

GOF 2008

Chapter 2008 Where Is the Lightning Comparable to Heavenly Tribulation?

A jade shield appeared in front of Zhou Fu, and thirteen small swords of light burst out of his hand, forming a circle, trying to shatter All Great Daos in One Sword.

Bang!

Crack –

Ka ka ka ~

The thirteen small swords of light shattered one after another, and the jade shield collapsed. And a pair of golden scissors slashed down, and together with Zhou Fu's shocking attack, the two blocked Han Fei's All Great Daos in One Sword with difficulty.

Rumble!

A terrifying power swept across the place, and the bronze door rumbled as shaken by the power of the attacks of the two parties.

“Fuse.”

“Fuse.”

“Fuse.”

Zhou Fu and Ji Xuan fused their spiritual beasts without hesitation. This time, Han Fei also fused his spiritual beast. He wanted to fight a quick battle to kill the kings.

If it were someone else, Han Fei would have let it go, but it was Supreme Clearness and Infinity. He certainly couldn't just let them

off.

“Knock on the Heavenly Gate.”

After All Great Daos in One Sword, Han Fei's second blow had already arrived in an instant. Zhou Fu had time to react. A green jade token appeared in front of him, and the token split into a thousand. “Dao of Talisman, Heavenly Cycle Jade Scroll.”

The light and shadow collided with the jade token array. In an instant, the Heavenly Cycle Jade Scroll was full of cracks.

Zhou Fu was shocked. What kind of terrifying power was Han Fei using? He could even shatter the power of his Great Dao with one blow?

Seeing this situation, Ji Xuan didn't dare to be negligent. If something happened to Zhou Fu, he wouldn't escape either. Although there were many human kings here, including Hong Yue, would they help them?

The answer was obviously no. Ji Xuan shouted, “Supreme Clearness Three-Foot Sword, cut the body, cut the soul, cut the luck...”

On the side, among the giant beasts, the toad was shocked. "Are these people crazy? Why did they fight so desperately? What kind of grudge do they have?"

Li Dian and the other kings were shocked. Han Fei was already so strong? They vaguely remembered that Han Fei had only been to the Merman Royal City a year ago. At that time, he had only sent an avatar over that hadn't become a king yet. No one felt that his original body was really strong, but now it seemed that he was already comparable to Ye Qinglong and Long Youjun!

vas

The kings of the Hundred Demon Clan and the undersea human race looked at each other and said, "From now on, our two races will ally. There are too many strong masters here, especially Han Fei."

Han Fei didn't need to attack himself. The Infinity Water rolled directly to the Supreme Clearness Three-Foot Sword. After wrapping the sword, Han Fei grinned. "Explode!"

"Not good!"

"Stop him!"

"This lunatic."

Rumble! Rumble!

The terrifying impact shattered everything in the world, and the bronze door fell to the ground with a creak.

As for the Supreme Clearness Three-Foot Sword, it was directly shattered by Han Fei and annihilated. Ji Xuan and Zhou Fu's internal organs were almost shattered by the explosion. Their bodies were dripping with blood, and their battle suits were all shattered.

Amidst the billowing dust and the terrifying aftershock of the explosion, a golden light flashed out. Then, the kings felt two extremely high-quality powers interweaving.

Ji Xuan was immediately shocked. He knew this move. It was the attack Han Fei used when he pretended to be Wang Yijian and killed Bei Xuanbing. It was a combination of immortal energy and fiendish energy. It was a power that could kill a king with one slash.

"Puff -"

Ji Xuan burned his essence blood and rushed towards the bronze door.

"A*shole!"

Zhou Fu shouted. Did Ji Xuan leave him to deal with Han Fei alone? This guy was crazy. God knew how he unleashed the power of the Sky Opening realm.

Immediately, the jade slip in Zhou Fu's hand shattered, and Bei Luochen's figure appeared here. This was naturally a projection of Bei Luochen, which also contained a blow of Bei Luochen.

The moment Bei Luochen appeared, he shouted coldly, "Han Fei, this blow is prepared for you."

A black leech appeared behind Bei Luochen. Han Fei sensed a large amount of negative power there. In addition, it seemed to be a full-strength attack in the Sky Opening realm.

“Invincible Eye, kill.”

Han Fei’s glabella opened, and the Immortal Fiend Saber darted at Bei Luochen. Seeing this, the kings of the major forces all shouted, “Be careful. Don’t be affected by the power of the Sky Opening realm.”

Bang!

Bang!

“Puff”

Two ripples shook in the void. Under this blow, a large void storm appeared in the extremely tough void of the Monarch Palace.

Ji Xuan had already rushed into the bronze door. Han Fei had no time to care about him.

But Zhou Fu was forced to stay by Han Fei. Even though he summoned the power of Bei Luochen’s full-strength blow, he was still beaten into vomiting blood.

Hong Yue’s heart was trembling. Sure enough, Han Fei was so strong that he had the strength to fight a Sky Opening realm cultivator. Zhou Fu was doomed. Even one of Bei Luochen’s clones was killed by Han Fei with a single blow. How could Zhou Fu resist him?

In fact, Qiu Yueming, the Snow Lady, and Huang Jie were all dumbfounded. Was it so easy for a Sea Establisher to fight a Sky Opener?

Han Fei opened his mouth and swallowed. His body was full of energy. Although his battle suit was broken, he still punched Zhou Fu.

Rumble! Rumble!

The king’s body exploded, and the Vast Ocean Navigator in Han Fei’s hand pointed in a direction. Han Fei grabbed a wisp of soul with two fingers and crushed it.

“Ahhh-“

All the kings heard an indignant cry. Zhou Fu, the third strongest person in the Infinity World, had died just like that.

Li Dian of the Mermaid Royal Family was also shocked. Originally, no one in the Mermaid Royal Family thought that the princess and Han Fei would be together. However, now it seemed that Han Fei’s strength seemed to be beyond everyone’s imagination.

How long had it been since the Monarch Palace was opened? If Han Fei could continue to grow, or obtain a great opportunity here, it was not impossible for him to become an emperor!

However, at this moment, the Snow Lady suddenly shouted, “Not good! The arm...”

Han Fei was stunned. He had just killed Zhou Fu and was about to use the Twin Divine Technique to absorb the Chaotic Qi in Zhou Fu’s Origin Sea.

However, when he suddenly looked back, he saw a king of the Merman Royal Family tear open the void rift, and one of his arms was that golden arm. The man was looking at Han Fei with shining eyes.

“F*ck, how can he chase over?”

It seemed that the noise of Han Fei’s battle was too loud, countless cracks appeared in the void, so the golden arm controlled the person to forcibly break through the void.

Seeing this, Li Dian couldn’t help but shout, “Qin Shuang, what’s wrong with you?”

Han Fei shouted at Huang Jie and the others, “Don’t just stand there. Enter the door.”

Then, Han Fei glanced at Li Dian, thinking that since he was Xia Xiaochan’s clansman and there was no conflict between them, he should remind him.

Therefore, Han Fei said to him via voice transmission, “Why are you shouting? Don’t call him over. He had already been controlled by that arm. Run.”

Li Dian was shocked and looked at Han Fei in shock. He couldn’t help but change his opinion of Han Fei. But now was not the time to size Han Fei up. Li Dian suddenly broke into a cold sweat. He knew he had to run now. But what the hell was this golden arm?

As soon as Han Fei ran, Huang Jie, the Snow Lady, and Qiu Yueming followed him. They were all his allies. There must be a reason for Han Fei to run away.

Besides, with the reminder of the Snow Lady, no one dared to slack off. Hong Yue was among them, thinking that he might be able to cozy up to Han Fei. Han Fei just wanted five billion resources. At most, he would give them to him when he got home.

Seeing that the humans had all run away, Li Dian immediately shouted, “Come on, follow them.”

Someone asked, “What about Qin Shuang?”

Li Dian said impatiently, “He’s no longer Qin Shuang. Look at his murderous aura. He doesn’t know us at all.”

On the Martial Emperor City’s side, Bai Yue seemed to know what that arm was, so he moved faster than Li Dian.

As for the Hundred Demons and the undersea humans, when they saw everyone running away after seeing the golden arm, panic spread. Although the sun, moon, and stars hadn’t appeared behind the bronze door yet, they had to chase in.

When Qin Shuang opened the void crack and completely appeared, everyone had already rushed into the bronze door.

His eyes were bloodshot, and an inhuman voice erupted from his throat. “You, can’t, escape...”

...

On the other side.

Han Fei didn't care what was behind the bronze door. The golden arm was clearly targeting him. In the previous battle, his blood had almost been sucked dry by it. Even if he wanted to fight it, he couldn't beat it.

There were so many kings here. If it parasitized them one by one, in the end, he would be the one who suffered.

The inside of the bronze door and the outside were two different worlds. Han Fei and the others rushed in and immediately felt lightning strikes all over the sky striking at them.

Everyone seemed to be shocked. Not everyone could stand such fierce lightning strikes.

Han Fei was puzzled. This looked like the Thunder Prison!

The Snow Lady said, "Only when the sun, moon, and stars come out will the lightning here disappear. This place used to be the Eternal Thunder Prison. It's said that the most terrifying lightning here is comparable to heavenly tribulation."

Han Fei's eyes glittered. "Where is the lightning comparable to heavenly tribulation?"

Chapter 2009 All the Kings Escape, A Life-and-Death Race

Others avoided heavenly tribulations like snakes and scorpions.

But Han Fei was different. He had been struck by lightning since he was a child. Every time he deduced the Void Fishing Art, he would be burnt to a crisp.

He had stayed in the Thunder Prison before. Now that he had the Yin-Yang Millstone, he could completely transform the lightning here into the purest energy to temper his body.

Although he had already practiced the Void Fire Training Technique, it didn't mean that the Purity Mystic Body was abandoned. Han Fei had always practiced the two. Otherwise, how could he cultivate so quickly?

When Han Fei asked where the heavenly tribulation-like lightning was, the Snow Lady, Huang Jie, and the others were all speechless.

Huang Jie said, "It's recorded on the door that lightning comparable to heavenly tribulation can only be seen in the depths of the Eternal Thunder Prison. But I advise you not to go there. If you can survive until the sun, moon, and stars appear, the Eternal Thunder Prison will disappear. Then there will be other places to go."

Han Fei asked, "Why?"

Huang Jie smiled creepily. "Because since ancient times, no one who went to the depths of the Eternal Thunder Prison has come back alive."

Han Fei frowned. "Really? What if someone didn't tell you when he came back?"

Huang Jie said, "Every time the Monarch Palace is opened, the things here will eventually be spread out. How can people not know this? Even if someone really went in and came out safely, he should have

risen in the Raging Sea long ago. But in fact, except for a few people who have traces to follow, most of the people who rose were the first explorers of the Monarch Palace in the Age of Doom.”

The Snow Lady said, “I agree with Huang Jie on this. No one could survive the depths of the Eternal Thunder Prison. We didn’t go there back then, so we could walk out of the Monarch Palace.”

Bang!

Boom! Boom! Boom! Boom!

Suddenly, Han Fei and the others looked back, and their faces changed drastically. They saw Qin Shuang from the Mermaid Royal Family also come in.

Han Fei immediately cursed, “Are you haunting me?” Huang Jie was lost for words. “Why do I feel that this thing is targeting you? Let me poison it.”

Han Fei said, “I advise you not to. It can easily send you to your death. But if you insist, I won’t stop you.”

Huang Jie took a deep breath. “Then forget it.”

Next door, Qiu Yueming, Xu Lian, Hong Yue, and Liang Yin heard it clearly. They were also speechless. Han Fei was really a troublemaker! He fought the Sky Opening realm skeleton in the Temple of Greed, and now there was a golden arm that even he had to run from.

Although they didn’t know what was going on, they just ran. Even Han Fei was no match for the arm, let alone them.

Swish! Swish! Swish!

All the kings ran into the depths of the Thunder Prison like crazy.

Boom Boom Boom ~

However, the lightning that filled the sky poured down crazily. Almost everyone was carrying hundreds, thousands, or tens of thousands of lightning bolts forward. Therefore, there were inevitably mistakes.

Some people ran fast, and some ran slow. No matter how strong you were, there was always a difference in strength.

A lobster king of the Hundred Demon Clan was the slowest, so he was last.

Suddenly, the kings heard a crack. When they looked back, they saw a shrimp head rolling in the lightning and flying forward. His body seemed to have exploded and shattered into pieces. When they looked again, in the center of the explosion, a golden fist slowly retracted.

“Long Chao... B*stard, what is this thing?”

Pang Jia of the Hundred Demons was shocked. A Sea Establishment cultivator couldn’t even block a punch from the golden arm?

The lobster called Long Chao still had a chance to survive because only his head was sent flying
However, before Long Chao could rebuild his body, a golden hand pinched his head.

Bang!

In an instant, the lobster's head exploded into powder. This king was deader than dead.

Huang Jie exclaimed, "Just... one punch?"

Han Fei asked, "Why do you think I ran away?"

In the Eternal Thunder Waterfall, Ji Xuan, who had rushed in first, slowed down a lot after running for a while.

The reason why he ran so far was that he knew that Han Fei's speed was very fast, even to the point where a Sky Opening realm cultivator couldn't catch up.

Therefore, he had to run further away. Otherwise, Han Fei would discover him with so many lightning bolts striking him.

He was betting that Han Fei wouldn't come in. This was because Han Fei had six kings around him, and several of them were among the first explorers of the Monarch Palace in the Age of Doom. It was impossible for these people not to know the danger of the Eternal Thunder Prison.

"Huff~"

Ji Xuan slowed down by half and was relieved. At the same time, he was shocked. Han Fei was already so strong. Except for Sky Openers, who could suppress him?

According to this person's vengeful character, once this person became an emperor, how could the Supreme Clearness World stop him?

Ji Xuan thought to himself, No, if I can get out this time, I must let the patriarch and Bei Luochen of the Infinity World join forces to kill Han Fei. If we don't get rid of this guy, he will be a great disaster in the future.

However, not long after Ji Xuan slowed down and was thinking about Han Fei, he suddenly felt that something was wrong. When he looked back, he saw many figures running wildly burning their blood.

Ji Xuan: "???"

Among them, the leader of the human race was none other than Han Fei. This guy flashed like golden light, running and stopping

Ji Xuan was stunned. Zhou Fu couldn't even resist Han Fei for a short while?

However, Ji Xuan was puzzled. Were the Snow Lady, Huang Jie, and the others all crazy? Even if Han Fei didn't know the danger here, how could you, the first explorers of the Monarch Palace, not know? Why did you also come in?

"You, can't, escape ~"

In the rear, someone screamed, "Great Dao, Shadow... Ah! Help me..."

"Pfft!"

In the distance, Ji Xuan heard someone crying for help. It seemed that a king had died? Han Fei was leading the way. Then who was killing the enemies in the rear?

Unfortunately, now was not the time for him to think about that. The key now was that Han Fei had caught up with him. So Ji Xuan also burned his blood and began to run as fast as he could!

At this moment, Han Fei had already seen Ji Xuan. But the problem was that on the human side, Qiu Mingyue and Xu Lian didn't seem to be good at speed and were about to fall behind.

Especially Qiu Yueming, she was not the master of the Heavenly Palace. Although she was not weak, her speed was much slower. At this moment, the last person was a king of the undersea human race. This person had already been killed, and now it was Qiu Yueming's turn.

Han Fei sighed slightly. They were allies. He couldn't just watch them die.

At this moment, Qiu Yueming had already begun to burn her blood to escape. However, the others did the same too. At this moment, whoever fell last would definitely die. Now three people had already died. How many people were there in total? If the arm kept killing like this, they would all die.

Just as Qiu Yueming was horrified and thought that he was going to die, she saw a golden light suddenly appear in front of her.

With a flip of his hand, Han Fei activated the Sacrificing Punch and charged at Qin Shuang who was about to pounce on him. With his other hand, he grabbed Qiu Mingyue and flashed thirty thousand kilometers forward.

Thirty thousand kilometers later, before Qiu Yueming could react, Han Fei had grabbed Xu Lian with his other hand. With another flash of golden light, he flew a hundred thousand kilometers away. After a few leaps, Han Fei caught up with Liang Yin and the others at the front.

Xu Lian said, "Thank you for your help, Fellow Daoist."

Qiu Yueming: "I can't thank you enough! I'll remember your kindness."

Han Fei said indifferently, "Where is the deepest part of the Eternal Thunder Waterfall? The power of lightning is at least five times stronger than before. Everyone is getting slower and slower. If this goes on, I'm afraid I won't be able to carry you."

Huang Jie said, "No one knows."

Just as Han Fei was about to kill Ji Xuan first, he suddenly saw a golden light breaking through the void. It was none other than the puppet Qin Shuang.

"F*ck! So fast?"

Han Fei subconsciously activated his Great Dao, his fist marks exploded again, and he activated the Time Arcane Technique.

Bang!

Rumble! Rumble!

Two Sacrificing Punch exploded at an extremely high intensity. Under such circumstances, Han Fei was sent flying more than 3,000 kilometers away, blood flowing from his mouth and nose.

The kings were not too far away, but the moment the golden arm found Han Fei, everyone immediately moved away.

Zhou Bai from the undersea human race shouted, "Run! That thing is clinging to Han Fei. Now is a chance to escape."

Han Fei couldn't have felt worse. Did this golden arm really target him? Why?

But Han Fei still shouted at the Snow Lady and the others, "You go first."

The main reason was that the Snow Lady and the others were not strong enough to resist the golden arm at all. They would be killed in one blow. Except for a few people who could withstand one or two blows or use the Sky Opening-realm technique to block one or two blows, no one here could block this arm.

Fortunately, this arm couldn't take him down. As long as he didn't get close to it, he would be fine.

However, Han Fei didn't have the habit of carrying a palanquin for others. I'm fighting here to create conditions for you to run away? Who was the one who shouted just now? Is it Zhou Bai from the undersea human race? Fine, you think I'm your shield?

On the other side, Zhou Bai was leading the two kings to run wildly, not daring to stop.

But suddenly, a golden light flashed. When he took a closer look, he saw that it was none other than Han Fei.

In the next moment, Zhou Bai's expression changed drastically. He said in shock, "Not good. Split up and run."
