

Chapter 531 Secrets of Dragon Boats

The scent of the hot pot lingered in the space for a long time and fell in the noses of Zhang Wen and Ye Baiyu, who were so attracted by the scent. Han Fei glanced at the two of them and asked casually, "What, you want to eat this? Give me something in exchange for it!" Zhang Wen seemed to have recovered from the shame and anger. At this time, Han Fei and the other four had set up a barbecue in the room and the sizzling sound of the barbecue and the tempting scent of garlic and pepper made him say involuntarily, "I have given everything I have to you. And my servants will also bring you spiritual spring and spiritual fruit tomorrow. What else do you want?"

Zhang Xuanyu grabbed a garlic prawn and took a bite, munching. "You can never have too much of a good thing, right? You are lucky to have the chance. Even if others wanted to eat, we wouldn't give them a chance."

Ye Baiyu chimed in, "That's because they are poor."

Zhang Xuanyu praised him. "You are quite smart. That's the way it is."

Han Fei said with a smile, "In fact, we are not the kind of people who are greedy for small profits. How about this? Tell us about the dragon boats. Tell me where the dragon boats came from and who is controlling them..." As he said this, Han Fei grabbed two large garlic prawns and walked in front of the two of them, saying, "Are my garlic prawns fragrant? Tell us what you know about the dragon boats and then you can eat all these delicacies. Not everyone can have this chance."

With that said, Han Fei handed a string of garlic prawns to each of the two.

Ye Baiyu immediately took it and took a bite of it. As soon as he took a mouthful of the garlic prawn, his eyes glowed. Wow, he had never eaten something so delicious in his life.

Living in the Thousand Star City, he never needed to worry about food and clothes, and there were countless precious food ingredients for him, but they were all of original taste and flavor. Who could have expected that after these ingredients were cooked by Han Fei, their taste suddenly became so damn delicious, which was nothing like human food?

Seeing Ye Baiyu eating it, Zhang Wen also took a bite. He felt that he had given up on himself. He had regretted his stupid decision more than once. He would never have ever joined Sun Mu to fight against Han Fei and his teammates if he had known that the Thug Legend team was so powerful. As a result, at the moment this bite of spicy shrimp meat dropped to his stomach, he suddenly felt that all his sadness and depression were gone.

The two people began to munch gluttonously and finished the garlic prawns in a moment.

After they ate the garlic prawn, they found that Han Fei, Xia Xiaochan, and the others were looking at him with a smile.

Han Fei grabbed seven or eight garlic prawns, two spicy crab feet, and two plates of garlic sea mussels and held them to their noses. "What do you think? There is actually no conflict of interest between us. As long as you don't chase us, we can still be good friends, right? Do you want some more?" The

Hexagon Starfish was clinging to the barbecue grill. Of course, he was not going to barbecue himself, but he also liked to eat barbecue. At this moment, the six big eyes of the Hexagon Starfish were rolling, and it had been a long time since he saw Han Fei speak so gently to someone. He bet that Han Fei was absolutely scheming something. Ye Baiyu stretched out his hand and said, "If you want to know about the dragon boats, you can just ask Zhang Wen. He knows much better than me because his family has a share in the dragon boats."

"F*ck..."

Han Fei and the others looked at each other. What the hell? Zhang Wen's family has a share in the dragon boats? Really?

However, Zhang Wen kicked Ye Baiyu again, gnashing his teeth and spitting out word by word, "Ye, Bai, Yu..." Han Fei hurriedly stuffed all the food in his hand to Ye Baiyu, then turned his eyes to Zhang Wen and said, "See? This is what a smart person should do. Look at you... Alas! Bro, I don't mean to offend you, but why are you so stubborn?" As he said this, Han Fei grabbed a bunch of barbecue from the grill and said, "If you tell me about the dragon boats, you will have delicious food to eat. But if you refuse to cooperate, I can beat you until you speak and you will not have anything to eat." Le Renkuang added on the side, "If I were you, I would just put everything aside and eat this delicious food first. Delicious food is an ultra-quality luxury in this world!"

Zhang Wen knew that Han Fei and the others would not dare to kill him, but why did they want to know about dragon boats? He could not figure out the reason. There were hundreds of thousands of people on each dragon boat. Among them, there were countless peak-level Dangling Fishers and on each dragon boat, there was a Hanging Fisher guarding it. Did these people dare to scheme against the dragon boats? "Surely not." Zhang Wen admitted that these people were very strong, but he didn't think they were strong enough to challenge the dragon boats. Even if they had disguise skills and could sneak onto the dragon boats, once they did anything abnormal, they would definitely be targeted immediately.

If it was so easy to mess around with the dragon boats, how could they have existed in the level-three fishery for so long? Straightening it out in his mind, Zhang Wen took the barbecue and said, "OK, I can tell you. It's not a secret in the Thousand Star City. The dragon boats are super ships built by the big families and sects in the Thousand Star City. The Thousand Star City only cultivates strong people, so almost no one will go to the level-one or level-two fishery to gain fighting experience, and then the dragon boat resources in the level-three fishery have become a major source of revenue for the Thousand Star City, accounting for more than 30% of the entire city's revenue." Han Fei's first reaction was, "30%? Since the people in the Thousand Star City don't work, where does the remaining 70% revenue come from?"

Zhang Xuanyu grinned. "So you guys just sit idle and enjoy the fruits of others' work?" But Zhang Wen shook his head and said, "Sit idle and enjoy the fruits of others' work? You don't live in the Thousand Star City, so you don't know the significance of the city's existence. People in villages and towns just cultivate, fish, and harvest resources in the level-one, level-two and level-three fishery, so all the dangers you can understand are about the fisheries."

But this is a different case for the Thousand Star City. If it weren't for the Thousand Star City that shelters all the villages and towns, how would it be possible for you people to live such a peaceful life?"

Han Fei asked, "What do you mean?"

Zhang Wen went on explaining, "The Unknown Place. The remaining sources of revenue for the Thousand Star City are mostly from the Unknown Place, which accounts for at least 50% of our economic sources. As for the remaining, it is all about business and trade that you don't understand." Han Fei and his companions couldn't help looking at each other in astonishment. Did the hundreds of dragon boats in level-three fishery account for only 30% of the revenue of the Thousand Star City?

Han Fei certainly knew how much money a dragon boat could make a day. Just in terms of the most basic cost of accommodation, each dragon boat would earn at least as much as 50 million, if not 100 million.

Not to mention the scale of the entire trading market on the dragon boats. It would be surprisingly huge. Even not counting the trading market in, minus the incidental expenses such as the daily depreciation fee of the dragon boats, assume that each dragon boat would earn the net profit of 100 million a day, then it would be 10 billion for a hundred dragon boats.

But this only accounted for thirty percent?

Perhaps the dragon boats were expensive to build, but this thing had been in operation for hundreds of years, so the expenses would not be as high as it seemed.

Han Fei took a slight breath and asked, "So you mean that the dragon boats are controlled by those big clans and sects?"

Zhang Wen shook his head and explained, "Not really. Just a part of it. The Thousand Star City has a population of hundreds of millions. If all the dragon boats are controlled by the big clans and sects, what do the ordinary people live on? In general, the major sects account for about 30%, big clans account for about 20%, and the remaining 50% is used to support ordinary people in the Thousand Star City." Han Fei was astonished and asked, "So, do you mean that as long as you live in the Thousand Star City, you can receive a monthly relief fund even if you are only an ordinary person?"

"Relief fund?"

Zhang Wen nodded. "This term is novel, but it is not exactly a relief, because most of the money is earned by ordinary people. The Thousand Star City has a special organization to conduct statistics and distribute the, well... Relief fund according to the contribution made by each household in the Thousand Star City."

"The big clans account for 20%? How many big clans are there in the city?" Zhang Wen thought for a while and answered, "That's not easy to measure. Some families rise and some families decline, but usually, only the ten strongest families will be named big clans. As for the remaining ones that have declined and fallen out of the top ten, there must be hundreds of them."

"So many?" Xia Xiaochan looked at Luo Xiaobai and the latter frowned slightly. "I don't know how many big families are in the Thousand Star City. I don't go out very much. But the top ten big clans are in control of the economy." Han Fei pondered for a moment, and then suddenly asked, "Since the dragon

boats are so important, why is there only one Hanging Fisher guarding each dragon boat?" Zhang Wen opened his eyes wide and asked, "Isn't a Hanging Fisher enough? The cultivators above Hanging Fishers are restricted from entering the level-three fishery at all due to various reasons. Even with occasional exceptions, they can't do anything in the level-three fishery."

The Thousand Star City would only send Hidden Fishers to take turns to guard the dragon boats. As for the cultivators above Hidden Fishers, they were already capable of threatening the safety of all dragon boats, so they were not allowed to enter the level-three fishery. Han Fei nodded. No matter how well the dragon boats were guarded, they were just huge ordinary ships. In terms of the material alone, they could not even be compared with the Wind God Boat or the Ghost Speed Divine Boat. Not to mention the cultivators above Hidden Fishers, even a Hanging Fisher would be able to wreak havoc on a dragon boat.

Han Fei asked, "How are the Hanging Fishers and Hidden Fishers who are responsible for guarding the dragon boats selected?" When Zhang Wen heard Han Fei's question, he suddenly fell silent and just wolfed down the food. However, Luo Xiaobai suddenly said, "They should be designated by the big clans and major sects from the Thousand Star City and the sects.

This is the only source of these people." Zhang Wen raised his head and glanced at Luo Xiaobai, saying, "You'll have no chance to defeat them. The assigned Hanging Fishers are at least peak-level fishers, ordinary Hanging Fishers would not get this job. The same is true for Hidden Fishers. At that level, they are only half a step away from becoming a Law Enforcer. How could a mere Dangling Fisher be able to defeat them?"

The next day.

When the Wind God Boat appeared only 3,000 kilometers or so from the dragon boats, the servants of the Zhang Family and the Ye Family came.

At this moment, nearly 20 fishing boats from two families landed opposite them.

These people were not here to fight, but to prevent Han Fei and his teammates from playing any tricks to snatch what they had brought over without releasing their young masters. With the status of these two big families, a mere 10,000 spiritual fruits, or 100,000 catties of spiritual spring, was only a piece of cake for them. It was just that for some time after this, the prices of spiritual fruit and spiritual spring would inevitably soar. This was a market economy issue and had nothing to do with Han Fei.

After a while, Han Fei got the spiritual fruit and spiritual spring as he wished. He shouted at Zhang Wen and Ye Baiyu standing on the bow of the opposite boats, "Remember not to do stupid things next time. As long as you dare to come again, I will catch you again but then you will have to pay ten times what you paid today. Think about it."

Zhang Wen snorted and left with his servants. This time, he suffered great humiliation. At the same time, however, it made him realize his weakness.

He would certainly take revenge on Han Fei, but to take revenge at this moment was tantamount to dreaming. For the first time, he desperately wanted to improve his strength. "Huh! Why do I feel something is wrong?"

“Young Master, what’s wrong with you?” Zhang Wen rubbed his stomach, full of doubt. “I’m fine.”

As for Ye Baiyu, he felt that this time he was too careless. He would never have expected that Luo Xiaobai turned out to be a member of the divine manipulator family, or else he would not have even participated in the battle.

Burble, Burble... After these two people were released, Han Fei and his party immediately drove the Wind God Boat to run away with a swish. Less than ten minutes after Han Fei and the others left, Zhang Wen and Ye Baiyu both changed their faces drastically. Zhang Wen’s entire face flushed and he cursed, “Damn it, when did he poison me?” Ye Baiyu gnashed his teeth and clutched his stomach, groaning, “Han Fei, f*ck you...” But Han Fei had run away. Now, he was laughing out loud.

Le Renkuang asked him, “How much poison did you put on them?”

Han Fei grinned and said, “One drop per person. If I used too much, they would notice it. However, one drop is enough for them.” Zhang Xuanyu put his arm around Han Fei’s shoulders and exclaimed, “Wow, you are really awesome! is this Poison King really so powerful?” Han Fei laughed. “Sure. Luckily, we ran away fast.

Otherwise, I guess they would catch up and take revenge on us.” Although they did not catch up to take revenge, he was not sure if he could win the next time if the other party was prepared. He won this time, not because of his ability, but because those people underestimated Han Fei’s teammates too much.

Whether it was Le Renkuang’s Sky Swallowing Technique or Zhang Xuanyu’s Tertiary Body, they both exceeded their expectations.

As for Luo Xiaobai, let alone the others, even Han Fei and the other three were stunned by her new abilities.

Somewhere on the sea 10,000 kilometers away from the dragon boat, Han Fei and the other four switched to an ordinary fishing boat. In the cabin, the five of them sat cross-legged. Sea Swallowing Shells were piled on the ground like a small hill. The five of them stared at each other blankly, having no idea what to do with these Sea Swallowing Seashells...

Le Renkuang muttered stupidly, “How much money is in these Sea Swallowing Seashells?”

Han Fei thought for a long while before he said, “I am not sure, but anyway, it seems that now we have money to burn.” At first, Han Fei knew how many Sea Swallowing Seashells he had snatched. Even plus those that he snatched from Zhang Wen, Ye Baiyu, and the disciples of the six major sects, the number could still be counted.

However, Han Fei was away for more than two months after all. During this period, Xia Xiaochan and the others were not idle either. On the Steps into the Sea, he gave her 51 treasure maps, most of which had been used by her. Most of the secret realms were actually empty, and she only gained something in less than 20 of them, but even so, the gains were quite a lot. Besides, Xia Xiaochan and the others had snatched hundreds of Sea Swallowing Seashells off and on, resulting in too much money, which was almost countless.

Zhang Xuanyu said, "All I can think of is to change my outfit. Then, I will keep a little spare. But I don't know how to deal with the rest."

Xia Xiaochan was also at a loss. She used to have no money to spend, but now she had money but didn't know how to spend it! Luo Xiaobai analyzed with difficulty, "Firstly, as Zhang Xuanyu said, we'd better make a few new sets of weapons and armor, which better be ultra-quality spiritual weapons." Han Fei volunteered, "Let me make them! How many sets shall I make for each of you?"

Le Renkuang asked weakly, "10 sets?"

BAM!

Han Fei kicked over. "Why do you want so many? Are you going to eat them?"

Le Renkuang scratched his belly. "Well... Wouldn't it be a waste not to use them?"

Luo Xiaobai shook her head and said, "We don't need that many. Two sets for one person will be enough. After all, we can't completely rely on weapons and armor. Otherwise, how can we gain enough fighting experience we need? Secondly, I think we can stay in seclusion for cultivation for some time. Before, there were not so many resources for us to cultivate, but now..."

Xia Xiaochan said, "Shall we look for the ghost ship while cultivating?"

Luo Xiaobai shook her head. "We don't need to look for it. The Sea Grassland matter is still far from over. Many people are still venturing into the Sea Grassland. Especially after many people think that I have got the so-called "Sea Quelling Bizarre Treasure", there will be more people believing there is still a big secret in the Sea Grassland." Han Fei asked, "Well, is there really a big secret there?"

Luo Xiaobai shrugged. "There should still be, but it's definitely not a Sea Quelling Bizarre Treasure, just an ordinary treasure..."

Luo Xiaobai pointed to the hill-like pile of Sea Swallowing Seashells, asking, "Aren't there enough? We never thought that one day we would be so rich, did we?"

Han Fei sighed. "OK, then let's stay in seclusion for cultivation during this period, and wait for the ghost ship to appear by itself."

Han Fei was very sure that the ghost ship would definitely appear. Two more dragon boats gathered on the Sea Grassland, and the third or even the fourth one might come soon.

Regardless of whether there was any treasure in the Sea Grassland or not, the killing between people here would definitely not cease. At that time, there would be large quantities of resources to be sold. At that time, there was no reason for the ghost ship to miss the chance.

Half a month later.

Le Renkuang had just stabilized his realm as an advanced Dangling Fisher. Zhang Xuanyu failed to make a breakthrough, but had learned the Spiritual Pearl Body Protecting Barrier. Han Fei had made two sets of ultra-quality battle suits and weapons for each of them. It was just that as an armorer, Le Renkuang needed a lot of weapons.

Anyway, being coaxed and pestered unceasingly by this guy, Han Fei made eight ultra-quality spiritual weapons for him in the end. Han Fei had decided that all the credit of this guy so far had been offset by these ultra-quality spiritual weapons he made for him. Besides, Han Fei took advantage of the spare time to attach souls to the 99 Blue Sea Wandering Dragon Daggers and the souls attached to them were all Mess Swallowing Worms.

Then, two big turtles were attached to the Water Dividing Seal and the Whetstone. He also found a Single-Horned Shark and attached its soul to the Blood Drinking Knife.

After all, it was almost impossible to find so many exotic creatures to attach their souls to these weapons in such a short time. The purpose of attaching souls to spiritual weapons was nothing more than to make the spiritual weapon more agile and more powerful. In the past, he attached the soul of a Mess Swallowing Worm to a low-quality spiritual weapon, and then the speed of the knife was directly doubled. But now, after attaching a soul to an ultra-quality spiritual weapon, its speed was only 30% faster.

Although it was only 30%, Han Fei was already satisfied. An ultra-quality spiritual weapon itself was a powerful existence, and if it became 30% faster, it almost had reached the limit that he could reach now.

Han Fei made statistics. At present, the total number and value of the items in the hands of the five people were so great that Han Fei was almost dazzled.

The list was roughly as follows:

There were 146 high-quality spiritual weapons and 44 high-quality battle suits. 1502 mid-quality spiritual weapons and 320 mid-quality battle clothes. 1000 ultra-quality pearls. 300,000 high-quality pearls. The number of mid-quality pearls totaled 1.1 billion. A total of 13265 Flash Stones. 3608 pieces of high-quality materials. There were a total of 966 combat skills, of which the best ones had been learned.

As for spiritual fruit, plus the ones that Han Fei had bought before, there were a total of 13,068 pieces and more than 90,000 catties of spiritual spring. Now Han Fei didn't have to worry about the source of spiritual energy at all. He was rich, damn f*cking rich!

"Heh, Heh, Heh..."

Just when Han Fei was supporting his chin, feeling that he had suddenly lost his life goal, eerie laughter suddenly sounded on the bottom of the sea and over the ocean.

Han Fei immediately shook and shouted, "Oh! Here it comes."

And he hurriedly shouted to the other four, "Hurry up, the ghost ship is here. Let's get on the ship quickly."

Xia Xiaochan was the first to rush over and she asked, "Why, has it finally appeared?" Zhang Xuanyu said, "Oh, finally we have got a place to spend our money!" Le Renkuang said, "Isn't it said that there is nothing good on the ghost ship?" Luo Xiaobai wondered, "The question is that, is the ghost ship really credible? We have too many resources now. What if the ghost ship gets tempted by them?"

Han Fei thought for a moment and said, "Well, you two girls stay outside. If we don't come out within a day, you will leave."

"No!"

Xia Xiaochan refused and insisted, "I want to go too."

Luo Xiaobai said, "Let's go together. If we find anything wrong there, we can leave."

Luo Xiaobai suddenly took out some ancient jade and said, "Let's board the ship first. Let's use these resources according to the situation on the ghost ship!"

When they saw Luo Xiaobai taking out the ancient jade, everyone grinned slightly. Luo Xiaobai no longer kept her real family background away from them but had completely revealed it. According to the ancient jade, her status was probably no lower than that of Sun Mu and the other big clan children, maybe even higher. "Let's go! Go buy, buy, buy!"

Chapter 532 A Mega Deal

Above the sea, the sound waves oscillated far away.

Han Fei and the other four controlled the Wind God Boat and went straight to the ghost ship. After traveling less than 2,000 kilometers, they saw a huge black ship. At this moment, the ghost ship hadn't been completely out of the water yet, with most of its body still underwater, and it was slowly rising up. The sea water on both sides of the hull splashed and flowed down from the sky, like a majestic waterfall. Even Le Renkuang couldn't help exclaiming, "Colorful Divine Light, what did I see?! Is that Colorful Divine Light?" Han Fei was stunned for quite a while. Why does this term sound so familiar? Then, he heard Zhang Xuanyu say, "In the legend, the Colorful Divine Light is a bridge to the sea god, but no one has ever succeeded."

"Puff!"

Han Fei suddenly remembered that He Xiaoyu had once mentioned this term to him. He had once shown He Xiaoyu how to make a rainbow, which stunned her and she called it Colorful Divine Light.

At this moment, seeing the surprised faces of Le Renkuang and Zhang Xuanyu, Han Fei said impatiently, "Shut up. It is called a rainbow, one of the most common natural phenomena." Xia Xiaochan was curious, "What is a rainbow?"

Han Fei said uninterestedly, "It is the light reflected from a certain angle when the sun shines into water mist. It has seven colors; red, orange, yellow, green, blue, and purple. If you look at it closely, it has actually more than these colors." Xia Xiaochan's eyes flickered. She looked at the rainbow and was a little puzzled. Was it really like what Han Fei said? Why did she feel it to be familiar? But soon, everyone looked away from the rainbow and turned their eyes to the ghost ship. "Is this the ghost ship?" Zhang Xuanyu swallowed and said, "Feifei, is this the ghost ship you asked me to find? How come it resembles the broken ship in the Abyssal Chasm?"

Le Renkuang smacked his mouth and said, "It seems a bit broken!"

Han Fei smiled and said, "This ship must have been transformed from an abandoned dragon boat. I don't know what technique was used to make this boat sail on the bottom of the sea."

Luo Xiaobai asked, "Huh? Why does this ship raise a flag?"

Han Fei smiled and said, "It is just... Oh, damn..."

Han Fei was smiling a second ago, but he was dumbfounded the next second. What did he see?! How did the pirate pattern that he drew on the abandoned dragon boat in the Abyssal Chasm become the flag of the ghost ship? Luo Xiaobai noticed his look and asked, "Han Fei, what's wrong with you?"

Han Fei quickly coughed and said, "I'm fine. I just suddenly thought of someone."

Han Fei's expression turned serious. Who was the person he met on that abandoned dragon boat at that time? He gave him a scroll, which was thrown into Forge the Universe which was still there now.

Han Fei quickly entered Forge the Universe and searched in it and quickly found the scroll in the mud pit next to the Big Red Trunk. Han Fei immediately moved this roll up to a more prominent place. Given the fact that the person that he met was so capable that he could even change the flag of the ghost ship, the scroll could not be simple.

At this moment, Han Fei was still in shock. If it wasn't for him seeing the ghost ship, he would have forgotten about the scroll. In all directions, black shadows appeared, which were fishing boats nearby coming in this direction when they heard the sound.

When Han Fei and the others landed on the boat, there was a lot of water under their feet. Crabs and small squid babies crawled on the deck. Seeing Han Fei and others, the little squids immediately spurted arrows of ink with a "puff".

Crack!

When Le Renkuang jumped on the boat, he seemed to be landing a bit too heavily, and accidentally left a hole through a piece of wood on the deck.

Le Renkuang was shocked and asked in astonishment, "Oh my god, is this ship really as good as you say?" Han Fei simply said, "Come on, let's get in." Han Fei picked up a black robe at the corner of the deck, then picked up a faceless mask from the cabin wall, and put it on his face, saying, "Put them on. Let's go in."

After a while, the five of them stood at the door, knocked, and after paying some mid-quality pearls, Han Fei once again entered the dark and humid ghost ship. Xia Xiaochan said to him through a voice transmission, There is the sound of water, and it is loud.

Han Fei replied, The middle part is hollow and seems to be directly connected to the bottom of the sea. I don't know how this thing works. Zhang Xuanyu looked around and said, "Nobody is here!"

Just after Zhang Xuanyu said so, someone spoke to Han Fei and the other four, "Hey, my friends, are you here to sell things or buy things? Would you like to trade with me? I have all kinds of stuff, including spiritual weapons, spiritual fruits, spiritual pills, and so on."

Le Renkuang curiously asked, "How are we going to trade? Barter? This is too casual."

Han Fei patted him and said, "There is a trading house!"

After that, Han Fei said to that person, “Bro, wait for the next wave of people! There are many people behind us.”

Seeing that Han Fei was quite familiar with the ghost ship, the man did not speak anymore, but quietly leaned on the railing. Along the way, there were stalls everywhere whose owners were all faceless, and mid-quality spiritual weapons and spiritual fruits were randomly placed on the ground.

And they even saw several faceless men were selling high-quality spiritual weapons, which were also put on the ground randomly.

Xia Xiaochan suddenly said, “I saw a pair of daggers.”

Han Fei sighed. “They are just high-quality spiritual weapons. Why do I need such low-grade weapons?!” The faceless stall owner was shocked by what Han Fei said. Who the hell is this guy? How can he be so arrogant? What’s so bad about high-quality daggers? These are already the top weapons in the level-three fishery, okay? Han Fei took the other four along and found a trading hall. The dragon boat had just emerged from the water, and there were not many people coming yet, but Han Fei had seen that more than a dozen people were already trading. As soon as they entered the trading hall, Xia Xiaochan and others were shocked.

Zhang Xuanyu said to Han Fei, “Feifei! Are you sure there are good things here?” Xia Xiaochan said, “Look at the wall. There is a lot of sales information hanging up.” Luo Xiaobai said calmly, “Let’s wait and see. Since Han Fei had been here before, let’s see how he trades.”

Han Fei went straight to the faceless staff and said, “I want to sell things.”

Immediately, the faceless man stood up and said, “OK, this way please.”

The faceless man was going to lead Han Fei and the other four to a table, but Han Fei said, “I have a lot of things to sell.” The staff member said lightly, “Only when the value of the things you are going to sell exceeds 100 million can you go to the exclusive negotiation hall. Sir, are you sure they can achieve such a large transaction volume?” Han Fei said lightly too, “Lead the way!” The faceless man paused and nodded slightly, but still reminded him, “Sir, please make sure that the transaction volume is sufficient, or else you will have to pay at least 10 million mid-quality pearls to compensate the shipowner for time loss.”

Han Fei: “???”

Han Fei was taken aback by this message. Time loss fee? 10 million mid-quality pearls? Are you f*cking kidding me? Han Fei pondered a little and said, “Okay! The four of them are with me.” The faceless man hesitated a little and then nodded, saying politely, “Please follow me.” Han Fei and the other four entered through a side door of the trading hall and then passed three doors in a row. Each door was painted with the pirate pattern that he drew for fun back then. Han Fei couldn’t help asking, “When did you change the pattern on your doors?”

The faceless man said calmly, “A few months ago, it was replaced.” Han Fei asked, “Who made the change?”

“Sir, your question is beyond the scope of my responsibility.” Han Fei curled his lips, but no one could see it.

At this moment, they walked into a tunnel, which was different from the secret tunnel that Han Fei used to walk. This tunnel was like a dark corridor, whose both sides were quite dry and not that humid.

Le Renkuang said, "Why do I feel that something is wrong?"

The Hexagon Starfish on the shoulders of Le Renkuang said, "There is no seal. I'm pretty sure of it."

In such an unfamiliar environment, they all felt a bit insecure. Even Han Fei felt a bit uneasy! If it hadn't been for seeing the pirate flag hung on the ghost ship, which gave him an inexplicable sense of familiarity, he would not dare to follow the faceless man in.

Squeak!

When the door opened, the faceless man said, "Enter, please."

As Han Fei entered, the wooden door behind him closed with a creak.

To be honest, Han Fei was not afraid. In fact, even if something similar to that on the dragon boat happened, and Luo Xiaobai's trump card did not work, he still had the Sky Dissecting Finger. Although it seems a bit wasteful to use the Sky Dissecting Finger here, Han Fei didn't mind using it if it could save his life.

In the darkness, a fire was lit.

In fact, there was no need for fire. Han Fei and the other four saw that in this huge room, all kinds of treasures were placed on the four walls. Xia Xiaochan said, "An ultra-quality dagger." Zhang Xuanyu secretly said, "A heaven-level high-quality combat skill." Le Renkuang exclaimed, "Oh my God, a secret technique for armorists." Even without their reminding, Han Fei also saw that the room was filled with all kinds of good stuff.

The weapons were all ultra-quality, so were the battle suits. The spiritual fruits all had guardian barriers around them and even the lowest combat skills here were above demon-level mid-quality, and many of them were heaven-level.

In addition, Han Fei also saw things like the amulet barrier, and some strange creatures that he had never seen before.

Of course, these were not what shocked him.

In the center of the house, there was a small round pond. In the center of the pool was a slender and beautiful mermaid, holding a sea mussel in her hand, which was spitting water. When he saw the mermaid, Han Fei's heart almost jumped to his throat. F*ck, is what I am seeing real?

Han Fei thought it was a sculpture, but a message appeared in his eyes.

<Name> Mermaid <Introduction> A sea monster species who can think, the opposite race of mankind, good at the mermaid way of fighting. Because of the different fighting methods they practice, their combat characteristics are different and cannot be interpreted.

<Status> Death

Everyone's eyes were attracted by this dead mermaid at this moment. Han Fei walked closer to take a look, only to find that this mermaid was actually not beautiful. Although she had grown a human face, it looked rather fierce. Besides, her bones were slightly protruding, which made her not as feminine as normal women.

Xia Xiaochan asked, "Is this mermaid evolved from the Inferior Man-Fish?"

Han Fei thought for a while and said, "Definitely not. The Inferior Man-Fish must have evolved from ordinary fish. But this mermaid has almost evolved into a human. Except that she has no legs, it can be said that she is not much different from humans." Xia Xiaochan stared at the mermaid for a long time and then slowly said, "If the bones on her face were not protruding so much, she would be rather pretty." Le Renkuang opened his eyes wide and asked, "Is this a mermaid?"

Zhang Xuanyu swallowed and said, "Can she be caught and taken as a spiritual beast?"

Everyone: "???"

Han Fei really wanted to kick Zhang Xuanyu away. To catch a mermaid as a spiritual beast? What do you want to do? Squeak! At this time, they heard a slightly hoarse voice saying, "Young man, calm down. You are just looking at a dead mermaid but you already want to catch her and take her as your spiritual beast? If you see a real mermaid, wouldn't you desire to become a sea monster?" They quickly turned around and saw a tall faceless man leaning on the door frame, watching this scene quietly. Han Fei frowned. When did this person come in? Han Fei smiled and asked, "Are you a senior trader of the dragon boat?"

The man chuckled eerily and said with his mouth, "Didn't you see me? Guess."

Han Fei's expression suddenly changed and he said, "Are you that person from the other day?" The faceless man chuckled and said, "Young man, you have a good memory! What do you think of the flag of the dragon boat now? Isn't it cool?" Han Fei bared his teeth and said, "You plagiarized my creativity." The faceless man said, "Young man, that's not true. How can you say I plagiarized your creativity? Didn't I give you something in return?" Han Fei thought to himself. Did this man mean that scroll? But he had not used the scroll yet! He had simply thought it was a piece of junk. Now he realized that it might be a lifesaver. Han Fei changed the topic, "I don't think you would trade that for my graffiti, right?" The faceless man smiled and said, "I was in a good mood that day, so I just threw something to you. Is it so strange?" After that, the faceless man raised his hands and said, "I heard that you are going to make a mega deal? Young people, if the value of your transaction is less than 100 million, you will be fined!" Han Fei kept his countenance and asked, "What kind of transaction? We don't need the things in this house."

The faceless man chuckled strangely and said, "It seems that you are here prepared! I guess that you have snatched a lot while on the Steps into the Sea and the Sea Grassland, so you should have some money now! If this is the case, I can give you some options." Luo Xiaobai said to the other four through voice transmission, Han Fei, how does he know us?

Han Fei responded, I forgot to tell you that the ghost ship is very good at collecting intelligence. I have no clue where they got all the intelligence! But I think that our identity had been exposed as soon as we came in. Zhang Xuanyu asked, Then why did you want to come?

Han Fei said casually, I was recognized by them last time. It's okay. The ghost ship is much more trustworthy than dragon boats. The faceless man laughed again. "Yes, the ghost ship is surely more trustworthy than dragon boats. Dragon Boats are nothing but a tool for the Thousand Star City clans to seize profits from the level-three fishery. If you have no background or status but still show off on dragon boats, they will certainly catch you."

"Oh!"

Xia Xiaochan held her dagger in shock.

Le Renkuang's face trembled slightly and he exclaimed, "He can hear our voice transmission?" The faceless man chuckled again and said, "What's the big deal of hearing your voice transmission? As long as your soul is strong enough, you can hear other people's voice transmissions. Okay, do you want to listen to what I can offer to you?"

Han Fei nodded and asked, "What are you thinking?"

The faceless man walked towards the mermaid pond, and Han Fei and the other four hurriedly stepped back.

As the faceless man patted the mermaid gently, what was flowing out of the sea mussel in the mermaid's hands was no longer ordinary sea water, but streams of green liquid. "Spirit Awakening Fluid?" They could not help but exclaim. Does the ghost ship also sell Spirit Awakening Fluid?

The faceless man chuckled and said, "Yes, it's Spirit Awakening Fluid. You have all used this! But do you know the true value of the Spirit Awakening Fluid?" Han Fei asked in astonishment, "Isn't the Spirit Awakening Fluid just used in the spirit awakening ceremony? Does it have any other value?" Le Renkuang said, "We've all soaked in this stuff! There doesn't seem to be anything special about this."

The faceless man sneered and said, "Nothing special? Do you know how much Spirit Awakening Fluid is used in a town every year?"

Han Fei asked, "How much?"

The faceless man said, "One town has eight villages under its jurisdiction. Among them, the amount of the Spirit Awakening Fluid used in a town is about 10,000 catties per year, and the total amount of the Spirit Awakening Fluid used in the eight villages is less than 5,000 catties. Everyone has to fight for it with their lives. Now, do you still think the Spirit Awakening Liquid is insignificant?"

"A total of only 5,000 catties for eight villages?" Han Fei was a little taken aback. He didn't notice it back then! He only remembered that the Spirit Awakening Fluid came out of the pool, but he did not know how much came out. Anyway, he remembered that the whole pool turned green at that time. Xia Xiaochan asked, "What's the use of the Spirit Awakening Fluid?" The faceless man slowly said, "Ordinary people can't increase their strength so quickly, but there are some geniuses who can increase their strength so quickly that they can even cross several realms a year. Do you know what this directly leads to?"

"What will it lead to?"

The faceless man scooped up a little bit of Spirit Awakening Fluid in his hand, stared at it for a while, and said, "The most direct result is that the growth rate of their spiritual beasts and their contractual spiritual beast can't keep up with the growth rate of them."

"Oh!"

Han Fei said in shock, "So do you mean that the Spirit Awakening Fluid can make spiritual beasts and contracted spiritual beasts grow more quickly?"

Xia Xiaochan asked, "How quick can it be?"

Luo Xiaobai was surprised. "Why didn't I know this?"

The faceless man sneered. "You have not even been to the Unknown Place. Of course, you didn't know it. In the level-one, level-two, and level-three fishery, what you try to gain is fighting experience, rather than relying on your spiritual beasts and contractual spiritual beasts to help you solve your enemies." Then the faceless man said again, "As for how quick it can be, of course, the lower the level, the faster the increase, while the higher the level, the slower the increase. It can be as short as one or two days or as slow as ten days or half a month. If your spiritual beast or contractual spiritual beasts have not been able to improve for a long time, it is normal even if they make a breakthrough on the very day. Besides, if they have reached level 39, the Spirit Awakening Fluid can even help them complete the last step and enter level 40."

"Wow!"

Zhang Xuanyu was astonished. "So fast? How can it be possible?"

Le Renkuang said, "In this case, wouldn't we be invincible by just soaking in the Spirit Awakening Fluid?"

"In your dreams!"

The faceless man sneered again. "Do you think the Spirit Awakening Fluid will be so cheap? 300,000 mid-quality pearls per catty. No bargain."

"How much?"

Han Fei widened his eyes in shock and asked, "A catty of the Spirit Awakening Fluid is even more expensive than a mid-quality spiritual weapon?" The price of a mid-quality spiritual weapon would fall between 400,000 and 600,000 mid-quality pearls on dragon boats. Although the price would be halved on the ghost ship, it was still around 200,000 to 300,000. The faceless man said lightly, "In addition to being used to boost the growth of spiritual beasts and contractual spiritual beasts, the Spirit Awakening Fluid can also be absorbed by humans. As long as a human absorbs enough of it, it can even improve his spiritual heritage, increase the power of his soul, and enhance his physique... Anyway, it has a lot of benefits. You can find out slowly by yourself."

Han Fei and the other four looked at each other in astonishment. It was the first time they knew that the Spirit Awakening Fluid had such benefits.

Han Fei immediately asked, "For a level-30 spiritual beast, how much Spirit Awakening Fluid does it need to level up?" The faceless man smiled and said, "It will only be a few catties, or even less." Luo Xiaobai also asked, "What about a level-39 spiritual beast?"

The faceless man pondered for a moment and answered, "It may cost a few hundred catties or even a thousand catties."

Han Fei's heart was pounding hard. It was simply impossible for him to resist the temptation! He couldn't go to the Soul Ocean now, so he couldn't find a way to quickly improve the levels of Little Black and Little White.

Han Fei believed that if Little Black reached level 39, or level 40, he would be able to devour the entire level-three fishery with one mouth.

"300,000 per catty. If I want to buy 10,000 catties, then it will be 3 billion?"

Han Fei was a bit sad. When they got on the ghost ship, he still felt that they had money to burn. But now, it seemed that they could not even afford 10,000 catties of Spirit Awakening Fluid.

Han Fei resisted the impulse and continued to ask, "Do you have any other recommendations?" The faceless man chuckled and said, "Yes! Would you like some Soul Crystals? 400,000 mid-quality pearls per piece. It's damn cheap, isn't it?"

"Puff!"

Xia Xiaochan said immediately, "But we only spent 30,000 mid-quality pearls to buy a Soul Crystal on the Steps into the Sea." The faceless man laughed and said, "The problem is that because of you two, the Steps into the Sea no longer produce Soul Crystals now! Besides, you were half cheating and half buying, right? Ordinary people don't know what Soul Crystals are, so they were tricked by you. On the ghost ship, each piece costs 400,000 mid-quality pearls. No bargain." Han Fei had a hunch that he would go bankrupt today.

When the faceless man mentioned Soul Crystals, Han Fei knew that he would definitely buy a lot of them. Not to mention how much Xia Xiaochan and the other three needed, he alone would buy a few hundred of them.

Now, his spiritual strength had just broken 1001 points, which meant that it could continue to grow. But it grew too slowly if he solely relied on his cultivation, so he would definitely not let go of Soul Crystals.

However, Han Fei asked again, "Anything else?"

The faceless man let out a weird laugh and answered, "Yes! There is also the Immortal Seal of a peak-level Hanging Fisher and the Peak Strike of a junior Hidden Fisher. The prices are not expensive, a 100 million mid-quality pearl each. "Oh my god..."

Zhang Xuanyu exclaimed, "Immortal Seal? Do you mean the kind of Immortal Seal implanted in the children of the big clans from the Thousand Star City?"

Le Renkuang was dumbfounded. "Wow! Do you even sell that?"

Xia Xiaochan's eyes were glowing. It was precisely because of the Immortal Seal that the children of the big clans in the Thousand Star City were on a rampage in the level-three fishery. She didn't expect that they even sold this!

The faceless man smiled and said, "As long as you want, the things that the ghost ship can provide will always exceed your expectations. So, what are you going to buy?" Luo Xiaobai questioned, "The immortal Seal is a kind of seal implanted by strong cultivators inside their offspring. Even if you can implant it, how can we trust you? The faceless man burst out into laughter. "Who said that the Immortal Seal must be placed in the body? This thing is like the amulet barrier. As long as it is needed, it can also be sealed. When you want to use it, you just need to crush it, and it will achieve the same effect. The big clans place this in their offspring because they do not want the younger generation to take the initiative to use it, which will stop them from gaining fighting experience." Han Fei asked, "Why is the Immortal Seal of a peak-level Hanging Fisher and the Peak Strike of a junior Hidden Fisher the same price? And what is the Peak Strike? Is it an all-out strike of a junior Hidden Fisher?"

The faceless man nodded and said, "You understand it right. They are at the same price because the Immortal Seal can carry multiple attacks. And even if you are killed, it will save you once. As for the Peak Strike of a junior Hidden Fisher, it seems powerful, but it may not be able to kill a peak-level Hanging Fisher."

Han Fei exchanged a glance with the others. Now they became more curious about the person in front of them. All these things he mentioned were not something that money could be exchanged for. However, they were for sale on the ghost ship. Xia Xiaochan suddenly asked, "Are there any Sea Quelling Bizarre Treasures?" The faceless man glanced at Xia Xiaochan and said, "Girl, you think too much! If there is a Sea Quelling Bizarre Treasure, do you think you can afford it? Let alone Sea Quelling Bizarre Treasures, you may not even be able to afford a Divine Weapon." Luo Xiaobai asked, "Is there any Divine Weapon for sale here?"

The faceless man laughed out loud and said, "Yes! The price of a one-time expendable Divine Weapon is about 200 million to 300 million. As for multiple-time expendable Divine Weapons, according to the specific number of times they can be used, their prices vary but are at least 500 million. Non-expendable low-quality Divine Weapons charge at least 1 billion. Those you want usually cost 2 billion. Do you want to have a look at some?"

Han Fei waved his hands hard and said awkwardly, "No, no!"

Han Fei was stunned. Damn it! He only had a total of 1.1 billion mid-quality pearls, which would be used up if he bought a Divine Weapon. That would be a waste of money! Han Fei said, "We need to discuss this for a while."

The faceless man smiled and said, "Please, but don't make me wait long!"

Seeing that the faceless man didn't mean to leave, Han Fei asked Master Hexagon to set up a sound insulation array.

In the array.

Han Fei asked, "Master Hexagon, can he hear us?"

The Hexagon Starfish's big eyes kept rolling. "I don't know! I don't know if this person is strong or not." Luo Xiaobai shook her head slightly and said, "Even if he can hear us, we can't do anything about it. He has already told us the prices. The only thing we can discuss now is how much to buy." Le Renkuang said eagerly, "The Immortal Seal is a must-buy! This is like a second life. If we don't buy it, wouldn't it be a

loss?" Luo Xiaobai shook her head slightly and said, "I have already got one. You can buy one for defense." The others were speechless. The children from the big clan swere really different. They could get these precious things for free. Zhang Xuanyu complained, "Old Bai is too stingy, isn't he? Why didn't he give each of us an Immortal Seal?"

Le Renkuang and Xia Xiaochan both nodded, feeling that the old man must have a lot of good things, which he didn't give them. Xia Xiaochan turned her eyes to Han Fei, asking, "What do you think?"

Han Fei thought for a while and said, "Let's buy four Immortal Seals, plus a Peak Strike just in case."

Zhang Xuanyu clicked his tongue and exclaimed, "It will be 500 million! Then we will be out of money!"

Han Fei said, "We must buy the Spirit Awakening Fluid. We have a total of 1,822 mid-quality spiritual weapons and battlesuits, all of which will be used to exchange the Spirit Awakening Fluid."

"Wow!"

Le Renkuang took a deep breath. "How much are they worth? I'm afraid it will be five or six billion, right?"

Han Fei narrowed his eyes and said, "I want 500 Soul Crystals. We have 3608 high-quality materials in total, and nearly a thousand combat skills. They should be able to be exchanged for a lot of Soul Crystals."

"Gulp!"

Zhang Xuanyu stumbled and shouted, "I'm a little dizzy. Then what will be left for us?" Xia Xiaochan said, "I also want some more Soul Crystals, at least 100 pieces." Le Renkuang scratched his belly and asked, "Is it possible for us to buy on credit?" This time it was really going to be a fucking mega deal. Le Renkuang, Zhang Xuanyu, and Luo Xiaobai did not rob much. Although they also explored some secret realms, they definitely contributed much less than Han Fei and Xia Xiaochan did.

Besides, theoretically, Xia Xiaochan might have contributed a little less than Han Fei, but it was not much. At this moment, it was up to the two of them whether to buy for the other three. Han Fei thought for a while and said, "Humph! You guys should dig more secret realms later! Let's buy 100 Soul Crystals for each of you this time." At this time, Xia Xiaochan said suddenly, "I think that we should buy as much Spirit Awakening Fluid as we can. If it is really so magical, I am afraid we may need a lot of it."

The Hexagon Starfish suddenly said, "Can I..."

Han Fei immediately interrupted him, "No, you can't."

The Hexagon Starfish's big eyes kept rolling. "But I worked so hard for you..." The corner of Han Fei's mouth curled up. "Yes, but you blackmailed a lot of spiritual energy out of me. Besides, I have given you so many golden things, right?" The Hexagon Starfish simply said, "I have been working so hard..." Han Fei said impatiently, "Fine, I will give you some Soul Crystals that I don't need."

The Hexagon Starfish asked suspiciously, "Can there be any Soul Crystal that you don't need?"

Han Fei smiled and said, "Maybe!" With that, they went out of the soundproof array, and the faceless man was squinting at them. Han Fei really didn't want to see this man now. All the money and treasures they risked their lives to collect would have to be given to this man!

The faceless man asked gently, "Have you decided yet?"

Han Fei said, "Didn't you hear?" The faceless man shrugged and said lightly, "No, I didn't hear! I'm not interested in eavesdropping." Han Fei was not sure whether this person was telling the truth or not. He directly threw out hundreds of Sea Swallowing Seashells and said, "These are full of mid-quality spiritual weapons and mid-quality battle suits. We want to exchange them for the Spirit Awakening Fluid." Then all those Sea Swallowing Seashells were floating beside the faceless man. After half an hour or so, the faceless man slowly said, "It seems that you have indeed robbed a lot of people. There are 1802 mid-quality spiritual weapons in total, of which there are many standard weapons used by the children of the big clans in the Thousand Star City. Not bad. I can give you 1,800 catties of Spirit Awakening Fluid." Han Fei gritted his teeth and felt as if his heart was dripping blood! When he slowly calmed down, he said with difficulty, "I want it now."

The faceless man gently tapped his finger in the air and a Sea Swallowing Seashell opened, and then streams of Spirit Awakening Fluid flowed into the Sea Swallowing Seashell. It took only about 10 minutes for 1,800 catties of Spirit Awakening Fluid to be given to Han Fei. Han Fei threw dozens of Sea Swallowing Seashells over again and said, "These have high-quality materials in them, and also thousands of combat skills, including many demon-level combat skills. We want to trade them for Soul Crystals." The faceless man lightly tapped his finger in the air for a while and smiled, saying, "The high-quality materials can be exchanged for 900 Soul Crystals. Among the combat skills, we've already got 688 of them, so we don't need them. There are only 278 combat skills left, which can be exchanged for 362 Soul Crystals!"

Just as the faceless man was about to take out the Soul Crystal, Luo Xiaobai suddenly said, "Wait a minute!"

The faceless man turned his eyes to her. "Huh?"

Luo Xiaobai said to the other four through a voice transmission, "Let's trade them for more Spirit Awakening Fluid. Han Fei knew since Luo Xiaobai said so, there must be a reason, so he nodded and said, "We want to trade these combat skills for the Spirit Awakening Fluid."

The faceless man said, "OK, if you trade them for the Spirit Awakening Fluid, you can get 465 catties of Spirit Awakening Fluid." Han Fei bared his teeth and said, "You won't accept the combat skills that you already have?"

The faceless man chuckled in a scary way. "We can accept them, but the price will be very cheap. If you sell them separately in dragon boats, they would be worth a lot of money." Of course, Han Fei would not sell them in dragon boats. These things were all snatched from others. What if he got caught on the dragon boats? Han Fei asked, "Can the ghost ship be commissioned to sell these combat skills?"

The faceless man smiled and said, "It's okay. It's up to you. You can continue trading with us with the money you get from selling them."

Han Fei gritted his teeth and said, "Let's continue trading. We want four Immortal Seals and a Peak Strike of a junior Hidden Fisher."

Han Fei threw out hundreds of Sea Swallowing Seashells at once and said, "There are all high-quality spiritual weapons and high-quality battle suits in them, and the rest are all mid-quality pearls."

The faceless man counted for a while, and finally said, "Young man, you are quite rich!" Han Fei curled his lips. "Don't think about robbing us."

"Haha! Our ghost ship operates in good faith and never deceives our customers. As long as you pay enough money, I will give you whatever you want." The faceless man waved his hand and four cyan ancient jade pieces floated in front of Han Fei, plus one red ancient jade. Before grasping them, Han Fei could feel the power emanating from these pieces of ancient jade. Zhang Xuanyu and Le Renkuang were swallowing nervously. Oh, I can't believe we just spent so much money! So damn much money! Le Renkuang said in a small voice, "If the president knows what we did, I'm afraid he would tear us apart!" Han Fei curled his lips and snorted. "It's his fault. He is too stingy! If he gave each of us an Immortal Seal to begin with, all the money would have been his."

Chapter 533 Spirit Awakening Fluid

At this moment, Han Fei had basically spent all the things he didn't need, and there were still more than 10,000 Flash Stones left, which were worthless. Han Fei exchanged them for 8,000 spiritual fruits. Unfortunately, there were still 8,200 Flash Stones left, and the spiritual fruits on the ghost ship had almost been bought up by Han Fei except for the particularly expensive ones. Considering that they hadn't gotten enough Spirit Awakening Fluid for everyone, Han Fei used 300 million mid-quality pearls and 3,200 Flash Stones for 1,050 more catties of Spirit Awakening Fluid. At this point, this transaction was completely over. If the total consumption was converted into mid-quality pearls, it was probably more than 2 billion, an astronomical figure. However, the gains were also huge, including:

4 Immortal Seals, a Peak Strike of a junior Hidden Fisher.

3315 catties of Spirit Awakening Fluid.

900 Soul Crystals. Yes, 2 billion mid-quality pearls were traded for these three things, which almost bankrupted Han Fei.

And what Han Fei had left was:

10080 ultra-quality pearls. 300,000 high-quality pearls. 500 million mid-quality pearls.

5000 Flash Stones.

688 combat skills. 21,068 spiritual fruits, of which about two-thirds were of the spiritual type and only one-third were of the energy type. More than 90,000 catties of spiritual spring. After the transaction was completed, the faceless man chuckled and said, "If you are going to make trouble for the dragon boats, I wish you good luck. Oh, yes, if you want to touch the dragon boats, I can give you a suggestion for free." Han Fei waved his hand and said, "No, who dares to touch the dragon boats? There are only five of us. How can we cause any trouble to the dragon boats?" The faceless man smiled. "Really? Then why did you buy the Immortal Seals and the Peak Strike?"

Han Fei smiled. "Do you have any good suggestions?" The faceless man handed over a jade slip and said, "If you succeed in the robbery, crush this jade slip and summon the ghost ship out. Don't forget to trade with me again at that time! I still have a lot of treasures here, as long as you can afford the price." Han Fei bared his teeth at him speechlessly. Trade with him again?! Come on, this deal has almost bankrupted me! If I trade with you again, how many more Fish Dragon Restaurants will I have to build?

As for the Fish Dragons, Han Fei estimated that after a year of development, their assets should be at least several million or even tens of millions.

But what good would that do? Any random item he had now would be able to buy the entire Fish Dragons.

Han Fei couldn't help exclaiming, "In this world, small businesses can't make big money!" When Han Fei and the others left the internal trading hall, they walked through several secret doors, and when they reappeared, they had already arrived inside the normal cabin. Zhang Xuanyu was shocked. "Feifei! Are we still going to sell things?" Le Renkuang added, "Those combat skills can be sold in this ship!" Luo Xiaobai shook her head. "We'd better not. Now we don't lack anything. I always thought the ghost ship was weird. There are too many good things here. How can he ensure that he will not be swallowed by the dragon boats?"

"Because he is stronger."

Luo Xiaobai shook her head. "No matter how strong he is, how can he be stronger than a hundred dragon boats put together?" Han Fei smiled and said, "Dragon boats are running at sea, while this ship is running under the sea, so dragon boats usually can't find him! But I also think we can leave. We've spent so much money. Why should we still care about the little money we'll get from selling those combat skills?"

At this moment, Han Fei was the boss. After all, he earned most of the money.

Zhang Xuanyu and Le Renkuang just happily waited for him to divide the spoils! Han Fei and the others hurriedly left the ghost ship. They really felt distressed every second they stayed here. Although they did get a lot of good things, these were exchanged with massive resources! When Han Fei and the others flew away from the dragon boat, they didn't know that in a small hole in the hull of the ghost ship, a pair of eyes were staring at the direction they were leaving. "Oh, these damn kids, they almost took all my good stuff. I can't believe it! I must raise the price next time."

Ten thousand kilometers away.

Five people and one starfish sat around in the cabin.

Han Fei handed each of the other four an Immortal Seal. "I don't know if the seals work. Anyway, one for each person, and I'll keep this red ancient jade." Zhang Xuanyu and Le Renkuang hurriedly nodded their heads and Xia Xiaochan casually stuffed the jade into her Sea Swallowing Seashell without taking it seriously. Han Fei continued, "As for the Soul Crystals, each of you three will have 100 pieces. Increase your perception range to 500 meters first. How much you can increase later depends on your luck!"

Then he thought for a while and gave 200 Soul Crystals to Xia Xiaochan. "I'll see if I can use the remaining 400. If they are useless to me, I will give them to you."

Xia Xiaochan looked at Han Fei with shining eyes. "Can your perception range still be increased?" Han Fei smiled. "I'll try."

Zhang Xuanyu said in surprise, "What do you mean by 'still'? How large is his perception range?" Xia Xiaochan said enviously, "I guess it must be 5000 meters now!"

Thud!

Bang! Le Renkuang sank to the floor, and Zhang Xuanyu jumped up and bumped his head on the top of the boat.

Even Luo Xiaobai's body shook slightly. 5000 meters? Are you kidding? Han Fei coughed and said, "Don't get excited. Divide things first." The Hexagon Starfish gently pulled on Han Fei's shoulder and said, "I have been working so hard for you."

Han Fei said impatiently, "I know you have worked hard. OK... I will give you 10 from my share. Just absorb them first." The Hexagon Starfish tentacles rolled and 10 Soul Crystals were immediately drawn into his mouth and disappeared in the blink of an eye. Then it was finally time to distribute the Spirit Awakening Fluid. At this moment, Han Fei didn't give everyone an equal share immediately but summoned Nine Tails out to try the effect of the Spirit Awakening Fluid.

Since leaving the Sea Grassland, Nine Tails had reached level 35, which was because Han Fei often summoned him. At present, he was of the highest level among Han Fei's pets.

Besides, Han Fei felt that the more he used Nine Tails, the stronger this guy became. Now under Nine Tails' blank gaze, he threw him 15 catties of Spirit Awakening Fluid. The Spirit Awakening Fluid was too expensive and Han Fei now only had 3,315 catties in total, so he couldn't just throw him 100 catties at once. His other spiritual beasts also needed to use it.

Nine Tails was at a loss at first, but when he smelled the spirit of Spirit Awakening Fluid, he immediately opened his mouth and sucked all the Spirit Awakening Fluid into his stomach.

Then, everyone saw Nine-Tails' body start to emit green light. Zhang Xuanyu gave a startled cry, "Huh! It seems to be different from the spirit awakening ceremony! We wouldn't glow back then." Le Renkuang's cheeks trembled and he said, "At that time, thousands of people shared the same pond, in which there were only a few hundred catties of Spirit Awakening Fluid. It was not enough for all of us."

But Nine Tails suddenly became motionless. Han Fei scratched his head and said, "Wait, it may be that Nine Tails's level is a bit high. Let me summon Little Gold."

Little Gold's growth rate was comparable to that of Little Black and Little White, and now it was still of level 32. After Little Gold came out, he rubbed his head against Han Fei's body, and Han Fei grabbed 10 catties of Spirit Awakening Fluid and threw it into his mouth! Then everyone was shocked. With a boom, the Spirit Awakening Fluid seemed to explode in Little Gold's body. After only less than ten minutes, a golden light flashed on Little Gold's body and he got a level-up. Zhang Xuanyu exclaimed, "Oh my god. Little Gold got a level-up only with 10 catties of this stuff?!" Han Fei grinned.

Good value for money! If it weren't for the Spirit Awakening Fluid, how long would it take for Little Gold to have a level-up? Immediately, Han Fei threw 100 catties of Spirit Awakening Fluid to each of the four and said, "You try it yourselves first. Let's rest for a few days and leave when we use all the Spirit Awakening Fluid." If the village leader of Heavenly Water Village was here, he might have vomited blood seeing this. My entire village can only use less than 1,000 catty of Spirit Awakening Fluid in a year. But the five of you have used this much! Is it fair?!

Zhang Xuanyu and the others took their shares of the Spirit Awakening Fluid, and each controlled a fishing boat to stay several kilometers away. Only Xia Xiaochan sat on the deck and summoned her Shadow Shrimp and Red Fire Tricky Lobster.

Seeing that Xia Xiaochan had not left, Han Fei couldn't help asking, "Why didn't you catch a second contractual spiritual beast?"

Xia Xiaochan said while feeding her pets the Spirit Awakening Fluid. "I haven't met what I want. I don't want this Red Fire Tricky Lobster anymore. Apart from being able to warm me and increase my speed, there is nothing special about it."

Han Fei clicked his tongue and said, "Then don't look for it. When you go to the Unknown Place in the future, there will be many powerful creatures there."

Xia Xiaochan suddenly asked, "Han Fei, do you have two spiritual beasts?" Han Fei shivered slightly when he was asked this question. His face turned stiff and he said, "Why do you say that? I only have Little White!" Xia Xiaochan squinted her eyes and said, "You must have two spiritual beasts. I have been paying attention for a long time. I had noticed that as early as when we were in the level-two fishery. I finally confirmed it when we were on the Sea Grassland a few days ago. What is it? Is it also a fish?"

Han Fei sat on the deck. "How did you find out?"

Xia Xiaochan thought for a while and said, "The big starfish does not have the ability of stealth. But when in combat, I often find that the enemy is making a mistake, more than once. Also, last time when we were fighting the Soul-Attracting Jellyfish, I thought it was a combat skill, but the more I thought about it, the more I felt it was strange. You must have a spiritual beast that can be invisible!"

Since the others were not around, Han Fei simply confessed, "It's a Spirit Swallowing Fish like Little White. Only I can see it." Xia Xiaochan's eyes widened suddenly. "Are the two a couple?" Han Fei was dumbfounded. "No, they are not a couple. Little Black and Little White are like a whole. Little Black eats and Little White breathes spiritual energy. That's it." Xia Xiaochan's eyes lit up. "Can I touch it?"

Chapter 534 Poison King

Han Fei hesitated. "All right!" With a flash between his eyebrows, Little Black and Little White appeared, and Han Fei grabbed Little Black and said, "Come on, let your mother touch you."

Xia Xiaochan glared at Han Fei and then touched in the air. When she felt something slippery, she was shocked. "Oh, it's true! Although I'm a hunter, I can't feel it at all." Little Black didn't seem to like being touched, so he opened his mouth and wanted to bite. Han Fei quickly said, "No biting." Xia Xiaochan already felt the sharp teeth touch her skin, so she quickly retracted her hand. Then she put it under her nose and smelled. "Huh! There is no smell."

This was also the characteristic of Little Black. Not only was his body invisible, but also he had almost no sense of existence in the sea when swimming, including in the air. This was why it was not easy for others to find him.

Han Fei said, "Little Black's existence is a secret. Don't tell others."

“OK!”

Xia Xiaochan nodded. “So, you also have two spiritual beasts!”

Han Fei thought for a while. In terms of number, these were indeed two, so he nodded again. “Yes!”

“Bo!”

Xia Xiaochan suddenly kissed Han Fei’s face, then jumped to the surface of the sea and ran away. Han Fei touched his face with a dazed expression. Huh? What’s wrong with her? Why did she kiss me suddenly?

Xia Xiaochan was in a very good mood. It turned out that she was not the only one who possessed two spiritual beasts.

But Han Fei was not in the mood to fall in love at the moment. He immediately took out 10 catties of Spirit Awakening Fluid and threw it into Little Black’s mouth.

This time the speed was even faster, and it only took three minutes of time, and with a flash of light on Little Black and Little White and then they leveled up to level 32.

Then he fed them another 10 catties, but there was no response.

Another 10 catties, still no response.

After feeding them 5 times in a row, he saw Little Black and Little White level up again, reaching level 33.

Han Fei couldn’t help taking a breath. The effect of the Spirit Awakening Fluid was even better than what the faceless man had told him. At this moment, Little Black and Little White were at the same level as Little Gold. Three days later, Nine Tails had reached level 37, Little Gold level 35, and Little Black and Little White level 36. Little Fatty was already of level 38, so Han Fei didn’t give him any Spirit Awakening Fluid.

In just three days, Han Fei had spent about 300 catties of Spirit Awakening Fluid on Nine Tails, 200 catties on Little Gold, and 500 catties on Little Black and Little White.

As for the Soul Crystals, Han Fei overestimated his room for growth.

Only when it came to the 25th piece of the God Scaring Painting, the Soul Crystals had already become useless to him. Besides, starting from the 21st piece, Han Fei had to consume 50 Soul Crystals for each piece, which meant that a Soul Crystal could enlarge his perception range by only 10 meters. Fortunately, Han Fei’s perception range at this moment had reached 9999 meters, which had doubled.

Han Fei knew that he reached the bottleneck again, and his spiritual power had reached 1299. Han Fei felt that his mind was a lot clearer. He didn’t know if it was an illusion but several times, he felt that his eyes had actually penetrated the seawater.

At this moment, Han Fei finally realized the benefits of the Spirit Awakening Fluid. If he didn’t use it, it would take at least two or three years for Little Gold to reach level 35, and for Nine Tails to reach level 37 or 38.

And he didn’t know how long it would take for Little Black and Little White to reach level 36.

But the Spirit Awakening Fluid shortened the course of several years to just three days, which made Han Fei utterly excited. What if he had ten thousand catties of Spirit Awakening Fluid? Besides, the faceless man said that the Spirit Awakening Fluid also worked on humans, but Han Fei thought that he could improve his spiritual heritage through cultivation, so he didn't quite need it. In addition, the Spirit Awakening Fluid was really scarce, so he wanted to reserve them for his pets.

"It seems that I'll have to work harder to make money! If I can rob a dragon boat... Tsk..."

Of course, this deal was definitely a loss in the eyes of many people. After all, it would only take a few years. All they needed to do was keep cultivating and feeding their pets. Then their contractual spiritual beasts and spiritual beasts would grow. Why bother to spend money? But Han Fei didn't have so much time! His enemy, the dragon boats, was close in front of him, and time was precious for him.

Unlike Han Fei, none of the others used the Spirit Awakening Fluid to cultivate their contractual spiritual beasts but instead threw all the Spiritual Awakening Liquid to their spiritual beasts. Especially Luo Xiaobai, her Blue Cannibal Flower had shown signs of breaking through to level 40. How many days had it been? Just a few days ago, the Blue Cannibal Flower had reached level 39, and now it seemed to be going to have a breakthrough again at any time. Xia Xiaochan's Shadow Shrimp had reached level 37, but she didn't feed the Giant Arowana. In her words, the Giant Arowana was too strong to need such a thing.

Zhang Xuanyu's Bloodthirsty Shark had reached level 37. Due to its special physique, Le Renkuang's Spiritual Clam had reached level 38, skipping three levels in a row. So far, all the Spirit Awakening Fluid that had cost them nearly 800 million had been used up. Luo Xiaobai said, "When I go back, I will find out how to obtain the Spirit Awakening Fluid. This time we got too little Spirit Awakening Fluid. If we can have enough of it, I think our strength can be doubled."

Zhang Xuanyu said excitedly, "Yes, too much money was spent. We'd better find it ourselves." Han Fei didn't think so though. "Isn't our purpose of grabbing more resources improving our strength? This is why the strong get stronger." Luo Xiaobai nodded slightly. "We can't just use your resources. We shall count on ourselves in the future. Otherwise, if you had used all those resources alone, you would have become stronger now." Han Fei grinned and said, "Well, I certainly don't give you these things for free!"

Le Renkuang asked cautiously, "Do you want us to join you to rob the dragon boats?" They had already guessed Han Fei's plan, but they just didn't ask him. At this moment, Zhang Xuanyu couldn't help but say, "Feifei! Can you still find the dragon boat that chased you down? Or do we just find a random one and rob it?"

Han Fei glanced at Zhang Xuanyu. "Of course I'll find that dragon boat from before. I have a big grudge against them and I must get even with the Hanging Fisher on that boat."

Everyone thought that Han Fei was talking about the fact that he was almost killed by the people on the dragon boat and those from the Sun Family. In fact, only Han Fei knew what the big grudge was. He could never forget how that poor innocent girl was killed because of him. This was his psychological shadow, so no matter what, he must avenge her.

A month later.

The news had gone around the dragon boats. According to the news, the Wind God Boat was wandering around the level-three fishery. Every day, someone saw the Wind God Boat that, like a bolt of lightning, drew a beautiful red streamline in the sea.

On the top of a certain dragon boat.

A Hanging Fisher was holding a fishing rod in his hand, with one hand supporting his chin while fishing in boredom.

Behind the Hanging Fisher, a man in black stood quietly. "My lord, if I've guessed right, Han Fei and the others should be coming for us." "Um..."

The Hanging Fisher snorted carelessly and then said in a lazy voice, "I didn't kill him on the spot. I should have known that he would come back to retaliate. From his experience in the level-three fishery, he is a person who will even seek revenge for the smallest grievance." The black-robed man asked, "My lord, shall we secretly deploy manpower to attack him?" The Hanging Fisher sneered and said, "Isn't it said that he has a disguise technique? How can you find him?"

The black-robed man shrugged. "My lord, this guy seems to have many unusual opportunities. Most of the disciples of the seven major sects and the children of the big clans in the Thousand Star City have suffered a great loss because of him. Although you're very strong, I'm afraid that the five of them..." "It's okay."

The Hanging Fisher gently waved his hand and said, "They are only five Dangling Fishers. No matter how many opportunities they have, is it possible for them to kill me? Let's wait for the fish to take the bait!" The black-robed man still wanted to say something but swallowed in his stomach in the end. He was cursing secretly in his heart. Of course, you don't f*cking care! But I was the one who chased him down back then! I'll definitely be his first target! Can't you think about me, you old bastard?!

The black-robed man thought for quite a while and felt that he could no longer stay on this dragon boat, at least not in the ghost market. He was determined to leave the dragon boat secretly, then teleport to a remote town, and then find a village to live in seclusion. After three or five years, in this cruel level-three fishery, no one would remember him.

Half an hour later...

Outside the ghost market of the dragon boat, a big man walked into the dark and dirty floor three. This man had a square face and seemed to be an intermediate Dangling Fisher and his spiritual energy was not very stable. He had poured a lot of spiritual energy into a scapegoat of his just now. "Heh! You are not afraid of their revenge, I am. I am here to make money not to die!" This person was piercing his own face with many small needles. Since Han Fei made a name in the Sea Grassland, he had been looking for a disguise technique, and now, it came in handy. Squeak! He angrily shouted, "This is my room. I live alone." "Oh? Really? Isn't it said that all the rooms on level three are available?"

The man sneered. "I snatched it. It's none of your f*cking business."

However, in the next second, his face was full of horror.

"Han, Han Fei?"

Yes, Han Fei removed the Thousand Faces Technique and showed his true face to this person. Han Fei smiled lightly. "Are you going to run? You seem to be well prepared, but why do you think you can run out of my palm now?"

This man looked horrified. "Han Fei, this is a dragon boat. If you dare to mess around here, you will definitely not get away." Han Fei sneered and said, "You don't have to worry about me. A life for a life. When I asked you to spare the life of that girl, you refused. From that moment on, you were already dead." The man said in a panic, "Han Fei, this was the order of Master Hanging Fisher. It has nothing to do with me. Let me go. I can give you my Sea Swallowing Seashell!"

"Ha, haha... Sea Swallowing Seashell? I won't even bother to pick it up when it falls on the ground. The reason I am still chatting with you here is..."

As he spoke, the man suddenly saw a flash of light. Although he had been prepared, he was still a step slower.

BAM!

A figure smashed through more than a dozen houses and fell heavily to the ground, several teeth broken and nose bleeding.

Han Fei looked at the figure in the dark with a grin. "Get a taste of Poison King. I will let you go if you can survive it."

Just now, the man felt something enter his stomach along his throat. His first reaction was to change back to the black robe and quickly go to the Hanging Fisher. After only three minutes, he ran to the level one deck.

"Puff..."

"Ahhh..."

In an instant, the black-robed man's stomach was churning violently, and he threw up like hell. Besides that, his belly seemed to explode, and he began to have diarrhea.

Chapter 535 Target the Dragon Boat

After Han Fei stuffed Poison King into the black-robed man's mouth, the first thing he did was to not follow up, but to crush a Flash Stone. He didn't think that the black-robed man could slip away silently under the nose of the Hanging Fisher, and he even felt that the Hanging Fisher just took him as bait.

In fact, when Han Fei and the other four were blatantly looking for the dragon boat, the other party must have already known their intentions.

Just as Han Fei expected, when he crushed the Flash Stone, his heart suddenly pounded hard. He should have been noticed.

The place where Han Fei appeared was at the bottom of the dragon boat, where the contractual spiritual beasts were raised.

When Han Fei appeared, he happened to meet a guard on the dragon boat. The man was startled by the sudden appearance of Han Fei, and just as he was about to shout, a fist hit his stomach.

This person did not shout out. In the air, there were octopus tentacles that directly buckled him. After knocking this man out, Han Fei dragged him into a corner, changed into his clothes, and pretended to be him.

After doing all this, Han Fei couldn't help admiring himself. Everything happened in a flash and no one even noticed it.

As soon as Han Fei walked out of the corner, he ran into a ferocious-looking man. The man roared as soon he saw Han Fei, "Liu Xiaolu, what are you f*cking doing here? I asked you to inspect the farm. Are you slacking off here?" Han Fei hurriedly said, "I'm going now. I'm going now."

The man didn't doubt it. He just snorted. "After the inspection, hurry to pick up the guests. A big customer has just arrived. He wants to buy some exotic creatures as his contractual spiritual beasts. Take care of him carefully. Recommend that mutant Red-Haired Big-Mouthed Crab to him. You know how to tell him the price, right?" Han Fei secretly rolled his eyes impatiently. Whatever, I'm leaving now. When he was about to leave, he was pulled by the man. He shouted, "Hey, where are you going? You idiot, the Red-Haired Big-Mouthed Crab is over there."

After a moment.

Han Fei was looking at a Red-Haired Big-Mouthed Crab in a pool on a wooden bridge 30 meters above the pool, muttering, "Brother Crab, sorry, for your freedom, I think you'd be a better sacrifice."

Then he randomly dripped four or five drops of Poison King into the pool.

The entire floor was breeding areas, only some of the creatures were kept together, and most of the creatures were kept alone, so the pools were separated by layers.

Han Fei didn't take the big man's words seriously at all. He walked and dripped the Poison King along the way.

After walking three or five kilometers, someone called out, "Hey! Isn't that Liu Xiaolu, why did Foreman Wang let you come here?" "An advanced Dangling Fisher?"

Han Fei chuckled and said, "Oh! Here comes a VIP customer. Foreman Wang asked me to see if there are any exotic octopus here. I remember there may have been one in the front, so I came to check up." The man was stunned for a moment. "Oh! Really? Do you mean the Three-Eyed Octopus? Why don't they take the guests straight to it? Why did they bother to have you come all the way here?"

Han Fei's eyes flickered, and he leaned toward this person's ear. "It's a secret." The man was startled and hurriedly said, "Oh, OK! I see. I see. Just check for it quickly. Don't make Foreman Wang wait too long." Han Fei nodded and hurried away. Along the way, from time to time, Han Fei saw a group of customers gathering around the pools, choosing contractual spiritual beasts.

Han Fei threw the Poison King into every pool he passed by. Haha, call me Han Fei, the Wrecker. I'm gonna destroy the dragon boat today.

Han Fei and the other four boarded the dragon boat separately. They had made an appointment to meet in the employment hall, but as soon as Han Fei came up, he noticed the weird actions of the black-robed man, so he did not go to the employment hall. "Oh, no! The contractual spiritual beasts are sick!" Someone suddenly shouted and immediately attracted a lot of people's attention.

Some people sneered. "Are you out of your mind? How can contractual spiritual beasts get sick?"

But immediately, these people were all stupefied as they saw a large number of creatures starting to vomit and have diarrhea.

A Single-Horned Shark even began to ram the pool with its head and filthy things were spurted out under its tail. A Soft Cuttlefish had turned completely soft and crazily spurting ink, dyeing the entire pool black. A Red flame Python was vomiting flames and lashing its tail like mad, throwing all kinds of dirty things all over the sky.

After about two minutes, someone shouted, "Someone spread poison, someone spread poison..."

A few more minutes later an announcement was made, "The whole ship, search for Liu Xiaolu! He is not the real Liu Xiaolu!"

When everyone was busy searching for him, Han Fei saw a man coming towards him. Without a word, he knocked him out with a punch and changed his face into this man's.

At the exit, Han Fei casually threw a piece of Poison King Smoke into the cabin. "Haha! Go on catching Liu Xiaolu!"

On the deck of level one, everyone was holding the railing, looking at the black-robed man struggling on the sea and feeling scared. Just now, the black-robed man suddenly appeared on the deck and had big diarrhea under public stare, and then was caught by a fishing hook that fell from the sky and thrown into the sea.

On the surface of the sea, the situation of this black-robed man was getting worse. He kept spitting out all kinds of things mixed with his internal organs. Obviously, his internal organs were seriously damaged and he was going to die soon. Someone trembled and said, "Who did this guy offend? How miserable he is!"

Someone sighed. "Damn it, why is my right eyelid jumping? I have a feeling that something bad is going to happen."

Someone looked away from the dying man on the sea and said in disgust, "This is too cruel. He seems to be going to vomit his guts out!" At this moment, the black-robed man had sunk into the sea, and someone saw through the fishing hook that he was not just vomiting and having diarrhea! All the pores of the black-robed man's whole body were bleeding, some parts of his body even cracked, and his body seemed to be gradually dissolving. Usually, around the dragon boat, there should be massive schools of fish, but at this moment, it was literally a vacuum around the black-robed man. Many creatures were floating on the sea with their bellies upside down and none of the other creatures dared to approach him. On the deck of floor one, a few persons stood watching, talking via voice transmission. Zhang Xuanyu asked, "Xia Xiaochan, is this the Poison King you mentioned?"

“Yes, but Han Fei seems to have used a lot of it on this man. One drop would be able to kill him. But depending on this person’s situation, Han Fei must have used many drops on him.” Le Renkuang agreed. “Well, not just many drops. I think he had filled this guy’s body with the Poison King. This is too scary.” Luo Xiaobai didn’t look at that man anymore but asked, “Why did Han Fei make a move alone ahead of time?”

Zhang Xuanyu said crossly, “You know, he never abides by rules. Do you know where he is now?”

While many people on the dragon boat were still watching, dozens of people suddenly came out from nowhere, vomiting and groaning.

One of them exclaimed in a panic, “Guard, guard... Ugh... The bottom level has had an accident... Ugh... Someone spread poison...” The people on the deck immediately panicked. They didn’t mind watching someone else’s tragedy, but certainly not their own! Who the hell knew if this poison was contagious or not? Someone immediately exclaimed, “Go away. Go away! Don’t f*cking come over.” Someone said angrily, “I can’t stay here anymore! Who else dares to spread poison on a dragon boat? It must be Han Fei.”

Many people still remembered what happened on the Steps into the Sea, although the big clans and seven major sects in the Thousand Star City stopped the news from spreading forcefully. However, the walls had ears. Many people knew that Han Fei had poisoned the entire Thousand Star City. At this moment, seeing the symptoms of the poisoned people, many people were horrified. Had Han Fei come to retaliate? Luo Xiaobai shouted, “Go, let’s go to the employment hall first and wait for Han Fei there.” Xia Xiaochan wondered, “How do you know he will still go to the employment hall?”

Luo Xiaobai said, “He created such a big turmoil. It is impossible for him to challenge the Hanging Fisher alone. If he doesn’t come to the hall any time soon, let’s find a way to sneak onto the fourth floor. Then if anything happens on the top floor, we will know immediately.”

On top of the dragon boat.

The Hanging Fisher sat on the boat with a cold face. He didn’t expect Han Fei to be so frantic. He knew Han Fei would definitely take revenge on the black-robed man, so he deliberately let the black-robed man go so as to allure Han Fei out. But he was still a step slower.

As a result, this guy ran to the bottom level to poison the contractual spiritual beasts. Who the hell would expect that?!

The Hanging Fisher gnashed his teeth. “Don’t let me catch you, humph!”

Chapter 536 Attack the Dragon Boat

Han Fei still didn’t go to meet Xia Xiaochan and the others immediately. In his opinion, dragon boats were places where the big clans from the Thousand Star City made their money.

They seemed to be prosperous, but were actually bloodsuckers.

He was not going to attack those innocent passers-by, but as for the dragon boats, Han Fei really loathed them.

If there was any place on dragon boats worth robbing, it must be the warehouse. And then secondly, the ghost market.

Han Fei's first choice was surely the warehouse, but when Little White sensed that the place having the most treasures was on the fourth or fifth floor, he immediately gave up this plan. After a little reflection, Han Fei changed his target.

The employment hall was still bustling. It seemed that the matters of the black-robed man and the bottom floor did not affect the people here at all.

Shouting and cries rose and fell. "Three teammates looking for two more teammates, we want an advanced Dangling Fisher armorist and an advanced Dangling Fisher spirit gatherer to explore the Crescent Spring together." "Four looking for one more, an advanced Dangling Fisher manipulator, Crescent Spring."

"A ten-person team looking for a peak-level Dangling Fisher soul warrior to explore a secret realm. Anyone want in?" The Crescent Spring was a place in the level-three fishery that was not very dangerous. It was said that under this seabed, there was a crescent-shaped canyon with heavy water flowing through.

In that heavy water, some special spring water would flow out from time to time. It was said that this kind of spring water could strengthen one's physique and increase the probability of breakthrough, and so on.

However, this treasure land had not been selected as one of the top ten dangerous places in the level-three fishery. Its value was not quite high, nor its degree of danger, so Han Fei was not quite interested.

Someone yelled, "Four looking for one more, an advanced Dangling Fisher soul warrior, to find a lost treasure." Han Fei grinned and walked over immediately. Before he arrived, he saw a soul warrior go over. "Hey! Bro, what kind of treasure is the lost treasure you speak of?" "The lost treasure is the lost treasure. I once found in an ancient book that there may be an ancient treasure hidden near the Crescent Spring."

The soul warrior said, "An ancient book? All right, I'm in."

"Uh! Go away. We want a soul warrior who can burrow holes."

The soul warrior was surprised. "Burrow holes? I can burrow holes!"

"What is your spiritual beast?"

The soul warrior grinned and said, "I have a lobster and a crab. That's why I said I can burrow holes." The fat man who was soliciting thought for a moment. "Is your spiritual beast an exotic kind?" The soul warrior was taken aback for a moment. "You must be crazy! If I had a damn exotic spiritual beast, how would it possible for me to burrow holes for you?"

The soul warrior left angrily. Han Fei stood in front of the fatty. "Hey, what the f*ck are you doing here? Leave."

The fatty's eyes lit up. "Han Fei? There you are!" Han Fei asked via voice transmission, Where are Xia Xiaochan and others? Le Renkuang responded, Next door. Let me call them over.

After a while, the five of them were standing by the railing Han Fei said, "Xia Xiaochan, there is an arduous task for you."

Xia Xiaochan's eyes lit up. "How arduous is it?"

Han Fei thought for a while. "At least it can be worth 500 catties of Spirit Awakening Fluid!" Xia Xiaochan immediately said readily, "What do I have to do?" Han Fei said, "The treasure house of the dragon boat should be on the fourth or fifth floor. I suspect that the probability of being on the fifth floor is a bit higher. However, once we get to the fifth floor, we will inevitably be discovered. So, our first goal should be the black market."

Luo Xiaobai said, "Huh? Is that where the people in black robes are?"

Han Fei nodded. "Yes! Let Master Hexagon follow them, and he can definitely find where the black market stores their money."

The Hexagon Starfish was now hidden under the clothes of Le Renkuang. In order to prevent being discovered, he also set up a stealth array for himself.

Hearing Han Fei's words, the Hexagon Starfish asked, "Can I take some of the money?"

Han Fei said, "No problem, but time is running out. It's better for Xia Xiaochan to get the money, and we'll give some to you later." The Hexagon Starfish rolled his eyes. He always felt that Han Fei was cheating him. Although he did get a lot of good stuff from Han Fei recently, they were all defective, and they took all the good things for themselves.

But Han Fei continued, "Next, I will take the initiative to expose my identity and entangle the Hanging Fisher. Xiaobai, take the opportunity to find the treasure house on the fifth floor, and I'll let my Little White follow you."

Luo Xiaobai frowned and said, "Are you going to face him head-on?" Han Fei smiled. "Yes, so what? Don't forget that I have a Peak Strike."

Luo Xiaobai shook her head. "That ancient jade may not be able to kill a Hanging Fisher. It's just a one-time attack. Are you going to use it right away?" Han Fei chuckled. "Don't worry, I will find the best time to use it. Don't forget, in addition to the Immortal Seal and the Peak Strike, I also have the Poison King. Even if I can't beat that old b*stard, I can poison him to death."

Everyone shivered suddenly. They remembered how miserable the black-robed man was just now. The Poison King was utterly horrifying! Luo Xiaobai warned, "Now that your identity has been exposed, there must be many peak-level Dangling Fishers waiting to ambush you on the fifth floor. You'll face more than one peak-level Dangling Fisher by then. With the strength of Zhang Xuanyu and Le Renkuang, I'm afraid they can't handle a Hanging Fisher, let alone an opponent that should be a peak-level Hanging Fisher." Han Fei smiled faintly. "If he can keep at his peak-level..."

The fifth floor of the dragon boat. Ruan You had been guarding this dragon boat for more than three years. Not everyone could get this job, which required not only strength and relationships, but also merits and combat achievements. All Hanging Fishers who could appear in the level-three fishery were very strong. From the moment the black-robed man was poisoned, Wu You knew that Han Fei had blatantly declared a war on him. Although Han Fei's disguise skills were indeed brilliant, in terms of

strength, he and his companions were only Dangling Fishers. He didn't think Han Fei could pose a threat to him.

The only thing that upset Ruan You was the poison used by Han Fei. He didn't know where Han Fei got it. Although he had taken a lot of anti-poison fruits, it did not mean that he would be immune to that poison.

Therefore, Ruan You planned to kill Han Fei as soon as he appeared. At this moment, a black-robed man was standing behind him.

"My lord, the treasure house has already been prepared. If Han Fei goes there, he will definitely gain nothing." Ruan You nodded, with an indifferent expression. "OK! Then wait for him. I'd like to see what the new students of the Thug Academy are like after these past 30 years."

Just as Ruan You calmly waited for Han Fei, a fishing hook suddenly appeared in the air, with a black object on it. "Huh! Thousand-Mile Fishing Technique?"

"Disperse."

Ruan You raised his hand and a golden handprint patted at the fishing hook. He didn't know what the black ball was, but it must be the kind of poison that could make people vomit and have diarrhea.

BAM!

The Poison King Smoke suddenly exploded and disappeared into the air instantly, colorless and tasteless, without a trace.

Ruan You yelled. "Back off." "Set an Array!"

When a blue light curtain enveloped Ruan You and the people nearby, heavy rain suddenly began to fall in the sky.

Many people in black robes on the top of the dragon boat were caught off guard. They would avoid attacks, but not the rain!

Even a fishing master was not necessarily afraid of being caught in the rain. They knew that the rain must be poisonous, but only if the rain could drop on their bodies, right? But this was simply impossible. As soon as they activate a spiritual energy protective cover, the rain could never touch them.

Clank, Clank, Clank... These peak-level Dangling Fishers in the rain were still carefully looking around, but suddenly found that they were surrounded by blades falling around them.

"Oh, no! The raindrops have turned into knives."

Bam! Bam! Bam! At the moment when the raindrops turned into blades, at least dozens of places on the dragon boat exploded. In the black market at the bottom of the dragon boat, knives were flying in the air, and a closed door was directly broken by Xia Xiaochan.

In a certain area on the fifth floor of the dragon boat, large swaths of colored smoke suddenly appeared.

On the whole dragon boat, many people were stunned and all looked up. "Oh! Someone is attacking the ship." "Gosh! Han Fei, it must be Han Fei!"

Someone exclaimed, "How dare he attack the dragon boat? Is he crazy?!" "Yes, it's too crazy! Han Fei is a lunatic!" "Everyone, let's leave here. Don't get poisoned."

Chapter 537 The Hanging Fisher

Han Fei came, standing on the deck of the fifth floor, walking towards Ruan You step by step. And the peak-level Dangling Fishers on the fifth floor did not expect the raindrops to change into knives. Besides, this kind of knife was extremely sharp and even tore their protective cover in the blink of an eye.

When the rain fell on their bodies, many people knew that they were doomed.

They had all seen how miserably the black-robed man died. No one wanted to die like that, vomiting and having diarrhea, with his internal organs almost dissolved.

So these peak-level Dangling Fishers all released spiritual energy, trying to shake the raindrops away.

However, what made them desperate was that these were not raindrops at all but knives!

Han Fei walked in the heavy rain, and no drop of water fell on him.

This was the first time Han Fei had used the Infinity Water so unscrupulously. This supreme treasure, which caused the entire Undersea City to be destroyed, gave full play to its advantages at this moment.

"Where there is water, there is a knife!"

The Infinity Water showed its peerless power, although Han Fei was still unable to kill these peak-level Dangling Fishers given his current controlling ability of the Infinity Water. But Han Fei didn't need to bother to kill them at all! As they expected, the rain was poisonous because there was the Poison King in it.

Han Fei released the Poison King Smoke to sound it out. And as he expected, there was actually a seal on this floor.

Around Ruan You, a large blue array appeared. At this moment, a weird scene appeared on the top of the entire dragon boat. The heavy rain was pouring down, but it would not fall to the fourth floor at all. The stream of water rolled back into the sky, poured into the blue array, or rushed towards those peak-level Dangling Fishers. Clank, Clank, Clank... The large blue array, flickering slightly, seemed going to be broken at any time by the Infinity Water.

"Puff, Puff... Puff..."

"Ew..."

Han Fei glanced at these peak-level Dangling Fishers disgustingly. "F*ck off and find anti-poison fruits to eat now. Maybe they will save your lives."

As soon as Han Fei said this, on the top of the boat, all but the peak-level Dangling Fishers protected by the blue array ran away. They had to run! This was a race against time. One step slower, they would end up the same as the black-robed man.

Han Fei smiled and looked at Ruan You. "At that time, did you really want to kill me?"

Ruan You's expression remained unchanged and he stretched out a hand from the array to catch a few drops of rain.

Han Fei's pupils constricted slightly. The Infinity Water would grow stronger as he grew stronger. Even if it hadn't reached his peak state, ordinary people would definitely be mangled upon touching it. But not only was Ruan You intact, but he also felt and absorbed the few drops of rain. After a while, however, Ruan You frowned slightly. He felt a bit uncomfortable now. Was this poison so strong? Han Fei took a breath immediately. God, he couldn't believe this idiot actually took the initiative to absorb the poison! He didn't move but let the Infinity Water attack the big blue array. Having spent so long in the level-three fishing ground, Han Fei had long realized that there was no unbreakable array in the world. If it couldn't be broken, either you had not attacked it powerfully or long enough. For example, the protection array of the Undersea City was very strong but was still broken by the Sea Clan?

In the array.

Ruan You said faintly to his men, "Flash away."

After experiencing it personally, Ruan You was very sure that no one could resist the poison, at least not in the level-three fishery. Unless you had eaten all the anti-poison fruits in the level-three fishery or rare spiritual fruits such as the Venomous Tulip, you would not be able to resist this poison. "Yes, my lord."

SWISH!

When all these people flashed away, Ruan You looked at Han Fei. "Your purpose is nothing more than to keep me alone and helpless. But why do you think that you can beat me even if I am alone? And the two who are hiding, you should know that you can't hide from my perception. Why are you still hiding?" As soon as he said so, Zhang Xuanyu and Le Renkuang jumped out, and the rain automatically avoided them.

Ruan You perceived them again and smiled faintly. "There are still two. Are they going to loot the treasure house of the dragon boat? Never letting go of any benefit, you are truly the students of the Thug Academy. However, why are you so sure that you can make it?"

Han Fei grinned and said, "We just want to have a try. If we fail, we'll try our best to kill you. After all, if we defeat you, the treasures will all be ours" "In your dreams!" Ruan You's arms shook, the blue array burst, and the billowing airwave blasted in all directions. A big fish with long fins and red scales all over the body flashed out of Ruan You's eyebrows.

Han Fei saw the data in his eyes.

<Name> Gale Dragon Fish (Ruan You's Spiritual Beast)

<Introduction> Special fish that grows in stormy waters and can create hurricanes at sea. The hurricane it creates can easily smash creatures of the same level. In combat, its attacks contain the power of hurricanes.

<Quality> Exotic (Ultra-Quality) <Level> Level-44 <Contained Spiritual Energy> 4356 points

<Food> Shellfish

<Contains Soul Power>1524

Han Fei frowned. His spiritual beast had reached level 44? He had encountered a creature of this level, the Spirit-Absorbing Centipede and he couldn't even break its shell.

However, Han Fei was relieved that the big fish in front of him was just a fish. If it was a crustacean, he wouldn't have a chance to defeat it.

The Gale Dragon Fish opened its mouth and roared, and then a hurricane directly fell from the sky.

Le Renkuang took the lead to activate the Sky Swallowing Technique and the huge suction force spread to all sides, causing the hurricane to twist and bend towards him.

Han Fei released a powerful burst of spiritual energy and the Infinity Water gathered, turned into a water column, and rushed straight into the hurricane. In an instant, the water knives and the hurricane were entwined together.

Han Fei's heart shuddered. "So strong..."

Han Fei's face turned serious. He activated the Majestic Mystic Spell, and his momentum continued to soar. At the same time, he had Little Fatty and Little Gold attach to him, raising his realm to that of a peak-level Dangling Fisher. Han Fei didn't dare to underestimate his opponent. Even if he couldn't bring out the real power of the Infinity Water, it was still an utterly powerful weapon. With just this little power it could release at present, it had already been able to resist the spiritual beast of a Hanging Fisher. Ruan You sneered. A blue light flashed in his hand, and an armor box fell to the ground.

At the same time, Han Fei saw a huge shark roaring in the air that was attached to Ruan You. On his arms appeared two sharp knife wheels out of the blue. It was not over yet. Then a deep blue big fish appeared in the air. Han Fei recognized at a glance that it was a sailfish.

Then a dark blue spear appeared in Ruan You's hand.

Han Fei's eyelids twitched. "Are you both an armorist and a soul warrior?" Ruan You smiled faintly. "You've got a good eye. It's a pity..." Ruan You suddenly roared and the rolling sound waves spread in all directions. "Do you think anyone can be qualified for this job?" "Spectral Spear!" Ruan You looked up, leaving a flash of flame in the air, and waves of air billows spread across the spear.

Seeing this scene, Zhang Xuanyu immediately rushed up. "Nine-Layered Waves in the Furious Sea."

Buzz, Buzz...

Ruan You didn't even look back but threw the knife wheels on both arms out. At this time, every move was not fancy at all, but utterly practical.

Han Fei summoned the Blood Drinking Knife and activated the Draw Technique. The deck was lifted and the knife light drew a half arc in the air with overwhelming power. At this moment, Han Fei didn't want to and couldn't retreat. Since he had chosen to take revenge, he couldn't give up. At least he had to hold on until the other four arrived.

He slashed out and the billowing airwave left a red ray of light thousands of meters high in mid-air, which was glaring in the sky.

Around the dragon boat, many people were watching the battle in their fishing boats in shock.

“Wow!”

Someone was shocked. “Can Han Fei even challenge a Hanging Fisher?” “Oh my God! What kind of overbearing combat skill is that? How can it be so powerful?”

“My God, Han Fei doesn’t even back off. What is he going to do?” Someone exclaimed in shock, “Zhang Xuanyu is defeated.”

It was true. Zhang Xuanyu had launched the Nine-Layered Waves in the Furious Sea but failed to repulse those two knife wheels. At this moment, Le Renkuang stood in front of Zhang Xuanyu and shouted, “Divine Turtle Shield! Ultimate Defence!”

Clang Clang Clang... A giant old turtle rose in front of Le Renkuang and propped up a turtle-shell shield, blocking the two knife wheels.

On the other side, Han Fei had gathered all his spiritual energy. His eyes turned red and seemed to be glaring with flames, and he suddenly launched the Sacrificing Punch.

Bam! Bam! Bam!

Continuously piercing through the triple barriers in mid-air, Han Fei grinned ferociously. “I’d like to see how strong a Hanging Fisher is!” Han Fei didn’t use the Art of Invincibility. Although that fist skill was strong, he hadn’t mastered the essence yet, and its real power could only be brought out by less than one tenth or two tenths which couldn’t deal with the Hanging Fisher now.

But the Sacrificing Punch was different, which was almost tailored for Han Fei. Ren Tianfei left it to Han Fei as a lifesaver and would never expect that Han Fei would use it at the very beginning. Ruan You’s face sank, his arms stretched out, and the two wheels returned immediately. “Humph!” The armor box in front of Ruan You suddenly opened and spikes appeared inside. In the blink of an eye, hundreds of long spikes twisted together and turned into a large cone-shaped spike. In an instant, the long spike shot out, shining with a tri-color light. It was so dazzling that people within dozens of kilometers could not help blocking their eyes with their hands. “Mystic Divine Spike!”

Chapter 538 The Death of the Hanging Fisher

Han Fei and Ruan You had almost launched their attacks in a flash.

Zhang Xuanyu who was thrown flying was still in the sky. Seeing this scene, he was so worried about Han Fei that he launched a Soul Thrust at Ruan You, his eyes bleeding. At this moment, Ruan You, who was concentrated on fighting Han Fei, did not expect this soul attack from Zhang Xuanyu. Ruan You immediately vomited a mouthful of blood and blood oozed from his eyes, nose and mouth. “Hoo0000!”

Suffering from Zhang Xuanyu’s soul attack, Ruan You still did not look back, but continued to control the Mystic Divine Spike.

Le Renkuang was also fighting like hell. He did not expect this Hanging Fisher to be so tough and found that he couldn’t resist the Mystic Divine Spike at all.

Le Renkuang roared and also activated the Violent War Body in addition to the Majestic Mystic Spell, and at the same time, a golden ray of light shot out from his hand.

“Bloodthirsty Broadsword.” The Bloodthirsty Broadsword of the Le Renkuang was similar to the Draw Technique of Han Fei, and the former was even fiercer because it would come back to hurt the user if the enemy didn’t bleed.

But the Bloodthirsty Broadsword was too slow, unable to interrupt Ruan You’s offensive.

In the sky. The huge fist mark was like a shooting star, smashing towards Ruan You in the flames. But the Mystic Divine Spike avoided the fist mark and directly stabbed at Han Fei’s chest. Whether it was Han Fei or Ruan You, they just concentrated on attacking their opponent, ignoring their opponents’ attacks on them. Han Fei said in his heart, Little Fatty, now I count on you. He had activated the Indestructible Body and the Majestic Mystic Spell and put on an ultra-quality battle suit. Besides, Little Fatty could remove the power of the opponent’s attack by 90%. He was sure he could block a blow of Ruan You.

The next moment, he put a big shield in front of him. This was the ultra-quality shield he had refined in the Abyssal Chasm to withstand the sword flow. However, with a clang, the huge shield was pierced through. Han Fei immediately summoned an ultra-quality battle suit to shield in front of him. This time, he held out for two full minutes. During these two minutes, Han Fei threw away the giant shield and smashed the Sacrificing Punch on Ruan You. And the latter crossed his hands, and the two knife wheels floated in the air. Bombarded by the Sacrificing Punch, the deck of floor one was shattered, and Ruan You’s body left a trail nearly 200 meters long on the deck. “F*ck you!” Han Fei cursed. The ultra-quality battle suit was pierced through too and the Mystic Divine Spike fell on his shoulder.

Crack!

Just like the first time he touched the Embroidery Needle, he was sent flying nearly a kilometer upside down in the air. Another ultra-quality battle suit on his body was shattered after two or three minutes.

At this moment, an invisible tentacle and an unbreakable fish skin withstood this blow.

In the end, the Mystic Divine Spike failed to pierce Little Fatty’s defense, but Han Fei still spat out three mouthfuls of blood, feeling as if his left shoulder was broken.

But fortunately, he managed to block the Mystic Divine Spike.

And at this moment, Han Fei had already been sure that Ruan You could not kill him.

If it were an ordinary junior or intermediate Hanging Fisher, perhaps he didn’t even need to use any ultra-quality spiritual weapon. He would be able to block their attacks with the Indestructible Body alone.

As for Ruan You, his shoulder seemed to be broken at the moment. He vomited a full mouthful of blood and there was a big indented fist mark on the ultra-quality battle suit he wore, which had cracked.

All the onlookers were stupefied. What the hell is going on here? That’s a Hanging Fisher, the guardian of the dragon boat! But he was so badly injured? On the other end, Han Fei stuffed a few drops of Candle Dragon Blood into his mouth. Then he made the Infinity Water dart at Ruan You.

Han Fei stretched out his hand, spreading his golden-red wings, and rushed towards Ruan You. He felt that he could use the Peak Strike now. If he still couldn’t kill this man, he would just run. It was also at

this time that the Bloodthirsty Broadsword had finally struck at Ruan You. Ruan You, who was also an armorist, had his armor box opened and put on a strangely shaped glove.

He hit the ground with one hand and backhand threw out a punch. Bang! The air billow pounced on Le Renkuang, shattering his ultra-quality long knife. "Puff!"

With this blow, Le Renkuang knelt on the ground, coughing two mouthfuls of blood, and then raised his head with difficulty.

However, Ruan You was also injured. His entire right arm was torn out hundreds of holes with a burst of spiritual energy. Except that the glove was intact, his right arm was probably badly injured too.

As soon as Han Fei flapped his wings, a dragon roar suddenly exploded in Ruan You's ears. Following that, a slender figure blasted Ruan You into the sky with a punch. In the blink of an eye, the Thousand Strike Technique was activated 18 times in a row, and blood splashed all over.

At this moment, Ruan You struck one of the two knife wheels in his hands with another.

Clang

Like a big bell ringing, Xia Xiaochan was blasted out of her shadow state directly. The corner of Xia Xiaochan's mouth bled and with a flash, she reappeared behind Ruan You, putting a dagger against Ruan You's neck. However, as a Hanging Fisher, Ruan You reacted extremely quickly. He directly took off his ultra-quality battle suit to block Xia Xiaochan's blow. At the same time, a gale rolled up and he stepped on it and put on another ultra-quality battle suit.

Han Fei was rushing over and Luo Xiaobai also rushed onto the deck. However, she didn't look good. There were traces of fighting on her body, and her face looked very pale. But the moment Luo Xiaobai landed on the deck, countless vines shot out, dragging Zhang Xuanyu, Le Renkuang, and Xia Xiaochan back.

At the same time, Luo Xiaobai stuffed a spiritual fruit into her mouth and pointed her finger at Ruan You. Hundreds of huge petals directly ignored the gale and enveloped Ruan You like a shadow.

BAM!

The petals exploded, and there was blood oozing from Luo Xiaobai's mouth. Obviously, this blow consumed a lot of her energy. When the petals exploded, Ruan You's hair was scattered, and he glared at Luo Xiaobai and the others, throwing the long spike in his hand straight out, trying to nail Luo Xiaobai onto the deck. Le Renkuang gritted his teeth and was just about to take out a shield when six beams of light suddenly rose into the sky. Squeak!

The spear was spinning frantically on the Six-Gate Array. At the moment when the Six-Gate Array was broken, Zhang Xuanyu hit the long spear as hard as he could until it was shaken off.

At this moment, Han Fei had returned.

Seeing Ruan You put on another ultra-quality battle suit, Han Fei crushed the red ancient jade.

At the moment the ancient jade was crushed, Ruan You widened his eyes and roared, "Who is helping

you?”

Ruan You was not afraid of Han Fei’s Sacrificing Punch. However, this ancient jade panicked him. Under public stare, a big axe suddenly emerged in front of Han Fei. The axe as long as hundreds of meters chopped at Ruan You in a flash.

“Hoooooo!”

Blast!

One, two, three... Three ultra-quality battle suits shielded in front of Ruan You but were shattered only in a second. Ruan You was burning his vitality, and a fierce light rose again from his glove and charged towards the axe.

Boom...

Within a kilometer, the power of the axe swept across. Some people who were close to them directly vomited blood, and because of this blow, hundreds of people were injured. At this moment, Ruan You’s right arm had disappeared, half of his body was bleeding, and the bones in his right chest were cracked, and his body was mangled.

Han Fei roared out loud. “Remember if I want you to die, you will die.” “Sacrificing Punch!” This time, Ruan You was unable to block it. If it weren’t for the power of the axe just now, he wouldn’t be afraid of this.

However, that axe had almost killed him. He couldn’t block anymore attacks!

Boom...

Ruan You and Han Fei directly dropped from the top of the dragon boat, leaving a big hole in the deck.

This punch blasted directly from the fifth floor to the bottom floor. Ruan You didn’t even have the chance to blow himself up, and the part of his body below the head had completely shattered. Panting for breath, Han Fei quickly took another gulp of Cradle Dragon Blood. He felt that this was the f*cking hardest battle he had ever fought in his life.

“Huh?”

Han Fei saw a green jade-like shell slipping from Ruan You’s chest, and he picked it up immediately. “What’s this... Wow... F*ck...” Han Fei was shocked. Is this a Sea Swallowing Seashell? He just scanned it and found that tons of treasures and mid-quality pearls were stuffed in the shell that had a radius of almost one thousand meters.

“Huh! No, wait... Is this really a Sea Swallowing Seashell? How come it has such a large space inside?”

At this time, Luo Xiaobai said in a voice transmission, Come up. Let’s leave now.

Han Fei quickly put away the shell, looked back, and stuffed a mass of Poison King into Ruan You who was still a little conscious.

After doing this, Han Fei jumped to the top of the dragon boat, and Zhang Xuanyu had already prepared the Wind God Boat. As soon as Han Fei jumped on the fishing boat, the Wind God Boat turned into a stream of light and disappeared.

There were hundreds of thousands of people on the whole dragon boat but no one dared to stop them. Everyone was left speechless. Who dares to stop them? Even Master Hanging Fisher had been defeated! After a while, someone exclaimed, "Master Hanging Fisher is dead..."

In an instant, the dragon boat was in a big uproar, and robberies, killings, and battles thus began.

Chapter 539 Sad Old Bai

About 3 hours after Ruan You's death, a figure fell from the sky and roared, shocking the entire dragon boat.

But at this moment, the dragon boat had almost been ruined. Without the Hanging Fisher, the guards on the dragon boat simply couldn't stop the robberies and killings of hundreds of thousands of people.

The shop owners in the trading market closed their shops right away and joined in the looting frenzy. When the Hidden Fisher arrived, there was a mess on the dragon boat, and almost everything that could be snatched had been snatched. The people on the dragon boat had also reduced from hundreds of thousands to tens of thousands. Among them, half were the staff of the dragon boat. Standing next to Ruan You's body, the Hidden Fisher frowned and fiddled with his body a little with his foot. "Humph, the smell of the evil shield."

At this moment, Han Fei and the others had already gone into a small secret realm in the level-three fishery that had been dug.

They were collapsing on the ground, and Han Fei kept casting his Divine Healing Technique on everyone. Zhang Xuanyu grinned. "Is this the strength of a Hanging Fisher? Isn't it too strong? Five against one, and we used all our secret skills, but we still had to rely on the ancient jade to kill him?"

Le Renkuang lay on the ground screaming. "No, I feel that my viscera are displaced and seriously damaged. I'm afraid I won't be able to fight again in ten days." Xia Xiaochan kicked Le Renkuang. "It shows that you are not fat enough. If you get fatter, you'll be able to bounce his attack back." Le Renkuang rolls his eyes. How fat do I have to be to bounce back the attack of a Hanging Fisher?

Master Hexagon was also lying on the ground like an exhausted dog. What a disgrace! The Six-Gate Array was shattered so easily!

Han Fei looked at Luo Xiaobai. "Did the treasure house have a problem?"

Luo Xiaobai nodded. "Serial killing arrays were set up inside and outside the treasure house, and my two ultra-quality spiritual weapons were both destroyed." "Oh my god!" Han Fei took a deep breath. Two ultra-quality spiritual weapons were destroyed. Luo Xiaobai must have taken great risks to escape. Han Fei hurriedly said, "It's okay. I'll make you some more ultra-quality spiritual weapons. Let me show you something good."

"Huh?"

Everyone looked at Han Fei. The latter took out a jasper-colored shell, but when he took a closer look, it turned out that under the color of jasper, there was also a milky white layer.

Xia Xiaochan took it over and looked at it. "Huh! What is this... Ahhhh..."

Le Renkuang covered his ears. "What's the matter? What's the matter? Let me see..." "Ohhhh..."

Zhang Xuanyu snatched it from Le Renkuang's hand and then froze directly. After a while, he started to laugh stupidly.

Luo Xiaobai frowned and took it over. After scanning it, she opened her mouth slightly, and after two full minutes, she slowly said, "This, I am afraid it is the Sun-Moon Shell." "Sun-Moon Shell? What is that?"

Everyone looked at Luo Xiaobai, who was much more knowledgeable than them indeed.

Luo Xiaobai said, "To describe it, we have to start with the unique talents and attributes of these shells."

"As we all know, everyone now uses Sea Swallowing Seashells, which is the most common type of storage space. Sea Swallowing Seashells are actually not uncommon, because Sea Swallowing Seashells have a limited lifespan. After it dies, its internal space becomes a separate world. After being collected, they become the Sea Swallowing Seashell we use now."

Luo Xiaobai continued, "But besides Sea Swallowing Seashells, there is another kind of shell called the Sun-Moon Shell. It is said that this kind of shell often floats on the surface of the water and absorbs the brilliance of the sun and moon, just like humans cultivating. As time goes by, their shells become firmer and their lifespan is extremely long. They may live for five hundred years or even thousands of years. After they die, their shells will also form a separate space, which is much larger than that of a Sea Swallowing Seashell."

It was the first time that Han Fei and the others had heard of a Sun-Moon Shell, and they were amazed.

Han Fei exclaimed, "The Sun-Moon Shell has a radius of one thousand meters. I was wondering where the treasures of the dragon boat were hidden. It turns out that he took them with him."

Luo Xiaobai shook her head slightly. "No, the materials on the dragon boat shouldn't be only as much as those in just a Sun-Moon Shell. We just didn't find the rest."

Xia Xiaochan also said, "We didn't gain much on the black market. I only grabbed less than 50 Sea Swallowing Seashells, but they were quite full." Han Fei added, "This time we made a fortune. But how are we going to use the money?" Le Renkuang hurriedly said, "Sell them! The person on the ghost ship left us his contact information, right? Trade them for the Spirit Awakening Fluid." Han Fei shook his head. "You don't even know how much money the Sun-Moon Shell is worth. Even the Sea Swallowing Seashells that Xia Xiaochan had snatched will be able to be exchanged for hundreds of catties of the Spirit Awakening Fluid. The Sun-Moon Shell is too valuable! It's at least worth more than ten thousand catties." Luo Xiaobai thought for a moment and said, "Guys, let's heal our wounds first. Han Fei, please refine some ultra-quality spiritual weapons and battle suits. From now on, we will definitely be the public enemy of the level-three fishery. Any dragon boat we encounter will chase us down. Therefore, we must keep at our peak states at all times." Han Fei nodded. "No problem. Don't go out for a while. Let's take a break."

In fact, Han Fei was seriously injured. Ruan You's Mystic Divine Spike was not weak, and even now, he still felt a strange force on his shoulder, destroying the vitality of his body, but fortunately, the regenerative ability of the Indestructible Body was also very powerful. That was why he could still stand now.

The news about Han Fei and the other four had been known to everyone in the level-three fishery.

Especially it sounded almost impossible that the Thug Legend team killed a Hanging Fisher. At the seven great sects in the Thousand Star City, everyone was stunned. Fortunately, they didn't fight Han Fei too violently before. Otherwise, how could they be still alive?

The disciples of the Grand Void Academy couldn't help but let out a sigh of relief. Ji Wenxuan secretly said to Tian Yishan, "I don't feel so bad now although we were deceived by Han Fei. That guy is a genius who can even kill a Hanging Fisher. We are lucky just being deceived by him."

Tian Yishan couldn't agree more and conveyed the thought to Chu Xun, who nodded slightly in agreement. When Gong Yuehan first heard the news, she was really shocked. Five Dangling Fishers killed a peak-level Hanging Fisher together?

Even though there might be some discrepancies between the facts and the rumor, the peak-level Hanging Fisher was indeed dead, and that dragon boat was now guarded by a Hidden Fisher. That was an indisputable fact. Gong Yuehan couldn't help thinking about what Han Fei was like the first time she saw him. He was literally a rascal! And he pretended to be unable to even beat a Basalt Conch and made a sneak attack on her.

"Senior Sister, Senior Sister..."

"Well! Yes?"

"Senior Sister, what are you thinking about?"

"Oh! No, nothing."

"Senior Sister, are you thinking about that Han Fei? You are always out of state after you came out of the Steps into the Sea. Do you..." "You darn girl. If you continue to talk nonsense, I will beat you..."

When Tang Ge heard the news, his jaw almost dropped and then he planned to go to Han Fei. It took Mu Ling a lot of effort to stop him. Mu Ling said helplessly, "What can you do now? Since they can kill a Hanging Fisher and escape unscathed, how can they be easily found by you?" Tang Ge said with a stern face, "It's too dangerous for them now. These dragon boats will definitely send a large number of people to search for them. Then they will face the wrath of other Hanging Fishers, and more than one."

Mu Ling said, "Do you think Han Fei is stupid? No, he is smarter than you. Do you think he would go rob a dragon boat unprepared? Even if you find him now, you won't be able to help. It is said that Han Fei can shatter an ultra-quality suit with a punch. Can you do that?"

"No!"

Tang Ge replied without hesitation. At this time, the contents of the rumors suddenly came back to him.

Someone said that Han Fei turned into the Sea God and punched a big hole in the dragon boat.

Someone said that Han Fei had a super strong physique, so he could casually defeat a Hanging Fisher.

Someone said...

Anyway, there were all kinds of rumors. Han Fei had been demonized and it was obviously impossible to know what really happened back then from other people. Tang Ge couldn't help sighing. "He has chosen the most difficult path."

As for the children of the big clans in the Thousand Star City Clan, after hearing the news, they were all stupefied. Even Cao Tian got serious.

Cao Qiu said he was going to find Han Fei, but was stopped by Cao Jiaren.

Cao Jiaren said to Cao Qiu, "You two are already friends. If he succeeds in the future, you are still friends. But if he has millions of enemies in the future, then you'll have to put an end to this relationship. Next time, if you meet him outside the level-three fishery, I will not stop you from seeing him."

When Sun Mu heard the news, he just said lightly, "Go back to the city."

Yang Deyu had vowed to have a duel with Han Fei. After hearing the news, however, he turned to lie on the fishing boat, basking in the sun and flipping a map. Look for Han Fei? No way, he was not crazy!

And this was the same case outside the level-three fishery, where people were also shocked at the news.

For example, when Old Bai heard the news, he was very sad. These five little b*stards are really troublemakers! I asked them to gain fighting experience, not loot a dragon boat!

Chapter 540 You Should Buy Life from Me

Generally speaking, what happens in the level-three fishery would not spread to the towns.

The thirty-six towns deliberately blocked the passage of news in this regard because they worried as the people in the villages and towns knew more about the level-three fishery, they would be distracted from cultivation.

The teenagers in the schools in each town usually yearned for the level-three fishery. They felt that there were many resources, money, and opportunities there, so they yearned for it.

But they didn't know that there were also many people who died in the level-three fishery. Everyone who was going to the level-three fishery would be told a lot of things about it before leaving. So were Han Fei and the others. Wenren Yu was responsible for telling them the basic knowledge about the level-three fishery.

However, there were still some people who knew what happened in the level-three fishery, such as major chambers of commerce, teachers in schools, and managers of the towns.

The town was small, so what Han Fei and the others had done in the level-three fishery soon spread wide. And the Thug Academy, a school with only a few people in total, had known this news quickly.

When they got to know that Han Fei and the others had killed a Hanging Fisher in the level-three fishery, Qu Jinnan and Ling Yu were dumbfounded. Qu Jinnan asked incredibly, "A Hanging Fisher?"

Han Fei and the others had been out for more than 8 months, and the strength of him and Ling Yuan had improved by leaps and bounds with Xiao Zhan and Wenren Yu acting as their sparring partners. Now, Qu Jinnan had become an advanced great fishing master. Ling Yuan was slightly behind, who was only an intermediate great fishing master, but she was about to make a breakthrough. They had planned that before Han Fei and the others came back, they had to break through to the peak-level of a great fishing master. They shouldn't be a drag on their senior brothers and senior sisters, should they?

But it had only been eight months! They were still great fishing masters and far from being Dangling Fishers. But their peers were already capable of killing a Hanging Fisher?! A peak-level Hanging Fisher! Ling Yuan took a deep breath. "Nannan, I'm going to the level-two fishery."

Qu Jinnan was taken aback slightly. "But we've only got a 50 winning streak in the arena, still far from a hundred winning streak!" Ling Yuan looked at Qu Jinnan. "There are only two of us and the school hasn't recruited any new students. Do you know how difficult it will be for us to get a hundred winning streak?"

Suddenly, a voice sounded beside the two of them. "Ling Yuan, don't be rash. It is good for turning pressure into motivation, but you should act according to your ability. Han Fei and the others didn't go to the level-two fishery until they got a hundred winning streak. Otherwise, they wouldn't have gained so many fighting experiences." Ling Yuan was immediately discouraged. "Teacher Wenren... But, they had already managed to get a hundred winning streak when they were only junior Dangling Fishers."

"Nonsense."

Wenren Yu said, "At that time, they were not all junior Dangling Fishers. Besides, the realm is not equal to strength. You still lack fighting experience. Go, go to the arena today and fight again."

"Yes, teacher."

After Qu Jinnan and Ling Yuan left, Xiao Zhan appeared, frowning. "It's really fast! How did those little guys suddenly kill the guardian of a dragon boat?"

"Humph!"

Old Bai passed by with his hands behind his back and said fiercely, "Those little b*stards! Fortunately, they went to the ghost ship to get some special methods before going to challenge the dragon boat. Otherwise, all five of them would have probably been killed in one fell swoop." Wenren Yu wondered, "President, which senior brother is in the level-three fishery? How come you know what happened in the level-three fishery so well?" Old Bai said, "How did you guess... Anyway, someone in the level-three fishery delivers me a message every half a month. That's why I know what they have done."

Xiao Zhan said in surprise, "Why didn't I know that? I even specially commissioned someone to get the Wanted List... Now, these five little b*stards are ranked respectively the first, second, third, fourth and fifth place on the Wanted List." Wenren Yu was a bit worried. "Old Bai, shall we do something? I told you to implant the Immortal Seals on them, or at least give them amulet barriers! But you refused. Now I'm really worried about them." Old Bai snorted. "Those things are only for incompetent people."

You may think it's the same whether you give those things to them or not, but in fact, it'll be completely different psychologically! Besides, how do you know I didn't give them something to protect them?" Wenren Yu and Xiao Zhan were astonished. "Did you give them something to protect them? When? Why didn't we know?"

Old Bai snorted. "Humph, I'm not telling."

The level-three fishery.

On the sea, on an ordinary fishing boat, Han Fei and the other four did not cook hot pot. At this time, a hot pot meal might put them in danger. God knew if people passing by would recognize them because of the hot pot... Luo Xiaobai said, "The top priority is that we should confirm whether we should continue to explore here or go directly to Blue Sea Town."

Zhang Xuanyu asked, "Aren't there teleportation arrays only on dragon boats? Are we going to sneak onto the dragon boat again?" She shook her head. "I think we'd better go back. They're searching for us everywhere. It's dangerous." Xia Xiaochan interrupted, "No, we should go to the ghost ship to sell things first." Han Fei pondered... "Selling a half should be enough! The value of the Sea Swallowing Shells we grabbed this time is immeasurable. Only in terms of mid-quality pearls, there are nearly 3 billion in them. We can be armed to the teeth and buy a Peak Strike for each of us and 10,000 catties of Spirit Awakening Fluid."

Luo Xiaobai replied, "I don't recommend buying that much. Don't forget, more than 50% of the revenue of the Thousand Star City comes from the Unknown Place. Before we came to the level-three fishery, we didn't know that the prices here and the town are completely different. Perhaps in the Unknown Place, the Spirit Awakening Fluid will be cheaper." Han Fei's eyes lit up. "It's very likely. Then let's not buy much this time." Han Fei immediately crushed the jade slip given by the faceless man, and after half an hour, a figure suddenly appeared on the surface of the water.

Han Fei was surprised. "Where is the boat?"

The faceless man chuckled. "Do I have to sail the boat over to trade with you?"

Han Fei was puzzled, and it had been several months since he saw the faceless man. God knew where the ghost ship was.

However, this faceless man came so fast. How did he do it?

Without waiting for Han Fei to think carefully, this faceless man said, "I didn't expect you would actually make it. Umm, I underestimated you."

Han Fei pondered for a moment and said, "3000 catties of Spirit Awakening Fluid and 5 Peak Strikes of junior Hidden Fishers. The Soul Crystals are no longer needed." He had only used less than 300 Soul Crystals, and the others hadn't used up the Soul Crystals they had got yet. Even if they needed more in the future, it would be in the future.

As Luo Xiaobai said, the Unknown Place should be a place richer than the level-three fishery, and there should be more and better things there. They still bought some things now because they had not left the level-three fishery, and they were still in danger.

If there was now a teleportation array that could bring them back immediately, they would definitely choose to go back directly and no longer do any transactions.

The faceless man was not excited or surprised by this transaction worth 1.4 billion at all, but asked leisurely, "How long have you been on the sea?" Luo Xiaobai looked at him. "About an hour. Why do you ask?"

The faceless man pondered for a moment and said, "Then I should raise the price. You should have grabbed a lot of resources from that dragon boat, right? I want half of them."

"What?!"

Xia Xiaochan bared her teeth. "Why?" Zhang Xuanyu said immediately, "Then we can't make a deal."

Han Fei frowned. Luo Xiaobai also asked, "Why?" The faceless man said, "I thought you would have contacted me dozens of days ago. If you contacted me and boarded the ghost ship as soon as you looted the dragon boat, I would not charge you a lot of money! The problem is that you are showing up now. If you had contacted me even later, even I wouldn't have been able to save you." Han Fei's expression changed. "What do you mean?"

The faceless man smiled. "I bet you don't know that there is a divine weapon in the level-three fishery, called the Sky Hanging Mirror whose ability is to reflect the entire level-three fishery. When you were on the dragon boat, you left too many traces. It's simply too easy to find you. So! Your top priority now is not to buy things from me, but to buy life from me.
