Chapter 731: The Great Deceiver

Han Fei realized a problem. He suspected that the Demon Purification Pot would not give information of high-intelligent or humanoid creatures unless in certain special situations.

For example, Han Fei didn't see any information from the two Half-Mermen at all.

However, he had seen Yang Ruoyun and Mo Qianshang's info earlier. Was it because they were about to transform?

Hiding in the crab shell created by the Metamorphosis Water, Xia Xiaochan stared at the two sea demons coldly. "I asked you a question! Do you know how a sea demon can turn into a human being?"

Both of the Half-Mermen shook their heads. "No."

Between them, the Half-Merman named Little Six sneered. "Even if I did, I wouldn't tell it to a human being."

Han Fei looked at Xia Xiaochan and said telepathically, *It's fine even if you show up. They'll be killed sooner or later. Let's see if I can use your identity to help.*

Xia Xiaochan nodded. The crab shell suddenly vanished, and Xia Xiaochan floated above the spring of demonic Qi in her original form.

The two Half-Mermen were dumbfounded by what they saw.

"Hiss! Is she... A sea demon?"

"She's a... Lady from the royal family?"

The two Half-Mermen looked at each other in shock.

They had never seen a sea demon as classy as Xia Xiaochan before!

She was... Stunningly beautiful!

Her scales were emitting a fascinating brilliance, and her fin clothes were fluttering like colorful ribbons. Was she really a sea demon?

Pa... Pa...

Han Fei slapped both of the Half-Mermen. "How disrespectful of you to not kneel before the Holy Lady! Do you want more slapping?"

"The Holy Lady?"

The two Half-Mermen were dumbfounded at this moment.

Xia Xiaochan looked much more dignified than Lady Yu Ji. At the very least, Lady Yu Ji wasn't so majestic, nor did she have such beautiful scales.

Han Fei turned their heads around. "The Holy Lady has been hiding among the human beings with unbelievable techniques since childhood. Do you know the turmoil in the sea a couple of days ago? The Holy Lady disrupted human beings' scheme on her own, but she was also reduced to her original form. You two morons, on your knees."

The two Half-Mermen knelt before Xia Xiaochan, although still confused.

At this moment, only the Hexagon Starfish was rolling its eyes.

It was truly unfortunate of the two Half-Mermen to run into Han Fei. Almost as unfortunate as the starfish itself!

One of the Half-Mermen looked at Han Fei and asked, "Who are you?"

Han Fei replied coldly, "Me? I'm the Holy Lady's guardian. I may be a human being, but it was me who protected the Holy Lady on the way here. Do you see that the Holy Lady is treating her wounds with demonic Qi? Have you seen anyone else who can cultivate in this place?"

The two Half-Mermen were stupefied. A human as the guardian of a sea demon? Why did it sound so preposterous?

Little Six asked, "We know that this lady must be from the royal family of the sea demons. Doesn't the royal family have any technique for human transformation?"

Han Fei looked at him as if he were an idiot. "What royal family? The Holy Lady is the Sea King's descendant. There's a Holy City in the boundless sea, and the Holy Lady came from there. Also, the Holy Lady has been living with human beings, so she doesn't know any secret techniques of demons. Where are your brains?"

The other Half-Merman gasped. "The Holy City? Isn't the capital the biggest city?"

Pa!

Han Fei slapped him again. "The Holy City has 13,500 districts the size of the capital. You think your capital can compare to the Holy City?"

"Hiss!"

The two Half-Mermen were completely overwhelmed. 13,500 districts? Wasn't that too many?

Xia Xiaochan glimpsed at Han Fei. This man was quite a bragger and liar. She had become a Holy Lady and the Sea King's descendant in the blink of an eye. Did the man even know who the Sea King was?

The two Half-Mermen wavered. On one hand, they were vigilant of Han Fei, who was a human being.

But on the other hand, Xia Xiaochan was truly an awe-inspiring figure who could directly make use of the demonic Qi barrier.

Lady Yu Ji once tried to do the same, but the demonic Qi in her body was disrupted after she persisted for only a hundred seconds. She had to quit.

Little Six asked one last question, "If she is the Holy Lady, why didn't she just talk to our boss?"

Han Fei rolled his eyes and looked at him in disdain. “The Holy Lady has a powerful bloodline. One drop of her blood can awaken creatures, and two drops can turn creatures into demons. However, she’s greatly wounded at this moment. What if your boss becomes malicious after seeing her? All you need to know is that if you confess the method of human transformation, the Holy Lady will be able to return to the human beings. Any rewards that she gives you afterward will be extremely helpful to you.”

Han Fei instantly said to Xia Xiaochan telepathically, *Let them take a look at the True Spirit Demonic Scripture. We’ll get it back later.*

Standing proudly in the middle of the chaotic demonic Qi, Xia Xiaochan threw out a jade slip.

Xia Xiaochan said proudly, “It couldn’t have been easy for you to cultivate. I’ll bestow a technique upon you. It was created by the Sea King himself. In three years, you will likely become Sea Spirits.”

“Huh! Sea Spirits?”

Little Six and the other Half-Merman quickly accepted the jade slip and browsed through it, only to be shocked.

The first Sea King manipulated the natural rules, wrote a secret book, and hosted it in the sky and on earth?

So that all creatures could participate in demonic cultivation?

It contained the methods of cultivation for sea demons?

Also, it was unmistakably a heaven-level technique. Neither of them had ever seen or heard about this True Spirit Demonic Scripture before.

They were no idiots. This technique was simply too powerful, so powerful that their body was still shivering.

Immediately, both of them bowed to Xia Xiaochan and had no more intention of resistance.

“Thank you for your gift, Holy Lady. We swear to follow you with our lives.”

Pa!

Han Fei slapped them again. “Do you not know how lowly you are? You think you deserve to follow the Holy Lady? The True Spirit Demonic Scripture is already her grace to you. Why don’t you confess the technique of human transformation right now?”

Neither of the sea demons liked Han Fei, who, just like every other human being, was mean to sea demons. How many times had he slapped them?

They would’ve already tried to kill him, if it weren’t for the Holy Lady’s sake or the Spirit Forbidden Net...

Little Six said, “Thank you for your grace, Holy Lady. Unfortunately, neither of us have learned the method of human transformation yet!”

Holy Lady’s eyes widened. “You haven’t? But that’s the only technique that the Holy Lady needs.”

Little Six said, “But we don’t have any human transformation technique!”

Han Fei couldn't have felt more terrible. However, he didn't expect that he could get it so easily either. It would be fine if he learned the name of whoever had such a technique from them. He could try to capture them later.

Nevertheless, if the two Half-Mermen really didn't have any insight, he might as well kill them first.

But exactly at this moment, a Half-Merman said, "We only have a human simulation technique."

Han Fei's eyes glittered, and he roared furiously, "Then why don't you take it out already? The Holy Lady can easily get the technique of human transformation by deducing that technique!"

The Half-Merman's mouth widened. "Is that possible?"

Han Fei sneered. "The Sea King manipulated the natural rules to enlighten all lives. Do you think his descendants are good for nothing? Take it out."

"Wait a moment. Let me copy it."

A moment later, the Half-Merman took out a jade slip, still confused.

He wondered how talented the Sea King must've been. Was the Sea King's Secret Technique that he practiced created by him? So, it couldn't be hard for the Sea King's descendant to deduce a technique.

Xia Xiaochan's eyes bulged and winked. She couldn't believe that Han Fei really elicited them out of the technique.

Han Fei accepted the jade slip and scanned it. A series of information popped up.

Low-Level Human Simulation Technique (Spirit-Level, Mid-Quality)

Introduction: This is a technique for a sea demon to copy human beings' behavior and impersonate them. Practicing this technique can increase the power of their battle techniques.

Superseding Art: Advanced Human Simulation Technique

Deduction Cost: 0/500,000

Han Fei couldn't have felt worse after seeing this technique!

Han Fei had always thought that the mutual transformation between a human and a fish would be possible if the Fish Transformation Technique was inferred to the highest level.

But he realized that he might have been mistaken. The highest level of the Fish Transformation Technique was to turn into a demon. So, if a sea demon wanted to turn into a human being, shouldn't there be a Human Transformation Technique?

Therefore, there should be two sets of techniques, and he thought that one set of techniques could solve the problem...

Han Fei felt like vomiting blood, as this technique required only 500,000 points of spiritual energy to deduce, and it was merely spirit-level, mid-quality.

"Son of a b*tch. My experience turns out to be wrong."

Little Six glimpsed at Han Fei. “Human being, why are you still not submitting the human simulation technique to the honorable Holy Lady?”

Han Fei nodded. “Not bad. You two are not bad at all. The Holy Lady will remember you.”

“Puchi!”

The Blood-Drinking Knife was drawn out, and Han Fei cut the two Half-Mermen quickly. He changed his attitude faster than a shooting star!

The Hexagon Starfish shivered hard as it watched the whole scene.

It knew that they were probably doomed the moment they presented the human simulation technique!

However, it didn’t expect Han Fei to be so quick and brutal as to eliminate them in the blink of an eye.

Han Fei took out their Sea Swallowing Seashells, found the True Spirit Demonic Scripture, and threw it back to Xia Xiaochan.

Xia Xiaochan quickly ran to him. “What about it? Does it work?”

Han Fei grinned. “Yes, there shouldn’t be a problem, but I have to do some deduction first.”

Chapter 732: Demon Spirit Shift

Xia Xiaochan lost her cool when she heard that Han Fei needed to do more deduction. “There is more work to do?”

Han Fei waved his hand and said, “It’s very simple. Look at the technique. It’s just a spirit-level one. There won’t be a problem.”

Xia Xiaochan sat down in front of Han Fei. Because her lower half body had turned into a tail, she had to move her tail aside when she sat down.

She didn’t care about Han Fei’s eyes that were fixated on her tail at all. She simply stared at him and asked, “Do you have any deduction techniques that may get you hurt when you use it?”

Han Fei raised his eyebrows. “Why do you say that?”

Xia Xiaochan narrowed her eyes and stared at Han Fei. “I should’ve discovered it sooner. Earlier, Uncle Faceless mentioned that she gave you a low-level disguise technique, but what did you give me? The Thousand Faces Technique, which is demon-level, divine-quality.”

Han Fei cackled. “I got that by accident!”

Xia Xiaochan tilted her head, not convinced. “What about the Majestic Mystic Spell? It’s demon-level, divine-quality too. Would you have gotten a heaven-level, divine-quality technique if you had stayed on the Scattered Stars Island longer?”

Han Fei was rather awkward. To be honest, he had really considered upgrading the Majestic Mystic Spell after the trip to the Snow God’s Temple.

However, he was still on the Scattered Stars Island back then.

If he upgraded the technique, it might increase five times his strength when he used it, which would make him too unbelievable and high-profile.

Now that Xia Xiaochan reminded him, Han Fei thought that it was truly necessary for him to deduce the Majestic Mystic Spell!

However, after he ran some calculation, he found that he was still too poor.

He needed ten million points of spiritual energy to deduce the Majestic Mystic Spell, and he only had slightly more than forty million in total. Who knew how much it would cost to deduce the Human Simulation Technique?

Xia Xiaochan gazed at Han Fei. "So you've got nothing to say? You do have a deduction technique, and it has side effects?"

Han Fei replied timidly, "Would you believe me if I say that the side effect is that it requires abundant spiritual energy?"

Xia Xiaochan's eyes bulged. "You're finally admitting it? Don't you have tens of thousands of spiritual fruits?"

Han Fei silently gave a jade slip to her.

Confused, Xia Xiaochan accepted it and took a look. Then her expression changed.

"Demon Heritage Divine Technique?"

"Heaven-Level, Divine-Quality?"

"Hiss! It can break the barriers in your system and give you a Demon Heritage that can infinitely grow?"

Xia Xiaochan's eyes widened. "Did you get this through deduction too?"

Han Fei wondered if he should present the Demon God Scripture. But on second thought, the Demon God Scripture was definitely not an unusual technique, considering its one-billion cost, which was much more than that of a usual technique.

The Indestructible Body merely cost a hundred million.

Void Fishing cost a hundred million too. Maybe it would require more in the next level. But when would he need that? Probably not until he became a peak-level Hidden Fisher.

Han Fei thought for a moment. "Don't be excited. I only deduced this by chance."

Xia Xiaochan was lost for words. "Why can't I get something like this by chance?"

However, Xia Xiaochan was not an idiot.

The introduction of the Demon Heritage alone suggested that it wasn't simple. If it could break the barriers in one's body, it wasn't a technique that anybody could have created.

Xia Xiaochan felt sorry for him. "Did you spend all your spiritual fruits on the deduction of this?"

Han Fei coughed and said, "Well, more or less!"

Xia Xiaochan asked, "You even vomited blood during the deduction?"

Han Fei said in embarrassment, "That was just an accident."

Xia Xiaochan turned her head aside. "Idiot."

Han Fei patted her tail and said, "Go and keep training. Try to finish the transformation sooner. I think they've found that the two Half-Mermen are missing. It's only a matter of time that they find us. Right, when you feel that you're done with training, see if we can dig a tunnel out from the bottom of the spring of demonic Qi..."

Xia Xiaochan asked in shock, "A tunnel underneath the spring of demonic Qi? You are a human being. You can't possibly endure the demonic Qi."

Han Fei smiled casually and said, "I'm fine. It's fine for me to absorb it. Worst comes to worst, there's still Mr. Hexagon Starfish. I can hide in its gates, and you can take it out through a tunnel from down below."

Hexagon Starfish rolled its eyes. "I can't! I can't eat so much demonic Qi!"

Han Fei snapped, "Shut up! If I say you can, you can! You also have arrays. It should be a problem for you to endure for a while."

Han Fei then turned around and looked at Xia Xiaochan. "You go and transform the demonic Qi. You'd better finish the transformation before they find us, or we won't be able to find more demonic Qi for you."

The Hexagon Starfish added, "Actually, it's possible to transform spiritual energy into demonic Qi."

BAM!

Han Fei threw a stone at it. "Why are you so talkative? You think you can do anything?"

"Puchi!"

Xia Xiaochan was amused by them and then moved into the spring of demonic Qi. "If it's impossible to deduce it, don't try too hard. We can always catch more Half-Mermen when we're outside."

...

Han Fei didn't even need to think to know that the Advanced Human Simulation Technique was merely a simulation but not a real human being, so Han Fei deduced it without hesitation.

Immediately, information popped up.

Advanced Human Simulation Technique (Demon-Level, Low-Quality)

Introduction: This is a technique for a sea demon to copy human beings' behavior and impersonate them in a more vivid way. Practicing this technique can increase the power of their battle techniques.

Superseding Art: Low-level Shapeshifting Technique

Deduction Cost: 0/2,000,000

Han Fei was truly delighted, as the price was merely two million. Although it was actually not cheap to infer a demon-level, low-quality technique with two million points of spiritual energy, it was still much more affordable than the Fish Transformation Technique.

“Deduce.”

This time, Han Fei didn't bother to read the information. The low-quality Shapeshifting Technique, being low-level, couldn't be suitable yet, and needed more deduction.

Therefore:

Han Fei spent five million to get the Advanced Shapeshifting Technique based on the low-level Shapeshifting Technique.

He then spent another ten million to get the Demon Shift Technique from the Advanced Shapeshifting Technique.

To Han Fei's surprise, he finally got what he wanted!

He got what he failed to achieve with all his fortune earlier at a cost of merely twenty million points of spiritual energy at this moment!

Information popped up in his eyes.

Demon Shift (Heaven-Level, Mid-Quality)

Introduction: This is a transformation technique for a sea demon to turn a body into human beings' and practice most of the human battle techniques. They'll be basically the same as human beings after they're familiarized with the body system of human beings.

Superseding Art: Unknown

Deduction Cost: 0/20,000,000

Note 1: It's easy to be seen through. Demonic Qi may be revealed during battle, when it's hard to keep the disguise.

Note 2: Requires a Spiritual Heritage above level-six.

Han Fei couldn't be more excited. It was finally here again! This Demon Shift was obviously immature. Then its next level would definitely be fine.

As for a level-six Spiritual Heritage?

Hehe. Xia Xiaochan had a growing Spiritual Heritage in the first place. He didn't know what her level was exactly, but since she had become such a perfect mermaid, her Spiritual Heritage must be above level-six.

“Keep deducing.”

Demon Spirit Shift (Heaven-Level, High-Quality)

Introduction: This is a transformation technique for a sea demon to turn a body into human beings' and practice most of the human battle techniques easily. They can engage in most professions of human beings and look no different from them.

Superseding Art: Unknown

Deduction Cost: 0/50,000,000

Note 1: The original form may be exposed in a crisis. It's very hard to tell unless it's exposed on purpose.

Note 2: Requires a Spiritual Heritage above level-seven.

"Phew!"

Han Fei rose and grinned. He was about to inform Xia Xiaochan of the good news, when he saw abundant demonic Qi flowing into Xia Xiaochan's body.

Han Fei simply pulled the Hexagon Starfish and asked, "What happened here?"

The Hexagon Starfish rolled its eyes quickly. "I don't know! I think she's voluntarily absorbing the demonic Qi, isn't she?"

Han Fei asked furiously, "What do you mean you think? Is she or isn't she?"

The Hexagon Starfish replied, "She is!"

Han Fei sat down at the entrance of the cavern. "Okay, let's just wait for her."

While he waited, Han Fei copied the Demon Spirit Shift by the way, hoping to give Xia Xiaochan a surprise after she completed the transformation.

He waited for a day and a night.

Xia Xiaochan hadn't woken up yet, but Han Fei sensed the quakes on the wall.

His expression changed greatly. "Not good. How can they be coming already?"

Han Fei looked quite awful. At this moment, Xia Xiaochan was still cultivating. There might be dire consequences if she was disturbed.

Six hours later, the wall trembled harder and harder.

Suddenly, Han Fei sensed that someone had just scanned his body.

"Shoot! An expert!"

Han Fei's expression changed greatly. He hadn't detected the enemy yet, but the enemy might have already found him!

What did it mean? It meant that the enemy had keener senses than he did!

Not that Han Fei was narcissistic, but he didn't think any Hanging Fishers had a wider perception range than he did!

Even the Hanging Fishers usually couldn't sense something twenty kilometers away. In any case, it meant that the enemy was at least a Hanging Fisher, and not a beginner one.

Han Fei instantly gritted his teeth and stuck the Hexagon Starfish to his shoulder. He said with cold eyes, "Seed, it's all up to whether or not we can weather through the demonic Qi. If I die, you'll die too... Let's do this!"

The Hexagon Starfish asked in fright, "What are you doing? Noooooo..."

Shua!

Han Fei simply entered the spring of demonic Qi.

...

Up above.

A Half-Merman expert roared, "Damn it! It's really a human being! They're trying to break the demonic Qi barrier! Get out of the way! I'll dig down there in person!"

Boom...

Chapter 733: Treasures Underneath the Spring of Demonic Qi

Han Fei didn't know who was pressing through the mountain.

However, the guy was very strong. He must be a boss among the Half-Mermaids.

Just one strike from him had made stones fall in the tunnel. It nearly penetrated the mountain.

Han Fei grunted when he reached the center of the spring of demonic Qi. As the demonic Qi entered his body, Han Fei felt that his eyes became bloodshot.

Inside his body, the spiritual energy and the demonic Qi collided heavily and hurt him.

"Seed, keep it up!"

Han Fei had absorbed demonic Qi with the seed earlier, but that was when the demonic Qi infiltrated his body while he was unconscious.

This time, Han Fei consciously directed the demonic Qi to the seed, only to find that the demonic Qi was beyond his control. It was easier to deal with a tiny amount of demonic Qi, but such a huge amount of it made Han Fei's mouth and nose bleed.

Fortunately, after Han Fei was hurt, the seed began to revolve slowly and absorb the demonic Qi.

But to Han Fei's surprise, not just the seed, but the Demon Essence pearl in his body started glowing too. Han Fei couldn't help but wonder what that pearl was exactly.

Han Fei knew that its name was Demon Essence.

The master of the Snow God's Temple once informed him of that.

He had never known how to make use of the Demon Essence... Until it started acting on its own at this moment.

Han Fei instantly dragged Xia Xiaochan with the Water Control Technique and bellowed, "Attach!"

Because Xia Xiaochan had dug demonic stones earlier here, there was a pit inside the cavern in the first place, and Han Fei combined with the nine chains and drilled down into the pit.

Boom!

The stomach was struck again. Han Fei sensed that the wall was already exploding.

He was greatly shocked.

This Half-Merman was so fast! Was he from a family of professional diggers? Even a driller couldn't have been as fast as him!

However, the moment he spread out his senses, Han Fei discovered that they were all crushed by the violent demonic Qi, so he couldn't tell when the enemy would break in at all...

"Forget it, I'll just dig down first."

Shua! Shua! Shua!

Han Fei was so anxious that the Blue Sea Wandering Dragon Daggers all left his body and dug the pit with the Ten Thousand Knives in One Technique.

Boom!

The belly of the stomach was opened, and a Half-Merman who wore a golden battle suit looked down coldly.

Behind him, the relatively weak Half-Mermen, under the shock of the demonic Qi, all retreated.

The Half-Merman declared, "Those below the level of sea demon, back off. The rest of you, activate the Sea King's Secret Technique, put on your battle suits, and turn on the water shield!"

In front of the Half-Merman boss, a glowing barrier was blocking the demonic Qi.

He was quite confused, wondering how a human being could have resisted such violent demonic Qi.

As a matter of fact, Han Fei couldn't really resist it.

He was digging so crazily in the pit like a human-shaped drill... No, even a real drill wouldn't have been as fast as him.

Han Fei discovered, to his surprise, that there were a lot of demonic stones down below.

There were low-quality, mid-quality and high-quality demonic stones, and even a few ultra-quality demonic stones. Han Fei instantly realized why the demonic Qi was so turbulent in this place.

"Come here!"

Han Fei didn't refuse them. While the demonic stones were useless to them, it would be faster for him to dig when they were absorbed by Forge the Universe.

Also, apart from the Hexagon Starfish, Little Black and Little White, the others such as the Nine-Tailed Mantis Shrimp all turned slightly rampant after absorbing them.

There were so many demonic stones that even he was almost going crazy. He simply threw all of them into Forge the Universe, to reduce the demonic Qi as much as possible.

Thousands of demonic stones were taken into Forge the Universe by Han Fei. As a result, the violent demonic Qi inside the mountain was greatly weakened.

"My lord, is he really a human being? Why do I feel that he isn't?"

"My lord, he has passed the demonic Qi barrier. He can't possibly survive that, can he?"

The leading Half-Merman frowned. "The demonic Qi here is too violent for me to detect the surroundings. However, whether he's a human or a demon, he's dead for sure. Nobody can survive such violent demonic Qi..."

"My lord, is it possible that he's a top expert?"

The Half-Merman shook his head. "Unlikely. If he were a top expert, he wouldn't run at all after seeing us. If he were capable of passing the demonic Qi barrier, it would've been more than an easy task for him to annihilate us. It's too late to inform the Ten Thousand Demon Valley now, or the experts from there can surely tell who he is."

...

Han Fei had thought that it couldn't have been easy for the enemies to locate him in such a huge mountain which blocked all senses.

Yet, those people had found him after only slightly more than a day.

It seemed that he had underestimated the Half-Mermaids after all.

At this moment, Han Fei's muscles were tightened. Even though the seed in his body was revolving and the Demon Essence was flashing, absorbing the demonic Qi crazily, Han Fei's whole body still started to bleed under the push of demonic Qi.

At this moment, Xia Xiaochan slowly woke up. She knew what was going on the moment she saw that Han Fei was covered in blood but still digging down crazily.

She cried anxiously, "Big starfish, open your gate."

The Hexagon Starfish was not in the best condition either. Its six eyes were unfocused, and it kept throwing arrays onto itself and Han Fei, hoping to block or escape the demonic Qi.

However, things didn't quite go as planned. It could block some demonic Qi, but not all of it.

At this moment, the Hexagon Starfish's six tentacles were squirting demonic Qi like flamethrowers. They discharged all the demonic Qi it absorbed. That was quite an unusual talent!

After Xia Xiaochan cried out, the Hexagon Starfish came back to itself and glowed in purple light. In the next moment, Han Fei was packed into a gate by the Hexagon Starfish.

Xia Xiaochan split some of the Metamorphosis Water and covered up the Hexagon Starfish. She also created a giant Mess Swallowing Worm with the Metamorphosis Water to take over Han Fei's job.

Actually, Han Fei had already dug deeply enough. Xia Xiaochan thought that they could change the direction after digging another hundred more meters. Then, it would take the Half-Mermen a long time to track them...

Although this area had probably been locked down, it was not a problem for Xia Xiaochan to escape with the Metamorphosis Water!

Even without the Metamorphosis Water, no sea demons could possibly catch up with her as soon as she went to the surface of the sea and escaped on the Wind God Boat.

However, after Xia Xiaochan just dug fifty meters, her eyes were filled with a green glow, which was a large area of Spirit Awakening Fluid. She was completely dumbfounded.

The Hexagon Starfish was shocked. "We're getting rich! There is so much Spirit Awakening Fluid!"

Unfortunately, Han Fei was hiding in the Hexagon Starfish's gate and crazily digesting the demonic Qi. He emanated weird redness, and he looked like a bloody man.

After the area was dug open, the Spirit Awakening Fluid flowed out and soon surrounded Xia Xiaochan and the Hexagon Starfish.

Also, the Spirit Awakening Fluid was still popping up.

The Hexagon Starfish quickly loaded the Spirit Awakening Fluid into its gate. Seeing that Han Fei was rather badly wounded, it simply poured a handful of Spirit Awakening Fluid on him.

"Chila!"

When the Spirit Awakening Fluid encountered the weird demonic Qi in his body, Han Fei felt that a basin of cold water was just poured over his head. He shivered and opened his eyes.

"Pu!"

Han Fei vomited blood. A tremendous amount of Spirit Awakening Fluid was entering his body and soothing the demonic Qi with a mysterious power.

There was less redness in Han Fei's eyes. He asked in surprise, "Where is the Spirit Awakening Fluid from?"

The Hexagon Starfish said, "We've fallen into a pit of Spirit Awakening Fluid. There's nothing but Spirit Awakening Fluid here. I'll repay you ten thousand kilograms first."

Han Fei was stunned. "A pit of Spirit Awakening Fluid? Weren't we inside a spring of demonic Qi? How did we come to a pit of Spirit Awakening Fluid?"

Han Fei quickly said, "Open the gate and let me out."

“Huh? What about the demonic Qi?”

Han Fei examined himself, only to discover that the seed and the Divine Essence were still crazily swallowing the demonic Qi. Also, the Spirit Awakening Fluid was neutralizing the demonic Qi and increasing his resistance to it. They seemed to be modifying and bettering his body.

Han Fei assured him, “I’m fine. Open the gate. Don’t even think to monopolize the loot.”

The Hexagon Starfish was lost for words. It couldn’t possibly monopolize so much Spirit Awakening Fluid!

At this moment, the Hexagon Starfish saw that Xia Xiaochan was also absorbing the Spirit Awakening Fluid crazily after she fell into it.

So, the Hexagon Starfish opened the gate and urged him. “Hurry up, or there won’t be any for you left.”

“It’s gone?”

Han Fei blinked out of the gate, only to be shocked in the next second. How much Spirit Awakening Fluid was out there?

Han Fei saw that Xia Xiaochan was floating in the Spirit Awakening Fluid with a blue halo around her, from which steam was popping up.

Noticing that the Hexagon Starfish was loading more Spirit Awakening Fluid into its gates, Han Fei instantly slapped it. “Stop and let Xia Xiaochan absorb it first.”

Han Fei spread out his senses and looked around. He found that the Spirit Awakening Fluid wasn’t as much as he had anticipated, but there was definitely more than a hundred thousand kilograms of it.

The Hexagon Starfish had stolen at least twenty thousand kilograms of the Spirit Awakening Fluid in such a short amount of time.

The Hexagon Starfish didn’t feel wronged. It had claimed a lot anyway. If it didn’t digest it quickly, Han Fei would loot it sooner or later...

So, the Hexagon Starfish simply stuck itself to Han Fei and absorbed the Spirit Awakening Fluid.

Seeing that Xia Xiaochan was crazily absorbing the Spirit Awakening Fluid, Han Fei thought that she probably wouldn’t be affected if he made use of ten thousand kilograms of it. He had developed the Demon Spirit Shift anyway.

So, Han Fei simply summoned Little Fatty, Little White, Little Gold and Little Black.

All of them were dumbfounded by what they saw, wondering how their master got rich.

They swallowed the Spirit Awakening Fluid crazily the second after they were out.

Han Fei’s eyes flashed. He didn’t expect to find so much Spirit Awakening Fluid during his digging. If things turned out as planned, all of them were going to become level-40!

Chapter 734: Appearance of the Heavenly Cicada

When Han Fei and the others absorbed the Spirit Awakening Fluid, the Half-Mermen up above were shocked too.

“There’s Spirit Awakening Fluid underneath the spring of demonic Qi?”

The Half-Merman leader and his subordinates all gasped. It was a secret that even they did not know!

After all, none of them could weather through the spring of demonic Qi.

The Half-Merman boss roared, and waves spread out. Although he couldn’t come in, he was a top expert anyway and it wasn’t hard for him to fight over the Spirit Awakening Fluid.

So, while Xia Xiaochan, Little Black, Little White and the others crazily absorbed the Spirit Awakening Fluid, Han Fei suddenly realized that tens of thousands of kilograms of Spirit Awakening Fluid was pumped up.

Immediately, he got anxious and tried to block the well with the Infinity Water. He also planned to stock the Spirit Awakening Fluid in Forge the Universe if he didn’t have a choice. He wasn’t going to give it away to the Half-Mermaids anyway.

It all happened very fast. After only one minute, Han Fei saw that the Nine-Tailed Mantis Shrimp had a breakthrough, Little Black and Little White were emitting weird brilliance, and Little Gold seemed about to make a breakthrough too.

The Spirit Awakening Fluid inside the pit dwindled at a visible speed.

Han Fei couldn’t have felt more regretful. All of them were greedy gourmets!

Up above, seeing that he couldn’t pump it up anymore, the Half-Merman burst into rage. “Shameless human being, I’ll put ten thousand harpoons into you after you come out.”

He roared, “All of you, get out and lock down the Sea Demon Mountain both here and on the surface! Not a single fish is allowed to get out.”

“Yes, my lord!”

All the Half-Mermaids accepted the order. They were all excited to know that there was Spirit Awakening Fluid underneath the demonic Qi barrier. It must be noted that there were a lot of places like the Sea Demon Mountain.

This was not the only place that had a demonic Qi barrier!

If the news spread out and the sea demons dug out the Spirit Awakening Fluid, they would be greatly strengthened. It would even be possible for them to become Sea Spirits and great demons.

Inside the pit.

Han Fei saw that Little Black and Little White had stopped absorbing the Spirit Awakening Fluid. The two creatures swam around him, as if they were performing a ritual for the breakthrough.

Little Fatty had eaten so much that it was filled up. It seemed to be making a breakthrough too.

The Nine-Tailed Mantis Shrimp and Little Gold were both level-38 earlier, so they were relatively slow. However, they had both reached level-39, and considering their speed, they might get into level-40 soon.

However, there was less and less Spirit Awakening Fluid left in the pit. The Half-Merman pumped ten thousand kilograms away, the Hexagon Starfish stole some, and Little Black, Little White and Xia Xiaochan had been swallowing crazily. At this moment, only half of the Spirit Awakening Fluid was left.

“Gudu!”

Han Fei felt regretful just looking at it. At this moment, the Spirit Awakening Fluid was being pumped away in tons!

He wanted to store some for himself, but for some reason, Xia Xiaochan was still swallowing it.

Anyone in such a situation could tell that Xia Xiaochan wasn't simple.

Earlier, Han Fei only swallowed several thousand kilograms, and he already felt that he hit the limit and the Spirit Awakening Fluid couldn't improve himself anymore.

He didn't feel that the Spirit Awakening Fluid was useful again until the demonic Qi invaded his body just now.

But Xia Xiaochan was different. She kept sucking and sucking without any stop.

After several minutes, Han Fei saw that there were twenty thousand kilograms of Spirit Awakening Fluid left. The Nine-Tailed Mantis Shrimp and the others had all stopped swallowing, but Xia Xiaochan still was.

Han Fei gritted his teeth and covered all the remaining Spirit Awakening Fluid on Xia Xiaochan with the seawater.

The Spirit Awakening Fluid disappeared at a visible speed, and Xia Xiaochan became more and more brilliant.

“Zhi...”

All of a sudden, Han Fei heard a noise that came from Xia Xiaochan's body.

“Zhi? What does that mean?”

“Zhi...”

The noise came again.

Han Fei tried to prick his ears. He was sure that it wasn't Xia Xiaochan who was talking!

“Zhi...”

After only one moment, there was only ten thousand kilograms of Spirit Awakening Fluid left.

Han Fei was quite worried that it was not enough for Xia Xiaochan.

Han Fei shouted, “Mr. Hexagon Starfish, discharge the Spirit Awakening Fluid for Xia Xiaochan to use.”

The Hexagon Starfish also knew that it was a critical moment and offered ten thousand kilograms to Xia Xiaochan generously.

Han Fei glanced at it. "Don't drink the rest yet, in case it isn't enough."

"Zhi..."

Han Fei: "???"

Han Fei was quite bummed. What was that supposed to mean?

BAM!

All of a sudden, a horrifying and holy light burst out from Xia Xiaochan's body, knocking Han Fei, the Nine-Tailed Mantis Shrimp, and the others away into the wall.

"Zhi... Liao..."

At that moment, time and the sea seemed to be frozen.

Han Fei felt that a sound that came from an extremely distant land echoed in his ears.

What Han Fei didn't know was that the Half-Merman boss up above fell on his knees the moment he heard the sound. His heart trembled with indescribable fear.

At the same time, Old Bai, who was far away in Blue Sea Town, suddenly heard a sound from the sky.

"Zhi... Liao..."

Old Bai suddenly rose from his chair and said in shock, "How can she be so fast?"

On the Scattered Stars Island, Xue Shenqi raised his head and looked at the sky, before he asked in confusion, "What's that sound? It covers hundreds of thousands of square kilometers."

In the Thousand Star City, many people were searching for the source of the sound too.

Countless people were looking at the sky from various places.

Someone exclaimed, "Huh? What's that sound?"

Someone laughed. "It must be some guy making fun. I've never heard that sound before."

Some top experts were astounded. "What an astonishing sound. Where is it from?"

Someone stood in the void and performed divination. Then they became solemn. "This sound matches natural rules and covers a wide range. Who is it? Is an unparalleled expert going to emerge among human beings?"

...

Billions of kilometers away, inside a splendid palace, a middle-aged man suddenly opened his eyes.

"This is a disgrace of our family... That bastard is still alive... Find her and kill her."

After the middle-aged man said that, hundreds of streaks of light dispersed from the sky.

...

Outside of the Scattered Stars Island, beyond the boundless sea, in the distant sky that nobody knew where it was.

“Zhi... Liao...”

When the sound echoed, a young man suddenly opened his eyes.

“The Heavenly Cicada has been born... Is it her?”

After he said this, he walked forward, and he reached the boundless sea after merely one step.

“Zhi... Liao...”

The young man frowned. “It’s the second sound.”

The young man stepped again and appeared in the terrifying waters. A dragon that was thousands of meters long attempted to tear apart the stranger.

However, the young man pointed his finger, and the roaring dragon was instantly crumbled into a rain of blood.

As if he had done something trivial, the young man made a third step.

After this step, the young man had already crossed the boundless sea and appeared in a place that was peaceful and tranquil.

“Zhi... Liao...”

After hearing the third sound, the young man frowned even harder.

“There’s no time. When a Heavenly Cicada appears, it lets out three world-shaking hums. I have to find her before the third sound dies down.”

As he spoke, while the young man’s own body still stood there, a shadow left his body, tore apart the space, and disappeared in the blink of an eye.

...

Inside the cave in the Sea Demon Mountain.

Han Fei vomited blood. He knew that something huge would happen the moment the cicada hum echoed.

He saw that a cicada-shaped shadow was flapping its wings above Xia Xiaochan’s head.

It was merely a cicada, yet it was most sacred in Han Fei’s eyes, as if nothing else in the world was as holy as that.

“Gudu!”

Han Fei saw that a pair of transparent wings was unfolding on Xia Xiaochan’s back...

Xia Xiaochan clearly seemed to be struggling.

She then opened her eyes slowly, only to see that Han Fei was staring at her in shock.

Xia Xiaochan seemed slightly confused. "What's wrong?"

Han Fei's eyelids shivered. Then he quickly said, "Look at your side."

At a loss, Xia Xiaochan turned her head aside, only to be astounded by the wings on her back. Had it not been for the colorful brilliance on the wings, she wouldn't even have recognized them.

Xia Xiaochan looked at Han Fei, stunned, and said with tears, "Why have I grown wings too?"

Han Fei stepped forward and came to Xia Xiaochan. "Don't panic. It's not a big problem. You're probably not fully evolved yet. Here, I've just found a way for you to turn into a human. You can practice it first, so that we can go back to the Scattered Stars Island."

Then, Han Fei took out the Demon Spirit Shift and gave it to Xia Xiaochan.

Han Fei knew that this thing was big, and that he'd better go back and ask for Old Jiang's help.

Yes, he decided to use the last resort.

He didn't think it could be kept a secret anymore, and he needed to find someone who could protect Xia Xiaochan.

Boom...

However, the moment after Han Fei said that, the wall cracked, and the whole mountain fell apart.

If it merely fell apart, Han Fei might have thought that it was the result after he and Xia Xiaochan drained the Spirit Awakening Fluid in this place.

However, what happened next made him realize that it wasn't so simple...

It was because the whole mountain was flying away.

Chapter 735: Princess Mingzhu

Han Fei was as stunned as Xia Xiaochan was!

The huge mountain that stretched for more than eight hundred kilometers was flying. Who had possibly ever seen that?

The Half-Mermaid experts who hadn't left the Sea Demon Mountain all fell on their knees and even prostrated themselves. They wanted to stand up, but they simply couldn't.

At this moment, they were all frightened, and they wanted to know what happened. The Half-Merman boss, withstanding the unknown pressure, shouted, "Are you an expert from the capital? I am Yu Lian, your subordinate..."

However, nobody responded to him from the void.

However, pressure descended within a three-thousand-kilometer radius of the Sea Demon Mountain and crumbled all the sea demons in the range.

Hum!

The mountain was moved into a void, which was so cold that a lot of Half-Mermen were frozen.

Han Fei and Xia Xiaochan, on the other hand, didn't feel too much except that it was slightly cold.

Han Fei swallowed. He knew that there was a situation, but he didn't know that it was so big!

He looked at Xia Xiaochan and struggled. He didn't think that Old Bai or Old Jiang could've relocated a mountain.

It meant that a super expert that was even stronger than them was doing something.

This super expert would have only come because of Xia Xiaochan.

After all, what happened to her was too astonishing.

She didn't look ordinary at all.

If a top expert came here, what was his purpose to meet Xia Xiaochan?

Xia Xiaochan wasn't from the Blue Sea Town. She might be hiding from something.

In any case, Han Fei felt that they probably had a battle to fight.

However, it was obviously that he and Xia Xiaochan couldn't possibly defeat the guy.

Han Fei took out the golden battle suit and gave it to Xia Xiaochan. "You can put on this battle suit first."

Xia Xiaochan clutched Han Fei's arm and asked, "What about you? What will you wear?"

Han Fei put on his own golden battle suit. "I have one too."

Xia Xiaochan said in panic, "Let's run on the Wind God Boat!"

Han Fei quickly nodded, but the Hexagon Starfish rolled its eyes. "We can't. It's all forbidden. We can't even leave this tiny hole."

Han Fei was greatly shocked to hear that. He attempted to jump up, only to be smacked down by a beam of light.

Han Fei was dumbfounded. "Son of a b*tch! Don't panic. I have other solutions."

Han Fei decided to hide in the Demon Purification Pot with Xia Xiaochan. He was willing to expose the Demon Purification Pot as long as they could survive this crisis. He could always lie that he had mastered a new technique.

As it turned out...

Han Fei tried to summon it, only to discover that the Demon Purification Pot refused to respond.

Han Fei angrily shut his eyes, hoping to bring out the Demon Purification Pot.

Then, Han Fei felt that ten thousand Iron-Head Fish stampeded over his heart, as the Demon Purification Pot had vanished.

Yes, there was no telling where the Demon Purification Pot was, but it was simply gone.

“Damn it...”

Han Fei took a deep breath and tried to calm himself down.

What else had he got? What else...

“The Sky Dissecting Finger!”

Han Fei’s eyes flashed. Yes, the Sky Dissecting Finger. It’s his last card.

However, Han Fei saw that he had only no more than six million points of spiritual energy left. He was instantly panicked.

The Sky Dissecting Finger could only be used with more than ten million points of spiritual energy. He didn’t have enough!

Han Fei quickly asked, “Xia Xiaochan, do you have any spiritual fruits left?”

Xia Xiaochan shook her head. “No, I gave all of them to you.”

Han Fei glanced at the Hexagon Starfish. “What about you? We’re in the middle of a crisis. Give me all the spiritual energy you have.”

The Hexagon Starfish was lost for words. “Why do you think I have so much spiritual energy? There’s nothing but glittering stones in my treasury.”

Han Fei knew that he had asked the wrong guy. What spiritual energy could the Hexagon Starfish have? It always asked him or Xia Xiaochan for that.

At this moment, there was nothing left in the cave except the Spirit Awakening Fluid.

What could the Spirit Awakening Fluid do at this moment? The Spirit Awakening Fluid couldn’t be used as spiritual energy...

Han Fei decided to risk it even though his spiritual energy wasn’t enough. He had the Immortal Seal anyway.

However, Han Fei forgot that the Sky Dissecting Finger was inside Forge the Universe. He tried to summon it, only to find that Forge the Universe was gone too.

While Han Fei was anxious, he suddenly felt that the Sea Demon Mountain was falling.

BAM!

A mountain eight hundred kilometers long falling into the sea. What did that mean? A huge tsunami was raised.

Crack!

BAM!

The peak where Han Fei was at exploded all of a sudden, as if someone had just cut off its cap.

At this moment, Han Fei saw that a Half-Merman expert was shivering on his knees not far away.

But that was not important. On the other hand, Han Fei saw a man walking unhurriedly close from the seawater.

That was an extremely handsome young man. He had a tall and straight body, and he wore a charmingly evil smile. He casually walked dozens of meters in front of Han Fei and Xia Xiaochan.

“It’s true that you’re still alive, but I didn’t know you were hidden in such a distant and desolate place. My dear little princess, I’m going to take you home.”

“Huh?”

Xia Xiaochan held on to Han Fei’s arm tightly. She was very scared at this moment.

Han Fei, on the other hand, looked at Xia Xiaochan in surprise. So, the stranger wasn’t an enemy!

Han Fei was greatly relieved. Everything was easy as long as the man wasn’t an enemy.

Xia Xiaochan muttered, “I’m not a princess; I’m just a regular human being.”

The young man’s lips curved into a beautiful smile, and he said in a magnetic and unhurried voice. “What an interesting answer. To some extent, you are indeed a human being, but you’d better abandon that identity, because many people want to kill you after the Heavenly Cicada shakes the world. You won’t be safe unless you come with me.”

Xia Xiaochan pulled Han Fei back and said in panic, “I-I’m not leaving. My home is here. I won’t go.”

The young man casually looked at Han Fei and the Half-Mermen who were on their knees.

The young man asked with a smile, “Little princess, are they your subordinates?”

Xia Xiaochan subconsciously shook her head.

The young man smiled casually. “Very well. Even if they were, you still can’t take them away. They can die now!”

The Half-Merman leader trembled like a sieve, but he could not utter a single syllable as he was caught in overwhelming fear.

The young man didn’t move at all, and ripples spread out underneath his feet and swept across the Sea Demon Mountain.

To Han Fei and Xia Xiaochan’s shock, the Half-Merman boss’s body and bones simply melted...

It was like a basin water washing away a muddy spot. The whole process couldn’t be easier.

Han Fei was instantly shocked. He didn’t know the Half-Merman’s level, but the Half-Merman had pressed through this mountain not long before and was definitely much stronger than him.

Yet, the Half-Merman was nothing in front of this young man, who didn’t even need to lift a finger to kill him.

Han Fei didn't know that more than five hundred Half-Mermaids were killed at the same time in exactly the same way as their leader. They all thawed like snow and died without leaving anything behind.

As if he had just done something trivial, the young man looked at Xia Xiaochan with a smile. "Little princess, is this human being your friend?"

Xia Xiaochan shivered and stopped before Han Fei, while she stared at the young man stubbornly.

The man was simply too strong, so strong that Han Fei and Xia Xiaochan couldn't even think to fight him.

Even the Demon Purification Pot had hidden away from him.

The young man smiled. "You're not bad to be recognized by the little princess as a friend! You're rather weak. You could live if you hadn't witnessed the appearance of the Heavenly Cicada."

Han Fei was shocked when he heard that. Was the man going to kill him?

Xia Xiaochan roared too, "Don't touch him... I... I command you not to touch him."

The young man smiled and gently tilted his head.

In the next moment, Xia Xiaochan was frozen. The seawater seemed to have turned into a cage that made it impossible for her to move.

The young man chuckled creepily, "You are indeed a princess, but it doesn't mean you can command me! It's not an easy task to take you back. You should know that those who want to kill you are very strong..."

Xia Xiaochan struggled hard. "Stop! You can't kill him! He's my boyfriend... Wu, wu..."

Xia Xiaochan's mouth was sealed. The young man raised a finger and waved it before his mouth. "Tsk, tsk, tsk. Little princess, you can eat whatever you want, but don't say whatever you want. How can he be your boyfriend?"

"Hooooooo!"

After a roar, the illusionary of the Giant Arowana appeared, and Xia Xiaochan broke the seal on her mouth. "If you dare to kill him, I'll kill myself."

"Huh? Giant Arowana?"

The young man instantly smiled. "No wonder, no wonder... So, you've awakened the Giant Arowana too. That's great. I'm very confident to ensure your safety now."

Xia Xiaochan's eyes were cold. "I can go with you if you set him free."

Da!

The young man snapped his fingers. Xia Xiaochan's mouth was sealed again, and the Giant Arowana was gone.

The young man slightly shook his head. "Princess Mingzhu, I'm not sure you understand the situation well. He has to die! You can get back at me, or even try to kill yourself, later. But right now, he really has to die."

Chapter 736: I Want To Fight You

Han Fei's heart became cold when he heard that. He felt that he would be killed for sure.

However, he also confirmed that Xia Xiaochan would be fine.

So, the key was to save himself at this moment. He kept calling the Demon Purification Pot in his heart.

"Mr. Calabash, there's still time for me to get in. Let me enter Forge the Universe!"

"Mr. Calabash, I really can't defeat this one!"

"Mr. Calabash, give me some reaction! What's in it for you if I die?"

The Demon Purification Pot was silent for a long time, and Han Fei had a strong headache.

Countless thoughts rolled in his head. Why did the Demon Purification Pot not come out? Was it scared of being discovered?

Or rather, was Forge the Universe not really indestructible in front of real experts, but could be conquered too?

In any case, there must be a reason why the Demon Purification Pot didn't appear.

If it was impossible to count on the Demon Purification Pot, what could Han Fei count on? Snowmourne?

Han Fei knew that it was impossible after giving it some thought. Snowmourne was powerful but not invincible. He didn't think he could hurt this man even if he were to inject all his spiritual energy into it.

Nevertheless, Snowmourne could be his last resort. If he got killed, the Sea Quelling Bizarre Treasure would be useless to him, so he might as well try it before he died...

What Han Fei regretted most was his lack of spiritual energy. He thought he could try his luck if he had the Sky Dissecting Finger.

But of course, since the Demon Purification Pot was gone and the Sky Dissecting Finger was kept in Forge the Universe, it was impossible for him to use the Sky Dissecting Finger.

Han Fei clenched his fists and suddenly remembered the ring on his finger.

"Senior Time, can you help me?"

"Senior Time, I'm a very promising man. I will treat the young Dragon of Time well."

"Senior Time..."

Unfortunately, the ring showed no reaction and completely ignored Han Fei.

Han Fei heaved a sigh. He couldn't possibly count on the Hexagon Starfish, which was already pretending to be dead.

But what was the point of pretending to be dead at this moment? To fool itself?

Han Fei heaved a sigh. "Mr. Hexagon Starfish, you'll follow Xia Xiaochan in the future. Go over there."

Xia Xiaochan was still struggling and weeping. She felt that Han Fei had already given up when he set the starfish free.

Han Fei looked at the man and said, "I don't know who you are, but the Hexagon Starfish is a mysterious creature and boasts countless inherited arrays. It's extremely rare. Can it go with Xia Xiaochan?"

The young man looked at Han Fei with a smile. "You're finally giving up? Okay. The Hexagon Starfish is truly extraordinary and rare. It can come with the little princess."

Han Fei helplessly took out the essence of the Hexagon Starfish and gave it to him. "I was going to contract you for a few more years, but forget it. Here's your life essence. Off you go!"

The Hexagon Starfish quickly rolled its eyes. "Han Fei..."

Han Fei shouted angrily, "Go over there, or I might regret my decision and let you die with me!"

Han Fei simply pulled off the Hexagon Starfish and put it on Xia Xiaochan.

The young man quite appreciated that. "In fact, you would be quite a nice guy if we were somewhere else. I shouldn't kill you, but you have to die. You've witnessed the appearance of the Heavenly Cicada. If you don't die, the little princess will be in grave danger, and someone will come to find you sooner or later."

Han Fei asked, "What about the Immortal Seal?"

The young man shook his head. "It's a petty trick that's not worth mentioning."

Then, he slightly nodded at Han Fei. "I sincerely thank you for taking care of the little princess. So, you can tell me your last wish."

Han Fei asked coldly, "I can ask you for anything?"

The young man shook his head. "Don't press too far. I won't get involved in the war between human beings and demons."

Han Fei looked at Xia Xiaochan and suddenly said, "Do you remember our last day in the level-three fishery? We were hunted in the Tornado Sea and you had an attack... Whatever you see later, just remember that it will be just like last time, but you might not be there to see it."

Xia Xiaochan's eyes bulged. She didn't know whether or not she should trust him.

At that time, she thought that Han Fei was killed, but it was actually merely his clone. Han Fei said that it was a low-quality Divine Weapon.

But could it be the same this time?

Han Fei said again, "Trust me."

Then, without looking at Xia Xiaochan anymore, Han Fei stared at the young man. "I don't have any last wish, but I feel frustrated and want a fight."

After that, Han Fei pointed his Blood-Drinking Knife at the young man. "I want to fight you. Of course, you have to suppress your level in the battle."

The young man was briefly stunned.

"Hahaha..."

He laughed crazily as if he were crazy. "Interesting. I didn't expect to meet someone as interesting as you in this desolate part of the world. You want to fight me before you die? You're really interesting... I accept."

The young man stepped forward, and his aura was lowered to that of an intermediate Hanging Fisher, exactly Han Fei's level.

He put on a smile and said creepily, "Bring it on."

Han Fei said, "Wait a minute."

"What's wrong? I just felt that you're interesting. Don't disappoint me!"

Han Fei's face was cold. "Tell me your name."

The young man thought carefully for a moment. "You don't deserve to die although you have to. You're qualified to know my name. Remember that you're killed by Chun Huangdian. That's an honor."

"Chun Huangdian?"

Han Fei secretly laughed. What kind of name was that? It sounded like a technique.

But Han Fei remembered the name deeply.

"Attach."

"Majestic Mystic Spell."

Little Fatty was attached to him in the next second.

Hum!

The seawater spread out. Han Fei wasn't scared anymore because he would surely die. There was nothing but craziness in his eyes.

Shua! Shua! Shua!

"Ten Thousand Knives in One."

Two hundred Blue Sea Wandering Dragon Daggers were boosted to their highest speed at this moment. They gathered into a tide that rolled at Chun Huangdian.

Unfortunately, Chun Huangdian moved his hands hundreds of times with an uncanny body-moving technique.

Every time he pointed his finger, one of the Blue Sea Wandering Dragon Daggers would be broken.

While attacking casually, Chun Huangdian said, "You can't possibly hurt me with such a technique unless you really have ten thousand ultra-quality spiritual weapons with sealed souls. You're just limited by your eyesight. This technique is just ordinary. It's far away from that of a Heavenly Talent. What else have you got?"

Han Fei calmed down and concentrated all his spiritual energy in one attack.

"The Draw Technique!"

Han Fei already went mad after performing the attack. The Blood-Drinking Knife was crumbled, and a terrifying aura five meters long landed before the young man.

Chun Huangdian quickly stepped back with approval in his eyes. At the same time, the most dazzling light burst out of his fingers.

He clutched Han Fei's knife light with those fingers. The aura of the knife was split into halves at the young man's fingertips, crushing all the stones nearby.

Chun Huangdian remarked casually, "That attack wasn't bad. It contains a bit of the invincible fighting intent. Unfortunately, it's not the real Art of Invincibility. Considering that attack, you're not bad among the younger generation."

Han Fei roared, and his fists flashed golden light. Pictures rolled in his head, and he punched out the golden fists. Each punch seemed to be an exile of himself and a stubborn declaration.

Chun Huangdian smiled. "Tsk, tsk. You do know the Art of Invincibility! Unfortunately... You've only grasped the surface of it. However, you still deserve to be called a talent for that."

Han Fei's Art of Invincibility got more and more powerful. He was moving with the 64-Dimensional Fish Dragon Dance as well as a lot of other body-moving techniques, which made him as agile as a ghost.

The golden fists punched Chun Huangdian from all directions, but Chun Huangdian was moving even more agilely, as if he were in hundreds of places at the same time. Every punch was blocked by Chun Huangdian.

"Not bad. It seems that you've made progress in the Art of Invincibility at this dying moment... You can more or less be called a Heavenly Talent. Is this your best?"

"Hoooooo!"

Han Fei's eyes became bloodshot, and his fist aura turned from gold into crimson. The Sacrificing Punch was launched with an intimidating vibe and determination.

The young man slightly changed his expression after seeing the punch. He was covered in a holy aura with a secret technique.

After all, he wasn't really invincible after he lowered himself to the level of an intermediate Hanging Fisher. He had to be careful in front of the Sacrificing Punch.

Han Fei's Sacrificing Punch could automatically lock onto his target and it was very powerful. Chun Huangdian had realized that the moment it was launched.

No matter how talented he used to be, he was not really invulnerable, so Chun Huangdian finally became careful when faced with the Sacrificing Punch.

"One finger to break the sea!"

Chun Huangdian's fingertip glowed, and the light darted out like the sharpest blade in the world and pierced through the aura of the Sacrificing Punch.

"Coiled Dragon!"

In front of Chun Huangdian, the illusion of an azure dragon hovered and took the remaining power of the Sacrificing Punch. He was pushed two hundred meters back.

Unfortunately, the Sacrificing Punch failed to penetrate the illusionary dragon. It only made Chun Huangdian look more uncomfortable than before.

Han Fei, on the other hand, managed to create a Coiled Turtle Array in time, but it was instantly broken without being able to resist the light for a few milliseconds.

BAM!

His protective jade appeared, but it was instantly broken too.

Han Fei, however, simply ignored the attack. He burnt his blood and essence, and his fists glowed again.

Crack...

His arm was pierced through.

"Puchi!"

A hole appeared on Han Fei's chest. Then, Han Fei completely exploded. His flesh and bones splashed across the lake of Spirit Awakening Fluid in the cave.

Little Fatty failed to resist the attack either. It collapsed along with Han Fei.

But before that, Han Fei had used the Immortal Seal.

Xia Xiaochan wept sadly as she observed the battle.

The Hexagon Starfish shivered hard as he watched all that. It was terrifying! This enemy was so formidable that Han Fei couldn't hurt him at all after using all his ultimate tricks!

Chapter 737: Han Fei's Death

Han Fei didn't know what it felt like to be resurrected by the Immortal Seal until he really used it at this moment.

He found that he wasn't really resurrected. It was just that the moment before he died, a terrifying power dragged his body into a nonexistent space.

His body that crumbled outside was no longer his own, but the Immortal Seal's power, which essentially died in his place.

However, although the Immortal Seal died for him, Little Fatty had really been shattered.

Han Fei saw a gate in the chaotic void. He knew that he would be reborn if he walked through it.

He needed to walk out, and he had to, because a powerful force of attraction was pulling him out.

Besides, his plan was never about himself.

When Han Fei reappeared, Chun Huangdian looked at him with a smile. "In fact, it's fairly easy to counter the Death Replacement Art. However, since you wanted a fight, I'll just grant your wish. Do you have any other methods? Like a naturally-endowed spiritual beast?"

Han Fei said calmly, "My naturally-endowed spiritual beast is a Spirit Swallowing Fish that's incapable of fighting. Launch your last attack!"

Having been faced with death once already, Han Fei knew that he would probably really die this time.

Hum...

The golden auras of his fists were gathering brilliantly as Han Fei burnt his life essence.

However, Chun Huangdian was disappointed by what he saw.

On second thought, he realized that it was understandable. It was already remarkable how strong Han Fei had become on this desolate sea.

It would be outrageous to hope that the man was as strong as the real Heavenly Talents that he had seen.

Chun Huangdian chuckled. "Farewell."

He raised his magnificent finger in a soul-stirring way.

When Chun Huangdian pointed his finger, Han Fei looked at Xia Xiaochan and said, "Trust me."

BAM!

Boom!

Han Fei was going to embrace death, when an illusionary hand suddenly emerged before his eyes. It seemed to have burst out from inside his body.

Han Fei had seen such a hand before, when Old Bai showed it in an attack he performed.

Immediately, Han Fei realized what happened.

At some point, Old Bai secretly planted a Dying Strike in him and his teammates.

He never told him that probably because he didn't want them to be too fearless.

However, Han Fei wasn't thrilled even when he saw this illusionary hand.

He knew that it couldn't be enough to withstand Chun Huangdian's one attack.

As he expected, Chun Huangdian put on a smile of disdain. "Protection from an Explorer... It seems that this place isn't so desolate after all. Unfortunately, you can't save him even if you were here in person."

BAM!

Chun Huangdian regained his strength and didn't suppress his level anymore. He pointed his finger, and Old Bai's illusionary hand exploded.

It was an attack from an Explorer anyway. While Chun Huangdian's attack was mostly blocked, some of its power still leaked out.

Han Fei wondered if this man was an Explorer too.

Han Fei didn't know that the person he saw was merely a soul projection.

The remaining power from the attack still shattered half of Han Fei's body.

Han Fei's chest was half torn apart, and he fell down on the lake of Spirit Awakening Fluid.

At that moment, Han Fei thought that waiting for death truly didn't feel good.

"Huh!"

"Zhi liao..."

When Han Fei really died, Xia Xiaochan went crazy.

The Heavenly Cicada appeared above her head. Weird power burst out, and she broke the shackles.

The power was so terrifying that even Chun Huangdian had to step back and narrowed his eyes at her. "You're truly as promising as I thought."

Xia Xiaochan jumped to Han Fei's body and cried hard.

In her eyes, Han Fei was merely comforting her.

She thought that Han Fei had done everything he could. He had used all the moves that she knew and didn't.

At this moment, Han Fei was lying on the ground lifelessly. How could he survive when half of his body had been crumbled?

Xia Xiaochan suddenly looked back. "Help him! Bring him back to life! I want to take him away with me... Please."

Chun Huangdian saw everything, but he wasn't touched. He simply said casually, "You can't save a man who's completely dead. If you want to reverse the flow of time, you'll have to pay a devastating price. Besides, I'm incapable of doing that."

Realizing that she had no authority over the man whatsoever, Xia Xiaochan said with bloodshot eyes, "If you don't kill me now, I'll definitely kill you someday in the future."

Chun Huangdian shrugged. "Whatever you like, little princess. You can settle the score with me when you're strong enough to kill me. Now, I'm running out of time. It's time to go."

Chun Huangdian had paid a price to find Xia Xiaochan. His own body was still far away on the boundless sea. There was no telling how he instantly reached this place.

However, it couldn't have been an easy and costless task to cross billions of kilometers.

At this moment, Xia Xiaochan was overwhelmed by helplessness.

Devastated?

She was already beyond devastated. It was like her heart was sinking and her soul was breaking.

The only thing that Xia Xiaochan could do was to hold on tightly to Han Fei's broken body.

Chun Huangdian tilted his head and said softly, "Say goodbye to him. It's time to go."

"No..."

As a tear drop ran out of Xia Xiaochan's eyes, her body was grasped, and she disappeared from the sea which seemed to have been enshrouded by the God of Death.

However, even Chun Huangdian failed to notice that her tear glimmered in the dark water and flowed to Han Fei. It didn't disperse but condensed into a bright blue drop of water.

...

At this moment, Old Jiang was preparing his sugar and attempting to cook meat devotedly.

He wasn't bothered by the sound of the Heavenly Cicada earlier, because there was nothing he could do.

Crack!

At this moment, the meat was already sending out a delicious smell.

All of a sudden, Old Jiang stopped his movement after a tiny crack.

Han Fei's life monument had been broken.

Hum!

A killing intent rose straight to the sky from the Twisted Jungle, and an unparalleled array suddenly appeared in the sky.

"Who did that?"

The moment of the outburst, dozens of shadows flashed from the Twisted Jungle, the depths of the Twisted Jungle and the center of the Scattered Stars Island and soon came to his home.

Xue Shenqi, who led all the visitors, looked at Old Jiang and asked, "Senior Jiang, why are you so angry?"

Old Jiang looked around at everybody intimidatingly and said, "I'm going to the sea. I won't show any mercy on whoever dares to stop me."

When everybody's attention was focused on Old Jiang, a person disappeared from the fourth level of the Scattered Stars Prison and went missing.

In the Twisted Jungle.

Xue Shenqi narrowed his eyes. He knew that something great must've happened. The sound of the cicada echoed three times earlier, and then Old Jiang went on a rampage. Was there something he wasn't aware of?

Also, what was the sound of a cicada? Where was it from? Was it related to the Thug Academy?

Old Jiang couldn't have been more enraged. In his eyes, Han Fei's death was almost impossible.

How could Han Fei have died?

When Old Bai gave the life tablets to Han Fei and his partners, he told him that a Dying Strike had been planted in them.

Even if Han Fei was incapable of resisting an enemy who was too strong for him, could he possibly withstand Old Bai's Dying Strike?

Who near the Scattered Stars Island could've possibly neutralized an Explorer's attack?

However, just now, Han Fei had died almost in the blink of an eye, and he didn't sense anything wrong.

What did it mean?

It must've been an attack which crumbled the attack that Old Bai, an Explorer, had sealed.

However, how many people on the Scattered Stars Island, or even the Thousand Star City, were capable of doing that?

While the Twisted Jungle was in a mess and Xue Shenqi considered how to negotiate with Old Jiang, a boat quickly descended from the sky.

The newcomer wasn't weak at all. He was an eight-star expert.

Having no time to care what happened in the Twisted Jungle, he reported in panic, "General, the Sea Demon Mountain is gone."

Xue Shenqi: "???"

Old Jiang: "???"

Everyone: "???"

Xue Shenqi frowned. "Don't panic. What do you mean by 'the Sea Demon Mountain is gone'? Are you talking about the Sea Demon Mountain 130,000 kilometers away? What happened?"

The eight-star expert replied weirdly, "It's really gone. The mountain that stretches for more than eight hundred kilometers has been entirely plucked away! It's nowhere to be seen now."

Xue Shenqi almost tripped over himself. "What did you say?"

Old Jiang and the other experts were shocked too. What the hell was that? A mountain that was more than eight hundred kilometers long had been plucked away?

Everybody looked at each other in shock.

That was too absurd! The mountain was almost half the area of the Scattered Stars Island... It had been plucked away? Was it not a joke?

Xue Shenqi looked at Old Jiang. "Senior Jiang, shall we take a look?"

...

A moment later...

Xue Shenqi and Old Jiang looked at the messy bottom of the sea in shock.

No sea demons could be seen around here, but they sensed that a great number of them had perished here.

What power could've possibly killed so many sea demons without even leaving their bodies behind?

Xue Shenqi said solemnly, "It's indeed been plucked by force."

Instantly, Xue Shenqi changed his expression. "Everybody, search for the mountain within half a million kilometers."

Old Jiang was cold, wondering what secret Old Bai had been hiding.

Naturally, he had heard the sound of the cicada earlier.

But he didn't associate it with Han Fei until this moment. At this moment, he confirmed that it had something to do with Han Fei.

If it wasn't related to Han Fei, it must be related to Xia Xiaochan.

So, a question popped up in Old Jiang's heart: who was Xia Xiaochan exactly?

Chapter 738: The Mermaid's Tear

Things were fine on the Scattered Stars Island's side, although Old Jiang had been to the sea despite all the restrictions. Xue Shenqi simply initiated Defcon 1. to ensure that the Scattered Stars Island could fight a war anytime.

Of course, the preparation was against the sea demons, but everybody knew that the sea demons couldn't have possibly moved the Sea Demon Mountain away.

Xue Shenqi even suspected that a venerable-level expert had arrived. However, it was still confounding as to why the expert would move the Sea Demon Mountain away.

The sea demons, on the other hand, were more panicked than the human beings.

The sea demons on the territories that were near the Scattered Stars Island hid themselves the moment they learned the news.

They had to hide!

The whole Sea Demon Mountain was razed to the ground overnight. Sixteen sea demons who were as strong as Hidden Fishers died. A powerful Sea Spirit above level sixty died too. Countless more lower-level sea demons died too. All the other sea demons were frightened.

Millions of kilometers from the Scattered Stars Island, there was an enormous cylindrical building where many powerful sea demons were holding a meeting.

The meeting had been going on for three days.

Inside the building, some people were riding enormous war seahorses, some were riding giant green-and-red lobsters, and some were standing on jellyfish that were discharging electricity. They argued vehemently.

A Half-Merman roared, "It must be the work of a human expert! We can't just ignore it! We should ask the capital to send out top experts and fight them!"

Someone was more conservative. "Human being? Which human being can relocate the Sea Demon Mountain? If they had really taken action, would they have stopped after destroying that mountain? They could've eliminated us too."

"If it wasn't a human being, then who could it have been?"

"I don't think we should do anything. If human beings really did that, we should retreat for now to avoid the danger and wait to see their further movements. If they keep pressing the attack, the capital will definitely react."

"Hooooooo!"

"All of you, shut up!"

Someone who rode a huge two-headed shark announced, "Let's stop the war against human beings for now. The destruction of the Sea Demon Mountain isn't an intolerable loss, but it's a huge strike on our morale. Let's take a rest for now."

"My lord!"

"Shut up."

Someone else wanted to say something, but the commander simply glared at him. "We won't completely lay low. Let's see if we can create some opportunities for us to attack human beings later."

...

While human beings and sea demons each made their own plans, two million kilometers away from the Scattered Stars Island, the Sea Demon Mountain was lying quietly in a trench.

No creatures dared to come within three thousand kilometers of the Sea Demon Mountain. The powerful vibe that was left in this place had scared them away.

The demonic Qi barrier in the mountain had already been broken when Chun Huangdian moved the mountain away.

At this moment, a bunch of broken body parts were lying in the Spirit Awakening Fluid.

The body parts weren't just Han Fei's, but also Little Fatty's.

That was Han Fei's last resort.

Little Fatty had been level-39 earlier. After swallowing abundant amounts of Spirit Awakening Fluid, it reached level-40 in no time.

Han Fei had wagered on the possibility that a level-40 Nine Death Soul Splitting Octopus could save his life by reviving him with his blood.

Judging from Chun Huangdian's attitude towards Xia Xiaochan, she might be faced with great enemies, but he would protect him. That was good enough.

After ensuring that Xia Xiaochan would be fine, Han Fei certainly would not mess with his own life.

So, he really tried his best in the final battle.

All the two hundred Blue Sea Wandering Dragon Daggers were destroyed when he tried to make Chun Huangdian think that he was not holding back at all.

Nevertheless, Han Fei never really witnessed Little Fatty's breakthrough, and he wasn't sure whether or not Little Fatty could revive someone with its blood after the breakthrough. He could only take the risk.

It seemed that Han Fei had won the gamble.

At this moment, Han Fei's flesh and bones gathered from where they were scattered.

There was no telling whether his body parts would've joined each other anyway, or it was due to the Nine Death Soul Splitting Octopus's power.

Anyway, it was a good thing that his body was fixing itself.

Not just Han Fei, Little Fatty was recovering too. However, its body was larger than Han Fei's, and it had merely repaired one claw.

After seven days in a row, the pressure left by Chun Huangdian became thinner and thinner under the washing of the seawater. Some creatures already came within a three-thousand-kilometer radius. The strongest of them were coming up to two thousand kilometers.

As for Han Fei, his body had been fully regathered, but he didn't wake up.

Little Fatty's body was only half recovered, but it was already back to life. To be more precise, five of its brains had been revived, and the other four were still dead.

Only one of its hearts was still alive. Its second heart was being rescued, and its third heart was still in pieces.

The octopus was definitely terrifying as a weird creature that had nine brains.

Half a month passed.

When a crab entered the cave, it was tied up by a tentacle and sucked up until it became dry.

Han Fei was still motionless.

In the middle of nothingness, a vine extended from the darkness like a beam of light. Han Fei's consciousness returned the moment the vine showed up.

A lot of pictures flashed in Han Fei's head.

"Cough..."

Han Fei suddenly opened his eyes and sat straight.

What he saw first was the remains of a lot of creatures, as well as Little Fatty which was absorbing a lobster with its sucking discs.

Seeing that Han Fei had stood up, Little Fatty looked at him and asked, "You're awake?"

Han Fei seemed not entirely pacified yet. He looked at Little Fatty in shock. "I've been revived?"

Information popped up in Han Fei's eyes.

Nine Death Soul Splitting Octopus

This is a special beast from the primordial age that has the divine beast bloodline. It can absorb spiritual energy and vitality with its sucking disks. Its spiritual power is very high and can ignore all the spiritual attacks ten levels above itself. It can also deflect ninety percent of the physical attacks that come at it. It boasts powerful self-recovery abilities.

Limb Regeneration, Blood Rebirth

The host can share Blood Rebirth with the Nine Death Soul Splitting Octopus. It can be used nine times in a lifetime. Seven times remaining.

Han Fei took a deep breath, "How long have I been dead?"

Little Fatty: "..."

He was probably the first one to ever ask that question. He asked so casually as if he were asking how long he had slept...

Little Fatty said, "This is the 21st day after I woke up."

Han Fei narrowed his eyes. "That's good, that's good. Chun Huangdian must be far away with Xia Xiaochan right now."

Han Fei felt lucky that Little Fatty's Blood Rebirth wasn't initiated the moment he died, or he probably would've been killed twice.

However, Han Fei's heart became heavy soon.

Xia Xiaochan had been taken away. How was he going to explain that? Could he claim that Xia Xiaochan was taken away by a terrifying expert named Chun Huangdian, who didn't kill him but let him walk away?

Han Fei found it rather ridiculous. For the first time in his life, he realized how strong a person could be!

As it turned out, a mountain could be moved away easily.

As it turned out, he wasn't really a Heavenly Talent at all.

Han Fei wasn't an idiot. When he fought Chun Huangdian, he vividly sensed that Chun Huangdian had merely used the power of an intermediate Hanging Fisher. No more, no less.

However, after he performed all the moves and techniques he was so proud of, he was merely rated as a barely-qualified Heavenly Talent by Chun Huangdian.

Han Fei didn't complain.

It wasn't easy at all for him to survive the battle.

It was terrible that Xia Xiaochan was taken away, but it might be lucky for her too, because other experts might be looking for or even hunting her after the sounds of the cicada.

Judging from Chun Huangdian's tone, it seemed that killing him was necessary.

What was the man afraid of? That someone else might learn about Xia Xiaochan from him?

Twenty days, or maybe a month, had passed already.

Nobody was here yet, but Han Fei sensed that they would come sooner or later.

What should he do if they did come? If they were all as strong as Chun Huangdian, he couldn't possibly withstand them even with the entire Thug Academy.

So, Han Fei had to prioritize: hide himself well and improve his strength.

While Han Fei was considering, he suddenly saw something that was glittering. He turned his head, only to find that it was a bright blue drop of water.

A string of data appeared in his eyes.

The Mermaid's Tear

This is the mermaid's tear when she is extremely sorrowful and yearning. It contains the will of resurrection in desperation, and it may bring forth infinite vitality.

Eternal love cannot be destroyed.

Han Fei's heart became heavy when he saw the tear. He was caught in unknown grief.

"Heh! Chun Huangdian..."

Chapter 739: All Evolved

Chun Huangdian's formidableness was deeply etched in Han Fei's mind. He had reason to believe that the person was the strongest and most talented one that he had ever seen.

More creatures were coming into the cave, but Han Fei simply ignored them.

He sat for two hours in the cave.

He always thought that he had the Demon Purification Pot that could infer countless arts and provide a shelter for him... It was his trump card.

However, he looked at the Demon Purification Pot, which had reappeared in his head, and knew that the trump card couldn't help him until he became really strong!

Crack!

Han Fei's body was filled with spiritual energy in the blink of an eye. He became an advanced Hanging Fisher quickly. The remaining ten thousand kilograms of Spirit Awakening Fluid had been half eaten by Little Fatty who was revived first, and only half of it was left.

Han Fei didn't hesitate. He simply swallowed all of it into his body.

A moment later, information popped up.

Owner: Han Fei

<Level> 48 (Advanced Hanging Fisher)

<Spiritual Energy>: 1,060,055 (15,369)

<Spiritual Power> 1,912/1,912

<Perception Range> 19,999 Meters

<Spiritual Heritage> Level-Five, High-Quality

<Spiritual Beast> Twin Yin-Yang Spirit Swallowing Fish (level-40)

<Main Art> Void Breaking Technique, Volume Four of Void Fishing (Demon-Level, Divine-Quality)

...

Han Fei was expressionless to see the information. The five thousand kilograms of Spirit Awakening Fluid left could no longer satisfy his needs.

Han Fei realized that the Spirit Awakening Fluid could be very useful. It could help regular fishers awaken their naturally-endowed spiritual beast, and help cleanse the bodies and increase the potential of the ordinary people.

However, as they got stronger, they would need more and more Spirit Awakening Fluid. It was probably why the experts of the Scattered Stars Island sold the Spirit Awakening Fluid in the Logistics Division.

Han Fei had an epiphany. It seemed that he needed at least thirty thousand kilograms of Spirit Awakening Fluid in order to become a peak-level Hanging Fisher.

What if his Spiritual Heritage was improved?

What if he made more breakthroughs with the Indestructible Body?

In such cases, he would need even more Spirit Awakening Fluid.

When Xia Xiaochan awakened the Heavenly Cicada, how much Spirit Awakening Fluid did she have? More than sixty thousand kilograms. And that was when she was only an intermediate Hanging Fisher...

Han Fei examined his body. His seed and the Demon Essence were both pacified.

Han Fei didn't think that they would be useful until he picked up the True Spirit Demonic Scripture. After all, he couldn't make use of the demonic Qi that they absorbed yet.

"It seems that I have to find a way to infer the Thousand Faces Technique and Void Fishing now."

Han Fei prioritized the deduction of the Thousand Faces Technique even above Void Fishing. He wondered if the disguise technique could hide his vibe if he deduced it again.

Han Fei had to do that, both for Xia Xiaochan's safety and for his own.

"Let's go. It's time to leave," Han Fei looked at Little Fatty and said casually.

Little Fatty replied rather coldly, "Powerful creatures are out there."

"Okay!"

Han Fei recalled Little Fatty with a thought and stood at the exit of the cave in the next second.

He spread out his senses and detected countless creatures within twenty kilometers. He didn't even need to look to detect them. He found more than thirty level-49 creatures, two of which were exotic.

Most of those creatures were crabs, soil diggers, and lobsters.

At this moment, all of them were digging.

Why were they digging? Because of the spiritual stones inside the Sea Demon Mountain, of course.

Earlier, Han Fei was scared of the Half-Mermen and dared not dig too hard, so he didn't get a lot of spiritual stones.

At this moment, half of the mountain had been torn apart by Chun Huangdian, and a lot of ordinary spiritual stones were scattered everywhere.

Naturally, Chun Huangdian wasn't interested in them, but the creatures in the sea certainly wouldn't neglect them, and nor would Han Fei.

However, it had been such a long time that the stones had probably been all dug up.

Hiu!

Two pincers of a lobster, like two marvelous whips, slapped the seawater and tried to kill Han Fei.

Han Fei sneered and didn't bother to look at it. He punched casually, and the golden aura of his fists spread hundreds of meters away, crumbling the lobster as well as a huge black fish.

If anyone on the Scattered Stars Island had seen this, they would've exclaimed in shock: those were two level-49 creatures! Yet, they had been killed by one punch?

Han Fei's understanding of the Art of Invincibility was deepened after he fought Chun Huangdian.

It was mostly because Chun Huangdian was too strong and he intended to fake his death. So, he wasn't scared of death at all in the fight.

At the life-and-death moment, when Han Fei launched the last punch with the Art of Invincibility, he knew he made great progress in the technique.

After the battle, Han Fei felt that he had almost had less mastery of the Art of Invincibility, if he hadn't already gained it. Not just a level-49 creature, he didn't think it would be a problem to kill a level-49 Half-Merman with one punch.

...

The Sea Demon Mountain had been moved to a place that he didn't know.

Han Fei triggered a thought, summoning Little Gold, the Nine-Tailed Mantis Shrimp, Little Black and Little White. All of them looked different.

A series of information popped up in his eyes.

<Name> Twin Yin-Yang Spirit Swallowing Fish

<Introduction> They're the descendants of the mysterious primitive Yin-Yang Sky-Swallowing Fish. The black and white fish accompany each other. The white fish is docile, whereas the black one is cruel. They are symbiotic. As long as one lives, the other won't die.

<Level> 40

<Quality> Mysterious

<Spiritual Energy> 10,000,000 Points

<Food> Omnivorous. They can swallow everything.

<Battle Techniques> Supreme Yin Yang Wheel, Spirit Swallowing Body

<Note> The black fish is not visible. Except for the owner, only people with naturally-born Yin-Yang Divine Eyes can see it. When they're combined, they'll be as powerful as a Divine Weapon.

<Soul Power> 1,245 Points

Han Fei frowned when he saw Little Black and Little White, as he didn't find any special legacies that they had newly awakened.

In terms of appearance, they were of the same size as before.

However, Little Black was even purer than earlier. It looked as dark as the void.

Little White was covered in a sheen of light. Observing with The Eyes of True Vision, it could be seen that spiritual energy was slowly gathering in Little White. It meant that Little White could absorb spiritual energy all the time without doing anything.

"Is this the Spirit Swallowing Body? This passive skill seems rather redundant!"

Han Fei realized that Little White's speed of absorption was even lower than that of an inferior Spirit Gathering Array. Was that what it awakened after growing to level-40?

The Nine-Tailed Mantis Shrimp, in comparison, had shocking changes.

<Name> Nine-Tailed Mantis Shrimp

<Introduction> A mutant Mantis Shrimp, having a quick speed and strong attacking power, good at hiding itself and attacking prey. When it has grown into its complete form, its nine tails will turn into nine divine chains, which are extremely powerful.

<Level> 40

<Quality> Legendary

<Spiritual Energy> 5,026 points

<Food> Omnivorous, prefers shrimps

<Battle Technique> Void Chains

<Note> The current state: nine tails.

Han Fei pointed at a Wolf Crab that was lunging at him and glanced at the Nine-Tailed Mantis Shrimp. "Kill it with the Void Chains."

Shua! Shua! Shua!

Han Fei saw that the nine-star chains seemed to have penetrated through the void. They appeared a hundred meters away and combined into a net that trapped up the Wolf Crab.

The chains moved and slithered in the void, clutching the Wolf Crab more and more tightly.

At first, the Wolf Crab could still attack the chains with its pincers and its shell that was full of stings.

However, it was as if the chains had eyes. They simply appeared in another space and tied up the pincers.

Crack! Crack! Crack!

Although there was a major gap between their levels, the Nine-Tailed Mantis Shrimp's Void Chains completely suppressed the enemy's attack.

Then, the chains constricted crazily, and it only took them twenty seconds to mince the level-49 Wolf Crab.

Han Fei was quite satisfied with the scene.

At this moment, he should be very far away from the Scattered Stars Island, so a lot of the regular creatures he saw were level-49.

The Nine-Tailed Mantis Shrimp, as a legendary creature, had killed an enemy above its level, although it took quite some time.

Also, after the evolution, it didn't have nine chains anymore, but countless chains.

Then it was Little Gold.

<Name> Feather God Ray

<Introduction> Ancient exotic species, a flying fish, with two wings and two feet. Its wings are as sharp as blades and capable of breaking gold and cracking stone. Feather God Ray can fly into the sky or dive into the sea. Its speed is incredibly fast. Its head is as firm as a rock and its good at hitting things with its head. When it has fully grown up, it can summon heavenly thunder.

<Level> 40

<Quality> Legendary (Ultra-Quality)

<Spiritual Energy> 5,806

<Food> Carnivorous. Prefers large fish

<Battle Technique> Lightning Blade (only can be used once in a day)

<Note> The current state: growing

Han Fei became rather suspicious. All things considered, it seemed that only Little Gold got a new battle technique.

Han Fei commanded, "Little Gold, kill those weird horseshoe crabs with Lightning Blade."

In front of Han Fei, a group of red horseshoe crabs was swarming at him.

On the horn on Little Gold's head, lightning was flashing and emitting dazzling light.

Hula!

A gigantic blade of electric arcs that was ten meters long was launched more than six hundred meters away. All the creatures on its way were cut into halves with electric arcs lingering on them.

To Han Fei's shock, Little Gold had killed thirty horseshoe crabs and twenty other creatures with one attack.

“Huh! What a powerful battle technique!”

Chapter 740: Three Transformation Wondrous Book

Han Fei was quite shocked by Little Gold’s Lightning Blade. Earlier, its only advantages were its hard head and its high speed. The Lightning Blade had significantly increased Little Gold’s combat ability.

If it launched such an attack on an unprepared enemy, it would be even more powerful than Han Fei’s own Draw Technique.

Unfortunately, the skill could only be used once a day even though it was powerful.

So, the Lightning Blade could only be used as a last resort in a real battle.

Han Fei clearly didn’t intend to let Little Gold and the others fight thousands of high-level sea creatures. After all, the level gap among them was still very huge.

A temporary outburst was pointless in front of such a huge number of creatures, so Han Fei simply recalled Little Gold.

“Attach.”

Attaching the Nine-Tailed Mantis Shrimp and Little Fatty to himself, Han Fei quickly reached the peak of a Hanging Fisher. He felt as if he had become a ferocious beast that was full of power and desire to kill the creatures that were coming at him.

Boom!

After he activated the Art of Invincibility, the shell of a creature was shot through.

“Chiliu!”

An enormous electric current hit Han Fei. His body was itchy and his blood was surging because of the stimuli.

Boom! Boom! Boom!

That was an exotic creature, a Seven-Gilled Eel.

Han Fei didn’t hold himself back at all but glowed with the Art of Invincibility.

He was like a fearsome warrior on the top of a mountain. Countless enemies were flooding at him from all directions.

The creatures which had been digging holes and looking for spiritual stones, attracted by the blood and the shock, joined the tide too.

Han Fei’s eyes were filled with brutality. For him, all the creatures meant spiritual energy.

“Kill them!”

...

Three days passed.

Golden light burst out of a fish that was more than eighty meters long. Infinite auras of fists emerged and left bloody holes.

BAM!

A person who was covered in blood crawled out of one of the holes, brimming with brutality.

Han Fei had fought for three consecutive days.

His killing intent wasn't stopped until after three days of fighting.

He really couldn't fight on anymore.

Otherwise, he would have been swallowed by the fish.

Looking at the fish which had no spiritual energy left at all, Han Fei spat and swam forward for five hundred kilometers. Then he disappeared and reappeared in Forge the Universe.

During the three days, Han Fei had executed more than five thousand sea creatures.

Forge the Universe was almost full at this moment.

The good thing was that Han Fei had absorbed about thirty million points of spiritual energy. Plus the five million points he had before, there were 35 million in total, which should be enough to infer the Thousand Faces Technique.

He prioritized the Thousand Faces Technique naturally because he wanted to hide his own realm.

Otherwise, he would be killed for sure if the crisis that Chun Huangdian described really happened to him.

"Deduce."

A million points of spiritual energy. The Thousand Faces Technique was turned into a heaven-level, low-quality Thousand Illusions Technique, which Han Fei didn't think was good enough.

Five million points of spiritual energy. The Thousand Illusions Technique was upgraded into the Illusionary Spirit Precious Records, which could change one's body size, height and vibe.

But Han Fei didn't think it was good enough. If a powerful sea demon suddenly emerged in the deep sea, he might not be able to trick them.

After another ten million points of spiritual energy were paid, the Illusionary Spirit Precious Records was changed into a heaven-level, divine-quality Three Transformation Wondrous Book. Further deduction required fifty million points of spiritual energy, which Han Fei couldn't afford.

However, the Three Transformation Wondrous Book was good enough.

Han Fei glanced at it and read the information in shock.

Three Transformation Wondrous Book (Heaven-Level, Divine-Quality)

Note: This technique, created based on the observation of the evolution of creatures, can allow you to perfectly impersonate three kinds of creatures and simulate their vibe. You cannot transform again until seven days after the previous transformation.

Shortcoming 1: The transformation is rather painful. You may expose yourself when you're careless or during a life-or-death moment.

Shortcoming 2: It's extremely slow to practice the sea demons' arts and techniques.

Shortcoming 3: The Three Transformation Wondrous Book doesn't contain the language of the sea demons.

Copyable Creatures: regular sea demons, Red Demons, Half-Mermaids

Deduced Art: Unknown

Deduction Cost: 0/50,000,000

Han Fei gasped hard when he read the information.

He had always thought that the Fish Transformation Technique was the right way, because it was about how a man could turn into a demon.

However, after paying billions, he found that it was a path of cultivation.

It was beyond his expectation that the Three Transformation Wondrous Book, which he deduced from the Thousand Faces Technique, could transform one into a sea demon.

On second thought, Han Fei realized it might be easier for a human to turn into a sea demon than it was to turn into a fish.

An epiphany flashed in Han Fei's head.

All this time, he seemed to have a misunderstanding because of the Fish Transformation Technique.

Earlier, Han Fei thought that a human being had to become a fish first in order to become a sea demon.

But now that he thought about it, a human and a fish were much more different than a human and a sea demon.

So, it should be easier for a human to become a sea demon than it was for them to turn into a fish or other creatures.

Han Fei immediately thought it through.

No wonder the Fish Transformation Technique expounded on how an animal, instead of a human, could become a demon even though he had deduced it for such a long time.

In fact, there should be a technique like the Three Transformation Wondrous Book between human beings and the Fish Transformation Technique. One had to become a sea demon or a sea creature first in order to practice the top sea demon arts such as the True Spirit Demonic Scripture.

Han Fei was quite shocked. If that was true, it should be possible to turn into a complete sea demon if he were to deduce the Three Transformation Wondrous Book again.

Then, the shortcomings of cultivation would be broken, and he could practice the arts and techniques of sea demons like a real sea demon.

Han Fei was greatly tempted. So, the Human Simulation Technique and the Demon Spirit Shift were only for a sea demon to become a human, and this Three Transformation Wondrous Book was a technique that could let human beings and sea demons transform into each other.

So, the way to transform into a sea demon had been with him this whole time.

Looking at his spiritual energy which only had nineteen million points left, Han Fei frowned.

His spiritual energy was too little!

There was still a major gap from the fifty-million requirement.

Han Fei never felt so poor before when he had plenty of spiritual fruits, spiritual springs and spiritual stones.

But on this trip in the sea, he lost almost all his fortunes.

The Blue Sea Wandering Dragon Daggers were gone, and so was the Blood-Drinking Knife and his spiritual energy. He didn't have any Spirit Awakening Fluid in stock. Xia Xiaochan had been taken away too.

Apart from the improvement of his personal strength, Han Fei felt that he failed to accomplish any goal he had in mind.

"Son of a b*tch."

Han Fei cursed and looked at the Three Transformation Wondrous Book.

"Will it be easier to swim in the sea as an Inferior Man-Fish? I can always change back seven days later!"

Han Fei was tempted. If he turned into an Inferior Man-Fish, his trace would be gone. Nobody would possibly expect him to turn from a human into a sea demon.

In such a way, nobody would possibly be able to find him even if they searched for him.

More than two hours later.

"Hoooooo!"

Han Fei writhed on the ground. He felt that all his bones and veins were broken, and his flesh was being ground in a mill.

"Damn it... Why is it so painful? I should've saved more spiritual energy!"

"Hoooooo!"

Han Fei felt that he was being minced. Had he known that it was so painful, he would've saved more spiritual energy and deduced the Three Transformation Wondrous Book again before he tried to practice it.

But there was no time to look back anymore.

Another hour passed. Han Fei felt that he could've passed out because of pain, but maybe because of his high spiritual power, he didn't pass out, which made Han Fei rather speechless.

"Hu... Hu..."

Han Fei saw that his body had changed. He was covered in a thick wrinkled skin. His legs were retrograding. His hands were deformed. Webs appeared on his palms.

Then, Han Fei found that his way of breathing changed too. He could not only breathe with his mouth, but three sliced gill-like structures had appeared underneath his ears too...

When Han Fei looked at himself with a knife as a mirror, he immediately threw the knife away.

"Damn it! Isn't this too hideous?"

Han Fei stood up.

As a human being, Han Fei wasn't accustomed to the Inferior Man-Fish's way of walking yet. He nearly tripped himself over after he stood up.

Han Fei finally regained balance and observed himself. His blue and smooth skin that looked like that of a fish was quite sickening even for himself.

He was quite lost for words. Was that too different from Xia Xiaochan? He knew that regular sea demons were ugly, but he still couldn't stop himself from complaining after seeing how ugly he had become.

"Never mind. A sea demon shouldn't look in a mirror."

At this moment, Han Fei didn't notice that he was slightly different from regular Inferior Man-Fish... He merely felt that he was ugly.

At this moment, Han Fei's skin was blue and pure. For someone who had never been a sea demon before, it was nothing special.

Then, the center of Han Fei's eyebrows flashed, and the Nine-Tailed Mantis Shrimp, Little Black and Little White appeared.

Little Black and Little White didn't sense anything wrong. They were slightly curious about Han Fei's new appearance, but they still approached him.

The Nine-Tailed Mantis Shrimp, on the other hand, observed Han Fei for a long time and rubbed its chains against him suspiciously.

Han Fei kicked it hard. However, he didn't kick too well, as the Inferior Man-Fish's abnormal leg wasn't as easy to use as a human leg. So, after the kick, he was in much more pain than the Nine-Tailed Mantis Shrimp was.

However, the Nine-Tailed Mantis Shrimp recognized its master, who retained the habit of kicking him, and approached him.

Seeing that Little Black, Little White and the Nine-Tailed Mantis Shrimp still recognized him, Han Fei had no more concerns.

He searched his head and abdomen again and found that the Demon Purification Pot, the seed, the Demon Essence and the Heaven Spirit Detoxifying Insect were all there. He was even more reassured, knowing that only his appearance had changed.

He picked up the Golden Seal and tried to transmit spiritual energy into it, only to discover that he was unleashing demonic Qi and he couldn't control the Golden Seal as easily as before.

Han Fei thought of something. There were numerous harpoons in Forge the Universe! They came from all the Half-Mermen, Red Demons, and Inferior Man-Fish that he killed.

Han Fei grabbed a random harpoon and filled demonic Qi into it, before he stabbed it ferociously.

"Huh! It can be used the same way as spiritual energy. It's rather handy!"
