

Chapter 561 Talent

When Han Fei's knife light cut through the air, everyone knew he was going to win again. Xia Xiaochan dragged Zhang Xuanyu and Le Renkuang. "Don't even think about slipping away. Admit defeat and give me money."

Yes, under the pressure of Zhang Xuanyu and Le Renkuang, Han Fei reduced his strength to that of a junior great fishing master. Then the two bet Xia Xiaochan for 10,000 mid-quality pearls.

Zhang Xuanyu clapped his thigh and sighed. "Nan, why didn't you hold Han Fei?"

Le Renkuang said with a sad face, "Ling Yuan, your armor skills are not good enough! Your attack is too weak. You should whip him, whip him..." Qu Jinnan was almost crying. I had tried my best, OK? The Sea God Grass almost drowned Han Fei! But his knife light was so powerful. I'm not to blame!

Ling Yuan sank to the ground. "I quit. I quit. Senior Brother, you're bullying us. And you stole Sister Xiaochan's Shadowless Blade."

Luo Xiaobai said, "No, it's not the Shadowless Blade... It's the Thousand-Mile Fishing Technique."

Of course, Luo Xiaobai did not join in their bet. To be honest, she was very satisfied with Qu Jinnan's performance. He had given full play to the power of the Sea God Grass, integrating entanglement, attack, duplication, and paralysis, which greatly restricted Han Fei's actions.

If it weren't for Han Fei using that weird technique, they would have won this time.

Everyone was surprised. "Thousand-Mile Fishing Technique?"

Zhang Xuanyu said in astonishment, "What is that? Although I haven't mastered it yet, the Thousand-Mile Fishing Technique used by Dangling Fishers seems to be able to break through only one space point, right?"

Le Renkuang nodded hard. "Yes, yes, how could he use that technique on his big knife light?"

Xia Xiaochan looked at Han Fei with piercing eyes. "Is it really not the Shadowless Blade?"

Han Fei lowered his head, his body trembling slightly. Zhang Xuanyu waved his hand in front of Han Fei's eyes and asked, "Feifei, what's wrong with you?"

Han Fei suddenly raised his head and laughed loudly. "Hahaha... Old Bai, Old Bai..."

Then with a swish, Han Fei rushed to the school gate.

Everyone was startled by his movement. "Go, let's go and have a look."

Old Bai was eating strawberries. When he heard Han Fei yell, he sneered, his face full of disdain.

Wenren Yu and Xiao Zhan were alarmed and flew up to the sky, looking at the door.

Han Fei rushed all the way to Old Bai. When he was still several hundred meters away, he suddenly roared and blasted out the Sacrificing Punch.

The huge flame fist disappeared instantly, but in the next second, the fist mark appeared in front of Old Bai.

“!...”

Old Bai quickly blocked the fist mark, and the chair under his butt had been crushed. But his reaction speed was extremely fast, and the moment he touched the fist mark, a defensive array had already appeared, which only took him milliseconds to set.

Crushing Han Fei’s fist, Old Bai said with a black face, “Are you crazy? You broke my chair! Make me a new one, the kind that can rock.”

Han Fei said carelessly, “President, President, what do you think of the latest technique I have come up with? Isn’t it very powerful?” With that said, Han Fei grabbed a twig and swung it several times, and as a result, a series of knife lights appeared 100 meters away.

Xia Xiaochan flashed over and when the knife lights came out, she exclaimed, “Sure enough, it’s not the Shadowless Blade, but it’s not like the Thousand-Mile Fishing Technique either!”

Qu Jinnan and Ling Yuan followed, only feeling that this senior brother was a monster. If he used this trick in the beginning, even if he reduced his strength by two realms more, they would still be unable to beat him!

At this moment, the two only felt that their lives were full of frustration.

In the arena, they were the fearsome twin stars from the Thug Academy, but in the school, they were like poor little animals being abused.

Han Fei was very excited about his epiphany. Just now, he suddenly wondered why couldn’t he use the knife light and fist mark like a fishing hook? So, he tried it with the Void Breaking Technique.

The results were surprisingly good. It could make up for the Sacrificing Fist’s shortcoming in speed and restored the 70% of its power, which was really gratifying

Xiao Zhan fell from the sky and looked at Han Fei for a while. When he walked to the place where Han Fei’s knife lights had just swept through, he gave a slight cry of surprise. Wenren Yu was a little surprised too.

“Have you thoroughly mastered the Thousand-Mile Fishing Technique?” Han Fei nodded. “Yes! But, it’s not that far. It was probably ten miles before, but it should be a bit longer now.” Old Bai snorted slightly. “It’s less than 30 miles from the Bull Conch Pit. Try fishing for one Bull Conch here.”

Han Fei didn’t know why but since Old Bai had said so, he took out his fishing rod and tried it.

However, as Han Fei swung his fishing rod, the hook fell 20 miles away and failed to catch the Hexagon Starfish.

At this moment, the Hexagon Starfish was enjoying the massage of Bull Conches, not realizing at all that someone was trying to fish for him.

Xiao Zhan scoffed. "B*stard."

Old Bai shrugged. "Alas.. Forget it, so were you simply lucky just now?" Han Fei wondered, "Huh? Lucky? I'm just not very proficient now. When I become more proficient, I will definitely be able to do it."

Old Bai shook his head and said, "I thought you had mastered the Thousand-Mile Fishing Technique, but that doesn't seem to be the case. You just tore that point apart."

Everyone: "???!"

Old Bai said, "The ability you have acquired just now is not new, but a bit rare. It is not new because the combat skill or ability you have learned is called Air Breaking Strike. Normally, all Hidden Fishers can do it."

Han Fei's eyes lit up. "That's enough! I can do something only Hidden Fishers can do. Isn't that great?"

Old Bai said lightly, "This combat skill itself is not unique, but I wonder why you can cut such a big opening in space. This is the key. If the opening is too small, this combat skill is basically useless."

Le Renkuang scratched his belly. "What does it mean?"

Wenren Yu explained, "That is to say, the Thousand-Mile Fishing Technique actually involves a little bit of space power. It can make tiny things like fish hooks and fishing lines break through space, so they can appear thousands of miles away. But think about it, if you replace the fish hook with a fist, can you still break through space? You can't, because the opening is so small that you can't put it in." With that said, Wenren Yu glanced at Han Fei. "Han Fei managed to stuff his fist in just now, but this will inevitably affect the distance. This is why the President asked Han Fei to fish for the Hexagon Starfish in the conch pit. Han Fei failed. This shows that the longer the distance, the weaker his use of this ability." Xiao Zhan said indifferently, "It doesn't matter. This combat technique is suitable for close combat. Han Fei, try punching the sky. Let me see how far your fist mark can go."

Han Fei seemed to understand a little bit. Miss Wenren meant that the bigger the opening, the shorter the distance was. But although the distance was short, it was enough for close combat! What were the advantages of the Thousand-Mile Fishing Technique? It was that it could cross a thousand miles in a flash. If this was used in close combat, it was equivalent to increasing one's speed of attacking. Han Fei threw out a fist mark again but it was just a golden fist mark out of the Art of Invincibility. Han Fei used this punch to the extreme, which appeared 800 meters away.

Xiao Zhan said with joy, "Nice. It can go quite far still! Han Fei, well done."

As soon as Xiao Zhan said so, a dagger suddenly appeared in front of him, which really startled him.

"Puff!"

Immediately afterward, another dagger appeared 2000 meters away.

Xia Xiaochan kept brandishing the dagger in her hand. In the end, under everyone's stunned gaze, the dagger fell as far as about 2,400 meters.

“Wow!!

Xiao Zhan, Wenren Yu, and Old Bai all took a breath.

Wenren Yu immediately said with excitement. “Xiaochan, how did you do it?!

Xia Xiaochan brandished her dagger and said, “Just like what you said just now! I feel it a bit like my Shadowless Blade, so I tried to blend it with the Thousand-Mile Fishing Technique! It’s pretty simple.”

Xia Xiaochan was also very excited, thinking that Han Fei’s idea was good.

Old Bai put his hands behind his back. “I’m going to the field to dig up some vegetables for dinner.”

Xiao Zhan was silent for a while. “I’m going to catch a Bull Conch for dinner. They have almost become that starfish’s servants.”

Xia Xiaochan wondered, “Miss Wenren, am I not good enough?”

Wenren Yu was surprised. “No... You are more talented than Han Fei! However, the ones most suitable for this combat skill are probably Han Fei and Le Renkuang.”

Le Renkuang’s body stiffened and he thought, What does it matter to me? I haven’t learned the Thousand-Mile Fishing Technique! How can I be compared with these two monsters?

Han Fei was full of curiosity. He used the Void Breaking Technique, but how did Xia Xiaochan manage to do it? And her attack could reach more than 2,000 meters away! This was simply amazing!

Wenren Yu just said lightly, “Don’t pursue these skills too much. Don’t forget your original intentions! Han Fei, did you just plan to practice knives in the beginning?” Han Fei shook his head. He planned to study arrays but he forgot. As a result, Master Hexagon had been living in comfort in the Bull Conch Pit for almost a month.

“However, you don’t have time to study anything else now. Take a two-day break and prepare to go to the Wind Thunder Town for a vacation... Er, join in a competition...” Everyone: “...”

Chapter 562 Ninety-Eight Pearls In Exchange For A Spiritual Weapon

There were 36 towns under the Thousand Star City.

Among them, the status of the Wind Thunder Town was just like the status of the Heavenly Heart Village in the Blue Sea Town. It ranked the top among all the towns and was the strongest in overall strength.

Aside from anything else, its strength could be seen from one thing alone, which was teleportation arrays.

The Wind Thunder Town had teleportation arrays to other 35 towns, but other towns only had teleportation arrays to the level-three fishery and the Wind Thunder Town. Even in a more developed town, there were generally no more than 5 teleportation arrays.

Xiao Zhan was speaking to Han Fei and the other four.

Xiao Zhan said, "This time, our opponent is actually only the Wind Thunder Town, provided that you try not to use secret methods and ultra-quality spiritual weapons. If they agree, don't use your spiritual beasts or contractual spiritual beasts either."

Old Bai coughed. "But, don't lose the face of the Thug Academy. If necessary, you can use them. It's up to you." Luo Xiaobai nodded. "OK."

Xia Xiaochan said, "Are the other towns weak?"

Xiao Zhan said, "Of course not. There may be powerful characters in every town, but this is just relative. For example, Li Hanyi, that kid is not bad in the town. But in the Thousand Star City, he is very weak. In fact, even in the Cloud Soaring Town, the weakest of 36 towns, also has heavenly talents."

Hearing the name of this town, Han Fei frowned. Lin Miaomiao was from the Cloud Soaring Town! He thought that the Cloud Soaring Town should be very strong. After all, Lin Miaomiao seemed to have been there for a long time when he arrived at the level-three fishery. Han Fei couldn't help asking, "Teacher, is the Cloud Soaring Town really the weakest of all towns?" Xiao Zhan nodded. "Yes, the Cloud Soaring Town has been declining in the past 100 years. The main reason is that the Cloud Soaring Town hasn't selected a mayor for decades, which made it impossible for the Cloud Soaring Town to compete with other towns." Zhang Xuanyu said, "Why don't they select one?"

Old Bai slapped Zhang Xuanyu's head. "Do you think anyone can be the mayor? Firstly, the mayor must be a Hidden Fisher; secondly, he must be born in the town; thirdly, all those who can be mayors come back from the Unknown Place. And of course, his strength can't be too strong. Otherwise, he wouldn't want to be a mayor..."

Han Fei said in amazement, "Isn't it said that very few people can come back from the Unknown Place?" Old Bai glanced at him. "Do you think that all the people who go there die? Some people do die there... The Cloud Soaring Town only had a new mayor a few decades ago, but he seemed to be disabled."

Le Renkuang couldn't help but say, "President, we can't look down on the disabled!"

Smack!

Old Bai angrily said, "Do I need you to teach me this?"

There were still not many people on the teleportation island, but many people were seeing them off outside the island.

Among them, most people hoped that those who went to the competition could win. As long as they won, the Blue Sea Town would have more resources in the coming year and its ranking would be higher.

Only a small number of people were reluctant to see them leave.

These people were mostly the parents of students from the three major academies. They were not that concerned about the results of the competition. What they worried about was that after this competition, within half a year, their children would go to a place they didn't even know.

The Unknown place was a secret for most people. No matter how developed the intelligence in the Blue Sea Town was, ordinary people had no right to know anything about the Unknown Place.

Even the children of the big clans in the Thousand Star City actually didn't know anything about the Unknown Place before they went there.

When the Thug Legend team arrived, shouts erupted from the crowd.

"Han Fei, come on! Defeat them." "Xia Xiaochan, bring your violence out."

"The rise of the Thug Academy is just one step away." "Brother Yu, you must make a name in the 36 Town Competition this time!"

"Goddess Luo, don't fall for a handsome guy in the other towns."

As representatives of the town, the Thug Legend team would fight for the benefits of the town, so no one would be stingy with their appreciation and encouragement. However, someone ruined the atmosphere.

Han Fei said to the crowd, "Does anyone want to sponsor us? We can bring you featured products when we come back. Starting with 1,000 mid-quality pearls. If you'd like to sponsor us, you can go to the Fish Dragons to pay the money!"

Old Bai and the others were taken aback. "Excuse me?!" The people seeing them off were speechless. No f*cking way, Bro! However, immediately someone shouted, "When you bring the featured products back, we will go buy them." Han Fei rolled his eyes and said, "When I bring them back, are you sure you can still get them? Trust me, your investment will be worth the money! 1,000 mid-quality pearls... Uh... OK, I can give you a discount, 998 will be enough. Only 998 mid-quality pearls! So hurry up and sign up if you need it!" However, in the crowd, large numbers of people rolled their eyes at Han Fei.

Someone taunted, "He must be crazy. I don't even have 998 mid-quality pearls."

Zhang Xuanyu said, "Feifei! Maybe the price is a bit high. This is not the level-three fishery."

Han Fei was stunned. "Really? I thought that people were very rich now!"

Han Fei shouted again, "Hahaha! I was just kidding. Actually, not 998, not 888, but 98. As long as you pay 98, you can take featured products home. You won't lose anything. Sign up now and you may get a mysterious gift. One hundred low-quality spiritual weapons will be given out at random. For every 100,000 people who sign up, an additional 100 low-quality spiritual weapons will be given... What are you still waiting for?"

"Wow!"

Someone exclaimed, "Really?" Some people didn't believe him. "How is it possible for you to give out spiritual weapons for free?"

Han Fei patted his chest and said, "You have my word! Where are the members of the Fish Dragons?"

A dozen or so people immediately popped out of the crowd. "Yes, Leader, we are here."

"Leader, I'm always at your service." "Leader, please command us." Han Fei said, "Remember to keep accounts. Remember to promote. You won't let me down, will you?" "Yes, Leader!"

“Leader, you can rest assured.” Seeing this, someone said, “98 mid-quality pearls doesn’t seem too much. Maybe I can have a try.”

Someone nodded. “Yes, it seems like a good deal. I can afford 98 mid-quality pearls.”

“I wonder what he will bring back? By the way, is he going to travel?”

“Hey! Bro, come, sign my name up first.”

This man thought that being the first person to register, maybe he could get a low-quality spiritual weapon!

No one thought Han Fei was cheating them all. After all, the Fish Dragons were a new rising power in the Blue Sea Town. They made tons of money every day. The Fish Dragons could absolutely afford 100 low-quality spiritual weapons. The members of the Fish Dragons were immediately overwhelmed by the crowd. “Brother, come on, sign me up.” “Hey, I came first. Get in line.” “I was here already! I should be the first to register.”

...

Old Bai and the others were dumbfounded.

Le Renkuang tugged at Han Fei’s sleeve. “Can this work? In the Blue Sea Town, 100 low-quality spiritual weapons are definitely not cheap. They will cost hundreds of thousands of mid-quality pearls.”

Xia Xiaochan grinned. “I have a lot of them here! Much more than 100! Almost 1,000.”

“Uh...”

Old Bai stroked his beard. “It seems to be feasible.”

Le Renkuang asked, “98 mid-quality pearls in exchange for a spiritual weapon? Isn’t it better to sell them?” Han Fei rolled his eyes at him. “Have you seen anyone in the town spend hundreds of thousands of mid-quality pearls to buy spiritual weapons? Our purpose is to exchange those rubbish low-quality spiritual artifacts for money.”

“Ohh!”

Zhang Xuanyu took a breath. “You are a real snake!”

Old Bai smacked his lips and thought to himself, If this kid were a full-time businessman, he would be very successful.

Han Fei asked, “President, since you and the teachers are so strong, won’t you easily make a fortune if you randomly get something to sell? Why is our school so poor?” Xiao Zhan smiled. “You’ll find out in the future.”

Everyone: “...”

In front of the teleportation array, there were as many as 500 people. The heavenly talents of the Blue Sea Town were all here.

In this exchange contest, the mayor and the four presidents would jointly lead the team, and the mayor shouted, "Let's go."

The 500 people lined up and stepped into the teleportation array in order. Han Fei poked Xiao Zhan and asked, "Teacher, why doesn't Miss Wenren, Qu Jinnan, and Ling Yuan go with us? The other three academies almost brought all their excellent students with them." A smile appeared on the corner of Xiao Zhan's mouth. "They will go there someday, but not now. These two days, they'll have their own business to do. Let's go. It's time to show you off as the strongest in town."

Chapter 563 Han Fei, The Airhead

When Han Fei and the others arrived in the Wind Thunder Town, they appeared on a huge indoor teleportation square densely packed with people. Under their feet was a carved bluestone fish sketch on the floor.

The clothing styles of these people were only slightly different. It seemed that there was no special exotic charm. When Han Fei and the others appeared, they only attracted some people's attention, but they didn't look surprised. Especially when the Thug Legend team showed up, they didn't arouse any curiosity because there was only one peak-level Dangling Fisher among them, Luo Xiaobai.

Not all the students who came to participate in the exchange competition had gone to the level-three fishery, so many people had not actually seen Han Fei.

At this moment, Old Bai and the three major presidents occupied an area of several hundred meters in the square, and the three major presidents were beckoning the students who had walked out of the teleportation array to follow the team.

The Thug Legend team didn't follow the others though. They leisurely interspersed through the crowd and came to Old Bai.

The square was abuzz with people. The receptionists, wearing plain gauze, were all peak-level Dangling Fishers, and they were all young. Obviously, the Wind Thunder Town was well prepared to entertain the other towns. These peak-level Dangling Fishers demonstrated the strength of the town.

These young people, each with a smile, looked very hospitable.

Someone shouted, "Fiery Dragon Town, is the mayor of the Fiery Dragon Town here?"

"Everyone from the Red Moon Town, please follow me."

"Everyone from the Million Gold Town, please gather up quickly." "Dear presidents of the Divine Billow Town, please restrain your students." "Triumph Town..."

"Sea Source Town..."

All kinds of noise rang incessantly.

Soon, a peak-level Dangling Fisher came to the team of the Blue Sea Town. "Welcome, Master Mayor of the Blue Sea Town."

The mayor nodded slightly. "Where are we going to live?" The receptionist straightened his back and folded his fists, saying, "Master Mayor, the team of the Blue Sea Town will live on the Eighth Island of the Wind Thunder Town, in the Heart Tree City Inn. If everyone is here, please follow me."

The mayor nodded. "OK! Let's go!"

The teams were led away in all directions. Those students were full of curiosity and couldn't wait to have a look at the top of the 36 towns, the Wind Thunder Town.

Old Bai and Xiao Zhan naturally walked with the three presidents.

Han Fei and the other four followed closely behind, and they were not in a long line like the other students of the three major academies.

Xia Xiaochan couldn't help but curiously asked, "Are there eight islands in this town?"

The peak-level Dangling Fisher smiled and said, "Our Wind Thunder Town consists of nine floating islands. We are now on the central island. The other eight islands are also quite distinctive. The Tree Core City you are going to is completely covered by forest. The island has a vast area of 196 square kilometers, with high mountains and flowing water above it, and underground caves below. It can be said to be the liveliest place here." Han Fei couldn't help but ask, "Are the other eight islands also this big?" The peak-level Dangling Fisher smiled. "No, the eighth island ranks eighth and is the smallest one. The area of the first island is almost twice that of the eighth island."

"Wow!"

Han Fei couldn't help taking a breath. Isn't this too damn big? Even if this is the first town, its area is too vast, much larger than that of the Blue Sea Town.

Han Fei once suspected that even the Thousand Star City was about the same size as the Blue Sea Town. But now it seemed that he was really ignorant. Han Fei asked, "Mayor, why doesn't our Blue Sea Town have a few floating islands?"

The mayor staggered. Are you f*cking kidding me? Do you think I am the Sea God?

The mayor looked back at Han Fei. "Well, when you become more capable in the future, you can catch an island and merge it with our town, and then we will also be very big." Han Fei grinned. Why should I bother? I am not the mayor.

Old Bai said leisurely, "You ignorant brats. Is this big? It doesn't even span thousands of kilometers!" The peak-level Dangling Fisher who led the way secretly smiled. Yeah, keep bragging. Thousands of kilometers? Your Blue Sea Town is even not as big as our one town!

Luo Xiaobai said, "It's really not that big. If it expanded ten times, it would be narrowly qualified to become a city."

The mayor and the three presidents all looked at Luo Xiaobai. Little girl, have you ever been to the city? Do you know how big the city is?

As they chatted, they walked out of the palace-like indoor teleportation square.

After going out, they saw three huge mountains towering into the clouds at first glance. The mountains were surrounded by clouds and mist, and their tops couldn't be seen at all.

Someone from the three major academies exclaimed, "What high mountains!"

"Wow, the mountains reach the sky."

"It's spectacular."

The presidents of the three major academies turned their heads and stared at the students as if saying, "Shut up! You're losing face!" The peak-level Dangling Fisher's face was reddened and he was full of pride. He was very satisfied with the reactions of these students.

Only Le Renkuang muttered, "What's the big deal about these mountains? Our school has two big mountains too and we climb them every day." Xia Xiaochan whispered, "Exactly."

Xiao Zhan's face was a little red. The mountains in our school are less than 2,000 meters high. These mountains are as high as 8000 meters!

The peak-level Dangling Fisher asked curiously, "Does your town also have mountains?"

Han Fei patted the man on the shoulder and said, "You are too ignorant. You don't even know that we have two sacred mountains in the Blue Sea Town? Boy, you have to study geography!" The guide: "???" Everyone looked at Han Fei, including the mayor. He thought to himself, Since when does our town have two sacred mountains?

Han Fei began to brag, "According to legend, in ancient times, there was a god who came to our Blue Sea Town unintentionally. He marveled at the beauty of the town, praising that the river in the Blue Sea Town was as pure as a colored glaze. He landed in the Blue Sea Town and rested in the plantation in our town, drank morning dew when he was thirsty, and ate spiritual fruits when he was hungry. When he looked up, he saw that clouds and mist were faintly forming peaks, so he exclaimed, 'There should be mountains in this town.' So, two golden-armored immortals thousand meters tall came to the town with two huge mountains on their backs, which were called Tai'e and Wang Wu..."

"Huh!"

Some students from the three major academies directly sank to the ground. Holy shit, I've never seen anyone who is better at bragging than him in my life...

Li Hanyi looked away. Xiang Zuozuo secretly spat. Only He Xiaoyu at the rear of the team asked stupidly, "Is there such a legend in our town?"

Xia Wushuang hurriedly put up a finger. "Hush!"

Xiao Zhan and Old Bai were stunned. Gosh... Is he talking about those two small hills in our school?!

The three presidents moved slightly aside, ashamed to walk with the delinquents of the Thug Academy. The mayor opened his mouth and quickened his pace subconsciously. As for the peak-level Dangling Fisher of the Wind Thunder Town, he looked dazed at the moment. He didn't know Han Fei was fibbing at all. Looking at the pride on Han Fei's face, how could it be fake?

Zhang Xuanyu quickly echoed, "Feifei! What does our teacher usually tell us? When going out, keep a low profile." Le Renkuang quickly added, "Yes, in case others covet our belongings."

Xia Xiaochan and Luo Xiaobai held hands and each took out two pieces of jewelry.

Xia Xiaochan asked, "Xiaobai, what do you think of my bell?" Luo Xiaobai grinned. "Exquisite." The peak-level Dangling Fisher asked, "Is it really that amazing?" Han Fei hurriedly coughed. "Ahem! You didn't hear anything. I didn't say anything... The biggest problem with me is that I can't control my mouth. I'm too honest... Alas, Brother, promise me you won't tell others, OK?"

The peak-level Dangling Fisher nodded. He couldn't help but wonder, are there any legends about the three mountains in our town? Well, let me check the information myself after sending them to the inn.

Old Bai interrupted, "What are you waiting for? Hurry up. Follow the team!" "OK, OK!"

The peak-level Dangling Fisher came back from his thoughts and quickly apologized, "Sorry, everyone, please come with me. Your inn is one thousand meters away. Let's fly over in a fishing boat"

"Huh! Brother, can you take a fishing boat within the town?"

Chapter 564 A Bird Appeared

The students from the other towns had taken out their fishing boats and were rapidly flying to the sky at this moment.

For a time, the sky was covered with fishing boats. However, there were thousands of fishing boats patrolling back and forth in the high altitudes. In Han Fei's perception, there seemed to be a threat from above, a strong master above the realm of a Dangling Fisher.

When everyone walked out of the teleportation hall and looked back, the building looked like a huge oval pie, a bit like the Bird's Nest.

But no matter what kind of a building, as long as it was big enough, it was enough to fool people. Xiao Zhan said, "There is a seal within a kilometer here."

The peak-level Dangling Fisher hurriedly said, "Yes, our Wind Thunder Town has a large daily traffic flow, so we set a seal to prevent some dangerous people from coming in."

The mayor and the presidents turned around and said, "You go on your own, we have something to discuss. Remember, don't cause trouble." When they were all gone, the peak-level Dangling Fisher said, "Everyone, you can take out your fishing boats and take off. Please follow me and try to slow down the fishing boat."

Le Renkuang muttered, "Why slow down? Let's be quick! Does the Tree Core City have any delicious food?"

The peak-level Dangling Fisher answered, "It's because we can't drive too fast in the town. Otherwise, the sky would be full of beams of light, which would be very inconvenient for the patrolling personnel."

Now, the students were led by the teachers from the respective academies. The Thug Academy had a total of 6 people, so they only needed one fishing boat.

When the Ghost Speed Divine Boat was taken out, the peak-level Dangling Fisher was stupefied. He exclaimed, "A Ghost Speed Divine Boat?" With the exclamation of the peak-level Dangling Fisher, many people followed the sound.

Some people looked indifferent, some were surprised, and some were shocked...

Suddenly, someone exclaimed, "Han Fei, that's Han Fei."

"What, where is he? Where is Han Fei?" "My God! That's Xia Xiaochan..."

"Damn, the Thug Academy, all the five students from the Thug Academy are there."

"Did they come back from the level-three fishery?"

There were too many people here, so at first, no one paid attention to Han Fei and the other four. However, at the moment when the Ghost Speed Divine Boat appeared, the first thought of many people was that wasn't the Ghost Speed Divine Boat exclusive for the children of the big clans in the Thousand Star City? Many people had been to the level-three fishery, and only a few had ever heard of the Ghost Speed Divine Boat. However, there were only a dozen Ghost Speed Divine Boats in the level-three fishery. From this, it could be seen how much impact a Ghost Speed Divine Boat would have on these people! The people from the other three academies in the Blue Sea Town were a bit jealous. They already knew about this. This time, many people just took this trip as a vacation. After all, with the Thug Legend team here, they wouldn't have any chance. Behind, He Xiaoyu tugged at the sleeve of Zhong Yue, who was among the top ten, and asked, "What is a Ghost Speed Divine Boat? Is it powerful? Why is everyone so surprised?" Zhong Yue took a look at the Ghost Speed Divine Boat and sighed. "This is the best fishing boat in the level-three fishery, and it can travel up to 50,000 miles a day. When you go to the level-three fishery in the future, you will know."

"How much?"

Xia Wushuang looked stunned. This fishing boat can travel 50,000 miles a day? Are you kidding me?! He Xiaoyu smiled and looked at the back of Han Fei on the Ghost Speed Divine Boat, feeling a lot of pressure. She thought, Han Fei is getting stronger now. What should I do?

In the sky.

Everyone was amazed at the prosperity of this town.

In their field of vision, there were huge buildings, such as towers 100 meters high, water storage towers with a diameter of 1,000 meters, large outdoor arenas, and spiritual beast breeding gardens... The spread of the Wind Thunder Town was almost ten times larger than that of the Blue Sea Town.

Because the fishing boat's flying height was limited to less than 500 meters, everyone could only vaguely see eight floating islands around the central island. Some were higher than the central island and some lower.

Suddenly, Han Fei saw a large bird that stretched its head and flew over their heads.

A string of data appeared in his eyes.

<Name> Peace Loon

<Introduction> A large bird living on the cliff. Its wings can be up to three meters wide. Its speed is extremely fast, and it travels between the ocean and the cliffs every day. Its wings can break gold and stone, and its beak is as sharp as a spear. It can hunt ordinary marine creatures below level 30.

<Absorbable>

“A loon?”

Han Fei was stunned. He never thought that he would see a bird in the Wind Thunder Town. But if there were birds in the Wind Thunder Town, why not in the Blue Sea Town?

Sure enough, when many people saw the Peace Loon in the sky, they all exclaimed.

“Look, what kind of creature is that? It can fly.” “My Sea God, is this a legendary creature?”

“The pattern on it is so beautiful. Is it a spiritual beast?”

The peak-level Dangling Fisher who led the crowd secretly smiled and said in his heart, How comforting to see your shocked and envious looks...

Xia Xiaochan also grabbed Han Fei’s arm and shouted, “Look, look, what kind of monster is that? It seems weaker than us, but it can fly.”

Le Renkuang was shocked. “Wow, this creature is so amazing, I wonder if it’s delicious.”

“Puff!”

The fishing boat of the guide swayed. Who the hell are these people? You f*cking marveled at the bird for a long time and then asked if it was delicious?! Han Fei said with a dark face, “Shut up, you ignorants. That is an ordinary bird.”

“Huh?”

The man on the fishing boat in front turned his head with a jerk. “How do you know that it is a bird?”.

Xia Xiaochan also looked at Han Fei in a puzzle. “Yes, how do you know that?”

Xiao Zhan also looked at Han Fei curiously. How could he know about birds?

Han Fei said, “Someone once told me about this kind of creature. According to the bird’s flying posture, it will straighten its head and make it lower than its body, which makes it look a bit hunched. Therefore, this bird must be a loon. Of course, this is too esoteric for you. But as for birds, even if they are only level 1 and have no combat power, they can still fly. It’s just like we humans have arms, fish have fins, and trees have branches and trunks. This is just a difference in species. What’s so surprising?” Immediately, many girls from the other three academies controlled their fishing boats to surround Han Fei.

“Han Fei, tell me! Why is there no such creature in the Blue Sea Town?”

“Han Fei, tell me, what is this loon capable of?” “Han Fei, who told you this? Why didn’t our teacher’s tell us?”.

Han Fei was full of disdain. Sure enough, knowledge was power. He had never thought that a bird could attract such amazement.

At this time, Han Fei felt a sharp killing intent, and Xia Xiaochan waved her dagger. “If you don’t want to fall from the sky, walk away.” A girl immediately said, “Xia Xiaochan, it’s none of your business. We are not here for you!” Xia Xiaochan stretched out her dagger. “Are you leaving or not?” Threatened by Xia Xiaochan, these girls left reluctantly. The boys from the other three academies were all speechless. Come on, these guys are from the Thug Academy! When did you get to know them so well?

After those people left, Zhang Xuanyu, Le Renkuang, and Xia Xiaochan all caught Han Fei.

Zhang Xuanyu asked, “Feifei, tell me, what is that ‘bird’?” Xia Xiaochan added, “What is a loon?” Even Luo Xiaobai asked, “I know this creature. In fact, there are many such creatures in the Thousand Star City, but I don’t know their origin and skills.” Xia Xiaochan was shocked. “Xiaobai, do you also know these creatures?”

Han Fei smiled and said, “This is a creature that should live in a cold area. It can dive, swim, and hunt. However, this kind of bird is very stupid. Its sound is unpleasant and it sways when it walks. But as far as I know, loons don’t live in a place like this. They should live near the water.”

Then Han Fei shouted, “Hey, Brother, where did you get these loons?”

The peak-level Dangling Fisher in front just shook his head slightly. “Well, sorry, I can’t say it.”

Xiao Zhan sneered. “What’s so mysterious about it? This bird comes from the Unknown Place, but the one you just saw is too weak. It is very likely that someone brought them back from the Unknown Place. Only after several, even dozens of reproductions can this kind of bird become so weak.”

There was no Hanging Fisher among the teachers of the other three academies, and they had never been to the Unknown Place, so they could only shut up and listened to Xiao Zhan quietly. The boy in front of him smiled. “Senior, you are great.” While everyone was still marveling at seeing a bird, Han Fei was lost in thought. Do birds exist in the Unknown Place?

Also, according to Xiao Zhan, the birds in the Unknown Place seemed to be quite strong.

So Han Fei secretly asked Xiao Zhan, “Teacher, the Thousand Star City has existed for so long and by rights, birds should have been scattered all over the floating islands. But why can’t we see any of them in our town?” Xiao Zhan looked at Han Fei with a faint smile. “Tell me first how you got to know about birds...”

Han Fei raised his head and was wondering how to make up a lie when Xiao Zhan said to him via voice transmission, If someone told you, then you should have already asked him the question you asked me. If not, huh, how did you find out?

Han Fei rolled his eyes and replied, Old Jiang told me. Once he got drunk and told me about the birds. When I asked him again, he didn’t answer me.

Chapter 565 Tree Core City Inn

Xiao Zhan didn't ask, and Han Fei didn't tell, so the thing was over just like that.

However, Han Fei felt that there were more mysteries to the fact that birds didn't appear on regular floating islands. It was like nobody ever used a fishing net in the town. Did they never think of creating that? They certainly did. How could there be no nets in a place where people lived on fishing? Han Fei knew that there were nets in this world after seeing the Spirit Forbidden Net, but it remained unknown why nets didn't exist on the normal floating islands.

When the boat passed by the central islands, everybody saw a vast forest where the trees were exceptionally tall and thick. Some of them were even dozens of meters tall. The closer a tree was to the center, the taller it would be.

Han Fei saw a super tree almost a hundred meters tall at the very center, which was surrounded by other trees like the moon around stars.

Between the two floating islands were very thick chains. People were walking on them and looking at the sky now and then.

When the boat flew above the forest, Han Fei sensed that those trees had been hollowed, and people were living in them.

Also, Han Fei discovered, to his amazement, that many of those trees had horizontally-growing branches that turned into roads people could walk on. However, while Han Fei and the others sensed the forest with their mind, a boat flew close from the sky. Someone looked at Han Fei and his companions. "Honorable guests from the Blue Sea Town, please don't pry into the ordinary people's life with your mind. They can't detect you, but we can."

Xiao Zhan nodded. "Okay, let's cancel our senses!"

The peak-level Dangling Fisher ahead was stunned. They could sense it from an altitude of more than five hundred meters? Also, there was another distance of dozens of meters between the tree crowns and the living area. Could Han Fei and the others sense the residents?

The people from the other academies were all shocked. "What? A perception range of more than five hundred meters?"

Some people's eyes widened as they whispered to each other.

Someone said, "Do you think it's true? My perception range is only five meters, and theirs is five hundred?"

Someone was appalled. "Five hundred meters? Is that their upper limit?" "How can their perception range be so huge?"

Even the grand fishing masters who were here to attend the training sessions were at a loss.

"Perception? What perception?"

The regular students of the three academies didn't know what perception was yet! Under normal circumstances, their teacher wouldn't teach them that until they became peak grand fishing masters or Dangling Fishers. It would only be interpreted and inculcated into them by the time those students were to set off to the level-three fishery.

In fact, their teachers wouldn't really teach them that, because the level-three fishery wasn't a place where one's senses could be trained.

But Han Fei and his companions were different. They ran into a Rock-Holding Turtle when they were still beginner grand fishing masters, and grasped perception abilities when they were intermediate Dangling Fishers. After absorbing abundant amounts of Soul Crystals in the level-three fishery, their perception range was astonishingly large. The peak-level Dangling Fisher who led the way thought to himself, Thug Academy? Those five people seem really strong. They have only one peak-level Dangling Fisher, but their perception ranges are all greater than mine? Also, it's significantly greater, as my perception range is only three hundred meters.

The boat landed in the Tree Core City at the center of the eighth island. The team of five hundred people was rather crowded. Behind them, the students from other towns were flying close too.

They didn't realize exactly how tall the tree was until they landed.

Luo Xiaobai gave an answer very quickly. "It's 990 meters tall and 150 meters wide. It's almost entirely hollowed."

The peak-level Dangling Fisher smiled, as this couldn't be kept a secret from a distinguished manipulator. He didn't say anything but simply extended his hand courteously. "This is the best inn in the Tree Core City. Normally speaking, it's for the merchants of the Wind Thunder Town, or the people from other towns, but the mayor has decided that the Tree Core City Inn will be exclusively reserved for the contestants of the upcoming match."

Han Fei and the others secretly complimented the mayor's generosity.

The man continued, "Ladies and gentlemen from the Blue Sea Town, because the Blue Sea Town ranks high among the 36 towns, we've arranged the top two hundred meters for you to stay in. Of course, only the students who are above Dangling Fishers can stay here. The grand fishing masters can go sightseeing there, but I'm afraid you'll have to stay in the regular tree houses around."

Naturally, Xiao Zhan was fine with that. Seeing that no presidents were around, he said matter-of-factly, "The Thug Academy will take the best place."

The teachers from the other academies were quite bummed, but there was nothing they could do as Xiao Zhan's level was much higher than theirs.

Also, Han Fei and his companions were the top five of the Blue Sea Town. They were justified to stay on the top. Han Fei grinned. "Let's go to the top!"

There were stairs in the tree house, but nobody was willing to climb 900 meters of stairs. So, although people from the Blue Sea Town seemed to have been given the best rooms, it was a test on them too.

At this moment, many residents of the Tree Core City were observing them. It was absolutely impossible to climb the stairs.

Xiao Zhan found it simple. He didn't even activate his wings but simply stepped onto the air and flew to the heights.

Everybody including the peak-level Dangling Fisher gasped. A Hidden Fisher? Someone said in amazement, "As expected of a major town that ranks 12th! The contestants of the Blue Sea Town are led by a Hidden Fisher! He's strong enough to be a mayor, right?" Next, Luo Xiaobai pointed her finger, and five vines descended from the top of the tree.

Han Fei and the others grabbed the vines, and the vines automatically retracted and took them up like elevators.

The peak-level Dangling Fisher was rather disappointed that he didn't witness other people's abilities, but he could tell that the manipulator was very strong to summon vines without causing any spiritual waves.

Behind them, some people jumped upward. After all, there were plenty of branches, and it wasn't disgraceful to jump on them. Some other manipulators took "elevators" upward like Luo Xiaobai did, but their manipulation range wasn't as big as hers and could only reach the middle of the tree.

Some went up with wind manipulation techniques, some asked other people to throw themselves up, and some controlled their weapons to transport them...

The peak-level Dangling Fisher adopted the same approach as Luo Xiaobai did. He seemed to have a manipulator partner up above, so he didn't reveal his strength at all. On the top, Luo Xiaobai and the others were already in the room, which was fully furnished with natural ornaments. There were fish grass patterns on the door, and the windows were hollowed out. The bed was even round, like that in a themed suite.

They claimed the second layer of space from the top. The problem was that the place was too huge for the five of them. How could there only be five rooms in a space of 18,000 square meters? Even a presidential suite wouldn't be that big! Han Fei couldn't help but ask, "Bro, this place is too huge. If we can't occupy it, can we invite other people to stay with

us?"

The peak-level Dangling Fisher said with a smile, "You can certainly do that if you're up for it. You're free to make arrangements during the match."

Xia Xiaochan asked, "But you just said that the grand fishing masters couldn't stay here, didn't you?"

The man smiled. "It's only meant to reserve more living space for you so that you can have the best experience, but if you're willing to give some of the space to your grand fishing master students, you can certainly do that."

Suddenly, the man realized that the other people from the Blue Sea Town all went to the floor below. He was stunned. "Guys, you aren't with them?"

Han Fei smiled. "Of course not. We're not from the same academy, and we certainly don't stay together." The man was shocked. "Wait, there are only five people in your academy?" He was completely dazed. Are you kidding me? Other academies sent hundreds of students here, but you only have five?

Han Fei, however, laid his arm on the man's shoulder and said, "Bro, don't bother how we're going to stay here, and tell me all about your local specialties! I want cheap things, preferably one mid-quality pearl for each." "Well... About that, why don't you go shopping? There are plenty of stores on the ground. If you can't find them, we've arranged twenty tour guides who can show you around."

Le Renkuang immediately said, "Why didn't you tell me that sooner? Han Fei, let's go down and take a tour."

Zhang Xuanyu said, "Let's go. I'm dying to go down. We live in tree houses all the time. It's boring."

Luo Xiaobai nodded too. "This place looks nice. I want to take a look around too."

Han Fei grinned and patted the man's shoulder. "Bro, see you soon. We'll take a tour first. You can welcome the others!"

Then, Han Fei and his companions jumped off from the tree like fish diving into the sea in delight.

The peak-level Dangling Fisher was quite amused, as these people did not seem to have the demeanor of top experts!

...

Before Han Fei and the others landed, they had found that many people seemed to be quarreling at the bottom of the tree.

Someone roared, "Are you accusing us of seizing the Cloud Soaring Town's room? You don't have enough people to hog the floor anyway. What's wrong with making use of the additional space? Also, the Cloud Soaring Town ranks last among the 36 towns. You aren't supposed to be here in the first place."

A woman in her twenties, trying to hold back her fury, argued, "It's the mayor of the Wind Thunder Town's arrangement. Are you questioning his authority?"

Chapter 566 Serving Justice With a Punch

The teacher from the Cloud Soaring Town seemed rather weak. Although she was an advanced Dangling Fisher, the teacher on her opposite side was a peak-level Dangling Fisher.

Also, there were no more than a hundred Dangling Fishers from the Cloud Soaring Town, but almost three hundred grand fishing masters.

Han Fei already realized what was going on. Since the Cloud Soaring Town had been weak, they sent a lot of grand fishing masters for them to learn from other people by observing the match.

While Han Fei was still flying, he suddenly pushed Le Renkuang aside.

Le Renkuang: “???” Down below, the two parties were still fighting, when they suddenly raised their head. The peak-level Dangling Fisher hurried to get out of the way as he didn’t want to be killed by the crash.

BAM!

Le Renkuang landed and asked innocently, “Fei, why did you push me?” “Did I?”

Le Renkuang was lost for words. Do you really not know whether you pushed me or not?

Before Le Renkuang said anything, the teacher simply roared, “Which town is this student from? Did you not see the people down below?”

Han Fei laid his hand on Le Renkuang’s shoulder and glanced at the teacher, before he asked a tour guide of Wind Thunder Town, “Which town is he from? Why is he so rude?”

The tour guide was briefly stunned, wondering if it was intentional. However, as tour guides, they would love to see conflicts between towns if it was possible.

It would be even better if they were involved in a fight! The tour guides could stop them when they must. It would be easier to tell how powerful these towns were in this way.

Another reason was that the Cloud Soaring Town was too weak and ranked last, and the people of the Wind Thunder Town despised them at the bottom of their hearts.

Before the tour guide said anything, the teacher had already snapped, “I’m a teacher from the First Academy of the Fiery Dragon Town. Where’s your teacher? I’d like to speak to him and ask him why his student can be so arrogant!”

“Puchi!”

Xia Xiaochan couldn’t help but laugh out. “He’s truly bold.”

Although he didn’t know why Han Fei was intervening, Zhang Xuanyu had to support his brother. He smiled and said, “You think you can confront our teacher as a peak-level Dangling Fisher? You wouldn’t even dare say anything to him.” Han Fei said with a smile, “Tsk, tsk. Do you hear that? I couldn’t have put it better.”

Le Renkuang also said straightly, “You are too weak to meet him.”

On the Cloud Soaring Town’s side, they didn’t know what to say about Han Fei’s intervention. At first, the female teacher even thought that Han Fei only got involved by accident.

But the students from the Cloud Soaring Town all felt great.

“Humph! The ranking of the Fiery Dragon Town isn’t much higher. Why are you so cocky?”

“That’s right! You’re too mean to occupy our rooms!”

“It’s outrageous that you ask grand fishing masters to stay on the same floor with the Dangling Fishers!”

“Is the Wind Thunder Town not going to take care of this?”

The tour guide from the Wind Thunder Town said, "Of course we'll take care of it, but since you have some empty rooms, we can't totally reject the Fiery Dragon Town's request. We've already sent someone to ask." The tour guide spoke sincerely and gently. Nobody could be angry with him for what he said.

The tour guide said, "Ms. Ling Ling, would you rather wait for a moment?"

The tour guide on the Fiery Dragon Town's side also said, "Mr. Xue Nan, let's not make things ugly. You're all guests here. Why don't you wait for a moment?"

Han Fei frowned. What's the point of waiting? A mayor couldn't unsay what he had already said. The space that he promised the Cloud Soaring Town wouldn't be assigned to other people at all. Those tour guides were simply dawdling. Did they want to start a fight?

Han Fei smiled and said, "Hey, it seems that the mayor of the Wind Thunder Town isn't authoritative enough!"

Luo Xiaobai furrowed her brows. "By logic, the Fiery Dragon Town shouldn't take the Cloud Soaring Town's rooms."

Xue Nan from Fiery Dragon Town sneered. "We'll see about that, but I'm more interested in you than the rooms right now. Which town are you from?"

Han Fei scoffed. "The Blue Sea Town. What do you think?"

Immediately, a student from Fiery Dragon Town sneered. "The Blue Sea Town only ranks 12th, and you're so arrogant? The Fiery Dragon Town ranks 18th, but we're stronger than you, aren't we?"

"That's right! Only one of you is a peak-level Dangling Fisher, and the other four are all advanced Dangling Fishers. Are you really from a major town ranking 12th?"

Someone laughed. "Chances are that they'll drop to the 22nd place after the match!"

"Hahaha..."

Students were the harshest of all. They were in the most immature phase of life, and usually, they would consider everybody who wasn't on their side an enemy when they defended their interests and reputation.

Xia Xiaochan was exactly one of those bad-tempered students. She had even stabbed Han Fei a lot. Why would she make those people exceptions?

"Shua..."

"Ohhhh..."

"Ah!"

Xia Xiaochan appeared among the students on her opposite side after a blink and stabbed two of them. Then she flashed back before anybody realized what happened.

Xue Nan was greatly shocked. "Asshole, you are disrespectful and disobedient. You dare to attack the students of the Fiery Dragon Town?"

As he talked, Xue Nan had already snatched Xia Xiaochan despite the persuasion of the tour guide of Wind Thunder Town.

BAM!

A golden fist flashed and blew Xue Nan dozens of meters away.

Xue Nan was greatly shocked after he regained balance. Did the young man do this a moment ago? Was an advanced Dangling Fisher capable of doing this? The tour guides of the Wind Thunder Town, who were about to mitigate the situation, all shut up and looked at Han Fei with great interest.

The punch was so fast just now that they saw that the leading teacher of the Fiery Dragon Town was blown away after one flash. Was that really something an advanced Dangling Fisher could do?

Han Fei sneered. "Now, do you think the Blue Sea Town is worthy?"

Before the team of the Fiery Dragon Town, a few other teachers stepped out. Someone scolded him, "Boy, how dare you..." Someone roared furiously, "The Blue Sea Town is truly arrogant!" Ling Ling from Cloud Soaring Town slightly changed her expression as she was shocked by Han Fei's capabilities, but then she spoke telepathically, The people of the Fiery Dragon Town are all passionate about fighting. Be careful.

Han Fei smiled and tilted his head, looking at the people from Fiery Dragon Town. "A teacher should be like a teacher. You think you're justified to bully a friendly town?"

Xue Nan rose and waved his arm, before he gazed at Han Fei coldly.

As the leading teacher, he represented the honor of his town now that the mayor and the president were here. Now that he had lost his honor, this whole thing couldn't end easily anymore.

He had a fight with the Cloud Soaring Town earlier because of honor too.

Immediately, the man bellowed and unleashed the shadow of a long-necked turtle. "Spiritual Turtle Water Shocking Punch!"

Han Fei was instantly amused. He found those who cried out the techniques that they thought to be awesome very hilarious. He felt that the people from the Fiery Dragon Town were truly reckless.

Han Fei instantly took out a twig and swung it randomly, and it instantly hit the enormous fist.

"Check out my Turtle Suppressing Demon Taming Saber."

Xia Xiaochan and the others: "???"

Le Renkuang even tilted his head and looked at Han Fei. "What's that?"

"Puchi!"

The fist was cut open by Han Fei's stick move, which pressed on unstopably.

At this moment, Xue Nan finally realized how strong Han Fei was. Appalled, he hurriedly protected himself with a turtle shield.

Clang~~~~

Xue Nan's butt hit the ground. He wasn't exactly hurt, but one of his hands had turned numb and was shivering.

"Hiss!"

The several hundred students who watched the fight were all astounded by Han Fei's toughness.

Many students from the Fiery Dragon Town were dumbfounded. Was he really a student from the Blue Sea Town? Wasn't he too strong? Many people on the Cloud Soaring Town's side were dazed too. That man was a peak-level Dangling Fisher, yet he could resist one attack from a student of the Blue Sea Town. Wasn't it frightening?

A lot of them seemed envious, wishing that they could be as strong as him.

Ling Ling's eyes constricted. Was the Blue Sea Town so powerful at this moment? But it didn't seem right! He would count as an expert even in the Wind Thunder Town with his strength!

The two tour guides from the Wind Thunder Town looked at each other in surprise. They had thought that the students from the Blue Sea Town were only mediocre, but Han Fei was an eye-opener! What kind of monster was he to crush someone above his level with one attack?

At this moment, the tour guide for the Blue Sea Town seemed to have noticed the fight down below and was going down from the tree. He almost fell off after seeing the scene.

"He's so strong." "What's going on?" the tour guide for the Blue Sea Town asked the other tour guides coldly.

"It's an honor to meet you, Senior Brother Pan Yi..."

Pan Yi's expression slightly changed after receiving their telepathic message. He turned around and said to Ling Ling, "Sorry, guys. My junior brothers have just graduated from school and don't know what to do in certain situations. Please forgive them."

Ling Ling finally looked better. She smiled and said, "We must thank the students from the Blue Sea Town for their help, or this thing would've become huge."

Pan Yi nodded and looked at Xue Nan. "Mr. Xue, the mayor has already decided the guests' living standards. Please abide by the rules, or none of us will be happy with too much tension."

Xue Nan glared at Han Fei and then shouted at the students from the Fiery Dragon Town. "Let's go!"

Chapter 567 I Want A Million Pieces

After everybody from the Fiery Dragon Town entered the inn, Ling Ling walked up to Han Fei. "Thank you for your help."

Han Fei grinned. "No need to thank me. I'm just a warmhearted man who serves justice with my fist when it's needed."

"Well..."

Ling Ling's lips curled, as she found that this man seemed to have a thick skin.

Immediately, the students of the Cloud Soaring Town came close, and a girl asked, "Sir, what's your name?"

"Sir, why did you help us? Are you interested in any girls from the Cloud Soaring Town?"

"Sir, the Cloud Soaring Town is famous for its gorgeous girls." "Sir..."

Han Fei suddenly felt that something was wrong. Why did his waist hurt so much?

Han Fei merely chuckled and said, "Don't ask me why. Just call me Lei Feng."

As he talked, he grimaced and said, "Well... There's something else I need to do. I have to go. Bye bye..."

Han Fei slipped off and looked back while he ran. "Xia Xiaochan, let's just talk nicely!"

Id

Covering his head, Zhang Xuanyu leaned closer to Luo Xiaobai. "How I envy them!"

Luo Xiaobai shook him off. "Get lost!"

Le Renkuang chased them and shouted, "Fei, wait for me! Do you think we should have some of the local specialties first? I've already seen some restaurants!"

The Tree Core City was called the Tree Core City because it already lived inside trees. In between the altitude of ten and thirty meters, there were stores that sold a myriad of items.

Within ten kilometers from the central tree Han Fei stayed in, all kinds of special products could be found.

Dumplings, fish balls, seafood, clothes, weapons, fishing poles, daily necessities, and all the other resources that one might need were available.

Le Renkuang's target was food. He entered one of the tree houses and returned with dozens of skewers of fish balls and shrimp dumplings.

Therefore, Han Fei and the others became complete tourists who simply ate, drank, and roamed.

Luo Xiaobai suddenly asked, "Han Fei, why do we need so much money?"

Han Fei smiled and remembered that even the spiritual stones had turned into currency in the Unknown Place. He immediately said, "Because we'll need a lot of money. I really hate it that Uncle Faceless robbed us of five billion pearls, or we wouldn't be in such need of money!"

Xia Xiaochan said, "If I sell the thousand low-quality spiritual weapons I have, they will be worth a hundred million in total. The other miscellaneous items probably amount to a hundred million too. That'll be two hundred million in total."

Zhang Xuanyu wasn't convinced. "I don't think the ordinary people of the Blue Sea Town can take in that much, can they?" Han Fei smacked his lips and said, "That's right. They certainly can't. A lottery with a 0.1% chance of winning a low-quality spiritual weapon can only attract some people, but that will still be money!"

Zhang Xuanyu asked, "Fei, don't you still have a lot of money?"

"I don't have much left. I only have no more than five hundred million. I'm almost going bankrupt."

Everybody was lost for words. You have five hundred million, yet you tell us you're going bankrupt? What do you think bankrupt means?

All of a sudden, Han Fei saw a rather delicate tree house with "Carefully Carved Accessories" written on it.

Han Fei's eyes glittered. "Let's go! There are our specialties!"

Back in the Blue Sea Town, Han Fei had seen plenty of people wearing fish bone necklaces, but there were no carefully carved accessories anywhere except in Linglong Tower."

At this moment, the five of them stood inside the store and were amazed by the novel items they had never seen before.

Xia Xiaochan's eyes instantly shone. "Wow!"

Luo Xiaobai was delighted too. Even a cold goddess like her couldn't resist the temptation of jewelry, and all kinds of jewelry could be found in this place.

The main categories included armbands, rings, earrings, necklaces, belts, pendants, ornaments, etc.

Based on what they were made of, they could also be subdivided into the bone ones, the metal ones, the plant ones, etc.

Also, some of them were for men, and others were for women.

Before the clerk arrived, Xia Xiaochan and Luo Xiaobai had already started murmuring and picking the goods. They compared the accessories and put them on. Not just the girls, even Zhang Xuanyu had started choosing items too.

Le Renkuang was the only one who still held his fish balls while he looked at Han Fei. "They don't seem very cheap." Han Fei grinned and said, "But they can't be expensive either!"

The hostess of the store, who was almost thirty years old, walked close gracefully. "Hey, are you honorable guests from other towns?"

Han Fei grinned and said, "Hostess, how much are the accessories in your store?"

The hostess smiled and said, "Young man, I can't give you a price unless you've picked an item! However, all the accessories in my place are affordable. You can't find a more affordable accessory store in the whole Tree Core City than mine."

After that, the hostess joined Xia Xiaochan and Luo Xiaobai. In her opinion, men had absolutely no purchase power in an accessory store.

But as for women, they would not leave empty-handed after they came in.

After no more than two minutes, the three women were all giggling. Even Luo Xiaobai never stopped smiling despite her usual coldness.

The hostess kept praising them, "Hey, my beautiful girls! If you put on these earrings, you can easily eclipse the angels!" "Hey, girl! With this neck ring, you will look absolutely intimidating in an arena. Your enemy will be too frightened to move." "Girl, this pair of rings is unique in the Tree Core City. You can give one of them to the boy you like."

"Also, look at this deep blue necklace that's dotted with azure gems from the sea. You'll be so stunning after you put it on that guys won't be able to withdraw their gaze from you."

"Come on, girl. I'll put it on for you, don't take it off..."

Han Fei: "..."

Le Renkuang: "..."

Zhang Xuanyu turned around and shouted, "Fei, Fei... Take a look. What do you think of my bracelets?"

Han Fei turned around and took a look, only to see that Zhang Xuanyu was wearing thirty bone and leather bracelets.

He roared furiously, "Damn it! Put those items back!"

Zhang Xuanyu: "???"

Han Fei shouted, "Xia Xiaochan, Luo Xiaobai, put those things down!"

The hostess certainly could not hold back. She immediately roared, "Boy, not that I'm criticizing you, but you can't talk to girls like that if you ever want to find a girlfriend. A girl needs to release her beauty and be complimented for it... Look at you, are you still single? Let me get a few items for you. I guarantee that a girl will fall in love with you the moment you walk out of this door..."

Han Fei: "..."

Han Fei gloomily stopped the hostess that was walking to him and bellowed, "Stop talking, I want everything in your place." The hostess briefly paused, but then she came back to herself. "Boy, you're too young to brag that!"

Han Fei sneered and picked up a random bracelet. "Look at this. Isn't it made of the bones from Green Turtles?"

He grabbed another necklace. "This is a gem excavated from the mines in the general fishery, right?"

"This bracelet is made of the shell of an Armored Turtle, right? How many such bracelets can you make out of one Armored Turtle?"

"These hairpins are made of the stings of Purple Tail Scorpions, right? How much are they worth?"

“And this pendant. It’s made of the Water Spirit Wood, isn’t it? It’s just the most commonly-seen wood at the bottom of the sea in the level-one fishery.” The hostess said quickly, “It’s very rare, very rare.”

Han Fei waved his hand. “All in all, everything I’ve seen so far is made of the items from the general, level-one, and level-two fisheries. How expensive do you think they can be?”

He pointed at a belt and asked, “Is this worth two hundred mid-quality pearls?”

The hostess said quickly, “It’s craftsmanship! Boy, I’m selling craftsmanship here! Look at my accessories in this place and see how beautiful they are!”

Han Fei tilted his head and said, “Just cut the crap. I’ll only ask you one thing. What discount will you give me if I buy all of your goods?”

Suddenly, a Blue Sea Wandering Dragon Knife appeared in Han Fei’s hand, and the ultra-quality battle suit emerged on his body. He held the Water Dividing Seal in his left hand.

Han Fei smiled casually, “I have plenty of money, but I would rather not waste it. Hostess, I’m talking about serious business with you. This may be the only chance in your entire life to get rich.”

“Hiss!”

The hostess was slightly shocked at the ultra-quality spiritual equipment. She didn’t know that this man was so rich.

She immediately smiled and said, “Boy, I’ve sensed that you are a magnificent and generous man since you came in... 70% discount. I’ll sell them to you with a 70% discount.”

Le Renkuang was greatly shocked. Where was the 70% discount from? Isn’t that too much? The hostess grinned her teeth and said, “A 70% discount is my final offer. I have tens of thousands of accessories on the three floors of my store. I won’t earn much if I sell them for a 70% discount!”

However, Han Fei simply raised his head and asked, “What discount will you give me if I ask for a million pieces?”

The hostess: “???”

Chapter 568 What Date?

At this moment, the hostess thought that the young man was messing with her, as nobody would be crazy enough to buy a million pieces of accessories at once. Was he going to feed on those accessories?

However, Han Fei simply waved his hand and threw out ten huge cases that contained almost twenty million mid-quality pearls.

He simply said, “Look, I have plenty of money. The problem is whether or not you have enough accessories.”

After a three-second stun, the hostess said quickly, "Yes, I do! I can give you however many accessories you want. Truth be told, boy, we have a lot in storage. I should be able to transport a million to you from the warehouses soon. Even if I can't, I can deliver them to you in a couple of days."

However, Han Fei didn't comment on that but simply looked at the hostess with a smile. "What's your discount now?"

The hostess was already sweating. She didn't expect to meet such a character out of the blue. She said quickly, "I can give you a 85% discount. The price will be half of what I offered..."

However, Han Fei simply said to Xia Xiaochan, "Take the money and let's check other stores."

Xia Xiaochan grinned, knowing that Han Fei was playing tricks again. She waved her hand and collected the cases.

Seeing that, the hostess panicked and said quickly, "I'll give you a 90% discount! Sir, that will be a very low price! You can't get a better offer anywhere else."

However, Han Fei turned around and looked at the hostess. "What if I purchase a million accessories from you every year?"

The hostess gasped and gave in. "Sir, how much do you want?"

Han Fei curled his lips. "A 95% discount."

The hostess: "..."

At this moment, Han Fei knew that the hostess was quickly calculating the revenues. However, in his opinion, while those accessories had great craftsmanship, their materials weren't very expensive. Due to the underdevelopment of the Blue Sea Town, it didn't have so many materials and people who were engaged in the accessory industry.

However, the Wind Thunder Town was simply too huge and had too large a population. Even the villages within its territory must be very rich. So, it was easy for the accessory industry to develop.

Of course, there were also accessories in the Blue Sea Town, but they were in demand and had a high price, so their sales weren't high. But the case would be different if he got goods with a 95% discount! He would be making a fortune if he were to sell them for twice as much the cost.

Besides, he could make much more profits. As long as some ten thousand people took part in the lottery with 98 mid-quality pearls, he would be earning the cost back.

After being silent for almost a minute, the hostess suddenly said, "Sir, you're from another town, and you want to sell the accessories in your place, right? You can get a 95% discount, but you have to purchase two million accessories the first time, and pay a million mid-quality pearls as advance payment."

Han Fei's lips curled again. "Not a problem. However, we don't have so much cash with us. Can we use spiritual weapons as advance payment?"

The hostess was briefly stunned, before she said, "That's okay, but regular low-quality spiritual weapons aren't expensive in the Wind Thunder Town. Each of them is only worth fifty thousand mid-quality pearls at best."

Hearing that, Han Fei shook his head and said, "Let's use mid-quality pearls then! Xia Xiaochan, give her the money."

Xia Xiaochan instantly threw out a bunch of boxes that were full of mid-quality pearls. Xia Xiaochan simply said, "That's a million. You can count them."

The hostess grinned hard. For a businessperson like her, they wanted to make a living without having to take risks in the fisheries. There was no way that she would miss a bulk procurement like this one.

Immediately, the hostess closed the store and said to Han Fei, "Give me five... Or eight days at most, and you'll have the two million accessories."

Han Fei grinned and said, "Don't rip me off with the cheap products. I'm very rich, and I can easily find another supplier. If you rip me off once, you can't make money from me again. In that case, you will lose millions per year, won't you?"

The hostess nodded quickly. "That's right. I guarantee that you'll be satisfied with the products. Also, I'll have the best accessories tailor-made for the two girls."

Han Fei grinned. "No need for that. I'm not interested in these lousy accessories."

"Hiss!"

Han Fei instantly gasped as Xia Xiaochan had stepped on his foot and said telepathically, "I'm interested! I'm interested!"

Luo Xiaobai clutched Han Fei's clothes too. So am I!

Han Fei immediately chuckled. "How can those accessories compare to my works?"

Hearing that, Luo Xiaobai let go of him and said to Han Fei, "I... I want five, no, ten sets."

Xia Xiaochan simply said to Han Fei too, "I want ten sets too. You said that you would make them for me."

Han Fei was lost for words. "It's the quality, not the quantity, that matters. Would you stop being so greedy? Two sets of finest accessories for each of you. Okay, it's settled."

Zhang Xuanyu was hurt. "Fei, what about me?"

"Y-You'll have to pay for your materials."

They bickered and walked out of the store, without specifying when they would take the goods, or what goods they really wanted. They didn't even ask for a third party to witness the deal, as if they weren't scared that the hostess would go back on the deal.

The host became quite grave. This was a really big client! She couldn't have secured such a great deal if her store weren't established somewhere near the central tree.

As for Han Fei and the others, they didn't care about the money at all. What if they were tricked? They didn't complain when Uncle Faceless robbed them of five billion. Why would they care about a deal worth ten million?

They wandered a couple of kilometers ahead, and Le Renkuang bought lots of food on the way. They didn't see anything particularly attractive.

Xia Xiaochan heaved a sigh. "We've only spent a million. That's too little!"

Luo Xiaobai shook her head. "More than that. This deal will probably cost almost twenty million. You've lost one tenth of your belongings." Xia Xiaochan's eyes widened with anticipation. "But we'll make the money back after we return to the Blue Sea Town!"

Le Renkuang said, "Spending money is too difficult. It's much easier with Uncle Faceless."

Han Fei said furiously, "I'm pissed every time his name is mentioned! As a senior uncle, he didn't leave any money to us at all! He's really petty! Too petty!" "He must have a reason that he would rather not talk about. Didn't our teacher mention that?"

Han Fei smiled and said, "What kind of reason could've cost so much money? The mid-quality pearls are absolutely useless except that they're used as currency. Faceless Uncle wanted money only because he wanted to buy stuff, which is the only thing that the mid-quality pearls can do. What could he buy? Resources, of course. But why did he want to buy the resources?"

Luo Xiaobai suddenly said, "For training."

"His personal training? Did he really need the regular resources for his own training?"

Luo Xiaobai suggested, "There were thousands of men on his ship. I suspect that they were not from the towns but were raised by Uncle Faceless himself."

Han Fei nodded. "I think so too, but I don't understand why he raised so many people. Also, could a thousand people use so much money?"

Luo Xiaobai shook her head. "I don't know, but it's clear that Uncle Faceless is short of money. According to the president, you can't buy Spirit Awakening Fluid with money." Han Fei was lost for words. "That's the gift for our first meeting. Was he not embarrassed when he didn't give us any gifts as a senior?"

The more he talked about it, the more grave Han Fei became. Even Uncle Faceless, who was tough enough to fight against the Law Enforcers, was still so in dire need of money. What about the less significant people like him? Money was undoubtedly very important, and he had to make more money before he went to the Unknown place!

All of a sudden, Han Fei stopped in a stun.

Xia Xiaochan turned around. "What's up?"

Han Fei suddenly raised his head. "Did we pass by a huge arena on our way here?"

Zhang Xuanyu nodded and said, "Yes! That arena is big enough to accommodate 100,000 people, or even 150,000, if they're crowded."

Luo Xiaobai added, "If things go as planned, we'll be having contests in that arena tomorrow."

Han Fei didn't care where the contests would be held. He simply chuckled and said, "Do you miss the days when we fought in the Blue Sea Arena?"

Luo Xiaobai suddenly said, "I know what you're thinking, but it will expose our capabilities. We'll be identified after only several rounds."

Han Fei grinned and said, "That's not a problem! We have the Thousand Transformation Technique."

Le Renkuang thought for a moment. "That won't work! You can transform yourself, but you can't transform your spiritual beast or contractual spiritual beasts, can you?"

Han Fei frowned and said, "That's true."

Everybody simply roamed aimlessly. After all, the preliminary contests wouldn't be held until tomorrow.

Xia Xiaochan asked telepathically, Are you dying to make money right now?

Han Fei was stunned. Am I?

Yes, you are. Han Fei murmured, "Our living expenses are already so high in the level-three fishery, and they will only get higher in the Unknown Place. If we don't make more money now, we'll have to beg Old Bai for money later."

Han Fei suddenly said to Luo Xiaobai and the others, "Well, you can keep on sightseeing. Xia Xiaochan and I will go on a date!"

Xia Xiaochan: "???"

Zhang Xuanyu wailed. "Do you really have to be so blatant?"

Le Renkuang scratched his abdomen. "Just go! Remember to come back for dinner!"

Luo Xiaobai was speechless.

Han Fei quickly dragged Xia Xiaochan away. While running, Xia Xiaochan snorted and asked, "Where do you want to go for our date?"

"What date? We're going to the arena."

"Ah... Don't stab me..."

Chapter 569 Octopus Freak

The arena in the Wind Thunder Town was really huge. According to Han Fei's perception, it covered 500,000 square meters, twice the size of the Bird Nest.

So, Zhang Xuanyu had made an underestimation. At least 200,000, or even 250,000 people could be accommodated here.

The demands for arenas were mostly similar however different they looked. There had to be an auditorium, a field for games, and a canopy up above.

The Wind Thunder Arena was almost 150 meters high. Its gate was in the shape of a gigantic fish's mouth. Each of the teeth in the mouth could be five meters long. The eyes of the fish were red and threatening.

However, none of the audience members were too scared to come in. Not just Han Fei, the people from other towns were coming too. At this moment, Han Fei and Xia Xiaochan had turned into two different people. Xia Xiaochan transformed from a pretty girl with pony tails into a cute girl with a mushroom hairstyle, which was designed by Han Fei. Xia Xiaochan complained about it for a long time.

Han Fei, on the other hand, became an astonishing barbarian with dreadlocks. Xia Xiaochan despised him for a long time.

Their appearances had changed so greatly that nobody else could identify them.

Xia Xiaochan suddenly asked, "Do you really have a third contractual spiritual beast?"

Han Fei nodded. "Nobody stipulates that a person can only have two contractual spiritual beasts, right?"

Xia Xiaochan frowned. "That's not right! I know that a person can have more than two contractual spiritual beasts, but all Dangling Fishers only have two." Han Fei said with a smile, "You have two naturally-endowed spiritual beasts, don't

you?"

Xia Xiaochan puffed her cheeks and said, "You have two of them too, alright? Stop making fun of me."

While they were talking, five people descended from the sky in a hurry.

"Brother Tong, are we really going to participate? Wouldn't our capabilities be exposed?"

"That's right, Brother Tong! Everybody knows that the contests will be held here, so the Wind Thunder Town must've left many spies here to investigate students from other places!"

The person that other people called Brother Tong chuckled. "Why would we participate? We're only here to gamble!"

"Ah! Brother Tong, you mean... Gamble for money?"

"Of course! How can we expose ourselves at such a critical moment? Nobody is easy to deal with in the Wind Thunder Town. However, I've just learned that we can place bets during the games." One of his classmates said, "Wait, Brother Tong, what if we lose the bet? Also, do we really need the money? Brother Tong, you're famous for your richness!" The man smiled. "I can't be called rich at all. You think several million mid-quality pearls means wealth? You fools. We're going to the life-blighting Unknown Place in half a year. In order to survive, what power will you need?"

The students he asked were all rather confused. "It can't be money, can it?"

Some of them said, "I think it should be ultra-quality spiritual weapons."

Brother Tong's face immediately turned green. "You're truly idiots! It's money! Money is the source of power! What can you buy without money? How can you get ultra-quality spiritual weapons? Through robbery? What's wrong with your head?"

Han Fei was instantly shocked by their conversation. He had unexpectedly run into someone who thought exactly the same as he did.

However, he was quite surprised to see the man's face, as it looked quite familiar... Who was this man?

"Shoot!"

Han Fei remembered him. Back in the level-three fishery, on his way from the Sea Grassland to the Undersea City, he robbed a peak-level Dangling Fisher of his boat. At that time, the Dangling Fisher threatened him with self-explosion. This man was exactly that Dangling Fisher from back then!

Xia Xiaochan tilted her head and looked at Han Fei. "Do you know him?"

Han Fei grinned. "Oh, I know him very well."

As they talked, Han Fei jumped and stood in their way before they climbed up the stairs.

Jiang Tong and the others were all stunned. They grimaced at Han Fei's dreadlocks, wondering why anyone's hair could look so hideous.

Han Fei scratched his hair and said, "What are you looking at? You have no aesthetic at all. Dreadlocks are an art, do you understand, bumpkins?"

Immediately, those people burst into a fury. "Hey, who are you calling bumpkins?"

Jiang Tong said with an unfriendly tone, "An advanced Dangling Fisher? Bro, aren't you a little bit cocky?"

Han Fei curled his finger at Jiang Tong. "Forget whether I'm cocky or not. Let's have a word!"

Jiang Tong frowned and asked, "Why would I have a word with a total stranger?"

Han Fei asked, "Then are you interested in money?"

Jiang Tong immediately changed his attitude and said to his classmates, "Junior Brothers, wait for me for a moment."

Not far away, Jiang Tong asked, "Brother, what's the meaning of this?"

Han Fei smiled. "Exactly what it looks like. I overheard that you came here to make a fortune, and I'm here for the same purpose. I have an idea that is guaranteed to be profitable. Are you interested?" Jiang Tong narrowed his eyes. "Brother, which town are you from?"

Han Fei grinned. "I'm Cao Daqiu from the Fiery Dragon Town. What about you?"

Jiang Tong's lips twitched. What kind of name was that? Could you at least try to make it sound real?

He narrowed his eyes. "You're using a fake name. Why should I tell you mine?"

Han Fei smiled and said, "Because I'll learn your real name anyway when the match begins."

Jiang Tong chuckled. "Then what about you? Why do you use a fake name?"

"Because I won't participate in the match."

Jiang Tong was confused. "You won't? Why do you not participate when you're a Dangling Fisher? Unless you are a local of the Wind Thunder Town?"

"No. Why would I come to you for cooperation if I were a local? I could've found anybody!"

Jiang Tong was stunned. What kind of logic was that?

Jiang Tong thought for a moment. "Tell me how you can make money first."

Han Fei grinned. "That's easy. I'll fight in the arena. I guarantee that I'll win. You'll need to raise the stakes as high as possible."

Jiang Tong was dazed. "You guarantee that you'll win? As an advanced Dangling Fisher?"

Han Fei was impatient. "If you could tell one's capabilities by their level, I wouldn't be here making money in such a way." Jiang Tong considered for a moment. "But I'm told that the arena will be the banker here. I can't raise the stakes!"

"Of course you can't be a banker, but you can fool other people into placing bets!"

He smiled casually. "Since you knew you could make a fortune here, you must've been prepared, right? Have you already arranged anyone?"

Han Fei thought that he must have connections, or he wouldn't be so confident in gambling

Xia Xiaochan was not very good at racketeering. It was possible that she might stab someone when she got furious, which was a risk. As it happened, Jiang Tong had come here. He would make a better partner for Han Fei.

"Are you sure that you'll win?"

Han Fei grinned. "You'll instigate the people to bet that I'll lose, while we'll actually bet that I'll win. Easy."

Jiang Tong shot back quickly, "How much will you bet on yourself?"

Han Fei smiled. "Not too much. Let's start with a million."

"Huh..."

Jiang Tong immediately gasped. "Brother, you are truly generous."

Han Fei didn't seem to consider it a big deal. "That's nothing. Are you in or not?"

Jiang Tong's lips curled. "Okay, but you'll have to lend me a million first if you want me to trust you." Naturally, Han Fei wasn't afraid of that. Why should he hesitate when he still had hundreds of millions?

Immediately, Han Fei gave Jiang Tong a Sea Swallowing Seashell. "There's a million inside. Ask her for more if it isn't enough."

Han Fei glanced at Xia Xiaochan and smiled. "What's your name?"

"Jiang Tong."

Han Fei snapped his fingers and waved two of them before Jiang Tong's eyes. "Jiang Tong, I'll beat you to death if you dare to rip me off." Han Fei casually left, and Jiang Tong was rather stunned. Why did he feel that someone had said that to him before? Something seemed to be off...

Jiang Tong glanced at the Sea Swallowing Seashell in his hand, which contained authentic mid-quality pearls. Would a fraud really give him so much money?

"Let's do it."

Han Fei wasn't afraid that Jiang Tong would slip away with the money, as Little White had remembered his smell, and Xia Xiaochan had witnessed everything.

It was naturally Xia Xiaochan's responsibility to keep an eye on Jiang Tong.

...

The Wind Thunder Arena was quite magnificent inside. It was more than a hundred meters tall, with all kinds of fish as decorations on the dome. On the left side was the entrance to the inner field, on the right side was the registration center, and the front was the betting area.

Han Fei hopped and turned right, making a lot of people surprised. They all wondered how a man with such a devil-may-care attitude could become a Dangling Fisher.

Han Fei slapped his giant hand on the counter. "I want to sign up." The staff was stunned. "Sir, what would you like to sign up for?"

Han Fei didn't expect that. "What can I sign up for?"

The staff replied, "We have four categories in total: individual competition, group competition, individual v.s. contractual spiritual beasts, and team v.s. contractual spiritual beasts.

Han Fei was dazed. "You can fight contractual spiritual beasts in the Wind Thunder Arena?"

The staff smiled. "They aren't really contractual spiritual beasts because they are not contracted yet."

Han Fei narrowed his eyes. "What do you think the odds are if I were to fight exotic contractual spiritual beasts of my level?"

The staff were briefly astounded. "Sir, your life may be at risk. You'll have to sign an agreement in order to fight exotic creatures."

Han Fei asked, "How many contractual spiritual beasts do you have?"

"There are more than thirty that are the same as or above your level."

"Huh! You have so many?"

The staff smiled and said, "So, what do you want to sign up for?"

"Hahahaha..."

The staff asked, "Do you need a nickname for yourself?"

Han Fei's lips slightly curled up. "Octopus Weirdo."

Chapter 570 King of a Hundred Men

Supposedly, one would have to wait in line after they signed up for the games, but Han Fei's application was very unique. Immediately, the staff talked to their superiors and told him that he could enter the field after the next two games.

Holding a tiny badge, Han Fei walked to the betting area.

"Pa!"

Han Fei slapped the badge on the counter and said, "I'd like to bet..."

Before Han Fei continued, one of the clerks had quickly interrupted him. "Sir, to prevent other people from hearing you, please speak telepathically for confidentiality."

After a brief stun, Han Fei said, Okay, I'll bet a million on myself.

The clerk slightly shook his head. Sir, we only accept half a million mid-quality pearls at most for one bet.

Half a million was not nearly enough!

Han Fei was instantly lost for words. There was a cap? It seemed that the Wind Thunder Arena was very shrewd and prepared for frauds like him! If the cap was half a million, there would be nothing they were scared of, because their loss wouldn't be too huge.

Also, Han Fei suspected that if he played the trick of the weak beating the strong too often, the arena would also bet that he would win in order to balance the odds.

In that case, the audience would be the only people who really suffered a loss. Han Fei realized that arenas were really profitable and wondered if he should start an arena of his own.

Han Fei made the payment. He didn't expect that the arena would have so many strict rules that even placing the bet must be kept confidential. Then, what could the million that he gave Jiang Tong do? If the man could fool other people into betting on his failure, should he have cooperated with the man at all? It would be good if the man had other backup moves. If he didn't, this attempt probably wouldn't be worth it.

After that, Han Fei saw that Jiang Tong winked at him. He was immediately reassured, knowing that the guy probably had other moves prepared. Since Jiang Tong had no problems, his fancy way of application should be able to play its role now.

Han Fei couldn't help but heave a sigh. It was time to resort to his acting skills again!

On the other hand... Jiang Tong and his pals were considering how to place bets too. They had no idea about the Wind Thunder Arena's strict rules on betting either, but Jiang Tong simply winked at Han Fei casually and said to his classmates, "Junior brothers, bring more men to me!" "Huh?"

Jiang Tong said, "Everybody will be given a thousand mid-quality pearls if they come."

“Senior brother, rest assured. I’ll be right back!”

Next, Jiang Tong spoke to a clerk at the main hall of the arena.

“What’s the price for the most luxurious private room in your place?” The clerk responded, “Sir, I’m afraid it’s not very cheap. Each private room costs five thousand mid-quality pearls. But of course, it comes with special services.”

Jiang Tong asked, “What about the private rooms in a lower tier?”

“Those would be two thousand mid-quality pearls for each private room.”

Jiang Tong rolled his eyes. “Oh? It seems that there aren’t many rich guys in the Wind Thunder Town. The price gap is rather huge.”

The clerk said courteously, “Sir, the main reason is that there are only two hundred top private rooms. There are actually many magnates in this place.”

Jiang Tong said, “I’d like a two-thousand pearl private room!”

“At once, sir.”

“Senior brother, you reserved a private room for two thousand mid-quality pearls? That’s not how we should spend our money!”

Jiang Tong scoffed. “You can only make money from the rich people, and publicity from the poor guys. There’s still a lot you need to learn.”

nor

“But there’s a cap to the stakes, Senior Brother.” “That’s why I called for more people!” As he spoke, Jiang Tong leaned closer to Xia Xiaochan, who was also reserving a private room, right in front of the waiter and gave her a hint.

“Lady, Cao Dapang will surely lose.” Xia Xiaochan shook her head. “That’s impossible. Cao Dapang is one of the best guys from the Fiery Dragon Town.”

“I have a top secret. Do you want to hear it?”

Jiang Tong and Xia Xiaochan walked to the private room. A waiter was right before them leading the way, but Jiang Tong simply revealed the so-called top secret openly.

In such an arena/casino, everybody was eavesdropping. They might not believe the things they heard for the first time or second time, but they would be convinced sooner or later as they heard it again and again.

Jiang Tong’s trick was unbelievably simple. It was just like the deals in the stock market. When someone overheard a casual conversation, they might be tricked and trigger an astonishing chain reaction.

Of course, Jiang Tong didn’t really count on this method, which depended on luck. He had other approaches.

Xia Xiaochan asked telepathically, Will a million be enough for you?

Jiang Tong slightly shook his head. Not really. Xia Xiaochan secretly tossed a Sea Swallowing Seashell to him. What about this?

Examining the Sea Swallowing Seashell Xia Xiaochan gave her, Jiang Tong immediately gasped. Damn it. She has given me five million so easily? It's more than all my belongings! Is this for real?

Xia Xiaochan glanced at Jiang Tong and said, I can take it back as easily as I give it to you. Don't be obsessed with the little money!

Jiang Tong grimaced, impressed by the two arrogant advanced Dangling Fishers.

However, Jiang Tong really loved making friends with such magnates. Who could possibly give away six million mid-quality pearls so easily?

About an hour later, the two games in the field were over.

Then, the host was roaring and shrieking in madness.

There were two hosts, and the male one roared, "May I have your attention, please? The Wind Thunder Arena has received the craziest challenge of the year. An advanced Dangling Fisher has specifically asked to challenge Ming Kun, the King of the Hundred Men in the Wind Thunder Arena!"

Hum!

The arena almost imploded with everybody's exclamations.

"Who? Did the host just say that an advanced Dangling Fisher would challenge Ming Kun?" "Is he crazy? Wouldn't it be suicide if he challenges Ming Kun?"

"An advanced Dangling Fisher? I can't believe it. He's a sure loser!"

"How long has it been since anyone challenged Ming Kun?"

"Ming Kun has a winning streak of a hundred games. Is this guy an idiot to confront him?"

In two different private rooms, Xia Xiaochan and Jiang Tong almost asked the waiters simultaneously, "Who's Ming Kun?"

The waiters replied, "Ming Kun is the King of Hundred Men in the Wind Thunder Arena. He's supposed to fight one game each day. He has won 137 consecutive games, and many people have failed to defeat him... It has been 32 days since anybody challenged him."

Jiang Tong's reaction was, "Oh? What are the odds?"

"The host will announce it to the audience soon."

Xia Xiaochan's reaction was, "What's his specialty?"

"You have to pay for the Wind Thunder Arena's intelligence..." "Pa!"

Xia Xiaochan threw a case out. "Take however much money you need."

The waiter immediately replied, "Ming Kun is a peak-level Dangling Fisher. His naturally-endowed spiritual beast is a Green Tide Tortoise known for its invulnerability. His contractual spiritual beast is a Mad Blood Worm that can double his combat ability. His second contractual spiritual beast is a Three-Eyed Mantis Shrimp that grants unparalleled speed. But as for himself, he is a body cultivator... His fists are extremely tough and can rumble like thunder when he punches..."

The host roared from the field, "This is the 33rd day of Ming Kun's break. He has sent applications to the Wind Thunder Arena many times, but nobody dared to fight him, until today, and his challenger is an advanced Dangling Fisher... Dear audience, let's remember his name — Octopus Weirdo!"

"Who's Octopus Weirdo?"

"Who is he? I've never heard him before!"

"Where did this clown come from?" "He's a sure loser. Nobody with such a fancy nickname could be capable of fighting."

The female host said, "Our Octopus Weirdo comes from the distant Fiery Dragon Town and claims to be invincible in the Fiery Dragon Arena. Nobody can resist his iron fists within a distance of a hundred meters..." The male host continued, "That's right. Our Octopus Weirdo is very unusual. He also said that he would give everybody a surprise if he wins."

"Yu..."

"Tsk!"

"Surprise? Doesn't the Fiery Dragon Town rank 18th or 20th? Would he stop bragging about himself?"

The male host continued, "Now, let's give it up for Octopus Weirdo..."

Then, Xia Xiaochan and Jiang Tong saw that Han Fei hopped out of the passage of contestants. As if to show his crazy nature, Han Fei even rolled up one of his sleeves.

After announcing his entrance, Han Fei waved at the auditorium.

There were plenty of people in the Wind Thunder Arena on this day, mostly because the Wind Thunder Arena would be closed for the students of the 36 towns to compete. So, many people had come for a last day of fun. "Yu..."

"Go back to your Fiery Dragon Town!" "Octopus Weirdo, stop being an embarrassment!"

"Octopus Weirdo, I'll bet one mid-quality pearl on you, and a hundred on Ming Kun!"

The female host said in a shivering voice, "Dear audience, the odds for this game will be announced."

"Ming Kun: 1:1.2"

"Octopus Weirdo: 1:10"

"Dear audience, you will have 15 minutes to place your bet. Please give some credit to our Octopus Weirdo. Maybe he will be the one who will perform a miracle!"

"What can he perform? I don't believe in miracles."

“Tsk! You can’t get a miracle so easily.”

“Are you kidding me? We have to bet on Ming Kun! You should never bet on the losing side no matter how rich you are!”
