

Chapter 891: Soul-Eating Spider

Han Fei had quickly killed these Soul Eaters, and then he stood aside and watched leisurely as Zhang Xuanyu and the others used the two remaining Half-Mermen as training partners.

Zhang Xuanyu was dealing with one in the realm of an intermediate Hanging Fisher. In terms of strength, Zhang Xuanyu, who didn't use the Majestic Mystic Spell, was much weaker than him.

However, Zhang Xuanyu was very proficient in stick techniques. His flamboyant stick combat skills could narrowly block the bombardment from the Half-Merman.

Lots of Le Renkuang's ultra-quality spiritual weapons were broken. He was forced to use the Majestic Mystic Spell and fought hand-to-hand with the Half-Merman in the advanced Sea Demon Realm. Assisted by Luo Xiaobai, he almost defeated the Half-Merman.

Han Fei watched with great interest and shouted from time to time, "Yuyu! Your physique is still a bit weak. You've gotta work at it."

"Kuangkuang, you have a level-7 spiritual heritage, how come you haven't killed this sea demon yet?"

"Xiaobai, your Parasitic Technique is not powerful enough!"

Parrying the enemy's attack, Zhang Xuanyu responded, "I'm just practicing. The more we fight in this kind of battle, the greater the benefits."

Le Renkuang said, "Make me more Semi-Divine weapons! Now, ultra-quality spiritual weapons are not good enough. They break too easily!"

An hour passed in a flash.

The Half-Merman of the advanced Sea Demon Realm tried to escape twice but was blasted back by Han Fei with a punch.

Han Fei sneered. "It's your honor to be our whetstone. You should be thankful."

Yu Xi almost burst into tears. *These humans are too strong! I can't believe they're only junior Hidden Fisher! How could they take us as their sparring partners?*

Especially this manipulator. She has a lot of moves, and various spiritual plants that pop out of her body from time to time, some sucking spiritual energy, some poisonous, and some piercing into flesh and blood.

"Hooooooo!"

"Sea God Strike."

As Yu Xi struck back with all his strength, a shadow fell and the horrible power was as powerful as a tide.

"Divine Turtle Shield."

Clang~~~

Le Renkuang retreated two or three steps and then rushed up again.

Seeing this scene, Yu Xi was dumbfounded. *This guy was unscathed?*

Han Fei wasn't surprised at all, however. If Le Renkuang couldn't even parry this blow after activating the Majestic Mystic Spell, he couldn't be called a Heavenly Talent!

However, when Han Fei was watching the show, he suddenly felt that a powerful breath was approaching. He perceived and found that more than 80 kilometers away, there was power gathering, and after a while, a spider monster nearly 100 meters long appeared.

Han Fei immediately frowned and shouted, "Zhang Xuanyu, Xiaobai, end the battle. Here comes a powerful enemy."

Hearing what Han Fei said, the other three all frowned. A powerful enemy that could make Han Fei nervous was definitely not something these sea demons could compare to.

"Hoooooo!"

"Knife Burial Technique."

Le Renkuang shouted, and hundreds of huge knife shadows descended from the sky.

At the same time, seven or eight kinds of spiritual plants suddenly popped out of Yu Xi's body. His flesh and blood were drying up, becoming the fertilizer for the spiritual plants.

Zhang Xuanyu shouted, "Majestic Mystic Spell," and the next second, Momentary Time was activated and the Half-Merman was pierced through.

Buzz!

Le Renkuang also beheaded his opponent.

Han Fei immediately sent a large amount of spiritual energy into the bodies of the three of them. And Le Renkuang and Zhang Xuanyu simultaneously put an energy fruit into their mouths.

This kind of rigorous battle was quite energy-consuming. Since a powerful enemy was coming, they must replenish their energy.

Luo Xiaobai asked nervously, "What's coming?"

Han Fei said, "I believe it's a Soul Eater, but like a big spider. However, it has human hands... And is one hundred meters long, like a small mountain."

"Hiss!"

Zhang Xuanyu was shocked. "Feifei! Are you sure we can beat this thing?"

Le Renkuang was also dumbfounded. "Feifei! Isn't this too strong for us?"

Luo Xiaobai, without a word, had already begun to summon a large number of gray vines. Within a few hundred meters, lots of gray vines emerged from the ground, entangling with each other and integrating into larger vines.

Han Fei said, "I'll take a look. If we have no chance to beat it, let's run away."

Whoosh!

Han Fei hurried out and flew towards the big spider. Along the way, some small Soul Eaters showed up but were easily crushed by Han Fei, who didn't even have the time to get the Pure Soul Beads.

A moment later, when Han Fei was less than 100 meters away from the big spider, he was horrified, not by its strength, but its look.

Looking in person, he could better feel how disgusting this monster looked.

The big spider's mouth was more like a centipede's mouth. On its body, there were more than 30 finger-like bones hanging. Its head and abdomen were filled with crimson red eyes.

From its big belly, pus-like viscous liquid was dripping out.

In his eyes, information emerged.

<Name> Soul Eater

<Introduction> In the land of restless souls, the death energy gathers, and the dead souls gradually gain consciousness and devour each other. Soul Eaters of various shapes are thus formed. Soul Eaters condense solid bodies and like to feed on souls, flesh and blood. Soul Eaters may have a variety of combat characteristics, each of which are different.

<Level> 61

<Quality> Immortal

<Contains immortal energy> 46,895 points

<Can be collected> Immortal Energy, Pure Soul Bead

<Absorbable>

When Han Fei saw the information clearly, he suddenly felt that the surrounding seawater became viscous. Countless soul strands were shooting at him, trying to attach to him.

He punched out, forcibly blasting through the barrier of the soul strands, and then quickly ran back.

As he ran, he said to the other three via voice transmission, *This is not a normal Soul Eater, but a soul-eating beast. Sea Spirit level, capable of soul attacks...*

Han Fei frowned. A soul-eating beast could reach the Sea Spirit level, which meant only outsiders couldn't make a breakthrough here, but they were not subject to this restriction.

Swish, Swish, Swish!

One soul strand after another emerged from the void and shot directly at Han Fei. The speed was so fast that Han Fei had to flash from time to time.

He used the gravity attack, and the soul-eating spider stumbled and plunged to the ground. However, the latter got up immediately, crawling quickly.

Han Fei frowned. Could he let Luo Xiaobai and the others face up to a Sea Spirit-level creature?

But if they had to stay in this sea area for a long time, they would certainly meet more than one soul-eating beast. It was necessary for them to get to know about the fighting method of soul-eating beasts in advance.

Han Fei immediately said, "Xiaobai, I've attracted it over. Stay away from me. Let me kill it. But pay attention to how this soul-eating beast fights."

Hearing his words, Luo Xiaobai immediately said to Zhang Xuanyu and Le Renkuang, "Split up in three directions. Let Han Fei solve this beast."

They were a team that worked well together, so they believed Han Fei must have had a reason for not allowing them to participate.

Otherwise, from what they knew of Han Fei, he would definitely watch them fight the beast on the side leisurely.

After a while, when the other three saw the big spider, they felt a chill down their spines.

Le Renkuang shivered and said, "This looks too disgusting, right? Why is the ancient battlefield full of this stuff?"

"Gulp!"

Zhang Xuanyu swallowed and said, "No wonder Feifei doesn't let us fight it. This beast seems hard to solve!"

Luo Xiaobai shouted in a stern voice, "Zhang Xuanyu, use all your secret methods and attack the spider's eyes. Le Renkuang, check if the Torrents of Knives and Swords works on it. If it doesn't, try to attract its attention and create chances for Han Fei to attack it."

"Understood!"

The three of them retreated at least more than 2,000 meters.

Han Fei flashed all the way, attracting the big spider into the gray vines.

At the same time, he took out a mint leaf and stuffed it into his mouth, shouting in a low voice, "Fuse."

When the Yin-Yang Divine Eyes were activated, Han Fei's reaction speed increased again. His purpose was not to quickly kill this soul-eating beast but to understand its fighting habits so that Luo Xiaobai could analyze more information.

Therefore, Han Fei didn't use the Void Lines or the Sacrificing Punch but drove the Infinity Water to run over the soul strands. Then he activated the Art of Invincibility technique to attack the spider.

Boom! Boom! Boom!

In the blink of an eye, dozens of golden fist marks blasted out.

However, the human finger-like bones hung on the spider's body fell off, and blocked his punches.

However, after Han Fei activated the Overlord's Technique, even ordinary peak-level Hidden Fishers could be shattered by his single blow, not to mention these bone scum!

Crack, Crack, Crack!

In the blink of an eye, half of the bones shattered.

Han Fei's figure was erratic, and the second round of golden fist marks blasted out, and the bones were all shattered. Among them, seven or eight golden fist marks fell on the big spider, blasting several bloody holes.

Luo Xiaobai said immediately, "Its defense is not strong... Parasitic Technique!"

Instantly, a large swath of vines and thorny blades of grass emerged from the spider's body.

"Puff!"

Zhang Xuanyu burst the spider's eyeball with the Momentary Time. Le Renkuang roared and poured the Torrents of Knives and Swords directly into the big spider's body through the blasted hole.

Roar...

The big spider stood up and released a power similar to Soul Explosion in front of Luo Xiaobai, Zhang Xuanyu, Le Renkuang, and Han Fei.

Boom...

"Puff... Puff... Puff..."

They were all shaken and bloody. Zhang Xuanyu and Le Renkuang directly vomited blood.

Luo Xiaobai's face changed drastically. "Le Renkuang, step back."

Han Fei's soul strength was not weaker than this big spider, but he was also shocked to find himself bleeding. However, he didn't care. His golden fist mark was about to attack the eyeballs of this big guy.

However, the eyes of this big spider suddenly glowed red.

Han Fei frowned and shouted, "Retreat!"

Chapter 892: Seven and A Half Semi-Divine Weapons

In a flash...

At the moment when its eyes turned red, Han Fei blasted dozens of golden fist marks. However, ten Void Lines were wrapped in the fist marks.

Hum!

A weird red mist appeared, and Han Fei suddenly felt that he was entangled by thousands of spider silks, and he was so sleepy that he could fall asleep at any time.

Fortunately, the mint leaves in his mouth kept him awake.

Han Fei hurriedly used the law of gravity, directly pressing down the big spider on the ground.

At the same time, Han Fei felt that his brain was about to explode after the Void Lines hung on the filthy soul of the big spider. It was an extremely fierce and bloodthirsty feeling. All kinds of negative emotions rushed into his body.

Buzz!

The Infinity Water returned, directly tearing apart the invisible force around Han Fei. Han Fei roared and fist marks punched out.

Boom!

The huge spider head was shattered by Han Fei's punch, and most of its body also exploded.

After killing the big spider, Han Fei didn't pick up the Pure Soul Bead but quickly swam towards the other three.

Fortunately, the weird power that the big spider mustered only made Le Renkuang sleep. Because he killed it fast enough, Zhang Xuanyu and Luo Xiaobai just had heavy eyelids.

After a moment.

Han Fei shook Le Renkuang awake.

Le Renkuang opened his eyes in a daze. "What's wrong? Is it time for dinner?"

Han Fei was immediately exasperated. "Are you stupid? We were almost eaten."

Han Fei couldn't help feeling scared. *Is the power of the law of the big spider to make people sleep?*

He could imagine what would happen if he failed to block its soul attack! They would probably end up in its stomach.

When Le Renkuang remembered the scene just now, he was trembling with fright. "It's horrible! Did we almost get eaten?"

Zhang Xuanyu said grumpily, "Even if we were eaten, you would have been eaten first because you are the fattest."

Luo Xiaobai had calmed down. "From this soul-eating beast, it can be seen that in terms of strength and speed, it can't compare with a real Law Enforcer. However, its methods are horrible. Those eyes should be the source of their power. Otherwise, they would not have such a strong hypnotic effect. Its body is not tough. I can basically conclude that the body condensed by such immortal creatures may not be strong, but I'm not a hundred percent sure. Maybe occasionally there are a few with tough bodies..."

Zhang Xuanyu held Luo Xiaobai's vines and gasped. "This thing's Soul Explosion was really powerful."

Luo Xiaobai shook her head. "No, not powerful enough. Think about it, your Soul Explosion is also powerful. If you reach the realm of Law Enforcer, what would your Soul Explosion be like?"

Zhang Xuanyu was taken aback for a moment. "Maybe it could blow the spider to death."

Luo Xiaobai nodded. "That's right. Its soul attack is not as powerful as it seems, but it is also extremely dangerous. In general, it can be concluded that the soul-eating beasts are relatively weak. If we chose to

escape in the first place, maybe it wouldn't chase that far, and wouldn't have the opportunity to catch us."

Han Fei said, "But it was new to the Sea Spirit level. What if there are more powerful Sea Spirit-level creatures?"

Luo Xiaobai said solemnly, "This is what I wanted to say next. Although we are the only ones here, the creatures here can fully grow into the Law Enforcer realm. In other words, the danger here is greater than we thought. Especially in the places with relics, the odds of the presence of such a creature will increase."

Han Fei took out a large Pure Soul Bead from the body of the spider and threw it to Le Renkuang. "You are weak in soul power. You should take this chance to swallow more of this stuff."

Le Renkuang didn't reject it. It was a fact that he was weak in the soul, which the battle just now had proven. Le Renkuang hurriedly said, "OK, I'll eat more Pure Soul Beads."

Luo Xiaobai nodded. "But not now. Where did the beast come from? Let's go there. Maybe there are some relics there. The place where such a powerful creature guards can't be simple."

Everyone nodded. Their way was littered with bodies of the Soul Eaters that were just killed by Han Fei, and Le Renkuang hurriedly ran over and took out the Pure Soul Beads.

Luo Xiaobai searched in the Sea Swallowing Seashells of the Half-Mermen that she had just killed, and then said, "There are very few things on them. Only a few more than 30 Pure Soul Beads in total. Here you are."

Han Fei said, "Wait a minute. Give me one. Let me taste it and see how much soul power it contains."

Luo Xiaobai handed one to him. "Although this pure soul power can be absorbed directly, it doesn't mean that this part of soul power can immediately become a part of yours, and it also takes time to digest. If you take a large amount of it, you may be able to absorb a little bit more, but you can't absorb it completely."

Han Fei put it in his mouth casually, and instantly, a familiar feeling came straight into his mind.

However, after feeling it for a while, he shook his head slightly. "It's too little!"

This was even less than the soul power he could absorb through the Void Lines.

Han Fei still remembered that the soul power he had absorbed via the Void Lines was transformed into only less than 200 points of spiritual power. This Pure Soul Bead didn't even give him half of it.

Although he was now bottlenecked in all aspects, he had had some experience.

Zhang Xuanyu also took one and stuffed it in his mouth. "Is it really too little? Huh, that's a lot!"

Le Renkuang was speechless. "Hey, you two are both strong in soul. Why did you take my Pure Soul Beads?"

As he said this, he threw a Pure Soul Bead into his mouth as if it was a jelly bean and then exclaimed, "You call this 'too little'?"

Luo Xiaobai said, "Stop eating. We've arrived."

There was a big cave in the ground.

Judging from the traces of the cave, it looked like a nest. Sealed sandworms would expose their heads when they searched for food... Therefore, the big spider must have occupied this place and used it exclusively for a hunting ground.

Luo Xiaobai issued an order in her heart, and a large swath of vines drilled into the cave. After a while, she said, "There is no threat but some bones and weapons."

Hearing there was no threat, everyone jumped in.

The big spider was big, so the cave was also big. When they came to the cave, Han Fei saw many bones in the muddy pit-like cave. Some bones were pale golden, but so much time had passed that the bones had lost their luster.

"Wow!"

Le Renkuang quickly ran to a corpse and drew a long knife. As he shook it, the knife shone brightly.

"Wow! Is this knife a Divine weapon?"

Han Fei took out the Blood-Drinking Knife and cut at the other knife. As a clang was heard, he said in surprise, "A Semi-Divine weapon."

"Semi-Divine weapon?"

Le Renkuang was immediately overjoyed. "Wow, I'm really lucky!"

Zhang Xuanyu quickly checked the bones and said, "Lucky? Could you have solved the spider if you had come alone?"

"Heh heh!"

Le Renkuang smiled shyly and found a large shield in the mud of another place.

Clang~

"A Semi-Divine weapon again?"

Even Han Fei was speechless. *Were ancient people so rich? Why are there Semi-Divine weapons all over this cave?*

Zhang Xuanyu said, "Come on, let's check if there are any sticks. Han Fei said he would make me a stick, but he hasn't given one to me yet..."

Han Fei curled his lips. *I'm busy, OK?*

Han Fei perceived and was then taken aback.

Han Fei manipulated the Infinity Water to spin on the ground and actually dug out a stick.

Zhang Xuanyu's eyes lit up. "A Semi-Divine weapon?"

Han Fei smiled. "Be careful. There are many Semi-Divine weapons on the ancient battlefield, which is definitely not a good thing."

Luo Xiaobai nodded. "Yes. Obviously, firstly, their enemy was very strong at the time. Then, will we encounter such an enemy next? Secondly, Semi-Divine weapons are not rare here. If we can get some so easily, others will be able to too."

After a while, in this cave, a total of 7 Semi-Divine weapons were dug out. Except for a pair of daggers and a stick, all the others were taken by Le Renkuang.

Han Fei was speechless. "Fine, I'll keep the daggers. Xiaobai, you really don't need a weapon?"

Luo Xiaobai looked at Han Fei. "If you can make some for me, I want a long whip and a battle suit, Divine level."

Han Fei grinned. "Let's talk about it when we go back."

Han Fei was a bit excited. "Well, let's find another soul-eating beast and get as many Semi-Divine weapons as we can. Then I will melt them and make Divine weapons."

Zhang Xuanyu nodded repeatedly. "Good idea."

Le Renkuang also nodded hard. "I agree, I can't agree more. My armor box is not full yet."

Everyone: "..."

Chapter 893: Kill the Half-Mermen

After Le Renkuang and Zhang Xuanyu both refined their Semi-Divine weapons, Han Fei said leisurely, "We're here for the ruins. However, this is obviously not the ruins we are looking for. Little White can't sense Semi-Divine weapons."

Luo Xiaobai's eyes lit up. "So, there still must be a ruin near here."

Han Fei nodded. "Yes, it shouldn't be far away. Otherwise, it doesn't make sense that we dug up 7 Semi-Divine weapons so easily."

Zhang Xuanyu curled his lips and said, "Maybe, in ancient times, the worst weapon was a Semi-Divine weapon?"

Han Fei looked at Zhang Xuanyu speechlessly. "Do you believe that?"

Zhang Xuanyu chuckled. Indeed, he didn't believe it. A Semi-Divine weapon was very precious!

Maybe most weapons left had rusted away and only the Semi-Divine weapons were tough enough to survive!

They had just come out of the cave and suddenly looked in one direction at the same time. There was a faint water ripple as if someone was fighting.

Han Fei smiled with joy. "Let's go and take a look."

This was the case in the sea. Most marine creatures could sense what kind of creatures were nearby through sounds and waves.

Han Fei and the others didn't have this ability, so they could only go check it.

Of course, Soul Eaters inevitably appeared along the way.

Luo Xiaobai directly went invisible.

Han Fei killed one with each slash he made, which shocked Zhang Xuanyu and Le Renkuang.

Zhang Xuanyu exclaimed, "Feifei! How strong are you now? Are you really a human being?"

Han Fei suddenly slapped his thigh. "Sh*t."

Luo Xiaobai asked, "What's wrong?"

Han Fei said a bit guiltily, "I forgot to tell you something."

Le Renkuang tilted his head. "What is it?"

Han Fei said in a small voice, "It's not that important. Even if I tell you, it may be useless to you for the time being."

Zhang Xuanyu said anxiously, "Just say it!"

Han Fei said leisurely, "Spiritual energy can be disassembled and concentrated..."

Zhang Xuanyu was angry. "Why didn't you tell us such an important thing earlier? No wonder your strength has improved so much! So you can use a point of spiritual energy as two points, and the power is doubled?"

Han Fei laughed awkwardly. "Not that much, but it'll be much stronger indeed. In the same realm, if you learn to disassemble spiritual energy, you can almost crush your opponent, but of course, Heavenly Talents may be an exception."

Luo Xiaobai's eyes widened. "This matter needs to be put on the agenda. I'll try it when I go back."

Hum!

A wave of water was coming against them.

Their pupils constricted slightly, and Luo Xiaobai frowned. "Poison."

Han Fei felt it too. However, the Heaven Spirit Detoxifying Insect only moved slightly, indicating that the toxin was not a lot.

Zhang Xuanyu and Le Renkuang immediately activated a spiritual energy protective cover to block the poison.

A moment later, Han Fei perceived that 20 Half-Mermen were fighting a weird crab that was also a Soul Eater.

Han Fei laughed. "The sea demons are fighting a Soul Eater. Let's sneak over in stealth mode."

Luo Xiaobai was surprised. "Another one, only less than 500 kilometers away?"

Han Fei set up a Concealment Array and said, "Maybe it is indeed dangerous here, but it shouldn't be too bad. If this area is full of these mutated Soul Eaters, we won't even be able to pass it."

After traveling more than 70 kilometers, their speed had slowed down a lot.

Han Fei perceived that two sea demons had performed the Sea God Descends and there were two Heavenly Talents among them.

Luo Xiaobai suggested, "No rush. Let's wait for them to finish. Han Fei, is that soul-eating crab strong?"

Han Fei shook his head. "No, its carapace has been stabbed through. But it recovers very quickly! Look, so many small crabs are crawling onto its body, and the place shattered will be repaired soon."

Zhang Xuanyu said, "I don't know whether the crab is strong or not, but I feel these sea demons are quite strong, even stronger than I was after using the Majestic Mystic Spell."

Han Fei smiled and said, "They're at the peak-level of the Sea Demon Realm. Of course, they're stronger than you."

Le Renkuang said, "I hope that big crab can kill a few more of them."

Just as Le Renkuang was speaking, an Inferior Man-Fish used the Flying Flower Demon Flash to flash over the head of the big crab, and a huge harpoon dropped from the sky, directly piercing the big crab's shell.

However, to Han Fei's shock, from inside the shell, three snakeheads sprang out and bit the sea demon to death. Two huge heads flew into the crowd, and then some Half-Mermen became mad and began to attack their companions.

Han Fei shrugged. "I know it's not that simple. You'll surely take a few people away before you die."

BAM, BAM, BAM...

Two powerhouses at the peak-level of the Sea Demons Realm and a Heavenly Talent attacked at the same time, cutting off the three snakeheads, and only then did they truly kill the crab.

Han Fei smacked his lips and said, "Many hands make light work. Under the influence of the secret method, ordinary soul-eating beasts have very little resistance to the strong. The only thing special about them is that they have different attacking methods. If it were the big spider just now, there would be more dead."

With that, Han Fei shouted, "Attack!"

While speaking, Han Fei had rushed out.

Everyone: "???"

Zhang Xuanyu was speechless. "Why doesn't he launch an attack after they come out? There are more than 10 of them."

But since Han Fei had already rushed forward, they could only follow him.

The two powerhouses at the peak-level of the Sea Demon Realm had just used the Sea God Descends and were still a little weak at this moment.

One of them said, "Let's take a rest first."

As soon as he said so, the sea demons looked in Han Fei's direction at the same time. "Here comes an enemy. They're human."

The sea demon teams that were taking a break immediately called out their Associate Spirits again.

However, they found to their shock that only four people came.

These sea demons looked dumbfounded. *Are you kidding? Four people are coming to attack our 20-man team?*

A Half-Merman wearing a golden battle suit grinned. "Let me meet these guys..."

Before he finished speaking, his eyes widened because he saw a pair of phantom wings spread out on Han Fei's back with a whoosh.

"It's him, Han Fei!"

The two captain-level powerhouses frowned. "Yu Ai, Sea God Descends, hurry up."

Even Blue Feather offered a reward for this guy's head. Now they were all excited and would definitely not underestimate him.

Almost at the same time, the two Heavenly Talents activated the secret method of the Sea God Descends.

Boom, Boom, Boom!!!

Golden fist marks poured out.

Han Fei abruptly accelerated, activated the Draw Technique, and slashed straight at a powerhouse at the peak-level of Sea Demon Realm.

That guy had just used the Sea God Descends and couldn't use it again immediately. However, he didn't flinch at all, but fought Han Fei head-on with the Sea King Strike.

However, Han Fei had activated the Overlord's Technique, and he was simply no match for him.

Buzz!

With a flash of cold light, Han Fei directly chopped his head off.

SWISH!

Han Fei rushed into the crowd and slashed frantically. The Blood-Drinking Knife was like Death's scythe. A big fish breathed fire on Han Fei, but he simply ignored it. A pair of pincers clamped on Han Fei, only to be smashed by double fists. Someone else launched a soul attack at Han Fei but ended up being hit to death by Han Fei.

Puff, Puff, Puff~

Only two minutes after Han Fei rushed into the crowd, five people were killed and two were sent flying.

“Sky Swallowing Technique.”

“Knife Burial Technique.”

The sky was full of knife shadows that descended from the air and cut the seawater.

“Spirit Summoning, Parasitic Technique, Poison Explosion...”

“Momentary Time.”

In a flash, Zhang Xuanyu killed one sea demon. Although Le Renkuang didn’t kill any of them, he successfully separated them.

Covered by Luo Xiaobai’s Parasitic Technique, spiritual plants had emerged from many sea demons’ bodies. While they were in a panic, they were chopped in half by Han Fei.

A resurrected sea demon had just walked out of the void when he found that Han Fei had flashed up, punching him and at the same time, wrapped him with the Void Lines.

The sea demon was punched to the seabed. A phantom of a Heavenly Talent forcefully broke free from Le Renkuang and blasted him into flight.

Luo Xiaobai threw out vines to catch Zhang Xuanyu and Le Renkuang while pointing at the Half-Merman Heavenly Talent. “Deep Blue Mystic Barrier.”

At this moment, Han Fei had already killed eight sea demons.

Suddenly, there was thunder in the sea, and Le Renkuang killed a sea demon.

Le Renkuang grinned. “This secret method is really strong, comparable to the Majestic Mystic Spell! Do you think my Quad Thunder Knife is easy to block?”

The situation had been reversed.

Han Fei pounced at another powerhouse at the peak-level of Sea Demon Realm. At the same time, the other powerhouse controlled by Han Fei suddenly flew over from the seabed, and when he passed by two sea demons, he suddenly launched an attack.

“Yu Fu, what are you doing? Are you crazy?”

Han Fei controlled Yu Fu to attack the two Half-Mermen Heavenly Talents. The result could be imagined. Yu Fu was no match for the other sea demons.

However, Han Fei didn’t panic at all. He fought while trying to control Yu Fu to detonate himself.

However, this time, he encountered strong resistance.

“Humph, blow up.”

Boom!

The two sea demons Heavenly Talents were stunned. *How did things turn out to be like this?* The self-detonation of Yu Fu forced them to break off the Sea God Descends.

Zhang Xuanyu and the other two took the opportunity to attack.

Han Fei grinned, took back the Void Lines, and flashed directly to the Sea Demon Realm expert who was preparing to activate Blood Escape. He threw out a punch and the opponent actually parried it with his Associate Spirit, a big fish.

“Sacrificing Punch!”

Han Fei controlled the opponent’s beast and threw out a Sacrificing Punch, directly crushing the sea demon. Then, he activated the Draw Technique to kill the big fish.

He quickly stuffed an energy fruit into his mouth and waited for about two minutes. When the sea demon came out of the void, he saw Han Fei flash to him and smash him hard.

At that time, he was desperate.

Now he knew why Yu Fu attacked his companions. Han Fei could control other people’s souls!

Chapter 894: Corpse Tunnel

Han Fei had killed most of the Half-Mermen. Three sea demons had escaped via Blood Escape, but the two Heavenly Talents were left behind.

That was because Han Fei performed the Spirit Sealing Technique on them, which stopped them from activating Blood Escape, and Zhang Xuanyu and the Le Renkuang had pounced on them.

They separately activated the Nine-Layered Waves in the Furious Sea and the Violent War Body, giving the two no chance to escape.

Luo Xiaobai knew that Han Fei purposely left the two for Zhang Xuanyu and Le Renkuang to practice.

However, Luo Xiaobai looked at the Sea Demon Realm powerhouse next to Han Fei and asked in surprise, “Can you control them?”

Han Fei smiled. “A method, a secret soul-controlling method.”

Luo Xiaobai was speechless. *Han Fei, how many techniques does he have?*

She was shocked at the scene just now. The Phantom Glass Wings were so powerful!

Now, Han Fei had acquired another secret soul-controlling method, which was beyond her imagination.

The battle lasted for a whole hour, and Zhang Xuanyu and Le Renkuang were exhausted. The opponent’s Sea God Descends was also useless.

After a round of fierce battles, the two of them were black and blue all over. However, neither Han Fei nor Luo Xiaobai had any intention of going up to help.

In the end, Le Renkuang directly tore the opponent apart.

Zhang Xuanyu managed to blast the opponent to death with the Momentary Time, disregarding his own safety.

As for the sea demons' Immortal Seal, it was completely useless. Han Fei had found a way to invalidate the Immortal Seal. At the moment when the opponent came out of the void, he cut the opponent to death with the Draw Technique.

As for the Dying Strike? It was parried by Le Renkuang.

Le Renkuang lay on the ground and gasped hard, holding the vines. "Oh, I'm exhausted. The Heavenly Talents are really strong."

Han Fei cast a Divine Healing Technique on each of them, saying with a smile, "What do you think of them for training purposes?"

Zhang Xuanyu panted. "They're quite tough. I think my potential can be fully stimulated if there are another seven or eight battles like this."

Han Fei curled his lips and said, "Okay, plenty of battles await you. Restore your energy. I don't know if this is a ruin or not up ahead... Maybe there will be another fierce battle soon."

While speaking, Han Fei looked at the entrance of the cave not far away. This should be what Little White pointed to.

Zhang Xuanyu panted and pointed at the Sea Demon Realm expert beside Han Fei. "What are you going to do with him?"

Han Fei muttered, "I've controlled his soul and I'll use him to explore the way."

"Oh my god!"

Le Renkuang beckoned, "Feifei, give me some spiritual energy. I'm hungry!"

Han Fei was speechless, instilling spiritual energy into the two of them.

Suddenly Luo Xiaobai said, "Wait, let me see if I can deprive him of his soul power with my plants."

Han Fei was shocked. "Control him with plants?"

"Plants are also conscious. The question is whether or not I can control the sea demon's mind as I do to plants.... If we can, it will be like we have a good helper."

The other three were stunned. If Luo Xiaobai succeeded, it meant that she had mastered the legendary soul-controlling method!

After a while, Han Fei sensed that the Half-Merman's body was filled with fine grass. Those blades of grass came out of his nose, ears, eyes and mouth.

Han Fei retracted most of the Void Lines. He felt that a force was fighting with the Void Lines for the control of the sea demon's soul, so he simply withdrew them.

Roar~

The sea demon lay directly on the ground, rolling frantically.

Luo Xiaobai's eyes turned white, and there was a faint trace of blood at the corner of her mouth. After nearly an hour, she said palely, "I made it."

Han Fei said in shock, "So easy?"

Luo Xiaobai smiled bitterly. "He is much stronger than me, so it is difficult to control him. If you hadn't controlled him first, I wouldn't have had the slightest chance of success. Even if he was in the same realm as me, I wouldn't have succeeded if he resisted."

"Hu!"

Han Fei spit out bubbles. *I didn't realize her parasitic ability was really so powerful!*

At this time, this sea demon swam up and floated in the water.

The four of them sat cross-legged and began to recover their strength.

...

One hour passed.

They all stood up. Some Soul Eaters came over during the period but were quickly resolved by Han Fei.

As for other creatures, they didn't see any.

At this moment, four people plus a puppet were staring down into the cave. In Han Fei's perception, there was a passage below, which was full of various corpses.

Le Renkuang's mouth twitched and he said in horror, "So many people died below? Will there be something horrible?"

Zhang Xuanyu added, "I saw knives in the corpses."

Luo Xiaobai looked at Han Fei. "Do you sense any danger?"

"Sure, but we have this guy exploring the way for us."

Han Fei pointed to the sea demon. "He goes first."

Luo Xiaobai issued an order silently and the sea demon dove down directly. Soon, after walking for dozens of kilometers, he reached the bottom, and Luo Xiaobai shook her head and said, "It is safe for now. We can go down."

Hearing that, Le Renkuang took the lead to jump down.

Han Fei was speechless. "Hey, aren't you scared by the corpses?"

Le Renkuang said without turning his head. "There are knives below."

Han Fei: "..."

After a while, the four went down into the passage.

Han Fei was a little stunned. "This is... A tunnel?"

Han Fei looked around. The tunnel was about 15 meters high and 50 meters wide and was covered with corpses, including the corpses of humans, sea demons, and marine creatures. Anyway, as far as the eye could see, it was all corpses.

"Hiss!"

Zhang Xuanyu exclaimed, "Wow, how many people died here back then?"

This scene reminded Han Fei of the Heavenly Desolate City.

The battle in the Heavenly Desolate City lasted for more than 200 years, and people there almost all died. He couldn't help sighing. When those people were killed, wouldn't it look the same? Corpses were littered everywhere and no one buried them.

Han Fei sighed. "Let's collect the weapons here! If I guess right, something must have happened here while many people were using the cave to hide."

Le Renkuang asked, "Why do you think they were hiding here?"

Luo Xiaobai replied for Han Fei, "If not, no one would have chosen such a narrow place, which is bad for fighting. Therefore, they must have been hiding here for safety."

Han Fei raised his head forty-five degrees and said leisurely, "Let's check these weapons. Collect all the weapons that are still useful. Even if they're of no use to us, we can give them to others, so they can still be used to kill enemies."

However, no one responded to Han Fei.

Le Renkuang was already holding five or six weapons in his hands. At this moment, he was trying on the weapons, muttering, "This is broken. This must not be a Semi-Divine weapon! Even an ultra-quality spiritual weapon wouldn't erode so easily!"

Zhang Xuanyu said, "I found a long sword of the Semi-Divine level."

Luo Xiaobai's vines spread on the ground, lifting up a weapon from time to time, but most of them were ultra-quality spiritual weapons. She suddenly said, "I found a pair of Semi-Divine Daggers."

Han Fei was speechless. *Did you hear me? Why aren't you listening?*

Zhang Xuanyu said, "Okay, Feifei, don't stand in the way. Hurry up, look for weapons. Many weapons here are dusty. Knock them to check if they can still be used."

Han Fei: "..."

Perhaps because too many people died here, there were a lot of weapons.

In the end, Le Renkuang and the other two stuffed whatever weapons they saw into their Sea Swallowing Seashells regardless of what level they were.

Only when they found a Semi-Divine Weapon would they shout out.

For example, Zhang Xuanyu shouted, "I found a Semi-Divine stick."

"I found another long sword of the Semi-Divine level."

Luo Xiaobai also shouted, "I found a pair of Semi-Divine daggers again."

Han Fei was speechless. "Xiaobai, why are all the weapons you found daggers?"

Luo Xiaobai directly threw the daggers to Han Fei. "Here you are."

Han Fei was surprised. "Why would I want so many daggers?"

"Make a good pair of daggers for Xiaochan with them."

Han Fei was helpless. *Xia Xiaochan already has daggers of the Divine-Weapon level... Maybe she already has daggers that are Sea Quelling Bizarre Treasures by now...*

Of course, Semi-Divine weapons were still rare. After walking for more than ten minutes in the tunnel, they had found a total of eight Semi-Divine weapons.

Han Fei said, "Wait a minute."

Everyone: "???"

Han Fei began to set up an array. "There may be danger ahead. I'll set up an array here for safety."

Le Renkuang laughed. "But it's safe here. We are rich now. Think of when we go back and sell these ultra-quality spiritual weapons, tsk..."

Han Fei sneered. "Don't lose your head. Have you noticed that although we have walked for a long time, there are no Soul Eaters or other creatures? Does this make sense?"

Luo Xiaobai's face changed slightly. "No... This doesn't make sense. I was blinded by these weapons."

Han Fei was speechless. So, everyone loves treasures. Wise and calm, Luo Xiaobai also failed to maintain her sanity.

Han Fei said, "After I set up the array, follow me to pass the array in case you're trapped in it."

After a while, a Defense Array appeared, and Han Fei said, "Okay, let's go. Don't just stand there."

Chapter 895: That Corpse

The farther he went, the more Han Fei felt that something was wrong, and he had a faint sense of crisis and pressure.

Therefore, every 5 kilometers or so, Han Fei would lay out an array.

As for weapons? Le Renkuang and the other two had already collected a lot, most of which were ultra-quality spiritual weapons.

Han Fei felt that if this ancient battlefield was completely opened, the weapons here might be able to equip half of the Scattered Stars Island.

All the way forward, after walking for about 50 kilometers, Han Fei suddenly said, "Don't you feel anything wrong?"

Luo Xiaobai shook her head. "I have been paying attention, but haven't found anything wrong."

Han Fei shook his head. "No, there must be a problem. There are bones everywhere. How can there not be anything dangerous? There are so many Soul Eaters outside, but there isn't even an ownerless soul here, not a single one."

"Has your perception reached the end of this tunnel?"

Han Fei nodded. "Yes, that's why I said so. At the very front, there are mountains of corpses."

There was no need to summon Little Black and Little White, as Han Fei could find out the situation himself. However, there were still about 80 kilometers of tunnel ahead, and there were still a lot of weapons scattered here, which made Han Fei hesitate.

Han Fei said, "Wait for me here. I'll collect the weapons up front."

Zhang Xuanyu frowned and said, "Is it so dangerous?"

Le Renkuang also sighed. "If it's really dangerous, why don't we just give up those weapons in front? Let's go back and find the next ruin. We have already collected a lot of weapons, including 20 Semi-Divine weapons."

Han Fei rolled his eyes. "No way. I'm not going to give up those weapons. Wait for me. I'm faster than you. I'll come back as soon as I get the treasures."

Luo Xiaobai nodded. "Be careful..."

Han Fei strode forward. It was not difficult to find where the weapons were scattered. Han Fei controlled the water to roll up the weapons and threw them into Forge the Universe.

10 kilometers.

20 kilometers.

50 kilometers.

80 kilometers.

When Han Fei stood behind the mountain of bones, he suddenly found that there was a human corpse among the bones.

The moment Han Fei saw the corpse, his eyes suddenly narrowed.

Familiar.

Isn't this the kind of corpse that appeared in the Undersea Chimney? But this one was slightly different. This corpse was more complete, wearing complete armor, and holding two big knives in his dry hands.

As a refiner, Han Fei concluded at a glance that this corpse was using Divine equipment and not low-quality Divine weapons either.

Han Fei froze as if being struck by lightning. He didn't dare to move, because he felt that there was surging soul power in this person.

Is he still alive? Impossible! It has been so many years. How can he still be alive?

Just when Han Fei was wondering whether or not to retreat...

The corpse suddenly opened his eyes. There were no eyeballs in his eyes, but a ball of soul fire.

This scene scared Han Fei and he wanted to retreat. However, he did not dare to move. Because he had a hunch that once he moved, the guy in front of him would also move.

At this moment, Han Fei felt that the spiritual energy in his body was constantly being lost and pouring into this corpse.

Han Fei said to the other three via voice transmission, *Retreat, slowly retreat to the entrance. If I don't come out in three hours, get out of here.*

Hearing it, the other three's expressions changed. Is Han Fei in danger?

However, out of the trust of their companions, Luo Xiaobai and the other two immediately backed away. In terms of speed, none of these three were comparable to Han Fei. They would only burden Han Fei if they stayed here.

However, they wouldn't leave Han Fei alone here. Han Fei was definitely in trouble. Otherwise, he wouldn't say so.

Han Fei stood quietly without speaking. He was hesitating. Shall he use the Void Lines? But the opponent was very strong and his soul power was much stronger than that of him, so he wasn't confident in beating him.

After half an hour, Han Fei's fingers moved slightly.

At the moment his fingers moved, he saw the soul fire in the corpse's eyes soaring. He was so scared that he immediately stopped moving.

At the moment when Han Fei froze again, the soul fire in the eyes of the corpse returned to its original state.

C'mon, man!

In Han Fei's Forge the Universe, the fish skin array was unfolding and the Law of Gravity was also being brewed. If his life was in danger, he would just enter Forge the Universe.

However, with such a short distance, what was the use of entering Forge the Universe? Even if he came out, he would still be here!

After another half an hour, the corpse was still staring at him, sucking his spiritual energy. Han Fei sighed secretly and said, "Senior, I am a human being."

Hum!

In that person's eyes, the soul fire exploded, and his face was a little distorted. The next moment, his dry skin began to fall off, and his whole body turned into soul fire.

"Damn!"

Swish!

Han Fei hurriedly backed away, and the Phantom Glass Wings flapped and 9 clones appeared.

However, what shocked Han Fei was that the corpse instantly appeared beside Han Fei, and a palm formed by the soul fire grabbed Han Fei.

At that moment, the law of gravity was suddenly activated.

The corpse stumbled, creaked, and completely turned into a skeleton, a golden skeleton, attached with soul fire. However, set off by the soul fire, it looked very creepy.

"Agility of Wind."

"Overlord's Technique."

"Sea Racing Art."

Han Fei took this opportunity and jumped out frantically. He didn't dare to use the Void Lines because the opponent's soul fire was too powerful. However, only in a minute, his law of gravity was broken.

"So fast."

Han Fei felt that his speed had reached the limit. However, in his perception, the corpse was less than a kilometer away from him in the blink of an eye.

In another blink of an eye, he was less than a hundred meters away from him.

Swish! Swish! Swish...

After three flashes, Han Fei was about to flash for the fourth time when one hand had caught the back of his neck. Han Fei was about to use the Sky Dissecting Finger.

The opponent was too strong. He shouldn't have approached that pile of corpses.

However, Han Fei suddenly discovered that this man had no intention of killing but just stopped him from moving.

And, with a terrifying soul pressure, he froze Han Fei.

Then the man stretched out a hand to him.

Han Fei: "???"

Han Fei was horrified. *Is he asking for weapons from me?*

Han Fei immediately gave him a handful of Semi-Divine weapons. However, the other party didn't take them and was still looking at him.

"Senior, don't you want weapons? Do you want spiritual spring energy?"

Han Fei immediately handed him a great mass of spiritual spring. However, this person didn't even look at the spiritual spring, letting it be sucked into his body, his hand still stretching towards Han Fei.

"You don't want spiritual spring either? Do you want Spirit Awakening Fluid?"

Yes. This one is obviously stronger than the one in the Undersea Chimney, way stronger.

Han Fei took out a mass of Spirit Awakening Fluid. However, the corpse still didn't take it, his hand still extending towards Han Fei.

Han Fei asked, "Senior, can you say something? What do you want?"

Suddenly, Han Fei's heart did a flip. What is my purpose for coming here? To find the Sea Quelling Painting! Does this guy want the Sea Token?

That's impossible! How can this ancient battlefield have something to do with the Sea Token?

However, Han Fei still took out a Sea Token. "Senior, this thing is useless to you, isn't it?"

This person actually grabbed the Sea Token and looked at it.

Huh? Why did he ask me for the Sea Token? Does he also want the Sea Quelling Painting?

That's not right! This person has been dead for a long time... Now, he may not even have any consciousness. Why does he want the Sea Quelling Painting?

After a long time, a vague voice rang in Han Fei's mind, *This place is... Dangerous. Don't... Break into...*

With that, this person threw the Sea Token down.

He stretched out with one hand, and two long knives immediately flew to him with a swish and were held upside down by him.

The next moment, this person disappeared. With consecutive bangs, the arrays Han Fei set up were all shattered.

...

Luo Xiaobai and the other two were still waiting at the entrance of the cave...

However, with a swish, a skeleton, burning with blue flames all over, sprang out of the cave.

At that moment, the three of them had cold sweat on their backs and didn't dare to move at all.

However, the skeleton just glanced at them and swished away. The speed was so fast that they couldn't see it clearly at all.

"Feifei, Feifei!"

Zhang Xuanyu and Le Renkuang hurriedly jumped into the cave and rushed forward, each of them looking anxious.

However, before they ran a few kilometers forward, they saw Han Fei walking out of the tunnel with a dazed expression.

Le Renkuang shouted, "Are you okay? Just now, that, that..."

Zhang Xuanyu added, "Who was that? He was so strong!"

Han Fei waved his hand and said, "It's okay, that person isn't hostile to us. He still has a little consciousness left, knowing that I am a human being."

Luo Xiaobai was shocked. "He still had a consciousness? Has he cultivated himself into an immortal being?"

Han Fei shook his head. "I don't know."

If he was an immortal being, his data should have appeared in his eyes.

"I suspect that he doesn't have much remaining consciousness. His soul fire was all sucked from the bones in this tunnel. Just now, I didn't dare to move because I felt there would be danger once I moved. That's why I told you to go first..."

Zhang Xuanyu said, "The man glanced at me. Oh, I was so scared at that moment."

Han Fei rolled his eyes and said, "Understandable. That person is strong indeed. Before he died, he was definitely a first-class master... But, I don't know why he died in the tunnel."

Le Renkuang was confused. "Isn't he still alive?"

Han Fei shook his head. "There are not only human corpses in this tunnel. He doesn't attack humans now, but I don't know if he will do so in the future."

Luo Xiaobai said solemnly, "The danger of the ruins is beyond our imagination. This time we're lucky, but that will not necessarily be the case next time. Let's go find some sealing objects first."

Han Fei shook his head. "No. Find the sea demons first. When they dig up the ruins, we can just rob them."

Chapter 896: Sounding Snake Mine

Just having a narrow escape, Han Fei didn't want to venture to explore the ruins for now. Even if he explored one, he wouldn't go too deep.

Han Fei still remembered what the corpse said. It was dangerous here! Even such a strong master said so, so he should take it seriously.

"This time, we found enough weapons. I guess if we want to find something better, we should go to the underground city."

He had told the three about the underground city, so they weren't surprised.

Luo Xiaobai rolled her eyes. She knew what Han Fei was thinking. He was afraid that once the seal was removed, he wouldn't be able to get the things on this ancient battlefield anymore.

Zhang Xuanyu raised his hand. "Well, I agree. The secret realm is too dangerous to explore but we can rob others!"

Le Renkuang chuckled. "I think we can stop when Semi-Divine weapons fill up my armor box."

"Get lost."

"F*ck off."

"Go away!"

Han Fei was speechless. *How many weapons can your armor box contain? At least thousands of weapons!*

Le Renkuang chuckled. "We'll kill the sea demons anyway!"

Luo Xiaobai nodded. "Three days. After three days, we can hunt the sea demons while looking for the array's sealing object."

...

Three days had passed.

Zhang Xuanyu stabbed a Half-Mermaid Heavenly Talent with his spear and sat on the ground. "We have fought 16 battles. These guys have so many treasures!"

Le Renkuang also sat on the ground. "Unfortunately, we can't eat hot pot here."

Han Fei grabbed a Pure Soul Bead in his hand, stuffed it in his mouth, and said as he ate, "Let's take a rest! Go to the big mountain up front."

Luo Xiaobai added, "I suspect that the mountain is also one of the ruins. This is the first mountain we've encountered on this ancient battlefield."

"Maybe, it is also one of the places where a sealing object is hidden."

Luo Xiaobai nodded slightly. "However, this mountain is so obvious. There should be a lot of people going to it."

Zhang Xuanyu smiled and said, "That's great! Let's just wait for them to come back. Wait here and kill any sea demon we see. The number of Semi-Divine weapons we've got is almost 100, right?"

Han Fei scoffed. "88 pieces, and not a single Divine weapon."

Zhang Xuanyu smiled. "You forget the seven or eight pieces taken by Kuangkuang. It's normal to not find a Divine weapon. We haven't explored the ruins."

Le Renkuang asked, "Feifei, why don't you just give me your Semi-Divine weapons? I know what you're using are Divine weapons. Don't be so stingy."

Han Fei said helplessly, "No way! I'll refine the Semi-Divine weapons into Divine weapons. Remember, I need a lot of spiritual spring energy, the more the better."

Le Renkuang curled his lips. "Okay, okay, don't forget you still have a bunch of things stored in my place. I didn't dare to bring them with me this time."

Han Fei said carelessly, "It's okay. I don't need to use them right now."

...

Any mountains on the battlefield were bound to be explored.

Han Fei suddenly said, "Little White sensed that there is a lot of danger and sea demons here. Let's go find the sea demons first!"

Clang, Clang~

Before Han Fei swam far, there was a faint fighting sound in the sea.

Le Renkuang's eyes lit up. "Someone is fighting?"

"No!"

Luo Xiaobai said, "The voice is too regular. It's not a fighting sound."

Han Fei spread his perception. "There are bodies of sea demons... Well, some humans have died here."

Han Fei perceived that more than a dozen creatures had died in the middle of the mountain, including both sea demons and humans. However, there was also an unknown, badly mutilated body, which seemed to be a soul-eating beast.

Luo Xiaobai said, "Go, let's take the bodies back."

After a while, when they reached the middle of the mountain, they found eight sea demons, seven humans, and a snake-like creature with four wings.

There was a big battle here, and the mountains were bombarded with pits everywhere. Some people were lying in that pit.

Someone's ultra-quality battle suit was all shredded, and there was a pool of red liquid on the ground, which could not be blood. Otherwise, it would have been washed away.

Luo Xiaobai sighed slightly and collected all the Sea Swallowing Seashells and undamaged weapons.

Han Fei looked at the big snake, his eyes flickered, and information appeared in his eyes.

<Name> Sounding Snake (Dead)

<Introduction> An ancient gregarious sea snake living in areas with mineral deposits. Where the snake is, there is no vegetation but only blood and water. It has four wings comparable to Divine weapons. When its wings flap, it will produce a resounding sound, which can make enemies go crazy and kill each other.

<Level> 59

<Quality> Exotic

<Contained spiritual energy> 20,068 points

<Edible effect> Taking a Sounding Bead can enhance hearing.

<Collectible> Sounding Bead

<Absorbable>

<Remarks> The Sounding Snake is a symbol of disaster.

Just as Han Fei dug out the Sounding Bead, he heard Luo Xiaobai ask, "What did you find?"

Han Fei listened to the sound from the water, and said solemnly, "This is not a soul-eating beast, but a kind of..."

At this moment, Le Renkuang suddenly said, "Let's get in! I feel that there must be Divine weapons in it."

Zhang Xuanyu said, "Are you sick? Are you so crazy for Divine weapons that you lost your mind?"

Le Renkuang furiously said, "Shut up! We've wasted three days and didn't look for the ruins. Now we've finally found one. How can we let it go? If you object, I'll swallow you."

"Phew, fatty, do you know what you're talking about? Swallow me? Fine, give it a try. Believe it or not, I'm gonna beat you from fat to thin!"

Luo Xiaobai shouted, "Stop it! Get the hell out of here if you can't shut up."

Han Fei frowned, feeling a little irritable. This feeling was very familiar. When he fused with Little Black, he would have this feeling.

So he immediately took out a bunch of mint leaves and said, "Shut up! Put this in your mouth."

Zhang Xuanyu said grumpily, "I don't like these... I don't want to eat it."

Le Renkuang grunted. "I'm not in the mood. Han Fei, why are you so timid? Are you going to explore the ruins or not?"

Han Fei didn't say a word as he put a piece of mint leaf into his mouth, and then handed one to Luo Xiaobai. "Eat it."

Luo Xiaobai hesitated but still put the mint leaf in her mouth.

And Han Fei looked at Le Renkuang and said, "If you take a piece of this, we will explore it."

Le Renkuang immediately grabbed a few mint leaves and stuffed them into his mouth. Han Fei looked at Zhang Xuanyu. "Take on and I'll give you a Divine weapon."

Zhang Xuanyu glanced at Han Fei in surprise. "Really? If you're lying, I'll stab you to death!"

When each of them put a mint leaf in their mouths, they suddenly looked embarrassed.

Zhang Xuanyu said awkwardly, "It seems, I was a bit fierce just now?"

Le Renkuang said, "Why did I want to explore the ruin? I seemed... A bit irrational just now."

Luo Xiaobai looked at Han Fei. "This is?"

Han Fei pointed to the pile of sea demon corpses and said, "It is impossible for a snake to kill so many people. They must have been tricked by it. Did you hear the sound from the mountain? It should have the power to bewitch people and arouse negative emotions."

“Wow!”

Le Renkuang said, “Cough! I remember I really wanted to fight just now. Feifei, give me some more of this leaf.”

Han Fei smiled and said, “Yuyu! You even wanted to stab me to death!”

Zhang Xuanyu scratched his head awkwardly. “Did I?”

Luo Xiaobai muttered, “The snake with wings...”

“It must have been the sound it made. There are still these sounds on the mountain, indicating that there is more than one snake of this kind. There could be many.”

Everyone frowned. “So they aroused our fighting desire just now?”

Han Fei nodded and said, “Yes. And there is definitely more than one battlefield. If we go around the mountains, we should be able to find many dead humans and sea demons.”

Luo Xiaobai nodded. “Then let’s take a look and bring back the human bodies.”

Han Fei said, “Go around and look for the bodies. I want to explore this ruin.”

Le Renkuang exclaimed, “Are you crazy? Don’t you know it’s dangerous?”

Han Fei said, “My soul is comparatively stronger. And I have a lot of mint leaves, so I should be able to resist their temptation.”

Le Renkuang tried to stop Han Fei. “You aren’t bewitched, are you?”

Han Fei laughed. “Of course not! I’m just afraid you will be!. Since there is more than one snake here, it shows that they are a gregarious kind of creature. Since these snakes can occupy this mountain, it means they are already the greatest threat here. This ruin is less dangerous than the corpse tunnel.”

Luo Xiaobai frowned and said, “What if there is a snake king in it?”

Han Fei grinned. “As long as it is not as strong as that corpse in the corpse tunnel, I’ll be fine. Don’t worry, if I encounter a Sea Spirit-level snake, I’ll immediately return.”

Zhang Xuanyu pleaded, “Feifei! Do you have to take this risk? Let’s go with you, OK?”

Han Fei said impatiently, “I’m afraid you will attack me if we go in together! Besides, there must be people who died nearby. Bring some mint leaves and look for them. They should have a lot of good things on them.”

Luo Xiaobai took a deep look at Han Fei. “Take care. Are you going to take this puppet with you?”

Luo Xiaobai was referring to the sea demon that had been controlled by her. These days, it was very useful to them.

Han Fei shook his head. “No, he is not even as strong as me, so he is useless to me, but if he goes with you, you’ll have one more helper.”

Chapter 897: Causing Trouble

The mountain was dark red with no vegetation, and Han Fei went all the way to the top of it.

Crossing the top of the mountain, Han Fei didn't find any Sounding Snakes, but in the valley beyond the mountain, there was a faint vibrating sound.

Han Fei felt that his head was a little heavy, so he stuffed a few mint leaves into his mouth.

Han Fei found that these leaves were really useful. He had the idea to clear a plot of land in Forge the Universe to plant this stuff.

When he reached the other side of the mountain, Han Fei suddenly narrowed his eyes.

Whoosh!

Han Fei flashed out, and a Sounding Snake appeared on the spot.

How did it escape my perception?

Han Fei was a little surprised. *It doesn't make sense! I couldn't detect any Sounding Snakes in the valley. Where did this snake pop out from?*

Han Fei glanced intently and found that the Sounding Snake was completely different from the badly mutilated body that he had just seen.

It was red all over, and its four wings were more than 10 meters long. Its head resembled a dragon's head, with a clump of red hair standing on top of it.

Its wings were like bird wings. However, the difference was that the wings were shiny red, and when they struck each other, they burst out with the sound of bells.

Clang, Clang~

Han Fei only felt a buzz in his head. However, the soul power of the Sounding Snakes could not be as strong as his. Therefore, they couldn't bewitch him.

Swish!

Han Fei flashed again and punched out. The wave surged, and punched by Han Fei, the Sounding Snake retreated dozens of meters.

Han Fei sneered. If he had to use the Overlord's Technique when he was fighting a single Sounding Snake, he would be better off giving up exploring the ruin.

Swish~

Han Fei flashed again and activated the Draw Technique, and the Void Lines were thrown out at the same time.

The Sounding Snake seemed to sense the danger. It flapped its wings and flew out.

"Haha! That's exactly what I was waiting for!"

Han Fei flashed again and appeared on the back of the Sounding Snake. With a press of his palm, 10 Void Lines attached to the snake.

At that moment, even if the Sounding Snake wanted to escape, it had no chance.

Han Fei quickly took control of the soul of the Sounding Snake. From its soul, Han Fei saw some messy pictures. Among them, he saw densely packed snakes, which stunned him.

So many? How can I fight them alone?

Han Fei turned over and sat on the Sounding Snake, thinking whether he should explore that secret realm or not... Could he resist hundreds of Sounding Snakes himself?

Forget it, let me find where the snake cave is first.

Han Fei tried to find some information from the soul of the Sounding Snake.

However, he suddenly saw two huge red eyes.

Han Fei was startled, but the shock he felt actually came from the Sounding Snake itself.

Are you afraid of your own kind? They don't seem easy to cope with!

Han Fei didn't panic, however. He planned to use this snake to test his Divine Manipulation Technique.

Controlling this Sounding Snake, he flew up high. Han Fei tried to read information little by little. After about an hour, Han Fei could gradually see the owner of the red eyes.

Just as Luo Xiaobai guessed, this snake turned out to be a Snake King!

When he saw the Sounding Snake King clearly, Han Fei was taken aback. Its body was simply too huge! Its head alone was more than 30 meters long, let alone its body.

And besides the big snake, Han Fei also saw a small tree of unknown quality. On the small tree, there hung a dark green fruit.

In addition to this dark green fruit, Han Fei also saw three corpses in the huge snake cave. They were all wearing armored battle suits. They were the same kind of corpses that Han Fei had encountered in the Undersea Chimney.

Han Fei was stunned. If these corpses were here, would there be Spirit Awakening Fluid here?

Han Fei wasn't quite sure. If there was Spirit Awakening Fluid, then this meant that in this so-called ruin, there were not only the fruit and three corpses, but also at least more than 3 million kilograms of Spirit Awakening Fluid.

The Spirit Awakening Fluid might have been divided up by these little snakes; however, there were still three corpses! The equipment on them would also be precious!

If he could kill the Sounding Snake King, it would be another huge gain. At least, the bodies of snake creatures were treasures.

Let me take a look. If I can't find the entrance, I'll just give up.

He controlled the Sounding Snake, flying towards the valley.

In the middle of the valley, Han Fei controlled the Sounding Snake under him to make a sound.

Clang~

Clang~

The noise echoed in the valley.

Suddenly, Han Fei heard another sound, followed by dozens of the same sounds.

Han Fei's eyes lit up. *Huh! The snake cave turns out to be hidden somewhere at the bottom of the valley.*

Haha! Got you! Don't blame me for my cruelty then.

As soon as Han Fei stretched out his hand, a large jar filled with Poison God appeared. He directly used half of the Poison God that Cao Qiu gave him.

Nearly 50 catties of Poison God were stuffed into the Sounding Snake's belly. Of course, in order to prevent the symptoms from starting now, Han Fei put the Poison God in a big fish bladder. As long as the bladder didn't break, the Poison God wouldn't leak out.

"Hoop!"

Han Fei flew towards the top of the mountain, controlling the Sounding Snake with the Void Lines to go into the pile of rocks at the bottom of the valley.

Then he found a big cave under this canyon. In the dark cave, dozens of snakes were entwining each other. Some Sounding Snakes were looking at him, to be precise, they were looking at the Sounding Snake he controlled.

They hissed and their eyes turned scarlet as if they were looking at a strange snake.

Have they discovered me?

Clang, Clang~

For a while, there were many percussive sounds from the cave, which were rhythmic and gradually spread away.

Han Fei's face suddenly changed. *Why are these Sounding Snakes making these sounds?*

Han Fei had to control the snake to follow them. Otherwise, they might find this snake had a problem.

In the valley, percussive sounds resounded and the sound waves rippled.

Feeling a buzz in his head, Han Fei quickly spat out the mint leaves and put a new one into his mouth.

But Han Fei felt that a single piece of the mint leaf could no longer pacify his emotion.

Thud! Thud!

As the sounds rippled out like waves, Han Fei saw golden light descend on a distant mountain peak.

"Huh! Sea God Descends?"

Generally speaking, people who could make a creature at the peak-level of the Sea Demon Realm use their technique, Sea God Descends, couldn't be weak.

It just so happened that Luo Xiaobai and the others could.

Han Fei frowned. *Did Luo Xiaobai and the others encounter a sea demon army?*

Han Fei immediately summoned out Little Black and Little White. "Daughter, check where Luo Xiaobai and the others are."

However, Little White was flying to the other side, which was exactly the opposite of the battlefield just now.

Han Fei's heart did a flip. *Even if I don't break into this snake cave, I can attract others to come over.*

So Han Fei flew to the opposite mountain.

However, only when Han Fei flew less than 3,000 meters, fighting sounds came from all directions.

Han Fei saw that there was a white light in the distance.

Then he saw an octopus shadow on a small hill not far away.

And he also saw some people fighting each other, their wings spreading.

Huh? Why are there so many living people around this mountain range?

Han Fei didn't expect it. He had thought that there should not be too many people in this valley. After all, if he hadn't had the mint leaves, Zhang Xuanyu and the others would have been bewitched.

But now, he found out that he was wrong. He was not the only one who could resist the sound of the Sounding Snakes.

However, it seemed that he caused the Sounding Snake to sound collectively. This caused the people who could have resisted the bewitching sound to collapse and lose their minds.

"F*ck!"

Now it was impossible for him to save these people, no matter how fast he could be.

Now he could only lure these hostile guys to come over on their own initiative.

Han Fei gritted his teeth and flew over the valley. Then he took out 10,000 kilograms of Spirit Awakening Fluid and a large amount of spiritual spring and scattered it around: the thick spiritual vortex attracted everyone's attention.

One figure after another rushed towards the valley.

Not only humans and sea demons, but the Sounding Snakes underneath him were rushing over, trying to swallow the Spirit Awakening Fluid and spiritual energy.

Han Fei immediately ran away.

At the same time, Han Fei controlled the Sounding Snake to escape first. When nearly 200 Sounding Snakes rushed out of the snake cave, he manipulated the snake to return into the snake cave.

More than 200 Sounding Snakes flew in mid-air, which was equivalent to more than 200 peak-level sea demons. Fortunately, they were good at bewitching, but didn't have strong combat power.

The humans and the sea demons rushed over and immediately had a violent conflict with them.

In the frenzied state, many humans and sea demons quickly joined the battle, and the sky was full of fighting shadows and dazzling lights.

Han Fei gritted his teeth. *These idiots! Why didn't they leave since they had already known these snakes have a bewitching ability?*

Han Fei found that there were fifty or sixty human beings and as many as seventy or eighty sea demons.

Fine, I'll solve the trouble that I made.

Chapter 898: Is He Fishing For That Snake?

Seeing the humans, sea demons, and snakes in a scuffle, Han Fei took out a lot of mint leaves, crushed them, and mixed them into the Infinity Water. Then he turned them into spikes and shot them to the battlefield.

Han Fei's speed was extremely fast under the power of the Overlord's Technique.

Swish, swish, swish...

Every time he flashed, he appeared next to a human.

Then he punched the Infinity Water into their bodies with the Sacrificing Punch.

Of course, resistance was inevitable. However, Han Fei reacted extremely quickly. These delirious people were not his match at all.

Suddenly, Han Fei heard someone say to him via voice transmission, *Let me help you. Is there any way to sober them up?*

The voice was Luo Xiaobai's, and Han Fei couldn't help smiling wryly. He had thought that Luo Xiaobai and the others would get a lot of treasures, but because of his mistake, he made them fall into this melee.

Han Fei responded, *Let me try waking them up. I'll punch them away and you take them.*

At that moment, Han Fei's figure flashed frantically.

In about a quarter of an hour, Han Fei punched more than 50 people into the air.

And Han Fei was beaten black and blue. After all, too many people were attacking him and none of them were weak.

And more than a dozen people had already died. He didn't have time to rescue them.

Han Fei perceived that Luo Xiaobai used vines to drag the half-awake humans to run 50 kilometers away.

Han Fei said to her, *Take them away first, and I'll meet you later.*

In the chaos, Han Fei set up a stealth array on himself and jumped away from the battlefield.

Han Fei, who was at the bottom of the valley, didn't care about the battle in the sky at all. He didn't care about the lives of the sea demons and the Sounding Snakes. Besides, he had to rely on those sea demons to fight the Sounding Snakes.

And the Sounding Snake he controlled was running around in the snake cave.

Inside the snake cave, there were many holes. Without Little White's guidance, Han Fei could only check the holes one by one.

Fortunately, in the fourth hole he checked, Han Fei found a lot of Sounding Snakes that seemed to have just woken up. Besides, Han Fei felt that the Sounding Snake controlled by him was trembling.

"I found it."

Han Fei was overjoyed. These holes should be interconnected. All holes lead deeper down, but the one he was in was easier to pass.

Smack!

A snake's tail slapped Han Fei. Han Fei was speechless. *I'm just walking in the cave. Why the f*ck did you attack me?*

When Han Fei walked in for dozens of kilometers, he felt that the Sounding Snake under his control was shaking all over.

"No, I should speed it up."

Immediately, Han Fei controlled the Sounding Snake to rush into the depths of the cave frantically.

However, because of Han Fei's movement, many Sounding Snakes were alerted. At first, they just hissed at the snake and then slapped it with their tails. In the end, they rushed up to bite at it and attacked it with their wings.

Forcibly walking forward for less than 2,000 meters, this Sounding Snake had been wounded all over.

"Blast!"

Han Fei knew that the snake couldn't go further, so he could only try to wake up the Sounding Snake King here.

Boom!

At the moment when the Sounding Snake detonated itself, many holes in the cave collapsed, waves rolled in the cave, and the Poison God flowed everywhere.

And taking this opportunity, at the moment of the explosion, Han Fei had already loosened the Void Lines, retreated nearly a kilometer, and attached to Sounding Snake that was using its wings to block the violent impact.

"Haha! Just wait for the Poison God to take effect!"

Han Fei sneered. In the sky, a Sounding Snake fell and its head was burst by the sea demons.

When Han Fei took a closer look, he found there were only 20 sea demons left, and nearly 100 Sounding Snakes were killed.

This was mostly due to five sea demons who had activated the Sea God Descends, including two Heavenly Talents.

“Kill, kill them all!”

...

In the depths of the snake cave, the Sounding Snake controlled by Han Fei was also poisoned, vomiting and having diarrhea.

At that moment, from the feeling that was transferred back through the Void Lines, Han Fei felt as if he himself was vomiting and having diarrhea. What a... Horrible experience.

A large number of Sounding Snakes were going mad. After only ten minutes, the Sounding Snake controlled by Han Fei was killed by several other Sounding Snakes.

The other Sounding Snakes were also fighting each other cruelly. The snake cave was drenched in bloody water and filthy fluids were sprayed everywhere.

Hooooooo!

Suddenly, a hoarse and scary roar came from the depths of the cave.

Han Fei's heart did a flip, and he immediately got up and slipped away quietly. *God knows how strong that snake king is! What if it finds that I'm hiding under the valley?*

Of course, although Han Fei ran away, the Void Lines were still clasped on the corpse of the Sounding Snake.

Hooooooo!

The ground began to shake, and in the valley, there was a bulge in the ground, and it was bulging higher and higher. When Han Fei ran 50 kilometers away, he perceived Luo Xiaobai and the others again.

At this moment, many people had sobered up, sitting cross-legged and recovering.

Han Fei said via voice transmission, *Come on, run! The Sounding Snake King is going crazy.*

Luo Xiaobai was speechless. Because she couldn't perceive where Han Fei was, Han Fei could transmit his voice to her, but she couldn't to him.

Luo Xiaobai immediately stood up. “Everyone, retreat, a powerful creature is coming.”

In fact, even if Luo Xiaobai didn't say anything, they could already feel that the ground was shaking.

For a moment, everyone looked shocked and ran wildly. Sure enough, a ruin was not someplace easy to break into.

At this moment, Han Fei had set up several arrays. He lay on his stomach on a mountain motionlessly, only staring into the valley.

Thud!

A loud roar sounded. Han Fei's heart trembled, his eyes were red, and the uncontrollable desire to kill welled up in his heart.

However, he had prepared mint leaves. When he stuffed them into his mouth, he sobered up and forcibly suppressed this frantic bloodthirsty impulse.

However, hearing this roar, the sea demons, of which there were only 11 left, all became furious. Han Fei felt that they were burning their blood and life.

Puff! Puff! Puff!

They slaughtered Sounding Snakes one after another. After all, these sea demons were already crazy. They were literally committing suicide.

BAM!

The ground was shattering. Seeing this scene, Han Fei grit his teeth, took out all the remaining 40 catties of Poison God, wrapped them in the Infinity Water, and threw them towards the Sounding Snake King that was almost about to break out of the ground with a fishing rod.

"Gulp!"

Han Fei swallowed. *Be sure to get your head out first so that I can feed you a good helping of poison!*

The next moment, with a bang, a huge head came out. A scarlet snake tongue flicked out, and the scarlet eyes aimed into the sky.

Now's the time.

In an instant, the Infinity Water rushed into the Sounding Snake King's mouth, together with 40 catties of Poison God.

Then Han Fei manipulated the Void Lines to go madly deep into the underground snake cave.

The big snake was furious and rose from the ground.

Its first thought was to spit out the damn thing that got into its body just now. But, Infinity Water was certainly not something it could easily vomit out!

As long as Han Fei didn't withdraw the water, it couldn't spit it out.

As soon as the big snake appeared, it swallowed eight sea demons and five or six ordinary Sounding Snakes in one bite. It was searching for the bastard who attacked it.

Han Fei frowned. He was still holding the Dragon Sting Pole in his hand! Sure enough, the big snake king glanced in his direction. At that moment, Han Fei issued an order in his heart and the Overlord appeared.

At the same time, a ray of soul fire floated out and sank into the Overlord's body.

Swish!

Han Fei spread out the Phantom Glass Wings, dropped a dozen Sea Swallowing Seashells on the ground, and ran away as quickly as he could.

Come on, poison it. Come on, poison it.

The big snake's body was wriggling crazily, and its viscera were tumbling. When Han Fei ran away, it quickly pulled its body out of the ground and pounced at him.

Shit, is your body so tough? Cao Qiu, you bastard. This super-enhanced version of Poison God is not good enough!

Whoosh!

Han Fei rushed out like a ray of light, and the Agility of Wind was activated instantly.

However, Han Fei was greedy even at such a time. Since the big snake had come out, now he couldn't use the Void Lines to grab the treasure. Therefore, he left the Overlord and Snowmourn behind and left some Sea Swallowing Seashells for the Overlord so that Overlord could grab some treasure when the big snake left to chase him.

This was the thought that flashed through his mind the moment he saw the snake was looking at him.

Hum!

In the sea, a very thin white line shuttled past. That was the sonic boom effect caused by Han Fei's super fast speed.

At this moment, Han Fei activated the Overlord's Technique, the Agility of Wind, and the Sea Racing Art. His speed should be even faster than a junior Law Enforcer. After all, with the Sea Racing Art, he would only travel in a straight line.

As if there was no obstacle in this water, he just traveled in a straight line.

And dozens of kilometers behind Han Fei, a huge snake with a length of more than 300 meters was chasing frantically behind him. Its speed was even faster than Han Fei.

Luo Xiaobai could see with her naked eyes that a behemoth in the sea was chasing Han Fei who was also running.

"Gulp!"

Le Renkuang swallowed. "Oh... My... God!"

Zhang Xuanyu looked dumbfounded. "What a big snake!"

Luo Xiaobai's face changed slightly. "It seems to have wings, and its speed is faster than Han Fei."

As for those who were rescued by Han Fei, their faces were full of shock at this moment as they watched this weird chase.

Someone was shocked. “Han Fei... Isn’t he too ostentatious? Is he still carrying a fishing rod? Is... Is he fishing for the big snake?”

Chapter 899: The Chase Drove Him Crazy

Looking at that huge figure, everyone felt helpless.

Fortunately, they weren’t that hot-headed as to explore the valley.

Otherwise, it would be as easy as a breeze for such a big snake to swallow them.

Someone’s face changed drastically. “What should we do? How... How can we save Han Fei?”

Someone sighed. “Han Fei, how dare he fish for that snake?”

Someone rolled his eyes and said, “Nonsense! Can you ‘fish’ such a huge snake?”

Someone nodded. “Han Fei must be using the fishing rod to launch an attack. He couldn’t be so stupid as to try to ‘fish’ for such a big thing.”

Someone glanced at the Luo Xiaobai trio and said, “Anyway, the people from the Thug Academy are really... The most fearless people I have ever seen.”

Luo Xiaobai’s face kept changing. “We’re going to chase after them! You can do as you please.”

The others could only smile bitterly. The point is that they couldn’t catch up! Even if they tried, they couldn’t beat that snake!

However, for the Luo Xiaobai trio, whether they could catch up or beat the snake, they couldn’t just sit by and do nothing.

Now the trio had already rushed out.

That big snake was so strong that wherever it passed, no Soul Eaters dared to show up.

After all, they had some wisdom left. They could attack humans and sea demons, but not this snake king that could easily crush a bunch of them with a wag of its tail.

Who would rush up stupidly? Wasn’t that looking for death?

...

When the trio rushed out, Overlord was quietly sneaking into the huge snake cave. Just now, the big snake almost killed all the Sounding Snakes and sea demons fighting in the sky with a casual bite.

At this moment, there were only two or three sea demons left, which didn’t take long to die.

With Snowmourne in his hand, Overlord was going into the broken snake hole.

Why did Han Fei leave Snowmourne to Overlord? It was because Snowmourne could boost Overlord’s combat power close to that of an advanced Hidden Fisher.

Although Snowmourne was a Sea Quelling Bizarre Treasure, no one on this ancient battlefield could easily erase Han Fei’s mark. Even if it were erased, who would dare to take Snowmourne?

Besides, even if Snowmourne was taken away, Han Fei would easily take it back as long as he didn't die.

At that time, whoever snatched Snowmourne would be killed by Han Fei.

Inside the snake cave.

Many ordinary snakes were crushed to death because of the rage of the snake king. Besides, the 50 catties of Poison God had been thrown into the pile of Sounding Snakes.

Now, in the snake cave, countless Sounding Snakes were fighting each other, and there were snake bodies and fluid everywhere.

Overlord jumped down into the cave, and when he landed, he saw a pile of meat paste. A few hundred meters away, there were a large number of snakes biting and fighting each other.

Overlord saw three corpses at a glance, and without a word, he collected them into the Sea Swallowing Seashells.

And then he found a little tree. No matter what kind of spiritual fruit it was, he just uprooted it and took it away.

Because this was originally the habitat of the snake king, ordinary Sounding Snakes were afraid of this place. Therefore, after Overlord had done all this unscrupulously, he even had the time to take a look inside.

However, there was something special inside.

In a big hole in the belly of the mountain, snake eggs were littered everywhere. And in the middle of the cave, there was a round pit, in which there was green Spirit Awakening Fluid.

Seeing this, he pounced over and frantically poured the Spirit Awakening Fluid into his Sea Swallowing Seashells.

Unfortunately, this pit was not big and no more than 2 meters deep.

Only 500,000 kilograms? This snake king occupies such a large snake nest but only leaves 500,000 kilograms of Spirit Awakening Fluid for his eggs? How can this be enough?

However, this was reasonable. This damn place must have existed for countless years. Besides, there were so many Sounding Snakes in the snake cave, and it was a miracle that the Spirit Awakening Fluid hadn't been drunk up.

If it weren't for these snake eggs here, no Spirit Awakening Fluid would have been left.

After taking the Spirit Awakening Fluid, Overlord found that the Sounding Snakes were already running in his direction. So soon? He had just been there for a short while!

Fine, I don't have much time to waste here. I've gotta run quickly!

...

More than 600 kilometers away from the Sounding Snake cave, the king snake seemed to sense something. It glanced back and became even more furious.

Hooooooo!

Clang!

The bewitching sound was deafening, and Han Fei who was racing forward cursed. *What? Is the snake king going back? No, Overlord is definitely not its match...*

Besides, what stunned Han Fei was that he had fed this snake king 40 catties of Poison God, but it could still chase him so fast! Now the distance between him and the snake king was less than 40 kilometers.

No, he couldn't let it go on like this! Otherwise, sooner or later, he would be caught up.

"Ten Thousand Knives in One..."

Inside the big snake, Infinity Water was cutting like crazy. But this big snake was so tough that Han Fei could feel that even in its stomach, the Infinity Water was a bit powerless.

*F*ck, Infinity Water! Work harder, okay?*

Han Fei was speechless. With his current realm and strength, the Infinity Water should have had the destructive power of a Semi-Divine weapon! But... As the treasure of a whole city, it shouldn't just have such little power...

How do I use this stuff?

Thinking about it, Han Fei perceived that more than 80 kilometers away, a team of six sea demons were fighting with a few soul-eating beasts.

Han Fei immediately activated the Flying Fish Technique, changed his direction, and then immediately changed it back.

Because of his switch of direction, the Sounding Snake King was more than 3 kilometers closer.

"Damn it, rush!"

Dozens of kilometers away, several sea demons had just killed the soul-eating beasts and then spotted a white light rushing towards them in the distance.

One of them shouted, "Pay attention and be ready to defend, something is coming quickly!"

"No, is that... Phantom Glass Wings? Han Fei, it's Han Fei..."

A captain-level powerhouse shouted, "He's our opportunity. If we kill him, we can go to the Royal City... Wait, what the hell is behind him?"

"Hiss! Run... A scary creature is chasing him!"

They had planned to trap Han Fei. But now, they gave up on that plan.

The figure behind Han Fei was so huge. Just by looking at it, they knew it was not something they could mess around with. Han Fei was obviously shifting the trouble to them.

Han Fei shouted to the big snake behind him, "Hey, idiot snake, my teammates are in front!"

Clang!

The bewitching sound exploded again and the fleeing sea demons suddenly stopped, turned their heads, and pounced on Han Fei ferociously.

Han Fei took out an energy fruit, stuffed it into his mouth, and yelled at the big snake, "You're doomed! I'm telling you, you are doomed. My teammates are very strong."

Han Fei saw the sea demons all activate the Sea God Descends. At the moment when he was about to meet them, 9 clones of Han Fei suddenly appeared and skimmed past these sea demons.

"Um!"

As if he had done a trivial thing, Han Fei continued to think about the use of Infinity Water.

Sure enough, as expected by Han Fei, when the sea demons found Han Fei had run away, the Sounding Snake King had reached them.

"Sea God Strike!"

"Whale Riding..."

BAM!

As the huge red wings swept past, the sea demons were all crushed by the big snake.

Puff!

Han Fei was surprised. *Is something spewing out of the skin of this big snake?*

He looked back and then gaped in shock. *Can this b*stard expel the toxin out of its body?*

The distance between the two was almost shortened to 30 kilometers. Han Fei was extremely anxious. *What am I going to do?*

Han Fei recalled the scene when he first obtained the Infinity Water. Being in the water column, he hadn't felt anything yet, but that cave had been covered with knife marks.

Could Infinity Water only be used as a weapon?

He had tried many methods to use it. His soul could control its form, and its attack strength should be growing with his strength.

But in that case, it shouldn't be called the most important weapon in a whole city! After all, according to its attributes currently demonstrated, it was a Sea Quelling Bizarre Treasure at most.

But the Heavenly Desolate City was by no means an ordinary city! Han Fei believed that the strong masters in that city were not less than those in the Scattered Stars Island, and even in the Thousand Star City.

After swimming for more than a hundred kilometers, Han Fei met a group of humans. Because he could only swim in a straight line, he said, "Everyone, please make way."

However, the group of people looked stunned. They didn't even know where the sound came from.

Han Fei gritted his teeth and changed his direction again, allowing the big snake to reach only 30 kilometers away from him.

After a while.

The group of five people were dumbfounded when they glimpsed Han Fei and the big Snake swishing by in the distance.

Someone said in shock, "Han Fei? What is that thing chasing him?"

Someone sighed. "A snake?"

Someone was speechless. "Have you ever seen a snake with wings? It's only 300 meters away from us! Holysh*t, did Han Fei just save our lives?"

"It seems so!"

Someone was confused. "But what is he doing with the fishing rod in his hand? Fishing for that snake?"

...

Chapter 900: A New Use For Infinity Water

Along the way, when Han Fei met sea demons, he would rush over and kill them. When he met humans, he would tell them to make way in advance. If the opponent refused, he could only take the initiative to avoid them.

One hour passed.

Han Fei almost cried, "Hey! Master Snake, I just made a joke with you. Why are you still chasing me?"

At this moment, the two sides were only about 15 kilometers apart, and the distance had shortened by half.

Han Fei felt that although the Sounding Snake was injured, the injury was not serious.

In this short hour, at least hundreds of people had recognized Han Fei. The number of enemies that Han Fei used the big snake to kill had also reached 50.

However, every time he changed his direction, the distance between him and the snake would inevitably be reduced.

Han Fei felt that when the big snake had expelled all the Poison God out of its body and caught up with him, it would be as easy as pie to kill him.

No! I can't change directions anymore. I have to find a way to kill this beast. Should I use the Sky Dissecting Finger?

But it was equivalent to a Venerable-level attack! It was his last resort.

The painting that Old Han gave me?

No. It took Old Han a long time to draw it. It would be a pity to use it here. I haven't found the Bone Yard yet! And I haven't entered the underground city yet.

Turn to Cao Qiu for help?

Han Fei suddenly found that he didn't have any proper means to resist the serpent.

"Fuse!"

Han Fei immediately activated the Yin-Yang Divine Eyes and raised his speed slightly.

"Hoop!!"

After half an hour, the big snake was only 10 kilometers away from him. Han Fei had no time to ask Little White to find Cao Qiu's position, but he could roughly figure out his direction.

At this moment, Han Fei was no longer so calm because he was in a frantic escape.

Even with mint leaves in his mouth to help relieve his violent emotions, the big snake behind him still made bewitching sounds from time to time to disturb his mind.

"F*ck."

Han Fei suddenly turned around and thrust the Dragon Sting Pole in his hand out.

"Blast!"

Boom!

The Semi-Divine weapon exploded and fell on the Sounding Snake's head. However, the big snake ignored the fishing rod and still rushed forward.

Within hundreds of kilometers, the seawater vibrated, and huge waves rolled in all directions. In the end, the distance was reduced a little more.

In Han Fei's perception, the Sounding Snake's head was injured in many places with blood flowing.

Huh! It seems that the explosion of a Semi-Divine weapon can injure it. But it's just caused a bit of trauma... Wait, can Infinity Water explode?

Han Fei was thinking how the Infinity Water was originally just a drop of water! It was called Infinity Water because this drop of water could turn into all kinds of water-constructed weapons.

And as a drop of water, even if it exploded, it could gather again!

Han Fei's heart did a flip. He had never thought about this because no one would have thought of detonating something that an entire city treasured.

But now, Han Fei doubted himself... *Infinity Water should be able to explode, I think?*

He immediately pinched his finger and calculated what would happen, not feeling like anything bad would come of it.

Han Fei said resolutely, "Li Huang, Li Huang! Even if the Infinity Water is gone, I'll still fulfill my promise."

Han Fei's eyes suddenly became fierce. "Explode!"

Boom!

This time, the rolling wave sent Han Fei seven or eight kilometers away in an instant. He couldn't even stabilize his body as he could only roll out with the waves.

And the huge body of the big snake fell on the ground, leaving a long bloody mark that was several kilometers long.

In Han Fei's perception, the abdomen of the big snake was already a blur of flesh and blood. Many places had been pierced. Blood mixed in with the flying sand, looking scary.

More than 20 kilometers away, Han Fei finally stabilized his body. He quickly stuffed an energy fruit into his mouth and swam towards the big snake.

As he issued an order in his heart, fine water drops were quickly converging from all directions within dozens of kilometers. Soon, a drop of water gathered in the palm of his hand.

"Haha!

"Old b*astard, moron, idiot! Keep chasing me! Hey, I'm waiting for you! Come on, chase me!"

With an order from Han Fei, Infinity Water was once again mixed with seawater and drilled into the wound on the abdomen of the Sounding Snake.

"Explode!"

Boom!

Han Fei was sent flying by the terrifying explosion again. He rolled dozens of kilometers before he finally stopped.

The terrifying and destructive explosion was just like a small mushroom cloud. It was so powerful that Han Fei had some wounds on his hands and face.

However, Han Fei was obviously taken aback, as the power of the second self-detonation was much weaker than the first time. Was the Infinity Water damaged?

No, it wasn't damaged. It was just that the force of its self-detonation had weakened.

Han Fei didn't plan to detonate it again. These two explosions had affected at least the radius of a thousand kilometers, and many people must have felt the effect.

But it didn't matter. He had found a new use for the Infinity Water. This thing was not afraid of self-detonation. Besides, the force of its self-detonation was equivalent to that of a Divine weapon: tyrannical and powerful.

Even if its force would decrease, it didn't matter. Even the Phantom Glass Wings required cool-down time.

The huge body of the big snake that was more than 300 meters long was covered with dense bloody holes, and one of its wings was blown to pieces.

Even Han Fei, who was dozens of kilometers away from the big snake, was sent flying, let alone the snake!

At this moment, the head of the Sounding Snake was drooping on the ground, and its eyes were bloody. It probably had been blind.

When Han Fei got close to it, information emerged in his eyes.

<Name> Ancient Sounding Snake (extremely weak)

<Introduction> An ancient gregarious sea snake living in a mining area. Wherever the Sounding Snake is, there is no vegetation but only blood and water. It has four wings, which are comparable to Divine weapons. When its wings vibrate, it can produce a sound that can drive people crazy and make them kill each other. This is a descendant of the ancient Sounding Snake. Its combat power is terrifying, with 10 waves of power.

<Level> 67

<Quality> Legendary

<Contained spiritual energy> 69,185 points

<Edible effect> By taking the Ancient Sounding Bead, one can obtain the power of clairaudience, able to hear what is happening thousands of kilometers away.

<Collectible> Ancient Sounding Bead

<Absorbable>

<Remarks> Sounding Snake is a symbol of disaster. Once the Sounding Snake comes out of its cave, there will be disaster.

Han Fei's eyes widened. He had already guessed it was a legendary creature, but the ability of clairaudience really shocked him!

However, now Han Fei had to make a choice.

Should he obtain the ability of clairaudience or throw this big snake into the Demon Purification Pot? Legendary creatures were very rare. He couldn't afford to waste it.

Han Fei waved his hand and Infinity Water gathered in his hands again.

"Huh?"

This time, when Han Fei gathered the Infinity Water, he found that something in the seawater was frantically pouring into the Infinity Water.

No, to be precise, Infinity Water was absorbing something from the seawater.

Han Fei frowned. Sure enough, the energy contained in the Infinity Water had been consumed, so it had to absorb energy from the water.

Anyway, he wouldn't use Infinity Water for the time being. Having the Infinity Water explode twice, this big snake was dying.

Han Fei removed the fusion and said to Little Black, "Little Black, eat its gall! Kill it."

Han Fei gave up on conquering this big snake because the ability of clairaudience was too alluring. Besides, this big snake's body itself was a treasure, and its snake gall was also a great tonic. Little Black would like it very much.

With an order from Han Fei, Little Fatty appeared.

When Little Fatty saw the big snake, he just wanted to run.

Han Fei shouted, "Why are you running? It's dying. What are you afraid of? Come on, suck up its blood."

Little Fatty was stunned. "You... Killed it?"

Han Fei said angrily, "Yes! I'm your master. Don't you believe in your master's strength? Hurry up, suck it up."

Little Fatty immediately put his big sucker on the body of the ancient Sounding Snake.

Unfortunately, Nine Tails and Little Gold couldn't use this snake's body.

After a while, the Ancient Sounding Snake began to writhe and its roars resounded across the seabed. Little Black was gnawing its snake gall.

Gradually, after more than ten minutes, the big snake finally died. Han Fei stepped on its huge head. "Humph, how dare you chase me like that? This just serves you right..."

Swearing, Han Fei took a lot of effort to dig out the Sounding Bead.

Little Black was wobbling. Han Fei had a hunch that Little Black was about to make a breakthrough.

Or to be exact, he was on the verge of a breakthrough.

Even Little White was also a little dizzy and was wobbling.

Han Fei immediately took Little Black and Little White into Forge the Universe. There was spiritual spring energy and Spirit Awakening Fluid there. As long as they were there, they could drink as much as they needed.

However, Little Black and Little White chose a small pond where there was only pure seawater.

Huh! Will they make the breakthrough in seawater?

Han Fei didn't dare to put them into the Soul Sea now because he hadn't figured out the secret of the Soul Sea. However, when he had time, he would enter the Soul Sea and study it carefully.

Little Fatty was sucking for a long time, and then there was a flash of red light on his body, but it was a pity that he didn't upgrade.

Little Fatty said, "Sucking its blood consolidated my overall strength. With another creature like this, my strength can be further consolidated. Then, I'll just need to drink Spirit Awakening Fluid."

Han Fei's eyelids twitched. "Where can I find another creature like this? Forget it, anyway your strength has been consolidated!"

Suddenly, Han Fei felt that someone was approaching and then he found it was Cao Tian, Cao Qiu, and others.

Not only Cao Tian, Ye Baiyu and several others, but also a group of sea demons.

Han Fei was speechless. *You didn't show up when I needed you, so what's the use of showing up now?*

Now Han Fei didn't want to stay with these people. The Overlord was still in the Sounding Snake cave. He must quickly take Overlord back.

Perhaps because the distance was too far, Han Fei wasn't quite sure of Overlord's current state. At this moment, it seemed to be at large.

Han Fei put away Little Fatty and put a hand on the huge corpse of the Sounding Snake to take it into Forge the Universe.

Swish!

Taking a look at the other people, Han Fei smiled. "Go about your business! I'm leaving, bye!"
