.

But after all, he was here to buy medicine. If he really fought Wang Yijian, the consequences would be unpredictable.

Even Ji Xuan from the Supreme Clearness World thought so. The others certainly wouldn't provoke this god and just let him sit cross-legged on the mountain peak.

Of course, no one dared to receive them.

Of course, Granny Qiu wouldn't arrange for anyone to receive them. He had already settled and didn't need to be received.

On the mountain peak.

Xia Xiaochan was lost for words. "So no one cares about us?"

Han Fei said, "It's good that no one cares. Our position is so obvious. When I set up another layer of Great Dao Sword Runes, whoever dares to scan me with their perception will be directly shattered. This way, it will be easier for me to steal."

Xia Xiaochan asked, "Are you going to steal the level-eight divine pills and the Supreme Purple Smoke Furnace?"

Xia Xiaochan thought that it was very likely.

With Han Fei's personality, it was entirely possible for him to do that.

However, she immediately added, "I'm afraid that this matter is not so simple. Granny Qiu probably won't leave the Supreme Purple Smoke Furnace at all."

Han Fei said, "Anything is possible. But now is not the time to take action. There are still a few days before the level-eight divine pills are ready. If I want to snatch one, I'll have to wait until the divine pills are produced. Otherwise, if they aren't produced, wouldn't it be a waste of my time?"

Xia Xiaochan asked, "So we're just going to sit here for a few days?"

Han Fei said, "Don't be hasty. Whether it works or not, we can figure out the terrain this time. Besides, even if I can't steal an eighth-grade divine pill, can't I steal a seventh-grade one? Even if there are many people guarding the seventh-grade pills, can't I get some fifth- and sixth-grade ones?"

...

Three days later.

More and more people came into the Medicine King Valley, but no more than a thousand.

To Han Fei's surprise, someone came from the Martial Emperor City too. It was the boss of the bookstore, Zhang Luotian, who was said to be one of the top ten Sea Establishers in the Raging Sea.

Only then did Han Fei remember that the Martial Emperor City was also one of the top powers in the Raging Sea.

Besides, the Martial Emperor City was very rich.

They could earn a hundred million with a random piece of intelligence. Han Fei felt that they could easily buy an eighth-grade divine pill. At least one of the eighth-grade divine pills would be taken away by the Martial Emperor City.

Han Fei clicked his tongue. After the Martial Emperor City, Supreme Clearness, Chaos, and Infinity each took one, there would only be three level-eight divine pills left.

If the Medicine King World wanted to keep two, then he could only compete for the last one.

Han Fei felt that he might be able to afford one of the pills, but then his pocket would be half empty.

Fortunately, he didn't intend to buy it with money from the beginning.

Xia Xiaochan was holding three Sea Quelling Bizarre Treasures in her hand, plus the one on Han Fei's back, a total of four Sea Quelling Bizarre Treasures, just to bid for this level-eight divine pill.

Han Fei didn't expect to win it... Even if he could, he would still snatch it.

On this day, in the Pill Tribulation Square of the Medicine King Valley, a white-haired woman holding a white bone rod slowly walked out and a purple furnace was hovering in her palm.

The moment Granny Qiu walked out, she heard swishes.

A king arrived first. Then, thousands of Venerables gathered.

Among them, most of them were Half-Kings and peak-level Venerables.

Everyone had been waiting for this moment for a long time, so they had been paying attention to this side.

However, Han Fei, who was sitting cross-legged on the top of the mountain, was suddenly refreshed.

In his Origin Sea, Han Fei found that the Demon Purification Pot was trembling and the vines were dancing as if they were touched by something.

"Little Vines?"

Han Fei couldn't help being shocked. Could it be the other vines of the Demon Purification Pot?

However, Han Fei didn't see any vines! Did he feel it wrong? Or did the Demon Purification Pot also need eighth-grade divine pills?

Xia Xiaochan said, "What's wrong with Granny Qiu? It's not the time yet. Why did she take out the Supreme Purple Smoke Furnace in advance? Isn't this the critical period for refining pills?"

Han Fei narrowed his eyes and said, "No matter what, we're taking this pill."

Han Fei didn't say that he wanted to take the Supreme Purple Smoke Furnace, because such a treasure must have recognized its master. With a thought from Granny Qiu, the Supreme Purple Smoke Furnace would be taken back.

If he wanted to snatch the Supreme Purple Smoke Furnace, he would have to take down Granny Qiu first.

Even now, Han Fei still vaguely felt that he had promised Patriarch Million Poison too hastily.

At this moment, Granny Qiu said, "This pill receives a lot of attention. In order to ensure that nothing goes wrong, on the last day, I will let you personally observe the birth of the divine pill on this Pill Tribulation Ground."

### **Chapter 1905: The Emperor Sparrow Appreciated**

Granny Qiu waved her hand, and the Supreme Purple Smoke Furnace turned into a thirty-foot-long purple furnace, standing in the square.

Perhaps Granny Qiu herself didn't consider the importance of this pill. Perhaps she was deliberately showing off the strength of the Medicine King World.

But in any case, the Supreme Purple Smoke Furnace was directly placed in the square.

Even if Han Fei had the Twin Divine Technique, it would be impossible for him to steal the furnace in front of so many Sea Establishers. There were many strong masters here who were among the top of the Sea Establishers.

Zhang Luotian was recognized as one of the top ten Sea Establishers.

So many eyes were on the Supreme Purple Smoke Furnace. Could he use his black-mist body to open the lid and enter it?

At this moment, around the Supreme Purple Smoke Furnace, purple light enshrouded, and three masses of purple mist evaporated from the furnace.

Someone sighed. "This is the Supreme Purple Smoke Furnace! I don't know how many divine pills it has refined... It's said that with the smoke and fire in this furnace, any random thing thrown in can spontaneously be condensed into three Dao Pattern Pills."

Han Fei couldn't help narrowing his eyes, wondering how to get this thing.

Originally, Han Fei had planned to sneak in and do something before the furnace opened.

But now, Granny Qiu had taken out the furnace. Then what could he do now?

Suddenly, Han Fei's heart did a flip. It didn't seem impossible!

Han Fei thought that the people who appeared here today were all strong masters of the Heavenly Palaces.

Many of them were his enemies. If he couldn't cause trouble openly, why couldn't he enter the Soul Sea to cause trouble for them?

With this in mind, Han Fei's heart began to pound.

Little Black and Little White's level-up speed was not fast in the first place.

All these years, he had also entered the Soul Sea.

However, as time went on, Little Black and Little White were always forced out before they could swallow any primitive spiritual beasts. They couldn't level up even once.

Han Fei could do nothing about it.

However, this opportunity had come. Why should he devour primitive spiritual beasts? There were many kings here, so he could devour their spiritual beasts!

Let's do it!

In Han Fei's Origin Sea, his avatar, who was cultivating, suddenly opened his eyes.

With a thought from him, a large number of ownerless souls temporarily controlled Han Fei's body through the Void Lines.

Han Fei, on the other hand, said to Xia Xiaochan, "Sit cross-legged in meditation later. No matter whose perception sweeps over, just ignore it."

Xia Xiaochan couldn't help asking, "What are you going to do?"

Han Fei said, "I'll explain to you later. My soul needs to leave for a while."

Xia Xiaochan's heart did a flip. His soul would leave?

She asked, "Are you going to the Soul Sea?"

Han Fei was briefly stunned and thought to himself, Yes, the existence of the Soul Sea might be a secret in the Yin-Yang World, but it might not be the case in the Raging Sea.

Han Fei said, "Yes."

Xia Xiaochan asked, "How strong are Little Black and Little White now? When they kill enemies in the Soul Sea, their souls will temporarily leave their bodies. If anyone comes during this period..."

Han Fei said, "Don't worry. I have a way to solve the problem of the body... There should be one day before the pills are formed. I know what to do."

...

For others, entering the Soul Sea might be difficult. They needed to set up arrays or something...

However, Han Fei was different. He only needed to enter it from his Origin Sea with the Twin Divine Technique.

A moment later.

Buzz!

When Han Fei's soul was attached to Little Black, the magical vision came back. However, this time, Little Black and Little White had both become Venerables. Perhaps their strength was different from before.

Han Fei sensed that there seemed to be infinite power in Little Black, and there seemed to be a universe in his stomach.

When Han Fei looked at the spiritual beasts swimming around, he immediately discovered that many spiritual beasts were not primitive spiritual beasts, but spiritual beasts with masters.

Besides, the spiritual beasts he encountered around him were completely different from the ones he encountered in the Yin-Yang World.

Han Fei saw a dragon-like figure a thousand feet long, a fish flashing with a colorful halo, a mountain-like crab, and a shell with a sharp tongue...

Han Fei didn't know most of these spiritual beasts' names, but he could see their levels!

From where he was, Han Fei found a large number of peak-level Venerable-level spiritual beasts and a small number of Venerable-level spiritual beasts.

According to the distance between people in reality, it only took Han Fei a moment to find the spiritual beasts in the Pill Tribulation Square.

Unless there was a battle, spiritual beasts generally wouldn't be in turmoil.

Han Fei didn't devour them immediately. He was just observing.

A series of information appeared in Han Fei's eyes.

"Oh! Wu Duishou, a level-89 Golden Sword Conch. Its carapace looks extremely hard. It won't be a problem if I drill into its body and eat it."

"Li Xinghen, a level-89 Ultimate Worm. It looks like a long worm. I don't really want to eat it!"

"Dream Weaving World, eh... Nangong Yu, a level-87 Golden Twin-Headed Python. This tonic has to be eaten..."

"Oh! Ji Xuan? A level-89 Three-Tailed Crab Fish, it's actually a prehistoric exotic beast... This thing is probably going to transcend the tribulation. If I eat it, I'm afraid I can directly level up!"

"Huh? Bei Xuanbing, a level-89 Blade King Ancient Worm? Why are the spiritual beasts of the people from the Infinity World all insects?"

Han Fei marked these people.

Among them, Han Fei knew no less than a hundred people. This was mainly because he knew them from the Land of King Death. Among these hundred people, Han Fei identified a total of 53 from the hostile forces.

Among them, only two spiritual beasts made Han Fei wary. One was Hong Yue from the Mad Corpse World. This guy's spiritual beast had already become a king!

Han Fei couldn't help cursing. This old fox has a Sea Establishment realm spiritual beast? He must be up to no good.

However, Han Fei guessed that since this person hid his spiritual beast, he didn't want others to know. If he didn't attack him, there was no need for this guy to enter the Origin Sea and cause trouble for him.

The other was Granny Qiu's Jade Sky Toad, which was also a Sea Establishment realm spiritual beast.

According to Xia Xiaochan, people in the Raging Sea could enter the Soul Sea! If there was really a Sea Establishment realm spiritual beast hunting him, Little Black and Little White would be in danger.

However, it was lucky that it was Granny Qiu's spiritual beast... Because Granny Qiu was a strong master of the Medicine King World, she would never let her soul leave her body and enter the Soul Sea!

Otherwise, who knew what unpredictable things would happen in the outside world after her soul entered the Soul Sea? If that happened, the gains wouldn't make up for the losses.

She must guarantee the safety of the eighth-grade divine pills.

Han Fei quickly drew up a plan.

As for the Emperor Sparrow, he had been standing on Little Black's head. The moment Little Black's soul changed, the Emperor Sparrow noticed it.

After pondering for a long time, the Emperor Sparrow said, "Don't tell me you want to eat these spiritual beasts?"

Han Fei was puzzled. "You know it's me?"

Emperor Sparrow: "You're not as fierce as Little Black."

Han Fei: "...I'm going to eat these spiritual beasts. Can't I?"

The Emperor Sparrow was silent for a moment. "You can. However, aren't you afraid that your spiritual beast will enter the demonic Dao? This cultivation method is the cultivation method of ferocious beasts. When your spiritual beast is completely demonized, in the end, it can only become a primitive fierce beast like me. Fierce beasts are fierce beasts. Fierce beasts can't become divine beasts."

This was the first time Han Fei had heard of this. Before, he only knew that horror would be born in the Soul Sea. So would there be such a result?

Han Fei couldn't help but ask, "What's the benefit of becoming a divine beast?"

The Emperor Sparrow stared at Han Fei for a long time and then said, "Divine beasts are legitimate. Just like in the myriad races, they are righteous Dao, demonic Dao, and evil Dao."

Han Fei asked, "Can fierce beasts become gods?"

The Emperor Sparrow said, "Yes, but it can never be called a divine beast. Generally, it can be called a demonic god or an evil god, which will only be hated..."

Han Fei asked in confusion, "Is it important to be hated? Isn't it enough to become a god? Is it weaker than a divine beast?"

The Emperor Sparrow was stunned for a long time. "Well... No."

The Emperor Sparrow was probably shocked by Han Fei's idea. Since Han Fei had been trying his best to save the Yin-Yang World, wasn't he a righteous person?

However, how could the Emperor Sparrow know that for Han Fei, demonic, evil, and righteous paths didn't matter.

Han Fei said, "Nothing has changed except the name. Why can't I eat them? Eat."

The Emperor Sparrow said, "In the future, you will face endless pursuit. The slaughter will always be with you."

Han Fei's spiritual will buzzed. "I've been like this since I was young. I'm very familiar with fighting. Eat."

The Emperor Sparrow stared at Han Fei for a long time and said happily for the first time, "You're not bad."

...

One day passed.

The purple gas outside the Supreme Purple Smoke Furnace became more and more intense.

Granny Qiu said, "Everyone, the Supreme Purple Smoke Furnace is about to open. The tribulation clouds in the sky are gathering. This pill will definitely reach the eighth-grade. Please don't disturb me from opening the furnace later, and don't stop the divine pill from transcending the tribulation."

It wasn't the first time most people here had seen this scene. It was just that most of the spiritual pills they had seen before weren't of such a high quality.

Xia Xiaochan was still worried.

Now, the field was not in chaos, which meant that Han Fei hadn't taken action yet. If Han Fei had really taken action, it would have been chaotic long ago.

Xia Xiaochan couldn't help but glance at Han Fei. "Are you going to take action when the furnace is opened?"

However, what Xia Xiaochan didn't know was how Han Fei confirmed the time.

### **Chapter 1906: Battle in the Soul Sea**

In fact, how could Han Fei be sure of the time in the Soul Sea and the outside world?

On one hand, he was paying attention to the movements of Granny Qiu's Jade Sky Toad, and on the other hand, he was watching the movements of the ordinary spiritual beasts around. If a spiritual pill really appeared, at least they would have a reaction!

According to his previous experience in the Soul Sea, Han Fei thought that a day should be enough.

At this moment, Han Fei suddenly saw that the surrounding spiritual beasts moved slightly almost at the same time.

This seemed to be a signal, letting Han Fei know that it was time to eat.

Immediately, without hesitation, Han Fei controlled Little Black to bare his teeth. His first goal was Ji Xuan's Three-tailed Crab Fish.

Yes, Han Fei wasn't afraid at all just because Ji Xuan was a king. It was true that he was a king, but his spiritual beast was not a king.

The Emperor Sparrow was in a very good mood.

Although it didn't dislike Han Fei before, it knew that although Han Fei had done a lot for the sake of the human race, he wasn't a completely good person.

Now it seemed that he was not a good person at all!

In the world of cultivation, everything had to be fought for. The so-called justice and evil were all fish shit... As long as one was strong enough, he could set rules.

After chatting with Han Fei, the Emperor Sparrow also took action.

The Three-tailed Crab Fish had extraordinary strength. Its carapace was thick, its steel teeth were like divine weapons, its fins were like sharp blades, and its tail was like sharp threads. It was a real ferocious creature.

However, before it could do anything, it felt a demonic sound in its head, as if a demonic creature had entered its head.

Immediately afterward, it heard cracking sounds from its body. A large piece of his flesh was torn apart by sharp claws and swallowed by a beak.

Its stomach was even more miserable, with a big hole.

How could the combat power of Little Black and Little White be underestimated?

When Little Black was still level one, he bit whatever he saw. The Blade Fish was eaten by him like crisps.

Although this Three-tailed Crab Fish was a level-89 Half-King, it was completely passive and couldn't fight well.

“Crunch, Crunch, Crunch ~”

Little Black's big mouth and teleportation speed could turn any creature into a skeleton after he chewed on it.

Now, it was the same.

In the Soul Sea, the Three-tailed Crab Fish suddenly screamed, immediately causing a commotion. Many spiritual beasts quickly left, trying to see the situation clearly.

However, when they saw the situation clearly, they saw that the Three-tailed Crab Fish only had a fish head left.

“Gulp ~”

There was also a big hole in the fish's head. Its brain seemed to have been swallowed by an invisible mouth.

Buzz!

Sure enough, as Han Fei expected, Little Black and Little White's growth was slow in the first place. He had stayed in the Yin-Yang World for ten years, which was hundreds of years for them. In theory, it was natural for them to make a breakthrough.

Before they finished eating the Three-tailed Crab Fish, Little Black and Little White had made breakthroughs.

In the outside world.

Granny Qiu shouted, “There's still one last moment. Everyone, bear witness. Don't disturb me.”

Click, click, click ~

The lid of the Supreme Purple Smoke Furnace quickly trembled. From the gap revealed when it trembled, a large amount of purple gas was steaming.

In the sky, black clouds rolled as if tribulation clouds were brewing.

Clatter ~

Suddenly, when the lid of the furnace flew up, a small green vine was enveloped by purple flames. On the vine, seven round red beads hung.

“Hiss!”

Someone couldn't help but ask via voice transmission, “Isn't it refining pills? Why does it look like this vine bears fruit?”

Someone said, “Shut up! Maybe this is their way of refining pills. What do you think the effect of an eighth-grade divine pill is?”

Someone said, “Look... there are indeed eight Dao patterns on that pill. Besides, those patterns are different from all the Dao patterns we have seen in history.”

Boom!

At this moment, thunder rumbled in the sky.

Everyone knew that the pill tribulation had gathered. Next would be the pill tribulation.

Everyone was amazed, including the kings. An eighth-grade divine pill appeared so differently.

As the vine flew higher and higher, the lightning in the sky couldn't be held back anymore. The lightning arcs kept striking as if they were about to smash down.

Suddenly, Ji Xuan, who was observing the tribulation, frowned.

For some reason, he had a bad feeling, as if he had lost something important.

His intuition told him that his spiritual beast was a little restless.

However, it was not convenient for him to summon his spiritual beast now.

Wu Duishou was amazed by the level-eight divine pill and secretly clenched his fists. If such a divine pill could belong to him, wouldn't he definitely become a king?

Just as he was engrossed in this scene, he suddenly felt that something was wrong. His head suddenly ached as if something had shattered.

He felt a stabbing pain between his eyebrows, as if his spiritual beast wanted to come out.

Wu Duishou was shocked. Could it be that even my spiritual beast has sensed the effect of this level-eight divine pill and wants to compete for it?

Boom!

When the first pill tribulation descended, it distracted Wu Duishou.

The pill tribulation had already begun!

However, to everyone's surprise, why was the heavenly tribulation purple?

Even Granny Qiu was shocked. What was going on? There had never been a purple pill tribulation before! This was the first time. Was this level-eight divine pill more terrifying than she imagined?

Granny Qiu looked solemn. She had refined level-eight divine pills before.

She had refined eighth-grade divine pills three times in her life, but never like this. Could it be because of that vine?

Granny Qiu's heart trembled. No one knew that she gradually discovered that there was something wrong with this vine. She had accidentally discovered this vine from her own treasury.

Originally, she didn't know what was the use of it, so she threw it into the furnace to test the effect.

However, Granny Qiu discovered, to her shock, that the massive energy and all the resources she had invested in the Supreme Purple Smoke Furnace had been absorbed by this vine.

Granny Qiu had refined pills all her life, but this had never happened.

The vine was not so big and was relatively dry and short in the first place.

However, under her continuous refinement, the vine began to grow.

As it grew, leaves began to grow on the vine. After years of hard work, in addition to the young branches, there were also sesame-sized red Dan fruits hanging on the vine.

This scene shocked Granny Qiu.

For the first time, she discovered that divine pills could grow from a branch like fruit?

Oh, no!

Granny Qiu thought that this was produced by her persistent efforts... which was equivalent to being refined by her!

Because of these seven divine pills, Granny Qiu wanted to show the scene of them transcending the tribulation, show their charm, and ask for a high price from the Heavenly Palaces.

However, Granny Qiu didn't expect a purple pill tribulation!

Just like when a person transcended the king-level tribulation, there would be blue and purple tribulations. Could it be that there were also pill tribulations of different colors? This meant that these seven divine pills were different.

However...

While Granny Qiu was excited, she suddenly heard in her mind that her Jade Sky Toad took the initiative to talk to her.

The Jade Sky Toad said, "Two fierce beasts have appeared in the Soul Sea and are hunting spiritual beasts crazily."

Granny Qiu: “???”

It wasn't just Granny Qiu.

On the other side, Hong Yue from the Mad Corpse World also heard the voice of his spiritual beast, the Thousand Puppet. “There are fierce beasts hunting spiritual beasts.”

Hong Yue was stunned. “A fierce beast?”

The Thousand Puppet said, “Yes, there will also be fierce beasts among spiritual beasts. Their pursuit is not the orthodox Deity Position, but the path of evil. However, these two spiritual beasts are very likely to be deliberately controlled by someone!”

“Huh?”

Hong Yue was confused. Someone was controlling them?

Suddenly, Hong Yue and Granny Qiu's expressions changed drastically. “Someone is hunting in the Soul Sea?”

Jade Sky Toad: “Yes, very ferocious. There was a bird and an invisible creature. Oh, right, I saw a Spirit Swallowing Fish.”

Granny Qiu: “A Spirit Swallowing Fish?”

Hong Yue: “Spirit Swallowing Fish? Are you kidding me? How can that thing appear here... Hiss, are you sure it's a Spirit Swallowing Fish?”

In front of her, the divine pill was transcending the tribulation. Granny Qiu knew that once anything bad happened, the consequences would be disastrous.

Granny Qiu said, “Do you have a way to kill them?”

Jade Sky Toad: “If it's that white Spirit Swallowing Fish, it shouldn't be a problem... However... there's still an invisible spiritual beast that's difficult to grasp. Besides, that bird is very extraordinary. I dare not kill it.”

“You don't dare to kill it?”

At that time, Granny Qiu was shocked. What kind of creature are you afraid to kill?

Different from Granny Qiu's way of fighting, Hong Yue was horrified. “Stay away. If you don't dare to kill it, don't kill it! Even if the sky collapses, the taller ones will hold it up. Ji Xuan and Bei Xuanbing are all here. Let them handle it.”

The Thousand Puppet said, “I've already run away. You can't count on them. Their spiritual beasts have been eaten.”

Hong Yue: “???”

### **Chapter 1907: Are You Questioning Me?**

At this moment, Granny Qiu and Hong Yue both knew that Han Fei had come.

However, it was the critical period of the pill tribulation, and three purple pill tribulations had already descended. If the news that Han Fei was hunting in the Soul Sea was spread at this time, it would definitely be chaotic.

At that time, if someone secretly did something to the pill tribulation, it would be a big problem!

Therefore, Granny Qiu didn't say this out loud at the first moment. An excuse to the public? She had one. She was focused on refining pills and paying attention to the divine pills. No one could blame her! It didn't matter if other people's spiritual beasts died.

As for Hong Yue, he wouldn't say anything either. He had been hiding his spiritual beast all this time. At this moment, how could he reveal his secret for someone else's spiritual beast?

After confirming that it was Han Fei, Hong Yue thought that someone would find out anyway.

If he exposed it, firstly, it would expose the fact that his spiritual beast had become a king; secondly, if Han Fei found out that it was him who exposed it, he wouldn't be able to resist Han Fei!

Just a few days ago, the Avenger Pirates wiped out the Predators.

According to statistics, apart from the death of Mad Fourth King, more than 50 Venerables of the Predators had died.

His Mad Corpse Sky was just a Heavenly Palace in the outer sea.

Even though he had secretly nurtured his spiritual beast into a king, in terms of combat power, he might not be a match for Mad Fourth King.

Their combat powers were probably the same.

Since Han Fei could kill the Mad Fourth King, he probably had the strength to kill him.

Therefore, Hong Yue was determined not to take action.

...

The pill tribulation was still going on, but in less than half an hour, many people felt that something was wrong with their spiritual beasts.

Although spiritual beasts could respond to their masters' summoning, there weren't many who could take the initiative to attract their masters' attention. But just because there weren't many didn't mean there weren't any.

The people who came today could be said to be the top Heavenly Talents of the Thirty-Six Heavenly Palaces in the entire Raging Sea. All of them had extremely high potential and some even had Heavenly Heritage. The spiritual beasts they had were certainly extraordinary.

All of a sudden, Li Xinghen's glabella flashed.

Many people frowned.

A king even glared at him.

However, Li Xinghen didn't care. In the void, a blood-stained Ultimate Worm with only a small part of its body left suddenly appeared in front of everyone.

"Not good!"

It was not without reason that Li Xinghen suddenly summoned his spiritual beast. In fact, most people here sensed that something was wrong with their spiritual beasts.

However, Han Fei's swallowing speed was not that fast, so most of the spiritual beasts were safe, so they didn't take it seriously.

The other reason was that eighth-grade divine pills were about to appear. Many people thought that it was the divine pills that triggered their spiritual beasts, but they didn't think of other reasons.

But now, seeing Li Xinghen's spiritual beast in such a miserable state, most people immediately sensed that something was wrong.

Ji Xuan was the first to sense something was wrong. He shouted, "Someone is hunting in the Soul Sea."

Buzz—

Everyone took out their spiritual beasts. At this moment, they couldn't care less about the level-eight divine pills.

Although the divine pills were good, they were not theirs and would probably be taken by the kings of the Heavenly Palaces like Supreme Clearness and Infinity.

Most people were here for the level-seven divine pills and level-five or level-six Dao Pattern Pills. How could they ignore the life of their spiritual beasts just to not affect the pill tribulation?

As soon as the spiritual beasts were summoned, there was an uproar.

Looking at his baby Three-Tailed Crab Fish that was only level-one, Ji Xuan was furious.

"A\*shole! Who did this?!"

Wu Duishou's face was all dark. Why did my Golden Sword Conch become a conch egg? Who did this?

Nangong Yu shouted in a low voice, "Not good! My Mystifying Golden Twin-Headed Python has become a baby."

Bei Xuanbing looked at his baby Blade King Ancient Worm and said with an ugly expression, "Xinghen, everyone from the Infinity World whose spiritual beast is still safe, enter the Soul Sea."

Someone shouted, "Which evil cultivator dares to cause trouble here?"

Granny Qiu couldn't pretend anymore.

She didn't expect that the guy in the Soul Sea would expose himself after only the fifth pill tribulation. Can't you stall for more time?

Granny Qiu pretended to vomit a mouthful of blood, as if she had just returned to her senses. She shouted, "Everyone, my Jade Sky Toad told me that the intruder is a Twin Yin-Yang Spirit Swallowing

Fish. It's the Twin Divine Technique. Han Fei is here. Zhong Yue, activate the island-protecting array and seal the island immediately. No one is allowed to leave. Han Fei must be taken down. Li Ji, guard me. I can't leave the eighth-grade divine pills alone."

Granny Qiu found an excuse for herself and then stood still again.

She couldn't do anything about it.

Han Fei knew the Twin Divine Technique. How could I know that he would come here?

Besides, there were so many people coming to the Medicine King World this time. How could I defend against them? Since you have discovered the problem and I have provided information, you just need to find Han Fei yourselves.

However, Han Fei knew the Twin Divine Technique. How could he be found?

Countless souls quickly swept across a thousand kilometers, and the perception range of the Sea Establishment Realm was even further.

However, when these souls swept past a certain mountain, they would show slight surprise. Wang Yijian was so unsociable!

He was so far away from everyone, and when their perceptions were probing him, it was immediately minced by the sword Qi around him, not giving them any face at all.

However, no one paid attention. This person was eccentric to begin with.

Besides, Jade Sky Toad had already said that the intruder was Han Fei. What appeared in the Soul Sea was a Twin Yin-Yang Spirit Swallowing Fish. Therefore, no one associated Wang Yijian with Han Fei.

...

In the Soul Sea.

Han Fei couldn't have felt worse when he was chasing the Ultimate Worm.

Han Fei finally knew why Li Xinghen was so arrogant. This worm ran really fast. Even if it was targeted by Little Black, even if the Emperor Sparrow was also chasing it, it could still run away after five sections of its body were cut off.

Although the Emperor Sparrow immediately summoned inner demons to stop the Ultimate Worm, as soon as Han Fei arrived, Li Xinghen summoned the Ultimate Worm out.

Han Fei was speechless.

Of course, more than half of the worm had been eaten by Han Fei, and only a small half escaped.

However, Han Fei knew that once the Ultimate Worm went out, the matter of him hunting in the Soul Sea would be exposed.

As he expected.

After only five seconds, Han Fei discovered that many spiritual beasts around him became more active. Several spiritual beasts rushed at Little White.

Looking at the spiritual beasts' eyes, Han Fei knew that someone had entered the Soul Sea.

However, these people were not very strong.

At this moment, while Han Fei was swallowing, Little Black and Little White had already upgraded three levels in a row.

They only ate Half-King-level spiritual beasts. Besides, they were either prehistoric fierce beasts, ancient exotic species, or legend creatures!

Anyway, the effect of this meal was comparable to the hundreds of years of cultivation of Little Black and Little White.

It could be seen that he couldn't even feed Little Black and Little White well and they couldn't even eat to their fill.

Since he had been exposed, Han Fei didn't care. This was just Han Fei's identity being exposed. But now, he was not Han Fei.

He was Wang Yijian.

They wanted to find Han Fei? Then let them!

Even if someone had already discovered Little White, how could Han Fei allow anything to happen to Little White? He rushed up and killed a Ghost Beard Demon Squid with a swish.

Then Little Black disappeared again.

This was the first time Han Fei had started a battle in the Soul Sea.

Han Fei sensed that the spiritual beast who was eaten was also trying to escape.

When Han Fei's last blow completely killed this guy, Han Fei discovered that the Ghost Beard Demon Squid's soul shattered and then disappeared.

The Emperor Sparrow said, "There are Sea Establishment Realm spiritual beasts nearby. You can leave now... Huh, wait a moment. Stay a while longer before leaving."

...

In the outside world.

Bei Xuanbing suddenly shouted, "Fellow Daoist Yijian, everyone has removed their seals and is open to investigation. Why do you still sit tight and seal a corner of the mountain without saying a word?"

After all, there were many kings here.

The speed of investigation via perception was very fast. It didn't take long for someone to notice Wang Yijian, who had been sitting cross-legged and never moved. He didn't even look at the level-eight divine pills. Are you not here to buy pills?

Many people looked at Han Fei, including Ji Xuan.

However, Han Fei didn't speak, and Xia Xiaochan said, "How can my master be investigated by others?"

Bei Xuanbing immediately frowned. "Humph! How can a mere sword attendant be qualified to speak?"

Then, he pointed his finger at Xia Xiaochan.

In fact, he just wanted to see Han Fei's reaction.

Of course, he knew that Han Fei was extremely eccentric.

Besides, to be respected as a legend of sword cultivators, he must be extraordinary.

However, the kings had already scanned almost every place within the thousands of kilometers and even the entire Medicine King World, but they didn't find any clue.

Only Han Fei didn't allow anyone to investigate him at all. Anyone's perception would be shattered without any mercy. They were all top powerhouses. Although they knew that Wang Yijian was powerful, they were powerful too.

Ji Xuan shook his head slightly. Bei Xuanbing was still too young.

Although it was indeed serious that his spiritual beast was swallowed, he shouldn't question Wang Yijian now! He'd better wait until the pill tribulation was over!

After the pill tribulation, Granny Qiu would deal with this matter.

Now, you attacked the sword attendant of the second Sword God, Wang Yijian, so arrogantly. Even if it was just a test, it was impossible for you to end it with a few words.

Sure enough, the moment Bei Xuanbing attacked, Han Fei suddenly opened his eyes and said, "Are you questioning me?"

### **Chapter 1908: Slaying a King with One Slash**

Everyone knew that if a person wanted to enter the Soul Sea, his soul body would be projected into the body of his spiritual beast.

His soul was no longer in the real world, so he couldn't do anything. His body was like a dead person, unable to move or speak.

Now that Han Fei had spoken, many people were relieved.

In their opinion, this at least proved that there was no problem with Wang Yijian.

However, although Wang Yijian was fine, Bei Xuanbing and the others knew that ten years ago, when Han Fei broke into the Wild Abyss, the Sword God took action to protect him.

Wang Yijian, the Second Sword God, might protect Han Fei too. The area he was guarding might be Han Fei's hiding place.

After all, if Han Fei used the Twin Divine Technique and was protected by a strong master, no one could find him.

Bang!

Behind Han Fei, the broken sword suddenly appeared.

The sword hummed and pierced through Bei Xuanbing's finger as easily as piercing a piece of paper.

Many people gasped. Wang Yijian had attacked?

Although many people knew that Supreme Clearness and Infinity were very strong, this didn't mean that the Sword God World wasn't strong!

Wang Yijian was a true peerless Heavenly Talent in history. At the age of 3,000, he tried to open the Sword Palace and break the Heaven Gate. How could such a person be easy to deal with?

Being scolded by Han Fei like this, Bei Xuanbing couldn't take it anymore.

He said, "Fellow Daoist Yijian, since the moment you entered, you have been sitting cross-legged on this mountain peak. Have you ever thought of changing places?"

Since they were already fighting, Bei Xuanbing would not flinch.

No matter how strong the Sword God World was, it still had to rely on the alliance of the four heavenly palaces.

Although Wang Yijian used to be arrogant, could he attack openly in the Medicine King Valley? Now, the pill tribulation was still on-going.

How could Wang Yijian dare to use the power of this world?

However, Han Fei looked straight at Bei Xuanbing, his eyes cold and indifferent, and his white hair fluttered slightly in the breeze.

He said, "Are you teaching me how to do things?"

Bei Xuanbing's face turned cold. "Wang Yijian, don't change the topic. Aren't you afraid that your spiritual beast is hunted?"

However, Han Fei's voice was slow and cold. "My spiritual beast? I've long sacrificed it to my sword."

Bei Xuanbing: "???"

Everyone : "..."

Hong Yue and other old kings shook their heads. They really didn't know about this.

However, what couldn't these sword cultivators do? They could even sacrifice themselves to their swords, let alone their spiritual beasts.

Therefore, when Han Fei said that his spiritual beast had been sacrificed to his sword, everyone was surprisingly not surprised.

For a person like Wang Yijian, why would he need a spiritual beast to cultivate the Sword Dao?

Hua!

Han Fei suddenly got up and extended his hand, and the broken sword flew to Han Fei from behind.

The tip of the sword was pointing up, and the hilt was pointing down, as if waiting for Han Fei to hold it.

Han Fei stood still and didn't touch the hilt of the sword. Instead, he looked at Bei Xuanbing with murderous eyes and said leisurely, "All these years, you are the only person who dares to attack me. Perhaps someone has forgotten my name."

"Hiss ~"

His name?

Many people were stunned for a moment. Did he mean the second Sword God? Did he have another name besides this one?

Suddenly, someone exclaimed, "In addition to the Second Sword God, this one... has the reputation of killing a king with one slash. Could it be..."

Many people looked at Han Fei in shock. Really? For such a trivial matter?

At this moment, for some reason, the tribulation of eighth-grade divine pills didn't seem to be attractive anymore. Everyone looked at Han Fei and Bei Xuanbing.

Last time, Bei Xuanbing shattered one of Han Fei's clones with a single finger.

This time, Han Fei didn't really want to deal with Bei Xuanbing. He just wanted to mess up the situation! Because he wouldn't allow the fruits on the vines to fall into the hands of others.

Therefore, Han Fei extended his hand.

Bei Xuanbing's eyes turned cold. "It's said that you have the title of slaying a king with a slash, but you failed to reach the sky opening realm in the end. Are you still enjoying the glory of the past?"

Although Bei Xuanbing was a junior, he was also a top Heavenly Talent in Wang Yijian's era. He became a king only 800 years later than Wang Yijian.

Therefore, theoretically speaking, the eras they were in weren't far away.

At this moment, Bei Xuanbing opened his hands, and his ten fingers were like jade, and ice condensed on his arms.

Someone said in surprise, "Ice Cloud Claw? That's the Ice King's unique Sea Quelling Bizarre Treasure. It's said that it can freeze the soul and bloodline. Are these two people going to fight here?"

On the Medicine King World's side, Zhong Yue shouted, "Masters, the pill tribulation is still on-going. Why do you have to fight now? Please let the pill tribulation finish first!"

In fact, Bei Xuanbing didn't really want to fight.

As the saying went, there was no falsehood in fame. Han Fei looked really eccentric.

However, Han Fei's intimidating aura didn't cause much damage, but it was extremely insulting.

Bei Xuanbing said those words to him because Han Fei didn't allow him to investigate.

What if Han Fei hid under the protection of Wang Yijian?

After all, the Sword God had helped Han Fei before. There was no reason for the Second Sword God not to help him.

In fact, many people had the same idea.

At the same time, Han Fei was sure that no one doubted that he wasn't Wang Yijian. So he tried to summon the Emperor Sparrow.

Why did he summon the Emperor Sparrow? Because the Emperor Sparrow might not come out even if he summoned him. He could even communicate with him in the Soul Sea.

Now that his main soul was not here, once he contacted the Divine Sparrow, it meant that he needed to come out of the Soul Sea.

In the Soul Sea.

Han Fei controlled Little Black to swallow crazily...

Little White's speed was extremely fast. Not just any creature could approach her. And because of the existence of the Emperor Sparrow, the Jade Sky Toad only made a few tentative attacks.

However, whenever the Emperor Sparrow gazed at it, the Jade Sky Toad felt that a demon was coming from its heart, so it didn't really attack.

At this moment, Little Black and Little White had already advanced four levels in a row.

Suddenly, the Emperor Sparrow said, "I feel your summoning. Isn't your soul body here? Who is summoning me?"

Han Fei's heart did a flip. "It's my avatar. It seems that it's time to go out."

...

In the outside world.

Han Fei opened his Sword Domain, and everyone's perception landed on the mountain peak.

However, there was nothing.

While opening the Sword Domain, Han Fei said indifferently, "Medicine King World, you should know who is making trouble."

As he spoke, Han Fei held the broken sword with one hand.

Buzz!

At that moment, it was as if all kinds of Great Daos were gathering. A pure power surged on the sword...

Someone exclaimed, "What kind of power is this? I've never seen it before."

However, Ji Xuan said solemnly, word by word, "Immortal, Spirit, Qi?"

At that moment, Zhong Yue shouted, "Senior, wait..."

However, what level was Zhong Yue? How could he command a figure like Wang Yijian?

Han Fei ignored him. Anyway, he had old and new debts to settle with Bei Xuanbing, so he might as well kill him now.

At this moment, Han Fei's strength rose to its peak. In addition to the Immortal Spirit Qi, there was also the Primordial Fiendish Qi surging on the sword.

Anyway, Bei Xuanbing was not an idiot. Seeing this scene, he immediately shouted, "Wang Yijian, this is not the time to fight. Are you deliberately destroying the pill tribulation?"

Han Fei said indifferently, "I won't touch the energy of the world here. Besides, the destroyer is you. No one in the world dares to provoke me. Since you want to die, I'll fulfill your wish."

Swish ~

Buzz!

Two powers were interweaving. The Immortal Spirit Qi and the Fiendish Qi intertwined like swords and attacked Bei Xuanbing.

Bei Xuanbing had always been an extremely conceited person, believing that few people in the Raging Sea could defeat him.

However, facing Han Fei's sword, Bei Xuanbing felt that his scalp was numb. What kind of f\*cking sword is this? How can the Dao of the sword be so powerful?

Bei Xuanbing wanted to summon his spiritual beast, but his spiritual beast had been killed. Although the remaining two contractual spiritual beasts were in the Half-King realm, under this terrifying power, it made no difference.

Buzz!

A blue ice armor covered Bei Xuanbing.

In his hand, ice was stacked, and water mist gathered like a mud pool, trying to block Han Fei's sword.

Not far away, Zhang Luotian shook his head slightly. "It's more than immortal spiritual energy. Mr. Yijian's sword killing intent already contains primitive fiendish energy. These two powers are both used by Sky Opening realm powerhouses. Could it be that Mr. Yijian has already reached the sky opening realm?"

Bei Xuanbing's face turned green. How could he have expected Han Fei to attack so easily? He wanted to kill him just for such a trivial matter?!

At that moment, even though Bei Xuanbing used a secret technique, he still felt powerless.

Bei Xuanbing shouted, "Brother Ji, help me!"

But Ji Xuan pretended not to hear him and complained in his heart, Is there something wrong with your head? This is the Sword Dao in the Sky Opening realm! You want me to help you block it? No way!

Bei Xuanbing looked around and realized that he had made a big mistake.

As the saying went, there was always someone stronger. He could provoke any world, but he shouldn't provoke the lunatics of the Sword God World.

Especially this Wang Yijian, his reputation was not good in the first place. Was he out of her mind to provoke him?

In an instant, Bei Xuanbing saw the eighth-grade divine pills that were transcending the eighth heavenly tribulation.

Bei Xuanbing was shocked. After all, his life should be more important than these so-called divine pills!

It should be good to use the heavenly tribulation to resist Han Fei's sword.

Swish!

Bei Xuanbing hid behind the level-eight divine pills.

At this moment, Granny Qiu couldn't sit still anymore.

She shouted, "Bei Xuanbing, you want to destroy my divine pills? The Medicine King World will never let you off!"

Unfortunately, at that critical moment, Granny Qiu shouted too late.

This was because Han Fei's terrifying sword slashed through the divine pills, heavenly tribulation, and Bei Xuanbing together.

Rumble! Rumble!

The sky was torn apart, and the Sea Establishers were all shocked. Is Wang Yijian going to tear down the Medicine King Valley?

Boom!

In the terrifying explosion, the void collapsed. Bei Xuanbing's body shattered, but he was still alive, but he felt that his soul was imprisoned by a special power.

At that moment, a voice sounded in Bei Xuanbing's mind, "Congratulations, you guessed right. Therefore, you have to die."

Then a blood-colored crack suddenly appeared in the sky.

"Hiss ~"

Instantly, everyone fell silent, horrified. Bei Xuanbing was killed by a single slash?

### **Chapter 1909: Eight Nine Mystic Pills**

The moment Bei Xuanbing died, everyone present was stunned.

Not only was he dead, but for some reason, a vast heavenly tribulation appeared in the sky and fell into the collapsed void.

Everyone worked together to resist the aftershock of Han Fei's sword, only to see a ninth heavenly tribulation appear in the sky.

While everyone was shocked by the death of Bei Xuanbing, Granny Qiu exclaimed, "It's the ninth pill tribulation. Nine... I refined a ninth-grade divine pill."

Buzz!

At that moment, Granny Qiu rushed into the collapsed void, ignoring the terrifying aftershock of the Immortal Fiend Saber.

However, immediately afterward, Granny Qiu's wailing voice resounded through the sky, "Where are my pills? Who stole my pills?"

"Huh?"

"How is that possible?"

"Is it Han Fei?"

"Impossible! How could Han Fei have a chance to steal the pills?"

"When did he come out of the Soul Sea?"

Someone was shocked. "It must be the Twin Divine Technique. The effect of the Twin Divine Technique in the Sea Establishment Realm might be beyond our expectations."

"Han Fei, you shameless thief. Give my pills back!"

At that moment, Granny Qiu burst into fury. She had never expected that the source of trouble would come from the Soul Sea. Han Fei was really cunning...

"Puff ~"

Granny Qiu vomited a mouthful of blood on the spot.

A king of the Medicine King World, Li Ji, hurriedly said, "Palace Master..."

Granny Qiu shouted, "Lock down the Medicine King World. No one is allowed to leave or contact the outside world..."

With that, Granny Qiu ignored the terrifying power that swept across the Medicine King Valley and glared at Han Fei. "Wang Yijian, I don't think I mistreated you. Why did you ruin our Medicine King World's great event?"

However, Han Fei looked straight at Granny Qiu. "Are you questioning me?"

"Uh..."

His words horrified countless people.

Just now, Bei Xuanbing retorted because he couldn't resist the insult of Han Fei's words, but then he was killed by Han Fei.

Now, Granny Qiu had embarked on the same path as Bei Xuanbing?

Everyone couldn't help but want Granny Qiu to shut up. You are indeed unparalleled in alchemy, but in terms of fighting, you are nothing!

But this time, Han Fei said indifferently, "I attacked just to kill the person just now."

Han Fei explained, which was rare, but it was just a casual remark. In other words, Bei Xuanbing wanted to block his Immortal Fiend Saber with the pill tribulation. Who could have expected that? It was Bei Xuanbing's fault, not mine.

At this moment, the Heavenly Talents of the Infinity World were all shocked.

Especially Li Xinghen and the others, seeing their king was killed so easily, it was the first time they realized that the people from the Sword God World were too strong.

This was only the f\*cking second Sword God. What about the real Sword God?

Many people suddenly figured it out.

No wonder the Sword God, Immeasurability, Supreme Mystic, and Glazed Glass could exist in the inner domain safely. With such combat power, how many people dared to provoke them?

Granny Qiu fell silent at Han Fei's question.

Only then did Granny Qiu realize that she couldn't take it out on this person at this moment.

Wang Yijian's reputation was like this in the first place. If anyone offended him, he would start a massacre. In the eyes of this kind of sword cultivator, the strong were used to slaughter. Except for swords, they didn't care about anything.

Han Fei sat cross-legged on the top of the mountain without moving, and Granny Qiu didn't dare to say anything to Han Fei again. The others certainly wouldn't ask for trouble.

Xia Xiaochan, on the other hand, felt that her back was wet. She wondered how Han Fei could still be so calm under such circumstances.

What surprised her even more was Han Fei's slash just now. Could he really kill a king with one slash?

At this moment, Xia Xiaochan had countless questions to ask, but she held them back because she was still in Medicine King World.

In fact.

In Han Fei's Origin Sea, the Demon Purification Pot was fusing with a small vine.

Han Fei was excited. There were indeed seven divine pills hanging on the vine, which made him swallow.

How did he get this vine? Of course, he got it through a well-thought-out plan.

Han Fei dawdled and didn't take out his sword because he was waiting for the pill tribulation to descend. This was because Han Fei knew that this sword would be extremely powerful! After all, he had slashed out his black-mist body and the Immortal Fiend Saber together.

Seeing that he couldn't resist the Immortal Fiend Saber, Bei Xuanbing definitely had to find a power that could resist the Immortal Fiend Saber. At this time, the pill tribulation happened to descend, and he would probably use the pill tribulation to resist it.

Therefore, he had a way to touch the vine. It was originally a vine of the Demon Purification Pot, so Han Fei could easily collect it into Forge the Universe.

As for the last ninth pill tribulation, to be honest, Han Fei didn't know what happened.

Han Fei guessed that it was because both Bei Xuanbing and he had entered the range of the pill tribulation that the ninth pill tribulation had descended.

At this moment.

The fifth vine was slowly connecting to the Demon Purification Pot.

He wondered how traumatized Granny Qiu would be if she knew that the ultra-quality divine pills she had poured so much effort into refining had become fruits on a vine on the Demon Purification Pot.

But now, Han Fei was happy.

Every time the vine appeared, the Demon Purification Pot would have some change.

Last time, the appearance of the fourth vine brought him the Bloodline Devouring Divine Technique. This time, he didn't know what was waiting for him.

After spinning in the Origin Sea for a long time, the Demon Purification Pot finally slowed down.

Gulp!

Han Fei swallowed and came to the vine.

Han Fei was speechless. He thought to himself, I'm really patient. When my original soul entered the Soul Sea, I didn't know that the level-eight divine pills Granny Qiu mentioned were actually the small vine. Otherwise, I wouldn't have been in the mood to swallow spiritual beasts.

At this moment, in the Origin Sea, Little Black and Little White were circling, breaking through four levels in a row. They needed some time to stabilize their cultivation. The Emperor Sparrow looked at the Demon Purification Pot curiously, thinking about something.

When Han Fei approached the Demon Purification Pot, his eyes fell on the divine pills on the Demon Purification Pot, and information popped up in his eyes.

< Name > Eight Nine Mystic Pill

< Introduction > A Heavenly Dao Mystic Pill that absorbs the essence of everything. This pill contains all kinds of divine powers and techniques.

< First Pill > It contains a golden movement technique. When the golden light appears, one can leap tens of thousands of kilometers. Cultivating the Golden Light Leap Technique, one can travel between the heavens and earth in a moment.

< Second Pill > Comprehend the Dharma Laksana of the world. With the body as the Dharma Laksana, one has the nine heavens above the head, and the sea of the abyss under the feet. The Dharma Laksana is 33,000 feet long, swallowing all the images into the original body.

< Third Pill > A technique of infinite changes. Comprehending the Heavenly Dao, one can sense the infinite changes and transform into thousands of things in the world.

< Fourth Pill > Riding the clouds, controlling the stars and the sea, summoning the clouds, rain, thunder, and lightning in the nine heavens, and absorbing the spiritual energy of the earth. Suppress the sea, open the sky, and I'll control the world.

< Fifth Pill > The soul leaves the body and opens the eighth consciousness of the human soul. When the soul leaves the body, the mountains and rivers will shatter, the earth will sink, and the perception will be the world.

< Sixth Pill > As long as the divine body is not destroyed, the world will not be destroyed. Cultivating a supreme divine body, one can call out like the wind and clouds in the four seasons. His voice is thunderous, his eyes are like the sun, moon, and stars, his body is like the earth, his blood is like the sea, and his will is like rain.

< Seventh Pill > The Immortal Slaying Saber can only be used once. It can stabilize the sea and kill immortals. Without a god, who can compete with it?

< Remarks > Only the first pill of the Eight Nine Mystic Pills has matured so far. On the day a pill is produced, it has to transcend the pill tribulation first. This vine needs to be nourished and taken care of slowly.

“Gulp ~”

When Han Fei saw the introduction to the Eight Nine Mystic Pills, he was stunned.

There were a total of seven pills, all extraordinary.

It seemed that each of them contained a divine technique. Seven such heaven-defying pills were produced at once.

As for the seventh pill, “Without a god, who can compete with it?” Han Fei immediately guessed that the moment he learned the Immortal Slaying Saber, he might even be able to slaughter a monarch.

Gulp!

Han Fei swallowed again.

At this time, Han Fei looked at the vine again and found seven small red pills growing on it.

Only the one at the bottom had nine patterns. As for the other six small red pills, they all had eight patterns.

Furthermore, what was even more obvious was that the small pill at the bottom was shining with golden light, as if it was about to mature and fall. Needless to say, this was the first pill. This pill was known as the golden light movement technique. Taking it, one could jump tens of thousands of kilometers and

travel between the heavens and earth in an instant. It looked like a movement technique or a space technique.

Unfortunately, Han Fei was in his black-mist body now. He'd better swallow this kind of divine pill after his twin bodies became one.

Besides, the outside world was frantically looking for him. If his twin bodies fused and anyone sensed the subtle change, his identity as Wang Yijian would be exposed.

Therefore, Han Fei was not in a hurry to fuse his twin bodies.

Fortunately, he took advantage of the moment when the space collapsed to collect the vine. Then he sank with the power of the explosion and drilled into the Supreme Purple Smoke Furnace.

Han Fei estimated that even if these people racked their brains, they wouldn't be able to guess that he had set the space node in the Supreme Purple Smoke Furnace.

As long as the Medicine King World couldn't find him, they couldn't keep everyone here all the time. Even if the Medicine King World wanted to do so, it depended on whether the other worlds would give them face.

At least, with Wang Yijian's identity, he wouldn't give them face... Killing without hesitation was Wang Yijian's style.

With this in mind, Wang Yijian, played by Han Fei, sat cross-legged peacefully.

He even deliberately patrolled the place of the explosion just now, frowning slightly, causing others to think.

### **Chapter 1910: He Was Obviously Taking Revenge**

Granny Qiu's eighth-grade divine pills were all taken away, and the kings' investigation got them nowhere. How could they dare to continue to hold the so-called Pill Dao festival?

Earlier, it was said that there were level-seven divine pills and a large number of level-five and level-six Dao Pattern Pills for sale.

Now it seemed that Han Fei had already broken into the Medicine King Valley.

But the group of kings couldn't find any clue. Who would still take out the pills they had worked so hard to refine?

In this case, some people wanted to leave.

The death of Bei Xuanbing was not a small matter.

Bei Xuanbing was the grandson of Patriarch Infinity Bei Luochen. Now Bei Luochen should be on his way here.

It didn't matter if others left or not, but Han Fei definitely had to leave.

Although he still had reserves of the Immortal Spirit Qi and Fiendish Energy, Patriarch Infinity was a Sky Opening Realm powerhouse.

Perhaps he used the Immortal Spirit Qi.

He could kill Bei Xuanbing, but it was impossible for him to kill Bei Luo Chen.

Therefore, Han Fei's perception scanned for a moment and he suddenly got up. "I'm leaving. If the divine pills are found, I'll come again."

Han Fei didn't hide his intention to run. In fact, many people were also watching the show. They thought to themselves, Wang Yijian killed Bei Xuanbing. Will Bei Luo Chen let him off?

As soon as the two of them met, there must be a super battle!

Now that Wang Yijian was leaving, everyone was slightly relieved, including Ji Chen and the others.

It seemed that Wang Yijian hadn't reached the Sky Opening Realm yet.

Otherwise, he didn't have to come to buy medicine from the Medicine King World, nor would he have to run away...

Obviously, although he could use some power in the Sky Opening realm, he still couldn't beat a real Sky Opening realm powerhouse.

Although sword cultivators had always been fearless, it didn't mean that they would just wait for death... Every cultivator knew the value of life.

However, some people were still worried. It was Wang Yijian who protected Han Fei. If Wang Yijian left, Han Fei might be gone too. Then who could they complain to?

At this moment, a girl in the Half-King realm suddenly ran to the Pill Tribulation Square and faced Han Fei. "I'm Dongfang Yuexi, Mr. Yijian. You're leaving as soon as the accident happens. Although everyone knows why, who can prove that you won't take Han Fei away? After all, as many people know, the Sword God World once helped Han Fei."

Boom~

Instantly, many people were surprised. Is this girl crazy? Do you know who you are talking to?

Even Granny Qiu's face changed drastically. "Yuexi, shut up."

However, Dongfang Yuexi said, "I know that the Second Sword God is very strong, but being strong doesn't mean you can be unreasonable."

Smack!

Immediately, someone slapped his forehead. Is this girl out of her mind? Is Wang Yijian the kind of person who is reasonable?

However, some people thought to themselves, If a junior said that to Wang Yijian, she might be fine. Would Wang Yijian bully a Half-King?

Sure enough, Han Fei paused for a few seconds and looked at Dongfang Yuexi. "First of all, the strong can be unreasonable. Secondly, it's impossible for Han Fei to escape. As for where he is, find him yourselves."

With that, the broken sword behind Wang Yijian cut through the void and Han Fei left from the void, followed by Xia Xiaochan who was holding a sword in her arms.

It wasn't until the two of them left that Dongfang Yuexi felt her legs go limp. She was extremely scared when she was talking to such a murderous person.

Fortunately, she made the right bet. Wang Yijian wouldn't attack a junior. Otherwise, he would have stabbed her to death.

When Han Fei really left, Beitang Xuan's face was pale. He wanted to search for Bei Xuanbing's corpse, but failed to find it.

"Wang Yijian..."

Beitang Xuan gritted his teeth and clenched his fists, as if telling himself, I must become stronger! I must kill Wang Yijian with my own hands in the future.

Li Xinghen patted Beitang Xuan's shoulder. "This matter is not something you and I can decide. The patriarch will uphold justice."

Beitang Xuan said, "Damn it. The Sword God World deserves to be wiped out."

Ji Xuan from the Supreme Clearness World slowly heaved a sigh of relief. At least, compared to the Infinity World, they didn't suffer much losses.

Although his spiritual beast had been killed and turned into a baby, at least it wasn't dead yet. With a long period of nurturing, it could still recover.

Besides, Ji Xuan was glad that he didn't challenge Wang Yijian.

This battle also showed him how strong the Sword God World was. In the past, even he felt that since the Sword God World was so strong, how could they not even be able to take down those four heavenly palaces?

Now it seemed that they really couldn't!

Even if they could, what price would they have to pay? The Second Sword God was already so strong. Then, what about the real Sword God?

Half a day passed.

Because the others weren't as powerful as Han Fei, they couldn't leave. They were taken away by the people of the Medicine King World and gathered together.

At this moment, Bei Luo Chen arrived.

As soon as Bei Luo Chen appeared, he saw Li Xinghen and the other powerhouses of the Infinity World all kneeling on the Pill Tribulation Square.

Beitang Xuan's eyes were red. "Great-grandfather, please uphold justice. Uncle was killed on the spot by Wang Yijian from the Sword God World. That b\*stard is extremely ferocious and arrogant. Great-grandfather, you've gotta avenge Uncle!"

Bei Luochen frowned. "Wang Yijian? He's not dead?"

Bei Luochen couldn't help but look at Granny Qiu who was waiting in the Pill Tribulation Square.

Obviously, the old lady was still here, just to give Bei Luochen an explanation.

Granny Qiu stiffly explained what happened, and Bei Luochen frowned.

In fact, Granny Qiu didn't want to talk to Bei Luochen at all. If it weren't for Bei Xuanbing provoking Wang Yijian, if it weren't for the fact that Bei Xuanbing was no match for Wang Yijian and had to rely on the pill tribulation to block Wang Yijian's sword, Han Fei wouldn't have had the chance to... snatch all her divine pills.

However, Granny Qiu was not strong enough!

There were some words that she couldn't say to a Sky Opening Realm powerhouse like Bei Luochen, so she could only swallow them.

Level-nine divine pills were indeed extremely important, but the protection of Supreme Clearness, Infinity and the other heavenly palaces was equally important.

Otherwise, with just the Medicine King World itself, although it didn't lack kings, they were still much weaker than those wild kings who had experienced countless life-and-death battles.

Bei Luochen's perception scanned this place again and again. He saw Zhang Luotian and Ji Xuan.

Zhang Luotian was calm. So what if he was an emperor? No matter how powerful he was, he wouldn't dare to attack the people of the Martial Emperor City.

Bei Luochen said, "Ji Xuan, what exactly happened?"

Ji Xuan sighed and said, "Senior, the Ice King was too eager to find Han Fei, so he offended Wang Yijian. And that person is indeed extremely eccentric. He seems to have already mastered the Immortal Spirit Qi and another powerful force. The slash condensed from these two forces is extremely powerful and full of killing intent. It's really difficult for a Sea Establisher to block that slash."

After a long silence, Bei Luochen grabbed a trace of dissipating power from the void and sensed it. "What a strong murderous aura. Wang Yijian has really entered the demonic Dao."

"Entered the demonic Dao?"

Ji Xuan, Granny Qiu, and the others were all surprised. It seemed that Wang Yijian was quite normal! Did he really enter the demonic Dao?

Bei Luochen didn't explain.

His perception swept across the Medicine King World. He even checked every inch of the land and every object, but he didn't find any trace of Han Fei.

Bei Luochen said, "Very good, Wang Yijian, Sword God World, do you really think our Infinity World doesn't dare to start a war?"

Beiluo Chen snorted heavily and looked at Li Xinghen, Beitang Xuan, and the others. "Let's go back."

...

Seven days passed.

The Medicine King World had checked all the people they could.

They had searched everyone he could, but still didn't find Han Fei.

But the Medicine King World couldn't really keep everyone here all the time.

The first to ask to leave was the Martial Emperor City.

Zhang Luotian said, "The Martial Emperor City is here to buy pills, not to be investigated."

Following that, the other Heavenly Palaces also requested to leave.

Ji Chen and the others couldn't sit still either.

On this day, everyone was about to leave.

Suddenly, someone from the Medicine King World had his glabella flashed, and his spiritual beast appeared. However, he suddenly discovered that his spiritual beast had become a baby.

Someone was shocked. "Han Fei is still here! Han Fei is still here!"

After only a moment, when Granny Qiu arrived, Han Fei's spiritual beast had already disappeared without a trace.

This time, many strong masters of the Thirty-Six Heavenly Palaces had their spiritual beasts swallowed by Han Fei.

Instantly, many people were terrified.

Someone said, "No, we can't stay in the Medicine King World anymore."

Someone's expression was ugly as he instantly summoned his spiritual beast to prevent any problems from happening inside.

And this seemed to clear Wang Yijian's suspicion. Since Han Fei was still here, Wang Yijian must have been used.

Granny Qiu asked, "Jade Sky Toad, you really can't catch that guy's spiritual beast?"

Jade Sky Toad: "I really can't. I don't even know where its other body is. Besides, a strange bird is attacking me. Its aura is very terrifying. I'm afraid I will even be implicated."

Granny Qiu said, "What should we do? Han Fei is simply a bane. We shouldn't have let the Yin-Yang World survive back then. Now, he is obviously taking revenge!"
