

GOF 2006

Chapter 2006 Mysterious Golden Arm

Everyone's face changed when they heard Han Fei's words. Only then did they remember that Han Fei was a pirate and a lunatic who had robbed the Five Elements World, the Medicine King World, the Dream Weaving World, and the Supreme Clearness World.

How could such a guy really treat them as allies?

The toad beast said, "Fellow Daoist! What do you mean? I'm so sincere to you!"

The female Single-Horned Flood Dragon tugged at the toad's arm and patted its head. "Don't be naughty. We don't know if this person is good or bad, but from the looks of it, he doesn't seem to be a good person. Let's be prepared to join forces with the Merman Royal Family and the Hundred Demon Clan to resist the enemy."

The toad asked, "Isn't it equivalent to fighting two Sky Openers? How can we fight them?"

The One-Horned Flood Dragon: "..."

The giant beasts didn't know much about the Raging Sea in the first place. They really didn't know much about Han Fei. Now that Han Fei had shown such a powerful strength, the toad, who had been chatty just now, didn't dare to speak anymore.

The man from the Merman Royal Family said, "Han Fei, even if you need resources, shouldn't you wait until we subdue this person?"

Han Fei grinned. "Go ahead! Subdue him if you can. I don't care about this person."

The merman's face changed slightly. Why is Han Fei so rude? After all, aren't you our princess' boyfriend?

The two people from the Hundred Demon Clan and the Undersea Human Clan had already approached each other.

While everyone was thinking about whether to give Han Fei resources, Ling Bo's eyes turned red. He stared at Han Fei excitedly as if he were looking at his prey. "Huh?"

Han Fei was speechless. If he guessed right, the inside of this person's body must have been destroyed. He had lost at least 30% of his combat power. Didn't he know that even if he could barely fight him, he wouldn't be able to last long?

As the name suggested, Ling Bo twisted his body and took a step forward with a strange movement technique. The golden arm, suffused with blood, charged at Han Fei.

This scene made Han Fei speechless. F*ck, there are so many people around. Why do you have to rush at me?

Perhaps that arm gave that person strength that exceeded the Sea Establishment realm. This person directly locked onto him with a blood-colored palm mark.

The moment Ling Bo found Han Fei, except for the Snow Lady, everyone rushed to the rear of Ling Bo at full speed.

There was a dilapidated black crystal building there. Although it had long collapsed, the light there indicated that the exit was right there.

They didn't get anything on this trip, so they couldn't just give up their lives here, right?

However, how could Han Fei let them do that?

With a flash of blue light, Han Fei entered time and appeared in front of the teleportation array in the next moment.

Han Fei glanced at the teleportation array and sneered. "Why, do you really think I'm here to help you fight?"

At this time, Ling Bo followed Han Fei closely, making everyone who was about to rush in front of Han Fei retreat again.

Only Han Fei held the Embroidery Needle in his hand. In the face of such a violent battle, he naturally would resolve it with violence. Looking at the bloody palm, Han Fei took a deep breath and launched a Knock on the Heavenly Gate.

Boom ~

"Pfft!"

Bang!

The blood-colored palm easily shattered the power of Han Fei's Knock on the Heavenly Gate. However, the Time Agility Technique was activated at the same time, and half of Ling Bo's body exploded, and his upper body was almost annihilated.

Han Fei used the Time Agility Technique to shatter Ling Bo's body, but he also endured the power of the Qilin Arm.

Fortunately, the Infinity Water had just been upgraded, and Han Fei turned it into a shield.

With a bang, the Infinity Water exploded, and the golden arm ignored Ling Bo's injuries and attacked again. Han Fei punched with all his strength and the two punches collided.

Once again, Han Fei felt the incomparable desire in his heart to get that arm. But Han Fei's rationality told him that this was just the temptation of that arm.

Han Fei raised his hand and activated the Heaven Enlightenment Divine Technique. This time, he used it on himself.

What Han Fei needed was the purification power of the Heaven Enlightenment Divine Technique. When the divine light enveloped him, Han Fei could resist the temptation.

But as soon as Han Fei came back to himself, he saw that Ling Bo's body suddenly shrank, shattered, turned into a drop of blood, and was sucked in by the golden arm, which then flew towards Han Fei.

Han Fei immediately felt the temptation again after the purification of the Heaven Enlightenment Divine Technique.

"Fuse!"

Little Black and Little White fused with Han Fei. Han Fei had to use the ruthless state of the Yin-Yang Divine Eyes to resist the temptation of this golden arm.

Perhaps this golden arm was a very powerful treasure. After putting it on, ordinary kings would be as strong as Sky Openers. If he used it, even Bei Luo Chen and He Daoyuan might not be a match for him.

However, this thing was too weird. Besides, Han Fei felt that his arms were very strong too. He was the strongest body refiner in the Raging Sea.

After Han Fei resisted the temptation, he retreated and shouted, "In three seconds, hand over five hundred million ultra-quality spiritual stones, or don't blame me for giving you this arm."

All the kings' faces changed drastically. This was an exploration of the Monarch Palace. Han Fei had grasped the mentality of the kings. Once they encountered danger, it would be dangerous if they didn't have resources. Therefore, when the kings explored the Monarch Palace, they would definitely bring a lot of resources.

Han Fei urged, "Hurry up. Give me ultra-quality spiritual stones or resources of similar value! Otherwise, none of you can leave."

When the golden arm grabbed over again, Han Fei's figure flashed and he escaped from the arm again.

And his first target was the king of the undersea human race who was still alive.

The latter's face changed when he saw Han Fei. Life was more important than anything. At such a critical moment, no one would think that resources were more important than their lives.

The man's face changed drastically, and he threw five Sun-Moon Shells at Han Fei.

The moment the Sun-Moon Shell was thrown out, the man retreated. Now the weird golden arm was chasing Han Fei. If he dared to stop, wouldn't he be courting death?

Sure enough, the golden arm had already caught up, but the only good thing was that it wasn't very fast. Although it could affect Han Fei just now and try to invade his soul, now that Han Fei had fused with Little Black and Little White, his temperament immediately became much colder.

Even if the golden arm could keep up with Han Fei's speed and continue to affect him, Han Fei still had one last move, which was the seventh-grade Soul Subduing Pill.

Swish!

Han Fei flashed again and chased after the king of the Hundred Demon Clan. The latter's face was livid. Like the undersea human, he threw out a Sun-Moon Shell and immediately

ran.

At the same time that this person threw out the Sun-Moon Shell, the toad and the single-horned flood dragon girl threw Sun-Moon Shells to Han Fei almost at the same time.

The toad said, "Fellow Daoist, this is all I have."

Han Fei sneered. I don't believe you. Han Fei reached out and grabbed the Sun-Moon Shells, and as a golden light flashed, he fell beside the Snow Girl.

To his surprise, the golden arm didn't chase over. The others were also horrified, because they saw the king of the Merman Royal Family trembling and his eyes glowing red. In front of him was a golden arm.

"Hiss ~"

Everyone gasped in shock.

The toad shouted, "Run! That hand has found a new host. This guy is stronger than Ling Bo."

The right arm of the king of the Merman Royal Family was melting, and the golden arm was slowly fusing with his body.

The Snow Lady said, "Let's go! We can't stay here for long. The opportunities here have obviously been taken away. It's not appropriate to fight this arm now."

Han Fei frowned. It was not that he didn't want to leave, but he felt that there must be some great opportunities in such a dangerous place.

Therefore, Han Fei took out the Vast Ocean Navigator and ran.

It was the first time the Snow Lady had seen the Vast Ocean Navigator. She didn't expect Han Fei to take it out at this moment.

When the Vast Ocean Navigator turned one round, it actually pointed at the golden arm in the end.

Han Fei's heart sank. Although this thing was terrifying, it should be a treasure. However, for now, Han Fei had already felt how terrifying this arm was. It tried to twist his nature, invade his soul, absorb his essence blood, and replace his own arm.

Besides, the power that the arm could unleash far exceeded him. If it weren't for the fact that the person who used it wasn't strong enough, he would have been seriously injured by the probing blow just now.

Therefore, Han Fei decided not to take this opportunity! Because he wasn't confident that he could handle it.

There were some things that he could take and fight, such as the greedy skeleton, because its limit was there. But there were some things that were impossible to guess and he couldn't touch its upper limit at all, so why did he take them?

Han Fei pulled the Snow Girl over and came to the teleportation array first.

At this moment, the merman didn't chase him. Instead, he put on a creepy smile and said, "You can't escape."

Instantly, the toad, the Single-Horned Flood Dragon, and the kings of the undersea human race and the hundred demon race were all horrified. Even though they knew that it was equally dangerous to pass the teleportation array with Han Fei, it was still better than staying here.

Han Fei didn't deliberately make them stay. If they met again later, it wouldn't be too late for him to attack them. Now he wouldn't waste any time and give the golden arm a chance.

Chapter 2007: Fight

Buzz!

When Han Fei's eyes lit up again, he still saw ruins. There was a broken bronze door a thousand meters high.

Han Fei was shocked to see this door. Is this the door of the Void Temple?

But seeing that there was no T-shaped portrait on the door, Han Fei was relieved.

However, Han Fei looked around. This was clearly a huge ruin, but there were many kings sitting cross-legged in the ruins.

When Han Fei took a closer look, he found that there were seventeen or eighteen kings in total from all the races.

"Huh?"

When Han Fei appeared, on the human side, the kings' expressions changed. As for the other races, their expressions also changed drastically.

Han Fei was the last person they wanted to meet. After the news that Han Fei escaped from Bei Luo Chen, sneak attacked the Supreme Clearness World, killed four kings, and escaped easily spread, no one wanted to provoke such a lunatic.

After Han Fei and the Snow Lady appeared and saw the situation, they immediately looked at the human camp. There was another acquaintance there. Who else could it be but Huang Jie?

Behind them, as soon as the toad and the single-horned flood dragon lady came out, they rushed towards the giant beasts. The toad shouted, "Eight Eyes, Squid Girl, I'm here. I've finally found you."

As for the kings of the undersea human race and the hundred demon race, they quickly left Han Fei without hesitation. Han Fei heard the toad say to the other two giant beasts via voice transmission, "Don't fight that human. That guy has the power of the sky opening realm. He's extremely terrifying."

The undersea human and the guy from the hundred demon race also told their clansmen Han Fei's strength.

.....

Han Fei had planned to find a way to kill the kings of the undersea human race and the hundred demon race first, but he didn't expect there to be so many kings here. Did they come for a f*cking meeting?

Beside Han Fei, the Snow Lady's expression changed as she asked, "Is it here?"

Han Fei was puzzled. "Where is this?"

The Snow Lady said, "In the past, this was the furthest we could reach. I heard that no one has passed through here yet. The Thirty-Six Mystic Worlds' kings obtained their Great Daos right here. There was once a divine tree here that was full of Great Daos, divine weapons, and treasures."

Han Fei's heart did a flip. "Wasn't the tree dug up?"

The Snow Lady also looked at Han Fei. "Yes, but you should know who dug it."

Han Fei thought to himself, Of course I know, but I don't know if the thing you're talking about is still the Demon Purification Pot. But Han Fei felt that the Demon Purification Pot was a calabash, and what they dug up back then was a tree, so it shouldn't be the same thing. But if it wasn't the Demon Purification Pot, where was the tree that was dug away?

The two shortly communicated and then landed on the ground.

Han Fei glanced around. Apart from Huang Jie, there were four human kings, and among them, there were Qiu Yueming, Liang Yin, and Xu Lian who had just separated from him. But apart from them, there was another guy that Han Fei remembered. It was Hong Yue from the Mad Corpse World.

Hong Yue felt that his luck was extremely bad. Why did he always encounter Han Fei? This was already the fourth time! If he could have a few strong allies, that would be fine! But look at those around him!

Huang Jie, a poisonous old man, whom no one dared to approach.

Liang Yin from the Sanskrit Music World never offended anyone. It was impossible for her to offend Han Fei.

Qiu Yueming was from the Glazed Glass World and was Han Fei's ally.

Xu Lian... was from the thirteen worlds in the outer domain after all. The others wouldn't offend Han Fei, so if he wasn't stupid, he wouldn't either. So, he, Hong Yue, was the only one here who had once stood on the side of Supreme Clearness and Infinity.

Therefore, when Han Fei looked at Hong Yue meaningfully, he immediately said via voice transmission, "I surrender. From now on, the Mad Corpse World will stand firmly on the Yin-Yang World's side. When I go back, I will cut off all contact between the Mad Corpse World and Supreme Clearness and Infinity."

Han Fei was stunned. Why did this person surrender so easily?

Han Fei couldn't help but grin. "How can I believe you? You attacked my Yin-Yang World back then, didn't you?"

Hong Yue felt that his body was covered in sweat. He said, "I didn't attack directly! Supreme Clearness and Infinity forced me to attack, but at that time, I couldn't beat Han Guanshu! I was defeated in the first clash and didn't participate in the battle again. What I said is true. I can swear a Great Dao oath."

Han Fei curled his lips. "I never believe in oaths, but I believe in resources! If you take out a billion resources now and give me another five billion resources when we go back, I'll believe you and forget what happened back then."

Hong Yue was speechless. He said, "Why would I bring so many resources to the Monarch Palace? I only brought some life-saving resources. They're only worth 500 million in total."

Han Fei raised his eyebrows. "Oh! Then give it to me. At least, I can leave you alone in the Monarch Palace, but after you go out, you'll have to give me the rest. Of course, if you die here, I won't ask you for it."

At this moment, Hong Yue really wanted to slap himself. He thought that since Han Fei had risen so quickly, he must have consumed a lot of resources. Opening up his Origin Sea alone required tons of resources. Why did he just blurt out five hundred million? He should have said two or three hundred million!

Unfortunately, now that he had said it, if Hong Yue didn't want to die, he could only pay. Although all the forces were here, if Han Fei really wanted to attack, who dared to stop him?

This guy was famous for being crazy. If they really fought, he didn't even know how long he could last.

Therefore, as soon as Han Fei stood still, he saw Hong Yue immediately stand up and hand Han Fei six Sun-Moon Shells with a fawning smile.

Qiu Yueming and the others: "???"

As for the Snow Lady and Huang Jie, their hearts did a flip. It seemed that Hong Yue had surrendered! With Han Fei's personality, it was impossible for him not to attack Hong Yue when he saw him. However, Hong Yue immediately handed over resources. He had clearly lowered his head and admitted defeat, or even chose to pledge loyalty to Han Fei.

With a faint smile on his face, Han Fei casually took the Sun-Moon Shells and then looked at the kings of the other parties.

Among them, Han Fei saw an acquaintance from the Martial Emperor City. If he remembered correctly, it was Bai Yue from the super resource store.

On the Merman Royal Family's side, Han Fei also saw an acquaintance. He seemed to be the commander of the guards in the outer city of the Merman Royal City, Li Dian.

As for the others, Han Fei didn't know any of them.

The Snow Lady said, "I don't know about the giant beasts, but the old turtle from the Hundred Demon Clan is called Pang Jia. It's said that he has a trace of the bloodline of the ancient dragon turtle. He's extremely strong, and his defense power is astonishing. His combat power is also extraordinary. Also, on the undersea human race's side, the old man's name is Zhou Bai. His strength is among the top ten of the Sea Establishment Realm in the Raging Sea. He can't be underestimated."

Han Fei looked at the others and said, "Now there are six humans, four Giant beasts, two people from the Martial Emperor City, three people from the Hundred Demon Clan, three people from the undersea human race, and four people from the Merman Royal Family... Why are the 22 people all here?"

Huang Jie said leisurely, "Wait a moment! Everyone who has been here knows the danger here."

Han Fei asked, "Isn't this copper door broken?"

Huang Jie grinned and said, "It's broken, but it doesn't mean that there's no danger inside! When the sun, moon, and stars appear behind the door and shine brightly, we can enter the door. Otherwise, if we go in now, we'll definitely encounter something terrifying."

Han Fei looked in the direction he came from and asked casually, "How long will it take?"

Huang Jie said, "At least three or five days, at most two or three months. The first time we came here was when Han Guanshu led us to this place. After it opened, many kings died... I didn't expect to come here again so quickly."

Huang Jie's words made Han Fei's heart skip a beat. The kings died in the fight for treasures.

However, it was different this time. Han Fei said, "We might not be able to wait until then!"

Huang Jie and the others couldn't help looking at Han Fei. What did he mean?

And Han Fei didn't intend to attack. After all, there were too many kings here. And it was said that there were a few strong ones. Even if Han Fei was confident that he could suppress these people, they definitely had their trump cards. Now that he hadn't even seen any treasures, it was meaningless to fight them now.

Buzz!

A day later, a teleportation array appeared in the void, a Lobster-Man and a Shark-Man appeared, and two more Hundred Demon Kings appeared.

On another day, a person from the Martial Emperor City and a person from the giant beast race came.

At this moment, there were already 25 kings here.

On the third day, Han Fei was sitting cross-legged, waiting for the so-called sun, moon, and stars that Huang Jie mentioned. But suddenly, the void teleportation array flickered, and two human kings appeared. When Huang Jie and the others saw these two people, they immediately knew that something was wrong.

Han Fei knew one of them. It was Ji Xuan from the Supreme Clearness World. It was said that this person's strength was already in the top ten of the Raging Sea.

At that time, it was Ji Xuan and Ye Qinglong from the Merman Royal Family who went to the Land of King Death together. As for Ye Qinglong, he was said to be the second in the Sea Establishment Realm of the Merman Royal Family. From this, one could guess Ji Xuan's strength.

As for the other person, the Snow Lady said, "Zhou Fu is second only to Yun Tianhe in strength in the Infinity World."

"Not good!"

When they saw these two people, Hong Yue, Liang Yin, and the others knew that something was wrong. Even the kings of the other races were watching the show.

As expected, Han Fei suddenly rose and grinned. "There is a road to heaven, but you don't take it. There is no door to hell, but you insist on coming in."

Buzz!

Han Fei activated his Great Dao and slashed at Zhou Fu with All Great Daos in One Sword without hesitation.

Zhou Fu and Ji Xuan had just arrived when Han Fei rushed over. Both Zhou Fu and Ji Xuan were horrified by Han Fei's terrifying slash.

The power of this sword made the two of them feel as if facing death.

Seeing that it was Han Fei, Ji Xuan immediately shouted in a low voice, "Brother Zhou, attack this guy with all your strength. Either he dies or we die in this battle. If you have any trump cards, don't hesitate to use them! Three-Tailed God Scissors..."
