

GOF 2015

Chapter 2015 Fusion with Dharma Idol

The huge hand was slowly descending, very slowly, but the toad shouted, "This hand is too strong. I fell to the ground with a smack just now. My flesh was almost shattered."

"Let me try."

The female flood dragon flew up and waved her tail, turning into the shadow of a dragon in midair. One could even see a sharp golden aura erupting.

The giant tail swept across the sky.

Bang!

Bang!

There were two consecutive large collisions. The first was the sound of the Single-Horned Flood Dragon's tail whipping, and the second was the sound of the Single-Horned Flood Dragon's tail exploding.

"Pfft!"

The single-horned flood dragon lady vomited a mouthful of blood, but her strength slightly shook the huge hand that covered the sky. Everyone saw that the big hand paused for a moment. Although the time was extremely short, perhaps not even half a second, at least the power of this huge hand was not unshakeable.

While everyone was surprised by the great power of this hand, Han Fei frowned slightly. This female flood dragon didn't seem to have used her real strength! Did she not want this Dao?

At this moment, everyone already knew that this so-called crisis was actually the inheritance of Great Daos. They just didn't know what the lightning tribulation was, or rather, they were caught off guard.

Later, they really couldn't subdue the Heavenly Dao Demonic Music and the Ultimate Blade. But this time, they could see it. It was more like a suppression in power.

.....

This was already the fourth Dao. If they could obtain this Great Dao inheritance, wouldn't their strength double?

Therefore, at this moment, someone was tempted. After the single-horned flood dragon lady was defeated, Pang Jia of the Hundred Demon Race transformed into an old turtle, and his turtle shell flickered with red light as he soared into the sky.

Boom ~

In terms of defense, Pang Jia had blocked thousands of attacks from the Ultimate Blade just now, which was enough to prove Pang Jia's strength.

Pang Jia's attack was completely different from the one-horned flood dragon lady's. He seemed to manage to resist this huge hand.

But it didn't last long. Pang Jia lasted for five seconds when with a crack, a crack appeared on his turtle shell.

Instantly, Pang Jia became listless and fell. Unlike ordinary kings who were immediately reborn, the turtle's shell was affected by the Heaven and Earth Array, so it was not easy to recover.

Pang Jia didn't have the support of Han Fei's Heaven Enlightenment Divine Technique, so when he found that he couldn't resist it, he immediately retreated. At least he could still preserve his strength and leave some room for recovery. If no one here could resist the giant hand, it would fall into his hands in the end.

At this moment, Li Dian of the Merman Royal Family suddenly attacked. Compared to Pang Jia, Li Dian's attack was very ferocious. Li Dian held a harpoon in his hand, his body was surrounded by water ripples, and he put his hand against the huge palm, as if he wanted to compete in strength.

Boom –

With another loud bang, Li Dian blocked the huge hand with one hand.

“Roar! Ten Thousand Tide, Sea Tide.”

At that moment, it was as if layers of waves surged into the sky, spanning more than three hundred kilometers.

In fact, in terms of strength, no one here was stronger than Han Fei. However, if this hand represented strength, no one here except him should be able to withstand it!

If the power of thunder was the Great Dao of the monarch in his first life, then according to the order, this Great Dao of strength should be the Great Dao chosen by him in his fourth life, and it was very likely the third strongest Great Dao on him, or even stronger than the Great Dao of Speed he had just obtained.

If it was really so strong, Li Dian wouldn't be able to resist it.

Sure enough, Han Fei's guess was confirmed. Although Li Dian seemed to be strong, he only lasted four seconds longer than Pang Jia.

Bang!

Four seconds later, Pang Jia's arm deformed and finally exploded.

At this time, everyone looked at Han Fei. Bai Yue said, “Han Fei, why don't you have a try?”

The Martial Emperor City knew Han Fei very well. According to their intelligence, Han Fei's physique was even stronger than Tai Yuan, and his strength was ridiculously strong. Bai Yue didn't think he had the ability to block this huge hand, so he naturally counted on Han Fei.

Seeing that the huge hand was pressing down lower and lower, the pressure on the kings became heavier and heavier. If the hand completely pressed down, everyone except the three of them who had obtained the inheritance would die.

The three who had obtained the inheritance might not even be the exception. If that was the case, didn't anyone who came here in the past ten thousand years obtain the inheritance?

Old Huang Jie chuckled. "It seems that we have to count on you in the end!"

Xu Lian sighed. "As expected of the Human King. It seems that we have to count on you again."

When everyone heard this, they remembered that Han Fei always called himself the Human King. As for Xu Lian, Liang Yin, and Hong Yue, they all discovered that Han Fei was actually quite easy to talk to. As long as they admitted defeat, Han Fei didn't mind. He just didn't let off those who refused to surrender.

For example, Supreme Clearness and Infinity had attacked the Yin-Yang World multiple times and tried all means to kill Han Fei. How could he let them off? Therefore, as soon as Zhou Fu and Ji Xuan appeared, Han Fei directly exploded and beat them to death.

Two strong masters in the top twenty of the Raging Sea had died just like that!

As for Han Fei, he actually quite wanted this Great Dao. It was impossible for others to surrender opportunities to him. Although it was good to pick up opportunities with luck, most of the time, luck and strength equally mattered. Otherwise, these opportunities were not opportunities, but banes.

Han Fei summoned the Infinity Water to protect himself. Then, he activated his Great Dao and roared, and his Dharma Idol appeared.

Everyone saw that a giant was rising, and Han Fei was standing on the head of the Dharma idol. At this moment, Han Fei and the Dharma idol did the same movement, blocking the huge hand with both hands.

Buzz!

With two consecutive muffled sounds, the huge hand stopped.

One second

Two seconds.

Ten seconds.

Twenty seconds.

Just when everyone thought that Han Fei could withstand the hand, with a crack, some cracks appeared on the Dharma idol.

Then, the kings saw Han Fei's glabella crack, and the Invincible Eye was opened. His body was wrapped in a golden light. At this point, Han Fei's strength had exceeded a million

waves.

Boom!

Crack ~

The ground was cracking, and the Dharma Idol seemed to be pressed into the ground by that terrifying force.

The kings were horrified by the battle of strength between the two parties. On the side of the Martial Emperor City, when Bai Yue saw the Dharma Idol, he felt that Han Fei's Dharmakaya seemed to be more powerful. He guessed that maybe different people had different Dharmakaya. What Han Fei felt at this moment was that he didn't obtain any Dao of Strength, but he felt that the Great Dao of Strength seemed to be able to fuse with the Great Dao of Gravity.

home

As it happened, he knew both.

Han Fei activated the Great Dao of Gravity and used the reverse gravity, but it was still a little difficult. This could only mean that the Monarch comprehended the Great Dao of Gravity better than him in his fourth life.

However, it wasn't that Han Fei didn't gain anything. All this time, he hadn't really fused with the Dharma Idol. However, under the power of this huge hand, his body was fusing with the Dharma Idol.

Or rather, his body was being squeezed into his Dharma idol. Logically speaking, his Dharma idol was his enlarged body, but Han Fei and his Dharma idol were separated. There was no telling if it was because he had cultivated the Dharmakaya in advance.

But in any case, Han Fei felt that he was fusing with his Dharma Idol bit by bit. With the two fused, his strength would definitely improve, so Han Fei was not in a hurry. He even felt that his strength was still a little lacking.

Han Fei swallowed another Five-Layered Dao Pattern Pill.

Unfortunately, the Five-Layered Dao Pattern Pill could no longer provide him with several times his strength. It could only temporarily increase Han Fei's strength by about 80,000 waves.

However, it was good to have more power at this time. Han Fei's body was gradually being squeezed into the Dharma idol.

Below, Old Huang Jie couldn't help but click his tongue in wonder. "He's only a king!"

Everyone knew what Huang Jie meant. They all sighed. Yes! Han Fei was only a king now! If Han Fei opened the sky, how strong would he be?

Before He Daoyuan and Bei Luochen opened the sky, were they so strong? Don't be ridiculous. They all became kings at the same time. As for who was strong, who was weak, how much stronger and how much weaker, although the masters of the Heavenly Palaces didn't say it out loud, they knew it very well in their hearts.

With Han Fei's current strength, he was already invincible in the Sea Establishment Realm.

On the giant beast's side, the toad sighed. "I didn't expect him to be so strong! I should have made friends with him the moment I met him!"

The Single-Horned Flood Dragon: "Why do you say that?"

"I'm not telling you."

Pang Jia and Zhou Bai didn't look too good. The stronger Han Fei was, the more dangerous they would be. But at this moment, they didn't dare to disturb Han Fei, because if Han Fei collapsed, they would be doomed. They could only hope that Han Fei was seriously injured, or they had to find a way to run quickly.

After half an hour.

Han Fei had already entered the Dharma Idol. When Han Fei entered the Dharma Body, his original body naturally fell between the chest and ribs of the Dharma Idol.

It was a feeling of harmony, a combination of power. Han Fei felt that his strength seemed to have soared by 30%. He didn't know if it was the power of his Dharma Idol, his own power, or the power of the two.

The Sacrificing Punch suddenly erupted.

Boom –

The terrifying power shook the kings' minds, and many of them vomited blood.

However, when they looked at the sky again, the palm that covered the sky was already gone.

Only a huge Dharma Idol was left, enveloped by the invincible will, shining with golden light, like a giant god.

Chapter 2016 Traveling the Great Void, Stars Hanging on A Tree

Han Fei had already taken two of the five inheritances. Everyone was shocked. They wanted the next inheritance to belong to them, but at the same time, they hoped that Han Fei could take the next inheritance to save them from any danger.

Of course, the people of the undersea human race and the Hundred Demon Clan didn't want Han Fei to continue to receive the last inheritance. Not to mention that their safety was not guaranteed after Han Fei obtained the two inheritances, if Han Fei continued to obtain the inheritances of a Monarch one after another, who could stop Han Fei here?

Look at the strong masters of the Supreme Clearness and Infinity who went against Han Fei. He killed them without hesitation. If he was even so ruthless to the human race, would he hesitate to destroy the Hundred Demon Clan and the undersea human race?

Zhou Bai and Pang Jia exchanged a look. They knew that no matter what, they had to either attack or find a way to escape. There was no third possibility.

What they didn't know was that Han Fei hadn't inherited the Dao of Strength because he felt that he could block this so-called Dao of Strength because he hadn't reached the limit of the Sea Establishment Realm yet.

Perhaps, in terms of strength, he was no weaker than this Monarch's fourth body. Therefore, the Great Dao of strength this time only helped him completely fuse with his Dharma Idol. From now on, if he used his Dharma Idol to fight enemies, his strength would increase by 30%.

However, the fourth body of this Monarch chose the Great Dao of Strength, which meant that he walked the path of body refinement. Besides, from the power just now, the fourth body of this Monarch was comparable to him in strength. It was hard to say if he was stronger than him when he reached the peak of the Sea Establishment Realm, but at least he was stronger than the current him.

Therefore, Han Fei had two doubts.

First of all, the Monarch couldn't even succeed with such body-refining strength and had to continue to try in his fifth life?

Secondly, after experiencing three Great Daos, the Monarch chose the body-refining path, over which he must have pondered repeatedly. If he wasn't absolutely confident at the beginning of cultivation, why would he take this path?

If he guessed right, body refinement would definitely take much longer than other Great Daos.

These two questions made Han Fei wonder if it was not enough to reach the longevity realm with body refinement alone.

.....

As the saying went, one had to stand on the shoulders of giants. He should learn lessons from his predecessors' experiences and find a way to figure out the pros and cons of body tempering

Han Fei couldn't help being curious. If this path had been given up, what path did the fifth body of the Monarch take? After all, this Monarch had achieved longevity in his sixth life. In his fifth life, he must have figured out how to do it.

Han Fei vaguely felt that this was the real significance of the existence of the Monarch Palace. The more dangerous a place was, the greater the opportunity. He didn't come to the depths of the Eternal Thunder Prison for nothing

When Han Fei was waiting for the fifth Great Dao to appear, this place began to tremble slightly. The five tombs were approaching each other. Gradually, the five tombs fused into one tomb.

Bang!

While everyone was vigilantly waiting for the fifth Great Dao to appear, they suddenly saw a bump on the tomb.

"Shoot"

Even Han Fei was horrified. The toad exclaimed, “Really? Isn’t it enough for the Monarch to leave his Great Daos? He even left a body alive?”

The squid lady said, “It’s impossible for him to be alive. His five bodies have all died. How can he still be alive?”

The Single-Horned Flood Dragon said, “Even the Monarch Palace appeared here. I’m afraid the Monarch himself might have died.”

Han Fei said, “Then it must be a zombie. Hong Yue, your Mad Corpse World is good at controlling corpses. Is it easy to fight a corpse of this level?”

Hong Yue immediately shook his head like a rattle drum and said, “This must be the Monarch’s final Great Dao. If this one comes back to life... I’m afraid no one here can suppress it.”

Bai Yue asked, “It’s just a dead body. No one can suppress it?”

Hong Yue said, “It’s not as simple as a dead body. Besides, only we, the Mad Corpse World, know how terrifying corpse puppets are. A really powerful corpse is invincible, let alone this kind of corpse.”

Huang Jie said, “Don’t panic. My God Slaying Demonic Poison can melt everything. Let me have a try.”

Bang!

Buzz!

The mud on the tomb seemed to be being pushed up by a human hand from below. All the kings were horrified. They just hoped that they wouldn’t be killed here. This was because at this time, except for Han Fei and the undersea human race and the hundred demons, there was almost no hostility between them. Therefore, they should be safe.

“Puff -“

Everyone’s hearts were in their throats. With a puff, they saw an arm-thick thing sticking out of the tomb. Then, the audience all heaved a sigh of relief. Fortunately, it wasn’t an arm.

However, a branch that looked like bronze extended from the tomb. It was a branch because there were two green bronze leaves hanging on it.

However, in everyone’s eyes, this bronze branch was growing quickly. In less than half a second, it had grown four or five times larger. Three seconds later, it was nearly two meters tall.

After ten seconds, when it was more than 20 meters high, everyone saw all kinds of strange lines appear on the tree trunk. When the branch grew larger, Bai Yue shouted in a low voice, “Dao patterns?”

Han Fei and Bai Yue recognized it at the same time. From the existence of the Dao patterns, Han Fei knew that this thing was definitely not low-level.

After a hundred seconds, this place was more than 500 meters high. With a bang, a green light curtain swept out from the tree. The kings instinctively retreated, but the surroundings were blocked by electric circles, so they couldn’t retreat.

When everyone was swept by the green light, they saw that the surrounding environment had directly transformed. At this time, what they saw was no longer a tomb, but an incomparably huge bronze divine tree. And they seemed to be in the starry sky. In the distance, stars flickered.

The kings looked up and saw that the bronze tree was full of strange lights. Han Fei immediately felt that the Origin Sea was moving, or to be precise, the Demon Purification Pot was moving.

“A little vine?”

Han Fei was refreshed and excited. Is this luck? Is there a little vine here?

However, before Han Fei could think further, the Snow Lady said, “My perception is working.”

Han Fei was also stunned. He spread out his perception and immediately scanned hundreds of thousands of kilometers. There were all kinds of dazzling treasures that all looked extraordinary.

Ring! Ring!

Everyone looked over and saw a bronze bell ringing. But in fact, the bell was even bigger than the toad king in his complete state.

Near the green bell, a bright red flame was burning on the branch, which was equally huge. Judging from the strange flame, it was obviously a Heavenly Strange Fire.

On it, Han Fei also saw a familiar item, which was the crystal ball that contained the Yin-Yang World and the Water-Wood World, that small world.

Han Fei couldn't help taking a breath. “A world hangs on a branch?”

Xu Lian exclaimed, “What is that? Stars? Nine stars hanging on a tree?”

Everyone continued to look up in the direction Xu Lian pointed in, and then they all gasped. As kings, they had certainly studied stars. If this wasn't a star, what was it? It was just a little small, and it seemed that the radius of each star was less than a thousand kilometers.

Han Fei saw fishing rods, jade, swaying whips, shiny battle suits, and an ancient divine boat on this tree...

And these were not the most important things, because at the top of this bronze tree, there was a futon. On the futon, there was a jade slip and a small vine.

Seeing this, Han Fei was overjoyed. Sure enough, the more dangerous a place was, the more opportunities there were. This was the sixth vine of the Demon Purification Pot.

In the Raging Sea, this was already the third vine he had obtained. Han Fei didn't understand why these vines were separated and scattered in different places.

And this time, he might be able to find the answer from the Monarch Palace.

Similarly, more than one person saw the jade slip and the little vine. Hong Yue looked at Han Fei, wondering why this little vine was so similar to the little vine that Granny Qiu from the Medicine King World refined. And that one should be in Han Fei's hand now, right?

Han Fei noticed Hongyue's gaze, and his eyes turned cold. The latter immediately said via voice transmission, "I don't know anything. I won't compete for that vine with you."

Only then did Han Fei slowly retract his gaze. There were actually many others secretly looking at Han Fei. Now, the strongest people here should be Han Fei, Bai Yue, and Pang Jia. Zhou Bai and Li Dian were powerful, but it was impossible for them to defeat Han Fei in close combat.

With his powerful defense, Pang Jia might be able to compete with Han Fei, but his chances of winning were not high.

Only Bai Yue, who was in charge of the super resource shops in the Martial Emperor City, had many treasures. However, Bai Yue said that he could only stay in the Sky Opening realm for about 30 seconds.

If what he said was true, Bai Yue might not be a match for Han Fei even with all kinds of precious resources.

But if Bai Yue held back or had any special treasures, he could indeed compete with Han Fei.

As for the giant beasts, Han Fei was sure that they had hidden strength, but he didn't know how much. But he didn't believe that they could beat him.

While everyone was searching for treasures all over the tree, the Snow Lady said, "Don't forget the battle back then. How big was that tree when we saw it but what danger we encountered, have you forgotten it?"
