Chapter 2009 All the Kings Escape, A Life-and-Death Race

Others avoided heavenly tribulations like snakes and scorpions.

But Han Fei was different. He had been struck by lightning since he was a child. Every time he deduced the Void Fishing Art, he would be burnt to a crisp.

He had stayed in the Thunder Prison before. Now that he had the Yin-Yang Millstone, he could completely transform the lightning here into the purest energy to temper his body.

Although he had already practiced the Void Fire Training Technique, it didn't mean that the Purity Mystic Body was abandoned. Han Fei had always practiced the two. Otherwise, how could he cultivate so quickly?

When Han Fei asked where the heavenly tribulation-like lightning was, the Snow Lady, Huang Jie, and the others were all speechless.

Huang Jie said, "It's recorded on the door that lightning comparable to heavenly tribulation can only be seen in the depths of the Eternal Thunder Prison. But I advise you not to go there. If you can survive until the sun, moon, and stars appear, the Eternal Thunder Prison will disappear. Then there will be other places to go."

Han Fei asked, "Why?"

Huang Jie smiled creepily. "Because since ancient times, no one who went to the depths of the Eternal Thunder Prison has come back alive."

Han Fei frowned. "Really? What if someone didn't tell you when he came back?"

Huang Jie said, "Every time the Monarch Palace is opened, the things here will eventually be spread out. How can people not know this? Even if someone really went in and came out safely, he should have risen in the Raging Sea long ago. But in fact, except for a few people who have traces to follow, most of the people who rose were the first explorers of the Monarch Palace in the Age of Doom."

The Snow Lady said, "I agree with Huang Jie on this. No one could survive the depths of the Eternal Thunder Prison. We didn't go there back then, so we could walk out of the Monarch Palace."

Bang!

Boom! Boom! Boom! Boom!

Suddenly, Han Fei and the others looked back, and their faces changed drastically. They saw Qin Shuang from the Mermaid Royal Family also come in.

Han Fei immediately cursed, "Are you haunting me?" Huang Jie was lost for words. "Why do I feel that this thing is targeting you? Let me poison it."

Han Fei said, "I advise you not to. It can easily send you to your death. But if you insist, I won't stop you."

Huang Jie took a deep breath. "Then forget it."

Next door, Qiu Yueming, Xu Lian, Hong Yue, and Liang Yin heard it clearly. They were also speechless. Han Fei was really a troublemaker! He fought the Sky Opening realm skeleton in the Temple of Greed, and now there was a golden arm that even he had to run from.

Although they didn't know what was going on, they just ran. Even Han Fei was no match for the arm, let alone them.

Swish! Swish! Swish!

All the kings ran into the depths of the Thunder Prison like crazy.

Boom Boom Boom ~

However, the lightning that filled the sky poured down crazily. Almost everyone was carrying hundreds, thousands, or tens of thousands of lightning bolts forward. Therefore, there were inevitably mistakes.

Some people ran fast, and some ran slow. No matter how strong you were, there was always a difference in strength.

A lobster king of the Hundred Demon Clan was the slowest, so he was last.

Suddenly, the kings heard a crack. When they looked back, they saw a shrimp head rolling in the lightning and flying forward. His body seemed to have exploded and shattered into pieces. When they looked again, in the center of the explosion, a golden fist slowly retracted.

"Long Chao... B*stard, what is this thing?"

Pang Jia of the Hundred Demons was shocked. A Sea Establishment cultivator couldn't even block a punch from the golden arm?

The lobster called Long Chao still had a chance to survive because only his head was sent flying

However, before Long Chao could rebuild his body, a golden hand pinched his head.

Bang!

In an instant, the lobster's head exploded into powder. This king was deader than dead.

Huang Jie exclaimed, "Just... one punch?"

Han Fei asked, "Why do you think I ran away?"

In the Eternal Thunder Waterfall, Ji Xuan, who had rushed in first, slowed down a lot after running for a while.

The reason why he ran so far was that he knew that Han Fei's speed was very fast, even to the point where a Sky Opening realm cultivator couldn't catch up.

Therefore, he had to run further away. Otherwise, Han Fei would discover him with so many lightning bolts striking him.

He was betting that Han Fei wouldn't come in. This was because Han Fei had six kings around him, and several of them were among the first explorers of the Monarch Palace in the Age of Doom. It was impossible for these people not to know the danger of the Eternal Thunder Prison.

"Huff~"

Ji Xuan slowed down by half and was relieved. At the same time, he was shocked. Han Fei was already so strong. Except for Sky Openers, who could suppress him?

According to this person's vengeful character, once this person became an emperor, how could the Supreme Clearness World stop him?

Ji Xuan thought to himself, No, if I can get out this time, I must let the patriarch and Bei Luo Chen of the Infinity World join forces to kill Han Fei. If we don't get rid of this guy, he will be a great disaster in the future.

However, not long after Ji Xuan slowed down and was thinking about Han Fei, he suddenly felt that something was wrong. When he looked back, he saw many figures running wildly burning their blood.

Ji Xuan: "???"

Among them, the leader of the human race was none other than Han Fei. This guy flashed like golden light, running and stopping

Ji Xuan was stunned. Zhou Fu couldn't even resist Han Fei for a short while?

However, Ji Xuan was puzzled. Were the Snow Lady, Huang Jie, and the others all crazy? Even if Han Fei didn't know the danger here, how could you, the first explorers of the Monarch Palace, not know? Why did you also come in?

"You, can't, escape ~"

In the rear, someone screamed, "Great Dao, Shadow... Ah! Help me..."

"Pfft!"

In the distance, Ji Xuan heard someone crying for help. It seemed that a king had died? Han Fei was leading the way. Then who was killing the enemies in the rear?

Unfortunately, now was not the time for him to think about that. The key now was that Han Fei had caught up with him. So Ji Xuan also burned his blood and began to run as fast as he could!

At this moment, Han Fei had already seen Ji Xuan. But the problem was that on the human side, Qiu Mingyue and Xu Lian didn't seem to be good at speed and were about to fall behind.

Especially Qiu Yueming, she was not the master of the Heavenly Palace. Although she was not weak, her speed was much slower. At this moment, the last person was a king of the undersea human race. This person had already been killed, and now it was Qiu Yueming's turn.

Han Fei sighed slightly. They were allies. He couldn't just watch them die.

At this moment, Qiu Yueming had already begun to burn her blood to escape. However, the others did the same too. At this moment, whoever fell last would definitely die. Now three people had already died. How many people were there in total? If the arm kept killing like this, they would all die.

Just as Qiu Yueming was horrified and thought that he was going to die, she saw a golden light suddenly appear in front of her.

With a flip of his hand, Han Fei activated the Sacrificing Punch and charged at Qin Shuang who was about to pounce on him. With his other hand, he grabbed Qiu Mingyue and flashed thirty thousand kilometers forward.

Thirty thousand kilometers later, before Qiu Yueming could react, Han Fei had grabbed Xu Lian with his other hand. With another flash of golden light, he flew a hundred thousand kilometers away. After a few leaps, Han Fei caught up with Liang Yin and the others at the front.

Xu Lian said, "Thank you for your help, Fellow Daoist."

Qiu Yueming: "I can't thank you enough! I'll remember your kindness."

Han Fei said indifferently, "Where is the deepest part of the Eternal Thunder Waterfall? The power of lightning is at least five times stronger than before. Everyone is getting slower and slower. If this goes on, I'm afraid I won't be able to carry you."

Huang Jie said, "No one knows."

Just as Han Fei was about to kill Ji Xuan first, he suddenly saw a golden light breaking through the void. It was none other than the puppet Qin Shuang.

"F*ck! So fast?"

Han Fei subconsciously activated his Great Dao, his fist marks exploded again, and he activated the Time Arcane Technique.

Bang!

Rumble! Rumble!

Two Sacrificing Punch exploded at an extremely high intensity. Under such circumstances, Han Fei was sent flying more than 3,000 kilometers away, blood flowing from his mouth and nose.

The kings were not too far away, but the moment the golden arm found Han Fei, everyone immediately moved away.

Zhou Bai from the undersea human race shouted, "Run! That thing is clinging to Han Fei. Now is a chance to escape."

Han Fei couldn't have felt worse. Did this golden arm really target him? Why?

But Han Fei still shouted at the Snow Lady and the others, "You go first."

The main reason was that the Snow Lady and the others were not strong enough to resist the golden arm at all. They would be killed in one blow. Except for a few people who could withstand one or two

blows or use the Sky Opening-realm technique to block one or two blows, no one here could block this arm.

Fortunately, this arm couldn't take him down. As long as he didn't get close to it, he would be fine.

However, Han Fei didn't have the habit of carrying a palanquin for others. I'm fighting here to create conditions for you to run away? Who was the one who shouted just now? Is it Zhou Bai from the undersea human race? Fine, you think I'm your shield?

On the other side, Zhou Bai was leading the two kings to run wildly, not daring to stop.

But suddenly, a golden light flashed. When he took a closer look, he saw that it was none other than Han Fei.

In the next moment, Zhou Bai's expression changed drastically. He said in shock, "Not good. Split up and run."

Chapter 2010 Eternal Thunder Waterfall, Five Corpse Tombs

Zhou Bai didn't expect Han Fei to be so fast. One second he was being chased by the golden arm, and the next he appeared here.

What he didn't understand was that the golden arm had to parasitize someone, and Qin Shuang might still have some consciousness to resist, so the golden arm wasn't so mobile. Otherwise, the golden arm would have caught up with them earlier.

Han Fei didn't target Zhou Bai, because Zhou Bai was the strongest among the undersea humans. He even had a hard time fighting Qin Shuang. If he let the golden arm control Zhou Bai, it would be even harder to destroy.

However, these two ordinary kings were not strong. Han Fei couldn't wait for the golden arm to kill these kings.

Han Fei stopped a Sharkman. When the shark saw that Han Fei gave up Zhou Bai and stopped him, it was furious. There was a wolf in front of him and a tiger behind him. If it didn't fight back, it would die.

It roared, "Soul Destroying Demonic Sound, Roar..."

"Puff -"

Han Fei flashed with golden light and fought in close range. The golden arm came late. Before the Sharkman could roar, it was pierced by the five fingers of the golden arm.

Chi la!

Han Fei took the opportunity to shatter the shark's body with a poke of his finger, but he didn't have a chance to completely destroy this person. However, in the Eternal Thunder Prison, once the body was destroyed, it was difficult to survive such crazy lightning with his soul and flesh.

Han Fei retreated and continued to slip away. About thirty seconds later, the other king of the undersea human race besides Zhou Bai was also killed by Han Fei in almost the same way.

Zhou Bai was so scared that he activated all his secret techniques, fearing that he would die in Han Fei's hands.

In fact, Han Fei had no intention of killing him at all. As long as these top powerhouses didn't die, the power of the golden arm would still be limited.

Once Zhou Bai, Pang Jia, Ji Xuan, Bai Yue, and even the Snow Lady were possessed by the golden arm, Han Fei didn't know how strong it would be.

There were also others who wanted to run separately, such as running to the sides, or trying to circle around and leave this place.

However, at this moment, a circular electric circle suddenly spread out like a ripple. It was so fast that everyone was trapped in it.

Buzz!

Han Fei was about to send the golden arm away, when he suddenly found that the golden arm stopped. Not only did it not continue to chase him, but it also retreated tens of thousands of kilometers along the electric tide.

"Huh?"

Han Fei couldn't help but wonder, Is the golden arm afraid of lightning?

Boom Boom Boom ~

Feeling the power of the lightning, Han Fei found that the lightning in the lightning field was indeed much stronger. Even if he resisted it head-on, every time he was struck, he would tremble unconsciously, which had seriously disturbed his movement.

Fortunately, the golden arm didn't chase him, which was a good thing.

At this moment, the various forces were gathered in groups of two or three. Apart from Ji Xuan, there were still 22 people here. Just now, Han Fei killed Zhou Fu from the Infinity World, but the golden arm killed five. Han Fei didn't know if he should thank it or not.

Zhou Bai, who was now alone, had already joined the Hundred Demons' team, but there were only two people left on the Hundred Demons' side.

Fortunately, Pang Jia and Zhou Bai were not weak. If they were ordinary kings, this team would probably be gone soon.

At this moment, Huang Jie shouted, "Don't fight for now. There seems to be less lightning ahead."

Seeing that Huang Jie had come back to call for reinforcements, Han Fei's heart did a flip. He didn't provoke the Hundred Demon Clan and the undersea human race again. After all, it was not bad to keep these people. Anyway, they had held off the arm just now. Otherwise, it would have to be the humans.

More importantly, Huang Jie said to Han Fei via voice transmission, "We don't seem to be able to get out now. I saw Ji Xuan just now."

“Can’t get out?”

With a flash of golden light, Han Fei struck the edge of the lightning circle tentatively, only to frown. His power had been absorbed by the lightning barrier.

Ji Xuan was not a problem, but it wouldn’t be good if he couldn’t get out.

However, with the golden arm outside, Han Fei didn’t believe that the inside was definitely more dangerous than the golden arm.

At this time, Bai Yue from the Martial Emperor City said to Han Fei, “Han Fei, it’s not the time to fight. No information has ever been sent out from the depths of the Eternal Thunder Prison.”

Han Fei nodded slightly. “I’m actually not fond of fighting. I was just forced.”

The corner of Bai Yue’s mouth twitched, and he was speechless. You don’t like fighting? You were forced to do that? Your criminal records are already one of the most in our Martial Emperor City. The Thirty-Six Mystic Worlds are in chaos because of you alone, and you say you don’t like fighting?

Of course, Bai Yue could understand the hatred between the Yin-Yang World and Supreme Clearness and Infinity. Anyway, according to the recent speculations of the Martial Emperor City, once Han Fei opened the sky, the first place of the 36 Mystic Worlds would probably change hands.

On the Mermaid Royal Family’s side, Li Dian also said, “The Mermaid Royal Family had no records about this place either. You have to be careful.”

At this moment, Li Dian was no longer hostile to Han Fei. Just now, Han Fei reminded him to run away, and now he repaid the favor, indicating that everything here was unknown. Even the Merman Royal Family had never been here.

Han Fei certainly knew what Bai Yue and Li Dian meant. The two of them implied him to keep more kings, who might be useful later. They could temporarily join forces and push Pang Jia and the other two in if there was any danger. This could greatly increase their chances of survival in the Monarch Palace or the Eternal Thunder Prison.

Han Fei glanced at Zhou Bai and the other two and smiled. Then he said to the Snow Lady and the others, “Let’s go deeper in to take a look.”

After half an hour.

The lightning that Han Fei and the others encountered was indeed decreasing, and the power of the lightning was stabilizing. When they were struck by the lightning, their bodies only trembled and felt slightly numb. But it was impossible for their vitality to be destroyed by the lightning.

Besides, this didn’t look like a heavenly tribulation. If all heavenly tribulations looked like this, the Raging Sea would have been full of kings.

At this moment, Han Fei and the others saw five deserted tombs lined up.

In front of the five tombs, there was a stele with words on it. It was written, “The monarch had six lives. In his five lives, he only reached the longevity realm and only in his sixth life, he became a monarch. He

didn't want the Daos of his five lives to disappear and decided to leave them behind to benefit the world. The Dao exploring path is difficult and goes against the Heavenly Dao. Anyone who can make it on the path is truly lucky. But even the truly lucky one, the one chosen by the Heavenly Dao, will have a narrow escape on this path. Descendants should comprehend it yourselves..."

When everyone saw the inscription, they couldn't help being shocked. The monarch had six lives. In his five lives, he only reached the longevity realm and only in his sixth life, he became a monarch. Did it mean that the monarch here used six lives to become a monarch? And the five deserted tombs that everyone saw now were the tombs of the monarch's bodies in his first five lives?

Although it was recorded that he wanted to leave the Great Daos of his five lives to the descendants, obviously, it was not easy to obtain them.

Swish ~

Everyone was looking at the monument when they saw Ji Xuan flying back.

Han Fei's eyes lit up and he shouted, "How dare you come back?"

However, Ji Xuan shouted, "Han Fei, this place is weird. I'm a human after all. Look behind me."

Everyone couldn't help but look behind Ji Xuan. After about three seconds, they saw that the electric ring that spread out just now was now shrinking.

More importantly, what followed was a purple lightning tribulation cloud above their heads.

"Hiss"

"Heavenly tribulation?"

All the kings exclaimed, and someone shouted, "Ji Xuan, how can you bring the heavenly tribulation to us?"

Ji Xuan scolded angrily, "Do you think I brought it here?"

Han Fei frowned. This purple lightning was completely different from the previous lightning. If this thing didn't stop, how many people here could withstand it?

However, the heavenly tribulation couldn't speak. When Ji Xuan returned, he immediately put on a battle suit and carried a huge shield, preparing to use all his secret techniques to cope with the heavenly tribulation.

Except for Ji Xuan, everyone was the same when they saw the purple heavenly tribulation.

Han Fei, on the other hand, felt strange. Why would a heavenly tribulation appear here? Was the purple lightning definitely a heavenly tribulation?

Han Fei was fearless. Even purple lightning couldn't kill him. He might as well try it first.

When the range of the lightning ring was only 500 kilometers, the lightning ring finally stopped because the entire ring was enveloped by purple tribulation clouds.

Rumble! Rumble!

Boom Boom Boom ~

For a moment, more than 20 kings had their hair messed up and their battle suits cracked.

When Han Fei was struck by a purple lightning bolt, his body was numb for about a second. But no matter how powerful the lightning was, Han Fei felt that it was different from heavenly tribulation.

“This lightning contains the Great Dao, but it’s not that strong, and its destructive power is not strong enough. Why?”

Only Han Fei was thinking about this question, because the others didn’t think that the purple lightning was weak. There was even a king from the Martial Emperor City who was injured.

The Snow Lady and the others all used Chaotic Qi and activated their strongest Great Dao. Huang Jie was smart enough to take out the Supreme Purple Smoke Furnace and enter

it.

The moment the Supreme Purple Smoke Furnace appeared, except for the Snow Lady, Liang Yin, Xu Lian, and Hong Yue were all speechless. So the Yin-Yang World and the Million Poison World had already formed an alliance?
