

GOF 2023

Chapter 2023 Le Renkuang's Summoning

The Cloud Dream Fruit in Han Fei's hand only had two leaves. Obviously, it wasn't of a high level. Such a Cloud Dream Fruit didn't mean much to him.

"Crunch!"

Han Fei took a big bite and swallowed it like an ordinary fruit. Therefore, the Vast Ocean Navigator should be pointing at the way out of this place. Only by leaving this ancient forest could he have a chance to find the bronze tree again.

A moment later, when Han Fei saw a human Half-King fighting a Hundred Demon Half-King, he knew that he had probably come to a place explored by Half-Kings.

And this place was indeed very effective for Half-Kings. This was because the higher the level of the Cloud Dream Fruit, the more Chaotic Qi it contained, the more soul power it could increase, and the better the strengthening effect on the bloodline.

This was a shortcut to increase their overall strength. Those who survived here would be much stronger than ordinary Half-Kings when they left the Monarch Palace in the future.

And only by eating the highest-level Cloud Dream Fruit could a Half-King transcend the tribulation and become a king. And treasures of that level were definitely rare.

Therefore, Han Fei guessed that this place might only be one of the Half-King trial grounds. As for the danger level, it could only be said to be average.

Logically speaking, Han Fei shouldn't have been here, but since he was here, it meant that he could pick a few of the highest-level Cloud Dream Fruits.

He just needed to keep going up the tree. This little difficulty certainly couldn't stop Han Fei.

...

At the highest point of the Cloud Dream Divine Tree, the trunk was naturally getting thinner and thinner. However, this place had already become a sea of demonic plants, with as many as a thousand strange demonic plants attacking each other.

At the highest position of the Cloud Dream Divine Technique, as many as 11 people were fighting each other. Among these people, except for a fatty who couldn't control demonic plants, everyone else could. And this fatty was Le Renkuang.

"Huff-"

Le Renkuang opened his mouth and swallowed crazily, and four Half-Kings were besieging him crazily.

Le Renkuang shouted, "Xiaobai, this can't go on! Why don't you use the things that Feifei left to us?"

Luo Xiaobai said, "Don't be hasty. These people are not very strong. The bad thing is that they are all from the Hundred Flowers World and are good at controlling demonic plants. We just fought and were seriously injured. Void Vine, do you have a way to take two people away?"

The Void Vine said tearfully, "My lords, I'm only a peak-level Venerable! Didn't the Human King leave you a life-saving method? Use it!"

Luo Xiaobai said, "It's not the time yet. If we use it now, what can we use in the future?"

Le Renkuang said, "Fine, if I try my best, I can kill one of them and hold another off. Void Vine, prepare to snatch the Cloud Dream Fruit at any time."

Void Vine: "Got it."

An orange-red light burst out of Le Renkuang's body, and a strange black box appeared, and a Sea Quelling Bizarre Treasure-level long knife appeared in his hand.

"Devouring Demon Blade, fight..."

Bang!

Around Le Renkuang, airwaves surged. With a swish, he cut through countless long vines. Seeing this, the four Half-Kings from the Hundred Flowers World immediately shouted, "Control him."

When the four of them exerted their strength at the same time, Le Renkuang grinned. "Deep Blue Fall."

Around one of the Half-Kings, the void suddenly collapsed, and a terrifying suction force came from the void. The man was shocked and immediately shouted, "Help

!!

PO

The remaining Half-Kings of the Hundred Flowers World were naturally distracted to save him. At this moment, the long knife in Le Renkuang's hand turned into a bolt of lightning and shot into the sky. The Qi and blood of one of the four Half-Kings were triggered, his body was torn apart with a puff, and his essence blood was sucked away.

The man was horrified. He activated all his secret techniques, and the essence blood that flew out turned into burning fire spikes and attacked Le Renkuang.

However, it was precisely because of this person's mistake that a huge claw appeared from the collapsed void and grabbed the fallen Half-King. The man vomited a mouthful of blood, and the huge claw emitted a terrifying force, directly pulling the Half-King into the void, and then the void closed.

At this point, Le Renkuang's outburst was not over yet. He held the knife with both hands and rushed his way ahead, enduring the fire thorns all the way.

At this time, the Purity Mystic Body manifested his powerful physique. The so-called powerful attacks of these Half-Kings couldn't shake Le Renkuang at all.

The longer Le Renkuang accumulated energy, the brighter the long knife in his hand became.

“Roar!”

Seeing that the vines that blotted out the sky were rolling towards him and all kinds of strange poisons and mysterious barriers were blocking in front of him, Le Renkuang knew that he couldn't rush over. He immediately slashed down. It was hard to say if he could kill one or two enemies.

“Not good! Retreat!”

The guy who was targeted by Le Renkuang turned pale.

At this moment, another person threw out a jade slip.

“Hum

!!

The phantom of a king appeared, and as soon as the king appeared, he quickly understood the situation of the battle. A black demonic vine, like a spear, nailed at Le Renkuang.

“F*ck!”

Le Renkuang knew that he couldn't resist it anymore. A jade slip appeared in his hand. “Do you think you're the only ones with a king-level blow? I have one too!”

Crack!

The jade slip shattered. In that second, a golden light flashed, and Han Fei appeared.

Han Fei casually pinched the vine spear and shattered the void with a slap, directly shattering the phantom of the Palace Master of the Hundred Flowers World, Hua Qianyue, without any effort.

Le Renkuang shouted, “Did you see that? Loser, how dare the king of the Hundred Flowers World go against my brother, Human King? Believe it or not, he can even kill your king with a slap. If you know what's good for you, give up the Cloud Dream Fruit.”

A woman on the opposite side shouted, “Humph! It's just a projection. You've already used the blow. Let's see how many times the three of you can launch a king-level blow!”

Le Renkuang couldn't help looking at Han Fei. “Feifei! Can you still fight? Kill two more.”

Bang! Bang! Bang!

However, the Half-Kings only felt a terrifying pressure descend, and the vines, mist, poisonous gas, and demonic barriers that filled the sky were all shattered.

Under Han Fei's suppressing pressure, the remaining seven Half-Kings all fell.

On the Hundred Flowers World's side, someone shouted, “Not good! Demon Han's phantom still has strength. Quickly use the King's Strike.”

Swish! Swish! Swish!

Three jade slips shattered, and three king's projections appeared. Le Renkuang and the other two, who were about to rush over, hurriedly stopped.

The three of them immediately retreated behind Han Fei, and Luo Xiaobai also held a jade slip, her face cold. She estimated that Han Fei hadn't used up the power of this blow, but the other party had launched three king-level blows in a row, so Han Fei might not be able to withstand them.

But then, as soon as the three king-level attacks were launched, Han Fei waved his hand. No one knew how Han Fei attacked, but the three phantoms instantly shattered before they could attack.

Le Renkuang and Luo Xiaobai looked at each other. Han Fei hadn't even used up the power of his blow?

Le Renkuang immediately regretted it. "I didn't know that Feifei's blow could be so powerful! If I had known, I wouldn't have thrown it out!"

The seven people from the Hundred Flowers World were also dumbfounded. Was Demon Han so powerful that he could shatter three king-level strikes with a casual wave of his hand?

Han Fei couldn't help looking at Le Renkuang. "Do you want me to kill them? I'd better not. The Hundred Flowers World will submit to us in the future anyway."

Le Renkuang said, "No, you have to kill him. You're just a projection anyway... Hey, Feifei! Do you still have the strength to speak?"

Han Fei said, "Well, what if I tell you that this is my original body?"

Le Renkuang: "???"

Luo Xiaobai: "???"

The Void Vine: "???"

The people from the Hundred Flowers World: "???"

Le Renkuang's fighting intent immediately disappeared, and he said in disbelief, "Cut the crap. Who are you kidding? Can this jade slip summon you?"

Han Fei said with a strange look, "Well, I can only say that you were so capable that you did summon my original body."

Buzz

Three holy pillars of light descended and fell on Le Renkuang, Luo Xiaobai, and the Void Vine. Their injuries were recovering crazily.

At this moment, everyone finally realized that something was wrong.

Luo Xiaobai said, "No, you are not a phantom, but a real body."

Han Fei smiled. "I'm a real body in the first place! Otherwise, the phantom would be very big. It has to at least look intimidating."

Le Renkuang was stunned. "Can the thing you gave us summon your original body? What if we summon you at your critical moment?"

Le Renkuang was still being silly, but Luo Xiaobai seemed to understand something. Although she was a little puzzled why Han Fei was here, Han Fei's appearance was quite coincidental.

The Void Vine completely stretched out and shouted at the other party, "Come! Come at us! Hurry up and hand over your resources and the Cloud Dream Fruits."

Han Fei smiled. "Yes."

The people from the Hundred Flowers World were dumbfounded. They didn't understand why Han Fei was here.

However, when they felt the suppressing pressure that almost suffocated them, it was accompanied by terrifying killing intent. Everyone couldn't help being horrified. Who was Han Fei? He had slaughtered many Sea Establishers. How could a Half-King resist his cold killing intent?

The Void Vine had already gone to get resources. Le Renkuang scratched his head and tilted his head to look at Han Fei. "Feifei! Are you really your original body?"

Han Fei said impatiently, "I just came here by accident. I was about to find a way out when you suddenly crushed the jade slip I gave you. How could I not come?"

Le Renkuang exclaimed, "There are Sea Establishers here?"

Luo Xiaobai said, "It seems that you have some problems."

Han Fei nodded slightly. "I did suffer a huge loss, a huge huge loss..."

Seeing Han Fei's face twisted, Luo Xiaobai said, "It seems that you did suffer a big loss."

It was obvious that it must be such a huge loss that Han Fei was so anxious and angry. Otherwise, Han Fei wouldn't have appeared here.

Han Fei glanced at the Void Vine and said casually, "Leave some resources for them."

Then, Han Fei said to the people of the Hundred Flowers World, "It's only a matter of time before the Hundred Flower Palace submits to us. Now, you shouldn't be enemies with the Yin-Yang World. This time, I'll just teach you a lesson, but it won't be so simple next time."

With that, Han Fei waved his hand and sent the Half-Kings flying tens of thousands of kilometers away.

Chapter 2024 Luo Xiaobai's Guess

Han Fei had planned to find the highest-level Cloud Dream Fruit when the Vast Ocean Navigator was reset.

However, he suddenly felt Le Renkuang's summoning, so he came to the place where the highest-level Cloud Dream Fruit was. This was why Luo Xiaobai and the others wanted to compete with the people from the Hundred Flowers World.

At this moment, Han Fei had solved the people from the Hundred Flowers World, only to see a pile of Sun-Moon Shells and four Cloud Dream Fruits hanging on the Void Vine. The Void Vine was so happy that it twisted.

Han Fei took a look. The highest-level one was a five-leaf one, and the others were all three-leaf ones. It seemed that the people from the Hundred Flowers World didn't get many Cloud Dream Fruits!

Luo Xiaobai said, "This tree that looks like the Cloud Sea Divine Tree has this kind of fruit growing in many places. You can distinguish their age and effect according to the number of leaves. The effect of the five-leaf one is unknown. If no one guards it, no one dares to swallow it immediately, so we got it."

Le Renkuang said, "They must haven't had time to take them off yet. Otherwise, they would have eaten the five-leaf fruit long ago." Only then did Han Fei look at the battlefield in the distance. There was a barrier that emitted a jade luster. At this moment, most of the barrier had been broken and was full of cracks. There seemed to have been a great battle there.

Luo Xiaobai said, "There's a seven-leaf spiritual fruit there. There was a flood dragon that could be said to have entered the Sea Establishment Realm guarding it. It was killed by us. But maybe because we caused too much noise, we attracted the attention of these people from the Hundred Flowers World."

The Void Vine immediately said, "Yes, in this environment, even if they couldn't use perception, their ability to discover things was much stronger than the people from the other Heavenly Palaces."

Han Fei asked in surprise, "You haven't got the Seven-leaf Cloud Dream Fruit yet?"

Le Renkuang said, "We'll get it soon. Feifei! Have you eaten this fruit? Let's have one each."

...

Han Fei shook his head. "I've already eaten it. This thing is useless to me."

Han Fei glanced at the Five-leaf Cloud Dream Fruit and saw that it only provided 101 wisps of Chaotic Qi. He estimated that the Seven-leaf Cloud Dream Fruit could at most have 500 wisps of Chaotic Qi.

But even so, the Cloud Dream Fruit was still useless to him.

Luo Xiaobai said, "Then guard us."

Continue reading on MYBOXNOVEL.COM

Han Fei waved his hand and the Ultimate Blade shot out. Before Luo Xiaobai and Le Renkuang saw what happened, they heard a few clangs on the jade barrier, and then the jade barrier was broken.

The Void Vine exclaimed, "It was broken so easily?"

Le Renkuang was lost for words. "Feifei! How did you do that? Why couldn't we see it clearly?"

Everyone flew over. Luo Xiaobai controlled demonic plants to pick the Seven-leaf Cloud Dream Fruit and send it over. Then, she saw the Ultimate Blade floating in front of Han Fei and was quite curious.

Han Fei said, "It's a godly weapon I got here. It's only a little faster. There's nothing special about it."

"Puff -"

"A godly weapon?"

Luo Xiaobai rolled her eyes. She really couldn't stand Han Fei's pretentiousness anymore.

The Void Vine was envious. The Human King had already obtained a godly weapon? Were there so many resources in the Monarch Palace?

Le Renkuang couldn't help drooling. "Are there many such godly weapons in the Monarch Palace?"

Han Fei smiled. "Well! There should be a lot, but there is also danger. This knife only killed Ji Xuan in a few seconds."

Luo Xiaobai: "..."

Le Renkuang said, "Forget it. I think this environment suits us better."

Luo Xiaobai was lost for words. "Put away your so-called godly weapon and guard me."

Han Fei chuckled. "OK! You guys eat."

The Cloud Dream Fruit was not very useful to Han Fei, but it was very useful to Le Renkuang and Luo Xiaobai, especially Luo Xiaobai. This exotic spiritual fruit was very nutritious for her, so the Seven-leaf Cloud Dream Fruit was certainly hers.

More than four hours later, the three of them woke up one after another. The moment Luo Xiaobai woke up, everyone felt that their surroundings suddenly changed. It was as if they were in a wild lake, surrounded by clouds and mist. In the depths of the clouds and mist, there seemed to be a big tree growing quickly.

But this strange scene disappeared after only a few minutes.

Han Fei keenly noticed that this seemed to be a kind of Great Dao.

Sure enough, Luo Xiaobai said, "My Dao heart becomes firmer now, and my strength has increased by 30%."

Le Renkuang and the Void Vine were both surprised. "So much?"

Luo Xiaobai said, "That's what Dao comprehension is like. You'll find out later."

Han Fei, on the other hand, was deep in thought. The tree just now should be the key to Luo Xiaobai's improvement. However, Han Fei didn't need to ask. He just said, "The later stages of the Monarch Palace are very dangerous. If the next place is the same as this one, explore it slowly. Don't be hasty. Don't set foot in the kings' domain."

Sensing that Han Fei was serious, Luo Xiaobai frowned slightly. "Logically speaking, you shouldn't be here. What happened?"

Le Renkuang also said, "Yes! I'm also curious. You can already get a godly weapon. Why are you here?"

"Alas..."

Han Fei heaved a long sigh. "Speaking of which, this is a wrong choice I made... Blah, blah, blah..."

Han Fei had nothing to hide from Le Renkuang and Luo Xiaobai. Besides, since he had already encountered them, he certainly had to explain some dangerous areas to them.

Therefore, Han Fei began from the Insect Tide Forest. Of course, Han Fei omitted the Mirror of Infinity. He just talked about the dangers he had experienced and the people he had encountered.

The three of them were horrified.

The Void Vine trembled. "What? More than ten kings have died?"

Le Renkuang asked, "Is that golden arm really so powerful? It can kill a king with one punch? Oh my god, so the Monarch Palace is not prepared for us Half-Kings?"

Han Fei said, "Therefore, when you feel that the danger is getting greater and greater, and you can no longer survive it with your talent and trump cards, you'd better choose to retreat to a safe place. A real crisis is really dangerous. Even the dragon you just killed here is probably not simple, right? When I came, I found that the three of you were actually seriously injured."

Luo Xiaobai nodded. "Yes, that dragon already has the strength of the Sea Establishment Realm. With our strength, we used a secret technique and shattered six ultra-quality Divine weapons before we killed it."

Han Fei said, "Therefore, even the relatively safe places here are so dangerous. You should know how dangerous it's in the depths of the Monarch Palace. I wonder where Zhang Xuanyu and Xia Xiaochan are now."

Luo Xiaobai said, "Xia Xiaochan has already reached the Sea Establishment realm. According to your experience, she shouldn't appear in the same place as us. At least, you are the first Sea Establisher from outside we've met."

Han Fei said, "That's why I have to find the bronze tree. You may not believe it, but you have to see it with my own eyes to know how many treasures there are."

However, Luo Xiaobai looked at Han Fei deeply and said, "I think you don't have to find that tree."

"Huh?"

Han Fei was stunned. Even Le Renkuang and the Void Vine were stunned.

Le Renkuang was surprised. "Why not? Those are all ultimate treasures."

However, Luo Xiaobai shook her head slightly. "They're treasures, but not necessarily ultimate treasures. The probability of death in the forest where we are is not small, right? Therefore, in the end, we all gathered on this big tree. Obviously, this is more like a trial or assessment. And what Han Fei experienced was obviously the inheritance of the five lives of the Monarch. Although many kings died, when the Monarch built the Monarch Palace, he must have thought of it. He just wanted to pick out the people who could obtain his inheritance. As Han Fei said, there are so many treasures on the bronze tree. Since there are so many of them, they are actually more like high-level resources instead of rare treasures. In the depths of this palace, there must be something better than them."

Han Fei's heart did a flip. "Why do you say that?"

Luo Xiaobai asked, "Didn't you say that when you came out of the illusion of the bronze tree, you found that one of them should have left voluntarily?"

Han Fei was puzzled. “Yes!”

Luo Xiaobai said, “Those who achieve great things don’t drift with the current. You shouldn’t just consider why others stay there, but think about why that person left. No matter who this person is, why can he resist such a great temptation and choose to leave?”

Han Fei was shocked by Luo Xiaobai’s words. Yes! Why did someone leave in advance? Wasn’t the stuff on the Bronze Divine Tree good? Every treasure there would be coveted by countless people!

Luo Xiaobai said, “From the locations of Half-Kings and Sea Establishers, we can tell that the areas we’re in are different. It’s just an accident that you’re here. I guess that even if you walk with us now, you will have to leave our training ground for some special reason.”

Luo Xiaobai analyzed calmly, “Whether it’s a Half-King or a Sea Establishment cultivator, they only have one purpose here. They want to accept the inheritance of the Monarch Palace. Because there are very few inheritors, the probability of death here is very high. This is because the Heavenly Openers can’t enter. We can even conclude that there might be a power in the underground palace that can stop Sky Openers. In other words, the Sea Establishment realm is the highest tolerance limit for the trial of the imperial palace. This also means that only the Sea Establishers have a chance to obtain the true inheritance of the Monarch Palace.”

Han Fei asked, “The real inheritance of the Monarch Palace?”

Luo Xiaobai said, “The Monarch built the Monarch Palace to find his inheritor. Do you think he will give the entire Monarch Palace to his inheritor?”

“Hiss”

Le Renkuang, Han Fei, and the Void Vine all gasped. Hearing what Luo Xiaobai said, everyone felt that it was very likely.

Han Fei also felt that it made sense. Otherwise, why would the Monarch Palace set up a Monarch Palace here? Did he really have nothing better to do?
