Chapter 2001 Whoever Takes My Treasure, Die

The corner of Han Fei's mouth twitched. He looked at the skeleton lying on the gorgeous seat that looked like a throne. "Give a treasure to her?"

Everyone nodded.

Han Fei couldn't help but ask, "What will happen if I don't?"

Liang Yin said, "So far, it seems that only by giving him what he wants can you have a chance to leave this place."

As soon as Liang Yin said so, a voice sounded in the void, and it was a woman's voice. This voice said, "This is the Temple of Greed. Only by offering treasures can you leave."

Han Fei looked around and confirmed that the source of the voice was the skeleton.

Xu Lian said, "This sound will appear once every hour."

Han Fei's first thought was, "Why didn't the three of you join forces to kill this guy?" The three of them couldn't help looking at Han Fei. Is this the style of a bandit? He wants to kill the guardian of the palace in the Monarch Palace? Is he a born bandit?

However, Xu Lian said, "I was the first to come here. I searched every corner of this place but didn't find a place to go out."

Qiu Yueming said, "After I arrived, I proposed to attack the skeleton on the throne. However, we tried but were blocked by an invisible barrier and given a warning."

Han Fei asked, "Warning?"

Qiu Yueming: "The first attack was just a verbal warning. If there is a second attack, the sacrifice will have to be doubled..."

Han Fei couldn't help but ask, "What about the third time?"

Liang Yin said, "Sacrifice all your treasures, including those that have recognized you as their master."

Han Fei immediately smiled. "Why? You'll just give her whatever she wants? Uh... don't tell me you have given your treasures to her!"

Regardless of whether others gave their treasures to her or not, Han Fei wouldn't do that. Although this was the Monarch Palace, so what? Unless the person in front of him was a real Monarch, it was impossible for him to give her anything.

Han Fei firmly believed that this person could never be a Monarch. Look at her luxurious clothes, she was clearly a vain and corrupt female skeleton. Look at the decoration style of the entire palace, even the floor tiles were made of gold and jade.

To be honest, Han Fei was tempted the moment he entered this place, especially the ship behind. He really wanted to stuff it into his Origin Sea as his trophy.

Qiu Yueming nodded. "Yes, but... she doesn't want our treasures."

"Huh?"

Qiu Yueming explained, "This skeleton seems to be able to judge the level of the sacrifice. She doesn't accept ordinary items and they will be bounced off."

Han Fei: "..."

Han Fei was amused. She was really spoiled.

The three kings thought that Han Fei would attack and break this place. However, with a flip of Han Fei's hand, the Vast Ocean Navigator appeared in his hand.

The moment the Vast Ocean Navigator appeared, the three kings all looked at the Vast Ocean Navigator in Han Fei's hand and guessed.

Han Fei asked, "Where is the Monarch of the Monarch Palace?"

Han Fei asked this question because he was afraid that the location of the skeleton was the only way to find the Monarch. When the Vast Ocean Navigator pointed at the skeleton, should he make a sacrifice or not?

Sure enough, the Vast Ocean Navigator didn't point.

Han Fei smiled disdainfully and said, "Where are the Sky Openers in this palace, including those who have died?"

Ka ka ka ~

The Vast Ocean Navigator began to spin, and the five wheels only turned a few times before pointing at the skeleton wearing all kinds of gorgeous jewelry.

Han Fei couldn't help but grin. "You're just in the Sky Opening realm. If you were still alive, it would be terrifying, but you've been dead for so long. Do you still think you're something?"

At this moment, the other three looked at the Vast Ocean Navigator in Han Fei's hand in surprise and then at Han Fei in shock.

Xu Lian said, "Has this thing really been made?"

Han Fei didn't care about the surprise of Xu Lian and the other two. He took out the Vast Ocean Navigator in front of them just to show them.

With the strength of these three people, so what if they saw it?

Besides, the Spirit Refining World and the Sanskrit Music World were not his enemies. He wanted to subdue them by showing them the Vast Ocean Navigator.

Since Han Fei was sure that this skeleton was only in the Sky Opening realm, he had nothing to worry about. Logically speaking, Han Fei felt that he had already exceeded the limit of the Sea Establishment realm.

If one didn't use a secret technique and just relied on his own strength, it was almost impossible for his strength to reach 500,000 waves. Even 300,000 waves were very rare. Even when Han Fei fought Han Xuan, he didn't feel the suppression in strength.

Although Sea Establishers didn't depend on strength, was his Great Dao weak?

Besides, his Great Dao had improved a step further. If he really used all his strength, he might be able to display a terrifying power of more than a million waves. He could probably blow up a Sea Establisher with a single punch.

Han Fei jumped with golden light, as if he wanted to ignore the so-called barrier and go straight to the corpse.

Bang!

But then, the terrifying impact shook the entire palace.

Han Fei was speechless. Now anything could block his golden light? Unfortunately, this barrier had been set up for too long and he couldn't bypass it through the river of time.

Han Fei's body was only slightly numb, but he recovered soon.

A voice echoed in the palace, "Warning! The heavenly might must not be provoked. If it happens again, the wealth and treasures to be sacrificed will be doubled."

Han Fei grinned. "Doubled? Heh..."

Han Fei took out the Embroidery Needle and activated his Great Dao. In an instant, he unleashed all his strength and smashed it at the two nearest pillars in the palace that were inlaid with gems and various demon essence and crystals.

And the target of the Embroidery Needle was the rich skeleton covered by gold and silver.

Boom! Boom!

Even if the building of the Monarch Palace was extremely hard, it wasn't so hard that even Han Fei couldn't shake it. Otherwise, wouldn't it mean that even an ordinary pearl here had reached the point where even a Sky Opening realm cultivator couldn't break it? Then how could the Monarch Palace be for a Monarch to live in? It should be for a god to live in!

Sure enough, the two pillars exploded, and a large number of treasures were scattered all over the ground. What shocked Han Fei was that even the f*cking pillars were full of treasures, which were dazzling and fancy. Han Fei even saw a lot of Mystic Yellow Stones.

In addition to the Mystic Yellow Stones, Han Fei felt that there were many gem mines here that seemed to be able to be used to refine Sea Quelling Bizarre Treasures. Not to mention anything else, these two pillars alone should include 100,000 pieces of scattered gems, which could be used as 100,000 Monarch Palace keys.

"Gulp ~"

Qiu Yueming and the other two were dumbfounded. Lunatic, this is simply a lunatic. Can you be so unscrupulous just because the skeleton is in the Sky Opening realm? What do you take the Sky Opening realm for?

At this moment, Han Fei's rod shadow didn't stop. It swept around and finally hit the corpse.

Boom –

Rumble! Rumble!

The terrifying power directly shook Qiu Yueming, Xu Lian, and Liang Yin until their bodies slid on the ground and they were pushed back to the corner by the surging airwaves.

In fact, the three of them who were wearing battle suits had to hold shields to circulate their Great Dao to block the aftershock.

Crack ~

At this moment, in the eyes of the three of them, the invisible barrier was full of cracks, as if there were white cracks in the void.

This meant that Han Fei's rod almost shattered the invisible barrier of the corpse.

Besides, judging from the residual power, they didn't know how strong Han Fei was now. Qiu Yueming had seen the battle between Han Fei and Feng Xinlan, but she still didn't expect Han Fei to grow to this point in just a few decades!

Earlier, she didn't believe that Han Fei could fight a Sky Opening powerhouse, but now she had no reason not to believe it.

Seeing that the barrier was not broken, Han Fei turned his hand and collected the various gems and Mystic Yellow Stones that were scattered all over the ground. He sneered. "It's always I who rob others. No one can rob me. What can you do to me?"

Sure enough, this time, the corpse didn't make a sound anymore, as if warning him was meaningless. The golden skeleton lying on the throne slowly stood up. The precious jewelry on its body clanged. Then, the kings saw that the skeleton's eyes were burning with faint blue soul fire.

A voice sounded in the palace, "Whoever takes my treasure, die..."

The golden skeleton slowly got up. In the midst of the jewelry and treasures on the ground around her throne, demonic essence and mystic crystals flew up and attached to her bones.

Han Fei couldn't have felt worse. More than 20 colorful gem rings appeared on her ten skeleton fingers that were shaped like dead branches but showed the color of gold and jade. From her wrist to her arm, bracelets of various materials were hung on them, such as the Black Sky Treasure Jade, the Green Light Jade Essence, the Crimson Fire Glazed Crystal, and so on. There were more than a hundred of them.

On this person's neck, there were naturally various necklaces. A crown appeared on her head at some point, and on the crown was an unknown gem the size of a goose egg.

Anyway, she was really... rich.

Chapter 2002 Others Fear My Greed

“A zombie?”

Han Fei didn't panic. Holding the Embroidery Needle, he secretly activated the Chaotic Qi. From the looks of it, there was no escape from fighting. Compared to the Insect Tide Forest and the mirror space, Han Fei preferred this kind of test that could be passed by fighting.

After all, he still had some confidence in winning the battle, but as for the Insect Tide Forest and the mirror space, to put it bluntly, if you didn't get enough comprehension, you would never be able to come out.

How could there be such a huge amount of resources waiting to enter his pocket? As long as he killed this rich skeleton.

Qiu Yueming and two other kings had seen Han Fei's behavior clearly. He was simply a lunatic who fought without hesitation. Now, the skeleton had come back to life, using precious mystic crystals as her blood and flesh.

Han Fei sneered. “That skeleton, I advise you to let me go obediently. I can still leave you some wealth. Otherwise, don't blame me for taking your entire palace.”

“Chi la

“

The skeleton bounced up from the throne. When its figure passed the invisible barrier, it underwent a strange change. It turned into a beautiful woman with red hair, a beautiful face, and a voluptuous body.

However, no matter how she changed, she still looked so rich. The woman floated to Han Fei and pressed her palm down.

me

Han Fei felt that his body stiffened slightly, and his body seemed to be covered with some kind of golden jade. “Hehehe... You're the first who wants to snatch my treasure.”

corner

Qiu Yueming and the other two were dumbfounded. They leaned against the corner of the wall, thinking to themselves, Is it so weird? They had never been to this palace before. This was their first time here, and it felt weirder than any palace they had ever seen.

In particular, when they saw a skeleton turn into a beauty and attack Han Fei, they were even more horrified. It seemed that Han Fei was frozen.

“Hmph!”

The third eye between Han Fei's eyebrows suddenly opened, and his heart pounded like thunder.

Bang!

At the last moment, Han Fei counterattacked and punched out with the Sacrificing Punch. The terrifying power had been more than a million waves. Under such a violent force, Xu Lian and the other two had to mobilize half of their strength to resist the impact.

Crack! Crack!

Under the impact of such a violent force, the big ship that was inlaid with gold and jade began to slide and crash into a certain wall of the palace.

Rumble! Rumble!

Bang!

Han Fei was pushed back more than a thousand meters and hit a pillar. The huge force of inertia directly shattered the pillar.

However, Han Fei had completely withstood such a blow. On the other hand, the skeleton beauty was not unscathed under Han Fei's punch. She leaned back and sat on the throne like a feather.

"Giggle! You're a very strong man. I know what your most precious treasure is... It's your invincible heart!"

Han Fei grinned. "You want my heart? Old woman, you're already a skeleton. Do you think you deserve my heart?"

Buzz!

On the throne, a ripple spread out, and the beautiful woman's face turned cold. "Who are you calling an old woman?"

Han Fei smiled. "I'm talking about you, old woman. You're already a skeleton, but you're still pretending to be young. Even if you bring all the treasures in the world, you can't restore your appearance. You're already dead."

"Ahhh"

With a scream, the beautiful woman shouted, "I'm going to swallow your luck, destroy your Great Dao, and make you a part of this treasure..."

The beautiful woman waved her hand, and on the bronze platform used for sacrifice, many treasures rose and attacked Han Fei.

"Dharma Idol."

Roar!

In front of Han Fei, his Dharma Idol appeared, and Han Fei had already appeared above the giant's head, shouting, "Sacrificing Punch."

Boom Boom Boom ~

Han Fei ignited the Chaotic Qi and fought with all his strength as assisted by the Dharma idol. Even a casual punch he threw out would be blocked by the void.

The entire palace began to shake, and the ultra-quality Divine weapons and Sea Quelling Bizarre Treasures were all sent flying by Han Fei's crazy blow.

Since he had come to the Monarch Palace, Han Fei had never thought of preserving his strength. Unlike others, he didn't intend to only explore a small part of the Monarch Palace. Danger was often accompanied by opportunities. The stronger the enemy, the greater the opportunity. If he looted all the treasures in this palace, it would definitely be very beneficial to his Origin Sea. Han Fei certainly wouldn't give up the rare treasures here.

Han Fei had even prepared a five-level Dao Pattern Pill. He didn't believe that the corpse of an emperor that was only left with bones could exert much power.

When he sent the treasures and divine weapons flying, one of his Dharma Idol's arms was also destroyed. But as Han Fei tilted his head, the huge arm regrown. Han Fei shouted, "It seems like you want to do this the hard way. Since you've died, I'll send you to hell."

Han Fei attacked with two fingers and launched All Great Daos in One Sword, almost shattering the void. But Han Fei didn't expect the space here to be so solid.

However, it didn't matter. With the eruption of All Great Daos in One Sword, even the skeleton had to take the battle seriously.

"Giggle! What a powerful man. I like you... I have a lot of treasures here!"

The beautiful woman reached out and grabbed, and a golden shield appeared in front of her.

Clank –

Buzz!

Bang! Bang! Bang!

In the palace, a massive amount of treasures shattered and fell. The brilliance of the explosion enveloped the entire palace.

"Pu! Pu! Pu! Pu!"

Qiu Yueming, Xu Lian, and Liang Yin vomited a mouthful of blood under the shockwave.

The three of them were shocked. Is Han Fei already so powerful? What kind of power is this? He can already fight a Sky Opening realm powerhouse?

Qiu Yueming wasn't worried. When she learned Han Fei's identity, she knew that the two parties were already allies.

As for Xu Lian and Liang Yin, because they were both masters of the Heavenly Palaces in the thirteen worlds in the outer domain and had been ruled by Supreme Clearness and Infinity for so many years, how dare they betray them easily? Although they were not completely attached to Supreme Clearness and Infinity, they would still ask them for help when they encountered difficulties.

Now that the Yin-Yang World had returned, the old grudge between the Yin-Yang World and Supreme Clearness and Infinity had been mentioned. Sooner or later, there would be a war between the Yin-Yang

World and Supreme Clearness and Infinity. As far as they knew, the four palaces of the Sword God stood on the Yin-Yang World's side, as well as the Nine Palace World that had recently appeared.

Considering Han Fei's current strength and his ally, Sword God, Han Fei seemed to be really qualified to compete with Supreme Clearness and Infinity.

This made Xu Lian and Liang Yin's imagination run wild. If Han Fei could return safely this time, the layout of the Thirty-Six Mystic Worlds would probably change!

They had never seen such a reckless person who wouldn't even hesitate to start a war with an emperor.

All Great Daos in One Sword erupted, and Han Fei sneered, because the Yin-Yang Reincarnation Saber also erupted.

There was no telling if it was Han Fei's illusion, but the beautiful woman seemed to have aged a lot. A steady stream of new treasures attached to her body, and her appearance restored.

Han Fei's heart did a flip. Did these treasures give her power? In the blink of an eye, Han Fei was already standing on the big shiny ship, and forcibly collected the ship into his Origin Sea.

The beautiful woman panicked. In the blink of an eye, she had arrived in front of Han Fei. Han Fei extended his hand and slowed down the time in front of him. When the beautiful woman pressed down her palm, a golden light flashed, and Han Fei disappeared with the big ship.

Launching All Great Daos in One Sword again, Han Fei broke a gap in the invisible barrier.

Buzz!

As long as there was a gap, Han Fei could enter. When the beautiful woman looked back, Han Fei was already sitting on her throne.

Around him, a massive amount of treasures, including the throne, were forcibly collected by Han Fei.

"Ah! No one is allowed to deprive Master of his wealth. Million Treasures Return, Heavenly Treasure Cage." As soon as Han Fei collected these resources, he discovered that countless golden chains appeared in the surrounding void, locking him in.

The beautiful woman threw out a milky pearl. The pearl seemed to be able to arouse the greed in people's hearts. Even Han Fei was a little stunned when he saw it.

However, in the battle, while Han Fei felt that the pearl was a treasure, he also felt that he was in great danger. If he was shot by the pearl, the consequences were unpredictable.

Han Fei narrowed his eyes. At this moment, he certainly didn't have a chance to break the cage. He immediately roared and activated the Twin Divine Technique. With a flash of golden light, his black-mist body stepped into the river of time and escaped from the time node of the gap in the barrier just now.

As for his white-mist body, Han Fei didn't care about it and just let the beautiful woman kill it.

At this moment, when his white-mist body was blown up, Han Fei suddenly appeared behind the beautiful woman and launched his strongest blow.

Bang!

Boom! Boom!

Puff, puff, puff! Xu Lian and the other two vomited blood. The space was too narrow, and they were almost watching a Sky Opening realm-level battle. They never expected to encounter such a battle so early.

The three of them felt that they would be lucky if they didn't die this time.

Yes, now Han Fei's strength was completely recognized by them as in the Sky Opening realm.
