## Chapter 1971: Crystal Palace

When the Sword Opening Heaven Gate appeared, all the people who came to challenge Han Fei were stunned and felt that it was ridiculous. This kind of strength actually belonged to a mere avatar? This kind of strength actually belonged to a mere peak-level Venerable?

Finally, after three Venerables died in a row, no one dared to challenge Han Fei again. Who didn't know the value of life? Who wanted to die as pathetically as Feng Qing?

Feng Qing's death sounded the alarm in everyone's heart. Xia Xiaochan's man was very strong.

Someone thought that this avatar's original body had already become a king. He must have obtained a lot of king-level insights. It was only natural for his avatar to be stronger.

However, none of the Venerables could withstand two attacks from Han Fei. This made many people feel ashamed. However, they could only swallow it because they dared not attack at this moment, which would only mean death.

After Han Fei laughed at the Heavenly Talents in the Merman Royal Family, a voice echoed in the void, "Disperse. Let them come over."

Han Fei glanced at everyone and then snorted. "If there are still so-called Heavenly Talents who want to fight, come on. My principle is that once we fight, fight to the death."

With that, Han Fei and Xia Xiaochan looked at each other and flew deep into the Royal City.

After Han Fei and the others left, the so-called Heavenly Talents around them were all relieved.

Someone thought to himself, How can this person be so strong? How can a peak-level Venerable be so strong?

Someone sighed. "His physique can resist a Sea Quelling Bizarre Treasure. He has many weapons and all kinds of tricks, especially his last slash. I can't figure it out at all!"

Someone guessed, "I heard that when the humans founded the Supreme Clearness World, a strong master learned a sword technique called the Sky Opening Sword Manual. It's said that it can open the sky and cut the Great Dao. That's why Feng Qing died today."

"Hiss ~"

.....

"Cut the Great Dao?"

Many people were stunned, some were shocked, and some looked at Han Fei and Xia Xiaochan in the distance in disbelief, wondering if there was such a magical combat skill in this world.

...

A moment later, when Han Fei came to a tall palace-like building more than 500 meters high, he asked, "Is this your usual cultivation place?"

Xia Xiaochan shook her head slightly. "This is a teleportation place. Because cultivation requires silence, I own a trench canyon alone."

Han Fei was speechless. It was good to have a high status. There were so many people living in the city, while Xia Xiaochan had a huge manor alone.

In this one-story building, Han Fei saw tens of thousands of teleportation arrays, which should lead to different places.

Xia Xiaochan took Han Fei to the top teleportation array with ease. When the two of them walked in and appeared again, Han Fei saw an abyssal trench.

In his perception, at the bottom of the trench, there was an exquisite palace that emitted golden brilliance.

Han Fei could even see two clam girls waiting outside the palace as if they were waiting for Xia Xiaochan.

However, Xia Xiaochan came back to transcend the tribulation this time, not to enjoy life. Therefore, when Xia Xiaochan saw these clam girls, she shouted, "Everyone, leave."

"Yes, Your Highness."

Immediately afterward, Han Fei saw twelve clam girls come out one after another. Each of them was wearing a white transparent gauze dress and stepping on a white clam. The gauze moved with the water and the clam girls looked very gentle and beautiful.

Han Fei was speechless. No wonder the Hexagon Starfish liked clam girls' massages, and he wanted six at once. Just looking at them...

"Hiss ~"

Han Fei couldn't help taking a breath and looking at Xia Xiaochan. "Why are you pinching me?"

Xia Xiaochan narrowed her eyes. "What are you looking at?"

Han Fei immediately straightened his face. "I'm not looking at anything! I'm just looking at the place you've been staying for decades."

"Hmph!"

Xia Xiaochan couldn't help but tighten her grip and then said, "Then let me tell you in person..."

"Okay, okay! Why don't... you let go first?"

...

When the clam girls left, only Han Fei and Xia Xiaochan were left in the entire trench canyon.

However, the two of them didn't enter the palace but stood on the roof.

Xia Xiaochan said, "We're not here for a vacation. My chance to transcend the tribulation has come. It's time for you to appear."

"Oh! I thought you were going to fight outside for a while."

Chun Huangdian's voice came leisurely, lazy and indifferent.

Han Fei said, "You Merman Royal Family don't even have a decent Heavenly Talent. Why bother to fight them? Who dares to fight me?"

Chun Huangdian's figure quietly appeared a hundred meters away. He looked at Han Fei indifferently. "Just because you're allowed to come doesn't mean you can do whatever you want. You must have paid a heavy price to create this avatar. Don't lose it here."

Han Fei chuckled. "Since I dare to come, I dare to give up this avatar. However, I hope the Merman Royal Family can handle the consequences."

Ignoring Han Fei's threat, even Chun Huangdian knew that this guy had already become powerful. He was definitely among the tops in the Sea Establishment Realm in the Raging Sea. If he was given some time, it was indeed possible for him to reach the Sky Opening realm.

He said, "Since you're going to transcend the tribulation, follow me! Go see your mother."

Xia Xiaochan's body trembled and she was a little nervous. Han Fei, on the other hand, wondered if it was possible for the god's blood to regrow in her body.

Chun Huangdian pressed his hand on the void and a teleportation array appeared.

Xia Xiaochan took Han Fei's arm and tightened her grip, looking very nervous. This was not as simple as only seeing her mother, because this meant that her tribulation was about to begin and she would have to return the drop of blood in her body to her mother, so she was nervous.

When they stepped into the teleportation array again, Han Fei looked around and found that this place was covered by pale yellow turbid water, like the mist in the Sea of Mist.

In front of them was a crystal clear huge palace, and they could even see its inside. Towering in the turbid water, this palace was a thousand meters tall and spanned more than ten kilometers, like a crystal palace carved from pure ice.

On the crystal palace-like building, there were almost invisible array carvings. It must be the protective arrays of the Crystal Palace.

However, when Han Fei saw Li Qingdi push open the door that was more than 500 meters high, his heart did a flip. It was said that Li Qingdi rarely appeared in the Merman Royal Family. Had he been guarding here?

When he saw Han Fei and Xia Xiaochan, Li Qingdi said casually, "I'm glad you keep your word. Since you're here, let's start!"

Chun Huangdian nodded slightly, but no one noticed that his body was secretly tensed up. He had been waiting for this day for too long.

For this day, he found Xia Xiaochan, nurtured her with all his strength, fought the Soul Sealing World, and even reached an agreement with Han Fei... All of this was for this day.

Li Qingdi waved at Xia Xiaochan. "Come, this is the first time you've seen your mother. She's the pioneer of the Mermaid Royal Family and the only king of our Mermaid Royal Family."

Xia Xiaochan held Han Fei's hand tightly, very nervous. In fact, Han Fei was very nervous too, fearing that something would happen to Xia Xiaochan after the god's blood was taken away.

As they walked into the crystal palace, an extreme coldness made Han Fei and Xia Xiaochan shudder, but they were both very strong, so they didn't care.

In the huge palace, in addition to the ice pillars that supported the palace, there were also various complicated patterns. If one looked carefully, they would find that they were all arrays. This place had existed for so long because of the arrays.

When they came to the center of the palace, they saw the crystal coffin floating in the air from a distance. They scanned it with their perception and saw a beautiful woman who looked 60% similar to Xia Xiaochan in the ice coffin... Oh, no, she was more like a girl and looked like Xia Xiaochan's sister. This was the benefit of cultivation. As long as one was willing, youthfulness was a very simple thing.

Xia Xiaochan's mother was sleeping soundly. She was not breathing and her face was fair as if she were asleep.

Xia Xiaochan asked, "What's her name?"

Chun Huangdian said leisurely, "Hongzhu, she is the Goddess of War and queen of the Merman Royal Family. You've been good at fighting since you were young because you inherited your mother's characteristics."

"Xia Hongzhu?"

Xia Xiaochan straightened her face. Her surname, Xia, must be her mother's surname. She said, "How can I return that drop of blood to her?"

Li Qingdi said, "The god's blood in your body hasn't been fully activated. This means that you haven't encountered a life-and-death situation. In a life-and-death situation, the god's blood will bless you to transcend the tribulation, and it will also be activated at that moment. What you have to wait for is that when you transcend the tribulation, once the god's blood is activated, you need to condense it and inject it into your mother's body."

"Wait a minute."

Han Fei's face changed. "Then how can she handle the life-and-death situation if she returns the only god's blood that can protect her to her mother?"

### **Chapter 1972: Xia Xiaochan's Tribulation**

When Han Fei heard their plan, he immediately disagreed. They wanted to exchange Xia Xiaochan's life for Xia Hongzhu's awakening!

Han Fei continued, "Back then, my mother-in-law knew that she only had one drop of god's blood left, but she still gave it to Xiaochan, which meant that she wanted her daughter to inherit the god's blood.

Now that you want Xiaochan to return the blood, so be it. But if Xiaochan dies, why did my mother-in-law give the blood of a god to her in the first place?"

Li Qing Emperor and Chun Huangdian were speechless. What the hell are you talking about? Your mother-in-law? She is still sleeping. Do you think she can hear you?

Li Qingdi said, "Of course the princess won't die easily. We have a backup plan to help her survive."

Han Fei asked, "What backup plan?"

Li Qingdi shook his head. "You don't need to know that."

Han Fei was about to argue, when Xia Xiaochan stopped him. Xia Xiaochan said, "Don't worry. I still have the Giant Arowana and the Heavenly Cicada. It's not a bad thing to lose the blood of a god. If I don't return the blood, I'm afraid I won't be able to survive this tribulation."

Han Fei couldn't help but glance at Chun Huangdian. It was all this guy's fault. If he hadn't told Xia Xiaochan this matter, Xia Xiaochan would have successfully transcended the tribulation.

Unfortunately, it was too late now. But Han Fei still said, "Xiaochan is the princess of the Merman Royal Family. In order to save her mother, she has paid a great price. Shouldn't you prepare all the top resources of the Merman Royal Family for her? At least hundreds of thousands of spiritual fruits, billions of ultra-quality spiritual stones, and all kinds of divine pills, right?"

Chun Huangdian said disdainfully, "How petty. The place where the princess will transcend the tribulation is the Crystal Palace, and the resources in the Crystal Palace are dozens of times more than what you said."

Han Fei was relieved. It seemed that for the sake of Xia Xiaochan's tribulation this time, Chun Huangdian and the others didn't dare to be negligent, or even very careful. This was because Xia Xiaochan's tribulation represented the recovery of Xia Hongzhu and the rise of the war queen.

After seeing Xia Hongzhu, Xia Xiaochan loosened her grip on Han Fei. Then she glanced at Han Fei and said, "I can do it."

With that, Xia Xiaochan said, "I'm ready. You can start now."

.....

Li Qingdi and Chun Huangdian looked at each other. Chun Huangdian took out a dazzling golden harpoon that emitted a terrifying Dao rune pressure.

Well, if what Han Fei got before was a harpoon, this one could be called a better name, Trident. Han Fei's first feeling was that this weapon was extraordinary, even surpassing Sea Quelling Bizarre Treasures and Human Sacred Weapons.

"A godly weapon?"

Han Fei couldn't help but guess that even if this thing wasn't a godly weapon, it was definitely an ultra-quality Sea Quelling Bizarre Treasure. However, it shouldn't be as good as his Green Thunder Wine Gourd.

Han Fei's Green Thunder Wine Gourd had been in Forge the Universe for almost 600 years. Because he had adjusted the flow of time several times, there was still a period of time before a thousand years.

It was placed in Forge the Universe for a thousand years for the Thousand-Year Heavenly Dao Wine. The Hundred-Year Dao Querying Wine was no longer very effective for him, but the Thousand-Year Heavenly Dao Wine was different. From the name, one could tell that it was extraordinary. When it was brewed, it would be enough to improve his strength further.

Han Fei suddenly realized that he had thought too far ahead. He waved the trident at the Crystal Palace, and the dome of the Crystal Palace cracked.

Han Fei saw that a massive amount of resources were stored between the dome and the top of the crystal palace. At this moment, they were revealed. They must be prepared for Xia Xiaochan's tribulation.

However, Chun Huangdian fell to the ground and shouted, "Rise!"

Clatter ~

The entire Crystal Palace began to tremble. After it stabilized, the Crystal Palace began to rise up, probably to the surface of the sea to facilitate Xia Xiaochan to transcend the tribulation.

However, as the Crystal Palace moved, the entire Merman Royal Family trembled slightly.

A strong master realized that something had happened in the forbidden area.

However, when someone wanted to investigate, a king shouted, "The princess is transcending a tribulation. No one is allowed to observe the tribulation. Retreat..."

"The princess is transcending a tribulation?"

Countless people exclaimed. So Xia Xiaochan came back to transcend the tribulation?

With a thought, the wind and clouds gathered. Xia Xiaochan had already decided to transcend the tribulation, so the heavenly tribulation would come naturally.

The tribulation clouds in the sky gathered for half an hour before lightning rolled over.

However, when Han Fei saw the slightly purple clouds in the distance pressing down, his heart did a flip. It seemed that Xia Xiaochan's heavenly tribulation was not simple!

Li Qingdi also said, "It's extremely dangerous to transcend the tribulation with the god's blood, because this bloodline is too strong. The heavenly tribulation attracted is naturally stronger than ordinary heavenly tribulations."

However, Han Fei wasn't worried. Xia Xiaochan had already practiced the Purity Mystic Body. In this Raging Sea, in addition to the Void Fire Technique that he was cultivating now, the Purity Mystic Body was the ceiling of body refining arts in the Raging Sea .

Even though Old Man Taiyuan had already become an emperor, his body refining technique was far inferior to the Purity Mystic Body. Xia Xiaochan had been suppressing her strength for hundreds of years, so he wasn't very worried even if it was a full-purple heavenly tribulation.

However, Han Fei still stuffed a bunch of bottles and jars over and said, "This five-level Dao Pattern Pill can double your strength. This sixth-level soul pill can help you resist the inner demon tribulation. And this one is even more incredible. This seventh-level Soul Suppressing Pill can help you survive at least one late-stage heavenly tribulation."

Li Qingdi and Chun Huangdian were speechless. This guy was really generous to the princess. He had even taken out a level-seven divine pill, so the success rate of tribulation transcending would certainly increase a lot.

Although the Merman Royal Family had a lot of resources and had prepared many very rare ultra-quality spiritual fruits this time, no one knew how to refine pills. Robbing the Medicine King World meant a full-scale war. Instead, it was easy for people like Han Fei to get these pill resources.

Xia Xiaochan accepted them all. She was here to transcend the tribulation, not to die. If she could successfully transcend the tribulation, she would go back to the Yin-Yang World with Han Fei.

At that time, she would really have nothing to worry about. Although she had her mother, she didn't know her well, and she was closer to Han Fei.

Han Fei and the others retreated.

Xia Xiaochan put on a battle suit and stood in the air, facing the heavenly tribulation.

Boom!

When a dark blue lightning snake drilled out of the sky, Han Fei couldn't help being relieved. Fortunately, the first one wasn't purple lightning. Otherwise, the difficulty of this heavenly tribulation would be even higher than his. It might be as difficult as the Emperor Sparrow's.

As for the first lightning bolt, it continued the style of body tempering. Xia Xiaochan completely endured it and used her physique to temper her body with the heavenly tribulation, and her Purity Mystic Body circulated crazily.

Around Han Fei, more than 20 Sea Establishers were watching the heavenly tribulation, but he didn't notice it at all.

Rumble! Rumble!

The second heavenly tribulation was still a pillar of blue lightning, but it was slightly purple. Xia Xiaochan still withstood it with her body.

At this point, the surrounding kings secretly discussed.

"Her Highness's physique is so strong. I'm afraid there are few people with such a physique in the Raging Sea!"

"She withstood two heavenly tribulations in a row and tempered her body with the heavenly tribulation. As far as I know, there are less than ten people in the Raging Sea who can do this."

Rumble!

This time, a blue and purple heavenly tribulation fell. Xia Xiaochan still resisted it with her body, but a trace of blood flowed out of the corner of her mouth. Immediately, thousands of spiritual fruits shattered, turned into pure power, and poured into Xia Xiaochan's body to heal her.

Someone thought to himself, "What? Purple lightning appeared on the third heavenly tribulation?"

Someone was surprised. "She withstood this lightning bolt again? The princess's physique is stronger than we imagined!"

However, to their surprise, the fourth lightning bolt was basically a purple lightning bolt. Xia Xiaochan still withstood it head-on. Tens of thousands of spiritual fruits shattered and were sucked into her body.

When Xia Xiaochan transcended the fifth heavenly tribulation, finally, even Li Qingdi couldn't help but glance at Han Fei, wondering what kind of body tempering technique Xia Xiaochan had practiced. She had withstood five heavenly tribulations in a row and tempered her body with the heavenly tribulation. If this went on, could Xia Xiaochan just withstand all the heavenly tribulations like this?

However, Han Fei found that Xia Xiaochan's armor was full of cracks and her Qi blood was turbulent.

Han Fei shouted, "Xiaochan, don't save spiritual fruits. Directly swallow a hundred thousand spiritual fruits. If your battle suit is broken, change into a new one. Eat as many healing pills as you can. Before the sixth heavenly tribulation comes, heal your injuries."

When the kings heard that the sixth heavenly tribulation was coming, they all thought what Han Fei said made sense.

Sure enough, the heavenly tribulation this time was completely purple and shockingly powerful, like a divine pillar.

Bang!

The battle suit on Xia Xiaochan's body shattered, and a new Sea Quelling Bizarre-level battle suit was put on her. Above the Crystal Palace, spiritual fruits flew into the air like a stream, and when they were less than ten kilometers away from Xia Xiaochan, a large number of them shattered, continuously supplying power to Xia Xiaochan.

Han Fei noticed that there were more than three million spiritual fruits in the reserve resources of the Crystal Palace. How many had Xia Xiaochan used?

However, after the sixth heavenly tribulation, Xia Xiaochan's flesh and blood began to show signs of cracking. Han Fei told her not to hesitate to use resources, so Xia Xiaochan didn't. This heavenly tribulation consumed more than 100,000 spiritual fruits, and she only managed to survive after eating a third of the healing pills Han Fei gave her. She even used two five-level Dao Pattern Pills in a row.

However, Xia Xiaochan found that the power of the heavenly tribulation was almost several times stronger. She would probably have to consume several times the power just now in the seventh heavenly tribulation.

Rumble! Rumble!

However, when the next dark purple heavenly tribulation descended, Han Fei's face changed. Why did Xia Xiaochan's heavenly tribulation become so fierce?

Han Fei shouted, "Don't hesitate to use the Six-level Dao Pattern Pills, spiritual fruits, and healing pills. Where are the arrays and shields? Throw them out."

### **Chapter 1973: War Queen**

??

Ordinary people didn't know the Heaven Enlightenment Divine Technique, so it was extremely unlikely for them to survive the tribulation with their physique.

Han Fei believed that even the former Human King, even if he walked the Great Dao of Heaven Enlightenment, didn't survive the heavenly tribulation with his physique. This was because in the Raging Sea, human beings' best body-refining technique was ranked outside of the top ten thousand in the Infinite Ocean.

Therefore, Xia Xiaochan had actually survived five and a half heavenly tribulations in a row, but she couldn't rely on her physique to survive the rest.

As Han Fei expected, Xia Xiaochan certainly wouldn't forcibly resist the heavenly tribulation when she knew that she couldn't. As for the god's blood, even if she wanted to activate it, she wouldn't do it now.

At this moment, a big shield that looked like a pot lid appeared above Xia Xiaochan's head. As Xia Xiaochan released the last array map, hundreds of thousands of spiritual fruits rose to the sky, and ultra-quality spiritual stones surrounded her, forming a spiritual vortex.

In fact, this cost wasn't much. The big shield shouldn't be able to block the entire heavenly tribulation, let alone the array. But with Xia Xiaochan's battle suit and her physique, it wouldn't be a problem for her to block the seventh heavenly tribulation.

In fact, Han Fei didn't really care about the eighth heavenly tribulation. The problem was the last one, but Li Qingdi and Chun Huangdian seemed to be confident and didn't panic at all. They had clearly expected it.

Sure enough, the seventh heavenly tribulation shattered the big shield and the array, but didn't even shatter Xia Xiaochan's battle suit.

With the help of more than a hundred thousand spiritual fruits, she survived this heavenly tribulation. Xia Xiaochan's Purity Mystic Body circulated crazily and even tempered her body a little.

The eighth heavenly tribulation was the same as the seventh, but it contained a soul tribulation. However, Xia Xiaochan stuffed the spiritual fruits Han Fei gave her into her mouth. This tribulation consumed two-thirds more resources than the last one, but she was still safe.

However, Xia Xiaochan's injuries were not light at this moment. It was really difficult for her to recover in such a short time.

"Fuse!"

Therefore, in the last heavenly tribulation, Xia Xiaochan had to fuse with the Giant Arowana.

“Transform!”

With this cry, transparent cicada wings grew on Xia Xiaochan’s body, reflecting colorful light.

When the last heavenly tribulation fell, Han Fei clearly found that at the moment when the heavenly tribulation fell, Xia Xiaochan’s wings trembled. Originally, her wings set off an endless blade storm that swept into the sky, but in the heavenly tribulation, a dark red shadow appeared. Han Fei remembered the situation when he transcended the tribulation and was shocked. Could it be that a Sky Fiend had descended?

Heart demons or Sky Fiends would appear in a heavenly tribulation.

With no shortage of spiritual fruits, spiritual energy, spiritual pills, and weapons, Xia Xiaochan only had to face these two things.

“Chirp, Chirp...”

At this moment, Xia Xiaochan couldn’t be seen clearly anymore. The pillar of heavenly tribulation had completely enveloped her. Except for the cries of the cicadas, there were only dragon roars.

At this moment, in the lightning tribulation, the lightning pillar array Han Fei had used appeared. Its purpose was to attract lightning and seal the lightning in the pillar, which would collapse with the pillars in the end.

Being able to use this array meant that Xia Xiaochan was still conscious.

However, three seconds later, the dragon roar disappeared, and the chirping sound weakened, but what replaced it was a blood shadow in the lightning tribulation.

Swish ~

In the fourth second, a wisp of blue blood broke out of the tribulation and fell into the Crystal Palace, rushing towards Xia Hongzhu.

Buzz!

Chun Huangdian personally escorted the weird blue drop of blood and seemed to be watching it fall.

Han Fei, on the other hand, was not in the mood to watch the blood drop at all, because a shrill scream in the lightning tribulation made Han Fei so anxious that he just wanted to rush into the lightning tribulation.

At the moment when the god’s blood flew out of the heavenly tribulation, except for Chun Huangdian who chased after the drop of blood, Li Qingdi immediately clasped his hands. “Sea Sacrifice, Tide Light, open!”

Bang!

In the heavenly tribulation, a small dark blue light suddenly bloomed on Xia Xiaochan’s body.

One breath.

Two breaths.

Before the third second came, the heavenly tribulation had been withdrawn. In the void, Xia Xiaochan's body was seriously cracked, her battle suit was seriously damaged, she was dripping with blood, her hair was messy, and her body was unstable.

Around Xia Xiaochan, a blue light surged into her body like a tide.

Li Qingdi said, "Her divine blood was stripped away, and her foundation was greatly damaged. But fortunately, in addition to the god's blood, she also has the bloodline of the Heavenly Cicada, and at the same time, she has the pure blood of the merman race, so her strength won't be much weaker. This Tide Light can help stabilize her injuries."

Han Fei asked, "Is this Tide Light as powerful as my Heaven Enlightenment Divine Technique?"

Li Qingdi shook his head. "Of course not."

Han Fei said, "I'm taking her away."

Han Fei said, "Girl, the energy in your body is transforming, but don't be hasty. I can heal your foundation."

Xia Xiaochan's strength was rapidly transforming, but she didn't consolidate it. After the tribulation, she stabilized herself and looked at the inside of the Crystal Palace.

Buzz!

Crack, crack ~

Cracks appeared on the walls of the Crystal Palace one after another, and the surrounding void began to tremble.

Han Fei also looked at the Crystal Palace, only to see that the countless spiritual fruits and ultra-quality spiritual stones were turning into infinite energy and being sucked into Xia Hongzhu's body.

Han Fei finally understood that the real purpose of the reserve resources here was not to help Xia Xiaochan transcend the tribulation, but to help Xia Hongzhu wake up.

After more than 60 seconds, in the energy storm, faint breathing sounds came from the Crystal Palace.

Xia Xiaochan quickly looked down, but Han Fei held her hand and said, "Don't panic. She'll wake up sooner or later."

Sure enough, after another eighty seconds, the breathing sound gradually stabilized, and Xia Hongzhu finally opened her eyes slightly.

The moment Xia Hongzhu opened her eyes, Chun Huangdian grabbed the crystal coffin hard. Although he tried to hide it, Han Fei knew that he was very excited.

Otherwise, how could a Sky Opener reveal his real emotions in front of ordinary people?

And the first person Xia Hongzhu saw after she opened her eyes was Chun Huangdian.

Xia Hongzhu said, "Brother Dian?"

Chun Huangdian replied softly and slowly, "It's me!"

Xia Hongzhu seemed a little surprised. "I'm still alive?"

Chun Huangdian said, "You are the child of a god. No matter how long you sleep, you will wake up."

Xia Hongzhu was not stupid. She looked at the void, and when she saw Xia Xiaochan who was transforming her power, she couldn't help narrowing her eyes.

Han Fei thought to himself, The way the mother and daughter narrowed their eyes is very similar.

"Xiaochan?"

Bang!

As Xia Hongzhu's aura shook, she suddenly flew up, and the entire Crystal Palace shattered.

Xia Hongzhu couldn't help looking at Han Chunhuang. "Did you take back the blood of a god?"

Chun Huangdian smiled faintly. "The princess can live without the god's blood, and her talent is still astonishing, but without the god's blood, you can't wake up."

"You..."

Clang!

Chun Huangdian handed the trident to Xia Hongzhu's hand. "If I could choose again, I would still have made the same choice."

Xia Hongzhu frowned. "Who are you to decide for me?"

At this time, Li Qingdi slightly cupped his hands. "Queen, please don't blame him. For your recovery, he didn't hesitate to use his Immortal Qi to help you live for a hundred thousand years. Back then, you were already dormant and the princess hadn't been born yet. Although you gave the princess the god's blood, if no one nurtured her with spiritual energy, she wouldn't have been born. Because you are too strong, for the sake of the birth of the princess, he used all his Immortal Qi in the past hundred thousand years to help you give birth to the princess... You shouldn't blame him."

Xia Hongzhu suddenly looked at Chun Huangdian, who smiled and said, "A mere hundred thousand years is nothing to an emperor."

But Xia Xiaochan was dumbfounded. So she was born like this?

Han Fei was speechless. Gosh, this guy is really cruel to himself! It seems that he is even comparable to Old Han. Old Han is an excellent strategist. Although it seems that he has only planned for the coming decades and pushed him to grow up, just crossing the river of time back and forth is not something ordinary people can calculate. Ordinary people might not even know what the river of time is.

Faced with Chun Huangdian's frankness, what could Xia Hongzhu say? Few women could resist a man who spent a hundred thousand years protecting and resurrecting her.

Xia Hongzhu took the trident, and a halo circulated around her body. A golden-red battle suit appeared on her body, and the aura of the War Queen was immediately revealed.

Xia Hongzhu and Xia Xiaochan looked at each other for a few seconds, then Xia Hongzhu looked at Han Fei and frowned. "Human?"

Han Fei cupped his hands. "Han Fei of the human race greets my mother-in-law."

Xia Hongzhu: "???"

Xia Hongzhu couldn't have felt worse. She thought to herself, Before I fell asleep, the child hadn't been born yet. But when I woke up, I even had a son-in-law? Who could accept this?

At this moment, a group of kings interrupted Xia Hongzhu. They knelt down respectfully. "Congratulations on waking up, my queen."

### **Chapter 1974: Meet Mother-In-Law**

Xia Hongzhu was more decisive than Han Fei had imagined.

If it were a normal person who slept for a hundred thousand years and woke up to hear this news, he would probably be stunned. But Xia Hongzhu was different. After seeing these kings, she directly ordered, "All kings, retreat. Don't spread the news that I've woken up."

"Yes, my queen."

After the kings retreated, Xia Hongzhu looked at Li Qingdi. "Are you the only one who has advanced to the Sky Opening realm?"

Li Qingdi nodded slightly. "Yes, there is another person who may enter the sky opening realm within a thousand years."

Xia Hongzhu looked at Chun Huangdian. "Is this still the Raging Sea?"

Chun Huangdian: "Yes."

Xia Hongzhu asked, "Since we have the two sky openers of you, what about the human race and the other races?"

As she spoke, Xia Hongzhu looked at Han Fei as if sizing him up.

Chun Huangdian said, "When you were in a deep sleep, the human race established the Thirty-Six Mystic Worlds... Among them, there were four people in the Sky Opening realm. Among them, Huang Jingyuan from the Soul Sealing World contacted the An family through some means. In order to obtain power from the An family, he was reduced to a lackey of the An family. As for the hundred demon race, who are Half-Mermen and Sea Demons, now they have a Sky Opener named Shi Pohuang. As for the undersea human race, they have a Sky Opener called Kong Shen. These two races can be considered allies and are against us and humans."

Xia Hongzhu looked at Han Fei. "Which world are you from?"

Han Fei: "Master of the Yin-Yang World, Han Fei."

Xia Hongzhu asked, "The master of a Heavenly Palace is only a peak-level Venerable?"

.....

Han Fei said, "This is my avatar. I'm invincible under the Sky Opening Realm."

Xia Hongzhu couldn't help being a little speechless. Was Invincible so easy to talk about now?

Xia Hongzhu asked, "Are you saying that you are the strongest in the Sea Establishment realm?"

Han Fei grinned and said, "Not only the Sea Establishment realm. I'm the strongest in every realm I've passed."

If Xia Hongzhu had a gentle personality, he would just be a little modest. But Xia Hongzhu was obviously not. She was a very decisive person. Because of her powerful combat power, it was not good for her to be modest.

Xia Hongzhu couldn't help but chuckle. "Brother Dian, call a strong master of our race over to test his strength."

But this time, Chun Huangdian didn't move. Instead, he said indifferently, "There's no need to try. What he said is true. He has only been in the Sea Establishment Realm for less than 30 years, but he is almost invincible in this realm."

"Less than 30 years?"

Xia Hongzhu couldn't help narrowing her eyes. In less than 30 years, he became the first in the Sea Establishment Realm in the Raging Sea? Were there too few strong masters in the Raging Sea, or was this person too heaven-defyingly strong?

She had married the wrong man. Was her daughter going to embark on the same path as her?

However, she also knew that there might be bad humans, but there must be good ones too. But no matter what, although she hadn't done her duty as a mother, now that she had woken up, she would naturally make up for it.

Ignoring Chun Huangdian and Li Qingdi, Xia Hongzhu looked at Xia Xiaochan. "Xiaochan, although I haven't done my duty as a mother, you are still my daughter. Do you think you can completely believe this human being?"

Xia Xiaochan didn't expect the first talk between her and her mother to be like this. Her mother's aura was really a bit too strong.

But Xia Xiaochan was not afraid. "I was born in the human world. I have been cultivating together with Han Fei, Luo Xiaobai, Zhang Xuanyu, and Le Renkuang since we were young, entering the sea together, hunting treasures together, adventuring together, and growing up together... I know what's right and what's wrong. Han Fei is the person I trust the most."

Xia Hongzhu asked, "Is he more trustworthy than your Uncle Dian?"

Xia Xiaochan looked at Chun Huangdian and couldn't help shaking her head. "No matter if he meant well or not, no matter how many things he did in secret, I don't like his way of doing things, from the day he killed Han Fei."

Chun Huangdian couldn't help but chuckle. "Like I said, if I could choose again, I would still have chosen to kill him. At that time, the talent he showed was too weak. The more intimate you two are, the more he must die."

Xia Xiaochan said angrily, "Why? After I return to the Merman Royal Family, won't I still have to face the An family? You said as if the An family doesn't know of my existence!"

Chun Huangdian sneered. "One of the powerful techniques of the An family is the curse technique. If they could get anything of yours from Han Fei, with your strength back then, even if I protected you in person, you wouldn't have been able to escape death."

Xia Xiaochan snorted. "No matter how you explain, I just don't like you."

Chun Huangdian shook his head indifferently. "I don't need you liking me."

Hearing this, Xia Hongzhu roughly understood the whole story. She said, "So, now that you've returned the god's blood to me, are you leaving?"

Xia Xiaochan pursed her lips and nodded. "I don't like this place and don't want to stay here."

Xia Hongzhu pondered for a moment. "Cultivate in seclusion with me for three days. If you still want to leave in three days, I won't stop you."

Han Fei frowned slightly. At this point, there was nothing he couldn't say. He said, "Mother-in-law, I have something to say. Xiaochan transcended the tribulation and returned the god's blood to you, causing her foundation to be greatly damaged. As for me, I have the Heaven Enlightenment Divine Technique. It might be able to repair her foundation. If possible, please let me heal her as soon as possible."

"You know the Heaven Enlightenment Divine Technique? Are you related to the Human King?"

Han Fei said, "No, Mother-in-law. I'm not yet a hundred years old. How can I know the Human King?"

Xia Hongzhu thought for a moment and nodded slightly. "I see."

Chun Huangdian looked at Han Fei. "If you call her 'Mother-in-law' again, your avatar won't be able to return."

Han Fei shrugged. "It's none of your business. I'll come to you for revenge sooner or later."

Xia Xiaochan secretly pinched Han Fei, thinking to herself, Shut up. You can't beat him now.

Xia Xiaochan said, "Wait for me for three days."

Xia Hongzhu looked at the shattered Crystal Palace, and tapped the ground with the trident in her hand, and countless ice crystals rebuilt the Crystal Palace at a visible speed.

As Xia Hongzhu and Xia Xiaochan entered, the Crystal Palace closed.

Han Fei and Chun Huangdian hated each other, so Han Fei sat directly at the door of the Crystal Palace, not standing in midair with Chun Huangdian.

In fact, Han Fei was thinking about something else. From what Xia Hongzhu and Li Qingdi said, he could get a certain information, which was that Chun Huangdian had been a Sky Opener a hundred thousand years ago.

This made Han Fei speechless. If this guy had been cultivating for the last hundred thousand years, wouldn't he have been able to become a monarch?

Han Fei knew that Chun Huangdian had been lying low for a hundred thousand years, but it was impossible for him to do nothing. If it were him, although he had to supply Xia Hongzhu with Immortal Qi, it wouldn't limit his thinking, right?

Therefore, Han Fei guessed that since Xia Hongzhu had woken up, Chun Huangdian's outbreak might be coming soon. At that time, he really suspected that no one on the human side could be his opponent. After all, this guy was too powerful.

...

Three days passed.

Han Fei sat cross-legged at the gate of the crystal palace, only to see the crystal palace suddenly open.

Han Fei quickly got up and saw Xia Xiaochan come out of the Crystal Palace with a swish. "Han Fei, my mother calls you in."

Han Fei was surprised. "Me?"

Xia Xiaochan pushed Han Fei away with a smile. "Don't be afraid. My mother is actually quite easy to talk to."

Han Fei clearly felt that Xia Xiaochan was more lively, so he immediately smiled and said, "Okay, I'll go, I'll go."

When Han Fei entered the Crystal Palace, he heard the sound of the door closing, but Xia Xiaochan didn't follow him in, which meant that Xia Hongzhu wanted to talk to him alone.

Facing a mother-in-law in the Sky Opening realm, he was still a little restrained. At this moment, Xia Hongzhu was sitting on a big ice chair, holding the trident.

Seeing Han Fei approach, Xia Hongzhu said, "You can't hide your personality from me. But I'm not a narrow-minded person. Since the Monarch Palace is about to open, I won't make things difficult for you. Since you say that you are talented, I can believe you. I can even let Xiaochan go back with you now, but..."

Han Fei's eyes glittered. "But what?"

Xia Hongzhu said, "If you survive the Monarch Palace, your original body should come to me."

Han Fei thought for a moment. Does she want to see my original body because she wants to kill me? However, it's more important to take Xia Xiaochan back first. She didn't ask me to make a Great Dao oath. So what if I don't come?

Han Fei immediately said, "No problem."

Xia Hongzhu said, "Since you want to be with Xiaochan, I have to confirm that you have the strength to protect her. I won't let you take her away from the Raging Sea rashly. Don't you have a navigator? I don't ask you to wipe out the An family, but I need you to gain a foothold in the outside world. Then if you still want to marry Xiaochan, I may consider marrying her to you."

Han Fei was about to speak, when Xia Hongzhu said, "While you are still in the Raging Sea, I will watch your performance. Didn't you say that you were first place in the Sea Establishment Realm? I'll leave the Soul Sealing World to you."

Han Fei thought for a moment. Although Xia Xiaochan had already transcended the tribulation and become a king, the outside world was really dangerous. It wouldn't be a problem for him to go explore the outside world first. As for the Soul Sealing World, even if Xia Hongzhu didn't mention them, he would still kill them. His growth required resources. It wasn't appropriate to attack any world now. It would be good if he could take down the Soul Sealing World.

Han Fei asked, "Will she be willing to stay in the Raging Sea?"

Xia Hongzhu said, "I have my own arrangements, but you'll meet again anyway. The premise is that you can survive the Monarch Palace and the An family."

Han Fei thought for a moment. He hadn't left the Raging Sea yet. There were still the Thirty-Six Heavenly Palaces to be unified, and the hundred demons and the undersea human race to be annihilated, so he was very busy. According to the resources of the Raging Sea, it shouldn't be difficult for him to open the sky here. Then, he would have more say.

Han Fei thought that Xia Hongzhu's confidence came from her strength. Although he couldn't see her strength clearly, he knew that it couldn't be low. Since she could escape from the An family, she must have some strength.

Besides, Xia Hongzhu's environment was very different from the environment of the divine son he knew. It was only natural that she was very strong.

Han Fei thought to himself, Take Xia Xiaochan away first. Anyway, I won't leave the Raging Sea soon.

Therefore, Han Fei gladly accepted it. "Okay, deal."

## **Chapter 1975 Divine Blood Awakening**

Han Fei actually came with the determination to die. He dared to let Xia Xiaochan come because he thought that if her mother woke up, she wouldn't watch her die.

Now it seemed that everything was going better than he had expected. Except that ordinary mermen seemed to hate him, even Chun Huangdian didn't deliberately make things difficult for him. Perhaps, for Chun Huangdian, no one was as important as Xia Hongzhu.

However, the awakening of Xia Hongzhu meant the re-emergence of the Merman Royal Family. This was different from the era of Li Qingdi. It was impossible for Xia Hongzhu to be called the War Queen for no reason.

Han Fei suspected that back then, Xia Hongzhu was in the Sky Opening Realm or even close to becoming a monarch. Otherwise, why would such a powerful force like the An family weave a huge lie to deceive Xia Hongzhu?

Han Fei and Xia Hongzhu's conversation soon ended, mainly because Xia Hongzhu was very confident that as long as she was in the Raging Sea, Han Fei wouldn't dare to mess around with Xia Xiaochan.

After Han Fei left the Crystal Palace, Xia Hongzhu pouted slightly. This was the first time in her life that she had been a mother. She wasn't used to it! She might as well make up for her daughter.

"You came out so quickly?"

When Han Fei walked out of the Crystal Palace, he saw Xia Xiaochan standing at the door, her breath unstable. Obviously, after reaching the Sea Establishment realm, she hadn't had the time to stabilize her cultivation and the power in her body hadn't completely transformed.

Han Fei couldn't help but ask, "Why didn't you stabilize your cultivation?"

Xia Xiaochan said, "I'm not in the mood. I'm waiting for you! What did my mother say to you?"

Han Fei smiled. "Nothing. She just said that we could return to the Yin-Yang World now."

Xia Xiaochan was overjoyed. It seemed that Han Fei had a good chat with her mother. She didn't expect her mother to be so amiable. Although she looked intimidating, both she and Han Fei weren't afraid of strong masters.

.....

Just as the two of them were about to leave, a figure quietly appeared, but this person was not Chun Huangdian, but Li Qingdi. This Sky Opener who was said to be extremely strong had never interacted with Han Fei and Xia Xiaochan before.

Li Qingdi said, "Although the queen has agreed to let you take the princess away, there is one thing I have to remind you."

Han Fei: "???"

Li Qingdi said, "The Thirty-Six Mystic Worlds of the human race are still the enemies of the Merman Royal Family. The battle between the Merman Royal Family and the human race has never stopped for thousands of years. Now that you take away our princess, you should know what position you should be in. Do you stand with the human race or the Merman Royal Family?"

Han Fei asked, "Are mermen considered sea demons?"

"Of course not."

Han Fei grinned. "The enemies of human beings are sea demons, but for me, all races in the world are equal."

Han Fei wasn't lying. If the sea demons didn't provoke the human race, why would humans pay such a high price to fight them?

Li Qingdi smiled faintly. "Then I'll wait for the day you unify the Thirty-Six Mystic Worlds."

Han Fei left with Xia Xiaochan and didn't see Chun Huangdian again. He probably didn't want to see Xia Xiaochan and Han Fei. As the saying went, what the eye didn't see, the heart didn't grieve over. The two of them left the sea and rushed to the nearest route as fast as they could.

Just as the two of them stepped out of the merman route, they suddenly saw a golden light flash. Who else could it be but Han Fei's original body?

However, Han Fei's original body immediately shouted, "Enter my Origin Sea."

"Hmph!"

Xia Xiaochan was stunned for a moment, but then she realized what was going on. A strong master from the Soul Sealing World must have come.

At this moment, Han Fei opened the Invincible Eye, circulated his strength to the limit, and attacked the void with the Immortal Fiend Saber.

A triangular mark shot out horizontally, attacking the Immortal Fiend Saber.

At this moment, Xia Xiaochan and Han Fei's avatar had just been sucked into the Origin Sea.

Rumble! Rumble!

As the Immortal Fiend Saber collapsed, a big void hand smashed the void within ten thousand kilometers of Han Fei with irresistible power.

Swish ~

At that moment, in the void, Han Fei's voice came from afar, "Huang Jingyuan, this is your last chance. Unfortunately, you didn't grab it. One day, I'll flatten your Soul Sealing World."

Swish! Swish! Swish!

Golden light flashed, and Han Fei's figure quickly left. He was so fast that Huang Jingyuan was speechless.

Huang Jingyuan frowned and gritted his teeth. "Twin Divine Technique..."

In fact, Han Fei had only guessed that the Soul Sealing World would seize this opportunity, so he hid outside the Mermaid Royal Family. When he perceived that Xia Xiaochan was transcending the heavenly tribulation, he had been hiding here.

However, Han Fei wasn't sure if Xia Xiaochan and his avatar could come back. Fortunately, he had got an "Ominous" divination result today, so he knew that maybe the people from the Soul Sealing World had come.

Han Fei didn't stop until he reached the Sea of Mist.

As soon as Xia Xiaochan appeared, she said, "My mother has already sealed the aura of the Heavenly Cicada on me. Why can the people from the Soul Sealing World still find me?"

Han Fei had already synchronized with his avatar, but he didn't know that Xia Xiaochan's aura of the Heavenly Cicada had been sealed. He said, "They don't need to find you. They just need to guess. Even I can feel your tribulation. It's impossible for them not to sense the cry of the Heavenly Cicada."

But as soon as Han Fei said this, he suddenly remembered something. Was Huang Jingyuan's purpose to kill Xia Xiaochan or to stop Xia Hongzhu from waking up?

If it was to prevent Xia Hongzhu from waking up, why was he chasing Xia Xiaochan now?

Han Fei suddenly said, "That's not right. He knows that this place is close to the Merman Royal Family. It's impossible for him to break into the merman's territory alone because of Chun Huangdian and Li Qingdi. Therefore, Huang Jingyuan just came to see if your mother had woken up. It just so happened that you came back, so he attacked you by the way."

On the other side, Huang Jingyuan failed the attack and felt a gaze focused on him.

At that moment, Huang Jingyuan was horrified and fled.

"Has she really woken up?"

Huang Jingyuan knew that it was too late. Since the Heavenly Cicada woke up and he hadn't found Xia Xiaochan, it meant that he had lost this battle with the Merman Royal Family.

Now, Xia Xiaochan had transcended the tribulation and become a king. Xia Hongzhu had awakened and her strength would recover sooner or later. And the An family would eventually have to face the revenge of the Merman Royal Family.

This matter was no longer something he, Huang Jingyuan, could control. When he came back this time, it should be time for the Soul Sealing World to be sealed.

Several hours passed.

In the Sea of Mist, Han Fei said, "When the healing divine light descends later, feel if your damaged foundation is recovering."

Buzz!

As Han Fei activated his Great Dao, the Heaven Enlightenment Divine Technique descended, and a healing pillar of light fell from the sky. "Hum "

Han Fei's current lifespan had exceeded a hundred thousand years. This Heaven Enlightenment Divine Technique consumed a thousand years of his vitality and smashed down crazily.

How terrifying was Han Fei's current thousand-year vitality?

One breath.

Two breaths.

Three breaths.

In the eighth second, Xia Xiaochan suddenly said, "My foundation is recovering... No, there is still a trace of god's blood in me!"

While Xia Xiaochan was shocked, Han Fei was also shocked. He couldn't help but ask, "But hadn't you returned it?"

Xia Xiaochan said, "I don't know. It grew from my own blood. There's only a little of it. Maybe it grew because of your Heaven Enlightenment Divine Technique."

Han Fei said, "Then continue to recover and see if you can recast the god's blood."

The Heaven Enlightenment Divine Technique that was injected with a thousand years of vitality only lasted for about twenty seconds. It was supposed to make up for Xia Xiaochan's foundation, but it accidentally gave birth to a little bit of god's blood in Xia Xiaochan.

Han Fei estimated that this might be the regeneration of the god's blood in Xia Xiaochan's body. After all, was the god's blood always only one drop?

Xia Xiaochan wasn't a king before, so she couldn't make it. But now, Xia Xiaochan had already reached the Sea Establishment realm and had had the god's blood for so long. She should be able to give birth to some of it.

Twenty seconds later, Xia Xiaochan said, "The god's blood has recovered less than one-tenth."

Han Fei gritted his teeth. "It doesn't matter. Let's continue. You can't give up the blood of a god so easily."

Han Fei was excited. This was equivalent to creating a god! Just look at Xia Hongzhu. A drop of divine blood was the root of her recovery. And back then, all her blood was divine blood, so it could be imagined how terrifying her strength was.

If Xia Xiaochan could recast this drop of god's blood, she would be the second Xia Hongzhu.

Oh, no, maybe even stronger than Xia Hongzhu, because in Xia Xiaochan's bloodline, there was also the Heavenly Cicada bloodline of the An family. To be able to take a place in the outside world, control the Soul Sealing World from a distance, and command Sky Openers, the An family was definitely not simple.

Therefore, when the Heaven Enlightenment Divine Technique descended one after another like a snowball, Han Fei finally made up for Xia Xiaochan's injuries after consuming about 12,000 years of vitality. And under the effect of the crazily-cast Heaven Enlightenment Divine Technique, about 60% of the blood of a god was reproduced.

Xia Xiaochan said, "Don't use the Heaven Enlightenment Divine Technique anymore. My foundation has been restored, and the effect of the Heaven Enlightenment Divine Technique is not great anymore. Now I can only nurture the growth of the god's blood through my own growth."

Han Fei was slightly relieved. "That works too."

And Han Fei's real thought was, "As expected of the blood of a god. I haven't even recast a drop of god's blood after consuming more than ten thousand years of vitality. I have to become a god."

### **Chapter 1976 Time Fishing Technique**

More than seven months passed.

In Han Fei's Origin Sea.

Crack! Boom...

A Sea Quelling Bizarre Treasure-level hammer was completely destroyed in Han Fei's hand.

"Bah!"

Han Fei spat and put away the broken Sea Quelling Bizarre Treasure hammer. Anyway, after he tempered it with the Demon Purification Pot and added some new materials, a new hammer would be refined.

The old turtle said, "This is the fifth Sea Quelling Bizarre Treasure-level hammer you have broken in the past dozen years. With the consumption of forging five hammers, you can throw the Gravity Origin Magnet into the calabash to forge it."

Han Fei shook his head and looked at the Gravity Origin Magnet in front of him that had at least 30% of its impurities removed. "There's no need. In the past dozen years, I haven't really been forging. I've been cultivating. Old Man Taiyuan is known as the strongest body refiner in the Raging Sea. Heh, if we were in the same realm, I could've hammered him to death now. Besides, this Gravity Origin Magnet is too heavy and inconvenient to use. It's not bad for forging."

The old turtle said, "If you have the time to temper your body, you might as well think about how to study your Great Dao. Your Origin Great Dao can only increase your strength less than two times now."

Han Fei said, "I've got some clues now. I'll explore it a few more times when I'm free. Oh, is it getting closer and closer to the opening of the Monarch Palace?"

The old turtle said, "There are still three months in the outside world."

Han Fei twisted his body and scanned the Origin Sea with his perception, only to see that Xia Xiaochan was cultivating on the Ice Snow Lotus Throne on a snow mountain.

"Girl! It's about time. We should go out."

.....

Xia Xiaochan slowly opened her eyes and got up. "It took me more than a decade to expand my Origin Sea by only more than 2,000 kilometers. My Origin Sea is still smaller than 8,000 kilometers now. How can it be as easy as you say?"

Han Fei said with a smile, "Be content! Ask Tang Yan and Cao Tianzhi how big their Origin Seas are. Even Queen Life's Origin Sea is not as big as yours. And in a dozen years, you have expanded it by more than 2,000 kilometers. It's already not bad."

Xia Xiaochan curled her lips and said, "My Origin Sea is bigger than theirs because the heavenly tribulation I transcended was stronger and I consumed more resources. Alas... Forget it. It seems that ascetic cultivation is not a long-term solution. It's indeed time to go out."

Yin-Yang World.

When Han Fei and Xia Xiaochan came out, they found that only Queen Life was there. The others, including Zhang Xuanyu and the others, had run away. God knew where they went.

However, they should still be within a few million kilometers. After all, the Seaborne Prairie was no larger than 8 million kilometers. It was not easy to get lost in this range.

They must have gone to the vicinity to gain experience or search for treasures.

One of the benefits of the Seaborne Prairie was that it had abundant resources. Those Venerables wouldn't compete with ordinary people for resources, so they needed to expand their territory.

As for Queen Life, she was quiet and didn't like to fight. Besides, Han Fei scanned around with his perception and saw an acquaintance. Queen Life had found the original body of the Water Immortal, who was cultivating with Bai Suzhen now!

Han Fei was lost for words. How much did Mu Wuhua like to be a teacher?

Seeing that she couldn't find anyone, Xia Xiaochan said, "Fortunately, no one is here!"

Han Fei said, "They should have gone to the surrounding area to hunt for treasures. The Yin-Yang World and the Water-Wood World have been established here for too short a time and have a lot of things to do. As strong masters, it's normal for them to explore the surrounding area. Why don't you go find them and bring them back?"

Xia Xiaochan was puzzled. "Then what are you going to do?"

Han Fei smiled. "Before I explore the Monarch Palace, I need to improve my technique."

The effect of the seventh level of Void Fishing, Void Descending, was just ordinary to Han Fei.

Even now, the range of the Void Descending Technique couldn't exceed the entire Seaborne Prairie. The only good thing was that Han Fei could now summon four king projections.

Perhaps this was the most powerful part of the Void Descending Art. If it were an ordinary projection, it would either only exist for a short period of time, or it wouldn't be so many.

It was rare that one could project four king-level projections at the same time like Han Fei. Han Fei suspected that no one else could do such a thing in the Raging Sea.

Of course, although it was good that the king-level projections could exist forever, projecting them would weaken the power of the original body. This was an indisputable fact.

Therefore, for Han Fei, the Void Descending Technique was relatively useless. Perhaps it would be better after he reached the Sky Opening realm.

Now, he was already a rare powerhouse in the Sea Establishment Realm, and he hadn't cultivated the eighth level of Void Fishing since he found it in the Supreme Mystic World.

The main reason was that he was too weak at that time, so it was not easy for him to cultivate it.

But now, Han Fei felt that he was strong enough. He looked at his information to confirm it again.

Owner: Han Fei

Level: 95 (Sea Establishment)

Bloodline Ranking among the Clans in the Infinite Ocean: the 980,006th

Chaotic Qi: 31,011 wisps

Spiritual Power: 8,066,65

Perception range: 850,000 kilometers

Strength: 2,902,65 Waves

First Spiritual Heritage: Unknown

Second Spiritual Heritage: Unknown

First spiritual beast: Twin Yin-Yang Spirit Swallowing Fish (level 88)

Second spiritual beast: Emperor Sparrow (level 91)

Main Art: The Seventh Level of Void Fishing, Void Descending Art (King Level, Divine Quality)

Now, even with pure strength, there were very few people in the entire Raging Sea who could resist him head-on.

If he activated the Great Dao, activated the Invincible Eye, and used the Dharma Idol,

Han Fei believed that he could at least withstand one or more attacks of a Sky Opening realm cultivator.

Han Fei was very satisfied with his growth. The only thing he was dissatisfied with was his research on his Origin Great Dao.

Originally, if he could comprehend what the Origin Great Dao was at a deeper level, once the Great Dao was activated, Han Fei was confident that he could fight a Sky Opening realm powerhouse.

But some things couldn't be figured out even if he racked his brains if he didn't find the knack.

At this moment.

He asked Xia Xiaochan to find the others and found an empty place. With a thought, he held the Void Fishing Technique that he hadn't looked at for a long time.

When Han Fei immersed his perception into the book and read it, he was stunned.

"Hiss! Time Fishing Technique?" In theory, the Time Fishing Technique should be a Sky Opening realm technique, so when he was in the Venerable realm, although Han Fei got it, he didn't look at it.

Now that he felt that he could unleash a Sky Opening realm blow and had to go to the Monarch Palace, he remembered it and wanted to upgrade his technique.

But it seemed that this technique was a bit exaggerated! This was because from the cultivation information of this technique, it turned out to be a technique to fish in time.

When Han Fei saw how the technique worked, he was shocked to find that this technique could not only break the river of time, but also fish for specific things in time.

Han Fei knew the Great Dao of Time himself, but the eighth level of the Void Fishing Technique was a technique specifically for the Great Dao of Time. It could break into the river of time and fish whatever one wanted from history. However, the longer the time, the more difficult it was, and the lower the success rate.

However, what Han Fei knew was that it was impossible for ordinary people or with ordinary means to break through time.

For example, the only thing on him that was not afraid of the power of time was the Blade of Hope, which could ignore the existence of time.

However, the Time Fishing Technique could resist the power of the river of time through a strange mechanism. And being able to resist the power of the river of time meant that by cultivating this technique, his original body could actually step into the river of time.

Of course, like fishing, it was still a mystery how far he could cross. However, this meant that he had the ability to enter the river of time for a longer time.

As for Time Fishing, it was still a bit mysterious. Han Fei planned to try it first.

However, this time, there was no need to deduce the time fishing technique. Han Fei felt that if he just cultivated it, he wouldn't need to experience the baptism of lightning tribulation. Therefore, he didn't take it seriously and began to circulate his technique.

However, at the beginning, there was no problem, but the way the technique operated was a little strange. It turned out to be a reverse circulation. In an instant, it triggered the other levels of the Void Fishing Technique that Han Fei had once learned. Instantly, all the cultivation techniques in his body circulated in an abnormal form.

Even the current Han Fei felt a strong stabbing pain in his meridians, and his body was convulsing because of the reversal. But fortunately, his current strength was enough to deal with all this

Rumble! Rumble!

When he finished operating the technique in his body, he saw thunder rumbling in the sky, clouds gathering, and heavy rain falling.

Boom!

Without giving Han Fei much time to think, a shocking bolt of lightning struck down at Han Fei.

Even though Han Fei was already at the mid-level of the Sea Establishment Realm and his strength might have reached a terrifying level, he still staggered.

“Wait, does it have nothing to do with deduction?”

Han Fei was shocked. He suddenly had an inexplicable guess. Last time, he was struck when he deduced the technique, but this time, he was struck by lightning when he was cultivating it. Why?

“Is it because lightning will strike as soon as the technique appears?”

Han Fei felt that it was very likely so. The Great Dao here didn’t allow such a powerful technique to exist.

However, a mere lightning bolt couldn’t hurt him now.

Han Fei shouted in a low voice, “Yin-Yang Millstone...”

### **Chapter 1977: Heaven-Defying Fishing Technique**

Boom! Boom! Boom!

Han Fei didn’t expect to be struck by lightning, so he wasn’t prepared.

However, with Han Fei’s current physique, the seemingly terrifying lightning not only failed to injure him, but also sent him extremely pure lightning power.

After being absorbed by the Yin-Yang Millstone, the power of lightning turned into purer power that seemed to have the power of Dao runes. It swept through his body, and the tempering effect on his flesh and soul made Han Fei feel dizzy.

As it happened, this pure power could help him easily break through this complicated reversal, one cycle after another.

This was because in the lightning baptism, Han Fei didn’t need a massive amount of energy to temper his body like before, nor did he have to risk his life to withstand it.

Therefore, this time, Han Fei simply took advantage of the operation of the technique to see how to fish and how far he could fish with the so-called Time Fishing Technique.

Han Fei had a bold guess. Could he fish out some ultra-quality divine pills or some ultra-quality spiritual fruits that even he wanted?

Because this needed to be done through the river of time, Han Fei certainly wouldn’t grab it with his hands. This was why it was called the Time Fishing Technique.

Only then did Han Fei take out the fishing hook that he hadn’t used for many years and throw it out with the power born from the reversal. The moment the fishing hook was thrown out, a small blue light hole appeared not far away from Han Fei.

Han Fei wanted to fish out a level-seven Soul Subduing Pill. When he felt resistance from his hand, his eyes lit up. “Do I really fish it?”

He suddenly retracted his fishing rod and pulled out a red pill from the blue hole. Because of the strange spiritual energy produced by the reversal, the thing he pulled over wasn’t damaged or expired.

“F\*ck! Can I really catch one?”

.....

The old turtle was confused and couldn't help asking, “Where did this pill come from?”

Han Fei said, “I'll tell you when I figure it out.”

Han Fei stuffed the Soul Subduing Pill into his mouth without hesitation. Although it was a Soul Subduing Pill, this pill could nourish the soul and tranquilize the soul. Not only could it resist soul attacks, but it could also help him quickly comprehend the Dao.

After Han Fei finished eating, almost immediately, he felt that his soul was refreshed. This made his eyes widen. “Useful? This is really useful!”

Han Fei couldn't help being shocked. If this could be done, wouldn't he be able to keep fishing and eating pills?

When Han Fei tried again but failed, he realized that although this was something from the river of time, the time node of his existence was fixed. It seemed that he could only fish once.

Han Fei tried a few more times but still failed to catch any. He wondered if the Soul Suppressing Pill no longer existed after he finished fishing the things on that node.

Han Fei couldn't help but think, Huh! If I catch the things of the past, will the things of the present disappear?

Han Fei thought of something familiar that he had obtained but hadn't used yet, and then his heart stirred.

He threw the fishing pole again and retracted it when he felt resistance. This series of actions was done in one go as skillfully as fishing.

However, this time, when he hooked his fishing pole over, he caught nothing.

“Huh? Didn't catch anything?”

Han Fei tried again but didn't catch anything.

After trying five times, Han Fei finally dragged back an earthen yellow crystal with his fishing hook. It was the Mystic Yellow Stone that Han Fei had once obtained from the Land of King Death.

He had basically used most of the other resources he could use. This Mystic Yellow Stone could be used as the key to open the Mystic Yellow Stone, so Han Fei certainly wouldn't use it.

Han Fei grabbed the Mystic Yellow Stone and scanned his Origin Sea with his perception, only to find that none of the thirteen Mystic Yellow Stones in the Origin Sea was missing.

“Hiss! The two can exist at the same time?”

While Han Fei was overjoyed, he suddenly sensed someone. He scanned around with his perception and found that it was Tang Yan.

Han Fei didn't want others to see him cultivating, so he put away his fishing pole and sat cross-legged to be struck by lightning.

When Tang Yan arrived, he was relieved to see that it was Han Fei. However, when he saw the endless lightning smashing at Han Fei, he was speechless. This scene looked familiar!

When Han Fei was still a Hidden Fisher, outside the Scattered Stars Island, he seemed to be struck by lightning because of some technique.

At that time, Tang Yan was curious and controlled the Cloud Whale to approach and give Han Fei a ride.

Now it seemed that the technique Han Fei practiced was extremely powerful and had been used all the way to the Sea Establishment Realm.

Seeing that Han Fei was unguarded, Tang Yan thought that since he was already here, he might as well guard him for a while.

Han Fei was speechless. Why do I need you to guard me? You're really looking for trouble. Now I have to cultivate hard.

However, the lightning lasted too long and was too powerful. After a while, Jing'er, Bear Handsome, and even Xia Xiaochan and the others arrived.

In such a short time, Xia Xiaochan hadn't had the time to find all of them, but Han Fei's cultivation technique attracted many people.

Seeing this scene, Zhang Xuanyu couldn't help but say, "Oh! Being struck again?"

Luo Xiaobai said, "Shut up!"

Luo Xiaobai was smart enough to know that there must be a secret behind the lightning strike. Han Fei had always been struck by lightning since he was young. It would be strange if there was no secret behind it.

Zhang Xuanyu and Le Renkuang looked at each other and shut their mouths.

However, Le Renkuang couldn't help but look at Xia Xiaochan as if to say that Xia Xiaochan must know it. He had always felt the lightning strike was strange since he was young, but now it seemed that only Xia Xiaochan knew this secret.

Seeing the eyes of Le Renkuang and the others, Xia Xiaochan was lost for words. I don't know anything either! I was struck from head to toe and couldn't move at all.

This was because Han Fei hadn't run very far in the first place, and the Time Fishing Technique this time was theoretically targeted at the Sky Opening realm. He could cultivate it now because his physique was extremely strong. Besides, the power of lightning was probably just because the Heavenly Dao didn't tolerate the appearance of the technique, so the lightning struck down. The Great Dao here probably had the mentality of trying to kill him but it was alright if it couldn't kill him.

However, the noise was still too loud. It would probably attract everyone over later.

Finally, after Han Fei pretended for about half an hour, the lightning became less and less, and it seemed that it was about to dissipate.

However, Han Fei was surprised to find that the effect of the Soul Suppressing Pill was gone.

Not only was the effect of the Soul Suppressing Pill gone, but the power contained in the Mystic Yellow Stone had almost disappeared and cracks had already appeared on it.

“Huh? Time Fishing is time-based?”

However, when Han Fei found that the Soul Suppressing Pill and the Mystic Yellow Stone became useless, he wasn't very sad. Instead, he was relieved. How could there be such a terrifying technique as the Time Fishing Technique in this world? If everything could be caught from the river of time, wouldn't there be endless resources?

However, even so, Han Fei still thought that if it were under special circumstances, how could a resource like the Soul Subduing Pill be consumed in half an hour? After all, when transcending the tribulation, it might only take a few seconds for its power to be exhausted.

Although Han Fei still wanted to try the Time Fishing Technique, there were too many people around. He might as well try it when no one was around!

Han Fei suddenly rose, shattered some milky impurities on his body, and then looked at the crowd.

“Why are you guys here?”

Tang Yan said, “The weather is abnormal, and the surrounding spiritual energy is flowing here crazily, so I came to take a look.”

Jing'er said, “We're guarding you.”

Many people looked at Jing'er. With the rumbling lightning just now, there was no need for them to guard him. Even if there were Kings hiding in ambush around, they might not dare to go up to resist the lightning.

Han Fei thought for a moment and said, “Since you're all here, gather all the Half-Kings of your races later. We have something important to discuss.”

Everyone knew what was going on. When Xia Xiaochan came out, they knew that Han Fei must have come out too. And Han Fei coming out meant that the Monarch Palace was about to open.

Although the people here didn't know what kind of place the Monarch Palace was and how many opportunities there were in it, they knew that it was very dangerous in the Monarch Palace, so they had to be careful.

Bear Handsome laughed. “Then I'll go back first. Serpent Mengyue and the others have been waiting for this day eagerly.”

Luo Xiaobai and the others were all shocked. It had been decades since Han Fei had led them to the Raging Sea and Han Fei had been using all kinds of resources on them. They were at least advanced Venerables now. More than half of them had already broken through to the Half-King realm in this year.

Two hours passed.

Thousand Star City, Central Holy City.

From the Demon Beast Union, the Forest of Terror, the Cloud Sea Divine Tree, and the Yin-Yang World, a total of 43 Half-Kings, including Song Kaiyuan and the others, were all gathered here. This didn't include Ren Tianfei. This old guy had recovered his strength quite quickly these years, so it was only a matter of time before he became a king again. And once Ren Tianfei became a king, his strength would definitely not be weak, so Han Fei didn't call him this time.

In addition to these Half-Kings, Queen Life and the others were also here.

Han Fei stood on the tower and said solemnly, "You should know what I'm going to say. I called you here today to see how many people don't intend to go. I'll also tell you very clearly that according to the information I know, the probability of death in the Monarch Palace is about 90%. In other words, it's really a place of death. Because of the exploration in the past tens of thousands of years, all the relatively safe opportunities in the periphery of the Monarch Palace have been taken. Those who haven't been taken are very dangerous. Therefore, it's entirely up to you whether to stay or go..."

Zhang Xuanyu said, "We'll definitely go there. It'll be boring for you to explore the secret realm alone, won't it?"

The Insect King stepped forward. "I've found my Dao. I've waited too long for this opportunity."

Serpent Mengyue said, "I've been training for so long and suppressing my cultivation every day. I've been waiting for today."

Zi Luo said, "When we reach the Raging Sea, I think Sea Establishment is not the end of my road. I must go to the Monarch Palace."

### **Chapter 1978 Patriarch, Don't Worry**

None of the people who came to the Raging Sea with Han Fei were going to flinch.

From the moment they entered the Raging Sea, Han Fei had already told them their purpose of training. Didn't they cultivate almost tirelessly to this day just to go to the Monarch Palace?

This meant that Han Fei had already placed the opportunity in front of them. Although they might die, so what? If they took a risk, they would have a chance to become a king. Becoming a king! That was something many people had never thought of in their lives.

Back then, a fake king-level Black Evil Conch King had terrified countless people. In history, many people had chosen to break through to the Sea Establishment realm in the Yin-Yang World and the cage. At this moment, how could they flinch?

However, not everyone among these people wanted to take the risk. For example, the sea bamboo man from the Forest of Terror said, "Master Human King, I'm too old. Although I think I'm not weak, I'm afraid I can't keep up with the Half-Kings in the Raging Sea. Therefore, I'll just stay at home!"

A few Insect Queens said, "Master Human King, after we adapt to the new environment, we find that the Raging Sea can let us shed our shells again to increase our bloodline and life potential. We want to continue to accumulate strength."

On the Demon Beast Union's side, Golden Tiger shouted, "We're not afraid. Anyway, we'll die sooner or later. If we don't fight now, when will we? When I return as a king and cultivate for tens of thousands of years, I might be able to reach the Sky Opening Realm. We didn't even dare to think about it before."

Elephant Dun Dun: "Old Golden is right. I didn't even dare to think about such an opportunity when I was in the cage. How can I miss it?"

Tian Jiu said, "If I go, I will definitely become a king." Everyone from the Demon Beast Union was going, but the Forest of Terror was much more conservative. There were only Zi Luo and the Void Vine who would be going. As for the Void Vine, it hadn't broken through to the Half-King realm and was only at the peak of the Venerable realm. However, because of its special characteristics, its survivability was extremely strong, so it was prepared to take a risk this time.

In the end, Han Fei glanced around and saw only 32 people left. In other words, 11 people didn't intend to go to the Monarch Palace, but this was what Han Fei expected.

Originally, the people from the Yin-Yang World and the Water-Wood World had only come to the Raging Sea for less than a year, and not many of them had grown up. Those who had great potential had been taken away by him to the Raging Sea to gain experience, so those who chose to stay now, although they had become Half-Kings, were either old people like the Sea Bamboo Man or Queens Insect who could continue to become stronger here.

Han Fei didn't dwell on this question. With swishes, he threw out an ancient object to each of them. Some were incomplete weapons, some were rotten wood, and some were stones. They were all things that had once existed in the Monarch Palace.

Han Fei said, "These things have the aura of the Monarch Palace. They are all the keys to enter the Monarch Palace. Keep them. We'll set off in the next few days."

.....

At this moment, Song Kaiyuan cupped his hands and said, "Master Human King, are you free later?"

Han Fei nodded slightly. "You guys stay. The others can disperse first."

With that, Han Fei looked at Queen Life and the others. "You guys stay too!"

A moment later.

After the others left, Han Fei looked at Song Kaiyuan and the others and said, "The Supreme Clearness World is suppressing your four palaces in order to cut off your path to becoming kings. I can only try, but I'm not confident. Otherwise, the Yin-Yang World and the Water-Wood World wouldn't be hiding here. I've already conquered the Infinity World and the Supreme Clearness World. I'll make arrangements in the next two days. You just need to wait for news. Go back first!"

Song Kaiyuan cupped his hands. "Thank you, Human King."

As early as when Han Fei faced the kings and several Sky Openers alone and saved the Yin-Yang World and the Water-Wood World, Song Kaiyuan and the others knew that Han Fei could not be described simply as the so-called Heavenly Talent. It required luck, potential, opportunities, talent, and other characteristics to have an extremely low chance to become a person like Han Fei.

After Song Kaiyuan and the others left, Han Fei said to Queen Life and the others, "If my guess is correct, I won't be the only King going to the Monarch Palace this time. There are too many old kings in the Raging Sea, including from the Thirty-Six Mystic Worlds, hundred demons, undersea humans, and even the Merman Royal Family. For tens of thousands of years, many people became kings nearly a hundred thousand years ago. Even if some of them died, this number is probably half a hundred. But you are different. You have just entered the Sea Establishment Realm and still have tens of thousands of years to live. My suggestion is that you'd better not go."

Jing'er was surprised. "Then won't you be targeted if you go alone?"

Han Fei said with a smile, "How many people in the Sea Establishment Realm do you think can do anything to me? Besides, it's not like our Yin-Yang World doesn't have any allies. More importantly, your strength is still too weak. Without resources for a long time, even if you become kings, your strength won't be too strong. If you go to the Monarch Palace now, it's basically equivalent to suicide. The probability of a king dying is not much lower than a Half-King."

Bear Handsome: "So, if we go in, I'm afraid it won't be easy for any of us to survive. If that's the case, I, Old Bear, haven't lived long enough. I'm not going."

Jing'er said, "I'm not going either. Who will want to seek death?"

Tang Yan, Cao Tianzhi, and Queen Life also shook their heads. Even for Queen Life, the path to becoming a king had just begun. She had never reincarnated before, so she still had a lot of time.

In the temple in the Central Holy City, Ren Tianfei was extremely distressed. Should I go or not? If I don't go, I'll return to the Sea Establishment Realm in ten years at most. If I go, with my physique, I should be able to come out alive. However, I've lived for too long. Why don't I go there to have a try?

As soon as Han Fei persuaded Tang Yan and the others, he heard Ren Tianfei muttering.

Han Fei couldn't help but ask, "You're about to become a king, and your strength is at least among the tops in the Raging Sea. Why are you going there?"

Ren Tianfei said, "I'm not becoming a king, I'm recovering. My lifespan is about to end. I only have ten thousand years at most. Why don't I make a bet?"

Han Fei said, "Don't you know what it's like in the Monarch Palace? Do you think it's necessary? If you go, it might not even be ten thousand years. If you don't go, you still have ten thousand years. If I can open the sky and achieve longevity, you might have a chance to become an emperor." The more Han Fei said so, the more determined Ren Tianfei was. He immediately got up and said, "No, I have to go too. Now that you have reached the Sea Establishment Realm and can escape from the hands of Sky Opening Realm cultivators, how can I lag behind? I have to carve out my own path and can't just idle around... Yes, I have to go too."

Han Fei curled his lips. "I wanted to teach you the Purity Mystic Body, but you refused. If you accept it, you will definitely make rapid progress in the Sea Establishment Realm."

Ren Tianfei shook his head. "What I want to walk is my own. Do you think all I have is the Indestructible Body? Since I've created this path, even if it's not strong now, this is my path. I have a feeling that after this technique, there will be more mysteries that I need to deduce. Needless to say, I have to go this time..."

Han Fei was speechless. You've already mastered the Indestructible Body! You can't cultivate it anymore...

However, seeing that Ren Tianfei was so persistent, Han Fei didn't stop him. As he said, Ren Tianfei might not be the strongest in the Sea Establishment Realm, but few Half-Kings could surpass him.

Forbidden Island.

After leaving the Central Holy City, Han Fei came here immediately.

When Han Fei came, Golden Boy and Jade Girl who were in Death Valley had already noticed him.

Except for Golden Boy, in fact, all the undead in the Immortal City of the human race were here. Perhaps they also knew which force they represented and what was behind the undead, so when the Yin-Yang World and the Water-Wood World returned to the Raging Sea, they spontaneously gathered here.

Han Fei glanced at the grassland and saw a deserted tomb through the array.

Han Fei couldn't help sighing and came to Death Valley in a few steps. "Senior Zhao hasn't come out of seclusion yet?"

Golden Boy said, "Greetings, Human King. Master might be teaching his disciple what he has learned in his life. That child is very lucky. You don't have to worry about him. Even if Master comes out of seclusion, he can't shake the current Yin-Yang World and Water-Wood World."

Han Fei said, "Of course I know. It's just a pity that Senior Zhao is actually not dead, nor is he an undead creature. If he can regain consciousness, he will be the master of the Dragon-Subduing World again and restore his extraordinary strength."

Golden Boy said, "Unfortunately, Master is too persistent."

Han Fei said, "I can try, but whether it works or not depends on luck. By the way, why do all the undead gather here? Do you have nowhere to go?"

Golden Boy shook his head slightly. "No, this Death Valley actually leads to a secret place. We didn't leave yet because we hope to leave after Master is freed."

Han Fei looked back, only to see that Patriarch Thug, Li Daxian, had stepped onto this island.

Han Fei couldn't help narrowing his eyes. "Patriarch, what are you doing?"

Li Daxian said, "Han Fei, my body can't withstand the undead energy and has been corroded, but this made me stronger. Now, I can't change my fate of becoming an undead creature, so I can only be an undead creature forever."

Han Fei couldn't help frowning. "No solution at all?"

Li Daxian shook his head slightly. "Hehe! Don't worry. Undead creatures are known to be undead. Maybe we'll meet again someday."

Han Fei couldn't help looking at the dark passage in Death Valley, wondering where it led to. Was it the legendary Immortal Temple?

Unfortunately, Han Fei knew that with his current strength, he wasn't qualified to solve these mysteries.

He said, "Patriarch, don't worry. Pure Sun Dao Palace will eventually return."

### **Chapter 1979 Zhao Xianglong Came Out**

Undead creatures had always been a mystery, and this mystery might only be known when he entered the Void Temple and became an official disciple.

Thinking about this now was too early.

Patriarch Thug, Li Daxian, had once suppressed the Thousand Star City alone. He was a legend of an era. Although he was leaving, perhaps there was still a chance for them to meet again, so Han Fei wasn't sad.

After Li Daxian entered the barrier, Han Fei said to Golden Boy, "I'm here to take Senior Zhao Xianglong to the Dragon-Subduing World. Do you have any objections?"

Golden Boy grinned. "Of course not. I've guessed more than once what the current Dragon-Subduing World will be like. If Master sees the current Dragon-Subduing World, will he regain consciousness? Thank you, Human King. If my master recovers, Golden Boy will never forget your grace."

Han Fei nodded slightly. "OK!"

After speaking to Golden Boy, Han Fei went to the grassland. He had a purpose to take Zhao Xianglong back to the Dragon-Subduing World.

Now, the Supreme Clearness World had surrounded the four palaces of the Sword God with the Golden Crow World, the Dragon-Subduing World, and the Dream Weaving World. Sha Zhimeng of the Dream Weaving World had returned, and the Golden Crow World had long submitted to the Supreme Clearness World. Only the Dragon-Subduing World shouldn't be involved in this matter.

At least, from what Han Fei knew after meeting the people from the Dragon-Subduing World, the people from the Dragon-Subduing World didn't have a good impression of Supreme Clearness and Infinity.

According to Song Kaiyuan's understanding, the Dragon-Subduing World was actually forced to do so. Although they had kings, they weren't strong enough, and because they didn't have sky openers, they couldn't resist Supreme Clearness and Infinity at all. And because the Dragon-Subduing World wasn't weak, they would inevitably enter the vision of Supreme Clearness and Infinity. Who didn't want such a lackey?

Therefore, it was still a mystery whether the Dragon-Subduing World really wanted to besiege the four palaces of the Sword God.

Therefore, Han Fei planned to take Zhao Xianglong to the Dragon-Subduing World. With his current strength, no one in the Dragon-Subduing World should be able to do anything to him. As for what would happen to Zhao Xianglong, it would depend on Zhao Xianglong's own luck. If he recovered his consciousness, he might affect the Dragon-Subduing World's attitude.

Of course, if it was just to force the kings of the Dragon-Subduing World to return, it was actually not difficult, just like how he dealt with the Dream Weaving World.

.....

Han Fei took Zhao Xianglong with him because he wanted to try to find another ally.

On the grassland, Han Fei stood there. As if discovering a strong master had come, the deserted tomb appeared directly on the grassland, as if it was looking at Han Fei.

Han Fei said, "Senior, I'm Han Fei. Do you want to go home? I'm talking about... the Dragon-Subduing World."

Buzz!

A hole appeared in the deserted tomb. There was no telling if Zhao Xianglong was interested in Han Fei's words, but Han Fei just greeted him symbolically and said, "Senior, I'm going to break this array. Stay back."

Seeing that there was no response from the deserted tomb, Han Fei extended his hand and pointed, and All Great Daos in One Sword burst out. As soon as this sword appeared, the periphery of the grassland appeared purple, and then a large amount of purple lightning tried to defeat All Great Daos in One Sword.

However, the current Han Fei was no longer an ordinary Venerable. And Han Fei's current attack, even without the power of his Great Dao, was not easy to block.

Ka ka ka –

In the void, some inexplicable cracks appeared. On the grassland, the arrays were collapsing, and many pillars revealed their original forms. There were tent-like array buildings that were also full of cracks.

Bang! Bang! Bang!

After about five seconds, almost the entire grassland collapsed, and the ground was cracking.

Roar!

In the deserted tomb, Zhao Xianglong seemed to realize something. The tomb suddenly opened, and the skinny figure burst out, punching at the almost broken array.

Crack! Boom ~

Whoosh!

The moment the array shattered, Zhao Xianglong opened his mouth and took a deep breath. The spiritual energy and energy within a thousand kilometers were continuously gathering.

Han Fei was not stingy. He casually threw out more than a hundred thousand ultra-quality spiritual stones and tens of thousands of spiritual fruits.

“Huff!

“Huff.”

“Huff-“

Zhao Xianglong was swallowing crazily. His flesh and blood were growing at a visible speed, and Zhao Xianglong’s momentum was constantly increasing.

After only half an hour, Zhao Xianglong’s Sea Establishment Realm suppressing pressure was fully revealed.

Cracking sounds erupted from his throat. After another half an hour, Zhao Xianglong turned into a brawny middle-aged man with a square, masculine face, slightly dark skin, and a murderous gaze.

In the end, when he looked at Han Fei again, he seemed to recognize Han Fei and asked, “Dragon, where is the dragon?”

Han Fei said casually, “The dragon is in the Dragon-Subduing World.”

When Zhao Xianglong heard the words “Dragon-Subduing World”, the suppressing pressure from him was getting heavier and heavier. With a thought, Han Fei raised his hand to block, and Zhao Xianglong punched towards him. “Dragon-Subduing World, it’s those beasts who destroyed my Dragon-Subduing World.”

Zhao Xianglong was delirious and attacked Han Fei, which made Han Fei speechless. Do I look like a f\*cking dragon?

However, at this moment, Zhao Xianglong’s strength hadn’t fully recovered, so he posed no threat to Han Fei at all, so Han Fei easily blocked this blow.

However, just because Han Fei could block it didn’t mean that this blow was weak. Zhao Xianglong had been trapped in the cage for too long. During this period, Zhao Xianglong basically hadn’t eaten his fill and had basically starved himself to this point. Therefore, when Han Fei brought food to him, he was treated kindly and taught many great techniques because Zhao Xianglong lacked energy.

Now, Han Fei sensed the power of Zhao Xianglong’s punch and found that he was at least in the top thirty of the Sea Establishment Realm, and the void behind him exploded.

“Shoot, if this guy had been in the Raging Sea for 80,000 years, wouldn’t he have become an emperor?”

Han Fei’s heart did a flip. Although Zhao Xianlong posed no threat to him for the time being, he was definitely not weak. Han Fei estimated that when Zhao Xianlong fully recovered, he might have a chance to enter the top ten of the Raging Sea.

But at this moment, Han Fei didn’t move at all. Instead, he shook Zhao Xianglong back and said, “The Dragon-Subduing World has risen again. The crisis brought about by the dragon race has been resolved. Don’t you want to go back and see your people?”

When Zhao Xianglong heard this, the fist mark that was about to attack was stopped in midair and then gradually retracted. His eyes finally returned to some peace.

“Dragon Subduing, Peace, Peace?”

Han Fei said, “We’ll know if it has been pacified or not after we take a look. But as far as I know, although the Dragon-Subduing World has been pacified and resolved the problem of the dragon race, it is suppressed by the Supreme Clearness World and the Infinity World now.”

“Supreme Clearness... Infinity...”

Seeing that Zhao Xiang’s eyes were about to turn red, Han Fei couldn’t help but ask, “Huh? Senior, is this your disciple?”

Han Fei reached out and tried to pull the boy out, but Zhao Xianglong hurriedly slashed out and shattered Han Fei’s hand. Then he reached out and pulled the boy out.

Zhao Xianglong suddenly looked at Han Fei and growled as if warning him.

Wang Hai looked at Han Fei in surprise and then at Zhao Xianglong who was no longer a mummy. He didn’t know what was going on. Was his teacher fighting with this young strong master?

At this time, not far behind Han Fei, Golden Boy and the others had also rushed to the grassland. Not far away, Golden Boy and the others knelt on one knee. “Master, you’re finally back.”

Zhao Xianglong seemed to be thinking for a long time. No one knew how he remembered. After more than ten seconds, he asked, “Golden Boy?”

Golden Boy was overjoyed. “Master, it’s me. You’ve been trapped here for eighty thousand years. You have to go home. I heard that the Dragon-Subduing World still exists.”

Zhao Xianglong seemed to have a headache. He grabbed his hair and kept pulling it. “Are you dead?”

Golden Boy smiled bitterly. “Master, we are not kings. We couldn’t survive.”

Roar!

Seeing that Zhao Xianglong’s breath was unstable, Han Fei took out a pill reluctantly. This was a Soul Subduing Pill. He had given Xia Xiaochan three of them, and now there were only two left. He didn’t expect that he would have to give out another one now.

Han Fei thought to himself, If there weren’t so many people here, I could have caught a fake one to feed Zhao Xianglong!

18:

Han Fei hurriedly said, “Senior, this pill can relieve your headache. It’s a seventh-grade divine pill from the Medicine King World. Try it.”

When he threw the pill to Zhao Xianglong, the latter was not stupid. He could tell the quality of the pill. As if knowing that the effect of this pill was extraordinary, he directly stuffed it into his mouth.

In fact, Zhao Xianglong had been starving all these years. He didn't even dare to think about a level-seven divine pill. How could he, a delirious king, let go of such a high-level thing so easily?

Therefore, after this mouthful, the killing intent on Zhao Xianglong's body quickly settled down, and a normal color began to appear in his eyes.

Zhao Xianglong went crazy because he was too hungry and he was trapped here by the azure dragon and got too angry. However, he was a king after all. When his chaotic thoughts were suppressed, his consciousness would naturally return.

After a full minute, Zhao Xianglong opened his eyes again, looked around, and then looked down at himself.

"Where am I?"

"Golden Boy, have you switched to undead creatures?"

"Where is the azure dragon?"

Han Fei retreated, giving Zhao Xianglong and Golden Boy time to talk. However, he didn't know how long a Soul Suppressing Pill could last. He hoped that Zhao Xianglong's consciousness could return! Then it wouldn't be a waste of his effort to save him.

## **Chapter 1980 Dragon-Subduing World**

(1)

An hour later.

With Golden Boy's explanation and the increasing effect of the Soul Suppressing Pill, Zhao Xianglong roughly understood what was going on. Although his brain wasn't working so fast yet, at least he wasn't delirious anymore.

After all, the Soul Suppressing Pill was a seventh-grade divine pill. In the Raging Sea, it was a peerless treasure. If even this couldn't wake Zhao Xianglong up for a moment, this guy was probably hopeless.

After hearing Golden Boy's explanation, Zhao Xianglong cupped his hands at Han Fei. "Thank you, Brother. I'll remember your kindness."

Han Fei couldn't help taking a long breath. "Senior, don't call me brother. You are tens of thousands of years older than me."

Zhao Xianglong seemed to be sober at this moment, and he immediately said, "No, we are both in the Sea Establishment realm, so we should treat each other as equals. Besides, you are now the master of the Yin-Yang World, so we should address each other as equals. Brother Han, I already know the cause and effect. I know that I may only be temporarily sober, and it may take time for me to recover. In that case, while I am still sober, if Brother Han has anything to say, please tell me quickly."

Han Fei's heart did a flip. Wasn't the effect of this Soul Suppressing Pill too good? It actually woke up Zhao Xianlong who had been crazy for tens of thousands of years.

Han Fei immediately grinned. "In that case, Brother Zhao, please follow me to the Dragon-Subduing World."

Han Fei had planned to release Zhao Xianglong and trick him into going to the Dragon-Subduing World.

But now it seemed that he had thought too much. After all, A Sea Establisher was still a Sea Establisher. Even if he fell into madness, under the effect of the divine pill, his recovery and acceptance ability were still extremely strong

Although Han Fei didn't know if the Soul Subduing Pill could heal Zhao Xianglong, it would be fine as long as nothing went wrong recently.

Dragon-Subduing World.

.....

This was an extremely special one among the Thirty-Six Heavenly Palaces.

No one was willing to take the initiative to deal with the Dragon-Subduing World, because the Dragon-Subduing World had been fighting the dragon race. For the Raging Sea, if the Dragon-Subduing World didn't resist the mysterious dragon race, it might cause serious consequences.

Anyway, the people from the Dragon-Subduing World were experienced in slaying dragons, so under normal circumstances, they wouldn't make things difficult for the people from the Dragon-Subduing World.

At this moment, Han Fei and Zhao Xianglong had just arrived in the Dragon-Subduing World. Instead of barging in, they hid their strength and took a look at the current Dragon-Subduing World.

However, as soon as they came here, both Han Fei and Zhao Xianglong were fascinated.

It turned out that there was a huge vortex above the Dragon-Subduing World. Obviously, it was an entrance. As for where it led, Han Fei didn't know.

Zhao Xianglong said, "Huh? Is this the Dragon Domain? Why is the entrance of the Dragon Domain in the Dragon-Subduing World?"

Han Fei was lost for words. "You don't know?"

Zhao Xianglong shook his head. "When I left, the Dragon Domain had just appeared. This seems to be a battlefield that runs through the Dragon-Subduing World and the dragon race. I thought it was a place to capture dragons, so at the beginning, we captured many dragons from it. Later, when the Dragon Domain erupted, Sea Establishers surged out and slaughtered wantonly. After hunting many azure dragons, I didn't return to the Dragon-Subduing World."

Han Fei had seen some pictures on the grassland, which must have been specially recorded by Zhao Xianglong.

Back then, during the battle between the people of the Dragon-Subduing World and the dragon race, there were heavy casualties. The main city was about to collapse, and billions of creatures died. It was precisely because of this that Zhao Xianglong slaughtered dragons like crazy.

Of course, perhaps it was Zhao Xianglong's dragon slaying technique that saved the Dragon-Subduing World and laid the foundation for its recovery.

Han Fei and Zhao Xianglong looked at each other. Zhao Xianglong was puzzled for a moment and decided to ask someone. He didn't quite understand the current Dragon-Subduing World.

After all, Zhao Xianglong was once the master of the Dragon-Subduing World. He didn't want to mess with the kings of the Dragon-Subduing World the moment he returned home.

If Han Fei were alone, he might have started fighting. Then it would probably be another robbery.

For Han Fei and Zhao Xianglong, it was too easy to find someone. Han Fei directly used the Void Lines, and a Venerable "took the initiative" to find them.

Zhao Xianglong glanced at Han Fei. "Brother Han, is this a soul controlling technique?"

Han Fei said, "Sort of, but not dangerous. He will be safe."

The person controlled by Han Fei was a young man. When Han Fei looked at this person, he saw that the young man's pupils were dilated. If it weren't for the fact that he couldn't speak now, he would have exclaimed.

Han Fei said, "I'll let you go, but don't shout. You should know that it's impossible for you to escape from me."

As Han Fei let go, the young man immediately said with a black face, "Demon Han, I won't say anything. The Dragon-Subduing World is not the Dream Weaving World where you can trample as you please."

With that, the young man tried to blow himself up. Han Fei speechlessly slapped his shoulder, making him stagger. The power he had just accumulated was instantly shattered.

Zhao Xianglong couldn't help but look at Han Fei in surprise. Demon Han? This name...

Han Fei said indifferently, "You want to blow yourself up in front of me? Who gave you the courage? Answer whatever I ask you next. Otherwise, I might really come to cause trouble for your Dragon-Subduing World."

Seeing that he couldn't even blow himself up, the man didn't know what to do. Only then did he notice Zhao Xianglong beside him. However, when he saw Zhao Xianglong, he immediately flew into a rage. "Hey! Demon Han, do you really think I, Zhao Feiyu, am a coward? Not only do you want to conquer the Dragon-Subduing World, but you also pretend to be our ancestor. You're too much. Even if I die today, I won't say a word to you."

Han Fei looked at Zhao Xianglong in surprise and then at Zhao Feiyu. "Do you know him?"

Zhao Feiyu snorted. "Of course. Our ancestor was the first master of the Dragon-Subduing World, the first dragon slayer. He once saved tens of thousands of people from fire and water, attacked the Dragon Domain, comprehended Mystic Yellow, and created the Mystic Yellow Dragon Slaying Dao. Who doesn't know that? Now, our ancestor's statues are still standing on the islands of Dragon City. How dare you use our ancestor's face to deceive us? You're too much."

Han Fei and Zhao Xianglong looked at each other. When they came, in order to avoid being discovered immediately, they didn't perceive the entire city.

Now that Zhao Feiyu said that, Han Fei felt that Zhao Xianglong seemed to be quite famous. He had thought that no one would remember him after he left for 80,000 years, but he didn't expect that there were still statues of him everywhere.

Then he found that Zhao Xianglong's face was red and he seemed a little guilty. Han Fei thought to himself, It seems that Zhao Xianglong made the Dragon Domain thing, right? Good lord, ordinary people don't know that and treat him as a hero, but only Zhao Xianglong knows that although he tried his best to make up for it, he still couldn't save the lives of billions of people in the Dragon-Subduing World.

Han Fei couldn't help but say, "Old Zhao, you didn't do those things on purpose. I think you should be more optimistic. Look, isn't the Dragon-Subduing World fine now?"

Zhao Xianglong sighed. "Alas..."

With that said, Zhao Xianglong looked at Zhao Feiyu and said, "Tell me, why did the Dragon Domain appear in the outside world? And why did the entrance become so big? Wasn't the entrance to the Dragon Domain sealed into the Heavenly Palace?"

Zhao Yufei couldn't believe that they didn't know what even a few-year-old child knew.

He said, "The Second Patriarch of our Zhao family, Zhao Zilong..."

"Pfft!"

Han Fei burst into titter and asked, "Do you know Guan Yu?"

Zhao Feiyu frowned. "No."

Han Fei asked, "What about Liu Bei?"

Zhao Feiyu said, "I don't know him. Let me tell you, our Second Patriarch is still alive. In the entire Raging Sea Sea, our Second Patriarch is ranked third, only after Yun Tianhe of the Infinity World and Chen Fenghuo of the Chaos World. He is several times stronger than Wan Qingling who was killed by you."

Zhao Xianglong couldn't help looking at Han Fei. "Brother Han killed Wan Qingling?"

Han Fei was stunned for a moment. "Why, does Brother Zhao know her?"

Zhao Xianglong nodded slightly. "This woman is not weak, but her comprehension ability is a little low. I didn't expect her to have died."

Seeing the two of them putting on an act in front of him, Zhao Feiyu said, "Also, our Dragon-Subduing World is different from the Dream Weaving World. We don't rely on Supreme Clearness and Infinity. Therefore, we actually have no grudge with your Yin-Yang World."

Zhao Feiyu didn't want to die! He didn't want Han Fei to cause trouble. Of course, he knew that Han Fei's purpose was probably to threaten their strong masters besieging the four palaces of the Sword God to return.

Therefore, he wanted to ease the relationship with Han Fei first and express that they were actually not enemies.

However, what he didn't know was that Han Fei didn't intend to attack the Dragon-Subduing World in the first place. Han Fei couldn't help but say, "Let's talk about it when your master comes back."

However, Zhao Feiyu immediately said, "Our palace master is right in the city to prevent what happened to the Dream Weaving World from happening again."

"Huh?"

Zhao Xianglong's eyes lit up. "You said that Zilong is in the city?"

Zhao Feiyu's heart skipped a beat. This liar's eyes are so bright. It's over. He came with Han Fei, which means that he's not weak. I heard that Han Fei betrayed the human race. Is he a strong master of the Merman Royal Family? Are they here to hunt Second Patriarch?

Han Fei said, "Take us to see the Second Patriarch of the Dragon-Subduing World."

Zhao Feiyu said, "That's impossible... Roar..."

Zhao Feiyu's soul was controlled again, and then Han Fei said, "The Zhao family is the Dragon Slaying Holy Land in the middle of Dragon City."
