

GOF 501

Chapter 501 Big Fish Phantom

“Huh! You actually survived my attack?”

The big fish was slightly surprised and turned to whip her tail at Han Fei.

BAM!

Once again, Han Fei was thrown heavily into another coral bush, leaving a gully hundreds of meters long on the seabed.

“Puff!”

Han Fei spurted blood and he was stunned. This is only a phantom but it is so powerful! If the real fish were here, wouldn't I be blown to death by a single breath from her?

And Han Fei could feel that the big fish seemed to have defeated him without spending a little effort.

Beside her, the little Time Dragon Carp was crying. “Mom, take me away! Take me out, Mom... Mom, I don't want to be here... Mom, I want to eat delicious food... Mom...”

The big fish tilted her head helplessly. “Baby, you can't go out for the time being. Wait some a little longer! Didn't this man give you delicious food? You can eat his food!”

Then the big fish phantom looked at Han Fei. “Human, take out your food.”

Han Fei: “???”

Han Fei suddenly lunged to his feet, used the Divine Healing Technique on himself, stepped on the Spirit Gathering Formation under his feet, and took a deep breath. With a flash between his eyebrows, Little Black and Little White appeared.

“Fuse...”

“Humph, are you bullying me?! Yes, I can't beat you, but I promise that if you kill me, someone will definitely kill your daughter.”

However, the big fish gave a surprised exclamation again. Suddenly, Han Fei felt the surrounding seawater twist. In the blink of an eye, his fusion state was forcibly interrupted.

“Mom, take me away! Take me out, Mom... Mom, I don't want to be here... Mom, I want to eat delicious food... Mom...”

The big fish tilted her head helplessly again. “Baby, you can't go out for the time being. Wait a little longer! Didn't this man give you delicious food? You can eat his food!”

Han Fei heard that the little Time Dragon Carp was crying and asking the big fish phantom to take her out, but then the big fish phantom said exactly the same words as before? What was going on here?

“That's not right!”

Han Fei quickly looked at his feet, then at Xiao Se and the little Time Dragon Carp, and was shocked.

“Ba... Back in time?”

“F*ck...”

Han Fei was completely stupefied! There was a storm in his heart. Can this fish reverse time? Can it control time?

“Gulp!”

The big fish phantom looked at Han Fei. “Summon your spiritual beasts.”

Han Fei asked nervously, “Wh... Why?”

The big fish phantom said lightly, “Don’t worry. I’m not going to kill you. Let me see those two little fishes.” Han Fei gritted his teeth, thought for a moment, and then with a flash between his brows, Little Black and Little White appeared again.

He had no choice! The phantom on the opposite side was much stronger than he, so he dared not to defy her order. However, this thing was really shockingly strong! She could even reverse time? Who can resist her? If he didn’t call out Little Black and Little White, he might have been killed by her immediately.

But Han Fei wasn’t that scared. Anyway, he still had the Sky Dissecting Finger, which was his trump card.

Xiao Se was dumbfounded. Two little fishes? Isn’t there only one fish?

However, in the face of these strong masters, he dare not speak, let alone ask.

The big fish phantom looked at Little Black and Little White for a long time, and then looked at Han Fei with a complicated expression. “You, how can you deserve... Forget it, you can be called a peerless genius in such a small place. That’s it. Are you willing to be my daughter’s guardian?” Han Fei narrowed his eyes and immediately put away Little Black and Little White, and then said, “No, I can’t be anyone’s servant.” Han Fei was counting time. He had decided to enter Forge the Universe. Although I can’t beat you, I can hide from you! Don’t even think about making me call a fish ‘Master’ like Xiao Se!

Just as Han Fei was about to enter Forge the Universe, he heard the big fish phantom saying, “Forget it. After all, you are barely on the road of invincibility, and I should show some respect to the pride of a genius. Otherwise, the road of invincibility will be broken and you’ll have no value.”

A golden light flashed on the head of the big fish phantom and Han Fei found a quaint ring fell on his hand.

Han Fei’s face changed drastically. “What is this?”

“Don’t worry. I’ve just left a mark on you. Although you can’t be the guardian of my daughter, you have to promise me one thing, or I will kill you now. As for your threat, humph, that’s just a joke. Your vision is still too small...”

Han Fei swallowed. “Ahem... Senior, what is it?”

Han Fei was just making a bluff! His trump card was just the Sky Dissecting Finger, and he certainly didn’t want to use it.

As far as the strength of this big fish phantom, even Old Bai wouldn't be able to resist a single whipping of her tail. Could Old Bai reverse time?

As for Ren Tianfei, he knew nothing about that guy. Would he be willing to fight such a super fierce beast for him?

Han Fei felt it was impossible. After all, he had never seen Ren Tianfei. Even if he died, Ren Tianfei wouldn't even know it.

The big fish phantom said lightly, "In the future, when the time is right, I will send my daughter to you for a while."

Han Fei blinked. "When will the time be right?"

The big fish phantom said indifferently, "Wait until you can solve your own disaster. If you can't even hide from your own disaster, then forget what I just said and you won't see my daughter again." Han Fei frowned. This big fish seemed to know something, so he couldn't help asking, "Senior, what disaster will I have? Is it about women?"

BAM!

Han Fei was thrown into a coral bush again, even more miserable than before, leaving nothing but pieces.

Han Fei was speechless. Why did you beat me again? Why keep beating me? The faceless man in the ghost ship said that I have a disaster arising from romance! So I thought my disaster would be about a woman.

The big fish phantom said, "Every man has his own destiny. You will find out when you encounter it in the future. If I tell you about it now, it won't be your disaster."

Han Fei coughed and got up. "Senior, can you give me a hint?"

The big fish cast a sideways glance at Han Fei. "The secret must not be revealed. Besides, even if I tell you, it won't help."

"Mom!"

At this time, the big fish phantom's body began to fade and she said softly to the little carp, "Baby, remember this little brother. In the future, if you have a chance to meet him again, call him Little Brother. If he asks you to call him father, tell me and I'll kill him."

Han Fei: "..."

Xiao Se was trembling in horror. Han Fei was not killed? And Han Fei might take care of Little Master for some time in the future? What the hell was going on here?

Why could I only become a guardian, while Han Fei could take care of Little Master for some time?

Han Fei was disappointed not to get a hint from the phantom. However, he still said seriously, "Senior, I will solve my disaster by myself. But, is it possible... For Little Time not to eat people? Actually, there are

still a lot of energy-containing creatures in the ocean! How much energy can the human body contain?" The big fish phantom suddenly looked at Han Fei. "What did you call my baby?"

Han Fei paused for a moment. "Little... Little Time!"

"Why did you call her 'time'?" Han Fei felt his heart skip a beat. Oh yes! I am not supposed to know this fish.

Little Black and Little White had been exposed, but the Demon Purification Pot must not be exposed. Therefore, Han Fei quickly said, "Well, didn't you just reverse time? So I think... This name is suitable!"

The big fish phantom nodded slightly. "My daughter never eats people. This chasm is a place to swallow energy. With or without my daughter, it will devour energy. Those who are completely lost are already dying and their energy will return to the world in the end. My daughter just sucks the energy that returns to the world! Even if my daughter really eats them, she just abides by the natural law. Men and fish eat each other, which is fair. Do you think humans are masters of all things?"

Han Fei smiled awkwardly. He certainly wouldn't answer this tricky question! Anyway, he survived. I'm not going to discuss this with you... What if you get pissed off? What if you pat me to death with your tail?

Then the big fish phantom turned her eyes to Xiao Se. "Humph, your talent is not bad but you're so weak. You tried to lure my daughter into teaching you the Time Reversing Art with energy, which is intolerable! Now I'll take back this technique from you as a punishment!"

With that, a mystic light rose from Xiao Se's body and was swallowed by the big fish. Xiao Se hurriedly responded respectfully, "Thank you for sparing my life, Master!"

Feeling the atmosphere was a little weird, Little Time looked left and right, then rubbed her head intimately against the big fish phantom.

"Mom, I want to eat. I want to go out to play. Let me out! Mom..."

Little Time pouted and cried, and the big fish phantom turned her eyes to Han Fei.

Han Fei shivered and quickly said, "Little Time, come here, I have a lot of delicious foods for you..."

Then he took out a lot of things, including 100 Yellow-Blooded Sea Cucumbers, all the crisps, other kinds of octopus, big fish, and crabs, which were piled high like a mountain.

Han Fei grinned and said, "Little Time, these are all yours."

Little Time immediately jumped into the food pile with a swoosh and said sweetly, "Thank you, Little Brother!"

Xiao Se was dumbfounded when he saw Han Fei took out a seemingly endless pile of food. How much f*cking food do you have? Are you really a normal cultivator? Who the hell would bring so much food coming to the level-three fishery?

The big fish phantom nodded in satisfaction, and then said to Xiao Se, "In the future, feed my daughter according to this standard." After that, the big fish phantom said to Han Fei, "You shouldn't be here now. Leave!"

"Wait a minute!"

The big fish phantom looked at Han Fei, seemingly dissatisfied. Han Fei hurriedly said, "Well, Senior, can you tell me where this is? Maybe I can bring more delicious food to Little Time in the future. I am a good cook and I can make much delicious food."

The big fish phantom said indifferently, "This is Time River, and what it reflects is the past. If it weren't for my daughter summoning you, you wouldn't be able to come in at all, and you wouldn't need to come in. When you survive your disaster, you may meet her again." As the water rippled, the beautiful scene in front of his eyes disappeared with a swish. When he appeared again, he had already appeared on the dragon boat.

"Damn it! That... Was scary!"

Chapter 502 Chasm Canyon

Han Fei drew a long face. Was this trip an opportunity? But why did he feel as though he suffered a big loss?

Apart from everything else, he almost gave all the food except all the Yellow-Blooded Sea Cucumbers to Little Time. It wasn't that he wanted to do it, but the big fish's stare was really scary and seemed to be able to see him through.

Han Fei immediately got up and left. He had to leave here as soon as possible. Otherwise, if Little Time ate all the food, she would probably ask him for more.

At this moment, he saw a figure jumped out of the thick mist and Xiao Se appeared in front of him again.

However, he was no longer sallow and emaciated but became a handsome young man.

Han Fei looked at him coldly and said, "What do you want?"

Xiao Se said lightly, "You and I are not enemies now, so you don't need to be on guard with me anymore. I think it is necessary to explain to you what happened before."

Han Fei sneered. "I don't think it necessary. You can't be a good person, neither can you be a qualified bad person!"

Xiao Se ignored Han Fei's ridicule, but said, "Those people, I will send them back."

Han Fei was surprised. "Are they still alive?"

Xiao Se shook his head. "Not everyone can go to the space where you went. You shouldn't have been there. It was completely because of Little Master's summoning that you received that opportunity." Han Fei sneered. "Where did you want to send me then?"

Xiao Se did not answer, but looked at Han Fei deeply. "I came out to tell you a few things. Now that you have prepared such an ample supply food, I know that your target must not be on the dragon boat. It must be in the Chasm."

Han Fei thought to himself, I really don't know if I should tell you or not. In fact, no matter where I go, I always bring a lot of food.

Xiao Se continued, "The Abyssal Chasm is a weird place. Little Master stays here temporarily just to share some of the energy of the Abyssal Chasm. And in that real Chasm, not even a blade of grass grows. I know you have a lot of food, but you may not be able to hold up long."

Han Fei's eyes narrowed slightly. "You mean, the Abyssal Chasm swallows energy even more than here?"

Xiao Se nodded earnestly. "I have only been there once. I'd like to remind you not to enter any random secret realm you see. Besides, Master asked me to tell you that in order to punish your verbal offense, she will give you a small punishment."

Han Fei sighed. "Punishment? But she almost patted me to death! Isn't that enough?"

Xiao Se was speechless. You made the Time Dragon Carp call you Dad. You should thank God that her mother didn't kill you on the spot!

Han Fei didn't care about the small punishment, and just suddenly asked seriously, "I'd like to ask you something. Why didn't you save those people?"

Xiao Se smiled and shook his head. "I told you that the place you went is the Time River, and what you saw was the past. Besides, I need food to save them, OK?"

"You liar, you didn't want to let those people leave. Did you want to keep them as energy to lure Little Time into teaching you the time reversing technique?"

Xiao Se was silent for a moment. "Firstly, I have no food to save them with. Secondly, since they are destined to die, why not contribute their energy? But now, they are not important. Little Master never ate people. She just eats the energy of those who are no longer human."

Han Fei frowned. "Do those people really have nothing to do with you?"

Xiao Se shook his head. "No."

"What about the underwater ferryman? Did you create them?"

Xiao Se was taken aback for a moment. "I am only 17 this year. How could it be me?"

"Humph."

Han Fei wondered, "Then where did they come from?"

Xiao Se pondered for a moment. "They are certainly from the depth of the Chasm. Neither I nor you can reach the depth of the Chasm, so just forget it."

Han Fei scoffed. "Humph, do you think I'm like you?"

Xiao Se smiled. "Perhaps you're stronger than me! But the result will be the same. So much for what I can tell you. It's up to you whether you go or not. But..." "Huh?"

Xiao Se shook his head slightly. "Pay attention to the vortex. Near the Abyssal Chasm, there will randomly be a death vortex, and you'd better avoid it if you encounter it."

Han Fei was puzzled. "Just one?" Xiao Se rolled his eyes at him. "How many more do you want? The death vortex appears every time someone comes. When I was there, if I hadn't had special means, I wouldn't have been able to escape from it."

Han Fei thought, Since the death vortex is dangerous, I will just avoid it. Anyway, I'm fast and it should be no problem for me to escape a vortex in the sea.

"But..."

Han Fei said angrily, "Can you just finish talking in one go?"

Xiao Se glanced at Han Fei deeply. "However, I'm not sure where the vortex leads. Perhaps it leads into the Abyssal Chasm. And the punishment for your verbal offence may be there."

Han Fei smiled. He couldn't find his way after coming here and suddenly appeared in the Dead Sea area. Then he was taken into that fairyland.

Now, there was another f*cking vortex that he didn't know where it would take him?

Han Fei snorted. "Which way?"

Xiao Se raised his hand and pointed in the direction of the stern. Han Fei jumped down without saying a word and dove into the sea.

After swimming thousands of kilometers, Han Fei already felt that his energy consumption had increased. So he directly filled his body with spiritual energy to block the energy from escaping. He might not have enough energy. But he definitely had enough spiritual energy.

After swimming for about three thousand kilometers, he found that there were no more creatures in the sea. Not to mention the little blue fish, there wasn't even any plankton.

Han Fei dove to the bottom of the sea to take a look, and found that it was a deserted place. Except for the sand and gravel, there wasn't even seaweed or green algae, let alone anything hidden under the sand.

He swam for a full day. When Han Fei suddenly felt heart palpitations, he saw a trench.

To be precise, he didn't know if it was a trench, because the chasm was too big. He looked left and right and saw cliffs on both sides at the mouth of the chasm. As he went further in, the chasm became large and larger, and in the end it became invisible.

Han Fei quickly took out the map Ren Tianfei left for him.

At this moment, Old Bai's map became useless, which was about the entire level-three fishery. Unlike it, although Ren Tianfei's map had depicted other places in the level-three fishery, it didn't depict them in detail except for the Abyssal Chasm.

On the map.

It was a pattern like a long narrow eye. Judging by the location of the hurricane area, Han Fei was now at the corner of the “eye”.

And Ren Tianfei’s treasure map was right in the middle of this big eye. This b*stard put the treasure on the upper eyelid of the “eye”, close to the pupil.

Han Fei’s first thought was to take a shortcut. He should go to the middle and go straight in from there, instead of swimming all the way from the corner of the “eye” to the middle.

So he immediately swam to the periphery of the long narrow eye, intending to cut across laterally

Swish...

Clang! Clang! Clang!

But after swimming for more than 300 kilometers, Han Fei suddenly took a move, shattering a wisp of Sword Qi overflowing from the chasm.

He was dumbfounded. From here onwards, wisps of Sword Qi began to appear. Was the periphery blocked? In other words, the periphery of this eye seemed to be wrapped by a Sword Qi wall, and...

Han Fei looked up and swam up from below.

Swish... Swish... Swish...

Above, wisps of Sword Qi were even denser as if there was a net of Sword Qi on the bottom of the sea.

Han Fei only swam less than 1,000 meters up and dozens of wounds were cut out on his body.

Yes, even his “Indestructible Body” was pierced

Was the “Indestructible Body” not strong enough? No, Han Fei was very sure that the “Indestructible Body” was very strong. However, the Sword Qi that escaped from the Abyssal Chasm was stronger. “F*ck! Why is there so much Sword Qi?”

Han Fei continued to look up and found that the more he went up, the Sword Qi became denser, which was already visible to the naked eye.

“Damn it, is there only one way? Do I have to swim back?”

Han Fei had no choice but to return to the starting point. Anyway, he had to get in. However, he didn’t see the vortex that Xiao Se was talking about, so he directly rushed in.

Han Fei’s speed was not slow. With Little Gold attached to him, it could be said that his speed had almost reached its extreme.

However, just when Han Fei rushed into the Abyssal Chasm for less than ten minutes, he felt a huge suction force falling on him.

“Not good!”

Han Fei's face changed abruptly. Even with Little Gold attaching to him, his speed dropped more than half in an instant.

A huge vortex suddenly appeared in the sea, which must have been the one Xiao Se warned him about.

What frightened Han Fei was that although vortexes were common in the sea and there were many causes for them, they were basically waterspouts from bottom to top. Just like when a swimming pool was releasing water, there would always be a vortex where the water drained.

However, this vortex seemed to appear out of nowhere and was several hundred meters in size as soon as it appeared.

The hollow in the center of the vortex was a few hundred meters in size. It was almost a black hole but was different from a teleportation portal. There were at least flashing lights and shadows in a teleportation portal, but this one was almost a cosmic black hole. There was nothing but a f*cking black circle, around which Han Fei was made spinning frantically.

“Majestic Mystic Spell.”

At this moment, Han Fei didn't dare to save any energy. Unknown things were often full of mystery and terror.

As soon as he activated the Majestic Mystic Spell, his speed doubled again, even surpassing before.

Han Fei beamed with a smile. “Hey! Go ahead sucking! Can you still suck me in?”

However, in an instant, the smile on Han Fei's face froze. When he looked back, he was dumbfounded. “Hollysh*t... It's catching up?!”

Chapter 503 The Serpent in the Vortex

Han Fei really didn't know why there were so many weird things in the underwater world. Anything in his sight now could make his hair stand on end...

The huge black hole seemed to have eyes. Seeing that Han Fei escaped, it started to move.

What made Han Fei speechless was that the thing was not moving slowly, but that it suddenly moved several kilometers closer to him, just like Xia Xiaochan's Flash appearing very abruptly. No sooner had Han Fei escaped the black hole's suction than he was sucked in again.

This time, he was not as lucky as just now when he was still far from the vortex. Now, Little Gold couldn't even flap his wings.

Han Fei immediately crushed a Flash Stone.

As a result, something miraculous happened. Han Fei felt that he had moved out.

But because of a mysterious force, he was sucked back again and fell in place again.

“F*ck! Even a Flash Stone is not working?”

However, at the moment he looked back, he glimpsed that a light seemed to appear in the black hole, which was a shadow winding like a snake.

“Huh! Is there something in it?”

Han Fei instantly stopped resisting.

A moment ago, he resisted because he was afraid that this black hole would tear up everything that was sucked in like a real black hole. But since there was a living creature in it, then he wouldn't be torn apart either.

He immediately took back Little Gold and put on an ultra-quality battle suit, with a hand on the Blood Drinking Knife.

He did not remove the Majestic Mystic Spell. Since this black hole was targeting him, there must be danger and fighting must be inevitable.

Now, since Han Fei had learned the Art of Invincibility, he wasn't quite afraid of anyone. Even if he didn't want to fight, he wouldn't be afraid. It seemed that his fear had been eaten by the Art of Invincibility.

“Hey, don't make such a bluff. Come out and fight me.”

Han Fei turned around, and under this suction force, he rushed toward the black hole at an incredible speed.

Sure enough, Han Fei only felt the suction force but did not feel the pain of body tearing. This was undoubtedly a good signal, so he immediately threw a punch.

BAM!

A dazzling fist light smashed at the huge black hole.

Bang!

At the moment when Han Fei touched the black hole, it seemed as if he had submerged from the seawater into another underwater space, which was a bit like the Mirror of Sky in the White Mist Salt Marsh.

But it was extremely dark here, and Han Fei's golden fist mark disappeared in the darkness. The dazzling golden light also failed to illuminate this dark place.

Suddenly, Han Fei felt a sense of crisis. He subconsciously turned his body sideways and slammed his fist into the darkness behind him.

BAM!

The golden fist mark fell on something that felt a little soft at first, and then a little hard, like flesh and bones.

es.

Under the light of his fist, Han Fei saw a pair of eyes as big as a ball, staring at him in the darkness.

In his eyes, the data showed.

<Name> Abyssal Water Serpent

<Introduction> It was originally an ordinary sea snake but turned into a serpent after drinking the blood of a strong master by mistake. Five hundred more years, it'll turn into a flood dragon; a thousand years more, it will take the shape of a dragon; ten thousand years more, it'll turn into a real dragon. When it opens its wings, its speed is extremely fast. It breathes poisonous flames and can lift a weight of 490,000 catties, and its defense is also extremely strong.

<Level> 42

<Quality> Exotic (mutated)

<Contained Spiritual Energy> 6,285 points <Edible Effect> Eating it can strengthen the body, soul, and physique

<Collectible> Tendons, blood, flesh, gall, teeth.

<Absorbable>

<Remarks> This serpent is 498 years old and about to turn into a flood dragon.

After reading the data in his eyes, Han Fei was relieved. It turned out to be a serpent. BAM!

Feeling the water splash in the dark and a huge wave seemed to be coming, Han Fei immediately blasted out hundreds of punches.

Dum! Dum! Dum!

"Gosh!"

Han Fei clearly saw that it was a gigantic tail, which was more than ten meters long. Then how big was this Abyssal Water Serpent?

Han Fei punched out again but the power of the gigantic tail had already been taken off by him. The huge serpent was not much better than Han Fei, or even worse. Its tail was almost broken.

However, Han Fei was still shocked.

"Is this only a level-42 creature?"

Han Fei was stunned. Are you kidding me? I could easily beat Inferior Man-Fish but it was level 45!

Han Fei was sure that this serpent could easily crush an Inferior Man-Fish with a casual swing of its tail! He was now an advanced Dangling Fisher, plus with the effect of the Majestic Mystic Spell, he still failed to smash this tail.

"Roar!"

In the next moment, Han Fei felt a fishy ocean current spurting, and the seawater was full of sticky things.

"Poison?"

Han Fei frowned in disgust. Has this Abyssal Water Serpent started spraying poison? Humph, I have eaten the Venomous Tulip, and there is no poison that can work on me in the level-three fishery... Han Fei clenched his fist, and instead of retreating, he rushed forward.

He clenched his left hand into a fist and put it under his armpit, and his right hand was also clenched into a fist and glowing with a dazzling golden light. In the darkness, it was like a shining sun, too bright to look at.

At the moment Han Fei rushed up, on his right hand, spiritual energy exploded three times. Before he threw a punch, three water splashes tens of meters tall broke out in the water.

The golden fist was like a soaring rocket, and the shadow of the fist mark was tens of meters large.

“Roar!”

In the darkness, the serpent opened its mouth, and a mass of spiritual waves rolled in its throat, spraying at Han Fei.

“Humph! You’re an exotic creature, so what? You’re a mutant creature, so what? You still won’t be able to escape from my fists.”

“Ahhhhh...”

Boom...

In the darkness, a golden fist light instantly penetrated the surging spiritual wave and blasted down on the head of the Abyssal Water Serpent like a sharp arrow.

Thud!

The serpent’s huge body was hit by Han Fei and rolled dozens of times in the water.

Han Fei hurriedly stuffed a piece of Yellow-Blooded Sea Cucumber into his mouth before following up. Only when Han Fei stepped on the head of this Abyssal Water Serpent did he discover how big the serpent was. Its head alone was five or six meters large.

At this moment, a large part of the forehead of the serpent was sunken and one of its eyeballs was blown out by him. Han Fei found that the back of the big snake was trembling, and a pair of fan-like wings grew out.

Um! These were more like a large pair of fins than wings! However, since they were nearly three meters long after being opened, they looked more like a pair of wings. But compared with the size of the Abyssal Water Tiger, there were like fins.

Han Fei stood on the head of the serpent and placed the Blood Drinking Knife against its forehead. “Be quiet, or I will chop your head off.”

BAM!

Han Fei felt a sudden sharp pain in his head as if a needle drilled in. However, the Demon Purification Pot turned immediately, and the pain disappeared.

However, just in this flash, the Abyssal Water Serpent began to run away.

How could Han Fei let it run away? He immediately cast his fishhook, activated the Void Breaking Technique and then the fishhook crossed a hundred meters and hooked on the body of the serpent.

Then the huge serpent dragged him along and began to swim crazily in the deep sea.

Only after about ten minutes, Han Fei felt light in front of his eyes. It was no longer the kind of darkness that made people feel desperate. Although it was still dark, Han Fei could see now.

“Oh!”

Han Fei was taken aback. He had no idea how big this serpent was when he was fighting in the dark just now. However, when he was able to see, he saw a super big snake that was seventy or eighty meters long, pulling him along while swaying.

BAM!

The Abyssal Water Serpent threw Han Fei on the ground and dragged him along.

=

Han Fei said angrily, “Very good! I didn’t want to kill you in the first place, but now, you’re dead meat.”

Han Fei suddenly withdrew his fishing rod and rushed forward quickly, followed by 99 Blue Sea Wandering Dragon Daggers. He brandished a long sword and thrust it at the Abyssal Water Serpent.

Clang Clang Clang!

Han Fei was taken aback for a moment. What a powerful defense! So many ultra-quality spiritual weapons still couldn’t tear up its skin?

“Let me cut your wings. Then I’d like to see how you run away!”

Unable to penetrate the serpent’s skin, the Blue Sea Wandering Dragon Daggers rolled again, and the two wings that were 20 to 30 meters long were directly shredded by Han Fei. Boom!

The Abyssal Water Serpent fell to the ground head first. Han Fei sat on its head again. Both of his fists were glowing with a dazzling golden light and fell on the snake’s head like raindrops.

Boom Boom Boom... Boom Boom Boom...

Chapter 504 Sword Qi across the Seabed

Perhaps this Abyssal Water Serpent didn’t expect that he would meet such a tough guy today. Although he was so much smaller than it in size, he was so strong and it couldn’t beat him at all!

After about ten minutes, Han Fei finally stopped punching. Then, he frantically stuffed Yellow-Blooded Sea Cucumbers into his mouth.

This Abyssal Water Serpent was too difficult to handle! Was it really a level-42 creature? Inferior Man-Fish that were level-45 were simply no match for it at all.

In terms of strength, this Abyssal Water Serpent was not weaker than him.

Regarding speed, he was almost thrown away by it just now.

As far as defense was concerned, even Han Fei's ultra-quality spiritual weapons were unable to penetrate its skin. What kind of level-42 creature could be so strong?

Han Fei believed that if he hadn't used the Majestic Mystic Spell, he would have been beaten to death by this thing!

Han Fei thought this was probably the punishment Xiao Se had mentioned. Otherwise, how could there be any creatures in this damn place? Without any energy, how could there be a creature?

That big fish really underestimated me. Anyway, I can barely be considered a Heavenly Talent. Should I thank you for sending me such a powerful creature? Now I can fuse a new creature now.

"Damn, collect the demon." In Han Fei's mind, the Demon Purification Pot flickered and the huge body of the Abyssal Water Serpent slightly trembled. The demon collection failed.

Boom!

Another punch.

"Can you understand me? If you don't give in, I will kill you."

Bang!

"Collect the demon!"

However, this time it failed again.

Han Fei drew a long face. I finally managed to conquer you and you refuse to surrender to me?! Fine, let me teach you a lesson!

Han Fei kept frantically punching at a spot on the snake's head. In the end, its skull cracked and a small hole was smashed into its head.

"You still don't surrender, do you? Very good, I like taming the untamed."

"Little Black!"

With a flash between his eyebrows, Little Black and Little White appeared. Han Fei pointed to the small hole and said, "Little Black, go in. Don't kill it but you can eat it. Just keep its tendon and gall."

Little Black nodded excitedly. When Little Black got into the snake's head, the snake beneath him began to flop frantically. Immediately after, it began to roll on the ground and its tail began to flap. "Collect the demon!"

"Surrender or die, make your choice!" "Collect the demon!"

"Believe me, even though I may not be able to beat you when you become a flood dragon in two years, now you are still a snake, so you don't have much choice."

"Collect the demon!"

“Hey! Big guy, do you understand what I said? Give up resistance! You will become a better version of yourself. What’s the big deal about becoming a flood dragon? If you submit to me, you’ll become a new you and then you can easily kill a flood dragon.”

Han Fei tried to persuade the snake with his silver tongue. But he did believe that both Nine Tails and Little Gold would both make great achievements in the future.

The Abyssal Water Serpent was strong, or to be exact, shockingly strong. Although it would no longer be the original one after the fusion, it was at least part of the new creature, right?

Finally, the Abyssal Water Serpent could no longer resist the pain, and it suddenly turned into a stream of light before disappearing into Han Fei’s wrist.

At this moment, Little Black was still biting in the seawater. However, with a click, the serpent disappeared and he couldn’t bite anything. He couldn’t help but be stunned.

Han Fei laughed. “My boy, well done.” Little Black swam up to Han Fei, bumped Han Fei’s chest, and turned a few times in the water.

No matter how strong the serpent was, it was still collected. Why did it have to suffer so much to surrender?

Han Fei turned to look at Little White. “My girl, do you sense any danger?”

Little White blinked and opened her mouth to Han Fei.

“Huh? You want something to eat?”

Han Fei immediately threw a spiritual fruit to Little White. In an instant, Little White and Little Black’s bodies were full of spiritual energy, but it only lasted for a short time. Now, a spiritual fruit seemed to be unable to feed these two little things.

So Han Fei threw another one to Little White.

After eating the spiritual fruit, Little White swallowed a mouthful of seawater, gently bit Han Fei’s body, and seemed to try to go back.

“Go back?”

Han Fei frowned slightly. “It’s impossible to go back! We had such a hard time getting in, and we haven’t got the treasure yet.” Han Fei felt that the so-called black hole was actually a road, a road that really led to the depths of the Chasm.

He had this guess because this water area was absorbing more and more energy, and his guess was also proven right by what the Time Dragon Carp had said.

Putting away Little Black and Little White, Han Fei entered Forge the Universe.

Although the battle just now was short, Han Fei used the Art of Invincibility, which consumed too much energy.

In previous fights, Han Fei used the Embroidery Needle, the Million Knife Art or the Drawing Technique. But since he learned the Art of Invincibility, he felt that he could fight anything and anyone. And the more he thought so, the more he wanted to fight.

Did the Art of Invincibility have any disadvantages? It depended on the physique of the user. The stronger his physique was, the stronger the effect of the art was. Correspondingly, the stronger his physique was, the stronger the effect of the art was, and the more energy it would consume.

Before the battle, Han Fei was quite full. But now? He felt starving and almost collapsed.

In Forge the Universe. Han Fei had a square meal. At the same time, he refined a large shield. It was not because his defense was not strong enough. In fact, both his offense and defense capabilities were already strong enough, which seemed impossible to become stronger in the short term. After all, he was already armed from head to toe.

But today he found that there was still a creature that even the ultra-quality spiritual weapons couldn't hurt, so he refined a big shield to have one more line of defense.

After eating and drinking to his satisfaction, Han Fei continued to walk forward.

He was holding the map in one hand and searching for the places marked on the map.

In particular, there were actually three main secret realms in the Abyssal Chasm. Han Fei discovered that the second secret realm coincided with the treasure spot on Ren Tianfei's map.

The first secret realm should be nearby.

After swimming for about 200 kilometers, Han Fei suddenly saw a broken gate tower.

"Huh! Is this a f*cking secret realm? Why is it so conspicuous?"

This gate tower was a hundred meters high. On both sides of the gate tower, two broken statues were erected. The statue on the left held a huge stick in his hand which stuck in the ground. The head of the statue on the right was gone. It put a hand on its waist, holding a saber that was half broken.

In the middle, Han Fei only saw rocks and mountains.

Standing in front of the gate tower, Han Fei was about to step in but his heart suddenly trembled.

"I can't go in."

Han Fei remembered that before he came to the level-three fishery, the teacher once said that there were some secret realms that you didn't have to go in to know if they were dangerous or not.

Up to now, Han Fei had not encountered that kind of secret realm. But here, he felt it.

That kind of feeling was very strange. It felt that if he entered it, he would be met with certain death.

At this time, Han Fei remembered Xiao Se's words, "Not all secret realms can be entered at will."

"Is this first secret realm so dangerous?"

The Demon Purification Pot did not react at all.

“Fine! Let me explore it after I get the treasure from Ren Tianfei.”

So Han Fei directly gave up on this secret realm.

Han Fei walked past the secret realm and swam for about 500 kilometers, yet he still didn't meet a single creature. Naturally, there was no danger along the way either. It seemed that in this entire Abyssal Chasm, there was only an Abyssal Water Serpent. Now Han Fei was more certain that the Abyssal Water Serpent was definitely not here in the first place, which was probably released from a certain period of time by the big fish. Thinking of this, Han Fei couldn't help shivering. The big fish could raise her daughter in time and release creatures out of time. Wasn't this power scarily strong?

Swoosh!

Han Fei couldn't wait to go to the most central area as soon as possible.

But suddenly, white sword Qi swept across the seawater and swept towards him.

“Ha! I knew it wouldn't be that easy.”

Clink!

Han Fei held the Embroidery Needle in his hand, smashed the sword Qi, and then slowly stopped.

He saw that there seemed to be more sword Qi occasionally flashing in front. From what he felt just now, the sword Qi was not weak and seemed to be stronger than the strike of an intermediate Dangling Fisher.

“Ha!”

Han Fei just paused and then moved on.

This sword Qi came from nowhere, just like the sword wall on the periphery of this chasm canyon. Although Han Fei didn't know how they were formed, these seemed to be remnants of sword Qi, which burst out on their own accord.

Perhaps there used to be a peerless powerhouse fighting here, who was so strong that his sword Qi left behind still hadn't dissipated.

He swam another 500 kilometers or so, only to find more and more sword Qi.

At first, it was just one or two, but gradually, Han Fei found that there were hundreds within a kilometer. They were like streamlined spirits, wandering around in the sea.

Once someone approached, the sword Qi would sweep towards him.

After being smashed by Han Fei one by one, they never appeared again.

“Huh! Has no one been here before? But that's impossible!”

Han Fei was puzzled. If the sword Qi wouldn't reappear after disappearing, they should have been cleaned up long ago! Why were there still so many of them and even getting denser?

At this time, Han Fei had checked the surrounding area and kept his body full of spiritual energy. After about half an hour, a white sword Qi suddenly emerged from the ground. Then, one after another, sword Qi emerged from the rock wall. "Oh!"

If it was a person who didn't use a sword, he wouldn't know what this meant.

Although Han Fei didn't use a sword, he used knives! His trump card was the Drawing Technique, which never failed him.

If Han Fei used the Draw to cut a piece of rock, there would be a strong knife Qi left on the rock. This kind of thing, like a ghost, was scattered in the cracks of the rock and wouldn't disappear until it was completely shattered.

And now, Han Fei had a vague hypotheses: this f*cking chasm canyon, where he had been swimming for a long time, seemed to be cut out by someone with a hack.

That was why there was a wall of Sword Qi outside the canyon, which would cut ordinary people to pieces. "Ren Tianfei, Ren Tianfei, did you f*cking want me to die?"

Chapter 505 Ren Tianfei?

Han Fei complained about Ren Tianfei ten thousand times in his heart.

If this Chasm was really, as Han Fei guessed, cut out by someone, what kind of a strong master was capable of doing that? The deeper he went in, the more intense the sword Qi became, which meant the stronger the sword Qi was!

Han Fei, in an ultra-quality battle suit, swam full speed ahead for more than 2,000 kilometers, and just as he expected, the sword Qi was growing stronger indeed.

At first, it only equaled a full blow from an intermediate Dangling Fisher. Where he was now, the power contained in every wisp of sword Qi was no weaker than a full blow from an advanced Dangling Fisher.

Han Fei glanced at the map. According to the map, he was at least more than 5,000 kilometers away from the treasure left by Ren Tianfei.

"Damn it, this old b*stard! No wonder he insisted that I couldn't come here until I became a Dangling Fisher. If it were someone else, they might have been already killed."

After 1000 kilometers.

The sword Qi had surpassed the realm of advanced Dangling Fishers.

After 2000 kilometers. Within a kilometer, there were thousands of wisps of sword Qi, which were almost equal to a blow from an ordinary peak-level Dangling Fisher.

After 3000 kilometers.

The sword Qi had completely reached the realm of a peak-level Dangling Fisher. There were even occasionally one or two that surpassed the realm of average peak-level Dangling Fishers.

After 4000 kilometers.

Han Fei had to escape into Forge the Universe.

His spiritual energy protective cover had long been shattered and he had to eat a large piece of sea cucumber almost every hundred kilometers. Why would the chasm absorb energy? Han Fei thought that it was because of whatever created it.

Think about it, doesn't this sword Qi need energy? Where does this energy come from? It can only be absorbed from all around!

Of course, there might be more than one reason, but this was definitely one of the reasons.

At this moment, Han Fei was fueled up and he yelled, "Majestic Mystic Spell". Yes, the sword Qi after 4000 kilometers had reached the level of the Immortals Slaying Formation. If Han Fei hadn't broken through to become an advanced Dangling Fisher, perhaps every hundred kilometers, he would have to take a break.

After entering Forge the Universe three times, Han Fei finally swam more than 5,000 kilometers.

Swish! Swish!

The sword lights were as bright as snow, and each of them was irresistible, and hundreds of Blue Sea Wandering Dragon Daggers were flying beside Han Fei, mixing with these swirling sword lights.

"Shield!"

Han Fei summoned the large shield, put it in front of him, and rushed forward.

Clang, Clang, Clang... Fortunately, although these wisps of Sword Qi were powerful, they couldn't break these ultra-quality spiritual weapons right away.

However, after swimming forward for dozens of kilometers, the parts of Han Fei's body that were not covered by the battle suit were already full of blood marks.

Up to this point, any random wisp of sword Qi in the sea could leave a sword mark on his body, although he had used the Majestic Mystic Spell.

"Sh*t, fortunately, I didn't come here earlier, or else I would have been killed here."

Clang, Clang, Clang... The sword Qi was as dense as a waterfall. Holding the ultra-quality spiritual shield, Han Fei was still forced to retreat. The Blue Sea Wandering Dragon Daggers around him were almost unable to protect him.

There were no longer hundreds or thousands of wisps of sword Qi at this moment, but tens of thousands.

"Damn it, Ren Tianfei, you old b*stard! I'll get even with you for this, just wait!"

"Explode!"

Han Fei let out a low roar, and punched the big shield, bombarding it forward with the Art of Invincibility.

BAM! BAM! BAM!

Han Fei didn't know how many punches he swung. Anyway, in just 100 kilometers, he entered Forge the Universe 7 times.

When he came out again, he took advantage of the moment he came out and looked around.

Suddenly, he found a large stele erected on the ground thousands of meters away. On the big stele, it read, "Hidden Fishers or Above, No trespassing." "Damn, here it is! Simple and clear, it's that b*stard's style."

As soon as he saw this stele, he knew that this was definitely erected by the old b*stard Ren Tianfei. Even the writing on the stele was the same as those on the stele outside the Boat Burying Pit and the Mantis Shrimp Cave. He just changed the "Dangling Fisher" to "Hidden Fisher".

Han Fei suddenly held the big shield, braving the sword Qi jetting like flames, and rushed all the way to the stele.

Sure enough, behind this stele, there was a hole only four or five meters in size.

BAM! Without even thinking about it, Han Fei jumped directly into the hole and felt no obstacles at all.

"Huh! No water?"

Just after Han Fei went in, he found that the ground was dry and there was still air here. "Pheww..."

Han Fei took a few breaths and looked down. The ultra-quality suit on his body was covered with sword marks. Although it was not broken, many places on it were already sunken in and didn't look as good as before.

Han Fei couldn't help being shocked. In fact, he would not be able to hold it anymore if he continued to swim two or three hundred kilometers further forward. He couldn't imagine what awaited him ahead.

"F*ck, thank god that you didn't put the treasure place at the very center. Otherwise, I would have already slipped away."

Han Fei took a deep breath again, then put away the shield, put his head close to the entrance of the hole, and took a look. Those wisps of sword Qi that had lost their target turned into swimming white watermarks again as if nothing happened up above.

Han Fei swallowed. The first secret realm was on the edge of the cliff. It was because that secret realm was so dangerous that no one dared to explore it.

Ren Tianfei also put this on the edge of the cliff because ordinary people simply couldn't resist the enveloping sword Qi outside.

One would definitely be shredded to pieces by the enveloping sword Qi unless he was at least an advanced Hanging Fisher.

After all, not everyone could cheat like him.

It was probably because of this that Ren Tianfei had erected a stele on the edge of the cliff blatantly.

"Ha... Hahaha... I have come in. Ren Tianfei, old b*stard, here I am..."

Han Fei laughed triumphantly. It was really not easy for him to come in.

He was thrown into the Dead Sea from the hurricane sea area, came across the dragon boat, entered the fairyland, solved the seawater serpent, and braved the waterfall-like sword

rain...

Han Fei couldn't help exclaiming in his heart, F*ck, this was really an arduous voyage!

Han Fei threw a Divine Healing Technique on himself before he got up and looked at the cave.

This seemed to be a downward slope leading to the depth of the cliff.

Han Fei felt that it was a miracle for him to make it here! Now it was time to search for treasures like he was in the Mantis Shrimp Cave back then.

So Han Fei walked directly into the depths of the cave.

Just after walking more than 100 meters, he saw a large circular cave with a radius of nearly 300 meters.

Han Fei grinned and rushed inside.

However, as soon as he entered the cave, he froze. Because, right across from him, a large word was written on a rock wall.

Test!"

Han Fei was stunned for a long while and suddenly jumped. He yelled, "F*ck you, Ren Tianfei! F*ck you!"

There was no doubt that this test would be for him. From what he knew of Ren Tianfei, this idea must have occurred to him on the spur of the moment.

Han Fei snorted. "Fine, just test me! I've even beaten the sword Qi. Can I be afraid of your test?"

Han Fei was very confident in himself. After all, Ren Tianfei only left him the Indestructible Body, but he underestimated the other opportunities he got. Han Fei walked forward without hesitation. This was a pure circular cave without the next entrance. Han Fei guessed that the next entrance wouldn't appear until he passed this test.

However, when Han Fei looked around, his face immediately darkened. He saw 13 human skeletons in total.

Han Fei frowned. It seemed that in the past 300 years, many people had come here! There were actually 13 Dangling Fishers who had come to this place!

But they all died in strange ways. Some were embedded in the wall, some were sitting against the wall, some were inlaid on the floor, and some curled into a ball.

Han Fei's eyelids trembled. These skeletons seemed to have been battered by a huge force. Among them, there were 5 skeletons inlaid on the rock wall and 3 on the floor.

Han Fei was shocked. How big would a force have to be to knock people into the rock wall or ground?

Han Fei walked towards the center of the cave. In terms of strength, Han Fei was confident that even Ren Tianfei himself, when he was in the same realm as him, would be no match for him.

When Han Fei stopped in the middle of the cave, he felt the ground shake. Then, a phantom-like figure appeared five meters away from him.

This man had a messy beard, his hair was combed back, and his forehead was exposed, looking like f*cking Einstein. "Huh! Is someone here again?"

Han Fei: "???"

Han Fei was surprised. "Can you even speak?"

"Nonsense, I am not dead. Of course, I can talk!"

Han Fei exclaimed, "F*ck... You you you..." The bearded man arrogantly said, "Why? Don't think about delaying time. Although I am just a phantom clone, I will not be tricked by you. As long as the person I am waiting for hasn't come, I can still wait ten thousand years."

Han Fei asked, "So, are you really Ren Tianfei?"

"Huh?"

The phantom was taken aback. "Huh! How do you know me? Are you my disciple?"

Chapter 506 Let's Fight

For a while, the atmosphere seemed particularly tense.

Ren Tianfei was silent for a while. "Are you the little b*stard who made me wait for hundreds of years?" Han Fei bared his teeth. "Are you the old b*stard who tries his best to make trouble for me?"

"Who did you call an old b*stard?" "Who did you call a little b*stard?"

Ren Tianfei's phantom gradually revealed a ray of brilliance. Under the radiance, his phantom became more and more real. In just two or three minutes, Han Fei found that this guy had turned into a real person.

Han Fei was taken aback. "F*ck! Aren't you a phantom clone? How can you become human?"

Click!

Ren Tianfei clenched a hand into a fist, opened the other palm, and hit the fist with the palm, making a click.

Seeing Han Fei stunned, Ren Tianfei sneered. "Do you think I only left a phantom clone here? I also left a drop of my essence blood, which can transform into a real person at any time."

Han Fei couldn't believe what he saw. Really? A drop of essence blood could transform into a real person?! However, Han Fei immediately noticed, "Hey! Are you still a Dangling Fisher?" "Huh?"

Ren Tianfei was also taken aback, looked at Han Fei for a long while, and then took a breath. "You... Little b*stard, are you only an advanced Dangling Fisher? Impossible, how could an advanced Dangling Fisher make it

here?"

Han Fei said, "Didn't you say that I'd better not come if I just became a Dangling Fisher? So I didn't come until I became an advanced Dangling Fisher. So... You didn't expect me to come here while in the realm of Dangling Fisher?"

Ren Tianfei sighed. "Are you stupid? Any normal person wouldn't come here until he becomes a Hanging Fisher after reading the words I left!"

Han Fei said angrily, "Bullsh*t! Hanging Fishers are not allowed to enter the level-three fishery. Except for the guardians of dragon boats, there are only great fishing masters and Dangling Fishers in the level-three fishery. If I really became a Hanging Fisher, I wouldn't be allowed in!"

Ren Tianfei was surprised. "Really? But I remember Hanging Fishers were also allowed into the level-three fishery before."

Han Fei: "..."

Han Fei pondered for a moment. "Things change. It was 300 years ago. Anyway, Hanging Fishers aren't allowed in now." Ren Tianfei asked with suspicion, "Nonsense! Is 300 years a long time? This rule will not be broken even in 3000 years... Huh?"

Suddenly, Ren Tianfei seemed to think of something. Then, he suddenly looked at Han Fei up and down. "Advanced Dangling Fisher? Tsk... It seems that I've gotten myself a good disciple!"

Han Fei sneered. "Who the hell is your disciple? You want me to die! How can you be my master?"

Ren Tianfei snorted. "Since you learned my Indestructible Body Art, you are my disciple. But you seem to have other opportunities. Otherwise, with your current strength, the meridians in your body should have been completely destroyed when you came here. But they are intact!"

Han Fei's face turned black immediately. Humph, you reminded me! If it weren't for the fact that I had plenty of treasures, I would have been maimed by your stupid "Indestructible Body"!

Han Fei glared at him. "Ok, now that I have managed to come here, where are the treasures?"

Ren Tianfei smiled. "Treasures? Call me Master, and I will give them to you."

"Bah!"

Han Fei spat on the ground. "In your dreams."

Ren Tianfei rolled up his sleeves in rage. "Do that again..."

"Bah, bah, bah..."

"Ahhhhh! I'm gonna kill you, you little b*stard!"

Ren Tianfei immediately threw a punch at him.

Han Fei wasn't afraid at all; however, he had already found that this Ren Tianfei didn't seem to be strong and was only a junior Hanging Fisher.

If your true self were here, maybe I would call you Master. But the one in front of me is only a Hanging Fisher-level clone. You must be dreaming that I will call you Master!

Han Fei roared and the golden fist light shot out of his body.

Boom...

When the two fists collided, Han Fei flew out in the next second and hit the rock wall, causing the whole cave to shake.

"Cough... F*ck, old b*stard, are you using the power of a Hanging Fisher?"

However, Ren Tianfei didn't answer him but looked at him curiously again. "Wow, that's powerful! Have you broken the second barrier of the Indestructible Body Art?"

Han Fei thought for a moment whether he should use the Majestic Mystic Spell or not.

With that punch just now, he used eighty percent of his strength but ended up being punched into the wall. Now he knew why there were several skeletons embedded in the wall.

It was because the old b*stard Ren Tianfei was too strong. That punch just now definitely weighed seventy to eighty thousand catties.

However, Ren Tianfei seemed quite relaxed as if he had just punched casually.

Han Fei sneered. "Old b*stard, now you've really pissed me off."

Ren Tianfei chuckled. "Interesting. If you hadn't broken the second barrier of the Indestructible Body Art, you shouldn't have been able to make it here. Also, the fist technique you just used is special. It's so powerful and seems to be the Art of Invincibility. Tsk, tsk... You're kind of like me when I was young."

"Damn you, take my punch!"

This time, Han Fei used all his strength and his whole person looked fierce and mighty. With a loud roar from him, the golden fist light burst out and his fists waved like dragons, and a huge golden fist shadow punched out. Ren Tianfei chuckled lightly. "What a cocky boy. Today, let me teach you what a real fist technique is like!"

The next second, Ren Tianfei's expression suddenly turned serious.

Facing Han Fei's golden fist mark, he did not evade but dashed forward at it. At the same time, he also threw dozens of punches.

Unlike Han Fei's golden fist light, Ren Tianfei's fist light was crimson. His fist was extremely violent and even murderous.

BAM, BAM, BAM!

BAM! BAM! BAM!

Inside the cave, the two were fighting a pitched battle, and fist shadows danced wildly in the air. On the rock wall, there were fist marks left by them everywhere.

However, Han Fei was still much weaker than Ren Tianfei, and his golden fist light couldn't resist Ren Tianfei's violent crimson fist light.

Boom...

Han Fei was hit to the wall again, and his whole body was embedded in it.

Han Fei yelled angrily, "Old b*stard, you are still using the power of a Hanging Fisher! You are cheating! Shame on you."

Ren Tianfei smiled coldly. "Cheating? How can you still say such naive things? In this world, nothing is fair! Only fists can talk."

Han Fei was speechless. Ren Tianfei and Old Bai thought exactly the same, which was that fists talked!

Han Fei curled his lips and said, "Fists talk? Fine, come on, let's see who's fists talk more loudly! Majestic Mystic Spell."

Han Fei's momentum soared, his body was covered with billowing energy, and his powerful aura covered the entire cave.

Han Fei grinned ferociously. "I'd like to see how powerful a single drop of your essence blood is!"

"Huh! A secret technique? Wow, this kid knows a lot."

As soon as the Majestic Mystic Spell was activated, Han Fei's combat power was immediately raised to its peak. Even a huge creature like the Abyssal Water Serpent was tamed by him easily.

"I am invincible now!"

The golden fist light shot out again, the air burst, and the spiritual energy exploded on Han Fei's fists. His punch even left a burning flame in the air!

"Good job!"

Boom Boom Boom!

The red fist light was no weaker than the golden one at all. The two fought more than a dozen rounds, blasting the rocks in the cave into flying over. One of the skeletons was directly crushed by the power of their punches.

BAM!

This time, Han Fei finally blasted Ren Tianfei back. Although the old b*stard only took a half step back, it was still a step back.

But immediately afterward, Ren Tianfei's leg kicked at him. Han Fei raised his fist to block it, only to be elbowed in the chest and then rammed.

Han Fei was about to be sent flying when Ren Tianfei clasped his arm and pulled him back.

Then, despite Han Fei's almost peerless strength and sturdy physique, Ren Tianfei grabbed his body, elbowed it, punched it, knocked it with his knees, and bumped it with his head...

Han Fei felt that this old b*stard seemed to use every piece of muscle in his body to the fullest. Ren Tianfei sneered while beating him. "What's the use of your confidence? You are too weak. See, I can rub you against the ground with a single hand."

"Puff!"

Han Fei was poked flying by Ren Tianfei with a finger.

Han Fei was shocked. Damn it! He couldn't even parry his attacks?!

But Han Fei certainly wouldn't admit defeat! He roared and activated the 108 Spirit-Absorbing War Bodies.

He twisted his body into all sorts of strange postures and his reaction speed and fighting skills burst out in an instant. "Huh! This combat skill is not bad, but you are still too slow... Slow slow slow... Get faster, faster... Why are you so slow?"

Boom...

Han Fei held up only half a minute before being hit into the rock wall again.

"Puff!"

Sputtering out a mouthful of blood, Han Fei felt sore all over and cursed at Ren Tianfei, "Sooner or later, I will surpass you."

Han Fei shook his body, got out of the wall, and was about to fight again when Ren Tianfei's body suddenly collapsed. It was a human body just now, but now it had become a phantom again.

Ren Tianfei snorted. "Forget it, your physique is not bad. Although your fist technique and skills are still not good enough, they are not too bad. You have passed the test!"

Han Fei: "..."

Chapter 507 Seven Star Array

Han Fei could tell that the power contained in the drop of Ren Tianfei's essence blood had been used up.

After all, according to the intensity of the battle just now, most people might not be able to withstand Ren Tianfei's two punches. After the battle, Han Fei took out a large piece of sea cucumber and swallowed it.

Ren Tianfei was helpless. "Why did you suddenly begin to eat?"

Han Fei grunted. "I don't have the strength to fight until I'm full."

Ren Tianfei snorted and clicked on the word "Test", and the word began to fall apart, so did the rock wall and a large hole behind it was gradually revealed.

Han Fei curiously asked, "What treasures did you leave me? Given all the hardship I went through to get here, you should at least give me some divine weapons, shouldn't you?" "Divine weapons?"

Ren Tianfei glanced at Han Fei contemptuously. "You should depend on your physique. No matter spiritual weapons or divine weapons, they will be no match for your physique in the end."

Han Fei's pupils constricted. "Really? I can hardly block the sword Qi outside the cave. Do you mean that my body can even resist divine weapons when I finish practicing the Indestructible Body Art?"

Ren Tianfei looked at Han Fei with a faint smile. "Relatively speaking, let alone divine weapons, you can even fight Sea Quelling Bizarre Treasures with bare hands."

"Wow!"

Han Fei took a breath immediately. He didn't even know what Sea Quelling Bizarre Treasures were, but he guessed that the Embroidery Needle might be a weapon of that level.

Suddenly, Han Fei took out the Embroidery Needle and inserted it into the ground. "Is this a Sea Quelling Bizarre Treasure?"

Ren Tianfei's eyes widened suddenly. He stepped forward and took a look at the rusty stick. After thinking for quite a while, he asked, "Where did you get this?"

Han Fei said complacently, "Have you ever heard of Rock-Holding Turtles? I pulled it off its back."

Ren Tianfei grinned. "Have you ever met a Rock-Holding Turtle?"

Ren Tianfei tapped on the Embroidery Needle with his finger and thought for a moment. "Yes, this is a Sea Quelling Bizarre Treasure. But I guess you can barely use it now, can you? You can only use this stick as a normal one, right? Don't show it to others in the future."

"Is it really a Sea Quelling Bizarre Treasure? How can I make it recognize me as its master?"

Han Fei's eyes lit up. He couldn't even give play to 10% of the power of the Embroidery Needle! How strong would it be if he could give play to all its strength after it recognized him as its master?

Ren Tianfei sneered. "It won't recognize you as its master unless it recognizes your strength. If one day, you can use it to make an earthshaking blow, you may have a chance. But with your current strength, I am afraid there is no chance for you for the time being."

Han Fei: "..."

But he wasn't quite disappointed. "Anyway, this stick is mine. Sooner or later, it will recognize me as its master."

Suddenly, Ren Tianfei's body flickered and the old man suddenly became serious. "Now listen to you. Don't interrupt me."

Ren Tianfei said seriously, "Try to find a body-refining technique that is at least heaven-level high-quality. You'd better do it before you enter the Thousand Star City. And you'll have to master it."

"Why?"

“I told you not to interrupt me.”

Ren Tianfei continued, “If you keep cultivating the Indestructible Body Art, the more you practice it, the harder it will be for you to suppress your powerful physique and vitality, and then it is extremely easy for you to expose it. With your current strength, you’ll definitely go to the Unknown Place in the future where there is no fishery, so once you go to sea, there is the only boundless sea. There are countless people from the Thousand Star City. If you practice the Indestructible Body too well, you’ll be easily recognized, which is not good for you.”

Han Fei interrupted him again by asking, “Old b*stard, how many people have you offended? What will happen if others know that I have practiced the Indestructible Body?”

Ren Tianfei said sternly, “What will happen? The consequence is that you will be hunted endlessly. Some people covet the Indestructible Body Art and some are afraid of it. Of course, this is not important. The important thing is that the Indestructible Body involves great secrets, and you are not qualified to know them now. But as long as you don’t die, you will eventually find out. Remember, never, ever expose that you’ve practiced the Indestructible Body Art. Once it’s exposed, run away immediately. Escape to the Infinite Ocean and come back when you become really strong.”

As Ren Tianfei spoke, the phantom was fading, and now it had almost disappeared.

Han Fei hurriedly asked, “Hey hey! Have you left me any other treasures? What is in the depths of this Abyssal Chasm? Can I explore it?”

Ren Tianfei rolled his eyes at Han Fei. “Don’t ask. When you came, you should have encountered a secret realm. Don’t enter it, or else you’ll die.”

Han Fei’s heart shuddered. “So dangerous?”

Ren Tianfei’s phantom who had almost faded away said, “When you can break the third barrier of the Indestructible Body, you will be eligible to go to the Unknown place. But don’t come to the Abyssal Chasm again...”

Ren Tianfei’s shadow disappeared, turned into white smoke, and faded away in a blink of an eye.

Han Fei was helpless. “You haven’t said yet whether there are any other treasures...”

Han Fei was complaining but his heart was a little frightened. Did Ren Tianfei mean that he couldn’t explore the other two secret realms in the Abyssal Chasm even if he was already eligible to go to the Unknown Place?

Han Fei took out the cauldron and tucked away a square meal before slowly recovering.

“I can’t even beat a drop of his essence blood?”

Han Fei couldn’t help shaking his head. The strong in this world are really horrible! Even a drop of blood released three hundred years ago could be so powerful... Then, how strong was Ren Tianfei himself?

What Han Fei didn’t know was that millions of kilometers away from here, an old man with messy hair suddenly opened his eyes. “Huh? My first clone has disappeared? I am going to have a disciple? This little b*stard... I hope you can get through the upcoming tests.”

Han Fei put away the pot and walked to the cave behind when he was full.

As he walked, Han Fei rubbed his hands. Now that the treasure land was here, Ren Tianfei must have left something good here. He couldn't wait to see what it was!

Just as Han Fei stepped into the cave, expecting to find something precious... Suddenly, he fell into a huge water hole.

Han Fei: "???!"

Where are the treasures? Where are the divine weapons?

"Ren Tianfei, damn you, you old b*stard. Haven't I passed the test? Can't you give me a break?"

This water cave was four or five times larger than the previous cave was with a radius of 100 meters.

When Han Fei found that there was not even a stone here, he knew he was screwed, especially when he saw the array at his feet.

Sure enough, the array under his feet suddenly flashed with mystic light and the entire water cave began to shake.

Immediately afterward, Han Fei felt that the water suddenly became very heavy. If the normal water pressure here should be 1, then the water pressure at this moment suddenly became 10.

"Ouch!"

It was not that Han Fei couldn't withstand 10 times the gravity, but now he was immersed in water, which was completely different.

Under 10 times the gravity, Han Fei's first reaction was to get his body tensed up, and his advantage in speed was immediately gone.

Suddenly, Han Fei saw another Ren Tianfei emerging from the center of the water cave.

Han Fei was immediately outraged. "F*ck, why are you out again?"

However, this Ren Tianfei was expressionless, whose personality seemed to be completely different from the previous one.

This Ren Tianfei looked at Han Fei coldly. "You are finally here. Now that we have passed the basic test, let's start formal training."

"Training? What the hell?"

Han Fei hurriedly asked, "Are you also transformed from a drop of essence blood?" This Ren Tianfei's face was cold. "I don't know what the last clone was like, but my task is to train you. Therefore, I'm emotionless and won't be polite to you. Don't put on this pained look. Even an ordinary person can withstand 10 times the gravity in a short time, or even heavier. Since you have practiced the Indestructible Body Art, this should be easy for

you." Han Fei was shocked. "Easy? How can you see it's easy for me?"

This Ren Tianfei still said coldly, "Cultivators will become stronger under greater pressure, so will their learning ability and reaction time. The disadvantage is that the flow of blood in the body will be suppressed, plus the increased pressure, the speed will become very slow."

"However, this is only the case for ordinary cultivators. You've practiced the Indestructible Body, so your vitality is quite abundant. It won't take you much effort to offset the disadvantage. In the end, the only problem will be speed."

Han Fei gritted his teeth. "So, the so-called treasure is the training on me? How long will this training take?"

"This array is called the Seven Star Array. You can't stop training until you beat me."

"Damn it..."

Han Fei was dumbfounded. "What if I can't beat you?"

"Then keep training." Han Fei: "..."

Chapter 508 Passed the Test

Han Fei was still trying hard to adapt to the 10 times gravity pressure underwater, but Ren Tianfei said coldly, "You have half an hour to adapt to it." "What happens half an hour later?"

Ren Tianfei said lightly, "We start training."

Han Fei was helpless. "Is this so-called treasure really the training? Have you really prepared treasures for me?"

Ren Tianfei glanced at Han Fei indifferently. "You talk too much nonsense. I don't mind starting training now."

Han Fei: "..."

Han Fei shut up. This Ren Tianfei was completely different from the one before. From this person, Han Fei only felt indifference.

Han Fei immediately began to warm up. If there was a way for Han Fei to quickly adapt to this environment, it must be the 108 Spirit-Absorbing War Bodies.

It had been long since the last time Han Fei practiced the 108 Spirit-Absorbing War Bodies. When Han Fei took the first pose, Ren Tianfei was slightly surprised.

Because he only had half an hour, Han Fei's postures changed quickly. He put on 36 postures in only half an hour.

Ren Tianfei suddenly said, "This combat skill is quite good, with which you can make the most of every piece of muscle. Although its level does not seem to be high, it is very rare. You must practice it for an hour every day from now on." Han Fei grinned. "Oh, it's really rare for you to praise a combat skill!"

Ren Tianfei said bluntly, "Combat skills have great advantages in the early stages, especially for people with low strength like you. A good combat skill can improve your combat power and reduce your chance of death."

Han Fei asked, "Then what if my strength is no longer low?"

Ren Tianfei said, "At that time, combat skills will be useless. No matter how special a combat skill is, in the face of absolute strength, it is of no use."

Han Fei snorted without speaking. After he finished practicing the 108 postures, Ren Tianfei came ten meters away from him. "Now, training starts." "Huh? Shall we start training so soon?"

As a response, Ren Tianfei directly attacked him.

No weapons, only fists and fighting skills. Seeing Ren Tianfei punching at him, Han Fei was about to fight back. However, when he clenched his fist, he felt that the speed couldn't keep up.

Immediately, he tilted his head slightly and turned his body sideways.

Unfortunately, his opponent was not an ordinary person but Ren Tianfei who was abnormally strong.

BAM!

He elbowed Han Fei in the chest, sending him flying seven or eight meters away. Han Fei hurriedly supported the ground with one hand, and in a strange posture, kicked at Ren Tianfei who pounced on him again. But the latter grabbed his foot with one hand, pulled it, and slapped him in the chest.

BAM!

Han Fei flew out again.

Before Han Fei fell, Ren Tianfei rushed at him again.

Bam! Bam! Bam!

He didn't know how many times he had been punched as he felt sore all over.

Ren Tianfei kept saying, "Slow, too slow! Haven't you eaten? Why are you so weak?"

"Are your Qi and blood not flowing smoothly? You can't even respond to this?"

"Are you a turtle? Even turtles are faster than you." "Hey, get up..."

Han Fei didn't know how long he had been abused. He felt that every inch of his body had been battered by Ren Tianfei. But he couldn't even touch him.

When one day passed, Ren Tianfei gave Han Fei an hour to practice the 108 Spirit-Absorbing War Bodies.

After an hour, the battle continued.

The process repeated over and over again for at least 10 days.

Han Fei wouldn't easily admit defeat. This experience reminded him of when Jiang Qin was training him on the seabed. At that time, just like now, he was also abused by Jiang Qin for half a year.

Half a month later.

Han Fei had almost completely adapted to 10 times the gravity, and he discovered that the Qi and blood could actually be mobilized.

Before, Han Fei had never thought about the issue of Qi and blood. He just felt that his physique was very strong, his heart was beating powerfully, and his Qi and blood supply was sufficient.

But now, he discovered that when he was about to attack, the Qi and blood could be supplied in advance. At that moment, the speed would soar sharply, and because of this discovery, Han Fei managed to keep up with Ren Tianfei's rhythm.

At this moment.

Han Fei rushed towards Ren Tianfei after practicing the 108 Spirit-Absorbing War Bodies. He gave a kick at him, so fast that his kick left a shadow under 10 times the gravity.

However, Ren Tianfei was faster. He leaned back slightly, moved his body sideways, circled round to Han Fei, and kneed him in the stomach.

BAM!

Han Fei cursed, "Have you elevated your strength to an advanced Dangling Fisher?"

Ren Tianfei said indifferently, "Yes, so you can improve more quickly." Han Fei was speechless. This is too much! I finally got adapted to the environment and reached the reaction speed of an intermediate Dangling Fisher in a normal situation. But this b*stard immediately raised his strength to an advanced Dangling Fisher.

Han Fei was outraged. "I don't believe what you say! You just want to hit me."

However, Ren Tianfei just said carelessly, "Yes, I just want to hit you."

Han Fei: "..."

After another half a month, Han Fei had completely gotten used to the 10 times gravity and was able to perfectly control his Qi and blood. Every muscle in Han Fei's body could burst out with huge power in an instant.

But then Ren Tianfei elevated his strength to be a peak-level Dangling Fisher, so Han Fei could still only be abused.

Another 10 days later.

When Han Fei finally was able to adapt to Ren Tianfei's strength, this b*stard turned to suppress him with spiritual power.

In the second month after entering the water cave, Ren Tianfei began to throw poison at Han Fei.

Han Fei was stunned and yelled, "How can you use poison on me? Don't you feel ashamed?"

However, Ren Tianfei was also stunned. "What anti-poison fruit have you eaten? The poison doesn't work on you?"

Han Fei sneered. "Yeah! I have eaten Venomous Tulip, and all the poisons in the level-three fishery basically don't work on me."

Ren Tianfei yelled, "Fine, then I'll just continue to beat you."

Ren Tianfei raised his strength again. This time, he became equal to a Hanging Fisher.

But Han Fei sneered. "Hey! You can go ahead and improve your strength, but I also have a secret method. I have been beaten by you for two months, and today I'm gonna hit you."

"Majestic Mystic Spell."

Han Fei hadn't used it before because he knew he was training.

After being abused for two months, Han Fei felt that 10 times the gravity was no longer a problem for him, and he no longer needed Ren Tianfei to train him.

"I am invincible."

The golden fist light flashed and in the blink of an eye, he burst out hundreds of punches. The seawater was bombarded exploding and boiling "Huh?"

Ren Tianfei was slightly taken aback. "Are you in a hurry to get out?"

Han Fei scolded, "I don't want to be abused by you any longer." Ren Tianfei said lightly. "OK! Then go out." "Huh?"

After saying this, Ren Tianfei changed back into a phantom and then disappeared.

Han Fei was astonished. "Is it over? Isn't this f*cking too easy?"

When Han Fei was still stunned, the water cave collapsed, seawater flowed out, and the seven-star array on the ground began to shatter.

Crack!

Han Fei found a door on the ground.

Han Fei looked at the mottled, manhole-like gate and frowned. "Will there be a third Ren Tianfei behind?"

When the gravity disappeared completely, Han Fei suddenly felt so relaxed as if he was floating in the air and could jump hundreds of meters away with a light touch on the ground with his toes.

He couldn't delay any more time. It had been more than 2 months since he entered the Abyssal Chasm, and only 5 months were left before the one-year period expired. He didn't know if Zhang Xuanyu, Xia Xiaochan, and the others had met...

Drawing a long face, Han Fei pulled the mottled door with one hand. However, this casual grab actually tore the millstone-like gate.

“Wow! I’ve become much stronger.”

However, this time, Han Fei’s eyes lit up because he saw seats and a stone platform. It seemed that someone had lived here.

Han Fei jumped in the door without hesitation and looked around. It turned out to be a large room less than 100 square meters.

The most conspicuous thing in the room was a large pool with an area of three square meters. In the pool was bright red water.

When Han Fei saw the pool of water, he was shocked. The energy was too violent! He just stood there and took a breath, and he had felt billowing energy into his body. “F*ck, Candle Dragon Blood? So much?”

Chapter 509 The So-Called Treasures

Han Fei’s attention was immediately attracted by the Candle Dragon Blood. It was like a luminous pearl in the dark night, so dazzling.

“Gulp!”

Han Fei’s eyelids jumped. It’s crazy! Did Ren Tianfei slaughter a dragon before? This is too crazy! A whole pool of Candle Dragon Blood?

Before, in the door of the Hexagon Starfish, a drop of Candle Dragon Blood turned him into a fatty. But here, there was a damn pool of it! Han Fei felt that he would be blown up if he sucked it all up. There was no second possibility. “Um!”

Han Fei exhaled deeply, filled with puzzlement. The energy of the entire Abyssal Chasm had been sucked away. Why did the pool of Candle Dragon Blood remain untouched? The only explanation Han Fei could think of was that Ren Tianfei was too strong and the seal he placed was too strong. Even the mysterious sucking power of the Abyssal Chasm couldn’t suck any energy from here.

Han Fei looked away from the pool with difficulty and began to look around the room.

Obviously, this room was forcibly broken open from the outside. There were huge fist marks on the rock wall, which was in line with Ren Tianfei’s style.

In the corner of the room, there was a large stone bed with some crushed and dried seaweed on it. Next to the bed was a stone table with some fish skin on it.

Except for these two things, Han Fei didn’t see anything else.

On the rock wall opposite the bed, there was a sunken five-meter large fist mark in the rock wall.

Han Fei sneered. “I can’t believe Ren Tianfei left a big punch mark on the wall of his own room. Did he take it as a decoration?”

Han Fei didn't pay any attention to the fist mark anymore. His first goal was neither the fish skin nor the fist mark, but the treasures Ren Tianfei left him.

But there was nothing else here! The only thing left was the stone table, which looked no different from the one in the Mantis Shrimp cave. Did this guy leave him a combat skill or something? Han Fei hurried forward and found that there were only three pieces of fish skin on the table.

There was a drawing on one piece of fish skin, which seemed to be a floating island.

On another piece of fish skin were written notes, which seemed to be left for him.

And a big fist was drawn on the third piece of fish skin.

Han Fei's face turned green. He felt outraged. F*ck, I tried so hard to get to this place and you just left me these?

Han Fei tried to suppress his anger and picked up the fish skin with the words on it.

"Huh! Haven't you died yet..."

When Han Fei saw this, he didn't know what to say. Are you f*cking looking forward to my death?

Skipping the first line, Han Fei continued to read.

"Being able to enter the Abyssal Chasm and get here means that you should have broken through to be a Hanging Fisher. Otherwise, you would definitely not have been able to pass the first two tests. However, since you have entered, it shows that you are quite talented. Now I will tell you a few things..."

"First of all, I don't have any messy divine weapons or combat skills for you here. Now that you have come here, you must have broken the second barrier. Regarding the Indestructible Body Art, my first clone should have already explained to you, so I won't talk about it anymore. Why did I let the first clone tell you? That's because if you didn't meet my standards, you would never have the opportunity to see my second clone. Now that you have made it here, you are already my disciple..."

"F*ck you. Your second clone kept battering me for two months! Is there anyone who teaches disciples like this? If I see you in person, I will beat the hell out of you..."

Next, Ren Tianfei finally got to the point.

He said, "You will need a lot of energy after breaking the second barrier of the Indestructible Body Art. The longer you practice the Indestructible Body, the more energy is required. The 30 drops of Candle Dragon Blood in the pool are for you! After you absorbed it the first time, you must have become very fat, I guess you know this. At that time, you were still too weak to absorb much. But with your current physique, you should be able to completely absorb a drop of Candle Dragon Blood. Remember do not use the blood unless necessary. You'd better leave about 10 drops to break through the third barrier of the Indestructible Body Art..."

Han Fei was taken aback. "Are you kidding me? Are there only 30 drops of Candle Dragon Blood in such a big pool? Does a drop of blood weigh dozens of catties?"

Han Fei was helpless. He had thought that a so-called drop of Candle Dragon Blood was the size of a small drop of water! Now how should he use this stuff? Would he have to say, "Wait a minute, let me take a mouthful of blood," in battle?

Han Fei shivered all over when he imagined that scene. That would make him a joke!

Ren Tianfei continued, "You don't have to be in a hurry to break the third barrier of the Indestructible Body Art. You just need to cultivate normally. After you finish refining your flesh and blood, continue to temper your bones! When one day, you find that your bones become bright white and shiny without any impurities, it means that the third barrier has come."

Han Fei bore this in mind. He had become quite strong after breaking the second barrier of the Indestructible Body! Then how strong would he be if he broke the third barrier?

Next, Ren Tianfei said solemnly, "Although I didn't leave you any divine weapons, I left a punch for you. With it, I bet you'll be invincible in the Unknown place."

Han Fei's eyes immediately lit up. This is too crazy! I dare not say that I'm invincible even with the Art of Invincibility... And the big fist mark and a map you left me can make me invincible in the Unknown Place?

In the end, Ren Tianfei wrote, "When you break the third barrier of the Indestructible Body Art, you and I will meet. By the way, good luck..."

He had told him all that should be said. The so-called treasures of the old b*stard were 30 drops of Candle Dragon Blood and a big fist mark.

But Han Fei was somewhat puzzled. What did the floating island on another fish-skin map mean?

Han Fei didn't immediately study the big fist mark, but picked up the picture with the floating island.

In the picture, a floating island was hanging in the sky. Below it was a vast ocean, and above it were clouds.

"Wait a minute..."

Suddenly, Han Fei frowned. He saw that among the clouds, there was an inconspicuous pair of eyes.

When Han Fei's eyes met the pair of eyes in the clouds, he suddenly froze and a sense of horror emerged spontaneously. "There is a secret above the clouds!"

Han Fei took a breath and didn't look at those eyes again. With just a glance at them, he felt a chill down his spine and his whole body was frozen.

"This old b*stard left me a picture but didn't make it clear why he left me this picture! What are the eyes in the clouds?"

Han Fei returned to his senses slightly. The feeling just now was more like a warning.

But what did Ren Tianfei want to warn him about?

Han Fei couldn't figure it out, so he could only keep the picture first. He guessed that the city must be the Thousand Star City! But he was still far from the Thousand Star City now.

He would stay in the Unknown Place for a few years.

After spending a year in the level-three fishery, Han Fei already felt that there were too many things for him to explore. The Unknowable Place was much more dangerous than the level-three fishery and had naturally much more to explore. So he wouldn't go to the Thousand Star City for a while!

Then Han Fei began to look at the big fist mark left by Ren Tianfei.

Han Fei held up the fish skin map, comparing it with the fist mark on the rock wall but didn't find anything special!

Staring at the fish skin map for a long time, Han Fei felt that this seemed like a combat skill, but not like a combat skill. The Demon Purification Pot had no information about it.

Putting the fish skin map away, Han Fei ran up to the rock wall and tried hitting the fist mark left by Ren Tianfei with his fist.

To his shock, the next second, he felt that all the energy in his body was almost drained in the blink of an eye. The Qi and blood in his body, from head to toe, gushed into his fist in a strange way.

Boom...

A fist shadow over five meters in size erupted from Han Fei's fist and crashed into the fist mark on the rock wall.

"Puff!"

Han Fei immediately spouted blood and then exclaimed, "A secret method!"

But at this moment, Han Fei couldn't take much care of it, so he sat directly on the ground, took out the cauldron, and started to stuff food into his mouth.

Now, Han Fei would always cook a pot of Yellow-Blooded Sea Cucumber and put it in Forge the Universe. Whenever he needed it, he would just take it out and eat. It wouldn't go bad in Forge the Universe anyway.

Han Fei slowly recovered after half an hour, staring at his fist blankly.

Just now, Han Fei's energy was drawn away. Besides, it was not transmitted to the fist through the meridians, but from the flesh and bones, which then appeared on the fist. Han Fei's first feeling was that his speed became very fast and then he became very strong. However, this blow almost exhausted all his energy. If in battle...

Suddenly, when Han Fei glimpsed at the Candle Dragon Blood, he seemed to figure out something

Chapter 510 Burnt In Flames

Han Fei immediately realized that Ren Tianfen had left thirty drops of Candle Dragon Blood because he knew that this technique would use up all the energy for whoever used it. Han Fei glanced at the Demon Purification Pot at this moment and saw the data.

Sacrificing Punch (Heaven-Level, Divine-Quality)

Introduction: This technique allows you to gather the energy within your body and blow it out along with your soul power.

Shortcoming: Your energy will be lost after a punch. You must replenish yourself soon, or you will be severely wounded.

Superseding Art: No art can be deduced. You can only deduce it on your own. Note: This technique is not invincible. Whoever uses it must be ready to sacrifice himself in order to defeat strong enemies.

“Hiss!”

Han Fei had a lot of complicated feelings. The Sacrificing Punch wasn't as good as his Art of Invincibility, but it was still surprisingly brutal. Also, it seemed to be a very simple technique. One only had to concentrate all his energy and blow it out.

However, there were actually two problems.

First of all, how could the energy all over the body be concentrated instantly? Just now, Han Fei had sensed that all his energy was extracted the moment before he punched out. The technique was even faster than the Art of Invincibility.

Secondly, while one could always be determined to fight, it was hard for them to be ready to kill the enemy at the cost of their own life unless they were already dying. But such determination was exactly what this technique needed. It was why it was named the Sacrificing Punch.

Han Fei immediately grinned. This old ass*ole doesn't seem so bad... He didn't offer any weapons, spiritual fruits or cultivation arts to Han Fei, but Han Fei didn't really need those things.

What Han Fei was in dire need of was exactly pure energy such as the Candle Dragon Blood. He couldn't even imagine how powerful his punch would be after he became a peak-level Dangling Fisher and activated the Majestic Mystic Spell.

After obtaining the Sacrificing Punch, Han Fei had quite a few ultimate skills now.

The Drawing Technique was powerful and the most common one.

The Sacrificing Punch, on the other hand, was the most extreme one. It was much more powerful than the Drawing Technique. After all, the Drawing Technique could be used more than once.

Counting the Sky Dissecting Finger, the Supreme Yin-Yang Wheel, the Majestic Mystic Spell and the Art of Invincibility, Han Fei felt that he had all the unparalleled secret techniques in the level-three fishery.

Earlier, he had learned that Chen Aochen and Cao Tian were the best fighters. He had fought Cao Tian back in the Steps into the Sea, but Cao Tian didn't try his best back then.

He knew that the man was very strong after the man blocked his Drawing Technique when he had activated the Majestic Mystic Spell.

As for Chen Aochen whom he ran into later, this man must be a lot weaker than Cao Tian, considering that he was swept into the sea by the Million Knife Art.

Although his Million Knife Art was launched with ultra-quality spiritual blades at this moment, Chen Aochen should be able to blow them apart if he was strong enough.

Han Fei couldn't help but grin. Does this mean that I'm on par with Chen Aochen and Cao Tian now?

No, no, no. Han Fei dropped the idea the moment it popped up in his head. How could he be on par with them? He should be the One Punch Man that was above them.

"Is this the confidence that an expert should have? Hehe..."

After that, Han Fei picked up the giant pot and walked straight to the pool of the Candle Dragon Blood.

He slightly reduced the size of the pool in Forge the Universe that stored the spiritual spring. Then, he pointed at the Candle Dragon Blood, and it was all gone. "Hum..."

The moment the Candle Dragon Blood disappeared, he was blasted by a torrent of scorching energy that filled the cave in the blink of an eye.

"Shoot..."

Han Fei was instantly dumbfounded. What's happening? I'm just collecting the Candle Dragon Blood. Why is such furious energy bursting out?

As far as Han Fei's eyes could reach, flames were surging and roaring. Yes, the furious energy turned into raging flames the moment it charged out. It was so hot that it reminded Han Fei of the magma in the Fiery Mountain.

"Hahaha... Isn't it a pleasant surprise? You think this is over? It's not easy for me to get a disciple. How can I leave nothing but a technique for you? Since you've already broken the second barrier of the Indestructible Body, I'll further polish your bones for you."

"You old jerk!"

Han Fei was lost for words. Pleasant surprise? It was a surprise, but definitely not a pleasant one.

Cracks suddenly emerged under Han Fei's feet, and weird circuits were spreading out with Han Fei as the center.

Han Fei cried out, "Old jerk, what's this now?"

But the moment Han Fei opened his mouth, the flames flew into his mouth and popped out from his nostrils.

"Old jerk, that's too much! You should've at least given me some time for preparation..." However, Ren Tianfen was nowhere to be seen. Even his voice was gone, as if it wasn't Ren Tianfen who talked just now. "Ass*ole!"

Han Fei was rendered speechless, as Ren mechanical voice behind. He didn't have a third clone at all.

The flames around him got more and more intense.

Han Fei's clothes had been burnt up the moment the place was ignited. He had thought of putting on an ultra-quality battle suit, but since nobody was around, he decided not to do that in case the battle suit was ruined by the flames.

A hundred seconds passed.

The temperature of the flames became steady, but Han Fei didn't feel well at all.

It was simply too hot!

At this moment, Han Fei's skin was already cracking, and only a hundred seconds had passed!

"Ho00000!"

Han Fei remembered that he always threatened other people that he would roast them when he pretended to be one of the Black and White Ghosts, but he turned out to be the one who got roasted now.

Crack...

"Chila!"

His flesh and blood were cracking nonstop, and hot currents of magma were springing from under his feet.

Han Fei felt that his eyes were being blinded by the flames.

While covering his eyes, he struggled to watch the magma filling in this place. "F*ck you, Ren Tianfen! You can't let go of me until you get me killed, right? You'd better pray that I won't become stronger than you, or I will definitely boil you alive... Ouch!" Han Fei felt that his flesh and blood were being burnt. He had to sit down immediately and practice the Indestructible Body.

Polishing the skin, the flesh, the bones and the blood had always been the way to practice the Indestructible Body Art.

When his body was almost collapsing, terrifying vitality came up. Han Fei didn't know where the vitality was from. Had he been carrying it all this time?

Having no time to consider that, Han Fei simply took out dozens of spiritual fruits.

But the spiritual fruits were vaporized the moment they were retrieved. The spiritual energy in them was mixed with the flames.

Han Fei kept his eyes closed. Unlike Ren Tianfen, his Indestructible Body was purely based on his vitality, and he was recovered again and again.

At this moment, Han Fei's veins were intact, and he could still absorb spiritual energy. He would be a fool if he didn't make the best use of it.

An hour later, Han Fei's flesh was wriggling under the fire, and his bones were burningly hot.

But that was not important. Han Fei discovered, to his shock, that his eyelids had been burnt up. Han Fei felt terrible at this moment. He couldn't turn his eyeballs indestructible, could he? How frightening would it be if his enemy were to poke his eyes with ultra-quality spiritual weapons?

Instantly, Han Fei covered his eyes with two high-quality spiritual stones. He didn't care about other places, but his eyes must not be ruined.

S

m

As a result, tremendous spiritual energy covered Han Fei's eyes without leaving any gap.

Two hours passed.

Han Fei felt that he couldn't hold on anymore. His bones didn't feel like bones anymore but more like magma flowing in his body.

Also, his veins were breaking apart. Han Fei took out dozens more spiritual fruits, trying to repair his veins.

For a moment, Han Fei reached an impasse with the flames.

Han Fei dare not think about anything else at this moment. Ren Tianfen thought that he didn't have veins, but he actually did. He had picked up the Indestructible Body Art in a different way from how Ren Tianfen did.

Ren Tianfen could polish his body crazily, but Han Fei couldn't. He needed balance.

Therefore, Han Fei took out dozens of spiritual fruits every two hours to repair and stabilize his veins. He also replaced the high-quality spiritual fruits that he stuck to his eyes every once in a while.

One day passed.

Han Fei was as skinny as a skeleton, and his bones were shimmering. Now and then, spiritual energy was dispersing from him. His veins were also emitting fluorescence as if they were made of crystals. Two days passed.

Han Fei's bones became so purified and smooth as if someone had put oil on it.

But Han Fei didn't pay attention to his bones. His eyes were very sore. Though they were protected by his spiritual energy, the dazzling flames had been burning them and deprived him of his sight.

Three days passed.

Han Fei's bones were no longer solid but more like fluids where spiritual energy was flowing like springs.

After the third day, the flames gradually dimmed.

Seven days later, the flames finally disappeared from this space.

After a long time, Han Fei suddenly opened his eyes.

Instantly, two rays of fire beamed out of his eyes like lasers.
