

GOF 771

Chapter 771: Carry the Elder With Him

Under Blue Feather's gaze, Han Fei was very uncomfortable, feeling as if this person could see him through.

Han Fei didn't conceal anything, and directly stated what he had seen.

"The Ten Thousand Demon Valley used to be floating on the sea. Humans occupied this place and the Ancient 72-Floor Demon Realm wasn't ours either... In that battle, there were strange beasts flying across the sky, big hands covering the sky and the sun, and surging billows rolled thousands of meters higher... I saw a man being killed by a beautiful, bare-footed woman wearing a colorful gauze dress, his weapon shattered and his battle suit exploded..."

Han Fei seemed to be depicting an epic, and the breathing of Chixue Huan and the others became fast as they were listening. They hadn't entered the 72nd floor, so they didn't know what that floor was like at all.

So Han Fei wasn't worried they would suspect him at all. He thought, *If you don't believe me, you can go onto that floor yourself!*

Anyway, even if you go in, what you see would be exactly the same as what I saw. But Blue Feather boasted that Shu Shan was their ancestor just now? Ha!

He thought to himself, *Your 'ancestor' is in my hand now, OK? What a big mouth!*

Han Fei wasn't telling a lie. Therefore his description was very vivid and convincing. Even Blue Feather could only nod his head.

Besides, others were not so clear, but Blue Feather knew very well that the Ten Thousand Demon Valley was indeed the territory of mankind.

Including the Ancient 72-Floor Demon Realm, it was also the territory of mankind.

However, he felt that now that sea demons had occupied it, it belonged to them now.

Besides, the Ancient 72-Floor Demon Realm had been a holy cultivation place for ordinary Half-Mermaids and Half-Mermen since ancient times. No one could deny that place was very good for their cultivation.

Blue Feather looked Han Fei up and down. "Not bad! You can live in the Ten Thousand Demon Tower, the top floor."

Before, when Chixue Huan was talking to Han Fei, he didn't plan to let Han Fei move into the Ten Thousand Demon Tower.

From Chixue Huan's point of view, no matter how talented Han Fei was, he would leave anyway. Giving Han Fei some opportunities now might bring him some unexpected gains in the future.

But Chixue Huan didn't expect that Han Fei would be so heinously gifted.

The first time he came to the Cultivation Canyon, he walked through the entire Ancient 72-Floor Demon Realm! No one had ever achieved this before him in history.

Chixue Huan said to Han Fei, "Go back to the weapon shop first. Someone will lead you to the Ten Thousand Demon Tower later."

Han Fei nodded and left.

When Han Fei left, someone said, "Master, this guy is very talented, but his heart is not in the Ten Thousand Demon Valley. Shall we kill him?"

Chixue Huan looked at the person and said, "Hai Xinlan, there is finally a peerless talent among sea demons. Why do you want to kill him? Then, how could the Ten Thousand Demon Valley conquer the Scattered Star Island? Yu Fei may not be strong enough now. But just imagine: if he leaves the Ten Thousand Demon Valley and becomes a real expert, don't you think it will benefit our Ten Thousand Demon Valley?"

Yu Beichen echoed, "It's really unnecessary to kill him. After all, he's a sea demon and came from our Ten Thousand Demon Valley."

Blue Feather pondered for a moment. "Chixue Huan, didn't you say that he promised to do three things for you?"

"Yes, King Feather."

Blue Feather said lightly, "As for the third thing, ask him to go to the Scattered Star Island. What do you think?"

Hearing this, everyone behind him shivered.

A person like Yu Fei would surely become the core if he transformed into a human and snuck into the Scattered Star Island. And he might even be able to enter the Scattered Star First Unit, and then he would definitely play an important role in sea demons' plan against mankind.

Chixue Huan grinned and said, "King Feather, you're so wise."

...

Han Fei didn't know Blue Feather had made such a decision. If he knew it, he would have laughed out loud on the spot.

I am originally a human, and you ask me to pretend to be a human? How funny!

At this moment.

Han Fei was bombarding Shu Shan with questions.

"It seems that they believe what I said. Will they break into the 72nd floor?"

Shu Shan responded, "It's extremely difficult. Although the seal on the 72nd floor has been broken, not everyone can enter the 72nd floor. There'll be at most dozens of them who may be able to enter that floor. Don't worry."

Han Fei nodded. "Senior, I have a question. Is there any limit to disassembling spiritual energy? I feel that my strength has doubled now."

Shu Shan sneered. "Do you have any Spirit Awakening Fluid? I'm starving and my soul is unstable. Get me some Spirit Awakening Fluid?"

Han Fei was surprised. "Huh? Spirit Awakening Fluid is very difficult to get. I only have a total of several hundred kilograms."

Shu Shan instructed, "Give me a few hundred kilograms first so that I can stabilize my soul."

Han Fei thought, *I still have a lot of questions to ask him. Anyway, the Spirit Awakening Fluid is useless to me, I can just give it to him.*

Immediately, Han Fei gave 462 kilograms of Spirit Awakening Fluid to Shu Shan. Giving 462 instead of 460 kilograms of Spirit Awakening Fluid to Shu Shan, he was trying to show that he had given out all the Spirit Awakening Fluids he had.

The more than 400 kilograms of Spirit Awakening Fluid was swallowed by the Universe Bracelet in an instant. After about ten minutes, Shu Shan sighed. "It's too little! Do you still have any?"

Han Fei smiled bitterly. "Senior, do you think Spirit Awakening Fluid is easy to get? You have no idea how hard it is for human beings now. Now we live in the sky and only own a palm-sized territory in the sea."

Shu Shan said in surprise, "Live in the sky? Celestial palace? How could you possibly live in the celestial palace?"

Han Fei suddenly asked, "Senior, where is the celestial palace?"

"That's the place where the strong gather. It's not easy to go there! Huh, if you don't live in the celestial palace, where do you live?"

"We live on the floating islands, which are floating in the sky with the power of floating stones and arrays."

Shu Shan nodded. "No wonder. Do you mean the kind of stone that can float? I didn't expect it to have such a use."

Then Shu Shan remembered what he asked just now and answered, "This method of disassembling spiritual energy has long existed since the ancient times. The improvement of one's realm can lead to an increase in the efficiency of the use of spiritual energy. So people guessed that if a wisp of spiritual energy was disassembled into two, would there be a qualitative improvement?"

Han Fei was confused. "What I haven't been able to figure out is that since the amount of spiritual energy remains unchanged, why does its power double after it was split into two halves?"

Shu Shan smiled and said, "It can't be doubled. Its power seems to be doubled because people haven't tapped all the power contained in spiritual energy in the first place. By disassembling the spiritual energy, your spiritual energy control efficiency has been increased by 50%. Correspondingly, your

combat power has been greatly increased. However, your strength hasn't been doubled. When you have the opportunity to fight a battle with all your strength, you will find out."

Han Fei said in surprise, "What will happen if I can control my spiritual energy 100 percent?"

Shu Shan chuckled. "What are you thinking of? The more you disassemble spiritual energy, the more difficult it becomes. The 72-Floor Soul Realm is just the foundation, and many people can't even control spiritual energy by 50%, let alone completely control it. This takes time and requires a lot of soul power and spiritual power. This is why the 72-Floor Soul Realm is called the 'soul' realm. Otherwise, it would be called the 'spiritual' realm."

Han Fei thought, *It turns out that soul and spiritual power are related to the degree of spiritual energy control.*

Han Fei asked, "Senior, how does it count as complete control? After completely controlling spiritual energy, what will my spiritual energy be like?"

Shu Shan was silent for a long time before slowly saying, "Paper folding, you know? In terms of spiritual energy control, it's like folding a piece of paper infinitely. How many times can you fold it? In terms of the amount of spiritual energy, it's equivalent to splitting a drop of water into two drops, and two drops into four drops. As you keep going, you'll have better and better control of spiritual energy, but it'll also be more and more difficult for you to continue to disassemble spiritual energy. Therefore, there is almost no complete control."

Han Fei imagined it and couldn't help shivering. It was too difficult!

A piece of paper could be folded at most seven times! So it was indeed difficult to disassemble spiritual energy many times.

However, Han Fei suddenly said, "No! Senior, why do I have to fold so many times? According to you, if I fold it three times more, my control of spiritual energy will exceed 90%? No, it'll be close to 90% as long as I fold it two more times... By then, everyone is basically of the same level in this aspect..."

For a moment, Shu Shan was speechless. He pondered for a while. "Then this analogy may be improper! Let me put it this way, under normal circumstances, if you are not as strong as an Explorer, you may not even be able to fold it twice."

Han Fei: "..."

"Senior, forget it. If I were an Explorer, I would have been able to conquer the entire Ten Thousand Demon Valley alone, OK?"

Shu Shan lazily said, "It's difficult anyway."

Although Shu Shan's explanation seemed not quite clear, Han Fei had already understood how difficult it was to control spiritual energy. It was as difficult as climbing into the sky.

No, it was even harder than that.

But in any case, Han Fei had already managed to control spiritual energy by at least 50%! Although his strength hadn't doubled, it had skyrocketed. He was already very happy with that!

Han Fei immediately asked, "Senior. What is soul energy? You just mentioned when the spiritual beasts' soul energy was reduced, they might fight and kill each other in the Soul Sea. What does this mean?"

Chapter 772: Encyclopedia Grandpa

He finally met a human ancestor, a prehistoric human. And he was obviously more reliable than those scum in the Snow God's Temple! Han Fei certainly would take the chance to ask him some questions.

It seemed that this was the first time Shu Shan chatted with a person in countless years, so he was also being very talkative, saying with a smile, "Any creature has soul energy. Human beings' soul energy is very mysterious and its specific quantity cannot be calculated. In the past, we discovered that when spiritual beasts fought for some time, their combat power would decrease. And then we learned to calculate their soul energy according to the degree of the decrease of their combat power."

Han Fei took a breath. *No wonder, no wonder the primitive spiritual beasts I saw all had soul energy!*

Han Fei asked again, "What about contractual spiritual beasts?"

Shu Shan shook his head. "It's not the same. Spiritual beasts are almost one with the owner, so their soul energy can be calculated, but contractual spiritual beasts are different. Although their soul energy will also decrease, you can't detect it. Even when you become stronger in the future, you can only sense the soul energy of your spiritual beasts, but can't feel that of your contractual spiritual beasts."

Han Fei seemed to understand. "So, what you mean, Senior, is that I am not strong enough to feel it yet."

Shu Shan's voice buzzed, "Yes. But you don't have to care about soul energy so much. Even if you ask me, I don't know much about it. You can just take it as something determining the limit of spiritual beasts' combat power, just like the limit of the human body. All I can tell you is that there is a time limit for everyone to stay fused with their spiritual beasts. You can't feel it now because your strength is still weak. But in the future, once you feel your spiritual beasts' combat power weakens, you'd better not use them."

Han Fei was surprised. "Does it have such a big impact?"

Shu Shan said, "Yes, spiritual beasts will die too! They're not immortal. After all, they are also creatures! When you're weak, you'll also be killed, right?"

Han Fei nodded thoughtfully. "True... Hey, Senior, when can I enter the Soul Sea again?"

Shu Shan smiled and said, "It's easiest to enter the Soul Sea for the first time. But after the first time, only when you have a breakthrough in the soul can you have a chance to enter again."

Han Fei asked in amazement, "Breakthrough in the soul?"

Shu Shan nodded. "It means that you can enter the Soul Sea when you make a breakthrough in your soul or realm, or you have some sudden enlightenment. This is uncertain, but generally, it's related to the soul. Did you eat fish when you were in the Soul Sea?"

Han Fei raised his brows. "How did you know?"

Shu Shan sneered. "Of course. Most people can't help but swallow the fish as they feel their spiritual beasts upgrading very quickly when they enter the Soul Sea. You felt the same, right?"

Han Fei nodded very cooperatively. It was very quick indeed!

Just now, Little Black and Little White upgraded by three levels in a row. Normally, it would have taken a very long time!

Shu Shan said leisurely, "Actually, this method is wrong. Do you know why your spiritual beast will upgrade when they eat others' spiritual beasts?"

"Why?"

"Because that is the Soul Sea. When you swallow the primitive spiritual beasts, you actually swallow their soul energy. However, you can't digest them all. Do you know where the soul energy that you can't digest is?"

Han Fei didn't know it, so he immediately asked, "Where is it?"

Shu Shan sighed. "If too much soul energy escapes, it will condense and new creatures will appear. The escaping soul energy, due to the 'resentment' of being killed by you, let us call it 'resentment'... Gather and become a powerful and weird creature. What do you think the result will be?"

Han Fei's heart did a flip. "Will it take revenge on me?"

Han Fei was sure that if it were him, he would definitely retaliate back. The fish were eaten by him. If they had a chance to retaliate, they would certainly retaliate.

For example, Chun Huangdian killed him at will.

Although he was trying to save people, did he deserve to be killed? Just because he was stronger?

"Look, you've guessed it right. So, at this time, your spiritual beasts will automatically get rid of your control, and you will return to reality. When you are gone, the newly-formed creature has no one to vent their resentment, and then nothing will happen."

Han Fei was puzzled. "That's not right! Aren't my spiritual beasts still inside?"

Shu Shan shrugged. "You are you, and your spiritual beasts are your spiritual beasts. This is the rule! No one knows what will happen in the Soul Sea when one returns to reality... So, that's what everyone thinks."

Han Fei swallowed. Sure enough, there is no free lunch in the world. It's not realistic to get fat in one bite.

After thinking about it a little, Han Fei suddenly took a breath. "Senior, you said the escaped soul energy will form a new creature. Does it mean the greater the resentment, the stronger the formed creature? Is it how those super strong spiritual beasts were born?"

The bracelet was silent for a while. "Others have guessed the same as you, but no one has confirmed this assumption."

...

Han Fei was swimming all the way back deadpan, and occasionally, someone was looking at him. However, he didn't care.

Han Fei asked, "Senior, you said that you only have a wisp of soul left now? Then what are you going to do? Will you possess someone's body? Do you need me to find you a proper sea demon?"

"Get lost!"

Shu Shan was annoyed. "I... I'm a human being. Why should I be a fish? At least, you should find me a Mermaid."

Han Fei: "..."

Han Fei was speechless. He seemed to know this man a little bit, who was mild-tempered, easy-going, broad-minded, and liked to make jokes.

Han Fei rolled his eyes and said, "A Mermaid? I don't even know where they are. How can I find one for you?"

Shu Shan sighed. "Then you can find a human being for me."

Han Fei frowned. "Senior, that's not good. If you possess a human being's body, they will be dead."

Shu Shan snorted. "Did I ask you to find a living person? Find me a dead one, OK?"

Han Fei said helplessly, "Senior, take a look at where we are... We are in the Ten Thousand Demon Valley. Yes, this is no longer your city but the gathering place of sea demons. There are only demons here, no humans. And I can't leave for a while."

Shu Shan didn't care. "You'll leave here one day. I'm not in a hurry. Find me a good body. I want someone with a good spiritual heritage and physique."

Han Fei's face turned black. "What about my body?"

On Han Fei's wrist, the bracelet immediately shook. "Okay! You are pretty good, talented, and smart."

Han Fei sneered. *Yes, in your dreams!*

Han Fei replied, "Okay, I can't chat with you anymore. I can't leave here for a while. They want me to explore some secret realm. By then, there will be a lot of Heavenly Talents going there with me. I think there must be a lot of treasures there. Maybe I can grab some Spirit Awakening Fluid for you."

...

Yu Ji's Weapon Shop.

Yu Ji had already been waiting here.

When Han Fei came back, Yu Ji looked strange. "Did you use me to enter the Ten Thousand Demon Valley?"

Han Fei looked cold. "No, I just happened to meet you."

Yu Ji looked a little unhappy. “Happened to meet? Although I knew you were very talented, I didn’t expect you to be a legendary creature. How could a legendary creature be afraid of Yu Yue?”

Han Fei was silent and then said, “At that time, I didn’t know any combat skills.”

Yu Ji changed the topic. “I heard that you promised to do three things for Master Chixue. Then, you also owe me a favor. Can you promise to do one thing for me?”

Han Fei was stunned for a moment. *Come on, I saved your life... Okay? Although I used you to enter the Ten Thousand Demon Valley, I saved your life. You should be grateful that I spared your life!*

But he was in the Ten Thousand Demon Valley and Han Fei knew he’d better be cautious, so he looked at Yu Ji. “What do you want me to do for you?”

Yu Ji also said with a cold look, “I haven’t decided yet. I’ll tell you later. After you do it for me, we’re even.”

Han Fei said flatly, “Okay...”

Behind, Yu Fu secretly let out a sigh. *Thank God Han Fei didn’t tell Yu Ji I betrayed her.*

However, it was not surprising. How would Han Fei, such a peerless talent, care about such a trivial matter?

It was a pity that he hadn’t found favor with him earlier.

...

Han Fei stayed in the store for about half an hour.

A Half-Merman swam over, who looked good.

When the Half-Merman saw Han Fei, he immediately bowed to him. “Master Yu Fei, Master Chixue has arranged for me to wait on you. My name is Yu Qi. Your house is placed next to Miss Yu Ji’s house. Are you going to have a look now?”

When Yu Ji heard this, her eyes widened, and she couldn’t help asking, “Why next to mine?”

Yu Qi said respectfully, “Miss Yu Ji, this is the arrangement of Master Chixue.”

Han Fei said indifferently, “Let’s go!”

Although Yu Ji was a Half-Mermaid, Han Fei didn’t quite hate her. She was a strong and tough woman. If she weren’t a sea demon, Han Fei felt that she might become his friend.

But this was impossible now. If they met in the future, there would have to be a life-or-death battle between them.

And Han Fei even felt that once he left the Ten Thousand Demon Valley, there was a great possibility that he would kill her.

So he’d better not have too much contact with her.

...

Ten Thousand Demons Tower.

The top floor.

Han Fei looked at the ring-shaped pillars inward, lost in thought.

Now that he had explored the Ancient 72-Floor Demon Realm, it was time for Little Black to steal treasures.

After all, his main purpose of sneaking into the Ten Thousand Demon Valley was to steal treasures. Better make everyone in the Ten Thousand Demon Valley panic, and then it would be easier for him to get out of there.

At this moment, he heard Yu Qi say behind him, "Master Yu Fei, are you going to cultivate? If you do, I'll be guarding outside."

Han Fei suddenly asked, "Well, Did Master Chixue give me anything?"

Yu Qi: "???"

Han Fei said with a straight face, "Spiritual spring, spiritual stones, weapons, etc. I heard that all those who live here have Semi-Divine Weapons, right?"

Yu Qi: "..."

Chapter 773: Sea Demon Colosseum

Advocates for fighting, sea demons either swam in the sea or fought against various marine creatures every day.

In the Ten Thousand Demon Valley, there was a place they very much fancied, the Sea Demon Colosseum.

Unlike the human arena, the Sea Demon Colosseum didn't have any betting or gambling on the games. They simply liked violence, hoping to see the violent aesthetics of blood and fury. Perhaps, this was part of their nature. After all, before awakening, the law of the jungle was the survival law of all marine creatures.

The Sea Demon Colosseum was the only building in the Ten Thousand Demon Valley designed and built by sea demons themselves.

The colosseum was built against the hillside, and the auditorium was on the hillside row by row. According to the sea demons' unique aesthetic, the bottom circle of the circular colosseum was carved with nearly a hundred species of marine creatures. These vivid statues, like a flood of fish, surrounded the combatants in the center.

Besides, in the Sea Demon Colosseum, there was not only flat ground like in a human arena, but also strange stones, rock walls, coral, and vegetation. The field that was five football fields large was full of various seals.

According to Yu Qi, if some of the seals were accidentally broken, the entrance to the cellar would be opened. Then other creatures would be released. At that time, the combatant would have more enemies out of thin air.

Han Fei stood in front of the Sea Demon Colosseum at this moment, listening to Yu Qi's detailed description.

It had been seven or eight days since he lived in the Ten Thousand Demon Tower.

Han Fei felt that it had been long enough since the sea demon thief disappeared, so it should be time for him to come out.

However, Han Fei was very cautious.

As the only Azure Sea Blue Demon in the Ten Thousand Demon Valley, he would be easily suspected. After all, before he appeared, there was no thief in the valley.

Therefore, Han Fei had to create an alibi for himself.

So, how could he do that? Wouldn't it be a perfect alibi to have tens of thousands of people witnessing him at the same time the robberies happened?

When Han Fei came over, he didn't bring Little White with him. And Little Black was sneaking around with the Overlord. What Han Fei had to do at the moment was to fight a few battles in the colosseum to draw everyone's attention.

Yu Qi questioned, "Master Yu, you've just cultivated and haven't watched any battles in the Sea Demon Colosseum before. Are you sure you don't need to watch battles here for a few days first?"

Han Fei shook his head. "I'll just watch one game before I fight."

At the entrance of the Sea Demon Colosseum, when several Half-Merman guards saw Han Fei, they were immediately stunned.

At this moment, who didn't know of Han Fei's deeds? He was the only Heavenly Talent who had explored all 72 floors of the Ancient 72-Floor Demon Realm in Ten Thousand Demon Valley's history. And he was said to be a legendary creature. This news had already gone viral in the Ten Thousand Demons Valley.

It was said that in the Blood Sea Valley next door, many people wanted to meet Yu Fei. Some people had heard that after the news that Han Fei had passed through the Ancient 72-Floor Demon Realm was spread, the sea demons of the Blood Sea Valley even held several carnival feasts.

It was because Han Fei, like them, was not a Half-Merman or Half-Mermaid after awakening. Therefore, these days, they were very proud.

"Master Yu Fei."

When the guards saw Han Fei, although they were reluctant, they still lowered their heads.

After all, Yu Fei might be able to become a super expert like Chixue Huan in the future. So they certainly dared not show the slightest dissatisfaction.

Han Fei said with a cold face, "How do I join in on the battles?"

Before the guards could speak, a Half-Merman in a bright red suit came up to him. "Are you really coming to join the battle in the Sea Demon Colosseum?"

Han Fei tilted his head. "Who are you?"

This person grinned, showing his teeth. "The principal of the Sea Demon Colosseum, Yu Xuan."

Han Fei frowned slightly. This person didn't curry favor with him and spoke quite arrogantly.

Han Fei nodded. "I'm here to fight."

Yu Xuan stretched out his hand. "Come with me. This game is halfway through... Actually, even if you hadn't come, I was going to find you. You don't know how many people want to challenge you..."

"Challenge me?"

Yu Xuan grinned. "Although you are a legendary creature and have passed the Ancient 72-Floor Demon Realm, you haven't reached the peak after all. In the Sea Demon Colosseum, there are many famous Heavenly Talents whose strength should never be underestimated. So it's normal that someone wants to challenge you. Besides, it is not a life-and-death battle, killing is not allowed here."

Han Fei asked, "Are there many people willing to participate in a life-and-death battle?"

Yu Xuan glanced at Han Fei and bared his teeth. "You are going to fight a life-and-death battle? Then I guess no one is willing to fight you. It's a tricky circumstance. If someone loses to you, they'll die. If they beat you, they'll have to die too. So, who do you think will fight you?"

Han Fei frowned. "How come?"

Yu Xuan glanced in the direction of the Ten Thousand Demon Tower. "Even King Feather has met you in person. Who would dare to provoke you blatantly? If someone kills you, do you think King Feather will not punish them? Of course, there may be someone who is out of his mind..."

Yu Xuan smiled faintly.

...

"Roar! Roar!"

As soon as Han Fei walked into the colosseum, he saw countless spectators suddenly take two steps forward, raising their hands, baring their teeth, and suddenly roaring out. After the roar, these sea demons retreated one after another, looking at the center of the arena attentively.

At first, Han Fei thought they were cheering at him, but then he found their eyes focused on the center of the colosseum...

It turned out that in the field, a stone wall's seal was broken. A Fiery Fish got out of nowhere, enveloping one of the fighting Half-Mermaids in flames.

Because of this mistake, the other Half-Merman caught the opportunity. He jumped out of the other end of the maze-like stone wall, flung the harpoon in his hand at his opponent, and directly sent the person flying, who rolled more than a dozen times on the ground.

Yu Xuan said, "The Sea Demon Colosseum is actually meant to hone everyone's fighting skills, not combat power. This is what our sea demons lack most. I heard that humans have many combat skills, and we must keep up with them."

Han Fei looked at the maze-like scene in the colosseum, watched a Half-Mermaid being pierced through by a harpoon, frowned, and said, "What if this warrior is stabbed to death?"

Yu Xuan replied, "They were not pierced in any vital areas. Of course, being pierced also means she lost."

Sure enough, the pierced Half-Mermaid lowered her head, stretched her hand to her chest, pulled out the harpoon with difficulty, and then retreated to the edge of the colosseum.

And the Fiery Fish was about to attack, only to be killed by another Half-Mermaid.

A Half-Merman hovering high in the arena saw Han Fei at the entrance and immediately bared his teeth. "Look, our peerless talent is here. Exploring all 72 floors of the Ancient 72-Floor Demon Realm, this is literally the greatest miracle in the history of the Ten Thousand Demon Valley. Yu Fei, are you willing to fight? You'll be the most shining star on the court, as shining as a Flashing Light Grass..."

"Roar! Roar!"

Countless spectators looked sideways at the entrance, roared, and then became motionless again.

Han Fei almost burst into laughter. These sea demons all stood and watched the show, remaining deadpan. Except for roaring from time to time, they remained expressionless and didn't say a word at all other times. Perhaps, they would communicate with each other via voice transmission to share their experiences or something.

Han Fei nodded slightly at the Half-Merman in the sky.

The Half-Merman immediately roared, "Look, our most dazzling Heavenly Talent nodded! He agreed to fight. The strong will always raise his noble head, and fighting is always your way to climb high... Heavenly Talents, please pray to the sea king, and follow his will to fight!"

As soon as this person stopped speaking, there were more than 30 figures in the sky above the colosseum. There were men and women, all of them were peak-level experts.

And they were all carrying golden harpoons.

Han Fei was speechless. *I don't even have a golden harpoon! Although I actually have some in Forge the Universe, I dare not take them out.*

Therefore, Han Fei looked at Yu Xuan solemnly. "What about weapons?"

Yu Xuan said, "The weapons will all be the same, so don't worry about that."

Han Fei didn't even look at those people. Although there were a few familiar faces among them, Han Fei didn't think he needed to worry about them because he didn't really come to fight. At this moment, Little Black had entered the business district of the valley.

Led by an attendant, Han Fei walked in from the east side of the colosseum.

In front of Han Fei, there was a small platform whose area was smaller than 50 square meters, which was the entrance. There was a high black stone wall not far away more than 10 meters high, but it was not continuous.

In front, there were strange stones, coral, seaweeds... All scattered randomly.

All of this was a real simulation of the seafloor. However, Han Fei's attention was not there.

He discovered that the Sea Demon Colosseum turned out to be a huge space of 10 times the gravity.

Ten times the gravity, for Hanging Fishers, was not particularly difficult.

However, under this environment, one's combat power would definitely be affected. To say the least, gravity could greatly reduce your destructive power. Both the speed and the display of strength would be affected. Besides, this could keep the battle scale to a minimum.

At this time, on the other side of the Sea Demon Colosseum, someone shouted, "Yu Fei, how about 20 times the gravity? Otherwise, although there are seals, I am afraid the colosseum will still be damaged."

Above the colosseum, the host shouted, "I swear in the name of Sea King, this will be a thrilling battle. Under 20 times the gravity, the combatants' strength will be greatly suppressed, provided that Yu Fei agrees..."

Han Fei raised his head and nodded gently.

The host screamed, "Look, a Heavenly Talent always has absolute self-confidence. Audience, don't be stingy with your cheering. Every battle will bring you precious experience. In the future on the battlefield, you may survive because of this."

"Roar..."

Cheering rose and fell. Han Fei felt the pressure on his body increase sharply, he twisted his body a little, saying to himself, "Let's get started."

A hundred kilometers away, in the valley.

In a weapon shop, a level-48 Half-Mermaid was stunned by a harpoon. Immediately, an iron tower-like figure appeared, touched the Divine Refining Platform, and took it away entirely...

Han Fei learned from the experience of the last failure. The insight of these sea demons was not bad. If they were not stunned, Little Black and Overlord would be easily discovered.

If they were discovered, they would have to wait for another one or two months.

However, they couldn't kill them either. After all, once they were killed, the matter would become serious. At that time, the experts would try their best to investigate this matter thoroughly, which would do no good to Han Fei.

In the colosseum, the corners of Han Fei's mouth raised slightly. "Great!"

Chapter 774: Stealing Again

Compared with the tranquility of the valley business district, the match inside the Sea Demon Colosseum was extremely tense and exciting.

Han Fei was completely unfamiliar with this maze-like Sea Demon Colosseum, and perception was forbidden to be used here because this was taken as cheating.

Under 20 times the gravity, Han Fei certainly wouldn't stupidly swim upstream, forcibly looking for the exact location of his opponent.

He was walking in this chaotic maze. At this time, he didn't care about fighting, only if he could attract the attention of the audience.

In the maze, there were a lot of glowing seaweed and some invisible seals.

Han Fei only swam a hundred meters away and had already felt the presence of four seals. He didn't care about these and simply ignored the seals.

Suddenly, one of the seals flickered as a scissor-like big mouth suddenly protruded from the side cave.

"Roar!"

The audience cheered. Everyone could see that Han Fei was not in a hurry and seemed to be exploring the colosseum. The activation of the seal caused many people to cheer, and they couldn't wait to see Han Fei's reaction.

However, Han Fei leaned back in a weird posture, picked up his harpoon, and hit the creature's head.

At the same time, he clasped the edge of the big mouth with one hand and directly dragged a huge sea centipede out of the cave.

This scene seemed simple, but vividly showed the wonderful hand-to-hand combat between humans and marine creatures.

There were thrills, battles, amazing reflexes, and violent aesthetics.

In Han Fei's eyes, a series of data emerged.

[Name] Six-Winged Centipede

[Introduction] A creature living in sea caves, with a hard shell and sharp poison stingers. When it encounters danger, countless blades will stretch out from under the carapace, so they are called ocean decapitators. Its poison is very strong and no one can resist it.

<Level> 49

<Quality> Rare (Exotic)

<Contains Spiritual Energy> 3,889 points

<Edible Effect> Long-term consumption can increase poison resistance

<Collectible> Six Origin Red Bead

<Absorbable>

The moment when Han Fei dragged out the Six-Winged Centipede, many blades shot out with swishes, and the big centipede curled up, shooting sharp blades that intended to cut Han Fei into pieces.

Han Fei thrust his harpoon into the ground with one hand, dodged the blades, activated the Seventeen Dragon Fists, and the tide-like punches sent the Six-Winged Centipede flying all the way into the arena.

Crack, Crack, Crack!

The blades were scattered one after another, and under 20 times the gravity, Han Fei's fist still turned into shadows, blasting the Six-Winged Centipede out a hundred meters away, which then landed in a corner of the maze and disappeared.

"Hoooooo!"

Seeing this scene, many people were cheering. Han Fei's quick reaction in that instant amazed them.

Especially the power and speed of Han Fei's punches, with which he easily beat the Six-Winged Centipede. This was exactly the kind of strength they sought.

Among the audience, some Heavenly Talents occupied a corner.

Someone said lightly, "After all, it is the first time he has come to the Sea Demon Colosseum, so he doesn't understand the rules. Under the increased gravity, he left obvious traces of his fight, which will help Yu Juan find his location. Yu Juan is much harder to deal with than the Six-Winged Centipede."

Someone nodded. "However, we can't deny that Yu Fei is quite strong. The Six-Winged Centipede attacked him so fast, but he responded in such a short time. Just now, I saw a blade had already fallen on him."

At the other side of the Sea Demon Colosseum, the Half-Merman named Yu Juan had already got ready. He gently lashed his tail and quickly swam between the reef and seaweed until he found Han Fei's exact location. Then he hid in the shadow of a three-way intersection.

Seeing this, many people nodded appreciatively. Yu Juan's move was quite smart. Now he was in a good position to either attack or defend. And in such a favorable location, he could kill Yu Fei in one blow.

Han Fei walked out of the stone wall and then looked at the coral reef in front of him. Without thinking, he walked straight in.

However, as soon as he had just passed a reef, a harpoon flashing with demonic energy suddenly thrust at him horizontally.

In that instant, Han Fei's reaction speed was extremely fast. He activated the Flying Flower Demon Flash and appeared ten meters away from Yu Juan.

However, the Flying Flower Demon Flash had a big drawback, that is, he was easy to be found when using it.

When Han Fei appeared, the harpoon stabbed at him again.

Han Fei turned his wrist and put his harpoon in front of him. With a "clang", a huge force hit Han Fei and sent him sliding backward on the ground.

The audience burst out into excited roars. Han Fei held the harpoon with one hand to block the blow of Yu Juan and at the same time used the Seventeen Dragon Fists. The terrifying demon energy burst like countless meteors.

BAM!

As a Heavenly Talent with rich combat experience, Yu Juan certainly wouldn't be injured by such an attack. He retracted his harpoon and lashed his tail, blocking Han Fei's blow.

Yu Juan sneered in his heart. *A legendary creature? Peerless talent? He turned out to be nothing more than that.*

But the next second, as soon as he turned his head, he saw the sharp corner of a harpoon against his neck.

In the next second, a reef behind Yu Juan suddenly shattered, and it was actually shattered by the airwave of this blow.

"Hoooooo!"

The audience cheered suddenly. Too fast, Han Fei's reaction was too fast just now.

Someone shook his head. "Yu Juan was too careless. Who did he think he was fighting against? Yu Fei is the one who has explored all 72 floors of the Ancient 72-Floor Demon Realm! He wasn't thinking just now."

Someone took a breath. "He was so fast that I didn't even see clearly. Yu Fei's attacking speed is so fast as if the gravity is not increased here."

Someone nodded. "Indeed, The result of the match is convincing. Yu Fei's reaction is really too fast. Who will fight him next?"

"Me."

"Me!"

"Let me have a try."

The host yelled from the top, "Audience members, have you seen it? The battle of Heavenly Talents is no different from an ordinary battle. Sometimes, even if you have a head start on your opponent, it is

still ineffective in the face of absolute strength. This was a wonderful battle. Although it ended quickly, it showed subtle and classic close combat...”

...

Fighting in the Sea Demon Colosseum was in full swing, while in the business district of the valley, a wisp of Han Fei’s soul hid in the Overlord’s body and was plundering another weapon shop.

“Already a second shop. That’s amazing. That wisp of my soul is so far away from me but can still take my orders. Will it work if it’s tens of thousands of kilometers away from me?”

Looking at the Half-Mermaid lying on the ground, Han Fei placed a seal on this place, then jumped into Little Black’s mouth and continued to go to the next weapon shop.

In the Ten Thousand Demon Valley, the sea monsters actually didn’t need so many things. They didn’t eat such a variety of foods, nor have as many activities as humans.

They didn’t have a place like the Logistics Division of the Scattered Star Island either. It seemed that the shops in the valley only sold weapons, spiritual fruits, as well as all kinds of gadgets found from the sea.

Although the sea demons didn’t have the concept of antiques, they could also distinguish between good and bad things based on the strength of spiritual energy.

Besides, they also sold Flashing Light Grass, coral ornaments, shell bedding, conches, and combat skills... These weren’t worth much, but these products sold a lot.

At this moment, Little Black snuck into a refining shop, which was guarded by two sea monsters whose strength was equal to a peak-level Hanging Fisher’s.

At the moment, the two were chatting.

“Hey! Who do you think robbed Yu Laosan’s shop? I heard that there was nothing left in the store.”

The other smiled and said, “He must have been lazy on the job and forgot to guard the shop that day. But the thief was really ruthless, not even leaving him a piece of low-quality material.”

“Yes! I heard that now Yu Laosan is too poor to eat, and he said he was going to sea to find treasures to pay off his debt.”

“Haha! It’s none of our business anyway. Our shop belongs to Miss Ying. Who dares to rob it?”

Suddenly, the two of them looked shocked and were about to take action, but it was too late.

A mottled stick directly hit the head of one of them, knocking him out.

After all, no one would have thought that someone would use such a precious weapon to do this.

With such a treasure, who would care about a small shop?

The other person was about to stand up when he felt a pain in his neck. He felt that if he dared to move, he would be bitten to death.

An awkward sound transmission rang, *Put yourself to sleep or should I knock you out?*

The sea demon: "..."

After a while, Han Fei dragged the two of them to the material room, almost bursting into laughter. There were more than 60,000 catties of spiritual spring, which equaled more than 60 million points of spiritual energy!

Han Fei quickly collected all the materials and took the spiritual spring into his Sea Swallowing Seashell.

Placing a seal, Han Fei walked outside the cave, glanced at the refining platform, and smacked his tongue. "This thing is not bad!"

Just when Han Fei was about to jump into Little Black's mouth, his soul trembled slightly, and it seemed that someone was coming.

Immediately, he put on the black hood and stood behind the wall like a statue.

A Half-Merman came in and said in amazement, "Old Jia, Old Jia... Huh! Where is the refining platform? Is Old Jia not refining weapons anymore?"

The Overlord was a Semi-Divine Weapon. A weapon didn't breathe, so it wouldn't be noticed.

As soon as the person said so, he suddenly felt a chill down his spine. Then with a "clang", he fell to the ground.

The Overlord threw this person into the material room and blue flames were flicking in his eyes. "No, I've gotta speed up. Once someone discovers this, I won't be able to steal again."

Han Fei thought for a while and made up his mind. "Fine, two robberies is dangerous enough. If I do it the third time, I am afraid that someone will be waiting for me."

"Little Black, let's go to the bottom of the valley, to the largest shop in the valley."

Chapter 775: Robbing

This time, Han Fei was very careful. He directly knocked out the shop assistants and locked them in the material room.

Of course, what he had done was still easy to discover because he stole the refining platform.

The refining platform was usually placed in the hall, so it was easy to be discovered if it was stolen.

Therefore, when he went out, he also sealed the door of the shop.

At this moment, Little Black swam into this refining shop called, "Cold Armor Divine Weapon". Yu Fu had once told Han Fei about this shop.

It seemed to be the only weapon shop in the valley that could refine Divine weapons. There were two divine refining platforms in the shop, one for refining ultra-quality demonic weapons, and the other for refining Semi-Divine weapons.

However, the refining platform for refining Semi-Divine weapons was only used several times a year because the materials were difficult to find, and few ordinary sea demons could afford them. And those Heavenly Talents had other ways to get a Semi-Divine weapon.

Therefore, this refining platform was placed here mainly to attract customers. After all, many people would buy ultra-quality demonic weapons.

At the same time, Han Fei knew: the boss of this refining shop was Yu Hanjia, the eighth of the Eight Wings of Blue Feather.

Yu Hanjia had once fought against a human expert and was seriously injured, so his strength could no longer be improved. Therefore, he took a lot of talents as his disciples.

He treated his disciples as his children, giving them all kinds of good things, which of course would cost money.

In view of Yuhanjia's past merits, his refining shop was very popular and only took orders from big customers. Generally, a single transaction of this shop would include at least ten ultra-quality demonic weapons, so he earned a lot of money from this shop.

However, there were too many customers in the shop, so three refiners took turns refining weapons to raise the refining efficiency.

It was said that occasionally there would be refiners above level-50 come over to refine Semi-Divine weapons.

Han Fei waited outside the shop and observed for a while. After most of the customers had left and it was confirmed that there were no strong masters above level-50, he let Little Black swim into the shop.

Han Fei didn't know if some strong master would come over, but this was his best opportunity to rob goods. It shouldn't be a big problem for him to solve these sea demons.

Anyway, Han Fei felt that stealing twice was enough!

As a Semi-Divine weapon, the Overlord was very strong.

"Little Black, do it."

Of the three refiners, one of them was refining, and the two were chatting.

Suddenly, the three of them felt a strong crisis at the same time.

"Not good!"

The Half-Merman who was refining directly dropped the solution in his hand, summoning his Companion Spirit.

But before he had the time to take any action, with a "click", he felt a pain in his neck and then lost his consciousness.

Han Fei had decided that this was the last time he would rob in this valley, but this shop wasn't easy to rob. The three refiners were all here. Han Fei could kill two at most, and the third one would inevitably run away.

Therefore, although it might cause a big uproar, Han Fei still planned to kill the three Half-Mermen first. He could throw their bodies in his Sea Swallowing Seashell, and then no one could find them.

The Overlord launched an attack, and the terrifying power of the Embroidery Needle burst out. At the same time that Little Black attacked, the Overlord had appeared and hit the Half-Mermen on the head with the Embroidery Needle.

BAM!

In a flash, the Overlord killed one on the spot and pounced on another one.

The person's reaction was really quick and had retreated to a safe place. Then he had his Companion Spirit attach to him and yelled, "Come..."

However, before he roared out, he felt a chill in his neck. Immediately, he burst into a frightening fighting intent and his skin turned into a spiked carapace.

In the next second, sparks shot from his neck, and Little Black bit at his neck.

This person was horrified. He noticed there was a certain invisible creature hidden in the air, whose bite force was so strong that even the ultra-quality battle suit he was wearing was dented by its bite.

At this time, the Overlord had already launched an attack. He stopped at the entrance of the cave and stomped his foot, and a soundproof array appeared.

The Half-Merman held a harpoon and roared, "Are you a human?"

Overlord didn't answer but kept attacking. However, this was a refining shop, and refiners usually had more than one demonic weapon. This refiner directly exploded his demonic weapons and broke the seal Han Fei had set.

Han Fei frowned and forcibly separated another wisp of soul, planning to possess this man's body.

Originally, the soul he gave to the Overlord was less than one-tenth. By splitting another wisp of soul, his control would inevitably weaken. But as long as the opponent could pause for half a second, the Overlord could immediately kill him.

The wisp of soul floated out and rushed into the opponent's mind.

As he expected, the other party paused. The Overlord immediately rushed forward, piercing the opponent's chest with the Embroidery Needle.

Little Black took the opportunity to go up and bite several times in a row.

At this time, the opponent's demonic weapons had been destroyed and his defense power was greatly reduced. Little Black directly bit off the person's neck.

However, although the person was dead, traces of the battle had been exposed.

With a wave of his hand, Han Fei collected the two divine refining platforms at lightning speed and then quickly rushed into the opponent's material room.

The moment he entered the material room, his heart trembled. It was all ultra-quality materials, and even more advanced ones. In the middle of the room, a huge jar was placed. Han Fei suspected that there might be 100,000 catties of spiritual spring in it.

Without the slightest hesitation, the Overlord moved.

Only after five minutes.

Outside the shop, sea demon guards were rushing over. Faster than the sea demon guards was a fierce-looking Half-merman. He almost turned into a ray of light as he flew into the refining shop.

However, no one noticed that the water rippled a little bit, and an invisible small fish quietly swam out.

The Half-Merman who rushed over slightly frowned, feeling a bit strange, but he couldn't tell why.

He thought maybe it was because he was too angry and anxious, so he didn't think much.

Little Black swam along the valley to the Sea Demon Colosseum unhurriedly.

...

At the Sea Demon Colosseum, Han Fei was fighting the third battle.

After two battles, Han Fei had thoroughly figured out the way here. The colosseum was like a simulation game. When guarding against the enemy, he also needed to watch out for creatures that suddenly appeared.

The chaotic terrain around was just for the combatants to show their personal advantages more cleverly in encounters.

However, although he had figured out the rules of the game, he didn't plan to follow them. What he needed to show now was something powerful, weird, and eye-catching.

At this moment, Han Fei had fought several rounds with a guy who could transform into water.

Suddenly, Han Fei sensed that Little Black and the Overlord were discovered, and a trace of his soul was shattered. This made him slightly pause.

Just at this moment, three spears thrust at him from three directions.

Han Fei slapped the wall with one hand and jumped away with the counterforce. Then he put the harpoon in front of him, blocking a spear. At the same time, he stretched out his hand, grabbed the last spear, and crushed it with one hand.

Suddenly, Han Fei moved. Under everyone's expectant gaze, he suddenly rushed towards the coral reef on the left at an extraordinary speed. The harpoon in his hand burst out with billowing demonic energy.

In a twinkling, an invisible wave of water was approaching quietly.

The corners of Han Fei's mouth were raised slightly. At the moment when the invisible water wave approached, Han Fei suddenly gave up the target in front of him, turned over, and the Seventeen Dragon Fists blasted out violently.

In an instant, fist shadows filled the sky and burst out one by one like cannons.

"You've discovered me?"

The person behind him exclaimed, but it was too late for him to resist. Han Fei's attacks were too powerful.

With just one punch, he had fallen onto the ground.

After seventeen punches, the man was already lying in ruins.

In the past, among these sea demon Heavenly Talents, some might be able to draw a tie with Han Fei in combat.

But at this moment, after the rise of his realm, the breakthrough in the Art of Invincibility, acquisition of spiritual energy disassembling method, and strengthening of his soul... Han Fei was confident that in this barren land, few people could be his match.

In the colosseum, the host was yelling, "Being a strong man with extraordinary combat experience, victory is only a matter of time..."

Han Fei looked up at the host and walked outside. *Call it a day.*

"Huh?"

The host froze for a moment after receiving Han Fei's voice transmission, and then roared, "Audience, we always need to sum up the experience in combat. This is how we can continue to grow and even surpass the evil mankind. Today, we witness the battle of legends and we should reflect and think about it carefully. In the future, you will also become legends in the eyes of others."

Out of the Sea Demon Colosseum, Yu Qi followed up. "Master Yu Fei, where are you going?"

Han Fei shook his head. "Going back to cultivate."

Yu Qi froze for a moment: talented as Yu Fei was, he worked so hard.

However, Yu Qi didn't know that a very small fish appeared beside Han Fei. As Han Fei issued an order in his heart, the fish disappeared without a trace.

Han Fei got home.

He could no longer keep the serious expression and instantly laughed out loud. "Hahaha! I'm rich! I'm rich now..."

If someone saw Han Fei laughing and dancing like this, he would be dumbfounded. Is this that cold and arrogant Yu Fei? He's acting like a psycho!

Chapter 776: Ten Thousand Demon Tower • Earth Fire Platform

Han Fei retracted his soul, and it seemed to have lost a bit during the battle.

But only a little bit. Han Fei could accept it. After all, at the expense of this bit of soul, he had grabbed a massive amount of resources, which was a good deal.

Taking back Little Black and Little White, Han Fei didn't enter Forge the Universe.

Forge the Universe was no longer a place for planting vegetables and fruits. Those things in it were too fragile to withstand the slightest toss.

The Big Red Trunk lay in it, occupying a large area of space.

Coming all the way from the Sea Demon Mountains, he hunted down thousands of food... Uh... No, creatures, which occupied the remaining half of the space. At this moment, what was left was only a quarter of the whole space.

Han Fei issued an order in his heart, and a pond appeared in Forge the Universe, and all his Sea Swallowing Seashells crazily poured spiritual spring energy into it.

He had robbed a total of 4 stores. The first two were small shops similar to Yu Ji's refining shop. From the first store, he stole 38,000 catties of spiritual spring, 40,000 catties of spiritual spring from the second, 52,000 catties from the third, and 100,000 catties from the fourth...

He had stolen 230,000 catties of spiritual spring in total, which equaled about 230 million points of spiritual energy and would be enough for deducing the Void Fishing Art again, as well as upgrading his spiritual heritage.

In addition to the spiritual fruits he had, he didn't have to worry about spiritual energy in the short term.

If he had a chance to return to the Scattered Star Island in the future, he would buy tens of thousands of spiritual fruits as a reserve.

The rest was piles of material and a few divine refining platforms.

Why did he take the refining platforms? That was because, in Han Fei's view, this item was also very important. Sea demons could use it to mass-produce demonic weapons and even Semi-Divine weapons. If he could thoroughly study the arrays on it, it would benefit mankind.

Han Fei couldn't help but sigh. "How are Old Guan and Mu Jia'er getting on with their research on Semi-Divine weapons?"

Just when Han Fei was musing, Shu Shan suddenly said, "It's a humanoid Semi-Divine weapon, right?"

Han Fei was suddenly shocked! However, Han Fei was not afraid of Shu Shan leaking this information and said casually, "Yes!"

Shu Shan was surprised. "I know you have the method to split your soul, but by what means did you let him out?"

Han Fei flashed a grin. "Secret."

Shu Shan snorted and said leisurely, "By the way, did you get me some more Spirit Awakening Fluid lately?"

Han Fei said in surprise, "Didn't I give you enough?"

Shu Shan said helplessly, "You just gave me a few hundred kilograms. How can that be enough? My soul is a little weak now. I need at least ten thousand kilograms to regain some strength."

Han Fei rolled his eyes and said, "Are you kidding me? Do you know how much it costs for a kilogram of Spirit Awakening Fluid? 5,000 points of credit per kilogram in the Scattered Star Island. Do you know what 5,000 points of credit mean? I can only get this much by killing an ordinary Half-Mermaid. So you are literally asking me to kill 10,000 sea demons for you!"

Shu Shan sighed. "So expensive? It was not hard to get Spirit Awakening Fluid in my time!"

Han Fei said after a long pause, "Grandpa Shu, it's a different era now."

Shu Shan said in disappointment, "Fine, but if you can get me ten thousand kilograms of Spirit Awakening Fluid, uh... Or some Life Fruits, I'll tell you a secret."

Han Fei was surprised. Life Fruits were not easy to get either! This fruit could only be produced when an expert in the sea-demon realm died.

Han Fei asked, "What secret is so valuable? Can you tell me?"

Shu Shan sneered. "Humph! No way. What if you covet my treasure and kill me? Besides, I'm still young: I was only 800 years old or so when I died. Don't call me 'Grandpa'."

Han Fei's eyelids twitched. *You call an 800-year-old young?*

However, Han Fei immediately asked in astonishment, "Then which realm are you at? You are over 800 years old. Are you at the Venerable level?"

Shu Shan was angry. "Go away! Do you think it's so easy to be a Venerable?"

Han Fei scoffed. "Believe or not, I'll become a Venerable one day!"

Shu Shan snorted. "Remember, it is extremely difficult for a Hidden Fisher to break through to the next realm. Countless people will be stuck at that step. Therefore, play safe and don't rush... Okay, someone is coming. I'll be sleeping."

Han Fei was taken aback by what Shu Shan said. It was extremely difficult for a Hidden Fisher to break through to be a Law Enforcer?

An idea flashed in Han Fei's mind and he felt he seemed to overlook something.

Yeah! Teacher Xiao Zhan, he is at least 30 years older than us... No, Mr. Xiao Zhan was part of the battle leading to the Thug Academy's downfall, so he is probably more than 40 years older than me...

Han Fei was lost in thought. For so long, Xiao Zhan had been stuck as a peak-level Hidden Fisher.

Or he became a Hidden Fisher later and then got stuck?

However, anyway, Xiao Zhan was now a peak-level Hidden Fisher. There was no doubt about this. He should be at least in his 50's.

Han Fei thought about his current age. *17? He almost forgot his age, but it should be 17...*

Wow! I can't imagine staying in the realm of Hidden Fisher for 30 years!

Han Fei couldn't help shaking his head. This was absolutely unacceptable. With the Demon Purification Pot in hand and so many opportunities, he wouldn't be stuck in that realm for that long no matter what.

How vast was the outside world? Only after meeting Chun Huangdian did Han Fei learn his distance. He didn't think he had anything to be proud of!

Because of this, every time he saw people looking at him with envious eyes, he told himself that he still had still a long way to go!

"Han Fei!"

Inside the cave, next to the seal.

A conch was vibrating, which Han Fei found was equivalent to a doorbell!

However, Han Fei's smile suddenly froze: Shu Shan was really strong! He could feel that someone was coming from the other side of the seal. This showed that Shu Shan was far more powerful than what he showed.

If he wanted to do something to Shu Shan, the result might be disastrous.

By telling him this, Shu Shan was probably warning him: I'm very strong. Don't mess around with me.

After leaving the cave, Han Fei saw several sea demons standing in front of the cave.

Someone said, "Master Yu Fei, today, there was a theft in the Ten Thousand Demon Valley. We need to conduct routine inspections. Please... Open the seal."

Han Fei frowned. "Inspect me?"

The person hurriedly said, "No, we know that you've just come back from the Sea Demon Colosseum. This is just a routine inspection. It's for everyone."

Han Fei nodded slightly, waved his hand, and the seal was opened.

Han Fei thought, *Just inspect! How can I possibly put my stuff here? Where is safer than Forge the Universe?*

Han Fei smiled. Suddenly, he felt that he was being watched. When he turned around, he saw that Yu Ji had just walked out of her cave and looked at him.

Considering that they hadn't seemed to fall out, Han Fei nodded at her. "What a coincidence."

Yu Ji: "???"

Yu Ji was speechless. *Come on, I live next door. Coincidence?*

Soon, the sea demons came out and then went into Yu Ji's cave.

Han Fei said after a silence, "Don't you cultivate?"

Yu Ji said lightly, "I already know about Yu Fu."

Did she mean I killed Yu Fu's Companion Spirit? Is she trying to hold me accountable? Han Fei thought.

“OK!”

Han Fei didn't know what to say so he just nodded.

Just when Han Fei was about to go back to cultivate, he saw a Half-Merman swim across the water and land not far in front of him and Yu Ji.

He put his hands on his chest and said, “Master Yu Fei, Miss Yu Ji, please go to the Earth Fire Platform.”

Han Fei asked coldly, “Where?”

Yu Ji said plainly, “Follow me.”

...

The so-called Earth Fire Platform was actually the bottom of the central area of the Ten Thousand Demon Tower. There seemed to be a huge chimney, extending all the way to the ground.

On the way, Han Fei saw five huge sea-demon statues, holding a harpoon high in their hands and standing in a pentagonal formation, with the tips of their harpoons put together.

According to Yu Ji, this was the administration hall. Further down was the chimney entrance. All the way to the bottom, more than 3,000 meters deep underground, was the Earth Fire Platform.

The so-called earth fire was underground magma. When Han Fei arrived here, he saw that, except for a round platform, more than 300 meters down was full of magma. The magma was tumbling and flying in all directions.

There were already more than 100 people standing on the Earth Fire Platform.

Blue Feather was standing high on the Earth Fire Platform, and four of the Eight Wings of Blue Feather were standing behind him. Among them, for some reason, one of the few people Han Fei had met was missing. Behind them, there were 21 sea demons in the Sea-Demon Realm.

Han Fei frowned. “Why are they all here?”

Chixue Huan glanced at Han Fei and didn't speak to him via voice transmission or give him any hint.

People came over one after another and in the end, a total of about 200 people had come. Only half of these people were of peak level, and some were level-48 like Han Fei, and some were of lower levels than Han Fei. But obviously, none of their combat power was weak.

It could be seen that all those who came this time were Heavenly Talents.

Han Fei stood among the crowd, looking out of place, just like Chixue Huan among the Eight Wings of Blue Feather.

Blue Feather looked down at everyone and said coldly, “The Ten Thousand Demon Valley has been waiting for this opportunity for a long time. The last time I stood here, it was more than 30 years ago...”

“Oh!”

Han Fei's pupils slightly constricted. Every time he heard "more than 30 years ago", he would think of the Thug Academy.

It should be okay! Well, this is the Ten Thousand Demon Valley, the territory of sea demons.

Chapter 777: Secret Information About Spiritual Plants

Han Fei stood in the crowd and waited patiently, eager to find out what Blue Feather would say.

Blue Feather considered for a moment and said, "You're all Heavenly Talents of the Ten Thousand Demon Valley. You're all treasures. You're all qualified to learn some secrets about this world."

Han Fei got excited. Was he going to touch on the secrets of sea demons?

All the Half-Mermen and Half-Mermaids were thrilled too. Usually, only the top experts had access to these secrets. By telling them the information, King Feather was acknowledging their position among the sea demons.

Blue Feather was quite satisfied with the Heavenly Talents' attitude. He continued, "This world is bigger than you think. There's one secret in the Ten Thousand Demon Valley right underneath your feet. This platform is actually connected to another sea, whose location we do not know."

Immediately, a lot of people breathed heavily. It was connected to another sea?

Han Fei was quite astounded too.

His understanding of this world was restrained to the Thousand Star City and the Unknown Place. He knew that there were worlds beyond the boundless sea, but they were too far away from him.

However, now that Blue Feather claimed that the platform underneath his feet was connected to another sea, he wondered if it was where Xia Xiaochan was.

Blue Feather continued, "There are sea creatures, demons and human beings in that world. In fact, there's another living creature there, namely the spiritual plants."

"Huh?"

Unlike others who were shocked, Han Fei reacted with confusion. Spiritual plants? Spiritual plants were alive in the first place. What's there to be surprised at?

Blue Feather said unhurriedly, "The sea creatures can transform into demons. Has it ever occurred to you that spiritual plants can transform too?"

Hum!

"Hiss!"

"Huh?"

Everybody wore expressions of disbelief and shock. Spiritual plants could transform too? It renewed their understanding of spiritual plants.

Blue Feather smiled. "Don't be surprised. I can even tell you that there are more kinds of living creatures, but they're too far away. If you grow into real experts and go to the capital someday, you might know it."

As he talked, Blue Feather pointed his finger, and a picture was displayed. The picture showed a forest of spiritual plants including a tree that was dry and had no leaves.

However, the tree had eyes, a nose, and mouth.

Han Fei felt that he was exploding. So, the Little Treeman he met in the Deep-Sea Jungle in the level-two fishery was actually a spiritual plant? Then, was it a sea demon, or something else?

The picture disappeared, and Blue Feather continued. "Remember that tree. You will be given the mission to kill it."

Han Fei's face slightly changed. Kill a tree?

He remembered the Little Treeman from the level-two fishery, which was certainly not easy to kill.

Although he wasn't a Hanging Fisher yet when he saw the Little Treeman last time, his Sacrificing Punch didn't work on it at all. The Little Treeman didn't seem to be hostile to human beings, but it was still very strong.

The dry tree he saw just now seemed much older than the Little Treeman. Would it be easy to kill?

Blue Feather said, "A couple years ago, an accident happened at the Earth Fire Platform of the Ten Thousand Demon Valley. The mysterious channel that has been sealed for a long time was loosened and will open in three days. You'll stay here and enter it the moment it opens."

"You have two purposes on your trip."

"Firstly, the mysterious channel hasn't been visited for a long time, so it contains both dangers and opportunities. You may find a treasure that will allow you to become a top expert."

"Secondly, you will find the tree and kill it."

"Yes, sir! We will fulfill those missions, King Feather!"

Someone roared, feeling that it was an honor to enter such a treasure trove.

Besides, opportunities had to be sought after and wouldn't just knock on anyone's door. They had been given one to become strong, which made them luckier than most people.

Blue Feather nodded in satisfaction. "Okay! There's something else that you must remember."

"Firstly, this treasure trove is very weird. No matter how strong you are, you'll be suppressed to the Demonization level, or in human terms, the Hanging Fisher level. None of you will be very strong, so your knowledge of basic skills will be tested."

"Secondly, there's a channel on the human beings' side too, and young Heavenly Talents will probably enter it too. Your battle with them is inevitable, but don't fight them relentlessly unless it's necessary. It's expected that human beings will try to save that tree, so keep your trump cards to the last moment."

Han Fei couldn't have been more shocked. His guts told him that some secret must be involved in this. The sea demons wanted to kill the tree, and human beings wanted to save it. Of course there were secrets.

However, Han Fei didn't know what the secrets were. Since human beings were coming, it might be a chance for him to get out of here.

Blue Feather specifically declared that it was a channel.

Then, what was the sea on the other end of the channel like?

Also, would the dry tree affect the channel? Would the channel be closed or kept open if it was killed?

Han Fei felt rather tired. Secrets of the sea were popping up one after another.

He hadn't resolved his own trouble yet. He hadn't found the Bone Yard or his father, and he was getting involved with not just sea demons but also spiritual plants.

However, Han Fei was very sure of one thing: Luo Xiaobai was definitely coming.

Since it was a forest of spiritual plants, there was no reason why Luo Xiaobai, as a Divine Manipulator, wouldn't come. A manipulator could fight better than anybody else in such an environment.

Han Fei secretly chuckled. It would be great if Luo Xiaobai was coming. He could send a message back through her. His friends must've been quite anxious after his Life Tablet was broken.

When everybody was thinking of the secret information, Han Fei heard a telepathic voice and then looked at Chixue Huan.

Chixue Huan subtly looked at him. *Our deal still stands. Whether or not you can accomplish this task, I'll consider that you have. Try to find a golden fruit in the treasure trove and bring it back.*

Han Fei slightly frowned and responded, *Can you be more specific?*

No. However, the golden fruit is probably protected by a powerful tree demon. Bringing it back will be your main task.

Han Fei thought for a moment. *What if I can't bring it back?*

As I said, I'll consider that you have accomplished the task whether or not you can.

Han Fei secretly laughed. It was obvious that Chixue Huan hadn't just given the task to him. If anyone that explored the treasure trove found that he secretly claimed the fruit or gave it to human beings, he would probably be killed the moment he returned.

Han Fei nodded subtly too. *Okay.*

While everybody digested the information, Blue Feather said, "In the following days, I'll arrange a war in the battlefield in the front line, so that most human Heavenly Talents will be occupied. However, note that human manipulators have the talent of controlling spiritual plants. They're very terrifying and you must be cautious around them."

“On the other hand, another 21 sea demon experts will go into the treasure trove with you. They’re all top experts. Although their level will be suppressed, they still have their abundant battle experience. They’ll lead you in exploration.”

Han Fei put on the expression of confusion at the right moment. As a newly-awakened sea demon, he shouldn’t know about the five classes, so he had to play dumb.

Yu Ji spoke to him telepathically, *There are five classes among human beings, and the manipulators of them can control spiritual plants and launch weird attacks. They have absolute advantages in forests, which is why we should avoid having head-on clashes with human beings.*

Han Fei responded*, That explains a lot.*

Han Fei thought to himself, *I know the manipulators’ methods better than any of you does, and you’re teaching me that?*

However, what made Han Fei feel bad was that the sea demons waged war at mankind for the treasure trove. He wondered how many people would be killed on the battlefield. He merely hoped that some experts could take action and change the situation.

As for the 21 top experts, who equaled peak-level Hidden Fishers that Blue Feather mentioned, Han Fei didn’t consider it a big deal at all.

If they were suppressed to a lower level, how strong could they possibly be? Those people were only experts in a desolate land. Han Fei didn’t think that they would be as strong in a lower level...

On the contrary, Han Fei confidently believed that he was the strongest among them.

At this moment, an idea occurred to Han Fei. *Should I kill them all in a trap and return to the Scattered Stars Island from the channel on the human side?*

Chapter 778: Opening of the Treasure Trove

After Blue Feather and the others were gone, Hai Xinlan, a Half-Mermaid, was left behind. She said, “Let’s split you up into different groups.”

In the following days, everybody waited for the seal to loosen and nobody dared to leave. Some didn’t carry enough equipment, and some wanted to buy spiritual fruits. They needed someone to run errands for them.

According to their levels and strength, Han Fei and Yu Ji were assigned to the same group, which was understandable. After all, both of them were trained by Eight Wings of Blue Feather.

Of course, another reason was that Han Fei was taken back by Yu Ji, so it was her responsibility to watch over him.

There were altogether ten members in the team. Apart from Han Fei and Yu Ji who were rather famous, there was another famous Heavenly Talent named Yu Ying.

Han Fei found the name rather familiar. He searched his memories for a while and remembered that the guy was the owner of one of the refining stores he robbed a couple of days earlier.

He robbed the stores by splitting his soul, so he didn't remember it earlier. At this moment, it occurred to him that Yu Ying's store sold ultra-quality demonic weapons, but he had stolen all her tools for refining.

Han Fei was delighted at the thought of that. He said to himself, *Your belongings are only several meters away, bite me!*

Of course, Han Fei only thought that to himself and didn't underestimate Yu Ying.

Even someone as talented as Yu Ji could only sell high-quality demonic weapons in her store. Yet, Yu Ying had divine refining platforms to craft ultra-quality weapons. She must be very strong.

The leader of Han Fei's team was named Yu Hun. He was said to be a peak-level sea demon who had returned from the front line.

He wore a silver mask that covered half of his face, which made him look rather mysterious.

Yu Hun was telling stories to others, "Little guys, you've never seen the carnage and ferocity on the real battlefield in the front line. One time, I led a raid towards a place named Inferno Beach on the Scattered Stars Island. I brought five hundred soldiers with me. How many of them do you think survived in the end?"

Some Heavenly Talents who had never been to a battlefield asked curiously, "How many?"

Yu Hun chuckled. "Seventeen. The others were all killed."

"Hiss!"

Everybody, including Yu Ji, gasped hard. Naturally, Han Fei gasped too as others did.

Yu Hun curled his lips and smiled. "However, our achievement was remarkable too. The raid was successful. We destroyed a brigade on the beach and killed a Hidden Fisher."

Han Fei's pupils contracted. A brigade?

"Damn it."

Han Fei's head was cold. He looked at Yu Hun as if the man were dead fish, determined to kill him in the secret treasure trove.

Yu Hun was still bragging. "Do you know that human beings love high-quality pearls? High-quality pearls can only be reaped from the Sea of Pearls. Eight years ago, a total war burst out between humans and sea demons. Lord Yu Hanjian of the Eight Wings of Blue Feather took us to the Sea of Pearls to fight human beings... In that battle, the seawater turned red as if the Bloodthirsty Sesame Shrimps passed the area. It was bloody and gory."

Someone asked, "What happened later? Which side won?"

Yu Hun said with mixed feelings, "It's hard to say. In any case, both sides suffered heavy casualties. More than three thousand human beings were killed in that battle..."

Yu Hun didn't seem interested in talking more about that question. He pointed at the mask on his face and said, "Do you know why I have to wear a mask?"

Everybody shook their heads.

Yu Hun chuckled and took off the silver mask.

Han Fei saw that his face that was covered by the mask was full of wrinkles and burns and looked no better than that on a skeleton.

"Hiss!"

Before everybody gasped, Yu Ji had put on the mask again and chuckled hoarsely. "That was caused by the slap of a Law Enforcer, which equaled Eight Wings of Blue Feather. I was almost killed back then, but then he was killed by Lord Yu Beichen and Lord Chixue Huan together. I was so close to death back then."

Han Fei's face got more and more indifferent. *You're talking about human beings' failures to a human being?*

Yu Ying looked at Han Fei. "Yu Ying, you don't look so well."

Han Fei was briefly stunned and then shook his head. "I was imagining the picture."

Yu Hun chuckled. "Don't be shocked yet. I have more stories to tell..."

Before he finished his sentence, everybody felt that the soil trembled.

Instantly, everybody concentrated their attention, and someone descended from the sky. It was none other than Blue Feather.

Blue Feather roared, "Attention, everybody. The treasure trove is about to open. Be prepared to go in."

As Blue Feather finished his announcement, the Earth Fire Platform trembled violently, and six curled stones at the center of the Earth Fire Platform opened and revealed a dark hole.

Dense spiritual energy was spurted out of the hole, making everybody anxious and hopeful.

Usually, a place with such an intensity of spiritual energy was either a sanctuary for training or extremely dangerous

"Let's go in!"

After Blue Feather gave the command, the captains of all teams roared at the same time, "Let's go! Keep up with me!"

...

On the Scattered Stars Island, in an underground cave in the Transverse Mountain, Xue Shenqi had shown up in person.

In front of Xue Shenqi was a team of more than a hundred explorers including Luo Xiaobai and Le Renkuang.

Luo Xiaobai stood in front of the team. She couldn't keep her identity as a Divine Manipulator a secret to the leadership of the Scattered Stars Island, so she was leading an independent squad that included three other manipulators, two armorists, two spirit gatherers, one soul warrior and one hunter.

Le Renkuang was one of the armorists. In an ocean of spiritual plants, Luo Xiaobai and Le Renkuang would be a lot stronger.

At this moment, Le Renkuang remarked, "If Han Fei were here, he would have definitely come after hearing that there are so many treasures here."

Le Renkuang was no longer what he used to be several months earlier. As a member of the Thug Academy, he knew that Han Fei's Life Tablet was broken.

Le Renkuang blamed himself for not going together with Han Fei back then.

Zhang Xuanyu almost fell out with him too. He couldn't even enjoy his food anymore. To this day, he couldn't drop the incident behind. When he heard about the channel of spiritual plants, he instantly remembered Han Fei.

Luo Xiaobai let out a hum and said with her eyes at a loss, "This is one of his favorite places."

Le Renkuang scratched his head. "I hope that Zhang Xuanyu is fine outside. The Scattered Stars Island and the sea demons are already at war. We're the only two here now."

Luo Xiaobai nodded. "Don't worry. I got this."

Exactly at this moment, a blue sprint began to boil inside the cave.

Xue Shenqi roared, "Go inside! Cherish your life no matter what you run into."

...

Shua! Shua! Shua!

Things flashed in front of Han Fei's eyes.

His eyes were filled with greenness after only one moment. Then, he was so chilled as if he had just chugged a bottle of pop.

The spiritual energy that was at least five times more intense than the outside world made everybody feel that they had suddenly moved from a hot desert to a snowy world.

The moment he came to this place, Han Fei sensed that the Demon Purification Pot shivered in his head.

"Huh? The Demon Purification Pot moved uncannily?"

Han Fei knew that the secret trove couldn't be simple. Something in this place must've attracted the Demon Purification Pot.

After everybody calmed down, they found a lot of impurities in the greenness. There were all kinds of colors here, and green was simply the most prominent background color.

Below Han Fei's feet were large yellow and pink patches of coral. There was seaweed in every corner too.

He also saw countless algae that were hundreds of meters long. They lay here and there like trees that had been cut down. Up above, the leaves of the plants floated dozens of meters away.

Occasionally, trees that were full of mosses could be found among the algae. Every leaf on the tree looked like algae. Even the smallest of them could be a dozen meters long.

This was a real forest of algae, which was even thicker than the Deep-Sea Jungle that Han Fei had seen before.

Here, bright yellow fish swam among the algae, yellow crabs crawled on the stone and mud, long-tailed fish with blue and black stripes escaped to the coral in panic, white lobsters that were as skinny as skeletons were drifting away, the transparent sea hair that was attached to the giant algae blinked and disappeared, and some weird ribbons that were flashing non stop suddenly died out...

Han Fei mumbled, "What a dreamy undersea forest!"

Before Han Fei could observe more of the creatures here, the captains of different teams called out to their team.

Someone roared, "This channel is too large. All teams will disperse. Unleash Demon Shrii if you're in danger."

Han Fei frowned and looked at Yu Ji. "What's Demon Shrii?"

Yu Ji glanced at Han Fei. "It's a special way of uttering sound for us Half-Mermaids and Half-Mermen. They can burst out shrii in emergencies and send signals for help to three hundred kilometers. You'd better pray that you don't hear that, because it means that someone is dying."

Han Fei secretly chuckled. *I'm praying and looking forward to that. Good thing that all the teams are split up, or I won't have a chance to kill you...*

The teams had split up and were swimming to the direction they chose.

Yu Hun roared, "Follow me!"

Eleven members including Yu Hun charged at the jungle of algae, and the regular fish all ran away.

After swimming for twenty kilometers, nobody saw anything unusual.

There was nothing but giant algae and occasional trees nearby.

Han Fei had been looking around. He saw a lot of creatures, but they weren't very strong and didn't launch any attacks.

"Huh? Why are there not powerful creatures here when the spiritual energy is so exuberant?"

A Half-Merman descended to the bottom of the sea and laid his hand on the seabed, as if he were sensing something.

"Pu!"

All of a sudden, before anyone could react, three sharp stings that looked like iron thorns extended from the bottom of the sea and penetrated the Half-Merman Heavenly Talent.

The moment the stings emerged, thousands of vines the width of thumbs tied up the Half-Merman.

Han Fei was quite shocked too. He gasped at the information in his eyes. Was it a Hundred-Year Tree Demon?

Chapter 779: Hundred-Year Tree Demon

Information about the sharp thorns popped up in Han Fei's eyes.

<Name> Hundred-Year Tree Demon

<Introduction> This is an intelligent spiritual plant that grew from the seed of an ancient demon tree. It knows Hundred-Year Battle Stings that can penetrate ultra-quality demonic weapons. It can control its roots and vines and travel underneath the soil.

<Level> 49

<Quality> Exotic

<Spiritual Energy> 7,705

<Level> Sea Demon

<Battle Technique> Hundred-Year Demon Stings

<Absorbable>

<Note> Spiritual plants don't have veins and there's no obstacles in their Demon Heritage.

...

When he read the information, Han Fei subconsciously glanced at the tree a thousand meters away and felt that his heart shivered.

"Is that a spiritual plant? It has no Demon Heritage or Companion Spirit, yet it has an inherited battle technique and infinite potential..."

Han Fei's eyes flashed. What did it mean? It meant that the demonic plants could keep growing stronger. Of course, that wasn't necessarily better than the techniques of human beings or sea demons.

However, this intelligent creature had quality even though it didn't have a Demon Heritage. Wasn't it the same as contractual spiritual beasts and naturally-endowed spiritual beasts?

From that point of view, what kind of creature were they?

Was it possible for a human being to contract a spiritual plant?

Han Fei thought of many questions, but couldn't find an answer yet. After all, there were a lot of other people in his team.

Almost in the blink of an eye, Yu Hun, Yu Ying, Yu Ji and three other people took action and tore apart the vines, rescuing the victim.

However, when they got him back, they found that one of three stings had pierced between his ribs into his internal organs.

The wound was even thicker than Han Fei's thigh.

That was not the end of it. The Hundred-Year Demon Stings were poisonous, and the Half-Merman's body was turning blue.

He opened his eyes, and his eyes lost focus. He was a Heavenly Talent, yet he had died once for nothing when he tried to investigate the environment with a secret technique?

Yu Hun looked rather awful. "Nobody is to approach the seabed, which is dangerous. Based on the information of the Ten Thousand Demon Valley, the Hundred-Year Tree Demon must've done that. It must be the tree up ahead."

Everybody was infuriated when the Half-Merman died. They had just moved for twenty kilometers, and someone already died?

While they were angry, they were also alarmed. The forest seemed glamorous and splendid, but it was quite dangerous and called for caution.

Yu Hun roared, "Everybody, put on your battle suits, take out your weapons, and be ready for battle!"

As he spoke, the guy who was just killed ran out of the void in shock. He was completely dumbfounded.

He had already died once after he came in. If he died again, wouldn't he be really killed?

Yu Ji looked at Han Fei's reaction, only to be greatly disappointed.

Han Fei was as cold and indifferent as before the whole time.

It did make sense on second thought. Han Fei had no sense of belonging to the Ten Thousand Demon Valley. The guy played dumb when they first met and behaved very coldly afterwards, which made Yu Ji rather unhappy.

Yu Ying looked at Yu Ji and then Han Fei. There was no telling what was on his mind.

After Yu Hun gave an order, everybody swam at the tree.

The tree was more than two hundred meters tall and almost reached the sky, but Han Fei didn't see any information on it after he saw it.

Han Fei realized that it wasn't the Hundred-Year Tree Demon.

Immediately, Han Fei released his senses and scanned the environment.

Everybody else, including Yu Hun, had already started attacking the tree. They believed that the tree must be the Hundred-Year Tree Demon, because only a tree of such a size could've killed a Half-Merman Heavenly Talent in one attack.

The tree was half shattered by dozens of cold shiny weapons.

However, unlike what everybody expected, the tree showed no reaction at all. Instead, a lot of green sap flowed out of the broken trunk and dispersed in the water.

Immediately, Han Fei frowned. He had a bad feeling.

Seeing that the attacks were ineffective and Han Fei was deep in thought, Yu Ji roared, "Watch out for the poison!"

Yu Hun also roared, "Fall back!"

As he commanded, Yu Hun waved his hand and raised a huge tide, trying to push the sap away.

However, some of the sap had already touched everybody during the attacks. Han Fei didn't sense any reaction from the Heaven Spirit Detoxifying Insect, so he was certain that it wasn't poison.

After retreating for hundreds of meters, everybody floated in the sky and looked at the half-broken tree, hoping to see the result.

Han Fei was still scanning the area again and again. The Hundred-Year Tree Demon was still around. If this tree wasn't it, it had to be one of the smaller trees.

However, there were dozens of smaller trees nearby, which had different heights but exactly the same appearance...

Wait.

Han Fei's pupils contracted. He saw a tree that was only three meters tall. The tree didn't have many leaves, but it had a lot of branches.

Han Fei found it rather weird. This place was abundant in spiritual energy and other plants all had long leaves. Yet, this one had few leaves, which made it unfitting for the environment.

Suddenly, Han Fei had a sense of danger and moved horizontally for more than three meters.

In the next moment, the leaves on the algae behind them were tightened and swept like giant swords.

Other people were alarmed by Han Fei's sudden movement. In any case, it couldn't hurt to move with him.

As a result, because of Han Fei's dodging movement, everybody narrowly avoided the attack of the sword leaves. Immediately, hundreds of leaves flew out and darted at Han Fei and the rest of the team.

Yu Hun roared, "They're not very powerful. Don't panic!"

However, while the vines and grasses weren't powerful, there were an overwhelming number of them, which was still scary.

At least, the Heavenly Talents who hadn't been through a lot of real battles, were panicked when faced with the overwhelming attacks.

Some of them forgot the lesson and approached the seabed when they tried to avoid the vines and the sword leaves.

“Puchi!”

Almost eight stings rose more than ten meters high and stabbed one of them.

In the chaotic scene, although he was already alarmed and avoided most of the stings, the vines still clutched his feet and two of the stings simply pierced him through.

“Yu Lu!”

Someone roared and tried to rescue him, but the bountiful vines slowed him down.

Yu Lu, who was impaled, was not dead yet. Although the Hundred-Year Demonic Stings could penetrate ultra-quality battle suits, it wasn't so easy to kill someone behind the suits.

However, Yu Lu didn't choose to unleash his strength and break free after he was hurt. Instead, he summoned his Companion Spirit.

Seeing that, Han Fei knew that the guy was doomed and had to use his Immortal Seal.

It was true that he was a Heavenly Talent, but the enemy was a level-49 exotic Hundred-Year Tree Demon. Why should it be scared of him?

As expected, after the Companion Spirit was summoned, another row of Hundred-Year Demonic Stings popped up and left five holes on him.

Yu Hun roared, “Don't go down there! Come back!”

Yu Lu walked out of the void in fright. Had one of his lives been wasted so easily?

Han Fei waved his harpoon quickly and chopped the grasses and vines. Even if some of the vines touched him, they couldn't pull him away at all.

While watching Yu Ji, Yu Ying and others fight, Han Fei speculated that the sap of the tree could increase the aggressiveness of other plants.

However, Han Fei wouldn't tell them that. He peeped at the tree and knew that the Hundred-Year Tree Demon couldn't hide much longer.

He put on a smile and had an idea.

The Hundred-Year Tree Demon had already killed two of the Half-Mermen and done him a great favor, but it probably couldn't kill anyone else. Since it would be discovered sooner or later, he might as well reveal it to win the team's trust.

When everybody was fighting vehemently, Han Fei suddenly dashed forward with his harpoon, cutting apart all the vines and leaves on the way.

Following Han Fei's outburst and the direction of his attack, everybody spotted the tiny tree.

Yu Hun roared, “Damn it, I'm going to execute you today!”

However, beyond everyone's expectation, the Hundred-Year Tree Demon suddenly grew taller, and a lot of roots appeared at its bottom. It pulled itself out and ran off quickly.

There was no telling if it was because of the plentiful roots, but it ran quite fast. Anyway, it was much faster than normal crabs.

Han Fei was quite shocked. He didn't expect the tree to do that.

You are a tree! How can you run even faster than crabs?

However, it couldn't escape at all. Han Fei moved so fast and had to lower his depth in the way, and almost ten stings rose.

But Han Fei had seen them coming. He changed his course in the seawater and avoided the stings easily, before he hit the Hundred-Year Tree Demon.

The Hundred-Year Tree Demon was flung away after Han Fei left a hole on it.

Then, Yu Hun, Yu Ji, Yu Ying and everybody else arrived. They riddled the Hundred-Year Tree Demon with holes with their harpoons. The infuriated Half-Mermen vented their madness on the enemy, and Han Fei didn't have to attack again.

Therefore, Han Fei simply stopped and watched the scene in silence.

Yu Ying drifted over. "How did you find it?"

Chapter 780: For the Sake of the Valuable Materials

The Hundred-Year Tree Demon was riddled with holes.

Yu Hun uprooted the tree and crumbled it with demonic Qi, making it impossible to survive.

At this moment, everybody looked at Han Fei curiously.

Of so many trees out there, why did he attack this one in particular?

Han Fei remained as calm as before. "Looking for the differences among similar things is the basic rule for you to survive the sea."

Everyone: "..."

Many of them didn't evolve from fish at all but were offspring of Half-Mermen and Half-Mermaids. Some of them did evolve from fish, but it had been such a long time that they had forgotten their vigilance before their awakening.

Yu Ji frowned and said, "I noticed the tree too. It looked no different from other trees. It had fewer leaves, but..."

Suddenly, Yu Ji gasped. "I should've suspected it sooner."

Yu Hun solemnly said, "Everybody, be cautious. We've just arrived here, but a Hundred-Year Tree Demon has caused the death of two Heavenly Talents. It's evident how terrifying the spiritual plants are!"

For your information, there are also Thousand-Year Tree Demons and even Ten-Thousand-Year ones in this mysterious channel.”

“Hiss!”

This time, everybody including Han Fei was shocked. A Hundred-Year Tree Demon was already tricky enough. What about the Thousand-Year Tree Demons and Ten-Thousand-Year ones?

“Spiritual plants?”

The intelligent plants left a deep impression on Han Fei. This forest was like a garden to them, and their attacks were truly unpredictable. They were indeed worth paying attention to.

However, the more dangerous the channel was, the bigger the secret behind it would be.

Han Fei even wondered if the Little Treeman in the jungle in the level-two fishery was defending some sort of channel too.

However, on second thought, maybe it wasn't right. If it had been defending a channel, an expert would've beaten it and explored the channel, and he wouldn't have run into it at all.

He didn't think about the question any longer. The algae and vines gradually slowed down and stopped attacking as if they lost their command.

Yu Ying seemed rather wary. “The Hundred-Year Tree Demon can control the spiritual plants nearby. We must be extra careful. Lord Yu Hun, are the Thousand-Year Tree Demons and the Ten-Thousand-Year Tree Demons stronger than the Hundred-Year Tree Demons?”

Yu Hun nodded and then shook his head. “No. They're all suppressed to level-49 in this place.”

“Huh?”

Someone asked in surprise, “Why? Aren't they locals of this place?”

Yu Hun said casually, “According to the files from thirty years ago, they're as suppressed by this space as we are. However, unlike us, they were naturally born in this world and seem to have melted into it. So, they're more dangerous than we think.”

Someone asked, “Doesn't it mean that they're as strong as each other?”

Yu Hun looked at him as if he were an idiot. “How can a hundred years, a thousand years and ten thousand years be the same? Why would the seniors distinguish them if they were? It's said that the Ten-Thousand-Year Tree Demons are more mysterious and aggressive than the Hundred-Year Tree Demons. Their Thousand-Year Demonic Stings are as powerful as Semi-Divine Weapons.”

“Hiss!”

Everybody was appalled. As powerful as Semi-Divine Weapons? Wasn't that terrifying?

Someone asked, “Then if we execute a Thousand-Year Tree Demon and loot its Thousand-Year Demonic Stings, can we use them as Semi-Divine Weapons?”

Everybody was thinking that including Han Fei. However, Han Fei moved one step further and wondered if the Ten-Thousand-Year Tree Demons' stings could be compared to real Divine Weapons if those of the Ten-Thousand-Year Tree Demons were already so good.

Yu Hun slightly shook his head. "Not exactly. Do you think you just executed the Hundred-Year Tree Demon?"

Everybody was stunned. "Didn't we?"

Yu Hun shook his head with a smile. "To some extent, we did, but the Tree Demons are special intelligent creatures who will bury their stings deep into the soil when they're dying, so that they can grow up into a new Hundred-Year Tree Demon a hundred years later."

"Huh?"

Everybody was astounded. One of them exclaimed, "Doesn't it mean that the Tree Demons are immortal?"

Yu Hun chuckled. "No creatures are really immortal. Some of them are lucky to let their stings flee, but some aren't lucky enough. Also, the fleeing stings have lost their wisdom, and even if they regrow into a Hundred-Year Tree Demon, it won't be the old one, which is essentially dead!"

Han Fei was quite shocked as he listened.

In any case, according to what Yu Hun said, the Tree Demons were terrifying creatures. It was already impressive enough that they could "reincarnate" themselves when surrounded by so many people.

He glanced at everybody and saw solemnness on everybody's face.

...

In another corner, a great battle was going on.

However, this battle was much easier than the one Han Fei had.

Three manipulators were trying their best to control the crazy spiritual plants. In the middle of them, Luo Xiaobai closed her eyes and tightened her body, trying to seize the spirit.

Le Renkuang was madly clearing the spiritual plants nearby, and the soul warriors, armorists and hunters all surrounded Luo Xiaobai to protect her.

After about ten minutes, Luo Xiaobai opened her eyes quickly with a slightly pale face and said casually, "We've won."

Le Renkuang was enthused. "Is the Hundred-Year Tree Demon ours now?"

Hardly had Le Renkuang said that when a tree ran out of a bunch of trees quickly.

However, the Hundred-Year Tree Demon was no longer aggressive but became a member of Luo Xiaobai's team.

Luo Xiaobai said softly, "From its consciousness, I learned that the Thousand-Year Tree Demon is much stronger and it hasn't met a Ten-Thousand-Year Tree Demon yet. However, there's good news too... There are a lot of valuable materials in this place."

...

In a place further away, a girl who was holding a flute became illusionary. She grabbed a Hundred-Year Demonic Sting with her fair hand, and she unleashed an unusual short sword that cut a Hundred-Year Tree Demon into pieces.

In the end, she seized the three-foot-long piton-shaped sting of the tree in her hand, and she put on a mysterious smile.

Above the woman, her nine teammates looked at the scene in shock.

If Han Fei were here, he would've recognized her to be Cao Jiaren, who was Cao Qiu's elder sister and Cao Tian's younger sister.

...

On the other hand, Han Fei and his team had resumed their exploration.

With the lesson they just learned, their operation was a lot safer than before.

Yu Ying demonstrated her magnificent strength at this moment. Hundreds of shadows appeared at the bottom of the sea, and the Hundred-Year Demonic Stings were stabbing crazily, but none hit her.

Yu Ying, however, threw out one shadow spear after another and shackled a tree with thirty of them.

Han Fei observed the scene quietly. He barely attacked and had been watching others. After all, with the contributions he already made, he could save his energy and observe the people he was plotting against.

Yu Ying was the one that Han Fei paid most attention to. She was even more important than Yu Ji to him.

It was because her shadow carried a sealing effect that was similar to Xia Xiaochan's Shadow Kill.

Six hours passed.

Han Fei didn't hear a single Demon Shriek, which either meant that no teams were around or that the number of casualties was acceptable in every team and Demon Shrieking wasn't worth it.

At this moment, Yu Hun found a spiritual fruit from a nest of anemones that was full of tentacles.

Surprisingly, the spiritual fruit was more effective than all the spiritual fruits that Han Fei had seen.

Information popped up in his eyes.

<Name> Sunflower Fruit

<Introduction> This is an amazing fruit that grows in anemones. It can improve spiritual power.

<Level> Demon Level

<Quality> Ultra

<Spiritual Energy> 356,000 points

<Effect> It can increase a significant amount of spiritual energy and ten percent of spiritual power when eaten directly. Doesn't work for creatures above the Hidden Fisher level. You cannot improve your spiritual power by eating other fruits in another 49 days. It cannot be eaten repeatedly.

Han Fei gasped after reading the information of the spiritual fruit. Not only did it have plenty of spiritual energy, but it could even increase ten percent of spiritual power! How hard was it to cultivate spiritual power? One Sunflower Fruit could save so much time of training?

Han Fei's spiritual power had only been increased from 1,912 points to 2,164 points after he passed the 72 demon realms, yet a spiritual fruit could enable the same increase? Was it serious?

Yu Ji was as shocked as Han Fei was. "Is this a Sunflower Fruit?"

Yu Hun nodded. "It is. I didn't expect that we would find such a rare spiritual fruit so easily. This sea forest must've been unvisited for years."

Suddenly, Yu Hun roared, "Everybody, listen up. While we remain careful and cautious, whoever finds valuable materials first on the rest of the trip will have claim to them. The Sunflower Fruit was found by Yu Ying, so it's hers."

Immediately, Han Fei couldn't have looked angrier. He'd spotted it way ahead of her, but he kept a low profile and didn't touch it.

"Damn it, for the sake of the valuable materials, I cannot keep a low profile anymore!"
