Chapter 661 A Chaotic Battle

The moment everyone entered the battlefield, the battle was already in full swing. In less than three minutes, more than 10 people had died.

Of course, the people were not weak at all, and probably more than 50 sea monsters had been killed.

Han Fei and the others dashed down about 500 meters. Together with Han Fei were not only Guan Qingyan and the others, but also the disciples of the seven major sects and some talents from the 36 towns, with a total number of 50 or so.

These 50 people attracted more than 100 Red Demons and Inferior Man-Fish. Only around Han Fei, there were more than 20 Red Demons with even a Half-Mermaid.

The scene was very chaotic, and many people were shouting, "Disperse, disperse..."

Le Renkuang launched the Armor Art and Torrents of Knives and Swords, buying some time for everyone. Luo Xiaobai had already released countless vines as she dove down. At this moment, within 500 meters of Han Fei and the others was covered in spiritual plants. The vines were spreading in every direction. Guan Qingyan didn't seem to be very good at fighting

However, he had plenty of ultra-quality spiritual weapons. At this moment, he was dealing with five Inferior Man-Fish alone, equipping himself like an iron bucket.

Cao Qiu almost armed himself to the teeth and had already made his super defensive Cloud Dolphin attach to him.

Then he summoned his Poisonous Bubble Fish and it kept spitting bubbles. At the same time, his spiritual beast, Blazing Fish, was spreading illusions.

As for Mu Jia'er, just like Cao Qiu, armed herself to the teeth. The ultra-quality battle suit even wrapped up her neck. Except for the eyes, no part of her body was exposed. Mu Jia'er threw out more than 50 ultra-quality long swords at once. These long swords seemed to form a sword array, fighting against a Red Demon.

Han Fei smacked his tongue. This is the benefit of being a refiner! They are never short of ultra-quality spiritual weapons.

Only Mu Jia'er and Guan Qingyan had thrown out more than 100 ultra-quality spiritual weapons, all sealed with spirits. Han Fei thought if he were a sea monster, he would have never approached the three of them. These guys were too damn rich! Suddenly, Han Fei turned sideways as a flash of red light shot past his chest.

In the next second, two harpoons shot at him although they were not as powerful as the previous one. Han Fei held the whetstone and sent the two harpoons flying.

However, in the blink of an eye, Han Fei was surrounded by two Inferior Man-Fish and a Red Demon.

The Red Demon was wearing colorful battle armor, riding a Blazing Fire Fish, holding a spear that was thrust towards Han Fei.

With a smile, Han Fei dodged it using a strange posture, and backhandedly activated the Draw Technique. On the other side, the two Inferior Man-Fish didn't expect at all that Han Fei would have the time to attack them while fighting the Red Demon.

With a single slash, these two Inferior Man-Fish were beheaded.

Seeing two subordinates die, the Red Demon didn't even blink.

Han Fei's nine-star chain had already flown out. After beheading two Inferior Man-Fish, Han Fei's next target was the Red Demon.

Being entangled by the chain, the Red Demon didn't seem to be worried. It seemed to master a special fighting technique and managed to block Han Fei's attack with eight spears at the same time, trying to kill Han Fei with one blow.

However, upon seeing this scene, no one came to help Han Fei, and Luo Xiaobai didn't even throw a vine over.

Because she knew that this kind of attack was of no use to Han Fei at all.

When the Red Demon approached Han Fei, it was already doomed.

Han Fei dodged the six spears with a weird movement, grabbed two spears with both hands, and quickly withdrew back.

Thinking that Han Fei was defeated, the Red Demon chased him forward and summoned a harpoon back, preparing to stab Han Fei to death.

At this time, Zhang Xuanyu was fighting a Red Demon and an Inferior Man-Fish. The Red Demon saw Han Fei being sent flying, immediately gave up on Zhang Xuanyu, and came to kill Han Fei.

It seemed that Han Fei was in trouble. However, people who were familiar with Han Fei were not worried. Only Mu Jia'er shouted to Han Fei, "Watch out, liar!"

"Idiot Mu, don't let your sword array leave me." Cao Qiu rolled his eyes.

Just as Mu Jia'er shouted, more than 30 Blue Sea Wandering Dragon Daggers suddenly appeared beside Han Fei.

Buzz...

The daggers danced wildly in the air and the two Red Demons were pieced numerous times almost instantly.

Only before they died did they realize that this guy was feigning defeat.

Zhang Xuanyu's Instant Mystic Spear had penetrated the Inferior Man-Fish in front of him, and he didn't forget to say to Han Fei, "Thanks, bro."

After about half an hour, the battle was about to end.

ere

They were caught off guard at the beginning, resulting in the loss of dozens of people. In the past half an hour, the sea monsters rushed forward desperately regardless of their casualties and just tried to wipe off the humans in front of them.

But at this moment, the humans had set up all kinds of arrays, dispersed in different directions, and helped each other. Although the fight was still fierce, no more humans died.

At this time, Luo Xiaobai suddenly said via voice transmission, Something is wrong. These sea monsters can't be so weak. Han Fei, instill spiritual energy in everyone. I think something is going to happen. Although most people were fighting two or even three creatures, in fact, only the Red Demons were difficult to deal with, the Inferior Man-Fish were easy to kill.

And there were only about 300 Red Demons in total. Among them, no fewer than 50 had died. So, although the battle still looked thrilling, it was no longer that dangerous.

Upon hearing Luo Xiaobai's words, Han Fei immediately set up a spirit gathering array and pointed his fingers at Luo Xiaobai and Le Renkuang to inject spiritual energy into their bodies. After all, these two people consumed the highest amount of spiritual energy.

At the same time, Han Fei shouted to Mu Jia'er and Guan Qingyan, "Don't throw so many weapons out. It's a waste of your spiritual power."

Cao Qiu had already put away his Blazing Fish and Poisonous Bubble Fish.

He was the smartest. Since I can't fight the enemy anyway, I will simply take a rest.

Mu Jia'er was a little pale. It was the first time she had encountered such a crazy battle, so she inevitably overexerted herself.

Han Fei infused her with a pillar of spiritual energy, which made her feel better.

However, at this moment, three Red Demons surrounded Han Fei from three directions.

Not only Han Fei, but other spirit gatherers who had performed spirit gathering techniques were also under siege. It seemed that these sea monsters were targeting these spirit gatherers. "Han Fei, help them. Others, stop unnecessary consumption of spiritual energy and stand together," Luo Xiaobai immediately said.

Not only Luo Xiaobai, but many people also noticed something was wrong.

Yang Deyu shouted the loudest, "Huh! Where are the sea monsters? Why don't they come and fight me? Are they scared to pee by me?"

Han Fei immediately figured out the intentions of these sea monsters. Just now, he wondered why these sea monsters were so weak.

It turned out that they had a purpose.

Their purpose was to kill all the spirit gatherers among humans.

However, some sea monsters disappeared.

Han Fei chuckled, put away the Blue Sea Wandering Dragon Daggers, and faced three Red Demons alone.

If these red demons were above level-50, Han Fei would definitely not have confronted them. However, the strongest one among them was only level-48, so he was not afraid of them at all.

Among the three Red Demons, one was riding a Blazing Fire Fish with an axe phantom on the skin of its body, and another had fused with its companion spirit, a Sailfish.

The three fierce attacks of theirs attracted the attention of many people. However, Han Fei just stood still in the water, and the seawater in front of him suddenly rolled up and countless water blades appeared. When the two sides were less than 100 meters away, Han Fei quickly retreated.

“Why does no one help him? Those are three Red Demons!” Mu Jia’er yelled.

Cao Qiu curled his lips. “It’s okay, he used poison.”

“What kind of poison did he use? I didn’t see him poisoning...”

One second... Two seconds... Three seconds...

When one of the Red Demons began to cough, Han Fei immediately retreated, activated the Draw Technique and an arc of blade light tens of meters long shot out.

Crack!

“Puff... Puff... Puff...”

The three Red Demons were cut in halves by Han Fei before they realized what happened. Their companion spirits were all twitching. These Red Demons didn’t die immediately and the halves of their bodies were still vomiting and tossing Han Fei wiped the Blood-Drinking Knife and stomped on the ground, once, twice, three times...

Spirit gathering arrays appeared one after another. He was drawing a large spirit gathering array. Han Fei didn’t dare to let Master Hexagon draw the array. After all, the eight-star masters were watching outside. He wasn’t sure if someone would covet Master Hexagon.

Hexagon Starfish didn’t dare to move. As if in a deep sleep, he hid on Xia Xiaochan’s calf and didn’t move at all.

Anyone who can hear me, recover as quickly as possible. Something seems to be wrong. Try to restore your energy in the shortest amount of time possible, Han Fei said to the others via voice transmission.

Chapter 662 The Real Fish Tide

Very few sea monsters could successfully kill spirit gatherers.

Humans were not fools. If the companion spirit gatherers died, once they ran out of spiritual energy in a battle, they could only eat things like spiritual fruits and tonic pills. However, after taking spiritual fruit,

spiritual energy in one's body wouldn't be stable. Even if they could still fight, their combat power would inevitably decline.

But spirit gatherers were different. They could send spiritual energy directly into the body, which could then be used at will.

After the last Red Demon was beheaded, the people gathered in groups.

At this time, many people with strong commanding ability came out, trying to control the situation.

"All teams gather up!" someone shouted.

But someone immediately retorted, "No, what if the enemies come again? It'll be too crowded to fight!" Someone shouted, "Count the casualties!"

But a person retorted, "Bullsh*t! Now we should think about how to deal with the sea monster's sneak attack. In the previous battle, the opponent's casualties definitely didn't exceed 300."

For a time, many people wanted to be the commander. They believed that Adjudicator Zheng must be watching them above the water now.

If they had an outstanding performance, they would only gain more benefits in the future.

Among the crowd, Han Fei said to Luo Xiaobai calmly, "Don't speak. Don't direct right now."

Han Fei had set up dozens of spirit gathering arrays. In his perception, the sea monsters were swimming to the other side of the strait to join their reinforcements.

Han Fei perceived that six Half-Mermaids were leading the troops, followed by less than 200 Red Demons and about 300 Inferior Man-Fish.

Han Fei said to Luo Xiaobai via voice transmission, Wait, the other party has already swum 20 kilometers away. I don't know what they're going to do.

There are no spiritual plants there. I can't perceive anything. How far can you perceive? Luo Xiaobai frowned. More than 20 kilometers...

Luo Xiaobai looked at Han Fei in shock. Calm as she was, she was shocked by the number Han Fei said.

But she just asked calmly, "What are they doing?"

"They are assembling, with their numbers being about 500. Among them, there are 6 Half-Mermaids, less than 200 Red Demons, and the remaining are all Inferior Man-Fish... Wait, they stopped."

Han Fei's eyes suddenly chilled. The six Half-Mermaids led the troops to turn around.

At this moment, the Half-Mermaids, Red Demons and Inferior Man-Fish behind them presented an awl-shaped array, facing the direction where the humans were.

These sea monsters... All summoned their companion spirits. All kinds of companion spirits looked ferocious and seemed to be about to jump out.

Han Fei frowned. "Oh, they're going to charge, a long-distance charge. That's why they have summoned their companion spirits!"

Luo Xiaobai's face changed immediately and she shouted to everyone, "Everyone, gather up... I just sensed that the Half-Mermaids, leading the Red Demons and Inferior Man-Fish, are about to launch a long-distance charge against us 20 kilometers away. Everyone, listen to my command. Armorists, guard at the forefront and initiate your torrent of weapons..." "20 kilometers away? How can you know this? I'm afraid you just want to be our boss..." someone immediately retorted.

Swish!

A flickering arrow of spiritual energy pierced the air, darting at the person who had just spoken.

The man was horrified. The spiritual energy arrow contained in this arrow was too much, 6,400 points of spiritual energy! Was the archer crazy?

But this person was not weak. He brandished the long spear in his hand, rolling up a water dragon and blocked Han Fei's arrow.

BAM!

The moment the spear clashed with the spiritual energy arrow, it burst.

It was an ultra-quality spiritual weapon but this person exploded it just to block Han Fei's arrow.

"You... How dare you attack me at this time?"

Han Fei put down his Wandering Dragon Bow, his face cold. "What a mess. Another word from you, I'll kill you on the spot."

The disciples from the seven major sects couldn't help smiling bitterly after hearing Han Fei's words: Han Fei was as overbearing as ever.

To everyone's surprise, Gong Yuehan from the Jade Fairy Palace shouted immediately, "Listen to her command. Armorists, go to the front."

Immediately afterward, Chu Xun from the Grand Void Academy shouted, "Listen to the command."

Although in the level-three fishery, the disciples of the Grand Void Academy were fooled by Han Fei, in terms of strength alone, Chu Xun admired Han Fei.

Besides, Han Fei must have discovered something so he performed so decisively.

The guy who was almost killed by Han Fei gritted his teeth and had no choice but to obey the order. Otherwise, he felt that Han Fei might really kill him.

From that arrow, he could tell that Han Fei was very strong. An arrow of spiritual energy forced him to explode his weapon. Who knew what else Han Fei could do?

When Han Fei had stabilized the situation, Luo Xiaobai immediately directed the crowd to gather up and ordered, "Armorists, release a torrent of weapons. And all spirit gatherers, perform healing techniques.

Once will be enough. In addition, the soul warriors who have learned bow skills stand behind the armorists...”

Immediately, 37 soul warriors came forward. Now that they chose to be soul warriors, they were certainly not cowards.

These soul warriors all drew their bows and shot their arrows into the distance.

Among the less than 300 soul warriors, 37 of them had learned bow skills, although over 40 soul warriors had been killed in the battle.

At this moment, someone asked Luo Xiaobai, “Why doesn’t the guy next to you come?”

Someone looked at Han Fei as if warning him not to treat others like cannon fodder.

“If you are going to set a trap ahead with me, you don’t have to go to the front.” Han Fei sneered.

“Are you going to do it alone?”

Many people were dumbfounded. Is he out of his mind? There are at least more than 500 sea monsters over there. And he’s going to set a trap alone?!

“Xiaobai, I’ll leave this to you. They are moving. Come on... Zhang Xuanyu, follow me.” Han Fei suddenly frowned.

Zhang Xuanyu looked dazed. He didn’t expect Han Fei to pick him.

But then he grinned. Sure enough, Han Fei was his buddy. Otherwise, he wouldn’t have chosen to die with him.

Han Fei and Zhang Xuanyu left the team with a swoosh and rushed forward at their fastest speed.

“The other party has already taken action.” Luo Xiaobai frowned. “All hunters, listen, I mean all... All hunters. Stay invisible and hide in the sky. No matter what happens below, don’t do anything. Just target the six Half-Mermaids and make sure to kill them as soon as possible.”

“Manipulators...” she went on.

In front, Zhang Xuanyu said, “Feifei, what are we going to do? Are we going to kill all 500 sea monsters? Although this is brave, I don’t think we can survive!”

“Are you an idiot? I don’t want to die, OK? Stop 1,000 meters ahead.”

Han Fei immediately threw out dozens of cattles of Poison God and then said to Zhang Xuanyu, “Come on, use the Nine-Layered Waves in the Furious Sea. Spread the poison as far as possible.”

III.

11

Zhang Xuanyu’s face turned green. Of course, he knew what poison this was. Wasn’t this the extremely terrifying Poison King? He didn’t know that Poison King had been upgraded to Poison God. Han Fei

certainly wouldn't tell him now. "The other party will arrive at most in three minutes. Be quick!" Han Fei said.

Zhang Xuanyu yelled and threw out a strike at the water with his rod. The water rippled... One layer... Two layers... Three layers... When the water began to ripple, Zhang Xuanyu and Han Fei had turned around and ran back because they had already felt the vibration of the water.

Zhang Xuanyu said as he ran, "It's really f*cking exciting this time. This is a trial, right? This is definitely a trial..."

"If this is only a trial, why were so many people killed? They can't die in vain. There must be a reason."

"No matter what that reason it is, I just want to quickly become a six-star killer when I go back. Then I can regain my freedom and go to sea freely," Zhang Xuanyu said.

Han Fei squinted. "For some reason, I have a feeling that we are not ordinary soldiers on the island."

ve

a.

His face suddenly changed. "Run! Damn it, they are speeding up." "What?!" Zhang Xuanyu didn't know what to say.

After a few minutes, Han Fei saw the thousands of meters of sea area covered with vines. "Can the vines stop them?" Zhang Xuanyu asked.

"Of course not. But better than nothing. These sea monsters are all poisonous now!"

On Luo Xiaobai's side.

Lu Wuwei from the Death Door Sect led four other disciples to guard in front. However, they didn't look horrified. Although their Three Death Doors couldn't block so many sea monsters, it could buy some time at least.

Behind them, Chu Xun from the Grand Void Academy and Sun Mu were the second echelon. Both of them were good at large-scale attacks. Chu Xun's Six Styles of Grand Void was very powerful.

Needless to say, Sun Mu's Deity Slaying Array was even more powerful. BAM! BAM! When Han Fei and Zhang Xuanyu suddenly showed up, everyone was shocked. Luo Xiaobai immediately shouted, "Go to the back, Zhang Xuanyu! Han Fei, join the second echelon. Use your Million Knife Art."

Han Fei landed next to Sun Mu and glanced at him coldly. "I really hope you are killed."

Sun Mu snorted. "I'm not going to give up on the Sea Token."

"Haha! It just so happens that I am also going to kill you."

Chapter 663 A Suicide Charge

On the sea.

Behind Zheng Chaojie, someone smiled. "This year's newcomers are of good quality especially Luo Xiaobai. She is so composed."

Someone echoed, "Yes, she's good. Is that kid called Han Fei? He is hiding his strength. I wonder what his real strength is. He's good at using poison."

Someone smiled and said, "Isn't that poison made by Cao Qiu? But he's too timid. I am afraid that he can only do research in the Scattered Stars Sixth Unit."

Someone frowned. "Was it wrong of us to bring Guan Qingyan and Mu Jia'er into this year's battle?"

Someone shook their head. "Nothing wrong. The two of them only know about refining and have no combat experience. They can't just rely on ultra-quality spiritual weapons in combat."

Someone looked at Yang Deyu and said, "The Yang Family are full of lunatics. That kid's axe skills are not bad though."

Zheng Chaojie suddenly shouted at the Half-Mermaid opposite, "Hey, have you seen it? Your stinky fish and shrimp are simply incomparable to our talents! You'd better discuss how to deal with our young talents. Otherwise, you'll be doomed."

The leading Half-Mermaid of the other side snorted coldly. "Let's wait and see."

In the Heaven-Human Strait.

Han Fei's face became serious. This fish tide was a bit scary.

Their speed was too fast and their momentum was too strong. The spiritual plant jungle spanning thousands of meters, as expected, didn't stop them at all.

At this moment, the sea was surging and getting more and more turbulent. He could perceive that the mermaid army was launching a rapid charge like a sharp knife.

"Shoot them with arrows. The target is straight ahead. Shoot twice. Spirit gatherers, replenish spiritual energy, now!" Luo Xiaobai suddenly shouted. Swish! Swish! Swish!

Spiritual energy arrows burst out one after another, passing by them in a flash, and like a meteor in the night sky, drawing dazzling beams of light in the dark waters.

The first round of arrows was shot out, followed by the second round, with less than a second in between.

The spirit gatherers had already begun to inject spiritual energy into these 37 people when the first round of arrows was shot.

As soon as the two rounds of arrows were shot out, Luo Xiaobai immediately ordered, "The first echelon, open the Death Door and withdraw."

"Three Death Doors."

There were only five people in the first echelon, and fifteen doors descended from the sky consecutively, blocking everyone behind.

Then the five from Lu Wuwei's sect retreated.

At this time, the first round of arrows had reached the fish tide army.

However, the results were not satisfactory. Han Fei's face sank. The other party had only 7 people pierced, including 6 Inferior Man-Fish, and only one Red Demon.

The second round of arrows was not much better. 11 sea monsters were pierced, with only 2 Red Demons, and the rest were all Inferior Man-Fish.

Luo Xiaobai had perceived all this clearly. However, she didn't panic but immediately said, "Chu Xun, Sun Mu, and Han Fei, disperse. When the Death Doors are shattered, attack them."

The three of them dispersed, and the people behind them were nervous. There must be some people killed in the coming battle. Being put on the margin of death, they couldn't help feeling nervous!

jas

No one was more nervous than Cao Qiu, however. This guy was hiding behind everyone, shivering. He didn't care what the adjudicators would think of him. His life was the most important. It was safest to hide behind anyway. Luo Xiaobai could only let him. In fact, even if Cao Qiu was in front, he wasn't of any help. He couldn't fight and could only make sneak attacks, which was simply useless.

Boom~

Boom, Boom, Boom

Suddenly, strong currents of water pounced on them as violently as a tsunami despite the Death Doors blocking up front.

If it weren't for these Death Doors, even junior Hanging Fishers might not have been able to resist this wave of seawater.

Crack... Boom! Crack... Boom!

Crack... Boom!

As for the three Death Doors, the first one was broken in an instant. The second lasted slightly longer than the first, and only the third lasted for about a second. And when the fish tide was hitting the Death Doors, Chu Xun retreated to the row of armorists, his eyes glaring. "Grand Void Sword, Sword Sea..."

Sun Mu also retreated to the armorists. "Immortal Showing the Way, Red Light Everywhere." All 108 swords came out and the Deity Slaying Array was activated. Han Fei glanced at it. The Deity Slaying Array seemed to have become stronger.

But Han Fei didn't think the Deity Slaying Array could resist such a fish tide. From Sun Mu's movement, Han Fei sensed a trace of sword intent. This b*stard had actually mastered sword intent!

Han Fei's side was equally dangerous, but he didn't retreat. The Ten Thousand Knives in One was a combat skill exactly for such a situation.

SWISH!

The 99 Wandering Dragon Daggers shot out, all of which were ultra-quality spiritual weapons with spirits sealed inside.

In the rear, many people's eyes popped out. Although they were shocked by the arrow Han Fei shot just now, they had no idea he was so strong!

Mu Jia'er's eyes widened and she exclaimed, "Can he control 99 knives at the same time?"

Guan Qingyan's eyelids twitched. "What strong spiritual power! He is an extraordinary spirit gatherer indeed."

It was not just the people in the Heaven-Human Strait who were surprised.

On the sea, some people exclaimed, "When did this kid seal spirits for his weapons? 99 knives, even more than Guan Qingyan and Mu Jia'er?"

Someone was stunned. "Is he using the Million Knife Art? That combat skill requires extremely high spiritual power and as many weapons as possible. Does he have enough spiritual power to control so many weapons at the same time?"

Someone pondered for a while and couldn't help but curiously say, "As we know, the one who has practiced the Million Knife Art best can control more than 1,000 knives at the same time, right?"

"Yes, 1200, to be precise... That person equals an entire army." Someone nodded.

The disciples of the Death Door Sect did buy some time for the people. Although it was only two seconds, when the crazily sprinting army was blocked by the Death Doors, their speed advantage was almost gone. It was like a rushing cavalry being tripped over by horse-straps and thus losing the advantage of speed.

Han Fei immediately rushed up.

However, Han Fei didn't use secret methods, so after the armies of the two sides met, the advantage the 99 Wandering Dragon Daggers brought him was gone.

Like a wandering dragon followed by countless shining beams of knife light, Han Fei flew into the army of sea monsters and swept through the enemies.

As soon as the two sides met, more than 30 were killed or injured.

As Luo Xiaobai issued the order, all the armorists moved and a flood of weapons poured out.

BAM!

As if two turbid currents converged, violent scuffles broke out between the two parties.

Blood, like a gorgeous flower, bloomed in the deep sea.

All kinds of fancy combat skills were activated and the spirit gatherers didn't even have enough time to replenish the people with spiritual energy.

The six Half-Mermaid were instantly attacked by the over 40 hiding hunters as soon as they showed up. In just one round of assassination, five were killed and the remaining one was badly injured.

BAM!

Suddenly, the remaining Half-Mermaid blew itself up. The horrifying power directly killed the two hunters around it.

The other three hunters around escaped in time but were still seriously injured.

BAM! BAM! BAM! As the half-mermaid blew itself up, the Inferior Man-Fish began to blow up too.

Luo Xiaobai's face changed drastically. "Manipulators, take spirit gatherers away from the battlefield. Activate all the secret methods you've got. Don't make useless sacrifices!" she shouted.

However, it was too late.

Just because of this mistake, nearly 30 people died in the sea monsters' self-detonation.

Han Fei immediately activated the Majestic Mystic Spell, which doubled the lethality of his attacks. However, he still hadn't used his full strength.

In Sun Mu's Deity Slaying Array, a large number of Inferior Man-Fish were beheaded after the red light swept over.

As for Chu Xun, he had already been seriously injured and dragged away from the battlefield by a manipulator.

The ones with the least damage were the manipulators, armorists, and hunters. Soul warriors and spirit gatherers had suffered heavy casualties.

The entire battlefield had been wrapped up by spiritual plants, and all the manipulators had tried their best. They were the people in control of the overall situation. Since the first sea monster blew itself up, many people realized that they made a big mistake.

Luo Xiaobai, pale-faced, summoned a huge amount of Fantasy God Grass, intending to control their minds to prevent the mermaids from blowing themselves up.

It did work, but Luo Xiaobai's power alone was limited, and she couldn't control such a big battlefield.

Fortunately, the people selected this time were not ordinary people. Therefore, after the continuous self-detonation sounds, those who should leave the battlefield were already leaving the battlefield.

At the moment, more than a dozen Inferior Man-Fish rushed to Han Fei, trying to blow him up.

However, they had no idea how strong Han Fei's physique was. Therefore, many of them had blown themselves up, but Han Fei was still alive and attacking.

Seeing this, seven or eight Red Demons aimed at Han Fei and launched a suicide charge. Not only Han Fei, but Luo Xiaobai, Sun Mu, Guan Qingyan, and several others also became the Red Demons' targets.

In the eyes of these sea monsters, these people were the strongest ones on the humans' side. They should kill these people as soon as possible.

However, such people were the least likely to be killed.

Even Chu Xun, who had been seriously injured, still managed to fight to a tie with three Red Demons.

At this time, Han Fei suddenly shouted, "Leave the battlefield, all of you, leave the battlefield. Something is happening on the cliff. Find a safer place to stay."

Upon hearing his words, many people were shocked. The next second, they perceived a dense mass of insects emerging from the cliffs on both sides of the Heaven-Human Strait. Centipedes, scorpions, Mess Swallowing Worms, polypods, Scare Shrimps...

And these bugs had caught many creatures, including humans and sea monsters.

Chapter 664 The Unknown Place Is Dangerous Indeed

When the battle came to an end, the sea monsters were almost all killed.

Until this moment, everyone realized that the 800 sea monsters had no intention of going back alive.

All they wanted was to perish with their enemies.

All this made Han Fei and the others scared. What a damn race is this? Aren't they afraid of death?

The strongest ones of mankind rushed over to rescue the injured people, haunting the cliffs on both sides.

They were fighting against sea monsters just now, but now against bugs. Even so, only seven or eight people were saved.

Fortunately, those bugs only attacked the dead and the injured, and for those who still could fight, they could only fend for themselves before giving up.

When the last person was rescued, everyone gathered up. Han Fei counted and there were only 196 people left... In other words, 104 people died on the human side in this battle.

Han Fei couldn't help being moved by this number. No one in the battle this time was weak.

For example, the guy who was shot by him just now could block the sixth arrow of his War Soul Art, which meant that he was extremely strong.

When he was still a junior Dangling Fisher, he could kill a peak-level Dangling Fisher with the sixth arrow.

Now he was already a Hanging Fisher, but the guy was only slightly injured.

One hundred and four people as strong as that guy were killed in this battle, which was a little unacceptable to Han Fei.

Unprepared, they were taken to the battlefield and then killed, not knowing why.

Besides, many of them were from big families from the Thousand Star City. Could it be that those big shots on the Scattered Stars Island really didn't care about the lives of these people?

At this moment, Han Fei felt angry and sad. This battle only lasted for half an hour, but so many people died.

It was this battle that made those who had survived realize that the Unknown place was dangerous indeed.

Han Fei was casting the Divine Healing Technique on Luo Xiaobai while injecting spiritual energy into her body.

On the battlefield, manipulators did not seem to be so useful, but just now, at least 50 people were rescued by manipulators.

Luo Xiaobai had almost run out of spiritual energy, her face utterly pale.

Han Fei scanned around with his perception, and his face changed slightly. "Where is Cao Qiu?"

Han Fei glanced around, but didn't find Cao Qiu.

Although this little fatty was timid, he was really nice to his friends. Besides, how could that guy just die?

"I am here, I am here..."

Cao Qiu ran out of a hole in the cliff, Han Fei didn't know what to say. "How the hell did you run into the hole? I didn't even perceive your

Cao Qiu seemed to be still in a panic. "I was sent flying into the hole by a sea monster's self-detonation! Then, I was dragged in by the damn bugs. Fortunately, my cute Poisonous Bubble poisoned them all!"

Han Fei narrowed his eyes. He didn't believe his words. You were sent flying into the insect den? Why didn't your ultra-quality battle suit protect you?

Zhang Xuanyu swam over to Han Fei all flustered. "Feifei! Get me some clothes. All my clothes are destroyed."

"OK, I can mend them for you," Han Fei said lightly. Xia Xiaochan appeared next to Luo Xiaobai. "Xiaobai, are you okay?"

Luo Xiaobai shook her head. "I made a mistake. I didn't expect them to detonate themselves collectively."

"It's not your fault. No one would have expected that. These Half-Mermaids, Red Demons, and Inferior Man-Fish were just pawns, like suicide bombers," Han Fei said.

Le Renkuang slowly flew over. "Feifei! I lost 23 weapons! That's a big loss!"

Han Fei rolled his eyes at him. "I saw that. All those weapons were just high-quality spiritual weapons."

Le Renkuang was immediately anxious. "Nonsense, I... I exploded several ultra-quality spiritual weapons! Look at my battle suit, it's torn too."

Han Fei said with a black face. "Fine, fine, you all lack ultra-quality spiritual weapons. I get it. When I go back, I will refine more weapons to arm you guys to the teeth."

Upon hearing Han Fei's words, Le Renkuang and Zhang Xuanyu gave each other a high-five happily. They could get what they wanted.

The above seal was lifted. Knowing they couldn't win, the insects in the Heaven-Human Strait didn't swarm out.

Everyone's mind was weighed down. No matter if the people killed were their friends or not, they were on the same side when they were fighting against the sea monsters.

One-third of the people died. The first thing Luo Xiaobai did when she came to the sea was to come directly to Zheng Chaojie and ask, "Why didn't you tell us what the battle was really like before it started?"

Upon seeing this scene, many people were startled, including Han Fei. Did Luo Xiaobai realize that she was questioning an adjudicator?

However, since Luo Xiaobai had done this, Han Fei and the other three would only choose to back her up. Now all the five of them stood in front of Zheng Chaojie.

Zheng Chaojie said indifferently, "Are you questioning me?"

"Yes," Luo Xiaobai said.

"Are you sure?" Zheng Chaojie asked expressionlessly.

"Yes."

Some laughed. "She is really a tough girl. Old Zheng, what do you think?"

Zheng Chaojie looked at the five for a moment only to find that none of them looked away, so he said, "You're really worthy students of the Thug Academy."

"True growth always starts with death. Return to the team and be ready for the coming battle," he suddenly turned serious and said.

He did not explain. As an adjudicator, he didn't need to explain himself.

Luo Xiaobai and the others did not move. However, Zheng Chaojie waved his hand and threw them hundreds of meters away.

"Do you think this is over? No, this is just the beginning. Take a break. What happens next will be even crueler!" Zheng Chaojie shouted.

Zheng Chaojie didn't explain, but someone else explained.

A seven-star hidden fisher said, "We didn't notify you because we couldn't give you a chance to prepare so that you can bring out the strongest in you. As for the battle, this kind of battle happens every year. We need to let these sea monsters know that our younger generation is rising. Only in this way can they understand how many Heavenly Talents our human race has... If they sense the human race is weakening, you can imagine what'll happen..." The five of them were shocked by his words. This explanation... Was hinting that the human race was pretending to be strong? Immediately, someone added, "It's not that humans can't afford battles against them, but that we don't fight meaningless battles. We certainly shouldn't risk our lives just to beat them!"

Xia Xiaochan secretly tugged at Han Fei's clothes and Han Fei nodded, indicating that he knew it.

After experiencing the war in the Undersea City, they knew how cruel and tragic a war could be! Humans were almost extinct.

Although the Scattered Stars Island was not a place for humans to live, people competed for resources here to feed the people in the Thousand Star City. Only in this way would there be more and more powerful people in the human race.

Luo Xiaobai accepted this explanation and fell silent.

“A lot of Half-Mermaids came, and they look more and more like humans,” Han Fei said coldly. “Huh! Why were the Red Demons and Half-Mermaids we met just now not so strong? And these ones were not as beautiful as others we’ve met...” Xia Xiaochan said.

On the opposite side, except for the 800 sea monsters who had been killed in the Heaven-Human Strait just now, another group of sea monsters appeared, which were quite different no matter in body shape or face.

“Demonic heritage!”

Han Fei frowned. The demonic heritage of these newly emerged sea monsters was certainly not weak.

He could now determine whether a Half-Mermaid had a strong demonic heritage or not, one just needed to look at its face. The more beautiful its face was, the stronger a demonic heritage it had.

Among these Half-Mermaids, a male Half-Mermaid, wearing a silver scale battle suit and holding a crimson harpoon, came to the open space between the two parties.

But Han Fei couldn’t see its lower body. Did it have f*cking feet or a tail?

“Humans, do you dare to fight us?” This Half-Mermaid was only an intermediate Hanging Fisher and its strength was unknown. Did this Half-Mermaid want one-on-one matches with them?

just now, so now you wanna try one-on-one combat?” Zhang Xuanyu grinned.

On the human side, a soul warrior stepped on the water surface and a large spider phantom appeared, whose eight legs quickly ran across the sea.

“No matter how much you look and speak like humans, you’re still a fish. I am Lin Cang, from the Pioneer Group of the Scattered Stars Island. Fish, do you have a name?”

The Half-Mermaid stared at Lin Cang coldly. “Not yet. But when I kill you, I’ll have one.”

“Haha!”

Lin Cang laughed. “Kill me? You?”

Someone shouted from behind, “Lin Cang, be careful. This Half-Mermaid can’t be weak.”

Lin Cang brandished the two sharp spikes in his hand. “I know, but so what? He is just an intermediate Hanging Fisher!”

Hum!

When Lin Cang moved, thousands of spike shadows appeared in the air. In an instant, he had activated at least five combat skills... On the surface of the sea, in addition to the spike shadows, there were also huge knife marks set off by water blades.

Even Han Fei had to admit that this person was not weak.

However, between the eyebrows of the
appeared, making this mermaid look like a god.

Zhang Xuanyu's face changed. "Be careful. A mental attack!"

"Puff!"

The next second, Lin Cang who was rushing at the mermaid suddenly collapsed, bleeding from his eyes, nose, and mouth in an instant.

"Kill!"

The harpoon in the half-mermaid's hand pierced through the water, bringing up a huge harpoon phantom, and columns of water shimmered in the phantom.

"Puff!"

Lin Cang's body was pierced, and his ultra-quality battle suit narrowly blocked this blow and was about to crack.

Lin Cang had a splitting headache and was bleeding hard. Suffering from a mental attack, he was unable to fight anymore. Immediately, a manipulator caught him, and a spirit gatherer threw a healing technique on him.

Then someone shouted, frowning, "Oh no! Lin Cang's Dantian was broken. He can no longer cultivate..."

Chapter 665 Every Race Has Their Own Heavenly Talents

Lin Cang was disabled, and the others were immediately enraged. What was the difference between this and being dead? In this world, only the lowest-level fishers couldn't cultivate.

When Lin Cang woke up, it was very likely that he'd rather die.

Immediately, a member of the Pioneer Group jumped out.

"I'm Man Hai, from the Pioneer Group. You hurt my brother. I must kill you." Man Han fused with his spiritual beast, a serpent, and held two big sledgehammers. The sledgehammers collided, producing a deafening sound.

The half-mermaid stood still, pointing the harpoon at Man Han and staring at him with a defiant look.

Man Hai roared, his eyes bloodshot, his body burned with spiritual energy. This guy was actually burning his essence blood and spiritual energy, releasing a terrifying power.

Clang!

Man Han swung the two sledgehammers at the Half-Mermaid, which produced a terrifying sound and caused the waves to roll. The Half-Mermaid blocked the two sledgehammers with the harpoon but was still pushed sliding backward for nearly 100 meters.

“Great!”

There was a burst of cheers on the human side. Man Hai was strong, and this blow had definitely injured the Half-Mermaid.

The white flame between the half-mermaid’s eyebrows suddenly burst out with a dazzling glare as if to pierce the mind of Man Hai.

“Hoooooo!”

Man Hai roared, “Do you think this will work on me too? The Dragon Sways Its Tai’...”

A huge serpent appeared, wagging its big tail and even the water’s surface sunken.

“God Slash.”

Buzz!

A very thin shadow suddenly shot out hundreds of meters into the sky, which seemed to shoot directly through Man Hai’s head.

BAM!

The Half-Mermaid was whipped flying by the serpent’s tail and rolled dozens of times on the sea surface. After that, it managed to get up with difficulty. But Man Hai landed in the sea with a bang.

After being dragged back, Man Hai became glassy-eyed. A Hidden Fisher glanced at him and shouted to the opposite side, “Good, very good! I never expected sea monsters to have learned mental attacks!” Another Hidden Fisher shouted, “Listen, if you don’t want to die, once you launch an attack, try your best to kill the opponent as soon as possible!” “Ahhhh!”

Yang Deyu suddenly jumped out, splitting the seawater with his axes, roaring, “B*stards, how dare you disable two humans in my presence?! Let me teach you a lesson.”

Everyone’s attention was on Yang Deyu. Only Han Fei was secretly watching the remaining Half-Mermaids.

At the moment Yang Deyu jumped out, five Half-Mermaids seemed to be about to come up, but for some reason, they stopped.

And the Half-Mermaid who had disabled two people stood up again, the white flame dancing between his brows. “Come!”

a

Yang Deyu was exasperated into laughter “Great, take this!”

His axe turned into a gigantic axe 100 meters high, burning with a raging flame. Before the axe reached out, a huge axe mark had already appeared on the sea.

“Fuse.”

A big white fish suddenly appeared, and at the same time, a string of data appeared in Han Fei’s eyes:

<Name> Horizontal Fish (Companion Spirit)

<Introduction> A crustacean fish, with hard scales, extremely sturdy, can withstand the attacks of creatures of the same level. It can emit high-level energy waves from the top of the head to attack the soul. <Level> 45

<Quality> Exotic

<Contained Spiritual Energy> 5,812 points

<Edible effect> Long-term consumption can strengthen the body.

<Collectible> Horizontal Scales

<Unabsorbable>

The half-mermaid’s body was instantly covered with a layer of white scales, and on its head, a single horn popped up. Besides, the white flame between its eyebrows suddenly enlarged dozens of times. “Soul Devouring!”

The opposite of the axe light was a huge white fish formed by a strange white mist, which seemed about to swallow Yang Deyu in one bite.

However, Yang Deyu shouted, “Double Chops.”

The first chop slammed into the Half-Mermaid, and it tried to withstand it with its harpoon.

Unfortunately, its harpoon, which was also an ultra-quality spiritual weapon, had broken into three pieces.

The scales on its body were chopped away, dripping with blood, but it still managed to block this chop.

The second chop was aimed at the big white mist fish. However, the axe light could not touch the big white fish at all, and the big fish tried to bite Yang Deyu.

“Haha, do you really think your mental attack can hurt me? War God Will!”

Yang Deyu laughed. A dazzling golden light appeared behind him and a golden war god who was as tall as 50 meters and holding double axes suddenly appeared. The giant opened his mouth and swallowed the big white mist fish into its belly.

On the sea surface, the Half-Mermaid failed to block Yang Deyu’s second chop and he burst into a cloud of dust.

Even Han Fei had to admit the strength of this Lunatic Yang had increased a lot in the past half a year!

Han Fei looked at the golden giant in astonishment. “What is this thing?”

“Just like your knife intent, he has trained his fighting intent into a will. However, he created it with the help of a meditation painting,” Luo Xiaobai explained.

“Meditation painting again?” Han Fei frowned.

His God Scaring Painting was a kind of meditation painting. However, he hadn’t even memorized one tenth of it now. He wondered whether there would be such an awesome giant too after he memorized the whole God Scaring Painting.

“Great!”

“Amazing!”

Yang Deyu chopped a sea monster Heavenly Talent with two attacks. Holding his big axe, he pointed at the other Half-Mermaids. “Come on, anyone else? My axes can’t wait!” The Half-Mermaids seemed to be shocked. Some wanted to jump out, but were stopped.

The leading Half-Mermaid shouted, “How about ten from each side?”

This was exactly what Zheng Chaojie was waiting for. No matter in which race, Heavenly Talents were rare. He didn’t want to put too many talents’ lives in danger.

Therefore, Zheng Chaojie coldly snorted. “As you wish, let’s see what other talents you’ve got...”

Then he scanned the crowd with his eyes. “Yang Deyu, Sun Mu, Mo Feiyan, Wang Zitian, Jing Changfeng, Ming Kun, Han Fei, Xia Xiaochan, Zhao Lingjie, Zhou Haiyang... The ten of you, come out.”

To Han Fei’s surprise, Luo Xiaobai, Le Renkuang, and Zhang Xuanyu were not selected.

It might be because they were injured, but this was definitely not the only reason.

Han Fei’s eyes narrowed. It seemed that a lot of geniuses had come this time!

Glancing at Ming Kun and Jing Changfeng, Han Fei was a little puzzled. Ming Kun is okay, but why was Jing Changfeng picked?

After the humans selected 10 candidates, 10 Half-Mermaids were also selected.

Maybe because they evolved better, the ten Half-Mermaids looked quite pretty if they didn’t open their mouths.

However, in Han Fei’s eyes, they all looked the same.

After calling the roll, a Hidden Fisher reminded, “Don’t underestimate your opponents. Go all out.”

Ming Kun stood next to Han Fei. “Hey! Let’s have a fight when we’ve got the time?”

“Sure. Anytime.” Han Fei smiled.

Jing Changfeng was also defeated by Han Fei, but he was not going to challenge Han Fei because he didn’t think he had any chance to win against him.

Yang Deyu waved his big axes, yelling, “Come on, who is next?”

The Half-Mermaids seemed to be pissed off by him. Immediately, a beautiful female Half-Mermaid came out. Her weapon was not a harpoon but two copper hammers.

She was the second woman using double hammers as her weapon that Han Fei had ever seen.

The first was Xiang Zuozuo.

Yang Deyu cursed, "F*ck, why a girl? Get lost. Otherwise, I'm gonna chop you to death."

The female Half-Mermaid didn't speak, but when she suddenly looked up, the entire sea surface stirred, and under the public glare, a water man climbed up from below.

The water man was a hundred meters tall, holding two giant water-shaped sledgehammers in his hands, standing behind this Half-Mermaid.

"Wow!"

Many people frowned. What the hell! This Half-Mermaid is only a f*cking Hanging Fisher?!

Zhang Xuanyu was shocked. "How is this mermaid so strong? If we faced 100 of them today, we're dead meat."

Cao Qiu said with a black face, "How can there be so many? I guess there are only a few sea monsters of this kind among the sea monsters."

Mu Jia'er whispered to Guan Qingyan, "Do you think it's possible for us to refine such a large spiritual weapon and blend it into our bodies?"

The corner of Guan Qingyan's mouth twitched. "It's impossible. We don't have enough spiritual power to control it."

"How about sealing a Half-Mermaid into the weapon?"

"I've never seen anyone do it." Guan Qingyan shook his head.

"Then we can seal some other creature!"

Han Fei looked back at the two of them. "At least it should be a legendary creature, right? But can you refine such a large spiritual weapon?"

When Han Fei heard Mu Jia'er words, he couldn't help but ponder. Perhaps this idea could work!

Why couldn't he refine a "person" and seal a spirit in? Then this "person" could become his puppet!

Han Fei was excited and planned to try it when he went back.

Of course, it should be impossible to refine such a large humanoid spiritual weapon right now. First of all, it required a huge amount of materials, and secondly, the spiritual energy consumed would be a lot.

However, Han Fei didn't seem to be short on the materials. After all, he had two fishbones, two iron chains, and a Big Red Trunk. Even if he couldn't refine a 100-meter tall puppet, he could refine a 10-meter tall one first...

Han Fei couldn't help but grinned as he thought about it.

Xia Xiaochan nudged him with her elbow. "What are you thinking about?"

Han Fei immediately returned to his senses. "Well, nothing. I was just thinking that every race has their own Heavenly Talents. This Half-Mermaid seems to be quite strong."

Chapter 666 My Strength Doesn't Allow Me To Be Low-Key

Yang Deyu was a little confused. Although his War God Will was 50 meters tall and dazzling with gold light, it was not as strong as it looked.

If his opponent was not that strong, he wouldn't be so worried.

But, what the hell was this?

A hundred-meter-high gigantic water man carrying two sledgehammers that are more than 20 meters long! Are all sea monsters so strong now?

However, Lunatic Yang certainly would not flinch. He still swung his axes at the water man. Maybe this big water man just looked intimidating.

On the opposite side, the eyes of the female mermaid had turned white, and the one-hundred-meter-tall giant also swung its sledgehammers.

This level of battle shocked everyone.

It was no longer about combat skill, nor about strength. Everyone could feel that there seemed to be an inexplicable "intent" between the two giants.

Xia Xiaochan glanced at Han Fei. "Yang Deyu's axe carries something like your Invincible Knife Intent, doesn't it?"

Han Fei shook his head. "No, it seems so, but actually not. There seems to be something domineering in the giant, but not anything invincible in it. I guess he hasn't perfected it."

"What about that female Half-Mermaid's giant?"

Han Fei shook his head. "I can't see it through. Maybe the 'intent' of sea monsters is different from ours."

Boom!

Yang Deyu was retreating, and huge waves were raised on the sea.

Yes, Lunatic Yang was actually weaker than the female Half-Mermaid in terms of strength.

Han Fei turned his head only to see that there was blood dripping on Yang Deyu's hands. His face was already black and red.

A trace of blood oozed from the corner of the female Half-Mermaid's mouth, but she swung the hammers again.

Boom, Boom, Boom...

The two fought for eight rounds in a row. Anyone could see that Yang Deyu could not beat this female Half-Mermaid. Although he had tried his best, he seemed weaker than the opponent in strength and fighting intent.

The mermaid's sledgehammers blasted Yang Deyu to flee away.

After the female Half-Mermaid pummeled Yang Deyu with her sledgehammers eight times in a row, the latter spouted a mouthful of blood and was defeated.

Next to Han Fei, Ming Kun and Jing Changfeng were already dumbstruck.

It was the first time they witnessed such a battle. It was more like fighting between Hidden Fishers. They seemed to be able to set off huge waves at will.

Yang Deyu, defeated, felt very ashamed. He couldn't believe he was defeated by a fragile-looking female Half-Mermaid! What a disgrace... The first one Yang Deyu looked at was Han Fei but then he thought, if I push Han Fei up and he wins, wouldn't it be a slap in my face?

So he shouted, "Mo Feiyan, go kill this woman."

Won

Mo Feiyan's face turned green and wished she could step on Yang Deyu's face. Why was she, a woman, supposed to attend such a competition of strength?! Mo Feiyan looked at Han Fei and giggled charmingly. "Han Fei, how do you have the heart to see me, a girl, fight this violent woman?"

Han Fei was originally prepared to fight this mermaid because he didn't know if Mo Feiyan could beat it. Among the 10 people on this side, only he was comparable to the female Half-Mermaid in strength.

However, Mo Feiyan chose the wrong way to speak to him.

Xia Xiaochan suddenly yelled, "Just go up! Isn't your water dragon very powerful? Han Fei will go up last." Han Fei: "???"

Mo Feiyan was speechless. Bullsh*t! In this situation, he certainly should come up first and solve this female mermaid!

However, if she continued to argue with Xia Xiaochan, the human team may seem timid, so someone said, "Just go fight the mermaid! Let's resolve these internal conflicts after the fight is over."

Mo Feiyan could only reluctantly come out. At this time, she certainly couldn't disgrace the human team.

Han Fei said, "The other party is seriously injured. Try your best and you can win. I have faith in you!"

Mo Feiyan smiled bitterly but her expression became serious.

That idiot Yang Deyu! It was he who put her in this trouble.

As a scheming woman, Mo Feiyan certainly knew that she should crush the opponent herself instead of its giant as soon as possible.

A fight between women would never end easily.

As soon as Mo Feiyan came on the field, she disappeared into the water. Han Fei tried to perceive but failed to perceive where she was.

The second time, Han Fei activated the Eyes of True Vision and finally located her.

However, the mermaid was a sea monster! Could Mo Feiyan be more familiar with water than it? Moreover, both the water giant and Mo Feiyan's water dragon were made of water. Thus the two females started a war without smoke in the sea.

"Hoooooo!"

Two huge water dragons rolled over and twined around the huge water man.

On the sea, Mo Feiyan managed to launch an attack.

However, at the same time, the opponent's companion spirit appeared. It was a whale. In Han Fei's eyes, data emerged: <Name> King Orca (Companion Spirit) <Introduction> A bloodthirsty creature with extremely sharp teeth. The strongest King Orca can bite broken Divine Weapons. Its skull is extremely hard and likes to ram enemies. The ramming force can even crack Flash Stones.

<Level> 46 <Quality> Legendary <Contained Spiritual Energy> 7,325 points

<Edible Effect> Long-term consumption can strengthen the body.

<Collectible> King Orca Sharp Teeth

<Unabsorbable>

<Remarks > Current strength, 2 million catties.

Han Fei took a breath and his expression turned serious. "So strong. We seem to have underestimated the Half-Mermaid! I'm afraid this is a real Half-Mermaid... And the ones we saw earlier were just Half-Mermaids with a low-level demonic heritage."

"When these sea monsters attack, they seem to be able to use the power of water, which we can learn from, Xia Xiaochan said.

Han Fei nodded. "Yes, that's true!"

At this moment, the King Orca rolled up a tsunami and pounced towards Mo Feiyan.

Mo Feiyan looked back. It was forcing her to fight head-on! Because once she dodged it, the tsunami would hit other people, and then someone else would definitely fight back.

It meant that she was defeated.

"Humph!"

Mo Feiyan suddenly snorted and a long sword with a sheath appeared on her waist.

Although Mo Feiyan had been using soft swords, her real weapon was a chain-like snake-shaped sword.

And this sword had a sheath?

Buzz!

The sword was drawn and danced like a dragon!

The sword in Mo Feiyan's hand suddenly became hundreds of meters long. Han Fei gaped in surprise. This scene reminded him of a famous internet meme: I have drawn my 40-meter-long sword, and you can run 39 meters first.

It was the first time he saw such a long sword. The moment the sword was drawn, a water dragon leaped into the sky and its roar resounded in the air. It rushed directly towards the King Orca.

BAM!

Clang!

Mo Feiyan retreated four or five steps in a row, staggered, and almost fell.

However, the King Orca was drawn back by this blow. Upon seeing this scene, Han Fei narrowed his eyes.

This was probably Mo Feiyan's strongest blow! It showed that Mo Feiyan's frontal combat power was actually no weaker than Yang Deyu.

"Puff!"

Mo Feiyan clutched her chest, vomited a mouthful of blood, and said lightly, "I won."

On the other side, when the female Half-Mermaid appeared on the surface of the sea, its face was full of black stripes. Obviously, she was poisoned.

Han Fei exclaimed, "Wow! This woman is tough! While fighting the Half-Mermaid, she actually ordered her spiritual beast to sneak attack it."

"What's the big deal of it? I can sneak attack too." Xia Xiaochan snorted.

"You are a hunter. However, we must not underestimate these people any longer." Han Fei grinned.

Although Mo Feiyan won, the human side actually lost. In the four fights, humans lost three of them.

Mo Feiyan was seriously injured and no longer had the strength to fight. It was equivalent to the two of Yang Deyu and Mo Feiyan beating only one sea monster.

In the rear, many people held their breath. Although Yang Deyu and Mo Feiyan were only junior Hanging Fishers, they were from the big clans!

According to the current situation of the battle, the human team seemed a bit weak.

Therefore, when the second contestant of the sea monster's team came out, instead of letting the contestants volunteer to fight, Zheng Chaojie arranged for the contestant to fight. "Zhou Haiyang, you are going to fight," he said.

After a while, everyone knew why. The Half-Mermaid who came out this time was not as strong as the previous one, so Zheng Zhengjue designated a contestant to fight it.

Han Fei didn't know Zhou Haiyang, but this guy was extremely fierce in the fight. With serious injuries, he pierced the Half-Mermaid's heart with his knife.

"He is a member of the Trans-Island Inspectors. He is actually very famous," Zhang Xuanyu said.

"He's good, but unluckily, he was seriously injured," Han Fei said.

Then Jing Changfeng came out to fight. His Ghost God Chain was completely suppressed by the opponent's water control technique. After a stalemate for about ten minutes, he was nailed to the bottom of the sea by a harpoon and Luo Xiaobai pulled him back.

He was followed by Ming Kun, who won with difficulty with the blood burning technique.

Then it was Zhao Lingjie. He was defeated soon.

Wang Erjian came on the field and was defeated before he had the time to launch a third attack.

Wang Erjian fought again and managed to win although he was seriously injured.

Now there were only 3 people left on the humans' side, while the other side still had 5 contestants left.

Han Fei's gaze fell on one of the male Half-Mermaids.

He could feel this half-mermaid was very strong.

Then he turned his eyes to a petite female Half-Mermaid.

Han Fei glanced at Sun Mu and then at Xia Xiaochan. "Well, my strength doesn't allow me to keep a low profile anymore. Leave this person to me."

Chapter 667 Leave the Next Battle to Me

Just when Han Fei was about to launch an attack, suddenly Sun Mu said, "I'll solve this one. That female Half-Mermaid is yours."

Han Fei frowned. "Huh? You mean the petite one? Although I don't mind watching you be killed, that male Half-Mermaid is obviously the strongest," Han Fei paused and said.

Sun Mu glanced at Han Fei. "No, the petite one is."

Han Fei frowned and looked at the petite Half-Mermaid up and down, which had been staring at Han Fei and the other two, not nervous at all.

Han Fei cast a questioning glance at Sun Mu. "How can you tell?"

Sun Mu's expression was solemn. "I have been looking at that female Half-Mermaid from the beginning. She is the calmest."

Han Fei sneered. "So, you leave the strongest to me?" "That's because I trust your ability," Sun Mu said.

Han Fei sneered. "No matter what you say, I will still kill you."

As they talked, the male Half-Mermaid had already walked out. He stretched out a hand and a shiny golden harpoon appeared in his hand.

“Who will fight me?”

In the rear, when Zheng Chaojie and the others saw the golden harpoon, they frowned.

Zheng Chaojie shouted, “That’s a Divine Weapon. Is this your trump card?”

“A Divine Weapon?”

Upon hearing this, everyone couldn’t help but exclaim.

Especially Guan Qingyan, with a strange light in his eyes, he immediately said, “This is a semi-divine weapon, which can also be called a Divine Weapon. No spiritual weapon can resist a Divine Weapon, not even those with a spirit sealed in.”

Mu Jia’er cried, “Alas! Then what are we going to do? I don’t have a Divine Weapon.”

“It’s not just you. It’s extremely difficult for humans to get a Divine Weapon,” Guan Qingyan explained.

Han Fei didn’t hear their words. He didn’t have the time to eavesdrop on other people’s conversations at this moment!

He was still astonished by Adjudicator Zheng’s words. A Divine Weapon? So rich? Zheng Chaojie immediately took out a long sword that was like a burning flame and smelled of blood.

On the opposite side.

The leading Half-Mermaid shouted, “What are you going to do? Help them?” Zheng Chaojie snorted coldly. “Very good. In order to win, you don’t even want your face, right?”

The Half-Mermaid leader retorted, “That’s because my race is not stingy on Divine Weapons. Is your human race as generous as us?”

Sun Mu suddenly turned around and said, “Thank you for your kindness, Master Adjudicator. But my Deity Slaying Array doesn’t win by weapons.”

Zheng Chaojie frowned. “Retreat if you can’t resist it.”

Sun Mu nodded and glanced at Han Fei. “I can only solve this one. You two will have to solve the rest.”

Then he stepped out, and the 108 swords immediately came out of his body.

Unlike when he fought Han Fei, his current 108 swords were all ultra-quality spiritual weapons with spirits sealed inside. When he took the first step, the sword array was set up.

When he took the second, he fused with his spiritual beast, and twinkles of starlight appeared around the big array. When he took the third, many mirrors appeared in the air.

What kind of a contractual spiritual beast was this? Han Fei wondered.

The fourth step, the Deity Slaying Array shot out beams of sword Qi.

The fifth, he launched the Immortal Shows the Way.

The sixth, Red Light Everywhere.

The seventh, Ten Thousand Swords in One.

Han Fei frowned. "So Sun Mu is only preparing for a single blow! After this blow, he will either win or lose! That's a smart move."

Behind him, the crowd exclaimed.

Yang Deyu cursed, "Sun Mu, the b*stard, just one blow?"

Mo Feiyan looked solemn. "So... Is he going to leave all the remaining four Half-Mermaids to Han Fei and Xia Xiaochan?"

Zhang Xuanyu cursed, "Son of a b*tch, no wonder he wanted to fight first. He's simply passing the buck to the others!"

Luo Xiaobai's face was all dark and she coldly stared at Sun Mu. Although she didn't get angry easily, at this moment, she was truly annoyed.

A Hidden Fisher frowned. "Although his swords are strong, there are still four left from the other party... Can he be sure that Han Fei and Xia Xiaochan will win?"

Zheng Chaojie seemed to be thinking of something, not moving at all.

On the sea, within 500 meters of Sun Mu, starlight flickered.

Under the reflection of countless mirrors, there was starlight everywhere. And his blow condensed all his power, and the strong killing intent in this blow shocked everyone.

Han Fei's gaze fell on the petite Half-Mermaid.

Its expression turned serious and it slightly raised its hand, which was immediately noticed by Han Fei.

This female Half-Mermaid seemed to feel Han Fei's gaze and glanced at him lightly.

On the field.

While Sun Mu launched an attack, the male Half-Mermaid's body was suddenly ablaze with white flames. Then, a dragon roar resounded and a sharp knife-shaped horn grew out of its head.

resa

'n

In its hand, the golden harpoon was burnt with boiling spiritual energy. The sea surface suddenly went sunken although there was no wind, and the ripples piled up crazily as if an earthquake had occurred.

Bang! Bang! Bang!

This Half-Mermaid was building up force, and the surrounding spiritual energy was crazily pouring into its body.

A layer of golden light enveloped it, turning it into a golden statue, sacred and inviolable.

At the same time, a golden battle suit appeared on its body. "F*ck, a Divine Weapon-level battle suit?"

The crowd was in an uproar. Even Han Fei was shocked. This Half-Mermaid is damn rich!

However, Sun Mu didn't even blink. He shouted in a low voice, "Integrate!"

Sun Mu threw out a sword, which was actually a red light sword shadow. Breaking through the layers of airwaves, carrying an overwhelming fighting intent, the sword shadow blasted out.

Xia Xiaochan glanced at Sun Mu. "We must kill this person when we've got a chance," she said.

"Heh! It's alright. Let's see if my Invincible Fighting Intent or his Killing Intent is stronger." Han Fei suddenly said, "I don't know whether it's my illusion or not, but have you noticed that it seems that only when you become a Hanging Fisher have you truly embarked on the path of cultivation?" "Our teachers have said so..."

"But I truly comprehend it now for the first time."

It was not just Han Fei. Everyone who was witnessing all this felt their understanding of this world was disrupted: the giant, the heaven-shaking sword intent, and the sacred-looking golden harpoon, both these were so gorgeous that they seemed to outshine the entire world.

The Half-Mermaid gently pointed its golden harpoon, and, like a water droplet falling on a smooth, mirror-like water surface, the harpoon seemed to be glued to Sun Mu's sword shadow.

There was no sound, only on the spot where the weapons met, a strange force exploded like a ripple.

The seawater was split and that ripple blasted into the Heaven-Human Strait thousands of meters below, and a large centipede that was gnawing the corpses of dead sea monsters that had just died was instantly cut in half.

"Puff!"

Sun Mu spouted a mouthful of blood, but didn't retreat. The Half-Mermaid didn't retreat either despite its eyes, nose and mouth bleeding.

One second, two seconds, three seconds...

Suddenly, the sharp knife-shaped horn shot out a white light.

BAM!

Sun Mu quickly retreated and his ultra-quality battle suit cracked. However, there was a smile on the corner of his mouth.

Behind the Half-Mermaid, in a mirror, starlight converged instantly, and a sword shadow exactly the same as before stabbed the Half-Mermaid from behind.

"Wow!"

Even Han Fei's eyelids twitched. Copy... The damn starlight literally copied Sun Mu's strongest blow! It was equivalent to Sun Mu being able to perform his strongest blow twice!

That mirror reminded Han Fei of Xiao Se. In the Time River, the time-reversing technique, which was then taken back by the big Time Dragon Carp, could connect different spaces.

The Half-Mermaid finally moved. A weird white dragon-like big fish rammed at the sword shadow with its single horn.

Clink!

Buzz!

The big fish's horn burst and its head was directly split. The Half-Mermaid swung its golden harpoon and was sent sliding backward for 100 meters in the sea. With blood dripping on its arm, it blocked this killer blow from Sun Mu with difficulty. "Gosh!"

On the opposite side, the remaining four Half-Mermaids were furious. One of them appeared on the field, held the Half-Mermaid that kept vomiting blood, and roared at Sun Mu angrily.

"Puff!"

Sun Mu retreated, bloodstains all over his chest. Mo Feiyan caught him. "You've never showed your real strength before today..."

But Sun Mu just looked at Han Fei. "Now, the rest is yours."

Han Fei squinted at him. Xia Xiaochan took a step forward and Han Fei quickly pulled her back. "Come back."

He shook his head at her. He was not going to let Xia Xiaochan fight these Half-Mermaids.

The remaining Half-Mermaids were not weak at all. If Xia Xiaochan wanted to beat them, she might have to expose her Giant Arowana, which was nothing to be afraid of.

But what if, as he once guessed, the Giant Arowana was actually not a spiritual beast? What if it was actually a companion spirit? What if Xia Xiaochan suddenly went mad in combat?

Han Fei didn't want to take this risk.

If the group of people behind him found anything wrong with Xia Xiaochan, there would be trouble.

In the Scattered Stars Prison, Zhang Teng, a seven-star powerhouse just to test whether he was a sea monster, pretended to be a prisoner and stayed in a cage with him for two days.

It could be seen how deep the hatred was between sea monsters and the human race!

Xia Xiaochan wanted to break free from Han Fei but failed.

Xia Xiaochan looked back. "Let me fight them!"

"Go back and leave the next battles to me," Han Fei said firmly.

Chapter 668 Why Am I So Perfect?

Han Fei directly grabbed Xia Xiaochan and threw her to Luo Xiaobai. "Keep an eye on her."

"Han Fei!" Xia Xiaochan shouted in anger.

Han Fei turned around and grinned. "It's alright. It's just four Half-Mermaids. Don't worry."

The crowd was speechless. Just four half-mermaids? Which of them looked easy to deal with?

Zheng Chaojie looked at Han Fei. "Don't mess around."

However, he didn't stop Han Fei, which surprised many people. This time, he didn't want to expose all the best talents, so he was a bit conservative when picking the contestants.

He knew something other people didn't know, so he knew that Xia Xiaochan was actually very strong

But he didn't expect Han Fei to be so protective of Xia Xiaochan.

Han Fei sneered. "You have my word, I'll crush them."

Among the crowd, Mu Jia'er covered her mouth and exclaimed, "This liar must be crazy! He is gonna fight four alone?"

The corner of Guan Qingyan's mouth twitched. He analyzed rationally, "Only when Xia Xiaochan stays on the field will he have a chance of winning!"

Chu Xun, still seriously injured, said, "Can this guy really handle it?"

Lu Wuwei responded, "Damn, this guy is not an ordinary person. There must be a reason for him to do so."

Gong Yuehan had a mixture of feelings. In fact, after she came to the Scattered Stars Island, her performance was not that good. But just now in the Heaven-Human Strait, she led a team of people and performed quite well.

However, Han Fei performed best in the level-three fishery, and in the Heaven-Human Strait, Luo Xiaobai was the most outstanding one. Therefore, no one found out how excellent she was.

Now after seeing how strong these Half-Mermaids were, Han Fei still dared to fight four of them alone? She didn't know whether he would win or not, but she did know she didn't dare do it.

Han Fei thought for a while, and instead of using the Million Knife Art, he summoned the Blood-Drinking Knife and hung it around his waist.

On the field, Han Fei asked with a smile, "Who's first?"

Han Fei was looking at the petite female Half-Mermaid.

At first, he thought that the male mermaid who was just defeated was the strongest. But now, reminded by Sun Mu, Han Fei discovered that the petite one might be the strongest instead.

Therefore, he tried to provoke the female Half-Mermaid, intending to solve her first.

Then the following battles would be much easier.

Unfortunately, the female Half-Mermaid just glanced at Han Fei and didn't make a move.

What came out was another male Half-Mermaid. Seeing him not holding a golden harpoon, Han Fei was relieved.

Han Fei smiled and said, "Nice, if you all used golden harpoons, I would just admit defeat. It's a pity your harpoon is not golden."

The Half-Mermaid glanced at Han Fei. "I can still kill you."

The Half-Mermaid held its harpoon high. In the sky, a beam of sunshine shot down and set this mermaid on fire. Even its hair was burning. Han Fei's eyes lit up. "Wow! Did you just bring the heavenly fire into your body? How did you do that? Can you teach me that?"

"Teach you? Sure!"

As soon as the Half-Mermaid said so, another beam of sunshine shot down, but this time, it didn't fall on the mermaid, but on Han Fei.

No matter how fast Han Fei was, he couldn't be faster than the sun.

So, in an instant, a blazing flame ignited on his body. His battle suit turned crimson and he looked as if he just walked out of flames.

Han Fei's first thought was to enter the water. But the next second, he let out a sigh of relief. These were just flames with a relatively high temperature. He had been baptized by Ren Tianfei's magma in the Abyssal Chasm, so he didn't take such flames seriously at all.

Behind him, only Mu Jia'er yelled stupidly, "Liar, come on, hide in the water."

However, Han Fei stretched out lazily and said, "Umm! Nice, quite warm. Is this all you've got? Now it's my turn!"

The Half-Mermaid's face changed slightly, and even the petite Half-Mermaid wrinkled its nose. This guy is too arrogant.

"Fiery Dragon Array."

A large array of flames appeared under Han Fei's feet. With the soaring flames burning, Han Fei was bathed in the seemingly boundless flames.

Le Renkuang shouted out loud, "Hey, come on, beat it! I can't wait anymore."

Zhang Xuanyu said, "Feifei, I know you look very cool, but we really can't wait to see you knock these fish out!"

In the flames, a voice came out. "Really? OK, let me get started!"

As soon as he said so, the Half-Mermaid's harpoon was suddenly ablaze with crimson light and murderous aura. The red light burst out like a sunset and dyed the sea red.

The harpoon turned red all over, rolling up magma-like liquid.

However, before the Half-Mermaid got fully prepared, a blade light suddenly appeared half a meter away from it.

"Wow!"

This Half-Mermaid was startled by the sudden appearance of the knife light.

Its first reaction was to block it with a harpoon. As long as he blocked this blow, it was time for him to counterattack.

However, when the knife light touched its harpoon, he was suddenly seized by an unexplainable fear as if a huge mouth in the completely helpless.

Buzz!

The harpoon broke.

A line of blood appeared on the Half-Mermaid's head, extending to its thigh.

The fire-playing Half-Mermaid died. "God!"

"He's so f*cking strong!"

Many people were shocked and someone murmured, "He killed that half-mermaid with a single blow!"

Someone swallowed. "Oh my sea god, we should have let him fight first."

Mu Jia'er jumped up in surprise. "Wow! Is the liar so strong?"

Guan Qingyan's eyes flickered. "I knew he was strong, but I didn't expect that he would be this strong." Gong Yuehan let out a sigh of relief. "This guy, seriously, always makes people nervous."

Behind Zheng Chaojie, someone exclaimed, "Has this kid mastered the Air Breaking Strike? How is it possible? He is just a junior Hanging Fisher!"

"That's the Air Breaking Strike indeed, but have you noticed it? There is an inexplicable 'intent' in Han Fei's blow." Someone said, "It's not like a knife intent..." "Yes, knife intent is very special. However, a blow from this kid doesn't have anything special!"

Zheng Chaojie slowly said, "If I'm not mistaken, this is... The Art of Invincibility!"

"Art of Invincibility?". The Hidden Fishers all stared wide-eyed. "What? Old Zheng, are you sure?". "Old Zheng, have you ever seen anyone using the Art of Invincibility?"

"Is the Art of Invincibility like this?"

Zheng Chaojie frowned. "I can't be sure. However, even if this is not the Art of Invincibility, it's very similar to the Art of Invincibility people have described to me." The flame array was still burning, from which Han Fei walked out. At that moment, he was like a god of war born from flames, dazzling, domineering, and overwhelmingly powerful.

"What the hell! Why did a fish play with fire?"

Han Fei stroked the tip of his hair gently to shake off the spotted flames on it. "Who's the next?"

The petite Half-Mermaid seemed to want to come out but was stopped. Han Fei saw it and didn't care.

When a tall female Half-Mermaid walked out, Han Fei put his hand on his waist. "Take it." The Half-Mermaid's body flickered with white light, and when it had just fused with its companion spirit, Han Fei's momentum suddenly exploded as if it had risen several times in an instant. After that, a knife light reached the mermaid's eyes.

Buzz!

The second Half-Mermaid was killed even before it had a chance to launch an attack!

"Ew!"

On the opposite side, the eyes of the Half-Mermaid leader suddenly burst out a strange gleam. "Humph." The petite Half-Mermaid couldn't sit still anymore and tried again to come out but was stopped once again.

On the human side, someone was asking, "Who the hell can tell me who this buddy is? I need such a friend."

A disciple from the seven major sects gave a wry smile. Is this guy a monster? How is he this strong already?

Even Sun Mu was speechless. How the hell could he kill these two Half-Mermaids so easily? The Hidden Fishers including Zheng Chaojie were also dumbstruck.

After a long time, someone said, "Did he use a secret method?"

"A secret method of instantaneous burst? But isn't the time too short?"

Zheng Chaojie frowned. "No, although it seemed easy for Han Fei, his consumption couldn't be small," he said.

Luo Xiaobai and the other three were very clear on what happened. Just now, Han Fei activated the Majestic Mystic Spell and then forcibly dispersed its effect. If it weren't for Han Fei's horribly strong physique, he might have suffered.

Xia Xiaochan frowned. "Why did he use that?"

Luo Xiaobai said softly, "Let's see."

Han Fei was looking at the petite Half-Mermaid with a smile. "Are you coming out?" he asked. "Why do you watch your companions seeking death? Come out and let's finish the fight as soon as possible, OK?"

The petite Half-Mermaid looked at the leader. "I...!"

"No!"

The leading Half-Mermaid refused, giving her no chance at all.

Han Fei frowned slightly. He was building up force, and for that purpose, he killed the two Half-Mermaids as soon as he could.

The two blows consumed 50% of the energy in his body.

But they also made his spirit reach its peak. If he made another blow, it would continue to rise.

But when he saw the third Half-Mermaid coming out, he knew that his plan to kill the four half-mermaids at one go failed.

“Alas! Why am I so perfect? Come up, let me kill you.” Han Fei grinned.

Chapter 669: A Princess

As soon as the third Half-Mermaid appeared, its 18 clones popped up on the field, which stunned Han Fei.

Han Fei’s eyes lit up and he activated the Eyes of True Vision, trying to spot its true body with spiritual energy.

It turned out the true body was moving back and forth among the 18 clones.

Han Fei shook his head and smiled. “Well, I certainly can’t cut you 18 times.”

SWISH!

The 99 Blue Sea Wandering Dragon Daggers appeared... Then Han Fei threw the Blood-Drinking Knife out as well as two other ultra-quality spiritual weapons.

An average of 6 Blue Sea Wandering Dragon Daggers chased each clone.

In Han Fei’s hands, a bow emerged.

Everyone was speechless. “How many ultra-quality spiritual weapons does he have?”

Someone smacked their tongue and exclaimed, “Refiners are all bigshots! Let’s see how the Half-Mermaid deals with so many ultra-quality spiritual weapons.”

Sure enough, the Half-Mermaid was also dumbfounded. Now even if it had ten times the number of clones, it wouldn’t help.

Its 17 clones dove into the water and fled in different directions.

On the Half-Mermaid’s true body, bones appeared, a lot of bones. Upon seeing this, Han Fei paused.

Isn’t this like Mo Qianshang’s spiritual beast?

No, it’s weaker than Mo Qianshang’s.

These bones didn’t completely envelop it, and their shape was different from Mo Qianshang’s. Many parts of the Half-Mermaid’s body were still exposed.

The mermaid held the harpoon with a chain and preempted to attack Han Fei, not giving Han Fei a chance to shoot an arrow.

Han Fei’s figure flickered weirdly. It seemed that he activated the 108 Desolate God Body.

In fact, however, this was the 64-Dimensional Fish Dragon Dance. Han Fei had integrated the two techniques ingeniously.

Hence, although the harpoon was fierce, it never touched Han Fei once.

The bow in Han Fei's hand was gradually drawn and the spiritual energy turned more and more surging and had exceeded Han Fei's upper limit of spiritual energy.

There was blood oozing out of Han Fei's entire right arm. However, this arrow was finally condensed.

SWOOSH!

The seventh arrow of the War Soul Art hurt both the body and soul. The arrow shot out like a flash of light, and the Half-Mermaid had to defend itself.

It tried to summon its clones, but the Blue Sea Wandering Dragon Daggers were chasing it too closely and on each of the daggers, there seemed to be the terrifying Invincible Fighting Intent.

Although it wasn't very strong, it was not something a clone could resist.

Han Fei put down his Blue Sea Wandering Dragon Bow, cast a Divine Healing Technique on himself, and then looked at the petite Half-Mermaid. "OK, now it's your turn. Come up."

Everyone: "???"

Both the Half-Mermaids and the humans were speechless. Yes, your arrow is very strong, but it hasn't killed your opponent yet!

And could this bow skill really kill a Half-Mermaid Heavenly Talent?

When they were wondering, however, in just a minute, the lightning-like arrow had caught up with the Half-Mermaid. The latter tried to shield itself with its battle suit, harpoon, and fishbone armor.

However, under the blow of 12,800 points of spiritual energy, everything was scum.

Even Han Fei whose upper limit of spiritual energy was slightly less than 10,000 points might not be able to block the arrow himself, let alone the Half-Mermaid whose upper limit was probably less than 7,000.

Crack!

Boom!

The Half-Mermaid was shot with a big hole left in its lower abdomen as blood gushed out.

Although the Half-Mermaid's fishbone armor narrowly blocked this arrow, it was still killed.

On the human side, a Hidden Fisher said, "This arrow shattered the Half-Mermaid's soul. I wonder how many tricks this kid has got!"

The corner of Zheng Chaojie's mouth twitched. "Who the hell made this investigation? How come this kid is so different from how he was described in the investigation results?"

Xia Xiaochan frowned. "Did he overexert himself?"

Luo Xiaobai shook her head. "At least one of you must go all out. Han Fei doesn't want to put you in danger, so he chose to fight the four alone."

Zhang Xuanyu sighed. "Damn, I'll have to cultivate harder when I go back. This b*stard's cultivation speed is too fast!"

On the side, someone rolled their eyes. "What the hell! This is not about cultivation speed but cultivation intensity. He is only a junior Hanging Fisher! But he is as fierce as a f*cking peak-level Hanging Fisher."

Yang Deyu rubbed his head. "Son of a b*tch, I've gotta think if it were me, how I would take this arrow."

Gong Yuehan looked at the long sword in her hand and let out a long sigh. "Alas! I don't think I could take the arrow!"

On the field.

Han Fei withdrew the Blue Sea Wandering Dragon Daggers and set up a spirit gathering array underfoot. The surrounding spiritual energy was gathering, but couldn't keep up with his consumption. He was thinking about how to explain the source of his spiritual energy.

With a flash between Han Fei's eyebrows, Little Black and Little White appeared.

Little White spat out a mouthful of pure spiritual energy, which was swallowed by Han Fei.

The purity and richness of that spiritual energy stunned the people around.

"Spirit Swallowing Fish?"

"Spirit Swallowing Fish can help store spiritual energy."

"Wow! Not bad. This Spirit Swallowing Fish doesn't seem to have any combat power. No wonder Han Fei has never used his spiritual beast."

Someone guessed, "Maybe that's why he chose to be a body refiner. It's because his spiritual beast is not a combat type."

Someone couldn't help exclaim, "It's amazing! The spiritual energy he consumed just now was all made up in one mouthful."

In fact, Han Fei was just acting. While swallowing the spiritual energy, he pressed a hand on the Blood-Drinking Knife, made a small cut in his palm, and stuffed some Candle Dragon Blood into that hole.

Because the scene of the Spirit Swallowing Fish spitting out spiritual energy was very eye-catching, no one would notice the movement of his hand. Han Fei took the chance to replenish some energy.

But if he replenished too much, it would definitely be discovered. Therefore, he only replenished his energy by 10%.

But 10% was enough. In this battle, if he couldn't use external forces, he could only cheat to win.

The petite Half-Mermaid finally came out. When it appeared on the field, everyone on the human side, including Han Fei, was shocked.

Just now, it stood still, looking just like a Half-Mermaid. But now when it moved, some changes occurred in its body.

This was not a Half-Mermaid, but a human! She actually had legs.

“Damn it, it’s an illusion. What we see must be the illusion this Half-Mermaid created!”

“No, it’s not an illusion. It must be an array.”

“No, it looks like a powerful secret method.”

As soon as the female Half-Mermaid walked out, with a swish, a golden battle suit appeared on its body.

As its beautiful hand stretched out, a golden harpoon appeared in its hand, on which there were patterns flickering. This harpoon seemed a bit more advanced than the previous golden harpoon.

Han Fei: “...”

Zhang Xuanyu suddenly cursed, “Hey, how can you be so shameless? A Divine Weapon-level battle suit? A Divine Weapon? Son of a bitch, you’re cheating.”

Zheng Chaojie also shouted, “Don’t go too far. This is a true Divine Weapon. If you use it, I’ll lend my Divine Weapon to Han Fei.”

The leading Half-Mermaid responded sharply, “It is our Princess, so it’s a matter of course for it to own a Divine Weapon. That battle suit and weapon belong to it.”

“So you’re going to defy the rules?”

“If he has a Divine Weapon, he can use it too, but unfortunately, he doesn’t.”

Han Fei was a bit confused. *A true Divine Weapon? Was the previous golden harpoon a fake Divine Weapon?*

But they didn’t seem quite different, so it shouldn’t be a problem.

But he still echoed Zheng Chaojie’s words, sneering, “In this case, I can use whatever I’ve got, right?”

The Half-Mermaid leader looked at Han Fei. “How do you prove something is yours?”

Han Fei’s face turned black. “Do you mean that your Princess can use whatever she wants while I can’t use anything?”

Behind Han Fei, Zheng Chaojie had already stepped into the air, holding the Divine Weapon in his hand, full of murderous intent. “Do you really think we human beings dare not go to full-scale war with you? We have fought before, haven’t we? Do you want war again?”

The Half-Mermaid leader held its head high and glanced at Zheng Chaojie coldly. “We can allow him to restore to his peak state before the fight. We don’t mind starting a war if you don’t shut up!”

With that, the Half-Mermaid glanced at Han Fei.

Han Fei immediately shivered. He felt an overwhelming murderous intent.

Han Fei immediately broke into a cold sweat. *This b*stard wants to kill me!* Han Fei’s brain was racing.

Han Fei thought to himself, *The Half-Mermaid leader is deliberately provoking Zheng Chaojie. It wants to have a conflict with Zheng Chaojie and take advantage of the chaos to kill me before it buries the hatchet.*

At that time, I'll be killed, and the Scattered Stars Island can only swallow a bitter pill.

He didn't believe that the Scattered Stars Island would really start a full-scale war against the sea monsters just to avenge him.

Zheng Chaojie sneered and was about to refute when Han Fei suddenly said, "OK, remember your words, let me restore to my peak state."

Chapter 670: Yuji?

"That's a Divine Weapon!" Zheng Chaojie shouted.

Han Fei grinned. "I know, but I can't just shrink back, right? I'd like to know the percentage of the Divine Weapon's strength it can give play to."

Zheng Chaojie frowned. "No more than 50%."

Han Fei grinned and said, "That's OK then... Let me have a try."

Glancing at the shining Half-Mermaid girl, Han Fei smiled and said, "Hey, Fish, wait for me to restore my strength."

The Half-Mermaid said, "My name is not 'Fish'. I have a name. My name is Yuji."

"Puff!"

Han Fei almost stumbled. "Wow, good name. And my name is Overlord."

Everyone: "???"

Zhang Xuanyu murmured, "Why do I feel he is teasing that Half-Mermaid?"

Xia Xiaochan sighed. "He is being naughty. But it seems that only this fish has a name!"

When Yuji entered the battlefield, a lot of red mist emerged from her body. Han Fei knew it was demonic Qi.

Then data appeared in his eyes:

<Name> Yuji (Half-Mermaid)

<Introduction> She has an impure mermaid bloodline and chose to evolve into a human shape. Charming and can control water to be her soldiers. A humanoid creature. Additional information about her is unavailable.

<Level> 48

<Spiritual Energy> 7,499/7,499

<Demonic Heritage> Level-6, Mid-Quality

<Realm> Demonization

<Companion Spirit> Dark Moon Wolf Fish

<Unabsorbable>

...

“Mermaid bloodline?”

Han Fei frowned. *Isn't the mermaid's story an ancient myth?*

Han Fei said again, “Stand there and wait for me to restore my strength.”

Yuji held the harpoon and stood in front of him. “No problem.”

Han Fei took out dozens of spiritual fruits and took a big bite. The red juice flowed down the corners of Han Fei's mouth.

Yuji was astonished. “That's the way you restore your strength?”

Crunch!

Han Fei said while chewing, “I'm very durable and long-lasting, and recover quickly.”

Zheng Chaojie and the other Hidden Fishers almost fell... What the hell did this little b*stard say?!

Crunch~ Crunch~

Han Fei stuffed spiritual fruits into his mouth one after another. “Isn't it good to be a fish? Why do you take the shape of a human? How about surrendering to our human race? I welcome you on behalf of the human race. I can introduce you to a handsome boy. Do you see the one behind me? He is called Zhang Xuanyu. He is hot, isn't he? I can introduce you to him.”

Yuji's body trembled a little. “Can you eat faster? Let's start fighting as soon as possible.”

Han Fei waved his hand and said, “What's the rush? Let's talk... Are you really a princess? I don't believe it. If you really were, why would you be sent here? So, you are actually just a little maid, right?”

A ripple lifted under Yuji's feet, and the water wave pounced on Han Fei.

Han Fei hurriedly said, “Don't be impulsive. The fight hasn't started yet! Let me eat two more.”

Yuji's little face that was much prettier than ordinary Half-Mermaids' was full of anger. “You've eaten 23 energy fruits. Haven't you finished yet?”

Han Fei curled his lips. “You don't understand. Boys always eat more than girls, which shows that we boys have a better appetite. By the way, to be honest, you haven't evolved completely yet. Although your face is not ugly, it's actually not that pretty. You still need to evolve...”

Swish...

Yuji suddenly rushed forward and thrust the golden harpoon in her hand at him. This blow was so fast and powerful that Han Fei felt that only the Art of Invincibility could block it.

However, Han Fei moved his feet agilely and avoided the harpoon like a loach.

The 64-Dimensional Fish Dragon Dance simulated Xia Xiaochan's weird hunter footwork.

SWISH!

The golden light swept across, like a wave ripple released in the air.

Yuji sneered. "Do you think you can avoid it?"

BAM!

The sea surface was sunken, and the space within more than 300 meters around had collapsed. Immediately afterward, Han Fei and Yuji both fell into the sea.

"Heavy Water Domain."

Han Fei suddenly frowned, and his body's reaction speed slowed down.

"Ten times of gravity? No, more than 10 times..."

One of the Hidden Fisher's faces changed. "Heavy Water Domain, this Half-Mermaid has mastered the Heavy Water Domain?"

"Damn it, is this Half-Mermaid really a princess? Has it even mastered the power of domain?"

Underwater, Han Fei's face darkened. Without the exaggerated dodge posture before, he simulated the postures of the 108 Desolate God Body with the 64-Dimensional Fish Dragon Dance.

Every time, the golden harpoon passed only a few centimeters away from Han Fei.

It looked breathtakingly dangerous as if Han Fei would be hacked to death at any time.

BAM!

The moment the two passed each other, Han Fei's muscles on his shoulders shook and he bumped into Yuji, knocking her back tens of meters in her own Heavy Water Domain.

The two fought no less than a thousand rounds within half an hour. Yuji failed to touch Han Fei, not even once.

Everyone who was watching the fight couldn't help but show a surprised look.

Someone said, "Why does it feel like they're in Han Fei's domain?"

Someone explained, "The Half-Mermaid hasn't mastered it well enough! If the gravity increases dozens of times more, Han Fei may be in danger."

Someone exclaimed, "It doesn't seem to be that scary now."

A Hidden Fisher shook his head. "Not scary? That's because the Divine Weapon hasn't touched Han Fei. Otherwise, he would be cut to pieces in a minute."

Han Fei's Blood-Drinking Knife and the golden harpoon collided from time to time. However, Han Fei carefully controlled the strength, so the Blood-Drinking Knife was not broken although there were already several cracks on it.

SWISH!

When Han Fei and Yuji collided again, the 99 Blue Sea Wandering Dragon Daggers suddenly exploded.

"That's exactly what I was waiting for."

"Sea God's Golden Harpoon!"

"Majestic Mystic Spell."

Clank, Clank, Clank...

The harpoon in Yuji's hand suddenly turned into a hundred harpoon shadows, hitting the Blue Sea Wandering Dragon Daggers.

CRACK... CRACK... CRACK...

In a moment, dozens of Blue Sea Wandering Dragon Daggers broke, which Han Fei had never expected.

"Puff!"

Han Fei vomited three mouthfuls of blood. These Blue Sea Wandering Dragon Daggers were his spiritual weapons, nourished with his own essence blood, and once they broke, he would be hurt too.

Xia Xiaochan's heart trembled. "Han Fei?"

Zhang Xuanyu shouted, "Feifei! Be careful."

Le Renkuang added, "Don't hurt yourself."

Mu Jia'er cried, "Ah! In an instant, nearly 30 ultra-quality spiritual weapons were destroyed. Is this the power of a Divine Weapon?"

Guan Qingyan said intensely, "Oh! Han Fei is in danger. Although this fight seems to be easy and Han Fei seems to just keep dodging, he'll be killed with the slightest careless movement."

Han Fei suddenly understood that Yuji was just waiting for him to use the Ten Thousand Knives in One.

She was waiting for the moment when he suffered from a backlash.

At this moment, Han Fei was still vomiting blood. He hadn't mastered the 64-Dimensional Fish Dragon Dance well enough, so when he made a mistake, it gave Yuji a chance.

Swoosh!

The golden harpoon broke through the air to thrust at Han Fei. The speed was so fast that it was somewhat similar to Sun Mu's blow.

Han Fei gritted his teeth. *Damn, this Divine Weapon is indeed terrifying.*

Clang!

With a loud clang, a rusty iron rod appeared in Han Fei's hand.

It was this iron rod that blocked the violent shock.

"Puff!"

Han Fei stepped back half a meter, tilted his head, and vomited a mouthful of blood to the side as if he just spat.

Han Fei was a little frightened. Even if he had already activated the Majestic Mystic Spell, he still felt that his internal organs were tumbling.

The Embroidery Needle blocked the golden harpoon.

Han Fei's eyes turned cold, and he suddenly punched out and his fist shadow, wrapped in the dazzling golden light, blasted towards Yuji.

BAM, BAM, BAM!

Golden fist shadows were thrown out consecutively madly, and Yuji was blasted into flight before she had the time to respond.

However, Han Fei was disappointed to see the invincible fist marks were dissolved when they fell on the opponent's Divine Weapon-level battle suit.

Yuji's mouth was bleeding and her eyes were sharp. "What weapon is that in your hand?"

Han Fei ignored Yuji. Because he found that the rust on the Embroidery Needle was shattered by Yuji's blow.

Crack... Crack...

Han Fei saw a trace of gold at the part of the Embroidery Needle where the rust had come off.

Is the Embroidery Needle about to wake up?

Immediately, he dropped a droplet of essence blood on the Embroidery Needle. This time, it was sucked in.

However, Han Fei didn't feel that he had established a relationship with the Embroidery Needle.

"Huh! Is this not the way a Sea Quelling Bizarre Treasure acknowledges its master?"

Han Fei dropped a few more drops of essence blood on the Embroidery Needle, which were still absorbed, but the Embroidery Needle still gave no response.

Han Fei was speechless. *What's the problem with you?! Don't make me use the Sacrificing Punch, OK? I might get myself killed before I kill this fish!*

The other party thrust the harpoon at him again, carrying thousands of layers of waves. Han Fei gritted his teeth. "Son of a bitch, never acknowledge me as your master then!"

Han Fei held the Embroidery Needle, regardless of whether it acknowledged him as its master or not, and swung it at Yuji, infusing the Invincible Fighting Intent in it.

Han Fei was not good at using rods, at least not as good as Zhang Xuanyu.

But he could use the rod like a knife.

Clink!

The waves slapped together and a big hole appeared. Han Fei let out a low groan, and the skin on his right hand was torn and blood dripped down.

Yuji was not much better. She coughed up blood one mouthful after another and the blood was scattered on the turbulent sea and instantly disappeared. Her hands were dripping with blood, so were her ears and eyes.

Yuji's eyes were glowing. "Is that a Divine Weapon?"

Han Fei twisted his neck and threw himself a Divine Healing Technique. "No, it's just the remains of a Divine Weapon, but you can say that. Now take my blow again."

On the sea, the two, like two humanoid missiles, kept colliding, once, twice, and three times...

Han Fei laughed out loud, his teeth red, but he didn't care. "Is this all you've got? If it weren't for your Divine Weapon, I would have killed you more than once. Come on, let's continue..."

Han Fei discovered that he could no longer use the Embroidery Needle. After all, it was not a knife, and he couldn't give a full play to its strength.

"Fine, attach..."

A horrible power converged on Han Fei's fist. A crimson light condensed a five-or-six-meter-long fist mark, full of murderous intent.

"Humph, you're looking for death."

When Han Fei activated the Majestic Mystic Spell and was about to use the Sacrificing Punch, the Half-Mermaid leader opposite suddenly snorted.

Han Fei felt as if he had been hit hard on his chest and spat out a puff of blood.

"Flaming God Strike!"

Zheng Chao moved. The Divine Weapon in his hand turned into a flashing light and hacked at the Half-Mermaid leader.

The Hidden Fishers jumped into the air one after another, and someone yelled, "Bastards, you cheated! Go to hell!"

Han Fei withdrew. In front of him, an amulet suddenly shattered, which was just because of the Half-Mermaid leader's snort.

Han Fei pointed at the Half-Mermaid leader and cursed, "F*ck, you'd better not die. One day, I will find you and kill you with my hands."
