

GOF 801

### **Chapter 801: Bone Transformation Spiritual Lamp**

Many people on the human side had no idea what was going on. Only Cao Jiaren's team was deep in thought and realized what had happened.

Luo Xiaobai said casually, "He's an undercover agent."

"What?"

"We have a sea demon undercover agent?"

"And he's so strong?"

"Hiss. Has an expert possessed an Inferior Man-Fish?"

Everybody was stunned. So, the hunting before was just an act?

Le Renkuang put on a smile and thought to himself, *He's always been an actor, you'll be shocked if you know his name, but of course, I can't tell that to you.*

Cao Jiaren slightly frowned and looked at the Overlord who stood like a tree not far away. She found it weird.

The other captains on the human side looked at the Overlord too. If this were an act, then who was this Overlord? Was he here to work with the Inferior Man-Fish?

Losing track of Han Fei, the five sea demon captains looked at each other and knew that they were in a dilemma. If they didn't launch a full attack immediately, Yu Fei might meet with human beings and use the Bone Transformation Spiritual Lamp, which wouldn't be in their favor.

Only if the two parties were caught in a fight would Yu Fei be prevented from attacking.

After all, the Bone Transformation Spiritual Lamp was a massive-destructive weapon. All the targets within its coverage would be slowed and obliterated in three seconds.

Therefore, the captains roared, "Ignore Yu Fei and charge at full speed!"

Yu Ji was rather gloomy while she charged forward. *Damn it. Shouldn't they finish off the traitor first? Why are they charging already?*

Remembering the effect of the Bone Transformation Spiritual Lamp, Han Fei took a deep breath. If the two parties started fighting, he wouldn't be able to use it anymore.

On the human side, seeing that the sea demons were really charging and didn't stop because of Han Fei's escape. A lot of people stood up.

Someone roared, "Everybody, prepare your secret techniques."

Someone said telepathically, *Those whose Immortal Seal is still available, lead the charge.*

Luo Xiaobai shouted, "All manipulators, listen to my command!"

*Swish...*

The Overlord not far away suddenly plucked Snowmourne and stabbed it to the ground. He looked like a lone hero.

Seeing that he plucked his sword, someone among the sea demons said, "He's extremely strong. Use Sea God's Arrival to deal with him."

Immediately, two Heavenly Talent captains shouted, "Let us!"

Cao Jiaren was about to play her flute, when she heard a voice, "Does your illusion still work? Create an opportunity for me."

After a brief stun, Cao Jiaren replied, "There are too many enemies. My illusion will be broken very quickly."

Han Fei turned to the Leafless Tree. "Mr. Tree, I have a Divine weapon. Can you charge at the sea demons?"

The Leafless Tree replied casually, "If I charge at them, I can never go back."

Han Fei: "..."

Before he asked Shu Shan, Shu Shan had already replied, "I cannot attack them with a Divine weapon in my current state. If I were in my prime years, I could crush all of them with a single sword."

Han Fei was lost for words, as the guy's declaration meant nothing.

Han Fei heaved a sigh. "This is tricky!"

Of course, Han Fei wouldn't charge at the enemies stupidly. Although he was confident of his strength, only an idiot would challenge an army of Heavenly Talents.

*Boom...*

The ground was trembling at this moment. Hundreds of enormous vines that were made of millions of smaller vines rose. They were twenty meters in diameter first and then grew to a hundred meters. It was the joint power of all the manipulators.

Apart from that, a tremendous amount of poison permeated the water, paralyzing, maddening and melting the enemies.

A lot of the strengthened version of Poison God was mixed in it.

However, the charging sea demons simply roared, "The Sea King's Dragon Array!"

A circle of light rose like a barrier, creating a path through all the poisons in the water. None of the poisons could penetrate the barrier.

"Death Door Sect, take action!"

*Dum! Dum! Dum!*

Someone roared, and enormous gates descended from the sky. The ground didn't stop trembling until eighteen doors dropped.

Enormous vines were sweeping. Hundreds of vines were scattered on two sides like guards and attacked the army of sea demons.

*Pu... Pu... Pu...*

To Han Fei's shock, the brilliance that seemed to be from the sun tore apart the vines. None of them could resist the powerful impact.

Han Fei couldn't help but swallow. He didn't know that the power of a team could be so high! His intuition was that it was much stronger than the Cao family's fist marks.

Although the fist marks of the Cao family equaled the strike of a peak-level Hidden Fisher, the real effect of the attack could be different. At this moment, the brilliance was more powerful than ten fist marks.

*Can I block it with the Three Death Doors?*

The idea flashed in Han Fei's head. He then immediately disapproved of it.

The demons might not have as many battle techniques as human beings did, but they were just as good in terms of absolute strength. He had already discovered that in the battle in the canyon, and he was further reassured of that here.

Han Fei took a deep breath and spoke to Luo Xiaobai and Le Renkuang, "Don't just charge stupidly! Do you have more Divine weapons? Use them!"

"I know!"

Luo Xiaobai didn't have to say anything. The woman in red stepped out of the human teams and said, "Everybody, retreat for another three thousand meters."

"Captain."

"Shi Sanyue, you cannot resist them on your own."

The woman in red roared, "I know what I'm doing. Armorists, retreat for a thousand meters and launch your shields as a precaution."

Seeing the woman in red, Han Fei thought something and said to Cao Jiaren again telepathically, *If the army of sea demons is halted, can you hallucinate them? Only half a second will be enough.*

Cao Jiaren was silent for a second after receiving Han Fei's message. *I might not be able to endure half a second. What do you want? You must be fast.*

Han Fei was following the army of sea demons underground. Not even half a second?

He thought to himself, *I'm already trying my best, don't blame me if it doesn't work in this special situation.*

The woman in red stood in front of everybody behind the Death Door Sect with a purple badge rolling on her fingertip behind her back.

*Boom!*

*Crack! Crack! Crack!*

The Three Death Doors were broken so fast that they sounded like bullets that were being fired nonstop.

When the last door was broken, a purple badge rose high.

*Boom!*

*Boom...*

Purple lightning struck down like a storm.

The woman in red retreated quickly. The shields behind her represented the armorists' determination to sacrifice themselves.

What made Han Fei worried was that Le Renkuang was among them.

But fortunately, the lightning strikes were very fast, and a thousand of them came down in the blink of an eye.

*Crack!*

After only one moment, the charging formation was disrupted, and the glowing circle was broken half a second after it was cracked.

"Ah!"

"Sea God's Arrival!"

"Sea King's Attachment!"

"Blue Whale Riding Skill!"

"Water Moon Giant!"

A lot of secret techniques were employed, but they couldn't resist the purple lightning.

In the blink of an eye, almost thirty enemies were shattered to smithereens, but some of them still had their Immortal Seals, so the Divine weapon had really killed no more than twenty enemies.

*Wu... Wu... Wu...*

After two waves of lightning strikes, the purple badge was broken. Then, a piece of pleasant music echoed, raising a mist at the bottom of the sea.

Luo Xiaobai glanced at Cao Jiaren and pointed her finger. "Summon the bluish poisonous flames."

"Chila!"

Hundreds of blue flowers of fire blossomed in the crowd and joined the hazy mist.

"Now is the time!"

Han Fei dashed out and crazily broke into the hazy mist.

One second.

Two...

The music came to an abrupt halt in two seconds. Cao Jiaren's facial organs were bleeding although she remained calm. Obviously, the shock was too strong.

Luo Xiaobai vomited a mouthful of blood too.

The moment the mist disappeared, Han Fei showed up. Instantly, some sea demons roared, "Get out of the way!"

Hundreds of Void Chains rose, and Han Fei had broken in. He dare not use the Flying Flower Demon Flash, fearing that he would be caught after he arrived.

However, a dry tree appeared in the void and gave Han Fei a push. In the next moment, it was a weird glow.

The glow was as splendid as an aurora, except that it could only cover about three hundred meters. When all the sea demons were burning their blood to rush forward, Han Fei only managed to cover about thirty of them.

Then, six of them ran off in the first second, and eleven did in two seconds.

Those who failed to get away in two seconds couldn't get away anymore. Their body melted at a visible speed. How could they run when half of their body was gone?

Those who failed to run off during the first second were heavily wounded. At least, Han Fei could hardly recognize that they were Half-Mermen. They had lost their eyes, nose and mouth. Their skin was gone too, revealing the wriggling muscles.

The human beings were all shocked and delighted, as this Inferior Man-Fish was truly helpful!

Their Purple Lightning Badge only killed a dozen people, and this Inferior Man-Fish killed at least twenty in one attack.

A Half-Merman roared curiously, "Yu Fei, I'm going to kill you!"

However, the Bone Transformation Spiritual Lamp was already broken, and Han Fei had slipped underground again.

He snorted and said, "I'm proud that I'm making contributions to mankind."

## **Chapter 802: Challenge the Divine Weapon**

When the name Yu Fei was mentioned, Luo Xiaobai and Le Renkuang looked at each other, both finding it weird.

There were about 250 sea demons at the beginning. The Leafless Tree knew that they were here to kill it, so it had been mainly attacking them.

Later, Han Fei killed a lot of them. Plus their two battles with humans, the Leafless Tree's assault, and the kill count of the two Divine weapons, the number of sea demons finally dropped. There were 89 of them left.

Eight of them were heavily wounded. Why eight? Because someone walked out of the void after Han Fei's attack. Obviously, they had just used their Immortal Seal.

However, they were illuminated by the Bone Transformation Spiritual Lamp for about a second after their resurrection, and they were still heavily wounded.

The Half-Merman expert completely went mad and activated the secret technique of the Sea God's Arrival. He charged at the human beings with the illusion of a golden giant.

It wouldn't have been a big deal if one or two of them were doing that, but twelve of them were using the Sea God's Arrival at the same time.

On the human side, Cao Jiaren didn't even have the time to wipe her blood. She squeezed a fist mark and launched it out.

The abundant vines ignored those who activated the Sea God's Arrival but surged at the other enemies.

The captains among the human beings all walked out. They had a lot of treasures, and it was time for them to play their part.

For a moment, all kinds of secret techniques, Companion Spirits and contractual spiritual beasts were sweeping across the area.

The Overlord, who had been still, charged out with Snowmourne, because experts were coming at him with Sea God's Arrival.

"Hula!"

Snowmourne was slashed at the two experts in a terrifying attack. As Han Fei expected, the sword aura was broken.

However, Han Fei also saw clearly that one of the sea demons' golden illusion half perished.

Immediately, Han Fei concluded that if he were to wield Snowmourne, the attack probably would've been as powerful as that of an intermediate Hidden Fisher or a new advanced Hidden Fisher. It wasn't definitely not the peak.

*SWISH!*

What shocked the two experts was that the Overlord could attack consecutively with such terrifying power.

They were completely dumbfounded. Who said that the guy could only attack once?

They remembered that someone claimed that the Overlord cut seven enemies apart with one attack.

Unfortunately, they were charging at each other at a high speed at this moment.

They wanted to hide? It was already too late.

After seven attacks in a row, the two of them were cut into pieces instantly.

When they reappeared, Han Fei cut them into pieces again. After their Dying Strike was activated, the Overlord slashed Snowmourne.

The other sea demons saw this, but they were too busy fighting the human beings to attack the Overlord at this moment.

Besides, none of them were willing to deal with the Overlord at all.

The other ten experts who used the Sea God's Arrival had been occupied and couldn't come. The regular Heavenly Talents couldn't beat the Overlord.

Han Fei sneered. *Don't you see what I'm using? It's an ultra-quality demonic stone! Last time, I only used a spiritual stone! How can they be the same?*

However, Han Fei slightly frowned at the cost of thirty thousand points of demonic Qi in every attack. An ultra-quality demonic stone contained half a million points of demonic Qi.

Did it mean that he used almost 270 thousand points of demonic Qi to kill them?

He couldn't help but grimace, as the cost was too high. It would be his problem. His level was too low.

It seemed that he must improve his strength and deduce the Void Fishing Art as soon as possible.

...

After taking the two enemies down, the Overlord charged at the experts who used the Sea God's Arrival on the battlefield with Snowmourne.

Some roared, "Block them!"

Those who were fighting rolled their eyes. "Why don't you go there? He's obviously killing anyone in his way. Just tell me if you want me dead!"

Seeing that the regular Heavenly Talents were reluctant, Yu Ji dashed forward.

She was also using the Sea God's Arrival. She hated Yu Fei's guts, but she remained rational. She shrieked, "He needs three attacks to break Sea God's Arrival. Let's attack him in turns! He can't launch such terrifying attacks forever!"

On the other hand, Le Renkuang opened his weapon box. "F\*ck you, have a taste of my Bloodthirsty Broadsword."

One of the sea demons gloomily squeezed a weird shell and bellowed, "You'll go on fighting. I'm going to kill the Leafless Tree!"

Then, he pointed at Han Fei. "If you don't come, the Leafless Tree will die!"

Then, the sea demon suddenly disappeared, leaving a mist of blood in the seawater.

"Blood Escape?"

Luo Xiaobai spoke telepathically, *Go after him! He has a Divine weapon. None of us can stop him. We'll be fine on the main battlefield. You can defend the Leafless Tree.*

The Overlord dashed out, and so did Han Fei underground.

While moving, Han Fei replied, *Xiaobai, what makes you think that I can withstand the attack of a Divine weapon?*

*The Leafless Tree can't die. I'll ask for materials and credits for you after we come back. If you lose your puppet, I'll get you enough materials to make a new one.*

Han Fei put on a bitter smile, as Luo Xiaobai was truly judicious on important matters.

If it were him, he might not have decided to rescue the tree at all.

...

A moment later...

By the time Han Fei reached the Leafless Tree, he found a circle in a hundred-meter radius around the Leafless Tree. However, the circle was flashing like a half-broken light that might die out any moment.

Obviously, he had come late, and the old tree had already been struck once.

Han Fei finally saw the old tree clearly. It was just a bare tree that only had six branches, and three of them were just broken. It was only twenty meters tall and two meters in diameter.

There was a big old face on the tree that remained cool. It even raised its eyebrows when it saw Han Fei.

Han Fei didn't know what to say. "Mr. Tree, you'd better give me something good after this battle, or it will be a heavy loss for me."

"Don't be distracted. If the circle is broken, I'll be dead for sure if he uses a Divine weapon."

Han Fei heaved a sigh in front of a circle. Seeing the harpoon that was coming with surging waves, the Overlord slashed out his sword.

However, the sea demon simply ignored it, and the Overlord's attack couldn't break his Sea God's illusion.

Han Fei instantly roared and used the Majestic Mystic Spell and the Sea King's Secret Technique. If the Sea King was going to absorb his vitality, so be it. He could always get it back later.

Han Fei put on a golden battle suit, prepared the Sacrificing Punch, and attached Little Fatty and Little Gold to himself.

*Boom!*

The red aura soared.

The punch was Han Fei's most powerful attack. If he couldn't resist a single strike from his enemy, he might as well go home!

*BAM!*

Both of them were flung away almost at the same time. Han Fei hit the circle and almost destroyed it.

The captain-level expert's eyes bulged. How could this guy be so strong? He resisted one of his strikes with his bare hands?

Han Fei turned his head and filled his mouth with Candle Dragon Blood. Then, electricity emerged above his head and he waved his sword.

"Lightning Blade."

The electricity current triggered by a lightning bolt hit the expert in the dark seawater, and the Overlord cut him twice in a row.

"Ho! Go to hell..."

Knowing that he was dead for sure, the sea demon simply threw out a shell.

Han Fei swallowed. *Damn it. This is a real Divine weapon!*

When the sea demon threw the shell out, he had already been cut by the Overlord.

"Grow! Grow! Grow! Grow! Grow!"

While shouting, Han Fei said to the old tree telepathically, *Can you block other people's senses?*

The Needle stood in front of Han Fei, and demonic Qi surged from it, turning into furious flames.

*Clang!*

The echo spread dozens of kilometers away instantly. Even the battlefield in the front line was also shocked by the loud echo.

Many of them had bleeding ears because of the noise. They wondered what happened in the rear and what caused such a fearsome echo.

*Boom...*

The Needle was flung away.

Han Fei's face was bleeding and he was vomiting blood too. His arms were broken.

His Semi-Divine battle suit had dented despite the protection of the Needle.

In front of Han Fei, six octopus claws were protecting him. Those claws were broken too. Fortunately, limb regeneration wouldn't waste Little Fatty's resurrection opportunities.

At some point, Han Fei picked the root of a grass in his mouth.

*Crack!*

The circle was broken in the end, and the Needle left a deep ravine in the ground.

The sea demon who was just resurrected was cut into four pieces by Snowmourne and died just like that.

Leaning against the Leafless Tree, Han Fei sensed that the Demon Purification Pot was shivering, knowing that the grass and the pot must be attracted to each other.

However, Han Fei couldn't care less about that at this moment. He felt that his internal organs were rolling and his blood was surging. He felt that his body was falling apart even though vitality was flowing from the Fateful Holy Grass into it.

His bracelet shivered. "Boy, you're truly tough. You've weathered through the attack of a Divine weapon as an advanced Hanging Fisher."

Han Fei was lost for words, and blood was flowing out of his mouth. "Do you think I wanted to do so?"

### **Chapter 803: c**

In front of the Leafless Tree, the Overlord stabbed Snowmourn to the ground and stared at the battlefield like a statue with bluish flames flashing in his eyes.

With the Overlord here, the sea demons knew that they had failed and it was impossible to kill the Leafless Tree.

They didn't see it coming that Han Fei could weather through the attack of Divine weapons.

They had run out of Divine weapons, and their enemies were as strong as them. So, they had to retreat if they didn't want to die for nothing.

However, almost all the sea demons remembered one name: Yu Fei.

Someone roared, "Yu Fei, we will kill you even if we have to chase you to the end of the world... Retreat!"

The Leafless Tree said at this moment, "I secretly found the body of a soul warrior. His soul was destroyed by a mental attack and he's already dead. Do you need it?"

Han Fei nodded. "Yes, don't let anybody else notice it."

His bracelet shivered as if Shu Shan were excited. Then the guy said, "This is good. However, I need to remind you that you're in a dilemma. If you go to the human beings' territory in your current look..."

Han Fei's heart became heavy. He was already exposed to the sea demons, and it was impossible for him to return to the Ten Thousand Demon Valley.

But if he were to return to the Scattered Stars Island, he would be caught in a lot of problems. He couldn't grow stronger, and he might be suspected as a spy.

No matter how Luo Xiaobai were to defend him, other people could argue that he was doing all this to win their trust.

So, Han Fei frowned and spoke to Luo Xiaobai who was trying to save her teammates after the battle.

"Xiaobai, how will you go back?"

Luo Xiaobai's face was pale. "I have an array map. We can only return through the array map..."

After several seconds, she said, "We'll be teleported straight back to the Scattered Stars Island."

Han Fei's expression changed quickly. Then, the Leafless Tree said, "If you wait for a while longer, maybe I can create a channel for you."

Han Fei was refreshed. "Really? How long do I have to wait?"

The Leafless Tree moaned. "At least three months, or even half a year."

Realizing that it wasn't too long, Han Fei nodded. "Fine, no problem."

At this moment, the woman in red named Shi Sanyue and the other captains walked to the Leafless Tree without tending to their severe wounds.

They stopped a hundred meters away from Han Fei and looked at him and the Leafless Tree with mixed feelings.

This Yu Fei had truly made great contributions this time. They didn't know how he got exposed, but he had saved the day in the battle on his own and they admired him for that.

Cao Jiaren had wiped off the blood on her face and became gentle again. She glanced at the Overlord casually. "He's a puppet, isn't he?"

"Huh?"

Shi Sanyue and the others were all shocked. A puppet? Such a strong puppet?

Someone noticed Snowmourne in the Overlord's hands and was shocked that it was a high-quality Divine weapon.

Unfortunately, this area was blocked a moment earlier, and there was no telling how Han Fei resisted the attack of a Divine weapon.

Leaning against the Leafless Tree, Han Fei said palely, "Why don't you take a guess about whether or not I'll tell you the answer?"

Cao Jiaren's lips curled. *I already know the answer without you telling me!*

Shi Sanyue solemnly bowed at Han Fei to show her gratitude. "If I may ask, which lord did you used to be?"

Han Fei grinned and said, "You don't need to know."

Luo Xiaobai walked close and said indifferently, "It's about the Thug Academy. You don't need to know."

Everybody thought it through when they heard that the Thug Academy was involved.

Only a lunatic of the Thug Academy would've possessed a sea demon and snuck into the sea demon's home, and only the crazy and stubborn Heavenly Talents of the Thug Academy could've been so strong.

Luo Xiaobai casually looked at Han Fei and slightly nodded, hinting that Han Fei could adopt her claim and she was here to endorse him.

"Cough, cough!"

Naturally, Han Fei played along. "Well, I didn't expect that the Thug Academy would have so many Heavenly Talents. One of them is even from a Divine Manipulator family."

Since Luo Xiaobai was admitted by the Scattered Stars First Unit, her identity as a Divine Manipulator must've been known. Han Fei pointed it out to show his knowledge.

Also, the Divine Manipulator family wasn't known by everybody. By pointing it out, Han Fei was removing other people's suspicion.

At this moment, Le Renkuang exclaimed and staggered close. "Hahaha! You're a Senior from the Thug Academy? No wonder I felt that you were so reliable. Senior Uncle, are you coming back? I'm going to treat you to hotpot!"

Han Fei thought to himself, *Le Renkuang is quite smart to call me Senior Uncle, which indicates that he's from another generation and another age. That's great.*

Old Bai mentioned that a lot of experts of the Thug Academy had perished and traveled to other places. He could just pretend to be one of them.

Han Fei glanced at Le Renkuang. "Fat boy, your swallowing technique wasn't bad. However, what's hotpot?"

Le Renkuang rolled his eyes and said, "About the hotpot, let me tell you, it's amazing..."

Le Renkuang rambled on and didn't give Shi Sanyue and other people any chance to ask Han Fei questions, as it was inappropriate for them to interrupt the members of the same academy who had just reunited.

Shi Sanyue dropped a hint to everybody and slowly moved back to her team. They had to wait until the sea demons left the treasure trove before they went away.

Seeing that everybody was gone, Han Fei said to the Leafless Tree, "Mr. Tree, can you set up a soundproof array?"

"Simple."

Han Fei frowned and said, "Xiaobai, how are you going to explain this after you return to the Scattered Stars Island?"

Luo Xiaobai said casually, "It won't be a big problem. How's your wounds?"

Le Renkuang also asked, "Right, Fei, how did you block the last strike of a Divine weapon? I found it terrifying even on the other side of the battlefield."

Han Fei's lips curled. "With a Divine weapon."

Han Fei didn't tell Le Renkuang the truth, or he would've exclaimed.

Le Renkuang glanced at the Overlord and then examined Snowmourn with his hands.

Immediately, he moved his fingers back. "This sword is awesome! Considering how cold it is, it must be at least a high-quality Divine weapon, right?"

Han Fei yelled at him jokingly, "Where's your respect? I'm your Senior Uncle. How can I not have a Divine weapon?"

Le Renkuang rolled his eyes quickly. "Enough! But we have to thank you for this. Speaking of which, how did you acquire so many Divine weapons? The weird light that killed so many people was from a Divine weapon too, right?"

Han Fei said with curled lips, "I got them from the sea demons. Stop being sentimental. I'm not going back with you."

Le Renkuang was about to open his mouth, when Luo Xiaobai asked in advance, "Then how will you leave? You can't go back with the sea demons' way."

Han Fei assured her, "I have my way to get out, but I may have to spend a few months here. I'll come back after I get out."

Le Renkuang asked, "You have your way? Then is there a way for you to come back in here?"

Han Fei said angrily, "You think I'm a god? I came here because of luck. I was already one of the top Heavenly Talents among sea demons. Given a few more years, I may have become a sea demon leader."

Le Renkuang remarked, "A sea demon leader! Speaking of which, is it fun to be a sea demon? How did you sneak into the Ten Thousand Demon Valley? What did you do there?"

Han Fei coldly snapped, "Aren't you a curious boy? Just go away. I'll tell you everything after I come back. Right, after you return, try to get more level-2 Soul Crystals and Spirit Awakening Fluid for me."

Le Renkuang sighed. "How can I..."

Before Le Renkuang could finish, a few Sea Swallowing Seashells had been thrown to him by Han Fei, who glared and said, "There are a lot of materials in them and a few Semi-Divine weapons. Sell them for resources for me."

Le Renkuang peeped at the Sea Swallowing Seashells and exclaimed in shock, "Han Fei, did you loot the Ten Thousand Demon Valley?"

Luo Xiaobai asked curiously, "What's inside?"

Lost for words, Le Renkuang gave the Sea Swallowing Seashells to her.

Luo Xiaobai scanned them and got speechless too. She looked at Han Fei and wondered what Han Fei had done in the Ten Thousand Demon Valley as there were more than seventy thousand materials inside.

Han Fei chuckled. "It's not a big deal, not a big deal..."

Luo Xiaobai gave the Sea Swallowing Seashells to Le Renkuang and looked at Han Fei. "Last time, we didn't have enough time. About Xiaochan..."

Han Fei slightly shook his head. He didn't want to talk too much now that Shu Shan and the Leafless Tree were still here.

Han Fei said solemnly, "We can't see her for now. If we become Explorers someday, we may have a chance to."

"Explorers?"

Luo Xiaobai and Le Renkuang looked at each other solemnly. Xia Xiaochan's disappearance turned out to be even more serious than they thought. It was so serious that they weren't guaranteed to meet her even if they became Explorers.

Without asking more about Xia Xiaochan, Luo Xiaobai suddenly asked, "Han Fei, did you ask Mr. Leafless to steal a body?"

Han Fei was stunned for a moment. Then he was amused, knowing that Luo Xiaobai had the best senses on spiritual plants and she couldn't have neglected it.

Han Fei nodded. "Yes. Please cover this up for me."

"Okay!"

#### **Chapter 804: Immeasurable Sap**

It was not until an hour later that everybody, including Han Fei, finally had recovered.

Having fought against a Divine weapon in a head-on clash, Han Fei realized the limits of his resistance. Little Fatty was badly wounded but not killed. With its ability of limb regeneration, it could heal itself in good time.

His body was strong, but not strong enough in front of Divine weapons. He had to make a breakthrough to be a peak-level Hanging Fisher before he returned to the Scattered Stars Island, because he couldn't come out easily after he returned.

Since the Leafless Tree promised him that it could create a path out, he was not in a hurry at all. He could cultivate and make a breakthrough while he was still here.

A moment later, the Leafless Tree informed the human beings that the sea demons had teleported them out.

Han Fei had basically recovered. He rose and walked to the crowd with Luo Xiaobai.

Han Fei said to Shi Sanyue, who seemed to be the person in charge, "Little girl, I made great contributions to the victory, didn't I?"

Shi Sanyue nodded. "Of course. After we return to the Scattered Stars Island, I'll personally report to Lord Xue Shenqi."

Han Fei grinned and nodded. "It's impossible for me to claim my rewards, so I'll just give them away to Luo Xiaobai and Le Renkuang. How does that sound?"

Shi Sanyue was stunned and silent for a moment. "I don't have the final say on the matter, but I'll try to speak for you. You're not coming back with us?"

Han Fei waved his hands. "You can go back! I have my own way to return. Also, the Leafless Tree is heavily wounded and vulnerable to the Ten-Thousand-Year Tree Demons. I need to watch over it."

Everybody was dazed for a while. Then, they realized that a Ten-Thousand-Year Tree Demon wasn't easy to deal with.

Shi Sanyue nodded in appreciation. "Thank you very much, Senior. We'll return to the island."

After that, Shi Sanyue opened a map and a mysterious array rose. Very soon, a dark gate to the void was opened.

Han Fei glanced at Le Renkuang and suddenly gave him a kick. "Train harder after you come back instead of eating all the time. You told me about so many foods that I can't even eat. I'm so hungry..."

Le Renkuang was lost for words. *Aren't you having a great time pretending to be a Senior Uncle?*

Many other people secretly laughed and found the Inferior Man-Fish very amusing.

A moment later, after everybody left, Han Fei summoned the Nine-Tailed Mantis Shrimp and Little Gold and then put an ultra-quality demonic stone in the Overlord. Then he said, "Protect me. I'm going to transform."

...

In the central city on the Scattered Stars City.

Xue Shenqi was listening to Shi Sanyue's report attentively. All the other captains were here too, waiting for his reply.

After the report was over, Xue Shenqi frowned and glanced at Luo Xiaobai. "An expert of the Thug Academy possessed an Azure Sea Blue Demon?"

Luo Xiaobai nodded. "That's right. It's a secret matter of the Thug Academy: I'm quite positive of that."

Xue Shenqi slightly frowned. *Why would an expert of the Thug Academy sneak into the sea demons' team after so many years?*

Xue Shenqi pondered for a moment. "The Divine weapon he used must be the Bone Transformation Spiritual Lamp. Cao Jiaren, did you mention that the puppet killed five enemies in five moves?"

Cao Jiaren nodded. "Yes. He didn't even use his sword, and five Half-Merman Heavenly Talents in Semi-Divine battle suits were killed without using their Immortal Seals. However, the attack seemed to have restrictions, or he could've killed all the sea demons on his own."

Xue Shenqi hummed, wondering whether it was coincidental or intentional that an expert of the Thug Academy appeared at this moment.

He didn't suspect that guy from the Thug Academy. It was for the big picture and any human being would've done that. He was simply caught up wondering who it could be.

A moment later...

Xue Shenqi said unhurriedly, "Give enough compensation to the families, villages and towns of the deceased Heavenly Talents. Also, since someone from the Thug Academy helped, Luo Xiaobai and Le Renkuang will be promoted and rewarded with five million points. You can also choose a heaven-level, high-quality technique for yourself..."

...

The sea demons had retreated from the Scattered Stars Island, and human beings had a chance to rest. All units were calculating their casualties.

On a cliff in a battlefield on the west coast...

Le Renkuang looked at Tang Ge who was skinny and grim and said, "Han Fei is still alive. He asked me to tell that to you."

*Hum!*

Airwaves spread out as Tang Ge looked at Le Renkuang with widened eyes, as if he were waiting for Le Renkuang's confirmation.

Le Renkuang nodded. "If everything goes well, he'll return to the Scattered Stars Island in half a year. Right, he asked you to go to the Twisted Jungle."

Tang Ge's grim face put on a smile, but his clenched and shivering fists exposed his excitement.

...

In the Twisted Jungle.

"Pu!"

Old Jiang spouted out the alcohol in his mouth. "What did you say?"

Tang Ge's eyes were filled with hope again. "Senior, Han Fei is still alive. He may return in half a year."

Old Jiang was stunned for a long time, before he said slowly, "He's still alive even though his Life Tablet was broken? That brat..."

Jiang Qin looked at Tang Ge and said casually, "Since you're here, stay for dinner!"

Old Jiang snorted. "He knows that I hate trouble and yet he's sent you here. Nevermind. Tang Ge, now that you're here, you can stay here for a couple of days and I'll give you some tests. If you can't pass them, you'd better go away."

"Huh?"

Tang Ge was stunned and didn't know what he meant.

Jiang Qin said, "If Han Fei wanted us to know he was alive, he could've asked anyone to deliver the message. He wouldn't have asked Le Renkuang to tell it to you and let you relay it to us..."

Tang Ge opened his mouth with a bitter smile. He didn't realize this at all.

...

In front of Han Fei, a soul warrior was performing a boxing technique up and down.

Han Fei said gloomily, "Enough, you've performed it eight times."

"Hahaha! It's been too long since I've had a body. This feels nice. The body's slightly weak and untalented, but it's not a big problem."

Han Fei said unhappily, "Bro, everybody who's come to this place is a Heavenly Talent. How can they be untalented?"

Shu Shan chuckled. "It's because you don't know of my talent in the past! I think that your body is really great, except that its spiritual heritage is too low for your gift."

Han Fei had regained his human form, which was much more comfortable.

Shu Shan was thrilled to have a human body again after all these years. Han Fei, in comparison, wasn't too excited. Instead, he felt rather urgent.

Peace was very rare to him. He certainly could not waste any time.

Han Fei looked at the Leafless Tree. "Mr. Tree, you only have six branches, and three of them have been destroyed. Are you waiting for all of them to grow back?"

The Leafless Tree put on a smile. "Of course not, it will take another thirty years if I want to regrow them."

Han Fei was lost for words. "Thirty years? Just three branches?"

"My main wounds are the destruction of the root rather than that of the branches. I've tried to heal them, but they're not fully recovered."

Han Fei said unconcernedly, "It's fine as long as you can get me out. Hey, Old Shu, will you go to the Scattered Stars Island after you get out?"

Shu Shan shook his head. "Of course not. This is not my age anymore. Why would I run errands for the juniors on the Scattered Stars Island? I'll spend the next few months recovering my strength and familiarizing myself with my battle techniques. After we go out, we can split up."

Han Fei was briefly stunned. "Split up? Not that I'm underestimating you, Old Shu, but your body is just that of a peak-level Hanging Fisher. How far can you go even if you get out? Besides, the sea around the Scattered Stars Island is the sea demons' territory. Are you sure you want to travel alone?"

Shu Shan put on a brilliant smile. "Who do you think I am? I'm Shu Shan! Why do you think those regular Half-Mermen and Half-Mermaids can find me?"

Han Fei snorted. "Fine! That body is yours anyway. You can do whatever you want."

...

Shu Shan picked a place to consolidate himself.

Han Fei hopped to the Leafless Tree and chuckled. "Mr. Tree, is the sap you mentioned ready?"

Shallow green fluid emerged and gathered at a fracture of the Leafless Tree.

A moment later, a ball of sap weighing about two kilograms was formed.

The Leafless Tree seemed even older than before. It said, "You'd better drink it when you strengthen your body."

Han Fei's eyes flashed, and his face became solemn. He was rather shocked by the data in his eyes.

<Name> Immeasurable Sap

<Introduction> This is the amazing sap of the Leafless Tree that contains enormous energy. It can polish bones, flesh and veins, and nurture the soul.

<Level> Heavenly

<Quality> High

<Spiritual Energy> 105,987 points

<Effect> It can be eaten directly to polish bones, flesh and veins. It works well on Hidden Fishers, mildly on Law Enforcers, but doesn't work on Explorers.

<Note> Hanging Fishers should take it with caution.

### **Chapter 805: Leaving the Sea Demon Forest**

Looking at the Immeasurable Sap in front of his eyes, Han Fei guessed that the Leafless Tree must be terrifying if it were outside.

After all, the sap was effective up to the level of a Law Enforcer, and the Hanging Fishers were asked to use it with caution.

Immediately, Han Fei didn't care about many things but simply said to the Leafless Tree, "Mr. Tree, try to recover yourself. I'm going to train."

A moment later...

Inside the jungle of algae, Han Fei looked at his information.

<Owner> Han Fei

<Level> 48 (Advanced Hanging Fisher)

<Spiritual Energy> 1,982,561 (15,452)

<Spiritual Power> 2,192/2,192

<Perception Range> 20,001 Meters

<Spiritual Heritage> Level-Five, High-Quality

<Spiritual Beast> Twin Yin-Yang Spirit Swallowing Fish (level-43)

<Main Art> Void Breaking Technique, Volume Four of Void Fishing (Demon-Level, Divine-Quality)

...

“My perception has had a breakthrough.”

Han Fei was briefly stunned. It was great news that he didn't have to resort to the God Scaring Painting for the breakthrough.

Han Fei realized that the breakthrough was probably because he had absorbed a lot of unowned souls in the 72 demonic realms and used the Soul Splitting Technique many times, thereby completely digesting those souls.

Han Fei looked at Forge the Universe and found 36 level-two Soul Crystals left. Those should be enough. Refining the Soul Crystals was fast anyway. He could absorb them first before the training started.

He grabbed the Soul Crystals and began to meditate with the God Scaring Painting.

*Crack! Crack! Crack!*

One Soul Crystal was melted after another. He absorbed sixteen Soul Crystals in a row and was stuck at the 50th piece on the God Scaring Painting.

“Heh! Let's continue.”

Han Fei had seen it coming. He absorbed ten level-two Soul Crystals in a row. Immediately, he memorized the 51st piece of the God Scaring Painting.

“Huh! The demand for the level-two soul crystals has increased?”

It required three level-two Soul Crystals in the past, and only ten at this moment.

Han Fei spread out his senses and found that the perception range had become 23,001 meters. He frowned. “Huh? There's no change in the perception range?”

Seeing that more Soul Crystals could be absorbed and he had eleven of them left, he absorbed all of them.

A moment later...

“Huh? 24,001 meters and still on the rise? Also, the perception range increased with every piece of the God Scaring Painting that I remember becoming a thousand meters?”

Han Fei put on a bitter smile. The most painful thing was that he could make breakthroughs but ran out of Soul Crystals.

Without Soul Crystals, the only way to expand his perception range was to meditate with the God Scaring Painting or make breakthroughs. But meditation would require too much time that he couldn't afford.

His eyes flashing, he took out about twenty drops of Immeasurable Sap and put half of them into his mouth.

Immediately, Han Fei felt that he was having a fever. Every drop of the Immeasurable Sap exploded in his body, and surging energy vanished into his flesh and veins.

Han Fei's eyes widened. The feeling was as strong as when he absorbed the Candle Dragon Blood.

In particular, the Immeasurable Sap did not just contain enormous amounts of energy, but it was also flowing to his 32 major acupoints.

"Huh?"

Han Fei was shocked for a while. He recognized the 32 major acupoints when he practiced the 108 Desolate God Body. Then, he never trained with it again.

At that time, he simply considered covering his Indestructible Body with the 108 Desolate God Body, and he never practiced it intentionally.

However, he found that the Desolate God Body was behaving abnormally. He remembered that the purpose of the Desolate God Body was to create one major acupoint that would be the only flaw on the body.

Immediately, Han Fei practiced the Desolate God Body by making 108 weird postures in the water.

"No, ten drops aren't enough."

"Twenty drops..."

"Thirty drops..."

...

Three months passed in the blink of an eye.

Shu Shan was completely gone during the three months. He never showed up again.

When Han Fei was sitting cross-legged, the seawater around him seemed twisted. Eight whirlpools were swirling, and a tremendous amount of spiritual energy was entering Han Fei's body.

It took Han Fei three months to set up a Spirit Gathering Array on the ground.

With the torrent of spiritual energy, he had reduced the 32 acupoints to eight. His speed of training was truly terrifying.

"Break!"

*Crack!*

Han Fei suddenly opened his eyes, and spiritual energy surged at him. Abundant spiritual energy in his body was absorbed too.

After a long time, Han Fei rose and spouted a pillar of water that shattered the surrounding seaweed.

"I've made a breakthrough! I thought I had to wait until I deduced the fifth level of Void Fishing."

"My strength and stamina have increased by thirty percent. As expected of a heaven-level, divine-quality technique. If I reduce the acupoints into one, I'll become twenty percent stronger. That would be great."

<Owner> Han Fei

<Level> 49 (Peak-Level Hanging Fisher)

<Spiritual Energy> 1,982,561 (17,512)

<Spiritual Power> 2,308/2,308

<Perception Range> 24,001 Meters

<Spiritual Heritage> Level-Five, High-Quality

<Spiritual Beast> Twin Yin-Yang Spirit Swallowing Fish (level-43)

<Main Art> Void Breaking Technique, Volume Four of Void Fishing (Demon-Level, Divine-Quality)

...

Han Fei was slightly surprised. His hard training in the past three months was quite rewarding. He had made a breakthrough in advance.

Also, he found that the upper limit of his spiritual energy was increased by two thousand points, which was better than any of the previous times.

“Is it because I’ve been whetted enough in all those battles?”

Han Fei couldn’t help but ask, “Mr. Tree, how are you doing? Can we go out now?”

The Leafless Tree’s big face appeared. There was no telling if it was his illusion, but the face seemed slightly younger than before.

The Leafless Tree nodded. “Wait for another three days. I’ll get you out in three days.”

Han Fei nodded. He would’ve postponed for a few days even if the Leafless Tree had proposed to send him out immediately.

He had two more things to do before he went out.

Firstly, he had to deduce the Majestic Mystic Spell.

At this moment, the Majestic Mystic Spell was only demon-level, divine-quality. He never deduced it because he thought a five-time enhancement was good enough.

However, this trip had made him realize that his opponents were getting strong, so he had to grow stronger too.

“Deduce.”

Inside Forge the Universe.

Information popped up in Han Fei’s eyes.

The Overlord’s Technique (Heaven-Level, Mid-Quality)

Note: This is a secret swallowing technique based on observing the Overlord Mystic Tortoise. By sacrificing enormous energy, you can summon the mystic tortoise and multiply your combat ability based on your level.

Current Improvement: Eight Times

Shortcoming: The more it improves, the greater energy it will consume. If it consumes too much energy, the potential of the body will be ruined.

Deduced Art: Unknown

Deduction Cost: 0/30,000,000

He had acquired the Overlord's Technique with a ten-million point cost.

Han Fei's lips curled as it was a really good time. He was confident that even the Sea God's Arrival might not be as good as the Overlord's Technique which granted an eight-times improvement.

However, if he were to use the Overlord's Technique, he would consume a lot of energy.

The Immeasurable Sap that the Leafless Tree offered had been used up. Thinking that the tree was weakened and wounded, Han Fei didn't ask for more.

At this moment, while Shu Shan was hiding somewhere, Han Fei came to the Leafless Tree. "Mr. Tree, tell me more about the vine. Why is it here?"

An old face appeared on the tree. "Last time this treasure trove was opened, human beings and sea demons fought too. A human expert came to help me with that item. It has occupied the core of the terrain up till now. If you want to extract it, this whole place may crush, and the consequences are hard to predict."

Han Fei's eyes flashed. "Oh? Then why did you say that the opportunity hadn't arrived yet?"

The Leafless Tree said gloomily, "I don't think it's full yet."

"It's not full?"

Han Fei looked at the Leafless Tree in shock. "Are you saying that the vine is here for food?"

The tree face raised its eyebrows. "Yes, it feeds on spiritual energy and other kinds of energy. I don't even know if it's good or bad. Because of that, I didn't know whether the human beings were here to help me, or to loot the vine."

His eyes flashing, Han Fei was deep in thought. "Who brought this vine in?"

Pondering for a long time, the Leafless Tree said, "The clone of a man named Han Guanshu. But he did save me last time."

Han Fei's heart palpitated. *Han Guanshu again?*

He felt awful at that time. If Han Guanshu were connected to him... No, the guy was definitely connected to him, because there was a vine at the bottom of the Steps into the Sea too. He had already taken that vine, and this was the second one.

Han Fei asked casually, "Mr. Tree, when do you think it'll be full?"

The Leafless Tree replied, "Maybe in five years, or ten. I'm not sure. It's up to the vine itself."

Han Fei was lost for words. So, he was here already?

Why did Han Guanshu keep the vine in the town? Was it for him? Why? Did the guy know that he would get the Demon Purification Pot?

Han Fei's head was a mess. He knew nothing except that a big secret must be involved. He felt like he was being manipulated.

That was a terrible feeling. Han Fei didn't like that.

Han Fei closed his eyes and tried to move the Demon Purification Pot.

However, the Demon Purification Pot didn't shiver at all. Did it also know that the vine wasn't full yet?

...

Three days passed.

Han Fei was sitting cross-legged in front of the Leafless Tree, when suddenly he opened his eyes and saw a sword coming at a terrifying speed.

His pupils contracted. "What a fast and aggressive sword! Where's Mr. Shu?"

The sword stopped when it was a hundred meters from Han Fei and turned into a person. It was none other than Shu Shan.

Han Fei was stunned. "You've turned into a sword?"

Shu Shan put on a smile. "I'm a sword cultivator in the first place. Isn't it only natural that I can combine with my sword?"

Han Fei was lost for words. Why had he never seen anyone else done that before?

*Crack!*

Before Han Fei and Shu Shan said more, Han Fei saw that another one of the Leafless Tree's branches was broken.

Han Fei asked in shock, "Mr. Tree, what are you doing?"

The Leafless Tree replied, "You take my branch. You can come back here as long as you break the branch within a hundred thousand kilometers from the tree."

Shu Shan said lazily, "I won't come back again. I'd like to see the world out there."

Han Fei looked at the Leafless Tree. "How can I tell when I should come?"

The Leafless Tree's old voice sounded, "You can come any time you want after the first leaf grows on the branch."

Then, a dark portal appeared a hundred meters above, and the Leafless Tree said slowly, "I'll send you to a place one hundred thousand kilometers from the sea demons' entrance."

Shu Shan crawled into the portal and said, "Enough. New world and the Infinite Ocean, I'm coming."

Han Fei looked at the Leafless Tree thoughtfully and left without looking back.

### **Chapter 806: Traveling Alone**

Above the blue ocean, a round hollow appeared out of nowhere, and two men came out one after the other.

The moment they appeared, a red boat was summoned to the sky.

On the boat, Han Fei took a deep breath. "We're finally out. Exhilarating!"

Shu Shan asked in surprise, "Your boat can fly?"

Han Fei said with a smile. "Sort of. You can control boats with floating stones and fly very fast."

Shu Shan nodded. "Give me one."

Han Fei thought that the old man taught him how to enter the Spiritual Sea, so it wasn't a big deal to offer a boat to him.

He only had one Wind God Boat at this moment, but he had a few rather good boats in storage.

Without further ado, Han Fei simply threw a Sea Swallowing Seashell at him. "Mr. Shu, are you really not coming to the human world?"

Shu Shan looked at the sky and said casually, "Now that I've been reborn, I don't want to take part in the war between mankind and sea demons again. It just occurred to me that I've never appreciated this world yet. I'm told that there are dangers and opportunities in the Infinite Ocean. I'll go there and check things out."

Accepting the Sea Swallowing Seashell, Shu Shan chuckled. "You're not a bad kid. Treat the Cosmic Ring well."

Han Fei was stunned for a moment. Then he remembered that the old man gave him a Cosmic Ring after reclaiming the Cosmic Bracelet.

Han Fei turned his hand, and a ring appeared. He couldn't help but ask, "Isn't it just like a Sea Swallowing Seashell?"

Shu Shan said in disdain, "How can you compare a Cosmic Ring to a Sea Swallowing Seashell?"

Shu Shan extended his hand and wiped the Cosmic Ring. Then, the Cosmic Ring turned into a longsword in Han Fei's hand.

Shu Shan said lazily, "Cosmic Rings, also known as Cosmic Swords, are real ultra-quality Divine weapons. This one is a gift for you for saving me. The Cosmic Sword Art inside is also yours. After you claim it, you can hide it and few people can see it. However, I suggest you wait until you become a Hidden Fisher, or it will absorb all of your blood and kill you."

Han Fei was lost for words. Dear god, this was really good stuff!

Han Fei remembered how he claimed Snowmourned earlier and trembled. He would've been drained if he hadn't stored a great amount of spiritual energy or a large number of spiritual fruits.

He touched the ring and said, "Okay, I'll keep it! You're going to the Infinite Ocean?"

Shu Shan waved his hand and a boat appeared and wobbled under his control.

"I can go anywhere I want. After I regain my strength, I'll visit the Infinite Ocean. I didn't visit it in my last life, and I have to do that this time... See you!"

Watching Shu Shan leave, Han Fei had mixed feelings and felt that the old man lived quite a carefree life.

"The Infinite Ocean? I'm going there too someday."

Han Fei instantly calmed down. This place was too close to the Ten Thousand Demon Valley and he might run into sea demons.

Immediately, Han Fei heaved out his boat.

He didn't dash off until he rose to about five thousand meters high in the sky.

...

"Wu..."

After flying for two hours, Han Fei heard a distant and lonely sound from the clouds.

"Huh? The Cloud Whale?"

Han Fei instantly flew towards the source of the sound. A minute later, Han Fei saw a Cloud Whale that craned its head out of the clouds.

Han Fei and the Cloud Whale looked at each other.

"Wu..."

As if it had recognized Han Fei, the Cloud Whale sounded a lot happier. It stuck its belly against Han Fei's boat and then flew back and forth. Then, it leaned its huge head towards Han Fei and winked, with happy airwaves spouting above its head.

Han Fei laughed. "Big guy, we meet again. How can I not offer you any gift?"

After that, Han Fei threw a squid that was more than thirty meters long towards the Cloud Whale.

"Wu..."

The Cloud Whale rolled in the clouds, opened its mouth, and swallowed the squid easily.

Watching the giant squid be swallowed so easily, Han Fei was amused by its good appetite.

After that, Han Fei glimpsed at the Cloud Whale. "What about it? Do you want some more?"

The whale rolled up and down, as if it were giving an affirmative answer.

Han Fei took out another purple lobster that was almost twenty meters long and threw it over.

The Cloud Whale was waiting with its mouth wide open. It bit the lobster after it fell into its mouth.

Hearing the cracks, Han Fei knew that he shouldn't feed more in case the Cloud Whale suffered from indigestion.

Suddenly, Han Fei thought of something: this big guy flew in the sky every day. Did it know a safe place to hide?

Immediately, he asked, "Big guy, do you know a place that has no human beings or sea demons? Can you lead me to a safe place?"

"Wu..."

The Cloud Whale honked and suddenly descended. In the next moment, Han Fei found that his boat had landed on the whale's back.

Han Fei simply put away the boat and sat on the Cloud Whale's back.

He opened his hands and simply let the wind rage at his face. He couldn't have felt more comfortable.

Han Fei remarked, "Big guy, your life is actually quite comfortable."

"Wu..."

The whale flew slower than the boat, but it was quite steady and natural.

It was not until six hours later that the Cloud Whale finally descended.

This was a sea in the middle of nowhere. Han Fei hadn't seen a single human being or sea demon. He didn't know where he had been brought to at all.

Not only were there no human beings or sea demons, but Han Fei found few creatures in the sea too.

After only one moment, the Cloud Whale had dropped a thousand meters.

Han Fei asked, "Big guy, is this the place?"

"Wu..."

Han Fei grinned. It sounded like a yes.

He simply jumped off from the whale's back and shouted, "Don't come down! It's dangerous down here. Just stay in the sky."

"Wu..."

The Cloud Whale turned back and gradually disappeared into the clouds.

*Splash!*

Han Fei crashed into the water and summoned Little Black and Little White.

"Daughter, can you smell sea demons?"

Xiaobai was stunned for a while. It turned around and then winked at Han Fei.

“Seems that there’s none.”

“Daughter, what about human beings? Do you detect any human beings?”

The result was the same.

Han Fei was rather lost for words, wondering what place the Cloud Whale had taken him to.

“Can you tell where Luo Xiaobai is?”

This time, Xiaobai chose a direction with uncertainty.

“Hu!”

Han Fei was slightly relieved. The hesitation meant that Xiaobai wasn’t sure about its instinct, but it still had a rough idea.

So, he was relieved.

It was fine if he knew the direction of his destination. He could just start the deductions if he confirmed that no other creatures were around!

Two hour passed.

The Nine-Tailed Mantis Shrimp, Little Gold, Little Fatty, Little Black and Little White protected him.

Little Fatty was already recovered during the three long months of training. It said to Han Fei the moment it was summoned, “Are you fighting someone again?”

Han Fei yelled at him jokingly, “I’ve fed you to level-40. What more do you want? If I have a chance, I’ll find an Undersea Chimney and get enough Spirit Awakening Fluid for all of you.”

Ignoring them, Han Fei sat cross-legged solemnly.

“Hu!”

He took a long breath, as he had to be baptized by another round of lightning.

After the long breath, he took out a pot and cooked the only Trivariant Golden Ginseng he had left.

A moment later, Han Fei felt that his body was almost exploding, and he had only had one third of the Trivariant Golden Ginseng.

With a thought, the Fateful Holy Grass, the Candle Dragon Blood and the spiritual fruits he looted and bought were all gathered in a certain corner inside Forge the Universe.

“Hu... Deduce.”

Inside Forge the Universe, the spiritual spring was boiling, and the spiritual energy inside was a hundred times denser than in the outside world.

*Boom!*

Thunders rumbled in the blue sky, and clouds were gathering. A strong wind was rising on the surface of the sea too.

Han Fei sat still and activated the Indestructible Body. His spiritual energy was already burning.

A moment later, spiritual energy from all directions gathered.

Gradually, some creatures were attracted to this desolate place.

However, those creatures gradually retreated too. There was no telling what they were scared of, but they dare not come any closer.

When the lightning flashed in the clouds, a heavy storm began.

*Boom!*

A thick lightning bolt hit Han Fei in the blink of an eye.

### **Chapter 807: Someone's Passing a Tribulation?**

Dark clouds had gathered on this far-flung corner of the sea, and a storm was raging.

A lightning dragon seemed to be rolling in the clouds. The wind raised waves hundreds of meters tall that roared and rumbled.

On the surface of the sea, a dazzling orange lightning bolt gradually turned white after it appeared.

"Puchi!"

After a flash, everything on Han Fei's body was shattered into pieces. His hair and eyebrows were gone, his skin was cracking, and he vomited a mouthful of blood.

There were even electricity arcs in the blood he vomited out. Han Fei felt that his blood was freezing.

The lightning strike significantly boosted the cultivation of the Indestructible Body. The vitality in Han Fei's body was crazily surging out. The energy he just swallowed was half consumed for the training of the Indestructible Body quickly.

Han Fei took a deep breath. The ginseng in his mouth that he hadn't chewed yet was shattered during the lightning strike, and a tremendous amount of energy surged into Han Fei's body crazily.

*Boom!*

*Crack!*

Another lightning bolt struck down, and a lot of cracks appeared on Han Fei's skin. He was heavily wounded again.

This time, even more electricity was gathered in Han Fei's body. He could even tell the lightning was spreading in his blood.

However, to his surprise, the seed and the demonic origin in his abdomen were both intact. They seemed to be crazily absorbing the power from the lightning.

Even the Heaven Spirit Detoxifying Insect had shrunk into a ball and remained safe under the protection of the seed and the demonic origin. A hint of blueness disappeared into its body.

Han Fei could still handle it. Seeing that the Heaven Spirit Detoxifying Insect was fine, he was ready to swallow the spiritual fruits that he acquired from the treasure trove after the next couple of lightning strikes.

The spiritual fruits in the treasure trove were twice or even three times as effective as those he bought from the Ten Thousand Demon Valley. So, he could save the Fateful Holy Grass until the last.

*BAM, BAM, BAM...*

...

Because of the mighty lightning strikes, the surging waves that were caused by them raised turmoil elsewhere.

Both the Scattered Stars Island and the Ten Thousand Demon Valley sensed the anomalies in the sea at approximately the same time.

The storm had such a huge coverage that drizzling rain was taking place on the Scattered Stars Island and the Ten Thousand Demon Valley too.

Inside the Transverse Mountain on the Scattered Stars Island, someone looked at the sky. "Something is wrong. This can't be a sea storm, can it?"

Someone remarked in confusion, "It's an abnormal phenomenon, but its source is more than 300,000 kilometers away from the Scattered Stars Island."

Xue Shenqi was frowning in front of a window in the palace too. He looked at the sky, and a mirror in his hand displayed the terrifying clouds and lightning.

"It shows nothing? What's going on there that even the Sky Hanging Mirror cannot see?"

Xue Shenqi said casually, "Someone, come here."

Outside the door, several experts with many stars came in and stood behind Xue Shenqi. "Commander."

"Ask General Mo Chi to go there with two inspectors and three adjudicators. Don't be quick for a fight if something is wrong."

"Yes, Commander."

...

In the Ten Thousand Demon Valley, Blue Feather was standing on the top of the middle head of a three-headed shark. Six of the Eight Wings of Blue Feather were with him.

After a long time, Blue Feather finally said casually, "Qiannian Ying and Hailv Changfeng, you go there and take a look."

"Yes, King Feather."

The expert named Qiannian Ying said after a moment of hesitation, "King Feather, Chixue Huan is better at this kind of task. Are you still not letting him go?"

Three months earlier, when Yu Fei sabotaged the whole plan, Blue Feather burst into fury and threw Chixue Huan into prison. Yu Ji was also unnamed as a Heavenly Talent and thrown to the Blood Sea Valley.

Blue Feather snorted. "I said he'd be tortured in the magma for half a year, he can't get out of there one second early."

Qiannian Ying slightly nodded and disappeared from the sea with Hailv Changfeng.

...

On the other hand, Han Fei's skin was already as dark as coal. His blood was frozen the moment it popped up, and he looked like a piece of cracked china.

"I can't hold on anymore. This is just the 32nd lightning strike. Damn it. I hope that the Fateful Holy Grass can deal with it."

Before the next lightning strike, the glimmering Fateful Holy Grass had been stuffed into Han Fei's mouth.

*Hum!*

Instantly, the cracks on Han Fei's skin disappeared at a visible speed. Han Fei was greatly relieved by the terrifying vitality. It was indeed much more powerful than regular spiritual fruits.

*Boom!*

Two hours passed.

The number of lightning strikes was significantly reduced, and the Fateful Holy Grass had been used up. Han Fei's skin was full of cracks again.

He had drunk half of the Candle Dragon Blood. He felt that he had underestimated the difficulty of the deduction.

If he had deduced it the moment he set sail, he probably would've been mutilated, if not killed.

It was true opportunities were for those who were prepared. The consequences would've been more severe if he didn't have the Fateful Holy Grass or the 108 Desolate God Body.

Han Fei was surrounded by spiritual energy. He knew he had made it! The vitality from the Indestructible Body was repairing his body, and most of the storm clouds in the sky were gone. They probably would all disappear in a minute.

What surprised Han Fei was that none of the sea creatures that intended to attack him dare to approach him after the first lightning strike.

Also, the Nine-Tailed Mantis Shrimp and the others dare not come close either.

Suddenly, Han Fei had a strange feeling, and the Demon Purification Pot shivered. He sensed that danger was coming.

“Little Black, Nine-Tailed Mantis Shrimp... Come back!”

The moment Little Black and the others disappeared into his body, Han Fei felt that he was scanned.

*Hum!*

He vanished in the next second.

A moment later...

A human expert arrived. He frowned and looked at the disappearing clouds, deep in thought.

“Was that a man?”

He was 100% sure that it was a man, but the man didn't impress him as very strong. The man was probably only a new Hidden Fisher.

However, the quick disappearance of the man made him suspicious.

“Was he heavily wounded by the tribulation, and in a weak state? Was it a lightning tribulation?”

A moment later, several more people showed up.

“General Mo Chi, did you find anything?”

Two Law Enforcers looked around and extended their hands, grabbing the blackened pieces of flesh and skin.

They smelled the pieces and asked in surprise, “A human being was passing a tribulation here?”

The experts who followed gasped when they heard that. “Did someone become an Explorer?”

Mo Chi said in relief, “In any case, it's great that he's a human being, not a sea demon. The Scattered Stars Island would be under greater pressure if another like Blue Feather appeared.”

Everybody remarked with surprise and curiosity.

On the other side, an inspector said, “But the tribulation for a Law Enforcer to become an Explorer shouldn't have been so appalling, right? Wasn't it too loud?”

Mo Chi said in amusement, “For those who are talented, the tribulations will be very powerful. But it's fine as long as he's not a hazard to mankind.”

When they were about to return, Mo Chi extended his hand and picked up a massive amount of flesh and skin residue.

In the next moment, Mo Chi sneered. “If you're here, why don't we meet each other?”

After Mo Chi said that, everybody became vigilant.

Two strangers in the water appeared on the surface of the sea. Seeing them, the inspectors and generals instantly fused with their spiritual beasts and summoned their weapons, ready for battle.

Mo Chi narrowed his eyes and looked at them. “Qiannian Ying and Hailv Changfeng? I didn’t expect that the first and third of the Eight Wings of Blue Feather would be both attracted to a mere tribulation.”

“A tribulation?”

Qiannian Ying and Hailv Changfeng secretly gasped. Did human beings have another Explorer?

They scanned the sea, although most of the residue had been picked up by Mo Chi, some traces were still left at the bottom of the sea.

In the next moment, they looked at each other and shouted, “Run!”

Watching them escape, Mo Chi squinted and sneered. “You’re smart enough to run. If the experts were really here, do you think you could get away?”

The Eight Wings of Blue Feather were equal to human Law Enforcers, so the super experts of the Explorer level were terrifying enemies to them.

They even guessed that the expert was simply heavily wounded from the lightning tribulation just now, and that they probably couldn’t escape if the expert were recovered.

Mo Chi looked at the distance and said casually, “Let’s leave him alone. The expert doesn’t want to be recognized by us. Let’s respect his wish and return to report the matter.”

### **Chapter 808: Rapid Increase of Strength**

Han Fei didn’t dare to come out immediately. Whatever alarmed the Demon Purification Pot was not something he could deal with.

Besides, he had just been struck by lightning and he was still heavily wounded. It would take him at least a day to recover.

He didn’t want to go out either. If he stayed in the shelter, he could improve his spiritual heritage and strength.

His own data popped up in his eyes.

<Owner> Han Fei

<Level> 49 (Peak-Level Hanging Fisher)

Spiritual Energy: 4,921,562 (18,862)

<Spiritual Power> 1,502/2,432

<Perception Range> 24,001 Meters

<Spiritual Heritage> Level-Six, Low-Quality

<Spiritual Beast> Twin Yin-Yang Spirit Swallowing Fish (level-43)

<Main Art> Divine Manipulation Technique, Volume Five of Void Fishing (Heaven-Level, Divine-Quality)

...

The breakthrough was much better than Han Fei had anticipated. The upper limit of his spiritual energy was increased by more than three thousand points after only three months. It was a major improvement of his strength.

His spiritual power wasn't increased much, but he was already satisfied. He hadn't become a Hidden Fisher yet, and the breakthroughs couldn't be all significant.

His spiritual heritage finally became level-six, low-quality. There was still one level to go before level seven which was a qualitative change.

An idea occurred to him. He still had the Heritage Dredging Fruit, and since he could improve his spiritual heritage at the cost of spiritual energy, it would be very easy to get a level-seven spiritual heritage.

As for the cultivation art, Han Fei had known that it would be upgraded to heaven-level, divine-quality. It wasn't a surprise at all.

However, why did the Divine Manipulation Technique look like an ability of Luo Xiaobai's Divine Manipulator family?

Han Fei took a quick glance at it, only to discover that the art included a way to make fishing poles.

"Huh? Fishing line?"

According to the descriptions of the Divine Manipulation Technique, it couldn't be practiced unless he created the Void Line with the bloodline of dragons.

"This technique can manipulate multiple creatures without them knowing it? Interesting."

Han Fei mumbled, "Are my fishing poles finally going to be useful?"

However, Han Fei didn't study it immediately. His priority was not to improve his spiritual heritage, consolidate his strength, or cultivate a new technique.

In Han Fei's head, a weird picture popped up.

It was exactly the Spiritual Sea Secret Technique. He was going to enter the Spiritual Sea to strengthen Little White and Little Black.

Shu Shan had mentioned that it was possible to enter the Spiritual Sea after every advancement or unusual breakthrough.

Han Fei lay on the ground. His head was dizzier and dizzier. The weird array of the Spiritual Sea Secret Technique seemed to be working.

In his dizziness, Han Fei shivered and found himself possessing Little White, because he saw that Little Black was having fun.

With a thought, Han Fei transferred to Little Black from Little White. Immediately, he felt the thirst for blood.

According to Shu Shan's explanation, if he ate too many primitive spiritual beasts in the Spiritual Sea, their remaining soul power could become very terrifying.

Last time, Little Black had three level-ups thanks to his eating. Should he have a feast again?

It was very easy for him to become a Hanging Fisher. After the cross-rank breakthrough, he would have another feast opportunity. After the two breakthroughs, it was possible to upgrade Little Black and Little White to level-47 or 48.

"Wait a minute..."

Han Fei was slightly dazed. If he had eaten too much and there was too much soul power left, could he get rid of the concentration of soul power by moving to a different place after every hunt?

Han Fei decided to have a try.

Seeing the primitive spiritual beast of a shark was swimming by, Han Fei thought for a moment and bit it hard.

...

There was no telling how long it had been.

Han Fei had already changed a dozen places. He had completed two level-ups. Little Black and Little White had reached level-45. According to his plan, they would soon reach level-46 after going to another two places.

Han Fei saw that a purple jellyfish was rising.

"Baji!"

He bit it. After he swallowed half of the jellyfish, Han Fei suddenly had a palpation. His consciousness quickly left Little Black in the next second.

In Forge the Universe.

Han Fei suddenly opened his eyes.

He sat up slowly and frowned. "This won't do! I cannot eat all the time even if I move to a different place. The dispersing soul power seems to be chasing Little White and Little Black all the time and could be terrifying if it's gathered to a certain amount. Then, my consciousness will be cut off from Little Black. What will happen after that?"

Han Fei was silent for a long time with a bitter smile. It did make sense. How couldn't such a mysterious place as the Spiritual Sea have loopholes that could let him infinitely level up?

If the idea occurred to him, somebody else must've thought of that too.

If everybody could avoid the rules of the Spiritual Sea, their naturally-endowed spiritual beast could be eating all the time until they couldn't eat anymore.

"It seems that I have to explore the Spiritual Sea in another way!"

Han Fei wasn't too frustrated. After all, he had mastered the secrets of the Spiritual Sea, or his mysterious creatures couldn't have grown as fast.

Although Little Black and Little White were only level-45, Han Fei was certain that they could reach level-46 soon.

"I have to explore it again next time."

After a trip to the Spiritual Sea, Han Fei didn't know how long it had been, but he was still not in a hurry to go out. He had to upgrade his spiritual heritage.

"Upgrade."

Five million points of spiritual energy were instantly gone. Han Fei simply felt that his veins were getting hot. A moment later, his spiritual heritage was improved from level-six, low-quality to level-six, mid-quality.

"Upgrade."

...

A moment later, Han Fei found that his spiritual heritage had become level-six, high-quality.

He took a deep breath and wondered if he was tampering with his fate.

He grabbed the Heritage Dredging Fruit and thought for a moment. He knew that it was so invaluable that ordinary people didn't even have a chance to see it.

Although it wasn't as miraculous as the Heritage Stealing Fruit, it was still an amazing fruit that could improve one's spiritual heritage.

As for the specific amount of increase, he had to find out after eating it.

Without thinking much, Han Fei simply swallowed the fruit.

Immediately, his body trembled, and the spiritual spring in Forge the Universe was surging, producing a great amount of spiritual energy that brushed his body.

The brushing wasn't violent at all. Instead, it was very gentle. Han Fei felt that his veins turned from glimmering to glittering.

"Huh?"

He felt that his veins were itchy, as if some sort of change was happening.

About an hour later, the brilliance was gradually gone. Then, Han Fei was shocked by himself.

He subconsciously opened his mouth. Was it really happening?

He found that the veins all over his body were like crystals, which would've made a perfect piece of artwork if they were extracted.

"Gudu!"

“Are they veins at all?”

Han Fei was stunned for a long time. He quickly looked at his stats after he came back to himself, only to find that his spiritual heritage had become level-seven, low quality.

“Hu! Fortunately, I didn’t have the Heritage Dredging Fruit until I was level-six, high-quality. It’s just one level-up!”

Han Fei thought for a moment and realized that it did make sense. That was a leap from level-six to level-seven. Even the lightning strike of the Void Fishing Art had only improved him by one level.

At this moment, he had one level up with a Heritage Dredging Fruit, which had saved him from a lightning strike. Could he be any luckier?

Han Fei couldn’t help but grin. Starting from this moment, he realized that he had finally become a Heavenly Talent.

“I’ve finally caught up to Tang Ge!”

Han Fei had a lot of mixed feelings. It was truly hard for him to walk to this day with a broken level-one heritage.

Other people had got level-seven spiritual heritages without having to try at all. He, on the other hand, had to improve his heritage through lightning strikes.

Han Fei rose and decided to test his new body. After a huge noise, his foot left a deep pit in the ground.

Han Fei trembled and leaned forward. He tried to balance himself by holding the Big Red Trunk.

However, his inertia pushed him forward.

“Hiss!”

Han Fei gasped hard. What did he see? A deep mark was left on the Big Red Trunk that was as hard as an ultra-quality spiritual weapon?

“Damn...”

Han Fei couldn’t have been more shocked. How much stronger had he become? He couldn’t even be accustomed to his new body?

Three days later, Han Fei had a shocking speculation: his strength might have grown by more than fifty percent.

No! It was wrong to calculate it that way. His punch carried a force of almost five hundred tons at this moment.

About his body hardness, Han Fei cut himself with an ultra-quality spiritual weapon, only to discover that it left nothing but a shallow mark on the body after he used only fifty percent of his strength.

What did the fifty percent of his strength equal? It meant that a full-strength strike of a regular peak-level Hanging Fisher couldn’t likely hurt him with an ultra-quality spiritual weapon.

Han Fei had a lot of complicated feelings. In a way, he was an ultra-quality spiritual weapon himself.

No, he was probably even stronger.

However, that was on the premise that the third layer of the Indestructible Body wasn't broken.

Han Fei had a feeling that if he fully grasped the 108 Desolate God Body and gained the only vulnerable acupoint, and if he made a breakthrough in the third layer of the Indestructible Body, he might become as hard as a Divine weapon.

Han Fei couldn't be more thrilled by the thought of that.

"Body cultivators are truly horrifying!"

### **Chapter 809: Subtleties of a Spiritual Heritage**

After a day, when Han Fei was completely accustomed to his new body, he finally consolidated his cultivation in the new level.

Furthermore, Han Fei even vaguely had a feeling that if he had: learned the way to split spiritual energy, improved his soul, practiced the 108 Desolate God Body, and deduced Void Fishing sooner, he might not have been crushed so badly in the battle against Chun Huangdian.

He even thought that there was a fifty-percent chance for him to block Chun Huangdian's attack in the Hanging Fisher level.

Because Forge the Universe was an independent space, Han Fei had to explore the changes of the level-seven spiritual heritage in the outside world.

Han Fei didn't think that those people were still outside after four days. In any case, after they saw him disappear, they probably guessed that he ran off.

Since he had the Sky Dissecting Finger to protect himself, there shouldn't be a problem.

*Shua!*

Han Fei appeared in the outside world, which was already peaceful again. He looked at the sky and saw few clouds. He sensed a few creatures wandering in the seawater, but there weren't a lot.

In any case, Han Fei didn't stay here. He simply controlled the Wind God Boat to fly for twenty thousand kilometers in the direction that Little White pointed out, before he landed on the surface of the sea.

Han Fei unleashed Little Gold and the Nine-Tailed Mantis Shrimp after he stopped. It was exactly the sunset. Han Fei suddenly realized that it had been a long time since he tried cultivating with Void Fishing during the day.

Seeing the sea underneath his feet and the cold stone in Forge the Universe, he knew that he couldn't be burnt to death even if he was set ablaze. So, there shouldn't be a problem.

Instantly, Han Fei decided to take his chances. He sat cross-legged on the surface of the sea and began training.

The moment he activated Void Fishing, the hottest pillar of light descended from the sky and enshrouded Han Fei.

“Hula!”

The seawater was surging within a thousand-meter radius. Countless sea creatures were gathering in Han Fei’s area as if they had gone crazy.

Almost in the blink of an eye, Han Fei’s hair and eyebrows were set on fire.

The surging spiritual energy above his head shocked Han Fei.

However, to Han Fei’s surprise, the moment he was enshrouded by the scorching pillar of light, he found that he could hold it even though he felt like he was in the middle of an inferno.

One second passed.

Two seconds passed.

Three seconds passed.

Three seconds later, Han Fei stopped training. He found that his skin was destructing and his flesh was torn apart.

Seeing that the fiery pillar was gone, Han Fei grinned.

He found that, now that his body was strong enough, he could resist the scourge of the sunlight and absorb the essence of the sun in the day.

He had the feeling that if he were to use the Indestructible Body during training, he could endure ten seconds or even longer.

At this moment, he finally realized why Ren Tianfen could have returned to his peak with the Indestructible Body after he was destroyed.

The spiritual energy that entered his body was ten times more than what he could’ve acquired from normal training. It was definitely the fastest way to gain strength.

Han Fei even suspected that Ren Tianfen had been doing that ever since he was a fishing master or a grand fishing master.

Feeling the creatures that came to him in the water, Han Fei opened his hands and mumbled, “I have enough energy to perform one Sacrificing Punch. My spiritual energy is refilled instantly. No, I have to try again.”

Han Fei sank into the seawater.

He launched hundreds of golden fist marks and used the Art of Invincibility as if it were costly.

Countless creatures that swam at him were crushed into pieces. Also, he purposefully avoided using his spiritual energy in storage, so that his spiritual energy was consumed quickly.

“Huh? My spiritual energy is flowing very smoothly, and my Art of Invincibility is at least twenty percent more powerful.”

Han Fei didn't return to the surface of the sea until it was enshrouded in blood.

He started training again.

One second passed.

Two seconds passed.

Three seconds passed.

After Han Fei stopped training, he had gained more than twelve thousand points of spiritual energy, which was about sixty percent of the total.

He had more or less enough energy for another battle even though he hadn't regained all of it.

He considered for a moment. “I can get all of my energy back if I can endure five seconds.”

“Heh! No wonder you'll be king of the Unknown Place after you make three consecutive breakthroughs in the Indestructible Body.”

Han Fei had a lot of mixed feelings. When Ren Tianfen said that, he couldn't have expected that Han Fei could already be king of these places!

He was half reinvigorated after only three seconds. If he used the trick appropriately, he would be able to fight infinitely.

Also, Han Fei clearly realized that it wasn't as effective when his spiritual heritage was still of a low level!

“Huh! This must be a benefit of the level-seven spiritual heritage. There must be other benefits. What can they be?”

A moment later, a lot more creatures were attracted to him. This time, Han Fei didn't purposefully waste his spiritual energy, but instead left on his boat.

Han Fei discovered that his natural absorption of spiritual energy during battle was much faster.

At first, Han Fei suspected that it was because of the battle technique he practiced.

However, he found that his recovery ability was greatly enhanced.

Flying slowly for two hours on the Wind God Boat, Han Fei discovered, to his surprise, that he was absorbing as much spiritual energy as he was spending on controlling the boat.

“Hiss!”

“What an amazing recovery speed.”

...

Two days later...

Han Fei found the first Inferior Man-Fish. The moment he saw it, Han Fei knew that he had entered the territory that was under the Scattered Stars Island's influence.

Three days passed.

Han Fei found more Inferior Man-Fish. He landed on the sea and walked to them.

The Inferior Man-Fish certainly wouldn't let Han Fei go after realizing that he was a human.

Although he was much stronger than them, the Inferior Man-Fish couldn't tell exactly how strong he was, so they all charged at him.

*BAM!*

After only one punch, the first Inferior Man-Fish exploded.

When the first Inferior Man-Fish was killed, more Inferior Man-Fish were lured to him.

He killed one of those Inferior Man-Fish after each punch even though they had reached the peak of the Demonization stage.

At this moment, Han Fei concluded the advantages of the level-seven spiritual heritage.

His recovery had been significantly enhanced.

The smoothness of his spiritual energy utilization was increased by twenty percent.

The hardness of his veins were at least fifty percent higher than before.

Because he had been practicing the Indestructible Body and the 108 Desolate God Body, Han Fei wasn't sure if the recovery had anything to do with the spiritual heritage or not.

However, when the spiritual energy filled in, he found that the endurance of his veins was a lot higher, which was why he could regain his spiritual energy so quickly.

All in all, Han Fei found that the advanced spiritual heritage had absolute advantages against the alternative in every aspect.

Watching the Inferior Man-Fish flee in panic, Han Fei didn't go immediately. He picked up a lot of harpoons and wandered on the surface of the sea.

By his estimation, the Inferior Man-Fish could only summon other sea demons at best. Han Fei wanted to know exactly how strong he had become, so he needed frames of reference.

More than two hours later.

A Half-Merman who was at the peak of the Demonization realm and holding a golden harpoon appeared.

Seeing that Han Fei was at the same level as he was, the Half-Merman glanced at his golden harpoon and pointed it at Han Fei. "Human, die!"

*Boom!*

A Sacrificing Punch was launched. To the Half-Merman Heavenly Talent's shock, he had been hit precisely by the fist mark when he activated the Sea King's Secret Technique.

*Clang!*

The Half-Merman's broken body was flung eight hundred meters away without being able to struggle at all.

After he walked back from the void, he saw that Han Fei was suppressing his Semi-Divine weapon magnificently.

The Half-Merman Heavenly Talent didn't dare to recall his weapon at all but ran immediately.

Han Fei didn't stop him. *Just run off and bring back someone stronger!*

As for those Inferior Man-Fish, they had already run far away.

After training for three seconds, Han Fei quickly left the area.

After waiting for two hours, Han Fei finally saw a sea-demon level Half-Merman coming at him with an ultra-quality demonic weapon.

Looking at the guy's weapon, Han Fei chuckled. "Why did you dare to come to me without a Semi-Divine weapon?"

The Half-Merman seemed to be aware of Han Fei's strength. He creaked and gathered a water man a hundred meters high.

"Human, you're just a peak-level Hanging Fisher. How can you be so cocky?"

Han Fei shook his head. "Come on, show me how strong a sea demon expert can be!"

### **Chapter 810: He's From the Sea**

With his head held high, Han Fei took a deep breath. It was the first time he had fought a sea demon expert.

Perhaps, it was suicide to a lot of people.

However, it was extremely easy for Han Fei.

So far, he had always dealt with them by hiding himself and using poison. He didn't have to anymore.

Looking at the enormous water man a hundred meters tall, Han Fei suddenly grinned. "Overlord's Technique."

After his strength was increased by eight times, Han Fei launched a streak of dazzling brilliance towards the enemy. During that moment, he forgot all his frustrations in the past.

In his head, the pictures of invincibility automatically showed up.

*Boom!*

After one punch, he gained lesser mastery on the Art of Invincibility.

The terrifying water man was crushed into pieces by Han Fei's punch.

Han Fei mumbled in a void that only he could hear, "This is what power feels like!"

On this day, a wave of a hundred meters high was raised by someone who wasn't a Hidden Fisher for the first time.

On this day, noise spread a hundred kilometers away from someone who wasn't a Hidden Fisher for the first time.

On this day, Han Fei walked out of the sea covered in blood with a disfigured sea demon expert in his hands, roaring.

...

Half a month passed.

On the Scattered Stars Island.

At the Skeleton Shore, the Eighth Battalion was having barbecue.

Gu Daliang was enjoying a tank of liquor while having a lobster. He spoke to his new teammate, "Earlier, my captain used to eat like this. I didn't know where he found all these bizarre spiritual fruits. In particular, there's a thing named pepper that tastes very good."

The new teammate asked nervously, "Are you referring to Han Fei? The one who hurt the dark hunters and set sail without permission?"

Gu Daliang replied innocently, "Who else could it be? It's a shame that he isn't here, or the Eighth Battalion would have the best equipment."

"Daliang, Sister Lingyun has been officially promoted as a major captain!"

Wu Xiaoxiao hopped in delight and grabbed Gu Daliang. "Let's go celebrate! We'll call Leng Hui too. I heard that he caught an exotic creature two days earlier. Let's fool him into eating that."

Gu Daliang was instantly dazed. "Is it really appropriate to eat exotic creatures?"

Wu Xiaoxiao said cutely, "It's not like we never had them before. He's a deputy commander right now. What's wrong with having an exotic creature? Besides, we had everything when the captain was here, right?"

"Wu Xiaoxiao, you're already a captain. Why are you still acting like a little girl?"

Someone scolded her.

Instantly, everybody stopped laughing.

Many people stood straight and greeted her. "Major Captain."

"Major Captain, have some of the food."

"Congratulations on winning four stars, Major Captain."

“Congratulations, Sister Lingyun.”

Wu Xiaoxiao puffed out her cheeks and grabbed You Lingyun’s arm. “Sister Lingyun, Leng Hui is so cold. He never visits us or calls us to have the exotic creatures he catches.”

You Lingyun snorted and said, “Do you know anything else except eating? It’s all because of the former captain.”

Suddenly, a cold voice came from dozens of meters away, and an expressionless slim man slowly walked out of the shadows.

The man indifferently threw out a purple-and-red lobster and said, “It’s here.”

Wu Xiaoxiao’s eyes glittered. “Leng Hui? You’re back? You’ve never returned since you became a deputy commander.”

Leng Hui said casually, “My job isn’t easy. Recently, the sea demons are causing trouble again.”

You Lingyun frowned. “Why are they here again? The last major battle was three months ago. Do we have to start another war already?”

Leng Hui shook his head. “It’s not a war but a limited battle. The sea demons are imposing pressure on the Scattered Stars Island.”

Wu Xiaoxiao asked in surprise, “Imposing pressure? Why?”

Leng Hui said casually, “It’s said that a mysterious expert appeared on the sea recently. He has killed fifteen Half-Merman experts and countless regular Half-Mermen and Inferior Man-Fish.”

You Lingyun frowned. “Aren’t the fights between human beings and sea demons common? Is it worth imposing pressure on us?”

Leng Hui said in a low voice, “It’s said that he kills one sea-demon level expert every day. It’s been fifteen days and he’s killed fifteen of them. The sea demons suspect that we deployed an unknown expert. After all, it takes time for a sea-demon level expert to grow up.”

“Hiss!”

Everybody gasped hard.

Wu Xiaoxiao asked in shock, “What? He killed one of them every day? They’re all experts equal to Hidden Fishers!”

Gu Daliang was so shocked that he dropped the half lobster in his mouth. After a long time, he finally remarked, “What a brutal guy.”

You Lingyun said with a bitter smile, “Why does such an expert not listen to the Scattered Stars Island’s command? Let’s not start a war against the sea demons again. In the last war, the Eighth Battalion... Sigh...”

...

A moment later, the four of them were cooking an exotic lobster while hiding in the back of the mountain.

Wu Xiaoxiao thought for a moment. "I do wonder what's going on with our captain."

You Lingyun recalled Han Fei's lazy look and put on a smile. Then, she heaved a sigh. "It's almost been a year. Last time, I ran into his former teammates at the Logistics Division. They didn't look well when I asked them about him."

Gu Daliang heaved a long sigh. "I can't imagine how hard life would be for a man as lazy as our captain to set sail on the sea."

What they left unsaid was that an intermediate Hanging Fisher was unlikely to survive for such a long time.

"Do you really wish me to die so badly?"

All of a sudden, a casual voice came from their back.

"You Lingyun, Wu Xiaoxiao, Gu Daliang and Leng Hui... It's been a while."

It rumbled in their head like a thunder.

You Lingyun and the others all stood up in shock.

Wu Xiaoxiao covered her mouth.

Gu Daliang's eyes were widened. "C-C-Captain?"

You Lingyun's mouth was widened. "Y-You're back?"

Han Fei put on a smile. "I didn't want to come here, but I need some help and I know the way around here the best."

Wu Xiaoxiao exclaimed, "Captain, y-you're not dead?"

Han Fei rolled his eyes at her. "Who are you talking to if I'm dead?"

Leng Hui stared at Han Fei's waste. "Captain, your waist tag is gone."

They finally noticed that Han Fei had lost his waist tag, which meant that he would be spotted in the city.

Han Fei said casually, "It's broken!"

Gu Daliang said, "Captain, you must consider carefully before you reappear. If you just show up, the Scattered Stars Prison will be after you."

Han Fei chuckled. "Daliang, you're just as innocent as before. They'll be after me whenever I show up. I'm here exactly to ask for your help on that."

You Lingyun slightly narrowed his eyes. "What help?"

Han Fei put on a smile. "Inform Le Renkuang at the Logistics Division that I'm back."

You Lingyun thought for a moment and realized that it was simple. She also knew why Han Fei asked her to do that.

Without the waist tag, Han Fei would be asked wherever he went.

Han Fei knew that the Command Center where Zhang Xuanyu and Luo Xiaobai were stationed was not easily accessible to everyone.

The Logistics Division was the only place that had frequent visitors. None would raise suspicion for going there. They would never be suspected for assisting Han Fei later.

You Lingyun nodded solemnly, "Okay, I'm on it!"

Han Fei raised his hands and stopped You Lingyun. "No rush. Let's have dinner first. I've barely had any tasteful food on the sea."

A moment later...

Wu Xiaoxiao sat next to Han Fei and watched him throw four seasonings into the pot. She instantly threw out a series of questions.

"Captain, did you find the girl?"

"Captain, did you spend all the time on the sea?"

"Captain, if you were always on the sea, why did nobody know you?"

"Captain, is it dangerous on the sea?"

"Captain..."

Han Fei felt a strong headache as he listened to all the questions. He glared at Wu Xiaoxiao. "If you don't stop croaking, I'll throw you into the sea."

Wu Xiaoxiao stuck out her tongue. Her captain was just as brutal as before.

Leng Hui had been frowning silently the whole time. Finally, he said, "Captain, why do you emit such intent demonic Qi?"

You Lingyun had noticed that too, but she chose to trust Han Fei and didn't ask.

Han Fei's lips curled. "Are you suspecting that I'm a spy for the sea demons?"

Han Fei waved his hand and threw out the remains of a Half-Merman. Instantly, a strong wave of demonic Qi spurted out. In the next moment, Han Fei waved his hand and took it back.

Han Fei shrugged. "Don't worry! I have fifteen more of those left."

"Hiss!"

They were all shocked. Leng Hui, in particular, asked in a shivering voice, "Fifteen? You're the mysterious expert that's been hunting the Half-Mermen?"

The lobster head that Gu Daliang was holding dropped to the ground.

Wu Xiaoxiao and You Lingyun looked at Han Fei in shock.

Han Fei scratched his head. "Well, how did you know that?"

"Gudu!"

While everybody swallowed, Han Fei rose and said, "I don't want to owe you anything. Since I ate half of that lobster, I'll give you something in return."

*Boom! Boom! Boom! Boom!*

Four gigantic creatures ranging from twenty to thirty meters long fell to the ground.

Gu Daliang's eyes were widened. "They're all exotic."

Wu Xiaoxiao gasped. "They're so big. I've never seen anything like that before."

However, when they raised their heads again, Han Fei had already disappeared from the dark wood.
