

GOF 591

### **Chapter 591 You Call That Good Quality?**

After a while, Han Fei and the others knew that this exam had no score.

Why was there no score? Because most questions had no accurate answers at all. The presidents, mayors, and the like just wanted to know about the examinees via these questions.

Like Luo Xiaobai, she could even answer the crazy kind of questions. It really caused a great uproar among the teachers and leaders.

Han Fei asked, "President, we don't even have scores? Then what can you see from our answers?"

Old Bai gave Han Fei a weird look. "Shut up. Among the five students, you and Zhang Xuanyu have the worst conclusions."

Zhang Xuanyu said immediately, "That's impossible. Kuangkuang only answered 10 questions in total, while I answered 80."

Han Fei nodded repeatedly. "Yes, I answered all 108 questions. I don't believe I was wrong with 98 questions."

Old Bai took out a fish skin map and said, "Let me read the conclusions on you. The evaluation is very objective and fair."

"Luo Xiaobai is extremely composed, self-demanding, good at observing details, and has a strong ability of logical judgment and thinking... She's a born leader. Her only drawback is she's too vengeful, which will affect her judgment."

"Le Renkuang has an upright temperament and knows his place. Although he is quite lazy, he dares to take responsibility... This person is very calm and equable and very suitable to be a law enforcer."

Han Fei and Zhang Xuanyu cast their weird glances at Le Renkuang. What the hell? This guy just had a sleep and then got such a good evaluation?

Le Renkuang murmured, "I don't want to enforce the law. I am also a person full of adventurous spirit."

Old Bai rolled his eyes at him and continued, "Xia Xiaochan has a strong propensity for violence and vengefulness... But she's compassionate, not good at communicating with others, not good at dealing with others, but deep in her bones, she has a strong sense of justice... Besides, she has little common sense and experience in life. She's a born fighter."

When Old Bai finished reading, he saw Han Fei trying to stop Xia Xiaochan. "Don't be impulsive. Easy, put the dagger down..."

"Humph! This obviously means I am stupid..."

Old Bai: "..."

Old Bai sighed. "You are not stupid, but you have too little experience. If you grow up in a village, these shortcomings can be made up." Han Fei frowned. So Old Bai means that Xia Xiaochan didn't grow up in a village? Then where did she grow up?

Old Bai continued, "Zhang Xuanyu is cunning, eloquent at arguing, smart, courageous and strategic... But this person is very selfish, completely indifferent to strangers, too self-interested, and vengeful... But this kind of person can live longer."

Zhang Xuanyu immediately said angrily, "The first half is true, but the second half is utter nonsense. Am I selfish? No! I'm so selfless that I make friends with so many people, especially girls..." Wenren Yu shouted, "Shut up! This is the final conclusion reached by 108 examiners, and you cannot refute it."

Zhang Xuanyu was frustrated and said in his heart, These 108 people are all idiots.

Finally, Old Bai looked at Han Fei deeply. "What conclusion do you think you'll get?"

Han Fei blinked. "I, heroic and resourceful?"

Old Bai snorted and read, "Han Fei, this person is extremely greedy, insidious, and cunning. He is vengeful, blindly optimistic, and acts like a desperado... At the same time, he's a bit of a psychopath, but fortunately, this person is smart... He's a typical crazy adventurer."

Han Fei: "..."

Zhang Xuanyu patted Han Fei on the shoulder. "Well, good. Your evaluation is much worse than mine. At least they don't think I'm a psychopath..."

Han Fei was angry. "Who wrote this? President, as a scoring teacher, can't you show some sense of justice? Me, Han Fei, a psychopath? Insidious and cunning? Acts like a desperado?"

Old Bai closed the fish skin, then stroked his beard, and said leisurely, "Well, it doesn't matter what evaluation you got. But it turns out that you are quite outstanding. At least, you don't have to worry about being eliminated." Wenren Yu also said, "Especially, among the five of you, four of you have received the evaluation of being vengeful... You really deserve to be a team!"

Le Renkuang asked, "Should I be vengeful too?"

Old Bai laughed. "You can't. You're not a vengeful person." Han Fei looked at Luo Xiaobai. "Why do they think Xiaobai is vengeful?"

Luo Xiaobai replied, "In theory, if you're offended by another cultivator and don't take revenge on him immediately, the other party will only go further. However, this won't affect my judgment."

Old Bai smiled and nodded. "Good! This is very good quality."

"Puff!"

Han Fei was speechless. "You call that a good quality?"

Old Bai sneered. "What do you think? Whether it is being greedy, evil, fair, clever, perverted, or vengeful... These are all typical personal characteristics, indicating that you're outstanding in a certain aspect. Although the evaluation on you is poor, do you think it's easy to get this evaluation? These

evaluations themselves represent a force... Even Le Renkuang was evaluated as being “steady”. It’s not easy to get these evaluations!”

Old Bai paused. “Besides, on the ocean, no one dares to offend you only if you are ruthless enough. Whoever dares to f\*ck you up, kill them, understood? That’s why I said this was good quality.”

Everyone: “...”

In fact, Old Bai was right. Those who set up fishing trials, set up the ordinary fishery, level-one fishery, level-two fishery, and level-three fishery didn’t care about the life of ordinary people at all. If they cared, how could they allow killings during the fishing trials? The path of cultivation was dangerous in itself! They had just finished reading the conclusions and the presidents of the other academies had already begun to roll the names.

Bao Boyu , come out!

Pei Hao, out!

Wu Yizhou!

The whole arena was filled with roll calls. Soon, more than 1,000 people came out.

About half an hour passed before the roll calls stopped.

The president of the academy in the Sky Martial Town said, “Those whose names are called can stay in the Wind Thunder Town temporarily. However, you are not allowed to enter the Wind Thunder Arena today.”

Someone was shocked to hear this and asked, “President, why? Did we fail the exam?”

“President, just now the mayor said that we had gotten excellent results in the exam.”

“President, I’m not convinced. I think those comments are wrong.”

“President, but he is much worse than me. Why can he stay?”

Han Fei and the others looked at each other. Was this exam going to eliminate some people, too?

Old Bai said, “The exam just eliminated those who are not good enough. It seems that the quality of this bunch of students is very high, and the number of the eliminated students is even less than 1,500.”

Han Fei thought to himself, The comments on me are all f\*cking negative! How can you explain this?!

“Everyone, gather.”

Just after the eliminated students left, the mayor of the Wind Thunder Town called for assembly again.

Everyone took their place and then saw a magnificent array appearing in the arena. When the big array was completely spread out, a huge portal appeared. The mayor of the Wind Thunder Town instructed, “Everyone, listen up. The third round will be held in a secret realm. In the secret world, there is a mountain. No matter what method you use, as long as you climb to the top of that mountain, you’ll pass the assessment. But remember, you must not kill. If anyone is killed, the killer will be eliminated on the

spot and will be subject to extremely severe punishment... OK, you have only three hours. Now enter the secret realm."

Han Fei and the others were overjoyed. This was simple. Exploring a secret realm was literally one of their favorite activities.

Luo Xiaobai observed, "It's unlikely to be a directional teleportation, so be prepared. As long as we don't kill, we should be able to use any other method."

Han Fei nodded. "That's right! To put it bluntly, there are all kinds of people competing with us, so we can't take it lightly. I just wonder if there are any treasures in this secret realm..." Old Bai was speechless. How did you have the face to claim that you are not greedy? Before entering the secret realm, you're already coveting treasure? It turns out that the test results are almost 100% accurate.

As more than 4000 people entered one after another, Han Fei and Xia Xiaochan stepped into the teleportation array together.

When the last person entered the secret realm, the mayor of the Wind Thunder Town smiled and said, "Everyone, let's go to the top of the mountain and wait!"

After Han Fei stepped into the portal, his eyes suddenly lit up.

The first thing that caught his eyes was a towering mountain, which was a bit like the secret realm of the Fiery Mountain.

But the difference was that this one seemed to be smaller and the mountains were completely different. If the big mountain in the Fiery Mountain was the same as a normal mountain, then the mountain in Han Fei's vision was a bare cliff ninety degrees perpendicular to the ground.

And Han Fei found that the arc of the cliff was a bit different, which seemed to be more exaggerated than 90 degrees.

It was T-shaped. The top of the mountain seemed to be parallel to the ground, which meant when a person climbed to the top, he could walk as if walking on the ground.

The moment Han Fei saw this mountain, a strange conjecture suddenly appeared in his mind, Do they... Want us to rock climb?

Han Fei had originally thought that there would be countless creatures and continuous battles here. Who would have expected it to be like this?

However, Han Fei frowned immediately. Now that we're in the water, can't we swim up?

No, if I want to climb the mountain, I'll have to get close to that mountain first.

Han Fei was about to swim over. As soon as he raised his foot, however, he was immediately pressed down by a force.

Han Fei: "???"

Huh? There is gravity?

The first thing occurring to Han Fei was ten times the gravity the old b\*stard Ren Tianfei set up for him in the Seven-Star Array in the Abyssal Chasm.

No wonder, I feel like something is wrong, It turns out that this sea area is covered by multiple gravity forces...

Han Fei felt the gravity here didn't reach 10 times the normal gravity. It seemed to be less than 5 times.

Han Fei immediately tried to swim upwards, but when he swam about 20 meters against gravity, the gravity suddenly increased a bit. After swimming up to 50 meters, Han Fei felt that the gravity had already reached 8 times the pressure. Han Fei didn't intend to continue to try. He climbed to the shore, planning to hike over. Compared to swimming over against gravity, walking on foot saved time and effort.

### **Chapter 592 Various Traps**

Han Fei had once cultivated hard for two months under 10 times the gravity. The direct result was that he was extremely fast without gravity. Even if he returned to the environment of gravity, he would still be able to give a full

He only had three hours, so he didn't dare to neglect this task. The mountain didn't look short at all.

After he ran for only 2,000 meters, he saw a person who was also running against gravity.

However, this person's running posture seemed a little unnatural. Obviously, gravity affected his efficiency.

He was still on the bottom of the sea with only 5 times the gravity. If he swam out, it would probably be harder for him. That person obviously knew Han Fei. When he saw Han Fei, his first reaction was to run. Han Fei was speechless. "Hey, why do you run when you see me?"

The man himself was also taken aback. "Yes! This assessment is about mountain climbing not fighting. Why am I running?"

So the man smiled awkwardly. "Sorry."

Han Fei ran two steps on the spot and then trotted over. "Huh! Brother, you are a bit slow!"

That person: "..."

"Brother, do you know that the assessment only forbids killing?"

That person: "???"

"So, how about you hand over your Sea Swallowing Seashell?"

That person: "???"

The man was astonished. "Han Fei, we are here to take a test. How can you rob me?"

Han Fei said leisurely, "Do you think the assessment is only about mountaineering? No, it also tests our ability to think on our feet. How can you have no sense of precaution? You should be careful when you go out, shouldn't you? Avoiding dangers is a matter of course. So, hand it over!"

That person turned green. “Han Fei, don’t talk nonsense. We are taking a test...”

BAM!

Han Fei threw out a punch. Under this gravity, every muscle of his could become his weapon. It was a breeze to beat someone who had not yet adapted to a strenuous gravity environment.

The man was knocked out. Han Fei rummaged through him and fished out a Sea Swallowing Seashell. He smiled and said, “Brother, come on, you can do it.”

Then Han Fei ran away like crazy as if having a small electric motor mounted on him.

Little did he know that...

On top of the mountain, there was a Sky Hanging Mirror, so everything happening below was seen by the people here. The mayors and presidents had seen every single movement Han Fei took.

Seeing this scene, the president of the Double Dragon Academy from the Long Dragon Town immediately stared at Old Bai as if trying to make Old Bai ashamed.

However, Old Bai just stroked his beard casually and said leisurely, “You have given him the evaluation. His current behavior is completely in line with the evaluation. Besides, that kid in your academy is indeed a bit silly.”

“Ahem!” The mayors hadn’t spoken yet, and the mayor of the Blue Sea Town, Kong Xuan, coughed and said in his heart, Bai Congye, what are you doing? We can’t control what happens in the field. But how can you provoke them off the field? Are you stupid? There were more than 4,000 people, so in this secret realm within a radius of fewer than 100 kilometers, there was a good chance they would meet.

them to find each other even ten or tens of kilometers apart.

Han Fei didn’t deliberately rob others. After all, these people might not have anything good on them. But it would be a waste of a chance if he didn’t rob them if he met them.

So Han Fei had robbed 5 people before he even reached the foot of the mountain.

After Han Fei ran for about 20 kilometers and the mountain was close at hand, he found that there was an abyss thousands of meters long. Above the abyss, there were hundreds of chains connecting to the opposite side.

The chains were only wrist-thick, which were incomparable to the huge chains on the Floating Islands. The chains were not close with a distance of at least a kilometer from each other.

On the chain in front of Han Fei, there were two people, one behind the other.

However, the speed of the two was extremely slow. The person in front was a manipulator who could control spiritual plants to buckle the chain.

The one behind was an armorist, carrying an armor box, swinging on the chain.

Yes, he was swinging on the chain. The water current here was a bit strange and seemed a bit turbulent, which was probably one of the difficulties of the secret realm.

Han Fei looked around, and there were people on almost every chain. People were gathering. More than 4,000 people were running to the same finish line, so they certainly gathered. Han Fei was not in the mood to rob anyone now. Just now, he glanced at the Sea Swallowing Seashells he had snatched, and the money inside was pathetically meager. The one with the most money only had a few thousand mid-quality pearls, and the one with the least money had only a few hundred mid-quality pearls. If he had known earlier, he wouldn't have bothered to rob these people!

Han Fei jumped onto the chains and was about to run.

"Huh? Ten times the gravity?"

As soon as Han Fei fell on the chains, he didn't feel right. The chains were very slippery as if they were greased. Besides, there was occasional water rushing up from underfoot on the left and right sides, causing the chain to be extremely unstable and shaking.

However, it was a minor inconvenience, and Han Fei didn't panic at all.

However, many other people on the chains cast surprised glances at him. Can this guy run on the chains?

Seeing Han Fei running wildly on the chains, the armorist in the front was dumbfounded. Who the f\*ck is this guy? I'm like treading on eggshells, but this guy is running so easily on these chains!

He was unable to steady himself any longer. Knowing that he was going to fall, he immediately started swimming.

But he had only swum for a few meters before he kept sinking

Han Fei was puzzled. Is the gravity more than 10 times if one leaves the chains? Otherwise, why did he sink so fast?

Han Fei shouted to the armorist, "Come on, swim up. You can do it." Han Fei simply slid forward on the chains like skiing. Ahead, the manipulator glanced back. Seeing that Han Fei was approaching, she hurriedly threw the vines forward like crazy.

Fortunately, Han Fei was still a kilometer away from her and she still had time.

However, she didn't expect that the chains under her feet started to sway. She looked back, only to see that Han Fei was sliding at her at an incredible speed.

"How can that be?"

This person hurried forward but was still caught up by Han Fei when she was less than 300 meters away from the opposite side.

"Girl, please get out of the way. Don't stand in the way!"

"I..."

The girl was shocked and quickly bound herself to the vines. Then, she jumped to the side, which stunned Han Fei.

She had made way for him and he really didn't have the heart to still bully her. Therefore, Han Fei stepped on the girl's vines and was about to run over.

However, when he stepped on the vines, those vines suddenly rioted. Han Fei frowned slightly and jumped up suddenly. With a swing of a branch in his hand, all the vines were chopped up and the girl fell directly into the cliff.

And Han Fei still had the time to say to the girl, "Bye-bye!"

Han Fei was also falling. He clasped the chain with one hand, turned around, and landed on the chains again. His whole set of actions was so smooth that many people were looking at him in amazement.

However, Han Fei was still a little bit away from the opposite side. When he ran forward, he saw a soul warrior standing at the other end of the chains, trying to cut off the chains.

"Hey, Han Fei, did you ever expect to be killed this way?" Han Fei's eyes narrowed and the Embroidery Needle appeared in his hand. A dazzling light burst out from his fist and he suddenly punched the Embroidery Needle.

The next moment, Han Fei jumped up onto the Embroidery Needle, flying towards the opposite side like riding a sword.

300 meters was too close. As long as he was strong enough, there was no risk of falling down.

The man didn't expect Han Fei to be capable of this and immediately ran away like crazy.

Han Fei smiled and cast out his fishing hook with a swish. The person had never expected Han Fei to use the Thousand-Mile Fishing Technique so skillfully and was dragged down to the ground by Han Fei.

When Han Fei landed in front of his eyes, the man blinked. "Brother Han, believe it or not, I mistook you for someone else just now."

Han Fei pointed to the abyss and said, "Jump yourself, or should I help you?"

### **Chapter 593 Scramble To Climb Up**

The chain abyss was just an appetizer for mountaineering

It had been only half an hour since Han Fei's departure.

Above the abyss, there were still people struggling, but Han Fei had already started running around the mountain. Why did he run around the mountain? Of course to choose an appropriate location to climb the mountain! This thing was no different from free climbing. In Han Fei's view, two types of people had an advantage in climbing this inverted giant peak.

The first type was manipulators, who could summon spiritual plants and climb up through the spiritual plants. At this moment, Han Fei saw a girl stuck to the rock wall with vines.

However, the girl only climbed less than 100 meters and then began to slide down. The vines were easy to break off or couldn't protrude from the cracks in the rock. Anyway, Han Fei watched for about ten minutes. Not only did the girl not climb up, but instead slid 10 meters down.

Han Fei shook his head. It seemed that manipulators couldn't handle it. Or perhaps this person was too weak.

Han Fei tried climbing about ten meters. There were very few force bearing points on the rock wall. He tried to use the power of Little Fatty and suddenly felt it much easier.

Han Fei didn't rush up and continued to run in circles.

If this trial was so simple, it wouldn't last for three hours. If there was no gravity, only half an hour would be enough, or even less. Han Fei ran for quite a while and saw many people climbing on the rock wall. The tallest one had climbed seven or eight hundred meters.

Then Han Fei saw a figure flashing like a spiritual monkey. It was Xia Xiaochan!

However, Xia Xiaochan had already climbed nearly a kilometer, and Han Fei said to her via voice transmission, Be careful! I'll see how Kuangkuang and the other are doing. Xia Xiaochan was distracted and crushed the stone she was clutching. She sighed and replied, Don't distract me! But Han Fei had already run away. For people like Xia Xiaochan who had mastered the skill of flash, gravity was of little significance. She could aim at the target and flash over. It was just that at the moment when she flashed out, she would have to bear the gravity for a while before she flashed again.

When Han Fei found Le Renkuang, he found that this fat man was actually squatting at the foot of the mountain, about to launch his Bloodthirsty Broadsword.

Han Fei was surprised. "Hey, what are you doing here?"

When Le Renkuang saw Han Fei, he immediately said with joy, "Do you think the Bloodthirsty Broadsword can take me up?"

Han Fei rolled his eyes at Le Renkuang. "What are you talking about? This mountain looks as high as seven or eight kilometers. Can your knife fly seven or eight kilometers high? Even if it can, how can it take you, a fatty, up? I bet you will fall before you fly a kilometer high."

"Really?"

Le Renkuang gave up his plan, rubbing his stomach. "Then I can only climb up little by little? How long will it take to climb to the peak?"

Han Fei glanced at the rock wall and said, "It's difficult, but you are an armorist. Are you afraid that you can't climb up?"

Le Renkuang randomly found a small bulge and said, "I have already tried once but ended up crushing the little small bulge I was clutching and falling down after only climbing a hundred meters." Han Fei couldn't help but lean forward to take a look and found that the small bulge was only thumb-sized. It was much harder than rock climbing to climb up with this thing.

Han Fei pressed it with his hand but crushed it.

Han Fei said, "This shows that we must properly control our own strength. The strength cannot be small. If it is small, it cannot resist the gravity; and the strength cannot be too great either. If so, it will easily

break these small rocks. Le Renkuang sighed and said, "I know! Then how great a force do you think I should use to climb up?"

Han Fei looked at him. "Why don't you ask Xiaobai? She is a manipulator. She should be better at this thing than you."

Le Renkuang's eyes lit up. "Yes! That is a good idea."

So Han Fei and Le Renkuang began to run around the giant peak. And they saw more than a dozen people getting together and cooperating with each other. They also saw four manipulators trying to get spiritual plants to hold onto the rock wall.

There were more and more people under the mountain. When Han Fei arrived here, there might only be a few hundred people here. However, after he ran a half lap, people could be seen almost everywhere under the mountain!

Most of these people had already started climbing. After they realized that this was a gravitational secret realm, they knew that time must be precious. In climbing, one just needed to use the right amount of strength. Therefore, what mattered in this round was the precise grasp of one's own strength and speed.

However, these people were just climbing but had never thought whether there was any other way besides climbing.

Some people might be thinking, but when they saw others had climbed hundreds of meters, they became anxious and started climbing again.

When Han Fei found Luo Xiaobai and Zhang Xuanyu, the two had climbed more than 500 meters high. And the speed of the two was very fast, and it seemed that they had not climbed for long.

Le Renkuang immediately said to them via voice transmission, Wait for me!

Luo Xiaobai looked down and was surprised to find that Han Fei and Le Renkuang were below.

Immediately after, two vines dropped down.

Le Renkuang quickly grabbed the vine. However, as soon as he dragged it, dozens of vines suddenly broke off on Zhang Xuanyu's side and he was hanging upside down on the cliff.

Zhang Xuanyu said helplessly, "Kuangkuang, easy. I told you not to eat so much, but you just didn't listen to me..."

Luo Xiaobai issued an order in her heart and large tracts of small leafy vines like creepers clung to the rock wall.

Luo Xiaobai said, "It doesn't matter. My vines can hold four people. But Han Fei, you'll have to give me some spiritual energy. And Le Renkuang, you can't completely count on the vines. The gravity on this rock wall is greater than outside and it's not easy to cling to the rock wall." Han Fei thought for a while and said, "What about eating spiritual fruit?"

Luo Xiaobai thought for a while. "Eating spiritual fruit will cause the spiritual energy in the body to riot and become unstable. Then the four of us will definitely fall. And have you noticed that there are many people near us?"

Han Fei turned his head to look. There were probably nearly a hundred people on the nearby cliff. Except for a dozen familiar faces from the Blue Sea Town, the others were all strangers. Han Fei frowned. What if these people waited for them to climb to a height and then attack them?

Han Fei grinned. "I see."

With a swish, Han Fei took out the Blue Sea Wandering Dragon Daggers. In an instant, arrow light flashed all over the sky, and arrows shot up everywhere.

"Han Fei, don't go too far. We haven't affected you."

"Han Fei, you're maliciously preventing us from climbing."

Han Fei snorted coldly. "This place has been occupied by us. You guys, leave." For a moment, hundreds of people fell one after another. They had no choice. In climbing, as long as someone attacked from below, the person above couldn't climb at all. Someone immediately shouted, "Han Fei, if we are stalemated like this, you won't be able to climb the mountain either."

Someone said, "Han Fei, at this time, we must trust each other."

Han Fei sneered. Trust? Why should I trust strangers?

Han Fei said, "Xiaobai, come down."

"Huh?"

"Wrap me with tough vines. I will climb up first and then drag you up one by one."

"Huh?"

Zhang Xuanyu was dumbfounded. "Are you sure?"

Le Renkuang asked, "How long will it take you to climb up?"

Han Fei grinned. "It's a pity that Xia Xiaochan has already climbed up, and I don't trust other people. As long as Xiaobai's vines are tough enough and won't be cut off by others, I can drag all of you up."

Xia Xiaochan believed in the ability of Han Fei and the others too much. In her simple thinking, climbing mountains shouldn't be a problem for them. The only one she was worried about before she climbed up was Le Renkuang, but then she thought Le Renkuang was so lazy that he probably would turn to Xiaobai for help. But she took the problem too simply. If it were so simple, they wouldn't have been required to climb the mountain in this round.

Luo Xiaobai looked at the extremely high mountain and said, "Once the vines are more than a kilometer away from me, I'll have less control over them. If they're more than 3000 meters away, I can't control them. You'll have to remind me of the distance."

Han Fei grinned. "I see."

Then Luo Xiaobai and the others all jumped down. This was the third time they had tried climbing the mountain. The first two times, some people were sabotaging their attempt. After they drove the first bunch of people away, the second bunch came.

Therefore, although Luo Xiaobai and the others were quite strong, they couldn't handle this situation.

In the distance, there were still people watching them coldly. Someone sneered. "Anyone can climb up, but they can't."

Han Fei could perceive that there seemed to be a lot of people ready to attack them, but he couldn't perceive anything on the top of the mountain where there seemed to be an array blocking his perception.

Luo Xiaobai tied the vines to Han Fei and calmly analyzed, "Although I don't know why, the three of us may be besieged later. There will definitely be some people trying to stop you from climbing up. Let's try once first and find out those who harbor ill intentions."

### **Chapter 594 Being Vengeful**

It was obviously unrealistic to beat all of the nearly 4,000 people. They briefly communicated and were sure that some people were targeting them.

These people seemed to be in every academy, so they couldn't decide which academy they should take revenge on. It just happened that Han Fei came, so they immediately made a plan.

Thousands of fine vines were intertwined, and the woven vines clasped Han Fei's body.

Han Fei wasn't in a hurry to climb up but waited for Luo Xiaobai's vines to stretch out long enough. Otherwise, the cliff was almost ten thousand meters high. Which manipulator could make such a long vine?

Han Fei could perceive that some people were waiting who didn't mean to climb at all and seemed to be waiting for Han Fei to start to climb up.

"Aren't these guys from the Fiery Dragon Town? No, there are also people from the Wind Thunder Town... Well, the Sky Martial Town is also among them. Why?"

Han Fei could perceive that people from at least eight towns seemed ready to attack him.

Han Fei said, "Zhang Xuanyu, there seems to be a lot of people. Can you resist their attacks?"

Zhang Xuanyu licked his lips and said, "We can have a try. I'm not sure! This gravitational secret realm has a great impact on me. However, it seems that it also affects them a lot."

"Let me try climbing up once. I'd like to see which towns mess around with us! Let me teach them a lesson..."

A moment later, when the vines had reached 5,000 meters high, Han Fei suddenly jumped onto the rock wall.

Those tiny rock cracks and thumb-sized bulges on the rock wall were easily crushed by Han Fei with just a press of his finger. However, Han Fei took advantage of this little force and climbed up very quickly.

On the top of the mountain, under the Sky Hanging Mirror, the presidents of other academies slightly shook their heads. "The climbing method Han Fei adapted requires numerous bursts of his spiritual energy. And even if he can go up to the height of 7,000 meters, how can he climb over the thousands of meters parallel to the ground?"

The top of this mountain was T-shaped, almost parallel to the ground.

Most people could climb up to 7,000 meters. But the part higher would be extremely difficult to climb over! Countless people fell from this point.

As a result, there were very few people who could actually reach the top of the mountain.

However, just after the president finished speaking, a figure flickered on the top of the mountain, and Xia Xiaochan had already reached the top.

The presidents: "..."

At a glance, Xia Xiaochan saw a group of mayors, presidents, and the like sitting together and looking at a huge mirror in the air.

She also saw that many people were climbing in that mirror. After searching for a while, she saw Luo Xiaobai and the others and saw Han Fei jumping upwards.

Thanks to Ren Tianfei's Seven-Star Array, Han Fei's speed was extremely fast. And his control of his own body was horribly precise.

At this moment, Han Fei was like running on the rock wall, which stunned many people. Damn it, do you think you're walking on flat ground?

When Han Fei climbed a kilometer high, he sensed that some people were besieging Luo Xiaobai and the others.

And then Zhang Xuanyu and Le Renkuang fought back and battles broke out under the cliff.

However, Han Fei didn't stop climbing because these people were just underlings and the people behind hadn't come out.

Half an hour later, Han Fei felt that Luo Xiaobai and the others couldn't resist these people anymore, and suddenly heard Luo Xiaobai's transmitted voice, The mastermind behind this must be from the Wind Thunder Town. The Fiery Dragon Town and Million Gold Town are also the main forces. You can come down now.

Swish!

Han Fei stepped on the rock wall, kicked, and fell rapidly from his height. Holding the Blue Sea Wandering Dragon Bow in his hand, he shot every single person from these three towns he saw along the way.

Someone immediately shouted, "Han Fei, you b\*stard!"

"Han Fei, we have nothing against each other. Why did you attack us?"

“Han Fei, you are too much! Why did you shoot us?”

Han Fei shouted out loud, “Everyone from the 36 towns, listen to me. Anyone who attacks our Thug Academy will be treated the same as the people from the Wind Thunder Town, Fiery Dragon Town, and Million Gold Town...”

His voice echoed through the air. As Han Fei landed, a golden fist shadow fell from the sky.

Those who were besieging Luo Xiaobai and the others were all dumbfounded. Why did Han Fei suddenly jump down?

Someone shouted, “Come on, run.” Han Fei shouted angrily, “I’d like to see how you can run away!”

BAM!

The fist mark broke through the air and appeared a hundred meters away in a flash. Some students from the Fiery Dragon Town were blown hundreds of meters away by the fist mark.

A student from the Million Gold Town didn’t run fast enough and was blasted into the ground by the punch. The students of the Wind Thunder Town were generally very strong, who were all above peak-level Dangling Fishers, but still couldn’t resist Han Fei’s Art of Invincibility. This punch from Han Fei made their five internal organs shake.

Luo Xiaobai issued an order in her heart and the vines wrapped around Han Fei’s waist untied automatically.

Luo Xiaobai said, “Let’s deal with the people from these three towns first.”

On top of the mountain, the presidents were astonished. Why did they suddenly fight?

Old Bai sneered. “Have you forgotten that we are originally thugs! They shouldn’t have attacked our students in the assessment because of personal grievances! After all, four of the five students of our academy got the evaluation of being vengeful...”

Some presidents frowned. “So what? How could they be sure that it’s the people from the three towns who attacked them? The people who fought against them include students from at least 10 academies...” Old Bai smiled again. “Did you forget that Luo Xiaobai had excellent grades in the last exam? What is her evaluation? Strong ability of logical judgment and thinking. These people’s siege of our Thug Academy is obviously premeditated. Unfortunately, they got caught...”

Down there, Han Fei was chasing a group of people and beating them.

Five or six students from the Wind Thunder Town exchanged ideas, contacted dozens of students from the Fiery Dragon Town and Million Gold Town, and were about to launch a counter-attack.

Although they knew that Han Fei was extremely strong, he was desperately outnumbered. No matter how strong Han Fei is, how can he resist so many of us?

However, to their surprise, a small branch appeared in Han Fei’s hand. Waves of knife lights shot out and instantly reached their eyes.

“Not good! How is it possible?”

“How can these knife lights be so fast?”

“These knife lights are unstoppable.”

“What kind of weird combat technique is this?”

In the preliminary round, Han Fei only attacked once and shot out only one knife light from start to finish.

Little did these people know that Han Fei had already merged the Void Breaking Technique and the Art of Invincibility into the knife lights, and it was simply impossible for them to dodge these knife lights.

After a short while, everyone vomited blood.

And Han Fei hadn't done his best. If he tried his best, these people would have been cut in half.

Han Fei would not kill anyone. Otherwise, he would fail this assessment.

These people lay on the ground one after another, looking horrified.

Han Fei grinned and said, “You can try again. Come on. But you'd better pray not to meet me in the Unknown Place. Otherwise, I will kill all of you until the three of your towns are wiped out.”

Han Fei at this moment was like an evil villain, violent, arrogant, and crazy...

Luo Xiaobai and the others started running around the mountain. Whenever they found a student from these three towns on the rock wall, they would knock them off the rock wall, letting go of none of them.

The students from the other academies were all dumbfounded. What's going on here? Can't you guys just focus on climbing the mountain? Why did you start to fight?!

Zhang Xuanyu launched the Nine-Layered Waves in the Furious Sea and several students from the Million Gold Town vomited blood and retreated. “Zhang Xuanyu, why did you attack us?”

Zhang Xuanyu sneered. “Because you started it first.”

These students said indignantly, “We didn't attack you.”

Zhang Xuanyu sneered. “I don't care. Someone in your town has attacked us anyway. So, no one from your town can go up.” Luo Xiaobai controlled the vines to sweep around and she launched the Grand Spirit Summoning Art. The students from these three towns within a kilometer all fell down.

What was worse, Luo Xiaobai drugged them and these people all fainted in mid-air and smashed to the ground heavily.

In just one hour, 80% of the students in the three towns were kicked down by Han Fei and the others, and the students from the other towns were shivering in fright.

Everyone was speechless. What the hell is going on here? Only a few students from these three towns attacked you, but you kicked down all the students from these towns?

Someone shouted, “Luo Xiaobai, do you really think the hundreds of us can't beat the four of you?”

Luo Xiaobai responded indifferently, "If you don't want to climb to the top, you can try fighting against us. But you'd better give it a second thought because once you attack us, we won't let you off."

Upon hearing this, many people frowned. We'll have to stay with these people in the Unknown Place in the future, so we must not offend them now! Otherwise, these thugs will certainly not let us off.

At this moment, the mayors of the Wind Thunder Town, Fiery Dragon Town, and Million Gold Town, including the teachers, were all grim-faced.

Especially the people from the Wind Thunder Town. As the host of this competition, their students were almost completely annihilated. Wasn't this a slap in the face?

On top of the mountain, there was still only one student, Xia Xiaochan.

Xia Xiaochan had already started to walk around the top of the mountain. Soon after, she saw an acquaintance, Jing Changfeng from the Wind Thunder Town.

At this moment, Jing Changfeng had climbed above 7000 meters and finished climbing half of the rock wall parallel to the ground.

Upon seeing this, the president of the Wind Thunder Town had a sinking feeling...

However, Jing Changfeng looked overjoyed. The Chain of Ghosts and Gods is amazing. I should be the first to reach the top of the mountain! As soon as his head popped up, however, a foot kicked him down.

Jing Changfeng: "???"

### **Chapter 595 The Assessment Is Over**

Jing Changfeng fell down. He had been climbing for more than an hour but ended up being kicked down. His body fell from a height of 10,000 meters and he fell heavily into the water.

He couldn't swim in the water. After all, swimming under such great gravity was much harder than climbing the mountain.

Jing Changfeng tried to hook somewhere on the peak with his fishing rod. Under gravity, however, the hook just touched the rock wall and then began to fall. Xia Xiaochan didn't even need to do anything.

The one who climbed highest on the rock wall had reached the height of 7,000 meters, and someone had already climbed on the most dangerous part of the rock wall parallel to the ground.

This section was particularly difficult to climb, and the climbers needed to use both hands and feet. Only by hooking up the cracks with one hand and one foot at the same time could climbers move forward slowly.

Under the mountain.

Han Fei and the others gathered together again. It was an easy fight. Those people were all clinging to the rock wall, so they could easily shoot them down.

After those people dropped, they could just go up and serve them a good beating.

There were nearly 400 students from the three towns and none of them could climb up. The assessment didn't allow killing. No one would think it worthwhile to make trouble for three or four people at the expense of the future of hundreds of people.

Han Fei, clutching the vines, took a breath and said, "I will go up first and then pull you up."

Luo Xiaobai buckled Han Fei with the vines. "Okay! Just pull us up when you climb up."

Han Fei grinned and jumped on the rock wall. Those thumb-sized bulges were completely enough in Han Fei's view.

After two months of training by Ren Tianfei, Han Fei's muscle control had reached an extremely high level.

Moreover, Han Fei's instant explosive power could completely enable him to find his next bearing point.

So the students from the 36 towns saw Han Fei start to climb again. He was so fast that he looked as if sprinting on the rock wall.

On top of the peak, Xia Xiaochan walked around but didn't see a second person climbing up, so she went to see the Sky Hanging Mirror with the presidents and mayors. In the mirror, Han Fei ran on the rock again, faster than the last time, which stunned them.

A president frowned. "This lad's control of his strength is so incredible."

Someone exclaimed, "This boy is brave and aggressive. Now no one dares to attack him on the rock wall."

Someone said, "I wonder if he can still run so quickly on the part of the rock wall completely parallel to the ground?" Han Fei didn't intend to do anything against other people on the rock wall now. For him, as long as the Thug Legend team could take the lead in reaching the top, fights didn't make any sense.

At this moment, only within Han Fei's vision, nearly 20 people had climbed onto the part of the rock wall parallel to the ground and were slowly moving forward.

Han Fei grinned. Interesting, it's a bit challenging.

It only took Han Fei about 15 minutes to climb to the height of 7,000 meters. The speed was staggering.

In the Sky Hanging Mirror, it could be seen that Han Fei was already near the part of the rock face parallel to the ground. Under the astonished gaze of everyone, he jumped into the air, spread his ten fingers, and clung onto the special part of the rock wall like a big gecko.

Han Fei glanced back. Now he could only rely on his hands and feet. At this moment, he was fighting gravity.

Of course, he could use the powerful suckers of Little Fatty, but he didn't want to use them. Although everyone knew that he had an octopus as one of his contractual spiritual beasts, he didn't want to use him because he suspected that the results of this test would be reported to the Unknown place.

Han Fei spread his five fingers and sucked himself onto the rock wall with the twisting muscles of his hand.

Han Fei was climbing like a big gecko. In just five minutes, he had surpassed an outstanding student from another town a few hundred meters away.

After another five minutes, Han Fei had climbed nearly 800 meters.

At this moment, Han Fei had changed to creeping forward. He spread his five fingers and clung onto the rock wall, and his forearms and calves were completely attached to the rock wall.

Five minutes later, Han Fei jumped and clutched the inclined rock wall at the edge with the force of his ten fingers. The energy of his fingertips burst instantly, and he jumped to the top of the peak with a swoosh.

Upon seeing Han Fei coming up, Xia Xiaochan was already waiting.

The presidents and the mayors cast strange glances at Han Fei as if looking at a monster. To what level had this person cultivated his physique? He had been sprinting all the way without stopping for a moment.

This was not the most shocking part. What shocked them was that every time, Han Fei used just the right amount of force. This was particularly evident when he was climbing the part of the rock wall parallel to the ground.

Everyone had to be amazed again. What precise control this boy had of his strength!

When Han Fei got to the peak, he was stunned. There was a projection on the sky, reflecting everything happening below.

Xia Xiaochan reminded him, "Pull them up first."

Han Fei nodded. This time, his perception was not blocked.

At the foot of the mountain, Luo Xiaobai and the other two were still waiting. Le Renkuang was eating dried fish and no one dared to mess around with them again.

Under the mountain.

Zhang Xuanyu kept looking up and his neck was almost stiff. "Do you think he has climbed up? It's too high. I can't see clearly."

Luo Xiaobai said, "The vines are no longer tied to him. I guess he'll hit the peak soon."

Le Renkuang muttered, "He's a monster! How can he climb up so fast? It would have taken me a day to climb up like him."

Zhang Xuanyu smiled and said, "You won't say that when you run for your life someday."

Le Renkuang still held the dried fish in his hand and stuffed it into his mouth. Suddenly, the three of them rose from the ground and were quickly dragged upwards. Zhang Xuanyu exclaimed, "So fast?" On top of the cliff, and Han Fei was quickly pulling the vines like he was in a tug of war. How heavy were three people added up? Even with 10 times the gravity, however, it was a breeze to Han Fei.

The peak was more than 8,000 meters high but the Le Renkuang trio was pulled up in half an hour.

When they reached the top of the mountain, Le Renkuang screamed, "Here I am!"

Zhang Xuanyu and Luo Xiaobai looked at the projection in the sky and were a bit puzzled.

Old Bai suddenly said, "OK, since you're all here, don't attack anyone now. I mean, leave some chances for others."

Han Fei was about to walk around the top of the cliff but was stopped by Old Bai.

Han Fei smiled and said, "Fine, then we won't attack anyone. Anyway, we've won."

So the five of them sat in the middle of the peak and watched "TV" with the mayors and presidents. Some people had just crawled out of the outer abyss, some people had encountered a thorny grass forest, still struggling inside, and some people were fighting below... Most of the people had reached an area above 4,000 meters at this moment, but there were fewer than 300 people reaching 7,000 meters high.

Among them, on the part of the rock wall parallel to the ground, there were about 80 people. From time to time, someone fell off. In seawater, gravity was abnormally high, so they quickly sank to the bottom of the sea.

Han Fei and the others looked at each other. It was really torturous to start all over again!

Some people got stuck at the height of 7,000 meters and stopped climbing.

Why didn't they continue to climb? Because it was not easy to climb to this height! They were here to compete with others. As long as they were better than others, they had already proven themselves!

What if they fell off if they continued to climb?

The sixth one to reach the peak was Ming Kun from the Wind Thunder Town. Fortunately, he arrived after the Thug Legend team. Otherwise, he would have been kicked down by Xia Xiaochan.

One after another, people reached the peak.

These people were mostly elites from the 36 towns.

For example, Li Hanyi was the 48th to reach the peak, followed by Zhong Yue, the 49th...

In the end, when the time was up, there were only 123 people who reached the peak.

However, after reaching the peak, the assessment didn't seem to be over yet, and the mayors and presidents were still waiting. Finally, the people below found that something was wrong. The time was up. Why hadn't the assessment been over yet? Luo Xiaobai said lightly, "The deadline must be fake. I'm afraid that the mayors and presidents just want to see how we act in the assessment."

Han Fei couldn't help but ask, "Climbing the mountain is about strength and patience, perhaps as well as wit. Then what else is this assessment evaluating?"

"We got up here by cooperation, so it can also evaluate teamwork, skills, abilities, and methods to solve problems." Zhang Xuanyu said, "So you mean in this assessment, they can actually see a lot of things. Strength, character, patience, teamwork, and methods. Otherwise, why are they still watching?"

Six hours later.

A total of 527 people had reached the peak. At this moment, the mayor of the Wind Thunder Town's voice resounded throughout the secret realm, "The assessment is over. Everyone, gather on the peak."

The Sky Hanging Mirror was removed.

Gravity disappeared.

The teleportation array appeared.

Those who had climbed to the peak rejoiced. They had made it. They had beaten nearly 4,000 people.

### **Chapter 596 Training**

Han Fei and the other four came out of the teleportation array immediately. This secret realm was only used for assessing and didn't have any other use. After about half an hour, everyone left the teleportation array and reappeared in the Wind Thunder Arena. At this moment, dozens of presidents were beckoning their students to gather up.

As expected by Han Fei, many presidents began to read the list of the eliminated students.

It took them a good half an hour to finish reading the list and in the end, nearly 3,000 people were eliminated.

When the eliminated students left dejectedly, Luo Xiaobai said indifferently, "A total of 1,368 people are left. There should be no next round."

Sure enough, as Luo Xiaobai said, the mayor of the Wind Thunder Town said, "Congratulations to the present 1,368 students from the 36 towns. You are very lucky. Now let me give you awards."

"Huh?"

"There are rewards?"

"Haha, I knew it! We wouldn't have come in vain."

The remaining people immediately cheered. However, Han Fei noticed that the presidents didn't look happy at all. Immediately, he guessed that the rewards must not be good stuff.

The mayor of the Wind Thunder Town said, "Now, let me announce the top 100 players in this competition."

The mayor picked up a list:

"Congratulations to Xia Xiaochan, from the Thug Academy, Blue Sea Town, for winning first place."

"Congratulations to Han Fei, from the Thug Academy, Blue Sea Town for winning second place."

"Congratulations to Luo Xiaobai, Zhang Xuanyu, and Le Renkuang, from the Thug Academy, Blue Sea Town, for respectively winning the third, fourth, and fifth places."

"Congratulations to Ming Kun, front he Wind Thunder Academy, Wind Thunder Town, for winning sixth place."

While the mayor of the Wind Thunder Town was reading this list, many students were silent, and many students were surprised.

They were silent because an academy they had never heard of before suddenly rose up!

They were surprised because everyone thought Han Fei was the strongest. But it turned out that Xia Xiaochan won first place!

Han Fei had made a name as early as in the Wind Thunder Arena. Could it be that Xia Xiaochan was a talent even stronger than Han Fei but was hidden by the Thug Academy?

Han Fei said to Old Bai, "President, I think we seem to be a bit high-profile."

Old Bai's face was beaming with smiles. "Only this time. When you enter the Unknown Place, no one will care about what places you have won in the 36-town competition. So, just keep a low profile there."

Han Fei could see that the Thug Academy suddenly became high-profile because of the obsession of Old Bai.

All this old man wanted was to revive the glory of the Thug Academy. This time, he finally got his wish.

From today on, the name of the Thug Academy would resound through all the 36 towns. The legends about the Thug Academy would only increase.

Because everyone knew that there was an academy from the Blue Sea Town. It only had 5 students but in the end, these 5 students took the top five places in the 36-town competition.

In history, it seemed that only the past Thug Academy had achieved this.

They achieved exactly what they had once achieved.

As soon as the places of the competition were announced, Old Bai lost interest. After a while, he brought five small black signs with three shining stars engraved on them. The five signs were the same. Han Fei perceived and found that among the 1,368 people present, only the top 100 people got the sign with three stars engraved on it.

The remaining 1,268 people only had two stars engraved on the sign. Han Fei couldn't help asking, "So, those people who were eliminated just now but have not left the Wind Thunder Town should be able to get one-star signs?"

Le Renkuang said, "This seems right. And I guess those students who have already left may not have any sign."

Zhang Xuanyu put his arms around Le Renkuang's neck. "Haha, that's a good guess. Then tell me, what does this black sign mean?"

Le Renkuang thought for a long time. "Where do I know of this? It means that we are better than them."

Xia Xiaochan scoffed. "Stupid. It must be related to the Unknown Place!"

Luo Xiaobai said, "This exchange competition is quite strange. The players didn't compete in fishing or combat power. It seemed to attach more importance on the players' personalities.

Therefore, I guess this is likely to be the Unknown Place's method of selecting talents."

Xia Xiaochan added, "So, everyone in the Unknown place must have this sign. People there are ranked according to the number of stars."

Han Fei grinned. "Xia Xiaochan, you've become smarter."

Xia Xiaochan glared at Han Fei. "I was always smart."

Han Fei looked at the sign repeatedly and thought for a while. Suddenly, he frowned. The material of this sign...

Immediately, Han Fei went into Forge the Universe and took a look at the Jail token that he found from the Hexagon Starfish's treasure.

Huh! The same?

Han Fei's eyelids twitched. The Hexagon Starfish was imprisoned by Ren Tianfei in the ordinary fishery under the Heavenly Water Village 300 years ago. How could he have a token of the Unknown Place?

Besides, the Jail Token certainly represented a jail! Did this token have anything to do with the jail in the Unknown Place?

Han Fei decided to ask Master Hexagon how he got this Jail Token?

The 36-town exchange competition was over. The Wind Thunder Town organized a farewell ceremony. Some people had made many friends here, while some had offended many people here.

For example, the Thug Academy offended many people this time. Among them, Han Fei offended the most. Even the ordinary people in the Wind Thunder Town were mostly offended by him.

At this moment, Han Fei enthusiastically waved to the crowd and recited, "Very quietly I take my leave,

As quietly as I came here;

Gently I flick my sleeves, Not even a wisp of cloud will I take away."

Many people were angered by his actions and some even blushed in anger!

"I've never seen such a shameless person! So many of us are sending them off, but he said he left quietly. What does he mean?"

"Shameless Han Fei. He didn't take away a wisp of cloud. He took away countless amounts of money from our town! He even abducted the Ghost Eye Giant Crocodile from our town's arena."

"Han Fei is such a pain in the neck, arrogant and shameless..."

"If he had stayed one more day, I would have challenged him tomorrow."

Someone next to him was speechless. Why don't you go up and say that to him?

Xia Xiaochan tilted her head and looked at Han Fei. "What're you reciting?"

"A poem."

Luo Xiaobai was puzzled. "A poem? It sounds very special." Xia Xiaochan nodded. "Yes, it sounds nice."

Women were usually more sensitive to the beauty of words. This showed that... Be it violent or cold women, they were actually emotional animals and were completely different from what they looked like.

Le Renkuang also waved his hand. "I won't take away a wisp of cloud either."

Zhang Xuanyu regretted it. "It's a pity we stayed too short a time in the Wind Thunder Town. Otherwise, I would have been able to get to know a few very close lady friends. What a pity, what a pity..."

Han Fei turned their heads around and walked to the teleportation array. "Let's go. Don't take anything away. Let's hurry home and make money."

Upon hearing his words, Old Bai stumbled in front of him. "Make money? No way! The only thing you are allowed to do when you go back is cultivate. You'll only have less than half a year. During this period of time, you must stay in the Thug Academy and cultivate hard." Wenren Yu said, "The president, Xiao Zhan, and I will supervise you 24/7 until you go to the Unknown place."

"Huh?"

They all drew a long face and Le Renkuang said, "Alas! Let's have hot pot first, and then cultivate hard."

However, Old Bai sneered. "Hot pot? You think too much. For the next six months, you are only allowed to eat hot pot and barbecue once every half month. You must use the rest of the time for cultivation."

"Huh?"

"Seriously?"

"President, please don't."

"President, how can you be so cruel?"

When Han Fei returned to the academy, the news that the Thug Academy had swept over the 36 towns had already been spread by the Fish Dragons.

Han Fei only had time to throw a Sea Swallowing Seashell to Li Gang before he was caught back by Old Bai.

In that Sea Swallowing Seashell, there were about 500 low-quality spiritual weapons. It was said that a lot of people signed up to buy the local-specialty lottery. Han Fei thought that this could become a long-term business, so he gave Li Gang a few more spiritual weapons.

The rest was beyond his control.

The day when they returned to Thug Academy, focused training began.

## **Chapter 597 Training Results**

Half a year later.

In these six months, Han Fei and the other four were almost tortured to death.

Xiao Zhan, Wenren Yu, and Old Bai forced teaching on them without any stop, almost leaving them no time to eat.

Every day, they were only given four hours of free time at night. During this time, they could choose to do what they wanted.

After the whole day of training, however, they could only use free time every night to practice combat skills and absorb spiritual energy. Of course, except for Han Fei.

He stayed on the plantation during his free time. That was because Han Fei wanted to learn too many things.

Everyone knew that the painstaking training of the past six months was to get them prepared for the Unknown Place. Old Bai and the teachers were no longer as lazy as usual but trained them as hard as they could so that they could have a better chance to survive in the Unknown Place. Therefore, the five of them had no complaints.

But Han Fei had learned a great variety of skills. He spent half a year researching arrays, knife techniques, bow techniques, footwork, and swimming skills. At the same time, as Ren Tianfei told him, he'd better find a heaven-level high-quality body refining technique before he went to the Unknown Place.

Therefore, in the past six months, Han Fei didn't even spend much time staying with Xia Xiaochan, but made the best use of his time.

Fortunately, the training results were rewarding.

Because he had already had enough spiritual power, he deduced the Million Knife Art again.

The combat skill deduced was indeed terrifyingly strong. Had it not been for the fact that it required too many weapons, Han Fei would have suspected that it should be classified as a divine-quality combat skill.

The deduced combat skill was as follows:

Ten Thousand Knives In One (Heaven-Level, Mid-Quality) Remarks: It's a knife control technique. When it's activated, tens of thousands of knives shoot out at the same time like a starry river hanging upside down and follow the user's thoughts to attack targets. When the momentum reaches its peak, the knives will form a waterfall of knives and attack ceaselessly like a tide. The knives won't stop attacking unless the user gives a command.

Disadvantages: Requires too many weapons and extremely high spiritual power. Combat Skill that can be deduced from It: Meditation Knife Light

Completion Degree: 0/5 million

Han Fei used it once when he was fighting against Old Bai, saying that he had created this combat skill by himself.

At that time, all the knives and daggers Han Fei owned had shot out like huge billows. As long as the knives didn't break, the waterfall of knives wouldn't disappear. The ultra-quality spiritual weapons that

had already absorbed the souls of Mess Swallowing Worms was sped up again and directly smoothed a small hill.

The hill was shrouded by chilly knife intent.

Then it became the training place for Qu Jinnan and Ling Yuan. They didn't even need to find an opponent but just needed to fight against the knife intent left by Han Fei.

What was knife intent? In Han Fei's opinion, it was just the power of a knife with a touch of the power of the Art of Invincibility, but he claimed that he had understood the artistic conception of a knife.

In addition to Ten Thousand Knives in One, when Han Fei returned to school to cultivate hard for a few months, the upper limit of his spiritual energy had also increased a lot but hadn't reached the limit yet.

Han Fei could only resume his old business. There was no shortcut to refining the body, and he couldn't strengthen the Indestructible Body Art for now.

So he simply continued to deduce the 108 Spirit-Absorbing War Bodies. After trying three times and consuming nearly 30 million points of spiritual energy, he finally deduced the combat skill to a heaven-level divine-quality one.

108 Desolate God Body (Heaven-Level, Divine-Quality)

Remarks: The human body is like a funnel, with 108 key points and 36 fatal points. Tempering these points with this technique can make all these points become one. When the user finishes practicing the technique, there is only one point in his whole body and the user can easily absorb spiritual energy from the air.

Disadvantages: The user may lose control in a pitched fight and the only point may be fatal too.

<Deduced Art> Unknown

Completion Degree: 0/50 million

This brand-new 108 Desolate God Body Art had once again crazily raised the upper limit of Han Fei's spiritual energy.

After half a year, Han Fei had refined the acupoints in his body into only 32. And only by making all the acupoints one, could he be considered as having finished practicing the 108 Desolate God Body.

In addition to the knife technique and body-refining technique, Han Fei also deduced the Shadow Swimming Art to a heaven-level high-quality.

The direct consequence of this was:

The three heaven-level, high-quality combat skills of the Shadow Swimming Art, Flying Fish Technique, and Sea Racing Art had been integrated into one.

This time, Han Fei only spent 3 million points of spiritual energy to integrate the three combat skills and came up with a masterpiece: Sixty-Four Dimensional Fish Dragon Dance.

Sixty-Four Dimensional Fish Dragon Dance (Venerable-Level, Low-Quality)

Remarks: This is an infinite art, which combines the essence of millions of swimming skills. From the sixty-four dimensions of this art, millions of skills and techniques can be derived. The preliminary grasp of this art enables the user to swim even faster than a wandering dragon. Once the user has fully mastered the art, he can leap across oceans and clouds in an instant.

Disadvantages: It requires very strong spiritual power, and it's very difficult to get started.

<Deduced Art> Unknown

Completion Degree: 0/100 million

When Han Fei saw this art, he himself was shocked. When he finished learning about this swimming art, he was shocked to find that this game had several magical features.

Firstly, with this art, you could simulate any swimming skills you had seen.

Secondly, as long as you preliminarily grasped this art, you could use swimming skills and create new swimming skills at will. And from the Sixty-Four Dimensional Fish Dragon Dance, countless kinds of swimming skills could be derived.

In other words, you could easily create a new swimming skill by randomly combining the sixty-four dimensional changes. And what was most impressive was its third feature that it was not only a swimming skill, but could also simulate others' footwork.

For example, Han Fei simulated Xia Xiaochan's footwork with this art and became much more flexible in combat.

Of course, because this art was too difficult to practice, Han Fei hadn't gotten started yet, let alone grasped its foundation.

Because it was too difficult, Han Fei didn't dare to continue to deduce it. Although he knew the combat skill to be deduced must be stronger than this art, what was the point of doing so given that he couldn't master it?

At last.

Han Fei studied the Spirit Gathering Scripture.

The last six months could be said to be the most fruitful time period for Han Fei. Every day, Han Fei dragged the Hexagon Starfish out of the Bull Conch pit to teach him about arrays whenever he was free.

Perhaps because his spiritual power had become much stronger, it was easier for him to study the Spirit Gathering Scripture this time.

Han Fei studied six types of arrays.

Spirit gathering arrays: Han Fei had already learned this array. But in addition to the Great Spirit Gathering Array, he also learned the Spirit Derivation Array and Spirit Returning Array.

Concealment arrays: Han Fei wasn't quite familiar with this kind of array before and only knew the simplest kind of concealment array that couldn't even conceal a peak-level Dangling Fisher. After

studying it, he learned that there were many kinds of concealment arrays, including the Breath Concealing Array, Stealth Array, and Sealing Technique.

The sealing technique was very impressive. It could actually seal one's own real strength. However, people stronger than the user could still find out his real strength.

Speed arrays: This included 12 arrays such as water arrays, wind arrays, wind chasing arrays, and tide arrays. Unfortunately, Han Fei didn't have the opportunity to study them one by one.

Killing arrays: It contained the Hundred Water Profound Killing Array, Blasting Water Array, and Seven Spirit Killing Array. These were the only kind of arrays that Han Fei hadn't mastered. He could only occasionally activate the Seven Spirit Killing Array but hadn't learned it.

Defense arrays: It included the Six Spirit Armor, Turtle Array, Big Water Wall Array, etc. Han Fei only learned the Six Spirit Armor.

Sound insulation arrays: As the name suggests, they're used for sound insulation. But they could also block sound transmission and perception...

Even if Han Fei had been studying the above arrays for half a year, he had only learned the Breath Concealing Array, Water Travel Array, Six Spirit Armor, Sound Insulation Array, in addition to the Great Spirit Gathering Array that he had already mastered.

Yes, Han Fei only learned five arrays. He could activate these arrays by stomping his foot. Except for the Great Spirit Gathering Array that needed to be arranged, Han Fei could activate the other four arrays only by stomping his foot.

If Han Fei was given enough time, among all the arrays mentioned above, he could also activate the Seven Spirit Killing Array by stomping

In Han Fei's opinion, after the painstaking cultivation in the last half a year, his strength had gone to a higher level.

In terms of combat power alone, Han Fei's combat power had increased by at least 30%, which was really fast.

It was a pity that up to now, his spiritual energy's upper limit had not yet reached the top and he was still a peak-level Dangling Fisher.

On the contrary, the other four had all made a breakthrough. Even Zhang Xuanyu, as assisted by the Great Spirit Gathering Array arranged by Han Fei, had broken through to be a peak-level Dangling Fisher a few days ago.

For this reason, Han Fei was badly scolded by Old Bai who said that it was because Han Fei had learned too much that he couldn't make a breakthrough for a long time.

Of course, his words were very offensive to other people.

They secretly complained, yes, that guy didn't make a breakthrough, but look at his strength! It has increased so much!

On this day, Han Fei mused all night and understood the killing arrays better. The first thing he did the next morning was run to the Bull Conch pit and pull the Hexagon Starfish out of the pit.

The Hexagon Starfish yelled, "Why are you here again? It's still dark!"

"Cut the crap! Why does it matter to a starfish whether it's dark or not?" While Han Fei was about to ask the Hexagon Starfish questions, he heard the voice of Old Bai. "Everyone, gather." Han Fei was surprised. "Huh! Is the time up?"

### **Chapter 598 My Goal Is the Infinite Ocean**

Soon, Han Fei and the other six people, including Qu Jinnan and Ling Yuan, gathered.

In the last six months, Qu Jinnan and Lingyu basically didn't do anything else and didn't even continue to fight in the Blue Sea Arena.

The reason was that the Thug Academy announced the start of closed training.

The Thug Academy was now very famous, so even if they didn't go to the arena, no one would say anything about it.

Qu Jinnan and Ling Yuan, who had nothing else to do, shuttled among the exclusive training fields of their senior brothers and sisters every day. For example, Han Fei's training ground was on the top of the mountain and he stayed in the plantation only at night.

Le Renkuang was in the plantation all day.

Zhang Xuanyu's training field faced a big mountain and was under the small peak where Xiao Zhan lived.

Xia Xiaochan set up a training ground for herself. As suggested by Han Fei, she set a large array of wooden stakes on the training ground but the so-called wooden stakes were only finger-thick and very soft.

When Xia Xiaochan didn't use it, she would leave it for Qu Jinnan and Ling Yuan to practice. The two of them crushed the stakes almost every day, and then replenished the area with new ones.

Luo Xiaobai's training ground was certainly a piece of woodland. After she stayed in the woodland for half a year, a lot of strange things had grown out of the ground.

There were various colorful flowers and plants in the woodland. But it was the last place that Qu Jinnan and Ling Yuan wanted to go. Because once the two of them walked in there, hidden weapons shot at them from all directions, and they had to tighten their nerves.

Of course, another challenging place for Qu Jinnan and Ling Yuan was the hill that Han Fei used.

It was shrouded with Han Fei's unique and invincible knife intent all day long. Every time they went in and walked around, they ended up coming to Han Fei to get the Divine Healing Technique.

Because of this, the growth of Qu Jinnan and Ling Yuan was staggering. When fighting against them, Han Fei and the others reduced their strength to the level of advanced great fishing masters.

Han Fei and the others didn't receive such crazy training before. There were only the two of Qu Jinnan and Ling Yuan, so they could enjoy this special treatment.

Because of the five senior brothers and sisters, the two of them had experienced hardships they would experience in the fisheries in advance.

Of course, they were completely unable to fight back.

As for Han Fei and the other four, all of them had made great progress. Luo Xiaobai practiced a footwork technique and dozens of combat skills, including techniques about trapping, team battles, and attack...

Xia Xiaochan found seven or eight combat skills in the library and took this period of time to practice all of them. These combat skills were mainly about explosive power, and with them, she could fight for two minutes without stopping

Zhang Xuanyu was working hard on his stick technique. He had deduced the Nine-Layered Waves in the Furious Sea into the One Returning Stick Technique. Then he combined the stick technique with a spear technique and created an Instant Mystic Spear, which was comparable to the Bloodthirsty Broadsword of Le Renkuang, as well as Han Fei's Draw Technique.

Han Fei didn't quite get what Zhang Xuanyu was thinking? In Zhang Xuanyu's own words, he originally wanted to learn Han Fei's knife light.

However, he didn't practice the Thousand-Mile Fishing Technique as well as Han Fei and was no match for Xia Xiaochan in spatial comprehension. So, as guided by Xiao Zhan, he stepped on a different path.

Then he came up with the Instant Mystic Spear. On the day the technique was invented by him, Han Fei stood still and let Zhang Xuanyu stab him, and to his surprise, Zhang Xuanyu thrust the spear one inch into his flesh.

As for Le Renkuang, he was very special. The Serial Spirit Gathering Array Han Fei set up became his training field.

In the last six months, he had at least swallowed 100 acres of land.

He was practicing his Sky Swallowing Technique in the Serial Spirit Gathering Array but accidentally burst his spiritual heritage, which was reformed and reached the seventh level.

Han Fei was really jealous of him! Hell, I tried so hard but haven't reached the sixth level yet. But this guy upgraded his spiritual heritage so easily and now his spiritual heritage is at the same level as Tang Ge!

After that, the power of Le Renkuang's Violent War Body and Bloodthirsty Broadsword was doubled, so was that of the other combat skills he had practiced.

This aroused discussions among Han Fei and the other four. They felt that when the spiritual heritage reached level 7, there would be qualitative changes, which might bring unexpected gains.

At this moment, the seven of them were standing in a row. Among them, Luo Xiaobai had the highest realm as she was soon to be a Hanging Fisher.

Oh, no... To be precise, it was the result of Luo Xiaobai's deliberate suppression of her realm.

Otherwise, she would have already become a Hanging Fisher. After all, they had no shortage of spiritual fruits now. Therefore, they didn't need to worry about spiritual energy at all.

Old Bai and the other teachers stood in front of them.

Old Bai said, "Tomorrow, you will set off for the Unknown Place and can't return until four years later." Old Bai looked at them seriously and said word by word, "Besides, what I want to tell you is that this time, we really can't set foot there. Unless something really big happens, we can't go there unless we force our way in."

Han Fei was astonished. "Can you force your way into the Unknown Place?"

Old Bai glared at Han Fei. "Only me. Xiao Zhan and Wenren Yu are not qualified."

Luo Xiaobai asked, "Why would you have to force your way in there?"

"Ahem!"

Old Bai said, "If we don't, we can still go there but would be subject to a lot of restrictions. Think about it, who is willing to let strong masters run wild in his own territory?"

Le Renkuang asked, "President, why don't you make each of us a life tablet or give us something like the Immortal Seal or Amulet?"

Everyone looked at Le Renkuang. What are you thinking of? The Thug Academy emphasizes survival in desperate circumstances. How can you demand these things?

However, to everyone's surprise, Old Bai took out a black jade tablet. "Everyone, leave a drop of essence blood on it. This is your life tablet. If it breaks... We will find out."

Xiao Zhan waved his hand and threw five diamond bracelets to the five of them. "These are your amulets. They can withstand the attacks of junior Hidden Fishers. But the number of times is limited. If you keep being attacked, they can't even resist an intermediate Hanging Fisher."

Xia Xiaochan was shocked. "Am I dreaming?"

Old Bai said, "As for the Immortal Seal, I think Faceless has given some to you, right? In fact, the effect is the same. If that Immortal Seal can't save you, no other Immortal Seal can save you. So now you've got the life tablet, the Immortal Seal, and an Amulet."

Everyone secretly took a breath. The trip to the Unknown place must be really dangerous! Otherwise, why has Old Bai suddenly become so generous?

Qu Jinnan and Ling Yuan were holding their breath on the side. From the tense atmosphere, they could tell how dangerous this trip would be! They were even more worried than the five themselves. Old Bai said leisurely, "Since you will be away from school for a long time this time and it may even be the last time for me to see you, you can ask me any questions you'd like."

Han Fei's eyes immediately brightened. "President, why did our Thug Academy decline?"

Everyone pricked up their ears. They had wanted to ask this question for a long time.

Old Bai rolled his eyes. "Change the question."

Everyone: "..."

Everyone was speechless. Liar!

Xia Xiaochan broke the silence, "President, after we come back from the Unknown Place, can we defeat the Thousand Star City?" Wenren Yu said, "By the way, let me tell you something. The 36 towns will send people to the Unknown Place, so will the Thousand Star City, and they will send more people there. Therefore, if you can conquer the Unknown Place, you can also defeat the Thousand Star City."

Old Bai nodded and said, "Yes, if the time is right, we may possibly move. We also have a site in the Thousand Star City." "Huh?"

Everyone was astonished.

"Does our Thug Academy have a site in the Thousand Star City?"

"I heard the land there is very expensive? We haven't been there for 30 years. Does the site still belong to us?"

"Then why don't we move there now?" "Did our Thug Academy move here from the Thousand Star City?"

For a moment, they were in an uproar. This was a really big surprise for them! They had thought that it was already very awesome for the Thug Academy to occupy an entire island in the Blue Sea Town. They didn't expect that it also had a site in the Thousand Star City!

Old Bai sneered disdainfully. "What's all the fuss about? Can't you ask some constructive questions?"

Xiao Zhan said, "For example, the questions about the Unknown place itself."

### **Chapter 599 Departure**

Han Fei and the other four had to give up prying into the academy's gossip.

They complained in their hearts, Didn't you say that we could ask any questions?

Luo Xiaobai took the lead to change the topic, "President, what should we pay attention to when we go to the Unknown Place?"

Old Bai said leisurely, "Keep a low profile!" "Huh?"

Han Fei asked weakly, "President, are you sure you don't mean a high-profile?"

Old Bai pondered for a moment. "The main reason is that even if you are high-profile, you may not be able to stand out. I told you there are a lot of talents there. You may think you can keep a high-profile and steal the show, but in fact, others are stronger than you."

Han Fei grinned. "Now I'm really looking forward to it."

Old Bai coughed. "However, there is no need to worry too much. Our Thug Academy has people in the Unknown place."

Everyone: "???"

Wenren Yu and Xiao Zhan smiled, giving Han Fei a strange feeling.

Han Fei's first reaction was Old Jiang and Jiang Qin. These two must be in the Unknown place! He must dig them out this time. These were two big shots and he must not let go of the chance of riding on their coattails.

Although the Unknown place was huge, there would be a great chance to meet them since he would have to stay there for four years.

Xia Xiaochan asked, "Is there another junior uncle there?"

Le Renkuang added, "This junior uncle won't rob us, will he?"

Old Bai's face immediately darkened. "Don't be misled by Faceless! When you get there, your Senior Brother Dashuai (Marshal) will receive you."

"Senior Brother Dashuai?"

"Marshal?"

"Huh? Do we have a senior brother who is a marshal?"

Old Bai paused and a cold gleam flickered in his eyes. "Hmph, you'll know when you get there."

For some reason, Old Bai seemed suddenly to be in a bad mood. Everyone guessed that this senior brother must have some sort of conflict with the academy. Otherwise, how come they had never heard of this senior brother before?

Zhang Xuanyu nodded. "I guess he is probably on the same level as Junior Uncle Faceless. Being a marshal, he can't be weak."

However, since Old Bai said that Senior Brother Dashuai would receive them and they would meet him in the Unknown Place, he didn't ask anymore.

Wenren Yu smiled strangely. "You should be careful when you get there. Don't be reckless. The Unknown place is not like the 36 Towns, and not everyone there is so easy to get along with. When you get there, follow the rules. Of course, don't be afraid and lose the face of the Thug Academy, understood?"

Xiao Zhan nodded and said sternly, "When you get there, don't think about exploring secret realms all day long. The Unknown place is vast and boundless, and the secret realms in the sea are as many as the stars. Even in the near-sea area, there are countless unexplored secret realms. But it's different from the level-three fishery there. You'll find out when you get there."

Luo Xiaobai suddenly asked, "Teacher, can we still form a team there?"

Xiao Zhan answered, "Yes, you can, but you may want to go about your own business. If you get rid of some constraints, you can still choose to form a team."

Old Bai suddenly said, "Han Fei, come with me. The others, stay here and continue asking questions."

Han Fei: "???"

After a while, Han Fei came to the library with Old Bai.

Han Fei asked in confusion, "President, is there something you want to tell me alone?"

Old Bai threw him a few Sea Swallowing Seashells. "I've exchanged your mid-quality pearls for high-quality ones. There are a total of 15 million high-quality pearls. I know you might think these are too few, but that's all I can give you from the Floating Islands."

Han Fei was overjoyed and took the Sea Swallowing Seashells. Although 2 billion mid-quality pearls were only exchanged with 15 million high-quality ones, the qualities are completely different. If he took 2 billion mid-quality pearls to the Unknown Place, there might be no place for him to exchange them.

Then, Old Bai handed him a jade slip. "This is a book about refining, but it is only a preliminary introduction. Learn some refining techniques in the Unknown place. I don't know whether you have any refining techniques or not, but I guess you must have some. When you reach the Unknown Place, find a way to get a refiner certificate from the Refining Hall. Otherwise, you'll arouse people's suspicion."

Han Fei's eyes widened. "Is there a certificate for refining?"

Han Fei never imagined that there was actually a certificate for refining!

Old Bai smiled. "That thing is of high value. In the Unknown Place, the status of refiners is not low. Especially the refiners who can seal spirits, they are all one in a million."

Han Fei memorized what Old Bai said in his mind. From what Old Bai said, it could be seen that the status of refiners who could seal spirits enjoyed a high status. In the Blue Sea Town or the level-three fishery, there were actually very few refiners, especially those who could seal spirits. On the Floating Islands, it was because most people couldn't afford it.

In the dangerous level-three fishery, with dragon boats around, which refiner dared to show what he was capable of easily?

Han Fei couldn't help but think, In the Unknown Place, can I give a full play to my talents?

Han Fei asked weakly, "President, anything else?"

Old Bai thought for a moment. "I know that you will definitely go find Old Jiang when you reach the Unknown Place, but I suggest you don't be in a hurry to find him. Wait for the right time."

Han Fei was surprised. "Why? I think I can definitely find him in the plantation of the Unknown Place."

Old Bai snorted. "And then?"

"Uh..."

Han Fei scratched his head. Yes! What would he do after?

Old Bai cast a look at Han Fei. "Don't think that with the Sea Token, you are someone. It's uncertain whether it'll be a blessing or a curse. You are still an advanced Dangling Fisher. What makes you think you're qualified to explore the secrets of the Sea Token?"

Han Fei was speechless. "So when can I be qualified to explore the secret of the Sea Token?"

Old Bai thought about it. "Perhaps when the number of the stars on your waist tag becomes seven."

"Seven?"

Han Fei was a bit shocked. In the 36-town exchange competition, a total of 100 three-star waist tags were issued, which represented the top 100 among the countless students in the 36 towns! It could be seen that it wouldn't be easy to increase one's number of stars.

Old Bai said seven, but what did a seven-star waist tag stand for?

Seeing Han Fei lost in thought, Old Bai said, "OK, you can go now! You can take away the Hexagon Starfish, but not the Ghost Eye Giant Crocodile! Of course, if any of you can make that thing your contractual spiritual beast, you can take it away."

Han Fei thought for a while and decided not to do it. The crocodile was of no use to him now and he already had enough contractual spiritual beasts.

...

After talking with Old Bai, Han Fei walked casually to Xiao Zhan's small hill. In the past six months or so, the Hexagon Starfish had almost grown into a Hexagon Sea Pig.

As for the Ghost Eye Giant Crocodile, since he came to this place, he had been in panic all day long. Who would have believed that a mysterious creature would be bullied here every day?!

He was only a legendary creature, so he'd better keep a low profile.

But fortunately, Han Fei and the others were leaving, and the president and teachers didn't bother to pay attention to him, and the two younger students dared not to mess around with him.

Relatively speaking, the Ghost Eye Giant Crocodile found itself much more comfortable than the Hexagon Starfish.

Besides, the spiritual energy here was very abundant, so he promised Old Bai to be the guardian spiritual beast of the academy for several years.

The Ghost Eye Giant Crocodile liked to lie on its stomach in the plantation because there was the most spiritual energy there. As a lazy starfish, the Hexagon Starfish liked the Bull Conch pit most, because there he could have Bull Conches massage him every day.

At this moment, two Bull Conches were massaging the two tentacles of the Hexagon Starfish. He was lazily basking in the sun, a little too cozy. Han Fei said with a black face, "Come out."

"Do you want to ask me about arrays again? I really don't know anything about them... The starfish's arrays are inherited, not learned."

Han Fei grinned and said, “Do you remember the sign I asked you about?”

The Hexagon Starfish’s big eyes rolled. “300 years ago, I was too young, so I forgot where the black card came from.”

Han Fei chuckled. “It doesn’t matter. I’ll take you to revisit the old haunt.”

The Hexagon Starfish’s big eyes rolled, and he immediately became cautious. “Where? I’m not going. This is my home. I’m not going...”

Han Fei directly took out its essence blood and said, “Alas, then you’re of no use to me! Fine, let me crush this useless essence blood then!”

“No, no, no... Wait a minute, let’s talk.”

Han Fei rolled his eyes at the starfish. “Come out. You have enjoyed this pit for so long, it’s time for you to work.”

The Hexagon Starfish: “???”

Han Fei grabbed a tentacle of the starfish, waved and a large mass of clean water wrapped the Hexagon Starfish.

A few minutes later, the palm-sized Hexagon Starfish appeared on Han Fei’s shoulder. “You said you would return the essence blood to me.”

Han Fei said leisurely, “I’ve fed you for more than half a year, and there are big Bull Conches giving you a massage every day. Do you think this was for free? The labor contract is renewed for four years, and I’ll return your essence blood to you four years from now...”

The Hexagon Starfish: “...”

## **Chapter 600 Cloud Whale**

When Han Fei returned to the team, Xia Xiaochan asked in surprise, “Is the big starfish going with us?”

The Hexagon Starfish seemed to grasp the last straw. “No, I’m not going. This is my home. I’m not going...”

Han Fei nodded as if not hearing him at all. “Yes, this guy occupies too many resources in the school. I’ll just take him with me.”

Le Renkuang laughed. “Master Hexagon, let’s go. More people, more fun.”

The Hexagon Starfish’s big eyes kept rolling. “But I am a starfish...”

They had been preparing for a full half a year to go to the Unknown place.

Not only the Thug Legend team, but everyone else who would go with them also dared not to slack off in the past six months. Even the guys who were eliminated in the first round of the exchange competition dared not slack off in the slightest.

Because their teachers said, with their qualifications, if they didn't want to die, they would have to try their best to cultivate.

At this moment.

The five of them stood in front of the school. Han Fei glanced at the school sign and the characters on it were carved by him.

Zhang Xuanyu said leisurely, "How many times is this?"

Han Fei muttered, "It'll be a long time before we come back this time."

Xia Xiaochan nodded. "But we'll be back."

Le Renkuang sighed. "Oh! My good days are over! What a pity." Luo Xiaobai said lightly, "This is just another journey of ours."

Qu Jinnan and Ling Yuan stood in front of the school, looking at them wistfully.

In their hearts, these were their very nice senior brothers and sisters. Among them, the best were Zhang Xuanyu and Le Renkuang, because these two weren't as crazy as the other three.

Of course, the other three were also very good. It was just that they often "abused" them, which was a little bit hurtful.

Qu Jinnan said first, "Senior Brothers, Senior Sisters, go there and take good care of yourselves."

Han Fei said with a long face, "What are you guys talking about? You act as if we're going to die."

Ling Yuan added, "Senior Sisters, I will miss you."

Zhang Xuanyu said unhappily, "Why only Senior Sisters? Won't you miss your Senior Brothers? Especially me..."

Ling Yuan smiled awkwardly. "Sure, I'll miss you too."

Xia Xiaochan said, "Go back. We're leaving." Han Fei said to the two of them, "By the way, I left some more knife intent on that little hill just now. Make good use of it!"

Qu Jinnan: "..."

Ling Yuan: "..."

Xiao Zhan and Wenren Yu took the five of them to the teleportation array in person, but Old Bai didn't come.

One hour passed.

They strolled slowly into the teleportation array and found that many people in the three major academies were already standing there.

Xiao Zhan patted Han Fei and Xiao Zhan on their shoulders. "This is a hurdle that cannot be avoided. Everyone in the Thug Academy must take this step. Work hard."

Wenren Yu said to them, "When you get there, remember not to be too hasty. Play safe. If you have any problems, just turn to your Senior Brother Dashuai for help."

Luo Xiaobai nodded. "I see, Teacher, we're going." Wenren Yu waved her hand. "OK! Take care."

Although the other people from the three major academies didn't like the five of them, they had no conflict of interest, and even Li Hanyi's anger with Han Fei had almost gone.

That was mainly because Li Hanyi had realized his gap with Han Fei. He had no chance to win against the Thug Legend team.

However, when the others saw that Han Fei was still an advanced Dangling Fisher, they were surprised. Hasn't this guy made a breakthrough after half a year?

At this moment, Luo Xiaobai walked into the crowd and looked at Han Fei. "When can you make a breakthrough?"

Han Fei smiled. "No hurry. We'll see when we get there."

Xia Xiaochan pinched Han Fei's flesh. "Alas, I can't stab you and make you bleed anymore."

Han Fei: "..."

The teleportation array leading to the Unknown place was separate. At this moment, many people were here saying goodbye to their families.

Xiao Zhan and Wenren Yu didn't come here probably because they didn't like the cheesy parting scene.

Therefore, the five of them went directly to the teleportation array, preparing to pass directly.

Someone shouted, "Han Fei, wait a minute."

Han Fei looked back. It was the violent girl, Xiang Zuozuo.

Han Fei smiled and said, "What's the matter?"

Xiang Zuozuo pulled Han Fei to the side, then glanced at Xia Xiaochan, and said to Han Fei via voice transmission, "Someone asked me to bring you a message."

Han Fei curled his lips. Huh?

Xiang Zuozuo rolled her eyes. Can you be more serious? He Xiaoyu is a good girl. She just asked you to be careful. What do you want to say to her? I'll ask my classmates to tell her.

Han Fei thought for a while. Live a good life. Don't yearn for the Infinite Ocean.

Xiang Zuozuo: "..."

Han Fei waved his hand. "I'm leaving."

Xiang Zuozuo stomped her foot in anger. What an unromantic man!

Han Fei looked at Xia Xiaochan and grinned. "It's okay. Let's go!"

Xia Xiaochan gave Han Fei a sly look. "I didn't ask anything!"

They came to the teleportation array.

There were guards standing here. Seeing them, although they knew them, they still said, "Waist tag."

Han Fei and the others took out their three-star waist tags, and the guards nodded and let them go.

They stepped into the teleportation array without looking back.

Outside.

Wenren Yu sighed lightly. "They've gone."

Xiao Zhan nodded. "Yes, let's go back!"

Wenren Yu turned around and sighed again. "Do you think they'll follow the same old disastrous road if they keep growing at this speed?"

Xiao Zhan shook his head slightly. "It's not easy. They're not there yet."

Han Fei opened his eyes. The first things that caught his eye were two tables, six Hanging Fishers in battle suits, the clear sky behind them, and the sea of clouds.

In the sky? Floating Island?

When Han Fei looked back, he took a breath. This portal is really big!

Yes, Han Fei saw a super portal that was hundreds of meters high. It was empty in front of and behind this huge teleportation array, which was placed in the sky, like a huge eye.

"Visitors, put on your waist tags."

Ahead, two Hanging Fishers were sitting at the table. One of them said lightly, not seeming to be in a hurry.

Han Fei looked at these people's waists. Among them, the two sitting people had five stars on their waist tags. The other four people standing had four stars on their waist tags.

Han Fei frowned. Sure enough, the waist tag is divided into different grades! But two random people he met here had five-star waist tags! He and the other top 100 students in the 36 towns only had three-star waist tags?

Han Fei and the others put on their own waist tags.

When those Hanging Fishers saw the three-star waist tags, their eyes lit up.

Another man said, "Come here and sign in."

Luo Xiaobai took the lead to walk down. There were obsidian steps at her feet. On both sides of the steps, there were 100-meter high statues of soul warriors holding clubs. When they came to the table, a person lazily said, "After signing in, go to the side and wait for the waist tag to be refined." "Huh?"

Luo Xiaobai frowned slightly. "Can this waist tag be refined?"

The man said indifferently, "Of course. If you have an accident in the future, your waist tag will shatter with you, and we will find out."

Xia Xiaochan said, "So, this is equivalent to the life tablet in the Unknown Place?"

The man nodded. "Yes! Your waist tags have three stars. It seems that you're quite talented. I guess you won't die so easily. However, the waist tag does not only serve as a life tablet, we will talk about it when everyone arrives."

After Han Fei and the others signed in, they waited in a clearing tens of meters away. About 20 people had already stood there.

A drop of essence blood was dropped into the waist tag, and the waist tag suddenly burst with blue light, and the three stars flickered.

Han Fei was surprised to find that there was suddenly a link between him and his waist tag.

At this time, a Hanging Fisher said, "After you refine your waist tag, even if the waist tag is lost, it does not matter. The stars will automatically appear on your palm. If your waist tag is a hundred kilometers away from you, it will shatter and you can re-apply for one."

In the teleportation array, people appeared one after another. Those Hanging Fishers didn't have time to talk to them anymore but to explain to the newcomers.

Xia Xiaochan suddenly tugged at Han Fei's sleeve and said, "Look, there are steps over there that lead to the sky."

Everyone followed Xia Xiaochan's gaze. In the clouds, there seemed to be steps, leading to the sky and disappearing into the clouds.

"Woo... Squeak~~" Suddenly, above the distant sky, an ethereal voice went out in all directions.

Han Fei's expression changed immediately. "Whale?"

It sounded like a whale. But whales emitted ultrasonic waves, which humans shouldn't hear but cultivators could hear. He was sure this sound belonged to a whale.

The next moment, the clouds broke open, and the head of an extremely big whale poked out of the clouds. As the fish twisted its body downward, they finally saw the true face of the big fish.

At this moment, everyone was stunned.

The Hexagon Starfish crawled to Han Fei's neck, staring at the fish with his big eyes. "What a big creature!"

Xia Xiaochan gulped. "What a big fish..."

Le Renkuang asked, "How many meals does it have to eat a day?"
