

Chapter 241 Black River Chamber of Commerce

Hearing what he said, everyone became angry. They finally had become rich, but suddenly Han Fei told them that their money had been robbed by others. This immediately annoyed them.

Xia Xiaochan frowned. "Let's go beat them!"

Zhang Xuanyu agreed. "Yes! This matter is intolerable. How dare this Black River Chamber of Commerce rob us of our money?!"

Le Renkuang patted his belly. "This is interesting. I fought fish in the water every day, but I haven't fought people for a long time."

Luo Xiaobai frowned slightly. "Let me tell the teachers."

Before she left, however, she was pulled out by Xia Xiaochan.

Han Fei grinned. He guessed right. These poor children couldn't tolerate what Black River did. But that was not bad. The technology of The Fish Dragons should not be stolen by others.

In the near distance, Old Bai and Xiao Zhan stood there dumbfounded. They expected these kids to be cultivating hard! But what were they doing now?

Xiao Zhan started walking towards them. "Let me get them back."

Old Bai sighed. "Forget it, you go with them. Don't forget, our school is also a shareholder. This Black River Chamber of Commerce has gone too far. Doesn't it know this is our bread and butter?"

Xiao Zhan was stunned: "???"

Old Bai patted him on the shoulder. "Go protect these kids. The Black River even tried to buy our plantation a few days ago. What do they want?"

Xiao Zhan understood. What could he do? Of course, go with them.

The three major chambers of commerce in the Blue Sea Town were on the same street. The Linglong Tower was undoubtedly the strongest, so they were in a tall tower, and the Black River Chamber of Commerce and the Colorful Clothes Chamber of Commerce were on the opposite side, but these two weren't open to outsiders. Anyone who wanted to go in must make an appointment in advance so usually, no one went in.

At the moment, Han Fei and the other four took Li Gang and five or six members of The Fish Dragons to the Black River Chamber of Commerce angrily. Glancing at their signboard, they went straight inside.

"Stop! What are you doing here?" Xia Xiaochan gave a cold stare. "Go away."

Han Fei cleared his throat. "Xia Xiaochan, girls should speak softly. Let me show you the right way to speak to them!"

Han Fei turned to the guard and said coldly, "Tell your manager to get his ass out here!"

Xia Xiaochan looked at Han Fei speechlessly. Speak softly?

The guard got angry. How dare these damn kids speak to him like this?!

“Get lost!”

The guard released a suppressing aura and showed his strength as a junior great fishing master. However, the next second, he suddenly shivered because he found that they were all stronger than him!

Because of the sudden outbreak of spiritual energy, all bystanders looked their way. This place was a central business district for the Blue Sea Town, where the three major chambers of commerce gathered, so did the Blue Sea Arena and the Refining Hall, as well as various stores.

Anything happening here would attract a lot of attention.

Someone in the Linglong Tower was surprised. “Oh! Black River was provoked?”

Some passers-by exclaimed, “Wow! These kids are really strong. Are they heavenly talents of the three academies?”

A crowd of onlookers gradually gathered and people of the Colorful Clothes Chamber of Commerce also watched at the door.

The guard of the Black River got embarrassed and ran in after dropping the words, “You’ll be sorry!”

After a while, a middle-aged man came out. When he saw the five of them, he was a bit stunned. He certainly knew them as the team who won the 100-game winning streak in the Blue Sea Arena a while ago. There was no surprise, he knew why they were here.

However, he was still calm and asked with a cold smile, “Let me introduce myself. I’m Jin Yuncheng, the person in charge of the Black River Chamber of Commerce. What can I do for you, my little friends?”

Han Fei looked straight into his eyes. “Don’t you know why we’re here? I’ll give you two choices. One is to hand over the printing formula, promise to never use it, and compensate The Fish Dragons 100,000 mid-quality pearls. The second is that you don’t stop pirating our technology and we’ll start a commercial war.”

“Commercial war?”

It was the first time that Jin Yuncheng heard these words, but the literal meaning was easy to understand. He smiled and said, “My little friends, I am sorry I really don’t know any printing formulas. If you think we’ve pirated your technology, show the evidence. You know, Black River has always enjoyed a good reputation.”

Li Gang and the other members of The Fish Dragons just hid behind Han Fei and did not dare to say a word. They were all great fishing masters! But they were just fishers.

But Han Fei didn’t fear Jin Yuncheng. He sneered, “Have you heard of this saying?”

Jin Yuncheng coldly narrowed his eyes. “What is it?”

“Penniless is fearless. A-Gang...”

Li Gang and the other members immediately lay in front of the door.

Suddenly, a member of The Fish Dragon shouted, "The Black River Chamber of Commerce is really shameless! They stole the ancestral formula of The Fish Dragons! Is there any justice?!"

Two other members unfolded a large piece of cloth dyed red and wailed, "It's outrageous! The Black River Chamber of Commerce snatched our ancestral formula by force! Is there any law in the world?!"

Another member held a wooden board high. "The evil-minded Black River, pay back my hard-earned money!"

Jin Yuncheng was stunned, so were Xia Xiaochan and the other three. They had never seen such a scene! Lying on the ground, wailing, cursing and making a scene... Damn! That was really shameful! They all blushed.

Luo Xiaobai blushed and lowered her head, hoping to find a place to hide.

Zhang Xuanyu and Le Renkuang looked at Han Fei in shock. Gosh, that was your way to bring back justice?! If we had known what you would do, we would definitely not have come here with you!

Looking at them from a distance, Han Fei gaped and almost sat on the ground. What a disgrace! What a disgrace to the Thug Academy! More and more people gathered up and watched. They hadn't seen such a scene before!

The more people there were, the harder Li Gang and the others performed. They used to be gangsters. This was just a piece of cake to them, not to mention that the other party was in the wrong. They just tried to bring out all their acting talents.

Jin Yuncheng's face turned red in anger and he snapped, "Han Fei, stop it! If you don't leave now, I'm going to report you to law enforcement!"

Han Fei beamed. "Phew! Are you annoyed? Report to the law enforcement team? It's okay. Just do it. Do you think we fear you..."

Jin Yuncheng glared at Han Fei, at a loss for how to deal with this guy.

Xia Xiaochan tugged at Han Fei's arm and said in a low voice, "That's enough. It's embarrassing. Let's leave here!"

Han Fei responded, "No rush! Wait a moment, just a moment!"

Before coming here, Han Fei had learned from Li Gang that the three major chambers of commerce had different scopes of businesses. The Linglong Tower basically sold everything, the Colorful Clothes was mainly doing clothing business, and the Black River Chamber of Commerce was the most special who was actually a contractual spiritual beast dealer. In the Black River Chamber of Commerce, a large number of living marine creatures were stored.

Was selling contractual spiritual beasts profitable? Of course. Ordinary people couldn't or dared not catch them, but the Black River Chamber of Commerce could help you catch them. You could even order any fish you wanted, even demonic fish in the level-three fishery.

The more the crowd gathered around, the more happily Han Fei smiled. Little Black should have entered your restricted areas now! Selling contractual spiritual beasts? I'll have Little Black kill your products and get him to do this every few days.

Of course, no one would know this. Han Fei turned back and said to Le Renkuang, "Shield!"

Le Renkuang: "???"

Although Le Renkuang didn't know what Han Fei was going to do, he still took out a shield and handed it to him.

Clang, Clang Clang...

"Ladies and gentlemen, may I have your attention, please? The Black River Chamber of Commerce stole the trade secrets of The Fish Dragons. They bully us just because we're new-comers to this town! Although we tried to fight back, the Black River was simply too powerful for us. Although we failed to defend our property, we'll never succumb to them. Now I've decided to create a brand-new casual game, which will be officially released in half a month. I hope you can have a try then..."

Then Han Fei kicked Li Gang.

Li Gang instantly jumped to his feet and wailed, "We Fish Dragons will never succumb to the dark-minded Black River Chamber of Commerce, never ever..."

Chapter 242 Admission Season

In front of the Black River Chamber of Commerce, countless people were watching, some were talking and gesticulating, some sympathized with The Fish Dragons, some were disdainful, and some were purely watching the chaos.

Someone exclaimed, "Aren't they the Thug Legend team?" "Oh! Yes, they are the five students of the Fourth Academy."

"This Black River Chamber of Commerce is too much! How could they bully a group of kids? They are already rich enough!"

Some people suspected, "It's not yet known whether it's true or not, but it's certain that there is a conflict between the two."

Someone casually said, "Whatever! Anyway, we can't afford the contractual spiritual beasts sold by the Black River Chamber of Commerce. But it's good that The Fish Dragons are going to release a new game."

Everyone talked, and behind them, Jin Yuncheng shouted, "Han Fei, you are maliciously discrediting the Black River Chamber of Commerce! Do you know what the consequences will be?"

Han Fei turned around and provocatively said, "What consequences? Do you want to beat me? Come on. Believe it or not, our teacher can slap you to death!"

Jin Yuncheng looked so pissed, but at this time, Han Fei glimpsed that Little Black had sneaked out, so he shouted, "Attach." In an instant, the shadow of a Nine-Tailed Mantis Shrimp appeared, taking aback the audience, including Jin Yuncheng.

Han Fei said with a smile, "Why are you so nervous? I'm just showing you my contractual spiritual beast. Do you have this?"

Jin Yuncheng gnashed his teeth. "Han Fei, do you really think we can't do anything to you?"

Han Fei immediately terminated his beast. He did it just to secretly take back Little Black and Little White.

Han Fei pretended to be scared. "Wow! You scared me! OK, now that we've vented out, we're leaving, but I warn you that you must use the brand of Fish Dragon Cards when you sell your pirated cards! If I hear something like Black River cards or whatnot, I will come back to you again!" Zhang Xuanyu was stunned. "That's it?"

Han Fei muttered, "You can continue to stay here if you want..."

Zhang Xuanyu shook his head hard and Luo Little White and Xia Xiaochan took the lead to slip away from the side. What a shame! They had thought they came to fight!

Jin Yuncheng clenched his fists. The Fish Dragons? How could he eliminate The Fish Dragons?!

However, at this moment, a staff member of the Black River Chamber of Commerce hurriedly came out and whispered something to Jin Yuncheng with a pale face.

Suddenly, Jin Yuncheng's momentum surged and he released his strength as a Dangling Fisher.

"Han Fei, stop."

The shadow of a huge hand grabbed Han Fei from behind. Han Fei turned back and was not surprised to see this scene. Jiang Qin had shown this before, and her fist shadow was way more powerful than this one.

However, Han Fei didn't move or stop it and Le Renkuang quickly raised his shield to block it in front of them.

"Humph!"

In the cries of panic, this big hand had almost reached Han Fei and the others. At this moment, however, a fist shadow suddenly flew out of the crowd and shattered this hand shadow as fast as a bolt of lightning. Then, the fist shadow continued to strike Jin Yuncheng

BAM!

Jin Yuncheng flew out, the door of the Black River Chamber of Commerce was hit hard and a big hole of seven or eight meters appeared through it.

The crowd burst into an exclamation. In the shocked stares of countless people, Xiao Zhan came from the crowd. "Humph, how dare you attack the students of our academy? Who gave you the courage?"

The other all swallowed. This fist shadow was so powerful! What level of strength did Xiao Zhan just use?

Han Fei smiled. "Teacher, you're awesome!"

Zhang Xuanyu glared at Han Fei. "Go back to school."

Li Gang and the other members were scared. Was this the strength of the level above great fishing masters? At that moment, they felt like they were about to be torn apart. The power was simply horrifying.

But then they got excited. Yes, the Black River Chamber of Commerce was powerful, but so what? Could it be more powerful than the teachers of the Thug Academy? The Thug Academy is our shareholder! With this in mind, they beamed with smiles.

Among the ruins, Jin Yuncheng vomited a mouthful of blood. That guy was so powerful that he had no power to fight back at all. Were the teachers of the Thug Academy all so strong? On the way back, Xiao Zhan said to Han Fei crossly, "Don't do this again! You will make the school lose face by doing this." Han Fei smiled awkwardly. "I won't, I won't."

Luo Little White frowned. "Today we have completely offended the Black River Chamber of Commerce. I think they'll retaliate."

Han Fei said carelessly, "I'm not afraid at all! A-Gang, hire the great fishing masters of the Black River Chamber of Commerce at a double price, then have one of them put poison in the food of our hot pot restaurants, and catch him on the spot... Do you know what to do?"

"Huh?"

The others stopped and looked at Han Fei up and down.

Li Gang was also trembling. Wow, Young Master is really ruthless! Not only is he ruthless, but he is also foxy. If the person of the Black River Chamber of Commerce is found on the scene putting poison into the food sold by The Fish Dragons, the Black River won't be able to get off the hook! Their reputation would be immediately ruined!

Han Fei scoffed. "Don't look at me like this! This happens all the time. Business is a war without bullets. Instead of being framed by others, we'd better take the initiative. Then, if anything similar happens in the future, people will doubt the Black River Chamber of Commerce... Well, Zhang Xuanyu, you are responsible for this, OK?"

"Puff..."

Zhang Xuanyu was dumbfounded. "Why me?"

Han Fei said, "Because among us, only you often treat girls to dinner!"

Zhang Xuanyu's face changed and then he gnashed his teeth. "You bastard."

Luo Little White frowned. "Han Fei, this is illegal!"

Han Fei sneered, "Illegal? Is there any law in this Infinite Ocean? Don't be too kind. Do you think killing only happens in the ocean? Are the floating islands better places than the ocean? The most horrible thing in the world is always the human heart."

His words touched Xiao Zhan's heart. This wasn't the first time he heard this. Old Bai often said the same. Now he couldn't tell whether Han Fei was a good or an evil person.

But since he was his student, he must be a good person. Xiao Zhan did not take what he said seriously.

Han Fei patted Li Gang and said, "Come back with me. I am going to expand the business of The Fish Dragons. What I said just now is true. I really meant it."

Li Gang was surprised. "Young Master, are you really going to release a new game?" "Not only a game, but I'm also going to open a Fish Dragon buffet in the Blue Sea Town. Forget it. You will know more later."

In the last half a month.

The Fish Dragons suddenly rented 36 large shops and nearly 100 ordinary-sized stores in the Blue Sea Town. Of course, this didn't attract much attention in the Blue Sea Town yet. After all, the Blue Sea Town was too big. In a town of 5 million residents, who would pay attention to who rented what shops? But when the shops opened, it was another story. When a new shop suddenly appeared, everyone wanted to have a try.

On the eighth day after Han Fei went to the Black River Chamber of Commerce, something big happened at a Fish Dragon hot pot restaurant, which even alarmed the inspector. It was said that a great fishing master put poison in the food of the hot pot restaurant and was found on the spot. As confirmed by the inspector, this person was from the Black River Chamber of Commerce.

This news was immediately spread out, and the reputation of the Black River Chamber of Commerce was ruined. In addition, the Black River Chamber of Commerce had been breached repeatedly because they failed to deliver contractual spiritual beasts to fulfill their customer's orders and had been accused by many people.

It was said that when the news about the poison was spread, Jin Yuncheng vomited blood in public in anger. On the contrary, The Fish Dragons rose to fame, so when they launched The Fish Dragons Mahjong Parlor and Fish Dragons Seafood Buffet, it went particularly smoothly.

Especially the mahjong parlor, it took less than three days to sweep across almost half of the Blue Sea Town and become the fashion for a time. Countless people rushed over to play every day and The Fish Dragons had to urgently recruit more staff from the Heavenly Water Village.

Of course, Han Fei didn't manage the specific matters, because the admission season of this year had already begun.

At this moment.

At the gate of the Thug Academy. There was a sea of people.

Chapter 243 An Academy of Monsters

“Don’t push. Line up, Line up!”

Le Renkuang shouted loudly and the fat on his face jiggled, “Line up. Pay the assessment fee first. Anyone can participate in the assessment upon paying 10 mid-quality pearls.”

Someone shouted, “Little brother, isn’t that too expensive? My son is very talented. Can we be spared from this fee?”

Le Renkuang shouted, “Those above the level of a great fishing master can be spared from the assessment fee. Those under the level of a great fishing master will have to pay unless they are super talented... Besides, to be honest, those below fishing masters have very little chance of entering our academy.”

Many people were stunned hearing what he said.

Among the crowd, a boy asked his father, “Dad, why should we go to the Fourth Academy? Can’t we just go to the First Academy?”

His father scolded, “Shut up. If you can enter the Fourth Academy, why would you go to the other three academies?”

Some people who couldn’t afford this fee and were not very talented chose to leave, but most people chose to stay. Anyway, compared to the reward, 10 mid-quality pearls was simply nothing.

Old Bai was way more interested in money than the assessment. At this moment, he was sitting alone at the gate of the school and collecting money with a long table in front of him and a big basket beside him.

The crowd all thought this old man was just the janitor of the school.

Except for Le Renkuang standing and yelling at the gate, the other four were sitting in the open space at the gate. They lined up with a sign hanging beside each of them, respectively reading Spirit Gatherer, Soul Warrior, Hunter, Manipulator, and Armorer.

Of course, because of the shortage of manpower, the armorer Le Renkuang had to stand at the gate and greet the crowd and his chair was empty. The people paid the fee and stood in front of the four of them one after another.

Le Renkuang finally walked back over. “OK! Everyone, please listen to me! Choose one of the five major professions. Anyone who can hold on for three minutes is eligible to enter our academy. Our five examiners are absolutely fair and unbiased, understood?”

The first candidate came out and looked at them in fear, saying, “My name is...”

Before he finished speaking, Luo Xiaobai said, “We don’t need to know your name, it’s a waste of time. Report your name when you become a member of the Thug Academy.”

The boy froze a bit and then made up his mind, picking up a rod and saying, “I challenge the spirit gatherer.”

Zhang Xuanyu wasn't surprised at all. It was reasonable. Everyone thought that the spirit gatherers were the ones protected by others in combat because their combat ability was extremely poor.

The problem was, however, they forget where they were. This was the Thug Academy. How could Han Fei be a normal spirit gatherer?

Le Renkuang shouted, "Everyone, quiet! The next one... Remember, as long as you can hold on for three minutes, you'll pass the assessment." Han Fei got up, lowered his strength to that of a level-nine fisher, and picked up an ordinary fine iron rod. "Come on!" The boy took a deep breath. Before he came, his father gave him information about the five of them. He bet that Han Fei was not as strong as him when he lowered his strength to that of a level-nine fisher.

"Ha!"

The boy shouted and the fine iron rod exploded with spiritual energy.

However, Han Fei just held the rod casually, slightly dodged the attack, and gave a whack with the rod, and then with a thud, the boy flew directly out of the school gate.

Han Fei said casually, "Don't try to use a spiritual energy explosion. It's meaningless!".

Le Renkuang shouted, "Next!"

The people in the queue were all stunned. What?! Was that boy eliminated? So soon?

Han Fei scoffed. When I was still a level-nine fisher, I was able to kill Li Jue! Why did that boy think he could beat me?!

Then a girl came out. Before Han Fei walked back, she shouted, "I also challenge the spirit gatherer."

She drew out two daggers. Han Fei grinned. "A junior great fishing master, hunter? Come on!"

At the moment when the girl disappeared, Han Fei slightly moved his body and then casually punched out, and the next second, the girl's petite figure was sent flying and fell she outside the gate.

"Next!"

"Wait a minute!"

The girl struggled to get up from the ground and said, "If you had lowered your strength to that of a junior fishing master, how could you find me?"

"Yes! This girl is a hunter."

"Yes, did the examiner cheat?"

The crowd was in an uproar and someone began to doubt him.

Han Fei grinned. "I found your location from the sound of the wind. Making so much noise in combat, you're really not a good hunter! Next!"

Han Fei didn't have any pity for this girl. This was an entry-level assessment, not a game. Le Renkuang said angrily, "Don't doubt our examiners. Why should we bother to cheat? If you don't believe us, you can leave. The next..."

No one challenged Han Fei this time. A handsome boy said, "I choose to challenge the armorist."

Le Renkuang walked straight to the field. "I am the armorist. Come on!"

Le Renkuang pulled out a knife from the armor box, but the boy suddenly ran around him at a very fast speed.

Le Renkuang laughed, raised his knife and hacked. With a clang, the boy stepped back six or seven steps and before he had any time to react, a knife appeared in front of him.

Le Renkuang asked, "Are you stupid? Yes, armorists are slow, but my knife is fast!"

One, two...

No one could hold on for even one minute, not to mention three minutes.

Someone challenged Luo Xiaobai and she just sent the challenger flying with her vines without even moving.

An armorist challenged Xia Xiaochan, but before he took out his shield, Xia Xiaochan had put the dagger on his neck.

Zhang Xuanyu had the fewest challengers because in people's opinion, he, a soul warrior, had the greatest combat ability.

The assessment was carried out for nearly an hour, except for one who held on for one minute under Le Renkuang's hands, the rest were mostly knocked out with one strike.

Seeing this scene, many people were desperate and left. The people of the Thug Academy were monsters! It was impossible for them to pass the assessment!

Le Renkuang had made his voice hoarse from all the shouting. He ran back to his seat and pulled Han Fei up. "Now it's your turn! I've lost my voice. Give me some dried fish. I'm hungry."

Han Fei: "..."

Han Fei took a handful of dried fish, handed it to Le Renkuang, and then kicked Zhang Xuanyu. "You are the idlest one of us. Don't sleep. Go."

Zhang Xuanyu was speechless. Why me? It would be tiring to stand there.

But Zhang Xuanyu was really bored, so he got up and walked to the gate. "We've told you that people below fishing masters had better not challenge us. Those who can enter the Thug Academy all can skip levels to challenge. If you can kill a junior fishing master when you're a level-nine fisher, welcome, but if not, you'd better pack up and leave!"

At this time, a well-dressed boy walked out of the crowd, carrying a rod and saying, "I challenge the soul warrior!"

Zhang Xuanyu suddenly brightened. There was finally someone challenging me? Zhang Xuanyu laughed. "Come on!"

The boy's feet moved, and the rod in his hand turned into dozens of rod shadows and shot at Zhang Xuanyu.

"Phew! Not bad! But the shortcoming is too obvious. The spiritual energy can't be balanced, which can be seen at a glance."

Zhang Xuanyu hit away the real rod among the rod shadows and smashed his rod at the boy but the latter suddenly leaned back, pulled out two daggers from behind, and thrust them at him as fast as a bolt of lightning

"Ha! Wave!"

Zhang Xuanyu hit the boy again with his rod and there seemed to be a sea wave surging behind him, and the boy flew out with a bang. Zhang Xuanyu dropped his rod and walked to the door. "Your combat skills are not bad but your control of spiritual energy is poor. You're both a soul warrior and a hunter but not good at either of them. Besides, you were too slow in combat... The next one."

The people in the queue were speechless. Come on, this is a dual-professional genius! And even he was eliminated?!

"Well, Sir, can you refund my money?"

Old Bai rolled his eyes at that man. "Sorry, the assessment fee is nonrefundable!"

"Uh..."

Another hour later.

The long queue disappeared and there were only less than a hundred people left. This might be the fastest entry-assessment ever. Many people cursed when they left. "What the hell is this school! They don't want to recruit any students at all."

At this time, in front of Old Bai's desk, a boy asked awkwardly, "Sir, I only have one mid-quality pearl. Can, can I attend the assessment?"

Chapter 244 A New Member

Beside this boy, there was an old man with grey hair, who was smiling at Old Bai with a mid-quality pearl in his hand.

Old Bai glanced at him and waved his hand. "Ok, ok, over there!"

As soon as he said so, someone behind him shouted, "Hey! Old man, why didn't they pay? Old Bai snorted. "Because they're poor!"

Although Old Bai loved money, the grandfather and grandson looked poor indeed and the boy didn't even have a fishing rod. It was immoral to charge them money.

The boy walked to the field, looked around, and took a deep breath. "I challenge... The manipulator."

Hearing this, the people waiting behind all shook their heads. Is this boy out of his mind? The manipulator is the captain of the Thug Legend. She hasn't even moved so far. Are you sure you're going to challenge her? Le Renkuang wondered. "Feifei, if I see it correctly, this kid has just become a junior fishing master. His spiritual energy looks a bit weak!" Han Fei nodded. "You're right. His physique is a bit weak too."

The people waiting behind waited to see the boy make a scene of himself. They estimated that Luo Xiaobai would eliminate this child with a single whip! Looking at the slightly nervous boy, Luo Xiaobai nodded seriously, still sitting there meticulously. As the boy opened his palm, the ground under his feet instantly turned green and large pieces of silk-like seaweed spread out.

"Huh! Seaweed?"

Han Fei exclaimed, "Yes, this was the most common type of seaweed, even without a name, that could be found everywhere in the ordinary fisheries."

Everyone thought it would be a battle without suspense and would finish in one second. But when Luo Xiaobai raised her hand, she failed to summon her vines.

Luo Xiaobai lunged to her feet and jumped out of the spreading seaweed. As she raised her hand again, vines appeared on the ground and began to attack the seaweed.

However, to everyone's amazement, the boy suddenly flowed to the ground like liquid and disappeared. Then a large sheet of seaweed appeared where he just stood.

Smack!

A large piece of seaweed was crushed by Luo Xiaobai's vines but the remaining seaweed, like parasitic maggots, spread towards Luo Xiaobai.

The people waiting behind couldn't help but exclaim.

Le Renkuang also exclaimed, "Wow, is this some kind of combat skill? Or an ability? He turned himself into seaweed..."

Han Fei also widened his eyes. "What is this? A human can turn into grass? If the grass does not die, the man won't die either! In this case, unless you crush all the grass, you won't be able to kill this person?"

Luo Xiaobai was calm. She summoned dozens of vines and swept across. Wherever the vines passed, there left a mist.

Zhang Xuanyu said with a smile, "Xiaobai has not mastered poisons but only some paralysis skills. But this should be enough."

Sure enough, the seaweed stopped moving forward. Even so, it had spread over an area of 30 to 40 square meters. At this moment, no one could find where the boy was!

Luo Xiaobai didn't panic but stared at the seaweed seriously. This boy couldn't be invincible. There must be a loophole. There was no perfect ability in this world. One second, two seconds, three seconds... Han Fei murmured, "I see him." Le Renkuang narrowed his eyes. "Where is he?"

After as long as one minute, Luo Xiaobai suddenly thrust the vines at an unnoticeable strain of seaweed among the seaweed.

However, before she reached the seaweed, Zhang Xuanyu said leisurely, "Time is up. Pass."

The other people were shocked not only at the fact that the boy passed, but also at his amazing ability. Transform into seaweed? They had never heard of it before!

The piece of seaweed gradually gathered up and turned into the boy again. The boy looked back at his grandfather, showing a big grin.

His grandfather smiled gently. "Nannan, come greet your senior sisters and brothers."

The boy hurriedly took a breath and turned back to bow at them. "Hi, I'm Qu Jinnan, nice to meet you." Han Fei actually liked this guy. Although he looked a bit stupid, he seemed very polite and kind. Han Fei beckoned, "Come, sit here."

Han Fei pointed to Zhang Xuanyu's seat and Qu Jinnan froze.

Han Fei laughed. "It's okay. Let him stand."

Qu Jinnan blinked but didn't sit in the end. He just stood behind Zhang Xuanyu's chair, carefully looking at Zhang Xuanyu.

But Zhang Xuanyu didn't notice it and continued to shout, "Next."

Seeing someone pass the assessment under Luo Xiaobai's hands, the people left all chose Luo Xiaobai. But in the end, as expected, they were all eliminated.

When there were only seven or eight people left, Han Fei saw the village leader come in with Xu Ya.

Han Fei quickly moved his chair in front of the village leader. "Grandpa Leader, hi."

Seeing that Han Fei gave him his chair, the village chief quickly waved his hands. "No, no, you are one of the examiners now. You sit..."

"It's okay. There is another chair over there..."

The crowd was all staring at the girl next to Han Fei. Will this examiner bend the rule for his acquaintance?

The village leader asked, "Han Fei! I heard you haven't recruited a single student so far?"

"That's not true. We've recruited one."

The village leader looked at the boy standing behind Zhang Xuanyu and took a deep breath. "Only one?"

Han Fei scratched his head. "Yes! There are too few people who meet the requirements."

The village leader was stunned for a while and then waved his hand to let Han Fei go back. In the end, he sat down on the chair. After all, the kid from his village was one of the examiners, which was something to be proud of.

“Xu Ya, this assessment is not easy to pass. Try it! If you can’t make it, you can still go to another academy.”

Xu Ya looked at the few people left, took a deep breath, and nodded. After fighting Han Fei last time, she became very interested in the Fourth Academy and also heard that the Thug Legend had won a one hundred-game winning streak in the Blue Sea Arena. Therefore, she must come to try.

Actually, Han Fei had walked her through the back door. The Plate Ray helped her upgrade by two levels. Now she was already a peak-level level-nine fisher.

At this moment, among the few people left, a woman led a girl to come over. Surprisingly, this petite girl was carrying an armor box.

Le Renkuang’s eyes lit up. “A female armorer! That’s rare!” Zhang Xuanyu asked, “Who do you challenge?” The girl looked straight at Zhang Xuanyu. “You.”

Zhang Xuanyu froze and then smiled. “OK.”

Zhang Xuanyu picked up a fine iron rod casually. “Watch out. I’m starting to attack.”

Zhang Xuanyu lowered his strength to that of a level-nine fisher and poked the rod in his hand at the girl and there seemed to be waves surging behind him. In the eyes of others, they were waves, spiritual energy waves.

However, the girl ducked his attack and patted her armor box. As the box opened, nine long swords swished out and spun around the girl. With a clang, the swords were sent flying, and at the same time, Zhang Xuanyu took three or four steps back.

The eyes of Han Fei and the other three lit up.

Xia Xiaochan beamed. “This one is good.”

Le Renkuang laughed. “She uses swords but her sword formation is no worse than my knife formation.”

Zhang Xuanyu smiled. “Triple-Layered Waves in Furious Sea.”

The girl’s face changed slightly. The nine swords that were hit flying returned instantly, and one of them shot directly at Zhang Xuanyu.

Crack!

One sword was broken and the girl vomited a mouthful of blood. However, she did not stop and the second sword darted out, with a stronger and fiercer force.

Crack!

The second sword shattered again, the girl vomited blood again, her face ghastly pale. At this time, the girl suddenly shouted out loud and the remaining seven swords gathered together, guarding in front of her in a round shape, like a sword shield.

BAM! The sword shield was shattered and the girl was struck flying and rolled five or six times on the ground. But her body suddenly exuded spiritual energy all over and she immediately got up. The seven swords became one and turned into a big sword to shoot directly at Zhang Xuanyu. "Slash Wave!"

Zhang Xuanyu gave a full blow, reserving no strength. However, the fine iron rod in his hand was shattered by the giant sword.

Having no other choice, Zhang Xuanyu wrapped his hand with spiritual energy and patted the giant sword three times to hit this powerful sword away.

"Zhang Xuanyu used the strength of a peak-level fisher. You passed."

To be precise, when Zhang Xuanyu took the second shot, he used the strength of a higher level. The girl forced him to use the strength of a higher level, so she passed the assessment.

Hearing this, the girl vomited another mouthful of blood and passed out. At this time, a vine on the ground quickly stretched out to catch her body and put her on the chair of Zhang Xuanyu.

Luo Xiaobai said flatly, "Get her treated."

Chapter 245 Another New Member

Han Fei waved his hand and a shower of energy fell on the girl, which was magical in other people's eyes, but Luo Xiaobai and the others were used to it. The girl's complexion quickly changed from pale to ruddy. After all, she was only a level-nine fisher, so it was much easier for her to recover than a great fishing master.

Seeing the girl slowly opening her eyes, the woman outside the gate of the school heaved a breath of relief. She made it anyway. It was worth the pain.

Han Fei took a look at the girl. "Don't talk. You will recover within ten minutes. Keep your breath stable."

The girl nodded slightly.

Seeing this scene, the people waiting behind couldn't help but smile bitterly. Wasn't it too difficult to pass the assessment? Just now, if it were them, they might have been nearly crushed by Zhang Xuanyu. They probably wouldn't even be able to resist the first attack, let alone the Triple Layered Waves in Furious Sea.

At the gate, Xu Ya was pale and very nervous.

The village leader sighed. "It's okay. Just try your best. Don't pick Han Fei."

Xu Ya nodded. Of course, she would not pick Han Fei. She had found out last time that Han Fei could easily beat her even if he was at a lower level than her.

Xu Ya came out and quickly looked around the five of them.

Le Renkuang looked at Han Fei. "Your fellow villager?"

"Yes!"

Le Renkuang smiled. "But we're not going to pull any punches!"

“As it should be!”

Xu Ya firstly ruled out Han Fei, then Xia Xiaochan, and thirdly Le Renkuang. It was not difficult for an armorist to deal with her.

Xu Ya looked at Zhang Xuanyu. Thinking of the stormy attack just now, she didn't think she could resist it. In the end, she could only look at Luo Xiaobai. “I choose the manipulator.”

Luo Xiaobai nodded, and at the same time received a message from Han Fei in her mind. “Do me a favor. Beat her in two minutes.”

Han Fei knew that Xu Ya would definitely not get through. But holding on a little longer would be of great benefit to her future. For the sake of the village leader, he didn't mind slightly bending the rule for her.

Luo Xiaobai frowned slightly but still nodded. Suddenly, a piece of Spirit Entangling Grass grew around Xu Ya. At the same time, a vine whipped at her. Xu Ya gritted her teeth and somersaulted over to one side while the Spirit Entangling Grass was entangled on the vine.

When other vines struck over, the Spirit Entangling Grass had wrapped Xu Ya's waist and pulled her away from the air.

On the field, the battle between the two manipulators seemed to be thrilling. Xu Ya twisted and turned to dodge Luo Xiaobai's attacks. To be fair, her performance was not bad.

But just after two minutes, a vine swished out. Xu Ya tried to dodge again, only to see that her Spirit Entangling Grass was entangled in vines.

BAM!

Xu Ya was whipped away by a vine and vomited a mouthful of blood, unable to get up.

Luo Xiaobai called out, “You're talented and have good control of spiritual energy, but you're too timid. If you took the initiative to attack me, you might have had a chance.”

Now the assessment was over.

Han Fei walked out of the school, waved his hand, and a shower of energy fell on Xu Ya. “You've done a good job. You can try the First Academy! Grandpa Leader, I'm sorry I didn't help you!” The village leader gave a wry smile and shook his head. “The assessment should be rigorous and fair. I understand. I'm leaving now because I'm going to take Xu Ya to the First Academy.”

Han Fei nodded. “She will be fine after about ten minutes.”

Seeing this scene, many people sighed. It seemed that walking through the back door would not work! Xu Ya had persisted for two minutes. Han Fei should persuade the Thug Academy to accept her! For this reason, many people ran to talk to the village leader. “Is that boy from your village? Oh, he should speak for this girl!” “Gee, this boy is too cold-hearted.”

“It's okay. The First Academy is good too.”

The village leader just smiled but did not make any remarks. After the crowd dispersed, on the way to the First Academy, the village leader slowly asked Xu Ya, "Do you also think Han Fei is too cold-hearted?"

Xu Ya didn't speak but she looked a bit embarrassed.

The village leader sighed. "Actually he has walked you through the back door." "Yes! I know."

"No, not that Plate Ray, but just now."

Xu Ya was surprised. "Just now?"

The village leader nodded. "You could hold on for two minutes because she didn't want to beat you quickly. For many times, as long as she blocked your grass, you would lose. But she didn't beat you until two minutes later. Guess why?"

Xu Ya looked at the village leader in surprise. "She did it deliberately?"

The village leader nodded again. "Yes, very few people held on for one minute, but you lasted for two. This proves your strength."

Xu Ya mumbled, "But the girl passed."

The village leader smiled. "That's a genius. From the way we came, we saw many people leave with misfortune. Today, there were at least a thousand people who came to sign up. But how many passed the assessment in the end? Only two! Do you know what this means?"

It was not just the village leader and Xu Ya who were thinking about this issue. Many people who came to register and even the people of the other three academies were also thinking about it.

The First Academy, the President's office.

After hearing this news, Wu Junwei sighed. "The Thug Academy still adheres to their principle of only enrolling geniuses. But this is actually not good for their development."

A teacher asked, "President, do we need to change our enrollment plan this year?"

Wu Junwei shook his head. "Just improve the requirements a bit. By the way, recruit all those who lasted their trial for one or two minutes."

The teacher was surprised. "President, there are not even 50 of them in total."

Wu Junwei shot back, "Of course! Few people can last that long, OK? As for the others, just follow our previous enrollment plan."

Xu Tianji of the Second Academy sneered. "Humph, Wu Junwei must have started snatching the talents. We must not lag behind them. Try to recruit the people who failed the assessment of the Thug Academy but held on for one minute or more. Bai Congye hasn't figured out even now. What is the use of recruiting a few geniuses for the development of the school? There is strength in numbers. Once these geniuses die, they won't even have any students left."

Chu Mengxue of the Third Academy thought the same as Xu Tianji and also tried to recruit those people. What was the purpose of running a school? Just to recruit geniuses? No, the three academies were the backbone of cultivating talent. The Thug Academy? That was not even a school at all! Look how many students they had!

Thug Academy.

The girl recovered from her injury and thanked Han Fei. "Thank you, Brother Han Fei."

Zhang Xuanyu came over. "Are you all right? I exerted too great a force just now. Sorry!"

"Hi, Brother Zhang. It doesn't matter. It was an assessment."

Zhang Xuanyu grinned. "Girl, what's your name?"

Hearing this, Han Fei kicked Zhang Xuanyu. "Stop it. Her mother is still here."

Zhang Xuanyu was helpless. "I just asked for her name! We still don't know her name, do we?"

The girl responded, "My name is Ling Yuan and my spiritual beast is a Turtle Conch."

Han Fei didn't know what a Turtle Conch was, but since it was called Turtle, its defense power couldn't be weak. Although the girl kept vomiting blood just now, she still got it through. Old Bai put away his stuff and beckoned, "Le Renkuang, come and move the money back. Xiaobai, invite the guests in! Han Fei, go cook. Zhang Xuanyu, take your junior brother and sister to build their treehouses..."

Old Bai thought that he had arranged everything perfectly. But Qu Jinnan and Ling Yuan looked at each other in amazement. Weren't students... Supposed to cultivate? But cooking? Build a treehouse?

Luo Xiaobai walked forward obediently. "Grandpa, Auntie, please come with me."

Zhang Xuanyu snapped his fingers. "Let's go. I'll show you the environment of our Thug Academy. It's quite beautiful and more importantly, very quiet..." Qu Jinnan and Ling Yuan followed Zhang Xuanyu to the living area with a curious look. When they saw five treehouses hung on the trees, the two were dumbfounded.

Not far below the treehouses was the kitchen. At this moment, Han Fei took out a Plate Ray and cut it into many pieces with his dagger. Then he waved a hand at the air, and a mass of water began to rinse the Plate Ray. He processed the Plate Ray with skill and speed, and the two newcomers were dumbfounded. What did they see? Brother Han Fei used his strength to... Cook?!

Zhang Xuanyu asked, "What are you waiting for? We shall build the treehouses before Han Fei makes the meal! Kuangkuang, go and cut a few big trees..."

Qu Jinnan: "..."

Ling Yuan: "..."

Chapter 246 The Third Brocade Satchet

Soon, two tree houses were built.

Qu Jinnan and Ling Yuan climbed up and down, feeling very excited. Everything seemed completely different from during the assessment when Han Fei and the other four were sitting there like five monsters and looking so scary. But now they found that these people were actually easy-going.

One hour later.

They sat down around the big, round table. This table was customized. Otherwise, the 12 of them wouldn't have enough space to sit down. Qu Jinnan and Ling Yuan respectively sat beside their grandfather and mother.

Qu Jinnan's grandfather looked quite pleased. "I'm very glad Nannan can join you. Please take care of him for me. Thank you."

Xiao Zhan laughed. "Grandpa, you can be rest assured! Now that he has entered our academy, no one dares to bully him."

Ling Yuan's mother also said gently, "Yuanyuan, listen to your teachers and senior brothers and sisters, understood?"

Ling Yuan nodded lightly. "OK!" Xia Xiaochan looked at Ling Yuan and then Luo Xiaobai. "Oh, I find that they are somewhat alike in character!"

Han Fei nodded. "I find that too."

Luo Xiaobai ignored the two of them. "Just eat."

This was the first time Qu Jinnan had eaten such tasty food. His family was poor, so he hadn't tasted The Fish Dragon hot pot or anything like it, nor had he heard of them. Ling Yuan's family was quite wealthy and she had eaten hot pot before, but she was still stunned when she saw the other dishes. She had never eaten any of these delicacies!

Looking at the dishes on the table, Ling Yuan's mother secretly gasped. These things never appeared on the market. If they were launched to the market, they might change the dietary habit of the entire Blue Sea Town?

At first, they were attracted by the hot pot, but when they took a bite of the Plate Ray, they were immediately fascinated.

Especially Qu Jinnan, he had never eaten anything so delicious before! As the tender flesh rolled over his tongue, he had fallen head over heels for this food. Was there really such a delicious thing in this world?

Qu Jinnan and Ling Xuan couldn't stop glutting themselves with delicacies.

Unfortunately, after only a short while, the two of them were steaming all over and smoke was coming out of their hair.

Wenren Yu said, "The two of you, quickly find an open space and sit down to cultivate. You cannot eat anymore for this meal."

Although the two still wanted to eat a few more fish, the spiritual energy in their bodies was surging so violently that they had to put down the chopsticks and sit on the ground to cultivate.

Qu Jinnan's grandfather was grinning from ear to ear. No wonder so many people tried to enter the Thug Academy! Look, I have worked so hard for decades to help Nannan get to where he was today. However, having only one meal at school, he had made a breakthrough.

Ling Yuan's mother did not speak but was overjoyed in her heart. Sure enough, Yuanyuan chose the right place! See what they eat here? Rare creatures caught from the level-two fishery! Even if they just eat and drink and do nothing all day, their cultivation speed will still be faster than in the other three academies.

Of course, she didn't know that Han Fei rarely cooked so many dishes. Usually, the cook was Le Renkuang or Old Bai and Xiao Zhan. They wouldn't be able to make these delicacies.

After dinner, Qu Jinnan's grandfather and Ling Yuan's mother left. As for Qu Jinnan and Ling Yuan, they had not awakened from their cultivation.

Since Han Fei and the other four were still present, Xiao Zhan suddenly shouted, "Gather."

Han Fei and the others became serious. After a long rest, did the third brocade sachet finally come?

Soon, the five of them lined up. Even Han Fei was very looking forward to it. They had been working so hard just for this moment!

Old Bai stood in front of them and Xiao Zhan and Wenren Yu stood on both sides. They were all expressionless at the moment.

Old Bai looked around at them and slowly said, "So far, you have performed well. Ms. Wenren has told me that you have mastered the most basic fishing skills and have found your own contractual spiritual beasts. To tell you the truth, now you have truly entered the top 100 of the four academies in the Blue Sea Town."

Suddenly, Old Bai sneered. "But what's the use of it? Let me tell you, any random boy or girl in the Thousand Star City can enter the top 100. So, this is not worthy of pride. Even in the 36 towns under the jurisdiction of the Thousand Star City, there are many strong masters, not to mention in the Thousand Star City. The Blue Sea Town, in all towns, is only ranked at about 20th."

"Twentieth?" Zhang Xuanyu exclaimed in surprise.

"Shut up."

Xiao Zhan snorted and glared at Zhang Xuanyu, who immediately shut up.

Old Bai raised a finger. "Even if we pick out the 100 most talented teenagers from each town, there will be 3,600 people in total. Of these people, even if you can beat half of them, then you'll still have 1,800 competitors. Now, are you still proud?". Han Fei and the others took a slight breath. Yes, it seems that they do have nothing to be proud of. But the point is... We are not proud!

Old Bai put on a look as if he knew what they were thinking. "Geniuses are usually conceited and strong masters are usually proud. But, you must know that you're not strong enough yet. Our former students

had crushed all those so-called geniuses. Now that we have returned to the stage again, you've gotta continue the glorious record of your predecessors. The Blue Sea Town is not the target, neither are the 36 towns... Your goal is to crush the heavenly talents in the Thousand Star City!"

Old Bai's voice sounded solemn and stirring. The other four felt their blood was boiling.

old Bai continued, "Of course, you should learn to walk before you run. The first two brocade sachets just let you know yourselves better, your strengths and weaknesses, and to familiarize yourselves with combat skills, and strengthen mutual cooperation. That's all."

"Now, starting from the third brocade sachet, you'll face dangers and even crises that can kill you at any time. Do you dare to accept the challenge?"

"Yes!"

The five of them answered almost in unison. If it weren't for that, why did they bother to work so hard?

At this time, Xiao Zhan took a step out, holding a brocade sachet in his hand, and looked coldly at them. "OK, then you must... Ms. Wenren stopped you from entering the Fiery Mountain when you were in the level-two fishery, but now you've got a chance to enter it."

Xiao Zhan threw the brocade sachet to Luo Xiaobai. "Read it."

Luo Xiaobai took the brocade sachet and opened it. After reading it, she looked solemn.

Zhang Xuanyu quickly took it from her hand, and after reading it, he was a bit surprised and then looked solemn too.

Xia Xiaochan grabbed it. "What is it? Fiery Mountain, Secret Realm?"

Han Fei was surprised too after reading it. No wonder Wenren Yu didn't allow them to enter the Fiery Mountain. It turns out that the Fiery Mountain was a secret realm where all kinds of sea beasts and almost all the special creatures in the level-two fishery could be seen there.

And what they were going to do next was to explore the secret realm with the people of the three other academies. Of course, it was not that simple. There were also chances in the secret realm.

But there was a problem. The top 100 students of each academy could enter, but the Thug Academy only had the five of them! Qu Jinnan and Ling Yuan couldn't go there yet. This meant that the five of them would have to face nearly three hundred people from the other three academies. What was more, the brocade sachet read that they couldn't get the fourth brocade sachet until they entered the top ten.

Xiao Zhan sneered, "This is just the minimum requirement. My requirement for you is the top five."

Luo Xiaobai asked, "Respectively?"

Xiao Zhan answered coldly, "You five are one. Is there a difference between you as individuals or as a team?"

Luo Xiaobai nodded. This task will not be easy to finish. Although they had a one hundred-game winning streak in the Blue Sea Arena, only one of the top ten students of the three academies showed up back

then. This time, they were not only desperately outnumbered, but also had to enter the top five. This meant that they must be the strongest.

Was the top ten of the other three academies really weak? Not necessarily. Last time, Su Yebai and his team members injured Xia Xiaochan and Zhang Xuanyu. She and Le Renkuang weren't obviously stronger than the other party in strength. If it weren't for Han Fei, even if they could win, it would have been a narrow victory.

Xiao Zhan immediately shouted, "Are you confident?"

"Yes!"

Chapter 247 Let Go!

Xiao Zhan instructed, "You have only one month to prepare for this trial. Han Fei, if possible, can you teach Qu Jinnan the Incomplete Monograph on 108 Ways of Body Polishing? Although he is already a fishing master, his body is weaker than that of a level-7 fisher. Please take care of your junior brother..."

"No problem!"

Han Fei had no problem with it. All the combat skills and books in the library of the Thug Academy were completely open to them. He shouldn't be stingy when sharing with other classmates. Wenren Yu also said, "Xiaobai, teach Ling Yuan some basic knowledge over these next few days. When Qu Jinnan's body becomes sturdier, exchange with Han Fei."

Luo Xiaobai nodded. "Okay."

Old Bai left.

Xiao Zhan glanced at Len Renkuang and Zhang Xuanyu and said, "You two, focus on cultivating. You're still too weak!"

Le Renkuang: "..."

Zhang Xuanyu: "..."

When Xiao Zhan also left, Zhang Xuanyu smiled bitterly. "Am I weak?! But I feel that I'm progressing with amazing speed. Feifei, you only have a level-four spiritual heritage. How are you making breakthroughs so fast?"

Han Fei blinked and said, "Although my spiritual heritage is only of level 4, its quality has improved a little bit..."

The others all looked at Han Fei silently but he didn't even bat his eyelids. Don't you all have growing spiritual heritages? Why are you looking at me?

Zhang Xuanyu shook his head and did not want to talk to Han Fei. F*ck! How did he have the cheek to claim that he had a low-quality spiritual heritage? Liar!

Zhang Xuanyu put his arm around Le Renkuang's shoulders. "Fatty, so it's just the two of us."

Le Renkuang pushed Zhang Xuanyu's hand away. "Don't count me in. I'll make a breakthrough in three or five days at most."

Zhang Xuanyu: "..."

An hour later, Han Fei went to Xiao Zhan to ask for the method of copying a jade slip. When he came back, there was only Qu Jinnan left. The others were all gone.

"Huh! Where are the others?"

"Brother Han Fei, the senior brother and sister have gone to cultivate. Sister Luo took Ling Yuan away. I didn't see Sister Xiaochan."

NOW

Han Fei looked at Qu Jinnan and said, "OK. You can't make a breakthrough for now because your body won't be able to withstand it."

Then Han Fei threw the copied Incomplete Monograph on 108 Ways of Body to Qu Jinnan. "I'll give you a month to practice this Incomplete Monograph on 108 Ways of Body. Even if you can't master it well, at least you should do all the 108 postures once. Don't miss any of them."

Qu Jinnan looked serious. The Thug Academy was so strong. Their combat skills couldn't be weak. So he nodded firmly. "Yes, Brother."

Han Fei solemnly said, "Before your physique is as strong as that of a junior fishing master, you shall not make any breakthrough. Eat more every day. What you need now is not only spiritual energy, but also more energy. You need a lot of energy to support you to cultivate this combat skill."

With that, Han Fei took seven or eight bottles of Iron Fish Body Polishing Fluid and threw them to him.

"With your current physique, you can only take a sip at a time. Come with me."

Qu Jinnan held the jade slip and the Iron Fish Body Polishing Fluid, thinking to himself, Are combat skills taught by senior brothers and sisters in the Fourth Academy? However, he had seen Han Fei fight in combat. During the assessment, the other four all had opponents who lasted more than one minute. However, when faced with Han Fei, no one could hold on for half a minute.

Han Fei brought Qu Jinnan to the cave where he cultivated and said solemnly, "I will come over to check on you once a day. If you encounter a posture that you can't finish, repeat the previous postures until you can finish it."

"Yes, Brother Han Fei."

Han Fei slipped away and walked out of the school.

Suddenly, Han Fei slightly tilted his body and held a knife in his hand in an instant.

Clang!

Han Fei was helpless. "Xia Xiaochan, can't you give me a break?! Do you have nothing to do?"

Xia Xiaochan's figure appeared and she asked curiously, "I just made a breakthrough. What are you going to do?" Han Fei put away his knife, and looking at Xia Xiaochan who was in the fancy clothes he made for her, he could not help but make a gulping sound. "I am going to the Linglong Tower."

Xia Xiaochan's eyes lit up. "To buy clothes?"

Han Fei rolled his eyes at her. "No! Do you think their clothes are more beautiful than the ones you're wearing?"

"I don't care. I'm going too. By the way, help me tie my hair, I don't know how to do it."

Han Fei took the red ribbon headband in Xia Xiaochan's hand, grabbed her hair, and said while tying her hair, "I'm going to buy some refining materials. You'd better not go there. The Linglong Tower is a money-burning pit."

Xia Xiaochan snorted. "I have money..."

Han Fei fell silent. Where did your money come from? From me!

The Linglong Tower.

As soon as Han Fei arrived, someone recognized him.

It was not because Han Fei spent much money in the Linglong Tower, but because the clothes Han Fei designed were too beautiful. At the moment, no one was looking at Han Fei and everyone was staring at Xia Xiaochan.

Han Fei looked helpless. Xia Xiaochan had caused a sensation when she walked all the way from the outside. In addition to the fact that she was very pretty, the clothes she was wearing were very fashionable. Along the way, at least dozens of people came up to ask her where she bought this set of clothes, and was it a new arrival of the Linglong Tower?

Yuling, the tailor of the Linglong Tower, rushed out when she heard that Han Fei had come with gorgeous clothes. When she saw Xia Xiaochan's clothes, she was very excited and even her breathing grew heavy. She just wanted to rush up and touch the gorgeous clothes!

Yuling asked with excitement, "Han Fei, do you have clothes to sell?"

Before Han Fei answered, Xia Xiaochan shook her head. "Not for sale. I don't want others to wear the same clothes as me."

Han Fei nodded. "No, not for sale."

Yuling was very disappointed. But the Linglong Tower enjoyed a good reputation in the town, and she certainly couldn't play dirty like the Black River Chamber of Commerce. However, she just couldn't move her eyes away from Xia Xiaochan and she seemed to try looking for inspiration from her clothing.

Han Fei secretly transmitted his voice to Xia Xiaochan, I said you shouldn't be here. Look, you're like an animal in a zoo!

Xia Xiaochan glared at Han Fei. You are an animal in the zoo, and your whole family is composed of zoo animals!

Han Fei: "..."

Han Fei was annoyed. "We are your customers. Why do you keep staring at us? Is this the way you serve your customers?"

Yuling smiled. "What would you like to see this time?"

"Do you have dragon tendon?" Yuling: "???"

The shop assistants: "???"

They all went speechless. Are you out of your mind? Dragon tendon? How could we have that?

Yuling spoke first, "Brother Han Fei, are you kidding me?"

Han Fei grunted. "Then do you have the tendon of a python above level 40?"

Yuling looked at Han Fei with a complex look. "Han Fei, even if we had that, are you sure you would want to buy it?"

Han Fei looked around. "Are we going to talk about it here?"

Yuling's face changed slightly. With a different tone and expression, she said, "Please follow me."

Han Fei and the curious Xia Xiaochan went upstairs to the eighth floor.

Yuling explained, "After all, the Blue Sea Town is just a town, so there won't be any exceptionally magical materials. However, we do have several python tendons you mentioned. But they are very expensive, not cheaper than ordinary spiritual weapons. It costs at least hundreds of thousands of mid-quality spiritual stones each."

Han Fei said casually, "It's okay. Just show them to me." For the first time, Han Fei went to the upper levels of the Linglong Tower. Yuling explained that what was on the fifth, sixth, and seventh floors were all magic weapons, and usually few people could afford them. As for the levels above the seventh, no one would come here for several months. Han Fei and Xia Xiaochan were the first ones coming here this month.

Upon entering the eighth floor, Han Fei saw that half of the entire floor was weapons, magical weapons. Some magical weapons, although placed in boxes, still shone.

Han Fei noticed a spear hung on this floor at first glance. Although Han Fei never used a spear, this spear still attracted him.

The spear was red all over, on which a shadow of a coiling dragon could be seen from time to time. Its tip, which was brighter than diamonds, was shining no matter what angle it was viewed from. It was so shiny that it attracted the eyes of every customer who came to the eighth floor.

Yuling said with a smile, "This Red Flame Dragon Spear was the most precious treasure of the Linglong Tower. It is a high-quality spiritual weapon with a level-44 exotic creature, a Red Flame Python in it. Ordinary weapons are as fragile as paper in front of it and can't withstand a single blow of it. Its price is

only 2 million mid-quality pearls, which I think it's affordable for you. If you want to buy it, I can take off 100,000 mid-quality pearls for you."

Han Fei swallowed. No, you're wrong. I can't afford it. It's impossible for me to spend 2 million mid-quality pearls just for a spear!

"Huh?"

Xia Xiaochan had run to a cabinet and picked up two daggers. Han Fei's eyelids twitched. "Let go!"

Chapter 248 Purple Sand Eel Tendon

However, in the next moment, Han Fei immediately covered his body with a spiritual-energy protective cover, and almost at the same time, a cold light thrust at him.

Crack!

Poof...

Han Fei was already evading. The moment Xia Xiaochan picked up the daggers, he knew what she was going to do.

His protective cover was crushed and a dagger went more than a centimeter into his belly. And Xia Xiaochan didn't even use her full strength.

Han Fei shouted angrily, "Xia Xiaochan, put the daggers back." Then he sprinkled a shower of energy on his wound that immediately stopped bleeding and was healing quickly.

Yuling was dumbfounded. Aren't you classmates? Isn't this girl your girlfriend? That's how you show love?

Yuling couldn't help but sigh in her heart. The young people nowadays were really different! The way they fell in love was so special! Xia Xiaochan reluctantly put down the daggers in her hand. "How much are the daggers?"

Yuling smiled and said, "The pair of Blue Amber Daggers are just low-quality spiritual weapons, in which two rare crayfish above level 30 are sealed. Obviously, they are priced much cheaper than the Red Flame Dragon Spear, only four hundred thousand mid-quality pearls! Would you like to buy them?"

Xia Xiaochan looked at Han Fei eagerly but the latter blurted out, "No!"

Xia Xiaochan grunted. "Humph, I want to buy them. I have the Blue Sea..."

Han Fei's face changed slightly and he immediately transmitted a message to Xia Xiaochan, I'll make a pair for you when we go back.

Xia Xiaochan blinked slyly. "Forget it. I won't take it. This pair of daggers is just so so, not good enough." Yuling: "???"

At this time, Han Fei got Xia Xiaochan's message, How many daggers can be made from a Blue Sea Wandering Dragon Bone? I just need two daggers. The more delicate, the better.

Han Fei was helpless as he thought, Each of us have a Blue Sea Wandering Dragon Bone. However, you have no idea that refining weapons requires spiritual energy... Is it so easy for me to accumulate so much spiritual energy?

However, the Blue Sea Wandering Dragon Bone must never be exposed. Otherwise, the Linglong Tower would know they found the body of the Blue Sea Wandering Dragon! After all, the whole town was named after this Blue Sea Wandering Dragon. Han Fei took a deep breath. "I just want to see the python tendon. Show it to me, come on!"

Yuling was a little surprised. There were so many treasures here, but Han Fei only wanted to see that python tendon. Could it be possible that he wanted to refine something out of it himself? It was possible. Or maybe a teacher in the Fourth Academy wanted to refine something...

Soon, three boxes were placed on the counter. Among them, one was as red as a flame, one was azure and translucent like jade, and the other was black and crystal clear like glass. Han Fei raised his eyebrows, and information appeared in front of his eyes.

The first was the Red Flame Python Tendon, with which the Red Flame Dragon Spear was made. Its characteristic was that its internal temperature was extremely high and its resistance to cold was extremely strong.

The second was the Ice Python Tendon, whose characteristics were somewhat similar to the Blue Sea Wandering Dragon Bone, very cold and extremely heat resistant.

The third one was not exactly the tendon of a python but a Purple Sand Eel. Its characteristics were extremely tough and it contained some sand poison.

Han Fei directly skipped the first one. Fire and ice couldn't co-exist. The two characteristics of hot and cold could offset one another. Even if he could refine a spiritual weapon out of it, it would only be an ordinary one. Han Fei didn't want to take the chance.

Han Fei hesitated for a long while in the second and decided to give it up in the end. Both the Blue Sea Wandering Dragon Bone and this tendon were cold in nature. He didn't want to freeze himself to death!

Han Fei closed the boxes containing the first two tendons, pushed them back, and patted the counter. "How much is this?"

Yu Ling was surprised that Han Fei chose the tendon of the Purple Sand Eel. The other two looked way more visually striking than this one!

Yuling took a deep look at Han Fei. "Your eyes are very sharp..."

Han Fei quickly raised his hand. "Stop it! Don't try to flatter me. Give me a fair price. I'm buying it just because it looks cheaper..."

Yuling was stunned. Do you think I'm stupid?

"You can still choose the tendon of the Red Flame Python or Ice Python if you want! I'll only charge you 200,000 mid-quality pearls." The corner of Han Fei's mouth twitched. "That's too much. The two daggers only cost 400,000 mid-quality pearls. Why is this so expensive?" Xia Xiaochan nodded. "Yes, it's too expensive."

Yuling shook her head with a smile. "This Purple Sand Eel Tendon costs 300,000 mid-quality pearls. Its cold resistance is not as good as the Red Flame Python Tendon, and its heat resistance is not as good as the Ice Python Tendon. However, it is very balanced and far more resilient than those two. 300,000 mid-quality pearls, no bargaining! Of course, if you're willing to sell us your clothes, I can give all three of them to you for free."

Han Fei smiled. "No. But I can trade you something else. Doesn't the Linglong Tower sell everything?" Yuling agreed, "It's OK, if you can give me something of equal value."

Han Fei opened his palm and a Moon-Watching Bead appeared. He got this from the only Moon-watching Eel that they caught in the level-two fishery. Because of its rarity, the Moon-Watching Bead was definitely not cheap.

Yuling was surprised. "Huh? A Moon-Watching Bead? I haven't seen this thing in a long time. However, this is not worth 300,000 mid-quality pearls. I'll offer 50,000 mid-quality pearls for this."

Han Fei took out a Soul Resistance Pearl and said, "What about this?"

Yuling looked at Han Fei in surprise. "Have you been to the Piercing Electricity Zone? It's not easy to get a Soul Resistance Pearl from there. However, it's cheaper than the Moon-Watching Bead. I'll offer 40,000 mid-quality pearls for this."

The next moment, Han Fei took out seven or eight Soul Resistance Pearls. "Enough?" Yuling: "???"

Yuling gaped. Did you rob the Piercing Electricity Zone? Where did you get so many Soul Resistance Pearls?

Xia Xiaochan transmitted a message to him, Don't sell them all! Leave two for Qu Jinnan and Ling Yuan. They may not be able to get one by themselves.

I know. There are still more than a dozen left. Don't worry.

Xia Xiaochan's eyes lit up. Then let's buy something else?

No, We shall leave some for the other three. We two shouldn't take them all.

You've taken your portion, but I haven't taken mine yet, Xia Xiaochan shot back.

Shall we convert them into money? Then you guys can buy whatever you'd like?

Xia Xiaochan thought about it for a while. Forget it. We don't have a Sea Swallowing Seashell. Money takes up too much space. If you make the daggers I want for me, you can keep my portion.

After discussing with Xia Xiaochan, Han Fei gave 8 Soul Resistance Pearls to Yuling.

Yuling asked, What about the Moon-Watching Bead?"

"I only have one Moon-Watching Bead. Maybe it'll be useful to me in the future."

Yuling was speechless. So did you just take it out to show off? If it were at the sea, I would have hacked you to death!

Han Fei put away the Purple Sand Eel Tendon and then asked inadvertently, "Do you have any pills?" Yuling smiled. "Of course, many." "A lot? Do many people buy them?" Han Fei was curious.

Yuling shook her head. "Of the people you see on the street, few people might buy them. But those who go to the level-three fishery will buy many." Han Fei asked, "What kinds of pills do you have? How much are they?" Yuling clapped her hands, and soon the shop assistants brought many plates over.

Yuling gave a charming smile. "The Linglong Tower does not sell low-grade pills. The worst quality ones are Spirit Raising Pills."

Han Fei quickly learned about them and found that the so-called pills were mainly divided into three categories: one was to quickly restore spiritual energy, one was to quickly heal an injury, and the other was to quickly replenish consumed spiritual energy.

Han Fei suddenly lost interest. What the hell are these! They were not as good as his Divine Healing Technique. He didn't need the first two kinds. As for the third kind, he didn't know when he would need them for.

Han Fei frowned. "Are these all you have?"

Yuling wondered, "Aren't these good enough?" Han Fei gesticulated as he talked, "Are there any special kinds of pills? For example, to help one make a breakthrough? To help temper bones? And, to widen the meridians..."

Yuling interjected, "There are, but few of them. A spiritual pill that can temper the body costs at least 10,000 mid-quality pearls. Would you like to buy some?" Yuling thought Han Fei would not use those. After all, most geniuses were reluctant to use pills to improve themselves. Although in theory, the harm to the body was very small, people still didn't want to use them. Besides, these pills were expensive!

Hearing this, Han Fei was stunned. Are you kidding me or do you want to rob me?

Chapter 249 Blue Sea Wandering Dragon Bow

On the way back, Xia Xiaochan asked curiously, "Han Fei, have you ever had a particularly great chance where you learned to refine spiritual weapons?"

"Hush!"

Although it was already tacitly known to everyone, Xia Xiaochan was still very curious. God knows how Han Fei can even refine spiritual weapons!

Han Fei lowered his voice and said, "This is a secret. I haven't told anyone about it."

Xia Xiaochan responded in a low voice, "Tell me. I won't tell anyone."

Han Fei rolled his eyes. "Actually, I have a master, a very powerful kind. I didn't cultivate between the ages of 8 and 12 but concentrated on learning these bizarre things from him. Then he said that he had taught me all his skills and left. Only after that, I started to cultivate."

Xia Xiaochan had heard about Han Fei. It was said that he was only a level-two fisher two months before the Fishing Trial. Then he suddenly became a level-7 fisher in two months!

Han Fei said again, "Don't tell the others."

Xia Xiaochan thought Han Fei's explanation was reasonable. Otherwise, what happened to him couldn't be explained! Xia Xiaochan asked, "Where is your master now?"

Han Fei said solemnly, "When he left, he said that he was going to the Infinite Ocean. I didn't know where it was, so I told him that I would go to the Infinite Ocean to find him when I grew up... I didn't know the Infinite Ocean was so big!"

Xia Xiaochan was confused. "Go to the Infinite Ocean? Who can do that?"

The two talked on this topic all the way to the school. In the end, Han Fei finally dispelled Xia Xiaochan's suspicions. And he thought to himself, I should find a way to learn a little bit about refining. Otherwise, if I have to refine in front of others one day, they will know I'm lying.

Thug Academy.

Han Fei went to see Qu Jinnan, only to find that he looked as if he had just been taken out of the water. However, he had only done three postures until now.

FLOP!

Seeing Han Fei, Qu Jinnan laid directly on the ground, panting. "Br... Brother."

Han Fei put on a serious look. "Huh! Don't seek speed, but seek stability. Keep trying." "Yes, Brother."

Han Fei soon slipped away. He ran into a cave and secretly entered Forge the Universe.

The big dragon head had only been used less than a third, but the spiritual energy consumed was quite a lot. Han Fei threw the dragon head, Purple Sand Eel, and Fire Element Crystal into the Demon Purification Pot.

The level of the spiritual spring in Forge the Universe fell again by a few centimeters. Han Fei estimated that it would be at least 70,000 to 80,000 points of spiritual energy!

Half an hour later, a long yellowish-white bow appeared in front of Han Fei.

A string of data appeared in his eyes.

<Name> Blue Sea Wandering Dragon Bow

<Introduction> Forged from the Blue Sea Wandering Dragon Bone. Its body is extremely cold, and its string can crush souls. When the string is broken, it will turn into purple sand and reassemble as a bowstring.

<Quality> Low-quality Spiritual Weapon

<Sealed Soul>None

<Recastable>

<Unrefined>

In terms of quality, this almost had no difference from the Blue Sea Wandering Dragon Daggers. The main difference was that the bow was larger and consumed more materials than the Blue Sea Wandering Dragon Daggers. Therefore, the consumed spiritual energy was relatively more.

“Huh? When the string breaks, it turns into purple sand and can be recombined? Doesn’t it mean that the string can never be broken?”

Han Fei held the Blue Sea Wandering Dragon Bow and waved it. As he pulled the bow and exerted a great force, the bowstring was drawn into a semi-arc. And as he injected his spiritual energy into the bow, an arrow of spiritual energy appeared.

Han Fei tried many times and found that it would cost 200 points of spiritual energy to make an arrow. Otherwise, the bow had no arrow to shoot.

BAM!

The arrows shot out, making a big pit on the ground. It was really powerful.

Han Fei happily put away the Blue Sea Wandering Dragon Bow and reappeared in the cave. Seeing that the cave was still closed, he came out.

He hummed as he walked. With a snap of his fingers, dozens of the Blue Sea Wandering Dragon Daggers appeared. Then, the number increased one by one, but when the number increased to fifteen, some Blue Sea Wandering Dragon Daggers dropped to the ground. Han Fei tried several times and was disappointed to find that he could only control 12 Blue Sea Wandering Dragon Daggers at the same time.

Han Fei was humming and suddenly saw a vine emerge from the ground.

SWISH!

The vine was cut into seven or eight segments by his daggers in an instant.

“Xiaobai, did you learn to make sneak-attacks from Xia Xiaochan?”

Han Fei looked up and found that Luo Xiaobai and Ling Yuan were hanging on the tree. The trees were bunched up by vines, and Ling Yuan was lying on one of the vines breathlessly. “Gee! What are you doing there? Why don’t you train on the ground? Why do you hang yourselves in the trees?”

Luo Xiaobai said simply, “We’re training.”

Han Fei couldn’t understand their way of training, so he shook his head. “Then go ahead. I’m going back to my tree house to sleep.”

“Okay.”

Han Fei whistled and walked leisurely towards his tree house. The twelve daggers behind him changed into various shapes, sometimes as a shield, sometimes combining as one, and sometimes as a spinning top.

Han Fei found that the Million Knife Art was really useful, but unfortunately, it was extremely difficult to control. His spiritual energy was not poor, but he could only control twelve daggers at the same time.

Ling Yuan wondered, "Sister Xiaobai, is Brother Han Fei... Always so calm?"

"You've only seen him calm, but when he is in combat, even my vines can't resist his attacks." Looking at the receding figure of Han Fei, Ling Kuang couldn't help but feel discouraged. Too strong, even Luo Xiaobai could easily crush her at the same level.

Then what about Han Fei? Could she sustain three minutes under his attacks?

In the tree house, Han Fei immersed himself in meditation, wholeheartedly thinking about the God Scaring Painting. Before he realized it, half a month had passed, during which he did nothing but eat and sleep.

In the half a month, Qu Jinnan's physique had been improved a lot, from that of a level-7 fisher to that of a level-9 peak-level fisher.

Of course, it was still far from his own level, but this didn't prevent his strength from growing rapidly, which was much faster than Ling Yuan.

Of course, Ling Yuan also broke through from a level-9 peak-level fisher to a junior fishing master. In terms of their combined combat power, Ling Yuan was stronger than Qu Jinnan.

About a month later.

Han Fei suddenly opened his eyes. He finally remembered the second piece of the painting. At the moment he successfully remembered it, the scope of his spiritual perception suddenly expanded from 50 meters to reach 100 meters.

Han Fei sat up with a complex look. Isn't this too fast? At this moment, Han Fei felt that his mind had never been so clear. And he suddenly figured out many things that he couldn't understand before.

And his senses seemed to be strengthened. When he looked at a piece of ordinary wood, he could see the slender texture on the wood grain and felt the beauty of nature. He reached out and the Blue Sea Wandering Dragon Daggers floated in the air. To his surprise, this time there were 20 daggers floating in the air. When the daggers surrounded him, he didn't feel dizzy like before. This scene shocked Han Fei. Could the God Scaring Painting improve his spiritual energy so much? Han Fei's breathing became rapid. If he kept meditating on the God Scaring Painting, he would get closer and closer to truly mastering the Million Knife Art. Imagine what it would be like having a million knives surrounding him?

However, after being excited for a while, Han Fei smiled bitterly. It took him a whole month to remember a small piece of the God Scaring Painting, but there were 1,000 pieces of it! Even if he did nothing but meditate on it, it would take him more than 80 years to remember the whole painting! He thought to himself, Forget it. It's already good enough. No hurry! If what he thought was known by others, they would beat him to death in jealousy. His spiritual perception scope increased by 50 meters in a month! Even Bai Congye would be amazed at this speed.

Han Fei got up and went to Qu Jinnan's cave, only to find that Xia Xiaochan was standing here and directing them. "Okay, no need to suppress your strength. Just make a breakthrough!"

Xia Xiaochan glanced back. "Well, he has done all the 108 postures and is going to make a breakthrough."

Han Fei nodded. "Then make the breakthrough."

Xia Xiaochan suddenly said, "Huh? Why do I feel that you've changed a little?" Han Fei smiled. "Did I become more handsome?"

Xia Xiaochan mused, "Yes, in your dreams. Let's go. You cook today. We're going to set off."

"Huh?"

Chapter 250 Set Off For the Fiery Mountain

At dinner.

Han Fei made a table of dishes. The ten of them gathered around the table, talking and laughing.

Xiao Zhan interrupted, "Although Qu Jinnan's physique is still weak, he is very much improved from when he first came in. Not bad!"

Qu Jinnan bowed. "Thank you, Teacher. Thank you, Brother Han Fei. This is the effect of the Incomplete Monograph on 108 Ways of Body Polishing."

"Well! Just thank your Brother Han Fei. This combat skill is his."

Qu Jinnan was surprised. So it was not the school's combat skill?

Qu Jinnan quickly thanked Han Fei. Han Fei curled his lips. "That's enough. Just eat."

Luo Xiaobai looked at Han Fei. "I had planned to have you instruct Ling Yuan. But since you were busy instructing Qu Jinnan, I didn't bother you." "I will later."

Old Bai said leisurely, "Yes. Tomorrow, Xiao Zhan will take you to the sea."

Han Fei and the other students all froze. More than a month after they returned, they were finally going to sea again!

When Xiao Zhan was not in a class, he always smiled. He said with a smile, "Tomorrow, the top 100 students of the four academies will set off for the Fiery Mountain. Get ready! This time, your goal is for the top five."

Le Renkuang muttered, "Isn't it the top ten?"

Wenren Yu threw a Small White Shrimp at Le Renkuang's head. "That's the bare minimum."

Zhang Xuanyu asked, "Why the top five? Is it because we have to win against the other three academies?"

Bai Congye sneered, "No, you'll be competing for a qualification. You just need to know that this is a real life-and-death competition. But don't kill people if possible. Although we are not on good terms with the other three academies, those going to the Fiery Mountain this time all make up the backbone of the younger generation of the Blue Sea Town. Of course, if anyone initiates a fight, just kill them..."

Hearing this, Qu Jinnan and Ling Yuan almost trembled. They didn't know what the Fiery Mountain was. However, did all the elites of the other three academies go there and even fight against each other just to compete for a qualification?

Han Fei asked leisurely, "Are there any rewards?"

Bai Congye sneered, "No! The Fiery Mountain is full of chances. If you want a reward, go get it yourself."

Wenren Yu added, "Don't overestimate yourselves. The top 100 students in the other three academies are all excellent! The ocean is an infinite treasure, and there are countless chances in it. Remember to take what you can take and give up on things that you can't. It is a lesson that countless people have learned with their lives."

Xia Xiaochan asked, "Teacher, how is it compared to the Piercing Electricity Zone and the Deep-Sea Jungle?"

Wenren Yu smiled. "Almost the same!"

Xia Xiaochan breathed a sigh of relief but did not notice that a sly gleam flickered across Wenren Yu's eyes.

Noticing it, Han Fei wondered. Is there a secret there?

The next day.

At dawn, the five of them ate breakfast and left with Xiao Zhan.

At the school gate, Ling Yuan looked at their backs and asked, "Teacher, where is the Fiery Mountain? Is it dangerous?"

Wenren Yu said indifferently, "You are not qualified to know yet. Ask me this question when you become a great fishing master."

Ling Yuan shuddered. Great fishing master? It's still too far away for me...

Qu Jinnan was still waving at the backs of them but Wenren Yu's figure suddenly appeared in front of him. "From today on, the two of you will start to fight each other, and strive to become intermediate fishing masters before they return."

Zhang Xuanyu put his arm around Han Fei's shoulders and said, "Feifei, do you think that the Fiery Mountain will be very hot? Shall we carry the dragon bone so as not to be burnt to death?"

Han Fei sneered, "If you can be burnt to death, most of the people from the other three academies will die!"

Le Renkuang whispered to him, "Do we have enough barbecue?"

Xia Xiaochan was helpless. "Are you stupid? How can you eat it underwater?"

Le Renkuang shrugged. "I'll just take a few bites to satisfy my appetite, OK?"

"Okay, stop it. This time, there will be 305 people entering the Fiery Mountain, including us. The competition for treasures will be fierce."

Walking in front and listening to their conversation, Xiao Zhan laughed in his heart. Seize the time to chat... You won't have any time to chat so happily in the Fiery Mountain!

Perhaps they were early as they didn't encounter anyone from the other three academies, so they went straight to the Fiery Mountain.

Because Han Fei's white fishing boat was very fast, when they reached the Fiery Mountain, there was nobody seen in the vast sea.

Han Fei's eyes lit up. "Huh? No one has arrived yet! I think they may come here in a few hours. How about eating hot pot now?"

Le Renkuang rubbed his hands. "Yes, yes, we can't just wait here doing nothing!"

Xia Xiaochan rolled her eyes. "I have no problem with it but shall we have a change in diet this time? I heard that most rare creatures of the level-two fishery gather in the Fiery Mountain."

Han Fei cast a fishing hook into the sea, and a moment later, as he retracted the fishing hook, a red-shell lobster more than five meters long was dragged out of the water.

The moment the big lobster came out of the water, two shadows of lobster pincers tens of meters long instantly clamped at Han Fei. BAM! BAM!

Han Fei threw out two punches and the pincer shadows were shattered. The big lobster was still twitching on the deck and clasped the deck with its claws. Before it attacked again, however, Le Renkuang stabbed a knife into his head.

Le Renkuang clicked his tongue and said, "Are we going to eat a lobster hot pot this time?"

Han Fei shook his head. "No, let's taste something new this time, Sauced Lobster." After a full hour, while they were eating happily, hundreds of fishing boats descended from the sky. It was the people from the other three academies led by the three presidents personally. They were all dumbfounded when they saw this scene. Are they the people of the Fourth Academy? Only five of them? And they are stuffing their faces at such a time?!... Someone swallowed. "It smells so good." Some people stared at the five of them excitedly. It was said that the Thug Academy was full of geniuses. They couldn't wait to challenge these geniuses! On a fishing boat, a boy in white solemnly said, "Be careful. Run when you encounter this group of people if there are fewer than ten of you."

"Hey, Su Yebai, when did you become so timid?"

Su Yebai was the one who fought them in the Blue Sea Arena. Although he was a manipulator, he was ranked eighth in the top 100 of the other three academies in the Blue Sea Town.

Su Yebai sneered, "You can try challenging them."

Because he had fought them, Su Yebai knew the strength of these people. Back then, they were only junior great fishing masters. But what about now? Now none of them seemed to be weaker than him.

"Xiao Zhan, why didn't old Bai come?"

Xu Tianji, President of the Second Academy, snorted. He didn't get along with Old Bai. Seeing that the Fourth Academy had only sent Xiao Zhan over, he didn't take them seriously.

Xiao Zhan looked at him with a smile. "I don't think it's necessary to bother our president for such a trivial matter..."

Wu Junwei scoffed. "Humph! Who do you think you are? Xiao Zhan, do you think you are qualified to sit on par with us?"

Xiao Zhan grabbed at the air and a spiritual energy spear appeared in his hand.

Swoosh!

He threw a spear at the sea and wherever the spear touched, waves burst forward leaving a long ravine on the sea's surface. The spear was surrounded by surging waves. Wu Junwei frowned, pulled out a long sword from behind, and waved it hard in an instant. The momentum seemed no less powerful than that of Xiao Zhan's spear.

BAM!

A semi-circular pit about tens of meters in diameter suddenly appeared on the sea surface. The spear disappeared and Wu Junwei's long sword was also shattered.

All students were dumbfounded at this scene. They all gasped. That's too strong! They didn't think they could resist such a powerful attack!

Wu Junwei's face was all dark but he was horrified. Has Xiao Zhan already become so strong? Xiao Zhan still smiled. "So? Am I qualified enough?"

And Han Fei and the other four had almost finished their meal by now. This big lobster had been eaten by half. Zhang Xuanyu shuddered. "How can we block that blow?"

Xia Xiaochan responded, "Only fools will try to block it. I'll just avoid it."

Luo Xiaobai shrugged. "Death Replacement Art."

Le Renkuang added, "All my shields added up should be able to block it!"

Zhang Xuanyu agreed. "Huh? I think I'd dodge it too. I have a Golden Water Silkworm, which is super fast."

Han Fei nodded. "Yes, it's better to dodge it than block it."

Xiao Zhan had convincingly proved his strength. Then he threw a flame-shaped token to each of them.

Xiao Zhan explained, "This is the Fiery Mountain Token. Try to grab as many of these tokens as possible. The more, the better."
