

GOF 751

Chapter 751: Sneak into the Ten Thousand Demon Valley

Han Fei was quite surprised at Yu Ji's attitude towards him.

Yu Ji seemed to be friendly to him. Did she want him to be her subordinate?

Han Fei entered Yu Ji's cave alone and then found that around the cave, there were also various luminous seaweeds and vines, and even some glittering shells.

However, sea monsters didn't seem to have the concept of furniture. In Yu Ji's cave, there was only a blue shining stone platform, which looked like a large piece of emerald.

Behind the emerald platform was a huge shell of five or six meters long. However, this shell was not alive. It was open with some aquatic plants in it. It must be Yu Ji's bed.

In addition to these, Han Fei saw a large tank of spiritual spring, a pile of pearls, and a messy bunch of Half-Mermaid jewelry hanging on the rock wall!

"Is this where these sea monsters live? Does Xia Xiaochan also live in such a place?"

Han Fei suddenly grinned. Probably not! Didn't Chun Huangdian say... Xia Xiaochan was Princess Pearl! The place she lived in would be much more luxurious than this!

After all, in terms of status, Xia Xiaochan was much superior than Yu Ji.

Taking advantage of Yu Ji's absence, Han Fei leaned against the rock wall in the dark, closed his eyes, and began to study the Soul Splitting Technique.

From the fight against the Ghost Eel, Han Fei found out that there were still many strange yet extremely powerful creatures in this world.

What if he faced the Ghost Eel alone? Would he be bitten to death by it?

Although the War Soul Art could attack the soul, it would consume too much spiritual energy.

Besides, a single attack wouldn't be able to kill the opponent.

The Soul Splitting Technique was essentially a soul splitting technique, with the purpose to split one's own souls and invade the spiritual world of other creatures, thereby depriving other creatures of their control over their own bodies.

After a while, Han Fei was surprised to find that the soul split by the Soul Splitting Technique could be recovered. This meant that he could temporarily separate his soul, and get it back after use.

Han Fei couldn't help but think, if he killed Yu Ji's soul, wouldn't he be able to pretend to be Yu Ji?

However, Han Fei immediately gave up this plan. Even if he killed her soul, he wouldn't be able to pretend to be her because he didn't know Yu Ji's living habits, her fighting style, and the people here.

Even if he occupied Yu Ji's body, he would be exposed within minutes.

However, if he spared a bit of his soul to the Overlord, wouldn't it be like him having a clone?

Half an hour later, Han Fei tried to split a slice of his soul, which was probably less than one-thousandth of his own soul... However, when the soul was split, he felt as if his head was being pricked with needles.

“No, no! It shouldn’t hurt! But it seemed easy for that guy in the Snow God’s Temple to split his soul! It must be because I’m not skilled enough.”

After trying a dozen times in a row, Han Fei endured the severe pain and managed to split out a tiny piece of his soul.

It was a weird blue flame-like thing, extremely small.

It could move with his mind, at will and at a very fast speed...

Hum!

Feeling the seal on the cave was slightly shaking, Han Fei frowned and his soul returned to his mind.

Yu Ji swam in with a sullen look, seeming to be angry. Han Fei leaned against the wall, pretending to be ignorant.

Everyone was dead except for Yu Ji. They would certainly doubt Yu Ji!

Yu Ji glanced at Han Fei. “Yu Yue and Yu Fei are dead.”

Han Fei pretended to know nothing at all and responded dumbly. “OK!”

Yu Ji glanced at Han Fei in surprise, and then said, “Someone knew that I brought you back and said that they were going to investigate you...”

When speaking, Yu Ji stared at Han Fei, but he just looked back at Yu Ji with innocent eyes and didn’t speak.

Getting no response from Han Fei, Yu Ji said, “But I rejected it. Do you know why?”

Han Fei shook his head.

Yu Ji’s eyes flickered. “From the first time I saw you, I knew that you were not an ordinary Azure Sea Blue Demon. You were just awakened but you were already level-48. When you were facing Fu Yue and Yu Li, there was no fear in your eyes. When you practice combat skills, your speed was extremely fast, your body adapted very well, and you were not inferior to the Heavenly Talents at all in strength...”

Han Fei was freaked out. *No!*

Did Yu Ji find something? But now I look like a real sea monster!

At this time, Yu Ji looked at Han Fei. “So, in fact, you had awakened earlier than you told us, right?”

Han Fei was surprised. *What? Are you serious? Why didn’t I myself know it?*

Yu Ji said, “You had awakened a long time ago and developed intelligence. However, when you were awakened, you had not yet transformed into a humanoid shape, so when you finally had, you already had high intelligence, right?”

Han Fei's body stiffened and he thought, *This woman has a real imagination!* However, she thought he was transformed from a marine creature, and didn't know that he was actually a human being.

Watching Han Fei's movements, Yu Ji said leisurely, "There are only a few possibilities for this situation, either you are an exotic mutant creature, or you are a legendary..."

Han Fei was speechless. *What is this woman talking about?*

Yu Ji continued, "Of course, you might be a mysterious creature too. However, mysterious creatures should not and cannot be transformed into Azure Sea Blue Demons. And it's difficult for exotic mutant creatures to develop too high an intelligence. So... Are you a legendary creature?"

Han Fei said in his heart, *Yes, yes, I'm whatever you think I am.*

Han Fei was stunned for a long time before he nodded. "Yes."

Yu Ji let out a long breath. *It's just as I've guessed! If Yu Gan is a legendary creature, then he is much more advanced than I used to think! His potential couldn't be underestimated, and he may even grow into a leader-level figure.*

Yu Ji handed over a piece of jade slip. Han Fei took it and scanned it with his perception.

"Sea Spirit True Scripture" <Demon-Level, High-Quality>

Introduction: A universal sea-monster cultivation method, which can open up the user's meridians. Those who have fully mastered it have a certain chance to turn into a sea spirit.

Deduced Technique: "Sea Spirit Code"

Deduction Consumption: 0/500 million

Han Fei glanced, his face full of disdain. *A certain chance to turn into a sea spirit? This trash technique is of no use to me!*

But Yu Ji said solemnly, "This is an orthodox cultivation method for sea monsters. During this period, you can try to practice it. After some time, you'll come with me to the front line."

Han Fei's heart did a flip. *Go to the front line? The Scattered Star Island?*

Han Fei couldn't help asking, "Front line, where?"

Yu Ji answered, "The front line is the front line between our sea monsters and mankind. Human beings are extremely abominable creatures. They invade the ocean, kill our clansmen, occupy our territory, and plunder our resources... You must remember that whenever you meet a human, you must kill them, or else you'll be the one who dies."

Han Fei pretended to be puzzled. "Are they very strong?"

Yu Ji seemed to think of something, and then nodded heavily. "Very strong. Their Heavenly Talents are extremely powerful. They can have more than one Associated Spirit. Besides, human beings are very cruel and specialize in killing methods. You'll find out when you meet them."

Han Fei sneered in his heart. *You speak as if human beings are robbers. Don't play the victim, OK? The sea is so big. Why the hell do you keep attacking the Scattered Star Island? Now you're putting the blame on us!*

But Han Fei nodded solemnly on the surface. "I see."

Yu Ji nodded. "Come with me. I have to cooperate with the investigation during this period. You can't leave. Otherwise, you will definitely die."

Yu Ji took Han Fei all the way to the depths of the canyon. This canyon, layer after layer, was full of sea monsters' shops.

The shop Yu Ji brought Han Fei to was called, "Yu Ji Weapon Shop". Obviously, it was owned by Yu Ji.

Han Fei was surprised. *Can this woman forge weapons?*

Upon entering the store, Han Fei felt a violent stream of demonic energy and a lot of spiritual energy.

In the shop, there was only one Half-Merman who looked a bit old.

This Half-Merman was holding a large sea mussel and pouring magma-like liquid onto a ledge.

Han Fei's eyelids twitched. *Isn't this a harpoon?*

A model of a harpoon was printed on this ledge. After the billowing liquid was poured into the model, an array lighted up, and the liquid was flowing and converging in a strange way, and finally condensing.

Han Fei was surprised. *Is this the method of refining a harpoon? Isn't it too simple?*

Seeing Yu Ji arrive, the Half-Merman who was pouring the liquid grinned and said, "Miss Yu Ji, you're back at last. I heard that you..."

Yu Ji swam to the ledge and waved her hand. "Uncle Fu, I'm fine. This is my friend Yu Gan, an Azure Sea Blue Demon that has just transformed into a humanoid shape. He'll be here to help you for a while now."

Uncle Fu smiled. "Oh, an Azure Sea Blue Demon! How long has it been since I saw one of them in the Ten Thousand Demon Valley? OK, it's nice to have him help me. It's not easy for me to handle all these jobs alone."

Han Fei just wanted to roll his eyes at this old guy. *Not easy? Do you mean pouring the material into the mold? Is there a problem to do this dozens of times a day?*

Yu Ji looked at Han Fei. "Just stay here for a few days to refine weapons or cultivate. I will come to you when I come back."

Han Fei nodded. "Okay!"

Yu Ji turned away in a hurry.

Han Fei didn't know what she was going to do... However, it seemed that he had successfully snuck into the Ten Thousand Demon Valley! Without Yu Ji, no one seemed to be able to control him.

Seeing Yu Ji left, Uncle Fu immediately changed his face. "Hey! Brat, I'll teach you how to operate the Refining Divine Platform."

Chapter 752: Crazy

Han Fei didn't expect Uncle Fu to change his face abruptly... As soon as Yu Ji left! He turned so fierce as if he were about to swallow Han Fei alive.

Han Fei suppressed the urge to kill him!

After all, this was in the territory of sea monsters, so he'd be better off keeping a low profile. He would deduce the Three Transarray Wondrous Book to a higher level first. And when he looked more like a sea monster, he would kill this b*stard.

Han Fei cast a cold glance at Uncle Fu. "How to do it?"

Seeing that Han Fei was so cold towards him, Uncle Fu bared his teeth in anger and yelled, "How dare you, an Azure Sea Blue Demon dare to be so arrogant in the Ten Thousand Demon Valley? You'd better behave yourself. Otherwise, don't blame me for throwing you into the sea monster Colosseum."

Han Fei snorted and asked coldly, "How to do it?"

"You..."

Uncle Fu snorted angrily, thinking, *This guy was brought by Yu Ji. Now things are still unclear. I don't know if Yu Ji will be okay. Let me teach him a good lesson later.*

"Humph, listen carefully. I'll just say it once..."

...

After listening to Uncle Fu's impatient explanation, Han Fei understood.

So he saw only the surface.

It turned out sea monsters' refining method was rather different from human beings'. But it didn't mean that the sea monsters' refining method was simple.

They spent a lot of money on this so-called Refining Divine Platform

It was said that Yu Ji spent 10,000 kilograms of Spirit Awakening Fluid to buy it, which was very valuable.

The so-called Refining Divine Platform was actually a refining platform full of refining arrays. These arrays could help the liquid material condense quickly and be evenly distributed.

And the sea monster weapons refined in this way, depending on the refining materials, varied in quality.

This refining platform owned by Yu Ji could only refine high-quality demonic weapons, which were mainly provided to ordinary Inferior Man-Fish with some talent in the Blood Sea Valley next door.

As for the business with Red Demons, there were more advanced refinery shops suitable for them.

However, although there were differences between the Refining Divine Platforms, the method of smelting materials and removing impurities was basically the same as that of human beings. It turned

out that this Uncle Fu also smelted materials in this way. Therefore, he could only refine 20 high-quality demonic weapons every day.

Uncle Fu threw two jade slips to Han Fei casually and said impatiently, "I'll give you three days to learn these two refining techniques. There is a cave storing the materials in the back. You'll live there for the time being. Remember, don't disturb me while I'm refining."

Han Fei took a look at the jade slips and was dumbfounded. Aren't these the Spirit Fusing Technique and Spirit Polishing Technique? When did humans and sea monsters become such good friends that they even shared refining methods?

At this moment, Uncle Fu urged him again, "Go! What are you waiting for?"

Han Fei glanced at him. "What if I can't master them in three days?"

Uncle Fu sneered. "You can't? If you can't, go to the Sea Monster Colosseum. Don't waste our food."

Han Fei glanced at him deeply and then went into the cave without saying a word.

He didn't need to learn the two techniques at all. And he was kinda disappointed that the sea monsters' refining methods were the same as humans'.

Seeing Han Fei leave, Uncle Fu sneered in his heart. "Three days? You won't be able to master it even in three months!"

Because the cave was filled with materials, there was a seal on the entrance of the cave. Uncle Fu thought that since Han Fei was brought by Yu Ji, he wouldn't dare to steal the materials.

But what if Han Fei did? Then he would have a reason to kick him out.

He really didn't understand. What qualifications did an Azure Sea Blue Demon have to live in the Ten Thousand Demon Valley? He didn't know why Yu Ji brought him here... Was it because of his growth-type demonic heritage?

Throughout history, Azure Sea Blue Demons who could succeed in cultivation were less than ten. And among them, no more than three had reached the peak of Sea Spirit.

So, it would be like daydreaming for this guy to become a Sea Spirit.

Besides, Yu Ji was busy enough with her own affairs. He was really worried that he would be implicated by her.

...

As soon as Han Fei stepped into the cave, a shockwave was heard. If an ordinary person entered, there would be a big noise immediately.

And then Han Fei found the cave was full of garbage materials.

Yes, in his eyes, these items were nothing but rubbish.

All the materials he had were ultra-quality. However, most of these materials were of mid or high-quality, which couldn't arouse him any interest at all.

However, what surprised Han Fei was that there was a large jar of nearly 50,000 catties of spiritual spring here.

This was too much! If he had stolen it all now, the spiritual energy he had would exceed 100 million points.

Han Fei was so tempted to steal the spiritual energy.

However, there were only more than 50,000 catties here. If he stole all the spiritual spring, he would have to escape out of Ten Thousand Demon Valley, which wouldn't be worth it.

"Damn it, why is this not mine?"

Suddenly, Han Fei's eyes lit up. "Huh? There are at least seven or eight refining shops along the way. If I can rob these shops..."

Han Fei instantly became excited. He directly threw the two jade slips into the Sea Swallowing Seashell and then began to study the special seal of the cave.

"Huh! This is a touch-activated seal, which is related to sound waves, and it doesn't seem to be too troublesome to remove it."

Han Fei suddenly thought of the Ocean Book. He hadn't studied that book yet! It seemed to be a collection of a lot of arrays.

However, the "Spirit Gathering Scripture" seemed to have a special chapter about this sound wave seal... He should check it out.

...

Every day, Uncle Fu would only come to get materials twice and never instruct Han Fei.

At this moment, Uncle Fu said coldly, "There are more than 50 pieces of materials missing. Do you eat materials? Why did you use so much?"

Han Fei responded coldly, "I needed that much."

Uncle Fu snorted. "You are only allowed to use up to 50 pieces a day. If you exceed this number, get out of my shop."

When Uncle Fu went out, Han Fei set up an array with a single hand.

It only took him an hour to find the true form of the seal to the warehouse. Now, he was thinking about how to remove the seal without making any sound.

He had worked out a very simple solution, which was to put a seal on the original seal.

In fact, a soundproof array would work. However, this seal had a shock effect and seemed to be connected to the cave, so he would also have to block the shock effect! In this case, another seal was needed to eliminate this shock.

Two days later.

Han Fei's eyes lit up. "It's done."

Three days later, Han Fei was pretending to be refining weapons.

Suddenly, Uncle Fu walked in with a sullen look and said, "Come out and bring 50 mid-quality materials out."

Han Fei walked out, came to the Refining Divine Platform, and threw 50 materials on it. He grabbed them casually and didn't pay attention to their qualities at all.

Seeing his actions, Uncle Fu snapped angrily. "I told you to bring out 50 mid-quality materials, but what did you bring? Low-quality materials, high-quality materials, and there is even an ultra-quality material."

Han Fei glanced at him lightly. "You didn't teach me."

"I..."

When Half-Mermen got angry, they would bare their teeth.

The harder they bared their teeth, the angrier they were!

Han Fei responded flatly and Uncle Fu had to choke back what he was going to say.

Uncle Fu took a breath before saying, "Then why didn't you ask me?"

Han Fei glanced at him. "You only told me to learn the techniques, not the materials."

"You..."

Uncle Fu was furious. "Good, very good! Do you think you're so capable? Fine, then show me how you refine."

The corners of Han Fei's mouth curled up a little, and he grabbed some material and carelessly put them together. And after a while, he poured the impure and uneven liquid onto the Refining Divine Platform, which condensed into a low-quality demonic weapon.

Uncle Fu was taken aback for a moment. *Shit, is this brat really so talented? In only three days, he learned how to refine a low-quality demonic weapon?*

Han Fei sighed in his heart. This was the lowest-level weapon he could refine. This was indeed a bit nerve-racking! Was he a bit too high-profile?

However, Uncle Fu shouted angrily, "Look, what junk did you refine? A low-quality demonic weapon! You wasted so many good materials! Now get lost, you aren't needed here."

Han Fei said indifferently, "Yu Ji let me stay here."

Uncle Fu sneered. "I'm the owner of the shop. Do you think you can do whatever you want with Miss Yu Ji behind you?"

Han Fei tilted his head and glanced at Uncle Fu. "You have no reason to drive me away. If you do, you'll offend Yu Ji. So, what is your purpose for driving me away?"

Han Fei was guessing Uncle Fu's motives. Yu Ji was a Heavenly Talent, so Uncle Fu was supposed to cozy up to him.

Uncle Fu sneered. "You are only an Azure Sea Blue Demon. What do you know? I am very dedicated to my job, so I can't tolerate an incompetent person like you."

Han Fei squinted. "You've betrayed Yu Ji, haven't you?"

Uncle Fu's heart did a flip. *How does he know?*

Suddenly, a cold sweat broke out in Uncle Fu. *Could it be that Yu Ji sent this Yu Gan to monitor me? Does Yu Ji know that I have secretly contacted other Heavenly Talents? But this brat stayed in the warehouse for three days! How did he monitor me?*

Uncle Fu yelled, "Nonsense! Go, let me take you to the Sea Monster Colosseum. An Azure Sea Blue Demon doesn't deserve to stay here."

Swoosh!

As soon as Uncle Fu's voice stopped, Han Fei thrust a harpoon at him. Caught off guard, Uncle Fu was directly nailed to the rock wall.

Uncle Fu was horrified. "How, how dare you! Roar... Is anyone here? Help..."

While Uncle Fu was in a fright, a centipede phantom suddenly appeared and pounced straight on Han Fei.

Han Fei drew the harpoon abruptly, bounced off the centipede easily, and stabbed Uncle Fu again with full force.

Even though Uncle Fu had been dressed in a battle suit, he was almost killed by this blow.

As for that big centipede...

Han Fei jabbed at it backhand, released powerful demonic energy, and directly nailed its head through, killing it on the spot.

Han Fei tilted his head. "At your age, you haven't even reached level-50. You're really a piece of junk. Let's make a bet on who will die first..."

Uncle Fu was more horrified. He found that he made a big mistake. There was a reason for Yu Ji to bring this Azure Sea Blue Demon here.

This guy was too strong. He almost nailed him to death just now.

Besides, the look in this guy's eyes was so fierce. He didn't hesitate to kill at all and acted unscrupulously. Although it was the Ten Thousand Demon Valley, he didn't seem to mind killing him at all...

Han Fei narrowed his eyes. He couldn't just sit by and wait for Yu Ji to come back. He needed to take some action.

It seemed that something was going to happen!

The impression this guy gave him could be described in one word: crazy.

Chapter 753: Sea Demon Society

Just when Uncle Fu felt that he was bound to die, Han Fei suddenly put away the harpoon and glanced at him lightly. "It doesn't matter if you betrayed Yu Ji. You can also run or find someone to take revenge. I don't give a damn... But don't mess with me, understood?"

Han Fei thought about it carefully.

After all, this was in the territory of sea demons. If a strong master came over, he might see through his real identity.

Besides, whether Yu Ji was betrayed or not, what does it have to do with him?

So he didn't mind having a showdown with this Uncle Fu. And he could even threaten this Uncle Fu to cover up for him, so why not do it?

Uncle Fu said with some horror, "Are, are you not going to kill me?"

Han Fei tilted his head. "Why should I kill you?"

Uncle Fu's eyelids twitched twice. "Aren't you Miss Yu Ji's man? Are you also..."

Han Fei said deadpan, "I have nothing to do with Yu Ji. Who are you, what do you want to do, did you betray her? None of this is important to me. If you can tell me about the Ten Thousand Demon Valley in detail, I can even pretend that nothing happened..."

Uncle Fu's pupils constricted slightly. "You killed my Associated Spirit. Why do you think I still believe you?"

Han Fei asked, "Aren't you a refiner? What difference does it make to you to have a Associated Spirit or not?"

Na Fu's brain was racing.

He was thinking, What was this demon's background? Why was he, a weak Azure Sea Blue Demon, not even caring about Yu Ji? It stood to reason that if he caught him and gave him to Yu Ji, Yu Ji would definitely think more of him.

But in fact, the Azure Sea Blue Demon didn't seem to have that intention at all.

Uncle Fu swallowed. "It's not that I betrayed Ms. Yu Ji, but this time she made such big trouble. So many Heavenly Talents have died, but only she is alive. Everyone doubts her. Ms. Yu Ji can hardly protect herself now. This refining shop may see its owner change soon. I just try to protect myself."

Han Fei nodded slightly. "So, you tried to kick me out?"

"Of course. I know that you were brought back by Miss Yu Ji. Then, you must be under the watchful eye of the strong too. If you have any problems, I'll die too."

Han Fei didn't say anything.

It seemed that sea demons were not united within themselves. According to Uncle Fu, Yu Ji left in a hurry a few days ago because she was being investigated and was ordered to take the strong masters back to the secret realm.

However... Han Fei sneered. Can they find out what actually happened? Unless those sea demons can reverse time, how could they guess that those Half-Mermaids and Half-Mermen were killed by Han Fei?

However, a Ghost Eel certainly couldn't explain why only Yu Ji survived. They would probably guess there was a second guard creature. So, they would probably come to him and ask him questions.

As for why they hadn't yet, there might be many reasons for this.

Either these powerhouses didn't take him seriously at all, or they wanted to verify Yu Ji's words, or something else... Anyway, he wouldn't be able to leave now.

However, Han Fei didn't plan to leave here. It was not easy for him to sneak into here. How could he leave so easily?

In particular, he discovered that there were many refining shops here, which were filled with various materials and spiritual springs. How could he give up such a great resource?

Han Fei looked at Uncle Fu. "Since you said that someone has paid attention to me, how can you leave?"

Uncle Fu pleaded, "I just wanted to drive you away."

Han Fei nodded. "You don't have the ability to drive me away now. Tell me about the Ten Thousand Demon Valley."

Uncle Fu looked at Han Fei deeply. "The newly awakened creatures can't be as smart as you. You are not a simple Azure Sea Blue Demon..."

Han Fei didn't answer Uncle Fu's words, but asked, "What I want to know most is why people in the Ten Thousand Demon Valley don't have decent names, such as Yu Gan..."

Han Fei was very distressed about the way these sea demons were named! Although Yu Ji said, when someone was called, a hint would fall on him. However, wasn't it strange that so many people had the same name?

For example, if a Half-Merman and Half-Mermaid who were both called Yu Gan were married, how awkward could things get?

Wouldn't it be a mess?

Of course, Han Fei didn't know whether sea demons would marry or not. If not, how did they reproduce? Were Half-Mermaids born by egg or viviparous?

Uncle Fu was speechless when he heard Han Fei ask this question.

However, he couldn't beat this guy.

And he knew he couldn't run away, so he could only answer honestly, "In the Ten Thousand Demon Valley, only Heavenly Talents who live in the Ten Thousand Demon Tower have names. No one else has

a name. Someone suggested that we use human names, but this was rejected by the strong masters. Therefore, everyone just used 'Yu' as the surname."

Han Fei thought, *So the cylindrical super building I saw is called the Ten Thousand Demon Tower?*

Suddenly, Han Fei raised his eyelids and looked at Uncle Fu. "Why are you called Uncle Fu? Aren't you called Yu Fu?"

Uncle Fu whose previous ferocious appearance had gone without trace answered honestly, "Although theoretically we're not supposed to have a name, we can give ourselves whatever name we'd like at home. However, when people call us, they'll still call us Yu Gan, Yu Pi, or something like that."

Han Fei said seriously, "Call me Yu Fei from now on."

Uncle Fu nearly rolled his eyes. He almost told Han Fei that many people used this name. Besides, why do you care about your name so much?

Han Fei continued to ask, "Where is the Sea demon Colosseum?"

Uncle Fu answered truthfully, "That is the place where Half-Mermaids and Half-Mermen entertain and fight. There is one in the Ten Thousand Demon Valley and one in the Blood Sea Valley, and there are also people who make mistakes thrown into it to fight all kinds of creatures."

Han Fei thought to himself, *Isn't that just like the Rome Colosseum?* He could imagine that thousands of sea demons were standing on the side and watching the bloody scenes in the colosseum, baring their teeth and roaring in excitement.

Han Fei asked again, "What's your currency?"

Uncle Fu thought, *Sure enough, he has just awakened, so he doesn't even know what money is.*

However, Uncle Fu was also surprised. *Isn't this Azure Sea Blue Demon too smart? He seems to be quickly adapting to the sea demon society.*

"There are several kinds of money used by sea demons. One is high-quality pearls. This you should have known. There is a sea of pearls hundreds of thousands of kilometers away. The pearl mussels there will produce various kinds of pearls of different qualities. There are also spiritual stones and spiritual springs..."

...

Han Fei discovered that sea demons' currency system was actually similar to that of humans: high-quality pearls, spiritual stones, and spirit springs were all universal currencies!

However, Han Fei learned from Uncle Fu that the social system of sea demons was quite different from that of human beings. Although there were also a lot of shops in the Ten Thousand Demon Valley, the system here was more like a dynasty system with a clear hierarchy.

The strongest of the Ten Thousand Demon Valley was a super strong master named Blue Feather, known as King Feather. This Half-Merman, like a king, controlled and directed all the important affairs of the entire Ten Thousand Demon Valley and Sea Blood Valley.

Under Blue Feather, there were eight sea spirit-level powerhouses, known as the Eight Wings of Blue Feather. Each of them was extremely powerful.

According to the basic strength, each of the Eight Wings of Blue Feather should be at the Law Enforcer level. And being able to rule them meant that Blue Feather was at least at the level of an Explorer.

And Yu Ji was the disciple of Yu Beichen, the sixth strongest among the Eight Wings of Blue Feather.

Because of that, Yu Ji enjoyed a high status that was above the other Half-Mermaid Heavenly Talents.

As for why Uncle Fu said Yu Ji could hardly protect herself this time was because the eighth-ranked Yu Hanjia appreciated Yu Leap who was killed by Han Fei. There were rumors that Yu Yue would be accepted as a disciple by Yu Hanjia. However, he died this time.

It was precisely because of this that Yu Ji was investigated.

Otherwise, even though she was a Heavenly Talent, no one would offend the sixth-ranked master in the Eight Wings of Blue Feather for him.

After hearing all this, Han Fei knew better about the sea demon society.

He glanced at Uncle Fu. "Go do your bit! Within three days, don't disturb me. Take out the refining materials you need in advance. I'll cultivate for three days. If you dare to come in during this period of time, I'll kill you."

Uncle Fu's heart trembled. He believed what Han Fei said was true. The word "kill" sent a chill down his spine.

Yu Fu was speechless. *What kind of person did Yu Ji bring over?!*

Uncle Fu never thought of running away. Although in a sense, he had betrayed Yu Ji, he didn't think he could run away under Han Fei's nose.

Therefore, he could only stay with the hope that Han Fei would spare him.

In the material cave, Han Fei issued an order in his heart, and the next second, Overlord appeared at the door.

After a painful process, a faint blue wisp of soul penetrated into Overlord's body. Immediately, a faint blue flame lit up in the eyes of Overlord.

"That's f*cking amazing."

Han Fei was standing in front of Overlord at this moment, looking at it as if looking at himself.

And seeing with Overlord's eyes, he could also see his present body clearly, an ugly Inferior Man-Fish.

How did it feel looking at himself?

Han Fei felt it very strange as if his soul floated out, looking at himself from the outside.

He ordered Overlord to slightly move its body and then he found that it was still lacking spiritual energy.

After all, Overlord was a Semi-Divine Weapon and needed to be powered with spiritual energy.

Han Fei thought for a while, took out a high-quality spiritual stone, and stuffed it into Overlord's mouth.

Chapter 754: Make A Name

When designing Overlord, Han Fei never thought that he could attach his soul to Overlord. Therefore, Han Fei didn't leave a battery groove-like slot for spiritual stones in Overlord.

It seemed that he needed to transform Overlord a little bit.

However, the first thing Han Fei had to do now was to continue deducing the Three Transformation Wondrous Book.

He pretended to be an Inferior Man-Fish and entered the Ten Thousand Demon Valley with the help of Yu Ji.

Therefore, Han Fei didn't think anyone would see through his real identity in the short term.

But now, when he heard that Yu Ji's master turned out to be one of the Eight Wings of Blue Feather, a powerful master of at least the level of a Law Enforcer, his heart did a flip.

He certainly needed to deduce the Void Fishing Art, but not now.

Besides, as far as Han Fei was concerned, it was easy for him to get 100 million points of spiritual energy now. And right under his nose, there were 50,000 catties of spiritual spring.

Han Fei began to deduce the book.

After a while, information emerged.

“Heavenly Variation Technique” <Venerable-Level, Low-Quality>

Remarks: By observing the wonders of the evolution of creatures, obtain the power of metamorphoses. There are also three methods of evolutionary mutation, with which one can perfectly simulate the three creatures, even simulating their breath. After the variation, one has no difference from a real sea demon. After one variation, it takes three days to make another variation.

Disadvantage 1: While the user is dying, his real breath will be exposed.

Disadvantage 2: “Heavenly Variation Technique” cannot control ordinary marine creatures.

Creatures that can be simulated: ordinary sea demon, Red Demon, Half-Mermaid.

Deduced Art: N/A

Deduction consumption: 0/100 million

Just as Han Fei expected, the Three Transformation Wondrous Book was more effective after the deduction! Now, no one would be able to discover that he wasn't a real sea demon. Besides, the simulation time had been reduced to 3 days.

Han Fei believed that if he continued deducing it, the effect might be even better.

However, it didn't make sense. He wouldn't stay in the Ten Thousand Demon Valley long. After plundering enough treasure, he would just slip away!

At that time, as long as Yu Ji took him to the front line, he could just kill Yu Ji and return to the human world.

Seeing that he still had more than 2 million points of spiritual energy in reserve, Han Fei thought for a while and still got into Forge the Universe.

Although he didn't allow Yu Fu to come in, he couldn't guarantee against accidents.

Next, he would evolve into a more perfect Inferior Man-Fish with the Heavenly Variation Technique. The process would be painful and must not be discovered by anyone.

...

One hour passed.

Han Fei fell out of midair, panting.

"The pain has reduced a lot. However, it is still very painful! I'd better not try it frequently."

The next moment, the faint blue flame in the eyes of Overlord flickered. Han Fei saw his current appearance with Overlord's eyes. There was no change in his appearance. However, in terms of temperament, it seemed to be a level higher than before.

Han Fei was silent for a while. Is there such a handsome Inferior Man-Fish?

"It's okay. Since Yu Ji thinks I'm a legend, I will just say that I am a legend. It shouldn't be a big problem."

Han Fei glanced at Overlord and felt that he should re-refine it and install two grooves on its body to place spiritual stones. In this way, Overlord would be even more perfect.

...

Three days had passed.

Han Fei walked out of the material room.

As soon as he came out, Han Fei discovered that besides Yu Fu, there were two Half-Mermaids of level-46 in the shop.

When the two Half-Mermaids saw Han Fei, they were also surprised. One of them asked in astonishment, "Uncle Fu, where does this inferior sea demon come from?"

Uncle Fu's heart trembled. *Do you have any idea what a horrible person you are talking to?*

Immediately, Uncle Fu said, "Well... Yu Fei is an Azure Sea Blue Demon, and he was brought back by Miss Yu Ji herself."

The two Half-Mermaids glanced at each other, seeming a little surprised.

"Huh! Is he an Azure Sea Blue Demon?"

"He seems to be more advanced than the ordinary inferior sea demons. His demonic heritage should not be low-level. But why does Miss Yu Ji keep an Azure Sea Blue Demon here?"

Uncle Fu smiled and said, "Teaching him how to refine weapons."

"Refine weapons? Him?"

Although the two Half-Mermaids knew that Han Fei was an Azure Sea Blue Demon, the contempt in their eyes still didn't abate at all. After all, an Azure Sea Blue Demon was still a kind of Inferior Man-Fish despite greater potential.

However, they never thought that an Azure Sea Blue Demon could really give a full play to his potential.

In their opinion... Crimson Blood Demons had a greater potential.

The so-called Crimson Blood Demons were a special species of Red Demons, and their status among Red Demons was equivalent to that of the Azure Sea Blue Demon among the Inferior Man-Fish. However, there were very few Crimson Blood Demons.

Among the Eight Wings of Blue Feather, there was a Crimson Blood Demon, ranked seventh, named Chixue Huan, who was the only sea spirit-level Red Demon.

A Half-Mermaid said, "Hey! Yu Fei, right? Are you good at refining weapons? Show us then."

Yu Fu immediately explained, "Well, Yu Fei has just learned to refine weapons..."

"OK!" while Yu Fu was still trying to explain, Han Fei suddenly said, expressionless and calm.

Uncle Fu paused and said to him via voice transmission, *You've only studied it for six days. If you can't do it well, it may cause you unnecessary trouble.*

Han Fei strode to the Refining Divine Platform and glanced at the two people casually. "What would you like me to refine?"

The two Half-Mermaids were stunned, and one of them sneered. "What a crazy little fish! Do you really think you have noble blood? Refine me a high-quality battle suit."

Han Fei said coldly, "Materials."

Yu Fu trembled. "Are you really going to try?"

Han Fei ignored Yu Fu but looked at the Half-Mermaid. "Materials."

The latter was annoyed by Han Fei's attitude. With a wave of his hand, a pile of materials was thrown on the ground.

"Humph, I'd like to see, is the so-called Azure Sea Blue Demon really a genius?"

Han Fei ignored her. He grabbed at the materials on the ground and a few pieces of them floated in the air. In an instant, they were wrapped both with spiritual energy and demonic energy.

This scene stunned Yu Fu. Strange! This was not the case three days ago. Three days ago, Han Fei could only refine lower-quality spiritual weapons.

Could it be that he was a special Azure Sea Blue Demon? But he was learning too fast, wasn't he? Judging from his refining method and speed, he seemed to be better at refining even than him...

The two Half-Mermaids were also taken aback. At this moment, they were looking at each other in astonishment. Was the Azure Sea Blue Demon really so powerful?

Only half an hour later, everything was ready, and the materials were poured into the battle suit mold on the platform like juice.

Han Fei deliberately spent several times more time than usual. But even so, it was still quick.

Yu Fu and the two Half-Mermaids were already dumbfounded.

Yu Fu exclaimed, "Only half an hour?"

The two Half-Mermaids looked shocked. Is the Azure Sea Blue Demon really that strong?

Han Fei looked up and said indifferently, "It's done."

While the three of them were shocked, Han Fei felt a perception sweep past.

Sure enough, I was being watched. But so what?

Han Fei smiled. Now he tried to pretend to be a genius.

If he was only an ordinary Inferior Man-Fish, how could he discover the secrets of the Ten Thousand Demon Valley?

The two Half-Mermaids left with the battle suit without saying much.

However, from now on, Yu Fei, the genius Azure Sea Blue Demon, made a name for himself.

At this moment, Han Fei was standing at the door of the refining shop, watching the sea demons coming and going.

Many Half-Mermaids looked at him curiously and then swam past. Not many of them stopped to talk to Han Fei.

From time to time, someone frowned and mumbled, "How can an inferior sea demon be in the Ten Thousand Demon Valley?"

Some people were astonished. "An Azure Sea Blue Demon?"

Naturally, someone accosted Han Fei, asking if Han Fei would follow him...

Whenever this happened, Han Fei would point to the shop sign, so no one asked further. They thought, this guy is Yu Ji's man.

Han Fei was observing. Only within the range of his vision, he saw two refining shops. So, how many refining shops were there in this huge canyon?

"There are a lot of people!"

Han Fei was thinking, *How do I plunder these refining shops? I certainly can't do it when there are a lot of people around... Better do it when there are only refiners in the shops.*

Besides, he needed to consider whether to kill the refiners or let them live.

But if not, how could he steal the spiritual spring and materials without being discovered?

Han Fei decided to try an ordinary refining shop first. If he was discovered, he would just kill the refiner and break into the material room. Anyway, this was a one-off deal, and it depended on his ability how many refining shops he could rob...

Suddenly, Han Fei turned around and entered the store. "If I go out and walk around, will anyone stop me?"

Yu Fu froze for a moment. "Go out? That shouldn't be a problem. It's just that your identity is special. If you are not led by someone, you'll definitely be questioned."

Han Fei looked at Yu Fu. "I want to buy some spiritual fruits. Are you with me?"

Yu Fu asked in surprise, "Do you have money?"

Han Fei shook his head. "No."

Yu Fu: "..."

Chapter 755: Kill Three Birds with One Stone

Han Fei borrowed 1 million high-quality pearls from Yu Fu. If you asked why he did it? Certainly in the name of Yu Ji.

However, this was definitely not a small number. When Han Fei asked for them, Yu Fu was really taken aback.

However, when Han Fei used Yu Ji as an excuse and then took out the Red Flame Origin Crystal, Yu Fu finally agreed.

As for the Red Flame Origin Crystal, Han Fei had early known that it was nothing ordinary.

Yu Fu asked in surprise, "Where did you get this thing?"

Han Fei pondered for a moment. "I got it from a secret realm. I think this thing must be special."

In fact, when he took out the Red Flame Origin Crystal, Han Fei immediately felt that there were several perceptions sweeping past his body.

Han Fei thought to himself, *Since you guys have seen it, why don't you come get it?*

However, unexpectedly, no one came. Those who were watching him secretly didn't seem to be tempted.

...

The Ten Thousand Demons Valley was very long, and there were nests everywhere in the valley more than 3,000 meters deep. Han Fei randomly estimated that the number of Half-Mermaids and Half-Mermen here must be at least hundreds of thousands.

What did it mean? This meant that there were hundreds of thousands, or even nearly a million, strong masters above the level of Hanging Fisher.

If there was a full-scale war with humans, it was really hard to say whether the Scattered Star Island could resist these sea demons.

Besides, some powerful sea demons could also control marine creatures. This made things even worse.

Han Fei felt that the reason why the sea demons didn't start a full-scale war with mankind was that there were so many strong masters on the humans' side. The sea demons had Eight Wings of Blue Feather, but Han Fei believed that there were definitely much more than eight Law Enforcers on the Scattered Star Island.

Spiritual fruit shops were not far away.

The first spiritual fruit shop was less than 10 kilometers away from Yu Ji's refining shop. With the 1 million high-quality pearls in hand, Han Fei cleared all the spiritual fruits in this shop almost in a moment.

Yu Fu was speechless. "Why do you buy so many spiritual fruits? Spiritual fruits work slowly and don't work that well on the body. Unless you eat it every day... No..."

Yu Fu looked at Han Fei in shock. "Do you eat spiritual fruit every day?"

Seeing Han Fei's reaction, Yu Fu was dumbfounded. *You are only an Azure Sea Blue Demon! I admit that you are a very strong and talented Azure Sea Blue Demon, but you're still only an Azure Sea Blue Demon!*

Even a Heavenly Talent like Yu Ji wouldn't take spiritual fruit every day!

The corners of Han Fei's mouth raised slightly. "I ate it every day before I came here..."

This word, like a bolt of lightning, struck Yu Fu's mind.

What do you mean by "before"? Do you mean before you were awakened? Wait...

Uncle Fu looked at Han Fei in shock. "Can you remember what happened before you were awakened?"

Han Fei glanced at him lightly without speaking.

Yu Fu's eyelids twitched a few times and he tentatively asked, "Legendary?"

In Yu Fu's view, even after an exotic creature was awakened, he wouldn't remember much about what happened before he was awakened. But Han Fei's words seemed to indicate that he remembered.

This meant that Han Fei had awakened long before his transformation?

"No wonder!"

Yu Fu smiled bitterly. No wonder Yu Ji treated Han Fei so specially. It turned out that he was a legendary creature!

What did this represent? Legendary creatures were the most talented ones among marine creatures, and they usually had some special blood heritage.

This kind of creature had transformed! Of course, Yu Ji wanted to win him over.

Only a creature of this level could be so arrogant and domineering and almost kill him.

In the dark.

A few Half-Mermaids and Half-Mermen at the level of a Hidden Fisher were looking at each other in surprise.

Someone said, “No wonder, no wonder Yu Ji must protect this Azure Sea Blue Demon. If he was really transformed from a legendary creature, then he really deserves the attention.”

Someone smiled helplessly. “No wonder this Azure Sea Blue Demon is so arrogant. It turns out that he is a legendary creature. But why did he transform into an Azure Sea Blue Demon? He was supposed to transform into a Half-Merman Heavenly Talent, right?”

The others were also puzzled. Someone said, “This news is very important. I’ll go back and report it.”

As Han Fei expected, in the Ten Thousand Demon Valley, there were more spiritual fruits than in the human world.

But the price really gave Han Fei a headache. On average, a spiritual energy spiritual fruit would cost about 800 to 1,000 high-quality pearls.

This was much more expensive than in the level-three fishery, and several times more expensive than in the Scattered Star Island.

Han Fei couldn’t help asking, “Can one million high-quality pearls only buy 1,000 spiritual fruits?”

Yu Fu nodded. “High-quality pearls are not rare. After all, the Pearl Sea is right there, and we just need to go pick pearls. Spiritual stones can buy more spiritual fruits.”

So in the sea demons’ world, high-quality pearls were far worse than spiritual stones, so the prices seemed to be high.

Han Fei thought to himself, *If this is the case, I can make a fortune by exchanging spiritual stones for high-quality pearls in the Ten Thousand Demon Valley, and then exchange these high-quality pearls for spiritual stones when I return to the Scattered Star Island!*

For others, this was difficult.

However, for Han Fei, it was very simple.

But, he didn’t know if these large-volume transactions would attract attention... This was equivalent to money laundering.

No matter in which social form, this kind of behavior was supposed to be prohibited.

However, Han Fei bore it in mind. If there was a chance in the future, he might give it a try.

After visiting eight stores in a row, Han Fei spent all the 1 million high-quality pearls. However, what Yu Fu didn’t know was that Han Fei’s purpose was not to buy spiritual fruits but to observe the refining shops along the way.

Yu Fu asked carefully, “Now, shall we go back?”

Han Fei shook his head. "No hurry. Show me around. If there is no accident, I will stay in the Ten Thousand Demon Valley for a long time. There must be many people who think I am not qualified to stay here. I need to show them my strength today."

Yu Fu was helpless but dared not to refuse him.

Sure enough, seeing Han Fei strolling casually, many sea demons were annoyed.

Half an hour later, when Han Fei was satisfied and was about to go back, a Half-Mermaid landed in front of Yu Fu and Han Fei.

When Yu Fu saw who this Half-Mermaid was, he shivered. "Hi, Miss Yu Yun."

At the same time, he said to Han Fei via voice transmission, *Miss Yu Yun and Miss Yu Ji are on bad terms.*

Smack!

Yu Yun slapped Yu Fu hard in the face, and Han Fei didn't even dare to say a word.

Yu Yun glanced at Yu Fu coldly. "Who allowed you to secretly speak to him?"

An imperceptible smile appeared over Han Fei's lips. The person he was waiting for finally showed up.

The strength of this Yu Yun seemed to be no less than Yu Ji's.

Han Fei immediately asked with a cold look, "What's the matter?"

Yu Yun glanced at Han Fei faintly. "Are you the Azure Sea Blue Demon that Yu Ji brought back?"

Han Fei said indifferently, "Yes."

Yu Yun sneered. "How arrogant! Didn't your master teach you to show respect to your superiors?"

While speaking, Yu Yun stretched out to slap him.

Seeing this scene, many passing Half-Mermaids stopped and watched.

However, to Yu Yun's surprise, Han Fei clenched his fist and punched against her palm.

Boom!

Neither of them moved, but the water rippled out hundreds of meters.

Yu Yun was furious. "Good, very good! How dare you, a little Azure Sea Blue Demon, attack me? You are looking for death!"

While speaking, Yu Yun attacked again.

This time, the power of the slap was more than three times the previous one. Her hand turned into a shadow, and she meant to slap Han Fei directly to death.

Han Fei didn't even blink. He had many goals this time he went out...

Buy spiritual fruit.

Observe and remember refining shops.

And wait for someone to pick on him.

...

That was because... He needed to prove his worth sooner than later! He didn't want to waste time in Yu Ji's small shop.

Han Fei clenched his fist, and a horrible power erupted from his fist, extremely domineering.

Bang!

In the second round, Han Fei still didn't retreat, while Yu Yun took a half step back.

"Wow!"

On the side, someone exclaimed, "Impossible! How can an inferior sea demon have such power?"

Someone rolled his eyes. "Are you stupid? This is an Azure Sea Blue Demon, and it is said that they own a growth-type demonic heritage."

Someone was surprised. "I remember this person came back with Miss Yu Ji."

"Crap, Miss Yu Ji is not here. This Azure Sea Blue Demon is going to be killed by Miss Yu Yun. You know, Miss Yu Yun is no weaker than Miss Yu Ji!"

Yu Fu hid in the distance, not daring to speak, with a hope that Yu Yun could kill this Yu Fei.

Today, he felt very uneasy in front of Yu Fei, even scared. Besides, his Associated Spirit was killed by him. He certainly resented him.

But Yu Fei was quite proud and didn't seem to want to kill him, so Yu Fu didn't fight back.

At this moment, he really hoped Han Fei could be killed.

Han Fei glanced at Yu Yun and asked deadpan, "Why did you attack me?"

Yu Yun yelled coldly, "You've offended me! I must kill you today."

Chapter 756: I Am A Legend

Hearing Yu Yun's words, Han Fei wasn't angry at all.

If she didn't want to kill him, how could he prove that he was a super talented Azure Sea Blue Demon?

Many people here knew Yu Yun, but no one knew Han Fei.

They even felt that even if Han Fei was an Azure Sea Blue Demon, he wasn't qualified to live in the Ten Thousand Demon Valley.

No one felt wrong with Yu Yun's murder plan. Instead, they felt that this was a good show.

Yu Yun slapped again.

This time, she shot with all her strength, without any reservations. In her opinion, even if Han Fei was not weak, he was no match for her.

As the big hand phantom patted down, the seawater rolled to the sides, ripples rolled, and huge pressure fell from above the head.

However, Han Fei still didn't move. At that moment, he suddenly bared his teeth and raised a fist, and a faint golden light shot into the sky. An overbearing punch penetrated the phantom of this big hand.

Han Fei glanced at Yu Yun lightly, baring his teeth and looking extremely arrogant.

"A Half-Mermaid Heavenly Talent is nothing more than this."

Boom!

These words sounded like thunder in the ears of the crowd.

Is this guy really an Azure Sea Blue Demon? They had never seen such an arrogant and domineering Azure Sea Blue Demon in the Ten Thousand Demon Valley!

The Half-Mermaid and Half-Mermen onlookers were all dumbfounded.

Yu Fu gaped in shock. He suddenly remembered that Yu Ji and Han Fei had both said that they were just friends.

At that time, Yu Fu secretly despised Han Fei for pretending to be Yu Ji's friend.

But now it seemed that he was wrong. Han Fei, in terms of strength, was actually stronger than Yu Yun.

Who was Yu Yun? She was a Heavenly Talent of the same level as Yu Ji. Her attack was not something ordinary people could resist.

The crowd was in an uproar, and those who were responsible for monitoring Han Fei were shocked!

Someone murmured, "I can't believe an Azure Sea Blue Demon that is transformed from a legendary creature can be so powerful!"

The other person frowned. "No, although there are very few legendary creatures within a million kilometers, there are some, but they aren't so strong."

Below.

Yu Yun's face was all dark. "Were you a legendary creature? No wonder Yu Ji treats you so specially! But so what? You're only an Azure Sea Blue Demon anyway!"

While speaking, Yu Yun took out a golden harpoon. This time, she took this battle really seriously. It was alright to lose to Yu Ji! But she must not lose to Yu Ji's subordinate, a lowly Azure Sea Blue Demon!

Knowing that Han Fei used to be a legendary creature, Yu Yun knew that she couldn't kill him.

However, she couldn't just walk away! Today, she must teach him a lesson.

The sea demons nearby were also very angry at the moment.

Because Han Fei said, “A Half-Mermaid Heavenly Talent is nothing more than this,” which was literally a slap in their faces.

“Miss Yu Yun, kill him.”

“Miss Yu Yun, don’t spare him. Even if he was a legendary creature, so what?”

“Miss Yu Yun...”

The whole street was seething with anger, but Han Fei just stretched out his hand, and a harpoon appeared in his hand.

Han Fei sneered. “I have a weapon too.”

As soon as Yu Yun heard it, the golden harpoon in her hand disappeared, replaced by an ultra-quality demonic weapon.

Now Yu Yun had no way to back down.

She must overwhelm this guy in this battle.

Otherwise, it would only boost Han Fei’s reputation.

“Hoop!”

Yu Yun planned to beat Han Fei with a single blow, to demonstrate her strength and crush Han Fei’s pride.

Then she might forgive him and take him as her subordinate.

As Yu Yun brandished her weapon, a giant whale phantom roared out, ramming at Han Fei. The surrounding water pressure was terrifying, forcing the others around to retreat.

But Han Fei still stood still, not evading at all. He seemed to plan to face Yu Yun head-on.

“Oh! Is he crazy? This is Miss Yu Yun’s Blue Whale Riding Skill.”

Someone bared his teeth. “This Azure Sea Blue Demon is over! What makes him think he can block the Blue Whale Riding Skill?”

Above, a monitor frowned. “Shall we stop them? This Azure Sea Blue Demon may be very talented.”

“Forget it. Yu Yun probably won’t kill him. This Azure Sea Blue Demon is too arrogant. It’s alright to teach him a lesson.”

Some Half-Merman guards were rushing over from a distance, trying to stop the two. However, they were still a little far away.

However, when the giant whale rushed towards Han Fei, Han Fei turned his harpoon frantically. Suddenly, a water shield appeared and a long, narrow waterspout shot out horizontally.

Someone exclaimed, “What? He is trying to resist the Blue Whale Riding Skill with the Water Spinning as a Shield of the Impermanent Golden Halberd Technique?”

Someone was shocked. "This is insane! Does he have any idea what he is doing?"

Yu Fu had run far away. He just felt that Yu Fei must be out of his mind. The two combat skills were not at the same level at all, okay?

But immediately, everyone found that they were wrong. The harpoon in Han Fei's hand turned faster and faster, and a white vortex barrier directly enveloped Han Fei, and the shadow of the harpoon was no longer visible.

"So fast."

"Is this the Water Spinning as A Shield?"

"How much power does this require?"

"Damn, why is this guy so fast?"

Han Fei had learned very few sea demon combat skills. If he wanted to block this Blue Whale Riding Skill, he would have to use the Majestic Mystic Spell.

However, once he used it, his real identity might be exposed.

Although this Impermanent Golden Halberd Technique was just a demon-level, high-quality combat skill, it was not weak.

In Han Fei's view, this Water Spinning as A Shield tTechnique was very powerful in defense. The faster the speed, the stronger the power! It shouldn't have any problem to block this Blue Whale Riding Skill.

Clang~~

The water shield was shattered, and the Blue Whale Riding Skill was mostly destroyed. At this moment, Han Fei was being sent flying backward by the fallout.

Boom, Boom, Boom!

While sliding in the water, Han Fei threw out punches. After six consecutive punches, he slid out for more than 300 meters before he could stop.

The seawater was surging, and Han Fei was grinning. "Heavenly Talent?"

Yu Yun's face had turned ghastly pale. This Azure Sea Blue Demon was so terrifyingly strong both in strength and physique! He took her blow head-on without even vomiting blood?!

Yu Yun's eyes were icy, feeling utterly embarrassed. She couldn't believe she was lost to an inferior sea monster so easily!

However, Yu Yun suddenly scowled and snapped, "Who are you? Even a legendary creature with a special talent in power should not be able to take my blow. Who the hell are you? What's your purpose in sneaking into the Ten Thousand Demon Valley?"

Everyone's attention was attracted by Yu Yun's words. They were all Half-Mermaids and Half-Mermen. A slap in Yu Yun's face was also a slap in their faces!

For a while, everyone stared at Han Fei, suspecting his identity.

“Hahaha...”

Han Fei bared his teeth, held his harpoon, and sneered. “Who told you that I was a legendary creature?”

“Huh?”

Many people were confused, including Yu Yun. She scolded, “If not, where do you get such a strong power?”

Han Fei suddenly raised his head and glanced at everyone. “I am! A! Legend!”

Hum!

For a time, the crowd was in an uproar again, and they couldn’t believe their ears.

A Half-Mermaid asked stupidly, “He said... What?”

“Gulp!”

The person who was asked swallowed hard. “He... He said... He is a legend.”

Those few people who had been monitoring Han Fei were also shocked beyond words.

Legend? If what Han Fei said was true, then Han Fei was the first and only legendary creature who had awakened in the history of the Ten Thousand Demon Valley.

For a time, there was an eerie silence, and everyone held their breath.

Yu Yun was dumbfounded and stood there blankly. Today, she just wanted to make some trouble for Yu Ji while she was not around.

Han Fei put away the harpoon, glanced at Yu Yun, and swam away.

When passing by Yu Yun, Han Fei said lightly, “I started to learn combat skills less than a month ago.”

His words, like a thunderstorm, struck Yu Yun’s mind.

The corners of Yu Yun’s mouth trembled, and with a voice that only she herself could hear, she muttered, “Less than a month ago?”

Like a proud swan passing by a group of ugly ducklings, Han Fei walked away holding his head high. He was confident that he would attract a lot of attention after showing off his strength like this...

Yu Fu was the first to come back to his senses. Seeing Han Fei leave, he hurriedly rushed behind Han Fei. He had a hunch: this would be an opportunity for him to rise.

Perhaps this opportunity was more important than what Yu Ji could give him.

Yu Fu said fawningly, “Master Yu Fei, where are we going now?”

Han Fei smiled. “Let’s go back to the shop. I want to cultivate.”

At this moment, many people hurriedly rushed away to report.

Because everyone knew that Han Fei's rise was unstoppable.

Some people were even thinking: the Eight Wings of Blue Feather would be the Nine Wings of Blue Feather soon.

However, only Han Fei knew: next, it would be all about his acting skills.

Chapter 757: A Sea Demon Thief

Only in a single day, the news that Han Fei was an awakened legendary creature spread throughout the Ten Thousand Demon Valley.

Those who heard it were all shocked.

This had also led to many people wanting to see what that Azure Sea Blue Demon looked like. Therefore, Yu Ji's weapon shop was overcrowded at the moment.

Now Yu Ji's weapon shop had a purchase restriction, and only 50 high-quality demonic weapons would be sold in a day.

These weapons were not refined by Han Fei. He was too lazy to do it. More importantly, he didn't want to refine weapons for sea demons.

At the moment, he was waiting for someone to come, someone really important.

Han Fei was closing his eyes and meditating, turning a blind eye to other's perceptions and gazes. He was teasing the fish.

In Forge the Universe, Little White casually swam around and merrily frolicked among the leaves of the Big Red Trunk.

As for Little Black...

At this moment, in a shop called Yu Xiao's Weapon Shop, a burly figure appeared silently.

Han Fei lowered his head, looked at his hands, and shook his head slightly. "A puppet is a puppet. It is impossible for a puppet to act exactly like a human. But fortunately, these arrays are simple."

This person was Overlord. Beside him, there was an invisible black fish.

As Overlord stomped on the floor, there appeared one, two, three arrays...

Three arrays, three different seals. After setting up the arrays, Overlord strode into the material room of the Yu Xiao Weapon Shop.

The moment Han Fei stepped into the seal, a buzzing sound rang out.

However, two seals set by Han Fei were also triggered at the same time. Both the sound and the shock disappeared at that moment.

Han Fei saw two large piles of messy materials placed on the floor and a big pot of spiritual spring that occupied one-fifth of the area of the room.

Hey! Why are there only 30,000 catties of spiritual spring in this shop?

Overlord was expressionless, but the blue flame in his eyes was flickering and seemed extremely eager.

SWISH!

Just in a moment, the material room had been cleared as if it had been licked by a huge tongue.

Overlord looked at Little Black, and the latter then became bigger and bigger and swallowed Overlord in one bite.

Let's go to the next shop.

...

Only half an hour after fighting Yu Yun, he felt several powerful perceptions sweep over him.

When the pressure came, the others who had surrounded Yu Ji's weapon shop all panicked and left.

Yu Fu was too scared to move. He had nowhere to escape, so he could only stand respectfully in the shop, waiting for the presence of the big shots.

About two or three minutes later, a Half-Merman in a green jade battle suit entered the shop. This person had an overwhelming murderous aura, and Yu Fu was trembling in fright.

Han Fei suddenly opened his eyes and looked at this person without surprise.

In fact, he sighed secretly in his heart. He wasn't sure if his method would work.

He had thought that the one who came would be stronger than this one. The pressure this person put on him was actually not that great. Although he was at the level of a Hidden Fisher, he was probably weaker than Xiao Zhan.

The visitor stared at Han Fei for quite a while, but Han Fei didn't panic at all, looking straight at him.

The man grinned and said, "As expected, an awakened legendary creature is beyond the reach of the ordinary both in composure and pride."

This person suddenly said loudly, "I am the deputy commander of the Azure Sea Demon Army of the Blood Sea Valley, Yu Xuan. You are the Azure Sea Blue Demon, so you're born to belong to my Azure Sea Demon Army. Follow me, you can choose whatever combat skills you like. As long as you join us, you can directly command a Hundred-Man Group. In less than a year, you will be leading a Thousand-Man Group... In the future, if you make your mark, you'll be the deputy commander of the Azure Sea Demon Army."

Han Fei blinked, thinking, *Isn't this a bit too much? Is a legendary creature so popular?*

Han Fei didn't know what the Azure Sea Demon Army was. But he guessed this person must be the deputy commander of the Inferior Man-Fish in the Blood Sea Valley.

Yu Fu once mentioned that there were more people in the Blood Sea Valley than in Ten the Thousand Demon Valley. He could imagine how many ordinary sea demons this Yu Xuan commanded...

However, Han Fei didn't want to leave the Ten Thousand Demon Valley for now. He murmured in his heart, *I'll stay as long as I can here and plunder as many spoils as possible!*

If he went to the Blood Sea Valley and stayed with a group of lame ordinary sea demons every day, what could he get?

Han Fei was about to refuse when suddenly someone outside the cave sneered. "Yu Xuan, your speed is fast indeed, but is your Azure Sea Demon Army qualified to recruit him?"

Then another strong master in a scarlet battle suit came in. Although this person was smiling, the powerful pressure he released made Han Fei frown. This person was probably not weaker than Xiao Zhan in strength.

This person entered the weapon shop and sat casually on the refining platform. Then he reached out and a crab leg appeared in his hand. He snapped it with a click and started to chew.

Yu Xuan's face was dark. "Yu Chen, why does your Crimson Blood Demon Army try to poach our Heavenly Talent?"

Yu Chen grinned. "My red demon cubs always feel that they are invincible. If there is a powerful Azure Sea Blue Demon suppressing them, it can surely arouse their ferocity."

As he said this, he looked at Han Fei. "I am Yu Chen, the deputy commander of the Crimson Blood Demon Army in the Blood Sea Valley. You know, Red Demons are difficult to command. I know you are a Heavenly Talent and you have your pride, but this is a great challenge. Are you interested?"

Han Fei shook his head slightly. "No."

Yu Xuan was overjoyed. "What about my army?"

Han Fei continued to shake his head. "No."

Hum!

Both of them were annoyed, glaring at Han Fei angrily.

Yu Chen said coldly, "Just because you are a legendary creature doesn't mean that you can do whatever you want. With your identity as an Azure Sea Blue Demon, where else can you go except for the Blood Sea Valley?"

Yu Fu sank to the ground under the two's pressure, while Han Fei slowly got up and said resolutely, "I just want to explore the path of cultivation!"

Yu Xuan and Yu Chen glanced at each other, and Yu Chen suddenly laughed. "Sure enough, the consciousness of creatures of different ranks is different. In the entire Ten Thousand Demon Valley, there are no more than a hundred people who have the confidence to say these words... You are special."

Suddenly, Yu Xuan and Yu Chen looked at the entrance of the cave at the same time, and then made way.

Han Fei narrowed his eyes slightly, thinking, *The one I'm waiting for has finally come.*

The person who came this time wasn't a Half-Merman, but a Red Demon.

However, this Red Demon was different from the ordinary Red Demon. He was unusually tall, and his legs had greatly evolved. There was no tail behind him, and he looked like a deformed human.

However, his face no longer resembled a fish. Except for the extremely large eyes, he looked more human than any Red Demon Han Fei had ever seen.

Yu Xuan and Yu Chen respectfully greeted this person at the same time, "Master Huan."

Han Fei's face changed slightly. Was this the seventh-ranked Chixue Huan among the so-called Eight Wings of Blue Feather, the only Red Demon ranking among the Eight Wings of Blue Feather?

Chixue Huan glanced at the two of them. "Go back!"

Yu Xuan and Yu Chen exchanged glances, and responded, "We're leaving, Master Huan."

No information appeared in Han Fei's eyes, and this person gave him a very bad feeling, very depressing and threatening. Unlike Yu Xuan and Yu Chen, their pressure had to be released. But Chixue Huan's pressure didn't even need to be purposely released.

He stared at Han Fei, and Han Fei was also looking at him.

At this time, Yu Fu was already lying on the ground, not even daring to lift his head.

Chixue Huan said, "Actually, you should go to the Blood Sea Valley. Only after many hardships are you more qualified to pursue the path of cultivation."

Han Fei didn't speak, and Chixue Huan continued, "However, no hurry for that. You've just transformed into a humanoid form, and don't have any combat skills. By the way, what is your inherited secret technique?"

Han Fei was silent for a moment, and only after his thoughts became clear, he said, "Overlord body."
"Oh?"

Chixue Huan raised an eyebrow. "What does this mean exactly? Can you show me?"

Han Fei pondered for a while and secretly activated the Majestic Mystic Spell. In an instant, his vigor soared and his strength increased exponentially, and he became a peak-level Hanging Fisher.

Chixue Huan grinned, showing his fangs. "So that's it? It seemed to be even stronger than the Sea King's Secret Technique. Good, you do have a right to be arrogant."

Han Fei thought, *The Sea King's Secret Technique can only double your strength, but this one can increase your strength fivefold!*

Suddenly, Chixue Huan asked, "Did you kill Yu Yue and the others?"

Han Fei didn't hesitate at all.

He had already considered this question. He shook his head slightly. "No, there was a second guardian creature."

Han Fei wasn't quite worried. Little Gold's Lightning Blade was really strong, and he didn't wipe off the traces it left behind, so he wasn't afraid of being investigated.

Chixue Huan smiled. "Yu Ji said you saved her?"

Han Fei shook his head. "No, I didn't. That creature didn't attack us."

Chixue Huan nodded. "Umm, even if you were a legendary creature, I won't accept you easily. Legend, legend... Do you really want to enter the Ten Thousand Demon Tower?"

Han Fei frowned slightly. This was different from what he thought! He had thought that this person would try to take him away, but it didn't seem to be the case.

Han Fei thought for a long time. "I will leave."

Chixue Huan's eyes were piercing. "Where are you going?"

Han Fei said expressionlessly, "Leave the Ten Thousand Demon Valley and pursue the path of cultivation."

Chixue Huan nodded in satisfaction. "This is a choice a legendary creature would make. If you want to stay in the Ten Thousand Demon Valley, I will doubt your purpose. It seems that you already have a plan for your future..."

While Chixue Huan was chatting with Han Fei, suddenly, an angry roar spread across dozens of kilometers.

"Goddamn it, there is a thief..."

Chapter 758: Chixue Huan

Han Fei secretly smiled. Actually, he asked Yu Fu to show him around with a purpose, which was to kill five birds with one stone.

Buy spiritual fruits, watch the terrain, wait for someone to provoke him to give him a chance to show off his strength, steal things, and wait for people to woo him...

Han Fei couldn't help admiring himself. He must take this chance and snatch as many benefits as possible from the Ten Thousand Demon Valley as quickly as possible.

However, Han Fei didn't expect that what he did was brought to light so quickly. He had robbed only two refining shops, gaining 59,000 catties of spiritual spring in total, which was equivalent to less than 60 million points of spiritual energy.

However, he had snatched a lot of refining materials from one of the refining shops, which was as easy as pie for him. Unfortunately, these materials were of little use to him at the moment.

He couldn't sell such a large amount of materials now. Therefore, he could only wait for the right opportunity to sell them in the future.

However, he didn't expect it to alarm Chixue Huan.

At the moment Chixue Huan looked out, Little Black, who was more than 30 kilometers away, stopped swimming and leaned against a rock wall outside a spiritual fruit shop.

Immediately afterwards, there was another scream. Someone roared, "Oh, no! Someone robbed my refining shop. All the materials and spiritual springs are gone, all of them!"

The Half-Mermaid vomited blood out of anger.

Han Fei was speechless. Sh*t, he had planned to rob at least five or six shops with the help of Little Black and Overlord while he was attracting a lot of people's attention. But now his plan had fallen out.

Han Fei knew that he had to give up on his plan. At this moment, many refining shops must have been vigilant, and he wouldn't be able to rob them in the short term.

However, Han Fei didn't panic.

After all, he had grabbed 60 million points of spiritual energy at one time.

Chixue Huan frowned slightly and said to his men, "Check it out."

Someone immediately left. Chixue Huan looked back at Han Fei. "This kind of thing is very rare in the Ten Thousand Demon Valley. Don't worry about it. Let's continue..."

Chixue Huan said, "You'll leave here one day. Then, if I train you and teach you all kinds of top notch combat skills and secrets methods, how will you pay me back?"

Han Fei pondered for a moment. "How do you expect me to pay you back?"

Chixue Huan's eyes flickered. "Simple, do three things for me. After that, you can leave at any time."

Han Fei looked at him. "How long will it take?"

Chixue Huan grinned. "For you, lifespan shouldn't be a problem. If it's fast, three or five years, and if it's slow, seven or eight years. You can leave at any time after you do the three things for me."

Han Fei sneered in his heart. *Who the f*ck would stay for three to five years? I'll stay for three to five months at most, OK?*

However, on the surface, Han Fei asked indifferently, "What are the three things?"

Chixue Huan faintly smiled and said, "No hurry. Although you were a legendary creature, your current strength is still weak. Besides, you're lacking both cultivation techniques and combat skills. You still need time to improve your strength! With your current strength, there are two places that are best for you to hone your combat skills."

Han Fei was puzzled. "Where?"

Chixue Huan said, "The Sea Demon Colosseum and the frontline of the battle between sea demons and human beings. I think the latter is more suitable for you. If you survive on the battlefield, your strength is bound to be greatly improved."

Han Fei thought, *Do you think I'm stupid? You mean go to the Scattered Star Island? Do you know how hard it took me to get out of there? Anyway, I'm definitely not going there.*

Han Fei said flatly, "I'd like to go to the Sea Demon Colosseum first."

Chixue Huan waved his hand and more than ten jade slips appeared. "As you please. You can stay in the Ten Thousand Demon Valley for some time first. You've just transformed into a humanoid form, so your strength is improving very fast. But remember, you can't break through level-50."

Han Fei was surprised. "Why?"

Chixue Huan said, "As for the first thing I need you to do, if there is no surprise, keep yourself in this realm. When the time is right, you will know what to do."

Han Fei guessed that Chixue Huan probably needed him to explore a secret realm for him, which only people of the Hanging Fisher realm could enter.

However, Han Fei was a little troubled. Would he have to fight humans in this secret realm? In that case, that would be troublesome.

But he still wanted to have a try. After all, secret realms represented treasures.

"Forget it. I'll just play it by ear!"

Chixue Huan left. Before leaving, he said to Han Fei, "From now on, there won't be anyone making trouble for you. I don't know when I'll need you to do the first task for me. Just work on your combat skills."

After Chixue Huan left, Han Fei sat alone for a long time, pondering about his next plan.

Han Fei didn't intend to stay long in the Ten Thousand Demon Valley.

After all, this was not humans' territory. It wouldn't be comfortable if he stayed here for a long time.

If Chixue Huan didn't imply that the first thing he needed Han Fei to do for him was to explore a secret realm, Han Fei might just ignore him. After all, if he wanted to leave, Chixue Huan wouldn't be able to catch him.

At the moment, Yu Fu was looking at Han Fei in awe. This guy's status now seemed to be on the same level as Yu Ji!

Sure enough, gold would shine everywhere!

Han Fei smiled secretly. Since he wasn't in a hurry to leave, he no longer asked Little Black to take Overlord to rob those shops. Now maybe he could try studying sea demons' combat skills.

With the Heavenly Variation Technique, he could travel freely both in human society and the sea demon world.

Thinking of this, Han Fei couldn't help but glance at the combat skills and techniques left by Chixue Huan, and discovered that there were a heaven-level, low-quality cultivation technique and four heaven-level, low-quality combat skills.

Han Fei took a breath immediately. *Chixue Huan is really generous. Isn't he afraid I'll run away?!*

Han Fei simply ignored that cultivation technique. If he had to pick one to practice, that would be the True Spirit Demonic Scripture. Although they were both heaven-level, low-quality, the two were completely different.

The True Spirit Demonic Scripture reflected the rules of the world and embraced all living beings in the ocean. To deduce it would cost one hundred million points of spiritual energy! Ordinary heaven-level, low-quality cultivation techniques simply couldn't be compared with it!

As for the combat skills, he would just practice the four heaven-level, low-quality ones.

Chixue Huan was quite thoughtful. These combat skills included both offensive-type and defensive-type. They were:

Sea King's Secret Technique, Han Fei had already had this. But Han Fei couldn't show his powerful inherited combat skill all the time because he actually didn't have any "inheritance".

Flying Flower Demon Flash, a sea-demon combat footwork skill. It could allow one's body to shuttle freely within 20 meters and break through the air. It was a melee flashing combat skill.

Han Fei suspected that if the combat skill deduced from the Flying Flower Demon Flash might be very powerful, maybe even comparable to Xia Xiaochan's Flash skill.

Besides, if he could use it after he changed back into a human, that would be great!

Dance of Light, he had seen Yu Ji and other Half-Mermaids using this harpoon combat skill in combat, and it was very powerful. If it was used in conjunction with the Sea King's Secret Technique, it might work as well as the Draw Technique.

Seventeen Dragon Fists, a sea demon fist technique, with seventeen styles, each stronger than the last. It was said that the seventeenth punch could break mountains and rocks and destroy ultra-quality demonic weapons with bare hands.

This combat skill is nice, Han Fei thought. Now in the Ten Thousand Demon Valley, he could no longer use the Sacrificing Punch. This would be a good alternative.

Han Fei quickly decided to spend three days to practice these combat skills and go to the Sea Demon Colosseum three days later.

"Yu Fu."

"Yes, Master."

At this moment, Yu Fu had completely submitted to him. Han Fei's rise had been unstoppable.

And Yu Fu also heard what Han Fei just said. His goal was to pursue the path of cultivation, and even Yu Ji couldn't compare with him in this respect.

Han Fei glanced at him. "I want to practice cultivation techniques and combat skills. Is there a suitable place?"

Yu Fu quickly said, "Yes, there is a cultivation canyon on the west side, all the Half-Mermaids and Half-Mermen cultivate in that canyon."

“Cultivation Canyon?”

Yu Fu explained, “There is demonic heritage under the Ten Thousand Demon Tower, which can facilitate our cultivation. If you can go to the Ten Thousand Demon Tower, then you don’t have to go to the canyon. But since you don’t go to the Ten Thousand Demon Tower, you’d better cultivate in that canyon. Miss Yu Ji and others also started their cultivation from the canyon and have come to this day step by step.”

Han Fei got up and walked to the door, ignoring the chaos outside. Little Black plunged into his body, and the things they stole had been thrown into Forge the Universe along with Overlord.

Han Fei said deadpan, “In this case, I’m going to the canyon. If Yu Ji comes back, tell her I’m over there.”

“Yes, Master.”

Chapter 759: Cultivation Canyon

Han Fei found that it had been three months since he ran out of the Scattered Star Island.

His life tablet had probably been shattered to prevent Luo Xiaobai and the others from coming out to look for him.

They probably wouldn’t be allowed to leave the island. As for Old Jiang, he wouldn’t be so impulsive as to come out to search for him.

But was there anyone to remind Tang Ge? Would he run out to look for him?

Han Fei forced himself not to think about it. After all, he was already in the Ten Thousand Demon Valley now.

In fact, he initially planned to be taken away by a strong master. Then, he could demand a lot of resources.

After meeting with Chixue Huan, however, he realized that things were not that simple. Only Chixue Huan came, and even Chixue Huan didn’t seem to be ready to let him enter the Ten Thousand Demon Tower, giving him no chance to demand anything.

“Fine, let’s take a look at the cultivation canyon first.”

...

Yu Fu led Han Fei all the way to the west, which was actually on the other side of the Ten Thousand Demon Valley.

Yu Fu respectfully said, “Master, the cultivation canyon has daily cultivation waters, ordinary demon realms, and the Ancient 72-Floor Demon Realm. Now you haven’t yet practiced appropriate sea demon techniques and combat skills, so do not enter the Ancient 72-Floor Demon Realm, please.”

“Oh? Ancient 72-Floor Demon Realm? What is that place?”

Yu Fu explained, "It's said that the Ten Thousand Demon Valley was established because of the existence of demonic heritage. And when the sea demons discovered the demonic heritage, they discovered the demon realm at the same time. It's said that it's only a small demon realm and in the real sea demon King City, there is a truly peerless demon realm."

Han Fei was surprised. "Sea demon King City?"

Yu Fu sighed. "The King City has always been a legend. Some ordinary sea demons haven't even been to the Ten Thousand Demon Valley, so they think this place is the King City. In fact, no one has ever been to the real King City, nor has anyone ever seen a person from the King City. However, the Ten Thousand Demon Valley can be considered a holy land. Especially the Ancient 72-Floor Demon Realm, it's said that no one has ever reached its top floor. There must be great opportunities there."

Han Fei was shocked. "What? No one for so long? Are there so few Heavenly Talents among sea demons?"

Yu Fu shook his head. "How could there be few in number? There are countless Heavenly Talents. According to the record of the Demon Stele, there are 68 people who have reached the 71st floor. And below the 71st floor, each floor has been visited by 100 people given that the upper limit is 100 people... But no one has ever entered the 72nd floor."

Han Fei was surprised. "What is the Demon Stele?"

Yu Fu answered respectfully, "The Demon Stele is a rock wall, on which it records the top 100 Heavenly Talents reaching each floor in the history of the Ancient 72-Floor Demon Realm. This ranking is not ranked by the number of floors that they have passed through, but the time they arrived. Even the 100th person on the first floor can be regarded as a Heavenly Talent."

Han Fei couldn't help being a little surprised. *It seemed that this Ten Thousand Demon Valley is also not simple! After such a long time, the Ancient 72-Floor Demon Realm remains.*

Han Fei asked, "Is Yu Ji on the list?"

Yu Fu proudly said, "Sure! Miss Yu Ji, who has reached the 61st floor, ranks 81st. That's why she was accepted as a disciple by Lord Beichen."

Han Fei was speechless. "The 81st? What's this to be proud of?"

Yu Fu said disapprovingly, "Master, the Demon Stele has recorded the most powerful Heavenly Talents in history. Although it only records sea demons below level-50, it is the accumulation of endless years!"

Han Fei didn't say anything. Time can't tell you anything!

After all, Han Fei no longer thought he was a peerless Heavenly Talent ever since he had met Chun Huangdian. In terms of talent, no one exceeded Chun Huangdian.

An hour later, Han Fei finally came to the so-called cultivation canyon.

It was more like a training ground than a canyon. As far as he could see, the canyon stretched for dozens of kilometers. From Yu Fu's introduction, Han Fei learned that this place actually extended for more than 120 kilometers, and it was like an ordinary cultivation field.

As far as Han Fei could see, there were some people floating in the water and practicing cultivation techniques, some Half-Mermaids and Half-Mermen fighting vigorously, and some practicing combat skills alone in the water.

At this moment, Yu Fu respectfully said, "Master, this is an ordinary cultivation field. The further you go in, the more advanced the training fields will become. But please don't rush straight in. If you want to enter the Ancient 72-Floor Demon Realm, you'll have to fight your way through."

Han Fei glanced around. This place was an ordinary training ground for the sea demons. He frowned and thought, *With so many people here, how the f*ck am I going to cultivate?!*

Han Fei immediately said, "You can leave now! I'll go in alone."

"Yes, Master."

Han Fei's arrival would inevitably attract much attention. Some people had heard of Han Fei's deeds, but most people didn't because it had only been less than four hours since Han Fei fought Yu Yun. And the news that Han Fei was an awakened legendary creature hadn't been spread out.

Therefore, the moment Han Fei arrived, someone immediately yelled, "Where is the inferior sea demon from? Get the hell out of here."

A Half-Merman sneered when he found Han Fei was an Azure Sea Blue Demon. "Ah, an Azure Sea Blue Demon. Why don't you go to the Blood Sea Valley? You don't belong here!"

Han Fei said indifferently, "Get out of the way."

Another Half-Mermaid sneered. "What? Who do you think you are? Even Azure Sea Blue Demons are not qualified to cultivate in this canyon. Leave now!"

Yu Fu hadn't gone far yet. Watching this scene, he thought, *Are these guys stupid? Why don't they think about... The reason why Master Yu Fei can come here as an Azure Sea Blue Demon?*

Han Fei said leisurely, "Do you want to fight? Then come on!"

Swoosh!

Han Fei suddenly flung his harpoon. This blow was so fast and powerful that the sea was bursting, and the person who stood in front of Han Fei was sent flying hundreds of meters away by this blow.

There were no bells and whistles or magical footwork but only a harpoon stab. However, no one could resist it.

"What strong power! No wonder you dare to come here. Let me fight you."

Seeing that Yu Fu hadn't gone far, Han Fei immediately turned around and asked him, "Can I kill them?"

Yu Fu opened his mouth, and before he could answer, someone sneered. "How dare you say this? Yes, you can kill here as long as you can."

Han Fei turned around and nodded. "Very good, then I don't have to reserve any strength. Who's next?"

Han Fei's voice was very cold.

Hearing his words, many people flinched. They were here to cultivate, not to fight someone to the death!

However, out of a hundred people, there were always one or two dumb*sses who were overconfident.

Immediately, someone stood up, baring his sharp teeth and looking at Han Fei coldly. "Me. Since we've stepped on the path of cultivation, we shall not be afraid of death. Today, let me teach you a lesson that not anyone can come here..."

This man was covered in white flames as he activated the Sea King's Secret Technique. A big blue fish phantom appeared, whose head was all blue. Seeing this scene, Han Fei couldn't help sneering. *It isn't certain who will teach this lesson!*

However, Han Fei clearly felt that this person's realm seemed not as high as his own.

So Han Fei didn't even use any combat skills. He just hurled the harpoon out again. A huge phantom about a hundred feet high pierced the seawater and whistled, releasing an overwhelming power.

The Half-Merman roared and threw out the harpoon exactly as Han Fei did. However, the tip of his harpoon flashed with thick demonic energy.

Boom! Click...

The opponent's harpoon broke, and Han Fei had already swept over and stood behind him.

The harpoon penetrated his body, and Han Fei grabbed the blood-stained harpoon and moved forward step by step as if he had just done a trivial thing.

With a single blow, he killed a Half-Merman.

This scene horrified countless others around. What's the background of this Azure Sea Blue Demon?

Someone was shocked. "Are Azure Sea Blue Demons so powerful?"

Someone backed down. Not everyone could afford a life-or-death battle!

In the distance, Yu Fu saw this scene and left quietly.

He was guessing, *Will Master Yu Fei become the next one to be recorded on the Demon Stele?*

After all, he was an awakened legendary creature! In terms of level, he was even higher than ordinary Half-Mermaid or Half-Merman Heavenly Talents.

...

Han Fei walked very slowly.

However, within a few kilometers, no other sea demons dared to come forward to challenge him. No one wanted to risk their life to fight against a lunatic like this.

When Han Fei walked more than 8,000 meters, the second person finally jumped out.

However, this man's body was cut in half by Han Fei with a single blow, and Han Fei was still walking forward without even stopping.

After 30 kilometers, the third challenger appeared. This person was holding an ultra-quality demonic weapon with a spirit sealed in, and his strength had already reached its peak.

This time, Han Fei performed the Sea King's Secret Technique.

When a thick white light enveloped him, Han Fei felt a magical power, which seemed to be a branch protruding from the air, or the nectar from the ninth heaven, suddenly fall into his body.

In addition to becoming stronger, he felt very comfortable, just like finally sitting down after standing for a long time or taking a bath in a hot spring.

"No wonder you all like to use this combat skill."

Hum!

When Han Fei thrust at the opponent with the harpoon, the Demon Purification Pot suddenly shook. Han Fei clearly felt a strange throb of the heart. It seemed that something had gone away from him.

Seeing Han Fei distracted, the Half-Merman blasted out a punch with all his strength. The horrible force stirred up a wave hundreds of meters high, which beat towards Han Fei.

Crack!

The harpoon in Han Fei's hand broke.

However, to everyone's surprise, Han Fei grabbed half of the harpoon and cut across the man's chest with it.

The next minute, the man's chest burst, and blood flowed freely.

Han Fei held the opponent's harpoon, releasing thick demonic energy and forcibly suppressing the vibrating demonic weapon.

"It just so happens that I lack a good weapon."

Chapter 760: On A Rampage

Han Fei didn't intend to stay here for long. What he wanted to visit was not this ordinary place of cultivation, but the Ancient 72-Floor Demon Realm.

After Yu Fu told him about the Ancient 72-Floor Demon Realm, Han Fei had decided to visit it. After all, now he could be both a human and a sea demon.

As long as he'd like, he could explore both the world of humans and that of sea demons.

After all, physically, he was still himself.

So, it wouldn't make any difference no matter what kind of cultivation technique he practiced.

Although he hadn't practiced any sea demons' cultivation method, he didn't believe there was anyone in this ordinary training ground who could defeat him.

If there was, Chixue Huan would probably not have come to him. Then his identity as a legendary creature would be meaningless.

Han Fei was still walking. However, no one challenged him anymore.

Most people were wondering what the background of this Azure Sea Blue Demon was! He was simply terrifyingly strong!

After he walked hundreds of kilometers, someone suddenly attacked him.

Han Fei felt that this person wasn't weak. Behind this person, there stood a huge stone man tens of meters high. And this man was enveloped with white flames, eight sharp claws wriggling behind him.

The man looked at Han Fei. "I know that the Azure Sea Blue Demon who can get here is definitely very strong. However, fighting is the fastest way into a promotion. Let's fight."

Han Fei bared his teeth. "You know I only fight life-or-death battles, right?"

The man smiled and said, "I know."

Han Fei was a little puzzled. "Why don't you go to the demon realm?"

The man grinned. "Not everyone is a Heavenly Talent. If I'm not a Heavenly Talent, why bother to waste my time in the demon realm? This kind of battle means more to me."

"Aren't there still ordinary demon realms?"

The man shook his head. "Still meaningless. I came from an ordinary demon realm to wait for sea demons like you here."

Han Fei nodded and thought to himself, *There is no shortage of brave men among sea demons.*

Since this person has been ready for a life-or-death battle, he certainly wouldn't stop him. So he just said indifferently, "You will die."

Hum!

When Han Fei spoke, the giant moved and blasted out a punch, shattering the seawater.

Han Fei activated the Majestic Mystic Spell and a huge fist mark burst out of the waves.

Han Fei muttered, "I forgot to tell you that my inherited technique is Overlord Body."

Boom!

The sea exploded, smoke and dust rolled, waves surged, and the shock wave extended dozens of kilometers away.

With only one blow, the stone man broke into pieces, as if he had never appeared.

The man had pounced on him. However, he didn't use a harpoon but turned his hands into knives. Including the eight sharp claws behind him, it was equivalent to ten sharp blades, bombarding at Han Fei.

And Han Fei was still in his old ways, launching the Water Spinning As A Shield with the harpoon.

Clang, Clang, Clang~

After a hundred blows, the man still failed to pierce Han Fei's defense. This scene shocked countless others. No one had used the Impermanent Golden Halberd to the same extreme as Han Fei!

Han Fei twisted his wrist and said casually, "This Impermanent Golden Halberd has a trick called Breaking Wave with A Point of Starlight. It requires abundant demonic energy, fast speed, and great power, and when using this trick, you shall concentrate all your strength on one point. I think you all know this trick... But now try mine."

Han Fei jabbed his harpoon at the man with a jerk. Different from just now, this blow was extremely fast, breaking the seawater and even making a sonic boom.

In the seawater, a white flame lit up. Seeing this scene, the Half-Merman was horrified. This power was certainly not something he could resist.

However, if he could block this blow, he was sure that he would be much closer to the real sea demon realm, which would be only a stone's throw away.

Whiz... Crack... Crack...

A column of water rushed out more than a hundred meters high. When the smoke cleared, Han Fei had already walked hundreds of meters forward. The Half-Merman was already drenched in blood.

There was a small hole between his eyebrows, where blood oozed out.

That hole was left by Han Fei's harpoon. Now, the winner had been called.

Countless pairs of eyes were full of shock. Is this guy really an Azure Sea Blue Demon?

In shock, these people began to whisper to each other.

However, what they didn't know was that with his back to them, Han Fei grimaced in pain.

After all, he was facing a desperate blow from the opponent just now.

After all, he now was a sea demon and was not familiar with sea demons' combat skills. He was satisfied with such an outcome.

However, this indirectly proved that the Ancient 72-Floor Demon Realm was probably not so easy to explore.

The guy just now could only explore ordinary demon realms, and he was actually not much stronger than that guy.

Han Fei knew that he should cultivate now.

After passing the ordinary cultivation area, there was a large open space of hundreds of kilometers, and the ordinary demon realms were not far away.

But Han Fei didn't plan to explore those demon realms... After walking for more than ten minutes, he floated straight up and began to practice the True Spirit Demonic Scripture.

...

The True Spirit Demonic Scripture was only for beginners, and no one could become a great demon with this technique.

But it just suited Han Fei now. He knew nothing about sea demons' cultivation methods. All he had was some combat experience, and he hadn't learned how to make use of demonic energy.

Sea demons had different cultivation methods from human beings. Humans needed to sit cross-legged and draw spiritual energy into their bodies to cleanse the body, broaden the meridians, temper the will, and stabilize the soul.

But sea demons were different. The result of cultivation might be the same, but the posture was different.

Sea demons were floating in the water for cultivation. When a sea demon was cultivating, their body would be covered with a faint demonic luster. After the demonic energy entered the body, it condensed in the Dantian and the spot between the eyebrows and then spread throughout the body.

However, when Han Fei was practicing the True Spirit Demonic Scripture, an accident happened.

The white bead that had never moved in his Dantian began to spin quickly.

As it was spinning, demonic energy was gathering up from all directions.

This scene stunned all the sea demons within a radius of more than ten kilometers. They saw Han Fei stop in the distance and start to cultivate.

However, they never expected what happened next.

Demonic energy gathered up, rolling like a tide, and Han Fei, like a huge funnel, was swallowing it frantically.

Someone was dumbstruck. "Is this really the first time this guy cultivated?"

Someone gaped in shock. "So when he killed so many people just now, he hadn't even started to cultivate yet?"

Someone sighed. "It seems that the Ten Thousand Demon Valley is going to have one more Azure Sea Blue Demon powerhouse."

Many people thought of Chixue Huan, a strong master who was a Crimson Blood Demon, the only Red Demon among the Eight Wings of Blue Feather.

Chixue Huan, at this moment, was watching this scene dozens of kilometers away with a few people.

Even Chixue Huan himself couldn't help but sigh. "He's really a worthy legendary creature. This cultivation speed is even faster than I was before."

Someone beside him murmured, "For some reason, I suspect more and more that Yu Yue was killed by this guy."

Another Half-Mermaid smiled and said, "Even if it was him, so what? Legendary! He is a legendary creature. Can Yu Yue be comparable to a legendary creature? If we can keep him in the Ten Thousand Demon Valley, our strength will definitely scale to new heights in the future."

Someone frowned. "Chixue Huan, does he really want to leave?"

Chixue Huan said lightly, "If you were legendary, would you stay here?"

The man thought for a while and shook his head slightly. "If I had talent like his, I would definitely go pursue the path of cultivation. When I make a breakthrough, maybe I will leave too."

Chixue Huan said, "That's it. No one dares to force him to stay. If this kid grows to a certain level, he may overtake us in strength. What if he takes revenge then? So we'd better build up a good relationship with him. Perhaps he'll help us in the future."

A Half-Mermaid said, "That's a gross exaggeration. Even if he is a legendary creature, he won't grow so fast. The higher the level, the slower the growth. It's still too early for him to reach our strength!"

At this moment, Han Fei had no idea that so many strong masters were watching him. He was thinking, *What is this white bead in my Dantian?*

At first, he was horrified. When the Master of the Snow God's Temple gave him this bead, he had a bad feeling about it.

So many sea demons became souls for this thing, so this thing must have something to do with sea demons.

But he didn't expect this thing to be so powerful, absorbing demonic energy from all directions. Now he felt that his meridians were absorbing demonic energy frantically like a dry desert.

However, although his body absorbed a lot of demonic energy, his strength didn't seem to improve much.

After only an hour, Han Fei felt that his body was full of demonic energy. And the speed at which the demonic energy was absorbed had also slowed down. He took a look at his data.

<Owner> Han Fei

Level: 48 (High-Level Demonization)

Demonic energy: 2,032,251 (15,392)

Spiritual power: 1,912/1,912

Perception: 19,999 meters

Spiritual heritage: Level-5, High-Quality

Spiritual Beast: Twin Yin-Yang Spirit Swallowing Fish <Level-40>

Associated Spirit: None

Main Art: "True Spirit Demonic Scripture"

...

“Sure enough, the change is too small. Except that the spiritual energy has completely transformed into demonic energy, not even an Associated Spirit was born, and it’s basically the same as before.”

However, Han Fei thought, *What if I can get an Associate Spirit?*

Immediately, he opened his eyes.

Now that the cultivation technique couldn’t bring about qualitative changes, he would try practicing combat skills.
