

## Chapter 251 Triops

Han Fei played with the Fiery Mountain Token in his hand, squeezed it hard, and found that this object was as strong as black iron, and its hardness far exceeded that of ordinary weapons.

Han Fei asked, "Teacher, is this a magic weapon?"

Xiao Zhan replied, "No, but it can be used as a key. You can know the specifics when you go down. Remember, there are many opportunities in the Fiery Mountain. Don't try to obtain all opportunities, that would be impossible. Each time the Fiery Mountain opens, it remains open for seven days at most. Take advantage of the time. If you fail to come out after seven days, you will have to wait for three years."

"Huh?"

Luo Xiaobai was surprised. "The Fiery Mountain is a sealed secret realm?"

Xiao Zhan nodded. "Yes! In history, no one has ever come out of the Fiery Mountain when it reopens. That suggests if you don't get out in the seven day period, you will die once it closes."

The five of them were shocked. Seven days, only seven days?

Le Renkuang asked, "Teacher, what if someone waits for us at the exit?"

"Don't worry. There are multiple exits for the Fiery Mountain, all suspended in the air. They can block one or two, but they cannot block five or six."

Le Renkuang patted his chest quickly and let out a breath. "OK, I thought there was only one exit!"

At this time, Chu Mengxue, the president of the Third Academy, said, "We have no time to lose. It doesn't matter who is the team leader of the Fourth Academy. Since we've all arrived, let's start!" Wu Junwei nodded. "OK." Xu Tianji agreed, "Anytime." Xiao Zhan repeated, "Anytime."

Then, Xiao Zhan said to the five of them, "This is the first time you have faced a life-risking task since you came to the academy. No one will escort you this time. Come out alive..."

They nodded. They still had a long way to go. If they couldn't even pass this test, how was it possible for them to sweep across the 36 towns in the future?

At the next moment, the deans of the three academies and Xiao Zhan stepped on the sea surface almost simultaneously, each holding a red token. However, unlike the Fiery Mountain Tokens, there was a flickering shadow on the token, which was a complicated magic circle.

As four magic circles were superimposed, in an instant, the waves surged and a giant water gate 100 meters high rose from the water! In the middle of the gate, a vortex slowly condensed.

All the students were watching this scene. However, Luo Xiaobai sent a message to the other four. Attention, let's take the lead to go in. Ambush them and grab a batch of Fiery Mountain Tokens immediately.

Everyone: “???”

Everyone was stunned. This is Luo Xiaobai? When does this girl suddenly become so insidious? Does she have some sort of tactic? Luo Xiaobai seemed to know what they were thinking. Our purpose is not only to find opportunities. If we snatch a batch of Fiery Mountain Tokens first, we'll have the most Fiery Mountain Tokens, and then there will be many people trying to grab these tokens from us. Then a steady stream of Fiery Mountain Tokens will come to us and we don't have to look for them.

Zhang Xuanyu grinned. I really sympathize with those people! They won't be able to escape our trap. Xia Xiaochan echoed, I think Xiaobai's idea is very good. If there is an easier way, why not take it?

Han Fei nodded. I have no problem with it.

Le Renkuang agreed, Me neither! Let's just do

it!

After a while, the vortex was formed, and a black vortex about 20 meters in radius appeared in a huge wave of 100 meters high.

Luo Xiaobai shouted, “Let's go!”

Almost instantaneously, a vine wrapped around their waists and threw them directly at the vortex.

The other students also moved very quickly. Some people dashed out, some walked through the air, some shot an arrow with their bow, some made a bridge with spiritual plants, some controlled water to make ladders, and some followed Luo Xiaobai's method...

For a time, various kinds of combat skills were applied. The vortex hung forty or fifty meters high in the air. You couldn't even get in if you were not strong enough, let alone snatching opportunities in the secret realm.

In mid-air, Han Fei and the other four had reached the edge of the vortex. There were at least nearly 20 people with them.

Le Renkuang suddenly shouted loudly, “Thousand Blade Slash!”

In a flash, a thousand blades flew around, causing a great deal of scolding from behind.

“Asshole, these lunatics from the Thug Academy! It hasn't started yet!”

“Fuck, let's beat the hell out of them after getting in!”

Someone shouted, “After entering, gang up on the bastards from the Thug Academy.”

At the moment, Han Fei stepped on the vortex and felt a huge suction force. He quickly gathered spiritual energy on the other foot to free himself from the vortex, and at the same time, pulled Luo Xiaobai up with his hand.

At that moment, at least seven or eight arrows shot at him from all directions. Since your guys from the Thug Academy are in our way, don't blame us for being rude. To their surprise, however, dozens of long knives suddenly appeared in the air and swirled around Luo Xiaobai, shattering all the arrows.

All this just happened in a flash.

The five of them had stood together, and in the blink of an eye, Le Renkuang withdrew the knives, so did Han Fei. Letting the vortex swallow them, the five of them immediately disappeared.

“Damn it.”

Outside the door, there were still people cursing, but they didn’t fight each other any longer because the five of them had gotten in ahead of them. Of course, their speed was only about one or two minutes slower than Han Fei and the other four.

Han Fei felt that his body was spinning uncontrollably as if entering a maelstrom.

When his body no longer spun, Han Fei wanted to send a message to the others. But when he looked back, he saw no one!

“Fuck... Aren’t we going to ambush the others? Where are the four of them?”

Han Fei realized that something was wrong. Luo Xiaobai thought too simply. She thought that after crossing the vortex, the five of them would still be together, but the result was obviously not like this. Their locations in the secret realm of the Fiery Mountain were random.

The reason for this confirmation was that not only did Han Fei not see Luo Xiaobai and the others, but there was also no vortex behind him. The area where he was now was very quiet.

Confirming that the ambush failed, Han Fei couldn’t help but give a wry smile. Their plan was too naive.

He looked around and found it was a mountainous area, and the mountain rocks and the ground were covered with old, dried coral. On the ground were pieces of shells. Fish schools swam past a hundred meters above his head, tens of meters around there was seaweed floating, and there were a few Iron-Headed Fish wandering around. It wasn’t clear in the distance, but there seemed to be high mountains.

To Han Fei’s surprise, the water temperature here was 20 to 30 degrees celsius. This made Han Fei somewhat confused. There is no sunshine here. Is it because of the underground volcano?

No!

Han Fei found that he could see everything in this space very clearly. How could he see them so clearly without a light source here?

Suddenly, he saw two Iron-Headed Fish ramming at him.

“Are you stupid? I’ve just gotten here and you are already attacking me? Shit...”

Little Black and Little White appeared. Little Black rushed out in the blink of an eye, and Han Fei also held two long knives in hand. At the moment when the Iron-Headed Fish rammed over, he dodged and thrust a knife into the fish’s head. With a slash, the fish was cut in half.

After killing the two fish, Han Fei jumped onto the pile of rocks and saw that there were creatures moving under the soil.

When the underwater creature broke through the soil, Han Fei widened his eyes as he saw its round head and scissor-like tail.

“A horseshoe crab?”

Han Fei was speechless. This thing was known in history for millions of years. And the horseshoe crab that he saw now was very large, about two or three meters long. If there were horseshoe crabs here, would there also be trilobites? Both of them were common ancient fossils...Of course, the data in front of Han Fei’s eyes was different. It showed:

<Name> Triops

<Introduction> A creature that has survived the endless years with a hard carapace, strong vitality, and super adaptability. They like sand, will only prey when needed, and are very loyal to their spouses. Their third eyes can break through ordinary illusions. <Level> 30

<Quality> Rare

<Contained Spiritual Energy> 2,432 Points

<Edible effect> Inedible

<Collectable> White-Eyed Stone

<Absorbable>

### **Chapter 252 Phantom Fish Tide**

Then, more and more sand moved and many horseshoe crabs popped out. Different from the first one, most of the horseshoe crabs that appeared later were large horseshoe crabs with a small one on their backs.

As far as Han Fei knew, the big one was the male and the smaller one was female. This was why it was said that horseshoe crabs were very loyal to their spouses. Once the male and female horseshoe crabs formed a couple, they would be inseparable. However, Han Fei was a bit scared of this kind of creature because they looked a bit scary. Of course, they were actually edible, either braised or fried. But eating too much didn’t seem to be good for the human body. After all, they were toxic.

However, Han Fei looked at the horseshoe crabs several meters long and had no appetite at all. Shit, they looked so scary. I certainly won’t eat them!

While Han Fei was observing these horseshoe crabs, the sea suddenly fluctuated 100 meters away, and a boy suddenly appeared in the air.

At this time, a mass of bubbles suddenly appeared next to Han Fei. Han Fei was stunned. Huh? I didn’t make these bubbles!

The boy who had just landed on the seabed was taken back by the bubbles. But when he looked at this side, another mass of bubbles appeared on the other side. “Huh?”

Han Fei was also surprised. Did these bubbles come from the sand? When Han Fei looked back, he saw a disc-like plant behind him, covered with dense small bubbles.

<Name> Bubble Algae

<Introduction>The unique algae in the Fiery Mountain, can filter the air from the seawater.

<Level> 7

<Quality> Regular

<Contained Spiritual Energy> 82 Points

<Edible effect> None

<Collectable> Air

<Absorbable>

Han Fei blinked his eyes. So the algae here could provide oxygen! No wonder no one was worried about breathing when they came in... It was because there were a sufficient supply of Bubble Algae here...

re a

While Han Fei was thinking, a Bubble Algae in the open space not far away spat out a mass of air.

The boy who was 100 meters away was also relieved. But when he saw the horseshoe crabs on the ground gnawing the Iron-Headed Fish, he suddenly looked tense. Without thinking, he abruptly pulled out the sword behind him.

However, Han Fei certainly wouldn't give him a chance to escape! Since you didn't run away just now, you wouldn't have a second chance to escape.

Feeling his feet entangled by a fishing line, the boy immediately brandished his sword. However, as soon as the sword hacked out, the fishing line dodged it as if it had eyes.

The boy's face changed and he immediately gathered all his spiritual energy. But by this time, several Blue Sea Wandering Dragon Daggers had shot into his hilt.

Hum!

The boy immediately fused with his spiritual beast, which was a green snake. Han Fei felt that the fishing line suddenly became loose and the boy broke free from it.

Seeing someone swimming at him, he understood what happened and his giant tail swept over.

Han Fei narrowed his eyes slightly. Green Snake Eel? Sure enough, none of the top 100 students were simple. This boy managed to break away from his fishing line just in a few minutes.

BAM...

Dozens of Blue Sea Wandering Dragon Daggers instantly shot out, and the green snake tail was shredded. The boy frowned. At the moment the snake tail was shattered, he wrapped the long sword in his hand with a huge amount of spiritual energy and pounced at Han Fei.

"Hey!" Clang! The boy vomited a mouthful of blood. When fighting head-on, even Zhang Xuanyu and Le Renkuang were no match for Han Fei, not to mention him!

“Hand over your Fiery Mountain Token and I’ll spare your life.”

Han Fei stood quietly in front of the boy and reached out a hand.

“Are you Han Fei from the Fourth Academy?”

There were too few people in the Fourth Academy. So Han Fei was easily recognized! The boy smiled sullenly, throwing out his Fiery Mountain Token and swam away quickly.

Han Fei curled his lips. I’m not going to kill you. Why did you run away so fast?

Han Fei threw the Fiery Mountain Token into his Forge the Universe and swam to the hazy mountain without haste. He was thinking, since this mountain was so conspicuous, there must be some chances there!

He had only been swimming for less than 10,000 meters when he suddenly dodged in a strange posture. What swam past his body was a silvery light.

“Huh? Not a person?”

Han Fei’s face changes slightly. A stealth fish? He was standing still and sensing the nearby water. Immediately, he found two ambiguous shadows swimming around him.

Little Black instantly shot out. Stealth might work for others, but not for Little Black. He bit something accurately and a cloud of blood mist suddenly burst out in the water.

When one of them swam to Han Fei, Han Fei waved the knife in his hand and cut through the stealth fish. However, the fish was still running.

“You want to run away? No way!”

He took out his fishing rod, and the fishing hook shot out like a stream of water and tied up the stealth fish in a blink of an eye.

Han Fei inserted a knife into the head of the stealth fish, and then the fish showed its true body. It was a fish with jelly-like flesh and white-colored scales.

<Name> Phantom Fish

<Introduction> It can turn its scales into water armor and sneak on its prey. At the moment of attack, its scale armor spreads out and turns into a sharp blade, which can shred weapons below the mystic level. This fish brain contains a phantom bead, which can strengthen the soul when swallowed.

<Level> 27

<Quality> Rare

<Contained Spiritual Energy> 633 Points

<Edible Effect> None

<Collectable> Phantom Bead

<Absorbable>

Han Fei cut open the fish head and a nail-sized transparent bead appeared, which he swallowed without hesitation. The bead tasted refreshing and turned into a cool air in his stomach, which went straight to the top of his head.

“Um, not bad.”

In the distance, Little Black had killed two more Phantom Fish. Han Fei casually absorbed the spiritual energy of the Phantom Fish and ate the Phantom Beads. After eating five Phantom Beads in a row, Han Fei suddenly found that his spiritual perception range seemed to increase by about half a meter.

At that moment, Han Fei was shocked. He locked himself up in the tree house for a month to meditate on the God Scaring Painting and only got a 50-meter increase in the range of spiritual perception. However, these few Phantom Fish alone could provide such a large increase in his spiritual perception range. It meant that with only a thousand Phantom Fish, his spiritual perception range could increase by one hundred meters!

“Great, this place is amazing.”

War

Han Fei slowly swam along the way, hunting Phantom Fish by the way. Just less than thirty minutes later, his spiritual perception range had increased by 10 meters. He was overjoyed at this result.

Perhaps because he hunted too many Phantom Fish, half an hour later, Han Fei felt the water in front of him was shaking and he saw the sea surging.

“What the f\*ck...”

Han Fei felt a large swarm of Phantom Fish. Their speed was not slow. Before Han Fei realized what happened, these fishes were already less than 100 meters away from him.

“Attach.”

This was Nine Tails’ first fight since he got his full nine tails. The nine chains swung at the fishes with a swoosh. Around Han Fei twenty Blue Sea Wandering Dragon Daggers were spinning like a drill. BAM! BAM! BAM!

However, only one minute later, Han Fei’s Million Knife Art was crushed.

Two minutes later, the nine-star chains tied the huge school of fish up but it became more and more difficult for it to swing.

Three minutes later, Han Fei’s spiritual energy protective cover was shattered.

At this moment, Han Fei felt like he was back at one of the gates of the Hexagon Starfish where he was impacted by countless bonefish. Clang! Clang! Clang! Han Fei was sent flying. There were too many Phantom Fish, and in the blink of an eye, dozens of knives hacked at his body. After a while, Han Fei was covered by countless blade slashes.

“Fuck...”

Han Fei struggled hard out of the school of fish, his clothes were ragged and his body was covered with scratches. Before he ran away, he caught dozens of Phantom Fish with the nine chains and stuffed them into Forge the Universe.

Han Fei initiated the Wandering Dragon Art and began to run at full speed. Damn, he couldn't be killed here! Just now, he was slashed at least a thousand times. Even the Million Knife Art and Nine-Star Chain couldn't block these fish!

Han Fei was just a piece of cake to the dense school of Phantom Fish unless he did have 10,000 knives. At the moment, there were dozens of bleeding holes on Han Fei's body. Although they didn't bleed much, his defense had been shattered. This was very dangerous! Ten wounds might be nothing, but what about a hundred or a thousand?

As he ran, he waved the nine-star chain, which was like a long sword and could pierce five or six Phantom Fish in one go.

But Han Fei also discovered that the Phantom Fish were chasing behind him closely. Was it because the Phantom Fish were too fast or was he too slow?

Huh? Did the Wandering Dragon Art fail?

### **Chapter 253 A Quick Method of Boosting Spiritual Perception**

Han Fei found that the Wandering Dragon Art was not fast enough now.

In fact, it was not the first time that Han Fei discovered that the Wandering Dragon Art was not fast enough. When he was exploring the ordinary fishery and the level-one fishery, this speed was fast but now it was not enough.

Han Fei had felt it when he was catching exotic creatures with the other four at the level-two fishery. None of them were slower than him, even if he had used the Wandering Dragon Art.

But that was reasonable. The Wandering Dragon Art was just a mortal-level divine-quality combat skill that only cost 1,000 points of spiritual energy. But now he was already an advanced great fishing master, so this art was not good enough for him now.

However, now being chased by the Phantom Fish, Han Fei discovered that no matter how hard he tried, he just could not get rid of these Phantom Fish.

"Shall I use Little Gold?"

Han Fei frowned. He didn't want to expose Little Gold now. What if he was seen by others?

However, Han Fei did not panic. Although he failed to get rid of these Phantom Fish with the Wandering Dragon Art, he still kept a distance of seven or eight meters from these fishes. Even if a few Phantom Fish rushed up occasionally, they were easily handled by Little Black.

Thus, a strange scene appeared in the secret realm of the Fiery Mountain: a person was swimming at full speed, with nothing behind him but surging waters.

Half an hour later, Han Fei saw a strange boy fighting several horseshoe crabs with difficulty. Horseshoe crabs were 30-level creatures. He could hardly deal with several of them at the same time.

The boy was startled when he saw Han Fei swimming crazily at him. Is this guy coming at me?

“Huh! Han Fei?”

The boy was helpless. F\*ck, did I ever offend you? I’m just killing these triops. Why are you coming at me? The boy stopped fighting and was about to slip away.

Han Fei smiled. Do you think you can slip away? Do you think I’m as weak as you?

Han Fei immediately said, “Hey, give me your Fiery Mountain Token, and I will let you go.” The boy responded, “Han Fei, don’t go too far. I didn’t provoke you. You’d better not push me too hard.”

“Huh? So you wanna fight me? Fine, come on...”

The boy immediately panicked. No, you took that the wrong way! That’s just my parting shot! I don’t want to fight you!

Although Han Fei’s speed was not so fast, he was still faster than the boy. Although the Wandering Dragon Art was only a mortal-level combat skill, it was still a divine-quality one!

Seeing Han Fei getting closer and closer to him, the boy turned around and shot an arrow at his face.

BAM!

Han Fei smashed the spiritual energy arrows with one punch and said, “Great, now it’s my turn!”

“Huh?”

The boy in front looked back and immediately turned green when he saw Han Fei swimming while pulling a bow.

Swish!

The boy almost burst into tears. He shot three arrows in a row but failed to block the arrow of Han Fei. Huh! What?!... All my arrows were shattered?!

The boy was stunned. So was the spiritual energy of the three arrows all wasted? Han Fei put away the bow. Just now, when he pulled the bow, dozens of Phantom Fish hacked him, leaving many wounds on his body that had just recovered.

The boy asked, “Han Fei, what do you want? It’s just a waste of time for you to keep chasing me.”

“Give me your Fiery Mountain Token. Otherwise, I will chase you to death, and I will be able to catch you in at most half an hour. Think about it...”

The boy was helpless. Gosh, I’m really unlucky! I’ve just come in and I’ve already come across this bastard who was ranked at least among the top 50?

With a swish, a red token was thrown out and the boy shouted, “Here you are. Now let me go!”

Han Fei smiled. "Sure, Brother. Since you are so generous, I will certainly not give you a hard time... See ya!"

Leading the school of fish, Han Fei made a turn and ran in another direction. Before they came here, Xiao Zhan said that although there were dangers here, they'd better not kill people randomly. Han Fei didn't want to kill either. These students were all elite fishers of the Blue Sea Town and he bore no grudge against them, so he didn't have to kill.

If he led the Phantom Fish tide straight ahead, the boy in front would definitely be killed. Even he could hardly block these fishes, not to mention him!

Behind Han Fei, the nine-star chain was still dancing wildly, and there were already more than hundreds of Phantom Fish that were killed by the nine-star chain and Little Black.

"Phantom Fish brothers, can't you give me a break? You've been chasing me for quite a while! Don't be so stubborn, OK?"

Han Fei was helpless. Are these Phantom Fish fools? I just killed hundreds of your brothers? Do you have to chase me down?

Han Fei discovered as he was escaping from the Phantom Fishes that the secret realm of the Fiery Mountain was very large, at least spanning a thousand miles. Along the way, he only met three people in total although he had already swum at least 200 miles.

"Huh! Aren't those... Piercing Electricity Jellyfish?"

Han Fei was overjoyed as he saw a large swarm of Piercing Electricity Jellyfish that were discharging power at each other for fun.

Along the way, the schools of fish that Han Fei encountered all ran away, but these Piercing Electricity Jellyfish were too slow to run away!

Without hesitation, Han Fei immediately put away Little Black, Little White, and Nine Tails, and rushed over. He didn't mind getting electric shocks!

After a moment.

BUZZ, BUZZ, BUZZ...

Han Fei swore as he was caught in their electric field, "#¥%"

Han Fei was covered with Piercing Electricity Jellyfish, which almost turned him into a humanoid generator. Being electrified, Han Fei almost passed out and his body was shaking

While Han Fei was idly wondering if he could lose some weight after getting electric shocks, this group of Phantom Fish had shown their real forms and floated up, with their bellies facing up, after being electrified by the jellyfish.

Now Han Fei could finally see the Phantom Fish clearly after they were electrified until they fainted. Although they still looked like water, their body's shape was shown.

Han Fei twitched, trying to rush towards the Phantom Fish. The dead Phantom Fish were taken into Forge the Universe one after another. After collecting at least a thousand Phantom Fish, Han Fei covered his body with a spiritual energy protective cover and then punched out.

BAM...

A large swarm of Piercing Electricity Jellyfish were shattered by Han Fei, who ran quickly. The remaining jellyfish chased him behind, but the slow speed was their natural disadvantage. In a blink of an eye, Han Fei ran away.

In Forge the Universe.

Han Fei cut fish heads and threw one Phantom Bead after another into his mouth. He was very excited. He had been here only less than two hours but the range of his spiritual perception went up a lot.

Han Fei didn't know how many Phantom Beads he had swallowed. When his spiritual perception range reached 200 meters, it could no longer grow, and the Phantom Beads lost their effect. The point was, he still had more than 300 Phantom Beads at the moment.

"Um, that's enough! My two hours here was worth two months of meditation! Terrific!" Han Fei suddenly appeared on a stone. He looked around and nothing happened. Above his head, some Iron-Headed Fish and squids swam past occasionally. These ordinary creatures were not valuable, and Han Fei didn't pay any attention to them.

Han Fei quietly swam in the water like a big fish. He wondered, Is there a combat skill that can turn a human into a fish? If there is, it'd be very convenient in the sea. As long as you are strong enough, you can go anywhere.

Twenty minutes later.

Han Fei was still heading towards the mountain. But mid-way, he found a gap between two big stones. Han Fei wouldn't have paid attention to this, but he saw that there was a remnant body of a sea python near the entrance of the cave, which seemed to have been dead for a long time and had almost been eaten up by horseshoe crabs.

"Huh! Is there someone in the cave?"

Han Fei immediately took out a piece of black fish skin and covered his face. Then he put away the knives, took out a stick, and slipped in silently.

Walking less than 100 meters, Han Fei saw a large number of rare Sapphire Crab bodies. These Sapphire Crabs were quite big, some were smashed, some were pierced by swords, and some were pierced by arrows.

Han Fei immediately frowned. There must be more than one person here...

### **Chapter 254 I've Got the Treasure Map!**

Sweeping past the piles of crab shells and swimming less than 1,000 meters, Han Fei heard the sound of fighting.

Han Fei's eyes lit up, and he continued to swim forward. After a while, he saw a large lava cave, in which quartz crystals covered the rock walls.

Han Fei hid on the side and peeped in, only to see two girls and a boy were rounding up a big lobster.

To his surprise, the two large pincers of this lobster were separate from the red lobster's body and suspended on both sides of its body. Beside it, the pincers were spinning like gyros.

Han Fei narrowed his eyes, and the data appeared.

<Name> Iron-Armed Lobster

<Introduction>Its flexible iron arms can attack like catapults. It is good at drilling through the ground in combat and its pincers are extremely flexible, and its double pincers can be used to make magic weapons.

<Level>33

<Quality> Exotic

<Contained Spiritual energy> 2,192 Points

<Edible Effect> It can strengthen your own Qi and blood and enhance physical fitness.

<Collectable> Lobster Pincers

<Absorbable>

Han Fei frowned. An exotic creature of level 33! This lobster could rank among the top ten in strength among the large animals he had seen so far.

Han Fei did not know the three teenagers. Among them, a boy used a bow. The other two teenagers respectively used a spear and a knife. At this moment, the three were fighting intensely with the Iron-Armed Lobster; however, all their attacks were blocked by the lobster's pincers and sparks flashed from time to time.

Han Fei glanced at them, then looked into the cave and found a small tree growing in the middle of the cave. The small tree was perfectly straight and silver-white, and there was a silver fruit on the top of it.

<Name> Snow Silver Bamboo

<Introduction> The treasure bamboo bred from the silver crystal mine, can be refined into an ultra-quality magical weapon. The bamboo bears a silver fruit. Eating it can strengthen your muscles and bones.

<Level> 30

<Quality> Ultra-quality Treasure Bamboo

<Contains Spiritual energy> 36,589

<Collectable> Snow Silver Fruit

<Absorbable>

Seeing this Snow Silver Bamboo, Han Fei almost drooled. It was not difficult to meet bamboo trees in the sea. For example, there were many in the Deep-Sea Jungle.

However, it was very difficult to find a good quality bamboo tree! Especially this kind of bamboo that could bear fruit. For example, the Purple Bamboo Tree he met before, it was very rare in the ordinary fishery.

Han Fei glanced at the Snow Silver Bamboo and then at the Iron-Armed Lobster. I want both of them! No, not just the two of them, I also want the Fiery Mountain Tokens of these three people.

Han Fei was not in a hurry, so he hid on the side and thought, Keep fighting. When you're done, it'll be time for me to show up. Haha!

Half an hour later.

Han Fei saw the bow-bearing girl roar, spitting a mouthful of blood on the spiritual-energy arrow as she shot out the arrow. The arrow made a sharp turn in the air, shooting at the lobster from below.

"Hiss..."

The Iron-Armed Lobster was furious and threw out a large pincer at the girl as if trying to smash her.

However, the spear-bearing boy suddenly attacked the lobster almost with all his strength. BAM!

The pincer flew out and broke many quartz crystal columns. The boy using a knife took the opportunity to drill into the abdomen of the Iron-Armed Lobster, wrapped his knife with thick spiritual energy as he inserted it into the lobster's body with a jerk, leaving a long cut several meters long.

Han Fei was a bit surprised. The three teenagers, cooperating well, had almost killed this lobster. Although it took a bit too long, he had to say their performance was not bad. No wonder they could enter the top 100 list.

But would Han Fei sit by and watch this lobster die? Certainly not. It would only end up in the Demon Purification Pot!

Swish...

When the three teenagers were going to kill this lobster, a spiritual-energy arrow suddenly appeared, taking them back.

"Be careful! Someone is here..."

The three warned each other. At the moment Han Fei shot the spiritual-energy arrow, the three of them quickly stood together. Although they had consumed more than half of their spiritual energy, they were not panicked.

BAM!

Crack!

The Iron-Armed Lobster was shot in the forehead, and its carapace cracked. Hearing the cracking sound, the three teenagers were shocked. They had been fighting this lobster for so long but it wasn't injured at

all. However, this person cracked its carapace with a single arrow, which meant that this guy was very strong.

Han Fei leisurely showed up, and seeing another pincer fly at him, he immediately brandished the Water Stirring Seal, directly hitting the pincer flying.

Han Fei ran to the lobster and kept hitting its head until the lobster's head was full of cracks and it fainted.

Then Han Fei looked at these three teenagers with a smile. Fortunately, they had almost exhausted this big lobster. Otherwise, it would take him a lot of effort to collect it. However, the girl transmitted a message to him, "You're shameless! This lobster is our prey!"

Han Fei simply said, "I don't care. Anyway, it is mine now. Hand over your Fiery Mountain Tokens, and then you can go!"

However, he got no response.

Han Fei walked to them step by step. "We're classmates. I don't want to be rude to you!"

The trio's faces changed slightly. Classmates? Is this guy from the same school as us?

However, when Han Fei was about to ask them for Fiery Mountain Tokens, the three of them suddenly attacked him. The spear-bearing boy thrust his spear at him and a big blue fish suddenly appeared and rammed straight at Han Fei's face.

BAM... Thud!

Han Fei raised his hand and sent both the big fish and the spear flying.

Then three arrows swished at him and exploded in front of him, setting off huge waves. Even if Han Fei had been prepared, he was jolted back a few steps.

A cold glint flashed in the water and two knives appeared in Han Fei's hands.

Clang, Clang, Clang... In the blink of an eye, he and the knife-bearing boy had hacked each other dozens of times, and the latter was sent flying through the air and his hands had been frozen.

At this time, a fishing hook went across Han Fei's cheek, tearing apart the fish skin mask on Han Fei's face.

"Huh? Not bad!"

Han Fei smiled and the other three stared at his face.

"Now that you've seen my face, then... Hand over your Fiery Mountain Tokens, before I become angry!"

All the three were speechless. Classmates? Isn't this guy Han Fei of the Fourth Academy? There are only five students in their academy. Why are we so 'lucky' to meet one of them?!

Seeing that the girl still wanted to use her bow, Han Fei immediately put a Blue Sea Wandering Dragon Dagger against her neck. "Girl, you'd better surrender."

The spear-bearing boy voiced, "Give the Fiery Mountain Token to him. We're running out of spiritual energy, and we won't be his match."

Swish, Swish, Swish!

Three Fiery Mountain Tokens were thrown out.

Han Fei happily caught them and threw them into Forge the Universe. Now he already had 7 Fiery Mountain Tokens!

"Um! Good... Now you can go!"

The three of them didn't dare say anything. If Han Fei was pissed and attacked them, they would be in danger. So they just gnashed their teeth and left.

Han Fei smiled and the Demon Purification Pot flashed. "Collect the demon."

After collecting the Iron-Armed Lobster, Han Fei walked to the Snow Silver Bamboo, picked the Snow Silver Fruit, and pulled out the bamboo. When he was about to enter Forge the Universe, he suddenly saw some thick crystals on the ceiling of the cave. Han Fei blinked and frowned. "Huh? Why does this place look familiar?"

After a moment. "What the f\*ck..."

Han Fei's face changed and took out a small box from Forge the Universe, which he took from Master Turtle.

Han Fei quickly unfolded the map in the box. When they got the map, none of them knew where it was. Now unfolding it, Han Fei found a large stone pillar in the southeast corner of this fish-skin map.

"Damn! The treasure map of the Fiery Mountain?"

At this moment, Han Fei was overjoyed. It was just like pennies from heaven. He had a treasure map of the secret realm of the Fiery Mountain! This was just wonderful!

In Forge the Universe.

"Haha! I've got the treasure map! Treasures, here I come!"

### **Chapter 255 Underwater Devil**

All spiritual fruit contained spiritual energy. This Snow Silver Fruit only contained 30,000 points of spiritual energy, which wasn't even enough for Han Fei to refine a spiritual weapon, although it was enough to refine a magical weapon.

In Forge the Universe.

Han Fei swallowed the Snow Silver Fruit. It tasted cool and a bit sweet, not even as delicious as strawberries. However, immediately he felt a tingling sensation in his bones. Looking inside, he found his bones flickered with dots of silver light.

"Huh! My bones are shining?"

After a while, Han Fei discovered that silver light was fading away as the effect of the Snow Silver Fruit disappeared, but his bones had become a little different: they emitted silver light.

Han Fei got up and felt his body for a while, finding that his strength had risen by nearly 50% from its original state.

“Wow! This piece of fruit worked really well!”

Han Fei was shocked. Increasing his strength by 50% meant increasing several hundred pounds of force.

LL

ve

Besides, Han Fei felt that his bones had also become stronger. The Snow Silver Fruit did more than just increase strength. As for his spiritual energy, it might just be incidental.

“Hey!”

Han Fei threw the rod into the Demon Purification Pot to refine it while looking at the map. Although there were no marks on the map, there were no less than 20 places drawn on it. Among them, there were as many as 6 mountains, and the place where he was now was actually not very conspicuous as it was just a very small dot on the map.

Han Fei calculated the ratio. 200 miles southeast from here, there were three doorways. Needless to say, it must be one of the treasures. A few minutes later, a silver long rod appeared. Because Han Fei didn't consider the shape and texture of the rod at all, this silver rod looked very ordinary except for its good material.

<Name> Snow Silver Rod

<Introduction>It is made of Snow Silver Bamboo. The rod is extremely heavy and hard. The disadvantage is that it is not ductile enough and can't be bent.

<Quality> High-Quality Magic Weapon

<Sealed Spirit> None

<Recastable>

<Unrefined>

Note: Due to limited forging materials, it can be cast into a high-quality magic weapon at most.

Han Fei tried the stick and smiled. This kind of stick weighing about a thousand pounds was the best. After he dripped blood into the rod and made it his own, it wouldn't be heavy even if he carried it. That damn rod in Forge the Universe was too heavy for him.

After a while, Han Fei carried the Snow Silver Rod and happily walked towards the three gates in the southeast. His main task here was not only to find opportunities, but also to get as many Fiery Mountain Tokens as possible. But he had to find people first! So, what was the easiest way to find people? Of course, the places with treasures.

Without any hesitation, Han Fei swam to the three gates at full speed. On the way, he found some bubble algae and took a few breaths of air, which was sweet.

On the way, Han Fei met two people, but both of them were advanced great fishing masters. Han Fei chased them for a while but failed to catch up, so he gave up and decided to replace the Wandering Dragon Art, which was too slow.

When Han Fei arrived, he narrowed his eyes slightly. This three-gate place was a little too conspicuous!

Different from the stone gap just now, the three-gate place was actually a small trench, which was not more than 100 meters deep and not more than one mile wide. In the middle of this small trench, three large holes were visible to the naked eye, which could be easily found by any passer-by.

There were traces of fighting at the entrance of the cave, and there were many big pits nearby. Han Fei hesitated, but still dove in. Whatever was in the hole, he would enter it first.

“Little White, which hole shall I go in?”

Little White floated against Han Fei’s cheek for a while, and then went directly to the middle hole.

“Huh? The hole in the middle is the largest and looks a bit appalling. Is treasure hidden in it?”

Han Fei carried the Snow Silver Rod, then took out a fish-skin mask, and put it on his face before he started exploring.

However, shortly after entering the hole, Han Fei felt that something was wrong. This cave was unusually cold, completely different from the outside where the water temperature was only about 20 degrees celsius.

If it was just cold, it was okay, but besides the coldness, there was a creepy voice, trembling and echoing.

“Woo... Woo... Woo... Hoo...”

The corner of Han Fei’s mouth twitched. What is it?

But before Han Fei swam a mile, he saw a hand floating in the seawater.

Han Fei: “???”

In an instant, Han Fei felt his heart skip a beat. A human hand? Someone is dead?

He became nervous. Those who could come to the secret realm of the Fiery Mountain couldn’t be weak. Even if they were weaker than him, they wouldn’t escape much more slowly than him.

Soon, Han Fei saw a carcass float over, on which there was a dark shadow, but he couldn’t see clearly what it was. The black shadow also seemed to see him and escaped at once with a swoosh.

Han Fei came over. It was a boy’s body. He seemed to have been dead for a long time. His chest was drilled through, and there was a blur of flesh and blood in the middle.

Han Fei frowned. That damn thing was eating the corpse just now...

Although, in theory, all the others who participated in this trial were his enemies, it didn't mean he wanted to see any of them die in such a miserable way. Han Fei knocked the rock wall beside him and covered the body with gravel.

Of course, Han Fei also rummaged through this guy for his Fiery Mountain Token, but he didn't find it. It must have been taken by someone else.

"Brother, that's all I can do for you. Remember in your next life: don't bite off more than you can chew!"

Han Fei continued to swim forward. When he swam only another 500 meters, he suddenly dodged and brandished his rod. A black shadow swished out from behind him. Data flashed in front of Han Fei's eyes and disappeared before he had time to read it.

Han Fei did not chase after it. This thing was too fast and even Little Black failed to bite it. Han Fei grabbed Little Black's tail. "No hurry. It will come back again." Han Fei continued to swim in and saw blood occasionally in the water. There must be someone else injured.

After a while, Han Fei stopped. He saw dozens of split cave entrances that led to all directions. In most of the caves, he saw red blood spreading out.

"Huh? Did many people come into this cave?" "Little White... Where should I be going?" As a professional guide, Little White hesitated over the dozens of caves. He swam to the left and then to the right, hesitating. Seeing this, Han Fei frowned. Did Little White fail this time?

Finally, Little White chose a cave on the side. Han Fei swam in without any doubt. But soon after he went in, he saw many caves again.

"F\*ck, what the hell is this? Why are there so many caves?"

After Little White chose a cave, Han Fei continued to swim into it. But this time, Han Fei was shocked. Halfway through, the seawater turned completely blood red. Everything he saw was covered with blood.

"Shit... How many people were killed?"

And at this time, squeaking sounds were suddenly heard in the seawater. Han Fei immediately covered his body with a spiritual energy protective cover, and at the same time, had Nine Tails attach to him.

Sure enough, in the next moment, a large number of black figures appeared and pressed on towards him like a huge dark shadow. In terms of speed alone, they were much faster than Han Fei.

"Squeak!"

When Han Fei saw the black shadow clearly, he was startled. They were all black rats! A string of data flashed in front of his eyes.

<Name>Dark Water Rat

<Introduction>Lives in seabed caves all year round, likes rotten things, extremely fast and has an amazing bite force. Its teeth are hard and can be used to make arrows.

<Level> 27

<Quality> Rare<Contained Spiritual Energy> 596 Points

<Edible Effect> It can strengthen your own Qi and blood and enhance physical fitness.

<Collectable> Rat teeth

<Absorbable>

Hiu! Hiu! Hiu!

The nine-star chain moved instantly, and the Blue Sea Wandering Dragon Daggers, like a winch, circled around Han Fei.

And Little Black had already rushed out. Han Fei saw Little Black open his mouth wide and bit a Dark Water Rat in half.

However, Han Fei was a bit scared. Just now, when the mass of Dark Water Rat pressed on towards him, he saw an eerie face, which was spooky.

### **Chapter 256 Creating Fear**

Almost in the blink of an eye, the water around Han Fei became very muddy, and there were Dark Water Rat meat chunks everywhere.

Han Fei discovered that although the Dark Water Rats were fast and had a horrible bite force, their defense was not even as good as a level-20 rare fish.

“Do you want to win against me by sheer force of numbers?”.

Han Fei was almost covered with the rats. However, so far, none could bite through his skin, although it hurt a little bit.

**BAM!**

A burst of spiritual energy suddenly broke from within his body, and dozens of water rats were shattered in an instant.

Now Han Fei knew where the blood water came from. It turned out that there were a lot of water rats in almost every cave...

Was it dangerous? Of course. If it were someone else, even if he had a strong attack power, he would have been seriously injured by these rats.

When thousands of water rats were crushed, these nasty animals hurriedly retreated. They seemed to find that Han Fei was not so easy to deal with.

Han Fei bit the bullet and walked forward, and in the bloody seawater, Han Fei felt that something was watching him.

He immediately activated his spiritual perception and scanned his surroundings inch by inch. There must be something here. He just couldn't find it.

After he swam through the bloody seawater, he found that this cave was quite deep, with black stone walls on both sides. Touching the stone wall, he swam cautiously, replacing the Snow Silver Rod in his hand with the Blue Sea Wandering Dragon Daggers.

Suddenly.

Han Fei shot out a dagger, which went deep into the wall beside him. A human face suddenly appeared on the stone wall, and at the moment Han Fei stabbed it, it disappeared into the stone.

“F\*ck...”

Han Fei didn’t know what to say. That was not human at all. It could even escape his spiritual perception!

Fortunately, he had the Demon Purification Pot. Otherwise, he wouldn’t be able to discover this damn thing.

“Devil Fish?”

Just now, a string of information flashed in front of his eyes.

<Name> Mutant Devil Fish

<Introduction> Mysterious, loves darkness, has weak attack power, but is extremely good at disguising itself. It can change faces and create fear.

<Level> 30

<Quality> Mysterious

<Contained Spiritual Energy> 1,672 Points

<Effect> Inedible

<Collectible> None

<Absorbable>

Han Fei swallowed. When he first saw the message, he was a little stunned. This was the third time he had seen a mysterious creature. A fish without attack power had strange abilities and could even create fear.

Now Han Fei understood why he, a daredevil, would be scared by this fish.

“Shit, next time I see you, you’ll be dead meat.”

Han Fei was now extremely suspicious if there was any treasure in this place! How could there be any treasure in such a creepy place?!

“Huh?”

Han Fei blinked. He saw a person running at him head-on. That was really strange. In this huge place extending a thousand miles, two people met in such a dark cave. Wasn’t it strange?

“Hey! Brother, what are you running for?”

Han Fei waved at him. However, the person did not respond but pounced at him and hacked at him with the double axes in his hand.

Clang! Clang! Clang! Han Fei’s face changed slightly. “Hey! Who the hell are you?”

However, what responded to Han Fei was a heavy hack, and a shadow of a large lobster pincer was also seen on the axe.

Boom...

Waves exploded forth immediately. Han Fei frowned. This man was an advanced great fishing master, but he exerted a force stronger than that of an advanced great fishing master. His attack just now reminded Han Fei of Zhang Xuanyu’s Seven-Layered Waves in Furious Sea.

Because the two were very close, Han Fei found that the man’s eyes were all red, and he seemed to have lost his mind.

“Humph!

“Nine-Star Chain...”

BAM! BAM! BAM!

The nine chains were instantly nailed to the rock walls on both sides, directly binding the mad boy. But Han Fei didn’t expect that this man was so crazy that he gathered all the spiritual energy in his body... Did he want to blow himself up?

BAM!

Han Fei poked his rod on this man’s belly to shatter his gathered spiritual energy and then hit his back to knock him to the ground.

“Huh?”

Han Fei retracted the chain. He saw a palm-sized starfish behind the boy’s neck.

<Name> Psychedelic Starfish

<Introduction> A parasitic starfish, likes to attach to fish. It can easily control the host’s thinking and make it manic.

<Level> 25

<Quality> Rare

<Contained Spiritual Energy> 545 Points

<Effect> Inedible

<Collectible> None

<Absorbable>

Han Fei pinched this Psychedelic Starfish and found that this thing had been embedded in the boy's skin. Han Fei took out a knife and drew a circle behind the boy's neck. His skin immediately covered with a layer of frost, and his neck became stiff.

"Get off."

Han Fei dragged the starfish off the boy's neck. However, the starfish was motionless and seemed frozen.

At his feet, the boy seemed to wake up, his neck still stiff. When he woke up, the first thing he did was take a fish-skin sac from his waist and he took a breath into it. And then, he sank down to the ground covering his neck with a hand.

Han Fei asked, "You awake?" The boy immediately jumped up. Perhaps he was too excited or hit too hard by Han Fei, blood oozed from his eyes, nose, and mouth.

"Who are you?"

Han Fei waved the starfish in his hand and said, "This thing was controlling you. I saved you. How are you going to repay me?"

The boy: "???"

He seemed to be recalling what happened. After a moment, his face turned stiff, and there also seemed to be a trace of panic on his face.

"Don't be silent! If it weren't for me, you would have been dead. So, give me your Fiery Mountain Token!"

The boy looked at the masked Han Fei and asked seriously, "Who are you?"

"You don't need to know who I am."

The boy: "???"

The boy still covered his neck with his hand. "Anyway, you saved me. My life is yours. Here you are..."

The boy took out a Fiery Mountain Token but Han Fei asked, "Just one?"

The boy was stunned. "There's only one Fiery Mountain Token for everyone, isn't there?"

Han Fei doubted him. "You have no companions dead? Don't pretend. I have buried one just now. The guy's Fiery Mountain Token was already taken away."

"Huh?" The boy shook his head. "I don't know. I did come with another girl, but I think she is still alive. We encountered a ghost-faced fish. I got caught and she ran away." "A girl?"

Han Fei frowned. Was there another group of people here?

Han Fei put away the Fiery Mountain Token and waved. "Get out! The Dark Water Rats in the caves have been cleared out by me..."

The boy bowed to him and said, "I'm Gu Tao of the Third Academy. Thank you for saving me."

Han Fei waved his hand without looking back. Gu Tao couldn't fight the strange creatures here, but he was not afraid. Now that he had discovered that Devil Fish that teased him, he certainly wouldn't let it go.

Of course, apart from this reason, there were at least two or even three Fiery Mountain Tokens here. How could he just let them fly away from his hands?

As he swam deeper in, the internal structure of the cave was more and more complex. Before, there was still a path to follow, but now caves were everywhere. Han Fei really admired that this other student didn't get lost.

"Little White, can you feel any people nearby? Take me to find them."

### **Chapter 257 Surrender Or Die**

Perhaps with the help of Little White, it was easier for Han Fei to find his way. But this also led to other consequences.

In just half an hour, Han Fei was attacked twice.

The first was still a suicide charge of the Dark Water Rats, but these rats could not injure Han Fei.

And the second time, Han Fei was attacked by the Devil Fish itself. It popped up from behind him, bit him hard, shattered his spiritual energy protective cover, and bit off a piece of his flesh.

This was the difference between mysterious and exotic creatures. Han Fei was sure that if this Devil Fish was an exotic species, it wouldn't have been able to bite through his skin.

Han Fei grunted and rushed forward with his rod sullenly.

Buzz...

When the palm-sized Psychedelic Starfishes shot at him like darts one after another, Han Fei's face turned green. Shit, Devil Fish, right? You'd better not be caught by me. Otherwise, I'll skin you alive!

Han Fei was quite certain that from the very beginning, all these troubles he had were caused by the Devil Fish. Is this fish really a devil? Why can it control these rare creatures?

Pondering, he had twenty Blue Sea Wandering Dragon Daggers forming a round shield in front of him, rotating and guarding him. Watching the starfishes being shredded one after another, Han Fei sneered. Devil Fish, is this all you've got?

It suddenly occurred to Han Fei that he may have been attacked because this Devil Fish didn't want him to go forward!

The more he thought about it, the more curious he was. What secrets were there deep in the cave?

His spiritual energy was constantly being consumed, but Han Fei didn't mind. Compared to spiritual energy, neither the Dark Water Rat nor the Psychedelic Starfishes were unlimited in number.

After figuring it out, Han Fei swam faster.

The cave was getting more and more creepy. In the end, whimpers came from the seawater, as if a woman was crying. "Humph! Stupid!"

As Han Fei stretched out his hand, the Blue Sea Wandering Dragon Bow appeared in his hand, and he pulled the bow as round as a full moon.

Hiu! Hiu! Hiu!

Several spiritual energy arrows shot forward and blew up. For a time, the cave was full of scattered spiritual energy and flying rocks. Among the rocks, a human face smiled grimly at Han Fei.

Swish!

The human-faced stone was blasted to pieces. Han Fei smiled. Dare you show up again?

But then, Han Fei lost trace of the Devil Fish, which seemed to vanish into thin air. As led by Little White, Han Fei finally came to the depths of the cave, only to see a layer of bones on the floor.

And in the middle of the white bones, a light-cyan grass swayed.

Han Fei narrowed his eyes. A grass? Mist Hidden Grass?

Data showed in front of his eyes.

<Name> Mist Hidden Grass

<Introduction> A decoy spiritual plant. It can attract sea creatures to come and is usually used to cultivate exotic creatures.

<Level> 34

<Quality> Spiritual Plant

<Contained Spiritual energy> 12,666 Points

<Edible effect> One will have stealth ability after consuming it.

<Absorbable>

Han Fei's face changed. It was just as he expected. He had read about this kind of spiritual grass in the "Encyclopedia of Spiritual Plants". This kind of grass was usually used by strong masters as bait for breeding exotic species. So, someone put this grass here intentionally?

A lot of questions popped into his mind. There were so many bones on the ground, not only fish bones, but also human bones. Therefore, this Mist Hidden Grass must have been there for many years.

But only people below Dangling Fishers could enter this secret realm.

Besides, these bones looked new!

If someone did it on purpose, was this mysterious mutant Devil Fish the one that the guy cultivated? Han Fei shivered slightly. From this damn fish, he could tell how mysterious creatures were difficult to deal with. For the first time, he was teased like this by a fish...

Han Fei pulled the bow immediately, and a spiritual energy arrow turned into a flying ray, shooting straight at the Mist Hidden Grass. Since this thing was intentionally placed here, he certainly wouldn't let it off!

Sure enough, when the spiritual energy arrow was about to hit the grass, a sapphire-colored circular energy hood suddenly appeared.

BAM!

The spiritual energy arrow, comparable to a full-force attack of an advanced great fishing master was blocked, but the sapphire-colored hood was not shaken at all.

“Woo, Woo... Woo...”

While Han Fei was attacking the Mist Hidden Grass, the whimpering voice appeared again. This time, Han Fei didn't look back but secretly said, “Little Black, guard behind me. If this thing dares to come up, bite it to death.”

Not only Little Black, but the nine-star chain was also slightly swaying behind Han Fei as if unable to wait to kill its enemy.

Han Fei raised his bow and shot again. The War Soul Bow Art had nine arrows in total. Just now, he was just figuring it out.

“Swish!”

“Swish!”

“Swish!”

As Han Fei shot arrows, the whole cave was shaking. The spiritual energy consumed became increasingly higher with each arrow he shot. The first arrow only cost him 200 points of spiritual energy, the second 400, and the third 800...

Han Fei gritted his teeth. When he shot the fourth arrow, his spiritual energy was exhausted. Fortunately, he had enough reserved to last. When he was about to shoot the fifth arrow, all the blue veins stood out on his arm. This arrow almost exceeded his ability.

Around him, the seawater was oscillating. Above his head, the rocks fell. However, Han Fei ignored it. This arrow cost as much as 3,200 points of spiritual energy. Han Fei believed that even a junior Dangling Fisher would be crushed by this arrow instantly. Because most Dangling Fishers didn't have their upper limits of spiritual energy exceed 3,200!

Just when he was about to shoot this arrow, he suddenly felt a chill down his spine. At this moment, he smiled, leaned forward, and quickly turned around in mid-air.

Swish!

A dazzling white light burst out and the whole cave was illuminated. Han Fei even saw a lot of Psychedelic Starfishes entrenched on the top rock wall, but he didn't care.

“Hey! I told you if you dare show up again, I'll skin you alive!”

A large amount of rubble fell over from above his head, but Han Fei did not even take a look. The nine-star chain smashed the rubble to one side. And 20 Blue Sea Wandering Dragon Daggers instantly shot out.

This time, the rock wall collapsed in a wide area after being shot by this arrow, and the mutant Devil Fish was inlaid on the rock wall like a piece of skin. This time, it failed to vanish into the rock.

Han Fei sneered, "Run! Keep running! Your soul has been crushed by me! Can you still escape?"

In fact, the target of Han Fei's fifth arrow was not the Mist Hidden Grass but this fish because he knew it would take the chance to sneak attack him.

However, after this arrow, Han Fei's arm was sore that he couldn't even lift it.

"No, it seems that I need to practice archery more!"

Little Black rushed up and bit the Devil Fish hard. Then, he was stunned. This fish is meatless!

Han Fei was also speechless. Does this fish only have skin? It doesn't even have a bone?

If it weren't for the data in front of his eyes, Han Fei would think this thing was a fake fish or a piece of fish skin.

At this moment, the Devil Fish had only half of his skin left and was dying.

Han Fei flicked the fish skin with his fingers. "Should I kill you? Gee..."

With that, Han Fei grabbed a Blue Sea Wandering Dragon Dagger and cut across the skin of the Devil Fish. Wherever the knife cut through, it froze. Finally, Han Fei saw horror in the eyes of the fish skin. Just as he expected, it was still alive. How could a mysterious creature so easily die? "Slash!"

Han Fei cut a gash in the fish skin. "It seems that you can't speak! Yeah, so far, I have only met two fish that can speak. It seems that not all mysterious creatures can speak!"

Han Fei stared at it for a long while but got no response.

"That's it. Collect!"

However, it wasn't collected into the Demon Purification Pot. This damn fish was still resisting?

Slash... Slash...

Han Fei raised his dagger and left dozens of gashes on the body of this mutant Devil Fish, almost shredding the fish skin.

Han Fei said angrily, "Do you think you can say no? Surrender or die!"

### **Chapter 258 Sixth in the Top 100**

Just when this mutant Devil Fish was almost cut into pieces by Han Fei, it finally accepted its fate. If it still didn't surrender, it would only die.

Han Fei smiled. Just now, he almost wanted to give up catching this damn fish. What if he got a creature similar to this creepy fish after he refined it with the Demon Purification Pot?!

Collecting the mutant Devil Fish, Han Fei looked at the Mist Hidden Grass.

Han Fei put away the Blue Sea Wandering Dragon Bow and held the Water Stirring Seal in his hand. After four consecutive combos, this shield had become weaker.

Maybe the person who arranged this shield was not as powerful as he thought. At least, after being hit by his fourth arrow, the shield shook and flickered several times.

Clang! Clang! Clang! Han Fei kept hitting the shield violently. Each time he hit it, the surrounding water rippled. Soon, the seawater in the cave was all shaken out.

Crack!

After Han Fei hit dozens of times, the first crack appeared.

But at this moment, Han Fei suddenly turned around, only to see two boys running in. One of them was dripping with blood and covered with wounds, and his face was disfigured.

The other person didn't seem to be injured though. Han Fei could feel that this boy was not weak and probably a peak-level great fishing master. Seeing Han Fei, he was quite calm.

The two looked at Han Fei and the Mist Hidden Grass protected by the shield, then turned their eyes to the rock wall that Han Fei had smashed a big hole in, and frowned.

Han Fei waved at them. "Hello there!"

Before the two answered, a girl rushed in from the other side. Carrying two daggers, the girl was surprised when she saw Han Fei and the other two.

Han Fei grinned, it seemed that the situation was better than he expected. If he guessed right, there were at least three Fiery Mountain Tokens on the two boys, and one on the girl, which meant that he was about to get four Fiery Mountain Tokens soon... That was great!

While Han Fei was still thinking of how to trick these three people, the girl suddenly approached him. "I don't know who you are, but the guy opposite you is Kong Yunfei of the First Academy, the sixth in the top 100 list. We need to cooperate. Otherwise, neither of us can run away."

Han Fei blinked. "OK!"

Over there, Kong Yunfei frowned slightly. "Give me the spiritual grass and hand over your Fiery Mountain Token. Then you can

go."

Han Fei said, "Humph, don't be arrogant. I, Gu Tao, rank 80th in the top 100 list. Kong Yunfei, if you dare to rob me, I won't let you off!"

If Gu Tao were here, he would be stunned. Shit, even if you wanted to pretend to be me, you should learn something about me, OK? I rank 96th, not 80th!

Kong Yunfei sneered. Is this guy out of his mind? What makes him think he, the 8th in the top 100, can beat me, the sixth? Kong Yunfei had never paid attention to students below the top ten, so he didn't know Han Fei was lying

But the girl suddenly sent him a message, You are not Gu Tao. Have you met him? How is he?

Han Fei froze. Damn, Gu Tao said he had a companion. Is it this girl?

Han Fei responded, Don't tell them! We are allies.

On the other side, Kong Yunfei gestured with a glance, and the boy beside him immediately rushed to another hole and held his armor box in his hand, ready to fight at any time.

Han Fei looked at the girl next to him. What is Kong Yunfei's profession? The girl was stunned. You don't know that?! Come on, he is the sixth in the top 100!

But she still answered, He is a soul warrior. His spiritual beast, Phantom Eel is extremely fast and his Electric Light Slash is very powerful.

What about the other person?

The girl shook her head. I don't know him. He is not in the top 100.

What about you? Han Fei asked.

The girl said, I'm the 100th in the top 100, Yuan Jia. Who are you? Is Gu Tao still alive?

Yes... I, well, I am a lonely walker in the ocean. Don't ask me where I come from or where I am going. I'm not going to tell you. Yuan Jia: "???"

Yuan Jia wondered if this guy was a fool. We're in danger. I'm not in the mood for jokes, okay?

Han Fei finally became a bit serious. Well, why didn't you run away just now?

Yuan Jia's voice sounded serious, Only if I could. I know you are also dangerous, but at least you need me now. I can deal with the injured person, and I will help you after solving him.

Han Fei smiled. So I'll have to deal with Kong Yunfei? Why is this girl so sure that I can handle the sixth in the top 100 list?

However, Han Fei was not afraid. He just responded with a smile. "Okay!"

Kong Yunfei frowned. He felt this person seemed familiar. But that was strange! How could he be familiar with the 8th place in the top 100?

Han Fei said, "Hoho, it's impossible for me to give you the grass or the Fiery Mountain Token. Leave now if you don't want to regret it later."

Kong Yunfei smiled and thought to himself, Very good! Then don't blame me for being rude! I know the top ten of the top 100, OK?... Since you're not one of them, what am I afraid of? I'm afraid the one who will regret later is you!

Kong Yunfei said, "Thank you for the noise you made here. Otherwise, I might not have been able to notice this place. So, I won't kill you."

Then, a spear suddenly appeared in Kong Yunfei's hand.

Han Fei narrowed his eyes. "A spiritual weapon!"

This was the first time Han Fei saw a student use a spiritual weapon. This alone proved that Kong Yunfei was absolutely not weak.

But Han Fei didn't care. A spiritual weapon without a sealed creature was not much stronger than a magic weapon. He rushed up carrying the Snow Silver Rod.

BAM!

He gave a tentative blow and the seawater violently surged. Under the huge shock wave, the boy coming with Kong Yunfei almost fell. Kong Yunfei's face changed slightly. "You can't be 80th in the top 100 list."

Han Fei accelerated suddenly and hundreds of spiritual energy whirlpools suddenly appeared on his body. He brandished his Snow Silver Rod violently. Even in the water, there were countless shadows of the rod.

Kong Yunfei was startled. This guy's speed was too fast! His rod was waved so quickly that only shadows could be seen!

Kong Yunfei immediately raised his spear to block. However, he found that every time he tried to block Han Fei's attack, the spiritual energy in his body would be consumed by a percent. In a few moments, he had lost almost ten percent of spiritual energy.

Buzz!

Suddenly, an electric light flashed and Han Fei quickly backed away.

But no matter how fast he was, he was not as fast as electric current! The thick electric arc directly hit Han Fei and its power was comparable to the high voltage current of dozens of Piercing Electricity Jellyfish! While Han Fei was shaking with electricity, Kong Yunfei stepped through the air, turning his body horizontally, and he thrust his spear at him.

Just when Kong Yunfei thought Han Fei wouldn't be able to dodge it, the latter suddenly twisted his body into a strange posture. His fat body was even more flexible than a girl.

BAM!

At the moment the two passed each other, Han Fei waved his rod and hit Kong Yunfei away.

But it hadn't finished yet. The nine-star chain burst out in an instant, directly tying up Kong Yunfei's hands, feet, head, and waist.

Immediately, Han Fei turned over his palm and hit Kong Yunfei hard with a big seal.

BAM!

Kong Yunfei flew out like an artillery shell, hitting the rock wall hard and cracking the rock wall.

Seeing this scene, Yuan Jia and the boy were dumbfounded.

What was going on here? We hadn't started to fight yet... And you guys had already finished fighting? The soul warrior who ranked sixth in the top 100 list was solved in a minute?!

BAM!

On the rock wall, Kong Yunfei suddenly vomited a mouthful of blood and his eyes turned bloodshot. As he broke free from the rock wall with a loud thud, a shadow of a huge eel appeared. At the same time, a horn shark appeared in the water.

Kong Yunfei muttered, "I'm gonna kill you."

Han Fei froze for a moment. A shark? Besides Zhang Xuanyu's Bloodthirsty Shark, this was the second shark he had ever seen and this one even had a horn on his head. The one-horned shark instantly turned into a water blade. Suddenly, a huge blade of tens of meters in length hacked straight at Han Fei.

"Water-Stirring Seal Technique!"

Han Fei turned serious. The shadow of the huge seal tens of meters high floated into the air and hit the water blade hard.

CLANG!!!

The deafening noise shook Yuan Jia and the other boy so hard that they spat blood out.

The next moment, the big shark was hit flying to the rock wall, and Han Fei also flew upside down and hit the rock wall.

Han Fei shook his head, broke free from the rock wall, and even scratched his head. Kong Yunfei was dumbfounded. "Who the f\*ck are you?"

The other two shouted at the same time, "Han Fei?"

### **Chapter 259 Mist Hidden Grass**

Han Fei twisted his body and stretched his limbs. The sixth place in the top 100 list did have some strength. Just now, the shark even sent the Water Stirring Seal flying with its horn!

At this moment, the fish skin on Han Fei's face was shattered and the three of them saw Han Fei's face.

Kong Yunfei didn't know Han Fei at all, and he never went to the Blue Sea Arena to watch the games, so he wasn't surprised. But Yuan Jia and the girl immediately took two steps back! Gosh, this guy is Han Fei!

Then Kong Yunfei seemed to get a message from his companion.

Kong Yunfei asked, "Han Fei, from the Fourth Academy?"

Han Fei smiled. As a golden light flashed, Nine Tails appeared and the nine chains were dancing in the sea.

Han Fei pointed to the other two people and Nine Tails immediately blocked their way with his chains as if saying, "If you dare to run, I'm gonna beat the hell out of you."

Yuan Jia and the unknown boy turned green. That's funny! How dare this contractual spiritual beast threaten us?!

The two reached an agreement almost instantaneously, and at the same time, they attacked Nine Tails, respectively having an Iron Hook Squid and a Machete Crab attach to them.

But the nine-star chain, like a sharp arrow, came in an instant. The knife in the young man's hand was shattered, and three chains, like three poisonous snakes, tied him up.

Yuan Jia was also having a hard time. Although the Iron Hook Squid was also good at maneuvering, she could hardly resist the five or six chains, let alone make a counterattack.

Yuan Jia was shocked. "It's at least an exotic creature, a particularly strong kind of exotic creature..."

Han Fei didn't pay much attention to those two people, whom Nine Tails alone could handle. He looked at Kong Yunfei and said, "Gee, my pet is exposed! OK, now hand over your Fiery Mountain Tokens! Or, if you still have any other means, show me."

Kong Yunfei frowned. He had heard of Han Fei who was actually very famous since he defeated Su Yebai. Many students in the top 100 didn't think Han Fei was a threat to them because Su Yebai was just a manipulator. If Su Yebai were a soul warrior, he would have easily crushed him.

But it turned out to not be the case. Kong Yunfei stared at Han Fei and his will to fight was suddenly aroused. He turned into a shadow and rushed towards Han Fei.

The next moment, the two of them began to fight fiercely. The cave was flashing with glints and shadows, and the two were both extremely fast with dazzling combat skills displayed..

After a full five minutes, Han Fei knocked Kong Yunfei down with his rod, and a Blue Sea Wandering Dragon Dagger directly shot through his palm. There were dozens of scratches on his body, his clothes were torn into strips, and he was drenched with blood.

Han Fei mocked him, "Not bad, but not strong enough. How did you get to be sixth place?"

Kong Yunfei almost vomited blood. Am I not strong enough? I have hit you dozens of f\*cking times, okay? What the f\*ck is with this body? I just can't cut through his skin!

Han Fei looked at Kong Yunfei lying on the ground with a smile. This guy is almost as strong as Zhang Xuanyu! Um, I have to tell Zhang Xuanyu that he is going to be overtaken by someone.

Han Fei stretched out his hand. "Fiery Mountain Token! Otherwise, die!"

Kong Yunfei's mouth was bleeding and he asked with a pale face, "You won't kill me?"

"That depends on you! This is just a trial, and you can be considered a seed student in the Blue Sea Town. Perhaps we'll need you to help us deal with the people in the 36 towns in the future."

Do you think I'm stupid? If I kill you, I'll have to kill the other two. Even if I kill them all, there is still Gu Tao who has run out. Then everyone will know I killed you! Besides, Kong Yunfei will definitely snatch

more Fiery Mountain Tokens when he gets out, and then I might be able to rob him again! Isn't that great?

Kong Yunfei took out two Fiery Mountain Tokens and threw them to Han Fei. "I will catch up with you."

Han Fei was surprised. "Why did you give me two?"

Kong Yunfei snorted. "If I lose, I lose. I won't hide anything. Otherwise, it'll look as if I can't afford to lose."

Han Fei took a look at Kong Yunfei. Although this guy looked like an arrogant idiot at the beginning, he became quite normal after losing to him.

To put it plainly, he just needed to be taught a lesson.

Han Fei didn't want to kill Kong Yunfei. He turned his eyes to the other two. "Where are your Fiery Mountain Tokens?"

The two almost cried. They admitted that they were no match for Han Fei. After all, he was from the Fourth Academy. But why couldn't they even beat a damn contractual spiritual beast?! What a disgrace!

Nine Tails put away its nine-star chain. Without using his pincers, he could easily tackle the enemies with its tail alone. Then he rushed up to Han Fei and hugged his leg. Han Fei's face changed drastically, and he immediately collected Nine Tails to prevent this idiot from doing something embarrassing

Yuan Jia and the boy reluctantly threw their Fiery Mountain Tokens out. At the same time, the two also deeply recognized their ranks. Their current goals should be to stay in the top 100 and it was impossible for them to compete with people like Han Fei or Kong Feiyun for now.

Han Fei got 4 Fiery Mountain Tokens at once. In addition to the previous ones, he had 12 ones in total. That's too easy! After only half a day, I've got 12 of them. There are only 305 people participating in the trial! It should be no problem for me to get 50 Fiery Mountain Tokens in seven days!

Since they had given him their Fiery Mountain Tokens, they were no longer enemies. At this moment, Kong Yunfei swallowed healing pills and sat cross-legged to heal his wounds.

Ignoring Yuan Jia and Yuan Jia, Han Fei held the Water Stirring Seal, came to the Mist Hidden Grass, and continued to knock on the protective hood. Their scalps tingled with the deafening noise. Clang! Clang! Clang!

It took a full five minutes before the small shield was smashed open by Han Fei.

Han Fei picked up the Mist Hidden Grass and threw it into Forge the Universe. Eating this thing can bring me stealth ability. I'm gonna eat it, but I don't know how its stealth effect is...

Han Fei once asked Xia Xiaochan if he could learn stealth, but she said that it was a combat skill exclusive to hunters. And there were many types of stealth combat skills. The most powerful ones could make the user completely invisible, and even other hunters wouldn't be able to discover him.

Of course, if the user used spiritual perception, he might be discovered, but Han Fei didn't mind it. It would be nice if he had the stealth ability. At least when he went into the sea, he wouldn't worry about

the harassment of some small fish and shrimp. Didn't Luo Little White just find an invisible jellyfish as a contractual spiritual beast? Kong Yunfei was helpless. Can't you see I'm healing my fucking wounds?! Why are you making such noise?! Kong Yunfei looked pale and stood up. "Shall we go?"

Han Fei asked, "Do I know you? If you want me to lead you out, each of you owes me a Fiery Mountain Token."

Yuan Jia was shocked. "What? A Fiery Mountain Token?"

Han Fei blinked and said, "Why don't you try going out by yourself? This place is full of tunnels and caves. Although you can definitely go out, I wonder if you can find a place to breathe. Anyway, I don't mind if you stay here longer. Then I'll have fewer competitors."

Kong Yunfei said without batting his eyelids, "Okay!"

He didn't want to waste time here. He had tried to go out before, but he failed to find his way after going around for a long time. Since Han Fei could lead him out, he didn't mind giving him a Fiery Mountain Token. After going out, he could just find a random person to snatch his Fiery Mountain Token. He couldn't beat Han Fei, but few of the more than 300 people outside were his opponents. Yuan Jia said, "I will try my best, but if I can't get one..."

"If you can't get it, then forget it. But if you get it, you'll have to give it to me. This is a question of credibility!" Yuan Jia was speechless. Credibility? Aren't you looting us?

Han Fei counted his tokens again. Umm, now I've got 15 Fiery Mountain Tokens! Not bad!

With a flash between Han Fei's eyebrows, Little White touched Han Fei's cheek affectionately.

"OK, now let's go out."

Along the way, the others looked at Han Fei with a strange look. Who the hell said the Spirit Swallowing Fish was useless? The IQ of this thing was too high, wasn't it? It could even show them the way!

After a while, the four of them came out of the cave, and Han Fei reminded them, "Don't forget it! Each of you owes me a Fiery Mountain Token. If you refuse to repay me, humph, don't blame me for being ruthless."

Kong Yunfei snorted and turned away angrily. The other two hurried to find Bubble Algae and had no time to respond. But Han Fei wasn't worried. If these people didn't keep their word, he would kill them.

After they left, Han Fei took out the map, thought about it, and decided to swim to the mountain. The map showed that there were many treasures on that mountain!

## **Chapter 260 Hunting and Being Hunted**

Han Fei didn't stop for a moment except to take two breaths of air along the way. The closer he got to the mountain, the eerier he found the mountain was.

It was too big and too high. Its huge shadow showed that the mountain was almost tens of thousands of meters high.

Its height startled Han Fei. If a mountain was tens of thousands of meters high but still didn't emerge from the water, then where was he?

Underwater? Don't kid around. He didn't think he could withstand the huge pressure of the 10,000 meter-deep sea.

Thinking about it, Han Fei immediately took out the Blue Sea Wandering Dragon Bow, made a spiritual energy arrow, and shot it directly upward.

However, the spiritual energy arrow suddenly exploded after going upward only less than five hundred meters, and a visible ripple of spiritual energy dispersed in all directions. Han Fei's heart skipped a beat at this scene. There was a seal on this place, which was not an ordinary one. Who the fuck had the ability to seal this place extending thousands of kilometers?

Han Fei couldn't help thinking of the Floating Islands and the layout of the villages and towns, the level-one fishery, and level-two fishery. If all of this was designed by someone, this person must be a god!

Han Fei shook his head. This was not something he should consider. He should go to that mountain as soon as possible. If he guessed right, at the moment the target of all the other 300 students was this mountain because it was too conspicuous.

Along the way, Han Fei avoided many kinds of fish and shrimps, including Piercing Electricity Jellyfish, Blue-hat Jellyfish, Soul-attracting Jellyfish, Plate Rays, Spider Crabs, and even Sandworms...

The closer he got to that mountain, the more careful he became. The seabed creatures he met were getting stronger and stronger. These beasts could even be called sea monsters. Any of them would be a boss-level monster in the level-two fishery.

Han Fei swam casually in the water like a small fish.

Suddenly.

Han Fei sensed three invisible people rushing at him.

BAM...

The seawater suddenly exploded and three cold auras flickered like shooting stars and arrived in front of him in the blink of an eye.

"Spiral Strike."

Han Fei frowned and spun, his long rod spinning with his body. He chose one of the cold lights and sent the Blue Sea Wandering Dragon Daggers to attack the other two.

BAM!

Under the huge shock wave, one invisible man spat out a mouthful of blood, and quickly backed away, trying to escape.

"Hey! Wanna leave? Don't you think it's too late?"

"Attach."

The nine-star chain shot out, but then Han Fei gave up on this man because another cold light was thrust at him from below.

“Rotating Blade...”

The Blue Sea Wandering Dragon Daggers drew curved arcs in the sea, like a large opened umbrella, blocking the cold light in the blink of an eye.

At the same time, Han Fei held the Blue Sea Wandering Dragon Bow in his hand.

Swish...

A streaking water mark appeared in the seawater, and a figure was nailed by Han Fei. Without his invisibility, the hunter was nothing but a sitting duck to Han Fei.

Nds

Replacing the Blue Sea Wandering Dragon Bow with the Snow Silver Rod, Han Fei swooped down at the boy. The boy below was anxious and hurriedly took out a fish skin sac from his waist! The sac exploded, and a large area was shrouded with black ink.

Simultaneously, the three hunters attacked him at the same time, and Han Fei could feel the strength of this blow. Although they were not Xia Xiaochan, Xia Xiaochan never intended to kill him but these people were different.

In the darkness, Han Fei even grinned. Do you guys know what spiritual perception is?!

Han Fei’s body was more flexible than a swimming fish. As he swam with great dexterity, he pierced a hunter with his rod and waved the nine-star chain, which very few people could resist.

In an instant, the three figures fell out of the black ink one after another.

Han Fei floated in the water holding his rod, saying coldly, “Your Fiery Mountain Tokens.”

However, one of them said pale-faced, “Let us go. There is Dead Leaf Poison in the ink sac. If you let us go, we’ll give you the antidote.”

Han Fei frowned. Some hunters might use poison, but this was just a trial. They had intended to kill him from the very beginning.

BAM!

Han Fei threw the rod out of his hand in an instant, which penetrated the boy’s chest and plunged straight into the seabed mud, whipping up a cloud of mud tens of meters high.

“Threaten me? I had planned to spare your lives, but you threatened me.”

Without looking at that person, Han Fei looked back at the other man and woman with a smile.

“Antidote, and Fiery Mountain Tokens.”

Han Fei knew what Dead Leaf Poison was. According to the record in the “Encyclopedia of Spiritual Plants”, Dead Leaf Poison came from Dead Leaf Starfish. This kind of starfish looked like dead leaves and

was highly toxic, so Dead Leaf Poison would be produced in their settlement. It only existed in the level-three fishery.

Han Fei would not take it seriously if this poison came from the level-two fishery. He had swallowed the Exotic Poisonous Fruit and the Moon-Watching Fruit, so poisons from the level-two fishery were basically ineffective on him. But since it was from the level-three fishery, he should be more careful and better get the antidote.

The other two hunters were startled. Han Fei was too strong! They failed to kill him even though they ambushed him! Instead, he killed one of them, which was terrifying.

Now the two of them regretted their actions very much. They should have recognized this was Han Fei from the very beginning! They were all advanced great fishing masters but still failed to beat Han Fei!

“How can we believe you?”

Another boy looked at his comrade-in-arms who had been killed by Han Fei. Now a chain was rummaging on his body, and two Fiery Mountain Tokens were soon discovered.

was

Han Fei threw them into Forge the Universe without even looking at it and smiled at the two of them. “Not bad! I guess you two also have more than two Fiery Mountain Tokens... I’ll give you five minutes to consider your options. If you refuse to hand them over, die!”

The girl suddenly said, “We can give you the antidote and our Fiery Mountain Tokens, but you have to swear to the Sea God not to kill

us.”

“Sea God? What the hell is that... You have no choice but to believe me.”

The two were shocked. How dare this guy to be so rude to the Sea God. Was he out of his mind?

The girl still wanted to say something but was stopped by the boy. The boy shook his head and then threw a small bottle to Han Fei. However, Han Fei didn’t even take it. With a touch of his finger, a wave of water pushed the bottle towards the boy and he said, “You take a sip first.”

The boy turned pale, and at the moment his face changed, Han Fei suddenly turned cold. The next second, the Blue Sea Wandering Dragon Bow appeared in his hand and he shot an arrow at the boy.

At the same time, dozens of the Blue Sea Wandering Dragon Daggers followed.

BAM...

The boy hurried to resist, but he simply had no power to fight back.

In the end, a chain pierced the boy’s chest.

Han Fei’s face was cold and grim. “Humph! What made him think he could fool me with such a lame trick? Is he a moron?” Han Fei rummaged on his body and frowned. “Why is there only one Fiery Mountain Token?” The girl was pale with fright, and hurriedly responded, “We had planned to go to the

mountain after each of us snatched one Fiery Mountain Token and only he hadn't got one, so... Oh, yes! These are mine."

The girl was terrified and threw the two Fiery Mountain Tokens to Han Fei. Otherwise, Han Fei would still get them after killing her.

Han Fei took the Fiery Mountain Token. "Smart choice. And the antidote..."

The girl hurriedly took out the antidote, took a sip by herself, and then threw it to Han Fei, saying timidly, "Don't kill me..."

Han Fei shook his head slightly. Why is this girl so timid? How did she become an advanced great fishing master in the first place? Even He Xiaoyu was more courageous than her.

Han Fei drank the antidote and felt the tingling feeling in his body gradually disappear, and then he waved. "You can go now, but you owe me a Fiery Mountain Token. If you meet me next time, remember to give it to me. Otherwise... Hoho... You'll accompany them in hell!"

As soon as he said so, the girl swished away in stealth and didn't dare to stay any longer.

Han Fei picked up the daggers from the two boys, which were both low-quality magic weapons. He slightly curled his lips and threw them into Forge the Universe. Maybe they would be of some use someday.
