

GOF 881

Chapter 881: The Dead Body Inside the Undersea Chimney

“Damn it!”

The earthquake in a range of almost two thousand kilometers couldn't have been unnoticed. If anyone noticed it, it was only a matter of time that someone would find the Undersea Chimney.

Earlier, when the Undersea Chimney appeared individually, such crazy competitions never happened. When human beings learned it in advance, they sometimes even sent Hanging Fishers to fight for it.

Of course, those Hanging Fishers were backed by bigshots.

However, seven Undersea Chimneys had appeared at the same time. Han Fei wasn't sure whether or not this was the eighth one. In any case, he was the only human being around, and the Spirit Awakening Fluid certainly belonged to him.

Han Fei didn't know how much Spirit Awakening Fluid there was in the Undersea Chimney, but he thought there would be at least a hundred thousand kilograms.

Before, Xia Xiaochan had looted more than twenty thousand kilograms, and the Sea Spirit carried more than thirty thousand kilograms too.

As long as he looted a hundred thousand kilograms, plus the thirty-five thousand kilograms he looted, he could share them with the Nine-Tailed Mantis Shrimp and the others, and his strength would significantly rise.

With the best spiritual fruits in his mouth, Han Fei put on the Feather Suit of Wind and prepared the Golden Seal. He was ready to blow it up if it was truly necessary.

Sensing that other creatures were coming to him from his back, Han Fei calmed himself down and gritted his teeth. “Let's do this.”

The Overlord took action first and struck a hole in the hill with Snowmourne.

“Fuse.”

When the Overlord succeeded, Han Fei's Infinity Water drill followed it closely with Little Black and Little White. Han Fei chewed the spiritual fruit, bit the peppermint, and drilled through the hill.

Shua!

Han Fei flashed into the space inside the hill.

The immense sense of crisis prompted Han Fei to dash randomly inside the hill.

Han Fei couldn't be more panicked. He didn't know if he had entered the Spirit Awakening Fluid. He thought quickly.

“Collect, collect, collect...”

When he spread out his senses, he saw that the Overlord had been flung out of the hill by something, with a huge dent in its abdomen.

“Seriously?”

When Han Fei saw clearly what it was, he was stunned for a moment. Was that a human? Why was there a human in the Undersea Chimney?

“Wait, no, it’s not a human, but a body...”

Han Fei couldn’t have felt worse. At that moment, the guy seemed to be slapping him.

“Nine Mansions...”

BAM!

Han Fei had already started flashing, but he was still one step slower and smashed to the bottom of the cave.

He also tried to clutch the target with the Void Lines, but the Void Lines were too slow by comparison.

Clash!

“Huh? The Spirit Awakening Fluid?”

Blood flowed on his lips. Then, he discovered, to his surprise, that the Spirit Awakening Fluid with a depth of fifty meters was at the bottom of the cave.

Also, the depth would only grow larger as the hill rose higher.

Instantly, Han Fei got a number in his head. Judging from the volume, there were almost a thousand tons of Spirit Awakening Fluid here.

Han Fei’s heart almost shivered when he realized that he had found so much Spirit Awakening Fluid.

“Let me collect it all...”

Han Fei felt like he was losing his mind.

His first thought was that the trip would be worth it as long as he could gather a hundred thousand kilograms, but there turned out to be a million. Also, he discovered several holes from which more Spirit Awakening Fluid was flowing out.

BAM!

It was Han Fei’s first reaction when he was hit to the ground. Then, the dead body came straight at him.

Shua!

Han Fei only had the time to collect some of the Spirit Awakening Fluid, before he had to run.

“Collect!”

After flashing away, Han Fei could only think of one thing when the dead body came at him again.

“Damn it, it’s so fast! Are you kidding me?”

Shua!

Han Fei flashed again and activated the Law of Gravity. Naturally, the dead body did not see it coming. It staggered and gave Han Fei a chance.

Han Fei moved quickly and left dozens of clones in the cave.

“Collect!”

“Collect!”

“Collect!”

However, in only one second, the dead body was already used to the Law of Gravity.

Han Fei’s eyes almost popped out. *I’m using the Overlord’s Technique and you’ve adapted to the new gravity in one second?*

However, Han Fei wasn’t panicked at all, because he found that the dead body had been slowed by half.

Yes! I was frightened. I thought it wasn’t affected at all...

At this moment, Han Fei finally realized how useful the Phantom Glass Wings were! Although the flashes cost a lot of spiritual energy, he had an infinite amount of spiritual energy!

Han Fei sneered. “You think that’s all the Law of Gravity can do? How about some irregular gravity!”

If the enemy were alive rather than a dead body, Han Fei might have been heavily wounded the moment he came in.

However, it seemed to be fighting with natural instincts, which gave Han Fei a great chance... He changed the gravity irregularly and caused gravity waves, ready to see how the dead body could react.

As he expected, when the gravity changed, the dead body became unstable and could barely stand straight.

Han Fei seized the chance to clutch the target with the Void Lines, only to discover that it didn’t have a soul.

Han Fei: “???”

Never mind, he might as well collect the Spirit Awakening Fluid first.

At the same time, the Overlord crawled back. Han Fei was rather regretful to see the huge hole in it.

Of course, it wasn’t the time to feel sorry for the Overlord yet. Han Fei absorbed the Spirit Awakening Fluid crazily. There was so much of it that he couldn’t collect all of it at once.

“Two hundred thousand kilograms!”

“Three hundred thousand kilograms!”

“Half a million kilograms!”

When Han Fei was about to absorb all the Spirit Awakening Fluid on the ground, he heard a huge noise. A terrifying pressure had arrived and broken the Law of Gravity.

Pu!

Han Fei vomited blood. There was no telling whether the dead body went on a rampage or anything, but the horrifying pressure knocked Han Fei away.

Damn it! There's still another two hundred thousand kilograms that I haven't collected yet!

Instantly, Han Fei dashed out to the top of the hill.

Damn it, what kind of corpse is this? How can a corpse be so strong? Also, no information was given by the Demon Purification Pot, which means that it's not an undead creature.

Han Fei's plan was to blow through the hill and let in the abundant creatures outside.

He realized why so many creatures had gathered here but never broken into the Undersea Chimney. Their intuitions told them that the place was dangerous. No matter how great the stuff here was, they wouldn't get to enjoy it if they were killed.

"Sacrificing Punch!"

Boom!

A terrifying fist mark rose to the sky and blew up the top of the peak.

Han Fei felt that his back was cold. He subconsciously flashed out. However, he was still touched by the corpse. He rolled a thousand meters to the bottom of the sea, feeling that all his bones were crushed.

That was the first time that Han Fei was unable to react when he applied the Yin-Yang Divine Eyes!

Too fast! This thing is too fast!

In his senses, Han Fei detected that some Sea Spirits and Law Enforcers were flying close.

These Sea Spirits and Law Enforcers were stunned. Why was a human being here?

The Law Enforcers looked at each other in bewilderment. "The Phantom Glass Wings?"

Everybody on the Scattered Stars Island knew that Han Fei had Phantom Glass Wings. He was the only one who acquired the Wind God Pearl in the past sixty years.

As long as they confirmed that it was a human being and his wings looked like glittering glass, who else could it have been if not Han Fei?

"Ho! Human, that's outrageous! Did you send someone to compete for the Spirit Awakening Fluid in advance?"

Some Sea Spirits charged straight at Han Fei.

A human expert took action and blocked the attack. "You think that sea demons can attack any human Heavenly Talent?"

Vomiting blood at the bottom of the sea, Han Fei opened a fish skin array, and dazzling light burst out. An array that blocked senses was activated too.

The two arrays were destroyed in the blink of an eye, but to everybody's surprise, Han Fei was already gone.

The sea demons were as surprised as the human Law Enforcers. He was gone? How could it be so simple? He disappeared with just an array?

A sea demon roared, "Wait, he cannot disappear so easily. Find him right now!"

Both the Law Enforcers and the Sea Spirits had taken many subordinates, who were all at a loss, without the vaguest clue where they could find Han Fei.

Hum!

As it happened, the corpse was standing at the entrance of the Undersea Chimney and searching for the enemy.

Both the human and the sea demon experts were attracted to the corpse.

As for Han Fei, it was hiding in Little Black's mouth and fleeing crazily in the middle of the regular sea creatures.

Even though more Spirit Awakening Fluid was popping up from the bottom of the cave, there was no way that he could get it. Even if he snuck into the cave with Little Black, he probably couldn't come out.

Never mind. I should escape now.

This time, I'll let Little Black and Little White surpass level-50, no, level-60... Let's see if anyone can find me by then.

Han Fei felt as nervous and uneasy as a child. Too many people had scanned him countless times.

Han Fei was almost certain that if there weren't so many fleeing sea creatures, Little Black would've been spotted a long time ago.

Han Fei didn't crawl out of Little Black's mouth until it swam a thousand kilometers in the sea.

With a thought, Han Fei entered Forge the Universe.

Chapter 882: Drank Too Much

In Forge the Universe, Han Fei first threw himself a Divine Healing Technique, and then lay directly on the ground, spread-eagle.

He had decided that at least before Agility of Wind could be used again, he wouldn't leave Forge the Universe.

Han Fei couldn't help but wonder what level that corpse had reached! *The body obviously belongs to a human! Why does he appear in the Undersea Chimney?*

As for the entrance to the underground city, there was nothing at all. Is the hole of the Spirit Awakening Fluid spring the entrance to the underground city?

Han Fei immediately shook his head. *The hole is so small. If I try to get into that hole, I will probably be killed by the horrible corpse.*

No matter what, when I go back, I will ask Old Jiang about it. Maybe Jiang Qin has discovered the real entrance to the underground city?

But if Jiang Qin found the entrance to the underground city, would she go in immediately?

No! She doesn't have a Sea Token. Even if a Sea Token is not the key, it is impossible for her to go in alone... I have to take the opportunity to improve my strength.

As Han Fei was thinking, four big pits appeared in Forge the Universe, each of which was filled with 100,000 kilograms of Spirit Awakening Fluid by Han Fei.

With a flash of light between his eyebrows, Little Black, Little White, Nine Tails, Little Fatty, and Little Gold all came out.

Han Fei said directly, "One pit for each of you. There is plenty of Spirit Awakening Fluid here. Drink it all! Don't come out of the pit until you drink it up."

Before he finished speaking, Nine Tails and Little Gold had already got into their pit.

Little Fatty looked at Han Fei in surprise and got into the pit like Little Black and Little White.

Han Fei didn't take the Spirit Awakening Fluid immediately. He was touched by the corpse, and now his internal organs were still tumbling! Now, he would have to heal himself first.

After about half an hour, Han Fei also opened a pit for himself, which was also filled with 100,000 kilograms of Spirit Awakening Fluid. He prepared to drink it until he was full this time.

"Gulp, Gulp..."

He didn't know how long he had drunk. He wanted to drink faster, but his mouth was just so big!

Now, in the other pits, there were already 10,000 kilograms of Spirit Awakening Fluid less.

The Hexagon Starfish used more than 20,000 kilograms of Spirit Awakening Fluid to upgrade by three levels. Now it seemed that it was almost the same for the other beasts! At this moment, they had all upgraded by at least one level.

Han Fei hadn't upgraded yet, so he still had to drink for a while more.

When Han Fei drank about 3,000 kilograms of Spirit Awakening Fluid, he felt that his strength had increased drastically, and he should have reached level-53.

After more than two hours, Han Fei swallowed another 8,000 kilograms of Spirit Awakening Fluid and then reached a small bottleneck.

At the moment when this bottleneck appeared, Han Fei jumped out of the pit. From the spiritual spring pit not far away, a large amount of spiritual energy rushed into his body.

Huh? I've just had a small breakthrough. Why is the change so drastic?

At this moment, Han Fei felt that his bones were a little numb, and his flesh and blood were solidifying. The meridians that were originally crystal-clear turned slightly golden.

“Huh!”

Even a small breakthrough for a Hidden Fisher is not simple.

Han Fei discovered that there was some power transforming his body.

After about an hour, Han Fei was surprised to find that his strength had increased greatly.

When he had just become a Hidden Fisher, his strength was over 2 million kilograms. Then, in the subsequent cultivation and battles, he stabilized his realm, making his strength exceed 2.5 million kilograms, even close to 3 million.

However, after he broke through from a junior Hidden Fisher to an intermediate one, his strength was above 4 million kilograms.

And he was only level-54!

Han Fei secretly swallowed. If he kept this terrifying growth rate, before he became a peak-level Hidden Fisher, his pure strength could be close to 10 million kilograms.

And Han Fei also knew, even if an ordinary Hidden Fisher cultivated to their peak level, his strength should be only about 5 million kilograms. Only when he became a Law Enforcer, would his strength reach 10 million kilograms.

Even a Heavenly Talent who had already become a peak-level Hidden Fisher wouldn't have that kind of strength.

Of course, there were exceptions! In Han Fei's mind, Tang Ge, Cao Tian, and Chen Aochen were among the exceptions.

“Um! Whatever, I'll upgrade first.”

When Han Fei jumped into the pit again, he was surprised to find that even Little Fatty, which grew the slowest, had reached level-43. And Little Gold and Nine Tails had upgraded by three levels in a row.

Of course, they had consumed a lot of Spirit Awakening Fluid. Within the last three hours, they had exceeded 100,000 kilograms.

Three more hours later.

Han Fei swallowed another 10,000 kilograms of Spirit Awakening Fluid but hadn't even reached level-55.

After drinking another 13,000, he finally reached level-55.

Han Fei took a breath. The consumption of Spirit Awakening Fluid was increasing every time he upgraded.

...

For the transition from level-55 to 56, Han Fei used more than 18,000 kilograms of Spirit Awakening Fluid.

At level-56, however, Han Fei had already swallowed 25,000 kilograms of Spirit Awakening Fluid, but hadn't upgraded.

After swallowing another 3,000, Han Fei found that his upper limit of spiritual energy no longer increased. However, he still hadn't made a breakthrough. Now, he was stuck in the realm of an intermediate Hidden Fisher.

Huh? Why am I stuck here? It seems that the Spirit Awakening Fluid is not omnipotent!

After more than a day, Han Fei found that he had consumed 70,000 kilograms of Spirit Awakening Fluid but only reached the realm of an intermediate Hidden Fisher. This made him a little embarrassed!

Heh! It seems that there is no such simple thing in the world. Perhaps I can no longer upgrade with the help of Spirit Awakening Fluid?

No, no, it works even on a Law Enforcer, although it's not that effective. It seems to be my own problem.

BAM!

Han Fei jumped out of the pit and knelt directly on the ground.

Han Fei: "???"

Oh, my strength has increased a lot!

Adapting to it for half an hour, Han Fei finally discovered the problem.

His current pure strength had more than doubled before taking the Spirit Awakening Fluid, reaching more than 6 million kilograms.

However, this didn't make sense!

When he was level-52, his strength was close to 3 million kilograms. How could it be only 6 million kilograms when he was level-56?

In terms of strength growth, he was definitely not the strongest.

Could it be... I haven't digested it completely yet?

Han Fei thought this could be the answer. He smiled in spite of himself... It seemed that he would have to figure out a way to completely digest the Spirit Awakening Fluid.

He checked his data.

<Owner> Han Fei

Level: 56 (intermediate Hidden Fisher)

Spiritual energy: 4,325,681 (36,999)

Spiritual power: 3,562/3,562

Perception: 34,999 meters

Spirit heritage: Level-Seven, Low-Quality

<Spiritual Beast> Twin Yin-Yang Spirit Swallowing Fish (level-49)

<Main Art> Level five of Void Fishing, Divine Manipulation Technique (Heaven-Level, Divine-Quality)

...

Han Fei was dumbfounded. His upper limit of spiritual energy was raised a lot, by more than 10,000 points?

This number far exceeded Han Fei's expectations. He realized immediately that the increase of a junior Hidden Fisher's upper limit of spiritual energy was different from that of an intermediate Hidden Gisher.

No wonder, my strength hasn't really improved too much! My body hasn't become that strong. It turns out that my body can't keep up with my realm.

Han Fei couldn't help laughing as he breathed a sigh of relief.

As for the growth of spiritual power and perception, it was expected. After all, he had made breakthroughs.

And Little Black and Little White had reached level-49, which was a great improvement.

However, when Han Fei looked at their pits, he found that there were still 20,000 kilograms of Spirit Awakening Fluid left in Nine Tails' pit, a few thousand in the other pits, but nothing left in Little Black's pit.

"Wow! Is the consumption too much?"

"Gulp!"

Han Fei swallowed. Little Black and Little White had consumed a lot of Spirit Awakening Fluid, which was reasonable. After all, he alone had used 70,000 kilograms of Spirit Awakening Fluid, not to mention these legendary and mysterious creatures...

But why didn't Nine Tails finish it all?

Is it because he drank so much that his body couldn't keep up with his realm just like me?

He blinked and the information of his beasts also appeared.

Nine Tails, Level-47.

Little Gold, Level-46.

Little Fatty, Level-46.

Little Black and Little White, level-49.

From the data alone, it wasn't obvious. But it could be seen from the consumption that although Nine Tails was also a legendary creature, his aptitude was not as good as Little Gold and Little Fatty's.

Little Fatty only reached level-46, which showed that his aptitude was stronger.

But then why did the Hexagon Starfish upgrade by three levels with only 20,000 kilograms? Maybe that was because the Hexagon Starfish was of a low level back then. He would definitely consume a lot more in the future.

As for Little Black and Little White, Han Fei didn't think there was any problem. He suspected that the Spirit Awakening Fluid was not enough, which caused the two little guys to fail to reach a higher level.

Han Fei kept Little Black and Little White and took back the other three.

Han Fei said, "Girl, go drink the remaining 20,000 kilograms from Nine Tails and the 30,000 on my side."

Hearing his words, Little White plunged into the Spirit Awakening Fluid Liquid and began to gulp it.

Han Fei couldn't help but sigh. Although he had improved a lot this time, the Spirit Awakening Fluid Liquid had been greatly consumed.

Looking at the remaining Spirit Awakening Fluid, Han Fei couldn't help worrying... It was not enough!

He had thought that 100,000 kilograms of Spirit Awakening Fluid was already enough! Now it turned out that this amount was far from enough!

Seeing Little White was still drinking, Han Fei sat cross-legged. In front of him were 100 level-two soul crystals. He was going to take this chance to improve his soul power.

Chapter 883: Fighting Sea Demons in the Sunset

The cultivation of the God Scaring Painting had always been Han Fei's shortcoming, but he could do nothing about it.

Unlike strength, there were many ways to increase soul power.

If you wanted to strengthen your soul power, you could spend time memorizing the God Scaring Painting, digest Soul Crystals, or take the ownerless souls. Fortunately, Han Fei now had the Void Lines. However, the soul power captured by the Void Lines was not much.

And memorizing the God Scaring Painting would take too much time!

As for ownerless souls, it was very difficult to encounter. So only swallowing the Soul Crystals was the best way to increase soul power.

Swallowing a large number of Soul Crystals could also increase spiritual power.

At this moment, Han Fei looked at his information, pondering.

<Owner> Han Fei

Level: 56 (intermediate Hidden Fisher)

Spiritual energy: 4,325,681 (36,999)

Spiritual power: 3,999/3,999

Perception: 44,999 meters

Spiritual heritage: Level-Seven, Low-Quality

<Spiritual Beast> Twin Yin-Yang Spirit Swallowing Fish (level-49)

<Main Art> Level five of Void Fishing, Divine Manipulation Technique (Heaven-Level, Divine-Quality)

...

Han Fei was confused. It seemed that his current soul power had reached a bottleneck again.

He had absorbed all the 100 level-two Soul Crystals and memorized the 70th piece of the God Scaring Painting. Although it was still less than one-tenth, the increase in his range of perception was definitely not small.

Han Fei believed that most people couldn't achieve the range of perception of more than 80 kilometers.

However, judging from the information, he seemed to be in a great bottleneck. Whether it was the upper limit of spiritual energy, spiritual power, or perception range, they were all stuck in a bottleneck.

This was the price of a rapid increase in strength!

To completely break through the bottleneck, it might take him a lot of time.

Well! That's enough. I'm fast enough, just a bit slower than Jiuyin Ling, but my combat power is strong!

Han Fei found an excuse for himself. At this time, he suddenly discovered that Little White had finished drinking the 20,000 kilograms of Spirit Awakening Fluid left by Nine Tails and one-third of the 30,000 kilogram of Spirit Awakening Fluid left on his side, and then stopped drinking.

At this moment, there was still 350,000 kilograms of Spirit Awakening Fluid left, and Little White was still at level-49.

"Oh! Girl, are you stuck too?"

Han Fei was speechless. The road of cultivation would only become more and more difficult.

Even if the resources were sufficient, it took time to digest and absorb these powers.

Putting away Little Black and Little White, Han Fei appeared above the sea.

At this moment.

The sun was half set, and the huge sun seemed to rise and fall in the waves, like a beautiful picture.

Two days had passed since he entered Forge the Universe.

And the Undersea Chimney, before it emerged from the surface, had almost been emptied by him.

However, Han Fei still controlled the Wind God Boat to fly over to take a look.

After Han Fei arrived, he found a large number of insects of various kinds devouring the mutilated corpses of some marine creatures.

Most of the corpses had now become bones. As for the Undersea Chimney, half of the hill had been cut off and it seemed that there was a great battle here.

Han Fei's perception swept over and he found that the entrance to the Undersea Chimney had disappeared, and only ruins remained.

No one is here. Should I go back to the Scattered Stars Island?

Han Fei was hesitating. Coincidentally, this time he came across several Law Enforcers. They must have recognized him.

As long as they could recognize the Phantom Glass Wing, they would recognize him.

So they must have known that he robbed the Undersea Chimney. It was said that his Senior Brother and Senior Sister weren't allowed to return to the island just because they robbed an Undersea Chimney. Wang Dashuai was also grounded for the same reason.

"Well, let me take a look around now."

Han Fei was flying above the sky and spotted Inferior Man-Fish and Red Demons appearing on the sea from time to time.

Besides, these sea demons always appeared in groups. It seemed the battle at the Scattered Stars Island was not over yet.

At this moment, Han Fei sensed that more than 80 kilometers away, a group of more than 20 Half-Mermen led more than 50 Red Demons and more than 100 Inferior Man-Fish, heading for the Scattered Stars Island.

There are a lot of them! Shall I attack them? Han Fei wondered.

Han Fei thought about it. Anyway, he urgently needed to quickly digest the strength in his body with a lot of combat and practice.

Yes, Han Fei didn't know where the Spirit Awakening Fluid he drank went!

However, he knew that he could digest what he drank with actual combat.

Thus, Han Fei manipulated the Wind God Boat to swish over, leaving a red flash of light on the sea.

BAM!

Han Fei stood on the sea, holding a kitchen knife in his hand. "Hey, where are you going?"

These sea demons were taken aback by the sudden appearance of Han Fei.

In an instant, they all looked vigilant, thinking that humans had come after them... The Half-mermen's perception swept frantically across the surrounding waters, to check if there was an ambush.

Han Fei grinned and said, "Don't bother to search around. It's just me."

Han Fei had already sensed that among these sea demons, only 2 were of the peak-level, 5 advanced, seven or eight intermediate... And the rest were nothing.

The really tough ones were the two captains and a Heavenly Talent. These three had golden battle suits. If he guessed right, the two captain-level powerhouses could use the secret method of Sea God Descends.

This was different from the situation in the demonic forest channel! The strength of these peak-level sea demons would be equal to that of Law Enforcers if they activated Sea God Descends.

He was able to kill the one on the east coast before because he didn't give that sea demon the time to activate the secret method and he used the Void Lines to stop him from using his Immortal Seal.

At this moment, the two captains exchanged a glance with each other and sneered. "How dare an intermediate Hidden Fisher stop us?"

They thought this was too funny. However, out of caution, the two captains signaled two of the advanced-level sea demons to kill Han Fei.

Without hesitation, the two advanced-level sea demons used a technique that Han Fei was particularly familiar with, the Dance of Light.

Just when the two were only 100 meters away from Han Fei, all of a sudden, they saw Han Fei's Phantom Glass Wings spread out and he appeared in front of them with a swoosh.

Buzz!

With only two knives, the two were killed by Han Fei.

Han Fei sneered. "Hey! Don't look down upon me! Don't you want to summon your Associate Spirit or use any secret methods?"

Han Fei didn't know if these two Half-Mermen had Immortal Seals or not... Anyway, his attack was too fast to give them any time to respond.

Sure enough, after Han Fei finished speaking, he didn't feel anyone coming out of the void.

And he found that he had sucked a small amount of soul power back with the Void Line.

Han Fei thought to himself, *That's right, not all Half-Mermen have Immortal Seals. If each of them had one, how could humans resist them?*

The two captains on the opposite side were horrified, as just in an instant, two advanced-level sea demons were killed?

"Hiss!"

One of them yelled, "Attention, this guy is not an ordinary Hidden Fisher. Let's kill him together."

Han Fei sneered. *Do you think I can't understand your language?*

Gang up on me? It only makes a difference if people of the same realm gang up on me...

SWISH!

Han Fei flew over, but he didn't use the Agility of Wind or the Majestic Mystic Spell. He was meant to digest the power in his body, so he would try not to use any secret methods.

But even if he didn't use any secret methods, his speed was still shockingly fast.

Han Fei didn't fight head-to-head with the two captains. And this time, the besiegers were smart enough to use the Sea King's secret method.

However, it was simply useless. Han Fei easily solved them with the Draw Technique.

But he didn't have the time to use the Void Lines to absorb their soul power. In such a fast-paced battle, Han Fei didn't have the time to absorb soul power.

Puff!

Buzz!

Crack!

The absurd melee between a group of sea demons and a single person started.

If these two captains had known that Han Fei was so strong, they would have definitely not foolishly let their men surround him.

However, at this moment, it was already too late.

They roared, "Quickly withdraw, withdraw... Use the Blood Escape to get away!"

In just three or five minutes, Han Fei had killed more than 30 sea demons, and he was still chasing them down, killing one with each cut.

And the two captains were forced to use the secret method of Sea God Descends at this moment. Both their power and speed became five times stronger.

Their strength was close to 30 million kilograms at this moment, which was quite strong, but Han Fei wondered how much of their lives would be consumed by using this secret method once?

Han Fei grinned, caught a Red Demon with the Void Lines, and slashed it dead. Then with a buzz, Han Fei's speed suddenly surged.

Do you think you're the only ones with a secret method? Try my Overlord Technique!

With a swish, Han Fei caught up with a Half-Mermaid in the early stage of the Sea Demon Realm and slashed her to death.

This chase lasted for more than ten minutes. Han Fei killed more than 40 sea demons in total, and he ignored the Inferior Man-Fish because they were too weak.

At this moment, Han Fei was standing above the water, surrounded by five Half-Mermen.

Among the five, two were captains, two were advanced-level sea demons, and one was a Heavenly Talent.

At this moment, they had activated the secret method of Sea God Descends and summoned their Associate Spirits...

Chapter 884: Don't Confront Him

The afterglow of the setting sun reflected on the surface of the sea, shining on Han Fei's face and making him look like a god of war walking out of golden light.

Han Fei smiled. "Except for the two of you, can the remaining withstand a single blow of mine?"

He put on the Feather Suit of Wind and put away the Blood-Drinking Knife, grinning. "Come on, let's fight for 3,000 rounds."

The sea demons frowned when they saw Han Fei put away the knife. Why does this guy not even use a weapon?

BAM!

Han Fei stomped on the seawater and pounced at the two captains. On his fist, golden light surged, and terrifying power poured out.

"Go to hell..."

"Sea King Strike."

Boom Boom Boom!!!

Han Fei didn't choose to fight in the sky, although that would be better for him because he wanted to make the greatest use of these whetstones.

For a time, above the sea, golden light shone.

Han Fei blocked the attacks of the five powerful enemies with both fists. Although his current strength was the strongest, it didn't mean that the opponent was weak. After all, he was fighting five alone.

Of course, Han Fei was still far superior to them in strength even though they had used their secret method. The battle suit of one of the advanced-level sea demons was shattered by Han Fei's punch and a big hole was blasted out of his stomach.

Whoosh!

Han Fei jumped up, threw the Void Lines at him, and slashed him to death.

"Haha, you aren't even qualified to be my sparring partner!"

The remaining advanced-level sea demon roared, "Blood Curse."

Han Fei didn't know what curse this was. However, the strength of this person suddenly skyrocketed. Although he was still weaker than the two captains, his strength had reached at least two waves of power.

In the golden fish shadow, Han Fei laughed. "That's right! Bring out all you're capable of. Otherwise, you won't have a chance to use it."

A captain roared, "This person's combat skills are extremely energy-consuming. As long as we can hold out for ten minutes, his energy will be exhausted."

"Giant Wheel in the Sea."

The Heavenly Talent exploded and merged with his Associate Spirit. A monster covered with spikes was spinning rapidly on the sea, rolling towards Han Fei.

Boom, Boom, Boom!

Not flinching at all, Han Fei blasted a series of fist marks at the huge wheel.

Taking advantage of this opportunity, the two captains and the advanced-level sea demon thrust their harpoons at Han Fei, and the terrifying energy hit Han Fei falling on the surface of the water, making three huge pits.

However, Han Fei's eyes flashed, and he took the opportunity to hook the advanced-level sea demon with the Void Lines. The latter looked horrified and roared, "No, he can..."

"Shut up!"

Han Fei knew what he wanted to say. He wanted to say that Han Fei could control his soul!

The next second, Han Fei was sent flying together with the guy. A trace of blood oozed out of the corner of Han Fei's mouth, and then, golden fist marks crazily fell on the head of the advanced-level sea demon.

Bang, Bang, Bang!

After six consecutive punches, Han Fei shattered the sea demon's body.

No! My energy is being consumed too fast. I shall kill another sea demon.

BAM!

The three sea demons chased him to the bottom of the sea. Han Fei glanced at the wheel-like guy. "OK, I'll pick you."

Swoosh!

Han Fei rushed up to the three of them, throwing dozens of punches. The horrible force smashed the golden harpoon of one of them and the two captains were blasted off. Han Fei grinned.

"Hit, hit, hit, hit, hit..."

Han Fei was bombarding them like a lunatic, wrapping the Void Lines with the golden fist marks and throwing them at the Heavenly Talent Half-Merman.

The defensive power of the Semi-Divine weapon couldn't be underestimated.

At this moment, a protective mask appeared on the Heavenly Talent's body. However, it was shattered after only receiving five punches from Han Fei.

Rumble~

In an instant, the sea demon was almost beaten to a bloody pulp by Han Fei.

Boom...

Crack!

The Semi-Divine harpoon of the Heavenly Talent was shattered by Han Fei. The fist marks set off a huge billowing wave, dashing across the seabed, and wherever it passed, the sand and rocks fell apart.

“Help me!”

Han Fei avoided an attack with a whoosh. However, he was hit by another sea demon captain, and his body was bombarded into the ground like a cannonball.

However, at that moment, two wind blades rolled up from the seabed, swept past the dying Heavenly Talent, and killed him.

“Cough!!”

Han Fei coughed up blood. He had run out of energy after repeated battles.

The captain roared angrily, “He has run out of energy. Attack!”

“Sea God Strike...”

Swish... Swish... Swish...

Dozens of his clones appeared, and Han Fei ran a long distance away in the blink of an eye.

Behind him, the two captains seemed to see hope. They felt that the dead Heavenly Talent would be able to walk out of the void immediately, so they weren't worried about him.

And Han Fei's energy was exhausted. This was a good time to kill him.

Although this mission failed, if they could kill a Heavenly Talent of this level, no one would blame them. Maybe they would even get rewards.

Han Fei used the Sea Racing Art. After flying for a while, he suddenly stopped and sat cross-legged on the sea.

Boom!

Above the sky, a mysterious pillar of fire descended, and spiritual energy from four directions crazily rushed into Han Fei's body.

One minute.

Two minutes.

Three minutes.

The two sea demon captains didn't know what happened, so they stopped and watched.

Whoosh!

The pillar of fire disappeared, and Han Fei's phantom-like figure had already rushed over again.

The battle was imminent, and without giving them any time to think, Han Fei had rushed at them again.

"Hahaha! Let's fight again!"

The golden fist marks shot out again, and one of the captains shouted in shock, "Impossible! He can't be so fast... He, he was still cultivating just now."

Han Fei grinned. "I'm sorry. It's too late."

Han Fei's elusive figure reached in front of a person and his big fists punched this guy's face frantically. The enemy's Semi-Divine armor made his hands hurt...

Han Fei only used half of his strength, but it would already be enough to solve these two.

A captain shouted, "Don't panic. His strength hasn't fully recovered."

Han Fei roared, "I don't need to fully recover to kill you two!"

The other captain was angered. *I was so scared that I almost ran away, but you actually haven't fully recovered!?*

However, he was cautious. "This person must have a way to deal with the Immortal Seal. Yu Di hasn't come back from the void."

The other captain said, "His strength has dropped sharply. Don't panic."

Boom, Boom, Boom!

The huge waves were rolling and the sea surface caved in. From time to time, huge waves of 100 meters high were set off. Under the terrifying force, the ripples could at least radiate the surrounding hundred kilometers.

The creatures in the ocean had long been hiding.

Some lobsters and crabs hid in their holes. However, without knowing it, their homes were smashed and they were also crushed.

After more than thirty minutes, the two sea demon captains were horrified. Why is this person so vigorous? Hasn't his energy been exhausted?

Suddenly, Han Fei said leisurely, "That's it. You're unable to hold on to your secret technique anymore. Time to say goodbye."

At that moment, the Void Lines directly hooked on the two of them. Although these two people realized that a crisis was coming, they were too close to Han Fei.

After fighting for half an hour, no one would think that Han Fei was still at his peak.

With two swishes, the two sea demons were killed.

At the moment when the Blood-Drinking Knife came out, they still wanted to use their Immortal Seals... However, something shocking happened.

Their souls were controlled, and the Immortal Seals could not be used!

At this moment, they finally knew why Yu Di failed to come back!

Taking out the Sea Swallowing Seashells of the two of them and absorbing some soul power, Han Fei returned to the previous battlefield, quickly found the dead Half-Mermen, and took their Sea Swallowing Seashells one by one.

Without checking them, Han Fei went straight away.

He'd better not stay on the battlefield for long in case someone came over... At least he should recover his spiritual energy and vitality first.

Hundreds of kilometers away, Han Fei was sitting cross-legged.

A pillar of light descended from the sky, and spiritual energy entered Han Fei's body at a terrifying speed.

Since he couldn't recover at once, he put out the fire on himself and did it again.

After a moment.

On the Wind God Boat, Han Fei casually threw himself a Divine Healing Technique, grabbed a spiritual fruit in his hand and chewed.

"Um! This fighting rhythm suits me. They're simply not my match!"

Han Fei felt that his strength seemed to increase a bit: it was still more than 6 million kilograms, but hadn't yet reached 7 million kilograms.

Since the war hadn't ended, Han Fei was not in a hurry to return to the Scattered Stars Island. It seemed to be a good choice to travel around the Scattered Stars Island and find sea demons to fight.

Just half an hour after Han Fei left the battlefield, a Sea Spirit-level master appeared in the sea area.

The sea demon grabbed the bodies of the two captains and said to a Half-Merman beside him with a frown, "Are you sure his wings are like phantoms?"

The sea demon nodded hard. "Yes, Master. His speed was too fast, and we didn't even have the time to react at all. Even with the Sea King's secret method, we still couldn't resist him."

This Sea Spirit frowned. "He must be the human Heavenly Talent who has obtained the Wind God Pearl. Now it seems that he may already have the power of a Law Enforcer..."

"Pass on my order... If you encounter this person, anyone under the peak-level of the Sea Demon Realm shall retreat; don't confront him."

Chapter 885: The Sea Tokens Are Responding to Something

Han Fei certainly didn't know this. Even if he knew, he was not worried because the sea demons wouldn't be able to escape from him if they met him.

Han Fei would go into the water every thousand kilometers or so and ask Little White if she had found another Undersea Chimney.

Unfortunately, the answer disappointed him. It seemed that after he stayed two days in Forge the Universe, the Undersea Chimneys were all robbed!

But then he smiled. Fine, he'd better not be too greedy! This time, he wouldn't have been able to get the Spirit Awakening Fluid if it wasn't for Little White's outstanding treasure hunting ability.

Within ten thousand kilometers from Scattered Star Island, Han Fei found another group of sea demons. However, there were only a dozen of them in total, and there was no one at the peak level of the Sea Demon Realm.

Han Fei pondered, *I stole a lot of Spirit Awakening Fluid Liquid this time, but if I want to return to the Scattered Stars Island, I should come back with some merits. OK, let me kill them.*

...

Scattered Stars Island...

Ye Xingchen's face was all dark, and he found that he had made a mistake.

He had known Han Fei was from the Thug Academy, but why was he so stupid as to tell him that there was an Undersea Chimney coming out...

It was not a good situation! He became the scapegoat.

At this moment, the sea demons and human beings were in a short truce. Retreating to 3,000 kilometers away, they could launch a third attack at any time.

The humans were trying to recover as soon as possible, so were the sea demons.

At this moment, more than 300 people in the Emyrean Waterfall were gathering together for dinner. Since the last time Han Fei had cooked, their frequency of having meals had increased.

Besides, they had been fighting for two days. They needed to rest, didn't they?

At this moment, Ye Xingchen stood in front of this group of people. "Wang Dashuai, can you guys from the Thug Academy come back?"

Bai Lu said angrily, "What's wrong with my Junior Brother? My Junior Brother has done meritorious service and even killed a Sea Spirit expert."

Wang Dashuai nodded. "My wife is right. My little Junior Brother made a great contribution. Besides, even if you and the sea demons scramble for the Spirit Awakening Fluid, in the end, you would get it fifty-fifty, right? And, maybe in that Undersea Chimney, there are only 600,000 kilograms of Spirit Awakening Fluid."

Ye Xingchen gritted his teeth and said, "Which Undersea Chimney have you ever seen that contains only 600,000 kilograms of Spirit Awakening Fluid?"

Han Fei didn't know that some more Spirit Awakening Fluid had appeared from the spring again. However, the Law Enforcer who had gone to grab the Spirit Awakening Fluid came back with only less than 300,000 kilograms.

Ning Jingyao laughed and said, "Well, it's not a big problem! Anyone can use the Spirit Awakening Fluid, right?"

Nameless nodded. "It may work better on Han Fei."

Youye said lightly, "Actually, I want some too."

Ye Xingchen was dumbfounded and looked at Youye speechless. "How do you have the nerve to say that? You emptied two Undersea Chimneys alone!"

Then Ye Xingchen turned his eyes to Wang Dashuai. "Yes, Han Fei has done meritorious service. But that's what he should do. He robbed an Undersea Chimney without saying a word. He should give us an explanation, shouldn't he?"

Wang Dashuai grunted. "Explain? My Junior Brother will surely kill a large number of enemies before he returns."

Ye Xingchen was speechless again. *Didn't you hear me? That's what he should do! It's every soldier's obligation to kill enemies!*

Forget it, Ye Xingchen didn't want to bicker with these people anymore. He turned around and left angrily.

After Ye Xingchen left, a flurry of discussion began.

Youye said in surprise, "Han Fei can rob an Undersea Chimney now?"

Li Luoluo bared her teeth. "I want to do it too. Why didn't he take me with him?"

Big Yellow crunched a big fish's head. "Humph, I'm angry. He didn't even bring me with him but still asked me to guard him."

Granny Yin rolled her eyes at him. "Guard him? Can you?"

"Meow~"

Granny Yin said, "Well, as long as Han Fei kills enough enemies outside, he might not be grounded like Dashuai."

Nangong Xuan said, "It's not a question of whether he'll be grounded or not. This war has been fought for too long. Who knows what happened?"

Everyone looked at Ye Qingfeng.

Ye Qingfeng was the only one who was transferred to the frontline battlefield. He was so poisonous that even Law Enforcers were afraid of him. It was said that he once poisoned three Sea Spirit experts alone.

Ye Qingfeng was making poisonous tea for himself. Seeing everyone watching him, he said leisurely, "Don't look at me. I don't know either. It is said that the Pioneer Group found very large underground

ancient ruins. And the humans and sea demons started a war to scramble for the resources in the ruins. Even Xue Shenqi and Blue Feather went to watch the war. What do I know?"

Someone was surprised. "Huh? But they're already Explorers!"

Someone sighed. "Even Explorers went to watch this war? It seems that the ruins are very important!"

Qing Chen said, "They just went to watch the war, but didn't join it."

Ning Jingyao sneered and said, "But it already shows how important this war is. When was the last time they went to watch a war? Five or six years ago, right?"

Someone said, "I remember it was before I even came here."

Suddenly, Ye Qingfeng said, "Oh, yes, I heard that Mu Qingchuan and Chu Linyuan showed up this time. These two people slaughtered a Sea Spirit powerhouse and emptied half of an Undersea Chimney."

Wang Dashuai said, "It has nothing to do with me!"

Everyone was speechless, and someone said leisurely, "You Thug Academy people are all daredevils. I think the two of them can never come back."

Bai Lu snorted. "But Linyuan and Qingchuan have killed countless enemies. This is an indisputable fact."

Ye Qingfeng smiled and said, "If it weren't for you, Dashuai might be out there right now."

Wang Dashuai scratched his head and chuckled as if he had accepted Ye Qingfeng's words.

Bai Lu rolled her eyes at Wang Dashuai who immediately became silent.

...

The battlefield of the Scattered Stars First Unit was on the Path of Giants. At this moment, many people gathered together.

Cao Tian and Cao Jiaren, who hadn't shown up for a long time, were there, and so were Tang Ge and Mu Ling.

Leaning on Tang Ge and sitting on a rock, Mu Ling said with a smile, "Do you know what news I heard?"

Tang Ge asked, "Yes?"

Mu Ling smiled and said, "Your buddy robbed an Undersea Chimney all alone."

Tang Ge was taken aback for a moment. "Really? Isn't it dangerous?"

Mu Ling said, "It is said that he has already run away."

Tang Ge breathed a sigh of relief. "That's good."

Mu Ling continued, "I've got more news."

Tang Ge waited... "What is it?"

Mu Ling took out a token and said, "The Sea Token is responding to something. I have a hunch another catastrophe is coming soon."

Tang Ge frowned. "Don't be afraid. I'll go with you."

Mu Lingshi chuckled. "Of course you have to go with me, or else who will protect me? I'm a girl. How can I protect myself from so many people?"

But Tang Ge laughed and said, "However, this thing should belong to Han Fei."

Mu Ling pouted. "Why can't it be mine? You're just partial to your buddy!"

Tang Ge smiled and said, "Because he has two."

...

Cao Jiaren and Cao Tian were also discussing.

Cao Jiaren's expression was indifferent, and her voice was cold, "The Sea Token is responding to something. You know, it should belong to Qiuqiu."

Cao Tian said with his trademark honest smile, "I know."

"This time, we'll have to face a lot of powerful enemies. On the Thug Academy's side, it will be Han Fei. Luo Xiaobai is not strong enough yet."

Cao Tian smiled. "It's okay. Leave him to me."

Jiaren Cao shook her head slightly. "Don't underestimate him. The Thug Academy is never absent from any big event. Although it declined more than 30 years ago, it is undeniable that they are still very strong."

Cao Tian nodded. "I see."

...

The humans were still resting.

On the sea, Han Fei was being chased by three Sea Spirit experts.

"What have I done to you? Why are you chasing me?"

Han Fei was speechless. He originally planned to return to the surrounding area of the Scattered Stars Island, only to come across an army of sea demons who were resting on the way!

There were tens of thousands of sea demons in this army, including many Sea Spirit powerhouses.

Fortunately, he stopped in time and turned around to run. Otherwise, if he rushed into the sea demon army, it would have been almost impossible for him to come out unscathed.

It was also at this moment that Han Fei discovered that the speed of the Wind God Boat was not as fast as he had thought.

The Sea Spirits could also fly, and their speed far exceeded the Wind God Boat.

Someone behind shouted, "Do you think you can run away?"

Han Fei roared, "What the hell are you doing!? Do you want to quit the war and just chase me?"

Boom!

Someone was speeding up.

Han Fei simply abandoned the Wind God Boat, unfolded the Phantom Glass Wings, activated the Agility of Wind, and rushed out.

The Wind God Boat's speed was limited. Although it could fly 60,000 kilometers a day, it was only 2,500 kilometers per hour on average, which was far slower than the speed of the Sea Spirit powerhouse, so Han Fei had to abandon it.

The Agility of Wind was not fast enough, so Han Fei activated the Overlord Technique. In a flash, his figure was farther and farther away.

Behind him, the three Sea Spirit experts looked dumbfounded.

Someone cursed, "Damn these wings. Isn't this guy's speed too fast?"

Seeing that Han Fei was getting farther and farther away, they were stunned. They had chased him for less than half an hour, but he had escaped from them.

"Humph! He is not on the battlefield. It should be fine. He is only one person."

At this moment, Han Fei was hiding in Forge the Universe, lying on the ground and chewing a spiritual fruit. "Heh! Chase me? Come on, come in here!"

Suddenly, Han Fei felt his heart flip. He tilted his head, only to see two Sea Tokens not far away vibrating slightly.

"Huh?"

Han Fei immediately sat up with a serious look. "The Sea Tokens are responding to something!"

Chapter 886: A War Is Imminent

It was too fast. Han Fei didn't expect that the Sea Token would respond so quickly.

Although he just robbed an Undersea Chimney, he still hadn't digested the resources completely!

Not only did he, but also his beasts hadn't digested the resources completely. And he had just started his journey of tempering. According to Han Fei's plan, he would have to fight at least dozens of battles like the one today. But who would have thought that the Sea Tokens would respond so quickly?

Sister Qin, why don't you give me some time to react? Can't you do it in a month?

Han Fei sighed and practiced the 108 Desolate God Body twice before he came out of Forge the Universe.

However, at this moment, the sea demons were resting and it was impossible for him to attack the sea demon army alone.

Han Fei summoned Little Black and Little White and asked Little White, "Girl, can you feel where Sister Qin is now?"

Han Fei wasn't sure if Jiang Qin had returned to the Scattered Stars Island or not. However, since it was the Pioneer Group that discovered the ruins, and the Sea Tokens happened to be responding, it at least proved that Jiang Qin was definitely involved.

Sure enough, the direction Little White pointed to was not the Scattered Stars Island, but the deep sea.

Han Fei frowned. *Has she gone first?*

But then he shook his head. *No. It's impossible for Jiang Qin, a mere Hidden Fisher, to decide on something as important as the ruins. Besides, the war lasted for two days, and many people involved were above the level of Hidden Fisher. There must be stronger people in the ruins.*

Han Fei sighed. *What if I meet the Eight Wings of Blue Feather? Their strength is not comparable to ordinary Sea Spirits!*

If I go to the ruins, there should be strong human masters over there too, right?

No, God knows what the peak-level Sea Spirit's perception range is? What if I'm discovered in advance and ambushed?

No, I shall not go to the ruins, nor the Scattered Stars Island.

Just as Han Fei was thinking whether he should release his beasts to rest... Suddenly, above the sky, a curtain appeared, imprinted with a shadow.

Han Fei took a closer look and found the shadow was Blue Feather.

Yes, he couldn't be wrong. Blue Feather was in human shape. His status in the Ten Thousand Demon Valley was similar to Xue Shenqi's. Both should be at the Explorer level.

At this moment, Blue Feather said in the sea demon language, "Everyone, retreat. All Sea Demon Realm powerhouses must come to the southwest sea area of the Scattered Stars Island, 150,000 kilometers away, and don't fight with any humans."

Immediately afterwards, another figure appeared in the sky. It was Xue Shenqi, whom Han Fei had met once. At this moment, he said solemnly, "All human Hidden Fishers, go there too. Don't clash with the evacuating sea demon army. Come quickly."

Wow! What agreement did Xue Shenqi and Blue Feather reach?

The first thought that flashed through Han Fei's mind was that the secret realm was too big to be explored by one person or two.

The underground city. It's definitely the underground city.

However, what Han Fei wasn't sure about was why the underground city appeared so quickly. And, shouldn't it be kept secret?

Even if a place like an underground city appeared, it should be kept secret. All Hidden Fishers are being summoned? What happened?

Han Fei remembered that the number of Hidden Fishers he had encountered in the Central City was definitely a lot, not hundreds or thousands, but at least several thousand.

...

Not only Han Fei, but the entire Scattered Stars Island was shocked.

Countless people looked up at the sky curtain. All Hidden Fishers? Is there a super battle going on?

Someone said in shock, "In the history of the Scattered Stars Island, there has never been such a thing, not even once."

Someone sighed. "Damn it, I knew the reason for the sea demons to attack the Scattered Stars Island was not simple. Could it be that now it's the critical moment for the survival of the Scattered Stars Island?"

On the frontline, many Law Enforcers looked solemn. What happened this time was beyond their imagination. In this battle alone, the people killed were countless.

However, the so-called war turned out to be only the beginning.

When Xue Shenqi was speaking, there were people on all sides of the Scattered Stars Island flying to the sky, looking grave.

Fishing boats flew into the air one after another, and people had no idea what was going on.

However, judging from the current situation, the matter this time was probably extremely important, to the point that every soldier was summoned.

Silent Demon Pond.

In a certain Law Enforcement brigade, someone got up and stood in front of the other people. "I'm going to war. Everyone, guard the line of defense before I return. Pay attention to the news in the city and be careful."

"Captain..."

"What happened, Captain?"

The man shook his head slightly, his eyes resolute. "I don't know. All the Hidden Fishers are being summoned. They wouldn't do this unless it was a matter of life or death."

...

Inferno Beach.

Someone in a certain inspection team cursed, "Son of a b*tch, do we finally not have to patrol and enforce the law? Scattered Stars Island, Scattered Stars Island... Do they want us to sacrifice ourselves?"

Someone sneered. "The commander must have a reason to make this decision. Let's just go."

Someone lazily got up from the beach and said, "Are we going to fight the final war against the sea demons? I'm fed up with fighting and guarding every day."

...

Path of Giants.

Tang Ge and others controlled their boats and set off in silence.

Most of the people who went with them were from the big clans of the Thousand Star City.

...

East Coast.

The over 300 people in the Emyrean Waterfall had mixed feelings at this moment.

Granny Yin cried, "A great war is about to break out! I didn't expect to be able to participate in such a war at such an old age."

Nangong Xuan sneered. "I don't mind fighting the war! I've been here too long in the Emyrean Waterfall."

Ning Jingyao sighed. "It's a pity that Old Du happened to make the breakthrough and become a Law Enforcer at this time. It's his loss to miss this battle."

Li Luoluo chuckled. "It should be fun. Let's fight! It'll be best if we can fight all the way to the Ten Thousand Demon Valley."

Someone sneered. "You all hide secrets, don't you? You were all waiting for this battle, right?"

...

South Bank Area.

The strong masters of the major sects in the Thousand Star City were all here.

The leaders weren't one person or two, but a group of powerhouses. Looking from the sky, there were seven groups of people gathered.

Gong Yuehan, Lu Wuwei, Chu Xun, Zhai Shun... The Heavenly Talents of the major sects walked in the forefront of the crowd.

Someone shouted, "Let's go!"

Under countless gazes, the fishing boats lifted off and the army went to sea. Such an unprecedented grand scene stunned many people.

...

At this moment.

Countless Hanging Fishers were sighing. No one would know what would happen next, nor how many people would survive.

Someone prayed, "I hope we can all return safely."

Someone shook his head. "There must be a bloody war. But if you win, the Scattered Stars Island may be safe for decades!"

Some people were optimistic. "Hey! Bro, we should be able to concentrate on exploring secret realms and improve our strength if we reach a truce with the sea demons, right?"

The man being asked smiled and nodded. "Maybe! However, I want to go back to my hometown once. I've been out for so long and I'm afraid my family must think I'm already dead."

Someone smiled and said, "I'm sure we can win. Otherwise, the commander wouldn't easily start this war."

...

In the southwest, somewhere in the outer sea, Xue Shenqi and a group of 9-star, 10-star, and even 11-star powerhouses stood proudly in the sky.

More than ten kilometers away, Blue Feather and the Eight Wings of Blue Feather were all there.

Blue Feather looked at Xue Shenqi and sneered. "Xue Shenqi, I can't believe you dare to bet with me! Our Ten Thousand Demon Valley hasn't used all our strength yet. Aren't you afraid that we will launch a sneak attack in the rear and destroy your den?"

Xue Shenqi looked majestic and glanced at Blue Feather disdainfully. "You can try. If you can conquer the Scattered Stars Island, I'll kill myself on the spot. Humph, if it weren't for that old monster, the Ten Thousand Demon Valley would have been wiped out decades ago!"

Blue Feather laughed out loud. "I know you dare to destroy our Ten Thousand Demon Valley. The key is, if the Ten Thousand Demon Valley is destroyed, are you sure you can resist the Royal City?"

Xue Shenqi scoffed. "If the Royal City wanted to come, they would have come long ago. What are they still waiting for?"

Blue Feather snorted. "I admit we lost to you in the Demonic Forest Channel. Then let's gamble on whether the Thousand Star City will have a king first, or the sea demon Royal City will have a Deep Sea Giant Demon first!"

Behind the crowd, Jiang Qin looked solemn.

What happened this time was beyond her expectations. She had thought that even if she found the underground city, it would be the human race's own business. Who would have expected that the sea demons would get in on it?

Did the sea demons come to contend for the Sea Quelling Painting? But that didn't make sense. Was it because of Xue Shenqi?

...

Han Fei was controlling the Wind God Boat to race wildly all the way.

If he didn't run fast enough, the sea demon army would have caught up with him! He was alone in the sea and had no chance to escape from the sea demon army if he was discovered by them.

Before such a big war, no one would care even if the sea demons killed him.

As Han Fei ran, he thought to himself, *Does Old Han manipulate this matter behind the scenes? Old Han is so strong. He must have a part in it.*

And did Old Jiang come? If Old Jiang is here, I'm safe!

Heh! The battle for the Sea Quelling Painting has begun again! No matter what, the painting is mine.

Chapter 887: Explore the Biggest Secret Realm in History

After running for more than two days, he met ordinary sea demons along the way, but no battle took place.

As for the sky curtain hanging in the sky, if he guessed correctly, it had to be the genuine Sky Hanging Mirror and the one he saw in the level-three fishery was a fake.

If he killed those sea demons on the way, Blue Feather might find out and send someone to kill him. Then he would be in danger.

The Wind God Boat flashed across the sky like a stream of light and stopped until Han Fei perceived Xue Shenqi and the others.

Finally, Han Fei found Jiang Qin in the crowd, who was the only Hidden Fisher in this group of people, the others were all Law Enforcers.

At this moment, Law Enforcer glanced back. "What are you doing there? Quickly come over."

Han Fei didn't know this person, but since this person called him, he shouldn't still stand dozens of kilometers away.

When Han Fei flew over, he landed directly next to Jiang Qin. "Sister Qin, what a coincidence!"

Jiang Qin rolled her eyes at Han Fei, saying indifferently, "Wait."

Han Fei saw Blue Feather and others more than ten kilometers away and these people were looking at him, seeming to be surprised by his speed.

At this time, some Sea Spirit said something to Blue Feather.

Blue Feather suddenly said, "Is this the young man who obtained the Wind God Pearl? But he's at such a low level... It's a pity that he won't be able to go back this time."

But Han Fei cursed, "Old b*stard, what are you talking about? You won't be able to go back. Your whole family won't be able to go back!"

Huh!?

Everyone looked at Han Fei in shock, even Xue Shenqi couldn't help but raise his eyelids, as the corners of his mouth twitched slightly. *How dare this lad scold an Explorer like Blue Feather?*

Jiang Qin shouted in a low voice, "Hey, shut up."

"Humph!"

Blue Feather snorted, and his sound, like rolling thunder, shook towards Han Fei.

BAM!

In mid-air, a storm was set off, and Xue Shenqi said lightly, "Hey, why do you pick on a junior?"

Blue Feather said coldly, "Different from humans, we're vengeful. This kid is called Han Fei, right? Hey, kid, there will be a lot of people aiming to kill you."

Han Fei curled his lips and sneered. "Come on, do you think you can scare me? I'll just kill anyone who comes at me until you're left shaking in a corner."

Han Fei wasn't afraid at all. For now, Xue Shenqi was around. This old b*stard certainly couldn't come up and kill him!

Xue Shenqi glanced at Han Fei lightly, and Han Fei immediately shut up.

Okay! If you don't want me to speak anymore, I'll shut up.

A Law Enforcer glanced at Han Fei with a smile. "Smart move. Do you think you've become invincible after robbing an Undersea Chimney? If we weren't in a war, you would definitely be locked up for several years."

Han Fei's face stiffened. "Well, senior, I didn't grab much! It's just tens of thousands of kilograms. It's true..."

"Haha!"

Someone shook their head. *This guy is too shameless. Do you think we're fools?*

Someone was speechless.

Jiang Qin glanced at Han Fei. "Sit down and stabilize your realm."

Han Fei turned his eyes to Jiang Qin and then glanced at the Law Enforcer without transmitting any voice to her as if asking whether he would really get locked up or not!

Jiang Qin shook her head slightly, and the Law Enforcer who was looked at by Han Fei frowned. *If you look at me again, I'll really put you in confinement.*

...

At this moment, everyone was waiting, waiting for the rest to come over.

Han Fei's perception went down to the seabed. The seabed had been shattered and was already flattened within thousands of kilometers. Especially at the feet of Han Fei, there were strange ruins extending dozens of kilometers, which seemed to have emerged from underground.

And in the ruins, there were some big holes with a gray misty matter floating in them, which his perception couldn't penetrate at all. However, they appeared to be confined within a certain range, like a kind of barrier.

Han Fei asked in a low voice, "Sister Qin, is this a barrier?"

Jiang Qin nodded slightly. "Yes, but it can be broken."

Han Fei looked at Jiang Qin unexpectedly. "Really? Then why are we still standing here?"

Xue Shenqi said indifferently, "Not another word. We're waiting for everyone to arrive."

Han Fei shrugged. *My dad is Old Han, so I am not afraid of you.*

Since Han Fei knew that Old Han was still alive and was actually a big shot, he was very relaxed. Before the chess game finished, the chess piece would be safe.

However, Han Fei didn't go too far.

He didn't mind waiting. He could take the chance to think about what he should do after entering the barrier.

If it was the underground city, then his first goal would be to find the Bone Yard. Luo Xiaobai and the others would arrive tomorrow at the latest, so would Tang Ge.

The people of the Emyrean Waterfall would also come here, and he could persuade them to join him!

...

About three hours later, Han Fei saw a fishing boat flying over from the sea. In the boat, there was a young man and a young woman, who were both good-looking and were obviously a couple.

When these two arrived here, their gazes swept around and finally fell to Han Fei and Jiang Qin.

"Little Junior Brother?"

"Definitely."

Han Fei looked at Jiang Qin in surprise, and then said, "Senior Brother, Senior Sister?"

The two smiled at Han Fei and nodded, looking very kind.

"Cough!"

Someone coughed, and Chu Linyuan said, "Let's talk later."

At this time, someone sneered. "Chu Linyuan, Mu Qingchuan... You never showed up when we needed hands, but now that the ruins are discovered, you immediately show up? Don't think you can leave again!"

Mu Qingchuan smiled. "We won't leave. After this matter is over, we will return to the Emyrean Waterfall."

Someone snorted. "Oh, you guys came back? If you hadn't killed so many enemies at sea, we would certainly have punished you!"

Chu Linyuan also smiled. "No matter if we're in or out of the island, we're contributing to mankind! We'll make the breakthrough and become Law Enforcers when we go back to the Empyrean Waterfall this time."

Someone grunted. "You mean you can do so any time?"

Mu Qingchuan nodded. "Yes."

After that, Mu Qingchuan glanced at Han Fei and said with a smile, "If we don't hurry up, even our Junior Brother will surpass us."

Han Fei looked dumbfounded, thinking, *I've already surpassed you, OK?*

But the Law Enforcer nodded. "Not bad. You've been holding off the breakthrough for so long. Are you waiting for today?"

Chu Linyuan chuckled. "Sure."

Han Fei's heart flipped. *Holding off the breakthrough for so long? How long?*

So they haven't become Law Enforcers because they purposely held off the breakthrough? Are Senior Brother and Senior Sister also chess pieces?

However, Old Jiang said that the chess piece in the Thug Academy is me, so does that mean Senior Brother and Senior Sister held off their breakthroughs in order to assist me?

Han Fei frowned. *After entering the barrier, I'll ask about it.*

After one night.

When the moon rose in the sky, people and sea demons arrived one after another. Among them, Cao Tian and the other Cao Family arrived first, including Cao Qiu.

As soon as Cao Qiu arrived, he wanted to run to Han Fei's side but was stopped by Cao Tian.

However, the three Cao Family members sat behind Han Fei, only two or three meters away.

Cao Qiu said to Han Fei via voice transmission, *The items down there are all treasures, but it is not my intention to grab the you know what.*

Han Fei glanced at Cao Tian, and replied to Cao Qiu via voice transmission, *It's alright! It's all within our reach. Whoever has the ability can grab it.*

After hearing this, Cao Qiu felt helpless. He hated this feeling. To scramble for a treasure, in the end, there would definitely be fighting.

By the time of dawn, there were already more than 300 people sitting behind Han Fei and the others.

Wang Dashuai arrived with Bai Lu early the next morning. After arriving, he came straight to sit beside Han Fei and chatted with Chu Linyuan and the others.

Until the early morning of the third day, everyone had arrived.

At this moment.

Luo Xiaobai, Le Renkuang, and Zhang Xuanyu met Chu Linyuan and Mu Qingchuan.

At this moment, they snuck to the back of the army to eat hot pot, together with Big Yellow and Qing Chen, as well as several other Heavenly Talents from the Empyrean Waterfall.

Han Fei was whispering, "Shall we form a team when we go down?"

Chu Linyuan said, "Sure, it's time to show the strength of our Thug Academy."

Mu Qingchuan said, "First of all, it is certain that this is a barrier, not a teleportation array, so we won't be teleported randomly after entering it. But this barrier seems to be large and requires many people to break it. There must be a surprising amount of things inside. Therefore, some people will definitely play dirty to seize the treasures."

Luo Xiaobai analyzed, "The trouble of teaming lies in the distribution of items. However, we don't have this problem. Whoever needs the treasures most can pick them first. The problem is survival. Our biggest concern will be how to stay alive."

Han Fei said, "I think we can act separately after the grab."

Everyone: "???"

Han Fei continued, "You know, maybe we'll have to act separately then."

Chu Linyuan shook his head. "No, Junior Brother. This matter is not as simple as you think. This ruin is actually just the first step. It is very likely that there will be a second and a third step... We can't be sure until we get inside."

Suddenly, a voice rang, "Put away your pot."

At the same time, Xue Shenqi waved his hand, and a light curtain appeared, enclosing all human beings.

Everyone was shocked and thought, *It's finally about to start!*

Chapter 888: Ancient Battlefield

The light curtain enveloped the world, the morning sun was beginning to shine, and a faint golden color shrouded everyone's faces.

On the human side, the number of Hidden Fishers was over 3,100, and over 5,000 on the sea demons' side.

The number of human Hidden Fishers was about the same as Han Fei expected.

3,100 seemed to be a lot, but after being distributed to the entire Scattered Stars Island and the outer waters, it wasn't enough.

It seemed that the human race was out in full force, but Han Fei felt that there must be some people remaining on the Scattered Stars Island.

And the same went for the sea demons. Han Fei had been in the Ten Thousand Demon Valley, and there were hundreds of thousands of Half-Mermen there, so the Sea Demon Realm powerhouses couldn't be only 5,000.

Although the Scattered Stars Island was not big, it would take him quite a while to fly across it. There were more than 3,000 Hidden Fishers in Central City alone.

Although Hidden Fishers weren't easy to see, it didn't mean they didn't exist.

Therefore, Han Fei was sure that both sides had left enough people to guard the base camp.

Old Jiang and Old Han were not here, which showed that Xue Shenqi was still holding some trump cards in his hand.

At this moment, Xue Shenqi's voice resounded, "Everyone, this time, you will go to a mysterious ancient battlefield. On this battlefield, there are countless opportunities, but also greater dangers. This battle concerns our advantages in the Unknown Place... So we must win this battle, come hell or high water."

When Xue Shenqi said the last sentence, his words were full of killing intent, and everyone was thrilled.

Even Han Fei couldn't help getting serious. He could be selfish, but in this critical time, he also had responsibilities.

Everyone was listening, and Xue Shenqi continued, "Anything you'll get from the secret realm shall belong to you. This ancient battlefield has more than one exit and entrance. If you encounter other barriers, don't panic. Find the seal eye, destroy it, and the barrier will open."

"Yes!"

Everyone shouted in unison and the voice was deafening.

However, Han Fei frowned upon hearing this. *Xue Shenqi said this was an ancient battlefield, not the underground city. Is this ancient battlefield a part of the underground city?*

Han Fei couldn't help looking at Jiang Qin. The latter shook her head slightly to Han Fei, indicating him not to ask anything at this moment.

...

At the same time, Blue Feather said something else.

Blue Feather stood on the middle head of the Three-Headed Shark. "Remember, all the gains you'll get in the secret realm will be your own. It is best to kill the humans before they break the seal, especially their Heavenly Talents..."

"Yes, Master Feather."

Blue Feather looked back at the human phalanx and said fiercely, "In this ancient battlefield, there will be many mysterious places. Find them, and kill any human Heavenly Talent who goes there, regardless of the cost... Besides this, kill Han Fei. This guy has a pair of phantom wings. Anyone who brings me his head will be rewarded with three Divine weapons, three top-level cultivation techniques or combat skills, and... The qualification to go to the Royal City."

“Wow!”

Upon hearing this, the breathing of all the more than 5,000 sea demons became rapid.

The weapons and combat skills were good, but not as attractive as the qualification to go to the Royal City, which was really precious. Now, everyone’s goal had changed.

Han Fei was the treasure, Han Fei was the chance.

Han Fei didn’t know what Blue Feather said to the sea demons. Otherwise, he would have cursed the old b*stard Blue Feather to death, who was too vengeful.

...

Blue Feather and hundreds of Law Enforcers attacked simultaneously, forcibly printing a vortex on the barrier.

“Enter the barrier!”

“Enter the barrier!”

Xue Shenqi and Blue Feather gave orders almost at the same time. At that time, everyone rushed into the barrier.

Han Fei saw a flash of yellow light and Big Yellow was gone. He was taken back by Granny Yin.

Han Fei squinted slightly. *Big Yellow is equivalent to a Sea Spirit-level powerhouse. He may be unable to kill Law Enforcers easily, but Hidden Fishers would be a breeze for him.*

With Big Yellow, Granny Yin should be a very dangerous figure to the sea demons.

Ye Qingfeng licked his mouth. “The ancient battlefield is full of poisonous barriers. What a great place!”

Qing Chen and the others immediately left separately.

Han Fei asked him in a voice transmission, *Qing Chen, will you go with us?*

Qing Chen grinned. “No! Everyone has their own chance. However, we can compare which of us kill the most sea demons!”

Han Fei looked at Yue Shier. “Shier, together?”

Yue Shier smiled honestly. “Thank you for your kindness, but I have other things to do.”

Han Fei frowned. *Other things? What things?*

Han Fei didn’t think that Yue Shier was assigned a special task. Then what things would Yue Shier have to do?

Then his heart flipped. *Yue Shier has got a Sea Token!*

Han Fei couldn’t help but think, *This guy hides his secret really well!*

Yue Shier, who looked silly and drank fish soup all day long, turned out to be the owner of a Sea Token!

Does this mean that Yue Shier was also a chess piece?

If he was, then how many more people had Sea Tokens in the Empyrean Waterfall?

Han Fei guessed the children of the big clan of the Thousand Star City also had one, for example, the Cao Family. Cao Qiu had told him that he did have a Sea Token.

But Han Fei didn't know which one in the Cao Family would make the bet. Cao Tian or Cao Jiaren?

And Sun Mu, he must have one too.

Yang Deyu, Mo Feiyan, Ye Baiyu, Chen Aochen, Zhang Wen, and Li Heiye, these guys must also have Sea Tokens!

Now, the only thing Han Fei wasn't sure about was whether any sea demons had any Sea Tokens.

If they did, it would be fine, and Han Fei wouldn't worry about anything.

But if they didn't, Blue Feather was bound to lose this war. Almost everyone who had a Sea Token had some power behind them. But the sea demons only had Blue Feather.

Then the sea demons would simply have no chance to win.

If Blue Feather was so powerful, he would have destroyed the Scattered Stars Island long ago.

Old Han alone could beat Blue Feather, let alone that Blue Feather was desperately outnumbered...

Unfortunately, these were all Han Fei's speculations. He actually knew very little about the thoughts and secrets of these people. However, anyway, he had two Sea Tokens. This could be considered an advantage!

Jiang Qin said coldly, "Follow me closely."

Swish... Swish... Swish...

One figure after another quickly rushed into the whirlpool.

Han Fei discovered that the Thug Academy disciples could form a team. Wang Dashuai, Chu Linyuan, Mu Qingchuan, Bai Lu, him and the Luo Xiaobai trio, plus Jiang Qin: there were nine of them in total.

"Huh! Where are Tang Ge and Mu Ling?"

Hum!

As soon as Han Fei rushed into this barrier, he was overwhelmed by deathly silence and bleakness. He had no idea how many years this ancient battlefield had existed. But now the smell of blood was still so strong.

As far as he could see, it was all sadness and gloom.

Compared with the normal ocean, there were no colors here, and the seawater here was dark red. With a casual glance on the ground, one could see bones. The floor on the seabed was dark red, light red, or brown.

It looked like a broken Gobi or a desert without grass.

At this moment, with the influx of humans and sea demons, under the “desert”, a shadow of deformed big fish appeared.

The people who came first met the shadow head-on. Someone launched an attack and shattered the shadow, but then, his eyes turned white, and he started to attack his fellow clan, killing one person on the spot.

Someone yelled, “This place is evil! If anyone is possessed, kill them!”

Maybe it was because there were too many people rushing in, but as dozens of swift shadow fish appeared, they were all killed immediately.

This was a relief to everyone.

Someone wondered, “What kind of creature is this? The combination of a crab and fish?”

Someone frowned. “This is the combination of a snake and shrimp. Each one is different.”

However, the creatures here weren’t as strong as they imagined. The ancient battlefields were full of the souls of creatures and humans, which were easy to solve as Hidden Fishers.

The situation was similar on the sea demon’s side, and only a few of them were killed and injured.

Han Fei discovered that the sea demons were gathering and activating their Sea King Secret Method as soon as they came in, and thousands of them had already activated fish tides.

Someone said angrily, “These silly fish! Why do they just want to fight? The secret realm hasn’t been explored yet! Are they out of their minds?”

Immediately, someone shouted, “Don’t fight them. Let’s disperse and leave.”

Then everyone rushed away in different directions. If they wanted to fight, they could fight outside. Why bother to fight in the secret realm?

Han Fei found Tang Ge seven or eight kilometers away and immediately asked him, “Why did you run here? Come with us!”

Tang Ge responded, “No, I will go with Xiao Ling. You have the Thug Academy people to be with you, so I don’t have to worry about you, but I have to protect Xiao Ling.”

“It’s safer with us.”

Tang Ge shook his head. “We’ll be fine.”

Han Fei sighed. Besides his buddy, now Tang Ge had his beloved woman to protect. However, Han Fei wasn’t quite worried because not many people could beat Tang Ge...

Besides, Mu Ling was not weak either.

Jiang Qin shouted, “Go! Don’t fight.”

Wang Dashuai, carrying the door with one hand, rushed out. The door vibrated, releasing a resounding sound that radiated in all directions.

Chu Linyuan and Mu Qingchuan were racing wildly under the crowd. A big shadow fish rushed out, and Mu Qingchuan waved his hand. With a flash of white light, it was directly crushed into pieces.

Chu Linyuan shouted, "There is a suppressing power here... No, there is no law in this space, and I can't feel the opportunity to make a breakthrough."

Jiang Qin said, "This is a battlefield of death, and some strong master sealed it, leaving no one a chance to make a breakthrough here. So I need to find a place to break through to be a peak-level Hidden Fisher first."

Han Fei was speechless. *So you are holding down your strength just to make the breakthrough here?*

Chapter 889: Soul Eaters

The sea demons' charge was destined to be in vain. If humans chose to fight, they might have a chance.

However, the human fishers chose to run in different directions, but the sea demons could only aim in one direction if they made a charge forward. Therefore, the sea demons had to stop and scatter around like the others.

Otherwise, on this huge ancient battlefield, their efficiency would be extremely low.

However...

When the humans and sea demons entered this space, in many places, sand and rocks were trembling, and black shadows were slowly emerging.

Unfortunately, no one noticed this subtle change.

After rushing forward about half an hour, Han Fei and the other eight had been separated from the main group, and there was no one around them.

Chu Linyuan glanced at Wang Dashuai and said, "Door."

Wang Dashuai suddenly jumped up, and the big door he had been carrying reminded Han Fei of the Three Death Doors.

However, unlike the Three Death Doors, this door turned into hundreds of door shadows, slamming on the ground with a bang.

Chu Linyuan shouted, "Qing'er!"

Mu Qingchuan raised her hands, and blades of grass flew across, covering all the doors within tens of meters. Immediately afterwards, everything became transparent.

Chu Linyuan said, "Han Fei, there are only three of us here. I heard that you're an array master. Can you set up a Concealment Array?"

Han Fei grinned. "Sure."

He drew lines in the air with a hand. In a moment, the nine lines dropped to the ground, directly hiding everything within a range of 100 meters.

Chu Linyuan said leisurely in surprise, "Oh! Junior Brother is very good at arrays!"

"I'm flattered."

Han Fei could tell that among the three of them, Chu Linyuan was the leader. All it took was a few words and a look from him and Wang Dashuai and Mu Qingchuan could understand what he meant.

At this time, Han Fei glanced at Luo Xiaobai but the latter rolled her eyes at him. *Have you ever listened to me?* he thought.

Jiang Qin directly took out a lot of spiritual spring energy, which turned into gas and frantically rushed into her body.

Crack! Crack!

Jiang Qin, who was originally an intermediate Hidden Fisher, was upgraded by a level almost instantly.

Under the public stare, Jiang Qin's strength was rapidly increasing. It only took half an hour for Jiang Qin to make a breakthrough.

Advanced Hidden Fisher?

No, this wasn't over yet, Jiang Qin's strength was still increasing crazily.

After another half an hour, with a click, her strength surged again and she became a peak-level Hidden Fisher.

Han Fei and the others were stunned. How could she make the breakthrough so fast?

Mu Qingchuan smiled and said, "Senior Sister is different from us. Senior Sister is re-cultivating. She has experienced all the realms."

Han Fei asked in shock, "Re-cultivating?"

Luo Xiaobai and Zhang Xuanyu were also shocked. This was incredible! To start from scratch, how much courage would it have to take?

Le Renkuang asked with a shudder, "Then how strong... Was Senior Sister before?"

Mu Qingchuan smiled naughtily. "She used to be a Law Enforcer."

Han Fei was stunned for a moment. "Then why did she re-cultivate?"

Chu Linyuan said, "Because she was not strong enough."

These words hit the hearts of everyone. She re-cultivated because she wasn't strong enough. This... This was too domineering. Not everyone had this kind of courage.

At least, Han Fei didn't think he did.

Han Fei couldn't help asking, "So what law did Sister Qin enforce?"

Chu Linyuan said leisurely, "Kill."

"Huh!"

Suddenly, Jiang Qin got up, twisted her head a little, and said casually, "I've just reached the peak level, so my body hasn't adapted yet... But it doesn't matter. Let's go."

Then she glanced at Wang Dashuai. "Withdraw."

At the moment when Wang Dashuai took back his big door, an armor box suddenly appeared beside Bai Lu.

As soon as the armor box was opened, nine mystic lights shot out, and a huge shadow fell on the ground. When everyone took a closer look, they were surprised to find that it was a humanoid monster!

This thing had the body of a mermaid but had two pincers, and there were six thin claws under each pincer.

As for its face, it was completely deformed. On this face, there was only a big mouth, which was full of sharp teeth, and two shrimp-like eyeballs.

In Han Fei's eyes, data emerged.

<Name> Soul Eater

<Introduction> In the land of restless souls, the death energy gathers, and the dead souls gradually gain consciousness and devour each other. Thus, soul eaters of various shapes are formed. Soul Eaters like to eat souls and possess humans. Once targeted by a Soul Eater, one either has his soul eroded or is possessed. Soul Eaters may have a variety of combat characteristics, each of which is different.

<Level> 55

<Quality> Immortal

<Contained Immortal Energy>16,895 points

<Collectible> Immortal Energy, Pure Soul Bead

<Abspearlable>

"Wow!"

Seeing this thing, everyone was dumbfounded. What kind of monster was this? It didn't look like a human, a shrimp, or a worm, but like a combination of many ghosts.

But Jiang Qin said, "It's a Soul Eater, a deformed cannibal creature. Remember, their fighting states are different. Some will attack, and some will parasitize, and if you meet one, kill it directly."

As she spoke, two swords suddenly appeared in her hand. She slashed, and a domineering and strong killing intent ran over the Soul Eater and directly chopped it into pieces.

Then Jiang Qin stepped forward and found a milky white bead in a cloud of dirty water.

Le Renkuang said, "What is this?"

Jiang Qin explained, "A Pure Soul Bead. This thing contains some ownerless souls, and it is precisely because of this pearl that Soul Eaters will have combat consciousness. This object can be swallowed directly, which can increase your soul power. But there should be restrictions. It should not be of much use to people whose soul power is comparable to that of a Law Enforcer."

Le Renkuang and the others shuddered, and Zhang Xuanyu said in disgust, "Eat that?"

Jiang Qin said, "No matter how filthy it looks, this bead is pure. If you want to quickly increase your soul power, this thing can be considered a shortcut. If there is no accident, how much it can improve your soul power depends on how many Soul Eaters you can kill and your own potential."

Han Fei chuckled and patted Zhang Xuanyu and Le Renkuang on the shoulders. "I think it's okay. You can't say it's useless just because it's ugly, right? But, Sister Qin, what is immortal energy?"

Jiang Qin glanced at Han Fei in surprise. "How do you know about immortal energy?"

Han Fei thought, *I have seen it several times. I knew it from the first time I met the immortal soul. But how can I collect immortal energy? I don't have any immortal energy in my body.*

Han Fei smiled honestly. "I heard it from a sea demon."

Chu Linyuan and Mu Qingchuan were surprised. Would sea demons tell you about this?

Wang Dashuai explained to the two of them. Chu Linyuan and Mu Qingchuan exchanged a glance. Their Junior Brother has been through a lot!

Jiang Qin didn't think much and replied directly, "Immortal energy is the power needed only by undead creatures, equivalent to spiritual energy to us, and demonic energy to sea demons. If one day you become an undead creature and still have consciousness, maybe you can cultivate into an immortal spirit with the help of immortal energy."

The corners of Han Fei's mouth twitched. *Then forget it! Who wants to cultivate themselves into an immortal spirit?*

Jiang Qin said, "Let's go! If I've guessed right, this ancient battlefield is huge and may be full of all kinds of ancient remnants. Let's look for them... As for Sea Tokens, no rush. We'll maybe find them along the way."

No one had an objection and they began to swim aimlessly.

Unexpectedly, after half an hour, they encountered neither humans nor sea demons, although they met as many as 20 Soul Eaters.

Han Fei didn't even need to stop as Jiang Qin and the other big shots had solved them.

"Wait a minute!" Luo Xiaobai said suddenly.

As soon as Luo Xiaobai said so, Han Fei knew what she meant.

Jiang Qin and the others: "???"

Luo Xiaobai said, "Senior Brother, Senior Sister... Let's go separately! After all, we should rely on ourselves. I think we can handle these Soul Eaters. There should be no problem if we go separate ways."

Chu Linyuan said, "Little Junior Sister, you underestimate this ancient battlefield. All of these creatures we have encountered now are only small potatoes. The real danger still lies ahead."

Luo Xiaobai nodded. "Senior Brother, we have our own paths to walk. The nine of us put together are very strong, but too strong. All five of you are peak-level Hidden Fishers. It's not good for our growth if we just rely on you."

Han Fei echoed, "Sister Qin, I agree with Xiaobai. It is better for us to be divided into two teams. If we stay together, it'll be too slow. Then how can we scramble for treasures with others?"

Bai Lu said with concern, "Little Junior Brother, if we are together, we can almost be invincible."

Han Fei grinned. "Sister-in-law, don't forget. We are also the strongest among our peers."

Zhang Xuanyu and Le Renkuang also nodded. They didn't want to swim behind their asses! That would be a waste of this great chance!

Hearing their words, Wang Dashuai and the others exchanged glances.

Jiang Qin glanced at Han Fei. "Okay! Let's separate. Gather at the entrance of the underground city later."

After they separated from Jiang Qin and the others, Zhang Xuanyu said in relaxation, "This feels much better. It's very uncomfortable staying with them."

Le Renkuang nodded repeatedly. "With them, we didn't have to do anything at all!"

Luo Xiaobai said, "Let's go. The four of us shall not separate. This time, a lot of strong people have come in. If we come across a peak-level Hidden Fisher, we will have to be careful. The top priority now is to find the sealing object and look for opportunities along the way."

"OK!"

Chapter 890: Encountering A Battle

After separating from Jiang Qin and the others, Han Fei summoned Little Black and Little White.

Han Fei touched Xiaobai's head and said, "Girl, find us treasures here."

Luo Xiaobai and the others had known that Han Fei would use Little White to find opportunities, so they were not surprised at all and they looked at Little White expectantly.

However, Little White spun around in the water, and then looked at Han Fei blankly.

Han Fei's heart did a flip... It meant danger!

He immediately said seriously, "There are opportunities in all directions, but they are all dangerous."

Luo Xiaobai said in surprise, "All directions?"

Han Fei nodded solemnly. "Yes, it means that no matter which direction we go, danger and opportunity coexist."

Zhang Xuanyu said, "Then let's just pick a direction randomly."

Han Fei nodded. "I think so too. In this ancient battlefield, there are Soul Eaters, but definitely not only Soul Eaters."

Luo Xiaobai nodded. "Okay!"

...

When they had just travelled over a thousand meters, they met another Soul Eater, which was different from the one they met previously. It was snake-shaped with claws and a fish head.

Zhang Xuanyu shouted, "Let me try."

Zhang Xuanyu seemed to have practiced a new soul attack method. An illusory spear flashed out from between Zhang Xuanyu's eyebrows, and pierced the long tail of the Soul Eater in an instant.

The latter screamed and spat sound waves from his fish mouth, setting off ripples in the sea. At the same time, two giant claws suddenly emerged from the void, grabbing at Zhang Xuanyu.

Clang!

A big shield appeared in the air. Le Renkuang raised the shield to parry the claws, and even the flesh on his face was deformed by the huge force. The Soul Eater's attack was blocked by Le Renkuang.

Luo Xiaobai's eyes turned white, and blue vines emerged from the ground, trying to buckle the Soul Eater.

However, at the moment when the vines wrapped around it, many strange scales erected on this Soul Eater and quickly chopped these vines.

Seeing this scene, Luo Xiaobai attacked again. "Spirit Summoning."

This time, what appeared were no longer the faint blue vines but dark, thin vines. These thin vines, like maggots, quickly attached to this Soul Eater.

Han Fei asked in surprise, "What is this? I haven't seen you use it before!"

Luo Xiaobai responded, "I tried to summon spiritual plants in this ancient battlefield and got these vines."

While the vines wrapped the Soul Eater, they also drilled into its body. Zhang Xuanyu activated the Instant Mystic Spear and exploded the Soul Eater's head.

Zhang Xuanyu looked back at Luo Xiaobai in surprise. "These vines seem very strange, very tough, like a kind of steel thorn."

Luo Xiaobai nodded. "This means that in this ancient battlefield, there are still spiritual plants. But this kind of spiritual plant has the ability to devour souls. If we encounter them, we must be careful."

Han Fei didn't launch any attacks. His current strength was stronger than Luo Xiaobai and the others. If he attacked the enemies, the others wouldn't have a chance to fight.

Han Fei said, "Yuyu! How long will it take for you to kill such a creature alone?"

Zhang Xuanyu shrugged helplessly. "I need two or three minutes if I try my best, and normally, it may take more than ten minutes. If I met two, I would need at least thirty minutes. If it's three... I'd have to run away."

Le Renkuang said, "If I use the Sky Swallowing Technique, I can deal with three."

Luo Xiaobai nodded. "Me too."

Han Fei breathed a sigh of relief. "That's good enough. I won't fight in the following battles. Let's find the ruins as soon as possible."

Luo Xiaobai frowned slightly. She knew that Han Fei should be able to deal with many alone. At this moment, the three of them were a burden to him.

Luo Xiaobai asked, "Do you want to explore alone? If the three of us stay together, we should be able to defend ourselves."

Han Fei shook his head. "Now the Soul Eaters usually appear alone, so you can easily kill them. But once dozens of them appear together, you may be in danger. Besides, I am not worried about Soul Eaters, but the real danger."

Le Renkuang sighed. "Alas, we seem to be a burden to you."

Han Fei laughed. "Shut up, just be quick! Otherwise, the chance will be snatched by others or sea demons."

...

Half an hour later...

They killed more than 30 Soul Eaters along the way, and Han Fei didn't take a single Pure Soul Bead. Compared to him, Luo Xiaobai needed these items more.

At this moment, they just regarded this relic exploration as a pure journey of practice.

Le Renkuang activated the Sky Swallowing Technique and slashed a Soul Eater, grinning. "Go, continue."

Suddenly, Han Fei said, "Wait, there is a team of sea demons."

Luo Xiaobai immediately looked at Han Fei. "How many of them?"

Han Fei replied, "On the left, more than 50 kilometers away, 6 sea demons, but their strength is unknown."

Zhang Xuanyu grinned immediately. "Go, let's meet them."

...

The other end.

Yu Xi was leading five sea demons looking for ruins. His Associate Spirit, with a weak power of perception, led them all the way here.

Yu Xi said, "Attention, everyone, the ruins I perceived should be nearby. Let's look for them."

After about an hour.

Yu Xi suddenly raised his head. "Attention, there are 4 human beings... Humph! Their perception ranges are smaller than mine. They should also be looking for the ruins. Let's rush over and kill them."

Someone smiled. "Haha, only 4? Although there are too few of them, this will be fun!"

One of them bared their teeth. "Kill!"

...

Zhang Xuanyu asked, "Can we attract them by pretending to be weak?"

Han Fei smiled and said, "Trust me, sea demons are more combative. Besides, they don't have much brains. We will pretend to look for opportunities, but get discovered by them. What does this mean? It means they will think that our strength is weaker than theirs!"

Le Renkuang smirked. "You're really cunning."

Smack!

Han Fei patted his head. "What are you talking about? This is called experience."

Then he smiled and said, "Here they come. Let's not run."

Zhang Xuanyu was stunned. "If we don't run, won't they suspect us?"

Han Fei sneered. "In this damn place, once you run, you will 100% encounter Soul Eaters. Do you want to fight the sea demons and three or five Soul Eaters at the same time?"

Luo Xiaobai had been perceiving. Unfortunately, there were no spiritual plants here, so her perception range was not large.

When the sea demons were only 20 kilometers away from them, Han Fei suddenly said, "Okay, prepare for combat."

Le Renkuang immediately put his armor box on the ground, and Zhang Xuanyu held a stick and fused with his Bloodthirsty Shark.

Yu Xi roared, "The other party doesn't dare to run. Although it's a little troublesome, we've gotta kill them."

Swish, Swish, Swish...

The six sea demons activated the Sea King Secret Method almost at the same time.

Han Fei just smiled coldly. *They don't even have any Semi-Divine weapons. They are no threat to us.*

Han Fei said immediately, "I'll leave them to you three."

Zhang Xuanyu grinned. "Okay! Just don't let them run away."

Both sides could already see each other.

However, when these sea demons rushed over, five Soul Eaters also appeared.

Han Fei cursed secretly. "These idiots."

"Kill!"

When the two sides were only 300 meters apart, Zhang Xuanyu immediately launched an attack.

"Momentary Time!"

A Half-Mermaid suddenly froze in the air because a stick suddenly poked between her eyebrows, and in the next second, her head burst.

"Soul Summoning!"

Gray vines popped up from all directions and crazily whipped at the opponents.

Le Renkuang rushed forward tens of meters and suddenly jumped up. Then with a boom, a big hole appeared. Two Sea King Strikes directly hit the hole and disappeared without a trace. As Le Renkuang stretched out his hand, swords poured out of the armor box, and the Bloodthirsty Broadsword cut at one sea demon.

As for Han Fei, he glanced at Luo Xiaobai and said, "The leader is an advanced sea demon, not easy to deal with."

Luo Xiaobai suggested, "You deal with the Soul Eaters, and we'll solve these five."

Han Fei nodded and spread out the Phantom Glass Wings, flying past these sea demons swiftly with a swoosh.

"Phantom Glass Wings? Oh, he is Han Fei!"

These five people were horrified. Blue Feather personally issued a killing order on this guy! Could he be easy to cope with? In an instant, he had killed one of them, which showed that he was extremely strong.

But what they didn't expect was that Han Fei swept past them and rushed to the five Soul Eaters without paying attention to them at all.

"Run!"

Their first reaction was to run.

They knew what Han Fei's action meant. This meant that even if the opponent had only three people who were only junior Hidden Fishers, they could still kill them.

Luo Xiaobai's eyes whitened. "Spirit Summoning, Parasite."

Zhang Xuanyu grinned. "Instant Mystic Spear!"

...

As for Han Fei, he launched an attack even faster than Luo Xiaobai and the others.

Boom! Boom! Boom!

A golden fist mark swooshed out, and Han Fei shattered a Soul Eater with only three punches.

Then he threw out the Void Lines. Although these Soul Eaters had consciousness, they were not as smart as humans, and two of them were directly caught up by Han Fei.

Swish!

He launched the Draw Technique and the remaining Soul Eaters were chopped by Han Fei with a single slash.

During the attack, Han Fei felt a tingling in his brain, but it was not strong. He sneered at the weak soul attacks of these Soul Eaters.

“Puff, Puff, Puff!”

Within two minutes, four Soul Eaters were killed. There was only one left, and Han Fei was controlling it to “attack” him.

After studying for a while, he found that the soul of the Soul Eater was filthy and full of killing intent. So, he just chopped it in half.

Putting away its Pure Soul Bead, Han Fei looked back and found that there were only 2 sea demons left.

Six had come, but there were only two left in a couple of minutes. This was the combat power of Han Fei’s team.
