

GOF 2003

Chapter 2003 Clear Water Qilin Blood

At this moment, even if the other party was a corpse, Han Fei didn't dare to be careless because he was facing a Sky Opener.

In the end, he sacrificed his white-mist body in exchange for a chance to escape from time and give the corpse a wave of Immortal Fiend Saber.

The moment the Immortal Fiend Saber touched the beautiful woman, it erupted twice in an instant. This was the Time Manipulation Technique that Han Fei had comprehended.

Rumble! Rumble!

Liang Yin and the others were forced to group up. The three of them worked together to stop the aftershock of the Immortal Fiend Saber. They were all speechless. Could Han Fei be stronger?

In the explosion, the entire palace shook, and countless treasures and mystic crystals fell.

As for the beautiful woman, although she was indeed strong, she was hit by Immortal Fiend Saber twice in a row. Besides, Han Fei's strength was completely different from before he entered the Monarch Palace, so this terrifying power directly shattered the beautiful woman.

Countless treasures fell off, and her body returned to its skeleton state.

At this moment, Han Fei felt that the power of the corpse was declining rapidly.

The corpse still wanted to suck the scattered treasures over. How could Han Fei let her do that? With the treasures, the corpse would have power.

Buzz!

In an instant, Han Fei turned into hundreds of clones and quickly swept the scattered treasures.

Han Fei shouted, "You three, help me collect the resources. Don't let any treasure fall into the hands of this corpse."

Hearing this, the three kings chose to take action without hesitation. It seemed that Han Fei had already won. Besides, Han Fei's super explosive power was not something they could resist at all. Therefore, at this moment, they couldn't do anything except listen.

With the four of them working together, the speed at which they looted resources was fast. Anyway, Han Fei had already started fighting and even won. There was no reason for them not to take action.

Besides, Han Fei clearly didn't want to kill them. He even showed them the magic Vast Ocean Navigator. In fact, his meaning was very clear. He was warning them that if they could get out alive, they'd better stand on the side of the Yin-Yang World, because the Yin-Yang World had controlled the way to leave the Raging Sea.

At this moment, the scattered resources on the field were gathered almost instantly.

The skeleton didn't get much treasure, so it couldn't recover. But just as Han Fei was about to take the opportunity to chase it, the skeleton suddenly turned around and looked at Han Fei, roaring desperately, "You robbed me of my treasure. I curse you, curse all these treasures. Pour bad luck into you and devour your soul..."

The skeleton spewed out a large amount of black fog, which turned into strange runes that filled the sky and drilled into these treasures.

Han Fei retreated and immediately shouted, "Heaven Enlightenment Divine Technique."

Buzz!

When the divine light descended and swept across, a large number of runes in the field were purified.

Xu Lian and Liang Yin looked at each other. Although they already knew that Han Fei could use the Heaven Enlightenment Divine Technique, this was the first time they had seen it at such a close distance.

Liang Yin thought to herself, It's really the Heaven Enlightenment Divine Technique, so this curse power can be purified so easily.

Xu Lian's eyes twitched. It seemed that if he could return this time, he really had to think about who was worthy of following. People like Supreme Clearness and Infinity were actually just the overlords of a region. They just had rich accumulation, but as for people like Han Fei, he was really too much of a Heavenly Talent. No one could see through his potential at all. No one knew how strong he could become.

Ka ka ka ~

After the massive number of runes erupted, the skeleton collapsed into a pile of bones, no longer looking like a queen.

Han Fei was slightly relieved. He circulated the spiritual energy in his body and recovered after only a moment. Restoring the collapsed white-mist body only cost him 500 years of vitality.

After he became a king, the recovery requirements of the Twin Divine Technique had become higher, so it needed 500 years of vitality now. If it were before, he only needed 200 years of vitality to recover.

Of course, Han Fei planned to spend 20,000 years of vitality on this trip to the Monarch Palace. 500 years was nothing.

When Han Fei recovered, he issued an order in his heart, and the Infinity Water began to overturn the ground like a big shovel. The floor tiles on the ground, the walls, and the treasures and pearls in the dome were all collected.

Han Fei made a fortune from this cleaning. Han Fei had obtained more than ten thousand Mystic Yellow Stones, countless demonic origin of various colors, and a large number of Mystic Crystal Stones... In terms of value, many of them could be used to refine Sea Quelling Bizarre Treasures. And as minerals, they were all extremely precious and could greatly make up for drawback of his Origin Sea that it lacked mines.

Besides, the old turtle reminded him, "Take this ring."

Han Fei was briefly stunned and looked at an ordinary-looking ring. It was one of the many rings the skeleton was wearing just now. This ring was white and seemed to be made of some kind of shell.

When Han Fei sensed it, he found that the shell space was more than 800 kilometers wide.

Yes, Han Fei wasn't wrong. This thing was much stronger than the Sun-Moon Shell. It was definitely a top space treasure.

Han Fei was surprised. "What ring is this?"

The old turtle said, "If I'm not wrong, this should be made of Star Shells, the best of the best Star Shells."

"Star Shell?"

Han Fei also found a lot of resources in the ring, which made him even more tempted.

It turned out that it contained more than 30 million ultra-quality spiritual stones, several Sea Quelling Bizarre Treasures, tens of millions of cattles of spiritual spring, and nearly a million Mystic Yellow Stones hidden here. There were also various kinds of precious materials...

"Huh?"

Suddenly, Han Fei found that there was a bottle of strange liquid sealed for many layers hidden here.

Han Fei's heart did a flip, and a long-lost piece of information appeared in his mind.

Number of clans in the Infinite Ocean: 29620223

Master: the 932,564th

Nearby Bloodlines: Clear Water Qilin, Time Dragon Carp, Golden Crow Blood, Twin Yin-Yang Spirit Swallowing Fish, Emperor Sparrow, Hexagon Starfish...

Recommended Bloodline: Clear Water Qilin

When Han Fei saw the Clear Water Qilin Bloodline, he immediately took a breath. Up to now, he hadn't encountered any bloodline that he could continue to absorb. This Clear Water Qilin came just in time. Although he had many bloodlines, none of them were useful. Han Fei urgently needed a bloodline to make the transition.

Han Fei broke the seal without hesitation and activated the Bloodline Devouring Technique. As soon as he activated it, Han Fei discovered that the swallowing time this time reached 112 years.

Han Fei couldn't help being curious. "Old Yuan, have you heard of the Clear Water Qilin?"

"Clear Water Qilin?"

The old turtle thought for a moment and said, "Of course I've heard of it, but the Clear Water Qilin is an auspicious beast, good at healing techniques and has an extremely long lifespan. But it can't be called a divine beast because it's not qualified, nor can it be considered a prehistoric ferocious beast, because it's not good at fighting at all. At most, it's a primordial exotic species."

"Oh! I see."

Han Fei had a rough idea. If it was really at the level of a divine beast, he probably wouldn't be able to devour the bloodline of the Clear Water Qilin.

If it was an ancient exotic species, Han Fei felt that this bloodline swallowing might only push his ranking about a hundred thousand places up.

However, this was not important.

If he could become an emperor, his bloodline level would increase further, and he might be able to absorb bloodlines faster and could even absorb the essence blood of Time Dragon Carp and Hexagon Starfish.

After sorting out the resources, Han Fei couldn't help but sigh. He had gained a lot from this trip. The problem of bloodline growth was temporarily resolved. With the precious resources of this skeleton, his Origin Sea would become stronger. Now he just needed to continue to expand it and arrange its layout.

Then, Han Fei turned his eyes to Qiu Yueming and the other two.

With a look from Han Fei, the three of them immediately understood and threw all the resources they had just snatched to Han Fei.

Han Fei smiled. "I want to ask, how did the three of you come here? Did you meet the kings of the other races?"

Liang Yin said, "I met a Sea Establisher of the Merman Royal Family earlier, but we didn't fight because our goal is not fighting."

Xu Lian said, "I didn't meet any other kings, but I met some people from the Sanskrit Music World. We probably happened to enter the Monarch Palace at a similar place."

Qiu Yueming said, "I fought a king of the undersea human race. When I came into this palace, I happened to encounter a few human Half-Kings."

Han Fei couldn't help but ask, "You met Half-Kings?"

Qiu Yueming said, "That's right! Those people are not weak. The last place I was in was a vast forest where demonic plants were rampant. Because the place is big, it's normal to have many exits."

Han Fei nodded slightly. It seemed that it was indeed a coincidence. However, Han Fei was a little puzzled. Why did four human kings come to this place? This probability was actually not high. After all, there were many other races coming in this time.

But Han Fei didn't think too much about it. He took out the Vast Ocean Navigator again, and it pointed at the throne.

But this place had been shoveled, and there was nothing left except a wasteland.

Therefore, Han Fei guessed that the Vast Ocean Navigator was referring to the void node. He reached out, tore the void, and reached in.

Then, he took out a small token. On it was the word "Greed", and on the opposite side was an engraved array.

With a thought, Han Fei activated the array with Qi Condensation. Immediately, complicated patterns appeared on the ground. Han Fei found that it was a random teleportation array, but the random nodes seemed to have been drawn long ago.

Han Fei said casually, "You owe me a favor this time. Do you agree?"

Chapter 2005

A Terrifying Hand

The Infinity Water absorbed the essence of water, but what the Snow Lady and the others encountered was not the essence of water, but more like other Infinity Water. After the two fused, it became the current ultra-quality Sea Quelling Bizarre Treasure, the Infinity Water.

In terms of ultra-quality Sea Quelling Bizarre Treasures, in the entire Raging Sea, it seemed that only Lei Qing could forge them. Even if Lei Qing had once helped others make some, the number of them in the entire Raging Sea probably didn't exceed ten, or even five.

This time, Han Fei seemed to have picked up a bargain. He just didn't know if there was Infinity Water essence ahead anymore. If there was, the more the merrier. Perhaps it could even make the Infinity Water advance to the level of a godly weapon.

Han Fei grinned and chased in the direction of the Snow Lady and the toad as a golden light flashed.

After only a hundred seconds, Han Fei saw a dark blue undersea cave.

The Vast Ocean Navigator pointed at it and Han Fei got in without hesitation.

As soon as he entered the black hole space, Han Fei felt that the world was upside down. He turned around and appeared on a small island.

Of course, like other places, he couldn't perceive anything on this island. However, the devastated scene, the rich blood Qi, and the still violent impact of power made Han Fei know that there seemed to be a big battle here.

Han Fei stepped into the air and headed for the center of the island. Even if Sea Establishers couldn't perceive it, they could tell the location of the battle by judging the poured power.

After only ten seconds, Han Fei flew about 50,000 kilometers and finally came to a mountain of mineral veins.

Before Han Fei arrived, he saw a huge figure flying over from afar. As it flew, blood spurted out. Wasn't this the big toad just now?

"Pfft!"

The toad flew back first, and then the Snow Lady also flew over. Her body was bloodstained and full of cracks, but on a closer look, the broken things were all ice, not the Snow Lady's original body.

Bang!

The giant toad that was hundreds kilometers long crashed to the ground like a meteorite, rolling hundreds of times, raising vast energy and dust.

When Han Fei discovered the toad, the toad also discovered Han Fei. It thought to itself, How could such a terrifying Ice Blade Stream, which carried the power of the sea and infinite blades, be so easily cracked by this human?

The toad shouted, "Fellow Daoist, it's dangerous ahead. We have to leave quickly."

Although it reminded Han Fei, how could Han Fei not know its intention? It was clearly trying to cotton up to him to ease the embarrassment of it escaping first.

Han Fei said leisurely, "Who's your friend? You'd better not call me that."

Then, Han Fei raised his hand, and a pillar of light fell, and the healing divine light hit the Snow Lady. The latter took a breath of relief and said, "It was originally a water curtain, but the opportunities here have obviously been taken. And a terrifying thing appeared here. Its strength is probably in the Sky Opening realm."

Han Fei couldn't have felt worse. I just beat a Sky Opener, and now here came another? Are you kidding me? Is the Sky Opening realm so worthless now?

n

Han Fei's face changed. "Do you think I can beat him or not?"

A skeleton in the Sky Opening realm and a living creature in the Sky Opening realm were completely different. And he killed that skeleton in the Sky Opening realm by chance. Unless his strength increased by another 50%, he wouldn't have the confidence to kill a living Sky Opener.

Roar!

At this moment, in the sky, a huge azure dragon shadow flew across. When they took a closer look, they saw that it was a big flood dragon with a single horn on its head. Half of its body had been cut off, and blood was spurting out.

Han Fei was lost for words. "How many Sea Establishers are there here?"

The Snow Girl said, "Seven, two giant beasts, me, one from the Merman Royal Family, one from the undersea human race, and one from the hundred demon race. And the king of the undersea human race named Ling Bo has already gone crazy for some reason. Our opponent is him. I'm afraid he has already opened the sky."

Han Fei was puzzled. "If the six of you can't even defeat him, why do you still go up?"

The Snow Girl said, "The exit is guarded by Lingbo. We have no choice but to fight."

The toad beast said, "Fellow Daoist, at this moment, we should work together to kill a way out."

Han Fei glanced at it sideways. "Didn't you just ask me to run?"

The toad beast said, "I'm saying, don't go in, Fellow Daoist. That undersea man is really weird. He has an invincible and terrifying arm. The six of us are no match for him."

Han Fei raised his eyebrows. So exaggerated?

Although Han Fei really wanted to kill this toad, there were still many unknown factors in the Monarch Palace. Although this toad was a king, its strength was probably about the same as the Snow Lady. Even if it completely erupted, it wouldn't be a match for him.

Therefore, Han Fei glanced at the toad and the Snow Lady. "Since you want to leave, don't flinch. Let's go and take a look."

"Count me in."

As Han Fei spoke, he saw a cold-faced woman in black scales flying over. Judging from her severely dispersed Qi and blood and the single horn on her head, she was probably the single-horned flood dragon that was sent flying just now. This was also a giant beast.

Han Fei couldn't help but glance at the toad. "Can't you transform into a human? Do you want to be beaten like a sandbag?"

The Snow Lady said to Han Fei via voice transmission, "The so-called allies are only temporary at most. Except for the unknown position of the giant beasts, the rest are all enemies. Think about whether to cooperate with them or kill them later.

Han Fei nodded slightly. Of course, he wouldn't really ally with these guys who were originally enemies. However, they needed helping hands. If the others all died, they could only rely on themselves in the end.

Although these people might not be very strong, when they activated their own Great Daos and cooperated, even he would find it difficult to kill them in an instant.

Swish ~

Han Fei flew out. After only a few seconds, he saw a burly guy with gills on his neck, webbed palms, and scales on his body. His right arm was shining golden, and his entire hand seemed to be made of pure gold.

Han Fei was lost for words. "Damn, a Qilin Arm!"

The kings of the undersea human race and the hundred demon race were shocked to see Han Fei. Why was it this devil?

Even the strong master of the Merman Royal Family's face turned cold. Han Fei was famous for his ferocity in the Raging Sea. But fortunately, Han Fei was in love with the princess and might not make things difficult for him.

Besides, Han Fei might not have the ability to solve the trouble in front of him, so he probably needed to cooperate with them.

Although the three kings of the Merman Royal Family and the Hundred Demon Clan were resisting the enemy together, everyone had their own thoughts when Han Fei came. The guy named Ling Bo punched out with his Qilin arm, sending the three of them flying.

Under that terrifying power, the shell of the big turtle of the Hundred Demon Clan had already shattered, and the three ice crystal spiritual tablets of the merman had also shattered.

Now that Han Fei had arrived, they had hope.

In fact, Han Fei's original strength was only 300,000 waves. Although he was already very strong, he had only been a king for a short time and was still young.

Han Fei knew that 300,000 waves were still too weak for a Sky Opening realm cultivator. Therefore, he activated his Great Dao without hesitation. If this person was easy to deal with, he would kill the other kings by the way.

Therefore, Han Fei activated his Great Dao and punched out with the terrifying power of nearly a million waves. Knowing that he was strong, Han Fei didn't think he could kill him with this punch.

The latter's eyes were crazy and bloodthirsty. Seeing Han Fei coming, he counterattacked.

Boom!

s were

ore

The two fists collided, and the mountains collapsed. The Snow Lady and the others were about to help, but they were sent flying more than a hundred kilometers away by the aftershock. The terrifying energy ripples directly crushed all the vegetation on this island into nothingness.

Bang!

A figure, like a shooting star, rolled hundreds of times on the ground and was also sent flying hundreds of kilometers away. When the smoke and dust dispersed, everyone found that it was Han Fei.

Click!

Han Fei retreated more than a thousand meters, flexed his arms, and his face suddenly became solemn. At this moment, he was no longer shocked by the power the other party showed, but felt that his essence blood seemed to have been extracted when the other party punched him.

Immediately, Han Fei felt terrible. A strange desire appeared in his heart.

"Get it, get it..."

Han Fei's eyes turned red, and the old turtle shouted, "Calm down, calm down..."

Han Fei suddenly came back to himself and was shocked. He almost lost control just now?

The old turtle said, "I felt an extremely powerful evil thought appear in your soul. What happened?"

Han Fei said, "There's something wrong with that arm."

The old turtle said, "I know that there's something wrong with that arm. It's clearly not Ling Bo's arm, but someone else's. Otherwise, I wouldn't believe that there is a Sea Establisher in the Raging Sea that can suppress you in strength."

Han Fei said, "It's precisely because it's not his arm that it can withstand my power, but Ling Bo can't. My punch almost turned Ling Bo's flesh and blood into blood foam."

The toad beast and the one-horned dragon lady were also horrified. What kind of power did Han Fei show? This guy actually collided with the monster head-on.

At this moment, everyone placed their hope on Han Fei.

Han Fei grinned and said, "Everyone, listen up. I know you want me to help you stop this person, but do you really think you don't need to pay anything?"
