

Chapter 211 They Are Thugs

Han Fei really doubted that if it weren't for the seal of the Stone Forest, this Stone Spirit Turtle would have already become someone's contractual spiritual beast.

When it found that it was suspended in the sky, it was just a little surprised and even asked weakly, "Can I still sleep after becoming a contractual spiritual beast?" Han Fei was helpless. "Of course not. You'll have to come out to fight for your master every few days. Are you afraid?"

The Stone Spirit Turtle remained aloof. "Well, then forget it. I'd better not become a contractual spiritual beast."

Xia Xiaochan chimed in, "Big turtle, you are stupid! If you are caught by someone, you won't be able to sleep any longer. So, you should listen to Han Fei and find a secluded place to sleep."

The Stone Spirit Turtle was aggrieved. "How? Isn't this place secluded? But he..." Han Fei pointed at himself with his mouth open. So he became the bad guy?

Han Fei said angrily, "Master Turtle, be fair! This time, I saved you, but you won't be so lucky next time."

BAM!

At this time, the fishing boats fell into the sea together. As soon as it entered the water, the Stone Spirit Turtle flung itself. Perhaps it exerted too great a strength, and a fishing boat was directly overturned. The other two fishing boats did not turn over but gave a jolt at sea. The two men on the ships immediately cut off the chains and ran away. Although they were great fishing masters, the Stone Spirit Turtle was already over level 40. They were not its match!

As for the ship that fell from the sky, it had almost been damaged. There were more than a dozen people on it but apparently someone fell into the water and did not come up again. It seemed that one or two people were missing.

At this moment, these people were steering the broken ship to ram at Han Fei and the others. "Little bastards, leave your lives here!"

Han Fei looked at the turtle and said, "Master Turtle, these people caught you. If I were you, I would knock them over."

However, the Stone Spirit Turtle said lazily, "I'm tired! I don't want to move."

Han Fei was speechless. You damn turtle! I saved you but you don't even give us a helping hand!

Luo Xiaobai sighed. "Forget it, fighting is also part of cultivation. We may encounter this situation again in the future. Let's fight them."

Zhang Xuanyu immediately swung his rod and a huge wave of tens of meters high was raised. He laughed. "Feifei, let me show you the Seven-Layered Waves in Furious Sea at sea..."

At this moment, Zhang Xuanyu's momentum was soaring and the waves behind him pushed him forward.

Luo Xiaobai shouted, "Come on!"

After that, countless vines swished out from the water and easily caught the other party's ship.

"Attention, kill the manipulator first," someone yelled. At the same time, at least four people left the fishing boat. Someone jumped into the water and when he jumped out again, a spear thrust at Luo Xiaobai.

Le Renkuang patted his armor box and chuckled. "His spiritual beast is a Strip Fish. That's simply a piece of cake for me."

A long knife swept out of the armor box and turned into a seven or eight meter long shadow.

Le Renkuang muttered, "This is a new combat skill I created. I am going to call it Crazy Slash."

Han Fei clicked his tongue. "You should read more books. What a corny name!"

Then, Han Fei strode out of the boat and stepped through the air, and three Blue Sea Wandering Dragon Daggers shot out. Although his Purple Bamboo Rod was destroyed, he still had a fishing rod. He held his fishing rod in one hand and cast the fishhook in an instant.

Three men attacked from the left and were blocked by Han Fei alone. One of them tried to resist the Blue Sea Wandering Dragon Dagger, only to have his armor shield and spiritual energy protective cover burst while he was pierced through the chest.

Seeing this scene, the other two quickly retreated, but Han Fei's fishing rod had caught one person's feet. Han Fei approached him in two or three steps and his body put on different postures in the air, easily avoiding dozens of bone spurs thrown out by the other party.

Pu...

Thrusting a dagger into this man's chest, Han Fei grinned ferociously. "Your spiritual beast Bony Spur Fish may be a bit useful in protecting you but is just a piece of junk if you want to use it as a hidden weapon!"

Then he pulled out the dagger, letting this man fall into the water. As for the remaining person, he was completely freaked out. Why are these teenagers so strong?

At the other end, Xia Xiaochan, who had mastered the magical skill of flashing, attacked more simply. She flashed and exploded, taking the life of the last great fishing master.

m

At this time, Zhang Xuanyu had just approached the other party's fishing boat. With a flash in his eyes, he launched a soul attack and a person on the boat immediately turned glassy-eyed.

BAM!

The man was bumped into the air and blood spurted out of him. If it were not for the two great fishing masters protecting him with a spiritual energy protective cover at the same time, the man would have been dead.

When Zhang Xuanyu stepped on the waves again, Luo Xiaobai's vines had woven a large vine that was tens of meters long.

"Snap..."

The vines cracked down like a giant whip and the deck of the other party's fishing boat was broken. When the three people on the boat finally managed to contain the whip, Zhang Xuanyu launched another Seven-Layered Waves in Furious Sea at them.

What was worse, Xia Xiaochan sneakily appeared behind a person and stabbed him. Han Fei, who rushed by and happened to see this scene, broke into a cold sweat. Fortunately, my body is sturdy. Otherwise, I might have been stabbed to death by this girl...

The great fishing masters of the other party were stunned. Someone shouted in shock, "The perfect combination... Seven-Layered Waves in Furious Sea. They are the Thug Legend team!"

Just after the man shouted, Le Renkuang's Torrents of Knives and Swords arrived. For a moment, there were giant vines, swords, knives, raging waves, and daggers in the space of dozens of square meters... The other people were also experienced great fishing masters. They tried to fight back, only to be crushed in a minute.

Crack... Bam!

The fishing boat disintegrated. In just a few minutes, this group of more than a dozen people was crushed. Seeing this scene, the two fishing boats that had escaped sped away and dared not to come back to help their companions.

Come on! That's the Thug Legend who won one hundred-game winning streak in the Blue Sea Arena and crushed the top 100 students of the other three academies. They were not their match at all...

Luo Xiaobai shouted, "Xiaochan, don't kill them."

Xia Xiaochan appeared, waved the daggers in her hand, and grunted. "I'm not interested in killing junior great fishing masters. I just want to teach them a lesson that age doesn't mean anything."

Han Fei went back to the fishing boat and lay on the bow of the boat, looking at the Stone Spirit Turtle. "Master Turtle, we can take you to find a place to sleep. Would you like to go?" "Is it far away? If it's far away..."

Han Fei said angrily, "Do you still want to be caught? By then, you'll have to come out to fight frequently. That will be much more tiring than swimming tens of thousands of miles."

The Stone Spirit Turtle seemed to think about it carefully, and in the end, it said lazily, "Fine! Human, can you pull me along?"

Han Fei: "..."

Everyone: "..."

In the end, Han Fei compromised and pulled it along with a chain. They set off for the Fire Cloud Cave.

As soon as they left, these people from the Black River Chamber of Commerce gathered up immediately. They climbed on the last two fishing boats in utter panic

“Six people died! How will we explain this when we go back?”

Someone mumbled, “Just say that we met the Thug Legend! We’re lucky to survive. They are not ordinary kids. They are seeded students of the Fourth Academy. Just let the Chamber of Commerce deal with them.”

Fire Cloud Cave.

Now there was no treasure in it. Although there was something like Earth Fire, no one had ever seen it, but the cave was gorgeous indeed, with small fish and shrimp, coral and shellfish... Colorful and beautiful.

“Master Turtle, just sleep here! You helped us once, now we’ve paid you back! I don’t owe you now.”

The Stone Spirit Turtle lay straight on the ground. “I’m exhausted. So sleepy! You can go now. I’m going to sleep.” Xia Xiaochan said angrily, “You ungrateful big turtle! If it weren’t for us, you would have become a contractual spiritual beast. You should thank us!”

He Xiaoyu muttered, “Xiaochan...”

Xia Xiaochan was angry. “Humph, did I say something wrong?”

The Spirit Stone Turtle was so sleepy that it could hardly keep its eyes open. Maybe it thought what Xia Xiaochan said was right. It shook its body and a black stone fell from the crack of its turtle shell. “Ok, I’ll give this to you.”

Xia Xiaochan was stunned. “What is this? A broken stone?”

“I don’t know! Someone stuffed it into my shell when I was a kid. But he didn’t come back to get it. I don’t have anything else, so I can only give this to you.”

Han Fei stepped forward and patted the turtle shell. “Okay, Master Turtle, just sleep! Xiaochan is kidding.”

That being said, Han Fei came up to pick up the stone. Someone gave it to you? Really?

Chapter 212 An Ingenious Use of the God Scaring Painting

The Stone Spirit turtle quickly fell asleep.

Han Fei and the others were used to it. The most adorkable creatures they had ever met were the Stone Spirit Crab and Stone Spirit Turtle, both called stone spirit. One was very good at deceiving itself and the other only knew to sleep.

On the fishing boat.

Xia Xiaochan pried open the stone with a dagger and found that there was a small box inside.

Le Renkuang exclaimed, "Is it a treasure?" Zhang Xuanyu wondered, "Didn't Master Turtle say that when it was a child, someone plugged it into its shell? How many years ago was it when it was a child? Was it about a thousand years ago?"

Luo Xiaobai nodded. "At that time, the Stone Spirit Turtle was still very weak, so it must not be a treasure."

Han Fei suggested, "Open it. Then we'll know what it is."

Crack...

As soon as he said so, Xia Xiaochan had opened the box, in which it was a fish skin map!

Han Fei and Zhang Xuanyu immediately pushed Le Renkuang aside, asking simultaneously, "A treasure map?"

Le Renkuang was stunned. Come on, we're classmates. How could you treat me like this?!

Xia Xiaochan was also surprised and quickly spread out the map. Huh? Where is this?

Xia Xiaochan wondered, "This is not the map of the level-two fishery. The dangerous places of the level-two fishery are not on it."

Luo Xiaobai was confused. "They shouldn't be. Otherwise, at least the floating islands should be marked."

Han Fei agreed. "Yes, there aren't even floating islands, which means that this is not the sea area of floating islands at all. Since it's not, it's not the level-two fishery, let alone the level-one fishery."

Zhang Xuanyu and Han Fei looked at each other again. "Is it the level-three fishery?" Just as the two were excited, a cold voice came from behind, "No."

"Teacher?"

They looked back, only to see that Wenren Yu appeared on the deck from nowhere, and they were startled.

Han Fei gaped. It seemed that not only Xia Xiaochan had the ability of stealth. Why do these people all like to eavesdrop? Wenren Yu explained, "It is not the map of the level-three fishery. The area on this fish skin map does not seem to be large. According to the mountain on the map, the area shouldn't be larger than a thousand square miles and should even be smaller than an ordinary fishery."

Zhang Xuanyu was excited. "Teacher, can we find this place?"

Wen Renyu thought for a while. "Find it yourselves."

"Then why are you here?"

Wenren Yu was silent for a while. "I'm just curious..." After that, Wenren Yu flew away with a swish. But her voice was still heard. "You should practice fishing more. Don't think of treasures all day long. Treasures are everywhere. When you're strong enough, you can get as many treasures as you want."

Everyone: "..."

Because no one knew what the map was about, their interest was gone. Xia Xiaochan threw the box into Han Fei's hands. "Just put it into the Sea Swallowing Seashell!"

Han Fei scoffed. "Am I your butler? Am I your warehouse..."

Le Renkuang smiled. "But only you have a Sea Swallowing Seashell! Or, you can make one for each of us?"

"Hoho, I'll just put it in the seashell. Safe."

In the next few days, they were just fishing but didn't use bait for fishing. To be more specific, they were fishing with technology Han Fei only insisted for a day before he lay on the deck and fell asleep. Le Renkuang was really jealous of him.

In fact, Han Fei was researching the God Scaring Painting. This picture had been imprinted in his mind. Although Han Fei didn't know what the use of this picture was, from the 100 million points of spiritual energy required to deduce it, he knew this painting couldn't be simple. This was in the same class as the Indestructible Body Art!

After nearly a month, Luo Xiaobai and Le Renkuang had mastered mental perception one after another. And Han Fei, except for eating, had been sleeping.

At this moment, a hot pot had been set up on the ship. The four were looking at Han Fei and discussing

Le Renkuang asked, "Was he infected by Master Turtle? All this time, he did nothing but eat and sleep. I think he is too much! If he goes on like this, he will get fat again."

Zhang Xuanyu guessed, "He must be thinking about the picture. I have been thinking about it too recently. I feel that my perception range has increased a bit, it is already one meter."

Xia Xiaochan nodded. "Me too. I think we just need to think about that picture as much as possible. Every time I see the big fish, I feel very magical, and I still think so after watching it countless times."

Luo Xiaobai frowned. "Just think about it? My perception is not more than two feet now."

Le Renkuang nodded. "Mine isn't either."

Han Fei was lost in his thoughts. He began to sleep twenty days ago because he discovered something. Whenever he closed his eyes and thought about the God Scaring Painting, he would see it very clearly. But when he opened his eyes and wasn't in a state of meditation, he couldn't remember what the painting was like.

This month, he had been trying to remember this picture, but so far he hadn't succeeded. So, he used many methods, such as the copying method, line dismantling method, and spiritual energy drawing method...

But none of these methods worked. In the end, he found that the painting seemed to be able to be split. At first, he split it into a hundred pieces, but after trying for five days, he couldn't even remember a single piece. So, he split it into a thousand pieces, and now he finally remembered a piece of it.

Don't underestimate this piece. When Han Fei cast the fishhook again, his mental perception range changed from 5 meters to 50 meters. This breakthrough directly shocked him. It was just a small picture, but his perception range was expanded by 10 times.

To his pleasure, he could not only perceive the underwater area, but also sensed the area around him.

For example, at this moment, Han Fei could see the four of them staring at him, Le Renkuang glanced at the hot pot occasionally, Luo Xiaobai looked at him with a frown, Zhang Xuanyu was bragging, and Xia Xiaochan was in a daze.

"Snap!"

Han Fei suddenly sat up and startled the four of them.

Zhang Xuanyu worried. "Feifei, are you okay? You've looked a bit strange recently!"

Han Fei twisted his neck and turned to sit in front of the hot pot. "Strange? Is it that I have become thinner, so you feel pressure?"

Zhang Xuanyu sneered. "Pressure? What kind of pressure can I have? Are you more handsome than me, or are you taller than me?"

Han Fei turned black. "Humph, do you wanna fight?"

Han Fei took the lead to pick a piece of fish with his chopsticks and put it in his mouth, saying casually, "Let me give you a hint. Take more time to think about the picture on a bigger scale. Analyze every detail of it."

Luo Xiaobai immediately asked, "Can it improve our perception?" Han Fei nodded. "Yes."

Xia Xiaochan asked "How much was your perception improved?"

While eating fish, Han Fei picked his fishing rod and threw it into the sea. "About 10 meters."

"Wow..."

"Pu... Cough, cough..."

Le Renkuang spit the fish in his mouth and looked at Han Fei in shock. "How much?"

Not only Le Renkuang, everyone was stunned. Their perception range still stayed within a few feet, at most half a meter, and Han Fei's had already reached 10 meters, which really shocked them.

Xia Xiaochan stared at Han Fei. "Are you sure?"

Han Fei smiled awkwardly. "If I tell them it's actually 50 meters, will I be beaten to death by them?" "Eat, eat... Talk while eating."

Zhang Xuanyu screamed, "Ah! That's unfair! Are you a monster?"

Xia Xiaochan mumbled, "Why is my perception range only three meters? No, I'll sleep too from tomorrow on."

Le Renkuang blinked. "I don't want to talk to you two. Too much! You're too much."

Han Fei chuckled. "Now we've all learned mental perception. As for the range of perception, it's just a matter of time. Now do you have any ideas about the Deep-Sea Jungle?"

Le Renkuang looked unmotivated. "Not interested. I just want to sleep after the meal."

Luo Xiaobai said slowly, "Han Fei, it's your turn to keep watch at night."

"Me? Hoho..."

Chapter 213 Wooden Fish

The wind was not strong at night on the ocean. Though the boat was slightly rocky, it was no different from the ground for those who were used to life on the ocean.

Han Fei was fishing with a pole by himself, and his partners were all sleeping. They were all scared by Han Fei's remark about his vision of ten meters.

After dinner, they studied the pictures they saw on the tablet eagerly.

Bored, Han Fei caught a Strip Fish and threw it back after absorbing its spiritual energy. Then he did the same to a squid. In the end, he couldn't remember how many fish he had caught and thrown away.

Hmm? Should I sail the boat to the Deep-Sea Jungle first?

Han Fei was tempted. Although his teammates were unwilling to go there, they would have no options except to explore it if he led them there.

Immediately, Han Fei controlled the boat to fly towards the ocean over the Deep-Sea Jungle.

Wenren Yu was more than infuriated from her watch, as the troublemaker was making trouble again after laying low for only one month. But Wenren Yu was puzzled too. Were the pictures that Han Fei's team saw real? Expanding the range of spiritual sense to ten meters was terrifying. Earlier, she couldn't have grasped the ability unless she became a Dangling Fisher and visited THAT place. However, those young people had grasped it in two months. Han Fei and Xia Xiaochan, in particular, were astonishingly fast.

The Deep-Sea Jungle was not as wide as the coral reefs. It only covered about three hundred square kilometers. Hardly had Han Fei landed when he saw the seaweed as well as the regular fish killed by the seaweed in the ocean.

Because of the bountiful seaweed, a layer of sea melon seeds, as well as many conchs, had grown above them. There were also small crabs that were hiding in the seaweed.

Han Fei poked with his fishing pole and found that the seaweed had stems that extended from the bottom of the ocean. Some of the stems were thicker than others, occupied by clams, crabs, and big conchs.

The rest of them might know where Han Fei was sailing the boat to, but none of them got up. After all, it was Han Fei's turn of duty, and their own cultivation was more important. Han Fei drew out his fishing pole and cast the hook in a relatively empty place among the seaweed.

Han Fei was lost for words after the casting, as he had to avoid the stems in the water through the Winding Snake Technique. It was more than ten times difficult to fish here.

Very soon, the hook had descended by more than three hundred meters, and Han Fei vaguely saw the jungle at the bottom of the ocean.

It was not exactly a jungle, as it was not made of tall, straight trees, but of crooked, weird ones. Some of the trees were bare, and some had fresh branches like willows. Han Fei pressed deeper, only to exclaim in surprise. "There are fish living within the trees?"

He was quite curious. He saw that many fish were hanging on the trunks and branches and charging at the plankton now and then.

"Incredible. Let me get one of them."

The hook flashed and caught a fish that was swimming towards the plankton. It was only one foot long.

"Hum..."

However, when the fish was caught, Han Fei failed to pull the fish back as usual. Then, his face changed, as infinite branches were coming at the hook. Han Fei didn't realize until they were closer that those fish were actually connected to the branches.

Han Fei swallowed. Fish growing on trees? That sounds almost as absurd as sowing fish on the land.

Han Fei pulled hard, and spiritual energy burst out from the hook, cutting off the branch that connected the fish. But instead of pulling the hook back immediately, Han Fei controlled the fishing pole to wander in the water, wondering what other branches would do.

But out of his expectation, while Han Fei was wandering, the fish on the tree stuck their tongues at him, which was another eyeopener for Han Fei. Even frogs couldn't have such long tongues!

Han Fei hurried to stay away. Their tongues were dozens of meters long and disgusted Han Fei, who wondered if they had nothing but tongues in their body.

At this point, Han Fei had reeled in the pole and left the other fish far behind. A moment later, Han Fei waved his dagger when the fish he caught surfaced, cutting off its tongue the moment it stuck the tongue out.

Clap... Clap...

Han Fei grabbed the fish and checked its data.

<Name> Wooden Fish

<Introduction> This is a fish that lives on sea willows. It can make strange sounds to attract other creatures and hunt them.

<Level> 21

<Quality> Regular (dying)

<Spiritual Energy> 219 Points <Effect> Inedible

<Collectible> None

<Absorbable>

Han Fei found it amazing. The fish was dying when it had just left the tree. So, had the fish been hunting by itself, or had the sea willow been controlling those fish?

Han Fei examined the fish, only to discover that it was as hard as wood. It was like a toy. “Gugugu...” “Dang! Dang! Dang!” The Wooden Fish sounded like a cuckoo, except that its sound was duller.

“Huh? What’s this fish?”

Han Fei almost threw the Wooden Fish away when he heard Xia Xiaochan’s voice unexpectedly. “Don’t sneak up on me like that. Aren’t you training? Why are you suddenly up?”

Instead of giving an answer, Xia Xiaochan stared at Han Fei’s fish and asked, “What’s this fish? It’s screaming.”

As she spoke, Xia Xiaochan took over the Wooden Fish.

But she immediately exclaimed in surprise, “It’s made of wood?”

Han Fei nodded. “That’s right. It’s a fish that grows on trees.”

Xia Xiaochan: “???”

Han Fei said, “We’re above the Deep-Sea Jungle right now. I tried fishing just now and caught this Wooden Fish.”

Xia Xiaochan stared at Han Fei gloomily. “So, you sailed the boat to the Deep-Sea Jungle while we were asleep?”

As if he didn’t hear her criticism, Han Fei said solemnly, “That’s not important. The important thing is that this is an amazing place. Do you know that the trees at the bottom of the ocean are laden with such fish?”

Xia Xiaochan said unconcernedly, “That’s not really a big deal. There are all kinds of wonders in this world, and fish that grow on trees are not really weird.”

Han Fei chuckled. That’s easy for you to say, but don’t you find the trees strange apart from the fish?

There was no photosynthesis three hundred meters deep in the water. How could the trees have grown into a jungle down there? What was the source of their energy? Xia Xiaochan grabbed her fishing pole. “I’ll try it!”

Xia Xiaochan was quite curious about the sea willows that Han Fei mentioned. She couldn’t imagine what a tree laden with fish would look like.

A moment later, Xia Xiaochan shook her head. “I can’t go down. There is too much seaweed in my way.”

Han Fei thought for a moment and said, “Let’s go to a different place.”

A moment later, they found a place with relatively less seaweed.

After casting the cook, they looked at each other in surprise.

Xia Xiaochan asked, "Did you see the fish just now?"

Han Fei said, "What do you think?"

This time, Han Fei and Xia Xiaochan saw plenty of fish, but most of them were common. By logic, those fish should be living in the general fishery instead of this place.

Han Fei scouted the area with the Winding Snake Technique and found that this place had a greater variety of creatures. There were red, green, and yellow algae and seaweed in this place as well as clusters of sea anemone. Above the seaweed, Han Fei saw many sea urchins half a meter long with stings all over their black bodies.

Xia Xiaochan was lost for words. "Why are you drooling?"

Han Fei smacked his lips and said, "Wait a moment. I've found good stuff."

Controlling the hook, Han Fei caught a sea urchin in the blink of an eye. He was not worried at all that it might flee, because the sea urchin was a timid creature and couldn't move fast. Most sea urchins could only move one meter in a day if there was abundant algae, and only several centimeters when there was not enough food.

Hiu...

The sea urchin burst out its stingers dozens of meters away the moment it was caught. Han Fei smacked his lips. The only way you can hurt me is to shoot them hundreds of meters away.

But before Han Fei pulled the sea urchin back, he saw that the stingers that were shot out returned to the sea urchin as if they were connected to the sea urchin by lines.

Han Fei was dumbfounded. "Really?"

Chapter 214 You'll Cook For a Month as Punishment

Han Fei said to Xia Xiaochan, "Go wake up the fatty." Xia Xiaochan: "???"

Xia Xiaochan woke up Le Renkuang, and Le Renkuang was drowsy. "What's wrong?"

"Get your shield out!"

Le Renkuang took out his shield and asked in confusion, "What's wrong? Is there an enemy around?"

Han Fei said, "I've found good stuff, but you need to protect Xiaobai since it is rather prickly."

Le Renkuang was still puzzled, but he covered Luo Xiaobai with his shield. "Why do you need my shield? Can't you block it by yourself?"

Han Fei said, "Of course I can, but I don't want to be stung! Are you silly?" As Han Fei pulled the hook, a black object surfaced very soon and unleashed all its iron stingers the moment it appeared.

"Ohhhh..."

"Who stabbed me? Who..."

Zhang Xuanyu jumped to his feet, with two stingers on his butt and one on his back.

Le Renkuang covered his grin. "Ha! I forgot to cover him."

Zhang Xuanyu shook the stingers off with his spiritual energy. He was about to curse in fury and embarrassment, when he saw stingers darting at him again. He hurried to deflect those stingers with his rod.

At this point, Han Fei waved his Blue Sea Wandering Dragon Dagger and cut the threads that connected the stingers and the fish.

When Han Fei finally picked up the black ball, Zhang Xuanyu ran to him and complained, "Why are you all covered by the shield but I am not?"

Luo Xiaobai woke up in confusion and saw black stingers all over the boat and a black ball that Han Fei was holding. Luo Xiaobai asked, "What's going on? Have we been attacked?"

Han Fei smiled. "We're fine. I just found something delicious. Since it is almost dawn, I decided to catch it as breakfast."

Everyone: "???"

Le Renkuang chuckled. "That's why you woke me up just now? Okay. Please wake me up whenever you're going to make food again."

Zhang Xuanyu asked gloomily, "Why was I not covered?"

Han Fei and Le Renkuang replied, "We forgot!"

Zhang Xuanyu: "... Luo Xiaobai stepped forward and picked up a stinger. Then she exclaimed, "This is very hard. What is it?"

Han Fei said, "A sea urchin."

Le Renkuang was not convinced. "Are you trying to fool me? You can really eat that? I've seen those things in the general fishery."

se

Han Fei snorted. "We must see nature instead of superficial things. You can certainly eat it after you remove all the stingers, can't you?"

After the fuss that Han Fei caused, everybody lost interest in cultivating. Zhang Xuanyu asked, "What is this place? Why are there so many algae?"

Luo Xiaobai narrowed her eyes. "Han Fei, have you just sailed the boat to the Deep-Sea Jungle?"

Han Fei chuckled and said, "I didn't have anything better to do. Let me tell you, this is an amazing place. There is a kind of fish here that grows on trees." After that, Han Fei kicked the Wooden Fish to everyone.

Le Renkuang grabbed the fish. "Huh? It's hard. Wait, it can be bent... Wow, this fish is really wooden!"

Luo Xiaobai took over the Wooden Fish curiously. “The fish is still alive, but it’s dying. Does it have any abilities?”

Han Fei thought for a moment and said, “It can stick its tongue more than ten meters away. The bigger ones might be able to do it even further.”

Han Fei had chopped the tongue of the Wooden Fish when he caught it, so he didn’t know the features of the tongue.

Zhang Xuanyu asked curiously, “What do the trees that the Wooden Fish grow on look like? Those weird things often contain treasures.”

Han Fei said, “I’m not sure. I didn’t get a closer look. However, I don’t think there are treasures in this place.”

Xia Xiaochan asked, “Why not?”

Han Fei had his own theory. Places where seaweed gathered had much more oxygen than usual, which resulted in the biodiversity of this area. Since so many different kinds of creatures were living in this place, they would’ve swallowed the treasures even if there were any.

Han Fei said, “Just look down! There are too many creatures down there. We’re too late even if there’s any treasure.”

Zhang Xuanyu shook his head. “You don’t know that. If what you said is true, why is the Deep-Sea Jungle considered the second most dangerous place in the level-two fishery?”

Han Fei smiled. “You really want to know? Let’s find out down there.”

Luo Xiaobai frowned. “No, at least not now. You make breakfast first while we keep training. I feel that the range of my senses has increased a little bit.”

Le Renkuang scratched his head. “Me too. Perhaps, that picture was meant to enhance our senses.”

Zhang Xuanyu said, “Okay, I’ll go back to sleep... But Han Fei, don’t fish anymore, or at least inform me before you do.”

Then, they all went back to sleep, except Xia Xiaochan who squatted next to the sea urchin curiously.

Han Fei asked in surprise, “Why are you not sleeping?”

Xia Xiaochan prodded the sea urchin. “I’m more interested in the world down below right now. Of course, I’m interested in this sea urchin too.” Han Fei smiled. “Is that so? Let me tell you, this is very delicious.”

In the morning, when a basin of sushi was placed on the table, Han Fei sighed and said, “It would be even more delicious if I had more ingredients.” He didn’t have rice, mustard, or salad for the sushi.

Thankfully, Han Fei had acquired some fish eggs from a fish he caught. He asked Xia Xiaochan to dry the kelp and prepare the crab meat as well as cucumber pieces. Together with the vinegar, it was a perfect breakfast.

“Huh?”

Han Fei was appreciating his work when he was shocked by the data that he saw.

<Name> Spiny Sea Urchin Sushi

<Introduction> This is a food made of the essence of many ingredients. It's tasteful and contains plenty of spiritual energy. <Level> 20

<Quality> Rare

<Spiritual Energy> 282 Points

<Effect> It can fill your stomach and temporarily increase your health for an hour when eaten.

It was not the first time that Han Fei saw the data. He had seen a lot when he made food for himself, but he had never made a food of the rare quality before.

Also, the sushi didn't contain a lot of ingredients compared to hotpot. However, the stew that he made in hotpot was only Mortal Level, High Quality. Even the squid hotpot in the level-two fishery was also Mortal Level. But this time, the sushi had reached the Spirit Level.

Han Fei was also shocked that the sushi could enhance one's health temporarily.

At this point, Han Fei remembered Old Jiang's remark that he would make a good gourmet cook. At that time, Han Fei's reply was that he only made food for himself and he would rather not be a cook.

Then, when he made vinegar, Old Jiang mentioned that the stronger a creature was, the more effective it would be if it was eaten. At that time, Han Fei did not really think that one could be stronger by eating. But he had a new idea now. What if the enhancement of health became permanent? He could try better ingredients than the common ones in the level-two fishery.

Han Fei couldn't help but wonder. If he could acquire some fancy ingredients, could he create a permanent buffet for himself? That would be so much easier than cultivation. Xia Xiaochan waved her hand before Han Fei. “Han Fei... Han Fei...”

Han Fei was woken up. “Huh? What's wrong?” Xia Xiaochan said, “The food is still raw. It's not cooked.”

Han Fei chuckled. “Some food needs to be cooked, and some don't. Look, just dip it in vinegar...”

As he spoke, Han Fei picked up a piece of sushi and put it in his mouth after dipping it in vinegar. He narrowed his eyes in satisfaction as the seafood with spiritual energy was unbelievably delicious. Le Renkuang suddenly sat up. “I smell vinegar.”

Xia Xiaochan mocked him. “What a foodie.”

Zhang Xuanyu and Luo Xiaobai were woken up again, and they all began eating the sushi. Le Renkuang asked with his mouth full, “Han Fei, can you teach me how to cook? How can I be as good at cooking as you?”

Han Fei said mysteriously, “Creation. Food must both look and taste delicious. That should be your goal.”

Le Renkuang looked at him in admiration. He had been meaning to learn Han Fei's creativity for a long time, but he couldn't. He never knew that certain ingredients could be combined until Han Fei created a new food each time.

Then, Wenren Yu appeared out of nowhere and stepped onto the boat. To everybody's surprise, she grabbed a piece of sushi, dipped it in vinegar, and put it in her mouth.

Wenren Yu swallowed and said, "Han Fei, you will cook for a month as punishment after we return."

Han Fei: "???"

Chapter 215 Fantastic Creatures in the Ocean

Everybody was surprised to see Wenren Yu. Why did she suddenly appear when she had told everybody to continue their training and she would observe them in secret?

Han Fei tried to please her. "Master, we're already at the Deep-Sea Jungle. It would be a waste if we just go back without exploring it, wouldn't it?"

Zhang Xuanyu nodded quickly. "That's right, Master. You're not asking us to return right now, are you?"

Wenren Yu had been busy swallowing the sushi. She didn't say anything until the two of them finished, "That's why I'm punishing you. Also, I can tell you that there are no treasures in the Deep-Sea Jungle."

Han Fei asked in surprise, "Master, have you been there?"

Wenren Yu snorted. "If you want to go down there, just go. Don't try to learn anything from me. I'll go down with you this time, but I will not help you unless it's necessary."

"Pa!"

Han Fei and Zhang Xuanyu had a high-five as their plan worked.

Wenren Yu slightly shook her head. But then she remembered that she had been curious about the undersea world too years previously. Actually, before she arrived, the teachers had discussed and agreed that they could allow Han Fei's team to explore the ocean, which would be a good lesson for them.

Receiving Wenren Yu's approval, everybody including Luo Xiaobai was delighted.

A moment later, Han Fei said, "Fatty, make sure that your weapons are prepared. There are too many algae and seaweeds down below. Slash them if we're about to be tied up."

Le Renkuang bashed his chest and promised, "You got it! But I don't really think that those plants can be dangerous."

Everybody jumped into the water, and Han Fei and Le Renkuang cut the seaweed and the broad algae with their blades. After only a dozen meters, they met a shoal of fish, which was not really surprising. Le Renkuang simply unleashed his weapons and cleared the way for everyone.

After thirty meters, they met bigger groups of fish. The fish were regular but quite aggressive. Soon, everybody was surrounded with chopped seaweed and fish meat.

Luo Xiaobai said, "Pay attention to the Broadleaf Algae. They're spreading to us."

Han Fei said, "The Broadleaf Algae have to be completely minced."

Han Fei recognized the plant. According to the Encyclopedia of Spiritual Plants, this algae was carnivorous.

Le Renkuang said, "Rest assured. I got this."

Then, his elbow flashed, and the Thousand Blade Tortoise appeared. In the next moment, blades were rotating and cutting the algae.

But to everyone's surprise, the algae was not minced. Instead, all the algae instantly rolled their leaves into a stick, which reminded Han Fei of mimose.

Different from mimose, the sticks did not retreat at all but attacked the sharp blades of the Thousand Blade Tortoise as if they were made of iron.

For a moment, hundreds of algae sticks were like furious tentacles at the bottom of the ocean.

Of course, the algae sticks did not have a lot of advantages, and most of them were cut by the Thousand Blade Tortoise in the end.

However, what surprised everybody was that the broad leaves that had been cut off stretched out into long banners that floated at them again.

One or two of them would be easier to deal with, but when hundreds of broad leaves were blown at them, the area where Han Fei was swimming was immediately locked down.

Le Renkuang's face changed. "Don't move. Let me do this. It seems that we have to chop them into pieces. Torrents of Knives and Swords."

With the Thousand Blade Tortoise on the outside and Le Renkuang's weapons inside, everybody felt that they had been trapped in a vortex. Of course, the broad leaves that surrounded them were soon penetrated.

Luo Xiaobai said, "Not good. Those broad leaves seemed to be releasing some kind of toxic matter."

Everybody hurried to escape from the area. Wenren Yu appeared behind them and said, "First time. If this algae was not regular ones in the level-two fishery, and if you hadn't taken the Exotic Poisonous Fruit and the Moon Watching Fruit, you would've been paralyzed and strangled by this algae."

Everybody had cold sweat as they had miscalculated. If they were caught in the situation that Wenren Yu described, they would've been killed at the beginning of the adventure.

Han Fei swallowed hard. No wonder the Deep-Sea Jungle was regarded as the second most dangerous place in the level-two fishery. Most of the great fishing masters probably would've been killed by the algae on the upper level before they dove deeper.

But this incident increased the wariness of Han Fei's team. Every life at the bottom of the ocean, including the plain-looking plants like seaweed and algae, had their significance.

The minced seaweed had only a bare stem and a round food bag on the top. Yes, those algae had food bags, and they were all full. Le Renkuang cut one of them open and saw all kinds of digested and undigested fish in them.

Xia Xiaochan cut off the bag, leaving the bare stem behind. Zhang Xuanyu knocked the stem and said to everyone, "It's at least Mortal Level, Low Quality. It's very hard."

Luo Xiaobai said, "Let's be careful. Don't bother the stems. They're of no use for us."

Everybody nodded and kept descending.

Maybe because the algae on the upper level had been covering up for the lower level, they did not meet any danger in the next hundred meters except for some Strip Fish, Swordfish and Iron-Head Fish, which were common in every place.

Those fish were the source of food for the plants in this area. However, since the fish lived in this place when it was dangerous, it meant that the fish could earn enough things that were worth the risk from this place.

Very soon, Han Fei's team found where the fish were gathered. Going further down, they found shellfish and conchs on the algae. Some of the conchs had mutated and emitted glamorous colors on their back. Xia Xiaochan picked some of them up.

Han Fei saw a couple of orange, flat fish that were biting and pulling the conchs from the algae. When Han Fei's team approached, the fish hurried to swim away. Xia Xiaochan was delighted. "This place is more beautiful than the coral reefs!"

Han Fei said, "The more beautiful a place looks, the more dangerous it might be. It's like the more beautiful a woman is, the less you can trust her!"

"Excuse me?!"

Xia Xiaochan, Wenren Yu, and Luo Xiaobai scoffed and glared at Han Fei at the same time.

Zhang Xuanyu smacked his lips. "Han Fei, can you not be so blunt? You may be killed someday because of that."

Han Fei blushed, as he had unintentionally revealed the big secret.

After descending for another fifty meters, they found uneven rocks around them, but those rocks had been covered by seaweeds and sea anemone.

Han Fei saw a cluster of red and white sea anemone that had ten big tentacles with infinite smaller tentacles on them. When a school of Strip Fish swam by, the tentacles immediately grabbed a couple of them and sent them to the hole at the center of the sea anemone.

On their way, Han Fei's team saw Mysterious Armored Turtles, Red Spot Squids, big fish with two sharp fangs, and a Mantis Shrimp that was going on hunting.

Of course, those creatures did not cause any trouble. A group of Strip Fish intended to attack them, but they all slipped away in fear after Luo Xiaobai hit them with her vines. BAM!

Le Renkuang was blown away. Everyone didn't realize until a moment later that it was a green Mantis Shrimp hiding among the seaweeds. Le Renkuang was enraged. "You dare to attack me?"

He darted out his sword and cut the Mantis Shrimp into halves.

Then, they passed some rocks that looked like an arch and saw the shells of clams, conchs, and spider crabs on the bottom of the ocean.

There were so many of them that they almost covered up the entire space.

Xia Xiaochan found several beautiful shells and was about to pick them up, when something jerked out of the mud as fast as the Mantis Shrimp.

Taken aback, Xia Xiaochan flashed away. She observed it more clearly, only to discover that it was a level-28 Green Scaled Serpent. Then, Xia Xiaochan immediately lunged back and cut the serpent into pieces.

Han Fei said, "I told you to be careful. Let's not approach the crevices but just press forward. The sea willows that are full of Wooden Fish are over there."

Chapter 216 Great Plate Octopus

Han Fei didn't know if there were rainforests in this world, but the woods like the Deep-Sea Jungle were the main source of oxygen here.

When there was more oxygen, the body size of creatures tended to go bigger. Han Fei had found that the creatures here were multiple times bigger and stronger than their counterparts in other places.

At this point, the situation was obvious. Tremendous amounts of seaweeds were floating along the current like a green undersea carpet, but the carpet was a dangerous one. Apart from anything else, the hundreds of sea urchins on the carpet were terrifying enough.

An explosion burst out a thousand meters away. Everybody saw a ball being shot at them by something. It turned out to be a Dragon-Head Fish a couple of meters long, and it was chasing the ball with its sharp teeth.

Zhang Xuanyu asked in amazement, "Isn't this place very dangerous? Why is this Dragon-Head Fish playing with a ball?"

However, Han Fei saw the data of the ball, which was not a real ball.

<Name> Great Plate Octopus

<Introduction> This is a rare squid in the undersea jungles. It's highly intelligent, and it's eyes can help with the training of Pupil Spells.

<Level> 29

<Quality> Rare

<Spiritual Energy> 581 Points

<Edible Effect> It can increase one's health if it's eaten over a long period of time.

<Collectible> Squid Eyes

<Absorbable>

When it was closer, everybody noticed that the ball was actually made of a bunch of shells, and that outside of the shells were plenty of sucking discs.

Zhang Xuanyu's face slightly changed. "An octopus?"

The other people's faces slightly changed too, but Han Fei was quite excited, as he had never seen an octopus before.

Luo Xiaobai pulled Han Fei back and said, "Don't get close! The octopus will claim to have much more strength than squids. They're rare in level-one and level-two fisheries. Because they are too strong, an operation is conducted to hunt them every hundred years."

Han Fei was surprised. "They're hunted regularly?"

As Han Fei recalled, the octopus was a smart but timid creature. Had it also become a strong creature in this place?

As they talked, Han Fei saw that the Dragon-Head Fish bit one corner of the ball and spun it hard, which was a regular way of hunting to tear apart their prey.

However, the prey of the Dragon-Head Fish was in a ball this time, and it could also spin. While the ball was spinning, two tentacles suddenly stretched out and stabbed into the Dragon-Head Fish's gills, before they pressed into its head.

Everybody was chilled by what they saw.

Wenren Yu said casually, "The octopus was only hunting with itself as the bait. It may seem small, but it can easily tear this Dragon-Head Fish into halves." Hardly had Wenren Yu finished when the ball was opened and all the shells dispersed, revealing the real appearance of the octopus that was almost four meters long. While escaping with the Dragon-Head Fish, it peeped at Han Fei.

The Great Plate Octopus seemed to have sensed danger. During its escape, its body color changed from red to green while it disappeared into the seaweed with the Dragon-Head Fish.

Xia Xiaochan remarked, "This octopus seems smart!"

Le Renkuang nodded. "It noticed us a long time ago and has been observing them. If a lot of them are gathered, they can be much trickier than squid and cuttlefish." Luo Xiaobai said, "Let's go! This is just a common place in the jungle. We should press on."

Everybody agreed with her, and Wenren Yu slightly shook her head. Those kids are as bold as her and her friends back in the day. She and her friends also explored many dangerous lands, until...

The seaweeds floated with the rhythm of the current, and Han Fei swam forward dozens of meters above them. Occasionally, the sea urchins would shoot their thorns at the intruders, but they all reacted fast enough and avoided the thorns easily.

Very soon, everybody saw bamboo wood.

Yes, it was bamboo wood at the bottom of the ocean. From the bamboo poles almost a hundred meters tall, leaves were falling now and then.

Zhang Xuanyu's eyes bulged. "Is that... Bamboo? So much bamboo?"

He Xiaoyu was rather shocked too, as they were the bamboo rods that He Xiaoyu used at the beginning. He had thought that bamboo was rare in the ocean, but there was too much to be counted here.

Luo Xiaobai unleashed her vines to the bamboo, but then many long insects that were melded with the bamboo attacked the vines.

<Name> Walkingsticks

<Introduction> They live with bamboo and feed on fish. When they're dead, they will become bamboo seeds.

<Level> 22

<Quality> Regular

<Spiritual Energy> 404 Points

<Effect> Can be refined into pills and enhance the body. <Collectible> None

<Absorbable>

Everybody came to a stop, and Luo Xiaobai said, "There are too many bugs here. We need to figure something out!" Han Fei said, "Wait a minute."

Everybody looked at him, and Han Fei simply took out his fishing pole, cast the hook, and pulled back one of the bamboo shoots.

Everyone: "???"

Han Fei continued casting the hook. "What are you waiting for? Natural sea bamboo shoots are a delicious food that you can't get on the floating island."

Everyone: "..."

Le Renkuang immediately cast his hook and said, "Han Fei, you're my idol. Why can you think of food when you see anything when I can't?"

Han Fei snorted. "Do you know what's most important for ocean creatures?"

Le Renkuang shook his head.

"Eating!"

Han Fei put on a smile. "All ocean creatures are busy getting food every day, so most of them are edible except the poisonous ones, although you should carefully consider how to eat them."

Xia Xiaochan remarked, "Han Fei, you definitely should be a fatty."

Zhang Xuanyu agreed with her. "That's right. You're much better at this than Le Renkuang. I don't know why you're getting slimmer."

Han Fei grumbled. "Nobody should refuse delicious food. I only appreciate delicious foods, but I'm not a glutton. Of course I won't grow fat."

Considering that they counted on Han Fei for their food in the following month, everybody began to fish for the sea bamboo shoots and didn't stop until they obtained a thousand kilograms.

Passing through the bamboo woods, Han Fei's team had to cross a place of rocks that were covered by seaweed. They were about to go through, when an enormous whip slapped them.

Luo Xiaobai's face changed. "We've been ambushed."

Her vines slapped the whip quickly. Then, everybody finally saw that it was a huge tentacle more than ten meters long.

At the same time, tentacles were whipping them from all directions.

Luo Xiaobai said, "It's an octopus."

Without Luo Xiaobai saying it, everybody had seen an octopus dozens of meters long right next to a rock in the same color as the rock.

Han Fei said excitedly, "Fatty, go easy on it and don't break it. We can cook it later after you kill it."

Le Renkuang was lost for words after he released his weapons. This octopus was truly unlucky to have run into Han Fei, and its only ending would be in a pot.

However, the tentacles of the octopus were filled with spiritual energy and slapped away Le Renkuang's blades.

Luo Xiaobai said, "It's above level thirty. Let's work together. Blue..." Dozens of vines erupted from the bottom of the ocean and blocked the tentacles, but the tentacles were much swifter than the vines. They simply bypassed the vines and attacked Han Fei with the creepy sucking discs.

It was Han Fei's turn to take action. He cut the tentacles with multiple Blue Sea Wandering Dragon Daggers, freezing the tentacles. Then, Xia Xiaochan flashed and appeared next to the octopus's head, giving it quite a shock. She stabbed her dagger into its head before it realized what was going on. However, the octopus was not to be killed so easily, because it had three hearts and nine brains. For that, it was even suspected to be an alien creature.

Immediately, many tentacles tried to strangle Xia Xiaochan, but Xia Xiaochan simply flashed away and left her Red Fire Tricky Lobster behind.

It was the only fire-natured contractual spiritual beast. After it crawled into the head of the Great Plate Octopus, everybody saw that the head of the octopus was reddening. Its brains had probably been burnt up.

Han Fei said in a hurry, "Hey! Wait! How can we eat it if you burn it up?"

Xia Xiaochan: "..."

Wenren Yu had been observing them in silence. This Great Plate Octopus was truly unfortunate to run into those guys. It could've killed a regular great fishing master if it hadn't run into Han Fei's team.

Han Fei suddenly looked at Wenren Yu. "Master, is there still room in your Sea Swallowing Seashell?"

Chapter 217 Domain of the Sandworms

Wenren Yu suddenly realized that she had turned into a carrier. Yes, the Great Plate Octopus, the sea urchin, the Red Mouth Fish, the shrimp and the sea stars that Han Fei's team killed on the way had all been given to her to carry. Han Fei said, "Has it occurred to you that this place is not as dangerous as we anticipated although many creatures are hiding here?"

Zhang Xuanyu was suspicious. "I think there's more to this place than what's known as the second most dangerous place."

Xia Xiaochan said, "It's actually very dangerous as it is. A regular great fishing master couldn't have survived half an hour here."

Le Renkuang said, "I think this is the fourth most dangerous place, behind the Piercing Electricity Zone. This is beautiful and does not contain many dangers."

Crack...

Alarmed, everybody stomped and swam up. Then, they saw a creature with claws all over its body like a centipede crawling past where they had been. It was more than ten meters long, but it disappeared into the sand in the blink of an eye.

Xia Xiaochan's face was pale. "Disgusting. I've never seen such a huge Hard-Armored Sandworm before."

Han Fei blinked his eyes. That was a sandworm? But why did it have a blue glittering shell and such long legs?

Remembering something else, Han Fei asked, "Do the sandworms here live alone?"

Everybody had cold sweat after hearing that. That's right! Could that be the only sandworm in here?

Hardly had Han Fei finished when the bottom of the ocean was shaking and many big sandworms were breaking out of the sand.

When they opened their mouths, it almost seemed that their head was blossoming, and they were trying to swallow Han Fei and his companions.

"Shoot..."

"Torrents of Knives and Swords."

"Waterwall!"

Han Fei waved his hands, establishing walls of water, while Le Renkuang minced a sandworm to pieces with his Torrents of Knives and Swords.

However, the sandworms far away spurted out something glittering and easily broke through the walls that Han Fei set up.

The attack was aimed at Zhang Xuanyu, and Zhang Xuanyu slashed his rod out to shatter the item. Then, everybody found that the glittering item turned out to be a tooth. Zhang Xuanyu's face slightly changed. "The attack with the tooth was very powerful. I think it's stronger than the power of a junior great fishing master."

Everybody was rather surprised. A random bug was already stronger than a junior great fishing master?

Han Fei shouted, "Let's just get the hell out of here then before they catch up! We can't eat them anyway."

However, they were already surrounded by glitter at this point. Thousands of sandworms had emerged from the sand and stretched all the way to the horizon.

Han Fei's face changed greatly. "Let's all take action... Attach!"

The Nine-Tailed Mantis Shrimp unleashed its tails, and Han Fei darted out ten Blue Sea Wandering Dragon Daggers. Adding a spiritual energy protective cover to himself, Han Fei ran out first.

Xia Xiaochan and Luo Xiaobai followed him. The two girls were not as sturdy as Han Fei and Le Renkuang, so they stayed in the middle. Zhang Xuanyu was the most unlucky one. He attacked with the Seven-Layered Waves in Furious Sea but only blew up two sandworms while his spiritual energy protective cover was broken three times by the glittering fangs of the sandworms.

Zhang Xuanyu was lost for words. "Han Fei, spiritual energy."

Han Fei had been leading the way while transmitting spiritual energy to everybody with the Spirit Concentration Art.

Han Fei yelled at him, "You think you can eliminate all of them? I'll lead the way, and Le Renkuang will cover your back. You run with your Gold Water Silkworm."

Luo Xiaobai was surrounded by vines like a walking flower, and she managed to defend herself. Xia Xiaochan was agile and stealthy too. However, Zhang Xuanyu couldn't hide himself, and his rod techniques couldn't clear the sandworms effectively.

Han Fei and Le Renkuang were the easiest off. They were both enveloped by daggers and swords. On Le Renkuang's side, all the weapons in his box had been unleashed, and he was like a walking mincer. All the sandworms that came at him were killed.

Wenren Yu followed them at a high speed. She dashed from one sandworm to another quickly, unconcerned about the venomous fangs darting at her because none of them could reach her.

But Wenren Yu was rather surprised at her student's teamwork. Luo Xiaobai even had the time to help Zhang Xuanyu resist the attacks. The five of them moved in a straight line and left nothing but broken bodies behind them.

But their outburst required plenty of spiritual energy. As a result, most of them ran out of their spiritual energy except Han Fei only one moment later. Han Fei could only transmit spiritual energy to them, but as a result, they were all slowed down, and more sandworms were catching up to them.

Stepping on the Spirit Gathering Array, Han Fei fully carried out the Water Control Technique, which was not enough to block all the fangs but did buy everybody some time.

Luo Xiaobai said, "No, this is still too slow. We need to consider a different approach."

Xia Xiaochan said, "Let's use fishing poles. Han Fei, since you have the best spiritual vision, you'll cast the hook and leave. I'll cling to you, and Xiaobai will cling to me."

Han Fei said, "I don't like the sound of that."

Le Renkuang said anxiously, "Let's go! There are too many sandworms here!"

Han Fei nodded. A fishing pole couldn't be handier in this situation. Han Fei simply cast his hook and bypassed the sandworms ahead of him like a wandering snake.

His teammates took out their poles and clang to each other like Xia Xiaochan said. Then, as Han Fei exerted his strength, they dashed forward at an extraordinary speed as if they were taking an undersea roller coaster, leaving nothing but a mess of blood and pieces in their path. Wenren Yu smiled behind them. She found that Xia Xiaochan was the most responsive one who figured out the usage of the fishing pole first. Han Fei was better at the comprehensive usage of spiritual energy than other people were. Le Renkuang's attacks were very effective in a group fight. Luo Xiaobai had remarkable performance in every aspect. Zhang Xuanyu was good in solo battles but not as excellent in a group fight. He needed a ranged battle technique.

A moment later, after Han Fei's team finally escaped from the range of sandworms, they all breathed hard biting the vines.

Zhang Xuanyu said, "I told you that the second most dangerous place deserved its name! We can hide from the Soul-Attracting Jellyfish in the Piercing Electricity Zone, but there's no way to dodge the sandworms here. Common great fishing masters couldn't have survived at

0

all."

Luo Xiaobai agreed with him, "Our life would've been at risk if we didn't have an armorist and a spirit gatherer. This is truly a perilous place."

Han Fei cast the Divine Healing Technique on everybody and asked, "How far have we swum just now?"

Xia Xiaochan said, "More than a hundred kilometers."

Han Fei nodded. One third of the Deep-Sea Jungle had been occupied by the sandworms. This place was truly dangerous.

Han Fei said, "Let's take a rest until our spiritual energy is recovered."

Luo Xiaobai frowned. "Where are the sea willows?"

Han Fei said in embarrassment, "I think they're on the other side."

Han Fei didn't see it coming either. He had only dove from here because there was fewer seaweed. Little did he know that he would meet a bunch of sandworms instead of sea willows.

As they talked, Zhang Xuanyu suddenly asked, "Have you realized that there is fewer seaweed and algae here?"

Han Fei noticed that too. He said, "Something must be wrong with this place. Let's try to swim higher when we leave."

Everybody nodded. They had come here to look for treasures, but they found creatures that they never saw in other places instead of any treasure.

Le Renkuang said, "I want to eat hotpot." Everyone: "???"

They were all lost for words. How could you be thinking about hotpot at a moment like this?

Le Renkuang patted his belly and said, "I can easily tell that there are no treasures here. I don't think we can see another Rock Holding Turtle here, can we? Or do you think the sandworms are treasures?"

Han Fei grinned, "You may find it hard to believe, but if you can eliminate all the sandworms, you would definitely be able to find spiritual fruits in their nest."

Xia Xiaochan said, "Forget it! I would rather not have the fruits. If we go to the nest of the sandworms, we may never be able to return."

Han Fei shrugged as he agreed with her.

As they talked, they saw that smoke was spreading out a thousand meters away. They didn't pay much attention to it at the beginning, but then the water got dirtier and dirtier, making them wary.

Luo Xiaobai's face slightly changed. "Watch out. Be prepared for battle."

Chapter 218 The Plate Rays and Spider Crabs

Something was happening while they were taking a rest. Everybody couldn't help but smile bitterly. Really? Again?

Han Fei said, "Wait, it's not right. The smoke only covers dozens of square meters. It can't be caused by sandworms." Xia Xiaochan waved her fishing pole and darted the hook over. "Whatever it is, we can take a look at it."

It was much more convenient for them to observe remotely now that they had all picked up spiritual senses.

Xia Xiaochan suddenly asked weirdly, "It's a fish that looks like a pot cover. What's that?"

Picturing a pot cover in his head, Han Fei asked, "Is it a ray?"

Luo Xiaobai said, "Huh? A ray? How can there be rays in a level-two fishery?"

Xia Xiaochan said, "There are lots of spider crabs besides the pot cover..."

Zhang Xuanyu was relieved. "They're easier to deal with than the sandworms are. Chances are that we can get some Blood Spider silk and sell it in the town. Blood Spider silk isn't cheap."

Xia Xiaochan said, "Why don't you take a look yourself?"

Confused, Zhang Xuanyu threw his fishing pole, only to be shocked. He shook his head quickly. "Forget it. I think we're making enough money with the Fish Dragon Hot Pot Restaurants. We don't have to sell Blood Spider Silk!"

Han Fei asked, "So, where should we go now?"

Xia Xiaochan said, "Where else? Up, of course!" Everybody swam upward, but they found a layer of spotted algae after only fifty meters. On the spotted algae were little bugs that looked like long sticks.

Luo Xiaobai's face changed greatly. "Not good. Spirit Devouring Bugs. Let's retreat..."

Han Fei looked awful when he saw the data of the tiny Spirit Devouring Bugs.

<Name> Spirit Devouring Bug

<Introduction> This is a low-level spiritual bug that lives on spotted algae. When it's touched, it will melt and nest in the human body.

<Level> 3

<Quality> Rare

<Spiritual Energy> 15 Points

<Effect> Inedible

<Absorbable>

Han Fei's blood was almost freezing. The bug was not of a high level, but it could melt and nest inside the body of a human. He found it creepy. Earlier, Han Fei had seen reports on a spider that laid eggs on a human and turned the human into a spider nest. He still remembered the horror. Le Renkuang was the fastest. While running, he said, "I would rather fight the spider crabs than to get close to these things."

So, everybody went back as fast as they had gone up.

But their situation wasn't any better after they retreated.

Le Renkuang was twenty meters away from the bottom of the ocean. Below him were spider crabs which were so dense that their legs almost formed a ladder.

In places where the spider crabs were fewer, some rays were indeed poking through. They were no regular rays, but rays more than ten meters long with their tails.

Han Fei glanced at them.

<Name> Plate Ray

<Introduction> This creature has a highly-attractive mouth. It likes to prey on spider crabs. It's territorial and has a venomous thorn in its tail.

<Level> 29

<Quality> Rare

<Spiritual Energy> 808 Points

<Collectible> Tail thorn

<Absorbable>

Han Fei said in a hurry, "Don't be stung by the rays' tails. They're lethal."

Zhang Xuanyu said, "Who cares about the rays? Just look at the spider crabs. Why are there so many of them here?"

Xia Xiaochan said, "Some of the spider crabs are soft. Look, the rays can eat half of them after a single bite." Luo Xiaobai explained, "Those spider crabs are only molting. The spider crabs have to molt in order to grow bigger. It's said that they will molt nine times in their lifetime, and they will be stronger after each molting. However, they're weakest when they've just molted. Let's go past them while their new shells are not hardened yet."

Han Fei was slightly surprised. He knew a thing or two about spider crabs, but the spider crabs before his eyes were more than two meters long and covered in thorns. Also, he was under the impression that there were more spider crabs that were not molting than those which were molting.

They swam quickly and saw nothing but spider crabs on their way. Some of the spider crabs had been piled dozens of meters high. Those at the bottom were probably already dead. Han Fei said, "We can only go from below. Just pay attention to the rays."

It was impossible for Han Fei's team to bypass the hills of spider crabs, and they could only go through the places where the spider crabs were fewer. But rays were busy hunting the spider crabs in those places.

Zhang Xuanyu patted Han Fei and Le Renkuang. "You can walk in the front since you're sturdier than me. I definitely have to build up my body after we return."

Le Renkuang said, "I'm not resistant to poison. Han Fei, you stay on the outside."

Han Fei: "???!"

He was lost for words. What's your problem? You're talking as if I'm strongly resistant to poison.

But Han Fei was not really bothered. He nodded back at everybody, only to see that Xia Xiaochan and Luo Xiaobai were already gone.

Zhang Xuanyu said, "Stop looking. Both of them are in stealth mode. Have you forgotten that Xiaobao's contractual spiritual beast is a stealthy jellyfish?"

Han Fei nodded after the initial surprise.

Then, he glanced around. Although he didn't see anyone, he detected that Luo Xiaobai was three meters on his left with his spiritual senses.

Han Fei was rather surprised that his spiritual senses could detect those who were in stealth mode. He immediately looked for Xia Xiaochan, but he could only vaguely see her shadow.

Han Fei wondered whether Xia Xiaochan was better at stealth, or Luo Xiaobai's stealthy jellyfish was simply too weak.

Having no time to care about that, Han Fei swam over quickly, and when he approached the bottom of the ocean, those rays hopped and charged at Han Fei.

Ignoring them, Han Fei said to Le Renkuang, "Give me a rod."

The weapon box flashed and darted at Han Fei, and Han Fei unleashed a Spiritual Energy Explosion after accepting the rod. The powerful explosion knocked away the rays' long tails and made them spin in water

But it was not over. One of the rays sat straight and opened its big mouth, attracting both the water around as well as Han Fei and his companions.

Han Fei's face slightly changed. He was about to break the mouth with the Million Knife Art, when a spider crab was grabbed by vines and stuffed into the ray's big mouth, stopping the attraction force. Han Fei almost laughed aloud.

Han Fei said in amusement, "Xiaobai, your hands are truly useful!"

Luo Xiaobai said, "Hurry up! There are more rays here."

Han Fei said, "Got it. Le Renkuang, hurry up. You're the slowest." Le Renkuang was lost for words. I don't have Zhang Xuanyu's Gold Water Silkworm. My spiritual beast is a clam and my contractual spiritual beast is a tortoise. How can I possibly be fast?

At this point, Luo Xiaobai gave him a hand. She bound her vines to Le Renkuang and gave him a boost.

Han Fei was responsible for dealing with the rays together with Luo Xiaobai. The battle was easier than the one against the sandworms earlier.

However, before they were in the clear, they had seen hundreds of rays gathered before them.

Then, Zhang Xuanyu shouted, his voice shivering. "Look... A big ray!"

Han Fei swam forward and his heart was palpitating, as he had seen an enormous Plate Ray more than thirty meters long. It was as huge as a spaceship. Han Fei's eyes were almost popping out.

It was impossible to figure it out now. Behind them were hills of spider crabs, before them was the enormous Plate Ray, and there were also Spirit Devouring Bugs above them. They had to fight one of them! They definitely couldn't go back now. They would be exhausted if they were to pass the sandworms' territory again, and they certainly didn't want to conclude the adventure empty-handed.

When they were wondering which to choose, an enormous leg almost twenty meters long suddenly extended from the spider crabs and grabbed the gigantic Plate Ray.

Chapter 219 The Fifth Exotic Creature

Now, all five of them were stunned.

Even Wenren Yu was also quite grave behind them. She was ready to take action.

Zhang Xuanyu asked, "Have we chosen a wrong direction?"

Xia Xiaochan said gloomily, "It would be great if you were all capable of stealth..."

Luo Xiaobai asked stunned, "Both of them must be very strong, right? Why are they both in a level-two fishery?"

Han Fei chuckled. "Isn't this normal? Every clan needs a king. Look at their body size. They're obviously the leaders of their group. Let's just watch them fight first and take advantage of them later."

Everyone: "???"

Han Fei said, "Are you silly? If we kill them after they're exhausted from fighting each other, we won't worry about food for many days!"

Everyone: "???"

Le Renkuang raised his thumb for Han Fei. "Excellent idea!"

Wenren Yu's face became dark. She thought that Han Fei was the actual foodie when he always claimed Le Renkuang to be one. Was he going to ask her to carry the two big guys again?

Actually, the data of the two creatures were obvious in Han Fei's eyes. The exotic gigantic Plate Ray had an additional ability compared to common Plate Rays. It could swallow other creatures to strengthen its health, spiritual energy, and power.

The mutated spider crab was also an exotic creature. It was faster and harder than regular spider crabs. Like this moment, when the crab slashed with its claws, dazzling light was bursting out.

But the gigantic Plate Ray simply knocked the smaller spider crabs and Plate Rays away, before it bit the crab in the leg and tore the leg into halves.

Han Fei thought that it was over. The gigantic Plate Ray was stronger in terms of combat ability. But to his surprise, the mutated spider crab shot out its pincers and cut the tail of the gigantic Plate Ray.

Han Fei was speechless. Could the pincers be shot out as a means of attack? And they could even be retreated after they were shot?

But Han Fei had no time to think now. Both parties had been engaged in the fight and began to summon their allies. Immediately, the hills of spider crabs were falling, and the Plate Rays were swimming close too.

Han Fei's team was immediately surrounded, and Wenren Yu was ready to take action to help them.

Han Fei, however, said quickly, "Let's not panic. We can escape by digging holes."

Everybody was stunned. Dig holes?

Han Fei summoned the Nine-Tailed Mantis Shrimp. As a legendary Mantis Shrimp, it certainly knew digging.

“Nine-Tailed Mantis Shrimp, dig a hole now!”

The Nine-Tailed Mantis Shrimp was quite excited at first because it hadn't come out for a long time. But when it saw the overwhelming spider crabs and Plate Rays, it immediately began digging

The Nine-Tailed Mantis Shrimp was quite fast. Years back, it had dug through mines, and digging through the undersea sand was not a problem at all.

Han Fei shouted, “Hurry up! Follow the shrimp!”

Han Fei kicked Zhang Xuanyu into the hole. Now that the Nine-Tailed Mantis Shrimp had grown larger, it was not hard for a few fatties to crawl into a hole that it dug.

Le Renkuang was about to crawl into the hole, when Han Fei stopped him. “The girls are still outside. What's the rush?”

Luo Xiaobai and Xia Xiaochan hurried to enter the hole without saying anything, and Le Renkuang followed them.

Han Fei briefly stopped at the entrance and stared at the mutated spider crab and the gigantic Plate Ray. Forget it. He looked at Wenren Yu in the rear and gritted his teeth before crawling into the hole.

He had to admit that the Nine-Tailed Mantis Shrimp had lots of abilities that were useful both in battle and in daily life. He was quite satisfied.

Wenren Yu was quite amazed about the contractual spiritual beast that Han Fei had chosen. Not only did this Mantis Shrimp have multiple tails, but it could also dig holes fast.

In the blink of an eye, it was already hundreds of meters away.

Suddenly, Wenren Yu's face changed, as she detected something below the ground. She blew up the spider crabs on her way and rushed into the channel.

At this point, Han Fei hadn't caught up with his companions yet. Suddenly, something from the mud hit him in his stomach.

Immediately, Han Fei was blown out of the channel through the spider crabs. He vomited a mouthful of blood.

The spider crabs were immediately in a flurry now that something uncanny was thrown to them.

Han Fei was rather stunned when so many spider crabs raised their pincers at him. His spiritual energy protective cover was broken three seconds later, but before he was squeezed, Han Fei managed to pass through the spider crabs. While he was running, Han Fei bumped into Wenren Yu.

Wenren Yu was shocked at first, but seeing that Han Fei could still swim despite the multiple big spider crabs on him, she was greatly relieved.

“Follow up later. I'll go over first.”

Wenren Yu simply left a few words before she ran to Han Fei's companions. Han Fei didn't look very good either as he sensed that something was happening ahead.

Han Fei hurried to look for the hole that had just been dug, but while he was swimming, a crab leg whipped him. "Shoot..."

Han Fei twisted his body and managed to avoid the crab leg. Obviously, he had been considered a hazard to the community of spider crabs. Even the enormous Plate Ray was stunned to see him.

So far, the mutated spider crab had lost yet another leg, and two huge wounds dozens of meters long had been left on the gigantic Plate Ray.

Having no time to care if the mutated spider crab could understand him, Han Fei said telepathically, "Don't fight me! I'm your teammate! I'm here to help!"

The mutated spider crab slightly paused, and Han Fei immediately got rid of the spider crabs around him and shot out ten Blue Sea Wandering Dragon Daggers. Clang, Clang, Clang... The spiritual weapons were good, but only to a certain extent. Han Fei discovered, in shock, that none of the Blue Sea Wandering Dragon Daggers could penetrate the shell of the crab.

Hiu...

Han Fei hurried to recall the Blue Sea Wandering Dragon Daggers, before he said again, "Friend, would you believe me if I said that that was an accident?"

The mutated spider crab certainly wouldn't accept that, not after being stabbed ten times just now. It was convinced that the man was a villain and decided to cut him into pieces.

Seeing the three claws of the mutated spider crab, Han Fei ran to the gigantic Plate Ray at full speed and said, "Big Pot, I'm an ally... Hey, don't open your mouth, will you? Damn you!"

Immediately, the Blue Sea Wandering Dragon Daggers were shot out, leaving dazzling light in the water.

Pu... Pu... Pu...

The daggers penetrated through the gigantic Plate Ray and flew out from its back.

Han Fei's eyes glittered. He decided to finish this one first. Because of the agony, the gigantic Plate Ray's attraction was disrupted briefly, but it was immediately resumed after the ray burst into rage. Han Fei sneered, "I can't penetrate the crab, but you think I can't penetrate you?" He stabbed the Blue Sea Wandering Dragon Daggers into the Plate Ray's body and churned crazily.

On the other hand, Han Fei unleashed an enormous seal that knocked the gigantic Plate Ray to the bottom of the ocean, raising a huge plume of smoke.

Han Fei grinned. "You think the Water-Stirring Seal is nothing? With the power of the Water-Stirring Seal and myself, I'll leave a pit in you, even if you were a mountain."

Behind him, the mutated spider crab was already waving its claws, and Han Fei hurried to dash into the smoke, before he activated the Demon Purification Pot to collect the ray. Then, Han Fei dodged the

attacks of the spider crabs on all fours, and he finally found the hole that his Mantis Shrimp dug earlier. He quickly slipped into the hole.

The mutated spider crab was at a loss. Where was the gigantic Plate Ray? And where was its fake teammate?

Han Fei ran crazily and decided not to fight those with hard shells anymore. He couldn't believe that he failed to penetrate the crab when he had spiritual weapons.

Han Fei ran several thousand meters and then saw countless vines beating a serpent. On the other hand, Xia Xiaochan was moving unpredictably and cutting the serpent with her dagger now and then. Le Renkuang's Blade Storm was also blasting the serpent nonstop.

Zhang Xuanyu was lying on the ground. Soaked in blood, he was holding a vine and breathing heavily.

Chapter 220 You Can't Make the Same Mistake Thrice

Han Fei hurried to perform the Divine Healing Technique.

He asked, "How did this happen?"

Zhang Xuanyu smiled bitterly at Han Fei and said, "Its caves are all over this place. I was the one walking in the front. Naturally, I was hit first."

Han Fei: "..."

Han Fei was lost for words. He asked Zhang Xuanyu to enter the channel first because Zhang Xuanyu's body was not as sturdy as himself. Little did he expect that a giant serpent was hiding below the sand.

Seeing that Zhang Xuanyu was in better condition, Han Fei grabbed his daggers and charged forward. He was surprised by the data he read.

<Name> Ghost Serpent

<Introduction> This is a mutation that has absorbed the blood of dragons. It has a unicorn and many sword-shaped scales with which it hangs its enemy. The Serpent Pearl that it contains can build up stamina.

<Level> 34

<Quality> Exotic

<Spiritual Energy> 2,328 Points

<Collectible> Serpent Pearl, Ghost Horn, Serpent Veins, and Ghost Serpent Gallbladder <Absorbable>

Han Fei had never seen a more valuable serpent. The Serpent Pearl which could build up stamina alone was worth fighting for apart from everything else. Han Fei rushed forward and performed Blade Storm. Different from Le Renkuang's Torrents of Knives and Swords, the Blade Storm was made of swirls of blades.

Luo Xiaobai tried to catch the Ghost Serpent with her vines, but it was too slippery to be caught. Le Renkuang was quite lucky. Because of his sturdiness and ferociousness, he was regarded as the primary threat by the Ghost Serpent. He had been knocked away too many times and was covered in blood.

The fatty might be unwilling to face dangers, but now that he was really involved in a battle, he unleashed his Bloodthirsty Broadsword, the Thousand Blade Slash, and the Torrents of Knives and Swords; all while establishing a shield, attacking the enemy, and protecting himself at the same time.

BAM!

Le Renkuang was blown away again. It was Han Fei's turn to attack. He easily cut the scales on the Ghost Serpent with his spiritual weapons.

Not far away, Wenren Yu stared at Han Fei's daggers, deep in thought.

Xia Xiaochan had torn off the scales of the Ghost Serpent because of her explosive power, and although Le Renkuang had cut the Ghost Serpent with all his weapons, the Ghost Serpent was not really hurt.

Han Fei, in comparison, shattered a large part of the sharp, hard scales of the Ghost Serpent like a mincer.

Besides, in order to finish the battle sooner, Han Fei even set Little Black loose when he shattered the Ghost Serpent's scales. Of course, since Wenren Yu was here, he did not dare to go too far, or he would raise too much suspicion if the Ghost Serpent was killed before anybody else did anything.

But even so, the Ghost Serpent was still writhing in its cave with such enormous power that Le Renkuang couldn't approach at all.

Luo Xiaobai said, "Be careful! It's mad! Kill it now!"

In the next moment, Han Fei unleashed his Blue Sea Wandering Dragon Daggers, and Xia Xiaochan's Red Fire Tricky Lobster entered the Ghost Serpent too.

Han Fei said anxiously, "Xia Xiaochan, don't burn it up. This serpent contains a lot of treasures. We must take it back."

Xia Xiaochan was rather speechless. "You eat this too?"

Han Fei said, "Not that I want to eat it, but this strange serpent must be from unique bloodlines, as can be told from its single horn. Also, serpent gallbladder is highly nutritional. How can you eat it if it's burnt up?"

Xia Xiaochan snorted. You still want to eat it, don't you? She recalled the Red Fire Tricky Lobster, which made Han Fei greatly relieved, because he didn't want Little Black to be accidentally burnt by the Red Fire Tricky Lobster.

Han Fei then tried his best. Before Xia Xiaochan took action, he had clutched one of the sword scales and crouched on the Ghost Serpent.

"Chila..."

Scales were torn off by Han Fei one after another. The Ghost Serpent was in such agony that it jerked in the cave.

Han Fei sneered, I've killed a Dragon Eel. You think I can't deal with you? You do not have the high-voltage electricity that the Dragon Eel had.

Han Fei tore the scales off nonstop even though his own hand was cut, as the creature was only level thirty and couldn't really hurt him. After tearing off dozens of scales, Han Fei stabbed his Blue Sea Wandering Dragon Daggers into the Ghost Serpent, and the Ghost Serpent immediately lost its momentum.

At this point, Le Renkuang was slashing the Ghost Serpent's head so hard that one of its eyes was broken by him.

Xia Xiaochan was lost for words. "Fatty, the head of the snake is not critical. You need to attack its central nerves."

Xia Xiaochan drew a cross where the central nerves of the serpent were located with two daggers. Then, the Ghost Serpent erected its scales, and Xia Xiaochan finally gave up.

But Luo Xiaobai played her role. Vines grew out of the Ghost Serpent, making it so painful that it was knocking into the wall.

A moment later, the Ghost Serpent was finally dying, and everybody held the vines while breathing heavily.

Wenren Yu stepped close and glanced at everyone, before she stored the Ghost Serpent.

She turned around and said, "This is the second time that I've intervened. You all know Zhang Xuanyu's weakness, but you neglected that. His life would've been at risk if I hadn't taken action. The next time I give you a hand, your training will be over, regardless of the reason is."

Everybody was slightly embarrassed. Exhausted, Le Renkuang sat down next to Zhang Xuanyu. "I'll walk ahead of you next time."

Zhang Xuanyu smiled. "That serpent couldn't have killed me! It only caught me by surprise, or I would've crushed it."

Xia Xiaochan said, "Would you stop bragging? Don't you find it humiliating?"

Han Fei asked, "Master, is the gallbladder of the serpent helpful for Zhang Xuanyu? Why don't we dig it out and give it to him?"

Wenren Yu raised her eyebrow, "It is, but the most useful part of the Ghost Serpent is the pearl instead of the gallbladder. The Serpent Pearl can help build up stamina. Are you sure you want to give it to Zhang Xuanyu?"

Luo Xiaobai said, "Yes."

Xia Xiaochan said, "Just give it to him! He's too weak anyway. With the Serpent Pearl, he might not be the first one to fall next time."

Le Renkuang said, "I have no objections. I have my shields. I don't need it."

Han Fei shrugged, showing no disagreement. Seeing that they were united, Wenren Yu finally looked better. She extended her hand, and a green ball appeared in her hand.

Wenren Yu said, "The Serpent Pearl partly contains the blood of dragons. You'll feel on fire within the next hour after you eat it. Thankfully, this Ghost Serpent is not level forty yet, or it would blow you up if you take its Serpent Pearl."

Zhang Xuanyu took over the ball and said apologetically, "Thank you, everybody."

Le Renkuang clapped his hands. "We're brothers. There's no need to say that. Just eat it."

Although Han Fei's Divine Healing Technique had cured most of his external wounds, Zhang Xuanyu's internal organs were still seriously damaged and would take hours to heal. So, Zhang Xuanyu simply swallowed the Serpent Pearl without refusing it.

Everybody looked at each other in amazement, eager to find out how the Serpent Pearl worked.

At first, Zhang Xuanyu showed no reaction. About ten seconds later, Zhang Xuanyu's face was redder and redder. One minute later, his whole body was crimson and smoking.

At this point, Zhang Xuanyu was clinging to the vine with both hands and gritting his teeth. Veins were bulging on his arms and his neck. He seemed to be in agony. Le Renkuang shivered, "How painful is that?" Han Fei patted his belly. "A man shouldn't be scared of pain. Just deal with it!"

Xia Xiaochan chuckled. "Next time we find a Ghost Serpent and get a Serpent Pearl, we'll give it to you."

Han Fei blinked with a smile. "That's all that I want. But I don't think we can find another Ghost Serpent."

A while later, the power of the Serpent Pearl seemed to have reached its peak. Zhang Xuanyu's hair was standing up, and the water within ten meters of him couldn't be hotter.

Han Fei controlled the water nearby and replaced the hot water with the cold water outside, which made Zhang Xuanyu slightly more comfortable.

Wenren Yu, however, said, "This pain is nothing. There are much more excruciating pains in this world!"

Han Fei remembered his experience with the Hexagon Starfish and shivered. He certainly did not want to try it another time. The experience was horrible.

One hour passed. Lying on the ground, Zhang Xuanyu looked at everyone and said lethargically, "Let me... Let me take a rest."
