

GOF 521

Chapter 521 The Hunt Was On

According to Luo Xiaobai, at the bottom of the Worm Fish Abyss, there were not only many rare spiritual plants and spiritual fruits, but also a strange seed contained in a strange box.

Luo Xiaobai failed to get it because she had to win the guardian spiritual plant to get the box.

Just when Luo Xiaobai spent a lot of time and effort to win the guardian spiritual plant, Mo Qianshang, this despicable b*stard, appeared. Fortunately, Luo Xiaobai controlled the guardian spiritual plant to get the seed.

However, the box was snatched by Mo Qianshang. Mo Qianshang was beaten by the guardian spiritual plant, so he escaped the Worm Fish Abyss with the box. Luo Xiaobai found that the box seemed to have some special connection with the seed, so she also walked out of the abyss.

Then the two began to fight.

In a place like the Seagrass City Wall, although Mo Qianshang was much stronger than Luo Xiaobai, he still couldn't catch her. And Luo Xiaobai was not strong enough to kill Mo Qianshang, so the two would fight almost every day, until Zhang Xuanyu and the others arrived.

Mo Qianshang couldn't beat Luo Xiaobai and was unwilling to let her run away, so he publicized that Luo Xiaobai had obtained a "Sea Quelling Bizarre Treasure".

At first, no one knew what that was.

In the level-three fishery, most people hadn't even seen an ultra-quality spiritual weapon. They might yearn for a divine weapon, but when you talked about "Sea Quelling Bizarre Treasure", they wouldn't know what you were talking about.

But many people on the Wanted List were attracted by it. Many people had even come to the Sea Grassland all the way from the Thousand Star City. Han Fei came in from another direction, so he didn't meet them.

Hearing that, Han Fei couldn't help thinking, What would happen if they knew that the Embroidery Needle in my hand was a real "Sea Quelling Bizarre Treasure"?

Han Fei said, "But is that seed really a 'Sea Quelling Bizarre Treasure'?"

Luo Xiaobai shook her head. "It's definitely not, but not worse than a 'Sea Quelling Bizarre Treasure'. I don't know what it is. I may need to find the box first."

Han Fei said immediately, "Then let's get out quickly. Mo Qianshang, right? He has rubbed me the wrong way for a long time. Let's take this chance to get rid of him."

Xia Xiaochan was surprised. "You haven't seen him before. How did he rub you the wrong way?"

Han Fei snorted. "He ranks first and I only rank third. So I don't like him!"

Everyone was dumbfounded. Do you think it's a good thing to be on the Wanted List? Others on the Wanted List tried their best to get delisted, but you wanted to rank first?!

Luo Xiaobai frowned and said, "Now that you are back, Mo Qianshang will definitely not come again."

Han Fei said, "Then let's take the initiative to find him."

Zhang Xuanyu cursed, "But that guy seems to be able to catch up with us no matter what. Even Master Hexagon seems to have been locked by him. Otherwise, we would have rushed out earlier!"

Luo Xiaobai said, "It may be related to the box. There seems to be a connection between the box and the seed. That's why he can always find us."

Le Renkuang spat out bubbles and said, "No wonder! That's why we are hiding in the door of Master Hexagon, right? In this way, he can no longer find us!"

Han Fei frowned slightly. "So, if we go to him, will he find it in advance?"

Luo Xiaobai nodded. "Yes."

Zhang Xuanyu asked, "What should we do then? How can we get the box back?"

Han Fei suddenly smiled. "Since he can only sense the seed, we can leave Xiaobai here and go out to kill him and take the box back, OK?"

Xia Xiaochan's eyes lit up. "Yes, good idea."

Zhang Xuanyu and Le Renkuang looked at each other. "Yes. We didn't take the initiative to go to him because firstly, we couldn't find him, and secondly, Mo Qianshang had allies. Even if we could find him, we wouldn't have been able to kill him."

But now, the situation was different. Han Fei had come and they wouldn't need to rescue him. They were quite relieved.

Besides, Han Fei had Little White, who could find anyone!

Most importantly, Han Fei was very strong! Judging from the punch he just launched, his combat power had improved a lot again.

Immediately, Luo Xiaobai nodded. "Okay!" Zhang Xuanyu clenched his fists. "Humph! Great! That damn b*stard besieged us over and over again. Does he really think he can really bully us at will?" They weren't quite worried about Luo Xiaobai's safety. In the Seagrass City Wall, let alone Mo Qianshang, even a Hanging Fisher might not be able to catch Luo Xiaobai.

Han Fei immediately took the Hexagon Starfish from Le Renkuang's body and put it on his shoulder. "Master hexagon, I'll count on you later."

The Hexagon Starfish rolled its big eyes. When he was with Le Renkuang and the others, he felt really at ease.

He especially liked Le Renkuang who always called him Senior and every time he ate something, he would feed him first.

Unfortunately, Han Fei had come back and he caught him back as if he was a small fish.

The Hexagon Starfish warned, "That guy looked fierce!"

Han Fei said ferociously, "I am fiercer than him!"

With a flash between Han Fei's eyebrows, Little Black and Little White appeared. Han Fei was surprised to find that these two little things had upgraded and now they were level 31.

Han Fei exclaimed, "They upgrade so slowly! He hoped he could go to the Soul Sea again. If these two little things were still at level 31 when he had become a Hanging Fisher, there would be a gap of a complete realm between them.

"Let's go!"

At this time, within the Seagrass City Wall, about 600 kilometers away from them.

A group of people were gathering, each with a solemn expression.

A female manipulator said, "Lu Hong and Wu Qian shouldn't be able to come back. But how did Han Fei suddenly appear?"

A male spirit gatherer was holding a bow in his hand. "Anyway, I'll quit this hunt. I am not surprised that Han Fei can come back. Don't forget, Zhang Xuanyu came back from the Abyssal Chasm. So why can't Han Fei? As for why Han Fei could come here quietly, the reason is simple- he can change his appearance!"

At this moment, a hunter who was sitting cross-legged and recovering suddenly opened his eyes. "I quit too. You can feel the power of the punch Han Fei hit just now, which is simply unstoppable. Mo Qianshang, you can't even stop the lingering power of that punch. How can you possibly beat him?"

Mo Qianshang's face was cold. "Don't forget, not just us, but the two teams outside also want a share. Since they want the benefit, they must join in the hunt too. Let's try once more. No matter how strong Han Fei is, I don't believe he can launch attacks as powerful as the one just now many times! This time, let's gang up on him." The hunter sneered. "Can you afford the price? They are not fools. They agree to cooperate with you for nothing but the benefits you promised. Now Han Fei is back. I had thought that he was weaker than you... But now it seems that you are no match for him at all. If you want to fight Han Fei, many people will die. Who can afford this price?"

A murderous gleam flickered across Mo Qianshang's eyes. "I'll give each of you an ultra-quality spiritual weapon, as long as we can catch Luo Xiaobai... No, as long as we can catch any one of them, all my money and treasures will be yours."

Hearing his words, everyone was taken aback.

The manipulator said, "Three ultra-quality spirit weapons." The hunter was silent for a while. "I want your Spine Shadow Sword Stream, and on top of that, give me an ultra-quality spiritual weapon." The spirit gatherer frowned. "I want your Dagger Trap, plus an ultra-quality spiritual weapon." Mo Qianshang squinted his eyes. "Okay!"

Then Mo Qianshang threw out three ultra-quality spiritual weapons. He was deeply aware that the seed would bring a great opportunity, which was not comparable to any ultra-quality spiritual weapon. As long as he could get the seed, he could pay any price.

The hunter nodded. "We've gotta be quick. Han Fei is back. They will definitely break out of the encirclement in the first place. We'll only have this chance. Now, we have to contact the other teams quickly."

Mo Qianshang suddenly wondered, "Huh! It seems they've stayed where they are."

"They haven't moved?"

"Perhaps they are recovering! After all, we had all consumed a lot in the combat just now."

When Mo Qianshang and the others were about to find other allies, Han Fei stuffed the Hexagon Starfish into Little Black's mouth. The Hexagon Starfish immediately cried. "I want to come out! Your spiritual beast is grinding me with its teeth."

Han Fei said to Little Black in his heart. "Little Black, you can't eat him. He is on our side."

Little Black rubbed against Han Fei.

Han Fei said to the Hexagon Starfish, "Don't yell. If you expose Little Black, I will pat you to death."

Behind him, Zhang Xuanyu asked in amazement, "Where is Master Hexagon? How is he gone?"

Le Renkuang also suddenly realized the starfish was gone and turned his eyes to Han Fei. "Oh, no, Master Hexagon ran away."

Only Xia Xiaochan looked puzzled, but did not speak.

Han Fei said, "Don't yell. Those guys are only 10 kilometers away and have manipulators among them. If we get too close, they will find us. So I'll have Master Hexagon go over and set up a Six-Gate Array first." Han Fei grinned. "Now, the hunt has begun."

Chapter 522 Being Chased Like A Dog

The manipulator next to Mo Qianshang said, "For some reason, I have a bad feeling. Have you found anything wrong?"

Everyone shook their heads.

The manipulator suddenly threw the ultra-quality spiritual weapon she had just obtained to Mo Qianshang. "It upsets me. I don't feel right. I quit this hunt."

Mo Qianshang shouted in a low voice, "Yang Ning'er, do you want to go now?"

The manipulator called Yang Ning'er smiled coldly. "Why, you want to keep me? Although I don't have the weird means of Luo Xiaobai, you can't keep me."

With that, Yang Ning'er crushed a Flash Stone and disappeared in place.

It wasn't until she appeared dozens of kilometers away that the feeling of restlessness disappeared.

“Are Mo Qianshang and the others ambushed?”

This was Yang Ning'er's first thought after she quit. She had always felt something was wrong, but she couldn't find out what was wrong.

At this moment, when she was safe, she suddenly realized. “Just now, there seemed to be abnormal fluctuations in the seaweed.”

Just after Yang Ning'er left, the expressions of the hunter and the spirit gatherer beside Mo Qianshang changed slightly. They didn't know why Yang Ning'er repented the next second after she agreed.

Because of her, they also had a bad feeling!

“Hum...”

At this time, a purple light suddenly rose and their faces all changed drastically. The hunter reacted the fastest. Instead of crushing a Flash Stone, he turned into a wisp of smoke. However, no matter how fast he was, how could he be faster than the speed of light?

The moment the purple light rose, the three people were enveloped.

“Damn it, Mo Qianshang, you b*stard, didn't you say they weren't moving?”

The spirit gatherer was terrified. At this moment, he was shaking. Because he knew that if Han Fei and the others had come, with the strength of the three of them now, they could not resist them.

Mo Qianshang was the strongest and the hunter Zuo An had the fastest speed. As for him, although he was also a soul warrior, he was not as strong as Mo Qianshang in terms of combat power and Zuo'an in terms of speed.

Therefore, the first person to die would be him.

Mo Qianshang shouted loudly, “Use your secret methods. We can't be trapped here.”

As he shouted, a bone knife appeared beside Mo Qianshang. At the moment this knife appeared, all the seaweed in the array turned to powder.

When Mo Qianshang held the bone knife with one hand, his eyes turned red. A terrifying killing intent erupted from his body.

“God Smashing Slash!”

The seawater was twisting, and hundreds of black balls appeared in the Six-Gate Array. Bone knives emerged from the black balls one after another, hacking at the purple light.

BAM, BAM, BAM!

The bone knives exploded, and after only one or two minutes, the Six-Gate Array was dimmed.

The Hexagon Starfish hurriedly said to Han Fei via voice transmission, Hurry up, hurry up, this human being is too strong. I can't trap him.

The hunter Zuo An stuffed a spiritual fruit in his mouth, concentrated all the spiritual energy in his body on his dagger, and madly pierced to a point on the Six-Gate Array!

That spirit gatherer was frantically sending spiritual energy into the bodies of the two people. He knew that with his strength, it was impossible for him to shake the Six-Gate Array. So, he placed all his hope on Mo Qianshang and Zuo An.

Han Fei's speed was reaching its extreme. He never expected that these people would be so tough. Although Wang Zitian had used his strongest move, he still had to cut open the Six-Gate Array with three slashes.

But the Mo Qianshang trio almost broke the Six-Gate Array after only one attack. He immediately activated the Majestic Mystic Spell and had Little Gold attach to him, and his speed had reached the extreme.

Han Fei said to the others, "I'll go first. You guys, be quick."

With Han Fei's speed, he could appear 10,000 meters away in two minutes.

But sometimes, even the blink of an eye could determine the outcome of a battle. The Six-Gate Array was getting dimmer and dimmer. The bone knives were simply too strong. It must have been Mo Qianshang's strongest secret method.

Seeing that the Six-Gate Array was about to disappear, and the Hexagon Starfish was still urging him to take action, Han Fei really regretted not studying the speed array well before. Otherwise, his speed could be faster now.

BAM!

When Mo Qianshang vomited eight mouthfuls of blood in a row, the Six-Gate Array was finally broken and Mo Qianshang's face was pale.

At this moment, Han Fei was only a hundred meters away, and Mo Qianshang had already taken out a Flash Stone.

Just at the moment when Mo Qianshang was about to crush the Flash Stone, his hand suddenly ached and the Flash Stone was snatched away!

"Damn it!"

"Thousand Bone Knife Hell!"

After the Flash Stone was suddenly taken away by something, Mo Qianshang knew that he had no chance to take out another Flash Stone. So the next moment, on his either side, two rows of white bone knives were erected tens of meters high, forming a road composed of white skeletons.

The hunter Zuo An and the spirit gatherer Wu Yong escaped as soon as they could. Fortunately, Han Fei's goal was not them. Otherwise, they wouldn't have been able to escape.

At this moment, Han Fei's fist mark had blasted out, and the murderous dark red fist mark was blasting toward the so-called knife hell.

In a twinkling.

Han Fei rushed into the knife hell.

The huge bone knives on both sides were like two rows of guillotines. When Han Fei came in, they cut down one after another. Each blow equaled a strike of a peak-level Dangling Fisher.

Bam! Bam! Bam!

Like a meteorite falling from the sky, wherever the fist mark passed, the bone knives were broken.

In the blink of an eye, the hundred-meter-long knife hell had been blasted through by Han Fei.

Blood oozed from Mo Qianshang's eyes, nose and mouth and he gave a grim smile. "Han Fei, you can't kill me!"

As he spoke, he had held the second Flash Stone in his hand. This time, he activated a spiritual-energy protective cover on his body to prevent being attacked by the thing in the dark.

"Little Black, grab his Sea Swallowing Seashell."

Mo Qianshang's reaction was very quick. No matter how strong Han Fei was, it would take him some time to smash the knife hell. And the time would be enough for him to escape.

However, at the moment he disappeared, his spiritual-energy protective cover was shattered, his chest seemed to be torn, and a large piece of flesh was torn off by something.

The hundred meter-long road paved with thousands of bone knives had been completely blown up by Han Fei.

After Han Fei stopped, he quickly swallowed a few mouthfuls of Candle Dragon Blood. When the violent energy raged in his body, he continued to chase Mo Qianshang.

Han Fei glanced at the Sea Swallowing Shell that Little Black had just snatched, and found that the box was not in it.

Han Fei looked at Xia Xiaochan who had already caught up. "I know where he is. Let me get him."

With a flash between his eyebrows, Little Black and Little White were put away by Han Fei. And Han Fei had perceived where Mo Qianshang was. "He's 3000 meters away." "OK!"

Without saying anything, Xia Xiaochan grabbed the Hexagon Starfish and chased Han Fei.

Xia Xiaochan's speed was only slightly slower than Han Fei's. After all, her Roaming Technique was better than Han Fei's Shadow Swimming Art.

Besides, hunters were fast and she had also activated the Majestic Mystic Spell. The only thing Xia Xiaochan lacked was a speed-type contractual spiritual beast. Otherwise, she would be much faster than Han Fei.

Behind them.

Le Renkuang shouted, "Oh, no! They are so fast, aren't they?"

Zhang Xuanyu glanced at Le Renkuang and said, "Go back to Xiaobai. You are too slow. I'm going to speed up." Zhang Xuanyu's contractual spiritual beast Gold Water Silkworm had no combat power, but its only advantage was its speed.

So, soon, Zhang Xuanyu also disappeared from the vision of Le Renkuang.

Le Renkuang looked blankly at the seaweed around. They are too much! They looked down upon me, didn't they?

At this moment, Han Fei and Xia Xiaochan were already beyond his perception.

Le Renkuang only paused for a while, and Zhang Xuanyu was beyond his range of perception too.

Le Renkuang was completely at a loss at how to continue the chase. So, he could only go back to Luo Xiaobai. He had no choice! He didn't know where to go!

After Mo Qianshang crushed the Flash Stone, he knew that something was wrong. He quickly touched his chest that was drenched in blood and his clothes were torn. And his Sea Swallowing Seashell was gone.

Mo Qianshang was dumbfounded. He didn't intend to fight Han Fei head-on at all, so he didn't wear a battle suit. But who the hell would have thought that Han Fei had a contractual spiritual beast that could be invisible?!

Mo Qianshang was so distressed! There were many treasures in his Sea Swallowing Seashell! He couldn't believe it was stolen by a contractual spiritual beast.

Without his Sea Swallowing Seashell, he lost all his Flash Stones, spiritual fruits, and pills.

Mo Qianshang's face changed drastically. Although it was only a hundred kilometers away from the periphery of the Seagrass City Wall, who knew if Han Fei would catch up with him?

After all, he didn't know how Han Fei found them just now.

With a gloomy face, Mo Qianshang was swimming out quickly. He was no match for Han Fei! He had to find another way to get that seed.

However, only less than half an hour did he find that Han Fei appeared in the range of his perception. Mo Qianshang was shocked. "How is that possible?"

Chapter 523 The Real Mo Qianshang

In Mo Qianshang's view, this didn't make sense. He could find Luo Xiaobai at any time because of the connection between the box and the seed.

But how could Han Fei find him?

Was it because the seed could also sense the box? But even if Luo Xiaobai gave the seed to Han Fei, he shouldn't be able to catch up with him so quickly!

Mo Qianshang panicked. Han Fei's speed was extremely fast and he was gradually getting closer and closer to him.

Without the resources in the Sea Swallowing Seashell, Mo Qianshang could only lead Han Fei to the others who were waiting outside.

In fact, what Mo Qianshang didn't know was that Han Fei's chasing speed was actually not fast.

It seemed that the distance between him and Mo Qianshang was only 2,000 meters.

But actually, he was deliberately keeping this distance from Mo Qianshang instead of catching up with him.

When he was 2000 meters away from Mo Qianshang, Han Fei found that Mo Qianshang's body was brimming with spiritual energy, and it seemed that there was not only spiritual energy, but also burning blood Qi.

"Oh, it turns out that your perception range is only 2000 meters! How can you be at the top of the Wanted List?"

Han Fei was not in a hurry. When Mo Qianshang was burning his blood Qi, Han Fei slowed down a bit, stretching the distance so that Mo Qianshang couldn't perceive him.

Xia Xiaochan had already caught up and appeared next to Han Fei. "How come you slowed down?"

Han Fei smiled and said, "Wait a minute. Every time you rush out, there are people outside to besiege you, right? If so, let's kill those people as well."

Xia Xiaochan said in surprise, "Do you perceive Mo Qianshang?"

Han Fei nodded. "He's about 2300 meters away from us."

Xia Xiaochan was chagrined. Her range of perception was far smaller than Han Fei's.

Xia Xiaochan muttered, "When I get out of here, I'm going to grab some Soul Crystals."

Han Fei smiled. "No problem. However, my first goal will not be Soul Crystals, but the dragon boats. I'm gonna loot them."

"Puff..."

Xia Xiaochan rolled her eyes. "Loot the dragon boats?"

A cold smile appeared on Han Fei's face. "An eye for an eye. If the Hidden Fisher doesn't show up, we can loot the dragon boats."

Xia Xiaochan was slightly excited. "Okay! There should be a lot of good stuff on Hanging Fishers."

The Hanging Fishers on the dragon boats had no idea that, for the first time, someone in the level-three fishery was planning to rob them. And he did mean it.

Soon.

Mo Qianshang's speed nearly doubled as he was burning his blood Qi, and he thought that he had already thrown away Han Fei.

Boom!

Mo Qianshang rushed out of the Seagrass City Wall. At the moment he rushed out, five people had already jumped out from different corners.

A man with dozens of scars on his face sneered. "Mo Qianshang, why are you alone? Where are Lu Hong and Zuo An?"

Mo Qianshang didn't intend to tell them what happened, so he just said, "We won. Xia Xiaochan and Zhang Xuanyu ran away. They are chasing them and I need your help."

Mo Qianshang was wearing a battle suit, pretending to be calm and indifferent.

However, he was waiting.

The five people gathered around. "You won? So, you've got what you want? Then shouldn't you give us what you promised?"

The corners of Mo Qianshang's mouth curled up slightly. "Sure, I always keep my word."

Just as Mo Qianshang said so, within a hundred meters around him, a huge knife array rose up from the ground.

At the moment when the knife array rose, Mo Qianshang's figure flashed and he had already withdrawn from the array.

"Mo Qianshang, what is this?"

"You b*stard, Mo Qianshang, you shameless..."

"Mo Qianshang, what are you doing? Do you think you can kill the five of us alone?"

Mo Qianshang said lightly, "Sorry. Don't blame me."

At this moment, his face suddenly changed and he looked astonished. Han Fei had gotten here so soon?

The five people trapped in the array were attacking frantically, but Mo Qianshang had turned around and fled at full speed.

Mo Qianshang was betting that this Knife Array couldn't trap the five people for long, so when Han Fei got here, he would have to solve the five people first, which could buy him some time.

Anyway, for Mo Qianshang, if Han Fei could really sense him by the seed, he would just drop the box. But this would be his last resort! After all, no matter how good the opportunity was, it was not as important as his life.

He trapped these people in this array to buy himself some time. However, he didn't expect Han Fei to arrive so soon, at least ten minutes faster than he expected. Just as Mo Qianshang ran out, the faces of those people trapped in the knife array suddenly changed.

The scarface shouted, "Not good! Let's try our best. Han Fei and Xia Xiaochan have come."

At this moment, Han Fei's face was beaming with a bright smile.

To be honest, he was planning to repeat the old trick just now, to let Little Black hold the Hexagon Starfish in his mouth to set up another Six-Gate Array.

Otherwise, if he just rushed up, they would have all escaped.

However, to his astonishment, Mo Qianshang took the initiative to trap the five people who were on the Wanted List in this array.

What the hell did he want to do? Did he take advantage of these people's trust in him to trap them just to buy himself some time?

At that moment, Han Fei appeared without hesitation.

A "dart" shot out like lightning.

"Master Hexagon, Go."

Without even looking at those people, Han Fei threw the Spirit Forbidden Net to Xia Xiaochan and said, "I'm going after Mo Qianshang." The five people were also dumbfounded. In the blink of an eye, in addition to the knife array, there was also a Six-Gate Array.

Fighting Luo Xiaobai and the others for so long, they surely knew the Hexagon Starfish, as well as the Six-Gate Array, which couldn't be cut open with just one or two attacks.

Besides, where did Han Fei get the Spirit Forbidden Net?

At that moment, those people struggled like crazy, using all their secret methods, and it only took them one or two minutes to blast through the knife array.

But when they began to bombard the Six-Gate Array, they were desperate! And above their heads, Xia Xiaochan had cast the Spirit Forbidden Net down.

Dozens of miles away.

Han Fei stood in front of Mo Qianshang, saying with a smile, "Surprised?"

"How can your speed be so fast?" In an instant, Mo Qianshang figured it out and his eyes were fierce. "Does your perception range exceed 2,300 meters?"

Yes, when Mo Qianshang found that he couldn't get rid of Han Fei even if he burned his own blood Qi, he knew that he had been tricked.

He had thought that he could buy himself some time by selling out the five people. It turned out to be stupid. From the beginning, Han Fei had already had everything under his control.

Han Fei smiled and said, "If you had put the box in your Sea Swallowing Seashell, maybe I wouldn't have had to chase you. But you were just unwilling to give it up. It's a pity that you made the wrong choice."

Mo Qianshang stared at him coldly. "Han Fei, do you really think you are invincible? Do you think it's that simple to kill me?"

Han Fei shrugged. "Yes, I do think so, and I'm gonna have a try."

Mo Qianshang had activated his secret method again and the bone knife appeared again.

However, Han Fei smiled. "Do you know why I chased you for so long?" Mo Qianshang didn't answer at all, but held the bone knife in his hand and stared at Han Fei coldly.

Han Fei's pupils constricted slightly. "With so much spiritual energy consumed, can you still use this secret method? You know you're risking your life, don't you?"

At this moment, Han Fei gave up speaking to Mo Qianshang because he saw Mo Qianshang's muscles bulging. It seemed that there was a horrifying power erupting from his body.

"You do know I'm at the top of the Wanted List, right?"

Blood spurted from Mo Qianshang's body all over, but he was laughing ferociously. At that moment, Mo Qianshang had broken through into the realm of Hanging Fisher.

And at the moment when Mo Qianshang used the secret method, a red light suddenly flashed through Han Fei's eyes.

In his eyes, the person in front of him was not a person at all, but a Man-Fish in human skin. This Man-Fish was different from those that Han Fei had seen. He was more like a human. Han Fei once thought that mermaids were all females. It turned out that there were also male mermaids in the world.

The data in his eyes showed:

<Name>Mo Qianshang (Half-Mermaid)

<Introduction> A half-mermaid born by humans and sea demons has both the bloodlines of humans and sea demons. When choosing the direction of evolution, they choose to be human and own both the talents of sea demons and humans.

<Level> 42

<Spiritual Energy> 5102/5102 <Demonic Heritage> Level 6, Low-Quality

<Realm> Human Demon

<Companion Spirit> Blood Bone Devil Fish

<Spiritual Beast> Silver-Scaled Fish

<Unabsorbable>

Chapter 524 The Death of Mo Qianshang

Two things shocked Han Fei. The first was that Mo Qianshang at this moment still took a human form. But he, for some reason, saw the real Mo Qianshang under his human skin. In his eyes, he could clearly see that Mo Qianshang's face was different from normal people's. His eyes were all white, and in the middle of the whites of his eyes, there were two pea-like black eyeballs. On both sides of his cheeks, there were layers of skin that seemed to evolve from fish gills.

And his teeth became extremely sharp and the tip of his nose rose high. What Han Fei really didn't want to admit was that this guy was f*cking handsome.

The second was the species, half-mermaid.

Man was man and fish was fish. Although people could become fish and fish could become people, they couldn't change back, could they?

However, he suddenly found an intermediate product. Not only could this thing possess spiritual beasts like a human, but also own companion spirits like a sea demon...

Han Fei was shocked. Is this the benefit of being a half-demon?

If so, there must be a lot of half-demons in this world.

After all, this benefit was too damn good! This was equivalent to having two spiritual beasts since they were born!

When he thought of this, Han Fei froze. Xia Xiaochan also had two spiritual beasts! Both the Shadow Shrimp and the Giant Arowana were very rare spiritual beasts.

Reminiscing about Xia Xiaochan's strange illness, Han Fei felt his heart skip a beat. No, it couldn't be! What he guessed couldn't be true!

If a sea demon became a human and lived in human society, it would only end up miserably if it got discovered. It was taboo!

For an instant, a myriad of thoughts crowded into his mind.

Now, all he had to do was to kill this half-man, half-fish guy. Xia Xiaochan had shown Mo Qianshang her Giant Arowana. If his guess was correct and this guy discovered Xia Xiaochan's secret, that would be a big deal.

Mo Qianshang's strength was still soaring, but Han Fei could no longer wait.

The 99 Blue Sea Wandering Dragon Daggers flew out, forming a sword stream. The speed was so fast that they turned into rays of light, swirling crazily.

"Fuse!"

Mo Qianshang bared his teeth, his face was fierce, and silver scales appeared on his body.

Clank, Clank, Clank!

The flow of daggers swept across, like a long dragon flying past, with silver scales constantly being shaken away. Mo Qianshang was already drenched in blood after this round of attack.

However, what surprised Han Fei was that this guy actually managed to resist it with his body.

"F*ck..."

Han Fei was shocked. This guy's spiritual beast was quite strong! He had fought those sword streams in the Abyssal Chasm, so he knew the power very well. Even he could barely resist the sword flows, but Mo Qianshang blocked the dagger flow with his body!

"Fuse again!"

Mo Qianshang roared again, and his body began to shake. From his flesh and blood, bones grew out and wrapped him in a blink of an eye.

“Shoot...”

Han Fei was speechless. This was too damn powerful! He had already had a layer of scale armor and now here came a layer of bone?

Mo Qianyu sneered grimly. “Han Fei, I’d like to see how strong you are!” Mo Qianshang’s hands had completely turned into two bone knives. As he moved his hands, a cross knife light smashed at him.

Boom...

Han Fei smashed the cross knife light with a punch, smiling. “Do you really think that you are invincible with two shells on you? Let me tell you today that the strongest defense in the world is offense.”

Han Fei stretched out his hand and a large mass of Candle Dragon Blood was swallowed into his stomach.

“Hoooooo!”

Han Fei stepped heavily on the sandpit under his feet, and his fists shone. As if thousands of torpedoes exploded in the sea, the sea shook and rippled violently.

BAM, BAM, BAM... Clank, Clank, Clank...

Han Fei grinned ferociously. Ignoring the knife marks on his body, he bombarded Mo Qianshang all the way. In a moment, Mo Qianshang was blasted back dozens of kilometers. During this time, Han Fei never stopped punching.

Outside the Seagrass City Wall, many people were waiting with the hope to snap up some opportunities.

They had heard that Han Fei was back. This news spread around like a tsunami. At this moment, even people on the dragon boat had probably known the news.

It was said that Han Fei swept a hundred-people team alone. And none of the hundred people could even fight back.

The people newly coming here did not believe it. They had never heard of anyone who could sweep a hundred-people team alone! They must be exaggerating!

See? When they traveled past, no one along the way dared to stop them.

At this moment, the leading man spoke to the others of the team, “Remember, our goal is not Han Fei but the others on the Wanted List. Remember, never ever mess around with a few people. The first is Han Fei and his teammates, the second is Mo Qianshang and his men, and the third is the b*stard who claims to be the Sand King...”

“Hum...”

The sea was shaking and ripples came along one after another, getting stronger and stronger. Immediately someone shouted, “Some people are fighting.”

The headed person immediately said, "Let's go. Maybe there will be some opportunities there. Let's go form an attack."

As soon as the hundred-people team swam out for dozens of kilometers, they saw five or six people coming towards them. When these people saw the hundred-people team, they crushed the Flash Stones in their hands without saying a word.

Immediately after, within a kilometer, they found many people fleeing in horror.

One guy was unlucky, who flashed into the hundred-people team when he crushed his Flash Stone.

Of course, he was captured immediately.

However, the man said, "I surrender. I'll give you my Sea Swallowing Seashell. Let me go, OK?"

The headed person sneered. "Do you think we are such kind people? How do so many of us divide your Sea Swallowing Seashell?"

And the man shouted, "If you want treasures, go to the front! You have so many people. It must be no problem for you!" "Hey, who is in front? You are with us."

"I'm not going, I'm not going! It's Han Fei..." "Han Fei?"

The head man's face immediately changed. "Have Han Fei and the other four rushed out again?"

"No, Han Fei rushed out alone and he is fighting against a man wrapped with bones."

"Huh? One on one?"

The leader of the team paused. Fighting Han Fei one-on-one, the other person should not be weak!

We

So he threw the guy in his hand aside. "Guys, we may take advantage of their fight to get some opportunities. Wait for them to fight. When they finish, we'll come up..."

Boom... Bang, Bang, Bang...

As soon as he said so, two figures in the distance were flying over at an incredible speed.

The person wrapped with bones was being rubbed against the ground by a fist four or five-meter long. This single punch left a trail hundreds of meters long on the ground. However, this was not over yet. Golden fist lights came immediately after and the bone guy could still jump up from the ground, raising two knives to block the fist lights.

Boom!

Han Fei yelled, "Yes, your defense power is strong, but so what? I'm gonna grind you into bits of bone today."

In the stunned gaze of the members of the hundred-people team, the bone guy was pressed to the ground and being rubbed again.

Han Fei was like a fried dough twist in the sea and various strange moves erupted from his body, fists, elbows, knees and back... The crowd was dazzled by his strange moves.

At this moment, Han Fei was holding a bone knife in both hands, and spiritual energy was surging between his hands, making everyone stunned.

In the hundred-person team, someone said, "Wow... How much spiritual energy has this guy used? Why do I feel he has used more spiritual energy than all of mine combined?"

"Hey, who is that bone guy? His defense is so strong!"

Someone shouted angrily, "What are you guys doing here? Hurry up and get away! If that fist light touches you, no one will collect your dead body."

Boom!

A violent explosion occurred between Han Fei and Mo Qianshang. A big hole was blown out of the seabed, and a large piece of bone flew out.

In the hundred-person team, ignoring the risk, someone immediately rushed up, picked up the bone knife, and stuffed it into his Sea Swallowing Seashell.

However, in the next second, a fist light swept at him.

BAM!

This soul warrior who was about to break through to a peak-level Dangling Fisher, vomited a mouthful of blood and was sent flying, and his mid-quality battle suit was shattered.

"Wow..."

"Shoot..." "Go back, go f*cking back..." "Stay away from them."

...

Bam! Bam! Bam!

Mo Qianshang had almost lost the strength to fight back. He had never had such a strong opponent. What kind of combat skill was this?

No, this was not a combat skill at all! Han Fei just used his fists without using any combat skill, but he just couldn't resist it.

Crack...

Another bone in his chest was broken.

Han Fei grinned and put his hands in.

Crack! Crack! Crack!

Han Fei ripped out a big hole in Mo Qianshang's bone armor.

Boom...

Han Fei's fist passed through the big hole and hit Mo Qianshang's chest. In outsiders' eyes, Mo Qianshang's back bulged, as if he had been punched through.

The crowd was all dumbfounded. Who is this? Was he still alive?

Han Fei smiled ferociously, grabbed one of Mo Qianshang's feet, and swung him around. BAM! BAM! BAM!

Smoke and dust dispersed, and an octopus phantom appeared in the dusty mist, tightly restraining Mo Qianshang.

In the mist, cracking sounds were heard ceaselessly.

Outside, every time there was a bone-cracking sound, many people's eyelids jumped.

Half an hour later, someone walked out of the dusty mist.

Han Fei dragged the dead fish-like Mo Qianshang out. At this moment, all his bones had been cracked inch by inch. Although the silver-scale armor was very strong, the bones in Mo Qianshang's body had all been broken.

Han Fei glanced at the crowd and asked ferociously, "What are you looking at?"

Immediately, someone said in horror, "That, that... That's Mo Qianshang."

Chapter 525 The Whole World Is My Enemy

"Run!"

In this hundred-person team, everyone's first reaction, including the peak-level Dangling Fishers, was to tremble with fear.

"Is that guy really a Dangling Fisher? His damn punch can even shatter one's bones! How is it possible?"

At this moment, everyone believed that Han Fei did sweep a hundred-person team alone, and they firmly believed it.

It was needless to ask whether they could beat him or not. The answer was obvious.

Wasn't Mo Qianshang's bone armor strong enough? In the eyes of outsiders, if you could block Han Fei's single punch, you should be thanking God. How long had Mo Qianshang resisted him? Twenty Minutes? Half an hour?

They didn't know, but they knew that it had been a while. According to the strength of Han Fei, let alone sweeping out a one hundred-person team, even two hundred fishers put together wouldn't be able to stop him!

The moment Han Fei walked out of the dust, rays of light kept flickering amongst the crowd as everyone crushed their Flash Stones. If they didn't leave now, they couldn't imagine what awaited them.

Han Fei smiled, curled his lips slightly, and looked down at the dying Mo Qianshang, asking in surprise, "Are you still alive? Wow, your vitality is really strong." Mo Qianshang was beaten and mangled beyond

recognition. His eyes were swollen like big eggs, but his eyeballs still rolled slightly. No one knew what he was thinking.

Han Fei smiled and said, "Given that you are on the top of the Wanted List, I had planned to trade you for the rewards! But who would have expected that you turned out to be a half-mermaid..."

When Han Fei said "half-mermaid", Mo Qianshang struggled to open his eyes.

In Han Fei's mind, there appeared a weak voice, "Who are you?"

Han Fei squatted down and slowly thrust the Blood Drinking Knife into Mo Qianshang's chest. "Me? I am the brightest star in the night sky."

Perhaps he was too angry at Han Fei's ridicule or his vitality had been exhausted, Mo Qianshang's eyes flickered and then he breathed his last breath.

On Mo Qianshang, the white bones turned into powder, and the silver scales withered.

After Mo Qianshang died, Han Fei slowly frowned. Half-mermaid? Why has this species appeared in the level-three fishery? Where does Mo Qianshang come from?

Feeling that someone was coming, Han Fei waved his hand and the Blue Sea Wandering Dragon Daggers swirled around Mo Qianshang, cutting his body into bits.

Zhang Xuanyu and Xia Xiaochan had just come, only to see Han Fei was destroying Mo Qianshang's body. They couldn't help but be surprised. "Feifei! Why did you destroy his body?"

Han Fei turned around and smiled. "Who knows if he is really dead? I need to make sure that it's perfectly safe." Then Han Fei took a deep look at Xia Xiaochan, who felt uneasy under his gaze, and asked, "Why are you looking at me? Those people are already dead. However, we met several other people and had a fight with them, so we're late."

Han Fei shrugged, holding a small plain bronze-green box that looked like jade but was not jade, like iron but not iron, and said, "I've got the box. Let's go back, and after we find Xiaobai and the others, we'll go out."

One hour later.

As everyone watched, the box was directly integrated into Luo Xiaobai's body.

At the moment the box melted into her body, a large amount of seaweed grew under Luo Xiaobai's feet. Within a hundred meters, seagrass grew wildly. Sea anemone bushes popped out of the ground, and endless vines burst out of the soil, blooming blue flowers.

Zhang Xuanyu exclaimed, "Are these Xiaobai's abilities?"

Han Fei looked curious and said, "It seems that her ability has improved."

Le Renkuang sighed. "I guess Xiaobai can be a very good farmer. Her crops must be growing fast."

Everyone: "..."

After an hour or so, Luo Xiaobai's strength began to soar. She had just become an advanced Dangling Fisher. And now, after only a moment, her realm had completely stabilized and was still soaring.

After half an hour, Luo Xiaobai had almost become a peak-level Dangling Fisher.

Another hour passed and Luo Xiaobai finally became a peak-level Dangling Fisher.

Xia Xiaochan said enviously, "So fast! I work so hard but I'm only an advanced Dangling Fisher..."

Zhang Xuanyu rubbed his head. "This is too much! She just absorbed a seed. How did she become a peak-level Dangling Fisher all of a sudden?"

However, Luo Xiaobai's strength was still soaring

After another half an hour, the vines around began to dance in the seawater and blue flowers popped up one after another. And under Luo Xiaobai's body, a huge blue Cannibal Flower rose from the ground, turning over thousands of vines.

On its roots, there seemed to be starlight twinkling.

BAM!

The Blue Cannibal Flower shook suddenly and its roots began to thicken.

Xia Xiaochan's eyes lit up. "The Blue Cannibal Flower is getting stronger." In Han Fei's eyes, The Blue Cannibal Flower had upgraded all the way from level 31 to level 36.

On the surface, Han Fei was still very calm, but in fact, stormy waves were set off in his heart. What the hell is that seed? It helped Luo Xiaobai break the bottleneck and become a peak-level Dangling Fisher? On top of that, it upgraded the Blue Cannibal Flower so quickly?

After a full hour, the Blue Cannibal Flower finally stopped upgrading and reached level 39 in the end.

Only one step away, it would reach level 40. "Gulp!"

Luo Xiaobai slowly opened her eyes, a little dumbfounded as if she herself didn't know what happened.

Xia Xiaochan hurriedly jumped over. "Xiaobai, you are a peak-level Dangling Fisher now."

Luo Xiaobai came back to her senses. "Am I... A peak-level Dangling Fisher?" Luo Xiaobai raised her hand, and thousands of blue vines instantly pierced the seawater. With just a light sweep, hundreds of blue lights swept across, and all the seaweed within a hundred meters was torn apart.

Zhang Xuanyu sighed. "Comparisons are odious! Why didn't I encounter this level of opportunity?"

Le Renkuang fished out some dried fish from his Sea Swallowing Seashell and stuffed it into his mouth as if he wanted to eat to ease his surprise.

Luo Xiaobai explained with a dazed expression, "The box seems to be a kind of treasure that protects the soul. At this moment, it is printed in my mind. As for the seed... I can't find it."

Han Fei suddenly asked, "Is it in your Dantian?"

Han Fei couldn't help thinking, I've also got a seed! That seed is still floating in my Dantian. Unfortunately, it is different from the seed Luo Xiaobai has that directly made her a peak-level Dangling Fisher... But my seed seems to be of no use and doesn't even move as if it doesn't exist at all.

Luo Xiaobai shook her head. "No."

The news of Mo Qianshang's death had caused a great uproar in the Sea Grassland. The scattered members of the hundred-person team were spreading the news everywhere.

At this moment, everyone knew: after a whole year, the one on the top of the Wanted List was finally about to change.

And the new one was even more terrifying than Mo Qianshang. Mo Qianshang wouldn't wander around to stir up trouble, but Han Fei... This b*stard had almost visited all dangerous places in the level-three fishery. And wherever he went, he would cause a huge uproar.

At the same time, the news that a lot of the people on the Wanted List had died was also spread.

Sha Wang, Chen Hong, Zuo An, Wu Qian... These people who were usually with Mo Qianshang were confirmed dead by many people in the first place.

Secondly, the five people who were tied up by Xia Xiaochan were actually tricked to death by Mo Qianshang

Later, when Xia Xiaochan and Zhang Xuanyu were fighting with others, someone fled and told the story to others.

Then it was known that six strong masters on the Wanted List, including the 22nd, the 32nd, the 37th... Had all died.

Within half a day, as many as 12 people on the Wanted List were killed. This news scared many people!

Were they ordinary people? No! Those were all the top powerhouses on the Wanted List!

Each of them was a very talented strong master, but because of Han Fei, 12 of them died all at once. Wasn't this news scary?

Many people who had been waiting outside the Sea Grassland had evacuated.

On the way of evacuation, battles happened frequently. Many people did not come to hunt Luo Xiaobai and Mo Qianshang at all, but to take the opportunity to hunt ordinary explorers.

At this moment, so many people were running away. Those people would certainly not let this opportunity pass and directly turned the outer jungles of the Sea Grassland into a slaughterhouse.

Outside the Sea Grassland, on the sea, the breeze was gentle and the sun was shining on the sea, casting glittering golden light. As many as 30 fishing boats gathered here. Among them, there were three Ghost Speed Divine Boats.

At the bow of a ship, Li Heiye and Li Baizhou were standing with a genteel boy.

On the other boats stood the people from the seven major sects.

Among them, there were Gong Yuehan from the Jade Fairy Palace, Yu Xian from the Sea Cloud Tower, and Feng Yifei from the Origin Returning Peak...

On the fishing boat of the Grand Void Academy, Ji Wenxuan and Tian Yishan stood behind a young man holding a sword.

Ji Wenxuan said, "Brother Chu Xun, I think we'd better not make a move first."

"Humph! Han Fei made a lot of trouble and did evil in the name of our Grand Void Academy! Do you want me to just forget that?"

There were also discussions on other fishing boats.

Someone said, "Are you sure it's this place? Perhaps they will run out from a different place..."

Someone shook his head. "No, they didn't dodge or hide along the way, they were heading in this direction."

Someone clenched his fists. "They're too arrogant. This time, we must not let that b*stard Han Fei off."

Chapter 526 Being Rounded Up

Han Fei and the other four were arrogant and extremely ferocious. Even at this moment, they all showed their real faces and swam along the way aboveboard.

Along the way, everyone's first reaction when they saw the five of them was to run away.

Zhang Xuanyu clicked his tongue. "Feifei! How do I suddenly feel that we have all become big villains?"

Le Renkuang added, "Well, we are. Since the two of them broke down the Undersea City, they have been, and now we who are on their side have also become villains."

Luo Xiaobai looked at Han Fei. "Are we going to hunt for treasures now?"

Han Fei shook his head. "No."

"No?"

Zhang Xuanyu and Le Renkuang looked at each other and then said, "Why not? We are going to explore a few more secret realms and find some opportunities."

Han Fei suddenly grinned and said, "Where do you think the greatest opportunity in the level-three fishery is now?"

Zhang Xuanyu answered without thinking, "The secret realm in the Abyssal Chasm?"

Han Fei rolled his eyes at Zhang Xuanyu. "You almost starved to death there. Why are you still thinking about the Abyssal Chasm?"

Zhang Xuanyu shrugged slightly. "Isn't it because of you? Except for the Abyssal Chasm, we've explored almost all the famous secret realms here and you alone destroyed four of them."

Han Fei sneered. "Idiot, the biggest opportunity now is on the dragon boats."

“Dragon Boats?”

Xia Xiaochan was stunned for a moment. “Are we really going there?”

Han Fei grinned ferociously. “I have been having an issue with them. Before we return to the Blue Sea Town, I must loot a dragon boat.”

Everyone: “...”

“They came out! Han Fei that b*stard is out.”

“He is also Fan Datong.”

“A*shole! I’m gonna tear him apart.”

On the fishing boats, some people flushed in anger and some roared out.

Gong Yuehan was staring at Han Fei resentfully. Although she had early seen Han Fei’s portrait on the Wanted List, seeing the real person at this moment, she blushed and boiled with anger. This b*stard snatched all the jewelry on her body and grabbed her Sea Swallowing Seashell by force.

Li Heiye and Li Baizhou were glaring at Han Fei and they were even trembling in rage. This b*stard caused them to have diarrhea for five full days, which almost killed them!

Chu Xun coldly said, “Is that him?”

Tian Yishan wanted to persuade him to give up but then just sighed. “Senior Brother, this person is very strong, so be careful.” Chu Xun snorted. “I’m not stupid!”

Han Fei and the other four watched this scene in astonishment.

Le Renkuang counted on his fingers, “1 ship, 2 ships, 3 ships... 64 ships... Oh, here come more fishing boats.”

Zhang Xuanyu bared his teeth and said. “Wow, 80% of them are peak-level Dangling Fishers... F*ck...”

Xia Xiaochan grabbed two daggers and said, “You can also consider those advanced or even intermediate ones as peak-level Dangling Fishers.”

“Gulp!”

Zhang Xuanyu swallowed. “Are these b*stards all peak-level Dangling Fishers?” “Haha... Han Fei, here I am.”

At this moment, some more fishing boats flew over in the sky.

On one of them, Yang Deyu pointed at Han Fei with a big axe. “You rat! Last time you beat me with dirty tricks. Today, I’m gonna fight you for 3,000 rounds and crush you into powder.”

Flying over with Yang Deyu were Mo Feiyan, Sun Mu, Chen Aochen and Ye Baiyu.

Han Fei said to the others. “This group is from the major sect of the Thousand Star City, and that group are the children from the big clans of the Thousand Star City.”

Le Renkuang's mouth was trembling. "I don't want to listen. I don't want to listen. I don't want to listen... Have you pissed off the entire Thousand Star City alone?"

Zhang Xuanyu said leisurely, "Not just him. You forgot Xia Xiaochan." Xia Xiaochan rolled her eyes at Zhang Xuanyu. "Do you have a problem with me?"

Zhang Xuanyu smiled awkwardly. "No, of course not. But there are so many people here! How can we resist so many of them? They're all peak-level Dangling Fishers. We're desperately outnumbered."

Han Fei said, "The disciples of the major sects are easy to handle. Those people are inexperienced, naïve and even stupid. They'll take it as a disgrace to gang up on us. Especially, all the seven major sects are here. They will absolutely not swallow their pride."

Luo Xiaobai who had been silent said, "Don't look down upon them. If they resort to attrition warfare, we can't get away when we exhaust our spiritual energy. Of course, the greater threat is the people from the big clans. Those guys are all lawless. We'd better just run away."

Han Fei grinned. "I have been running away since I entered the level-three fishery. Now I don't want to escape any longer!"

As they were talking, there was a cry from the sky.

"Han Fei, Xia Xiaochan, I'm here to save you!"

Then they saw a red ray of light falling from the sky, which was a red fishing boat and looked a bit like Han Fei's Wind God Boat.

Zhang Xuanyu and Xia Xiaochan were astonished. "Is that a Wind God Boat?"

Xia Xiaochan asked, "When did you give Cao Qiu a Wind God Boat?"

Han Fei was dumbfounded. "I didn't!"

Cao Qiu drove the fishing boat to Han Fei and the others with a swish.

Cao Qiu beamed with a smile. "I knew you would definitely be able to come out of the Abyssal Chasm. I knew you must have been out of there when Zhang Xuanyu appeared in the Sea Grassland. What do you think of my fishing boat? I just heard it described and made it. I'm a great inventor, aren't I?"

Han Fei smiled politely. "Little fatty, do I know you?"

Cao Qiu was stunned. "Hey, stop pretending. The whole world knows that the Black and White Ghosts are you and Xia Xiaochan! By the way, I snuck out. This time I brought you my latest invention."

Then he took out a bunch of dark balls and said, "This is an upgraded version of the Poison King. I recently discovered the law of gas flow, so I concentrated on studying it and finally invented this Poison King Smoke."

Everyone: "..."

Xia Xiaochan hurriedly jumped to the side, shaking. In her eyes, Cao Qiu was also a big villain although he was not good at fighting.

Every time she remembered this guy made countless people have diarrhea for half a month with his invention Poison King, she trembled.

“Hush!”

Han Fei hurriedly summoned a wall of water to shield in front of him and said to Cao Qiu, “Come on, give me some.”

When Cao Qiu saw that Han Fei liked it very much, his heart was immediately filled with an unparalleled sense of achievement. Unlike those b*stards who always despised his inventions, Han Fei had a vision.

So he generously took out hundreds of Poison King Smoke balls and gave them to Han Fei.

Han Fei quickly put them away. “Won’t they escape when they see there is smoke?”

Cao Qiu chuckled. “It is colorless, tasteless and smokeless. You can rest assured.”

Their conversation stunned Zhang Xuanyu and Le Renkuang.

Le Renkuang couldn’t help asking, “Well, what is Poison King? And what is Poison Smoke King?”

Zhang Xuanyu also said, “Yes! It’s so small and not a spiritual weapon. Even if you detonate all of them, they won’t hurt many people, right?”

However, after hearing Xia Xiaochan’s voice transmission to them, Zhang Xuanyu and Le Renkuang immediately took a few steps back.

Zhang Xuanyu quickly said, “Feifei! Remember to tell us when you’re about to use it to avoid accidental injury.”

Le Renkuang nodded his head repeatedly. “Yes, yes, do remember to tell me. I will escape in advance.”

Han Fei said mystically, “The thing about this is to catch people off guard.” Then he looked at Cao Qiu. “Huh! Why were you all near the Sea Grassland?”

While speaking, Han Fei withdrew the water wall and looked at the sky.

Cao Qiu said, “We must be! The members of the Thug Legend are all here! We swarm here to capture you all in one fell swoop.” Suddenly, a cold voice came from the sky. “Qiuqiu, come back.” Accompanying the sound, another Ghost Speed Divine Boat descended. On this Ghost Speed Divine Boat, Han Fei saw Cao Tian and a pretty girl with a gentle face in a cyan dress. The girl’s temperament was different from Xia Xiaochan, Luo Xiaobai, Mo Feiyan, and Gong Yuehan. She looked very gentle and tranquil, holding a purple flute in her hand, which surprised Han Fei.

Han Fei was not sure what she was holding. Anyway, it looked like a flute. If it was a weapon, it was the first time Han Fei saw such a weapon.

Cao Qiu grimaced naughtily. “My sister is here. I have to go back. That’s all I can do for you.”

Yang Deyu yelled loudly, “Cao Qiuqiu, stay aside! Otherwise, you will be hurt by me later.”

BAM!

A fist light shot straight at Yang Deyu.

The latter shouted aggrievedly, "Cao Tian, Come on, I didn't even touch your brother. I just told him to stay aside." Over there, just as dozens of fishing boats were about to approach, another Ghost Speed Divine Boat came over in the sky.

Someone exclaimed, "Tang Ge? Why is he here?"

Chapter 527 A Stupid Bet

With him, of course, came Mu Ling.

However, to everyone's surprise, Tang Ge drove his fishing boat directly to Han Fei.

The two exchanged a glance, and Tang Ge said to him via voice transmission, "I'll handle the disciples of the major sects."

Han Fei asked, "Tang Ge, Miss Mu, what do you mean?"

Mu Ling stood at the bow of the ship, looking at the group of people on the opposite side. "You rescued me on the Steps into the Sea. I owe you a favor. Today, any disciple from the major sects who wants to attack you will have to beat me first."

Tang Ge held the halberd and stood beside Mu Ling. "And me. If any of you wants to attack Han Fei, ask the halberd in my hand first. Also, people from the Heavenly Sword Sect, come here."

A dozen disciples of the Heavenly Sword Sect on the two fishing boats on the opposite side controlled the fishing boats to go behind Tang Ge.

Someone asked, "Tang Ge, what happened? A b*stard dares to touch Sister Ling?"

Another person pointed at the disciples of the other sects and yelled, "Humph! How dare you attack Sister Ling? Then don't blame us for being impolite." Of course, a few of the disciples of the Heavenly Sword Sect didn't like Han Fei. Among them, five people had been robbed by Han Fei, especially the girl who had been searched by Han Fei. Now she was staring, her eyes wide with a reluctant look.

Han Fei just pretended not to see it. "I've robbed so many people. How can I remember each of them?!"

The girl snorted. "Since you saved Sister Ling, I will help you today, but you are still a bad person in my eyes."

Han Fei grinned. "Who are you?"

Hearing his words, the girl trembled with anger. "You robbed me and now you ask me who I am?!"

On the other side, Gong Yuehan asked softly, "Mu Ling, why do you protect this shameless guy?"

Mu Ling smiled lightly. "Yuehan, I owe him a favor, so I have to pay him back. It'll be none of my business if you want to get even with him in the future, but today, I'm on his side."

Cao Qiu shouted, "Yes, yes, Han Fei helped and saved me too. I was chased by disciples of several sects at that time. Yes, they wanted to kill me... Which sects were they from? I remember they were from the Sea Cloud Tower and the Origin Returning Peak."

The people from the Sea Cloud Tower and the Origin Returning Peak were astonished.

"Cao Qiu, what do you mean? When did we chase you down?" "Cao Qiu, watch your tongue."

"Cao Qiu, you just want to help Han Fei, don't you?"

Cao Qiu curled his lips and then looked at Cao Tian.

Cao Tian scratched his head. What should I do? He saved my brother. Should I help him?

However, Cao Qiu's sister knocked Cao Qiu's head with the flute in her hand. "It's none of your business. Stay away from it."

Cao Qiu held his head high. "It's true, Two Swords can testify for me."

When Cao Qiu said this, a fishing boat swayed in the sky.

Everyone looked up and the fishing boat slowly landed. Wang Zitian's face was all dark and he was complaining in his heart, Cao Qiu, you b*stard, why did you drag me down?

But Wang Zitian could only say, "Yes! It seems to be true."

Wang Zitian stood on Tang Ge's side, and after thinking for quite a while, he said, "Because I'm also from the Heavenly Sword Sect."

Many people rolled their eyes. This is a sheer excuse! Yes, you're from the Heavenly Sword Sect, but everyone takes you as a member of the big clans, okay?

On Cao Qiu's side, Cao Tian said lightly, "No disciple of the major sects can attack Han Fei today."

Immediately, some disciples of the major sects sneered. "Good, very good! Tang Ge and Cao Tian, do you think you two can stop all of us today?"

Mu Ling said with a light smile, "Not two, but 17 in total. It shouldn't be a big problem for us to solve you all." Zhang Xuanyu's eyes widened. "Damn, I like this girl. She's so dominant."

Smack...

Han Fei slapped Zhang Xuanyu's head. "No, you can't like her. Otherwise, I think you will be beaten to death by someone."

Zhang Xuanyu muttered, "I mean... I appreciate her..."

Le Renkuang added, "But the people from the big clans in the Thousand Star City are also quite a lot to deal with!"

Han Fei smiled. "But at least there are some people helping us. Let me work out a way to solve these people."

Han Fei was not surprised at all that Tang Ge would come to help.

But it was completely a surprise that Cao Qiu would come to help. He didn't expect him to do this.

As for Wang Zitian, he never counted on him. Even if he came, he would be able to block at most three disciples of the major sects, or one member from the big clans.

Han Fei jumped onto the sea and walked forward step by step. "What's the matter? Do you all wanna fight me? Fine, if you want to fight, let's set the rules first."

"Of course, if you want to gang up on me, it's okay. Even if you dare to play dirty, I won't be afraid of you."

As he said this, the nine-star chains floated behind him, the Blood Drinking Knife appeared at his waist, and he held the Embroidery Needle and looked at these people coldly. "But, as for the disciples of the seven major sects, I don't need the help of Cao Tian and Mu Ling. I, Han Fei, want to have a bet with you guys. Do you dare to bet?"

Chu Xun asked solemnly, "What bet?"

er

Han Fei smiled and said, "The five of us want to fight the 50 of you. If you lose, hand over your Sea Swallowing Seashells and withdraw from this battle. If we lose, our Sea Swallowing Seashells will be yours. What do you think?"

Han Fei didn't want to owe favors. Just as Mu Ling said, if you owed a favor, you've gotta pay it back. Tang Ge was his good buddy, but he didn't want to owe Mu Ling and Cao Tian. Besides, he had a lot of Sea Swallowing Seashells. Even if he lost, he didn't mind giving each of them one. They certainly couldn't get into Forge the Universe to get all his Sea Swallowing Seashells.

Tang Ge immediately transmitted a message to him, Han Fei, don't be self-willed. These people are not so easy to deal with. And even if you beat them, you'll still have to solve the people from the big clans.

Han Fei responded, "Don't worry. I know. By the way, you haven't seen my true strength yet. Let me show it to you this time so that you'll be driven to cultivate harder."

Tang Ge: "..."

Tang Ge shook his head slightly. He felt that it shouldn't be a problem for Han Fei to beat the disciples of the major sects. What he was really worried about were people like Sun Mu, who were far more dangerous than the former.

If these people dared to attack Han Fei, he would definitely help him. Even if then they would find out the relationship between Han Fei and him, so what? He never wanted to hide it. It was Han Fei who didn't want to expose it.

"Five against 50?"

Many people took a deep breath. How stupid for Han Fei to say such a thing? Did he think the disciples of the major sects were the same as those hundred-person teams in the level-three fishery?

On the side of the Heavenly Sword Sect, someone said in surprise, "Is this guy out of his mind? 5 against 50? Is he serious?"

The girl who was bullied by Han Fei stomped her feet. "Idiot, he will be beaten to death."

When Han Fei finished saying this, he transmitted a message to Xia Xiaochan and the others, "Is this OK? You've all learned the Majestic Mystic Spell, haven't you?"

Luo Xiaobai said, "Le Renkuang and I haven't learned it yet, but it's not a problem. If the Heavenly Sword Sect does not participate, there will only be six major sects. Except for the six team leaders, the others are easy to deal with. But I'm afraid we'll be subject to some damages after this battle." Han Fei nodded. "It's okay. These people are stupid, rigid and follow too many rules. If it were the people on the dragon boats, I would never have made this request to them." Chu Xun was the first to agree. "Okay! We, the Grand Void Academy, are in. Han Fei, you've asked for it."

While Chu Xun responded, Zhang Wen and Mo Feiyan said at the same time, "Idiot."

Mo Feiyan simply said, "Chu Xun, are you stupid?"

However, Chu Xun looked straight at Mo Feiyan. "We're in the level-three fishery to gain experience. If we even lose this battle, it means that we haven't gotten enough experience and should work harder on cultivation."

Yu Xian took a step forward. "We, the Sea Cloud Tower, are in."

Feng Yifei added, "The Origin Returning Peak is in."

"Mountain Sea Pavilion is in."

"Death Door Sect is in."

When only Gong Yuehan was left, she frowned. What does Han Fei mean? Does he really have the confidence to challenge 50 people with the power of 5 people?

Could it be that the strength of each of the other four people is comparable to Han Fei?

"Senior Sister, should we join?"

"Senior Sister, it seems unfair to them!" "Senior Sister, the other major sects have all participated. Is it OK if we don't participate?"

Gong Yuehan took a slight breath and looked at Han Fei. "Okay! But this time we'll just take it as an experience. Since you didn't take anyone's life on the Steps into the Sea, we won't take your life this time."

When Gong Yuehan said this, Mo Feiyan and the others were speechless. What a group of fools! Their brains must all be clamped by their Sea Swallowing Seashells.

Only Yang Deyu was very excited. "Interesting. No wonder he could resist me for three hundred rounds."

BAM!

Suddenly Yang Deyu shook. He looked back and shouted angrily, “Mo Feiyan, why are you kicking me?”

Mo Feiyan shrugged. “You rub me the wrong way.”

Yang Deyu: “???”

Chapter 528 My Sister-In-Law Is Not Bad

After the agreement was confirmed, Han Fei became more certain of his thoughts.

Perhaps these people were very strong, but most of them were rookies who had left their sects for the first time. In fact, Han Fei had discovered when he was in the Steps into the Sea that they were really not good at fighting despite their good background.

Of course, compared to ordinary peak-level Dangling Fishers, they were indeed very strong

However, they seemed to be unaware of how to use their talents, so they seemed to be much weaker when they were fighting people like him or members from the big clans.

And Han Fei even felt that this was the same case for the children of the big clans. With the exception of Tang Ge, Cao Tian, and Yang Deyu, the children of these big clans didn’t have a very good grasp of battle, including Sun Mu.

For example, Sun Mu, who possessed such a powerful combat skill as the Immortals Slaying Formation, still slowly launched attacks step by step in combat, with the intention of slowly exhausting him to death.

If it were him, he would have just launched his most powerful attack in the very beginning. Han Fei looked at Sun Mu and the others. “What do you think?”

Sun Mu snorted slightly. “The battle between the sects and you is none of our business. Just fight as long as you are confident that you can beat them.”

Han Fei grinned. “OK, thanks.”

Irrelevant bystanders backed away one after another. What made Han Fei laugh was that the team leaders of the sects were actually choosing people to fight him.

Yes, the actual number of them was not 50 but as many as 200. But they felt it was already shameful to fight Han Fei and his teammates with 10 times the number. How could they all join the fight?

As a result, each sect was in an uproar.

“Me, pick me.”

“Go away. Let me fight him!”

“Get out of the way, all of you. These five people are ferocious. You’ll only end up surrendering your Sea Swallowing Seashells to them.”

“Senior Brother, I have a secret method.”

“Senior Sister, I really want to join the fight.”

They all strived to be picked to join the battle. Seeing this, the children of the big clans just didn't want to admit they knew these people. Are they stupid? We're here to siege the villains! Do you think it's a friendly match or what?

Especially Li Heiye and Li Baizhou, they looked at each other speechlessly. Li Heiye scoffed. "These idiots! No wonder the major sects have to send their disciples here to exercise every year. They are too damn stupid!"

Li Baizhou nodded. "Exactly, even Gong Yuehan is so stupid. Did you hear what she said? She would not take Han Fei's life. Excuse me?!"

use

Zhang Wen said indifferently, "At least we can see the real strength of Han Fei and his teammates. Although the disciples of the major sects are inexperienced, they are not bad in strength. At least ordinary peak-level Dangling Fishers are not comparable to them."

Li Heiye scoffed. "Nonsense! I bet they will lose within half an hour!"

Zhang Wen was surprised at this response. "Do you really think so?"

"Yes! You haven't seen Han Fei fight. Just like Cao Tian, Tang Ge, and Yang Deyu, he fights with no mercy."

On the other side.

Mu Ling said to Tang Ge, "In fact, his solution is not bad. These people should be no match for them. But what about the other people? The children of the big clans are not as naive as the disciples of the major sects."

Tang Ge said indifferently, "I'll help him then."

Muling rolled her eyes. "I knew you would say that. Forget it, it doesn't matter even if your relationship is exposed. I don't think anyone will dare to tell my father."

Soon, the sects had selected 50 people.

Han Fei smiled. "How long has it been since we have fought together?" Zhang Xuanyu licked his mouth. "It's been a long time! Since we came out of the Fiery Mountain?"

Luo Xiaobai was as calm as usual. "Le Renkuang, start up by sucking some people with your Sky Swallowing Technique. Xiao Chan, take the opportunity to activate the Majestic Mystic Spell, using the Thousand Strike Technique to solve Gong Yuehan as quickly as possible. Zhang Xuanyu, dive into the water and I'll wrap you up with vines. Don't attack them but keep them under pressure. Han Fei, just use your Million Knife Art. These people all have amulets and can't be killed."

Han Fei asked, "What about you?"

Luo Xiaobai smiled. "I want to try how strong my Blue Cannibal Flower is now."

When the two parties were only 100 meters away, Han Fei grinned. "Remember, you can admit defeat when you really can't resist us. I've always been above board. Do not blow yourselves up. Only idiots would do that."

The others were speechless at his words. Aboveboard? Seriously? You were the most insidious on the Steps into the Sea?!

And the people on the other side were stunned. Blow ourselves up? Why? Is this guy out of his mind?

"Hoooooo!"

When Han Fei was speaking, a vine rolled Le Renkuang up and it rushed forward.

"Ho00000!"

Then a huge mouth with a radius of forty to fifty meters appeared, or to be exact, it was not a real mouth, but a phantom of a big hole.

In the big mouth, a spiral vortex was sucking crazily. The seawater rolled into it and many people had been sucked forward by the huge suction force before they realized the battle had begun.

At the moment the vine appeared, Xia Xiaochan disappeared and Zhang Xuanyu plunged directly into the water.

As for Han Fei, Little Gold had already attached to him, the Majestic Mystic Spell had been activated, and he, like a bolt of lightning, rushed forward into the crowd.

The instant Han Fei rushed out, all of his 99 Blue Sea Wandering Dragon Daggers shot out of his body, turning into a shining flow of daggers and stabbing five or six people almost instantly. Sun Mu, Li Heiye, Li Baizhou, and Zhang Wen only sighed at the sight.

Mo Feiyan covered her face. "Oh! This is a real disgrace..."

Chen Aochen and Ye Baiyu, who had been watching from a distance, both shook their heads. Fools! The damn arena had been set up and the distance between the two sides had been narrowed to a hundred meters, and these fools weren't ready to fight.

"Oh, no! Come on, fuse and attach." "You're shameless! The battle hasn't started yet."

"You b*stard."

Suddenly someone shouted, "Oh, Xia Xiaochan disappeared! Manipulators and spirit gatherers, pay attention!"

"Huh? Zhang Xuanyu went to the bottom of the sea! Did anyone follow him?"

"Armorists, stop Han Fei."

However, at this moment, the nine-star chain had spread out in all directions, and those who were targeted by the nine-star chain all jumped up.

Someone showed huge double pincers, someone spat icy flames, and someone floated in the air.

When they were about to collide with the nine-star chain, a golden light suddenly appeared on Han Fei's head. Little Gold slammed into an armorist like a meteor piercing the starry sky.

Boom...

The armorist hadn't formed an array with other armorists yet and had been bumped away by Han Fei.

At first, he thought that this guy was really stupid with his head against his shield.

But soon, he was stupefied when he felt the incomparable impact. It felt as if a mountain smashed against his body. "Puff..."

This person was sent flying and the nine-star chain had been retracted, darting at the armorists who were actively defending.

Gong Yuehan shouted, "Don't panic! Armorists, don't defend. Just attack Luo Xiaobai..."

As she shouted, she carried a long sword. Filled with overwhelming sword Qi, she hacked out.

However, at the moment Gong Yuehan slashed out, a dagger had already been put against her waist.

Gong Yuehan was very quick to react and instantly summoned her battle suit and activated a spiritual energy protective cover.

However, she was still a step slower and was stabbed by Xia Xiaochan.

"Senior Sister..."

Gong Yuehan paused and then a hundred wisps of Sword Qi burst out of her body, and she rebuked, "Leave me alone. Attack their manipulator."

As soon as she said so.

She felt a terrifying force stabbing at her from the sky. At that moment, her eyes turned cold and she brandished the long sword in her hand.

However, before she had the time to raise the sword, she felt the surrounding air was suddenly fluctuating and that strange dagger had appeared on her chest and abdomen.

Swish... Swish... Swish... In an instant, a hundred rays of lights passed by, and Gong Yuehan was stunned. Her protective cover broke in an instant and her high-quality battle suit was shattering.

Hum...

A blue light suddenly appeared and Xia Xiaochan's dagger couldn't pierce through. It was Gong Yuehan's protective amulet working. The amulet was not necessarily activated artificially. It would also be automatically activated when the owner was in a life or death crisis. Just now, Xia Xiaochan stabbed Gong Yuehan's waist, which was not fatal.

But the Thousand Strike Technique was an indiscriminate attack all over Gong Yuehan's body, and several strikes were straight at her heart, so the amulet was activated.

Xia Xiaochan simply said, "You lost. Step back."

Gong Yuehan was extremely ashamed. She always felt that she would be one of the few people who could beat Han Fei in the end, but how could she expect that she would be out so early? How long had it been since the battle started? Two minutes?

She lost because she attacked in advance, leaving Xia Xiaochan with a very short time gap. In the distance, Tang Ge kept nodding his head. "Not bad, my sister-in-law is not bad."

Mu Ling rolled her eyes at him.

Chapter 529 Sect Express

The scene was extremely chaotic, and all the disciples of the seven major sects, including those of the Heavenly Sword Sect, were all stupefied.

They had never seen such a scene like this before! In their view, these were all dirty tricks. When they were in their respective sects, it was not that they did not have team competitions. On the contrary, they had team matches almost every day, but they had never seen such a fighting style, which was completely beyond their imagination.

Why did Han Fei launch all his powerful techniques as soon as the battle started?

They had never seen such speed and attack strength before, it was precisely because of which, Gong Yuehan was defeated in less than two minutes!

Seeing this scene, Cao Qiu was very excited on the fishing boat and shouted loudly, "Well done! Beat him! Come on! Give her a surprise attack... Alas! Sister, don't pull my ears..." In the field, there were more than eight armorists who were pouncing on Luo Xiaobai. These eight people had spared no effort and attacked Luo Xiaobai with all their strength. There was a huge blade light fifty or sixty meters high in front of each of them. Out of the armor boxes of two of these armorists, knives and swords shot out one after another, rolling out a tornado of weapons on the surface of the sea, covering a range of more than 30 meters. Some other armorists summoned out huge swords that were hanging in the sky, and some had even turned into huge water centipedes, looking really fierce. However, before these people had been ready to fight, Han Fei's nine-star chain had darted towards them. When these armorists saw that Luo Xiaobai had already been wrapped in the weapon tornado, they turned to chop at Han Fei's nine-star chain.

Clank, Clank, Clank...

Just as soon as their weapons collided with the nine-star chain, a huge arched circle surged on the surface of the water.

Immediately, an armorist roared, "Be careful of Zhang Xuanyu underwater."

In an instant, there were two armorists among them who turned to scout the water.

Boom...

A violent explosion broke out on the surface of the water, and several figures were blasted into the air as soon as they dove into the sea. The onlookers took a closer look, only to find that they were the three soul warriors from the Mountain Sea Pavilion.

Bang! Then someone yelled in anger, "Why did you f*cking hit us?"

The two armorists were taken aback for a moment, but suddenly heard a voice behind them, "Are you guys looking for me?" "Nine-Layered Waves in the Furious Sea!"

The remaining few armorists were horrified and could not help but scream, "Watch out!"

However, when they yelled out these two words, they suddenly felt pressure on their bodies. It turned out that there were a few vines entwining their bodies all of a sudden.

"Go off."

These armorists were not afraid of the vines at all. They were armorists! Masters of all weapons in the world! How could they be afraid of things like vines and seaweed?

But who would have expected that these vines were extremely tough, and new vines continued to grow on these vines? Just in the blink of an eye, they were all tied up and couldn't move at all.

At this moment, Zhang Xuanyu continued to launch his Nine-Layered Waves in the Furious Sea, and Han Fei directly rushed over. It only took him less than three minutes to throw all the eight armorists out of the field. Together with them, there were also three soul warriors who were thrown out of the game. At this moment, they were tied up by the vines and also whipped crazily by hundreds of vines around, and they had no strength to fight back. In as short as less than ten minutes, there were only less than 25 people left among the 50 disciples of the major sects. And all of this was just because Han Fei and his teammates got a head start.

Lu Wuwei, the leader of the Death Door Sect's team, shouted desperately, "Manipulators, be careful of Xia Xiaochan."

Some hunters had already rushed at Xia Xiaochan, but they certainly could not catch up with Xia Xiaochan who had activated the Majestic Mystic Spell! Every time Xia Xiaochan's figure flashed, a manipulator would fall down from the sky.

Sometimes, Xia Xiaochan would not attack the manipulators at all but directly sweep towards the soul warriors.

As long as Xia Xiaochan got close to them, none of them would be able to escape from her daggers and they would be at least stabbed twice.

Le Renkuang did not do anything else but keep roaring and swallowing, creating great pressure on those soul warriors.

Seeing that there were much fewer people now, he no longer swallowed but activated his Knife Burial Technique and Armor Art at the same time. His purpose was not to kill the enemies, but to contain them.

On the surface of the sea, the most conspicuous one was Han Fei, who rushed from left to right, and his golden fist lights flashed on all sides.

And what shocked everyone was that Han Fei even gave his fish technique a name while he was yelling and punching... "Big Fish Meteor Fist!"

Chu Xun was seriously angered. He couldn't catch up with Han Fei and Xia Xiaochan. As for Le Renkuang, as long as he got close to Le Renkuang, he felt that he was going to be sucked in by that big mouth. And Zhang Xuanyu, this soul warrior, was damn elusive as he dove into the water from time to time.

As for Luo Xiaobai, he had thought that those eight armorists would be able to solve her very easily, but who would have expected that all the armorists were kicked out of the game in the blink of an eye. Han Fei was facing Chu Xun at this moment. The fists of Han Fei were blazing as brightly as the sun, making him look like a god of war in golden armor. "Huh?"

"Huh?"

Outside the court, Chen Aochen and Cao Tian exclaimed in shock at the same time. Cao Tian's eyes were full of expectation, while Chen Aochen's eyes were scorching hot. Han Fei used his fists before, but his punches were not as powerful as now. The power of the Art of Invincibility was appalling, and when Han Fei activated this art sparing no effort at all, it immediately attracted the attention of the two of them.

Using fists was actually more difficult than using weapons such as swords, axes, halberd, etc. because your attack range would be far smaller than the others, so your physique had to be much stronger than that of others.

Take Cao Tian as an example, he could resist Han Fei's Draw Technique with his bare fist. And take Chen Aochen for example, after being swept by the Blue Sea Wandering Dragon Daggers that were all ultra-quality spiritual weapons, he could still fight Tang Ge head-on. Obviously, his physique was far above average. Now it seemed that Han Fei's physique was even comparable to these two people! His strength was simply shocking in consideration of the fact that Han Fei had just begun to practice the Art of Invincibility. Feeling the real strength of Han Fei, Chu Xun dared not take him lightly any longer. He rolled up billowing waves with his long sword, and the surging wave turned into a huge sword and the sea water, dozens of meters high, suddenly dashed at Han Fei like a huge sharp blade. Someone exclaimed in astonishment, "Oh, It is Six Styles of Grand Void! Has Chu Xun mastered this technique?"

BAM!

The giant sword wave that was nearly 30 meters long was smashed by Han Fei's single punch, but in a blink of an eye, the second sword of Chu Xun had already been released, and there were thousands of sword streams popping out of the sea water. Han Fei grinned casually. "Such sword streams are so much weaker than those of the Immortals Slaying Formation. How do you have the face to use it?"

"Humph!"

When Chu Xun found that Han Fei did not make any move to fend off the attacks at all and seemed to be about to block with his body, he immediately released his third sword, and in an instant, the sea water surged up abruptly wrapped around Chu Xun. Ji Wenxuan and the other disciples of the Grand Void Academy looked quite excited and exclaimed, "It is the third style of the Six Styles of Grand Void,

Body as A Sword Sea. I didn't expect that Senior Brother Chu Xun had grown to this level." Cao Qiu shouted at Han Fei in worry, "Han Fei, be careful. This attack will last quite long." Cao Tian said indifferently, "Don't worry, Body as A Sword Sea is not weak, but Chu Xun's strength is far inferior to that of Han Fei. It will be useless no matter how long it lasts. If he can launch the fourth style, then Han Fei should be careful." "Oh, OK!"

When Cao Qiu heard that it would not be a threat to Han Fei, Cao Qiu immediately quieted down.

Chu Xun was wrapped in the sea water that was rolling upside down, and a wisp of Sword Qi traversed a hundred meters, directed towards Han Fei.

However, Han Fei simply ignored these sea water sword currents, and blasted at Chu Xun, braving this huge sea water sword that traversed 100 meters continuously.

Boom, Boom, Boom... Chu Xun gritted his teeth. Is this guy really a f*cking human? He couldn't believe that this guy actually rushed over braving the sword sea all the way! All the disciples of the major sects who were watching the battle outside the field were all stunned and many of them opened their mouths wide in shock.

Gong Yuehan's eyes were firmly glued to Han Fei. Too strong! This guy's physique was so strong that it was completely beyond her imagination.

On the side of the Heavenly Sword Sect, Tang Ge's body was surging with blood Qi, as if he was about to explode at any time. That was simply because he was too excited at what he saw.

Mu Ling's eyes flickered with spiritual energy. The pair of brothers was really strong. When Fang Ze brought Tang Ge to the Thousand Star City, why didn't he also bring Han Fei over? If he had also brought Han Fei to the Thousand Star City, he would definitely have been one of the best in the younger generation of the city now. Tang Ge grinned cheerfully and said in excitement, "Chu Xun is going to lose. Even if he uses the fourth style of the Six Styles of Grand Void, he will still

lose."

"Hoooooo!"

Han Fei punched through the giant wave sword, and without stopping, his fist light rushed towards Chu Xun like a flashing ray of light. Seeing that Chu Xun was bound to be defeated, someone suddenly shouted sternly, "The First Death Door."

From the sky, the phantom of a huge door descended.

Clang..

As the wave was shattered and the phantom of the door was broken, the fist was retracted. Han Fei turned his head to look, only to find that it was Lu Wuwei, the leader of the Death Door Sect's team. At this moment, his body was surging with blood Qi and he shouted again, "The Second Death Door".

Han Fei had once experienced the power of the Death Doors whose defense was indeed extremely strong. He was narrowly able to break the first door just because he had made a breakthrough and also used the powerful Art of Invincibility.

As for the second Death Door.

“Sacrificing Punch.” All of a sudden, the dazzling golden fist light disappeared and in replacement of it, a huge blazing red fist shadow appeared. With an unbelievably fast speed and powerful strength, the fist shadow broke through the sound barrier in the blink of an eye, rubbing with the air to create a brilliant flame.

Boom!

The second door that was shrouded with spiritual energy and descended from the sky was directly blasted through in one fell swoop, and the fist shadow continued to rush forward, directly hitting Chu Xun.

Crack!

As a blue light flashed across and then burst, Chu Xun’s protective amulet broke at the same time. And Chu Xun, in panic, hurriedly summoned out two sets of high-quality battle suits that wrapped his body. However, in an instant, the two battle suits were also shattered.

And in the next second, Chu Xun was bombarded into the sea.

Countless people were dumbfounded. They almost couldn’t believe their eyes. The protective amulet was broken in one blow?

“Damn it, how f*cking strong is this Han Fei?” Chen Aochen’s face suddenly changed and he couldn’t help but mutter in shock, “What a powerful punch that is! It broke the second Death Door, Chu Xun’s protective amulet, and two sets of high-quality battle armor in succession! Gosh, this guy...” Cao Tian narrowed his eyes slightly and exclaimed silently, “What a horrible fist mark.”

“Great!”

“Wonderful!”

“Amazing!” Although shocked by the power of Han Fei’s Sacrificing Punch, Tang Ge, Chen Aochen, and Cao Tian all applauded cheerfully. These three people only felt that their blood was boiling in their bodies. This was exactly what a men’s battle should be! It was so powerful, violent, exciting that they simply could not restrain their inner excitement despite the fact that they were only onlookers.

In the field, especially the Jade Fairy Palace, almost all the girls could not help but clench their fists.

“What a domineering man.”

This was their only reaction at this moment.

Beauty loved heroes. Han Fei’s overbearing style of fighting simply stunned them. Now they couldn’t even move their eyes away from him and couldn’t help exclaiming in their hearts, “Wow, he is way too manly!”

Even Gong Yuehan, the goddess of countless men, couldn’t help but open her mouth in shock. She really couldn’t connect this man in front of her with that insidious and cunning Fan Datong who robbed her. How she wished that these were two different people! Chu Xun was defeated, and Lu Wuwei was stabbed on the waist even before he had the time to display the third Death Door. A shadow entangled

him, stabbed him five or six times in the blink of an eye, and didn't stop until his protective amulet bounced up from his body.

In a moment, the team leaders of the major sects were mostly defeated. How would the rest of the disciples be able to withstand the attacks of Han Fei and his teammates? Especially after Han Fei took out a mass of Candle Dragon Blood and stuffed it into his mouth, he instantly burst out with an overwhelming murderous aura and looked like a god of war. Who would still dare to fight him? Only in less than half an hour, the remaining disciples of the six major sects were all knocked out and the whole sea fell into an eerie silence.

There was no sound in the sea, except for the sound of the sea water beating against the fishing boats, the sea breeze seemed to have stopped blowing, and all the disciples of the seven major sects were in a daze at the moment.

Especially on the side of the Heavenly Sword Sect, many people swallowed their saliva nervously. They were really thankful that they had not participated in this bet. Although they thought that they were slightly stronger than the disciple of the other six sects, they knew in their heart that they were actually not much stronger than them. If they had joined the fight, they would definitely have ended up being pushed into the sea and beaten up according to their combat power. The few disciples who had been robbed by Han Fei looked very embarrassed at this moment, and the girl secretly heaved a sigh of relief. Fortunately, she had only lost a Sea Swallowing Seashell and had not damaged the prestige of the sect. However, except for the Heavenly Sword Sect, the disciples of the other six sects were all almost ashamed to death.

Needless to say, this matter could not be hidden at all. After returning to their respective sects, they might be hung up and beaten hard by the school teachers.

Luo Xiaobai stood on the bow, staring coldly at the people of the six major sects. Zhang Xuanyu and Le Renkuang jumped out of the sea water at this moment and stood beside Luo Xiaobai. Xia Xiaochan's posture was even more handsome. She flashed and fell on the boat agilely. Only Han Fei, standing on the surface of the sea, leisurely waited for the ninety-nine Blue Sea Wandering Dragon Daggers to rhythmically disappear into his body one by one. Han Fei grinned and said, "Hey! You guys should admit defeat for the bet. Now hand over your Sea Swallowing Seashell!" The disciples who had been beaten crestfallen looked utterly embarrassed at this moment. And those people who were bragging before only wished they could hide in the water and never come out again. However, since they had lost the fight, how could they not keep their promise?

This was definitely a no-no. They could not afford to lose such honor in front of all these people.

Therefore, when Gong Yuehan took the lead to throw her Sea Swallowing Seashell over, the other 49 people also threw their Sea Swallowing Seashells over one after another.

Han Fei did not move, but vines rose in the sea, easily holding the Sea Swallowing Seashells. Chu Xun was supported out of the sea by other disciples of the Grand Void Academy, with a large patch of seaweed stained on his body. He had vomited a lot of blood under the sea just now, so his face was ghastly pale although he could still stand with his own strength now. Chu Xun said weakly with difficulty, "Han Fei, I'll remember you. I'm looking forward to the day when you enter the Thousand Star City. At that time, I will have succeeded in practicing the Six Styles of Grand Void... Let's have a fight again then."

Han Fei sneered and said casually, "Are you talking about the Six Styles of Grand Void? When I go to the Thousand Star City, even if you have mastered the Sixteen Styles of Grand Void, so what?"

"Humph!

Gong Yuehan was one of the people who were defeated earliest, so now she was too embarrassed to speak now. However, as the team leader of her sect, she could not hide behind and could only bite the bullet to stand at the bow of the fishing boat.

Han Fei laughed out loud and then said, "OK, now the conflict between the Black and White Ghosts and the six major sects is over."

As he said this, Han Fei glanced at the Sun Mu's side and shouted at them, "Hey! Now, what are you guys going to do?" Han Fei counted these young members of the big clans. Among them, Chen Aochen and Ye Baiyu were the farthest away from him. However, these two people put a lot of pressure on Han Fei.

Chen Aochen should be no match for me, Han Fei thought to himself.

Ye Baiyu's speed was too fast. Among the five of the people on his side, even Xia Xiaochan might not be able to keep up with Ye Baiyu's speed, but fortunately, this guy was only fast as his strength was not that great. Cao Tian and his mates probably would not join the battle.

Li Heiye and Li Baizhou had been taught a good lesson by him, so they would probably take the chance to fight back.

As for Zhang Wen who was standing next to them, Han Fei had never seen him before and didn't know him yet. But since he could stand together with Li Heiye and the others, he could not be an ordinary person.

As for Sun Mu, Mo Feiyan, and Yang Deyu, these three people were already his old opponents, and they had known each other through. It should be no problem for him to handle these three people.

But the problem now was that the other party had 8 people in addition to the servants of their families, but there were only five people on his side. These people were not the green and naïve young disciples of the six major sects who had seen nothing of life. Maybe the big clans in the Thousand Star City's method of cultivating their next generation was different from those major sects. They might give their children a lot of treasures and amulets to protect them, but they would also have them receive plenty of training and exercises. Of course, after careful consideration, Han Fei felt that no one else would be a problem except for Ye Baiyu, who might be a big problem for him. Maybe he was still not strong enough, but if this guy launched a sneak attack, he would definitely cause serious trouble to his team.

Han Fei immediately looked at Zhang Wen who he didn't know and asked him, "Are you going to participate too?"

A faint smile appeared on Zhang Wen's face and he said politely, "It might be a bit of an exaggeration to say that the big clans in the Thousand Star City are as intimate as one family, but since I have participated in the battle, I cannot stay out of the matter, right?" At this time, Li Heiye suddenly said to Han Fei in a low voice, "Han Fei, let's face it. You will not be able to avoid this battle. However, although you have swindled my brother and me, we are broad-minded and easy-going people. As long as you

hand in the Sea Token, we will immediately quit.” Hearing his words, Han Fei sneered. These people were definitely not so easy to deal with. Even if he handed in the Sea Token as Li Heiye said, would they really quit? It might be possible. After all, they needed to preserve their strength to keep the Sea Token. But it was not for sure. What if these people decided to solve him first and then go compete for the Sea Token?

Thinking of the fake Sea Token in Forge the Universe, Han Fei began to ponder carefully. He could give them the fake Sea Token, but definitely not now.

Just at this moment, Cao Qiu said to him through a voice transmission, Hey, when you use the Poison King Smoke, remember to tell me in advance so that I can fly higher.

Hearing his words, Han Fei frowned. The Poison King Smoke was a good thing, but unfortunately, it could not be used at this time, or else, it would be easily found out by others. On the side of Cao Qiu. Cao Jiaren smiled gently and said to Cao Qiu softly, “Qiuqiu, these friends you have made are really strong, but I’m afraid that it will not be easy for them to escape from here today. At this time, they must stay together with each other, so I guess they will not use Flash Stones. Now I don’t think they still have a way to escape.” Cao Qiu held his head high and said stubbornly, “Han Fei can solve several people alone.” Cao Jiaren shook her head slightly and said disapprovingly, “Even if he can solve three people alone, he still won’t escape!”

Cao Tian still looked simple and honest. At this moment, he, like a passerby who had nothing to do with this matter, said with a smile, “The problem lies with Chen Aochen and Ye Baiyu. If they don’t join the battle, Sun Mu and his friends would not be able to stop Han Fei and his partners.”

At this moment, Han Fei jumped on the fishing boat. As soon as he stomped on the ground, a Spirit Gathering Array appeared under his feet. Then he pointed a finger at Luo Xiaobai and the other three and spiritual energy was pouring into their bodies from his fingertip. In the previous battle, everyone had consumed a lot of spiritual energy. The reason why he did not supplement Luo Xiaobai and the other three with spiritual energy immediately because once he did this, it meant that the battle had begun. These children of the big clans would not care whether you had just had a fight or not or whether you were in your peak state or not. As long as they could win, they would not give a damn to any moral rules.

Han Fei hurriedly sent a message to the other four through a voice transmission, Let’s solve that Zhang Wen first. We don’t even know him but he looks for trouble for no reason. Let’s teach him a good lesson! Xia Xiaochan, keep an eye on that Ye Baiyu. His speed is extremely fast, and among the five of us, maybe only you can match him in speed. Just when Han Fei was still infusing his teammates with spiritual energy, Sun Mu and the other people on his side had launched their attacks, and almost at the same time, both Chen Aochen and Ye Baiyu also skimmed over quickly. Especially Ye Baiyu, this guy’s speed was almost horribly fast. He was just like a beam of light and reached in front of them in a flash with a swish. “Let’s get started.”

Luo Xiaobai and the other three respectively took out a spiritual fruit and stuffed it directly into their mouths.

Spirit gatherers were quick to infuse spiritual energy to their teammates, which was even faster than having their teammates directly swallow spiritual fruits. At this moment, however, Han Fei would not simply serve as a spirit gatherer.

At that moment, a huge flower bud appeared, directly enveloping Han Fei and the others in and then submerging directly into the sea.

Seeing this scene, Yang Deyu shouted with a loud voice, "Humph! Do you think we can't perceive your whereabouts with our spiritual perception?"

However, after he tried perceiving where they were, Yang Deyu was stunned and muttered, "Huh! Where are they?"

Several other people on his side were also astonished when they tried to find out their whereabouts. How can it be?! Did they just disappear under their noses?

All of a sudden, Ye Baiyu shouted, "Something is wrong! Be careful of the Hexagon Starfish."

Being reminded by him, everyone immediately perceived again, only to find that the Hexagon Starfish was sneaking to Li Heiye, Li Baizhou, and Zhang Wen's direction.

Boom...

A golden fist mark shot out of the sea water, and the target was precisely Zhang Wen. "Nine-Layered Waves in the Furious Sea."

"Armor Art."

"Supreme Stab!"

In an instant, the place where Zhang Wen was directly exploded, and all the attacks were targeted at him.

Especially Xia Xiaochan, who was so fast that almost appeared beside Zhang Wen in the blink of an eye.

However, Zhang Wen was also extremely quick to respond to the attacks. In an instant, he had a high-quality battle suit wrapping his body and directly activated his spiritual energy protective cover, and at the same time, three big luminous pearl balls appeared on his side.

Clink!

One of the three pearl balls blocked the Supreme Stab, but that ball was also pierced through by Xia Xiaochan.

Immediately afterward, the golden fist mark and the Nine-Layered Waves in the Furious Sea were coming at him. Zhang Wen's face changed drastically, and he immediately used his protective amulet.

He was not an idiot disciple of the six major sects and would not hesitate to use any treasure he had as long as it could protect him. Han Fei and the others were obviously targeting him. If he did not fight back with all his strength at this moment, he could be one hundred percent sure that they would beat the hell out of him in an instant.

The others quickly rushed over, Yang Deyu was yelling loudly holding his double axe, Mo Feiyan wielded a snake-shaped sword in ethereal postures, and Sun Mu directly used the Immortals Slaying Formation.

Chen Aochen slightly stretched out his fists, and before he arrived, his fist marks had arrived first.

However, at the moment when Chen Aochen punched out, a huge blade light broke through the water and directly shattered his double fist marks. And then the giant blade danced again and slashed at Yang Deyu head-on.

Clang!

Yang Deyu and Chen Aochen immediately shouted in anger, "Tang Ge, what is this?" Tang Ge held his head high, glancing sideways at the two people coldly and saying word by word, "You two rub me the wrong way. Let's have a fight!" Yang Deyu: "..."

Chen Aochen: "..."

Everyone was surprised by Tang Ge's sudden attack and then began to doubt him. Could it really be because Han Fei had once saved Mu Ling on the Steps into the Sea?

To be honest, with Mu Ling's identity, others might rob her, but it was impossible for anyone to have the idea to kill her.

Besides, even if Mu Ling owed Han Fei a favor, it should not be paid back by Tang Ge, should it? Now Tang Ge suddenly attacked Sun Mu and the other children of the big clans, making it clear that he would not hesitate to do anything to protect Han Fei even at the expense of offending the other big clans. Was the reason really that simple? On Zhang Wen's side, seeing that Han Fei and his teammates suddenly began to attack Zhang Wen together, Li Heiye and Li Baizhou simply dodged. This led to Zhang Wen being mobbed. At this moment, he received a punch from Han Fei, and the second pearl ball outside his body was also broken.

Immediately afterward, Le Renkuang shattered his third pearl ball with his Armor Art.

And then Zhang Xuanyu slammed the Nine-Layered Waves in the Furious Sea right in the face of Zhang Wen.

Zhang Wen was horrified and a big six-winged fish suddenly appeared. But before he had time to run away, he found that his lower body had been caught in circles of vines.

Boom, Boom, Boom...

Nine waves hit him in a row, each stronger than the last.

After activating the Majestic Mystic Spell, Zhang Xuanyu was definitely not weak. Every blow of the Nine-Layered Waves in the Furious Sea precisely hit Zhang Wen's protective amulet, making a loud noise.

Receiving nine blows in a row, Zhang Wen was jolted to swallow three mouthfuls of blood, and his protective amulet was knocked away.

Li Heiye and Li Baizhou who were closest to Zhang Wen finally came back from the shock and rushed at Han Fei and the other four. However, at this time, two Zhang Xuanyu clones suddenly appeared in the sea, blocking their way. Ye Baiyu, who had already approached them, was brandishing his sword and hacked out hundreds of times in the blink of an eye. But all of a sudden, there were hundreds of black cracks appearing in the air. Xia Xiaochan activated the Shadowless Blade, and in the next second, she had landed by Ye Baiyu's side and her daggers left several shadows as she pierced through the air. Unfortunately, Ye Baiyu's speed was too fast. Even if Xia Xiaochan used Flash, Ye Baiyu moved his body sideways and dodged her stabs, and the dagger only touched Ye Baiyu's clothes. BAM, BAM, BAM...

Han Fei had already thrown out dozens of punches at the protective cover on Zhang Wen's body that was produced by his protective amulet, which had almost been shattered by him. All this happened within a minute but he failed to kill Zhang Wen in this minute. At this time, Le Renkuang made a move. He gave up attacking Zhang Wen and the swords and knives in his armor box all flew out and swirled to fly at Sun Mu and Mo Feiyan. "Immortals Slaying Sword Qi." "Water Dragon Roar." A purple wisp of Sword Qi appeared and fell on Le Renkuang in the blink of an eye. "Puff, Puff, Puff..." A few sword marks appeared on Le Renkuang's body, but there were no penetrating injuries on his body. This surprised Sun Mu slightly. Could it be that Le Renkuang was also a body refiner?

The eyes of Le Renkuang had turned bloodshot, and his body was fuming with a surging murderous aura. "Violent War Body!"

"Sky Swallowing Technique!" The big mouth appeared again and the double dragons that had just jumped out of the sea water to play with the pearls were swallowed in one bite, leaving no trace at all.

Mo Feiyan was shocked and asked in astonishment, "Damn it, what kind of strange technique is this?"

Not only Mo Feiyan's Water Dragon Roar, but also the Immortals Slaying Sword Qi was swallowed, which surprised both Sun Mu and Mo Feiyan. Just now, when they were watching the battle from the outside, they thought that this fatty was just an insignificant member of Han Fei's team. Although the Sky Swallowing Technique sucked a lot of people in before, it couldn't really suck them in, so they just took it as a gimmick. But at this moment, when they personally experienced the strong sucking ability of this big mouth, they immediately realized how terribly wrong they were. It was no wonder that many people seemed to be unable to resist at all when they were sucked in. Now they felt as if their bodies were being sealed and they almost exhausted all the spiritual energy in their bodies but were only able to back away several meters.

In the protective cover produced by his amulet, Zhang Wen was almost punched dizzy. Why the hell am I being beaten by these people together? Even if you guys give me the slightest chance to fight back, I can at best beat one of you, okay?

Han Fei spared no efforts at all at this moment. Yes, perhaps your protective amulet is very powerful indeed, but my Sacrificing Punch is not weak either.

"H0000000..."

Being horrified by Han Fei's frantic punches, Zhang Wen suddenly burst into a loud roar. "Li Heiye, Li Baizhou | two b*star

now! Hurry up!"

Boom!

Crack!

Being punched hard without rest, the protective

put to break at a when Han Fei began to use the Sacrificing Punch, it could no longer hold out. It flickered and was shattered with a punch by Han Fei.

But at that moment, a dark red rune array suddenly appeared.

The Sacrificing Punch bombarded the runes, but was unable to penetrate them, but blasted Zhang Wen into the seabed.

Without waiting for the arrival of Li Heiye and Li Baizhou, Zhang Wen, who had withstood Han Fei's Sacrificing Punch with his body, disappeared from everyone's perception in the blink of an eye.

Seeing this scene, Cao Tian just said lightly, "Being bombed into the mud, Zhang Wen was almost disabled and even the Immortal Seal had been punched out of his body. But under the protection of the Immortal Seal, he is still alive and can't be reborn. Even after a few months, I am afraid that he will remain in this disabled state..."

"Young Master."

In the distance, the guardians of the children of the big clans who were not so fast were rushing in this direction and were completely stunned.

How f*cking long had it been? In less than two minutes, this guy had even punched the Immortal Seal out of their Young Master's body?! The disciples of the seven major sects who were watching around were also dumbfounded at what they saw. On the side of the Jade Fairy Palace. A girl who was standing beside Gong Yuehan tugged at her hem and said, "Senior Sister, it's Zhang Wen! Even he was defeated in less than two minutes, and active amulet was broken. But d know what that rune array is?"

Gong Yuehan narrowed her eyes slightly and answered calmly, "It's called the Immortal Seal, and it is a means of the big clans from the Thousand Star City. They implant it into the bodies of their outstanding children to keep them safe." Although Gong Yuehan looked calm on the surface, she was very upset in her heart. This guy is too fierce! I have never seen a person who fights as fiercely as him.. The other disciples of the seven major sects were also stupefied at the sight.

"Han Fei and his teammates are too strong, aren't they?"

"Exactly! With their talents, I think they will absolutely be among the most outstanding ones in any major sect."

"Thug Academy, what kind of academy is that?"

At this time, however, the situation in the arena suddenly changed. Cao Qiu shouted in the sky, "Luo Xiaobai, watch out." Ye Baiyu found that Xia Xiaochan was very difficult to deal with. She turned into a shadow from time to time and in the next second, she flashed away. How the hell could he handle such an opponent? Although she couldn't hit him, he couldn't hit her either!

So Ye Baiyu simply gave up on Xia Xiaochan and turned to attack Luo Xiaobai who he thought much easier to deal with.

Luo Xiaobai was qualified support, or else Zhang Xuanyu, who was fighting Li Heiye and Li Baizhou, would have been defeated. Zhang Xuanyu had just made the breakthrough and become an advanced Dangling Fisher, and he did not have the abnormally strong physique of Han Fei. Although his combat power was great, he was unable to solve Li Heiye and Li Baizhou at the same time. The reason why he could still block the attacks of the twin brothers was that Luo Xiaobai's vines had helped him a lot.

Luo Xiaobai, who had become a peak-level Dangling Fisher, had easily created a jungle-like area on the surface of the sea with her power. This area was five hundred meters wide and hundreds of meters high and was almost enclosed by vines. Besides, new vines would continue to grow on the old ones, locking the twin brothers in it and giving them no chance to escape out of it.

At this moment, Luo Xiaobai saw Ye Baiyu rushing at her like a flash of light. Luo Xiaobai casually stretched out a finger and pointed in the air, and in the next second, colorful petals suddenly bloomed in the air. In an instant, all kinds of pollen had completely enveloped Luo Xiaobai and Ye Baiyu.

"Huh?"

Outside the arena, Cao Jiaren was taken aback for a moment, and she looked at Cao Tian who was standing beside her, and asked him, "Is Luo Xiaobai from that family?" Cao Tian smiled and said, "I guess so. There should be no one else who knows how to use the Grand Spirit Summoning Art except the people of that family."

In the team of the Heavenly Sword Sect, a gleam flickered across Mu Ling's eyes and she muttered, "The Grand Spirit Summoning Art?"

Mu Ling was a little surprised. How could a person from that family be with Han Fei and the other three? Didn't Tang Ge say that Han Fei was born in a village? But in the midst of the colorful pollen, from time to time a few thick vines flashed past. After a few minutes, no sound was heard again. After Han Fei solved Zhang Wen, Nine Tails' figure flashed at Han Fei's feet, drilling towards the bottom of the sea. And after receiving the message Luo Xiaobai had sent to him, he ran straight to where Sun Mu and Mo Feiyan were. When Sun Mu found that he was going to be beaten by Le Renkuang, he immediately crushed a Flash Stone and escaped from the Sky Swallowing Technique of Le Renkuang. Mo Feiyan was certainly not stupid either. Seeing that Sun Mu had flashed away, she naturally also flashed away as fast as she could.

Even their young masters had run away and the servants of Sun Mu and Mo Feiyan dared not to rush up at all.

Li Heiye and Li Baizhou looked at each other and also withdrew from the battle. They really could not defeat three Zhang Xuanyu clones at the same time who had almost the same strength and also seemed to be using a certain secret method. "Five minutes!"

Cao Jiaren said lightly. Cao Qiu was already dumbfounded at this exciting battle and he shouted out loud, "Wow! Wonderful! These people are too lame! I can't believe they were solved in less than five minute!"

Then Cao Qiu shouted excitedly at Han Fei, "Han Fei, don't let them go. Kill them... Hey! Sister, don't pull my ears." Cao Jiaren said helplessly, "Stop yelling, okay? You can kill them when you have the ability to kill them on your own. This is your own business. You have to do your own business by yourself." Cao Qiu snorted and said nothing, but he was still very excited.

And Han Fei just sneered when he heard what Cao Qiu shouted at him. And then he snapped his fingers, and a figure was dragged out of the water. Nine Tails dragged Zhang Wen who was still groaning miserably and threw him in front of Han Fei, waiting for Han Fei's praise. "You b*stard, let go of our Young Master!" The servants of Zhang Wen all roared angrily at Han Fei at the moment. They knew that they could not beat Han Fei, so they could only try to overawe him with the power of the Zhang Family. Han Fei lightly landed on the surface of the sea and trampled on Zhang Wen's face, asking coldly, "What? What did you just say? I didn't hear it clearly. Say it again?"

Chapter 530 Big Clan ATMs

One of Han Fei's feet stepped on Zhang Wen's face, grinding it harder and harder. "Who the hell do you think you are?! Do you think you can bully us? Now you know we are not the people who you can mess around with, right?... Do we know you? Have we met before? Why do you join them to fight against us? Are you f*cking out of your mind??"

As a person who was born with a silver spoon in his mouth and the young master of the Zhang Family, Zhang Wen had never been insulted like this before!

Before today, Zhang Wen had always thought that he was a man who was always calm and would not blink even if a mountain collapsed in front of him.

However, all his confidence and pride had completely been shattered by Han Fei's single foot... Oh no, to be precise, they were crushed. "Puff!"

Zhang Wen's face turned all red. With so many people around watching him being battered, he felt that he had been greatly insulted. On the verge of a breakdown, he spat out a mouthful of blood all of a sudden.

"Young Master."

"A*shole, let go of our Young Master." "Han Fei, if you dare to touch our Young Master again, you are dead meat." Xia Xiaochan leaned over, kicked Zhang Wen twice, and then looked at the servants of the Zhang Family, asking, "What will happen if his Immortal Seal is destroyed?" Hearing her words, Zhang Wen was immediately horrified. What does she mean? Are they really going to kill me?

On the other side, Luo Xiaobai walked out of the mist of pollen, and Ye Baiyu was all tied up by the vines and seaweed and was snoring loudly in his sound sleep.

Han Fei asked in surprise, "Why did he fall asleep?" Luo Xiaobai said lightly, "The pollen has a hypnotic effect." Ye Baiyu had no servants following him, so at the moment, no one was worried about him. At this moment, he was sleeping like a log, and it would be useless even if Han Fei trampled on his face.

Seeing this scene, Li Heiye and Li Baizhou's faces turned blue and red. They controlled the fishing boat to fly into the sky, looking down at Zhang Wen who was being stepped on by Han Fei's feet while they looked blankly at each other.

When Sun Mu and Mo Feiyan came back, their hearts sank after seeing this scene. As for Yang Deyu and Chen Aochen, they were not stupid and had already slipped away by now. They were not coming here to have a fight with Tang Ge but coming for Han Fei. Seeing that Zhang Wen and Ye Baiyu had both admitted defeat, the other people all stopped fighting. Only idiots would still rush up stupidly at this moment!

Tang Ge exchanged a glance with Han Fei and then sent a message to him through voice transmission, It doesn't matter if the Immortal Seal is broken the first time, which will not trigger the Dying Strike in their bodies, but you can not do it a second time. Han Fei's expression remained unchanged and he asked Tang Ge through a voice transmission, Is this Immortal Seal easy to break? Tang Ge answered, "No, it is rather difficult! But, with the concerted effort of the five of you, if each of you gives him a strike, you will definitely be able to break it with the fist technique that you had used just now."

Han Fei was a bit shocked when he heard Tang Ge's answer. Is this Immortal Seal so hard to break? When I go back, I must ask Old Bai and the other teachers to help implant an Immortal Seal in my body too. This is a damn good life-saver! At this moment, Han Fei suddenly began to search Zhang Wen!

"Hey hey! What are you doing?! Don't touch our Young Master."

"You b*stard, put your hands away from our master's body."

Seeing his strange actions, the servants of the Zhang Family were all panicked. Damn, there are so many people watching you! How do you still have the face to do that to our master?! At this time, Zhang Wen suddenly yelled out loud, "Han Fei, you... Damn you! Don't touch my chest."

Smack!

Han Fei was pissed off by his reaction and cursed angrily, "Do you want me to give you another slap? I touch your chest? Shut the f*ck up! I'm just searching for your Sea Swallowing Seashell!" Zhang Wen seemed to be in great panic and said hurriedly, "I will give it to you. Let me take it out. Let me take it out myself..."

This scene stunned all the disciples of the seven major sects. On the side of the Heavenly Sword Sect, the people who had been robbed by Han Fei all looked ashamed and indignant, especially the girl. At this time, her face was all red.

On the side of the Jade Fairy Palace, Gong Yuehan opened her mouth slightly and widened her eyes in shock. Gosh... Just one moment ago, this guy still looked so domineering and powerful, but why did he suddenly become like this? Is this who he really is?

After taking the Sea Swallowing Seashell, Han Fei looked at the servants of the Zhang Family and said threateningly, "And your Sea Swallowing Seashells!" Of course, those servants didn't dare to neglect his order. This guy had even beaten the Immortal Seal out of Young Master's body. Did they dare to refuse to give him their Sea Swallowing Seashells?

So the next minute, five or six Sea Swallowing Seashells were thrown to Han Fei and he caught them with the vines.

The servants of the Zhang Family shouted to him, "Han Fei, now let go of our Young Master!" Han Fei grinned at them and said casually, "Do you think this is over?"

Zhang Wen said angrily, “Han Fei, what else do you want to do?”

The servants of the Zhang Family shouted again, “Han Fei, we have given you all our Sea Swallowing Seashells. Do not be so greedy!” Han Fei sneered. “Are you threatening me?”

Han Fei continued to trample on the face under his feet and said lightly, “You know what, the last thing I am afraid of is a threat. Bring 100,000 catties of spiritual spring to trade for your young master. If you don’t have this much spiritual spring, spiritual fruits will also do. You can trade 10,000 spiritual fruits for him.”

“Wow!”

Hearing Han Fei’s words, many people present were shocked. Is this guy f*cking out of his mind?

Even Zhang Xuanyu and the other three couldn’t help but click their tongues. Zhang Xuanyu said to Han Fei through a voice transmission, Feifei, well... Do you really think they can afford that?

Han Fei responded carelessly, “You are underestimating the financial resources of the children of the big clans. To them, 10,000 spiritual fruits are nothing more than a drop in the bucket. If you trade on a dragon boat and convert 10,000 spiritual fruits into mid-quality pearls, you will only get about 15 million mid-quality pearls for 10,000 spiritual fruits. Do you think they can’t afford it?” Le Renkuang asked in confusion, “Is it that few? Then why don’t you ask for more?!” Han Fei said helplessly, “I do want to ask for more, but there are not so many spiritual fruits on a dragon boat!”

Although spiritual fruit was relatively cheap, it was just relative! It was just because no one could eat spiritual fruits all the time, or else their prices would inevitably rise ten times or even a hundred times. Although a dragon boat was big, the number of spiritual-fruit trading shops on it was limited. Even if you bought from ordinary people on the dragon boat, it would take you a lot of time to buy so many spiritual fruits.

Zhang Wen’s eyes were wide open and he glared at Han Fei hatefully. “Han Fei, do not push me too hard.”

However, Han Fei continued to trample on his face and said leisurely, “Push you too hard? From the very moment you joined the battle, you should have been prepared to be robbed by me. By the way, remember to leave your Ghost Speed Divine Boat to me.”

All the servants of the Zhang Family were gnashing their teeth in hatred. F*ck, this is blackmailing! This is absolutely disgusting! As soon as Han Fei issued an order in his heart, Nine Tails swam towards Zhang Wen’s Ghost Speed Divine Boat. Under the gaze of everyone, he blatantly pulled back the Ghost Speed Divine Boat.

Han Fei grinned and said, “There is a Dragon Boat not far from here, right? I’ll give you one day to get the spiritual fruit or spiritual spring. When you collect enough spiritual fruit or spiritual spring, you can come to me and trade them for your ‘Young Master’. Um, it should be easy for you to find out where my Wind God Boat is. OK, now get lost!”

With that said, Han Fei carried Zhang Wen in one hand and jumped onto the Wind God Boat. The next moment, the boat flew into the sky and disappeared. This time, no one dared to stop him. After all, the battle had come to an end and two of the eight children of the big clans were defeated and captured.

The disciples of the major sects were even more unlikely to stop him. Han Fei and his teammates had crushed them in less than five minutes! It was such a disgrace to these disciples.

But now they suddenly felt that they were not the only ones who were humiliated. After all, these children of the big clans didn't end up much better than they did. Mu Ling said lightly, "All the disciples of the Heavenly Sword Sect, dismiss. You can exercise in the level-three fishery on your own and are not allowed to be in groups. The time to reconvene will be three months from now."

This time, the disciples of the seven major sects witnessed with their own eyes the real strength of the heavenly talents outside the Thousand Star City and realized that the flowers in the greenhouse were extremely fragile no matter how beautiful they looked. Only with exercise could they grow. On the Jade Fairy Palace's side. Gong Yuehan said coldly, "The disciples of the Jade Fairy Palace, disperse too. Exercise in the level-three fishery for three months." "The disciples of the Mountain Sea Pavilion..."

"The disciples of the Death Door Sect..." "The disciples of the Grand Void Academy..."

The battle with the Thug Academy had been over. The result was obvious. It ended upon the defeat of the disciples of the seven major sects and the children of the big clans from the Thousand Star City.

This battle was a blow to every person in the teams of the Thousand Star City.

In the past, they had thought that they were the pride of the Thousand Star City. If they went to the level-three fishery, nobody would be their match there.

They had never thought that one day they would meet these five people who defeated them as easily as turning their hands over. Especially Han Fei, this guy fully demonstrated the strength, dominance, and invincibility of a born heavenly talent. Although they had lost this battle, it ignited their ambition.

Although they had lost their Sea Swallowing Seashells, it inspired their fighting spirit. Also on this day, they learned what was treacherous, cunning, teamwork... Anyway, Han Fei themselves had no idea what this battle truly meant to those people. For them, this was a victory of wit and courage and the ending was almost perfect. Somewhere on the sea outside the Sea Grassland, Le Renkuang was searching Ye Baiyu, who was still snoring in a sound sleep, and when he finally found his Sea Swallowing Seashell and took it out, he beamed with a smile.

Le Renkuang said cheerfully, "I found a Ghost Speed Divine Boat. That's great! Now we have two Wind God Boats and two Ghost Speed Divine Boats."

Han Fei sighed. "Unfortunately, we are still one ship short. Let's snatch one in a few days."

Xia Xiaochan said, "That Mo Feiyan is a real eyesore to me. Let's snatch her fishing boat." Zhang Xuanyu said casually, "It doesn't matter whose fishing boat we snatch. Anyway, I know that we are rich now. This is my happiest day since I came to the third-level fishery. Even if we go back now, we already have a lot to boast about." Zhang Wen and Ye Baiyu were tied up by the Spirit Forbidden Net at this moment, one silent, the other in a deep slumber. Han Fei kicked Ye Baiyu who was sleeping soundly and said, "Hey! Stop pretending. Get up."

But Ye Baiyu was still sleeping and was even snoring loudly. Ye Baiyu was still dumbfounded now. What the hell happened? Why was I suddenly defeated and captured? I am unparalleled in speed, right? Who on earth is that manipulator? Is she really from that family? If she is, why is she with these people?

But how could he wake up now? Zhang Wen was almost trampled to death by Han Fei, which he had seen with his own eyes. At this moment, Zhang Wen was staring at the sky glassy-eyed. He probably wanted to kill himself to put an end to this nightmare. He must not wake up now! Ye Baiyu felt that he could sleep until tomorrow when his servants brought spiritual spring and spiritual fruits over in exchange for him. At this moment, Han Fei asked the others helplessly, "He refuses to wake up. What should I do?"

Xia Xiaochan said with a smile, "Easy. Just put him into a pot and cook him." Zhang Xuanyu chuckled and said, "We can find a bug den and throw him in." Le Renkuang laughed so hard that his mouth was shaking and he said, "I think we can take off his shoes and tickle the sole of his foot..."

"Ew..."

The other people all looked at Le Renkuang with disgust. They didn't know this guy was such a pervert!

Every time they worked out an idea, Ye Baiyu could not help but shiver slightly. Are these people f*cking demons? How can they work out these crazy ways of torturing people?! These villains are really wicked! Han Fei said, "I think we can try cooking him first! Anyway, he wouldn't have been killed so easily. However, if we cook him head first and then scratch the sole of his foot, it would be very interesting..." Zhang Xuanyu nodded happily and said, "Yes, and then throw him into a bug den." Ye Baiyu opened his eyes immediately and shouted loudly, "No, please don't! I'm awake. I'm already awake."

Ye Baiyu really couldn't understand Zhang Xuanyu. We are both handsome boys. Why can't you just show some mercy to me? Throw me into a bug den?! How can you work out such a horrible idea? Do you have a thing for bugs? Han Fei looked at Ye Baiyu with a faint smile and said, "Yo! Aren't you going back to sleep?" Ye Baiyu's face kept changing. "What do you want to do to me? My servants will soon get the news and bring spiritual energy and spiritual fruit over tomorrow."

Zhang Xuanyu chuckled. "It is not about spiritual fruits... Now take it out!"

Le Renkuang also smiled and said, "Yes, come on. Take it out already and you'll suffer less."

Xia Xiaochan nodded. "Yes, if you hand it over now, we promise we will never touch you." Han Fei agreed and said, "After all, we are all old acquaintances. We will not do anything to you if you take that thing out."

Luo Xiaobai looked at Ye Baiyu sympathetically. It was almost impossible for the poor guy to leave unscathed since he had fallen into the hands of these guys. Ye Baiyu looked dumbfounded and asked in confusion, "What? What do you want me to take out?"

Han Fei cursed, "Nonsense, of course your speed-type combat skills. If you can't give us a heaven-level divine-quality speed-type combat skill or above, believe it or not, we'll throw you into a boiling pot of oil right away!" Xia Xiaochan held up a dagger and stared at Ye Baiyu with glowing eyes. "Yes, we'll chop off your feet first and then throw you into a boiling pot." Zhang Xuanyu snapped his fingers threateningly and said, "Hand it over now, and you'll suffer less." In the previous battle, if it weren't for the weird attack that Luo Xiaobai launched, they would definitely not have been able to catch Ye Baiyu. His speed was so fast that even Xia Xiaochan was no match for him in speed. Even if she used Flash, she was not able to touch Ye Baiyu in combat. It could be seen how incredibly fast Ye Baiyu's speed was.

Ye Baiyu almost burst into tears and said with a mournful face, "I don't have any! This is my talent, not because of any combat skill!"

Han Fei looked at Luo Xiaobai.

Luo Xiaobai calmly analyzed, "Perhaps it is true that you are talented in speed, but talent is impossible to make you twice or even three times faster than others. Besides, since your family is known for speed, you people will certainly not rely solely on talent. Talent can't enlarge your advantage without limit and make the speed of your family members faster and faster..."

Luo Xiaobai analyzed and came to the conclusion in the end. "So, you and the other children of your family must have been learning all kinds of speed-type combat skills since childhood. This is why you are so fast, but your combat power is weaker than others."

Han Fei slapped Ye Baiyu's head and threatened, "Hey, what do you have to say now? So, don't try to fool us with demon-level or heaven-level but mid or low-quality combat skills. If you don't give us two heaven-level divine-quality speed-type combat skills or a speed-type combat skill above the heaven-level today, you'll end up in the boiling oil pot!"

Ye Baiyu said angrily, "How could there be any heaven-level divine-quality combat skills? That kind of combat skill does not exist at all. Yes, I admit that I have practiced speed-type combat skills, but I've only got a heaven-level high-quality one. Plus my own talent, that's why my speed is so fast."

However, the next second, Han Fei directly took out a big pot and poured a large bucket of fish oil into it. Han Fei beckoned, "Xia Xiaochan, make some fire."

Splash!

The flames were burning and Ye Baiyu's eyelids trembled as he watched.

"Wait a minute... Wait a minute..."

"Gulp..."

Ye Baiyu swallowed. These guys are literally a bunch of lunatics! But now I am just like a pigeon among cats and have to bow my head! "OK, OK, I'll give it, I'll give... Two, two heaven-level high-quality speed-type combat skills to you. Believe me, this is definitely the best combat skill I have ever had. There is no such thing as a heaven-level divine-quality combat skill. If I really had a combat skill above heaven-level, do you think there is anyone who could stop me?"

But at this moment, Luo Xiaobai spoke again, "Yes, you have it. Sun Mu has the Immortal Slaying Formation, Mo Feiyan has the Water Dragon Roar, and the Cao Family has the Fist Technique of the Caos'. Your family, the Ye Family, as one of the big clans in the Thousand Star City that is famous for speed, will definitely not just have two heaven-level high-quality speed-type combat skills. You will have at least one trump card in your hand, which is exactly what we want."

Ye Baiyu seemed to be angered by her words and yelled, "Don't even think of it! Luo Xiaobai, right? Will you hand over your Grand Spirit Summoning Art? Do you think I don't know which family you are from? Except for people from that family, no one else can use the Grand Spirit Summoning Art in the Thousand

Star City.” Han Fei and the others were all taken aback. Did Ye Baiyu mean that he knew which family Luo Xiaobai was from?

Xia Xiaochan wondered, “Which family?”

However, Luo Xiaobai said, “I will tell you later. I’m from a family of Divine Manipulators and used to live in the Thousand Star City.”

Luo Xiaobai didn’t intend to conceal this at all. She seemed to think that since someone from the Thousand Star City had revealed which family she was from, there was no need for her to keep it a secret anymore. Anyway, they would find out about it sooner or later.

Something suddenly occurred to Han Fei and he said, “Well, since you cherish your family heirloom so much, we may not take it. It is not a big deal. But you must hand over the Star Teleportation Technique.”

“That’s Impossible!”

Smack!

Han Fei slapped Ye Baiyu’s head again and said angrily, “Neither this nor that? This is already our bottom line. Either you hand over your family heirloom or give us the Star Teleportation Technique. Otherwise, you are leaving us no choice but to kill

you.”

Everyone looked at Han Fei.

Xia Xiaochan asked, “What is the Star Teleportation Technique?”

Zhang Xuanyu was astonished. “Wow, have you even found out about the name?”

Le Renkuang said, “Umm, it sounds so cool.”

Han Fei said, “It’s a secret escaping technique and even the Six-Gate Array won’t work on it.”

“Wow...”

Hearing this, Zhang Xuanyu and the others all took a deep breath. Even the Six-Gate Array won’t work on it?! Is there really such a combat skill in the world?

Zhang Xuanyu’s eyes glowed. “Great, we must take it.”

Le Renkuang said cheerfully, “Yes, I want his combat skill too.”

Xia Xiaochan’s eyes flickered. In this way, the Star Teleportation Technique might be the least helpful to her. However, it could also make up for the shortcomings of Flash. After all, with Flash, she could not escape out of the Six-Gate Array.

What Han Fei wanted was not Ye Baiyu’s heirloom combat skill from the very beginning. It would be like asking Sun Mu to hand over the Immortals Slaying Formation. Of course, Sun Mu would not hand it in and it was simply impossible for him to hand it in. Ye Baiyu said, “Do you think that the Star Teleportation Technique is not my heirloom? To tell you the truth, these two are both the heirlooms of

the Ye Family. I can give you a heaven-level combat skill, but absolutely not the Star Teleportation Technique. It, just like Zhang Wen's Heavenly Pearl Body Protecting Art, is my family's secret."

As soon as he said so, Zhang Wen, who had been in a daze, suddenly kicked Ye Baiyu.

Zhang Wen shouted angrily, "Don't f*cking try to drag me down! What is the Heavenly Pearl Body Protecting Art? I don't know what it is."

Ye Baiyu said shamelessly, "You can kill me, but you will definitely not get the two heirlooms of my family."

Smack...

Han Fei slapped Ye Baiyu's head again. "Do you think there is nothing we can do with you? Do you think I dare not kill you? Believe it or not, even if I can't kill you, I can destroy your Immortal Seal!" Just at this moment, Luo Xiaobai suddenly said in a voice transmission, If it is really his heirloom, I am afraid that he will never hand it over. Once the secret technique is released, the consequences may be very serious. Han Fei was helpless. He had thought he would get a treasure today, but to his disappointment, it turned out that he rejoiced too soon! Han Fei was immediately discouraged and said, "Okay, each of you, give us two heaven-level high-quality combat skills. This is the bottom line. If you refuse again, humph... I swear I will blow up your Immortal Seals."

Zhang Wen asked angrily, "What does this have to do with me?"

Han Fei shouted crossly, "Shut up. Just do what I tell you to do!"

In the end, Ye Baiyu and Zhang Wen compromised.

The two gave them four heaven-level high-quality combat skills. Although what they got this time was not as good as they expected, it was definitely a huge harvest.

The two combat skills given by Ye Baiyu were both speed-type combat skills, which were the Flying Fish Technique and the Sea Racing Art.

Zhang Wen gave two combat skills, one was defensive combat skill, the Spiritual Pearl Body Protecting Barrier and the other was a combat skill for armorists, the Quad Thunder Knife. The latter combat skill was naturally given to Le Renkuang because others couldn't use it, and as for the Spiritual Pearl Body Protecting Barrier, Han Fei took a look at it for a while. It was actually a defensive method, but it had a shortcoming, that is, it inevitably sacrificed some speed and combat power for defending, so it was not suitable for quick battles. Han Fei directly threw it to Zhang Xuanyu and Luo Xiaobai. The two of them would not rush around like he did while in battle, so it was more suitable for them.

But the Flying Fish Technique and the Sea Racing Art suited everyone. Heaven-level high-quality combat skills might be easier to find, but heaven-level high-quality speed-type combat skills were extremely rare. In his mind, the information about the two combat skills emerged. Flying Fish Technique <Heaven-Level High-Quality> Notes: There are flying fish in the deep sea, which swim like they're flying. They have both the characteristics of speed and agility. They can absorb the spiritual energy in the sea when swimming so that the user does not need to consume additional spiritual energy. If anyone has cultivated this technique to the highest level, he will look like a mystic flashing light in the sea when swimming. Shortcoming: Relatively weak in straight-line speed

Deduced Art: N/A

Deduction Consumption: 5,000,000 Notes: Can be fused Han Fei found that the Flying Fish Technique was actually a bit similar to the Shadow Swimming Art. In fact, neither of them was pursuing the fastest speed, but taking both agility and speed into consideration. However, what does the note “can be fused” mean?

Han Fei quickly read the next book.

Sea Racing Art <Heaven-Level High-Quality>

Notes: It takes the human body as a large array. As soon as the user begins to swim, the array is activated. It can draw spiritual energy from the sea without consuming additional spiritual energy. Those who cultivate this art to the highest level can ignore the water flow and turn into a ray of light in the water.

Shortcoming: If without the support of a footwork technique, it is extremely difficult for the user to instantly change the swimming course.

Deduced Art: N/A

Deduction Consumption: 5,000,000

Notes: Can be fused

Different from the Flying Fish Technique, this combat skill pursued the fastest speed, so theoretically it would be faster. But it seemed that only a straight-line course could be taken, which would be a big problem.

It was not that this kind of combat technique that pursued the fastest speed was not good, but that if one couldn't make a turn in swimming, when encountering an obstacle, you might not be able to react quickly enough and end up bumping against it directly.

However, it did not necessarily cause a problem. After all, if practiced to the extreme, he would become a ray of light. Could it be a completely different kind of experience then?

Han Fei was not quite sure, but it seemed that this Sea Racing Art could also be fused.

This made Han Fei begin to muse. Can combat skills also be fused?

Immediately, he looked at the Shadow Swimming Art but didn't find the words “Can be fused”.

Noticing this, Han Fei frowned and immediately checked other combat skills. But the result made Han Fei a little disappointed. He found that there were only these two speed-type combat skills that had the note “Can be fused”.

However, Han Fei began to ponder. Could it be because they were the same type of combat skills? So, they could fuse with each other? And his other combat skills belong to different categories, such as the Sacrificing Punch, the Art of Invincibility, the Majestic Mystic Spell, the Thousand Faces Technique and the War Soul Art. They were not in the same category. That was why they could not fuse with each

other. Han Fei was very excited about his new discovery. If he deduced the Shadow Swimming Art to the heaven-level high-quality, could it be fused with the other two combat skills?

If he fused the three combat skills, would a heaven-level divine-quality speed-type combat skill be produced? And he even wondered whether it would be possible that the newly-produced combat skill was even higher than heaven-level divine-quality?

Of course, Han Fei couldn't experiment with it at this moment.

On the other side, in a particularly good mood after getting this heaven-level high-quality combat skill, Le Renkuang was cooking and making a hot pot right now.

Xia Xiaochan was holding a fishing rod to fish for side dishes. Although some small fish and shrimps were of very low level, their taste was not bad at all. Zhang Xuanyu was studying the Spiritual Pearl Body Protecting Barrier with a serious look. Luo Xiaobai seemed to be in a good mood. Xia Xiaochan was fishing, and she was sitting next to her, with her feet hanging on the bow of the ship, with various vines under her feet and petals floating on the sea. She seemed to be studying her real strength.

As for the Hexagon Starfish, he, clinging to the big pot at the moment, seemed not to mind the hot temperature, picked up a small shrimp or conch from the pot from time to time with his tentacles, and stuffed it into his mouth.

The Hexagon Starfish seemed to be used to staying with Han Fei and the others and didn't worry that someone would catch him and keep him as a contractual spiritual beast. Or to be precise, the Hexagon Starfish had regarded himself as a human although he had not realized it.

After a while.

The five people and one starfish were sitting around the hot pot. Xia Xiaochan saw the Hexagon Starfish stretch out his tentacles and was about to grab food from the pot, and immediately patted his tentacles away. Xia Xiaochan said, "Hey, big starfish, you can't touch food without washing your hands." The Hexagon Starfish said aggrievedly, "But my hands are clean!"

Zhang Xuanyu laughed. "Starfish don't have hands."

Han Fei summoned a cloud of purified water, wrapped the Hexagon Starfish in it, and said after a slight jolt, "Okay, he is washed clean." Before starting to eat, Luo Xiaobai suddenly said, "Master Hexagon, set up a soundproof array around those two." For this kind of trivial matter, the Hexagon Starfish just needed to casually wave his tentacles. Immediately, Ye Baiyu and Zhang Wen could not hear anything. All they could see was that Han Fei and the other four were eating around the big pot. Le Renkuang had already begun to indulge himself with the delicacies. Luo Xiaobai picked up a small shrimp and said, "In the Thousand Star City, there are actually many families, far more than the ones we have seen.

However, some families have risen, some have fallen, some hid away, and some are secluded... My family is a relatively special one among them." Hearing that Luo Xiaobai was about to talk about her family background, everyone immediately pricked their ears. Luo Xiaobai said lightly, "I know you have a lot of questions, but you should have guessed that I am from the Thousand Star City." Xia Xiaochan nodded and said, "Yeah! But it doesn't matter. Zhang Xuanyu came from another town too!" Zhang Xuanyu rolled his eyes and said, "What does it have to do with me? Can a town be the same as a city?"

Luo Xiaobai went on speaking, "Each rising family in the Thousand Star City has its own feature. For example, Zhang Wen's family is famous for defense, and Ye Baiyu's family for speed... And my family, the Luo Family once had a Divine Manipulator." "Divine Manipulator?"

Fei Han had just heard about the family of Divine Manipulators. At this moment, when Luo Xiaobai took the initiative to talk about it, he asked, "What is a Divine Manipulator?"

Luo Xiaobai tilted her head and thought for two seconds. "A Divine Manipulator is actually a manipulator, but their ability to control spiritual plants is beyond the capability of a normal manipulator." Han Fei asked curiously, "For example?"

Luo Xiaobai smiled faintly and answered, "For example, wherever there is a spiritual plant, they will not die; for example, they can borrow life from spiritual plants; for example, they can communicate with any spiritual plant at any time... Of course, a Divine Manipulator seems to be able to summon any kind of spiritual plant he wants to summon." "Gosh!"

Hearing her words, Le Renkuang who was wolfing down the food asked in astonishment, "Wouldn't that make a Divine Manipulator invincible?"

Luo Xiaobai shook her head. "No, for any profession, when anyone grows to their peak, they will get new insights. Just like any cultivator who will walk his own way when his strength reaches a certain level." "His own way?"

Luo Xiaobai nodded. "Have you noticed that based on what we have learned so far, it seems that heaven-level combat skills are already the limit of combat skills we know?"

Han Fei nodded hard. "Yes, heaven-level combat skills are already extremely rare." Luo Xiaobai glanced at Ye Baiyu and Zhang Wen and then continued "But above the heavenly-level, cultivators still need to seek their own breakthroughs and find their own ways. As for how to find them, I don't know, but these families can rise because someone in the family has reached an incredibly high level in a certain aspect. Therefore, by passing on the experience from generation to generation they can have the status they have today."

Han Fei suddenly asked, "What is the Grand Spirit Summoning Art?"

Luo Xiaobai pondered for a moment and answered, "It is to summon the plants I want to summon. Ye Baiyu could be trapped back then because I summoned a kind of spiritual plant called Ever-Changing Demonic Flower. Their pollen possesses a strong hypnotic and hallucinogenic ability and can make people lose combat power quickly and fall into a coma." Xia Xiaochan suddenly exclaimed in shock, "Oh, are you going to become a Divine Manipulator in the future?"

"Haha! How can it be that simple?"

Luo Xiaobai smiled. "I didn't find out that I could use the Grand Spirit Summoning Art until I made the breakthrough to become a peak-level Dangling Fisher. Besides, I can only use it in the simplest way and still need to explore how to use it."

They ate and fell deep into thought. The fresh experience of the battle with the children of the big clans filled their minds with a myriad of thoughts and ideas.

In fact, these people were very powerful. They could win mainly because of Han Fei. The Majestic Mystic Spell was literally a peerless treasure, but it was casually thrown to them by Han Fei. This was the reason why this team could be so strong. However, were they going to rely on the Majestic Mystic Spell all the time? For some reason, they simultaneously decided to temporarily put the Majestic Mystic Spell aside. After all, it was an external force! Luo Xiaobai inspired them. They must find their own way. Perhaps this was the key.
