

GOF 1981

Chapter 1981 Dragon-Subduing World (2)

The Dragon Slaying Holy Land.

In the Dragon-Subduing World, only the Zhao family could live in the Dragon Slaying Holy Land.

In the eyes of others, one of the Zhao brothers had repelled a strong enemy from the Dragon Domain, and the other had defended the Dragon-Subduing World. This situation was exactly the same as the Nine Palace World.

When Old Han entered the Wild Abyss, he left Han Xuan alone to carry half of the main city and the Heavenly Palace to escape. In the end, Han Xuan successfully guarded the Nine Palace World.

Han Fei couldn't help being surprised. It seemed that in Old Han's era, there were many brothers who became strong together!

Originally, Han Fei and Zhao Xianglong's plan was not like this. They wanted to think of a way to get the people of the Dragon-Subduing World back from the Sword God World.

But now, Zhao Xianglong returned when Zhao Zilong happened to be here. This timing was perfect.

But Han Fei still reminded him, "Old Zhao, are you sure your brother can still recognize you? You haven't seen each other for so long! Hey, were you close before?"

Zhao Xianglong said, "I trust Zilong. Back then, forget it... Let's go first."

Han Fei's heart did a flip. He wouldn't run to someone else's home for no reason. Therefore, his black-mist body quietly left, and his white-mist body followed Zhao Xianglong.

Anyway, with Han Fei's current strength, even his clone was very powerful. No one would find anything wrong.

A moment later, Han Fei and Zhao Xianglong took Zhao Feiyu to the periphery of the Dragon Slaying Holy Land.

.....

The so-called Dragon Slaying Holy Land was because there was Dragon Fiendish Qi here, so ordinary people couldn't approach it. And the Heavenly Palaces' routine was always the same. Dragon Fiendish Qi was used to assess and select Heavenly Talents.

When Zhao Xianglong saw the Dragon Fiendish Qi, he couldn't help but frown and tense up a little, and his body unconsciously emitted some killing intent.

But how strong was Zhao Xianglong? The overflowing killing intent immediately made Zhao Feiyu feel as if he had fallen into an ice cave.

Zhao Feiyu was horrified. This person was indeed up to no good. They hadn't even reached the Dragon Slaying Holy Land, but he was already exuding such a terrifying killing intent. Wouldn't they have to fight later?

Unfortunately, although Zhao Feiyu wanted to, he couldn't do anything in front of Han Fei and Zhao Xianglong. Otherwise, he would feel his soul being controlled again, which would make his blood run cold.

Han Fei couldn't help but glance at Zhao Xianglong. "Old Zhao, hold on. There are no azure dragons here!" Zhao Xianglong forcibly suppressed his killing intent and tried to calm down. Then, he smiled apologetically. "I'm too obsessed with the dragon race. Feeling the Dragon Fiendish Qi will inexplicably trigger my fury. I'm afraid Zilong has already sensed my killing intent."

Zhao Feiyu thought to himself, Who is this person? Is he addicted to acting? Zilong? Does he really think he is the patriarch of the Zhao family?

However, at the next moment, a voice sounded leisurely, "I have indeed sensed it. After 80,000 years, I didn't expect you to come back alive."

Zhao Feiyu was shocked. Isn't this... the voice of the Palace Master?

Then, a small path was opened amidst the Dragon Fiendish Qi.

Zhao Xianglong couldn't help but smile and couldn't wait to step out. Han Fei followed closely behind. In the blink of an eye, the two came to the so-called Dragon Slaying Holy Land.

When Han Fei and Zhao Xianglong appeared, they found themselves standing outside a long hall.

Behind them, there was a road that led straight to the center of the Dragon Slaying Holy Land. There, there was a statue a thousand meters tall, engraved with the scene of Zhao Xianglong tearing an azure dragon apart.

In front of them was the entrance to the palace, deep and dark. On both sides of the entrance, there were two Sea Establishers, one on the left and one on the right, looking at the two of them with a complicated and vigilant expression.

Whoosh!

Two rows of lights stretched out for more than 50 kilometers. At the end of the corridor, in front of a huge dragon skeleton, stood a middle-aged man who looked 80% similar to Zhao Xianglong.

The man said, "Eighty thousand years ago, you went crazy and slaughtered and hunted dragons, but in the end, you disappeared from this vast sea. I didn't expect to see you again one day. So you went to the Yin-Yang World?"

Han Fei looked at the middle-aged man and thought to himself, This must be Zhao Zilong. Unfortunately, I don't know what weapon he uses. It would be interesting if he used a spear.

Zhao Zilong turned his eyes to Han Fei. "Han Fei, Master of Yin-Yang, I've heard a lot about you."

Han Fei nodded slightly. "Nice to meet you."

After nodding at Han Fei, Zhao Zilong continued to talk to Zhao Xianglong. "The killing intent on you is too strong. Don't tell me that you came back to reopen the Dragon Domain seal and fight the dragon race again."

When Zhao Zilong said this, he stared at Zhao Xianglong and seemed to want to know Zhao Xianglong's answer very much.

Course

Zhao Xianglong shook his head slightly. "Of course not. I came back just to see what the current Dragon-Subduing World is like."

When Zhao Zilong heard Zhao Xianglong's words, he was secretly relieved and his expression softened a lot. The moment Zhao Xianglong left, he knew that Zhao Xianglong had gone crazy. Today, Zhao Xianglong had returned, and the five Sea Establishers in the Dragon-Subduing World, including him, were already ready.

Once Zhao Xianglong wanted to start a war, he would have to give up the so-called brotherhood.

Han Fei's heart stirred. Zhao Xianglong's state was unstable. Zhao Zilong was clearly very worried just now. It could be seen that once the seal on the Dragon Domain was opened, the consequences would be disastrous.

Therefore, Han Fei added, "Dragon-Subduing Palace Master, before I came, I gave Old Zhao a level-seven Soul Subduing Pill. To be honest, Old Zhao's soul hasn't fully recovered. I can't guarantee that he can keep his mind clear all the time."

"Huh?"

Zhao Zilong's face changed slightly when he heard that. Even the two kings at the door were shocked. In order to help Zhao Xianglong become sober, Han Fei even used a level-seven Soul Subduing Pill?

Han Fei said, "If you go to find some of the fifth-grade Tranquil Heart Pills or sixth-grade Tranquil Heart Pills and Spirit Nurturing Pills produced by the Medicine King World, the effect should be good."

Hearing that, Zhao Zilong looked back. "Take some from the treasure house!"

The king immediately accepted the order, glanced at Zhao Feiyu, and took him away. Then he warned Zhao Feiyu, "No one else is allowed to know what happened today except you."

Zhao Feiyu was stunned and felt terrible. That person just now... was really the first master of the Dragon-Subduing World? The patriarch of their Zhao family?

Zhao Feiyu didn't know how serious this matter was. What did Han Fei mean when he said that the patriarch's soul hadn't recovered yet? The palace master asked if the patriarch was going to open the seal on the Dragon Domain. What did he mean?

Instantly, Zhao Feiyu felt that he was caught in a huge mystery. He murmured, "No! I have to find a Meditation Pill to eat..."

In the palace.

Zhao Xianglong said with slight shame, "I won't stay long. I'll come back when my soul has truly recovered. Seeing that the Dragon-Subduing World is fine and that there are many Sea Establishers, I'm relieved."

Zhao Zilong said in a slightly hoarse voice, "Brother, although I don't want to mention it to you, I think... you should take a look."

With that, Zhao Zilong waved his hand, and the entire palace was brightly lit. On the inner wall of the entire palace, there were pieces of white bone jade, each about three inches long. Some had names engraved on them, and some didn't.

Zhao Zilong said, "You and I are both guilty of what happened back then. You chose revenge, and I chose to protect my people. But no matter what, we should repent to those who died."

Zhao Xianglong's eyes were blurred. These pieces of white bone jade were made of human bones. There were countless pieces here, which made Zhao Xianglong's heart flutter.

Zhao Xianglong almost couldn't hold it back, but fortunately, he tried to suppress the murderous intent in his heart.

Zhao Xianglong staggered to the wall, leaving Han Fei and Zhao Zilong looking at each other.

Zhao Zilong said bluntly, "Since the Yin-Yang Master chose to take the risk to come alone and didn't mobilize the pirate army to besiege us, and even brought my brother back, I'm not stupid. Within seven days, all the people of the Dragon-Subduing World Who surrounded the four palaces of the Sword God will retreat."

Han Fei nodded slightly. "Thank you, Dragon-Subduing Palace Master. In addition, what do you think of the Yin-Yang World and the Water-Wood World? After all, our Yin-Yang World has limited allies on the trip to the Monarch Palace."

Zhao Zilong pondered for a moment. "On the trip to the Monarch Palace, I'll ask the disciples of the Dragon-Subduing World to maintain a friendly attitude towards the people of the Avenger. When necessary, they can help. As for the other people from the Yin-Yang World and the Water-Wood World, in fact, no one will know them. Just tell our disciples that they're from a Heavenly Palace who has allied with you, or just tell them they are from the Dragon-Subduing World. I'll tell them."

Han Fei nodded. "That's great."

Zhao Zilong asked, "Is this enough to repay your favor?"

Han Fei said, "I didn't expect you to repay me in the first place, but I suggest that the Dragon-Subduing World can observe the situation in the future. Supreme Clearness and Infinity might not be as strong as they seem, and I, Han Fei, might not be much weaker than them. But this matter can be discussed after the trip to the Monarch Palace."

Zhao Zilong said, "I'll remember... Thank you."

Zhao Zilong looked at Zhao Xianglong who was groping the wall and sighed in his heart. At the same time, he praised Han Fei in his heart. Han Fei's style of doing things seemed to be much better than the rumors said. At least, the Dragon-Subduing World's return to him was actually not enough, but he didn't ask for more. In comparison, he was easier to get along with than Supreme Clearness and Infinity.

Han Fei looked at Zhao Xianglong and called him Old Zhao, but no one responded. Han Fei shook his head slightly and finally looked at Zhao Zilong. "In that case, I'll take my leave."

Chapter 1982 Target, Supreme Clearness World

Han Fei didn't have to fight for everything. For example, he could resolve the problem of the Dragon-Subduing World sending troops to the Sword God World with Zhao Xianglong. The effect would be better, and he could get an ally for himself.

Of course, their alliance wasn't very strong at the moment, but Han Fei only needed them to wait and see. It wasn't the time to choose a side yet, but when it was time to choose a side, it wouldn't be up to the Dragon-Subduing World.

After leaving the Dragon-Subduing World, Han Fei didn't leave immediately. Two of the four Heavenly Palaces that surrounded the four palaces of the Sword God were gone, and there were only the Supreme Clearness World and the Golden Crow World left.

As far as he knew, Xuan Qingzi from the Supreme Clearness World should be guarding the Heavenly Palace, but he didn't know if there was a third Sky Opener in the Supreme Clearness World.

But even if there was a Sky Opener, so what? He could run away from those Sky Openers even when he was carrying that small world, let alone now!

Besides, Huo Bulie from the Golden Crow World hadn't reached the Sky Opening realm, and he wasn't stronger than him. He could only be on par with him.

But now, Han Fei was confident that Huo Bulie was no match for him.

Therefore, when Han Fei left the Dragon-Subduing World, he went straight to the Golden Crow World, even though he knew that there must be an ambush in the Golden Crow World.

Han Fei was 100% sure that there was an ambush in the Golden Crow Sky because the battle in the Wild Abyss had just erupted, and even Zhao Zilong didn't dare to personally go to the battlefield of the Sword God World but stayed in his own Heavenly Palace, in case Han Fei re-staged the tragedy of the Dream Weaving World in the Dragon-Subduing World.

Huo Bulie was not stupid. He knew that Han Fei might use this method to deal with the Golden Crow World, so he couldn't leave.

Since they didn't leave and guessed that Han Fei might attack them, it was very likely that they had set up an ambush.

But Han Fei still came. This was the confidence he had since he became so strong.

.....

If Han Fei came secretly, Huo Bulie and the others probably wouldn't notice him. When Han Fei stood in the Blazing Sun City of the Golden Crow World and scanned it with the Vast Ocean Navigator, he was stunned. He originally wanted to find a place with rich resources, which meant a place with countless resources like a treasure house.

However, in the Golden Crow World, the Vast Ocean Navigator pointed at the void. It turned out that all the places with rich resources in the Blazing Sun City had been taken into the Heavenly Palace of the Golden Crow World!

Han Fei was speechless. Perhaps Huo Bulie also knew that if Han Fei really attacked, they would be caught off guard. Instead of defending against him head-on, they might as well gather all their resources into the Heavenly Palace.

Huo Bulie must be very confident that he could beat Han Fei in his Heavenly Palace.

In fact, Han Fei felt that he did. Just like when Wan Qingling fought him, these people might be weaker than him in terms of physique and strength, but they had a deep understanding of their Great Daos, unlike him who hadn't even figured out what his Origin Great Dao was.

Originally, if Huo Bulie hadn't collected all the resources, Han Fei felt that he might have just robbed one or two places as a warning.

However, Huo Bulie had collected a massive amount of resources and might even be hiding in his Origin Sea, which tempted Han Fei.

If he killed Huo Bulie, didn't it mean that he could get a massive amount of resources at once? Perhaps this would be the best chance for him to get all the resources in the Golden Crow Sky.

"Tsk, tsk ~"

Han Fei couldn't help licking his lips and leaving quietly as if he had never been here.

Three days later. On the way to the Golden Crow World.

Han Fei said, "Uncle Xuan, we have to cooperate well this time. If the Golden Crow World has a Sky Opener ambush us, we'll just leave. If not, let's take Huo Bulie down as soon as possible and snatch tens of billions of resources from him."

Han Xuan was dragged out by Han Fei with a dumbfounded look. Han Xuan didn't intend to come out in advance. Once he came out, it meant that the Nine Palace World would return to the vision of the major forces in the Raging Sea, and his strength would more or less be exposed.

However, Han Fei's words that the resources were at least ten billion stunned him. Did a Heavenly Palace have so many resources? Of course, every Heavenly Palace did.

However, no world's resources were placed together for you to take. They were very scattered. Therefore, even if they wanted to snatch resources, could they find people all over the Heavenly Palace to snatch resources from?

Even if Han Fei was given this chance, he could only use the Vast Ocean Navigator three times a day. In the end, he could only rely on Little White to find resources, so his speed would inevitably be slow.

However, hearing Han Fei say that Huo Bulie had collected all the resources, Han Xuan was tempted. If they succeeded, how long could the resources support the Nine Palace World?

Han Xuan said, "Han Fei, if we get the resources, give me half of them. Although there aren't many people in the Nine Palace World, the resources have been consumed a lot and haven't been filled up. Take it as a reward for me!"

Han Fei's heart did a flip. Even if he split half of it with Han Xuan, he could still get a lot. As it happened, the Forge the Universe still lacked resources.

Because the resources given to the Demon Purification Pot could not be consumed, Han Fei had very few resources now and didn't dare to expand his Origin Sea. Even the resources given to the Demon Purification Pot were actually consumed a lot. The birth of the second divine pill had swallowed half of the resources Han Fei had piled up. Now, the remaining resources might not be enough for the Demon Purification Pot to swallow.

Now, Han Fei happened to get this opportunity. God help him. It was the best way to get resources.

Han Fei pulled his strongest teammate over. Han Xuan's Thousand Opportunities Divine Ghost Compass was very strong. When he sparred with Han Xuan, the Thousand Opportunities Divine Ghost Compass only reached the third form.

According to Han Xuan, the Thousand Opportunities Divine Ghost Compass had a total of five forms. Han Xuan hadn't told him about the fifth form yet, but Han Fei had a rough idea. If one day someone could force Han Xuan to use the fifth form of the Thousand Opportunities Divine Ghost Compass, that person would probably be close to death.

This time, Han Fei didn't bring anyone else because it was meaningless. Unless the Golden Crow World had a Sky Opener, it was impossible for them to stop him and Han Xuan.

Han Fei said with a smile, "Of course. But we have to test them first. I'm afraid that Xuan Qingzi or Bei Luochen will be here. If either of them is here, I'm afraid we won't have a chance."

Han Xuan said, "Xuan Qingzi has just entered the Sky Opening realm. If I really go all out, I might be able to hold on for a while. But if it's Bei Luochen, let's just give up!"

Han Fei nodded. "Of course. We'll snatch what we can. If we can't, I won't force you."

...

On the fourth day.

On the battlefield outside the Sword God World, a king of the Dragon-Subduing World cupped his hands and apologized to He Daoyuan and the others. "Patriarch Supreme Clearness, the Second Patriarch of the Dragon-Subduing World personally sent a message to ask us to retreat. He said that Han Fei has already threatened the Dragon Domain. If anything happens to the Dragon Domain, the consequences will be disastrous. This is much more terrifying than the death of only one king in the Dream Weaving World, So... I have to return with my soldiers."

He Daoyuan didn't look good. It wasn't that he didn't believe him, but he was surprised that Han Fei could threaten the Dragon Domain. Was this guy so capable?

However, under such circumstances, if the Supreme Clearness World didn't let them leave, their relationship with the Dragon-Subduing World would definitely be completely broken. Zhao Zilong would definitely think that the Supreme Clearness World didn't care about the life and death of the Dragon-Subduing World at all and might even fall out with the Supreme Clearness World.

Although the Supreme Clearness World didn't care if the Dragon-Subduing World would fall out with them, this would definitely make it more difficult for him to rule the Thirty-Six Mystic Worlds.

Therefore, He Daoyuan waved his hand. "Go! I will oversee the battle of the Sword God Palace."

This time, two of the four major powers had quit. Although there was still a king from the Dream Weaving World here, she was only here to show their attitude and didn't bring any soldiers over, so the king of the Golden Crow World was a little uneasy.

He Daoyuan said, "Everyone can be worried, but not the Golden Crow World. Bei Luo Chen is watching the Golden Crow World at all times. Besides, Huo Bulie can take advantage of his Heavenly Palace. If Han Fei really dares to go there, he'll be walking into a trap."

On this side, Han Fei and Han Xuan hadn't reached the Golden Crow World yet, so Han Fei tested his luck with the Nine Palace Luck Ruler, only to find that it was "Impasse".

Han Xuan immediately said, "There must be a Sky Opening realm cultivator there. Han Fei! Huo Bulie must be gathering resources to bait you!"

Han Fei was horrified. When he was still in the Golden Crow World, he had used the Nine Palace Luck Ruler to test his luck and the result was "Ominous". But in the blink of an eye, it became "Impasse". The other party's trap was clearly a bit big!

But Han Fei's face immediately turned cold. "Uncle Xuan, what kind of power can make us fall into an impasse?"

Han Xuan said, "I think only Sky Openers can put me in danger. Besides, there must be more than one Sky Opener."

"Huh?"

Han Fei looked at Han Xuan in surprise. "More than one?"

Han Xuan said, "I didn't tell you about the fifth form of the Thousand Opportunities Divine Ghost Compass before. This form is enough for me to unleash ten times my combat power in a short period of time. But the price is that the Thousand Opportunities Divine Ghost Compass will collapse. My tens of thousands of years of hard work will be destroyed."

Therefore, if there was only one Sky Opener, it was impossible to put me in an impasse. There had to be at least two.

"Ten times the combat power?"

Han Fei couldn't help taking a breath. What kind of f*cking weapon was the Thousand Opportunities Divine Ghost Compass? If Han Xuan's current strength soared ten times, he would have the strength of a million waves. Besides, Han Xuan was a top Heavenly Talent in the first place. His strength could definitely rank in the top three of the Sea Establishment Realm in the Raging Sea.

Han Fei licked the corner of his mouth. "It's an indisputable fact that He Daoyuan is guarding the Sword God World. Huang Jingyuan doesn't have a goal now, and because of some matters, it's impossible for him to participate in the matter of the Golden Crow World now, so he can't be in the Golden Crow

World. Then, there are only three Sky Openers left, Bei Luo Chen, Taiyuan, and Xuan Qingzi. Old Man Taiyuan never interferes with the matters of Supreme Clearness and Infinity, so it's impossible for him to be here... It means that Bei Luo Chen and Xuan Qingzi are sure that I will come to the Golden Crow World."

Han Fei immediately asked, "Uncle Xuan, are you interested in doing something big?"

Han Xuan asked, "What do you want to do?"

Han Fei grinned coldly. "How about robbing the Supreme Clearness World?"

Chapter 1983 Reappearance of Nine Palaces, Robbery by Demon Han (1)

Han Xuan was stunned by Han Fei's idea. Are you crazy to rob the Supreme Clearness World?

Han Xuan said, "Even if He Daoyuan and Xuan Qingzi are not around, there are probably as many as a dozen Sea Establishers in the Supreme Clearness World. Even if they are not your match, it's not difficult for them to stop you. Besides, the Supreme Clearness World's protection array is not easy to break."

Hearing that, Han Fei asked, "Uncle Xuan, try trapping me..."

Supreme Clearness World.

Han Fei and Han Xuan came to the Supreme Clearness World as fast as they could. Since Bei Luo Chen and Xuan Qingzi were both in the Golden Crow World, they might as well stay there.

This time, even if it wasn't for robbery, Han Fei had to cause trouble to the Supreme Clearness World. Blocking my path to wealth equals to killing my parents. Since you don't let me rob the Golden Crow World, fine! I'll mess with your Supreme Clearness World.

Han Fei didn't care about how the humans in the Supreme Clearness World evaluated him. Anyway, his name as Demon Han had already spread far and wide. Why would he care about the evaluation of others?

This day was destined to be the darkest day in the history of the Supreme Clearness World.

Heavenly Imperial City.

As usual, the humans in the Supreme Clearness World didn't find anything unusual. After all, how could ordinary people discover a king's action?

There were more than 20 CBD areas in the Supreme Clearness World. The resources here were so abundant that ordinary Heavenly Palaces couldn't compare to them. If they could quickly plunder all these places, they could still get tens of billions of resources.

At this moment, Han Fei and Han Xuan had hidden their strength and were standing in the middle of the Heavenly Imperial City, among the Treasure Tower, the auction house, and the resource shops.

There were so many people here. Who would have known that there were two kings shopping with them?

.....

Han Xuan said, "It seems that I came for nothing. If we rob them one by one, we can at most rob this place."

However, Han Fei said, "Uncle Xuan, this is for you to rob, not me."

Han Xuan: "..."

Han Xuan said leisurely, "I shouldn't have listened to your bluff and got involved in this matter. You're just being impulsive. Fine, let's see how many kings you can hold back later. Don't expect me to get ten billion resources for you this time. Two billion is probably the most."

Han Fei smiled. "Uncle Xuan, don't worry. I won't hold you back."

An hour passed.

Han Xuan had figured out the main resource concentration points in the city.

Then, he found a place to drink tea, and Han Fei was already gone.

Suddenly, when Han Xuan discovered abnormal spiritual energy fluctuations nearby, he couldn't help but smile. The noise was too small and it wasn't worth taking action.

At the same time.

In the Soul Sea, Han Fei circled the Heavenly Imperial Tree and launched an impudent attack.

The Heavenly Imperial Ancient Tree was the main reception place of the Heavenly Imperial City. The people who lived here were mainly strong masters who came and went between the major Heavenly Palaces. They either had business or had something to do, but no one under the Venerable realm dared to sail in the Raging Sea.

Therefore, Han Fei began to bite and swallow crazily.

Little Black and Little White were level-88 creatures who were about to reach the peak of the Venerable realm, and the Emperor Sparrow had already transcended the tribulation and become a king.

Crack! Crack!

Han Fei bit through a big shell and quickly ate it, immediately hunting his next target. In less than 30 seconds, more than 20 Venerable-level spiritual beasts had been swallowed by Han Fei.

The Emperor Sparrow said, "Little Black and Little White's growth mainly relies on the environment. They grow well through the Soul Sea, but the further they go, the fewer spiritual beasts they can eat. In this world, there are only a few Sea Establishers, and most creatures wander below the Sea Establishment realm."

Han Fei said, "Then let them eat until they reach the Sea Establishment Realm! By the way, help me hunt. Knock them out first and I'll eat them... There will definitely be Sea Establishment realm spiritual beasts appearing later. If I kill one of them, Little Black and Little White will probably reach the peak."

However, the Emperor Sparrow said without interest, "The resources you see now are actually meaningless. You don't dare to fight for real. You might as well study the Origin Great Dao and reach the Sky Opening Realm as soon as possible. At that time, it'll be easy for you to fight the emperors here. In my opinion, you're just messing around."

Han Fei was lost for words. "You really have no idea how many resources we need. Without my savings, how could I have grown so fast? Don't always talk about your inherited memories. The Age of Gods must have been full of resources, but the problem is that I wasn't born in that era."

"Gulp ~"

Han Fei bit off a small part of a Golden Flood Dragon's body. The Golden Flood Dragon tried to erupt, but Han Fei swam around it quickly and even ate its bones.

After he ate it, the Emperor Sparrow said, "Didn't you say you were going to the Monarch Palace? No matter what era it is, those who can become emperors are extraordinary. That's where you should go."

As he spoke, the Emperor Sparrow's eyes glittered, and with a flash of red light, a black sea cucumber went berserk. Han Fei took the opportunity to rush up and finish it in the blink of an eye.

Han Fei said, "I'll go after this meal."

In the outside world.

Near the Heavenly Imperial Tree, countless Venerables exclaimed, "Who! Who is hunting my spiritual beast in the Soul Sea?"

"A*shole! Is there no one in the Supreme Clearness World?"

"Let's not talk so much. Everyone, summon your spiritual beasts first."

As more and more people realized that something was wrong.

Someone summoned a fish baby, and was dumbfounded and vomited blood on the spot.

Someone found that his jellyfish had become the size of a thumb and he shouted, "Someone is hunting in the Soul Sea. Be vigilant."

An inspection team of the Supreme Clearness World immediately perceived around. The leader was a Half-King sword cultivator. As soon as he landed, he shouted, "Seal the area of the Heavenly Imperial City. This person is hunting here. His original body must be nearby."

"Puff ~"

As soon as the Half-King finished speaking, his expression suddenly changed drastically, and the team members were all shocked. The captain had been targeted so quickly? Everyone saw that the captain seemed to be summoning his spiritual beast, but they were surprised to find that he couldn't summon it at all.

sum

Then, a team member exclaimed, "Not good! I can't summon my spiritual beast either."

The Half-King captain shouted, "Come on, summon your spiritual beasts."

In fact, with a glance from the Emperor Sparrow, which Venerable-level spiritual beast could resist him? They were like dead fish, letting Han Fei bite them. Han Fei and the Emperor Sparrow cooperated seamlessly.

In just a hundred seconds, more than 80 spiritual beasts had been swallowed by Han Fei, which meant that more than 80 Venerables had lost their spiritual beasts, or their spiritual beasts had been reborn.

Buzz!

Just as the captain of the inspection team was shocked, he felt a terrifying pressure descend from the void. Finally, a king descended. He shouted, "Get out of the way. Everyone below the Sea Establishment realm, summon your spiritual beasts."

With that, he glanced at the captain of the inspection team and said, "Guard me."

After that, a circle of strange runes appeared in front of the king, forming a door that looked like a blood-colored teleportation array. Then, this person's soul left his body and entered the Soul Sea.

The captain narrowed his eyes and said in a voice that only he could hear, "What are the kings doing? Why is there only one?"

However, the next moment, three kings appeared in a row. Seeing that a king had already entered the Soul Sea, two of them said, "Let's help him."

Han Fei was dumbfounded. Was this the so-called luck? He had temporarily controlled his original body with his avatar's soul and killed this inspection captain just to appear here more reasonably.

Now it seemed that there were three kings sitting cross-legged in front of him, entering the Soul Sea to find him, and there was another king guarding the others. This reminded Han Fei that if he attacked now, he could kill four kings.

While there were not many people here, four kills were enough.

Han Fei immediately summoned the Emperor Sparrow.

Han Fei was trying to eat a Sea Establishment crab. This crab was the first king to come in. The two were so close that even Han Fei was shocked when he came in.

However, the Emperor Sparrow reacted quickly and stunned the king. He directly activated the Eye of Disaster and produced inner demons in the king's heart.

However, Han Fei had only eaten half of it when Little Black and Little White flashed. Obviously, they had leveled up. But before he finished eating the crab, he heard the Emperor Sparrow say, "Are you summoning

me?"

Han Fei was surprised. "So fast?" Han Fei certainly knew that summoning the Emperor Sparrow meant that he had to go out.

“Crunch, Crunch, Crunch...”

Han Fei thought it was quite urgent, so his body became bigger and bigger. In the end, he bit a few more mouthfuls and was about to leave when he happened to see a lobster and a turtle suddenly appear. Judging from their eyes, they were here for him.

However, as soon as the two of them came in, they saw that the Emperor Sparrow and Little White had dissipated. The two of them didn't know what happened. Looking at the small section of the crab left, they thought to themselves, Did the other party give up so easily?

However, when the two of them communicated, their eyes were filled with shock. And when they saw the Spirit Swallowing Fish, they knew who came.

Unfortunately, they came in one step slower, so they left one step slower.

Han Fei suddenly came back to himself. Almost in an instant, he activated his Great Dao, and the immortal Qi and fiendish energy in his body erupted. The Immortal Fiend Saber darted out without hesitation.

The king who guarded the three other kings was dumbfounded when he saw Han Fei attack. How could he resist such a blow?

“Tweet –

When Han Fei attacked the three people sitting cross-legged, the Emperor Sparrow had already appeared and attacked the sober king.

Rumble! Rumble!

When a Heavenly Dao crack appeared, Han Xuan's figure had already quietly disappeared from the restaurant.

Chapter 1984 Reappearance of Nine Palaces, Robbery by Demon Han (2)

What happened at the Heavenly Imperial Ancient Tree was too sudden. They had only come to investigate, but when they realized that there was something wrong with the Soul Sea, they just wanted to explore it. They didn't expect that entering the Soul Sea was equivalent to courting death.

However, how could they know that someone could communicate with the Soul Sea from outside? This was simply unscientific.

Except for one person, the other three didn't move at all. Three of them were killed by Han Fei with one slash. The other's first reaction was to run, but the Emperor Sparrow was too close to Han Fei. He was less than a kilometer away. How could that king run away at such a short distance?

Han Fei was quite ruthless. He stabbed this person with All Great Daos in One Sword so hard that he didn't even have a chance to react.

Rumble! Rumble!

Rumble! Rumble!

Rumble! Rumble!

In the sky, a total of four Great Dao cracks appeared one after another. The blood-colored rain was as dense as blood plasma, filling the sky like a river of blood.

At that moment, the entire Supreme Clearness World was dumbfounded.

After Han Fei killed these four people, as many as nine king-level perceptions locked onto him. It could be seen how many kings there were in this Supreme Clearness World.

Under such circumstances, it was almost impossible for Han Fei to go to the Origins Sea of these dead kings. He didn't have the time. But he was here to cause trouble anyway. Even if he couldn't harvest these people's Origins Seas, by killing four kings, he could at least shock the Supreme Clearness World and let them know how powerful he was. They shouldn't think that they were the strongest in the Raging Sea and could really suppress the Thirty-Six Mystic Worlds.

Han Xuan was stunned to see four kings die in a row. Is Han Fei already so strong? How did he kill four kings in a row?

The kings who stayed behind in the Supreme Clearness World might not be the strongest, but they were definitely not weak. Han Xuan admitted that it would be impressive if he could kill one of them in such a short time, but Han Fei had killed four. Did he kill them in the Soul Sea?

.....

Golden Crow World.

Xuan Qingzi and Bei Luo Chen were hiding here. For some reason, Xuan Qingzi seemed to be uneasy.

Bei Luo Chen said, "You just opened the sky. Do you often have an epiphany about the Great Dao?"

Xuan Qingzi shook his head. "No, but I feel that something is wrong. Han Fei is cunning. It can be seen from the battle in the Wild Abyss. This person basically has no principle in doing things. Do you think he knows that we are here?"

ess

Bei Luo Chen said, "He must have some guesses, but haven't you and I already been prepared? With the Supreme Clearness Immortal Locking Array and the Palace-Protecting Divine Sword of your Supreme Clearness World, how can a mere Han Fei dare to do anything?"

With this in mind, Xuan Qingzi nodded quickly. That was true. The Supreme Clearness World was so powerful that in addition to the Sky Openers, it also had a divine sword. This sword hung in the Heavenly Palace for 100,000 years. If anyone had any ill intentions, the sword would fly out and kill the enemy. In the Sea Establishment realm, no one dared to say that they could survive a single slash of the sword.

Bei Luo Chen said, "Anyway, it'll only be a few months. If Han Fei doesn't come, we'll just kill him."

But at this moment, Xuan Qingzi suddenly took out four Life Tablet jade slips.

However, these four jade slips were all broken.

“Not good! Someone ambushed our Supreme Clearness World and killed four kings in a row.”

Swish ~

Without thinking, Xuan Qingzi rushed towards the Supreme Clearness World at full speed.

As for Bei Luochen, his eyelids twitched several times, and he was shocked. Kill four kings in a row? Could it be Han Fei? He had seen this guy fight before. How did he have the ability to kill four kings?

Could it be... someone from the Merman Royal Family?

And if the Merman Royal Family attacked the Supreme Clearness World for no reason at this time, didn't Han Fei play a part in it? Since they could cooperate once, they might cooperate twice.

With this in mind, Bei Luochen's expression turned ugly. “They really have no principle! Huo Bulie, I have to go to help. Why don't you go with me? Otherwise, if Han Fei comes to you, the Golden Crow World might not be able to stop him.” “Yes, I'll be going!”

Huo Bulie was dumbfounded. If Han Fei really dared to launch a sneak attack on the Supreme Clearness World, why would he be afraid of attacking his Golden Crow World?

Thinking of the Dream Weaving World and the battle in the Wild Abyss, Huo Bulie shivered and chased after Bei Luochen.

Anyway, all the resources were with him. Even if Han Fei killed all the way to the Golden Crow World, so what? Could he slaughter the people? And now, all the things that could be taken away in the Golden Crow Heavenly Palace had been taken away by him. Even if Han Fei really came, he would get nothing. Therefore, Bei Luochen's suggestion was really good.

Supreme Clearness World.

“Human Demon Han Fei, break into our Supreme Clearness World and kill our kings. Supreme Clearness Immortal Locking Array,

open.”

At that moment, Han Fei saw that the entire Heavenly Imperial City was covered in a layer of green light. But Han Fei was full of disdain. It was just a city protecting array. Even if this array was difficult to break, his golden light could directly walk through the river of time.

Also, the Time Fishing Technique he had just learned also gave him the ability to escape from time. How could a mere array tie him up? Unless you even sealed time.

But it was obviously impossible. Unless everything was still, time wouldn't stop.

Han Fei smiled contemptuously, and his low voice resounded throughout the Supreme Clearness World. “The Supreme Clearness World claims to be the leader of the Thirty-Six Mystic Worlds, but don't you know how many dirty things you have done in the dark? The human race is disunited, and the sanctimonious Supreme Clearness World snatched treasures and destroyed cities with the pretext of justice. He Daoyuan, the old b * stard, hunted the four palaces of Sword God and Immeasurability. Why,

did they eat your Supreme Clearness World's Big Yellow Fish? You call me a human demon, but I think you're more like scum..."

Han Fei's voice resounded throughout the Supreme Clearness World, but it wasn't recognized by the people of the Supreme Clearness World. Everyone was cursing him.

Someone cursed, "Human Demon Han Fei, what the hell are you doing? Do you have a grudge against all the Heavenly Palaces? You just want to snatch resources and treasures! Bah."

Someone was furious. "This Han Fei deserves to die. If I were a king, I would have beheaded him and hung him on the Heavenly Imperial Ancient Tree for ten thousand years."

Someone shouted angrily, "Kings, please slaughter this human demon."

The nine kings surrounded Han Fei, but they didn't rush up immediately. After all, this was the Heavenly Imperial City. The power that erupted in a battle of kings was too terrifying and could easily affect the innocent.

Therefore, one of them burned a token in his hand, and Han Fei felt that the void seemed to shake, and then he felt a great danger coming

Swish ~

All of a sudden, a sword light cut across the sky, piercing thousands of kilometers and darting at Han Fei. "Hiss -"

Han Fei was shocked. What kind of sword was this? Before the sword arrived, its killing intent had completely locked the void.

Before the sword arrived, Han Fei opened the Invincible Eye and raised his hand, and the Immortal Fiend Saber erupted again. How could Han Fei dare to underestimate this thing that seriously threatened his life?

None of the remaining nine kings of the Supreme Clearness World moved. They were only responsible for guarding on four sides. If a powerful force escaped, they could block it.

One of them shouted, "The Empyrean Ancient Sword can even kill immortals. Demon Han, do you think you can break into the Supreme Clearness World while our patriarch is not around? You underestimate the Supreme Clearness World."

Bang!

The Immortal Fiend Saber and the ancient sword collided in the sky, and countless people looked up at the sky. A sword light wrapped half the sky in green light, and a power with black gas surging like a pillar of light.

Half of the green light in the sky pressed down a pillar of light, which lasted for about three seconds. Then, the Immortal Fiend Saber suddenly shattered, turning into a layer of ripples that shook the sky. The nine kings joined forces to seal the Heavenly Imperial City.

At this moment, they looked at the other side almost at the same time, only to see a strange figure in black armor. In a breath, he directly took over the Treasure Tower, the auction house, and the resource shops. With multiple phantoms following him, countless resources were automatically taken into Sun-Moon Shells by a strange array.

A king shouted, "Demon Han has an accomplice. I'll stop him."

However, as soon as the king came down, a black light suddenly enveloped him, and thousands of arrays appeared out of thin air, sealing him.

During this period, Han Xuan had already changed places and continued to rob.

Han Xuan even took the time to say, "Do you need help? This sword is called the Empyrean Ancient Sword. It's said that it can exert the combat power of the Sky Opening realm, but I didn't know that this sword could fight on its own. Can you block it? Do you need me to stop robbing and help you repel this sword?"

Han Fei said, "No, so what if it can exert the combat power of the Sky Opening realm? It's just a sword. Who doesn't have something

good?"

Then, Han Fei took out a big calabash and shouted, "Sword out to kill an immortal? My calabash can suppress the sky!"

Roar!

Han Fei took out a level-five Dao Pattern Pill and stuffed it into his mouth. This pill could boost his strength for a while. Although the effect was not long, it would be enough.

"Dharma Idol World."

Han Fei went all out. A huge shadow more than 500 meters long grabbed a huge calabash and knocked the so-called ancient sword with it.

Boom –

At that moment, the echo shook and ripples swept in all directions. The ancient tree that had existed for a hundred thousand years was broken.

"Pfft!"

Han Fei vomited blood, and his Dharma Idol was full of cracks as if it would break at any time. But this sword blocked it.

Han Fei bared his teeth, which were shining with golden blood. He laughed. "You are just a sword! How dare you attack me?"

Puff, puff, puff!

At this moment, the eight kings who surrounded Han Fei vomited blood almost at the same time.

Everyone was shocked. This guy blocked the blow of the ancient sword with a calabash? The aftershock alone injured them. Did this mean that Han Fei could already unleash the combat power of the Sky Opening realm?

Chapter 1985 Divide the Spoils

The damage caused by the battle of the Sky Opening realm could be imagined. Fortunately, the nearby Venerables had already fled. Otherwise, they would have all died under this blow.

The poor Heavenly Imperial Ancient Tree couldn't move and was eventually cut down. From then on, there were no Heavenly Imperial Star Fruits in the Supreme Clearness World.

However, the moment the Heavenly Imperial Tree was broken, Han Fei sensed the smell of Chaotic Qi. Carrying his seriously injured body, he flashed, picked up the huge tree, and stuffed it into the Origin Sea.

Everyone was still resisting the aftershock of the calabash and the ancient sword and could only watch Han Fei snatch the half of the Heavenly Imperial Tree.

However, what Han Fei did next stunned them. With a thought from Han Fei, his Dharma idol ran to pull the other half of the tree.

The Dharma Idol was pulling the tree, and the Infinity Water was crazily cutting the roots of the Heavenly Imperial Tree underground. As for Han Fei, he stood in the air and activated the Heaven Enlightenment Divine Technique. His body was gradually recovering.

In fact, Han Fei was equally shocked. This blow shattered all his internal organs and turned them into paste. At this moment, his internal organs were intertwined crazily and quickly recovered.

Beside Han Fei was the unscathed calabash. The ancient sword in the distance didn't attack again. It seemed that it was absorbing energy from all directions.

Obviously, this sword was not omnipotent. Although it could unleash a killing move in the Sky Opening realm, it clearly needed to accumulate power after the attack.

Han Fei was secretly relieved. He had already prepared for the second blow. If the sword could come again, he would have to run.

Bang!

In the ruins of an auction house in the Heavenly Imperial City, an array exploded. A king who was tied up by the Thousand Opportunities Divine Ghost Compass had just broken out of the array, but what was in front of his eyes was already a ruin.

The man shouted, "It's the divination array of the Nine Palace World."

.....

When the kings heard that, their hearts sank. The Nine Palace World that had disappeared for eighty thousand years had reappeared? Just to rob the Heavenly Imperial City?

A king gritted his teeth and shouted angrily, "Han Fei, you brat, you even invited the Nine Palace World over just to snatch the Heavenly Imperial City? How many resources can a mere city have for you to snatch?" Han Fei sneered. "Do you think I'm here to rob you? I'm just here to disgust you." The kings saw that the ancient sword was still accumulating power, but they couldn't attack Han Fei. Otherwise, the island would be destroyed.

Han Fei didn't seem to be in a hurry, but in fact, his heart was in turmoil. Although the Heaven Enlightenment Divine Technique had partly healed him, this ancient sword was indeed powerful. His internal organs had exploded into a paste. How could he still attack? Once his flaws were seen through, how could these kings let him go?

However, on the surface, Han Fei looked very tough, and others didn't see anything wrong. As for Han Xuan, if there was only one king chasing him, he really couldn't stop him. In this short period of time, he had already looted six CDB areas and kept stuffing resources into Sun-Moon Shells.

While robbing, Han Xuan sighed. "It turns out that robbing is so comfortable. It's too easy to get these resources. It seems that forming a pirate team is a good choice."

On this side, the Dharma idol forcibly pulled out the Heavenly Imperial Ancient Tree whose roots had almost been cut off. Han Fei didn't hesitate at all and directly collected the Heavenly Imperial Ancient Tree into his Origin World, which made everyone's face turn green.

Han Fei said, "Hey! I can restore this tree. Are you sad? From now on, the Heavenly Imperial Ancient Tree is mine."

A king shouted angrily, "Demon Han, don't be arrogant. Even the Sky Opening realm can't break this inescapable net and the Immortal Locking Array. Even if you slaughter the Supreme Clearness World and destroy the entire city, you can never break out of this place. When the patriarch returns, you have nowhere to escape."

"Ignorant!"

Han Fei didn't want to argue with them. Since they thought that he couldn't leave, he would just let them think so. After all, they were too inexperienced and didn't know that there would always be a way to crack an array. If they wanted to stop him from escaping, they needed to be more proficient in the Great Dao of Time than him. It was almost impossible for them to trap and kill him in this Supreme Clearness Immortal Locking Array.

Han Fei said via voice transmission, "Uncle Xuan, just rob them. These people don't dare to do anything. If the kings take action, ordinary people will suffer. These sanctimonious people won't easily attack."

Han Xuan said, "I've already discovered it. Just hold them off for a while."

Han Fei grinned. "You, hand over your Sun-Moon Shells. Otherwise, if I attack ordinary people in this city, don't blame me for not reminding you."

In fact, Han Fei didn't dare to do it! Slaughtering ordinary people would only cause him psychological burden, causing him to be plagued by hellfire and mental demons.

However, they all thought that he was a devil. It seemed that being a devil had benefits. At least, others would be very afraid of him.

No one would agree to Han Fei's request. All the kings were waiting for the ancient sword to accumulate enough power to attack.

However, he couldn't just leave these people alone. If Han Fei didn't take action, these people would only feel that he was afraid.

Besides, these people were supplying power to the ancient sword. How could Han Fei let them do whatever they wanted?

Therefore, Han Fei went all out. The Sky Hanging Ancient Sword was powerful, but so was my Green Thunder Wine Gourd! Han Fei's injuries were slightly better, so he smashed the wine gourd at the Sky Hanging Ancient Sword with all his strength.

In the eyes of others, Han Fei seemed to be confronting the ancient sword. Therefore, when Han Fei smashed the ancient sword with all his strength, these kings suddenly pulled the void and an invisible net seemed to envelop him.

"Heh! You're quite good at seizing opportunities."

With a flash of golden light, Han Fei appeared beside a king with the calabash and dragged the invisible net over. The king who was approached by Han Fei was very fast. The moment he saw the golden light, he retreated and blocked it with a huge shield.

Boom –

Crack!

The seven kings hurriedly moved again to seal the shock waves. The king who was sent flying by Han Fei bulged his body and turned into a fatty. Although Han Fei's terrifying blow shattered his shield, it was blocked by his body.

A jellyfish fused into the king's body. It turned out to be the power of his spiritual beast.

At this time, Han Fei saw that the ancient sword trembled again. Han Fei had a feeling that this thing would attack again soon. Did it have such a short time to accumulate power? This was not good. When he slashed out just now, he used all his trump cards and was injured. If it attacked again, he would really be seriously injured.

Han Fei's figure flashed and appeared thousands of kilometers away. Han Xuan had just stuffed a tower into his Origin Sea when he looked at Han Fei in surprise.

Han Xuan's face changed slightly. "Can't hold on anymore?" Han Fei said, "It's time to go. The power of that sword is very strong."

With that, Han Fei grabbed Han Xuan and flew into the void.

Han Fei didn't try to walk the river of time directly. He wanted to see if the so-called Supreme Clearness Immortal Locking Array was really as awesome as they said.

However, with a flash of golden light, Han Fei felt that the void was locked, and he suddenly hit the void barrier.

Buzz!

Han Fei and Han Xuan fell out of the void, and the eight kings quickly perceived it. One of them shouted, "Demon Han, you won't be able to escape today."

Swish ~

The ancient sword had already cut through the sky again. Han Fei secretly cursed, "Uncle Xuan, follow me. Don't resist."

Swish~

This time, the two of them collided into a blue light. The river of time glowing blue looked extremely mysterious.

Han Xuan looked at the circulating halo around him and couldn't help but ask in surprise, "The river of time?"

Han Fei said, "Uncle Xuan, don't worry. I'll go against the time flow and return to the time before the Supreme Clearness Immortal Locking Array is activated."

Han Xuan: "..."

Although Han Xuan was smart, when it came to time, he really had no clue. Could someone escape like this?

This time, the kings of the Supreme Clearness World waited for a long time but didn't find Han Fei and Han Xuan again.

Someone asked, "What happened? Did he really run away?"

"How is it possible? The Supreme Clearness Immortal Locking Array can even seal a Sky Opener!"

"No, the person from the Nine Palace World is extremely strong. He condensed ten thousand arrays in an instant, and his strength is equally terrifying. Did he break the Supreme Clearness Immortal Locking Array with his high attainments in arrays?"

"If I'm not wrong, that person should be Han Xuan. He's indeed a genius. We can't underestimate him."

The group of people continued to wait, and many of the billions of people in the Supreme Clearness World were still dumbfounded, not knowing what had happened.

On the outer sea.

Swish~

A blue halo flashed, and Han Fei and Han Xuan ran out of time.

Han Xuan said, "Are we at the normal time now?"

Han Fei said, "Of course. As long as we run out of the Supreme Clearness World's range, we can just return to the normal time node. We didn't cross much time, so it's no problem."

Han Xuan said, "Let's go away first."

An hour later, when the two of them were sure that they had run far enough, Han Xuan said, "Is the Empyrean Ancient Sword very strong?"

"Pfft!"

Han Fei vomited a little blood. He raised his hands and activated the Heaven Enlightenment Divine Technique. Bathed in the healing divine light, Han Fei felt much better.

Han Xuan said solemnly, "It seems that the ancient sword is stronger than I imagined!"

Han Fei said, "It's a little strange. I could've blocked the attack, but the sword Qi kept destroying my body. Otherwise, I wouldn't have just snatched a tree."

After using three Heaven Enlightenment Divine Techniques in a row, Han Fei consumed at least a thousand years of vitality to heal the injuries caused by the ancient sword.

Seeing that Han Fei seemed to have recovered, Han Xuan frowned and said, "It seems that we made a loss this time?"

Han Fei shook his head. "No, I lost a thousand years of vitality but killed four kings. Uncle Xuan, how many resources did you snatch?"

Han Xuan took out Sun-Moon Shells one after another, and the two of them counted the money on the sea. After counting for half an hour, the two of them looked at each other and grinned.

Han Fei said, "There are about 2.5 billion ultra-quality spiritual stones, more than 370,000 spiritual fruits, more than 1,800 ultra-quality Divine weapons, and countless materials... There are also a bunch of demonic energy crystals here. The Ground vein essence is a bit little..."

In the end, the two of them calculated about 3.7 billion ultra-quality spiritual stones. Although it was very different from the tens of billions of resources they had planned, it was worth the risk.

Robbery was very dangerous in itself!

Han Fei asked, "Uncle Xuan, what do you want?"

Han Xuan said, "1 billion ultra-quality spiritual stones. You can take the rest."

Han Fei said, "Then I'll give you 1.5 billion ultra-quality spiritual stones, but I'll keep the spiritual fruits, spiritual spring, demonic energy crystals, and the essence of the ground veins. All the other materials and ultra-quality divine weapons will be yours."

Han Fei didn't care about the so-called materials. He didn't need these materials at all, and the renewable resources were what he needed.

Han Xuan couldn't help but smile. "That's fine. You do need these to expand your Origin Sea. After you expand your Origin Sea to 30,000 kilometers, you'll need more and more resources. After 60,000

kilometers, from 60,000 kilometers to 70,000 kilometers... The consumption of resources can even match all the previous consumption." Han Fei smiled. "I know."

Chapter 1986 The Supreme Clearness World Retreats

After splitting the loot with Han Xuan, Han Xuan didn't leave immediately.

Han Xuan said, "Han Fei, I know you're going to the Monarch Palace, but I have some experience to tell you. Firstly, don't rush into the Monarch Palace." Han Fei was puzzled. "Why?"

Han Xuan said, "All these years, although I haven't gone to the Monarch Palace, the Nine Palace World sent people over every time it opened. After a long period of observation, I've come to a lot of conclusions."

Han Xuan said, "First of all, when the Monarch Palace is opened, there will be countless entrances, and people will enter holding a key to the Monarch Palace, which is an item with the aura of the Monarch Palace. Although others think that it's the same no matter which entrance you enter from, I feel that the more dangerous the entrance is, the safer it will be after entering. Remember this."

Han Fei looked solemn. The more dangerous the entrance was, the safer it was to enter. Han Xuan's research was very convincing because he was smarter than others.

Han Xuan continued, "However, the choice of the entrance can't just depend on the degree of danger around. If the color of the entrance is blue and black, it's normal. If it's red, according to the degree of brightness and darkness of the red, it represents the strength of the danger. The most important thing is that there is a pure black entrance. Don't enter it. According to my research, anyone who enters from the pure black entrance has a 90% chance of dying and basically doesn't come out. But kings can't enter from the blue and black entrances, or it will cause void turbulence. Because the space entrance can't carry the power of a king, you don't know where you will be sent in the void turbulence."

Han Fei nodded. "I see."

Han Xuan continued, "Also, after entering the Monarch Palace, there are many abandoned places. These places are mostly on the periphery of the Monarch Palace. They have been broken through over the past tens of thousands of years and are generally not dangerous. However, that's relative to the Venerable realm. However, if you explore deeper, you will still encounter danger. This depends on one's luck and fate. For kings, they rarely appear in these places because their luck will decide where they appear."

Han Fei couldn't help but ask, "Does it mean that the place where a king appears is generally more dangerous than Venerables?" Han Xuan said, "That's for sure. That's the Monarch Palace. If a king hides among a group of Venerables and starts a massacre, who can stop him? The Monarch Palace is dangerous, but it's also an opportunity. The former arrangements of the Monarch Palace won't allow things like this to happen."

Han Fei nodded slightly. "It doesn't matter. Which opportunity can be obtained for nothing? Since I was young, I've encountered a lot of opportunities."

Han Xuan nodded. "Also, don't rush to enter the Monarch Palace, because there are a lot of places that haven't been explored. Therefore, no one knows what's there. Walk slowly and feel every crisis."

According to my judgment, those crises don't appear for nothing. Since they appear, they should appear for a reason. Walking slowly has its benefits. Anyway, the Monarch Palace will be open for three years. When the time is up, everyone will be sent

out."

Han Fei suddenly said, "Sent out together?"

.....

Han Xuan said, "The places sent out are different, just like when you enter it. Of course, there is still a possibility of being hunted. Therefore, when people leave the Monarch Palace, there are often battles. This is one of the reasons why so many people died on the trip to the Monarch Palace. If 70% of the people died in the Monarch Palace, 20% died when they came out."

Han Fei thought of something. "So, if the few Sky Openers hunt us at that time, won't we be at their mercy?"

Han Xuan shook his head. "No! Of course not. The area within three million kilometers of the Imperial Palace is a place of competition for the entrances. Those in the Sky Opening realm don't dare to go there. If a Sky Opener wants to go there, there will definitely be great dangers blocking their way. Therefore, you see, none of the Sky Opening realm cultivators in the Raging Sea are preparing to go to the Monarch Palace."

"Great dangers?"

Han Xuan nodded. "That's what I'm worried about. There seems to be great dangers in the Monarch Palace, so I think the probability of exploring the entire monarch palace is extremely low, almost nil."

Han Fei nodded and said, "I see. As long as Sky Openers can't attack me, ordinary hunting is normal."

Han Xuan said, "It's good that you know! Go as far as you can. If you can't walk anymore and want to save your life, stop in a relatively safe place and wait for three years. I'm just afraid that the environment you are in doesn't allow you to do this."

Han Fei smiled. "You mean I may not be able to enter the Origin Sea?"

Han Xuan shook his head. "No, you can't. You may be able to use the power of the Origin Sea, but if you want to enter, your Origin Sea might be targeted."

Han Fei took a deep breath. "It does sound dangerous."

Han Xuan said, "That's all I know. Being slow is enough to increase your survival rate by 30%."

Han Fei cupped his fists. "Thank you, Uncle Xuan."

Han Xuan waved his hand. "Forget it. By the way, does your avatar want to go back with me? Yin'er has been urging me."

Han Fei thought for a moment and nodded slightly. "OK!"

Letting his avatar go to the Nine Palace World was naturally a way for Han Xuan and Yin'er to protect him.

Han Fei was not stupid. The Monarch Palace was so dangerous that he had to be prepared.

However, he believed even more that if he couldn't even explore the Monarch Palace, how could he open the sky and even become a monarch, let alone become a god?

When Xuan Qingzi, Bei Luo Chen, and Huo Bulie sensed it, they found that eight important trading centers in the Heavenly Imperial City had been destroyed. The Heavenly Imperial Tree had disappeared into thin air. Although the Supreme Clearness Immortal Locking Array was still open, there was no sign of the enemy.

Bei Luo Chen looked at the ancient sword hanging in the air and asked, "Who is the intruder?"

Everyone had already surrounded him. A king said, "Emperor Xuan, this attack was launched by Demon Han Fei, who came with a top king of the Nine Palace World. Han Fei attacked Yang Rui and the others in the Soul Sea and killed them..."

"Humph ~"

Xuan Qingzi was so angry that he clenched his fists, wishing he could find Han Fei right away and kill him.

Bei Luo Chen asked in surprise, "Are you saying that the Nine Palace World has appeared?"

The king nodded. "Yes, that person looks very much like Han Xuan."

"Han Xuan?"

Xuan Qingzi and Bei Luo Chen's hearts sank at the same time. This name, just like Han Guanshu back then, couldn't be underestimated. Han Guanshu was a person who was meticulous and cunning. He was the one who saved the Yin-Yang World back then. Otherwise, how could there be the current Han Fei?

As for Han Xuan, he was also a genius. This guy created the God of War Armor, a combat armor with extremely high intelligence. Back then, he used this to run away with the Nine Palace World. They didn't expect that Han Xuan would choose to appear at this moment just to snatch some resources.

Xuan Qingzi said, "They didn't dare to break into the Supreme Clearness Heavenly Palace. Otherwise, even if Han Xuan is here, they won't be able to escape."

Bei Luo Chen: "The Supreme Clearness Immortal Locking Array failed to lock the two of them?"

The king said, "Han Fei escaped from the river of time. He controlled the Great Dao of Time and left a time halo before he left."

Xuan Qingzi and Bei Luo Chen looked at each other. At this moment, Han Fei had already become so powerful that they could no longer do anything to him. Although Han Fei wasn't strong enough yet, if he successfully came out of the Monarch Palace, the consequences would be disastrous.

Bei Luo Chen said, "It seems that everyone has to try their best in this trip to the Monarch Palace. After all, we can't let him grow up."

Xuan Qingzi said, "I'm afraid it's unrealistic to continue to surround the Sword God World."

When Xuan Qingzi learned that four kings had died, He Daoyuan, the master of Supreme Clearness, certainly knew it too. At this moment, He Daoyuan's expression was also ugly.

It was not easy to become a king. Although there were many kings in the Supreme Clearness World, they couldn't afford losing four kings so easily. This must have been a sudden attack when Xuan Qingzi was not at home.

Now, Xuan Qingzi would definitely return, and Bei Luo Chen was not stupid. Han Fei even dared to touch the Supreme Clearness and Infinity. Would he not dare to touch the Infinity World?

Therefore, Bei Luo Chen would probably stay to guard the Infinity World.

Then, how did Huo Bulie dare to stay in his Heavenly Palace? If he did, he would probably die.

In the distance, the Sword God and He Daoyuan were confronting each other. The Sword God seemed to notice He Daoyuan's abnormality. He said bluntly, "He Daoyuan, it's actually not very useful to surround our four palaces. It's true that if you dare to fight me to the death, you can take down our four palaces at the expense of sacrificing a Sky Opening Realm cultivator, but the problem is, do you dare?"

He Daoyuan knew that his operation this time had failed. If he didn't go back to guard the Supreme Clearness World, if Han Fei took advantage of the opening of the Monarch Palace to cause trouble again, Supreme Clearness and Infinity might be able to bear it, but the other worlds wouldn't.

He Daoyuan snorted. "Retreat."

When He Daoyuan chose to retreat, Han Fei had already secretly reached the Golden Crow World. He didn't believe that Xuan Qingzi could still stay here after such a big thing happened.

However, when the Vast Ocean Navigator turned, Han Fei found that Huo Bulie was gone too.

"Son of a b * tch, you ran quite fast. Humph..."

Chapter 1987 Fishing Old Han Out

Since Huo Bulie ran away, Han Fei was no longer interested in going to the Golden Crow World.

But Han Fei didn't return to the Yin-Yang World immediately. He found a random place, took out his fishing hook, and planned to continue to study the Time Fishing Technique.

Before going to the Monarch Palace, he couldn't learn this new technique for nothing. He had to study how to use it.

The previous two experiments proved that the things caught with the Time Fishing Technique couldn't be preserved for a long time. Han Fei thought to himself, If pills can be caught, what about other things?

Han Fei immediately thought of Han Xuan's Thousand Opportunities Divine Ghost Compass. He didn't know if he could catch it. If he could, why would he bother to make one?

Han Fei threw the fishing hook and started fishing from the time node on the battlefield of the Supreme Clearness World.

The hook caught nothing, but Han Fei felt resistance.

Perhaps because the Thousand Opportunities Divine Ghost Compass was of a higher level, it was not easy to catch. But Han Fei didn't give up. Once, twice, three times... He actually caught the Thousand Opportunities Divine Ghost Compass the eighth time he tried.

At the moment when the Thousand Opportunities Divine Ghost Compass was caught, Han Fei felt that he could control it without even making it acknowledge him as its master.

It felt as if his consciousness was connected to the Thousand Opportunities Divine Ghost Compass. As long as he thought of something, arrays would appear in the void.

"Hu! With a thought, an array will appear. What a strange power."

And Han Fei sensed that there was something sealed in the Thousand Opportunities Divine Ghost Compass, which looked like a set of armor. He couldn't help but remember the armor Han Xuan wore when he sparred with him. It could deflect half of the force.

.....

However, to release this armor, he needed to untie the thousands of array chains around the Thousand Opportunities Divine Ghost Compass with a thought.

However, Han Fei was telepathically connected to the Thousand Opportunities Divine Ghost Compass, so a strange black armor quickly appeared on his body.

"Hiss! It feels so powerful. This armor seems to be alive."

Yes, Han Fei felt that this armor seemed to have intelligence. Did this armor have a soul sealed in it? Han Fei had a feeling that if he didn't move in battle, he could just let this armor control his body.

Unfortunately, no one came to spar with him.

Han Fei immediately thought of the ancient sword that he had just fought. That thing was really strong. He didn't know if he could catch it. That thing had its own consciousness too and was also very strong.

If he could catch that thing over, now that the force had been reduced by 50%, it might not be able to hurt him again.

11.

Therefore, Han Fei fished again, but this time, he fished twelve times in a row before he pulled out the ancient sword from time.

Although he had fought the ancient sword a moment ago, it was obvious that it was not easy to fish. As he expected, if he really wanted to use something, with this fishing speed, it would be too late when he finally caught it.

The moment the ancient sword appeared, Han Fei immediately shouted, "Hey! Evil Sword, come and fight me again if you have balls."

However, Han Fei was surprised to find that the ancient sword didn't attack him at all. Instead, it fell beside him and trembled around him.

"Huh? Why? Can I use it?"

"Hiss –

Han Fei couldn't help taking a breath. Can something I caught from time be controlled by me?

Han Fei grabbed the ancient sword with one hand, but the sword didn't resist and was easily caught by him.

"F*ck! So everything I catch belongs to me?"

Han Fei was a little confused too. He thought to himself, Isn't this Time Fishing Technique too powerful? If its function is so powerful, all the good things in the world can be used by me as long as I have seen them?

Han Fei grabbed the ancient sword and slashed backhand. In an instant, the spiritual energy and energy in his body were drained, and this was still not enough. Han Fei hurriedly activated the power of the Origin Sea.

Chi la!

A sky-splitting sword beam spanned thousands of kilometers across the sea, creating a trench dozens of kilometers deep at the bottom of the sea.

Buzz!

After this slash, Han Fei immediately saw that the ancient sword was unstable, as if it was about to dissipate at any time. Han Fei was shocked. Is this thing so strong?

Finally, after ten seconds, the ancient sword disappeared into thin air as if it didn't exist at all.

About 60 seconds after the ancient sword disappeared, the Thousand Opportunities Divine Ghost Compass also disappeared.

This time, Han Fei concluded that anything he could catch, be it weapons or resources, could be used by him.

But Han Fei immediately had a new idea. What about fishing a person?

Han Fei had planned to try fishing Huo Bulie, but then he thought that the other party might notice him. So, he decided to try how far he could fish, so he decided to fish Old Han.

Fishing Old Han meant that he would have to cross the time river of decades to return to the last time he met Old Han.

Swish –

One hook failed.

Two hooks failed.

In the end, on the fifth time, Han Fei pulled out a familiar figure from time. Who else could it be but Old Han?

Han Fei couldn't help being surprised. Although the section of the river of time he had crossed was a little far, Old Han was only in the Half-King realm at that time, so it was easier to fish him.

Han Fei couldn't help looking at Old Han, but he found that Old Han looked dull as if he didn't know him at all.

Han Fei asked tentatively, "Old Han, can you hear me?"

Han Fei shouted for a long time, but Old Han didn't respond. Then, Han Fei ordered, "Old Han, make me a cup of tea."

Then, Han Fei waved his hand, and a table and tea set appeared on the sea. Old Han was making tea with glassy eyes.

Han Fei couldn't help but sigh. "It seems that the things I catch are all limited! I guess Old Han will only stay for a while at most. Although the Time Fishing Technique is a divine technique, there are drawbacks. I might not be able to catch what I want immediately, and the time limit is the greatest drawback."

"Slurp! Ah ~"

Han Fei drank a cup of tea and thought for a long time, ready to explore other uses of the Time Fishing Technique.

But suddenly, Old Han said, "Don't, enter time..."

Buzz!

Han Fei suddenly looked at Old Han. He only saw a slight struggle on Old Han's face before he returned to a daze.

"Old Han, Old Han!"

Han Fei gestured in front of Han Guanshu for a long time, but the latter didn't respond at all. At this time, the old turtle said, "Did you just fish someone from time? How did you do this?"

Han Fei said, "I estimate that it should be a projection in history, so it can only exist for a moment before dissipating."

The old turtle asked, "Really? Then can you fish my Great Dao back?"

"Hiss!"

Han Fei's eyelids twitched, and he immediately said, "Old Yuan, you are really a f*cking genius."

Han Fei thought to himself that he had never tried to fish a Great Dao before, but wasn't Old Han warning him just now?

Han Fei was not in a hurry to use the Time Fishing Technique again. He couldn't help but say, "That's not right! Even if I catch your Great Dao back, won't it disappear?"

Old Yuan asked, "Will the Great Dao disappear?"

Han Fei asked, "Didn't yours disappear?"

Old Yuan: "Mine was swallowed by you."

Han Fei: "..."

Han Fei also suspected that if it was something like the Great Dao, it was really hard to say. He said, "Old Yuan, do you think your Great Dao can be regenerated after it collapses? Anyway, you're not dead."

The old turtle said, "I think it's strange too. Logically speaking, I should have died when my Great Dao was broken, but I'm still alive. This makes me wonder if there are still remnants of my Great Dao. Why don't you try fishing it? Anyway, we'll know if it's useful after you try it."

At this moment, Han Fei saw Old Han's figure fade away. Even when he disappeared, he was still in a daze.

Han Fei said, "OK, I'll give it a try. If it doesn't work, there's nothing I can do."

Han Fei thought to himself, Fishing for the Great Dao of others is really exciting. As he threw out the hook, he tried to cross the river of time and return to the past. Han Fei didn't know how to fish for the Great Dao, so he just recited it silently and cast the fishing hook.

However, Han Fei did catch something heavy. Han Fei's eyes glittered. "It worked!"

However, as soon as he said so, a power of time strangled him from the opposite direction. Han Fei was horrified and subconsciously let go, only to see his fishing pole instantly collapse.

"F*ck!"

Han Fei flashed with golden light and retreated ten thousand kilometers. A blue halo twisted where he was, and within a thousand kilometers, many creatures instantly decayed and withered.

Han Fei broke into a cold sweat. "Old Yuan, are you f*cking kidding me? If my reaction had been any slower, I would have been swallowed by that time. Son of a b * tch, it's too terrifying."

Han Fei was horrified. Just a moment ago, Old Han said not to enter time, and in the next moment, it happened. Fortunately, he reacted quickly. Just now, time was messed up and he was almost killed.

The old turtle was lost for words. "Well... I didn't expect this."

Han Fei said, "Forget it, I'm not going to study it anymore. Let's go... Anyway, you're only in the Sky Opening realm. I think I'll have to give it a second thought before I do what you ask me to do in the future..."

The old turtle: "..."

Chapter 1988 Goal: Monarch Palace

When Han Fei returned to the Yin-Yang World, everyone was already ready.

In the Thug Academy, the group of people were eating at a big round table.

Wang Dashuai said, "Junior Brother, did you forget us? Although we're not Half-Kings yet, we're not weak. We might be able to gain something from this trip to the Monarch Palace."

As soon as he said so, Old Bai scolded him, "Are you out of your mind? Do you really think you're invincible? Don't you know why Han Fei only allows the Half-Kings and above to go? You're not even a Half-King. Aren't you courting death if you go there?" Wang Dashuai mumbled, "Then the Void Vine..."

Old Jiang said, "Void Vine is very special. It can run very fast, but can you run as fast as it? It won't die even if a part of it is cut off. Come on, let me cut you into a few pieces and see if you can survive."

On the other side, Yi Xiyuan tugged at Zhang Xuanyu's arm. "Darling, take me with you! I feel that I'm super powerful."

Zhang Xuanyu said impatiently, "You're not strong at all, OK? Do you really not know how to spell the word 'death'? Even a Half-King might die there, let alone you, a mere advanced Venerable."

Buzz!

Suddenly, Han Fei appeared. "Hey! Are you eating? Make some room for me..."

Xia Xiaochan couldn't help but ask, "Where have you been?"

as

Everyone looked at Han Fei. They hadn't seen him in the past few days. They didn't know where he had gone. Now that Han Fei was strong and elusive, as long as he wasn't around, they felt that he had gone to cause trouble.

.....

Han Fei said, "Nothing. I went to the Dragon-Subduing World and the Supreme Clearness World."

Everyone : "...

Zhang Xuanyu pouted. "Look, is this human language?"

Le Renkuang said, "I bet he secretly went to rob people and make a fortune."

Han Fei couldn't help but glance at Le Renkuang. What a sharp eye! He guessed it right away.

Seeing Han Fei's look, everyone knew that Le Renkuang had guessed right. Old Jiang snorted. "You only know how to explore crazily on the edge of death. Don't get yourself killed one day."

Luo Xiaobai asked, "When are we leaving?"

Han Fei said, "Tomorrow."

"Tomorrow?"

Everyone at the table was surprised. Old Bai said, "Isn't there still three months?"

Han Fei said, "Near the Monarch Palace, there's an area with a radius of three million kilometers where Sky Openers can't reach. Therefore, I'll ask our allies for a road map tomorrow. Let's go in advance and enter the three million kilometers first."

Luo Xiaobai asked, "Why can't Sky Opening realm cultivators reach this place?"

Han Fei said, "It's said that it will cause great horror. As for what it is, I don't know."

Luo Xiaobai asked, "Is this three million kilometers a safe area?"

Han Fei said, "Not really. There's also danger within this area. But you can enter my Origin Sea first. When the Monarch Palace opens, I'll let you out."

Everyone couldn't help but look gloomy. With an enemy in the Sky Opening realm, they had to be very careful even when exploring secret realms. If they were accidentally caught by the enemy, the consequences would be disastrous.

The next day.

Snow God's Temple.

Han Fei and the Snow Lady met again.

The Snow Lady said, "I'm going too this time."

Han Fei asked in surprise, "Why?"

The Snow Lady said, "As I said before, some of the people who became kings back then have almost reached the end of their lifespans. If we don't go this time, it will be even more difficult for us to go in the future."

Han Fei frowned. "Why?"

The Snow Lady said, "This time, you caused a huge uproar. The Wild Abyss didn't stop you, and now it's said that the Supreme Clearness World has retreated. If you rise to prominence, who can feel at ease? Besides, many people are indeed about to reach the end of their lives. They have to go. This time, there might be a scene of many kings exploring the Monarch Palace together. The more people there are, the stronger they will be. Even if they are not allies, their goal of exploring the Monarch Palace is the same."

Han Fei said, "Got it. They choose to concentrate their firepower on this exploration to explore as far as they can and take as many opportunities as they can. Then it's up to fate whether they can survive or not, right?"

The Snow Lady: "That's right!"

Han Fei grinned. "So, Huang Jie must be going too."

The Snow Lady looked at Han Fei in surprise. "Is the Million Poison World your ally?"

The Snow Lady couldn't help but remember that when she went to the Land of King Death last time, Han Fei had boarded Huang Jie's ship. In that case, there might have been signs at that time, but she didn't know how Han Fei developed trust with Huang Jie.

Han Fei said, "I'm going first. Once we enter the Monarch Palace, if we can meet, we'll help each other. If not, take care."

The Snow Lady tilted her head and glanced at Han Fei. She was really a little emotional. How could anyone rise to such a level in such a short period of time? It was said that Han Fei's strength had already entered the top ten of the Sea Establishment Realm in the Raging Sea, and according to the data of the Martial Emperor City, he was currently ranked fifth. It wasn't that Han Fei could only be ranked fifth, but that he was ranked in the top five. It meant that he was ranked at least fifth.

But the fifth place was already beyond the reach of countless Sea Establishers. If it weren't for those Sky Openers, it could be said that Han Fei had already reached the top.

However, Han Fei didn't feel that way. He felt that there were still many people suppressing him. Not to mention the Sky Openers, Xia Xiaochan's mother, Xia Hongzhu, the Queen of War, had yet to recover her strength and was already in the Sky Opening realm. If her strength recovered, Han Fei suspected that she would be able to touch the threshold of the Monarch realm.

What made Han Fei feel most depressed was the existence of the Monarch Palace. It had suppressed the Raging Sea for 100,000 years. It could be imagined how terrifying a Monarch was. It could also be imagined that he was still far away from the ceiling of strength in this world. Even a Monarch could suppress the Raging Sea. Then what about an existence at the level of a god?

Han Fei had thought that the Monarch Palace would be in the inner sea, but in fact, it wasn't. If the Raging Sea was divided into the inner and outer sea, then the Monarch Palace happened to be in the outer sea, but its direction was in the east.

The Raging Sea took the direction of the Monarch Palace as the east. However, once you left the vicinity of the Monarch Palace, you wouldn't even know which direction was north, south, east, and west. You would only circle around and go back, or you would sink into the Raging Sea. So far, except for the Human King who went east, and Xia Hongzhu, no one had left the Raging Sea.

After Xia Hongzhu returned, it had been a hundred thousand years. Whether she could still find her way out was a mystery. This was because Xia Hongzhu and the others, who were the first batch of people to travel to the east, had never seen the Monarch Palace. The Monarch Palace appeared later.

Therefore, Han Fei even suspected that a Monarch-level powerhouse had deliberately sealed this place.

Anyway, following the route map given by the Snow Lady, Han Fei flashed for a full day. Although he took a break during this period, the distance was far away. During this period, Han Fei passed 13 landmarks marked on the route, and then realized that he had walked about two-thirds of the way.

Half a day later, Han Fei came to a warm sea area rich in resources and suitable for the survival of all creatures such as coral reefs. According to the Snow Lady, when one first came here, he would find that there were colorful colors here, but the deeper he went, the redder the color inside.

There were many towering stone pillars here, and the surrounding stone pillars were full of colorful plants and animals. As he went deeper, the main color of these stone pillars also turned red.

The Snow Lady warned him that he would officially enter the Monarch Palace after another 100,000 kilometers. As for where the Monarch Palace was, he couldn't perceive it with his perception. He could only enter it through the teleportation entrance that appeared in this sea area when the Monarch Palace opened.

However, there were hidden dangers in this sea area, and the level of danger was very high. The Snow Lady said that before entering the Monarch Palace, just in this sea area, ten to thirty percent of explorers might die.

Only when everyone was in the Half-King realm did the probability of death drop to about 10%.

Han Fei scanned around with his perception and immediately found the problem. When his perception extended about 110,000 kilometers, it disappeared as if it had been absorbed by some power. He couldn't see anything and seemed to be able to only see with the naked eye. "Oh! Interesting. Absorbing perception and making everyone blind. In such a vast territory, it's hard to say if we can meet anyone, but we will definitely encounter other forms of danger."

Han Fei thought for a moment. He had to go in anyway. It made no difference whether he went in now or later.

Buzz!

Han Fei leaped with golden light and appeared directly in this sea area. Han Fei didn't know where he was, but at this moment, there were wisps of red mist in the surrounding seawater, as if the seawater had become turbid. This red turbidity could halve normal vision.

Han Fei happened to be next to a colorful stone pillar. Although his perception was ineffective, he still tried to perceive around.

However, as soon as he spread out his perception, it touched the red mist, causing his perception directly to be swallowed, and he couldn't even perceive a meter away.

Whoosh!

While Han Fei was chuckling, he saw that the void next to him shattered into a pair of scissors and suddenly clamped over...

Chapter 1989 Collect Chaotic Qi

Colorful and poisonous, it was a fat worm with a tail like a pair of scissors. Its body was full of marine plants, shells, and seaweed, and it was stuck to the stone pillar. Its disguise was simply flawless.

This creature was already extremely fast, but Han Fei was a Sea Establisher anyway. The moment its killing intent burst out, Han Fei's eyes had already fallen on it.

Han Fei clasped his hands and grabbed the two scissors that could cut through the void. Seeing that it seemed to be a creature made of stone and grass, information popped up in his eyes.

< Name > Bloody Scissor Worm

< Introduction > Living in a place that has been suffused with blood for a long time, they grow by absorbing the suppressing power in the blood and Qi of this realm. The Bloody Scissor Worms can completely blend into the natural environment. In a non-combat state, they can be plants, insects, or stones. This worm is poisonous. Once the poison enters the blood, it can corrode the bloodline.

< Level > 88

< Quality > Exotic

< Realm > Advanced Venerable

< Chaotic Qi Contained > 59 wisps

< Battle Technique > Blood Light Scissors, Shadowless Scissors, Blood Dissolving Poisonous Spike

< Collectible > Blood Dissolving Poison, Blood Tail Scissors

<Absorbable>

.....

< Remarks > This insect is poisonous.

Han Fei saw that there were some dark green marks on his hands. Before the insect reacted, he tore the insect in half with his hands. The Void Lines were attached to it, and the Demon Purification Pot absorbed the Chaotic Qi in the insect's body quickly.

Han Fei couldn't help but smile. Sure enough, the more dangerous a place was, the greater the harvest. Although this insect hadn't reached the peak of the Venerable realm, it still had dozens of wisps of Chaotic Qi. At this speed, wouldn't it be easy for him to get tens of thousands of wisps of Chaotic Qi if he hunted for a few more months here?

Without stopping here, he continued to swim deeper into this place. The scenery along the way became more and more strange, because the colors here were too beautiful and pure. For example, Han Fei saw a large area of black and yellow striped sea anemones. The color was so pure that it was almost glowing, as shiny as polished gold.

There were also red poisonous mushrooms, blue and white spiders, and corals of various colors. Only the ground and the rock skin were dark red.

Han Fei felt that he seemed to have entered a sea of paintings. All kinds of colors surrounded him, making his eyes a little uncomfortable.

Han Fei thought that he would encounter a lot of danger, but when he walked forward, he found that no creatures attacked him. Except for the one just now, no other creatures ambushed Han Fei again.

Han Fei was curious. He fused with Little Black and Little White and soon discovered something wrong. He found that in a place that he couldn't see just now, after a sea anemone saw him, it immediately turned into a normal sea anemone, a colorful crab shrank itself into a stone, and a squid drilled into its nest.

It seemed that these creatures had discovered Han Fei long ago. "Huh? I couldn't even discover them. How did they discover me?" Han Fei flew past these creatures, but they didn't attack him. Instead, he found that these creatures weren't very strong and didn't even need to be hunted.

After searching for quite a while, Han Fei went at least a million kilometers deep. When there were more and more turbid red particles in the surrounding seawater, he found a Blood Coral Spider in the Half-King realm under the guidance of the Vast Ocean Navigator.

The spider disguised itself very well. Under the cover of the turbid red mist, it could even conceal its spiritual energy and energy state. If Han Fei hadn't seen its information, he would have missed it.

When Han Fei approached the spider, he took action. Unlike other creatures, although the spider didn't move, a big net fell silently. The moment the big net fell, Han Fei felt a sharp claw extending out of the void and stabbing the back of his head. The speed was so fast that it was impossible to defend against.

"Oh!"

Han Fei waved his hand, and a knife light burst out. In the next moment, the net broke and the claw shattered. From beginning to end, the spider didn't move at all.

Han Fei didn't attack immediately. He just wanted to see if the spider would attack again. As he expected, the spider didn't attack again but stayed still, trying to hide itself.

"Huh?"

Han Fei couldn't help but wonder. This spider's combat power was not low, and its attack methods were not bad. If it were an ordinary Half-King, he might not have been able to completely dodge it. Besides, even if he dodged this sneak attack, so what? The spider's original body hadn't even attacked.

It could be seen that the Half-King creatures here had extraordinary hunting methods. This was why most of the people coming from the Raging Sea to explore the Monarch Palace gradually became Half-Kings here.

However, the spider didn't attack again because it found that Han Fei was very strong. But this time, Han Fei keenly noticed that when he shattered the claw sting, a tiny part of the turbid red mist in the water passed through his body after it shattered.

"No wonder!"

Han Fei suddenly understood why no creatures attacked him along the way. It turned out that when he was destroying the red mist, this strange red mist seemed to reflect his strength.

Han Fei checked the reflection but didn't find anything. Yes, even with his strength as a king, he didn't find anything wrong with the red mist, nor did he find anything on his body. It seemed that only the creatures here could feel it.

Therefore, when Han Fei approached other creatures, these creatures could know how powerful Han Fei was, so they didn't attack him at all.

Han Fei was speechless. So, a king in this so-called dangerous area was actually equivalent to being in a safe area?

In that case, the Embroidery Needle appeared in Han Fei's hand, and he thrust out his spear, nailing the blood-colored coral spider to death.

The Void Lines buckled, and Han Fei put his hand on the rock-like spider and swallowed its Chaotic Qi.

Han Fei grinned. "In that case, I won't hold back. Xiaobai, let's hunt."

Han Fei said in high spirits, "Little White, find me the Half-King creatures here."

However, after a brief stun, Little White looked at Han Fei. “Dad, I can’t find any.”

“Huh?”

Han Fei, who was in high spirits just now, was dumbfounded to hear what Little White said. He asked in surprise, “How can you not find it? How can they hide from your eyes?”

Little White swam around Han Fei a few times. “Dad, I can’t feel anything, spiritual energy, or energy. I can’t even see a hundred meters away...”

Han Fei’s heart sank. It seemed that he was still too naive. It made sense. If the Half-Kings here were so easy to hunt, this place would have become a resource gathering ground for the kings in the Raging Sea. Then there wouldn’t have been any Half-Kings left here.

Therefore, if he wanted to hunt, he could only do it through the Vast Ocean Navigator. According to the speed of hunting three times a day, he could only hunt 90 times a month. Even if the average Chaotic Qi contained by a Half-King was about 150 wisps, it was equivalent to 13,500 wisps of Chaotic Qi. Plus the Chaotic Qi he had accumulated now, it would exceed 45,000 wisps.

Han Fei’s heart did a flip. It was already a lot. At least, if he came out of the Monarch Palace in the future, he could hunt here for a year or so. As long as there were enough Half-Kings here, it wouldn’t be difficult for him to accumulate Chaotic Qi.

With this in mind, Han Fei immediately took out the Vast Ocean Navigator. The hunt had officially begun.

Three months later.

Han Fei estimated that it would be less than two days before the Monarch Palace opened.

In the past three months, Han Fei had hunted 102 Half-Kings, some of which he found and killed.

This was not bullying the weak, but the law of survival in nature.

During this period, Han Fei had obtained 15,096 wisps of Chaotic Qi, and his total Chaotic Qi had reached 46,015 wisps.

The amount of Chaotic Qi he stored now was probably the most in the entire Raging Sea. He had asked the old turtle how much Chaotic Qi a Sea Establisher should store.

However, this time, the old turtle didn’t have an accurate explanation. He could only provide information about him. He said that when he transcended the tribulation to become a king, the amount of Chaotic Qi he had had just exceeded 50,000 wisps.

This number really shocked Han Fei, because among the kings Han Fei had killed so far, who had so much Chaotic Qi?

However, the old turtle explained, “But I slept on an ancient battlefield for tens of thousands of years. An emperor-level powerhouse died on that battlefield, so I absorbed a lot of Chaotic Qi.”

Han Fei thought to himself, The old turtle is an exception. He had so much Chaotic Qi because of opportunities.

He hadn't even surpassed the old turtle, so he didn't think that his Chaotic Qi was the most anymore.

Buzz!

Suddenly, when Han Fei was preparing for today's hunt, the red mist in this sea area seemed to be boiling.

Immediately afterward, Han Fei saw that all the creatures he saw no longer hid themselves.

For example, a sea anemone in the junior Venerable realm not far from Han Fei suddenly bloomed. Every sea anemone tentacle was a sharp knife that could extend a hundred meters.

Han Fei passed by other places and found that wherever he passed, all the creatures no longer hid themselves and appeared one after another.

However, Han Fei felt that they seemed to have entered a berserk state.

"Is this the so-called entrance danger?"
