Chapter 921: Across the Sea of Flowers

Han Fei and the Sky Swimming Falcon had been fighting from above the spider camp to the outside of the spider camp.

Han Fei found that he couldn't beat this bird.

If it hadn't been for him having enough spiritual energy to support him, he would have been successfully trapped by the Sky Swimming Falcon due to his lack of spiritual energy.

This was the first time the Phantom Glass Wings had encountered an opponent. This shocked him! Even a legendary creature could be so powerful after enforcing a law. Then what about Little Gold?

However, although Han Fei failed to capture the Sky Swimming Falcon, in the eyes of Zhang Xuanyu and the others, it was a different picture.

Zhang Xuanyu said in shock, "Is this the effect of the Phantom Glass Wings? That's awesome. They can flash infinitely!"

Le Renkuang sighed. "I really envy him! How did Feifei get the Wind God Pearl?"

Luo Xiaobai shook her head slightly. "No, this cannot be the full power of the Phantom Glass Wings. Do you remember the speed Han Fei showed when he was in the Snake Cave? It was faster than now."

Zhang Xuanyu and Le Renkuang were shocked and looked at each other. Wow, this is just like cheating!

After a while, Han Fei dove and flashed many times, avoiding the Sky Swimming Falcon's attacks, and landed in front of the Luo Xiaobai trio.

The Sky Swimming Falcon was a little anxious.

It was the king of the sky, not the king of the land. It didn't want to get close to the ground! So it stopped chasing him and hovered in the sky, as if taunting him to come back up!

Han Fei gave it a middle finger and ignored it.

Luo Xiaobai asked, "How was the consumption of energy?"

Han Fei took out a spiritual fruit and stuffed it into his mouth, and said, "It's okay. For now, we don't have a mount. We have to find a way to find another means of transportation."

Le Renkuang said leisurely, "You still want to catch a mount? Didn't you fail to catch the one in the sky?"

Han Fei curled his lips. *Why is this fatty so annoying? Just because I can't catch one in the sky doesn't mean I can't catch one on the ground.*

Han Fei said, "Let's walk ahead for a while. Just now, when I was in the sky, I believe I saw water in the distance. It could be a big river."

Zhang Xuanyu's eyes lit up. "That's great! We can cross by the river!"

Han Fei smiled. "Do you think it's easy to cross the river? Do you think the river isn't dangerous?"

Luo Xiaobai said, "Let's check it first. I'm afraid it won't be easy to get from here to the river."

Han Fei nodded slightly. The creatures on land needed water. If there was a big river, there must be many living creatures nearby. After all, water could nourish everything.

This was why those big spiders laid a net here! There would be many creatures coming to the river!

...

One hour passed.

Han Fei and the others were running wildly. Flying stings were all over the sky and a swarm of big hedgehogs was chasing them.

Le Renkuang yelled with a big shield on his back, "What kind of creature is this? Land urchins? These things are fiercer than a sea urchin. Its stings are comparable to an ultra-quality spiritual weapon, especially the leader. My Semi-Divine shield has been pierced by it."

Zhang Xuanyu sighed as he ran. "Now I know how miserable humans were in ancient times! It's better to stay in the sea. If these things appeared in a village, it would only take half a day for the village to be wiped out."

Luo Xiaobai's face changed slightly. "These things are not afraid of poison, and the vines can't tie them."

Han Fei sighed. "Well, after all, we're going to run anyway. A bunch of... Er... Land urchins are nothing! The problem is: it's getting late. We need to pay attention to the difference between day and night!"

Yes, there was also day and night here, which seemed to be no different from the outside world.

Han Fei knew that in the animal world, when night fell was the time when real danger came.

At this time, in the jungle of flowers and plants, there were already countless lights flickering.

The plants here were special, and the things that glowed at night were definitely not something good.

Lights could always attract the attention of creatures.

Glowing in the night, they clearly meant to lure prey. At this moment, it was shining everywhere, and Han Fei suddenly had a bad hunch.

After a while, the swarm of big hedgehogs stopped chasing them for some reason.

Han Fei and the others stopped, and Han Fei said solemnly, "We're probably not far from the river. There is moisture here."

Luo Xiaobai asked, "Did human beings live in such dangerous places in ancient times? No wonder the world collapsed."

Zhang Xuanyu and Le Renkuang nodded in approval.

Han Fei rolled his eyes. *I think the sea is more dangerous! At least, there are a lot of creatures I'm familiar with.*

Suddenly, Han Fei said, "Don't move!"

Everyone immediately looked at him in confusion.

Han Fei discovered that there was a large swarm of butterflies in the distance.

In the daytime, he had noted that there were no butterflies here. It was strange because, in such a tropical world, there were supposed to be many butterflies.

Maybe... There was a problem with the path they took? Or did the pollen not spread through butterflies here?

But now he saw tens of millions of butterflies, folding their wings and standing in a cluster of flowers. Han Fei frowned. *How can we pass through? The road is completely blocked by these flowers. And what are the abilities of these butterflies?*

After a while, when Luo Xiaobai sensed the butterflies, she was surprised. "Are those butterflies?"

Han Fei said in surprise, "You know about butterflies?"

Luo Xiaobai nodded. "Yes! They're very rare but there are still some in the Thousand Star City. However, the butterflies in the Thousand Star City seem to be different from these."

Han Fei thought to himself, *Of course they're different. Those who can live in the city must be low-level and non-aggressive.*

However, there were four eye-like markings on the two pairs of wings of the butterflies. They also had a long tail, which was black, blue, and yellow and was obviously poisonous.

Han Fei said calmly, "Don't panic! Butterflies usually sleep at night. See, they don't move at all and their wings are folded."

Le Renkuang asked, "But, how do we pass here?"

Zhang Xuanyu said, "Fly over? As long as we fly at a low altitude, it shouldn't be a big problem, right?"

Han Fei nodded. "Yes. We just need to pay attention to the surroundings and don't let the creatures hiding on the spiritual plants attack us."

After a moment...

The four were flying in mid-air, more than 20 meters high, flapping their wings gently and preparing to cross the sea of flowers.

When Han Fei and the others were halfway through, a butterfly suddenly spread its wings and flew staggeringly.

They all frowned and Han Fei said, "Is it a mutant butterfly? Why is it flying in the middle of the night?"

Han Fei suggested, "Let's fly a little higher, and keep quiet."

But that butterfly suddenly flew towards them.

Soon, Han Fei saw the butterfly's information.

<Name> Moon-Tailed Silkworm Moth

<Introduction> A nocturnal moth, which feeds on pollen of various poisonous flowers and poisonous weeds. It is extremely poisonous and has extremely weak independent combat power. When being attacked, it will spread poisonous powder and open its phantom eyes.

“F*ck...”

Han Fei was a little dazed. He should have guessed this early on. These were not butterflies, but moths.

He relied too heavily on his previous experience. Where was this? The creatures were different from those in the world he came from!

Han Fei said immediately, “Everyone, close your eyes. Put a mint leaf in your mouth.”

Hearing what Han Fei said, the others immediately understood. This butterfly had the ability to cause hallucinations.

The other three immediately filled their mouths with mint leaves without hesitation.

Seeing that the big moth seemed to be about to open the big eyes on its wings, Han Fei immediately hacked out and killed this thing.

“Full speed, fly over!”

Swish, Swish, Swish!

The four hurried away like the wind.

However, all the other moths began to wake up. There was a strange light on their tails that flickered.

In a moment, they were flying all over the sky.

Han Fei shouted, “Watch out!”

Han Fei hung a Void Line to each of the three of them, and at the same time, the Phantom Glass Wings flapped and a gust blew up.

At that moment, tens of thousands of moths were flying in the sky, and illusions were everywhere.

Han Fei turned his palm over and the law of gravity appeared. As he flew ahead, a large swarm of moths fell.

However, even if Han Fei took a mouthful of mint leaves, what he saw in his eyes was still an illusion.

Han Fei seemed to see an ethereal figure, a huge palace guarded by skeletons... Various images appeared in the sea.

“F*ck!”

“Sacrificing Punch.”

Boom!

The scary fist marks shot out.

But the illusion was still there! For some reason, Han Fei saw a pair of eyes, a clear pair of eyes, very big, as if the whole world was covered with those eyes.

Puff!

He spurted out a mouthful of blood. Then he gritted his teeth and had the Infinity Water envelop everyone.

Luo Xiaobai suddenly kept clicking. “Flower Burst!”

Wherever they went, the sea of flowers burst into pieces and the sky was full of pollen.

Through the Void Lines, Han Fei suddenly saw Le Renkuang sitting alone in a boat eating sea melon seeds, Zhang Xuanyu lying on the ground and being beaten by someone, and Luo Xiaobai sitting on the roof and looking down blankly at a big city.

Unfortunately, he didn’t hang many Void Lines on them, so he could only see very few images.

Puff!

The four of them quickly broke through the sea of flowers. Han Fei saw a big snake pouncing at him, and a string of data appeared in his eyes. He slashed at the snake and chopped it up without hesitation.

After more than 20 minutes, everyone fell to the ground.

They had finally crossed the sea of flowers.

But when Han Fei looked at Zhang Xuanyu and Le Renkuang, he was stunned. *Why are the two crying?*

Luo Xiaobai seemed to be depressed.

Han Fei took a long breath. “Fortunately, these butterflies were not high-leveled. Otherwise, the consequences would have been disastrous.”

Suddenly, Luo Xiaobai looked at Han Fei. “What did you just see?”

Chapter 922: Across the River

Luo Xiaobai’s reaction was quite acute. She felt that her soul was being spied on.

This time, it was different from the last time in the Star Shell.

That time, whether it was Zhang Xuanyu or Le Renkuang, they were all bewildered.

But this time was different. With mint leaves, they weren't completely bewitched. Therefore, they all had a sense of being preyed on.

Not only did Luo Xiaobai look at him, but Zhang Xuanyu and Le Renkuang also looked at him.

Han Fei smiled awkwardly. "Well... I didn't see anything. It's just that the technique I practice can hook onto others' souls. That's why you felt an internal presence."

Luo Xiaobai didn't believe it and stared at Han Fei. "Then how do you know where the city is?"

Zhang Xuanyu nodded repeatedly, looking a bit angry. "That's too much! Where did you get this forbidden technique? Spy on other's souls!? So, you've seen the soul of the big black cat you controlled, right?"

Le Renkuang said, "I also feel spied on. Did you see me taking a bath?"

Luo Xiaobai's face immediately turned red, and she glared at Han Fei again.

Han Fei kicked at Le Renkuang. "You damn fatty, do you want to die? Why would I peep on a pile of fat?"

Luo Xiaobai stopped him and said, "Well, we shouldn't stay here for long. And Han Fei, unless you have to... Don't use that technique on us again."

Han Fei: "..."

"I really didn't see anything."

Han Fei muttered, "I was just worried about you, OK? It's so weird here. What if you were bewitched?"

After a while, they finally hit the river.

Le Renkuang muttered, "Where did the Cao Family go? Were they eaten after being shot down?"

Han Fei snorted. "You underestimate them. If they could die so easily, how could the Cao Family be so famous in the Thousand Star City?"

Luo Xiaobai said, "No one who came this time is weak. Perhaps some will die due to accidents, but it won't be many, at least not before we find that city."

...

This river was very wide, but there was only water in the middle area. Both sides were overgrown with plants.

They found the same problem: their perception couldn't enter the river water.

Luo Xiaobai put some vines into the river, and her face changed slightly. "The water is poisonous. My perception can only reach less than a meter down, and there are creatures below!"

Le Renkuang said, "I can see creatures without using my perception. Oh, a knife is sticking out of the water!"

Han Fei saw it too. That scimitar-looking shape could be a fish fin.

Zhang Xuanyu bared his teeth and said with a smile, "Is it a Blade Fish?"

Han Fei smiled. "Do you think a Blade Fish could survive in this damn place?"

Han Fei thought for a moment. "The river is only a hundred kilometers wide and is very calm. Let me try controlling a creature to cross it."

As he said this, he hooked a human-sized mouse out from the woods with a Void Line. In this darkness, there were all kinds of creatures who didn't approach or were slowly approaching.

Luo Xiaobai nodded. "We shall leave here now. Otherwise, there will be creatures attacking us."

Han Fei grabbed the mouse with one hand and threw it out.

However, when the mouse had just flown 8 kilometers away, they saw a long tongue suddenly stick out of the water and strangle it.

Han Fei's eyes narrowed. "A toad? Or something like a salamander?"

There was a knife in the middle of the water, and under the grass on both sides of the water, there seemed to be other creatures hidden.

Han Fei smacked his tongue and smiled. "Don't worry. The mouse died too fast. I'll change to a different creature."

Luo Xiaobai looked seven or eight kilometers away on the left. "A land urchin?"

Han Fei grinned. "Just a minute."

Then he jumped out. Amidst rumbling sounds, Han Fei came back with a big hedgehog.

Swish...

The hedgehog flew to the middle of the river, but once again, when it flew 8 kilometers away, a big tongue shot out. Although the hedgehog's long quills were all erected, it was caught by the thing in the water.

This time, however, an array appeared on the hedgehog. It was a Six Spirit Armor Array.

Han Fei smiled. "How dare you get in my way? Let me catch you."

At that moment, Han Fei perceived nothing but darkness through the Void Lines.

At the moment the hedgehog was wrapped by the tongue, the Void Lines instantly shot at the thing underwater.

Puff ...

Han Fei felt his soul tremble, his head ached as if being stung by needles, and suddenly he bled from his seven orifices. Seeing this, the Luo Xiaobai trio all turned solemn.

"Such a strong soul power!"

Han Fei was speechless. *Is a random creature in this water so strong?*

“Come back!”

The surface of the water shook, and spiritual energy surged on Han Fei, and he forcefully dragged a behemoth onto the shore.

Wow, it's a toad!

They all backed away. This toad was more than 50 meters in length and had a chubby body that was emerald green and black. Its jaw was exceptionally long, like Astro Boy's nose.

A string of data emerged in Han Fei's eyes.

<Name> Ghost Water Poisonous Frog

<Introduction> A magical poisonous frog that lives in the water of the underworld, poisonous all over, with infinite power, and has a terrifying jumping ability and predation ability. Its tongue is barbed and so poisonous that it can even erode Divine weapons. The frog is so poisonous that almost no creature dares to be its enemy.

<Collectible> Ghost Water Demonic Pill

<Absorbable>

<Remarks> No poison cultivator can survive after taking the Ghost Water Demonic Pill.

When seeing this message, Han Fei immediately shouted, “Spiritual energy protective cover!”

The other three immediately did the same. Han Fei had already felt that the Heaven Spirit Detoxifying Insect began to eat poison.

The lips of Luo Xiaobai's trio turned blue. This poisonous frog was still 10 meters away from them, but they had already been poisoned.

Luo Xiaobai quickly took out detoxification pills. “We aren't deeply poisoned, and ordinary detoxification pills should work.”

Zhang Xuanyu frowned. “This poison is so strong. I feel that my spiritual energy can only last for about thirty minutes.”

Han Fei was shocked to find that their spiritual energy protective covers seemed to collapse soon. Can this thing even corrode spiritual energy?

Han Fei shouted, “Let me take a look!”

Han Fei flashed and appeared on the back of the frog. Almost immediately, Han Fei felt that the Heaven Spirit Detoxifying Insect was devouring poison more quickly.

Han Fei hurriedly propped himself up with the spiritual energy protective cover. In a single minute, nearly 2,000 points of spiritual energy were corroded.

This meant that if he wanted to stand on the back of this thing for ten minutes, he would have to consume 20,000 points of spiritual energy. Then if he wanted to cross the river, it would require 80,000 points of spiritual energy.

However, Han Fei didn't panic. After flashing back, he said, "You guys step back. Let me draw a few arrays."

After drawing 10 Coiled Turtle Arrays in a row, Luo Xiaobai said in surprise, "Are you going to cross the river standing on its back?"

Han Fei grinned. "Yes! Each of you, swallow a spiritual fruit. Standing on its back requires a lot of spiritual energy. At the same time, I will give you spiritual energy."

Luo Xiaobai said, "I can stand on the vines."

Han Fei nodded. "OK. This thing is amazingly poisonous. I think no creature in the river can kill it."

After a while, Han Fei shouted, "Come up!"

Swish, Swish, Swish!

They all jumped onto the back of the frog and then all gasped in surprise. Damn, what level of toxin is this?

The frog immediately jumped into the water. Even Han Fei covered his own body with a spiritual energy protective cover. Otherwise, the Heaven Spirit Detoxifying Insect would have burst with toxin!

However, at this moment, their bodies flickered with spiritual energy, and Han Fei kept sending spiritual energy to the other three.

Fortunately, the swimming speed of the frog wasn't slow.

Luo Xiaobai's vines stretched into the water in all directions. Although the vines were withering, it didn't prevent Luo Xiaobai from perceiving creatures.

After more than 20 minutes, Luo Xiaobai suddenly shouted, "There may be more than one poisonous frog coming!"

Han Fei tore open a fish-skin map. "Yes, I knew we wouldn't be so lucky as to meet only one poisonous frog!"

Buzz!

The Coiled Turtle Array opened, and in the next minute, a big skeleton fish cut at them.

Le Renkuangly exclaimed, "What kind of fish is this? Why is it all bones?"

Han Fei sneered. "Its flesh and blood have long been corroded by the river water. I had thought that the river water could be drunk and could attract other creatures. It seems that I was wrong."

One big skeleton fish after another jumped and cut at them, and when the fish cut at them, their bones had already started to turn black.

Han Fei didn't dare to use the frog's law enforcing ability. God knew what the so-called Poison Change was like! What if they couldn't hold it?

Han Fei said, "Hold on a little longer. If you can't, eat spiritual fruit."

A large Coiled Turtle Array only lasted for 4 minutes.

However, Han Fei didn't panic at all. *I have tons of this array, OK?*

When all the eight arrays shattered, they finally reached the other side of the river. Suddenly, a big tongue stuck out. Han Fei immediately threw two Coiled Turtle Arrays on the tongue.

At the same time, Luo Xiaobai's vines flew across, Zhang Xuanyu activated the Momentary Time, and Han Fei activated the Draw Technique.

Boom! Click...

"Jump!"

The frog leaped up and flew into the air.

At that moment, in mid-air, something like starlight suddenly was shining, which were small insects floating in the air.

They were all taken aback by this scene. No one noticed that there were bugs in the sky! Thanks to the Coiled Turtle Array, Han Fei did not have to solve the insects.

Another big tongue stuck out of the water. However, it only smashed the Coiled Turtle Array. The Luo Xiaobai trio instantly jumped to the shore.

Han Fei flashed, controlling the frog to jump back into the water. However, when the poisonous frog entered the water, Han Fei ordered in his heart, "Collect!"

It was rare to meet a legendary creature! He wanted to collect all the legendary creatures in this world he could.

Chapter 923: Tickle It

After landing, Han Fei casually ate a spiritual fruit and then stomped on the ground. A Stealth Array and Concealment Array appeared.

Han Fei secretly exclaimed, *What a pity! The Ghost Water Demonic Pill couldn't detoxify, but was more like a treasure for poison cultivators. Otherwise, he would have tried to get a few more of the pills.*

However, Han Fei felt that Ye Qingfeng was very likely to make his breakthrough here because there was too much poison in this damn place.

Luo Xiaobai said, "We should have passed halfway. The latter half may be more dangerous."

After discussion, they decided not to travel at night because it was so dangerous.

This wasn't a matter of time. It was too dangerous at night.

Crossing the river at night had a greater chance of them being killed.

After more than two hours, the four of them hid in the darkness. There were rustling sounds around and there seemed to be various creatures wandering about.

But at this moment, there was a wailing sound by the river.

Explosion sounds rang and there seemed to be a violent fight, which only lasted less than 10 minutes.

Le Renkuang couldn't help sighing. "Someone failed to cross the river..."

Zhang Xuanyu nodded. "If they succeeded, the fight wouldn't have ended so quickly. This shows that the people trying to cross the river aren't weak, but they still cannot solve the dangers in the river."

Luo Xiaobai said indifferently, "Their spiritual energy probably isn't enough to support them. If there are many people trying to cross the river, they will probably organize to cross the river together. Then the success rate will be much higher."

Han Fei nodded. "Yes, if 10 people or even 100 people cross the river at the same time, then how many people can those poisonous frogs and bonefish kill?"

After another hour, those people had tried three times to cross the river. For the longest time, they insisted on 30 minutes.

Luo Xiaobai guessed, "It's been two hours, there must be a lot of people gathering on the other side. We have to hurry up."

Han Fei shook his head. "No rush. In two hours, maybe a few people have gathered. Shall we make a plan to launch a sneak attack?"

Luo Xiaobai retorted, "No, you have to remember the purpose of this trip. You're not here for revenge."

Han Fei froze. *I almost forgot! Although this river is a natural barrier, Luo Xiaobai is right. I'm not here for revenge but for the Sea Quelling Painting. It's very important to get a head start.*

Now that they managed to cross the river earlier than others, they should continue to expand this advantage.

Han Fei gritted his teeth. "Okay! Let's set off in an hour."

Zhang Xuanyu whispered, "Feifei! Shall we catch something to ride? It seems faster than walking by ourselves."

Han Fei nodded. "OK! Let's see what's on the road ahead."

...

Before they left, another two groups of people tried to cross the river. To the surprise of Han Fei, some of them fought for a long time and seemed to have crossed the river.

Han Fei yelled, "Let's go now!"

In this damn place, there were crises almost everywhere. After hundreds of battles, they came to a pasture.

In the pasture, there were many spiritual plants that resembled cotton wool. The huge cotton balls were like marshmallows that had just been baked. The point was, these marshmallows were not single-colored, but white, red, lavender, and light cyan... There weren't many dark-colored ones though.

Han Fei pulled out a few of the plants and threw them into Forge the Universe.

In addition to these, there were some scattered rocks with a strange smell, which was a bit like urine.

Le Renkuang immediately picked up two balls of cotton wool, stuffed them in his nose, and snuffled. "What does this smell like? What kind of creature did this? It smells like... Urine?"

Luo Xiaobai also stuffed her nose, frowning and looking a little disgusted.

Han Fei said, "That's weird. Land creatures often urinate to mark their territory and warn other creatures. We seem to have run into the territory of a certain creature."

But no matter what, they still had to enter

Han Fei looked up and found a big bird hovering in the sky, which was the Sky Swimming Falcon. This thing was quite vengeful! It followed him all the way here!

It was waiting to fight Han Fei again when he flew into the sky.

Luo Xiaobai looked back and said firmly. "Get in!"

They had to be quick. This was something else's territory. As soon as they entered this place, it must have detected them. If they were fast enough, they might have a chance to pass without a fight.

The four of them ran as fast as they could.

After a while, Han Fei saw a big pit blown out in the ground, and couldn't help being surprised. Could someone have come here before the four of them? Cao Tian? Or Senior Brother Dashuai? Or, who else?

Suddenly, Luo Xiaobai said, "Attention! Many of these soft flowers are incomplete."

Luo Xiaobai noticed that many of these cotton ball-like spiritual plants seemed to have been gnawed on. Some cotton wool was pulled out and some had its color darkened...

Zhang Xuanyu said, "Look, there are bones on the ground, bones I've never seen."

It was a strangely shaped skeleton of a terrestrial creature. The bones were incomplete with tooth marks and cracks.

Han Fei felt a sense of crisis, but it wasn't so obvious. So, he said, "OK, don't pay attention to these. Let's just run over."

Woof~ Woof~

A panting sound appeared in Han Fei's ears, which was familiar to him. The first thought in his mind was a dog.

No, it can't be a dog. Probably a wolf! How can a dog survive here? But if it's a wolf... Aren't they a sly creature?

At this moment, the voice sounded like it was 300 kilometers away from him, but Han Fei suddenly shouted, "Come on, use the Majestic Mystic Spell and run!"

Hearing it, the others all turned pale and began to run wildly.

When Han Fei raised his speed, the panting sound in his ears became smaller. However, he heard the wind whistling. *Is this thing speeding up?*

After about thirty minutes, Han Fei perceived a...

Han Fei was dumbfounded. *Is it really a wolf? But, why does it also look like a dog? Black and white, with black circles as if wearing a pair of glasses. Isn't this the legend among dogs, a husky?*

Of course, appearing here, it must not be a husky.

After about an hour.

While running wildly, Le Renkuang screamed, "What kind of creature is it? Why is it so fierce?"

Zhang Xuanyu said, "Feifei! Shall we stop and kill it?"

Luo Xiaobai immediately yelled, "Vine Burst!"

Hum!

Behind them, something suddenly turned into a thousand shadows. Like a beast tide crossing the border or a thousand horses galloping, the shadows were rushing towards them.

Han Fei had guessed that this couldn't be a common dog. It must be a legendary creature! Otherwise, a dog wouldn't have been able to occupy such a large territory.

Han Fei shouted, "Keep running. I'll deal with it."

Luo Xiaobai yelled, "No way! Let's solve it as quickly as possible."

"Deep Blue, Parasitic Technique!"

Howl~

Suddenly, a flame wave fell from the sky, and the dog turned into a fiery dog.

"Momentary Time!"

Swish!

Zhang Xuanyu thrust a stick at the dog, but it leaped into the air, its body split again, and Zhang Xuanyu missed it.

“Great Sky Swallowing Technique.”

The dog shook all over, and Han Fei took the opportunity to flash over with a swish and threw the Void Lines at this dog.

A string of data appeared in his eyes.

<Name> Wolf of Playfulness

<Introduction> A primordial species, with the bloodline of the Oceanic Wolf, extremely fast, curious, playful, with amazing bite force, and good at puppet techniques. They like to manipulate puppets to play with them and will bite the puppets to death when they get tired.

Han Fei frowned. *Wolf of Playfulness? Why do I feel something is wrong?*

However, Han Fei had no time to think about it. This dog was also good at puppet control?

The moment Han Fei swept past, his body suddenly stiffened.

Han Fei immediately said to the others, “Stay away from me and eat some mint leaves...”

Han Fei hadn’t thrown the Void Lines to this thing yet, but had almost been controlled. It could be seen how horrible this wolf was!

Luo Xiaobai and the others quickly stepped back, and Han Fei was still vying for control of his own body. At this moment, Han Fei struggled to draw his knife, trying to kill this damn dog.

However, its clone appeared and threw Han Fei down to the ground with its two claws.

Han Fei was speechless. *Is it asking me to catch it?*

He immediately threw the Void Line towards the dog and the dog instantly frowned and froze as if he was constipated.

For a while, the two began to try to manipulate each other.

In the eyes of the Luo Xiaobai trio, Han Fei was pressed to the ground, motionless, and the Wolf of Playfulness pressed Han Fei down to the ground, also motionless. Its long tongue drooped, and the saliva even dripped on Han Fei’s face.

Zhang Xuanyu called, “Feifei! What’s up?”

But then they saw Han Fei and the fierce dog bleeding from their seven orifices at the same time.

Luo Xiaobai hurriedly stopped Zhang Xuanyu and Le Renkuang and shouted, "Their souls are fighting. We can only help Han Fei by means of our soul power."

Zhang Xuanyu said, "I can use my Soul Explosion."

Luo Xiaobai said, "No, if you use that, both Han Fei and this creature will be injured."

Luo Xiaobai had never seen such a creature before and was at a loss of how to deal with this animal.

Suddenly, they heard Han Fei's voice via voice transmission, *Xiaobai, tickle it. Above the bridge of its nose, between its eyebrows.*

Luo Xiaobai: "???"

The three were dumbfounded. Tickle it?

Chapter 924: A Strange Mount

Han Fei and the Wolf of Playfulness were still in a stalemate.

Luo Xiaobai's heart suddenly did a flip. *Han Fei can spy on other people's memories and thoughts: maybe he can also do that to this creature.*

She immediately tickled under the armpits of the wolf and on its forehead with a bunch of vines.

The tall and burly wolf suddenly smiled and then began to tremble all over.

In the end, it fell to the ground, lying on its back with its four legs twitching.

Feeling that the opponent's soul control was removed, Han Fei immediately took the chance to reverse the situation and control the wolf, overwhelming its soul with 30 Void Lines.

"Hoop! I made it!"

Han Fei sat up with difficulty, took out a spiritual fruit, and stuffed it into his mouth.

Han Fei kicked the wolf that was still lying on the ground twitching and said crossly, "How can you, a wolf cub, be capable of soul control?"

The Luo Xiaobai trio walked up with a puzzled look on their faces.

Luo Xiaobai asked, "So, you can really peep on other people's brains?"

Zhang Xuanyu asked incredulously, "Feifei! Are you kidding me? Catching such a fierce creature by tickling it?"

Le Renkuang was also speechless. "Yes, that's ridiculous!"

Han Fei thought to himself, *How can I explain this to you guys? Forget it, the more I try to explain, the more confused you will be.* So he just said impatiently, "I saw it from its soul, okay? But let me make it clear, I don't have the habit of intruding on others."

With that said, Han Fei glanced at Luo Xiaobai with an innocent look on his face.

Luo Xiaobai glared at Han Fei and then looked at the wolf. "Have you controlled it?"

Han Fei nodded and chuckled. "Yeah! You can stop tickling it."

When Luo Xiaobai retracted the vines, Han Fei controlled the wolf to get up.

For a time, countless thoughts popped up in his mind.

What? The wolf wants me to keep tickling it?

Nice try! Who do you think we are?

Han Fei said, "Let's go! Our mount has arrived. Come up and we will set off."

It was the same way as before, with Luo Xiaobai sitting in the front, Han Fei second, Zhang Xuanyu third, and Le Renkuang fourth.

Han Fei shouted, "Let's go! On the other side of the mountain, there is a Smurf..."

Zhang Xuanyu asked tentatively, "Feifei! Is there any drawback to your soul-control technique? Will it hurt you when you use it?"

Suddenly, the Wolf of Playfulness suddenly jumped up. Luo Xiaobai fell into Han Fei's arms, Le Renkuang sank on the ground, Zhang Xuanyu hung upside down on the wolf's back, and they were all stunned.

Luo Xiaobai hurriedly sat upright. "Control it better! Don't let it jump!"

Le Renkuang rubbed his butt and climbed onto the wolf's back again. "Feifei! What're you doing!?"

Han Fei slapped the wolf on the back and said angrily, "It's not me but this b*stard. It suddenly jumped up. Hold on tight. Its soul is quite powerful. I can't control it well."

After half an hour, they were out of this cotton field and the speed of the wolf immediately slowed down. It seemed like it didn't want to keep running.

Han Fei's legs clamped its side. "Come on, run! You are a wolf. Be a real wolf, OK?"

The wolf finally ran wildly again.

However, after it ran for a while, they found that there were two more Wolves of Playfulness around.

Han Fei said with a black face, "Don't look at me. They are its clones. It is bluffing, showing other creatures that there are many wolves around so that they dare not approach."

Zhang Xuanyu couldn't help being surprised. "This guy is quite smart!"

Han Fei rolled his eyes. "If it were really so smart, how could we catch it?"

If Han Fei were this wolf, he would have picked the weakest one to start the battle. This was the correct way to fight.

But he made the wrong choice to pounce at Han Fei. Otherwise, he wouldn't have been able to control it so easily.

...

The wolf ran for a whole hour, and not many creatures dared to come up to attack them. Even if they did, they were easily solved by the Luo Xiaobai trio.

After almost half a day.

In a large patch of weeds, countless shadows were running wildly.

Han Fei yelled, "Brother Wolf, come on, run! It's dangerous here."

Le Renkuang exclaimed, "What is that? How can they run so fast on two legs?"

Luo Xiaobai manipulated the weeds to form a net, trying to block these creatures.

Zhang Xuanyu stood on the back of the wolf and was tied up with a vine by Luo Xiaobai. Brandishing the long stick in his hand, he activated both the Instant Mystic Spear and Momentary Time and poked a big hole in the weeds from time to time!

Han Fei was stunned. *What kind of a world is this?*

Are those dinosaurs? They look a bit like dinosaurs! But they have scales and spiked elbows, and their heads don't look like dinosaur heads. I have never seen an animal like this before.

Furthermore, if they were dinosaurs, there would definitely be more than one kind of dinosaur here, including those flying in the sky, swimming in the water, eating grasses, and eating meat.

Buzz, Buzz, Buzz!

The wolf was so scared that he released dozens of his clones, which looked like an army.

Suddenly, Han Fei perceived Cao Tian, Cao Jiaren and Cao Qiu.

Han Fei's eyes lit up immediately. "Cao Qiu! Don't blame me this time. We are now competitors. Your brother and sister are too strong. I can only bring you some presents..."

...

More than a hundred kilometers away...

The Cao Family people were standing on a big crab, walking rampant along the way.

Cao Qiu was releasing poisons, and Jiaren Cao was playing her flute.

Cao Tian had put on Divine weapon-level armor and kept punching out.

Cao Qiu said in a panic, "What kind of creatures are these? Why are they all ancient monsters? We can't pass the area through the sky or from underground, there are so many monsters everywhere..."

Cao Tian smiled gently and said, "It's okay. We should be able to see that city after crossing the mountain."

Cao Qiu pouted. "Even if we find the city, what can we do? There are so many strong masters here, but there are only three of us."

Cao Tian still smiled. "That's enough."

Suddenly, Cao Tian frowned, looked in a direction, and said lightly, "Someone is coming... It's... Han Fei."

Cao Qiu said in surprise, "Han Fei?"

Jiaren Cao's eyes flickered. She waved her hand, and a sound wave, like a knife, rolled in the direction Cao Tian was looking at.

A moment later, Cao Qiu was shocked to find that Han Fei and the other three were riding a weird creature and running wildly.

Suddenly, Cao Qiu wailed. "There is a swarm behind them."

Luo Xiaobai cautioned, "Jia Cao is not simple. Don't get too close to her."

Han Fei chuckled. "I know. We just need to run faster than them."

When they were four or five kilometers away from the Cao Family people, Han Fei controlled the wolf to run past their crab.

Jiaren Cao wanted to create illusions with the flute; however, Han Fei and the others had the mint leaves in their mouths. All the objects in front flashed past, and they left the Cao Family people behind.

The little dinosaurs who couldn't catch up with Han Fei and the others all turned their eyes to the Cao Family.

Han Fei yelled, "Cao Qiu! What a coincidence! Take your time. We're leaving first!"

Cao Qiu: "..."

An hour passed.

Han Fei and the other three finally saw an extremely tall mountain, which towered into the clouds and was surrounded by birds and six waterfalls.

Crossing a lawn, Han Fei was surprised to find that there was a swamp in front of him. Then he perceived a crocodile-like creature with an open mouth basking in the sun, and there was more than one crocodile.

Han Fei immediately shouted, "Fly into the sky."

"Hoop!"

They flew into the sky, and Zhang Xuanyu said in surprise, "That bird is still chasing us!"

Han Fei gritted his teeth. "We must stay in the sky. The swamp and the cliffs are even more dangerous!"

At the moment when they flew to the sky, Han Fei issued an order, "Collect!"

In the stunned gazes of the other three, the wolf disappeared out of thin air...

Han Fei didn't explain too much but just said, "Its soul has dissipated, so I collected it. Okay, let's go to the sky and fight that damn bird."

...

The Sky Swimming Falcon was really persistent. Han Fei, who was extremely threatening in its eyes, had aroused its desire to fight.

Actually, Han Fei wanted to catch it too, but this bird was hard to catch.

At least, he shouldn't try catching it unless he was ready to get hurt.

Seeing that Han Fei and the others flew up again, the Sky Swimming Falcon took a circle with excitement and rushed at him.

Han Fei took a breath. *Alright, you made me do this!*

Hum!

As soon as the Overlord Technique and the Agility of Wind were activated, The Sky Swimming Falcon was taken aback.

Swish! Swish! Swish!

"Flash! Flash! Flash!"

The Luo Xiaobai trio wanted to help Han Fei, but they couldn't keep up at all!

Not only that, because fighting broke out in the sky, other big birds flew up and hovered around, seeming to want to join in on the battle.

However, Luo Xiaobai and the others didn't fly high and were near the swamp, so those big birds didn't join in on the battle in the end.

Ten minutes, twenty minutes, half an hour...

The air pursuit was very intense.

Han Fei and the Sky Swimming Falcon hunted each other and flew around.

At this time, the Cao Family people finally arrived.

Cao Tian was stained with blood all over, and he was slightly surprised to see this scene in the sky.

Cao Qiu sighed. "Is this the real power of the Phantom Glass Wings?"

Seeing Han Fei flashing in the sky, Cao Qiu couldn't help but sigh again.

Chapter 925: Catching the Falcon in the Sky

Han Fei had known that the Cao Family had come, but he had no time to pay attention to them.

The Sky Swimming Falcon's teleportation ability was really strong, so the Void Lines couldn't catch it. Although Han Fei had an advantage of speed, the bird flashed away whenever he was close to catching in.

Just now, he brought a swarm of little dinosaurs to greet the Cao Family.

He knew they would seek revenge for this 'present'.

However, while flashing in the sky, Han Fei roared, "Cao Tian, give it a second thought! I bet you can't cross this mountain."

Luo Xiaobai and the other two approached, and flowers bloomed everywhere. Han Fei was in an air battle, and no one could disturb him now.

Cao Qiu nervously looked at the swarm approaching and said, "Well, I think we shouldn't fight against them..."

Jiaren Cao said lightly, "Shut up."

Jiaren Cao glanced at Han Fei in the sky who was tied up with a fight. Luo Xiaobai's strength was good, but she could beat her. As for Le Renkuang and Zhang Xuanyu, Cao Tian would be enough to defeat them.

The problem they couldn't figure out: why was Han Fei fighting a falcon in the sky?

The power of the birds in the sky was obvious to all. Besides, there was more than one Sky Swimming Falcon around.

Does Han Fei want to make the bird his contractual spiritual beast?

No!

Was it worth the effort? Although the falcon is fast and capable, it's only useful in the sky, so Han Fei probably had other purposes.

Besides, Hidden Fishers all have wings.

Of course, they weren't as fast as this falcon. That's for sure.

Even Han Fei, who had fully activated the Phantom Glass Wings, couldn't catch this falcon. It must be a legendary creature!

Han Fei wanted to control this bird.

Cao Jiaren immediately said to Cao Tian and Cao Qiu via voice transmission, *I'm not sure why Han Fei wants to catch that bird... I suspect that they just want to catch the bird and make it take them to fly over the mountain. Therefore, Han Fei must have a way to control creatures. No matter what, we must stop him from catching this bird.*

After that, Cao Jiaren said, "Attack."

Cao Tian grunted, his momentum suddenly soared, and his body was covered with a bright golden light.

Cao Qiu said in shock, "Sister! Is it proper to attack him now?"

Jiaren Cao grabbed her flute and played it without paying attention to Cao Qiu at all.

As soon as the flute sounded, Luo Xiaobai and the other two quickly stuffed mint leaves into their mouths.

Luo Xiaobai said calmly, "I'll deal with Jiaren Cao, and you two solve Cao Tian."

In the sky, Han Fei was anxious. *Sh*t, this woman is quite smart! What should I do now?*

He heard Cao Jiaren's voice transmission, but he was determined to catch this Sky Swimming Falcon.

Below.

Luo Xiaobai pointed to the sky. "Grand Spirit Summoning Art."

Cao Jiaren said melodiously in a low voice, "Earth Shaking Demonic Sound."

Zhang Xuanyu set up a spiritual barrier to protect Le Renkuang. The latter was glowing orange-red. "Violent War Body."

After Le Renkuang activated the Majestic Mystic Spell, his combat power was second only to Han Fei. He opened his armor box, and Semi-Divine weapons flowed out.

Le Renkuang held a pair of knives in his hands, shouting fiercely, "Quad Thunder Knife."

Thunder rumbled. Le Renkuang stomped on the ground, and the earth trembled and the mountains swayed. In the swamp a hundred kilometers away, a giant crocodile closed its mouth and slowly crawled to the edge of the swamp.

Moo~

In the depths of the swamp, the sound of cows vibrated, startling Han Fei. *Are there cows here?*

The horrible knife waves slammed Cao Tian straight on. The latter leaped down from the crab and punched out. In the blink of an eye, a hundred fists blasted out, and the Quad Thunder Knife was smashed in an instant.

However, Le Renkuang sneered and squatted down on the ground. "Divine Turtle Shield, Ultimate Defence."

"Momentary Time!"

Zhang Xuanyu took the opportunity to rush up and thrust a stick against Cao Tian's chest.

Boom!

The terrifying air wave blew the grass within dozens of kilometers.

BAM!

Cao Tian stepped back three steps, and Le Renkuang, holding his shield, retreated several hundred meters before stopping. Zhang Xuanyu was sent flying into the sky by the tremendous force.

The other end.

Magic flute sounds echoed, white flowers bloomed, and pollen flew all over the sky. The vines erupted, while melodies were like daggers. A big Divine Seaweed Octopus appeared, and all the plants and trees rushed endlessly to Cao Jiaren.

The latter flew into the sky expressionless, preparing to fight with Luo Xiaobai in the sky.

Luo Xiaobai scolded, "Come down!"

A huge cage made of grass and wood covered the sky and the sun, and big cannibal flowers sprang up like mushrooms, blooming one after another.

...

In the sky.

Han Fei's eyes narrowed. *Luo Xiaobai is fine, but Le Renkuang and Zhang Xuanyu can't beat Cao Tian. It is not a matter of combat power, but a physical issue.*

Han Fei glanced at the falcon. "Humph! Don't you want to catch me? Come on, catch me!"

Han Fei pretended not to dodge it in time and was caught by the falcon's scary claw. The Feather Suit of Wind was torn, and a falcon claw went through his skin.

But suddenly, the falcon was surprised to find that it couldn't pull out its claw. On the surface of Han Fei's body, a tentacle appeared and a sucker on it clasped the falcon's claw.

"Gotcha!"

Blood oozed out of Han Fei's mouth, but he ignored the other sharp claw of the falcon and tied its soul with 10 Void Lines.

Han Fei was seriously injured, but the Sky Swimming Falcon was enslaved.

Puff!

After vomiting a few mouthfuls of blood, Han Fei jumped down from the sky after about five minutes and cast the Divine Healing Technique on his body.

Because of that clawing just now, Han Fei's six ribs were broken, and his internal organs were gurgling.

For Han Fei, this was a heavy blow.

However, at this time, the falcon had already been controlled. It dove from high up and clawed at Cao Jiaren.

As long as Cao Jiaren was defeated, they would win.

However, Cao Tian's face changed slightly. He was about to punch when Le Renkuang shouted, "Armor Art."

"Momentary Time!"

Cao Qiu's face turned pale. He wasn't worried about Cao Tian, but he never dared to underestimate Han Fei.

"Cloud Dolphin!"

Cao Qiu shouted, and a big fish appeared in the air.

Han Fei certainly knew how horrible the Cloud Dolphin's defense power was. The Sky Swimming Falcon's attack would probably fail.

However, Han Fei didn't panic. He muttered in a low voice, "Sacrificing Punch..."

A terrifying fist mark crushed all the way forward. Wherever it went, everything was turned into ash.

"Imposing Dragon Punch!"

An equally horrible fist mark was blasted out from Cao Tian, slamming against the Sacrificing Punch. Because of this, Cao Tian withstood the attacks of Le Renkuang and Zhang Xuanyu with his body.

However, Han Fei sneered and ran towards Cao Jiaren. As he turned over his palm, the law of gravity blasted down.

Only in an instant, an amulet appeared on Cao Jiaren's body. However, because of the gravity, she could no longer play the flute.

The magic sound disappeared, and the vines rolled wildly.

Boom!

Boom!

Boom!

One explosion was the collision of the Sacrificial Punch and the Imposing Dragon Punch, another was the full blow of Le Renkuang and Zhang Xuanyu, and... The third was the explosion of the ultra-quality battle suit of Cao Jiaren.

Han Fei saw a seal crack the law of gravity.

However, Cao Jiaren kept vomiting blood while struggling to land beside Cao Qiu, so she withdrew to Cao Tian's side.

Neither party won this battle.

Blood kept flowing from Cao Tian's mouth, which was not much though. He just looked at Han Fei aloofly. "Let's fight next time."

Han Fei curled his lips. "You've already been defeated by me..."

Logically speaking, Cao Tian's physique could not be as strong as his. But he wasn't sure... After all, the Cao Family was very powerful in the Thousand Star City.

Cao Wudi was definitely not the only strong master in the Cao Family. If the Cao Family had an Explorer or even a Venerable-level powerhouse, they probably would have a high-level body-refining technique.

After all, the Indestructible Body Art was only a Venerable-level technique, although it was created by Ren Tianfei.

The only thing that surprised Han Fei was, where did Cao Tian get such a huge amount of energy to support him in such a crazy fight?

But at this moment, both parties ran out of energy.

At least, Han Fei had no energy now, and his injuries were quite serious.

Besides, this time, Han Fei and his companions didn't attack Cao Qiu because of their friendship.

And Cao Tian's purpose was only to prevent Han Fei from catching the Sky Swimming Falcon. Even he himself knew they couldn't kill Han Fei!

After a while, the two sides separated.

Luo Xiaobai walked to Han Fei. "How is your injury?"

Han Fei put a Divine Healing Technique on himself again, shook his body, and reconnected his bones. Then he said, "It may take a while to recover, but it shouldn't be a big problem."

While speaking, he had already stuffed three spiritual fruits in his mouth. "Come on, let's hover in the sky for a while and fly over."

Chapter 926: Dragon in the Pond

The four of them rode the Sky Swimming Falcon and flew for about half an hour before they all recovered.

Le Renkuang shouted, "Feifei, I found that Cao Tian's physique is as good as yours!"

Zhang Xuanyu nodded solemnly. "For the first time, my attack couldn't even break his defense."

Han Fei sneered and said, "That's because your physique is too weak! You've gotta work on it, OK?"

Zhang Xuanyu murmured, "Actually, relatively speaking, my physique is already strong compared to my peers. But... Well, forget it."

Luo Xiaobai said, "Cao Jiaren and Cao Tian must have ultra-quality Divine weapons. We should be careful."

Han Fei sneered. "OK, let's get out of here first."

Only after Han Fei took control of the Sky Swimming Falcon did he know how powerful its teleportation ability was!

This bird could actually foresee crises. If danger approached, it could react with the airflow and teleport away instantly.

Han Fei didn't control the falcon to fly very high, but performed with its teleportation ability first. To his surprise, he discovered that he didn't understand teleportation correctly just now.

It was not reacting with the airflow at all, but transferring itself into another space.

Zhang Xuanyu couldn't help but exclaim, "Feifei! If this big bird becomes your contractual spiritual beast, then you'll be invincible in the sky!"

Han Fei scoffed. "How could it be that simple? No matter how fast you can escape, you have to face up to your enemy in a battle. Otherwise, how could I have caught this bird?"

Zhang Xuanyu smacked his tongue and said, "It's still a powerful ability."

Le Renkuang added, "Yeah! Finally, we don't have to run on the ground."

Han Fei rolled his eyes. "Aren't you sitting all the time anyway?"

Luo Xiaobai said, "Now let's fly over and hope we don't encounter creatures stronger than this big bird! Otherwise, this mountain will indeed not be easy to pass..."

Han Fei nodded, manipulating the falcon, like a sharp arrow, heading towards the mountain ahead.

However, he didn't fly very high. Han Fei noted that there were several big birds hovering in the sky, and a black spot could be seen.

Besides, Han Fei also wanted to see what there was in this swamp.

In less than an hour, Han Fei found the Cao Family fighting in the swamp. Fist marks were flying across, the swamp burst, and Cao Tian grabbed the tail of a large crocodile and threw it dozens of kilometers away.

Han Fei controlled the falcon to stop as he laughed. "Oh! What a coincidence. You have a lot of strength! Do you have endless energy? Take your time. We're leaving..."

Le Renkuang shouted, "Oh! We are so comfortable sitting on this falcon!"

Zhang Xuanyu chuckled. "Beauty, do you want to try this?"

Jiaren Cao looked up at the sky, her mouth twitching slightly. She wondered what special opportunities Han Fei had! How could he control the bird?

Cao Qiu wailed, "No! Don't go... Help me catch one. I can give you something!"

Han Fei sneered. "Do you think I'm stupid? Have fun with your brother and sister!"

Then they whooshed away and flew to the depths of the swamp. Along the way, they could see various predators, pythons, marsh spiders, and other strange creatures lying on their stomachs in the swamp.

After half an hour, Han Fei finally saw a buffalo. It was a real buffalo. Han Fei was a little stunned. *Can a water buffalo be so powerful?*

After all, the place where he just fought was not close to here!

Luo Xiaobai looked at Han Fei in surprise. "Is this like the sculpture engraved with runes from Pearl Diver's Port auction?"

Zhang Xuanyu exclaimed, "It turns out that there is indeed such a creature! This blows my mind!"

Le Renkuang said, "This thing must be very powerful, right? Otherwise, why would it be made into a sculpture and engraved with mysterious runes?"

Suddenly, Luo Xiaobai looked at Han Fei and asked, "Have you cracked the mysterious runes?"

Han Fei lied, "Of course not. They were not words. Maybe I can find a way to crack it in the underground city."

Han Fei didn't study the buffalo. Anyway, the biggest chance wouldn't be here.

Hum!

The falcon skyrocketed, and when it went up to a kilometer in the sky, a big bird flew over.

Han Fei sneered. "You can fly, but we can fly too. Do you think we're afraid of you?"

Swish, Swish, Swish!

Streams of light cut through the sky.

Han Fei shouted, "Hold on tight! I am going to fly higher."

"Hoop!"

When they were more than a hundred kilometers from the mountain ahead, the Sky Swimming Falcon had already skyrocketed 8,000 meters high and broke through several layers of clouds.

Behind them, a swarm of big birds was chasing, maybe to fight them, or maybe for fun.

But at this moment, they were not in the mood to deal with these birds because they found that this mountain was more than 10,000 meters high!

Zhang Xuanyu sighed. "Is the underground city really underneath the Scattered Stars Island?"

Han Fei cursed. "Are you out of your mind? How can there be a sky underground? And the sun, the moon, and stars? This is just a mysterious island."

Luo Xiaobai suddenly said, "Han Fei, birds."

Han Fei had already discovered that a swarm of reddish-brown birds tens of meters in size with a red crown on their heads were flying over.

What Han Fei didn't say was that on the cliff a hundred kilometers away, large swarms of birds were flapping their wings.

But suddenly, Han Fei was a little sad. These relatively small birds were nothing at all! Because, in the sky behind, hundreds of kilometers away, a big falcon hundreds of feet long was whooshing over.

"F*ck, why is this idiot flying so high?"

Luo Xiaobai asked, "What's wrong?"

"We are being targeted by a huge bird. We have to fly high and cross this mountain as soon as possible."

Whirr...

The wind was whistling in their ears.

The falcon rushed straight into the sky. This was really exciting.

However, because of this, the giant falcon closed in on them by nearly 30 kilometers.

Han Fei shouted, "Come on!"

The last time Han Fei saw such a big creature was that Ancient Sounding Snake. He didn't want to be stared at by a bird of this level! After all, they were not in the sea now, and he didn't have Poison God anymore.

Unfortunately, the distance of a hundred kilometers was not far.

A moment later, when Luo Xiaobai and the others sensed the giant falcon flying over, they had arrived at the top of the peak. Then, everyone was stunned.

There was a huge, pure, clear pond. In the center of the pond was a bunch of blooming lotuses. At the very center of the lotus, there was a strikingly beautiful lotus, which was distinct from other lotuses.

On the water's surface, Jiang Qin was fighting.

Yes, there was only Jiang Qin in the entire pool.

Han Fei felt they were fast enough! But it turned out the fastest was Jiang Qin.

The creature fighting Jiang Qin was a dragon. It was different from the dragons Han Fei knew before.

This seemed to be a real dragon, more than 300 meters long, with green scales on its back, four horns, and four claws.

It also had lace-like fins all over, which were fluttering ethereally.

Holding a red knife, Jiang Qin was drenched in blood, riding the dragon and slashing frantically, seeming to have suffered serious injuries.

The others were shocked.

"Senior Sister?"

"Senior Sister Jiang, why is she... Alone?"

Han Fei glanced at the giant falcon behind him, gritted his teeth, and flew towards the surface of the pond. He was not going to help Jiang Qin, but grab the lotus flower.

Han Fei yelled out, "Sister Qin, why are you fighting a dragon?"

Jiang Qin was seriously injured. Seeing that the dragon's attention turned to Han Fei, she quickly put a pill into her mouth and said, "Watch out, this is a thousand-year-old dragon, a level-68 creature."

The others immediately gasped in shock. Oh my god! Isn't it equivalent to an advanced Law Enforcer?

Jiang Qin added, "This is a Heaven Heart Lotus, which can help you make a breakthrough and strengthen your soul. It is extremely rare. We can't miss it!"

As soon as Han Fei heard this, he jumped away from the falcon and rushed towards the lotus with a swish.

How could the green dragon allow Han Fei to snatch it? It immediately flew into the air and whipped at Han Fei with its tail.

"Haha! Do you think I'm afraid of you?"

Han Fei kept flashing and at the same time, he said to the giant hawk behind via voice transmission, *Bird, let's kill this dragon together. You take its body, and I'll take the lotus.*

In Han Fei's view, a hawk and a snake were natural enemies. Without his help, the hawk had no chance to eat the dragon.

"Hoooooo!"

The dragon's roar resounded for thousands of kilometers, and the green dragon rushed at Han Fei. When he was only 10 kilometers away from the lotus, the dragon arrived.

"F*ck... so fast?"

BAM!

Han Fei felt his soul shake as the dragon's tail whipped him. His face turned pale immediately.

"Nine Mansions Dragon Seal!"

"Law of gravity!"

The dragon's tail buckled, but it still touched Han Fei. He was tumbling on the pond like a dart, flying more than a thousand meters away.

Pu!

Han Fei spurted a large mouthful of blood. He swallowed blood and spit. "Sister Qin, I can't beat it!"

Jiang Qin ordered, "Give me spiritual energy."

Han Fei stretched out his hand and sent spiritual energy to her. However, at this time, the great hawk had come.

Han Fei shouted, "All, come down here!"

The Luo Xiaobai trio left the Sky Swimming Falcon, and the next second, the giant hawk flapped its wings, and a gust blew.

Han Fei, the falcon, Jiang Qin, the giant hawk, and the dragon formed a circle.

Han Fei was speechless. "Sister Qin, I never knew I could fight an advanced Law Enforcer!"

Jiang Qin took a breath. "Unfortunately, I had planned to steal the lotus, but I failed. Is the bird with us?"

Han Fei nodded.

Jiang Qin was speechless. *No wonder it is so obedient.*

Now there were three forces! Although Han Fei and the others were nothing in the eyes of the green dragon and the giant hawk, the Sky Swimming Falcon could be regarded as a big shot here.

Chapter 927: A Master Thief

Han Fei cast several Divine Healing Techniques on himself and Jiang Qin. Luo Xiaobai wanted to come to help them, but was rejected by both Han Fei and Jiang Qin.

What level was Luo Xiaobai now? She was only an intermediate Hidden Fisher. How could she fight the dragon?

However, at this moment, the three of them were not in danger. At least, now, whether it was the giant hawk or the green dragon, they had no time to pay attention to these small potatoes.

Han Fei said to the giant hawk via voice transmission, *Bird, what do you think of my proposal? Isn't it good for both of us?*

At this moment, a string of data emerged in Han Fei's eyes.

<Name> Green Swimming Dragon

<Introduction> A dragon transformed from a green snake. It often absorbs the essence of the heavens and earth, it understands the way of the heavens, and gains a trace of dragon inheritance. Its strength is infinite, up to 20 waves of power; its claws are sharp, which can tear Divine weapons; its scales are tough, comparable to low-quality Divine weapons. When the dragon chants, one's soul will be shaken, and it is difficult for the weak to bear it.

<Level> 68

<Quality> Legendary

<Enforcing law> Dragon Soul Shock

<Contained spiritual energy> 63,258 points

<Edible effect> A great tonic, good for every part of the body.

<Collectible> Dragon scales, dragon tendons, dragon horns, dragon gall, dragon ball, dragon teeth, dragon blood...

<Absorbable>

Seeing the data, Han Fei frowned. *The dragon's body is comparable to a low-quality Divine weapon. How can I stab through its body? Snowmourne?*

As for the giant hawk, it was also a headache to Han Fei.

<Name> Sky Survey Golden Hawk

<Introduction> One of the fastest birds of prey in the sky. It likes to fly to the sun and grows up bathing in its heavenly fire, so it can mobilize heavenly fire. It hates water and doesn't like rivers or lakes. Its feathers are as sharp as low-quality Divine weapons.

<Level> 66

<Quality> Legendary

<Enforcing law> Skyfire

<Contained spiritual energy> 63,258 points

<Edible effect> A great tonic, good for every part of the body.

<Collectible> Feathers, sharp beak, sky tearing claws, fire feathers, demonic pill, golden bead...

<Absorbable>

Wow, the hawk's body is comparable to low-quality Divine weapons as well! But I only have a low-quality Divine battle suit. How can I fight the two?

Han Fei was worried. After all, his Feather Suit of Wind couldn't even resist the Sky Swimming Falcon!

The Sky Swimming Falcon was only a level-61 legendary creature. Although it was a legendary creature, its level was too low!

Han Fei asked, "Sister Qin, what are we going to do? The hawk dislikes water. We'd better make them fight each other."

Jiang Qin frowned. "They won't fight before we make a move."

Han Fei took a look at the Sky Swimming Falcon. Let the falcon fight them first? But he didn't want to send the falcon to death because he wanted to take it as his spiritual contractual beast.

Besides, the falcon was only more than 30 meters long. Compared to the golden hawk, it was just like a baby. He was certainly no match for the dragon!

Dad... Daddy...

While Han Fei was struggling, his heart suddenly did a flip as a voice sounded in his mind.

"Who is calling me? I'm only 18..."

Wait, Han Fei quickly glanced in Forge the Universe and found that Little Black and Little White had upgraded successfully.

Han Fei was overjoyed. *They are back! Thank God!*

He summoned Little Black, but didn't let Little White come out.

Even if Little Black and Little White had successfully upgraded, they were only level-50, still almost 20 levels lower than the hawk and the dragon...

However, Little Black could steal things in stealth mode! His purpose was to get the Heaven Heart Lotus!

The Ancient Sounding Snakes was level-66, the same level as the Sky Survey Golden Hawk. If it weren't for the 40 catties of Poison God, he wouldn't have been able to kill it.

This time, he didn't have any Poison God. Even if he had, he wouldn't be able to kill the hawk and the dragon.

Han Fei muttered, "Sister Qin, take the others away. Let me grab the lotus flower. I will meet you in front of the city."

Jiang Qin frowned. "No, you can't handle the two. Even a peak-level Law Enforcer might not be able to kill them."

"Gulp!"

Han Fei swallowed and looked at the golden hawk that was flapping its wings, and whispered, "Sister Qin, I'm just bluffing. The golden hawk is not a fool. It will cooperate with me. Trust me, I can steal the lotus."

Jiang Qin looked back at Luo Xiaobai and the others. "Retreat, retreat to the other side of the mountain."

Hum!

The Infinitely Water came out, setting off surging waves. This was for the golden hawk to see.

Han Fei activated the Million Knife Art and countless daggers rolled together like a long serpent, cutting at the dragon.

Hooooooo!

The dragon roared and Han Fei hurriedly stuffed mint leaves into his mouth.

"Kill!"

Han Fei was stunned when he saw a scarlet word "Kill" appear in front of Jiang Qin. If he remembered right, wasn't this Chu Linyuan's law?

But hadn't Jiang Qin re-cultivated from scratch? Why could she still use it?

Jiang Qin had no time to explain, but pounced at the Green Swimming Dragon.

Tweet~

The hawk looked at Han Fei and the others and then at the Sky Swimming Falcon.

Han Fei secretly scolded, *Is this bird implying that we should lead the attack? Come on, you're level-66, but the falcon is only level-61! Don't you feel ashamed?*

Even so, he had no choice but to charge forward.

Swish!

The Sky Swimming Falcon shot out, and the countless daggers swept like a flying dragon, while the Kill law released mighty killing intent.

Only at this time did the Sky Survey Golden Hawk make a move. It soared into the sky and clawed at the green dragon.

Roar~

The dragon roared, and Han Fei's seven orifices bled and his brain had a stabbing pain. Even Jiang Qin vomited blood.

In the distance, the Luo Xiaobai trio, who were flying to the other side of the mountain, staggered at the same time. Each squirted blood, but didn't dare to look back.

"Ah! Bird Meteor Punch..."

Jiang Qin: "..."

Luo Xiaobai and the others: "..."

Han Fei kept using the Sacrificing Punch and the fist marks all over the sky smashed against the green dragon like missiles. But the dragon swept them away with its tail and even its scales were intact.

However, it wasn't entirely useless. Many scales were dented by Han Fei's punches. Besides, Little Black took this opportunity to swim towards the Heaven Heart Lotus.

Hooooooo!

The dragon jumped out of the water while fighting against the countless daggers transformed from the Infinitely Water, dashing all the way to Han Fei.

Swish!

Han Fei suddenly disappeared, and the Sky Swimming Falcon took the opportunity to claw it, tearing off dozens of the dragon's scales and a piece of flesh and blood with both claws.

Hum!

The dragon body shook, and the falcon was sent flying.

As for the attack from the Sky Survey Golden Hawk, it was blocked by the green dragon. But the "Kill" seal was very powerful, crushing dozens of scales and a large piece of flesh and blood from the dragon's tail.

But the five or six meter-long injury was almost negligible compared to the dragon's huge body.

Suddenly, Han Fei was shocked. From the sky, the dragon's huge tail slammed down.

"Sh*t... Flash... Flash... Flash..."

Like two little chickens, Han Fei and the Sky Swimming Falcon harassed the dragon from the side. From time to time, Han Fei used the Infinitely Water to poke the wound of the green dragon.

Several times, the green dragon was so pissed off that he tried to kill Han Fei first. Had it not been for him evading so fast, at this moment, he would have become a patty of flesh and blood.

Jiang Qin was injured again, but Little Black had already run under the lotus leaf. However, there was a spiritual barrier protecting it.

If he hit the spiritual barrier with Snowmourne with all his strength, it would probably break.

Han Fei deliberately flashed his back to the Heaven Heart Lotus, biting a spiritual fruit in his mouth before punching at the green dragon.

"Hoop~"

The dragon tail whipped at him again, and once again, Han Fei used the law of gravity. Then with the force of the collision, Han Fei flashed and appeared a few kilometers away.

Then, he swung Snowmourne at the Heaven Heart Lotus.

In a twinkling, the green dragon was furious and swept its tail at him.

BAM!

Han Fei was sent flying backward and was caught by the Sky Swimming Falcon. The Sky Survey Golden Hawk rushed up to fight the green dragon. The impact of their fight tore through the void, and feathers and scales flew all over the sky.

Han Fei suddenly shouted, "Sister Qin, come up! Let's go!"

Jiang Qin was taken aback for a moment. When she saw Han Fei appear beside her, she immediately looked at the Heaven Heart Lotus, only to see that as the water rippled, the Heaven Heart Lotus was gone.

"Come here!"

...

Hooooooo!

The green dragon almost exploded with anger.

It originally planned to whip Han Fei away with its tail, but Han Fei turned out to take the chance to break the spiritual barrier.

It couldn't understand that there was nothing there. How did the Heaven Heart Lotus disappear?

But injured by the hawk, the dragon couldn't chase Han Fei. If distracted, it would be easy to be killed by the damn bird.

The angry roars of the dragon resounded for thousands of kilometers.

But Han Fei was escaping at full speed. Riding the Sky Swimming Falcon, he caught up with the Luo Xiaobai trio only half an hour later.

Han Fei shouted, "Come on! Let's go!"

After a while, the green dragon appeared in the sky, chasing him.

The Sky Survey Golden Hawk didn't attack the dragon with its full strength, but only provoked it from time to time. Obviously, it was very unhappy with Han Fei's early escape.

Han Fei vomited several mouthfuls of blood on the bird's back. He hurriedly cast the Divine Healing Technique on himself and stuffed all kinds of spiritual fruit, energy fruit, and soul fruits into his mouth.

"Cough... Sister Qin, let's grab something else next time. This is a legendary creature!"

Jiang Qin frowned and looked at Han Fei. "I know what you're capable of. You can recover at most half an hour later. But, where is the Heaven Heart Lotus?"

Han Fei stretched out a hand. "Here!"

Jiang Qin said crossly, "There should be 18 lotus seeds in the Heaven Heart Lotus, but why are there only 9 left?"

“Oh? Really? Maybe I lost them in the fight.”

Jiang Qin said in a huff, “The lotus seeds are better used for alchemy. Grandpa can use them to refine the Heaven Heart Pill. Taking the pill is better than taking the lotus seeds directly. Forget it, you can keep it in case I’m killed before we get back.”

Le Renkuang said leisurely, “Well, I have to remind you, if we don’t run faster, you’ll be killed right away.”

Le Renkuang pointed behind him. More than 50 kilometers away, the dragon and the bird were whooshing over side by side, apparently targeting them.

Chapter 928: Sky City

Han Fei didn’t feel surprised at all that the dragon and the hawk were chasing them. He stole the Heaven Heart Lotus and fooled the hawk. Of course they would be angry!

However, Han Fei didn’t panic. He said lightly, “Let’s go down when we cross this mountain and get to the other side.”

After a while, when the two were only about 30 kilometers away, Han Fei and the others suddenly flew out of the mountains.

However, beyond everyone’s expectations, instead of a land of vegetation and jungle, it turned out to be a plain of wilderness, like a meadow with not many trees.

What caught the eye first was that the land was like a painter’s palette. It was like a collage composed of plots of different colors connected together.

Han Fei released his perception and found that there were many large jar shapes in the ground or in the forest. Some lay across the grass, some half-buried in the earth, and some were slanting up to the sky.

It all looked very weird.

Jiang Qin muttered, “The legendary Bone Jar Plain actually exists...”

Han Fei was surprised. “What?”

Jiang Qin glanced back, and after making sure that the two were still far away, she explained, “I don’t know much about it. However, when humans found the Scattered Stars Island and landed, they found a Bone Jar Plain. It is said that it was used to commemorate and bury those who died in wars. These bone jars are where they were buried.”

Han Fei said in surprise, “So it’s a graveyard?”

Le Renkuang shivered. “Are there any undead creatures here?”

Jiang Qin nodded slightly. “You are right. Because who died here were all cultivators, after they died, a large number of ownerless souls dissipated. Some strong masters’ bone jars will unconsciously absorb ownerless souls and eventually become undead creatures.”

Luo Xiaobai asked simply, “Do they have a pre-mortem consciousness?”

Jiang Qin shook her head. "No. These people who died in the Bone Jar Plain have nothing to protect, so they would have become very vicious after becoming undead creatures. It is said that during the first battle on the Scattered Stars Island, six Law Enforcers died in the Bone Jar Plain."

Han Fei screamed, "Will they come out during the day? Whatever, let's fly down first to see if the dragon and the hawk dare to come in..."

Jiang Qin was slightly worried. "What I am worried about right now is not the dragon and giant bird behind us, but how we can get back to the place where we came?"

Zhang Xuanyu said, "Does the underground city have other exits?"

Jiang Qin shook her head. "I don't know. Maybe there is, maybe not. The seal of this place is not simple. It was probably set by a super-strong master in order to guard this world and prevent the strong from entering. So, if there is no other exit, we can only go back the same way."

Han Fei said leisurely, "Well... Will a teleportation array work?"

Suddenly, Jiang Qin and the others all looked at Han Fei. "What do you mean?"

Han Fei said, "I mean the kind of teleportation array that Junior Uncle Faceless once set. I can draw it, but I haven't tried before. Give me some time and maybe I can make it work."

Zhang Xuanyu pinched Han Fei's neck and said angrily, "Why didn't you tell us this earlier? We wouldn't have needed to run and fly so hard, but could have transferred to the underground city with the teleportation array!"

Han Fei flexed his neck and said, "You wish! How can you be transferred to a place where you haven't been? If you don't have a direction, God knows where you will be sent to!"

Han Fei suddenly thought of the den of the Shadow Fierce Cat. Maybe he could take it as a coordinate when he went back.

Forget it, when he got rid of the dragon and the hawk, he would only try short distances.

The Sky Swimming Falcon rushed to the Bone Jar Plain, and Han Fei asked, "Sister Qin, it's daytime now! Will anything come out of these jars?"

Jiang Qin shook her head. "I don't know. But I hope not."

Han Fei grunted. *If they come out, I may not be able to escape!*

However, having said that, Han Fei still rushed over without hesitation, and when he was 100 meters away from the ground, he flew forward.

On the weird plain, there were few creatures. Even if there was, they were weak. This proved the horror of this area.

Han Fei turned around and shouted, "Bird, you can't blame us! We can't beat that big snake. Can you stop chasing me?"

However, the golden hawk suddenly spoke, "I should have a share of the treasure you've just gotten."

Han Fei and the others were dumbfounded. Can this bird talk?

Jiang Qin's face changed slightly. "Damn it, many legendary creatures can talk. Then that green dragon..."

Then, they heard the green dragon roar, "I'm gonna kill you."

Everyone: "..."

Han Fei immediately responded, "Brother Bird, if you want the treasure, I can give you some. But, even so, this big dragon won't let us go. So how about you killing it? Then I'll give you half of the lotus."

The Golden Hawk responded, "I'd rather kill you."

Zhang Xuanyu immediately shouted, "Sister Bird, please let us go. We can help you kill it next time we come!"

Han Fei: "???"

Zhang Xuanyu said, "Judging from its voice, I think it's female."

Luo Xiaobai rolled her eyes at him. "Then why don't you seduce her with your pretty face?"

Le Renkuang scoffed. "Stop it. What should I do?"

Han Fei pondered for a moment. "Their speed is not much faster than ours. What else can we do? Run!"

In the sky, three white lines left long marks.

After half an hour, the distance between the two parties was no more than 10 kilometers. The green dragon roared, and everyone's soul was shaking.

Han Fei's spiritual energy was continuously infused into the falcon's body. Soon, they had passed thousands of kilometers.

Han Fei turned around and sneered. "Great, Big Snake, if you can't kill me this time, I'll definitely kill you. And you, Stinky bird, now you've really pissed me off! Your enforcing law is sky fire, right? Come on, burn me!"

The Sky Survey Golden Hawk was a little surprised. "How do you know?"

Han Fei sneered. "I know a lot. Hey, dragon, where did you get a trace of dragon soul? Such little power is not enough to kill us, OK?"

The green dragon was slightly stunned wondering how he knew this information.

Jiang Qin and the others also looked at Han Fei in surprise.

Han Fei said, "They have shown their abilities, so of course, I can tell what they're capable of."

After that, Han Fei communicated with the falcon, "Your soul is only temporarily controlled by me. At this moment of life and death, you can only burn your blood and accelerate, and then I will let you go... Come on, make a decision. Otherwise, I will let you die first."

Han Fei had tried to control the falcon to accelerate, but failed.

Han Fei continued, "Is there a city ahead? As long as you get us there, I will let you go."

Hum!

Just after Han Fei said this, the falcon suddenly accelerated, their speed soaring by more than 30%.

Luo Xiaobai said in surprise, "How can it still speed up?"

Le Renkuang exclaimed, "Does this bird know that it is going to die? It's giving a final push!"

Jiang Qin was also taken aback, but she immediately shouted, "Since it can accelerate, make it fly higher."

Han Fei smiled and said, "It's not dangerous yet..."

Suddenly, Han Fei felt that some bone jars began to tremble slightly.

He immediately shouted, "Sister Qin, we'll be safe once we get to the underground city, right?"

Tweet!

The golden hawk said, "You're not going to run away. The little falcon can't last long."

Han Fei responded, "I don't need it to last long. Dare you follow us into the city?"

After another half an hour, Han Fei and the others could vaguely see a giant city floating in the air more than 500 meters away.

Zhang Xuanyu exclaimed, "A floating island?"

Including Jiang Qin and Han Fei, everyone was stunned. Why is there a floating island here?

Suddenly, Jiang Qin shouted, "No, the floating island can't be so small. How can it be so small given that it's called a city? It's not even as big as the Heavenly Water Village."

Luo Xiaobai and Han Fei said at the same time, "This entire space is a floating island."

Han Fei immediately said, "The forests, grasslands, rivers, mountains, and Bone Jar Plain we walked through... Are actually all on the floating island. However, for some reason, this place has fallen, and only this small part of it stays in the air."

Buzz...

A few dozen kilometers away, the green dragon roared, "Go to hell, all of you!"

Han Fei responded, "Shut up! Follow us if you have the guts!"

On the floating island, they saw a tangible barrier, which was like a blue light.

The falcon glided around the floating island, and soon, their eyes lit up. They saw an archway with two words written on it: "Sky City".

Jiang Qin shouted, "There is a square full of cracks! Let's check it out."

The falcon sprinted. However, with a bang, Han Fei and the others flew up and fell onto a platform. The falcon couldn't get in at all. It was blocked outside by the barrier.

Han Fei frowned when he saw that the green dragon and the golden hawk were approaching.

Han Fei said to the falcon, "I really wanted to let you go, but if I let you go now, you will die. So I can only help you to be reborn! Maybe we can become great partners in the future... Collect!"

Chapter 929: Bone Yard

Han Fei had no guilt for collecting the Sky Swimming Falcon. After all, he was almost killed by this bird.

If he hadn't worn the Feather Suit of Wind, he would have been seriously injured.

Seeing the falcon suddenly disappear, Zhang Xuanyu and the others looked at Han Fei with weird expressions. "Dead again?"

They still remembered that the Wolf of Playfulness disappeared like this too. They were really surprised. How many secret skills did Han Fei have that they didn't know about?

But Jiang Qin was only slightly surprised, and didn't pay too much attention.

The green dragon and the golden hawk also wanted to come in. After all, Han Fei and the others were so close now, they wanted to have a try too.

However, as soon as these two beasts were ten kilometers away, a shocking knife light smashed through the void.

Everyone quickly raised their heads, only to see a dry corpse standing in the archway.

The corpse was burning with soul power, soul flames were beating in his eyes, and the weapon glinted with a cold light in his hands.

"Intruders, die."

The knife slashed out and shattered the void, and the dragon and the hawk were seriously injured and shed blood in the sky.

They quickly fled, bleeding along the way, which stunned Han Fei and the others. They felt a chill down their spines.

How strong was this person?

Luo Xiaobai glanced at Han Fei. "It's him."

Han Fei nodded slightly. Wasn't this corpse the strong master he met in the tunnel of corpses? All of his power came from his soul. It seemed that the souls of the entire tunnel were absorbed by him.

At this moment, the corpse looked at Han Fei. "Here, it is dangerous."

Han Fei bowed to him and said, "Senior, have you recovered?"

The corpse shook his head stiffly. "Once you enter the city, no one can help you."

Han Fei asked in surprise, "Senior, may I ask where the Bone Yard is?"

This person's eyes were burning with flames. "This is the Bone Yard."

Han Fei immediately took a breath. *Here? The Sky City is the Bone Yard?*

Jiang Qin looked at Han Fei. "Do you know each other?"

Han Fei nodded. "I met this senior on the ancient battlefield."

Jiang Qin said slowly, "It turns out that we don't need a Sea Token to enter the Bone Yard!"

With that said, Jiang Qin suddenly took out a Sea Token and threw it to Han Fei. "Take it!"

Han Fei: "???"

Jiang Qin explained, "If we don't need a Sea Token to enter the Bone Yard, then the Sea Token must be related to the Sea Quelling Painting. Take it, but then you'll bear more danger. I believe in you."

Han Fei was astonished. "Sister Qin, you've got a Sea Token too?"

Jiang Qin said, "Not only me, but many people have one, including Chu Linyuan and Wang Dashuai. Unfortunately, we are separated from them. But it doesn't matter. You just need to remember that you must get the Sea Quelling Painting."

Han Fei gasped in surprise. "Me?"

Jiang Qin nodded. "Yes, only you. In the entire Thug Academy, you alone have this opportunity."

Han Fei was surprised. "Why?"

Jiang Qin shook her head. "Because of luck. Only those who are lucky can acquire this chance."

"Luck?"

Han Fei frowned. He remembered Old Han once said he had good luck. Was it because of this that he bet on him?

Han Fei said, "Doesn't that mean that other people who have the Sea Token also have luck?"

Jiang Qin nodded. "Yes... For example, the Cao Family's luck doesn't lie in Cao Tian, nor Cao Jiaren, but Cao Qiu. Yue Shier from the Emyrean Waterfall has great luck. Many strong masters of the big clans in the Thousand Star City even forcibly change their children's luck. But you are different. You are exceptionally lucky. This is what Grandpa said."

Han Fei sighed. *What the hell? It's a matter of luck to get the painting? That's a bit absurd!*

Zhang Xuanyu patted Han Fei on the shoulder and said, "Feifei! Although I don't quite understand it, you are indeed lucky."

Le Renkuang nodded hard. "This can be seen from the Wind God Pearl."

Luo Xiaobai looked at Jiang Qin. "Senior Sister, if a person who doesn't have this luck forcibly takes a Sea Token, will they die?"

Jiang Qin nodded slightly. "Very likely..."

Luo Xiaobai nodded and said, "Then what can we do in the Bone Yard? Or, how can we help?"

Jiang Qin thought for a while. "There is no way we can help... But since you can enter the Sky City, at least there will be some opportunities. But, what is an opportunity? No one knows. It may be dangerous inside and we may die, but this is the path of the strong, paved with bones and blood..."

Le Renkuang sighed. "Well, then we'll just look for our own opportunities instead of scrambling for the painting."

Jiang Qin looked into the distance. "We must be the first to arrive..."

Before she finished speaking, the corpse suddenly said, "Are you sure? Someone else has entered..."

Jiang Qin's face changed slightly. *Is there anyone faster than us?*

Han Fei immediately asked, "Senior, is it a young man dressed in white who runs very fast?"

The strong nodded slightly. "Yes!"

Luo Xiaobai said, "Ye Baiyu?"

Han Fei nodded. "Except for him, I can't think of another person who could have gotten here so quickly."

Jiang Qin frowned slightly. "OK, let's enter the city."

Han Fei took a breath. Yes, Ye Baiyu had already entered. They couldn't delay any longer.

In any case, the Sea Quelling Painting could decide who would become the king. The Thug Academy wanted it, Old Han wanted it, and the entire Thousand Star City wanted it. He had no reason to give it up!

Since both Old Han and the Thug Academy bet on him, he couldn't let them down!

Han Fei immediately took a breath. "Let's go!"

Han Fei looked up at the strong master. He wondered why this person appeared here and guarded the city. Maybe there was some secret to it? But he had no time to think about it now.

The spiritual barrier rippled like water, and Han Fei took the lead to step into it.

The scene immediately changed.

From the outside, it was a normal city. But when they came in, what they saw was corpses littered on the ground and dilapidated houses.

There was only one road.

At the end of the road, there were ten thousand steps leading up to the sky. At the top, there seemed to be a temple.

Han Fei asked, "Sister Qin, there is only one road! And why so many steps..."

Suddenly, Han Fei looked back only to find that he was alone and there was no other person here.

Jiang Qin, Luo Xiaobai, Zhang Xuanyu, and Le Renkuang had all disappeared.

Han Fei's pupils shrank. They came in together, so why was he alone here? Was this the so-called opportunity? He came here to contend for the painting, but they were here for their own opportunities!

Hum!

He just had to walk up these steps! It wasn't the first time for him.

Han Fei tried to use his perception and found that his perception disappeared.

He tried to summon Little Black and Little White. Fortunately, they both responded.

Han Fei suddenly remembered that he hadn't seen what changes Little Black and Little White had after their breakthrough. So he hurriedly checked them out.

Then his eyes widened. In his eyes, information emerged.

Spiritual Beast.

<Name> Twin Yin-Yang Spirit Swallowing Fish

<Introduction> They're the descendants of the mysterious primitive Yin-Yang Sky-Swallowing Fish. The black and white fish accompany each other. The white fish is docile, whereas the black one is cruel. They are symbiotic. As long as one lives, the other won't die.

<Level> Level-50

<Quality> Mysterious

<Storage Reiki> 10 million points

<Food> Omnivorous. They can swallow anything.

<Combat Skills> Supreme Yin Yang Wheel, Spirit Swallowing Body, Combination

<Note> The black fish is not visible. Except for the owner, only people with naturally-born Yin-Yang Divine Eyes can see it.

<Contains Soul Power> 2,602 points

Han Fei was stunned. *What does this "combination" mean?*

"Huh! What's the difference between fusion and combination? Is there a big difference between the two?"

"Daddy..."

Little White was like a fish elf with shining scales on her body, and she kissed Han Fei affectionately on the cheek.

Han Fei couldn't help laughing. "My baby girl can finally speak. That's great.. Hey! Little Black, say something."

Little Black fell on Han Fei's left shoulder, looking a little lazy, and said stiffly, "Dad... Dad..."

“Hahaha! Good boy, you did a good job just now.”

Han Fei was pleasantly surprised, but now was not the time to chat. He asked, “Girl, do you know what will happen after you use combination?”

Little White shook her head, and when Han Fei looked at Little Black, he shook his head too.

Han Fei didn’t mind it. Anyway, it had to be a powerful ability. Although he didn’t plan to try it here, he could guess what it was about.

Fusion meant that Little Black and Little White attached to him and gave him some of their abilities.

Combination, as the name suggested, had to be a deeper integration. Either he would gain more of their abilities, or... He would become something different.

Maybe a fish, or another species. In any case, it could do good for him.

Crack~

Suddenly, there was a small noise. Han Fei frowned and looked around, only to find that the bones on the ground were shaking and some bones were gathering.

“Oh! What is this?”

Chapter 930: Ren Tianfei?

On the road, all the bones were aggregating.

In the distance, there were already bones slowly swaying to their feet.

Han Fei immediately put away Little Black and Little White, ran past the bones, and ran towards the front steps. *It doesn’t make sense. Can these bones also climb stairs?*

The road seemed to be only more than 20 kilometers long, but as Han Fei started to step out, the bones were gathering faster and faster. In the blink of an eye, there were hundreds of bones blocking his path.

Han Fei was not afraid and punched out. Hundreds of skeletons shattered again in an instant.

“Huh! So weak? With such little strength, how dare you stand in my way?”

Han Fei smiled. If this was all the danger in the Bone Yard, that would be ridiculous!

Therefore, Han Fei judged that the real danger was definitely not these skeletons.

However, this idea only existed for about two minutes because at the forefront, tens of thousands of skeletons were gathering and gradually became a huge skeleton creature.

The upper part above its chest alone was already more than 20 meters high. In his eyes, large tracts of faint blue soul fire were gathering.

Heh! I knew it wouldn’t be that simple! If there was no serious danger, how could it be called the Bone Yard?

Without its lower half appearing, the big skeleton clapped his big hands and rushed towards Han Fei. As he clapped his hands, tens of thousands of skeletons followed him.

“Just because you are big doesn’t mean you’re invincible!”

Boom...

The Art of Invincibility was activated, and Han Fei punched around, like a bright sun piercing the dark clouds, bringing light to the world!

In mid-air, the bone tide was shattered, splashing everywhere. The huge skeleton was smashed by Han Fei’s fists. However, the bones seemed to be endless and gathered again.

The strength of this big skeleton was slowly increasing. Just now, it was only at the level of a junior Hidden Fisher, but now it was already an advanced one, and its power was rising by the minute.

“OK, I quit this game. I’m going to climb the stairs now.”

As soon as the Phantom Glass Wings spread, Han Fei flew in the air with a swish.

But at this moment, the scene changed again and the bones converged into a tornado, blocking in front of Han Fei.

There was only one road, and Han Fei had to pass it.

“Overlord Technique!”

With the Art of Invincibility, Han Fei was afraid of nothing! Even if he couldn’t beat this big skeleton, he wouldn’t flinch.

Anyway, this road was only 20 kilometers long. Han Fei rushed into the storm, absorbing the wind with the Phantom Glass Wings, and blasting one hole after another in the tornado.

Han Fei suddenly felt a tingling in his brain, and his soul seemed to be attacked.

How dare you ownerless souls attack me? You’re exactly what I need now.

Han Fei forcibly disentangled some soul fire from his soul, surrounded his body with it, and shouted, “Soul Gathering!”

Immediately, a large swarm of souls flocked to the soul fire. In a moment, the soul fire suddenly grew several times bigger. And in Han Fei’s soul perception, various messy images appeared.

Almost for an instant, Han Fei seemed to feel the lives of many people, and he was almost lost.

*Sh*t, these ownerless souls are so impure!*

However, at this moment, the Demon Purification Pot shook slightly, and a large amount of impurities were removed, which made Han Fei feel much better.

Han Fei was shocked. Does the Demon Purification Pot have this function? And then he was wondering how Ye Baiyu survived these ownerless souls. Did he have some special treasure to protect his soul?

Dragged by the soul fire, the ownerless souls turned into a small soul fire storm.

Han Fei took the opportunity to blast through the bone tornado and ran out. Behind him, three masses of soul fire followed, leading three long ribbons of ownerless souls behind.

“It’s so ridiculous, isn’t it? I haven’t climbed the steps yet, but it’s already so dangerous!”

Han Fei hooked his soul fire with the Void Lines and quickly ran to the front of the steps. Then he found that on the first step, there was a person sitting... Oh no, to be precise, a corpse sitting.

The skeleton tornado behind him had stopped chasing him, and the ownerless souls also calmed down. The Demon Purification Pot oscillated slightly, slowly removing the impurities from the three masses of soul fire.

Han Fei picked up an energy fruit and stuffed it into his mouth, looking at the corpse.

“Why are you sitting here? To block the way?”

However, what made Han Fei somewhat depressed was that the person sitting on the first step looked a bit familiar.

Different from the corpses he had seen, this person was not dry. It seems that his soul was gone, and his complexion was a little yellow. Besides, the clothes on this person didn’t look ancient.

Huh! Is he one of the people who came last time?

The Sea Quelling Painting appeared only 300 years ago. This guy was probably one of the people who came here to look for it.

At this point, the skeleton had disappeared as if what he experienced just now was just a test. The Demon Purification Pot filtered these ownerless souls, which were then collected by Han Fei.

Seeing that there was no danger and the skeleton didn’t seem to want to move anytime soon, Han Fei wanted to take the time to synthesize his fourth contractual spiritual beast.

This time, he had caught only legendary creatures.

The five legendary creatures were the Ghost Eel, Tree Lobster, Ghost Water Poisonous Frog, Wolf of Playfulness, and Sky Swimming Falcon. If they were synthesized, he would probably get something very powerful!

“Synthesize!”

After waiting for a long time, Han Fei found that the Demon Purification Pot didn’t move at all.

Huh? It can’t be! Is it because there are more than three? But why could I put them into the Demon Purification Pot?

“Synthesize.”

Still no response.

Han Fei frowned. *Then why should I catch these things?*

Han Fei couldn’t help sighing. He was really disappointed.

At this moment, Han Fei saw the vine leaves of the Demon Purification Pot moving. However, they stopped immediately.

“Huh! Wait a minute... Continue to synthesize.”

Han Fei noticed that the vine leaves moved again. Han Fei’s eyes narrowed slightly. Could it be related to the vine leaves?

The Demon Purification Pot now had only two vines. And he had three contractual spiritual beasts. Did it limit the number of his contractual spiritual beasts?

Han Fei pondered. There is a vine on the Leafless Tree. I’ll see if I can synthesize a new contractual spiritual beast after getting that vine.

After the series of battles, his power had completely exceeded 7 million kilograms, and was going to reach 8 million, but it was still not enough.

It only showed that he made breakthroughs too fast before.

Holding the Blood-Drinking Knife in his hand, Han Fei slowly walked towards the skeleton. At the same time, looking up at the steps, he didn’t find Ye Baiyu’s figure, so he was very puzzled.

When Han Fei was 10 meters away from this person, his eyes suddenly narrowed. He rubbed his eyes. *What? Is that... Ren Tianfei?*

Han Fei’s eyes almost popped out.

The last time he saw Ren Tianfei, he was such a mess. But now, the one he saw had a resolute look and an upright sitting posture, with his hands resting on his knees seemingly casually, but it felt completely different. He looked quite dignified!

Han Fei frowned. *Is Ren Tianfei already dead?*

Han Fei wasn’t so sure. This “Ren Tianfei” he saw the last time was actually just two drops of his blood essence. It didn’t mean this old guy was still alive.

“Old Ren... Old Fool...”

Ren Tianfei didn’t respond, sitting there like a sculpture.

Han Fei stepped forward and stopped in front of Ren Tianfei, but he still didn’t respond. So Han Fei extended a finger and poked him only to find that the body was so hard that it really felt like a stone.

Han Fei blinked. “You don’t even have a weapon or a battle suit. Old fellow, are you fake?”

Han Fei calculated the timing. Ren Tianfei only made 99 Sea Tokens, and the painting was left here more than 30 years ago.

But what if Old Han lied? The Sea Quelling Painting was already here over 300 years ago, or Ren Tianfei had also joined in the war more than 30 years ago.

Looking at the corpse for a long time, Han Fei got bolder. He sat beside Ren Tianfei and put a hand on his shoulder. "Hey, you couldn't have died! I still have the map you gave me! I still want to loot the Zhang Family in the Thousand Star City together with you!"

However, Ren Tianfei's body gave no response at all, so Han Fei said leisurely, "Forget it, no matter if you died or not, I can still cultivate the third level of the Indestructible Body Art. Perhaps there will be a fourth, fifth, or sixth level... Oh, your body feels so hard. You must be a dummy. I'm going to climb the stairs."

Han Fei suddenly became more confident.

Since Ren Tianfei was guarding here, he, the heir to the Indestructible Body, should be able to take everything here, right?

At least, he was the most qualified one!

With this in mind, Han Fei suddenly got up, ignored the corpse, and walked onto the first step.

However, as soon as he set his foot on it, Han Fei... Disappeared.

And the finger of Ren Tianfei, who had been motionless, suddenly twitched slightly.
