

Chapter 681: Professional Demon Trappers

Meng Guiyi knew that Han Fei was familiar with arrays, but a small array was completely different from a great one, which depended not just on its size.

Han Fei pretended to be pale. "Of course. It won't be easy to set up the Coiled Turtle Array for twenty people. I might as well set up a great array to save some time."

Someone on the Half-Mermaids' side noticed that and said, "Try to kill that spirit gatherer later."

Hum...

When the Soul Parasites were flying everywhere, a furious pillar of flames rose to the sky on the Half-Mermaids' side and burnt up a lot of them.

On Meng Guiyi's side, he had set up a Shaking Blockage Array, which Han Fei wasn't familiar with but had seen in the "Spirit Gathering Scripture" before. It was one of the common killing arrays.

It was generally used to deal with sea creatures in the mud through shaking, but it was not destructive enough.

When the Soul Parasites broke through, they were not dead yet. Therefore, a swarm of red Soul Parasites were stuck to the Great Coiled Turtle Array Han Fei set up.

Han Fei asked, "So we'll just wait?"

Someone said, "The gate can definitely be opened. There should be a pattern behind it."

Su Hongye asked, "Duan Jiang, how much longer can you keep up your array?"

Han Fei smiled. "Until I run out of spiritual energy."

Xu Mo asked, "How much spiritual energy have you used?"

Han Fei thought for a moment. "Maybe thirty percent! Why do you ask?"

Zhao Jiayi exclaimed, "You've only used thirty percent of your spiritual energy?"

"What's there to be surprised at? I've been growing."

Meng Guiyi shot them a look. "Okay, enough chit chat. This treasure trove is very dangerous. Our way out is definitely behind the gate, but let's find out how to open it first..."

Outside of the array, a lot of Soul Parasites had already been killed, but their total number didn't dwindle.

The Half-Mermaids seemed to be looking for a way out, and their burning flames seemed to be more destructive to the Soul Parasites, which gave them an edge.

Dum! Dum! Dum!

The puppets were already attacking the Great Coiled Turtle Array. The armorists couldn't block so many of them with Torrents of Knives and Swords at once. A crack had been left on the array.

Su Hongye said, "If we fully unleash our power, we should be able to fling those worms aside, but then what? We can't open the gate."

Xu Mo thought for a minute. "Wait a moment longer. There will be a turning point. This feels like a test."

Suddenly, Han Fei exclaimed, "Look, isn't the man's hand on the dome pointing at five of the eight gates before us?"

Instantly, everybody changed their expression.

Su Hongye yelled, "Why are you shouting?"

After a stun, Xu Mo said, "Idiot, can't you keep your discovery to yourself?"

On the other hand, the Half-Mermaids already took action after Han Fei's cry. They chose the other three gates that were not far away from Han Fei.

At this moment, everybody heard that the gates were being opened.

Shocked, everybody was about to take action, when their expressions changed again.

It was because Han Fei said telepathically, *That was a lie. The real gate is up above us, but let's wait for them to leave first.*

Xu Mo stared at Han Fei. *What do you mean?*

Su Hongye was puzzled. *Make yourself clear.*

Han Fei was lost for words. *Are you idiots? Why do you think Brother Meng asked you to take the gate in the middle?*

Meng Guiyi smiled. *That gate isn't pointed at by the hand on the dome, so it's only natural that it can't be opened.*

Xu Mo declared angrily, *Then why did you ask me to open it?*

Han Fei snorted. *It's just a show to trick them!*

As they talked, all the sea demons had entered the gate, and Meng Guiyi suddenly roared, "Let's go up there! Su Hongye, it's showtime."

Flames raged in Su Hongye's eyes, and a great number of red leaves blew the Soul Parasites into pieces.

Three armorists led the way with the Torrents of Knives and Swords.

Everybody seized the chance to dash to the dome. They found an unusual crack in the palm of the portrait. Then, Chen Aochen hammered it and opened a gate that was three meters wide.

After everybody came in, their first feeling was that it was truly cold.

When they regained their eyesight, they found themselves in a snowy world above the dome. They saw an enormous temple that was covered in ice and snow. It was definitely more than eight hundred meters tall.

The temple was so spacious that it stretched out to at least twenty kilometers away.

The temple was so deep that one could not see anything in it until they entered it.

Everybody couldn't help but gasp.

Meng Guiyi swallowed. "We've found a place of relics?"

Zhao Jiayi exclaimed, "We're going to be rich!"

Xu Mo quickly said, "Not good! We need to kill those Half-Mermaids. If the relics are exposed to them, it will mean war."

Su Hongye laid one hand on Han Fei's shoulder. "Spiritual energy."

While filling spiritual energy into Su Hongye's body, Han Fei asked in surprise, "Isn't this palace too huge? Why has it never been found before?"

Ye Xiangxiang explained, "There are too many treasure troves. Some of them are eternally buried in the sea and will never be seen."

Su Hongye looked at Han Fei. She remembered that Han Fei was the first to reach the dome. He even fetched a pearl from there. Was it a coincidence?

Su Hongye asked, "Duan Jiang, did you know since the very beginning that the entrance was through the dome?"

Other people looked at Han Fei, and Han Fei said casually, "There were many gates in the hall just now. I didn't know that the real entrance was up above. I think the five gates that the man pointed at were all accessible, but more difficult than this one."

Someone was grim. "So, you and Meng Guiyi knew this from the beginning?"

Meng Guiyi shook his head. "Of course not. I simply didn't want you to enter these five gates, but I didn't notice the one on the dome either."

Han Fei shrugged. "I didn't realize the answer until the sea demons opened the other three gates. Those gates were opened too easily to be anything good."

At this moment, many people slightly frowned, as this Duan Jiang seemed more observant and judicious than the others.

Gong Yuehan had been following Han Fei. She suddenly realized that she never considered those details.

Xu Mo's eyes flashed. "The problem is, what are we going to do with those Half-Mermaids? I think someone should block their retreat. I volunteer for that task."

Meng Guiyi said, "You can't. We'll set up a killing array and then enter the temple."

Chen Aochen grinned. "It doesn't matter. Even if the Half-Mermaids come here, they will definitely come into the palace."

Meng Guiyi was already setting up the array. He said to Han Fei telepathically, *Help me keep an eye on Xu Mo.*

Han Fei frowned. *Why? What's wrong?*

Meng Guiyi replied, *I'm not sure. Something feels wrong. He intends to block the Half-Mermaids on his own? That doesn't make sense.*

Han Fei was instantly alarmed. He secretly opened the Eyes of True Vision. Spiritual energy circulated in his eyes, but he didn't see anything unusual with Xu Mo.

Han Fei remembered Mo Qianshang from the level-three fishery who turned from a Half-Mermaid into a real human being. It was terrible when he blended into human society.

Xu Mo was silent. After his suggestion was refused, he didn't do anything unusual but simply waited for Meng Guiyi to set up the array along with everybody else patiently.

It took Meng Guiyi half an hour to set up the array this time, but Han Fei still recognized it to be the Hundred Water Profound Killing Array, which was a neat array that could simulate a hundred killing techniques with the power of water.

Unfortunately, the array's power depended on the person who set it up and what it was made of. It was far weaker than what Han Fei made with Infinity Water.

So, Han Fei said, "Cough! Well, Brother Meng, I bought some lethal poisons from the Logistics Division a couple of days earlier. Do you want to put them in your array? If the Half-Mermaids do come, they will get poisoned."

Meng Guiyi asked in surprise, "You have poisons too?"

Han Fei pretended to speak in surprise, "I paid a fortune for them, but I'll just contribute them to the team. No need to thank me. I'm just a selfless man."

Gong Yuehan's eyelids were cramping. She had heard how dreadful Han Fei's poisons were before!

He had won the battle in the Steps into the Sea, and defeated peak-level Hanging Fishers as an advanced Dangling Fisher, with poisons. Was he going to use them again?

Ahead of them, Ye Xiangxiang, Su Hongye and other girls all spat.

All the cultivators hated poison. Although Han Fei didn't seem like a frequent user of poison, he had still left a bad impression on them.

Xu Mo's eyelids were cramping too. There was no telling what was on his mind.

The Poison God was directed into the array and melted into the snow, colorless and flavorless.

Han Fei finally smiled. "Everybody, let's go! If they get to the palace through other paths, we may already be one step behind them."

Tang Ge added, "All methods can and should be used against the sea demons. Duan Jiang is right. Let's head off to the temple."

Meng Guiyi simply roared, "Let's move out!"

Chapter 682: Primordial Relics

The twenty of them were moving rapidly, when Ning Dong, who was in the lead, waved his sword and cut apart a snowball.

Ning Dong roared, "Something is around us!"

They were only twenty kilometers away from the palace, but a lot of snowy objects were showing up after they moved merely three kilometers.

"Are they snowmen? Or maybe snowfish?"

Han Fei was lost for words. He saw big fish leaping out of the snow, but he still didn't see any data. Did those creatures take the snow for a sea?

Not just the fish, there were also crabs made of snow and scorpions made of ice. They were all surfacing in swarms.

Su Hongye warned, "Be ready for battle! What are those things?"

Ning Dong said solemnly, "They're not very strong, but they seem to be undying."

Chen Chen punched and broke an ice scorpion. "Not very strong? They are as strong as junior Hanging Fishers. If we stay here, we'll be killed sooner or later."

Chen Aochen nodded. "Then let's fight our way through! It's only twenty kilometers."

Hardly had Chen Aochen finished when the earth began to shake, and two giants crawled out of the snow on the two sides of the temple.

"Huh!"

Everybody was dumbfounded, as the giants were almost as tall as the temple.

The two gargantuan snowmen crawled out of the snow, each holding two gigantic ice axes in their hands.

Han Fei was lost for words. "Don't tell me that they're the janitors."

Tang Ge shot him a worried look. "I think they're very strong."

Su Hongye agreed. "Damn it. I'm having a sense of fear."

Ning Dong, who was in the lead, suddenly roared, "Look, those little creatures aren't going to attack us."

Everybody saw that the fish, crabs, scorpions, lobsters and other creatures that emerged from the snow were taking a detour behind them.

More and more creatures were gathering behind them from all directions, as if they were forcing the human beings to move forward.

No battle was needed as those snow puppets were only driving Han Fei and the others forward without attacking them. Even an idiot knew that they had to enter the palace.

The captains all gasped. They had thought that they chose a safe path, but they weren't sure anymore when they saw the super giants that were more than five hundred meters tall.

Half an hour later, when they were only a thousand meters away from the giants, they found a road completely made of ice before their eyes.

The army of snow monsters had stopped several hundred meters behind. It seemed that their only job was to drive the intruders to this place.

Ye Xiangxiang looked at the group. "It seems that we have to keep going."

Han Fei, however, extended his hand, and an ice spear appeared in his hand. The Water Control Technique seemed quite effective on ice too.

"Hiu!"

The spear was thrown away.

But it was blown into pieces by an air wave that spread from the ice after it flew for only a hundred meters.

"Huh? The two giants didn't move?"

Everybody looked at Han Fei, and Ning Dong took out a real spear from his weapon box and threw it out too.

This time, one of the snow giants softly waved its ice axe, and a sharp aura hit the spear at an unbelievable speed.

Crack!

The spear, which was an ultra-quality spiritual weapon, was broken apart by the snow giant's casual attack.

Xu Mo's eyes widened. "I think we may have chosen the harder path."

Han Fei said with a vague smile, "Then why don't you go back?"

Xu Mo glimpsed at Han Fei coldly. "What do you mean?"

Han Fei smiled. "Nothing. But since the entrance is blocked by a killing array and strong poisons, you can't turn back even if you wanted to."

Ning Dong, however, suggested, "We can go! The axe is fast, but not unavoidable. Did you notice that the axe showed just enough power to cut apart an ultra-quality spiritual weapon?"

Someone said, "Who's going to test them out? What if you get cut apart?"

Ye Xiangxiang suggested, "Should I give it a try? I think I can dodge it."

Meng Guiyi had been considering the options, and Han Fei was staring at him. Now that Ye Xiangxiang had volunteered to go there, he intended to find out if anyone could be sacrificed including those from the Scattered Stars First Unit...

However, Meng Guiyi slightly shook his head. "We must be better prepared even if we're to run through. Unfortunately, I don't know any acceleration arrays. Everybody, wait a moment. I'll learn one now."

Everybody was lost for words, and Su Hongye simply said, "How long will it take for you to learn one?"

Meng Guiyi shrugged. "It depends. A simple one shouldn't take very long."

"Well, about that..."

Su Hongye tilted her head and looked at Han Fei. "This is not a spirit gatherer's business. We're working on it."

Zhao Jiayi patted Han Fei's shoulder. "It's impossible for spirit gatherers like us to make it through."

Lost for words, Han Fei stomped, and a gale rose from his feet.

Meng Guiyi asked in surprise, "Huh? Is this the Wind Travel Array?"

Seeing that everybody was looking at him, Han Fei said, "I don't know the complicated arrays, but I happen to know a couple of such simple arrays."

Ye Xiangxiang's eyes glittered. "Why didn't you tell me sooner? Give it to me."

"Wait a moment."

Han Fei interrupted her again, "There's something that I don't know if I should say..."

Xu Mo frowned in dissatisfaction. "Just spit it out."

Han Fei chuckled. "So you're insisting that I speak, right?"

Seeing that everybody was looking at him silently, Han Fei shouted in a high voice, "Are you idiots? Is it fun to risk your lives? Why do you have to go through these dangers ahead? Wouldn't it be better if we let the Half-Mermaids do that for us?"

Su Hongye looked confused. "What do you mean?"

Xu Mo's eyes lit up. "You want to lure the Half-Mermaids here and let them enter first? Duan Jiang, which side are you on?"

Han Fei rolled his eyes. "Are you really an idiot? These relics of high importance will definitely have other traps guarding them. We can let the Half-Mermaids go first, and the giants will kill half of them. Alternatively, you can lead a batch of people to explore it first and leave half of the crew behind. When the Half-Mermaids attempt to pass this place, the people who are left behind can attack them from their back. What do you think of the plan?"

Xu Mo instantly pulled a long face. "What a shameless method."

Han Fei sneered. "Then why don't you go first if you think you are the bigger man? You asked me which side I was on? I think I should be asking you the same question."

Tang Ge suddenly opened his mouth. "I agree with Duan Jiang. There are no rules in the war against sea demons."

Gong Yuehan nodded. "It's fine by me too."

Zhao Jiayi said helplessly, "This place is so empty. How can we hide?"

Meng Guiyi replied, "There are solutions to that. We can set up Concealment Arrays and Breath Concealing Arrays. I don't think the enemy will be strong enough to detect us."

Su Hongye looked at Han Fei in admiration. "It seems that you're not useless at all. You're quite smart anyway. I agree with your plan. If they can make it through the journey, then so can we."

Han Fei smiled and said, "However, it would be best if some of us wait at the finishing line. If the sea demons set up an ambush after they finish the journey, we may suffer a heavy loss."

Ye Xiangxiang quickly said, "Let me do that. I can pass the test. Trust me."

Su Hongye agreed, "Count me in too. It shouldn't be a problem for me either."

Tang Ge was next. "Count me in."

Han Fei frowned and asked him telepathically, *Why are you going there now? What if the axes are too powerful?*

Tang Ge put on a smile. *It's fine. The Dragon Soul Overlord Body from the Dragon Feather Lobster has other effects. The distance is just a thousand meters. I can pass it in half a second.*

Han Fei held back a gasp. *You really can?*

Of course!

Hearing that, Han Fei said to Xu Mo, "Hey, you're not going? If you're so self-righteous, you should run over and wait to ambush the Half-Mermaids up ahead."

Su Hongye looked at Han Fei coldly. "Internal conflicts are not allowed."

Han Fei grinned. "There are no internal conflicts here. I promise that I won't argue with him if he can shut his mouth."

With killing intent beaming out of his body, Xu Mo glared at Han Fei. "Duan Jiang, are you provoking me? Do you know that you're challenging the authority of a captain?"

Han Fei covered his chest and pretended to be frightened. "Ooo, I'm so scared! You sound almost as if you were my captain... You want to kill me? If I'm dead, Brother Zhao will be the only one who can transmit spiritual energy to you."

Zhao Jiayi chuckled. "Don't bring me into this. This is your conflict."

Wang Qing, who was from his team, licked his lips and said, “Bummer. Why don’t you play rock paper scissors? Whoever wins will stay, and the other person will go over.”

Chen Chen, another teammate, said solemnly, “Do you want to fight before the sea demons arrive? Duan Jiang, why are you provoking him as a spirit gatherer?”

Han Fei snorted and created a Stealth Array. He stomped again, and a Breath Concealing Array appeared.

Around Han Fei, Su Hongye and the others were stunned that Han Fei simply vanished. Even his breath could barely be detected. If he held his breath, he could’ve easily tricked them.

Zhao Jiayi was lost for words. “Brother Duan, I didn’t know that you were an expert in arrays too!”

Meng Guiyi’s pupils slightly constricted. “Brother Duan, you’ve picked up the Stealth Array too?”

Han Fei stood where he was. “What I used were just the simplest arrays that won’t work on those who are far stronger than us, but they will be effective on the Half-Mermaid Heavenly Talents who are at the same level as us. Right, Brother Meng?”

However, Xu Mo scoffed at this moment. “Fine! I’ll go.”

Han Fei felt puzzled instead of happy after hearing that. *Did he really agree to go ahead? What does he have to rely on to keep him safe?*

Han Fei immediately said to Tang Ge telepathically, *Be careful with Xu Mo. Something is off with him.*

Chapter 683: The Ice Road

Right in front of the icy road ahead, there seemed to be a gap in the palace gate, which should be enough for a person to get in.

Ye Xiangxiang was the first to step on the Ice Road, as Meng Guiyi needed the first person to pass to be absolutely reliable: a member of his own team.

Along the way, Ye Xiangxiang seemed to be an ordinary hunter without anything special about her.

However, when she stepped on the Ice Road, she instantly turned into a shadow and then disappeared. Han Fei could only vaguely see her location according to the flow of spiritual energy.

Perception seemed to be ineffective on the Ice Road.

Swoosh!

The big axe in the hands of the one ice giant didn’t seem to move. Maybe it was an illusion, but when the giant axe moved, everyone felt it was slow.

However, the picture seemed to freeze.

All of a sudden.

On the Ice Road, Ye Xiangxiang appeared 500 meters away. Her figure flickered like an afterimage, but it wasn’t true. She seemed to be able to shuttle ahead at will.

At this moment, Ye Xiangxiang propped a hand against the ice, popped out, and disappeared again.

Now the other ice giant moved. The two large axes chopped at the same time, and the breathtaking light of the axes directly cut out the afterimage of Ye Xiangxiang.

Everyone saw Ye Xiangxiang's figure flipping between the giant axes. With the help of the giant axes, she made it directly to the opposite side.

When she landed steadily in front of the palace, she excitedly waved at Han Fei and the others, shouting something.

However, her voice seemed to have disappeared, and no one could hear what she was shouting.

Meng Guiyi said solemnly, "I can't hear her. It seems that this Ice Road has isolated the two sides."

Ye Xiangxiang also found this to be true. As a result, the smile on her face disappeared and she began to gesticulate, seeming to try to say something, but got no response from this side, which made her anxious.

Tang Ge shouted, "I am next!"

Han Fei said to him through a voice transmission, *Be careful. Ye Xiangxiang seems to have found a problem.*

Tang Ge glanced at Han Fei. *It doesn't matter. I am faster than her.*

When Tang Ge stepped on the Ice Road, a dragon roar was heard followed by a white light. A white dragon phantom completely ignored the giant axe of the ice giants and rushed out.

Han Fei felt his heart skip a beat. *Is this the unique ability of the Dragon Feather Lobster, or some special combat skill?*

Tang Ge seemed to suddenly disappear! When the ice giant axe cut through the dragon's body, the white dragon phantom passed through the giant axe. After only half a minute, Tang Ge already appeared in front of the palace.

This scene stunned everyone.

Someone was surprised and said, "Tang Ge? Where is he from? How is he so strong?"

These people were not familiar with each other. To be precise, most people were not familiar with Meng Guiyi's team because they rarely showed up.

At this time, on Zhao Jiayi's team, the previously injured person said, "I have almost recovered. Let me be the next."

Zhao Jiayi said, "Take it easy. Bring out the strongest in you. For some reason, I have a feeling that the ice giants are not simple."

The person nodded. "Okay."

This man was an armorist. However, he possessed a speed-type contractual spiritual beast, a Flying Fish. He directly had the Flying Fish attach to him and stepped on the Ice Road. Two flashes of light erupted

from behind him, and he shot out as fast as an arrow, with one hand still on his armor box, in case of emergency.

But this time, an accident occurred.

After flying about 300 meters, he suddenly burned his essence blood and burst out. Moreover, he also activated a secret method, which doubled his speed.

However, he just narrowly avoided the first axe. When the two ice giants chopped at him at the same time, instead of dodging, this person propped up an eight-sided huge shield, put on an ultra-quality battle suit and activated a spiritual-energy protective cover.

“He is going to block the axes?”

Crack! Crack! Crack!

As the light of the axe chopped down, the huge shield was cut into pieces like paper.

Immediately afterward, this person was cut in halves in an instant, then was blown into flight by a gust of wind, and fell directly into the distant ice and snow.

A large number of ice and snow creatures immediately rushed forward and immediately submerged this person until his body disappeared.

Everyone was shocked and Zhao Jiayi said gloomily, “These ice giants are strange. They’re too strong. But why did he try to block their blows?”

Su Hongye replied, “His speed is not fast enough and we haven’t walked this Ice Road before. I don’t know for what purpose he chose to block the giants’ attack. It’s my turn...”

Han Fei glanced at her. “Would you like to wait?”

Su Hongye calmly said, “It’s okay! If you really want to implement your plan, how can there be only two people on the other side? At present, I should have the fastest speed among the remaining people...”

With that said, Su Hongye strode onto the Ice Road. In an instant, the Ice Road was full of red leaves as if the red leaves were blowing forward by a gale, during which the giants slashed at Su Hongye three times.

When Su Hongye appeared, she was already in front of the palace, but she vomited blood and sat cross-legged. Everyone was worried about her... Is she injured?

BAM!

Suddenly, everyone heard a loud bang dozens of kilometers away.

Meng Guiyi frowned. “How did they make it here so fast?”

Han Fei also frowned. *How could this be? Did the half-mermaids immediately come out after they got in? They were simply too fast.*

Everyone looked back, only to see the large array in the distance flicking, and the entrance had become a battlefield.

Meng Guiyi shouted, "Come on, who else wants to pass? Be quick... My array won't last long. Duan Jiang, let's solidify the array."

Han Fei looked at Xu Mo. "Are you going or not? Make a choice before it's too late."

Xu Mo hesitated. Then he glanced at Han Fei and took a deep breath. Four people tried to pass the road and only one died, so it should be fine for him.

Immediately, Xu Mo shouted, "I'll be the next."

When he said so, Han Fei and Meng Guiyi's eyes both lit up. This was a life and death decision! At such a critical time, if Xu Mo had a problem, it would be easiest to find out.

Xu Mo set foot on the Ice Road and directly activated a secret method, pushing his strength and speed to the peak. When the ice giant's big axe hacked down, he suddenly burned his essence blood, dodging the first chop.

When the two giants slashed at him at the same time, Xu Mo suddenly sprayed out a blood mist, and then a flash of blood swished by.

Zhao Jiayi said, "Huh! He's leaking blood? The side effects of this secret technique are great! Why did he choose this technique?"

Ning Dong suddenly said, "I know the blood escape technique too. It's said to be the best escape technique. There seems to be no problem."

In Han Fei's eyes, spiritual energy flickered. This guy was a bit strange, but he was indeed not a sea monster.

Han Fei was relieved. Maybe he thought too much, or it was just because he really hated that guy.

Meng Guiyi shouted, "Everyone, get into the ground quickly. Duan Jiang, set up a Breath Concealing Array first, and then a Stealth Array. Do you have any problem with this?"

Han Fei shook his head. "No problem."

Immediately, beside Han Fei, Chen Chen, Wang Qing, Gong Yuehan, Zhao Jiayi, and the others all went underground.

Han Fei waved a hand and the ice and snow rolled over, covering his feet. He set up one Breath Concealing Array and one Stealth Array under each foot. His speed was so fast that even Meng Guiyi looked at him deeply.

About ten minutes later, only Meng Guiyi and Han Fei were left.

The two looked at each other and drilled directly into the ground. After five minutes, there was only snow and ice, nothing to be heard.

On the opposite side, when Tang Ge and the others saw them all get into the ground and spotted the flicking spiritual light in the distance, they knew that the Half-Mermaids had arrived! So they quickly went into the palace one after another.

After about half an hour, a group of Half-Mermaids arrived.

There were 23 of them, headed by two females and one male, all wearing golden battle suits.

At the rear of the team, five Half-Mermaids were throwing up and having diarrhea, and two of them were ghastly pale, their breath was unstable, and they seemed to be suppressing something.

From the time they entered the door to breaking the Hundred Water Profound Killing Array, 10 of them had died.

A male Half-Mermaid said in broken human language, "Cunning humans, they must have discovered the way up long ago, so they set up a poisonous array to lead us into the trap."

The female Half-Mermaid said, "Fortunately, we have practiced anti-poison techniques since we were little. Otherwise, we might have been wiped out."

Another Half-Mermaid said, "It is a relic ahead. We cannot leave it to the humans."

A very handsome Half-Mermaid pointed to a pale-faced Half-Mermaid behind him and said, "You, pass through."

The Half-Mermaid who was picked turned even paler. However, he didn't protest. After all, no human could be seen here. And the palace gate on the opposite side seemed to have been opened, so he didn't hesitate.

However, this Half-Mermaid had been affected by the Poison God, so he only had 40-50% strength left. His fate could be imagined.

Even unable to survive the first blow, he was chopped in halves and then dragged down by a large number of ice and snow creatures.

Then the handsome male Half-Mermaid pointed at another. "You, go."

But this time, the female Half-Mermaid stopped the other from going up. "Don't let them die in vain. All the injured, stay here and wait for us to come out. Let me have a try..."

However, she was stopped by a Half-Mermaid behind her. "Me first..."

Chapter 684: Kill This Spirit Gatherer

Underground, Han Fei was cautiously perceiving. He didn't dare to perceive these Half-Mermaids directly but just looked at the Ice Road with his vision.

However, the male Half-Mermaid at the front suddenly looked back at the vast snowfield, searching with its eyes.

Another next to it asked, "What's wrong?"

"Nothing. I just feel something is wrong. Did we fall into the humans' trap?"

"Probably not. The relic is still here, so the greedy humans must have rushed in to beat us to it. We are already late, so we need to stop them before they grab the chance."

At this time, the Half-Mermaid who volunteered had already stepped on the Ice Road. Waves suddenly sprang up around it and it was drifting in the waves like a small boat, but its speed was not slow.

When the first axe hacked down, the mermaid managed to avoid it with the help of water. Then, when the axe chopped down on it again, it suddenly turned into waves.

However, its speed became much slower, and at this time, the third attack of the ice giant came.

“Puff!”

The Half-Mermaid was still killed. Because of the speed problem, it couldn't pass and ended up being submerged by ice and snow.

Two were killed in a row, and the remaining Half-Mermaids grew hesitant.

The female Half-Mermaid in the front said, “I think you've all seen that you must not slow down. If Seven didn't slow down just now, maybe he would have passed the road. This road is not as difficult as you think.”

“I.. Will be next...”

Another female came out. This time, it used a certain secret method and turned into six water arrows on the Ice Road, spinning and shooting past quickly.

As far as speed was concerned, it was faster than Xu Mo. Of the six water arrows, only two were cut off... And the other four successfully passed the road and turned into the female Half-Mermaid again...

However, after she landed, she staggered slightly, apparently being injured in passing the road.

However, this successful passing brought hope to the other Half-Mermaids.

Immediately, another began to try.

One...

Two...

Of the eight Half-Mermaids, six passed the Ice Road.

Among them, there was the leading Half-Mermaid in a golden battle suit, which was standing opposite and waiting for its teammates.

Upon seeing this scene, the humans were in an uproar. Damn, why didn't the ice giants kill these fish?

In Han Fei's mind, Meng Guiyi's voice suddenly rang, *We can't let them pass the Ice Road anymore. The four on Tang Ge's team ahead may not be able to beat them.*

At this moment, the Half-Mermaid girl standing in front of the Ice Road suddenly turned back and shouted, “Who's there?”

Han Fei was speechless. *Hell, why did Meng Guiyi make such a stupid behavior at such a critical time?*

“Puff!”

At the moment the Half-Mermaid girl suddenly turned her head, two figures suddenly jumped up from the snow.

One of them was Wang Qing from Han Fei's team, who stabbed a dagger into the neck of a male Half-Mermaid almost instantly. Then, he pounced on another who was detoxifying.

The one who came out with Wang Qing was Ning Dong from Meng Guiyi's team. At this moment, his long sword had penetrated the chest of a Half-Mermaid. At the same time, holding a large shield, he knocked another Half-Mermaid onto the Ice Road.

"Kill them!"

In an instant, everyone jumped out and started culling these mermaids.

At this moment, however, a change occurred.

The Half-Mermaid that Wang Qing chose and seemed to be the most seriously injured suddenly bared its teeth, held its golden harpoon high and nailed Wang Qing to the snowy ground instantly.

Immediately afterward, an armorist from Zhao Jiayi's team was pierced through by another Half-Mermaid who seemed to be healing itself.

Chen Aochen immediately held down the two Half-Mermaids in the front with both fists.

Ning Dong gave a furious roar and a weird machete flew out of the armor box behind him, cutting a sneaking mermaid into two pieces.

On the other side, a Blood-Red Demon Clam had already swallowed a hunter from Xu Mo's team.

When the two sides met, only in less than three minutes, seven or eight had been killed.

The Half-Mermaid on the Ice Road was killed by Ning Dong. After all, it was caught completely off guard and didn't even have the time to fight back.

Meng Guiyi shouted, "Withdraw!"

The short battle came to an end.

Corpses littered the ground. Meng Guiyi's eyes were bloodshot. In an instant, 3 people died on the human's side with only 12 people left.

On the Half-Mermaid's side, Ning Dong killed 3 alone, and the others killed 3 together, leaving 9 remaining.

On the other side of the Ice Road, several Half-Mermaids were roaring, but no one could hear them.

Han Fei and the others didn't take them seriously.

However, it was just at that moment that Tang Ge, Su Hongye, Ye Xiangxiang, and Xu Mo launched an attack...

Tang Ge brandished his powerful halberd and directly smashed a Half-Mermaid's head. However, Han Fei's face suddenly turned pale.

“Damn it...”

The Blue Sea Wandering Dragon bow suddenly appeared in his hand, and he shot an arrow to the opposite side.

On the other side, Tang Ge paused for a moment, and then as a white dragon phantom suddenly appeared, his body moved horizontally like a flickering light.

Before that, Xu Mo suddenly thrust a short spear at Tang Ge. Seeing that Tang Ge dodged it, he immediately turned to Su Hongye.

Su Hongye was too late to find out. Without enough time to dodge, she had her lower abdomen penetrated.

Ye Xiangxiang rushed up and hacked at Xu Mo, saving Su Hongye’s life.

Then, Tang Ge tussled with the sea monster that had a Divine Weapon. After that, he pulled Su Hongye and Ye Xiangxiang into the door.

Xu Mo’s sudden betrayal was something no one had expected, including Han Fei.

He had previously suspected that Xu Mo had a problem, but after several trials, he didn’t see any problem in Xu Mo, not even after Xu Mo passed the Ice Road.

Therefore, even Han Fei was very angry and surprised at Xu Mo’s sudden betrayal.

On the other side, the two parties had been fighting to enter the palace, but the situation on their side became subtle.

The three Half-Mermaid with Divine Weapons were certainly very powerful. Yuji, who Han Fei fought last time, was a peerless talent.

Even the male Half-Mermaid that Sun Mu fought last time was equally powerful.

And at this moment, there were three such talents here.

Among the 9 mermaids, one was seriously injured. Five seemed to have maintained their normal combat power and the remaining three strongest Half-Mermaids were confronting the humans, wearing golden battle suits and holding golden harpoons.

Han Fei asked Meng Guiyi via voice transmission, *Shall I solve them?*

Not for now. Chen Aochen and Ning Dong should be able to block them. Let Gong Yuehan fight them and you pretend to hide by my side.

Han Fei glanced at the 9 Half-Mermaids opposite him, wondering, *I’m not surprised that the Half-Mermaids could avoid the Poison God. Does Meng Guiyi suspect that they are still outmatched by them?*

The female mermaid bared her teeth and scolded, “Humans are really insidious and shameless. If we hadn’t heard that you’d developed a fatal poison, we would have been murdered by you.”

Meng Guiyi grinned. “So what? You don’t have an antidote, right? It seems that you have prepared a lot of precious anti-poison fruits!”

The male Half-Mermaid said, "There are only 12 of you and you don't have any Divine Weapons. Humans, your time has come."

Meng Guiyi sneered. "What makes you think you can kill us? Don't forget, even if you win, you will surely lose your strength and perhaps be seriously injured. At that time, will you still be able to pass through these trials?"

The female Half-Mermaid's pupils constricted. "Kill!"

This female Half-Mermaid's reaction was beyond Meng Guiyi's expectation. *Don't you want to enter the palace?*

Meng Guiyi shouted, "Kill them."

"Kill the spirit gatherer!"

As soon as it shouted so, the female Half-Mermaid had disappeared and appeared directly behind Han Fei.

Han Fei stomped, setting up a Coiling Turtle Array on the ground, putting on an ultra-quality battle suit, and activating a spiritual energy protective cover.

Beside Han Fei, a dazzling sword light slashed towards Han Fei's back with a swish.

The shock of their fight almost destroyed Han Fei's Coiling Turtle Array and Meng Guiyi hurriedly rushed up to protect Han Fei's array.

Just like Han Fei, Zhao Jiayi was both a spiritual gatherer and a soul warrior.

But at this moment, he also jumped into the defense array.

His true combat power was much worse than that of the best soul warriors.

He patted his chest, exclaiming, "Oh my sea god, they are a bunch of lunatics!"

"Hoooooo!"

Snowflakes burst and danced all over the sky, Chen Aochen's fists, covered with burning flames, were as fast as shooting stars, and he was fighting violently against a male Half-Mermaid wearing golden armor in the snow.

All of a sudden, a large number of ice and snow creatures popped up from underground. They were so densely packed like a big fish tide, so neither of them dared to approach them.

Another male Half-Mermaid in gold armor was fighting Ning Dong. Ning Dong opened his armor box, an armored shield flew in front of him to protect him, and knives and swords whirled around him like tides. They fought to a tie.

The others were fighting the other mermaids.

The spiritual energy pillars at Zhao Jiayi and Han Fei's fingertips were ceaselessly entering their teammate's bodies.

Especially Han Fei, he secretly set up a stealth array and hid inside.

In the chaotic battle, a Half-Mermaid's body drifting in the air suddenly stiffened and was then pierced by a soul warrior with a spear.

Fortunately, its companion spirit was an octopus, which sucked the spear. Otherwise, it would have died.

"Kill that spirit gatherer! He knows a secret sealing technique!"

Chapter 686: The Best Actor

At this moment, he had already walked less than half the Ice Road.

Han Fei and Six were like two racing cars on the track, speeding forward. At this time, two axe lights flashed.

Suddenly, Six's momentum soared and thousands of spider silks instantly shot at Han Fei.

*Son of a b*tch, I knew it! Since the last time that Half-Mermaid wanted to get that book from me, I should have known something would happen again...*

Han Fei was prepared, so at the moment when the spider silks shot at him, a wall of water blocked between the two of them.

Six sneered and didn't seem to think that this water wall could block his spider silks.

However, in the next second, he turned pale. How could it be possible that all of his spider silks were shattered?

Looking again, he found that the water wall was dancing with knife shadows.

Rather than saying that it was a 'water' wall, it was better to say that it was a 'knife' wall.

Han Fei sneered too. *Do you really think I'm just an ordinary spirit gatherer?*

The Infinity Water splashed over Six. At the same time, Han Fei activated the Majestic Mystic Spell and his footwork became strange and erratic again.

Han Fei swiftly passed through the two axe lights. The moment he flew over, the feeling of being locked in disappeared. Han Fei even turned his head and smiled at Six.

However, a golden harpoon shot through the air.

In a twinkling, Han Fei jumped up and turned his body in the air. Then, he vomited a mouthful of blood and fell to the ground in front of the palace, motionless.

Six in the golden battle suit was blocked by the Infinity Water, so he had no time to run.

He seemed to know that he couldn't run away, he simply gave up running away, but a brilliant golden light burst out from his body and a huge water man tried to rise from the ground.

Han Fei had seen this scene in the Heaven-Human Strait. Wasn't this trick the Half-Mermaid who fought with Yang Deyu had used?

However, this huge water man seemed to be about to collapse before it rose.

Six looked at Han Fei in astonishment, yelling, "Are you teasing me?"

Han Fei was still lying on the ground motionless as if he didn't hear Six yelling at all. The huge water man couldn't appear and the two axe lights hit Six.

Crack...

The golden battle suit on Six's body burst out a weird and powerful golden cover.

Unfortunately, after the first chop, it burst into pieces. Immediately afterward, an amulet appeared but was broken again.

Although the remaining axe light fell on Six's body, Six was still alive.

Han Fei gaped at this scene.

It turned out that the ice giants weren't as powerful as they looked.

But if the first two chops didn't kill the mermaid, more chopping would come.

The Infinity Water had not been removed, but seemed about to collapse in the eyes of others.

However, Six suddenly spewed a mouthful of vomit. His face turned pale. Was this water poisonous?

Although all the Half-Mermaids who came this time had taken anti-poison pills in advance,

no one would have expected that he would be poisoned over and over again... The previous poisonous array, under the protection of the five of them, only a few Half-Mermaids were poisoned.

However, this time, he was completely surrounded by poisonous water. Just like humans, sea monsters were not omnipotent and couldn't resist all poisons.

Seeing the two axe lights hack down at him again, Six chose to go back to remind everyone Han Fei was covering his strength. However, after turning around, he found that the remaining people and Half-Mermaids were in a pitched fight.

Although someone noticed him, his shouts were not going to help him out...

Clang!

Six was shattered by an axe. Thanks to the battle suit, he wasn't cut in half, but his body was shattered.

However, Han Fei didn't believe that Six was killed so easily.

This Half-Mermaid was as strong as Yuji, or even stronger! Even Han Fei had an Immortal Seal, so Six certainly had at least one too!

And he was killed too easily.

Sure enough, Han Fei felt a wave of fluctuations in the air. It seemed something was about to appear.

Immediately, a light flashed between Han Fei's eyebrows. He ordered, "Little Black, bite him."

Han Fei didn't know if it was Six or the resurrection effect of the Immortal Seal, which he hadn't witnessed yet.

On the other side of the Ice Road, the Half-Mermaids were all roaring. They were all stunned! How can it be? Six was forced to even use his Immortal Seal?

Chen Aochen roared, "Humph! Damn the Half-Mermaid, how dare he play such a stupid trick on us? Do they really think we are scared of them?"

In midair, Six had just appeared when he felt a heart-wrenching pain on his back.

Little Black had disappeared between Han Fei's eyebrows again.

And Six, looking in horror at the axe light chopping down at him from the sky, bared his teeth and roared desperately.

"No!"

A terrifying spear phantom burst out of Six's body. Upon seeing this scene, Han Fei narrowed his eyes. This horrifying power blasted toward the icy giant axes.

Han Fei was dumbfounded. "Is this your dying strike? B*stard, you've got a lot of tricks."

However, this terrifying spear failed to smash the giant axes. It only blocked one of the giant axes before the other one had already chopped down.

Thud...

A Half-Mermaid genius had since been killed. He had used all his trump cards but still couldn't escape his fate.

Han Fei continued to lie on his stomach and didn't care at all what was happening on the other side.

Even if the people on the other side were all killed, he wouldn't feel distressed. Besides, Chen Aochen, Meng Guiyi, and Ning Dong were all very strong!

Just now, Ning Dong killed three Half-Mermaids alone. Although it was a sneak attack, Han Fei couldn't help but be shocked by his strength.

Han Fei was tilting his head thinking, and suddenly spotted the golden harpoon inserted not far away. Immediately, Han Fei moved it closer to him.

Everything was ready but someone came.

Han Fei was not in a hurry to enter the palace.

There was only one Half-Mermaid genius in the palace, and Xu Mo, the traitor, was not that strong. And Tang Ge and Ye Xiangxiang were both Heavenly Talents, so they wouldn't be killed even if they were defeated.

He wondered what was happening on the other side of the Ice Road.

After waiting for half an hour, two came along. This time, it was Chen Chen and an ordinary Half-Mermaid.

However, unlike him and the dead Half-Mermaid genius, they didn't have a fight.

The two passed the Ice Road almost at the same time. And the first thing the Half-Mermaid did was grab at the golden harpoon. It was precisely because of this action that he was killed.

Thud!

The Half-Mermaid had just felt a sense of danger before being taken out.

Chen Chen was dumbfounded, so were the other people on the other side of the Ice Road.

Han Fei knocked the dust out of his clothes and got up from the ground, carrying a kitchen knife in his hand.

Chen Chen was surprised. "Are you alive?"

Han Fei picked up the golden harpoon and found that it was resisting him. He forcibly suppressed it and threw it into Forge the Universe.

Han Fei complained, "What took you so long? I've been lying here for so long. It's freezing!"

Under Chen Chen's stunned gaze, Han Fei turned around and waved to the opposite side, signalling that he was going into the palace.

Seeing this scene, Meng Guiyi smiled bitterly. Han Fei had killed the opponent's secret weapon, but he no longer trusted him.

However, there were benefits to this. There were only 6 Half-Mermaids left while there were still 10 humans left. They were bound to win.

As for what would happen next on this side, Han Fei didn't care.

Han Fei glanced at Chen Chen. "Let's go! If we stay here, the Half-Mermaids won't come over."

It wasn't until then that Chen Chen came back to his senses. "So, was the Half-Mermaid genius killed by you? So, you were not injured by the golden harpoon in the first place?" he asked.

Han Fei walked to the gate of the palace and said leisurely, "Yes, I killed him to vent my anger. How dare that bastard sneak attack me?"

Chen Chen was speechless, and for the first time, he felt he was stupid.

Isn't this guy just a spirit gatherer?

How does he also have a good understanding of arrays and have that terrifyingly strong knife skill... Most importantly, his acting skills are also good!

Han Fei smiled at him. "Although lying in the snow, my body and mind are devastated, when I thought that I did this for the sake of the Scattered Stars Island, I was no longer afraid. This is my duty..."

Chen Chen was speechless. *Cut the crap! I'm not gonna buy it!*

Chen Chen asked, "Do we just leave them alone? Should we hide behind the door?"

Han Fei sneered. "Do you think that there may be a sea monster?"

Upon hearing this, Chen Chen was startled. That's right, there were more humans passing the Ice Road than Half-Mermaids.

However, as soon as Han Fei said so, he walked straight through the door, not caring at all whether there was an ambush or not.

Chen Chen: "???"

Han Fei said, "Don't be silly. If there is a sea monster, I have the golden harpoon!"

Chapter 687: I Created An Array?

Sure enough, when Han Fei and Chen Chen entered the palace, it was a dreamy blue scene as if the palace was made of ice. However, when they took a closer look, it was actually made of a jade-colored bluestone.

Above their heads, there seemed to be stars shining.

When they looked up, they found that there were gems of various colors inlaid on the top of the palace. The arc-shaped lines formed by gems were like a maze.

Han Fei took a glance and knew that it was a big array.

However, this array didn't seem to be opened. Otherwise, it wouldn't be as quiet as it was now.

In this hall, in addition to the magnificent road they saw, there were countless huge pillars, which were carved with flowers, birds, fish, and insects.

And around these pillars were ice sculptures.

There was a warrior in a battle suit holding a sword.

A cultivator carrying a big fish on his head.

A girl with bottles under her arm.

A big crab following its master.

And...

Wait...

Han Fei's eyes suddenly narrowed. What did he see? A four-legged animal?

The thing Han Fei saw was like a huge dog. However, it had double horns on its head and was cat-faced. Its eyes were particularly large, and its legs and body were covered with scales.

"A cat with scales? What kind of breed is this?"

Han Fei couldn't help taking a breath. He released his perception and found that in this palace, perception didn't work at all.

“Damn it!”

Chen Chen seemed to have discovered this too and looked at Han Fei. “Where did they go? Shall we hide behind the door?”

Han Fei shook his head. “Why? Even if the Half-Mermaids all had Divine Weapons, there are ten people on our side. We’re unlikely to lose.”

Han Fei walked directly to the depths of the palace. Immediately after, he saw that some ice sculptures on both sides had been destroyed. The signs of violent fighting indicated that there had been fighting here.

Chen Chen had guessed that Duan Jiang was not just a spirit gatherer and was quite strong.

However, he hadn’t heard Duan Jiang’s name before. Did he conceal his strength before?

Chen Chen said, “Perception cannot be released here. We’ll have to explore this huge palace little by little.”

Han Fei was pondering. He saw the ice sculptures of ships, as well as deep wells...

A question suddenly came to his mind:

Are there wells on the floating island? I think there are, but very few...

However, when more and more terrestrial creatures appeared, Han Fei’s eyelids were jumping wildly.

“Huh! How can it be?”

Han Fei suddenly asked Chen Chen, “Do you know why there are so many secret realms in this ocean? The secret realms are as many as the stars in the sky. What do you think?”

Chen Chen paused and then smiled. “Just like why there are endless creatures in the ocean. The secret realms must be left by geniuses that used to cultivate here. Otherwise, how are there so many treasures in these secret realms?”

Han Fei frowned. He didn’t think so.

Why are there so many ice sculptures of terrestrial creatures here? This thing that looks like a deer couldn’t have been living undersea, right?

And that King Kong-like big bear, don’t tell me these were also from the sea.

But Chen Chen didn’t know these creatures, so he didn’t understand what Han Fei was wondering about. He was just full of curiosity about these sculptures.

But Han Fei was different, he knew the difference between land and marine creatures...

Han Fei thought there were two possibilities.

The first was that the Scattered Star Island was so big that it covered an area of thousands of kilometers, or even bigger. Then, over time, due to tectonic shifts, the Scattered Star Island sank.

The second was that there was a huge glacier continent in this world, which was filling water into the ocean every day, causing the sea level to rise and the land to sink.

However, if there was really such a glacier continent, how big would it have to be? The level-three fishery alone stretched hundreds of thousands of kilometers.

He had no idea how big the Scattered Star Island was... It was said that beyond the island, there was still the utterly dangerous Infinite Ocean... What kind of glacier continent could support all this?

However, there was one thing he could confirm: the place used to be land and then submerged by water for some unknown reason! Countless years ago, there were land and land creatures here...

With this in mind, Han Fei suddenly thought of the Floating Islands.

Why do people live in the sky? Where are the Floating Islands from? Are there any larger pieces of land in this sea area? Are there people living there?

A series of questions crammed into Han Fei's mind.

He found that there were too many puzzles about this world, waiting to be uncovered.

For some reason, Han Fei smiled.

It's getting increasingly interesting!

Chen Chen tilted his head and looked at Han Fei. "Why are you smiling?"

Han Fei returned to his senses. "Huh? Did I smile?"

Chen Chen narrowed his eyes, feeling that something was wrong with Han Fei. This person seemed strange. He'd better watch out for him.

Han Fei responded perfunctorily, "Oh! Nothing. I just feel that this world is quite interesting."

Suddenly, a strong light came from right in front with a whistling sound.

Han Fei and Chen Chen glanced at each other and rushed forward. There seemed to be fighting there.

As they ran, the blazing light disappeared, and instead, a dazzling bright light appeared on the other road in the other direction.

Han Fei frowned. From what he knew of Tang Ge, he preferred to fight head-on, so he should have gone straight ahead.

Han Fei suggested, "Let's split up. Go to the side, and I'll go to the front."

Chen Chen had always been wary of Han Fei and was trying to work out an excuse to separate from Han Fei. Otherwise, if they encountered any chances or treasures together, he would only lose to Han Fei.

The two ran in two directions without hesitation.

This palace was really big.

In the front hall, ice sculptures were everywhere, just like a huge ice sculpture museum.

Han Fei ran forward for more than 5,000 meters without looking at these ice sculptures again. After all, they were all useless things.

Then Han Fei ran to another giant gate. It was a huge stone gate glistening with a faint blue light, more than 800 meters high.

The door was so huge that even if Han Fei's strength was increased by 10 times, he wouldn't be able to push it open.

At this moment, Han Fei was dazed. The door seemed to be closed.

But if it was closed, where did that glaring light come from?

"Huh?"

Han Fei tried to push the door but failed.

However, Han Fei discovered that the patterns carved on the door weren't patterns of flower, bird, fish, insect, or any other fancy design but lines, both straight and curved.

"Attach!"

On Han Fei's back, two gold-red wings spread wide and he flew directly to the sky. For some reason, he had a feeling that there seemed to be something wrong with this door.

However, when he activated the Eyes of True Vision and looked down at the entire gate in mid-air, a pattern composed of many lines appeared in his vision.

Han Fei's heart was thumping. Is this pattern... A Meditation Painting?

Han Fei took a breath. This was certainly a treasure, although it was seven or eight hundred meters high and two or three hundred meters wide!

If it wasn't for the fact that he could fly, he would never have thought of flying into the air to see the full picture of this door.

But after seeing the whole picture, he didn't immediately memorize it. Instead, he turned around, lay flat in the air, and looked at the pattern inlaid with gems of various colors above his head.

"Huh! Is it really a Meditation Painting on the door?"

Han Fei looked back again, only to find that the pattern on the door was also like an array map.

But if it was actually an array map, why did it also look like a Meditation Painting?

Han Fei flew in midair, with spiritual energy flashing in his eyes. He drew lines with spiritual energy in the air, trying to copy a small piece of the pattern on the door.

"Oh!"

When a complicated pattern appeared, an earth-shaking roar suddenly burst out at his ears, almost deafening his ears.

"F*ck, what the hell is this?"

Han Fei stepped back quickly, and the pattern he had just drawn faded away.

Han Fei widened his eyes in horror. Was the loud roar from the array?

Han Fei was shocked. So, was it really an array map on this door?

When he looked at it again, he found that the lines were so dense and complicated... And he just randomly drew a small piece of the pattern that he glimpsed, and didn't precisely copy the whole pattern line by line.

"Wow! Did I just create an array?"

Chapter 688: A Colosseum

Han Fei took a breath, feeling a surge of hot air in his head as if he had seen a huge treasure.

Yes, it was not as Han Fei thought: that treasures and chances were all behind the giant door. The door itself was a treasure.

This huge pattern was more like an array map composed of countless arrays.

Han Fei randomly picked another area and began to draw in the air again.

When he finally finished drawing the complicated lines, a gust of wind burst out suddenly...

"Hahaha!"

Han Fei was overjoyed. Then he stopped laughing, looked around, and flew around the hall.

After making sure that no one was there, he hung on a pillar and began to memorize the pattern.

Unlike the God Scaring Painting, this pattern was not difficult to memorize.

However, the lines on it were too complicated and too many. Although it seemed to be a symmetrical pattern, it was actually not, so it was not that easy to memorize.

Fortunately, he had the Demon Purification Pot, which could memorize it for him.

So, after about half an hour, a string of data emerged in Han Fei's mind:

"Book of Ocean" (Unrated)

Remarks: Arrays are like invisible mystic threads, hidden between the heavens and the earth. The Book of Ocean incorporates millions of arrays that are interlocked and contain endless changes. Digesting the array map can be considered an initial success in the array study.

Disadvantages: The array map is not the essence of the Book of Ocean

Deduction: Unable to deduce

"Wow!"

Han Fei gaped at the pattern. *Then Book of Ocean? A line is an array? Seriously?*

Wasn't this giant door equivalent to a patchwork of countless arrays? Besides, the lines can be interlocked, thus deriving new arrays.

Is this even more advanced than the "Spirit Gathering Scripture"?

Han Fei was quite sure. Although the "Spirit Gathering Scripture" contained many arrays, it was incomparable with this Book of Ocean.

The countless arrays fused into one picture.

Although he didn't know what arrays were contained in this array map, if he studied it every day, over time, his array skills would definitely be improved a lot.

As for why it was unrated? It must be because this was actually not a 'book' but a 'map'.

For ordinary people, this thing was almost useless.

However, for those who were studying arrays, the Book of Ocean was a precious treasure, which was even more precious than any Divine Weapon.

Buzz!

Suddenly, a glaring light burst out from a certain spot on the door, and Han Fei rushed over.

However, only halfway through, an inexplicable suction came at him. When the white glaring light dissipated, he found himself in a circular building that spanned 100 meters and was about half the size of a football field.

It was no longer more than 800 meters high, but rather no more than 50 meters high.

On the ceiling, there were no gems inlaid, and the surrounding walls were made of bluish stones. This building looked just like an igloo.

The floor was made of an ordinary bluestone slab, but there were many cracks on it, and there was nothing in this building.

The only difference was that on the arched bluestone walls, there were as many as 12 large small iron-fenced arches.

"Where is this place?"

Han Fei had a bad feeling.

Why did it feel like a Colosseum here?

Yes, not even an arena but a Colosseum.

Except that there were no spectator seats, it looked exactly like a small ancient Roman Colosseum.

"F*ck!"

Han Fei was speechless. *Are you kidding me... This is a site from countless years ago. There can't be any living creatures here, right?*

Crackle, Crackle, Crackle!

Han Fei saw an iron fence slowly rising, and there were thumps on the ground.

Every time there was a thump, Han Fei's eyelids twitched.

"Damn it!"

When Han Fei saw a burly figure more than ten meters tall appearing in the Colosseum, the corners of his mouth twitched. *A bear?*

Han Fei was stunned. This bear was not a living creature, but an ice bear, covered with a lot of snow. With eyes glowing blue, it howled at Han Fei.

"Roar~"

Han Fei landed, put away Little Gold, and then hooked his finger at the ice bear, saying, "Are there any living people here? What is your intention to send a pile of ice to fight me?"

Boom, Boom, Boom!

As soon as Han Fei shouted so, the giant ice bear roared and rammed at Han Fei.

As far as Han Fei knew, a bear's speed was not fast, and it either bit or stood upright to fight in combat.

Han Fei was so tiny in its eyes that it didn't even bother to stand up but slap Han Fei with its claws.

BAM!

The ground was cracked by its slap.

Han Fei slightly moved his body and evaded its attack without even moving his hands.

Immediately afterward, a big mouth bit at Han Fei. Han Fei easily avoided it again.

"Huh! It's so much like a real bear, no matter in movement or posture... Hey! Anyone around? Come out!"

"Huh?"

Suddenly, Han Fei frowned as he saw a huge paw pat from the sky.

"Wow! Does this ice bear even have a combat skill? And it can even attack with spiritual energy?"

Han Fei's fist glowed gold and he immediately threw out a punch. The huge impact made Han Fei take a step back, but that paw was shattered by Han Fei.

"No, this is a bear, a real bear."

"Hoooooo!"

The ice giant bear roared and sound waves rolled in all directions.

Han Fei felt a slight tingling pain in his head, and he exclaimed in shock, "Soul attack?"

Han Fei realized that he had underestimated the ice bear. This giant ice bear was so powerful and even knew how to attack the soul, although it was just a pile of ice!

“Howl!!

When the giant bear stood up and pounced on him again, Han Fei roared, and suddenly a big fish appeared in his hand, a Horizontal Fish.

“Purr~”

This giant ice bear immediately froze, staring at the big fish with its deep blue eyes.

Han Fei squinted and threw the Horizontal Fish to it.

The giant ice bear caught the fish, held it with its two big paws, and began to gnaw on it.

As I expected, the bear's body is made of ice, but its soul belongs to a real bear.

If he had honey here, he could have tried the bear again.

Han Fei shouted at the sky, “Hey! So, is this palace actually a Colosseum? This bear should have been dead for countless years, but its soul is still here... So it isn't really dead, right?”

However he got no response, Han Fei was puzzled. “Is there really no one here?”

The giant ice bear was eating the fish crazily. However, with a chomp, one of its teeth chipped, making it dumbfounded.

Stunned for a while, it continued to gnaw, but with a click, its tongue fell off.

Without the tongue, it couldn't enjoy the delicious food anymore.

Therefore, the giant ice bear began to get irritable, beating the ground frantically with its paws, and then stared ferociously at Han Fei again.

Han Fei sighed. “Poor bear, you'll be better off dead! Let me put you out of your misery.”

Bang! Bang! Bang!

Han Fei's golden fist shadows bombarded the ice giant bear to pieces.

After all, there was a huge gap in strength between him and the ice bear. If it were the ice giants several hundred meters high, it would be a different story.

This giant bear was only as tall as ten meters or so. It was simply a breeze for him to kill it.

When the giant ice bear shattered, Han Fei saw the faint blue fire in its eyes floating in the air, flicking and fading away.

“Huh? What is that? A soul?”

Before he had time to think about it, another iron railing was pulled up.

Han Fei turned around and saw a slender figure less than one meter tall, walking out of the darkness agilely.

“A cat? A leopard? A lion?”

The monster’s body resembled a cat’s, but its face looked like an ugly dog face, not cute at all.

Han Fei sneered, “Am I supposed to fight the beasts in these dozens of cages? Interesting. How about releasing them all at once?”

Swoosh!

The big cat jumped out at a speed that was more than ten times faster than the previous giant ice bear.

Han Fei sneered and slightly tilted his head, letting a paw pass his face only several centimeters away.

BAM!

Shattering the big cat with a punch, Han Fei sneered. “I’d like to see who is teasing me.”

Chapter 689: Soul Splitting Technique

Han Fei discovered that although these ice sculptures had souls, they were too weak.

The weakest one’s strength was equivalent to that of a peak-level Dangling Fisher, and the strongest seemed to be only comparable to an advanced Hanging Fisher in strength.

But this still shocked Han Fei. It must have been billions of years, but their souls still had such a strong combat power! How strong would they be if they were still alive?

Bears, big cats, rhinos, and ferocious dogs...

None of them could beat Han Fei. When all the 12 iron-fenced arches had been opened, above his head, a crack suddenly appeared.

Han Fei didn’t hesitate and jumped directly through it.

At the moment when Han Fei jumped up, a cold light shot at the place between Han Fei’s eyebrows.

Han Fei’s face changed drastically, his head raised, and he stomped, drawing a Six Spirit Armor array, and at the same time put on an ultra-quality battle suit and activated a spiritual energy protective cover.

Crack!

Both the Six Spirit Armor array and spiritual energy protective cover were shattered.

However, it bought some time for Han Fei.

Han Fei suddenly swung the Water Dividing Seal.

With a clang, a white figure flew past.

Only at this moment did Han Fei find that it turned out to be an iceman, a person entirely made of ice.

Just like the previous creatures, the iceman had two blobs of blue light in his eyes. Holding two ice cones in his hand, he looked like a hunter, quite a strong one.

Just now, if it weren’t for Han Fei’s fast reaction, he would have been killed now.

As far as speed was concerned, this iceman was almost comparable to Xia Xiaochan.

Han Fei's eyes narrowed. "Hey! If your soul is still there, you should be able to understand what I say. How about telling me which era you are from, how long this palace has existed, and whether this ocean was once land..." he said.

Swish!

Before Han Fei could finish speaking, the hunter rushed at him again and the speed was even faster than before.

Because he was an iceman, in theory, he couldn't use many combat skills.

This restrained him, causing him to lack combat skills despite his fast speed.

Buzz!

Immediately afterward, one ice cone after another slammed towards Han Fei from all directions. This seemed to be the only combat skill the iceman could use.

Han Fei snorted and stood still, letting the ice cones fall on him.

The ice cones shattered at the moment they fell on Han Fei. They couldn't even penetrate Han Fei's battle suit, not to mention hurt him.

Han Fei sneered. "Why don't we have a talk? Look at you, you have been trapped in this dark place for billions of years. Don't you even think about going out? When we get out of here, I can catch a Half-Mermaid for you and your soul can live in it. What do you think?"

However, the ice hunter was not moved at all and pounced on Han Fei once again. His footwork was quite peculiar, which even dazzled Han Fei.

Han Fei blocked his attacks with a pair of daggers. "Hey! I don't imagine you've had an easy life! Don't make me kill you."

Clang, Clang, Clang!

"How stubborn you are! Fine, go to hell!"

SWISH!

Hundreds of Blue Sea Wandering Dragon Daggers suddenly slammed out, cutting the ice hunter into pieces.

Han Fei kicked the broken ice on the ground and spat. "Humph, is this what you wanted? Satisfied?"

After the hunter died, another crack opened in his head.

Han Fei sneered. "F*ck, are you kidding me? Can't you give me a break?"

This time, Han Fei made enough preparations, having Little Fatty attach to him, putting on an ultra-quality battle suit, and activating a spiritual energy protective cover.

Even if there were more powerful ice sculptures on the upper levels, he wouldn't be afraid.

He jumped to the next level and was about to block the attack, only to find that nothing happened.

When he landed on a platform, he found that there was an ice chair not far away and a dead man in an ultra-quality battle suit was sitting on it!

This man sat cross-legged, was leaning backwards on the ice chair, with a hand supporting his chin. Had it not been for his stiff, pale skin, Han Fei would have thought this person was still alive.

In front of this person, there was an ice table with a fish skin map and a jade slip on it.

Upon seeing this, Han Fei put away the Blood-Drinking Knife, walked straight over, and glanced at the man.

It was a young man in his 20's. In fact, Han Fei couldn't tell his age because strong people could maintain youth easily.

For example, the mayor of the Heavenly Desolate City looked almost the same age as Han Fei, but he had actually already had 187 sons and daughters.

Han Fei casually touched the fish skin map on the table, and when he found that it was not damaged, he picked it up and looked at it.

...

"I don't know who will see these words, but it'll probably be many years later. Am I right? Are you a human or a sea monster?"

In the Age of Doom, stars fell, mountains crumbled and the sea flooded the land. The vast land where we have been living for generations is about to be submerged. Where can the billions of living beings be going?

Therefore, the strong made a huge ship, floating on the boundless sea, but we were nostalgic for our homeland and refused to leave. The Master of the Snow God's Temple fought seven battles with the sea clan but failed to reverse the human race's fate. Since then, there are only a few people left in the Snow God's Temple.

We've decided to shut down the Snow God's Temple and be buried with it under the sea. It is our hope that human explorers can cross the vast sea and pass down human inheritance.

I don't know who is reading this letter now. No matter if you're from the human race or the Sea Clan, you can take this Soul Splitting Technique since you've passed the examination. This is the essence of the Snow God's Temple. Please use it properly!

Haha,

Besides moonlight and snow, you are the third color of the world. Master, wait for me."

...

After reading this letter, Han Fei was lost in a reverie.

Vast land? Submerged by the sea?

Is this place called the Snow God's Temple? No wonder there is ice and snow everywhere. What a tragic story! Tsk...

Han Fei didn't bother to think about the sea clan, the huge ship, or whatever else.

He was just thinking about one thing: if no one survived back then, where did the present human beings come from?

However, this indirectly confirmed a fact. That was, once in this world, there was not only an ocean, but also vast and boundless land.

Later, something unknown happened, causing "stars to fall, mountains to crumble and the sea to flood the land," as described in the letter.

But Han Fei didn't care about this now. When he saw the animal ice sculptures, he had already guessed it.

Now, his conjecture had just been confirmed.

What Han Fei cared about was this Soul Splitting Technique.

What kind of combat skill was this? Was it because of this technique that those ice sculptures could fight?

Han Fei immediately picked up the jade slip and scanned it with his spiritual power.

A change happened right at this moment.

When Han Fei's perception scanned this jade slip, something happened suddenly.

A terrifying phantom, following his spiritual power, went straight into his mind.

"F*ck!"

Han Fei was horrified. *Fake... This Soul Splitting Technique is fake!*

In the next second, he felt his soul shake and a voice rang in his mind, *How many years it has been! Someone finally has come here! Master, when I possess this person, I'm going to find you.*

Han Fei roared, "Get out!"

Haha! It's too late. How can you resist our Snow God's Temple's Soul Splitting Technique... Ouch... How is it possible?! What the hell is this?

In Han Fei's mind, the Demon Purification Pot suddenly rotated, and its two green vines pulled out a phantom from nowhere. In that phantom, a human face was changing and roaring.

Impossible, impossible... How can you have such a strange treasure? Let me out... Please...

At this moment, Han Fei, like a bystander, was watching this scene.

It wasn't until the soul of this person was dragged into the Demon Purification Pot that Han Fei recovered from the horror.

“Oh my sea god!”

“Damn, I was so scared! If it weren’t for Master Calabash, I would have been killed!”

Han Fei was horrified. *What an old fox! So this letter was nothing but bullsh*t... Be buried with the Snow God’s Temple under the sea?! The third color of the world?! F*ck you! You b*stard!*

Infuriated, Han Fei took a breath and kicked the dead man to the ground. He kicked so hard that the ice table was kicked to the wall.

“Son of a b*tch, I was almost swindled by you...”

Han Fei drew a long breath but then suddenly frowned. “Oh, no, Tang Ge...”

Chapter 690: Here Comes Han Fei

Han Fei immediately looked up to see if there were any doors on it. However, there was no door but an array map on the wall of this room.

Han Fei grabbed the ice table and threw it at the map.

However, the table disappeared.

“Just as I guessed.”

...

On the other side, in a huge space full of white mist, there was a spring hole with water bubbling up, from which white mist kept erupting.

Near the spring, five people were fighting.

Ye Xiangxiang was fighting two Half-Mermaids. On the other side, Su Hongye, who was injured, struggled to fight another Half-Mermaid.

Su Hongye was seriously injured and didn’t have time to treat her wound, so she could hardly resist the mermaid’s attacks.

If she hadn’t transformed into red leaves all over the sky, she would have been stabbed to death.

At this moment, the Half-Mermaid tried to pierce Su Hongye with a harpoon when a red leaf floated to his ear.

“Puff!”

Blood spurted out, and one ear of the Half-Mermaid was cut off. When Su Hongye reappeared, she was already 30 meters away.

Su Hongye shouted, “Go in first. Don’t worry about me.”

Ye Xiangxiang said firmly, “No! Too many people have died. I’m not going to let you die!”

“Hooo!”

Ye Xiangxiang roared and six lights flashed. Six Ye Xiangxiang clones began to attack the two Half-Mermaids crazily.

The speed was so fast as if the six clones were all real copies of Ye Xiangxiang.

Of course, everyone knew they were not. It was just that Ye Xiangxiang's speed was so fast that every time a clone attacked, she moved there almost simultaneously.

"Defense."

"Cage of Water."

The two Half-Mermaids were attacking Ye Xiangxiang, disregarding their own safety, but even if they were wounded, they still couldn't kill this human girl.

This girl's combat power was strong indeed!

At this moment, the two of them tried to lock Ye Xiangxiang into layers of water cages. Not as destructive as Han Fei and Tang Ge, Ye Xiangxiang couldn't break the water cages for a moment.

After all, as a hunter, her best quality was assassination.

This also applied to Xia XiaoChan.

Although Ye Xiangxiang had given a full play to her strength, she still couldn't kill any of the three Half-Mermaids.

However, when the water cage appeared again, Ye Xiangxiang flashed and disappeared. And the Half-Mermaid fighting Su Hongye suddenly turned around. The harpoon in his hand shone with white glaring light, and he shot out three spikes.

Clang, Clang, Clang!

Ye Xiangxiang's figure appeared, turned over in midair, and threw a dagger at the Half-Mermaid.

However, after that, when she wanted to launch another attack, she suddenly froze.

Su Hongye's face changed drastically. "Not good! Retreat, come on!" she shouted.

Red leaves drifted all over the sky, and the entire space was full of killing intent. The other two Half-Mermaids also rushed over and the three of them joined forces to attack Ye Xiangxiang.

Ye Xiangxiang's face sank immediately. She gritted her teeth, ready to fight them desperately.

She had only this last chance. If she had enough spiritual energy and time, she might win.

But at this moment, she had fought hard for a long time and had been protecting Su Hongye at the same time, causing her spiritual energy to be consumed extremely fast. Although she had swallowed a spiritual fruit, it was not enough

"Humph, you made me do this... Star..."

BAM!

Just when Ye Xiangxiang was about to sacrifice herself to solve these Half-Mermaids, a table suddenly popped up in mid-air, which stunned everyone.

What the hell is this?

Why is there suddenly a table here?

“Who is it?”

Immediately, a Half-Mermaid threw a spear in the direction where the table appeared. The spear was full of spiritual energy, and the power of this blow could definitely nail an intermediate Hanging Fisher to death.

However...

Clang!

“Which as*hole hit me?”

Han Fei’s face was all dark. He was completely caught off guard.

He didn’t expect such an attack on him at all when he jumped out of the door! Fortunately, that spear stuck in his belly, but the Six Spirit Armor and the spiritual energy protective cover on his body were directly pierced.

Upon seeing Han Fei, Ye Xiangxiang’s first reaction was to shout, “Come on, help me!”

While Su Hongye’s first reaction was, “Damn, Duan Jiang, run!”

On the opposite side, the three Half-Mermaids were relieved when they saw Han Fei coming in.

Then, a Half-Mermaid said to another, “Go kill this spirit gatherer.”

One of the mermaids pounced on Han Fei, so fast that it seemed to have thousands of shadows, and a huge fishtail whipped at Han Fei.

In his opinion, a spirit gatherer could do nothing but setting up a defense array or something. He could easily whip him to death with his tail.

However, at this time, a chill knife light appeared in front of him in an instant.

“Puff!”

The half-mermaid was directly split into two before he realized what happened.

Swish!

Su Hongye was dumbfounded, *Aren’t.. Aren’t you a spirit gatherer? Where did that horrible knife light come from? Is there someone behind you?*

Su Hongye’s first reaction was to look behind Han Fei.

Ye Xiangxiang’s first reaction was to rush to Su Hongye, pull her up, and back away.

Ye Xiangxiang said, “Han Fei, I’ll leave this to you.”

Han Fei's second knife light had already been shot out. At the same time, more than 100 Blue Sea Wandering Dragon Daggers, like roaring flying dragons, pounced on another Half-Mermaid.

As the Half-Mermaid hurriedly fused with his companion spirit in horror, a huge scorpion tail was thrust at Han Fei's knife light.

However, the knife light disappeared with a swish and was already before his eyes when it reappeared.

"Puff!"

A barrier suddenly rose.

Han Fei sneered. "An amulet? I'd like to see how many you've got!"

Swish, Swish, Swish!

Nine chains shot into the air, buckling the huge scorpion tail. A wave of water had already wrapped up the Half-Mermaid. Dense water jets erupted, and dazzling knife lights swept across the entire space.

"Puff, Puff, Puff!"

The Half-Mermaid's amulet was shattered before it held on for less than two minutes.

Just as the mermaid was about to be strangled to death, the third half-mermaid suddenly activated a secret method and appeared in front of Han Fei with a swoosh.

Ye Xiangxiang and Su Hongye shouted at the same time, "Watch out..."

At this time, however, Han Fei had already attacked. The Sacrificing Punch was blasted on the opponent's harpoon with overwhelming power.

Han Fei blocked the ultra-quality spiritual harpoon with his fist, directly bending the harpoon.

An amulet appeared. However, under the impact of the Sacrificing Punch, it didn't even last a second. Immediately afterward, the Half-Mermaid was also crushed.

"Gulp!"

Su Hongye swallowed. "Did you just call him 'Han Fei'?"

Ye Xiangxiang immediately covered her mouth. Oh, she spilled the beans!

But Han Fei had exposed his real strength by killing three Half-Mermaids almost in a minute.

With this strength, Su Hongye wouldn't believe that Han Fei was Duan Jiang.

Han Fei came to the two of them, showering the Divine Healing Technique on them and wisps of spiritual energy were pouring into the two of them.

At this moment, Han Fei was covered in blood and was shrouded with a suffocating murderous aura.

Su Hongye's brain was already muddled. A spirit gatherer, who she thought needed protection, easily killed three Half-Mermaids... Did it take him three minutes? Not even!

"Where is Tang Ge?" Han Fei asked directly.

He must find Tang Ge as soon as possible to make sure he was not hurt by that damn Spirit Splitting Technique. Otherwise, the consequences would be unimaginable.

Ye Xiangxiang was about to speak when she suddenly widened her eyes and looked behind Han Fei.

Ye Xiangxiang cried, "Immortal Seal."

Han Fei frowned and was going to hack out behind him. However, the energy had already approached and it was too late.

A figure jumped directly into the spring hole in the center.

Ye Xiangxiang said anxiously, "There, they all went in from that place."

Han Fei took a breath, grabbed a blob of Candle Dragon Blood, stuffed it into his mouth, and then swallowed two energy fruits.

In an instant, energy surged in Han Fei's body and the surface of his body was steeped in spiritual energy.

Han Fei showered a Divine Healing Technique on the two of them once again and said, "OK, when you feel better, take some healing pills. I'm going first..."

"Wait a minute!"

Su Hongye stopped Han Fei.

Han Fei turned around. "???"

Su Hongye said, "Xu Mo rebelled against us and surrendered to the enemy."

Han Fei was impatient. "I saw that. Anything else? If not, I'm leaving."

Ye Xiangxiang shouted after him, "Wait a minute! The other party has a Heavenly Talent with a Divine Weapon, and two slightly weaker Heavenly Talents, plus Xu Mo. There are four of them..."

Without looking back, Han Fei jumped into the spring hole. "I see. By the way, if anyone mentions Soul Splitting Technique to you, don't believe them."
