

GOF 741

## **Chapter 741: Golden Sandworm**

Half a day passed.

Standing on a desolate part of the sea, Han Fei scratched his head with his webbed claw and wondered where the Scattered Stars Island was.

Although Han Fei didn't intend to return to the Scattered Stars Island yet, he still needed to know the direction.

The Sea Demon Mountain had been plucked and moved far away. Even though Han Fei summoned Little White to detect the way, Little White was lost too as it had never been to this place before.

Han Fei bared his sharp fangs. "We must be too far away! Forget it. We might as well get far away from the Sea Demon Mountain first."

The Scattered Stars Island wasn't safe in Han Fei's eyes. If some experts were to search for him, the Scattered Stars Island would be found, and if they were brutal, they might simply destroy the island.

So, he couldn't go back just yet.

At the bottom of the sea...

Han Fei couldn't have felt more comfortable. He didn't know that it felt so good to breathe with gills at the bottom of the sea. It felt as right as breathing the air with his nose.

At this moment, Han Fei was riding an exotic Silver Shark, but not a Long-Snouted Silver Shark.

The Silver Shark was struggling in fury. Silver stings emerged on its body now and then, trying to pierce Han Fei.

*BAM!*

Han Fei struck it with his fist. "Behave. You're not even a Long-Snouted Silver Shark, and you dare to fight me? Would you rather be an ingredient in my hotpot?"

After swimming hundreds of kilometers, Han Fei saw golden sand at the bottom of the sea. His guts told him that there should be treasures down below.

Immediately, Han Fei killed the Silver Shark under his butt and pranced at the sand. Holding a little harpoon in his hand, he looked like a real Inferior Man-Fish.

After he released his perception, he was delighted to find another spiritual fruit.

"Huh! I don't see any guardians here. Never mind. They might be out looking for food."

Han Fei dove into the golden sand. However, when he was about to pick the spiritual fruit, the sand moved and rose like a dragon and a serpent.

Han Fei saw a golden worm inside the sand, which had opened its big mouth that was full of fangs.

"Huh? You're quite disgusting!"

The sand was falling, as if it was unveiling a curtain in the dark night. The giant worm, which was almost a hundred meters long, started slithering.

A dozen mouths were opened one next to the other from the sand, as if they wanted to swallow him alive.

“F\*ck, what the heck is that?”

A string of data appeared in his eyes.

<Name> Golden Sandworm

<Introduction> It grows in the undersea sand that is full of golden aura. It’s short-tempered and extremely powerful. It wears a stand armor and has a wringing force of five million kilograms. It can control golden sand to fight.

<Level> 52

<Quality> Exotic

<Spiritual Energy> 11,302 points

<Effect> Inedible

<Collectible> Golden Sand Stone

<Absorbable>

Han Fei was stunned for a moment. He didn’t think he could defeat a level-52 creature as an Inferior Man-Fish!

But considering Han Fei’s strength, it shouldn’t be a problem for him to try fighting it.

Holding the harpoon, Han Fei jumped dozens of times and avoided multiple slapping, but in the end, he was still whipped away by the Golden Sandworm’s tail, and he rolled hundreds of meters away in the water.

“Cough! It’s truly strong!”

Han Fei felt that his blood was surging. After he turned into a sea demon, it seemed that he didn’t have any advantage against creatures at the same level as Hidden Fishers.

In order to perform the human battle techniques with demonic Qi, he had to be more adapted to his new body first.

Fortunately, the Golden Sandworm wasn’t too strong. Han Fei wanted to see if he could use the Majestic Mystic Spell and other battle techniques in the Inferior Man-Fish’s body.

“Attach.”

Little Fatty was attached to him. He felt that it was the same as when he was a human being. It was just like a sea demon summoning an Associated Spirit.

However, when Han Fei attempted to attach the Nine-Tailed Mantis Shrimp, he found that he couldn't summon it.

"Huh? A sea demon can only attach one contractual spiritual beast at a time?"

The center of his eyebrows flashed, and Little White, Little Gold and Little Black all appeared, but they had no effects when they were attached.

Han Fei wondered if he could still be fused with Little Black or Little White.

"Forget that. Let me just fight it first."

The Golden Sandworm roared, and large areas of golden sand tied up Han Fei from all directions. This creature turned out to be able to control sand indeed.

*BAM!*

Han Fei's harpoon hit the sand and broke it apart, but some of the sand was still stuck to Han Fei.

A hundred seconds later, a layer of sand was stuck to Han Fei. It was tightening as if it wanted to strangle Han Fei.

*BAM!*

Han Fei was slapped away by the tail again. After the power of the tail was offset, Han Fei merely felt that he was dizzy under the whipping.

"Damn it. How do the Inferior Man-Fish fight? Poking with their harpoon?"

Han Fei searched his memories. He remembered that the regular Inferior Man-Fish simply poked with their harpoons, the Red Demons had life spears, and the Half-Mermaids had various sorts of battle techniques.

Han Fei yelled, "Worm, have a taste of my harpoon!"

The Blood-Drinking Knife had been ruined. Han Fei tried to fill some spiritual energy and demonic Qi into the harpoon and slash it out like a long sword.

*Shua!*

The weird and intimidating invincible fighting intent was concentrated on the harpoon. It seemed that the effect of the Art of Invincibility could be carried out by any attack.

"Chila!"

*BAM!*

Although Han Fei was slapped away, the Golden Sandworm had been cut into halves by Han Fei.

"Huh? It's been killed so easily?"

While Han Fei was wondering, he found that a head emerged on both of the halves of the Sandworm, which turned into two Golden Sandworms.

After a brief stun, Han Fei said mockingly, "Who do you think you are? You think you can divide yourself into two?"

In his eyes, the power of the new Golden Sandworms became 2,500,000 kilograms, which meant that they were only half as powerful as the original Golden Sandworm.

Han Fei triggered a thought. "Nine-Tailed Mantis Shrimp, use your Void Chains."

The space around the two Golden Sandworms shivered, and one chain appeared after another, trying to trap the Golden Sandworms.

Unfortunately, the Golden Sandworms seemed to be made of sand and simply leaked out of the cage of chains.

"Hoooooo!"

Both of the Golden Sandworms bit at Han Fei.

"Lightning Blade."

"Chila!"

The electric light on Little Gold's head was unleashed as a terrifying blue blade that cut one of the sandworms from head to tail. The sands exploded, and golden thick fluid spread in the seawater and got swallowed by the other sandworm.

Han Fei looked at the other sandworm, only to discover that its power had become three million kilograms.

It meant that Little Gold's Lightning Blade must've killed half of the total sandworms.

Han Fei was quite delighted by the result!

The Golden Sandworm wasn't as strong as it looked, even though it was rather scary.

In reality, it would be weakened and weakened as part of it was destroyed.

Han Fei snorted. "Nine-Tailed Mantis Shrimp, go get the spiritual fruit. Don't eat it."

The Nine-Tailed Mantis Shrimp swooshed at the sand, and the Golden Sandworm got anxious. It split into halves and tried to stop the Nine-Tailed Mantis Shrimp.

Han Fei smiled again. "Little Gold, you go for the fruit too."

Golden Sandworm: "???"

Han Fei simply stepped up and used the Majestic Mystic Spell. He didn't know any harpoon techniques, but it was still terrifying when he used it as a sword.

"Shua! Shua!"

The Golden Sandworm was blocked. Its part down below controlled the sand to stop Little Gold and the Nine-Tailed Mantis Shrimp.

However, to the Golden Sandworm's shock, the spiritual fruit was gone.

Han Fei extended his hand gloatingly, and Little Black spewed out the spiritual fruit from the void.

<Name> Golden Fruit

<Introduction> It grows up in the pit of golden sand. It's been nurtured by the aura of gold for a long time and can significantly increase one's battle performance.

<Level> Demon-Level

<Quality> High

<Spiritual Energy> 189,800 points

<Effect> If eaten, it will slightly increase the storage of spiritual energy and permanently increase your strength by fifty thousand kilograms. It doesn't work for creatures above the level of Hidden Fishers.

Han Fei's eyes glittered when he saw the quality of the Golden Fruit. A permanent strength increase of fifty thousand kilograms! That was really a lot!

"Good bye, big guy. It's impossible for me to kill you, but I'll eat your fruit."

As he spoke, he already put the Golden Fruit into his mouth. The best time to eat such a good fruit was, of course, this moment.

After Han Fei swallowed the Golden Fruit, the Golden Sandworm went on a rampage, and there seemed to be something happening in the sand.

However, Han Fei simply grinned and ran off, leaving nothing but a shadow behind for the Golden Sandworm.

It was nothing to be proud of to defeat a Golden Sandworm, which wasn't really good at fighting.

More importantly, the Golden Sandworm wasn't an idiot. It seemed to be enraged, but some of its parts just ran into the sand and it would be hard to locate them.

However, Han Fei was quite intrigued after the experience. He had found an excellent Golden Fruit without searching for it. If he stayed in the outer sea for a longer time and searched for spiritual fruits, he would probably be strengthened by at least twenty percent!

"No wonder the Half-Mermen and Half-Mermaids are so strong! There are simply too many resources in the sea. They can eat and become strong."

Another three days later.

Han Fei ran into a lot more creatures on the way. Some were very strong and he had to flee, and some were mediocre and he could rob them.

At this moment, Han Fei was sitting on the Nine-Tailed Mantis Shrimp's back with Needle in his hand.

Why Needle? Because he had just fought an exotic serpent and failed. He had to slip away.

Also, he didn't want to use the harpoon anymore. It wasn't as useful as his fist or Needle.

“This won’t work! I have to learn some of the sea demons’ battle techniques one way or another!”

All of a sudden, Han Fei sensed that an undersea cave was glowing sixty kilometers away.

Immediately, Han Fei’s eyes glittered. “A treasure trove?”

### **Chapter 742: Azure Sea Blue Demon**

The treasure troves in the Unknown Place were quite well hidden.

Han Fei had wandered here for a long time, but he hadn’t met a single decent treasure trove yet.

Yet, the one before his eyes was glowing. It was clearly extraordinary.

“Nine-Tailed Mantis Shrimp, let’s go.”

He rushed forward on the shrimp, followed by a bunch of Red Fox Fish. Over these days, Han Fei had found that not all creatures in the sea were fighting another. Some of them would regard Inferior Man-Fish as their own kind and wouldn’t attack them.

Not just the Red Fox Fish, but the Flying Fish and the Silver-Scaled Fish were also friendly.

A moment later, Han Fei had already reached the treasure trove.

However, before he broke in, he saw that a Half-Merman and two Red Demons jumped out of the treasure trove.

The Half-Merman saw Han Fei the moment he appeared. He was quite shocked.

Han Fei was quite shocked too.

He didn’t know that the treasure trove was glowing because it had been explored by the Half-Mermen.

Han Fei quickly stopped the Nine-Tailed Mantis Shrimp and held Needle tightly. He thought that he could kill the Half-Merman and the two Red Demons if they were alone.

But in the next moment, another Half-Merman appeared and made Han Fei drop the idea.

If he were in his original human form, he might have charged at them.

But unfortunately, he was an Inferior Man-Fish, and he wasn’t used to his body yet. He had to count on his physical strength and Little Gold in a fight.

If a Half-Mermaid Heavenly Talent was here, he might be crushed at the bottom of the sea by them.

The two Red Demons were about to attack, but the Half-Merman stopped them.

The Half-Merman let out a cry, “Ji li gu lu...”

Han Fei tilted his head: “???”

The other Half-Merman pointed at Han Fei. “Ji li gu lu...”

Han Fei realized that he didn’t understand at all! What kind of language was that? There were even bubbles when they talked!

Han Fei wondered if he had betrayed himself.

So, he recalled the Nine-Tailed Mantis Shrimp and Needle and gathered demonic Qi under his feet, wondering if he should summon Little Gold and run off.

However, he heard a weird voice in his head the next moment. There was no telling what caused it, but it was imprinted in his head and he understood it.

*Inferior sea demon who has just awakened, don't be nervous. Succumb to me and I'll teach you the sea demons' language.*

Han Fei had a strange feeling.

All the Half-Mermaids he saw could speak human language. He never had such an experience where a guy imprinted words in his brain with mental power.

Han Fei thought for a moment and quickly nodded.

The sea demons had their own language. If he learned the language, wouldn't he be able to blend into the sea demons? They all said that the sea demons had great treasures. He might make a fortune from them.

The two Half-Mermen both smiled, but Han Fei could tell that their smile was weird.

*Open your mind and don't resist. I'll etch the sea demon language into your soul.*

Han Fei couldn't have felt more terrible as he thought to himself, *You want to touch my soul? Why do you think I would let you?*

If he abandoned resistance, it would be very easy for them to control him and do anything to him.

Of course, Han Fei was not such an idiot.

He nodded his head, pretending to be ignorant, while he planned to launch a critical attack on the enemy when they invaded his soul. With Little Gold's Lightning Blade that hadn't been used yet, it shouldn't be a problem to kill two Half-Mermen.

As for the two Red Demons, they weren't as talented as the Half-Mermen. The sea demons didn't think that they could kill him. Even though they were peak-level Red Demons, it wasn't like he was a real Inferior Man-Fish.

Right when the Half-Merman was about to unleash his mental power and Han Fei was about to counterattack.

*Shua!*

Another person appeared, and Han Fei subconsciously stepped back.

It was not because he was caught unprepared by the stranger, but because he knew the Half-Mermaid who just appeared.

*Yu Ji?*

Han Fei was briefly stunned. *Why would Yu Ji be in this place?*

*Shouldn't she be somewhere near the Scattered Stars Island?*

This place was so far away from the Scattered Stars Island that even Little White had lost the way, yet they had met here?

More importantly, Yu Ji was quite strong, so the other two Half-Mermen were likely Heavenly Talents too. He might be no match for them since he hadn't fully controlled his power yet.

Now that Yu Ji had shown up, it was further unrealistic for Han Fei to kill those sea demons on his own.

If he were in his human form, he might've tried his luck.

However, Yu Ji was a Half-Mermaid who had a real Divine Weapon. She was too strong for him to kill her in his current status.

Yu Ji was surprised to see Han Fei and exclaimed, "Where is this Azure Sea Blue Demon from?"

Han Fei couldn't understand what Yu Ji said, but he could see her surprise.

It quite puzzled Han Fei. Shouldn't the Inferior Man-Fish be cannon fodder in the eyes of the Half-Mermen and Half-Mermaids? Why was she so surprised to see him?

One of the Half-Mermen slightly changed his expression. "Yu Ji, he must be a newly-awakened Azure Sea Blue Demon. However, I saw him first, and he's already mine."

Yu Ji frowned. "You're going to take him? Is he willing?"

The Half-Merman spoke to Han Fei telepathically again, *Open your mind and I'll teach you the sea demon language.*

Han Fei's eyes flashed. His big eyes were filled with vigilance and confusion, and Yu Ji was quite confused.

In the next moment, when Han Fei sensed that a mental power was about to invade his soul, he blocked it with his own mental power, and the Half-Merman staggered and had blood on his lips.

"Damn it, you're asking to be killed!"

The Half-Merman raised his harpoon and aimed at Han Fei. Knowing that he couldn't defeat the enemy, Han Fei decided to run.

However, the moment the Half-Merman raised the harpoon, Yu Ji slapped it aside. "Yu Yue, did you trick the Azure Sea Blue Demon because you want to invade his soul and make him your slave?"

The Half-Merman looked rather awful. "Yu Ji, I came here first and saw the Azure Sea Blue Demon first. Are you going to loot him from me?"

Yu Ji sneered. "Who gives you the courage to challenge my authority?"

Yu Yue briefly stagnated as if he thought of something. He lowered his head regretfully.

Han Fei hadn't run off yet, and he witnessed the internal conflict.

Was it for him? Why would Yu Ji help him when they didn't know each other at all?

Yu Ji turned around and threw a jade slip that was full of demonic Qi at Han Fei, while she imprinted words in Han Fei's head. "Don't be fooled. You are an Azure Sea Blue Demon. You're as honorable as him. Don't open your soul to others. This is a language slip. You only need to fill demonic Qi into it to learn the sea demon language quickly."

Han Fei was briefly stunned. Azure Sea Blue Demon? What was that? Wasn't he an Inferior Man-Fish? How did he become an Azure Sea Blue Demon?

However, Han Fei's speculation was correct. That Half-Merman was indeed trying to trick him into opening his soul! Vicious... He had to kill that guy sooner or later.

Han Fei didn't care if there was any trap in Yu Ji's jade slip. With the Demon Purification Pot here, he wasn't scared of being possessed at all, and no traps could really threaten him.

Han Fei held the jade slip and scanned it. A moment later, a brand-new language appeared in his consciousness out of nowhere.

After only one minute, he had mastered a new language?

Yu Ji asked, "Do you understand me now? You've just awakened. Don't trust other people easily, or disasters may happen to you."

Of course Han Fei got it. It seemed that they had mistaken him for a newly-awakened sea demon.

Han Fei was instantly lost for words. Could a newly-awakened sea demon be as strong as me? Do you not use your brains at all?

However, Han Fei would rather they were silly.

At this moment, Han Fei bared his fangs and replied hoarsely, "I... Do... Thank you."

Yu Ji's eyes glittered. "Huh! Can you talk already? You even expressed your gratitude! You must be one of the stronger Azure Sea Blue Demons."

Han Fei pretended to be vigilant. "What... Are... Azure Sea... Blue Demon?"

Yu Ji grinned while the Half-Mermen stared at her angrily. "It will take me a long time to explain that. The Azure Sea Blue Demons are sea demons who have much more potential than regular sea demons. Even the regular sea demons cannot compare to you, unless they're Crimson Blood Red Demons... Even few Half-Mermen are as promising as you."

Han Fei pretended to be silly. He looked at the two Red Demons. "Red... Demons?"

The two Red Demons looked rather unfriendly. In their eyes, Azure Sea Blue Demons were just regular sea demons. Why should they be superior?

Yu Ji stepped forward, and Han Fei immediately moved back.

The Half-Merman said, "Yu Ji, the newly-awakened Azure Sea Blue Demon is too ignorant. If you want him to obey you, just teach him a lesson."

Yu Ji glanced at him coldly. "Shut up."

Han Fei wasn't an idiot. He knew that the Half-Merman probably was probably warning him of Yu Ji.

However, after he had expressed it so obviously, wouldn't it be unreasonable if he pretended that he didn't get a hint?

Immediately, Han Fei stepped back again and warily looked at everybody including Yu Ji.

Yu Ji slightly frowned and glanced at the Half-Merman again. Then she took out a harpoon and a jade slip and threw them at him. "This weapon and this battle technique are yours. We're both sea demons. I won't stop you if you want to leave, but if you want to stay, you can follow me... Don't worry, I won't ask you to be my slave."

Han Fei accepted a harpoon and said to himself, *I have a golden harpoon, which is much fancier than this weapon!*

But as a newly-awakened sea demon, he showed enough curiosity about the weapon. He seized the jade slip and looked into it. Instantly, a piece of information popped up.

Transient Golden Spear (Demon-Level, High-Quality)

Introduction: This is a battle technique of sea demons that can be used in offense and defense. When it attacks, it can point stars and break waves; when it defends, it spins water as a shield.

Superseding Art: Unparalleled Water Splitting Spear

Deduction Cost: 0/2,000,000

### **Chapter 743: Successful Sneak-in**

Han Fei appeared to be confused after reading the slip on the Transient Golden Spear, but he subconsciously spun the harpoon in his hand.

Then, to the surprise of Yu Ji and the others, a revolving white shield took shape before Han Fei. The harpoon moved so fast that the shield looked like a fast-turning wheel with water spluttering out. It was quite beautiful.

Yu Ji asked in shock, "You're such a fast learner?"

Han Fei already figured out a reply when he turned the harpoon.

Since Yu Ji mentioned that he was an Azure Sea Blue Demon and on the same level as the Half-Mermen, he had to demonstrate an outstanding performance.

He couldn't find the way back to the Scattered Stars Island anyway, so it was better to let them take him there than to blindly search for the place!

Besides, Yu Ji was not a regular Heavenly Talent. She definitely had a lot of treasures. If he found a chance to kill her, he might be able to make a fortune.

After learning the Transient Golden Spear skill, Han Fei looked at Yu Ji and grimaced, "I... I'll follow you!"

Yu Ji put on a smile.

However, before she was done smiling, the previous Half-Merman had said, "Yu Ji, we're on a mission. It wouldn't be good if we fail to find the Sea Demon Mountain and return with a totally strange Azure Sea Blue Demon, would it?"

Han Fei was quite surprised. *Were they here to search for the Sea Demon Mountain?*

*F\*ck. It wasn't easy to escape from the Sea Demon Mountain, yet you want to take me back there?*

Yu Ji asked coldly, "Yu Yue, you think I can't take an Azure Sea Blue Demon with me?"

The Half-Merman clenched his fists. "Humph!"

Han Fei was stunned. *What was that? Doesn't Yu Yue mean delight? How delighted is he?*

Seeing how stunned Han Fei was, Yu Ji realized that he probably didn't have a name yet, so she asked, "What's your name?"

Han Fei secretly replied with a cold smile, *My name is Han Fei, bite me.*

Yu Ji saw Han Fei's expression as confusion. She put on a smile. "Well, I don't think you have a name. Since you're my follower, I'll give you a name. What about Yu Gan, meaning dried fish?"

Han Fei was so stunned that thousands of Iron-Head Fish seemed to be running in his heart.

*Dried fish? Thank you so much! You're dried fish! Your whole family is dried fish.*

Having made enough fun, Yu Ji declared proudly, "Yu Gan, you will follow me in the future. I dare not guarantee that you'll distinguish yourself, but if you're more talented than regular Half-Mermen, you may evolve and mutate again and transform into a Half-Merman."

Han Fei secretly sneered. *Another evolution? I can transform again if I want to become a Half-Merman, but you won't see that. I'll kill you at the first chance on our way.*

*Shua! Shua! Shua!*

All of a sudden, several more Half-Mermen and Red Demons came out.

Han Fei counted seven Half-Mermen and Half-Mermaids including Yu Ji and the same number of Red Demons.

They all discovered Han Fei too. Someone asked, "Is he... An Azure Sea Blue Demon?"

Yu Ji instantly declared, "He's a newly awakened Azure Sea Blue Demon. He's now following me. He isn't weak and won't be a liability while we search for the Sea Demon Mountain."

A Half-Merman frowned. "Where is this Azure Sea Blue Demon from? Are you sure that he has just awakened?"

Yu Ji nodded. "I just taught him the sea demon language. I can't be wrong."

Someone nodded casually. "Since you already took him in, we won't stop you. However, you must keep an eye on the Azure Sea Blue Demon by yourself."

Someone laughed. "Yu Ji, although the Azure Sea Blue Demons have growing Demon Heritage, have you seen any of them who develop an advanced Demon Heritage?"

Yu Ji scoffed. "I will do this. What can you do?"

She was quite satisfied with Han Fei's performance. He followed her thirty meters behind her and stayed vigilant of others.

Yu Ji felt lucky that Yu Yue didn't try to make acquaintance with Han Fei earlier but attempted to invade this Azure Sea Blue Demon's soul, or she probably wouldn't have got him.

At this moment, the Half-Mermen and Half-Mermaids were gathered, and so were the Red Demons. Han Fei stayed thirty meters behind Yu Ji.

Someone said, "Yu Ji, won't your Azure Sea Blue Demon back off? How can he follow us so closely?"

Yu Ji sighed. "We're discussing telepathically. He can't hear anything. What are you afraid of? Besides, the search of the Sea Demon Mountain isn't a secret at all. Just speak out loud."

The others seemed quite scared of Yu Ji, and Han Fei pretended to be a silly rookie, while he actually eavesdropped on their conversation.

In terms of soul hardness and capacity of spiritual power, Han Fei didn't think anyone here was as good as himself.

Someone said, "The harvest from the treasure trove isn't bad, but should we abandon the search for the Sea Demon Mountain? There are countless powerful creatures here. Half of our teammates have already died. If we keep searching, we may all get killed if we run into more powerful creatures."

Someone frowned. "I agree. It's been clearly concluded that the Sea Demon Mountain was moved away violently, either by a human being or a powerful creature in the sea. If they can move a mountain, wouldn't it be easy for them to annihilate us?"

Someone objected to him, "You can't be too pessimistic. It's possible that this is an opportunity for us! That expert must've had a purpose to move the Sea Demon Mountain away? What if they have already left? It's possible that we may get unexpected treasures from the Sea Demon Mountain."

Someone shook his head. "Why do you think the expert would leave any treasures for you? Besides, didn't you hear that all the creatures that used to be in the Sea Demon Mountain are dead. That part of the sea is haunted by the air of the dead."

Yu Ji thought for a moment and said, "It definitely has to do with the weird sounds. The capital has already confirmed that it wasn't done by human beings. The Sea Demon Mountain must be still in the sea. If we find it, we may get in touch with the super expert outside of the capital. Then, the experts from the capital will deal with them."

A sea demon said impatiently, "Capital, capital, capital all the time... We don't even know where the capital is! The sea demons in the front line think that the Ten Thousand Demon Valley is the capital and long to go there. What will they think if they learn that the capital lies on lands distant and unknown?"

Han Fei had great fun listening to them. It seemed that the sea demons did have a capital city, and that the Sea Demon Mountain used to be a front line for the sea demons. As to where the Ten Thousand Demon Valley they mentioned was, Han Fei didn't know.

Eventually, their conclusion was that they would search for another seven days. If they still couldn't find it, they would just go home.

Han Fei was lost for words. Those people were truly bold. If Chun Huangdian were still here, they would all be killed.

Han Fei didn't know what to do. The Sea Demon Mountain was already a complete mess. When he fought his way out, the whole mountain was riddled with holes. The sea creatures were fighting for not just the spiritual stones but also the demonic stones.

It was not hard to imagine that many of those creatures went on a killing spree. It wasn't easy for them to stop killing. Han Fei believed that they must be still fighting at this moment.

A moment later, all of them set off again. As it happened, they were moving in the direction where Han Fei came from.

Han Fei didn't look too good. He wondered if he should find a chance to slip off. He thought he could find a way home by following Yu Ji. Little did he expect that they would risk their lives moving to the Sea Demon Mountain.

Why did he run out? Precisely because the Sea Demon Mountain was still dangerous.

Yu Ji looked at Han Fei and frowned. "Huh, Yu Gan, you seem to be scared of this direction, aren't you?"

With everything coming to this point, Han Fei couldn't say anything else except, "Many... Powerful... Creatures went that way."

The Half-Mermen were stunned to hear that. "You came from this direction?"

A Half-Merman stared at Han Fei. "Did you see a very huge mountain that's more than eight hundred kilometers long?"

Han Fei shook his head. "No, I didn't dare to get close."

One of the Half-Mermen sniffed. "He's really a coward. He's still worthless even if he has been awakened as an Azure Sea Blue Demon."

Yu Ji snorted. "You're talking as if you were better than him when you had just awakened..."

Someone said, "Stop bickering. If a lot of powerful creatures went that way, something must've happened there. We'll be able to find something if we hurry up... Even if it's not the Sea Demon Mountain, it should be something valuable, like a treasure trove or an Undersea Chimney..."

The sea demons moved much faster than Han Fei when he was alone. In only one day, they had killed five exotic creatures, three of which were above level-50.

Han Fei also discovered that apart from Yu Ji, two of those sea demons had Semi-Divine Weapons.

Some hadn't revealed their strength yet, and Han Fei couldn't tell.

On the third day, everybody was moving fast, because they detected that a lot of creatures were gathered in the area ahead.

At this moment, the seawater began to hum.

Everybody spread out their senses, only to find that a large stream of orange water was flowing at them.

In front of the orange water, a tremendous number of creatures were rushing towards Han Fei and the others as if they were crazy.

Yu Ji and her partners were all shocked.

Yu Ji exclaimed with a different expression, "Oh no! It's the Bloodthirsty Sesame Shrimps! Run!"

#### **Chapter 744: Someone Was Here**

Han Fei didn't know what the Bloodthirsty Sesame Shrimps were yet, but if Yu Ji, as a Heavenly Talent, was scared of them, they couldn't be simple creatures.

Yu Ji and the others had already started running at full speed like missiles in the water.

Han Fei was not an exception. He was even faster than the Red Demons.

"Huh?"

Yu Ji and the others were slightly surprised. They thought that Han Fei wouldn't be able to keep up.

The Red Demons looked at each other and ran even faster, unwilling to be left behind by the goddamned Yu Gan. They were already in a dangerous position, and they would be sacrificed if they didn't try!

Yu Ji was deep in thought. She found Yu Gan to be quite a fast runner and wondered if he had been awakened from a creature that was best at speed.

...

The aggressiveness of the Bloodthirsty Sesame Shrimps was beyond Han Fei's estimation.

Almost all the other creatures in the way of the shrimps were fleeing for life.

The shells at the bottom of the sea all closed their shells.

Some turtles attracted stones with secret techniques to form protective barriers that surrounded them, before they fell to the bottom of the sea.

Han Fei was lost for words, wondering if those creatures sucked blood everywhere they went like the Marching Sea Leeches. However, the Marching Sea Leeches wouldn't be a problem for Hanging Fishers. They couldn't even break their Amulets. What was to be afraid of?

Yu Ji, who was in the lead, shouted, "We'll run for an hour. If the Bloodthirsty Sesame Shrimps stop, it will be great, but if they don't, we'll rise to the sky."

Hearing that, the Half-Merman named Yu Yue said, "What? You're going to abandon the Azure Sea Blue Demon you just picked up?"

Yu Ji shot back, "I'll take him with us. You can carry your own Red Demons that you brought here."

The others were lost for words. The sea demons weren't good at flying in the first place. If they carried someone with them, they would only die faster.

Unfortunately, no more than five minutes later, countless Mad Blood Worms emerged from all places and surrounded everybody like the Bloodthirsty Sesame Shrimps.

Instantly, Yu Ji and the other people were lost for words.

Someone cursed, "Why are the Mad Blood Worms with the Bloodthirsty Sesame Shrimps? Shouldn't they be attacking each other?"

Everybody had to change their direction.

But only five minutes later, they found that countless Dead Leaf Starfish were drifting close from far away...

As a result, they couldn't think of another way to escape except to fly to the sky.

Yu Ji roared at Han Fei, "Come here!"

Han Fei rushed to her without hesitation. In fact, this was not a problem to him. If necessary, he could always attach Little Gold to himself and fly to the sky.

But those sea demons couldn't.

Holding Han Fei in one hand, Yu Ji threw herself up like a cannonball almost at the speed of sound in water.

*BAM!*

Water exploded on the surface of the sea, and Yu Ji soared to the sky with a board underneath her feet.

When they broke out of the water, Han Fei had uncanny stress reactions on his skin as if someone was observing him.

"Not good, I've been detected."

Han Fei was so shocked that he did not dare to release his senses.

Other people weren't keen enough to sense that, but he could!

He was quite scared by the weird detection, which somehow reminded him of Chun Huangdian.

Immediately, Han Fei realized what was going on.

Earlier, Chun Huangdian had said that he would surely die.

What Chun Huangdian didn't say, but implied clearly enough, was that he was a threat to Xia Xiaochan's safety as a witness to the appearance of the Heavenly Cicada.

Han Fei didn't understand how Chun Huangdian came so fast. There was no time for him and Xia Xiaochan to escape at all after the Heavenly Cicada appeared.

Han Fei had thought that someone else might come after him.

He even wondered that they had already searched the area while he was still dead.

But that didn't seem to be the case. Other people were indeed searching for him, but they were merely slower than he thought.

Han Fei realized the situation. Now that the sea demons including himself had been detected by the guy who was far away on the mountain, they would only get themselves killed if they went there.

Han Fei instantly pulled Yu Ji. "Let's hide in shells underwater."

Yu Ji replied, "We can't, not with the Mad Blood Worms coming after us."

Han Fei's face darkened. *Son of a b\*tch!*

He thought that he could escape with Yu Ji and other people's help! But it seemed to be a trap for him.

There was no telling who invented the flying boards, but they were fully controlled by spiritual energy or demonic Qi and couldn't fly fast.

Han Fei looked back, only to see a boundless red sea that had been covered by the Bloodthirsty Sesame Shrimps.

The other Half-Mermaids were even unwilling to carry the Red Demons. Only two were carrying Red Demons, and the other five Red Demons were all rushing in the water.

But the Mad Blood Worms soon crashed into them. The maddened Red Demons were enshrouded by the Bloodthirsty Sesame Shrimps. In Han Fei's senses, he detected that countless red shrimps that were only millimeters long enshrouded the Red Demons.

The protective covers of spiritual energy fell apart in ten seconds under the attack of the Bloodthirsty Sesame Shrimps.

The Bloodthirsty Sesame Shrimps that were only several millimeters long crawled into the Red Demons crazily.

In the blink of an eye, all the five Red Demons were drained.

Han Fei felt that his blood was freezing. Those creatures were too horrible! Although they were weak as individuals, there were simply too many of them to kill.

Not just Han Fei, all the Half-Mermen that were flying in the sky were shocked too. They hadn't surpassed level-50 yet and couldn't fly. Wouldn't they die if they ran out of energy and fell?

Instantly, Han Fei saw that the two Half-Mermen who carried Red Demons simply threw the Red Demons away.

Han Fei was quite shocked to see that. As he expected, there was no bond among the sea demons at all.

All the seven Red Demons had been annihilated in an instant.

Han Fei was already prepared to take action. If Yu Ji dared to abandon him, he would definitely stab her before he fell.

However, out of Han Fei's expectation, Yu Ji didn't abandon Han Fei.

Yu Ji even said, "Don't worry. I'm the one who took you here, and I'm going to take you away alive."

Han Fei rolled his eyes. *You're going to take me away? It remains to be seen whether or not you can survive this.*

A moment later, everybody's eyes were occupied by all sorts of gregarious sea creatures, predominantly Bloodthirsty Sesame Shrimps and Mad Blood Worms, which finally collided.

A lot of Mad Blood Worms were drained, and the Bloodthirsty Sesame Shrimps were all maddened, raging in every corner at the bottom of the sea.

Someone said telepathically, *Yu Ji, abandon the Azure Sea Blue Demon, or you will die too.*

Someone shouted, "Yu Ji, we have Amulets. If we rush back at the cost of our Amulets and Immortal Seals, we might survive."

Yu Ji roared back, "I'm the one who took him here, and I'll take him away alive."

Han Fei didn't say anything. He thought that he might have been won over by Yu Ji with her charisma if he were really an Inferior Man-Fish... She was almost as honorable as a decent human being.

Unfortunately for her, Han Fei wasn't a sea demon.

Whether Yu Ji was intentional or unintentional, it was impossible for Han Fei to surrender. He merely felt that Yu Ji wasn't bad for a Half-Mermaid.

A few minutes later later, all the sea demons including Yu Ji began to swallow spiritual fruits, which could empower them for another half day.

Someone was frightened. "Something is wrong. Why are those creatures all on a rampage? Also, how are they active for so long?"

When their spiritual energy was running dry again, they saw hope, as the sea water was becoming pure again.

Yu Ji took a deep breath. "Let's retreat!"

Everybody could easily tell that something huge must've happened up ahead, or those assorted gregarious creatures wouldn't have run in the same direction.

However, Han Fei vaguely sensed that someone had just scanned him again.

**BAM!**

Including Han Fei, all the eight of them were pressed by gravity to the surface of the sea.

At this moment, the surface of the sea seemed frozen, and none of them fell into the water.

Han Fei could only cry to himself, they're here, they're here!

He subconsciously looked at the Demon Purification Pot and was glad to see that it was still there.

He had sufficient spiritual energy this time. He should be able to keep himself alive with the Sky Dissecting Finger if anything happened.

Yu Ji and the Half-Mermen were stunned, wondering why they had fallen.

In the next moment, a projection appeared out of nowhere. He was an intimidating middle-aged man wearing a red long robe. After merely a glance from him, everybody including Yu Ji fell on their knees, shaking.

Naturally, Han Fei behaved just like the rest of them...

Another projection! The man could suppress everybody with a projection and a thought.

Yu Ji and all the others were trembling. Two of the stupid Half-Mermen were talking telepathically.

One of them said, *It's a human being. Human beings are really behind this.*

The other replied, *I already saw this coming. It's hilarious that the capital said that human beings had nothing to do with this.*

Han Fei, on the other hand, continued to be silent.

His body was also cramping. He didn't think that such a strong person would attack a few Half-Mermen or an Inferior Man-Fish.

The human expert asked casually, "Tell me, have you run into any human beings these days? He's probably as weak as you."

Yu Ji struggled to reply, "My lord, we haven't seen any human beings in this place; we're searching for a mountain that has disappeared."

Yu Yue, however, replied, "My lord, we didn't meet any human beings. We've only recruited a new Azure Sea Blue Demon."

Han Fei almost wanted to cut the idiot apart. Why was he still stirring trouble at such a life-and-death moment?

The middle-aged man scanned Han Fei back and forth, and Han Fei vomited blood.

The middle-aged man shook his head and looked at Han Fei for the last time in disdain, as if Han Fei wasn't qualified to be interrogated by him at all.

His projection disappeared, but his pressure remained. The Half-Mermen dare not even look up at him.

Han Fei, on the other hand, quietly came to Yu Yue with a harpoon.

Cold light glittered on the harpoon, and he stabbed through Yu Yue instantly. The enormous force pressed him dozens of meters deep into the sea.

The Half-Mermen didn't realize what happened until Han Fei launched the attack. At this moment, Han Fei had slipped back to Yu Ji and continued pointing his harpoon at Yu Yue.

It was impossible for him to kill Yu Yue, who likely had Immortal Seals, but it shouldn't be a problem to stab him with a harpoon.

Of course, when Han Fei retreated, Yu Yue also whipped him with his tail and slapped him away.

### **Chapter 745: Deadly Land of Coral**

All the Half-Mermen were shocked by what Han Fei did.

Even Yu Ji didn't see it coming that Han Fei would stab Yu Yue with a harpoon when the air of the expert still lingered.

Han Fei, who had ran back to her, glared at Yu Yue and said, "I... Am not stupid!"

Everybody was stunned by his declaration.

The Half-Mermen were still shocked. "What's wrong with his world?"

Yu Yue vomited blood and jumped, ready to kill Han Fei, but he was blocked by Yu Ji.

Yu Yue roared, "Get out of my way and let me kill this Azure Sea Blue Demon."

Yu Ji's eyes were cold. "Did you not know what you were doing when you said that to the super expert?"

Yu Yue said hoarsely, "He's just an Azure Sea Blue Demon. Is he really anything?"

Yu Ji said coldly, "Yu Yue, don't overestimate yourself. Your identity is no more honorable than an Azure Sea Blue Demon... Have you forgotten Lord Chi Xuehuan? Do you dare to provoke him?"

Han Fei didn't feel happy at all when Yu Ji protected him.

Did those idiots really think that the expert was gone?

Of course not! That kind of expert could likely sense the whole world and might be still observing them.

Han Fei's real purpose to attack Yu Yue at the risk of becoming a public enemy was not to get back at him, but to let Yu Yue slap him.

That slap didn't hurt him, but it showed that Yu Yue was stronger than him.

So, Han Fei was merely putting on an act, which he believed was worth it since someone was watching!

A Half-Merman roared, "I have a question. How could a newly-awakened Azure Sea Blue Demon have resisted the pressure of such an expert?"

"Exactly. He had already slipped to Yu Yue's back before we realized what was going on. He's much more skilled than someone who has just awakened."

Even Yu Ji couldn't help but look at Han Fei... Just now, even she didn't sense that Han Fei slipped away, either.

She was quite surprised at his capabilities.

Yu Ji looked at Han Fei. "Yu Gan, how did you weather through the pressure of the expert?"

Han Fei stared at Yu Yue. "I vomited blood and then I was fine."

All the Half-Mermen were dazed. They all saw Han Fei vomit blood just now, but they thought that it was because he couldn't hold back the pressure.

However, it seems that the guy had offset the pressure of the expert by vomiting blood.

"What a smart Azure Sea Blue Demon."

Tens of thousands of kilometers away, a middle-aged man slightly frowned. "Interesting. He must be an Azure Sea Blue Demon awakened from a rather smart creature... However, he's just an inferior sea demon no matter how smart he is. It's impossible for him to grow into an expert..."

The middle-aged man only paid some attention to Han Fei and his team.

Then, he murmured, "What a great method to cover up the secret. This human being must've been dead already."

As a matter of fact, he had launched 22 clones to a range of 100,000 kilometers at the same time.

It meant that 21 more teams were interrogated at the same time as Han Fei was, although he didn't know any of that.

At this moment, Han Fei hid himself behind Yu Ji as if he was quite vigilant.

Yu Ji's eyes glittered as she saw that. This Azure Sea Blue Demon was rather special. He must've been a smart and vengeful creature before his awakening.

Yu Ji couldn't help but realize that the further they explored the sea, the more experts there would be! Even an Azure Sea Blue Demon awakened in this place was so special.

All of a sudden, Yu Ji thought of something. Could this Yu Gan be...

She simply roared, "Okay, enough of this. Yu Yue, don't say that I didn't give you a chance. I'll personally execute you next time you set up a teammate."

"Humph!"

...

After encountering the expert, everybody was too terrified to explore any further.

Also, the fact that they ran into a human expert was enough for them to report.

Half a month passed.

It had been more than a day since he was last scanned. Han Fei sensed that the expert must've abandoned observing them.

Han Fei was rather relieved. He wondered where Chun Huangdian and the middle-aged man were from.

He did know that they couldn't have been from the Thousand Star City.

The experts in the Thousand Star City couldn't have been so strong as to overshadow him in a head-on clash after suppressing their level.

If they were really so strong, they would have eliminated all the sea demons in the Unknown Place.

During these days, Yu Ji had been teaching Han Fei simple battle techniques of sea demons.

At this moment, Han Fei was spinning a harpoon and created a water shield.

Not far away, arrows were thrown to Han Fei like spears, but they were minced by the shield the moment they touched it.

Yu Ji shouted from aside, "Yu Gan, 'Transient Golden Spear' isn't just about defense. You can try to split the water apart and pierce the shell."

Han Fei roared and waved his hand. Like a surging wave, he narrowly dodged the Arrowhead Shell's attack.

Cold spots of light shined on the harpoon, and Han Fei easily stabbed through the Arrowhead Shell.

Yu Ji's eyes glittered. "Okay, enough training for the day. Yu Gan, you've made tremendous progress."

Han Fei almost couldn't refrain from rolling eyes at Yu Ji. *Is it really something to be proud of to kill an Arrowhead Shell? To think that I have to pretend to do this and that every day...*

But on the surface, Han Fei grinned as if he felt happy to be praised.

Some of the Half-Mermen were jealous. One of them said, "Yu Ji, this Azure Sea Blue Demon is really making fast progress! He might really become your guard someday."

Yu Ji shook her head. "I never want Yu Gan to follow me. All sea demons are compatriots. I'm only directing him."

Someone smiled casually. "It's more like enlightening than directing. Yu Gan will surely remember you forever as his teacher."

Han Fei secretly complained, *Like hell I will! You want me to thank you after you named me dried fish?*

Yu Ji didn't respond but remarked casually, "We'll return to the Ten Thousand Demon Valley in five days. The Sea Demon Mountain must be where that expert showed up earlier. We'll just report the matter."

Han Fei had heard of the "Ten Thousand Demon Valley" a lot of times. It must be the place where sea demons gathered.

He wondered if there would be sea demons who were strong enough to see through him. A trip there was more like a gamble. Han Fei had thought more than once to slip away, or to kill those sea demons.

However, those jerks were rather lucky. They didn't encounter a single treasure trove, and the creatures they ran into all fled.

After another day, Han Fei finally found a treasure trove.

He was almost moved to tears at that time.

Who said that there were as many treasure troves as stars in the sky? I haven't seen any of them in the past half month.

It was a place full of coral, which had nothing but white and gray left. The whole area looked like a rising hill.

Han Fei would've neglected the place, but he noticed a white lobster that seemed to be short of spiritual energy and looked quite weak.

Han Fei's first thought was that some creatures here would absorb the spiritual energy in living creatures.

His second guess was that some poison here killed all the creatures nearby, and those who managed to survive all suffered from albinism.

"Hiu!"

None of the others paid any attention to the place, as there were too many unusual places in the sea for them to explore.

But Han Fei was rather tempted. He secretly controlled the Void Chains to whip the coral.

Someone roared, "Wait, something is wrong. I sensed something from the coral."

Someone said, "I sensed it too just now, but the noises are gone now."

Yu Ji instructed, "It seems that a treasure trove must be appearing under the coral. Let's go and look for it."

Nobody was in a rush at the mention of a treasure trove. They felt comfortable since they were near their base.

Han Fei descended with Yu Ji who glanced at him and said, "Yu Gan, don't be too far away from me."

Han Fei nodded.

As an array master, Han Fei was observing the terrain. After a quick glance, he already knew that there was a grand Spirit Gathering Array somewhere below the ground.

Not just that, it seemed to be also mixed with an evil array that could absorb vitality.

Han Fei didn't notice it at first, but after about a five minutes' search, Han Fei found that he dropped 20 points of spiritual energy.

It was too small a number to be detected. Han Fei probably wouldn't have recognized it either if he couldn't see his own stats.

Han Fei tore off a dry piece of coral and licked it.

A Half-Merman laughed. "Hey, Yu Gan! You dork. Are you eating dry coral?"

Another Half-Merman smiled. "This Yu Gan seems rather silly. He couldn't have been a smart fish before he was awakened."

Han Fei ignored them. He found that the Heaven Spirit Detoxifying Insect in his body moved, which told him that there was a colorless, odorless and unknown poison in this place.

“Awesome. A grand Spirit Gathering Array is set up here, yet it remains undetected. There must be a powerful barrier at the bottom of the sea. Where can it be?”

#### **Chapter 746: I'll Watch You Cry Later**

A moment later, Han Fei realized that the poisons were spreading out of a crevice from some rocks at the bottom of the sea.

A Half-Merman asked, “Are you sure this place is weird? It looks absolutely safe to me! Although the coral is all dead, other creatures are still coming to this place, which means that this place can't be dangerous.”

Yu Yue echoed him, “We might be overthinking. If there were a treasure trove among the coral, it should've been found by the Ten Thousand Demon Valley.”

Yu Ji nodded. “You're right! We'll search for a while longer and leave if we don't find anything.”

Han Fei sneered. *You want to leave? Not so easy. This treasure trove works well with its poisons and its grand Spirit Gathering Array that can absorb vitality.*

It meant that spiritual energy must be gathering down below, and that there had to be some poisonous items that could swallow vitality. Whether or not they were alive, they would cause trouble to intruders.

So, Han Fei “accidentally” touched the rocks.

*Crack!*

The crevice on the rocks quickly expanded.

All seven of them instantly detected it, and Han Fei looked around in confusion.

In the next second, Yu Ji arrived first and stared at the crevice thoughtfully.

Yu Yue glanced at Han Fei and patted the rocks.

*Crack!*

The crevice got even bigger.

Someone asked in surprise, “Something is wrong with the rocks! They seem to be vaguely absorbing spiritual power, but it's very trivial and almost negligible.”

Someone looked at Han Fei. “Yu Gan, how did you find it?”

Han Fei looked at Yu Ji in confusion. “I... Don't know!”

Yu Yue grinned. “He was just lucky to touch the rocks and expand the crevice. It was just a coincidence.”

Yu Ji believed that too. After all, Han Fei had been awakened as an Azure Sea Blue Demon hundreds of thousands of kilometers away, and he couldn't have been to this place.

If Han Fei had seen through the entrance of the treasure trove, he wouldn't have looked so confused.

Yu Ji swung her harpoon and cut the rocks apart without using much strength.

Han Fei was surprised at the fragility of the rocks, which probably would've cracked on their own one or two months later even if he hadn't found them.

Han Fei couldn't help but wonder how long the rocks had been there, and why they were so fragile...

After the rocks fell apart, an unremarkable round hole appeared in front of everybody's eyes. Instantly, Han Fei saw that he lost five points of his back up spiritual energy.

"Huh? The core of the array is broken. The barrier is unfolded. Clearly, there must be more defenses down below."

Someone said, "Yu Gan, you go down first."

Yu Ji glared at him. "Why don't you go down?"

The guy was lost for words. "Yu Ji, aren't you getting too defensive of him? Even if you're raising him as your guard, shouldn't he be leading the exploration in moments like this?"

Yu Ji frowned. "He's not weak, but he cannot use his strength freely yet... I'll go down."

"Let me..."

Han Fei simply stood in front of Yu Ji and blocked her. Yu Ji was rather dazed.

It was the first time that Han Fei stood in her way. Obviously, he didn't want her to take the risk.

Yu Ji thought to herself, *It's true that you can't receive sincerity until you treat others sincerely.*

What Yu Ji didn't know was that Han Fei volunteered to go down because he wanted to get the treasures first and set up a few traps. How could he do anything if others went down first?

Han Fei said indifferently, "Wait for me to come back."

After that, Han Fei jumped into the hole without hesitation.

After he landed, what Han Fei saw first was sediment that looked like lime powder. There were a lot of ivory stones and translucent crystals in this place. There was no telling where the narrow long tunnel led to.

Then, Han Fei looked back and checked if he could get back. As he expected, he couldn't even spread his senses out. It was true that it was impossible to get back now that he was in.

Instantly, Han Fei grinned. "Damn it, I've been holding myself back for too long. Sons of b\*tches, let's see how I'll kill you later..."

Han Fei had been paying attention to the loss of spiritual energy. He found that his spiritual energy was dropping at about five points per second.

That was already a dreadful speed! If anyone stayed here for half an hour, they would basically run out of spiritual energy without the supply of spiritual fruits.

“Tsk, tsk. This place is interesting!”

Han Fei went straight into the treasure trove. He couldn't go back anyway, which gave him a good excuse to explore it. If anyone followed them into this place, it would be a great opportunity for him to kill them.

Moving ahead, Han Fei found a rather spacious undersea cave. All the rocks in the cave were pale white. He sensed that the Heaven Spirit Detoxifying Insect in his body jerked now and then. Clearly, there were poisons in this place.

When Han Fei looked at the center of the undersea cave, he couldn't have looked more awful.

This place was not a treasure trove at all, but a place where poisons were gathered.

What Han Fei saw was a Fateful Poison Grass.

According to “A Complete Collection of Spiritual Plants in the Infinite Ocean”, the Fateful Poison Grass was a special poisonous plant that had two phases.

When it was immature, it was known as Fateful Poison Grass and was extremely lethal. It could corrupt both the body and the soul and kill anyone in three days.

When it became mature, it was known as Fateful Holy Grass that contained infinite vitality and could even let whoever ate it break the soul barrier.

What Han Fei saw wasn't mature yet, but it was about to be.

A maturing Fateful Poison Grass required abundant spiritual energy and vitality as nutrition. It was perhaps why it was absorbing vitality and spiritual energy more vehemently, and why the treasure trove was exposed.

Han Fei's eyes flashed. He would never touch the Fateful Poison Grass, which still needed months to mature.

He didn't have several months to wait for the grass to mature. However, the maturation could be boosted by additional vitality and spiritual energy.

Personally, Han Fei couldn't afford such a thing, but there were still seven Half-Mermen outside. It seemed a fair deal to ripen the Fateful Poison Grass with them.

Of course, that was on the premise that those people didn't recognize the Fateful Poison Grass.

Otherwise, it was possible that they would kill him and feed him to the Fateful Poison Grass.

The problem was that any spiritual plants had guardians. After all, there were creatures at the bottom of the sea everywhere, and some of them must've benefited from the spiritual plants during their growth. The strongest of the creatures would gradually evolve into guardians.

The guardians would fight too, and only the strongest could survive.

Han Fei hadn't seen any guardians yet, but the Fateful Poison Grass's guardian couldn't be simple. First of all, it couldn't have been dependent on spiritual energy or vitality. Secondly, it had to be resistant to poisons too.

Such a creature was a monster by itself. Han Fei wasn't confident of dealing with it unless he resumed his human form.

"Forget it, let me get those guys down here first."

This treasure trove contained nothing but the undersea cave, which was only three thousand square meters. Although the Half-Mermen might use him as fertilizer, it wouldn't be a problem if he had set up the Poison God in advance. It was impossible for them to escape anyway.

...

*Dum! Dum! Dum!*

The coral shook slightly, but Yu Ji and the others could all sense the noise.

Yu Ji thought, "Yu Gan is knocking the wall down below. He must've confirmed the safety of the place."

Yu Yue's eyes widened. "Don't trust him yet. What if accidents happened in the treasure trove?"

A Half-Merman said, "Let's wait for a while longer. The trove is right here anyway. We can always come back later."

However, someone else disagreed. "Later? If there are any treasures inside, do you think you and I can get a share?"

Yu Ji simply ignored them and stepped into the treasure trove.

The moment Yu Ji entered, she saw a harpoon stabbing at her. She subconsciously thought that Han Fei was ambushing her.

But in the next moment, Han Fei put the harpoon back and said to her, "I'm... Trying to get out."

Yu Ji frowned. "What's down below?"

Han Fei said, "My spiritual energy is vanishing."

Yu Ji turned grave too. She sensed herself and found that the spiritual energy in her body was truly dwindling.

She had misunderstood Yu Gan. She thought Yu Gan was calling them to come down, while in fact, he was trying to get out.

But it was already too late. She saw that all the Half-Mermen had come down one after another...

A moment later, a Half-Merman roared, "Bastard, I knew that the Azure Sea Blue Demon wasn't trustworthy! We're all trapped in this place!"

Yu Ji frowned. "Seeking survival is every living creature's instinct. Do you expect him to wait and die in this place?"

Yu Yue sneered, "In any case, we've all been tricked into this place by the noises he caused. If we can't get out, I'll kill this Azure Sea Blue Demon first."

"Hiss!"

Han Fei grimaced at Yu Yue, as if he was very angry.

Actually, Han Fei couldn't have felt better as he muttered, "Just be arrogant while you can. I'll watch you cry later."

### **Chapter 747: A Fearsome Guardian Creature**

Although Yu Yue and the others wanted to kill Han Fei, they had already come down, and for the sake of Yu Ji, they couldn't attack him now.

They were already here. Instead of fighting Han Fei, they would be better off to find a way to break the seal right away.

However, when they saw the Fateful Poison Grass, they all looked astonished.

Someone exclaimed, "This, this is not a secret realm! It turns out to be a spiritual-plant barrier."

Yu Yue's eyes flickered. "A spiritual plant that can produce a barrier is a rare treasure."

Yu Ji frowned and glanced at Han Fei. "Yu Gan, you came first. Why didn't you pick it?"

Han Fei replied straightforwardly, "I dare not!"

Hearing Han Fei's words, everyone withdrew their eager gaze.

Just now, what was in their mind was that this was a rare treasure.

However, how could a spiritual plant conceived between the heavens and earth not guarded by a spirit?

Upon hearing this, Yu Ji nodded. "Good thing you didn't do it. Otherwise, your life might have been in danger."

At this moment, a Half-Merman said, "If the seven of us join forces, no... The eight of us join forces, no matter how powerful the guardian creature is, we'll be able to solve it. As long as we pluck this spiritual plant, the barrier will also be removed."

Someone agreed. "Yes! No matter how strong the creature is, we'll be able to beat it since there are so many of us. Let's do it."

Yu Yue looked at Yu Ji. "What do you think?"

Yu Ji nodded. "Yes, we can take it together. As for who will own this spiritual plant, let's decide it when we return to the city."

Yu Yue grinned. "Okay! That's what I want to know."

After that, Yu Yue looked at Han Fei. "Don't hold us back, okay? Now let's go!"

Han Fei thought to himself, *I must hold you guys back! But these sea monsters are so ignorant! They couldn't even recognize Fateful Poison Grass.*

But it was understandable. This thing wasn't even listed in the "Encyclopedia of Spiritual Plants", but only in "A Complete Collection of Spiritual Plants in the Infinite Ocean".

Yu Yue and the other six had rushed towards the Fateful Poison Grass.

Han Fei was speechless. As the saying goes, the one who knows nothing fears nothing! How do you dare to touch the Fateful Poison Grass? Are you tired of living?

Han Fei had considered plucking that plant just now, but even if he had the Heaven Spirit Detoxifying Insect, he dared not do it.

He wasn't sure whether the Heaven Spirit Detoxifying Insect could protect him. This was the Fateful Poison Grass after all!

According to Han Fei's judgment, the answer was no. Maybe when he just touched it, the Heaven Spirit Detoxifying Insect would explode with too much poison!

However, the Fateful Poison Grass was going to mature, and he wouldn't give it up.

However, no matter whether he could resist the plant's poison, at least he hadn't seen its guardian creature yet. Han Fei was not in a state of invisibility, so he certainly wouldn't rush up recklessly.

Han Fei followed behind Yu Ji, vigilant.

*Swish!*

Just as the eight people rushed towards the Fateful Poison Grass, suddenly there was a loud bang and a Half-Mermaid, like a shell, was sent flying. Her body was embedded into the rock.

"Watch out."

As soon as Yu Ji shouted, half of another Half-Merman's body suddenly disappeared.

Then, that half of the body twitched frantically, and blood spurt in all directions. This horrible scene stunned everyone.

Han Fei was horrified too. Fortunately, he didn't make a move just now. The guardian creature turned out to be invisible! That was really scary!

Yu Ji shouted, "Yu Xin... The guardian creature is invisible and extremely powerful."

Yu Yue roared, "Attack with all your strength!"

In an instant, Yu Ji, Yu Yue, and another Half-Merman put on a golden battle suit, held a golden harpoon and were burning with white flames at the same time.

Seeing this scene, Han Fei blinked, and then a faint red light appeared in his eyes. However, this invisible guardian creature couldn't notice the flow of spiritual energy. In fact, this guardian creature had no spiritual energy at all.

If he guessed right, this creature not only didn't have spiritual energy, but also had no vitality. It had to be some kind of immortal creature.

Only in this way could it be completely invisible just like Little Black. Although it had already attacked its opponent, no one could even find its location.

However, in Han Fei's eyes, a touch of a huge, intangible figure appeared in his field of vision. That thing was completely transparent, and he could only see its general position, not its body.

Han Fei secretly took a breath. According to his observations, this creature was unimaginably huge. It was ridiculous that those Half-Mermen tried to beat it with the advantage in number...

In Han Fei's eyes, information emerged:

<Name> Ghost Eel

<Introduction> It's the hybrid product of the Ghost Serpent and Black Shadow Eel and has fused with the bloodline of the primitive ghost. It likes to eat death aura and fears vitality and soul attacks. With sharp teeth of the void, it can crush all weapons inferior to Divine Weapons. The force of its tail can reach 6 million kilograms.

<Level> 53

<Quality> Legendary

<Spiritual Energy> 0 points

<Effect> Inedible

<Collectible> Tooth of Void

<Unabsorbable>

Seeing this information, Han Fei was shocked. Isn't this goddamn creature invincible? It has no spiritual energy and even no body. As for fear of vitality, what kind of weakness is this?

As for soul attack, unlike Zhang Xuanyu, Han Fei hadn't practiced soul attack techniques.

At this moment, Han Fei couldn't help but regret it. Before, in order to find Xia Xiaochan, he gave up learning the Soul Splitting Technique, and then he never got a chance to learn it. This meant that he seemed to be unable to do anything to this legendary creature.

Han Fei tried touching the ghost eel, and the next second, he was suddenly thrown out like a cannonball. And his whole body was directly embedded in the rock wall.

"Yu Gan!"

Yu Ji was shocked. "Can you vaguely see where this guardian creature is through the vibration of the water?"

In the rock, Han Fei quietly sneered. *Yes, but so what? Its body is as long as a hundred meters. Only a fool would want to fight it head-on.*

The Half-Mermaid who was also embedded in the rock wall had struggled out. With a roar, she fused with her Associated Companion, and a bunch of tentacles appeared on her body.

Yu Ji seemed to have found the location of the ghost eel. She injected billowing spiritual energy into her harpoon and flung it out. Behind her, a golden glowing water-shaped phantom erupted.

Yu Ji located this invisible fish through the vibration of water, which was quite effective!

At this moment, Yu Ji shouted, "Launch a soul attack. Ordinary attacks have no effect on this guardian creature."

A strange light flickered between a Half-Merman's eyebrows and shot out, attacking the ghost eel's soul.

"Hooooooo!"

The guardian creature let out a howl that seemed to come from hell and swallowed the Half-Merman whole almost at the same time as the strange light appeared between the Half-Merman's eyebrows.

*Crunch!*

The Half-Merman was crushed directly. This scene sent a chill down Han Fei's spine.

There were already two others who had been killed by this thing.

At this time, the air vibrated, and the Half-Merman who was bitten only half left appeared again, his face full of horror.

He roared, "This guardian creature is too horrible! We can only kill it with soul attacks."

Everyone was speechless. We don't need you to tell us this, OK? Yu Li had just launched a soul attack but ended up being eaten like a jelly bean.

A Half-Merman summoned his Associated Companion, let out strange sound waves, and charged at the ghost eel.

"Hooooooo!"

*BAM!*

He was whipped away by the guardian creature's tail and rolled over 500 meters on the ground. As soon as he stood up, his Amulet suddenly appeared, and then it burst to pieces and he was only half left.

This scene horrified everyone. How is it possible to beat this monster? Are soul attacks invalid to it? This goddamn monster ate a Half-Merman in one mouthful!

Yu Yue panicked. "Goddamn it, this guardian creature is over level-50. Everyone, let's activate all our secret methods, and at the same time, launch soul attacks on it... Huh? Where are you?"

Han Fei felt it was improper for him to keep staying in the rock wall, so he suddenly roared and flung his harpoon into the air.

Yu Ji cried, "Idiot, go back."

*BAM!*

Han Fei was embedded in the rock wall again, and blood spurted out of his mouth. However, he didn't care and even licked the blood on his lips with satisfaction.

*Yeah! I should show them I'm working hard. I was hit twice in a row, although I didn't have an Immortal Seal. I've already fought with all my strength. Everyone saw it... Now let me lie down for a while.*

The two dying Half-Mermen reappeared with the help of their Immortal Seals. At this moment, weird white lights flickered between the eyebrows of the seven Half-Mermaids, which turned into soul attacks, and blasted towards the Ghost Eel.

"Roar... Roar..."

The rock wall was shattering, and the white underground crystals were broken all over the ground.

Sure enough, although the ghost eel was powerful, it still couldn't withstand the soul attack of seven Half-Mermen. It was badly wounded by the attack.

However, in Han Fei's eyes, the Ghost Eel had already pounced on a guy who had just used the Immortal Seal.

The man was panting, intending to fight back again. However, all of a sudden, the spiritual energy in his body suddenly stagnated.

He gaped in shock. Did someone impose a seal on his spiritual energy?

Who did this?! Before he figured it out, however, the Ghost Eel bit him into two pieces again.

Immediately afterwards, a breath of horror came. This person also had a Dying Strike! However, it was no match for the horrible deadly breath.

So, this Dying Strike only existed for a second before it disappeared.

Yu Ji shouted, "Yu Li, dodge it fast."

Yu Li was one of the Half-Mermaids who had used the Immortal Seal just now. Yu Ji felt that this Ghost Eel must have a high degree of wisdom.

In fact, Yu Ji got it right.

This Ghost Eel did choose to fight the three of them. However, its goal was not Yu Li, but another guy.

"Puff!"

Han Fei's sealing technique was activated again.

How could that Half-Mermaid expect this! He was about to attack when the spiritual energy and demonic energy in his body suddenly stopped flowing, and he was bitten to death immediately.

Immediately afterwards, the horrified Yu Li fled in haste because he couldn't find the location of the Ghost Eel.

Yu Yue yelled, "Stop running. Everyone, let's launch another soul shock."

Just as Yu Yue was yelling, Yu Li's body stiffened, and he was bitten in two again.

In a blink of an eye, three of the seven powerful Half-Mermen had died, which made Han Fei very happy.

Han Fei secretly said, *Good job, big guy! Now solve that troublemaker, Yu Yue. I can help you!*

### **Chapter 748: Vengeful Yu Gan**

Han Fei didn't care about the death of the three Half-Mermen at all.

However, the remaining ones were more difficult to deal with. It wouldn't be so easy to kill them.

At this moment, Yu Ji's eyes had turned white, and a soul storm rolled up in the sea cave. The other three initiated an astonishing soul attack almost at the same time.

This surprised Han Fei. Was every Half-Mermaid and Half-Merman capable of soul attacks?

Although their attack intensities varied, they were all capable of soul attacks, while among humans, very few people were capable of mental attacks or soul attacks.

Even Han Fei himself was not capable of soul attacks.

The Ghost Eel was certainly not invincible. After being attacked several times, although it was a legendary creature, it could not hold up to such powerful mental attacks. This was the third time it had been hit, and the rocks shattered all over the ground.

Yu Ji shouted, "Yu Gan, go grab the spiritual plant. We'll hold off this creature."

Han Fei couldn't believe what he heard. *Do you know how poisonous this thing is? Grab it? Me? I'll be poisoned. Without an antidote, ordinary people would die in three days after touching this plant. Are you kidding me?*

However, at least he didn't need to fight now! The Ghost Eel could at least kill one more Half-Mermaid.

As for him?

He was dripping with blood, struggling and climbing out of the rock wall. After he got out, he rushed directly to the Fateful Poison Grass.

How could the Ghost Eel let Han Fei grab the plant? It roared and swung its huge tail at Han Fei. At the same moment, a Half-Mermaid was shining with a golden light behind, and a big water-shaped hand, clenched into a fist, smashed towards the ghostly shadow of the Ghost Eel.

*Boom... Bang...*

The huge force of 6 million kilograms directly whipped him far away. His bones were probably broken by nearly half.

However, Yu Yue followed closely, slashing his golden harpoon at the Ghost Eel's tail and forcing it back. In Han Fei's perception, a small part of the tail was split in half.

*Good lord, Yu Yue is quite strong.*

Yu Yue shouted at him, "Yu Gan, quickly grab the spiritual plant. If you dare to play any tricks, I'll kill you."

Han Fei rolled his eyes. *You might as well kill the Ghost Eel first! Anyway, I'm just an onlooker. Grab the Fateful Poison Grass? Haha, no way.*

Han Fei took the opportunity and stretched a hand on the Fateful Poison Grass. As a result, the next moment, a circle of barriers appeared. Then, Han Fei directly fell on the ground, convulsing all over.

Yu Ji brandished her harpoon, trying to parry the mouth of the Ghost Eel, only to be thrown to the rock wall, bleeding all over.

But seeing Han Fei convulsing, Yu Ji immediately shouted, "No, there is a problem with the spiritual plant."

Han Fei was still struggling to get up, and finally fell down again, saying with difficulty, "It's... Poisonous..."

In Han Fei's body, the Heaven Spirit Detoxifying Insect was moving. A gray mist had already been dragged in front of him, and the insect began to eat it one mouthful after another.

Han Fei was lying next to the Fateful Poison Grass, feeling that the spiritual energy and vitality in his body were being swallowed bit by bit.

He wondered, *Haven't those creatures run out of spiritual energy yet? In such fierce combat, the spiritual energy stored in their bodies should have been used up.*

Sure enough, as Yu Ji roared, the Half-Mermaids initiated their secret method almost at the same time again.

"Hoooooo!"

*Hum!*

In a milky white mental attack, a Half-Merman was rammed to Han Fei's side by the Ghost Eel, and the barrier guarding the Fateful Poison Grass was smashed.

This Half-Merman glanced at Han Fei who was lying on the ground, looking shocked. This thing is poisonous?

When he looked at his hands, he found that his hands were already grey and black.

He roared, "Be careful! This plant is toxic, very toxic!"

Unfortunately, it was too late. The Ghost Eel whipped Yu Ji and Yu Yue away and then bit at this Half-Merman. In just one bite, it swallowed him.

Han Fei shivered. This Ghost El is really fierce! It actually fought against seven Half-Mermaids and Half-Mermen alone! Its strength is horribly strong.

Han Fei couldn't help but guess, are all creatures above the legendary level so strong?

If Nine Tails and Little Gold reach level-53, it'd be easy for them to beat these Half-Mermaids, right? Especially Nine Tails, he'll be able to beat one to death with a single whipping.

As for Little Gold? Haha, its Lightning Blade could easily kill two or three at one go.

“Possessed By Sea God!”

A huge phantom tens of meters high suddenly erupted from Yu Ji's body, holding a golden dazzling harpoon, and in a flash, the phantom nailed the Ghost Eel not far from Han Fei.

Han Fei was shocked. *The Ghost Eel actually revealed its physical body! What kind of an attack was this? Possessed By Sea God? What was the difference between sea god and sea king?*

However, Yu Ji, drenched in blood, didn't seem to feel well either and seemed to have suffered some serious backlash.

The Half-Merman who had just been killed appeared in the air again. His Immortal Seal had been used, and he looked ghastly pale at the moment.

Han Fei sighed secretly. Sure enough, strong as the Ghost Eel was, who was a level-53 legendary creature, it was still going to be defeated.

It was not that it wasn't strong enough. It was already horribly strong.

However, its opponents were all Heavenly Talents who had two lives and were capable of soul or mental attacks.

So it didn't stand a chance! No matter how powerful it was, it was desperately outnumbered!

Another Half-Mermaid, half of whose bones had been broken, rushed over, slashed the Ghost Eel hard, and plunged his golden harpoon fiercely into the head of the Ghost Eel.

Yu Yue vomited a mouthful of blood and said, “OK, this damn thing is dead. My question is, what kind of spiritual plant is this? Why is it so poisonous?”

However...

Yu Yue had just relaxed and was about to walk away when the sudden change occurred.

“Hooooooo!”

As the phantom curled up, the Ghost Eel directly engulfed the two of them, and a horrible power suddenly erupted.

“Puff...”

“Puff... Cough...”

At that moment, Yu Yue didn't even have time to react, and his two companions were directly rolled like a meatloaf.

After the final blow, the Ghost Eel stopped moving as if it was going to die anytime.

Han Fei's eyes flickered, thinking, *Anyway, the Ghost Eel is invisible. Collect...*

However, he failed to collect the Ghost Eel into the Demon Purification Pot. Han Fei immediately said to it through voice transmission, *Big guy, I am a good man. I want to save you. Don't resist! When the opportunity is right, I will help you kill these guys.*

The Ghost Eel shook slightly, and Yu Yue was so frightened that he dared not rush forward, but stood tens of meters away and observed it secretly.

“Collect.”

Immediately, the huge Ghost Eel disappeared out of thin air, which startled Yu Yue, and Yu Ji who was seriously injured.

When another Half-Merman appeared in the air, he immediately stayed away from the Fateful Poison Grass with a swish. “Where is that creature?”

Han Fei was speechless. There were only three people left!

Yu Ji was covered in blood all over and dying, panting with her back leaning against the rock wall.

Yu Yue and the other Half-Merman were in relatively better condition.

At this time, Yu Yue didn't go to study the Fateful Poison Grass but came to Yu Ji. Tilting his head, he inserted his harpoon into Yu Ji's heart.

Han Fei's pupils constricted at this scene. *What the f\*ck did he do?!*

Yu Yue glanced at the other Half-merman and said, “Yu Fei, can you still endure this woman? Kill her, take her Sea Swallowing Seashell, and you and I will rise.”

Yu Fei was stunned. “Well... Yu Ji has an Immortal Seal.”

Yu Yue sneered. “So what? In the previous blow, she used the sea-god secret method and consumed too much energy! Even if the Immortal Seal can protect her from death, it cannot guarantee her recovery. After all, she is still extremely weak.”

Yu Fei's eyes flickered. “Then how shall we explain this when we go back?”

Yu Yue said coldly, “She died in the battle! Yu Li and the others were all killed in the battle, so was she!”

Han Fei continued to lie on the ground, pretending to be dead, but his brain was racing. *This Yu Li is really relentless! I'm afraid it has been a long time since he wanted to kill Yu Ji...*

The air vibrated, and the very moment Yu Ji appeared, she took to her heels. However, another terrifying Sea God Strike broke out, directly nailing her to the ground.

Yu Ji's eyes were a little glassy. “Yu Yue, you are so ruthless.”

“Hahaha... Didn't you always boss me around? Didn't you look down on me? You never treat me properly. Do you regret it?”

Yu Fei held the harpoon and was struggling. He knew that at this time, Yu Yue, in fact, almost had no energy to fight again. Should he take the opportunity to kill Yu Yue?

However, whether it was Yu Ji or Yu Yue, they both had a Dying Strike.

That power might be useless against the Ghost Eel. However, he could hardly resist it.

Yu Yue looked back at him. "Throw Yu Ji onto the spiritual plant's barrier and poison her to death."

Yu Yue was not stupid. If he killed Yu Ji, it would inevitably initiate her Dying Strike. Then he wouldn't be able to live either! However, if Yu Ji was poisoned to death, maybe her Dying Strike could break the barrier?

Seriously injured, Yu Ji said with difficulty, "Yu Yue, if you kill your own kind, you will eventually be judged."

*BAM!*

He hit Yu Ji's head hard with his harpoon. "Who do you think you are? Where is your usual bossy air? I will step on your corpse and become one of the leaders of the new generation."

Yu Ji was knocked stunned by this blow! Seeing this scene, Han Fei was dumbfounded. It turned out that there was no harmony among the sea monsters.

Sure enough, where there was intelligent life, there would always be competition.

Yu Yue grabbed Yu Ji's hair and dragged her towards the Fateful Poison Grass.

On the way, he glanced at Yu Fei. "Smart people know how to choose."

Yu Fei immediately bowed his head. "Yu Fei is willing to follow Master Yu Yue."

"Hahaha... Puff..."

Yu Yue was laughing out loud when his neck was suddenly pierced. He looked at Yu Fei and then looked down at Han Fei who was lying on the ground, his eyes almost popped out.

Han Fei waved his hand. "Surprised?"

Yu Yue: "???"

### **Chapter 749: Yu Yue, Defeated**

Yu Yue was dumbfounded. This feeling of falling from the peak made him feel as if struck by lightning.

How could this damn Yu Gan be still alive?

This damn Yu Gan had been pretending to be dead?

However, he had no time to think about it. He had already used his Amulet. Therefore, he couldn't dodge Han Fei's attack at all.

Han Fei felt the air vibrate and perceived a strange force dragging Yu Yue away. Except for the last time he experienced the Immortal Seal, this was the second time he experienced the Immortal Seal.

"Huh! Space fluctuations?"

Before Han Fei could feel it well, the space fluctuation disappeared. Han Fei knew that it was a certain power of the Immortal Seal, which dragged Yu Yue into a certain mysterious realm.

It was a pity! If he could grasp this space fluctuation, would he be able to ignore the opponent's Immortal Seal and kill him directly?

As soon as Yu Yue died, Yu Fei tried to escape from Han Fei in panic.

However, how could Han Fei let him escape?

When Han Fei took action against Yu Yue, he had ordered the Void Chains to block Yu Fei's way, and Little Fatty took the opportunity to hold Yu Fei's limbs.

Han Fei flung the harpoon in his hand. Horrible powers gathered, and in the blink of an eye, it had pierced the ultra-quality battle suit on Yu Fei's body.

"Who are you?"

Yu Fei was extremely shocked.

Han Fei's shot was too fast! At the moment of Yu Yue's death, he was already bound. Was this guy really a low-level sea monster?

Han Fei swam dozens of meters with Yu Fei's body skewered on the harpoon and slammed the Golden Seal against his forehead in one fell swoop.

*Clang!*

Yu Fei only felt his head explode, but this was just the beginning! The surrounding seawater turned into water daggers that enveloped Yu Fei.

Then Han Fei withdrew Nine Tails and Little Fatty and slipped away in case this guy had a Dying Strike in his body.

Besides, the air vibrated at this time, and Yu Yue was about to come out.

Han Fei issued an order in his heart and Little Gold appeared.

When Yu Yue came out, Han Fei looked at him all smiles. "Hi, bye... Lightning Blade..."

*Whiz!*

*Swish!*

Yu Yue dropped dead.

Before he died, the only thing in his mind was how Yu Gan could be so strong!

A horrible power broke out. Yu Yue was obviously not an ordinary person. The Dying Strike in his body was very powerful.

As early as when Little Gold launched a Lightning Blade, Han Fei had already withdrawn Little Gold and ran towards the entrance. But that Dying Strike seemed to target Han Fei and fell on him.

*Boom!*

Han Fei held the Golden Seal in front of him as a shield and had Little Fatty attached to him but was still sent flying. He felt his bones were all broken.

“Son of a b\*tch! Luckily, Little Fatty somewhat resisted the attack, but is a Dying Strike common to see? Why has every Half-Mermaid and Half-Merman got one?”

Han Fei managed to resist this attack and only suffered minor injuries.

He underestimated the power of Yu Yue, whose strength was no weaker than Yu Ji’s.

“Cough, cough...”

After vomiting a little blood, Han Fei injected some spiritual energy into the unconscious Yu Ji.

Not long after Han Fei’s blood was spat out, it was drawn by a force to the Fateful Poison Grass.

At this moment, he felt that the vitality in his body was still slipping away.

However, Han Fei didn’t panic. Vitality could be replenished. Forge the Universe was full of tonics for life. Taking a little tonic every day, his vitality would soon be restored.

But all the dead had been stripped of their vitality, and their bodies were gradually drying up.

Han Fei hesitated, took out all these sea demon’s Sea Swallowing Seashells, including Yu Ji’s, and took away all the good things in them before he stuffed them back.

In the end, Han Fei injected a touch of spiritual energy into Yu Ji’s body.

After doing all this, Han Fei thought for a while, picked up the harpoon, and knocked on Yu Ji’s head.

“Well! You’d better wake up later! At least after this Fateful Poison Grass becomes Fateful Sacred Grass.”

Everyone’s vitality was converging to the Fateful Poison Grass.

An hour later, Han Fei could already smell the strong fragrance of medicine.

“Huh? It’s toxic.”

Han Fei discovered that the Fateful Poison Grass, which was madly absorbing vitality and transforming into a mature form, was actually dispersing toxin!

Although the toxin was not very poisonous, Han Fei wasn’t sure if Yu Ji could survive it?

Han Fei didn’t want Yu Ji to die. It wasn’t that he was afraid of being hunted by sea monsters, but that he needed someone to take her out and leave here. Otherwise, he wouldn’t even know where to go in the vast sea.

Besides, Han Fei was very curious about the Ten Thousand Demon Valley they mentioned. He wanted to sneak in with the identity of a sea monster and hide there for a few days.

Three hours later.

Yu Ji's hair was half white, and the skin on her body was a bit dry and cracked.

Six hours later.

Yu Ji's hair was all white, and her skin was full of wrinkles.

Han Fei thought about it and let his hair turn white without doing anything. But, how was he supposed to wrinkle his skin?

While thinking about it, Han Fei hit Yu Ji's head hard again.

After that, he stuffed a spiritual fruit into Yu Ji's mouth, replenishing her with some vitality.

After doing all this, he went to check the treasures he had just got one by one.

"Huh? 1000 kilograms of Spirit Awakening Fluid, it's useless, but I'll just keep it for now."

"Oh! 6000 catties of spiritual spring, only more than 6 million points of spiritual energy. Even more useless."

"Wow! Trivariant Golden Ginseng, this is a good thing. It contains a lot of energy, and I can eat it when I deduce the Void Fishing Art next time."

"Tsk tsk, 30 high-quality spiritual stones, why are you so poor? You are a Heavenly Talent: that's all you've got?"

"A piece of ultra-quality material? Huh, no! It seems to be more advanced than ultra-quality material."

He found it in Yu Ji's Sea Swallowing Shell. It was a stone glowing purple, which was called Purple Cloud Crystal and could be used to refine Divine Weapons. However, this was too small, not even enough to make a dagger!

"Sea God's Nine Combos?"

Han Fei held a jade slip, which should be an updated version of the "Sea Spirit's Three Consecutive Stings" he had previously grabbed, and it had reached the heaven-level, low-quality rank.

Han Fei pondered for a moment. In order not to arouse Yu Ji's suspicion, he'd better leave her the Divine Weapon materials! He would have plenty of opportunities to take them back later

Han Fei sorted through all the spoils and found that he got a total of 1,200 kilograms of Spirit Awakening Fluid, 19,000 catties of spiritual spring, 360 spiritual fruits, low-quality spiritual stones, as well as mid-quality and high-quality spiritual stones. And the total spiritual energy he got was about 16 million points.

As for the various materials, Han Fei basically didn't take them.

It was impossible for him to be a sea monster forever. Once he entered the Ten Thousand Demon Valley, it would be as easy as a breeze if he wanted to kill a few people.

Not only that, but Han Fei also took some things that were literally garbage in his eyes from Forge the Universe and stuffed them into their Sea Swallowing Seashells.

However, Han Fei seriously doubted that these sea monsters would save the good stuff they got instead of using them immediately.

After all, no matter how good the things were, it was safest to put them in the stomach. Otherwise, if you lost in battle and got robbed, they would belong to someone else!

According to Han Fei's calculation, the spiritual energy he had totaled more than 52 million points. It seemed to be a lot, but was actually far from enough.

If he wanted to deduce the Void Fishing Art, there was still a 48 million-point gap!

Besides, he couldn't use all the spiritual energy at once. Han Fei took a look at Yu Ji, who was still lying on the ground, wondering if her brain was damaged.

If not, she would take him to the Ten Thousand Demon Valley, right?

In a city of sea monsters, there should be many good things, right?

One day later.

The Fateful Poison Grass exuded a refreshing fragrance, and Han Fei was overjoyed.

He had prepared a box that was an ultra-quality spiritual weapon and had been waiting.

Of course, the Fateful Sacred Grass couldn't be eaten now. This stuff contained endless vitality. If he ate it now, when Yu Ji woke up, she would definitely doubt him.

When the barrier of the Fateful Poison Grass was opened, Han Fei knew that this thing had matured and had changed from a highly poisonous thing to a great tonic.

Han Fei simply plucked the Fateful Sacred Grass. However, a small piece of rhizome was left, which was rich in vitality although only nail-sized.

Then, Han Fei looked around and found that all the sea monsters had become real dried fish.

Han Fei smacked his mouth with disgust, and suddenly his body shook and he vomited blood. Then, he lay down on the ground, lying next to Yu Ji.

After lying down there for a few minutes, Han Fei pondered, gave Yu Ji some spiritual energy, and stuffed another spiritual fruit into her mouth.

Only after that did Han Fei run to the original position and got down, pretending to be seriously injured.

"Well! It should be about right now. Let's see when you wake up..."

...

Han Fei was lying there for a whole day.

One day later.

Yu Ji only felt a sharp pain in her head as if it had been hit countless times with a stick, and she felt that her skull was about to crack.

“Ouch~”

Yu Ji covered her head with one hand and suddenly found something on her body.

Looking down, it was a foot resting on her stomach. It was Han Fei’s leg. He did this lest Yu Ji forgot about him.

She was furious immediately and was about to kill this shameless b\*stard. However, then she found that it was Han Fei lying on her, whose chest heaved slightly.

Yu Ji paused and then quickly got up.

Yu Ji looked around and only found a mess in the cave with four shriveled fish lying on the ground in different poses.

Yu Ji clutched her own head, turned around with difficulty, and found that Han Fei’s hair turned grey and he was bathed in blood.

But after all, Han Fei hadn’t become a dried fish.

However, she was a little surprised. Why is Han Fei’s hair white?

Then, she looked at her own hair and immediately turned pale. Her hair had also turned white, and her skin was slightly dry and cracked.

“Yu Gan, Yu Gan...”

Yu Ji pushed Han Fei but got no response, so she turned to look at the place where the poisonous weed originally was.

However, she found that the spiritual plant had disappeared, leaving only some nail-sized rhizomes that were still exuding a small amount of vitality.

However, the vitality was not strong anymore.

After checking it carefully, she found that strong lightning once struck this place. She frowned. How could there be a bolt of lightning here, which was so strong?

However, Yu Ji didn’t find Yu Yue here. Where was he?

Then Yu Ji suddenly shivered and gnashed her teeth, cursing, “Yu Yue, how dare you?!”

## **Chapter 750: Ten Thousand Demon Valley**

Han Fei pretended to be in a coma for a while, and it wasn’t until half a day later that he slowly woke up.

The first thing he did after he woke up was to ask, “Am I not dead?”

Yu Ji was recovering cross-legged, and the few remaining rhizomes had been eaten by her, replenishing her with a little bit of vitality.

When Yu Ji heard his words, she suddenly opened her eyes. “You actually survived?! Since you weren’t dead at the time, did you see anything?”

Han Fei pretended to have a headache with a puzzled expression on his face. "It seemed... There were creatures... Getting in from the outside and fighting with Yu Yue, and after that... I don't know what happened."

Han Fei was not stupid.

People like Yu Ji definitely had life tablets. It was impossible to cover up the death of Yu Yue.

Since it couldn't be covered up, there had to be a reasonable explanation.

If Yu Ji didn't believe it, then he would just kill Yu Ji. If she did, he would find a way to follow Yu Ji back to Ten Thousand Demon Valley to enjoy life and then find a chance to escape.

He had it all planned. Now he was waiting for Yu Ji's reaction...

However, Yu Ji frowned. "So, is this the reason why Yu Yue didn't kill me? No... He left in such a hurry that he even left behind a small piece of the spiritual plant. That spiritual plant contains rich vitality. That's why we're still alive..."

Thinking that she had figured out what happened back then, Yu Ji looked at Han Fei. "I have never seen an Azure Sea Blue Demon luckier than you."

Han Fei said awkwardly, "Feigning death is an indispensable means for marine creatures to survive, and at the time I... Was badly injured."

Yu Ji: "..."

Yu Ji closed her eyes and felt it, and once again checked the traces left by the power bolt of lightning.

"It's very strong. Could Yu Yue resist the power of the lightning?"

Suddenly, Yu Ji saw a shard of scale armor in the corner, which was charred.

Yu Ji frowned. "Huh! Yu Yue's scales. Is he dead? But his body is not here... Whether he is dead or not, let's go back to Ten Thousand Demon Valley first."

...

For two consecutive days, Yu Ji and Han Fei traveled in the sea, fighting various marine creatures.

Han Fei discovered that it turned out that when sea monsters met some schools of fish, they would also run away.

It turned out that the life of sea monsters wasn't as good as he imagined.

At this moment, Yu Ji was biting a sea mussel with her teeth, which disgusted Han Fei.

*Come on, I'm here for opportunities, not to eat something like this!*

Han Fei was in a daze holding the sea mussel, and Yu Ji asked, "Yu Gan, why don't you eat it? You don't like eating sea mussels?"

Han Fei's eyelids twitched twice and suddenly breathed out a puff of demonic energy. Under Han Fei's careful handling, the sea mussel was enveloped by the demonic energy and cooked. Then, Han Fei took a bite, tearing off a big piece of it.

*Although I'm pretending to be a sea monster, I just can't eat raw food. No one can make me do it!*

Yu Ji was stunned for a while, swallowed the meat in her hand in two or three mouthfuls, and said in surprise, "You can breathe demonic-energy flames... Yu Gan, you were not an exotic creature before you were awakened, right?"

Han Fei was biting the sea mussel blankly. "I don't know."

Yu Ji smiled. "Don't worry. Although you were awakened late, your strength is not bad. Technically, as long as you master some combat skills and absorb some resources, you only easily reach the peak of the Demonization Realm."

"Oh!"

Looking at Han Fei's stupid look, Yu Ji smiled, thinking, *This Azure Sea Blue Demon is indeed a bit stupid. However, I don't know if I survived this time because of his help or not.*

Despite that, he seemed to have taken her as his boss.

Yu Ji didn't think Han Fei was an ordinary Azure Sea Blue Demon. His talent and potential were both excellent. If she trained him well, he would definitely be a good helper for her.

After another two days, the two of them went through many hardships before they arrived at the legendary Ten Thousand Demon Valley.

When they were only more than 20,000 kilometers away from the Ten Thousand Demon Valley, a group of sea monsters discovered Yu Ji and Han Fei.

These sea monsters all seemed to know Yu Ji. When they saw Yu Ji, they were very excited.

Someone said, "Master Yu Ji, I heard that you had an accident, and dozens of groups of people have been sent out to look for you."

Someone followed Yu Ji. "Master Yu Ji, it's great to see you come back safely."

Someone asked, "Master Yu Ji, didn't Master Yu Yue come back?"

Someone looked at Han Fei. "Master Yu Ji, who is this inferior sea monster?"

When Yu Ji heard someone mention Yu Yue, she scowled. Yu Yue, this bastard, caught her off guard and even forced her Immortal Seal out!

He didn't kill her just because he was afraid of the Dying Strike on her.

That was why she had a narrow escape.

But that jerk was really vicious! He even tried to make use of the spiritual plant to poison her to death!

Fortunately, other creatures broke in later! Otherwise, she would have been dead.

Yu Ji yelled, "Get out of here! I'll go to see my teacher after I visit Grandpa Yu Tong."

Standing on the side listening, Han Fei was thinking, *So did all the sea monsters have the same surname Yu? Wouldn't there be a lot of people with the same name?*

The next minute, however, Han Fei was dumbfounded.

That was because Yu Ji said, "Yu Gan, go inform Elder Yu Bo that I've returned safely."

Han Fei froze. *How the heck would I know who Elder Yu Bo is?*

But the next moment, a Half-Mermaid responded, "Yes, Master Yu Ji."

Han Fei was speechless. *Even with such a stupid name, others have this too?*

Then, Yu Ji continued, "Yu Gan, go to the warehouse and fetch me 5,000 kilograms of spiritual spring. Hurry up."

Han Fei was stunned again. *Another with the same name?*

Another Half-Mermaid jumped out. "Yes, Master Yu Ji."

"Yu Gan, go..."

"Yes, Master."

"Yu Gan, go..."

"Yes, Master."

Han Fei was stupefied. What the hell? Why are you all called Yu Gan?

"Yu Gan, come back with me."

Han Fei was thinking, but suddenly found Yu Ji was looking at him.

Han Fei's head is full of question marks. "Yes, there're so many... Yu Gan."

Yu Ji smiled and said, "We don't have many names in the Ten Thousand Demon Valley, just Yu Gan, Yu Pi... Yu Yi, Yu Er... Yu Yibai."

Han Fei didn't know what to say. *Why don't you work out more names? Gosh, there are so many Yu Gans here. Can you really tell who is who?*

Yu Ji continued, "The person I'm looking at when I'm talking is the one I'm talking to."

Han Fei: "..."

...

When he entered the Ten Thousand Demon Valley, Han Fei was shocked to find that this was really a large valley, a valley winding like a long dragon.

There were holes everywhere on the rock walls on both sides of the valley. Almost outside each cave, there were luminous, colorful rattans or seaweeds, rendering the entire valley colorful, which looked like a strange new world.

In the waters, there were a large number of luminous creatures, such as glowing jellyfish, light bulb-like fishes, starfish shining with a magical brilliance, and so on.

From time to time, Han Fei saw some sea monsters swimming carrying creatures, some were practicing harpoon combat skills in the water, a sea monster was lecturing a group of sea monsters, and some were shopping on both sides of the rock wall.

However, Han Fei didn't see any Red Demons or Inferior Man-Fish. Looking around, all he could see were Half-Mermaids and Half-Mermen.

When Yu Ji swam with Han Fei, many people stared at them, making Han Fei uneasy.

Yu Ji said to Han Fei, "Red Demons and ordinary Inferior Man-Fish are generally not allowed to enter the Ten Thousand Demon Valley. There is a place called the Blood Sea Valley, 2,000 kilometers away from Ten Thousand Demon Valley, where the Red Demons and ordinary sea monsters live."

No longer speaking, Han Fei followed Yu Ji along the way. From time to time, they met Half-Mermaids who were riding various creatures and brushed past them.

When Han Fei followed Yu Ji into the bottom of the valley, he found the bottom of the valley was very prosperous.

Caves were decorated with a riot of color, and a variety of luminous creatures were hung outside, and different names were written on the caves.

For example, Yu San Weapons Shop, Yu Wu Spiritual Fruit Shop, Yu Gan Gourmet Shop...

Outside some caves, there were even glowing rays welcoming guests. These rays could release electrical discharges. The blue arcs floated around, like the lightning in the night sky in a science-fiction blockbuster.

And the doors of some caves resembled those of human buildings, with plaques, doorways, thresholds, and even couplets.

Han Fei seemed to have entered a world of science fiction. What impressed him most was that Half-Mermaids liked glowing things very much. No matter what kind of light it was, red, green, blue or purple, as long as it glowed, it could be used for decoration.

After Han Fei swam through this winding valley, he found himself in a huge, deep hole. Two extremely tall merman statues that were almost a kilometer high erected on either side.

Each of the two Half-Merman giant statues held a harpoon. The two harpoons were crossed, forming a huge door.

When Han Fei followed Yu Ji past, he found that he was even smaller than the tip of the harpoon. One could imagine how big these statues were...

Going further in, he spotted a huge cylindrical palace in the deep pit, which was many times larger than the Snow God's Temple.

To be precise, it didn't look like a palace, but more like a circular building. There were nine rings in total, one ring within another, with a large open space in the middle, where the heads of five giant statues could be seen.

Yu Ji lived on the third level, the topmost level.

When Yu Ji took Han Fei to swim over, many people scanned him with their perceptions. Han Fei was also a little flustered. *God help me not be exposed! Otherwise, in the sea monsters' territory, I wouldn't be able to run away...*

However, thanks to the magical "Three Transformation Wondrous Book", no one found anything wrong with Han Fei although many Half-Mermaids greeted Yu Ji along the way.

Han Fei followed Yu Ji to her residence.

The cave on the top level, covering an area of about 300 square meters, had seals both inside and outside.

Yu Ji glanced at Han Fei. "Stay here. Wait for me to come back."
