Chapter 911: Stick Insect • Tree Lobster (Part 1)

Han Fei felt a chill down his spine. *How could Li Luoluo have a male personality?*

Zhang Xuanyu was stunned and Luo Xiaobai froze. *What is going on here?*

Only Han Fei laughed. "Haha... Brother Li, do you remember why we are here?"

Li Kuang twisted his neck domineeringly, took out a stick, carried it on his shoulders, and said proudly, "Of course, this forest is weird. Let me level it. Humph, Li Luoluo is so weak. I'm the one good at fighting."

Han Fei's eyelids twitched. "Do you know Li Luoluo?"

Li Kuang smiled contemptuously. "Of course, she is the master personality! Although I don't come out often, I am the strongest in this body. Come on, let's kill our way through this place."

Everyone: "..."

Zhang Xuanyu said to Han Fei via voice transmission, *Feifei, what happened to Li Luoluo!?*

Han Fei rolled his eyes. "That's your fault. If you hadn't hugged her, Li Keke would not have become Li Kuang!"

Luo Xiaobai asked, "Han Fei, are you sure about the direction?"

Han Fei pointed in the direction he had just come. "Yes! Keep going, no matter what happens... Go forward and we will find whoever is behind this place."

...

On the way.

Le Renkuang was complaining, "Hey, can I not eat insects?"

"No!"

Everyone spoke in unison, including Han Fei. If there were a lot of insects, who else could solve them except for him?

Li Kuang waved his hand, and a large swarm of insects followed behind him, colorful and densely packed, making everyone tremble.

Li Kuang bared his teeth and said, "The insects are like my soldiers. No one can resist them. The one behind the scenes is just deliberately mystifying. Let me lead the army of millions of insects to destroy him in one fell swoop."

Han Fei asked, "Brother Li, how many insect soldiers can you control now?"

Li Kuang was stunned for a moment, and said vaguely, "There are tens of thousands anyway! But it doesn't matter. I'm the strongest."

Han Fei: "..."

Han Fei rolls his eyes. *You're the strongest? Do you know you're schizophrenic?*

Three hours later.

Zhang Xuanyu was surprised and said, "Huh? Why didn't we see anything yet? No sea demons, no insects, and no vines or grasses. Has the guy behind the scenes given up?"

Luo Xiaobai said calmly, "No! It's just that he knows these means are useless. The insects are no match for Han Fei. I can control the vines and grasses. As for the sea demons..."

Han Fei continued, "The sea demons should be all dead. I joined hands with Brother Li and killed 17 Heavenly Talents, right here in the woods."

Li Kuang nodded. "Yes, I can easily crush these weak sea demons."

Han Fei was speechless. *This Li Kuang is such a brag! I wonder if he is really as powerful as he says...*

At this time, Han Fei felt that this personality was not as reliable as Li Luolu herself! At least, she herself was really strong. Whether it was timing control or combat efficiency, she was definitely one of the strongest.

Luo Xiaobai said, "Then it makes sense. That person should know that ordinary methods are invalid for us, but he hasn't figured out any other way, so he can only wait in hiding."

Zhang Xuanyu chuckled. "That is to say, he is actually not strong. Otherwise, he would have used other means to deal with us."

Han Fei said to the depth of the forest, "Hey, you... Actually, we can leave you alone. Hand over all the treasures in this forest and destroy the sealing objects. We'll leave immediately."

There was no response from the one behind the scenes, so they could only keep walking.

...

Half a day later.

Their eyes suddenly brightened. The forest was gone, replaced by a small mound no more than a hundred meters high and tens of kilometers long, which couldn't even be called a mountain.

Li Kuang immediately raised his stick and yelled, "B*stard, come out!"

Along the way, they had a certain understanding of Li Kuang's stupidity.

No one was paying attention to him anymore.

However, no one could deny Li Kuang was quite strong. Tens of thousands of insects scattered out and started to crawl around the mountain.

After only half an hour, Li Kuang sneered. "Found him."

Zhang Xuanyu raised his eyebrows. "Really? So fast?"

Li Kuang said, "It turns out to be a big insect."

Luo Xiaobai frowned slightly. "Why is it so easy to find? Doesn't the guy behind the scenes know how to escape?"

Luo Xiaobai raised her hand, and a large number of vines emerged from the ground and stretched out, seeming to be looking for danger.

Han Fei was also pinching his fingers and calculating.

However, neither of them found any danger, so they followed Li Kuang all the way forward.

After walking around the mound for a long time, Li Kuang stood under a soil slope.

At this moment, everyone saw it. What was before them was... A lobster?

But this lobster was a bit strange. Its body was very much like dead wood, and its legs were all sunk in a piece of soil on the rocks. At this moment, it was lying vertically in the soil on the stones upside down.

This was actually the only marine creature that Han Fei had seen on this ancient battlefield.

In Han Fei's eyes, information emerged.

<Name> Tree Lobster

<Introduction> A creature rumored to be extinct, extremely rare, which usually appears in a demonic plant forest. They have strong spiritual power. Because its body is connected to the ground veins, it can control the ground veins and thus control spiritual plants. However, its fighting ability is low, and it is also very easy to be hunted. When a tree lobster encounters a dragon insect (stick insect), their strength doubles, and they can almost sweep the entire spiritual plant forest.

<Level> 61

<Quality> Legendary

<Contained spiritual energy> 52,630 points

<Edible effect> Eating it brings a certain chance to gain the ability of teleportation.

<Collectible> Lobster tendons

<Absorbable>

<Remarks> Lobster tendons can be refined into ultra-quality weapons, which is the reason why tree lobsters are scarce.

After seeing this thing, Han Fei was deep in thought. Although he was attracted by the lobster tendons, he didn't lack weapons now. But it could be his fourth contractual spiritual beast.

Of course, Han Fei also noticed another thing, which was the stick insect.

Judging from the ability of a tree lobster, it should not be able to control thousands of insects.

So there must be a stick insect here.

And why didn't the tree lobster run away? Was it because it couldn't run away or it was covering the stick insect? If so, this tree lobster was quite clever. If he hadn't seen the information in his eyes, he wouldn't have expected that there was another creature here...

Li Kuang yelled, "Let me kill this thing!"

Han Fei quickly stopped him and said, "Brother Li, Brother Li, don't panic..."

Li Kuang turned his head. "What?"

Han Fei said, "This lobster is weird. Let me talk to it."

Everyone: "???"

Luo Xiaobai frowned. "Han Fei, what do you want to do?"

Le Renkuang said in surprise, "Feifei, can it speak?"

Zhang Xuanyu asked, "Why bother to talk to it? Just stab it to death!"

Li Kuang agreed. "Yes! Stab it to death."

Han Fei shook his head and said, "Don't panic. We've already found its nest. Are we afraid of it?"

Swish!

Han Fei flashed to the top of the slope and walked to the other side of the slope. He casually said, "Big lobster, let's talk?"

The tree lobster's eyes were erected, and its claws hooked slightly. Seeing that Han Fei had no intention of killing him, it hesitated slightly, turned around, and climbed towards the top of the mountain.

Li Kuang was speechless. "My breath... Oh, my breath..."

"Sister, where's Big Brother?"

The Luo Xiaobai trio: "..."

...

Because the perception didn't work here, Han Fei sat on the top of the mound and patted on the ground next to him. "Come here. Let's talk."

The tree lobster was not very close to him, about 20 meters away from Han Fei. However, such a small distance was nothing to Han Fei.

Han Fei chuckled. "Three things!"

"Firstly, tell me where the sealing object is? We already sensed it when we came in..."

"Secondly, where is the treasure? Don't say there isn't any treasure. How could there be nothing in such a large forest?"

"Thirdly, if you want that insect to live, you'd better tell me the first two things."

Hum!

The tree lobster shivered slightly and wanted to run.

But Han Fei appeared next to it with a swish, and the Void Lines had attached its body.

Squeak!

Seeing insects crawling out from all directions, Han Fei immediately said faintly, "How many times have you two tried? Insects can't kill me. Why don't we make a deal? I am not interested in taking your lives. I only want treasures, as long as I destroy the sealing object."

Han Fei didn't say this to the tree lobster, but to the stick insect that was hidden somewhere.

At this moment, Han Fei was searching around. He saw a round stone split in half. Under the stone, there was a cave, and inside the cave was a mysterious small space.

"Haha, got you."

At this time, a vine emerged from Han Fei, and Luo Xiaobai asked, "Han Fei, do you need help?"

Han Fei replied, "No! Wait for me for a while."

If this tree lobster was a legendary creature, then the stick insect should be of the same level. Wouldn't it be wonderful to collect two legendary creatures?

The tree lobster had no fighting power, so it was easily controlled by Han Fei. Its plan to sacrifice itself to save the stick insect failed.

When Han Fei and the tree lobster came to the stone, Han Fei found a large number of insects guarding in front of the stone, trying to stop Han Fei.

Han Fei turned his hand and pressed it down, and immediately, the insect corpses were everywhere.

"I told you insects are useless to me. What I want is treasure!"

With that, Han Fei controlled the tree lobster to enter this strange little space, and he followed closely behind.

Chapter 912: Stick Insect • Tree Lobster (Part 2)

As Han Fei stepped into this small space, he discovered this must be the secret of this forest.

In this ultra-small secret realm, there was only one stick stuck in the ground. Of course, what Han Fei noticed at first sight was not the stick, but the big insect that was sticking to the stick.

Han Fei looked up and down. The insect's body was also like dead wood, but there was a faint golden light on its edges. It looked like a luminous dead branch.

It turned out that this thing was manipulating the insects in the forest...

This was a golden-gray stick insect, two meters high, with eight sections of body, six claws, and double hook-like feelers. At this moment, there were a lot of insects around it.

In Han Fei's eyes, information emerged.

<Name> Stick Insect

<Introduction> An extremely rare stick insect which grows in demonic plant forests. They have strong spiritual power and can control insects. However, its fighting ability is low, and it is also very easy to be hunted. When a tree lobster encounters a dragon insect (stick insect), their strength doubles, and they can almost sweep the entire spiritual plant forest.

<Edible effect> Eating it brings a certain chance to acquire the ability to talk to insects.

<Collectible> Insect honey

<Absorbable>

<Remarks> Insect honey is a precious material for alchemy and is one of the important ingredients of the law pill.

Han Fei grinned. *Now we finally meet. Is this stick the sealing object?*

Han Fei could tell at a glance that this stick was very special as it gave off a certain aura, a bit like the Cosmic Sword. It was either a top-quality Divine weapon or an ultra-quality Divine weapon...

But it wasn't likely a Sea Quelling Bizarre Treasure. Snowmourne looked much more gorgeous than this stick.

"Heh, this stick would suit Zhang Xuanyu."

Han Fei already had the Embroidery Needle and the Snowmourne. Even if he took this stick, he wouldn't be able to fully tap its potential. So, he might as well give it to Zhang Xuanyu.

Han Fei looked around and found a corpse lying here.

To Han Fei's disappointment, except for this corpse, there was no spiritual spring energy or Spirit Awakening Fluid on it.

Han Fei stared at the stick insect with a dark look and said, "I'll give you three minutes to consider my questions. Where is the treasure? And is there any spiritual spring or Spirit Awakening Fluid here?"

Suddenly, a vague voice rang in Han Fei's mind, *Can, can you control it?*

Han Fei couldn't help but smile. *This stick insect can talk!*

At this moment, Han Fei had controlled the soul of this tree lobster.

Han Fei grinned. "You've used one minute."

The stick insect immediately responded, "Actually, there is nothing good here. We are just guarding this seal."

Han Fei smiled and Infinity Water appeared in his hands. "Now you only have one minute left..."

"Wait a minute!"

Han Fei's eyes were cold. "What, have you decided to tell me the truth?"

The stick insect said, "The little girl who controls insects needs me. I have told her that I am willing to be her contractual spiritual beast. I'll also tell you where the treasure is..."

Han Fei bared his teeth. "Do you think I dare not kill you?"

The stick insect said, "You don't need to kill me. I am just an insect. Since you have controlled the tree lobster, why not let me go?"

Han Fei said, "Collect!"

The tree lobster was immediately collected into the Demon Purification Pot.

The only thing that surprised Han Fei was that this stick insect was too smart. Within three minutes, he had put aside his dignity as a legendary creature and promised to be Li Luoluo's contractual spiritual beast.

Swish, Swish, Swish!

The others ran in one after another.

"Insect!"

Han Fei shuddered and immediately stared blankly at Luo Xiaobai.

Luo Xiaobai explained, "When you took that lobster away, she changed into another person."

Han Fei: "..."

"Wow... The stick..."

At the first glance, Zhang Xuanyu saw the stick inserted in the center of the little secret realm, and his eyes almost glowed green.

Luo Xiaobai grabbed Zhang Xuanyu with a vine, dragged him back, and looked at Han Fei quietly. "What happened?"

Han Fei pointed to the insect and said, "I originally wanted to kill it. However, he took the initiative to ask Li Keke to take it."

Although it was a pity that he missed a legendary creature. It was alright. This stick insect knew where the treasure was! At least it could help them find the treasure.

Han Fei looked at Li Keke and said, "Keke, let this insect be your contractual spiritual beast, okay?"

Li Keke pouted, hesitated for a long time, and suddenly said, "Sister Luoluo, Keke won't accept it!"

Han Fei's eyelids twitched, and then he saw Li Keke's face slowly distorting and various colors returning to her face.

When her lips turned blue-purple, Han Fei knew that Li Luoluo had returned.

"Ahhhh... Damn, stupid Keke, you should have given me your body long ago. Why do you give my body to Li Kuang? He's just an idiot..."

Li Luoluo said angrily and gave Han Fei and Zhang Xuanyu a menacing look, "Don't tell anyone my secret."

Han Fei shrugged speechlessly and said, "Come on, collect the stick insect!"

Li Luoluo's eyes lit up, and she stepped forward. "What a good insect!"

Zhang Xuanyu touched Han Fei's shoulder and asked, "Is Li Luoluo back?"

Han Fei nodded. "Yes, which isn't a bad thing. Li Luoluo is a bit more herself right now. However, now we've seen 5 personalities, Li Keke, Li Kuang, Li Luoluo, and two others who we don't know their names... Maybe a few haven't even come out yet, who knows!"

"Hiss!"

Zhang Xuanyu gasped in shock and said, "More?"

Han Fei remembered when he was fighting Sun Mu, and when Infinity Water exploded, Li Luoluo seemed to have changed into another person... Han Fei wasn't quite clear who the other two were.

Besides, her nickname was Variety Devil Girl. It made sense for her to have seven or eight personalities.

Han Fei was still thinking about it when he heard Zhang Xuanyu say hesitantly, "Feifei! Well, can you introduce me to her?"

Han Fei: "???"

Han Fei looked at Zhang Xuanyu in shock. "Are you serious? Believe it or not, she can stab you without a second thought!"

Zhang Xuanyu said carelessly, "Didn't Xia Xiaochan stab you often? I don't mind..."

Han Fei was speechless. "Don't forget she can control insects. I'm afraid that when you wake up, you will only have bones left."

The smile froze on Zhang Xuanyu's face. "Uh... Well, let me think about it then."

While Han Fei and Zhang Xuanyu were whispering, Li Luoluo had signed a contract with the stick insect.

Li Luoluo looked back at Han Fei strangely. "I know the location of the treasure... How shall we deal with this stick? As long as it falls, the seal will be broken."

Zhang Xuanyu immediately said, "Let me try it."

"Nine-Layered Waves in the Furious Sea!"

A boom resounded in the little secret realm, and a terrifying, overwhelming power erupted!

However, that stick could produce an invisible barrier to resist the power. Zhang Xuanyu failed to break the barrier after trying twice.

Seeing this, he put his hands behind his back and said arrogantly, "Good, this barrier is not bad. Feifei, I was just testing it. Now it's your turn."

Li Luoluo rolled her eyes, muttering, "Do you think we don't know you can't break it?"

Zhang Xuanyu's face suddenly turned blue. God, he was mocked by a girl!

Le Renkuang shook his head slightly. Poor Zhang Xuanyu tried to impress the girl but failed. Seeing that there was no water in this secret realm, he immediately proposed, "Shall we eat hot pot here?"

Luo Xiaobai frowned. "Step back."

Clang~ Clang~

Boom, boom, boom!

Invincible fist marks bombarded the seal crazily.

The horrible power shook the little secret realm.

After more than 30 punches, everyone heard a "click" and the barrier collapsed.

Han Fei drew up the stick and threw it to Zhang Xuanyu. "Xiaobai, I found that there are both strong and weak spiritual barriers. The defense of this barrier is very strong."

BAM!

Before Luo Xiaobai could answer, the secret realm exploded, and seawater instantly poured in.

The entire forest was shaking, so was the sea. Above their heads, thunder rumbled. The seal of the outside world seemed to be affected.

Luo Xiaobai said, "The seal must have been loosened, and there may be a chance to break this space."

Han Fei's heart did a flip and he immediately said to Li Luoluo, "Quickly take us to find the treasure. We won't have any chance if the people outside come in!"

Le Renkuang nodded hard. "Yes, yes! Let's find the treasure first."

Li Luoluo ran out with a swish. "Come with me."

This time, there were no insects in the forest, so they were extremely fast, and it took them only half an hour to reach where the treasure was.

At this time, the sea was still shaking. Luo Xiaobai guessed, "It is very likely that some people on the outside are trying to break into the secret realm."

"Then hurry up!"

Li Luoluo stomped and a large swarm of insects began to burrow into the ground. After a while, a big pit appeared in the ground.

Seeing this pit, everyone felt a chill down their spines. There were all kinds of corpses, and all kinds of weapons in it. It had to be the tree lobster and the stick insect that killed these people, sucked them dry, and buried them here. As time went by, there was a whole pit of corpses.

Le Renkuang exclaimed, "Wow! A lot of... Semi-Divine weapons?"

Han Fei had already jumped in. *Semi-Divine weapons? Yes, there are even Semi-Divine weapons!*

Le Renkuang quickly said, "Hey! Put that down. I..."

Zhang Xuanyu shot back, "A stick may not be enough for me."

Li Luoluo added, "And mine..."

In a moment, these bandits had taken all the weapons that had been buried in the pit for an unknown period of time.

Only Luo Xiaobai, standing by the side of the pit, looked up at the sky and muttered, "The people outside haven't broken in yet!"

Chapter 913: Heavenly Talents Gathered

Outside the forest was devastation.

The Han Fei squad stood stunned, not knowing where to go.

Luo Xiaobai asked, "Where is Little White?"

Han Fei said helplessly, "She seems to be having a breakthrough and can't come out temporarily."

Zhang Xuanyu held his stick carefully and almost rubbed it into his body. At that moment, he said carelessly, "We should find a place to go..."

Le Renkuang exclaimed, "Huh! Someone has come out."

They turned their heads and found it was Youye.

Seeing Han Fei and Li Luoluo together, Youye immediately waved her hand. "Han Fei, Luoluo."

Li Luoluo looked at the others warningly. "Remember to keep it a secret for me: Li Keke and Li Kuang don't exist."

Youye walked over quickly, looked at them, and said with surprise, "Are you just coming out from the forest?"

Li Luoluo giggled. "Yes... We destroyed the sealing object in the forest."

Youye couldn't help but heave a sigh of relief. "I knew it! But there were too many insects in the forest, and there was no way to get inside. Are you sure you destroyed it? The outer seal doesn't seem to have been opened yet."

Han Fei said, "There is more than one. I destroyed another one with Shier."

Youye's eyes lit up. "Where is he?"

Han Fei shrugged. "I was separated from him, so I don't know where he is."

Youye sighed. "What are you doing here?"

"We're thinking about where to go."

Youye pointed in one direction. "There, many people went in that direction."

Luo Xiaobai asked, "Sea demons or humans?"

Youye smiled. "Both. Some people passed by and didn't enter, but we manipulators would have certainly gone in. However, it is full of insects and flowers that are really ugly."

Zhang Xuanyu couldn't help poking out his head. "Girl, hello... I..."

Before he finished speaking, Han Fei pressed his head back with one hand. "Then let's go in that direction! With so many people going there, there must be something going on."

Han Fei sensed that there seemed to be something attracting him.

...

A group of 5 had now become a group of 6.

One day later.

They hadn't found anything strange yet when the sea suddenly shook again, even more violently this time.

They seemed to see some illusions above the seawater as if they could see the sky outside, but the sea slowly fell silent.

Luo Xiaobai remarked, "Someone broke a seal, and the spiritual barrier is about to be broken."

Le Renkuang suddenly said, "It seems to be up ahead!"

Everyone immediately looked at him, and he gave an innocent smile. "I feel that there seems to be a slight suction power in front of me, it just started."

Two hours later.

Han Fei sensed that a big hole appeared in front of him with a shape a bit like the bottomless hole in the Transverse Mountain.

In front of the cave, corpses littered the ground, and Han Fei was surprised to find Tang Ge, Mu Ling, Jiang Qin and others.

Besides these familiar faces, many others were there.

Of course, there were also many people from the Emyrean Waterfall. With a single glance, Han Fei had found at least 50 acquaintances.

As for the battlefield outside the cave, hundreds of sea demon corpses littered the ground.

Han Fei wasn't surprised. In a sense, humans had an advantage over the sea demons.

That was because sea demons would not form a family, an academy, or an organization.

But humans were different. Sun Mu's weapons were all renewed. This was a sign of their success. Could sea demons have so many Semi-Divine weapons or even ultra-quality Divine weapons? Han Fei didn't want this information to spread.

When they traveled 50 kilometers away, Youye said, "There are a lot of people ahead."

Han Fei couldn't help but glance at her in surprise. Can a peak-level Hidden Fisher perceive 50 kilometers away?

Immediately, Li Luoluo shouted, "I saw Qing Chen, Dashuai, and Nameless..."

Youye frowned. "Shier is not there..."

Luo Xiaobai and the three looked at each other. One's strength could be seen from their perception range. In terms of strength alone, both Youye and Li Luoluo were superior to them.

Luo Xiaobai asked, "How far are their perception ranges?"

Han Fei calmly analyzed, "Youye, 50 kilometers, and Li Luoluo, about 42."

Luo Xiaobai nodded slightly. The gap was not big and was acceptable.

After a while, they arrived and Wang Dashuai waved at Han Fei. "Little Junior Brother, Little Junior Sister."

At the moment when they appeared, Sun Mu, Mo Feiyan, and the others gathered together spontaneously. With their subordinates counted in, they were five times more than the people on this side.

Tang Ge didn't wave his hand, but said to Han Fei through voice transmission, *Our relationship has not been exposed yet, so I'll pretend not to know you well.*

Han Fei shook his head. *No, it has probably been exposed. This time, so many strong masters from all sides are competing for the Sea Quelling Painting. They must have done a thorough investigation of all involved.*

Even if they know it, they won't necessarily tell each other. The big clans in the Thousand Star City clans also fight with each other. Also, the seven sects seem to be quite resolute to get the painting. They're definitely not as simple as they seem on the surface.

Han Fei glanced at them and replied, *The people from the Empyrean Waterfall are not necessarily all good people. I don't know many people there. My guess is that many of them also have a Sea Token.*

The two talked for a while and separated.

Li Luoluo and Youye went to the other people from the Empyrean Waterfall. After all, they weren't from the Thug Academy.

Jiang Qin was sitting cross-legged, and Chu Linyuan got up and said, "Junior Brothers and Junior Sisters, how about this trip?"

Luo Xiaobai responded, "We've gained a lot."

Mu Qingchuan smiled and said, "That's good. If I've guessed right, the spiritual barrier will open soon. The remaining sea demons are very likely to be in serious trouble."

Han Fei nodded slightly. "So, is Blue Feather going to suffer great losses this time?"

Jiang Qin said indifferently, "Blue Feather thought this was just an ancient battlefield, he didn't know that the ancient battlefield was actually the entrance to the underground city. Now the spiritual barrier outside has been broken. As long as Blue Feather comes in, it'll be like catching turtles on the shore. Eight Wings of Blue Feather may all die."

Everyone couldn't help being shocked. Xue Shenqi made quite a smart move!

However, Jiang Qin said, "But don't celebrate yet. It is extremely difficult to kill Blue Feather. Besides, Blue Feather may have some hidden means."

Han Fei glanced at the other people. "But there are so many of us here..."

Jiang Qin nodded. "This is why I said the Eight Wings of Blue Feather may all die. No matter what trump card he has, he can't confront the big clans and the major sects in the Thousand Star City Clan alone."

Luo Xiaobai looked at the big black hole that led to somewhere. "Is this the way to the underground city?"

Jiang Qin nodded. "It should be, but this has nothing to do with the bottomless pit in the Transverse Mountain. This is something separate."

Han Fei couldn't help but sigh. "I'm really afraid that if I jump from here, I will go to the other side of the world."

Everyone: "???"

Han Fei smiled awkwardly. "Nevermind. Has everybody arrived? I guess there are still many people scattered elsewhere."

Mu Qingchuan said, "Up to now, five seals have been broken, and this spiritual barrier is already unstable. Otherwise, it wouldn't have been exposed so quickly, and there wouldn't be so many people gathering here. Those who are destined to come will come soon, and those who aren't will not."

Han Fei said in surprise, "Five seals have been broken?"

Jiang Qin said, "Don't you feel that when the seal just now was broken, the spiritual barrier was almost opened?"

Le Renkuang couldn't help saying, "What if sea demons arrive first when the spiritual barrier is broken?"

Luo Xiaobai said, "Impossible. So many human Heavenly Talents are gathered here. We certainly won't let the sea demons arrive first."

Han Fei patted Le Renkuang on the shoulder and said, "Don't worry! You can just jump into the hole. You'll have to jump anyway."

Le Renkuang sighed. "As long as there are no insects in it."

...

Another day later.

There were as many as 500 humans outside this big cave.

During this period, a team of about 60 sea demons came here but immediately fled. Even so, no one chased them.

Chu Linyuan said, "We don't need to chase them. When the spiritual barrier outside opens, all the sea demons here will die."

Han Fei said, "But... 60 Sea Swallowing Seashells!"

Everyone: "..."

Suddenly...

The seawater oscillated, the sky burst into a radiant glow, and waves surged.

Jiang Qin suddenly opened her eyes. "It's broken."

Rumble!!!

Crack!

It seemed to be broken somewhere. Anyway, deafening sounds resounded throughout the sea.

At this moment, everyone got up.

The deafening sounds went on and on, a phantom of a blue dragon appeared in the sky, and some bells rang. Here, they could only feel surging waves.

About half an hour later.

A few hundred kilometers away from them, it was shining dazzlingly and thunder rumbled!

Swish!

A woman holding a sword suddenly appeared in the air, seeming to be defending someone.

Han Fei couldn't help asking, "Who is this?"

In the crowd, some young women stood up one after another. Among them, there was an acquaintance of Han Fei, Gong Yuehan.

Gong Yuehan bowed and greeted, "Junior Aunt."

The woman didn't even respond, and her figure disappeared with a swish. Then Han Fei perceived that the woman appeared ten kilometers away and began to fight against a Half-Merman.

Han Fei knew this Half-Merman, who was Yu Ji's master, Yu Beichen, the sixth place of the Eight Wings of Blue Feather.

Chapter 914: Powerful Master Jiang

Han Fei was shocked by this attack. It was too strong, almost unrivaled. It literally cut the seawater in half. Is this the power of a real powerhouse?

Yu Beichen was also terrifyingly strong. A phantom of a big fish appeared in the sky, and a yellow giant stood upright with a harpoon in his hand like a god.

Han Fei seemed to hear that woman snort as she waved her sword. Then, waves soared thousands of feet high and the phantom of the big fish was shattered. Yu Beichen was sent flying out of Han Fei's perception range.

Oh my god!

Han Fei didn't know why the people from the Jade Fairy Palace came first instead of the big clans from the Thousand Star City.

At this moment, at the entrance of the cave, everyone looked solemn and was prepared for fighting, although this seemed to be useless.

Han Fei perceived that there were battles in all directions, and the Eight Wings of Blue Feather seemed to all be there.

There was a resounding sound in the sea.

Blue Feather shouted, "Good, very good! Xue Shenqi, do you want to start a full-scale war with us?"

Xue Shenqi's indifferent voice sounded, "Aren't we already in a full-scale war? The Ten Thousand Demon Valley should belong to humans."

Boom...

Terrifyingly powerful waves swept across in all directions and the sound of rumbling filled their ears. The aftershock alone shook thousands of kilometers away.

On the bottom of the sea, Han Fei seemed to be facing one billowing wave after another. The waves beat like drums, and many of the people turned pale.

At this moment, a Divine weapon descended from the sky. It was a Death Door, which separated the waves like a wall.

Someone was standing above the gate as if towering above the clouds.

The disciples of the Death Door Sect all stepped forward. "Elder Duan."

"An Inch of A Thousand Years..."

A hoarse roar resounded in the water, which shook everyone.

Immediately afterwards, a person flew over at the speed of almost a hundred kilometers a second. Han Fei perceived that the battle suit on this man's body was rotten, and his black hair whitened in a moment.

Han Fei's eyes widened. "The head of the Eight Wings of Blue Feather, Qiannian Ying?"

When the person arrived, the Heavenly Talents of the Origin Returning Peak all chased over, shouting, "Junior Uncle, Junior Uncle..."

In the waves, Blue Feather laughed. "Xue Shenqi, do you really think that Eight Wings of Blue Feather are all Sea Spirits?"

A voice rang, "I, Qiannian Ying, the head of the Eight Wings of Blue Feather, have broken through the Sea Spirit Realm more than 20 years ago."

Han Fei was horrified... Qiannian Ying's words meant that he already had the power of an Explorer.

Qiannian Ying was only a hundred kilometers away, and a strong master from the Death Door Sect parried his attack with a big seal, and three huge doors fell from the sky.

The three doors were shattered almost instantly.

When Qiannian Ying was going to reach them, a man in black appeared out of the blue and punched out.

The collision power made the man above step back several tens of meters, and then he said calmly, "I'm Cao Wudi from the Cao Family."

Jiang Qin leaned over to Han Fei and introduced him, "Cao Wudi is a genius. He became a Law Enforcer 18 years ago when he was only 26 years old. Now he is already an Explorer, known as Martial Arts Maniac. He is Cao Qiu's youngest uncle."

Han Fei immediately clutched a vine and gasped in shock. *Here is another Explorer! Come on, the spiritual barrier was just broken!*

Han Fei couldn't help exclaiming, "It's a pity that I can't watch them fight!"

Jiang Qin shook her head slightly. "You will die if you watch. Stay alive."

On the other side, Cao Qiu waved his hand. "Uncle, uncle, here."

Cao Wudi glanced down and said, "Don't disgrace our family this time. Try your best. If someone tries to stop you, kill them..."

After finishing speaking, Cao Wudi stomped and smashed the law of time of Qiannian Ying. Then he punched out again and thousands of fist shadows flew across the sky. This scene excited everyone.

Even Han Fei was no exception. At that moment, he felt that he seemed to make a little breakthrough in the Art of Invincibility. This guy was too strong, so strong that even Han Fei was scared!

After a while, one expert after another descended, but most of them were of the Law Enforcer level.

Han Fei perceived there were four battles a hundred kilometers away.

“Huh! There is one sea demon missing.”

Han Fei frowned and said, “The second place of the Eight Wings of Blue Feather is a mysterious man named Jiu Honghai. I’ve never seen him.”

Suddenly, from above the giant door shielding them in front, a gaze swept down. The strong master from the Death Door Sect seemed to hear Han Fei’s words.

Han Fei didn’t care. *Even if he heard me, it doesn’t matter. Can’t I know something about the sea demons?*

Jiang Qin said, “It’s fine!”

Chu Linyuan put a hand on Han Fei’s shoulder and said, “Don’t worry, but our Thug Academy should pick someone to join the war.”

Han Fei asked, “Who? Old Jiang?”

Mu Qingchuan chuckled. “Interesting. I heard that you and Mr. Jiang are on good terms. It seems this is true.”

The strong master from the Death Door Sect had put three gates in front of them, forming a triangle. No matter what happened outside, they were safe here.

As for the humans scattering in other places, Han Fei didn’t know what would happen to them. They might escape, be at a loss for what to do, or be killed.

Han Fei suddenly had a bad hunch.

The next minute, he perceived nine rays of light coming from nine places.

Xue Shenqi’s voice suddenly sounded, “What are you waiting for?”

“Humph! I don’t need you to remind me!”

Crack, crack, crack!

Above their heads, there was a huge array extending thousands of kilometers. It had nine layers and each line of it was rotating dazzlingly with a strange light.

“Step on the heavenly palace and set up a strange door. The array set up by me shall be invincible.”

Under Han Fei... Oh no... Under everyone’s stunned stare, Old Jiang stood on this array with his hands behind his back.

At that moment, on the array, countless mystic rays of light shot out and they were full of killing aura.

Eight of the nine figures rushing from outside were crushed in an instant.

“Gulp!”

Zhang Xuanyu elbowed Han Fei. “Feifei! Is this that... Old Jiang?”

Le Renkuang’s face was full of shock, or perhaps... Full of admiration. “Wow, he is so strong!”

Han Fei rolled his eyes. *Old Jiang has been hiding his real strength! But this is really cool... Humph, this old b*stard is simply showing off!*

He turned his head, only to see that Jiang Qin's face was dark, Chu Linyuan and Mu Qingchuan were muttering something, and Wang Dashuai and Bai Lu looked up, seeming quite amazed.

Han Fei was a bit disappointed. "Hey! Why don't you cheer!? Disciples of the sects should all cheer when a strong master from their sect shows up! Shouldn't we?"

In the next second, Han Fei received a message via voice transmission, *Little b*stard, why don't you cheer for me?*

Han Fei was speechless!

Then he took a deep breath and shouted out loud in the water, "Oh, my powerful Master Jiang! A single array he set up can wipe out all our enemies! Uh... No one can be his match, not even in the Thousand Star City..."

Smack!

Someone suddenly slapped Han Fei. He stumbled and found Old Jiang was glaring at him. *You brat, although what you said is true, how can you say it this way? Shut up.*

Han Fei. "..."

Han Fei was angry and thought, *This old b*stard, I was cheering for you! Why did you slap me?*

Then he found that everyone was looking at him speechlessly.

Jiang Qin's black face had turned into a red face. Sure enough, similar people attract. No wonder Grandpa liked Han Fei!

Chu Linyuan looked at him in shock. "No wonder Mr. Jiang likes you, Little Junior Brother. You're... Really... Excellent..."

Luo Xiaobai lowered her head as if thinking of something. Obviously, she didn't want to talk to Han Fei at the moment.

As for the others, why did Han Fei care about the others?

Old Jiang laughed out loud and mystic light suddenly shone dazzlingly in the array, forcing a black figure to run around in the array.

However, if he wanted to run out of the array, he had to break the array first!

Soon, the person was crushed and annihilated by the array.

A nine-headed snake tried to break the array, only to be stomped on by Old Jiang and all its nine heads were crushed.

That scene was truly shocking. No matter what other people thought of the Thug Academy before, at this moment, they were all horrified.

Including the powerful master from the Death Door Sect, he looked very solemn. He didn't think he was Old Jiang's match.

Cao Qiu asked, "Sister, which one is stronger, the Senior from the Thug Academy or Uncle?"

Old Jiang was lying on the side in the sky, holding a wine gourd and drinking. Hearing this, he immediately sneered. "How can Cao Wudi, the brat, compare with me?"

Cao Jiaren said, "This Senior is old, but Uncle is still young. Who knows what will happen in the future."

Old Jiang was very unhappy to hear this. *Old? Am I old?*

So he immediately ordered Han Fei via voice transmission, *Teach her a lesson.*

Han Fei rolled his eyes. *Go away. Why is it any of my business? As she said, you're old. The limelight is something that should be left to me!*

Leave it to you? Humph... You can't even resist a single snakehead of Jiu Honghai, OK?

...

In the distance, deafening sounds went on and on. In the end, Han Fei discovered that hundreds of kilometers away, the ground had completely sunken, cracks were everywhere, and smoke and dust billowed like flowing clouds in the sky.

"Hoooooo!"

"Xue Shenqi, are you really not afraid of the one under our Ten Thousand Demon Valley?"

Xue Shenqi sneered. "Come on, bring him here and see if I am afraid of him..."

Chapter 915: A Complete Victory

No one knew what it was like outside.

Anyway, the battle had become so fierce that everyone seemed to be in a violent wave.

Except for the corner where Han Fei and the others were in, other places had been beaten into mud pits. With the naked eye, nothing could be seen...

Xue Shenqi and Blue Feather were fighting. Han Fei even wondered whether they would destroy this ancient battlefield.

After about half an hour, the battle finally ended.

Han Fei said to Old Jiang via voice transmission, *Hey, old man, how is it going outside? How many died?*

Old Jiang answered, "Four of the Eight Wings of Blue Feather have died, and Blue Feather was severely injured under the siege of two Explorers. At this moment, he has escaped."

Han Fei curled his lips. *Only four died? I thought they would all die...*

Old Jiang snorted. *Stupid, Xue Shenqi wouldn't really kill Blue Feather. If he killed Blue Feather, what if the Ten Thousand Demon Valley had a stronger leader? So, it is better to keep Blue Feather.*

Han Fei curiously asked, *What about Qiannian Ying? Is he dead?*

No. At the Explorer level, he's not easy to kill! However, although we didn't wipe out the Ten Thousand Demon Valley, we've ascertained what they're capable of. At least, as many as 32 Sea Spirit level sea demons were killed in the battle. And the sea demons in the Sea Demon Realm on the ancient battlefield all died.

Han Fei swallowed. It was already a good outcome!

Han Fei asked, *What about human beings? How about the human masters?*

Old Jiang chuckled. *If it weren't for protecting human seeds, at most two of the Eight Wings of Blue Feather could escape. Most humans were protected. This battle can be considered a complete victory for humans.*

Han Fei couldn't help but admire them. He thought that the sea demons knew about the Sea Quelling Painting plan, but it turned out the stupid Blue Feather didn't know of it at all...

He dared to get involved in this matter before he investigated it clearly. How stupid!

After calming down, however, Han Fei felt that if he were Blue Feather, maybe even if he knew this was a trap, he would still have to jump inside. Otherwise, if humans grabbed the ancient battlefield, the threat to the sea demons would be greatly increased.

"Tsk! This is an overt plot..."

Anyway, a guy who could be the supreme commander couldn't be simple! Regardless of whether the sea demons meddled in this affair or not, he could maximize the benefits. This battle could even determine the situation for the Scattered Stars Island in the next few decades. What a smart move!

...

After a while, figures appeared in the air.

Xue Shenqi arrived and nodded at Old Jiang. And the latter pressed a hand onto the array. With cracking sounds, the array was soon put away by Old Jiang.

Swish, Swish, Swish!

This time, more than a hundred Law Enforcers had come. Cao Wudi was back. Now there were three Explorers here, who were like three pillars for the human side.

There were also masters from the seven sects, members of the big clans from the Thousand Star City, and other Law Enforcers.

Han Fei looked around but didn't find Old Han.

Huh! Old Han wants me to grab the Sea Quelling Painting, but he is not even here?

The juniors all went to greet their seniors.

Half an hour later, dozens of other people came here. Han Fei saw that Yue Shier was carried over by a burly middle-aged man.

There were as many as 523 Hidden Fishers.

Han Fei said in surprise, "How are there even Hidden Fishers here?"

Xue Shenqi shouted, "This time, mankind has had a complete victory! More than 5,000 enemies in the Sea Demon Realm were killed. You've done a great job."

"Wow!"

"Doesn't it mean that the sea demons were almost wiped out?"

"Wow, is this a trap or something?"

"We won..."

Below, the people were in an uproar.

Beside Han Fei, only Le Renkuang exclaimed, "I knew it. How could such a large-scale battle that is unprecedented in history be that simple?"

Zhang Xuanyu sighed. "Anyway, I've already got a Divine weapon. I have no regrets."

As for Xiaobai and Jiang Qin, they were very calm and remained deadpan.

Han Fei sneered at Zhang Xuanyu. "Do you dare to make it recognize you as its master? That thing may suck you to death."

Zhang Xuanyu was taken aback for a moment. "Then what should I do?"

Han Fei shrugged. "How should I know? Just make do with the Semi-Divine weapon-level stick for now. Unless you have enough spiritual fruits and spiritual medicine, don't try to make that stick recognize you as its master."

Zhang Xuanyu frowned. "What if it is snatched away by someone?"

Han Fei smacked his lips and said, "Of course, snatch it back. Others can't become its master either. Anyway, it's now an ownerless weapon."

However, Jiang Qin threw a pill bottle to Zhang Xuanyu and said, "Take it when you're making it recognize you as its master. The pills can bring a lot of energy to you. However, even if the weapon has recognized you as its master, use it sparingly. With your current strength, if you use a weapon of this level, it is likely to suck up all your spiritual energy. Then you will be in danger."

Zhang Xuanyu's eyes lit up. "Thank you, Senior Sister. You are too kind."

Zhang Xuanyu grinned from ear to ear. His big trouble was solved by these pills that Jiang Qin gave him so casually.

Han Fei was surprised. "Sister Qin, why do you have this kind of pill? Are there any more? I also have some weapons that haven't recognized me as their master."

Le Renkuang also shouted in a trembling voice, "Senior Sister, don't forget me..."

Jiang Qin glanced at them lightly. "There are four pills in the bottle, one for each of you."

So this was for the four of them!? If Han Fei hadn't asked, the pills would have all been taken by Zhang Xuanyu.

Jiang Qin gave Han Fei a meaningful look. "What Grandpa is best at is actually not arrays, but alchemy."

Han Fei was taken aback for a moment. *Has Tang Ge learned all the alchemy skills of Old Jiang?*

However, thinking of the battle just now, Han Fei still wanted to learn arrays because an array master could show off his skills just as Old Jiang did just now, but an alchemy master couldn't.

He could only draw an array combining more than a dozen arrays, but how many arrays were in the array Old Jiang set up just now?

Besides, Tang Ge was his good buddy. He was happy for Tang Ge. After Old Han disappeared, the two of them depended on each other for survival. Now, Tang Ge practiced alchemy and he learned arrays. Wasn't it perfect?

With this in mind, Han Fei smiled.

...

In the sky, more Law Enforcers came over.

"Sir, we've taken all humans out of the ancient battlefield. Is there anyone here who needs us to take them out?"

Xue Shenqi lowered his head and said lightly, "Anyone who doesn't know the secret of this cave, get out of the way."

In the crowd, many people whispered to each other. Some people didn't know the secret of this cave.

In the end, 102 people walked out.

When these people, after taking a step forward, looked back, their pupils constricted. Do the remaining people all know the secret of this cave?

Ridiculous! Wasn't everyone here for the first time? How could they know the secrets of this cave?

Han Fei and the others, of course, didn't move. Obviously, Xue Shenqi was about to clear the field.

However, to Han Fei's surprise, Xue Shenqi said, "Listen well, you are all the Heavenly Talents of the Scattered Stars Island. But today, you need to know one thing. The Unknown Place is called this, not because of the Scattered Stars Island, but because of another world buried deep underground. An underground city that only exists in legends..."

"Oh!"

The 102 people were shocked. They had never heard of this! But why were they being told now?

Xue Shenqi said, "Since you can be here, you have the right to know. But... Listen, there is a lot of danger there. If you leave now, you can immediately get the seven-star rank and ten million points of credit and can be a supervisor when you go back. Anyone wanna leave?"

These 102 people looked at each other, pondering. On one side there were great dangers, and on the other was a seven-star rank, ten million points of credit, and a promotion. Which one should they choose?

Someone walked out. He didn't even know this secret before, which meant that the others were already prepared, so he might as well leave.

Having someone take the lead, soon a lot of people left. Some people thought that they shouldn't rush on the path of cultivation. If they died in this cave, they wouldn't have any chance.

Of course, there were naturally some people who refused to leave. They finally got the chance to stand shoulder to shoulder with the strongest people. How could they let go of this chance? The path of cultivation was full of risks. They couldn't flinch.

Danger represented opportunity. If they were afraid of death, they wouldn't even have the qualifications to enter this ancient battlefield in the first place.

In the end, 76 of the 102 people were left.

The rest of them decided to take the risk.

A Law Enforcer landed, drawing an array with one hand.

Han Fei's eyes narrowed slightly. A small teleportation array? Junior Uncle Faceless had once shown it to him, and he also secretly learned it in the Ancient 72-Floor Demon Realm, although he hadn't mastered it.

The Law Enforcer said, "The people who want to leave, follow me."

Chapter 916: The Magical Underground World

The sea was rippling and the atmosphere was weird.

When these people left, in an instant, there were only 447 people left here.

But Han Fei counted and found that there were only 99 Sea Tokens. How could they be allocated to 447 people?

Then he heard Xue Shenqi say, "Among the 400 or so of you, some will go down to continue looking for opportunities, and some will have other purposes. No matter what your purpose is, you should be able to come out of this entrance. Of course, it will not be that easy to come out..."

After that, Xue Shenqi looked around. "OK, split up and act separately!"

Cao Wudi casually threw three pieces of ancient jade to Cao Qiu and his brother and sister. "Holding this jade, you'll be able to come out."

A strong master from the Heavenly Sword Sect casually scattered a dozen sword talismans to the disciples of his sect.

Han Fei was surprised to find that Nameless turned out to be a member of the Heavenly Sword Sect. He was actually Tang Ge's Senior Brother.

The different parties distributed different things to their disciples or members, but the effects were the same. This meant that it was easy to enter the underground city but difficult to come out.

This also meant that once someone lost this talisman or the like in the underground city, there was a great possibility that they would never get out.

Old Jiang also threw a piece of ancient jade to each of them and said lightly, "There are so many opportunities in this world, so the opportunities in this city are not necessarily the best. Just do what you should do."

Han Fei's heart did a flip. *Is the old man implying something?*

What he meant was that the opportunities in the city were not necessarily good. What really mattered was the Sea Quelling Painting.

Han Fei secretly told himself, *No matter what, just grab the painting first.*

Han Fei glanced at Old Jiang. "Grandpa, have you still got the pills for replenishing blood and energy? Can you give me two more bottles?"

Old Jiang said crossly, "Do you think the pills are as cheap as cabbages?"

Han Fei grinned. "Grandpa, I have a sword, a high-quality Divine weapon..."

Old Jiang wondered what Han Fei meant. He seemed to be asking for the pills, but his tone was strange.

If it was just about the high-quality Divine weapon, Han Fei didn't need the pills given that he had so many spiritual fruits... Then Old Jiang frowned. Did this kid want to make the Sea Quelling Painting recognize him as its master?

Han Fei nodded slightly towards Old Jiang, who immediately waved his hand and said, "Alright, I'll give you two more bottles. Why didn't you tell me you got a Divine weapon earlier?"

Han Fei bared his teeth. "I've just gotten it..."

With Old Jiang here, Han Fei was not afraid of someone eavesdropping.

However, seeing this, many people frowned slightly. This was a pill given by an Explorer-level powerhouse. It must be so lucky to be a disciple of the Thug Academy!

Zhang Xuanyu approached Han Fei and asked, "What pills?"

Han Fei curled his lips and said, "None of your business."

After a moment...

Xue Shenqi said, "Are you done yet? Okay, the rest of the people shall belong to the Scattered Stars Island, and I'll give them something to help them leave the cave. I've remembered each of you. Since you take things from my hand, after coming out, you shall guard the Scattered Stars Island for 10 years. Those who disagree, leave now."

After waiting for about ten minutes, no one left, and Xue Shenqi handed out a lot of ancient jade to them.

Xue Shenqi meant that he didn't care where they were from. As long as they took his things, they belonged to him for the next 10 years. No one would be allowed to leave, and no one could interfere. Otherwise, he'd teach them a lesson...

In fact, his words made sense. Since they had taken other people's things, they should give something back in return.

When everyone got some means of help for coming back, Xue Shenqi said, "Okay, you can go down."

Jiang Qin said, "Let's go!"

As for the others, they almost left at the same time as Jiang Qin, for fear that if they were slow, others would beat them to the punch.

They jumped into the big hole one after another.

...

In the outside world.

After everyone left, someone looked at Old Jiang coldly. "Mr. Jiang, the Thug Academy sent many people down this time. Can you afford it?"

Old Jiang snorted. "What do you mean? Do you look down on the Thug Academy? I'm telling you, the Thug Academy will set foot in the Thousand Star City again sooner or later!"

Someone sneered. "Mr. Jiang, don't brag! If you're really that strong, you wouldn't have declined back then."

Someone ridiculed, "There are so many big clans in the Thousand Star City, how can they possibly lose to an academy?"

Old Jiang sneered. "Humph, don't forget that our ancestors used to conquer an entire city alone. At that time, who dared to look down upon the Thug Academy?"

Someone snorted. "In that case, let's see what you're capable of! After so many years, you only trained two generations of disciples. Have you overestimated yourselves?"

Old Jiang drank a mouthful of liquor and scolded, "Little b*stard, call your Zhang Family's ancestors to come out! You're not qualified to challenge me! And you, you're the most useless in the Ye Family! Who do you think you are!? And you, the brat from the Cao Family! Why are you staring at me?"

Not flinching at all, Old Jiang argued heatedly with others alone and tried his best to defend the Thug Academy.

As for Xue Shenqi, he turned around and disappeared in a flash.

What happened next was out of his hands.

He let them compete for the Sea Quelling Painting. Anyway, with this big victory, the humans could be stable for the time being.

Above the sea, Xue Shenqi was about to return to the island when he suddenly felt something. "Elders, let me remind you, the Scattered Stars Island is a restricted area. Isn't it rude for you to break into it?"

"Haha! Brat Xue, we don't mean to interfere with the internal affairs of the Scattered Stars Island. We'll just stay in the sea, we won't enter the island."

Someone walked out of the clouds and nodded at Xue Shenqi.

Someone stood in the sky and said casually, "With us here, the one under the Ten Thousand Demon Valley won't dare to come out easily."

Someone sat on a big gilt chair. "I only care about the Sea Quelling Painting. Bai Congye, why are you still hiding?"

"Humph! Let's see if your juniors can take the painting."

While they were talking, a recliner suddenly appeared in the air and Old Bai grasped some strawberries with his left hand, carried a wine jar with his right hand, and sat comfortably in the air.

Xue Shenqi slightly frowned, snorted, and stepped away.

...

Han Fei and the others jumped into the black hole, only to feel a terrifying force sweeping their whole bodies.

When falling down, Han Fei saw a crack in the darkness.

Jiang Qin shouted, "Be careful of the void cracks! If you are sucked in, you will never be able to return to the Scattered Stars Island!"

The others dodged the cracks in a hurry. However, the cracks were not difficult to dodge. Han Fei even glanced inside but could only see pitch black although he vaguely heard the sound of water in it.

Suddenly, he heard Luo Xiaobai say, "Oh, no! I can't summon vines in this passage."

Jiang Qin assured her, "Don't panic. This is not an undirected teleportation array. Be careful. Don't separate."

Han Fei shouted, "Hey, learn from me!"

Then everyone saw Han Fei was upside down with his hands pressing against his thighs.

Han Fei felt this was too exciting, just like bungee jumping. Oh no... Like skydiving! They didn't even need to focus on balance to avoid the void cracks and land at the bottom of this black hole.

The others immediately did as Han Fei did.

Soon, everyone learned from Han Fei.

In the end, they were all like falling missiles, and their bodies almost rubbed the air with sparks.

Seeing the void crack, Han Fei only needed to control the wind a little bit and could dodge it easily. It was not as dangerous as he imagined.

After about ten minutes, Zhang Xuanyu said in shock, "How deep is this hole? We've been flying for almost 20 minutes."

Chu Linyuan said, "It makes sense, or this place wouldn't be called the Unknown Place. It's the key to the Scattered Stars Island. If it was so easy to find, it would have been found hundreds of thousands of years ago!"

50 minutes!

80 minutes!

After a whole 100 minutes, a blue light appeared in front of everyone.

Jiang Qin cautioned, "Attention, do not separate."

Puff... Puff... Puff...

Everyone passed through that crack of blue light one after another.

Suddenly, a strange sight appeared in everyone's eyes. There was no water but only a piece of land here... Besides, it was not ordinary land. Glancing from mid-air, one could find there were high mountains, many waterfalls, and a blue sky. In the distance, in the sky, there seemed to be big birds flying.

Looking down, it was a primitive jungle, with donut-like vines, broad leaves tens of meters long, white mushrooms the size of a house, and variegated mushrooms of different colors.

Han Fei also saw that there were huge sunflowers scattered everywhere. The sight that came into view was like a magical continent that had never been developed, a primeval jungle.

However, after feeling amazed, Han Fei felt something was wrong.

These things were too big. Mushrooms bigger than a house? Besides, how do sunflowers spread pollen among the huge flowers of various colors?

Han Fei looked back and saw the blue sky with white clouds.

"F*ck... This is not underground at all."

Han Fei immediately said, "Attention, don't eat anything here, especially the fancy-looking things. They're probably poisonous. Besides, there may be many unknown creatures. No matter what they meet..."

Before Han Fei finished speaking, Le Renkuang suddenly shouted, "Look, what is that?"

Han Fei looked up and saw a large swarm of buzzing things flying over in the sky.

To be precise, a guy fell into the grass, and then these things flew over.

Han Fei's eyes widened. "Damn, bees?"

When the creatures got closer, Han Fei exclaimed, "Damn... Wasps... Run! Pay attention to the poisonous stinger on its tail..."

“Hoop!”

The Phantom Glass Wings spread and Han Fei flashed out with a swish. Everyone was rushing towards the forest.

Han Fei was speechless. “Xiaobai, hide in the water... Be careful in the forest.”

Han Fei was about to rush into the forest.

Suddenly, a flock of big yellow-blue birds with long white tail feathers were startled and charged towards the wasps.

Seeing this scene, Han Fei shouted, “Protect yourselves. Xiaobai, you guys follow Senior Brother and Senior Sister...”

“Ahhh!”

Han Fei suddenly saw the wasps that were bigger than a calf shooting their stingers out, which burst through the air.

One of them was hi, but as a Hidden Fisher, he was not weak

That man pressed the poisonous stinger with both hands. However, his hands began to rot.

“Oh my god, which virgin forest did I drop into? This is an underground city?”

Chapter 917: The Lost World

The wasps approached quickly, and information emerged in Han Fei’s eyes.

<Name> Magic-Tailed Wasp

<Introduction> An ancient insect, with a large and poisonous body. Female wasps have a long needle in their tails, which can be retracted or shot out, and is extremely poisonous. Male wasps can spray poison arrows and are highly aggressive. Magic-Tailed Wasps have sharp claws and teeth, blade-like wings, and an extremely fast speed. They often travel in groups. Don’t go near them if you don’t have to.

<Level> 55

<Contained spiritual energy>16,864 points

<Edible effect> Inedible

<Collectible> Magic-Tailed Poison Sting, Magic-Tailed Poison

<Absorbable>

Seeing the birds coming, Han Fei immediately flew towards the wasps. With a swish, he flashed and appeared on the back of a wasp...

And the place where he was just now was drilled through by a big bird.

In a flash, Han Fei saw the big bird’s data.

<Name> White-Tailed Fairy

<Introduction> White-Tailed Fairy lives in the woods and feeds on insects, preferably ants. They usually live in tree holes and their white tails are comparable to Divine weapons. With sharp beaks, they're good at pecking their enemies. Their wings are soft but can be shot out in battle.

<Level> 58

<Quality> Rare

<Contained spiritual energy> 18,998 points

<Edible effect> Long-term consumption can increase strength.

<Collectible> White Tail Whip

<Absorbable>

Han Fei immediately gasped in shock. *A random bird is so powerful? Level-58! It is equivalent to an advanced Hidden Fisher.*

Puff!

Han Fei saw that a guy dodged the Magic-Tailed Stings, the sharp beaks, and the flying feathers all over the sky.

However, a white whip swept across, cutting the man with his battle suit into two pieces.

"F*ck... Is there no ocean here? This damn land world is even more dangerous than the ocean world!"

BAM!

Han Fei placed one hand on a wasp's head and was about to use the Void Lines to control this thing, but a White-Tailed Fairy came at him.

Swish!

Han Fei flashed again, appearing on the White-Tailed Fairy's back. The Void Lines buckled White-Tailed Fairy's body and controlled its soul.

The wasp attacking him was pecked through and its venom flew across.

In Han Fei's body, the Heaven Spirit Detoxifying Insect immediately began to work. In his perception, Luo Xiaobai and the others had rushed more than 50 kilometers away.

Han Fei immediately controlled the White-Tailed Fairy to fly towards the people from the Thousand Star City.

"Hey! Let's settle our unsettled accounts. This land is my home court!"

Riding the bird felt much better than riding an insect! The big wings stretched out and he flew across the air.

Sun Mu took all his men to land on a big mushroom.

Han Fei recognized the mushroom. This was a Poison God Umbrella, which was one of the most famous mushrooms, easy to recognize. Such mushrooms usually had a symbiotic relationship with the trees around it.

Poison God Mushrooms couldn't poison people to death, but this mushroom was bigger than a house. Han Fei wasn't quite sure about its toxicity.

Swoosh!

Han Fei controlled the White-Tailed Fairy to attack them.

Sun Mu immediately changed his face and shouted angrily, "Han Fei, do you want to start a battle when we've just gotten here?"

Han Fei laughed wildly. "This is my territory. No matter what, I'm gonna kill you first."

The white tail swept across, and a strong master punched out.

However, Han Fei's target was never them.

"Hoooooo!"

Han Fei activated the Nine Mansions Dragon Seal and shattered the Poison God Umbrella.

For a time, poisonous powder flew all over the sky.

Sun Mu thought this mushroom was just a spiritual plant and didn't see anything special about it.

However, when a fog spread, his servants immediately shouted, "Young Master, it's poisonous."

Buzz!

Han Fei activated the Draw Technique. Sun Mu flashed out and a servant of the Sun Family was killed.

Han Fei jumped down.

He wasn't afraid of the mushroom's poison at all! The Heaven Spirit Detoxifying Insect was going to evolve and needed to swallow new poisons.

Swish!

In an instant, Han Fei hacked out and sent another man flying upside down. Unfortunately, this man was already prepared and managed to escape.

However, the Overlord's Technique was immediately activated.

That man was chopped to death by Han Fei as soon as he walked out of the void.

"Han Fei, go to hell!"

Sun Mu brandished his sword and slashed straight at Han Fei. The two of them were locked in a pitched battle.

Seeing this scene, many people gasped in shock. Are the people from the Thug Academy lunatics? How can they start a fight before they even figure out where we are?

“Hooooooo!”

When Han Fei was about to annihilate the servants of the Sun Family when a water dragon roared and pounced on him.

Boom...

The Art of Invincibility was activated and Han Fei threw three punches at the dragon.

Han Fei grinned. “Phew, Miss Mo, you want to join in the fun too?”

Mo Feiyan snorted coldly. “Han Fei, last time you attacked me in the Wind Sky Canyon! Today is my revenge!”

Han Fei’s perception swept across and found that Zhang Wen, Li Heiye, and Li Baizhou were coming. He gritted his teeth. *Sh*t, it seems that he has no chance to kill Sun Mu today.*

Han Fei smiled and said, “Hey, wait for me here. I’ll take care of you one by one.”

Hum!

The White-Tailed Fairy flew over, Han Fei flashed, sat on the bird’s back, and flew straight away.

Li Luoluo shouted to Han Fei, “Why don’t we go together?”

Han Fei responded, “No, let’s act separately!”

However, Han Fei discovered that Youye and Yue Shier were together and had already landed.

After the others landed, they dispersed and left as soon as possible. Someone was fighting a big snake on the tree. The disciples of the Mountain Sea Pavilion were besieging a large land lizard...

However, this had nothing to do with Han Fei. In his perception, Luo Xiaobai and the others had run more than 80 kilometers away.

“Huh! Where is Senior Brother Dashuai and his wife?”

While Han Fei was searching, he suddenly heard a melody.

Han Fei frowned and turned his eyes to Cao Jiaren on a mushroom, who was also looking at him.

Cao Qiu said to him in voice transmission, *Run!*

Han Fei’s face turned cold as he saw Cao Tian standing in the air, blocking his way.

Han Fei asked, “What is this? Wanna fight me?”

Cao Tian gave an innocent smile and said, “This time the most powerful contender is you. Now, the other people of the Thug Academy are not around, so it’s the best time to solve you.”

Han Fei’s eyes narrowed. While he was hunting others, someone was also hunting him!

Puff!

Han Fei killed the White-Tailed Fairy with a cut, retracted the Void Lines, and smiled coldly. "Okay! I had thought that you were the strongest in the Cao Family, but it turns out your uncle is. Now, let's fight."

He perceived Sun Mu and the others were flying in this direction, seemingly not wanting to miss this opportunity. But was Han Fei afraid of them?

"Meow!"

Just at this moment, a cat's claw appeared in the air and scratched at Cao Tian.

Big Yellow's appearance surprised Han Fei. Big Yellow said, "Han Fei, let me help you beat him."

Han Fei grinned. "Thanks, Big Yellow, I'll treat you to a big fish when we're back!"

Hum!

Han Fei turned around and held a longbow in his hand. The eighth arrow of the War Soul Art burst out and darted at Cao Jiaren. After that, he jumped into the air and punched Cao Tian.

Cao Tian had just blocked Big Yellow's blow, and hurriedly raised his hands to parry Han Fei's punch.

Granny Yin said lightly, "Okay, Big Yellow, stop playing. Let's go."

"Meow! Han Fei, I have to go!"

Han Fei was dumbfounded. *Sh*t, how can you leave so soon?*

"Nine Mansions Dragon Seal!"

A dragon roared and pounced at Cao Tian. Han Fei took the opportunity to fly away and rush towards Luo Xiaobai and the others.

On the way, a figure flashed by. *Is it Ye Baiyu?*

Han Fei gave him a sideways glance. "You can try attacking me. But if you fail, I'll kill you."

Ye Baiyu thought about it and gave up. He was not sure about beating Han Fei, so he didn't have to take this risk.

Ye Baiyu smiled. "I'm just passing by."

Behind them, Tang Ge and Mu Ling had just come down with a group of disciples of the Heavenly Sword Sect. At this moment, Tang Ge brandished his halberd, yelling, "Cao Tian, let's fight!"

...

Han Fei nodded at Tang Ge and ran away.

The Heavenly Sword Sect, ranked first among the seven major sects, was even stronger than the Jade Fairy Palace. Han Fei wasn't afraid Tang Ge would be in danger...

If Han Fei had known that he would be in trouble, he wouldn't have attacked Sun Mu in the first place.

After a while, Han Fei frowned and looked at the huge crack on the ground. There were signs of fighting on the ground.

But where were Luo Xiaobai and the others?

Han Fei followed their traces, only to find a pool of blood. Judging from the amount of blood, the blood was definitely an animal's.

Han Fei pinched his fingers and calculated, and found that the Luo Xiaobai trio seemed to have separated from Chu Linyuan and the others.

Han Fei glanced in his mind. Little Black and Little White had not yet completed their evolution. How could he find them in such a huge primitive jungle without Little White's help?

"Huh?"

Suddenly, Han Fei felt the ground shaking. A hand-sized ant came out of the ground.

"Hey! Little ant."

Han Fei jumped on the tree and saw a few shadows flashing past with a swish. *Are those squirrels? But these squirrels are huge!*

This is a lost world, nothing to do with the sea... It has so many land creatures! Did the underground city move away instead of sinking into the ground?

It could be! It was like how the Time Dragon Carp opened up the River Of Time as a living space for Little Time.

There must be a strong master who can open up space and store a new world in it...

This was a strong possibility.

After all, the space in Forge the Universe had expanded again. If this space was like the kind of space in the Star Shell, it was very likely.

Well, Xiaobai should be able to adapt to this place very well. If the three of them stay together, they should be safe, as long as they don't separate.

With a swish, Han Fei disappeared into the forest.

Chapter 918: Botanical Garden • Zoo

In Forge the Universe.

Han Fei glanced at Little Black and Little White, who were still circling in the water. Han Fei was a little anxious! The timing of this breakthrough was not right!

Without Little Black and Little White, he had difficulty finding his way!

Han Fei tried to summon them a few times, but got no response.

"Fine, I can only rely on myself," he muttered.

Reappearing in the forest, Han Fei suddenly felt a violent vibration high in the sky.

Han Fei jumped into a tree to look around, only to see a hundred-meter-large bird tearing a Hidden Fisher to pieces.

“Oh my god, the sky is dangerous too!”

Han Fei thought that person was stupid. He should have been more careful. It was very dangerous here, full of creatures that no one had ever seen.

Even he wasn't quite familiar with these creatures.

Suddenly, with a swish, Han Fei flashed out. A tongue shot out where he stood just now. It was a lizard.

To be exact, it was a chameleon.

There were many types of chameleons, but he had never seen this one.

This chameleon was a bit like a dinosaur. It had three big horns on its head: two short horns between its eyebrows, one big horn on the nose, and two eyeballs on the two corners of its eyebrows.

The moment the lizard looked at him, Han Fei knew he made a mistake.

He forgot that for lizards, especially chameleons, the pineal gland on their heads had a light-sensing effect under normal circumstances, which could also be called their third eye.

This was why the Ghost Eye Giant Crocodile he saved could turn people into stone.

Han Fei immediately closed his eyes and threw a punch.

But even though Han Fei reacted so quickly, he still felt dizzy and fell to the ground from mid-air.

Clang!

Han Fei's head hit a stone, and he grimaced in pain. As for the chameleon, it had disappeared.

Han Fei clutched his head. *Sh*t, this is too much. I didn't even touch you!*

Suddenly, Han Fei froze. Someone seemed to be staring at him! When he looked up, he found that a head was sticking out from the “stone” he hit his head with.

“F*ck...”

Han Fei flashed more than tens of meters away, and then found it was a damn turtle.

“Huh! A land tortoise?”

A string of data appeared in his eyes.

<Name> Fear Elephant Tortoise

<Introduction> An ancient tortoise, which has an extremely strong defense, slow speed, and amazing bite force, that likes to sleep. When facing its natural enemies, it will release the demonic energy of fear. Once contaminated by it, one may have a mental disorder. The Fear Elephant Tortoise has a docile personality and generally doesn't attack actively.

Han Fei smacked his tongue. *I didn't attack it, did I?*

Han Fei waved at it. "Brother Tortoise, hello!"

However, the eyes of the tortoise suddenly turned black, and a black mist emerged from its eyes.

Swish!

Han Fei flashed away, appearing 100 meters away. His mind was a little messy and he actually saw Sun Mu slashing at him with a sword.

"No, it's fake!"

Han Fei waved his hand and dispelled the illusion.

Han Fei quickly took out a mint leaf and stuffed it into his mouth. *Sh*t! I just wanted to say hello. Why did you attack me? You have such a hard turtle shell. What's the big deal about a knock on your turtle shell!*

Han Fei shook his head, but didn't intend to take revenge on the tortoise.

It was unnecessary. He didn't come here to hunt these messy land creatures.

Although its shell was good, it wasn't easy to catch. He didn't want to waste his energy on a turtle.

Han Fei kept walking forward. After walking only ten kilometers, he had killed three big snakes, a squirrel, and countless ants. There was also a pangolin, but he didn't catch it because it drilled into the ground.

"Huh! Is this... A banana?"

Han Fei was surprised to find a banana vine. *Don't bananas grow on trees? Why did this banana grow on a vine?*

After thinking about it, Han Fei took out the Blood-Drinking Knife and cut it off, preparing to plant it in Forge the Universe as a new plant.

However, a piece of banana vine suddenly bent down, and a violent gust blew Han Fei hundreds of meters away.

"Haha, interesting. Can it attack? Let me cut a few off and give them to Xiaobai as a gift... Huh!"

Han Fei was about to cut the banana vines off when he suddenly found a big pineapple.

Han Fei didn't notice it just now because this pineapple was like a f*cking wall. It was an authentic plant with yellow striped leaves and red stamen, but it was too big.

Of course, in Han Fei's eyes, it showed the name, "Colorful-Leaved Pineapple". It seemed that eating this pineapple could improve one's spiritual power.

Without hesitation, Han Fei uprooted and stuffed it into Forge the Universe. He didn't stop until he pulled out more than a dozen pineapple trees.

Much delicious food in the world he came from didn't exist in this world. What a pity!

Now seeing the pineapples, he certainly wouldn't miss them.

Han Fei kept up-rooting this and that.

At this time, Han Fei discovered an unusual plant. Its leaves were like a string of torches. From bottom to top, its color gradually changed from golden to deep red, looking very beautiful.

Oh! A Torch Lotus? It produces flaming fruit and contains great energy...

Wow! Good stuff! Let me take two skewers and have a taste first.

...

Han Fei wondered if he had entered some sort of plant world...

He had already picked up more than a hundred kinds of spiritual plants. Among them, there were fruits that enhanced strength, boosted spiritual power, increased energy and blood, and restored energy.

These were much rarer than what he saw in the Thug Academy's plantation.

And pineapple! There was even pineapple here.

So, this trip was worth it! Living in this world, in addition to cultivation, he also wanted to enjoy life. And these spiritual plants would make Han Fei's life better in the future!

At this moment, Han Fei was holding a flame fruit as big as a peach with both hands. The fruit was as sweet as honey and full of energy.

"What a place. If only I could take this place away."

"Hooooooo..."

Suddenly, Han Fei's body trembled. He quickly released his perception and found that a black... A black panther appeared in his perception!

Yes, Han Fei felt that it looked like a panther. The only difference was that this panther was pure black. Its tail was glowing, and its claws were extremely sharp. At the moment, it was rushing in his direction.

Han Fei was speechless. *Hey, why are you coming at me?*

This beast ran extremely fast, even jumping between trees. When it was running, there was no sound at all. It was really amazing!

“Oh my god, is it really coming for me?”

Han Fei smiled. He happened to need a mount. This panther should be quite familiar with the environment here. He could not only read its soul, but also use it to scare other creatures that wanted to disturb him...

Unfortunately, Han Fei didn't hear the Luo Xiaobai trio's voices, although he had the ability of clairaudience.

And judging by the sound of battle alone, there were too many sounds!

At the same time, there were at least 10 battle sounds that he heard.

This meant that within thousands of kilometers, or more likely, within a few hundred kilometers, there were dozens of battles happening.

The clairaudience was not that powerful.

With it, he could only hear sounds within a few hundred kilometers.

Han Fei stood still. These indigenous terrestrial creatures were easy to catch. They would never expect that he had something magical like the Void Lines.

Therefore, Han Fei just needed to wait for them here. The moment they leaped over, he would flash onto their backs and control them.

After a moment...

The black panther approached him cautiously at first.

Han Fei smiled without saying a word. This was the nature of cats.

However, after three minutes, the smile disappeared from Han Fei's face. *It can turn invisible!?*

Han Fei immediately closed his eyes and listened. The Blood-Drinking Knife appeared in his hand. Once it was within 10 meters of him, he would definitely be able to find it.

Swish!

“Damn, so fast...”

Han Fei flashed tens of meters away in an instant because when he sensed it just now, the panther had already appeared 10 meters away from him.

Opening his eyes instantly, Han Fei flashed again.

The black panther, like a black light, had clawed at where he was standing.

Seeing the black panther appear, Han Fei flashed again and again. After flashing three times, he appeared on the black panther's back.

“Hoooooo!”

SMACK!

“Who are you roaring at? Behave yourself.”

Han Fei’s Void Lines had hooked onto the black panther’s soul, and the black panther’s message appeared in his eyes.

<Name> Shadow Fierce Cat

Han Fei couldn’t help wondering, *Did I come to a zoo or a botanical garden?*

However, he didn’t have the time to think about it. The Shadow Fierce Cat, jumping up and down for a while, had been completely controlled by Han Fei.

In Han Fei’s mind, images flashed by.

Chapter 919: Advancing Han Fei

From those images, Han Fei finally found something.

There was really a city, but the city wasn’t here exactly: it seemed to be on the other side of a high mountain. And the mountain seemed to be quite far away from him.

As for the Bone Yard, Han Fei didn’t find it in the mind of the Shadow Fierce Cat.

However, it didn’t matter. He finally found a clue about the city anyway.

He didn’t think others had this ability. Most people would still be dangling in the woods.

However, apart from the city, Han Fei found that the number of creatures here was beyond his expectations. There were monkeys, more than 50 kinds of mice, pangolins, big buffaloes, and weird-looking giant elephants.

There was a big river here, in which there were weird creatures too.

“Huh? The panther’s den?”

From an image, Han Fei saw that there was a spiritual spring in the panther's den.

Han Fei immediately smiled. "Yuyu! Xiaobai! I'll find you guys later... Come on, let's go back to your den."

It was the first time that Han Fei rode a panther. Sprinting at full speed, he felt so good. Because this Shadow Fierce Cat wasn't weak in strength, most creatures in this forest would not come close after seeing it.

Some vines tried to wrap it up but were soon cut off by Han Fei.

However, Han Fei saw a cannibal flower. It was so big that Han Fei felt that it could swallow a creature more than 10 meters long.

It only took half an hour for Han Fei to be brought home by the panther.

He was brought to a hidden cave. Outside the cave, there was an unpleasant smell, which probably had been left by the panther, meaning that this was its territory.

Entering the cave, Han Fei was taken aback. In addition to the spiritual spring, there were also a lot of bones that were eaten by the Shadow Fierce Cat.

Among them, there was more than one turtle shell.

The Shadow Fierce Cat's attack power was very strong, so turtles could be easily torn apart by it.

Of course, the Shadow Fierce Cat didn't target their backs, but their abdomen.

Han Fei collected these turtle shells. Le Renkuang would like them.

As for the spiritual spring, it seemed to be dripping from the mountain. Bit by bit, it formed a big pit in the ground. There were at least 300,000 catties there.

"Wow, 300 million points of spiritual energy! What a great place! If only I could stay here longer."

Han Fei took all the spiritual energy without hesitation.

Then he looked around but didn't find anything special, so he controlled the Shadow Fierce Cat to run back.

Old Jiang was right. No matter how many opportunities there were here, finding the Sea Quelling Painting was his first priority. He shouldn't waste too much time here.

Suddenly, Han Fei's heart did a flip. He quickly looked in Forge the Universe and found that Little Black and Little White seemed to be mutating, with strange lights emitting from their bodies.

"Huh! Are they going to make a breakthrough?"

Han Fei was relieved. The sooner they made the breakthrough, the better. He needed Little White's help now.

He needed Little White to lead him to find treasures, but Little White was evolving. That was a big problem for him!

He shouldn't have fed Little Black the snake gall. Otherwise, with Little White, he could find any treasure he wanted.

After a moment...

Han Fei returned to where he was before. He perceived a fight in three places nearby.

Han Fei shouted, "Let's go! We will check them out one by one. Since I'm already here, no one can stand in my way."

The disciples of the Mountain Sea Pavilion were fighting a group of ants.

Yes, a group of ants! These people were chased by ants.

Zhai Shun roared, "Don't panic! Let's go to an open place first. Don't stay in the woods."

Clang!

Perceiving this more than 100 kilometers away, Han Fei shook his head slightly. *Those weaklings!*

So Han Fei turned his head and rushed in the other direction.

This time, Han Fei saw the disciples of the Grand Void Academy fighting a few monkeys.

"Haha! Next place."

After a while, Han Fei discovered Nangong Xuan. This old man was walking casually, but no one dared to mess around with him wherever he went.

He immediately discovered Han Fei's perception and shouted, "Which rat is peeping on me?"

When Nangong Xuan shouted, Han Fei had already left. He didn't know this old man well. If it were Ye Qingfeng, he might stop and talk to him.

Han Fei rushed forward for more than 800 kilometers and suddenly found that Zhang Xuanyu was poking a mouse with a spear. A large swarm of rats was surrounding him.

However, he didn't panic at all, killing a mouse every time he poked.

"Let's go..."

The Shadow Fierce Cat was running extremely fast. When he was about 20 kilometers away from Zhang Xuanyu, Zhang Xuanyu frowned and flew into the air, planning to attack Han Fei with the Momentary Time.

Han Fei hurriedly said, "Hey, are you blind? It's me!"

Zhang Xuanyu paused for a moment. "Feifei? You son of a b*tch, where did you go?"

Swish!

The Shadow Fierce Cat appeared, and the mice quickly ran away. Zhang Xuanyu's eyes widened. "What's this? Why are you riding it? You look quite comfortable!"

Han Fei said impatiently, "Come on up. Where are Xiaobai and Le Renkuang?"

Zhang Xuanyu sat on the back of the Shadow Fierce Cat. "We were separated. We met a huge... Uh... Animal like the Ghost Eye Giant Crocodile. It was chasing us... Well, more than one animal. There were also many insects and another strange creature... Anyway, there were many creatures and we were separated."

According to Zhang Xuanyu, at first Wang Dashuai and Bai Lu were separated from them.

Then they were chased by a large swarm of ants and a monitor lizard. Jiang Qin led the monitor lizard away, and Chu Linyuan and Mu Qingchuan dealt with the ants and told the Luo Xiaobai trio to leave.

The three of them walked and met a chameleon. Xiaobai said she would solve it... Anyway, they were all separated from each other in the end.

Han Fei was speechless. He did meet many weird creatures along the way. It was excusable they became separated. Now, with this panther... No, this cat, he could find them again.

Besides, Han Fei had an advantage in perception range.

Han Fei nodded. "Okay, now let's find Xiaobai and Le Renkuang first."

"Where can we find them? Have you found out where Xiaobai is?"

Han Fei grinned. "No, but I can listen."

Swish!

Half an hour later...

When Han Fei found Luo Xiaobai, he found that she was controlling the cannibal flowers to attack her enemies.

When she saw Han Fei and Zhang Xuanyu appear on the Shadow Fierce Cat, Luo Xiaobai was stunned for quite a while. "How did you two get together?"

Han Fei smiled and said, "I found him! Come on up."

Zhang Xuanyu said, "Xiaobai, come up and sit in front of me. It's cool to ride this thing..."

Luo Xiaobai was speechless.

After hesitating for a while, Luo Xiaobai said, "I'll sit in front of Han Fei."

Zhang Xuanyu: "..."

Han Fei: "..."

After a while, under the guidance of Luo Xiaobai, they traveled more than 300 kilometers before spotting Le Renkuang under a big mushroom.

This guy was holding two small trees with plums on them. He was drooling, seeming to be thinking, *Can I eat them?*

While he was hesitating, Han Fei said impatiently a hundred kilometers away, *Is food your only concern? Anything black should be edible.*

“Feifei?”

Upon hearing Han Fei’s voice, Le Renkuang smiled, hurriedly took the plums, and stuffed them into his mouth.

After a while, Le Renkuang said, “Feifei! I found that there were too many things here. Everything looks like a spiritual fruit to me. I’ve already eaten a lot of them. By the way, shall we pick the big mushroom behind me?”

Han Fei looked at the huge pink mushroom and said crossly, “Are you stupid? Didn’t I tell you things with weird colors are usually poisonous? Do you want to eat poison?”

Having said that, Han Fei still picked the mushroom. He did eat poison.

Le Renkuang looked at the Shadow Fierce Cat in surprise. “What kind of creature is this?”

Han Fei said, “Just like Granny Yin’s cat. This must also be a type of cat.”

Le Renkuang immediately shook his head. “That’s impossible. Big Yellow is so cute, but this one is too fierce.”

Han Fei said in a huff, “Shut up. Are you coming up or not? We’re leaving!”

Han Fei manipulated the Shadow Fierce Cat to grow bigger.

This was the basic ability of an exotic creature.

After a while, the four of them drove the Shadow Fierce Cat, rushing straight ahead, down the huge valley.

Zhang Xuanyu exclaimed, “Feifei! Are we just running around like this? There are so many resources here, including various spiritual fruits.”

Han Fei said, “Let’s go to the city first. As for the resources, we can rob others later.”

Luo Xiaobai looked back at Han Fei and said in surprise, “Do you know where the city is?”

Han Fei said, “I don’t know, but this cat knows.”

Han Fei patted the Shadow Fierce Cat.

In the howling wind, several figures suddenly flew across the sky. Han Fei looked up. Aren’t they the Cao Family? Are they trying to fly over with a fishing boat?

Le Renkuang immediately said, “Why didn’t we think of that? This isn’t in the sea. We can take a boat!”

Han Fei sneered. “You think too much. I bet they’ll be shot down within an hour.”

Chapter 920: Spider Camp

In a primitive forest like this, the sky was usually also a restricted area. Otherwise, the sky would be full of birds, but birds were rare in the sky now.

Besides, he witnessed how the big eagle tore a Hidden Fisher apart with a single claw. If it wasn't necessary, Han Fei didn't want to fly through the sky...

Sure enough, when the Ghost Speed Divine Boat had just flown less than a hundred kilometers away, a huge shadow swooped down from the clouds. The speed was comparable to that of Han Fei after he had used the Agility of Wind and the Overlord's Technique.

Toot~~

The sound of the flute was heard, the sky was full of flowing lights and mystic rhythm resounded across the sky.

Fist marks blasted into the air and explosions rang everywhere.

When Han Fei and the others arrived 30 kilometers away on the Shadow Fierce Cat, they saw the Ghost Speed Divine Boat easily torn by the big black bird like a paper boat.

In mid-air, Cao Tian punched towards the sky. His fist marks shot out, sending the bird's feathers flying everywhere.

However, the big bird seemed to have some problems with its mental state and wobbled in the air, which must have been caused by Cao Jiaren's flute.

Han Fei sneered. "Look, they've been shot down! Although Cao Tian has amazing combat power, he can't just do anything he wants in an unfamiliar world! Who does he think he is?"

Zhang Xuanyu said, "Haha! Aren't we the fastest ones now?"

Le Renkuang nodded repeatedly. "This cat is a good mount. No one can catch up with us, so we don't need to fight."

Luo Xiaobai said, "Be careful. We are being targeted by someone underground."

The others were all surprised, and Han Fei asked, "Underground?"

The ground could block perception, so it was hard for him to notice anything underground.

Therefore, Han Fei didn't usually try to perceive underground. He would generally only perceive two or three meters underground. However, Luo Xiaobai could control spiritual plants, who could know more than him on this aspect.

The Shadow Fierce Cat ran wildly with all kinds of fancy spiritual plants on both sides of the road, which were probably the kinds of flowers that Youye liked the most.

But the more beautiful the appearance, the more dangerous they were.

They didn't receive an attack from underground first, but an attack from the mushrooms.

Buzz!

While they were rushing forward, they saw many white flake-shaped things on the ground ahead, blocking their way.

Then, they saw a white umbrella mushroom.

Suddenly, the mushroom deformed.

The mushroom column suddenly opened and they were shocked to discover that this was not a mushroom, but a big spider, a spider bigger than a house.

The spider was disguised as a mushroom, waiting for its prey to come.

As one spider woke up, all the spiders woke up. One umbrella mushroom after another turned into a big spider.

“Wow!”

Han Fei was sweating a little and quickly controlled the Shadow Fierce Cat to sweep past the gap beside them. All of a sudden, the four people and one cat found themselves in a spider camp.

Puff... Puff... Puff...

In all directions, countless milky white silk strands were projected.

But fortunately, the speed of the Shadow Fierce Cat was fast enough. It was like a black shadow, jumping and moving among the thousands of silk strands.

Luo Xiaobai manipulated the vines to emerge, blocking more than half of the spider silk.

Zhang Xuanyu exclaimed, “Look, there is a person there!”

Then they found that a guy was curled in a ball on a spider web, with only his head sticking out. His face was ghastly pale, and he had obviously been dead for a long time.

Luo Xiaobai noted, “He’s a disciple of the Sea Cloud Tower. They’ve already made it this far in the jungle. That’s really fast.”

Puff!

A big spider leaped over brandishing its claws.

The Shadow Fierce Cat flashed from the side, almost rubbing against the big guy.

In Han Fei’s eyes, information emerged.

<Name> Bow-Footed Umbrella Spider

<Introduction> A camouflage jumping spider, its belly is like an umbrella, and its feet are like bows. It can be disguised as harmless mushrooms of various colors, often hides among the flowers, and catches insects that suck nectar. Any creatures smaller than them are its prey. It can jump up to 100 meters high at a time, and its bow-like feet are as sharp as knives. It fears fire and extreme cold.

At this moment, Han Fei and the others saw that a large swarm of the spiders jumped up, trying to catch them who were flashing frantically.

“Humph!”

Luo Xiaobai clasped her hands and thousands of vines came out. However, the spiders’ claws swept across, cutting those vines into countless pieces.

Le Renkuang’s face was shaking and he said, “I said it before, I hate bugs.”

Han Fei stretched out his hand, and the Infinity Water turned into an invisible sharp blade, flying away.

At the same time, his spiritual energy shot out of his body. Spiritual energy flames erupted instantly, and the flying spider silk was instantly burned and melted.

For a time, a large number of spiders jumped elsewhere. This relieved everyone.

Han Fei said, “Don’t smile too early. Although they are afraid of fire, this flame is a spiritual energy flame, which is different from a real flame. Once my control is weakened, they will pounce at us together.”

Le Renkuang immediately said, “If only Xia Xiaochan were here! She could burn this place.”

Han Fei thought, *As a refiner, I have always been using spiritual fire in refining, but I forgot to learn a real fire refinement technique. Otherwise, I’d be able to easily destroy this spider camp.*

However, fortunately, this camp of spiders wasn’t large.

Han Fei said, “It’s not far ahead. I can hold on. Don’t attack them for now.”

But at this moment, the ground was shaking slightly. Han Fei perceived and immediately shouted, “Not good! Fly to the sky.”

This was because the Shadow Fierce Cat seemed to be unable to resist the thing underground.

Buzz, Buzz, Buzz!

The four of them lifted off at the same time and flew to an altitude of 100 meters.

A Wind God Boat appeared and Le Renkuang quickly controlled it to fly forward.

Han Fei tried to turn the Shadow Fierce Cat into a shadow. After all, this big cat was really strong, fast, and responsive.

But the ground collapsed, and a large number of red ants larger than a hand gushed out like spring water.

Han Fei controlled the Shadow Fierce Cat, but only persisted for three minutes before he was surrounded by spiders, spider silk, and flame ants.

Firstly, they were entangled in spider silk, then spiders pounced at them, and then a large swarm of flame ants came up.

Han Fei wanted to collect the Shadow Fierce Cat, but maybe because there were too many things going on, the Shadow Fierce Cat's soul shook but gave no response.

Han Fei had to retract the Void Lines. This cat could not be saved.

The others swallowed saliva and looked shocked.

Zhang Xuanyu asked in shock, "It became a skeleton so quickly?"

Han Fei nodded slightly. "The ants smell like Marching Ants. However, there should also be their natural enemies here. Otherwise, they would have eaten everything here a long time ago."

At this moment, the flame ants and the Bow-Footed Umbrella Spiders were fighting each other. A large number of small spiders gushed out of the spider's belly.

Luo Xiaobai shouted in a low voice, "Attention, a bird is coming."

Han Fei cursed and said, "Wait a moment, you guys keep going. I'll go check it out."

Zhang Xuanyu shot back, "No, let me use the Momentary Time to block it. As long as we pass the spider camp, we can land immediately."

Le Renkuang nodded. "I can use the Sky Swallowing Technique too."

Han Fei shook his head. "This one isn't the same as the one we saw just now. It's only over 30 meters in length. Let me try and see if I can catch it. If I can, we can fly through!"

Everyone couldn't help but glance at Han Fei in shock. Brother, the big cat has just died and you're going to catch a bird again?

After five minutes.

Han Fei's Phantom Glass Wings spread out and he flew to the sky. His golden fish marks blasted towards the big bird.

However, the big bird was very agile. It moved sideways in mid-air and dodged the attack.

"Oh! It's really quick!"

When the two were 100 meters apart, Han Fei disappeared with a swish, appeared next to the big bird, and threw out the Void Lines.

However, the big bird turned into a shadow and evaded the Void Lines with an extremely beautiful posture.

"Wow! Good dodging skills."

A string of information appeared in Han Fei's eyes again.

<Name> Sky Swimming Falcon

<Introduction> One of the fastest raptors in the sky, with a trace of the blood of the ancient falcon, inheriting the Sky Swimming Technique, extremely rare. Its wings can break gold and crack stones. Its claws are very powerful and no Divine weapons can resist them. The sky was its battlefield. As the king of the sky, it's not afraid of any enemies in the same realm.

<Level> 61

<Quality> Legendary

<Enforcing law> Teleportation

<Contained spiritual energy> 63,258 points

<Edible effect> Eating it can enhance blood and speed.

<Collectible> Sky Swimming Feather

<Absorbable>

"Legendary?"

Han Fei was shocked. He didn't expect that a bird popping up randomly would turn out to be a legendary creature!

Besides, it easily avoided the Void Lines. Obviously, this law of teleportation was comparable to his flash.

This reminded Han Fei of the Ye Family's Star Teleportation Technique. Was there any connection between the two?

At this moment, the Sky Swimming Falcon attacked again. The king of the sky didn't fear any creatures. Besides, it thought that Han Fei was weaker than it.

Swish, Swish, Swish!

"Flash, Flash, Flash!"

One person and one bird kept flashing in the sky.

For a time, no one could win. Han Fei was almost hit by this bird several times.

Even if Han Fei wanted to use the law of gravity, he didn't have the time. He couldn't use the power so quickly. Otherwise, this Sky Swimming Falcon would surely be able to kill him.

"Fine! I quit. Just fly in the sky!"
