

GOF 271

Chapter 271 Fish Avatar Technique

Han Fei stopped. The summoning power of this stele was too weak! Why was this combat skill still in this forest of steles?

Han Fei thought it was strange. The test at the gate and the chain test had eliminated most people. Those who stayed were all excellent talented fishers. So, the combat skills here couldn't just be of mystic or even mortal level.

With this in mind, Han Fei went back instead.

He Xiaoyu wondered, "What are you going to do?"

"I'm going to look back again."

Li Hanyi and the others also noticed Han Fei's actions. When Han Fei stood in front of a stone tablet, everyone was stunned. Huh? Isn't it the one with the weakest summoning force?

Not only Han Fei, but almost everyone had also been called by this stele. Unfortunately, they didn't pay any attention to it because its summoning power was too weak, which couldn't be a good thing.

Xiang Zuozuo looked puzzled. "Huh! Is there something wrong with that stele?"

Li Hanyi shrugged. "I don't know. It's possible."

Luo Xiaobai asked, "Han Fei, why did you go back to that stele?"

Han Fei responded, "I'm just checking it out."

Then, when Han Fei saw the characters on the stele, his scalp was numb.

"Fish Avatar Technique" (Incomplete)

Mortal-level Low-Quality

The technique is not completed, which can be realized in theory. It is hoped that you can deduce it after obtaining this technique and perhaps you will be able to successfully transform into a fish.

Han Fei was dumbfounded.

Transform into a fish?

What occurred to him first was how he felt when he possessed Little Black in the Soul Sea.

That kind of visual sensation and that kind of physical manipulation were completely different from being a human. Fish were a completely different race!

"Wow!"

Han Fei gasped. Who the hell created this combat skill? Did he want to change the characteristics of the human race?

But then, Han Fei became excited. This is just a mortal-level low-quality combat skill! The spiritual energy consumed to deduce it should be extremely low. What if I can successfully deduce this combat skill? If I can become a fish at any time, what would it be like? In the vast sea, who could find me then?

This was what really could be considered a trump card combat skill!

So Han Fei answered to this summoning power.

Crack!

Under everyone's stunned gaze, the stele broke and Han Fei took this combat skill.

Le Renkuang exclaimed, "Feifei, are you crazy?! What level is this?"

Han Fei smiled. "Mortal level!"

Zhang Xuanyu was helpless. "Gosh... Feifei, are you out of your mind? Why do you need a damn mortal-level combat skill?"

Luo Xiaobai believed that there must be a reason for Han Fei to choose this combat skill, so she simply asked, "Han Fei, is there anything special about this stele?"

Han Fei seemed to be deep in thought. "I'm not sure yet."

Xia Xiaochan curiously asked, "What combat skill is it? You didn't even choose the heaven-level combat skill just now. Why did you choose this mortal-level one?"

Han Fei said, "Let's talk about it when we go out."

In his mind, the information about the Fish Avatar Technique appeared. Han Fei was overjoyed reading it. Complicated! The introduction and practicing method of this combat skill were both very complicated. Perhaps because of the limited power of the creator, or the way of expression, the creator even mentioned the difference between fish and humans.

Was this created by an old pedant?

After Han Fei reviewed the entire combat skill, he clearly realized that this didn't sound like a combat skill description, but an essay! It quoted ancient classics extensively and discussed countless conjectures in an attempt to uncover the mystery of fish and human bodies.

Han Fei, who had finished choosing his combat skill, was very idle and said leisurely, "Levels don't necessarily represent the quality of a combat skill. The key is its practicality..."

Han Fei shouted loudly, "Go for the heaven-level ones! The stronger the summoning power is, the better. Mine is an exception. Take the best you can get."

Everyone: "..."

After Han Fei chose his combat skill, everyone stopped. It's too weird! Why did Han Fei choose the weakest combat skill? There must be a reason.

This time, even the mysterious masked man turned his head in surprise and stared at Han Fei. Seeing the smug look on Han Fei's face, he couldn't help but begin to doubt the combat skill he chose.

Lin Shengmu suddenly said, "Don't believe him. He may have his reasons, but the combat skills here are definitely better when higher in level."

With that, as if trying to prove what he said, he chose the combat skill on the stele in front of him.

Seeing this scene, Han Fei didn't say anymore, nor did he rush to go to the opposite palace. Instead, he wandered leisurely in the forest of steles and walked to the stele of the Sea Quelling Hand again, trying to get this combat skill too. Unfortunately, the call from the stele was gone. No matter how hard he tried, the stele gave him no response at all.

"It's a pity. If only I could get more than one combat skill."

Soon, one stele after another broke, and people began to walk towards the palace behind.

Han Fei asked the other four via voice transmission, What combat skills did you get?

Luo Xiaobai went first. I got a demon-level high-quality combat skill, Substitution Art, similar to the Death Replacement Art.

Zhang Xuanyu grinned. Ha, I got a heaven-level low-quality one, Ocean Subversion Rod. It's a bit like my Seven-Layered Waves in Furious Sea. With it, I think I can create the Nine-Layered Waves in Furious Sea.

Han Fei was a little surprised. Zhang Xuanyu used the word "creation". Could it be that he took this combat skill just to deduce his own combat skills?

was

The Seven-Layered Waves in Furious Sea was already powerful enough. If he created a Nine-Layered Waves in Furious Sea, wouldn't Zhang Xuanyu's strength multiply?

Le Renkuang still chose a knife combat skill, which was called Knife Burial Technique. Although it was only a demon-level high-quality combat skill, it featured a fast speed and could make up for his disadvantage in speed. Therefore, he chose it without hesitation.

Xia Xiaochan said casually, I chose a heaven-level mid-quality combat skill, Roaming Technique. It suits me well... What about you...

Although Han Fei seemed to be wandering around just now, he was actually digesting and absorbing the knowledge of the Fish Avatar Art. Although it had not been deduced yet, it opened a new door to Han Fei.

Han Fei looked around. "Don't be surprised if I tell you..."

Everyone was puzzled and walked to the other palace unhurriedly while listening. They were very curious. What mysterious combat skill had Han Fei chosen?

Han Fei filled them in on his skill. This combat skill is still incomplete at the moment, but perhaps I can complete it in the future.

Le Renkuang was surprised. Mortal-level, and incomplete?

Han Fei scolded, I told you not to be surprised! This is actually not a combat skill. It's called the Fish Avatar Technique. Yes, it is a magic technique that turns people into fish...

"What?"

This time, even Xia Xiaochan was surprised. She blurted out and even forgot the sound transmission. Seeing many people looking back, Han Fei immediately began to sing, "What is love...? Love is not... Something you can abandon easily. Let this timeless legend reappear because of you! Let me love you, love you deeply..."

Everyone: "???"

Han Fei was singing happily there and the others looked at Han Fei as if he was a fool. What is this crap he's singing?!

However, Xia Xiaochan and the other three were shocked. Can people become fish? It sounds like a myth! If people can become fish...

Everyone couldn't help but shudder. If a person could become a fish that has its own strength, what would happen? Then he could almost stay in the sea forever without going ashore and would be able to explore treasures in the sea to his heart's content...Xia Xiaochan quickly pretended to be nonchalant as she asked, Really? Can you make it?

Han Fei responded, Not yet. This combat skill is still incomplete, but once I complete it, in terms of practicality, ten heavenly-level combat skills put together may not be comparable to it.

Yes, he was right. Combat skills are just combat skills. One heaven-level combat skill and ten heaven-level combat skills just differ in number. If you can practice one combat skill to the utmost level, those who acquired many combat skills would not necessarily defeat you.

But this Fish Avatar Technique was really awesome. If Han Fei could master it, he would acquire a unique skill! No heaven-level combat skill was comparable to it!

Luo Xiaobai was shocked. Can you really make it?

I don't know yet. I need to study it well...

"Ahhh!"

Before they walked to the palace, they heard a heart-piercing scream from the palace. "What happened?"

Chapter 272 Fish Fire

They quickly went to the other palace. Li Hanyi and his team members all frowned, having no intention to fight them.

Lin Shengmu suggested, "Something must have happened in it. There may have been a death... The masked man and Kong Yunfei disappeared."

Han Fei and the others were taken back and quickly looked around. Sure enough, those two people disappeared. Han Fei had seen the two of them when he was wandering around just now... How did they suddenly disappear?

“Did they enter the palace?”

“Were they attacked in it?”

The 12-member team, after passing the chain, only had 7 members left. Now, there were only 5 of them. The number of their members was decreasing sharply, so was their strength. Now, they were already unable to compete with Han Fei’s team or Li Hanyi’s.

However, Lin Shengmu in Li Hanyi’s team said calmly, “Now is not the time for us to fight each other. We don’t know what awaits us!”

Han Fei felt what he said sounded a bit weird. Lin Shengmu seemed to be saying that we don’t know what dangers we will face! Let these people carve out a way for us...

Luo Xiaobai also said, “Yes, I agree.”

Li Hanyi nodded. “Okay, let’s not fight here! If necessary, we can even work together.”

Han Fei smiled. “No problem. Let’s go together. Oh, no, let them go first!”

Han Fei was even more straightforward than Lin Musheng! Li Hanyi and the others also nodded. Isn’t it a matter of course? Sacrificial lambs should know their place!

In this world, since the Fishing Trial, the fishers were allowed to fight each other. In the face of benefits, friendship was nothing but a joke.

The five people all turned green and looked at Han Fei angrily.

Han Fei shrugged. “Don’t stare at me. If you don’t show us your value, we would have already killed you now. Even if we don’t kill you, but just grab your tokens, could you get out?”

Among the five, one took a breath. “Okay! We’ll go in first.”

After the five people entered, Han Fei asked with a smile, “Hey! Kong Yunfei is ranked sixth, so where are the first place and the fifth? Don’t you know these two people? And what about the ninth and the tenth? Have you ever met them?”

The 4 of the top 10 students of the three major academies were not here. There must be a problem! Were they so weak as to not even be able to get here? He didn’t believe it!

Xiang Zuozuo said disdainfully, “The tenth, Zhang Yue was killed by me.”

Lin Shengmu smiled. “I saw Cao Yuan, the ninth one, in the periphery. However, he belongs to the Third Academy and does not have a suitable team. I don’t think he can survive the whitebait school. Therefore, it makes sense that he is absent.”

Han Fei nodded. So there was only the first place and the fifth left. Han Fei suspected that the masked man was the first place student.

At this time, Li Hanyi said, "The fifth place, Qin Wuyin, is very strong. He is a powerful hunter but not from our First Academy. I've never seen him before. If I've guessed right, he should be among the five people just now."

They weren't in a hurry to get in as they chatted casually. Han Fei knew too little about the other three academies, and these people were the best students in them who certainly knew a lot about their schools.

Han Fei asked, "Have you ever been in the level-three fishery?"

"How big is the level-three fishery?"

"Which creatures are there in the sea there?"

"Do you know anything about the Unknown Place?"

"You all seem to have spiritual weapons. Where did you get them? Did you buy them?"

Han Fei blasted out a bunch of questions like a machine gun. Xiang Zuozuo finally couldn't help but ask, "Hey! Do we know you? We'll still be enemies when we get out of here!"

Han Fei smiled. "Why are you so angry? I just asked you guys a few questions, okay?"

Le Renkuang nodded. "Yes, yes."

Zhang Xuanyu asked, "Hey! Xiang Zuozuo, do you like hot pot? May I invite you to hot pot?"

BAM!

Zhang Xuanyu suddenly stumbled. Someone kicked his butt. He looked back, only to see Xia Xiaochan squinting at him. "Don't disgrace us."

Xiang Zuozuo felt as though her brain was about to explode. Are none of these guys normal? Yes, only Luo Xiaobai is normal. Han Fei and Zhang Xuanyu are really annoying!

At this moment, a column of spiritual energy suddenly shot up into the sky from the palace. They exchanged a glance. "Let's get in."

With a twinkle, spiritual energy burst out of the palace. They rushed in immediately.

SOS

But as soon as Han Fei stepped into the palace, darkness came over his eyes and he seemed to step into another space, and the people around him were gone.

"Shit... Not again!"

Han Fei was helpless. When they just entered the Fiery Mountain, he was transferred to some unknown place alone. Now, it was happening again.

Han Fei looked around the interior of the palace. It was dim and a crocodile-like big fish was lying on all fours in the middle of the palace, facing the door... Oh no, there is no door here. It was facing him.

In the palace, there were also seaweed carving decorations all over, and eight stone pillars extended to the domed ceiling. But when Han Fei looked up, he found that it was not a ceiling but a starry sky. What? Starry sky?! How can there be a starry sky on the seabed?

So the flashing things above his head were definitely not stars. But the point was, where did these stone pillars lead?

Han Fei turned around and slashed at the carved wooden board behind him. However, the air rippled and his knife was bounced back.

“Huh? Strange.”

He stepped forward and got close to the big crocodile.

However, Han Fei immediately discovered that this was not a crocodile but a stone sculpture with six feet, raised barbs on its back, and bright red scales.

“There is only one fish in such a big room? It’s weird...”

Han Fei took out the Water Stirring Seal and knocked it on the stone fish with a clang. However, a terrifying force immediately burst out from the stone fish, and he saw a tail sweeping over.

BAM!

Han Fei was hit flying by the tail and he slammed heavily against the wall.

“F*ck... Is it alive?”

Han Fei widened his eyes, only to see that the fish cracked all over, then its body glowed with red light and its eyes were filled with flames. The flame spread from its eyes to its body and burned all over its body.

“Huh? No data. Is this thing still a stone?” Han Fei swung the big seal at it again. The shadow tens of meters high almost covered this big fish. However, when the seal pressed down, it began to burn too. “What’s this?”

Han Fei quickly took back the Water Stirring Seal. But then, the flame had spread from the seal to him and his body started to burn. The high temperature of thousands of degrees celsius burned him badly. Hum!

Han Fei hurriedly covered his body with a spiritual energy protective cover, but the big fish that was thrown out still rushed over. However, what surprised Han Fei was that this big fish was one third smaller.

When Han Fei wanted to attack again, the big fish turned into a flame and pounced on him.

Han Fei was stunned. If this was a real fish, even if its level was high, he wouldn’t be afraid to fight it. But, it was a stone fish that turned into a flame and attached to him!

Although the temperature of the fire seemed only thousands of degrees celsius just now, now he felt as if he were in volcanic magma.

His spiritual energy protective cover was burnt out in less than a minute. Han Fei hurriedly used the Water Control Technique, trying to grab some water from the air. But to his surprise, he only grabbed less than a basin of water from such a large space. More frustratingly, the water immediately evaporated as soon as he condensed it.

Han Fei tried to condense water again, but the temperature was too high, and he had to cover his body with a spiritual energy protective cover again.

“Ho00000!”

Chapter 273 Reach For The Stars

Han Fei resisted for about five minutes, but the power of the flame did not weaken. Therefore, Han Fei simply gave up resisting.

After his spiritual energy protective cover was shattered, Han Fei sat cross-legged and began to practice the Indestructible Body Art. Since being struck by lightning last time, Han Fei hadn't made any progress in the Indestructible Body Art.

He didn't want to practice it because the art consumed too much spiritual energy, unlike before when he was still a fishing master, he could refine his skin with only tens of thousands of points of spiritual energy.

However, since being struck by lightning last time, his entire physique had been improved by a level, and his flesh, bones, and marrow had all been tempered evenly.

Having paid such a high price, Han Fei certainly couldn't let this flame really burn his skin and flesh away. If he only had a skeleton left, could he still live? He began to practice the Indestructible Body Art, but half an hour later, his clothes were burned out, so was his hair. His skin had been burnt away but no blood flowed out.

That was because he had been burned and charred.

At this time, the flame began to abate. Under the charred skin, new skin grew.

Thinking about it for a moment, Han Fei figured out why the flame let up. This fire was also a kind of energy and the heat came from the energy. Since he used this energy to temper his skin and flesh, the flame would certainly subside.

Of course, if he used spiritual energy to offset this energy, it was not worthwhile and would consume a lot of spiritual energy as well...

Two hours later.

Han Fei changed his skin.

One day later.

The flame was no longer burning. Han Fei didn't know how many times he had changed his skin, and the old skins and flesh turned into flame energy that covered his body.

Three days had passed.

When the last bit of flame was burned out, Han Fei couldn't help being shocked. This flame was really powerful! The small mass of fire burned for three days and three nights despite the fact that he had been consuming its energy. How much energy did it contain? Han Fei got up and soot fell all over the ground. Han Fei's eyelids twitched. This was not crust but his old flesh and skin!

However, fortunately, Han Fei found that he had lost a lot of weight. At that second, he took a deep breath. Finally! He became thin again!

Although Han Fei didn't know exactly how well his skin was tempered, he could feel that his flesh and veins seemed to be tougher. He wanted to find someone to fight to try it out.

"Haha, I'm handsome again!"

Han Fei was overjoyed. He vaguely remembered that Old Jiang once told him that he could become thin again when he became a peak-level great fishing master. But now, he returned to his original figure in advance. Now he had a very "proportional" figure.

Han Fei took a change of clothes from Forge the Universe and put them on, but suddenly, he felt that something was wrong.

Han Fei touched his head and was stunned.

"No! Where is my hair?"

Han Fei cried. He became bald?! That was really too much...

He immediately gathered spiritual energy on top of his head. However, to his despair, his hair still didn't grow!

"F*ck... What the hell is this f*cking place? Give my hair back! Which son of a bitch put this fish here? Come out! I'm gonna kill you!"

Han Fei was desperate. I used to be fat, but I still had hair, but now, I'm bald, which is even worse!

Han Fei had been trying for a whole hour, but still no hair appeared on his head. It seemed that something was hindering the growth of his hair.

Finally, Han Fei accepted reality. He found a piece of dark red cloth from Forge the Universe, refined a bandana, and wrapped it on his head.

Han Fei muttered, "My hair will definitely grow out. It's okay. I'll ask the president about it when I go back."

The stone fish was gone, but the seal had still not been removed. Han Fei looked up, shot out a fishing line, and wrapped it around the pillar.

Whoosh...

Han Fei climbed up the pillar, and after climbing for a long while, he finally stood on the top of the pillar.

However, to his surprise, the pillar did not reach the top. Now, he was about fifty or sixty meters above the ground and the other pillars were much higher than the one he climbed.

He looked up, only to find that those flashing light spots were still far away. However, he could vaguely see some of them, which were small glowing balls. Among them, some glowing balls seemed to be floating towards Han Fei consciously and fell a hundred meters away. This distance was precisely the range that the fishing hook could reach.

Huh? Shall I fish for these balls?

Han Fei thought for a while but didn't make a move. He climbed the first pillar, which was the shortest one. Then he waved his fishing rod and wrapped it around another pillar.

With a swoosh, Han Fei jumped onto the second pillar. However, this time, he felt a pressure pressing on him. This felt a bit like the pressure he felt when he was walking on the chain.

"Haha! How can I be held down by such little pressure?"

Han Fei threw the fishing hook twice and reached the top of this pillar.

This second pillar was about 50 meters higher than the first. This time, he saw it more clearly. The little stars that were originally more than a hundred meters away from him had become larger balls. There seemed to be something in every ball.

"No, I need to climb another pillar."

This time, Han Fei felt that the pressure on his body was greater. When he climbed to the top, he finally saw clearly the glowing balls ten meters away.

In the glowing ball closest to him, there was a spear, silver and shining.

Han Fei took out the Snow Silver Rod and compared it with the spear in the glowing ball. They seemed a bit similar.

Huh! This place is really special. There was an opportunity outside the door, although it was more like a test. And the iron chain must be the second test. After the iron chain, there is the third test in the first palace. Every time I pass a test, I get an opportunity. In other words, there are actually three tests and three opportunities!

Han Fei frowned. He thought of the stone fish. Could ordinary people handle that stuff? Han Fei could be sure that Luo Xiaobai would definitely not be able to handle it because they conflicted in elemental nature.

Then Han Fei wondered if he didn't touch the stone fish, would it not have come to life? He was a bit worried, wondering if the others also encountered the same stone fish...

Han Fei looked at the spear but did not intend to take it. This spear didn't look better than the Snow Silver Rod in his hand. It would not be worth it if he just got this spear after being burnt for three days and three nights!

Han Fei continued to climb up.

The fourth pillar.

The fifth.

The sixth.

When Han Fei climbed to the sixth pillar, his body felt an extra thousand pounds of pressure.

“Nine Tails, attach.”

This time, Han Fei didn't use the fishing rod. At the sixth pillar, the fishing rod could barely hold him, so he was sure the fishing rod could no longer hold him on the seventh pillar. When the nine-star chain attached to the seventh pillar, Han Fei felt something suddenly pressing on him and he slid five or six meters down.

“Wanna push me down? No way.”

On the seventh pillar, Han Fei glanced at those brilliant balls and then ignored them. There was still another pillar!

“Little Gold, attach...”

Han Fei spread his wings and the nine-star chain fastened to the eighth pillar. He just wanted to fly over, only to be pressed down by a sudden pressure, and he almost fell down. Thanks to the nine-star chain, Han Fei hung upside down on the pillar, panting.

“Hoho, the highest pillar must have the best treasure.”

Han Fei straightened up with difficulty and moved up step by step. He wanted to fly up, but the pressure was so great that he couldn't fly.

Han Fei was sweating profusely. “Even if I can't use my wings, I still have claws and the chain. Worst case, I can move up inch by inch!”

Chapter 274 Let's Fight

It took Han Fei a full day and night before he finally climbed the eighth pillar. Fortunately, there wasn't a ninth. Otherwise, he definitely wouldn't have been able to climb it.

He didn't think anyone could do better than him. Without a special physique like his, no one would have been able to climb the eighth pillar.

If only there was a crane here! Han Fei lay on top of the eighth pillar, panting. Fortunately, at the top of the pillar, the pressure was reduced.

As soon as Han Fei raised his head, he saw a dazzling light ball that almost touched his face. Um, the eighth pillar was different from the previous seven! For the other seven, he needed to get the light balls with a fishing rod. But on the eighth pillar, the light ball was right on the top of the pillar.

Han Fei grabbed it, and it felt like a water ball but seemed a bit different. He slowly reached a hand in but there seemed to be endless space in it. He fumbled and fumbled and finally grabbed a cold piece of iron.

Han Fei was very excited. It must be a treasure! Will it be an ultra-quality spiritual weapon? Celestial weapon? Divine weapon?

The light ball turned into a glittering gleam, which faded away.

Han Fei was dumbfounded, rubbed his eyes, and looked at the palm-sized token in his hand. The front of the token was engraved with the word "Sea", and on the back was an undulating wave-shaped carved pattern.

"That's... It?"

"Where is my ultra-quality spiritual weapon?"

"Where is my divine weapon?" "Are you f*cking kidding me?"

Han Fei was stunned. He climbed all day and night, moving up inch by inch, only to get a token?! What was the use of it?

Han Fei bit the token twice and slashed it twice with a Blue Sea Wandering Dragon Dagger but couldn't even leave a mark on it. So, he just threw it into Forge the Universe. He knew that this token must be a treasure. Otherwise, there was no need to hide it on the eighth pillar. But the problem was that he didn't know how to use it. In terms of short-term value, it was not even worth a mid-quality pearl!

Of course, Han Fei was not a short-sighted person. This token might be of great use in the future. Thinking of this, Han Fei took out his fishing rod and cast the fish hook out...

Although the token was temporarily useless, there were still many other light balls here! Each ball represented a weapon.

When Han Fei cast his fish hook, however, those light balls immediately swished away and escaped hundreds of meters away from the fish hook.

Han Fei was dumbfounded. No... What is this? How did they all escape from me?

Thinking of the steles outside, Han Fei was helpless. So was everyone only allowed to pick one of these light balls? "Well, let me try the seventh pillar."

Han Fei jumped...

Boom!

A huge pressure instantly pressed on him. Before releasing the nine-star chain, Han Fei fell straight down as fast as an arrow off a bow.

"Damn... Nine Tails..."

The nine-star chain quickly shot out, but in the next second, only the sound of the chain rubbing the stone pillar was heard, and in the sparks, Han Fei still plummeted.

BAM!

"Ooof..."

Han Fei vomited a mouthful of blood, feeling that his bones were falling apart. To be exact, he didn't fall from the sky but was pressed down by some force.

Han Fei lay on all fours on the ground and his internal organs were hurting sharply.

“Huh?”

Suddenly, Han Fei heard the sound of water. Water? Is there water here?

When Han Fei sat up, to his shock, there was no palace but only seawater around him. And he was lying on his stomach in a stone pit halfway up the mountain.

“Huh? Am I out of the palace?”

Suddenly, Han Fei felt that something was wrong behind him.

Clang!

Han Fei was stabbed hard and sent flying. It seemed that his skin was punctured a little bit.

“A spiritual weapon?”

Han Fei immediately moved his body aside and kicked out a stone under his feet. At the same time, he sprinkled a shower of healing energy on himself.

The cold light thrust at him from the side again. However, this time, Han Fei grabbed this spear and summoned the Blue Sea Wandering Dragon Daggers out to attack the one who was attacking him.

“How could it be...”

Among the continuous clanking sounds, Han Fei finally saw clearly the man attacking him. To his surprise, he hadn't seen this person before, who was not among the group of people who entered the palace with him.

BAM!

The man's spear flashed with spiritual energy, and when he pulled his spear back with great difficulty, he was shocked. How tough is this guy's body? How can he be unhurt being stabbed by me?

Han Fei smiled and waved his hands, taking all the Blue Sea Wandering Dragon Daggers back.

Han Fei said, “I'll give you a chance. Come on, fight me and give me your Fiery Mountain Token, and then I will let you go.”

The man raised his eyebrows. “Are you... Han Fei?”

The man almost vomited blood in chagrin. Just now, Han Fei suddenly popped up with his back to him. Besides, this guy seemed to be bald. How could he know he was Han Fei?!

This man took a few steps back and said, “Let's just stop here, OK?”

Han Fei smiled. “You just stabbed me! How can I just let you off? Fight me and I'll let you go. Don't worry. I won't use knives, my spiritual beast, or contractual spiritual beasts.”

Han Fei grabbed the Snow Silver Rod and pointed it at the man. From his attack on him just now, Han Fei could tell that this man was definitely not weak, not even weaker than Kong Yunfei. How could a person who could puncture his skin be weak?

The man hesitated not because he was afraid of Han Fei, but because the blow just now made him discover that Han Fei was really strong. It seemed not worthwhile to waste time here.

However, Han Fei didn't let him go.

Escape? He wasn't afraid of Han Fei, not to mention that he might not be able to escape.

"Han Fei, remember, I am Qin Wuyin from the Second Academy. I would rather stand to die than kneel to live. If you want to fight, then come and use your full strength." Han Fei blinked. "Qin Wuyin? Aren't you in the secret realm?"

Qin Wuyin shook his head. "I came a bit late and couldn't enter, so I just stay here."

Han Fei suddenly cursed, "Bullshit, Qin Wuyin is a hunter, but you're using a spear. Why do you pretend to be him?"

Qin Wuyin suddenly disappeared, and his voice rang in Han Fei's mind, Who told you that I'm just a hunter?

Rip!

The seawater was ripped and a silver bow-shaped spear cut across Han Fei's ribs, leaving a three-inch-long cut. The spear pierced into his flesh and hit Han Fei's bones.

BAM!

As Han Fei burst out with spiritual energy, Qin Wuyin appeared dozens of meters away. Holding his spear, he looked at Han Fei with a shocked look. "How can your body be so tough?"

Han Fei used the Divine Healing Technique and his wound was healing quickly.

Han Fei twisted his neck. "I got some chances. Well, you are strong too. This spear must be a low-quality spiritual weapon, but there is no spirit sealed in it, right?"

Han Fei shook his head in disappointment. He had thought that this time his skin had been well tempered! But it proved that it was not as much as he thought! Han Fei frowned. If it were Xiang Zuozuo, even if she couldn't pierce his body, her spear would be able to go three inches deep into his skin and endanger his life.

Han Fei raised his head with a jerk. "Come on, let's continue!"

Since learning the knife techniques, Han Fei didn't spend much time on rod techniques, so he wielded his rod well, although not as well as Zhang Xuanyu. However, Qin Wuyin seemed to rely on his extremely fast speed and frequently hit Han Fei with his spear.

CLANK...

Qin Wuyin really wanted to give up. I don't want to fight a magic weapon or a spiritual weapon! Han Fei's body is too tough to pierce through! He's making me mad!

Seeing that Qin Wuyin's attack frequency had slowed down, he stretched and flicked the Snow Silver Rod, and his body twisted, avoiding Qin Wuyin's attack to attack him back.

Without giving Qin Wuyin time to rest, Han Fei launched a Spiral Strike at him, which was blocked, and Han Fei swung the Snow Silver Rod at him with great momentum, a bit like Zhang Xuanyu's Seven-Layered Waves in Furious Sea.

"Puff...."

Qin Wuyin spouted a mouthful of blood.

Han Fei lightly fell on a stone, sprinkled a shower of healing energy on himself, and after thinking about it, he did it on Qin Wuyin too. "Okay, now I know why you can rank fifth. You're neither an excellent hunter nor a soul warrior. In the two professions, you can't even rank in the top ten. You seem to be versatile but not an expert on either of the professions. You are a lot weaker than Xiang Zuozuo... Give me your Fiery Mountain Token and you can go."

Chapter 275 The Masked Man

Qin Wuyin was speechless. I just wanted to ambush people here!

But the first one I ambushed was Han Fei?!

I am ranked fifth in the top 100! I may not be able to rank in the top ten based on my individual profession, but I am the fifth in overall ability!

Qin Wuyin reluctantly took out 16 Fiery Mountain Tokens and threw them all to Han Fei. If he took out too few Fiery Mountain Tokens, Han Fei would doubt he didn't give him all. He secretly exclaimed that the Fourth Academy was really strong!

Han Fei was very satisfied. Seeing Qin Wuyin slipping away, he didn't need to chase him at all. Now, with the Fiery Mountain Tokens in Xia Xiaochan's hands, they had 111!

After Qin Wuyin left, Han Fei stayed put. From what Qin Wuyin said, he could guess that he might be the first one to come out.

He was a bit worried. Could the other four survive the flames of that stone fish? Also, since Qin Wuyin, the fifth place, was outside, was there really no strong master in the temporary combination of the three academies, or was there someone else?

Han Fei sat cross-legged at the entrance of the cave and waited for a full day. He did nothing else but tested his body repeatedly. He discovered that spiritual class weapons could hurt him. But if people like Qin Wuyin only used a magical weapon, they wouldn't be able to break his defense.

Moreover, Han Fei discovered that the energy in his Dantian did not really disappear, but was transformed. The original mass of energy was now scattered throughout his muscles and flesh.

What did this mean?

This seemed to indicate that he needed at least one or two breakthroughs to fully absorb this energy. This was why he felt that the Indestructible Body Art had not met his expectations.

One day later.

Han Fei was studying the Fish Avatar Technique. He was not in a hurry to deduce it. Even the mortal-level Fish Avatar Technique had made him pause with thought.

Suddenly, Han Fei looked up, only to see a big black hole suddenly appearing in the sky, and a group of people were falling from the sky in various poses.

Han Fei took a breath of relief. That's great they're still alive!

"Huh! Where is Luo Xiaobai?"

The people who came out hurriedly adjusted their postures. Only Le Renkuang, just like he, lay directly on the ground. Li Hanyi and his teammates quickly gathered together. The five-people team lost one more member and only had four members now.

Kong Yunfei took to his heels as soon as he landed. He was alone. If he continued to stay here, he would surely be robbed!

Xia Xiaochan flashed and appeared beside Han Fei. "Hey! Why did you come out in advance?"

Zhang Xuanyu and Le Renkuang who had got up also ran over. Le Renkuang screamed, "I was almost killed! Several times, I thought I was going to die. That flame was really horrible!" Zhang Xuanyu sighed. "Exactly! I thought I wouldn't be able to see you again..."

Han Fei was shocked. Did everyone encounter that fire? But if that's the case, how could Zhang Xuanyu and Le Ren Kuang have survived it?

"Wait a minute, you..."

Zhang Xuanyu suddenly looked at Han Fei. "Huh! Feifei, you've become much thinner..."

Le Renkuang was shocked. "Damn... How did you lose so much weight? Am I the only fatty now?"

Xia Xiaochan surreptitiously reached behind Han Fei's head. Han Fei immediately jumped away from her and his face changed greatly. "Xia Xiaochan, what are you doing?"

Xia Xiaochan blinked. "Han Fei, are you bald?"

Le Renkuang and Zhang Xuanyu noticed that Han Fei's head was wrapped in a strange bandana.

Le Renkuang pointed at Han Fei, his eyes wide open. "Feifei, was your hair burned out?"

"Poof... Poof..."

Xia Xiaochan seemed to be unable to hold back her smile and burst out a bunch of bubbles underwater.

Han Fei said with a black face, "Bullshit... Wh, what do you know? Only when you have no hair, your handsomeness can be best reflected."

Zhang Xuanyu squinted at Han Fei. "I have hair but I am handsome..."

Han Fei rolled up his sleeves. “Zhang Xuanyu, I give you a chance to reorganize the language...” If they weren’t in the water, they would have laughed out loud. Han Fei changed the subject immediately. “Where is Xiaobai? Why didn’t she come out with you?”

Everyone immediately stopped laughing and looked worried. Xia Xiaochan said, “The entrance of the cave hasn’t disappeared. She should be okay. In terms of life-saving means, Xiao Bai is the strongest among us.”

Han Fei’s face changed slightly. “Could it be that fire? I felt it was very powerful. I resisted it for three days and nights before absorbing it.”

When Han Fei said this, all three of them looked at him in shock.

Han Fei blinked. It seemed that something was wrong. Did he say something wrong? Han Fei asked, “Why are you looking at me?” Zhang Xuanyu was surprised. “Did you resist that fire?” Han Fei asked, “You didn’t?”

Le Renkuang was shocked. “Nonsense! How can that thing be resisted? I had thought I would be burned to death. But when the flame burned into my body, it turned into an unknown force. Didn’t you find that we have all upgraded?”

Han Fei froze. “???”

His gaze fell on Le Renkuang, Xia Xiaochan, and finally Zhang Xuanyu. Even Zhang Xuanyu had upgraded! Not only that, but he also seemed to be an advanced peak-level great fishing master now. “Gulp...” Han Fei was dumbfounded. So I spent three days and three nights trying so hard to resist an opportunity?!

“Damn it...”

At that time, Han Fei felt as if thousands of Iron-headed Fish were galloping in his heart. He really wanted to slap himself hard.

F*ck! How could I know it was actually an opportunity?!

Xia Xiaochan looked at Han Fei strangely. “How tough is your body? I can’t believe you could even resist that kind of flame!”

Han Fei was thinking about how to explain it to them. But at this moment, a man and a woman appeared in the air.

“Xiaobai”

In an instant, everyone’s face changed drastically. The masked man appeared from the cave carrying Luo Xiaobai who was bound with a circle of glowing ropes.

The four of them were immediately enraged.

Xia Xiaochan’s face became all dark. “Asshole, let Xiaobai go.”

Han Fei was furious. “You are looking for death.”

Le Renkuang pressed his armor box on the ground with a jerk and cracks appeared on the ground.

Zhang Xuanyu clenched his rod and pointed at the masked man. “No matter who you are, you’d better let her go.”

On the other side, Li Hanyi and his teammates were surprised. Why do they suddenly become hostile with this masked man?

Lin Shengmu sent them a message via voice transmission, Hanyi, chance! Take the chance to cooperate with the masked man and snatch the Fiery Mountain Tokens from Han Fei’s team.

Li Hanyi frowned. Don’t move rashly. Let’s see what will happen.

The masked guy said through a voice transmission, Who among you got the thing on the eighth pillar? Hand it over, or else I’ll kill her.

Han Fei’s face suddenly became all dark, but he didn’t notice that Xia Xiaochan beside him trembled slightly. Han Fei took a step forward. “Why should I believe you?” The masked man said, “Well, so it’s you. You guys! I don’t care about the Fiery Mountain Tokens, other chances, or exotic treasures. But you have happened to take what I want... My goal is only that thing. Give it to me and she can live. You have no choice but to trust me.”lai

Han Fei looked at Luo Xiaobai who looked very feeble and was now looking up with difficulty, blinking at Han Fei.

Han Fei asked through a voice transmission, What did he do to you?

The masked man said lazily, “Don’t waste your effort. The rope in my hand is called the Spirit Sealing Rope. Now she has no spiritual energy and her power is sealed, so she can’t hear you through a voice transmission.”

Their faces all changed, and Le Renkuang’s hand that was clenching the armor box crackled and seemed ready to make a move at any time. Xia Xiaochan also gathered spiritual energy on her feet, seeming to be preparing to use her flash ability.

The masked man said, “Xia Xiaochan, I know you. Your flash ability is indeed extraordinary, but I promise that I will be faster than you. Before you arrive, she will die. Do you want to try?”

Han Fei said to the other three through a voice transmission, Don’t rush. I have a way... Zhang Xuanyu, prepare for a soul attack. Xia Xiaochan, prepare to attack.

With a flash under Han Fei’s bandana, Little White and Little Black appeared.

Chapter 276 You Even Attacked Yourself?!

Because Little Black and Little White were inseparable, if he summoned Little Black, Little White would also appear.

Seeing Little White, the masked man snorted coldly. “Han Fei, I have given you enough respect. Give me the thing you found, and I will let her go. I’ll only give you five minutes to consider your choice.”

Han Fei responded coldly, “That thing is in the belly of my spiritual beast.”

With that, Han Fei asked Little White to open his mouth wide, he fumbled about inside and took out a token. However, it was not the one he just obtained but the “Jail” token he found from the Hexagon Starfish’s stored treasure.

The masked man was very excited to see the token. Sure enough, it was obtained by Han Fei.

The masked man instructed, “Give it to me.”

Han Fei held the token. “Undo your Spirit Sealing Rope first.”

Of course, Han Fei did not expect the masked man to really undo it. He said to the others through a voice transmission, Get ready to attack him.

Sure enough, the masked man didn’t listen to Han Fei. Instead, he drew a knife and directly pierced Luo Little White’s back. “I told you, give me the token.”

Seeing this scene, Han Fei gnashed his teeth and immediately threw the token to him.

At the moment when the masked man was about to take the token, Han Fei’s spiritual energy exploded. “Little Black, kill him.”

The masked man never thought that there might be a fish lurking next to him, let alone that a fish could bite through his flesh.

The masked man suddenly loosened his hand and grabbed at his neck.

Han Fei ordered, “Attack.”

Xia Xiaochan and Zhang Xuanyu, whose eyes had already turned red, darted out frantically.

Zhang Xuanyu, with bloodshot eyes, threw a powerful soul attack at the masked man. Xia Xiaochan flashed and appeared in front of the masked man, blocking his knife and at the same time, wrapped her dagger with surging spiritual energy and launched a Supreme Stab at him.

BAM!

Just as Zhang Xuanyu’s soul attack fell on the masked man’s mind, a barrier suddenly appeared, which blocked Zhang Xuanyu’s attack.

And Xia Xiaochan’s dagger, just as it was pierced into the body of the masked man, was shocked back by a huge force. Fortunately, Xia Xiaochan grabbed Luo Little White and pulled her away from the masked man.

In the meantime, Han Fei had Little Gold attach to him. With a golden light, the nine-star chain and the two wings of the Feather God Ray suddenly appeared. In the blink of an eye, he reached Luo Little White’s side and sprinkled a shower of healing energy on her.

Everything happened so quickly. Knowing that the other party had taken the upper hand, the masked man grabbed the token and tried to flee.

Han Fei immediately pursued him and at the same time glanced at Li Hanyi and the others not far away. “If you dare to attack us, we’ll be enemies moving forward!”

Le Renkuang failed to play a role in the rescue operation just now. That was because he did not have the special attack methods of Zhang Xuanyu and Xia Xiaochan. Therefore, at this moment, he held the armor box and looked at Li Hanyi and his teammates coldly. "Hey, don't be stupid."

Li Hanyi frowned. How dare this guy threaten him? However, the scene where Han Fei and the others saved Luo Little White stunned him. Their tacit cooperation was simply perfect.

Only in the blink of an eye, Luo Little White was rescued. Their speed was too fast! Moreover, Zhang Xuanyu seemed to be able to launch soul attacks.

But unfortunately, others were not as cautious as Li Hanyi.

Lin Shengmu ignored the threat of Le Renkuang and said, "Hand over your Fiery Mountain Tokens and we won't do anything to you."

Le Renkuang scoffed. "What if we don't?"

On Li Hanyi's side, Zhong Yue, the hunter ranked fourth who had been silent, suddenly disappeared.

The battle began at the moment he disappeared.

Seeing that there was no room for turning back, Xiang Zuozuo also moved.

"Violent... War... Body."

The skin of Le Renkuang, who was already a peak-level great fishing master, turned all red while his momentum soared and a huge amount of energy was gathered on his body.

In the next moment, thousands of swords and knives flew across the sky.

At this time, Le Renkuang took out a copper hammer from the armor box and swung it at Xiang Zuozuo.

Boom...

The waves rippled over a thousand meters in an instant. Xiang Zuozuo was hammered into the ground and Le Renkuang also crashed into the mountain, smashing a hole into its side.

But he immediately came back. In his violent state, he could even fight Han Fei to a draw. How could he be afraid of Xiang Zuozuo?

"Ho000000..."

With a dragon howling, the Giant Arowana appeared. The dragon roared like rumbling thunder and shook the seabed. As Xia Xiaochan disappeared, dozens of her shadows flashed in different places on the seabed simultaneously.

When she reappeared, Zhong Yue was drenched with blood and was stabbed dozens of times by Xia Xiaochan.

On the other side, Su Yebai, Lin Shengmu, and Zhang Xuanyu vomited blood at the same time. The invisible waves surged in the water, and Zhang Xuanyu grinned. "Over my dead body."

Xia Xiaochan said coldly, "Ranked in the top ten? So what? Let me teach you a good lesson!"

They exchanged blows as fast as bolts of lightning. At this moment, Le Ren Kuang, Xia Xiaochan, and Zhang Xuanyu were like three walls.

This scene stunned Li Hanyi and his team members! So was this the Fourth Academy's real strength?

At the same time, Han Fei had already started fighting the masked man.

Needless to say, the masked man was strong, very strong. The nine-star chains danced wildly in the sky, the wings of the Feather God Ray burst out with mystic rays, and his Blue Sea Wandering Dragon Daggers formed a long snake.

But the masked man managed to dodge all the attacks with his weird footwork and strong physique.

Not only that, after Han Fei chased him for nearly a hundred miles, the masked man suddenly turned around and attacked Han Fei. "Han Fei, you liar, give me the Sea Token or die."

Han Fei sneered, "You wish! You wanna kill me? Come and try!"

Suddenly, the masked man's spiritual energy soared and he changed from a peak-level great fishing master to an Intermediate Dangling Fisher.

He brandished his sword and the nine-star chain and the Blue Sea Wandering Dragon Daggers were all sent flying. The long sword cut through the air and was thrust at Han Fei's chest.

"Spiritual Energy Protective Cover."

"Fury." "Water-Stirring Seal Technique."

Bam! Bam! Bam!

The sword shattered Han Fei's protective cover and the Water-Stirring Seal was hit flying. The sword Qi hit Han Fei's shoulder and pierced through it.

Han Fei was shocked. Just now, he felt the Water-Stirring Seal crack.

BAM...

Blocking another attack, Han Fei was enraged.

"You are not from the other three academies. Did you conceal your strength and sneak into the Fiery Mountain just for this token? Well, you can't have it, so there!"

The next second, the Blue Sea Wandering Dragon Bow appeared in his hand.

Without looking at the direction, he shot out one arrow after another...

He shot five arrows in a row and every arrow was more powerful than the last. The spiritual energy the fifth arrow consumed was even more than all spiritual energy that an ordinary great fishing master could have. At this moment, the five arrows danced, chasing the masked man frantically.

Han Fei pretended to be weak and staggered in the seawater.

The masked man was overjoyed and immediately rushed to Han Fei to kill him. Just when he was about to reach Han Fei, he saw Han Fei suddenly raise his head, one eye black and one eye white, a very eerie scene.

Han Fei slightly moved his body and brushed past the long sword in the hand of the masked man. And in his hand, the Blue Sea Wandering Dragon Daggers were boiling with spiritual energy.

Crack...The masked man was shocked to find that his defense was shattered.

BAM!

However, at this moment, Han Fei felt that there was a force in this person to stop him, which was a force that didn't belong to this young man.

But Han Fei waved his hand and fended off the force. Then he buckled the masked man's shoulder with his backhand, grinning ferociously.

In the air, five spiritual energy arrows arrived instantly. The masked man was dumbfounded. In order to keep me here, you even attacked yourself?

BAM, BAM, BAM!!

Arrows burst one after another. As Han Fei saw the masked man being hit by the arrows, he slightly moved his body.

At the same time, the Blue Sea Wandering Dragon Daggers were inserted into the body of the masked man again.

Chapter 277 I Don't Care Who You Are

Clang, Clang...

Locking the masked man with the nine-star chains, Han Fei smiled and cut the masked man crazily with a Blue Sea Wandering Dragon Dagger. The masked man was almost crying. He could not perform any counterattack at all. The defensive barriers in his body were full of cracks. If it went on like this, he would be killed.

"Ah... Han Fei, you should be dead!"

The masked man had stabbed Han Fei's abdomen twice, but Han Fei simply ignored it as if he were crazy. The masked man shouted in fear, "Han Fei, I'm from the Sun family of the Thousand Star City. You can't kill me, or even the Fourth Academy can't protect you!"

Yet, Han Fei turned a deaf ear to it and merely continued slashing, determined to slash whatever barrier inside the man into pieces with his incessant spiritual energy.

Crack!

The masked man was panicked. "Han Fei, the Sun family will not let go of you... Han Fei..."

"You're too noisy!" "Puchi..."

Han Fei stabbed through the masked man's heart, putting an end to his life.

A moment later, Han Fei canceled fusion and sat weakly on the ground. He hurried to perform the Divine Healing Technique on himself.

This masked man's strength was completely beyond his expectation. Though the power that the man acquired was not steady, the man was still as strong as a Dangling Fisher after the enhancement.

If he had not protected his chest with the Water-Stirring Seal Technique, if the Nine-Tailed Mantis Shrimp and Little Gold were not attached to him, and if he hadn't practiced the 108 Spirit-Absorbing War Bodies, it was possible that he might've been killed.

After taking a brief rest, Han Fei dared not to stay any longer. He searched the masked man with his heavy body, only to find that the token of "Jail" was gone.

He was delighted after he found a Sea Swallowing Seashell from the guy.

Scanning the Sea Swallowing Seashell, Han Fei realized that it had a coverage of around a hundred square meters. Having no time to examine it further, he simply extracted the Fiery Mountain Tokens and the Jail Token.

He was surprised to see that the guy had looted 29 Fiery Mountain Tokens.

Collecting the masked man's Sea Swallowing Seashell, Han Fei looked back and thought to himself, You asked me not to kill you? Would you have let me go if I spared you? You were just being silly...

The moment the masked man was killed, a middle-aged man slapped his desk and walked out of the Thousand Star City in one step.

Han Fei immediately retreated at full speed. He did not stop at all except when he took a few breaths in the Bubble Algae.

By the time Han Fei returned, the place where the rest of his team was had been messed up. Zhang Xuanyu was lying on the ground and panting hard clinging to Luo Xiaobai's vines.

Le Renkuang was fully covered with blood, with dozens of wounds. He was panting next to the vines too.

Xia Xiaochan's hair was messy. She was standing on a rock, but Han Fei could see that her hands were shaking. She must've been exhausted.

Luo Xiaobai had woken up, but she was terribly wounded too.

Seeing that Han Fei was back, Xia Xiaochan was greatly relieved and she sat on the rock.

Without a word, Han Fei immediately healed everyone.

Seeing that Han Fei was pale and short of breath, with blood flowing out of his body now and then, Xia Xiaochan rose and asked, "How are you? Are you hurt?"

Han Fei was relieved to see that everybody was fine. He cast the Divine Healing Technique on himself and said, "That jerk hid his capabilities."

Xia Xiaochan asked, "Is that jerk dead?"

Han Fei replied quickly, "He is. But the guy is very strong. He's from the Thousand Star City."

Immediately, his teammates changed their expression.

Luo Xiaobai frowned. "Not good. Let's find an exit and get out of the Fiery Mountain as soon as possible."

While performing the Divine Healing Technique on them, Han Fei asked in surprise, "What's wrong? It's only the sixth day, isn't it?"

Luo Xiaobai shook her head. "If he's really from the Thousand Star City like you said, this guy must've sneaked into the Fiery Mountain for a certain purpose, the city folk would never normally go to a small town like the Blue Sea Town. Maybe, the guy came with more than one person."

Han Fei found Luo Xiaobai's tone weird. He was curious why she knew of the Thousand Star City so well. Was she from the Thousand Star City too?

Before Han Fei had the time to think, Le Renkuang said, "Let's hurry up! We've got the greatest treasure of this place. It's time to go."

Zhang Xuanyu said lazily, "What's the rush? This is a secret realm. What are you scared of? That someone will attack us?"

Luo Xiaobai said, "Let's take a rest and break through the circle of the silver fish. In any case, we can't stay long here."

Han Fei sat down too. He was too exhausted just now. He might've been defeated by that guy if he weren't capable of so many skills. The guy's sword, in particular, was extraordinary enough to break his Water-Stirring Seal.

Seeing their misery, Han Fei couldn't help but ask, "Where is Li Hanyi's team?"

Le Renkuang grunted, "The three of us reached a tie with them. But be careful about Lin Shengmu, he's a really vicious man."

Zhang Xuanyu said, "Rest assured, they can't be any better than us. Zhong Yue lost one hand because of Xia Xiaochan, and Su Yebai and Lin Shengmu were terribly wounded... However, that Xiang Zuozuo is really tough. Le Renkuang and I almost failed to stop her when she was on a rampage."

Han Fei slightly nodded. He had known of Xiang Zuozuo's strength after the first battle with her. However, since those people were really bold enough to attack his team, he was determined to get back at them when he saw them again.

Luo Xiaobai said, "Let's gather our Fiery Mountain Tokens and see how many we've got."

Han Fei said, "I just acquired 29 pieces from the masked man. Plus what we had before, it should be 140 in total. Did you find any more just now?"

Luo Xiaobai shook her head. "No."

A moment later, it was confirmed that they had 140 tokens in total.

Luo Xiaobai said, "There's no need to rob anyone now. Let's go out!" Le Renkuang asked in a hurry, "Can we secure the top five places?" Luo Xiaobai said quickly, "We only need to be in the top ten. On average,

we each have 28 tokens, which is a lot. Besides, a lot of people died in the secret realm. Their Fiery Mountain Tokens either fell into the magma or disappeared. So all in all, half of all the Fiery Mountain Tokens are under our control.”

After an hour later, everybody was finally basically recovered, and Luo Xiaobai, who was relatively more wounded, was supported by Xia Xiaochan.

It was not hard for the five of them to pass the silver fish. After they passed the silver fish, they found a floating gate. They did not intend to look for more treasures, as they had earned a lot from the journey to the Fiery Mountain.

In the outside world, the presidents of the three academies and Xiao Zhan were on their respective boats. However, the three presidents all looked awful, because Xiao Zhan was having hotpot on his boat, and they had to keep a distance from him in order to avoid the smell.

Standing at the head of his boat, Xu Tianji stared at the exit and then asked Xiao Zhan, “Xiao Zhan, are you really not scared that you will repeat your mistake?”

Grabbing a piece of fresh lobster meat, dipping it in the sauce, and sending it to his stomach, Xiao Zhan replied unhurriedly, “Scared? Is the Thug Academy ever scared?”

Chu Mengxue asked, “Xiao Zhan, where did the Fourth Academy go exactly? Bai Congye has been hiding for thirty years, but you’re still unwilling to reveal where he is now that you’re out again?”

Xiao Zhan’s hands slightly shivered. Then he smiled, “It’s not as complicated as you think. He merely pissed off someone he shouldn’t have.”

Xu Tianji snorted. “That’s bulls*it. Do you really think we’re idiots?”

Xiao Zhan did not say anything else, because he didn’t care if they believed it or not.

When the presidents were about to ask further questions, the exit slightly trembled.

Wu Junwei shouted, “Somebody is coming out!”

Chu Mengxue was surprised. “It’s only the sixth day, and they’re already done?”

BAM!

Five people broke out of the water. Xiao Zhan spotted Luo Xiaobai the moment she came out. She immediately cast her fishing pole to Xiao Zhan’s boat.

The rest of Han Fei’s team released their hooks too and soon landed on their boat.

Xiao Zhan was quite dumbfounded. “Why are you out so soon?”

Luo Xiaobai simply said quickly, “Sir, hurry up. Let’s go back to the town.” Wu Junwei was angry. “What are you talking about? The trial is not over yet. Why are you so panicked? What have you done down there?”

Xu Tianji asked, “Kids from the Fourth Academy, what did you do?”

The president's first reaction was that Han Fei's team killed a lot of people, or they shouldn't have been so nervous.

Chu Mengxue said, "You're all wounded. You must've fought a lot down there. But rest assured, battles are inevitable in a trial, and we will not punish you."

Xiao Zhan said too, "Don't worry. Nobody dares to attack you."

Luo Xiaobai explained, "No, sir. Someone from the Thousand Star City was among the explorers." Chu Mengxue's face immediately changed. She yelled, "Little girl, you must be responsible for what you say." Han Fei sneered and said, "The Sun family from the Thousand Star City..."

Before Han Fei finished his sentence, an overwhelming power had arrived all of a sudden. The seawater was flowing back, and a person reached from the sky with unparalleled pressure. He was dozens of kilometers away in one second, but then only a hundred meters away in the next.

"Who killed my son?"

Chapter 278 Battle of Experts

In the sky, the man's voice rumbled like thunder, and a wave was surging after his roar.

When the middle-aged man arrived, he gazed at Han Fei coldly.

After being stared at by the man, Han Fei felt like a mountain was laid on his back.

"Pu..."

Han Fei vomited blood, and his back was bent beyond his control.

"Hoooooo!"

Sticking his Snow Silver Rod to the deck, Han Fei tried to raise his head to look at the man in the sky, all of his veins bursting out.

"Humph."

Xiao Zhan's face changed instantly. He stepped on the sea, and the water within a hundred meters all rose. He punched forward, launching a shadow fist dozens of meters long

Boom...

The air and the water within a thousand meters exploded.

Right below where the shadow fist was broken on the sea, a pit a hundred meters deep had been caused. It was not hard to imagine how powerful the collision between Xiao Zhan and the middle-aged man was.

Han Fei couldn't help but vomit blood again.

He couldn't be more shocked by their strength. He felt that they could easily squash him with only one finger.

Immediately, Han Fei secretly activated Forge the Universe and decided to hide himself there in order to make a comeback later if he had no other choices.

However, Xiao Zhan stepped up in the air and unfolded his wings. Different from Fang Ze's white wings, Xiao Zhan's wings were red and glamorous, almost unfitting for Xiao Zhan.

Xiao Zhan was growing more and more intimidating. Very soon, the floating beads of water around him were falling apart.

"Hum..."

A strange big conch appeared out of nowhere.

The strange conch had eight mouths, and from each mouth, a tentacle was extending out.

Determined to fight, Xiao Zhan demanded, "Who are you? Why did you attack my student?"

The middle-aged man, however, frowned and said, "Huh? The Eight-Armed Conch... You are what's-his-name from the Thug Academy..."

"My name is Xiao Zhan, and I will not let go of you if you don't give me an explanation."

When Xiao Zhan roared, the spiritual energy flowed at him from all directions. At this point, Xiao Zhan seemed to have turned into a magnificent demonic god.

The middle-aged man burst into laughter. "You won't let go of me? As a peak Hidden Fisher?"

Han Fei's team and the presidents of the other three academies were all shocked. Xiao Zhan was a peak Hidden Fisher? What about the domineering middle-aged man? How strong was he if he despised a peak Hidden Fisher?

Han Fei whispered, "You run immediately if you notice anything wrong. He's only looking for me."

Zhang Xuanyu yelled, "Who says that he's looking for you. We would've still killed that masked ass*ole without you. Brothers don't abandon each other."

Luo Xiaobai said, "I'm the cause of everything, and I'm going to settle it."

Han Fei said anxiously, "You're going to settle it? Is it something you can settle?"

Xia Xiaochan unsheathed her dagger and said coldly, "I'm not going."

Le Renkuang said nervously, "We can't go anywhere even if we wanted to!"

Seeing that Xia Xiaochan was looking at him angrily, Le Renkuang hurried to change his attitude. "Why would we run? Let's fight him!"

But the battle was completely beyond their level. The middle-aged man snorted and grabbed a handful of water which he forged into a water man. He then threw it into the gate of the secret realm in the Fiery Mountain.

After that, the middle-aged man looked at Xiao Zhan and said coldly, "Let me try you. It's high time that the Thug Academy disappeared."

The middle-aged man extended his hand and clenched it, and an ice serpent a hundred meters long appeared out of nowhere. When the serpent roared, the intense stink from its mouth made Han Fei's legs tremble.

Le Renkuang swallowed and asked, "What's that?"

Han Fei was grave to see the data in his eyes.

<Name> Ice Unicorn Serpent (Sun Liang's spiritual beast)

<Introduction> This is an ice mutation of the ancient dragon bloodline. The freezing power of the serpent can freeze the seawater within a thousand kilometers...

<Level> ???

<Quality> Legendary <Soul Energy>???

Han Fei was shocked. A legendary creature? The experts of the Thousand Star City had those? They were really strong!

Han Fei could see the data of Xiao Zhan's Eight-Armed Conch too.

<Name> Eight-Armed Conch (Xiao Zhan's spiritual beast) <Introduction> This is a mutation of the Eight-Armed Mystic Octopus and the Strange Conch. It boasts unparalleled defense and regeneration abilities. It can also lock down the enemy with its mysterious arrays.

<Level> ???

<Quality> Exotic (mutated)

<Soul Energy> ???

Han Fei took a deep breath. Although the Eight-Armed Conch looked awesome too, it was one level lower in terms of quality. The exotic creatures couldn't compare to the legendary creatures even if they had mutated. If this Eight-Armed Conch's level was higher than the Ice Unicorn Serpent, it might still be able to beat the Ice Unicorn Serpent. But it did not seem likely at this point.

In the sky, eight pillars appeared out of nowhere in eight directions.

Xiao Zhan suddenly rose, and three consecutive explosions burst out of his fist. When he punched out, half of the sky was dyed red.

"Asura Death Punch!"

The middle-aged man's face changed, and infinite snow was raised next to him. He grabbed an ice spear and clapped his hands, and the Ice Unicorn Serpent charged at Xiao Zhan around the spear.

For Han Fei's team, their eyes were almost blinded.

Han Fei only saw that the air was frozen, and the red glamorous fist collided with the weird spear.

Boom...

Crack! Crack! Crack!

The eight pillars were immediately full of cracks. Han Fei's team did not see what happened at all when their boat was knocked away. The presidents of the other three academies were the same. Though they were not weak, their boats were pushed dozens of kilometers away too.

When the boat was blown away, Luo Xiaobai unleashed her vines and fixated her teammates.

Le Renkuang raised the shields in his armor box and shouted, "Armor!"

It was Le Renkuang's only ancillary ability to increase everybody's defense. He cast it on his teammates, not caring if it could really help.

Han Fei shouted, "Attach! Attach!"

The Nine-Tailed Mantis Shrimp and Little Gold were attached to him simultaneously. In the water, their gold and red wings protected Han Fei's team.

BAM!

Le Renkuang vomited blood, and the rest of them were pale too when they were smashed into the ocean.

Under the blast, Han Fei vomited blood too, and the two layers of attachment were immediately dispersed.

"Huh?"

Han Fei did not know that the middle-aged man in the sky slightly exclaimed in shock when he was attached.

At this point, Han Fei was only worried that the fish would attack him.

But as far as his eyes could see, most fish had been killed by the blast and were floating on the ocean.

Han Fei carried Le Renkuang to the surface of the ocean. Everybody had been blown dozens of kilometers away just now, and their white boat was upside down. It was not hard to imagine how horrifying the previous attack was!

Right after Han Fei's team climbed back into their boat, another overwhelming wave consumed them.

Han Fei was greatly appalled, "Shoot..."

They were smashed into the water again. With their capabilities, they had no idea how the battle between Xiao Zhan and the middle-aged man was going.

By the time they climbed back to the boat, the wind and the waves had died out, and Xiao Zhan and the middle-aged man had been separated.

At this point, Xiao Zhan was many kilometers away from them. Though he was still standing proudly, blood was dripping from his hands, and his clothes were half ruined.

The middle-aged man snatched with one hand, trying to pull Han Fei's boat to him.

Xiao Zhan landed on the ocean and stepped on the surface, quelling the tide that the middle-aged man raised, but he vomited blood.

Then, everybody finally saw Xiao Zhan more clearly. He was bloodstained, and one of his arms had nothing but bones left.

But Xiao Zhan sensed none of it. "The Sun family of the Thousand Star City, I'll remember you. I will stomp on the Sun family first thing after I conquer this city."

The middle-aged snorted. "Xiao Zhan, I've only spared you because you couldn't have reached your level without arduous work. You really think I dare not kill you?"

"Hahaha..."

Xiao Zhan burst into laughter. "Kill me? I can make you half dead before you kill me. Why don't you have a try?"

The middle-aged man's eyes flashed, as if he was considering the possibility.

At this point, the masked man's body was taken out by the water puppet that the middle-aged man forged earlier. Gloomily, he looked at Han Fei again.

This time, Han Fei stepped forward and demanded, "old fart, what are you looking at? Your son is allowed to kill other people in the secret realm, but other people can't kill him? That's unreasonable." The middle-aged snorted. Xiao Zhan punched out and broke the invisible wave from him, rescuing Han Fei from his attack.

The man took the masked man's mask off. Looking at his son, he couldn't have seemed more upset, and the tide was surging again.

Chu Mengxue, the president of the Third Academy, was surprised. "Is he Cao Yuan?"

Han Fei was stunned. Cao Yuan? Wasn't he the ninth on the rank of the top hundred students?

However, it didn't matter anymore what his name was.

The middle-aged man looked at him and said, "My son, Sun Ye, died because of you. Submit it now!"

Han Fei roared angrily, "What? Your son demanded something from me, and so do you. How am I supposed to know what you

want?"

Chapter 279 One Attack to Shake the Sky

Everybody looked at Han Fei.

Han Fei was quite appalled at this point, wondering what token he had taken back exactly

The middle-aged man cared more about the token than the death of his son?

Whatever the token was, Han Fei knew that it was much more important than he thought, and he would certainly not admit that he had it.

Immediately, anger, shock, and confusion all appeared on Han Fei's face.

Yet, the middle-aged man snorted and said, "Stop pretending. If my son came to you, you definitely had it. Boy, submit it, and I may consider sparing your life for the sake of the Thug Academy. If you don't submit it, you will die."

Xiao Zhan scoffed. "You're rather bold. You think the students of the Thug Academy are to be threatened by you? Get lost!"

Xiao Zhan berated him with a furious and rumbling voice.

Nobody could be more brutal than the Thug Academy.

Yet, the middle-aged man extended his hand, and the shadow spears surged down like a tide. "Let's see how many times you can resist me, Xiao Zhan."

Right after the middle-aged man said that, a gigantic hand appeared out of nowhere in the sky and slapped him.

The middle-aged man's face changed greatly. He summoned a turtle dozens of meters long to protect him, but he was still pressed into the water. The blast raised a wave a hundred meters tall.

Under the rising wave, people could still hear deafening noises from the bottom of the ocean.

Han Fei swallowed, wondering who could've possibly slapped such an expert to the bottom of the ocean.

In the next moment, the middle-aged man broke out of water, his hair messed up by the slap. "Who is it?"

Xiao Zhan, however, was relieved. "Old Bai, you're late."

"Old Bai?"

"Mr. President?"

Han Fei was lost for words. He didn't know that Old Bai was so brutal.

A person appeared on the ocean out of nowhere.

Old Bai said with his hands on his back, "I didn't know that you were from the Sun family. Little fish, ask Sun Baisheng to come here and see if he's bold enough to kill someone of the Thug Academy. You think you're better than him?"

Old Bai raised his hand and slapped again.

His terrifying power squashed the middle-aged man's attached turtle and canceled their state of fusion. There was a huge dent on the ocean, and Han Fei's eyes bulged.

"Gudu!"

Zhang Xuanyu swallowed. "Our president is rather strong!"

Han Fei was shocked too. "Rather strong? He's inhuman, alright?"

“Pa!”

Han Fei was immediately slapped on his head.

Old Bai glanced at him from the surface of the ocean. “Little baldy, shut up.”

Han Fei couldn’t have looked more awful, as that old fart had knocked off his bandana.

He hurried to cover his head with the bandana again, only to notice that his teammates were staring at his head.

“What are you looking at? Hairlessness highlights the handsomeness of my face!”

Everyone: “...”

Han Fei clicked his tongue. “It really feels great to have someone covering your back! Old fart, keep staring at me! You think you can rob me of my stuff? Your head must’ve been hit by an Iron-Head Fish...”

Han Fei threw out profanities now that Old Bai had his back. He cursed in a hundred different ways in only one moment, making everybody look at him in shock.

The middle-aged tried to swallow his fury. “Little thief.”

Han Fei immediately looked at Bai Congye pitifully. “Mr. President, he cursed me.”

BAM!

Bai Congye was quite delighted by Han Fei’s eloquence. He said, “Is that what you should do when a student curses you? You are an adult. You are a shame to the Sun family.”

The man was almost driven crazy. “Bai Congye...”

BAM!

“You think you can call me by my name?” The middle-aged man roared and unleashed all of his spiritual energy. Immediately, a turtle, a lobster and a big spotted fish popped up.

Bam! Bam! Bam!

After three consecutive slaps, all the three contractual spiritual beasts were slapped back.

Old Bai sneered. “Why? Are you angry? I hope you are. Not just your son, even if your whole family died in the trial, you would still have to lay low.”

Half kneeling on the ocean, the middle-aged man said, “You really think he can protect the Sea Token?”

“The Sea Token?”

At this point, the presidents of the other three academies all changed their expression.

Slightly stunned, Bai Congye looked at Han Fei but then slapped the middle-aged man again. “Why? You think the Thug Academy can’t keep the Sea Token safe? You think that the Sun family is more entitled to it than the Thug Academy is?”

“Ho00000!”

All of a sudden, the middle-aged man disappeared, and when he reappeared, he was a thousand meters high in the sky.

He roared, "Heavenly Star Suppressing the Ocean..."

As the middle-aged man roared, a storm was gathered, and a seal a thousand meters long descended from the sky. The middle-aged man vomited blood at the seal, making it weirdly red.

He had truly been infuriated, and he seemed to be attempting a comeback with a weird technique.

Then, Old Bai took a step forward and raised his hands. Then, infinite water rose to the sky.

Again, there was nothing Han Fei could see.

They had truly seen their godly methods this time.

They didn't know that turning a river or a lake upside down was really possible.

Han Fei gulped, impressed by the president's capabilities.

The sky was still exploding, and the clouds were dimming. As far as everyone's eyes could see, they saw nothing but surging waves.

"One attack to shake the sky!"

Chu Mengxue, the president of the Third Academy, exclaimed in shock, making Han Fei dumbfounded and shocked.

After a whole minute, a middle-aged man rose to the sky covered in blood, fleeing away.

The seawater fell, and the tide gradually died down.

Palely, Han Fei lay on the boat. He saw that Old Bai walked to him with his hands on his back like a regular old man.

Old Bai snorted. "You really thought you were good?"

Old Bai grabbed the boat and turned it upside town, making it float again. But Han Fei regretfully found that his white boat had been stepped on and disfigured by Xiao Zhan in the battle.

Xiao Zhan was panting. "Old Bai, my wounds."

old Bai raised his hands, and a pillar of light fell on the boat. Han Fei felt that a mysterious power was healing Xiao Zhan's wounds quickly. Xiao Zhan's hand that had been reduced to bones were regrowing at a visible speed, and no wounds could be seen anymore after one moment.

Le Renkuang's voice was shaking when he said, "Han Fei, our president seems rather horrifying."

Zhang Xuanyu was sitting on the deck, still stunned by the battle. In comparison, his Seven-Layered Waves in Furious Sea was nothing but child's play and couldn't compare to any random waves in the ocean!

Xia Xiaochan was shocked too. But she was also curious. She asked, "Just now, I sensed the aura of a terrifying monster. Was it real?"

Han Fei smiled bitterly. I sensed it too. I even saw it! The legendary creature was right before us. Of course you felt a terrifying monster.

At this point, the presidents of the other three academies were all shocked. They knew that Bai Congye was good, but they didn't know that he was so good!

Also, it seemed that the middle-aged knew Bai Congye, and Bai Congye knew him too. Was it about something clandestine in the past? They had been curious why the Thug Academy declined all of a sudden back in its heyday. Bai Congye boarded the boat lazily and was angry to see Han Fei's regretfulness. "This is just a boat. It's nothing that it's been broken. Our school is rich now. You can buy a new one..."

Han Fei said gloomily, "But this is a boat from the town! Is it available in the Linglong Tower?"

Old Bai turned a deaf ear to him. He said casually, "It's not a big deal. Just keep the Sea Token. With the name of the Thug Academy, you can have as many Sea Tokens as you want."

He couldn't have sounded more magnificent.

The appearance of Xiao Zhan and Old Bai made Han Fei more and more fond of the Thug Academy. He felt confident to go anywhere now that someone had his back.

Han Fei took out the Sea Token and observed it for a while, before he asked, "Mr. President, what is this token exactly? Why does somebody from the city want it? Also, am I in trouble?"

The others drew close and examined the token too, but they didn't find anything.

Old Bai snorted. "If you want to know what it is, clear the level-three fishery first..."

Chapter 280 End of the Trial

Since the trial was not over yet, and the crisis was already resolved, Han Fei was no longer in a rush. After all, he was covered by Old Bai, who had beaten a big shot from the city easily.

Half a day later, Han Fei woke up from training, and his wounds were mostly recovered.

He was more heavily wounded than anybody else because the enemy gazed at him. He was still scared when he remembered the guy's look.

The moment Han Fei opened his eyes, he saw his teammates whispering to each other before him.

Zhang Xuanyu clicked his tongue. "Why do you think Han Fei lost his hair? His head is so shiny that even an Iron-Head Fish can't compare..."

Xia Xiaochan observed the back of Han Fei's head closely. "Of course, he can easily kill a bunch of Dragon-Headed Fish if he rammed his own head at them."

Le Renkuang asked curiously, "Can't he regrow his hair with spiritual energy? Or maybe it is his special quirk to remain bald?"

Luo Xiaobai, on the other hand, tried to stop them. "He'll be angry after he wakes up if you keep talking about that."

“Hum...”

Han Fei unleashed his spiritual energy and knocked them off. He touched his head, only to burst into fury. “Where’s my bandana?”

Everybody immediately dispersed. Luo Xiaobai appreciated the ocean view, Le Renkuang cleaned up the hotpot, Zhang Xuanyu began to fish, and Xia Xiaochan simply fled with her stealth.

“Outrageous! That’s too outrageous! Do you have any idea what cool means?”

But after that, Han Fei hurried to run to Old Bai who was sleeping on the top of the boat. “Mr. President, can you help me regrow my hair?”

Old Bai sniffed. “I’m incapable of regrowing your hair for you.”

Han Fei wailed, “Please! I can feel that it’s still there, but it’s been blocked by something.”

Old Bai turned around and continued enjoying the sunbath, too lazy to talk to Han Fei.

Xiao Zhan, however, chuckled and said, “You must’ve absorbed too much energy when you built up your body, which disrupted the original energy in your body. Because your major acupoints are sealed by your battle technique, the energy inside your body is overflowing everywhere and stops your hair from growing... It’s not a big deal. To put it simply, you’ve had too much food, and you will be fine after the food is digested.”

Han Fei: “???”

Han Fei’s eyes cramped. He didn’t know that it was the reason.

Xia Xiaochan appeared at the head of the boat. “That’s right. You’re probably the only one who weathered through the fish fire. I didn’t know how you managed that.”

Han Fei was amused. So, had he been too weak to take the tonics? He was really reluctant to admit it.

Han Fei asked timidly, “Sir, when do you think I can get my hair back?”

H shrugged. “Maybe when you become a peak-level great fishing master, or maybe a Dangling Fisher. It’s going to be soon. Don’t be anxious.”

Han Fei was speechless. Don’t be anxious? How can you not be anxious when everybody keeps staring at your head?

Han Fei hurried to cover his head with a hood gloomily.

On the morning of the seventh day, Han Fei made a sauced lobster and devoured it on the top of the boat on his own.

Le Renkuang, however, sneaked to him and said, “Han Fei, you’re suffering from overnutrition. Let me give you a hand.”

Han Fei said without raising his head, “GO away. It’s just a lobster. I can take care of it myself.”

His teammates looked at him, lost for words, as Han Fei had been angry all day after they observed his bald head in the previous day.

Le Renkuang swallowed and said, "I always feel that sauced lobster is more delicious than lobster hotpot."

Old Bai did not really care. He sat down next to the hotpot with a tank of wine. "Let him eat it alone. What's wrong with hotpot? Anything is delicious as long as you can drink with it."

At this point, someone came out of the secret realm, and the first thing they saw was that Han Fei was swallowing a two-meter-long lobster, which made their lips tremble.

This person couldn't have looked more awful when he saw Han Fei, not expecting him to come out so early.

Han Fei, on the other hand, pointed at one of the newcomers and shouted, "You still owe me one Fiery Mountain Token! I came out early exactly to wait for you..." The man felt quite gloomy that Han Fei still remembered it.

The other people were stunned too. Zhang Xuanyu asked, "How do they owe you?"

Han Fei chuckled. "Because I was merciful enough to spare their life. Isn't it reasonable that they give me their Fiery Mountain Token in exchange?"

The man's face darkened. Merciful? Not only did you rob us, you also threatened us to give you one more Fiery Mountain Token. We've never seen anyone as shameless as you...

The man was from the Second Academy. Xu Tianji couldn't help but ask, "What happened?"

The young man heaved a long sigh and tossed a Fiery Mountain Token at Han Fei. Okay! I can't afford pissing you off! Here's one Fiery Mountain Token. Please forget me in the future.

Han Fei accepted the Fiery Mountain Token without guilt and nodded, "You are a smart kid."

Very soon, as people left the secret realm, Han Fei pointed at more of them and demanded their Fiery Mountain Tokens.

Xia Xiaochan climbed to the top of the boat and asked, "How many people owe you a Fiery Mountain Token?"

Han Fei thought for a moment and sighed. "I don't remember. I think it's only a dozen..."

Maybe it would be too humiliating if Han Fei asked for the Fiery Mountain Token with words, so most of them gave it to him when he pointed at them.

But a couple of them were quite ruthless. They simply refused to give anything away.

Naturally, there was nothing Han Fei could do to them... Except that he kept staring at them until they were panicked and worried that Han Fei would come to them later.

One of the guys couldn't take it anymore and threw a Fiery Mountain Token at Han Fei. "Stop staring at me."

Han Fei spat. "Shameless. I will not stop staring at you until you pay your debt."

Then, Han Fei focused his eyes on the last person. Han Fei couldn't quite remember the guy's name, but he remembered robbing the guy.

The guy was quite speechless. He had never seen such a shameless expert who enjoyed bullying the weak.

Eventually, he still gave Han Fei the token, because he couldn't stand everybody staring at him together with Han Fei. It almost made him feel that he was truly a person who refused to pay his debt.

After Han Fei accepted the last Fiery Mountain Token, Li Hanyi's team walked out and noticed Han Fei.

They were slightly surprised. Where was the masked man if Han Fei was having a lobster?

Han Fei looked at Zhong Yue, whose arm seemed unnatural. His hand that was chopped off by Xia Xiaochan seemed to have been connected to him. But it wasn't quite the same. The fracture caused by Xia Xiaochan's saber was smooth, so it was possible to treat the broken arm if it was dealt with in time.

Zhang Xuanyu and the rest of them immediately stood up. Le Renkuang stared at Lin Shengmu and yelled, "Next time I meet you, I'll beat the s*it out of you!"

Confused, Han Fei whispered to Xia Xiaochan, "What did Lin Shengmu do to Le Renkuang? I feel that I missed something."

Xia Xiaochan smiled and replied, "It's nothing. He was just hanged and beaten up. His clothes were almost torn off... But don't tell other people that I told you." "Pu!"

Han Fei spurted out the lobster meat and eyed Lin Shengmu in a different way. Serious? That guy was interested in a man as hideous as Le Renkuang? Le Renkuang immediately looked at Han Fei and then Xia Xiaochan, before he said angrily, "Xia Xiaochan, did you badmouth me?"

Xia Xiaochan snorted. "I'm too lazy to talk about you."

Lin Shengmu snorted too. They stood at the head of the boat and stared at Han Fei. Obviously, they were still fighting. Luo Xiaobai said, "There's no need to be angry. We'll meet again."

Xiang Zuozuo declared, "Damn right we will. My hammers will show you no mercy next time we meet."

Xia Xiaochan peeped at her. "You think anybody is scared of you? I'll deal with you next time."

The situation grew intense. The problem was not the grudge between the two teams, but that the girls in both teams were brutal and ruthless.

After a long time, everybody was gathered. Many of them looked frustrated, as they didn't find any treasure and even lost their Fiery Mountain Tokens. They did nothing more than travel around the Fiery Mountain.

Wu Junwei roared, "Alright. Now that everybody is out, let's see the results!"
